

1

00:00:00,639 --> 00:00:19,640

Music

2

00:00:19,640 --> 00:00:22,640

August 3, 2010.

3

00:00:22,640 --> 00:00:27,640

A UFO sighting in the skies over Whiteman Air Force Base, Missouri.

4

00:00:27,640 --> 00:00:33,640

A father of two goes to investigate a UFO sighting by his son.

5

00:00:33,640 --> 00:00:37,641

He and his older son went and camped out on the side of the hill.

6

00:00:37,641 --> 00:00:43,641

They had a wide open sky and a view of the town and Whiteman Air Force Base.

7

00:00:43,641 --> 00:00:48,641

And what they noticed was two military jets, looks like they're about to land,

8

00:00:48,641 --> 00:00:53,641

but instead of landing, they circle around the base like they're searching or chasing something.

9

00:00:54,641 --> 00:00:58,641

And then a dark triangular shape appeared in the sky.

10

00:00:58,641 --> 00:01:04,642

And the father reported that it had three pale orange lights running around the perimeter.

11

00:01:09,642 --> 00:01:13,642

The father reported that the craft made absolutely no noise.

12

00:01:13,642 --> 00:01:18,642

The military jets appear to pursue the UFO.

13

00:01:19,642 --> 00:01:23,642

Suddenly the two military planes accelerate like they've locked on trajectory of the object

14

00:01:23,642 --> 00:01:26,643

and they start to pursue it.

15

00:01:26,643 --> 00:01:30,643

As they approach it, the triangle shaped craft disappears.

16

00:01:32,643 --> 00:01:38,643

As soon as the UFO disappeared, the father and son called friends and family to see if they saw it also.

17

00:01:38,643 --> 00:01:43,643

The girlfriend had seen the exact same craft above the trees.

18

00:01:43,643 --> 00:01:48,644

She described it exactly as they saw it without any prompting.

19

00:01:51,644 --> 00:01:55,644

And then more and more people went up the hill to get a clear view of the UFO.

20

00:01:56,644 --> 00:02:00,644

Suddenly they see this UFO again and this time it's a little different

21

00:02:00,644 --> 00:02:03,644

because the triangle is now pursuing the fighter jet.

22

00:02:03,644 --> 00:02:06,644

Helicopters are dispatched and they start hovering above the base.

23

00:02:07,644 --> 00:02:12,645

So the father notices that all commercial air traffic has been coming and going all night

24

00:02:12,645 --> 00:02:14,645

except for this time it completely stops.

25

00:02:14,645 --> 00:02:17,645

About 2.30 a.m. the UFO takes off.

26

00:02:17,645 --> 00:02:20,645

And that seems like it was going to be the end of it.

27

00:02:31,645 --> 00:02:35,646

According to Mufan Files, this is just one of over a thousand

28

00:02:35,646 --> 00:02:40,646

sightings since January 2011 in the state of Missouri.

29

00:02:40,646 --> 00:02:47,646

This location currently has the highest concentration of UFO activity in the country.

30

00:02:50,646 --> 00:02:54,646

In the state of Missouri, the volume of reports is astounding.

31

00:02:54,646 --> 00:02:58,646

We've literally seen thousands of sighting reports and hundreds of investigations.

32

00:02:58,646 --> 00:03:03,647

Seeing bright lights in the sky, brilliant orbs, as well as massive triangular craft

33

00:03:03,647 --> 00:03:06,647

flying over the countryside and over the highway.

34

00:03:11,647 --> 00:03:15,647

Recurring sightings like these are known as hotspots.

35

00:03:16,647 --> 00:03:21,647

Since the 1940s there have been similar waves all across America.

36

00:03:24,648 --> 00:03:29,648

Why do some regions report more UFOs than others?

37

00:03:30,648 --> 00:03:33,648

Is there something attracting them?

38

00:03:35,648 --> 00:03:40,648

Mufan opens their files to answer these questions right now.

39

00:03:42,648 --> 00:03:50,649

The Mutual UFO Network, known as Mufan, is an independent organization not bound to any government.

40

00:03:50,649 --> 00:03:55,649

They investigate reports of UFO sightings from around the world.

41

00:03:55,649 --> 00:04:00,649

Over the past five decades, they have collected more than 70,000 files

42

00:04:00,649 --> 00:04:04,649

stored at a secure location known as Hangar One.

43

00:04:04,649 --> 00:04:11,650

Now, for the first time, Mufan is granting access to their fast archive.

44

00:04:11,650 --> 00:04:14,650

These are the files of Hangar One.

45

00:04:26,650 --> 00:04:32,650

There are many states across the U.S. that report a high volume of UFO sightings.

46

00:04:32,650 --> 00:04:38,651

Missouri, New York, Colorado and California are just a few.

47

00:04:38,651 --> 00:04:44,651

These areas of unusually high UFO activity are defined as hotspots.

48

00:04:48,651 --> 00:04:52,651

A hotspot is a place where you can see the world's most beautiful,

49

00:04:53,651 --> 00:04:58,652

a hotspot is an area where a concentration of UFOs are seen.

50

00:04:58,652 --> 00:05:03,652

And sometimes they're reported as mass waves or what we'd like to call flaps.

51

00:05:04,652 --> 00:05:11,652

Is it possible to determine why UFOs are attracted to some areas more than others?

52

00:05:11,652 --> 00:05:14,652

We focus on these flaps because they're very important.

53

00:05:14,652 --> 00:05:18,652

Normally it's multiple witnesses seeing the same object from different sites.

54

00:05:18,652 --> 00:05:21,652

That allows us to triangulate and find out exactly where the object was,

55

00:05:21,652 --> 00:05:26,653

how big the object was, the kind of movements it made and compare all this data.

56

00:05:26,653 --> 00:05:31,653

I think when you've seen enough of these cases, there's some very, very extraordinary things going on.

57

00:05:31,653 --> 00:05:36,653

A UFO flap in Missouri is a place where you can see the world's most beautiful,

58

00:05:36,653 --> 00:05:39,653

there's some very, very extraordinary things going on.

59

00:05:39,653 --> 00:05:44,653

A UFO flap in Missouri is the focus of a current investigation.

60

00:05:52,654 --> 00:05:55,654

Debbie Siegelmeier is our state director for Missouri

61

00:05:55,654 --> 00:05:58,654

and Margie Kayes is a field investigator that works with her.

62

00:05:58,654 --> 00:06:01,654

They have over 40 years of experience between them

63

00:06:01,654 --> 00:06:05,654

and are on the front lines of this flap that's been happening in Missouri.

64

00:06:05,654 --> 00:06:11,655

Mufon investigator Margie Kaye is contacted about a new UFO sighting.

65

00:06:13,655 --> 00:06:18,655

Margie received a call from an off-duty police officer who saw a glowing sphere over his home

66

00:06:18,655 --> 00:06:21,655

and decided to step out to take a closer look.

67

00:06:22,655 --> 00:06:29,655

What he saw amazed him, a 60-foot glowing sphere hovering less than 100 feet above his house.

68

00:06:30,655 --> 00:06:33,655

He told Margie that he was paralyzed with fear.

69

00:06:33,655 --> 00:06:35,656

He couldn't even think to get his gun.

70

00:06:37,656 --> 00:06:39,656

And then the craft just vanished.

71

00:06:40,656 --> 00:06:46,656

Three days later, a professor who has to remain anonymous saw the same craft just one county over.

72

00:06:47,656 --> 00:06:51,656

Other reports continue to flood in from the Blue Springs area.

73

00:06:53,656 --> 00:06:59,657

Blue Springs is in the Kansas City area and they're getting multiple reports of blue orbs being seen over the neighborhoods.

74

00:06:59,657 --> 00:07:04,657

The multiple sightings become known as the Lights of Blue Springs.

75

00:07:07,657 --> 00:07:14,657

Attempting to capture the UFOs on film, Margie Kaye and the local news team venture out to investigate.

76

00:07:15,657 --> 00:07:19,657

And during their search, the mysterious lights reappear.

77

00:07:20,657 --> 00:07:26,658

So Margie and the news team saw these same blue lights hover, then jet away at an incredible speed and return a few seconds later.

78

00:07:27,658 --> 00:07:33,658

In fact, the camera operator of a TV station refused to go back to work to do more filming because she was terrified.

79

00:07:35,658 --> 00:07:39,658

We haven't seen a flap like this in Missouri since the 1970s.

80

00:07:39,658 --> 00:07:46,659

Mufon investigators evaluate each sighting using a rating system designed specifically for UFO encounters.

81

00:07:47,659 --> 00:07:52,659

Jacques Vallée created the Valley Rating System for UFO Sighting Reports, which we use today at Mufon.

82

00:07:54,659 --> 00:07:58,659

We put the system in the air and it was a very difficult process.

83

00:07:59,659 --> 00:08:04,659

The Mufon investigators have been working on the Mufon system for a long time.

84

00:08:04,659 --> 00:08:07,659

We have been working on the Mufon system for a long time.

85

00:08:08,659 --> 00:08:10,660

We put this in this two-dimensional matrix.

86

00:08:11,660 --> 00:08:19,660

Then each one is given a rating from one to five and that tends to be how close it is, whether or not there was trace evidence left, or whether a being was encountered.

87

00:08:20,660 --> 00:08:25,660

So a CE3 would be an encounter, close encounter with a craft where a being is actually seen.

88

00:08:26,660 --> 00:08:29,660

So you know, three close encounters of the third kind, that's what they're talking about.

89

00:08:29,660 --> 00:08:38,661

So this is used today to allow us to really understand our cases and what's significant about them, and also to categorize them for further research.

90

00:08:39,661 --> 00:08:51,661

As UFO sightings in the lights of Blue Springs flap continue, Mufon digs deeper, attempting to answer the question, why Missouri?

91

00:08:52,661 --> 00:08:58,662

Could the answer lie in another UFO hotspot that occurred halfway across the country?

92

00:09:00,662 --> 00:09:06,662

During a famous series of sightings in New York State's Hudson Valley.

93

00:09:09,662 --> 00:09:14,662

Over a five-year period, there were more than 5,000 sighting reports over the Hudson Valley.

94

00:09:15,662 --> 00:09:23,663

One guy described a gigantic chip that had like 40 to 50 lights under its underbelly, and he described it as a gigantic floating city.

95

00:09:24,663 --> 00:09:29,663

Is America being visited by more UFOs than we ever imagined?

96

00:09:30,663 --> 00:09:34,663

How many hotspots are there across the United States?

97

00:09:35,663 --> 00:09:38,663

And what can the files in Hangar One reveal?

98

00:09:39,663 --> 00:09:41,663

The answers when we return.

99

00:09:42,663 --> 00:10:03,664

Inside Hangar One, Mufon is investigating their 70,000 files, trying to uncover patterns that may explain America's UFO hotspots.

100

00:10:04,664 --> 00:10:14,665

While the state of Missouri is currently home to the highest concentration of UFO sightings in the country, including the ongoing lights of Blue Springs flap,

101

00:10:15,665 --> 00:10:23,665

another UFO hotspot occurs 100 miles north of New York City, and lasts over five years.

102

00:10:26,665 --> 00:10:31,665

Is it possible the events in Missouri and New York are connected?

103

00:10:34,666 --> 00:10:42,666

December 31st, 1982, Hudson Valley, New York.

104

00:10:43,666 --> 00:10:46,666

The Hudson Valley Flaps started on New Year's Eve, 1982.

105

00:10:47,666 --> 00:10:53,666

A retired New York police officer from Kent, New York is sitting on his porch and he sees a group of lights.

106

00:10:57,667 --> 00:11:00,667

They're pole setting different colors, red, green, blue.

107

00:11:01,667 --> 00:11:07,667

He thought it was an airplane, but as they approached, he realized it was moving too slow to be a traditional airplane.

108

00:11:08,667 --> 00:11:16,667

So he looks up and he sees this giant V-shaped craft that has all these lights pole setting under it, but he wasn't able to make out the fuselage.

109

00:11:18,667 --> 00:11:28,668

Over the next few months, hundreds of witnesses claim to have similar sightings, culminating on March 24th, 1983.

110

00:11:31,668 --> 00:11:37,668

Hundreds of people pulled off to the side of the road, slammed on their brakes, got out of the car and looked up at this craft.

111

00:11:38,668 --> 00:11:46,669

One guy described a gigantic chip that had like 40 to 50 lights under its underbelly, and he described it as a gigantic floating city.

112

00:11:48,669 --> 00:11:51,669

A local newspaper reports the UFO sighting.

113

00:11:52,669 --> 00:11:58,669

On March 26th, an article appeared in a local paper, and that's caught the attention of some UFO researchers, including Dr. J. Allen Heineck.

114

00:11:59,669 --> 00:12:06,669

For 22 years, Dr. Heineck served as a scientific consultant for the U.S. Air Force's investigation

into UFOs, called Project Blue Book.

115

00:12:08,670 --> 00:12:15,670

Heineck's team opened a UFO hotline in the Hudson Valley area, and they received more than 300 calls related to the March 24th sighting.

116

00:12:16,670 --> 00:12:23,670

And these events continue, leading to one of the longest lasting UFO flaps on record.

117

00:12:23,670 --> 00:12:28,670

Over a five-year period, there were more than 5,000 sighting reports over the Hudson Valley.

118

00:12:29,670 --> 00:12:33,671

Many wonder what might be attracting these UFOs.

119

00:12:34,671 --> 00:12:41,671

MUFON investigators believe one possibility could be the nearby Indian Point Nuclear Power Plant.

120

00:12:42,671 --> 00:12:46,671

50 miles north of New York City is Buchanan, home of the Indian Point Nuclear Power Plant.

121

00:12:47,671 --> 00:12:50,671

Its three reactors generate 30% of New York City's power.

122

00:12:53,671 --> 00:13:02,672

On July 14th, 1984, security guards at a nuclear power plant reported a UFO in restricted airspace over a nuclear reactor labeled number three.

123

00:13:06,672 --> 00:13:08,672

It was the only working nuclear reactor at the time.

124

00:13:08,672 --> 00:13:27,673

The craft was so large that one of the 12 security guards at the nuclear power plant said, quote, unquote, this craft was so gigantic, he had to pan the camera 180 degrees just to get the entire craft in frame.

125

00:13:27,673 --> 00:13:39,673

The big concern is this object is approaching the only working nuclear reactor, and the guys on the ground couldn't figure out what its intentions were.

126

00:13:40,673 --> 00:13:49,674

This giant boomerang-shaped craft is parked right above the reactor, and one of the guards grabs

his weapon and starts to point at it.

127

00:13:50,674 --> 00:13:57,674

When he does, all the alarms in the facility go off, everything goes haywire, and a massive panic ensues.

128

00:14:13,675 --> 00:14:16,675

Everything inside goes offline.

129

00:14:17,675 --> 00:14:21,675

As soon as the plant called in military assistance, the UFO disappeared.

130

00:14:22,675 --> 00:14:29,675

Ever since the alleged encounter, Indian Point appears to have problems with reactor number three.

131

00:14:30,676 --> 00:14:32,676

But this may not be an isolated incident.

132

00:14:33,676 --> 00:14:42,676

In fact, Hanger 1 file suggests that many nuclear power plants across the United States have experienced similar events.

133

00:14:43,676 --> 00:14:49,676

Could these power plants all be located in areas known as hotspots?

134

00:14:50,676 --> 00:14:57,677

Currently, there are 65 active nuclear power plants in the United States with 104 reactors across 31 states.

135

00:14:58,677 --> 00:15:03,677

And nearly every one of these plants across the United States has experienced a UFO encounter.

136

00:15:04,677 --> 00:15:11,677

It's very possible that the energy generated by these plants acts as a beacon in space.

137

00:15:13,677 --> 00:15:22,678

And in fact, Hanger 1 files also suggest that the CIA has studied this connection between UFOs and nuclear power.

138

00:15:23,678 --> 00:15:31,678

In the 1940s and 1950s, the CIA did several studies that showed that UFOs were most commonly seen over atomic energy installations.

139

00:15:33,678 --> 00:15:36,678

I think there are two reasons why UFOs are over nuclear plants.

140

00:15:37,678 --> 00:15:44,679

One, either they're testing to see at what stage we're at, and two, they may occasionally need to recharge.

141

00:15:45,679 --> 00:15:47,679

They need the energy and they take it.

142

00:15:48,679 --> 00:15:55,679

Nuclear power plants appear to be a significant factor that may explain UFO activity in some hotspots.

143

00:15:56,679 --> 00:15:59,679

But does this apply to every UFO hotspot in the United States?

144

00:15:59,679 --> 00:16:07,680

Sometimes UFO flaps don't make sense until we step back and look at the bigger picture, maybe across several states, over a longer time period.

145

00:16:08,680 --> 00:16:10,680

And that's when the true picture tends to emerge.

146

00:16:11,680 --> 00:16:18,680

The files suggest that nuclear power plants, like Indian Point in New York, are hotspots for UFO activity.

147

00:16:19,680 --> 00:16:23,680

But these aren't the only locations attracting UFOs.

148

00:16:23,680 --> 00:16:35,681

Mufan reveals that many UFO sightings also occur near military installations, specifically those with nuclear weapons.

149

00:16:41,681 --> 00:16:51,681

October 23, 2010, Warren Air Force Base in Cheyenne, Wyoming is reported to experience a near disastrous event.

150

00:16:52,681 --> 00:16:58,682

On this particular evening, a number of on-duty Air Force personnel spotted a huge cigar-shaped craft over the base.

151

00:16:59,682 --> 00:17:02,682

They were completely perplexed as to what it could be.

152

00:17:03,682 --> 00:17:09,682

And during this incident, Warren Air Force Base suffered one of the most dramatic missile communication malfunctions ever.

153

00:17:11,682 --> 00:17:18,683

The computers controlling the launch control mechanism within the nuclear silos, five of those computers went offline.

154

00:17:18,683 --> 00:17:22,683

And that rippled through the system and eventually 50 missiles went offline.

155

00:17:27,683 --> 00:17:36,683

There are approximately 450 ICBMs in America's nuclear arsenal, some with multiple warheads.

156

00:17:37,683 --> 00:17:47,684

Roughly 150 of those missiles are located at Warren Air Force Base, making it one of the largest nuclear missile bases.

157

00:17:49,684 --> 00:17:52,684

At this point, the base had to go launch facility down.

158

00:17:53,684 --> 00:18:01,684

We lost control of over 50 of our nuclear missiles, with launch systems being completely inoperative, which is a terrifying situation.

159

00:18:03,684 --> 00:18:08,685

One military officer reported that they had never experienced anything like this before.

160

00:18:09,685 --> 00:18:10,685

He said, quote,

161

00:18:18,685 --> 00:18:30,686

According to reports, President Obama is briefed that one ninth of the United States nuclear arsenal has been mysteriously disabled.

162

00:18:31,686 --> 00:18:34,686

If we don't have control of those missiles, who does?

163

00:18:35,686 --> 00:18:43,686

The Air Force officially states that the disruption is caused by a computer malfunction and is corrected in less than an hour.

164

00:18:43,686 --> 00:18:54,687

However, Mufon's investigation suggests that this statement may not disclose everything that occurred that day.

165

00:18:57,687 --> 00:19:06,687

Two missile technicians came to Mufon anonymously and reported these objects being seen over the base before and during the actual missile shutdown.

166

00:19:07,687 --> 00:19:19,688

They revealed that a massive power failure caused those missiles to go offline, and it didn't take hours. It took days to get it back up and running due to some strange electrical interference.

167

00:19:20,688 --> 00:19:25,688

The technicians felt that it is possible that the missiles were remotely targeted.

168

00:19:26,688 --> 00:19:31,688

So there are two schools of thought here. One is that this is an accidental shutdown because of an encounter with a UFO.

169

00:19:32,688 --> 00:19:35,688

The other is perhaps they deliberately intended to shut the base down.

170

00:19:37,688 --> 00:19:45,689

There have been numerous reports of UFO sightings in and around Warren Air Force Base over the years.

171

00:19:46,689 --> 00:19:51,689

In fact, Mufon files indicate that this base is not alone.

172

00:19:52,689 --> 00:19:58,689

Because reportedly, every nuclear missile base in the U.S. has been visited by UFOs.

173

00:19:59,689 --> 00:20:07,690

Is it possible that our nuclear warheads might be attracting UFO activity? And if so, why?

174

00:20:08,690 --> 00:20:17,690

From 2006 to the present, there have been a number of strikingly identical types of UFO sightings over many of American nuclear missile sites.

175

00:20:20,690 --> 00:20:25,690

UFO activity over nuclear military bases can actually be traced back to the 1950s.

176

00:20:25,690 --> 00:20:33,691

Captain Edward Ruppelt, the first chief of the Air Force's UFO Investigation Group, Project Blue Book, actually spoke and wrote about this.

177

00:20:34,691 --> 00:20:39,691

He stated, UFOs were seen more frequently around areas vital to the defense of the United States.

178

00:20:40,691 --> 00:20:46,691

The Los Alamos, Albuquerque area, Oak Ridge, and White Sands Proving Ground rated high.

179

00:20:47,691 --> 00:20:52,692

All of these locations are either directly or indirectly associated with America's Nuclear Weapons Program.

180

00:20:55,692 --> 00:21:01,692

Humanity's future is not supposed to be one in which we are armed to the teeth with nukes that can blow up the entire planet.

181

00:21:02,692 --> 00:21:07,692

That cannot be our future. Any intelligent observing species seeing us has to know the same thing.

182

00:21:11,692 --> 00:21:16,693

Hanger 1 files appear to uncover a distinct pattern of UFO hotspots.

183

00:21:17,693 --> 00:21:20,693

Sightings that occur near nuclear facilities.

184

00:21:20,693 --> 00:21:26,693

Indicating that nuclear energy and weapons may be major factors in attracting UFOs.

185

00:21:27,693 --> 00:21:33,693

But still, there are other hotspots across the country that have nothing to do with nuclear power.

186

00:21:34,693 --> 00:21:40,694

Los Angeles County sits right in the middle of the San Andreas Fault Zone and people report feeling tremors every year.

187

00:21:42,694 --> 00:21:47,694

LA is the third largest hotspot in the United States.

188

00:21:47,694 --> 00:21:51,694

This reported 5,000 UFO sightings to date.

189

00:21:52,694 --> 00:21:59,694

Could there be a hidden connection between the immense natural power of major fault lines and UFO sightings?

190

00:22:00,694 --> 00:22:04,695

Specifically in Colorado and California.

191

00:22:06,695 --> 00:22:12,695

The frightening connection between UFOs and earthquakes when we return.

192

00:22:18,695 --> 00:22:24,695

Throughout the United States, there are regions that experience more UFO activity than others.

193

00:22:25,695 --> 00:22:28,696

These active areas are called hotspots.

194

00:22:29,696 --> 00:22:37,696

An investigation into Hanger 1 files suggests there may be a connection between these hotspots and nuclear energy.

195

00:22:38,696 --> 00:22:42,696

Specifically at nuclear missile bases and power plants.

196

00:22:43,696 --> 00:22:48,696

But as MUFON digs deeper, another pattern begins to emerge.

197

00:22:49,696 --> 00:22:54,697

Suggesting that a very different type of energy may also attract UFOs.

198

00:23:01,697 --> 00:23:04,697

Denver, Colorado, November 2011.

199

00:23:05,697 --> 00:23:10,697

On November 11, 2011, an anonymous man sent a video to a local news station.

200

00:23:10,697 --> 00:23:16,698

And this man claimed that he had captured high quality video of a UFO that was appearing over downtown Denver.

201

00:23:16,698 --> 00:23:19,698

We first told you about these strange sightings in the mile high skies.

202

00:23:19,698 --> 00:23:24,698

After a Denver man who does not want to be identified brought us his home video.

203

00:23:24,698 --> 00:23:29,698

He claims that he saw this UFO multiple times a week and it always appeared around noon.

204

00:23:30,698 --> 00:23:35,698

His video seemed to show that a UFO was launching and landing somewhere in the city.

205

00:23:35,698 --> 00:23:41,699

It was displaying such astronomical movements that it defied gravity and physics.

206

00:23:45,699 --> 00:23:50,699

Denver's UFO activity may be related to another Colorado hotspot.

207

00:23:51,699 --> 00:23:55,699

50 miles south of Denver, in the San Luis Valley.

208

00:23:57,699 --> 00:24:01,699

A look at the geography provides one interesting theory.

209

00:24:02,700 --> 00:24:07,700

Could this region's natural magnetic energy be attracting UFOs?

210

00:24:09,700 --> 00:24:12,700

Deep within the Earth there are vast electrical currents.

211

00:24:12,700 --> 00:24:15,700

Electrical currents generate magnetic fields.

212

00:24:15,700 --> 00:24:22,700

So the Earth generates a huge magnetic field that's shaped sort of similar to a cord apple.

213

00:24:25,700 --> 00:24:29,701

The Aurora Borealis and its southern counterpart, the Aurora Australis,

214

00:24:29,701 --> 00:24:33,701

are visual confirmations of Earth's magnetic field.

215

00:24:34,701 --> 00:24:38,701

While the entire Earth generates electromagnetic energy fields,

216

00:24:38,701 --> 00:24:42,701

scientists have uncovered that this valley has its own unique signature,

217

00:24:42,701 --> 00:24:46,701

which creates giant variances in magnetic energy,

218

00:24:46,701 --> 00:24:50,702

from extreme positives in the high mountains to extreme negatives in the valley.

219

00:24:50,702 --> 00:24:53,702

And these characteristics are similar in Denver as well.

220

00:24:53,702 --> 00:24:58,702

The Earth's natural magnetic energy may be attracting UFOs,

221

00:24:58,702 --> 00:25:01,702

but could there be another factor?

222

00:25:01,702 --> 00:25:06,702

A major seismic fault line in Colorado may provide a clue.

223

00:25:08,702 --> 00:25:13,702

Colorado's San Luis Valley sits on the Rio Grande Rift, which is a significant fault line.

224

00:25:13,702 --> 00:25:17,703

It runs from central Colorado all the way down into Mexico.

225

00:25:19,703 --> 00:25:24,703

Nearly 400 UFO sightings were reported to us from Denver to Colorado Springs

226

00:25:24,703 --> 00:25:29,703

to the San Luis Valley leading up to August 23, 2011.

227

00:25:29,703 --> 00:25:35,703

And on that day, the Rio Grande Rift experienced a 5.3 earthquake,

228

00:25:35,703 --> 00:25:39,704

the largest earthquake in that area in 40 years.

229

00:25:41,704 --> 00:25:47,704

Could it be the tectonic tension in the Rio Grande Rift that is attracting these UFOs?

230

00:25:48,704 --> 00:25:54,704

Hangar 1 files reveal a pattern of activity connected to major fault lines,

231

00:25:54,704 --> 00:25:58,704

not only in Colorado, but across the country.

232

00:25:58,704 --> 00:26:02,705

There are four significant fault lines in the United States.

233

00:26:02,705 --> 00:26:07,705

California's San Andreas Fault, the Rio Grande Rift next to the San Luis Valley,

234

00:26:07,705 --> 00:26:10,705

the new Madrid Fault Line in southeastern Missouri,

235

00:26:10,705 --> 00:26:14,705

and the Ramapo Fault that extends from New Jersey to New York's Hudson Valley.

236

00:26:14,705 --> 00:26:18,705

All of these areas show significant UFO activity.

237

00:26:21,705 --> 00:26:23,705

UFOs are attracted to energy.

238

00:26:23,705 --> 00:26:29,706

This can be a source of natural energy, like tectonic plates or electromagnetic fields,

239

00:26:29,706 --> 00:26:32,706

or man-made energy, like nuclear power plants.

240

00:26:33,706 --> 00:26:38,706

The files uncover a distinct pattern when it comes to energy sources.

241

00:26:39,706 --> 00:26:47,706

Energy, whether natural or man-made, leads to an increased probability of UFO activity.

242

00:26:47,706 --> 00:26:54,707

More disturbing, a deeper look suggests that UFO sightings over nuclear power plants

243

00:26:54,707 --> 00:27:00,707

and missile bases can potentially initiate near-disaster events.

244

00:27:01,707 --> 00:27:07,707

And from California to New York, the files reveal unusual UFO activity

245

00:27:07,707 --> 00:27:10,707

along America's major fault lines.

246

00:27:11,707 --> 00:27:16,708

One such case brings us back to Missouri and the new Madrid Fault Line.

247

00:27:19,708 --> 00:27:23,708

The new Madrid Fault Line is one of the most active seismic zones in the United States,

248

00:27:23,708 --> 00:27:28,708

and it happens to run very close to a major UFO flap that took place in Missouri.

249

00:27:30,708 --> 00:27:35,708

The new Madrid Fault Line is one of the most active seismic zones in the United States.

250

00:27:38,709 --> 00:27:42,709

Southeast Missouri State University, 1973.

251

00:27:43,709 --> 00:27:47,709

Dr. Harley Rutledge begins investigating a UFO flap

252

00:27:47,709 --> 00:27:51,709

occurring between New Madrid and Cape Girardeau.

253

00:27:54,709 --> 00:27:57,709

Dr. Rutledge was the chairman of the physics department.

254

00:27:57,709 --> 00:28:01,710

He put together a scientific team to study a wave of UFO sightings near Piedmont, Missouri.

255

00:28:01,710 --> 00:28:05,710

This is considered the very first UFO scientific field study.

256

00:28:06,710 --> 00:28:10,710

Dr. Rutledge called his project project identification.

257

00:28:10,710 --> 00:28:16,710

He did it over a seven-year period with 35 scientists studying over 158 cases.

258

00:28:16,710 --> 00:28:20,710

His team used a variety of scientific equipment to capture their data,

259

00:28:20,710 --> 00:28:24,711

enabling them to calculate the object's velocity, distance, and size.

260

00:28:24,711 --> 00:28:29,711

They found themselves constantly surrounded by these orbs of light, which he called plasma.

261

00:28:30,711 --> 00:28:38,711

Interestingly, these plasma orbs are similar to the lights of blue springs that would appear in Missouri 40 years later.

262

00:28:40,711 --> 00:28:48,712

Dr. Rutledge and his team continue their studies and discovered that these orbs behave in unusual and unexpected ways.

263

00:28:49,712 --> 00:28:54,712

They mimic the movements of the team on an intelligent level and responded to light signals.

264

00:28:54,712 --> 00:29:01,712

Rutledge concludes that these orbs are controlled by some form of intelligent life.

265

00:29:01,712 --> 00:29:06,712

Then, in 1976, the sightings escalate.

266

00:29:06,712 --> 00:29:12,713

In March of 1976, there was a significant increase in the number of plasma balls seen.

267

00:29:13,713 --> 00:29:18,713

And in that same month, there was a 5.0 earthquake on the New Madrid fault.

268

00:29:18,713 --> 00:29:22,713

And just as suddenly, the Missouri lights disappeared.

269

00:29:24,713 --> 00:29:29,713

This was the first earthquake of that magnitude since 1927.

270

00:29:30,713 --> 00:29:37,714

Is it a coincidence that UFO activity increases as seismic energy builds up?

271

00:29:38,714 --> 00:29:42,714

There was similar activity in Colorado along the Rio Grande Rift.

272

00:29:42,714 --> 00:29:49,714

UFO sightings increased leading up to a major earthquake there, just like in Missouri near the New Madrid fault line.

273

00:29:50,714 --> 00:29:55,714

Should we be on the lookout for increased UFO activity along fault lines?

274

00:29:56,714 --> 00:30:00,715

Could this be an indication that an earthquake may be imminent?

275

00:30:00,715 --> 00:30:07,715

There are a lot of people who feel Los Angeles is way overdue for a major earthquake.

276

00:30:07,715 --> 00:30:11,715

Coincidentally, UFO sightings in the state are on the rise.

277

00:30:12,715 --> 00:30:20,715

From San Diego to Los Angeles, UFO sightings in the region have significantly increased over the last five years.

278

00:30:31,716 --> 00:30:35,716

Santa Monica, California, December 2010.

279

00:30:36,716 --> 00:30:40,716

Numerous witnesses report seeing fireballs in the night sky.

280

00:30:41,716 --> 00:30:48,717

The Santa Monica lights is basically a bunch of people in a neighborhood capturing UFOs on film traveling over to Santa Monica Bay.

281

00:30:49,717 --> 00:30:54,717

Multiple witnesses saw a bright orb in the sky. They're looking at it. They're amazed by it.

282

00:30:54,717 --> 00:30:58,717

This orb is circling in the sky, and then suddenly, it just splits into two.

283

00:30:58,717 --> 00:31:04,717

These fireballs, as people describe them, actually appeared on two different nights during the first week of December.

284

00:31:04,717 --> 00:31:09,717

There were so many people trying to figure out what they saw that the local news station covered the story.

285

00:31:09,717 --> 00:31:15,718

Many people are talking about these strange fireballs or lights streaking across the sky in Santa Monica.

286

00:31:15,718 --> 00:31:20,718

The intriguing lights were caught on tape, but the question tonight is, what were they?

287

00:31:21,718 --> 00:31:27,718

Los Angeles County sits right in the middle of the San Andreas Fault Zone, and people report feeling tremors every year.

288

00:31:28,718 --> 00:31:35,719

LA is the third largest hotspot in the United States. It has reported 5,000 UFO sightings to date.

289

00:31:36,719 --> 00:31:43,719

Is it possible that the Santa Monica lights are a sign that a major earthquake could soon hit Southern California?

290

00:31:44,719 --> 00:31:50,719

If so, is this evidence of a connection between UFOs and energy?

291

00:31:51,719 --> 00:31:59,720

The question is, why? Why are these UFOs showing up at the same time that missile bases and nuclear reactors are going offline?

292

00:31:59,720 --> 00:32:03,720

Why is there an increase of sightings right before a big earthquake?

293

00:32:04,720 --> 00:32:09,720

But there are some who believe these visits might not just be to monitor the planet.

294

00:32:10,720 --> 00:32:16,720

Another deeper look at the current Missouri flap reveals some disturbing evidence.

295

00:32:16,720 --> 00:32:24,721

More than 10,000 fish floated to the surface dead. Hundreds of birds were seen falling dead out of the sky.

296

00:32:24,721 --> 00:32:33,721

Is Missouri's unique location one that combines a major fault line, a nuclear missile base, and a nuclear power plant?

297

00:32:33,721 --> 00:32:38,721

The perfect storm for attracting more aggressive UFO activity.

298

00:32:47,722 --> 00:33:02,722

Hanger 1 files reveal that UFOs appear to be attracted to energy, generated by seismic fault lines, nuclear power plants, and military bases with nuclear weapons.

299

00:33:03,722 --> 00:33:11,723

It is said that UFOs may have caused near disasters when interfering with our nuclear capabilities.

300

00:33:11,723 --> 00:33:20,723

But heavy UFO activity is also tied to other disturbing consequences, which are occurring once again in Missouri.

301

00:33:24,723 --> 00:33:34,724

Not only does this current Missouri flap include orbs of light, triangular craft, glowing disks, but it also points to some very strange and disturbing anomalies.

302

00:33:35,724 --> 00:33:44,724

In 2011, in the counties of Cold Soto and Sullivan, over the course of 10 days, hundreds of birds were seeing falling dead out of the sky.

303

00:33:47,724 --> 00:33:55,724

Equally strange, along the shores of Blue Springs and Dexter Lakes, more than 10,000 fish floated to the surface dead.

304

00:33:56,724 --> 00:34:04,725

And while the fish could be explained perhaps by the high temperatures in Missouri at the time, the birds falling from the sky is still a complete mystery.

305

00:34:05,725 --> 00:34:10,725

Could these animal deaths be related to the presence of UFOs?

306

00:34:10,725 --> 00:34:23,726

One theory on the birds might be that there's some kind of disturbance in the atmosphere, either some kind of a frequency or nuclear radiation of some sort that caused this to occur, or possibly it was the UFOs themselves.

307

00:34:25,726 --> 00:34:32,726

What's fascinating about Missouri is that this UFO flap is actually right smack in the middle of a trifecta of energy sources.

308

00:34:32,726 --> 00:34:39,726

There's the Callaway Nuclear Power Plant in the middle of the state, Whiteman Air Force Base, which holds some of our nuclear arsenal in western Missouri,

309

00:34:39,726 --> 00:34:42,726

and the new Madred Fault Line that runs up the eastern side of the state.

310

00:34:42,726 --> 00:34:51,727

It appears that these energy sources are attracting a variety of UFOs, and the question is, just what are these UFOs up to?

311

00:34:52,727 --> 00:35:01,727

In addition to Missouri's dead birds and fish, this UFO flap may be responsible for an even more unsettling phenomenon.

312

00:35:09,727 --> 00:35:15,728

July 2013, a Missouri rancher makes a startling discovery.

313

00:35:16,728 --> 00:35:25,728

July 19, 2013, Lynn Mitchell, a rancher in Henry, Missouri, made headline news when she reported a dead cow on her ranch.

314

00:35:25,728 --> 00:35:29,728

The second within 10 days, and the third within 2 years.

315

00:35:29,728 --> 00:35:32,728

A day prior, the cow hadn't returned with the herd.

316

00:35:32,728 --> 00:35:37,729

Now these are valuable cattle to Lynn, and she searched her ranch and discovered a horrific sight.

317

00:35:37,729 --> 00:35:40,729

The cow was dead, but it was no ordinary death.

318

00:35:40,729 --> 00:35:48,729

The cow's udder was sliced from the body, its genitalia removed, its anus cord, and the tongue was cut out from deep within the mouth,

319

00:35:48,729 --> 00:35:52,729

and Lynn was absolutely speechless and horrified by the sight.

320

00:35:52,729 --> 00:35:56,729

Often UFO flaps are accompanied by cattle mutilations.

321

00:35:56,729 --> 00:36:00,730

They occur multiple times in some of our other hot spots.

322

00:36:00,730 --> 00:36:06,730

Mufon investigators suggest these deaths are not the result of natural causes.

323

00:36:06,730 --> 00:36:10,730

First, there's no blood found anywhere on the body or around it.

324

00:36:10,730 --> 00:36:15,730

Number two, there are no footprints or tire tracks within 100 feet of the body.

325

00:36:15,730 --> 00:36:25,731

Could these cattle mutilations, dead wildlife, and failures at nuclear facilities be a sign of extraterrestrial aggression?

326

00:36:28,731 --> 00:36:34,731

While it's easy to examine all these events as acts of hostility, there may be something else going on here.

327

00:36:34,731 --> 00:36:39,731

Imagine a curiosity or a desire to understand what's going on on Earth.

328

00:36:39,731 --> 00:36:43,731

These events may be nothing more than research.

329

00:36:45,732 --> 00:36:51,732

Or is it possible that UFOs could be attempting to warn us about something else?

330

00:36:53,732 --> 00:36:58,732

There's plenty of evidence to suggest that UFOs are attracted to energy sources,

331

00:36:58,732 --> 00:37:05,732

whether natural, like the movement of tectonic plates, or man-made, as in our nuclear power plant and military installations.

332

00:37:05,732 --> 00:37:09,733

Remember, each of these represents a real threat to mankind,

333

00:37:09,733 --> 00:37:14,733

whether from an earthquake, a nuclear accident, or even the outbreak of the war.

334

00:37:14,733 --> 00:37:20,733

It's possible that UFO visits are here to either monitor us or teach us to take better care of our planet.

335

00:37:21,733 --> 00:37:28,733

They're here observing this planet of ours, this fragile ecosystem that we are part of.

336

00:37:28,733 --> 00:37:32,733

They're seeing these profoundly dangerous, powerful weapons.

337

00:37:32,733 --> 00:37:39,734

How much of a stretch is it for us to think that they're maybe concerned that we don't blow up the whole planet?

338

00:37:40,734 --> 00:37:45,734

The reasons behind these UFO visits remain a mystery,

339

00:37:45,734 --> 00:37:52,734

but Mufan's investigations seem to point to specific patterns that may explain why these hot spots occur.

340

00:37:55,734 --> 00:38:01,735

Are they drawn to these regions as an energy source for their own needs?

341

00:38:03,735 --> 00:38:08,735

Or could they be used to make a new source of energy?

342

00:38:09,735 --> 00:38:12,735

Or could they be sending us a message?

343

00:38:14,735 --> 00:38:17,735

Perhaps even a warning.

344

00:38:19,735 --> 00:38:23,736

Regardless, these hot spots continue to exist,

345

00:38:24,736 --> 00:38:29,736

and one of them might be in your own backyard.
