

PETTY OFFICER GARY VOORHIS
FIRE CONTROLMAN CG-59 USS PRINCETON (FRM.)

HIDDEN TRUTH SHOW WITH JIM BRESLO
SPACE RACE

AVAILABLE ON ALL PODCAST APPS

1
00:00:04,610 --> 00:00:02,510
okay now for our interview with Gary

2
00:00:07,340 --> 00:00:04,620
Voorhees I started by asking him about

3
00:00:10,640 --> 00:00:07,350
when he first saw the Tic Tacs with his

4
00:00:13,009 --> 00:00:10,650
own eyes yeah the big guys on the ship

5
00:00:18,380 --> 00:00:13,019
they're pretty heavily you know they're

6
00:00:21,260 --> 00:00:18,390
they're massive oculars if you uh if you

7
00:00:22,640 --> 00:00:21,270
searched navy big guys on the internet

8
00:00:23,710 --> 00:00:22,650
you'll see exactly what I'm talking

9
00:00:27,170 --> 00:00:23,720
about

10
00:00:28,279 --> 00:00:27,180
was there a line of people looking to

11
00:00:31,099 --> 00:00:28,289
use those things to check these things

12
00:00:32,359 --> 00:00:31,109
out no because he kind of you kind of

13
00:00:35,360 --> 00:00:32,369

have to be a little slick to get out on

14

00:00:37,940 --> 00:00:35,370

a bridge wink dude well were in transit

15

00:00:40,220 --> 00:00:37,950

like we are when we were doing this you

16

00:00:42,979 --> 00:00:40,230

don't you don't really want to be up

17

00:00:45,709 --> 00:00:42,989

there as very long because it's actually

18

00:00:48,529 --> 00:00:45,719

pretty chilly with the wind and it's it

19

00:00:51,770 --> 00:00:48,539

you know you get there's nothing there's

20

00:00:53,660 --> 00:00:51,780

just you the big guys and then nothing

21

00:00:56,119 --> 00:00:53,670

in front of you so there's nothing to

22

00:00:57,680 --> 00:00:56,129

break the wind as the ships moving and

23

00:01:00,500 --> 00:00:57,690

how many times did you get on the big

24

00:01:06,800 --> 00:01:00,510

guys to check these things out over the

25

00:01:09,980 --> 00:01:06,810

week I probably went up there about

26
00:01:12,260 --> 00:01:09,990
maybe 14 or 15 times and was only able

27
00:01:16,910 --> 00:01:12,270
to actually see something maybe five

28
00:01:19,550 --> 00:01:16,920
times and who else went up there as far

29
00:01:22,010 --> 00:01:19,560
as you know I've heard a couple of the

30
00:01:23,330 --> 00:01:22,020
other people have gone up there like

31
00:01:25,190 --> 00:01:23,340
when you go up to the bridge wing unless

32
00:01:26,899 --> 00:01:25,200
you're like an officer or somebody that

33
00:01:29,780 --> 00:01:26,909
somebody's not going to question you

34
00:01:32,539 --> 00:01:29,790
tend to kind of just me interrupt there

35
00:01:35,090 --> 00:01:32,549
see what you can see and then come back

36
00:01:36,620 --> 00:01:35,100
in so that you don't really so nobody

37
00:01:38,719 --> 00:01:36,630
early asked any questions or you don't

38
00:01:42,140 --> 00:01:38,729

get in trouble and about how many people

39

00:01:49,160 --> 00:01:42,150

were on the Preston I think there's a

40

00:01:51,859 --> 00:01:49,170

complement of about 500 or so would you

41

00:01:54,710 --> 00:01:51,869

say that all 500 were aware of the

42

00:01:57,920 --> 00:01:54,720

incident at the time I wouldn't say all

43

00:02:01,850 --> 00:01:57,930

500 were aware but I could say anybody

44

00:02:04,069 --> 00:02:01,860

with the secret clearance was does that

45

00:02:07,850 --> 00:02:04,079

mean that you weren't supposed to talk

46

00:02:09,800 --> 00:02:07,860

about it no just the their jobs didn't

47

00:02:10,749 --> 00:02:09,810

really entail being anywhere I mean they

48

00:02:13,750 --> 00:02:10,759

might have heard that

49

00:02:15,610 --> 00:02:13,760

tracking unknowns or maybe you know a

50

00:02:17,619 --> 00:02:15,620

little bit here and there about it but I

51
00:02:19,300 --> 00:02:17,629
wouldn't say that they were like briefed

52
00:02:21,610 --> 00:02:19,310
on it or anything like that they would

53
00:02:23,800 --> 00:02:21,620
only know the you know whoever whatever

54
00:02:25,360 --> 00:02:23,810
we said on the smoke deck and that's

55
00:02:26,949 --> 00:02:25,370
kind of what I was referring to I'm just

56
00:02:31,119 --> 00:02:26,959
kind of trying to get a picture of how a

57
00:02:33,399 --> 00:02:31,129
buzz the ship was about this too the

58
00:02:35,589 --> 00:02:33,409
more informed you know the people with

59
00:02:39,430 --> 00:02:35,599
higher clearances that were involved in

60
00:02:43,569 --> 00:02:39,440
combat and standing launches you know we

61
00:02:47,229 --> 00:02:43,579
were all talking about it but oh you

62
00:02:49,360 --> 00:02:47,239
just cut out yeah hold on sorry okay

63
00:02:51,190 --> 00:02:49,370

you're back yeah I had some I've muted

64

00:02:53,680 --> 00:02:51,200

myself I just said some people come into

65

00:02:57,369 --> 00:02:53,690

the house so just trying to spare you

66

00:02:59,649 --> 00:02:57,379

that okay okay but uh the yeah so it's

67

00:03:01,960 --> 00:02:59,659

like the you know junior personnel or

68

00:03:04,300 --> 00:03:01,970

deck deck personnel things like that I

69

00:03:07,720 --> 00:03:04,310

mean unless they were interested in it

70

00:03:09,759 --> 00:03:07,730

they really wouldn't you know even care

71

00:03:12,339 --> 00:03:09,769

unless like you're about to go to combat

72

00:03:15,069 --> 00:03:12,349

action stations or we're gonna go to DQ

73

00:03:17,680 --> 00:03:15,079

or something like that and during about

74

00:03:20,800 --> 00:03:17,690

what was at about six days that you guys

75

00:03:23,619 --> 00:03:20,810

were seeing them yeah over over the

76

00:03:24,849 --> 00:03:23,629

entire week it was probably we were

77

00:03:26,830 --> 00:03:24,859

probably out for a couple of days before

78

00:03:30,280 --> 00:03:26,840

we started seeing them or you before I

79

00:03:33,369 --> 00:03:30,290

was aware of them I was mostly made of

80

00:03:35,920 --> 00:03:33,379

wares just because the spy technicians

81

00:03:38,379 --> 00:03:35,930

had to you know one of them was talking

82

00:03:40,150 --> 00:03:38,389

to me about it on a smoke break and then

83

00:03:41,979 --> 00:03:40,160

that's when I kind of got interested and

84

00:03:44,619 --> 00:03:41,989

then he said that we were gonna have to

85

00:03:46,629 --> 00:03:44,629

recalibrate spy and the standby because

86

00:03:49,240 --> 00:03:46,639

I got a I run all their computer systems

87

00:03:51,009 --> 00:03:49,250

that run the spider radar so when they

88

00:03:52,659 --> 00:03:51,019

do their calibrations so basically just

89

00:03:55,050 --> 00:03:52,669

stand by and wait for them to restate

90

00:03:58,330 --> 00:03:55,060

and say to reset the computer systems

91

00:04:02,110 --> 00:03:58,340

and then not a fabulous job but it's uh

92

00:04:03,729 --> 00:04:02,120

you know it runs all of them right so

93

00:04:05,170 --> 00:04:03,739

the story is that they were in count

94

00:04:07,149 --> 00:04:05,180

they're seeing these things weren't sure

95

00:04:09,039 --> 00:04:07,159

what they were and ask you guys to

96

00:04:11,649 --> 00:04:09,049

recalibrate the system thinking that

97

00:04:13,210 --> 00:04:11,659

maybe it's a system error well that's so

98

00:04:14,530 --> 00:04:13,220

much of a system error but we just had

99

00:04:16,990 --> 00:04:14,540

to make sure if you're gonna give them

100

00:04:18,909 --> 00:04:17,000

go tell the captain that uh you know

101
00:04:20,560 --> 00:04:18,919
we're tracking unknown aircraft you'd

102
00:04:23,670 --> 00:04:20,570
better be damn sure that it's an actual

103
00:04:25,320 --> 00:04:23,680
thing so it was more of a Prakash

104
00:04:28,500 --> 00:04:25,330
clutter generally gets naturally

105
00:04:30,270 --> 00:04:28,510
filtered out by the spy system so like

106
00:04:33,210 --> 00:04:30,280
say if there was you know dense

107
00:04:34,710 --> 00:04:33,220
formations and like a cloud or you know

108
00:04:38,400 --> 00:04:34,720
if it was something that wasn't like

109
00:04:40,890 --> 00:04:38,410
particularly a solid object but it was

110
00:04:43,830 --> 00:04:40,900
seeming you know solid at times because

111
00:04:45,810 --> 00:04:43,840
of how dense it was then it might show

112
00:04:50,100 --> 00:04:45,820
up first what second or two but then

113
00:04:51,390 --> 00:04:50,110

would quickly get filtered out and you

114

00:04:53,760 --> 00:04:51,400

mentioned the captain that's Captain

115

00:04:57,330 --> 00:04:53,770

Smith that would be correct

116

00:05:00,420 --> 00:04:57,340

what what is his first name I will read

117

00:05:03,960 --> 00:05:00,430

back right yeah well captain were

118

00:05:08,450 --> 00:05:03,970

captains we use called him red it was

119

00:05:11,220 --> 00:05:08,460

James Smith if I wanted if I wanted

120

00:05:13,500 --> 00:05:11,230

that's that's what I want to say but

121

00:05:16,440 --> 00:05:13,510

yeah he come on board right after we got

122

00:05:18,090 --> 00:05:16,450

back from deployment I didn't know him

123

00:05:21,270 --> 00:05:18,100

very well cuz I left the ship right

124

00:05:23,730 --> 00:05:21,280

after that but I just remember everybody

125

00:05:26,640 --> 00:05:23,740

call him captain red and he was at the

126

00:05:29,400 --> 00:05:26,650

in the highest position on that ship he

127

00:05:31,620 --> 00:05:29,410

was in charge yeah and at the time I was

128

00:05:33,360 --> 00:05:31,630

only four so you get a remember I'm not

129

00:05:36,600 --> 00:05:33,370

gonna have a whole lot of interaction

130

00:05:38,909 --> 00:05:36,610

with captain mhm and then he would have

131

00:05:42,150 --> 00:05:38,919

reported to the head of the whole Strike

132

00:05:44,280 --> 00:05:42,160

Group usually the embark commander on

133

00:05:45,780 --> 00:05:44,290

the carrier usually the carrier will

134

00:05:47,100 --> 00:05:45,790

have a captain and then they'll be an

135

00:05:51,170 --> 00:05:47,110

American of our commander which is

136

00:05:56,159 --> 00:05:53,700

Admiral lower half or something of that

137

00:05:58,409 --> 00:05:56,169

nature on the carrier he's running the

138

00:06:00,480 --> 00:05:58,419

entire strike group and then each

139

00:06:03,000 --> 00:06:00,490

captain is control of their own ships

140

00:06:06,300 --> 00:06:03,010

and then so the issues the orders would

141

00:06:07,950 --> 00:06:06,310

be issued from him down and and up and

142

00:06:09,690 --> 00:06:07,960

then of course there's always Messick

143

00:06:12,000 --> 00:06:09,700

trek message traffic that comes from

144

00:06:16,800 --> 00:06:12,010

every ship - and that's coming out of

145

00:06:18,870 --> 00:06:16,810

our cess which is just a it's a it's a

146

00:06:21,090 --> 00:06:18,880

beyond top secret room because it's a

147

00:06:23,040 --> 00:06:21,100

SCSI top-secret meaning that you have to

148

00:06:24,720 --> 00:06:23,050

have a specific type of clearance to be

149

00:06:26,310 --> 00:06:24,730

in there even if you have top secret you

150

00:06:28,380 --> 00:06:26,320

can't just be in there unless you have

151

00:06:31,860 --> 00:06:28,390

clearance to be in there that's actually

152

00:06:35,670 --> 00:06:31,870

the same room that Jason Turner was able

153

00:06:36,810 --> 00:06:35,680

to actually see this film on because in

154

00:06:39,360 --> 00:06:36,820

his position as

155

00:06:42,650 --> 00:06:39,370

so are keeper he's got access to that

156

00:06:45,750 --> 00:06:42,660

room because he delivers their parts and

157

00:06:49,200 --> 00:06:45,760

any anything that they or he actually

158

00:06:52,290 --> 00:06:49,210

has to hand deliver into that room so

159

00:06:57,090 --> 00:06:52,300

during this week how obsessed were you

160

00:07:00,000 --> 00:06:57,100

with these objects for me I was a bit

161

00:07:01,020 --> 00:07:00,010

obsessed about it just because I didn't

162

00:07:02,300 --> 00:07:01,030

know what they were and you got to

163

00:07:05,730 --> 00:07:02,310

remember they weren't doing anything

164

00:07:09,090 --> 00:07:05,740

crazy or fantastic or you know

165

00:07:10,890 --> 00:07:09,100

mind-bending until the f18

166

00:07:13,260 --> 00:07:10,900

interrogations happen so these things

167

00:07:14,820 --> 00:07:13,270

are just basically doing like a hundred

168

00:07:16,200 --> 00:07:14,830

knots just floating and doing nothing

169

00:07:18,960 --> 00:07:16,210

they're not coming at us they're not

170

00:07:22,050 --> 00:07:18,970

trying to engage us there they're just

171

00:07:23,700 --> 00:07:22,060

these benign floating things just doing

172

00:07:27,270 --> 00:07:23,710

a hundred knots due south and then

173

00:07:30,300 --> 00:07:27,280

disappearing from time to time which

174

00:07:34,410 --> 00:07:30,310

means at that point they could have been

175

00:07:39,090 --> 00:07:34,420

some type of drone right could have been

176

00:07:42,750 --> 00:07:39,100

a drone it could have been it could have

177

00:07:46,110 --> 00:07:42,760

been a lot of things I don't know what

178

00:07:48,180 --> 00:07:46,120

they were I mean like I said before I

179

00:07:50,070 --> 00:07:48,190

know a lot of people want to believe

180

00:07:51,800 --> 00:07:50,080

it's aliens or some people want to

181

00:07:54,300 --> 00:07:51,810

believe that it's our secret military

182

00:07:57,060 --> 00:07:54,310

government projects or anything like

183

00:07:58,830 --> 00:07:57,070

that the only thing I know is that these

184

00:08:00,720 --> 00:07:58,840

things were working on levels of physics

185

00:08:02,670 --> 00:08:00,730

that we don't understand even even today

186

00:08:05,600 --> 00:08:02,680

we gave a better idea of how they could

187

00:08:07,830 --> 00:08:05,610

have worked today through a lot of the

188

00:08:09,150 --> 00:08:07,840

more modern stuff that's happening

189

00:08:14,850 --> 00:08:09,160

within the last couple of years with

190

00:08:16,890 --> 00:08:14,860

quantum physics but these things once

191

00:08:19,500 --> 00:08:16,900

they were interrogated by the f-18 they

192

00:08:21,570 --> 00:08:19,510

mean it is blade abilities you know such

193

00:08:23,250 --> 00:08:21,580

advanced technology and that's what

194

00:08:24,960 --> 00:08:23,260

piqued my interest because honestly

195

00:08:26,510 --> 00:08:24,970

prior to that I didn't give a damn other

196

00:08:28,800 --> 00:08:26,520

than it was just something interesting

197

00:08:31,050 --> 00:08:28,810

yeah and that's kind of my point is that

198

00:08:33,959 --> 00:08:31,060

from what you observed until they were

199

00:08:36,630 --> 00:08:33,969

intercepted was something that could

200

00:08:38,040 --> 00:08:36,640

have had a relatively benign explanation

201
00:08:40,110 --> 00:08:38,050
could have just been drones out there

202
00:08:44,219 --> 00:08:40,120
right I mean something traveling at a

203
00:08:45,510 --> 00:08:44,229
hundred knots considered slow well it

204
00:08:47,400 --> 00:08:45,520
seems that they're slow but I mean it'd

205
00:08:48,510 --> 00:08:47,410
be they'd be fast for a balloon unless

206
00:08:50,340 --> 00:08:48,520
it was caught in a trade

207
00:08:52,260 --> 00:08:50,350
or you know something like that I mean

208
00:08:55,500 --> 00:08:52,270
balloons can go pretty fast if they get

209
00:08:57,150 --> 00:08:55,510
a good enough wind it could have been

210
00:08:58,890 --> 00:08:57,160
some type of ultra that they could have

211
00:09:00,780 --> 00:08:58,900
been ultra lights they could have been a

212
00:09:02,550 --> 00:09:00,790
lot of different things I don't think

213
00:09:04,890 --> 00:09:02,560

anybody beating nuts enough that's why I

214

00:09:07,320 --> 00:09:04,900

ultra like that far out into the open

215

00:09:09,840 --> 00:09:07,330

ocean but you know I mean people fly

216

00:09:12,120 --> 00:09:09,850

down the sides of mountains too so yeah

217

00:09:13,950 --> 00:09:12,130

so bottom line at that stage I mean

218

00:09:15,660 --> 00:09:13,960

still today of course there you ApS but

219

00:09:19,800 --> 00:09:15,670

at that stage in your mind there there

220

00:09:23,070 --> 00:09:19,810

you ApS is that the first time that you

221

00:09:24,780 --> 00:09:23,080

had ever encountered you ApS that's

222

00:09:26,610 --> 00:09:24,790

pretty much the first weird thing that

223

00:09:27,150 --> 00:09:26,620

ever happened in the entire time I was

224

00:09:31,650 --> 00:09:27,160

in the service

225

00:09:33,390 --> 00:09:31,660

mm-hm and nothing since then no nothing

226

00:09:35,250 --> 00:09:33,400

since then but I'll be honest with you

227

00:09:40,950 --> 00:09:35,260

I'm guilty of being one of these people

228

00:09:42,480 --> 00:09:40,960

that don't look up very often so then

229

00:09:44,730 --> 00:09:42,490

they send them out for the intercept and

230

00:09:51,050 --> 00:09:44,740

that's where they display this

231

00:09:53,540 --> 00:09:51,060

incredible supersonic speed etc were you

232

00:09:56,880 --> 00:09:53,550

listening in

233

00:09:59,700 --> 00:09:56,890

when flavor was going out there to

234

00:10:01,680 --> 00:09:59,710

inspect these things I know I actually

235

00:10:04,140 --> 00:10:01,690

got got word that they were doing

236

00:10:06,840 --> 00:10:04,150

interrogation from another technician

237

00:10:10,230 --> 00:10:06,850

and we actually you know he's like yeah

238

00:10:13,920 --> 00:10:10,240

we're watching it up in spy so we went

239

00:10:15,060 --> 00:10:13,930

up for this the spy and watched it and

240

00:10:19,130 --> 00:10:15,070

we were watching

241

00:10:22,530 --> 00:10:19,140

impression that it was live but

242

00:10:24,450 --> 00:10:22,540

apparently it may not have been so but

243

00:10:26,070 --> 00:10:24,460

nobody specifically told me it was live

244

00:10:27,990 --> 00:10:26,080

so I think it was just an impression

245

00:10:29,370 --> 00:10:28,000

that I had at the time because of the

246

00:10:30,690 --> 00:10:29,380

way people were talking you know they're

247

00:10:32,910 --> 00:10:30,700

like god they're doing the they're doing

248

00:10:33,630 --> 00:10:32,920

the interrogation and the first time I

249

00:10:34,860 --> 00:10:33,640

heard that they might do an

250

00:10:36,630 --> 00:10:34,870

interrogation was actually the day

251
00:10:38,370 --> 00:10:36,640
before so I was like standing by waiting

252
00:10:40,320 --> 00:10:38,380
to hear it and I kept poking my head

253
00:10:42,570 --> 00:10:40,330
into combat nothing happened so I kind

254
00:10:45,120 --> 00:10:42,580
of gave up on it and then the next day

255
00:10:46,770 --> 00:10:45,130
I'm up smoking and you know guys like a

256
00:10:49,440 --> 00:10:46,780
we're you know we're watching the

257
00:10:51,420 --> 00:10:49,450
intercept up knee up in on the o4 which

258
00:10:52,950 --> 00:10:51,430
is where the spy Spy deck you know

259
00:10:54,690 --> 00:10:52,960
offices and like all right no

260
00:10:56,130 --> 00:10:54,700
so we hauled ass up there and you know

261
00:10:59,010 --> 00:10:56,140
they were watching it I caught the film

262
00:11:00,780 --> 00:10:59,020
and you know I was like at that point it

263
00:11:02,759 --> 00:11:00,790

blew my mind because you know you see

264

00:11:05,039 --> 00:11:02,769

the insert you guys

265

00:11:08,939 --> 00:11:05,049

except without all the grainy compressed

266

00:11:12,569 --> 00:11:08,949

garbage and then you would see it

267

00:11:15,059 --> 00:11:12,579

actually him pull the pulled it pull it

268

00:11:16,650 --> 00:11:15,069

out further so that it was more of a

269

00:11:18,960 --> 00:11:16,660

field of vision of what it was doing

270

00:11:21,599 --> 00:11:18,970

because it started actually moving in

271

00:11:24,509 --> 00:11:21,609

right angles and moving out of the frame

272

00:11:26,609 --> 00:11:24,519

and but you know you'd think at first I

273

00:11:28,859 --> 00:11:26,619

thought it would be like you know where

274

00:11:31,529 --> 00:11:28,869

he was pulling the camera off and it was

275

00:11:33,029 --> 00:11:31,539

just making it look like it's moving off

276

00:11:35,460 --> 00:11:33,039

the frame but then as he pulled the

277

00:11:37,229 --> 00:11:35,470

camera and the zoom you know pulled the

278

00:11:39,359 --> 00:11:37,239

zoom in so that it was a wider field of

279

00:11:41,309 --> 00:11:39,369

vision you could actually see this thing

280

00:11:43,229 --> 00:11:41,319

take right turns without stopping you

281

00:11:45,539 --> 00:11:43,239

know whether they were it was just the

282

00:11:47,579 --> 00:11:45,549

same acceleration it wasn't slowing down

283

00:11:50,489 --> 00:11:47,589

turning or taking the right turn and

284

00:11:54,299 --> 00:11:50,499

going it was just constant speed right

285

00:11:56,369 --> 00:11:54,309

turn bug-out come back you know a right

286

00:11:59,369 --> 00:11:56,379

a right angle turn left right angle turn

287

00:12:00,840 --> 00:11:59,379

right move around figure eight and I

288

00:12:03,869 --> 00:12:00,850

like figure Eight's but I mean tight

289

00:12:06,389 --> 00:12:03,879

circles I mean just anything it just

290

00:12:13,549 --> 00:12:06,399

could do anything in any direction any

291

00:12:18,269 --> 00:12:13,559

it could move at you know impossible

292

00:12:21,629 --> 00:12:18,279

ways and whose video was that that you

293

00:12:23,189 --> 00:12:21,639

were seeing that Underwood's as far as I

294

00:12:25,229 --> 00:12:23,199

know it would have been Underwood's I

295

00:12:29,129 --> 00:12:25,239

didn't even know who the pilot was until

296

00:12:32,189 --> 00:12:29,139

this all came out until 2017 that the

297

00:12:34,529 --> 00:12:32,199

prior to hearing the rest of the story

298

00:12:36,840 --> 00:12:34,539

from like other perspectives and hearing

299

00:12:38,220 --> 00:12:36,850

the pilots hell I didn't even know who

300

00:12:41,849 --> 00:12:38,230

that who they were what their names were

301
00:12:45,029 --> 00:12:41,859
we saw that video and it's just been you

302
00:12:46,619 --> 00:12:45,039
know every time the close couple buddies

303
00:12:49,529 --> 00:12:46,629
you having a couple of beers you know

304
00:12:51,569 --> 00:12:49,539
hey I'll tell you a story yeah I go and

305
00:12:55,949 --> 00:12:51,579
if I hit a hundred percent true you know

306
00:12:58,259 --> 00:12:55,959
and they're like whoa no way so so you

307
00:12:59,639 --> 00:12:58,269
describe the video that you saw versus

308
00:13:01,139 --> 00:12:59,649
the one that the rest of us is seen

309
00:13:03,719 --> 00:13:01,149
because you're calling the one we're

310
00:13:06,389 --> 00:13:03,729
seeing grainy and compressed right yeah

311
00:13:07,999 --> 00:13:06,399
first of all why do you think we only

312
00:13:10,109 --> 00:13:08,009
have the grainy and compressed one

313
00:13:15,059 --> 00:13:10,119

that's the only one that I've seen as a

314

00:13:15,720 --> 00:13:15,069

civilian but but how would it be that

315

00:13:17,250 --> 00:13:15,730

the

316

00:13:20,790 --> 00:13:17,260

video went from being high-grade to

317

00:13:23,160 --> 00:13:20,800

low-grade usually if it was compressed

318

00:13:25,650 --> 00:13:23,170

on purpose for the purposes of sending

319

00:13:28,829 --> 00:13:25,660

us an email like if I had to send it off

320

00:13:31,980 --> 00:13:28,839

ship we're using shf at the time so he

321

00:13:34,170 --> 00:13:31,990

would have to Benz send over shf and

322

00:13:35,939 --> 00:13:34,180

sent us an email and back then

323

00:13:39,090 --> 00:13:35,949

everything had to be I think under four

324

00:13:40,560 --> 00:13:39,100

megabytes if that so you would had to

325

00:13:42,660 --> 00:13:40,570

compress the crap out of that which

326

00:13:45,870 --> 00:13:42,670

would have created the quality of the

327

00:13:47,400 --> 00:13:45,880

film so you don't think it was something

328

00:13:49,350 --> 00:13:47,410

that's done intentionally by the

329

00:13:52,949 --> 00:13:49,360

military so that the public is seeing

330

00:13:54,990 --> 00:13:52,959

less I think that this is the portion of

331

00:13:58,500 --> 00:13:55,000

the film that actually got out public

332

00:14:01,470 --> 00:13:58,510

and you know if they do have the same

333

00:14:04,379 --> 00:14:01,480

film it would be probably a lot better

334

00:14:06,569 --> 00:14:04,389

quality version of it I think that made

335

00:14:08,550 --> 00:14:06,579

that maybe this the the only length that

336

00:14:11,610 --> 00:14:08,560

they still have because it is the meat

337

00:14:13,980 --> 00:14:11,620

and potatoes of the whole thing you see

338

00:14:16,560 --> 00:14:13,990

that you see most of what's going on in

339

00:14:17,879 --> 00:14:16,570

the film and if they just cut out

340

00:14:18,750 --> 00:14:17,889

everything that wasn't you know because

341

00:14:21,540 --> 00:14:18,760

you gotta remember there was a lot of

342

00:14:24,300 --> 00:14:21,550

flying around a lot of it not in the

343

00:14:26,309 --> 00:14:24,310

frame a lot of just kind of garbage

344

00:14:28,980 --> 00:14:26,319

video that really didn't show you

345

00:14:31,230 --> 00:14:28,990

anything it wasn't until that the

346

00:14:33,930 --> 00:14:31,240

segment you saw and then maybe another

347

00:14:36,180 --> 00:14:33,940

three minutes worth after that that

348

00:14:38,220 --> 00:14:36,190

would have been for Steven see and then

349

00:14:40,559 --> 00:14:38,230

and the rest of it was just the jet

350

00:14:44,189 --> 00:14:40,569

flying around what was it still black

351
00:14:47,759 --> 00:14:44,199
and white what you saw uh yeah it was

352
00:14:50,129 --> 00:14:47,769
clear it would say it was still you know

353
00:14:52,650 --> 00:14:50,139
clear and then the gun you know him

354
00:14:54,809 --> 00:14:52,660
flipping through each one trying to find

355
00:14:56,370 --> 00:14:54,819
you could like if he if he like if you

356
00:14:58,319 --> 00:14:56,380
were sitting in the cockpit and you're

357
00:15:00,540 --> 00:14:58,329
you're seeing exactly what he was seeing

358
00:15:02,129 --> 00:15:00,550
you could you could imagine exactly what

359
00:15:04,259 --> 00:15:02,139
he was trying to do by the way that he

360
00:15:05,850 --> 00:15:04,269
was using the camera you know wouldn't

361
00:15:07,769 --> 00:15:05,860
he at first he was trying to get it in

362
00:15:09,689 --> 00:15:07,779
the frame and then he was flipping

363
00:15:12,840 --> 00:15:09,699

through the different now when he flips

364

00:15:14,150 --> 00:15:12,850

through the different cameras what he's

365

00:15:16,769 --> 00:15:14,160

trying to do is he's trying to look for

366

00:15:18,720 --> 00:15:16,779

heat signatures he's trying to look for

367

00:15:20,400 --> 00:15:18,730

maybe an engine compartment he's looking

368

00:15:22,410 --> 00:15:20,410

for you know using all these different

369

00:15:25,170 --> 00:15:22,420

cameras to find out more information

370

00:15:26,759 --> 00:15:25,180

about the object it's a it would be a

371

00:15:29,040 --> 00:15:26,769

tactic that he would be using with that

372

00:15:29,460 --> 00:15:29,050

camera not just flipping through to see

373

00:15:33,930 --> 00:15:29,470

the best

374

00:15:36,330 --> 00:15:33,940

you and they were never able to see any

375

00:15:39,540 --> 00:15:36,340

type of appendage to the tic-tac were

376

00:15:41,280 --> 00:15:39,550

you in the video that you saw he was at

377

00:15:42,720 --> 00:15:41,290

a certain point when he zooms in on it

378

00:15:45,090 --> 00:15:42,730

you can actually see that there is

379

00:15:47,340 --> 00:15:45,100

something on the bottom I'll be honest I

380

00:15:48,930 --> 00:15:47,350

wasn't paying attention uh from that I

381

00:15:50,490 --> 00:15:48,940

know that they were there but I couldn't

382

00:15:54,750 --> 00:15:50,500

tell you the exact shape they might have

383

00:15:59,940 --> 00:15:54,760

been you know thicker kind of you know

384

00:16:01,710 --> 00:15:59,950

where you see the the renditions that

385

00:16:05,340 --> 00:16:01,720

you see in the nimitz encounter how

386

00:16:06,750 --> 00:16:05,350

they're kind of thin oh yeah I know yeah

387

00:16:08,700 --> 00:16:06,760

but I think you're a lot thicker than

388

00:16:11,400 --> 00:16:08,710

that and maybe like I said it's a I'm

389

00:16:12,930 --> 00:16:11,410

basically I'm basically trying to use 15

390

00:16:14,730 --> 00:16:12,940

year old memory on it I remember there

391

00:16:23,010 --> 00:16:14,740

being something protruding from the

392

00:16:26,400 --> 00:16:23,020

bottom but it was like that could be

393

00:16:30,060 --> 00:16:26,410

used for landing or some type of antenna

394

00:16:31,500 --> 00:16:30,070

right yeah that's correct it could it

395

00:16:33,690 --> 00:16:31,510

could have been an antenna it could have

396

00:16:35,850 --> 00:16:33,700

been anything it could have been

397

00:16:41,220 --> 00:16:35,860

something used to just hang itself in a

398

00:16:43,920 --> 00:16:41,230

mother ship what about barrel rolls

399

00:16:47,430 --> 00:16:43,930

Kevin mentioned that it that it was

400

00:16:49,650 --> 00:16:47,440

doing barrel rolls well it could it

401
00:16:50,820 --> 00:16:49,660
could move in any way I mean he when he

402
00:16:54,180 --> 00:16:50,830
says a barrel roll you gotta remember

403
00:16:55,920 --> 00:16:54,190
it's just there's no positional access

404
00:16:58,080 --> 00:16:55,930
like when you're watching an f-18 you

405
00:17:00,240 --> 00:16:58,090
can tell you know what's up and what's

406
00:17:01,830 --> 00:17:00,250
down the only way you can tell the

407
00:17:03,690 --> 00:17:01,840
difference in anything on this thing is

408
00:17:05,550 --> 00:17:03,700
just by those dependences on the bottom

409
00:17:09,090 --> 00:17:05,560
and yeah it would it would it would do

410
00:17:11,900 --> 00:17:09,100
barrel rolls they would do ah yeah shoot

411
00:17:13,980 --> 00:17:11,910
off so it would come back you would

412
00:17:18,210 --> 00:17:13,990
sorry about my little girl just woke

413
00:17:21,520 --> 00:17:18,220

that up and she's been a little sick no

414

00:17:28,250 --> 00:17:25,420

so yeah you know Kevin described

415

00:17:30,410 --> 00:17:28,260

described them as almost seeming like

416

00:17:31,160 --> 00:17:30,420

intelligent life he compared them to

417

00:17:34,190 --> 00:17:31,170

birds

418

00:17:36,740 --> 00:17:34,200

maybe scattering you know because oh

419

00:17:38,450 --> 00:17:36,750

yeah and I could see how he could say

420

00:17:41,570 --> 00:17:38,460

that because they they definitely kind

421

00:17:43,340 --> 00:17:41,580

of reacted to the way the pilots moved

422

00:17:45,530 --> 00:17:43,350

so like if the pilot would move four

423

00:17:47,990 --> 00:17:45,540

degrees to the left it would be you know

424

00:17:49,550 --> 00:17:48,000

it would move an equal distance you know

425

00:17:52,310 --> 00:17:49,560

so that they would never ever gain

426

00:17:53,780 --> 00:17:52,320

anything on any of these ships so they

427

00:17:58,490 --> 00:17:53,790

would just move they would just move

428

00:18:00,560 --> 00:17:58,500

over and then come back and then it

429

00:18:02,810 --> 00:18:00,570

would be able to move around the bottom

430

00:18:04,550 --> 00:18:02,820

and then if you listen to freighters

431

00:18:06,830 --> 00:18:04,560

interview you know he you know he

432

00:18:09,170 --> 00:18:06,840

describes how fluidly these things moved

433

00:18:10,610 --> 00:18:09,180

you know they were it wasn't it didn't

434

00:18:13,370 --> 00:18:10,620

seem like they were affected by any type

435

00:18:16,880 --> 00:18:13,380

of drag or any type of gravitational

436

00:18:18,980 --> 00:18:16,890

force which was they would kind of blew

437

00:18:20,330 --> 00:18:18,990

my mind because up until I heard forever

438

00:18:22,460 --> 00:18:20,340

talk about it I only kind of

439

00:18:26,570 --> 00:18:22,470

hypothesized and based off the video I

440

00:18:28,640 --> 00:18:26,580

saw let's talk about the radar system

441

00:18:30,710 --> 00:18:28,650

that was on board that you're presumably

442

00:18:33,080 --> 00:18:30,720

expert in and one thing that Kevin

443

00:18:35,450 --> 00:18:33,090

reported was that it had just received

444

00:18:36,580 --> 00:18:35,460

some type of significant upgrade are you

445

00:18:39,500 --> 00:18:36,590

familiar with that

446

00:18:43,310 --> 00:18:39,510

yeah he got upgraded to the six point

447

00:18:47,600 --> 00:18:43,320

one baselines for aegis I just included

448

00:18:49,910 --> 00:18:47,610

a fiber system and caught off-the-shelf

449

00:18:52,430 --> 00:18:49,920

computer systems that awed mented the

450

00:18:55,520 --> 00:18:52,440

rest of the systems which basically gave

451
00:18:58,850 --> 00:18:55,530
us more processing power the system

452
00:19:00,920 --> 00:18:58,860
itself is already the best in the world

453
00:19:02,450 --> 00:19:00,930
and probably the most powerful radar in

454
00:19:04,370 --> 00:19:02,460
the planet

455
00:19:05,780 --> 00:19:04,380
I mean the amount the amount of tracks

456
00:19:07,810 --> 00:19:05,790
that this thing can track and the speed

457
00:19:10,760 --> 00:19:07,820
that is they can track things has I mean

458
00:19:12,290 --> 00:19:10,770
one of the system parameters photos that

459
00:19:15,080 --> 00:19:12,300
it could you know was supposed to be

460
00:19:19,280 --> 00:19:15,090
able to track objects going Mach speed

461
00:19:21,320 --> 00:19:19,290
at almost near real-time was when you're

462
00:19:23,660 --> 00:19:21,330
looking at a regular radar dish so you

463
00:19:26,090 --> 00:19:23,670

use a parabolic dish and it has to

464

00:19:27,590 --> 00:19:26,100

rotate you know you have a small amount

465

00:19:28,820 --> 00:19:27,600

of small amount of time that you have to

466

00:19:30,860 --> 00:19:28,830

wait for that the you know take no

467

00:19:34,670 --> 00:19:30,870

matter how fast it is it can't be faster

468

00:19:37,040 --> 00:19:34,680

than spy spy has basically four

469

00:19:39,290 --> 00:19:37,050

set the panels with hundreds of feed

470

00:19:41,180 --> 00:19:39,300

horns and these feed horns all connect

471

00:19:45,770 --> 00:19:41,190

independently of each other and track

472

00:19:49,040 --> 00:19:45,780

independent targets so let me ask you

473

00:19:51,010 --> 00:19:49,050

with these tic tacs that you guys first

474

00:19:53,300 --> 00:19:51,020

discovered in groups of eight to ten

475

00:19:59,000 --> 00:19:53,310

would those have been picked up by just

476

00:20:01,250 --> 00:19:59,010

a standard radar I'm not sure I didn't

477

00:20:02,840 --> 00:20:01,260

hear if the 49 was able to pick them up

478

00:20:05,990 --> 00:20:02,850

which is a navigational radar that we

479

00:20:08,930 --> 00:20:06,000

have and I didn't hear if I haven't

480

00:20:10,640 --> 00:20:08,940

gotten a straight answer on whether or

481

00:20:14,690 --> 00:20:10,650

not the Jets could actually pick them up

482

00:20:16,610 --> 00:20:14,700

on their radars or not but presumably if

483

00:20:19,970 --> 00:20:16,620

they are in fact approximately forty

484

00:20:23,240 --> 00:20:19,980

five foot long tic-tac shapes physical

485

00:20:27,290 --> 00:20:23,250

objects that should get picked up on

486

00:20:29,960 --> 00:20:27,300

regular radar right presumably as long

487

00:20:31,220 --> 00:20:29,970

as it doesn't have some type of issue

488

00:20:32,450 --> 00:20:31,230

with it or maybe they might not be

489

00:20:34,820 --> 00:20:32,460

powerful enough because you gonna

490

00:20:39,890 --> 00:20:34,830

remember our spy does put out you know a

491

00:20:42,220 --> 00:20:39,900

ridiculous amount of power I'm not

492

00:20:47,000 --> 00:20:42,230

understanding your point there okay so

493

00:20:50,360 --> 00:20:47,010

if say if I'm looking at something

494

00:20:52,640 --> 00:20:50,370

that's actively dodging you know say

495

00:20:54,770 --> 00:20:52,650

like say I have up to 49 and I stealth

496

00:20:58,130 --> 00:20:54,780

bomber goes by it's gonna look like a

497

00:21:00,350 --> 00:20:58,140

barely a blip on the screen where I'm

498

00:21:02,150 --> 00:21:00,360

gonna get a solid track it's just not

499

00:21:04,190 --> 00:21:02,160

gonna look right it's gonna it's gonna

500

00:21:07,220 --> 00:21:04,200

be it's not gonna it's not gonna come up

501
00:21:12,470 --> 00:21:07,230
as a plane and then be dismissed mm-hmm

502
00:21:15,200 --> 00:21:12,480
on the spy or if the 49 sees a dense

503
00:21:17,390 --> 00:21:15,210
particle you know a dense mass inside of

504
00:21:19,400 --> 00:21:17,400
a cloud like say it's uh like ice

505
00:21:22,490 --> 00:21:19,410
crystals forming high up miss fear of

506
00:21:28,580 --> 00:21:22,500
clouds it's gonna see that as a solid

507
00:21:30,770 --> 00:21:28,590
object where the the spy radar would not

508
00:21:35,240 --> 00:21:30,780
any we can just punch right through that

509
00:21:38,120 --> 00:21:35,250
and start and look what's behind it are

510
00:21:41,180 --> 00:21:38,130
there's I presume stealth technologies

511
00:21:42,440 --> 00:21:41,190
are designed to so that standard radar

512
00:21:44,600 --> 00:21:42,450
does not pick them up is that the whole

513
00:21:46,580 --> 00:21:44,610

point yeah because they deflect the

514

00:21:47,700 --> 00:21:46,590

radar in many different directions or

515

00:21:49,800 --> 00:21:47,710

absorb them

516

00:21:52,680 --> 00:21:49,810

most of the current stealth technology

517

00:21:55,740 --> 00:21:52,690

either uses some type of technology to

518

00:21:59,070 --> 00:21:55,750

absorb the RF to make it spread out

519

00:22:01,050 --> 00:21:59,080

cross-section a little to none then

520

00:22:03,750 --> 00:22:01,060

being able to be misdiagnosed as like

521

00:22:05,670 --> 00:22:03,760

you know either not seen at all or just

522

00:22:06,530 --> 00:22:05,680

misdiagnosed as something different than

523

00:22:08,790 --> 00:22:06,540

what it is

524

00:22:10,620 --> 00:22:08,800

and can they do the stealth ik

525

00:22:13,830 --> 00:22:10,630

technology also dupe

526
00:22:18,500 --> 00:22:13,840
phased array radar like was what was on

527
00:22:21,840 --> 00:22:18,510
the person dead honest I have no idea I

528
00:22:23,040 --> 00:22:21,850
never came at tracked we never well I

529
00:22:26,190 --> 00:22:23,050
was on board we've never tracked

530
00:22:28,320 --> 00:22:26,200
anything stealth that I know of is there

531
00:22:31,590 --> 00:22:28,330
anything about this upgrade that was

532
00:22:35,490 --> 00:22:31,600
done that would have made it more likely

533
00:22:38,280 --> 00:22:35,500
to see these things compared to before

534
00:22:40,440 --> 00:22:38,290
the upgrade well with the upgrades it

535
00:22:44,220 --> 00:22:40,450
definitely had more capability more

536
00:22:46,020 --> 00:22:44,230
processing power you know it's like the

537
00:22:48,510 --> 00:22:46,030
processing power of the computer systems

538
00:22:50,940 --> 00:22:48,520

prior to the upgrade was probably the

539

00:22:54,120 --> 00:22:50,950

equivalent of like a scientific

540

00:22:58,380 --> 00:22:54,130

calculator you know one of the old ones

541

00:23:00,330 --> 00:22:58,390

you use when you were taking calc but

542

00:23:03,720 --> 00:23:00,340

once we did the upgrade you know it went

543

00:23:06,630 --> 00:23:03,730

to a cop off-the-shelf PC system where

544

00:23:09,180 --> 00:23:06,640

it had a much much much broader spectrum

545

00:23:11,490 --> 00:23:09,190

of its abilities and and basically it's

546

00:23:13,740 --> 00:23:11,500

kind of like you know giving it

547

00:23:15,840 --> 00:23:13,750

superpowers really he's kind of just

548

00:23:17,550 --> 00:23:15,850

beefs the entire system up makes it more

549

00:23:20,100 --> 00:23:17,560

capable it makes it more you know able

550

00:23:21,870 --> 00:23:20,110

to process these things a lot faster so

551
00:23:25,050 --> 00:23:21,880
that it can actually determine what it's

552
00:23:27,540 --> 00:23:25,060
looking at a lot easier so what do you

553
00:23:30,060 --> 00:23:27,550
think about a theory that these things

554
00:23:33,020 --> 00:23:30,070
had been out there before but they

555
00:23:36,030 --> 00:23:33,030
weren't detected until the upgrade

556
00:23:39,060 --> 00:23:36,040
that's that's one possibility I think

557
00:23:41,790 --> 00:23:39,070
that we've been detecting them but

558
00:23:43,500 --> 00:23:41,800
they've been dismissed you know a I have

559
00:23:45,480 --> 00:23:43,510
a feeling that a lot of times we've been

560
00:23:48,180 --> 00:23:45,490
picking these things up with ships even

561
00:23:51,750 --> 00:23:48,190
when since ever since radar was created

562
00:23:53,400 --> 00:23:51,760
but due to the stigma you know no

563
00:23:54,480 --> 00:23:53,410

captain wants to be the guy that tracked

564

00:23:56,820 --> 00:23:54,490

UFOs

565

00:23:57,720 --> 00:23:56,830

mm-hmm but you would never encountered

566

00:24:01,170 --> 00:23:57,730

anything like it before

567

00:24:03,120 --> 00:24:01,180

in over how many years I was on board

568

00:24:05,430 --> 00:24:03,130

the ship for about four years

569

00:24:07,470 --> 00:24:05,440

mmm I mean yeah we had never tracked

570

00:24:09,510 --> 00:24:07,480

anything like that but if we had tracked

571

00:24:11,970 --> 00:24:09,520

it if it was just came on the scope then

572

00:24:14,370 --> 00:24:11,980

went off the scope and then never came

573

00:24:16,230 --> 00:24:14,380

back you know we would have just

574

00:24:19,290 --> 00:24:16,240

dismissed it as nothing but clutter and

575

00:24:20,910 --> 00:24:19,300

gone just the fact that these things

576

00:24:22,260 --> 00:24:20,920

stayed for so long it's probably the

577

00:24:24,630 --> 00:24:22,270

only reason that we really even noticed

578

00:24:27,360 --> 00:24:24,640

that they were there okay

579

00:24:29,940 --> 00:24:27,370

so during the break Michael and I were

580

00:24:31,830 --> 00:24:29,950

kind of talking about the the video and

581

00:24:34,770 --> 00:24:31,840

it's the quality of the video versus

582

00:24:36,840 --> 00:24:34,780

what you saw what you saw

583

00:24:40,550 --> 00:24:36,850

theoretically is still in the possession

584

00:24:43,230 --> 00:24:40,560

of the Navy right now theoretically yes

585

00:24:45,360 --> 00:24:43,240

they've said that they don't have one

586

00:24:47,430 --> 00:24:45,370

longer they never said that it was of

587

00:24:49,950 --> 00:24:47,440

lesser quality or the same quality or

588

00:24:51,930 --> 00:24:49,960

anything like that but I kind of have a

589

00:24:54,510 --> 00:24:51,940

hard time believing that personally I

590

00:25:01,890 --> 00:24:54,520

got a feeling that they've got the

591

00:25:04,590 --> 00:25:01,900

entire flight still on film but the you

592

00:25:06,150 --> 00:25:04,600

don't know if you know like you guys

593

00:25:07,860 --> 00:25:06,160

were just discussing I happened to hear

594

00:25:09,930 --> 00:25:07,870

a little bit of it yeah you know I think

595

00:25:11,520 --> 00:25:09,940

he's dead right I mean if it was our

596

00:25:13,890 --> 00:25:11,530

tech you know there could have been

597

00:25:14,940 --> 00:25:13,900

identifiers on it it could have been you

598

00:25:17,520 --> 00:25:14,950

know could you remember in the original

599

00:25:19,530 --> 00:25:17,530

film you also see all of the

600

00:25:22,380 --> 00:25:19,540

navigational data and the FLIR data

601
00:25:24,960 --> 00:25:22,390
that's around the edges so you're seeing

602
00:25:26,640 --> 00:25:24,970
the bearing the speed you know you can

603
00:25:28,320 --> 00:25:26,650
tell what you're looking at a lot better

604
00:25:30,870 --> 00:25:28,330
and you can tell a lot more

605
00:25:33,660 --> 00:25:30,880
environmental information and you know

606
00:25:35,310 --> 00:25:33,670
what it's doing and it's also got the

607
00:25:37,800 --> 00:25:35,320
little ridges and the edges that show

608
00:25:39,960 --> 00:25:37,810
the markers of how fast it's moving so

609
00:25:41,550 --> 00:25:39,970
that they can calculate like that that's

610
00:25:42,960 --> 00:25:41,560
only in the original video you're saying

611
00:25:44,280 --> 00:25:42,970
the one that you said that would be only

612
00:25:47,280 --> 00:25:44,290
in the yeah that would only be an

613
00:25:50,130 --> 00:25:47,290

original the actual original tape taken

614

00:25:52,580 --> 00:25:50,140

off jet and am I correct that the video

615

00:25:56,340 --> 00:25:52,590

that we're seeing that was never

616

00:25:59,370 --> 00:25:56,350

officially Navy released video this was

617

00:26:01,980 --> 00:25:59,380

leaked video yeah from from what I'm

618

00:26:03,750 --> 00:26:01,990

gathering from well think people like

619

00:26:05,880 --> 00:26:03,760

Kevin and stuff that say they saw that

620

00:26:07,650 --> 00:26:05,890

same video you know the next day and

621

00:26:10,530 --> 00:26:07,660

their email I

622

00:26:12,930 --> 00:26:10,540

I'm basically taking one plus one equals

623

00:26:14,910 --> 00:26:12,940

two if somebody decided to take that

624

00:26:17,400 --> 00:26:14,920

video or at least a good snippet of the

625

00:26:20,370 --> 00:26:17,410

meat potatoes compress it and say hey

626

00:26:22,170 --> 00:26:20,380

guys check this out you know sending it

627

00:26:24,240 --> 00:26:22,180

out you know say alright this is what we

628

00:26:26,610 --> 00:26:24,250

saw check it out you know for those that

629

00:26:28,500 --> 00:26:26,620

weren't you know pervy to actually see

630

00:26:31,440 --> 00:26:28,510

the whole video on the on the actual

631

00:26:34,170 --> 00:26:31,450

secret land I assume you've read this

632

00:26:38,510 --> 00:26:34,180

news about the the FOIA request response

633

00:26:40,590 --> 00:26:38,520

by the Navy yeah and I can understand

634

00:26:41,790 --> 00:26:40,600

there's a couple of reasons why I would

635

00:26:44,670 --> 00:26:41,800

think that they would say that would be

636

00:26:47,670 --> 00:26:44,680

you know of grave danger to release any

637

00:26:51,060 --> 00:26:47,680

of it one of it could be a it can prove

638

00:26:53,820 --> 00:26:51,070

that we're not the dominant people in

639

00:26:56,160 --> 00:26:53,830

our skies or it could prove that we have

640

00:26:59,150 --> 00:26:56,170

a technology that well makes us the most

641

00:27:02,790 --> 00:26:59,160

dominant force on the entire planet I

642

00:27:07,440 --> 00:27:02,800

mean either way you wouldn't want

643

00:27:10,950 --> 00:27:07,450

anybody to know well yeah but the Navy

644

00:27:14,460 --> 00:27:10,960

did confirm that the video that we see

645

00:27:18,960 --> 00:27:14,470

is real and that these pilots did in

646

00:27:21,290 --> 00:27:18,970

fact encounter a UAP which I find that

647

00:27:25,530 --> 00:27:21,300

interesting that the Navy was willing to

648

00:27:28,290 --> 00:27:25,540

confirm that was kind of a this' our

649

00:27:30,060 --> 00:27:28,300

technology I kind of make that make the

650

00:27:32,010 --> 00:27:30,070

assumption it's kind of like if you uh

651
00:27:35,100 --> 00:27:32,020
you know you're run into somebody that

652
00:27:37,500 --> 00:27:35,110
looks rough and you don't really want to

653
00:27:39,390 --> 00:27:37,510
mess with them but then you know he

654
00:27:40,260 --> 00:27:39,400
shows you he has a gun you definitely

655
00:27:41,640 --> 00:27:40,270
don't want to mess with you you don't

656
00:27:42,960 --> 00:27:41,650
know if the guns real you don't know if

657
00:27:45,750 --> 00:27:42,970
it's loaded you don't know anything

658
00:27:47,400 --> 00:27:45,760
about it but you know that it's a

659
00:27:50,370 --> 00:27:47,410
possibility that yet is something that

660
00:27:55,020 --> 00:27:50,380
could just completely end your life you

661
00:27:57,090 --> 00:27:55,030
know I mean that could be I'm just I'm

662
00:27:59,670 --> 00:27:57,100
speculating based off the fact that it

663
00:28:01,620 --> 00:27:59,680

could possibly be our technology if it's

664

00:28:03,540 --> 00:28:01,630

not our technology they may just not

665

00:28:06,030 --> 00:28:03,550

have a clue on how to deal with it and

666

00:28:08,370 --> 00:28:06,040

you might have one guy that says hey you

667

00:28:10,770 --> 00:28:08,380

know we should just be open about this

668

00:28:12,120 --> 00:28:10,780

and then another guy that it's like you

669

00:28:13,770 --> 00:28:12,130

know all of a sudden I can't come down

670

00:28:15,450 --> 00:28:13,780

the chain of command saying no no no no

671

00:28:17,370 --> 00:28:15,460

no that's not what we're gonna do this

672

00:28:19,830 --> 00:28:17,380

is what we're gonna do and that does

673

00:28:21,970 --> 00:28:19,840

happen a lot in the military

674

00:28:25,750 --> 00:28:21,980

because all's it takes is the next

675

00:28:27,910 --> 00:28:25,760

higher guy to say yeah no no that was

676

00:28:31,000 --> 00:28:27,920

wrong no no you know you're uh you're

677

00:28:34,600 --> 00:28:31,010

now one less rank and having to do the

678

00:28:36,550 --> 00:28:34,610

same grunt job so Kevin took note about

679

00:28:40,570 --> 00:28:36,560

the fact that the captain seemed

680

00:28:43,720 --> 00:28:40,580

somewhat disinterested in what was

681

00:28:47,920 --> 00:28:43,730

observed and this is a pair of report on

682

00:28:49,660 --> 00:28:47,930

it no he he kind of felt like even today

683

00:28:52,030 --> 00:28:49,670

like if you wouldn't asked him about it

684

00:28:53,860 --> 00:28:52,040

today he would say I don't recall that

685

00:28:55,680 --> 00:28:53,870

incident happening and I don't know

686

00:28:57,790 --> 00:28:55,690

anything about anything that happened

687

00:28:59,440 --> 00:28:57,800

anywhere remotely or what you're talking

688

00:29:01,840 --> 00:28:59,450

about he wants nothing to do with this

689

00:29:05,320 --> 00:29:01,850

hostage has he made any public

690

00:29:07,090 --> 00:29:05,330

statements I don't think I don't believe

691

00:29:11,910 --> 00:29:07,100

that he's made any public statements I

692

00:29:14,950 --> 00:29:11,920

noticed when he was talked to he just

693

00:29:17,440 --> 00:29:14,960

basically said I don't have no idea what

694

00:29:19,900 --> 00:29:17,450

you're talking about and that's all the

695

00:29:22,840 --> 00:29:19,910

response that he's given any of us who

696

00:29:29,430 --> 00:29:22,850

was it that he was speaking to I believe

697

00:29:35,560 --> 00:29:32,590

sorry Michael sending me a note has who

698

00:29:36,760 --> 00:29:35,570

been promoted the captain what is it is

699

00:29:38,830 --> 00:29:36,770

the captain still in the military I

700

00:29:40,510 --> 00:29:38,840

think he's retired now I think he's

701
00:29:46,810 --> 00:29:40,520
actually a diplomat

702
00:29:49,960 --> 00:29:46,820
a diplomat and was he ever promoted in

703
00:29:55,990 --> 00:29:49,970
rank after this incident I know I don't

704
00:29:58,450 --> 00:29:56,000
know idea and then the Admiral also

705
00:30:01,000 --> 00:29:58,460
didn't do a report about it and

706
00:30:03,460 --> 00:30:01,010
apparently flavor has spoken out about

707
00:30:04,890 --> 00:30:03,470
that and thought that you know bottom

708
00:30:06,970 --> 00:30:04,900
line our report should have been issued

709
00:30:10,300 --> 00:30:06,980
bottom line this whole thing should have

710
00:30:14,590 --> 00:30:10,310
been taken taken very serious as far as

711
00:30:17,370 --> 00:30:14,600
I'm concerned you mean we had some type

712
00:30:20,650 --> 00:30:17,380
of flying object that could outperform

713
00:30:21,670 --> 00:30:20,660

the most advanced flying machine on the

714

00:30:23,920 --> 00:30:21,680

planet at the time

715

00:30:25,360 --> 00:30:23,930

yeah the f-18 Super Hornet there was

716

00:30:27,310 --> 00:30:25,370

nothing that could really apply those

717

00:30:29,410 --> 00:30:27,320

there's things that were maybe we could

718

00:30:31,180 --> 00:30:29,420

argue were more maneuverable than those

719

00:30:32,110 --> 00:30:31,190

Jets but there's just there was nothing

720

00:30:37,660 --> 00:30:32,120

as cutting

721

00:30:40,450 --> 00:30:37,670

yes well a good theory could be that the

722

00:30:42,880 --> 00:30:40,460

captain and the Admiral were in on this

723

00:30:44,890 --> 00:30:42,890

they were privy to exactly what it was

724

00:30:47,650 --> 00:30:44,900

and hence the reason why they were

725

00:30:50,320 --> 00:30:47,660

nonplussed about it and are not making a

726
00:30:52,540 --> 00:30:50,330
big deal about it and they that could be

727
00:30:54,640 --> 00:30:52,550
I mean it would be a perfect time to try

728
00:30:56,650 --> 00:30:54,650
to do proof of concept of like say they

729
00:30:58,630 --> 00:30:56,660
refined a certain system on these ships

730
00:31:01,030 --> 00:30:58,640
and they needed to figure out whether or

731
00:31:02,920 --> 00:31:01,040
not the you know the current spy radar

732
00:31:04,930 --> 00:31:02,930
could see them or they were just

733
00:31:08,350 --> 00:31:04,940
straight testing the strip itself out

734
00:31:11,140 --> 00:31:08,360
versus what we know to be the most our

735
00:31:13,480 --> 00:31:11,150
most advanced our latest or greatest you

736
00:31:16,000 --> 00:31:13,490
know that very well could be they might

737
00:31:20,890 --> 00:31:16,010
have been just told not worried about it

738
00:31:24,250 --> 00:31:20,900

so Pete PJ Hughes says that that to Air

739

00:31:26,230 --> 00:31:24,260

Force personnel came and took his bricks

740

00:31:29,110 --> 00:31:26,240

from him off the Nimitz you're aware of

741

00:31:31,030 --> 00:31:29,120

that right yes so that connects the Air

742

00:31:34,150 --> 00:31:31,040

Force to this event what do you make of

743

00:31:36,670 --> 00:31:34,160

that all the Air Force has a traditional

744

00:31:38,290 --> 00:31:36,680

history of you know taking yeah taking

745

00:31:40,240 --> 00:31:38,300

control when it comes to domestic air

746

00:31:44,830 --> 00:31:40,250

flights and airspace in the United

747

00:31:47,500 --> 00:31:44,840

States so I mean when it comes down to

748

00:31:49,600 --> 00:31:47,510

it you ApS would be their domain just

749

00:31:52,150 --> 00:31:49,610

naturally being granted the Navy has

750

00:31:54,220 --> 00:31:52,160

more airplanes and it's more more

751
00:31:56,830 --> 00:31:54,230
everything than the Air Force does but

752
00:31:59,140 --> 00:31:56,840
that's just the point pride but that

753
00:32:02,170 --> 00:31:59,150
would be the air force moving incredibly

754
00:32:04,440 --> 00:32:02,180
quickly because I think he said the

755
00:32:07,090 --> 00:32:04,450
bricks were taken from him the same day

756
00:32:08,680 --> 00:32:07,100
well it really wouldn't be because me

757
00:32:11,410 --> 00:32:08,690
gonna remember we were tracking these

758
00:32:13,930 --> 00:32:11,420
things for over a week I mean it is not

759
00:32:16,540 --> 00:32:13,940
improbable that they received message

760
00:32:18,160 --> 00:32:16,550
traffic that we were tracking unknowns

761
00:32:19,750 --> 00:32:18,170
you mean we just assumed that the

762
00:32:21,730 --> 00:32:19,760
captain and the Admirals were doing

763
00:32:23,560 --> 00:32:21,740

nothing they may not have made any

764

00:32:25,990 --> 00:32:23,570

official reports but they could have

765

00:32:28,180 --> 00:32:26,000

reported this you know I mean he

766

00:32:30,460 --> 00:32:28,190

remembered the amount of unknowns in

767

00:32:32,560 --> 00:32:30,470

this thing could you know fill the Grand

768

00:32:34,030 --> 00:32:32,570

Canyon I wish I wish I had way more

769

00:32:37,240 --> 00:32:34,040

information just like the rest of you

770

00:32:38,830 --> 00:32:37,250

but I mean in my mind you know the

771

00:32:41,650 --> 00:32:38,840

higher-ups had to have been talking to

772

00:32:42,940 --> 00:32:41,660

somebody I mean our captain seemed very

773

00:32:44,500 --> 00:32:42,950

nonchalant about it and seemed almost

774

00:32:46,370 --> 00:32:44,510

happy that he didn't have to deal with

775

00:32:50,610 --> 00:32:46,380

it so

776

00:32:51,870 --> 00:32:50,620

but to send some I don't know that tends

777

00:32:56,010 --> 00:32:51,880

to demonstrate taking it very seriously

778

00:32:58,770 --> 00:32:56,020

if they're flying in a helicopter out to

779

00:33:00,390 --> 00:32:58,780

the Nimitz within hours the type of

780

00:33:02,280 --> 00:33:00,400

people that would be investigating

781

00:33:06,270 --> 00:33:02,290

something like this you know a captain

782

00:33:08,610 --> 00:33:06,280

of a ship would be like you know they're

783

00:33:10,320 --> 00:33:08,620

them versus the people investigating it

784

00:33:13,020 --> 00:33:10,330

would be just like the captain versus me

785

00:33:15,270 --> 00:33:13,030

anywhere I'm very insignificant if I'm

786

00:33:15,900 --> 00:33:15,280

told to shut my mouth at the time yeah

787

00:33:17,790 --> 00:33:15,910

all right

788

00:33:19,970 --> 00:33:17,800

I'm not going to talk about it you know

789

00:33:24,600 --> 00:33:19,980

if they if they had made me sign a you

790

00:33:28,230 --> 00:33:24,610

know an NDA we wouldn't be talking right

791

00:33:30,030 --> 00:33:28,240

now you know I mean that's according to

792

00:33:33,300 --> 00:33:30,040

PJ there were a number of NDA's that

793

00:33:38,310 --> 00:33:33,310

were signed yeah and I think that that

794

00:33:42,480 --> 00:33:38,320

was kind of a situation I found to be a

795

00:33:43,740 --> 00:33:42,490

little odd and I it's either the only

796

00:33:45,870 --> 00:33:43,750

thing I could think of is either

797

00:33:48,510 --> 00:33:45,880

they recorded information and saw

798

00:33:51,420 --> 00:33:48,520

something that we all didn't that at

799

00:33:54,360 --> 00:33:51,430

that point they considered they needed

800

00:33:56,130 --> 00:33:54,370

to have that in the assigned or their

801
00:33:59,700 --> 00:33:56,140
chain of command their direct chain of

802
00:34:01,860 --> 00:33:59,710
command jumped the gun because it you

803
00:34:03,810 --> 00:34:01,870
know because the flight the flight crews

804
00:34:05,760 --> 00:34:03,820
have their own commanders like as you

805
00:34:07,350 --> 00:34:05,770
found out commander freighter was his

806
00:34:09,600 --> 00:34:07,360
own commander his flight group black

807
00:34:13,139 --> 00:34:09,610
cases though they would have their own

808
00:34:15,060 --> 00:34:13,149
commander to I mean then these guys you

809
00:34:16,919 --> 00:34:15,070
know they may not want any of anybody's

810
00:34:18,810 --> 00:34:16,929
guys talking about what they saw you

811
00:34:19,980 --> 00:34:18,820
know they said you know keeping keep it

812
00:34:21,720 --> 00:34:19,990
under wraps because we don't want to

813
00:34:23,550 --> 00:34:21,730

hear another word about it yeah and then

814

00:34:25,110 --> 00:34:23,560

they jump the gun make these guys sign

815

00:34:27,869 --> 00:34:25,120

NDA's now they can't talk to anybody

816

00:34:30,000 --> 00:34:27,879

even other service members at least not

817

00:34:33,419 --> 00:34:30,010

on the record why would you refer to

818

00:34:35,909 --> 00:34:33,429

that as jumping the gun because what I'm

819

00:34:39,840 --> 00:34:35,919

saying is I used that term by by saying

820

00:34:42,119 --> 00:34:39,850

that if he was yeah if they just did it

821

00:34:44,430 --> 00:34:42,129

without the chain of command telling

822

00:34:46,649 --> 00:34:44,440

them you know so like the commander crew

823

00:34:49,500 --> 00:34:46,659

of that stripe of that group that air

824

00:34:51,540 --> 00:34:49,510

deck just decides all right have these

825

00:34:53,669 --> 00:34:51,550

guys sign NDA's without the actual

826

00:34:54,690 --> 00:34:53,679

captain saying I say because if it had

827

00:34:56,040 --> 00:34:54,700

been the captain of the Admiral

828

00:34:57,090 --> 00:34:56,050

presumably a lot more people would have

829

00:34:58,350 --> 00:34:57,100

signed NDA's

830

00:35:00,300 --> 00:34:58,360

yeah because then it

831

00:35:02,070 --> 00:35:00,310

went down to anybody that had access to

832

00:35:04,050 --> 00:35:02,080

this information like on our ship

833

00:35:04,740 --> 00:35:04,060

everybody on our ship would have had to

834

00:35:07,800 --> 00:35:04,750

sign an NDA

835

00:35:10,020 --> 00:35:07,810

you know everybody on the Nimitz would

836

00:35:13,560 --> 00:35:10,030

have had to sign an NDA so maybe they

837

00:35:15,570 --> 00:35:13,570

just need to jump the gun on it or those

838

00:35:17,940 --> 00:35:15,580

particular people saw something the rest

839

00:35:21,510 --> 00:35:17,950

of us didn't and I was beloved to know

840

00:35:23,610 --> 00:35:21,520

exactly what they saw so like PJ you had

841

00:35:25,980 --> 00:35:23,620

your own encounter with gentlemen that

842

00:35:28,470 --> 00:35:25,990

came on board the ship in order to take

843

00:35:31,050 --> 00:35:28,480

bricks correct well I don't have brakes

844

00:35:34,530 --> 00:35:31,060

sell minor optical disk drives

845

00:35:37,500 --> 00:35:34,540

yeah we do all the recording for the

846

00:35:40,410 --> 00:35:37,510

aegis system and part of our upgrade was

847

00:35:42,180 --> 00:35:40,420

to optical disk drives so we had a

848

00:35:45,660 --> 00:35:42,190

couple of you know there they were three

849

00:35:48,840 --> 00:35:45,670

three gig disks and I had a lot of them

850

00:35:50,220 --> 00:35:48,850

full from the entire week okay so kind

851
00:35:53,700 --> 00:35:50,230
of walking through that walks through

852
00:35:57,510 --> 00:35:53,710
that story where you're working in the

853
00:35:58,800 --> 00:35:57,520
smash and crash team which I heard you

854
00:36:00,960 --> 00:35:58,810
described in an interview which is

855
00:36:03,000 --> 00:36:00,970
basically god forbid was a helicopter

856
00:36:05,250 --> 00:36:03,010
crash you guys are there to tend to it

857
00:36:07,980 --> 00:36:05,260
yeah those guys you know those guys all

858
00:36:09,630 --> 00:36:07,990
respond to any type I if the craft like

859
00:36:11,670 --> 00:36:09,640
the helicopter crashes into the deck

860
00:36:14,730 --> 00:36:11,680
like say the tit ship takes a roll just

861
00:36:16,770 --> 00:36:14,740
as he's trying to land it's a very good

862
00:36:18,600 --> 00:36:16,780
possibility that one of those blades

863
00:36:21,570 --> 00:36:18,610

might hit the deck and then you got a

864

00:36:24,300 --> 00:36:21,580

big problem so the crash smash teams to

865

00:36:27,120 --> 00:36:24,310

respond to any type of crashes literally

866

00:36:28,830 --> 00:36:27,130

on the deck so as they're sitting up

867

00:36:31,260 --> 00:36:28,840

there waiting for they Stella copter

868

00:36:32,580 --> 00:36:31,270

come down we're watching people get you

869

00:36:35,550 --> 00:36:32,590

know you just sit there you watch people

870

00:36:38,090 --> 00:36:35,560

get out of the helicopter and then you

871

00:36:41,910 --> 00:36:38,100

know a couple of guys really close

872

00:36:44,190 --> 00:36:41,920

nothing no men in black nothing out of

873

00:36:46,560 --> 00:36:44,200

the ordinary hold on remind me exactly

874

00:36:49,860 --> 00:36:46,570

when was this in the I'm frame of

875

00:36:51,540 --> 00:36:49,870

everything probably same day that saw

876

00:36:55,170 --> 00:36:51,550

the video so it'd have been later in the

877

00:36:57,350 --> 00:36:55,180

day early evening of the day flavor

878

00:36:59,370 --> 00:36:57,360

encountered them and then under would

879

00:37:03,270 --> 00:36:59,380

encountered them okay so later in that

880

00:37:05,670 --> 00:37:03,280

day you see a helicopter land and a

881

00:37:08,700 --> 00:37:05,680

couple plainclothes guys get out and a

882

00:37:10,830 --> 00:37:08,710

cut with a couple military guys no

883

00:37:11,890 --> 00:37:10,840

military guys is those two guys popped

884

00:37:14,860 --> 00:37:11,900

off

885

00:37:18,760 --> 00:37:14,870

and then the helicopter flew away the

886

00:37:21,400 --> 00:37:18,770

helicopter didn't stay for and then and

887

00:37:23,830 --> 00:37:21,410

and I I know it's a long space it was a

888

00:37:24,880 --> 00:37:23,840

long time ago but describe what they

889

00:37:32,080 --> 00:37:24,890

were wearing to the best of your

890

00:37:33,880 --> 00:37:32,090

recollection polo shirts and khakis they

891

00:37:37,660 --> 00:37:33,890

were they they were just dressed normal

892

00:37:39,990 --> 00:37:37,670

like normal business casual okay and

893

00:37:43,360 --> 00:37:40,000

then you end up seeing them again right

894

00:37:48,040 --> 00:37:43,370

yeah they're down in a combat central

895

00:37:50,730 --> 00:37:48,050

which is just the space where all of the

896

00:37:55,510 --> 00:37:50,740

combat systems are directed from and

897

00:37:58,000 --> 00:37:55,520

it's it's a different from the actual

898

00:38:00,820 --> 00:37:58,010

combat Center which is where all those

899

00:38:02,830 --> 00:38:00,830

big consoles you stuff are so I got

900

00:38:05,290 --> 00:38:02,840

called down there and they said we need

901
00:38:08,950 --> 00:38:05,300
all your tapes and any tapes you didn't

902
00:38:10,570 --> 00:38:08,960
record on you have to erase and then

903
00:38:13,690 --> 00:38:10,580
they made it very clear that even the

904
00:38:15,550 --> 00:38:13,700
ones that are still oil and plastic so

905
00:38:18,910 --> 00:38:15,560
turned over everything I had recorded

906
00:38:22,330 --> 00:38:18,920
and then I went to the task

907
00:38:23,770 --> 00:38:22,340
erasing tapes which takes forever was

908
00:38:25,600 --> 00:38:23,780
there any doubt in your mind at that

909
00:38:28,060 --> 00:38:25,610
time that they were asking for these

910
00:38:31,060 --> 00:38:28,070
because of these tic tacs you guys that

911
00:38:33,100 --> 00:38:31,070
had encountered that no doubt at all but

912
00:38:35,050 --> 00:38:33,110
then again it's not too unusual for that

913
00:38:38,110 --> 00:38:35,060

to happen during any event we had an

914

00:38:40,840 --> 00:38:38,120

event during the last deployment that we

915

00:38:42,460 --> 00:38:40,850

had eight see we had some type of

916

00:38:45,130 --> 00:38:42,470

aircraft that went down into the ocean

917

00:38:48,190 --> 00:38:45,140

and of course spike recorded it going

918

00:38:50,440 --> 00:38:48,200

down and all that right after that event

919

00:38:52,750 --> 00:38:50,450

we had to relinquish those tapes to and

920

00:38:56,140 --> 00:38:52,760

you give those tapes to I have my chain

921

00:38:57,820 --> 00:38:56,150

of command this this time you know I

922

00:38:59,380 --> 00:38:57,830

actually saw the people that were taking

923

00:39:01,300 --> 00:38:59,390

the tapes which is a little different

924

00:39:03,430 --> 00:39:01,310

usually it would just be my chief

925

00:39:05,950 --> 00:39:03,440

they've come down taking from me and

926
00:39:08,410 --> 00:39:05,960
then to give them to whoever and this

927
00:39:11,200 --> 00:39:08,420
stunt this time I didn't have a chief at

928
00:39:14,740 --> 00:39:11,210
the time yeah he wasn't we didn't we are

929
00:39:16,150 --> 00:39:14,750
chief at right after deployment left so

930
00:39:20,290 --> 00:39:16,160
they were waiting to fill that billet

931
00:39:22,090 --> 00:39:20,300
and so there was basically just me and

932
00:39:22,690 --> 00:39:22,100
two guys that came on after the

933
00:39:25,460 --> 00:39:22,700
tournament

934
00:39:29,990 --> 00:39:25,470
they were both q70 guys

935
00:39:33,140 --> 00:39:30,000
and sorry q70 is the what they're

936
00:39:34,760 --> 00:39:33,150
calling the 6:1 baseline it's been the

937
00:39:45,200 --> 00:39:34,770
newer caught off the self systems are

938
00:39:46,849 --> 00:39:45,210

all called q70 and then the the acting

939

00:39:48,620 --> 00:39:46,859

chief at the time was down there he

940

00:39:50,510 --> 00:39:48,630

handed the tapes right to those guys

941

00:39:52,430 --> 00:39:50,520

they went and then we went back to my

942

00:39:54,430 --> 00:39:52,440

quarters and they were gone mm-hmm

943

00:39:56,780 --> 00:39:54,440

so who do you think those two guys were

944

00:39:57,920 --> 00:39:56,790

we're basically all your experience in

945

00:39:59,300 --> 00:39:57,930

the military and dealing with this kind

946

00:40:03,230 --> 00:39:59,310

of stuff those guys most likely were

947

00:40:06,560 --> 00:40:03,240

from where if I had to guess probably

948

00:40:10,070 --> 00:40:06,570

point Ronny me because that's where a

949

00:40:12,290 --> 00:40:10,080

lot of the CC systems were developed a

950

00:40:14,570 --> 00:40:12,300

lot of our Aegis stuff you know when we

951
00:40:17,990 --> 00:40:14,580
go to you know so there's a there's a

952
00:40:22,130 --> 00:40:18,000
lot of stuff that they develop over and

953
00:40:25,550 --> 00:40:22,140
on that base and why wouldn't they be in

954
00:40:29,660 --> 00:40:25,560
uniform um they could have been civilian

955
00:40:33,290 --> 00:40:29,670
contractors it could have been out of

956
00:40:35,359 --> 00:40:33,300
the uniform I I don't really know who

957
00:40:38,329 --> 00:40:35,369
they were so I couldn't really venture

958
00:40:40,400 --> 00:40:38,339
to guess exactly who they were with if

959
00:40:42,349 --> 00:40:40,410
they were wearing uniform or some type

960
00:40:43,579 --> 00:40:42,359
of insignia or where identified in any

961
00:40:44,890 --> 00:40:43,589
way but I was just told not to worry

962
00:40:47,120 --> 00:40:44,900
about it

963
00:40:51,349 --> 00:40:47,130

civilian contractors would seem kind of

964

00:40:53,000 --> 00:40:51,359

an odd entity to give it to no not

965

00:40:54,940 --> 00:40:53,010

really because you know remember

966

00:40:57,109 --> 00:40:54,950

Sicilians developed all these systems

967

00:40:59,359 --> 00:40:57,119

college systems are developed by

968

00:41:02,510 --> 00:40:59,369

companies that use civilian contractors

969

00:41:05,060 --> 00:41:02,520

like whenever we get back into port they

970

00:41:07,820 --> 00:41:05,070

do a data dump on all of those systems

971

00:41:09,859 --> 00:41:07,830

to check performance to see how well

972

00:41:12,109 --> 00:41:09,869

they did see if there's any problems

973

00:41:14,180 --> 00:41:12,119

with them you know especially if there

974

00:41:15,560 --> 00:41:14,190

was any critical errors which luckily

975

00:41:18,050 --> 00:41:15,570

for us on this trip there really were

976
00:41:19,910 --> 00:41:18,060
none everything was working perfect so

977
00:41:22,250 --> 00:41:19,920
is that where the video would have

978
00:41:25,339 --> 00:41:22,260
resided on those disks that you hand it

979
00:41:28,010 --> 00:41:25,349
over no mine would be raw statistical

980
00:41:31,910 --> 00:41:28,020
data from the from the radars you would

981
00:41:33,740 --> 00:41:31,920
have needed a special program to be able

982
00:41:35,180 --> 00:41:33,750
even see the data like you had would

983
00:41:38,930 --> 00:41:35,190
have had to have an interface to see it

984
00:41:41,210 --> 00:41:38,940
so so it was just data no for

985
00:41:43,400 --> 00:41:41,220
since video of what the radar system

986
00:41:45,950 --> 00:41:43,410
would have been picking up no wouldn't

987
00:41:47,870 --> 00:41:45,960
it never been in any actual video just

988
00:41:50,240 --> 00:41:47,880

it would have been all of the data from

989

00:41:52,099 --> 00:41:50,250

the radars so if you stuck it into

990

00:41:54,260 --> 00:41:52,109

another system like that land-based

991

00:41:56,540 --> 00:41:54,270

version of the system to replay it you

992

00:41:58,579 --> 00:41:56,550

would just see tracks on screen you

993

00:42:02,270 --> 00:41:58,589

would see environmental data if you were

994

00:42:03,680 --> 00:42:02,280

to use it as I know that they use it

995

00:42:05,450 --> 00:42:03,690

like they have a program that just

996

00:42:09,079 --> 00:42:05,460

basically pulls all the information and

997

00:42:10,280 --> 00:42:09,089

turns it into database sheets you know

998

00:42:12,109 --> 00:42:10,290

where they can sift through the

999

00:42:14,390 --> 00:42:12,119

information and then the only other

1000

00:42:17,960 --> 00:42:14,400

thing you're gonna see is code so

1001
00:42:21,200 --> 00:42:17,970
there's no such thing as video of the

1002
00:42:23,720 --> 00:42:21,210
radar picking these things up the videos

1003
00:42:26,569 --> 00:42:23,730
changed the code when it is imported so

1004
00:42:28,460 --> 00:42:26,579
it's it's it is there it's just not not

1005
00:42:30,589 --> 00:42:28,470
what you would see if you tried that

1006
00:42:31,940 --> 00:42:30,599
like if I had the tape here today yeah

1007
00:42:34,250 --> 00:42:31,950
and I tried to hook it into an optical

1008
00:42:36,620 --> 00:42:34,260
drive into my computer it would come up

1009
00:42:38,870 --> 00:42:36,630
as garbling kook unless I had all the

1010
00:42:41,569 --> 00:42:38,880
programs that you were used to make them

1011
00:42:43,460 --> 00:42:41,579
and you know if I had I'd have to have a

1012
00:42:45,650 --> 00:42:43,470
simulation of the aegis system at my

1013
00:42:46,940 --> 00:42:45,660

house and if you had that though then

1014

00:42:49,370 --> 00:42:46,950

you could essentially replay what

1015

00:42:50,740 --> 00:42:49,380

everybody saw yeah you good over and

1016

00:42:55,640 --> 00:42:50,750

over and over just like you were there

1017

00:42:58,490 --> 00:42:55,650

and that was what the crazy thing about

1018

00:43:00,710 --> 00:42:58,500

CEC is is that it takes all of that data

1019

00:43:03,319 --> 00:43:00,720

from our ship but it also takes that

1020

00:43:05,900 --> 00:43:03,329

same data from every single ship in the

1021

00:43:08,720 --> 00:43:05,910

battle group and makes a bigger picture

1022

00:43:13,910 --> 00:43:08,730

and a more clear and defined picture and

1023

00:43:17,089 --> 00:43:13,920

with the CEC data and that data you

1024

00:43:19,069 --> 00:43:17,099

could make it very very clear what

1025

00:43:22,670 --> 00:43:19,079

exactly these objects did and how they

1026

00:43:26,030 --> 00:43:22,680

moved so favor is unequivocal that

1027

00:43:30,349 --> 00:43:26,040

nothing was taken from his group now is

1028

00:43:31,700 --> 00:43:30,359

that seem odd considering they took

1029

00:43:33,349 --> 00:43:31,710

something from you and they took

1030

00:43:35,000 --> 00:43:33,359

something from the bricks from the

1031

00:43:38,030 --> 00:43:35,010

Nimitz that that pertained to the

1032

00:43:39,920 --> 00:43:38,040

Hawkeye well it would seem odd that an

1033

00:43:43,010 --> 00:43:39,930

officer a flight officer would even know

1034

00:43:45,559 --> 00:43:43,020

about anything that was taken off I mean

1035

00:43:48,260 --> 00:43:45,569

none of our officers had anything to do

1036

00:43:49,880 --> 00:43:48,270

with our quarters my Devo wouldn't even

1037

00:43:51,450 --> 00:43:49,890

unless my Devo came down and

1038

00:43:54,060 --> 00:43:51,460

specifically asked to come down

1039

00:43:57,780 --> 00:43:54,070

division officer I don't even think I

1040

00:44:00,450 --> 00:43:57,790

saw her the entire time but favor is a

1041

00:44:02,880 --> 00:44:00,460

squadron commander of the Black Aces

1042

00:44:05,970 --> 00:44:02,890

only okay but does that include

1043

00:44:08,760 --> 00:44:05,980

Underwood it could I don't know if

1044

00:44:10,110 --> 00:44:08,770

Underwood was in it I'm assuming that

1045

00:44:14,790 --> 00:44:10,120

there's more than one squadron on a

1046

00:44:17,880 --> 00:44:14,800

aircraft carrier I see but in order to

1047

00:44:20,160 --> 00:44:17,890

get the the video that we have which is

1048

00:44:22,320 --> 00:44:20,170

Underwood's video that would have come

1049

00:44:25,560 --> 00:44:22,330

off of what right off of his plane off

1050

00:44:27,180 --> 00:44:25,570

of the plane Whitaker it would have come

1051

00:44:29,070 --> 00:44:27,190

from the original video and like I said

1052

00:44:30,930 --> 00:44:29,080

I think somebody had actually somewhere

1053

00:44:32,910 --> 00:44:30,940

at some point compressed it to send it

1054

00:44:34,950 --> 00:44:32,920

as an email to somebody and then that

1055

00:44:36,570 --> 00:44:34,960

got out thank you again to Garry

1056

00:44:38,280 --> 00:44:36,580

Voorhees for appearing on the hidden

1057

00:44:39,960 --> 00:44:38,290

truth show I want to share one thing

1058

00:44:44,100 --> 00:44:39,970

that we looked into after our interview

1059

00:44:46,560 --> 00:44:44,110

so captain red Smith was the captain of

1060

00:44:49,230 --> 00:44:46,570

the Princeton at the time of the

1061

00:44:51,120 --> 00:44:49,240

incident Voorhees reported that he later

1062

00:44:53,610 --> 00:44:51,130

went on and received a large promotion

1063

00:44:56,610 --> 00:44:53,620

we looked into that and read Smith

1064

00:44:58,470 --> 00:44:56,620

approximately five years after the

1065

00:45:00,360 --> 00:44:58,480

incident he was given the position of

1066

00:45:02,750 --> 00:45:00,370

Foreign Affairs specialist for Africa at

1067

00:45:05,760 --> 00:45:02,760

u.s. naval forces Europe and Africa and

1068

00:45:08,100 --> 00:45:05,770

commander of the 6th fleet he still

1069

00:45:10,830 --> 00:45:08,110

holds that position today so captain red

1070

00:45:14,530 --> 00:45:10,840

Smith for the past 10 years has been the

1071

00:45:18,589 --> 00:45:14,540

commander of the 6th fleet in Africa

1072

00:45:20,490 --> 00:45:18,599

[Music]

1073

00:45:22,109 --> 00:45:20,500

thank you for listening to the hidden

1074

00:45:24,030 --> 00:45:22,119

dirt show with Jim Breslow

1075

00:45:27,690 --> 00:45:24,040

you can find us at hidden truths

1076

00:45:30,380 --> 00:45:27,700

show.com follow us on Facebook Twitter

1077

00:45:32,609 --> 00:45:30,390

and Instagram that hid the truth show

1078

00:45:35,520 --> 00:45:32,619

join us again next week for another

1079

00:45:37,470 --> 00:45:35,530

episode of Hannah trade show with Jim
