1
00:00:07,249 --> 00:00:05,120
when you first notice these and I think

2
00:00:08,720 --> 00:00:07,259
you said it was on November 10th and you

3
00:00:11,600 --> 00:00:08,730
were seeing them in clusters of about

4
00:00:13,610 --> 00:00:11,610
five to ten at a time and then

5
00:00:16,790 --> 00:00:13,620
ultimately used November 14th that

6
00:00:19,269 --> 00:00:16,800
flavor encounters them correct that's

7
00:00:23,750 --> 00:00:19,279
correct yeah were you seeing them on the

8
00:00:25,580 --> 00:00:23,760
10th through the 13th engaging in kind

9
00:00:30,349 --> 00:00:25,590
of bizarre man maneuvers or were they

10
00:00:32,120 --> 00:00:30,359
just hovering out there yeah that was

11
00:00:36,319 --> 00:00:32,130
bizarre in the in the sense that they

12
00:00:37,700 --> 00:00:36,329
were in in a loose very loosely formed

13
00:00:39,819 --> 00:00:37,710

groups of five to ten each and then

14

00:00:42,610 --> 00:00:39,829

weird thing about it Jim is they were at

15

00:00:45,470 --> 00:00:42,620

28,000 feet going about a hundred knots

16

00:00:47,660 --> 00:00:45,480

which is really really a really slow

17

00:00:49,549 --> 00:00:47,670

bizarrely slow for that altitude usually

18

00:00:51,260 --> 00:00:49,559

something that high in the sky going

19

00:00:54,229 --> 00:00:51,270

that slowly is gonna fall out of this

20

00:00:56,150 --> 00:00:54,239

guy's dead so that that that was bizarre

21

00:00:58,760 --> 00:00:56,160

yes but they did they did not perform

22

00:01:00,500 --> 00:00:58,770

any strange rather than that other than

23

00:01:04,070 --> 00:01:00,510

their slow movement they did not perform

24

00:01:06,020 --> 00:01:04,080

any strange movers and did they appear

25

00:01:07,940 --> 00:01:06,030

to be in a particular formation or are

26
00:01:11,300 --> 00:01:07,950
always reappearing in the same type of

27
00:01:12,890 --> 00:01:11,310
formation well if I could describe it my

28
00:01:16,190 --> 00:01:12,900
fact I've got snow on the ground here in

29
00:01:17,890 --> 00:01:16,200
Oregon it you could look at snow falling

30
00:01:20,149 --> 00:01:17,900
from the sky and a calm winter days

31
00:01:22,249 --> 00:01:20,159
that's kind of the way they look like on

32
00:01:24,109 --> 00:01:22,259
the scope they're just in loose groups

33
00:01:26,120 --> 00:01:24,119
two four or five they maintain their

34
00:01:27,950 --> 00:01:26,130
relative position to each other and

35
00:01:31,039 --> 00:01:27,960
we're just tracking really really slowly

36
00:01:32,929 --> 00:01:31,049
from Catalina Island down to an island

37
00:01:34,520 --> 00:01:32,939
off the coast of Baja California where I

38
00:01:37,910 --> 00:01:34,530

was noticing they were all disappearing

39

00:01:39,980 --> 00:01:37,920

of my radar at that point and referring

40

00:01:43,490 --> 00:01:39,990

to their speed I mean I guess obviously

41

00:01:47,270 --> 00:01:43,500

a helicopter can go at that speed right

42

00:01:49,399 --> 00:01:47,280

certain water or a drone theoretically

43

00:01:53,690 --> 00:01:49,409

could mm-hmm

44

00:01:55,060 --> 00:01:53,700

but normal jet propulsion aircraft could

45

00:02:00,590 --> 00:01:55,070

not travel that slowly

46

00:02:03,440 --> 00:02:00,600

that's my knowledge and it wasn't until

47

00:02:06,560 --> 00:02:03,450

flavor intercepts them that the that

48

00:02:11,449 --> 00:02:06,570

they first exhibited this ability to go

49

00:02:13,700 --> 00:02:11,459

at supersonic speeds yeah in in that

50

00:02:15,320 --> 00:02:13,710

moment it was on the 14th

51
00:02:17,330 --> 00:02:15,330
getting ready to we're getting ready to

52
00:02:19,970 --> 00:02:17,340
launch a big air defense exercise we

53
00:02:21,890 --> 00:02:19,980
call them a Texas in a cap Smith comes

54
00:02:24,200 --> 00:02:21,900
down to combat Information Center I call

55
00:02:26,810 --> 00:02:24,210
it CIC and I said hey sir you know we've

56
00:02:28,160 --> 00:02:26,820
been tracking these anomalous objects to

57
00:02:29,000 --> 00:02:28,170
no one in the strike group knows what

58
00:02:30,950 --> 00:02:29,010
the hell they are

59
00:02:32,330 --> 00:02:30,960
and we're getting ready to launch a

60
00:02:33,980 --> 00:02:32,340
bunch of aircraft not only off the

61
00:02:36,260 --> 00:02:33,990
Nimitz but off San Diego too

62
00:02:38,330 --> 00:02:36,270
we're gonna do this big Macher battle in

63
00:02:40,310 --> 00:02:38,340

the sky now these objects are in our

64

00:02:42,920 --> 00:02:40,320

airspace and I'm very concerned for

65

00:02:44,780 --> 00:02:42,930

safety of flight and I really recommend

66

00:02:45,980 --> 00:02:44,790

that we intercept one and see what see

67

00:02:48,140 --> 00:02:45,990

what it is see if it's something we need

68

00:02:50,030 --> 00:02:48,150

to be concerned about it's like you know

69

00:02:52,280 --> 00:02:50,040

what seriously if you're right pick one

70

00:02:55,250 --> 00:02:52,290

and go intercept it and command a favor

71

00:02:57,200 --> 00:02:55,260

just happened to be airborne and the e-2

72

00:03:00,020 --> 00:02:57,210

Hawkeye the big radar everywhere and

73

00:03:01,670 --> 00:03:00,030

radar system we have didn't have a very

74

00:03:04,100 --> 00:03:01,680

good a track on them so we took control

75

00:03:07,550 --> 00:03:04,110

we vectored flavor up that way it was a

76

00:03:08,930 --> 00:03:07,560

fast Eagle flight and he gets to that

77

00:03:11,300 --> 00:03:08,940

position and this guy we call it a

78

00:03:13,190 --> 00:03:11,310

merged plot is what a merge plot means

79

00:03:14,890 --> 00:03:13,200

is two objects in the same vertical

80

00:03:17,090 --> 00:03:14,900

piece of sky and if you look at on a

81

00:03:20,290 --> 00:03:17,100

two-dimensional display now it looks

82

00:03:22,610 --> 00:03:20,300

like one object they've merged together

83

00:03:23,600 --> 00:03:22,620

not necessarily at the same altitude it

84

00:03:25,760 --> 00:03:23,610

just means they're in the same vertical

85

00:03:27,470 --> 00:03:25,770

piece of sky he gets there we have the

86

00:03:29,990 --> 00:03:27,480

cop his comms and the overhead speaker

87

00:03:32,120 --> 00:03:30,000

I'm in CSC and he also news he starts

88

00:03:34,910 --> 00:03:32,130

yelling oh my god oh my god I'm engaged

89

00:03:36,230 --> 00:03:34,920

I'm engaged and I'm I look back in the

90

00:03:38,710 --> 00:03:36,240

scope and that object that he had

91

00:03:41,720 --> 00:03:38,720

intercepted dropped from 28,000 feet

92

00:03:44,900 --> 00:03:41,730

down to the surface of the ocean in less

93

00:03:46,640 --> 00:03:44,910

than a second yeah I heard you describe

94

00:03:50,230 --> 00:03:46,650

that before and it was interesting to

95

00:03:52,730 --> 00:03:50,240

hear what he means by engagements

96

00:03:56,330 --> 00:03:52,740

describe that again for me because I may

97

00:03:58,310 --> 00:03:56,340

have a I've never really liked that word

98

00:03:59,750 --> 00:03:58,320

very much because a lot of people that

99

00:04:01,580 --> 00:03:59,760

don't know think that we're shooting

100

00:04:04,610 --> 00:04:01,590

each other and it simply doesn't mean

101
00:04:06,740 --> 00:04:04,620
that it simply means that we're in a

102
00:04:09,020 --> 00:04:06,750
non-shooting dogfight essentially you're

103
00:04:11,030 --> 00:04:09,030
turning on me and I'm turning on you and

104
00:04:12,650 --> 00:04:11,040
so is that what flavour was talking

105
00:04:14,840 --> 00:04:12,660
about that that they were they were

106
00:04:17,060 --> 00:04:14,850
mirroring each other that's what he was

107
00:04:19,400 --> 00:04:17,070
talking about he he went chasing that he

108
00:04:21,470 --> 00:04:19,410
left his wingman up at altitude and

109
00:04:22,909 --> 00:04:21,480
commander flavor chases his object down

110
00:04:25,370 --> 00:04:22,919
to the water because he's really curious

111
00:04:27,470 --> 00:04:25,380
of what it is and this thing notices him

112
00:04:27,680 --> 00:04:27,480
it's aware of him it turns on him and

113
00:04:29,480 --> 00:04:27,690

you

114

00:04:32,090 --> 00:04:29,490

turning on it and it starts turning back

115

00:04:34,520 --> 00:04:32,100

on him and they actually for lack of a

116

00:04:36,950 --> 00:04:34,530

better way to say I guess they did a

117

00:04:38,480 --> 00:04:36,960

barrel roll around each other and next

118

00:04:42,530 --> 00:04:38,490

thing you know this excuse me this

119

00:04:44,360 --> 00:04:42,540

object goes from his position there to a

120

00:04:47,240 --> 00:04:44,370

point of about sixty miles away in a

121

00:04:48,920 --> 00:04:47,250

couple of seconds right that two point

122

00:04:51,230 --> 00:04:48,930

in the sky that's called a combat air

123

00:04:53,300 --> 00:04:51,240

patrol station which is really nothing

124

00:04:55,760 --> 00:04:53,310

more than just a notional point this guy

125

00:04:57,440 --> 00:04:55,770

that we populate and it's just a hangout

126

00:04:58,910 --> 00:04:57,450

spot for the air crews until they get a

127

00:05:00,830 --> 00:04:58,920

mission or a vector they just kind of

128

00:05:04,220 --> 00:05:00,840

turn lazy circles in the sky right there

129

00:05:05,810 --> 00:05:04,230

but we don't know and I don't know and I

130

00:05:09,020 --> 00:05:05,820

don't think anyone knows how this object

131

00:05:11,390 --> 00:05:09,030

knew where that point was and not in gym

132

00:05:13,430 --> 00:05:11,400

it not only in the latitude and

133

00:05:16,100 --> 00:05:13,440

longitude but actually at the right

134

00:05:17,990 --> 00:05:16,110

altitude as well when did you talk to

135

00:05:19,670 --> 00:05:18,000

stay there did you talk to Harvard

136

00:05:21,920 --> 00:05:19,680

Hubbard did you talk to him when he got

137

00:05:24,050 --> 00:05:21,930

back to the boat I guess he got back to

138

00:05:25,670 --> 00:05:24,060

the Nimitz yeah he went back to the

139

00:05:27,380 --> 00:05:25,680

Nimitz of course I was on the USS

140

00:05:29,680 --> 00:05:27,390

Princeton and I did talk to commander

141

00:05:31,550 --> 00:05:29,690

forever we had a kind of a

142

00:05:34,360 --> 00:05:31,560

lessons-learned meeting and when we got

143

00:05:36,890 --> 00:05:34,370

back to San Diego and I went up to and

144

00:05:39,380 --> 00:05:36,900

reminded of who I was and you know

145

00:05:41,270 --> 00:05:39,390

basically asked him what he saw so I did

146

00:05:44,690 --> 00:05:41,280

have a chance to speak with him a little

147

00:05:46,250 --> 00:05:44,700

bit but since that time since 2004 I

148

00:05:48,980 --> 00:05:46,260

haven't spoken a single word to

149

00:05:51,800 --> 00:05:48,990

commander favor and in that conversation

150

00:05:55,220 --> 00:05:51,810

did he describe to you what he saw yeah

151
00:05:57,250 --> 00:05:55,230
he was like if I could describe it it

152
00:06:00,730 --> 00:05:57,260
looked like about the same length of my

153
00:06:04,340 --> 00:06:00,740
f-18 Super Hornet which is about 47 feet

154
00:06:08,200 --> 00:06:04,350
it had no doors no windows no ailerons

155
00:06:11,030 --> 00:06:08,210
no obvious means of propulsion it was

156
00:06:13,730 --> 00:06:11,040
pure white and in fact it looked like a

157
00:06:16,850 --> 00:06:13,740
big giant to cat candy mint is what he

158
00:06:18,710 --> 00:06:16,860
told me sososo favor was perhaps the

159
00:06:21,650 --> 00:06:18,720
first to identify it as a tic-tac which

160
00:06:23,150 --> 00:06:21,660
we all now refer to it as I you know I

161
00:06:26,120 --> 00:06:23,160
long thought that but apparently uh

162
00:06:27,830 --> 00:06:26,130
another pilots but it actually shot the

163
00:06:29,840 --> 00:06:27,840

FLIR video the FLIR one video

164

00:06:31,640 --> 00:06:29,850

his name's Chad Underwood he I guess he

165

00:06:35,740 --> 00:06:31,650

gets credit for calling first calling it

166

00:06:40,340 --> 00:06:35,750

the tic-tac and how would you describe

167

00:06:41,570 --> 00:06:40,350

flavors mentality at that time when I

168

00:06:45,110 --> 00:06:41,580

saw him in person

169

00:06:47,390 --> 00:06:45,120

I think he was um I think we were all

170

00:06:49,580 --> 00:06:47,400

just incredulous we didn't know what the

171

00:06:52,760 --> 00:06:49,590

hell to think I had never seen anything

172

00:06:54,260 --> 00:06:52,770

like this I you know even when they were

173

00:06:55,969 --> 00:06:54,270

going high and slow and there had never

174

00:06:57,800 --> 00:06:55,979

seen anything like this and after his

175

00:06:59,390 --> 00:06:57,810

intercept that happened Jim I have to

176

00:07:01,600 --> 00:06:59,400

tell you the man I was pretty damn

177

00:07:04,550 --> 00:07:01,610

convinced we were looking at something

178

00:07:06,679 --> 00:07:04,560

definitely non-newtonian it wasn't

179

00:07:10,700 --> 00:07:06,689

obeying the laws of physics that I

180

00:07:13,659 --> 00:07:10,710

studied in high school in college it was

181

00:07:15,920 --> 00:07:13,669

I mean that thing didn't it it went from

182

00:07:17,899 --> 00:07:15,930

20,000 feet down to about 50 feet off

183

00:07:19,490 --> 00:07:17,909

the water and did not make a sonic boom

184

00:07:22,430 --> 00:07:19,500

and it did it and I found out the next

185

00:07:24,890 --> 00:07:22,440

day 0.78 seconds that should have made a

186

00:07:26,959 --> 00:07:24,900

land al very loud damn boom and it just

187

00:07:28,430 --> 00:07:26,969

didn't do that I knew I wouldn't have

188

00:07:30,950 --> 00:07:28,440

necessarily heard it on the ship that's

189

00:07:32,300 --> 00:07:30,960

you know 60 miles away or so that none

190

00:07:34,700 --> 00:07:32,310

of the air crews reported hearing a

191

00:07:36,230 --> 00:07:34,710

sonic boom either in their tongue no

192

00:07:38,149 --> 00:07:36,240

they were they were right there with it

193

00:07:40,459 --> 00:07:38,159

tell me more about this lessons learned

194

00:07:42,980 --> 00:07:40,469

meeting who was in this meeting and what

195

00:07:45,559 --> 00:07:42,990

else was time you know whatever every

196

00:07:50,209 --> 00:07:45,569

time we come home when we do a post

197

00:07:52,070 --> 00:07:50,219

exercise meeting we we like to just talk

198

00:07:53,480 --> 00:07:52,080

shop basically and write down things

199

00:07:55,129 --> 00:07:53,490

that we could do better next time and

200

00:07:56,839 --> 00:07:55,139

things that happen in other words this

201
00:07:59,510 --> 00:07:56,849
meeting that we had was not about the

202
00:08:01,309 --> 00:07:59,520
you 80s at all it was just it was a

203
00:08:05,450 --> 00:08:01,319
scheduled meeting that we would have had

204
00:08:06,709 --> 00:08:05,460
anyway so it's just a document less than

205
00:08:07,459 --> 00:08:06,719
Florence so next time I go train we can

206
00:08:10,339 --> 00:08:07,469
do a little bit better

207
00:08:11,240 --> 00:08:10,349
were the you ApS brought up in the

208
00:08:14,570 --> 00:08:11,250
meeting

209
00:08:16,490 --> 00:08:14,580
almost immediately yeah because it was

210
00:08:18,079 --> 00:08:16,500
you know I was the one doing the

211
00:08:21,409 --> 00:08:18,089
presentation and everyone was looking at

212
00:08:23,510 --> 00:08:21,419
me like senior chief I could just read

213
00:08:27,409 --> 00:08:23,520

their faces so I I had to broach the

214

00:08:29,209 --> 00:08:27,419

subject and what about did you get

215

00:08:32,899 --> 00:08:29,219

descriptions from the other pilots of

216

00:08:35,529 --> 00:08:32,909

what they saw the only the only pilot

217

00:08:38,750 --> 00:08:35,539

that represented in that medium was

218

00:08:41,300 --> 00:08:38,760

there was two of them there I believe

219

00:08:43,279 --> 00:08:41,310

commander flavor and uh one of his

220

00:08:44,960 --> 00:08:43,289

shipmates from the squadron and they

221

00:08:46,400 --> 00:08:44,970

were both talking about the same the

222

00:08:49,069 --> 00:08:46,410

same types of things that how those are

223

00:08:50,720 --> 00:08:49,079

it was so so you set them out there to

224

00:08:53,510 --> 00:08:50,730

inspect because they're about to do

225

00:08:55,430 --> 00:08:53,520

these exercises my question is did they

226

00:08:59,420 --> 00:08:55,440

end up doing the exercises

227

00:09:01,119 --> 00:08:59,430

no we we ended up actually canceling the

228

00:09:04,430 --> 00:09:01,129

exercise because these objects were

229

00:09:06,680 --> 00:09:04,440

Innerspace now and it were they were

230

00:09:09,829 --> 00:09:06,690

maneuvering behaving extremely bizarrely

231

00:09:11,509 --> 00:09:09,839

so we just didn't feel safe flying

232

00:09:12,559 --> 00:09:11,519

aircraft in the same piece of sky with

233

00:09:14,179 --> 00:09:12,569

them Wow

234

00:09:17,360 --> 00:09:14,189

so for how many days did they hold off

235

00:09:19,490 --> 00:09:17,370

on the exercises we never we never did

236

00:09:22,730 --> 00:09:19,500

do it and ultimately to the Nimitz

237

00:09:25,759 --> 00:09:22,740

deploy is that months later this was

238

00:09:28,850 --> 00:09:25,769

actually a part of our training was part

239

00:09:33,350 --> 00:09:28,860

of our training cycle and they and when

240

00:09:35,150 --> 00:09:33,360

the ship got back to San Diego in later

241

00:09:36,710 --> 00:09:35,160

that December when we fund went back to

242

00:09:39,230 --> 00:09:36,720

San Diego actually transferred from the

243

00:09:41,090 --> 00:09:39,240

ship so I didn't I didn't go on

244

00:09:42,379 --> 00:09:41,100

deployment with them but it was a

245

00:09:45,040 --> 00:09:42,389

several months later and they did go on

246

00:09:47,329 --> 00:09:45,050

deployment so that's that's pretty

247

00:09:51,170 --> 00:09:47,339

interesting though that the exercises

248

00:09:54,350 --> 00:09:51,180

were canceled so what season do you

249

00:09:56,150 --> 00:09:54,360

think that was my recommendation to the

250

00:09:59,210 --> 00:09:56,160

captain and the cab making a call and it

251

00:10:00,920 --> 00:09:59,220

was all based on safety of flight if I

252

00:10:02,629 --> 00:10:00,930

could if I could describe Navy training

253

00:10:05,929 --> 00:10:02,639

in a single word it would be safety

254

00:10:06,889 --> 00:10:05,939

mm-hmm but that's pretty significant

255

00:10:08,960 --> 00:10:06,899

right I mean these things don't get

256

00:10:13,129 --> 00:10:08,970

canceled very often I would imagine not

257

00:10:15,470 --> 00:10:13,139

very often oh so you heard him say oh my

258

00:10:21,400 --> 00:10:15,480

god oh my god I mean I'm engaged I'm

259

00:10:26,749 --> 00:10:25,220

it was pretty you know there are air air

260

00:10:30,590 --> 00:10:26,759

control communications are pretty

261

00:10:32,569 --> 00:10:30,600

structured well in fact we won't hardly

262

00:10:35,749 --> 00:10:32,579

say anything on the radio I mean until

263

00:10:37,490 --> 00:10:35,759

it's time to so the pilots you know they

264

00:10:39,139 --> 00:10:37,500

can they're trying to prosecute an air

265

00:10:41,749 --> 00:10:39,149

war so they don't want a guy chatting in

266

00:10:44,150 --> 00:10:41,759

their ear so it was pretty quiet on the

267

00:10:46,939 --> 00:10:44,160

radio actually so the fact that he said

268

00:10:48,559 --> 00:10:46,949

anything is significant is that fair to

269

00:10:50,960 --> 00:10:48,569

say it's unusual for them to be talking

270

00:10:52,850 --> 00:10:50,970

like that yeah and I was a I was

271

00:10:55,790 --> 00:10:52,860

actually in a position of air control

272

00:10:58,100 --> 00:10:55,800

supervisor so the actual air controller

273

00:11:00,110 --> 00:10:58,110

who has not come forward yet I'm not

274

00:11:01,519 --> 00:11:00,120

gonna throw him under the bus but I was

275

00:11:04,129 --> 00:11:01,529

standing right beside him with a long

276

00:11:06,829 --> 00:11:04,139

headset on with a long cord long corded

277

00:11:09,050 --> 00:11:06,839

headset and he was actually given what

278

00:11:10,940 --> 00:11:09,060

we call Berrien range altitude

279

00:11:15,350 --> 00:11:10,950

they're called brach calls and that was

280

00:11:18,560 --> 00:11:15,360

basically the only comms on and when

281

00:11:21,320 --> 00:11:18,570

there have been go ahead would there

282

00:11:24,890 --> 00:11:21,330

have been a recording of that absolutely

283

00:11:26,420 --> 00:11:24,900

in fact this is kind of where it gets

284

00:11:28,040 --> 00:11:26,430

the Czar because there's that some of my

285

00:11:30,890 --> 00:11:28,050

other shipmates that come out and said

286

00:11:33,740 --> 00:11:30,900

that people came on board our ships and

287

00:11:35,000 --> 00:11:33,750

took our data you know and I have to

288

00:11:37,700 --> 00:11:35,010

tell you Jim when this was all happening

289

00:11:40,550 --> 00:11:37,710

that was not my situational awareness at

290

00:11:41,060 --> 00:11:40,560

all I was not aware of that but I can

291

00:11:43,070 --> 00:11:41,070

help

292

00:11:44,120 --> 00:11:43,080

I can't corroborate it because the next

293

00:11:49,360 --> 00:11:44,130

morning I didn't know what the hell to

294

00:11:53,150 --> 00:11:49,370

do that captain had bizarrely shown a

295

00:11:53,750 --> 00:11:53,160

real strange in curiousness about this

296

00:11:55,850 --> 00:11:53,760

whole thing

297

00:11:57,230 --> 00:11:55,860

you know I wanted to write it after

298

00:11:58,370 --> 00:11:57,240

actually message because I'm the guy

299

00:11:59,840 --> 00:11:58,380

that writes most of those types of

300

00:12:02,030 --> 00:11:59,850

messages so I went up to combat and I

301
00:12:05,120 --> 00:12:02,040
was gonna pull up the voice recordings

302
00:12:06,410 --> 00:12:05,130
that it recorded the optical disk so

303
00:12:09,680 --> 00:12:06,420
that I would have something to make a

304
00:12:11,030 --> 00:12:09,690
message from and all the optic all the

305
00:12:14,270 --> 00:12:11,040
voice recorders were missing they were

306
00:12:16,010 --> 00:12:14,280
all gone yeah and the weird thing is the

307
00:12:17,420 --> 00:12:16,020
technicians standing there and I could

308
00:12:20,030 --> 00:12:17,430
tell by looking at it I could tell by

309
00:12:22,130 --> 00:12:20,040
looking at him that he had probably knew

310
00:12:23,420 --> 00:12:22,140
what happened to it but I also knew

311
00:12:26,180 --> 00:12:23,430
enough not to ask him because he

312
00:12:27,920 --> 00:12:26,190
couldn't tell me I could I could tell it

313
00:12:31,700 --> 00:12:27,930

was that but my experience cooperates

314

00:12:34,130 --> 00:12:31,710

was that for he's no it was actually his

315

00:12:35,420 --> 00:12:34,140

supervisor okay I'm not gonna mention

316

00:12:37,670 --> 00:12:35,430

the name because it hasn't come out

317

00:12:40,130 --> 00:12:37,680

publicly now you are mentioning the name

318

00:12:42,710 --> 00:12:40,140

Captain Smith tell me who Captain Smith

319

00:12:44,780 --> 00:12:42,720

is Captain Smith is the he was an air

320

00:12:46,250 --> 00:12:44,790

defense commander from the Nimitz trade

321

00:12:49,250 --> 00:12:46,260

group and he was the commanding officer

322

00:12:57,410 --> 00:12:49,260

of the USS Princeton what's his first

323

00:12:58,280 --> 00:12:57,420

name captain are you are you saying me

324

00:13:02,000 --> 00:12:58,290

because you're protecting his identity

325

00:13:03,290 --> 00:13:02,010

or yeah he hasn't really come out yet

326

00:13:05,330 --> 00:13:03,300

either but it's a it's a matter of

327

00:13:06,940 --> 00:13:05,340

public record who was a captain of this

328

00:13:09,290 --> 00:13:06,950

ship it's kind of hard for him to hide

329

00:13:10,160 --> 00:13:09,300

as far as I know he has never come out

330

00:13:12,110 --> 00:13:10,170

you know

331

00:13:15,500 --> 00:13:12,120

said a single word about this whole

332

00:13:19,160 --> 00:13:15,510

thing and you're saying that he showed a

333

00:13:22,579 --> 00:13:19,170

surprising lack of curiosity in what was

334

00:13:25,309 --> 00:13:22,589

encountered is that correct yes

335

00:13:28,429 --> 00:13:25,319

I have to say that's true yes and what's

336

00:13:31,939 --> 00:13:28,439

your theory on that I asked him

337

00:13:33,590 --> 00:13:31,949

point-blank I said hey sir uh no one has

338

00:13:35,989 --> 00:13:33,600

an idea of what these things could be

339

00:13:38,840 --> 00:13:35,999

what do you think and he looks at me

340

00:13:42,769 --> 00:13:38,850

quite seriously he says I I don't know

341

00:13:47,210 --> 00:13:42,779

maybe spontaneously forming ice from

342

00:13:49,429 --> 00:13:47,220

outer space is what he said joke yeah an

343

00:13:51,619 --> 00:13:49,439

axe and I actually laughed rightness

344

00:13:53,929 --> 00:13:51,629

like I was like oh [h__h] I just left it

345

00:13:56,239 --> 00:13:53,939

the captain did he let me get away with

346

00:13:57,679 --> 00:13:56,249

it I guess and I went about I went on

347

00:14:00,379 --> 00:13:57,689

about my way just kind of shaking my

348

00:14:02,480 --> 00:14:00,389

head I could this was not spontaneously

349

00:14:07,790 --> 00:14:02,490

forming ice let me tell you that and who

350

00:14:10,790 --> 00:14:07,800

did he report to can you hear me

351
00:14:13,340 --> 00:14:10,800
yeah audio problems because it's gonna

352
00:14:15,519 --> 00:14:13,350
drop it don't by accident I accidentally

353
00:14:19,970 --> 00:14:15,529
hit the mute button oh good okay okay

354
00:14:23,239 --> 00:14:19,980
who did Captain Smith report to the

355
00:14:25,819 --> 00:14:23,249
Admiral on that on the USS Nimitz who

356
00:14:28,299 --> 00:14:25,829
actually according to what commander

357
00:14:32,660 --> 00:14:28,309
flavor has have been saying all along

358
00:14:34,910 --> 00:14:32,670
also displayed an unusual in curiousness

359
00:14:35,689 --> 00:14:34,920
about this whole thing refused to do

360
00:14:39,410 --> 00:14:35,699
anything about it

361
00:14:42,290 --> 00:14:39,420
according to commander favor mm-hmm so

362
00:14:45,439 --> 00:14:42,300
do you have a belief as to why the

363
00:14:50,119 --> 00:14:45,449

Admiral and the captain were not more

364

00:14:51,769 --> 00:14:50,129

interested in in this you know Jim I

365

00:14:53,749 --> 00:14:51,779

thought so much about this question

366

00:14:57,170 --> 00:14:53,759

people ask me all the time hey Kevin

367

00:14:59,619 --> 00:14:57,180

what what were these things and to this

368

00:15:02,439 --> 00:14:59,629

moment I don't know you know I don't

369

00:15:07,970 --> 00:15:02,449

know and that's the God's honest truth

370

00:15:10,490 --> 00:15:07,980

my mind is open about it and because

371

00:15:12,590 --> 00:15:10,500

these things never once displayed any

372

00:15:15,079 --> 00:15:12,600

type of hostile are still at ease to us

373

00:15:18,319 --> 00:15:15,089

if I could describe their behavior Jim

374

00:15:20,090 --> 00:15:18,329

it was like um throwing a rock into a

375

00:15:23,299 --> 00:15:20,100

flock of birds on the ground and they

376

00:15:25,850 --> 00:15:23,309

scatter and then they rejoin as a group

377

00:15:28,150 --> 00:15:25,860

and they go on about their merry way

378

00:15:31,189 --> 00:15:28,160

that's exactly how these things behaved

379

00:15:33,710 --> 00:15:31,199

they just wanted to go from point A to

380

00:15:36,050 --> 00:15:33,720

point B and for us to leave him the hell

381

00:15:43,010 --> 00:15:39,410

had you ever encountered you ApS of any

382

00:15:48,790 --> 00:15:43,020

type before never and and what about

383

00:15:51,170 --> 00:15:48,800

since never so I think it's interesting

384

00:15:53,270 --> 00:15:51,180

very interesting obviously as we try to

385

00:15:55,190 --> 00:15:53,280

figure out what this is the fact that

386

00:15:57,440 --> 00:15:55,200

the Admiral and the captain were not

387

00:15:59,420 --> 00:15:57,450

more curious about it because it for me

388

00:16:02,270 --> 00:15:59,430

that tennis appointment in the direction

389

00:16:04,940 --> 00:16:02,280

of this possibly being us technology

390

00:16:07,130 --> 00:16:04,950

that they were in the know on that

391

00:16:09,470 --> 00:16:07,140

others were not so only at a certain

392

00:16:13,070 --> 00:16:09,480

level were they informed as to what this

393

00:16:15,710 --> 00:16:13,080

is it certainly points that way doesn't

394

00:16:17,060 --> 00:16:15,720

it and I can't deny that the the logic

395

00:16:18,830 --> 00:16:17,070

of that at all

396

00:16:22,880 --> 00:16:18,840

and I have to tell you in if that

397

00:16:24,320 --> 00:16:22,890

becomes the case I'm gonna be kind of

398

00:16:26,510 --> 00:16:24,330

upset about it I mean I might I don't

399

00:16:28,370 --> 00:16:26,520

have any intention to make it a big

400

00:16:30,320 --> 00:16:28,380

stink about it but is this who it really

401
00:16:32,150 --> 00:16:30,330
bugged me because earlier when I

402
00:16:35,030 --> 00:16:32,160
described our training who described a

403
00:16:37,130 --> 00:16:35,040
single word of safety and I designed

404
00:16:39,110 --> 00:16:37,140
exercises for a living this is what I

405
00:16:41,450 --> 00:16:39,120
did for a living right if our son

406
00:16:43,580 --> 00:16:41,460
another entity another part of

407
00:16:45,410 --> 00:16:43,590
government that come come onto my

408
00:16:47,630 --> 00:16:45,420
exercise and layer another test or

409
00:16:50,050 --> 00:16:47,640
exercise on top of it that's potentially

410
00:16:52,400 --> 00:16:50,060
dangerous and I don't know about it

411
00:16:55,970 --> 00:16:52,410
that's not a good thing in fact it's

412
00:16:57,320 --> 00:16:55,980
probably even illegal well if the

413
00:16:59,330 --> 00:16:57,330

Admiral was in on it

414

00:17:00,970 --> 00:16:59,340

and the captain was in on it then that

415

00:17:05,000 --> 00:17:00,980

would be a level of knowledge at least

416

00:17:06,650 --> 00:17:05,010

you know in according to the Air Force

417

00:17:08,330 --> 00:17:06,660

intelligence specialists who came on our

418

00:17:09,830 --> 00:17:08,340

show miked herb or he said it was the it

419

00:17:13,370 --> 00:17:09,840

was actually the air force that was

420

00:17:18,560 --> 00:17:13,380

testing the technology I can't I can't

421

00:17:22,880 --> 00:17:18,570

argue with your logic on this at all it

422

00:17:27,920 --> 00:17:22,890

would obviously be incredible new US

423

00:17:31,460 --> 00:17:27,930

technology yeah you know where the hell

424

00:17:33,020 --> 00:17:31,470

is it I mean that could solve a lot of

425

00:17:34,490 --> 00:17:33,030

problems couldn't it if we had this step

426

00:17:36,890 --> 00:17:34,500

I mean it could create a lot of problems

427

00:17:38,680 --> 00:17:36,900

don't get me wrong I mean that type of

428

00:17:41,120 --> 00:17:38,690

thing getting into the wrong hands it's

429

00:17:46,520 --> 00:17:41,130

pretty disconcerting to a guy like me

430

00:17:48,080 --> 00:17:46,530

but on the other hand think just the

431

00:17:49,580 --> 00:17:48,090

environmental the environment alone who

432

00:17:51,769 --> 00:17:49,590

can benefit from something like this

433

00:17:53,690 --> 00:17:51,779

we're not burning fossil fuels anymore

434

00:17:56,120 --> 00:17:53,700

have you seen though like some those

435

00:17:58,390 --> 00:17:56,130

Navy patents that were issued in the

436

00:18:02,090 --> 00:17:58,400

last couple of years that I have seen

437

00:18:04,039 --> 00:18:02,100

I've seen them online but there's a lot

438

00:18:06,950 --> 00:18:04,049

of physicists out there kind of poopoo

439

00:18:08,720 --> 00:18:06,960

in the drains saying they're bogus that

440

00:18:13,070 --> 00:18:08,730

wouldn't work I mean there's people on

441

00:18:15,799 --> 00:18:13,080

both sides of the fence on that yeah

442

00:18:19,010 --> 00:18:15,809

well it seems bizarre that the Navy

443

00:18:21,620 --> 00:18:19,020

would have these patents be public if we

444

00:18:22,730 --> 00:18:21,630

really had this type of technology so it

445

00:18:25,310 --> 00:18:22,740

appears that it could be some type of

446

00:18:28,159 --> 00:18:25,320

disinformation campaign but it's

447

00:18:30,680 --> 00:18:28,169

certainly I'm no scientist but when I

448

00:18:33,289 --> 00:18:30,690

read it it kind of makes sense and

449

00:18:37,399 --> 00:18:33,299

there's a long history of research on

450

00:18:38,840 --> 00:18:37,409

anti-gravity technology so in

451
00:18:41,299 --> 00:18:38,850
considering the amount of money we spend

452
00:18:43,100 --> 00:18:41,309
on black projects every year you know

453
00:18:46,909 --> 00:18:43,110
I've heard numbers like over 30 billion

454
00:18:50,600 --> 00:18:46,919
dollars every year for decades Wow it's

455
00:18:54,889 --> 00:18:50,610
got it's got a result in something yeah

456
00:18:57,590 --> 00:18:54,899
we hope so that's a lot of money so what

457
00:18:59,450 --> 00:18:57,600
so what about testing you know for

458
00:19:01,570 --> 00:18:59,460
instance testing your radar system is

459
00:19:07,909 --> 00:19:01,580
that something that the military does

460
00:19:09,049 --> 00:19:07,919
yeah and another theory that I private

461
00:19:11,450 --> 00:19:09,059
theory and I'm gonna speculate here a

462
00:19:13,700 --> 00:19:11,460
little bit you know I only had a secret

463
00:19:16,310 --> 00:19:13,710

clearance and there's lots of security

464

00:19:18,769 --> 00:19:16,320

clearances above what I had and

465

00:19:20,510 --> 00:19:18,779

apparently before the person had gotten

466

00:19:22,549 --> 00:19:20,520

underway for that training exercise we

467

00:19:25,850 --> 00:19:22,559

had received a major technology upgrade

468

00:19:27,710 --> 00:19:25,860

that I didn't know anything about and I

469

00:19:30,230 --> 00:19:27,720

think it's entirely possible that that

470

00:19:33,320 --> 00:19:30,240

technology upgrade suddenly allowed us

471

00:19:34,490 --> 00:19:33,330

to see these things in the sky I just

472

00:19:38,779 --> 00:19:34,500

think that's a possibility

473

00:19:40,399 --> 00:19:38,789

and it for me at least it goes it kind

474

00:19:43,220 --> 00:19:40,409

of points in the direction of why since

475

00:19:45,320 --> 00:19:43,230

2004 a lot of other ships have been

476
00:19:49,580 --> 00:19:45,330
seeing them too because now everyone has

477
00:19:51,529 --> 00:19:49,590
the technology that we had right but I'm

478
00:19:53,029 --> 00:19:51,539
speculating well um

479
00:19:55,570 --> 00:19:53,039
were you the first ship to get that as

480
00:19:57,889 --> 00:19:55,580
far as you know as far as I know yes and

481
00:20:00,680 --> 00:19:57,899
do you understand exactly what the

482
00:20:02,750 --> 00:20:00,690
upgrade and technology was I don't know

483
00:20:03,379 --> 00:20:02,760
but still classified at top-secret

484
00:20:05,450 --> 00:20:03,389
levels

485
00:20:06,889 --> 00:20:05,460
upgraded our ability to detect and track

486
00:20:10,100 --> 00:20:06,899
on the spy radar

487
00:20:11,239 --> 00:20:10,110
other than that I don't haven't even

488
00:20:14,060 --> 00:20:11,249

inquired about it because I knew I

489

00:20:15,710 --> 00:20:14,070

probably wouldn't get an answer what do

490

00:20:18,799 --> 00:20:15,720

you know about the use of phased array

491

00:20:20,710 --> 00:20:18,809

radar these days I believe it was turbot

492

00:20:25,190 --> 00:20:20,720

was telling us too that it's becoming

493

00:20:27,979 --> 00:20:25,200

more commonplace for it to be used in

494

00:20:31,159 --> 00:20:27,989

say even non-military circumstances or

495

00:20:33,350 --> 00:20:31,169

are you normally Asian yeah normal radar

496

00:20:35,749 --> 00:20:33,360

some the typical traditional radar would

497

00:20:38,690 --> 00:20:35,759

rotate that's why you get the bullets in

498

00:20:40,729 --> 00:20:38,700

the sweep of go around and rotate phase

499

00:20:41,509 --> 00:20:40,739

arrays looking in all directions all the

500

00:20:44,720 --> 00:20:41,519

time all at once

501
00:20:46,460 --> 00:20:44,730
and despite the spy-1 radar is actually

502
00:20:48,710 --> 00:20:46,470
a phased array radar system but you're

503
00:20:51,049 --> 00:20:48,720
absolutely right now the radar

504
00:20:53,869 --> 00:20:51,059
technology is probably in every military

505
00:20:56,330 --> 00:20:53,879
in the world by now at United some level

506
00:21:01,879 --> 00:20:56,340
and what about even for use and sayd

507
00:21:04,580 --> 00:21:01,889
commercial aircraft travel I don't know

508
00:21:06,950 --> 00:21:04,590
if it's being used there yet or not to

509
00:21:08,629 --> 00:21:06,960
be honest with you but the more this has

510
00:21:13,070 --> 00:21:08,639
put in place the more these things could

511
00:21:16,789 --> 00:21:13,080
be discovered theoretically absolutely

512
00:21:24,649 --> 00:21:16,799
but why wouldn't normally Adar pick them

513
00:21:27,259 --> 00:21:24,659

up it kind of goes back to the question

514

00:21:30,229 --> 00:21:27,269

of what the hell they were I mean these

515

00:21:32,029 --> 00:21:30,239

things um I hesitate to say it but these

516

00:21:32,869 --> 00:21:32,039

things actually seemed like they were

517

00:21:34,460 --> 00:21:32,879

alive

518

00:21:36,070 --> 00:21:34,470

the way they behaved they were

519

00:21:40,070 --> 00:21:36,080

definitely conscious and they were smart

520

00:21:41,479 --> 00:21:40,080

mm-hmm so you know believe me no I'm not

521

00:21:43,220 --> 00:21:41,489

trying to say that these were a living

522

00:21:45,049 --> 00:21:43,230

creatures at all I'm just trying to

523

00:21:46,869 --> 00:21:45,059

describe the way that they behaved they

524

00:21:53,749 --> 00:21:46,879

definitely behaved like a flock of birds

525

00:21:55,519 --> 00:21:53,759

and the question of what types of radars

526
00:21:56,330 --> 00:21:55,529
could track them really kind of depends

527
00:21:58,639 --> 00:21:56,340
on what the hell they are

528
00:22:02,029 --> 00:21:58,649
or did they made out of how did they

529
00:22:05,200 --> 00:22:02,039
operate but certainly in all your years

530
00:22:08,720 --> 00:22:05,210
of the military you never heard of any

531
00:22:11,989 --> 00:22:08,730
technology remotely similar to this that

532
00:22:16,300 --> 00:22:11,999
the US military had other than the spy-1

533
00:22:18,220 --> 00:22:16,310
radar no but as far as anything

534
00:22:21,640 --> 00:22:18,230
similar to these tic tacs or anything of

535
00:22:24,450 --> 00:22:21,650
regarding oh you know you ip's yeah you

536
00:22:26,890 --> 00:22:24,460
a piece no I mean I've been I'm a

537
00:22:28,570 --> 00:22:26,900
longtime listener to coast to coast am

538
00:22:32,590 --> 00:22:28,580

I've always had our mature interest in

539

00:22:36,610 --> 00:22:32,600

this subject much like a lot of people

540

00:22:41,910 --> 00:22:36,620

most likely but in other words we never

541

00:22:44,740 --> 00:22:41,920

are training never once ever involved

542

00:22:48,640 --> 00:22:44,750

the idea or the planning to be working

543

00:22:49,780 --> 00:22:48,650

around UFOs for example and that's one

544

00:22:52,510 --> 00:22:49,790

of the things that concerned me here

545

00:22:55,720 --> 00:22:52,520

because what if what happened off the

546

00:22:59,380 --> 00:22:55,730

coast of San Diego in 2004 happen now

547

00:23:03,100 --> 00:22:59,390

today and the strike group happened to

548

00:23:04,800 --> 00:23:03,110

be off of in a volatile situation let's

549

00:23:06,640 --> 00:23:04,810

pick your country right and there's

550

00:23:09,130 --> 00:23:06,650

hostilities are right on the verge

551
00:23:10,750 --> 00:23:09,140
breaking out and all sudden when the UAP

552
00:23:14,290 --> 00:23:10,760
objects comes out one of our aircraft

553
00:23:17,320 --> 00:23:14,300
and and she gets afraid and she shoots a

554
00:23:20,500 --> 00:23:17,330
Sidewinder missile which is a there's no

555
00:23:22,780 --> 00:23:20,510
radar support it's infrared only and the

556
00:23:24,400 --> 00:23:22,790
UA P goes to UFO whatever you want to

557
00:23:25,930 --> 00:23:24,410
call it goes or tchen back up in the

558
00:23:27,450 --> 00:23:25,940
outer space and all sudden as missiles

559
00:23:30,820 --> 00:23:27,460
now looking for a new target

560
00:23:32,350 --> 00:23:30,830
yeah it just acquired a commercial

561
00:23:35,320 --> 00:23:32,360
airliner and shoots another one of those

562
00:23:38,500 --> 00:23:35,330
down I'm telling my brother I could

563
00:23:41,470 --> 00:23:38,510

start a war that's my concern about them

564

00:23:43,090 --> 00:23:41,480

but we we do need to start training to

565

00:23:45,790 --> 00:23:43,100

the reality that we have things in our

566

00:23:47,860 --> 00:23:45,800

skies that we don't know what it is and

567

00:23:50,310 --> 00:23:47,870

if that's being done I'm very happy with

568

00:23:52,750 --> 00:23:50,320

my Navy right now I have to tell you

569

00:23:55,150 --> 00:23:52,760

have you communicated with any of the

570

00:23:58,090 --> 00:23:55,160

guys from the Roosevelt that had their

571

00:24:00,340 --> 00:23:58,100

encounters on the East Coast where we're

572

00:24:03,640 --> 00:24:00,350

trying to make those connections now in

573

00:24:05,740 --> 00:24:03,650

fact but no I have it so let's talk

574

00:24:08,230 --> 00:24:05,750

about the this possibility that it could

575

00:24:12,100 --> 00:24:08,240

be some type of phantom technology to

576

00:24:13,750 --> 00:24:12,110

dupe a radar system there was a big

577

00:24:15,880 --> 00:24:13,760

article on the drive if you saw this

578

00:24:19,450 --> 00:24:15,890

about this Nemesis project are you

579

00:24:21,550 --> 00:24:19,460

familiar with that when did that article

580

00:24:24,250 --> 00:24:21,560

come out with only only a couple months

581

00:24:26,020 --> 00:24:24,260

ago I don't know if I've seen that one

582

00:24:27,520 --> 00:24:26,030

yet I'm gonna go back and see if I can

583

00:24:30,450 --> 00:24:27,530

find her cuz that name does it that name

584

00:24:36,039 --> 00:24:34,419

so I'll read you a short blurb from it

585

00:24:37,750 --> 00:24:36,049

the Navy has been developing and

586

00:24:40,470 --> 00:24:37,760

integrating multiple types of unmanned

587

00:24:43,049 --> 00:24:40,480

vehicles shipboard and submarine systems

588

00:24:46,509 --> 00:24:43,059

countermeasures in electronic warfare

589

00:24:49,000 --> 00:24:46,519

payloads and communication technologies

590

00:24:53,279 --> 00:24:49,010

to give it the ability to project what

591

00:24:58,149 --> 00:24:53,289

is in essence phantom fleets of aircraft

592

00:25:02,639 --> 00:24:58,159

ships and submarines that definitely

593

00:25:07,870 --> 00:25:02,649

describes what we saw I have to tell you

594

00:25:09,700 --> 00:25:07,880

the only the only art part of that

595

00:25:11,889 --> 00:25:09,710

theory that maybe I might have an issue

596

00:25:13,690 --> 00:25:11,899

with is the fact that several air crews

597

00:25:17,799 --> 00:25:13,700

actually saw these objects with their

598

00:25:19,180 --> 00:25:17,809

own eyeballs so I'm not sure how you

599

00:25:21,220 --> 00:25:19,190

would do that part I'm not sure how you

600

00:25:23,289 --> 00:25:21,230

trick the human eyeball like I can

601
00:25:24,909 --> 00:25:23,299
understand he sees them the systems and

602
00:25:27,549 --> 00:25:24,919
the radar and stuff in fact when this

603
00:25:29,139 --> 00:25:27,559
all happened we were concerned that we

604
00:25:31,930 --> 00:25:29,149
actually had something like that going

605
00:25:34,210 --> 00:25:31,940
on and there was a some system

606
00:25:35,590 --> 00:25:34,220
malfunction so the the technicians on

607
00:25:37,779 --> 00:25:35,600
board the person we brought down all of

608
00:25:39,460 --> 00:25:37,789
our computers brought down the radar ran

609
00:25:41,799 --> 00:25:39,470
a bunch of Diagnostics tests and brought

610
00:25:44,230 --> 00:25:41,809
everything back up and when it was all

611
00:25:47,470 --> 00:25:44,240
done these objects were even uh came in

612
00:25:50,769 --> 00:25:47,480
even stronger than they were before were

613
00:25:54,070 --> 00:25:50,779

you aware that apparently everybody on

614

00:25:57,009 --> 00:25:54,080

board the Hawkeye saw it with their own

615

00:26:01,389 --> 00:25:57,019

eyes when it happened I wasn't that I am

616

00:26:03,759 --> 00:26:01,399

now today for this firm yeah some other

617

00:26:06,129 --> 00:26:03,769

people that have come out recently so I

618

00:26:09,820 --> 00:26:06,139

guess it flew right it flew right past

619

00:26:12,100 --> 00:26:09,830

their airframe correct so would that put

620

00:26:13,720 --> 00:26:12,110

it at approximately 11 the people who

621

00:26:16,990 --> 00:26:13,730

saw it with their own eyes if you've got

622

00:26:19,990 --> 00:26:17,000

the three fighter jets and the fight

623

00:26:20,409 --> 00:26:20,000

people on the Hawkeye what's the

624

00:26:22,269 --> 00:26:20,419

question

625

00:26:24,700 --> 00:26:22,279

put it with as far as how many people

626
00:26:25,509 --> 00:26:24,710
have actually claimed to it yes now with

627
00:26:27,730 --> 00:26:25,519
their own eyes

628
00:26:33,000 --> 00:26:27,740
that's probably a good count who's

629
00:26:34,930 --> 00:26:33,010
righted right in that neighborhood and I

630
00:26:36,519 --> 00:26:34,940
think that you said in the prior

631
00:26:41,740 --> 00:26:36,529
interview that you believe that other

632
00:26:43,869 --> 00:26:41,750
f-18s encountered them also after the

633
00:26:45,159 --> 00:26:43,879
erosion yeah cuz commander

634
00:26:46,839 --> 00:26:45,169
favorite lawn she was up doing his

635
00:26:48,639 --> 00:26:46,849
functional check flight to make sure his

636
00:26:50,529 --> 00:26:48,649
aircraft was working properly and behind

637
00:26:52,839 --> 00:26:50,539
him a bunch of other aircraft launched

638
00:26:54,669 --> 00:26:52,849

and there was that there was one point

639

00:26:56,759 --> 00:26:54,679

in time when there were several

640

00:26:59,739 --> 00:26:56,769

intercepts going on to these objects and

641

00:27:03,699 --> 00:26:59,749

at one point Jim it was actually seem to

642

00:27:05,319 --> 00:27:03,709

me as like a reign in UFOs there as soon

643

00:27:07,869 --> 00:27:05,329

as the air crews got close to it they

644

00:27:09,369 --> 00:27:07,879

would fall out from 28,000 feet go down

645

00:27:10,629 --> 00:27:09,379

to the surface of the water and when the

646

00:27:13,869 --> 00:27:10,639

air crew left they would go straight

647

00:27:15,759 --> 00:27:13,879

back up to 20,000 feet rejoining a loose

648

00:27:17,559 --> 00:27:15,769

formation and they kept track himself

649

00:27:19,689 --> 00:27:17,569

that 100 knots as if nothing fun had

650

00:27:22,919 --> 00:27:19,699

just happened but it didn't seem to me

651

00:27:25,930 --> 00:27:22,929

that flavor or any of the other pilots

652

00:27:29,859 --> 00:27:25,940

described observing more than one at a

653

00:27:30,549 --> 00:27:29,869

time yeah because when we when we vector

654

00:27:35,169 --> 00:27:30,559

them

655

00:27:37,930 --> 00:27:35,179

it's just possible they they didn't see

656

00:27:39,849 --> 00:27:37,940

the other ones mm-hm and what do you

657

00:27:41,709 --> 00:27:39,859

make of the whole thing of of what what

658

00:27:44,649 --> 00:27:41,719

flavor saw as far as the disturbance in

659

00:27:49,959 --> 00:27:44,659

the water that is that's fascinating to

660

00:27:51,879 --> 00:27:49,969

me whatever this object was it it seemed

661

00:27:53,949 --> 00:27:51,889

to according to framers testimony and I

662

00:27:57,579 --> 00:27:53,959

believe him one of the best damn Navy

663

00:27:58,989 --> 00:27:57,589

pilots ever produced by the Navy this

664

00:28:02,589 --> 00:27:58,999

object seemed to be interested in

665

00:28:04,119 --> 00:28:02,599

something something making a froth in

666

00:28:05,589 --> 00:28:04,129

the water or reverse of ice so maybe

667

00:28:08,680 --> 00:28:05,599

that frothy thing the water was

668

00:28:09,549 --> 00:28:08,690

interested in the in the UAP in other

669

00:28:12,099 --> 00:28:09,559

words it could have been something

670

00:28:13,869 --> 00:28:12,109

simple like marine life of some kind and

671

00:28:16,089 --> 00:28:13,879

hell it was just as interested in the

672

00:28:18,609 --> 00:28:16,099

you AP as we were because they saw it

673

00:28:20,469 --> 00:28:18,619

yeah I mean they do have the beneficiary

674

00:28:23,049 --> 00:28:20,479

or something we do have the report that

675

00:28:25,719 --> 00:28:23,059

the submarine that was in the area did

676

00:28:26,639 --> 00:28:25,729

not detect anything correct that's my

677

00:28:31,899 --> 00:28:26,649

understanding as well

678

00:28:34,089 --> 00:28:31,909

no detections were made so let's talk

679

00:28:38,919 --> 00:28:34,099

about a little bit about your time since

680

00:28:42,849 --> 00:28:38,929

then and what you're up to now and if we

681

00:28:44,529 --> 00:28:42,859

mentioned underwater life I know you've

682

00:28:47,289 --> 00:28:44,539

got a project now and in reading about

683

00:28:49,180 --> 00:28:47,299

it you're referring to whales and so

684

00:28:51,219 --> 00:28:49,190

forth so tell us tell us what you're up

685

00:28:53,919 --> 00:28:51,229

to now I can kind of provide some

686

00:28:56,649 --> 00:28:53,929

context to that whole thing when I

687

00:28:57,760 --> 00:28:56,659

transferred off the person and early

688

00:29:00,820 --> 00:28:57,770

late 2004

689

00:29:02,950 --> 00:29:00,830

2005 I went to my final duty station I

690

00:29:06,400 --> 00:29:02,960

was planning on retiring and that my new

691

00:29:08,560 --> 00:29:06,410

dating station a commander Naval Air you

692

00:29:11,950 --> 00:29:08,570

know the the air boss for the for the

693

00:29:15,040 --> 00:29:11,960

Navy I was on his staff and I tried to I

694

00:29:17,050 --> 00:29:15,050

tried to tell people about it and people

695

00:29:18,760 --> 00:29:17,060

either a didn't believe me or B they

696

00:29:21,580 --> 00:29:18,770

weren't curious about it and it really

697

00:29:22,960 --> 00:29:21,590

it really concerned me so I didn't know

698

00:29:24,670 --> 00:29:22,970

what the hell to do so I retired from

699

00:29:26,670 --> 00:29:24,680

the Navy and my concerns actually

700

00:29:28,810 --> 00:29:26,680

started to manifest into nightmares

701

00:29:30,280 --> 00:29:28,820

because it really really bugged me I

702

00:29:32,380 --> 00:29:30,290

didn't know what to do Jim so I what I

703

00:29:34,660 --> 00:29:32,390

decided to finally do I was gonna try to

704

00:29:37,780 --> 00:29:34,670

do some positive with it so I sat down

705

00:29:39,520 --> 00:29:37,790

and I wrote a short story based on the

706

00:29:43,030 --> 00:29:39,530

tick-tack encounters and I call it the

707

00:29:44,830 --> 00:29:43,040

seer is totally fictional and I did that

708

00:29:46,930 --> 00:29:44,840

on purpose to protect people still in

709

00:29:48,670 --> 00:29:46,940

uniform and everything and I wrote a

710

00:29:50,200 --> 00:29:48,680

couple of other short stories and I put

711

00:29:52,540 --> 00:29:50,210

them all into a book and I published it

712

00:29:58,180 --> 00:29:52,550

in the Library of Congress and what year

713

00:30:02,200 --> 00:29:58,190

was that that was early 2009 so so uh

714

00:30:04,150 --> 00:30:02,210

for about four years afterwards but but

715

00:30:08,980 --> 00:30:04,160

this wood was weighing on you during

716

00:30:11,080 --> 00:30:08,990

this entire period yeah is it fair to

717

00:30:14,400 --> 00:30:11,090

say that that sorry is it fair to say

718

00:30:16,440 --> 00:30:14,410

that during that period in your mind

719

00:30:20,620 --> 00:30:16,450

these things were probably

720

00:30:23,020 --> 00:30:20,630

extraterrestrial I like to use I like to

721

00:30:25,900 --> 00:30:23,030

say they were non-newtonian because I

722

00:30:28,450 --> 00:30:25,910

think that's close through that what I

723

00:30:32,590 --> 00:30:28,460

can honestly state because in other

724

00:30:33,610 --> 00:30:32,600

words it's possible it's both its

725

00:30:35,290 --> 00:30:33,620

non-newtonian but it's not

726

00:30:38,590 --> 00:30:35,300

extraterrestrial maybe it's something

727

00:30:40,180 --> 00:30:38,600

quite terrestrial we just don't know in

728

00:30:43,060 --> 00:30:40,190

other words it doesn't necessarily have

729

00:30:44,620 --> 00:30:43,070

to be aliens quote-unquote yeah but are

730

00:30:46,300 --> 00:30:44,630

you to be having I guess my question is

731

00:30:50,950 --> 00:30:46,310

for you to be having nightmares about it

732

00:30:53,290 --> 00:30:50,960

etcetera describe the nightmares and why

733

00:30:55,300 --> 00:30:53,300

you think you are having these I started

734

00:30:57,250 --> 00:30:55,310

having out of the blue as eschatological

735

00:30:59,980 --> 00:30:57,260

type dreams like end of the world type

736

00:31:04,270 --> 00:30:59,990

disaster dreams comets impacting the

737

00:31:07,840 --> 00:31:04,280

ocean humongous tsunamis forest fires

738

00:31:11,110 --> 00:31:07,850

earthquakes just all kinds of crazy

739

00:31:11,740 --> 00:31:11,120

stuff and you know when you have

740

00:31:12,760 --> 00:31:11,750

nightmares we

741

00:31:14,470 --> 00:31:12,770

have nightmares the nightmares

742

00:31:17,650 --> 00:31:14,480

themselves didn't bug me but remember

743

00:31:19,840 --> 00:31:17,660

him in the daytime later did because it

744

00:31:22,240 --> 00:31:19,850

would just bring back the whole thing

745

00:31:26,320 --> 00:31:22,250

and it would kind of cause like a

746

00:31:29,080 --> 00:31:26,330

flashback effect and do you think that

747

00:31:31,750 --> 00:31:29,090

that could be because deep down you did

748

00:31:33,370 --> 00:31:31,760

believe it was extraterrestrial I think

749

00:31:34,900 --> 00:31:33,380

that's I think you hit the nail on the

750

00:31:36,840 --> 00:31:34,910

head for me personally but this is my

751

00:31:40,570 --> 00:31:36,850

personal feeling I have no evidence

752

00:31:46,090 --> 00:31:40,580

right and support that other than any

753

00:31:48,640 --> 00:31:46,100

more than what you might and since then

754

00:31:52,450 --> 00:31:48,650

have you done a lot more of your own

755

00:31:56,110 --> 00:31:52,460

digging and research etc on you a piece

756

00:31:58,060 --> 00:31:56,120

yeah I'd kind of moved on in life I need

757

00:32:00,880 --> 00:31:58,070

up coming back to my hometown in cave

758

00:32:03,490 --> 00:32:00,890

junction Oregon and ended up buying a

759

00:32:05,140 --> 00:32:03,500

small farm and I started volunteering

760

00:32:06,670 --> 00:32:05,150

down at the local golf course cuz I

761

00:32:07,990 --> 00:32:06,680

heard it was happy was struggling it was

762

00:32:11,020 --> 00:32:08,000

getting ready to foreclose and I was

763

00:32:13,810 --> 00:32:11,030

like no not on my watch I got time i'ma

764

00:32:15,490 --> 00:32:13,820

go down there and volunteer so that's

765

00:32:18,370 --> 00:32:15,500

what I was doing I had just reopened the

766

00:32:20,830 --> 00:32:18,380

kitchen and about two years ago now this

767

00:32:22,090 --> 00:32:20,840

the for some reason normal we're

768

00:32:24,400 --> 00:32:22,100

watching golf at the golf course

769

00:32:26,200 --> 00:32:24,410

CNN happened to be on and also her

770

00:32:29,110 --> 00:32:26,210

Scamander favor talk about the Tic Tac

771

00:32:31,180 --> 00:32:29,120

encounter and I was so damn shocked Jim

772

00:32:32,620 --> 00:32:31,190

I dropped the plate of flute food on the

773

00:32:35,260 --> 00:32:32,630

ground and immediately went home and got

774

00:32:37,480 --> 00:32:35,270

on the internet and I got a gentleman

775

00:32:40,000 --> 00:32:37,490

from the scientific coalition of us

776

00:32:41,620 --> 00:32:40,010

follow his name's Robert Powell I don't

777

00:32:43,780 --> 00:32:41,630

know how he had done it so quickly but

778

00:32:46,900 --> 00:32:43,790

he actually had a youtube video up on it

779

00:32:48,760 --> 00:32:46,910

from the CNN story and I got on the chat

780

00:32:50,680 --> 00:32:48,770

box and I said hey you need to contact

781

00:32:53,290 --> 00:32:50,690

me because I'm the guy that found him

782

00:32:55,090 --> 00:32:53,300

and I'm the one son of mine radar and

783

00:32:58,090 --> 00:32:55,100

here's my stuff contact me and he did

784

00:32:59,590 --> 00:32:58,100

right away one thing led to another and

785

00:33:01,690 --> 00:32:59,600

I ended up getting pulled into a

786

00:33:04,090 --> 00:33:01,700

Facebook group and now a lot of those

787

00:33:06,040 --> 00:33:04,100

members on our Facebook group we've the

788

00:33:07,840 --> 00:33:06,050

results of it what's happening now is we

789

00:33:12,580 --> 00:33:07,850

actually formed a nonprofit organization

790

00:33:14,020 --> 00:33:12,590

called UAP expeditions and we've got

791

00:33:16,210 --> 00:33:14,030

some pretty that could read through the

792

00:33:18,340 --> 00:33:16,220

list here we've got a pretty top-notch

793

00:33:21,610 --> 00:33:18,350

crew of scientists that have all

794

00:33:23,440 --> 00:33:21,620

volunteered we're gonna we're gonna

795

00:33:25,539 --> 00:33:23,450

excuse me we're gonna charter two

796

00:33:27,009 --> 00:33:25,549

research vessels

797

00:33:28,840 --> 00:33:27,019

down to San Diego we're gonna anchor one

798

00:33:31,359 --> 00:33:28,850

off San Clemente Island and one's going

799

00:33:33,820 --> 00:33:31,369

to be underway and in addition to that

800

00:33:35,529 --> 00:33:33,830

we've got a bunch of cutting-edge

801
00:33:39,190 --> 00:33:35,539
high-tech equipment we're taking with

802
00:33:40,239 --> 00:33:39,200
this and the idea behind it is we're

803
00:33:41,499 --> 00:33:40,249
going to go back there about the same

804
00:33:45,789 --> 00:33:41,509
time of year it's planned for December

805
00:33:49,359 --> 00:33:45,799
of 2020 and we hope to find these things

806
00:33:51,759 --> 00:33:49,369
again and we hope to collect scientific

807
00:33:53,729 --> 00:33:51,769
data in a bunch of different types of

808
00:33:55,659 --> 00:33:53,739
modalities it's gonna be unassailable

809
00:33:57,369 --> 00:33:55,669
because you have the you're gonna have

810
00:33:59,200 --> 00:33:57,379
the eyewitness accounts from scientists

811
00:34:03,399 --> 00:33:59,210
backed up by data that we're gonna

812
00:34:06,340 --> 00:34:03,409
collect just because we have a theory

813
00:34:09,039 --> 00:34:06,350

Jim we brute we all of us believer we

814

00:34:11,950 --> 00:34:09,049

wouldn't be doing this that these things

815

00:34:15,520 --> 00:34:11,960

are they're findable they're observable

816

00:34:17,919 --> 00:34:15,530

and they're also probably knowable and

817

00:34:19,149 --> 00:34:17,929

we all know we could be wrong and if it

818

00:34:20,940 --> 00:34:19,159

turns out we're wrong then that's the

819

00:34:24,069 --> 00:34:20,950

answer we're not afraid of being wrong I

820

00:34:27,520 --> 00:34:24,079

just don't think that we are I will find

821

00:34:30,240 --> 00:34:27,530

something and describe the technology

822

00:34:32,619 --> 00:34:30,250

that you guys will be using to find them

823

00:34:35,589 --> 00:34:32,629

okay I'm gonna read you a list of some

824

00:34:40,899 --> 00:34:35,599

of the stuff we got here there's pretty

825

00:34:43,720 --> 00:34:40,909

cool stuff actually that's something

826

00:34:45,280 --> 00:34:43,730

called a photodiode photodiode

827

00:34:47,619 --> 00:34:45,290

binoculars and what that does is it

828

00:34:48,879 --> 00:34:47,629

turns images into sound and then back

829

00:34:51,069 --> 00:34:48,889

again in other words it's kind of a

830

00:34:52,629 --> 00:34:51,079

night vision thing I pointed up this guy

831

00:34:54,789 --> 00:34:52,639

look at a commercial airliner with it

832

00:34:57,520 --> 00:34:54,799

and it'll turn that image into a sound

833

00:34:59,319 --> 00:34:57,530

file and then I can take that sound file

834

00:35:01,059 --> 00:34:59,329

and turn it back into an image I'll talk

835

00:35:05,410 --> 00:35:01,069

a little bit more about that later we've

836

00:35:08,140 --> 00:35:05,420

got some of the almost military-grade

837

00:35:10,299 --> 00:35:08,150

night-vision stuff binoculars were taken

838

00:35:14,039 --> 00:35:10,309

we've got a system called UAP DAP

839

00:35:15,970 --> 00:35:14,049

it's a UAV that acquisition program

840

00:35:17,859 --> 00:35:15,980

christopher all brian and his groups

841

00:35:20,650 --> 00:35:17,869

doing that and that's a piece of gear

842

00:35:22,930 --> 00:35:20,660

specifically designed using ir

843

00:35:26,650 --> 00:35:22,940

technologies to detect track and record

844

00:35:29,349 --> 00:35:26,660

UAP activities we're taking a neutrino

845

00:35:31,900 --> 00:35:29,359

detector that's with Professor Kevin

846

00:35:32,589 --> 00:35:31,910

Kenneth out of the Cu NY in Albany New

847

00:35:35,220 --> 00:35:32,599

York

848

00:35:37,359 --> 00:35:35,230

that's his gear of course we'll have a

849

00:35:39,640 --> 00:35:37,369

magnetometers onboard with all kinds of

850

00:35:43,060 --> 00:35:39,650

various video cameras

851
00:35:45,010 --> 00:35:43,070
we'll have thermal cameras we have a

852
00:35:46,870 --> 00:35:45,020
system that's under construction right

853
00:35:48,670 --> 00:35:46,880
now it's called a light wave transmitter

854
00:35:51,220 --> 00:35:48,680
that's David Mason he's an inventor

855
00:35:53,230 --> 00:35:51,230
engineer he's bringing in that toilet

856
00:35:54,580 --> 00:35:53,240
then we're bringing out several

857
00:35:56,740 --> 00:35:54,590
different telescopes

858
00:36:00,730 --> 00:35:56,750
we've got giant binoculars we've got

859
00:36:02,859 --> 00:36:00,740
night night vision photodiodes that

860
00:36:06,670 --> 00:36:02,869
we're bringing we're bringing a system

861
00:36:09,630 --> 00:36:06,680
called it's called a long wave IR system

862
00:36:14,470 --> 00:36:09,640
there's also it basically it turns a

863
00:36:16,840 --> 00:36:14,480

modulated long way ir into sound RF

864

00:36:20,050 --> 00:36:16,850

spectrum analyzers oscilloscopes long

865

00:36:22,480 --> 00:36:20,060

period antennas digital AV recorders and

866

00:36:25,330 --> 00:36:22,490

that we're taking along an h2o bubble

867

00:36:30,070 --> 00:36:25,340

chamber mobile chain chamber excuse me

868

00:36:32,650 --> 00:36:30,080

may I suggest this wing is I I suggest

869

00:36:34,780 --> 00:36:32,660

you suggest you not announce when you

870

00:36:38,230 --> 00:36:34,790

guys are going to be there because if

871

00:36:43,109 --> 00:36:38,240

this is us technology the military may

872

00:36:50,609 --> 00:36:47,650

they may indeed or they may be maybe you

873

00:36:55,000 --> 00:36:50,619

were the the group they want us you know

874

00:36:56,380 --> 00:36:55,010

I think I think whoever they is they

875

00:36:59,109 --> 00:36:56,390

want me to do what I'm doing

876

00:37:01,120 --> 00:36:59,119

can you still hear me I got a up missing

877

00:37:03,790 --> 00:37:01,130

out on the screen yeah I heard the

878

00:37:07,930 --> 00:37:03,800

reason why I say that back back in 2015

879

00:37:09,370 --> 00:37:07,940

I had been up when I first backed her

880

00:37:11,560 --> 00:37:09,380

sudden we're gonna be had become an

881

00:37:13,060 --> 00:37:11,570

obsessed with fun and going back and

882

00:37:15,099 --> 00:37:13,070

exploring the old mining claim that my

883

00:37:17,680 --> 00:37:15,109

family had had and I've actually found

884

00:37:20,440 --> 00:37:17,690

the mother lode but that's a whole

885

00:37:22,420 --> 00:37:20,450

nother story anyway um see the mother

886

00:37:24,670 --> 00:37:22,430

lode meeting meeting a lot of gold or

887

00:37:27,670 --> 00:37:24,680

what yeah I found a huge gold deposit oh

888

00:37:29,170 --> 00:37:27,680

my you can't I can't umm no in our

889

00:37:30,849 --> 00:37:29,180

family ever wants to mine it in fact we

890

00:37:32,050 --> 00:37:30,859

probably never could it's right in the

891

00:37:33,670 --> 00:37:32,060

middle of the wilderness and it's a

892

00:37:38,250 --> 00:37:33,680

hundred and fifty four million year old

893

00:37:41,200 --> 00:37:38,260

sea bottom thermal smoker you know those

894

00:37:42,520 --> 00:37:41,210

those black smokers you see on some of

895

00:37:44,500 --> 00:37:42,530

the History Channel and Discovery

896

00:37:46,359 --> 00:37:44,510

Channel programs on the bottom of the

897

00:37:48,849 --> 00:37:46,369

ocean and we have an extinct camp the

898

00:37:52,900 --> 00:37:48,859

hydrothermal vents that laid down a huge

899

00:37:55,300 --> 00:37:52,910

mineral deposit that my family had

900

00:37:57,700 --> 00:37:55,310

my 'end use a water giants back in the

901

00:37:59,920 --> 00:37:57,710

1930s Wow crazy

902

00:38:01,680 --> 00:37:59,930

we have no gonna do that again it's just

903

00:38:04,540 --> 00:38:01,690

sitting back there and I don't back for

904

00:38:06,100 --> 00:38:04,550

problem back to the government anyway I

905

00:38:09,400 --> 00:38:06,110

came back I came out of the wilderness

906

00:38:10,840 --> 00:38:09,410

and I thought it was at the time I

907

00:38:12,280 --> 00:38:10,850

thought was happenstance but I went over

908

00:38:14,260 --> 00:38:12,290

to a friend's house who was helping us

909

00:38:16,860 --> 00:38:14,270

with supplies on logistics while we were

910

00:38:18,940 --> 00:38:16,870

up there and there was two guys ER and

911

00:38:22,090 --> 00:38:18,950

the next day they show up at my house

912

00:38:24,190 --> 00:38:22,100

and it comes out that they had purposely

913

00:38:25,240 --> 00:38:24,200

sucked me out because they were from the

914

00:38:27,400 --> 00:38:25,250

government quote unquote

915

00:38:29,650 --> 00:38:27,410

and they had seen my research on the

916

00:38:31,390 --> 00:38:29,660

mine online and they wanted to Train

917

00:38:33,130 --> 00:38:31,400

special forces back there in the canyon

918

00:38:34,570 --> 00:38:33,140

cuz it's so damned rugged and they

919

00:38:37,270 --> 00:38:34,580

wanted my cousin and I had to take him

920

00:38:40,810 --> 00:38:37,280

back out there so already suspicious I

921

00:38:42,670 --> 00:38:40,820

thought their story BS from the start my

922

00:38:44,940 --> 00:38:42,680

cousin and myself and a couple of our

923

00:38:49,300 --> 00:38:44,950

friends went took them back up there and

924

00:38:51,100 --> 00:38:49,310

I think it was just a cover story Jim I

925

00:38:53,740 --> 00:38:51,110

really do I think I think their real

926

00:38:57,700 --> 00:38:53,750

purpose in Lou Elizondo actually confirm

927

00:39:00,450 --> 00:38:57,710

this to me later on I think their real

928

00:39:03,910 --> 00:39:00,460

purpose was to ascertain my mental state

929

00:39:05,890 --> 00:39:03,920

so they could they could make a

930

00:39:07,840 --> 00:39:05,900

determination how useful I was gonna be

931

00:39:09,970 --> 00:39:07,850

when this story came out because

932

00:39:13,030 --> 00:39:09,980

although they never have told me why

933

00:39:15,910 --> 00:39:13,040

they were there they had left me enough

934

00:39:20,590 --> 00:39:15,920

hints that later on was able to figure

935

00:39:21,520 --> 00:39:20,600

it out in fact the the leader in fact

936

00:39:25,000 --> 00:39:21,530

the other guy Forrest

937

00:39:27,700 --> 00:39:25,010

you called him Chaka tag and called him

938

00:39:29,350 --> 00:39:27,710

boss so I figured he must be the boss he

939

00:39:30,640 --> 00:39:29,360

looks at me right in the eye right

940

00:39:33,580 --> 00:39:30,650

before he left last time I ever talked

941

00:39:35,280 --> 00:39:33,590

to me say and he started crying then got

942

00:39:37,870 --> 00:39:35,290

really emotional else and he said Kevin

943

00:39:41,470 --> 00:39:37,880

you are incredibly important to what's

944

00:39:43,120 --> 00:39:41,480

about to happen and Jim I gotta tell you

945

00:39:45,490 --> 00:39:43,130

man I thought these guys were nuts I

946

00:39:47,530 --> 00:39:45,500

didn't know what to make of it so I just

947

00:39:49,750 --> 00:39:47,540

kind of brushed it off as more weird and

948

00:39:53,110 --> 00:39:49,760

I went on but now that all this has

949

00:39:55,150 --> 00:39:53,120

happened I understand why they why they

950

00:39:57,130 --> 00:39:55,160

came to see me I understand totally no

951
00:39:59,680 --> 00:39:57,140
in fact well Lou elevado came to

952
00:40:01,900 --> 00:39:59,690
interview me here at my house and when

953
00:40:03,970 --> 00:40:01,910
Tom DeLonge again came and met them I

954
00:40:06,160 --> 00:40:03,980
asked him I said do you know those guys

955
00:40:06,720 --> 00:40:06,170
and he the only thing I could get out he

956
00:40:08,790 --> 00:40:06,730
was like yeah

957
00:40:10,890 --> 00:40:08,800
have exchanged emails with him kind of

958
00:40:12,960 --> 00:40:10,900
winked at me a little bit in didn't

959
00:40:15,660 --> 00:40:12,970
really I couldn't get no more out of him

960
00:40:18,960 --> 00:40:15,670
out other than that so long story short

961
00:40:21,030 --> 00:40:18,970
he was being seriously Elizondo sorry

962
00:40:23,340 --> 00:40:21,040
Elizondo saying that he was being

963
00:40:27,540 --> 00:40:23,350

serious that yes I know the guy who came

964

00:40:29,460 --> 00:40:27,550

to visit you yeah he said he had

965

00:40:31,920 --> 00:40:29,470

exchanged emails with him quoted me

966

00:40:33,930 --> 00:40:31,930

precisely what he said so please don't

967

00:40:34,920 --> 00:40:33,940

allow that Jim you know we're sorry one

968

00:40:36,660 --> 00:40:34,930

last question about that

969

00:40:40,290 --> 00:40:36,670

what what what provision of the military

970

00:40:42,870 --> 00:40:40,300

were there from these two guys they

971

00:40:45,540 --> 00:40:42,880

never said and I never asked him I knew

972

00:40:51,210 --> 00:40:45,550

they wouldn't tell me anyway but it was

973

00:40:52,620 --> 00:40:51,220

military as opposed to it generally I'm

974

00:40:54,030 --> 00:40:52,630

making an assumption it was military

975

00:40:55,680 --> 00:40:54,040

because they wanted to say wanted to

976

00:41:00,359 --> 00:40:55,690

train special forces so it had to been

977

00:41:03,480 --> 00:41:00,369

something made it to the military but

978

00:41:05,099 --> 00:41:03,490

you know based on all that in the fact

979

00:41:06,540 --> 00:41:05,109

that no one's knocked on my door and

980

00:41:09,000 --> 00:41:06,550

said hey Kevin and we love you man but

981

00:41:10,590 --> 00:41:09,010

you got to shut up about this and you

982

00:41:12,720 --> 00:41:10,600

know I would Jim if that if that

983

00:41:15,180 --> 00:41:12,730

happened I would I'm a patriot you know

984

00:41:17,099 --> 00:41:15,190

I'm a huge defender of our national

985

00:41:19,770 --> 00:41:17,109

security apparatus and the last thing I

986

00:41:21,240 --> 00:41:19,780

want to do is get us in trouble here but

987

00:41:23,670 --> 00:41:21,250

none of that's happened in fact just the

988

00:41:26,460 --> 00:41:23,680

opposite I think I've been encouraged to

989

00:41:28,440 --> 00:41:26,470

come out and talk about this and that's

990

00:41:31,310 --> 00:41:28,450

why I think the government plans to

991

00:41:34,859 --> 00:41:31,320

leave are you ap expeditions alone I

992

00:41:38,849 --> 00:41:34,869

could be wrong but that's just that's

993

00:41:41,190 --> 00:41:38,859

what I believe mm-hmm well again the

994

00:41:44,130 --> 00:41:41,200

reason we've been chosen to break this

995

00:41:46,859 --> 00:41:44,140

out you know but again we don't know

996

00:41:49,770 --> 00:41:46,869

what you're breaking out you know is

997

00:41:53,160 --> 00:41:49,780

this the beginning of the law we don't

998

00:41:55,710 --> 00:41:53,170

we could yeah it could be preparing for

999

00:41:58,859 --> 00:41:55,720

the US government to disclose this

1000

00:42:03,440 --> 00:41:58,869

secret technology that it has had for

1001
00:42:10,490 --> 00:42:08,220
certainly could be I can't I can't

1002
00:42:14,720 --> 00:42:10,500
disagree with your logic on that either

1003
00:42:17,880 --> 00:42:14,730
yeah it's probably what I think in fact

1004
00:42:20,220 --> 00:42:17,890
so that that's what you lean to at this

1005
00:42:22,109 --> 00:42:20,230
point based on having all the

1006
00:42:28,740 --> 00:42:22,119
years behind you now is that it's more

1007
00:42:31,859 --> 00:42:28,750
likely than not us technology yeah

1008
00:42:34,020 --> 00:42:31,869
that's what I have to lean towards I do

1009
00:42:36,210 --> 00:42:34,030
now where the hell that came from that's

1010
00:42:37,470 --> 00:42:36,220
there that's another question how long

1011
00:42:40,859 --> 00:42:37,480
we've had it that's another question

1012
00:42:42,560 --> 00:42:40,869
because you know for the last 70 years

1013
00:42:45,900 --> 00:42:42,570

now

1014

00:42:48,810 --> 00:42:45,910

certainly there's better incidents with

1015

00:42:52,050 --> 00:42:48,820

other people that describe pretty much

1016

00:42:54,120 --> 00:42:52,060

what we saw so if their stories are also

1017

00:42:58,319 --> 00:42:54,130

true than that how old does that make

1018

00:42:59,940 --> 00:42:58,329

this technology now yeah there's

1019

00:43:02,130 --> 00:42:59,950

certainly it's certainly best way I need

1020

00:43:04,349 --> 00:43:02,140

it's a confusing question yeah I

1021

00:43:07,680 --> 00:43:04,359

certainly been studied for decades right

1022

00:43:11,370 --> 00:43:07,690

this gravity-defying technology like no

1023

00:43:12,720 --> 00:43:11,380

magnetic fields etc you know the stuff

1024

00:43:22,859 --> 00:43:12,730

that's described in that Navy patent

1025

00:43:25,710 --> 00:43:22,869

essentially right so well a big question

1026

00:43:28,230 --> 00:43:25,720

I had was how could we possibly kept

1027

00:43:30,960 --> 00:43:28,240

something like this secret for so long

1028

00:43:33,210 --> 00:43:30,970

it just didn't seem like that's possible

1029

00:43:34,980 --> 00:43:33,220

but in talking to some experts they said

1030

00:43:36,930 --> 00:43:34,990

well it's there's been in a number of

1031

00:43:41,730 --> 00:43:36,940

examples of the us keeping technology

1032

00:43:43,620 --> 00:43:41,740

truly secret for decades and and until

1033

00:43:47,490 --> 00:43:43,630

recently maybe they weren't concerned

1034

00:43:50,190 --> 00:43:47,500

about because everyone didn't have a

1035

00:43:51,930 --> 00:43:50,200

cellphone for all those years and there

1036

00:43:55,530 --> 00:43:51,940

there wasn't phased array radars and

1037

00:43:57,870 --> 00:43:55,540

there wasn't you ap did data acquisition

1038

00:44:00,000 --> 00:43:57,880

type there was an night-vision goggles

1039

00:44:03,720 --> 00:44:00,010

of concern but images into sound and

1040

00:44:05,250 --> 00:44:03,730

back again maybe it's a function of they

1041

00:44:06,809 --> 00:44:05,260

realized no but because of techno

1042

00:44:09,210 --> 00:44:06,819

technology they're not going to be able

1043

00:44:12,059 --> 00:44:09,220

to hide it any longer

1044

00:44:14,550 --> 00:44:12,069

I mentioned whales tell me about whales

1045

00:44:17,640 --> 00:44:14,560

and how they play into what this

1046

00:44:19,890 --> 00:44:17,650

expedition guys going on well that goes

1047

00:44:21,930 --> 00:44:19,900

back on it it goes back on it's just a

1048

00:44:24,240 --> 00:44:21,940

research question though since for their

1049

00:44:26,130 --> 00:44:24,250

we're gonna explore it based on the be

1050

00:44:29,550 --> 00:44:26,140

it goes back to the behavior of these

1051
00:44:31,079 --> 00:44:29,560
things like commander favors testimony

1052
00:44:33,690 --> 00:44:31,089
that something in the water was

1053
00:44:35,280 --> 00:44:33,700
interested in the UAP and or the us

1054
00:44:38,070 --> 00:44:35,290
was interested in something in the water

1055
00:44:40,260 --> 00:44:38,080
and just the basic behavior of these

1056
00:44:44,010 --> 00:44:40,270
objects they were definitely non-hostile

1057
00:44:48,000 --> 00:44:44,020
non-aggressive behaved like a flock of

1058
00:44:50,220 --> 00:44:48,010
birds so we're at least gonna ask the

1059
00:44:52,230 --> 00:44:50,230
question okay are they are they

1060
00:44:54,180 --> 00:44:52,240
interested interested in something in

1061
00:44:57,480 --> 00:44:54,190
the water and if they are what is it

1062
00:44:59,070 --> 00:44:57,490
what the hell is it so one of the things

1063
00:45:01,110 --> 00:44:59,080

we intend to do is we tend to get on

1064

00:45:07,230 --> 00:45:01,120

station and broadcast will songs into

1065

00:45:12,960 --> 00:45:07,240

the sky broadcast images of whales into

1066

00:45:15,350 --> 00:45:12,970

the sky and just see if it Ana festes the

1067

00:45:18,060 --> 00:45:15,360

appearance have you a key essentially

1068

00:45:21,120 --> 00:45:18,070

all of adds just a research question and

1069

00:45:23,040 --> 00:45:21,130

again we could all that I presume would

1070

00:45:24,660 --> 00:45:23,050

be more leaning in the in the direction

1071

00:45:26,340 --> 00:45:24,670

of the possibility that these things are

1072

00:45:28,830 --> 00:45:26,350

extraterrestrial because it wouldn't

1073

00:45:33,450 --> 00:45:28,840

make sense that the US military cares

1074

00:45:35,370 --> 00:45:33,460

about whales you wouldn't think no I

1075

00:45:40,560 --> 00:45:35,380

think you're right I can't I can are you

1076

00:45:42,960 --> 00:45:40,570

with your logic cool let me ask Michael

1077

00:45:45,120 --> 00:45:42,970

since he's I don't know if you know this

1078

00:45:48,120 --> 00:45:45,130

but Michael used to host a show where he

1079

00:45:50,340 --> 00:45:48,130

did some very deep dives into UFO so

1080

00:45:52,740 --> 00:45:50,350

he's quite the expert did you have any

1081

00:45:57,270 --> 00:45:52,750

follow-up questions performs make sure

1082

00:45:58,770 --> 00:45:57,280

you bring it Michael just one question

1083

00:46:00,570 --> 00:45:58,780

Jim and I were talking about this

1084

00:46:03,270 --> 00:46:00,580

earlier based upon what some other folks

1085

00:46:08,790 --> 00:46:03,280

have discussed and this idea that these

1086

00:46:11,340 --> 00:46:08,800

two men took the drives well for men to

1087

00:46:14,580 --> 00:46:11,350

off of each ship would it be possible

1088

00:46:16,860 --> 00:46:14,590

that those men were on the ship before

1089

00:46:19,350 --> 00:46:16,870

this even happened and because there's

1090

00:46:21,270 --> 00:46:19,360

so many people on these boats five to

1091

00:46:23,010 --> 00:46:21,280

six thousand people that they could have

1092

00:46:26,040 --> 00:46:23,020

just been sequestered in their quarters

1093

00:46:28,260 --> 00:46:26,050

somewhere and if so you would think that

1094

00:46:30,150 --> 00:46:28,270

possibly there would be ships logs that

1095

00:46:34,620 --> 00:46:30,160

would show who was coming and going from

1096

00:46:36,600 --> 00:46:34,630

those those boats in a case that person

1097

00:46:38,520 --> 00:46:36,610

I would say no it that would be more

1098

00:46:43,440 --> 00:46:38,530

possible on the USS Nimitz

1099

00:46:45,150 --> 00:46:43,450

okay in fact there was a the HSL that

1100

00:46:47,500 --> 00:46:45,160

was on board the halo the halo debt was

1101
00:46:49,930 --> 00:46:47,510
on board the ship that we get a couple

1102
00:46:52,750 --> 00:46:49,940
helicopter supports on deployment anyway

1103
00:46:54,130 --> 00:46:52,760
that detachment was there and I've

1104
00:46:56,230 --> 00:46:54,140
actually spoken to one of the air

1105
00:46:58,120 --> 00:46:56,240
crewmembers it actually was on the helo when

1106
00:46:59,830 --> 00:46:58,130
these guys came onboard the ship they

1107
00:47:01,570 --> 00:46:59,840
got off the aircraft they spent a little

1108
00:47:03,190 --> 00:47:01,580
bit of time on the ship and they they

1109
00:47:05,320 --> 00:47:03,200
got back on the helicopter went back to

1110
00:47:08,860 --> 00:47:05,330
the Nimitz so at least in the case of

1111
00:47:12,370 --> 00:47:08,870
the Princeton assuming that his

1112
00:47:16,420 --> 00:47:12,380
testimonies accurate two gentlemen came

1113
00:47:19,360 --> 00:47:16,430

he took her data and they left Wow okay

1114

00:47:23,290 --> 00:47:19,370

thank you yeah we're gonna be talking to

1115

00:47:25,360 --> 00:47:23,300

more he's later today about that he

1116

00:47:26,220 --> 00:47:25,370

describes them as having been in plain

1117

00:47:29,590 --> 00:47:26,230

clothes

1118

00:47:35,680 --> 00:47:29,600

whereas PJ on the Nimitz says they were

1119

00:47:38,050 --> 00:47:35,690

in Air Force flight suits yeah two

1120

00:47:39,490 --> 00:47:38,060

different ships and they both my

1121

00:47:40,780 --> 00:47:39,500

shipmates are probably telling the truth

1122

00:47:42,340 --> 00:47:40,790

on that one I would have to thank you

1123

00:47:44,410 --> 00:47:42,350

know yep you guys remember this was a

1124

00:47:46,480 --> 00:47:44,420

long time ago to have 15 years so all

1125

00:47:47,080 --> 00:47:46,490

the memories are probably good or not

1126
00:47:49,450 --> 00:47:47,090
perfect

1127
00:47:52,510 --> 00:47:49,460
yeah but super interesting what P Jets

1128
00:47:55,210 --> 00:47:52,520
say that it was Air Force flight suits

1129
00:47:56,590 --> 00:47:55,220
which tends to put the pieces of this

1130
00:47:57,970 --> 00:47:56,600
puzzle together as far as this

1131
00:48:02,050 --> 00:47:57,980
possibility that it was Air Force

1132
00:48:05,470 --> 00:48:02,060
technology that was being tested I can't

1133
00:48:07,900 --> 00:48:05,480
deny I can't argue with your logic thank

1134
00:48:10,690 --> 00:48:07,910
you again to Kevin de for that interview

1135
00:48:13,810 --> 00:48:10,700
next week we're gonna have Gary Voorhees

1136
00:48:15,940 --> 00:48:13,820
who was also on the Princeton he tells

1137
00:48:18,070 --> 00:48:15,950
the story of how two men in plain

1138
00:48:20,470 --> 00:48:18,080

clothes landed aboard the ship on a

1139

00:48:23,440 --> 00:48:20,480

helicopter and then showed up in his

1140

00:48:26,260 --> 00:48:23,450

office minutes later to take recordings

1141

00:48:28,630 --> 00:48:26,270

of the incident from him he'll also

1142

00:48:30,910 --> 00:48:28,640

share with us his opinion as to what

1143

00:48:34,960 --> 00:48:30,920

these things were so that's next week

1144

00:48:37,240 --> 00:48:34,970

Gary Voorhees also military veteran from

1145

00:48:39,460 --> 00:48:37,250
