

# HIDDEN TRUTH SHOW WITH JIM BRESLO

**JEFF  
RENSE**

1  
00:00:08,299 --> 00:00:06,039

[Music]

2  
00:00:10,640 --> 00:00:08,309

you're listening to the Insurance Show

3  
00:00:13,669 --> 00:00:10,650

with Jim Breslow find us at hidden

4  
00:00:16,310 --> 00:00:13,679

truths show.com follow us on Facebook

5  
00:00:19,370 --> 00:00:16,320

Twitter and Instagram that hidden truths

6  
00:00:22,099 --> 00:00:19,380

show watch our YouTube channel he didn't

7  
00:00:25,370 --> 00:00:22,109

read show please subscribe rate and

8  
00:00:28,759 --> 00:00:25,380

review us under podcast app here's Jim

9  
00:00:32,359 --> 00:00:28,769

Fresno welcome back to the hidden truth

10  
00:00:34,790 --> 00:00:32,369

show in last week's episode our guest

11  
00:00:37,790 --> 00:00:34,800

former Air Force intelligence specialist

12  
00:00:40,310 --> 00:00:37,800

Mike termier revealed that the tic-tac

13  
00:00:43,700 --> 00:00:40,320

UFOs shown in the Navy video released

14

00:00:47,420 --> 00:00:43,710

earlier this year are in fact secret US

15

00:00:48,860 --> 00:00:47,430

aircraft if mike is to be believed this

16

00:00:51,619 --> 00:00:48,870

represents perhaps the greatest

17

00:00:54,110 --> 00:00:51,629

scientific discovery in human history as

18

00:00:57,410 --> 00:00:54,120

well as one of the greatest government

19

00:00:59,660 --> 00:00:57,420

cover-ups of all time according to turbo

20

00:01:02,119 --> 00:00:59,670

the craft creates its own dense and

21

00:01:04,490 --> 00:01:02,129

polarized energy field which allows it

22

00:01:06,530 --> 00:01:04,500

to create a quantum vacuum around itself

23

00:01:09,620 --> 00:01:06,540

which allows it to escape the effect of

24

00:01:12,350 --> 00:01:09,630

gravity and repel any air or water

25

00:01:13,940 --> 00:01:12,360

molecules with which it interacts due to

26

00:01:17,030 --> 00:01:13,950

the vacuum it can operate as a hybrid

27

00:01:18,590 --> 00:01:17,040

aerospace underwater craft capable of

28

00:01:21,320 --> 00:01:18,600

incredible feats of speed and

29

00:01:25,160 --> 00:01:21,330

maneuverability and can fly equally well

30

00:01:28,340 --> 00:01:25,170

in air water or space it exploits not

31

00:01:30,170 --> 00:01:28,350

violates the laws of physics the crafts

32

00:01:32,359 --> 00:01:30,180

are built at plant 42 in Palmdale

33

00:01:35,600 --> 00:01:32,369

California for the Air Force by private

34

00:01:38,390 --> 00:01:35,610

contractors turbo even hinted that he is

35

00:01:40,310 --> 00:01:38,400

ridden in one and that Trump sent one

36

00:01:43,580 --> 00:01:40,320

over to North Korea to show it off to

37

00:01:45,859 --> 00:01:43,590

Kim jong-un if you've not listened to

38

00:01:48,170 --> 00:01:45,869

that episode yet I highly recommend you

39

00:01:50,690 --> 00:01:48,180

do so now it is our most listened to

40

00:01:53,690 --> 00:01:50,700

episode to date the lingering question

41

00:01:57,530 --> 00:01:53,700

on everyone's mind including mine is

42

00:01:59,060 --> 00:01:57,540

whether turbo is to be believed we are

43

00:02:01,100 --> 00:01:59,070

digging into turbos claims and we'll

44

00:02:03,440 --> 00:02:01,110

have experts on soon to address them

45

00:02:05,240 --> 00:02:03,450

we've also sent press releases to the

46

00:02:08,240 --> 00:02:05,250

mainstream media but thus far they have

47

00:02:10,850 --> 00:02:08,250

refused to cover it however talk show

48

00:02:13,580 --> 00:02:10,860

host and longtime UFO aficionado Jeff

49

00:02:16,059 --> 00:02:13,590

rents was very interested in the episode

50

00:02:18,589 --> 00:02:16,069

and invited me on his show to discuss it

51  
00:02:20,540 --> 00:02:18,599  
Jeff rents was voted the world's fourth

52  
00:02:23,089 --> 00:02:20,550  
most influential voice in alternative

53  
00:02:25,869 --> 00:02:23,099  
media he is listed among talk streams

54  
00:02:29,330 --> 00:02:25,879  
top 50 talk-show hosts in the world and

55  
00:02:32,180 --> 00:02:29,340  
talkers magazine top 100 hosts in

56  
00:02:34,789 --> 00:02:32,190  
America according to Bacon's media

57  
00:02:37,100 --> 00:02:34,799  
source his show is simply intelligent

58  
00:02:38,960 --> 00:02:37,110  
Discovery radio at its finest and

59  
00:02:41,059 --> 00:02:38,970  
produces material which aims to be vital

60  
00:02:44,390 --> 00:02:41,069  
and addictive compelling and

61  
00:02:45,830 --> 00:02:44,400  
life-changing we're going to play the

62  
00:02:48,050 --> 00:02:45,840  
highly entertaining interview for you

63  
00:02:49,819 --> 00:02:48,060

now and for listeners who have been

64

00:02:51,800 --> 00:02:49,829

tracking our coverage of the Las Vegas

65

00:02:53,690 --> 00:02:51,810

shooting you'll note that we discussed

66

00:02:56,059 --> 00:02:53,700

the shooting extensively in the first 20

67

00:02:58,069 --> 00:02:56,069

minutes or so of the interview rents was

68

00:03:00,250 --> 00:02:58,079

very interested in the fact that turbo

69

00:03:03,020 --> 00:03:00,260

was an investigator of the shooting

70

00:03:05,630 --> 00:03:03,030

rents does not believe that Patek acted

71

00:03:07,220 --> 00:03:05,640

alone and he questions whether turbo is

72

00:03:09,500 --> 00:03:07,230

a disinformation agent for the

73

00:03:11,960 --> 00:03:09,510

government based upon his involvement in

74

00:03:15,199 --> 00:03:11,970

both the shooting and the Navy UFO video

75

00:03:19,970 --> 00:03:15,209

here is my interview with Jeff rents

76

00:03:22,340 --> 00:03:19,980

Friday November 8 already I'm moving

77

00:03:24,319 --> 00:03:22,350

right along as they say you're ready for

78

00:03:26,360 --> 00:03:24,329

Thanksgiving and then we're gonna tumble

79

00:03:29,809 --> 00:03:26,370

through the holiday season and it's

80

00:03:32,569 --> 00:03:29,819

going to be rugged I do expect next week

81

00:03:37,580 --> 00:03:32,579

unless she's got some an incredibly

82

00:03:40,009 --> 00:03:37,590

strange plan of laying off after Iowa

83

00:03:43,250 --> 00:03:40,019

and after New Hampshire next week

84

00:03:44,839 --> 00:03:43,260

Hillary has to announce they did push it

85

00:03:47,360 --> 00:03:44,849

back to the 15th and I thought it was

86

00:03:48,979 --> 00:03:47,370

the 11th but it was not announced and we

87

00:03:52,069 --> 00:03:48,989

were just projecting now we know it's

88

00:03:55,009 --> 00:03:52,079

the 15th next Friday for New Hampshire

89

00:03:58,699 --> 00:03:55,019

so we will see lots of things going on

90

00:04:01,640 --> 00:03:58,709

now there's another story that has been

91

00:04:04,930 --> 00:04:01,650

in the news and it has a lot of very

92

00:04:08,240 --> 00:04:04,940

strange angles to try to figure out

93

00:04:11,830 --> 00:04:08,250

we're going to talk to mr. Jim Breslow

94

00:04:15,199 --> 00:04:11,840

these first two hours about the Navy's

95

00:04:18,319 --> 00:04:15,209

tick-tack UFO story remember that one

96

00:04:20,750 --> 00:04:18,329

the two at least two fighter jets off

97

00:04:22,719 --> 00:04:20,760

the US aircraft carrier off California

98

00:04:26,930 --> 00:04:22,729

and this happened all the way back in

99

00:04:29,930 --> 00:04:26,940

2004 now some of you will remember

100

00:04:31,969 --> 00:04:29,940

first the one commanding officer of one

101  
00:04:34,310 --> 00:04:31,979  
of the planes came forth and then the

102  
00:04:39,010 --> 00:04:34,320  
second one came forth and explained what

103  
00:04:43,219 --> 00:04:39,020  
they saw on their radar the alleged

104  
00:04:46,550 --> 00:04:43,229  
addition to Navy ships of a new kind of

105  
00:04:50,300 --> 00:04:46,560  
radar purportedly allowed them to see

106  
00:04:52,790 --> 00:04:50,310  
these tic-tac like objects now we're

107  
00:04:55,820 --> 00:04:52,800  
getting some very strange information

108  
00:05:01,490 --> 00:04:55,830  
that these objects remember this goes

109  
00:05:03,770 --> 00:05:01,500  
back to 2004 aren't UFOs that in fact

110  
00:05:07,040 --> 00:05:03,780  
they have been identified now there is

111  
00:05:08,719 --> 00:05:07,050  
and they have been identified allegedly

112  
00:05:14,320 --> 00:05:08,729  
by one source

113  
00:05:18,110 --> 00:05:14,330

this is wild as ours our technology our

114

00:05:20,089 --> 00:05:18,120

tic-tac tech as it were and we need to

115

00:05:22,400 --> 00:05:20,099

find out I'm looking forward to finding

116

00:05:24,770 --> 00:05:22,410

out a lot more about this I I was

117

00:05:27,650 --> 00:05:24,780

somewhat concerned that the Navy would

118

00:05:30,740 --> 00:05:27,660

go all the way back to 2004 to release

119

00:05:32,960 --> 00:05:30,750

some video and allow pilots to talk in

120

00:05:35,990 --> 00:05:32,970

public about it when we all know they

121

00:05:38,689 --> 00:05:36,000

have warehouses full of other even more

122

00:05:41,149 --> 00:05:38,699

impressive data footage video footage

123

00:05:43,640 --> 00:05:41,159

film footage first-hand account footage

124

00:05:48,140 --> 00:05:43,650

shoot down footage you name it footage

125

00:05:52,250 --> 00:05:48,150

so why did they go back to 2004 why this

126

00:05:54,770 --> 00:05:52,260

clever little title tic-tac and in point

127

00:05:57,620 --> 00:05:54,780

of fact if the Navy said yes we see

128

00:06:00,110 --> 00:05:57,630

these things often off the East Coast

129

00:06:03,050 --> 00:06:00,120

was that particular comment and its

130

00:06:06,050 --> 00:06:03,060

direction not off California but they

131

00:06:11,510 --> 00:06:06,060

saw them apparently off the middle of

132

00:06:15,010 --> 00:06:11,520

the East Coast often commonly so when

133

00:06:18,710 --> 00:06:15,020

the Navy said that in fact did it not

134

00:06:21,830 --> 00:06:18,720

represent the formal official end of the

135

00:06:24,350 --> 00:06:21,840

cover-up sounds like it to me

136

00:06:27,770 --> 00:06:24,360

but is the Navy now trying to wriggle

137

00:06:31,730 --> 00:06:27,780

out of it by allowing a story appear or

138

00:06:35,480 --> 00:06:31,740

at least make the rounds that gee that

139

00:06:37,850 --> 00:06:35,490

technology was ours I mean it's all it's

140

00:06:40,100 --> 00:06:37,860

all a little crazy now I

141

00:06:42,110 --> 00:06:40,110

Jim welcome to the program thanks for

142

00:06:42,940 --> 00:06:42,120

being here Thank You Jeff thanks for

143

00:06:45,830 --> 00:06:42,950

having me on

144

00:06:49,580 --> 00:06:45,840

did any of that make sense when I just

145

00:06:51,650 --> 00:06:49,590

said well the first part about Hillary

146

00:06:53,420 --> 00:06:51,660

joining the race makes sense I I hope

147

00:06:56,480 --> 00:06:53,430

that happens because I just placed a bet

148

00:07:00,860 --> 00:06:56,490

on her to win at twenty five to one in

149

00:07:03,560 --> 00:07:00,870

Vegas so that's the that's the odds that

150

00:07:04,720 --> 00:07:03,570

now twenty five to one she's 25 to I

151

00:07:08,150 --> 00:07:04,730

mean she's a big long shot obviously

152

00:07:10,130 --> 00:07:08,160

Elizabeth Warren no she's good

153

00:07:12,110 --> 00:07:10,140

you can put that money in your pocket

154

00:07:14,630 --> 00:07:12,120

right now she's in she's like she's

155

00:07:16,850 --> 00:07:14,640

gonna run they've got nothing you know

156

00:07:19,790 --> 00:07:16,860

why he that she actually becomes

157

00:07:22,550 --> 00:07:19,800

president so unfortunately a good place

158

00:07:24,500 --> 00:07:22,560

I would much rather have bet her to join

159

00:07:27,710 --> 00:07:24,510

the race and or to win the nomination

160

00:07:29,060 --> 00:07:27,720

and and not beat Trump but the only

161

00:07:30,920 --> 00:07:29,070

thing I could bet was to beat Trump and

162

00:07:32,690 --> 00:07:30,930

that's 25 to 1 but yeah she's a clear

163

00:07:35,090 --> 00:07:32,700

lock but I've been thinking this for a

164

00:07:37,250 --> 00:07:35,100

few weeks now that clearly she's she's

165

00:07:39,590 --> 00:07:37,260

jumping in I mean it was just such a

166

00:07:43,180 --> 00:07:39,600

dearth of candidates and she can't

167

00:07:45,260 --> 00:07:43,190

herself but during the Jackass parade

168

00:07:46,820 --> 00:07:45,270

another way another way of putting it

169

00:07:49,400 --> 00:07:46,830

but anyway that's not why you wanted to

170

00:07:51,500 --> 00:07:49,410

have me on as far as the other stuff

171

00:07:53,720 --> 00:07:51,510

yeah I mean I'm gonna be fun to talk

172

00:07:55,850 --> 00:07:53,730

about what we learned in talking to this

173

00:07:59,810 --> 00:07:55,860

gentleman on my hidden truth

174

00:08:01,250 --> 00:07:59,820

podcast his name is hunter burr and he

175

00:08:05,510 --> 00:08:01,260

is a former Air Force intelligence

176

00:08:08,980 --> 00:08:05,520

specialist from the 80s and he came on

177

00:08:12,560 --> 00:08:08,990

in on my show and told some very

178

00:08:16,280 --> 00:08:12,570

fascinating information about these tick

179

00:08:19,340 --> 00:08:16,290

tack UFOs that were seen and disclosed

180

00:08:21,950 --> 00:08:19,350

what he says they are and he's saying it

181

00:08:24,020 --> 00:08:21,960

on very good information as long as you

182

00:08:25,400 --> 00:08:24,030

believe him so I'm going to share with

183

00:08:26,450 --> 00:08:25,410

you everything that I learned from him

184

00:08:28,790 --> 00:08:26,460

and and things that I've been

185

00:08:31,250 --> 00:08:28,800

investigating as a result of doing that

186

00:08:34,700 --> 00:08:31,260

interview but I do want to provide the

187

00:08:37,670 --> 00:08:34,710

caveat that you and your listeners I'm

188

00:08:40,400 --> 00:08:37,680

sure know all this far better than I do

189

00:08:43,280 --> 00:08:40,410

I am NOT a UFO aficionado this has not

190

00:08:46,400 --> 00:08:43,290

been my expertise or an area of specific

191

00:08:48,650 --> 00:08:46,410

interest for me I followed it generally

192

00:08:50,340 --> 00:08:48,660

like most people do but what really

193

00:08:51,650 --> 00:08:50,350

caused me to delve into it

194

00:08:54,420 --> 00:08:51,660

was getting this interview with this guy

195

00:08:55,890 --> 00:08:54,430

who we had been in touch with as a

196

00:08:57,900 --> 00:08:55,900

result of covering the Las Vegas

197

00:09:00,390 --> 00:08:57,910

shooting he had been working on behalf

198

00:09:02,970 --> 00:09:00,400

as an investigator on behalf of a number

199

00:09:04,920 --> 00:09:02,980

of the victims and their attorneys in

200

00:09:06,780 --> 00:09:04,930

suining the MGM over the Las Vegas

201  
00:09:08,730 --> 00:09:06,790  
shooting and my podcast did a deep dive

202  
00:09:11,040 --> 00:09:08,740  
on the Las Vegas shooting so he was an

203  
00:09:14,610 --> 00:09:11,050  
incredible guest for that always very

204  
00:09:17,730 --> 00:09:14,620  
I'm Jim Before we jump into Tic Tacs I'd

205  
00:09:20,310 --> 00:09:17,740  
like to spend a few minutes on that we

206  
00:09:23,250 --> 00:09:20,320  
covered that story from the night it

207  
00:09:25,620 --> 00:09:23,260  
happened four week here I have a huge

208  
00:09:27,540 --> 00:09:25,630  
section on it right now we've got video

209  
00:09:29,190 --> 00:09:27,550  
of all kinds of things there were many

210  
00:09:31,920 --> 00:09:29,200  
shooters involved this was a very

211  
00:09:35,040 --> 00:09:31,930  
sophisticated event I'm point of fact

212  
00:09:35,640 --> 00:09:35,050  
patek probably didn't shoot anybody he

213  
00:09:38,400 --> 00:09:35,650

was set up

214

00:09:41,280 --> 00:09:38,410

executed in his room he was a mid-level

215

00:09:44,970 --> 00:09:41,290

or low-level who knows CIA arms

216

00:09:47,490 --> 00:09:44,980

merchants he was shot once didn't die

217

00:09:48,330 --> 00:09:47,500

apparently had to be shot a second time

218

00:09:50,130 --> 00:09:48,340

through the mouth

219

00:09:52,290 --> 00:09:50,140

there are two bleed outs the first bleed

220

00:09:54,480 --> 00:09:52,300

out completely went into the carpet and

221

00:09:56,550 --> 00:09:54,490

then there's a fresh one next to it so

222

00:09:58,440 --> 00:09:56,560

what's going on with that these are all

223

00:10:01,350 --> 00:09:58,450

from photos that they were released by

224

00:10:04,770 --> 00:10:01,360

Las Vegas Metro so I'd like to know

225

00:10:07,140 --> 00:10:04,780

first of all let me do this we've spent

226

00:10:08,100 --> 00:10:07,150

so much time on the massacre there who

227

00:10:10,350 --> 00:10:08,110

is this guy

228

00:10:13,020 --> 00:10:10,360

is he an attorney is he just a private

229

00:10:14,940 --> 00:10:13,030

investigator what is his status I

230

00:10:16,920 --> 00:10:14,950

understand he's representing some of the

231

00:10:20,100 --> 00:10:16,930

victims tell me more please

232

00:10:22,020 --> 00:10:20,110

well again yeah he got involved very

233

00:10:23,940 --> 00:10:22,030

early on I think he was actually

234

00:10:26,790 --> 00:10:23,950

listening to the police scanners as it

235

00:10:29,690 --> 00:10:26,800

was happening I don't remember the story

236

00:10:32,760 --> 00:10:29,700

as to how he got involved so early on

237

00:10:36,030 --> 00:10:32,770

but he lives out here in kind of the San

238

00:10:37,380 --> 00:10:36,040

Bernardino area and I think he headed to

239

00:10:41,220 --> 00:10:37,390

Vegas the very next day

240

00:10:43,350 --> 00:10:41,230

in fact he collected glass from the base

241

00:10:46,500 --> 00:10:43,360

of the Mandalay Bay and even gave me a

242

00:10:49,680 --> 00:10:46,510

piece of it um so he was there very

243

00:10:51,900 --> 00:10:49,690

early on and misery's all connected with

244

00:10:53,250 --> 00:10:51,910

some of the some of the lawyers and was

245

00:10:56,580 --> 00:10:53,260

helping out as kind of a victims

246

00:10:58,740 --> 00:10:56,590

advocate etc and so he's well-known in

247

00:11:02,850 --> 00:10:58,750

the Las Vegas

248

00:11:05,760 --> 00:11:02,860

route 91 community and so yes Gerber

249

00:11:07,920 --> 00:11:05,770

right yeah Mike turbo now by the way

250

00:11:10,650 --> 00:11:07,930

turbo would not necessarily agree with

251

00:11:12,450 --> 00:11:10,660

some of the things that you just said I

252

00:11:14,220 --> 00:11:12,460

would love to have you on my show at

253

00:11:17,610 --> 00:11:14,230

some point for you to share more what

254

00:11:20,400 --> 00:11:17,620

you guys have discovered we turned up a

255

00:11:23,580 --> 00:11:20,410

lot and it's not hearsay it's hard it's

256

00:11:25,410 --> 00:11:23,590

hard for hard yeah well I know there's a

257

00:11:26,910 --> 00:11:25,420

lot of people there's a lot of people

258

00:11:27,990 --> 00:11:26,920

out I mean what you know one thing I

259

00:11:30,840 --> 00:11:28,000

would say we interviewed a ton of

260

00:11:33,000 --> 00:11:30,850

survivors and so on and and this thing I

261

00:11:35,970 --> 00:11:33,010

will say I'm not sure I've spoken to

262

00:11:37,860 --> 00:11:35,980

anyone who was at the event who didn't

263

00:11:40,560 --> 00:11:37,870

say there's multiple shooters because

264

00:11:43,710 --> 00:11:40,570

for them it felt like it was coming from

265

00:11:45,480 --> 00:11:43,720

all directions and and without a doubt

266

00:11:48,060 --> 00:11:45,490

it was you know different sounding

267

00:11:50,520 --> 00:11:48,070

weapons he's coming from coming from

268

00:11:52,710 --> 00:11:50,530

different directions etc however that is

269

00:11:53,610 --> 00:11:52,720

possibly explained by the fact that you

270

00:11:55,320 --> 00:11:53,620

know you've got a bunch of tall

271

00:11:58,410 --> 00:11:55,330

buildings around there not to mention a

272

00:12:01,440 --> 00:11:58,420

I do system audio system that's turned

273

00:12:03,510 --> 00:12:01,450

on still where shops can be echoing

274

00:12:05,460 --> 00:12:03,520

around now of course I'm sure you've

275

00:12:07,650 --> 00:12:05,470

also covered the fact that people

276

00:12:10,890 --> 00:12:07,660

continue to hear shots or at least think

277

00:12:13,260 --> 00:12:10,900

they heard shots for after the shooting

278

00:12:14,400 --> 00:12:13,270

you know in a couple hours subsequent to

279

00:12:16,880 --> 00:12:14,410

that I mean people that were there it

280

00:12:21,030 --> 00:12:16,890

was a wild scene and for them I had

281

00:12:22,860 --> 00:12:21,040

survivors on and there's no question

282

00:12:26,040 --> 00:12:22,870

they find they found a pile of brass

283

00:12:29,280 --> 00:12:26,050

casings over by the Trop on the ground

284

00:12:31,290 --> 00:12:29,290

I've got freeze-frame stills of two

285

00:12:32,670 --> 00:12:31,300

maybe three shooters on top of one of

286

00:12:35,340 --> 00:12:32,680

the trailers that were used by the

287

00:12:37,590 --> 00:12:35,350

entertainment acts crawling up there all

288

00:12:38,520 --> 00:12:37,600

blacked out see their weapons they're

289

00:12:40,830 --> 00:12:38,530

getting into position

290

00:12:43,830 --> 00:12:40,840

I've got muzzle flash from the fifth or

291

00:12:46,170 --> 00:12:43,840

sixth level of the Luxor stair-step

292

00:12:49,140 --> 00:12:46,180

architecture on the side we've got

293

00:12:52,440 --> 00:12:49,150

muzzle flash from room seven storeys

294

00:12:54,810 --> 00:12:52,450

above paddocks sweet and yet in all the

295

00:12:58,230 --> 00:12:54,820

footage not any muzzle flash from

296

00:13:01,320 --> 00:12:58,240

paddocks room we do have the video of

297

00:13:03,540 --> 00:13:01,330

the the girl who was taking cover who

298

00:13:06,090 --> 00:13:03,550

moved out after she heard a single

299

00:13:08,940 --> 00:13:06,100

gunshot following the end the cessation

300

00:13:11,850 --> 00:13:08,950

of all the automatic weapons firing it

301  
00:13:12,570 --> 00:13:11,860  
was one single shot followed by another

302  
00:13:15,690 --> 00:13:12,580  
scene

303  
00:13:18,480 --> 00:13:15,700  
shot and she looked around the corner

304  
00:13:20,840 --> 00:13:18,490  
this is on video and said ah there is

305  
00:13:24,540 --> 00:13:20,850  
glass falling from the Mandalay Bay

306  
00:13:27,960 --> 00:13:24,550  
probably paddocks window was shot out at

307  
00:13:31,170 --> 00:13:27,970  
the end of the massacre that's what we

308  
00:13:34,110 --> 00:13:31,180  
think the room was a staged set the

309  
00:13:37,889 --> 00:13:34,120  
windows seven storeys above paddocks is

310  
00:13:40,230 --> 00:13:37,899  
open broken out shot out we don't know

311  
00:13:42,810 --> 00:13:40,240  
the drape is clearly flapping in the

312  
00:13:45,870 --> 00:13:42,820  
wind this is seven storeys above on the

313  
00:13:48,410 --> 00:13:45,880

top five floors owned by Prince wali

314

00:13:50,819 --> 00:13:48,420

while he'd been too loud to be formal

315

00:13:53,819 --> 00:13:50,829

where the Four Seasons restaurant is

316

00:13:56,699 --> 00:13:53,829

what was going on in that room where we

317

00:13:59,180 --> 00:13:56,709

do have muzzle flash near the

318

00:14:01,650 --> 00:13:59,190

helicopters which were going by shooting

319

00:14:03,620 --> 00:14:01,660

what was going on here were they

320

00:14:08,550 --> 00:14:03,630

shooting from up there at the Delano

321

00:14:10,460 --> 00:14:08,560

that there's a big Saudi factor in here

322

00:14:13,500 --> 00:14:10,470

that we haven't been able to fully

323

00:14:16,110 --> 00:14:13,510

assess and and nail yet maybe someday

324

00:14:18,569 --> 00:14:16,120

but the top five floors of the Mandalay

325

00:14:21,269 --> 00:14:18,579

is you know or owned by Prince Wally and

326

00:14:24,240 --> 00:14:21,279

there's something going on there then we

327

00:14:27,540 --> 00:14:24,250

got the cab driver I had one one person

328

00:14:29,819 --> 00:14:27,550

on who was actually in hospital and shot

329

00:14:32,780 --> 00:14:29,829

and shot through the back came out the

330

00:14:35,460 --> 00:14:32,790

front somehow miraculously survived that

331

00:14:38,310 --> 00:14:35,470

then there were the two people in their

332

00:14:39,930 --> 00:14:38,320

50s early 60s driving home and you

333

00:14:41,310 --> 00:14:39,940

mentioned San Bernardino I think it was

334

00:14:43,380 --> 00:14:41,320

San Bernardino I might have a Riverside

335

00:14:46,019 --> 00:14:43,390

I think was San Bernardino though they

336

00:14:47,970 --> 00:14:46,029

were driving home after having been home

337

00:14:51,389 --> 00:14:47,980

for about a week or so after the

338

00:14:54,329 --> 00:14:51,399

massacre there they had the biggest

339

00:14:56,370 --> 00:14:54,339

strongest Mercedes on the road there are

340

00:14:58,470 --> 00:14:56,380

half a mile or less from their home all

341

00:15:00,300 --> 00:14:58,480

of a sudden a Mercedes goes off the

342

00:15:03,660 --> 00:15:00,310

roadway that they've driven for many

343

00:15:06,600 --> 00:15:03,670

many years at 3035 miles an hour hits a

344

00:15:09,060 --> 00:15:06,610

brick abutment around an iron gate that

345

00:15:11,250 --> 00:15:09,070

opens driveway opens to another

346

00:15:14,040 --> 00:15:11,260

residence and then the car bursts

347

00:15:17,040 --> 00:15:14,050

mysteriously into flames and burned for

348

00:15:18,449 --> 00:15:17,050

two hours I found one news story said

349

00:15:21,810 --> 00:15:18,459

the fire department it took them nearly

350

00:15:24,300 --> 00:15:21,820

two hours to put out a car fire so they

351  
00:15:25,810 --> 00:15:24,310  
had been there they survived they were

352  
00:15:28,420 --> 00:15:25,820  
talking about what they had

353  
00:15:31,060 --> 00:15:28,430  
Sene apparently too much just like the

354  
00:15:33,400 --> 00:15:31,070  
young woman in Apple Valley married or I

355  
00:15:35,320 --> 00:15:33,410  
was her boyfriend anyway first time her

356  
00:15:37,180 --> 00:15:35,330  
boyfriend or husband had to leave her in

357  
00:15:40,360 --> 00:15:37,190  
the morning and go to work after she

358  
00:15:43,270 --> 00:15:40,370  
returned from being a survivor of the

359  
00:15:46,300 --> 00:15:43,280  
event he had to go to work he came home

360  
00:15:47,860 --> 00:15:46,310  
she's dead okay the first time he had to

361  
00:15:50,020 --> 00:15:47,870  
leave her alone in the house she was

362  
00:15:51,940 --> 00:15:50,030  
scared to death to begin with but the

363  
00:15:54,100 --> 00:15:51,950

story goes on and on and on and on and

364

00:15:56,320 --> 00:15:54,110

on I'd like to hear what you know from

365

00:15:59,760 --> 00:15:56,330

turbo and see if there's a spin that

366

00:16:02,200 --> 00:15:59,770

he's pushing I'm curious about this well

367

00:16:04,380 --> 00:16:02,210

he's pushing what would be considered

368

00:16:06,820 --> 00:16:04,390

broadly speaking the non conspiratorial

369

00:16:09,340 --> 00:16:06,830

theory of that kind of the party line of

370

00:16:11,920 --> 00:16:09,350

what Vegas police would be saying and

371

00:16:13,810 --> 00:16:11,930

what you know he's no fan of the Vegas

372

00:16:16,390 --> 00:16:13,820

police nobody who's covered this is a

373

00:16:19,030 --> 00:16:16,400

fan of the Vegas police at all blanking

374

00:16:22,080 --> 00:16:19,040

on the sheriff's name for a second but

375

00:16:24,880 --> 00:16:22,090

it'll come to me but I'm bar guy huh

376

00:16:27,070 --> 00:16:24,890

Lombardo Lombardo yeah sheriff Lombardo

377

00:16:28,570 --> 00:16:27,080

yeah he was just absolutely horrible to

378

00:16:30,790 --> 00:16:28,580

how he handled the press and everything

379

00:16:33,220 --> 00:16:30,800

else and not disclosing you know it was

380

00:16:34,420 --> 00:16:33,230

a sock puppet the FBI came in and made

381

00:16:36,370 --> 00:16:34,430

him dance the jig

382

00:16:38,710 --> 00:16:36,380

he was sweating it out you could see it

383

00:16:40,270 --> 00:16:38,720

anyway go ahead yeah well in the FBI

384

00:16:43,240 --> 00:16:40,280

certainly played a very significant role

385

00:16:45,400 --> 00:16:43,250

in the investigation you know ultimately

386

00:16:48,490 --> 00:16:45,410

concluding that it was patek acting

387

00:16:51,220 --> 00:16:48,500

alone what I found very significant was

388

00:16:53,230 --> 00:16:51,230

the fact that Isis claimed

389

00:16:54,910 --> 00:16:53,240  
responsibility for this thing twice

390

00:16:58,150 --> 00:16:54,920  
through their official channels and it

391

00:16:59,710 --> 00:16:58,160  
had never been a case before where Isis

392

00:17:02,890 --> 00:16:59,720  
Isis had falsely claimed responsibility

393

00:17:04,900 --> 00:17:02,900  
for a terrorist act that had come

394

00:17:07,540 --> 00:17:04,910  
through their official spokes but that's

395

00:17:10,810 --> 00:17:07,550  
the Arab involvement in this thing big

396

00:17:14,530 --> 00:17:10,820  
big time big problems the top five

397

00:17:17,350 --> 00:17:14,540  
floors Prince Walid and there are rumors

398

00:17:20,829 --> 00:17:17,360  
that the footage of the five armed

399

00:17:24,250 --> 00:17:20,839  
guards some in police uniforms in fact

400

00:17:27,010 --> 00:17:24,260  
most of them weapons lowered at the

401  
00:17:29,890 --> 00:17:27,020  
gamblers the customers in the in the

402  
00:17:31,570 --> 00:17:29,900  
Trop not up in the air lowered out them

403  
00:17:34,050 --> 00:17:31,580  
pointing at them as they walk this guy

404  
00:17:39,370 --> 00:17:34,060  
through the casino it looks exactly like

405  
00:17:42,610 --> 00:17:39,380  
MBS with a shaved beard and ugly red

406  
00:17:44,440 --> 00:17:42,620  
cutoff pants on just like a bum they

407  
00:17:46,870 --> 00:17:44,450  
were gone this guy and bringing him out

408  
00:17:49,299 --> 00:17:46,880  
we think that something might have been

409  
00:17:51,490 --> 00:17:49,309  
going down between Prince Wally and MBS

410  
00:17:53,560 --> 00:17:51,500  
that didn't work out the way they were

411  
00:17:55,990 --> 00:17:53,570  
thinking it would there were shots in

412  
00:17:58,240 --> 00:17:56,000  
the Trop there may have been an

413  
00:18:00,580 --> 00:17:58,250

attempted assassination of MBS to get

414

00:18:03,310 --> 00:18:00,590

him out of direct line of ascension to

415

00:18:05,470 --> 00:18:03,320

the throne the kingship of Saudi Arabia

416

00:18:07,690 --> 00:18:05,480

Prince wali might have been jealous we

417

00:18:11,169 --> 00:18:07,700

don't know but there are many angles to

418

00:18:13,869 --> 00:18:11,179

this which do not point in any way to

419

00:18:15,820 --> 00:18:13,879

Stephen paddock sorry for going on but I

420

00:18:17,169 --> 00:18:15,830

just want to lay it out yeah well I

421

00:18:19,600 --> 00:18:17,179

think you know it cries out for a

422

00:18:21,399 --> 00:18:19,610

unifying theory that would explain you

423

00:18:23,440 --> 00:18:21,409

know all the things that you're talking

424

00:18:24,850 --> 00:18:23,450

about because if it wasn't just paddock

425

00:18:26,820 --> 00:18:24,860

acting alone and it really was shops

426

00:18:29,409 --> 00:18:26,830

from different direction and so on a

427

00:18:32,919 --> 00:18:29,419

stripping up the street Lee Harvey

428

00:18:35,499 --> 00:18:32,929

Oswald it was a penalty for who for who

429

00:18:37,210 --> 00:18:35,509

and for what purpose I mean right if

430

00:18:39,220 --> 00:18:37,220

you're gonna replace the paddock acting

431

00:18:41,470 --> 00:18:39,230

a lone theory you got to have a better

432

00:18:43,029 --> 00:18:41,480

theory that that works and can explain

433

00:18:44,950 --> 00:18:43,039

all the things that you're talking about

434

00:18:46,149 --> 00:18:44,960

I'm just saying right now I don't think

435

00:18:48,669 --> 00:18:46,159

anybody's really put all the pieces

436

00:18:51,519 --> 00:18:48,679

together to come up with an alternative

437

00:18:53,200 --> 00:18:51,529

theory that that 100% works I wish you

438

00:18:55,269 --> 00:18:53,210

had spent some time with us but you're a

439

00:18:58,180 --> 00:18:55,279

busy professional in your own right we

440

00:19:00,940 --> 00:18:58,190

have presented helicopter muzzle flash

441

00:19:03,519 --> 00:19:00,950

muzzle flash muzzle flash muzzle flash

442

00:19:05,889 --> 00:19:03,529

not a joke these aren't anything other

443

00:19:08,049 --> 00:19:05,899

than muzzle flashes you're correct about

444

00:19:11,830 --> 00:19:08,059

the different weapons involved we've had

445

00:19:12,220 --> 00:19:11,840

military experts on those were machine

446

00:19:15,190 --> 00:19:12,230

guns

447

00:19:17,200 --> 00:19:15,200

heavy heavy weapons in some cases that

448

00:19:20,080 --> 00:19:17,210

cabdriver video that you've heard many

449

00:19:25,659 --> 00:19:20,090

times she's right underneath one of them

450

00:19:29,100 --> 00:19:25,669

that was a good job good all right

451

00:19:32,619 --> 00:19:29,110

language I think was their name but

452

00:19:34,149 --> 00:19:32,629

anyway yeah I mean but but as far as

453

00:19:36,549 --> 00:19:34,159

there being evidence of this I mean I

454

00:19:38,769 --> 00:19:36,559

know there's video when there's people I

455

00:19:40,659 --> 00:19:38,779

would disick on sand so on but you know

456

00:19:42,070 --> 00:19:40,669

if another window was shot out you know

457

00:19:44,049 --> 00:19:42,080

where is that shot out window where's

458

00:19:46,450 --> 00:19:44,059

the glass from that if other

459

00:19:48,789 --> 00:19:46,460

kasing we're casings from guns from

460

00:19:50,919 --> 00:19:48,799

other locations where are you know a

461

00:19:52,840 --> 00:19:50,929

bullet they wouldn't accept my by the

462

00:19:55,029 --> 00:19:52,850

cops they were in front and there's a

463

00:19:57,100 --> 00:19:55,039

pile of them in front of the Tropicana

464

00:19:58,659 --> 00:19:57,110

in the parking area they're on the

465

00:20:01,210 --> 00:19:58,669

ground which would have given the

466

00:20:03,100 --> 00:20:01,220

shooter perfect direct access to shoot

467

00:20:07,360 --> 00:20:03,110

into the crowd it was as it was running

468

00:20:10,499 --> 00:20:07,370

toward him they were there a guy who was

469

00:20:12,850 --> 00:20:10,509

a survivor walked the entire path

470

00:20:14,470 --> 00:20:12,860

pointed where the shell casings were II

471

00:20:17,830 --> 00:20:14,480

said I stepped on them they were right

472

00:20:21,789 --> 00:20:17,840

here blah blah blah so this is a very

473

00:20:24,580 --> 00:20:21,799

complex story with no easy simple

474

00:20:27,220 --> 00:20:24,590

conclusions to come to accept I do not

475

00:20:29,230 --> 00:20:27,230

find anything that points to paddocks

476  
00:20:31,509 --> 00:20:29,240  
having anything involved with the

477  
00:20:34,330 --> 00:20:31,519  
majority of shooting if any shooting in

478  
00:20:36,700 --> 00:20:34,340  
point of fact it's almost impossible for

479  
00:20:38,799 --> 00:20:36,710  
him to have shot that accurately that

480  
00:20:40,539 --> 00:20:38,809  
many rounds which if you look at the

481  
00:20:43,570 --> 00:20:40,549  
pictures of the room that were released

482  
00:20:45,850 --> 00:20:43,580  
by Metro there they're not and they say

483  
00:20:48,369 --> 00:20:45,860  
he fired at least 1200 rounds there's

484  
00:20:54,249 --> 00:20:48,379  
not 1,200 casings on the floor I counted

485  
00:20:58,659 --> 00:20:54,259  
between 180 and 200 max that's it yep

486  
00:21:01,029 --> 00:20:58,669  
well it's still a mystery and but you

487  
00:21:02,830 --> 00:21:01,039  
know as a pertains deter bird and I can

488  
00:21:04,389 --> 00:21:02,840

just say that you know he was

489

00:21:06,999 --> 00:21:04,399

investigating and trying track down all

490

00:21:09,909 --> 00:21:07,009

kinds of theories as as was I I mean I'm

491

00:21:12,820 --> 00:21:09,919

very open-minded to anything this could

492

00:21:14,499 --> 00:21:12,830

have been and that's why I started it

493

00:21:16,749 --> 00:21:14,509

you we started it in February of last

494

00:21:18,310 --> 00:21:16,759

year so just a few months after was was

495

00:21:21,610 --> 00:21:18,320

when we really started digging in and we

496

00:21:23,049 --> 00:21:21,620

did about 25 episodes the shooting I

497

00:21:25,720 --> 00:21:23,059

interviewed I was the only one to

498

00:21:28,119 --> 00:21:25,730

interview his brother Bruce who lives in

499

00:21:32,499 --> 00:21:28,129

Los Angeles and was facing child

500

00:21:34,029 --> 00:21:32,509

pornography charges at the time in fact

501  
00:21:37,180 --> 00:21:34,039  
I I send somebody over to the courthouse

502  
00:21:38,889 --> 00:21:37,190  
and there he was in a wheelchair and he

503  
00:21:40,419 --> 00:21:38,899  
offered him a cigarette and next thing

504  
00:21:42,549 --> 00:21:40,429  
you know they they hit it off and I had

505  
00:21:45,080 --> 00:21:42,559  
him on the show a week later talking

506  
00:21:47,659 --> 00:21:45,090  
about talking about his brother

507  
00:21:49,549 --> 00:21:47,669  
and the bizarre upbringing that they had

508  
00:21:51,919 --> 00:21:49,559  
you know they had the father who was on

509  
00:21:54,169 --> 00:21:51,929  
the FBI's most-wanted list and he was an

510  
00:21:55,850 --> 00:21:54,179  
absentee father is that Rudd and there

511  
00:21:57,830 --> 00:21:55,860  
was nothing some very odd things going

512  
00:22:01,159 --> 00:21:57,840  
on in that household and I did find it

513  
00:22:03,230 --> 00:22:01,169

very odd that both brothers are alleged

514

00:22:04,970 --> 00:22:03,240

to have had child pornography as you

515

00:22:07,940 --> 00:22:04,980

know it's something that's believed or

516

00:22:11,090 --> 00:22:07,950

reported that paddock had it on his

517

00:22:13,159 --> 00:22:11,100

computer that was found in the room and

518

00:22:15,169 --> 00:22:13,169

then you've got the brother facing

519

00:22:18,859 --> 00:22:15,179

charges of child pornography so that's a

520

00:22:23,119 --> 00:22:18,869

rather big brother in Florida where does

521

00:22:26,149 --> 00:22:23,129

he Florida yep he was flapping and at

522

00:22:30,830 --> 00:22:26,159

one point said something like I'm gonna

523

00:22:34,700 --> 00:22:30,840

paraphrases let's just be honest

524

00:22:36,710 --> 00:22:34,710

Stephen was an arm and he was saying

525

00:22:39,769 --> 00:22:36,720

arms dealer and he said yeah I remember

526

00:22:42,109 --> 00:22:39,779

yep okay so there you go

527

00:22:44,029 --> 00:22:42,119

that's that's another issue now turbo by

528

00:22:47,539 --> 00:22:44,039

the way to bring back tutor berry he got

529

00:22:50,419 --> 00:22:47,549

very close with that brother so he's got

530

00:22:53,239 --> 00:22:50,429

a very good relationship with him talk

531

00:22:56,149 --> 00:22:53,249

to him all the time and they're putting

532

00:22:58,249 --> 00:22:56,159

together a Vegas documentary with a guy

533

00:23:00,019 --> 00:22:58,259

named Ramsey Dennison I believe is his

534

00:23:02,299 --> 00:23:00,029

name who had done already

535

00:23:05,239 --> 00:23:02,309

a Vegas weighted 1 Vegas documentary

536

00:23:08,590 --> 00:23:05,249

he's big on Vegas police corruption this

537

00:23:13,759 --> 00:23:08,600

Ramsey Dennison leaned on a material

538

00:23:14,950 --> 00:23:13,769

yeah so anyway hold on if you would Jim

539

00:23:17,659 --> 00:23:14,960

we got to take a break here

540

00:23:21,769 --> 00:23:17,669

only one break per hour that's it so

541

00:23:23,210 --> 00:23:21,779

it's easy this is this is a very big

542

00:23:26,180 --> 00:23:23,220

story that has been broomed

543

00:23:27,859 --> 00:23:26,190

out of the news as we all know it's good

544

00:23:29,539 --> 00:23:27,869

that there's some investigating going on

545

00:23:31,279 --> 00:23:29,549

and I'm sure this may be more than one

546

00:23:35,799 --> 00:23:31,289

documentary and the works on this or

547

00:23:39,769 --> 00:23:35,809

I've heard tale of them we've had no

548

00:23:42,609 --> 00:23:39,779

autopsy reports released as you know not

549

00:23:46,220 --> 00:23:42,619

one which would be forensic ly

550

00:23:48,470 --> 00:23:46,230

embarrassing clearly because the entry

551  
00:23:50,970 --> 00:23:48,480  
wounds would not have come from above in

552  
00:23:55,090 --> 00:23:50,980  
many cases the

553  
00:23:58,270 --> 00:23:55,100  
it's it's it's it stinks how's that for

554  
00:24:00,880 --> 00:23:58,280  
a summation the whole thing stinks

555  
00:24:02,500 --> 00:24:00,890  
we got the 58 dead we honestly think

556  
00:24:04,900 --> 00:24:02,510  
it's more than that but that's the

557  
00:24:06,789 --> 00:24:04,910  
official number hold on a minute we'll

558  
00:24:12,039 --> 00:24:06,799  
be right back and we're going to talk

559  
00:24:16,030 --> 00:24:12,049  
tic-tac-toe tech next all right this tic

560  
00:24:18,760 --> 00:24:16,040  
tac toe tech as I call it there's a

561  
00:24:20,110 --> 00:24:18,770  
press release that we got from Michael

562  
00:24:22,180 --> 00:24:20,120  
Parker thank you Michael if you're

563  
00:24:23,950 --> 00:24:22,190

listening in I imagine you are for

564

00:24:25,960 --> 00:24:23,960

helping us set this up with Jim tonight

565

00:24:27,700 --> 00:24:25,970

I'm gonna read just a little bit from

566

00:24:31,480 --> 00:24:27,710

this press release and I have a I'll

567

00:24:33,520 --> 00:24:31,490

toss a question at a gym one of the most

568

00:24:35,350 --> 00:24:33,530

incredible scientific discoveries in

569

00:24:38,650 --> 00:24:35,360

human history has been achieved by the

570

00:24:41,860 --> 00:24:38,660

US military but has been kept secret

571

00:24:44,470 --> 00:24:41,870

until now during an exclusive two-hour

572

00:24:47,230 --> 00:24:44,480

interview on the hidden truth show with

573

00:24:49,200 --> 00:24:47,240

Jim Breslow released today that was

574

00:24:52,990 --> 00:24:49,210

November 4th coupled with three days ago

575

00:24:56,860 --> 00:24:53,000

Michael tur burr a former US Air Force

576

00:25:00,130 --> 00:24:56,870

intelligence specialist real quick Jim

577

00:25:02,289 --> 00:25:00,140

did you see his credentials hmm

578

00:25:04,299 --> 00:25:02,299

no he was but you know he was a

579

00:25:06,039 --> 00:25:04,309

specialist in the 80s so I'm not sure

580

00:25:07,659 --> 00:25:06,049

what he would have had from that but I

581

00:25:08,799 --> 00:25:07,669

encourage people to go on his LinkedIn

582

00:25:11,799 --> 00:25:08,809

for whatever that's worth

583

00:25:13,240 --> 00:25:11,809

Mike burry you can and I can't even read

584

00:25:15,880 --> 00:25:13,250

a little bit of us background LinkedIn

585

00:25:17,640 --> 00:25:15,890

if you'd like but yeah let me let me do

586

00:25:21,490 --> 00:25:17,650

this and then we'll do that

587

00:25:23,980 --> 00:25:21,500

revealed that the tic-tac those UFOs

588

00:25:27,909 --> 00:25:23,990

shown in that now very famous Navy Oh

589

00:25:31,270 --> 00:25:27,919

video Navy video from the f-18 I guess

590

00:25:33,850 --> 00:25:31,280

there were Super Hornets f-18s yes are

591

00:25:37,210 --> 00:25:33,860

in fact according to the press release

592

00:25:40,720 --> 00:25:37,220

and what turbo is saying gravity defying

593

00:25:43,210 --> 00:25:40,730

aircraft developed by the Air Force and

594

00:25:47,470 --> 00:25:43,220

while the information is classified

595

00:25:50,950 --> 00:25:47,480

Thurber more than hinted that he has in

596

00:25:54,669 --> 00:25:50,960

fact flown in one in a cross-country

597

00:25:56,650 --> 00:25:54,679

flight which took just 84 minutes in

598

00:25:58,720 --> 00:25:56,660

addition he discloses that President

599

00:26:01,240 --> 00:25:58,730

Trump soon after being briefed on the

600

00:26:03,200 --> 00:26:01,250

technology ordered one flown to North

601  
00:26:05,960 --> 00:26:03,210  
Korea to show off

602  
00:26:09,740 --> 00:26:05,970  
to Kim to gain leverage in negotiations

603  
00:26:11,600 --> 00:26:09,750  
over nuclear weapons I don't think the

604  
00:26:16,519 --> 00:26:11,610  
leverage worked is nothing much has been

605  
00:26:20,299 --> 00:26:16,529  
done in the interview turbo states to

606  
00:26:22,580 --> 00:26:20,309  
our guest Jim Breslow the technology was

607  
00:26:26,320 --> 00:26:22,590  
originally developed at two universities

608  
00:26:29,630 --> 00:26:26,330  
as and was made available to the defense

609  
00:26:32,510 --> 00:26:29,640  
DARPA as part of the US Department of

610  
00:26:36,139 --> 00:26:32,520  
Defense responsible for the development

611  
00:26:37,970 --> 00:26:36,149  
of emerging technologies DARPA had been

612  
00:26:40,880 --> 00:26:37,980  
attempting to develop the Star Wars

613  
00:26:44,210 --> 00:26:40,890

project as you remember back during the

614

00:26:47,269 --> 00:26:44,220

Reagan administration in the 1980s this

615

00:26:50,600 --> 00:26:47,279

tic-tac aircraft creates its own dense

616

00:26:53,090 --> 00:26:50,610

and polarized energy field called a

617

00:26:56,750 --> 00:26:53,100

plasma field if you want which allows it

618

00:26:59,480 --> 00:26:56,760

to create a quantum vacuum around itself

619

00:27:02,510 --> 00:26:59,490

which allows it to escape the effect of

620

00:27:07,130 --> 00:27:02,520

gravity and repel any air or water

621

00:27:09,919 --> 00:27:07,140

molecules with which it interacts it's

622

00:27:12,260 --> 00:27:09,929

kind of like a cavitating high-speed

623

00:27:13,909 --> 00:27:12,270

underwater torpedo creates an air bubble

624

00:27:16,600 --> 00:27:13,919

in front of itself so it's just moving

625

00:27:19,639 --> 00:27:16,610

through air rather than dense water

626

00:27:22,039 --> 00:27:19,649

without the effect of gravity the Tic

627

00:27:24,710 --> 00:27:22,049

Tac can move at extremely high speeds

628

00:27:27,919 --> 00:27:24,720

confirmed to be at least twenty four

629

00:27:30,440 --> 00:27:27,929

thousand miles an hour due to the vacuum

630

00:27:32,990 --> 00:27:30,450

it is a hybrid aerospace underwater

631

00:27:35,659 --> 00:27:33,000

craft capable of incredible feats of

632

00:27:39,590 --> 00:27:35,669

speed and maneuverability and can fly

633

00:27:42,880 --> 00:27:39,600

equally well in air water or space it

634

00:27:46,130 --> 00:27:42,890

exploits not violates the laws of

635

00:27:49,279 --> 00:27:46,140

physics the craft were built at plant 42

636

00:27:51,470 --> 00:27:49,289

in Palmdale for the Air Force by private

637

00:27:53,870 --> 00:27:51,480

contractors all right if this can do

638

00:27:56,120 --> 00:27:53,880

twenty four thousand miles an hour and

639

00:27:59,419 --> 00:27:56,130

America is about three thousand miles

640

00:28:01,940 --> 00:27:59,429

across and mr. turbit said he took a

641

00:28:04,820 --> 00:28:01,950

ride in one and crossed the country and

642

00:28:09,230 --> 00:28:04,830

what he described as only 84 minutes

643

00:28:11,870 --> 00:28:09,240

what's 24,000 miles to cross the country

644

00:28:13,100 --> 00:28:11,880

in 84 minutes the the arithmetic doesn't

645

00:28:16,310 --> 00:28:13,110

add up

646

00:28:19,780 --> 00:28:16,320

number one no and no I'll address that

647

00:28:22,520 --> 00:28:19,790

now if you want to keep going oh yeah so

648

00:28:24,740 --> 00:28:22,530

yeah obviously the crap that he flew in

649

00:28:26,600 --> 00:28:24,750

didn't fly that fast because a human

650

00:28:29,090 --> 00:28:26,610

could not tolerate the g-force that

651  
00:28:30,919 --> 00:28:29,100  
would be involved in going 24,000 mostly

652  
00:28:32,990 --> 00:28:30,929  
there are no g-forces so if it's got a

653  
00:28:35,410 --> 00:28:33,000  
plasma field to run it's got no its

654  
00:28:38,419 --> 00:28:35,420  
encountering nothing no gravitational

655  
00:28:41,360 --> 00:28:38,429  
impact no water molecules no dust no

656  
00:28:43,549 --> 00:28:41,370  
dirt no nothing it's in its own I don't

657  
00:28:45,280 --> 00:28:43,559  
I don't know if that means you would not

658  
00:28:48,830 --> 00:28:45,290  
have a g-force I mean if you've got

659  
00:28:51,919 --> 00:28:48,840  
acceleration then presumably you have a

660  
00:28:54,169 --> 00:28:51,929  
g-force but I'm not a scientist but

661  
00:28:56,419 --> 00:28:54,179  
anyway I think that's what turbo would

662  
00:28:58,190 --> 00:28:56,429  
say is that was last in the crafts

663  
00:29:02,299 --> 00:28:58,200

situation that the common nomenclature

664

00:29:04,850 --> 00:29:02,309

says no no gravity no g-forces that's

665

00:29:06,500 --> 00:29:04,860

how they do it that's that's just what I

666

00:29:09,560 --> 00:29:06,510

hear I haven't been in one I don't know

667

00:29:12,230 --> 00:29:09,570

mr. Babbitt is yeah I mean if that's

668

00:29:16,070 --> 00:29:12,240

correct that would be arguably a slight

669

00:29:19,130 --> 00:29:16,080

hole in his story he says that his

670

00:29:22,880 --> 00:29:19,140

flight was designed to go no more than

671

00:29:27,680 --> 00:29:22,890

one G and therefore he said he

672

00:29:31,940 --> 00:29:27,690

experienced very little to none to no

673

00:29:33,919 --> 00:29:31,950

acceleration in the craft and maybe it

674

00:29:35,419 --> 00:29:33,929

was a recreational trip they took him on

675

00:29:37,400 --> 00:29:35,429

and I didn't want to smash him up

676

00:29:41,390 --> 00:29:37,410

against the inside of the hand that's a

677

00:29:44,870 --> 00:29:41,400

problem yeah yeah so and apparently if

678

00:29:46,940 --> 00:29:44,880

you did if you did a 1 g calculator and

679

00:29:48,799 --> 00:29:46,950

you calculated it it would take you

680

00:29:50,630 --> 00:29:48,809

approximately an hour and 24 minutes if

681

00:29:52,610 --> 00:29:50,640

you were never accelerating more than 1

682

00:29:54,169 --> 00:29:52,620

G and then I halfway across the country

683

00:29:57,650 --> 00:29:54,179

you started decent haven't been able to

684

00:30:00,610 --> 00:29:57,660

do the maths but I believe you yeah good

685

00:30:02,810 --> 00:30:00,620

projection ok all right so tell me more

686

00:30:07,400 --> 00:30:02,820

so anyway yeah that's that's according

687

00:30:11,210 --> 00:30:07,410

to him now he felt very comfortable

688

00:30:12,650 --> 00:30:11,220

disclosing to us what this thing was and

689

00:30:15,350 --> 00:30:12,660

the fact that it is absolutely

690

00:30:18,110 --> 00:30:15,360

positively the air force

691

00:30:19,700 --> 00:30:18,120

it was the air force craft and he he

692

00:30:21,560 --> 00:30:19,710

says that they were kind of actually

693

00:30:23,540 --> 00:30:21,570

toying with the Navy a little bit but

694

00:30:26,110 --> 00:30:23,550

really the way he describes it is they

695

00:30:27,760 --> 00:30:26,120

wanted to see how the Navy would respond

696

00:30:28,960 --> 00:30:27,770

- seen these things so as a part of

697

00:30:30,789 --> 00:30:28,970

testing them you don't want to test them

698

00:30:34,450 --> 00:30:30,799

over Russia to see a Russia response

699

00:30:36,549 --> 00:30:34,460

let's test them over our own US Navy and

700

00:30:41,230 --> 00:30:36,559

see how they respond the US Navy was

701  
00:30:43,180 --> 00:30:41,240  
conducting various exercises off of San

702  
00:30:46,720 --> 00:30:43,190  
Diego which it often does and when they

703  
00:30:49,450 --> 00:30:46,730  
do conduct exercises the their planes

704  
00:30:51,100 --> 00:30:49,460  
are not armed so they knew they were

705  
00:30:52,899 --> 00:30:51,110  
safe to test these things without

706  
00:30:55,510 --> 00:30:52,909  
getting them shot done shots shut down

707  
00:30:57,490 --> 00:30:55,520  
and the reverse is also true that the

708  
00:31:00,669 --> 00:30:57,500  
Navy commanders were comfortable sending

709  
00:31:01,960 --> 00:31:00,679  
these things up there unarmed not

710  
00:31:03,880 --> 00:31:01,970  
knowing what they were going to go

711  
00:31:05,799 --> 00:31:03,890  
encounter you would think that you'd

712  
00:31:07,120 --> 00:31:05,809  
want to send armed craft when you're

713  
00:31:09,970 --> 00:31:07,130

going to try to encounter something that

714

00:31:11,529 --> 00:31:09,980

is unknown but they very comfortably and

715

00:31:14,080 --> 00:31:11,539

confidently sent these guys out there to

716

00:31:16,240 --> 00:31:14,090

check it out unarmed and that's because

717

00:31:18,399 --> 00:31:16,250

the commanders knew what it was only the

718

00:31:20,830 --> 00:31:18,409

commander's only the highest-level knew

719

00:31:22,779 --> 00:31:20,840

it was the the the pilots did not know

720

00:31:25,029 --> 00:31:22,789

what it was and frankly to this day

721

00:31:26,769 --> 00:31:25,039

don't know what it was I just heard one

722

00:31:30,460 --> 00:31:26,779

of them on Joe Rogan show a couple weeks

723

00:31:32,260 --> 00:31:30,470

ago who said that you know me told the

724

00:31:34,299 --> 00:31:32,270

whole story and what he saw and

725

00:31:37,450 --> 00:31:34,309

absolutely positively saw something and

726

00:31:40,029 --> 00:31:37,460

you know the Navy is confirming that yes

727

00:31:41,710 --> 00:31:40,039

these videos are real yes our pilots

728

00:31:43,690 --> 00:31:41,720

encountered something but we don't know

729

00:31:47,970 --> 00:31:43,700

what it is and what turbo would say is

730

00:31:51,279 --> 00:31:47,980

[h\_\_\h] they do know what it is what

731

00:31:54,789 --> 00:31:51,289

yep go ahead no in that it's in that

732

00:31:56,049 --> 00:31:54,799

it's actually airforce craft now in a

733

00:31:59,110 --> 00:31:56,059

minute we'll get to we'll talk about

734

00:32:01,539 --> 00:31:59,120

these Navy patents in a second but but

735

00:32:05,169 --> 00:32:01,549

this was airforce craft encountered by

736

00:32:09,930 --> 00:32:05,179

the Navy the Navy had a brand new form

737

00:32:12,940 --> 00:32:09,940

of radar and it was deployed on ships

738

00:32:15,730 --> 00:32:12,950

from what I heard it was not in the f-18

739

00:32:17,919 --> 00:32:15,740

Super Hornet maybe it what there was

740

00:32:20,769 --> 00:32:17,929

they definitely had it on the ships the

741

00:32:22,990 --> 00:32:20,779

ships saw it and sent the Jets in

742

00:32:24,610 --> 00:32:23,000

pursuit am i correct yeah and you're

743

00:32:26,440 --> 00:32:24,620

yeah that's a pretty

744

00:32:28,450 --> 00:32:26,450

yeah and that's smart of you to know

745

00:32:32,260 --> 00:32:28,460

that know that and that was a big point

746

00:32:34,090 --> 00:32:32,270

of Kerber in his the interview was that

747

00:32:36,820 --> 00:32:34,100

and I forget that you know it's almost

748

00:32:38,510 --> 00:32:36,830

like a 4d type of radar essentially that

749

00:32:40,370 --> 00:32:38,520

was a let's pick it up

750

00:32:42,830 --> 00:32:40,380

the craft that I figure what they call

751  
00:32:45,410 --> 00:32:42,840  
the craft that flies above the f-18s

752  
00:32:47,870 --> 00:32:45,420  
that's got the radar and it supports the

753  
00:32:50,299 --> 00:32:47,880  
f-18s that does not have it so that

754  
00:32:52,760 --> 00:32:50,309  
craft was not able to pick it up the

755  
00:32:55,910 --> 00:32:52,770  
radar on the Princeton which is a part

756  
00:32:57,440 --> 00:32:55,920  
of the Nimitz carrier group you'd have

757  
00:32:59,630 --> 00:32:57,450  
that type of yeah it did have that type

758  
00:33:01,910 --> 00:32:59,640  
of radar and what turbo says is that

759  
00:33:04,250 --> 00:33:01,920  
type of radar is now going to start

760  
00:33:06,860 --> 00:33:04,260  
becoming more Universal other countries

761  
00:33:08,419 --> 00:33:06,870  
are starting to have it we will start to

762  
00:33:12,169 --> 00:33:08,429  
be able to use it across the entire

763  
00:33:16,250 --> 00:33:12,179

United States and that is in part the

764

00:33:19,430 --> 00:33:16,260

background to the story as to why it's

765

00:33:22,580 --> 00:33:19,440

coming out now and whiter BER is raising

766

00:33:23,930 --> 00:33:22,590

it now because soon these things are

767

00:33:24,590 --> 00:33:23,940

going to be they can't hide these things

768

00:33:26,750 --> 00:33:24,600

anymore

769

00:33:29,680 --> 00:33:26,760

so these things have been around for

770

00:33:32,870 --> 00:33:29,690

about 20 years accordion server but

771

00:33:34,970 --> 00:33:32,880

excuse me way as this radar technology

772

00:33:36,620 --> 00:33:34,980

expands both in the US and

773

00:33:38,120 --> 00:33:36,630

internationally they're not gonna be

774

00:33:41,510 --> 00:33:38,130

able to hide these things anymore so the

775

00:33:43,340 --> 00:33:41,520

idea is to start leaking out now what

776

00:33:44,990 --> 00:33:43,350

they are they've you know there's no

777

00:33:47,060 --> 00:33:45,000

reason it seems to me that our

778

00:33:49,370 --> 00:33:47,070

government should want anybody to know

779

00:33:51,560 --> 00:33:49,380

about this until the appropriate time I

780

00:33:54,710 --> 00:33:51,570

guess but they've managed which is seems

781

00:33:56,060 --> 00:33:54,720

odd to me you know I I don't I believe

782

00:33:57,770 --> 00:33:56,070

it's hard to keep secrets especially

783

00:33:58,790 --> 00:33:57,780

this big of a secret when that many

784

00:34:00,820 --> 00:33:58,800

people know I mean there has to be

785

00:34:03,140 --> 00:34:00,830

hundreds of people that know about this

786

00:34:05,180 --> 00:34:03,150

and that has been kept secret up until

787

00:34:09,230 --> 00:34:05,190

now and it's been kept secret for 20

788

00:34:10,790 --> 00:34:09,240

years or more right the word this the

789

00:34:13,609 --> 00:34:10,800

new radar by the way for those of you

790

00:34:15,919 --> 00:34:13,619

listening the plane that had top cover

791

00:34:18,740 --> 00:34:15,929

above the f-18 Super Hornets

792

00:34:21,440 --> 00:34:18,750

I used this traditional advanced but it

793

00:34:23,480 --> 00:34:21,450

sweeps it so that it's literally a sweep

794

00:34:26,090 --> 00:34:23,490

on the dial it goes around and around it

795

00:34:27,950 --> 00:34:26,100

sweeps the new radar is pretty much

796

00:34:30,889 --> 00:34:27,960

static on the screen it just shows

797

00:34:32,690 --> 00:34:30,899

what's there okay it doesn't have to do

798

00:34:34,430 --> 00:34:32,700

a sweep you don't have to wait for the

799

00:34:37,940 --> 00:34:34,440

sweep to come around to see what has

800

00:34:42,889 --> 00:34:37,950

moved or what is in position or what may

801  
00:34:46,310 --> 00:34:42,899  
be there in any case there you go when

802  
00:34:48,919 --> 00:34:46,320  
this story came out and turbos

803  
00:34:52,290 --> 00:34:48,929  
revelations would of course turn the

804  
00:34:54,900 --> 00:34:52,300  
whole concept of the Navy has announced

805  
00:34:56,910 --> 00:34:54,910  
the cover-up is over we are being

806  
00:34:58,920 --> 00:34:56,920  
visited because the Navy said and I

807  
00:35:00,930 --> 00:34:58,930  
remember this we don't know what they

808  
00:35:02,510 --> 00:35:00,940  
are we don't know whose they are we

809  
00:35:04,770 --> 00:35:02,520  
encounter them all the time they are

810  
00:35:07,560 --> 00:35:04,780  
unidentified flying objects

811  
00:35:09,600 --> 00:35:07,570  
now that would suggest that even at that

812  
00:35:11,970 --> 00:35:09,610  
point the Air Force still hadn't

813  
00:35:15,870 --> 00:35:11,980

communicated with the Navy hey know

814

00:35:18,260 --> 00:35:15,880

they're ours so I this service rivalry

815

00:35:21,090 --> 00:35:18,270

what do we got what do we got here

816

00:35:24,450 --> 00:35:21,100

so what turbo would say is they didn't

817

00:35:25,440 --> 00:35:24,460

know what it was and that part and

818

00:35:27,120 --> 00:35:25,450

they're you know they're just not coming

819

00:35:29,760 --> 00:35:27,130

clean on that part so they're willing to

820

00:35:31,260 --> 00:35:29,770

acknowledge the video willing to

821

00:35:33,690 --> 00:35:31,270

acknowledge that the pilots encountered

822

00:35:35,850 --> 00:35:33,700

something but they weren't willing to

823

00:35:38,310 --> 00:35:35,860

because yeah the Navy commanders he said

824

00:35:39,780 --> 00:35:38,320

didn't know what it was hence the reason

825

00:35:44,390 --> 00:35:39,790

they're comfortable sending those Jets

826

00:35:50,400 --> 00:35:47,310

there is this other Navy link where

827

00:35:52,140 --> 00:35:50,410

there's these patents that the Navy just

828

00:35:53,700 --> 00:35:52,150

recently got issued I'm talking about

829

00:35:56,910 --> 00:35:53,710

within the last couple months originally

830

00:35:59,750 --> 00:35:56,920

filed in 17 but just issued by the US

831

00:36:02,960 --> 00:35:59,760

Patent Office and it seems to describe

832

00:36:08,160 --> 00:36:02,970

these tic tacs and all of the technology

833

00:36:09,780 --> 00:36:08,170

behind them yet it's the Navy so you

834

00:36:11,100 --> 00:36:09,790

know it's very and you know of course

835

00:36:13,530 --> 00:36:11,110

you know we also have the incident off

836

00:36:15,870 --> 00:36:13,540

the East Coast that they call gimbal and

837

00:36:18,900 --> 00:36:15,880

there was all Coast around Jacksonville

838

00:36:20,550 --> 00:36:18,910

Florida and that particular incident I

839

00:36:22,730 --> 00:36:20,560

haven't looked into as much as the

840

00:36:26,670 --> 00:36:22,740

Nimitz but it's basically the same story

841

00:36:29,400 --> 00:36:26,680

and according to turb or those that were

842

00:36:33,840 --> 00:36:29,410

seen on the East Coast is actually a

843

00:36:36,690 --> 00:36:33,850

different craft using the same or

844

00:36:40,890 --> 00:36:36,700

similar technology built by a different

845

00:36:43,560 --> 00:36:40,900

private contractor at plant 42 so this

846

00:36:45,360 --> 00:36:43,570

plant 42 you probably know about it and

847

00:36:46,880 --> 00:36:45,370

relatively new to me to learn about it

848

00:36:49,230 --> 00:36:46,890

but this is where all the secret

849

00:36:52,380 --> 00:36:49,240

blackhawks technologies being developed

850

00:36:53,850 --> 00:36:52,390

in Palmdale exactly and so Lockheed will

851  
00:36:56,550 --> 00:36:53,860  
have their section there and Raytheon

852  
00:36:59,220 --> 00:36:56,560  
will have their section there etc so

853  
00:37:01,680 --> 00:36:59,230  
that the military is confident that

854  
00:37:04,290 --> 00:37:01,690  
whatever is being worked on is kept

855  
00:37:06,230 --> 00:37:04,300  
absolutely you know strictly

856  
00:37:10,380 --> 00:37:06,240  
confidential as opposed to trusting

857  
00:37:11,640 --> 00:37:10,390  
whatever you know like well yeah you're

858  
00:37:14,339 --> 00:37:11,650  
really putting some really good

859  
00:37:17,579 --> 00:37:14,349  
information out here and I wonder if the

860  
00:37:19,589 --> 00:37:17,589  
Air Force did not have whoever

861  
00:37:21,780 --> 00:37:19,599  
originated this technology would have

862  
00:37:23,400 --> 00:37:21,790  
filed for a patent I don't care who it

863  
00:37:26,880 --> 00:37:23,410

is that's what they do

864

00:37:29,220 --> 00:37:26,890

so why now is this a variant that the

865

00:37:32,160 --> 00:37:29,230

Navy has been given the green light to

866

00:37:37,349 --> 00:37:32,170

go ahead and file a patent on it's it's

867

00:37:39,540 --> 00:37:37,359

a hot red that I know I am I am a lawyer

868

00:37:41,339 --> 00:37:39,550

although I'm not a patent lawyer but I

869

00:37:43,320 --> 00:37:41,349

have filed for patents before so I have

870

00:37:45,599 --> 00:37:43,330

a very general knowledge of patents but

871

00:37:47,820 --> 00:37:45,609

I did read that apparently I wasn't

872

00:37:52,320 --> 00:37:47,830

aware of this you can file for them to

873

00:37:53,700 --> 00:37:52,330

be kept private or so you know you have

874

00:37:55,770 --> 00:37:53,710

to make us particular showing to the

875

00:37:59,930 --> 00:37:55,780

Patent Office that you know there's an

876

00:38:03,359 --> 00:37:59,940

so yes that a case and they'll probably

877

00:38:06,030 --> 00:38:03,369

Union exactly exactly yet they didn't

878

00:38:08,910 --> 00:38:06,040

file for that on this one and I'm

879

00:38:11,970 --> 00:38:08,920

looking at one of them right now and the

880

00:38:14,220 --> 00:38:11,980

inventor is this very interesting navy

881

00:38:22,079 --> 00:38:14,230

scientist who's actually on a number of

882

00:38:23,970 --> 00:38:22,089

patents Salvatori pyah pyah Pais he's on

883

00:38:26,190 --> 00:38:23,980

as the inventor on a number of these

884

00:38:29,400 --> 00:38:26,200

patents but the Athenee is the US

885

00:38:32,280 --> 00:38:29,410

secretary of Navy so it's a Navy owned

886

00:38:33,720 --> 00:38:32,290

and it was originally rejected by the

887

00:38:35,070 --> 00:38:33,730

Patent Office because the patent

888

00:38:36,270 --> 00:38:35,080

examiner was essentially saying that

889

00:38:37,589 --> 00:38:36,280

this is impossible

890

00:38:42,349 --> 00:38:37,599

I can't patent something that's not

891

00:38:45,030 --> 00:38:42,359

possible and a the CTO of the Navy

892

00:38:48,300 --> 00:38:45,040

writes a letter to the patent officer

893

00:38:51,690 --> 00:38:48,310

saying that it absolutely is possible in

894

00:38:53,910 --> 00:38:51,700

fact we are currently conducting tests

895

00:38:57,180 --> 00:38:53,920

on the thing right now yeah and he

896

00:38:59,910 --> 00:38:57,190

explains that China is also on the heels

897

00:39:01,950 --> 00:38:59,920

of adopting this technology and we need

898

00:39:03,960 --> 00:39:01,960

to move quickly and we need this patent

899

00:39:05,910 --> 00:39:03,970

protection ensure enough as a result

900

00:39:09,060 --> 00:39:05,920

that patent excuse me the Patent Office

901  
00:39:12,859 --> 00:39:09,070  
and granted the patent and there's some

902  
00:39:16,050 --> 00:39:12,869  
great articles written about this on the

903  
00:39:16,950 --> 00:39:16,060  
dr.com a website I was not familiar with

904  
00:39:19,380 --> 00:39:16,960  
it's mostly about

905  
00:39:23,190 --> 00:39:19,390  
cars are you familiar with this website

906  
00:39:24,900 --> 00:39:23,200  
by chance the drive Dom no yeah really

907  
00:39:26,790 --> 00:39:24,910  
well-written stuff we're going to be

908  
00:39:28,740 --> 00:39:26,800  
actually interviewing these guys on the

909  
00:39:30,990 --> 00:39:28,750  
show next that have written some of

910  
00:39:32,790 --> 00:39:31,000  
these articles about this but that's

911  
00:39:36,690 --> 00:39:32,800  
where I first learned about these

912  
00:39:37,980 --> 00:39:36,700  
pencils about but primarily about the

913  
00:39:39,960 --> 00:39:37,990

patents I mean they're writing about

914

00:39:42,270 --> 00:39:39,970

Nimitz to some extent because they're

915

00:39:44,280 --> 00:39:42,280

connecting the two they're certainly not

916

00:39:46,740 --> 00:39:44,290

saying anything along lines that turbo

917

00:39:48,599 --> 00:39:46,750

is saying and in fact in my discussions

918

00:39:50,540 --> 00:39:48,609

with these guys in preparing to

919

00:39:53,579 --> 00:39:50,550

interview them it sounds like they are

920

00:39:55,559 --> 00:39:53,589

skeptical of turbo story I'm not sure

921

00:39:57,510 --> 00:39:55,569

why they're so skeptical considering

922

00:39:58,770 --> 00:39:57,520

that they are absolutely very familiar

923

00:40:00,900 --> 00:39:58,780

with these patents that the Navy is

924

00:40:04,069 --> 00:40:00,910

filed that seems to describe exactly

925

00:40:06,750 --> 00:40:04,079

this this technology so you know it is

926

00:40:08,760 --> 00:40:06,760

roughly technology I'll just give you

927

00:40:11,040 --> 00:40:08,770

the headline as an example of one of

928

00:40:14,549 --> 00:40:11,050

their articles a documents show that the

929

00:40:16,620 --> 00:40:14,559

Navy got UFO patents granted by warning

930

00:40:18,690 --> 00:40:16,630

of similar Chinese technical technology

931

00:40:20,220 --> 00:40:18,700

advances patent documents indicate that

932

00:40:22,289 --> 00:40:20,230

the US and China are actively developing

933

00:40:24,660 --> 00:40:22,299

radical new craft that seemed eerily

934

00:40:27,690 --> 00:40:24,670

similar to UFOs reported by Navy pilots

935

00:40:28,650 --> 00:40:27,700

so you know these guys I'll give up I'll

936

00:40:31,440 --> 00:40:28,660

give out their names because they

937

00:40:34,079 --> 00:40:31,450

deserve credit brett tingling in tyler

938

00:40:35,730 --> 00:40:34,089

rogue away but you know there in this

939

00:40:38,460 --> 00:40:35,740

particular article is written june 28th

940

00:40:41,309 --> 00:40:38,470

of this year but so they're basically

941

00:40:45,150 --> 00:40:41,319

saying that yep there are patents that

942

00:40:49,349 --> 00:40:45,160

describe the craft that was seen by

943

00:40:51,599 --> 00:40:49,359

these fighter pilots off the nimitz so

944

00:40:53,670 --> 00:40:51,609

i'm not sure what it is that they don't

945

00:40:57,329 --> 00:40:53,680

believe about durbur story maybe the

946

00:40:59,789 --> 00:40:57,339

fact that he hints that he rode in one

947

00:41:02,549 --> 00:40:59,799

and by the way i'm saying that he hinted

948

00:41:06,299 --> 00:41:02,559

to it because he was indicating that

949

00:41:09,180 --> 00:41:06,309

that's not something that he is permit

950

00:41:10,260 --> 00:41:09,190

permitted to officially disclosed but i

951  
00:41:13,470 --> 00:41:10,270  
saw that

952  
00:41:15,569 --> 00:41:13,480  
yep go ahead yeah i was just

953  
00:41:18,539 --> 00:41:15,579  
but he hinted enough about it that i

954  
00:41:21,359 --> 00:41:18,549  
feel comfortable saying that he strongly

955  
00:41:21,870 --> 00:41:21,369  
hinted that he wrote in one okay fine

956  
00:41:26,160 --> 00:41:21,880  
fair enough

957  
00:41:35,380 --> 00:41:32,529  
if these crafts are not acquirable by

958  
00:41:38,410 --> 00:41:35,390  
traditional navy and air force radar

959  
00:41:40,539 --> 00:41:38,420  
which is pretty damned advanced and this

960  
00:41:43,269 --> 00:41:40,549  
new radar I've forgotten the name of it

961  
00:41:48,130 --> 00:41:43,279  
now which doesn't require a screen with

962  
00:41:50,380 --> 00:41:48,140  
a sweep on it I can pick them up why are

963  
00:41:53,349 --> 00:41:50,390

they visible

964

00:41:57,630 --> 00:41:53,359

I think those were IFR videos that were

965

00:42:01,240 --> 00:41:57,640

released infrared so they're they're not

966

00:42:03,700 --> 00:42:01,250

visible to the naked eye because of what

967

00:42:05,980 --> 00:42:03,710

because of the the so called

968

00:42:09,670 --> 00:42:05,990

plasma around them I'm using the term

969

00:42:14,589 --> 00:42:09,680

plasma not anyone else because they move

970

00:42:18,099 --> 00:42:14,599

too fast what is next and I think folks

971

00:42:20,170 --> 00:42:18,109

them I think what turbo said when we

972

00:42:22,329 --> 00:42:20,180

discussed that was that at the time of

973

00:42:24,009 --> 00:42:22,339

the nimitz incident they could be seen

974

00:42:27,549 --> 00:42:24,019

by the naked eye but but further

975

00:42:31,839 --> 00:42:27,559

technology since the nimitz incident has

976  
00:42:34,920 --> 00:42:31,849  
made them more predator like with some

977  
00:42:38,349 --> 00:42:34,930  
type of technology that makes them

978  
00:42:41,859 --> 00:42:38,359  
semi-invisible this screen all right now

979  
00:42:44,529 --> 00:42:41,869  
remember the nimitz event was 15 years

980  
00:42:49,029 --> 00:42:44,539  
ago all right keep that in mind this is

981  
00:42:50,980 --> 00:42:49,039  
a long time ago 2004 right so according

982  
00:42:55,180 --> 00:42:50,990  
to turbo V these things are first flown

983  
00:43:00,039 --> 00:42:55,190  
in the late 90s mm-hmm all right

984  
00:43:03,819 --> 00:43:00,049  
these tic-tac shaped objects are we to

985  
00:43:06,870 --> 00:43:03,829  
think that the deter BER imply or infer

986  
00:43:09,970 --> 00:43:06,880  
in any way that there were other shaped

987  
00:43:12,460 --> 00:43:09,980  
craft using the same tech that we're

988  
00:43:14,529 --> 00:43:12,470

flying around or is this is this the big

989

00:43:16,809 --> 00:43:14,539

breakthrough and this is right now this

990

00:43:20,230 --> 00:43:16,819

is state-of-the-art to this day and this

991

00:43:21,190 --> 00:43:20,240

is the tic-tac tech that we're talking

992

00:43:26,680 --> 00:43:21,200

about that's it

993

00:43:31,150 --> 00:43:26,690

no discs no rectangles no flying

994

00:43:34,660 --> 00:43:31,160

triangles no cigar-shaped UFOs just tic

995

00:43:36,880 --> 00:43:34,670

tacs is that what we're saying believe

996

00:43:38,100 --> 00:43:36,890

he would say the gimbal was Summerlee

997

00:43:41,040 --> 00:43:38,110

shaped

998

00:43:42,990 --> 00:43:41,050

but the the triangle shape is definitely

999

00:43:46,770 --> 00:43:43,000

very significant and that shows up in

1000

00:43:49,470 --> 00:43:46,780

the Navy patents but they end up

1001  
00:43:53,850 --> 00:43:49,480  
ultimately and you got to really know

1002  
00:43:56,130 --> 00:43:53,860  
your stuff you know quantum physics wise

1003  
00:43:57,900 --> 00:43:56,140  
to understand these patterns in you know

1004  
00:44:00,690 --> 00:43:57,910  
I could read you some of it because it's

1005  
00:44:02,040 --> 00:44:00,700  
it's fascinating but you know you got

1006  
00:44:03,750 --> 00:44:02,050  
really got to understand it but anyway

1007  
00:44:05,940 --> 00:44:03,760  
in some of the drawings and the patents

1008  
00:44:07,740 --> 00:44:05,950  
you see these triangle figures but then

1009  
00:44:10,680 --> 00:44:07,750  
one of the drawings shows the tried to

1010  
00:44:15,120 --> 00:44:10,690  
triangle figures inside of the tic-tac

1011  
00:44:18,390 --> 00:44:15,130  
shaped object huh all right what did mr.

1012  
00:44:20,130 --> 00:44:18,400  
turbid tell you about the size of these

1013  
00:44:23,010 --> 00:44:20,140

tic tacs now we've all seen the video

1014

00:44:26,070 --> 00:44:23,020

there's and I think this is our video

1015

00:44:29,310 --> 00:44:26,080

how big are these things supposed to be

1016

00:44:32,760 --> 00:44:29,320

he was pretty specific on that yeah he

1017

00:44:36,270 --> 00:44:32,770

said I'd forget he said exactly it was

1018

00:44:39,150 --> 00:44:36,280

40 some-odd feet it was approximately 42

1019

00:44:40,470 --> 00:44:39,160

feet long okay and approximately 20 feet

1020

00:44:42,420 --> 00:44:40,480

wide okay

1021

00:44:45,030 --> 00:44:42,430

I would never we can get a mental

1022

00:44:46,920 --> 00:44:45,040

picture of that easily around the edges

1023

00:44:50,330 --> 00:44:46,930

paint them white put them in a plastic

1024

00:44:53,220 --> 00:44:50,340

dispenser and you've got tic tacs now

1025

00:44:57,870 --> 00:44:53,230

when you talk about putting two

1026

00:45:01,950 --> 00:44:57,880

triangular craft in a 25 40 foot tic-tac

1027

00:45:05,760 --> 00:45:01,960

it doesn't work this triangular craft or

1028

00:45:08,880 --> 00:45:05,770

by all accounts big a couple hundred

1029

00:45:12,750 --> 00:45:08,890

feet long on the side many of them big

1030

00:45:14,760 --> 00:45:12,760

yeah even the tr-3b would never fit in a

1031

00:45:18,180 --> 00:45:14,770

tic tac these are big these are big

1032

00:45:21,690 --> 00:45:18,190

items the big machines so maybe it's

1033

00:45:24,660 --> 00:45:21,700

some small Scout triangular shaped craft

1034

00:45:28,650 --> 00:45:24,670

he's trying to describe but in a 20 by

1035

00:45:32,220 --> 00:45:28,660

40 foot that's pretty small pretty small

1036

00:45:35,730 --> 00:45:32,230

yep well especially if at least some of

1037

00:45:39,210 --> 00:45:35,740

them having inner cavity which can carry

1038

00:45:42,780 --> 00:45:39,220

human beings which is what of course or

1039

00:45:45,660 --> 00:45:42,790

hinted at so he hinted they were crewed

1040

00:45:46,610 --> 00:45:45,670

by humans all right so if they're crewed

1041

00:45:49,650 --> 00:45:46,620

by humans

1042

00:45:51,480 --> 00:45:49,660

21:40 know I know normally they would

1043

00:45:54,520 --> 00:45:51,490

fly without him

1044

00:45:57,520 --> 00:45:54,530

okay so yeah they're basically drones

1045

00:45:59,440 --> 00:45:57,530

drones alright but they can they're

1046

00:46:01,720 --> 00:45:59,450

capable of carrying humans but again

1047

00:46:04,240 --> 00:46:01,730

because of the g4 situation which we

1048

00:46:06,400 --> 00:46:04,250

talked about earlier according to turbo

1049

00:46:07,960 --> 00:46:06,410

because of g-force they would only be

1050

00:46:10,510 --> 00:46:07,970

able to fly so fast with a human in

1051

00:46:13,569 --> 00:46:10,520

there all right now I am NOT out to

1052

00:46:15,910 --> 00:46:13,579

impugn anyone when I we need to go back

1053

00:46:21,670 --> 00:46:15,920

to mr. turbo and spend a little time on

1054

00:46:24,760 --> 00:46:21,680

him what in the world is his access that

1055

00:46:30,030 --> 00:46:24,770

would allow him to hint or suggest that

1056

00:46:39,970 --> 00:46:33,849

well as far as what he did while he was

1057

00:46:42,579 --> 00:46:39,980

in the Air Force he he did a lot in

1058

00:46:44,859 --> 00:46:42,589

radar in electromagnetic fields etc etc

1059

00:46:47,829 --> 00:46:44,869

so that was kind of an expertise of his

1060

00:46:50,319 --> 00:46:47,839

so when it comes to radar he's an expert

1061

00:46:53,500 --> 00:46:50,329

in that and I can only I mean he only

1062

00:46:56,500 --> 00:46:53,510

spent four years according to what he

1063

00:47:00,910 --> 00:46:56,510

told me and what's on his LinkedIn with

1064

00:47:05,260 --> 00:47:00,920

the Air Force is approximately like 84

1065

00:47:07,120 --> 00:47:05,270

88 okay Sophie if he's yeah but here's

1066

00:47:09,010 --> 00:47:07,130

here's my point I'm sorry we got a break

1067

00:47:13,530 --> 00:47:09,020

here we'll come back but here's the

1068

00:47:15,730 --> 00:47:13,540

point 88 is the end of his formal

1069

00:47:18,400 --> 00:47:15,740

association and affiliation with the Air

1070

00:47:20,500 --> 00:47:18,410

Force right that's what he said 84 to 88

1071

00:47:22,120 --> 00:47:20,510

I'm just putting it out there but

1072

00:47:30,130 --> 00:47:22,130

nobody's going to be hung up with his

1073

00:47:33,940 --> 00:47:30,140

stuff so from 88 to 2004 when the tic

1074

00:47:36,280 --> 00:47:33,950

tacs were seen and then when he was on

1075

00:47:38,650 --> 00:47:36,290

your program that's another 15 years

1076

00:47:42,359 --> 00:47:38,660

what's he doing all this time

1077

00:47:46,120 --> 00:47:42,369

and you'd have to have above top-secret

1078

00:47:49,359 --> 00:47:46,130

clearance to be taken onboard or to be

1079

00:47:52,780 --> 00:47:49,369

able to suggest and infer you might have

1080

00:47:57,040 --> 00:47:52,790

been taken on a tic-tac ride you you're

1081

00:48:00,309 --> 00:47:57,050

not some casual run to the street just

1082

00:48:03,700 --> 00:48:00,319

regular old citizen who happened to be

1083

00:48:04,329 --> 00:48:03,710

in Las Vegas for this Massacre something

1084

00:48:06,609 --> 00:48:04,339

else is a

1085

00:48:08,890 --> 00:48:06,619

foot here much more to the story as you

1086

00:48:11,079 --> 00:48:08,900

know as an interviewer this is this is

1087

00:48:12,880 --> 00:48:11,089

uh this is a big part of it well we'll

1088

00:48:15,400 --> 00:48:12,890

see what we can do here well come back

1089

00:48:16,660 --> 00:48:15,410

with Jim in just a couple minutes thanks

1090

00:48:18,279 --> 00:48:16,670

for being here tonight gentlemen I

1091

00:48:21,609 --> 00:48:18,289

really appreciate it it's an interesting

1092

00:48:24,910 --> 00:48:21,619

it's an interesting story and we'll

1093

00:48:27,130 --> 00:48:24,920

watch it very closely hang on we'll be

1094

00:48:29,620 --> 00:48:27,140

right back with Jim Breslow all right

1095

00:48:32,979 --> 00:48:29,630

welcome back talking to Jim Breslow who

1096

00:48:36,479 --> 00:48:32,989

has his own talk radio program and this

1097

00:48:39,670 --> 00:48:36,489

all came about from a press release

1098

00:48:43,049 --> 00:48:39,680

talking about a man named turbo who

1099

00:48:46,630 --> 00:48:43,059

claims that these tic-tacs are our

1100

00:48:50,259 --> 00:48:46,640

technology and that other companies may

1101

00:48:52,839 --> 00:48:50,269

be in the globalist international

1102

00:48:54,880 --> 00:48:52,849

capacity maybe just companies over in

1103

00:48:57,749 --> 00:48:54,890

China other companies and advanced

1104

00:49:00,549 --> 00:48:57,759

science tech research labs are

1105

00:49:02,559 --> 00:49:00,559

apparently coming up with the same kind

1106

00:49:06,640 --> 00:49:02,569

of craft

1107

00:49:08,769 --> 00:49:06,650

now if these craft are 20 by 40 and they

1108

00:49:11,440 --> 00:49:08,779

can do 24,000 miles an hour

1109

00:49:14,440 --> 00:49:11,450

they make intercontinental ballistic

1110

00:49:17,289 --> 00:49:14,450

missiles obsolete you want to deliver a

1111

00:49:20,890 --> 00:49:17,299

nuclear warhead you can stick dozens in

1112

00:49:22,569 --> 00:49:20,900

a 20 by 40 craft and nobody can touch it

1113

00:49:25,719 --> 00:49:22,579

nobody can see it without the special

1114

00:49:29,130 --> 00:49:25,729

radar and it can go anywhere once on the

1115

00:49:33,069 --> 00:49:29,140

planet's surface and just create

1116

00:49:39,910 --> 00:49:33,079

annihilation havoc and mass death so the

1117

00:49:42,880 --> 00:49:39,920

age of b-52s and tu-144 s and ICBMs and

1118

00:49:45,880 --> 00:49:42,890

irbm s and hypersonic cruise missiles

1119

00:49:48,430 --> 00:49:45,890

are done I think an argument can be made

1120

00:49:51,279 --> 00:49:48,440

for that anyhow so Jim what do you think

1121

00:49:53,079 --> 00:49:51,289

well not only that I mean it's it's

1122

00:49:56,920 --> 00:49:53,089

astounding if you really stop and think

1123

00:49:58,749 --> 00:49:56,930

about how life-changing this is and how

1124

00:50:02,140 --> 00:49:58,759

significant it is and so on but actually

1125

00:50:04,180 --> 00:50:02,150

the the energy creation and how the how

1126

00:50:05,469 --> 00:50:04,190

these things are propelled might end up

1127

00:50:07,390 --> 00:50:05,479

being the most interesting part of the

1128

00:50:10,390 --> 00:50:07,400

story turbo acknowledged that he doesn't

1129

00:50:11,890 --> 00:50:10,400

really understand that but if going back

1130

00:50:14,799 --> 00:50:11,900

to these Navy patents we've been talking

1131

00:50:16,810 --> 00:50:14,809

about there's a patent that's talking

1132

00:50:20,190 --> 00:50:16,820

about the superconductors

1133

00:50:23,200 --> 00:50:20,200

and room-temperature superconductors and

1134

00:50:25,960 --> 00:50:23,210

nuclear fusion as opposed to fission

1135

00:50:28,390 --> 00:50:25,970

which is all again somewhat new to me

1136

00:50:31,270 --> 00:50:28,400

but probably not to you but that there's

1137

00:50:34,360 --> 00:50:31,280

been major advances in all that we're

1138

00:50:37,030 --> 00:50:34,370

basically the standard fossil fuel

1139

00:50:41,800 --> 00:50:37,040

energies that we think about today are

1140

00:50:44,680 --> 00:50:41,810

going to be long gone very soon based on

1141

00:50:47,530 --> 00:50:44,690

some of the discoveries that have come

1142

00:50:49,840 --> 00:50:47,540

through working with this craft and

1143

00:50:53,530 --> 00:50:49,850

other others and this is the same

1144

00:50:56,410 --> 00:50:53,540

inventor by the way with the Navy who's

1145

00:50:59,050 --> 00:50:56,420

named on these other patents involving

1146

00:51:02,200 --> 00:50:59,060

this you know incredible new sources of

1147

00:51:07,270 --> 00:51:02,210

energy through nuclear fusion instead of

1148

00:51:12,030 --> 00:51:07,280

nuclear fission well hard to know hard

1149

00:51:14,770 --> 00:51:12,040

to know if if fusion is enabling these

1150

00:51:17,890 --> 00:51:14,780

trap to operate on principles of new

1151  
00:51:21,550 --> 00:51:17,900  
physics as it were I don't know there's

1152  
00:51:24,070 --> 00:51:21,560  
some energy source involved yes of what

1153  
00:51:26,380 --> 00:51:24,080  
it is I could only guess had and that

1154  
00:51:30,280 --> 00:51:26,390  
serves no purpose let's go back to mr.

1155  
00:51:33,700 --> 00:51:30,290  
turbo I'm very interested in how a man

1156  
00:51:36,240 --> 00:51:33,710  
who comes up with a story like this on

1157  
00:51:39,640 --> 00:51:36,250  
your program obviously very compelling

1158  
00:51:42,880 --> 00:51:39,650  
just happened to get involved with the

1159  
00:51:45,760 --> 00:51:42,890  
Las Vegas massacre I don't believe in

1160  
00:51:46,180 --> 00:51:45,770  
coincidences I believe in cause and

1161  
00:51:49,300 --> 00:51:46,190  
effect

1162  
00:51:51,810 --> 00:51:49,310  
I believe in long strings and tentacles

1163  
00:51:55,600 --> 00:51:51,820

and tendrils that connect a lot a

1164

00:51:59,470 --> 00:51:55,610

connectivity is the issue and those are

1165

00:52:02,740 --> 00:51:59,480

two enormous Liebig let's call them news

1166

00:52:05,170 --> 00:52:02,750

scoops right he's on the inside of the

1167

00:52:07,900 --> 00:52:05,180

investigation of Las Vegas he now he's

1168

00:52:15,640 --> 00:52:07,910

on the inside literally of the tick tack

1169

00:52:18,610 --> 00:52:15,650

tack so what are the odds yeah well he

1170

00:52:20,710 --> 00:52:18,620

is a fascinating person I was just I

1171

00:52:24,700 --> 00:52:20,720

thought maybe I'd read for you quickly

1172

00:52:26,190 --> 00:52:24,710

what he started doing after he left the

1173

00:52:29,079 --> 00:52:26,200

Air Force

1174

00:52:31,720 --> 00:52:29,089

I'm sure he is I'm sure he's very

1175

00:52:34,480 --> 00:52:31,730

talented I'm not knocking him at all I'm

1176

00:52:37,089 --> 00:52:34,490

just trying to piece this together not

1177

00:52:38,980 --> 00:52:37,099

really see who is in why he's releasing

1178

00:52:40,599 --> 00:52:38,990

this information and of course I'm sure

1179

00:52:42,759 --> 00:52:40,609

many people are going to say that this

1180

00:52:45,400 --> 00:52:42,769

is a disinformation campaign that this

1181

00:52:49,029 --> 00:52:45,410

is these things are not earthly these

1182

00:52:51,489 --> 00:52:49,039

are extraterrestrial and the Navy or the

1183

00:52:53,529 --> 00:52:51,499

military wants to calm everybody down by

1184

00:52:55,059 --> 00:52:53,539

leaking out that there you are Lee so

1185

00:52:58,210 --> 00:52:55,069

I'm sure he's going to get accused of

1186

00:53:00,489 --> 00:52:58,220

that you know I go back to the patent

1187

00:53:02,170 --> 00:53:00,499

though as far as describing exactly how

1188

00:53:03,940 --> 00:53:02,180

these are and I want to read a little

1189

00:53:06,009 --> 00:53:03,950

bit that patent in a minute because it's

1190

00:53:08,380 --> 00:53:06,019

fascinating but let's go back to deter

1191

00:53:10,599 --> 00:53:08,390

Burr and what he was doing so he had and

1192

00:53:12,640 --> 00:53:10,609

I believe this was his own company so

1193

00:53:15,400 --> 00:53:12,650

this is starting in September of 88

1194

00:53:16,630 --> 00:53:15,410

which is when he left the Air Force he

1195

00:53:20,559 --> 00:53:16,640

calls himself a senior intelligence

1196

00:53:24,160 --> 00:53:20,569

analyst for Spacey acorn which is a kind

1197

00:53:25,930 --> 00:53:24,170

of a he said it's forget the term used

1198

00:53:27,430 --> 00:53:25,940

for but but the word conspiracy comes

1199

00:53:29,380 --> 00:53:27,440

out of spicy ACORN apparently if you

1200

00:53:31,930 --> 00:53:29,390

move the letters around so it's a funny

1201  
00:53:34,630 --> 00:53:31,940  
name that he came up with an anagram

1202  
00:53:38,019 --> 00:53:34,640  
game anagram thank you very much that's

1203  
00:53:39,910 --> 00:53:38,029  
the word cybersecurity expert in senior

1204  
00:53:41,920 --> 00:53:39,920  
intelligence analyst with over 30 years

1205  
00:53:44,200 --> 00:53:41,930  
experience with the ability to direct

1206  
00:53:46,180 --> 00:53:44,210  
plan or implement cybersecurity policies

1207  
00:53:47,920 --> 00:53:46,190  
counterterrorism defensive measures

1208  
00:53:49,690 --> 00:53:47,930  
determined threats against systems and

1209  
00:53:51,910 --> 00:53:49,700  
infrastructure recognize and act on

1210  
00:53:53,920 --> 00:53:51,920  
attacks against systems and entities or

1211  
00:53:55,690 --> 00:53:53,930  
organizations effectively implement

1212  
00:53:57,279 --> 00:53:55,700  
plans and strategies to protect agencies

1213  
00:53:59,109 --> 00:53:57,289

organizations businesses and governments

1214

00:54:00,130 --> 00:53:59,119

to ensure continuing operations in the

1215

00:54:01,839 --> 00:54:00,140

case of cyberattacks

1216

00:54:03,880 --> 00:54:01,849

maximize return on investment by

1217

00:54:06,279 --> 00:54:03,890

limiting or reducing loss of critical

1218

00:54:09,400 --> 00:54:06,289

data etc etc Center threat assessment

1219

00:54:13,749 --> 00:54:09,410

official Regional Operations Command so

1220

00:54:16,109 --> 00:54:13,759

a private contractor presumably working

1221

00:54:20,229 --> 00:54:16,119

with the government as he states there

1222

00:54:22,479 --> 00:54:20,239

on cyber security and threat assessment

1223

00:54:25,979 --> 00:54:22,489

etc fine thank you I think I heard the

1224

00:54:29,979 --> 00:54:25,989

word counterterrorism in there too yes

1225

00:54:32,499 --> 00:54:29,989

yes that's a man for all seasons

1226

00:54:34,500 --> 00:54:32,509

so why him you know I would just say

1227

00:54:38,010 --> 00:54:34,510

that he has connections and Conti

1228

00:54:40,560 --> 00:54:38,020

and friends at plant 42 that have kept

1229

00:54:43,500 --> 00:54:40,570

him apprised of these things and decided

1230

00:54:47,490 --> 00:54:43,510

that it was okay to let him in on the

1231

00:54:49,650 --> 00:54:47,500

inside scoop and then as far as flying

1232

00:54:52,920 --> 00:54:49,660

on one he did note that it happened to

1233

00:54:55,200 --> 00:54:52,930

be his birthday so it was arguably a

1234

00:55:04,650 --> 00:54:55,210

birthday present from his friends at

1235

00:55:09,360 --> 00:55:04,660

plant 42 okay would you like touching on

1236

00:55:12,030 --> 00:55:09,370

the rocks uh Jim did you know it's not

1237

00:55:13,620 --> 00:55:12,040

Scotch time it's oh it is at 714 darn it

1238

00:55:17,100 --> 00:55:13,630

no I'm behind no that's a nice T don't

1239

00:55:19,560 --> 00:55:17,110

let me hold you up that's what I see to

1240

00:55:21,870 --> 00:55:19,570

make make sure I stay nice and alert for

1241

00:55:26,550 --> 00:55:21,880

you see folks it's the old iced tea

1242

00:55:28,140 --> 00:55:26,560

excuse on that talk show how about the

1243

00:55:30,720 --> 00:55:28,150

patent you won't hear any of this patent

1244

00:55:32,160 --> 00:55:30,730

yeah sure notice this guy go back to I

1245

00:55:34,530 --> 00:55:32,170

used to read tea towns and Browns

1246

00:55:37,650 --> 00:55:34,540

patents when I was in college so I'm

1247

00:55:40,110 --> 00:55:37,660

familiar with what what's there doing to

1248

00:55:42,030 --> 00:55:40,120

a significant degree yeah well if you go

1249

00:55:43,110 --> 00:55:42,040

to the drive comm you'll see the article

1250

00:55:45,150 --> 00:55:43,120

that writes about these patents there's

1251

00:55:46,620 --> 00:55:45,160

about five or six significant patents in

1252

00:55:48,810 --> 00:55:46,630

this area all of them issue pretty

1253

00:55:52,350 --> 00:55:48,820

recently but I just find it really

1254

00:55:55,140 --> 00:55:52,360

interesting how much it mirrors what

1255

00:55:57,060 --> 00:55:55,150

these Navy pilots saw remember they they

1256

00:55:58,290 --> 00:55:57,070

saw according to the pilot I don't think

1257

00:56:01,200 --> 00:55:58,300

they've got any video of this of course

1258

00:56:04,770 --> 00:56:01,210

but the craft in what looked like to

1259

00:56:06,900 --> 00:56:04,780

them going underwater and here this is

1260

00:56:10,140 --> 00:56:06,910

directly from the patent it is possible

1261

00:56:13,560 --> 00:56:10,150

to envision a hybrid aerospace /

1262

00:56:15,840 --> 00:56:13,570

undersea craft which due to the physical

1263

00:56:19,170 --> 00:56:15,850

mechanisms enabled with the inertial

1264

00:56:21,690 --> 00:56:19,180

mass reduction device can function as a

1265

00:56:24,240 --> 00:56:21,700

submersible craft capable of extreme

1266

00:56:26,940 --> 00:56:24,250

underwater speeds due to the lack of

1267

00:56:30,720 --> 00:56:26,950

water skin friction and enhanced stealth

1268

00:56:33,240 --> 00:56:30,730

capabilities nonlinear scattering of RF

1269

00:56:35,160 --> 00:56:33,250

and solar signals this hybrid craft

1270

00:56:38,580 --> 00:56:35,170

would move with great ease through air

1271

00:56:42,780 --> 00:56:38,590

space water mediums by being enclosed in

1272

00:56:45,360 --> 00:56:42,790

a vacuum plasma bubble sheath due to the

1273

00:56:47,400 --> 00:56:45,370

coupled effects of e/m field induced air

1274

00:56:50,910 --> 00:56:47,410

water particles repulsion

1275

00:56:52,890 --> 00:56:50,920

vacuum energy polarization so there you

1276

00:56:55,890 --> 00:56:52,900

go that's basically describing the tick

1277

00:56:58,740 --> 00:56:55,900

tack in a patent that was just issued

1278

00:57:02,880 --> 00:56:58,750

well it's like maybe it's like the

1279

00:57:04,799 --> 00:57:02,890

torpedoes at the cavitate they generate

1280

00:57:06,750 --> 00:57:04,809

an air bubble in front of themselves and

1281

00:57:08,940 --> 00:57:06,760

that air bubble moves through the water

1282

00:57:10,980 --> 00:57:08,950

faster than a piece of metal could and

1283

00:57:12,480 --> 00:57:10,990

they remain in that air bubble so

1284

00:57:14,190 --> 00:57:12,490

they're actually just traveling through

1285

00:57:16,130 --> 00:57:14,200

air while they're underwater this

1286

00:57:18,779 --> 00:57:16,140

technology's been around for a long time

1287

00:57:24,059 --> 00:57:18,789

okay all right

1288

00:57:24,809 --> 00:57:24,069

it sounds to me like mr. turbo if I had

1289

00:57:26,609 --> 00:57:24,819

to guess

1290

00:57:28,920 --> 00:57:26,619

and mr. turbo if you're listening this

1291

00:57:30,450 --> 00:57:28,930

is said with all due respect it sounds

1292

00:57:32,099 --> 00:57:30,460

like mr. turbo is still very much

1293

00:57:36,750 --> 00:57:32,109

attached to the military-industrial

1294

00:57:42,529 --> 00:57:36,760

complex and Intel agencies community and

1295

00:57:45,809 --> 00:57:42,539

may be charged with leading the news

1296

00:57:49,140 --> 00:57:45,819

cycle on this particular item of

1297

00:57:52,049 --> 00:57:49,150

interest influencing it I'm not saying

1298

00:57:55,260 --> 00:57:52,059

it's all lies I'm just saying that this

1299

00:57:57,710 --> 00:57:55,270

is a man who you just don't end up

1300

00:58:00,870 --> 00:57:57,720

randomly involved with the Las Vegas

1301  
00:58:04,250 --> 00:58:00,880  
Massacre and then taking a ride on a

1302  
00:58:08,120 --> 00:58:04,260  
tic-tac it just doesn't happen unless

1303  
00:58:12,779 --> 00:58:08,130  
you're involved with the Intel military

1304  
00:58:15,420 --> 00:58:12,789  
community and who knows what's the truth

1305  
00:58:19,920 --> 00:58:15,430  
I don't know yeah obviously was a great

1306  
00:58:22,230 --> 00:58:19,930  
guest interesting as hell so yeah I wish

1307  
00:58:24,299 --> 00:58:22,240  
I could get more people to to cover it

1308  
00:58:26,670 --> 00:58:24,309  
I've got a very good relationship with

1309  
00:58:28,470 --> 00:58:26,680  
Fox News and I sent them the press

1310  
00:58:32,670 --> 00:58:28,480  
release hoping that they would they're

1311  
00:58:34,650 --> 00:58:32,680  
not kind of questions no they didn't

1312  
00:58:38,099 --> 00:58:34,660  
tell me why but you can kind of imagine

1313  
00:58:39,750 --> 00:58:38,109

why but yeah no they would not cover it

1314

00:58:41,730 --> 00:58:39,760

and then then I tried to do a Facebook

1315

00:58:46,740 --> 00:58:41,740

ad with the thing and of course Facebook

1316

00:58:48,630 --> 00:58:46,750

is rejecting my ad then I tried to yeah

1317

00:58:50,970 --> 00:58:48,640

I mean they're just absolutely terrible

1318

00:58:52,980 --> 00:58:50,980

to deal with right now which that's a

1319

00:58:55,859 --> 00:58:52,990

whole another subject but you know yeah

1320

00:58:57,450 --> 00:58:55,869

I I think Facebook should be you know

1321

00:58:58,829 --> 00:58:57,460

they are not the publisher they're just

1322

00:59:00,089 --> 00:58:58,839

a platform I think that people should be

1323

00:59:00,590 --> 00:59:00,099

able to put up anything they want on

1324

00:59:01,970 --> 00:59:00,600

there

1325

00:59:05,290 --> 00:59:01,980

and Facebook should not be responsible

1326

00:59:08,450 --> 00:59:05,300

for it and put some see them there yeah

1327

00:59:11,120 --> 00:59:08,460

what they'll say is it's a private

1328

00:59:13,970 --> 00:59:11,130

company we can run our business the way

1329

00:59:16,370 --> 00:59:13,980

we see fit that's the game that's how

1330

00:59:19,550 --> 00:59:16,380

they set the whole internet up privately

1331

00:59:21,140 --> 00:59:19,560

owned corporations not government so

1332

00:59:24,020 --> 00:59:21,150

they don't have to adhere to any

1333

00:59:25,940 --> 00:59:24,030

government laws they can operate almost

1334

00:59:30,530 --> 00:59:25,950

independently of each other and they do

1335

00:59:33,200 --> 00:59:30,540

but they're all connected so yeah quite

1336

00:59:34,940 --> 00:59:33,210

a rig yeah I just don't like these

1337

00:59:40,100 --> 00:59:34,950

politicians leaning on them to be

1338

00:59:42,770 --> 00:59:40,110

regulating speech more these politicians

1339

00:59:46,040 --> 00:59:42,780

Jim are they're communists look I don't

1340

00:59:48,650 --> 00:59:46,050

want to sound like some arcane holdover

1341

00:59:50,750 --> 00:59:48,660

from Joe McCarthy but communism is the

1342

00:59:53,800 --> 00:59:50,760

issue call it communism college

1343

00:59:56,750 --> 00:59:53,810

socialism progressivism progressivism

1344

00:59:57,500 --> 00:59:56,760

liberalism I don't care it doesn't

1345

01:00:03,190 --> 00:59:57,510

matter

1346

01:00:06,020 --> 01:00:03,200

ultimately yeah percent with you and but

1347

01:00:07,760 --> 01:00:06,030

it's definitely not liberalism that

1348

01:00:09,770 --> 01:00:07,770

that's what the Democrat Party use their

1349

01:00:12,470 --> 01:00:09,780

own labels they're right there are these

1350

01:00:14,060 --> 01:00:12,480

things around like leaves the wind but

1351

01:00:17,270 --> 01:00:14,070

Jeff my point is is that I think a lot

1352

01:00:20,330 --> 01:00:17,280

of people don't realize how the Democrat

1353

01:00:23,090 --> 01:00:20,340

Party has morphed from being liberals to

1354

01:00:24,850 --> 01:00:23,100

being progressives slash socialists it

1355

01:00:26,330 --> 01:00:24,860

just happened without people even

1356

01:00:27,710 --> 01:00:26,340

understanding the difference they've

1357

01:00:28,910 --> 01:00:27,720

just been historically Democrats and

1358

01:00:30,290 --> 01:00:28,920

they sold vote Democrats but they don't

1359

01:00:32,810 --> 01:00:30,300

realize that this Democrat party today

1360

01:00:35,300 --> 01:00:32,820

is not what it was thirty years ago this

1361

01:00:37,850 --> 01:00:35,310

is adopted gee imagine where John

1362

01:00:40,430 --> 01:00:37,860

Kennedy would would say about Oh

1363

01:00:43,340 --> 01:00:40,440

unbelievable yeah but it's been slow and

1364

01:00:45,320 --> 01:00:43,350

steady and that's how they've you know

1365

01:00:46,400 --> 01:00:45,330

that's how they planned it out to do it

1366

01:00:49,790 --> 01:00:46,410

slow and steady it's not a revolution

1367

01:00:51,890 --> 01:00:49,800

it's a slow take over and now it's

1368

01:00:53,570 --> 01:00:51,900

progressivism it's not liberalism and I

1369

01:00:55,970 --> 01:00:53,580

would love for some Democrat to come

1370

01:00:58,280 --> 01:00:55,980

forward and point that out and bring the

1371

01:00:59,750 --> 01:00:58,290

party back to classic liberalism you

1372

01:01:02,090 --> 01:00:59,760

know what happened there general well

1373

01:01:04,000 --> 01:01:02,100

when Hillary comes in she will attempt

1374

01:01:07,220 --> 01:01:04,010

to move the party in that direction

1375

01:01:10,610 --> 01:01:07,230

guarantee they got no chance now with

1376

01:01:13,500 --> 01:01:10,620

these lunatics ma'am relative remember

1377

01:01:16,450 --> 01:01:13,510

she's a Saul linski disciple

1378

01:01:18,070 --> 01:01:16,460

but that's how they play the game I know

1379

01:01:22,480 --> 01:01:18,080

I know you're a hundred percent right

1380

01:01:25,720 --> 01:01:22,490

it's all it's a freak show it's all

1381

01:01:27,820 --> 01:01:25,730

contrived all controlled and it really

1382

01:01:30,460 --> 01:01:27,830

ultimately doesn't matter who the

1383

01:01:32,340 --> 01:01:30,470

elected who's in the White House it just

1384

01:01:35,530 --> 01:01:32,350

doesn't matter they're not in charge

1385

01:01:37,690 --> 01:01:35,540

they're told what to do this government

1386

01:01:38,950 --> 01:01:37,700

this world is being run on a level that

1387

01:01:41,080 --> 01:01:38,960

most people would never be able to

1388

01:01:42,970 --> 01:01:41,090

believe if you could explain it to them

1389

01:01:46,750 --> 01:01:42,980

they just wouldn't they wouldn't want to

1390

01:01:48,070 --> 01:01:46,760

hear it too busy well staying with world

1391

01:01:50,800 --> 01:01:48,080

politics I do think it's interesting

1392

01:01:53,080 --> 01:01:50,810

taking it back to the story the the part

1393

01:01:56,290 --> 01:01:53,090

that he disclosed about Trump showing

1394

01:01:59,260 --> 01:01:56,300

this thing off to to Kim Jong II that's

1395

01:02:02,080 --> 01:01:59,270

that's I'm sorry that's that doesn't

1396

01:02:06,040 --> 01:02:02,090

work here not for me no no personally no

1397

01:02:09,520 --> 01:02:06,050

no why not that's what kills what Donald

1398

01:02:12,340 --> 01:02:09,530

Trump in his silk PJs at 4:00 in the

1399

01:02:14,560 --> 01:02:12,350

morning talking to Sean Hannity about

1400

01:02:17,580 --> 01:02:14,570

the tweet of the day says oh and by the

1401

01:02:20,770 --> 01:02:17,590

way we got this phenomenal technology

1402

01:02:22,360 --> 01:02:20,780

Sean and I'm gonna send one of them over

1403

01:02:25,420 --> 01:02:22,370

there - Wow

1404

01:02:25,960 --> 01:02:25,430

Kim if not intimidate him I don't think

1405

01:02:31,750 --> 01:02:25,970

so

1406

01:02:33,940 --> 01:02:31,760

well - Trump a trump book it can

1407

01:02:37,930 --> 01:02:33,950

sometimes do things somewhat comically I

1408

01:02:39,790 --> 01:02:37,940

mean it's it's trumpian in my view you

1409

01:02:41,170 --> 01:02:39,800

know I think you know most presidents

1410

01:02:43,780 --> 01:02:41,180

would would you know the story is that

1411

01:02:47,740 --> 01:02:43,790

he was first briefed on this technology

1412

01:02:51,550 --> 01:02:47,750

in November of 2017 right around the

1413

01:02:53,740 --> 01:02:51,560

time when turbo hints that he rode in

1414

01:02:55,720 --> 01:02:53,750

one of these things and rather than

1415

01:02:57,970 --> 01:02:55,730

simply nodding his head and saying

1416

01:02:59,200 --> 01:02:57,980

thanks boys for letting me know and you

1417

01:03:03,220 --> 01:02:59,210

know let me know if there's any new

1418

01:03:04,540 --> 01:03:03,230

developments his reaction is wow this is

1419

01:03:07,300 --> 01:03:04,550

something that we ought to be putting to

1420

01:03:10,540 --> 01:03:07,310

good use I'm in this battle so him right

1421

01:03:13,570 --> 01:03:10,550

now as commander in chief allegedly sent

1422

01:03:15,910 --> 01:03:13,580

one of these over there correct which by

1423

01:03:17,620 --> 01:03:15,920

the way we could do the math but as you

1424

01:03:19,390 --> 01:03:17,630

point out it could get there pretty darn

1425

01:03:23,950 --> 01:03:19,400

quick probably in about what five

1426

01:03:25,809 --> 01:03:23,960

minutes right so he commands commander

1427

01:03:28,930 --> 01:03:25,819

in chief the military to send one

1428

01:03:32,199 --> 01:03:28,940

these over to display millet US military

1429

01:03:35,650 --> 01:03:32,209

might to Kim I'm fantastical story but

1430

01:03:37,799 --> 01:03:35,660

yeah well I it's okay that's fine it's

1431

01:03:41,199 --> 01:03:37,809

part of the texture part of the fabric

1432

01:03:43,689 --> 01:03:41,209

but this this technology and the point

1433

01:03:44,799 --> 01:03:43,699

is mr. burr suggests that it's been

1434

01:03:47,759 --> 01:03:44,809

around for twenty years

1435

01:03:51,309 --> 01:03:47,769

this story from the Navy occurred in

1436

01:03:53,439 --> 01:03:51,319

2004 for just for openers since that

1437

01:03:56,380 --> 01:03:53,449

time according to what you're saying you

1438

01:03:59,170 --> 01:03:56,390

feel that these crafts are cloaked

1439

01:04:03,719 --> 01:03:59,180

they're not seen except by this new

1440

01:04:07,150 --> 01:04:03,729

radar perhaps I still think that the

1441

01:04:11,529 --> 01:04:07,160

military application of something like

1442

01:04:14,769 --> 01:04:11,539

this is so overwhelming twenty four

1443

01:04:17,829 --> 01:04:14,779

thousand miles an hour that's far faster

1444

01:04:21,849 --> 01:04:17,839

than the Russians best hypersonic cruise

1445

01:04:24,519 --> 01:04:21,859

missiles or missiles all of a sudden you

1446

01:04:28,390 --> 01:04:24,529

have the ultimate takedown intercept

1447

01:04:30,279 --> 01:04:28,400

weapon surface-to-air or whatever so

1448

01:04:34,559 --> 01:04:30,289

everything that everything changes

1449

01:04:36,849 --> 01:04:34,569

everything changes nothing is the same

1450

01:04:38,380 --> 01:04:36,859

yeah now what turbo says is they don't

1451

01:04:42,489 --> 01:04:38,390

have the technology yet for them to

1452

01:04:44,829 --> 01:04:42,499

carry weapons on the exterior of the

1453

01:04:46,449 --> 01:04:44,839

craft or to fire them from the craft

1454

01:04:49,660 --> 01:04:46,459

because of perhaps that would disturb

1455

01:04:52,209 --> 01:04:49,670

vacuum but it certainly seems to me but

1456

01:04:54,519 --> 01:04:52,219

if they're drones like you say yeah you

1457

01:04:56,709 --> 01:04:54,529

just steer the drone into any incoming

1458

01:04:59,259 --> 01:04:56,719

get problem you want to erase and it's

1459

01:05:03,069 --> 01:04:59,269

gone right right yeah you just blow it

1460

01:05:05,349 --> 01:05:03,079

up now but you know does it how would it

1461

01:05:07,089 --> 01:05:05,359

target well certainly yeah it could

1462

01:05:08,979 --> 01:05:07,099

target items on land through some type

1463

01:05:11,680 --> 01:05:08,989

of GPS technology I don't think it could

1464

01:05:12,849 --> 01:05:11,690

shoot things down because usually we're

1465

01:05:15,849 --> 01:05:12,859

shooting things down through some type

1466

01:05:18,039 --> 01:05:15,859

of heat technology right but but

1467

01:05:21,339 --> 01:05:18,049

certainly as far as yes delivering a

1468

01:05:24,059 --> 01:05:21,349

nuclear bomb very very quickly you would

1469

01:05:27,609 --> 01:05:24,069

think yes they could certainly do that I

1470

01:05:31,029 --> 01:05:27,619

would say why i passing an incoming

1471

01:05:33,219 --> 01:05:31,039

anything at 24,000 miles an hour fifty

1472

01:05:37,509 --> 01:05:33,229

feet away from it would shall we say

1473

01:05:39,340 --> 01:05:37,519

destabilize it just a little any now I

1474

01:05:43,870 --> 01:05:39,350

don't know exactly how many of the

1475

01:05:46,660 --> 01:05:43,880

we have turbo says it's a turbo claimed

1476

01:05:50,320 --> 01:05:46,670

that that particular day there was I

1477

01:05:52,090 --> 01:05:50,330

believe between 14 and 20 that were

1478

01:05:55,240 --> 01:05:52,100

being flown around on that particular

1479

01:05:57,490 --> 01:05:55,250

day well the Navy says that that's that

1480

01:05:59,770 --> 01:05:57,500

that does lockup and you you know this

1481

01:06:01,960 --> 01:05:59,780

what the Navy says off the East Coast

1482

01:06:03,820 --> 01:06:01,970

they've seen scores of them they see

1483

01:06:07,170 --> 01:06:03,830

them all they say they we see them often

1484

01:06:12,330 --> 01:06:07,180

they're they're they're unidentified and

1485

01:06:15,220 --> 01:06:12,340

now the Navy's filed patents for them

1486

01:06:16,180 --> 01:06:15,230

yep yep people should definitely look at

1487

01:06:18,250 --> 01:06:16,190

these patents therefore they're

1488

01:06:20,140 --> 01:06:18,260

fascinating patents but it is it's kind

1489

01:06:21,790 --> 01:06:20,150

of an odd it's an odd twist and a couple

1490

01:06:24,790 --> 01:06:21,800

respects you know why are the patents

1491

01:06:26,800 --> 01:06:24,800

being issued now in just having been

1492

01:06:29,230 --> 01:06:26,810

filed for two years ago when this

1493

01:06:31,810 --> 01:06:29,240

technology yeah it has been around since

1494

01:06:33,610 --> 01:06:31,820

since so for can you imagine how angry

1495

01:06:35,920 --> 01:06:33,620

the Navy would be and I've always viewed

1496

01:06:37,750 --> 01:06:35,930

the Navy as as number one if the Air

1497

01:06:40,090 --> 01:06:37,760

Force had been hiding this from them for

1498

01:06:42,900 --> 01:06:40,100

20 years which is I think the general

1499

01:06:47,350 --> 01:06:42,910

story that was painted by mr. Tovar

1500

01:06:48,760 --> 01:06:47,360

maybe didn't know until yeah the left

1501

01:06:50,080 --> 01:06:48,770

hand is possible what team didn't know

1502

01:06:52,630 --> 01:06:50,090

what the right hand was doing but but it

1503

01:06:57,760 --> 01:06:52,640

was being it ended up being developed by

1504

01:07:02,200 --> 01:06:57,770

both sides by Arthur or was there some

1505

01:07:03,940 --> 01:07:02,210

some cooperation just I got to think

1506

01:07:06,010 --> 01:07:03,950

that yeah I got to think there had been

1507

01:07:08,860 --> 01:07:06,020

a cooperation

1508

01:07:10,900 --> 01:07:08,870

but you know the way patents work is

1509

01:07:15,280 --> 01:07:10,910

you've got a patent something with one

1510

01:07:18,190 --> 01:07:15,290

within one year of discovery and so I'm

1511

01:07:20,680 --> 01:07:18,200

telling right now if the air for excuse

1512

01:07:24,010 --> 01:07:20,690

me but if the Air Force had a patent on

1513

01:07:27,460 --> 01:07:24,020

this a the Navy would know about it

1514

01:07:28,810 --> 01:07:27,470

immediately and be the Navy we go to the

1515

01:07:33,720 --> 01:07:28,820

Air Force say what the hell are you

1516

01:07:37,690 --> 01:07:33,730

people doing we need to share now

1517

01:07:39,370 --> 01:07:37,700

because the Navy is ultimately on top of

1518

01:07:41,860 --> 01:07:39,380

the game no matter where you look it's

1519

01:07:44,200 --> 01:07:41,870

the Navy the Navy the Navy the navies in

1520

01:07:47,350 --> 01:07:44,210

space and navies on the land the navies

1521

01:07:50,130 --> 01:07:47,360

and the sea the Air Force to hold

1522

01:07:53,210 --> 01:07:50,140

something away from the Navy like this

1523

01:07:55,350 --> 01:07:53,220

I don't I just don't see it yeah it

1524

01:07:57,570 --> 01:07:55,360

maybe it was only shared at the highest

1525

01:07:59,280 --> 01:07:57,580

levels and that's what turbo says as far

1526

01:08:03,000 --> 01:07:59,290

as the 2004 incident that the Navy

1527

01:08:04,710 --> 01:08:03,010

commanders were knowledgeable so that so

1528

01:08:07,320 --> 01:08:04,720

that's telling you right there that back

1529

01:08:10,140 --> 01:08:07,330

as early as 2004 the Navy was aware of

1530

01:08:14,940 --> 01:08:10,150

it so this isn't this is a whopping

1531

01:08:17,520 --> 01:08:14,950

story from mr. turbo who in my view to

1532

01:08:19,200 --> 01:08:17,530

have been involved so intimately with

1533

01:08:22,050 --> 01:08:19,210

the Las Vegas issue he said he was

1534

01:08:24,599 --> 01:08:22,060

evolved with victims maybe he was sent

1535

01:08:26,849 --> 01:08:24,609

there to become involved with victims to

1536

01:08:29,790 --> 01:08:26,859

find out what they knew maybe he was

1537

01:08:32,370 --> 01:08:29,800

doing what he was supposed to do I don't

1538

01:08:34,740 --> 01:08:32,380

know but once you're in the Intel

1539

01:08:37,349 --> 01:08:34,750

community you're always in the Intel

1540

01:08:41,760 --> 01:08:37,359

communities like the CIA same as with a

1541

01:08:45,210 --> 01:08:41,770

mafia you never really ex totally ex-cia

1542

01:08:48,240 --> 01:08:45,220

you got national security issues you got

1543

01:08:50,849 --> 01:08:48,250

security clearances you've got anyway

1544

01:08:54,000 --> 01:08:50,859

it's a it's a sticky mess you don't just

1545

01:08:57,200 --> 01:08:54,010

walk away fancy-free this guy's invited

1546

01:09:00,570 --> 01:08:57,210

my take mr. turbos involved with this

1547

01:09:02,970 --> 01:09:00,580

not as a random citizen which it sounds

1548

01:09:06,630 --> 01:09:02,980

like he would like us to think is the

1549

01:09:10,530 --> 01:09:06,640

case but to get if he really did hint he

1550

01:09:13,710 --> 01:09:10,540

was on a tic-tac I would just ask if

1551  
01:09:16,380 --> 01:09:13,720  
Donald Trump or for instance Ivanka or

1552  
01:09:19,220 --> 01:09:16,390  
Jerry Krishna had been on a tic-tac

1553  
01:09:24,810 --> 01:09:19,230  
I would think that they'd want a ride

1554  
01:09:29,480 --> 01:09:24,820  
etc crazy times Jim huh hold on I'll be

1555  
01:09:32,099 --> 01:09:29,490  
back okay Jim this is the story as a

1556  
01:09:34,560 --> 01:09:32,109  
professional journalist broadcast

1557  
01:09:35,910 --> 01:09:34,570  
journalist what do you think about it

1558  
01:09:37,140 --> 01:09:35,920  
right now I don't mean to get you in

1559  
01:09:40,500 --> 01:09:37,150  
trouble with your guests or anything

1560  
01:09:42,510 --> 01:09:40,510  
like that how I don't know I didn't hear

1561  
01:09:46,500 --> 01:09:42,520  
it I'm just going on what you have been

1562  
01:09:48,900 --> 01:09:46,510  
very excellent in describing and

1563  
01:09:51,480 --> 01:09:48,910

offering up here I'm drawing my

1564

01:09:54,570 --> 01:09:51,490

conclusions from that such as they are

1565

01:09:56,640 --> 01:09:54,580

which is they're not locked away I'm

1566

01:09:58,380 --> 01:09:56,650

still open-minded on this to a very

1567

01:10:00,690 --> 01:09:58,390

large degree but what are your thoughts

1568

01:10:02,820 --> 01:10:00,700

what do you think well that's a great

1569

01:10:03,310 --> 01:10:02,830

question I can I like to call myself

1570

01:10:06,700 --> 01:10:03,320

that

1571

01:10:09,760 --> 01:10:06,710

open-minded skeptic and I'm usually very

1572

01:10:12,459 --> 01:10:09,770

skeptical these things so I found myself

1573

01:10:14,260 --> 01:10:12,469

afterwards thinking about wow the most

1574

01:10:18,550 --> 01:10:14,270

surprising thing about all this is that

1575

01:10:20,140 --> 01:10:18,560

I think I believe this guy so if you'd

1576

01:10:21,550 --> 01:10:20,150

said to me going into the interview

1577

01:10:22,870 --> 01:10:21,560

whether I was gonna believe him or not I

1578

01:10:24,430 --> 01:10:22,880

would have been betting that I was gonna

1579

01:10:26,589 --> 01:10:24,440

come out of it not believing him today

1580

01:10:29,470 --> 01:10:26,599

but I came out believing and I think the

1581

01:10:32,770 --> 01:10:29,480

high level the primary reason that I

1582

01:10:34,780 --> 01:10:32,780

believe them is that the Navy has in

1583

01:10:37,540 --> 01:10:34,790

fact confirmed that this video that's

1584

01:10:38,979 --> 01:10:37,550

been originally leaked by that to the

1585

01:10:41,020 --> 01:10:38,989

Stars Academy which might be worth

1586

01:10:42,760 --> 01:10:41,030

talking about them a little bit but

1587

01:10:44,589 --> 01:10:42,770

originally leaked by them you know the

1588

01:10:46,930 --> 01:10:44,599

Navy is now officially confirmed it as

1589

01:10:49,390 --> 01:10:46,940

we've discussed and so that yes our

1590

01:10:50,919 --> 01:10:49,400

pilots did encounter something and in

1591

01:10:53,319 --> 01:10:50,929

those plants have all been on record now

1592

01:10:55,149 --> 01:10:53,329

saying that so so there's something so

1593

01:10:57,609 --> 01:10:55,159

now the only question in my view is okay

1594

01:10:59,979 --> 01:10:57,619

is that something earthly or is it

1595

01:11:02,669 --> 01:10:59,989

extraterrestrial and we also have

1596

01:11:05,020 --> 01:11:02,679

remember this planets were green-lighted

1597

01:11:08,129 --> 01:11:05,030

to make those statements and to go on

1598

01:11:10,540 --> 01:11:08,139

those talk shows or they never wouldn't

1599

01:11:12,339 --> 01:11:10,550

so yeah is that earthly as an

1600

01:11:14,740 --> 01:11:12,349

extraterrestrial when I read this Navy

1601  
01:11:17,620 --> 01:11:14,750  
patents and see that the technology

1602  
01:11:20,140 --> 01:11:17,630  
exists or certainly the concepts exist

1603  
01:11:22,899 --> 01:11:20,150  
it's it's far easier for me to believe

1604  
01:11:26,260 --> 01:11:22,909  
that these things are earthly the next

1605  
01:11:28,419 --> 01:11:26,270  
return so that you know so for that

1606  
01:11:30,550 --> 01:11:28,429  
reason I believe tur bird now you could

1607  
01:11:31,899 --> 01:11:30,560  
then go the further about okay what

1608  
01:11:36,760 --> 01:11:31,909  
about him riding and claiming that he

1609  
01:11:38,530 --> 01:11:36,770  
hinting that he rode in one you know I

1610  
01:11:40,180 --> 01:11:38,540  
just don't see what that I don't think

1611  
01:11:42,100 --> 01:11:40,190  
it adds that much to the story in fact

1612  
01:11:43,780 --> 01:11:42,110  
he really didn't want he was careful

1613  
01:11:45,580 --> 01:11:43,790

with me he said look Jim I don't want

1614

01:11:46,839 --> 01:11:45,590

that to be the story that comes out of

1615

01:11:48,160 --> 01:11:46,849

this interview because then the whole

1616

01:11:48,459 --> 01:11:48,170

debate is going to be about whether or

1617

01:11:50,530 --> 01:11:48,469

not

1618

01:11:52,030 --> 01:11:50,540

Thurber's full you know what that he

1619

01:11:54,189 --> 01:11:52,040

wrote in this thing or not I want the

1620

01:11:54,939 --> 01:11:54,199

story to be out as to what these things

1621

01:11:56,709 --> 01:11:54,949

are

1622

01:11:59,800 --> 01:11:56,719

he says he doesn't think it's fair that

1623

01:12:03,370 --> 01:11:59,810

the pilots haven't been clued in on on

1624

01:12:05,350 --> 01:12:03,380

what they are you know and so he didn't

1625

01:12:08,229 --> 01:12:05,360

want that to be part of the story and I

1626

01:12:11,350 --> 01:12:08,239

just don't see how it helps turbo to

1627

01:12:14,830 --> 01:12:11,360

make that to hint that he was in one so

1628

01:12:16,660 --> 01:12:14,840

that's an aversion that I yeah turbo is

1629

01:12:23,410 --> 01:12:16,670

very

1630

01:12:25,209 --> 01:12:23,420

somehow there's no chance he would go

1631

01:12:27,399 --> 01:12:25,219

for a ride in one of those or even hint

1632

01:12:30,850 --> 01:12:27,409

why why would he even bother hinting

1633

01:12:34,600 --> 01:12:30,860

about it yeah Incredibles much more

1634

01:12:37,290 --> 01:12:34,610

about this man then I think he revealed

1635

01:12:39,970 --> 01:12:37,300

by a mile

1636

01:12:42,820 --> 01:12:39,980

I'm not saying he's necessarily a

1637

01:12:46,990 --> 01:12:42,830

professional disinfo agent but I've run

1638

01:12:50,140 --> 01:12:47,000

across many many people like mr. turbit

1639

01:12:53,470 --> 01:12:50,150

who are incredibly articulate obviously

1640

01:12:55,300 --> 01:12:53,480

a very intelligent wise and gifted in

1641

01:12:58,720 --> 01:12:55,310

whatever field they're talking about and

1642

01:13:02,140 --> 01:12:58,730

and eminently believable and in many

1643

01:13:04,390 --> 01:13:02,150

cases it turns out that yeah they told

1644

01:13:06,820 --> 01:13:04,400

the truth but they did it for the wrong

1645

01:13:09,100 --> 01:13:06,830

reasons they were trying to influence

1646

01:13:11,859 --> 01:13:09,110

public opinion they were doing a job

1647

01:13:14,200 --> 01:13:11,869

they were working the crowd all right I

1648

01:13:16,600 --> 01:13:14,210

don't I don't know that that's true I'm

1649

01:13:18,760 --> 01:13:16,610

just saying that yes I've heard

1650

01:13:23,680 --> 01:13:18,770

wonderfully believable people who turned

1651  
01:13:27,459 --> 01:13:23,690  
out to be a little disingenuous at times

1652  
01:13:29,609 --> 01:13:27,469  
shall we say well he certainly would say

1653  
01:13:32,050 --> 01:13:29,619  
that he feels he's working on behalf of

1654  
01:13:33,700 --> 01:13:32,060  
Department of Defense that he has been

1655  
01:13:36,970 --> 01:13:33,710  
given the green earth Khan be happy

1656  
01:13:39,189 --> 01:13:36,980  
about you work for the DoD and DARPA you

1657  
01:13:41,680 --> 01:13:39,199  
don't you don't just kind of volunteer

1658  
01:13:45,700 --> 01:13:41,690  
your time and and get to go on a tic-tac

1659  
01:13:48,459 --> 01:13:45,710  
ride didn't happen you get paid

1660  
01:13:51,609 --> 01:13:48,469  
you're either entity or out and I think

1661  
01:13:53,290 --> 01:13:51,619  
the guys in it so I think so too

1662  
01:13:54,879 --> 01:13:53,300  
what's interesting and I'm really

1663  
01:13:55,959 --> 01:13:54,889

looking for it as I said talking to

1664

01:13:59,379 --> 01:13:55,969

these guys that have been writing these

1665

01:14:01,600 --> 01:13:59,389

articles on the drive but Tyler rogue

1666

01:14:04,270 --> 01:14:01,610

away who I believe I'm interviewing on

1667

01:14:05,560 --> 01:14:04,280

Monday he in an email

1668

01:14:09,669 --> 01:14:05,570

I think he's listened to the interview

1669

01:14:11,979 --> 01:14:09,679

and he called him hawkster so this guy I

1670

01:14:13,660 --> 01:14:11,989

haven't heard it and I you know if I had

1671

01:14:17,109 --> 01:14:13,670

the time I would certainly sit down and

1672

01:14:19,750 --> 01:14:17,119

do that I don't know if huckster is the

1673

01:14:22,419 --> 01:14:19,760

right word but I think he's I think I

1674

01:14:24,070 --> 01:14:22,429

think he's doing a job I think he's on

1675

01:14:25,810 --> 01:14:24,080

assignment I think this is what he's

1676

01:14:28,089 --> 01:14:25,820

supposed to do I think he very well

1677

01:14:30,100 --> 01:14:28,099

might have been sent to Las Vegas to

1678

01:14:32,260 --> 01:14:30,110

penetrate the survivor community

1679

01:14:34,300 --> 01:14:32,270

and do research and collect data and

1680

01:14:36,130 --> 01:14:34,310

find out what they knew how much did

1681

01:14:38,760 --> 01:14:36,140

they see remember there were six or

1682

01:14:41,080 --> 01:14:38,770

seven people killed who saw too much

1683

01:14:44,230 --> 01:14:41,090

that's our view oh you're talking about

1684

01:14:46,900 --> 01:14:44,240

after the incident correct yeah yeah

1685

01:14:48,780 --> 01:14:46,910

they were on line two one woman in Apple

1686

01:14:52,630 --> 01:14:48,790

Valley who wanted to start a national

1687

01:14:54,400 --> 01:14:52,640

blog for all survivors so they could put

1688

01:14:56,980 --> 01:14:54,410

their information up and share what they

1689

01:14:58,480 --> 01:14:56,990

saw and the government didn't want that

1690

01:15:01,780 --> 01:14:58,490

so she's dead

1691

01:15:03,640 --> 01:15:01,790

yeah well under your theory then he

1692

01:15:06,670 --> 01:15:03,650

would have been a part of this cover-up

1693

01:15:08,950 --> 01:15:06,680

because again I can tell you that

1694

01:15:12,100 --> 01:15:08,960

whenever he's on my show talking about

1695

01:15:17,920 --> 01:15:12,110

the Las Vegas shooting he's believing in

1696

01:15:20,130 --> 01:15:17,930

the one shooter deranged theory so not

1697

01:15:26,800 --> 01:15:20,140

not after 35 plus years in this business

1698

01:15:30,670 --> 01:15:26,810

not chance that's just me then he's part

1699

01:15:35,290 --> 01:15:30,680

of disinformation Prettyman okay he's

1700

01:15:37,930 --> 01:15:35,300

just it just is and that's okay he's

1701

01:15:39,580 --> 01:15:37,940

doing a job it's how it's how the

1702

01:15:42,430 --> 01:15:39,590

narrative is run with people like that

1703

01:15:45,550 --> 01:15:42,440

you would say me son what you've heard

1704

01:15:49,270 --> 01:15:45,560

that he's doing a job here but you don't

1705

01:15:52,570 --> 01:15:49,280

necessarily disbelieve what what this is

1706

01:15:57,130 --> 01:15:52,580

and and the primary is counting the

1707

01:16:02,110 --> 01:15:57,140

phenomena at all no they can be real

1708

01:16:06,190 --> 01:16:02,120

sure yeah but but again breakthroughs

1709

01:16:10,180 --> 01:16:06,200

like this were achieved in the 1930s by

1710

01:16:14,800 --> 01:16:10,190

German scientists who built UFO discs

1711

01:16:16,660 --> 01:16:14,810

that were flying I've got it I put a

1712

01:16:18,400 --> 01:16:16,670

video up showing the whole thing I got

1713

01:16:21,580 --> 01:16:18,410

two pieces of black-and-white footage

1714

01:16:24,940 --> 01:16:21,590

showing two different kinds of German

1715

01:16:28,270 --> 01:16:24,950

flying discs and I have dozens of still

1716

01:16:29,230 --> 01:16:28,280

pictures u1 up with the technology what

1717

01:16:30,850 --> 01:16:29,240

was the technology that they were

1718

01:16:34,620 --> 01:16:30,860

supposedly employing and that mean it

1719

01:16:41,230 --> 01:16:38,620

German another German genius and he had

1720

01:16:43,390 --> 01:16:41,240

a he had a theory about how the planet

1721

01:16:46,120 --> 01:16:43,400

and how energy and grab

1722

01:16:46,930 --> 01:16:46,130

potato fields worked and if you dialed

1723

01:16:49,090 --> 01:16:46,940

it in right

1724

01:16:50,950 --> 01:16:49,100

you could go along for the ride and you

1725

01:16:53,950 --> 01:16:50,960

could control your vector your speed

1726

01:16:59,710 --> 01:16:53,960

your altitude there was some kind of a

1727

01:17:02,500 --> 01:16:59,720

an energetic physics field around the

1728

01:17:04,150 --> 01:17:02,510

planet and these craft interact with it

1729

01:17:06,340 --> 01:17:04,160

it's kind of like the zero point out

1730

01:17:07,930 --> 01:17:06,350

there there's nothing out there right no

1731

01:17:10,750 --> 01:17:07,940

there's a lot of stuff out there and

1732

01:17:13,750 --> 01:17:10,760

that's energetic potential in the raw

1733

01:17:16,030 --> 01:17:13,760

and if you can tap into it there's no

1734

01:17:17,590 --> 01:17:16,040

end of what you can do the Tic Tacs from

1735

01:17:21,040 --> 01:17:17,600

what you said work on a different

1736

01:17:23,290 --> 01:17:21,050

principle have you seen all the material

1737

01:17:25,480 --> 01:17:23,300

I just alluded to there I'll send you a

1738

01:17:27,970 --> 01:17:25,490

link it send me your email make sure I

1739

01:17:31,330 --> 01:17:27,980

have it I can get it I'll send you the

1740

01:17:33,190 --> 01:17:31,340

video you need to see this yes certainly

1741

01:17:35,800 --> 01:17:33,200

I survived red is that this thing is

1742

01:17:38,470 --> 01:17:35,810

exploiting the laws of physics and not

1743

01:17:40,930 --> 01:17:38,480

defying the laws of physics and that all

1744

01:17:42,430 --> 01:17:40,940

this is perfectly explainable and

1745

01:17:48,400 --> 01:17:42,440

there's been papers going back as you

1746

01:17:51,070 --> 01:17:48,410

point out some reason yeah so yeah I

1747

01:17:52,900 --> 01:17:51,080

think that the scientists were to look

1748

01:17:54,730 --> 01:17:52,910

at this most of them would say yeah

1749

01:17:56,770 --> 01:17:54,740

that's possible but I think they would

1750

01:17:58,540 --> 01:17:56,780

say and also in my research and found a

1751

01:18:00,490 --> 01:17:58,550

lot of scientists thing but it hasn't

1752

01:18:02,950 --> 01:18:00,500

been done yet that it would be a huge

1753

01:18:05,590 --> 01:18:02,960

feat to pull this off so while the

1754

01:18:07,210 --> 01:18:05,600

theories are out there the execution is

1755

01:18:11,040 --> 01:18:07,220

not there and that were not close to the

1756

01:18:13,930 --> 01:18:11,050

execution of it but not according to

1757

01:18:16,780 --> 01:18:13,940

turbo and not according to what you're

1758

01:18:20,950 --> 01:18:16,790

saying young reported to the best this

1759

01:18:24,250 --> 01:18:20,960

this has been done Jim in a long time

1760

01:18:27,910 --> 01:18:24,260

ago in the 1930s by the Germans they had

1761

01:18:30,040 --> 01:18:27,920

the SS had their own program of advanced

1762

01:18:32,830 --> 01:18:30,050

science and then there was a call of the

1763

01:18:35,230 --> 01:18:32,840

public sector with some women who were

1764

01:18:38,980 --> 01:18:35,240

channeling information I know that

1765

01:18:42,370 --> 01:18:38,990

sounds kooky but they were maria orsic

1766

01:18:45,970 --> 01:18:42,380

was leader Oh are si si lookout maria

1767

01:18:48,640 --> 01:18:45,980

orsic her group was building them the SS

1768

01:18:51,970 --> 01:18:48,650

was building them Hana boobcraft is what

1769

01:18:55,240 --> 01:18:51,980

they were called I will I'll send you

1770

01:18:56,930 --> 01:18:55,250

the video it's up on my youtube channel

1771

01:18:59,600 --> 01:18:56,940

and many of you listening have already

1772

01:19:01,910 --> 01:18:59,610

seen it it's there now there are two

1773

01:19:05,450 --> 01:19:01,920

pieces of black-and-white film showing

1774

01:19:09,500 --> 01:19:05,460

two different craft flying in the 1930s

1775

01:19:11,860 --> 01:19:09,510

late 30s so is it your theory that all

1776

01:19:16,760 --> 01:19:11,870

UFO sightings are theoretically

1777

01:19:18,770 --> 01:19:16,770

terrestrial no it's a mix that's my view

1778

01:19:20,900 --> 01:19:18,780

we're being visited by any number of

1779

01:19:25,010 --> 01:19:20,910

intelligent half-a-dozen primary

1780

01:19:27,050 --> 01:19:25,020

visitors are here we've we look I came

1781

01:19:29,810 --> 01:19:27,060

across a story the other day and I just

1782

01:19:33,110 --> 01:19:29,820

put up a video about that another video

1783

01:19:35,360 --> 01:19:33,120

a news story in the news last night and

1784

01:19:40,010 --> 01:19:35,370

it had to do with the craft that came up

1785

01:19:42,740 --> 01:19:40,020

out of Lake gun this is 1992 Jim 1992

1786

01:19:45,410 --> 01:19:42,750

came up out of a lake 8 a.m. in the

1787

01:19:48,500 --> 01:19:45,420

morning was wobbling obviously in

1788

01:19:52,360 --> 01:19:48,510

trouble worked its way over came down

1789

01:19:55,729 --> 01:19:52,370

and landed crash-landed on a highway to

1790

01:19:58,450 --> 01:19:55,739

270 in New York to 40 at one of the

1791

01:20:01,400 --> 01:19:58,460

highways at 8 a.m. and rush-hour traffic

1792

01:20:02,450 --> 01:20:01,410

and then landed right on the road 100

1793

01:20:07,459 --> 01:20:02,460

feet in diameter

1794

01:20:10,810 --> 01:20:07,469

25 feet thick all news of that event was

1795

01:20:13,070 --> 01:20:10,820

quashed how because they can do that

1796

01:20:15,200 --> 01:20:13,080

nobody talks about it they were all

1797

01:20:17,840 --> 01:20:15,210

warned everybody shut up

1798

01:20:20,420 --> 01:20:17,850

the craft was trucked away put into a

1799

01:20:22,910 --> 01:20:20,430

big warehouse obviously cut up and moved

1800

01:20:25,130 --> 01:20:22,920

away maybe the right Pat we don't know

1801

01:20:30,050 --> 01:20:25,140

where it is but this thing imagine a

1802

01:20:32,270 --> 01:20:30,060

hundred-foot disc piloted by ETS lands

1803

01:20:34,850 --> 01:20:32,280

at 8 o'clock in the morning on a very

1804

01:20:37,910 --> 01:20:34,860

busy highway in a New York City town

1805

01:20:39,260 --> 01:20:37,920

near Lake Ontario it was called why

1806

01:20:44,090 --> 01:20:39,270

would it would it be more likely to be a

1807

01:20:49,250 --> 01:20:44,100

drone than have et's on board no no no

1808

01:20:52,820 --> 01:20:49,260

this craft was too big hundred feet yeah

1809

01:20:54,620 --> 01:20:52,830

but allegedly actually recently there

1810

01:20:57,560 --> 01:20:54,630

were hundreds and hundreds of witnesses

1811

01:20:59,780 --> 01:20:57,570

and you can find this story which I did

1812

01:21:01,850 --> 01:20:59,790

thanks to one of our listeners who sent

1813

01:21:02,540 --> 01:21:01,860

it to me he found it on the wayback

1814

01:21:06,530 --> 01:21:02,550

machine

1815

01:21:10,160 --> 01:21:06,540

April April something in 1992

1816

01:21:12,580 --> 01:21:10,170

and clearly there was a major major

1817

01:21:15,620 --> 01:21:12,590

operation to remove this craft and

1818

01:21:18,020 --> 01:21:15,630

interview everyone and inform everyone

1819

01:21:21,500 --> 01:21:18,030

that this event never happened

1820

01:21:23,930 --> 01:21:21,510

and they can do that it's not hard to

1821

01:21:26,150 --> 01:21:23,940

scare people and threaten them and get

1822

01:21:28,190 --> 01:21:26,160

them to be totally compliant everyone

1823

01:21:29,750 --> 01:21:28,200

loves their children their families they

1824

01:21:32,600 --> 01:21:29,760

don't want to lose them this is a

1825

01:21:34,760 --> 01:21:32,610

standard operating procedure no the

1826

01:21:37,940 --> 01:21:34,770

extraterrestrial craft that has visited

1827

01:21:40,910 --> 01:21:37,950

us is coming from where and how is it

1828

01:21:42,740 --> 01:21:40,920

getting here by getting here through

1829

01:21:44,690 --> 01:21:42,750

advanced physics like the physics that

1830

01:21:47,120 --> 01:21:44,700

are advanced to propel the tic-tac

1831

01:21:49,670 --> 01:21:47,130

tic-tac tech but it's far beyond that

1832

01:21:52,400 --> 01:21:49,680

we're going to come over from that but

1833

01:21:55,610 --> 01:21:52,410

potentially through wormholes in this

1834

01:21:58,010 --> 01:21:55,620

galaxy most likely in this galaxy there

1835

01:22:00,440 --> 01:21:58,020

are something like what the hell is it a

1836

01:22:03,770 --> 01:22:00,450

hundred billion planets in this galaxy

1837

01:22:08,090 --> 01:22:03,780

that our earth like and appear to

1838

01:22:10,160 --> 01:22:08,100

potentially be able to sustain life so I

1839

01:22:12,770 --> 01:22:10,170

mean is to think we're the only game in

1840

01:22:15,080 --> 01:22:12,780

town is is so primitive it's

1841

01:22:17,300 --> 01:22:15,090

embarrassing I know I'm

1842

01:22:18,800 --> 01:22:17,310

trust me I'm a firm believer that there

1843

01:22:20,000 --> 01:22:18,810

clearly is life out there don't like

1844

01:22:23,330 --> 01:22:20,010

there's any question about that just

1845

01:22:27,680 --> 01:22:23,340

based on the numbers visiting us it's

1846

01:22:29,930 --> 01:22:27,690

kind of no story not only visit no no no

1847

01:22:32,150 --> 01:22:29,940

don't let distance influence your

1848

01:22:35,120 --> 01:22:32,160

thinking about that that's not the issue

1849

01:22:38,300 --> 01:22:35,130

they have overcome the idea of moving

1850

01:22:40,850 --> 01:22:38,310

long distances in a very short period of

1851

01:22:43,520 --> 01:22:40,860

time there are a thousand years ahead of

1852

01:22:44,390 --> 01:22:43,530

us ten thousand year you choose this

1853

01:22:47,840 --> 01:22:44,400

planet

1854

01:22:51,200 --> 01:22:47,850

Jim is four and a half billion years old

1855

01:22:53,450 --> 01:22:51,210

and if anyone is silly enough to

1856

01:22:56,570 --> 01:22:53,460

think that we are the first intelligent

1857

01:22:59,110 --> 01:22:56,580

hominid life-form to be on this planet

1858

01:23:02,360 --> 01:22:59,120

in four-and-a-half billion years

1859

01:23:05,090 --> 01:23:02,370

well good luck to them that we have

1860

01:23:09,530 --> 01:23:05,100

arisen and killed ourselves off

1861

01:23:11,290 --> 01:23:09,540

destroyed ourselves ie through stupidity

1862

01:23:14,540 --> 01:23:11,300

and greed or we've left the planet

1863

01:23:17,810 --> 01:23:14,550

migrated elsewhere hundreds and hundreds

1864

01:23:20,690 --> 01:23:17,820

maybe thousands of times in four and a

1865

01:23:23,780 --> 01:23:20,700

half billion years

1866

01:23:26,450 --> 01:23:23,790

we're not the first here they found

1867

01:23:29,480 --> 01:23:26,460

stuff in the middle of bituminous coal

1868

01:23:32,870 --> 01:23:29,490

at hundreds of feet deep like a gold

1869

01:23:36,320 --> 01:23:32,880

linked bracelet for a woman full of gold

1870

01:23:37,670 --> 01:23:36,330

links with a little attached what do you

1871

01:23:40,790 --> 01:23:37,680

call it when you connect it together

1872

01:23:45,200 --> 01:23:40,800

anyway it's a bracelet they found things

1873

01:23:49,460 --> 01:23:45,210

that are 1 billion years old or older in

1874

01:23:54,410 --> 01:23:49,470

South Africa that have perfectly their

1875

01:23:56,960 --> 01:23:54,420

spheres they have perfectly grooved

1876

01:24:00,140 --> 01:23:56,970

lines around them 3 like the Tropic of

1877

01:24:03,710 --> 01:24:00,150

Capricorn cancer and the equator spheres

1878

01:24:06,590 --> 01:24:03,720

different size perfect the book you want

1879

01:24:12,350 --> 01:24:06,600

to see the hidden history of the human

1880

01:24:14,300 --> 01:24:12,360

race by Michael Cremona MO cream oh he

1881

01:24:16,010 --> 01:24:14,310

brings a lot of these anomalies forward

1882

01:24:19,220 --> 01:24:16,020

that are hidden from the public with

1883

01:24:23,450 --> 01:24:19,230

these ancient lives look like today's

1884

01:24:26,060 --> 01:24:23,460

humans sure they're big summer we found

1885

01:24:28,340 --> 01:24:26,070

skeletons of giants some were 20 feet

1886

01:24:31,460 --> 01:24:28,350

tall that's that particular race some

1887

01:24:36,350 --> 01:24:31,470

could be shorter it is my understanding

1888

01:24:38,810 --> 01:24:36,360

that it walks among us now works with us

1889

01:24:41,960 --> 01:24:38,820

now and has been involved with a

1890

01:24:46,190 --> 01:24:41,970

hybridization program for many many

1891

01:24:48,230 --> 01:24:46,200

decades the book by dr. David Jacobs at

1892

01:24:50,990 --> 01:24:48,240

Temple University called the threat is

1893

01:24:53,300 --> 01:24:51,000

another one you want to read very

1894

01:24:56,900 --> 01:24:53,310

interesting book but to think that we're

1895

01:25:01,720 --> 01:24:56,910

the only people here in the universe or

1896

01:25:04,880 --> 01:25:01,730

the galaxy is is really asinine silly

1897

01:25:07,130 --> 01:25:04,890

people life-forms intelligent life can

1898

01:25:10,400 --> 01:25:07,140

take many different forms the tall

1899

01:25:12,680 --> 01:25:10,410

blonds said to look like us the

1900

01:25:14,990 --> 01:25:12,690

reptilians don't look like us

1901

01:25:19,070 --> 01:25:15,000

alright there are many different the

1902

01:25:22,490 --> 01:25:19,080

taxonomy of extraterrestrial life-forms

1903

01:25:25,430 --> 01:25:22,500

is is extensive there are many different

1904

01:25:29,420 --> 01:25:25,440

kinds but the type that look like us can

1905

01:25:31,880 --> 01:25:29,430

pass for us and do and are working with

1906

01:25:34,070 --> 01:25:31,890

us right now in advanced biotechnology

1907

01:25:36,660 --> 01:25:34,080

by own a no technology

1908

01:25:37,950 --> 01:25:36,670

advanced physics they're bringing us

1909

01:25:40,230 --> 01:25:37,960

along slowly

1910

01:25:43,080 --> 01:25:40,240

we haven't made these enormous strides

1911

01:25:46,050 --> 01:25:43,090

in the last 50 60 years on our own we've

1912

01:25:48,900 --> 01:25:46,060

had help not that we couldn't eventually

1913

01:25:52,740 --> 01:25:48,910

do it but the explosion and the growth

1914

01:25:55,230 --> 01:25:52,750

is mind-boggling anyway these are just

1915

01:25:57,330 --> 01:25:55,240

things that I'm putting out there take

1916

01:26:00,450 --> 01:25:57,340

him really that yep no no no it's

1917

01:26:02,370 --> 01:26:00,460

fascinating stuff one other thing I was

1918

01:26:03,900 --> 01:26:02,380

going to bring up was just about the -

1919

01:26:07,950 --> 01:26:03,910

the Stars Academy I don't know how much

1920

01:26:12,870 --> 01:26:07,960

you've been tracking those folks not a

1921

01:26:15,840 --> 01:26:12,880

lot so they recently entered into a

1922

01:26:18,660 --> 01:26:15,850

contract with the army did you hear

1923

01:26:20,910 --> 01:26:18,670

about that at all tell me I think I'm

1924

01:26:24,540 --> 01:26:20,920

like I honestly I've got a cluttered

1925

01:26:26,130 --> 01:26:24,550

mind so it's the two stars Academy these

1926

01:26:31,740 --> 01:26:26,140

are the guys that release the video and

1927

01:26:34,760 --> 01:26:31,750

they've got that guy Alonso if I'm

1928

01:26:37,470 --> 01:26:34,770

getting his name Louis Louis a Lozano

1929

01:26:40,650 --> 01:26:37,480

run yeah I used to run the eighth tip

1930

01:26:42,450 --> 01:26:40,660

program four legs and there was some he

1931

01:26:44,910 --> 01:26:42,460

fell into disfavor for a while now I

1932

01:26:46,950 --> 01:26:44,920

guess he's been rehabilitated yeah the

1933

01:26:49,800 --> 01:26:46,960

Advanced aerospace threat identification

1934

01:26:51,980 --> 01:26:49,810

program right yeah which was funded

1935

01:26:55,860 --> 01:26:51,990

under Harry Reid under some scandalous

1936

01:26:57,630 --> 01:26:55,870

terms and so forth and elizondo's now

1937

01:27:00,810 --> 01:26:57,640

hooked up with the to the Stars Academy

1938

01:27:02,370 --> 01:27:00,820

and then they just announced which I

1939

01:27:05,370 --> 01:27:02,380

found interesting the timing that is so

1940

01:27:10,200 --> 01:27:05,380

recent that they've entered into a

1941

01:27:11,760 --> 01:27:10,210

contract with the US Army will work with

1942

01:27:13,500 --> 01:27:11,770

the Army to characterize technology

1943

01:27:15,810 --> 01:27:13,510

under the organization's control and

1944

01:27:20,550 --> 01:27:15,820

then use the tech to improve military

1945

01:27:22,620 --> 01:27:20,560

vehicles hold on one second let me find

1946

01:27:23,550 --> 01:27:22,630

the it says the government according to

1947

01:27:25,050 --> 01:27:23,560

the contract the government is

1948

01:27:27,270 --> 01:27:25,060

interested in a variety of the

1949

01:27:28,590 --> 01:27:27,280

collaborators technologies that's this

1950

01:27:31,410 --> 01:27:28,600

to the stars can be such as but not

1951

01:27:32,820 --> 01:27:31,420

limited to inertial mass reduction what

1952

01:27:34,560 --> 01:27:32,830

we've been talking about with tic tacs

1953

01:27:36,780 --> 01:27:34,570

and neural mass reduction so here's a

1954

01:27:40,100 --> 01:27:36,790

contract between the Army in these guys

1955

01:27:42,810 --> 01:27:40,110

mechanical structural metamaterials

1956

01:27:45,180 --> 01:27:42,820

electromagnetic metamaterials guides

1957

01:27:48,390 --> 01:27:45,190

quantum physics quantum communications

1958

01:27:50,280 --> 01:27:48,400

and beamed energy propulsion

1959

01:27:52,020 --> 01:27:50,290

the contract entails the research of

1960

01:27:54,080 --> 01:27:52,030

metamaterial exploitation for the

1961

01:27:57,540 --> 01:27:54,090

purposes of active camouflage and

1962

01:27:59,310 --> 01:27:57,550

directed photo projection on the last

1963

01:28:01,020 --> 01:27:59,320

point in army spokesman tells me that

1964

01:28:02,580 --> 01:28:01,030

the two stars academy has conveyed it

1965

01:28:04,880 --> 01:28:02,590

has means of supporting camouflage

1966

01:28:07,260 --> 01:28:04,890

concealment deception in ops or

1967

01:28:11,300 --> 01:28:07,270

obscuration obscuration interests

1968

01:28:15,149 --> 01:28:11,310

obscuration yeah yes thank you

1969

01:28:17,580 --> 01:28:15,159

interesting yeah it is there's a lot of

1970

01:28:18,930 --> 01:28:17,590

interesting stuff going on did you have

1971

01:28:22,290 --> 01:28:18,940

a chance to hear any of the William

1972

01:28:24,899 --> 01:28:22,300

Tompkins interviews no we know you guys

1973

01:28:28,860 --> 01:28:24,909

sent that to me yeah yeah it's a lot of

1974

01:28:32,189 --> 01:28:28,870

stuff but he was a remarkable man 93 94

1975

01:28:35,040 --> 01:28:32,199

years old and never missed a beat never

1976

01:28:37,890 --> 01:28:35,050

missed a beat oh there's another big

1977

01:28:40,680 --> 01:28:37,900

story it's the the the when the Navy

1978

01:28:43,560 --> 01:28:40,690

made the announcement that yes they are

1979

01:28:46,140 --> 01:28:43,570

UFOs yes we see them all the time

1980

01:28:49,410 --> 01:28:46,150

especially off the East Coast in my view

1981

01:28:51,390 --> 01:28:49,420

the cover-up ended that was the end of

1982

01:28:54,120 --> 01:28:51,400

it but they seem to be kind of trying to

1983

01:28:56,220 --> 01:28:54,130

back step on a little bit now I don't

1984

01:28:58,560 --> 01:28:56,230

know I do I think the Air Force kept

1985

01:29:00,290 --> 01:28:58,570

something from the Navy for 20 years not

1986

01:29:03,990 --> 01:29:00,300

a chance

1987

01:29:06,450 --> 01:29:04,000

yeah well again according it sterber

1988

01:29:08,100 --> 01:29:06,460

Navy was a high command was clued in on

1989

01:29:09,840 --> 01:29:08,110

it you know as early as oh four so I

1990

01:29:11,910 --> 01:29:09,850

don't think it was kept at the higher

1991

01:29:15,470 --> 01:29:11,920

levels but yeah I do think it's very odd

1992

01:29:18,209 --> 01:29:15,480

as to why they came forward and

1993

01:29:21,660 --> 01:29:18,219

confirmed these videos and confirmed

1994

01:29:24,990 --> 01:29:21,670

what these pilots saw yet did not

1995

01:29:26,580 --> 01:29:25,000

disclose what they were considering that

1996

01:29:29,729 --> 01:29:26,590

they knew where they were at that time

1997

01:29:32,130 --> 01:29:29,739

and now according to turbo want to start

1998

01:29:35,700 --> 01:29:32,140

leaking this information out to the

1999

01:29:37,050 --> 01:29:35,710

public through kind of slow leaks turbo

2000

01:29:39,720 --> 01:29:37,060

claims he's not the only one who's been

2001  
01:29:42,750 --> 01:29:39,730  
you know given this information and

2002  
01:29:45,689 --> 01:29:42,760  
grant now has instructions to get this

2003  
01:29:47,340 --> 01:29:45,699  
information out there I honestly think

2004  
01:29:50,040 --> 01:29:47,350  
that most Americans would essentially

2005  
01:29:53,430 --> 01:29:50,050  
gone and go back to their football games

2006  
01:29:55,080 --> 01:29:53,440  
or smartphones oh well we knew it'd help

2007  
01:29:57,479 --> 01:29:55,090  
we've been conditioning people since the

2008  
01:29:58,969 --> 01:29:57,489  
1950s that were not alone through

2009  
01:30:01,239 --> 01:29:58,979  
Hollywood so

2010  
01:30:03,949 --> 01:30:01,249  
they're just not going to be shocked

2011  
01:30:06,850 --> 01:30:03,959  
well we've are you saying it was a big

2012  
01:30:09,979 --> 01:30:06,860  
yawn when the video was first released

2013  
01:30:13,060 --> 01:30:09,989

and wasn't even confirmed it I being in

2014

01:30:16,330 --> 01:30:13,070

the news does not involve a trump tweet

2015

01:30:19,549 --> 01:30:16,340

that mainstream media doesn't cover it

2016

01:30:21,350 --> 01:30:19,559

also you know who's gonna cover it you

2017

01:30:24,890 --> 01:30:21,360

yeah yeah yeah

2018

01:30:26,540 --> 01:30:24,900

in my view after all this research over

2019

01:30:29,890 --> 01:30:26,550

all these years talking to all of these

2020

01:30:33,620 --> 01:30:29,900

individuals we are being visited

2021

01:30:36,229 --> 01:30:33,630

constantly we have treaties with some of

2022

01:30:38,989 --> 01:30:36,239

them we have certainly the hybrid

2023

01:30:41,209 --> 01:30:38,999

program I think is quite real there they

2024

01:30:44,180 --> 01:30:41,219

are walking amongst us they are working

2025

01:30:46,879 --> 01:30:44,190

in various sensitive and very highly

2026

01:30:49,810 --> 01:30:46,889

advanced technological labs and programs

2027

01:30:52,459 --> 01:30:49,820

to help bring us along at their pace

2028

01:30:53,930 --> 01:30:52,469

they've got the tech they're giving at

2029

01:30:56,060 --> 01:30:53,940

us and bringing us along slowly

2030

01:30:58,609 --> 01:30:56,070

I think hoping that we'll make rational

2031

01:31:01,029 --> 01:30:58,619

pragmatic decisions and not send nuclear

2032

01:31:03,529 --> 01:31:01,039

weapons into space which would get us

2033

01:31:06,620 --> 01:31:03,539

hit with a flyswatter that's what we

2034

01:31:08,779 --> 01:31:06,630

deserve stupid stupid breaking the atom

2035

01:31:11,419 --> 01:31:08,789

was stupid look what we got with

2036

01:31:15,169 --> 01:31:11,429

Fukushima and now we have an extinction

2037

01:31:19,729 --> 01:31:15,179

event underway it's there's nothing left

2038

01:31:21,439 --> 01:31:19,739

Birds bugs small animals almost gone one

2039

01:31:23,089 --> 01:31:21,449

thing I'd be curious your thoughts on it

2040

01:31:25,129 --> 01:31:23,099

seems to me that this technology works

2041

01:31:26,930 --> 01:31:25,139

extremely well as far as flying within

2042

01:31:28,879 --> 01:31:26,940

the atmosphere but you know once you

2043

01:31:31,520 --> 01:31:28,889

leave the Earth's gravitational pull

2044

01:31:34,489 --> 01:31:31,530

there's a fit to the physics work there

2045

01:31:36,259 --> 01:31:34,499

I don't know well you know the physics

2046

01:31:37,759 --> 01:31:36,269

are mostly about defying gravity so as

2047

01:31:39,830 --> 01:31:37,769

soon as they have in terms of an impact

2048

01:31:43,189 --> 01:31:39,840

you know flown within the atmosphere but

2049

01:31:45,560 --> 01:31:43,199

in space all you already have virtually

2050

01:31:47,509 --> 01:31:45,570

no gravitational pull right so I would

2051  
01:31:50,239 --> 01:31:47,519  
imagine that the technology is not quite

2052  
01:31:51,919 --> 01:31:50,249  
as valuable in space I don't know it's

2053  
01:31:55,160 --> 01:31:51,929  
an interesting it's an interesting

2054  
01:31:59,629 --> 01:31:55,170  
speculation I I don't know maybe mr.

2055  
01:32:01,549 --> 01:31:59,639  
turbo would know I don't know yeah he's

2056  
01:32:04,040 --> 01:32:01,559  
he's clearly one of those who's out

2057  
01:32:06,890 --> 01:32:04,050  
there spreading information and a little

2058  
01:32:09,830 --> 01:32:06,900  
disinformation he's one he's part of the

2059  
01:32:12,419 --> 01:32:09,840  
mechanism okay part of the narration I I

2060  
01:32:14,399 --> 01:32:12,429  
think that that's what he is all about

2061  
01:32:18,270 --> 01:32:14,409  
but this this aspect of being involved

2062  
01:32:19,530 --> 01:32:18,280  
with the Las Vegas massacre that it

2063  
01:32:21,600 --> 01:32:19,540

didn't just happen

2064

01:32:24,270 --> 01:32:21,610

he didn't just decide to drive up there

2065

01:32:28,320 --> 01:32:24,280

and do his own research sorry doesn't

2066

01:32:29,640 --> 01:32:28,330

happen he knows a lot more what's it

2067

01:32:34,260 --> 01:32:29,650

going to take for the mainstream media

2068

01:32:36,450 --> 01:32:34,270

to cover the story the dissolution of

2069

01:32:39,540 --> 01:32:36,460

the stranglehold that six corporations

2070

01:32:42,899 --> 01:32:39,550

have over 95 plus percent of all the

2071

01:32:43,770 --> 01:32:42,909

media period when Clinton deregulated it

2072

01:32:46,200 --> 01:32:43,780

we're gonna have to go back to

2073

01:32:48,720 --> 01:32:46,210

regulation where individual companies

2074

01:32:50,640 --> 01:32:48,730

and corporations thousands of them will

2075

01:32:53,580 --> 01:32:50,650

be able to buy into the radio and

2076  
01:32:55,260 --> 01:32:53,590  
television market again although by then

2077  
01:32:57,750 --> 01:32:55,270  
there won't be any radio on television

2078  
01:33:01,020 --> 01:32:57,760  
left it's because it's all changing so

2079  
01:33:03,930 --> 01:33:01,030  
fast in five years go we're not gonna

2080  
01:33:07,290 --> 01:33:03,940  
have any anything much to say because

2081  
01:33:09,419 --> 01:33:07,300  
it'll be all AI will be the second

2082  
01:33:14,630 --> 01:33:09,429  
ranking sentient intelligence on the

2083  
01:33:17,720 --> 01:33:14,640  
planet AI is coming and nanotech is here

2084  
01:33:20,490 --> 01:33:17,730  
keep that in mind I believe it

2085  
01:33:21,930 --> 01:33:20,500  
thank you for being here great to talk

2086  
01:33:24,810 --> 01:33:21,940  
with you I really appreciate your time

2087  
01:33:26,669 --> 01:33:24,820  
thank you enjoy the job thank you to

2088  
01:33:28,260 --> 01:33:26,679

Jeff rents for having me on his show and

2089

01:33:31,080 --> 01:33:28,270

for allowing us to play the interview on

2090

01:33:34,110 --> 01:33:31,090

our podcast you can catch all of Jeff's

2091

01:33:37,709 --> 01:33:34,120

shows by going to rinse calm that's our

2092

01:33:40,229 --> 01:33:37,719

e n SE e dot-com thank you to Michael

2093

01:33:41,520 --> 01:33:40,239

Parker our producer thank you all for

2094

01:33:45,080 --> 01:33:41,530

listening to the hidden truth show we'll

2095

01:33:47,149 --> 01:33:45,090

be back next week with another episode

2096

01:33:49,109 --> 01:33:47,159

[Music]

2097

01:33:51,689 --> 01:33:49,119

thank you for listening at the hidden

2098

01:33:53,930 --> 01:33:51,699

truth show with Jim Breslow you can find

2099

01:33:56,640 --> 01:33:53,940

us at hidden truths show com

2100

01:34:00,060 --> 01:33:56,650

follow us on Facebook Twitter and

2101

01:34:02,100 --> 01:34:00,070

Instagram a hidden truth show join us

2102

01:34:05,390 --> 01:34:02,110

again next week for another episode of
