2022 05 23	Hidden Truth Show	https://youtu.be/mdDK4kNS5JI	How Putin Learned to Poison His Opponents	The Soviet Union had a long history with poisoning. It killed artists, writers, musicians, and even dancers. It killed them secretly, usually using poison to avoid accountability. Among its victims was Anna Pavlova, perhaps the greatest dancer ever, because she dared to defy Stalin. Sarah Wynne is the co-author of The Dancer and the Devil which traces Marxism's century-long fascination with poison and bioweapons. Putin has embraced the tactic, having carried out his own string of poisonings, most recently of opponent Alexei Navalny.

2022 05 09	Hidden Truth Show	https://youtu.be/701rF0y55X8	Life on Earth Likely Arrived on a Comet	Comets and asteroids have been colliding with the Earth from the beginning of time, most recently about 100 years ago in Siberia. George Howard is an expert on cosmic impacts. He says they have occurred far more often, and are far more likely to strike again than most scientists think. He helped discover that the "Younger Dryas" period (about 11000 to 10,000 BC), which brought on an ice age that led to the extinction of animals such as the woolly mammoth and saber-toothed tiger, was caused by an asteroid colliding with the Earth. While mainstream scientists have yet to accept the theory, he reminds us that experts were also slow to accept that the same type of collision caused the extinction of the dinosaurs 230 million years ago. He also reports that life on earth likely arrived via a comet.

In part II of our interview, he discusses his deep dive into the origins of COVID 19. He calls it a slow-motion Chernobyl. He concludes that Covid came not from the Wuhan Institute of Virology, as many have claimed, but from one of the many lesser-known Wuhan labs with terrible safety records. They create supervirulent viruses with poorly trained and paid lab technicians. They are known to sell infected research animals to local butchers. This likely explains the origins of COVID: from lab to wet market to humans.</p>	Transcript Link

As part of the deal, Russia and the U.S. agreed to “respect the independence and sovereignty and the existing borders of Ukraine . . . and that none of their weapons will ever be used against Ukraine except in self-defense.” Putin has embarked on a full-scale invasion of the country with the clear intention of overturning its government and taking over the country. Mark Bauerlein is an English Professor at Emory University and the author of “The Dumbest Generation Grows Up: From Stupefied Youth to Dangerous Adults.” He says the first generation to grow up in the digital age is a failure. They grew up starting at screens and now are lonely and purposeless. They are prone to fall for the utopian dreams of socialists and radical ideas of groups like Black Lives Matter in search of meaning. We are all now paying the price.

Steven Mosher is an expert on China, having been the first American social scientist permitted to do research in the country, and now having written a dozen books on the subject. His latest is “Bully of Asia: Why China’s Dream is the New Threat to World Order.” He says there is now little doubt that Covid-19 was a bioweapon developed in Wuhan. It may not have been released intentionally, but China ensured that once out it was not contained in China. The only way to stop China from doing it again, he says, is to make them pay reparations.

Conspiracy theories are not in favor today. In fact, many are censored by big tech and the mainstream media. But conspiracies surrounding the assassination of JFK, at least for now, are still permitted. Peter Janney is the author of "Mary's Mosaic: The CIA Conspiracy to Murder John F. Kennedy, Mary Pinchot Meyer, and Their Vision for World Peace." He says this conspiracy is factual, and it is time for America to come to terms with the fact that the deep state assassinated an American President. He asserts that his father, a top CIA official, was involved in the murder of JFK's mistress, Mary Pinchot Meyer, as part of a cover-up of the assassination.

In a stunning account of the NY Times' history, he explains how one family has controlled the news for decades, and over time has become less concerned with journalistic ethics and more concerned about pushing an agenda. The "1619 Project" is only the latest example, wherein the Times has pushed a provably false narrative, that the American Revolutionary War was fought to protect slavery, and is now turning it into curriculum to be taught to our children. He was in very good company there. But he became disillusioned when the school embraced "safe spaces," "cancel culture," and censorship of dissenting voices. He began studying economics and realized the utopian dream is actually very dangerous. When he renounced Marxism and the campus culture, he was ostracized by fellow professors and ultimately pushed out. In his new book, Thought Criminal, he provides dire warnings as to where all of this could lead.</p>	Transcript Link

What did an out-of-wedlock birth mean at the time and what caused Mary and Joseph to move to Bethlehem? Perhaps no one has researched these questions more deeply than Tim Keyes. The left seeks to diminish the greatness of America's founding because slavery was permitted. At the center of the battle over how to teach our children about our history is UCLA Professor Gary Nash, a Pulitzer prize finalist and author of over 20 books, including "Race and Revolution." He led a group that wrote the nation's first National History Standards almost 30 years ago. At the time he was lambasted for trying to re-write our history, but now acknowledges the movement to "cancel" U.S. history has gone too far.</p>	Transcript Link

The General is a friend of the computer shop owner’s family and as such they reached out to him for advice. The laptop had been in the hands of the FBI for many months, yet the emails showing that Joe Biden had in fact met with Burisma despite claiming he had not had apparently not made their way to the President or the public. The General helped get the information into the hands of Fox News, which allowed it to immediately verify the story when the New York Post first ran it.

While the Founders proclaimed we are all "created equal," progressives want to use government control to make us all have equality in all aspects of life: wealth, health, happiness, etc. It is a utopian view which history has shown always results in authoritarian control. The true radicals, Curry maintains, were the Founders, who created a society that for the first time said that your lineage does not matter. We are all born independent and free.	Transcript Link

He is best known for his controversial book, "The Myth of Heterosexual Aids." In the book he demonstrates how Dr. Anthony Fauci politicized AIDS research by claiming it showed that it was as much a heterosexual as a homosexual disease. Fumento says Fauci knew this was a lie, but perpetrated it to gain support for a cure. He says Fauci is now doing the same thing with Covid-19, intentionally overstating how deadly it is, especially to those other than the elderly and infirm. Fumento reveals CDC numbers that indicate the actual death rate is one-quarter of one percent. This puts it at twice as only twice as deadly as the flu, not ten times as Fauci claims. He also asserts that progressives dominate the upper echelon of healthcare experts, thus shutting everyone in to protect the elderly and infirm fits nicely with their "healthcare equity agenda." Individual liberty is not of great concern to them, nor is a capitalist economy.</p> <p>Support Hidden Truth Show by going to https://www.patreon.com/hiddentruthshow and pledging just \$5/month and receive access to Jim and special content and a Hidden Truth cap!</p> <p>Website: http://www.hiddentruthshow.com Facebook: http://www.facebook.com/hiddentruthshow Instagram: http://www.instagram/hiddentruthshow.com</p>

The biggest, and by far most underrated and untreated, is childhood trauma. It is the cause of almost everything that plagues adolescents and adults: drug and alcohol abuse, anxiety, depression, obesity, OCD, ADD, gender dysphoria, sociopathy, etc. It also explains that nurture, not nature, is the villain. SPACE: Attorney Examines Navy's Tic Tac UFO Patent

Ryan Cross is a physicist and expert patent attorney. He provides insight into the patent process and expert analysis of the U.S. Navy patent by inventor Salvatore Pais. The patent describes a spacecraft very similar to the Tic Tac UFOs shown on Navy videos from 2004 and 2015. Cross says the patent application was not filed with a request that it be kept confidential. It was originally denied by the patent examiner for failure to demonstrate that the invention can be enabled. It was issued only after high-level military intervention. Cross notes that the patent may very well be part of a U.S. military disinformation campaign designed to deceive China.

David Harris is a Professor at the University of Pittsburgh School of Law and author of "A City Divided: Race, Fear and the Law in Police Confrontations." We discuss "the talk" that black parents often feel obliged to give their children. What is "the talk?" Is it simply teaching your children to obey the police? All children should be taught that. Or is it teaching children that the police are racist? Is that a healthy message for children to hear?

Kevin Day Training Exercises Cancelled, Deemed Unsafe After Tic Tac Encounter	Kevin Day was on the Princeton as part of the Nimitz Strike Group working at the Combat Information Center ("CIC") where his job was to man the radar and identify everything that flew in the skies. He spotted the Tic Tacs on the ship's advanced Spy 1 radar system and through binoculars. He suggested to Captain Red Smith that planes be sent out to inspect the UFOs before commencing training exercises. The Captain agreed. Numerous airmen then saw Tic Tacs both through onboard cameras and with their own eyes. Based upon their reports, Day states that all exercises were cancelled due to safety concerns. Day also tells about a briefing he attended in San Diego with squadron leader David Fravor after the incident.	Transcript Link

When the alcoholic brain no longer gets the effects of the alcohol, the desire to drink naturally diminishes. It has proven to have a 78% success rate. We talk to Claudia Christian, former Babylon 5 actress and producer/narrator of the documentary, "One Little Pill." It saved her life. She is exasperated by Hollywood’s continued coddling of “Bohemian Rhapsody” director Bryan Singer despite the mountain of credible evidence that he has had inappropriate relations with underage boys. In the hopes that people will finally wake up, she comes forward publicly for the first time on the “Hidden Truth Show with Jim Breslo” with a new, first-hand account of Singer’s involvement with yet another underage boy.</p> <p>In 1999, the boy, who was 13 at the time, told her he was going with his “boyfriend” to film “X-Men” in Toronto, explaining that his boyfriend was the director, Bryan Singer. Approximately two years later, he told her Bryan had given him money to buy them new bathrobes, but also tearfully reported that Bryan, “doesn’t love me anymore” and had asked him to go find younger boys for him.</p> <p>Become a patron here: http://www.patreon.com/hiddentruthshow Website: http://www.hiddentruthshow.com Facebook: http://www.facebook.com/hiddentruthshow Instagram: http://www.instagram/hiddentruthshow.com YouTube: http://www.youtube.com/channel/UC6Lpl...</p>	Transcript Link

- 2018 07 23 Hidden Truth Show <https://youtu.be/UzHFO0bgA2s> VEGAS Vegas Officer Uses Toilet Washes Hands Before Heading to Shooter's Room! For months now we have wondered why it took police over an hour to breach Paddock's door from the time the shooting started. New police bodycam video made available in full only by the Hidden Truth show podcast with Jim Breslo, explains why. The video shows officers taking their time clearing floors 28-31 before finally blowing down Paddock's door, even though for all they knew shooting could have resumed at any time upon concertgoers below! Incredibly, the officer with the bodycam takes time to relieve himself in a suite located directly under Paddock's suite, even washing his hands afterwards! Minutes later he is part of the team that finally breaches Paddock's door with guns raised, not knowing what was on the other side.

- 2018 07 23 Hidden Truth Show <https://youtu.be/wJDG0tj8YG8> VEGAS Las Vegas Shooter Stephen Paddock's Wild Mandalay Bay Sex Party We know about Paddock's meticulous planning of the largest mass shooting in American history. We now know that the planning likely included a "last hurrah" sex party with prostitutes, sex toys, and cocaine. Amidst the 22 rifles, handguns, ammunition, drills, and snorkel equipment we now know Paddock remembered to bring a vibrator! We also now know from registration information that at least 3 women, Joanne, Laura, and Katie, visited his room. And if you listen to our interview with his brother Bruce on Apple Podcasts, you will note that he says his brother essentially overdosed on "hookers and coke." For the first time the Hidden Truth show makes available to the public the entire bodycam video from one of the first officers to enter Paddock's room after the door was blown. In it you hear: Officer 1: "What's inside [the bag] with wires on it?" Officer 2: "A vibrator." Officer 1: "Huh?" Officer 2: "A vibrator!" Officer 1: "Is it really?!"

2018 07 17 Hidden Truth Show <https://youtu.be/Nn4jtm6Tuu4> Las Vegas Police Pursuit Shooting Shocking Full Bodycam Video! Real life is sometimes better than the movies. Las Vegas Metropolitan Police Officer William Umana deserves a medal for bravery based upon the incredible bodycam video the police released today from a high speed car chase in downtown Las Vegas on July 11. Officer Umana was shot at 34 times, but did not give up the pursuit. Umana himself fired back 31 shots, even reloading as he jumped out of his car and resumed firing at the vehicle which had run into a wall. He killed one suspect and wounded the other. Both had lengthy criminal records and were wanted for murder. Compare Officer Umana's heroics to fellow Vegas Officer Cordell Hendrex who cowered in a doorwell on the 31st floor for over four minutes while Paddock reigned bullets down on concertgoers in the Oct. 1 Las Vegas shooting. We must applaud our civil servants when they do well (thank you Officer Umana!) and call out those who fail in their duties (please do the right thing and resign Officer Hendrex).

Jim knew Dave as the long-haired rocker in his Sigma Chi fraternity at UC Irvine. What he did not know was what Dave was secretly doing on the weekends in West Hollywood with his trans friends. Dave married a sorority girl and had two children before realizing he could no longer live a lie. He divorced and transitioned.</p> <p>Sabrina shares everything Jim ever wanted to know about the transgender and LGBT topic, but was afraid to ask.</p> <p>This is a special preview for YouTube viewers. 2018 05 03	Hidden Truth Show	https://youtu.be/lqTg0XIYnQY	VEGAS Stephen Paddock's Mandalay Bay hotel room Las Vegas body cam footage Hidden Truth	<p>The Las Vegas Police today released body cam footage from the officers who first breached the door of the Shooter's suite! This is the first body cam footage of any kind released by the Police.</p> <p>On Friday the Nevada Supreme Court ordered the Police to begin releasing all records related to the shooting. The Police had been opposing the release of ANY records, even 911 calls! They are still going slow, saying they will release more video in two weeks.</p> <p>The body cam video is very compelling to watch, putting you in the shoes of the officers during the very tense moments as they first break into the suite. However, missing is the video from the officer leading the team. The Police state that he failed to turn on his camera!</p> <p>Unfortunately, as a result the video still fails to provide an answer to the condition of Paddock upon the Police first entering the room. The Police provided three different stories: 1) the police "engaged the suspect", 2) the police observed the suspect kill himself, 3) the suspect was found already dead on the ground. The video also does not explain why it took Police over an hour after the shooting to break down the door to the suite, or explain why the Police provided 3 different timelines of events.</p> <p>Also still unclear is why the Police went through extraordinary efforts not to release this information without any strong basis for doing so. Primarily they argue there is an ongoing investigation, but</p>	Transcript Link

Bruce Paddock (<http://hiddentruthshow.com/bruce-paddock>) sat down for his first ever recorded interview about his brother Stephen Paddock, the alleged Las Vegas shooter. The interview was conducted by Jim Breslo, host of Hidden Truth: Las Vegas Shooter (www.hiddentruthshow.com), a podcast by RealKast media (www.realkast.com) which has as its mission to determine the who, what, and why of the Las Vegas Shooting. In his first ever recorded interview, Bruce Paddock breaks down as he talks for the first time about why he thinks his brother did it, the "sickness" which he believes both he and his brother suffered from, where he was when he learned, and his eight-hour interview with the FBI. He also emotionally relates how, at the age of 19, his mother told him and Stephen for the first time that his father, a bank robber on the FBI's most wanted list, was actually alive, not dead as she had always told them. He also relays his deep sorrow for the victims and their families and talks about his guilty feelings for not being able to stop his brother. Incredibly, he also speculates that this was not the first time his brother brought weapons into the Mandalay Bay hotel.

The first half of the interview can be heard now on Apple Podcasts, Stitcher, and other podcast players and at <http://hiddentruthshow.com/bruce-paddock/>.
