FORMER CIA AND AREA 51 VETERAN

HIDDEN TRUTH SHOW WITH JIM BRESLO
SPACE RACE

AVAILABLE ON ALL PODCAST APPS

1
00:00:06,380 --> 00:00:02,419
now for our interview with former area

2
00:00:08,540 --> 00:00:06,390
51 CIA employee TD Barnes I started by

3
00:00:17,120 --> 00:00:08,550
asking him when he first went to work

4
00:00:21,160 --> 00:00:17,130
for the CIA other than military I'd

5
00:00:22,790 --> 00:00:21,170
already been working with the CIA and I

6
00:00:26,390 --> 00:00:22,800
didn't have any problem getting

7
00:00:29,540 --> 00:00:26,400
assignment to Havana and they had what

8
00:00:32,749 --> 00:00:29,550
Stroh's Seven Sisters which was radar

9
00:00:35,389 --> 00:00:32,759
site one radar beside was 45 miles from

10
00:00:38,150 --> 00:00:35,399
area 51 and those initially assigned at

11
00:00:40,639 --> 00:00:38,160
that we were tracking the f-15 there

12
00:00:42,830 --> 00:00:40,649
should be 70 their unending vehicles

13
00:00:45,380 --> 00:00:42,840

that sort of thing so it's also tracking

14

00:00:49,310 --> 00:00:45,390

well control 900 area 51 that's one of

15

00:00:51,410 --> 00:00:49,320

their seven sisters and then I went from

16

00:00:54,920 --> 00:00:51,420

there out to area 51 that's where I

17

00:00:57,410 --> 00:00:54,930

finished up my career so you left the

18

00:01:01,279 --> 00:00:57,420

army and then went to work directly for

19

00:01:04,189 --> 00:01:01,289

the CIA directly work for the on a NASA

20

00:01:08,109 --> 00:01:04,199

high range and I would sit there I was

21

00:01:10,969 --> 00:01:08,119

representing see a house contractor and

22

00:01:16,460 --> 00:01:10,979

but we were tracking - what this slide

23

00:01:18,950 --> 00:01:16,470

out at NASA the flame on high range they

24

00:01:20,749 --> 00:01:18,960

said mean that sort of thing and in

25

00:01:22,700 --> 00:01:20,759

reading your bio says that you were

26

00:01:27,649 --> 00:01:22,710

working at one point on a project to a

27

00:01:30,020 --> 00:01:27,659

have spacecraft the nuclear-powered so

28

00:01:33,740 --> 00:01:30,030

to go on extra long missions such as to

29

00:01:36,710 --> 00:01:33,750

Mars yeah that was an urban project when

30

00:01:38,420 --> 00:01:36,720

I left the national high range I spent

31

00:01:40,340 --> 00:01:38,430

about three months on the nerve across a

32

00:01:43,600 --> 00:01:40,350

developing user broccoli in the

33

00:01:47,450 --> 00:01:43,610

intention to go to Mars

34

00:01:49,100 --> 00:01:47,460

so we had a Mars pretty anybody

35

00:01:56,420 --> 00:01:49,110

surprising for people to know that we

36

00:01:59,780 --> 00:01:56,430

had a Mars project that long ago yeah I

37

00:02:02,270 --> 00:01:59,790

think through 500 days we had the engine

38

00:02:05,950 --> 00:02:02,280

and we had the missiles which is there

39

00:02:10,190 --> 00:02:05,960

no way you using a different offer

40

00:02:11,210 --> 00:02:10,200

planet with all the radioactivity but we

41

00:02:14,720 --> 00:02:11,220

had the missile be

42

00:02:18,320 --> 00:02:14,730

they built eeper terseness even probably

43

00:02:26,210 --> 00:02:18,330

late 5959 her so what years were you

44

00:02:27,530 --> 00:02:26,220

working on that that would be 1967 so we

45

00:02:30,680 --> 00:02:27,540

had obviously meant we'd obviously been

46

00:02:32,840 --> 00:02:30,690

to the moon and already looking at the

47

00:02:35,030 --> 00:02:32,850

next destination and we were looking at

48

00:02:36,320 --> 00:02:35,040

Mars and the thinking was that the most

49

00:02:45,880 --> 00:02:36,330

efficient way to get to Mars is through

50

00:02:52,910 --> 00:02:48,410

but you were saying in order for it to

51
00:03:04,940 --> 00:02:52,920
launch it required nuclear to launch no

52
00:03:07,630 --> 00:03:04,950
no there's no way that they say a space

53
00:03:12,860 --> 00:03:07,640
station or something like that she could

54
00:03:16,880 --> 00:03:12,870
still a prominent we got if you miss two

55
00:03:18,800 --> 00:03:16,890
lucky missile range that like that so

56
00:03:20,510 --> 00:03:18,810
there's been you know we have nuclear

57
00:03:23,750 --> 00:03:20,520
submarines and we have nuclear aircraft

58
00:03:37,270 --> 00:03:23,760
carriers but we've never had any type of

59
00:03:37,280 --> 00:03:44,890
sure so we made business reactor permit

60
00:03:50,090 --> 00:03:48,560
not practical because why all the weight

61
00:03:57,710 --> 00:03:50,100
was involved there's so much weight

62
00:03:59,090 --> 00:03:57,720
involved and so when when people talk

63
00:04:00,229 --> 00:03:59,100

about current project to go to Mars

64

00:04:02,300 --> 00:04:00,239

whether it be

65

00:04:04,190 --> 00:04:02,310

SpaceX talking about it or the US

66

00:04:19,400 --> 00:04:04,200

military are they talking about nuclear

67

00:04:21,590 --> 00:04:19,410

powered or not they have revisited some

68

00:04:23,430 --> 00:04:21,600

of the things that the Nerva project yes

69

00:04:25,380 --> 00:04:23,440

and we do have

70

00:04:27,780 --> 00:04:25,390

you know in the back burner we've got

71

00:04:33,750 --> 00:04:27,790

that capability but did that have any of

72

00:04:35,670 --> 00:04:33,760

a spaceport in orbit to ever use it just

73

00:04:39,480 --> 00:04:35,680

because of your radiation that's he were

74

00:04:41,220 --> 00:04:39,490

to release during launch and what were

75

00:04:44,490 --> 00:04:41,230

you dealing with you know

76
00:04:46,860 --> 00:04:44,500
superconductors and some of these newer

77
00:04:53,180 --> 00:04:46,870
ideas with nuclear energy but they got

78
00:05:03,870 --> 00:04:53,190
room temperature yeah room temperature

79
00:05:15,870 --> 00:05:03,880
superconductors so that came up later

80
00:05:17,820 --> 00:05:15,880
you think yeah you know we have to work

81
00:05:19,860 --> 00:05:17,830
underground that's where a larger story

82
00:05:25,560 --> 00:05:19,870
come out about underground stuff in the

83
00:05:29,130 --> 00:05:25,570
beta test and the reactor sit with the

84
00:05:31,760 --> 00:05:29,140
rear lan into the air and what so that

85
00:05:33,720 --> 00:05:31,770
you know anyone tried to go anywhere and

86
00:05:36,480 --> 00:05:33,730
we've actually had all of our

87
00:05:38,280 --> 00:05:36,490
instrumentation just below it the

88
00:05:40,230 --> 00:05:38,290

underground sleep when you're

89

00:05:43,020 --> 00:05:40,240

underground and what well almost half

90

00:05:45,180 --> 00:05:43,030

mile and then here dig rooms and stuff

91

00:05:48,630 --> 00:05:45,190

and all your electronics in it and with

92

00:05:50,370 --> 00:05:48,640

the two reactors up above this we've set

93

00:05:54,120 --> 00:05:50,380

off a lot of nuclear bombs in Nevada

94

00:05:56,490 --> 00:05:54,130

right oh yeah the oversell over a

95

00:05:59,450 --> 00:05:56,500

thousand new and and and are these bombs

96

00:06:06,740 --> 00:05:59,460

equivalent to Hiroshima type bombs

97

00:06:06,750 --> 00:06:09,890

[Music]

98

00:06:16,170 --> 00:06:13,710

maybe later

99

00:06:23,340 --> 00:06:16,180

and what's the closest that you've been

100

00:06:28,530 --> 00:06:23,350

to one of these tests different tests

101
00:06:31,529 --> 00:06:28,540
and we'd be about probably about ten

102
00:06:33,500 --> 00:06:31,539
miles from Ground Zero and you could see

103
00:06:35,420 --> 00:06:33,510
the

104
00:06:38,000 --> 00:06:35,430
underground one that we're done and

105
00:06:41,360 --> 00:06:38,010
you've got seeds around rippling it as

106
00:06:44,030 --> 00:06:41,370
it came across and you feel you know a

107
00:06:46,580 --> 00:06:44,040
little shaken what hey and see the dust

108
00:06:47,120 --> 00:06:46,590
ride just like dropping a rock into

109
00:06:49,310 --> 00:06:47,130
water

110
00:06:52,250 --> 00:06:49,320
no the ill the ripples that makes the

111
00:06:54,500 --> 00:06:52,260
same thing is underground from under

112
00:07:01,370 --> 00:06:54,510
breath underground so we also do a lot

113
00:07:05,780 --> 00:07:01,380

of ground tests though but they had been

114

00:07:07,610 --> 00:07:05,790

doing them oh yeah that we don't do them

115

00:07:08,620 --> 00:07:07,620

anymore because we don't consider them

116

00:07:20,450 --> 00:07:08,630

safe

117

00:07:21,920 --> 00:07:20,460

no trees we got the Russian there and

118

00:07:25,550 --> 00:07:21,930

talk a little bit about there's a

119

00:07:31,030 --> 00:07:25,560

nuclear waste dump site around there

120

00:07:36,020 --> 00:07:31,040

right yeah we mountainous for all your

121

00:07:39,140 --> 00:07:36,030

loader your race from all your around

122

00:07:40,940 --> 00:07:39,150

the country yeah right it's not safe to

123

00:07:42,650 --> 00:07:40,950

be keeping all the waste at the various

124

00:07:44,450 --> 00:07:42,660

reactors so the idea was we were gonna

125

00:07:46,850 --> 00:07:44,460

put it all in one safe place and we

126

00:07:49,730 --> 00:07:46,860

built this incredible underground

127

00:08:04,430 --> 00:07:49,740

nuclear waste facility that then was

128

00:08:13,180 --> 00:08:04,440

never used am i right yeah and it's 100%

129

00:08:20,090 --> 00:08:13,190

built and at what cost was that built at

130

00:08:22,130 --> 00:08:20,100

OB I think we got at least 30 yeah it's

131

00:08:23,900 --> 00:08:22,140

one of the biggest pink elephant or

132

00:08:27,050 --> 00:08:23,910

whatever you call it elephant white

133

00:08:28,010 --> 00:08:27,060

elephant projects in the history like to

134

00:08:29,870 --> 00:08:28,020

complain about the Bullock of the

135

00:08:33,100 --> 00:08:29,880

California bullet train here but this

136

00:08:37,580 --> 00:08:33,110

one takes the cake right the only people

137

00:08:39,830 --> 00:08:37,590

politicians well but I thought didn't it

138

00:08:46,910 --> 00:08:39,840

actually go to a vote of the people in

139

00:08:50,690 --> 00:08:49,340

no but it was the vada somehow I thought

140

00:08:52,930 --> 00:08:50,700

it was the Nevada government somehow

141

00:09:04,090 --> 00:08:52,940

state government that somehow prevented

142

00:09:07,939 --> 00:09:06,379

was perfectly fine with thirty billion

143

00:09:10,069 --> 00:09:07,949

dollars being spent to build the thing

144

00:09:16,610 --> 00:09:10,079

but then God forbid you put any actual

145

00:09:20,900 --> 00:09:16,620

waste in it there's that fear is it

146

00:09:22,430 --> 00:09:20,910

still possible that it's going to be

147

00:09:23,960 --> 00:09:22,440

used as there any movement afoot that

148

00:09:28,040 --> 00:09:23,970

they're actually gonna use it for waste

149

00:09:29,870 --> 00:09:28,050

it they try to get refund they use a bit

150

00:09:33,439 --> 00:09:29,880

of funding for it every year they're not

151

00:09:36,379 --> 00:09:33,449

enough to put it in production we got in

152

00:09:38,930 --> 00:09:36,389

trouble a government did they ships from

153

00:09:41,660 --> 00:09:38,940

the podium here to Nevada unannounced

154

00:09:43,100 --> 00:09:41,670

towards the end of last year never

155

00:09:46,069 --> 00:09:43,110

several months worrying one knew about

156

00:09:49,460 --> 00:09:46,079

it and all their politicians the rage

157

00:09:53,980 --> 00:09:49,470

think about it probably he brought it in

158

00:09:56,750 --> 00:09:53,990

it and where did it come from

159

00:09:59,810 --> 00:09:56,760

I'm not sure Tennessee or someplace like

160

00:10:03,590 --> 00:09:59,820

that how many nuclear reactors is a US

161

00:10:06,340 --> 00:10:03,600

energy directions is us have right now

162

00:10:15,230 --> 00:10:06,350

[Music]

163

00:10:23,150 --> 00:10:15,240

more than opening yeah yeah solar power

164

00:10:24,939 --> 00:10:23,160

wind power is I don't know I really hate

165

00:10:29,060 --> 00:10:24,949

to see them shut them down because the

166

00:10:32,360 --> 00:10:29,070

your solar power in your list for power

167

00:10:34,670 --> 00:10:32,370

once a governor stopped subsidizing the

168

00:10:38,569 --> 00:10:34,680

company said producing it the prices

169

00:10:40,430 --> 00:10:38,579

from beaching important it's not yeah

170

00:10:41,870 --> 00:10:40,440

and in nuclear when it you know you got

171

00:10:45,519 --> 00:10:41,880

everybody all worked up about climate

172

00:10:52,730 --> 00:10:45,529

change nuclear is clean energy right

173

00:10:55,480 --> 00:10:52,740

clean energy and the going is your solar

174

00:11:00,100 --> 00:10:55,490

power right now they're all be

175

00:11:01,629 --> 00:11:00,110

Avery government to do it well if I tell

176

00:11:05,739 --> 00:11:01,639

you once you want your government check

177

00:11:09,340 --> 00:11:05,749

stock we stop no yeah I don't understand

178

00:11:11,650 --> 00:11:09,350

why they not embracing nuclear it really

179

00:11:13,600 --> 00:11:11,660

is a serious contradiction to say that

180

00:11:18,759 --> 00:11:13,610

you're you want clean energy but you're

181

00:11:21,699 --> 00:11:18,769

opposed to nuclear and there's this

182

00:11:24,400 --> 00:11:21,709

workaround noodler we're not sure of it

183

00:11:26,410 --> 00:11:24,410

we respected the kids though it's not

184

00:11:29,079 --> 00:11:26,420

some evil thing that you know a lot of

185

00:11:32,259 --> 00:11:29,089

people try to make it out to be

186

00:11:36,189 --> 00:11:32,269

I've been down to Ground Zero after a

187

00:11:36,850 --> 00:11:36,199

test within an hour after an under eye

188

00:11:39,780 --> 00:11:36,860

test

189

00:11:41,619 --> 00:11:39,790

yeah pulled away just set them off

190

00:11:44,400 --> 00:11:41,629

everybody we have experiments

191

00:11:46,869 --> 00:11:44,410

underground and they go in to refer to

192

00:11:50,129 --> 00:11:46,879

experiments and of course it you weren't

193

00:11:52,900 --> 00:11:50,139

getting into the irradiation area and

194

00:11:57,069 --> 00:11:52,910

but you go back down into brown zero

195

00:12:00,609 --> 00:11:57,079

power Hydra is probably still Delta

196

00:12:03,009 --> 00:12:00,619

radiation so talk about area 51 and how

197

00:12:04,570 --> 00:12:03,019

you originally got assigned there and

198

00:12:05,859 --> 00:12:04,580

who you're working for

199

00:12:11,739 --> 00:12:05,869

[Music]

200

00:12:16,090 --> 00:12:11,749

most of the CIA Special Projects we were

201
00:12:20,169 --> 00:12:16,100
developing stealth for the a12 spot lane

202
00:12:23,259 --> 00:12:20,179
they're all replaced at YouTube and I

203
00:12:25,389 --> 00:12:23,269
went in as radar that sort of thing and

204
00:12:26,739 --> 00:12:25,399
uh and one of the various things that we

205
00:12:29,889 --> 00:12:26,749
were getting our hands on a lot of

206
00:12:31,780 --> 00:12:29,899
Russian radar and we were using those so

207
00:12:35,769 --> 00:12:31,790
we could determine how well we were

208
00:12:38,889 --> 00:12:35,779
doing with our projects so that was

209
00:12:41,499 --> 00:12:38,899
basically my thing was so we were ready

210
00:12:43,900 --> 00:12:41,509
to learn and that's what so was area

211
00:12:48,579 --> 00:12:43,910
5051 kind of the original secret

212
00:12:50,739 --> 00:12:48,589
projects location I'm sorry was it was

213
00:12:56,230 --> 00:12:50,749

area 51 is kind of the original secret

214

00:13:00,519 --> 00:12:56,240

projects location for the military it

215

00:13:02,199 --> 00:13:00,529

was great and it went over to the Air

216

00:13:05,530 --> 00:13:02,209

Force in 1979

217

00:13:08,169 --> 00:13:05,540

that's when the CIA got her wings

218

00:13:08,530 --> 00:13:08,179

clipped because of the Vietnam War and

219

00:13:11,350 --> 00:13:08,540

they were

220

00:13:13,930 --> 00:13:11,360

you know team attractive protesters that

221

00:13:16,870 --> 00:13:13,940

sort of thing and you're gonna realize

222

00:13:19,150 --> 00:13:16,880

all of a sudden it's a CIA station in

223

00:13:22,600 --> 00:13:19,160

Nevada and you're not allowed to have a

224

00:13:25,180 --> 00:13:22,610

CI station in the United States so we

225

00:13:29,530 --> 00:13:25,190

had to turn it over the Air Force and

226

00:13:35,410 --> 00:13:29,540

what yours is actually there I actually

227

00:13:38,200 --> 00:13:35,420

own size was not associated with the

228

00:13:40,930 --> 00:13:38,210

project starting actually starting in

229

00:13:42,220 --> 00:13:40,940

1960 you know when physically there

230

00:13:44,920 --> 00:13:42,230

that's one thing a lot of people don't

231

00:13:47,230 --> 00:13:44,930

know is less than five percent the

232

00:13:52,030 --> 00:13:47,240

people that worked on own project area

233

00:13:57,220 --> 00:13:52,040

for 51 every year the CIA was even in it

234

00:14:00,420 --> 00:13:57,230

so far minimized and re what the project

235

00:14:02,770 --> 00:14:00,430

was and you'll still hear people that

236

00:14:06,250 --> 00:14:02,780

worked out there that talk about the

237

00:14:11,860 --> 00:14:06,260

sr-71 what's this test or said what was

238

00:14:15,220 --> 00:14:11,870

never ever at 3:51 they 12c is a a12 was

239

00:14:17,830 --> 00:14:15,230

and the other two blackbirds the m21

240

00:14:19,810 --> 00:14:17,840

which was mothership with drone and then

241

00:14:22,750 --> 00:14:19,820

we had two Y of 12 which is carried

242

00:14:26,380 --> 00:14:22,760

missiles but even the people working out

243

00:14:29,500 --> 00:14:26,390

there didn't necessarily know what they

244

00:14:33,190 --> 00:14:29,510

were who's that work for or exactly

245

00:14:35,140 --> 00:14:33,200

other did what your assignment was and

246

00:14:39,270 --> 00:14:35,150

why was it transferred to the Air Force

247

00:14:42,310 --> 00:14:39,280

as opposed to any other military

248

00:14:45,310 --> 00:14:42,320

divisions well their forces always

249

00:14:47,770 --> 00:14:45,320

involved state worked for the TA

250

00:14:50,170 --> 00:14:47,780

you only had our commander out there was

251

00:14:51,970 --> 00:14:50,180

always there force but they were didn't

252

00:14:56,080 --> 00:14:51,980

report about the change manner or

253

00:14:59,830 --> 00:14:56,090

strictly to CIA they were reported CIA

254

00:15:02,260 --> 00:14:59,840

and the reason for that was to keep some

255

00:15:04,840 --> 00:15:02,270

general me home from an and pulling rank

256

00:15:07,540 --> 00:15:04,850

or what you guys doing out there if you

257

00:15:09,730 --> 00:15:07,550

didn't have a need to know he didn't he

258

00:15:12,280 --> 00:15:09,740

didn't I don't care who you were so

259

00:15:14,740 --> 00:15:12,290

that's we had a general would start out

260

00:15:16,960 --> 00:15:14,750

to contact Ledford was at CI attacked

261

00:15:18,390 --> 00:15:16,970

his the I now through the air force

262

00:15:22,320 --> 00:15:18,400

reporting to

263

00:15:25,320 --> 00:15:22,330

he reported directly to DCI director but

264

00:15:27,450 --> 00:15:25,330

the air forced himself without the loop

265

00:15:29,250 --> 00:15:27,460

that's how each every secret no one

266

00:15:31,890 --> 00:15:29,260

you've got air kids one till their work

267

00:15:34,530 --> 00:15:31,900

performance every night and and sure

268

00:15:36,810 --> 00:15:34,540

enough the meditators over word got out

269

00:15:38,970 --> 00:15:36,820

out and that's where while the mystery

270

00:15:40,350 --> 00:15:38,980

came in then when people wanted what in

271

00:15:42,800 --> 00:15:40,360

the world had to see I have been doing

272

00:15:47,490 --> 00:15:42,810

for 20 years that we don't know about

273

00:15:50,220 --> 00:15:47,500

what about plant 42 in Palmdale

274

00:15:58,440 --> 00:15:50,230

what happens there versus what happens

275

00:16:01,680 --> 00:15:58,450

at area 51 other places like truck on

276

00:16:04,410 --> 00:16:01,690

Dell would be lucky nothing to build

277

00:16:06,240 --> 00:16:04,420

each one is brought there to test so you

278

00:16:07,820 --> 00:16:06,250

don't like Boeing though they're testing

279

00:16:12,150 --> 00:16:07,830

in Seattle

280

00:16:13,200 --> 00:16:12,160

lucky did there there are bill and but

281

00:16:16,680 --> 00:16:13,210

that's where they do all different

282

00:16:19,980 --> 00:16:16,690

versions and then every pitch one and

283

00:16:21,690 --> 00:16:19,990

that's where they show what you got so

284

00:16:24,560 --> 00:16:21,700

sorry you're saying it's built at plant

285

00:16:30,510 --> 00:16:24,570

42 and then brought to area 51

286

00:16:36,470 --> 00:16:30,520

yeah a twelve by plane we hold those in

287

00:16:41,660 --> 00:16:36,480

boxes 35 two wide 518 trips always

288

00:16:44,010 --> 00:16:41,670

Burbank two very very thick one

289

00:16:46,140 --> 00:16:44,020

everything is built elsewhere brought

290

00:17:02,700 --> 00:16:46,150

there and what about where is it

291

00:17:05,130 --> 00:17:02,710

originally designed whatever say yeah

292

00:17:07,320 --> 00:17:05,140

but we only use notes for example their

293

00:17:09,079 --> 00:17:07,330

Lockheed well from her compete for

294

00:17:11,940 --> 00:17:09,089

government contracts they were the Navy

295

00:17:15,540 --> 00:17:11,950

they build whatever they're building and

296

00:17:18,060 --> 00:17:15,550

then and then they bring it to area 51

297

00:17:20,430 --> 00:17:18,070

and that's where we had old equipment

298

00:17:22,770 --> 00:17:20,440

stuff it's a laboratory that's where the

299

00:17:24,390 --> 00:17:22,780

Navy would come in they would be a

300

00:17:27,420 --> 00:17:24,400

customer the other people because

301
00:17:29,670 --> 00:17:27,430
everybody customers come in and and then

302
00:17:30,990 --> 00:17:29,680
we use our equipment our technology and

303
00:17:33,360 --> 00:17:31,000
that's where they put

304
00:17:35,790 --> 00:17:33,370
through the paces let's see if they do

305
00:17:38,160 --> 00:17:35,800
what he said it would and when a singer

306
00:17:40,140 --> 00:17:38,170
see was safe Boeing does moment air

307
00:17:41,010 --> 00:17:40,150
something they don't want a Lockheed

308
00:17:45,900 --> 00:17:41,020
knowing about it

309
00:17:48,660 --> 00:17:45,910
so so it's a hush and this is vice versa

310
00:17:51,990 --> 00:17:48,670
so no one talks about what the others

311
00:17:54,600 --> 00:17:52,000
got out there and this is a highly

312
00:17:56,910 --> 00:17:54,610
classified top-secret stuff

313
00:18:00,840 --> 00:17:56,920

help walk us through like exactly how

314

00:18:02,910 --> 00:18:00,850

secret it is I read in your bio how even

315

00:18:06,870 --> 00:18:02,920

after your left area 51 that you were

316

00:18:15,930 --> 00:18:06,880

still getting visits from the FBI you

317

00:18:18,930 --> 00:18:15,940

know even the say the pilots was fine

318

00:18:22,740 --> 00:18:18,940

for the CIA they didn't go to Vietnam

319

00:18:26,580 --> 00:18:22,750

for under five years they no one knew

320

00:18:27,960 --> 00:18:26,590

what they did they had done so they you

321

00:18:29,400 --> 00:18:27,970

know he didn't won't get missing that

322

00:18:31,970 --> 00:18:29,410

you know it went back to the Air Force

323

00:18:35,220 --> 00:18:31,980

and no one knew what they did you know

324

00:18:38,370 --> 00:18:35,230

that's different but uh most of the

325

00:18:42,150 --> 00:18:38,380

secrecy is freedom we were good mostly

326

00:18:43,700 --> 00:18:42,160

still that's a any gain or stealth and

327

00:18:47,610 --> 00:18:43,710

[Music]

328

00:18:51,600 --> 00:18:47,620

the enemy knowing anything about her

329

00:18:53,550 --> 00:18:51,610

still that's what the secrets were so

330

00:18:56,820 --> 00:18:53,560

you wrote that the FBI was checking in

331

00:18:59,010 --> 00:18:56,830

asking neighbors etc to see make sure

332

00:19:00,780 --> 00:18:59,020

that you were financially sound not

333

00:19:10,290 --> 00:19:00,790

subject to potential blackmail not

334

00:19:12,480 --> 00:19:10,300

desperate etc but your wife the wife

335

00:19:14,760 --> 00:19:12,490

abused you disqualified quicker than

336

00:19:16,890 --> 00:19:14,770

anything if she drank too much she

337

00:19:19,740 --> 00:19:16,900

talked too much that [\h__\h] I mean

338

00:19:24,120 --> 00:19:19,750

anything anything to keep through the

339

00:19:25,470 --> 00:19:24,130

maintain of secrecy so the family you're

340

00:19:34,560 --> 00:19:25,480

very fortunate you had a wife that

341

00:19:37,410 --> 00:19:34,570

didn't talk too much always in secret

342

00:19:40,680 --> 00:19:37,420

even talking about the very big one so

343

00:19:42,820 --> 00:19:40,690

she used it and but otherwise were they

344

00:19:46,070 --> 00:19:42,830

they were hand-picked the family

345

00:19:48,649 --> 00:19:46,080

almost as strong as we were so with all

346

00:19:50,360 --> 00:19:48,659

this secrecy and assurance of secrecy

347

00:19:52,940 --> 00:19:50,370

both before they let you in to begin

348

00:19:54,919 --> 00:19:52,950

with and even once you're out so does

349

00:19:56,560 --> 00:19:54,929

that mean that the government is very

350

00:20:02,539 --> 00:19:56,570

good at keeping secrets

351
00:20:04,880 --> 00:20:02,549
very good it's amazing how well we've

352
00:20:07,909 --> 00:20:04,890
got the super tell they're in you don't

353
00:20:10,190 --> 00:20:07,919
realize that example you know I worked a

354
00:20:15,740 --> 00:20:10,200
lot with the sr-71 guys which were all

355
00:20:19,039 --> 00:20:15,750
Air Force you know the Air Force pilot

356
00:20:20,870 --> 00:20:19,049
ever flew the CIA's plane ever they true

357
00:20:23,570 --> 00:20:20,880
through the trainer but not the route so

358
00:20:29,810 --> 00:20:23,580
the plan and no see I ever flew as I

359
00:20:33,740 --> 00:20:29,820
said was a group of generals and

360
00:20:36,379 --> 00:20:33,750
colonels Waverly we got a roster rosters

361
00:20:39,379 --> 00:20:36,389
of everyone ever flew and the YouTube

362
00:20:41,299 --> 00:20:39,389
plane or any of the Blackbird planes so

363
00:20:43,269 --> 00:20:41,309

you have people who claim they flew and

364

00:20:45,860 --> 00:20:43,279

flew and we know in their older age

365

00:20:50,509 --> 00:20:45,870

we've done project out three two months

366

00:20:54,919 --> 00:20:50,519

ago and transfer Yahoo all modified into

367

00:20:58,700 --> 00:20:54,929

planes but never went operational and so

368

00:21:01,549 --> 00:20:58,710

CIA listened to classified documents

369

00:21:04,700 --> 00:21:01,559

like crazy well wonder guys came across

370

00:21:07,129 --> 00:21:04,710

the CIA darkman just been released had

371

00:21:10,759 --> 00:21:07,139

this guy their own a third flight with

372

00:21:11,990 --> 00:21:10,769

Blackbird he got on the roster so

373

00:21:13,129 --> 00:21:12,000

there's all wondering what it was they

374

00:21:15,259 --> 00:21:13,139

shot their Millions

375

00:21:17,930 --> 00:21:15,269

I said well listen you know that was the

376

00:21:20,990 --> 00:21:17,940

base from enter a Turkic one that's his

377

00:21:22,870 --> 00:21:21,000

pseudo name and they did but it's our

378

00:21:25,549 --> 00:21:22,880

said oh my god it's three months rolled

379

00:21:28,250 --> 00:21:25,559

on his head did they learn to wait you

380

00:21:30,500 --> 00:21:28,260

sued old names back in the cities let's

381

00:21:34,220 --> 00:21:30,510

see I did we got our names off a

382

00:21:35,419 --> 00:21:34,230

Brasenose in Europe and these guys I

383

00:21:37,700 --> 00:21:35,429

couldn't believe they didn't know that

384

00:21:41,389 --> 00:21:37,710

we've been so changes for years and

385

00:21:44,450 --> 00:21:41,399

years but is there a car what about do

386

00:21:46,909 --> 00:21:44,460

they in based on your information do

387

00:21:49,970 --> 00:21:46,919

little tests where they might plant some

388

00:21:56,020 --> 00:21:49,980

false information just to see if it

389

00:21:59,120 --> 00:21:56,030

leaks out I probably probably would we

390

00:22:03,080 --> 00:21:59,130

we were at Sobers conscious of security

391

00:22:05,600 --> 00:22:03,090

back to in and G and you are chances why

392

00:22:09,980 --> 00:22:05,610

didn't over where we worked what we did

393

00:22:12,080 --> 00:22:09,990

my wife fell down 19 army 2009 where I

394

00:22:14,420 --> 00:22:12,090

worked in where I did they flew it back

395

00:22:17,570 --> 00:22:14,430

CIA headquarters that's what we could

396

00:22:21,440 --> 00:22:17,580

tell him because she was in Las Vegas at

397

00:22:26,380 --> 00:22:21,450

the time yes and you were your being

398

00:22:34,880 --> 00:22:29,180

leave come back Friday night she had no

399

00:22:37,310 --> 00:22:34,890

idea where she is when I wrote my book

400

00:22:40,970 --> 00:22:37,320

is when she found out a bid the

401
00:22:44,000 --> 00:22:40,980
appliance on the big air force base to

402
00:22:46,220 --> 00:22:44,010
Cuba and that's four times she had heard

403
00:22:48,260 --> 00:22:46,230
about that Wow he's got morning month

404
00:22:52,870 --> 00:22:48,270
work came back that night I've been to

405
00:22:55,160 --> 00:22:52,880
Cuban bad she didn't tell it so I

406
00:22:57,410 --> 00:22:55,170
listened to a couple bobbled azar

407
00:22:58,270 --> 00:22:57,420
interviews and I'm sure you're familiar

408
00:23:02,480 --> 00:22:58,280
with that name

409
00:23:06,530 --> 00:23:02,490
yeah oh yeah so he is there any doubt

410
00:23:11,960 --> 00:23:06,540
that he worked at area 51 here work

411
00:23:16,280 --> 00:23:11,970
there no well he's he he claims to have

412
00:23:21,260 --> 00:23:16,290
worked there in the late was at least 78

413
00:23:24,320 --> 00:23:21,270

late eighties late eighties know how

414

00:23:26,690 --> 00:23:24,330

that works out there you know a

415

00:23:29,330 --> 00:23:26,700

quarterback muted in there even in my

416

00:23:32,600 --> 00:23:29,340

day except art group that was working on

417

00:23:34,550 --> 00:23:32,610

the CIA it was apparently everybody else

418

00:23:37,310 --> 00:23:34,560

had a slide should he live in the state

419

00:23:41,060 --> 00:23:37,320

they had to commute in where it was

420

00:23:43,280 --> 00:23:41,070

required and you first of all you had to

421

00:23:46,940 --> 00:23:43,290

be on a manifest for a year get on the

422

00:23:50,210 --> 00:23:46,950

plane and then fine be met by security

423

00:23:54,280 --> 00:23:50,220

and they check your badges then and

424

00:23:58,550 --> 00:23:54,290

again a manifest on the other end and

425

00:24:01,460 --> 00:23:58,560

and lava sturdy guard to still live here

426
00:24:04,160 --> 00:24:01,470
in Vegas they you know been part of the

427
00:24:06,950 --> 00:24:04,170
Roadrunners a lot of people and

428
00:24:08,600 --> 00:24:06,960
absolutely Lazare was never there wow

429
00:24:10,610 --> 00:24:08,610
these are guys that worked there in the

430
00:24:13,040 --> 00:24:10,620
late 80s because I mean I've heard what

431
00:24:15,230 --> 00:24:13,050
Lazar tell his story he told it on a on

432
00:24:16,880 --> 00:24:15,240
another podcast recently the Joe Rogan

433
00:24:19,400 --> 00:24:16,890
show and he who goes into great detail

434
00:24:21,050 --> 00:24:19,410
and he talks about the flight that

435
00:24:23,540 --> 00:24:21,060
you're talking about now he talks about

436
00:24:26,630 --> 00:24:23,550
the flight from Vegas to the secret

437
00:24:30,320 --> 00:24:26,640
place and going back and forth you know

438
00:24:32,720 --> 00:24:30,330

every week and some of the tests that he

439

00:24:33,650 --> 00:24:32,730

had to pass in order to to work there

440

00:24:38,150 --> 00:24:33,660

and then some of the things that he

441

00:24:40,970 --> 00:24:38,160

worked on yeah is that you know they

442

00:24:43,340 --> 00:24:40,980

thought about words like believe me

443

00:24:45,710 --> 00:24:43,350

there was absolutely nothing there you

444

00:24:48,140 --> 00:24:45,720

know he talked about sign for there is a

445

00:24:51,050 --> 00:24:48,150

sign for word that's where we had over

446

00:24:52,730 --> 00:24:51,060

so we radar we actually had a little

447

00:24:55,280 --> 00:24:52,740

language trip it was that one of the

448

00:25:01,850 --> 00:24:55,290

remote sites that it was not a pet foods

449

00:25:03,530 --> 00:25:01,860

lake and so he heard about it and knows

450

00:25:05,380 --> 00:25:03,540

about the you know what we call the

451
00:25:08,480 --> 00:25:05,390
chain of Lights

452
00:25:13,090 --> 00:25:08,490
so you know you make a good story but he

453
00:25:16,190 --> 00:25:13,100
no one no security people and no one

454
00:25:18,860 --> 00:25:16,200
knew him well in what is it also fair to

455
00:25:21,860 --> 00:25:18,870
say based on the amount of secrecy and

456
00:25:24,110 --> 00:25:21,870
and classified nests of everything that

457
00:25:26,210 --> 00:25:24,120
it makes no sense that a guy like that

458
00:25:32,230 --> 00:25:26,220
would come out and say the things that

459
00:25:35,510 --> 00:25:32,240
he said no and no and and other people

460
00:25:37,670 --> 00:25:35,520
but now would come out said yeah we use

461
00:25:40,280 --> 00:25:37,680
you guys you know you kind of creepier

462
00:25:42,140 --> 00:25:40,290
this or that but that's the you know on

463
00:25:44,060 --> 00:25:42,150

prisons Road riders which is hope you

464

00:25:47,600 --> 00:25:44,070

guys have worked out there well your

465

00:25:52,510 --> 00:25:47,610

your contractor two pilots the engineers

466

00:25:55,700 --> 00:25:52,520

everybody and we get you know whenever

467

00:25:59,270 --> 00:25:55,710

so the fact that you work there is not

468

00:26:02,060 --> 00:25:59,280

itself a secret obviously not my secret

469

00:26:07,250 --> 00:26:02,070

and it is it's what's going on out there

470

00:26:09,860 --> 00:26:07,260

now that's no CIA Declassified and and

471

00:26:14,230 --> 00:26:09,870

fire saying 2009 is when we should

472

00:26:16,630 --> 00:26:14,240

actually say tell her wise where we were

473

00:26:18,940 --> 00:26:16,640

that's when they really released us to

474

00:26:21,700 --> 00:26:18,950

talk about it but we've been having

475

00:26:24,520 --> 00:26:21,710

reunions since 1972

476

00:26:27,310 --> 00:26:24,530

so no I'm asking as you sit here today

477

00:26:29,020 --> 00:26:27,320

there's still projects that are that you

478

00:26:32,350 --> 00:26:29,030

worked on that you cannot speak about is

479

00:26:35,440 --> 00:26:32,360

that correct oh yeah and a lot of them I

480

00:26:38,410 --> 00:26:35,450

wouldn't know about either you know once

481

00:26:40,150 --> 00:26:38,420

you leave there I don't care who you are

482

00:26:43,600 --> 00:26:40,160

this you got a need to know you're out

483

00:26:46,090 --> 00:26:43,610

your absolute you expected a and you see

484

00:26:49,300 --> 00:26:46,100

the results later not to be too Bonner

485

00:26:51,940 --> 00:26:49,310

we know it's out there and you know f-22

486

00:26:55,870 --> 00:26:51,950

and the your drones the stuff that it's

487

00:26:57,940 --> 00:26:55,880

Italian you don't know so you're someone

488

00:27:00,100 --> 00:26:57,950

who spent a lot of time at area 51 you

489

00:27:03,370 --> 00:27:00,110

spent a lot of time and classified

490

00:27:06,250 --> 00:27:03,380

projects top-secret projects let's now

491

00:27:09,010 --> 00:27:06,260

kind of fold that in with these these

492

00:27:11,470 --> 00:27:09,020

tic-tac UFOs that people have been

493

00:27:14,050 --> 00:27:11,480

talking about the USS nimitz incident

494

00:27:16,420 --> 00:27:14,060

and what these things are

495

00:27:18,550 --> 00:27:16,430

the Navy has confirmed that the video is

496

00:27:21,760 --> 00:27:18,560

real they've confirmed that the pilots

497

00:27:24,310 --> 00:27:21,770

did in fact encounter something so Italy

498

00:27:27,910 --> 00:27:24,320

but but they say they don't know what it

499

00:27:30,100 --> 00:27:27,920

is we've had at least one guest on Mike

500

00:27:30,670 --> 00:27:30,110

tur burr saying that they do know what

501

00:27:35,170 --> 00:27:30,680

it is

502

00:27:37,660 --> 00:27:35,180

this is top-secret US technology and

503

00:27:39,850 --> 00:27:37,670

they were testing this technology over

504

00:27:42,460 --> 00:27:39,860

the over the waters and perhaps testing

505

00:27:44,890 --> 00:27:42,470

the u.s. zone surveillance system but

506

00:27:49,330 --> 00:27:44,900

this is super secret US technology

507

00:27:51,570 --> 00:27:49,340

incredible technology where aircraft can

508

00:27:56,530 --> 00:27:51,580

go underwater above water and go at

509

00:28:03,430 --> 00:27:56,540

supersonic speeds yeah you know we you

510

00:28:06,040 --> 00:28:03,440

know the weather's warm you know with

511

00:28:07,630 --> 00:28:06,050

forms of stuff they can make them and we

512

00:28:10,000 --> 00:28:07,640

think there's any number of ships or

513

00:28:14,020 --> 00:28:10,010

planes where they want to and it shows

514

00:28:17,110 --> 00:28:14,030

right back to project ladies familiar or

515

00:28:18,490 --> 00:28:17,120

not but we were trying to determine you

516

00:28:20,980 --> 00:28:18,500

know we knew the Russians had a new

517

00:28:23,410 --> 00:28:20,990

radar and we need to know whether or not

518

00:28:26,050 --> 00:28:23,420

it would be able to pick up the a12

519

00:28:27,900 --> 00:28:26,060

that we were building to replace to u2

520

00:28:30,730 --> 00:28:27,910

and so

521

00:28:33,520 --> 00:28:30,740

it's practically in those we knew that

522

00:28:36,280 --> 00:28:33,530

the head is because giddy reflections

523

00:28:38,410 --> 00:28:36,290

off of this new array are inside of

524

00:28:41,950 --> 00:28:38,420

Russia they were tracking their ICBMs

525

00:28:45,700 --> 00:28:41,960

and we picked up through inflation's so

526

00:28:48,010 --> 00:28:45,710

we head up see 97 that was flying out of

527

00:28:50,080 --> 00:28:48,020

a big tear portly and this is where I

528

00:28:52,140 --> 00:28:50,090

got involved with agency is I was next

529

00:28:55,000 --> 00:28:52,150

door at Fort Bliss

530

00:28:58,210 --> 00:28:55,010

side-by-side but I was advanced into

531

00:29:00,850 --> 00:28:58,220

this sort of thing so I feel actually

532

00:29:02,860 --> 00:29:00,860

traveled on two of these flies but had

533

00:29:06,250 --> 00:29:02,870

to serve Joe's plane that we applied at

534

00:29:09,100 --> 00:29:06,260

Cuba and once they turned on the rate of

535

00:29:13,750 --> 00:29:09,110

the park we had a submarine said right

536

00:29:15,820 --> 00:29:13,760

ofsted the islands and once they started

537

00:29:18,460 --> 00:29:15,830

tracking us we would release balloons

538

00:29:24,010 --> 00:29:18,470

they in them they had different size as

539

00:29:26,620 --> 00:29:24,020

I recalibrated called spheres or devices

540

00:29:29,799 --> 00:29:26,630

anyway we were seeing what if they could

541

00:29:31,960 --> 00:29:29,809

pick those up and and we were doesn't

542

00:29:34,360 --> 00:29:31,970

fade away and let them pick up the stuff

543

00:29:36,549 --> 00:29:34,370

we release into a submarine and we was

544

00:29:38,980 --> 00:29:36,559

able to tell which one to her track and

545

00:29:42,520 --> 00:29:38,990

then maybe I wanted to tell this was

546

00:29:46,180 --> 00:29:42,530

they built his radar and Chloe learned

547

00:29:48,160 --> 00:29:46,190

no it was that uh yes they would be able

548

00:29:51,700 --> 00:29:48,170

to track two planes in their fluor rush

549

00:29:55,000 --> 00:29:51,710

again but the point is if we should

550

00:29:57,400 --> 00:29:55,010

electronically make that radar thanngkas

551
00:30:01,390 --> 00:29:57,410
track of one plane ten plane 20 planes

552
00:30:02,710 --> 00:30:01,400
where we wanted to from one tremon so

553
00:30:06,060 --> 00:30:02,720
where they'll do that in nineteen

554
00:30:11,799 --> 00:30:06,070
seconds and they've advanced so fast now

555
00:30:12,580 --> 00:30:11,809
it well known that it's our defense

556
00:30:16,150 --> 00:30:12,590
defense

557
00:30:19,360 --> 00:30:16,160
there's sufficient confused enemy any

558
00:30:21,310 --> 00:30:19,370
number of planes that and and make them

559
00:30:23,620 --> 00:30:21,320
disappear just like what they're trying

560
00:30:26,230 --> 00:30:23,630
so what we really think some of us that

561
00:30:28,390 --> 00:30:26,240
talk about this problem for so there's a

562
00:30:31,960 --> 00:30:28,400
video with leech someone leaked the

563
00:30:36,790 --> 00:30:31,970

video I'm pretty sure or even Bentley

564

00:30:39,430 --> 00:30:36,800

just says a little bit of ops to let the

565

00:30:40,560 --> 00:30:39,440

Russians wonder what we've got you who

566

00:30:44,010 --> 00:30:40,570

knows what the game

567

00:30:47,340 --> 00:30:44,020

but anyway is I think that what they

568

00:30:49,950 --> 00:30:47,350

were doin see it was only one radar or

569

00:30:51,840 --> 00:30:49,960

one type of system that the Navy had and

570

00:30:52,410 --> 00:30:51,850

this is showed up on no one else has

571

00:30:56,070 --> 00:30:52,420

seen it

572

00:30:58,020 --> 00:30:56,080

so we think that the possibility this

573

00:31:00,300 --> 00:30:58,030

was part of the testing that like we did

574

00:31:03,030 --> 00:31:00,310

with believe you they were testing this

575

00:31:06,240 --> 00:31:03,040

- you can't bill T to this radar and

576

00:31:10,050 --> 00:31:06,250

that's what they were seeing on it no

577

00:31:11,670 --> 00:31:10,060

I'm calling rape the system so they're

578

00:31:12,930 --> 00:31:11,680

testing this radar system which I think

579

00:31:18,110 --> 00:31:12,940

was a newer system and this is the

580

00:31:22,920 --> 00:31:18,120

phased array radar right right and

581

00:31:25,620 --> 00:31:22,930

they're testing it with what this is

582

00:31:28,950 --> 00:31:25,630

that's your question is what are we

583

00:31:31,500 --> 00:31:28,960

using now close on time violent question

584

00:31:33,780 --> 00:31:31,510

on it was it appeared it to lock on to

585

00:31:36,000 --> 00:31:33,790

whatever it was and they check it in the

586

00:31:38,340 --> 00:31:36,010

radar gate you know he didn't have a

587

00:31:40,350 --> 00:31:38,350

solid track instead just seeing it pop

588

00:31:41,970 --> 00:31:40,360

up on her spelling stroke somewhere it

589

00:31:45,750 --> 00:31:41,980

was actually tracked like you're

590

00:31:49,020 --> 00:31:45,760

tracking a physical object and that was

591

00:31:53,400 --> 00:31:49,030

refusing me what how are we've done that

592

00:31:55,920 --> 00:31:53,410

I don't know but research I've been able

593

00:31:58,290 --> 00:31:55,930

to do that we do have they came built

594

00:32:00,930 --> 00:31:58,300

and make it smooth in the radar where it

595

00:32:05,340 --> 00:32:00,940

does like it is bitchin

596

00:32:07,710 --> 00:32:05,350

what is really yeah I read this one

597

00:32:11,250 --> 00:32:07,720

quote where you said talking about

598

00:32:13,830 --> 00:32:11,260

palladium that at one point a Russian

599

00:32:19,280 --> 00:32:13,840

MIG 15 pilot even claimed he could see

600

00:32:25,680 --> 00:32:23,100

surprised we turn the system off right

601
00:32:32,760 --> 00:32:25,690
quick probably afraid seen the suffering

602
00:32:33,390 --> 00:32:32,770
and but he was paid he said we don't

603
00:32:35,460 --> 00:32:33,400
know what

604
00:32:36,990 --> 00:32:35,470
so that's what we afraid of is he the

605
00:32:41,520 --> 00:32:37,000
submarine still in the UH

606
00:32:43,800 --> 00:32:41,530
and oviya relation balloons he might

607
00:32:46,200 --> 00:32:43,810
have seen yet so that's all this in

608
00:32:49,020 --> 00:32:46,210
those days that's all the we were doing

609
00:32:52,130 --> 00:32:49,030
to test their radar was releasing these

610
00:32:58,519 --> 00:32:55,159
yeah we would release balloons off of

611
00:33:01,299 --> 00:32:58,529
the submarine and dipper side of the

612
00:33:06,139 --> 00:33:01,309
head forget what we call them the yeah

613
00:33:07,700 --> 00:33:06,149

but we had reflectors inside blue blue

614

00:33:09,680 --> 00:33:07,710

to adjust the means you're carrying this

615

00:33:12,139 --> 00:33:09,690

thing up but but yeah these things were

616

00:33:15,919 --> 00:33:12,149

calibrated to different sizes so we're

617

00:33:19,490 --> 00:33:15,929

seeing just how small do you have to get

618

00:33:21,850 --> 00:33:19,500

before the radar won't see so we had all

619

00:33:24,440 --> 00:33:21,860

these different sizes and they would

620

00:33:26,899 --> 00:33:24,450

drift them out and they kept a long

621

00:33:30,080 --> 00:33:26,909

corner we knew they were still seeing

622

00:33:31,669 --> 00:33:30,090

that science to the return so it's

623

00:33:34,129 --> 00:33:31,679

released from the submarine from

624

00:33:37,159 --> 00:33:34,139

underwater the balloon takes it to the

625

00:33:41,120 --> 00:33:37,169

surface and then actually takes it up

626
00:33:47,269 --> 00:33:41,130
into the sky yeah yeah I'll be reading

627
00:33:51,200 --> 00:33:47,279
release several different sizes a Liam

628
00:33:52,879 --> 00:33:51,210
balloon exactly the blue magician

629
00:33:55,340 --> 00:33:52,889
carrier yeah I mean it is interesting

630
00:33:56,930 --> 00:33:55,350
because you know one of the parts of

631
00:33:58,190 --> 00:33:56,940
this hold Nimitz sighting is the pilot

632
00:34:00,139 --> 00:33:58,200
saying that he saw something that

633
00:34:03,980 --> 00:34:00,149
appeared to be just below the surface of

634
00:34:08,419 --> 00:34:03,990
the water or was good or was causing a

635
00:34:10,909 --> 00:34:08,429
disturbance of the water yeah but he's

636
00:34:12,409 --> 00:34:10,919
also there but but how do we explain the

637
00:34:13,579 --> 00:34:12,419
supersonic speed that they're observing

638
00:34:19,849 --> 00:34:13,589

where these things were going from

639

00:34:24,290 --> 00:34:19,859

50,000 when the swarm technology they

640

00:34:26,810 --> 00:34:24,300

got the radar systems or whatever

641

00:34:29,480 --> 00:34:26,820

looking at thank you thing to warm the

642

00:34:32,089 --> 00:34:29,490

thing and they can actually make it

643

00:34:35,089 --> 00:34:32,099

disappear and then reappear over here so

644

00:34:38,919 --> 00:34:35,099

maybe that's what you know it's a who

645

00:34:41,599 --> 00:34:38,929

knows what else we got now but that's we

646

00:34:44,060 --> 00:34:41,609

probably research on the Air Force the

647

00:34:46,940 --> 00:34:44,070

Navy boat have been playing with this

648

00:34:50,409 --> 00:34:46,950

pretty a lot of gun out at White Sands

649

00:34:53,180 --> 00:34:50,419

were--they you don't have a GPS

650

00:34:55,579 --> 00:34:53,190

interferes that sort of thing so that's

651
00:34:58,579 --> 00:34:55,589
more plausible to you than this is

652
00:35:00,590 --> 00:34:58,589
actual US aircraft demonstrating some

653
00:35:03,630 --> 00:35:00,600
incredible new

654
00:35:05,610 --> 00:35:03,640
anti-gravity technology yeah I don't

655
00:35:12,600 --> 00:35:05,620
think no I don't think we were trying

656
00:35:14,730 --> 00:35:12,610
anything real it's hard to say we're

657
00:35:16,530 --> 00:35:14,740
almost sir we don't have that and we had

658
00:35:20,160 --> 00:35:16,540
to question you know we're here at

659
00:35:23,280 --> 00:35:20,170
Russia at hypersonic crap missiles now

660
00:35:26,400 --> 00:35:23,290
that this sort of thing 25,000 miles an

661
00:35:28,650 --> 00:35:26,410
hour or whatever and you really have to

662
00:35:32,910 --> 00:35:28,660
question a lot of that because like even

663
00:35:37,650 --> 00:35:32,920

with the a12 he was our enemy rotor

664

00:35:39,720 --> 00:35:37,660

monitoring mark three two one twenty two

665

00:35:41,880 --> 00:35:39,730

hundred mile an hour pattern bullet we

666

00:35:45,180 --> 00:35:41,890

hit up to twenty two hundred degree

667

00:35:46,710 --> 00:35:45,190

temperature in places and that's what

668

00:35:49,590 --> 00:35:46,720

our limitation with the engine rotates

669

00:35:51,930 --> 00:35:49,600

faster but we didn't have any metals it

670

00:35:53,000 --> 00:35:51,940

even though buddy use composite some of

671

00:35:56,100 --> 00:35:53,010

your titanium

672

00:35:57,900 --> 00:35:56,110

that was our limitation was the

673

00:35:59,520 --> 00:35:57,910

temperatures so when they're talking

674

00:36:02,130 --> 00:35:59,530

about and you know I don't know fifteen

675

00:36:05,760 --> 00:36:02,140

at their reentered atmosphere you know

676
00:36:10,140 --> 00:36:05,770
it turned cherry red so you're mad and

677
00:36:11,520 --> 00:36:10,150
it was rolled near Mach 25 it's like

678
00:36:13,590 --> 00:36:11,530
they're playing Russians are claiming to

679
00:36:18,620 --> 00:36:13,600
have so one of the got to can withstand

680
00:36:21,150 --> 00:36:18,630
that kind of temperature thousand juries

681
00:36:23,460 --> 00:36:21,160
explained to us the best you can as to

682
00:36:26,190 --> 00:36:23,470
this swarm technology you're talking

683
00:36:28,950 --> 00:36:26,200
about and how it works and how this

684
00:36:32,630 --> 00:36:28,960
could have fooled not just the radar

685
00:36:37,560 --> 00:36:35,010
drone technology now where they release

686
00:36:39,540 --> 00:36:37,570
you know a really smelly number ways but

687
00:36:42,300 --> 00:36:39,550
both the other planes and they're

688
00:36:45,150 --> 00:36:42,310

actually program if I was also

689

00:36:47,150 --> 00:36:45,160

demonstrations of it it's the last week

690

00:36:49,740 --> 00:36:47,160

or so where they make it they had

691

00:36:51,990 --> 00:36:49,750

hundreds of drones up there and they

692

00:36:54,900 --> 00:36:52,000

different form different things like her

693

00:36:57,780 --> 00:36:54,910

plane or ship and they'd they're

694

00:37:00,180 --> 00:36:57,790

programmed and you wouldn't have that

695

00:37:02,940 --> 00:37:00,190

many operators on the TV

696

00:37:05,760 --> 00:37:02,950

y'all see same now where they fly it

697

00:37:07,230 --> 00:37:05,770

like a form of birds you know the or

698

00:37:10,080 --> 00:37:07,240

something they just all follow each

699

00:37:13,500 --> 00:37:10,090

other but the other controls now relate

700

00:37:16,590 --> 00:37:13,510

you actually release those names

701
00:37:18,840 --> 00:37:16,600
c-130 and then this just refuses the

702
00:37:21,360 --> 00:37:18,850
enemy you know they don't I have no idea

703
00:37:23,460 --> 00:37:21,370
how many planes are up there or if there

704
00:37:25,290 --> 00:37:23,470
are fines at all do you make them think

705
00:37:27,360 --> 00:37:25,300
anything you want to nothing new

706
00:37:28,770 --> 00:37:27,370
technology is there that they're playing

707
00:37:30,900 --> 00:37:28,780
with it now and that's one thing to be

708
00:37:35,180 --> 00:37:30,910
dinner Y stands for they want to get

709
00:37:39,210 --> 00:37:35,190
away where they they the drones are

710
00:37:41,910 --> 00:37:39,220
independent of TPS I work they they are

711
00:37:45,770 --> 00:37:41,920
program where they do still work

712
00:37:48,420 --> 00:37:45,780
together about not rely on GPS signals

713
00:37:51,120 --> 00:37:48,430

so going back to the tic-tac

714

00:38:01,710 --> 00:37:51,130

is it your believe that there was an

715

00:38:04,980 --> 00:38:01,720

actual object out there or it's a spook

716

00:38:07,680 --> 00:38:04,990

there's something that appears you know

717

00:38:12,840 --> 00:38:07,690

really appears to be really something

718

00:38:17,250 --> 00:38:12,850

could the radar thank you and what about

719

00:38:19,350 --> 00:38:17,260

would a human pilot think that he's

720

00:38:21,630 --> 00:38:19,360

actually seen the thing because I think

721

00:38:24,590 --> 00:38:21,640

you know the commander flavor said that

722

00:38:51,120 --> 00:38:24,600

he actually saw it with his own eyes I

723

00:38:56,760 --> 00:38:51,130

don't know about that military the the

724

00:39:02,640 --> 00:38:56,770

pilots often image there's that thing to

725

00:39:04,500 --> 00:39:02,650

see this no other radar no one else what

726

00:39:06,660 --> 00:39:04,510

about anti-gravity technologies that's

727

00:39:09,150 --> 00:39:06,670

something that you've looked into that

728

00:39:14,220 --> 00:39:09,160

you're aware that the military's I've

729

00:39:17,760 --> 00:39:14,230

been researching I just heard that that

730

00:39:19,950 --> 00:39:17,770

the there were not everything but I've

731

00:39:22,920 --> 00:39:19,960

heard it one of the airway constant is

732

00:39:26,300 --> 00:39:22,930

that he got a coffee table in his Lobby

733

00:39:30,240 --> 00:39:26,310

there's anti-gravity it's just

734

00:39:34,620 --> 00:39:30,250

I don't true or not but I've heard this

735

00:39:39,120 --> 00:39:34,630

so obviously we work anything like that

736

00:39:41,250 --> 00:39:39,130

let's have been for years you know first

737

00:39:43,920 --> 00:39:41,260

hand I don't know of anything there's

738

00:39:46,440 --> 00:39:43,930

rumors that you yes so what about these

739

00:39:50,810 --> 00:39:46,450

US Navy patents have you heard about

740

00:40:04,050 --> 00:39:50,820

these that were just issued let's see in

741

00:40:05,070 --> 00:40:04,060

2017 can you hear me okay we so this is

742

00:40:06,930 --> 00:40:05,080

something maybe we should have sent you

743

00:40:11,070 --> 00:40:06,940

before the interview to let you review

744

00:40:14,220 --> 00:40:11,080

but it's these US Navy patents that talk

745

00:40:18,090 --> 00:40:14,230

about a craft using an inertial mass

746

00:40:24,260 --> 00:40:18,100

reduction device and these patents were

747

00:40:30,740 --> 00:40:28,530

remember that let's start with patents

748

00:40:32,850 --> 00:40:30,750

in general and the government I mean

749

00:40:34,860 --> 00:40:32,860

when you were working there was it

750

00:40:37,260 --> 00:40:34,870

common for you guys to invent something

751

00:40:41,750 --> 00:40:37,270

or and then take it to the US Patent

752

00:40:41,760 --> 00:40:48,410

[Music]

753

00:40:55,590 --> 00:40:53,040

they went on an engine do what the jp-8

754

00:41:01,950 --> 00:40:55,600

I mean they blew one engine after

755

00:41:03,570 --> 00:41:01,960

another in Florida but dr. Bob Abernathy

756

00:41:06,690 --> 00:41:03,580

hose was to patent somebody's about

757

00:41:09,060 --> 00:41:06,700

everything on an engine he was designer

758

00:41:11,430 --> 00:41:09,070

of that engine so you has an answer is

759

00:41:13,740 --> 00:41:11,440

yes in the aerospace companies

760

00:41:18,510 --> 00:41:13,750

themselves they were getting patents on

761

00:41:19,530 --> 00:41:18,520

them while they were producing so this

762

00:41:21,270 --> 00:41:19,540

one is it's got a really interesting

763

00:41:24,410 --> 00:41:21,280

start to this patent I'll just read a

764

00:41:26,760 --> 00:41:24,420

little bit of it to you and just see if

765

00:41:30,440 --> 00:41:26,770

any of this rings a bell to stuff that

766

00:41:33,720 --> 00:41:30,450

you had heard about because what they

767

00:41:37,320 --> 00:41:33,730

described in this patent issued in 2017

768

00:41:39,630 --> 00:41:37,330

is very similar to these tic-tacs that

769

00:41:42,060 --> 00:41:39,640

these pilots believe that they in

770

00:41:44,160 --> 00:41:42,070

countered so whether this is some big

771

00:41:46,110 --> 00:41:44,170

disinformation campaign or white because

772

00:41:49,320 --> 00:41:46,120

it is a little odd that the Navy would

773

00:41:59,760 --> 00:41:49,330

file these patents publicly do not even

774

00:42:02,370 --> 00:41:59,770

under any type of protective seal now so

775

00:42:07,110 --> 00:42:02,380

you got this hypersonic cruise missile

776

00:42:09,420 --> 00:42:07,120

now who knows they go back to the read

777

00:42:11,580 --> 00:42:09,430

it for the you to the Russians claiming

778

00:42:14,340 --> 00:42:11,590

they had all these bombers and stuff so

779

00:42:16,890 --> 00:42:14,350

it's just we've always done we play

780

00:42:19,110 --> 00:42:16,900

games with each other I released

781

00:42:22,470 --> 00:42:19,120

something to make someone think that

782

00:42:24,630 --> 00:42:22,480

we've got something that's that they

783

00:42:26,940 --> 00:42:24,640

don't have they waste a lot of time you

784

00:42:29,070 --> 00:42:26,950

know it's backed out of area you know

785

00:42:32,820 --> 00:42:29,080

with the Russians would fly satellites

786

00:42:35,010 --> 00:42:32,830

over to see what we are doing there and

787

00:42:39,570 --> 00:42:35,020

we always do whether it's the infrared

788

00:42:44,210 --> 00:42:39,580

or RF seeking or whatever view what time

789

00:42:46,650 --> 00:42:44,220

they don't beat there so we were

790

00:42:49,230 --> 00:42:46,660

mysteriously and we did it from out of

791

00:42:51,480 --> 00:42:49,240

or anything else but when takes maybe

792

00:42:51,750 --> 00:42:51,490

some cardboard something made shape of

793

00:43:04,080 --> 00:42:51,760

it

794

00:43:06,960 --> 00:43:04,090

ever think that we had some kind of you

795

00:43:11,910 --> 00:43:06,970

saw a plane sitting on the are American

796

00:43:14,280 --> 00:43:11,920

and we were flying flying the missions

797

00:43:16,080 --> 00:43:14,290

in over Vietnam they had the Russian

798

00:43:18,300 --> 00:43:16,090

heavy rubber said right off the coast

799

00:43:21,720 --> 00:43:18,310

and every time we would take off they

800

00:43:24,480 --> 00:43:21,730

video with the Vietnam every shot well

801
00:43:26,070 --> 00:43:24,490
we we only had three planes there but we

802
00:43:28,560 --> 00:43:26,080
would change the serial numbers over the

803
00:43:30,030 --> 00:43:28,570
glitter paint on the water we don't

804
00:43:33,080 --> 00:43:30,040
think we had a whole fleet of planes

805
00:43:35,520 --> 00:43:33,090
when we only had three so that's coming

806
00:43:38,940 --> 00:43:35,530
playing games with each other to make

807
00:43:40,800 --> 00:43:38,950
each other a waste your time and money

808
00:43:44,670 --> 00:43:40,810
trying to figure out what you give is

809
00:43:46,500 --> 00:43:44,680
for real and sort of thing well so it's

810
00:43:48,510 --> 00:43:46,510
very possible when you hear about these

811
00:43:51,210 --> 00:43:48,520
various UFO sightings by that people

812
00:43:52,630 --> 00:43:51,220
report is it your opinion that usually

813
00:43:57,329 --> 00:43:52,640

what they're seeing is some type

814

00:44:03,130 --> 00:43:57,339

of us technology that is being tested Oh

815

00:44:06,120 --> 00:44:03,140

what was report wait here we can you

816

00:44:08,620 --> 00:44:06,130

hear me yeah right

817

00:44:11,650 --> 00:44:08,630

when you know there's all these UFO

818

00:44:13,779 --> 00:44:11,660

sightings that people report in your

819

00:44:18,299 --> 00:44:13,789

opinion are they usually actually seeing

820

00:44:26,349 --> 00:44:22,930

there's some nice pain and it should be

821

00:44:29,170 --> 00:44:26,359

it should be anything but it's like what

822

00:44:32,799 --> 00:44:29,180

the the a12 plane

823

00:44:36,599 --> 00:44:32,809

no one knew we had a noun an airport or

824

00:44:39,880 --> 00:44:36,609

a lady initially and we flew

825

00:44:41,950 --> 00:44:39,890

2,850 mission data very fit to one in

826

00:44:44,829 --> 00:44:41,960

this plane to fly 17 miles high which

827

00:44:46,960 --> 00:44:44,839

many times what any other planes will

828

00:44:49,390 --> 00:44:46,970

build slide and it's growing faster than

829

00:44:52,420 --> 00:44:49,400

the bullet and people would see it and

830

00:44:55,779 --> 00:44:52,430

it was you we weren't supposed to have

831

00:44:58,749 --> 00:44:55,789

anything like that and so we chose a lot

832

00:45:01,120 --> 00:44:58,759

of UFO sightings ourselves in and this

833

00:45:03,789 --> 00:45:01,130

was a concern we tried to not do that

834

00:45:06,490 --> 00:45:03,799

and give me example with a YouTube plane

835

00:45:08,920 --> 00:45:06,500

it was flying 13 miles up and they were

836

00:45:11,470 --> 00:45:08,930

down in Sun hit it just right and that

837

00:45:14,950 --> 00:45:11,480

people would see a glimmer of sunlight

838

00:45:17,529 --> 00:45:14,960

off of it they saw a UFO and we tried

839

00:45:20,140 --> 00:45:17,539

paint on this first thing we tried and

840

00:45:22,599 --> 00:45:20,150

the weight of the paint we lost 1500

841

00:45:25,059 --> 00:45:22,609

feet feet of altitude just from the

842

00:45:28,029 --> 00:45:25,069

weight of the plane and then we called a

843

00:45:30,210 --> 00:45:28,039

project we called rainbow we we strung

844

00:45:32,589 --> 00:45:30,220

wires on that thing

845

00:45:36,759 --> 00:45:32,599

piano wired everything of trying to

846

00:45:38,380 --> 00:45:36,769

reduce the fusing of the radar signals

847

00:45:41,410 --> 00:45:38,390

or whatever and everything we did but

848

00:45:45,400 --> 00:45:41,420

first of all we lost weight and a lot of

849

00:45:48,249 --> 00:45:45,410

it it actually increased the radar cross

850

00:45:51,339 --> 00:45:48,259

engineer president introduced it when we

851
00:45:53,829 --> 00:45:51,349
built the a12 see I insisted that it be

852
00:45:57,220 --> 00:45:53,839
a stealth plane and this little black

853
00:46:00,430 --> 00:45:57,230
birds were about 90 percent snails but

854
00:46:02,829 --> 00:46:00,440
there's a 10% it shared eighty thousand

855
00:46:04,870 --> 00:46:02,839
pounds of fuel there no way you hide

856
00:46:08,089 --> 00:46:04,880
that much fuel for radar

857
00:46:10,160 --> 00:46:08,099
that much mass and then you got her

858
00:46:13,760 --> 00:46:10,170
pills temperatures and infrared would

859
00:46:17,180 --> 00:46:13,770
pick that up in a flash you know so we

860
00:46:18,740 --> 00:46:17,190
never were able to truly stealth but we

861
00:46:22,010 --> 00:46:18,750
learned enough we didn't reduce the

862
00:46:25,520 --> 00:46:22,020
signature light where it was but appear

863
00:46:28,849 --> 00:46:25,530

to be a small plane like a Cessna so if

864

00:46:32,299 --> 00:46:28,859

this tic-tac was in fact us craft which

865

00:46:33,890 --> 00:46:32,309

you don't particularly believe but if it

866

00:46:35,720 --> 00:46:33,900

was it's a secret that would have had to

867

00:46:39,380 --> 00:46:35,730

have been kept for well over 20 years

868

00:46:41,839 --> 00:46:39,390

now at this point does that in your

869

00:46:44,510 --> 00:46:41,849

opinion pass the smell test that that we

870

00:46:48,490 --> 00:46:44,520

could keep something secret that long is

871

00:46:54,950 --> 00:46:48,500

possible we called the lacquer with the

872

00:47:00,319 --> 00:46:54,960

r8 whales by birds we retired over 98

873

00:47:05,030 --> 00:47:00,329

and we didn't in storage know when you

874

00:47:06,770 --> 00:47:05,040

go to 1991 and talk about the talk about

875

00:47:10,130 --> 00:47:06,780

the amount of money that's being poured

876

00:47:12,109 --> 00:47:10,140

into these projects I mean I'm one of

877

00:47:44,900 --> 00:47:12,119

our guests at thirty billion dollars a

878

00:47:47,690 --> 00:47:44,910

year into but at thirty billion dollars

879

00:47:50,690 --> 00:47:47,700

a year for going on 30 straight years or

880

00:47:52,430 --> 00:47:50,700

40 years or whatever it's been we got to

881

00:47:56,720 --> 00:47:52,440

have something very significant to show

882

00:48:14,540 --> 00:47:56,730

for that so to me it all baby the to

883

00:48:16,760 --> 00:48:14,550

show for that money

884

00:48:19,100 --> 00:48:16,770

watch your quarterback but it hit

885

00:48:23,660 --> 00:48:19,110

producer then we did a lot of a cruiser

886

00:48:27,050 --> 00:48:23,670

concept vehicle then and we throw some

887

00:48:30,020 --> 00:48:27,060

in platforms for less you burn prey and

888

00:48:32,390 --> 00:48:30,030

your tattered blue be satisfied we

889

00:48:35,050 --> 00:48:32,400

caught the whale but these be proof of

890

00:48:37,820 --> 00:48:35,060

concept vehicle never intended to fly

891

00:48:39,680 --> 00:48:37,830

operationally so he built them to

892

00:48:42,950 --> 00:48:39,690

develop something like the b-2 bomber

893

00:48:46,280 --> 00:48:42,960

the the the whale which are attack it

894

00:48:49,880 --> 00:48:46,290

blew it produced the b-2 bomber and it

895

00:48:52,070 --> 00:48:49,890

also produces the stealth cruise missile

896

00:48:53,810 --> 00:48:52,080

but we built a lot of stuff like that

897

00:48:58,010 --> 00:48:53,820

that we flew out there really weird

898

00:49:00,650 --> 00:48:58,020

stuff but it's just a crucial concept so

899

00:49:04,130 --> 00:49:00,660

if we can keep secrets for over 20 years

900

00:49:05,750 --> 00:49:04,140

30 years it's no telling what our

901
00:49:06,550 --> 00:49:05,760
government has right now that we don't

902
00:49:11,720 --> 00:49:06,560
know about

903
00:49:13,250 --> 00:49:11,730
absolutely you can imagine we're not

904
00:49:14,990 --> 00:49:13,260
think about what we did beside we'll

905
00:49:18,440 --> 00:49:15,000
remember we were just so excited goes

906
00:49:22,190 --> 00:49:18,450
Monday and we built the fabula 812 kill

907
00:49:30,130 --> 00:49:22,200
the fastest plane ever built man plane

908
00:49:37,430 --> 00:49:34,190
so let me ask you to imagine a bit what

909
00:49:38,990 --> 00:49:37,440
do you imagine the US government may now

910
00:49:48,950 --> 00:49:39,000
have that we're only going to find out

911
00:49:51,440 --> 00:49:48,960
about sometime in the future we talked

912
00:49:57,040 --> 00:49:51,450
about the Russian developer sighting I

913
00:50:02,990 --> 00:50:01,340

however was really quick trying to go

914

00:50:07,460 --> 00:50:03,000

with fast planes that's no longer

915

00:50:08,990 --> 00:50:07,470

popular you know Trondheim our plane we

916

00:50:11,120 --> 00:50:09,000

go now the sensors

917

00:50:13,790 --> 00:50:11,130

let's build a smart plane it doesn't

918

00:50:16,820 --> 00:50:13,800

have to be fast let's build something

919

00:50:18,770 --> 00:50:16,830

that you got the sensors on where no one

920

00:50:20,240 --> 00:50:18,780

can tell or where's the other ones done

921

00:50:24,230 --> 00:50:20,250

or that sort of thing

922

00:50:24,980 --> 00:50:24,240

so you have 20 2013 2 thing is that is

923

00:50:34,570 --> 00:50:24,990

Madison

924

00:50:37,040 --> 00:50:34,580

the f-35 is not but the f-22 is and so

925

00:50:40,160 --> 00:50:37,050

tell me exactly what what this Russian

926
00:50:51,230 --> 00:50:40,170
hypersonic technology is that they're

927
00:51:00,200 --> 00:50:51,240
that they're at least talking about 25

928
00:51:04,030 --> 00:51:00,210
which is huge number and how does it

929
00:51:07,460 --> 00:51:04,040
achieve that we're going home and we

930
00:51:10,760 --> 00:51:07,470
question whether you really good but you

931
00:51:13,460 --> 00:51:10,770
imagine clearly the US is also doing its

932
00:51:16,850 --> 00:51:13,470
own research and development when it

933
00:51:26,900 --> 00:51:16,860
comes to supersonic speeds hypersonic

934
00:51:43,700 --> 00:51:26,910
speeds my gravity is something you think

935
00:51:46,130 --> 00:51:43,710
for sure we're also investing so so if

936
00:51:48,800 --> 00:51:46,140
you are a betting man and you're in

937
00:51:51,740 --> 00:51:48,810
Vegas and you're betting on what these

938
00:51:56,900 --> 00:51:51,750

Tic Tacs actually are you're betting

939

00:51:59,450 --> 00:51:56,910

that this is some type of faux reality

940

00:52:00,440 --> 00:51:59,460

that the government is able to create to

941

00:52:13,900 --> 00:52:00,450

fool

942

00:52:34,609 --> 00:52:13,910

the radar systems not extraterrestrial

943

00:52:36,800 --> 00:52:34,619

no airplane pose we don't do that so

944

00:52:38,210 --> 00:52:36,810

give us your observation about all these

945

00:52:40,520 --> 00:52:38,220

people like get all worked up

946

00:52:43,070 --> 00:52:40,530

area 51 and they want a storm area 51

947

00:52:45,109 --> 00:52:43,080

and they're hiding aliens there it's etc

948

00:53:00,740 --> 00:52:45,119

I mean is this all just high comedy to

949

00:53:04,190 --> 00:53:00,750

you guys that work your imagination run

950

00:53:12,950 --> 00:53:04,200

wild what are you gonna stay we've done

951
00:53:14,720 --> 00:53:12,960
so good sort of thing so people in the

952
00:53:17,690 --> 00:53:14,730
Roadrunner community which is this

953
00:53:20,900 --> 00:53:17,700
community of area 51 people who had

954
00:53:22,520 --> 00:53:20,910
worked there among that group is is is

955
00:53:24,099 --> 00:53:22,530
there any among them that believe that

956
00:53:34,790 --> 00:53:24,109
we've actually been visited by

957
00:53:36,920 --> 00:53:34,800
extraterrestrial crafts you don't deny

958
00:53:38,720 --> 00:53:36,930
there could be extraterrestrial life out

959
00:53:49,089 --> 00:53:38,730
there but no one believes we've been

960
00:53:53,839 --> 00:53:49,099
visited by it's out there with you know

961
00:54:00,770 --> 00:53:53,849
the nurse star service it's three trade

962
00:54:01,970 --> 00:54:00,780
miles away that's lonely okay last

963
00:54:04,670 --> 00:54:01,980

question before I'm gonna hand this over

964

00:54:06,200 --> 00:54:04,680

to Michael our producer who has done

965

00:54:08,450 --> 00:54:06,210

many years of research into this kind of

966

00:54:08,690 --> 00:54:08,460

stuff I want to let him ask too if you'd

967

00:54:11,030 --> 00:54:08,700

like

968

00:54:12,320 --> 00:54:11,040

but backed back to what this thing

969

00:54:17,120 --> 00:54:12,330

likely was so it sounds like you're

970

00:54:19,190 --> 00:54:17,130

saying 0% extraterrestrial I imagine

971

00:54:21,950 --> 00:54:19,200

you're giving some percentage likelihood

972

00:54:23,329 --> 00:54:21,960

that it could actually be a u.s. craft

973

00:54:25,910 --> 00:54:23,339

right what percent chance are you

974

00:54:44,480 --> 00:54:25,920

getting that versus it being just the

975

00:54:49,070 --> 00:54:44,490

radar doing plan with now as its form

976
00:54:50,160 --> 00:54:49,080
technology really they don't know what

977
00:54:53,050 --> 00:54:50,170
chase

978
00:55:07,020 --> 00:54:53,060
that leaves 30% that it is actually at

979
00:55:09,370 --> 00:55:07,030
us and gravity-defying craft oh come on

980
00:55:10,600 --> 00:55:09,380
what's the way I don't understand the

981
00:55:20,080 --> 00:55:10,610
difference what's the difference between

982
00:55:28,570 --> 00:55:20,090
the spoofing and the electronic because

983
00:55:30,250 --> 00:55:28,580
they knew magic yeah but those that

984
00:55:31,900 --> 00:55:30,260
they've been reporting in Colorado and

985
00:55:34,060 --> 00:55:31,910
Nebraska etc they're not you know

986
00:55:42,490 --> 00:55:34,070
zipping around at 24,000 miles an hour

987
00:55:44,050 --> 00:55:42,500
like like this alright so what so so are

988
00:55:54,490 --> 00:55:44,060

you giving me any percentage on it being

989

00:56:02,020 --> 00:55:54,500

a gravity-defying u.s. craft no can't

990

00:56:08,980 --> 00:56:02,030

hear me no you just don't want to answer

991

00:56:11,260 --> 00:56:08,990

my question very very less wrap up a

992

00:56:13,510 --> 00:56:11,270

question just to put a bow on it in all

993

00:56:16,510 --> 00:56:13,520

things that you've heard about read

994

00:56:18,820 --> 00:56:16,520

about seen experienced etc the idea of a

995

00:56:21,250 --> 00:56:18,830

tic-tac shaped object that's about 46

996

00:56:24,010 --> 00:56:21,260

feet long is that ring a bell to you at

997

00:56:24,880 --> 00:56:24,020

all is that is anything that could be or

998

00:56:40,540 --> 00:56:24,890

something that you've seen or heard

999

00:56:43,150 --> 00:56:40,550

about our work done shaped object thank
