 r'eadik

1
00:00:00,000 --> 00:00:08,650

[Music]

2
00:00:14,600 --> 00:00:12,020

[\h__\h] of Patek in the room dead yep

3
00:00:17,060 --> 00:00:14,610

are circulating within 24 hours yeah of

4
00:00:19,130 --> 00:00:17,070

the the the killing and people are

5
00:00:21,050 --> 00:00:19,140

wondering how did those get out it's

6
00:00:24,980 --> 00:00:21,060

suspected that Levi's Hancock leaked

7
00:00:27,470 --> 00:00:24,990

them to a girlfriend and not not to his

8
00:00:29,269 --> 00:00:27,480

girlfriend at the time okay and he would

9
00:00:31,339 --> 00:00:29,279

have leaked it to a possible previous

10
00:00:33,080 --> 00:00:31,349

girlfriend or or I won't get into so you

11
00:00:36,410 --> 00:00:33,090

call up on one of the talk shows that

12
00:00:37,660 --> 00:00:36,420

Lombardo was on and asked him and he

13
00:00:40,190 --> 00:00:37,670

claims we did a full investigation

14

00:00:41,930 --> 00:00:40,200

mm-hmm into the leaked photos and we

15

00:00:43,250 --> 00:00:41,940

were not able to identify how they were

16

00:00:45,260 --> 00:00:43,260

leaked so therefore there was no

17

00:00:46,549 --> 00:00:45,270

discipline with anyone that needs to be

18

00:00:48,470 --> 00:00:46,559

said specifically what about Levi

19

00:00:50,299 --> 00:00:48,480

Hancock and he said we specifically

20

00:00:52,160 --> 00:00:50,309

investigated Levi Hancock and he's been

21

00:00:53,930 --> 00:00:52,170

cleared yeah okay so what do you want to

22

00:00:55,810 --> 00:00:53,940

say about that well I find that I find

23

00:00:58,040 --> 00:00:55,820

the way he said that odd to begin with

24

00:01:00,110 --> 00:00:58,050

because and I did a two-part question

25

00:01:02,119 --> 00:01:00,120

but it didn't let him know the second

26

00:01:03,500 --> 00:01:02,129

part of the question first I want to

27

00:01:05,870 --> 00:01:03,510

just ask the first part of the question

28

00:01:08,330 --> 00:01:05,880

he did promise us that he would give us

29

00:01:09,679 --> 00:01:08,340

the the the results of the investigation

30

00:01:10,880 --> 00:01:09,689

and of course he comes back when we do

31

00:01:12,649 --> 00:01:10,890

their comprehensive investigation but

32

00:01:14,210 --> 00:01:12,659

just like you said and then next

33

00:01:15,800 --> 00:01:14,220

question out of my mouth is okay there's

34

00:01:18,020 --> 00:01:15,810

been some rumors about Levi Hancock

35

00:01:21,620 --> 00:01:18,030

leaking these images to Jackie Heinrich

36

00:01:22,820 --> 00:01:21,630

of Boston 25 blah blah blah would you

37

00:01:24,170 --> 00:01:22,830

would he have to say about that and of

38

00:01:26,030 --> 00:01:24,180

course he says well we heard that too

39

00:01:28,160 --> 00:01:26,040

and he can stand there and say that Levi

40

00:01:30,740 --> 00:01:28,170

Hancock was not the person who did it so

41

00:01:32,300 --> 00:01:30,750

we've in his mind he's eliminated an

42

00:01:33,740 --> 00:01:32,310

officer that didn't do it but he can't

43

00:01:35,690 --> 00:01:33,750

figure out which officer did do it which

44

00:01:37,010 --> 00:01:35,700

is obviously BS because I can go in

45

00:01:39,410 --> 00:01:37,020

there in 15 minutes I can tell you

46

00:01:41,210 --> 00:01:39,420

exactly who did it so whatever this

47

00:01:43,670 --> 00:01:41,220

crackpot team of investigators that they

48

00:01:45,230 --> 00:01:43,680

had that went into the the leaked images

49

00:01:46,819 --> 00:01:45,240

and could not figure out where they came

50

00:01:48,800 --> 00:01:46,829

from when we have those images being

51
00:01:51,200 --> 00:01:48,810
dispersed amongst the officers within an

52
00:01:53,420 --> 00:01:51,210
hour after they breached the room these

53
00:01:54,649 --> 00:01:53,430
officers are seeing that so I get this

54
00:01:55,969 --> 00:01:54,659
time frame now let me walk you through

55
00:01:57,410 --> 00:01:55,979
this because this is information it's

56
00:01:59,240 --> 00:01:57,420
never been revealed before it never been

57
00:02:01,550 --> 00:01:59,250
released and part of this is opinion

58
00:02:04,310 --> 00:02:01,560
part of this is fact so I'm gonna walk

59
00:02:06,050 --> 00:02:04,320
you through this at the time that the

60
00:02:09,020 --> 00:02:06,060
the second room was breached

61
00:02:11,780 --> 00:02:09,030
obviously officer O'Donnell negligently

62
00:02:11,990 --> 00:02:11,790
discharged his weapon at that moment in

63
00:02:13,309 --> 00:02:12,000

time

64

00:02:13,880 --> 00:02:13,319

officer O'Donnell should have been

65

00:02:16,100 --> 00:02:13,890

removed

66

00:02:18,170 --> 00:02:16,110

he should not have stayed on the scene

67

00:02:20,000 --> 00:02:18,180

that's officer that's standard protocol

68

00:02:22,310 --> 00:02:20,010

and what you do is if you have a

69

00:02:23,870 --> 00:02:22,320

negligent discharge that oh I asked its

70

00:02:25,880 --> 00:02:23,880

involved which is why we have a fit

71

00:02:29,720 --> 00:02:25,890

report which I call something else that

72

00:02:31,370 --> 00:02:29,730

reminds that rhymes fit so we have the

73

00:02:32,660 --> 00:02:31,380

fit report that in the whole reason for

74

00:02:34,700 --> 00:02:32,670

that is because we have a negligent

75

00:02:36,920 --> 00:02:34,710

discharge of a weapon so now it's an

76

00:02:38,090 --> 00:02:36,930

officer-involved shooting okay which

77

00:02:40,310 --> 00:02:38,100

obviously wouldn't have in the case of a

78

00:02:41,930 --> 00:02:40,320

state homicide okay so everybody's

79

00:02:43,880 --> 00:02:41,940

wonder well why did he go that way well

80

00:02:46,040 --> 00:02:43,890

there's a reason because this officer

81

00:02:48,620 --> 00:02:46,050

fired a weapon Seyfried a weapon then

82

00:02:50,540 --> 00:02:48,630

you have a sheriff saying we engaged the

83

00:02:52,340 --> 00:02:50,550

suspect so now you have all this this

84

00:02:53,479 --> 00:02:52,350

stuff up in the air so fast-forward a

85

00:02:55,460 --> 00:02:53,489

little bit and so now you've got a

86

00:02:57,440 --> 00:02:55,470

Donnell should have been pulled at that

87

00:03:00,140 --> 00:02:57,450

immediate time but he wasn't he stayed

88

00:03:03,229 --> 00:03:00,150

there match go after a few minutes has

89

00:03:07,280 --> 00:03:03,239

given the actual officer Masco has given

90

00:03:10,070 --> 00:03:07,290

the job of guarding that crime scene and

91

00:03:12,500 --> 00:03:10,080

also go through everything you can do to

92

00:03:14,240 --> 00:03:12,510

find phones any written information

93

00:03:15,440 --> 00:03:14,250

anything that would tell us where these

94

00:03:16,520 --> 00:03:15,450

other shooters are because they're

95

00:03:18,620 --> 00:03:16,530

getting calls that there's other

96

00:03:20,960 --> 00:03:18,630

shooters that you know tropicana Diggins

97

00:03:23,720 --> 00:03:20,970

you know New York New York and so forth

98

00:03:27,289 --> 00:03:23,730

so officer Masco is now running around

99

00:03:30,229 --> 00:03:27,299

this room basically destroying any

100

00:03:31,789 --> 00:03:30,239

evidence that would be preserved he's

101
00:03:33,770 --> 00:03:31,799
moving things around he's lifting things

102
00:03:35,180 --> 00:03:33,780
up he's looking for phones he's looking

103
00:03:37,610 --> 00:03:35,190
for whatever he sees wires going into

104
00:03:40,250 --> 00:03:37,620
bags he's actually says in a statement

105
00:03:41,449 --> 00:03:40,260
that we did release his statement in his

106
00:03:43,280 --> 00:03:41,459
statement he says he sees wires go in

107
00:03:45,410 --> 00:03:43,290
the bags he's calling for a k-9 to come

108
00:03:46,850 --> 00:03:45,420
up to actually sniff the room because

109
00:03:48,380 --> 00:03:46,860
he's thinking that might be a bomb he

110
00:03:49,970 --> 00:03:48,390
doesn't know so he's scared about a bomb

111
00:03:52,370 --> 00:03:49,980
trying to find phones he finds some

112
00:03:54,199 --> 00:03:52,380
phones and then eventually he they pull

113
00:03:57,170 --> 00:03:54,209

Patek and they actually lift Patek up

114

00:03:58,759 --> 00:03:57,180

one of my original videos actually I got

115

00:04:02,420 --> 00:03:58,769

a lot of controversy about this was I

116

00:04:04,190 --> 00:04:02,430

stated that paddock was moved okay so if

117

00:04:06,080 --> 00:04:04,200

paddock was laying on the on the ground

118

00:04:08,630 --> 00:04:06,090

there was no blood down the side of his

119

00:04:10,100 --> 00:04:08,640

face when they first go in there and you

120

00:04:11,479 --> 00:04:10,110

can see the pictures when bits goes

121

00:04:13,039 --> 00:04:11,489

Cameron or whatever but then I was

122

00:04:14,780 --> 00:04:13,049

sudden there's blood when we see the

123

00:04:16,460 --> 00:04:14,790

pictures later so now there's two pools

124

00:04:17,659 --> 00:04:16,470

of blood two completely different colors

125

00:04:19,250 --> 00:04:17,669

which tells me they came out at two

126

00:04:21,949 --> 00:04:19,260

different times the only way that

127

00:04:23,810 --> 00:04:21,959

happens is if he was moved and then in

128

00:04:25,640 --> 00:04:23,820

the case of the blood on the chest as

129

00:04:26,920 --> 00:04:25,650

well he was product he possible he was

130

00:04:28,029 --> 00:04:26,930

lifted up or that

131

00:04:30,159 --> 00:04:28,039

blood came out of his mouth when he

132

00:04:32,350 --> 00:04:30,169

fired final shot who knows a lot of

133

00:04:34,749 --> 00:04:32,360

ground covered there that's forward

134

00:04:36,249 --> 00:04:34,759

again with O'Donnell you've got Levi

135

00:04:38,499 --> 00:04:36,259

Hancock in the room

136

00:04:39,909 --> 00:04:38,509

officer O'Donnell in the room and they

137

00:04:41,790 --> 00:04:39,919

leave the room match goes in charge

138

00:04:45,040 --> 00:04:41,800

where did they go

139

00:04:47,100 --> 00:04:45,050

so Hancock and O'Donnell leave together

140

00:04:49,300 --> 00:04:47,110

now this is a know Donald statement

141

00:04:51,129 --> 00:04:49,310

previous to this as to what happened but

142

00:04:55,060 --> 00:04:51,139

he doesn't really go into what him and

143

00:04:58,150 --> 00:04:55,070

Levi did here's my guess Levi's Hancock

144

00:05:01,689 --> 00:04:58,160

officer O'Donnell walk away Levi makes a

145

00:05:03,760 --> 00:05:01,699

phone call to his ex-girlfriend who was

146

00:05:05,439 --> 00:05:03,770

a reporter who was a reporter who

147

00:05:08,110 --> 00:05:05,449

actually was originally a reporter in

148

00:05:09,939 --> 00:05:08,120

Las Vegas and moved to Boston now what

149

00:05:11,890 --> 00:05:09,949

are the odds that a reporter from Las

150

00:05:13,300 --> 00:05:11,900

Vegas moves to Boston and the same

151

00:05:17,290 --> 00:05:13,310

reporter that used to live in Las Vegas

152

00:05:20,469 --> 00:05:17,300

who used to allegedly date or whatever

153

00:05:22,839 --> 00:05:20,479

with this particular officer moves to

154

00:05:24,760 --> 00:05:22,849

Boston and somehow gets these images the

155

00:05:27,040 --> 00:05:24,770

same images that were leaked within a

156

00:05:30,219 --> 00:05:27,050

specific time frame very soon right

157

00:05:31,990 --> 00:05:30,229

after the shooting so which two officers

158

00:05:35,439 --> 00:05:32,000

had access to that room

159

00:05:39,760 --> 00:05:35,449

Matt's Co was in that room and then all

160

00:05:42,219 --> 00:05:39,770

of a sudden we hear this Levi according

161

00:05:44,830 --> 00:05:42,229

to Matt's Co came back with officer

162

00:05:46,570 --> 00:05:44,840

O'Donnell to the room to the crime scene

163

00:05:48,580 --> 00:05:46,580

why were they coming back to the crime

164

00:05:51,909 --> 00:05:48,590

scene you don't go back to crime scenes

165

00:05:56,469 --> 00:05:51,919

you leave match goes in charge Matt's Co

166

00:05:58,600 --> 00:05:56,479

looks up and sees Levi Hancock and

167

00:06:01,180 --> 00:05:58,610

O'Donnell and asked Hancock what are you

168

00:06:03,640 --> 00:06:01,190

doing I'm coming back to get it take

169

00:06:05,529 --> 00:06:03,650

some pictures he actually says in the

170

00:06:07,510 --> 00:06:05,539

statement that he's taking pictures

171

00:06:09,189 --> 00:06:07,520

match Coe looks at Levi while he's

172

00:06:10,920 --> 00:06:09,199

taking pictures what is he taking

173

00:06:14,560 --> 00:06:10,930

pictures with he doesn't have a camera

174

00:06:17,140 --> 00:06:14,570

so he obviously has his phone so he took

175

00:06:19,300 --> 00:06:17,150

pictures with his phone so as he takes

176

00:06:20,980 --> 00:06:19,310

pictures with his phone Matt's guys can

177

00:06:24,100 --> 00:06:20,990

what's he doing and he says I'm taking

178

00:06:27,999 --> 00:06:24,110

pictures for the boss is is this in the

179

00:06:30,730 --> 00:06:28,009

body cam video no how are you this is in

180

00:06:32,529 --> 00:06:30,740

a report yeah this is this is he said I

181

00:06:33,969 --> 00:06:32,539

think I came in and sorted taking

182

00:06:35,110 --> 00:06:33,979

pictures with the cell phone and what

183

00:06:37,540 --> 00:06:35,120

are you doing I'm gathering all this

184

00:06:40,749 --> 00:06:37,550

information from the officer statements

185

00:06:42,820 --> 00:06:40,759

that we've attained exclusively

186

00:06:44,620 --> 00:06:42,830

we obtained these documents they were

187

00:06:45,790 --> 00:06:44,630

not released and there were a court

188

00:06:47,050 --> 00:06:45,800

order to release so we got these

189

00:06:48,580 --> 00:06:47,060

documents and I'm piecing this together

190

00:06:50,770 --> 00:06:48,590

based on their stay but we know that

191

00:06:53,740 --> 00:06:50,780

Hancock took pictures with his phone in

192

00:06:55,900 --> 00:06:53,750

the room and we know that this woman in

193

00:06:57,850 --> 00:06:55,910

Boston who used to date got the pictures

194

00:07:00,370 --> 00:06:57,860

because she did what with him she

195

00:07:03,490 --> 00:07:00,380

released them well - my thought is this

196

00:07:05,890 --> 00:07:03,500

is that they Hancock and this is my

197

00:07:07,650 --> 00:07:05,900

opinion but it's based on me piecing

198

00:07:09,969 --> 00:07:07,660

this story together to make it fit

199

00:07:11,080 --> 00:07:09,979

Hancock and O'Donnell walk away

200

00:07:12,670 --> 00:07:11,090

O'Donnell shouldn't have been with him

201
00:07:14,529 --> 00:07:12,680
to begin with but they do walk away

202
00:07:16,930 --> 00:07:14,539
during that time they make an initial

203
00:07:19,240 --> 00:07:16,940
phone call to this reporter telling her

204
00:07:21,219 --> 00:07:19,250
hey guess what blah blah blah this is

205
00:07:23,110 --> 00:07:21,229
what's going down and he's given her

206
00:07:23,980 --> 00:07:23,120
this information maybe an exclusive or

207
00:07:25,629 --> 00:07:23,990
something like that for whatever reason

208
00:07:28,089 --> 00:07:25,639
we don't know with that that part we

209
00:07:30,249 --> 00:07:28,099
don't know so then the two come back and

210
00:07:31,779 --> 00:07:30,259
he starts taking pictures well kind of

211
00:07:33,820 --> 00:07:31,789
makes sense to me that if they called

212
00:07:36,339 --> 00:07:33,830
her possibly we don't have the records

213
00:07:38,499 --> 00:07:36,349

of it that maybe she told him to go back

214

00:07:39,430 --> 00:07:38,509

and get her something but how do we know

215

00:07:41,140 --> 00:07:39,440

that she got the pictures

216

00:07:42,999 --> 00:07:41,150

did she release them yes she was the

217

00:07:45,279 --> 00:07:43,009

first person to release him okay yeah so

218

00:07:47,230 --> 00:07:45,289

Boston 25 gets these leaked images she's

219

00:07:50,230 --> 00:07:47,240

the first to release these images she

220

00:07:52,570 --> 00:07:50,240

gets the exclusive and the images have a

221

00:07:55,029 --> 00:07:52,580

lot of information in them the problem

222

00:07:56,620 --> 00:07:55,039

is that I don't have the original images

223

00:08:00,580 --> 00:07:56,630

but it had enough information in these

224

00:08:03,700 --> 00:08:00,590

images to determine what camera took the

225

00:08:05,890 --> 00:08:03,710

pictures I didn't have the EXIF data but

226

00:08:08,760 --> 00:08:05,900

I did have enough data to determine that

227

00:08:13,990 --> 00:08:08,770

the pictures were taken with an iPhone

228

00:08:17,260 --> 00:08:14,000

namely an iPhone 6 that I believe so it

229

00:08:18,670 --> 00:08:17,270

was my quest at that moment which I

230

00:08:21,370 --> 00:08:18,680

never revealed to the public back at the

231

00:08:26,320 --> 00:08:21,380

time to find out which phone this guy

232

00:08:28,270 --> 00:08:26,330

has come to find out I get I get a lot

233

00:08:29,770 --> 00:08:28,280

of information and people come to me

234

00:08:31,899 --> 00:08:29,780

with this some information and

235

00:08:37,810 --> 00:08:31,909

volunteered information well now gonna

236

00:08:40,569 --> 00:08:37,820

reveal the sources but drumroll the an

237

00:08:43,120 --> 00:08:40,579

iPhone 6 okay great so now we now we

238

00:08:45,639 --> 00:08:43,130

know okay that narrows it down you know

239

00:08:48,760 --> 00:08:45,649

how many officers were up in that room

240

00:08:51,850 --> 00:08:48,770

that had iPhone 6s or would you say

241

00:08:53,199 --> 00:08:51,860

iPhone okay look it was clearly Levi's

242

00:08:53,720 --> 00:08:53,209

Hancock or Tookie who took these

243

00:08:56,360 --> 00:08:53,730

pictures

244

00:08:58,850 --> 00:08:56,370

his girlfriend Mike question is okay at

245

00:09:00,710 --> 00:08:58,860

the end of the day what's the big so

246

00:09:02,540 --> 00:09:00,720

what about this we talked about

247

00:09:04,490 --> 00:09:02,550

cover-ups that we're doing the cover-up

248

00:09:07,850 --> 00:09:04,500

fades right now okay so obviously if

249

00:09:09,860 --> 00:09:07,860

sheriff Lombardo who lied to me directly

250

00:09:13,040 --> 00:09:09,870

on when I did an interview or not

251

00:09:16,400 --> 00:09:13,050

interview I did a call into a radio show

252

00:09:19,189 --> 00:09:16,410

he was doing and I asked him directly

253

00:09:21,500 --> 00:09:19,199

and he in my opinion directly lied to me

254

00:09:23,540 --> 00:09:21,510

he doesn't like to acknowledge any fault

255

00:09:26,090 --> 00:09:23,550

by anyone at the Las Vegas police

256

00:09:28,129 --> 00:09:26,100

department that seems to be his MO yep

257

00:09:31,129 --> 00:09:28,139

and that would be the explanation as to

258

00:09:33,050 --> 00:09:31,139

why he didn't you know acknowledge that

259

00:09:34,730 --> 00:09:33,060

yeah one of our officers acted

260

00:09:37,370 --> 00:09:34,740

inappropriately yeah and he's being

261

00:09:38,930 --> 00:09:37,380

disciplined or whatever because we don't

262

00:09:41,480 --> 00:09:38,940

do anything wrong same reason why his

263

00:09:44,629 --> 00:09:41,490

knee-jerk reaction is to protect Hendrix

264

00:09:47,210 --> 00:09:44,639

when it's just so absurd anybody to

265

00:09:49,129 --> 00:09:47,220

defend Hendrix and undocked that

266

00:09:51,650 --> 00:09:49,139

how could you defend that that's what

267

00:09:54,050 --> 00:09:51,660

Lombardo yeah and I and I've got a lot

268

00:09:56,509 --> 00:09:54,060

of really heavy opinions on Hendrix and

269

00:09:58,850 --> 00:09:56,519

obviously Hancock and the situation is

270

00:10:02,120 --> 00:09:58,860

this didn't he run on some sort of

271

00:10:04,460 --> 00:10:02,130

campaign promise of transparency how

272

00:10:05,449 --> 00:10:04,470

transparency or how much transparent do

273

00:10:09,379 --> 00:10:05,459

you think this whole investigation

274

00:10:10,730 --> 00:10:09,389

actually was and I'm not buying it I'm

275

00:10:12,620 --> 00:10:10,740

not buying a lot of things it doesn't

276

00:10:15,079 --> 00:10:12,630

matter I just want to make sure what the

277

00:10:16,340 --> 00:10:15,089

import was of that whole issue that

278

00:10:19,610 --> 00:10:16,350

shows more police corruption we're not

279

00:10:20,990 --> 00:10:19,620

saying that oh those photos seem to show

280

00:10:22,610 --> 00:10:21,000

something that the other photos don't

281

00:10:24,889 --> 00:10:22,620

show there's something like that with

282

00:10:27,019 --> 00:10:24,899

the photos no there's not that but there

283

00:10:28,850 --> 00:10:27,029

is this when Matt's Co asked him who

284

00:10:30,980 --> 00:10:28,860

you're taking the photos for he said

285

00:10:33,980 --> 00:10:30,990

bought the boss our boss

286

00:10:36,019 --> 00:10:33,990

well Masco was the one taking the photos

287

00:10:38,960 --> 00:10:36,029

in there to verify Paddick was whoever

288

00:10:41,300 --> 00:10:38,970

but at the same time guess what match

289

00:10:43,610 --> 00:10:41,310

goes boss leave a Hancock's boss is the

290

00:10:43,850 --> 00:10:43,620

same boss but maybe at that moment in

291

00:10:46,579 --> 00:10:43,860

time

292

00:10:49,360 --> 00:10:46,589

Levi's boss was actually in Boston and

293

00:10:52,759 --> 00:10:49,370

Levi's boss was actually probably Jackie

294

00:10:55,160 --> 00:10:52,769

yeah Lombardo did ask him to take

295

00:10:56,750 --> 00:10:55,170

pictures and that's why I Lombardo was

296

00:10:58,430 --> 00:10:56,760

in Park covering that up I don't know

297

00:11:00,379 --> 00:10:58,440

let me ask you about the moving of the

298

00:11:04,100 --> 00:11:00,389

body is that significant is that

299

00:11:05,780 --> 00:11:04,110

sinister well why was the body well I

300

00:11:06,630 --> 00:11:05,790

did didn't somebody say that they were

301
00:11:07,800 --> 00:11:06,640
checking

302
00:11:09,750 --> 00:11:07,810
if there's any explosives on him or

303
00:11:11,310 --> 00:11:09,760
something like that they were taking

304
00:11:12,720 --> 00:11:11,320
this they're actually checking in to see

305
00:11:14,250 --> 00:11:12,730
if there's any cell phones on him and if

306
00:11:16,380 --> 00:11:14,260
he was in communication with anyone that

307
00:11:19,080 --> 00:11:16,390
could be a possible extra another she's

308
00:11:20,790 --> 00:11:19,090
the important thing to everybody to know

309
00:11:22,260 --> 00:11:20,800
is that the first thing you're doing is

310
00:11:22,770 --> 00:11:22,270
you're concerned about other people

311
00:11:23,880 --> 00:11:22,780
being killed

312
00:11:25,680 --> 00:11:23,890
correct I have an active shooter

313
00:11:27,450 --> 00:11:25,690

situation even though the gang their

314

00:11:29,250 --> 00:11:27,460

blood absolutely then you worry about

315

00:11:30,810 --> 00:11:29,260

the investigation second absolutely so

316

00:11:32,700 --> 00:11:30,820

as far as it being a crime scene that

317

00:11:34,380 --> 00:11:32,710

you don't mess with well you actually do

318

00:11:35,460 --> 00:11:34,390

mess with a crime scene as long as you

319

00:11:37,320 --> 00:11:35,470

think people are in danger

320

00:11:38,730 --> 00:11:37,330

absolutely and I'm an agreement with

321

00:11:40,920 --> 00:11:38,740

that but there's a certain point where

322

00:11:42,750 --> 00:11:40,930

as you're walking around a room if you

323

00:11:47,070 --> 00:11:42,760

have a suspect lying on the floor

324

00:11:48,810 --> 00:11:47,080

obviously dead then the movement about

325

00:11:51,450 --> 00:11:48,820

other guys yeah but but the movement of

326

00:11:54,350 --> 00:11:51,460

weapons the movement of other items that

327

00:11:56,820 --> 00:11:54,360

might have some true evidentiary value

328

00:11:58,020 --> 00:11:56,830

and not necessarily any value to you

329

00:12:00,720 --> 00:11:58,030

trying to figure out if there's another

330

00:12:03,840 --> 00:12:00,730

shooter there there's a lot of things

331

00:12:05,700 --> 00:12:03,850

moved and I don't know exactly what was

332

00:12:07,530 --> 00:12:05,710

moved or how far was moved knowledge

333

00:12:09,750 --> 00:12:07,540

different things all I know is that

334

00:12:13,440 --> 00:12:09,760

there's a lot that was apparently moved

335

00:12:15,510 --> 00:12:13,450

I can visualize Masco running through

336

00:12:18,570 --> 00:12:15,520

that room scared to death thinking that

337

00:12:20,820 --> 00:12:18,580

that one you he's under the gun to go

338

00:12:22,170 --> 00:12:20,830

find you know something's gonna point to

339

00:12:23,790 --> 00:12:22,180

another shooter he's looking at

340

00:12:25,170 --> 00:12:23,800

suitcases have wires hanging out of them

341

00:12:26,970 --> 00:12:25,180

and who knows if the wires go to a bomb

342

00:12:29,070 --> 00:12:26,980

or if they go to a sexual device or

343

00:12:31,740 --> 00:12:29,080

whatever else was in these things and

344

00:12:34,230 --> 00:12:31,750

all of these various questions that come

345

00:12:36,210 --> 00:12:34,240

to mind so that's the mind of Matt's go

346

00:12:37,470 --> 00:12:36,220

but when everybody was on edge I mean

347

00:12:39,120 --> 00:12:37,480

hence the reason why there was an

348

00:12:41,250 --> 00:12:39,130

accidental discharge I mean this is a

349

00:12:43,470 --> 00:12:41,260

pretty freaky situation you're walking

350

00:12:45,030 --> 00:12:43,480

into you know what your accidental

351

00:12:47,220 --> 00:12:45,040

discharge and then the officer is still

352

00:12:48,450 --> 00:12:47,230

there O'Donnell was still on duty for

353

00:12:51,030 --> 00:12:48,460

the rest of the night that doesn't

354

00:12:53,130 --> 00:12:51,040

happen I don't know any em once you

355

00:12:54,660 --> 00:12:53,140

accidentally discharged your weapon your

356

00:12:56,370 --> 00:12:54,670

buddies don't want you there they like

357

00:12:58,710 --> 00:12:56,380

dude you need to you need to go talk to

358

00:13:00,420 --> 00:12:58,720

you know whatever officer they talked to

359

00:13:03,150 --> 00:13:00,430

you don't just say hey I thought I saw

360

00:13:05,610 --> 00:13:03,160

something and and shot in it I saw that

361

00:13:08,100 --> 00:13:05,620

tie up dad no I don't think he's a booty

362

00:13:10,140 --> 00:13:08,110

cat in there I mean that's from 134

363

00:13:11,700 --> 00:13:10,150

that's another ministry here's here's

364

00:13:15,420 --> 00:13:11,710

the big takeaway from all of this this

365

00:13:19,890 --> 00:13:15,430

this if this show leaves anyone watching

366

00:13:24,990 --> 00:13:19,900

this with one thought we were told

367

00:13:26,910 --> 00:13:25,000

by a judge it's guy that the the lawsuit

368

00:13:27,660 --> 00:13:26,920

that was brought forth by RJ the

369

00:13:30,360 --> 00:13:27,670

review-journal

370

00:13:33,030 --> 00:13:30,370

and I'm subsequently was brought on by

371

00:13:35,340 --> 00:13:33,040

several other news organizations that we

372

00:13:37,500 --> 00:13:35,350

were going to receive all of the

373

00:13:39,240 --> 00:13:37,510

information the data the body 1 camera

374

00:13:40,680 --> 00:13:39,250

footage statements whatever it is that

375

00:13:42,329 --> 00:13:40,690

they had we're supposed to get Nevada

376

00:13:43,980 --> 00:13:42,339

Supreme Court ultimately really you got

377

00:13:46,019 --> 00:13:43,990

to release everything and then police

378

00:13:48,510 --> 00:13:46,029

start releasing things in little drips

379

00:13:49,890 --> 00:13:48,520

and drabs after that yep and so they did

380

00:13:52,200 --> 00:13:49,900

that over a period of time knowing that

381

00:13:54,450 --> 00:13:52,210

okay well if we do this the public

382

00:13:57,240 --> 00:13:54,460

interest will wane well obviously it did

383

00:13:59,280 --> 00:13:57,250

and the election will happen because

384

00:14:00,420 --> 00:13:59,290

there's a few things dribbled out before

385

00:14:01,710 --> 00:14:00,430

the election and then they started

386

00:14:04,290 --> 00:14:01,720

dumping more stuff after the election

387

00:14:06,180 --> 00:14:04,300

correct so you have that and then you

388

00:14:08,700 --> 00:14:06,190

have I think it was a six-month

389

00:14:09,390 --> 00:14:08,710

timeframe he bypassed that and we're

390

00:14:11,010 --> 00:14:09,400

still and we're still getting

391

00:14:12,990 --> 00:14:11,020

information we're still getting not now

392

00:14:15,360 --> 00:14:13,000

I mean back at this six-month mark

393

00:14:17,430 --> 00:14:15,370

they're still every Wednesday they're

394

00:14:19,530 --> 00:14:17,440

doing their data dumps and we're going

395

00:14:21,200 --> 00:14:19,540

to pick it out thirty four thirty fifth

396

00:14:24,360 --> 00:14:21,210

data dump and then they say they're done

397

00:14:25,590 --> 00:14:24,370

then we're like hey wait a minute what

398

00:14:28,650 --> 00:14:25,600

about what about what about what about

399

00:14:30,150 --> 00:14:28,660

and then also we get here's another

400

00:14:31,560 --> 00:14:30,160

little oh yeah you're right we forget

401
00:14:34,500 --> 00:14:31,570
about these here's another day to them

402
00:14:37,019 --> 00:14:34,510
okay and then the rest here we are fully

403
00:14:39,180 --> 00:14:37,029
doing FOIA is you know a Freedom of

404
00:14:41,220 --> 00:14:39,190
Information Act requests to get more

405
00:14:42,840 --> 00:14:41,230
information why are we doing this why do

406
00:14:44,730 --> 00:14:42,850
we have to do a FOIA request to get

407
00:14:47,790 --> 00:14:44,740
information that the Supreme Court of

408
00:14:49,320 --> 00:14:47,800
Nevada ordered you to give us so now you

409
00:14:51,990 --> 00:14:49,330
are making us jump through all these

410
00:14:53,910 --> 00:14:52,000
hoops to get this information key thing

411
00:14:55,590 --> 00:14:53,920
is which information are we getting on

412
00:14:58,650 --> 00:14:55,600
this for you request well the O'Donnell

413
00:15:01,079 --> 00:14:58,660

statement is a prime example the Newton

414

00:15:02,220 --> 00:15:01,089

statement is a prime example so if you

415

00:15:03,840 --> 00:15:02,230

go look at those two statements they're

416

00:15:06,540 --> 00:15:03,850

pretty important statements those took

417

00:15:08,699 --> 00:15:06,550

independent for you requests after the

418

00:15:10,949 --> 00:15:08,709

Supreme Court ruling yep and there is a

419

00:15:13,050 --> 00:15:10,959

team of people that are behind the

420

00:15:15,900 --> 00:15:13,060

scenes here that are doing an incredible

421

00:15:18,660 --> 00:15:15,910

amount of work in Las Vegas that are

422

00:15:20,130 --> 00:15:18,670

diligently going after these requests

423

00:15:21,360 --> 00:15:20,140

getting this information I'm not going

424

00:15:23,610 --> 00:15:21,370

to share and take credit for all of this

425

00:15:25,560 --> 00:15:23,620

this is this is a team effort this is a

426

00:15:28,050 --> 00:15:25,570

lot of people getting together saying

427

00:15:29,610 --> 00:15:28,060

look our common core goal here is to get

428

00:15:31,380 --> 00:15:29,620

as much information out to the public as

429

00:15:32,860 --> 00:15:31,390

possible you're doing a wonderful job by

430

00:15:34,930 --> 00:15:32,870

allowing me to sit here and do

431

00:15:37,420 --> 00:15:34,940

right now okay and I appreciate that

432

00:15:41,050 --> 00:15:37,430

absolutely do I I couldn't ask for a

433

00:15:43,120 --> 00:15:41,060

better way to get this out but at the

434

00:15:45,700 --> 00:15:43,130

same time you've got people working

435

00:15:47,170 --> 00:15:45,710

behind the scenes tirelessly that don't

436

00:15:49,210 --> 00:15:47,180

necessarily want their names out there

437

00:15:50,829 --> 00:15:49,220

or all these different things but they

438

00:15:52,240 --> 00:15:50,839

are behind the scenes doing this stuff

439

00:15:54,040 --> 00:15:52,250

and they deserve the credit

440

00:15:56,650 --> 00:15:54,050

that's deserved to them but they also

441

00:15:58,810 --> 00:15:56,660

deserve the same satisfaction that the

442

00:16:00,880 --> 00:15:58,820

victims families and that the survivors

443

00:16:03,490 --> 00:16:00,890

deserve which is some form of closure in

444

00:16:05,860 --> 00:16:03,500

some form of accountability when it

445

00:16:08,110 --> 00:16:05,870

comes to the LV MPD who obviously has

446

00:16:09,940 --> 00:16:08,120

failed at doing this now I'm going to

447

00:16:11,110 --> 00:16:09,950

look at you and I'm gonna ask you a

448

00:16:13,329 --> 00:16:11,120

question again we're gonna flip this

449

00:16:14,740 --> 00:16:13,339

thing around is it in your opinion that

450

00:16:16,150 --> 00:16:14,750

based on the information I've given you

451
00:16:19,030 --> 00:16:16,160
here today that the Las Vegas

452
00:16:25,600 --> 00:16:19,040
metropolitan Police Department is in

453
00:16:26,710 --> 00:16:25,610
contempt absolutely if I mean if you're

454
00:16:28,450 --> 00:16:26,720
talking to those statements that you're

455
00:16:29,650 --> 00:16:28,460
talking about and absolutely should have

456
00:16:32,740 --> 00:16:29,660
been revealed and they should have been

457
00:16:34,420 --> 00:16:32,750
released within a week of the Nevada

458
00:16:36,579 --> 00:16:34,430
Supreme Court ruling I don't even get

459
00:16:38,620 --> 00:16:36,589
the whole six-month you know weekly

460
00:16:40,390 --> 00:16:38,630
drips and drabs well their excuse to

461
00:16:44,500 --> 00:16:40,400
that was because it was so much

462
00:16:46,870 --> 00:16:44,510
information that the amount of work

463
00:16:47,860 --> 00:16:46,880

necessary to go in and redact some of

464

00:16:49,300 --> 00:16:47,870

the names which I understand the

465

00:16:51,280 --> 00:16:49,310

redaction process is paying this I've

466

00:16:53,560 --> 00:16:51,290

got 14,000 documents that's going to be

467

00:16:56,019 --> 00:16:53,570

coming out yeah in what five years or

468

00:16:57,340 --> 00:16:56,029

something after they reject at all and

469

00:16:59,290 --> 00:16:57,350

that's that's with the help of another

470

00:17:02,110 --> 00:16:59,300

person as well that's therefore your

471

00:17:03,490 --> 00:17:02,120

request that's 28 CDs of information

472

00:17:04,809 --> 00:17:03,500

we're supposed to get but we have to

473

00:17:05,949 --> 00:17:04,819

wait for it yeah I think you know there

474

00:17:07,569 --> 00:17:05,959

probably would be a question of whether

475

00:17:08,860 --> 00:17:07,579

it was intentional or not I think if

476

00:17:12,970 --> 00:17:08,870

they could they could demonstrate that

477

00:17:14,410 --> 00:17:12,980

this was negligence and not intense if

478

00:17:16,660 --> 00:17:14,420

you're gonna get contempt of court for

479

00:17:18,760 --> 00:17:16,670

violating that order you'd have to show

480

00:17:21,370 --> 00:17:18,770

intent have to show intent and then you

481

00:17:23,730 --> 00:17:21,380

have to show you know and the part about

482

00:17:26,169 --> 00:17:23,740

the intent is and I'll ask you again

483

00:17:28,840 --> 00:17:26,179

based on what you've heard me to say

484

00:17:30,640 --> 00:17:28,850

here today is it of your opinion or

485

00:17:32,830 --> 00:17:30,650

possibly of your opinion that they

486

00:17:34,510 --> 00:17:32,840

picked specific things to hold back

487

00:17:36,580 --> 00:17:34,520

based on the information that's with

488

00:17:38,230 --> 00:17:36,590

inside them that would reveal some

489

00:17:40,690 --> 00:17:38,240

internal investigations that had gone

490

00:17:42,310 --> 00:17:40,700

awry Hendricks and Levi Hancock right

491

00:17:44,140 --> 00:17:42,320

that would seem to demonstrate the

492

00:17:46,430 --> 00:17:44,150

intent because how is it that it was

493

00:17:48,360 --> 00:17:46,440

just these these items right

494

00:17:49,799 --> 00:17:48,370

especially considering how significant

495

00:17:51,659 --> 00:17:49,809

those these are statements by guys that

496

00:17:52,710 --> 00:17:51,669

were some of the first ones in the room

497

00:17:57,240 --> 00:17:52,720

yeah yeah

498

00:18:03,630 --> 00:17:57,250

so someone someone could bring that

499

00:18:05,730 --> 00:18:03,640

action review-journal could do it or or

500

00:18:09,360 --> 00:18:05,740

someone else someone else you know these

501

00:18:11,370 --> 00:18:09,370

little crazy oh yeah that would be a

502

00:18:13,110 --> 00:18:11,380

very very interesting the main thing is

503

00:18:15,120 --> 00:18:13,120

is we need to get this information back

504

00:18:16,529 --> 00:18:15,130

in front of either the original judge

505

00:18:18,450 --> 00:18:16,539

because remember it was switched off to

506

00:18:20,460 --> 00:18:18,460

another judge and she went and hit her

507

00:18:21,539 --> 00:18:20,470

son but all this other stuff happens so

508

00:18:24,630 --> 00:18:21,549

there's been bounced around a little bit

509

00:18:27,450 --> 00:18:24,640

but we have a situation that went to the

510

00:18:28,799 --> 00:18:27,460

Supreme Court of Nevada okay the Supreme

511

00:18:30,029 --> 00:18:28,809

Court ruled that we were supposed to get

512

00:18:33,029 --> 00:18:30,039

this information with a certain time

513

00:18:35,070 --> 00:18:33,039

frame now the problem is is that there

514

00:18:40,049 --> 00:18:35,080

is no intent that really has to be ruled

515

00:18:42,060 --> 00:18:40,059

here okay here's the reason we didn't

516

00:18:43,710 --> 00:18:42,070

ask for specific information and they

517

00:18:48,480 --> 00:18:43,720

didn't give it to us we asked for all of

518

00:18:51,720 --> 00:18:48,490

it so if you have all of it give it up

519

00:18:54,899 --> 00:18:51,730

if I have a book that has 500 pages in

520

00:18:57,960 --> 00:18:54,909

it and you ask for the book and I give

521

00:19:00,149 --> 00:18:57,970

you 460 pages of it when you know I had

522

00:19:02,130 --> 00:19:00,159

the book give it up yeah they might be

523

00:19:03,419 --> 00:19:02,140

in contemporary guard lists for failure

524

00:19:05,130 --> 00:19:03,429

to do it I think the question is what is

525

00:19:06,510 --> 00:19:05,140

the sanction going to be yeah if they

526
00:19:07,529 --> 00:19:06,520
can show that it was negligence then I

527
00:19:09,360 --> 00:19:07,539
think they're gonna get a slap on the

528
00:19:11,789 --> 00:19:09,370
wrist if they can show that there was

529
00:19:14,820 --> 00:19:11,799
the intentionally right hold this stuff

530
00:19:16,769 --> 00:19:14,830
back right but either way the situation

531
00:19:18,210 --> 00:19:16,779
is this we're having to go through we're

532
00:19:19,769 --> 00:19:18,220
jumping through hoops now to get the

533
00:19:22,710 --> 00:19:19,779
little tidbits and morsels that were

534
00:19:24,649 --> 00:19:22,720
getting the time you know if we would

535
00:19:27,659 --> 00:19:24,659
had a lot of this information earlier

536
00:19:28,590 --> 00:19:27,669
now here's the big question if we would

537
00:19:30,659 --> 00:19:28,600
have had a lot of this information

538
00:19:31,769 --> 00:19:30,669

earlier before mediation started the

539

00:19:33,060 --> 00:19:31,779

process some of the information that

540

00:19:34,649 --> 00:19:33,070

I've actually given to you today that

541

00:19:37,350 --> 00:19:34,659

otherwise wasn't known back then

542

00:19:38,789 --> 00:19:37,360

would it change part of that mediation

543

00:19:39,899 --> 00:19:38,799

where they have more ammunition to go in

544

00:19:43,470 --> 00:19:39,909

there with to get more money for the

545

00:19:46,350 --> 00:19:43,480

victims mm-hmm now if you think about

546

00:19:48,480 --> 00:19:46,360

that for a minute if if sheriff Lombardo

547

00:19:50,310 --> 00:19:48,490

by his inaction and by the fact that he

548

00:19:52,409 --> 00:19:50,320

you know whether or not he's in contempt

549

00:19:54,960 --> 00:19:52,419

or not by him leading the Sheriff's

550

00:19:57,389 --> 00:19:54,970

Department and knowing he's under a

551
00:19:59,510 --> 00:19:57,399
court order the Supreme not just some

552
00:20:02,120 --> 00:19:59,520
court order a Supreme Court

553
00:20:03,380 --> 00:20:02,130
order to telling him to give us all of

554
00:20:05,560 --> 00:20:03,390
the information that we're supposed to

555
00:20:08,450 --> 00:20:05,570
get and he doesn't give that information

556
00:20:09,830 --> 00:20:08,460
then doesn't that tell you that maybe by

557
00:20:11,420 --> 00:20:09,840
him trickling out and picking and

558
00:20:13,430 --> 00:20:11,430
choosing which information goes out when

559
00:20:15,710 --> 00:20:13,440
that he can push some of the information

560
00:20:18,350 --> 00:20:15,720
beyond the time of the mediation that

561
00:20:20,750 --> 00:20:18,360
way those monies amounts are reduced and

562
00:20:22,550 --> 00:20:20,760
by I don't know order of a toner 50

563
00:20:24,140 --> 00:20:22,560

million or 50 million maybe a hundred

564

00:20:26,240 --> 00:20:24,150

dollars maybe a dollar doesn't make any

565

00:20:29,510 --> 00:20:26,250

difference the amount the fact is that

566

00:20:32,000 --> 00:20:29,520

by him pushing that data coming out of

567

00:20:33,440 --> 00:20:32,010

there beyond the mediation time which we

568

00:20:36,800 --> 00:20:33,450

are obviously in that time frame

569

00:20:39,890 --> 00:20:36,810

basically now then that affects the

570

00:20:41,570 --> 00:20:39,900

outcome been effects that's a theory my

571

00:20:44,360 --> 00:20:41,580

theory is he's about protecting the

572

00:20:46,940 --> 00:20:44,370

police more than about protecting MGM

573

00:20:48,620 --> 00:20:46,950

he's proof of that yeah okay so nothing

574

00:20:50,120 --> 00:20:48,630

you want to talk about was the glass and

575

00:20:52,430 --> 00:20:50,130

you brought glass with you as you did

576

00:20:53,660 --> 00:20:52,440

the the last time first thing I want to

577

00:20:56,150 --> 00:20:53,670

ask about the glass because Michael and

578

00:20:58,880 --> 00:20:56,160

I were talking about this he first

579

00:21:02,390 --> 00:20:58,890

drilled out the glass is that correct is

580

00:21:03,800 --> 00:21:02,400

that where he cut the glass no no he had

581

00:21:05,420 --> 00:21:03,810

a hammer with him and he hammered out

582

00:21:07,580 --> 00:21:05,430

the glass now whether or not hand

583

00:21:10,100 --> 00:21:07,590

hammered out the internal you know the

584

00:21:11,540 --> 00:21:10,110

the glasses and panes like this yeah is

585

00:21:12,350 --> 00:21:11,550

that bulletproof glass by the way

586

00:21:14,030 --> 00:21:12,360

absolutely not

587

00:21:15,740 --> 00:21:14,040

not okay not at all it's just not

588

00:21:17,390 --> 00:21:15,750

laminated or anything and there is

589

00:21:19,160 --> 00:21:17,400

videos that came out in the beginning

590

00:21:21,410 --> 00:21:19,170

and still to this day people believe

591

00:21:24,170 --> 00:21:21,420

that these are like the term hurricane

592

00:21:25,880 --> 00:21:24,180

windows or security window B's double

593

00:21:27,860 --> 00:21:25,890

pane whether it's in the Eagle to do

594

00:21:29,570 --> 00:21:27,870

that you can't have those with type of

595

00:21:32,150 --> 00:21:29,580

windows because our department has to be

596

00:21:34,790 --> 00:21:32,160

able to get inside okay and people have

597

00:21:36,050 --> 00:21:34,800

to get out if necessary so you can't

598

00:21:38,690 --> 00:21:36,060

have people staying there

599

00:21:40,400 --> 00:21:38,700

you know and I don't want to create a

600

00:21:43,130 --> 00:21:40,410

picture for people but if the buildings

601
00:21:44,930 --> 00:21:43,140
on fire you either need to get out or

602
00:21:46,670 --> 00:21:44,940
create so you're saying glass at a

603
00:21:49,580 --> 00:21:46,680
building like that needs to be breakable

604
00:21:52,100 --> 00:21:49,590
absolutely absolutely absolutely

605
00:21:56,540 --> 00:21:52,110
it can't I mean is there's probably no

606
00:21:59,150 --> 00:21:56,550
such thing as unbreakable glass there is

607
00:22:01,190 --> 00:21:59,160
unbreakable glass but there's there's

608
00:22:02,720 --> 00:22:01,200
different levels of how the glass works

609
00:22:04,340 --> 00:22:02,730
obviously in the in the old days it was

610
00:22:06,020 --> 00:22:04,350
just the thickness of the glass that was

611
00:22:08,210 --> 00:22:06,030
determined but it was all plate glass

612
00:22:10,880 --> 00:22:08,220
plate glasses glass that's made by

613
00:22:12,350 --> 00:22:10,890

formed over like like a liquid and so

614

00:22:12,560 --> 00:22:12,360

the glass is poured over the top and

615

00:22:15,530 --> 00:22:12,570

then

616

00:22:18,940 --> 00:22:15,540

it forms that way tempered glass is

617

00:22:21,560 --> 00:22:18,950

glass that is just heat treated over

618

00:22:23,870 --> 00:22:21,570

from from like a bending or a torching

619

00:22:26,270 --> 00:22:23,880

issue so what happens is the the glass

620

00:22:28,970 --> 00:22:26,280

when you break a tempered glass and

621

00:22:29,840 --> 00:22:28,980

breaks into hundreds and thousands of

622

00:22:31,460 --> 00:22:29,850

tiny little pieces

623

00:22:33,650 --> 00:22:31,470

that's the glass when you're driving

624

00:22:35,900 --> 00:22:33,660

down the road your passenger and your

625

00:22:38,270 --> 00:22:35,910

driver side windows your roll up windows

626
00:22:40,310 --> 00:22:38,280
that's tempered glass shower doors I

627
00:22:42,170 --> 00:22:40,320
know that because shattered all over my

628
00:22:43,370 --> 00:22:42,180
bathtub there you go and you saw how

629
00:22:44,420 --> 00:22:43,380
many pieces were laying there on the

630
00:22:46,370 --> 00:22:44,430
floor when that happened then they all

631
00:22:48,680 --> 00:22:46,380
look just like that right there

632
00:22:50,720 --> 00:22:48,690
so that glass it makes that now the

633
00:22:52,880 --> 00:22:50,730
glass that's on your windshield that is

634
00:22:54,530 --> 00:22:52,890
different that is lemonade lated glass

635
00:22:56,420 --> 00:22:54,540
that glass you can stand there a new

636
00:22:57,710 --> 00:22:56,430
hammer and ball tin you use sledge

637
00:22:59,420 --> 00:22:57,720
hammer whatever you want to do you can

638
00:23:01,130 --> 00:22:59,430

shoot through it and it's not going to

639

00:23:02,420 --> 00:23:01,140

shatter the reason being is if you're

640

00:23:03,710 --> 00:23:02,430

driving down the road and the rock flies

641

00:23:04,910 --> 00:23:03,720

up from a car in front of you and hits

642

00:23:06,560 --> 00:23:04,920

your glass you don't want you know

643

00:23:08,600 --> 00:23:06,570

thousands of pieces of glass coming in

644

00:23:10,490 --> 00:23:08,610

your car so that's why they switched to

645

00:23:11,990 --> 00:23:10,500

that type of glass so it's three main

646

00:23:15,470 --> 00:23:12,000

types of glass you got your plate glass

647

00:23:17,090 --> 00:23:15,480

your you guys tempered glass and then

648

00:23:18,860 --> 00:23:17,100

you have your safety or a laminated

649

00:23:20,180 --> 00:23:18,870

glass now that a lot of people thought

650

00:23:21,830 --> 00:23:20,190

it was safety laminated glass on the

651
00:23:23,390 --> 00:23:21,840
windows up there because they saw the

652
00:23:25,310 --> 00:23:23,400
gold film and they thought well maybe

653
00:23:27,050 --> 00:23:25,320
that's the laminate that's it but that's

654
00:23:29,690 --> 00:23:27,060
not the case they go film what you can

655
00:23:31,160 --> 00:23:29,700
see here is micro-thin okay so it was

656
00:23:34,940 --> 00:23:31,170
tempered glass and tempered glass yep

657
00:23:37,160 --> 00:23:34,950
yep and by the way no alarm on it are

658
00:23:39,380 --> 00:23:37,170
you aware of the glass ever being

659
00:23:42,230 --> 00:23:39,390
alarmed so that if they wish they would

660
00:23:44,210 --> 00:23:42,240
never put they would never put a because

661
00:23:46,160 --> 00:23:44,220
it would be cost-prohibitive think of

662
00:23:47,660 --> 00:23:46,170
the number of glass panels on these are

663
00:23:49,430 --> 00:23:47,670

good they're called lights the the

664

00:23:51,920 --> 00:23:49,440

panel's of red lights the number of

665

00:23:55,220 --> 00:23:51,930

lights that are panels that are on that

666

00:23:57,140 --> 00:23:55,230

building now that's called a cascade or

667

00:23:58,400 --> 00:23:57,150

something or a waterfall type cascade is

668

00:24:00,230 --> 00:23:58,410

how they call that glass because it's

669

00:24:01,790 --> 00:24:00,240

all like one sheet coming down that

670

00:24:03,200 --> 00:24:01,800

looks like but it's multiple sheets

671

00:24:05,240 --> 00:24:03,210

they're not going to put individual

672

00:24:07,070 --> 00:24:05,250

senses on that so how do you come up how

673

00:24:08,300 --> 00:24:07,080

do you come across that to sensor that

674

00:24:10,490 --> 00:24:08,310

you put it was called a volumetric

675

00:24:12,830 --> 00:24:10,500

pressure sensor or a barometric pressure

676

00:24:15,290 --> 00:24:12,840

sensor that sorry that that pressure

677

00:24:18,080 --> 00:24:15,300

sensor would actually determine a quick

678

00:24:20,420 --> 00:24:18,090

change in the barometric pressure inside

679

00:24:22,190 --> 00:24:20,430

the building because someone bust out of

680

00:24:23,390 --> 00:24:22,200

a window everybody remembers when

681

00:24:25,580 --> 00:24:23,400

something they were standing in the top

682

00:24:27,140 --> 00:24:25,590

of the stairwell inside waiting

683

00:24:29,210 --> 00:24:27,150

reach the room you could hear the wind

684

00:24:31,760 --> 00:24:29,220

going by well I've been in that

685

00:24:33,200 --> 00:24:31,770

stairwell many times I never heard wind

686

00:24:34,490 --> 00:24:33,210

the reason why I didn't hear wind is

687

00:24:36,890 --> 00:24:34,500

because there was nowhere for the wind

688

00:24:38,090 --> 00:24:36,900

to go there was no broken windows so

689

00:24:40,940 --> 00:24:38,100

anyone that says that the windows were

690

00:24:44,480 --> 00:24:40,950

not broken before the breach all you got

691

00:24:45,830 --> 00:24:44,490

to do is listen to the audio of the

692

00:24:49,549 --> 00:24:45,840

sound of the wind coming through that

693

00:24:50,990 --> 00:24:49,559

hallway when the officer sustained you

694

00:24:52,789 --> 00:24:51,000

so you could theoretically have some

695

00:24:54,260 --> 00:24:52,799

alarm that's associated with barometric

696

00:24:55,940 --> 00:24:54,270

pressure which would indicate that

697

00:24:57,680 --> 00:24:55,950

somebody broke this window and then an

698

00:24:59,090 --> 00:24:57,690

alarm would go off you know don't yep

699

00:25:02,840 --> 00:24:59,100

you aware of any hotels that have

700

00:25:04,460 --> 00:25:02,850

implemented that no I I'm not aware of

701
00:25:06,350 --> 00:25:04,470
Mandalay Bay having that at all so he

702
00:25:08,149 --> 00:25:06,360
hammered the glass one thing Michael and

703
00:25:10,130 --> 00:25:08,159
I were just questioned why didn't just

704
00:25:11,930 --> 00:25:10,140
shoot through the glass well would you I

705
00:25:16,130 --> 00:25:11,940
would be concerned it's gonna ricochet

706
00:25:18,860 --> 00:25:16,140
well you know but I'm not an expert but

707
00:25:21,350 --> 00:25:18,870
I'm technically I guess I wouldn't be

708
00:25:24,019 --> 00:25:21,360
either but I'm on board say yes there's

709
00:25:26,180 --> 00:25:24,029
a risk that bullet ricochet well keep in

710
00:25:29,330 --> 00:25:26,190
mind not necessarily ricochet but yes

711
00:25:31,310 --> 00:25:29,340
but also you're you know I don't know

712
00:25:34,220 --> 00:25:31,320
whether paddock knew or whoever the

713
00:25:35,950 --> 00:25:34,230

shooter was knew that shooting out that

714

00:25:39,649 --> 00:25:35,960

window would cause the glass to go out

715

00:25:41,450 --> 00:25:39,659

or come in because the wind pressure the

716

00:25:43,399 --> 00:25:41,460

wind outside which direction was it

717

00:25:44,810 --> 00:25:43,409

going it was obviously going north east

718

00:25:47,090 --> 00:25:44,820

south or whatever but so it was going

719

00:25:48,950 --> 00:25:47,100

away but he wouldn't have known this but

720

00:25:51,049 --> 00:25:48,960

at the same time most hotels almost

721

00:25:52,909 --> 00:25:51,059

every Hotel is positively pressured it's

722

00:25:55,730 --> 00:25:52,919

positively pressured to keep bad smells

723

00:25:57,620 --> 00:25:55,740

out and to keep the guests cool and so

724

00:25:59,330 --> 00:25:57,630

forth so you believe that he broke both

725

00:26:01,100 --> 00:25:59,340

windows with a hammer first and then

726

00:26:02,720 --> 00:26:01,110

shot out right and I think when the

727

00:26:05,419 --> 00:26:02,730

glass fell the reason why people don't

728

00:26:07,669 --> 00:26:05,429

see a boatload of glass inside is

729

00:26:10,580 --> 00:26:07,679

because the hotel is positively

730

00:26:12,560 --> 00:26:10,590

pressured therefore the moment you break

731

00:26:14,659 --> 00:26:12,570

the outside pane or there he broke

732

00:26:18,440 --> 00:26:14,669

through both panes at once or one pane

733

00:26:20,330 --> 00:26:18,450

at a time that glass the last pane which

734

00:26:23,240 --> 00:26:20,340

is the pain with with the gold on it

735

00:26:24,620 --> 00:26:23,250

that pain would have busted to the

736

00:26:27,139 --> 00:26:24,630

outside because of the positive pressure

737

00:26:28,730 --> 00:26:27,149

inside the rooms obviously some of the

738

00:26:36,980 --> 00:26:28,740

glass would fall inside okay so what do

739

00:26:38,649 --> 00:26:36,990

we want to say today about the glass the

740

00:26:42,940 --> 00:26:38,659

main thing about the glass

741

00:26:45,129 --> 00:26:42,950

is that to answer people's questions

742

00:26:47,859 --> 00:26:45,139

there's so many lingering questions

743

00:26:49,869 --> 00:26:47,869

about when the glass was broken okay

744

00:26:51,820 --> 00:26:49,879

whether or not Steven Pettit could do it

745

00:26:53,710 --> 00:26:51,830

now what I was going to do is bring some

746

00:26:55,589 --> 00:26:53,720

glass over and we can still do this and

747

00:26:58,839 --> 00:26:55,599

we can actually break the glass together

748

00:27:00,879 --> 00:26:58,849

just to show you how easy it actually is

749

00:27:03,219 --> 00:27:00,889

it's not difficult to break this glass I

750

00:27:06,159 --> 00:27:03,229

break in hundreds of panes of this type

751
00:27:08,499 --> 00:27:06,169
or similar types of glass just to get a

752
00:27:10,060 --> 00:27:08,509
feel for what it would take to do it now

753
00:27:11,950 --> 00:27:10,070
whether or not he practice breaking

754
00:27:13,119 --> 00:27:11,960
glass I seriously don't know that remind

755
00:27:15,430 --> 00:27:13,129
me of a question because Campos said

756
00:27:16,779 --> 00:27:15,440
that he heard drilling mm-hmm was there

757
00:27:17,229 --> 00:27:16,789
drilling or that was just him hearing

758
00:27:18,700 --> 00:27:17,239
the shots

759
00:27:22,029 --> 00:27:18,710
well there's drilling but whether now

760
00:27:24,129 --> 00:27:22,039
was he drilling into the l-bracket was

761
00:27:25,899 --> 00:27:24,139
he drilling something does some sort of

762
00:27:27,639 --> 00:27:25,909
support to hold the wires up that we're

763
00:27:29,139 --> 00:27:27,649

going between the two rooms so that they

764

00:27:31,810 --> 00:27:29,149

weren't it was a drill found

765

00:27:33,070 --> 00:27:31,820

oh yeah there's Gerald's found me if you

766

00:27:34,659 --> 00:27:33,080

remember that one one of the officers

767

00:27:36,909 --> 00:27:34,669

during the 60 minutes and interview he

768

00:27:39,519 --> 00:27:36,919

actually says yeah there's Charles and

769

00:27:42,129 --> 00:27:39,529

we found we found lots of tools some in

770

00:27:45,129 --> 00:27:42,139

drills and it's the facial expressions

771

00:27:49,299 --> 00:27:45,139

was quite quite animated anyway there's

772

00:27:52,299 --> 00:27:49,309

lots of bits it was a vibrator yeah

773

00:27:53,950 --> 00:27:52,309

there was one of those fan I don't know

774

00:27:55,450 --> 00:27:53,960

who that was for or if he knew Mary Lou

775

00:28:00,729 --> 00:27:55,460

Dan Lee was not going to be there with

776

00:28:05,049 --> 00:28:00,739

him maybe I don't know I guess but I'm

777

00:28:09,399 --> 00:28:05,059

not gonna go there so you think that he

778

00:28:10,690 --> 00:28:09,409

he took a hammer to both windows yeah

779

00:28:12,430 --> 00:28:10,700

and the reason the reason why I say that

780

00:28:14,169 --> 00:28:12,440

is because if you look at the pattern

781

00:28:16,239 --> 00:28:14,179

now there's another person that actually

782

00:28:20,830 --> 00:28:16,249

brought this to my attention he goes by

783

00:28:22,719 --> 00:28:20,840

the name of 10 online and when he and I

784

00:28:26,619 --> 00:28:22,729

talked back in the very beginning of

785

00:28:28,719 --> 00:28:26,629

this this discussion 10 I and he was

786

00:28:31,060 --> 00:28:28,729

telling me cuz he used to he used to be

787

00:28:33,279 --> 00:28:31,070

he used to hang glass and so he was

788

00:28:35,979 --> 00:28:33,289

giving me some insight on to you know

789

00:28:37,719 --> 00:28:35,989

how the glasses is put into the into the

790

00:28:39,729 --> 00:28:37,729

window frame and you know what's what's

791

00:28:41,409 --> 00:28:39,739

between the panes and the thickness of

792

00:28:44,589 --> 00:28:41,419

us he knew all of this information and

793

00:28:46,810 --> 00:28:44,599

had no idea I actually had glass so he

794

00:28:48,219 --> 00:28:46,820

he was watching a video that I was in

795

00:28:49,779 --> 00:28:48,229

and I was showing people the glass and

796

00:28:52,120 --> 00:28:49,789

he went oh my god someone actually has

797

00:28:53,770 --> 00:28:52,130

glass because no one ever really talked

798

00:28:55,060 --> 00:28:53,780

but I actually have the glass from the

799

00:28:56,590 --> 00:28:55,070

room people wondering how in the hell

800

00:28:58,690 --> 00:28:56,600

did you get it well that's another story

801
00:29:01,180 --> 00:28:58,700
I think we ready cover this oh yeah this

802
00:29:02,800 --> 00:29:01,190
was found mmm yeah some of its gold and

803
00:29:04,270 --> 00:29:02,810
some of its clear yep right yep and

804
00:29:06,400 --> 00:29:04,280
there's one piece of glass in there

805
00:29:07,750 --> 00:29:06,410
that's gonna answer the question if you

806
00:29:09,550 --> 00:29:07,760
look at the largest piece of glass in

807
00:29:13,000 --> 00:29:09,560
your Center for front there you're gonna

808
00:29:14,920 --> 00:29:13,010
see something this one in it that one

809
00:29:17,110 --> 00:29:14,930
right there now what happens you'll see

810
00:29:18,850 --> 00:29:17,120
the gold has been rubbed off because we

811
00:29:20,290 --> 00:29:18,860
did an extensive test on it but then

812
00:29:21,880 --> 00:29:20,300
you'll see some gold that's still on it

813
00:29:23,410 --> 00:29:21,890

and we'll give you some close-ups lckes

814

00:29:26,010 --> 00:29:23,420

I have a portable microscope here that

815

00:29:28,210 --> 00:29:26,020

if you want to use it to but that glass

816

00:29:32,110 --> 00:29:28,220

there if you look at it very carefully

817

00:29:35,130 --> 00:29:32,120

show some very social consensus rings

818

00:29:37,870 --> 00:29:35,140

now look for an impact point you having

819

00:29:40,300 --> 00:29:37,880

not much knowledge of glass and impact

820

00:29:44,230 --> 00:29:40,310

points where would you think that glass

821

00:29:46,270 --> 00:29:44,240

was hit this particular piece where was

822

00:29:47,920 --> 00:29:46,280

it hit well you would think that it was

823

00:29:49,330 --> 00:29:47,930

hit at the part that's broken mm-hmm

824

00:29:50,890 --> 00:29:49,340

well if you look at it you'll see

825

00:29:53,800 --> 00:29:50,900

there's a certain point that actually

826

00:29:55,960 --> 00:29:53,810

shows some concentric rings and you know

827

00:29:58,120 --> 00:29:55,970

whether or not that glass is actually a

828

00:30:00,820 --> 00:29:58,130

piece of glass that was hit by the

829

00:30:02,800 --> 00:30:00,830

hammer I cannot sit here and tell you

830

00:30:04,510 --> 00:30:02,810

but it's based on my opinion in the

831

00:30:06,580 --> 00:30:04,520

opinion of a few other people have seen

832

00:30:08,800 --> 00:30:06,590

it no one has said no now tell me again

833

00:30:11,220 --> 00:30:08,810

why is some of it gold and some of it's

834

00:30:13,540 --> 00:30:11,230

not gold there's two panes of glass on

835

00:30:15,160 --> 00:30:13,550

that they use the glass is made by a

836

00:30:17,800 --> 00:30:15,170

company called Viereck on Varick on is

837

00:30:19,720 --> 00:30:17,810

up in Canada is the parent company the

838

00:30:21,070 --> 00:30:19,730

glass was actually put in to Mandalay

839

00:30:23,110 --> 00:30:21,080

Buy by another company called Sierra

840

00:30:25,870 --> 00:30:23,120

glass they're out of business but the

841

00:30:28,090 --> 00:30:25,880

glass is two panes you have one quarter

842

00:30:30,280 --> 00:30:28,100

inch piece of glass that is your

843

00:30:32,770 --> 00:30:30,290

interior when you walk up to the glass

844

00:30:35,590 --> 00:30:32,780

enzyme and obey your interior frame is

845

00:30:37,390 --> 00:30:35,600

going to be clear then you're gonna have

846

00:30:39,160 --> 00:30:37,400

a half inch of dead air space that dead

847

00:30:41,800 --> 00:30:39,170

air space is generally filled with argon

848

00:30:43,720 --> 00:30:41,810

argon is the third most abundant noble

849

00:30:46,120 --> 00:30:43,730

one of the noble gases in the atmosphere

850

00:30:48,340 --> 00:30:46,130

so you have nitrogen oxygen argon is

851
00:30:49,720 --> 00:30:48,350
your next one so then you have argon put

852
00:30:51,640 --> 00:30:49,730
in the middle then you have the back

853
00:30:52,960 --> 00:30:51,650
part of the next piece of glass which is

854
00:30:55,060 --> 00:30:52,970
the same as the first but it has a

855
00:30:56,440 --> 00:30:55,070
lamine film put on it that not

856
00:30:59,920 --> 00:30:56,450
lamine I'm sorry to take that board

857
00:31:03,370 --> 00:30:59,930
back does it it's actually a film a 24

858
00:31:04,960 --> 00:31:03,380
karat gold film that's they're not

859
00:31:06,880 --> 00:31:04,970
filming I keep saying the word film but

860
00:31:09,220 --> 00:31:06,890
it's deposited on the glass to give it

861
00:31:11,350 --> 00:31:09,230
that look but it also makes the glass

862
00:31:12,730 --> 00:31:11,360
break a little different if you if

863
00:31:14,710 --> 00:31:12,740

everybody remembers seeing the glass

864

00:31:16,090 --> 00:31:14,720

that was in the rooms you saw one you

865

00:31:17,140 --> 00:31:16,100

know part of the glass in you if you

866

00:31:18,550 --> 00:31:17,150

look right there that glass you'll

867

00:31:21,130 --> 00:31:18,560

notice the gold pieces are slightly

868

00:31:24,040 --> 00:31:21,140

elongated or larger than your

869

00:31:25,660 --> 00:31:24,050

corresponding clear pieces of glass and

870

00:31:26,470 --> 00:31:25,670

clear pieces of glass we're much more

871

00:31:30,010 --> 00:31:26,480

abundant

872

00:31:33,160 --> 00:31:30,020

for me to get because the gold pieces

873

00:31:36,480 --> 00:31:33,170

were larger and fell more directly in

874

00:31:39,040 --> 00:31:36,490

front of the building except that one

875

00:31:41,740 --> 00:31:39,050

that one piece of glass is the only

876

00:31:44,860 --> 00:31:41,750

piece of glass that I found that was 9

877

00:31:47,230 --> 00:31:44,870

or 10 feet out further from every other

878

00:31:48,700 --> 00:31:47,240

piece of glass I found now at the time I

879

00:31:51,040 --> 00:31:48,710

didn't think much of it I didn't think

880

00:31:53,440 --> 00:31:51,050

much of it at all and then I started

881

00:31:55,270 --> 00:31:53,450

thinking wait a second how in the world

882

00:31:57,280 --> 00:31:55,280

did this one piece of glass get to be

883

00:31:58,900 --> 00:31:57,290

that much further out did someone pick

884

00:32:01,270 --> 00:31:58,910

it up and drop it did it did the wind

885

00:32:03,010 --> 00:32:01,280

come by but it's larger than all the

886

00:32:04,570 --> 00:32:03,020

other pieces of last you really have a

887

00:32:06,460 --> 00:32:04,580

lot of time on your hands like it's a

888

00:32:08,170 --> 00:32:06,470

little bit a little bit it's almost like

889

00:32:09,640 --> 00:32:08,180

the matrix it's like because I wanted to

890

00:32:11,260 --> 00:32:09,650

keep all this investigation internal

891

00:32:13,630 --> 00:32:11,270

myself and only involve the very few

892

00:32:15,370 --> 00:32:13,640

select people outside to get involved

893

00:32:16,690 --> 00:32:15,380

with it because I didn't want leaks you

894

00:32:18,400 --> 00:32:16,700

know you know I'm not like Sheriff

895

00:32:20,410 --> 00:32:18,410

Lombardo who allows leaks to happen I

896

00:32:23,770 --> 00:32:20,420

didn't want that happen but that one

897

00:32:25,270 --> 00:32:23,780

piece of glass I calculated and you know

898

00:32:26,020 --> 00:32:25,280

this is gonna be stupid this is really

899

00:32:27,580 --> 00:32:26,030

funny

900

00:32:29,890 --> 00:32:27,590

I actually used a video of software

901
00:32:30,850 --> 00:32:29,900
program the audience is riveted on the

902
00:32:33,160 --> 00:32:30,860
edge of the seat because I want to know

903
00:32:36,310 --> 00:32:33,170
how this piece of fondant work okay so

904
00:32:38,470 --> 00:32:36,320
that one piece of glass either a it was

905
00:32:40,150 --> 00:32:38,480
large enough to where it caught more of

906
00:32:41,800 --> 00:32:40,160
the wind and the wind was able to pull

907
00:32:43,930 --> 00:32:41,810
it further away okay

908
00:32:49,090 --> 00:32:43,940
and I found out no that's not the answer

909
00:32:50,470 --> 00:32:49,100
or B it was actually hit so I started

910
00:32:51,790 --> 00:32:50,480
paying more attention to that piece of

911
00:32:53,620 --> 00:32:51,800
glass that you're holding in your hand

912
00:32:55,690 --> 00:32:53,630
right now and as I paid more attention

913
00:32:57,370 --> 00:32:55,700

to it I started looking at closer and

914

00:32:58,810 --> 00:32:57,380

closer so I put it underneath the

915

00:33:00,280 --> 00:32:58,820

microscope which I have the microscope

916

00:33:03,340 --> 00:33:00,290

with me if you guys want to film some

917

00:33:06,040 --> 00:33:03,350

b-roll later and I looked at it and then

918

00:33:09,190 --> 00:33:06,050

I sent those images off to glass experts

919

00:33:12,130 --> 00:33:09,200

I did not tell them what the glass was

920

00:33:15,700 --> 00:33:12,140

or where it was from I asked them point

921

00:33:18,080 --> 00:33:15,710

blank is this glass was this glass shot

922

00:33:22,130 --> 00:33:18,090

or was this glass hit

923

00:33:26,000 --> 00:33:22,140

and from which direction was it hit if

924

00:33:28,220 --> 00:33:26,010

it was hit or was this an impact after

925

00:33:30,320 --> 00:33:28,230

the fact after the glass was broken out

926
00:33:33,049 --> 00:33:30,330
could this piece of glass have caused

927
00:33:35,360 --> 00:33:33,059
has that type of hit had been caused by

928
00:33:39,560 --> 00:33:35,370
hitting something say a blunt object on

929
00:33:42,590 --> 00:33:39,570
the ground okay about 80% of my

930
00:33:45,560 --> 00:33:42,600
responses came back that piece of glass

931
00:33:47,720 --> 00:33:45,570
was hit by a blunt object most likely a

932
00:33:51,080 --> 00:33:47,730
ball peen hammer of some sort

933
00:33:53,360 --> 00:33:51,090
okay of some sort how many experts did

934
00:33:55,190 --> 00:33:53,370
you send this thing to I sent well I

935
00:33:56,779 --> 00:33:55,200
sent it to three know kind of like known

936
00:33:59,149 --> 00:33:56,789
experts and then of course you have your

937
00:34:00,830 --> 00:33:59,159
your YouTube crowd of experts and your

938
00:34:02,510 --> 00:34:00,840

Facebook crowd of experts that all

939

00:34:04,159 --> 00:34:02,520

looked at it as well as a couple of them

940

00:34:06,799 --> 00:34:04,169

did but I wanted to keep it within the

941

00:34:09,500 --> 00:34:06,809

realm of reason and then of course me my

942

00:34:11,000 --> 00:34:09,510

own thing just staring at it for going

943

00:34:14,930 --> 00:34:11,010

on almost two years now

944

00:34:16,730 --> 00:34:14,940

and trying to figure out I'd to debunk

945

00:34:18,169 --> 00:34:16,740

myself I looked at something that I put

946

00:34:20,359 --> 00:34:18,179

out there and go okay I'm gonna put this

947

00:34:22,879 --> 00:34:20,369

out someone's gonna try to debunk me and

948

00:34:25,339 --> 00:34:22,889

let me do bunk myself before someone

949

00:34:27,770 --> 00:34:25,349

else gets that opportunity I couldn't

950

00:34:29,599 --> 00:34:27,780

debunk that the only thing they actually

951
00:34:31,849 --> 00:34:29,609
started you know coming out that made

952
00:34:34,970 --> 00:34:31,859
sense was that that piece of glass was

953
00:34:37,490 --> 00:34:34,980
actually struck and so he would have had

954
00:34:39,169 --> 00:34:37,500
to first break the first pane and then

955
00:34:41,030 --> 00:34:39,179
break the second the gold paint not

956
00:34:43,099 --> 00:34:41,040
necessarily you think he could I've been

957
00:34:45,530 --> 00:34:43,109
able to put okay I've been able to

958
00:34:47,180 --> 00:34:45,540
duplicate both now I've been able to

959
00:34:49,070 --> 00:34:47,190
actually have the pane of glass still

960
00:34:51,169 --> 00:34:49,080
that I've only broke the interior pane

961
00:34:53,750 --> 00:34:51,179
and it's still sitting there all cracked

962
00:34:55,430 --> 00:34:53,760
with just it's ridiculously look look

963
00:34:56,329 --> 00:34:55,440

looking as far as just the number of

964

00:34:57,290 --> 00:34:56,339

cracks that go through it and then you

965

00:35:00,349 --> 00:34:57,300

come around the other side and it's

966

00:35:01,730 --> 00:35:00,359

perfectly you know no problem at all you

967

00:35:03,260 --> 00:35:01,740

hear a slight suction sound or whatever

968

00:35:04,609 --> 00:35:03,270

whenever you hit it because that argon

969

00:35:05,480 --> 00:35:04,619

section in the middle is a little bit

970

00:35:08,780 --> 00:35:05,490

different pressurization

971

00:35:11,570 --> 00:35:08,790

why does my shower door shatter the

972

00:35:14,180 --> 00:35:11,580

entire door came down as opposed to

973

00:35:15,950 --> 00:35:14,190

these windows that kind of they didn't

974

00:35:18,020 --> 00:35:15,960

the entire window didn't shatter the gee

975

00:35:20,450 --> 00:35:18,030

tire window did shatter the clear window

976

00:35:22,700 --> 00:35:20,460

oh the clear winner did okay now the

977

00:35:25,010 --> 00:35:22,710

only thing holding the exterior pane

978

00:35:25,670 --> 00:35:25,020

together that created there's larger

979

00:35:27,170 --> 00:35:25,680

shards of glass

980

00:35:29,329 --> 00:35:27,180

everybody's looking through you saw that

981

00:35:31,740 --> 00:35:29,339

larger shards right well that extra

982

00:35:34,050 --> 00:35:31,750

deposit of phone on the outline

983

00:35:36,720 --> 00:35:34,060

film I keep saying the word film but

984

00:35:38,070 --> 00:35:36,730

it's the extra deposit of 24 causes it

985

00:35:39,900 --> 00:35:38,080

not to shoot is it not to shatter the

986

00:35:41,700 --> 00:35:39,910

same way as the other ones as you can

987

00:35:43,800 --> 00:35:41,710

see right there okay we're talking way

988

00:35:45,900 --> 00:35:43,810

more about glass than I ever thought I

989

00:35:47,780 --> 00:35:45,910

would but we could do a whole it or not

990

00:35:50,370 --> 00:35:47,790

I've got another question

991

00:35:52,770 --> 00:35:50,380

so then we'll move it on

992

00:35:56,430 --> 00:35:52,780

I feel the two-part episode commence yes

993

00:35:58,590 --> 00:35:56,440

a two-part glass episode if you're

994

00:36:01,500 --> 00:35:58,600

saying that the outside pane didn't

995

00:36:03,330 --> 00:36:01,510

shatter because of the gold coating mm

996

00:36:05,220 --> 00:36:03,340

well it did but just didn't shatter into

997

00:36:08,370 --> 00:36:05,230

pieces yet correct

998

00:36:11,250 --> 00:36:08,380

wouldn't a lot of the inside pane then

999

00:36:13,020 --> 00:36:11,260

have wound up in the room because yes

1000

00:36:14,340 --> 00:36:13,030

yep okay I thought you're saying though

1001
00:36:15,930 --> 00:36:14,350
people were surprised that they found

1002
00:36:17,880 --> 00:36:15,940
very little glasses they didn't find as

1003
00:36:20,160 --> 00:36:17,890
much as they thought they would but yes

1004
00:36:22,710 --> 00:36:20,170
they did logic would dictate that if you

1005
00:36:25,350 --> 00:36:22,720
break two panes of glass one in interior

1006
00:36:27,120 --> 00:36:25,360
one exterior but as you hit it you have

1007
00:36:29,160 --> 00:36:27,130
several forces going into play one

1008
00:36:31,470 --> 00:36:29,170
tempered glass is glass under pressure

1009
00:36:33,540 --> 00:36:31,480
the glass is constantly under pressure

1010
00:36:35,610 --> 00:36:33,550
so if you just tap it yeah if anyone's

1011
00:36:37,170 --> 00:36:35,620
ever moved or if you've said you broke

1012
00:36:38,970 --> 00:36:37,180
your shower door right yeah you were

1013
00:36:40,350 --> 00:36:38,980

probably amazed at what caused it to

1014

00:36:42,210 --> 00:36:40,360

break probably something real simple

1015

00:36:43,320 --> 00:36:42,220

nothing major went through it you

1016

00:36:44,220 --> 00:36:43,330

probably just a tap in the wrong

1017

00:36:45,540 --> 00:36:44,230

location right

1018

00:36:47,370 --> 00:36:45,550

that's how tempered glass works if

1019

00:36:48,390 --> 00:36:47,380

you're a tempered glass and solar anyone

1020

00:36:50,550 --> 00:36:48,400

watching this knows anything about

1021

00:36:52,590 --> 00:36:50,560

tempered glass if you move it and just

1022

00:36:55,470 --> 00:36:52,600

lay it down on concrete the wrong way

1023

00:36:57,480 --> 00:36:55,480

and just tap it it will explode in your

1024

00:36:59,970 --> 00:36:57,490

hands and I've had this happen many

1025

00:37:02,610 --> 00:36:59,980

times so that's meant to do that because

1026

00:37:03,690 --> 00:37:02,620

the glass is under pressure all the way

1027

00:37:05,820 --> 00:37:03,700

throughout the glass that's why it

1028

00:37:07,830 --> 00:37:05,830

breaks into so many different shards now

1029

00:37:09,180 --> 00:37:07,840

the glass that has the emotion on it

1030

00:37:12,990 --> 00:37:09,190

which is X I guess the better term

1031

00:37:15,330 --> 00:37:13,000

emulsion right word we'll go back and

1032

00:37:19,740 --> 00:37:15,340

edit that back in yeah not film emulsion

1033

00:37:22,740 --> 00:37:19,750

yeah you'll see my mouth moving but you

1034

00:37:25,350 --> 00:37:22,750

have that and so that emulsion it's on

1035

00:37:27,900 --> 00:37:25,360

the outside of the glasses apparently

1036

00:37:31,130 --> 00:37:27,910

enough to cause it to break it different

1037

00:37:33,920 --> 00:37:31,140

sizes okay thank you Mike wow that was

1038

00:37:36,990 --> 00:37:33,930

what I needed to know about the

1039

00:37:38,990 --> 00:37:37,000

autopsies okay that's a whole other

1040

00:37:43,110 --> 00:37:39,000

that's another gonna be another episode

1041

00:37:45,290 --> 00:37:43,120

on this subject I'm going to bring in

1042

00:37:47,240 --> 00:37:45,300

some information the

1043

00:37:48,800 --> 00:37:47,250

I have because a lot of the information

1044

00:37:50,900 --> 00:37:48,810

I'm getting is basically either factual

1045

00:37:54,290 --> 00:37:50,910

or it's evidence that I have direct

1046

00:37:56,720 --> 00:37:54,300

knowledge of I stumbled across the

1047

00:37:58,670 --> 00:37:56,730

autopsy information that I'm about to

1048

00:38:00,710 --> 00:37:58,680

give to you in several different ways

1049

00:38:05,359 --> 00:38:00,720

one of which in the very beginning of

1050

00:38:06,230 --> 00:38:05,369

the investigation I was asked to now I

1051

00:38:08,090 --> 00:38:06,240

have to slow down

1052

00:38:12,050 --> 00:38:08,100

I got be very careful how it word this I

1053

00:38:17,570 --> 00:38:12,060

was asked to get information that would

1054

00:38:20,900 --> 00:38:17,580

assist on knowing about the drugs that

1055

00:38:23,390 --> 00:38:20,910

he took when he took them were they

1056

00:38:25,460 --> 00:38:23,400

abused can I interview people that would

1057

00:38:27,380 --> 00:38:25,470

let me know if they could tell if he was

1058

00:38:31,040 --> 00:38:27,390

under the influence of one or the other

1059

00:38:32,270 --> 00:38:31,050

whether it be the the anxiety medication

1060

00:38:36,230 --> 00:38:32,280

without saying the actual name of the

1061

00:38:38,180 --> 00:38:36,240

medication or influence of alcohol or

1062

00:38:40,310 --> 00:38:38,190

both or would they be able to determine

1063

00:38:42,710 --> 00:38:40,320

or did did people think that he had a

1064

00:38:43,970 --> 00:38:42,720

dependency problem these are questions

1065

00:38:46,280 --> 00:38:43,980

that were brought on everybody was

1066

00:38:48,170 --> 00:38:46,290

thinking about suing some doctors yeah

1067

00:38:50,480 --> 00:38:48,180

I'm thinking about suing the entire

1068

00:38:53,240 --> 00:38:50,490

pharmaceutical community well you're not

1069

00:38:54,230 --> 00:38:53,250

the first yeah so there's some old

1070

00:38:56,720 --> 00:38:54,240

friends of mine I'd like to bring back

1071

00:38:59,750 --> 00:38:56,730

into the current fold that had done that

1072

00:39:02,330 --> 00:38:59,760

before but there might be a problem and

1073

00:39:04,430 --> 00:39:02,340

that brings up the possibility of you

1074

00:39:07,280 --> 00:39:04,440

know autism and and all the other things

1075

00:39:09,080 --> 00:39:07,290

we discussed earlier does it have a role

1076

00:39:10,520 --> 00:39:09,090

does the drugs interact with you know

1077

00:39:11,990 --> 00:39:10,530

alcohol interacting with that does it

1078

00:39:14,180 --> 00:39:12,000

create a bigger issue for people that

1079

00:39:16,340 --> 00:39:14,190

are autistic a whole nother realm to get

1080

00:39:19,250 --> 00:39:16,350

into but as far as the autopsy is

1081

00:39:22,670 --> 00:39:19,260

concerned I'm gonna I'm gonna we'll go

1082

00:39:28,370 --> 00:39:22,680

into it this way how many sets of

1083

00:39:31,849 --> 00:39:28,380

autopsies do you think we're done 1 or 2

1084

00:39:33,109 --> 00:39:31,859

1 or 2 sets of optimises okay if you're

1085

00:39:34,460 --> 00:39:33,119

an accountant and you're kind of a

1086

00:39:35,870 --> 00:39:34,470

crooked accountant and you're cooking

1087

00:39:38,630 --> 00:39:35,880

the books you have two sets of books

1088

00:39:40,550 --> 00:39:38,640

right okay so when we were given the

1089

00:39:42,230 --> 00:39:40,560

autopsies when those autopsies reports

1090

00:39:43,970 --> 00:39:42,240

came out on all fifty-eight of the

1091

00:39:45,560 --> 00:39:43,980

victims not obviously the paddock

1092

00:39:45,980 --> 00:39:45,570

autopsy which is a whole episode of its

1093

00:39:47,930 --> 00:39:45,990

own

1094

00:39:49,720 --> 00:39:47,940

they have 58 autopsies that were given

1095

00:39:53,720 --> 00:39:49,730

to us how many pages were in the autopsy

1096

00:39:55,670 --> 00:39:53,730

each one very few okay granted we didn't

1097

00:39:57,080 --> 00:39:55,680

get the the benefit of seeing all of the

1098

00:39:58,070 --> 00:39:57,090

pictures and stuff like this and I get

1099

00:39:59,480 --> 00:39:58,080

that part I get

1100

00:40:01,910 --> 00:39:59,490

but your average autopsy is gonna be

1101
00:40:04,670 --> 00:40:01,920
somewhere maybe 40 to 80 pages in that

1102
00:40:08,690 --> 00:40:04,680
range not 5 or 10 or 13 or much like the

1103
00:40:10,490 --> 00:40:08,700
VA you report 2.5 pages so we had that

1104
00:40:12,530 --> 00:40:10,500
issue to look at now an autopsy

1105
00:40:13,390 --> 00:40:12,540
performed in 20 minutes would be really

1106
00:40:15,890 --> 00:40:13,400
amazing

1107
00:40:17,090 --> 00:40:15,900
so there's question about that so when

1108
00:40:19,700 --> 00:40:17,100
you look at the autopsy and look at the

1109
00:40:21,310 --> 00:40:19,710
time the autopsy starts autopsy ends you

1110
00:40:23,300 --> 00:40:21,320
can't do an autopsy in 20 minutes

1111
00:40:25,310 --> 00:40:23,310
there's several the autopsies they have

1112
00:40:26,720 --> 00:40:25,320
some time issues so we you know that's

1113
00:40:28,310 --> 00:40:26,730

another thing we have to look and go

1114

00:40:29,810 --> 00:40:28,320

okay why are the autopsies only taken

1115

00:40:31,370 --> 00:40:29,820

this amount of time you're sorry you

1116

00:40:33,770 --> 00:40:31,380

referring to the victims I'm preferring

1117

00:40:35,300 --> 00:40:33,780

to the victims so you have this so are

1118

00:40:37,970 --> 00:40:35,310

there two sets of autopsies that we're

1119

00:40:39,830 --> 00:40:37,980

done you know one that says 20 minutes

1120

00:40:41,300 --> 00:40:39,840

and then they do a separate autopsy for

1121

00:40:43,250 --> 00:40:41,310

the internal exam which I've never seen

1122

00:40:45,290 --> 00:40:43,260

before autopsies or autopsies so you

1123

00:40:47,090 --> 00:40:45,300

have the external exam which probably

1124

00:40:48,320 --> 00:40:47,100

would take about 20 minutes maybe a

1125

00:40:50,780 --> 00:40:48,330

little bit longer because they're going

1126

00:40:52,580 --> 00:40:50,790

over the skin with with magnifying

1127

00:40:53,750 --> 00:40:52,590

glasses so to speak looking for puncture

1128

00:40:56,390 --> 00:40:53,760

holes they're looking for needle marks

1129

00:40:59,180 --> 00:40:56,400

or looking for residue they're looking

1130

00:41:00,950 --> 00:40:59,190

for anything that would be on these

1131

00:41:02,720 --> 00:41:00,960

victims but the problem is is that they

1132

00:41:04,370 --> 00:41:02,730

either they had some sort of bias

1133

00:41:06,740 --> 00:41:04,380

thinking that okay well they were all

1134

00:41:09,110 --> 00:41:06,750

part of this you know shooting but the

1135

00:41:12,710 --> 00:41:09,120

thing is is you do this on every single

1136

00:41:14,240 --> 00:41:12,720

murder case period you absolutely go

1137

00:41:15,980 --> 00:41:14,250

through the whole process and then you

1138

00:41:17,390 --> 00:41:15,990

do the internal exam the internal exam

1139

00:41:19,280 --> 00:41:17,400

is you take the organs out you weigh

1140

00:41:21,920 --> 00:41:19,290

them you do the toxicology do all these

1141

00:41:24,410 --> 00:41:21,930

different things and you look for the

1142

00:41:25,970 --> 00:41:24,420

reason of actual death you know did was

1143

00:41:27,890 --> 00:41:25,980

it caused by a bullet or was it caused

1144

00:41:29,810 --> 00:41:27,900

by the person being trampled that mind

1145

00:41:33,110 --> 00:41:29,820

isn't that all part of the autopsy you

1146

00:41:35,120 --> 00:41:33,120

would think you would think but you're

1147

00:41:37,010 --> 00:41:35,130

saying it was not done the autopsy was

1148

00:41:38,720 --> 00:41:37,020

only 20 minutes need something some of

1149

00:41:41,060 --> 00:41:38,730

the autopsies were such of a short

1150

00:41:42,470 --> 00:41:41,070

length that the question would naturally

1151

00:41:43,730 --> 00:41:42,480

arise to anyone that's familiar with

1152

00:41:47,060 --> 00:41:43,740

looking at autopsy is it there's a

1153

00:41:49,100 --> 00:41:47,070

problem here there's a huge problem and

1154

00:41:52,660 --> 00:41:49,110

why is there a problem why were there

1155

00:41:56,180 --> 00:41:52,670

why would you bring in these

1156

00:41:58,310 --> 00:41:56,190

pathologists from other locations way

1157

00:42:01,100 --> 00:41:58,320

outside the state you know from Florida

1158

00:42:03,470 --> 00:42:01,110

Michigan and so forth you bring in at

1159

00:42:07,190 --> 00:42:03,480

least three to help you on these

1160

00:42:09,260 --> 00:42:07,200

autopsies you have 58 bodies that you

1161

00:42:11,120 --> 00:42:09,270

have to autopsy over a period of the

1162

00:42:11,730 --> 00:42:11,130

next day or two or three you have to do

1163

00:42:14,460 --> 00:42:11,740

it

1164

00:42:16,020 --> 00:42:14,470

I'm gonna be a month long process so you

1165

00:42:18,870 --> 00:42:16,030

do these autopsies so they bring in

1166

00:42:21,420 --> 00:42:18,880

these three pathologists from various

1167

00:42:23,339 --> 00:42:21,430

locations why these three why not just

1168

00:42:27,570 --> 00:42:23,349

bring them in from an adjacent County or

1169

00:42:28,250 --> 00:42:27,580

somewhere nearby you know what why would

1170

00:42:31,710 --> 00:42:28,260

they do that

1171

00:42:34,890 --> 00:42:31,720

there's the rest answer we're gonna find

1172

00:42:37,140 --> 00:42:34,900

out part of it we have some good clues

1173

00:42:40,079 --> 00:42:37,150

as to what may be going on but the other

1174

00:42:41,760 --> 00:42:40,089

issue is this is it possible who does

1175

00:42:44,190 --> 00:42:41,770

the the autopsies done buddy is that

1176

00:42:46,230 --> 00:42:44,200

County down by the corner and County

1177

00:42:48,150 --> 00:42:46,240

corner yeah foodon burg is the guys name

1178

00:42:50,130 --> 00:42:48,160

and I've got it was a County Coroner

1179

00:42:52,560 --> 00:42:50,140

that supposedly brought in these others

1180

00:42:54,000 --> 00:42:52,570

mm-hmm you know the pathologist and how

1181

00:42:56,190 --> 00:42:54,010

many pathologists worked for the County

1182

00:43:00,570 --> 00:42:56,200

Coroner I think there's four or five or

1183

00:43:02,220 --> 00:43:00,580

so maybe maybe three to five and the 58

1184

00:43:04,620 --> 00:43:02,230

autopsy reports were done by how many

1185

00:43:05,760 --> 00:43:04,630

different pathologists five or six so

1186

00:43:07,280 --> 00:43:05,770

you have the you have the three that

1187

00:43:10,440 --> 00:43:07,290

were brought in you have the existing

1188

00:43:12,900 --> 00:43:10,450

one the your existing crew that's there

1189

00:43:14,579 --> 00:43:12,910

so to speak and then you have the issue

1190

00:43:16,829 --> 00:43:14,589

of okay so that went through these

1191

00:43:19,349 --> 00:43:16,839

autopsies relatively quickly some of the

1192

00:43:24,690 --> 00:43:19,359

autopsies we're being told did not have

1193

00:43:26,730 --> 00:43:24,700

internal exams why would someone do that

1194

00:43:29,250 --> 00:43:26,740

why would you not have an internal exam

1195

00:43:31,320 --> 00:43:29,260

on a murder victim okay you pretty much

1196

00:43:34,109 --> 00:43:31,330

there's there's it's pretty much the

1197

00:43:36,540 --> 00:43:34,119

rule of it is that you do a thorough

1198

00:43:39,060 --> 00:43:36,550

exam on especially when it comes to a

1199

00:43:41,700 --> 00:43:39,070

case this important this is the largest

1200

00:43:43,320 --> 00:43:41,710

mass shooting in US history someone in a

1201
00:43:47,099 --> 00:43:43,330
case like he's shooting for 10 minutes

1202
00:43:49,109 --> 00:43:47,109
so if you're in the crowd and you see

1203
00:43:51,390 --> 00:43:49,119
your ex-wife and you don't want to pay

1204
00:43:53,370 --> 00:43:51,400
alimony anymore and you got a gun on you

1205
00:43:55,170 --> 00:43:53,380
there's a crime of opportunity I'm not

1206
00:43:57,450 --> 00:43:55,180
saying that that happened I mean no way

1207
00:43:59,370 --> 00:43:57,460
or looting to that but that's a real

1208
00:44:01,200 --> 00:43:59,380
distinct possibility so you have to do

1209
00:44:03,480 --> 00:44:01,210
the ballistics which we don't have and

1210
00:44:06,270 --> 00:44:03,490
we don't have the autopsies done

1211
00:44:06,660 --> 00:44:06,280
properly which we don't have this is

1212
00:44:10,050 --> 00:44:06,670
weird

1213
00:44:12,030 --> 00:44:10,060

this is this is never in history had

1214

00:44:13,770 --> 00:44:12,040

anything close to this so we don't have

1215

00:44:16,650 --> 00:44:13,780

the autopsies that seemed to be done

1216

00:44:17,370 --> 00:44:16,660

properly and we also don't have the

1217

00:44:19,560 --> 00:44:17,380

ballistics

1218

00:44:21,180 --> 00:44:19,570

I keep hearing people talking about the

1219

00:44:24,270 --> 00:44:21,190

ballistics who was doing the ballistics

1220

00:44:25,950 --> 00:44:24,280

FBI so the FBI has it they just haven't

1221

00:44:28,829 --> 00:44:25,960

released it ID

1222

00:44:31,320 --> 00:44:28,839

ma'am I don't know I mean I go you don't

1223

00:44:35,910 --> 00:44:31,330

know whether they did it oh I know I'm I

1224

00:44:39,329 --> 00:44:35,920

know they did it but I don't know well I

1225

00:44:43,829 --> 00:44:39,339

kind of got a good idea but where is it

1226

00:44:46,230 --> 00:44:43,839

idea as to well this rather than getting

1227

00:44:48,750 --> 00:44:46,240

into my personal knowledge into this

1228

00:44:50,520 --> 00:44:48,760

which I will reveal at a later date

1229

00:44:52,620 --> 00:44:50,530

let's get into the fact that they are

1230

00:44:55,349 --> 00:44:52,630

charged with they took the lead on the

1231

00:44:57,810 --> 00:44:55,359

evidence okay to take some of the so the

1232

00:44:59,700 --> 00:44:57,820

so the LVN PD could handle their local

1233

00:45:01,349 --> 00:44:59,710

jobs their daily jobs of hey you know we

1234

00:45:03,780 --> 00:45:01,359

still got a city that we have to we have

1235

00:45:06,300 --> 00:45:03,790

to protect I get that so the FBI comes

1236

00:45:08,400 --> 00:45:06,310

in and it's not necessarily a federal

1237

00:45:10,290 --> 00:45:08,410

situation here because it wasn't a

1238

00:45:11,220 --> 00:45:10,300

terrorist act so that's why we didn't

1239

00:45:13,200 --> 00:45:11,230

get the Sandy Hook

1240

00:45:16,440 --> 00:45:13,210

you know style report that we're used to

1241

00:45:18,960 --> 00:45:16,450

seeing we got this twenty two point five

1242

00:45:20,849 --> 00:45:18,970

page BAU slash let's hire some outside

1243

00:45:23,160 --> 00:45:20,859

people and it's float ten things on a

1244

00:45:25,140 --> 00:45:23,170

piece of paper and although I used to

1245

00:45:28,560 --> 00:45:25,150

clean responsibility and in that BAU

1246

00:45:31,980 --> 00:45:28,570

they basically put in the conclusion

1247

00:45:33,570 --> 00:45:31,990

that it wasn't terrorism so is it only a

1248

00:45:35,370 --> 00:45:33,580

terrorist investigation if it turned out

1249

00:45:36,570 --> 00:45:35,380

to be terrorism that's what's so weird

1250

00:45:38,670 --> 00:45:36,580

about this whole thing I mean they can

1251

00:45:40,440 --> 00:45:38,680

rule things out it's just like Sheriff

1252

00:45:42,359 --> 00:45:40,450

Ron Bardo can rule out Levi's Hancock

1253

00:45:44,370 --> 00:45:42,369

did not you know whatever but he can't

1254

00:45:45,930 --> 00:45:44,380

okay so we've got one removed down we

1255

00:45:48,780 --> 00:45:45,940

got how many more officers were in there

1256

00:45:51,839 --> 00:45:48,790

to go by so back to back to the autopsy

1257

00:45:53,910 --> 00:45:51,849

thing here we've got 58 autopsies that

1258

00:45:58,280 --> 00:45:53,920

were performed supposedly because the

1259

00:46:00,690 --> 00:45:58,290

information is still it gray that's that

1260

00:46:02,160 --> 00:46:00,700

the information is still gray and we're

1261

00:46:05,070 --> 00:46:02,170

still trying to figure out okay well how

1262

00:46:06,480 --> 00:46:05,080

many actual internal exams were done you

1263

00:46:08,430 --> 00:46:06,490

know you have some of these these wounds

1264

00:46:10,920 --> 00:46:08,440

that were yet were questions some people

1265

00:46:12,210 --> 00:46:10,930

believe that in my case Melissa Ramirez

1266

00:46:14,550 --> 00:46:12,220

which is a case obviously I'm very

1267

00:46:16,589 --> 00:46:14,560

familiar with some people believe she

1268

00:46:20,760 --> 00:46:16,599

was shot in the head and some people

1269

00:46:24,810 --> 00:46:20,770

believe the the number that she is on

1270

00:46:27,930 --> 00:46:24,820

the autopsy report which is will say

1271

00:46:29,940 --> 00:46:27,940

fifteen will just use that number if

1272

00:46:31,230 --> 00:46:29,950

that's accurate or not as to whether or

1273

00:46:32,130 --> 00:46:31,240

not that was the actual cause of death

1274

00:46:34,339 --> 00:46:32,140

okay

1275

00:46:37,020 --> 00:46:34,349

or was she actually shot in there well I

1276

00:46:39,390 --> 00:46:37,030

to go the opposite route and I believe

1277

00:46:42,059 --> 00:46:39,400

that the autopsy is fairly accurate but

1278

00:46:44,089 --> 00:46:42,069

same time these people didn't get some

1279

00:46:47,490 --> 00:46:44,099

people didn't get internal exams that's

1280

00:46:50,220 --> 00:46:47,500

that's pretty much normal now so what we

1281

00:46:53,309 --> 00:46:50,230

need to do is have one really really

1282

00:46:55,650 --> 00:46:53,319

darn good pathologists come in and tell

1283

00:46:57,599 --> 00:46:55,660

us why this stuff would would be an

1284

00:46:59,370 --> 00:46:57,609

issue so we're gonna get you an

1285

00:47:02,880 --> 00:46:59,380

interview with somebody that's pretty

1286

00:47:05,700 --> 00:47:02,890

famous and why don't we have the

1287

00:47:11,609 --> 00:47:08,670

well they're part of the reason is is

1288

00:47:13,140 --> 00:47:11,619

there their answer to the answer to me

1289

00:47:14,640 --> 00:47:13,150

was without going through the FOIA

1290

00:47:17,160 --> 00:47:14,650

request just talking to somebody that

1291

00:47:18,210 --> 00:47:17,170

was there is that the information that

1292

00:47:19,680 --> 00:47:18,220

they're going to put out they're going

1293

00:47:21,720 --> 00:47:19,690

to put it all out in the vault

1294

00:47:23,370 --> 00:47:21,730

okay the FBI has a portion of the

1295

00:47:25,079 --> 00:47:23,380

website that's dedicated to putting out

1296

00:47:27,240 --> 00:47:25,089

information like this that's just an

1297

00:47:29,549 --> 00:47:27,250

enormous amount and information rather

1298

00:47:32,130 --> 00:47:29,559

than piecing it out so I asked this

1299

00:47:35,490 --> 00:47:32,140

person I said okay so you're waiting to

1300

00:47:37,980 --> 00:47:35,500

put this very detrimental information

1301

00:47:40,470 --> 00:47:37,990

out and you're going to put it in the

1302

00:47:43,380 --> 00:47:40,480

vault but didn't you already give it to

1303

00:47:45,150 --> 00:47:43,390

the LV MPD and if you did already give

1304

00:47:47,490 --> 00:47:45,160

it to the LV MPD weren't you already

1305

00:47:49,470 --> 00:47:47,500

court-ordered to give us this

1306

00:47:51,599 --> 00:47:49,480

information so that we can put closure

1307

00:47:53,970 --> 00:47:51,609

to these people's minds thinking that we

1308

00:47:55,829 --> 00:47:53,980

have another shooter because we cannot I

1309

00:47:58,319 --> 00:47:55,839

can't sit here in front of you Jim right

1310

00:48:00,779 --> 00:47:58,329

now and stay that Steven padded was a

1311

00:48:02,579 --> 00:48:00,789

shooter the reason why I can't say it is

1312

00:48:05,670 --> 00:48:02,589

because I had no ballistics that put the

1313

00:48:08,400 --> 00:48:05,680

weapon in his hand okay has anyone flat

1314

00:48:10,589 --> 00:48:08,410

out said that ballistics has been done

1315

00:48:12,450 --> 00:48:10,599

and it confirms that all the bullets

1316

00:48:14,400 --> 00:48:12,460

came from his weapons it's very

1317

00:48:15,839 --> 00:48:14,410

difficult for me to separate what's been

1318

00:48:17,579 --> 00:48:15,849

said officially and what's been said to

1319

00:48:19,049 --> 00:48:17,589

me unofficially and so I have to

1320

00:48:20,940 --> 00:48:19,059

actually a lot of people think you know

1321

00:48:22,289 --> 00:48:20,950

t'rar you're like there's like the

1322

00:48:25,500 --> 00:48:22,299

world's slowest computer and you're

1323

00:48:27,269 --> 00:48:25,510

trying to think back as anybody ever

1324

00:48:29,430 --> 00:48:27,279

said that oh my gosh we've got some

1325

00:48:32,880 --> 00:48:29,440

unexplained bullets er yes

1326
00:48:34,769 --> 00:48:32,890
no no one said that but people outside

1327
00:48:36,599 --> 00:48:34,779
of the investigation have said that of

1328
00:48:37,859 --> 00:48:36,609
course and right people believe there

1329
00:48:39,720 --> 00:48:37,869
was additional shooters a central

1330
00:48:41,609 --> 00:48:39,730
shooters helicopters aliens whatever

1331
00:48:44,069 --> 00:48:41,619
whether it's official or unofficial you

1332
00:48:47,549 --> 00:48:44,079
haven't heard any reports that in fact

1333
00:48:50,010 --> 00:48:47,559
there were unexplained bullets no I

1334
00:48:52,200 --> 00:48:50,020
haven't heard that specifically but I

1335
00:48:53,280 --> 00:48:52,210
haven't I don't have the information in

1336
00:48:55,260 --> 00:48:53,290
front of me to be able to

1337
00:48:56,730 --> 00:48:55,270
State but we're gonna get it eventually

1338
00:48:58,920 --> 00:48:56,740

you're saying the FBI is gonna release

1339

00:49:00,540 --> 00:48:58,930

it on their website I hope so and if

1340

00:49:02,730 --> 00:49:00,550

they release it on the website here's

1341

00:49:06,450 --> 00:49:02,740

the problem and this reverses back a

1342

00:49:08,430 --> 00:49:06,460

little bit Jim is it of your belief

1343

00:49:11,010 --> 00:49:08,440

that's not getting this information the

1344

00:49:12,060 --> 00:49:11,020

ballistic report that we were ordered

1345

00:49:14,310 --> 00:49:12,070

they were ordered to give that

1346

00:49:16,670 --> 00:49:14,320

information out because LT MPD obviously

1347

00:49:19,890 --> 00:49:16,680

has it aren't we supposed to have it

1348

00:49:21,270 --> 00:49:19,900

yeah well that emanated from the FBI

1349

00:49:23,820 --> 00:49:21,280

originally though so you'd have to go

1350

00:49:25,230 --> 00:49:23,830

back and look at that original FOIA that

1351

00:49:26,100 --> 00:49:25,240

went to through the court system

1352

00:49:27,840 --> 00:49:26,110

actually you have to look at the

1353

00:49:30,030 --> 00:49:27,850

original court order did the court order

1354

00:49:32,580 --> 00:49:30,040

just the LVM PD to really sell this

1355

00:49:34,920 --> 00:49:32,590

information or did they also order the

1356

00:49:37,050 --> 00:49:34,930

Federal Bureau of Investigation now my

1357

00:49:41,070 --> 00:49:37,060

understanding is that all of the reports

1358

00:49:44,190 --> 00:49:41,080

were done within 30 to 45 days by the

1359

00:49:46,770 --> 00:49:44,200

FBI they were done like within 60 days

1360

00:49:49,620 --> 00:49:46,780

they were pretty much guaranteed done so

1361

00:49:51,300 --> 00:49:49,630

that means that even before the Las

1362

00:49:53,610 --> 00:49:51,310

Vegas review-journal went out and sued

1363

00:49:56,580 --> 00:49:53,620

for all this information that means the

1364

00:49:59,130 --> 00:49:56,590

LVN PD did have the information L V MPD

1365

00:50:00,450 --> 00:49:59,140

was definitely sued to give out all of

1366

00:50:02,190 --> 00:50:00,460

the information that it had on the case

1367

00:50:03,420 --> 00:50:02,200

we don't have another perpetrator out

1368

00:50:04,800 --> 00:50:03,430

there running around that we're trying

1369

00:50:06,810 --> 00:50:04,810

to you know hold the information because

1370

00:50:09,540 --> 00:50:06,820

we have some lawsuit coming up we don't

1371

00:50:12,240 --> 00:50:09,550

have a live suspect the person is dead

1372

00:50:13,470 --> 00:50:12,250

so we're not waiting for trial and we

1373

00:50:14,760 --> 00:50:13,480

need this information kind of hidden

1374

00:50:16,920 --> 00:50:14,770

from the public view because it might

1375

00:50:21,180 --> 00:50:16,930

taint the jury pool we don't have any of

1376

00:50:24,120 --> 00:50:21,190

this so why are they holding it they're

1377

00:50:26,820 --> 00:50:24,130

in contempt period I mean there's I

1378

00:50:28,740 --> 00:50:26,830

can't see any other way to look at yeah

1379

00:50:29,160 --> 00:50:28,750

I mean I'm not a lawyer but I play one

1380

00:50:31,260 --> 00:50:29,170

on TV

1381

00:50:32,790 --> 00:50:31,270

the FBI draws this conclusion that there

1382

00:50:34,080 --> 00:50:32,800

wasn't terrorism even though Isis

1383

00:50:35,130 --> 00:50:34,090

claimed responsibility I would have

1384

00:50:36,840 --> 00:50:35,140

thought that they would want to release

1385

00:50:39,300 --> 00:50:36,850

information that demonstrated that

1386

00:50:41,270 --> 00:50:39,310

proved that is falsely claimed

1387

00:50:44,010 --> 00:50:41,280

responsibility here bingo

1388

00:50:47,360 --> 00:50:44,020

last question papa

1389

00:50:49,770 --> 00:50:47,370

we asked him this he thinks that Patek

1390

00:50:51,990 --> 00:50:49,780

was the lone shooter I assume that's

1391

00:50:55,560 --> 00:50:52,000

your conclusion also at this point I

1392

00:50:57,870 --> 00:50:55,570

believe that all of the shots that were

1393

00:51:00,030 --> 00:50:57,880

fired that day into the crowd there were

1394

00:51:04,650 --> 00:51:00,040

two shooters absolutely there were two

1395

00:51:04,900 --> 00:51:04,660

shooters in that room you're kidding now

1396

00:51:10,840 --> 00:51:04,910

there

1397

00:51:13,750 --> 00:51:10,850

the room one was Stephen Patek as far as

1398

00:51:15,250 --> 00:51:13,760

my opinion is concerned the other was

1399

00:51:18,970 --> 00:51:15,260

Shawn O'Donnell the officer they had the

1400

00:51:21,970 --> 00:51:18,980

negative district got you inside Vegas

1401
00:51:24,340 --> 00:51:21,980
take a shooting joke yeah that's bad but

1402
00:51:29,770 --> 00:51:24,350
the situation is this I have no evidence

1403
00:51:32,020 --> 00:51:29,780
that you mean you had the you were too

1404
00:51:34,240 --> 00:51:32,030
but the you know the thing is this is

1405
00:51:36,250 --> 00:51:34,250
that I have zero evidence and in Who am

1406
00:51:37,960 --> 00:51:36,260
I right Who am I to be sitting here

1407
00:51:39,280 --> 00:51:37,970
making this statement well I'm a person

1408
00:51:40,690 --> 00:51:39,290
that's basically dedicated a lot of his

1409
00:51:42,370 --> 00:51:40,700
life to it and I don't make any money

1410
00:51:44,230 --> 00:51:42,380
from this I've lost tons of money from

1411
00:51:45,520 --> 00:51:44,240
this and on top of all of that

1412
00:51:48,400 --> 00:51:45,530
I've sat there and I've listened to

1413
00:51:50,260 --> 00:51:48,410

absolutely every single bullet and tried

1414

00:51:52,240 --> 00:51:50,270

to determine the trajectory of every

1415

00:51:54,250 --> 00:51:52,250

single bullet where it went what it hit

1416

00:51:56,740 --> 00:51:54,260

who it hit all of these different things

1417

00:51:57,850 --> 00:51:56,750

and so out of all of that I have to sit

1418

00:52:01,390 --> 00:51:57,860

there and determine where the bullet

1419

00:52:05,830 --> 00:52:01,400

came from I know where every single

1420

00:52:07,600 --> 00:52:05,840

bullet came from no bullet that I was

1421

00:52:08,740 --> 00:52:07,610

able to have any audio on I'm looking

1422

00:52:10,000 --> 00:52:08,750

you right in your eye and I'm telling

1423

00:52:13,540 --> 00:52:10,010

you this just I could tell anybody else

1424

00:52:16,390 --> 00:52:13,550

no bullet from from any came from any

1425

00:52:18,820 --> 00:52:16,400

other location other than within 50 feet

1426

00:52:23,140 --> 00:52:18,830

or 23 feet which is my error of margin

1427

00:52:25,030 --> 00:52:23,150

of that room so there had to be if there

1428

00:52:27,520 --> 00:52:25,040

was a helicopter then the helicopter had

1429

00:52:29,620 --> 00:52:27,530

to be hovering right by the room and no

1430

00:52:31,750 --> 00:52:29,630

one and the reason you know you had just

1431

00:52:34,150 --> 00:52:31,760

fog of war general mayhem and you had a

1432

00:52:36,100 --> 00:52:34,160

lot of echoing of sounds and that's why

1433

00:52:37,540 --> 00:52:36,110

people who were at the festival were so

1434

00:52:39,160 --> 00:52:37,550

convinced that it was multiple shooters

1435

00:52:40,930 --> 00:52:39,170

and from all over the place yeah you

1436

00:52:42,580 --> 00:52:40,940

have that you have the you know the

1437

00:52:45,010 --> 00:52:42,590

sonic cracks plus you have sounds that

1438

00:52:48,180 --> 00:52:45,020

you had in the other hotels so the sign

1439

00:52:50,590 --> 00:52:48,190

you had you had a amplified audio system

1440

00:52:52,180 --> 00:52:50,600

still turned on yeah you had that you

1441

00:52:53,980 --> 00:52:52,190

had that and that that's something I

1442

00:52:56,440 --> 00:52:53,990

actually looked at early on and very

1443

00:52:58,810 --> 00:52:56,450

early on because that was I'm stinking

1444

00:53:01,990 --> 00:52:58,820

okay this amplified system so on the guy

1445

00:53:03,610 --> 00:53:02,000

whose little that runs that board his

1446

00:53:07,750 --> 00:53:03,620

name I won't give his name it starts a

1447

00:53:10,540 --> 00:53:07,760

lot of K he did he turn the board off

1448

00:53:12,010 --> 00:53:10,550

where the board was shot really the

1449

00:53:14,050 --> 00:53:12,020

board was shot there's there's a picture

1450

00:53:17,320 --> 00:53:14,060

of that sound board of it being shot now

1451
00:53:18,460 --> 00:53:17,330
I don't I cannot sit here and say that I

1452
00:53:20,590 --> 00:53:18,470
could

1453
00:53:22,480 --> 00:53:20,600
now I can differentiate whether or not

1454
00:53:24,070 --> 00:53:22,490
the sound came from EI rads because live

1455
00:53:25,630 --> 00:53:24,080
the current one of the current theories

1456
00:53:27,730 --> 00:53:25,640
is that EI rads was out there which

1457
00:53:29,770 --> 00:53:27,740
which is you're you're extremely loud

1458
00:53:33,010 --> 00:53:29,780
speaker that people use for crowd

1459
00:53:35,920 --> 00:53:33,020
control and in the time of work as well

1460
00:53:37,450 --> 00:53:35,930
but that wasn't you so if I could rule

1461
00:53:39,850 --> 00:53:37,460
out that I should be able to rule out

1462
00:53:41,880 --> 00:53:39,860
the speakers so what you do is you bring

1463
00:53:44,170 --> 00:53:41,890

in a very sophisticated audio program

1464

00:53:46,690 --> 00:53:44,180

one of which I was using at the time I

1465

00:53:49,320 --> 00:53:46,700

can't show the public so I have to bring

1466

00:53:51,220 --> 00:53:49,330

it into an Adobe product and show it

1467

00:53:54,250 --> 00:53:51,230

where you actually start putting

1468

00:53:58,570 --> 00:53:54,260

different sound sources into the area

1469

00:54:00,490 --> 00:53:58,580

and and then you play the sounds you

1470

00:54:02,050 --> 00:54:00,500

know through a virtual area and see if

1471

00:54:05,710 --> 00:54:02,060

they match what you actually hear and

1472

00:54:08,260 --> 00:54:05,720

they don't they don't match so what does

1473

00:54:11,380 --> 00:54:08,270

match is is all of the sounds being

1474

00:54:13,840 --> 00:54:11,390

emanated from the 32nd floor or there

1475

00:54:15,220 --> 00:54:13,850

abouts and that's it I don't have any

1476

00:54:17,230 --> 00:54:15,230

evidence points me any other way and

1477

00:54:19,570 --> 00:54:17,240

there's been plenty of time for plenty

1478

00:54:22,240 --> 00:54:19,580

of audio experts out there to debunk me

1479

00:54:24,220 --> 00:54:22,250

or to debunk you know anyone else that

1480

00:54:26,050 --> 00:54:24,230

said any different and no one has come

1481

00:54:28,240 --> 00:54:26,060

through with any clear concise evidence

1482

00:54:30,130 --> 00:54:28,250

that has said anything different okay

1483

00:54:33,040 --> 00:54:30,140

let's make this last question keep

1484

00:54:34,930 --> 00:54:33,050

thinking of one more Live Nation do you

1485

00:54:37,950 --> 00:54:34,940

think I mean I think you believe that

1486

00:54:39,520 --> 00:54:37,960

Mandalay Bay acted grossly negligent and

1487

00:54:41,380 --> 00:54:39,530

should pay up

1488

00:54:43,510 --> 00:54:41,390

Live Nation do you think they should be

1489

00:54:46,240 --> 00:54:43,520

held responsible well here's the way

1490

00:54:48,010 --> 00:54:46,250

this works when you buy a ticket when

1491

00:54:49,990 --> 00:54:48,020

you buy a ticket to go to a concert and

1492

00:54:53,350 --> 00:54:50,000

Live Nation was was one of the first

1493

00:54:56,380 --> 00:54:53,360

people that Katherine Lombardo attorney

1494

00:54:56,890 --> 00:54:56,390

katham Lombardo actually sued are put on

1495

00:54:59,590 --> 00:54:56,900

the lawsuit

1496

00:55:02,380 --> 00:54:59,600

say a Live Nation and they they're the

1497

00:55:03,880 --> 00:55:02,390

ticket resource for this and they are

1498

00:55:05,020 --> 00:55:03,890

also the source for me for the number of

1499

00:55:07,090 --> 00:55:05,030

people that were there but out of the

1500

00:55:09,160 --> 00:55:07,100

gold nico PIMCO promoter go promoter of

1501
00:55:11,440 --> 00:55:09,170
the event so an MGM is the one who

1502
00:55:12,970 --> 00:55:11,450
signed the the permit to get the event

1503
00:55:14,140 --> 00:55:12,980
so MGM signed that permit when it

1504
00:55:17,470 --> 00:55:14,150
shouldn't have been them that's another

1505
00:55:18,970 --> 00:55:17,480
story but you have Live Nation who

1506
00:55:22,180 --> 00:55:18,980
collects tickets now when you when you

1507
00:55:24,040 --> 00:55:22,190
sell a ticket to an event how much money

1508
00:55:25,660 --> 00:55:24,050
from that ticket goes in towards the

1509
00:55:27,370 --> 00:55:25,670
actual ticket paying the promoters

1510
00:55:28,810 --> 00:55:27,380
paying the the artist and what have you

1511
00:55:31,810 --> 00:55:28,820
and then certain portion that goes into

1512
00:55:33,310 --> 00:55:31,820
some form of liability insurance see

1513
00:55:36,340 --> 00:55:33,320

they absolutely should have been part of

1514

00:55:38,050 --> 00:55:36,350

this suit now whether or not CSC which

1515

00:55:41,230 --> 00:55:38,060

is you well they're only responsible

1516

00:55:42,310 --> 00:55:41,240

they have to be been responsible in some

1517

00:55:43,840 --> 00:55:42,320

way they have to have acted negligently

1518

00:55:45,250 --> 00:55:43,850

in some way so that's really the

1519

00:55:47,500 --> 00:55:45,260

question they're not responsible simply

1520

00:55:48,880 --> 00:55:47,510

because they're the promoter yeah yeah

1521

00:55:50,200 --> 00:55:48,890

they just did that but but so because

1522

00:55:54,580 --> 00:55:50,210

what the reason I thought the question

1523

00:55:55,390 --> 00:55:54,590

is you mentioned the sound board one of

1524

00:55:57,940 --> 00:55:55,400

the things that was mentioned is that

1525

00:55:59,740 --> 00:55:57,950

there should be some emergency system in

1526

00:56:01,450 --> 00:55:59,750

place that if some emergency happens

1527

00:56:04,210 --> 00:56:01,460

there's another mica there's a way to

1528

00:56:06,910 --> 00:56:04,220

communicate with the crowd there was

1529

00:56:08,050 --> 00:56:06,920

zero communication you know Jason even

1530

00:56:09,370 --> 00:56:08,060

runs off the stage and that's the end of

1531

00:56:12,160 --> 00:56:09,380

the communication there's nobody that we

1532

00:56:14,380 --> 00:56:12,170

have been watching my videos yeah oh

1533

00:56:16,210 --> 00:56:14,390

yeah actually yeah early on that was one

1534

00:56:18,040 --> 00:56:16,220

of the first things I said was was that

1535

00:56:19,660 --> 00:56:18,050

number one they should have had a system

1536

00:56:21,070 --> 00:56:19,670

in place it automatically takes over in

1537

00:56:23,260 --> 00:56:21,080

case something happens like boom there's

1538

00:56:25,330 --> 00:56:23,270

a big red button sitting on top of that

1539

00:56:27,280 --> 00:56:25,340

sound board and in case of emergency

1540

00:56:28,810 --> 00:56:27,290

like you knows a building collapse a

1541

00:56:31,870 --> 00:56:28,820

plane crash they're right by the airport

1542

00:56:33,520 --> 00:56:31,880

you know if a plane crash is right there

1543

00:56:34,720 --> 00:56:33,530

that's going to be a huge distraction no

1544

00:56:36,100 --> 00:56:34,730

one's going to know what to do

1545

00:56:37,960 --> 00:56:36,110

you're not gonna verbally get on a

1546

00:56:39,610 --> 00:56:37,970

microphone and say okay everyone remain

1547

00:56:42,340 --> 00:56:39,620

calm who the hell is gonna remain calm

1548

00:56:43,480 --> 00:56:42,350

you know you got tanks exploding you got

1549

00:56:45,100 --> 00:56:43,490

someone shooting over here you got

1550

00:56:46,210 --> 00:56:45,110

planes crashing over here all these

1551

00:56:49,780 --> 00:56:46,220

different things that could be played

1552

00:56:52,360 --> 00:56:49,790

out and in this event hit the red button

1553

00:56:54,400 --> 00:56:52,370

in the case of emergency hit this red

1554

00:56:55,750 --> 00:56:54,410

button and automated message comes over

1555

00:56:57,190 --> 00:56:55,760

the system and tells people where to go

1556

00:56:58,900 --> 00:56:57,200

now that's assuming that all the gates

1557

00:56:59,980 --> 00:56:58,910

remain the same and all these other

1558

00:57:01,090 --> 00:56:59,990

things and you remember there's little

1559

00:57:02,410 --> 00:57:01,100

metal things that they had out there

1560

00:57:03,700 --> 00:57:02,420

they're trying to correct and corral

1561

00:57:05,860 --> 00:57:03,710

people into certain locations like a

1562

00:57:08,320 --> 00:57:05,870

little I think the cow herders or

1563

00:57:09,880 --> 00:57:08,330

whatever recall and they try to get

1564

00:57:12,310 --> 00:57:09,890

people to go certain directions but in

1565

00:57:14,530 --> 00:57:12,320

the case of emergency no one that is

1566

00:57:16,390 --> 00:57:14,540

listening to this right now can say that

1567

00:57:19,000 --> 00:57:16,400

they do not know what to do when they

1568

00:57:20,440 --> 00:57:19,010

get on a plane yeah okay well the other

1569

00:57:21,910 --> 00:57:20,450

thing I would add is that your Live

1570

00:57:23,350 --> 00:57:21,920

Nation are promoting this event and

1571

00:57:25,330 --> 00:57:23,360

you're out there setting everything up

1572

00:57:27,940 --> 00:57:25,340

and you're looking around thinking about

1573

00:57:31,180 --> 00:57:27,950

security thinking about wanting people

1574

00:57:33,460 --> 00:57:31,190

as they come in etc but how much thought

1575

00:57:34,540 --> 00:57:33,470

was given to that well guys look at the

1576

00:57:37,540 --> 00:57:34,550

surroundings here look at all these

1577

00:57:39,160 --> 00:57:37,550

elevated positions of people that could

1578

00:57:40,180 --> 00:57:39,170

you know so just like I think the police

1579

00:57:41,290 --> 00:57:40,190

should have thought about that and

1580

00:57:43,220 --> 00:57:41,300

Mandalay Bay should have thought about

1581

00:57:45,050 --> 00:57:43,230

that I think Live Nation arguably should

1582

00:57:47,750 --> 00:57:45,060

about that well they should have someone

1583

00:57:50,150 --> 00:57:47,760

like me that is an expert in that area

1584

00:57:52,160 --> 00:57:50,160

that's an expert well we'll just say

1585

00:57:53,480 --> 00:57:52,170

that any time we use the term expert

1586

00:57:55,460 --> 00:57:53,490

people immediately started talking with

1587

00:57:57,740 --> 00:57:55,470

us so let's just say them I'm fairly

1588

00:57:59,630 --> 00:57:57,750

versed in several areas one of which

1589

00:58:02,210 --> 00:57:59,640

would be to go into a venue and look

1590

00:58:03,560 --> 00:58:02,220

around and go okay you guys got all of

1591

00:58:05,090 --> 00:58:03,570

these buildings around here just like

1592

00:58:06,590 --> 00:58:05,100

you alluded to that's the elevated

1593

00:58:08,420 --> 00:58:06,600

position that's a problem we need to

1594

00:58:10,790 --> 00:58:08,430

have someone that's watching these

1595

00:58:13,070 --> 00:58:10,800

positions okay anytime you have an event

1596

00:58:14,900 --> 00:58:13,080

that's over a certain amount now Nevada

1597

00:58:16,280 --> 00:58:14,910

has classifications for events that over

1598

00:58:18,380 --> 00:58:16,290

ten thousand or over X amount of people

1599

00:58:22,520 --> 00:58:18,390

that they should have certain security

1600

00:58:24,470 --> 00:58:22,530

protocol in place did they I know it

1601
00:58:25,970 --> 00:58:24,480
doesn't seem like it so if you have that

1602
00:58:27,470 --> 00:58:25,980
so you bring in some new measures so

1603
00:58:29,570 --> 00:58:27,480
this event actually broke the mold

1604
00:58:31,880 --> 00:58:29,580
there's nothing else like it to compare

1605
00:58:33,500 --> 00:58:31,890
to so you said there you go okay let's

1606
00:58:35,930 --> 00:58:33,510
be proactive here let's hire some people

1607
00:58:37,609 --> 00:58:35,940
I will do it for free I will go out

1608
00:58:39,950 --> 00:58:37,619
there and absolutely for free I'll work

1609
00:58:41,359 --> 00:58:39,960
for months if necessary to go over a

1610
00:58:43,040 --> 00:58:41,369
certain protocol that needs to be put

1611
00:58:46,430 --> 00:58:43,050
into place anytime any situation like

1612
00:58:48,380 --> 00:58:46,440
this occurs no tarts look at elevated

1613
00:58:50,780 --> 00:58:48,390

positions you look at crowd dispersal

1614

00:58:51,980 --> 00:58:50,790

and crowd control okay whenever an event

1615

00:58:53,990 --> 00:58:51,990

happens you've got people running

1616

00:58:56,359 --> 00:58:54,000

everywhere so now guess what your

1617

00:58:57,140 --> 00:58:56,369

security is inside that crowd they're

1618

00:58:59,000 --> 00:58:57,150

running everywhere

1619

00:59:00,530 --> 00:58:59,010

you should have security in elevated

1620

00:59:02,210 --> 00:59:00,540

positions that are watching the crowd

1621

00:59:03,800 --> 00:59:02,220

and basically guiding people and where

1622

00:59:05,300 --> 00:59:03,810

to go flashlights

1623

00:59:07,280 --> 00:59:05,310

you need to have lights you need to have

1624

00:59:09,050 --> 00:59:07,290

flashlights that security has that

1625

00:59:10,400 --> 00:59:09,060

people recognize immediately that's

1626
00:59:12,770 --> 00:59:10,410
security let's go there

1627
00:59:13,970 --> 00:59:12,780
yellow orange whatever so everybody

1628
00:59:16,700 --> 00:59:13,980
knows this and over time you're

1629
00:59:18,050 --> 00:59:16,710
conditioned to this okay all these

1630
00:59:19,880 --> 00:59:18,060
different things need to be put in place

1631
00:59:22,359 --> 00:59:19,890
a loudspeaker system obviously would be

1632
00:59:24,650 --> 00:59:22,369
clear that would come on and adjust

1633
00:59:26,720 --> 00:59:24,660
telling people where to go now here's

1634
00:59:29,900 --> 00:59:26,730
the problem with that and a pre-recorded

1635
00:59:31,490 --> 00:59:29,910
message and if a shooter knows that hey

1636
00:59:34,310 --> 00:59:31,500
this pre-recorded message is going to

1637
00:59:36,349 --> 00:59:34,320
come on and it's gonna say for people to

1638
00:59:38,060 --> 00:59:36,359

go this direction well I got a surprise

1639

00:59:39,620 --> 00:59:38,070

for them because it's already going to

1640

00:59:41,359 --> 00:59:39,630

get tell him to go this direction so I'm

1641

00:59:43,040 --> 00:59:41,369

gonna put bombs there with remote

1642

00:59:44,450 --> 00:59:43,050

controls and I'm not putting them I'm

1643

00:59:46,580 --> 00:59:44,460

not putting any you know thing either

1644

00:59:48,500 --> 00:59:46,590

well it's not a pre-recorded no it would

1645

00:59:51,740 --> 00:59:48,510

be an alive you could have a guy in a

1646

00:59:53,359 --> 00:59:51,750

live mic alternate that's what I would

1647

00:59:54,859 --> 00:59:53,369

recommend someone that's actually being

1648

00:59:56,690 --> 00:59:54,869

someone actually able to view the

1649

00:59:57,170 --> 00:59:56,700

situation that is truly an expert the

1650

00:59:59,630 --> 00:59:57,180

underst

1651
01:00:02,630 --> 00:59:59,640
how the crowds work and in what's going

1652
01:00:05,059 --> 01:00:02,640
to happen and can actually identify new

1653
01:00:05,960 --> 01:00:05,069
situations as they occur you know you're

1654
01:00:07,130 --> 01:00:05,970
not gonna have some artificial

1655
01:00:08,539 --> 01:00:07,140
intelligent program out there with a

1656
01:00:09,650 --> 01:00:08,549
camera it's gonna be able to do all this

1657
01:00:11,329 --> 01:00:09,660
stuff so you need to have a person on

1658
01:00:12,980 --> 01:00:11,339
the mic that says hey okay well we've

1659
01:00:15,079 --> 01:00:12,990
got something going on there so you know

1660
01:00:17,180 --> 01:00:15,089
everyone head this direction and highly

1661
01:00:19,490 --> 01:00:17,190
you need to have signs that are elevated

1662
01:00:22,519 --> 01:00:19,500
that clearly indicate an exit and the

1663
01:00:24,829 --> 01:00:22,529

number okay everyone head to exit five

1664

01:00:26,720 --> 01:00:24,839

mmm so you can look up and see it the

1665

01:00:28,130 --> 01:00:26,730

exits were on the fence line which is

1666

01:00:29,240 --> 01:00:28,140

basically at the same level of our head

1667

01:00:30,680 --> 01:00:29,250

so as you're moving around you're not

1668

01:00:32,510 --> 01:00:30,690

gonna see that from a distance so these

1669

01:00:34,789 --> 01:00:32,520

are all different things that I would be

1670

01:00:36,049 --> 01:00:34,799

more than happy to go into with you know

1671

01:00:39,019 --> 01:00:36,059

obviously this show is not the way the

1672

01:00:40,339 --> 01:00:39,029

the time to do it but to go into and put
