

1

00:00:00,490 --> 00:00:20,493

Music

2

00:00:20,493 --> 00:00:25,493

August 1991, the Pacific Ocean.

3

00:00:25,493 --> 00:00:31,494

USS Nimitz is returning home to Hawaii after a long deployment in the first Gulf War.

4

00:00:31,494 --> 00:00:38,495

My name is Kevin Vi. I was a PH2 stationed on the USS Nimitz in 1991 when this happened to me.

5

00:00:39,495 --> 00:00:48,496

Kevin is an expert at identifying all forms of US and enemy jets because he's the one responsible for photographing and documenting them for the Navy.

6

00:00:48,496 --> 00:00:52,497

Music

7

00:00:52,497 --> 00:00:58,498

I finished my evening ship and as usual I had gone up to the deck to look at the ocean, hopefully watch the sunset.

8

00:00:58,498 --> 00:01:02,498

And while I was sitting there they locked the ship down.

9

00:01:03,498 --> 00:01:07,499

This protocol could mean that there is an imminent danger.

10

00:01:07,499 --> 00:01:11,500

Vi has only 30 seconds to clear the deck.

11

00:01:13,500 --> 00:01:15,500

He doesn't make it.

12

00:01:15,500 --> 00:01:19,501

Everything is locked down before he has a chance to go under.

13

00:01:19,501 --> 00:01:22,501

Kevin decides to wait it out.

14

00:01:22,501 --> 00:01:27,502

I started feeling like something was buzzing inside of me and I started looking around.

15

00:01:27,502 --> 00:01:35,503

Whatever was buzzing was everywhere. I could feel it in my body, I could hear it, I could feel it on my hands against the rail that I was holding onto.

16

00:01:36,503 --> 00:01:39,503

The next thing he sees paralyzes him in fear.

17

00:01:39,503 --> 00:01:46,504

As Vi looks over the ship's starboard side he's astounded to see something rising out of the ocean.

18

00:01:53,505 --> 00:01:59,506

In front of me was a very large object. I mean this thing was huge. It was larger than the Nimitz.

19

00:01:59,506 --> 00:02:06,507

I could see the water underneath it glowed. I'm not sure if it was lights coming down from the ship or the ocean itself.

20

00:02:07,507 --> 00:02:13,508

It had to be that this thing came from out of the water. I knew that I saw something from another world.

21

00:02:15,508 --> 00:02:19,509

The craft continues to rise until it levels off above the height of the Nimitz.

22

00:02:19,509 --> 00:02:25,509

And it sits there about 200 yards from the ship for about 15 minutes, not making any sound.

23

00:02:25,509 --> 00:02:28,510

Although he says the buzzing sensation remained the whole time.

24

00:02:28,510 --> 00:02:32,510

The craft now appeared to have no apparent color. That it almost looked like glass.

25

00:02:32,510 --> 00:02:37,511

It started to move slightly and then all of a sudden it went up and I mean up fast.

26

00:02:38,511 --> 00:02:44,512

It was literally from where it was at me in front of the ocean to a pinpoint in the sky in half a second.

27

00:02:46,512 --> 00:02:50,513

Following the incident, Kevin Vi is isolated for questioning.

28

00:02:51,513 --> 00:02:56,514

When these guys started questioning my first impression was, well I'm not going to tell them what I saw.

29

00:02:56,514 --> 00:02:59,514

Because everybody will think I'm a lunatic.

30

00:02:59,514 --> 00:03:03,514

I just wanted to go about my normal life and pretend like nothing had changed.

31

00:03:03,514 --> 00:03:05,515

Although everything had changed.

32

00:03:06,515 --> 00:03:09,515

Did Kevin Vi witness a UFO?

33

00:03:09,515 --> 00:03:14,516

Underwater UFO reports are some of the most extraordinary encounters that we have on record.

34

00:03:16,516 --> 00:03:19,517

We are surrounded by water on this planet.

35

00:03:19,517 --> 00:03:25,517

71% of the earth is underwater, most of which is totally unexplored.

36

00:03:26,518 --> 00:03:31,518

But underwater UFOs, they could be very close watching us without us ever knowing they're there.

37

00:03:32,518 --> 00:03:36,519

Are UFOs lurking beneath the waters of our planet?

38

00:03:37,519 --> 00:03:44,520

If so, how big is this mysterious network of underwater craft and where are they coming from?

39

00:03:45,520 --> 00:03:50,521

MUFON investigates UFOs in the abyss right now.

40

00:03:51,521 --> 00:03:59,522

The Mutual UFO Network, known as MUFON, is an independent organization not bound to any government.

41

00:03:59,522 --> 00:04:04,523

They investigate reports of UFO sightings from around the world.

42

00:04:04,523 --> 00:04:10,523

Over the past five decades, they have collected more than 70,000 files,

43

00:04:10,523 --> 00:04:14,524

stored at a secure location known as Hangar One.

44

00:04:15,524 --> 00:04:20,525

Now MUFON is granting access to their vast archive.

45

00:04:21,525 --> 00:04:24,525

These are the files of Hangar One.

46

00:04:34,527 --> 00:04:38,527

While we often look to the skies for evidence of unidentified flying objects,

47

00:04:38,527 --> 00:04:43,528

MUFON files contain many sightings of underwater UFOs.

48

00:04:44,528 --> 00:04:51,529

Where do they come from and why are these mysterious craft hiding in our oceans?

49

00:04:52,529 --> 00:04:56,530

Think about how much space there is to hide in the ocean.

50

00:04:56,530 --> 00:05:01,530

If there are UFOs underwater, we'd have no way to know how many there are or what they're up to.

51

00:05:02,530 --> 00:05:07,531

But some of MUFON's files hint that there could be something very big going on down there.

52

00:05:15,532 --> 00:05:17,532

October 4, 1967.

53

00:05:18,533 --> 00:05:21,533

Shag Harbor, Nova Scotia.

54

00:05:22,533 --> 00:05:27,534

In the fall of 1967, a man by the name of Lori Wiccans is driving home late one evening with his friends.

55

00:05:27,534 --> 00:05:31,534

In the distance, Wiccans spots a strange, unusual flashing object.

56

00:05:35,535 --> 00:05:41,536

This object has flashing yellow lights and it looks like it's falling out of the sky right towards the harbor.

57

00:05:42,536 --> 00:05:48,537

Wiccans is so alarmed by the speed and trajectory of the object towards the water that he pulls his truck over.

58

00:05:50,537 --> 00:05:57,538

Wiccans fears that he just witnessed a plane crash, so he goes to the nearest pay-a-phone and makes an urgent call to the Royal Canadian Mounted Police.

59

00:05:59,538 --> 00:06:04,539

The senior officer on duty, Corporal Victor Wibickey, listens to Wiccans' call and assumes he is drunk.

60

00:06:04,539 --> 00:06:08,539

However, soon multiple calls start coming into the police department,

61

00:06:08,539 --> 00:06:11,540

all describing a similar crash into the harbor.

62

00:06:11,540 --> 00:06:14,540

It turns out most of the town saw this crash.

63

00:06:15,540 --> 00:06:20,541

We call it a crash, but we're not sure, because it didn't go into the water immediately.

64

00:06:20,541 --> 00:06:27,542

It was above water, above water, and sitting there for a while, and then submerged.

65

00:06:29,542 --> 00:06:33,543

It doesn't appear that what people witnessed was any kind of earthly craft,

66

00:06:33,543 --> 00:06:37,543

and it's just plunged into the middle of Shag Harbor.

67

00:06:39,543 --> 00:06:44,544

Corporal Wibickey rounds up a team of local fishermen to help investigate.

68

00:06:45,544 --> 00:06:51,545

Wibickey sees this strange yellow light in the water, so he and his team get into boats and head towards it.

69

00:06:52,545 --> 00:06:55,546

There aren't any signs of survivors, bodies, or even wreckage,

70

00:06:55,546 --> 00:07:01,546

and now the yellow light and submerged object they had seen from the shore is nowhere to be found.

71

00:07:02,546 --> 00:07:06,547

They are soon joined by the United States Coast Guard.

72

00:07:06,547 --> 00:07:10,548

The Coast Guard arrives on the scene and they resume the search for another few hours.

73

00:07:10,548 --> 00:07:14,548

They can't find anything and eventually call to search around 3 a.m.

74

00:07:15,548 --> 00:07:21,549

But once the police search ends, a secret military investigation begins.

75

00:07:22,549 --> 00:07:32,551

What most people don't know is that on October 5, 1967, the Canadian Forces headquarters dispatched the HMCS Grand Bay to investigate.

76

00:07:32,551 --> 00:07:36,551

They had specially trained divers and went down to do a thorough investigation.

77

00:07:38,551 --> 00:07:48,553

Decades later, several of the crew members come forward to move on and finally admit that the Grand Bay did in fact track a UFO underwater for an entire week.

78

00:07:49,553 --> 00:07:58,554

From the private interviews done years later, the story emerged that the Grand Bay tracked that underwater UFO over a 25-mile stretch to a place called Government Point.

79

00:07:59,554 --> 00:08:06,555

A military base at Government Point picks up unusual activity from the underwater object.

80

00:08:07,555 --> 00:08:10,556

Suddenly, the UFO starts acting strange.

81

00:08:11,556 --> 00:08:16,556

This craft that had been eluding the Navy for a week seems as though it's stopped and given up.

82

00:08:16,556 --> 00:08:22,557

It's just sitting there in the water, so more ships are dispatched from Government Point to

investigate.

83

00:08:23,557 --> 00:08:32,559

But what they did was surround the disabled UFO and they brought in Navy divers to go under to check on what was down there.

84

00:08:34,559 --> 00:08:39,559

As the Navy closes in on this craft, their instruments suddenly pick up a second object.

85

00:08:39,559 --> 00:08:43,560

There's another UFO in the water and it's heading right towards them.

86

00:08:44,560 --> 00:08:52,561

The crew is completely stunned. The second UFO positions itself on top of the first one and it appears as though the second craft is repairing the first UFO.

87

00:08:53,561 --> 00:08:56,562

Somehow they sent out a distress signal to their people.

88

00:08:57,562 --> 00:09:02,563

The crew has no idea what they're dealing with. They're completely out of their element.

89

00:09:02,563 --> 00:09:05,563

With not just one unknown object, but now two.

90

00:09:05,563 --> 00:09:10,564

At this time, another witness reported a Russian submarine in nearby Canadian waters.

91

00:09:10,564 --> 00:09:17,565

This prompted a few of the US vessels which were tracking the UFO to be pulled off that duty to investigate the Russian sub.

92

00:09:17,565 --> 00:09:21,565

And while they were doing that, the two UFOs made their move.

93

00:09:23,565 --> 00:09:30,566

The UFOs race towards the surface, blast out of the water and vanish into the sky.

94

00:09:30,566 --> 00:09:37,567

One underwater craft is strange enough, but the fact that this UFO apparently called for help and that help arrived immediately, what does that say?

95

00:09:37,567 --> 00:09:40,568

How many of these things are down there?

96

00:09:40,568 --> 00:09:50,569

There was another ship in the vicinity that was able to come to the rescue and assist this thing under the water, which shows me an organization here behind the scene.

97

00:09:50,569 --> 00:09:52,569

There's something far behind the scene.

98

00:09:52,569 --> 00:10:00,570

Could there be an entire network of underwater UFOs operating on our planet and we just don't see them because we're looking up instead of down?

99

00:10:01,570 --> 00:10:04,571

Coming up, halfway around the world.

100

00:10:04,571 --> 00:10:11,572

A Royal Navy ship tracks a UFO above and below the strait.

101

00:10:11,572 --> 00:10:21,573

And later, MUFON investigates a region infamous for both its water UFO sightings and unexplained disappearances, the Great Lakes Triangle.

102

00:10:21,573 --> 00:10:26,574

The Great Lakes account for more disappearances per square mile than the Bermuda Triangle.

103

00:10:26,574 --> 00:10:32,575

When we were in the US, the US Navy was able to find a new source of information.

104

00:10:32,575 --> 00:10:39,576

Inside Hangar One, MUFON files report that some UFO encounters occur not just in our skies, but in our waters as well.

105

00:10:39,576 --> 00:10:44,576

In Shag Harbor, no one has ever been able to find a UFO.

106

00:10:44,576 --> 00:10:50,577

The Bermuda Triangle is a place where the UFOs are located.

107

00:10:50,577 --> 00:11:00,578

Inside Hangar One, MUFON files report that some UFO encounters occur not just in our skies, but in our waters as well.

108

00:11:00,578 --> 00:11:13,580

In Shag Harbor, Nova Scotia, an underwater UFO sighting leads to a military pursuit and reveals that a vast UFO presence could be hiding right here on Earth.

109

00:11:14,580 --> 00:11:17,581

How far might this network extend?

110

00:11:17,581 --> 00:11:29,582

You know, it's interesting when you think about how there have been reports of underwater UFOs from navies all over the world, and they share so much in common that it's hard to believe these could just be isolated incidents.

111

00:11:29,582 --> 00:11:32,583

There is definitely something going on beneath the water.

112

00:11:39,584 --> 00:11:45,584

February 28th, 1963. The North Atlantic, Norway.

113

00:11:48,585 --> 00:12:00,586

20-year-old Lieutenant Tom Preston was on board one of the approximately 10 ships in their Royal Navy's North Atlantic fleet that is participating in a training exercise off the coast of Norway.

114

00:12:00,586 --> 00:12:11,588

Preston is on morning watch duty inside the ship's darkened radar sonar room with five other witnesses, three radar scope operators, and two sonar scope operators.

115

00:12:12,588 --> 00:12:21,589

Suddenly a blip appears on the crew's radar screen. There's something in the sky about the size of a jet fighter, and it's headed right for him.

116

00:12:23,589 --> 00:12:38,591

Preston is alarmed at how suddenly the blips appear on radar, so he notifies his senior officer. When the senior officer arrives, he's also concerned by what he sees and contacts the nearest ship to confirm that they picked up the same target. And they did.

117

00:12:39,592 --> 00:12:44,592

The crew attempts to contact the object, but it does not respond.

118

00:12:44,592 --> 00:12:51,593

They don't know if this thing is a friend or an enemy. All they know is that it's coming at them fast, so they scramble jets to get a closer look.

119

00:12:53,593 --> 00:13:00,594

Within minutes, the jet pilots give visual confirmation that a UFO is flying over the ocean.

120

00:13:01,595 --> 00:13:11,596

Preston and his crew watch the radar screen as the two jets approach the target, but as soon as they get too close, the UFO suddenly turns and dives directly towards the ocean.

121

00:13:12,596 --> 00:13:23,597

There are three radar screens with each radar scope displaying a different height level in the sky. The UFO is traveling so fast that it crosses all three radar scopes within two or three seconds.

122

00:13:24,598 --> 00:13:34,599

Next thing you know, it's zooming down through the various radar fields. Well, when it gets down to the surface, the commander of the Royal Reception said it's headed for the water. Watch out on sonar.

123

00:13:36,599 --> 00:13:47,601

The UFO crashes right through the surface of the water and just keeps on going. The crew can see it on sonar, cutting through the ocean just as easy as it was flying through the sky, and it's moving so fast they can barely track it.

124

00:13:48,601 --> 00:13:57,602

The fastest submarine underwater does about 60 miles an hour. 60 miles an hour is not very fast speed. You do that on highway.

125

00:13:59,602 --> 00:14:12,604

This UFO is going much faster than any submarine, indicating it's clearly not man-made, or at least it's not any kind of man-made technology that we currently know about. So the sailors have no clue as to what is racing through the ocean.

126

00:14:13,604 --> 00:14:30,606

What causes the UFO to allow itself to go through the water is a kind of rotating field. It's kind of pushing the water down, then it's pushing it out, and then back up. It's digging a hole for itself as it's going down through the water.

127

00:14:32,607 --> 00:14:38,608

The craft descends over 2,000 feet into the ocean depths before finally disappearing.

128

00:14:43,608 --> 00:14:53,610

Preston and his crew report this amazing encounter to their superiors, but they don't get the reaction they're expecting. Instead, they're ordered to never mention the incident again.

129

00:14:56,610 --> 00:15:08,612

The crew is then forced to sign an official Secrets Act. The agreement states that if anyone reveals any information regarding this issue, they will be considered in breach of security and will face severe discipline.

130

00:15:09,612 --> 00:15:25,614

Our priorities are completely messed up. An extraordinary event like this occurs, and instead of being in a rush to discover more about this mysterious craft that banished under the ocean, the military's first order of business is to threaten and intimidate the witnesses into silence.

131

00:15:26,614 --> 00:15:42,616

The mystery of ocean-going UFOs gets even more disturbing when you realize that MUFON has collected evidence of these craft in our lakes, too. I mean, it seems like these things could be hiding in any body of water.

132

00:15:43,616 --> 00:15:57,618

January 2nd, 1976, Sabine Lake, Texas.

133

00:15:58,618 --> 00:16:02,619

Father and son are out on their usual Saturday morning fishing trip on Sabine Lake in Texas.

134

00:16:04,619 --> 00:16:06,619

The lake is calm and there's hardly a breeze in the air.

135

00:16:07,619 --> 00:16:14,620

The boy glances over the side of the boat and he notices something. There's a small light glowing beneath the water.

136

00:16:18,621 --> 00:16:24,622

He tells his father, and when his dad sees the light, he asks his son if he dropped their flashlight into the water.

137

00:16:25,622 --> 00:16:37,623

The boy shows his dad the flashlight, still in the boat, but suddenly the glow under the water starts to get very bright and it's growing as though something is rising up from the bottom of the lake and getting closer to their boat.

138

00:16:38,624 --> 00:16:44,624

The light quickly grows larger until it comes to rest directly beneath the boat.

139

00:16:45,625 --> 00:16:52,625

This brilliant light remains underneath their boat for a few moments. The father and son are unsure what it is, so they lean over to get a closer look.

140

00:16:54,626 --> 00:17:00,627

It was a chilly morning, but as he leans over to the side of the boat towards the light, his face suddenly starts burning from the heat.

141

00:17:01,627 --> 00:17:12,628

It gets even closer and they can see that this light is coming from a solid object, an underwater craft, but they don't get a good look at it because it suddenly shoots away and it's moving very

fast.

142

00:17:13,628 --> 00:17:25,630

Here's the strange thing. As this UFO shot away underwater, an enormous wake formed on the surface of the lake about a mile away as if caused by a boat, but there was no object to be seen on the surface.

143

00:17:26,630 --> 00:17:35,631

The kid says this wake was as big as something a barge would make, but they never saw the object emerge. It stayed underwater and eventually disappeared.

144

00:17:35,631 --> 00:17:41,632

The boy is freaking out, but then he notices that his father is also petrified and looks like he's going to be sick.

145

00:17:42,632 --> 00:17:51,633

All of a sudden, the dad motors the boat full speed back to shore, bypassing the dock and plows right onto the beach, something the son has never seen his father do.

146

00:17:52,634 --> 00:17:58,634

Whatever they had just witnessed in the lake was terrifying for both of them. They leave the boat and run up to their uncle Dale's house.

147

00:17:58,634 --> 00:18:08,636

Dale was the dad's brother and had been a radio man in the Air Force. The father tells Dale about the lights, the bizarre craft that caused the wake.

148

00:18:09,636 --> 00:18:17,637

The three of them return to their boat and they notice something strange. There seems to be some sort of energy emanating from it. It's almost like it's buzzing.

149

00:18:18,637 --> 00:18:25,638

The uncle thinks something is odd and starts throwing bolts at the boat and lo and behold, every bolt sticks to the boat like a magnet.

150

00:18:26,638 --> 00:18:31,639

The strange thing is this boat is made of aluminum and aluminum is not magnetic.

151

00:18:32,639 --> 00:18:37,640

What did this boat come in contact with that caused it to become magnetized?

152

00:18:39,640 --> 00:18:51,641

Often, objects that come into contact with UFOs report extremely unusual electromagnetic readings. This hasn't only happened with boats. This has also happened with cars and other vehicles.

153

00:18:51,641 --> 00:19:04,643

Additionally, people who have very close encounters with the UFOs often report that the UFOs generate extreme heat, which would explain the hot temperature that the boy reported when he looked over the side of the boat.

154

00:19:05,643 --> 00:19:13,644

It's interesting when you realize how many details of this underwater craft are consistent with other UFO reports, like how it was able to move so fast beneath the water.

155

00:19:14,644 --> 00:19:29,646

Think about a UFO if it's capable of traveling in space at extreme speeds. If they can nullify gravity, the weight of the water has no effect on the craft, which also allows it to operate at the same speed in the water as would be in the air.

156

00:19:30,647 --> 00:19:42,648

So, whether it's a craft in the air or a craft beneath the waves, when you see enough similarities between these encounters, you have to consider that, okay, we might be dealing with the same thing here.

157

00:19:43,648 --> 00:19:55,650

If these are actually extraterrestrial UFOs, what's their agenda? What exactly are they doing in the waters of our planet? And most importantly, could their presence be putting us in danger?

158

00:19:59,651 --> 00:20:16,653

Next, MUFON investigates a region infamous for its underwater UFOs and strange disappearances. And

later, are UFOs being created at a secret facility known as the underwater Area 51?

159

00:20:16,653 --> 00:20:18,653

When We Return

160

00:20:19,653 --> 00:20:29,655

Inside Hanger 1, MUFON files contain evidence of underwater UFO activity.

161

00:20:31,655 --> 00:20:43,656

From a naval encounter on the Norwegian Sea to a family fishing trip on Sabine Lake, underwater UFOs are reported around the world.

162

00:20:44,657 --> 00:20:48,657

The big question is, what is it about the water that attracts these UFOs?

163

00:20:49,657 --> 00:20:59,659

In 2013, we spent three times more money exploring space than the oceans of our planet. If an extraterrestrial is looking to hide on Earth, what better place than in the water?

164

00:21:01,659 --> 00:21:12,660

Are sightings of these mysterious submersible craft evidence of an extraterrestrial presence hiding

on Earth? And if so, could they pose a threat?

165

00:21:12,660 --> 00:21:28,662

If these underwater UFOs are actually hostile, it's especially chilling because they're so close to us. This isn't a tiny light way up in the sky above a mountain range. This is something that could be waiting just below us when we're fishing or swimming.

166

00:21:29,663 --> 00:21:45,665

But one region in particular has become infamous for its underwater UFO sightings and the unsolved disappearances that accompany them. An area that's come to be known as the Great Lakes Triangle.

167

00:21:52,666 --> 00:21:56,666

September 12, 2009, Lake Huron, Michigan

168

00:21:57,666 --> 00:22:05,667

One evening, a couple is stargazing at a campground on Lake Huron, when they suddenly notice four very bright reddish pink lights appear in the sky.

169

00:22:06,668 --> 00:22:09,668

A UFO is flying right over their campground.

170

00:22:10,668 --> 00:22:18,669

And then the UFO descends into the water at what seems like an incredible speed. And then it just disappears. Gone.

171

00:22:19,669 --> 00:22:29,671

According to Hangar One files, underwater UFO sightings like this are only part of a more disturbing mystery connected to the region.

172

00:22:30,671 --> 00:22:34,671

The Great Lakes account for more unexplained disappearances per square mile than the Bermuda Triangle.

173

00:22:35,671 --> 00:22:42,672

Like many of these cases, the most infamous Great Lakes disappearance begins with UFO activity.

174

00:22:49,673 --> 00:22:54,674

Lake Superior, November 23, 1953

175

00:22:55,674 --> 00:23:05,675

On November 23, 1953, a radar controller at Truax Air Force Base in Dade County, Wisconsin, detected an unidentified blip over Lake Superior.

176

00:23:06,676 --> 00:23:15,677

This prompted Kinross Air Force Base, not Kinshlo Air Force Base, to dispatch an F-89C Scorpion jet to investigate an intercept.

177

00:23:15,677 --> 00:23:22,678

Now this was piloted by a first lieutenant named Felix Monclaw and accompanied by second lieutenant Robert Wilson.

178

00:23:23,678 --> 00:23:29,679

As the F-89 jet gets closer to its target, the pilot's radar controls get scrambled.

179

00:23:30,679 --> 00:23:34,679

Monclaw and Wilson now solely rely on radar navigation from ground control.

180

00:23:35,679 --> 00:23:43,680

Ground control vectors the F-89C toward the target and they are approaching the UFO at a speed of about 500 miles per hour.

181

00:23:44,681 --> 00:23:48,681

Ground control watches on the radar screen as the F-89 approaches.

182

00:23:49,681 --> 00:23:53,682

The gap between the two blips starts growing smaller and smaller until the two blips become one.

183

00:23:54,682 --> 00:23:56,682

Then all of a sudden they both disappear.

184

00:23:59,683 --> 00:24:07,684

The expectation was that one aircraft was passing over the other one and that they would start to see the two distinguish themselves again.

185

00:24:08,684 --> 00:24:11,684

That did not happen. What they saw instead was one blip.

186

00:24:11,684 --> 00:24:16,685

Stay there for a moment and then just vanish off the screen.

187

00:24:18,685 --> 00:24:22,686

Personnel on the base desperately try to make sense of the event.

188

00:24:23,686 --> 00:24:28,687

Ground control is absolutely frantic and F-89 has just vanished into thin air.

189

00:24:29,687 --> 00:24:31,687

They try to radio the jet but they receive no response.

190

00:24:32,687 --> 00:24:35,687

It is now clear that they have a catastrophic problem on their hands.

191

00:24:36,688 --> 00:24:39,688

At this point ground control deploys a search and rescue mission.

192

00:24:41,688 --> 00:24:45,689

The search and rescue team is directed to the exact spot where the blip was last seen.

193

00:24:46,689 --> 00:24:49,689

They go there they find nothing. Nothing is ever found.

194

00:24:50,689 --> 00:24:54,690

Nobody can find the remains of this jet fighter in Lake Superior.

195

00:24:55,690 --> 00:25:00,691

Of course whether it's swallowed the UFO we have no idea what happened we have no idea.

196

00:25:01,691 --> 00:25:02,691

The jet fighters gone.

197

00:25:03,691 --> 00:25:06,692

An F-89C Scorpion jet is a big piece of equipment.

198

00:25:06,692 --> 00:25:12,692

There is no way something like this can just vanish into thin air without anyone knowing anything about what happened.

199

00:25:13,693 --> 00:25:15,693

Different theories were offered as to why this happened.

200

00:25:16,693 --> 00:25:23,694

So Felix Montclos Widow was told by the Air Force that he had flown too low and crashed.

201

00:25:24,694 --> 00:25:30,695

Another Air Force officer had stated no no he went too high and the plane exploded.

202

00:25:31,695 --> 00:25:35,695

And then you have a third explanation which was that he had somehow suffered vertigo and crashed.

203

00:25:37,696 --> 00:25:42,696

Basically they offer up any and every theory except the one involving the UFO.

204

00:25:44,697 --> 00:25:50,698

Another explanation was offered by Harvard astronomer Donald Menzel who was actually the leading UFO debunker in the world at the time.

205

00:25:51,698 --> 00:25:55,698

Menzel's explanation was that what radar had tracked was called a phantom echo or ghost plane.

206

00:25:57,698 --> 00:26:01,699

Ghost planes are false radar images caused by atmospheric conditions.

207

00:26:01,699 --> 00:26:03,699

Ghost planes are a real phenomenon.

208

00:26:04,699 --> 00:26:11,700

They can cause an object to appear and then disappear rather quickly on radar and have been known to cause pilots to make sharp turns to avoid them.

209

00:26:12,700 --> 00:26:16,701

And in fact traffic controllers have reported ghost plane phenomenon for years.

210

00:26:17,701 --> 00:26:26,702

When you look at the evidence the ghost plane theory falls flat because if these are simply false radar images how does that account for all the planes that have disappeared over the Great Lakes.

211

00:26:26,702 --> 00:26:28,703

1950 Northwest Orient Airlines Flight 2501.

212

00:26:29,703 --> 00:26:32,703

1956 a Canadian twin jet over Lake Ontario.

213

00:26:33,703 --> 00:26:35,704

1961 a small plane over Lake Michigan.

214

00:26:36,704 --> 00:26:40,704

1966 a Cessna over Lake Erie and the list goes on and on right up to the present.

215

00:26:44,705 --> 00:26:52,706

Due to the high number of disappearances in the triangle authorities admit to implementing a special protocol for flying over the area.

216

00:26:52,706 --> 00:26:56,706

The Great Lakes Triangle is officially recognized by the Federal Aviation Administration.

217

00:26:57,706 --> 00:27:05,708

They've instituted what they call a lake reporting service which requires all pilots flying through this area to provide continual status updates.

218

00:27:06,708 --> 00:27:11,708

And if there's as much as a 10 minute gap in the reports that automatically results in a search and rescue mission.

219

00:27:12,708 --> 00:27:17,709

When you have federal regulations and protocols already in place regarding the search and rescue mission.

220

00:27:17,709 --> 00:27:24,710

When you have federal regulations and protocols already in place regarding a quote unquote unexplained mysterious anomaly.

221

00:27:25,710 --> 00:27:30,711

I think it's pretty clear that the government knows a lot more about what's going on here than they're letting out.

222

00:27:31,711 --> 00:27:35,712

What might authorities be hiding about the Great Lakes Triangle.

223

00:27:36,712 --> 00:27:46,713

With so many concentrated UFO reports combined with the high number of disappearances some researchers believe that there could be an underwater UFO base in the Great Lakes.

224

00:27:47,713 --> 00:27:52,714

These disappearances might be the result of UFOs trying to protect their secret.

225

00:27:53,714 --> 00:28:03,715

Underneath Lake Superior if there are caverns these crevices it makes sense that that's where they would want to be to cloak a base or a craft.

226

00:28:04,715 --> 00:28:07,716

There could be underwater bases anywhere.

227

00:28:08,716 --> 00:28:09,716

Maybe the Great Lakes Triangle.

228

00:28:10,716 --> 00:28:12,717

Maybe a hundred other places on this planet.

229

00:28:12,717 --> 00:28:17,717

All bodies of water can have an underwater base.

230

00:28:18,717 --> 00:28:19,717

We have the technology we've had this for years.

231

00:28:20,718 --> 00:28:28,719

That's cut and dry going deep under the ground deep under the ocean floor that capability has existed since at least in 1960s.

232

00:28:29,719 --> 00:28:36,720

But if these undersea UFO bases exist who is building them and why.

233

00:28:37,720 --> 00:28:46,721

Could it be that the reason the military doesn't seem too concerned about these strange undersea craft is because they're the ones who are actually making them.

234

00:28:47,721 --> 00:28:58,723

When we return Mufan investigates the existence of undersea UFO bases that might be hiding sophisticated craft from our world and beyond.

235

00:29:07,724 --> 00:29:21,726

Mufan investigations have uncovered decades of underwater UFO sightings from military incidents around the globe to frightening encounters with unsuspecting civilians.

236

00:29:22,726 --> 00:29:25,726

Water provides the perfect place for UFOs to hide.

237

00:29:26,726 --> 00:29:27,727

We know so little about what's in our oceans.

238

00:29:28,727 --> 00:29:31,727

I mean the Mariana's trench is over 36,000 feet deep.

239

00:29:32,727 --> 00:29:35,728

There are areas of unexplored ocean that are bigger than Europe.

240

00:29:36,728 --> 00:29:42,729

There could be an entire fleet of underwater UFOs patrolling our world without being seen.

241

00:29:44,729 --> 00:29:50,730

If UFOs are traveling through our oceans do they have an underwater base of operations?

242

00:29:52,730 --> 00:29:58,731

The idea of underwater bases you know when people will just automatically look at this and go there are no underwater bases.

243

00:29:59,731 --> 00:30:05,732

But the fact is look at the big boomer submarines and stuff you know we I mean they're like cities under the water you know.

244

00:30:06,732 --> 00:30:08,732

So if we're doing this why not?

245

00:30:09,732 --> 00:30:10,732

E.T.

246

00:30:11,732 --> 00:30:20,734

But if undersea bases exist are they of extraterrestrial design or could their origin be much closer to home?

247

00:30:21,734 --> 00:30:25,734

Mufan files reveal one case that might offer a clue.

248

00:30:25,734 --> 00:30:37,736

Summer 1983 the Caribbean Sea.

249

00:30:38,736 --> 00:30:44,737

It was a hot summer night in 1983 and the USS Yellowstone was sailing north back to his home port, Norfolk, Virginia.

250

00:30:45,737 --> 00:30:48,737

The conditions were perfect not a cloud in the sky.

251

00:30:49,738 --> 00:30:55,738

At about 3 a.m. Sailor on the Yellowstone notices a glowing green spot in the middle of the ocean.

252

00:30:56,738 --> 00:31:00,739

The seaman takes his binoculars to get a closer look but can't make out a shape yet.

253

00:31:01,739 --> 00:31:06,740

He can only tell that it's a solid object in the middle of the ocean and that it appears to be directly in their path.

254

00:31:08,740 --> 00:31:16,741

As soon as this guy realizes that this is something very out of the ordinary he radios the officer on duty to report the object.

255

00:31:18,741 --> 00:31:21,742

He tells the officer look we're on a collision course with something.

256

00:31:22,742 --> 00:31:25,742

He asks what they should do but his superior doesn't seem too concerned.

257

00:31:26,742 --> 00:31:30,743

The officer on duty's only reaction was Roger that without any change in course.

258

00:31:31,743 --> 00:31:36,744

The ship continues on a collision course with the strange glowing object.

259

00:31:37,744 --> 00:31:44,745

The seaman is confused and concerned so he repeats his warning with even more urgency but this time he doesn't even get a response.

260

00:31:44,745 --> 00:31:49,746

He's thinking why am I the only one who seems to care that we're about to crash into something.

261

00:31:50,746 --> 00:31:54,746

Now this ship is going full steam ahead towards this unidentified object in the middle of the ocean.

262

00:31:55,746 --> 00:31:58,747

The seaman on lookout now has a clear unobstructed view.

263

00:31:59,747 --> 00:32:04,748

They're getting closer and closer to this thing about to hit it but they just miss colliding with the object.

264

00:32:05,748 --> 00:32:07,748

Still the sailor gets a good look as they pass.

265

00:32:08,748 --> 00:32:12,749

It's a metallic spherical craft most of it has emerged and it's easily 40 feet in diameter.

266

00:32:12,749 --> 00:32:18,749

As the ship passes the object the seaman yells to the crew to get to the starboard side and look at what they almost hit.

267

00:32:20,750 --> 00:32:22,750

But the other sailor's missing the object.

268

00:32:23,750 --> 00:32:27,751

The sailor tries to explain what he saw to the officer on deck but gets no reaction.

269

00:32:29,751 --> 00:32:33,751

What did they nearly collide with in the middle of the ocean?

270

00:32:34,752 --> 00:32:38,752

And why was the ship's officer so intent on hiding its identity?

271

00:32:39,752 --> 00:32:47,753

How is it possible that a sailor standing watch gives warning of a collision and the officer on deck barely acknowledges the alert?

272

00:32:48,753 --> 00:32:52,754

Could the officer have been well aware of what was in the water but didn't want to draw attention to it?

273

00:32:53,754 --> 00:32:56,755

Maybe authorities already know what's lurking in our oceans.

274

00:32:57,755 --> 00:32:59,755

This is what they do time and time again.

275

00:33:00,755 --> 00:33:06,756

The authorities will deny and ignore because they want the public to bury their heads in the sand

when it comes to these encounters.

276

00:33:06,756 --> 00:33:11,757

When we're talking about underwater UFOs the big question is what's the point of origin?

277

00:33:12,757 --> 00:33:19,758

I mean are these extraterrestrial craft that fly down from space and explore our oceans or could the oceans actually be their home base?

278

00:33:20,758 --> 00:33:24,758

One coastal UFO hotspot may hold the answer.

279

00:33:25,758 --> 00:33:32,759

The entire United States coastlines have UFOs seen on the coast but California has a lot.

280

00:33:37,760 --> 00:33:43,761

December 24th 1994, the Southern California coast.

281

00:33:44,761 --> 00:33:49,762

In 1994 a crew of four were sailing a boat from San Francisco to San Diego.

282

00:33:51,762 --> 00:33:58,763

According to one of the passengers, a woman named Elizabeth, the crew was estimated to be about 25 to 35 miles offshore from Big Sur.

283

00:33:58,763 --> 00:34:05,764

Suddenly Elizabeth looks out across the ocean and spots a round object pulsating deep red to orange and sitting on the ocean surface.

284

00:34:06,764 --> 00:34:10,764

This giant pulsating red object shoots out of the water and into the sky without a sound.

285

00:34:11,765 --> 00:34:19,766

This craft blasts out of the ocean right in front of them and as far as Elizabeth and her crew can tell it keeps rocketing right into space.

286

00:34:20,766 --> 00:34:25,766

Elizabeth's story is about a man who was in the ocean and was in the ocean.

287

00:34:25,766 --> 00:34:30,767

Elizabeth's story is far from the only UFO reported in this area.

288

00:34:31,767 --> 00:34:37,768

For years there's a lot of mystery as to why the Southern California coast would be such a hotspot for water UFO sightings.

289

00:34:38,768 --> 00:34:41,769

But in 2014 we may have gotten a piece of the puzzle.

290

00:34:41,769 --> 00:34:48,770

May 22nd 2014, Malibu, California.

291

00:34:49,770 --> 00:34:58,771

A group of UFO researchers are studying Google Earth images of Malibu, California when they stumble onto something potentially huge.

292

00:34:59,771 --> 00:35:04,772

They discover what appears to be a large man-made structure beneath the surface of the ocean.

293

00:35:04,772 --> 00:35:08,772

The structure appears to be over a half mile wide and over 60 stories high.

294

00:35:09,772 --> 00:35:15,773

If this structure is in fact ground zero for underwater UFO activity, it's the perfect location.

295

00:35:16,773 --> 00:35:19,774

We know more about the surface of Mars than we do about the ocean.

296

00:35:20,774 --> 00:35:25,774

So if the government has something to hide, what better place than on the ocean?

297

00:35:25,774 --> 00:35:54,778

Many researchers and ufologists speculate that this structure could access two primary military installations including China Lake Naval Base in the Mojave Desert and the Naval Air Undersea Warfare Center in Hawthorne, Nevada by way of an elaborate underwater and underground tunnel that structures hundreds of miles.

298

00:35:55,778 --> 00:35:58,779

This discovery could be the holy grail for UFO researchers.

299

00:35:59,779 --> 00:36:08,780

Ufologists have spent over 40 years searching for any potential evidence of an underwater base and thanks to the internet that evidence is now right there on Google Earth.

300

00:36:09,780 --> 00:36:12,781

It's getting more and more difficult to keep this kind of thing under wraps.

301

00:36:13,781 --> 00:36:18,782

Does this discovery reveal a secret underwater military installation?

302

00:36:18,782 --> 00:36:29,783

The government denies that these Google Earth images reveal an undersea base, but the idea isn't so far-fetched when you realize that there are already documented undersea navy bases.

303

00:36:30,783 --> 00:36:40,785

The Atlantic Undersea Testing and Evaluation Center, known as Autech, is a United States Navy facility located off Andros Island in the Bahamas.

304

00:36:41,785 --> 00:36:49,786

Autech is an underwater laboratory that performs tests on the entire spectrum of undersea simulated warfare.

305

00:36:50,786 --> 00:36:54,786

Autech has top secret tracking capabilities for in-water and in-air crafts.

306

00:36:55,787 --> 00:36:57,787

Its ability to track craft in the air is amazing.

307

00:36:58,787 --> 00:37:03,788

It can track in-air weapons at a distance of 500 miles and up to a height of 70,000 feet.

308

00:37:03,788 --> 00:37:10,789

In the water it's just as impressive. It can cover a range of 500 square nautical miles, which is twice the area of New York City.

309

00:37:11,789 --> 00:37:19,790

Now what's very interesting about Autech is their deep water tracking range. It's capable of tracking up to 63 underwater objects simultaneously.

310

00:37:20,790 --> 00:37:27,791

Besides tracking underwater objects, what else could this sophisticated technology be used for?

311

00:37:28,791 --> 00:37:35,792

Autech is located in a 150-mile long basin at a depth of 6,000 feet.

312

00:37:36,792 --> 00:37:41,793

Where it is, that water is absolutely still. There are no currents, there's no swells, there's nothing.

313

00:37:42,793 --> 00:37:50,794

Now that alone, plus the fact that there's very advanced technology there, could make it an ideal testing place for UFOs.

314

00:37:51,794 --> 00:37:55,795

Are all of these underwater UFOs merely top secret military craft?

315

00:37:55,795 --> 00:38:02,795

Well, when you consider some of the abilities we've seen in these reports, the way the Shag Harbor UFO seemingly broke the laws of physics,

316

00:38:03,796 --> 00:38:11,797

the incredible underwater speed that far surpasses any known technology on the planet, just because the military is involved doesn't mean there's nothing extraterrestrial going on here too.

317

00:38:12,797 --> 00:38:22,798

It's entirely possible, with everything we know, that Autech is an undersea area 51, a place where alien technology is reverse engineered in complete secrecy.

318

00:38:23,798 --> 00:38:29,799

Whether underwater UFOs are military ships, intergalactic vessels, or both,

319

00:38:30,799 --> 00:38:37,800

Hangar One files point to a worldwide network of these craft, hiding just beyond our sight.

320

00:38:38,800 --> 00:38:47,802

As reports continue across the globe, MUFON investigators keep watch above us and below.
