

HIDDEN TRUTH SHOW WITH JIM BRESLO
TRANSGENDER MOVEMENT

AVAILABLE ON ALL PODCAST APPS

1
00:00:00,000 --> 00:00:07,660

[Music]

2
00:00:12,350 --> 00:00:10,310

I'm Jim Breslow and this is the hidden

3
00:00:14,870 --> 00:00:12,360

truth show you're about to see an

4
00:00:16,790 --> 00:00:14,880

excerpt from the latest episode from our

5
00:00:19,820 --> 00:00:16,800

podcast hidden truth transgender

6
00:00:21,800 --> 00:00:19,830

movement this is michelle Katella she's

7
00:00:24,259 --> 00:00:21,810

the president of the American College of

8
00:00:25,820 --> 00:00:24,269

pediatricians this group has been

9
00:00:28,400 --> 00:00:25,830

labeled a hate group

10
00:00:32,450 --> 00:00:28,410

it's her position that you're not born

11
00:00:34,880 --> 00:00:32,460

trans watch the interview and you make

12
00:00:37,459 --> 00:00:34,890

your own judgement if you enjoy it go

13
00:00:41,720 --> 00:00:37,469

check out our podcasts hidden truth show

14

00:00:43,459 --> 00:00:41,730

wherever you listen to podcasts so I'm

15

00:00:45,860 --> 00:00:43,469

president of the American College of

16

00:00:48,319 --> 00:00:45,870

pediatricians which is a national

17

00:00:51,650 --> 00:00:48,329

organization of pediatricians and other

18

00:00:54,200 --> 00:00:51,660

health care professionals who promote

19

00:00:59,689 --> 00:00:54,210

the optimal policies for children's

20

00:01:03,290 --> 00:00:59,699

health we formed in 2002 because at that

21

00:01:06,440 --> 00:01:03,300

point the American Academy of Pediatrics

22

00:01:08,480 --> 00:01:06,450

was the altie professional guild that

23

00:01:12,670 --> 00:01:08,490

child health professionals could belong

24

00:01:15,620 --> 00:01:12,680

to and they have essentially politicized

25

00:01:17,050 --> 00:01:15,630

medicine now that Academy sorry is that

26
00:01:19,490 --> 00:01:17,060
Academy something that essentially all

27
00:01:23,359 --> 00:01:19,500
pediatricians belong to for the most

28
00:01:27,140 --> 00:01:23,369
part because the Academy of Pediatrics

29
00:01:29,210 --> 00:01:27,150
is around 87 years old it is the

30
00:01:30,740 --> 00:01:29,220
professional guild the professional

31
00:01:33,620 --> 00:01:30,750
organization that virtually all

32
00:01:36,620 --> 00:01:33,630
pediatric trainees are inducted into

33
00:01:38,899 --> 00:01:36,630
there our training programs essentially

34
00:01:44,120 --> 00:01:38,909
pay for membership to that organization

35
00:01:46,940 --> 00:01:44,130
so for awhile a core group of us tried I

36
00:01:48,830 --> 00:01:46,950
mean one of our founding members is

37
00:01:51,350 --> 00:01:48,840
actually a past president of the

38
00:01:53,840 --> 00:01:51,360

American Academy of Pediatrics so we

39

00:01:58,850 --> 00:01:53,850

really tried to have our voices heard

40

00:02:01,010 --> 00:01:58,860

and we made scientific arguments as to

41

00:02:01,749 --> 00:02:01,020

why you know life does begin at

42

00:02:04,340 --> 00:02:01,759

conception

43

00:02:06,620 --> 00:02:04,350

before roe v-- wade we as an

44

00:02:09,229 --> 00:02:06,630

organization talked about our patients

45

00:02:11,300 --> 00:02:09,239

at conception and after ruby made all of

46

00:02:12,920 --> 00:02:11,310

a sudden we're championing a woman's

47

00:02:15,800 --> 00:02:12,930

right to choose

48

00:02:17,530 --> 00:02:15,810

abortion and and teenage girls right to

49

00:02:19,640 --> 00:02:17,540

choose abortion without parental consent

50

00:02:21,830 --> 00:02:19,650

isn't this a problem so that was the

51
00:02:24,920 --> 00:02:21,840
first issue that really got politicized

52
00:02:28,849 --> 00:02:24,930
even within Pediatrics and by the time

53
00:02:31,610 --> 00:02:28,859
2002 came around gay marriage and gay

54
00:02:34,580 --> 00:02:31,620
parenting was the big issue and the

55
00:02:39,110 --> 00:02:34,590
American Academy of Pediatrics board was

56
00:02:43,479 --> 00:02:39,120
poised to basically recommend same-sex

57
00:02:46,699 --> 00:02:43,489
parenting as identical to opposite-sex

58
00:02:48,170 --> 00:02:46,709
parenting that mothers and fathers are

59
00:02:51,679 --> 00:02:48,180
basically either one or the others

60
00:02:54,530 --> 00:02:51,689
irrelevant and the bioethics committee

61
00:02:58,009 --> 00:02:54,540
our bioethics committee on that American

62
00:02:58,520 --> 00:02:58,019
Academy of Pediatrics said whoa put on

63
00:03:02,050 --> 00:02:58,530

the brakes

64

00:03:05,449 --> 00:03:02,060

here's the evidence that you claim is

65

00:03:07,610 --> 00:03:05,459

sufficient when it's not let's let's

66

00:03:10,039 --> 00:03:07,620

look at the the quality of the data it's

67

00:03:13,520 --> 00:03:10,049

not here if you want to be scientific

68

00:03:16,969 --> 00:03:13,530

you have to say that the traditional

69

00:03:19,490 --> 00:03:16,979

family a married mother and father are

70

00:03:21,469 --> 00:03:19,500

optimal in raising children because we

71

00:03:24,589 --> 00:03:21,479

have all this decades of social science

72

00:03:28,039 --> 00:03:24,599

proof and you have to recommend further

73

00:03:29,929 --> 00:03:28,049

study for alternative alternative form

74

00:03:33,469 --> 00:03:29,939

of this was an advisory committee that

75

00:03:35,619 --> 00:03:33,479

was seeing this and exactly in the

76
00:03:38,300 --> 00:03:35,629
American Academy of Pediatrics board

77
00:03:41,420 --> 00:03:38,310
completely ignored completely ignored

78
00:03:45,710 --> 00:03:41,430
its own advisory committee and put forth

79
00:03:48,949 --> 00:03:45,720
the very poor research data at that

80
00:03:50,390 --> 00:03:48,959
point in 2002 and said oh no no

81
00:03:54,610 --> 00:03:50,400
difference no possible harm to children

82
00:03:57,530 --> 00:03:54,620
now we have several studies not just

83
00:04:01,240 --> 00:03:57,540
rigorous but dr. Paul Sullins

84
00:04:03,999 --> 00:04:01,250
has published at least four very large

85
00:04:06,439 --> 00:04:04,009
long-term studies documenting

86
00:04:09,409 --> 00:04:06,449
developmental harm to children who were

87
00:04:12,740 --> 00:04:09,419
raised by gay parents actually

88
00:04:16,550 --> 00:04:12,750

everything from more depression anxiety

89

00:04:19,879 --> 00:04:16,560

and APD to impaired physical health

90

00:04:21,440 --> 00:04:19,889

compared to children raised and loving

91

00:04:23,330 --> 00:04:21,450

traditionally married families so when

92

00:04:25,879 --> 00:04:23,340

you talk about Pediatrics it sounds to

93

00:04:26,720 --> 00:04:25,889

me like there is a psychological or

94

00:04:31,160 --> 00:04:26,730

psychiatric

95

00:04:34,640 --> 00:04:31,170

elements to pediatrics absolutely you

96

00:04:36,740 --> 00:04:34,650

know it's not just job so in Pediatrics

97

00:04:40,210 --> 00:04:36,750

we're trained to take care of the whole

98

00:04:42,620 --> 00:04:40,220

child we're trained to diagnose

99

00:04:46,550 --> 00:04:42,630

behavioral problems psychological

100

00:04:51,560 --> 00:04:46,560

problems what we don't do is provide

101

00:04:55,970 --> 00:04:51,570

psychiatric talk therapy but we can

102

00:04:58,760 --> 00:04:55,980

advise parents in different approaches

103

00:05:02,330 --> 00:04:58,770

that they may take within the home that

104

00:05:04,070 --> 00:05:02,340

may help children so so do you guys have

105

00:05:06,170 --> 00:05:04,080

special day to be a pediatrician do you

106

00:05:08,630 --> 00:05:06,180

have special training compared to a

107

00:05:12,410 --> 00:05:08,640

general practitioner on issues of

108

00:05:15,350 --> 00:05:12,420

psychiatry and psychology you can in my

109

00:05:18,980 --> 00:05:15,360

case yes I took that I had a strong

110

00:05:20,630 --> 00:05:18,990

entrance interest in pediatric

111

00:05:23,030 --> 00:05:20,640

behavioral health and so I did

112

00:05:26,290 --> 00:05:23,040

additional electives and training in

113

00:05:30,320 --> 00:05:26,300

that area but at some point if there's

114

00:05:32,270 --> 00:05:30,330

serious psychological issues are you

115

00:05:35,630 --> 00:05:32,280

supposed to refer the child and the

116

00:05:39,290 --> 00:05:35,640

parents to a psychiatrist right so when

117

00:05:44,750 --> 00:05:39,300

I when I diagnose a teen patient with

118

00:05:48,950 --> 00:05:44,760

major depression i I will assess the the

119

00:05:51,680 --> 00:05:48,960

child the teen and of course that's but

120

00:05:55,660 --> 00:05:51,690

with the parent as well and if

121

00:05:59,870 --> 00:05:55,670

medication is indicated I can initiate

122

00:06:02,810 --> 00:05:59,880

the antidepressant but I would not do

123

00:06:05,570 --> 00:06:02,820

that without first connecting the child

124

00:06:09,800 --> 00:06:05,580

with either therapists psychologists

125

00:06:13,160 --> 00:06:09,810

psychiatrists so but based on Pediatrics

126

00:06:15,050 --> 00:06:13,170

it is theoretically appropriate for the

127

00:06:19,580 --> 00:06:15,060

organization to take a position on

128

00:06:22,250 --> 00:06:19,590

something like gay parenting they yes

129

00:06:24,470 --> 00:06:22,260

you could certainly do that as in in the

130

00:06:27,590 --> 00:06:24,480

realm of pediatrics it's physical

131

00:06:31,490 --> 00:06:27,600

emotional behavioral social health so

132

00:06:34,010 --> 00:06:31,500

you can certainly make a position

133

00:06:35,840 --> 00:06:34,020

statement on that but you should be

134

00:06:38,330 --> 00:06:35,850

honest about the quality of the

135

00:06:40,629 --> 00:06:38,340

researcher you're basing your and what

136

00:06:42,279 --> 00:06:40,639

about say the American Psychiatric

137

00:06:43,719 --> 00:06:42,289

shishun or whatever that organization is

138

00:06:47,230 --> 00:06:43,729

have they taken a position on something

139

00:06:50,439 --> 00:06:47,240

like game air exactly yes

140

00:06:53,350 --> 00:06:50,449

virtually every mainstream medical

141

00:06:54,909 --> 00:06:53,360

organization their professional guilds

142

00:06:57,339 --> 00:06:54,919

basically so the American Psychological

143

00:07:00,010 --> 00:06:57,349

Association American Psychiatric even

144

00:07:03,670 --> 00:07:00,020

the American Medical Association have

145

00:07:06,489 --> 00:07:03,680

virtually all of them have come out in

146

00:07:10,390 --> 00:07:06,499

favor came out and are so in favor of

147

00:07:13,899 --> 00:07:10,400

gay marriage gay parenting they all cite

148

00:07:17,409 --> 00:07:13,909

the same poorly constructed studies

149

00:07:18,850 --> 00:07:17,419

so it's justify epic you know feeding

150

00:07:20,890 --> 00:07:18,860

off each other so when you talk about

151
00:07:23,589 --> 00:07:20,900
the political element of it I mean

152
00:07:27,480 --> 00:07:23,599
describe what you're talking about what

153
00:07:33,640 --> 00:07:27,490
what what how did politics in your view

154
00:07:36,429 --> 00:07:33,650
infiltrate the the Academy it's part

155
00:07:39,070 --> 00:07:36,439
it's part of being human in in one sense

156
00:07:45,929 --> 00:07:39,080
it's part of being human every human

157
00:07:48,610 --> 00:07:45,939
being has a worldview and I would say

158
00:07:51,429 --> 00:07:48,620
many of us who might be prone those

159
00:07:57,399 --> 00:07:51,439
prone to a more conservative worldview

160
00:08:00,369 --> 00:07:57,409
are more likely to value being home with

161
00:08:03,219 --> 00:08:00,379
family less likely to value climbing the

162
00:08:05,829 --> 00:08:03,229
ladder so to speak and what has

163
00:08:10,510 --> 00:08:05,839

gradually happened not only in medicine

164

00:08:13,119 --> 00:08:10,520

but higher you know and I think this is

165

00:08:16,800 --> 00:08:13,129

no secret but throughout university so

166

00:08:21,269 --> 00:08:16,810

higher education medicine psychiatry

167

00:08:26,079 --> 00:08:21,279

virtually any other public institution

168

00:08:30,339 --> 00:08:26,089

liberal-leaning folks individuals with

169

00:08:35,459 --> 00:08:30,349

liberal leaning worldviews tend to make

170

00:08:39,430 --> 00:08:35,469

up the majority in power and then within

171

00:08:44,050 --> 00:08:39,440

medical guilds the subcommittee's tend

172

00:08:46,120 --> 00:08:44,060

to be self selecting so for example in

173

00:08:50,139 --> 00:08:46,130

the American Academy of Pediatrics

174

00:08:54,759 --> 00:08:50,149

there's a subcommittee dedicated to LGBT

175

00:08:57,500 --> 00:08:54,769

health well the individuals within that

176

00:08:59,630 --> 00:08:57,510

sub-committee basically just volunteer

177

00:09:02,900 --> 00:08:59,640

and virtually all of them are lifelong

178

00:09:06,319 --> 00:09:02,910

LGBT activists they don't go out of

179

00:09:10,340 --> 00:09:06,329

their way to include others who may have

180

00:09:12,949 --> 00:09:10,350

an opposing worldview so ideally you

181

00:09:18,019 --> 00:09:12,959

want folks when it comes to social that

182

00:09:21,290 --> 00:09:18,029

that intersecting of medicine and social

183

00:09:23,210 --> 00:09:21,300

issues you have folks on the right and

184

00:09:26,360 --> 00:09:23,220

on the Left scientists from the right

185

00:09:29,720 --> 00:09:26,370

and scientists from the left to be part

186

00:09:33,470 --> 00:09:29,730

of a debate and a conversation about

187

00:09:35,240 --> 00:09:33,480

okay what does this data truly show

188

00:09:37,190 --> 00:09:35,250

right I mean they're really obviously

189

00:09:38,870 --> 00:09:37,200

shouldn't be any right in left when

190

00:09:40,639 --> 00:09:38,880

we're talking about science in medicine

191

00:09:42,850 --> 00:09:40,649

but you're pointing out that

192

00:09:45,949 --> 00:09:42,860

unfortunately that's the reality right

193

00:09:47,300 --> 00:09:45,959

all right we put it hat we don't have

194

00:09:49,940 --> 00:09:47,310

this problem when we're talking about

195

00:09:52,250 --> 00:09:49,950

gee how do you treat overwhelming sepsis

196

00:09:54,710 --> 00:09:52,260

with this particular bacteria right

197

00:09:56,870 --> 00:09:54,720

that's just a hardcore scientific let's

198

00:10:00,620 --> 00:09:56,880

let's test these antibiotics and figure

199

00:10:09,620 --> 00:10:00,630

it out easy but when medicine collides

200

00:10:12,590 --> 00:10:09,630

with social issues like abortion sex EDT

201
00:10:15,079 --> 00:10:12,600
right so two issues that that spurred

202
00:10:17,660 --> 00:10:15,089
your organization was the issue of when

203
00:10:20,600 --> 00:10:17,670
does life begin right and then the issue

204
00:10:22,370 --> 00:10:20,610
of gay parenting and then there's now an

205
00:10:25,490 --> 00:10:22,380
additional issue regarding gender

206
00:10:29,449 --> 00:10:25,500
dysphoria is that correct yeah I would

207
00:10:31,460 --> 00:10:29,459
say the differences between the AAP and

208
00:10:33,740 --> 00:10:31,470
the American College of pediatricians is

209
00:10:39,319 --> 00:10:33,750
is more than just those issues it's it's

210
00:10:42,829 --> 00:10:39,329
it's really about how can we come to

211
00:10:45,430 --> 00:10:42,839
objective scientific recommendations

212
00:10:50,509 --> 00:10:45,440
it's it's about the polarization of

213
00:10:53,410 --> 00:10:50,519

medicine and it's not I guess it's in

214

00:10:58,990 --> 00:10:53,420

the sexual realm it's also in terms of

215

00:11:00,980 --> 00:10:59,000

parent parent rights the Academy

216

00:11:02,840 --> 00:11:00,990

increasingly you know rather than

217

00:11:04,960 --> 00:11:02,850

viewing the pediatrician as a bridge

218

00:11:07,639 --> 00:11:04,970

between the child and the parent

219

00:11:11,179 --> 00:11:07,649

increasingly the the American

220

00:11:13,369 --> 00:11:11,189

to me presents doctors as needing to

221

00:11:15,230 --> 00:11:13,379

protect children against their parents

222

00:11:21,019 --> 00:11:15,240

or protect children from their parents

223

00:11:24,309 --> 00:11:21,029

so we we differ we differ that we're

224

00:11:27,350 --> 00:11:24,319

more of a traditional Hippocratic

225

00:11:30,710 --> 00:11:27,360

physician organization mm-hmm

226

00:11:34,009 --> 00:11:30,720

how many it's one of one of the major

227

00:11:36,769 --> 00:11:34,019

issues we differ on now is in terms of

228

00:11:39,350 --> 00:11:36,779

gender dysphoria yeah and I want to dig

229

00:11:43,040 --> 00:11:39,360

into into that one before I do so how

230

00:11:45,139 --> 00:11:43,050

many members do you now have yeah so we

231

00:11:47,689 --> 00:11:45,149

are still significantly smaller than the

232

00:11:50,199 --> 00:11:47,699

AAP we have five hundred five hundred

233

00:11:53,449 --> 00:11:50,209

twenty members right now compared to

234

00:11:58,009 --> 00:11:53,459

compared to approximately sixty thousand

235

00:12:01,280 --> 00:11:58,019

in the AAP and what about the religious

236

00:12:04,669 --> 00:12:01,290

component of it is there a religious

237

00:12:08,439 --> 00:12:04,679

component at all to your organization we

238

00:12:13,239 --> 00:12:08,449

don't have we don't ask our members

239

00:12:18,079 --> 00:12:13,249

religious so no we're not faith-based or

240

00:12:20,449 --> 00:12:18,089

politically based we are simply we state

241

00:12:23,900 --> 00:12:20,459

our our mission is to promote optimal

242

00:12:25,970 --> 00:12:23,910

child health and our values are that we

243

00:12:28,929 --> 00:12:25,980

are pro-life and that we stand by the

244

00:12:31,460 --> 00:12:28,939

science that indicates the natural

245

00:12:33,679 --> 00:12:31,470

married mother father family to be the

246

00:12:36,559 --> 00:12:33,689

optimal setting in which to nurture

247

00:12:41,480 --> 00:12:36,569

children and so when you when you say

248

00:12:43,579 --> 00:12:41,490

you're pro-life is that from a legal

249

00:12:47,030 --> 00:12:43,589

policy perspective in other words you

250

00:12:49,129 --> 00:12:47,040

would advocate for changing the the laws

251
00:12:55,910 --> 00:12:49,139
or the Constitution to to say that

252
00:12:58,069 --> 00:12:55,920
abortion should be prohibited so what so

253
00:13:03,110 --> 00:12:58,079
on our website we just got we describe

254
00:13:06,799 --> 00:13:03,120
ourselves as wanting to promote policies

255
00:13:10,639 --> 00:13:06,809
that will protect and honour life from

256
00:13:13,100 --> 00:13:10,649
conception to natural death so we don't

257
00:13:16,549 --> 00:13:13,110
lobby we don't engage in political

258
00:13:17,689 --> 00:13:16,559
activity of that nature we're we're a

259
00:13:20,660 --> 00:13:17,699
501c3

260
00:13:24,759 --> 00:13:20,670
educational organization but

261
00:13:28,130 --> 00:13:24,769
we would so we provide the science that

262
00:13:33,920 --> 00:13:28,140
perhaps lobbyists could turn to to argue

263
00:13:35,150 --> 00:13:33,930

for making abortion illegal so you in my

264

00:13:37,060 --> 00:13:35,160

right and saying that you hold that

265

00:13:42,079 --> 00:13:37,070

position that life begins at conception

266

00:13:42,530 --> 00:13:42,089

from a medical medical perspective right

267

00:13:44,389 --> 00:13:42,540

yeah

268

00:13:48,079 --> 00:13:44,399

not from a religious not from a

269

00:13:52,670 --> 00:13:48,089

religious perspective nothing to do with

270

00:13:54,290 --> 00:13:52,680

genetics right so well we're not talking

271

00:13:57,230 --> 00:13:54,300

about souls or anything like that right

272

00:13:59,360 --> 00:13:57,240

well by the way I believe that you could

273

00:14:02,920 --> 00:13:59,370

believe that life begins at conception

274

00:14:07,370 --> 00:14:02,930

but still theoretically support

275

00:14:09,110 --> 00:14:07,380

permitting abortion under that's right

276

00:14:11,180 --> 00:14:09,120

there are folks and they they argue

277

00:14:11,750 --> 00:14:11,190

about personhood and so on and so forth

278

00:14:15,139 --> 00:14:11,760

correct

279

00:14:17,569 --> 00:14:15,149

so now we say just from we say from a

280

00:14:22,060 --> 00:14:17,579

genetic scientific standpoint new life

281

00:14:26,350 --> 00:14:22,070

begins here and we recognize that as

282

00:14:32,860 --> 00:14:28,759

and what what about for you does

283

00:14:39,949 --> 00:14:32,870

religion motivate your work personally

284

00:14:43,550 --> 00:14:39,959

so personally I would say my my faith

285

00:14:47,120 --> 00:14:43,560

I'm Catholic gives me the courage to

286

00:14:52,389 --> 00:14:47,130

speak out because I've otherwise would

287

00:14:56,180 --> 00:14:52,399

not die speaking out against abortion

288

00:14:58,750 --> 00:14:56,190

speaking out in favor of psychotherapy

289

00:15:03,860 --> 00:14:58,760

for unwanted homosexual feelings

290

00:15:06,019 --> 00:15:03,870

speaking out now on the fact that you

291

00:15:11,000 --> 00:15:06,029

know normal thinking matches reality is

292

00:15:11,720 --> 00:15:11,010

enough to be get death threats you get

293

00:15:17,269 --> 00:15:11,730

death threats

294

00:15:19,100 --> 00:15:17,279

you get it'll end your career so what

295

00:15:20,960 --> 00:15:19,110

about simply by what by simply by

296

00:15:24,500 --> 00:15:20,970

joining your organization if you're an

297

00:15:26,689 --> 00:15:24,510

active you know professional

298

00:15:30,590 --> 00:15:26,699

pediatrician and they join your group

299

00:15:34,130 --> 00:15:30,600

does anything adverse happen to them it

300

00:15:36,410 --> 00:15:34,140

could yes yes many

301
00:15:40,280 --> 00:15:36,420
the Southern Poverty Law Center for

302
00:15:42,530 --> 00:15:40,290
example has labeled numerous

303
00:15:43,970 --> 00:15:42,540
conservative organizations including the

304
00:15:47,390 --> 00:15:43,980
American College of pediatricians as

305
00:15:51,080 --> 00:15:47,400
hate groups they've been discredited

306
00:15:55,580 --> 00:15:51,090
right even the FBI dropped them but they

307
00:16:00,580 --> 00:15:55,590
still carry clout so many many of our

308
00:16:03,200 --> 00:16:00,590
members may join us but not necessarily

309
00:16:05,420 --> 00:16:03,210
advertise that they belong if they're in

310
00:16:08,330 --> 00:16:05,430
let's say an academic institution for

311
00:16:10,910 --> 00:16:08,340
example you your group has been labeled

312
00:16:15,340 --> 00:16:10,920
a hate group we were labeled a hate

313
00:16:17,330 --> 00:16:15,350

group when we released the statement

314

00:16:20,420 --> 00:16:17,340

regarding it's called homosexual

315

00:16:21,560 --> 00:16:20,430

parenting is it time for a change and in

316

00:16:24,650 --> 00:16:21,570

that statement which is still on our

317

00:16:27,020 --> 00:16:24,660

website we highlight the evidence that

318

00:16:27,970 --> 00:16:27,030

mothers and fathers do matter and do

319

00:16:31,940 --> 00:16:27,980

make a difference

320

00:16:35,440 --> 00:16:31,950

and that there are there's significant

321

00:16:38,270 --> 00:16:35,450

reason to be concerned that children

322

00:16:40,490 --> 00:16:38,280

could suffer when they're denied either

323

00:16:43,010 --> 00:16:40,500

a mother or father and that's the

324

00:16:46,940 --> 00:16:43,020

difference right if if you have someone

325

00:16:49,970 --> 00:16:46,950

who a woman who gets pregnant and she

326

00:16:51,940 --> 00:16:49,980

doesn't want to marry the father and

327

00:16:55,160 --> 00:16:51,950

she's a single parent well that child

328

00:16:56,780 --> 00:16:55,170

may spend some time without a male role

329

00:17:00,470 --> 00:16:56,790

model or male fit but it wasn't

330

00:17:04,810 --> 00:17:00,480

intentional but whenever you have a

331

00:17:07,220 --> 00:17:04,820

homosexual couple who wants a child

332

00:17:09,620 --> 00:17:07,230

whether it's through adoption through

333

00:17:12,140 --> 00:17:09,630

artificial insemination or surrogacy

334

00:17:15,980 --> 00:17:12,150

whatever that's an intentional decision

335

00:17:19,040 --> 00:17:15,990

to deprive a child in every case of

336

00:17:20,510 --> 00:17:19,050

either a mother or fathers and and does

337

00:17:22,760 --> 00:17:20,520

your group therefore think that

338

00:17:27,470 --> 00:17:22,770

essentially for instance gay marriage

339

00:17:29,870 --> 00:17:27,480

should not be legal we did we we did

340

00:17:31,790 --> 00:17:29,880

opposed yes we opposed gay marriage

341

00:17:35,540 --> 00:17:31,800

because you cannot separate marriage

342

00:17:39,200 --> 00:17:35,550

from Parenthood did the Academy take a

343

00:17:42,560 --> 00:17:39,210

position on gay marriage they did they

344

00:17:44,750 --> 00:17:42,570

were in favor arguing that marriage

345

00:17:48,080 --> 00:17:44,760

rights were necessary because they were

346

00:17:51,720 --> 00:17:48,090

already gay couples parenting children

347

00:17:53,840 --> 00:17:51,730

so these groups do take policy positions

348

00:17:57,390 --> 00:17:53,850

because I was just thinking to myself

349

00:17:58,200 --> 00:17:57,400

right yeah so we that is true the

350

00:18:01,470 --> 00:17:58,210

American can't

351
00:18:03,659 --> 00:18:01,480
we're often portrayed as oh the the AAP

352
00:18:05,010 --> 00:18:03,669
the American Academy is scientific and

353
00:18:06,750 --> 00:18:05,020
the American College of pediatricians

354
00:18:09,360 --> 00:18:06,760
they're a bunch of they're just an

355
00:18:11,370 --> 00:18:09,370
advocacy group if you go on the American

356
00:18:14,580 --> 00:18:11,380
Academy of Pediatrics website they have

357
00:18:18,299 --> 00:18:14,590
an entire section and they literally

358
00:18:21,270 --> 00:18:18,309
have a committee dedicated to advocacy

359
00:18:21,870 --> 00:18:21,280
and they have their members I mean they

360
00:18:24,990 --> 00:18:21,880
routinely

361
00:18:27,030 --> 00:18:25,000
will shoot out mass emails hey contact

362
00:18:30,630 --> 00:18:27,040
your legislators about this issue and

363
00:18:33,780 --> 00:18:30,640

everything from gun control climate

364

00:18:37,020 --> 00:18:33,790

change I mean you name it they are very

365

00:18:39,840 --> 00:18:37,030

much involved in getting they want their

366

00:18:41,850 --> 00:18:39,850

members to make noise so you have

367

00:18:44,130 --> 00:18:41,860

concerns about children being raised by

368

00:18:46,169 --> 00:18:44,140

gay parents but but why be opposed to

369

00:18:48,530 --> 00:18:46,179

gay marriage couldn't you be okay with

370

00:18:51,690 --> 00:18:48,540

gay marriage but but have an issue with

371

00:18:54,480 --> 00:18:51,700

adoption or that type of thing it's

372

00:18:59,130 --> 00:18:54,490

impossible legally speaking to separate

373

00:19:01,230 --> 00:18:59,140

marriage from parenting and this was we

374

00:19:03,840 --> 00:19:01,240

have a week we have legal consultants to

375

00:19:05,640 --> 00:19:03,850

our group as well so we try to take that

376

00:19:09,030 --> 00:19:05,650

into consideration so the only reason

377

00:19:10,919 --> 00:19:09,040

you up oh is it right to say that the

378

00:19:13,010 --> 00:19:10,929

only reason that you oppose gay marriage

379

00:19:16,230 --> 00:19:13,020

was because of the children issue

380

00:19:18,270 --> 00:19:16,240

correct so as as an organization as the

381

00:19:20,520 --> 00:19:18,280

American College of pediatricians our

382

00:19:23,610 --> 00:19:20,530

problem with gay marriage is that it

383

00:19:26,909 --> 00:19:23,620

fundamentally alters the family and that

384

00:19:31,110 --> 00:19:26,919

the mother father the married mother

385

00:19:34,590 --> 00:19:31,120

father family is the most Pro child

386

00:19:36,990 --> 00:19:34,600

institution we have and so that that was

387

00:19:40,919 --> 00:19:37,000

for us it's all one of the same marriage

388

00:19:42,630 --> 00:19:40,929

and parenting and in law that's how it

389

00:19:45,419 --> 00:19:42,640

comes out as well let's talk about

390

00:19:51,980 --> 00:19:45,429

gender dysphoria and how that has become

391

00:19:55,230 --> 00:19:51,990

a big issue for your group sure

392

00:20:00,810 --> 00:19:55,240

when I say approximately maybe a good

393

00:20:05,450 --> 00:20:00,820

three three or four years ago I

394

00:20:10,940 --> 00:20:05,460

got a call from an obstetrician ob/gyn

395

00:20:15,120 --> 00:20:10,950

colleague of mine who had just seen a

396

00:20:19,340 --> 00:20:15,130

teen girl who was going to be

397

00:20:22,740 --> 00:20:19,350

transitioning to a male and this um

398

00:20:24,540 --> 00:20:22,750

ob/gyn colleague of mine said are you

399

00:20:25,920 --> 00:20:24,550

guys doing anything about that are you

400

00:20:28,470 --> 00:20:25,930

aware of this are you doing anything

401
00:20:29,790 --> 00:20:28,480
about this because these kids are going

402
00:20:35,540 --> 00:20:29,800
to be sterilized

403
00:20:38,820 --> 00:20:35,550
and that although I I wasn't aware of

404
00:20:42,990 --> 00:20:38,830
that fact she was the one who brought

405
00:20:44,580 --> 00:20:43,000
that to my attention I decided to go to

406
00:20:48,450 --> 00:20:44,590
the literature the scientific literature

407
00:20:51,090 --> 00:20:48,460
it was extremely difficult to find now

408
00:20:54,470 --> 00:20:51,100
my colleague was correct children who

409
00:20:57,840 --> 00:20:54,480
are put on period lockers before they

410
00:20:59,940 --> 00:20:57,850
mature their ovaries if they're or if

411
00:21:01,380 --> 00:20:59,950
your girls or if they're boys if they're

412
00:21:03,780 --> 00:21:01,390
put on those puberty blockers before

413
00:21:05,100 --> 00:21:03,790

they have mature sperm and then go to

414

00:21:07,380 --> 00:21:05,110

across sex hormones

415

00:21:09,660 --> 00:21:07,390

they'll be permanently sterilized I mean

416

00:21:13,590 --> 00:21:09,670

and they're making these decisions at

417

00:21:17,190 --> 00:21:13,600

like age nine to twelve and this is

418

00:21:19,800 --> 00:21:17,200

crazy so that was what first drew the

419

00:21:22,910 --> 00:21:19,810

college into all right we have to really

420

00:21:26,520 --> 00:21:22,920

explore this and look further into it

421

00:21:30,420 --> 00:21:26,530

that was how many years ago so that was

422

00:21:35,220 --> 00:21:30,430

a good probably a good four four years

423

00:21:38,250 --> 00:21:35,230

ago now so prior to that really the the

424

00:21:40,560 --> 00:21:38,260

causes of say homosexuality or

425

00:21:44,430 --> 00:21:40,570

transgenderism was not really an

426

00:21:46,740 --> 00:21:44,440

interest of yours that fair to say well

427

00:21:48,570 --> 00:21:46,750

I would I would separate I would say

428

00:21:51,690 --> 00:21:48,580

that the treatment of gender dysphoria

429

00:21:56,280 --> 00:21:51,700

was not on our radar screen four years

430

00:22:01,740 --> 00:21:56,290

ago mm-hmm okay so you started looking

431

00:22:05,880 --> 00:22:01,750

into it and what did you learn what was

432

00:22:08,310 --> 00:22:05,890

clear is that this is a massive both

433

00:22:13,290 --> 00:22:08,320

social as well as medical experiment

434

00:22:15,030 --> 00:22:13,300

that's being carried out on kids around

435

00:22:18,090 --> 00:22:15,040

the world but we're gonna concern

436

00:22:21,960 --> 00:22:18,100

ourselves primarily with America and our

437

00:22:26,370 --> 00:22:21,970

board of directors was just utterly

438

00:22:31,650 --> 00:22:26,380

dismayed what we learned that what

439

00:22:34,920 --> 00:22:31,660

happened was in 2013 even a bit earlier

440

00:22:39,150 --> 00:22:34,930

than then when it hit hit our radar

441

00:22:43,260 --> 00:22:39,160

screen in 2013 the American Psychiatric

442

00:22:46,380 --> 00:22:43,270

Association changed the name gender

443

00:22:50,330 --> 00:22:46,390

identity disorder to gender dysphoria

444

00:22:52,950 --> 00:22:50,340

and the intention was to decrease stigma

445

00:22:53,640 --> 00:22:52,960

for those suffering with gender

446

00:22:57,390 --> 00:22:53,650

dysphoria

447

00:22:59,550 --> 00:22:57,400

but once that happened activists within

448

00:23:03,270 --> 00:22:59,560

the psychiatric organization and then

449

00:23:05,850 --> 00:23:03,280

also without argued well see it's not a

450

00:23:09,390 --> 00:23:05,860

disorder at all the fact that our

451
00:23:12,420 --> 00:23:09,400
thinking does not match reality is not a

452
00:23:16,440 --> 00:23:12,430
problem it's only our distress that's a

453
00:23:19,920 --> 00:23:16,450
problem and at the same time adult

454
00:23:21,420 --> 00:23:19,930
transgender activists we're saying well

455
00:23:23,850 --> 00:23:21,430
we were born this way we're born this

456
00:23:25,710 --> 00:23:23,860
way and look those kids you say have

457
00:23:30,030 --> 00:23:25,720
gender identity disorder gender

458
00:23:33,990 --> 00:23:30,040
dysphoria they're really born trans but

459
00:23:37,260 --> 00:23:34,000
there's no science to back it up there's

460
00:23:40,610 --> 00:23:37,270
a lot of claims but there's absolutely

461
00:23:44,220 --> 00:23:40,620
no science to demonstrate that anyone is

462
00:23:47,070 --> 00:23:44,230
born with hardwired thoughts feelings

463
00:23:49,860 --> 00:23:47,080

and behaviors prior to that had the

464

00:23:58,200 --> 00:23:49,870

Academy taken a position on for instance

465

00:24:00,510 --> 00:23:58,210

the cause of homosexuality no actually I

466

00:24:03,120 --> 00:24:00,520

kind of like can we can we focus on the

467

00:24:04,800 --> 00:24:03,130

gender dysphoria cuz really there's sort

468

00:24:08,490 --> 00:24:04,810

there's some overlap but they're really

469

00:24:11,160 --> 00:24:08,500

two separate issues okay well yeah I

470

00:24:13,290 --> 00:24:11,170

think that that is a question as you

471

00:24:15,180 --> 00:24:13,300

know whether they're separate or not

472

00:24:17,490 --> 00:24:15,190

because gender I know there's there's

473

00:24:18,890 --> 00:24:17,500

there's teachings or the writings out

474

00:24:24,290 --> 00:24:18,900

there that gender dysphoria

475

00:24:26,130 --> 00:24:24,300

leads to homosexuality and/or leads to

476
00:24:27,810 --> 00:24:26,140
to trams and

477
00:24:30,150 --> 00:24:27,820
it's that it's perhaps on the same

478
00:24:32,190 --> 00:24:30,160
continuum you-you-you think that they're

479
00:24:38,880 --> 00:24:32,200
separate it's your belief that they're

480
00:24:44,310 --> 00:24:38,890
separate yes and no I think that the

481
00:24:48,960 --> 00:24:44,320
topics are big enough they need to stand

482
00:24:52,380 --> 00:24:48,970
on their own I'm reluctant to talk about

483
00:24:57,600 --> 00:24:52,390
two in the same limited program okay if

484
00:24:59,670 --> 00:24:57,610
we could focus on gender dysphoria where

485
00:25:01,710 --> 00:24:59,680
we think that comes from and then how it

486
00:25:04,560 --> 00:25:01,720
overlaps with homosexuality that's

487
00:25:06,260 --> 00:25:04,570
easier than okay well I will tell you

488
00:25:09,260 --> 00:25:06,270

that the main the mainstream medical

489

00:25:13,050 --> 00:25:09,270

organizations present them as two

490

00:25:14,460 --> 00:25:13,060

entirely separate phenomena I mean look

491

00:25:16,890 --> 00:25:14,470

it's all the reason why there needs to

492

00:25:19,530 --> 00:25:16,900

be open discussion about all this

493

00:25:20,610 --> 00:25:19,540

because am i right and saying that one

494

00:25:22,770 --> 00:25:20,620

thing that everybody should say could

495

00:25:26,130 --> 00:25:22,780

take a step back in acknowledges that

496

00:25:28,500 --> 00:25:26,140

you know we really don't know you think

497

00:25:30,680 --> 00:25:28,510

they're huge we there's so much we don't

498

00:25:34,530 --> 00:25:30,690

know they're they're huge

499

00:25:37,230 --> 00:25:34,540

so for for purposes of a single podcast

500

00:25:38,130 --> 00:25:37,240

I I would say you know it you can go in

501
00:25:41,420 --> 00:25:38,140
the scientific literature the

502
00:25:45,300 --> 00:25:41,430
psychiatric literature and that debate

503
00:25:47,570 --> 00:25:45,310
the debate G is gender identity disorder

504
00:25:49,470 --> 00:25:47,580
I mean back when it was called GID

505
00:25:50,580 --> 00:25:49,480
there were psychiatrists and

506
00:25:52,050 --> 00:25:50,590
psychologists out there who said you

507
00:25:54,330 --> 00:25:52,060
know gender identity disorder that's

508
00:25:56,550 --> 00:25:54,340
just a backdoor diagnosis for

509
00:25:58,230 --> 00:25:56,560
homosexuality or is it it's a backdoor

510
00:26:01,470 --> 00:25:58,240
way of treating homosexuality and then

511
00:26:03,180 --> 00:26:01,480
you had others like dr. ken zucker who

512
00:26:05,220 --> 00:26:03,190
was world renowned in treating children

513
00:26:07,380 --> 00:26:05,230

with gender identity disorder saying no

514

00:26:11,430 --> 00:26:07,390

no they're distinct it's just that

515

00:26:13,560 --> 00:26:11,440

there's some overlap so that's a debate

516

00:26:15,210 --> 00:26:13,570

that could be a podcast all to itself

517

00:26:18,140 --> 00:26:15,220

yeah and it sounds like you're saying

518

00:26:21,270 --> 00:26:18,150

there is there is a political difference

519

00:26:22,440 --> 00:26:21,280

between the two right where you could

520

00:26:23,850 --> 00:26:22,450

talk about the medical difference in the

521

00:26:25,500 --> 00:26:23,860

political difference as far as how

522

00:26:28,740 --> 00:26:25,510

homosexuality is looked at versus

523

00:26:31,050 --> 00:26:28,750

transgenderism if for instance treating

524

00:26:33,360 --> 00:26:31,060

should we treat transgenderism or a

525

00:26:35,280 --> 00:26:33,370

child showing gender dysphoria at the

526
00:26:38,250 --> 00:26:35,290
age of five versus a child who's showing

527
00:26:39,160 --> 00:26:38,260
perhaps indications that they might be

528
00:26:43,090 --> 00:26:39,170
gay

529
00:26:44,920 --> 00:26:43,100
right it's so subjective right it's so

530
00:26:50,860 --> 00:26:44,930
subjective because in fact that's the

531
00:26:55,990 --> 00:26:50,870
argument of a lot of I've been contacted

532
00:26:57,790 --> 00:26:56,000
by LGB activists who they're very angry

533
00:27:02,200 --> 00:26:57,800
because they're saying look these boys

534
00:27:04,210 --> 00:27:02,210
who are being transitioned so young if

535
00:27:06,130 --> 00:27:04,220
they're just effeminate boys and they

536
00:27:08,620 --> 00:27:06,140
would probably just grow up to be gay

537
00:27:10,770 --> 00:27:08,630
and look at what we're doing and they

538
00:27:14,470 --> 00:27:10,780

have a valid they have a valid point

539

00:27:18,120 --> 00:27:14,480

where everyone across the political

540

00:27:22,930 --> 00:27:18,130

aisle should be able to agree is that

541

00:27:24,640 --> 00:27:22,940

breaking sex stereotypes that's not

542

00:27:27,820 --> 00:27:24,650

something you need to treat with

543

00:27:28,750 --> 00:27:27,830

hormones and surgery it's okay for a

544

00:27:32,860 --> 00:27:28,760

little boy

545

00:27:37,480 --> 00:27:32,870

to pretend he's a princess or like to

546

00:27:40,330 --> 00:27:37,490

cook or that's not a disorder that you

547

00:27:43,270 --> 00:27:40,340

want to throw chemicals at and put them

548

00:27:44,770 --> 00:27:43,280

at risk of sterilization and yet that's

549

00:27:48,700 --> 00:27:44,780

essentially what we're doing because

550

00:27:51,520 --> 00:27:48,710

there is no test to say this child is

551
00:27:54,580 --> 00:27:51,530
gonna grow up and identify himself or

552
00:27:56,740 --> 00:27:54,590
herself as a transgender adult there is

553
00:27:59,920 --> 00:27:56,750
no medical test and knows that key a

554
00:28:03,790 --> 00:27:59,930
tricked test that can do that yeah well

555
00:28:06,360 --> 00:28:03,800
it really comes down to doesn't it what

556
00:28:09,400 --> 00:28:06,370
is the cause of it because if you are

557
00:28:11,890 --> 00:28:09,410
quote-unquote born this way then you

558
00:28:13,810 --> 00:28:11,900
would know that oh yeah

559
00:28:16,810 --> 00:28:13,820
he's showing the indications that means

560
00:28:18,700 --> 00:28:16,820
he was born this way and so let's take

561
00:28:19,720 --> 00:28:18,710
care of this while he's young so he

562
00:28:21,220 --> 00:28:19,730
doesn't have to deal with these issues

563
00:28:22,990 --> 00:28:21,230

when he's older I and I assume that's

564

00:28:25,810 --> 00:28:23,000

the position up on the other side of you

565

00:28:28,690 --> 00:28:25,820

that's what they correct that is what

566

00:28:30,250 --> 00:28:28,700

the medical side argues right so where

567

00:28:34,690 --> 00:28:30,260

is their evidence what is the best

568

00:28:37,600 --> 00:28:34,700

evidence of born this way they will tell

569

00:28:39,810 --> 00:28:37,610

you that the the latest they've always

570

00:28:43,720 --> 00:28:39,820

argued the proponents have always argued

571

00:28:49,750 --> 00:28:43,730

that it is either in genes or in the

572

00:28:52,780 --> 00:28:49,760

brain as it's been pointed out it's been

573

00:28:56,360 --> 00:28:52,790

pointed out that if it were in the

574

00:28:59,300 --> 00:28:56,370

when something's genetic primarily

575

00:29:03,740 --> 00:28:59,310

genetic then identical twins will have

576
00:29:06,560 --> 00:29:03,750
that tree close to 100% of the time like

577
00:29:10,060 --> 00:29:06,570
skin color eye color identical twins are

578
00:29:12,830 --> 00:29:10,070
identical in skin color and eye color a

579
00:29:15,910 --> 00:29:12,840
hundred percent at a time or darn close

580
00:29:21,500 --> 00:29:15,920
to it when it comes to transgenderism

581
00:29:24,560 --> 00:29:21,510
identical twins differ 75% of the time

582
00:29:28,280 --> 00:29:24,570
so if you differ if identical twins

583
00:29:30,890 --> 00:29:28,290
differ that much that means that genes

584
00:29:33,380 --> 00:29:30,900
played very little you know we're made

585
00:29:35,600 --> 00:29:33,390
of DNA so you can say all right our DNA

586
00:29:38,390 --> 00:29:35,610
contributes to everything to some degree

587
00:29:42,980 --> 00:29:38,400
but when the vast majority of identical

588
00:29:48,130 --> 00:29:42,990

twins do not match for a trait then that

589

00:29:50,630 --> 00:29:48,140

trait is more influenced by our our

590

00:29:54,320 --> 00:29:50,640

environment our growing up than other

591

00:29:55,640 --> 00:29:54,330

things and so they can't say genes and

592

00:29:59,420 --> 00:29:55,650

the studies say the same thing about

593

00:30:01,520 --> 00:29:59,430

homosexuality that's also true for

594

00:30:02,900 --> 00:30:01,530

homosexuality yes in fact that's the

595

00:30:04,370 --> 00:30:02,910

studies that I'm aware of I had not

596

00:30:05,840 --> 00:30:04,380

heard about studies about trans just

597

00:30:07,580 --> 00:30:05,850

because there's so many fewer trans I

598

00:30:09,980 --> 00:30:07,590

mean seems like there probably aren't a

599

00:30:12,440 --> 00:30:09,990

lot of identical twins where one is a

600

00:30:15,050 --> 00:30:12,450

trans to even look at how large was that

601
00:30:18,860 --> 00:30:15,060
study even yeah they actually the

602
00:30:23,990 --> 00:30:18,870
largest study was by a Milton diamond

603
00:30:27,100 --> 00:30:24,000
and he had 110 identical twin pairs I

604
00:30:29,570 --> 00:30:27,110
believe and he found there one was trans

605
00:30:31,280 --> 00:30:29,580
work where at least one was trained at

606
00:30:33,730 --> 00:30:31,290
least one was trans and he had he was

607
00:30:36,380 --> 00:30:33,740
looking at the world literature and the

608
00:30:39,290 --> 00:30:36,390
Netherlands the Swedish countries that

609
00:30:42,260 --> 00:30:39,300
have okay so that that that would in

610
00:30:45,560 --> 00:30:42,270
your view that that kills the the genes

611
00:30:49,910 --> 00:30:45,570
DNA argue what about the hormone their

612
00:30:56,000 --> 00:30:49,920
thing you hear about his hormones there

613
00:30:58,130 --> 00:30:56,010

is no so trans individuals people who

614

00:31:01,090 --> 00:30:58,140

identify as transgender have normal

615

00:31:04,850 --> 00:31:01,100

hormone levels so that's not the issue

616

00:31:06,049 --> 00:31:04,860

and if it were prenatal exposure to

617

00:31:11,150 --> 00:31:06,059

hormone love

618

00:31:13,580 --> 00:31:11,160

that had a huge effect again you'd

619

00:31:16,490 --> 00:31:13,590

expect to see higher numbers of

620

00:31:19,820 --> 00:31:16,500

identical twins identifying as

621

00:31:22,010 --> 00:31:19,830

transgender because for the most part

622

00:31:23,930 --> 00:31:22,020

they're the majority of times those

623

00:31:26,390 --> 00:31:23,940

twins they're in the same the identical

624

00:31:28,370 --> 00:31:26,400

twins they're in the same womb with rare

625

00:31:31,640 --> 00:31:28,380

with rare exceptions they're also

626

00:31:33,470 --> 00:31:31,650

exposed to the same prenatal hormones so

627

00:31:35,480 --> 00:31:33,480

tell me tell me about this release of

628

00:31:37,450 --> 00:31:35,490

prenatal hormone issue because I've

629

00:31:41,570 --> 00:31:37,460

heard of this me worried is this a real

630

00:31:43,970 --> 00:31:41,580

phenomenon that that women might during

631

00:31:49,580 --> 00:31:43,980

pregnancy release an inordinate amount

632

00:31:52,120 --> 00:31:49,590

of a typical particular hormone they

633

00:31:56,350 --> 00:31:52,130

would have to be exposed to testosterone

634

00:32:00,980 --> 00:31:56,360

somehow for example or other hormones

635

00:32:03,789 --> 00:32:00,990

normal pregnancy in normal so we're

636

00:32:07,220 --> 00:32:03,799

talking the vast majority of pregnancies

637

00:32:12,710 --> 00:32:07,230

hormone exposure is determined by the

638

00:32:16,520 --> 00:32:12,720

fetus himself if it's if you have a male

639

00:32:19,760 --> 00:32:16,530

fetus by eight weeks gestation that male

640

00:32:22,730 --> 00:32:19,770

fetus has testes that are developed

641

00:32:25,909 --> 00:32:22,740

enough to secrete testosterone and that

642

00:32:28,930 --> 00:32:25,919

testosterone will bathe every cell of

643

00:32:33,100 --> 00:32:28,940

that fetuses that male fetuses body a

644

00:32:36,080 --> 00:32:33,110

female fetus does not have her own

645

00:32:38,049 --> 00:32:36,090

testes because she's female and she says

646

00:32:42,020 --> 00:32:38,059

she does not get that testosterone surge

647

00:32:45,260 --> 00:32:42,030

so right there it tells you that little

648

00:32:47,180 --> 00:32:45,270

girl babies are genetically little girls

649

00:32:50,419 --> 00:32:47,190

because they they have two X chromosomes

650

00:32:52,730 --> 00:32:50,429

and they've not experienced a

651
00:32:56,240 --> 00:32:52,740
testosterone surge because they don't

652
00:32:58,400 --> 00:32:56,250
have testes so you can't get you know

653
00:33:01,220 --> 00:32:58,410
the girl's brain is a girl brain every

654
00:33:04,310 --> 00:33:01,230
brain cell has the XX chromosomes every

655
00:33:07,490 --> 00:33:04,320
girls every female fetus has her brain

656
00:33:12,470 --> 00:33:07,500
cells exposed to so she's a she's a

657
00:33:14,090 --> 00:33:12,480
she's a girl inside of a woman but you

658
00:33:16,280 --> 00:33:14,100
can't they argue that

659
00:33:18,650 --> 00:33:16,290
so initially initially they argued it

660
00:33:19,870 --> 00:33:18,660
was in the genes but no it's not the

661
00:33:22,760 --> 00:33:19,880
twins study

662
00:33:24,740 --> 00:33:22,770
don't support that then they argued well

663
00:33:27,440 --> 00:33:24,750

the brain in the body are just on

664

00:33:29,270 --> 00:33:27,450

different pages and they have the brain

665

00:33:32,690 --> 00:33:29,280

of the opposite sex which is just

666

00:33:34,970 --> 00:33:32,700

ridiculous because you can go to science

667

00:33:38,600 --> 00:33:34,980

and prenatal development and we know

668

00:33:41,750 --> 00:33:38,610

that from conception with female embryos

669

00:33:43,430 --> 00:33:41,760

and fetuses they have they don't have

670

00:33:46,940 --> 00:33:43,440

the Y chromosome they have X chromosomes

671

00:33:49,730 --> 00:33:46,950

they the female fetuses do not secrete a

672

00:33:52,550 --> 00:33:49,740

testosterone surge the boys the male

673

00:33:55,760 --> 00:33:52,560

fetuses do so you're not born with

674

00:33:57,560 --> 00:33:55,770

opposite sex brain thank you - Michelle

675

00:33:59,660 --> 00:33:57,570

Kurt Ella for providing that interview

676

00:34:01,400 --> 00:33:59,670

if you want to listen to the rest of

677

00:34:03,260 --> 00:34:01,410

that interview go to the hidden truth

678

00:34:05,660 --> 00:34:03,270

show podcast where ever you listen to

679

00:34:08,120 --> 00:34:05,670

podcasts we're doing a deep dive into

680

00:34:10,100 --> 00:34:08,130

the transgender movement hidden truth
