

1

00:00:00,591 --> 00:00:15,593

MUSIC

2

00:00:15,593 --> 00:00:20,094

January 14th, 2002.

3

00:00:20,094 --> 00:00:23,094

The big sandy region, Kentucky.

4

00:00:23,094 --> 00:00:27,095

A coal train is traveling from Russell, Kentucky

5

00:00:27,095 --> 00:00:29,595

when one of the two conductors on board the train

6

00:00:29,595 --> 00:00:33,096

spots a light up ahead on an oncoming track.

7

00:00:33,096 --> 00:00:35,596

The conductor kills his light so that the oncoming crew

8

00:00:35,596 --> 00:00:38,097

isn't blinded.

9

00:00:38,097 --> 00:00:41,097

The conductors expect to see a train when they round the bend,

10

00:00:41,097 --> 00:00:45,098

but that's not what happens.

11

00:00:45,098 --> 00:00:47,598

What they do see astounds them.

12

00:00:47,598 --> 00:00:52,599

To the right of the tracks are two unidentified objects

13

00:00:52,599 --> 00:00:55,599

hovering over the river.

14

00:00:55,599 --> 00:00:58,600

These crafts appear to be scanning the river with spotlights

15

00:00:58,600 --> 00:01:02,600

and they seem to be approaching their train.

16

00:01:02,600 --> 00:01:05,101

The conductor's surprise at seeing these objects

17

00:01:05,101 --> 00:01:08,101

quickly turns to fear when it seems that they are now

18

00:01:08,101 --> 00:01:13,102

targeting the train.

19

00:01:13,102 --> 00:01:16,102

As the UFOs move towards the train,

20

00:01:16,102 --> 00:01:19,603

the conductors notice some unusual characteristics

21

00:01:19,603 --> 00:01:25,104

unlike anything they have ever seen.

22

00:01:25,104 --> 00:01:28,104

The UFOs look like metallic silver discs.

23

00:01:28,104 --> 00:01:30,105

They don't have any visible windows,

24

00:01:30,105 --> 00:01:32,105

but the base is covered in colored lights.

25

00:01:32,105 --> 00:01:34,605

The disc measures about 10 feet high

26

00:01:34,605 --> 00:01:39,606

and approximately 18 to 20 feet in diameter.

27

00:01:39,606 --> 00:01:42,606

With the UFOs in clear view,

28

00:01:42,606 --> 00:01:46,607

the train begins to malfunction.

29

00:01:46,607 --> 00:01:49,608

Suddenly the train's computers start flashing in and out

30

00:01:49,608 --> 00:01:53,608

and this pedometer goes berserk.

31

00:01:53,608 --> 00:01:56,609

The conductors have no idea what's happening

32

00:01:56,609 --> 00:02:03,110

and are completely unprepared for what takes place next.

33

00:02:03,110 --> 00:02:10,111

One of them notices another light coming straight at them.

34

00:02:10,111 --> 00:02:14,111

That light in front of them turns out to be a third UFO

35

00:02:14,111 --> 00:02:17,112

and as they round a corner it's headed right towards them.

36

00:02:17,112 --> 00:02:20,112

There is no time to react.

37

00:02:23,613 --> 00:02:28,613

The train is moving towards the train.

38

00:02:28,613 --> 00:02:33,614

The train is moving towards the train.

39

00:02:33,614 --> 00:02:39,615

Were these UFOs intentionally pursuing this train?

40

00:02:39,615 --> 00:02:44,616

Or was it simple curiosity gone wrong?

41

00:02:44,616 --> 00:02:48,616

Hangar 1's files contain hundreds of reports of UFOs

42

00:02:48,616 --> 00:02:53,617

that appear to target specific objects and individuals.

43

00:02:53,617 --> 00:02:56,618

You question whether you are chosen.

44

00:02:56,618 --> 00:03:02,619

Is this a random event or is this something that is actually personal to me?

45

00:03:02,619 --> 00:03:08,619

Is it possible that some people are actually hunted by UFOs?

46

00:03:08,619 --> 00:03:11,620

Could you be next?

47

00:03:11,620 --> 00:03:17,621

Mufon Open, their most terrifying UFO pursuits, right now.

48

00:03:21,621 --> 00:03:27,622

The Mutual UFO Network, known as Mufon, is an independent organization

49

00:03:27,622 --> 00:03:29,623

not bound to any government.

50

00:03:29,623 --> 00:03:34,623

They investigate reports of UFO sightings from around the world.

51

00:03:34,623 --> 00:03:40,624

Over the past five decades, they have collected more than 70,000 files

52

00:03:40,624 --> 00:03:45,625

stored at a secure location known as Hangar 1.

53

00:03:45,625 --> 00:03:51,626

Now, Mufon is granting access to their fast archive.

54

00:03:51,626 --> 00:03:55,627

These are the files of Hangar 1.

55

00:04:01,627 --> 00:04:09,629

Inside Hangar 1, Mufon files contain many incidents of UFO chases.

56

00:04:09,629 --> 00:04:12,629

While some of these pursuits seem non-threatening,

57

00:04:12,629 --> 00:04:18,630

others have resulted in violent and dangerous encounters.

58

00:04:18,630 --> 00:04:24,631

Such is the case of a Kentucky coal train that was not only pursued,

59

00:04:24,631 --> 00:04:27,631

but hit by a UFO.

60

00:04:27,631 --> 00:04:32,632

What was this UFO targeting and why?

61

00:04:32,632 --> 00:04:37,633

And would the aftermath provide any answers?

62

00:04:39,633 --> 00:04:52,635

The conductors fear for their lives when the UFO hits the train.

63

00:04:52,635 --> 00:04:54,636

They hear the sound of scraping metal,

64

00:04:54,636 --> 00:04:57,636

but the train's momentum keeps it barreling forward

65

00:04:57,636 --> 00:05:00,636

until it finally stops two miles up the tracks.

66

00:05:02,637 --> 00:05:06,637

The train sustains serious damage from the impact.

67

00:05:06,637 --> 00:05:11,638

The conductors look up and the other two UFOs are still hovering in the distance.

68

00:05:11,638 --> 00:05:19,639

Of course, they're wondering if these things are going to come back for more.

69

00:05:19,639 --> 00:05:22,640

What I want to know about these craft that are frightening people

70

00:05:22,640 --> 00:05:27,641

and putting on light displays is what in the world is the purpose of such an agenda.

71

00:05:27,641 --> 00:05:32,641

You know, why is something flying towards a train like that?

72

00:05:32,641 --> 00:05:35,642

The train is now sitting outside Russell, Kentucky.

73

00:05:35,642 --> 00:05:37,642

Smoke pouring out from the impact.

74

00:05:37,642 --> 00:05:41,643

And the conductors are feeling lucky to be alive.

75

00:05:41,643 --> 00:05:45,643

The conductors at this point can't even comprehend what just happened.

76

00:05:45,643 --> 00:05:49,644

A UFO just crashed into their train.

77

00:05:49,644 --> 00:05:52,644

And seeing those two UFOs still hovering in the distance,

78

00:05:52,644 --> 00:05:58,645

the conductors brace themselves for a possible second encounter.

79

00:05:58,645 --> 00:06:01,646

But suddenly two UFOs had appeared along their side,

80

00:06:01,646 --> 00:06:03,646

danishing the thin air.

81

00:06:08,647 --> 00:06:14,648

With the UFOs now gone, the conductors feel safe enough to inspect the train

82

00:06:14,648 --> 00:06:16,648

and assess the damage.

83

00:06:16,648 --> 00:06:20,649

The second locomotive was completely demolished and smoking.

84

00:06:20,649 --> 00:06:24,649

The two cars looked as though an enormous hammer had struck them.

85

00:06:25,649 --> 00:06:31,650

It's unbelievable to think that a UFO encounter could end up with such destruction.

86

00:06:31,650 --> 00:06:37,651

But in their initial inspection, the conductors didn't see any sign of UFO wreckage.

87

00:06:37,651 --> 00:06:42,652

The conductors have no idea why they were attacked

88

00:06:42,652 --> 00:06:48,653

and are puzzled by what kind of craft could escape undamaged after hitting the train.

89

00:06:48,653 --> 00:06:53,654

Conductors call their dispatcher in Jacksonville, Florida to report what happened.

90

00:06:54,654 --> 00:06:58,654

The dispatcher instructs them to try to make it to Paintsville Yard,

91

00:06:58,654 --> 00:07:00,655

a station that's no longer in use.

92

00:07:00,655 --> 00:07:04,655

The conductors head to the abandoned station,

93

00:07:04,655 --> 00:07:07,656

and when they arrive, they're stunned.

94

00:07:12,656 --> 00:07:14,657

This station was no longer in use,

95

00:07:14,657 --> 00:07:19,657

so they're totally surprised to suddenly see all this personnel and activity there.

96

00:07:20,658 --> 00:07:23,658

As soon as they pull into the station,

97

00:07:23,658 --> 00:07:27,659

an army of workers immediately start taking apart the train.

98

00:07:27,659 --> 00:07:32,659

The only thing missing are railroad officials who are nowhere to be found.

99

00:07:34,660 --> 00:07:39,660

A well-orchestrated operation is now underway to investigate the scene.

100

00:07:42,661 --> 00:07:46,662

While the conductors expected that the focus would be on what collided with the train,

101

00:07:46,662 --> 00:07:50,662

they never imagined that the investigation would shift to themselves.

102

00:07:52,662 --> 00:07:58,663

Was the UFO more interested in the conductors than the train it hit?

103

00:07:58,663 --> 00:08:01,664

A guy by the name of Patterson greets the train conductors

104

00:08:01,664 --> 00:08:05,664

and brings them into what used to be the old yard office.

105

00:08:05,664 --> 00:08:11,665

The conductors are questioned in detail about their terrifying encounter.

106

00:08:12,665 --> 00:08:16,666

This man, Patterson, tells them that they'll have to undergo a series of questions

107

00:08:16,666 --> 00:08:22,667

and mandatory medical tests for their own protection before they're permitted to leave.

108

00:08:23,667 --> 00:08:25,667

Mandatory medical tests?

109

00:08:25,667 --> 00:08:30,668

This is almost as if they already knew that these kind of pursuits had happened to others

110

00:08:30,668 --> 00:08:33,669

and knew what kind of dangers these conductors were exposed to.

111

00:08:33,669 --> 00:08:37,669

Were they zapped when the UFOs zeroed in on them?

112

00:08:42,670 --> 00:08:46,671

Were the UFOs targeting the conductors all along?

113

00:08:46,671 --> 00:08:49,671

And if so, why?

114

00:08:50,671 --> 00:08:53,672

If we were a space-faring race, what would we do?

115

00:08:53,672 --> 00:08:56,672

And what do we do with animals when we study animals?

116

00:08:56,672 --> 00:09:01,673

We pursue them, we capture them, we experiment on them.

117

00:09:01,673 --> 00:09:07,674

So it is not outside the range of scientific facts that we would do the same thing.

118

00:09:07,674 --> 00:09:09,674

So why wouldn't they do it?

119

00:09:09,674 --> 00:09:11,674

That's how I look at that.

120

00:09:14,675 --> 00:09:19,676

When the conductors finally leave, now they're worried that if they go public with their experience,

121

00:09:19,676 --> 00:09:22,676

they might face ridicule or even lose their jobs.

122

00:09:22,676 --> 00:09:26,677

Instead, they file an anonymous report with MUFON.

123

00:09:27,677 --> 00:09:31,677

This is a difficult case to investigate because now no one is talking.

124

00:09:31,677 --> 00:09:34,678

But we've been able to corroborate the details.

125

00:09:34,678 --> 00:09:40,679

So we do know that a train traveling this route on that day did encounter problems at the times described.

126

00:09:40,679 --> 00:09:45,680

And interestingly, this event occurred in the Big Sandy region of eastern Kentucky,

127

00:09:45,680 --> 00:09:49,680

which has long been a hotspot for UFO activity.

128

00:09:51,680 --> 00:09:57,681

As we watch the skies for signs of UFOs, are they actually watching us?

129

00:09:57,681 --> 00:10:00,682

Waiting to make their move?

130

00:10:00,682 --> 00:10:07,683

And are there patterns to be found through different individuals who have been pursued by these craft?

131

00:10:07,683 --> 00:10:14,684

There's a range of these encounters and some people feel it seems to be personally tracking you.

132

00:10:14,684 --> 00:10:18,685

This is frightening, I'm gonna say in hindsight. Why me?

133

00:10:19,685 --> 00:10:24,685

Up next, two women find themselves chased by a UFO.

134

00:10:25,686 --> 00:10:30,686

And later, generations of the same family are hunted.

135

00:10:31,687 --> 00:10:35,687

Blasts of searing hot air radiate from the UFO's base.

136

00:10:35,687 --> 00:10:39,688

The incredible details when we return.

137

00:10:54,690 --> 00:10:58,691

Thousands of UFO encounters are reported every year.

138

00:10:58,691 --> 00:11:04,692

Many that involve witnesses who claim to be pursued by aggressive flying objects.

139

00:11:04,692 --> 00:11:10,692

And in some cases, the victims suffer lasting emotional and physical damage.

140

00:11:12,693 --> 00:11:22,694

MUFON investigators are looking for patterns hoping to find answers that will reveal why some people may actually be targeted by UFOs.

141

00:11:25,695 --> 00:11:32,696

Spring 1995, Wedoui, Alabama

142

00:11:34,696 --> 00:11:42,697

At 7pm in the evening, six women are traveling to their weekly bingo game in Anniston, just north of Wedoui, Alabama.

143

00:11:42,697 --> 00:11:48,698

62-year-old Barbara Smith, a retired nurse's aide, is with five fellow church members driving in a van.

144

00:11:49,698 --> 00:11:56,699

Smith and her friends make this trip to Anniston weekly, so they're very familiar with this route.

145

00:11:56,699 --> 00:12:04,701

As they pass by a local poultry plant, they notice a large light above the building they've never seen before.

146

00:12:04,701 --> 00:12:15,702

Just as one of the witnesses inside the van comments that the poultry plant owner must have put up a new light installation on the property, the light begins to move.

147

00:12:19,703 --> 00:12:25,704

This light that everyone in the van saw suddenly transforms into a moving orb of light.

148

00:12:25,704 --> 00:12:30,705

The orb travels toward the roadway and actually starts keeping pace with the van.

149

00:12:34,705 --> 00:12:41,706

As they continue to drive, the orb's altitude is changing frequently, but it mainly stays to one side of the van.

150

00:12:41,706 --> 00:12:44,707

The site Smith happens to be sitting on.

151

00:12:48,707 --> 00:12:52,708

Now the orb is making rapid movements and getting as close as 50 feet from the van.

152

00:12:52,708 --> 00:12:56,708

It's dropping down to their isle, shooting back up above the tree.

153

00:12:59,709 --> 00:13:03,710

These women are scared. They've never seen anything like this.

154

00:13:04,710 --> 00:13:13,711

Until now, the women thought they were safe inside the van, but start to believe they are actually being pursued and targeted by this light.

155

00:13:13,711 --> 00:13:22,712

As the van continues down the road, the mysterious orb suddenly shines an intense bright beam of light directly where Smith and her friend are sitting.

156

00:13:24,713 --> 00:13:29,713

When this beam shines into Smith's window, she sees something totally bizarre.

157

00:13:31,714 --> 00:13:35,714

Smith sees what she describes as a peculiar little man projected within the light.

158

00:13:36,715 --> 00:13:39,715

Smith's friend also sees a figure within the light.

159

00:13:39,715 --> 00:13:44,716

The passengers are terrified. No one knows exactly what's going on. It's chaos.

160

00:13:51,717 --> 00:13:59,718

I've actually experienced something very similar to this where as soon as we noticed this thing, it seemed to zoom right in on us.

161

00:13:59,718 --> 00:14:03,719

This is frightening to think about. Why me?

162

00:14:04,719 --> 00:14:10,720

The chase continues for miles until the van arrives at an intersection.

163

00:14:10,720 --> 00:14:16,721

When they get to the intersection, as quickly as the light came upon them, it suddenly disappears.

164

00:14:22,722 --> 00:14:25,722

The women say the light vanished behind a field.

165

00:14:26,722 --> 00:14:31,723

Smith states that the light launched up at a steep angle, leaving a streak through the sky.

166

00:14:33,723 --> 00:14:40,724

The bright orb may have ended its pursuit, but for two of the women, the ordeal is far from over.

167

00:14:42,725 --> 00:14:50,726

Here's what's even more incredible. The next morning, Smith has dark circles on her cheeks and blisters on her eyes, and her eyes have changed color.

168

00:14:50,726 --> 00:14:55,726

They'd been brown her whole life, and now one is blue and the other is green.

169

00:14:55,726 --> 00:14:59,727

And for nearly three weeks after the incident, she has constant migraine.

170

00:15:03,728 --> 00:15:08,728

Smith isn't the only witness physically affected by this encounter.

171

00:15:08,728 --> 00:15:15,730

Smith calls the woman who sat on her side of the van during the incident and asks if she's experiencing any issues since the sighting.

172

00:15:15,730 --> 00:15:22,731

Her friend confirms that she has, and both witnesses decide to receive medical attention at the local hospital.

173

00:15:24,731 --> 00:15:31,732

Whatever energy source they are using may possess the potential to cause real physical damage, such as burning and radiation.

174

00:15:31,732 --> 00:15:36,733

And it's the unlucky few individuals who get close enough and suffer these consequences.

175

00:15:38,733 --> 00:15:47,734

Despite the physical effects these women experienced, some experts explain the orb as possibly being a case of ball lightning.

176

00:15:50,735 --> 00:15:55,736

Ball lightning is one of those interesting atmospheric effects that we still don't fully understand.

177

00:15:55,736 --> 00:16:01,736

It generally occurs in thunderstorms after lightning strikes, and it basically is what it sounds like.

178

00:16:01,736 --> 00:16:05,737

It's a glowing ball of light and electrical discharge and energy.

179

00:16:05,737 --> 00:16:10,738

I've seen statistics like one in 30 people will see it in their life, maybe one in a hundred.

180

00:16:11,738 --> 00:16:19,739

However, during their encounter, none of the witnesses or the Weather Service reported any thunderstorms in the area.

181

00:16:20,739 --> 00:16:27,740

It's very difficult to suggest this mysterious light could be anything man-made, or any explainable natural phenomenon.

182

00:16:27,740 --> 00:16:37,742

There's nothing we know of with the ability to cause such physical damage as Smith described, or travel at varying speeds over an extended period of time.

183

00:16:37,742 --> 00:16:46,743

This unusual orb-like craft chased the van intentionally, and it's impossible to explain the entities that the women saw within the light.

184

00:16:46,743 --> 00:16:52,744

But without question, this object seemed to exhibit some form of heightened intelligence.

185

00:16:55,745 --> 00:16:57,745

Stories like these are frightening.

186

00:16:57,745 --> 00:17:07,746

It makes you wonder how many other encounters like these have there been, where people are afraid to come forward out of fear of being ridiculed or other repercussions.

187

00:17:07,746 --> 00:17:12,747

You also have to wonder if this can happen to you once, can it happen again?

188

00:17:13,747 --> 00:17:22,749

As Mufan investigates further, it seems that not only individuals can be targeted, but entire families as well.

189

00:17:26,749 --> 00:17:30,750

Up next, a family fishing trip turns horribly wrong.

190

00:17:30,750 --> 00:17:35,751

And they're frantically trying to reach the shoreline before this UFO can get to them.

191

00:17:36,751 --> 00:17:43,752

When we return, Hangar 1 digs deeper to determine what attracts aggressive UFOs.

192

00:17:43,752 --> 00:17:45,752

And if you could be next.

193

00:17:56,754 --> 00:18:03,755

Within Mufan's 70,000 case files, there are many accounts of terrifying pursuits.

194

00:18:03,755 --> 00:18:07,756

People who report being hunted by UFOs.

195

00:18:07,756 --> 00:18:13,756

Is it possible that some UFOs are targeting specific individuals?

196

00:18:15,757 --> 00:18:17,757

And if so, why?

197

00:18:18,757 --> 00:18:27,759

One case file reveals the extraordinary experiences of a New England family that has been hunted by UFOs for decades.

198

00:18:34,760 --> 00:18:40,761

Summer 1967, Leifert Pond, New Hampshire.

199

00:18:40,761 --> 00:18:45,761

14-year-old Tom Schilling is visiting his cousin in Belmont, New Hampshire.

200

00:18:45,761 --> 00:18:49,762

The two boys are going on a fishing trip to Leifert Pond.

201

00:18:57,763 --> 00:19:01,764

The boys are fishing for catfish with their uncles at a pond near Belmont.

202

00:19:03,764 --> 00:19:07,765

A thick fog hangs a few hundred feet above the pond.

203

00:19:07,765 --> 00:19:15,766

Tom notices as the fog rolls in, everything seems to become very still, similar to the calm before a storm.

204

00:19:22,767 --> 00:19:25,767

Tom's uncles start looking around nervously.

205

00:19:26,768 --> 00:19:34,769

Tom isn't sure why they're acting so strange until very abruptly his uncles tell them it's time to leave.

206

00:19:36,769 --> 00:19:39,769

At that moment, Tom spots something odd.

207

00:19:41,770 --> 00:19:45,770

In the distance, there's a golden glow coming from the creek that feeds into the pond.

208

00:19:46,771 --> 00:19:51,771

This light hovers about 15 feet above the water. It's moving very slowly.

209

00:19:51,771 --> 00:19:55,772

And then it starts to pulsate, emitting a very low talent.

210

00:19:55,772 --> 00:19:59,773

The uncles are now desperate to get the boys to safety.

211

00:20:03,773 --> 00:20:07,774

The uncles now have the boat going as fast as it can.

212

00:20:07,774 --> 00:20:11,774

Tom watches the light as it gets closer and closer.

213

00:20:12,774 --> 00:20:17,775

Stodging, overhanging branches, and it's even moving between the trees close to the shoreline.

214

00:20:18,775 --> 00:20:24,776

And at this point, the light's only about 75 feet behind them when they finally reach the shore.

215

00:20:26,777 --> 00:20:30,777

Once on shore, the uncles know they have to move quickly.

216

00:20:31,777 --> 00:20:34,778

John and Bill yell at the boys to jump into their truck.

217

00:20:34,778 --> 00:20:40,779

And behind them, they see that the light suddenly stops and redirects itself on a path towards their truck.

218

00:20:40,779 --> 00:20:44,779

As they take off down the road, Tom keeps an eye on the light from the back of the truck.

219

00:20:47,780 --> 00:20:52,781

When they round the first bend in the road, he sees the light leaving the shoreline and picking up speed.

220

00:20:55,781 --> 00:21:01,782

Everyone in the truck is terrified that this UFO actually seems to be out to get them.

221

00:21:05,783 --> 00:21:10,783

The uncles are now gunning the truck at 50 miles an hour. But the UFO is right behind them.

222

00:21:11,783 --> 00:21:16,784

It makes a sharp right angle turn and shoots straight up into the sky.

223

00:21:22,785 --> 00:21:26,786

Everyone in the truck breathes a sigh of relief.

224

00:21:27,786 --> 00:21:34,787

What's interesting about this case is that both uncles seem to know that something was coming and that it was bad news for them.

225

00:21:34,787 --> 00:21:38,788

You have to ask if they were being targeted for some reason.

226

00:21:40,788 --> 00:21:47,789

It turns out this isn't the first time the family has experienced this kind of terror.

227

00:21:48,789 --> 00:22:00,791

MUFON investigated this case in 1981 and in fact we found that the Shilling family had a long history of close encounters with UFOs in New Hampshire, which explains the uncle's reaction.

228

00:22:03,791 --> 00:22:08,792

Since about 1930, multiple members of the Shilling family have had experiences with UFOs.

229

00:22:08,792 --> 00:22:14,793

In fact, almost every single male in the Shilling family has had at least one UFO encounter.

230

00:22:15,793 --> 00:22:21,794

It's difficult to know what these UFOs are after, but they're definitely seem to be patterns here.

231

00:22:25,795 --> 00:22:30,795

Summer 1969, Belmont, New Hampshire.

232

00:22:31,796 --> 00:22:38,797

On a humid summer night, Sam Shilling is taking a joyride through the dirt roads behind his uncle's home in Belmont.

233

00:22:40,797 --> 00:22:46,798

Shilling turns up the radio, it turns off his headlights, so he's driving only by the light of the full moon.

234

00:22:48,798 --> 00:22:56,799

As Shilling takes a left-hand turn, he sees a faint light up ahead through a grove of trees. It looks like a flare about 50 feet away.

235

00:22:57,799 --> 00:23:05,801

All of a sudden, there's interference on Shilling's car radio. The interference sounds like static noise and starts to get progressively louder.

236

00:23:07,801 --> 00:23:14,802

Shilling makes a turn fairly fast, about 30 miles per hour. At this point, the noise on his car radio is unbearable.

237

00:23:15,802 --> 00:23:19,803

Shilling rounds the corner and is stunned by what he sees.

238

00:23:20,803 --> 00:23:28,804

Stretching across the entire road is a dark, cigar-shaped object about 40 feet long. It's just hovering there in the middle of the road.

239

00:23:30,804 --> 00:23:35,805

The craft is cylindrical and it has a thick, leg-like device that angles out onto the ground.

240

00:23:36,805 --> 00:23:42,806

Shilling realizes the massive craft isn't moving and he's about to run right into it.

241

00:23:43,806 --> 00:23:49,807

Shilling slams on his brakes, but it's too late and he skids a quarter of the way under the object.

242

00:23:50,807 --> 00:23:58,809

As Shilling's car slides under the craft, his antenna strikes the metallic, leg-like structure, creating the most unbelievable static upon contact.

243

00:24:03,809 --> 00:24:11,811

Shilling tries to reverse, but he can't get it into gear. He's fumbling with the shift and finally he's able to reverse his car just enough to snap the antenna back

244

00:24:11,811 --> 00:24:19,812

before the vehicle stalls. Immediately, the radio's interference stops, but Shilling is still trapped under the UFO.

245

00:24:20,812 --> 00:24:24,813

Shilling sees the pulsating lights of the craft getting closer.

246

00:24:25,813 --> 00:24:30,814

Shilling is in a panic. He knows he's being pinned down by some kind of UFO.

247

00:24:31,814 --> 00:24:40,815

He doesn't want to leave the car and face this giant thing. All this is racing through his mind in an instant and he thinks, this is it. This is where I'm going to die.

248

00:24:42,815 --> 00:24:45,816

The UFO's lights pulse brighter.

249

00:24:47,816 --> 00:24:56,817

He looks out his window to try to figure out what the heck this object could possibly be. Suddenly Shilling feels intense heat coming through his windshield.

250

00:24:57,818 --> 00:25:00,818

He hears a high-pitched whine that sounds like a table saw.

251

00:25:01,818 --> 00:25:12,820

Shilling's windshield is now literally three feet below the UFO's base. He sees a brilliant pulsating light at the bottom of the UFO. It's as blinding as a welding torch.

252

00:25:14,820 --> 00:25:20,821

The UFO begins to rise up and Shilling decides to escape.

253

00:25:21,821 --> 00:25:29,822

As Shilling jumps out of his car to make a run for it, blasts of searing hot air radiate from the UFO's base.

254

00:25:30,823 --> 00:25:33,823

Shilling's caught in an intense whirlwind.

255

00:25:34,823 --> 00:25:42,824

Shilling climbs back inside his car. He again tries to move it out from under the UFO.

256

00:25:43,825 --> 00:25:51,826

He's now able to throw the car into reverse and he floors it. The car spins backward about 40 feet and stalls out.

257

00:25:54,826 --> 00:26:03,828

The brilliant light at the base of the UFO flares up for a second or two. Instantly there's a blinding flash and the UFO vanishes out of sight.

258

00:26:04,828 --> 00:26:15,829

Shilling is just sitting in his car in disbelief. He sees that the inside of his car is completely littered with pine needles and sand.

259

00:26:16,830 --> 00:26:20,830

He estimates that the entire event lasted about 30 to 40 seconds.

260

00:26:21,830 --> 00:26:27,831

The next day, John's uncles drive to the samples to see if there's any trace of this incident.

261

00:26:27,831 --> 00:26:32,832

And they find that the tree limbs and small birches in the area are now bent back from the UFO's blast.

262

00:26:33,832 --> 00:26:41,833

They also find a circular depression about 16 inches in diameter and 4 inches deep in the spot where Shilling had seen the leg-like structure located.

263

00:26:42,834 --> 00:26:48,834

Shilling's family is left wondering why UFOs are targeting them once again.

264

00:26:50,835 --> 00:26:58,836

This resonates with me as an abduction encounter. These beings, somehow they cherry pick, they pick and choose.

265

00:26:58,836 --> 00:27:07,837

And I think they enjoy this idea that they're not just a bunch of people, they're a bunch of people who are not just a bunch of people.

266

00:27:07,837 --> 00:27:12,838

They're a bunch of people who choose. And I think they enjoy this idea that we don't know who they are.

267

00:27:13,838 --> 00:27:22,840

We see case after case where whole families, in some cases going back several generations, have had these kinds of events, these encounters in their lives.

268

00:27:25,840 --> 00:27:36,842

What is unbelievable to me is this. I and other researchers too, I get hundreds of emails every single day with people that want to talk and tell me about their experiences.

269

00:27:37,842 --> 00:27:40,842

And great detail. They are totally scared.

270

00:27:41,842 --> 00:27:44,843

But what are these witnesses afraid of?

271

00:27:44,843 --> 00:27:54,844

It's quite possible that these other cases of the conductors, the ladies and the Shilling encounters were part of a bigger, unsuccessful plan to abduct these victims.

272

00:27:55,845 --> 00:28:02,846

Does this case suggest that the ultimate agenda in some of these UFO pursuits is abduction?

273

00:28:02,846 --> 00:28:05,846

Or could it be something else entirely?

274

00:28:06,846 --> 00:28:07,846

Up next.

275

00:28:08,847 --> 00:28:13,847

The light size and intensity start to grow as it gets closer and closer to the camper.

276

00:28:14,847 --> 00:28:21,849

When we return, one couple barely survives a camping trip after they are hunted by a UFO.

277

00:28:35,851 --> 00:28:44,852

Hanger 1 files contain numerous cases of individuals who have been pursued by UFOs across both land and water.

278

00:28:46,852 --> 00:28:52,853

Is it possible that some individuals may be targets for abduction or experimentation?

279

00:28:54,854 --> 00:29:01,855

Still, in other cases, the agenda of these UFOs remains unknown.

280

00:29:05,855 --> 00:29:10,856

Summer 1968. Roseville, California.

281

00:29:12,856 --> 00:29:20,857

In the summer of 1968, Los Angeles police officer James Turner and his wife are driving their camper to Oregon for a fishing trip.

282

00:29:22,858 --> 00:29:29,859

It's just after midnight. James reaches an isolated stretch of road and notices a bright white light in the sky that's keeping pace with this camper.

283

00:29:30,859 --> 00:29:39,860

This light that James sees in a distance looks like a landing light on an airplane, but then all of a sudden the light starts moving up and down in a way no aircraft is capable.

284

00:29:40,860 --> 00:29:44,861

This unusual light continues to pursue their camper down the road.

285

00:29:45,861 --> 00:29:51,862

James keeps an eye on the strange light for the next four miles when he notices three more lights on his right and left.

286

00:29:52,862 --> 00:29:55,863

Now all of these lights are keeping pace with this camper.

287

00:29:55,863 --> 00:30:05,864

James has a bad feeling about this. He's thinking that some kind of intelligent craft is intentionally following his camper and he has no idea why.

288

00:30:07,865 --> 00:30:12,865

So he wakes up his wife to show her the lights because he's sure these aren't ordinary aircrafts.

289

00:30:13,865 --> 00:30:21,867

James' wife dismisses her husband's story until one of the lights starts moving directly towards them.

290

00:30:26,867 --> 00:30:33,869

Suddenly James and his wife start to panic. They're in the middle of nowhere and something is tracking them.

291

00:30:34,869 --> 00:30:39,869

Not only is the object following them, it also appears to be getting closer.

292

00:30:40,870 --> 00:30:45,870

The light size and intensity start to grow as it gets closer and closer to the camper.

293

00:30:46,870 --> 00:30:51,871

As it approaches, the light shines a bluish green beam or cone shaped light towards the ground.

294

00:30:51,871 --> 00:30:57,872

Frightened, James pulls the camper over to the side of the road and leaves the headlights on and the motor running.

295

00:30:58,872 --> 00:31:03,873

James and his wife now watch in terror as the UFO heads straight for them.

296

00:31:04,873 --> 00:31:10,874

The light continues its path directly towards the camper, finally giving the turners a clear view of the craft.

297

00:31:11,874 --> 00:31:14,875

The UFO is in the shape of a cigar about 40 to 50 feet in length.

298

00:31:15,875 --> 00:31:19,875

On either side there are what appear to be two engines. There aren't any wings or even a tail.

299

00:31:21,876 --> 00:31:26,877

This is no conventional aircraft. The object's speed is too slow for an ordinary airplane.

300

00:31:27,877 --> 00:31:33,878

It's flying more like a helicopter and its sound is unlike any helicopter or plane. It makes more of a whistling noise.

301

00:31:35,878 --> 00:31:40,879

Without thinking, James gets out of the camper to get a better look.

302

00:31:42,879 --> 00:31:45,879

The UFO slowly flies over the camper and it's huge.

303

00:31:46,880 --> 00:31:55,881

James now has a really clear view and sees the sharply defined bluish green beam is still shining onto the ground and covering an area of about 30 to 40 feet in diameter.

304

00:31:56,881 --> 00:32:05,882

To the turners relief, the UFO appears to lose interest in them and floats over the highway until it disappears above the trees.

305

00:32:06,883 --> 00:32:13,884

James can't believe what he has just seen. He and his wife are trying to figure out what just happened, but they have no explanation.

306

00:32:13,884 --> 00:32:19,885

Eventually, they resume driving and at about 2 a.m. they arrive at a rest stop in Roseville, California.

307

00:32:22,885 --> 00:32:26,886

The turners attempt to sleep, but the UFO soon returns.

308

00:32:29,886 --> 00:32:37,887

Mrs. Turner is woken by a loud whirring sound and she immediately recognizes this as the same sound

they heard coming from the UFO earlier that evening.

309

00:32:38,887 --> 00:32:43,888

She can't make out any object, but she is sure that sound is coming from the sky directly above her.

310

00:32:44,888 --> 00:32:52,890

It sounds like the UFO is hovering just above their camper, so she wakes up James yelling, the thing has come back, the thing has come back.

311

00:32:53,890 --> 00:32:59,891

James leaps up and runs out the camper, but as he's doing this, Mrs. Turner notices the sound is already beginning to dissipate.

312

00:33:01,891 --> 00:33:05,892

In the distance, James can see a dark object traveling away from the camper.

313

00:33:07,892 --> 00:33:13,893

Once again, the turners are relieved that the UFO did not cause any harm.

314

00:33:14,893 --> 00:33:19,894

During the rest of their drive up to Oregon, they had no further encounters.

315

00:33:22,894 --> 00:33:30,895

The turners didn't tell a soul about this experience until James confided in a fellow LAPD officer who convinced them to file a report with MoveOn.

316

00:33:31,895 --> 00:33:36,896

It's especially difficult for people in positions of authority to come forward with these kinds of claims.

317

00:33:37,896 --> 00:33:39,897

There's a real concern that their credibility could be harmed.

318

00:33:40,897 --> 00:33:47,898

The credibility of these things is so often challenged that all these people are delusional, they're crazy, they're hoaxing, they're lying.

319

00:33:48,898 --> 00:33:51,898

This isn't something you talk about, this wasn't going to be understood by anybody.

320

00:33:52,899 --> 00:34:05,901

What I find with witnesses, whether it is law enforcement, a teacher, or just somebody that works in the factory, they're asking me who they can talk to.

321

00:34:06,901 --> 00:34:12,902

And my advice, contact somebody locally, report it, contact MoveOn. These are important steps to take.

322

00:34:14,902 --> 00:34:17,902

MoveOn immediately investigates the turners' case.

323

00:34:18,903 --> 00:34:24,903

Our investigation didn't reveal any unusual electromagnetic or radiation readings on their camper.

324

00:34:25,904 --> 00:34:31,905

And unlike some other cases, the turners didn't suffer any physical impairments after this encounter. They were fortunate.

325

00:34:32,905 --> 00:34:39,906

While the turners might not have been physically harmed from the experience, they were still profoundly changed by the event.

326

00:34:40,906 --> 00:34:48,907

There are very confusing aspects of these experiences in the psychological impact of just seeing these incredible things.

327

00:34:49,907 --> 00:34:57,908

The awakening that occurs when you realize that we are not alone in the universe, it is life changing. It is life changing.

328

00:34:58,909 --> 00:35:07,910

In the late 70s, the Glendale California Police Department had a working relationship with MoveOn, something that we share with many other law enforcement departments around the country.

329

00:35:07,910 --> 00:35:11,911

They would call us if a UFO sighting came in so that we could go out and investigate.

330

00:35:15,911 --> 00:35:19,912

February 1, 1977, Glendale, California.

331

00:35:21,912 --> 00:35:31,914

On February 2, 1977, MoveOn received a call from a Sergeant Simpson reporting that a police helicopter spotted an unusual object the previous evening.

332

00:35:32,914 --> 00:35:40,915

Sergeant Simpson reports that two of his helicopter pilots were rattled by an incident that occurred the day before.

333

00:35:41,915 --> 00:35:47,916

Officers Roger Kane and Tim Jenkins are in their copter patrolling the Glendale area around 8.40 p.m.

334

00:35:54,917 --> 00:35:58,918

Officer Kane spots what appears to be a fixed wing aircraft.

335

00:35:59,918 --> 00:36:04,919

The two officers are struck by the object's odd behavior.

336

00:36:05,919 --> 00:36:11,920

This craft is flying very low, about 200 feet below the helicopter and moving fast at 100 miles per hour.

337

00:36:12,920 --> 00:36:16,920

The helicopters are going about 60 to 70 miles per hour, so this thing was cruising.

338

00:36:19,921 --> 00:36:24,922

They pursue the craft because nothing should be flying that low in that faster repopulated area.

339

00:36:25,922 --> 00:36:30,923

The craft has one yellowish-white-bright light, but no other identifiable navigation lights.

340

00:36:31,923 --> 00:36:36,923

The officers quickly realize that this is not a normal aircraft.

341

00:36:37,924 --> 00:36:42,924

After years on the force, these officers know how to recognize another pilot's flying lights.

342

00:36:43,925 --> 00:36:47,925

Most of them are strobe lights, either red or white, and they're very identifiable.

343

00:36:48,925 --> 00:36:50,926

This light was nothing like a strobe.

344

00:36:55,926 --> 00:37:02,927

Suddenly, the unidentified object shoots up towards their helicopter at an alarming speed.

345

00:37:03,928 --> 00:37:09,928

The object is now level with the helicopter, and the pilots can see that this is something they have never seen before.

346

00:37:15,929 --> 00:37:21,930

They also see an intense bright yellowish light that illuminates the entire craft from top to bottom.

347

00:37:25,931 --> 00:37:31,932

The officers panic when the UFO begins to follow their helicopters every move.

348

00:37:33,932 --> 00:37:39,933

Concerned the pilots bank the helicopter to the left, but amazingly the object mimics the helicopter's move perfectly.

349

00:37:40,933 --> 00:37:43,934

For the next two minutes, the helicopter and the object are in total sync.

350

00:37:44,934 --> 00:37:50,935

The officers attempt to contact dispatch, but their radio is no longer working.

351

00:37:51,935 --> 00:37:57,936

Now they're starting to think, is this UFO going to shoot them down? Is the helicopter going to malfunction?

352

00:37:58,936 --> 00:38:04,937

So out of fear, the pilots turn and head back to base, but the UFO stays right by their side.

353

00:38:06,937 --> 00:38:09,938

The UFO begins to close in.

354

00:38:10,938 --> 00:38:13,938

It makes a sudden move closer to the helicopter.

355

00:38:13,938 --> 00:38:20,939

Officer Kane quickly turns to the right, and this time the object pulls back to its original distance a few hundred feet away.

356

00:38:21,939 --> 00:38:27,940

This is like a cat and mouse game, and how can these pilots ever imagine that they might have an advantage over this UFO?

357

00:38:28,940 --> 00:38:34,941

Surprisingly, the UFO simply flies away, abandoning the hunt.

358

00:38:35,941 --> 00:38:45,943

After the UFO's aggressive approach and retreat, it rises up to about 500 feet, changes course towards the southeast, and zips off towards Chevy Chase Canyon.

359

00:38:46,943 --> 00:38:49,944

One minute was right in front of them, and the next instant it was gone.

360

00:38:52,944 --> 00:39:02,946

Because this incident involved police officers, Mufon heard about it pretty quickly, and we were able to check the nearby Hollywood Burbank Airport to see if the object had been detected on the radar.

361

00:39:02,946 --> 00:39:05,946

But unfortunately, nothing had been picked up.

362

00:39:08,946 --> 00:39:16,948

It's another case very similar to so many others that we have that shows that for whatever reason, some UFO's are not shy about engaging with a target.

363

00:39:17,948 --> 00:39:21,948

We have to keep in mind that this must be just the tip of the iceberg.

364

00:39:22,949 --> 00:39:27,949

There are so many cases out there, and the question is what is going on and why?

365

00:39:32,950 --> 00:39:42,952

Are these cases part of a more complex agenda? Are they connected to abductions? Or could it be something else entirely?

366

00:39:43,952 --> 00:39:49,953

It's perfectly conceivable that extraterrestrials represent a wide range of agendas.

367

00:39:50,953 --> 00:39:55,954

These entities that are coming here may not all be benevolent scientists, for example.

368

00:39:56,954 --> 00:40:02,955

They could be an earth equivalent of a teenager out on an excursion playing with the neighborhood cats or something.

369

00:40:03,955 --> 00:40:10,956

This might not be a sanctioned activity, as opposed to the more benevolent experiences that people like me have witnessed.

370

00:40:11,956 --> 00:40:17,957

Within Mufan's files are cases of harrowing UFO pursuits.

371

00:40:18,957 --> 00:40:23,958

Are these encounters random, or are some individuals actually selected?

372

00:40:24,958 --> 00:40:30,959

And is the purpose to cause physical harm, perhaps even to target certain people for abductions?

373

00:40:31,959 --> 00:40:36,960

Or, like pranksters, are they simply playing games with us?

374

00:40:36,960 --> 00:40:42,961

Whatever the reason, hopefully you won't find yourself hunted by a UFO.
