

**PATRICK "PJ" HUGHES, PETTY OFFICER
AVIATION TECHNICIAN VAW-117 USS NIMITZ (FMR.)**

HIDDEN TRUTH SHOW WITH JIM BRESLO
SPACE RACE

AVAILABLE ON ALL PODCAST APPS

1
00:00:04,610 --> 00:00:02,419
okay now for the start of our series of

2
00:00:08,540 --> 00:00:04,620
interviews with veterans of the USS

3
00:00:10,160 --> 00:00:08,550
nimitz starting with PJ Hughes I started

4
00:00:12,379 --> 00:00:10,170
the interview by asking him his thoughts

5
00:00:14,270 --> 00:00:12,389
about Mike tur burrs claim that the

6
00:00:17,660 --> 00:00:14,280
tick-tack UFOs are in fact a u.s.

7
00:00:19,910 --> 00:00:17,670
technology um I'm like 6040 with it

8
00:00:22,599 --> 00:00:19,920
being our technology I'm open to

9
00:00:24,080 --> 00:00:22,609
whatever it turns out to be 60 being

10
00:00:27,290 --> 00:00:24,090
it's ours

11
00:00:30,320 --> 00:00:27,300
okay like I've said in other interviews

12
00:00:31,910 --> 00:00:30,330
I I know stuff that I dealt with in the

13
00:00:33,950 --> 00:00:31,920

military that programs that I was read

14

00:00:36,319 --> 00:00:33,960

into that the average person doesn't

15

00:00:38,299 --> 00:00:36,329

know so if there's stuff I know that you

16

00:00:39,619 --> 00:00:38,309

don't know I guarantee you this stuff

17

00:00:42,950 --> 00:00:39,629

that other people know inside of them

18

00:00:44,540 --> 00:00:42,960

it's just the way it works but

19

00:00:47,360 --> 00:00:44,550

interesting you said he mentioned a

20

00:00:49,910 --> 00:00:47,370

briefing the Freedom of Information Act

21

00:00:55,400 --> 00:00:49,920

a request was just returned the other

22

00:00:58,310 --> 00:00:55,410

day that stated there was a classified

23

00:01:00,410 --> 00:00:58,320

briefing that they have found which kind

24

00:01:01,910 --> 00:01:00,420

of unfortunate sauce fortunately your

25

00:01:05,450 --> 00:01:01,920

unfortunately lines up with his story a

26

00:01:08,840 --> 00:01:05,460

little yeah we should talk about that

27

00:01:11,390 --> 00:01:08,850

because that was just released and we

28

00:01:15,260 --> 00:01:11,400

had seen that report and now it seems

29

00:01:18,260 --> 00:01:15,270

have gone mainstream with the 4-year

30

00:01:19,310 --> 00:01:18,270

response of the US Navy which talks

31

00:01:21,679 --> 00:01:19,320

about a briefing and they're being

32

00:01:24,530 --> 00:01:21,689

briefing slides that they have not

33

00:01:27,289 --> 00:01:24,540

released and what at least one video

34

00:01:30,830 --> 00:01:27,299

they have not released I'm pretty sure

35

00:01:33,710 --> 00:01:30,840

the video is the video we've seen just

36

00:01:36,260 --> 00:01:33,720

the full version that shadow know what

37

00:01:40,219 --> 00:01:36,270

has stated exists and he's one who

38

00:01:44,389 --> 00:01:40,229

recorded it so we know it exists Jason

39

00:01:45,590 --> 00:01:44,399

Turner who's he's seen the full video so

40

00:01:46,700 --> 00:01:45,600

we know there's a longer video and

41

00:01:46,940 --> 00:01:46,710

that's probably what they're talking

42

00:01:51,800 --> 00:01:46,950

about

43

00:01:53,810 --> 00:01:51,810

something else but as far as what we

44

00:01:55,550 --> 00:01:53,820

know and what technology we know we had

45

00:01:57,910 --> 00:01:55,560

at the time the only thing that was

46

00:02:00,410 --> 00:01:57,920

really recording was the gun cameras on

47

00:02:02,030 --> 00:02:00,420

the a-teams there's nothing else that we

48

00:02:03,490 --> 00:02:02,040

really had the capabilities to record

49

00:02:06,230 --> 00:02:03,500

it's time mm-hmm

50

00:02:08,900 --> 00:02:06,240

so and that is the video that you

51
00:02:11,240 --> 00:02:08,910
believe we've seen yes and that's from

52
00:02:13,520 --> 00:02:11,250
the story that's from the third f-18

53
00:02:13,760 --> 00:02:13,530
that was sent out right um depends which

54
00:02:17,450 --> 00:02:13,770
way

55
00:02:19,910 --> 00:02:17,460
look at it yes and and the 10 minute

56
00:02:22,490 --> 00:02:19,920
video is is that you're understanding

57
00:02:24,070 --> 00:02:22,500
that under ward etcetera say that the

58
00:02:26,180 --> 00:02:24,080
video is approximately 10 minutes long

59
00:02:28,130 --> 00:02:26,190
okay he didn't really specify the time

60
00:02:30,620 --> 00:02:28,140
he just said it's it's much longer than

61
00:02:32,060 --> 00:02:30,630
the one that was the least and higher

62
00:02:34,010 --> 00:02:32,070
quality oh yeah

63
00:02:40,670 --> 00:02:34,020

I mean the video that's been released

64

00:02:42,260 --> 00:02:40,680

was email cut down so it's a horrible

65

00:02:43,100 --> 00:02:42,270

quality just from how many times it's

66

00:02:45,440 --> 00:02:43,110

been transmitted

67

00:02:48,950 --> 00:02:45,450

have you seen video from f-18 fighters

68

00:02:51,620 --> 00:02:48,960

before yes and does it usually look like

69

00:02:52,640 --> 00:02:51,630

that or no it looks as clear as I'm

70

00:02:55,880 --> 00:02:52,650

looking at you right now

71

00:02:58,910 --> 00:02:55,890

oh is it always black and white yes the

72

00:03:02,300 --> 00:02:58,920

flares are black and white but it would

73

00:03:04,010 --> 00:03:02,310

be far clearer and what level detail do

74

00:03:07,220 --> 00:03:04,020

you think we'd be seeing on that tic-tac

75

00:03:08,870 --> 00:03:07,230

if we were able to some video I think

76
00:03:13,400 --> 00:03:08,880
you'd probably see everything we've said

77
00:03:16,190 --> 00:03:13,410
that that exists on it the LCAP antenna

78
00:03:18,800 --> 00:03:16,200
or appendage coming out of the bottom

79
00:03:20,600 --> 00:03:18,810
you probably would have seen remind you

80
00:03:24,470 --> 00:03:20,610
who's the original person to report the

81
00:03:26,660 --> 00:03:24,480
I-shaped antenna I honestly thought it

82
00:03:29,420 --> 00:03:26,670
was favored but I'm not 100% sure at

83
00:03:33,080 --> 00:03:29,430
this point because I know Jason Turner

84
00:03:36,110 --> 00:03:33,090
said the appendages were there an

85
00:03:39,500 --> 00:03:36,120
unnamed individual on the hawk I said

86
00:03:43,910 --> 00:03:39,510
they were there so multiple people from

87
00:03:46,010 --> 00:03:43,920
multiple avenues have said those

88
00:03:47,780 --> 00:03:46,020

appendages were there now by the way the

89

00:03:51,430 --> 00:03:47,790

video from the East Coast which they

90

00:03:55,070 --> 00:03:51,440

refer to as gimbal or what's the other

91

00:04:00,320 --> 00:03:55,080

and go fast those are also poor quality

92

00:04:04,280 --> 00:04:00,330

yeah so what's going on there if you've

93

00:04:06,350 --> 00:04:04,290

ever looked at any footage whether it's

94

00:04:09,770 --> 00:04:06,360

like a bomb site footage or I mean the

95

00:04:12,020 --> 00:04:09,780

footage that generally released to the

96

00:04:15,530 --> 00:04:12,030

media it's always lower quality than

97

00:04:18,440 --> 00:04:15,540

what it actually is so sometimes that's

98

00:04:19,849 --> 00:04:18,450

just done intentionally that's my

99

00:04:21,620 --> 00:04:19,859

assumption I'm sure there's somebody

100

00:04:26,110 --> 00:04:21,630

else who deals with that stuff on a

101
00:04:27,170 --> 00:04:26,120
daily basis you may say otherwise but

102
00:04:30,529 --> 00:04:27,180
there

103
00:04:32,900 --> 00:04:30,539
a lot of technology that deals with all

104
00:04:35,450 --> 00:04:32,910
that stuff that if we release the full

105
00:04:37,939 --> 00:04:35,460
true version of stuff people will know

106
00:04:40,670 --> 00:04:37,949
how good our stuff actually is I don't

107
00:04:43,189 --> 00:04:40,680
think they want to share that so you

108
00:04:44,540 --> 00:04:43,199
were associated with the Hawkeye right

109
00:04:47,779 --> 00:04:44,550
right and am I correct that you

110
00:04:50,590 --> 00:04:47,789
sometimes flew on the Hawkeye no I mean

111
00:04:56,029 --> 00:04:50,600
I have flown on it not routinely okay I

112
00:04:59,480 --> 00:04:56,039
am happy for one of the crew members who

113
00:05:02,719 --> 00:04:59,490

routinely flew him and I are extremely

114

00:05:05,900 --> 00:05:02,729

good friends so I know a lot of I was

115

00:05:07,460 --> 00:05:05,910

what he knows so much he shouldn't have

116

00:05:10,550 --> 00:05:07,470

shared with me so I can't share with

117

00:05:15,770 --> 00:05:10,560

anybody else some what she shared with

118

00:05:16,850 --> 00:05:15,780

both Dave Beatty and myself so there's a

119

00:05:18,320 --> 00:05:16,860

lot of stuff that happen with the

120

00:05:21,200 --> 00:05:18,330

Hawkeye that people aren't taking into

121

00:05:22,790 --> 00:05:21,210

account so to be clear about this friend

122

00:05:24,320 --> 00:05:22,800

of yours that I think in a prior

123

00:05:25,060 --> 00:05:24,330

interview I saw you refer to him as

124

00:05:28,580 --> 00:05:25,070

Roger

125

00:05:30,200 --> 00:05:28,590

so let's refer to him continue to refer

126

00:05:31,790 --> 00:05:30,210

to him as Roger you're saying there's

127

00:05:33,770 --> 00:05:31,800

some things that he's reported to you

128

00:05:35,839 --> 00:05:33,780

and Dave Beatty who who produced a

129

00:05:38,050 --> 00:05:35,849

documentary that still has not been

130

00:05:41,360 --> 00:05:38,060

disclosed correct

131

00:05:44,570 --> 00:05:41,370

the hawk-eyed crew and this is one of

132

00:05:46,159 --> 00:05:44,580

the things I've been trying to push it

133

00:05:47,420 --> 00:05:46,169

out on my Twitter because I apparently

134

00:05:51,290 --> 00:05:47,430

in popular on Twitter and I'm not sure

135

00:05:52,939 --> 00:05:51,300

why there's a lot of stuff that happened

136

00:05:56,540 --> 00:05:52,949

with the Hawkeye that has been taken to

137

00:05:58,129 --> 00:05:56,550

account whether it's in the official

138

00:06:00,860 --> 00:05:58,139

unofficial report or running the

139

00:06:03,050 --> 00:06:00,870

reporting that's happened when that

140

00:06:08,779 --> 00:06:03,060

plane came back the crew kind of stayed

141

00:06:10,279 --> 00:06:08,789

in the airplane and we called it a hot

142

00:06:11,960 --> 00:06:10,289

pumper house which we'd leave the

143

00:06:14,300 --> 00:06:11,970

engines on so they could refuel and go

144

00:06:15,770 --> 00:06:14,310

out again except they weren't supposed

145

00:06:18,040 --> 00:06:15,780

to go out again basically they just sat

146

00:06:20,300 --> 00:06:18,050

there for a while with the engines on

147

00:06:21,730 --> 00:06:20,310

when the engines shut off the crew

148

00:06:24,469 --> 00:06:21,740

hightailed it out of there

149

00:06:26,560 --> 00:06:24,479

went down to what they call skiff it's a

150

00:06:29,629 --> 00:06:26,570

centralized information facility

151

00:06:32,270 --> 00:06:29,639

basically it's a room you can't hear

152

00:06:34,279 --> 00:06:32,280

outside them and they were debriefed

153

00:06:36,140 --> 00:06:34,289

signed non-disclosure agreements and

154

00:06:37,700 --> 00:06:36,150

then now hold on a second let's just be

155

00:06:39,680 --> 00:06:37,710

clear as far as exactly where you were

156

00:06:41,210 --> 00:06:39,690

at this time did you actually see the

157

00:06:43,880 --> 00:06:41,220

thing land yes

158

00:06:45,350 --> 00:06:43,890

I caught the airplane we all said we

159

00:06:46,910 --> 00:06:45,360

always have maintained there's there to

160

00:06:50,330 --> 00:06:46,920

recover the airplanes when they came

161

00:06:53,570 --> 00:06:50,340

back I launched that airplane and I

162

00:06:55,910 --> 00:06:53,580

recovered it it was for non-military

163

00:06:59,170 --> 00:06:55,920

types like me launching it and

164

00:07:01,070 --> 00:06:59,180

recovering it means what we have to

165

00:07:04,250 --> 00:07:01,080

there's a lot of stuff in that airplane

166

00:07:08,290 --> 00:07:04,260

it has to be turned on takes a while to

167

00:07:11,300 --> 00:07:08,300

get that but the airplane up to full

168

00:07:12,920 --> 00:07:11,310

full capability so to speak so we're up

169

00:07:14,210 --> 00:07:12,930

there almost three hours before the

170

00:07:18,410 --> 00:07:14,220

plane leaves the deck to get everything

171

00:07:20,750 --> 00:07:18,420

running and checked out so you're part

172

00:07:23,660 --> 00:07:20,760

of the crew to get it prepared for

173

00:07:25,910 --> 00:07:23,670

flying and then when it landed you were

174

00:07:30,620 --> 00:07:25,920

part of the crew that was supposed to

175

00:07:32,110 --> 00:07:30,630

meet the plane yes sir - do I forget the

176

00:07:34,700 --> 00:07:32,120

term what was the term you used um

177

00:07:38,060 --> 00:07:34,710

basically recovered it by covering it

178

00:07:40,370 --> 00:07:38,070

but we go in we check to make sure

179

00:07:41,780 --> 00:07:40,380

nothing fell off nothing broke we

180

00:07:44,120 --> 00:07:41,790

usually talk to the aircrew so we have a

181

00:07:45,980 --> 00:07:44,130

head start or something did broke did

182

00:07:48,409 --> 00:07:45,990

break but I didn't get talked on that

183

00:07:50,720 --> 00:07:48,419

time and by the way when it to be clear

184

00:07:52,790 --> 00:07:50,730

when it launched it wasn't watching - go

185

00:07:54,860 --> 00:07:52,800

check out the tic-tac no we were

186

00:07:59,659 --> 00:07:54,870

launching a part of air defense exercise

187

00:08:01,430 --> 00:07:59,669

this is just general general workups so

188

00:08:07,130 --> 00:08:01,440

at what point did you first become aware

189

00:08:08,950 --> 00:08:07,140

of the tic-tac at all after the plane

190

00:08:11,810 --> 00:08:08,960

landed I took our classified hard drives

191

00:08:13,969 --> 00:08:11,820

that we use in the back that we're

192

00:08:17,000 --> 00:08:13,979

recording a bunch of stuff which we can

193

00:08:18,469 --> 00:08:17,010

get into later if you want we took them

194

00:08:22,250 --> 00:08:18,479

down and we keep them in our safe inside

195

00:08:23,600 --> 00:08:22,260

our work center and maybe ten minutes

196

00:08:25,610 --> 00:08:23,610

after I got them in our safe my

197

00:08:27,909 --> 00:08:25,620

commanding officer and two guys in there

198

00:08:30,950 --> 00:08:27,919

for its flight suits show up at my door

199

00:08:34,370 --> 00:08:30,960

and generally if our commanding officer

200

00:08:36,440 --> 00:08:34,380

wants to talk to us we go to him he

201
00:08:37,880 --> 00:08:36,450
doesn't come to us so that it was

202
00:08:39,770 --> 00:08:37,890
already abnormal if he was at our door

203
00:08:43,399 --> 00:08:39,780
let alone showing up to Air Force guys

204
00:08:46,100 --> 00:08:43,409
and he basically took those hard drives

205
00:08:48,110 --> 00:08:46,110
and I've never seen him again were you

206
00:08:50,090 --> 00:08:48,120
by yourself at the time you took them no

207
00:08:53,870 --> 00:08:50,100
there are other people with me I have

208
00:08:54,930 --> 00:08:53,880
those people spoken out to me yes to the

209
00:08:57,150 --> 00:08:54,940
public no

210
00:08:59,220 --> 00:08:57,160
most of them are still either active

211
00:09:00,690 --> 00:08:59,230
duty or in a position where they don't

212
00:09:02,460 --> 00:09:00,700
want to risk their security clearances

213
00:09:04,170 --> 00:09:02,470

so bottom line they could corroborate

214

00:09:05,550 --> 00:09:04,180

your story at some point there are

215

00:09:08,580 --> 00:09:05,560

people that could corroborate my story

216

00:09:10,970 --> 00:09:08,590

yes and at the time that they knocked on

217

00:09:13,950 --> 00:09:10,980

your door you still had not heard that

218

00:09:18,210 --> 00:09:13,960

the Hawkeye had intercepted some tic-tac

219

00:09:20,340 --> 00:09:18,220

correct but but you did but-but-but-but

220

00:09:23,490 --> 00:09:20,350

sorry didn't you say that you did notice

221

00:09:25,920 --> 00:09:23,500

something unusual when they when it land

222

00:09:28,320 --> 00:09:25,930

and he came down to a work senator Kate

223

00:09:30,420 --> 00:09:28,330

stuff was that normal but what about the

224

00:09:32,100 --> 00:09:30,430

sorry I thought you would also one of

225

00:09:34,140 --> 00:09:32,110

the interview said that the landing that

226

00:09:35,520 --> 00:09:34,150

the pilots or the people that had been

227

00:09:37,320 --> 00:09:35,530

on the plane were acting a little

228

00:09:38,910 --> 00:09:37,330

unusual when they got off the plane

229

00:09:42,600 --> 00:09:38,920

about to get there

230

00:09:44,220 --> 00:09:42,610

okay sorry um they had gone down and

231

00:09:46,760 --> 00:09:44,230

they were debriefed I'm not exactly sure

232

00:09:49,860 --> 00:09:46,770

how long they were in their debrief and

233

00:09:53,070 --> 00:09:49,870

what exactly they discussed or debriefed

234

00:09:54,750 --> 00:09:53,080

on but when Roger returned to our work

235

00:09:59,730 --> 00:09:54,760

center because Roger was enlisted like I

236

00:10:02,040 --> 00:09:59,740

was and he wasn't an officer he briefly

237

00:10:05,100 --> 00:10:02,050

started to tell us what happened until

238

00:10:05,900 --> 00:10:05,110

he was told to be quiet who told him to

239

00:10:10,230 --> 00:10:05,910

be Miya

240

00:10:12,170 --> 00:10:10,240

our division chief another person he

241

00:10:14,940 --> 00:10:12,180

really had no idea what was going on but

242

00:10:15,990 --> 00:10:14,950

heard him saying something saying I'm

243

00:10:18,030 --> 00:10:16,000

not really sure if I'm supposed to be

244

00:10:19,110 --> 00:10:18,040

talking about this so it was one of

245

00:10:21,500 --> 00:10:19,120

those well you don't think you're

246

00:10:23,640 --> 00:10:21,510

supposed to be talking about it shut up

247

00:10:28,200 --> 00:10:23,650

it's one of those kind of conversations

248

00:10:31,260 --> 00:10:28,210

nothing nothing crazy and what what what

249

00:10:33,480 --> 00:10:31,270

did Roger say in that conversation he

250

00:10:37,410 --> 00:10:33,490

started talking about the object and

251
00:10:39,720 --> 00:10:37,420
stuff that we've now all found out well

252
00:10:42,270 --> 00:10:39,730
I said that was really the end of it at

253
00:10:44,040 --> 00:10:42,280
that point I know the ship made jokes

254
00:10:46,950 --> 00:10:44,050
the airplane had a cartoon about it they

255
00:10:47,730 --> 00:10:46,960
played movies about aliens and all kinds

256
00:10:50,640 --> 00:10:47,740
of stuff

257
00:10:55,350 --> 00:10:50,650
the ship was making a joke of it so you

258
00:10:56,400 --> 00:10:55,360
and you you heard about that yeah so and

259
00:10:59,490 --> 00:10:56,410
when you say the ship was kind of making

260
00:11:01,170 --> 00:10:59,500
a joke about it you got approximately

261
00:11:03,120 --> 00:11:01,180
5,000 people on that thing right

262
00:11:04,430 --> 00:11:03,130
and I just an aircraft character and

263
00:11:07,410 --> 00:11:04,440

probably had no clue what was going on

264

00:11:09,270 --> 00:11:07,420

say that again a good 4,000 foam

265

00:11:12,690 --> 00:11:09,280

probably had no idea what was

266

00:11:15,330 --> 00:11:12,700

okay but as far as this playing an alien

267

00:11:16,830 --> 00:11:15,340

movie and jokes and hats and this kind

268

00:11:21,540 --> 00:11:16,840

of stuff I'm just trying to get a flavor

269

00:11:24,450 --> 00:11:21,550

for how extensive that was it was mostly

270

00:11:27,030 --> 00:11:24,460

among the Air Wing and the Air Wing

271

00:11:30,390 --> 00:11:27,040

officers because they were the ones who

272

00:11:32,460 --> 00:11:30,400

knew they were the ones who you know the

273

00:11:36,000 --> 00:11:32,470

air we did the airplane they did the

274

00:11:37,320 --> 00:11:36,010

cartoon they did all that so it's mainly

275

00:11:39,510 --> 00:11:37,330

the office poking fun at the other

276

00:11:42,210 --> 00:11:39,520

officers and to the best of your

277

00:11:44,580 --> 00:11:42,220

recollection what exactly did Roger say

278

00:11:48,420 --> 00:11:44,590

in that conversation about what he had

279

00:11:49,440 --> 00:11:48,430

seen exposed it was a very very brief he

280

00:11:51,750 --> 00:11:49,450

started to tell us that they saw

281

00:11:54,210 --> 00:11:51,760

something and that was as far as they

282

00:11:58,500 --> 00:11:54,220

got I now know the full extent of what

283

00:12:01,350 --> 00:11:58,510

he saw the Tic Tac the the object itself

284

00:12:04,710 --> 00:12:01,360

formed up with the Hawkeye and they

285

00:12:07,110 --> 00:12:04,720

could see it outside the windows and you

286

00:12:10,740 --> 00:12:07,120

know that based on subsequent

287

00:12:12,240 --> 00:12:10,750

discussions with Roger yes and I think

288

00:12:14,520 --> 00:12:12,250

he also said that Roger was kind of

289

00:12:17,100 --> 00:12:14,530

acting unusual after the incident with

290

00:12:19,380 --> 00:12:17,110

you Roger like kind of rattled he loved

291

00:12:23,910 --> 00:12:19,390

to fly so any chance he got to go up and

292

00:12:25,320 --> 00:12:23,920

fly he was all about it so when he came

293

00:12:27,330 --> 00:12:25,330

back it wasn't all happy and go-lucky

294

00:12:28,190 --> 00:12:27,340

and jokey you could tell something

295

00:12:31,470 --> 00:12:28,200

wasn't right

296

00:12:33,330 --> 00:12:31,480

just the way he acted and did he later

297

00:12:36,000 --> 00:12:33,340

kind of confirmed you that yeah dude

298

00:12:40,380 --> 00:12:36,010

this was really weird and I was rattled

299

00:12:42,980 --> 00:12:40,390

they they were more rattled by the fact

300

00:12:47,940 --> 00:12:42,990

that it showed up right next to him um

301
00:12:50,790 --> 00:12:47,950
the Hawkeye has no weapons it has no way

302
00:12:53,490 --> 00:12:50,800
to defend itself so if something pops up

303
00:12:55,850 --> 00:12:53,500
next to it there's nothing they can do

304
00:13:01,500 --> 00:12:55,860
and it usually flies above the Hornets

305
00:13:04,170 --> 00:13:01,510
it's usually way up and the Hornets it's

306
00:13:10,530 --> 00:13:04,180
essentially a quarterback it controls

307
00:13:13,800 --> 00:13:10,540
everything else so we're normally 250

308
00:13:16,290 --> 00:13:13,810
miles or so from the carrier depending

309
00:13:20,010 --> 00:13:16,300
on what we're doing and the fighters are

310
00:13:22,410 --> 00:13:20,020
out beyond that so and what altitude is

311
00:13:23,690 --> 00:13:22,420
it usually out it depends it depends

312
00:13:25,940 --> 00:13:23,700
what they do

313
00:13:28,860 --> 00:13:25,950

depends on the weather depends on

314

00:13:30,480 --> 00:13:28,870

atmospheric so the whole a whole lot of

315

00:13:33,510 --> 00:13:30,490

stuff that goes into where that plane is

316

00:13:36,530 --> 00:13:33,520

and what kind of recording equipment

317

00:13:39,570 --> 00:13:36,540

audio and video is on the Hawkeye um

318

00:13:42,480 --> 00:13:39,580

this is open for debate to some people

319

00:13:44,850 --> 00:13:42,490

because some people say I'm nuts but the

320

00:13:47,340 --> 00:13:44,860

Hawkeye can record basically everything

321

00:13:50,640 --> 00:13:47,350

it does everything me3 flight officers

322

00:13:52,530 --> 00:13:50,650

in the back see on their screens it can

323

00:13:56,730 --> 00:13:52,540

record from the time we started total

324

00:13:59,760 --> 00:13:56,740

time we stopped it recording that day

325

00:14:01,530 --> 00:13:59,770

yeah I'm the one who started it and when

326

00:14:05,940 --> 00:14:01,540

you say what they're seeing that is

327

00:14:06,800 --> 00:14:05,950

seeing through what kind of cameras no

328

00:14:12,240 --> 00:14:06,810

cameras

329

00:14:13,590 --> 00:14:12,250

it's recording symbology data things

330

00:14:15,780 --> 00:14:13,600

like that

331

00:14:17,790 --> 00:14:15,790

and what about radar they're not even

332

00:14:20,700 --> 00:14:17,800

Liam see things on radar oh yeah

333

00:14:23,040 --> 00:14:20,710

it's recording the radar data every

334

00:14:25,950 --> 00:14:23,050

every unknown track every known track

335

00:14:28,230 --> 00:14:25,960

every hostile track that pops up on that

336

00:14:30,180 --> 00:14:28,240

screen gets recorded and it's the same

337

00:14:34,080 --> 00:14:30,190

for every sensor system on that airplane

338

00:14:38,130 --> 00:14:34,090

and was the tic-tac seen on radar by the

339

00:14:39,950 --> 00:14:38,140

Hawkeye yes hey and what would that look

340

00:14:44,670 --> 00:14:39,960

like if we were to see the video of that

341

00:14:47,460 --> 00:14:44,680

um a little circle with a line coming

342

00:14:50,420 --> 00:14:47,470

from it the longer the line the faster

343

00:14:53,010 --> 00:14:50,430

it's going and it would be in this case

344

00:14:56,130 --> 00:14:53,020

like a yellowish foreign color because

345

00:14:56,730 --> 00:14:56,140

it's an unknown track red means bad blue

346

00:15:00,150 --> 00:14:56,740

means good

347

00:15:02,760 --> 00:15:00,160

so that would be yet another video that

348

00:15:04,500 --> 00:15:02,770

theoretically is out there um it's not

349

00:15:08,330 --> 00:15:04,510

it's not a video in the sense it's a

350

00:15:11,040 --> 00:15:08,340

video it's not a like a TV video it's

351

00:15:15,210 --> 00:15:11,050

it's literally a recording of their

352

00:15:16,980 --> 00:15:15,220

screen but there's a time element to it

353

00:15:18,030 --> 00:15:16,990

right yes or am I wrong yeah so you've

354

00:15:20,430 --> 00:15:18,040

been looking at you'd be looking at

355

00:15:22,080 --> 00:15:20,440

their radar as their radar appeared

356

00:15:25,140 --> 00:15:22,090

during the time they were flying

357

00:15:27,390 --> 00:15:25,150

observing this exact yes and there

358

00:15:30,740 --> 00:15:27,400

there's timestamps you could identify

359

00:15:34,320 --> 00:15:30,750

the time it popped up where it went

360

00:15:35,670 --> 00:15:34,330

there's also I can't tell you everything

361

00:15:36,809 --> 00:15:35,680

that was on there but there was also a

362

00:15:38,699 --> 00:15:36,819

system called yes

363

00:15:42,210 --> 00:15:38,709

which is electronic support measures

364

00:15:44,400 --> 00:15:42,220

it's basically a passive detection

365

00:15:47,129 --> 00:15:44,410

system it listens to electronic signals

366

00:15:50,039 --> 00:15:47,139

so we can tell frequencies and all kinds

367

00:15:52,949 --> 00:15:50,049

of other things so it was also picked up

368

00:15:56,189 --> 00:15:52,959

by that so there's a ton of data that

369

00:15:56,789 --> 00:15:56,199

that gives them that is out there

370

00:15:59,220 --> 00:15:56,799

somewhere

371

00:16:01,079 --> 00:15:59,230

so to the best of your recollection what

372

00:16:03,030 --> 00:16:01,089

did Roger say to you about what he

373

00:16:07,309 --> 00:16:03,040

observed when you had the subsequent

374

00:16:09,179 --> 00:16:07,319

conversation with him um basically after

375

00:16:11,850 --> 00:16:09,189

it toyed with flavor

376

00:16:15,600 --> 00:16:11,860

after his whole little deal we don't

377

00:16:19,499 --> 00:16:15,610

headed back to the ship it's outside the

378

00:16:22,259 --> 00:16:19,509

windows then it's gone it was all that

379

00:16:23,910 --> 00:16:22,269

quick so I think I think you cut out

380

00:16:26,819 --> 00:16:23,920

there just a brief second so basically

381

00:16:29,879 --> 00:16:26,829

the two Hornets are heading back to the

382

00:16:32,789 --> 00:16:29,889

ship basically everything was headed

383

00:16:35,579 --> 00:16:32,799

back to recover and out of nowhere

384

00:16:38,129 --> 00:16:35,589

a tic-tac because by the way there's

385

00:16:40,499 --> 00:16:38,139

been a lot of there's only one tic-tac

386

00:16:42,569 --> 00:16:40,509

in the video a lot of people are talking

387

00:16:45,059 --> 00:16:42,579

about just a tic tac even though correct

388

00:16:48,229 --> 00:16:45,069

me if I'm wrong the phased-array spy-1

389

00:16:53,579 --> 00:16:48,239

radar system was picking up five to ten

390

00:16:56,460 --> 00:16:53,589

tic tacs at a time yes so we don't

391

00:16:59,789 --> 00:16:56,470

really know they were tracking the

392

00:17:01,499 --> 00:16:59,799

tic-tac for well over a week right it

393

00:17:02,970 --> 00:17:01,509

could have been the same four or five it

394

00:17:04,889 --> 00:17:02,980

could have been different ones every day

395

00:17:06,449 --> 00:17:04,899

we don't really know right but as far as

396

00:17:08,549 --> 00:17:06,459

what these guys encountered both the

397

00:17:12,360 --> 00:17:08,559

Hawkeye and the Hornets it was just only

398

00:17:15,299 --> 00:17:12,370

one that any of them saw as far as I as

399

00:17:17,759 --> 00:17:15,309

far as I could tell yes I would assume

400

00:17:20,429 --> 00:17:17,769

it was the same one so Roger says

401
00:17:23,129 --> 00:17:20,439
essentially out of nowhere the tic-tac

402
00:17:25,559 --> 00:17:23,139
suddenly appears very close to their

403
00:17:29,220 --> 00:17:25,569
plane correct close enough for them to

404
00:17:30,690 --> 00:17:29,230
see the appendages close enough them to

405
00:17:33,090 --> 00:17:30,700
to recognize that it was the same thing

406
00:17:34,789 --> 00:17:33,100
favor was talking about close enough to

407
00:17:37,230 --> 00:17:34,799
see an American flag on the side of it

408
00:17:40,560 --> 00:17:37,240
my guess is they wouldn't have painted

409
00:17:43,049 --> 00:17:40,570
the American flag so how does he

410
00:17:48,779 --> 00:17:43,059
describe what he saw exactly that favor

411
00:17:50,039 --> 00:17:48,789
a giant fighter size looking tic-tac you

412
00:17:50,520 --> 00:17:50,049
said fighter size

413
00:17:56,700 --> 00:17:50,530

yeah

414

00:17:58,140 --> 00:17:56,710

mmm 40 years so long I think pretty

415

00:18:00,090 --> 00:17:58,150

close to every other description that's

416

00:18:07,830 --> 00:18:00,100

been given and how close does he think

417

00:18:10,040 --> 00:18:07,840

they were to it um closer than a mile he

418

00:18:14,160 --> 00:18:10,050

didn't really get too specific with that

419

00:18:18,450 --> 00:18:14,170

close enough that freaked him out and

420

00:18:20,910 --> 00:18:18,460

how long was it in that position minute

421

00:18:23,700 --> 00:18:20,920

minute and a half maybe wow that's a

422

00:18:26,070 --> 00:18:23,710

long time well I mean they when you're

423

00:18:27,570 --> 00:18:26,080

looking at something like that that

424

00:18:28,680 --> 00:18:27,580

you've never seen before their life and

425

00:18:31,260 --> 00:18:28,690

you're freaking out a minute to minute

426

00:18:36,000 --> 00:18:31,270

half probably feels like a lifetime yes

427

00:18:40,560 --> 00:18:36,010

and he says that all five people on

428

00:18:43,830 --> 00:18:40,570

board the hawk I saw it the three in the

429

00:18:45,480 --> 00:18:43,840

back we know for sure thought and I've

430

00:18:49,190 --> 00:18:45,490

talked and talked to more than one of

431

00:18:51,900 --> 00:18:49,200

them and we assume the two in front

432

00:18:54,600 --> 00:18:51,910

thought we just haven't talked to them

433

00:18:56,250 --> 00:18:54,610

to verify so you've spoken to at least

434

00:18:58,590 --> 00:18:56,260

two of the five people that were on

435

00:19:00,210 --> 00:18:58,600

board who said that they saw it yes I

436

00:19:01,380 --> 00:19:00,220

know who thought all five people in that

437

00:19:03,900 --> 00:19:01,390

plane were mm-hmm

438

00:19:05,370 --> 00:19:03,910

and as and you believe that if you were

439

00:19:06,470 --> 00:19:05,380

to speak to all five of them each one of

440

00:19:11,750 --> 00:19:06,480

the fight would say yeah we saw it

441

00:19:15,870 --> 00:19:11,760

that's my assumption so they were

442

00:19:20,220 --> 00:19:15,880

debriefed did Roger tell you who

443

00:19:22,650 --> 00:19:20,230

debriefed him no is it your belief that

444

00:19:28,320 --> 00:19:22,660

it was probably the same Air Force guys

445

00:19:29,730 --> 00:19:28,330

I couldn't even speculate it could have

446

00:19:32,820 --> 00:19:29,740

been misshaped Intel it could have been

447

00:19:35,310 --> 00:19:32,830

a whole bunch of different people we

448

00:19:37,770 --> 00:19:35,320

were close enough to San Diego that you

449

00:19:44,670 --> 00:19:37,780

know it was a 40-minute helicopter ride

450

00:19:48,120 --> 00:19:44,680

from San Diego so what does Roger say he

451
00:19:50,730 --> 00:19:48,130
thinks it was he hasn't said anything

452
00:19:54,650 --> 00:19:50,740
wrong in that line he hasn't speculated

453
00:19:57,630 --> 00:19:54,660
he hasn't he hasn't guessed he's

454
00:19:59,610 --> 00:19:57,640
corroborated what he saw and that's bad

455
00:20:01,500 --> 00:19:59,620
as far as he wants to go with it

456
00:20:03,960 --> 00:20:01,510
but he still remains a good friend of

457
00:20:07,050 --> 00:20:03,970
yours today yeah

458
00:20:10,830 --> 00:20:07,060
and in general is he someone who tends

459
00:20:14,220 --> 00:20:10,840
to believe in extraterrestrial UFO UFOs

460
00:20:16,470 --> 00:20:14,230
yeah absolutely we've never really had

461
00:20:17,970 --> 00:20:16,480
that conversation despite all this we've

462
00:20:22,500 --> 00:20:17,980
never really sat down to talk about that

463
00:20:23,940 --> 00:20:22,510

yeah well because you know our angle

464

00:20:27,360 --> 00:20:23,950

I've been taking is that it certainly

465

00:20:30,270 --> 00:20:27,370

appears that something was seen the Navy

466

00:20:31,710 --> 00:20:30,280

itself at the highest level seems to be

467

00:20:35,700 --> 00:20:31,720

confirming that yes

468

00:20:39,440 --> 00:20:35,710

so something incredible happened on that

469

00:20:42,810 --> 00:20:39,450

day either the US Navy observed

470

00:20:45,510 --> 00:20:42,820

extraterrestrial spacecraft or it

471

00:20:49,620 --> 00:20:45,520

observes incredible new secret US

472

00:20:51,240 --> 00:20:49,630

technology there's a I have somewhat of

473

00:20:53,600 --> 00:20:51,250

the theory on that which is why I tend

474

00:20:57,470 --> 00:20:53,610

to lean towards it's our tech versus

475

00:20:59,670 --> 00:20:57,480

alien again I'm equally open to it being

476
00:21:04,110 --> 00:20:59,680
something from out of this world I'm not

477
00:21:06,570 --> 00:21:04,120
against that but if there's between the

478
00:21:08,880 --> 00:21:06,580
2004 in stood with the Nimitz and the

479
00:21:12,740 --> 00:21:08,890
Princeton and everything that happen off

480
00:21:14,700 --> 00:21:12,750
the East Coast in 2015 there's two

481
00:21:18,090 --> 00:21:14,710
similarities between those two strike

482
00:21:21,120 --> 00:21:18,100
groups in 2004 the Nimitz Strike Group

483
00:21:24,810 --> 00:21:21,130
was the best to maybe had aircraft

484
00:21:29,160 --> 00:21:24,820
training software technology it was a

485
00:21:32,550 --> 00:21:29,170
top-of-the-line 2015 that strike group

486
00:21:34,230 --> 00:21:32,560
that was involved same thing newest

487
00:21:39,630 --> 00:21:34,240
technology new a software newest

488
00:21:41,490 --> 00:21:39,640

aircraft best the Navy had its time so

489

00:21:44,790 --> 00:21:41,500

if I'm some other secret government

490

00:21:48,420 --> 00:21:44,800

agency and I want to test my object I'm

491

00:21:50,790 --> 00:21:48,430

gonna test it against the best the best

492

00:21:54,630 --> 00:21:50,800

we have and that's what happened with

493

00:21:57,110 --> 00:21:54,640

the two different situations mm-hmm yeah

494

00:21:59,550 --> 00:21:57,120

we've been talking about that and that's

495

00:22:02,040 --> 00:21:59,560

essentially what turbo asserts that it

496

00:22:05,340 --> 00:22:02,050

was that type of a test but we've had

497

00:22:08,280 --> 00:22:05,350

others come on and say that it would be

498

00:22:09,630 --> 00:22:08,290

highly unusual for one Department of the

499

00:22:13,659 --> 00:22:09,640

military to test something against

500

00:22:18,489 --> 00:22:13,669

another one to my knowledge yes

501
00:22:21,339 --> 00:22:18,499
I mean unusual things happen yeah and

502
00:22:24,310 --> 00:22:21,349
and and also the theory would be that at

503
00:22:26,560 --> 00:22:24,320
the highest levels it was known what was

504
00:22:29,409 --> 00:22:26,570
going on it's just the guys at your

505
00:22:30,430 --> 00:22:29,419
level and even at fray vers level were

506
00:22:32,379 --> 00:22:30,440
not in on it

507
00:22:36,849 --> 00:22:32,389
but at the commanding level they were in

508
00:22:39,489 --> 00:22:36,859
on it um well depends on how accurate

509
00:22:40,930 --> 00:22:39,499
you want your test to be but the more

510
00:22:43,359 --> 00:22:40,940
people who know to test the less

511
00:22:47,249 --> 00:22:43,369
accurate your results are gonna be

512
00:22:50,499 --> 00:22:47,259
right so they could have stopped that

513
00:22:52,719 --> 00:22:50,509

knowledge that commander Pacific Fleet

514

00:22:55,659 --> 00:22:52,729

or they could stopped it at the Strike

515

00:22:56,949 --> 00:22:55,669

Group Admiral there's a hand of stencil

516

00:22:58,690 --> 00:22:56,959

different places they could stop that

517

00:23:01,389 --> 00:22:58,700

knowledge at it if people in fact you

518

00:23:05,949 --> 00:23:01,399

know in a point that turbo made on our

519

00:23:08,109 --> 00:23:05,959

show is that of course they were in on

520

00:23:12,190 --> 00:23:08,119

it at the highest level because you

521

00:23:16,089 --> 00:23:12,200

would not send Navy Hornets out to check

522

00:23:18,849 --> 00:23:16,099

out unidentified objects flying as they

523

00:23:20,789 --> 00:23:18,859

were without ordnance I mean you're

524

00:23:23,049 --> 00:23:20,799

sending them on an arguably dangerous

525

00:23:25,449 --> 00:23:23,059

mission oh just go check out something

526

00:23:28,810 --> 00:23:25,459

that we have no idea what it is it's

527

00:23:30,219 --> 00:23:28,820

it's exhibiting supersonic speeds and

528

00:23:35,079 --> 00:23:30,229

you're gonna go just check it out

529

00:23:36,449 --> 00:23:35,089

without any weapons yes we do that all

530

00:23:43,810 --> 00:23:36,459

the time

531

00:23:46,599 --> 00:23:43,820

Mike give me an example any any unknown

532

00:23:49,329 --> 00:23:46,609

track that the Hawkeye picks up they

533

00:23:52,329 --> 00:23:49,339

generally vector a fighter to go check

534

00:23:54,789 --> 00:23:52,339

it out like what is this and that's the

535

00:23:57,459 --> 00:23:54,799

fighters job there you go oh just uh you

536

00:24:00,969 --> 00:23:57,469

know pleasure pleasure boat you know

537

00:24:03,399 --> 00:24:00,979

it's just assess nice you know it's

538

00:24:06,249 --> 00:24:03,409

flying here it's an airliner you know it

539

00:24:07,869 --> 00:24:06,259

is that because our technology those

540

00:24:10,449 --> 00:24:07,879

Hornets are just so damn fast

541

00:24:13,029 --> 00:24:10,459

and pilots so good that worst case

542

00:24:14,499 --> 00:24:13,039

scenario you get in a situation it can

543

00:24:19,209 --> 00:24:14,509

get out of it it doesn't necessarily

544

00:24:20,639 --> 00:24:19,219

need weapons for one we also had weapons

545

00:24:22,809 --> 00:24:20,649

on the ship they could have had other

546

00:24:26,590 --> 00:24:22,819

aircraft airborne relatively quickly

547

00:24:31,930 --> 00:24:27,880

has a lot to do with where we were

548

00:24:34,360 --> 00:24:31,940

operating what we were doing and what

549

00:24:35,950 --> 00:24:34,370

they initially thought it was you know

550

00:24:38,590 --> 00:24:35,960

favours mentioned you know it could have

551
00:24:40,419 --> 00:24:38,600
been drug learners well nothing the drug

552
00:24:42,220 --> 00:24:40,429
runners are gonna have is gonna really

553
00:24:44,640 --> 00:24:42,230
bother that f18 you do you thinking

554
00:24:46,630 --> 00:24:44,650
about run it or scare the crap out of it

555
00:24:49,390 --> 00:24:46,640
you know I don't know if you've ever had

556
00:24:52,090 --> 00:24:49,400
a an f-18 fly close to you overhead it

557
00:24:54,279 --> 00:24:52,100
it makes a whole lot of noise it'll do a

558
00:24:57,610 --> 00:24:54,289
lot of scaring just with the noise of

559
00:25:01,510 --> 00:24:57,620
its engines what do you make of the

560
00:25:03,490 --> 00:25:01,520
question that was asked of the pilots

561
00:25:06,640 --> 00:25:03,500
and you're gonna correct me if I get

562
00:25:08,649 --> 00:25:06,650
this wrong where they basically asked

563
00:25:09,909 --> 00:25:08,659

the pilots do you have confirming

564

00:25:15,520 --> 00:25:09,919

whether or not they have ordnance on

565

00:25:19,000 --> 00:25:15,530

them they didn't lorem likely they may

566

00:25:20,560 --> 00:25:19,010

have had bullets a lot of times but you

567

00:25:23,200 --> 00:25:20,570

know what I'm talking about the question

568

00:25:28,320 --> 00:25:23,210

this was picked up they have four teams

569

00:25:30,940 --> 00:25:28,330

in training missiles

570

00:25:32,169 --> 00:25:30,950

it's basically blue missile stuck to the

571

00:25:34,419 --> 00:25:32,179

side of the airplane and they play laser

572

00:25:36,850 --> 00:25:34,429

tag so they can pretend to shoot each

573

00:25:40,600 --> 00:25:36,860

other that there was no live ordnance

574

00:25:42,190 --> 00:25:40,610

that we know about that phrase do these

575

00:25:43,539 --> 00:25:42,200

just out of curiosity do these training

576

00:25:45,850 --> 00:25:43,549

missiles actually fire or they're just

577

00:25:49,720 --> 00:25:45,860

sitting on her there's no way they're

578

00:25:51,520 --> 00:25:49,730

coming off the rail hmm so specifically

579

00:25:53,289 --> 00:25:51,530

though I'm talking about the recording

580

00:25:55,090 --> 00:25:53,299

where the question is asked because

581

00:25:57,730 --> 00:25:55,100

we've had guests on who said that's a

582

00:25:59,110 --> 00:25:57,740

very unusual question to even ask

583

00:26:01,539 --> 00:25:59,120

because of course they don't have

584

00:26:04,230 --> 00:26:01,549

ordnance on them they're in training so

585

00:26:07,690 --> 00:26:04,240

why would you even ask that question

586

00:26:09,850 --> 00:26:07,700

ordnance is carried in training whether

587

00:26:13,270 --> 00:26:09,860

they do target past practice bombing

588

00:26:16,750 --> 00:26:13,280

practice it's not completely unusual for

589

00:26:19,510 --> 00:26:16,760

the the ordnance involves um the reason

590

00:26:21,100 --> 00:26:19,520

it's abnormal is the Prince didn't get

591

00:26:25,180 --> 00:26:21,110

it's the same airplane everybody else

592

00:26:28,539 --> 00:26:25,190

does the Princeton would have known if

593

00:26:30,520 --> 00:26:28,549

it had orden inch enough because what

594

00:26:31,720 --> 00:26:30,530

planes leave with what ordnance is

595

00:26:33,789 --> 00:26:31,730

planned out ahead of time so they can

596

00:26:38,440 --> 00:26:33,799

have the Ordnance 20 and you never have

597

00:26:40,450 --> 00:26:38,450

them in training not generally so who

598

00:26:44,350 --> 00:26:40,460

was it that asked that question

599

00:26:46,750 --> 00:26:44,360

uh Kevin day Kevin was the one that

600

00:26:50,950 --> 00:26:46,760

asked the pilots do you have ordnance it

601
00:26:53,800 --> 00:26:50,960
was either him or what's-her-name

602
00:26:56,070 --> 00:26:53,810
Theresa elders I believe who's no longer

603
00:27:02,460 --> 00:26:56,080
with us hmm

604
00:27:09,840 --> 00:27:06,130
yeah what her title was but basically

605
00:27:13,360 --> 00:27:09,850
she was an officer right above Kevin

606
00:27:13,750 --> 00:27:13,370
yeah in the Nakhla manner well that's

607
00:27:16,600 --> 00:27:13,760
what it is

608
00:27:21,240 --> 00:27:16,610
pardon me she was attacked glasses off

609
00:27:23,170 --> 00:27:21,250
TA oh okay in the Dave Beatty video

610
00:27:25,060 --> 00:27:23,180
which is called what the Nimitz

611
00:27:28,660 --> 00:27:25,070
encounters yes sir he does some

612
00:27:30,430 --> 00:27:28,670
recreations on there yes and it's a

613
00:27:35,640 --> 00:27:30,440

female's voice who asked the question so

614

00:27:39,310 --> 00:27:35,650

maybe he it was her baby's life ah okay

615

00:27:40,690 --> 00:27:39,320

no she's an actress close enough but

616

00:27:42,280 --> 00:27:40,700

anyway that probably tells us that it

617

00:27:45,580 --> 00:27:42,290

was it was the woman who asked that it

618

00:27:47,890 --> 00:27:45,590

was more than likely yes and and either

619

00:27:50,500 --> 00:27:47,900

Dave or Kevin can correct me on that no

620

00:27:56,040 --> 00:27:50,510

but anyway that question doesn't really

621

00:28:01,690 --> 00:27:56,050

strike you is that odd yes and no it's

622

00:28:04,120 --> 00:28:01,700

it happens because not only even though

623

00:28:05,620 --> 00:28:04,130

the information was on the Princeton you

624

00:28:07,240 --> 00:28:05,630

know they may not have had it right

625

00:28:08,710 --> 00:28:07,250

where they work and it's easier

626
00:28:14,910 --> 00:28:08,720
sometimes just to directly ask the

627
00:28:18,430 --> 00:28:14,920
question and go find the answer we can't

628
00:28:21,010 --> 00:28:18,440
I'm sorry we can only speculate as to

629
00:28:23,530 --> 00:28:21,020
why she asked that but perhaps I mean if

630
00:28:24,370 --> 00:28:23,540
you listen to Kevin day and what he was

631
00:28:30,370 --> 00:28:24,380
observing

632
00:28:32,200 --> 00:28:30,380
spectacular and which means that she was

633
00:28:33,400 --> 00:28:32,210
privy to that also so you know maybe

634
00:28:35,200 --> 00:28:33,410
they were concerned that they were

635
00:28:39,250 --> 00:28:35,210
sending him into some dangerous

636
00:28:41,200 --> 00:28:39,260
situation Kevin stated more than once

637
00:28:43,300 --> 00:28:41,210
his main concern for getting somebody to

638
00:28:46,050 --> 00:28:43,310

go check those out was because they are

639

00:28:49,300 --> 00:28:46,060

all doing opposing a hazard to safety of

640

00:28:51,040 --> 00:28:49,310

navigation for the aircraft they were in

641

00:28:53,650 --> 00:28:51,050

our airspace they were in places where

642

00:28:54,340 --> 00:28:53,660

could ultimately causing the collision

643

00:28:55,840 --> 00:28:54,350

with an aircraft

644

00:28:58,630 --> 00:28:55,850

or danger to the pilots that were out

645

00:29:01,480 --> 00:28:58,640

there that was one of his big pushes to

646

00:29:04,770 --> 00:29:01,490

convince the person skipper to allow

647

00:29:08,620 --> 00:29:04,780

them to take control of the fighters and

648

00:29:14,500 --> 00:29:08,630

vector them over to one of the top acts

649

00:29:15,909 --> 00:29:14,510

they saw mm-hmm and I assume this is the

650

00:29:18,909 --> 00:29:15,919

only time that kevin has ever

651
00:29:20,260 --> 00:29:18,919
experienced seeing these types of things

652
00:29:22,690 --> 00:29:20,270
on the radar system or there other times

653
00:29:24,340 --> 00:29:22,700
that he's seen them other than that week

654
00:29:28,270 --> 00:29:24,350
to my knowledge he hadn't seen him

655
00:29:30,370 --> 00:29:28,280
before that and am i right that it was I

656
00:29:34,360 --> 00:29:30,380
know you said that it was the the best

657
00:29:35,980 --> 00:29:34,370
that Navy had the Nimitz at the time how

658
00:29:37,600 --> 00:29:35,990
new was that radar system at the time do

659
00:29:39,250 --> 00:29:37,610
you know it wasn't necessarily the fact

660
00:29:44,230 --> 00:29:39,260
that the radar system was new it was the

661
00:29:46,440 --> 00:29:44,240
software they were using so the question

662
00:29:50,289 --> 00:29:46,450
is if it was a test were they testing

663
00:29:55,000 --> 00:29:50,299

the software or were they testing the

664

00:29:58,840 --> 00:29:55,010

tic tacs good question don't really have

665

00:30:00,370 --> 00:29:58,850

that answer and then same goes with the

666

00:30:02,020 --> 00:30:00,380

East Coast thing so there was two

667

00:30:04,060 --> 00:30:02,030

different incidents on the East Coast

668

00:30:05,500 --> 00:30:04,070

right the one you were talking about

669

00:30:07,149 --> 00:30:05,510

before where you said it was the latest

670

00:30:09,279 --> 00:30:07,159

and greatest technology was which one

671

00:30:11,940 --> 00:30:09,289

was that go faster gimble both of them

672

00:30:14,560 --> 00:30:11,950

both of them both of them was the same

673

00:30:18,700 --> 00:30:14,570

strike group the way I understood it yes

674

00:30:23,940 --> 00:30:18,710

I haven't I haven't gotten quite as deep

675

00:30:27,850 --> 00:30:23,950

into those and be communicated with

676
00:30:31,510 --> 00:30:27,860
those guys at all yeah so let's go back

677
00:30:34,360 --> 00:30:31,520
to when you're first approached you're

678
00:30:36,880 --> 00:30:34,370
putting the bricks away and there's a

679
00:30:38,380 --> 00:30:36,890
knock on the door and there's a couple

680
00:30:42,340 --> 00:30:38,390
Air Force guys and your commanding

681
00:30:46,029 --> 00:30:42,350
officer yes sir I mean just incredibly

682
00:30:47,740 --> 00:30:46,039
unusual to have a Air Force guys

683
00:30:50,940 --> 00:30:47,750
suddenly appear be have your commanding

684
00:30:53,590 --> 00:30:50,950
officer come to you and see have your

685
00:30:56,140 --> 00:30:53,600
what otherwise is a routine job of

686
00:30:57,789 --> 00:30:56,150
putting the stuff away interrupted yep I

687
00:31:00,460 --> 00:30:57,799
mean the stuff was actually in my states

688
00:31:02,710 --> 00:31:00,470

at that point when I had to open the

689

00:31:04,720 --> 00:31:02,720

safe it's a it's a two-person safe so

690

00:31:06,850 --> 00:31:04,730

two different combinations the other

691

00:31:07,960 --> 00:31:06,860

half the combination actually was on its

692

00:31:09,789 --> 00:31:07,970

way back from

693

00:31:11,139 --> 00:31:09,799

getting a snack so they actually add to

694

00:31:11,889 --> 00:31:11,149

wait a minute for us to be able to open

695

00:31:14,320 --> 00:31:11,899

the safe again

696

00:31:18,190 --> 00:31:14,330

and normally why do you why do you put

697

00:31:20,379 --> 00:31:18,200

the stuff in a safe it's classified so

698

00:31:23,230 --> 00:31:20,389

even on a simple even a simple training

699

00:31:29,320 --> 00:31:23,240

mission like that all that Dad is

700

00:31:31,690 --> 00:31:29,330

considered classified yes the even if we

701
00:31:33,789 --> 00:31:31,700
hadn't recorded anything all that still

702
00:31:35,499 --> 00:31:33,799
classified because those those hard

703
00:31:38,379 --> 00:31:35,509
drives contain the software for the

704
00:31:41,619 --> 00:31:38,389
systems and a whole bunch of captured

705
00:31:44,680 --> 00:31:41,629
information so they were classified

706
00:31:47,019 --> 00:31:44,690
secret no matter what and in the rest of

707
00:31:48,039 --> 00:31:47,029
your career did you ever have bricks

708
00:31:53,590 --> 00:31:48,049
taken from you

709
00:31:56,619 --> 00:31:53,600
not in that manner so they knock on the

710
00:31:59,379 --> 00:31:56,629
door they say open the safe and give

711
00:32:01,240 --> 00:31:59,389
them to us basically when he opened the

712
00:32:03,759 --> 00:32:01,250
door when we open the door he said I

713
00:32:07,869 --> 00:32:03,769

need the the bricks that were on that

714

00:32:08,320 --> 00:32:07,879

flight you know we have a logbook that

715

00:32:10,810 --> 00:32:08,330

tracks

716

00:32:13,779 --> 00:32:10,820

what bricks are on what plane so we knew

717

00:32:17,740 --> 00:32:13,789

which ones they were and it's not

718

00:32:20,080 --> 00:32:17,750

unheard of for them to come take the

719

00:32:21,610 --> 00:32:20,090

brick sometimes they need to update

720

00:32:25,480 --> 00:32:21,620

information on it sometimes they need

721

00:32:28,230 --> 00:32:25,490

update waypoints or other files so they

722

00:32:30,490 --> 00:32:28,240

they periodically come to get him before

723

00:32:32,769 --> 00:32:30,500

normally we just sign in our logbook

724

00:32:33,850 --> 00:32:32,779

sell him sell has him they take him to

725

00:32:35,860 --> 00:32:33,860

the ready room and they bring them back

726

00:32:37,810 --> 00:32:35,870

when they're done in this case when I

727

00:32:40,810 --> 00:32:37,820

was starting to sign them out he stopped

728

00:32:45,210 --> 00:32:40,820

me it's like don't worry about it I'm

729

00:32:48,879 --> 00:32:45,220

taking them that's it end of discussion

730

00:32:50,350 --> 00:32:48,889

so and then how much time elapsed before

731

00:32:54,789 --> 00:32:50,360

you had the conversation with Roger

732

00:32:57,730 --> 00:32:54,799

where he really ten minutes give or take

733

00:33:00,070 --> 00:32:57,740

a minute I mean 14 years or so now right

734

00:33:03,009 --> 00:33:00,080

and but that's the conversation that got

735

00:33:05,889 --> 00:33:03,019

interrupted and then later he gave you

736

00:33:08,980 --> 00:33:05,899

more detail yes how much later was it

737

00:33:12,990 --> 00:33:08,990

when it give them more detail don't

738

00:33:15,009 --> 00:33:13,000

remember this point same day same day I

739

00:33:17,830 --> 00:33:15,019

think you said one of the interviews

740

00:33:20,230 --> 00:33:17,840

that this whole incident you had almost

741

00:33:21,580 --> 00:33:20,240

kind of semi forgotten it until

742

00:33:25,510 --> 00:33:21,590

something else

743

00:33:29,290 --> 00:33:25,520

came home yes you know it ends up being

744

00:33:33,130 --> 00:33:29,300

a drinking story something you mentioned

745

00:33:34,960 --> 00:33:33,140

a few times he's still too drunk that's

746

00:33:36,220 --> 00:33:34,970

the most party was something I

747

00:33:38,020 --> 00:33:36,230

remembered but it wasn't something I

748

00:33:41,140 --> 00:33:38,030

talked about it wasn't something I I

749

00:33:44,950 --> 00:33:41,150

researched looked into then I ran across

750

00:33:46,630 --> 00:33:44,960

Dave baby's original version of the

751

00:33:48,910 --> 00:33:46,640

nimitz encounters its documentary I

752

00:33:50,380 --> 00:33:48,920

reached out basically saying hey there's

753

00:33:55,390 --> 00:33:50,390

a bunch more to the story you don't know

754

00:33:56,440 --> 00:33:55,400

and you know Dave did his due diligence

755

00:33:58,900 --> 00:33:56,450

to make sure I wasn't full of it and

756

00:34:00,490 --> 00:33:58,910

just you know trying to latch onto

757

00:34:03,390 --> 00:34:00,500

something you know he verified who I was

758

00:34:08,290 --> 00:34:03,400

he very fair admit duty my 50:14

759

00:34:15,670 --> 00:34:08,300

ultimately he got put in contact with

760

00:34:18,370 --> 00:34:15,680

Roger Roger gave a very brief it was

761

00:34:21,910 --> 00:34:18,380

very brief email basically to clarify

762

00:34:24,390 --> 00:34:21,920

with Dave baby that wasn't [h__h] he

763

00:34:27,930 --> 00:34:24,400

cooperated what he could with Dave baby

764

00:34:30,280 --> 00:34:27,940

and that's how I got involved and

765

00:34:31,180 --> 00:34:30,290

through that that that's when I got in

766

00:34:36,190 --> 00:34:31,190

touch with Gary

767

00:34:38,680 --> 00:34:36,200

Kevin Jason and the whole group and it

768

00:34:43,030 --> 00:34:38,690

was interesting because Dave baby knew

769

00:34:45,250 --> 00:34:43,040

all our stories before we kind of knew

770

00:34:46,840 --> 00:34:45,260

all our stories you know at that point

771

00:34:50,830 --> 00:34:46,850

he had already been involved with Gary

772

00:34:53,680 --> 00:34:50,840

and Kevin for a while it'll be clear

773

00:34:56,110 --> 00:34:53,690

these are guys that all worked on the

774

00:35:00,040 --> 00:34:56,120

Princeton right yes I'm the only one

775

00:35:01,810 --> 00:35:00,050

who's come forward from the Nimitz so at

776

00:35:04,210 --> 00:35:01,820

the moment at least hopefully they'll be

777

00:35:10,120 --> 00:35:08,410

so the incident had happened it had been

778

00:35:14,260 --> 00:35:10,130

a long time in about ten years since it

779

00:35:17,650 --> 00:35:14,270

happened or over ten years and when you

780

00:35:22,780 --> 00:35:17,660

saw the nimitz documentary it triggered

781

00:35:25,210 --> 00:35:22,790

everything yeah but did you need to be

782

00:35:30,040 --> 00:35:25,220

retread about the fact that the air

783

00:35:32,170 --> 00:35:30,050

force guys had you know that was that

784

00:35:34,540 --> 00:35:32,180

was the part I filled in date they'd be

785

00:35:37,960 --> 00:35:34,550

right away that's what that's what I

786

00:35:40,530 --> 00:35:37,970

told him in my initial email to him was

787

00:35:42,640 --> 00:35:40,540

that they had come and taken it and

788

00:35:44,200 --> 00:35:42,650

through talking and reading everybody

789

00:35:46,540 --> 00:35:44,210

else's experience you know you almost

790

00:35:47,980 --> 00:35:46,550

begin to second-guess yourself like

791

00:35:50,680 --> 00:35:47,990

maybe that's not entirely what I

792

00:35:52,660 --> 00:35:50,690

remembered and then you talked to Gary

793

00:35:55,569 --> 00:35:52,670

Voorhees who had guys show up and take

794

00:35:57,490 --> 00:35:55,579

his stuff and then you reached out to

795

00:35:59,589 --> 00:35:57,500

people who were there and they all

796

00:36:02,050 --> 00:35:59,599

remember the same exact thing you do you

797

00:36:04,750 --> 00:36:02,060

know so now I'm 100% positive that they

798

00:36:06,460 --> 00:36:04,760

showed up took my stuff I mean any doubt

799

00:36:09,790 --> 00:36:06,470

I had when I first reached out to Dave

800

00:36:12,520 --> 00:36:09,800

bait eased and shoved out the window and

801
00:36:14,230 --> 00:36:12,530
the doubt was simply a matter of it

802
00:36:16,210 --> 00:36:14,240
being a long time ago yeah

803
00:36:17,680 --> 00:36:16,220
because again it seems like a highly

804
00:36:18,160 --> 00:36:17,690
unusual thing that you you wouldn't

805
00:36:22,359 --> 00:36:18,170
forget

806
00:36:24,819 --> 00:36:22,369
yeah well said I I remember the details

807
00:36:27,339 --> 00:36:24,829
and a few things that you know I

808
00:36:29,020 --> 00:36:27,349
forgotten over time when I've

809
00:36:31,150 --> 00:36:29,030
reconnected with the guy I said were

810
00:36:32,559 --> 00:36:31,160
there with me and I've talked at length

811
00:36:36,339 --> 00:36:32,569
with several the other guys I worked

812
00:36:38,890 --> 00:36:36,349
with several the guy is higher in my

813
00:36:41,579 --> 00:36:38,900

command and then obviously I've talked

814

00:36:44,230 --> 00:36:41,589

that way with Roger about it you know

815

00:36:46,569 --> 00:36:44,240

people have reminded me a stuff of I

816

00:36:49,420 --> 00:36:46,579

forgotten I've obviously reminded them

817

00:36:52,420 --> 00:36:49,430

of stuff they'd forgotten but I've been

818

00:36:54,160 --> 00:36:52,430

able to rebuild my memory of the events

819

00:36:56,349 --> 00:36:54,170

through talking with the other people

820

00:36:58,150 --> 00:36:56,359

that were there because like you said

821

00:37:01,559 --> 00:36:58,160

it's a long time ago I didn't remember

822

00:37:04,349 --> 00:37:01,569

every single detail so who else

823

00:37:06,220 --> 00:37:04,359

interacted with these two Air Force guys

824

00:37:09,790 --> 00:37:06,230

there were three other guys in the

825

00:37:11,230 --> 00:37:09,800

workcenter with me at the time I'm sorry

826

00:37:13,150 --> 00:37:11,240

you're saying when they knocked on the

827

00:37:15,460 --> 00:37:13,160

door there were three other guys with me

828

00:37:17,140 --> 00:37:15,470

okay and but none of them have spoken

829

00:37:19,780 --> 00:37:17,150

out yet correct

830

00:37:21,400 --> 00:37:19,790

and what about of people who have spoken

831

00:37:23,500 --> 00:37:21,410

out is there anyone else who's spoken

832

00:37:26,440 --> 00:37:23,510

out and said that yes - air force guys

833

00:37:30,220 --> 00:37:26,450

came and took whatever yet the closest

834

00:37:35,620 --> 00:37:30,230

to anybody going public is Roger who's

835

00:37:36,970 --> 00:37:35,630

obviously not gone public in you know he

836

00:37:38,980 --> 00:37:36,980

hasn't really gone public he's just

837

00:37:40,110 --> 00:37:38,990

shared stuff through myself and Dave

838

00:37:45,160 --> 00:37:40,120

Beatty

839

00:37:47,980 --> 00:37:45,170

but Gary Voorhees has corroborated that

840

00:37:49,300 --> 00:37:47,990

people took his stuff but he doesn't

841

00:37:50,530 --> 00:37:49,310

remember them being in Air Force flight

842

00:37:56,140 --> 00:37:50,540

suits he just remember them being in

843

00:38:00,310 --> 00:37:56,150

plain clothes savour he says that in

844

00:38:03,160 --> 00:38:00,320

another unusual move he had to handover

845

00:38:07,840 --> 00:38:03,170

stuff he had to handover stuff and he

846

00:38:10,840 --> 00:38:07,850

had to erase a bunch of stuff and that

847

00:38:13,750 --> 00:38:10,850

would have been highly unusual yep and

848

00:38:16,110 --> 00:38:13,760

who does he recall he says it wasn't Air

849

00:38:21,580 --> 00:38:16,120

Force who was it that he says no he just

850

00:38:24,250 --> 00:38:21,590

you guys hmm so really you're the only

851
00:38:28,090 --> 00:38:24,260
one that's come out at this point about

852
00:38:30,070 --> 00:38:28,100
the two Air Force guys correct but but

853
00:38:33,990 --> 00:38:30,080
it have you spoken to any of the other

854
00:38:36,430 --> 00:38:34,000
three guys that were with you recently

855
00:38:38,620 --> 00:38:36,440
to kind of confirm hey by the way guys

856
00:38:41,410 --> 00:38:38,630
you have the same recollection I do at

857
00:38:44,380 --> 00:38:41,420
two months ago was the last time and

858
00:38:46,480 --> 00:38:44,390
they said that they were definitely Air

859
00:38:51,820 --> 00:38:46,490
Force guys I've been trying to pressure

860
00:38:54,340 --> 00:38:51,830
them to come forward one of them is

861
00:38:56,980 --> 00:38:54,350
thinking about it but isn't a hundred

862
00:39:00,160 --> 00:38:56,990
percent sure he wants to risk what he

863
00:39:01,540 --> 00:39:00,170

does right now well he's he's welcome on

864

00:39:04,090 --> 00:39:01,550

the hidden crew show anytime

865

00:39:08,980 --> 00:39:04,100

you know we pay \$5.00 per appearance so

866

00:39:11,890 --> 00:39:08,990

let him know because you know that that

867

00:39:16,030 --> 00:39:11,900

part is a really in my opinion really

868

00:39:20,740 --> 00:39:16,040

critical part because if the Air Force

869

00:39:23,650 --> 00:39:20,750

is involved in this it does tend to push

870

00:39:27,760 --> 00:39:23,660

you toward the 60% as you say of this

871

00:39:29,320 --> 00:39:27,770

being some type of us test because if it

872

00:39:31,830 --> 00:39:29,330

was extraterrestrial let's say let's

873

00:39:37,180 --> 00:39:34,720

why is he here for suddenly there but

874

00:39:40,180 --> 00:39:37,190

the other part to that is the Princeton

875

00:39:42,970 --> 00:39:40,190

have been tracking the object for about

876

00:39:47,800 --> 00:39:42,980

a week or so that's more than enough

877

00:39:50,380 --> 00:39:47,810

time for word to make it back to San

878

00:39:53,080 --> 00:39:50,390

Diego and to whatever other agencies

879

00:39:54,250 --> 00:39:53,090

need to know and people mobilized and

880

00:39:56,050 --> 00:39:54,260

then come out to the ship

881

00:39:58,540 --> 00:39:56,060

yeah now that's more than enough time

882

00:40:00,370 --> 00:39:58,550

for them be like hey it's a UFO hey

883

00:40:02,530 --> 00:40:00,380

we're the guys who research UFO so let's

884

00:40:03,700 --> 00:40:02,540

go get it yeah no there's more than

885

00:40:06,190 --> 00:40:03,710

enough time for all that kind of stuff

886

00:40:07,390 --> 00:40:06,200

that right but presumably if they're

887

00:40:11,290 --> 00:40:07,400

taking it they're trying to control

888

00:40:11,980 --> 00:40:11,300

information right and so either the US

889

00:40:14,050 --> 00:40:11,990

government is trying to control

890

00:40:15,280 --> 00:40:14,060

information about its own secret project

891

00:40:17,650 --> 00:40:15,290

or trying to control information

892

00:40:21,010 --> 00:40:17,660

regarding an extraterrestrial object I

893

00:40:22,330 --> 00:40:21,020

know people in the UFO community believe

894

00:40:25,600 --> 00:40:22,340

that the US government does a lot of

895

00:40:30,940 --> 00:40:25,610

things to hide extraterrestrial objects

896

00:40:34,600 --> 00:40:30,950

from us but that's mostly a theory it

897

00:40:38,620 --> 00:40:34,610

has to do the government hide stuff I

898

00:40:41,050 --> 00:40:38,630

know that for a fact it's not I don't

899

00:40:42,870 --> 00:40:41,060

know and I could be 100% wrong I'm just

900

00:40:46,560 --> 00:40:42,880

going for my knowledge in my experience

901
00:40:48,940 --> 00:40:46,570
there's stuff that the government has

902
00:40:52,480 --> 00:40:48,950
that we don't want everybody else to

903
00:40:57,670 --> 00:40:52,490
know about there is technology in use on

904
00:40:59,320 --> 00:40:57,680
the Hawkeye that I can't talk about to

905
00:41:01,870 --> 00:40:59,330
enlisted people in my squadron at the

906
00:41:04,900 --> 00:41:01,880
time were cleared on it one was me one

907
00:41:06,490 --> 00:41:04,910
was Roger you know everybody else had no

908
00:41:09,820 --> 00:41:06,500
clue what those boxes were except from

909
00:41:13,180 --> 00:41:09,830
the two of us and the officers there's

910
00:41:15,520 --> 00:41:13,190
stuff that the Hawkeye would have

911
00:41:18,660 --> 00:41:15,530
recorded that would have been very

912
00:41:21,940 --> 00:41:18,670
valuable whether it was our tech or

913
00:41:25,030 --> 00:41:21,950

somebody else's tactic when you add that

914

00:41:27,190 --> 00:41:25,040

data to the radar tracks to the ESM

915

00:41:31,890 --> 00:41:27,200

tracks to what would have been shared

916

00:41:35,020 --> 00:41:31,900

over the CC network there is a ton of

917

00:41:40,480 --> 00:41:35,030

data raw data whether it's frequencies

918

00:41:44,170 --> 00:41:40,490

or trying to figure out a way to say it

919

00:41:44,620 --> 00:41:44,180

without saying anything I can't say but

920

00:41:49,330 --> 00:41:44,630

there would be

921

00:41:53,080 --> 00:41:49,340

frequencies altitudes directions all

922

00:41:54,280 --> 00:41:53,090

kinds of data that was pulled the mirror

923

00:41:57,250 --> 00:41:54,290

in other words the mere fact that we

924

00:42:00,010 --> 00:41:57,260

have that data tells you there's

925

00:42:04,930 --> 00:42:00,020

something unique on this Hawkeye yes I

926
00:42:07,110 --> 00:42:04,940
mean there's unique stuff on let's let's

927
00:42:09,430 --> 00:42:07,120
talk a little bit about the NDA's

928
00:42:14,190 --> 00:42:09,440
non-disclosure agreements that you're

929
00:42:18,070 --> 00:42:14,200
you say that Roger and the other four

930
00:42:19,450 --> 00:42:18,080
people that were on the Hawkeye sign now

931
00:42:24,640 --> 00:42:19,460
I'm gonna be clear I've never seen the

932
00:42:28,480 --> 00:42:24,650
NDA's no one else to sign NDA's I have

933
00:42:33,340 --> 00:42:28,490
no reason to doubt that Roger and the

934
00:42:36,340 --> 00:42:33,350
crew did sign them and my assumption my

935
00:42:38,590 --> 00:42:36,350
reasoning for them most likely signing

936
00:42:40,120 --> 00:42:38,600
them asked to do with a the fact that

937
00:42:42,790 --> 00:42:40,130
the thing showed up right next to him

938
00:42:46,390 --> 00:42:42,800

and all the information they would have

939

00:42:48,550 --> 00:42:46,400

seen about that object they would have

940

00:42:51,160 --> 00:42:48,560

seen a whole lot of data about it on

941

00:42:54,100 --> 00:42:51,170

their screens so how many people told

942

00:42:55,540 --> 00:42:54,110

you they signed an NDA Roger is the only

943

00:42:57,540 --> 00:42:55,550

person I've been to be able to verify

944

00:43:00,970 --> 00:42:57,550

that has said they were signing in days

945

00:43:04,390 --> 00:43:00,980

is the whole concept of signing an NDA

946

00:43:08,530 --> 00:43:04,400

as a result of an incident something

947

00:43:11,530 --> 00:43:08,540

that's common in the Navy yes I couldn't

948

00:43:13,270 --> 00:43:11,540

tell you how many MBAs I've signed see

949

00:43:14,860 --> 00:43:13,280

that's on you that's first I've heard of

950

00:43:16,510 --> 00:43:14,870

that not being a military guy because it

951
00:43:19,480 --> 00:43:16,520
would just seem to me that the mere fact

952
00:43:20,650 --> 00:43:19,490
that you're in the military and you you

953
00:43:22,030 --> 00:43:20,660
know the certain things are top secret

954
00:43:24,600 --> 00:43:22,040
and it's just isn't there some

955
00:43:26,650 --> 00:43:24,610
understanding generally speaking about

956
00:43:30,810 --> 00:43:26,660
what yet things you're allowed to talk

957
00:43:34,210 --> 00:43:30,820
about what you can't talk about 100% but

958
00:43:36,430 --> 00:43:34,220
if you look at the the types of security

959
00:43:37,990 --> 00:43:36,440
clearances you have no clearance you

960
00:43:40,930 --> 00:43:38,000
have confidence until you have secret

961
00:43:42,730 --> 00:43:40,940
you have top-secret and that that's

962
00:43:45,070 --> 00:43:42,740
ultimately the extent of security

963
00:43:48,180 --> 00:43:45,080

clearances within those levels there's

964

00:43:50,710 --> 00:43:48,190

all kinds of other different acronyms so

965

00:43:53,560 --> 00:43:50,720

you know I can have a top secret

966

00:43:55,930 --> 00:43:53,570

clearance you know you could have a top

967

00:43:58,609 --> 00:43:55,940

secret clearance and we know nothing

968

00:43:59,690 --> 00:43:58,619

about each other stuff

969

00:44:01,249 --> 00:43:59,700

not allowed to know about your

970

00:44:03,170 --> 00:44:01,259

top-secret stuff and you're not allowed

971

00:44:08,299 --> 00:44:03,180

to know about my top-secret stuff it's

972

00:44:11,960 --> 00:44:08,309

all compartmentalized and you know I've

973

00:44:15,170 --> 00:44:11,970

signed NDA's for accidental exposure to

974

00:44:16,640 --> 00:44:15,180

things so even after usually an NDA is

975

00:44:19,849 --> 00:44:16,650

signed before you get the information

976
00:44:23,390 --> 00:44:19,859
crap but you've gotten them both before

977
00:44:26,210 --> 00:44:23,400
and after you've got the information and

978
00:44:27,650 --> 00:44:26,220
give us the essence of what the NDA says

979
00:44:29,749 --> 00:44:27,660
I'm sure it's a bunch of legalese but

980
00:44:31,579 --> 00:44:29,759
what's kind of the essence of it

981
00:44:36,999 --> 00:44:31,589
ironically I've never read the whole

982
00:44:40,009 --> 00:44:37,009
thing but basically nobody does it lists

983
00:44:42,109 --> 00:44:40,019
whatever I'm not supposed to say or what

984
00:44:45,799 --> 00:44:42,119
I'm not supposed talked about whether

985
00:44:48,289 --> 00:44:45,809
it's a system or topic or an event and

986
00:44:50,630 --> 00:44:48,299
then it tells me I'm going to jail for

987
00:44:54,730 --> 00:44:50,640
very long time if I open my mouth Wow so

988
00:45:00,079 --> 00:44:57,069

mean I'm sure you can google search

989

00:45:03,890 --> 00:45:00,089

standard military NDA they're out there

990

00:45:05,720 --> 00:45:03,900

they're not exactly a hidden secret so

991

00:45:08,450 --> 00:45:05,730

I'd like to also ask you about what

992

00:45:11,720 --> 00:45:08,460

flavour says Dave raver the squadron

993

00:45:14,839 --> 00:45:11,730

commander who essentially says that he

994

00:45:17,930 --> 00:45:14,849

was not interrogated about it not

995

00:45:21,950 --> 00:45:17,940

debriefed nothing was taken from him etc

996

00:45:25,099 --> 00:45:21,960

and almost seems to kind of cast doubt

997

00:45:28,160 --> 00:45:25,109

on your story and story of some of the

998

00:45:31,309 --> 00:45:28,170

other guys yep I'm gonna start out by

999

00:45:33,739 --> 00:45:31,319

saying i 100% believe everything flavour

1000

00:45:38,299 --> 00:45:33,749

has said about what he's seen what he

1001
00:45:41,930 --> 00:45:38,309
experienced the guy is highly trained he

1002
00:45:44,479 --> 00:45:41,940
is it was not in his position by luck he

1003
00:45:46,579 --> 00:45:44,489
did everything he could to earn it to be

1004
00:45:48,019 --> 00:45:46,589
there I'm gonna interrupt you for one

1005
00:45:50,809 --> 00:45:48,029
second I kind of let my dog out who's

1006
00:45:54,440 --> 00:45:50,819
being uh go ahead

1007
00:45:57,069 --> 00:45:54,450
flavor said he was you know top 20 as

1008
00:45:59,299 --> 00:45:57,079
far as seniority in that in the

1009
00:46:02,210 --> 00:45:59,309
hierarchy of the carrier I mean it's not

1010
00:46:04,489 --> 00:46:02,220
wrong he was up there but just because

1011
00:46:07,370 --> 00:46:04,499
he's that high doesn't mean he has need

1012
00:46:10,640 --> 00:46:07,380
to know everything there's stuff that

1013
00:46:12,380 --> 00:46:10,650

happened in the Hawkeye squadron that he

1014

00:46:13,640 --> 00:46:12,390

has no need to know I'm sure

1015

00:46:16,160 --> 00:46:13,650

their stuff that happened in his

1016

00:46:19,099 --> 00:46:16,170

squadron that the Hawkeye skipper had no

1017

00:46:21,640 --> 00:46:19,109

need to know again it's it's

1018

00:46:24,309 --> 00:46:21,650

compartmentalized information I

1019

00:46:26,980 --> 00:46:24,319

guarantee you he had no clue about

1020

00:46:29,299 --> 00:46:26,990

certain things that were on that Hawkeye

1021

00:46:31,460 --> 00:46:29,309

because it had nothing to do with his

1022

00:46:33,829 --> 00:46:31,470

job it had nothing to do with his

1023

00:46:38,150 --> 00:46:33,839

aircraft he wouldn't be read into that

1024

00:46:41,839 --> 00:46:38,160

program and if that system is why I

1025

00:46:43,670 --> 00:46:41,849

suspect the nba's were signed he's gonna

1026
00:46:45,230 --> 00:46:43,680
know nothing about it and the guys who

1027
00:46:49,069 --> 00:46:45,240
signed him aren't gonna go advertised

1028
00:46:50,859 --> 00:46:49,079
him oh yeah we signed NDA's mm-hmm well

1029
00:46:53,750 --> 00:46:50,869
furthermore because he is higher up

1030
00:46:54,799 --> 00:46:53,760
maybe there was Ness less need for have

1031
00:47:00,200 --> 00:46:54,809
him sign an NDA

1032
00:47:02,059 --> 00:47:00,210
I mean openly I'll favorite is granted

1033
00:47:06,170 --> 00:47:02,069
the most public person with this whole

1034
00:47:10,130 --> 00:47:06,180
story but he's also the smallest part of

1035
00:47:13,130 --> 00:47:10,140
the entire story he was sent to look at

1036
00:47:15,519 --> 00:47:13,140
something by the Princeton he looked at

1037
00:47:18,319 --> 00:47:15,529
it he saw it he chased it he went away

1038
00:47:20,630 --> 00:47:18,329

that's the extent of his time in the

1039

00:47:22,190 --> 00:47:20,640

whole event he got back to the ship he

1040

00:47:25,359 --> 00:47:22,200

told the next crew going out who was

1041

00:47:29,420 --> 00:47:25,369

underwood and whoever was with underwood

1042

00:47:30,559 --> 00:47:29,430

hey we just saw this do you see it see

1043

00:47:33,140 --> 00:47:30,569

if you can get some footage of it I

1044

00:47:36,859 --> 00:47:33,150

don't know exactly what words he used

1045

00:47:39,230 --> 00:47:36,869

but Underwood takes off happens to run

1046

00:47:42,650 --> 00:47:39,240

into it gets that clear footage and

1047

00:47:46,130 --> 00:47:42,660

that's where we are but remind me has

1048

00:47:48,309 --> 00:47:46,140

Underwood spoken out yep a couple weeks

1049

00:47:51,140 --> 00:47:48,319

ago maybe a little more than a month ago

1050

00:47:53,240 --> 00:47:51,150

and an interview with him and he

1051
00:47:56,749 --> 00:47:53,250
corroborated flavor essentially that he

1052
00:47:59,990 --> 00:47:56,759
did see something yep so that's a nice

1053
00:48:02,269 --> 00:48:00,000
crop rated a good portion what we said -

1054
00:48:03,470 --> 00:48:02,279
and one other things flavor says was the

1055
00:48:07,039 --> 00:48:03,480
video was out there was all there was

1056
00:48:09,559 --> 00:48:07,049
and Underwood has already stated no

1057
00:48:11,210 --> 00:48:09,569
there's more and what about the guys

1058
00:48:15,460 --> 00:48:11,220
that say they actually saw it with

1059
00:48:18,620 --> 00:48:15,470
binoculars from the Princeton I

1060
00:48:20,420 --> 00:48:18,630
wholeheartedly believe it but it was

1061
00:48:23,180 --> 00:48:20,430
very far away though right

1062
00:48:25,370 --> 00:48:23,190
it was very very big binoculars they

1063
00:48:29,580 --> 00:48:25,380

were called big eyes

1064

00:48:31,950 --> 00:48:29,590

that I meant or they're meant for doing

1065

00:48:33,480 --> 00:48:31,960

that and of course the altitude of the

1066

00:48:35,850 --> 00:48:33,490

tic-tac would have had to have been a

1067

00:48:37,230 --> 00:48:35,860

certain level for them to see it because

1068

00:48:40,080 --> 00:48:37,240

of the horizon if it was low they

1069

00:48:42,170 --> 00:48:40,090

wouldn't have seen it mmm like said they

1070

00:48:44,790 --> 00:48:42,180

were tracking them for a whole week and

1071

00:48:47,070 --> 00:48:44,800

Kevin would have to clarify things I

1072

00:48:48,990 --> 00:48:47,080

don't know what altitudes or what

1073

00:48:50,730 --> 00:48:49,000

exactly locations but they were

1074

00:48:52,440 --> 00:48:50,740

attracted by a variety of different

1075

00:48:55,560 --> 00:48:52,450

altitudes a variety of different places

1076

00:48:58,200 --> 00:48:55,570

and like I said more than one person

1077

00:49:00,300 --> 00:48:58,210

some of whom really have no contact with

1078

00:49:01,980 --> 00:49:00,310

each other have said they saw it with

1079

00:49:05,220 --> 00:49:01,990

their own eyes so the same type of

1080

00:49:07,730 --> 00:49:05,230

bricks that were on the Hawkeye would

1081

00:49:10,290 --> 00:49:07,740

have been on the Hornets correct no

1082

00:49:14,580 --> 00:49:10,300

different is there a brick at all on a

1083

00:49:15,710 --> 00:49:14,590

Hornet they have mission tapes okay so

1084

00:49:18,180 --> 00:49:15,720

let's talk about the mission tapes

1085

00:49:19,770 --> 00:49:18,190

wouldn't the Air Force theoretically

1086

00:49:21,800 --> 00:49:19,780

want those mission tapes just like they

1087

00:49:28,550 --> 00:49:21,810

wanted the stuff off the Hawkeye nope

1088

00:49:34,790 --> 00:49:28,560

there's nothing there like explain dot

1089

00:49:39,480 --> 00:49:37,200

doing the same things the Princeton's

1090

00:49:41,850 --> 00:49:39,490

radar was it was not meant for doing the

1091

00:49:45,720 --> 00:49:41,860

same thing the Hawkeye radar words it

1092

00:49:47,400 --> 00:49:45,730

was meant for a dogfight or you know

1093

00:49:50,070 --> 00:49:47,410

that type of thing

1094

00:49:53,250 --> 00:49:50,080

the fire-control radar it's meant to aim

1095

00:49:56,430 --> 00:49:53,260

the missile it's not meant to do it's

1096

00:49:58,500 --> 00:49:56,440

got a very short range it's got a not

1097

00:50:03,000 --> 00:49:58,510

meant to do everything that seems tenth

1098

00:50:04,860 --> 00:50:03,010

of its it's real capabilities it's got

1099

00:50:06,600 --> 00:50:04,870

that in the FLIR pod beyond that it's

1100

00:50:08,040 --> 00:50:06,610

guns and missiles but did they or did

1101
00:50:12,960 --> 00:50:08,050
they not pick up the tic tacs on the

1102
00:50:14,640 --> 00:50:12,970
radar don't know I've heard both so if

1103
00:50:17,970 --> 00:50:14,650
they did pick it up then there would be

1104
00:50:19,980 --> 00:50:17,980
essentially a pseudo video of that yep

1105
00:50:21,570 --> 00:50:19,990
it would they would have painted a track

1106
00:50:23,790 --> 00:50:21,580
just like the Princeton would have just

1107
00:50:25,670 --> 00:50:23,800
like we would have but it would have

1108
00:50:29,670 --> 00:50:25,680
been shared to both the Princeton and

1109
00:50:31,670 --> 00:50:29,680
the Hawkeye V data links so that data

1110
00:50:34,080 --> 00:50:31,680
was already in two other places

1111
00:50:36,240 --> 00:50:34,090
whatever the Hornets are picking up the

1112
00:50:38,790 --> 00:50:36,250
Hawkeye is getting from the Hornets yep

1113
00:50:41,180 --> 00:50:38,800

so for sure the hor

1114

00:50:44,130 --> 00:50:41,190

bricks would be the key bricks to get

1115

00:50:46,080 --> 00:50:44,140

Hawkeye bricks sorry sorry yes the

1116

00:50:48,420 --> 00:50:46,090

Hawkeye bricks I would have seen

1117

00:50:49,380 --> 00:50:48,430

everything the Princeton saw the Hawkeye

1118

00:50:50,640 --> 00:50:49,390

would have seen everything the fighter

1119

00:50:56,120 --> 00:50:50,650

saw the Hawkeye would have seen

1120

00:50:58,230 --> 00:50:56,130

everything that Nimitz saw the Prowler

1121

00:51:01,530 --> 00:50:58,240

basically anything that was tied into

1122

00:51:05,280 --> 00:51:01,540

that datalink it would have seen in that

1123

00:51:08,640 --> 00:51:05,290

Hawkeye and why do you think Underwood

1124

00:51:12,359 --> 00:51:08,650

was recording while flavor and the other

1125

00:51:13,859 --> 00:51:12,369

plane were not recording um mainly

1126
00:51:14,960 --> 00:51:13,869
because he had a head up heads-up that

1127
00:51:18,750 --> 00:51:14,970
something was out there

1128
00:51:23,970 --> 00:51:18,760
well favored to - I thought no flavor

1129
00:51:26,460 --> 00:51:23,980
was already airborne headed out to -

1130
00:51:28,440 --> 00:51:26,470
well okay but but then he's alerted hey

1131
00:51:30,150 --> 00:51:28,450
we want you to go check something out so

1132
00:51:33,839 --> 00:51:30,160
well you would you could turn the video

1133
00:51:36,089 --> 00:51:33,849
on at that point right because I've no

1134
00:51:39,710 --> 00:51:36,099
reason for him why he did who I didn't

1135
00:51:42,120 --> 00:51:39,720
mm-hmm he could have been saving it for

1136
00:51:44,430 --> 00:51:42,130
the actual training exercise he was a

1137
00:51:47,700 --> 00:51:44,440
part of he could have been more focused

1138
00:51:48,810 --> 00:51:47,710

on what they were telling him to do I he

1139

00:51:52,800 --> 00:51:48,820

would have to answer that question

1140

00:51:54,870 --> 00:51:52,810

mm-hmm Michael was raising an

1141

00:51:57,329 --> 00:51:54,880

interesting point which is that these

1142

00:51:58,290 --> 00:51:57,339

two guys that came and took her for me

1143

00:52:01,349 --> 00:51:58,300

from the Air Force you said they're

1144

00:52:04,290 --> 00:52:01,359

wearing flight suits so they're not

1145

00:52:07,980 --> 00:52:04,300

hiding the fact in any way where they're

1146

00:52:09,630 --> 00:52:07,990

from nope and the big thing is and you

1147

00:52:12,570 --> 00:52:09,640

know somebody asked me how do you I know

1148

00:52:15,140 --> 00:52:12,580

they weren't you know to Navy guys in

1149

00:52:18,930 --> 00:52:15,150

flight suits that came with him because

1150

00:52:21,180 --> 00:52:18,940

the you signe up between a navy flight

1151

00:52:24,300 --> 00:52:21,190

suit an Air Force flight suit are

1152

00:52:25,589 --> 00:52:24,310

distinctively different so you can tell

1153

00:52:26,490 --> 00:52:25,599

the difference you know you're taught

1154

00:52:29,430 --> 00:52:26,500

bootcamp how to tell the difference

1155

00:52:31,770 --> 00:52:29,440

between services so they were definitely

1156

00:52:34,740 --> 00:52:31,780

Air Force uniforms Air Force flight suit

1157

00:52:37,829 --> 00:52:34,750

and you believe they arrived via

1158

00:52:39,180 --> 00:52:37,839

helicopter bit when you're out to sea

1159

00:52:40,800 --> 00:52:39,190

there's only really two ways onto the

1160

00:52:44,609 --> 00:52:40,810

aircraft carrier one's my helicopter

1161

00:52:47,310 --> 00:52:44,619

once my Cod the cod has the same engine

1162

00:52:48,990 --> 00:52:47,320

same avionics as the Hawkeye so when it

1163

00:52:51,300 --> 00:52:49,000

comes out to the ships the Hawkeye guys

1164

00:52:52,380 --> 00:52:51,310

were the ones to take care of it so I

1165

00:52:54,240 --> 00:52:52,390

was doing

1166

00:52:57,809 --> 00:52:54,250

the Hawkeye or the cod everytime it

1167

00:53:00,690 --> 00:52:57,819

touched that day and I saw no Air Force

1168

00:53:03,509 --> 00:53:00,700

guys get off that god the helicopter

1169

00:53:05,220 --> 00:53:03,519

comes and goes so often that you can

1170

00:53:09,450 --> 00:53:05,230

easily miss somebody getting on and off

1171

00:53:11,220 --> 00:53:09,460

of it so my assumption is they came on

1172

00:53:14,039 --> 00:53:11,230

be a helicopter that day at some point

1173

00:53:17,519 --> 00:53:14,049

in KLM and your assumption would be they

1174

00:53:20,880 --> 00:53:17,529

came from where San Diego I like said

1175

00:53:21,779 --> 00:53:20,890

San Diego was only about a 40-minute 45

1176

00:53:25,740 --> 00:53:21,789

minute flight time

1177

00:53:27,380 --> 00:53:25,750

Kurn 860 tell us about San Clemente

1178

00:53:31,130 --> 00:53:27,390

Island and what happens there

1179

00:53:35,549 --> 00:53:31,140

it's its training base it's got a runway

1180

00:53:40,380 --> 00:53:35,559

it's got some tracking stuff for the

1181

00:53:43,079 --> 00:53:40,390

Pacific missile test range I know

1182

00:53:47,569 --> 00:53:43,089

if you screw up they send you out to the

1183

00:53:49,799 --> 00:53:47,579

island it's your Alcatraz basically

1184

00:53:53,279 --> 00:53:49,809

people don't like living on the island

1185

00:53:55,769 --> 00:53:53,289

there's nothing to do out there and is

1186

00:53:58,680 --> 00:53:55,779

that entire island of federal government

1187

00:54:01,109 --> 00:53:58,690

yes and as far as you know as their

1188

00:54:06,749 --> 00:54:01,119

secret super secret stuff taking place

1189

00:54:09,029 --> 00:54:06,759

there there where stand Clemente is it's

1190

00:54:12,930 --> 00:54:09,039

not far from Point Mugu Naval Air

1191

00:54:14,130 --> 00:54:12,940

Station which is the home of the Pacific

1192

00:54:16,920 --> 00:54:14,140

missile test range that's where they do

1193

00:54:18,660 --> 00:54:16,930

missile testing for basically any Navy

1194

00:54:22,829 --> 00:54:18,670

missile that's been out there whether

1195

00:54:25,470 --> 00:54:22,839

it's Aaron air-to-ground you know it

1196

00:54:27,930 --> 00:54:25,480

gets tested out there so they have a ton

1197

00:54:29,579 --> 00:54:27,940

of different sensors that are right out

1198

00:54:30,990 --> 00:54:29,589

there on the hill in Point Mugu you can

1199

00:54:34,289 --> 00:54:31,000

see him from the Pacific Coast Highway

1200

00:54:35,599 --> 00:54:34,299

headed down to Santa Monica San Clemente

1201

00:54:39,089 --> 00:54:35,609

days got a bunch of bombs

1202

00:54:41,940 --> 00:54:39,099

there's ships that have a whole bunch of

1203

00:54:43,890 --> 00:54:41,950

stuff for telemetry there could be stuff

1204

00:54:48,499 --> 00:54:43,900

out there just nothing I'm out right all

1205

00:54:55,620 --> 00:54:48,509

aware of mm-hmm are you aware of any

1206

00:54:56,700 --> 00:54:55,630

technology that is secret then ask you

1207

00:54:57,960 --> 00:54:56,710

to disclose it but you're aware of any

1208

00:55:01,650 --> 00:54:57,970

technology that's secret that that's

1209

00:55:03,870 --> 00:55:01,660

anywhere close to explaining this

1210

00:55:07,030 --> 00:55:03,880

tic-tac yeah

1211

00:55:09,490 --> 00:55:07,040

and but you've probably done a lot of

1212

00:55:10,870 --> 00:55:09,500

reading about it since I mean for

1213

00:55:14,830 --> 00:55:10,880

instance we've been talking on this show

1214

00:55:16,770 --> 00:55:14,840

about these Navy patents that disclose

1215

00:55:19,480 --> 00:55:16,780

something that appears to be very

1216

00:55:20,590 --> 00:55:19,490

similar to the technology of a tic-tac

1217

00:55:22,410 --> 00:55:20,600

even the size of it

1218

00:55:25,150 --> 00:55:22,420

explaining kind of anti-gravity

1219

00:55:27,840 --> 00:55:25,160

technologies etc is that anything you've

1220

00:55:30,780 --> 00:55:27,850

looked into Oh briefly

1221

00:55:37,030 --> 00:55:30,790

try not to clutter my mind with extra

1222

00:55:39,970 --> 00:55:37,040

extra stuff well but I imagine it weighs

1223

00:55:42,160 --> 00:55:39,980

on you though quite a bit wondering what

1224

00:55:43,780 --> 00:55:42,170

this thing was I assume you'd really

1225

00:55:45,370 --> 00:55:43,790

like to know the answer to that let's

1226

00:55:47,020 --> 00:55:45,380

that's the whole reason little group of

1227

00:55:50,950 --> 00:55:47,030

us has called gone public

1228

00:55:53,890 --> 00:55:50,960

um Kevin Day and Gary Voorhees initially

1229

00:55:55,420 --> 00:55:53,900

went public to support Dave flavour you

1230

00:55:58,180 --> 00:55:55,430

know the rest of us have joined in to

1231

00:56:01,150 --> 00:55:58,190

support Dave favor and what Kevin said

1232

00:56:04,210 --> 00:56:01,160

and what Gary said and you know we all

1233

00:56:07,120 --> 00:56:04,220

supporting each other you know it's

1234

00:56:09,430 --> 00:56:07,130

highly possible that you know the

1235

00:56:11,200 --> 00:56:09,440

patents that the Navy has or some of the

1236

00:56:14,770 --> 00:56:11,210

other systems that have come to light

1237

00:56:17,260 --> 00:56:14,780

recently could have been back then much

1238

00:56:21,010 --> 00:56:17,270

more secret than they are now could have

1239

00:56:23,350 --> 00:56:21,020

been could have been the things that

1240

00:56:25,630 --> 00:56:23,360

were tested against us you know we could

1241

00:56:27,520 --> 00:56:25,640

have been the test dummies first any

1242

00:56:36,070 --> 00:56:27,530

number of the stuff that's people that

1243

00:56:39,610 --> 00:56:36,080

asked about but it was a physical object

1244

00:56:42,280 --> 00:56:39,620

that was tracked the data exists to

1245

00:56:45,010 --> 00:56:42,290

prove that it was a physical object that

1246

00:56:46,540 --> 00:56:45,020

was tracked but obviously we don't have

1247

00:56:48,930 --> 00:56:46,550

that data the government's got it we

1248

00:56:52,660 --> 00:56:48,940

can't give it to you mm-hmm

1249

00:56:54,930 --> 00:56:52,670

two other questions one is from our last

1250

00:56:58,260 --> 00:56:54,940

episode with TD Barnes you talks about

1251
00:57:00,490 --> 00:56:58,270
various phantom or altered reality

1252
00:57:02,860 --> 00:57:00,500
technologies that exist out there that

1253
00:57:05,410 --> 00:57:02,870
allow us to fool our enemies into

1254
00:57:07,330 --> 00:57:05,420
thinking that they're encountering you

1255
00:57:08,650 --> 00:57:07,340
know tons of our aircraft or whatever I

1256
00:57:11,870 --> 00:57:08,660
think one of the projects was called

1257
00:57:13,910 --> 00:57:11,880
nemesis and once Pegasus

1258
00:57:16,729 --> 00:57:13,920
nemesis I've heard of nemesis is one of

1259
00:57:20,029 --> 00:57:16,739
them yeah so the idea that that's what

1260
00:57:22,579 --> 00:57:20,039
this could have been was us testing that

1261
00:57:25,190 --> 00:57:22,589
type of technology the only issue I have

1262
00:57:27,710 --> 00:57:25,200
with that is I've just started reading

1263
00:57:30,019 --> 00:57:27,720

into what's out there about that so I

1264

00:57:33,099 --> 00:57:30,029

don't know all the details for it

1265

00:57:35,660 --> 00:57:33,109

but again we tracked a physical object

1266

00:57:37,729 --> 00:57:35,670

from what I understand about that stuff

1267

00:57:39,920 --> 00:57:37,739

it's not a physical object that they're

1268

00:57:41,690 --> 00:57:39,930

gonna try and track no but it's supposed

1269

00:57:46,960 --> 00:57:41,700

to lead the enemy into believing there's

1270

00:57:51,200 --> 00:57:46,970

a physical object there our radars

1271

00:57:55,190 --> 00:57:51,210

especially the spy one as old as the hot

1272

00:57:58,089 --> 00:57:55,200

guys radar was its time and the hot the

1273

00:58:01,190 --> 00:57:58,099

advanced Hawkeye radars in use in 2015

1274

00:58:03,170 --> 00:58:01,200

there's very distinct attributes that

1275

00:58:07,130 --> 00:58:03,180

those radars have that make it very

1276

00:58:11,599 --> 00:58:07,140

difficult to spoof make it very

1277

00:58:14,420 --> 00:58:11,609

difficult to a jam to spoof create false

1278

00:58:20,660 --> 00:58:14,430

tracks any of that it's very hard to do

1279

00:58:22,370 --> 00:58:20,670

that with technology a lot of people say

1280

00:58:24,319 --> 00:58:22,380

you know the Princeton was tracking

1281

00:58:26,359 --> 00:58:24,329

seagulls or the fact that the Princeton

1282

00:58:28,670 --> 00:58:26,369

brought its radar down meant they were

1283

00:58:31,150 --> 00:58:28,680

getting ghost tracks you know no the

1284

00:58:34,009 --> 00:58:31,160

Crimson products radar down to make sure

1285

00:58:34,880 --> 00:58:34,019

just cover all its bases that there was

1286

00:58:37,489 --> 00:58:34,890

nothing wrong with it

1287

00:58:38,779 --> 00:58:37,499

when they brought the radar back up they

1288

00:58:42,319 --> 00:58:38,789

were seeing stuff even clearer than the

1289

00:58:45,799 --> 00:58:42,329

word before we were tracking it on radar

1290

00:58:48,289 --> 00:58:45,809

it was tracked passively through ESM

1291

00:58:49,249 --> 00:58:48,299

systems which is basically time set of

1292

00:58:52,130 --> 00:58:49,259

headphones that listen to electronic

1293

00:58:54,829 --> 00:58:52,140

signals the objects were emitting

1294

00:58:56,749 --> 00:58:54,839

electronic signals you know there's

1295

00:58:58,370 --> 00:58:56,759

other stuff on that Hawkeye that was

1296

00:59:02,959 --> 00:58:58,380

giving other data that I can't talk

1297

00:59:06,529 --> 00:59:02,969

about it's unlikely that it was a

1298

00:59:10,249 --> 00:59:06,539

spoofing technology not to mention the

1299

00:59:12,140 --> 00:59:10,259

eyewitnesses correct you know I

1300

00:59:14,870 --> 00:59:12,150

understand and the technology nemesis

1301
00:59:18,759 --> 00:59:14,880
and what they're trying to do and how it

1302
00:59:23,299 --> 00:59:18,769
would affect many radars in use today

1303
00:59:25,640 --> 00:59:23,309
but I don't think it would have been

1304
00:59:30,950 --> 00:59:25,650
successful against the company

1305
00:59:32,329 --> 00:59:30,960
of technology that we had mm-hmm okay

1306
00:59:36,249 --> 00:59:32,339
then last question is to tell us about

1307
00:59:39,950 --> 00:59:36,259
this you ap expeditions that Kevin day

1308
00:59:43,339 --> 00:59:39,960
started up to track you aid you AP's

1309
00:59:47,059 --> 00:59:43,349
unidentified aerial phenomena basically

1310
00:59:50,539 --> 00:59:47,069
they've got a bunch of experts in

1311
00:59:53,870 --> 00:59:50,549
different fields and if all jumped on to

1312
00:59:56,059 --> 00:59:53,880
support the project believe later this

1313
00:59:58,880 --> 00:59:56,069

year not sure these that timeline I'll

1314

01:00:00,410 --> 00:59:58,890

top my head they've got two ships that

1315

01:00:02,660 --> 01:00:00,420

they chartered one's gonna hang out off

1316

01:00:04,549 --> 01:00:02,670

San Clemente Island the other is going

1317

01:00:07,069 --> 01:00:04,559

to go around and they're going out to

1318

01:00:12,259 --> 01:00:07,079

the operating areas that we were in when

1319

01:00:15,109 --> 01:00:12,269

they saw all this stuff to try and find

1320

01:00:17,180 --> 01:00:15,119

them to try and learn things to try and

1321

01:00:19,870 --> 01:00:17,190

get a whole bunch of new data to support

1322

01:00:22,339 --> 01:00:19,880

everything we already know because

1323

01:00:24,680 --> 01:00:22,349

there's been all kinds of reports

1324

01:00:27,519 --> 01:00:24,690

non-military wise out in that area of

1325

01:00:29,900 --> 01:00:27,529

the water off the coast of San Clemente

1326

01:00:32,479 --> 01:00:29,910

an island off of Mexico that they

1327

01:00:33,950 --> 01:00:32,489

covered in unidentified you know there's

1328

01:00:37,759 --> 01:00:33,960

a whole bunch of stuff in that area that

1329

01:00:41,359 --> 01:00:37,769

kind of fits into everything we saw so

1330

01:00:45,229 --> 01:00:41,369

they're going about non-military reports

1331

01:00:47,210 --> 01:00:45,239

yeah people seeing things similar to

1332

01:00:49,819 --> 01:00:47,220

what you guys say you saw yeah not a

1333

01:00:51,079 --> 01:00:49,829

hundred percent identical because most

1334

01:00:54,259 --> 01:00:51,089

of them are from what I understand

1335

01:00:58,130 --> 01:00:54,269

seeing it much greater distances but

1336

01:01:00,440 --> 01:00:58,140

there's the group believes there

1337

01:01:02,120 --> 01:01:00,450

something in that area that is either

1338

01:01:03,769 --> 01:01:02,130

contributing to all this or causing all

1339

01:01:06,620 --> 01:01:03,779

this and that's what they're going to

1340

01:01:09,170 --> 01:01:06,630

find out and what sorry what's your role

1341

01:01:12,859 --> 01:01:09,180

gonna be in that right now I just take

1342

01:01:14,769 --> 01:01:12,869

care of social media stuff okay I'm not

1343

01:01:18,559 --> 01:01:14,779

the I'm not the brains of the operation

1344

01:01:22,819 --> 01:01:18,569

and are they planning a documentary on I

1345

01:01:24,440 --> 01:01:22,829

don't know I know Dave babies loosely

1346

01:01:25,729 --> 01:01:24,450

involved I know there's gonna be

1347

01:01:28,099 --> 01:01:25,739

recording equipment I know there's gonna

1348

01:01:31,029 --> 01:01:28,109

be stuff out there I just don't know

1349

01:01:35,259 --> 01:01:31,039

what the exact plan with all that is and

1350

01:01:38,509 --> 01:01:35,269

what do you have to say about the

1351

01:01:39,200 --> 01:01:38,519

participation of whales in all this

1352

01:01:41,870 --> 01:01:39,210

because Kevin

1353

01:01:44,930 --> 01:01:41,880

and some of his pronouncements about

1354

01:01:49,190 --> 01:01:44,940

this project has talked about the

1355

01:01:52,390 --> 01:01:49,200

tracking of whales and whale songs and

1356

01:01:55,970 --> 01:01:52,400

and and UFOs associated with whales

1357

01:01:56,960 --> 01:01:55,980

there's I'm not entirely familiar with

1358

01:01:59,510 --> 01:01:56,970

that whole part of it

1359

01:02:01,880 --> 01:01:59,520

but like said I know they've got a

1360

01:02:05,510 --> 01:02:01,890

marine biologist that's gonna be part of

1361

01:02:06,920 --> 01:02:05,520

it and that's they're trying to explore

1362

01:02:11,560 --> 01:02:06,930

a whole bunch of different avenues for

1363

01:02:17,510 --> 01:02:13,550

that's not something you've done much

1364

01:02:21,620 --> 01:02:17,520

looking into know is Kevin someone who

1365

01:02:25,820 --> 01:02:21,630

tends to lean toward it being more 60%

1366

01:02:28,520 --> 01:02:25,830

extraterrestrial probably further than

1367

01:02:31,579 --> 01:02:28,530

that and you know you'll have to talk to

1368

01:02:33,050 --> 01:02:31,589

Kevin specifically about it and I'll let

1369

01:02:36,260 --> 01:02:33,060

him know you guys aren't scary so maybe

1370

01:02:41,510 --> 01:02:36,270

he'll come on OK but he's had a whole

1371

01:02:45,859 --> 01:02:41,520

bunch of different experiences since the

1372

01:02:48,339 --> 01:02:45,869

tic-tock event and he believes deeply

1373

01:02:50,839 --> 01:02:48,349

and I have no reason to doubt him that

1374

01:02:52,370 --> 01:02:50,849

his experience with those objects has

1375

01:02:57,650 --> 01:02:52,380

caused a lot of different things in his

1376

01:02:59,240 --> 01:02:57,660

life hmm so he's got quite a story to

1377

01:03:01,790 --> 01:02:59,250

tell and it's okay it's been so

1378

01:03:06,250 --> 01:03:01,800

compelling that's caused him to start

1379

01:03:08,210 --> 01:03:06,260

this this new expedition yeah and

1380

01:03:09,440 --> 01:03:08,220

hopefully we're gonna have him on the

1381

01:03:11,660 --> 01:03:09,450

show and we really appreciate your help

1382

01:03:14,510 --> 01:03:11,670

on that if we put in a good word for us

1383

01:03:16,910 --> 01:03:14,520

but just to give us one quick example of

1384

01:03:25,579 --> 01:03:16,920

something that he says he experienced

1385

01:03:29,720 --> 01:03:25,589

since I know he's had he's had like

1386

01:03:31,760 --> 01:03:29,730

dreams and stuff he's got his outlook on

1387

01:03:33,800 --> 01:03:31,770

life has changed to see the event

1388

01:03:36,349 --> 01:03:33,810

somehow he interprets stuff how he sees

1389

01:03:39,640 --> 01:03:36,359

stuff he almost seems like he thinks

1390

01:03:42,320 --> 01:03:39,650

he's connected to the object somehow

1391

01:03:46,190 --> 01:03:42,330

again he's in a much better position to

1392

01:03:48,710 --> 01:03:46,200

explain all that than I am yeah Wow okay

1393

01:03:51,410 --> 01:03:48,720

cool well PJ I think that was extremely

1394

01:03:52,880 --> 01:03:51,420

helpful to our investigation we're I

1395

01:03:54,080 --> 01:03:52,890

don't know how many

1396

01:03:55,640 --> 01:03:54,090

so as we've done at this point eight to

1397

01:03:57,380 --> 01:03:55,650

ten episodes it all started with the

1398

01:03:59,960 --> 01:03:57,390

turbo but we've interviewed some very

1399

01:04:00,530 --> 01:03:59,970

instant folks including uh Paco Chia

1400

01:04:03,860 --> 01:04:00,540

Ricci

1401

01:04:04,910 --> 01:04:03,870

do you know Paco or of him yep I have

1402

01:04:09,950 --> 01:04:04,920

some issues with him

1403

01:04:11,750 --> 01:04:09,960

yeah well we were able to get in contact

1404

01:04:15,830 --> 01:04:11,760

with him and a group of us spoke with

1405

01:04:19,610 --> 01:04:15,840

him and he doesn't want to hear any but

1406

01:04:21,860 --> 01:04:19,620

we have to say he basically regurgitates

1407

01:04:23,930 --> 01:04:21,870

what flavour has said and what the

1408

01:04:28,910 --> 01:04:23,940

unofficial official report has said and

1409

01:04:31,790 --> 01:04:28,920

even when you even when I personally

1410

01:04:33,380 --> 01:04:31,800

quoted his report that he supports that

1411

01:04:39,280 --> 01:04:33,390

something happened he basically told me

1412

01:04:42,620 --> 01:04:39,290

I was wrong so he's stuck in flavors

1413

01:04:45,680 --> 01:04:42,630

back pocket so to speak yeah that's the

1414

01:04:48,140 --> 01:04:45,690

way he that that was the mode he was in

1415

01:04:50,330 --> 01:04:48,150

when he was on our show and I'm kind of

1416

01:04:52,850 --> 01:04:50,340

with you I I see the two stories very

1417

01:04:55,070 --> 01:04:52,860

easily potentially coexisting and you've

1418

01:04:57,860 --> 01:04:55,080

kind of helped explain how it could be

1419

01:04:59,750 --> 01:04:57,870

that flavor didn't have things taken

1420

01:05:02,000 --> 01:04:59,760

from him or wasn't interrogated and have

1421

01:05:02,750 --> 01:05:02,010

to sign NDA's whereas the Hong Kong

1422

01:05:05,810 --> 01:05:02,760

people

1423

01:05:08,690 --> 01:05:05,820

none of us discount any of favorite

1424

01:05:10,550 --> 01:05:08,700

story you know we believe everything he

1425

01:05:14,000 --> 01:05:10,560

saw you know we wouldn't be here if he

1426

01:05:15,650 --> 01:05:14,010

hadn't gone public it's the little part

1427

01:05:18,920 --> 01:05:15,660

of his story where he says were wrong

1428

01:05:21,950 --> 01:05:18,930

that we disagree with yeah well he

1429

01:05:26,450 --> 01:05:21,960

landed on well he would have landed on

1430

01:05:28,370 --> 01:05:26,460

the Nimitz obviously but merely because

1431

01:05:31,220 --> 01:05:28,380

he didn't encounter the two Air Force

1432

01:05:35,510 --> 01:05:31,230

guys that you encountered or didn't have

1433

01:05:36,890 --> 01:05:35,520

things taken from him or sign an NDA I

1434

01:05:41,210 --> 01:05:36,900

think you've given a pretty good

1435

01:05:43,880 --> 01:05:41,220

explanation today as to why that could

1436

01:05:46,040 --> 01:05:43,890

have been while it's very possible that

1437

01:05:47,900 --> 01:05:46,050

the people in the Hawkeye did have to

1438

01:05:54,470 --> 01:05:47,910

sign the NDA's and and you did have the

1439

01:05:57,410 --> 01:05:54,480

bricks taken yep and I firmly you know

1440

01:05:59,510 --> 01:05:57,420

if the somebody from the government with

1441

01:06:02,510 --> 01:05:59,520

the right credentials showed up at my

1442

01:06:03,710 --> 01:06:02,520

door tomorrow and told me I was not

1443

01:06:04,250 --> 01:06:03,720

allowed to talk about any of this

1444

01:06:06,560 --> 01:06:04,260

anymore

1445

01:06:10,100 --> 01:06:06,570

you'd never hear from me it

1446

01:06:12,920 --> 01:06:10,110

you know none of us are out to to share

1447

01:06:14,780 --> 01:06:12,930

any secrets none of us are out to you

1448

01:06:17,300 --> 01:06:14,790

know badmouth the government none of us

1449

01:06:20,300 --> 01:06:17,310

are out for any of that we're out to

1450

01:06:23,930 --> 01:06:20,310

find out the truth about what we saw you

1451

01:06:26,240 --> 01:06:23,940

know especially with Gary and I we have

1452

01:06:30,860 --> 01:06:26,250

to toe the line with some things we say

1453

01:06:33,650 --> 01:06:30,870

because we know more than we can say but

1454

01:06:35,600 --> 01:06:33,660

to be clear going back to Roger and the

1455

01:06:39,020 --> 01:06:35,610

other guys are actually on the Hawkeye

1456

01:06:42,260 --> 01:06:39,030

and personally observed it you don't

1457

01:06:47,330 --> 01:06:42,270

believe that they were told in any

1458

01:06:49,640 --> 01:06:47,340

briefing what this was um I'd like to

1459

01:06:51,380 --> 01:06:49,650

think if Roger knew what it was he even

1460

01:06:54,430 --> 01:06:51,390

if he couldn't tell me he would have

1461

01:06:56,210 --> 01:06:54,440

hinted that he did and he's made no

1462

01:06:57,700 --> 01:06:56,220

indications that he knows what it is

1463

01:07:00,410 --> 01:06:57,710

anymore than idea

1464

01:07:02,120 --> 01:07:00,420
so they debrief them they weren't

1465

01:07:04,310 --> 01:07:02,130
briefing them they weren't given

1466

01:07:07,160 --> 01:07:04,320
information they were they were

1467

01:07:10,760 --> 01:07:07,170
supplying what they know knew and since

1468

01:07:13,460 --> 01:07:10,770
they had now firsthand sighting of this

1469

01:07:15,860 --> 01:07:13,470
thing which potentially was us

1470

01:07:19,100 --> 01:07:15,870
technology here's the US government

1471

01:07:21,530 --> 01:07:19,110
saying hey what you saw you're not

1472

01:07:23,390 --> 01:07:21,540
allowed to talk about exactly thank you

1473

01:07:25,400 --> 01:07:23,400
again - PJ Hughes for coming on the show

1474

01:07:28,820 --> 01:07:25,410
and telling us his story we will be back

1475

01:07:31,700 --> 01:07:28,830
next week with another episode and we'll

1476

01:07:34,220 --> 01:07:31,710

have Kevin day with us he was on board

1477

01:07:37,250 --> 01:07:34,230

the Princeton at the time of the

1478

01:07:39,170 --> 01:07:37,260

incident and he tells he gives us

1479

01:07:42,740 --> 01:07:39,180

information that he's never told before

1480

01:07:44,900 --> 01:07:42,750

including about how the captain of the

1481

01:07:48,190 --> 01:07:44,910

Princeton seem to be very disinterested

1482

01:07:51,590 --> 01:07:48,200

in the whole tick-tack UFO incident a

1483

01:07:54,200 --> 01:07:51,600

lot can be read into that so tune in

1484

01:07:55,910 --> 01:07:54,210

next week for Kevin day as we continue

1485

01:07:57,500 --> 01:07:55,920

our deep dive thank you all for

1486

01:08:00,100 --> 01:07:57,510

listening and think it was always to our

1487

01:08:04,200 --> 01:08:00,110

producer Michael Parker

1488

01:08:07,690 --> 01:08:06,039

thank you for listening at the hidden

1489

01:08:09,640 --> 01:08:07,700

trade show with Jim Breslow

1490

01:08:13,270 --> 01:08:09,650

you can find us at hidden truths

1491

01:08:15,990 --> 01:08:13,280

show.com follow us on Facebook Twitter

1492

01:08:18,220 --> 01:08:16,000

and Instagram and he in the trade show

1493

01:08:21,099 --> 01:08:18,230

join us again next week for another

1494

01:08:23,050 --> 01:08:21,109

episode of Hamelin trade show with Jim
