HIDDEN TRUTH
WITH JIM BRESLO

1
00:00:00,000 --> 00:00:10,240

[Music]

2
00:00:18,470 --> 00:00:12,530

and you were hoping it goes SpaceX today

3
00:00:21,590 --> 00:00:18,480

for what purpose never telling you where

4
00:00:23,300 --> 00:00:21,600

I'm going again ie left plant 42 came

5
00:00:24,410 --> 00:00:23,310

straight to you and now I'm going to

6
00:00:28,009 --> 00:00:24,420

space look at what were you doing at

7
00:00:30,500 --> 00:00:28,019

plan 42 just saying hey snooping around

8
00:00:33,350 --> 00:00:30,510

oh yeah I run in there a little back bag

9
00:00:36,440 --> 00:00:33,360

and you know so you have credentials

10
00:00:38,959 --> 00:00:36,450

that allows you to walk on to plan for

11
00:00:40,610 --> 00:00:38,969

you to anytime you want not going okay

12
00:00:42,709 --> 00:00:40,620

see what you just came from plan 42

13
00:00:45,110 --> 00:00:42,719

what's on your person can we see what's

14

00:00:46,880 --> 00:00:45,120

on you I imagine you have to have a

15

00:00:48,950 --> 00:00:46,890

little card or a badge or something when

16

00:00:51,770 --> 00:00:48,960

you walk in you might have that but they

17

00:00:52,610 --> 00:00:51,780

take it back when you okay so if you so

18

00:00:54,500 --> 00:00:52,620

if you're a visitor

19

00:00:56,389 --> 00:00:54,510

you would signs trying to milk me into

20

00:00:59,420 --> 00:00:56,399

this secondary questions to get me to

21

00:01:01,340 --> 00:00:59,430

admit second so did you see anything

22

00:01:02,930 --> 00:01:01,350

interesting at plan for new today no but

23

00:01:05,030 --> 00:01:02,940

I got to talk to a few people that I

24

00:01:08,210 --> 00:01:05,040

wanted to clarify a few things just to

25

00:01:10,219 --> 00:01:08,220

make certain the direction I wanted

26

00:01:13,130 --> 00:01:10,229

here's my main goal okay

27

00:01:14,960 --> 00:01:13,140

we the tangent obviously last week is is

28

00:01:16,910 --> 00:01:14,970

whether or not I was on one or something

29

00:01:17,960 --> 00:01:16,920

like that well let me stop there for a

30

00:01:19,219 --> 00:01:17,970

second because you and I texted about

31

00:01:21,560 --> 00:01:19,229

that you're saying that hey I'm

32

00:01:25,160 --> 00:01:21,570

concerned that people are getting worked

33

00:01:27,260 --> 00:01:25,170

up about the hinting that I may have

34

00:01:28,880 --> 00:01:27,270

flown on one and getting I don't know

35

00:01:31,460 --> 00:01:28,890

people are pretty skeptical the whole

36

00:01:33,289 --> 00:01:31,470

story yeah well it's not just you flying

37

00:01:34,969 --> 00:01:33,299

on right which is which is fine and I

38

00:01:37,490 --> 00:01:34,979

appreciate the reason why I appreciate

39

00:01:39,530 --> 00:01:37,500

that is because that will that will get

40

00:01:41,899 --> 00:01:39,540

people to look into it to debunk me and

41

00:01:45,050 --> 00:01:41,909

if they can debunk me then that's great

42

00:01:46,760 --> 00:01:45,060

go for it but the the difference is is

43

00:01:49,490 --> 00:01:46,770

that the information that I'm giving as

44

00:01:51,889 --> 00:01:49,500

it comes out then it will obviously

45

00:01:53,810 --> 00:01:51,899

verify me down the road I can't give out

46

00:01:55,940 --> 00:01:53,820

sources and that people don't like that

47

00:01:58,700 --> 00:01:55,950

I can't say how I acquired the

48

00:02:00,530 --> 00:01:58,710

information people don't like that and

49

00:02:02,899 --> 00:02:00,540

that's just something that you do in the

50

00:02:04,219 --> 00:02:02,909

in the investigative journalism you you

51
00:02:08,270 --> 00:02:04,229
know as well as I do if you have a

52
00:02:10,699 --> 00:02:08,280
source that is so embedded that you

53
00:02:13,130 --> 00:02:10,709
don't want to do anything to reveal that

54
00:02:14,020 --> 00:02:13,140
or how you acquire information in any

55
00:02:16,900 --> 00:02:14,030
way shape or form

56
00:02:19,870 --> 00:02:16,910
or how you acquired information in 2005

57
00:02:21,970 --> 00:02:19,880
you know as because it's different but

58
00:02:24,880 --> 00:02:21,980
let me I said why do you feel it's okay

59
00:02:26,320 --> 00:02:24,890
to reveal what you have revealed I mean

60
00:02:28,449 --> 00:02:26,330
have you well I haven't revealed

61
00:02:30,430 --> 00:02:28,459
anything that's that's going to have the

62
00:02:32,830 --> 00:02:30,440
government go I'm a traitor I'm a Edward

63
00:02:35,740 --> 00:02:32,840

Snowden tossed me over but you you

64

00:02:37,870 --> 00:02:35,750

really are to this day the only person

65

00:02:40,750 --> 00:02:37,880

who has come out and said that I'm aware

66

00:02:42,580 --> 00:02:40,760

of and especially someone who's claiming

67

00:02:45,160 --> 00:02:42,590

I have this information from the

68

00:02:50,170 --> 00:02:45,170

government right that these ticktick

69

00:02:53,340 --> 00:02:50,180

UFOs are US Air Force craft and also if

70

00:02:56,110 --> 00:02:53,350

you go back to 2004 and fast forward to

71

00:02:57,430 --> 00:02:56,120

2017 that's how long it took for the

72

00:02:59,500 --> 00:02:57,440

guys that were actually there and saw it

73

00:03:01,660 --> 00:02:59,510

to come out with their information so

74

00:03:03,580 --> 00:03:01,670

all your information being simply

75

00:03:06,610 --> 00:03:03,590

acknowledged symbol symbol this exactly

76

00:03:10,180 --> 00:03:06,620

right but it's a huge leap to say that

77

00:03:11,770 --> 00:03:10,190

the video is real we encountered UFOs we

78

00:03:13,120 --> 00:03:11,780

don't know what they are that's what

79

00:03:15,100 --> 00:03:13,130

they've said so far yes that's a big

80

00:03:16,449 --> 00:03:15,110

revelation they've never confirmed that

81

00:03:18,819 --> 00:03:16,459

before very significant we're just

82

00:03:20,680 --> 00:03:18,829

talking to Nick cook a couple hours ago

83

00:03:22,390 --> 00:03:20,690

and he was acknowledging how significant

84

00:03:24,190 --> 00:03:22,400

that is in the UFO community that for

85

00:03:26,560 --> 00:03:24,200

the first time the government saying yes

86

00:03:29,199 --> 00:03:26,570

there's UFOs mm-hmm but then you've

87

00:03:32,560 --> 00:03:29,209

taken it a whole nother step by saying

88

00:03:36,100 --> 00:03:32,570

that in it's us technology us craft

89

00:03:37,720 --> 00:03:36,110

right so it's so you're the only one

90

00:03:41,819 --> 00:03:37,730

that I'm aware of has come out and said

91

00:03:44,380 --> 00:03:41,829

that SARS I know and why do you feel

92

00:03:46,750 --> 00:03:44,390

comfortable that it's okay that the

93

00:03:48,520 --> 00:03:46,760

government is okay with you sharing that

94

00:03:52,210 --> 00:03:48,530

information that they shared with you

95

00:03:55,599 --> 00:03:52,220

I don't now whether or not the

96

00:03:58,090 --> 00:03:55,609

government is concerned is is more or

97

00:04:00,160 --> 00:03:58,100

less the question as opposed to whether

98

00:04:01,810 --> 00:04:00,170

or not there concern that I am the one

99

00:04:03,099 --> 00:04:01,820

giving the information the information

100

00:04:04,720 --> 00:04:03,109

is going to come out anyway so it

101

00:04:06,069 --> 00:04:04,730

doesn't matter it's just eventually

102

00:04:08,800 --> 00:04:06,079

going to come out and that's because of

103

00:04:10,990 --> 00:04:08,810

the radar you mentioned the well phased

104

00:04:12,610 --> 00:04:11,000

array radar is obviously coming out and

105

00:04:16,690 --> 00:04:12,620

that's that's what's going to see them

106

00:04:19,090 --> 00:04:16,700

or has the the ability to basically

107

00:04:21,250 --> 00:04:19,100

track them the important thing is the

108

00:04:22,420 --> 00:04:21,260

tracking of it it's not necessarily to

109

00:04:24,550 --> 00:04:22,430

see something if we come out with new

110

00:04:26,469 --> 00:04:24,560

technology which we all we have and it

111

00:04:28,030 --> 00:04:26,479

be say b-2 bomber flies over your city

112

00:04:31,240 --> 00:04:28,040

they will see the b-2 bomber

113

00:04:33,430 --> 00:04:31,250

okay but to track it and say well it

114

00:04:35,830 --> 00:04:33,440

looks like it's going to Cuba it would

115

00:04:38,890 --> 00:04:35,840

be an issue so that's where you get into

116

00:04:40,600 --> 00:04:38,900

some tricky area phased array radar

117

00:04:43,740 --> 00:04:40,610

which contract well over a hundred

118

00:04:46,120 --> 00:04:43,750

objects well over 200 actually at

119

00:04:48,970 --> 00:04:46,130

simultaneously live without waiting for

120

00:04:52,120 --> 00:04:48,980

sweep and all this other stuff so the

121

00:04:53,980 --> 00:04:52,130

issue that the the bigger issue is what

122

00:04:55,750 --> 00:04:53,990

are people going to do with the

123

00:04:58,930 --> 00:04:55,760

information and who is it going to be

124

00:05:00,970 --> 00:04:58,940

important for and now that the

125

00:05:02,890 --> 00:05:00,980

technology on both sides of the game are

126

00:05:05,470 --> 00:05:02,900

catching up to each other you've got the

127

00:05:08,080 --> 00:05:05,480

actual craft that's designed to avoid

128

00:05:10,180 --> 00:05:08,090

radar going up against radar that's

129

00:05:12,010 --> 00:05:10,190

designed to find the craft and all

130

00:05:14,080 --> 00:05:12,020

around the world everyone I mean phased

131

00:05:16,360 --> 00:05:14,090

array radars not noon is it's been out

132

00:05:17,950 --> 00:05:16,370

for many years I mean the first cruisers

133

00:05:20,230 --> 00:05:17,960

that came out with it we're late 80's

134

00:05:22,330 --> 00:05:20,240

90's and what have you here but that was

135

00:05:25,240 --> 00:05:22,340

been out since late 1800 so it's not new

136

00:05:27,900 --> 00:05:25,250

exactly new technology but the newer

137

00:05:31,030 --> 00:05:27,910

technology variations of it are becoming

138

00:05:34,030 --> 00:05:31,040

very more or very more much more

139

00:05:36,220 --> 00:05:34,040

accurate in its ability to track the

140

00:05:38,740 --> 00:05:36,230

objects that we're talking about here so

141

00:05:40,000 --> 00:05:38,750

I think a lot of the things that I'm

142

00:05:41,980 --> 00:05:40,010

talking about is not necessarily the

143

00:05:45,130 --> 00:05:41,990

government saying Mike go tell them this

144

00:05:46,990 --> 00:05:45,140

you know the disinfo side and or me

145

00:05:48,580 --> 00:05:47,000

coming up with my own speculation it's

146

00:05:51,310 --> 00:05:48,590

it's it's kind of over the years of

147

00:05:54,010 --> 00:05:51,320

talking to people and then coming up

148

00:05:56,080 --> 00:05:54,020

with my own conclusion as to what I feel

149

00:05:57,700 --> 00:05:56,090

it is or what's going on so I have my

150

00:05:59,860 --> 00:05:57,710

opinions on the matter and I'll state

151
00:06:01,780 --> 00:05:59,870
what I feel this fact and then I'll let

152
00:06:03,550 --> 00:06:01,790
you know what I feel the speculation or

153
00:06:04,840 --> 00:06:03,560
an area that I'm getting into that I

154
00:06:06,520 --> 00:06:04,850
don't know anything about well but as I

155
00:06:08,920 --> 00:06:06,530
think it's pretty clear to say that it

156
00:06:11,470 --> 00:06:08,930
is not your opinion that these are US

157
00:06:13,300 --> 00:06:11,480
craft you are saying you know absolutely

158
00:06:16,780 --> 00:06:13,310
yeah there's no doubt in my mind a zero

159
00:06:19,900 --> 00:06:16,790
dollar right yeah so and the reason you

160
00:06:22,990 --> 00:06:19,910
know that is by information that you

161
00:06:27,640 --> 00:06:23,000
gathered and or were provided from the

162
00:06:29,620 --> 00:06:27,650
US government no let me say that again

163
00:06:31,270 --> 00:06:29,630

now the reason you know the US

164

00:06:32,830 --> 00:06:31,280

government didn't come to me and just

165

00:06:33,820 --> 00:06:32,840

give me an for me no but you got the

166

00:06:35,110 --> 00:06:33,830

information that's them

167

00:06:38,040 --> 00:06:35,120

that's correct I just want to be clear

168

00:06:40,300 --> 00:06:38,050

that's right people will pick this apart

169

00:06:43,120 --> 00:06:40,310

either gathered

170

00:06:45,030 --> 00:06:43,130

or were provided by right gathered from

171

00:06:47,320 --> 00:06:45,040

were provided by the US government or

172

00:06:49,150 --> 00:06:47,330

people who worked in the government not

173

00:06:51,550 --> 00:06:49,160

necessarily that would be identified as

174

00:06:53,320 --> 00:06:51,560

ago because people view me and you if we

175

00:06:54,970 --> 00:06:53,330

had it if we had a job at the government

176
00:06:56,020 --> 00:06:54,980
and I told you something I say hey man

177
00:06:58,659 --> 00:06:56,030
take a look at this and tell me what you

178
00:07:00,610 --> 00:06:58,669
think it is that's not in my opinion the

179
00:07:03,310 --> 00:07:00,620
US government give me information that's

180
00:07:06,850 --> 00:07:03,320
my buddy that's still in saying hey you

181
00:07:08,290 --> 00:07:06,860
know I was a you know someone that would

182
00:07:10,150 --> 00:07:08,300
look into these things and and you're

183
00:07:11,920 --> 00:07:10,160
pretty confident this a hypothetical

184
00:07:13,750 --> 00:07:11,930
buddy who may have shared something with

185
00:07:16,030 --> 00:07:13,760
you over beers let's say very possible

186
00:07:19,330 --> 00:07:16,040
would would have that's what you're

187
00:07:22,080 --> 00:07:19,340
doing 80% of the time would not have a

188
00:07:25,690 --> 00:07:22,090

problem with what you're doing now in

189

00:07:27,430 --> 00:07:25,700

having knife et cetera well there's the

190

00:07:28,180 --> 00:07:27,440

well there's several ways this is gonna

191

00:07:31,090 --> 00:07:28,190

go one

192

00:07:34,240 --> 00:07:31,100

I'm just making all this up and the blah

193

00:07:36,460 --> 00:07:34,250

blah blah - I'm putting people's lives

194

00:07:39,969 --> 00:07:36,470

in jeopardy so I have to be very careful

195

00:07:42,820 --> 00:07:39,979

about how I say things which are going

196

00:07:44,110 --> 00:07:42,830

to give me plausible deniability if you

197

00:07:45,760 --> 00:07:44,120

want to look at it that way but the

198

00:07:47,080 --> 00:07:45,770

primary thing is to give the accurate

199

00:07:50,590 --> 00:07:47,090

information to the people that actually

200

00:07:52,510 --> 00:07:50,600

need it and that I feel could use it

201
00:07:55,420 --> 00:07:52,520
there's guys that were out there that

202
00:07:58,300 --> 00:07:55,430
have been ridiculed made fun of and just

203
00:08:01,540 --> 00:07:58,310
basically lambasted since since this

204
00:08:03,219 --> 00:08:01,550
information came out and from one

205
00:08:04,779 --> 00:08:03,229
spectrum in spectrum to the other you

206
00:08:06,490 --> 00:08:04,789
talking about the witnesses I'm talking

207
00:08:08,529 --> 00:08:06,500
about witnesses yeah well but the Navy

208
00:08:10,900 --> 00:08:08,539
has already come out and said that no

209
00:08:12,490 --> 00:08:10,910
these guys really experience something

210
00:08:13,719 --> 00:08:12,500
so they're not making fun of them saying

211
00:08:15,850 --> 00:08:13,729
haha you think because they haven't

212
00:08:20,350 --> 00:08:15,860
really backed them up to the degree that

213
00:08:22,570 --> 00:08:20,360

I feel should be done and keep in mind

214

00:08:23,980 --> 00:08:22,580

to the the there's not necessarily the

215

00:08:25,690 --> 00:08:23,990

government's the government all the

216

00:08:28,990 --> 00:08:25,700

government said was that yes these

217

00:08:31,900 --> 00:08:29,000

videos that were whistle blown are in

218

00:08:33,760 --> 00:08:31,910

fact unidentified aerial phenomena and

219

00:08:34,870 --> 00:08:33,770

we don't know what they are that's what

220

00:08:37,149 --> 00:08:34,880

they're saying of course that's a lie

221

00:08:39,339 --> 00:08:37,159

but that's what they're saying so the

222

00:08:40,899 --> 00:08:39,349

guys have been lied to that one instance

223

00:08:42,610 --> 00:08:40,909

that's they're being vindicated in the

224

00:08:45,160 --> 00:08:42,620

other instance they're being lied to

225

00:08:47,110 --> 00:08:45,170

again so yes these are unidentified

226

00:08:49,090 --> 00:08:47,120

aerial phenomena but hey we don't know

227

00:08:52,950 --> 00:08:49,100

what they are which is a lot and what

228

00:08:54,330 --> 00:08:52,960

about timing why now because you've been

229

00:08:57,420 --> 00:08:54,340

of this for at least a couple of years

230

00:08:59,490 --> 00:08:57,430

what's but why the timing for me yeah

231

00:09:01,410 --> 00:08:59,500

part of my timing is the Las Vegas

232

00:09:04,500 --> 00:09:01,420

investigation to get that out of the way

233

00:09:07,170 --> 00:09:04,510

and behind me so if if this blows up or

234

00:09:07,860 --> 00:09:07,180

balloons up I can be around to help

235

00:09:09,270 --> 00:09:07,870

where I can

236

00:09:11,340 --> 00:09:09,280

I don't know they come to think of it

237

00:09:14,670 --> 00:09:11,350

that timing like is very close

238

00:09:16,740 --> 00:09:14,680

Vegas shooting was October 30th well you

239

00:09:19,050 --> 00:09:16,750

and I discussed this before that

240

00:09:22,800 --> 00:09:19,060

remember before you we discussed this

241

00:09:23,970 --> 00:09:22,810

before the video from some other guys

242

00:09:25,530 --> 00:09:23,980

because someone said I had brought out

243

00:09:28,140 --> 00:09:25,540

information that had already been put

244

00:09:30,480 --> 00:09:28,150

out well yeah because we'd be giving you

245

00:09:32,520 --> 00:09:30,490

this before he even when you're talking

246

00:09:34,230 --> 00:09:32,530

about regarding the tech right yeah they

247

00:09:36,600 --> 00:09:34,240

took care you and I talked to tech

248

00:09:38,460 --> 00:09:36,610

before we talk to Vegas no no no no I'm

249

00:09:42,930 --> 00:09:38,470

saying you and I talked tic-tac before

250

00:09:44,700 --> 00:09:42,940

the Ryan White was a wagger I don't know

251

00:09:46,410 --> 00:09:44,710

the guy's last name anyway so his

252

00:09:50,370 --> 00:09:46,420

interview came out but you and I had

253

00:09:52,830 --> 00:09:50,380

discussed that beforehand and so when we

254

00:09:54,810 --> 00:09:52,840

when your show came out people said I

255

00:09:56,460 --> 00:09:54,820

was discussing things I said her I would

256

00:09:58,650 --> 00:09:56,470

come out which we'd already discussed no

257

00:10:02,490 --> 00:09:58,660

I was just making a point that the Vegas

258

00:10:04,170 --> 00:10:02,500

shooting was October 30th I have the

259

00:10:07,650 --> 00:10:04,180

date right the actual shooting interpret

260

00:10:10,110 --> 00:10:07,660

first sorry October 1st of 2017 correct

261

00:10:11,430 --> 00:10:10,120

yeah and it was just you know a little

262

00:10:11,880 --> 00:10:11,440

over a month later poor choice of words

263

00:10:14,550 --> 00:10:11,890

not mine

264

00:10:16,440 --> 00:10:14,560

yeah a little over a month later in 27

265

00:10:20,070 --> 00:10:16,450

yeah when I was when you confirmed the

266

00:10:21,480 --> 00:10:20,080

existence of these Tic Tacs oh right and

267

00:10:25,350 --> 00:10:21,490

that their us technology or you knew

268

00:10:26,790 --> 00:10:25,360

even earlier than that well no in 2005 I

269

00:10:28,980 --> 00:10:26,800

listened to the columns that was just

270

00:10:31,170 --> 00:10:28,990

the radio transmissions we didn't really

271

00:10:33,660 --> 00:10:31,180

have an idea I mean we kind of knew what

272

00:10:35,160 --> 00:10:33,670

was going on but didn't once we heard

273

00:10:37,680 --> 00:10:35,170

some call signs then we knew at least

274

00:10:39,180 --> 00:10:37,690

where it was the other guy knew what it

275

00:10:40,680 --> 00:10:39,190

was he was testing it basically given me

276

00:10:44,160 --> 00:10:40,690

the inference just say what do you make

277

00:10:46,440 --> 00:10:44,170

of it and it wasn't him asking me you

278

00:10:48,030 --> 00:10:46,450

know try to figure out which aircraft

279

00:10:49,620 --> 00:10:48,040

this is which group they belong to or

280

00:10:50,760 --> 00:10:49,630

whatever he's saying he said what the

281

00:10:52,170 --> 00:10:50,770

hell do you think they're talking about

282

00:10:53,670 --> 00:10:52,180

he just said listen to it and give me

283

00:10:56,400 --> 00:10:53,680

your thoughts you're saying he knew what

284

00:10:58,140 --> 00:10:56,410

it was though he neat well in hit yeah

285

00:11:00,120 --> 00:10:58,150

because he had access to other data as

286

00:11:03,210 --> 00:11:00,130

well but he but he didn't tell you at

287

00:11:04,860 --> 00:11:03,220

that time no he yeah I'm not gonna say

288

00:11:06,329 --> 00:11:04,870

any more than that because that's going

289

00:11:09,179 --> 00:11:06,339

to identify kind of how

290

00:11:12,600 --> 00:11:09,189

he acquired the information anyway you

291

00:11:14,850 --> 00:11:12,610

had a pretty good idea back in 2005 that

292

00:11:16,590 --> 00:11:14,860

this was us technology yeah I got up

293

00:11:18,600 --> 00:11:16,600

figures yes technology and and my

294

00:11:20,910 --> 00:11:18,610

reasoning for that is more psychological

295

00:11:23,280 --> 00:11:20,920

than it is anything tangible is that if

296

00:11:24,840 --> 00:11:23,290

those craft came here and they were from

297

00:11:27,230 --> 00:11:24,850

first off they're not gonna pop up on

298

00:11:30,840 --> 00:11:27,240

radar just below San Clemente Island and

299

00:11:32,549 --> 00:11:30,850

no one do anything about it and these

300

00:11:35,009 --> 00:11:32,559

things they were toying with us for days

301
00:11:37,559 --> 00:11:35,019
this wasn't a singular event this

302
00:11:40,139 --> 00:11:37,569
happened over a large period of time

303
00:11:42,449 --> 00:11:40,149
with multiple aircraft okay so since

304
00:11:44,009 --> 00:11:42,459
that's the case if do you think for a

305
00:11:47,009 --> 00:11:44,019
moment we wouldn't go to DEFCON

306
00:11:48,900 --> 00:11:47,019
something if these craft were just

307
00:11:50,670 --> 00:11:48,910
popping up along our coast running

308
00:11:51,869 --> 00:11:50,680
around and our super hornets cannot keep

309
00:11:54,929 --> 00:11:51,879
up with these they've got a couple

310
00:11:55,429 --> 00:11:54,939
so-called experts including Nick cook

311
00:11:58,679 --> 00:11:55,439
ooh

312
00:12:02,100 --> 00:11:58,689
this were very dubious of the idea that

313
00:12:05,009 --> 00:12:02,110

the US would test its technology with

314

00:12:06,299 --> 00:12:05,019

its own with another branch of its own

315

00:12:09,780 --> 00:12:06,309

military they just thought that that's

316

00:12:12,869 --> 00:12:09,790

not the way the military operates under

317

00:12:14,819 --> 00:12:12,879

normal circumstances I would agree the

318

00:12:16,919 --> 00:12:14,829

problem with that statement is making a

319

00:12:20,519 --> 00:12:16,929

blinken stack blinken statement about

320

00:12:25,410 --> 00:12:20,529

that like he did is is probably is

321

00:12:28,259 --> 00:12:25,420

obviously ourselves testing information

322

00:12:31,019 --> 00:12:28,269

or testing vehicles and testing drugs or

323

00:12:35,460 --> 00:12:31,029

whatever on our military for years so

324

00:12:36,329 --> 00:12:35,470

it's not uncommon so well and to take a

325

00:12:39,030 --> 00:12:36,339

big step back

326

00:12:40,679 --> 00:12:39,040

there's nothing usual about what

327

00:12:43,139 --> 00:12:40,689

happened there's nothing usual about any

328

00:12:44,939 --> 00:12:43,149

of this right so you know this suggests

329

00:12:46,739 --> 00:12:44,949

that there's some precedent that matters

330

00:12:48,720 --> 00:12:46,749

but let me go back to yeah this is out

331

00:12:50,939 --> 00:12:48,730

of the norm let me go back to timing at

332

00:12:52,110 --> 00:12:50,949

what point did you be use it here today

333

00:12:54,030 --> 00:12:52,120

and you're a hundred percent confident

334

00:12:56,100 --> 00:12:54,040

it's a fact it's not your opinion it's

335

00:12:58,110 --> 00:12:56,110

us technology when did you become a

336

00:13:01,379 --> 00:12:58,120

hundred percent confident of that how

337

00:13:03,360 --> 00:13:01,389

long ago was that mm-hmm as opposed of

338

00:13:06,179 --> 00:13:03,370

no one speculating knowing knowing

339

00:13:11,160 --> 00:13:06,189

pretty well at cetera I would say it

340

00:13:14,189 --> 00:13:11,170

would be sometime in 2015/16 in that

341

00:13:16,679 --> 00:13:14,199

range and I can't go into exact details

342

00:13:18,629 --> 00:13:16,689

of why my my focus or more thought

343

00:13:20,220 --> 00:13:18,639

process would have changed when I was

344

00:13:23,370 --> 00:13:20,230

absolutely definitive was

345

00:13:25,320 --> 00:13:23,380

in November of 2017 that's that's when a

346

00:13:28,260 --> 00:13:25,330

lot of the information was you know

347

00:13:29,250 --> 00:13:28,270

coming out that on December 14th or 16th

348

00:13:31,200 --> 00:13:29,260

somewhere in that range when they

349

00:13:33,360 --> 00:13:31,210

actually released the that footage I

350

00:13:35,460 --> 00:13:33,370

mean it was leaking out to a few key

351
00:13:37,260 --> 00:13:35,470
people that this was about to happen you

352
00:13:39,060 --> 00:13:37,270
know and there's some think tanks that

353
00:13:40,560 --> 00:13:39,070
go on periodically just people get on

354
00:13:41,940 --> 00:13:40,570
the phone brainstorm about hey what do

355
00:13:43,890 --> 00:13:41,950
you think or what are the implications

356
00:13:47,010 --> 00:13:43,900
of this what's going to happen you know

357
00:13:48,990 --> 00:13:47,020
so when you first became more

358
00:13:51,500 --> 00:13:49,000
definitively knowledgeable of it and

359
00:13:55,920 --> 00:13:51,510
you've talked a lot about in November of

360
00:13:58,500 --> 00:13:55,930
17 when your phone wound up flying

361
00:14:01,890 --> 00:13:58,510
across country perhaps with you or not

362
00:14:03,300 --> 00:14:01,900
with you did you that the video footage

363
00:14:06,150 --> 00:14:03,310

hadn't leaked at that point the to the

364

00:14:07,230 --> 00:14:06,160

Stars Academy video that started this

365

00:14:08,220 --> 00:14:07,240

whole thing from the public's

366

00:14:10,320 --> 00:14:08,230

perspective

367

00:14:12,990 --> 00:14:10,330

didn't come out until December correct

368

00:14:14,400 --> 00:14:13,000

were you aware that that was gonna be

369

00:14:15,600 --> 00:14:14,410

leaked out was that already kind of a

370

00:14:20,190 --> 00:14:15,610

known thing yes

371

00:14:22,710 --> 00:14:20,200

so the backstory well here the issue I

372

00:14:27,540 --> 00:14:22,720

have is after a leak it was very

373

00:14:29,220 --> 00:14:27,550

anti-climatic there is a a huge I mean I

374

00:14:31,530 --> 00:14:29,230

mean I don't know how to describe it any

375

00:14:34,920 --> 00:14:31,540

better than just a plethora of video

376

00:14:37,650 --> 00:14:34,930

footage that is available that we

377

00:14:41,670 --> 00:14:37,660

covered this subject matter this is one

378

00:14:44,370 --> 00:14:41,680

or two events of many I think upwards of

379

00:14:46,440 --> 00:14:44,380

25 major events and even underwater

380

00:14:49,730 --> 00:14:46,450

events that have not been mentioned yet

381

00:14:52,380 --> 00:14:49,740

and you believe all there's video of

382

00:14:53,670 --> 00:14:52,390

well there's not necessarily video but

383

00:14:58,130 --> 00:14:53,680

there's gonna be data breaks that'll

384

00:15:02,400 --> 00:14:58,140

have so at least 25 encounters between

385

00:15:04,470 --> 00:15:02,410

US military and these objects is that

386

00:15:06,360 --> 00:15:04,480

were you saying correct and but I but

387

00:15:09,150 --> 00:15:06,370

I'm not privy to that yeah that we've

388

00:15:11,640 --> 00:15:09,160

got it would be awesome to have Lois on

389

00:15:13,740 --> 00:15:11,650

the show and and just try to find out no

390

00:15:16,110 --> 00:15:13,750

I but there's some differences of

391

00:15:20,190 --> 00:15:16,120

opinion after I've heard more he thinks

392

00:15:22,290 --> 00:15:20,200

they are remind me which is what my

393

00:15:24,150 --> 00:15:22,300

understanding I watched him briefly on

394

00:15:26,070 --> 00:15:24,160

it on a show where he believed that they

395

00:15:28,380 --> 00:15:26,080

were not of this world

396

00:15:30,630 --> 00:15:28,390

which is fine I have no problem Louis

397

00:15:33,639 --> 00:15:30,640

Elizondo now with to the stars

398

00:15:35,799 --> 00:15:33,649

supposedly ran a tip although

399

00:15:38,980 --> 00:15:35,809

something's been breaking recently where

400

00:15:41,470 --> 00:15:38,990

to the stars now apparently is backing

401
00:15:43,480 --> 00:15:41,480
away a little bit from saying he was the

402
00:15:45,160 --> 00:15:43,490
head of a temp because apparently

403
00:15:48,429 --> 00:15:45,170
there's been some department of defense

404
00:15:52,809 --> 00:15:48,439
officials that have said no that's not

405
00:15:56,439 --> 00:15:52,819
true this guy did not run a tip and who

406
00:15:59,679 --> 00:15:56,449
did I don't know but apparently he never

407
00:16:01,989 --> 00:15:59,689
had an official title that pertained to

408
00:16:04,269 --> 00:16:01,999
a tip so it is not a thousand percent

409
00:16:05,590 --> 00:16:04,279
confirmed and even I did I forget where

410
00:16:07,629 --> 00:16:05,600
I'm getting this so I apologize a bit is

411
00:16:10,239 --> 00:16:07,639
Arclight recently where even to the

412
00:16:13,840 --> 00:16:10,249
stars is no longer holding him out as

413
00:16:15,970 --> 00:16:13,850

the former head of a tip so something's

414

00:16:17,410 --> 00:16:15,980

going something happen there yeah

415

00:16:19,629 --> 00:16:17,420

whether he really was head of it or not

416

00:16:22,179 --> 00:16:19,639

but anyway but he why he was the puppet

417

00:16:24,549 --> 00:16:22,189

so he yeah you know so no one has really

418

00:16:27,999 --> 00:16:24,559

denied that do we know how he got the

419

00:16:30,549 --> 00:16:28,009

video I don't know hardly any how he got

420

00:16:35,530 --> 00:16:30,559

the video yeah that was his job so he

421

00:16:37,660 --> 00:16:35,540

but that means he stole the video yeah I

422

00:16:39,369 --> 00:16:37,670

get I get that yeah that was obviously

423

00:16:41,619 --> 00:16:39,379

an issue now here and here's the other

424

00:16:43,809 --> 00:16:41,629

problem the government isn't going after

425

00:16:45,489 --> 00:16:43,819

him he's not like Edward Snowden they're

426

00:16:46,869 --> 00:16:45,499

not chasing him around the world saying

427

00:16:48,160 --> 00:16:46,879

hey you leaked out this information the

428

00:16:49,660 --> 00:16:48,170

government basically confirmed yeah what

429

00:16:51,819 --> 00:16:49,670

he put out was two years later but yeah

430

00:16:54,850 --> 00:16:51,829

a year and a half later right and and so

431

00:16:59,169 --> 00:16:54,860

with that being said then the government

432

00:17:01,629 --> 00:16:59,179

is obviously not having an issue with

433

00:17:04,210 --> 00:17:01,639

this information they obviously didn't

434

00:17:05,769 --> 00:17:04,220

categorically deny any of it they

435

00:17:07,419 --> 00:17:05,779

haven't said that this is not our

436

00:17:08,949 --> 00:17:07,429

technology they basically said they

437

00:17:11,860 --> 00:17:08,959

don't know what it is which is their

438

00:17:14,769 --> 00:17:11,870

classic BS answer to just about any well

439

00:17:17,230 --> 00:17:14,779

what do you think was behind their

440

00:17:20,230 --> 00:17:17,240

decision a few months ago to come out

441

00:17:22,480 --> 00:17:20,240

and say that it's real and the this

442

00:17:26,649 --> 00:17:22,490

experience was real you know for the

443

00:17:28,269 --> 00:17:26,659

Navy why even confirm that no that is

444

00:17:30,250 --> 00:17:28,279

out of the norm because normally they

445

00:17:31,810 --> 00:17:30,260

would just not say anything we would

446

00:17:33,700 --> 00:17:31,820

just sit here in the dark and then the

447

00:17:35,500 --> 00:17:33,710

conspiracy you know they go that

448

00:17:37,409 --> 00:17:35,510

direction I go a different direction and

449

00:17:43,029 --> 00:17:37,419

then eventually we all battle and

450

00:17:45,730 --> 00:17:43,039

what-have-you but my speculation is is

451
00:17:46,299 --> 00:17:45,740
that this technology is going to be

452
00:17:47,020 --> 00:17:46,309
revealed

453
00:17:49,810 --> 00:17:47,030
regarde

454
00:17:54,130 --> 00:17:49,820
other countries are developing the exact

455
00:17:56,200 --> 00:17:54,140
same technology and they are China being

456
00:17:59,050 --> 00:17:56,210
the closest to us Russia being probably

457
00:18:02,070 --> 00:17:59,060
not too far behind and since this

458
00:18:05,470 --> 00:18:02,080
technology is going to be utilized by

459
00:18:07,480 --> 00:18:05,480
several countries go ahead and get it

460
00:18:10,090 --> 00:18:07,490
out there and just say hey yep it's

461
00:18:12,190 --> 00:18:10,100
there and we're don't worry were the

462
00:18:15,000 --> 00:18:12,200
leader of the pack okay and then back to

463
00:18:17,200 --> 00:18:15,010

timing for you as to why you chose to

464

00:18:18,970 --> 00:18:17,210

start talking about this when you did

465

00:18:21,190 --> 00:18:18,980

was that based on some type of a green

466

00:18:22,870 --> 00:18:21,200

light that somebody gave you or is this

467

00:18:24,880 --> 00:18:22,880

just getting done with Vegas and feeling

468

00:18:28,780 --> 00:18:24,890

it's a great time to take out something

469

00:18:31,810 --> 00:18:28,790

else I was getting there's a very small

470

00:18:34,510 --> 00:18:31,820

group of people that are outside of the

471

00:18:36,250 --> 00:18:34,520

government myself included that are kind

472

00:18:40,240 --> 00:18:36,260

of in the know we're all in the know for

473

00:18:42,550 --> 00:18:40,250

various reasons okay me I like to snoop

474

00:18:45,340 --> 00:18:42,560

around and I find stuff that's what I do

475

00:18:48,130 --> 00:18:45,350

I'm very good at the couple of the

476

00:18:50,920 --> 00:18:48,140

others are people who were in and are

477

00:18:53,020 --> 00:18:50,930

out now so to speak either working in a

478

00:18:57,310 --> 00:18:53,030

civilian or in under contract or

479

00:19:00,220 --> 00:18:57,320

whatever and so when you meet someone

480

00:19:02,350 --> 00:19:00,230

and you ask them questions and then they

481

00:19:04,180 --> 00:19:02,360

they you probably had this before you

482

00:19:06,250 --> 00:19:04,190

meet someone you ask them some questions

483

00:19:07,960 --> 00:19:06,260

they're not comfortable talking at that

484

00:19:10,210 --> 00:19:07,970

moment and then somehow they want to

485

00:19:11,830 --> 00:19:10,220

talk to you off the record and that's

486

00:19:14,140 --> 00:19:11,840

essentially you know kind of what

487

00:19:15,220 --> 00:19:14,150

happened to people want to get the

488

00:19:16,540 --> 00:19:15,230

information out there they felt bad

489

00:19:18,520 --> 00:19:16,550

about the guys when the nimitz

490

00:19:23,680 --> 00:19:18,530

encounters video come out came out that

491

00:19:26,680 --> 00:19:23,690

video basically has propelled this fort

492

00:19:28,420 --> 00:19:26,690

and my hat's off to them doing that

493

00:19:30,910 --> 00:19:28,430

because those those guys need the

494

00:19:33,820 --> 00:19:30,920

answers and closure or whatever whatever

495

00:19:35,650 --> 00:19:33,830

they need they need it and I'm going to

496

00:19:37,450 --> 00:19:35,660

try to give them the pieces of the

497

00:19:38,590 --> 00:19:37,460

puzzle that I can I don't have all the

498

00:19:40,810 --> 00:19:38,600

answers I don't know what the propulsion

499

00:19:42,730 --> 00:19:40,820

is I don't know the energy sources or

500

00:19:44,170 --> 00:19:42,740

any that stuff I have my own ideas after

501

00:19:46,600 --> 00:19:44,180

you know having it in the back of my

502

00:19:48,190 --> 00:19:46,610

head for years of toying around every

503

00:19:49,840 --> 00:19:48,200

now and then I'll sneak over and watch

504

00:19:51,580 --> 00:19:49,850

someone's website uh-huh that kind of

505

00:19:53,080 --> 00:19:51,590

makes sense so that fits you know and

506

00:19:54,910 --> 00:19:53,090

then you you had the patents and all

507

00:19:56,200 --> 00:19:54,920

that the last time I was on the show so

508

00:19:57,820 --> 00:19:56,210

you did the same thing and it's a

509

00:19:59,500 --> 00:19:57,830

national curiosity to figure stuff out

510

00:20:00,640 --> 00:19:59,510

but these guys need the answers because

511

00:20:04,000 --> 00:20:00,650

they lived it

512

00:20:06,490 --> 00:20:04,010

and or any of these other guys planning

513

00:20:08,530 --> 00:20:06,500

on speaking publicly about it well oddly

514

00:20:10,480 --> 00:20:08,540

enough when a couple of them when we

515

00:20:14,020 --> 00:20:10,490

talked it was all that gung-ho thing and

516

00:20:16,690 --> 00:20:14,030

then once I I said what I said you go

517

00:20:18,250 --> 00:20:16,700

ahead so the words you guys had a

518

00:20:21,070 --> 00:20:18,260

conversation about hey let's all start

519

00:20:22,540 --> 00:20:21,080

talking about this and they're left out

520

00:20:23,890 --> 00:20:22,550

first and then they yeah there's one

521

00:20:27,130 --> 00:20:23,900

person in particular you know who you

522

00:20:29,410 --> 00:20:27,140

heard that that we yeah we were gonna

523

00:20:31,690 --> 00:20:29,420

have this as hey I got your back you got

524

00:20:33,669 --> 00:20:31,700

my back you know that kind of thing but

525

00:20:36,220 --> 00:20:33,679

at the same time there's they're still

526

00:20:37,990 --> 00:20:36,230

in those industries and they realize

527

00:20:40,390 --> 00:20:38,000

that they would never have another job

528

00:20:42,010 --> 00:20:40,400

I'm out I'm not in the industry anymore

529

00:20:44,260 --> 00:20:42,020

at all so I don't have to worry about it

530

00:20:46,390 --> 00:20:44,270

I'm not gonna go working you know pull

531

00:20:49,510 --> 00:20:46,400

the DD 254 or go to booze almond or any

532

00:20:52,030 --> 00:20:49,520

of that stuff so I'm okay with the

533

00:20:54,400 --> 00:20:52,040

information I'm given the concern factor

534

00:20:57,460 --> 00:20:54,410

that I have is that I also at the same

535

00:21:01,450 --> 00:20:57,470

time have information that would would

536

00:21:03,310 --> 00:21:01,460

be in my opinion considered a concern

537

00:21:06,370 --> 00:21:03,320

for national security so I will not

538

00:21:08,230 --> 00:21:06,380

divulge that and when you if you dabble

539

00:21:11,130 --> 00:21:08,240

in that area I will obviously push back

540

00:21:14,980 --> 00:21:11,140

and that's important so what push back

541

00:21:17,320 --> 00:21:14,990

or feedback etc blow back

542

00:21:20,140 --> 00:21:17,330

have you gotten so far as a result of

543

00:21:22,240 --> 00:21:20,150

the interview from anyone kind of inside

544

00:21:24,310 --> 00:21:22,250

the community the in the know community

545

00:21:26,830 --> 00:21:24,320

Oh in the know community yes I've zero

546

00:21:29,500 --> 00:21:26,840

okay yeah I'm saying like I can't

547

00:21:31,660 --> 00:21:29,510

believe that turbo guy no did that

548

00:21:33,130 --> 00:21:31,670

no okay no I'm outside the community we

549

00:21:34,510 --> 00:21:33,140

know what that is that's YouTube and

550

00:21:36,549 --> 00:21:34,520

Facebook and everything yeah who thinks

551
00:21:38,380 --> 00:21:36,559
that your your yeah I'm alone a quack

552
00:21:39,430 --> 00:21:38,390
I'm here for some reason or your you

553
00:21:40,870 --> 00:21:39,440
know you're gonna write me a check at

554
00:21:42,790 --> 00:21:40,880
the end it's interview for 50 grand and

555
00:21:45,549 --> 00:21:42,800
then we're all happy that's that but

556
00:21:47,770 --> 00:21:45,559
that's obviously not the case and so

557
00:21:49,450 --> 00:21:47,780
what is my motivation to do this why why

558
00:21:51,400 --> 00:21:49,460
is it or whatever my motivation to do

559
00:21:53,260 --> 00:21:51,410
this is literally the same motivation I

560
00:21:54,790 --> 00:21:53,270
had for for Vegas which is going there

561
00:21:56,770 --> 00:21:54,800
get the information for the victims and

562
00:22:00,070 --> 00:21:56,780
here's the same thing so let's try to

563
00:22:02,169 --> 00:22:00,080

address some of the cynics out there

564

00:22:04,360 --> 00:22:02,179

whose to follow up and clean up a few

565

00:22:07,480 --> 00:22:04,370

things so one thing that you mentioned

566

00:22:10,270 --> 00:22:07,490

to me is that you had been in touch with

567

00:22:12,450 --> 00:22:10,280

some nimitz folks that worked on the

568

00:22:14,460 --> 00:22:12,460

nimitz or around that you can

569

00:22:15,480 --> 00:22:14,470

you giving me a blank stare like I'm not

570

00:22:19,230 --> 00:22:15,490

supposed to be saying this but anyway

571

00:22:21,480 --> 00:22:19,240

you can you can confirm or deny but that

572

00:22:23,369 --> 00:22:21,490

I don't know that you provided you

573

00:22:25,440 --> 00:22:23,379

provided some information to them and

574

00:22:27,869 --> 00:22:25,450

that checked out and that caused them to

575

00:22:28,499 --> 00:22:27,879

think oh wow this guy knows what he's

576

00:22:31,350 --> 00:22:28,509

talking about

577

00:22:33,180 --> 00:22:31,360

well that or I obviously have more I

578

00:22:35,609 --> 00:22:33,190

know words I have another piece of the

579

00:22:38,159 --> 00:22:35,619

puzzle that fits and that one of the

580

00:22:40,109 --> 00:22:38,169

guys said yeah that's that's actually

581

00:22:43,320 --> 00:22:40,119

pretty accurate that they didn't mention

582

00:22:44,909 --> 00:22:43,330

on anywhere I've seen and that might you

583

00:22:46,139 --> 00:22:44,919

know give them a little bit more or give

584

00:22:49,320 --> 00:22:46,149

me credibility to them I don't care

585

00:22:51,379 --> 00:22:49,330

about anyone else believing me or not

586

00:22:54,480 --> 00:22:51,389

believing me I care about those guys

587

00:22:55,980 --> 00:22:54,490

believing the information or it's going

588

00:22:57,690 --> 00:22:55,990

to come out anyway so the information I

589

00:23:01,499 --> 00:22:57,700

give at some point in time will come out

590

00:23:03,720 --> 00:23:01,509

and okay well you know well I mean as

591

00:23:05,239 --> 00:23:03,730

you sit here now you probably don't know

592

00:23:08,970 --> 00:23:05,249

one way or the other but for instance

593

00:23:12,119 --> 00:23:08,980

favor the I forget his first name is

594

00:23:14,850 --> 00:23:12,129

David Frank's favor who was the

595

00:23:16,470 --> 00:23:14,860

quadrants commander who was on Rogan a

596

00:23:18,739 --> 00:23:16,480

few weeks I haven't seen that saying

597

00:23:21,989 --> 00:23:18,749

saying that he didn't know what it was

598

00:23:23,669 --> 00:23:21,999

do you know whether or not he's aware of

599

00:23:25,680 --> 00:23:23,679

the interview or do we have reactions

600

00:23:28,259 --> 00:23:25,690

from any of those types of folks yet no

601
00:23:30,690 --> 00:23:28,269
I don't know I have no contact with I

602
00:23:32,129 --> 00:23:30,700
have no contact well I can't say no

603
00:23:35,850 --> 00:23:32,139
contact with anyone but I don't have any

604
00:23:38,129 --> 00:23:35,860
contact with with any of the pilots so I

605
00:23:40,230 --> 00:23:38,139
have no idea okay so what what is this

606
00:23:41,759 --> 00:23:40,240
kind of new thing or whatever that the

607
00:23:45,239 --> 00:23:41,769
Nimitz guys kind of said yeah that

608
00:23:46,619 --> 00:23:45,249
checks out this guy was legit well part

609
00:23:48,690 --> 00:23:46,629
of the information I basically put on it

610
00:23:50,669 --> 00:23:48,700
on a public post was I just went in

611
00:23:53,249 --> 00:23:50,679
there and said you know cuz I contacted

612
00:23:55,889 --> 00:23:53,259
them that might be I may have that post

613
00:23:58,409 --> 00:23:55,899

is this the thing that you wrote to Ryan

614

00:23:59,700 --> 00:23:58,419

yes okay yeah yeah I thought it might be

615

00:24:01,289 --> 00:23:59,710

a good idea to go through this a little

616

00:24:04,259 --> 00:24:01,299

bit so you're saying what you wrote in

617

00:24:07,080 --> 00:24:04,269

this post Nimitz guys read this and like

618

00:24:10,019 --> 00:24:07,090

oh I'm saying that that most likely no

619

00:24:12,060 --> 00:24:10,029

they didn't come to me and say hey we

620

00:24:14,399 --> 00:24:12,070

read your post you gave some information

621

00:24:17,009 --> 00:24:14,409

blah blah blah we believe you know there

622

00:24:18,930 --> 00:24:17,019

wasn't all that you know kumbaya kind of

623

00:24:22,710 --> 00:24:18,940

stuff it was just the post and then they

624

00:24:25,409 --> 00:24:22,720

did contact me so and that's where we're

625

00:24:26,310 --> 00:24:25,419

at at the moment yeah so let's go

626

00:24:28,320 --> 00:24:26,320

through the post a little bit

627

00:24:29,850 --> 00:24:28,330

a lot of acronyms in here that I don't

628

00:24:33,029 --> 00:24:29,860

know what they mean so I'm just curious

629

00:24:37,289 --> 00:24:33,039

so you point out to him Ryan who had

630

00:24:40,200 --> 00:24:37,299

been what was what was his job Ryan I

631

00:24:42,690 --> 00:24:40,210

believe was in charge of the helicopters

632

00:24:44,070 --> 00:24:42,700

on Princeton okay I'm not sure exactly

633

00:24:45,810 --> 00:24:44,080

I'm like the maintenance of them are

634

00:24:46,950 --> 00:24:45,820

some so whenever I give an acronym just

635

00:24:49,529 --> 00:24:46,960

tell me what it means and I'll keep

636

00:24:52,889 --> 00:24:49,539

reading your guests were from our ARL

637

00:24:55,080 --> 00:24:52,899

mm-hmm as Air Force Research Laboratory

638

00:24:59,299 --> 00:24:55,090

and then maybe they know which is which

639

00:25:01,619 --> 00:24:59,309

is is that a place or is that a tub

640

00:25:02,970 --> 00:25:01,629

essentially like a well if you want to

641

00:25:04,740 --> 00:25:02,980

use the term Department yeah that would

642

00:25:08,879 --> 00:25:04,750

fit it's like a department yeah you know

643

00:25:13,950 --> 00:25:08,889

it's their advanced research arm let

644

00:25:19,619 --> 00:25:13,960

gorgeous I'd plan 42 ARL I don't know no

645

00:25:22,110 --> 00:25:19,629

arrow I think is wright-patterson okay

646

00:25:25,740 --> 00:25:22,120

so they were from ARL and out of

647

00:25:28,799 --> 00:25:25,750

wright-patterson on TDY hmm temperature

648

00:25:30,869 --> 00:25:28,809

duty temporary tour of duty yeah that

649

00:25:33,330 --> 00:25:30,879

means they're there for temporary I'm a

650

00:25:35,460 --> 00:25:33,340

TTY temporary I know it doesn't the

651

00:25:37,740 --> 00:25:35,470

letters don't work but it's a temporary

652

00:25:39,659 --> 00:25:37,750

duty basically you're rated you're given

653

00:25:41,820 --> 00:25:39,669

orders to go somewhere you may be there

654

00:25:45,389 --> 00:25:41,830

for a day a week a month however long

655

00:25:46,860 --> 00:25:45,399

okay and that's referring to the guys

656

00:25:48,539 --> 00:25:46,870

that were operating the tic tacs

657

00:25:50,340 --> 00:25:48,549

basically you know that's referring to

658

00:25:51,720 --> 00:25:50,350

the guys that went and picked up the

659

00:25:53,850 --> 00:25:51,730

data from the ship

660

00:25:55,259 --> 00:25:53,860

gotcha the two guys right yeah I think

661

00:25:57,779 --> 00:25:55,269

there were more than two I'm not a

662

00:26:01,049 --> 00:25:57,789

hundred percent positive but I'm fairly

663

00:26:02,850 --> 00:26:01,059

certain there were more than two they

664

00:26:04,200 --> 00:26:02,860

may have only seen two guys in fleiss's

665

00:26:07,200 --> 00:26:04,210

to come in but I believe there were more

666

00:26:14,060 --> 00:26:07,210

than two yeah and we covered this in a

667

00:26:19,230 --> 00:26:16,919

McMillan who did a big article for

668

00:26:22,950 --> 00:26:19,240

Popular Mechanics and has another one

669

00:26:25,230 --> 00:26:22,960

coming out on Vice but he did extensive

670

00:26:29,789 --> 00:26:25,240

interviews with all those guys

671

00:26:32,009 --> 00:26:29,799

and you're doing to find out by the way

672

00:26:38,940 --> 00:26:32,019

yeah I did I read the article yesterday

673

00:26:40,289 --> 00:26:38,950

yeah and those guys say that they were

674

00:26:41,999 --> 00:26:40,299

the main ones tall in the story

675

00:26:43,949 --> 00:26:42,009

that the stuff was picked up it was

676

00:26:47,029 --> 00:26:43,959

picked up off the Princeton and off the

677

00:26:49,139 --> 00:26:47,039

Nimitz and there was a slight

678

00:26:51,089 --> 00:26:49,149

contradiction or controversy because

679

00:26:52,799 --> 00:26:51,099

flavor said oh nobody came and picked up

680

00:26:54,930 --> 00:26:52,809

anything in these guys were saying

681

00:26:57,029 --> 00:26:54,940

that's the problem yeah they did yeah so

682

00:26:59,159 --> 00:26:57,039

favored me not I don't know why he would

683

00:27:00,329 --> 00:26:59,169

say that he made I've been privy to it I

684

00:27:03,539 --> 00:27:00,339

mean he might have been somewhere else

685

00:27:07,529 --> 00:27:03,549

he should have been I would think okay

686

00:27:10,829 --> 00:27:07,539

so he said Ann left Princeton bound for

687

00:27:13,259 --> 00:27:10,839

van den Berghe and plant 42 and then

688

00:27:15,479 --> 00:27:13,269

home the following week so you're saying

689

00:27:18,810 --> 00:27:15,489

that the two or more guys who picked up

690

00:27:20,279 --> 00:27:18,820

all of the hard drives or tape or

691

00:27:23,190 --> 00:27:20,289

whatever else they would have picked up

692

00:27:27,329 --> 00:27:23,200

right all the evidence they left the

693

00:27:29,549 --> 00:27:27,339

Princeton no matter which order I may

694

00:27:31,139 --> 00:27:29,559

have the Vandenberg in playing 42 order

695

00:27:33,180 --> 00:27:31,149

backwards or what-have-you

696

00:27:35,219 --> 00:27:33,190

so I can understand why they go to plant

697

00:27:37,979 --> 00:27:35,229

42 why did they go to Vandenberg that's

698

00:27:39,899 --> 00:27:37,989

where the that's where they were phone

699

00:27:42,419 --> 00:27:39,909

actually out of they've they flew out

700

00:27:44,699 --> 00:27:42,429

from Vandenberg out the eighties and

701
00:27:46,409 --> 00:27:44,709
then down the coast and then they went

702
00:27:49,739 --> 00:27:46,419
home the following week meaning home

703
00:27:53,329 --> 00:27:49,749
back to wright-patterson in Ohio yeah so

704
00:27:56,749 --> 00:27:53,339
the guys that came to the Princeton and

705
00:27:59,279 --> 00:27:56,759
the Nimitz to pick up all the evidence

706
00:28:01,889 --> 00:27:59,289
originally had come out from Ohio on the

707
00:28:03,629 --> 00:28:01,899
special temporary duty assignment to

708
00:28:05,519 --> 00:28:03,639
pick this stuff up yeah and I don't know

709
00:28:07,379 --> 00:28:05,529
how long that that assignment was I

710
00:28:11,519 --> 00:28:07,389
don't know if there was there was you

711
00:28:12,719 --> 00:28:11,529
know several weeks of of beforehand you

712
00:28:15,509 --> 00:28:12,729
know setting up and getting information

713
00:28:17,009 --> 00:28:15,519

or learning the ship's operations and

714

00:28:18,779 --> 00:28:17,019

stuff like that but obviously the

715

00:28:22,289 --> 00:28:18,789

commander's you know on board knew what

716

00:28:23,729 --> 00:28:22,299

was going on they were in I believe I've

717

00:28:25,889 --> 00:28:23,739

now since found out they were in

718

00:28:31,109 --> 00:28:25,899

Admirals quarters and what-have-you

719

00:28:32,819 --> 00:28:31,119

so the guys were were there's I mean

720

00:28:34,619 --> 00:28:32,829

it's quite clear okay this was an Air

721

00:28:35,310 --> 00:28:34,629

Force operation in conjunction with

722

00:28:41,759 --> 00:28:35,320

DARPA

723

00:28:43,589 --> 00:28:41,769

yeah maybe Navy research lab to test the

724

00:28:46,079 --> 00:28:43,599

craft commonly referred to as tic-tac

725

00:28:47,940 --> 00:28:46,089

your tech tech group were made at plant

726

00:28:50,999 --> 00:28:47,950

42 we've talked about that before in

727

00:28:52,739 --> 00:28:51,009

trucked to Vandenberg and 53-foot trucks

728

00:28:54,390 --> 00:28:52,749

that was a question I had

729

00:28:57,510 --> 00:28:54,400

why were they take

730

00:29:00,840 --> 00:28:57,520

Vandenburg the tic-tacs i well the thing

731

00:29:02,970 --> 00:29:00,850

is that as far as i know the information

732

00:29:05,370 --> 00:29:02,980

that I've received is that they have not

733

00:29:07,080 --> 00:29:05,380

flown them out of plant 42 they didn't

734

00:29:09,780 --> 00:29:07,090

just like take off and go and go to

735

00:29:11,520 --> 00:29:09,790

their destination so they're one of the

736

00:29:14,580 --> 00:29:11,530

bases that I believe would be would

737

00:29:17,250 --> 00:29:14,590

operate them as vandenberg or Beale but

738

00:29:21,030 --> 00:29:17,260

mainly Vandenberg vania burgers are good

739

00:29:23,520 --> 00:29:21,040

for this particular incident it has its

740

00:29:26,040 --> 00:29:23,530

own corridor going out to the ocean they

741

00:29:29,310 --> 00:29:26,050

could dip down come back in the 1880s

742

00:29:32,730 --> 00:29:29,320

we're exactly as Vandenberg Ventura if

743

00:29:35,580 --> 00:29:32,740

you head Ventura California and

744

00:29:38,640 --> 00:29:35,590

relatively close to the coast yep yes

745

00:29:40,650 --> 00:29:38,650

right handles the lot of the space

746

00:29:42,600 --> 00:29:40,660

operations so for lack of a better word

747

00:29:45,330 --> 00:29:42,610

that would be a safer place to have them

748

00:29:47,760 --> 00:29:45,340

leave from to go do their exercises over

749

00:29:50,190 --> 00:29:47,770

the water as opposed to well at 42 which

750

00:29:53,460 --> 00:29:50,200

is out halfway to Vegas yeah well yeah

751

00:29:55,440 --> 00:29:53,470

plant 42 is just inside the mountains

752

00:29:56,670 --> 00:29:55,450

and you know but you could I mean you

753

00:29:59,010 --> 00:29:56,680

could do a lot of things there no one

754

00:30:01,110 --> 00:29:59,020

would ever see it now but I guess why

755

00:30:01,680 --> 00:30:01,120

not just fly it direct from plant 42 out

756

00:30:04,500 --> 00:30:01,690

to the ocean

757

00:30:07,470 --> 00:30:04,510

that I don't know the the idea for the

758

00:30:08,820 --> 00:30:07,480

for the trucks is that I know this this

759

00:30:11,010 --> 00:30:08,830

is the speculation part because I don't

760

00:30:13,800 --> 00:30:11,020

have this answer but the size that they

761

00:30:16,260 --> 00:30:13,810

were were made and I think you had

762

00:30:18,750 --> 00:30:16,270

mentioned in the in the show with I

763

00:30:22,230 --> 00:30:18,760

think it was two men maybe was Tim that

764

00:30:24,060 --> 00:30:22,240

the size was or you were basically

765

00:30:25,770 --> 00:30:24,070

staying what I said this I was the size

766

00:30:27,240 --> 00:30:25,780

is around forty six feet but it's the

767

00:30:30,630 --> 00:30:27,250

same length or very similar to the same

768

00:30:32,850 --> 00:30:30,640

length as f-18 the width however is a

769

00:30:34,110 --> 00:30:32,860

little bit more narrow than I think was

770

00:30:35,970 --> 00:30:34,120

it was well I think I said something

771

00:30:38,550 --> 00:30:35,980

like 20 feet yeah but what do you think

772

00:30:40,440 --> 00:30:38,560

with this I don't know exactly but I

773

00:30:42,030 --> 00:30:40,450

believe it's small enough to fit on a

774

00:30:45,030 --> 00:30:42,040

truck to where it would not have to be

775

00:30:46,170 --> 00:30:45,040

so far oversized or oversized possibly

776

00:30:47,760 --> 00:30:46,180

at all so if you saw one of these trucks

777

00:30:51,090 --> 00:30:47,770

driving down the road it would look like

778

00:30:52,710 --> 00:30:51,100

a normal 18-wheeler marine you say the

779

00:30:54,570 --> 00:30:52,720

tic-tac is about forty six feet long so

780

00:30:57,810 --> 00:30:54,580

they can be trucked from Vandenberg they

781

00:31:03,630 --> 00:30:57,820

were flown low in slow via RPA which is

782

00:31:06,510 --> 00:31:03,640

remote pilot pilots out past ADIZ that

783

00:31:07,660 --> 00:31:06,520

that's the lady the eysie is a line that

784

00:31:08,980 --> 00:31:07,670

certain that goes

785

00:31:10,990 --> 00:31:08,990

the United States said of aircraft

786

00:31:12,730 --> 00:31:11,000

coming into the United States they cross

787

00:31:15,460 --> 00:31:12,740

that line they have to identify they

788

00:31:17,920 --> 00:31:15,470

come in okay and dipped in just below

789

00:31:20,350 --> 00:31:17,930

San Clemente Island below normal radar

790

00:31:22,600 --> 00:31:20,360

right now here's there's the here's the

791

00:31:25,930 --> 00:31:22,610

iffy part I don't there's this there's

792

00:31:26,470 --> 00:31:25,940

Ana Navy installation on on San Clemente

793

00:31:29,260 --> 00:31:26,480

Island

794

00:31:31,930 --> 00:31:29,270

I don't know how active it is or if they

795

00:31:33,610 --> 00:31:31,940

flew them there drop in there and waited

796

00:31:34,840 --> 00:31:33,620

and that was like some sort of station

797

00:31:37,690 --> 00:31:34,850

they would go back and forth like that I

798

00:31:39,790 --> 00:31:37,700

don't know but I do know that they that

799

00:31:41,380 --> 00:31:39,800

their path supposedly from my the

800

00:31:43,240 --> 00:31:41,390

information I gathered was from

801
00:31:45,220 --> 00:31:43,250
Vandenberg down there and then they

802
00:31:49,630 --> 00:31:45,230
dipped into the the training area where

803
00:31:52,540 --> 00:31:49,640
the yeah from their spy one be mmm my

804
00:31:54,400 --> 00:31:52,550
one brother which is that's the phased

805
00:31:56,410 --> 00:31:54,410
array radar that's on the Princeton okay

806
00:31:58,420 --> 00:31:56,420
should have acquired their tracks after

807
00:32:02,440 --> 00:31:58,430
that it was all United States Air Force

808
00:32:04,630 --> 00:32:02,450
testing how Nimitz CIC which is see a

809
00:32:06,280 --> 00:32:04,640
comment Information Center would respond

810
00:32:08,260 --> 00:32:06,290
in an effort to gain knowledge on how

811
00:32:10,680 --> 00:32:08,270
our own forces would react to them I

812
00:32:13,420 --> 00:32:10,690
mean one question I have about that is

813
00:32:16,450 --> 00:32:13,430

well I guess this is back in this is

814

00:32:19,120 --> 00:32:16,460

back in 2004 so they're still at that

815

00:32:22,900 --> 00:32:19,130

point relatively new but what do we know

816

00:32:24,010 --> 00:32:22,910

about if you know 15 years ago we had

817

00:32:25,120 --> 00:32:24,020

this technology and I think you're

818

00:32:27,610 --> 00:32:25,130

saying even longer than that

819

00:32:30,130 --> 00:32:27,620

what kind of advancements has there been

820

00:32:32,350 --> 00:32:30,140

since what was slow my understanding now

821

00:32:35,020 --> 00:32:32,360

is there's three variants so you have

822

00:32:37,060 --> 00:32:35,030

the original the original tic-tac then

823

00:32:38,560 --> 00:32:37,070

you have another variant which is

824

00:32:40,450 --> 00:32:38,570

commonly referred to as a gimbal and

825

00:32:42,850 --> 00:32:40,460

there's apparently another one that I

826

00:32:48,390 --> 00:32:42,860

don't think we've seen a video on that

827

00:32:51,460 --> 00:32:48,400

has a specific as a specific job to do

828

00:32:54,150 --> 00:32:51,470

wherever it's going to go which will be

829

00:32:56,890 --> 00:32:54,160

a different function than the other two

830

00:32:59,140 --> 00:32:56,900

and are they all still under the Air

831

00:33:01,390 --> 00:32:59,150

Force as far as you know no I think then

832

00:33:03,130 --> 00:33:01,400

when when you told me the Navy had the

833

00:33:04,660 --> 00:33:03,140

pen I don't think they're all now this

834

00:33:06,880 --> 00:33:04,670

part I don't know all I know is how they

835

00:33:09,370 --> 00:33:06,890

relate to the Air Force as far as I know

836

00:33:12,010 --> 00:33:09,380

they're all operated by the Air Force

837

00:33:13,540 --> 00:33:12,020

but in conjunction with someone

838

00:33:16,480 --> 00:33:13,550

commented that wait a minute if this

839

00:33:19,810 --> 00:33:16,490

thing is also conserved as an underwater

840

00:33:21,160 --> 00:33:19,820

craft slash submarine then that would be

841

00:33:22,660 --> 00:33:21,170

Navy so how could this

842

00:33:26,050 --> 00:33:22,670

Phee air force well that's that's what

843

00:33:28,630 --> 00:33:26,060

I'm getting at is I don't know past the

844

00:33:30,910 --> 00:33:28,640

air force I don't know if the Navy has

845

00:33:31,660 --> 00:33:30,920

their own variants of the craft now I'm

846

00:33:33,130 --> 00:33:31,670

sure they do

847

00:33:35,320 --> 00:33:33,140

they would have to by this point but you

848

00:33:37,180 --> 00:33:35,330

wouldn't agree that necessarily if the

849

00:33:39,100 --> 00:33:37,190

air force developed something that also

850

00:33:42,700 --> 00:33:39,110

goes underwater that they would have to

851

00:33:44,860 --> 00:33:42,710

then involve the Navy I don't think

852

00:33:46,960 --> 00:33:44,870

there's some hard written line that says

853

00:33:49,000 --> 00:33:46,970

hey if one of our craft is you know

854

00:33:51,010 --> 00:33:49,010

because the the Air Force has a lot of

855

00:33:52,540 --> 00:33:51,020

boats well first of all I think one

856

00:33:56,050 --> 00:33:52,550

thing that people have been confused by

857

00:33:58,300 --> 00:33:56,060

is that you're not saying that the Navy

858

00:34:00,430 --> 00:33:58,310

was not aware of this you're saying that

859

00:34:01,780 --> 00:34:00,440

people below a certain level at the Navy

860

00:34:03,460 --> 00:34:01,790

yeah so we're not aware of this

861

00:34:04,720 --> 00:34:03,470

absolutely what the Secretary of the

862

00:34:06,940 --> 00:34:04,730

Navy you would have known about it

863

00:34:09,280 --> 00:34:06,950

absolutely on the commander of that

864

00:34:10,960 --> 00:34:09,290

strike force has known about it as

865

00:34:12,850 --> 00:34:10,970

evidenced by their actions if these

866

00:34:15,430 --> 00:34:12,860

things would have been there they would

867

00:34:18,190 --> 00:34:15,440

have been listed as either hostile or

868

00:34:20,380 --> 00:34:18,200

something close to that if an object is

869

00:34:23,590 --> 00:34:20,390

flying around in our airspace especially

870

00:34:26,260 --> 00:34:23,600

around a carrier group and no one seemed

871

00:34:27,490 --> 00:34:26,270

to care enough to take extra action to

872

00:34:29,380 --> 00:34:27,500

take these things down and they were

873

00:34:31,419 --> 00:34:29,390

there it wasn't a one-day event this is

874

00:34:33,010 --> 00:34:31,429

over several days so as soon as you see

875

00:34:34,480 --> 00:34:33,020

these things pop up on the radar take

876

00:34:35,620 --> 00:34:34,490

them out because if you don't know

877

00:34:37,810 --> 00:34:35,630

they're on there zipping all over the

878

00:34:39,190 --> 00:34:37,820

place well let's test our missiles let's

879

00:34:40,810 --> 00:34:39,200

test our lasers and see if we can take

880

00:34:42,520 --> 00:34:40,820

these these things out and furthermore

881

00:34:44,500 --> 00:34:42,530

you wouldn't think you would send your

882

00:34:46,270 --> 00:34:44,510

f-18s out there to check them out

883

00:34:48,669 --> 00:34:46,280

without having weapons on them

884

00:34:50,080 --> 00:34:48,679

yeah no lowdown there's nothing else and

885

00:34:51,730 --> 00:34:50,090

the same thing happened off the coast of

886

00:34:55,650 --> 00:34:51,740

Jacksonville it was it was a similar

887

00:34:59,290 --> 00:34:55,660

situation so my opinion is this both

888

00:35:01,990 --> 00:34:59,300

coasts were tested using two different

889

00:35:03,730 --> 00:35:02,000

crafts two different time frames they

890

00:35:05,350 --> 00:35:03,740

almost the identical same way because

891

00:35:07,630 --> 00:35:05,360

this test down here was so successful

892

00:35:09,250 --> 00:35:07,640

that they were able to gather a lot of

893

00:35:11,410 --> 00:35:09,260

data from it and that they realized that

894

00:35:13,990 --> 00:35:11,420

okay this is working pretty well those I

895

00:35:16,630 --> 00:35:14,000

believe the tic-tac is is either fully

896

00:35:17,950 --> 00:35:16,640

operational or very close to it but I'm

897

00:35:19,870 --> 00:35:17,960

pretty sure it's operational at this

898

00:35:21,310 --> 00:35:19,880

point as far as the other craft I did

899

00:35:23,050 --> 00:35:21,320

that one I don't know if its operation

900

00:35:26,070 --> 00:35:23,060

and what do you know about how this

901
00:35:30,070 --> 00:35:26,080
craft could theoretically be weaponized

902
00:35:31,660 --> 00:35:30,080
that that is now this is me going off of

903
00:35:34,130 --> 00:35:31,670
the information I have as far as I know

904
00:35:36,230 --> 00:35:34,140
the craft cannot lon

905
00:35:37,370 --> 00:35:36,240
you can't open up a bay door and start

906
00:35:39,770 --> 00:35:37,380
dropping bombs and things like that

907
00:35:41,330 --> 00:35:39,780
because that will disrupt whatever you

908
00:35:43,880 --> 00:35:41,340
know the Vacaville or whatever is around

909
00:35:45,500 --> 00:35:43,890
it that's my understanding no but I

910
00:35:47,060 --> 00:35:45,510
don't know that for sure because I don't

911
00:35:49,580 --> 00:35:47,070
know the propulsion I believe the

912
00:35:51,920 --> 00:35:49,590
understanding I have is that based on

913
00:35:54,950 --> 00:35:51,930

the particular contractor that made

914

00:35:57,650 --> 00:35:54,960

tick-tack or the contractors that made

915

00:36:01,120 --> 00:35:57,660

tick-tack is that its purpose was more

916

00:36:02,810 --> 00:36:01,130

geared towards some form of surveillance

917

00:36:04,190 --> 00:36:02,820

activity you know the gathering

918

00:36:05,240 --> 00:36:04,200

intelligence and stuff like that because

919

00:36:07,070 --> 00:36:05,250

you can put them on point anywhere in

920

00:36:10,130 --> 00:36:07,080

the planet in 17 minutes so that's

921

00:36:12,620 --> 00:36:10,140

that's important so I believe that's

922

00:36:14,480 --> 00:36:12,630

that's it for that one now as far as you

923

00:36:15,859 --> 00:36:14,490

know the classic let's eventually learn

924

00:36:17,120 --> 00:36:15,869

how to weaponize it well yeah maybe you

925

00:36:18,560 --> 00:36:17,130

can put a laser on it than my fire

926
00:36:20,660 --> 00:36:18,570
through may not affect it but that I

927
00:36:22,160 --> 00:36:20,670
don't know I'm not that good and I know

928
00:36:24,080 --> 00:36:22,170
you keep saying you don't sure about the

929
00:36:25,940 --> 00:36:24,090
propulsion or source of energy but is it

930
00:36:28,310 --> 00:36:25,950
your understanding that there's been

931
00:36:30,500 --> 00:36:28,320
some major breakthrough when it comes to

932
00:36:33,820 --> 00:36:30,510
energy absolute creation that's on this

933
00:36:37,300 --> 00:36:33,830
craft mhm and something that could have

934
00:36:40,280 --> 00:36:37,310
relevance to energy production for

935
00:36:42,050 --> 00:36:40,290
domestic use absolutely and then the

936
00:36:44,270 --> 00:36:42,060
reason why I say that is because these

937
00:36:46,670 --> 00:36:44,280
things were airborne for a very long

938
00:36:48,470 --> 00:36:46,680

period of time obviously the amount of

939

00:36:50,500 --> 00:36:48,480

energy that what you would think would

940

00:36:53,330 --> 00:36:50,510

be necessary to keep a craft like this

941

00:36:57,800 --> 00:36:53,340

loft and do the actions that it does

942

00:37:00,500 --> 00:36:57,810

would be enormous or maybe not maybe now

943

00:37:04,040 --> 00:37:00,510

we have the nuclear reactors we have on

944

00:37:06,950 --> 00:37:04,050

subs well in all Oliver's and in fact

945

00:37:09,560 --> 00:37:06,960

our crackers there are cuff carriers are

946

00:37:11,630 --> 00:37:09,570

nuclear-powered right many of us are but

947

00:37:14,090 --> 00:37:11,640

I imagine it's a I don't know what the

948

00:37:16,160 --> 00:37:14,100

size of the reactor is well we'll keep

949

00:37:18,590 --> 00:37:16,170

in mind nuclear power there you're not

950

00:37:22,160 --> 00:37:18,600

getting the power directly from the

951
00:37:24,080 --> 00:37:22,170
nuclear fuel source it is heating up you

952
00:37:26,180 --> 00:37:24,090
know other you know chemicals are reward

953
00:37:27,859 --> 00:37:26,190
or what have you to create steam to turn

954
00:37:30,410 --> 00:37:27,869
the turbines to make the engines go

955
00:37:31,820 --> 00:37:30,420
that's how that basically works it's not

956
00:37:34,400 --> 00:37:31,830
like you take your little nuclear pellet

957
00:37:36,290 --> 00:37:34,410
put it inside and you can run a city it

958
00:37:37,730 --> 00:37:36,300
doesn't work that so but so yeah the

959
00:37:39,440 --> 00:37:37,740
ultimate question is could the same type

960
00:37:42,620 --> 00:37:39,450
of nuclear power that generates our

961
00:37:46,380 --> 00:37:42,630
submarines and our aircraft carriers be

962
00:37:47,850 --> 00:37:46,390
on a tic-tac I I can pray

963
00:37:50,010 --> 00:37:47,860

let's put it this way my opinion is

964

00:37:52,800 --> 00:37:50,020

absolutely this is not a nuclear powered

965

00:37:55,950 --> 00:37:52,810

craft not nuclear-powered not new to the

966

00:37:57,360 --> 00:37:55,960

pirate I don't know so once again that

967

00:37:59,340 --> 00:37:57,370

would be a technology now that's been

968

00:38:01,260 --> 00:37:59,350

around for twenty years and we're not

969

00:38:03,420 --> 00:38:01,270

seeing any real-world application of

970

00:38:06,480 --> 00:38:03,430

this tremendous new form of energy

971

00:38:09,540 --> 00:38:06,490

you're seeing there's several well the

972

00:38:11,250 --> 00:38:09,550

problem is the balance one is the

973

00:38:12,840 --> 00:38:11,260

obviously the propulsion you know

974

00:38:14,250 --> 00:38:12,850

getting it to move and the other is the

975

00:38:17,010 --> 00:38:14,260

power source to give it the propulsion

976

00:38:17,550 --> 00:38:17,020

so how those two interact with each

977

00:38:20,190 --> 00:38:17,560

other

978

00:38:22,590 --> 00:38:20,200

I don't know but what I'm saying is if

979

00:38:24,240 --> 00:38:22,600

this power source is revolutionary then

980

00:38:26,790 --> 00:38:24,250

that means it has real-world application

981

00:38:29,460 --> 00:38:26,800

and the US government is holding out on

982

00:38:31,260 --> 00:38:29,470

putting that to use domestically which

983

00:38:32,400 --> 00:38:31,270

could be great for climate change it

984

00:38:35,550 --> 00:38:32,410

could be great for the cost of energy

985

00:38:37,170 --> 00:38:35,560

etc well I think it's technology that's

986

00:38:39,360 --> 00:38:37,180

already been worked on in the civilian

987

00:38:40,260 --> 00:38:39,370

sector and keep in mind the technology

988

00:38:43,410 --> 00:38:40,270

for what would be considered

989

00:38:46,320 --> 00:38:43,420

anti-gravity has been worked on for a

990

00:38:48,990 --> 00:38:46,330

hundred years you know so with with very

991

00:38:52,590 --> 00:38:49,000

little success but there has been some

992

00:38:55,050 --> 00:38:52,600

measurable advances but nothing -

993

00:38:57,690 --> 00:38:55,060

nothing I mean this this is you went

994

00:39:00,630 --> 00:38:57,700

from A to Z there was no there was

995

00:39:01,890 --> 00:39:00,640

nothing once they figured this out and

996

00:39:03,570 --> 00:39:01,900

they flipped the switch and it was ready

997

00:39:05,640 --> 00:39:03,580

to go by the way did you learn anything

998

00:39:07,320 --> 00:39:05,650

more about the universities that it came

999

00:39:11,100 --> 00:39:07,330

from you had mentioned Dundee which is

1000

00:39:16,500 --> 00:39:11,110

out of Scotland hmm and we came upon a

1001
00:39:19,590 --> 00:39:16,510
name of a guy sandy sandy Kim Kidd sorry

1002
00:39:20,130 --> 00:39:19,600
is that that name rings a bell that

1003
00:39:22,890 --> 00:39:20,140
rings a bell

1004
00:39:24,600 --> 00:39:22,900
and as someone associated with not with

1005
00:39:25,980 --> 00:39:24,610
it okay here's here's the thing about it

1006
00:39:31,680 --> 00:39:25,990
I was supposed to test him on that I was

1007
00:39:34,280 --> 00:39:31,690
supposed to see yeah what kid did was he

1008
00:39:37,260 --> 00:39:34,290
created a device that essentially

1009
00:39:39,780 --> 00:39:37,270
lessened the mass of an object okay it

1010
00:39:41,100 --> 00:39:39,790
was very I mean then the measurement

1011
00:39:42,840 --> 00:39:41,110
would be so low that it would be

1012
00:39:45,300 --> 00:39:42,850
impractical to think that there would be

1013
00:39:48,480 --> 00:39:45,310

yeah like a three percent reduction in

1014

00:39:51,960 --> 00:39:48,490

the weight of it or the mass 0.3 it was

1015

00:39:53,910 --> 00:39:51,970

just ridiculously low so that you know

1016

00:39:55,500 --> 00:39:53,920

once once and once I said that I knew

1017

00:39:57,210 --> 00:39:55,510

someone would go well this guy's

1018

00:39:58,620 --> 00:39:57,220

obviously crazy because there's no way

1019

00:39:59,480 --> 00:39:58,630

in hell they could have taken his

1020

00:40:01,850 --> 00:39:59,490

technology and there

1021

00:40:04,310 --> 00:40:01,860

that much when it only you know produced

1022

00:40:06,470 --> 00:40:04,320

a point three percent variance in the in

1023

00:40:08,030 --> 00:40:06,480

the weight of an object but the Russians

1024

00:40:11,500 --> 00:40:08,040

were also working on in nineteen ninety

1025

00:40:14,030 --> 00:40:11,510

two a Russian came out with with their

1026
00:40:16,250 --> 00:40:14,040
variation of how to you know reduce the

1027
00:40:18,200 --> 00:40:16,260
mass of an object and the whole idea is

1028
00:40:20,270 --> 00:40:18,210
to reduce either reduce the mass of an

1029
00:40:21,830 --> 00:40:20,280
object or to create a repulsive force

1030
00:40:24,710 --> 00:40:21,840
that the object can actually ride

1031
00:40:26,540 --> 00:40:24,720
through or a combination thereof that's

1032
00:40:27,830 --> 00:40:26,550
the part where it's tricky that's the

1033
00:40:29,210 --> 00:40:27,840
part I don't claim to have all the

1034
00:40:31,550 --> 00:40:29,220
answers but I've looked into it just

1035
00:40:33,320 --> 00:40:31,560
like anyone else I can talk about it but

1036
00:40:35,960 --> 00:40:33,330
when I talk about those subjects it's

1037
00:40:38,030 --> 00:40:35,970
not from me knowing it from the sources

1038
00:40:39,500 --> 00:40:38,040

saying okay well yeah Mike knows the

1039

00:40:40,760 --> 00:40:39,510

propulsion you know is this any the guys

1040

00:40:42,200 --> 00:40:40,770

obviously I could just sit there and

1041

00:40:43,040 --> 00:40:42,210

read the internet all day long and come

1042

00:40:45,470 --> 00:40:43,050

up with all this stuff

1043

00:40:50,000 --> 00:40:45,480

but that's not that's not the case so

1044

00:40:52,070 --> 00:40:50,010

the propulsion is different and it's a

1045

00:40:55,700 --> 00:40:52,080

whole nother things not nuclear as far

1046

00:41:00,140 --> 00:40:55,710

as I know but as far as the anti gravity

1047

00:41:02,420 --> 00:41:00,150

effect of it that was studied it's using

1048

00:41:04,120 --> 00:41:02,430

technology that would have come from

1049

00:41:07,160 --> 00:41:04,130

some of the dundee experiences

1050

00:41:09,170 --> 00:41:07,170

experiments some of the 1992 russian

1051

00:41:11,720 --> 00:41:09,180

paper that came out and also north

1052

00:41:14,570 --> 00:41:11,730

carolina university areas you know Tar

1053

00:41:16,010 --> 00:41:14,580

Heels mmm-hmm so that's the second that

1054

00:41:18,260 --> 00:41:16,020

would be one of the ones that had is

1055

00:41:20,960 --> 00:41:18,270

there a name of someone there that I

1056

00:41:22,760 --> 00:41:20,970

don't you can just like you found sandy

1057

00:41:25,609 --> 00:41:22,770

I don't know the names of I know that

1058

00:41:27,500 --> 00:41:25,619

they created their own internal research

1059

00:41:29,750 --> 00:41:27,510

for anti-gravity and that they've had

1060

00:41:32,000 --> 00:41:29,760

some limited success but I think what's

1061

00:41:34,280 --> 00:41:32,010

happening is is that when DARPA gets

1062

00:41:37,190 --> 00:41:34,290

involved and that this is this is where

1063

00:41:38,840 --> 00:41:37,200

the magic happens when the universities

1064

00:41:39,260 --> 00:41:38,850

do they're they're experimenting or

1065

00:41:42,260 --> 00:41:39,270

what-have-you

1066

00:41:45,200 --> 00:41:42,270

they can only go so far DARPA has the

1067

00:41:47,359 --> 00:41:45,210

pockets and DARPA can push a program a

1068

00:41:49,010 --> 00:41:47,369

certain direction if you can if DARPA

1069

00:41:50,990 --> 00:41:49,020

can use something as a weapon or as

1070

00:41:54,410 --> 00:41:51,000

something for the military money just

1071

00:41:56,330 --> 00:41:54,420

instantly appears but for the civilian

1072

00:41:58,070 --> 00:41:56,340

sector not so much but keep in mind

1073

00:42:01,250 --> 00:41:58,080

there are several civilian companies

1074

00:42:04,099 --> 00:42:01,260

that are working on these two or three

1075

00:42:06,770 --> 00:42:04,109

crafts that that we're all fairly

1076

00:42:08,750 --> 00:42:06,780

familiar with that are not the big

1077

00:42:10,010 --> 00:42:08,760

military contractors that were also

1078

00:42:11,570 --> 00:42:10,020

familiar with so you've got some new

1079

00:42:13,400 --> 00:42:11,580

players in this field

1080

00:42:16,100 --> 00:42:13,410

yeah well Nick cook was talking about

1081

00:42:18,230 --> 00:42:16,110

the size of this black project budget

1082

00:42:19,730 --> 00:42:18,240

essentially and that he says a lot of

1083

00:42:21,800 --> 00:42:19,740

the dollars started in the Reagan

1084

00:42:24,770 --> 00:42:21,810

administration and have only gone up

1085

00:42:25,760 --> 00:42:24,780

since then to the point of he's now as

1086

00:42:27,230 --> 00:42:25,770

to me I think in those days he was

1087

00:42:28,550 --> 00:42:27,240

estimating about ten billion a year and

1088

00:42:29,660 --> 00:42:28,560

now he's estimating about thirty billion

1089

00:42:33,140 --> 00:42:29,670

that sounds familiar

1090

00:42:34,490 --> 00:42:33,150

yeah yeah on the first show but I did

1091

00:42:36,230 --> 00:42:34,500

say that this money came out of the

1092

00:42:37,850 --> 00:42:36,240

starwars program and that I guess he

1093

00:42:39,530 --> 00:42:37,860

basically backed me up on it yeah yeah

1094

00:42:41,780 --> 00:42:39,540

well he definitely backed you up on the

1095

00:42:44,300 --> 00:42:41,790

Reagan administration he was relating it

1096

00:42:47,210 --> 00:42:44,310

a little bit more to the stealth

1097

00:42:49,160 --> 00:42:47,220

technologies of the I knows it the b-1

1098

00:42:51,440 --> 00:42:49,170

bomber and but what about basically

1099

00:42:53,510 --> 00:42:51,450

original self plans well as far as this

1100

00:42:54,620 --> 00:42:53,520

the stealth technology a lot of it

1101

00:42:55,580 --> 00:42:54,630

depends on which type of stealth

1102

00:42:57,650 --> 00:42:55,590

technology when you're talking about

1103

00:42:59,210 --> 00:42:57,660

reproducing a radar cross signature of

1104

00:43:01,280 --> 00:42:59,220

an aircraft then you're talking Lockheed

1105

00:43:03,440 --> 00:43:01,290

has there's that lockdown as far as the

1106

00:43:05,060 --> 00:43:03,450

the all the technology behind it when

1107

00:43:07,340 --> 00:43:05,070

you when you're talking about passive

1108

00:43:09,080 --> 00:43:07,350

and active systems of camouflage of

1109

00:43:11,840 --> 00:43:09,090

actively being like me being right here

1110

00:43:13,430 --> 00:43:11,850

I'm going that's not you're not dealing

1111

00:43:15,080 --> 00:43:13,440

with radar cross-section at that point

1112

00:43:18,350 --> 00:43:15,090

you're dealing with you know what we

1113

00:43:20,000 --> 00:43:18,360

talked about before so that technology

1114

00:43:23,090 --> 00:43:20,010

is actually coming out from from

1115

00:43:24,200 --> 00:43:23,100

brand-new players in in this area so

1116

00:43:25,970 --> 00:43:24,210

you're looking at that but you're

1117

00:43:27,890 --> 00:43:25,980

looking at the usuals the Boeing the

1118

00:43:29,090 --> 00:43:27,900

Raytheon the all the other companies

1119

00:43:31,160 --> 00:43:29,100

that have some sort of play in a

1120

00:43:33,740 --> 00:43:31,170

variation of this or one that may be

1121

00:43:35,540 --> 00:43:33,750

coming out down the road yeah he also

1122

00:43:37,370 --> 00:43:35,550

confirmed that something like this in

1123

00:43:39,110 --> 00:43:37,380

his mind could be kept a secret because

1124

00:43:40,400 --> 00:43:39,120

that's one of the things I struggle with

1125

00:43:41,510 --> 00:43:40,410

is I just can't imagine how they'd be

1126

00:43:44,270 --> 00:43:41,520

kept secret base and that stealth

1127

00:43:46,310 --> 00:43:44,280

technology was kept secret for very very

1128

00:43:49,160 --> 00:43:46,320

long before we're finally well yet have

1129

00:43:51,560 --> 00:43:49,170

blue which is the the originator the the

1130

00:43:55,760 --> 00:43:51,570

precursor to the Nighthawk which is the

1131

00:43:58,640 --> 00:43:55,770

f-117 a so the from have blue to us

1132

00:44:02,780 --> 00:43:58,650

actually taking a 117 a in dropping

1133

00:44:05,990 --> 00:44:02,790

bombs and South America then from that

1134

00:44:08,240 --> 00:44:06,000

timeframe is quite substantial the sr-71

1135

00:44:10,190 --> 00:44:08,250

another classic example we couldn't have

1136

00:44:12,170 --> 00:44:10,200

built that plane without Russia because

1137

00:44:14,660 --> 00:44:12,180

we needed the titanium so we kept that a

1138

00:44:16,040 --> 00:44:14,670

secret and we literally perceived the

1139

00:44:19,160 --> 00:44:16,050

titanium from Russia and built the plane

1140

00:44:20,600 --> 00:44:19,170

and flew over us so so yeah a lot of

1141

00:44:22,520 --> 00:44:20,610

these things had to be keep kept secret

1142

00:44:24,110 --> 00:44:22,530

for a long time and but keep in mind

1143

00:44:24,750 --> 00:44:24,120

that number people that worked on these

1144

00:44:27,780 --> 00:44:24,760

projects

1145

00:44:30,120 --> 00:44:27,790

now in the hundreds and thousands so to

1146

00:44:32,100 --> 00:44:30,130

keep that under wraps for that long a

1147

00:44:33,510 --> 00:44:32,110

period of time it's very difficult to do

1148

00:44:35,070 --> 00:44:33,520

and you'll have some tiny leaks that

1149

00:44:36,660 --> 00:44:35,080

come out here and there but that's also

1150

00:44:38,700 --> 00:44:36,670

why the military and the government goes

1151
00:44:40,470 --> 00:44:38,710
compartmentalized as far as some people

1152
00:44:42,390 --> 00:44:40,480
work on this aspect like somebody may

1153
00:44:44,100 --> 00:44:42,400
work on propulsion they may work on

1154
00:44:46,230 --> 00:44:44,110
something no different over here and the

1155
00:44:47,700 --> 00:44:46,240
two really don't know what that was

1156
00:44:49,860 --> 00:44:47,710
doing I think what shocked somebody like

1157
00:44:51,570 --> 00:44:49,870
Nick cook who feels like he's really on

1158
00:44:53,640 --> 00:44:51,580
the inside even though he's on the

1159
00:44:56,700 --> 00:44:53,650
outside but on the inside of what's

1160
00:44:59,610 --> 00:44:56,710
going on in military technologies and so

1161
00:45:01,020 --> 00:44:59,620
forth that in all you know and here he

1162
00:45:02,400 --> 00:45:01,030
wrote this book which was a ten year

1163
00:45:06,120 --> 00:45:02,410

research project he said about

1164

00:45:08,090 --> 00:45:06,130

zero-gravity I think he probably feels

1165

00:45:09,930 --> 00:45:08,100

he didn't expressly say this that

1166

00:45:12,900 --> 00:45:09,940

someone would have tipped him off he

1167

00:45:14,370 --> 00:45:12,910

would have had some inkling why me that

1168

00:45:16,680 --> 00:45:14,380

well I'm saying he would have had

1169

00:45:19,650 --> 00:45:16,690

himself some inkling that this exists

1170

00:45:21,600 --> 00:45:19,660

he's got zero inkling that the US has

1171

00:45:23,790 --> 00:45:21,610

developed this technology he

1172

00:45:26,400 --> 00:45:23,800

acknowledges as most scientists seem to

1173

00:45:29,040 --> 00:45:26,410

that it is theoretically possible but

1174

00:45:30,810 --> 00:45:29,050

that we're just he's got zero inkling

1175

00:45:32,340 --> 00:45:30,820

that we have anything close to this okay

1176

00:45:33,810 --> 00:45:32,350

well the problem I have with that is now

1177

00:45:35,940 --> 00:45:33,820

you're back to saying that the guys are

1178

00:45:37,830 --> 00:45:35,950

liars or that the guys did not see

1179

00:45:39,150 --> 00:45:37,840

exactly what they saw or did something

1180

00:45:41,580 --> 00:45:39,160

else was going on yeah well basically

1181

00:45:43,740 --> 00:45:41,590

well here is so here's the three options

1182

00:45:45,840 --> 00:45:43,750

for Mike Turner other than him just you

1183

00:45:48,360 --> 00:45:45,850

know tell the truth one is it's

1184

00:45:50,160 --> 00:45:48,370

disinformation which he basically says

1185

00:45:51,990 --> 00:45:50,170

Nick cook says there's a lot of

1186

00:45:53,940 --> 00:45:52,000

disinformation agents out there that is

1187

00:45:55,680 --> 00:45:53,950

a real I've never met one that's a real

1188

00:45:59,460 --> 00:45:55,690

thing but it's a real thing right I want

1189

00:46:03,390 --> 00:45:59,470

my check but disinformation agents is a

1190

00:46:05,220 --> 00:46:03,400

real thing yeah I mean not not in this

1191

00:46:07,740 --> 00:46:05,230

domestic category like this as far as

1192

00:46:10,860 --> 00:46:07,750

it's for I have never met anyone inside

1193

00:46:12,330 --> 00:46:10,870

the United States that goes out and does

1194

00:46:16,200 --> 00:46:12,340

what people think I'm doing right now

1195

00:46:18,630 --> 00:46:16,210

I've never in my life seen that but how

1196

00:46:20,580 --> 00:46:18,640

do you know I mean I'm sure I'm sure it

1197

00:46:22,380 --> 00:46:20,590

happens to some degree but where the

1198

00:46:24,510 --> 00:46:22,390

disinfo happens that I'm familiar with

1199

00:46:26,730 --> 00:46:24,520

is when we're in other countries and

1200

00:46:28,200 --> 00:46:26,740

we're trying to propagandize well those

1201
00:46:30,120 --> 00:46:28,210
pertain to other countries because we

1202
00:46:31,380 --> 00:46:30,130
may or may not want to lead them to

1203
00:46:33,810 --> 00:46:31,390
believe that we have this that was money

1204
00:46:36,330 --> 00:46:33,820
and it cooks big points is that hey

1205
00:46:38,230 --> 00:46:36,340
let's cause somebody to go get scared

1206
00:46:39,880 --> 00:46:38,240
start spending below

1207
00:46:42,370 --> 00:46:39,890
wasting billions of dollars chasing

1208
00:46:47,500 --> 00:46:42,380
something holy cow the US has this you

1209
00:46:50,020 --> 00:46:47,510
know let let shushing pings they didn't

1210
00:46:51,820 --> 00:46:50,030
China go you know yell at his people and

1211
00:46:53,620 --> 00:46:51,830
have a bunch of people killed because

1212
00:46:54,849 --> 00:46:53,630
they didn't beat the us to this etc

1213
00:46:56,589 --> 00:46:54,859

think about it this way this information

1214

00:46:59,170 --> 00:46:56,599

has been out since December 14th

1215

00:47:02,349 --> 00:46:59,180

officially or semi officially December

1216

00:47:04,540 --> 00:47:02,359

14th of 2017 since then a lot of people

1217

00:47:06,370 --> 00:47:04,550

have discussed this subject and you know

1218

00:47:09,310 --> 00:47:06,380

what I'm talking about a little bit

1219

00:47:10,420 --> 00:47:09,320

different maybe a little bit new but no

1220

00:47:12,310 --> 00:47:10,430

one from the government's come out and

1221

00:47:14,020 --> 00:47:12,320

said that we're lying no one's come out

1222

00:47:17,140 --> 00:47:14,030

and said that we're wrong and no one has

1223

00:47:19,390 --> 00:47:17,150

said anything to any to anything that

1224

00:47:21,220 --> 00:47:19,400

anyone said and some and there's some

1225

00:47:23,020 --> 00:47:21,230

some thoughts to go behind that to say

1226

00:47:24,370 --> 00:47:23,030

well they're not gonna get involved

1227

00:47:26,470 --> 00:47:24,380

because now you're getting into the you

1228

00:47:28,750 --> 00:47:26,480

know kind of some conspiracy realm the

1229

00:47:30,940 --> 00:47:28,760

problem is you have actual guys that are

1230

00:47:32,980 --> 00:47:30,950

trained to observe and that's what they

1231

00:47:36,280 --> 00:47:32,990

did they observe things and they

1232

00:47:38,740 --> 00:47:36,290

reported them and now they're getting

1233

00:47:40,599 --> 00:47:38,750

essentially well they're getting their

1234

00:47:42,730 --> 00:47:40,609

vindication out a little bit I hope they

1235

00:47:45,220 --> 00:47:42,740

feel that but at the same time they also

1236

00:47:48,370 --> 00:47:45,230

went through a lot of Hell many many

1237

00:47:50,109 --> 00:47:48,380

years behind the scenes without anyone

1238

00:47:52,530 --> 00:47:50,119

knowing of sitting there night after

1239

00:47:54,700 --> 00:47:52,540

night thinking back probably going wow

1240

00:47:56,290 --> 00:47:54,710

that's sticking out my mind I want to

1241

00:47:58,599 --> 00:47:56,300

know that it's just like if you've ever

1242

00:48:00,120 --> 00:47:58,609

seen a UFO or seeing a ghost or seen

1243

00:48:02,589 --> 00:48:00,130

anything out of the ordinary

1244

00:48:04,839 --> 00:48:02,599

you probably think back on it

1245

00:48:08,560 --> 00:48:04,849

periodically and it may bother you this

1246

00:48:10,630 --> 00:48:08,570

however is not you it's many people saw

1247

00:48:12,849 --> 00:48:10,640

this and many people experienced it and

1248

00:48:16,000 --> 00:48:12,859

their stories are checking out you know

1249

00:48:18,520 --> 00:48:16,010

I have an issue with someone coming

1250

00:48:20,170 --> 00:48:18,530

through who was a part of it almost in a

1251
00:48:22,630 --> 00:48:20,180
roundabout way discrediting the other

1252
00:48:25,000 --> 00:48:22,640
guys I have a problem with that but I

1253
00:48:28,270 --> 00:48:25,010
one none in the know I wasn't inside

1254
00:48:30,640 --> 00:48:28,280
that group and could point you know

1255
00:48:32,710 --> 00:48:30,650
either direction and say well he's right

1256
00:48:34,570 --> 00:48:32,720
or he's right you know farmers right for

1257
00:48:38,710 --> 00:48:34,580
what he or whatever his name is I favor

1258
00:48:41,020 --> 00:48:38,720
in favor you know he's in my opinion I

1259
00:48:43,270 --> 00:48:41,030
feel badly for the other guys because

1260
00:48:45,010 --> 00:48:43,280
it's almost like he's kind of saying

1261
00:48:46,540 --> 00:48:45,020
well you guys might be embellishing this

1262
00:48:48,609 --> 00:48:46,550
a little bit you're you're stretching

1263
00:48:50,740 --> 00:48:48,619

stuff order and I don't feel they are I

1264

00:48:52,120 --> 00:48:50,750

feel their stories are accurate I am

1265

00:48:54,880 --> 00:48:52,130

based on my knowledge

1266

00:48:57,400 --> 00:48:54,890

of what I have seen in her and listen to

1267

00:48:59,860 --> 00:48:57,410

the columns myself that yeah it's it's

1268

00:49:03,480 --> 00:48:59,870

it's exactly as they say and he his

1269

00:49:05,890 --> 00:49:03,490

comms were part of those cops so so

1270

00:49:07,420 --> 00:49:05,900

disinformation you're saying doesn't

1271

00:49:10,420 --> 00:49:07,430

make sense the US government wouldn't

1272

00:49:13,230 --> 00:49:10,430

want to lead people to believe falsely

1273

00:49:16,710 --> 00:49:13,240

that this is us technology and therefore

1274

00:49:18,700 --> 00:49:16,720

not get an edge on its opponents or

1275

00:49:20,500 --> 00:49:18,710

believe that it's not an extra

1276

00:49:23,170 --> 00:49:20,510

terrestrial we could flip that coin all

1277

00:49:25,900 --> 00:49:23,180

day long and it's gonna be 50/50 flip

1278

00:49:27,820 --> 00:49:25,910

each time the situation there is is that

1279

00:49:30,400 --> 00:49:27,830

you're look you're taking a situation or

1280

00:49:32,950 --> 00:49:30,410

you're taking a technology and you're

1281

00:49:34,690 --> 00:49:32,960

saying you're either bluffing that you

1282

00:49:36,430 --> 00:49:34,700

have it and you want them to go waste a

1283

00:49:39,190 --> 00:49:36,440

bunch of dollars to try to duplicate you

1284

00:49:40,420 --> 00:49:39,200

or you actually do have it and you want

1285

00:49:42,370 --> 00:49:40,430

them to waste a bunch of dollars trying

1286

00:49:44,530 --> 00:49:42,380

to duplicate you either way the results

1287

00:49:46,000 --> 00:49:44,540

the same you're you're not gaining

1288

00:49:47,350 --> 00:49:46,010

anything so that you're they're gonna be

1289

00:49:49,300 --> 00:49:47,360

spinning their wheels trying to trying

1290

00:49:51,130 --> 00:49:49,310

to do this either way so I don't think

1291

00:49:53,620 --> 00:49:51,140

so I don't think that would be the case

1292

00:49:57,160 --> 00:49:53,630

and in my experience with the government

1293

00:49:58,930 --> 00:49:57,170

as far as doing disinfo here you get

1294

00:50:02,110 --> 00:49:58,940

your PR people to go out and do their

1295

00:50:03,370 --> 00:50:02,120

job you know of sugarcoating things and

1296

00:50:06,000 --> 00:50:03,380

we witness that through the Vegas

1297

00:50:08,410 --> 00:50:06,010

situation so with you know Aaron rouse

1298

00:50:12,370 --> 00:50:08,420

staring down Lombardo from behind for

1299

00:50:15,550 --> 00:50:12,380

four weeks on it but was that disinfo

1300

00:50:17,080 --> 00:50:15,560

was he being told what to say and and if

1301

00:50:19,090 --> 00:50:17,090

that's the case then you have to

1302

00:50:20,770 --> 00:50:19,100

determine how much of that is us trying

1303

00:50:22,660 --> 00:50:20,780

to calm down the public or trying not to

1304

00:50:27,130 --> 00:50:22,670

create some sort of mass hysteria or

1305

00:50:29,500 --> 00:50:27,140

whatever in this case I think the

1306

00:50:30,970 --> 00:50:29,510

important the important part of the

1307

00:50:32,830 --> 00:50:30,980

story that I feel needs to get out is

1308

00:50:36,460 --> 00:50:32,840

the fact that these are not

1309

00:50:38,800 --> 00:50:36,470

extraterrestrial they are they are here

1310

00:50:41,380 --> 00:50:38,810

you know whether is even if China madam

1311

00:50:42,880 --> 00:50:41,390

or whoever make made the things but the

1312

00:50:45,430 --> 00:50:42,890

problem with that is is it that wouldn't

1313

00:50:47,080 --> 00:50:45,440

fit the story in San Diego because we

1314

00:50:48,130 --> 00:50:47,090

would have tried to take him out we

1315

00:50:49,750 --> 00:50:48,140

would there would be a lot of things

1316

00:50:51,760 --> 00:50:49,760

going on the other piece of the story

1317

00:50:55,540 --> 00:50:51,770

that's still hard to really piece

1318

00:50:57,190 --> 00:50:55,550

together is the Navy patents the 20-17

1319

00:50:58,840 --> 00:50:57,200

name Matins is like wait why are they

1320

00:51:01,480 --> 00:50:58,850

patenting something if it already exists

1321

00:51:03,820 --> 00:51:01,490

why didn't they do it under a privacy

1322

00:51:05,140 --> 00:51:03,830

shield classified shield which they

1323

00:51:07,359 --> 00:51:05,150

theoretically could have done

1324

00:51:10,599 --> 00:51:07,369

you know is that missing for

1325

00:51:11,400 --> 00:51:10,609

disinformation well we don't know what

1326

00:51:14,349 --> 00:51:11,410

that's for

1327

00:51:17,079 --> 00:51:14,359

the tic tacs have obviously been out for

1328

00:51:18,370 --> 00:51:17,089

a long time so if they've been out then

1329

00:51:21,489 --> 00:51:18,380

that technology has already been

1330

00:51:23,079 --> 00:51:21,499

patented and is it different technology

1331

00:51:24,370 --> 00:51:23,089

than the nature I mean maybe it is it

1332

00:51:26,950 --> 00:51:24,380

certainly seems to be describing a

1333

00:51:29,470 --> 00:51:26,960

tic-tac if you read that yeah I agree

1334

00:51:32,410 --> 00:51:29,480

but is it another way of creating a

1335

00:51:36,099 --> 00:51:32,420

tic-tac type flying device possibly well

1336

00:51:37,299 --> 00:51:36,109

the you know with patent law everybody

1337

00:51:39,430 --> 00:51:37,309

believed there is a certain percentage

1338

00:51:41,380 --> 00:51:39,440

of change like okay we can patent this

1339

00:51:42,970 --> 00:51:41,390

like two thousand four here we have the

1340

00:51:44,529 --> 00:51:42,980

original tic-tac oh now we got a little

1341

00:51:46,660 --> 00:51:44,539

bit of a different idea let's do the

1342

00:51:47,980 --> 00:51:46,670

gimbal with a different manufacturer and

1343

00:51:50,589 --> 00:51:47,990

we'll patent that separately and that

1344

00:51:53,109 --> 00:51:50,599

way both are covered okay why would one

1345

00:51:56,289 --> 00:51:53,119

patent be publicly accessible and known

1346

00:51:58,239 --> 00:51:56,299

and the other patent not are the two

1347

00:52:00,009 --> 00:51:58,249

technologies that different or are they

1348

00:52:03,940 --> 00:52:00,019

so close that they felt that the

1349

00:52:05,259 --> 00:52:03,950

original patent you know is gonna is

1350

00:52:06,789 --> 00:52:05,269

gonna be revealed at some point in time

1351
00:52:08,170 --> 00:52:06,799
anyway so let's just go ahead and just

1352
00:52:09,789 --> 00:52:08,180
do a new patent and we'll say though

1353
00:52:12,220 --> 00:52:09,799
this is it and you have the Navy doing

1354
00:52:14,019 --> 00:52:12,230
one and Air Force doing the other then

1355
00:52:15,370 --> 00:52:14,029
the next option I guess and Michael you

1356
00:52:18,700 --> 00:52:15,380
have to weigh in if I'm not getting this

1357
00:52:21,489 --> 00:52:18,710
correctly is that somehow turbo might

1358
00:52:23,410 --> 00:52:21,499
truly believe this himself that that

1359
00:52:26,829 --> 00:52:23,420
maybe that the the government you know

1360
00:52:30,279 --> 00:52:26,839
altered reality altered perception

1361
00:52:33,130 --> 00:52:30,289
altered consciousness and that you'd be

1362
00:52:35,729 --> 00:52:33,140
amazed what the military is capable of

1363
00:52:39,160 --> 00:52:35,739

doing as far as playing with people's

1364

00:52:41,109 --> 00:52:39,170

minds well that's yet that's getting

1365

00:52:44,019 --> 00:52:41,119

into psyops and and various um the

1366

00:52:45,460 --> 00:52:44,029

cultures and things like that when you

1367

00:52:48,519 --> 00:52:45,470

get into that are they doing that to

1368

00:52:53,380 --> 00:52:48,529

this day I I'm sure they probably are is

1369

00:52:55,120 --> 00:52:53,390

this that no I don't believe that this I

1370

00:52:56,710 --> 00:52:55,130

know I'm not a part of that that's just

1371

00:52:58,180 --> 00:52:56,720

not my thats not anyone that knows me

1372

00:53:01,390 --> 00:52:58,190

knows that I would never be a part of

1373

00:53:10,569 --> 00:53:07,930

but into a room he said the key word no

1374

00:53:12,460 --> 00:53:10,579

I have never been in a situation and I

1375

00:53:15,970 --> 00:53:12,470

would never allow myself to do it I'm

1376
00:53:17,170 --> 00:53:15,980
you know I'm pro-government Pro USA Pro

1377
00:53:18,760 --> 00:53:17,180
that's whatever if you want to look at

1378
00:53:20,740 --> 00:53:18,770
it that way but at the same time

1379
00:53:23,170 --> 00:53:20,750
there's a point where the BSN's in

1380
00:53:24,340 --> 00:53:23,180
reality begins and if you have the

1381
00:53:27,180 --> 00:53:24,350
government doing things that's

1382
00:53:29,109 --> 00:53:27,190
suppressing technology and not allowing

1383
00:53:31,060 --> 00:53:29,119
civilization to move forward I got a

1384
00:53:32,800 --> 00:53:31,070
problem with that okay because it's

1385
00:53:35,050 --> 00:53:32,810
supposed to trickle out you know NASA

1386
00:53:38,920 --> 00:53:35,060
did a lot of things that we gained a lot

1387
00:53:40,330 --> 00:53:38,930
of a lot of Technology from and everyone

1388
00:53:42,280 --> 00:53:40,340

can relate to that because we've all

1389

00:53:45,340 --> 00:53:42,290

seen it but when it comes to military

1390

00:53:48,160 --> 00:53:45,350

that our first thoughts are is that this

1391

00:53:50,230 --> 00:53:48,170

is somehow bad technology because they

1392

00:53:52,210 --> 00:53:50,240

develop weapons but from those developed

1393

00:53:55,150 --> 00:53:52,220

weapons they come up with with lasers

1394

00:53:57,460 --> 00:53:55,160

that can be focused down to such a small

1395

00:53:59,020 --> 00:53:57,470

size that they can go in and start you

1396

00:54:00,820 --> 00:53:59,030

know taking out different cancers and

1397

00:54:02,800 --> 00:54:00,830

what-have-you so these technologies that

1398

00:54:04,690 --> 00:54:02,810

these contractors are coming up with in

1399

00:54:06,370 --> 00:54:04,700

these civilian companies it's something

1400

00:54:08,320 --> 00:54:06,380

that should be fostered and pushed

1401
00:54:11,680 --> 00:54:08,330
forward and I think it should be open

1402
00:54:15,609 --> 00:54:11,690
yeah I I'm of the same thought process

1403
00:54:18,730 --> 00:54:15,619
that Elan musk is that just do it give

1404
00:54:20,080 --> 00:54:18,740
it away just let everybody have it if

1405
00:54:22,810 --> 00:54:20,090
someone comes out with the competing

1406
00:54:26,740 --> 00:54:22,820
technology that you know you're they're

1407
00:54:28,359 --> 00:54:26,750
gonna use it against you you know you

1408
00:54:29,770 --> 00:54:28,369
don't you don't want necessarily like an

1409
00:54:31,359 --> 00:54:29,780
Iran to gator or something like that so

1410
00:54:33,150 --> 00:54:31,369
you still you still have to be the

1411
00:54:35,230 --> 00:54:33,160
leader of the pack but at the same time

1412
00:54:37,660 --> 00:54:35,240
some of these technologies that can

1413
00:54:39,010 --> 00:54:37,670

transform us for the better in global

1414

00:54:41,349 --> 00:54:39,020

warming and do all the different things

1415

00:54:44,290 --> 00:54:41,359

that we want to have done put your money

1416

00:54:47,800 --> 00:54:44,300

where your mouth is into it you know so

1417

00:54:50,050 --> 00:54:47,810

you are sorry your phone and or you

1418

00:54:52,000 --> 00:54:50,060

flying across country in an hour and 24

1419

00:54:54,280 --> 00:54:52,010

minutes one we got a couple of comments

1420

00:54:56,530 --> 00:54:54,290

from that saying that well an hour and

1421

00:54:59,560 --> 00:54:56,540

24 minutes that's not that fast

1422

00:55:01,840 --> 00:54:59,570

there are craft existing craft that can

1423

00:55:03,880 --> 00:55:01,850

take you from the west coast to the East

1424

00:55:05,470 --> 00:55:03,890

Coast in an hour and 24 minutes which

1425

00:55:07,210 --> 00:55:05,480

I've heard others I've heard others say

1426

00:55:08,950 --> 00:55:07,220

that's not true but what's your yeah

1427

00:55:10,720 --> 00:55:08,960

first off that that is not true the

1428

00:55:13,270 --> 00:55:10,730

craft that could have done that would

1429

00:55:14,740 --> 00:55:13,280

have been the sr-71 craft that are

1430

00:55:16,900 --> 00:55:14,750

currently in the inventory that could

1431

00:55:18,490 --> 00:55:16,910

get close to that would be some of the

1432

00:55:20,680 --> 00:55:18,500

obviously the faster craft any any

1433

00:55:23,890 --> 00:55:20,690

supersonic plane could get close to that

1434

00:55:26,770 --> 00:55:23,900

number the thing about the thing about

1435

00:55:27,849 --> 00:55:26,780

that time getting from the east coast to

1436

00:55:29,650 --> 00:55:27,859

the west coast an hour and 24 minutes

1437

00:55:31,390 --> 00:55:29,660

the only plane that comes to mind is

1438

00:55:32,170 --> 00:55:31,400

what sr-71 and I tell me about that

1439

00:55:34,270 --> 00:55:32,180

plane yeah

1440

00:55:37,240 --> 00:55:34,280

soare 71 yeah that's what would you like

1441

00:55:40,079 --> 00:55:37,250

to know well speed or what is it why is

1442

00:55:43,450 --> 00:55:40,089

it retired now let's because it's

1443

00:55:45,670 --> 00:55:43,460

what type of time you retire something

1444

00:55:47,950 --> 00:55:45,680

the logical thought process is is

1445

00:55:49,809 --> 00:55:47,960

something is replacing it it's replaced

1446

00:55:51,609 --> 00:55:49,819

in technology so the platform's keep

1447

00:55:55,599 --> 00:55:51,619

moving higher and higher so if you can

1448

00:55:57,609 --> 00:55:55,609

put a a space-based telescope that can

1449

00:55:59,440 --> 00:55:57,619

take a look down on the ground and see

1450

00:56:01,390 --> 00:55:59,450

the same things that the sr-71 because

1451
00:56:02,950 --> 00:56:01,400
and you're not risking having one shot

1452
00:56:06,010 --> 00:56:02,960
down over enemy territory and what have

1453
00:56:06,640 --> 00:56:06,020
you then yeah that then lets that's that

1454
00:56:09,099 --> 00:56:06,650
was a spy plane

1455
00:56:13,480 --> 00:56:09,109
yeah the sr-71 spy plane yeah yeah and

1456
00:56:15,520 --> 00:56:13,490
it and its fastest speed was what 2,500

1457
00:56:17,950 --> 00:56:15,530
miles an hour or something yeah I mean

1458
00:56:20,049 --> 00:56:17,960
it's faster than that but that was the

1459
00:56:24,190 --> 00:56:20,059
the speed that I couldn't Ain it's using

1460
00:56:27,430 --> 00:56:24,200
no technology that is there is there and

1461
00:56:29,859 --> 00:56:27,440
how many of these were there I bet I

1462
00:56:32,470 --> 00:56:29,869
don't know not a large number maybe in

1463
00:56:34,660 --> 00:56:32,480

less around 20 or less I believe and

1464

00:56:36,520 --> 00:56:34,670

there's variants of it one was made for

1465

00:56:38,710 --> 00:56:36,530

the CIA which is the yf-12 yeah the

1466

00:56:41,289 --> 00:56:38,720

sr-71 which is the reconnaissance

1467

00:56:44,260 --> 00:56:41,299

version for the primarily for the air

1468

00:56:46,030 --> 00:56:44,270

was this developed at plant 42 know that

1469

00:56:48,069 --> 00:56:46,040

well kinda sorta cuz it's in the same

1470

00:56:50,520 --> 00:56:48,079

areas it's developed by Lockheed and

1471

00:56:52,780 --> 00:56:50,530

that was the skunk works Kelly Johnson

1472

00:56:58,030 --> 00:56:52,790

and they don't fly the middle right now

1473

00:57:01,809 --> 00:56:58,040

they're totally no retired correct tell

1474

00:57:03,099 --> 00:57:01,819

us a little bit of more about I mean so

1475

00:57:04,780 --> 00:57:03,109

many people are trying to discredit you

1476
00:57:05,799 --> 00:57:04,790
in so many different ways and saying

1477
00:57:09,190 --> 00:57:05,809
that you know okay

1478
00:57:11,140 --> 00:57:09,200
even if military sources have disclosed

1479
00:57:13,180 --> 00:57:11,150
things to him about this that could

1480
00:57:16,839 --> 00:57:13,190
simply be disinformation the only thing

1481
00:57:18,970 --> 00:57:16,849
that keeps it from that would quiet the

1482
00:57:23,140 --> 00:57:18,980
people were saying it's just information

1483
00:57:26,970 --> 00:57:23,150
is if you actually saw it yourself so

1484
00:57:28,839 --> 00:57:26,980
are you able to open up a bit about

1485
00:57:31,450 --> 00:57:28,849
whether whether or not you've actually

1486
00:57:33,789 --> 00:57:31,460
seen it yourself flown on one etc well

1487
00:57:35,079 --> 00:57:33,799
the reason you that that because I know

1488
00:57:36,520 --> 00:57:35,089

you and the one I would love the

1489

00:57:37,960 --> 00:57:36,530

distraction but on there that I'm kind

1490

00:57:38,859 --> 00:57:37,970

of thinking well yeah but people were

1491

00:57:39,549 --> 00:57:38,869

saying this is a different

1492

00:57:41,559 --> 00:57:39,559

disinformation

1493

00:57:44,049 --> 00:57:41,569

guys it actually wouldn't matter how I

1494

00:57:45,970 --> 00:57:44,059

answered that question if it's gonna be

1495

00:57:48,430 --> 00:57:45,980

this the same result if I say yes I

1496

00:57:51,010 --> 00:57:48,440

saw it they're gonna say okay then why

1497

00:57:53,080 --> 00:57:51,020

you you know what what made you special

1498

00:57:54,430 --> 00:57:53,090

that allows you to see it and then I

1499

00:57:57,160 --> 00:57:54,440

have to reveal some stuff I don't want

1500

00:58:00,040 --> 00:57:57,170

to reveal okay so that presents that

1501
00:58:02,830 --> 00:58:00,050
issue so I would prefer to to steer away

1502
00:58:05,320 --> 00:58:02,840
from that and my my focus would be on

1503
00:58:08,500 --> 00:58:05,330
the information itself the fact that the

1504
00:58:09,849 --> 00:58:08,510
craft do exist and that they are ours we

1505
00:58:11,590 --> 00:58:09,859
you know it's not that big concern to

1506
00:58:15,160 --> 00:58:11,600
what have you but you're gonna have the

1507
00:58:17,320 --> 00:58:15,170
the the the other side that's going to

1508
00:58:19,150 --> 00:58:17,330
just blast me saying you know you know

1509
00:58:20,290 --> 00:58:19,160
this technology doesn't exist Bobo which

1510
00:58:22,200 --> 00:58:20,300
is what we're experiencing but the

1511
00:58:24,730 --> 00:58:22,210
question I have for you is real simple

1512
00:58:27,580 --> 00:58:24,740
Occam's razor just reduce this down to

1513
00:58:30,010 --> 00:58:27,590

the simplest possible answer if those

1514

00:58:32,620 --> 00:58:30,020

things were either extraterrestrial or

1515

00:58:34,780 --> 00:58:32,630

from another country we would have

1516

00:58:37,090 --> 00:58:34,790

reacted to them completely differently

1517

00:58:40,090 --> 00:58:37,100

than how we did down there okay we would

1518

00:58:41,680 --> 00:58:40,100

not have been some nonchalantly oh let

1519

00:58:43,420 --> 00:58:41,690

the Princeton go into port let's just

1520

00:58:45,340 --> 00:58:43,430

take some of the data bricks out let's

1521

00:58:48,010 --> 00:58:45,350

just go look at this data and let's not

1522

00:58:49,599 --> 00:58:48,020

attempt to shoot him down I mean they

1523

00:58:52,300 --> 00:58:49,609

were there for days you know again I

1524

00:58:55,210 --> 00:58:52,310

want to emphasize that that point these

1525

00:58:57,760 --> 00:58:55,220

crafts were seen over a period of an

1526

00:58:59,380 --> 00:58:57,770

insane thing with the one at of a

1527

00:59:01,270 --> 00:58:59,390

Jacksonville right correct and they were

1528

00:59:04,270 --> 00:59:01,280

there for hours and hours on it it

1529

00:59:06,430 --> 00:59:04,280

wasn't you know why weren't we going

1530

00:59:08,560 --> 00:59:06,440

after these things left and right I mean

1531

00:59:10,150 --> 00:59:08,570

it should have been like a scene you

1532

00:59:11,950 --> 00:59:10,160

know from you know Independence Day

1533

00:59:13,540 --> 00:59:11,960

where was just oh my god these things we

1534

00:59:15,640 --> 00:59:13,550

just and just keep sending our aircraft

1535

00:59:17,920 --> 00:59:15,650

out to to you know intercept these

1536

00:59:20,380 --> 00:59:17,930

objects that didn't happen it didn't

1537

00:59:22,660 --> 00:59:20,390

happen for reason and that reason I

1538

00:59:24,190 --> 00:59:22,670

think anyone else can figure out what

1539

00:59:27,340 --> 00:59:24,200

about a technology that would make

1540

00:59:28,690 --> 00:59:27,350

people it would appear to people that

1541

00:59:31,000 --> 00:59:28,700

they're seeing something that's real but

1542

00:59:32,890 --> 00:59:31,010

in fact it's not real well then you're

1543

00:59:35,890 --> 00:59:32,900

then you're stepping into Holograms

1544

00:59:38,920 --> 00:59:35,900

you're stepping into quite a few other

1545

00:59:41,620 --> 00:59:38,930

technologies that are equally impressive

1546

00:59:44,640 --> 00:59:41,630

to a degree but obviously the this would

1547

00:59:47,080 --> 00:59:44,650

Trump them literally and figuratively

1548

00:59:49,900 --> 00:59:47,090

but the there's the fact of the matter

1549

00:59:52,570 --> 00:59:49,910

is that the technology exists to fake

1550

00:59:54,760 --> 00:59:52,580

this okay what they can fake the radar

1551
00:59:56,680 --> 00:59:54,770
screen someone can go in there and do

1552
00:59:57,710 --> 00:59:56,690
these things but the problem is the guys

1553
01:00:00,320 --> 00:59:57,720
that are there that

1554
01:00:02,990 --> 01:00:00,330
work on this stuff you know it it's it's

1555
01:00:04,820 --> 01:00:03,000
no one none of those guys are trying to

1556
01:00:06,859 --> 01:00:04,830
convince us that these things were real

1557
01:00:09,109 --> 01:00:06,869
all they're trying to say is that this

1558
01:00:11,530 --> 01:00:09,119
is experience that I went through this

1559
01:00:13,730 --> 01:00:11,540
is what I saw and I'm you know and

1560
01:00:15,170 --> 01:00:13,740
someone came forward I'm going to

1561
01:00:16,970 --> 01:00:15,180
support this guy this guy's gonna

1562
01:00:18,170 --> 01:00:16,980
support this guy here's some guys that

1563
01:00:20,690 --> 01:00:18,180

are getting together and maybe some more

1564

01:00:23,540 --> 01:00:20,700

will come forward which did happen and I

1565

01:00:24,980 --> 01:00:23,550

think that's how Ryan came out and

1566

01:00:26,210 --> 01:00:24,990

there may be some more there I guarantee

1567

01:00:27,859 --> 01:00:26,220

you there's more

1568

01:00:29,060 --> 01:00:27,869

and then here's this guy that wasn't

1569

01:00:30,530 --> 01:00:29,070

even there that came out of the clear

1570

01:00:33,020 --> 01:00:30,540

blue had nothing to do with it didn't

1571

01:00:35,480 --> 01:00:33,030

even know anything about it until you

1572

01:00:37,099 --> 01:00:35,490

know a year or more later who has other

1573

01:00:39,620 --> 01:00:37,109

pieces of information that may help

1574

01:00:40,400 --> 01:00:39,630

these guys and you know and and that's

1575

01:00:42,620 --> 01:00:40,410

what I'm here for

1576

01:00:44,330 --> 01:00:42,630

I wasn't there I'm not claiming I was

1577

01:00:46,460 --> 01:00:44,340

there a part of that operation or a part

1578

01:00:49,359 --> 01:00:46,470

of the project or the X the X number

1579

01:00:51,560 --> 01:00:49,369

that these things are assigned to so

1580

01:00:53,150 --> 01:00:51,570

nothing nothing of that of that nature

1581

01:00:55,370 --> 01:00:53,160

so I'm not making any of those claims I

1582

01:00:58,880 --> 01:00:55,380

have nothing to gain or anything by that

1583

01:01:02,660 --> 01:00:58,890

but what I feel is important is that the

1584

01:01:04,520 --> 01:01:02,670

information that I'm giving is not so

1585

01:01:07,010 --> 01:01:04,530

crucial to the United States security

1586

01:01:09,530 --> 01:01:07,020

that it affects us in an or impacts us

1587

01:01:11,660 --> 01:01:09,540

in a negative way so I can sleep soundly

1588

01:01:13,010 --> 01:01:11,670

tonight not thinking that some guys

1589

01:01:14,990 --> 01:01:13,020

gonna come up and whack me then all the

1590

01:01:17,750 --> 01:01:15,000

night or I'm gonna be taken off to

1591

01:01:21,620 --> 01:01:17,760

Leavenworth or something like that but

1592

01:01:24,650 --> 01:01:21,630

if I do on my new lawyer so so people

1593

01:01:27,950 --> 01:01:24,660

tend you know I get eye rolls whenever I

1594

01:01:29,420 --> 01:01:27,960

suggest that you may have possibly flown

1595

01:01:31,849 --> 01:01:29,430

in one and then I think I get even

1596

01:01:35,930 --> 01:01:31,859

bigger eye rolls when I talk about one

1597

01:01:39,500 --> 01:01:35,940

of them being flown to North Korea what

1598

01:01:45,320 --> 01:01:39,510

can you say about a sending one to North

1599

01:01:48,460 --> 01:01:45,330

Korea that information was was in passed

1600

01:01:52,970 --> 01:01:48,470

to me by someone who I implicitly trust

1601
01:01:55,849 --> 01:01:52,980
now what it exactly did when it went

1602
01:01:59,570 --> 01:01:55,859
there I don't know I kind of have an

1603
01:02:00,800 --> 01:01:59,580
idea basically you're proving you can do

1604
01:02:02,060 --> 01:02:00,810
something you're showing off you're

1605
01:02:03,260 --> 01:02:02,070
showing off your technology and you're

1606
01:02:04,880 --> 01:02:03,270
saying look if I can put this right

1607
01:02:05,960 --> 01:02:04,890
there well what do you what do you think

1608
01:02:07,609 --> 01:02:05,970
would be the best way to show that

1609
01:02:08,920 --> 01:02:07,619
technology off to the North Koreans if

1610
01:02:11,579 --> 01:02:08,930
you're trying to intimidate somebody

1611
01:02:14,779 --> 01:02:11,589
honestly I think that was pretty

1612
01:02:17,670 --> 01:02:14,789
I think what well they had to be trunk

1613
01:02:21,299 --> 01:02:17,680

what he did I would probably have that

1614

01:02:23,459 --> 01:02:21,309

as a possible thought because I'm I look

1615

01:02:25,140 --> 01:02:23,469

for the comedy side of things or just to

1616

01:02:27,209 --> 01:02:25,150

show you something in it and if it was

1617

01:02:29,880 --> 01:02:27,219

an important time and place to do that

1618

01:02:32,370 --> 01:02:29,890

and he did that but my problem with it

1619

01:02:33,719 --> 01:02:32,380

is is I think that that technology was

1620

01:02:35,849 --> 01:02:33,729

not necessarily showed him at that time

1621

01:02:37,559 --> 01:02:35,859

that's my honest opinion I think that

1622

01:02:39,120 --> 01:02:37,569

was it that was not my view is that

1623

01:02:41,999 --> 01:02:39,130

negotiation all comes down to China

1624

01:02:42,420 --> 01:02:42,009

China's gonna tell Kim when to do a deal

1625

01:02:43,949 --> 01:02:42,430

yeah

1626
01:02:45,749 --> 01:02:43,959
as long as we're screwing with them on

1627
01:02:47,039 --> 01:02:45,759
trade and they're gonna say keep

1628
01:02:50,249 --> 01:02:47,049
screwing with Trump on nuclear weapons

1629
01:02:52,559 --> 01:02:50,259
and a valid point in that point being

1630
01:02:56,429 --> 01:02:52,569
that we weren't really showing Kim we

1631
01:02:57,900 --> 01:02:56,439
were showing China yeah they certainly

1632
01:02:59,939 --> 01:02:57,910
would are we were you working at

1633
01:03:02,400 --> 01:02:59,949
cinnamon why also say if there was ever

1634
01:03:04,289 --> 01:03:02,410
a president who was going look at that

1635
01:03:06,269 --> 01:03:04,299
and choose to show it off he's the guy

1636
01:03:07,199 --> 01:03:06,279
how convenient that is so you know you

1637
01:03:09,089 --> 01:03:07,209
might find it

1638
01:03:11,329 --> 01:03:09,099

you might scoff at and think oh come on

1639

01:03:14,519 --> 01:03:11,339

who's gonna choose to do them like well

1640

01:03:16,739 --> 01:03:14,529

Trump does he doesn't follow the the

1641

01:03:18,929 --> 01:03:16,749

usual path right and to add to that mix

1642

01:03:20,939 --> 01:03:18,939

and that wasn't the only demonstration

1643

01:03:22,949 --> 01:03:20,949

so there was an additional demonstration

1644

01:03:24,479 --> 01:03:22,959

that I have been told about that

1645

01:03:27,329 --> 01:03:24,489

involves a different president of a

1646

01:03:29,669 --> 01:03:27,339

different country and involves a war in

1647

01:03:30,809 --> 01:03:29,679

Syria so there was also a proof of

1648

01:03:33,120 --> 01:03:30,819

technology there too

1649

01:03:33,839 --> 01:03:33,130

which happened the very next day that's

1650

01:03:37,589 --> 01:03:33,849

my understanding

1651

01:03:41,279 --> 01:03:37,599

and that would be Putin could be and

1652

01:03:42,689 --> 01:03:41,289

again how would you exactly show it off

1653

01:03:46,739 --> 01:03:42,699

show it off in a way that it shows up on

1654

01:03:48,359 --> 01:03:46,749

their their radar or or send it by the

1655

01:03:50,640 --> 01:03:48,369

hanging out outside the Kremlin how

1656

01:03:51,779 --> 01:03:50,650

would I do it yeah I would just Park it

1657

01:03:54,539 --> 01:03:51,789

right in front of his door and when he

1658

01:03:56,669 --> 01:03:54,549

walks out don't bangs into it and then

1659

01:04:00,329 --> 01:03:56,679

take off put a big US flag on it and

1660

01:04:02,039 --> 01:04:00,339

yeah just or you know drop little

1661

01:04:04,140 --> 01:04:02,049

leaflets from I don't know I mean just

1662

01:04:06,329 --> 01:04:04,150

yeah and to be clear you're not claiming

1663

01:04:08,069 --> 01:04:06,339

that you were on the tic-tac when you

1664

01:04:09,599 --> 01:04:08,079

flew to meet Putin right I just want to

1665

01:04:10,289 --> 01:04:09,609

clarify no I'm not claiming that you

1666

01:04:13,079 --> 01:04:10,299

were not lying okay

1667

01:04:15,709 --> 01:04:13,089

I would I would not have been on it it'd

1668

01:04:18,809 --> 01:04:15,719

be very windy so I would have been in it

1669

01:04:20,309 --> 01:04:18,819

I've been very windy where and what

1670

01:04:22,349 --> 01:04:20,319

would have been windy honest I would

1671

01:04:27,200 --> 01:04:22,359

have to be in it oh that's how George

1672

01:04:33,180 --> 01:04:31,290

right oh yeah yeah maybe I don't know

1673

01:04:35,970 --> 01:04:33,190

that the the thing about the uses of it

1674

01:04:38,250 --> 01:04:35,980

as to whether you use I mean this is

1675

01:04:39,750 --> 01:04:38,260

where people look at me and the things

1676

01:04:41,700 --> 01:04:39,760

I'm saying they're going okay this is

1677

01:04:43,800 --> 01:04:41,710

borderline bizarre and silly but we've

1678

01:04:46,320 --> 01:04:43,810

done some rather silly things to prove

1679

01:04:48,180 --> 01:04:46,330

our technology okay so when when I say

1680

01:04:50,070 --> 01:04:48,190

something like that I look at it from

1681

01:04:52,109 --> 01:04:50,080

the outside to go wow this this is

1682

01:04:53,280 --> 01:04:52,119

really gone off the deep end my are

1683

01:04:55,140 --> 01:04:53,290

you've been interviewing this guy this

1684

01:04:57,990 --> 01:04:55,150

guy's obviously a wackadoodle get him a

1685

01:04:59,160 --> 01:04:58,000

free show but in reality we've done a

1686

01:05:02,880 --> 01:04:59,170

lot of that in history

1687

01:05:05,790 --> 01:05:02,890

I've personally witnessed it so I know

1688

01:05:07,260 --> 01:05:05,800

that we do do that it's not something we

1689

01:05:08,790 --> 01:05:07,270

put on the front page and go haha

1690

01:05:10,109 --> 01:05:08,800

we're just going to screw with you but

1691

01:05:13,440 --> 01:05:10,119

we've screwed with other countries quite

1692

01:05:16,290 --> 01:05:13,450

a bit doing really wild crazy things so

1693

01:05:17,910 --> 01:05:16,300

this is not out of the norm by any means

1694

01:05:18,930 --> 01:05:17,920

well the other thing I Michael and I

1695

01:05:21,090 --> 01:05:18,940

were talking about after the Nick Cooke

1696

01:05:23,400 --> 01:05:21,100

interview I mean I'm learning how much

1697

01:05:26,160 --> 01:05:23,410

money is going into these black box

1698

01:05:29,340 --> 01:05:26,170

operations if it's thirty billion a year

1699

01:05:31,020 --> 01:05:29,350

whatever the number is there should be

1700

01:05:32,310 --> 01:05:31,030

some serious stuff that's been developed

1701

01:05:34,620 --> 01:05:32,320

for that kind of money if you have

1702

01:05:36,599 --> 01:05:34,630

thirty billion dollars to a Silicon

1703

01:05:38,280 --> 01:05:36,609

Valley company and they're gonna come up

1704

01:05:39,599 --> 01:05:38,290

with some pretty cool stuff now this is

1705

01:05:41,760 --> 01:05:39,609

the government so half of its gonna be

1706

01:05:45,090 --> 01:05:41,770

wasted right right but the other 15

1707

01:05:47,400 --> 01:05:45,100

million times it's a 30 mm this was

1708

01:05:49,020 --> 01:05:47,410

going on for 30 years it's a lot of

1709

01:05:50,820 --> 01:05:49,030

money and that's not just making b-1

1710

01:05:52,530 --> 01:05:50,830

bombers right and if you go back in

1711

01:05:55,440 --> 01:05:52,540

history you'll see where anti-gravity

1712

01:05:57,300 --> 01:05:55,450

was was a lot his money was putting

1713

01:05:58,920 --> 01:05:57,310

putting in those projects quite a bit

1714

01:06:00,690 --> 01:05:58,930

and then it was pulled back because they

1715

01:06:03,180 --> 01:06:00,700

just weren't getting the desired results

1716

01:06:06,510 --> 01:06:03,190

so now that technologies that are being

1717

01:06:09,060 --> 01:06:06,520

developed with with the military and the

1718

01:06:13,050 --> 01:06:09,070

DARPA arm keep in mind DARPA pretty much

1719

01:06:14,250 --> 01:06:13,060

open agency I mean you can go join it

1720

01:06:15,930 --> 01:06:14,260

yourself if you want you can become a

1721

01:06:18,900 --> 01:06:15,940

part of what's called open catalog and

1722

01:06:21,720 --> 01:06:18,910

participate so the thing about DARPA is

1723

01:06:23,910 --> 01:06:21,730

that the technologies that they get that

1724

01:06:25,620 --> 01:06:23,920

money that remember when in the old days

1725

01:06:27,300 --> 01:06:25,630

you had these black bag projects that

1726

01:06:28,800 --> 01:06:27,310

the money had to go out and Senator

1727

01:06:31,170 --> 01:06:28,810

Appropriations Committee or someone had

1728

01:06:32,640 --> 01:06:31,180

to approve it and then it was funneled

1729

01:06:34,500 --> 01:06:32,650

in some other name and then that money

1730

01:06:37,440 --> 01:06:34,510

was trickled out to the eventual program

1731

01:06:39,390 --> 01:06:37,450

now you have DARPA that's openly

1732

01:06:41,099 --> 01:06:39,400

showing you the technologies that

1733

01:06:42,359 --> 01:06:41,109

they're working on and then the

1734

01:06:43,920 --> 01:06:42,369

companies that are working on like

1735

01:06:45,839 --> 01:06:43,930

Boston Dynamics with the robots we've

1736

01:06:47,670 --> 01:06:45,849

seen here you know the last year

1737

01:06:49,440 --> 01:06:47,680

that's all DARPA technology that's

1738

01:06:51,420 --> 01:06:49,450

that's basically been kicked back into

1739

01:06:54,420 --> 01:06:51,430

the private sector for them to develop

1740

01:06:57,420 --> 01:06:54,430

it further so DARPA has a very unique

1741

01:06:59,790 --> 01:06:57,430

role in this and that it played an

1742

01:07:02,070 --> 01:06:59,800

integral role in the initial technology

1743

01:07:03,420 --> 01:07:02,080

of pulling it from one university or

1744

01:07:04,950 --> 01:07:03,430

another one ain't putting the money into

1745

01:07:08,040 --> 01:07:04,960

it and actually making something that

1746

01:07:09,270 --> 01:07:08,050

functions and that's that makes all the

1747

01:07:10,890 --> 01:07:09,280

difference in the world so I think the

1748

01:07:15,540 --> 01:07:10,900

last critique I can think of that's

1749

01:07:18,300 --> 01:07:15,550

being raised is that you clearly know a

1750

01:07:20,220 --> 01:07:18,310

lot and but everything that you've said

1751

01:07:23,250 --> 01:07:20,230

on this show are things that you could

1752

01:07:25,470 --> 01:07:23,260

pick up by doing a lot of internet

1753

01:07:27,630 --> 01:07:25,480

research and then kind of putting all

1754

01:07:29,790 --> 01:07:27,640

the pieces together and then it's coming

1755

01:07:32,520 --> 01:07:29,800

out flat out and saying it's us

1756

01:07:34,020 --> 01:07:32,530

technology so it's really you being a

1757

01:07:36,359 --> 01:07:34,030

smart guy that's put a lot of pieces

1758

01:07:39,089 --> 01:07:36,369

together read a lot of things surmised a

1759

01:07:41,310 --> 01:07:39,099

lot of things and but you're really just

1760

01:07:42,930 --> 01:07:41,320

coming out with your opinion even though

1761

01:07:44,760 --> 01:07:42,940

you're calling in fact but no one else

1762

01:07:47,280 --> 01:07:44,770

has done this no one else has actually

1763

01:07:48,630 --> 01:07:47,290

said the things I've said so the

1764

01:07:52,710 --> 01:07:48,640

information that I have is different

1765

01:07:55,260 --> 01:07:52,720

it's something that's not just waived

1766

01:07:58,680 --> 01:07:55,270

whatever well certainly asserting that

1767

01:08:00,000 --> 01:07:58,690

it's us that it's the Air Force yes but

1768

01:08:02,370 --> 01:08:00,010

everything else that kind of leads to

1769

01:08:03,630 --> 01:08:02,380

that conclusion you could kind of find

1770

01:08:05,370 --> 01:08:03,640

well someone could sit there and

1771

01:08:07,079 --> 01:08:05,380

probably brainstorm it over a period a

1772

01:08:09,089 --> 01:08:07,089

few days ago well this must be how it

1773

01:08:11,280 --> 01:08:09,099

this must be how this would have worked

1774

01:08:13,290 --> 01:08:11,290

out so let me go with this as a

1775

01:08:15,000 --> 01:08:13,300

best-guess scenario and get that

1776

01:08:17,789 --> 01:08:15,010

information out there so I'm gonna go

1777

01:08:20,729 --> 01:08:17,799

out and say it as if it's fact

1778

01:08:22,890 --> 01:08:20,739

just get more attention yeah and then I

1779

01:08:26,459 --> 01:08:22,900

would be ruining our friendship by using

1780

01:08:28,530 --> 01:08:26,469

you to put out some crazy move for what

1781

01:08:30,749 --> 01:08:28,540

benefit yeah you know my I'm standing by

1782

01:08:33,539 --> 01:08:30,759

you so far my friend I am a believer

1783

01:08:34,920 --> 01:08:33,549

sometimes I'm well you sorry I find it

1784

01:08:37,079 --> 01:08:34,930

hard to believe that I believe as you

1785

01:08:38,309 --> 01:08:37,089

sit here and I have actually wavered

1786

01:08:40,170 --> 01:08:38,319

Michael tell you I haven't wavered

1787

01:08:41,490 --> 01:08:40,180

despite the people we've interviewed in

1788

01:08:44,180 --> 01:08:41,500

believing what you're saying I know I

1789

01:08:46,190 --> 01:08:44,190

appreciate that and when you were on the

1790

01:08:48,680 --> 01:08:46,200

their show the other day you you know I

1791

01:08:51,290 --> 01:08:48,690

I could Jeff Reince yes I could sense

1792

01:08:53,270 --> 01:08:51,300

that there is you know some some

1793

01:08:54,710 --> 01:08:53,280

differences of how both of you believe

1794

01:08:56,570 --> 01:08:54,720

and definitely differences of how I

1795

01:08:58,160 --> 01:08:56,580

believe and if he wanted to interview my

1796

01:09:00,620 --> 01:08:58,170

own and show that would be blown

1797

01:09:01,940 --> 01:09:00,630

definitely differences about Vegas yeah

1798

01:09:02,720 --> 01:09:01,950

definitely difference is there too by

1799

01:09:06,110 --> 01:09:02,730

the way that's something we should

1800

01:09:08,240 --> 01:09:06,120

address too because you know you know

1801

01:09:10,220 --> 01:09:08,250

rents immediately linked to a ha wait a

1802

01:09:12,260 --> 01:09:10,230

minute this can't be a coincidence he

1803

01:09:14,540 --> 01:09:12,270

was researching Vegas and he happens to

1804

01:09:16,880 --> 01:09:14,550

know about this aha obviously disinfo

1805

01:09:20,030 --> 01:09:16,890

obviously multiple shooters in Boston

1806

01:09:21,910 --> 01:09:20,040

and he and he anyway we was talking to

1807

01:09:24,440 --> 01:09:21,920

you was telling you specifically that

1808

01:09:26,720 --> 01:09:24,450

anyone be an idiot to believe whatever

1809

01:09:28,490 --> 01:09:26,730

the way I don't do that way my my

1810

01:09:30,500 --> 01:09:28,500

investigation in Las Vegas my

1811

01:09:32,330 --> 01:09:30,510

investigation here will stand on its own

1812

01:09:34,670 --> 01:09:32,340

when I put that information out there

1813

01:09:36,290 --> 01:09:34,680

no one's debunked me on Vegas and no

1814

01:09:37,610 --> 01:09:36,300

one's gonna debunk me here because the

1815

01:09:39,710 --> 01:09:37,620

information I'm putting out is what I

1816

01:09:41,060 --> 01:09:39,720

feel is factually true but if I write

1817

01:09:43,850 --> 01:09:41,070

that a lot of people in the so-called

1818

01:09:45,890 --> 01:09:43,860

Vegas community are not happy with you

1819

01:09:48,710 --> 01:09:45,900

because they feel like you've closed the

1820

01:09:50,570 --> 01:09:48,720

door on any possibility other than Patek

1821

01:09:52,190 --> 01:09:50,580

acting alone no it's not necessarily

1822

01:09:53,480 --> 01:09:52,200

Patek because I can't put the weapon in

1823

01:09:55,610 --> 01:09:53,490

paddocks and I don't have the ballistics

1824

01:09:57,920 --> 01:09:55,620

for it I can say that the bullets came

1825

01:09:59,390 --> 01:09:57,930

from that room and feel very confident

1826

01:10:01,430 --> 01:09:59,400

in that with the audio analysis well if

1827

01:10:02,900 --> 01:10:01,440

you were a prosecutor and Patek was

1828

01:10:04,070 --> 01:10:02,910

still alive and don't you think he'd

1829

01:10:05,630 --> 01:10:04,080

have a pretty good case and you'd be

1830

01:10:08,120 --> 01:10:05,640

taking that case to trial and saying

1831

01:10:10,070 --> 01:10:08,130

this guy did it yeah okay me I would be

1832

01:10:12,500 --> 01:10:10,080

very confident and even his own brother

1833

01:10:14,660 --> 01:10:12,510

who speaks to me as well believes his

1834

01:10:17,930 --> 01:10:14,670

own brother did it so I think that

1835

01:10:20,650 --> 01:10:17,940

that's that's that kind of goes without

1836

01:10:23,750 --> 01:10:20,660

saying if if I present information

1837

01:10:24,770 --> 01:10:23,760

generally that's 1/10 of what we're

1838

01:10:26,300 --> 01:10:24,780

looking at it's like a tip of the

1839

01:10:28,250 --> 01:10:26,310

iceberg because all the other

1840

01:10:30,470 --> 01:10:28,260

information that I have I can't really

1841

01:10:32,000 --> 01:10:30,480

put it on the table and say I would

1842

01:10:33,800 --> 01:10:32,010

stand on the witness stand and square to

1843

01:10:35,420 --> 01:10:33,810

this but the information I have put out

1844

01:10:38,900 --> 01:10:35,430

I would and I would do it here on the

1845

01:10:40,400 --> 01:10:38,910

information I've given you today so what

1846

01:10:42,170 --> 01:10:40,410

about the blowback thing though am i

1847

01:10:43,850 --> 01:10:42,180

right that people are not happy with you

1848

01:10:45,650 --> 01:10:43,860

because they're still clinging to

1849

01:10:47,030 --> 01:10:45,660

various conspiracy theories in Vegas

1850

01:10:49,430 --> 01:10:47,040

right because you've got the helicopter

1851

01:10:50,810 --> 01:10:49,440

theory you've got your Saudi Theory

1852

01:10:52,400 --> 01:10:50,820

you've got people that believed there

1853

01:10:53,960 --> 01:10:52,410

were multiple shooters but they all

1854

01:10:56,640 --> 01:10:53,970

believe that based on information that

1855

01:10:58,890 --> 01:10:56,650

is on faulty evidence or

1856

01:11:00,570 --> 01:10:58,900

you looked into it you had a very open

1857

01:11:02,640 --> 01:11:00,580

mind going into it I had a very open

1858

01:11:04,850 --> 01:11:02,650

mind going into it and now where do you

1859

01:11:08,160 --> 01:11:04,860

believe I believe that Patek acted alone

1860

01:11:11,700 --> 01:11:08,170

and you know I mean it all the pieces

1861

01:11:13,650 --> 01:11:11,710

fit in to place that you know how he got

1862

01:11:17,370 --> 01:11:13,660

the guns up there why he did it

1863

01:11:20,070 --> 01:11:17,380

problems with money psychiatric problems

1864

01:11:21,750 --> 01:11:20,080

the history and the family etc and look

1865

01:11:23,520 --> 01:11:21,760

where we are where people interact with

1866

01:11:25,740 --> 01:11:23,530

us is either on YouTube or various other

1867

01:11:27,810 --> 01:11:25,750

places and the interactions that we get

1868

01:11:30,930 --> 01:11:27,820

are with people that believe no one died

1869

01:11:34,860 --> 01:11:30,940

or all these different theories that

1870

01:11:36,510 --> 01:11:34,870

they feel and that for me is just

1871

01:11:38,610 --> 01:11:36,520

something I would personally would

1872

01:11:40,380 --> 01:11:38,620

rather not even respond to but sometimes

1873

01:11:41,790 --> 01:11:40,390

you can't help but you kind of find

1874

01:11:44,070 --> 01:11:41,800

yourself having to respond to these

1875

01:11:46,500 --> 01:11:44,080

people and you do and you try to be

1876
01:11:49,710 --> 01:11:46,510
respectful but then time as time goes on

1877
01:11:52,350 --> 01:11:49,720
it gets to the point where you're just

1878
01:11:55,590 --> 01:11:52,360
really tired okay anything else that we

1879
01:11:58,110 --> 01:11:55,600
should add to the tic-tac story at this

1880
01:12:00,330 --> 01:11:58,120
time I was trying to get that for you

1881
01:12:01,500 --> 01:12:00,340
today I was trying to get something a

1882
01:12:02,820 --> 01:12:01,510
little bit more time and I and I

1883
01:12:04,860 --> 01:12:02,830
understand that this is a hard pill to

1884
01:12:07,350 --> 01:12:04,870
swallow just like I said before I get it

1885
01:12:09,420 --> 01:12:07,360
I understand it and the thing is the

1886
01:12:11,220 --> 01:12:09,430
test of time is going to come out and do

1887
01:12:12,600 --> 01:12:11,230
this because I can't come in here with a

1888
01:12:15,450 --> 01:12:12,610

bunch of documents and throw them on the

1889

01:12:17,880 --> 01:12:15,460

table and say hey here's this or this is

1890

01:12:18,990 --> 01:12:17,890

it that's jeopardizing a lot of lives I

1891

01:12:21,390 --> 01:12:19,000

would never do that

1892

01:12:24,840 --> 01:12:21,400

okay and I don't and anyone that would

1893

01:12:27,150 --> 01:12:24,850

do that I think would have a potential

1894

01:12:27,510 --> 01:12:27,160

problem okay so that's not going to

1895

01:12:31,410 --> 01:12:27,520

happen

1896

01:12:34,740 --> 01:12:31,420

information is going to come out and it

1897

01:12:37,890 --> 01:12:34,750

will be relatively soon that we will see

1898

01:12:40,110 --> 01:12:37,900

more and more maybe people that are in

1899

01:12:42,120 --> 01:12:40,120

the know kind of like I was which was

1900

01:12:44,790 --> 01:12:42,130

kind of an odd situation for me to get

1901

01:12:46,770 --> 01:12:44,800

into this but there are other people out

1902

01:12:49,080 --> 01:12:46,780

there kind of in a similar state that

1903

01:12:51,180 --> 01:12:49,090

are not currently in the military and

1904

01:12:53,610 --> 01:12:51,190

that may want to reveal what they want

1905

01:12:55,890 --> 01:12:53,620

to do and when they do we will hear it

1906

01:12:58,050 --> 01:12:55,900

and so when you say you were hoping out

1907

01:13:01,800 --> 01:12:58,060

of something for me today I was open

1908

01:13:03,900 --> 01:13:01,810

here what's a give me a hint as to thing

1909

01:13:06,600 --> 01:13:03,910

I was just gonna fly one down here and

1910

01:13:08,830 --> 01:13:06,610

just you already tried to do that trick

1911

01:13:11,110 --> 01:13:08,840

on me once that's not gonna work

1912

01:13:12,190 --> 01:13:11,120

I can't fold the curtain back basically

1913

01:13:13,810 --> 01:13:12,200

it was just gonna be something a little

1914

01:13:15,970 --> 01:13:13,820

bit more tangible something that make

1915

01:13:18,730 --> 01:13:15,980

you specifically feel more comfortable

1916

01:13:21,850 --> 01:13:18,740

with what and I think you and I have in

1917

01:13:24,160 --> 01:13:21,860

the past something would come up or I

1918

01:13:25,510 --> 01:13:24,170

think we did a thing for you look you

1919

01:13:27,160 --> 01:13:25,520

had someone you were looking for you and

1920

01:13:29,370 --> 01:13:27,170

been able to find the years or what have

1921

01:13:32,320 --> 01:13:29,380

you may have tried avenues and then I

1922

01:13:33,640 --> 01:13:32,330

you tested me or I gave you the

1923

01:13:36,220 --> 01:13:33,650

opportunity to test me and I came

1924

01:13:38,920 --> 01:13:36,230

through right yep yep so those are

1925

01:13:41,590 --> 01:13:38,930

things that I'm constantly having to

1926

01:13:43,270 --> 01:13:41,600

prove myself because I'm not currently

1927

01:13:46,030 --> 01:13:43,280

sitting on the board of the directors of

1928

01:13:47,770 --> 01:13:46,040

Bose album I'm not currently you know

1929

01:13:49,390 --> 01:13:47,780

running some huge conglomerate

1930

01:13:51,610 --> 01:13:49,400

corporation for cybersecurity and cyber

1931

01:13:52,330 --> 01:13:51,620

threat assessment I'm not sitting at CNN

1932

01:13:54,550 --> 01:13:52,340

every night

1933

01:13:56,050 --> 01:13:54,560

blasting waste and the newest Intel

1934

01:13:58,120 --> 01:13:56,060

reports I was only at least four maybe

1935

01:13:59,830 --> 01:13:58,130

some threads from the carpeting of the

1936

01:14:00,070 --> 01:13:59,840

tic-tac maybe you can bring this in for

1937

01:14:03,280 --> 01:14:00,080

me

1938

01:14:05,170 --> 01:14:03,290

no carpet no carpet no carpet no paint

1939

01:14:07,840 --> 01:14:05,180

scratch off some paint I might be able

1940

01:14:18,390 --> 01:14:07,850

to do that no Michael my toes could

1941

01:14:21,340 --> 01:14:18,400

Michael you you got anything to make

1942

01:14:26,080 --> 01:14:21,350

raver first saw the tic-tac it was above

1943

01:14:27,900 --> 01:14:26,090

the water and I believe they said there

1944

01:14:31,240 --> 01:14:27,910

was something under the water as well

1945

01:14:33,010 --> 01:14:31,250

the the way my understanding is this

1946

01:14:35,500 --> 01:14:33,020

when the craft operates under water it

1947

01:14:38,470 --> 01:14:35,510

makes a what would visually be a much

1948

01:14:40,030 --> 01:14:38,480

larger disturbance or the appearance of

1949

01:14:42,400 --> 01:14:40,040

a much larger disturbance than what you

1950

01:14:45,070 --> 01:14:42,410

would see in the air the waters 25 times

1951

01:14:47,410 --> 01:14:45,080

more dense than air therefore I believe

1952

01:14:49,480 --> 01:14:47,420

what you would see might be 25 times

1953

01:14:52,630 --> 01:14:49,490

larger which puts it on the scale of a

1954

01:14:55,120 --> 01:14:52,640

737 which is about what they said so

1955

01:14:56,800 --> 01:14:55,130

that makes sense to me whether or not

1956

01:14:58,570 --> 01:14:56,810

that's the right answer it's just a

1957

01:15:00,940 --> 01:14:58,580

really quick response to that because I

1958

01:15:02,860 --> 01:15:00,950

thought about that too as to what that

1959

01:15:04,450 --> 01:15:02,870

could have been you know there there's

1960

01:15:06,190 --> 01:15:04,460

somebody I think brought up maybe

1961

01:15:08,340 --> 01:15:06,200

there's a mother ship under water and

1962

01:15:12,850 --> 01:15:08,350

they were launched from that I don't

1963

01:15:15,760 --> 01:15:12,860

know but I do believe the craft either

1964

01:15:18,400 --> 01:15:15,770

went underwater or another one was

1965

01:15:21,220 --> 01:15:18,410

underwater and then went deeper and went

1966

01:15:22,180 --> 01:15:21,230

out these things travel so silently

1967

01:15:23,980 --> 01:15:22,190

underwater

1968

01:15:25,870 --> 01:15:23,990

but the problem I have with that is is

1969

01:15:27,070 --> 01:15:25,880

that that type of cavitation that you

1970

01:15:28,450 --> 01:15:27,080

would have under order to allow them to

1971

01:15:30,970 --> 01:15:28,460

travel the velocities that they do

1972

01:15:33,640 --> 01:15:30,980

should be something that we would pick

1973

01:15:35,890 --> 01:15:33,650

up that's again more technology that I'm

1974

01:15:36,970 --> 01:15:35,900

not aware of as to how we would be able

1975

01:15:38,830 --> 01:15:36,980

to track these things because the

1976

01:15:41,950 --> 01:15:38,840

submarine that was attached to the

1977

01:15:43,780 --> 01:15:41,960

nimitz group had no sighting nothing on

1978

01:15:45,100 --> 01:15:43,790

these yeah why would that be why

1979

01:15:46,720 --> 01:15:45,110

wouldn't that same reason why the only

1980

01:15:48,310 --> 01:15:46,730

radar that could pick them up was a spy

1981

01:15:49,570 --> 01:15:48,320

one be on the on the Princeton because

1982

01:15:51,940 --> 01:15:49,580

it's moving too quickly

1983

01:15:53,620 --> 01:15:51,950

no because the type of stealth

1984

01:15:57,250 --> 01:15:53,630

technology that it utilizes which I'm

1985

01:16:00,670 --> 01:15:57,260

also not 100% aware of allows it to

1986

01:16:03,130 --> 01:16:00,680

maneuver in in space or air or water I

1987

01:16:04,300 --> 01:16:03,140

guess at will without being seen now

1988

01:16:05,710 --> 01:16:04,310

that does remind me in the last

1989

01:16:07,960 --> 01:16:05,720

interview I thought you did hint about

1990

01:16:10,480 --> 01:16:07,970

some knowledge about its underwater

1991

01:16:11,740 --> 01:16:10,490

capabilities or another incident yeah it

1992

01:16:14,440 --> 01:16:11,750

was underwater what can you tell us

1993

01:16:17,380 --> 01:16:14,450

about that I'm I can tell you well this

1994

01:16:19,630 --> 01:16:17,390

is this is another proof that will come

1995

01:16:21,640 --> 01:16:19,640

out at some point in time the speed at

1996

01:16:24,880 --> 01:16:21,650

which it was tracked by a particular

1997

01:16:26,980 --> 01:16:24,890

submarine was around 502 500 550 miles

1998

01:16:28,000 --> 01:16:26,990

an hour underwater which is almost the

1999

01:16:31,300 --> 01:16:28,010

exact same thing as a commercial

2000

01:16:33,490 --> 01:16:31,310

airliner but underwater so that will

2001
01:16:37,180 --> 01:16:33,500
when was that incident I can't say and

2002
01:16:39,490 --> 01:16:37,190
where was that incident yes okay but

2003
01:16:41,460 --> 01:16:39,500
this is another Nimitz tape this is

2004
01:16:44,290 --> 01:16:41,470
another where the military

2005
01:16:47,350 --> 01:16:44,300
tracked something that turns out it's a

2006
01:16:49,900 --> 01:16:47,360
tic-tac or it's a it's one it's one of

2007
01:16:51,520 --> 01:16:49,910
the two or three I don't know well I do

2008
01:16:54,610 --> 01:16:51,530
know which one but I'm not identified at

2009
01:16:57,430 --> 01:16:54,620
this point so another encounter in is

2010
01:17:00,820 --> 01:16:57,440
that another situation where one branch

2011
01:17:02,500 --> 01:17:00,830
was testing it with another branch well

2012
01:17:04,990 --> 01:17:02,510
it would still be Air Force so I mean

2013
01:17:07,810 --> 01:17:05,000

still be Navy so it's the same same

2014

01:17:10,600 --> 01:17:07,820

thing I think a lot of people you know

2015

01:17:12,310 --> 01:17:10,610

they have their their Monday quarterback

2016

01:17:14,410 --> 01:17:12,320

rule book that if something goes

2017

01:17:16,450 --> 01:17:14,420

underwater that automatically transfers

2018

01:17:18,490 --> 01:17:16,460

jurisdiction to the Navy it doesn't

2019

01:17:21,400 --> 01:17:18,500

really necessarily work that way

2020

01:17:23,110 --> 01:17:21,410

but obviously the Navy has their patents

2021

01:17:25,480 --> 01:17:23,120

and they're doing their variation of it

2022

01:17:27,370 --> 01:17:25,490

that will suit whatever job function and

2023

01:17:30,400 --> 01:17:27,380

missions that they need to have their

2024

01:17:32,440 --> 01:17:30,410

version do with the thing theoretically

2025

01:17:35,590 --> 01:17:32,450

you'd be able to travel just as fast

2026

01:17:38,410 --> 01:17:35,600

underwater as in the air I

2027

01:17:41,200 --> 01:17:38,420

no I you know I that's the problem I'm

2028

01:17:43,540 --> 01:17:41,210

not you you need to get a a physics

2029

01:17:46,060 --> 01:17:43,550

quantum physics guy on here to help us

2030

01:17:47,620 --> 01:17:46,070

go I think that Navy Patent suggested

2031

01:17:49,360 --> 01:17:47,630

that the answer is yes that it would

2032

01:17:51,940 --> 01:17:49,370

travel at the same speed because of this

2033

01:17:54,580 --> 01:17:51,950

vacuum that it creates that repels air

2034

01:17:56,830 --> 01:17:54,590

and whatever molecules but I'm not but

2035

01:17:58,600 --> 01:17:56,840

the the the the other thing is to is

2036

01:18:00,940 --> 01:17:58,610

maybe it can move the same speed through

2037

01:18:02,230 --> 01:18:00,950

it but whatever bubbles or whatever it's

2038

01:18:04,660 --> 01:18:02,240

creating behind it

2039

01:18:06,670 --> 01:18:04,670

may move at that speed I mean if an

2040

01:18:08,530 --> 01:18:06,680

object's moving through a medium as say

2041

01:18:10,540 --> 01:18:08,540

three thousand miles an hour underwater

2042

01:18:12,700 --> 01:18:10,550

perhaps whatever it's leaving in its

2043

01:18:14,380 --> 01:18:12,710

wake is is moving forward as well but

2044

01:18:16,630 --> 01:18:14,390

not at three thousand miles an hour I

2045

01:18:17,950 --> 01:18:16,640

don't know I wish I had those answers

2046

01:18:20,620 --> 01:18:17,960

and this will be picked apart I'm sure

2047

01:18:23,140 --> 01:18:20,630

but I'm not not the bottom line as you

2048

01:18:25,420 --> 01:18:23,150

sit here today would it be your belief

2049

01:18:30,970 --> 01:18:25,430

that they're in the process of building

2050

01:18:32,230 --> 01:18:30,980

more of these there's a bunch already so

2051
01:18:34,360 --> 01:18:32,240
we already have a bunch and building

2052
01:18:36,340 --> 01:18:34,370
more well I know in the tic-tac side

2053
01:18:38,200 --> 01:18:36,350
that there was quite a few I think they

2054
01:18:41,860 --> 01:18:38,210
were tracking multiple tracks back in

2055
01:18:45,880 --> 01:18:41,870
2004 I think you were estimated as many

2056
01:18:48,310 --> 01:18:45,890
as maybe 20 yeah yeah back then my

2057
01:18:50,830 --> 01:18:48,320
thought my my thought is this I don't

2058
01:18:54,310 --> 01:18:50,840
think these costs as much to build as

2059
01:18:55,840 --> 01:18:54,320
they prop as people would think they're

2060
01:18:57,670 --> 01:18:55,850
trying to equate this technology

2061
01:19:00,190 --> 01:18:57,680
technology to that of an aircraft

2062
01:19:02,200 --> 01:19:00,200
carrier or a b-2 bomber and the

2063
01:19:04,030 --> 01:19:02,210

technology sounds sensational enough to

2064

01:19:05,770 --> 01:19:04,040

where while we must have paid billions

2065

01:19:08,470 --> 01:19:05,780

of dollars for these things maybe for

2066

01:19:09,550 --> 01:19:08,480

the initial ramping up of the technology

2067

01:19:11,140 --> 01:19:09,560

but I don't think they cuz there's no

2068

01:19:13,420 --> 01:19:11,150

carpeting in them so they saved on that

2069

01:19:16,420 --> 01:19:13,430

they did save on that they did say and

2070

01:19:19,720 --> 01:19:16,430

it's really just a kind of a tic tac

2071

01:19:21,760 --> 01:19:19,730

shell yeah but but the thing that's in

2072

01:19:23,260 --> 01:19:21,770

there is this it's not a reactor but

2073

01:19:24,880 --> 01:19:23,270

whatever this thing is that's generating

2074

01:19:26,860 --> 01:19:24,890

the energy presumably would be the most

2075

01:19:29,440 --> 01:19:26,870

expensive component of it I would think

2076

01:19:31,960 --> 01:19:29,450

but even then since we don't know it's

2077

01:19:33,430 --> 01:19:31,970

and and they built so many I mean think

2078

01:19:35,440 --> 01:19:33,440

about this we only have a few b-2

2079

01:19:37,780 --> 01:19:35,450

bombers we only have a few of various

2080

01:19:39,540 --> 01:19:37,790

craft that cost so much money but we

2081

01:19:42,070 --> 01:19:39,550

have a lot of these that were out in

2082

01:19:45,210 --> 01:19:42,080

2004 that were obviously tracked and why

2083

01:19:47,800 --> 01:19:45,220

I think they said there were 10 to 20

2084

01:19:49,360 --> 01:19:47,810

pieces that were tracked at that time so

2085

01:19:50,980 --> 01:19:49,370

and I and I kind of agree with

2086

01:19:53,920 --> 01:19:50,990

based on my information as well I think

2087

01:19:56,410 --> 01:19:53,930

that that's fairly accurate number and I

2088

01:19:59,200 --> 01:19:56,420

think they travel in lot numbers of five

2089

01:20:00,970 --> 01:19:59,210

for some reason and I don't know why so

2090

01:20:04,840 --> 01:20:00,980

it would be five ten fifteen twenty so

2091

01:20:07,960 --> 01:20:04,850

that would make make sense but as far as

2092

01:20:10,300 --> 01:20:07,970

the the cost to build these things just

2093

01:20:12,100 --> 01:20:10,310

by over the years of me thinking on this

2094

01:20:16,330 --> 01:20:12,110

and I don't think these things cost

2095

01:20:18,970 --> 01:20:16,340

nearly as much as as we would think they

2096

01:20:20,560 --> 01:20:18,980

would cost and that's they could I guess

2097

01:20:22,300 --> 01:20:20,570

we're getting ready to see Amazon fly

2098

01:20:24,460 --> 01:20:22,310

these things to your house you get in 15

2099

01:20:26,380 --> 01:20:24,470

minutes whatever you order so I'm not

2100

01:20:29,350 --> 01:20:26,390

I'm not saying that but I think that the

2101
01:20:32,620 --> 01:20:29,360
technology after they got over the hump

2102
01:20:34,900 --> 01:20:32,630
of getting it is not nearly as it's

2103
01:20:35,920 --> 01:20:34,910
taking it back to SpaceX and musk we

2104
01:20:37,990 --> 01:20:35,930
talked a little bit about that have you

2105
01:20:39,700 --> 01:20:38,000
learned anything more about what is your

2106
01:20:42,190 --> 01:20:39,710
thoughts as to whether a company like

2107
01:20:44,940 --> 01:20:42,200
SpaceX also has this technology or

2108
01:20:47,110 --> 01:20:44,950
something similar I there's a gifting

2109
01:20:50,050 --> 01:20:47,120
kind of like a gifting program so to

2110
01:20:51,790 --> 01:20:50,060
speak and when technology is thought

2111
01:20:53,590 --> 01:20:51,800
that a certain company could best

2112
01:20:54,460 --> 01:20:53,600
utilize it and or develop it beyond

2113
01:20:57,400 --> 01:20:54,470

where it's at

2114

01:20:58,780 --> 01:20:57,410

then that is done at the highest levels

2115

01:21:00,430 --> 01:20:58,790

on what have you and it's and it's still

2116

01:21:02,230 --> 01:21:00,440

top-secret ins what-have-you so these

2117

01:21:04,570 --> 01:21:02,240

these guys don't come in there and get

2118

01:21:07,240 --> 01:21:04,580

it and then run back hey you know for

2119

01:21:09,340 --> 01:21:07,250

free and and start selling it and making

2120

01:21:10,840 --> 01:21:09,350

money because that that's that defeats

2121

01:21:13,330 --> 01:21:10,850

the purpose of the program to begin with

2122

01:21:16,720 --> 01:21:13,340

and that's where DARPA comes in again so

2123

01:21:19,210 --> 01:21:16,730

I believe the project's do you come back

2124

01:21:21,550 --> 01:21:19,220

to DARPA DARPA monitors it and then they

2125

01:21:23,230 --> 01:21:21,560

they manage you know wherever the

2126

01:21:25,090 --> 01:21:23,240

technology goes I'm not hiring some

2127

01:21:27,100 --> 01:21:25,100

positive on that so someone ripped out a

2128

01:21:29,590 --> 01:21:27,110

partner too but as far as I'm as far as

2129

01:21:31,480 --> 01:21:29,600

I know that's kind of how it works so

2130

01:21:33,040 --> 01:21:31,490

good reason to believe that perhaps they

2131

01:21:36,940 --> 01:21:33,050

have shared this with somebody like

2132

01:21:38,830 --> 01:21:36,950

SpaceX yeah I believe I believe the

2133

01:21:40,420 --> 01:21:38,840

ability that's already happened yeah I

2134

01:21:43,540 --> 01:21:40,430

believe that started out that and I

2135

01:21:45,460 --> 01:21:43,550

believe blue origins and we have a

2136

01:21:59,870 --> 01:21:45,470

birthday to celebrate unless Michaels

2137

01:22:02,939 --> 01:21:59,880

got a last question over there I think

2138

01:22:05,370 --> 01:22:02,949

based on the size of justjust you know

2139

01:22:08,490 --> 01:22:05,380

just talking tic-tac phenomena the size

2140

01:22:10,830 --> 01:22:08,500

of it I believe was done so it could be

2141

01:22:14,040 --> 01:22:10,840

moved around on trucks or what-have-you

2142

01:22:16,500 --> 01:22:14,050

or rail cars without it creating a

2143

01:22:17,580 --> 01:22:16,510

problem because Aurora was huge you know

2144

01:22:19,500 --> 01:22:17,590

and you have these crafts that are

2145

01:22:21,479 --> 01:22:19,510

hundreds of feet long you know moving

2146

01:22:24,600 --> 01:22:21,489

around the sky and blocking out you know

2147

01:22:27,390 --> 01:22:24,610

different things those are what was

2148

01:22:29,819 --> 01:22:27,400

detectable advantage to that is they're

2149

01:22:31,379 --> 01:22:29,829

really one I mean do we see these Aurora

2150

01:22:33,720 --> 01:22:31,389

triangular craft going off and doing

2151
01:22:36,270 --> 01:22:33,730
wonderful things for the country I I

2152
01:22:38,270 --> 01:22:36,280
haven't seen it but this particular

2153
01:22:41,760 --> 01:22:38,280
craft I think this is the game changer

2154
01:22:44,129 --> 01:22:41,770
this even though the craft as far as I

2155
01:22:45,569 --> 01:22:44,139
know can't be weaponized to the point

2156
01:22:47,069 --> 01:22:45,579
where it you know it does whatever you

2157
01:22:49,979 --> 01:22:47,079
could but you can fly these things at

2158
01:22:51,569 --> 01:22:49,989
pinpoint accuracy to have any plot spawn

2159
01:22:52,229 --> 01:22:51,579
a spot on the planet and if they don't

2160
01:22:55,319 --> 01:22:52,239
cost that much

2161
01:22:57,089 --> 01:22:55,329
blow it up that's very intimidating and

2162
01:22:58,620 --> 01:22:57,099
then that's what that's what we do

2163
01:23:04,399 --> 01:22:58,630

that's why we're the only superpower on

2164

01:23:07,350 --> 01:23:04,409

the planet is by doing it as now a

2165

01:23:10,109 --> 01:23:07,360

question I have for anyone watching this

2166

01:23:13,500 --> 01:23:10,119

as are we stepping overstepping bounds

2167

01:23:16,410 --> 01:23:13,510

on any treaties that we may have I

2168

01:23:18,209 --> 01:23:16,420

haven't really heard a lot about that

2169

01:23:20,850 --> 01:23:18,219

but if we can if we have it say if you

2170

01:23:22,890 --> 01:23:20,860

put nukes on it then there's a lot of

2171

01:23:24,569 --> 01:23:22,900

nuclear treaties right not sure what

2172

01:23:26,850 --> 01:23:24,579

else right that would probably be the

2173

01:23:29,250 --> 01:23:26,860

exactly but having the capability of

2174

01:23:31,589 --> 01:23:29,260

putting you know I mean a nuke on it

2175

01:23:33,569 --> 01:23:31,599

are we transcending anything that might

2176

01:23:36,060 --> 01:23:33,579

be written into some treaty that we have

2177

01:23:38,370 --> 01:23:36,070

somewhere that might be a problem and
