

**DR. JACK SARFATTI:
I KNOW HOW TIC TACS WORK,
THE US DOES NOT**

1
00:00:05,869 --> 00:00:02,810
okay now for our interview with dr. Jack

2
00:00:08,360 --> 00:00:05,879
Sarfatti I started by asking him whether

3
00:00:11,749 --> 00:00:08,370
he liked being referred to by some as a

4
00:00:13,249 --> 00:00:11,759
hippie scientist well nobody won or

5
00:00:17,420 --> 00:00:13,259
something that's not me I was never

6
00:00:19,849 --> 00:00:17,430
hippy okay that's that's that's the the

7
00:00:21,410 --> 00:00:19,859
publishers trying to sell books some of

8
00:00:24,529 --> 00:00:21,420
my guys were hippies

9
00:00:25,240 --> 00:00:24,539
I was yeah I was a bohemian that's

10
00:00:27,380 --> 00:00:25,250
different

11
00:00:28,730 --> 00:00:27,390
Bohemians when you're too young to hear

12
00:00:30,830 --> 00:00:28,740
too young to be a hippie I mean too old

13
00:00:35,720 --> 00:00:30,840

to be a hippie hippies no no no no they

14

00:00:37,850 --> 00:00:35,730

have 60 jobs born around 40 40 yeah beat

15

00:00:40,940 --> 00:00:37,860

that's a more of a beat more of a beat

16

00:00:42,470 --> 00:00:40,950

bohemian yeah we went I mean they I rich

17

00:00:45,440 --> 00:00:42,480

girlfriends and limousines you don't

18

00:00:48,319 --> 00:00:45,450

like you know like but but if you were

19

00:00:51,139 --> 00:00:48,329

born in 40 isn't 50s more your decade

20

00:00:53,119 --> 00:00:51,149

than 60 I was born in 67 so the 80s are

21

00:00:55,790 --> 00:00:53,129

my decade yeah don't you consider the

22

00:01:00,200 --> 00:00:55,800

50s to be no 50s I was 18 I was still a

23

00:01:01,639 --> 00:01:00,210

kid right I was a Cornell know in the

24

00:01:03,889 --> 00:01:01,649

60s really didn't happen until the late

25

00:01:05,840 --> 00:01:03,899

60s yeah no but no no I was right in the

26
00:01:07,760 --> 00:01:05,850
middle of everything I mean you know I

27
00:01:09,469 --> 00:01:07,770
Ryan he could have been a hippie if your

28
00:01:11,210 --> 00:01:09,479
chosen field a lot of my friends were

29
00:01:13,219 --> 00:01:11,220
hippies but I always liked money too

30
00:01:20,270 --> 00:01:13,229
much I like Jaguars I like fast cars

31
00:01:24,249 --> 00:01:20,280
I never espoused the hippie way of life

32
00:01:27,679 --> 00:01:24,259
so you just you just look like one yeah

33
00:01:30,140 --> 00:01:27,689
especially then I look really really why

34
00:01:31,580 --> 00:01:30,150
I didn't want to Elba's everybody did I

35
00:01:34,249 --> 00:01:31,590
do I didn't want to I mean you know what

36
00:01:37,819 --> 00:01:34,259
Bernie Sanders he was a hippie you know

37
00:01:39,260 --> 00:01:37,829
Bernie and Bernie is almost 80 right but

38
00:01:43,100 --> 00:01:39,270

I am worried about to say within a year

39

00:01:49,969 --> 00:01:43,110

or two the same area I knew lots of

40

00:01:52,639 --> 00:01:49,979

Bernie's back then you know whoever

41

00:01:54,560 --> 00:01:52,649

Einhorn was Einhorn would have been

42

00:01:57,859 --> 00:01:54,570

Bernie Sanders today if I know and had

43

00:02:00,289 --> 00:01:57,869

not been framed or but he did not but

44

00:02:02,539 --> 00:02:00,299

Holly Maddux you know he was he was much

45

00:02:04,999 --> 00:02:02,549

more charismatic than Bernie and the

46

00:02:06,770 --> 00:02:05,009

same kind of milieu and he had all kinds

47

00:02:09,160 --> 00:02:06,780

of powerful people backing him he would

48

00:02:11,559 --> 00:02:09,170

have been running for president today

49

00:02:14,650 --> 00:02:11,569

yeah what about since we're talking

50

00:02:18,490 --> 00:02:14,660

about hippies LSD is that sometimes if

51
00:02:25,059 --> 00:02:22,960
I did you indulge only a couple of times

52
00:02:31,570 --> 00:02:25,069
Oh a couple actually strangely enough

53
00:02:34,090 --> 00:02:31,580
Leary I was at Brandeis in 1960 and when

54
00:02:36,970 --> 00:02:34,100
Aldous Huxley gave his doors of

55
00:02:40,540 --> 00:02:36,980
perception talk at MIT I was actually

56
00:02:43,240 --> 00:02:40,550
there and Leary was still a professor at

57
00:02:44,680 --> 00:02:43,250
Harvard then and Leary contacted me I

58
00:02:46,509 --> 00:02:44,690
was a graduate student at Brandeis in

59
00:02:52,030 --> 00:02:46,519
physics you know a National Defense

60
00:02:53,949 --> 00:02:52,040
fellow and Leary wanted me to do the LSD

61
00:02:55,000 --> 00:02:53,959
at Harvard for experiments I didn't I

62
00:02:56,500 --> 00:02:55,010
didn't do it I was what I was very

63
00:02:59,800 --> 00:02:56,510

straight I didn't do it but then I knew

64

00:03:06,630 --> 00:02:59,810

Tim afterward when when we were at

65

00:03:11,559 --> 00:03:06,640

Esalen you know in there's 76 and Nixon

66

00:03:14,140 --> 00:03:11,569

released Leary from prison in the care

67

00:03:16,270 --> 00:03:14,150

of George Koopman who was this army

68

00:03:19,180 --> 00:03:16,280

intelligence agent was funding us at at

69

00:03:21,819 --> 00:03:19,190

Esalen and that's how Leary Leary when

70

00:03:23,860 --> 00:03:21,829

Leary was released from prison he became

71

00:03:25,599 --> 00:03:23,870

part of our group at eslint physics

72

00:03:27,430 --> 00:03:25,609

consciousness research group you know

73

00:03:30,970 --> 00:03:27,440

financed by Earhart this whole thing is

74

00:03:33,370 --> 00:03:30,980

very you know so you never used LSD to

75

00:03:35,590 --> 00:03:33,380

help in your thought process when it

76

00:03:38,890 --> 00:03:35,600

comes to do you think I may have said I

77

00:03:41,680 --> 00:03:38,900

think I took LSD two or three times more

78

00:03:44,050 --> 00:03:41,690

for a social reason as opposed to I

79

00:03:48,699 --> 00:03:44,060

actually have one no okay one time okay

80

00:03:51,550 --> 00:03:48,709

he said I don't care one of my mentors

81

00:03:55,590 --> 00:03:51,560

at the time this was tube in the late

82

00:03:59,559 --> 00:03:55,600

70s or early 80s was Marshall Navy

83

00:04:02,830 --> 00:03:59,569

Marshall Navy was a United Artists

84

00:04:05,020 --> 00:04:02,840

theaters billionaire friend of Ronald

85

00:04:08,640 --> 00:04:05,030

Reagan's he was like The Godfather

86

00:04:11,229 --> 00:04:08,650

anybody want to make a movie when when

87

00:04:12,039 --> 00:04:11,239

Francis Coppola who I knew was part of

88

00:04:13,809 --> 00:04:12,049

his Rat Pack

89

00:04:16,000 --> 00:04:13,819

I mean Coppola one wants his financed

90

00:04:19,000 --> 00:04:16,010

movies he was called Marshall in any

91

00:04:21,070 --> 00:04:19,010

case so Marshall I did a nice thing with

92

00:04:22,210 --> 00:04:21,080

Marshall because he was kind of like a

93

00:04:26,860 --> 00:04:22,220

wizard

94

00:04:29,260 --> 00:04:26,870

and and at that point we did like I had

95

00:04:32,380 --> 00:04:29,270

but this time travel experience while I

96

00:04:36,090 --> 00:04:32,390

was back with Marshall in ancient Egypt

97

00:04:39,190 --> 00:04:36,100

in this in this in this kind of Emerald

98

00:04:44,220 --> 00:04:39,200

Palace sort of thing and also I had like

99

00:04:47,890 --> 00:04:44,230

an experience where I was a Grail Knight

100

00:04:49,870 --> 00:04:47,900

wounded wounded on the battlefield spear

101
00:04:54,220 --> 00:04:49,880
so this is why you believe in time

102
00:04:56,260 --> 00:04:54,230
travel but now we experienced mentally

103
00:04:58,480 --> 00:04:56,270
mentally was pretty real I mean that's a

104
00:05:02,020 --> 00:04:58,490
but that was Marshall himself was like a

105
00:05:05,170 --> 00:05:02,030
wizard he was he was like you know he

106
00:05:06,970 --> 00:05:05,180
was special and and he's dead now so I

107
00:05:09,730 --> 00:05:06,980
could talk about it but it was because

108
00:05:12,220 --> 00:05:09,740
of Marshall that the Strategic Defense

109
00:05:13,720 --> 00:05:12,230
Initiative was done by Reagan see that's

110
00:05:15,460 --> 00:05:13,730
a whole story that if you want to get

111
00:05:18,070 --> 00:05:15,470
him to have what that really happens

112
00:05:19,510 --> 00:05:18,080
well I think we should we will get into

113
00:05:22,630 --> 00:05:19,520

that a little bit because we've had

114

00:05:26,170 --> 00:05:22,640

someone assert on our show that the SDI

115

00:05:29,290 --> 00:05:26,180

the cult Star Wars was what ultimately

116

00:05:30,940 --> 00:05:29,300

led to the us developing tick-tack which

117

00:05:32,920 --> 00:05:30,950

I know you don't agree with but anyway

118

00:05:37,060 --> 00:05:32,930

well I let me put it this way I hope

119

00:05:38,830 --> 00:05:37,070

that's true I hope that's true I don't

120

00:05:42,400 --> 00:05:38,840

think it is the reason I don't think it

121

00:05:44,940 --> 00:05:42,410

is because I know all the top guys in

122

00:05:50,230 --> 00:05:44,950

physics in this field like Kip Thorne I

123

00:05:54,780 --> 00:05:50,240

was asked by CIA guys and DOD guys back

124

00:05:58,000 --> 00:05:54,790

in the mid 70s during this SSRI

125

00:06:00,550 --> 00:05:58,010

remote-viewing episode that's all and

126

00:06:03,909 --> 00:06:00,560

how the hippy say physics we were I was

127

00:06:05,590 --> 00:06:03,919

asked to work on two problems okay how

128

00:06:07,000 --> 00:06:05,600

does consciousness work from a physics

129

00:06:09,460 --> 00:06:07,010

point of view no no no spiritual

130

00:06:13,780 --> 00:06:09,470

[h__h] and you know pardon my french

131

00:06:14,830 --> 00:06:13,790

how does it work physically and how do

132

00:06:21,250 --> 00:06:14,840

you oppose fly

133

00:06:23,020 --> 00:06:21,260

I was also as a child you know around 13

134

00:06:26,350 --> 00:06:23,030

years old I was part of a

135

00:06:30,279 --> 00:06:26,360

government-sponsored super kids project

136

00:06:33,070 --> 00:06:30,289

out of Columbia University and we were

137

00:06:33,730 --> 00:06:33,080

also guys from said from the government

138

00:06:39,460 --> 00:06:33,740

with

139

00:06:42,550 --> 00:06:39,470

collected and we were also asked to

140

00:06:44,730 --> 00:06:42,560

think about flying saucers and they test

141

00:06:47,999 --> 00:06:44,740

them to see if we had paranormal powers

142

00:06:51,730 --> 00:06:48,009

okay and it was because of that project

143

00:06:55,270 --> 00:06:51,740

that I was sent to Cornell by on a full

144

00:06:58,360 --> 00:06:55,280

scholarship when I was still 16 well did

145

00:07:00,219 --> 00:06:58,370

you have 17 years old my mother did I

146

00:07:01,510 --> 00:07:00,229

was a single mother living a single

147

00:07:02,980 --> 00:07:01,520

mother she didn't have any money it was

148

00:07:06,820 --> 00:07:02,990

at an Ivy League school everything was

149

00:07:09,370 --> 00:07:06,830

paid for okay so this is a long-term

150

00:07:10,839 --> 00:07:09,380

thing also well you also you have I know

151
00:07:12,879 --> 00:07:10,849
you have a childhood story to that oh

152
00:07:15,999 --> 00:07:12,889
yeah all right that I want to know let's

153
00:07:19,420 --> 00:07:16,009
go back to your statement that you would

154
00:07:23,469 --> 00:07:19,430
love for these tic tacs be us technology

155
00:07:27,990 --> 00:07:23,479
yes but you feel that you know all the

156
00:07:30,580 --> 00:07:28,000
key thinkers in this area yes and also I

157
00:07:33,339 --> 00:07:30,590
I don't want to sound egotistical but

158
00:07:34,749 --> 00:07:33,349
I'm just being truthful I know how chick

159
00:07:36,490 --> 00:07:34,759
tack works and I know none of these

160
00:07:38,680 --> 00:07:36,500
other guys for what I've seen they don't

161
00:07:41,439 --> 00:07:38,690
they don't even have a clue how to how

162
00:07:43,390 --> 00:07:41,449
it works okay the only way they could

163
00:07:45,700 --> 00:07:43,400

have developed it is because time travel

164

00:07:47,920 --> 00:07:45,710

is involved if the stuff that I'm

165

00:07:50,560 --> 00:07:47,930

working on now gets developed in the

166

00:07:52,570 --> 00:07:50,570

future okay and then they went back in

167

00:07:54,879 --> 00:07:52,580

time you know with time loops with time

168

00:07:56,439 --> 00:07:54,889

travel let's go back to what you

169

00:07:59,529 --> 00:07:56,449

acknowledge is a very arrogant statement

170

00:08:01,990 --> 00:07:59,539

which is that you know how Tic Tacs

171

00:08:04,120 --> 00:08:02,000

works but essentially nobody else does

172

00:08:06,370 --> 00:08:04,130

or certainly nobody knew it 20 years ago

173

00:08:07,120 --> 00:08:06,380

in time to have created this yeah

174

00:08:09,010 --> 00:08:07,130

exactly

175

00:08:10,930 --> 00:08:09,020

okay but what about all these because we

176

00:08:13,270 --> 00:08:10,940

were also talking about star wars SGI

177

00:08:14,409 --> 00:08:13,280

well I was involved in that see I was

178

00:08:16,600 --> 00:08:14,419

involved with Star Wars

179

00:08:18,820 --> 00:08:16,610

okay but you've got billions of dollars

180

00:08:20,350 --> 00:08:18,830

going into black projects right that's

181

00:08:21,760 --> 00:08:20,360

okay but if they're too stupid they

182

00:08:22,779 --> 00:08:21,770

don't understand what they're doing yeah

183

00:08:24,520 --> 00:08:22,789

I don't care how many billions of

184

00:08:26,260 --> 00:08:24,530

dollars yeah look at what's-his-name

185

00:08:27,939 --> 00:08:26,270

look at Bloomberg these guys put up

186

00:08:31,540 --> 00:08:27,949

hundreds of millions dollars and he's a

187

00:08:33,550 --> 00:08:31,550

schmuck upon me I mean he doesn't have

188

00:08:34,630 --> 00:08:33,560

Trump's charisma so it does so the money

189

00:08:36,940 --> 00:08:34,640

doesn't matter

190

00:08:38,830 --> 00:08:36,950

and I'm not one that often gives the

191

00:08:40,840 --> 00:08:38,840

government a lot of credit for spending

192

00:08:42,820 --> 00:08:40,850

money wisely so so I'm with you I can

193

00:08:48,370 --> 00:08:42,830

see really everybody been the government

194

00:08:49,660 --> 00:08:48,380

is stupid what about the stealth

195

00:08:51,340 --> 00:08:49,670

technology that the government well

196

00:08:53,530 --> 00:08:51,350

that's good then yeah itself but that's

197

00:08:55,150 --> 00:08:53,540

pretty conventional stuff and actually

198

00:08:57,550 --> 00:08:55,160

what I'm talking about is really does

199

00:08:59,530 --> 00:08:57,560

have stealth capability as well but and

200

00:09:01,870 --> 00:08:59,540

they may have gotten that according to

201
00:09:04,450 --> 00:09:01,880
Colonel Corso Phil course so they may

202
00:09:06,100 --> 00:09:04,460
have gotten that but from retrieved you

203
00:09:07,450 --> 00:09:06,110
know sources I mean that we don't you

204
00:09:09,490 --> 00:09:07,460
know that's a whole controversial area

205
00:09:12,460 --> 00:09:09,500
I'm not particularly its provide mine is

206
00:09:15,910 --> 00:09:12,470
stealth is an example of a project

207
00:09:18,550 --> 00:09:15,920
coming to being developed significant

208
00:09:20,110 --> 00:09:18,560
advancements that was kept secret for a

209
00:09:22,150 --> 00:09:20,120
long time but there's no way to keep

210
00:09:24,880 --> 00:09:22,160
this kind of thing secret for one thing

211
00:09:27,400 --> 00:09:24,890
stealth is all classical electromagnetic

212
00:09:29,530 --> 00:09:27,410
field theory doesn't not involve gravity

213
00:09:32,050 --> 00:09:29,540

theory which is what tic-tac is and

214

00:09:33,190 --> 00:09:32,060

these guys the engineers were they could

215

00:09:35,470 --> 00:09:33,200

be very good in electrical engineering

216

00:09:37,960 --> 00:09:35,480

but they don't understand Einstein's

217

00:09:39,760 --> 00:09:37,970

theory of gravity they don't understand

218

00:09:42,160 --> 00:09:39,770

physically and they could never have

219

00:09:45,670 --> 00:09:42,170

gotten it because I get so much

220

00:09:48,340 --> 00:09:45,680

opposition right now from the

221

00:09:50,200 --> 00:09:48,350

establishment on how I think tic-tac

222

00:09:53,380 --> 00:09:50,210

works because this one key idea they

223

00:09:55,090 --> 00:09:53,390

missed secretly I just got I'm not going

224

00:09:56,740 --> 00:09:55,100

to say exactly what he said he'll put

225

00:09:57,910 --> 00:09:56,750

off you know he is right I'll put off I

226

00:10:01,060 --> 00:09:57,920

know you've been mentioning his name

227

00:10:07,510 --> 00:10:01,070

Allah Patel he'll put off okay how put

228

00:10:09,700 --> 00:10:07,520

off was okay he was a naval officer in

229

00:10:11,320 --> 00:10:09,710

Naval Intelligence back on you know 60s

230

00:10:14,170 --> 00:10:11,330

my a no he's older than me they actually

231

00:10:16,120 --> 00:10:14,180

thought he's 85 now he's older me he had

232

00:10:19,510 --> 00:10:16,130

the high security clearances worked with

233

00:10:23,890 --> 00:10:19,520

the NSA he became he's a PhD laser

234

00:10:27,340 --> 00:10:23,900

experimental physicist he did he was in

235

00:10:30,160 --> 00:10:27,350

charge with with rust argh

236

00:10:32,770 --> 00:10:30,170

the CIA remote new remote viewing

237

00:10:34,240 --> 00:10:32,780

experiments with Pat price and rugello

238

00:10:36,730 --> 00:10:34,250

all that in the seventies that I was

239

00:10:38,200 --> 00:10:36,740

involved with at Stanford with Edgar

240

00:10:41,110 --> 00:10:38,210

Mitchell the astronaut running it was

241

00:10:43,720 --> 00:10:41,120

all CIA project and he is the chief

242

00:10:44,490 --> 00:10:43,730

scientists at to the Stars Academy right

243

00:10:47,490 --> 00:10:44,500

now

244

00:10:50,160 --> 00:10:47,500

okay who are trying to explain the

245

00:10:51,780 --> 00:10:50,170

tic-tac and also a Chris melon a

246

00:10:54,300 --> 00:10:51,790

Christopher melon of the bail-ins

247

00:10:57,030 --> 00:10:54,310

Carnegie Mellon University which it

248

00:10:57,720 --> 00:10:57,040

Schiavi melon is his eye nose uncle

249

00:11:01,320 --> 00:10:57,730

something like that

250

00:11:03,780 --> 00:11:01,330

Chris melon 62 years old you know he

251

00:11:05,730 --> 00:11:03,790

yell skullenbones all that kind of stuff

252

00:11:06,210 --> 00:11:05,740

you know so you know you understand what

253

00:11:10,110 --> 00:11:06,220

I'm talking about

254

00:11:13,620 --> 00:11:10,120

he was deputy assistant secretary of

255

00:11:16,290 --> 00:11:13,630

defense for intelligence okay and he

256

00:11:20,100 --> 00:11:16,300

says they don't know so he's certainly

257

00:11:23,760 --> 00:11:20,110

in a position to know what is it that

258

00:11:26,640 --> 00:11:23,770

houses how does it happen well I I just

259

00:11:28,410 --> 00:11:26,650

got a privileged thing from it just two

260

00:11:34,160 --> 00:11:28,420

days ago so I got to be careful what I

261

00:11:37,140 --> 00:11:34,170

say but how basically agree with me that

262

00:11:39,480 --> 00:11:37,150

that the guy's the subject they they're

263

00:11:42,630 --> 00:11:39,490

just not ready to accept this key idea

264

00:11:45,240 --> 00:11:42,640

but I think how how is now on my side on

265

00:11:49,680 --> 00:11:45,250

this because you know how and I go back

266

00:11:55,920 --> 00:11:49,690

a long way so there's this one key idea

267

00:11:57,900 --> 00:11:55,930

of how matter couples the gravity in

268

00:11:59,610 --> 00:11:57,910

Einstein's equation and there's

269

00:12:02,400 --> 00:11:59,620

something called the speed of light and

270

00:12:05,910 --> 00:12:02,410

all these idiots pardon me but you're a

271

00:12:07,500 --> 00:12:05,920

bunch of idiots his alias they think the

272

00:12:09,540 --> 00:12:07,510

speed of light has to be the speed of

273

00:12:12,180 --> 00:12:09,550

light in vacuum even though it's inside

274

00:12:14,040 --> 00:12:12,190

a material okay and the point is you

275

00:12:17,840 --> 00:12:14,050

have to use the speed of light in the

276

00:12:20,430 --> 00:12:17,850

material and then once you realize that

277

00:12:22,980 --> 00:12:20,440

everything about tic-tac is easy to

278

00:12:25,230 --> 00:12:22,990

explain that's this stumbling block they

279

00:12:27,210 --> 00:12:25,240

have a mental block about this and you

280

00:12:28,590 --> 00:12:27,220

say they you're referring to who I'm

281

00:12:30,300 --> 00:12:28,600

referring to a lot of my colleagues who

282

00:12:31,770 --> 00:12:30,310

should know better I'm preferring to pH

283

00:12:34,200 --> 00:12:31,780

even people in gravity because let me

284

00:12:37,500 --> 00:12:34,210

tell you something you read a textbook

285

00:12:40,530 --> 00:12:37,510

on Einstein's theory of gravity and the

286

00:12:42,420 --> 00:12:40,540

coupling is a coupling between energy

287

00:12:44,250 --> 00:12:42,430

between the like the matter fields that

288

00:12:46,230 --> 00:12:44,260

create gravity and the gravitational

289

00:12:48,600 --> 00:12:46,240

warp field itself that come the right

290

00:12:50,070 --> 00:12:48,610

they set it equal to 1 it's a constant

291

00:12:53,190 --> 00:12:50,080

they don't want to deal with it because

292

00:12:56,010 --> 00:12:53,200

what they're trying to do most of the

293

00:12:57,670 --> 00:12:56,020

physicists doing in this field they are

294

00:12:59,710 --> 00:12:57,680

mathematicians and they're looking for

295

00:13:02,829 --> 00:12:59,720

mathematical elegance and they forget

296

00:13:04,690 --> 00:13:02,839

that that coupling from an engineering

297

00:13:06,190 --> 00:13:04,700

point is very important got to see what

298

00:13:08,290 --> 00:13:06,200

it actually is okay

299

00:13:09,850 --> 00:13:08,300

and so they forgotten things things that

300

00:13:11,769 --> 00:13:09,860

electric that come normal to an

301
00:13:14,260 --> 00:13:11,779
electrical engineer they haven't done so

302
00:13:15,639 --> 00:13:14,270
it's a matter of over specialization you

303
00:13:17,440 --> 00:13:15,649
know like the left hand isn't what the

304
00:13:19,030 --> 00:13:17,450
right hand is doing what I'm saying to

305
00:13:21,880 --> 00:13:19,040
an engineer to electrical engineer being

306
00:13:24,820 --> 00:13:21,890
sort of perfectly obvious okay so that's

307
00:13:27,519 --> 00:13:24,830
the stumbling block see the problem is

308
00:13:29,949 --> 00:13:27,529
this if you read any of the standard

309
00:13:32,500 --> 00:13:29,959
papers in the field when they're talking

310
00:13:34,870 --> 00:13:32,510
about warp drive or they talk about time

311
00:13:36,550 --> 00:13:34,880
travel through wormholes they say well

312
00:13:40,960 --> 00:13:36,560
the problem is it requires so much

313
00:13:42,670 --> 00:13:40,970

energy to do it see and that's and

314

00:13:44,410 --> 00:13:42,680

that's see and that's not true and you

315

00:13:47,740 --> 00:13:44,420

could actually do with it with a with a

316

00:13:50,980 --> 00:13:47,750

triple-a battery yeah tic-tac itself

317

00:13:53,230 --> 00:13:50,990

does not require a lot of energy yes and

318

00:13:55,449 --> 00:13:53,240

the reason and you know that to be true

319

00:13:57,790 --> 00:13:55,459

see that's a that's now an observational

320

00:14:00,639 --> 00:13:57,800

fact they observe the tic-tac what going

321

00:14:02,769 --> 00:14:00,649

from 80,000 feet down to 50 feet in like

322

00:14:05,079 --> 00:14:02,779

less than two seconds and there's no

323

00:14:06,490 --> 00:14:05,089

there's no jet engines there's no flares

324

00:14:08,910 --> 00:14:06,500

how's it going to do that's going at

325

00:14:11,949 --> 00:14:08,920

hundreds of g's maybe thousands of G's

326

00:14:13,360 --> 00:14:11,959

how's it doing that say there's no way

327

00:14:16,060 --> 00:14:13,370

it can do that by conventional

328

00:14:18,010 --> 00:14:16,070

propulsion and and if it was using a lot

329

00:14:19,630 --> 00:14:18,020

of energy if you calculate how much

330

00:14:22,000 --> 00:14:19,640

energy involved would it would burn up

331

00:14:23,680 --> 00:14:22,010

the whole planet you know there's very

332

00:14:25,900 --> 00:14:23,690

little it's stealthy so to speak and

333

00:14:28,210 --> 00:14:25,910

that it doesn't make a noise it may make

334

00:14:30,579 --> 00:14:28,220

a little noise okay so explain in

335

00:14:33,340 --> 00:14:30,589

layman's terms the best you can what

336

00:14:35,350 --> 00:14:33,350

you've discovered I don't know how that

337

00:14:38,290 --> 00:14:35,360

tic-tac is doing let's do ya the way

338

00:14:42,160 --> 00:14:38,300

it's doing it it's because there's a

339

00:14:43,600 --> 00:14:42,170

special material that is the fuselage a

340

00:14:45,880 --> 00:14:43,610

fuselage is built to something called a

341

00:14:47,710 --> 00:14:45,890

meta material and there's a lot of

342

00:14:52,690 --> 00:14:47,720

research going on and meta materials now

343

00:14:54,760 --> 00:14:52,700

and and what happens is that if you pump

344

00:14:57,280 --> 00:14:54,770

electromagnetic energy into the

345

00:14:59,740 --> 00:14:57,290

metamaterial it can have a certain kind

346

00:15:02,650 --> 00:14:59,750

of what's called a resonance and in that

347

00:15:05,440 --> 00:15:02,660

resonance the speed of light inside the

348

00:15:08,990 --> 00:15:05,450

material can go down to a very small

349

00:15:11,000 --> 00:15:09,000

number and since the speed of light

350

00:15:13,100 --> 00:15:11,010

a little bit of math fractions f no

351
00:15:16,670 --> 00:15:13,110
fractions since the speed of light

352
00:15:19,850 --> 00:15:16,680
appears in the denominator of Einstein's

353
00:15:21,230 --> 00:15:19,860
coupling of matter to gravity it's in

354
00:15:23,450 --> 00:15:21,240
the denominator and it's in the

355
00:15:28,430 --> 00:15:23,460
denominator to the fourth power I could

356
00:15:31,040 --> 00:15:28,440
draw okay that's gonna mean a lot to

357
00:15:32,780 --> 00:15:31,050
about point something a percentage of

358
00:15:35,240 --> 00:15:32,790
our our people okay

359
00:15:37,040 --> 00:15:35,250
since the CC the speedlights in the

360
00:15:38,240 --> 00:15:37,050
denominator if I can't even say that

361
00:15:42,170 --> 00:15:38,250
because we got a lot of people on audio

362
00:15:45,170 --> 00:15:42,180
is that eight pi and then gravity a

363
00:15:47,300 --> 00:15:45,180

capital G Newton's constant capital G

364

00:15:49,250 --> 00:15:47,310

and this is called the index of

365

00:15:52,220 --> 00:15:49,260

refraction of the material to the fourth

366

00:15:54,140 --> 00:15:52,230

power and this is the speed of light the

367

00:15:56,810 --> 00:15:54,150

speed of light actually in vacuum but

368

00:16:00,530 --> 00:15:56,820

but everything is here this this this

369

00:16:03,020 --> 00:16:00,540

index of refraction and gets very big in

370

00:16:05,540 --> 00:16:03,030

a resonance it's very big whose formula

371

00:16:06,140 --> 00:16:05,550

is this by the way Einstein okay this is

372

00:16:08,150 --> 00:16:06,150

a fine

373

00:16:09,740 --> 00:16:08,160

well the this part is mine putting in

374

00:16:11,780 --> 00:16:09,750

the end the eyesight only had this

375

00:16:13,850 --> 00:16:11,790

what's unique about the end that you the

376

00:16:17,030 --> 00:16:13,860

end is the is the response of the

377

00:16:19,010 --> 00:16:17,040

material which which everybody left out

378

00:16:21,470 --> 00:16:19,020

okay it's called the in fact that the

379

00:16:22,130 --> 00:16:21,480

speed of light is not constant it's in a

380

00:16:24,110 --> 00:16:22,140

vacuum

381

00:16:27,829 --> 00:16:24,120

it's constant but once it interacts with

382

00:16:28,880 --> 00:16:27,839

the material it can slow down in fact it

383

00:16:30,920 --> 00:16:28,890

generally does slow that's called

384

00:16:33,590 --> 00:16:30,930

refraction slows down the reason for

385

00:16:35,210 --> 00:16:33,600

that is what what sad with the speed of

386

00:16:37,760 --> 00:16:35,220

light the speed of light of photons in

387

00:16:39,560 --> 00:16:37,770

vacuum when the speed of when photons

388

00:16:41,300 --> 00:16:39,570

move through the vacuum they encounter

389

00:16:43,970 --> 00:16:41,310

what a cold virtual electron positron

390

00:16:45,380 --> 00:16:43,980

pairs they're like charges that are

391

00:16:47,120 --> 00:16:45,390

fluttering in and out of existence and

392

00:16:49,010 --> 00:16:47,130

they scatter off those virtual electron

393

00:16:51,110 --> 00:16:49,020

positron pairs and that slows it down

394

00:16:53,510 --> 00:16:51,120

but that's vacuum that's the speed of

395

00:16:55,190 --> 00:16:53,520

light back it's still pretty big 186,000

396

00:16:57,110 --> 00:16:55,200

miles per second right all right

397

00:16:59,510 --> 00:16:57,120

but then when it gets into matter there

398

00:17:01,790 --> 00:16:59,520

are other charges there so that's that's

399

00:17:04,910 --> 00:17:01,800

the key of these metamaterials which can

400

00:17:06,920 --> 00:17:04,920

alter the speed of light dramatically

401
00:17:08,689 --> 00:17:06,930
and man is capable of making these

402
00:17:11,300 --> 00:17:08,699
metamaterials so we're making them all

403
00:17:13,550 --> 00:17:11,310
over the place hundreds I mean it's a

404
00:17:15,819 --> 00:17:13,560
huge in metamaterial industry now what

405
00:17:17,900 --> 00:17:15,829
do we use metamaterials for as we speak

406
00:17:19,520 --> 00:17:17,910
well they're using them till you get

407
00:17:21,620 --> 00:17:19,530
like what I call perfect lenses you can

408
00:17:22,490 --> 00:17:21,630
resolve images better than what's called

409
00:17:25,760 --> 00:17:22,500
the refraction

410
00:17:27,559 --> 00:17:25,770
the diffraction limit there's all kinds

411
00:17:31,039 --> 00:17:27,569
of applications for sensors it's a big

412
00:17:33,440 --> 00:17:31,049
industry okay I don't want you know so

413
00:17:34,610 --> 00:17:33,450

so so man is perfectly capable of making

414

00:17:37,399 --> 00:17:34,620

the meta materials that would be needed

415

00:17:39,799 --> 00:17:37,409

for changing well not necessarily no no

416

00:17:41,390 --> 00:17:39,809

there right now we're making them at a

417

00:17:44,180 --> 00:17:41,400

gross level they're making them kind of

418

00:17:46,100 --> 00:17:44,190

crude well like with long wavelengths

419

00:17:46,490 --> 00:17:46,110

big wavelengths microwave stuff like

420

00:17:49,990 --> 00:17:46,500

that

421

00:17:52,250 --> 00:17:50,000

according to Eric Davis who has

422

00:17:55,070 --> 00:17:52,260

physicist who has some intelligence

423

00:17:57,409 --> 00:17:55,080

connections he let slip that some of the

424

00:17:59,240 --> 00:17:57,419

that they have retrieved tic-tac

425

00:18:01,880 --> 00:17:59,250

material in which it looks like the

426
00:18:04,340 --> 00:18:01,890
metamaterial is down to the nano meter

427
00:18:05,990 --> 00:18:04,350
billionth of a meter level and I don't

428
00:18:08,240 --> 00:18:06,000
think we know how to do that yet I mean

429
00:18:12,010 --> 00:18:08,250
is did this you know maybe I mean that

430
00:18:14,630 --> 00:18:12,020
we and it was retrieved how well that

431
00:18:17,270 --> 00:18:14,640
that's not that's sort of classify I

432
00:18:19,039 --> 00:18:17,280
mean I don't know what but allegedly it

433
00:18:22,460 --> 00:18:19,049
slipped out one of the rumors are that

434
00:18:26,840 --> 00:18:22,470
these meta materials found in tic-tac or

435
00:18:29,029 --> 00:18:26,850
flying saucer retrieve materials that if

436
00:18:30,440 --> 00:18:29,039
with the electron microscope it's like

437
00:18:32,360 --> 00:18:30,450
it's like wheels within wheels like

438
00:18:34,610 --> 00:18:32,370

Russian dolls its lattices it's like

439

00:18:36,950 --> 00:18:34,620

many materials within meta materials

440

00:18:38,990 --> 00:18:36,960

it's like a fractal sort of different

441

00:18:40,850 --> 00:18:39,000

scales but it goes down not only to the

442

00:18:43,580 --> 00:18:40,860

billionth of a meter scale but maybe

443

00:18:46,130 --> 00:18:43,590

down to the angstrom an atomic scale so

444

00:18:47,779 --> 00:18:46,140

this is what the Missouri so Crimea we

445

00:18:49,549 --> 00:18:47,789

can make it at centimeters and make it

446

00:18:51,140 --> 00:18:49,559

at millimeters but making it down that

447

00:18:52,700 --> 00:18:51,150

small that's the problem

448

00:18:55,310 --> 00:18:52,710

okay you know what it's like it's like

449

00:18:59,870 --> 00:18:55,320

my professors at Cornell built the

450

00:19:02,149 --> 00:18:59,880

atomic bomb Manhattan Project okay John

451
00:19:04,250 --> 00:19:02,159
Wheeler the theoretical physicists back

452
00:19:07,279 --> 00:19:04,260
in the 30s they understood in principle

453
00:19:09,649 --> 00:19:07,289
how to get a fission reaction right and

454
00:19:11,149 --> 00:19:09,659
so they understood it conceptually

455
00:19:12,909 --> 00:19:11,159
and that's the same way when I say I

456
00:19:15,529 --> 00:19:12,919
understand tic-tac I understand it

457
00:19:17,450 --> 00:19:15,539
conceptually in terms of basic equations

458
00:19:19,820 --> 00:19:17,460
of physics how it works but how to

459
00:19:21,289 --> 00:19:19,830
engineer it to get engineer it they had

460
00:19:23,899 --> 00:19:21,299
the Manhattan Project they had to learn

461
00:19:25,400 --> 00:19:23,909
how to refine you know you to get

462
00:19:27,500 --> 00:19:25,410
plutonium and

463
00:19:29,870 --> 00:19:27,510

and the different that was at u-235

464

00:19:31,400 --> 00:19:29,880

whatever was and that was a major job

465

00:19:33,470 --> 00:19:31,410

that took billions of dollars and

466

00:19:34,940 --> 00:19:33,480

thousands keeping it high level what we

467

00:19:36,350 --> 00:19:34,950

would need to do is be able to develop

468

00:19:37,970 --> 00:19:36,360

this metamaterial you're saying we

469

00:19:40,700 --> 00:19:37,980

already make many materials my questions

470

00:19:42,680 --> 00:19:40,710

on that subject is is there anything

471

00:19:44,570 --> 00:19:42,690

close that we've made to this type of

472

00:19:46,400 --> 00:19:44,580

metamaterial well this is we be

473

00:19:48,350 --> 00:19:46,410

classified I don't know if it is but by

474

00:19:50,390 --> 00:19:48,360

me that you know of was the most

475

00:19:52,220 --> 00:19:50,400

sophisticated metamaterial no no they'd

476

00:19:55,300 --> 00:19:52,230

know with that's the big stumbling block

477

00:19:58,310 --> 00:19:55,310

that's what that's that's if that's if

478

00:20:00,050 --> 00:19:58,320

if I get to meet with President Trump

479

00:20:02,210 --> 00:20:00,060

which they're trying to arrange actually

480

00:20:04,340 --> 00:20:02,220

so I'm supposed to talk about them yeah

481

00:20:06,620 --> 00:20:04,350

I think it's okay so making the matter

482

00:20:10,190 --> 00:20:06,630

mature if Trump says he's a blank check

483

00:20:12,850 --> 00:20:10,200

jack is it Billy whatever you need okay

484

00:20:15,380 --> 00:20:12,860

then we're gonna then that's the first

485

00:20:16,880 --> 00:20:15,390

so the number one is getting is making

486

00:20:19,130 --> 00:20:16,890

the proper meta mature or what would be

487

00:20:20,870 --> 00:20:19,140

what's number two key to actually making

488

00:20:23,870 --> 00:20:20,880

a tic-tac oh well once you have the

489

00:20:27,230 --> 00:20:23,880

metamaterial you're in like Flynn what

490

00:20:28,990 --> 00:20:27,240

would the power source be Energizer

491

00:20:31,370 --> 00:20:29,000

Bunny battery

492

00:20:33,400 --> 00:20:31,380

no it'll be more than that probably but

493

00:20:36,500 --> 00:20:33,410

in principle it could be tiny

494

00:20:38,270 --> 00:20:36,510

metamaterial in principle it could be

495

00:20:41,480 --> 00:20:38,280

the electrical power from your brain

496

00:20:43,850 --> 00:20:41,490

from EEG because there is evidence for

497

00:20:45,920 --> 00:20:43,860

that you know there's this Colonel Phil

498

00:20:50,720 --> 00:20:45,930

you know about it Mike there's a colonel

499

00:20:52,610 --> 00:20:50,730

Phil Corso says that the the little

500

00:20:54,890 --> 00:20:52,620

green meadow the the grains whatever

501
00:20:56,570 --> 00:20:54,900
they were they had they would they were

502
00:20:58,940 --> 00:20:56,580
they were controlling this the craft

503
00:21:00,530 --> 00:20:58,950
with their brainwaves and this is enough

504
00:21:02,690 --> 00:21:00,540
energy there's enough in it and actually

505
00:21:04,820 --> 00:21:02,700
you know I can't there's some other

506
00:21:07,160 --> 00:21:04,830
cousin but I'd realized I'd be revealing

507
00:21:09,530 --> 00:21:07,170
a confidence from how so I can't say

508
00:21:12,080 --> 00:21:09,540
that but the amount of energy required

509
00:21:13,250 --> 00:21:12,090
is basically very small they used to

510
00:21:15,170 --> 00:21:13,260
think it would take a jooopa the whole

511
00:21:17,720 --> 00:21:15,180
jupiter-mass the whole mass of Jupiter

512
00:21:19,220 --> 00:21:17,730
to do it well okay so yes so let's

513
00:21:22,610 --> 00:21:19,230

continue to talk about energy and power

514

00:21:24,050 --> 00:21:22,620

so what is it a lot of people have said

515

00:21:25,910 --> 00:21:24,060

I think you've said that once you

516

00:21:28,340 --> 00:21:25,920

develop this tic-tac that we've solved

517

00:21:30,170 --> 00:21:28,350

energy issues for the world that no

518

00:21:32,210 --> 00:21:30,180

longer do we need fossil fuels that's to

519

00:21:33,800 --> 00:21:32,220

explain that how do these meta materials

520

00:21:35,540 --> 00:21:33,810

how would we utilize these meta

521

00:21:37,580 --> 00:21:35,550

materials such that we no longer need to

522

00:21:39,200 --> 00:21:37,590

drive I mean you know okay you saw Iron

523

00:21:41,630 --> 00:21:39,210

Man he puts on a suit

524

00:21:44,000 --> 00:21:41,640

Fleiss you're talking about that I mean

525

00:21:46,460 --> 00:21:44,010

you make a suit out of metamaterial you

526
00:21:48,799 --> 00:21:46,470
can literally fly like Superman you know

527
00:21:50,750 --> 00:21:48,809
it goes back to the like because you've

528
00:21:52,580 --> 00:21:50,760
defeated gravity yeah you're controlling

529
00:21:54,950 --> 00:21:52,590
the gravitational field locally with

530
00:21:57,440 --> 00:21:54,960
small amounts of energy in Azura is

531
00:21:59,990 --> 00:21:57,450
there a field around tic-tac it's a

532
00:22:02,450 --> 00:22:00,000
gravity field and this account it's a

533
00:22:05,029 --> 00:22:02,460
you're generating you're generating a

534
00:22:06,289 --> 00:22:05,039
what's called a confined it's called

535
00:22:08,690 --> 00:22:06,299
technically it's called a near field

536
00:22:10,610 --> 00:22:08,700
okay the Earth's field the Earth's field

537
00:22:12,409 --> 00:22:10,620
the field we're in it's called a near

538
00:22:15,200 --> 00:22:12,419

field that's not it's not gravity waves

539

00:22:16,850 --> 00:22:15,210

radiating out you know it's like it's

540

00:22:18,139 --> 00:22:16,860

it's like the feel from a battery like

541

00:22:21,049 --> 00:22:18,149

the Coulomb electrical fear it's a

542

00:22:23,389 --> 00:22:21,059

static field it's not it's not wavy so

543

00:22:28,419 --> 00:22:23,399

what you're doing in the metamaterial

544

00:22:31,970 --> 00:22:28,429

itself you're able to generate whatever

545

00:22:33,529 --> 00:22:31,980

confined gravity field you desire I mean

546

00:22:34,970 --> 00:22:33,539

you have a computer this computer what

547

00:22:36,860 --> 00:22:34,980

am I thinking of it correctly that it's

548

00:22:39,139 --> 00:22:36,870

really counter balancing the gravity

549

00:22:40,549 --> 00:22:39,149

field from the earth yeah so you're

550

00:22:42,500 --> 00:22:40,559

creating a gravity field from the

551
00:22:46,340 --> 00:22:42,510
tic-tac that's equal to the gravity

552
00:22:48,980 --> 00:22:46,350
field and also in detonating yes yes

553
00:22:50,899 --> 00:22:48,990
roughly speaking yeah well okay let me

554
00:22:53,269 --> 00:22:50,909
let me tell you how what's called the

555
00:22:57,740 --> 00:22:53,279
Alcubierre warp drive works you have a

556
00:22:59,720 --> 00:22:57,750
starship okay you have a starship and in

557
00:23:02,090 --> 00:22:59,730
the in the nose of the starship and

558
00:23:04,250 --> 00:23:02,100
those are starship you have a creating

559
00:23:06,320 --> 00:23:04,260
annoy an ordinary attractive gravity

560
00:23:08,810 --> 00:23:06,330
field what attractive gravity field does

561
00:23:10,430 --> 00:23:08,820
it could sort of contracts to space so

562
00:23:13,100 --> 00:23:10,440
since the space is contracting it's like

563
00:23:15,620 --> 00:23:13,110

pulling the starship and then and then

564

00:23:17,210 --> 00:23:15,630

behind the starship in the tail you have

565

00:23:18,649 --> 00:23:17,220

an anti gravity source a negative

566

00:23:20,600 --> 00:23:18,659

repulsive gravity and what that's it's

567

00:23:22,730 --> 00:23:20,610

expanding space so that's so that's

568

00:23:25,389 --> 00:23:22,740

that's pushing it from behind pulling it

569

00:23:27,740 --> 00:23:25,399

from the front but the ship itself

570

00:23:29,480 --> 00:23:27,750

locally it's not moving at all in its

571

00:23:30,680 --> 00:23:29,490

local gravitational field so I'm moving

572

00:23:33,830 --> 00:23:30,690

through space

573

00:23:34,220 --> 00:23:33,840

it's control it's it's folding space do

574

00:23:37,370 --> 00:23:34,230

you have it

575

00:23:39,560 --> 00:23:37,380

Frank Herbert Doon remember in dude they

576

00:23:41,840 --> 00:23:39,570

folded space they use the spice it's

577

00:23:43,159 --> 00:23:41,850

like that it's like Frank Herbert's so

578

00:23:45,049 --> 00:23:43,169

that you're saying these concepts from

579

00:23:46,010 --> 00:23:45,059

these old shows and movies are really

580

00:23:48,080 --> 00:23:46,020

real concepts

581

00:23:49,700 --> 00:23:48,090

oh yeah well yes it's a matter of

582

00:23:50,120 --> 00:23:49,710

perfecting them it's a matter perfecting

583

00:23:52,039 --> 00:23:50,130

them yeah

584

00:23:52,710 --> 00:23:52,049

you know in many cases what's happening

585

00:23:54,720 --> 00:23:52,720

that a lot

586

00:23:57,000 --> 00:23:54,730

fiction what's happening is that people

587

00:23:59,640 --> 00:23:57,010

are receiving in front they're doing

588

00:24:02,159 --> 00:23:59,650

precognitive remote view remote viewing

589

00:24:04,169 --> 00:24:02,169

of future science and it's going into

590

00:24:05,850 --> 00:24:04,179

the science-fiction you know it's said

591

00:24:08,220 --> 00:24:05,860

that a lot of science the reason science

592

00:24:10,830 --> 00:24:08,230

fact the reason Jules Verne and HG Wells

593

00:24:12,120 --> 00:24:10,840

are so accurate in many ways is because

594

00:24:14,130 --> 00:24:12,130

they're actually seeing future

595

00:24:15,779 --> 00:24:14,140

developments see that's the way physics

596

00:24:17,850 --> 00:24:15,789

works turns out that's quantum mechanics

597

00:24:19,710 --> 00:24:17,860

in quantum mechanics back from the

598

00:24:21,600 --> 00:24:19,720

future information plays a very key role

599

00:24:23,909 --> 00:24:21,610

in what's called entanglement quantum

600

00:24:26,190 --> 00:24:23,919

entanglement well as quantum computers

601
00:24:28,409 --> 00:24:26,200
and quantum cryptography and all that

602
00:24:31,020 --> 00:24:28,419
stuff so it's it's a very pretty picture

603
00:24:34,260 --> 00:24:31,030
so the point is this the way the tic-tac

604
00:24:36,149 --> 00:24:34,270
works if you had a graduate student on

605
00:24:39,330 --> 00:24:36,159
his PhD oral exam and I was his

606
00:24:41,100 --> 00:24:39,340
examining professor okay I would go up

607
00:24:43,320 --> 00:24:41,110
on the blackboard I draw this thing I'd

608
00:24:45,000 --> 00:24:43,330
say now tell me with this how could you

609
00:24:47,850 --> 00:24:45,010
get something like tic-tac to work and

610
00:24:49,440 --> 00:24:47,860
in 30 minutes any good physics graduate

611
00:24:51,060 --> 00:24:49,450
student would figure it out because it's

612
00:24:53,580 --> 00:24:51,070
not that hard once you have the right

613
00:24:56,270 --> 00:24:53,590

idea once you get to the right idea have

614

00:25:00,899 --> 00:24:56,280

we ever controlled gravity in any way no

615

00:25:02,159 --> 00:25:00,909

no not by the time we make control in

616

00:25:04,110 --> 00:25:02,169

the future and they may have gone back

617

00:25:05,880 --> 00:25:04,120

in time you know but there but correct

618

00:25:08,340 --> 00:25:05,890

me if I'm wrong there's been decades of

619

00:25:09,659 --> 00:25:08,350

research about goodbye idiots they don't

620

00:25:11,909 --> 00:25:09,669

understand what they do it come on

621

00:25:14,789 --> 00:25:11,919

everybody's an idiot no none none that

622

00:25:16,980 --> 00:25:14,799

they're smart know what I say I mean I'm

623

00:25:18,750 --> 00:25:16,990

an idiot at times too everybody's what

624

00:25:20,190 --> 00:25:18,760

did Einstein say anybody who's not made

625

00:25:23,130 --> 00:25:20,200

a mistake has never done anything

626

00:25:24,330 --> 00:25:23,140

well you're 80 years old you're an idiot

627

00:25:27,450 --> 00:25:24,340

that he didn't come up with it sooner

628

00:25:28,890 --> 00:25:27,460

well yes know that we okay now let's

629

00:25:30,330 --> 00:25:28,900

right now let me let me explain that's

630

00:25:33,060 --> 00:25:30,340

actually a good point I want to get into

631

00:25:35,460 --> 00:25:33,070

that a little bit when I was 13 years

632

00:25:39,360 --> 00:25:35,470

old that I had this weird high strangest

633

00:25:40,649 --> 00:25:39,370

contact the entity which said it was a

634

00:25:44,220 --> 00:25:40,659

conscious computer onboard a spacecraft

635

00:25:46,590 --> 00:25:44,230

from the future said that I was part of

636

00:25:49,289 --> 00:25:46,600

it that they had selected me and a bunch

637

00:25:51,539 --> 00:25:49,299

of others a few others bright receptive

638

00:25:54,419 --> 00:25:51,549

minds to teach their technology to and

639

00:25:56,700 --> 00:25:54,429

so I was told that I was going to do

640

00:25:57,899 --> 00:25:56,710

this and I was also told I was gonna

641

00:26:00,720 --> 00:25:57,909

meet it took you long enough

642

00:26:02,909 --> 00:26:00,730

yeah took long enough but but ed white

643

00:26:04,799 --> 00:26:02,919

and now I was told I was gonna meet the

644

00:26:06,690 --> 00:26:04,809

others and 20 years in the future

645

00:26:08,820 --> 00:26:06,700

this is 1953

646

00:26:12,539 --> 00:26:08,830

1973's when I met you know Werner Erhard

647

00:26:14,519 --> 00:26:12,549

how put off all the guys from this if

648

00:26:17,269 --> 00:26:14,529

I'm Edgar Mitchell all the guys doing

649

00:26:19,979 --> 00:26:17,279

the remote viewing experiments okay and

650

00:26:21,690 --> 00:26:19,989

they have had similar experiences in

651
00:26:24,599 --> 00:26:21,700
fact there's a tape recording this was

652
00:26:28,560 --> 00:26:24,609
all CIA there's a tape recording of my

653
00:26:31,460 --> 00:26:28,570
initial meeting at s @ s RI back in 1973

654
00:26:35,249 --> 00:26:31,470
where this whole thing comes up where

655
00:26:36,989 --> 00:26:35,259
where Russell Targ one of the key guys

656
00:26:38,580 --> 00:26:36,999
starts talking about well we think that

657
00:26:40,799 --> 00:26:38,590
these flying cells are coming back from

658
00:26:43,409 --> 00:26:40,809
the future and they said oh my god that

659
00:26:46,590 --> 00:26:43,419
I reminded my telephone call experience

660
00:26:48,450 --> 00:26:46,600
and then this guy Brendan Oh Reagan who

661
00:26:51,090 --> 00:26:48,460
was Edgar Mitchell's right-hand man in

662
00:26:53,489 --> 00:26:51,100
the CIA project says oh yeah we have

663
00:26:55,919 --> 00:26:53,499

data on several hundred experiences like

664

00:27:00,659 --> 00:26:55,929

that so this whole thing and this is a

665

00:27:03,930 --> 00:27:00,669

CIA tape recording that is is out there

666

00:27:07,169 --> 00:27:03,940

okay you can actually hear us talking in

667

00:27:09,029 --> 00:27:07,179

1973 about this thank you guys so so

668

00:27:11,489 --> 00:27:09,039

this is everything everything I say

669

00:27:12,960 --> 00:27:11,499

could be corroborated contested am I

670

00:27:14,549 --> 00:27:12,970

correct that you've said that you think

671

00:27:16,680 --> 00:27:14,559

that this could be developed in ten

672

00:27:18,029 --> 00:27:16,690

years time I could be developing three

673

00:27:20,820 --> 00:27:18,039

years time so it depends on the amount

674

00:27:22,289 --> 00:27:20,830

of money cuz the amount of money okay

675

00:27:24,119 --> 00:27:22,299

look let's let hey it depends on who's

676
00:27:26,430 --> 00:27:24,129
doing it too late let's look at the

677
00:27:27,869 --> 00:27:26,440
corona virus now what they just said

678
00:27:30,060 --> 00:27:27,879
it's gonna take what three years to a

679
00:27:31,139 --> 00:27:30,070
year and a half three years the Israelis

680
00:27:35,690 --> 00:27:31,149
just announced they're gonna have it in

681
00:27:38,369 --> 00:27:35,700
90 days because this spot was doing it

682
00:27:41,759 --> 00:27:38,379
okay so you believe based on your

683
00:27:43,919 --> 00:27:41,769
formula and your discovery that we could

684
00:27:45,930 --> 00:27:43,929
take that information turn it into a

685
00:27:47,639 --> 00:27:45,940
tic-tac far as how long it would take

686
00:27:49,440 --> 00:27:47,649
depends on how many resources we throw

687
00:27:52,950 --> 00:27:49,450
at it but anywhere from one to ten years

688
00:27:55,979 --> 00:27:52,960

yeah and this is what you want to share

689

00:27:57,960 --> 00:27:55,989

with president Rome absolutely this one

690

00:27:59,549 --> 00:27:57,970

what Joe and I know I could sell Trump

691

00:28:01,289 --> 00:27:59,559

in ten minutes because Trump and I we

692

00:28:03,269 --> 00:28:01,299

come from the same area I'm a little bit

693

00:28:05,070 --> 00:28:03,279

older than him I'm also a New Yorker I

694

00:28:07,259 --> 00:28:05,080

understand how he thinks he knows I've

695

00:28:10,229 --> 00:28:07,269

been supporting him from from before

696

00:28:11,639 --> 00:28:10,239

from the time he announced oh by the way

697

00:28:14,310 --> 00:28:11,649

the other thing is you know since I

698

00:28:16,710 --> 00:28:14,320

belong to a to a club in London

699

00:28:18,450 --> 00:28:16,720

exclusive club in London they used to

700

00:28:18,720 --> 00:28:18,460

call it the spies Club during the World

701

00:28:21,720 --> 00:28:18,730

War

702

00:28:24,870 --> 00:28:21,730

to a lot of guys from mi5 mi6 was right

703

00:28:29,250 --> 00:28:24,880

close to the old embassy the American

704

00:28:31,680 --> 00:28:29,260

Embassy okay and and I was told then I

705

00:28:33,360 --> 00:28:31,690

was told April of 2017 about the coup

706

00:28:37,140 --> 00:28:33,370

d'etat against the president

707

00:28:39,660 --> 00:28:37,150

by and into by a former American naval

708

00:28:43,470 --> 00:28:39,670

intelligence agent who was stationed at

709

00:28:46,050 --> 00:28:43,480

the embassy since retired former Navy

710

00:28:48,000 --> 00:28:46,060

SEAL okay and he had matter of fact I

711

00:28:49,680 --> 00:28:48,010

don't know what side he was on but I was

712

00:28:51,390 --> 00:28:49,690

told about I born one of my people

713

00:28:54,810 --> 00:28:51,400

friends I know you who close to the

714

00:28:59,760 --> 00:28:54,820

Trump so I know this to be a fact okay

715

00:29:03,210 --> 00:28:59,770

and we're gonna we're gonna talk some

716

00:29:04,890 --> 00:29:03,220

Trump so going back to the number of

717

00:29:06,360 --> 00:29:04,900

people that potentially could have the

718

00:29:07,860 --> 00:29:06,370

same solution that you have I mean I

719

00:29:08,940 --> 00:29:07,870

guess there is no you race you sitting

720

00:29:09,870 --> 00:29:08,950

here saying that I don't know how many

721

00:29:11,720 --> 00:29:09,880

billion people there are in the world

722

00:29:15,470 --> 00:29:11,730

Michael you could look out for us but

723

00:29:19,080 --> 00:29:15,480

you're the only one I'm the only one yes

724

00:29:21,150 --> 00:29:19,090

Michael do me a favor and over I meant

725

00:29:22,620 --> 00:29:21,160

to have the patent and I think oh yeah

726

00:29:25,890 --> 00:29:22,630

the pay's Pat yeah I think it I think

727

00:29:27,540 --> 00:29:25,900

it's either in there so you can find it

728

00:29:30,270 --> 00:29:27,550

whoops keep going yeah why you look for

729

00:29:32,190 --> 00:29:30,280

yeah but um because yeah but let's go

730

00:29:35,400 --> 00:29:32,200

ahead and talk about him the Salvatori

731

00:29:37,560 --> 00:29:35,410

paste PE is advertising is an

732

00:29:39,240 --> 00:29:37,570

interesting case first of all his patent

733

00:29:41,970 --> 00:29:39,250

has been completely debunked as far as

734

00:29:43,770 --> 00:29:41,980

the physics goes by Erik Davis who's a

735

00:29:47,340 --> 00:29:43,780

smart guy Eric and I don't get along on

736

00:29:50,190 --> 00:29:47,350

everything but I serve Sal is asking the

737

00:29:55,650 --> 00:29:50,200

right questions he's asking the right

738

00:29:57,360 --> 00:29:55,660

questions he's - he's tuned in and it's

739

00:29:59,280 --> 00:29:57,370

a it's an enigma going on there because

740

00:30:00,870 --> 00:29:59,290

there has to be really like a an

741

00:30:02,610 --> 00:30:00,880

investigation what's really going on

742

00:30:04,620 --> 00:30:02,620

there because if I had to fit first of

743

00:30:07,590 --> 00:30:04,630

all he's sound start by using tremendous

744

00:30:10,200 --> 00:30:07,600

amounts of energy he's not a so he's so

745

00:30:12,000 --> 00:30:10,210

what was your assessment of the patent

746

00:30:13,620 --> 00:30:12,010

what did you think of the baton I think

747

00:30:16,910 --> 00:30:13,630

it's and I think he's asking the right

748

00:30:19,350 --> 00:30:16,920

question but so he's in the ballpark

749

00:30:21,810 --> 00:30:19,360

because the nantes salute the patents

750

00:30:23,460 --> 00:30:21,820

not gonna work pants not gonna work and

751

00:30:25,050 --> 00:30:23,470

the first of the patent is no gent

752

00:30:27,030 --> 00:30:25,060

there's no time stein there's none no

753

00:30:29,460 --> 00:30:27,040

physics in it there's no Darrell it's

754

00:30:30,520 --> 00:30:29,470

only electrodynamics the only thing that

755

00:30:33,370 --> 00:30:30,530

might work there

756

00:30:35,020 --> 00:30:33,380

may have some kind of a propulsion

757

00:30:36,220 --> 00:30:35,030

system but it's not warp drive has

758

00:30:38,740 --> 00:30:36,230

nothing with gravity it's nothing with

759

00:30:41,830 --> 00:30:38,750

the gravitational field he says you know

760

00:30:44,830 --> 00:30:41,840

it's it's a bunch of words that there's

761

00:30:47,920 --> 00:30:44,840

it doesn't connect with anything he's

762

00:30:49,300 --> 00:30:47,930

asking the right guy yeah well it starts

763

00:30:52,240 --> 00:30:49,310

with their discussion about gravity and

764

00:30:53,890 --> 00:30:52,250

in the various for yeah but but there's

765

00:30:59,560 --> 00:30:53,900

nothing in his patent that corresponds

766

00:31:01,540 --> 00:30:59,570

to real physics that I know there's

767

00:31:03,340 --> 00:31:01,550

nothing there you don't see this there

768

00:31:05,560 --> 00:31:03,350

if you don't see this there let me I

769

00:31:07,180 --> 00:31:05,570

thought let me read this part cuz I want

770

00:31:11,020 --> 00:31:07,190

to get have you help explain this for

771

00:31:12,850 --> 00:31:11,030

for me there are four known fundamental

772

00:31:14,710 --> 00:31:12,860

forces which control matter and

773

00:31:16,960 --> 00:31:14,720

therefore control energy the four known

774

00:31:19,150 --> 00:31:16,970

forces are strong nuclear forces weak

775

00:31:20,830 --> 00:31:19,160

nuclear forces electromagnetic force and

776

00:31:21,400 --> 00:31:20,840

gravitational force okay stop right

777

00:31:23,020 --> 00:31:21,410

there

778

00:31:25,770 --> 00:31:23,030

he's already made a mistake which a lot

779

00:31:28,510 --> 00:31:25,780

of people make gravity is not a force

780

00:31:29,980 --> 00:31:28,520

gravity is not a force it turns out what

781

00:31:31,870 --> 00:31:29,990

we consider the force of gravity are

782

00:31:34,570 --> 00:31:31,880

actually electromagnetic resent what

783

00:31:36,700 --> 00:31:34,580

achill reaction forces okay see what I

784

00:31:38,440 --> 00:31:36,710

said that shows what is it improper to

785

00:31:39,880 --> 00:31:38,450

use that term yes it does everybody says

786

00:31:41,860 --> 00:31:39,890

gravitational for I know and a lot of

787

00:31:42,580 --> 00:31:41,870

them and this is my point this is

788

00:31:45,400 --> 00:31:42,590

exactly my point

789

00:31:47,140 --> 00:31:45,410

a lot of high-energy physicists who are

790

00:31:49,000 --> 00:31:47,150

good high-energy physics they also use

791

00:31:51,940 --> 00:31:49,010

gravitational force and but they don't

792

00:31:59,470 --> 00:31:51,950

understand general relativity that's not

793

00:32:01,300 --> 00:31:59,480

what Einstein said okay this is the

794

00:32:04,420 --> 00:32:01,310

important dimensions in in this

795

00:32:06,520 --> 00:32:04,430

hierarchy of forces the electromagnetic

796

00:32:09,220 --> 00:32:06,530

force is perfectly positioned to be able

797

00:32:14,620 --> 00:32:09,230

to manipulate the other three do you

798

00:32:16,870 --> 00:32:14,630

agree with that first of all you don't

799

00:32:18,910 --> 00:32:16,880

have to manipulate the the other the the

800

00:32:21,100 --> 00:32:18,920

actual forces in nature are three

801
00:32:24,340 --> 00:32:21,110
there's the electromagnetic force the

802
00:32:27,300 --> 00:32:24,350
weak force and the strong force the weak

803
00:32:29,950 --> 00:32:27,310
force and the strong force play no role

804
00:32:32,410 --> 00:32:29,960
for tic-tac not important they're there

805
00:32:33,370 --> 00:32:32,420
they might play some secondary well not

806
00:32:34,750 --> 00:32:33,380
important the only thing you have to

807
00:32:36,790 --> 00:32:34,760
worry about the electromagnetic force

808
00:32:39,910 --> 00:32:36,800
how it interacts with the gravitational

809
00:32:43,630 --> 00:32:39,920
field what what Einstein showed was that

810
00:32:44,560 --> 00:32:43,640
the gravitational field gives you all

811
00:32:48,899 --> 00:32:44,570
poss

812
00:32:51,220 --> 00:32:48,909
what are called real force free

813
00:32:53,110 --> 00:32:51,230

trajectories it is debate the

814

00:32:55,659 --> 00:32:53,120

gravitational field is the basis of

815

00:32:57,669 --> 00:32:55,669

emotion that that happens under no

816

00:32:59,799 --> 00:32:57,679

forces at all what's called free when

817

00:33:02,049 --> 00:32:59,809

you when when you jump off a ladder

818

00:33:04,210 --> 00:33:02,059

you're freely falling when the

819

00:33:06,430 --> 00:33:04,220

astronauts going around in Space Station

820

00:33:08,440 --> 00:33:06,440

when they're going around in orbit and

821

00:33:10,539 --> 00:33:08,450

they're freely floating they're what

822

00:33:13,600 --> 00:33:10,549

they're called they're moving in a force

823

00:33:15,100 --> 00:33:13,610

free what's called time like geodesic

824

00:33:17,049 --> 00:33:15,110

that's in the form of a circle or an

825

00:33:19,029 --> 00:33:17,059

ellipse or something like that so the

826

00:33:21,490 --> 00:33:19,039

gravity according to Einstein this is

827

00:33:22,600 --> 00:33:21,500

what most physicists even who never took

828

00:33:25,060 --> 00:33:22,610

the course in general it's a very

829

00:33:26,529 --> 00:33:25,070

properly they don't understand that what

830

00:33:29,830 --> 00:33:26,539

the gravitational field it's the

831

00:33:34,600 --> 00:33:29,840

reference arena for force free

832

00:33:37,600 --> 00:33:34,610

weightless free free fall motion here on

833

00:33:40,690 --> 00:33:37,610

earth with India on earth we feel wait

834

00:33:42,340 --> 00:33:40,700

because we are actually accelerating

835

00:33:44,259 --> 00:33:42,350

upward but we're not moving because the

836

00:33:46,840 --> 00:33:44,269

space-time is curved the space is curved

837

00:33:49,509 --> 00:33:46,850

so in order to stand still in order to

838

00:33:51,220 --> 00:33:49,519

stand still see electrical force is what

839

00:33:53,440 --> 00:33:51,230

they're feeling okay when you get into

840

00:33:55,419 --> 00:33:53,450

your BMW convertible they use up you

841

00:33:57,340 --> 00:33:55,429

know stomp on the gas and you feel like

842

00:33:59,080 --> 00:33:57,350

that's that's g-force right when the

843

00:34:01,149 --> 00:33:59,090

wooden travel with commander Fram was

844

00:34:02,470 --> 00:34:01,159

trying to be in a dogfight against the

845

00:34:05,860 --> 00:34:02,480

tic-tac he doesn't have a chance of

846

00:34:07,269 --> 00:34:05,870

course and he he feels g-forces right

847

00:34:09,899 --> 00:34:07,279

that those are all electromagnetic

848

00:34:12,940 --> 00:34:09,909

forces from the frustum the jet engine

849

00:34:14,530 --> 00:34:12,950

okay so that's the first thing and in

850

00:34:16,119 --> 00:34:14,540

saying that for a second so I don't

851
00:34:18,760 --> 00:34:16,129
forget this question if you were inside

852
00:34:20,440 --> 00:34:18,770
the tic-tac would you get g-force or no

853
00:34:22,389 --> 00:34:20,450
zero that's the whole point

854
00:34:24,010 --> 00:34:22,399
weightless the guys in the tic-tac

855
00:34:25,930 --> 00:34:24,020
they're weightless even though from the

856
00:34:28,569 --> 00:34:25,940
outside it looks and from the outside

857
00:34:31,720 --> 00:34:28,579
it's going at you know fifty thousand

858
00:34:33,010 --> 00:34:31,730
miles an hour and doing a u-turn and it

859
00:34:35,649 --> 00:34:33,020
looks like the g-force would be like

860
00:34:36,819 --> 00:34:35,659
impossible inside feels nothing it's

861
00:34:38,800 --> 00:34:36,829
weightless there the fact they have to

862
00:34:41,290 --> 00:34:38,810
wear magnetic boots so they don't float

863
00:34:44,169 --> 00:34:41,300

around just like oh that would counter

864

00:34:45,609 --> 00:34:44,179

our friend Mike turbos claim are you

865

00:34:48,339 --> 00:34:45,619

wear this Mike turbo that we interviewed

866

00:34:50,470 --> 00:34:48,349

so you know you're our you know tenth or

867

00:34:52,629 --> 00:34:50,480

twelfth episode digging into this but it

868

00:34:54,190 --> 00:34:52,639

started with this guy Mike turbo who

869

00:34:56,079 --> 00:34:54,200

used to be in the Air Force who says

870

00:34:57,790 --> 00:34:56,089

that he's got friends at plant 42 you

871

00:35:00,400 --> 00:34:57,800

familiar with plant 42

872

00:35:02,700 --> 00:35:00,410

so supposedly that's where major secret

873

00:35:04,840 --> 00:35:02,710

projects are developed so you know

874

00:35:06,280 --> 00:35:04,850

Lockheed would be there and break down

875

00:35:07,780 --> 00:35:06,290

the be there etc so if they're working

876

00:35:09,730 --> 00:35:07,790

on something for the government they can

877

00:35:13,990 --> 00:35:09,740

work on it there yeah in total secrecy

878

00:35:16,000 --> 00:35:14,000

and so he claims that these are made by

879

00:35:17,560 --> 00:35:16,010

the US military

880

00:35:19,330 --> 00:35:17,570

yeah and that they were made by I

881

00:35:22,540 --> 00:35:19,340

believe you said Lockheed and in

882

00:35:27,190 --> 00:35:22,550

Raytheon um and then went on to say that

883

00:35:31,630 --> 00:35:27,200

he he implied that he may have actually

884

00:35:33,850 --> 00:35:31,640

ridden on one yeah but that the speed of

885

00:35:38,740 --> 00:35:33,860

it was only one G so it went from

886

00:35:40,660 --> 00:35:38,750

Palmdale to DC in like 84 minutes yeah

887

00:35:43,780 --> 00:35:40,670

so that is so that the G Force would

888

00:35:45,160 --> 00:35:43,790

never exceed 1g and that's why I

889

00:35:47,380 --> 00:35:45,170

wouldn't just zip there because he's

890

00:35:49,810 --> 00:35:47,390

because somebody but it's not tic-tac

891

00:35:51,790 --> 00:35:49,820

it's not warp drive it doesn't do what

892

00:35:53,740 --> 00:35:51,800

tic-tac does well he's saying this it

893

00:35:55,900 --> 00:35:53,750

does do what tic-tac does but it went

894

00:35:57,940 --> 00:35:55,910

any modest speed because otherwise the

895

00:36:01,810 --> 00:35:57,950

g-force wouldn't he doesn't then he's

896

00:36:06,250 --> 00:36:01,820

full of [h__\h] [h__\h] you have me on to bait

897

00:36:07,570 --> 00:36:06,260

him okay I'm from Brooklyn man so

898

00:36:11,020 --> 00:36:07,580

basically you're saying you're saying if

899

00:36:12,610 --> 00:36:11,030

there was a anything inside the tic-tac

900

00:36:15,250 --> 00:36:12,620

it's not gonna feel gravitational force

901
00:36:16,660 --> 00:36:15,260
so there's no reason in not g-force

902
00:36:19,930 --> 00:36:16,670
etcetera so there's no reason for it to

903
00:36:22,180 --> 00:36:19,940
go at a particular speed no if a human

904
00:36:24,670 --> 00:36:22,190
being is on tic-tac but he's right he

905
00:36:26,920 --> 00:36:24,680
has to have a magnetic boot so he

906
00:36:28,630 --> 00:36:26,930
doesn't float around no matter what it's

907
00:36:30,880 --> 00:36:28,640
doing from the outside because he's

908
00:36:33,280 --> 00:36:30,890
controlling the locally locally it's

909
00:36:35,140 --> 00:36:33,290
like lovely it's like it's like you're

910
00:36:36,700 --> 00:36:35,150
free floating inside see you're

911
00:36:39,250 --> 00:36:36,710
controlling the local gravity it

912
00:36:40,990 --> 00:36:39,260
controls its own path and for that by

913
00:36:43,330 --> 00:36:41,000

the way you need a supercomputer what

914

00:36:45,280 --> 00:36:43,340

you need is a conscious artificial

915

00:36:47,320 --> 00:36:45,290

intelligence that's embedded into the

916

00:36:49,120 --> 00:36:47,330

metamaterial the fuselage itself that is

917

00:36:50,440 --> 00:36:49,130

computing rapidly how much electric

918

00:36:51,850 --> 00:36:50,450

field do I put in this part of the fuse

919

00:36:53,950 --> 00:36:51,860

like how much electrodes do I put there

920

00:36:56,020 --> 00:36:53,960

you know it's got to be computing this

921

00:36:57,160 --> 00:36:56,030

in order to dogfight in order to keep

922

00:36:59,860 --> 00:36:57,170

maneuvering it what are you talking

923

00:37:02,230 --> 00:36:59,870

about the electromagnetic boot of the

924

00:37:04,270 --> 00:37:02,240

the what what's happening you have a

925

00:37:06,190 --> 00:37:04,280

battery let's say well maybe it's a

926
00:37:07,900 --> 00:37:06,200
nuclear maybe it's a little nuclear

927
00:37:09,790 --> 00:37:07,910
fission battery or something like that

928
00:37:10,630 --> 00:37:09,800
could whatever some source of electrical

929
00:37:12,550 --> 00:37:10,640
energy

930
00:37:14,230 --> 00:37:12,560
okay it might be regular battery maybe

931
00:37:15,760 --> 00:37:14,240
something bad maybe it's a cold fusion -

932
00:37:17,590 --> 00:37:15,770
who the hell knows what but it's but you

933
00:37:20,290 --> 00:37:17,600
need some energy source and what that

934
00:37:23,610 --> 00:37:20,300
energy it's like a battery and the it

935
00:37:27,130 --> 00:37:23,620
gives an electromagnetic field

936
00:37:28,960 --> 00:37:27,140
permeating the interior thickness of the

937
00:37:30,910 --> 00:37:28,970
metamaterial you know the metamaterial

938
00:37:32,890 --> 00:37:30,920

it's like okay the minima tear it's like

939

00:37:36,160 --> 00:37:32,900

a bun it's like a nervous system it's

940

00:37:38,670 --> 00:37:36,170

like a bunch of nodes they call quantum

941

00:37:41,710 --> 00:37:38,680

dots they're like artificial atoms and

942

00:37:44,350 --> 00:37:41,720

and each and eat their little pixels

943

00:37:47,520 --> 00:37:44,360

like pixels on a screen okay and so each

944

00:37:48,970 --> 00:37:47,530

pixel is controlled by a little

945

00:37:50,830 --> 00:37:48,980

electromagnetic field

946

00:37:52,810 --> 00:37:50,840

just think of a capella gate think of a

947

00:37:54,790 --> 00:37:52,820

capacitor let's be real simple you know

948

00:37:57,820 --> 00:37:54,800

a capacitor caralho plate capacitor

949

00:38:01,140 --> 00:37:57,830

connected to a battery okay and you turn

950

00:38:04,360 --> 00:38:01,150

and you can control the electric field

951
00:38:06,250 --> 00:38:04,370
in the inside the capacitor with how

952
00:38:09,820 --> 00:38:06,260
much voltage how much voltage you turn

953
00:38:11,830 --> 00:38:09,830
on so each little each little pixel or

954
00:38:14,920 --> 00:38:11,840
each little capacitor you have a bunch

955
00:38:17,170 --> 00:38:14,930
of capacitors that it's there tiling

956
00:38:19,330 --> 00:38:17,180
around the the entire fuselage right

957
00:38:20,710 --> 00:38:19,340
there's like a network of capacitors and

958
00:38:21,370 --> 00:38:20,720
these had their own little batteries

959
00:38:23,410 --> 00:38:21,380
okay

960
00:38:25,300 --> 00:38:23,420
and you have to know each battery it's a

961
00:38:27,490 --> 00:38:25,310
variable voltage source you have to know

962
00:38:29,410 --> 00:38:27,500
how much voltage to put on each pixel

963
00:38:31,540 --> 00:38:29,420

because a certain amount of voltage will

964

00:38:33,670 --> 00:38:31,550

generate a certain gravitational field

965

00:38:35,980 --> 00:38:33,680

right around that little capacitor so

966

00:38:38,650 --> 00:38:35,990

that all has to be computed by a

967

00:38:41,710 --> 00:38:38,660

supercomputer because it has to be done

968

00:38:43,030 --> 00:38:41,720

in real time okay so this is you know

969

00:38:44,920 --> 00:38:43,040

this is why that's the that's the

970

00:38:47,610 --> 00:38:44,930

conscious say that's the AI part of it

971

00:38:49,630 --> 00:38:47,620

this thing is this thing is a conscious

972

00:38:51,220 --> 00:38:49,640

computer we know say okay well you

973

00:38:52,710 --> 00:38:51,230

couldn't be well let me tell me you you

974

00:38:55,690 --> 00:38:52,720

couldn't fly this thing like a drone

975

00:38:58,290 --> 00:38:55,700

yeah drones yeah oh you got a guy on the

976
00:39:00,730 --> 00:38:58,300
ground being the pilot of the drone no

977
00:39:02,170 --> 00:39:00,740
well maybe you could depend on this so

978
00:39:04,180 --> 00:39:02,180
you might be able to do it that way you

979
00:39:05,890 --> 00:39:04,190
might be able to but chances are it's is

980
00:39:07,770 --> 00:39:05,900
controlling itself it's a I think it's

981
00:39:10,000 --> 00:39:07,780
probably it's an autonomous AI

982
00:39:11,950 --> 00:39:10,010
controlling it there may be a real

983
00:39:15,070 --> 00:39:11,960
person inside or not it doesn't have to

984
00:39:16,570 --> 00:39:15,080
be I say the simplest it's probably no

985
00:39:17,680 --> 00:39:16,580
because the other reason you couldn't do

986
00:39:19,360 --> 00:39:17,690
that because then you have to wait for

987
00:39:21,160 --> 00:39:19,370
the delay time and the electromagnetic

988
00:39:22,780 --> 00:39:21,170

signals going from the ground control

989

00:39:24,559 --> 00:39:22,790

unit to the thing and it's not enough

990

00:39:26,569 --> 00:39:24,569

time to do that it's gotta do things

991

00:39:29,359 --> 00:39:26,579

you know much faster than that so it's

992

00:39:31,640 --> 00:39:29,369

got to be autonomous yeah in principle

993

00:39:33,140 --> 00:39:31,650

you do what you say but wouldn't if I

994

00:39:36,769 --> 00:39:33,150

was designing this thing I guess I will

995

00:39:38,959 --> 00:39:36,779

be designing to see you want it to you

996

00:39:41,179 --> 00:39:38,969

want it to be as fast as possible okay

997

00:39:44,239 --> 00:39:41,189

okay now that that would slow it down if

998

00:39:48,429 --> 00:39:44,249

it's always signal and not only that you

999

00:39:50,390 --> 00:39:48,439

can interfere with it trying to

1000

00:39:53,120 --> 00:39:50,400

countermeasure so you do countermeasures

1001

00:39:54,380 --> 00:39:53,130

you could Jam the signals right there

1002

00:39:56,659 --> 00:39:54,390

doing that all the time that's that's

1003

00:39:59,479 --> 00:39:56,669

probably drone wolf it has its own

1004

00:40:01,549 --> 00:39:59,489

consciousness yeah it's a how do you how

1005

00:40:06,859 --> 00:40:01,559

do you know intelligence yeah how do you

1006

00:40:10,130 --> 00:40:06,869

program it then programs itself but how

1007

00:40:12,279 --> 00:40:10,140

okay so how does the u.s. use this to

1008

00:40:16,819 --> 00:40:12,289

what we're designing it I will design it

1009

00:40:18,079 --> 00:40:16,829

okay the consciousness part in principle

1010

00:40:21,229 --> 00:40:18,089

you could do it without being conscious

1011

00:40:23,239 --> 00:40:21,239

okay just do it but but I have my own

1012

00:40:24,349 --> 00:40:23,249

reasons to think from my own experience

1013

00:40:26,059 --> 00:40:24,359

of what I was told because I was

1014

00:40:28,789 --> 00:40:26,069

contacted by a tic-tac and when I was 13

1015

00:40:32,359 --> 00:40:28,799

see a tic-tac basically contacted me in

1016

00:40:34,309 --> 00:40:32,369

1953 that's okay now you say why'd it

1017

00:40:35,569 --> 00:40:34,319

take so long let's get back to echoing

1018

00:40:38,149 --> 00:40:35,579

that's a good question why don't thank

1019

00:40:40,479 --> 00:40:38,159

so long because first I sound like I'm a

1020

00:40:47,449 --> 00:40:40,489

crazy nut case right we should be put in

1021

00:40:53,589 --> 00:40:47,459

saying this people get upset with me

1022

00:40:56,209 --> 00:40:53,599

when I say okay all right Brooklyn and

1023

00:40:58,640 --> 00:40:56,219

and and and I would always say whatever

1024

00:41:00,469 --> 00:40:58,650

the story would come up see truth is

1025

00:41:02,899 --> 00:41:00,479

more important than reputation and also

1026

00:41:05,959 --> 00:41:02,909

I've been funded you know by the powers

1027

00:41:08,089 --> 00:41:05,969

that be thank you to be independent be

1028

00:41:10,939 --> 00:41:08,099

an independent voice okay

1029

00:41:12,620 --> 00:41:10,949

I left academia because acting was too

1030

00:41:15,079 --> 00:41:12,630

stuffy for me all right

1031

00:41:17,029 --> 00:41:15,089

some I'm saying this crazy stuff because

1032

00:41:18,949 --> 00:41:17,039

it really happened and other people are

1033

00:41:28,370 --> 00:41:18,959

coming out of the closet or saying this

1034

00:41:30,919 --> 00:41:28,380

kind of stuff like it was an LGBTQ it's

1035

00:41:32,390 --> 00:41:30,929

now safe it's now safe right and we have

1036

00:41:34,170 --> 00:41:32,400

our civil right you're a civil rights

1037

00:41:38,289 --> 00:41:34,180

guy right

1038

00:41:40,029 --> 00:41:38,299

we're all s contactees you know alright

1039

00:41:41,859 --> 00:41:40,039

so well and by the way you're talking

1040

00:41:43,930 --> 00:41:41,869

about a real thing so called

1041

00:41:45,640 --> 00:41:43,940

discrimination against people with these

1042

00:41:47,079 --> 00:41:45,650

type of thoughts we've talked they

1043

00:41:48,670 --> 00:41:47,089

talked about it with pilots so how the

1044

00:41:50,079 --> 00:41:48,680

Navy is now telling pilots hey feel free

1045

00:41:51,009 --> 00:41:50,089

to come forward with this we're not

1046

00:41:53,019 --> 00:41:51,019

gonna laugh at you

1047

00:41:55,059 --> 00:41:53,029

and in academia you would be

1048

00:41:57,460 --> 00:41:55,069

marginalized if you said so the kind of

1049

00:41:59,200 --> 00:41:57,470

thing I guess I was but of course the

1050

00:42:03,249 --> 00:41:59,210

powers that be came in and gave me

1051
00:42:04,870 --> 00:42:03,259
independent funding I've been doing ok

1052
00:42:06,999 --> 00:42:04,880
so right but the thing that marginalizes

1053
00:42:08,799 --> 00:42:07,009
you is to say that you were visited as a

1054
00:42:10,359 --> 00:42:08,809
13 year by someone from the future right

1055
00:42:12,400 --> 00:42:10,369
coming up with something like this

1056
00:42:14,259 --> 00:42:12,410
you're not gonna be marginalized for the

1057
00:42:16,529 --> 00:42:14,269
year for this yeah but when they say I

1058
00:42:22,779 --> 00:42:16,539
gotta live but I see I got it from them

1059
00:42:24,009 --> 00:42:22,789
I'm just the messenger this formula that

1060
00:42:25,989 --> 00:42:24,019
you said is unique to you you've taken

1061
00:42:27,910 --> 00:42:25,999
Einstein's formula and modified in a bit

1062
00:42:32,229 --> 00:42:27,920
what do you mean you got it from them

1063
00:42:34,690 --> 00:42:32,239

okay well okay this has to we have all

1064

00:42:37,210 --> 00:42:34,700

creativity happens even when Mozart you

1065

00:42:38,529 --> 00:42:37,220

know said he would hear his symphonies

1066

00:42:40,839 --> 00:42:38,539

you know about this they would hear and

1067

00:42:43,509 --> 00:42:40,849

he was just he was he was just taking

1068

00:42:45,789 --> 00:42:43,519

dictation he heard he was like hearing

1069

00:42:47,380 --> 00:42:45,799

future future performances of his own

1070

00:42:48,910 --> 00:42:47,390

citizens just writing down that's when I

1071

00:42:52,719 --> 00:42:48,920

write this things that I just go like

1072

00:42:54,729 --> 00:42:52,729

I'm channeling right didn't be coming

1073

00:42:56,200 --> 00:42:54,739

from your own brain well it is coming

1074

00:42:58,359 --> 00:42:56,210

from my own brain but but but who knows

1075

00:43:00,190 --> 00:42:58,369

I mean you believe it's coming from

1076

00:43:02,979 --> 00:43:00,200

something external to your brain well

1077

00:43:05,109 --> 00:43:02,989

let's embrace filling it ok yeah ok I

1078

00:43:07,509 --> 00:43:05,119

think that's the book but let me let me

1079

00:43:11,799 --> 00:43:07,519

let me give you a why I might believe

1080

00:43:14,499 --> 00:43:11,809

that now if you look back if you listen

1081

00:43:16,870 --> 00:43:14,509

to the table try to get this tape of the

1082

00:43:19,200 --> 00:43:16,880

CIA recording of my interview at SSRI

1083

00:43:24,430 --> 00:43:19,210

when I was first asked to go there in

1084

00:43:28,499 --> 00:43:24,440

1973 and I talked about I received a

1085

00:43:31,479 --> 00:43:28,509

single phone call from the computer ok

1086

00:43:34,690 --> 00:43:31,489

then several months goes by all kinds of

1087

00:43:36,130 --> 00:43:34,700

things going on and I'm down in Austin

1088

00:43:38,709 --> 00:43:36,140

New York with a guy named Andrea

1089

00:43:41,049 --> 00:43:38,719

porridge and arugula the Israeli psychic

1090

00:43:45,519 --> 00:43:41,059

and and gell

1091

00:43:49,670 --> 00:43:48,079

captain well this is you should check

1092

00:43:52,069 --> 00:43:49,680

out who parish was very important for

1093

00:43:55,339 --> 00:43:52,079

you and my heart wrote this book called

1094

00:43:56,660 --> 00:43:55,349

Ori gives me a copy of the book I'm just

1095

00:44:00,289 --> 00:43:56,670

back from Europe meeting Werner Erhard

1096

00:44:02,059 --> 00:44:00,299

in Paris all that stuff and I go down to

1097

00:44:04,160 --> 00:44:02,069

my mother's place in Brooklyn with my

1098

00:44:04,670 --> 00:44:04,170

girlfriend Sharon I give my mother the

1099

00:44:06,650 --> 00:44:04,680

book

1100

00:44:08,720 --> 00:44:06,660

hurry was a big hit was on the Johnny

1101

00:44:11,180 --> 00:44:08,730

Carson show he's like a celebrity

1102

00:44:13,249 --> 00:44:11,190

my mother's reading the book is Jackie

1103

00:44:15,049 --> 00:44:13,259

Jackie look this is just like what

1104

00:44:19,489 --> 00:44:15,059

happened to you and I say what are you

1105

00:44:20,900 --> 00:44:19,499

talking about ma don't you remember the

1106

00:44:22,730 --> 00:44:20,910

computer aboard the Flying Saucer

1107

00:44:24,710 --> 00:44:22,740

contact me you were on the phone for

1108

00:44:27,019 --> 00:44:24,720

weeks at a time you having for four

1109

00:44:28,430 --> 00:44:27,029

hours and I finally got angry I pick up

1110

00:44:30,289 --> 00:44:28,440

the phone said who is this who is this

1111

00:44:34,819 --> 00:44:30,299

and this is my mother my Jewish mother

1112

00:44:36,769 --> 00:44:34,829

right Millie and she's and she said she

1113

00:44:38,269 --> 00:44:36,779

hears she hears a cold metallic voice

1114

00:44:40,130 --> 00:44:38,279

saying it's the computer onboard a

1115

00:44:48,079 --> 00:44:40,140

spacecraft and they please please put

1116

00:44:49,700 --> 00:44:48,089

your son back and don't you call up here

1117

00:44:53,210 --> 00:44:49,710

again slams the phone down that's oh

1118

00:44:54,950 --> 00:44:53,220

yeah now this is really okay my mother

1119

00:44:57,319 --> 00:44:54,960

remember these phone calls did you have

1120

00:44:58,819 --> 00:44:57,329

I remember the first call my mother

1121

00:45:00,979 --> 00:44:58,829

remembered three weeks of hours that she

1122

00:45:02,599 --> 00:45:00,989

I was walking around glassy-eyed she

1123

00:45:04,130 --> 00:45:02,609

thought you know kids on the phone 13

1124

00:45:06,140 --> 00:45:04,140

years old if the funds okay

1125

00:45:09,019 --> 00:45:06,150

so I have no that's I have no memory of

1126
00:45:09,799 --> 00:45:09,029
that do you have strong memory of what

1127
00:45:15,380 --> 00:45:09,809
you were being told

1128
00:45:18,009 --> 00:45:15,390
I only remember all I remember is I

1129
00:45:21,039 --> 00:45:18,019
powers alone I picked up the phone I

1130
00:45:24,319 --> 00:45:21,049
heard clunking the you know I heard

1131
00:45:26,660 --> 00:45:24,329
honking noises like relays going I had

1132
00:45:29,650 --> 00:45:26,670
just been to the Brooklyn Public Library

1133
00:45:33,019 --> 00:45:29,660
where I picked up this big book on

1134
00:45:35,450 --> 00:45:33,029
computer on computer switching circuits

1135
00:45:36,920 --> 00:45:35,460
electrical switching circuits okay which

1136
00:45:38,269 --> 00:45:36,930
was like the ain't via the brain the

1137
00:45:41,870 --> 00:45:38,279
ENIAC machines that they were developing

1138
00:45:46,640 --> 00:45:41,880

and remember this is 1953 okay 13 years

1139

00:45:48,739 --> 00:45:46,650

old but aa precocious kid and and and so

1140

00:45:51,710 --> 00:45:48,749

I hear clunking you know clunking sounds

1141

00:45:54,259 --> 00:45:51,720

and now you hear you know Stephen

1142

00:45:56,390 --> 00:45:54,269

Hawking the guy that got the the

1143

00:45:57,860 --> 00:45:56,400

paralyzed guy then his voice their

1144

00:46:02,330 --> 00:45:57,870

metallic force I he

1145

00:46:05,570 --> 00:46:02,340

Stephen Hawking's voice 1953 I've got a

1146

00:46:07,730 --> 00:46:05,580

voice metallic voice and it's number

1147

00:46:10,430 --> 00:46:07,740

since we feel like numbers integers just

1148

00:46:12,410 --> 00:46:10,440

repeating integers it starts very slow

1149

00:46:15,470 --> 00:46:12,420

see because I'm gonna experience it now

1150

00:46:18,560 --> 00:46:15,480

so it's very slow and it builds volume

1151
00:46:21,680 --> 00:46:18,570
volume and then it says Jack then starts

1152
00:46:25,880 --> 00:46:21,690
talking to me I said who's this right

1153
00:46:27,700 --> 00:46:25,890
and and then basically it said it was a

1154
00:46:30,740 --> 00:46:27,710
conscious computer onboard a spacecraft

1155
00:46:33,020 --> 00:46:30,750
that they had I was one of a group of

1156
00:46:34,220 --> 00:46:33,030
several hundred young bright receptive

1157
00:46:39,790 --> 00:46:34,230
minds they wanted to teach their

1158
00:46:43,610 --> 00:46:39,800
technology to and that if I had to agree

1159
00:46:46,520 --> 00:46:43,620
okay and that if and if I said yes they

1160
00:46:47,780 --> 00:46:46,530
would begin to meet the others in twenty

1161
00:46:49,220 --> 00:46:47,790
years was the seventy favorite someone I

1162
00:46:52,070 --> 00:46:49,230
meant put off with all these CIA guys

1163
00:46:55,700 --> 00:46:52,080

okay alright and I remember at the time

1164

00:46:58,130 --> 00:46:55,710

yeah I was a smart streetwise kid and I

1165

00:47:00,730 --> 00:46:58,140

knew about perverts and I said and at

1166

00:47:06,230 --> 00:47:00,740

first I thought okay it's a joke right

1167

00:47:08,360 --> 00:47:06,240

you know smart kid from New York and now

1168

00:47:10,010 --> 00:47:08,370

you guys know I can't well none of my

1169

00:47:11,750 --> 00:47:10,020

friends as far as me and they wouldn't

1170

00:47:13,730 --> 00:47:11,760

think of this I was in Tucson I could

1171

00:47:15,860 --> 00:47:13,740

have thought of it okay so I none of my

1172

00:47:17,960 --> 00:47:15,870

friends I had these you know my Irish

1173

00:47:20,000 --> 00:47:17,970

and Italian friends from the Civil Air

1174

00:47:23,960 --> 00:47:20,010

Patrol they you know they were just kids

1175

00:47:26,060 --> 00:47:23,970

on the street you know and and then so

1176

00:47:28,490 --> 00:47:26,070

maybe it must be an adult like it must

1177

00:47:30,440 --> 00:47:28,500

be an at all and then when they when

1178

00:47:31,760 --> 00:47:30,450

they said give us you a decision when

1179

00:47:34,630 --> 00:47:31,770

the Metallica reason give me you know

1180

00:47:38,090 --> 00:47:34,640

gives you a decision I was conflicted

1181

00:47:41,240 --> 00:47:38,100

because I was of course curious but I

1182

00:47:46,670 --> 00:47:41,250

was also afraid and I remember you're

1183

00:47:51,010 --> 00:47:46,680

thinking this could be a trick yes and

1184

00:47:54,290 --> 00:47:51,020

and but I remember I was thinking no and

1185

00:47:55,940 --> 00:47:54,300

I felt an electric like thing go from

1186

00:47:57,860 --> 00:47:55,950

the base of my spine up to there I

1187

00:48:00,440 --> 00:47:57,870

didn't know about Kundalini there was a

1188

00:48:04,880 --> 00:48:00,450

business and I heard myself I heard

1189

00:48:06,230 --> 00:48:04,890

myself like involuntary say yes when he

1190

00:48:09,260 --> 00:48:06,240

asked whether you're willing to be part

1191

00:48:10,370 --> 00:48:09,270

of this yes you want it you wanted to

1192

00:48:12,540 --> 00:48:10,380

say no but

1193

00:48:14,460 --> 00:48:12,550

some type of charge when from your back

1194

00:48:16,230 --> 00:48:14,470

to your brain yes made you say yes maybe

1195

00:48:17,430 --> 00:48:16,240

say yes although I was in comfort

1196

00:48:18,660 --> 00:48:17,440

because you know I also want to know

1197

00:48:23,120 --> 00:48:18,670

what the hell's going on right I mean

1198

00:48:27,210 --> 00:48:23,130

cuz venture for me to the kids right and

1199

00:48:30,330 --> 00:48:27,220

and then that then it said then it said

1200

00:48:31,920 --> 00:48:30,340

could go to your fire escape and we'll

1201

00:48:37,940 --> 00:48:31,930

send a ship to pick you up in ten

1202

00:48:42,240 --> 00:48:37,950

minutes okay at that point I got scared

1203

00:48:44,550 --> 00:48:42,250

you know I got spooked and it was a

1204

00:48:46,950 --> 00:48:44,560

summer night I ran I'd lived we lived on

1205

00:48:49,260 --> 00:48:46,960

the third floor I think I ran like a cat

1206

00:48:51,450 --> 00:48:49,270

out of hell out of my paw my mother

1207

00:48:53,040 --> 00:48:51,460

wasn't there I was by myself and I ran

1208

00:48:55,320 --> 00:48:53,050

downstairs in the streets New York City

1209

00:49:00,300 --> 00:48:55,330

streets this is a I this is a Catholic

1210

00:49:03,960 --> 00:49:00,310

German Italian Irish neighborhood okay

1211

00:49:06,480 --> 00:49:03,970

where my mom I had I used to I had I

1212

00:49:09,600 --> 00:49:06,490

could eat at Paddy's Irish bar free food

1213

00:49:13,260 --> 00:49:09,610

and it was character everybody like my

1214

00:49:15,240 --> 00:49:13,270

mom I was able you know everything you

1215

00:49:15,630 --> 00:49:15,250

know the the parents took care of the

1216

00:49:17,520 --> 00:49:15,640

kids

1217

00:49:21,000 --> 00:49:17,530

this was a whole different this is like

1218

00:49:23,250 --> 00:49:21,010

nineteen in 1953 Brooklyn Flatbush right

1219

00:49:26,480 --> 00:49:23,260

Brooklyn College Flatbush Nostrand

1220

00:49:32,220 --> 00:49:26,490

Avenue I ran down I had a gang I find

1221

00:49:33,030 --> 00:49:32,230

the Neo ligado and his brother and my

1222

00:49:36,330 --> 00:49:33,040

friend Winkie

1223

00:49:40,680 --> 00:49:36,340

these are Winkies he's a tough Irish kid

1224

00:49:42,480 --> 00:49:40,690

later he went into the Marines became a

1225

00:49:46,350 --> 00:49:42,490

police New York City police homicide

1226

00:49:47,370 --> 00:49:46,360

detective okay tough kids a neil and

1227

00:49:49,710 --> 00:49:47,380

norman ligado

1228

00:49:52,680 --> 00:49:49,720

i mean we've all in the Civil Air Patrol

1229

00:49:54,720 --> 00:49:52,690

you know this is these are like like

1230

00:49:56,190 --> 00:49:54,730

tough kids I said flying saucers just

1231

00:49:58,080 --> 00:49:56,200

contacted me we gotta go upstairs are

1232

00:50:00,120 --> 00:49:58,090

gonna come and get me you know this

1233

00:50:04,170 --> 00:50:00,130

could be a movie right I mean we run

1234

00:50:06,000 --> 00:50:04,180

upstairs behind got my gang okay and we

1235

00:50:09,330 --> 00:50:06,010

go to the fire escape nothing ever

1236

00:50:10,740 --> 00:50:09,340

happened that was it but you won't by

1237

00:50:13,020 --> 00:50:10,750

yourself here with the other girl with

1238

00:50:14,160 --> 00:50:13,030

the other guys you gone there by

1239

00:50:15,270 --> 00:50:14,170

yourself we don't know what would happen

1240

00:50:18,780 --> 00:50:15,280

we don't know what would happen I don't

1241

00:50:21,540 --> 00:50:18,790

know but I was okay but so okay so so

1242

00:50:23,110 --> 00:50:21,550

that's like I'm reliving it now I'm not

1243

00:50:26,060 --> 00:50:23,120

making this

1244

00:50:28,010 --> 00:50:26,070

well and you certainly have no incentive

1245

00:50:29,390 --> 00:50:28,020

to be no I'm no intruder because it

1246

00:50:31,220 --> 00:50:29,400

seems to me your your chances of getting

1247

00:50:34,010 --> 00:50:31,230

the Trump meeting go down the more that

1248

00:50:37,040 --> 00:50:34,020

you talk about this crazy night but you

1249

00:50:38,240 --> 00:50:37,050

know what maybe not because there's

1250

00:50:42,310 --> 00:50:38,250

another thing you know about Trump's

1251
00:50:46,850 --> 00:50:42,320
uncle I know that you referenced him

1252
00:50:50,860 --> 00:50:46,860
uncle his father's brother yeah John

1253
00:50:56,420 --> 00:50:50,870
Trump MIT engineering professor

1254
00:50:59,210 --> 00:50:56,430
aerospace has the only guy who has

1255
00:51:00,740 --> 00:50:59,220
access to that had the Tesla papers when

1256
00:51:02,570 --> 00:51:00,750
the man Tesla a lot of this stuff

1257
00:51:05,090 --> 00:51:02,580
physics I'm talking relates to some of

1258
00:51:08,120 --> 00:51:05,100
the Tesla work on near electromagnetic

1259
00:51:09,710 --> 00:51:08,130
fields so and then what was the guy who

1260
00:51:11,180 --> 00:51:09,720
became secretary of defense was a

1261
00:51:12,680 --> 00:51:11,190
student John chops he hadn't resigned

1262
00:51:14,870 --> 00:51:12,690
because they had oh he beat up his wife

1263
00:51:16,820 --> 00:51:14,880

or something happened with his life I'm

1264

00:51:18,710 --> 00:51:16,830

not sure you know the guy who resigned

1265

00:51:23,810 --> 00:51:18,720

before the president defense secretary

1266

00:51:25,760 --> 00:51:23,820

was a student of Mattia no not man a

1267

00:51:26,480 --> 00:51:25,770

secretary defense yeah I forget his name

1268

00:51:28,190 --> 00:51:26,490

right now

1269

00:51:30,830 --> 00:51:28,200

they say secretary he was a student of

1270

00:51:32,270 --> 00:51:30,840

John Trump's at MIT engineering guy and

1271

00:51:36,470 --> 00:51:32,280

he kind of resigned there's some scandal

1272

00:51:39,380 --> 00:51:36,480

he had a resign and but in any case it

1273

00:51:40,430 --> 00:51:39,390

was John Trump's student who became

1274

00:51:43,940 --> 00:51:40,440

Secretary of Defense where I think

1275

00:51:46,810 --> 00:51:43,950

released the tick-tack papers he had to

1276

00:51:49,040 --> 00:51:46,820

do so this whole thing is very you know

1277

00:51:51,620 --> 00:51:49,050

they were connected with characters here

1278

00:51:53,540 --> 00:51:51,630

we know you don't say no I think I think

1279

00:51:56,150 --> 00:51:53,550

Trump probably knows enough of what's

1280

00:51:57,350 --> 00:51:56,160

really going on that he takes this he

1281

00:51:59,390 --> 00:51:57,360

would take it seriously

1282

00:52:01,580 --> 00:51:59,400

I can you know I could be with truck but

1283

00:52:03,590 --> 00:52:01,590

I have a close friend well Michael

1284

00:52:05,300 --> 00:52:03,600

Savage is close friend of mine Michael

1285

00:52:07,580 --> 00:52:05,310

Sams close friends trumps Trump calls

1286

00:52:10,490 --> 00:52:07,590

him up you know okay Michael's been on

1287

00:52:14,180 --> 00:52:10,500

Air Force One he's been to Oval Office

1288

00:52:16,430 --> 00:52:14,190

many times and I know exactly I

1289

00:52:18,710 --> 00:52:16,440

understand Trump I mean I father his

1290

00:52:20,120 --> 00:52:18,720

tweets every morning I see what he's you

1291

00:52:23,330 --> 00:52:20,130

know what his mind is that he's the most

1292

00:52:25,130 --> 00:52:23,340

transparent president ever okay so any

1293

00:52:26,720 --> 00:52:25,140

case I'm telling the truth about what

1294

00:52:28,160 --> 00:52:26,730

happened now here's the thing now why

1295

00:52:31,850 --> 00:52:28,170

did it take so let's get back to your

1296

00:52:33,500 --> 00:52:31,860

you know why did it take so long it took

1297

00:52:34,690 --> 00:52:33,510

so long because of the woowoo factor

1298

00:52:37,030 --> 00:52:34,700

okay

1299

00:52:38,650 --> 00:52:37,040

and whenever I was asked about this I

1300

00:52:42,310 --> 00:52:38,660

would say well I don't know if this was

1301

00:52:44,110 --> 00:52:42,320

really what a pretended be because prior

1302

00:52:47,860 --> 00:52:44,120

to my phone call it turns out I was

1303

00:52:51,160 --> 00:52:47,870

examined by armed by the army because my

1304

00:52:53,560 --> 00:52:51,170

grandfather worked for the army this is

1305

00:52:54,790 --> 00:52:53,570

what between the ages of like 10 and 11

1306

00:52:56,980 --> 00:52:54,800

maybe 12

1307

00:53:00,460 --> 00:52:56,990

I was living with my grandparents my

1308

00:53:03,070 --> 00:53:00,470

grandfather was a drove cars for the

1309

00:53:04,570 --> 00:53:03,080

army at the army quartermaster Corps

1310

00:53:06,850 --> 00:53:04,580

down in the garment district in

1311

00:53:11,020 --> 00:53:06,860

Manhattan me and John want to make a

1312

00:53:16,120 --> 00:53:11,030

building and and that's because his son

1313

00:53:18,370 --> 00:53:16,130

my uncle Arthur was a and he was four

1314

00:53:21,550 --> 00:53:18,380

years in the South Pacific in combat

1315

00:53:22,900 --> 00:53:21,560

okay and he got a reputation I won't go

1316

00:53:26,230 --> 00:53:22,910

into all the details he was on

1317

00:53:28,570 --> 00:53:26,240

Guadalcanal all kinds of stuff and he he

1318

00:53:29,770 --> 00:53:28,580

got a reputation of being psychic like

1319

00:53:31,870 --> 00:53:29,780

well whatever they would go out on

1320

00:53:33,760 --> 00:53:31,880

patrol everybody they want to go to

1321

00:53:36,340 --> 00:53:33,770

oughta know something he was just so

1322

00:53:38,890 --> 00:53:36,350

he'd see he say see he'd see a [h__h]

1323

00:53:41,200 --> 00:53:38,900

hidden pardon me maybe put it good he

1324

00:53:43,390 --> 00:53:41,210

see a [h__h] in in you know in the jungle

1325

00:53:47,410 --> 00:53:43,400

and the tree a sniper and he's seen it

1326

00:53:49,750 --> 00:53:47,420

shoot it so he had like this six so they

1327

00:53:52,510 --> 00:53:49,760

made because of my uncle Arthur they may

1328

00:53:54,070 --> 00:53:52,520

have been wanting to examine me to see

1329

00:53:55,780 --> 00:53:54,080

see and then it was part of this project

1330

00:53:58,360 --> 00:53:55,790

but they were looking for psychic powers

1331

00:53:59,740 --> 00:53:58,370

so in in case when was that project was

1332

00:54:01,900 --> 00:53:59,750

that before after your phone call no

1333

00:54:04,570 --> 00:54:01,910

this is before the phone call the army

1334

00:54:06,430 --> 00:54:04,580

the army to you what about the the

1335

00:54:09,640 --> 00:54:06,440

psychic that was after that was after

1336

00:54:11,950 --> 00:54:09,650

that was at those high school so but the

1337

00:54:15,100 --> 00:54:11,960

point is I would go down after school I

1338

00:54:16,600 --> 00:54:15,110

would go down you know get on the subway

1339

00:54:18,040 --> 00:54:16,610

go down to John Wanamaker building and

1340

00:54:20,250 --> 00:54:18,050

hang out with my grandfather and but

1341

00:54:23,650 --> 00:54:20,260

here's the weird thing about it I

1342

00:54:26,590 --> 00:54:23,660

remember sitting in cars army cars in

1343

00:54:29,230 --> 00:54:26,600

the backseat with these Colonel's my

1344

00:54:30,640 --> 00:54:29,240

grandfather driving the car talking to

1345

00:54:32,530 --> 00:54:30,650

me and I was in - sighs you know

1346

00:54:33,970 --> 00:54:32,540

building rockets there I realized these

1347

00:54:35,800 --> 00:54:33,980

were army psychiatrists they were

1348

00:54:37,900 --> 00:54:35,810

testing me and there was examining me

1349

00:54:39,580 --> 00:54:37,910

right also I was able to play they had I

1350

00:54:40,630 --> 00:54:39,590

remember different floors there was one

1351

00:54:42,700 --> 00:54:40,640

floor where they had

1352

00:54:44,080 --> 00:54:42,710

arctic clothing another four jungle

1353

00:54:47,320 --> 00:54:44,090

clothing all this kind of like uniform

1354

00:54:49,360 --> 00:54:47,330

and I was given free rein you know kid

1355

00:54:51,880 --> 00:54:49,370

like 10 11 News I was able to go it was

1356

00:54:54,880 --> 00:54:51,890

like my playground I would spend you

1357

00:54:57,820 --> 00:54:54,890

know lots of time there and then here's

1358

00:55:00,070 --> 00:54:57,830

the weird and I can't I can't say for

1359

00:55:02,290 --> 00:55:00,080

sure because I may be manufacturing

1360

00:55:06,520 --> 00:55:02,300

something here but when i saw colonel

1361

00:55:10,270 --> 00:55:06,530

philip corso picture in the day after

1362

00:55:10,750 --> 00:55:10,280

Roswell flesh he was the guy in the

1363

00:55:14,230 --> 00:55:10,760

backseat

1364

00:55:15,790 --> 00:55:14,240

talking to me about you know we talked

1365

00:55:19,180 --> 00:55:15,800

about spying sources all kinds of stuff

1366

00:55:21,490 --> 00:55:19,190

so I and this was right around 1950

1367

00:55:26,470 --> 00:55:21,500

around that time so there's a you know

1368

00:55:29,380 --> 00:55:26,480

it may have been Corso okay and and and

1369

00:55:32,950 --> 00:55:29,390

don't kick so but here says okay so that

1370

00:55:34,840 --> 00:55:32,960

why okay so I knew I couldn't okay be

1371

00:55:37,060 --> 00:55:34,850

the army I was involved in they were

1372

00:55:38,890 --> 00:55:37,070

trying to get kids to work on these

1373

00:55:41,980 --> 00:55:38,900

problems they were worried about Roswell

1374

00:55:43,930 --> 00:55:41,990

47 I was told by a guy named George

1375

00:55:46,450 --> 00:55:43,940

Koopman who was since dead died under

1376

00:55:48,850 --> 00:55:46,460

mysterious circumstances army guy he

1377

00:55:51,370 --> 00:55:48,860

said the two things the CIA wants to

1378

00:55:53,710 --> 00:55:51,380

know how does consciousness work and had

1379

00:55:55,480 --> 00:55:53,720

a sources fly we're basically that was

1380

00:55:59,260 --> 00:55:55,490

given I was given like a mission work on

1381

00:56:00,850 --> 00:55:59,270

those two problems okay in some of these

1382

00:56:02,820 --> 00:56:00,860

other guys like Hal is on that you said

1383

00:56:07,120 --> 00:56:02,830

you connected with 20 years later yeah

1384

00:56:09,490 --> 00:56:07,130

similar yes visitations well I did how I

1385

00:56:11,440 --> 00:56:09,500

had privately you have to have how come

1386

00:56:12,940 --> 00:56:11,450

on your show and you asked him how had

1387

00:56:14,440 --> 00:56:12,950

some weird things happening as a kid

1388

00:56:17,350 --> 00:56:14,450

around the same time they'd be looping

1389

00:56:19,630 --> 00:56:17,360

before okay let me ask this question if

1390

00:56:23,230 --> 00:56:19,640

it turns out that it was just a prank

1391

00:56:27,100 --> 00:56:23,240

that happened to you in 1953 how does

1392

00:56:28,330 --> 00:56:27,110

that okay well okay here's the thing in

1393

00:56:30,880 --> 00:56:28,340

other words you could have developed

1394

00:56:32,470 --> 00:56:30,890

this with your own brain as well I don't

1395

00:56:35,380 --> 00:56:32,480

think I'm that smart I'm actually humble

1396

00:56:41,310 --> 00:56:35,390

and diffident modest and shy at least it

1397

00:56:44,170 --> 00:56:41,320

that way but no here's the thing

1398

00:56:48,700 --> 00:56:44,180

everything about you just said made a

1399

00:56:49,420 --> 00:56:48,710

lot of sense until December 2017 till

1400

00:56:52,900 --> 00:56:49,430

Tic Tac

1401
00:56:54,430 --> 00:56:52,910
was revealed see because that's like

1402
00:56:57,610 --> 00:56:54,440
that was that's the cosmic trigger

1403
00:56:59,920 --> 00:56:57,620
that's the thing that's right that's now

1404
00:57:00,730 --> 00:56:59,930
I know what happened but I say I know

1405
00:57:04,780 --> 00:57:00,740
what happen

1406
00:57:06,520 --> 00:57:04,790
90% 95% probability you know confidence

1407
00:57:09,010 --> 00:57:06,530
level you know what's called Bayes

1408
00:57:10,570 --> 00:57:09,020
theorem you know I mean overall but

1409
00:57:12,700 --> 00:57:10,580
you're saying we use first saw Tic Tac

1410
00:57:15,760 --> 00:57:12,710
that immediately caused your mind to go

1411
00:57:18,550 --> 00:57:15,770
back to 1953 and you're saying that aha

1412
00:57:21,520 --> 00:57:18,560
that's what communicated with me yeah

1413
00:57:24,580 --> 00:57:21,530

yeah yeah well the thing is this also i

1414

00:57:27,490 --> 00:57:24,590

know i-i-i now reject that it was just

1415

00:57:29,830 --> 00:57:27,500

the CIA army intelligence I mean it

1416

00:57:31,210 --> 00:57:29,840

could be that that's part of it it could

1417

00:57:32,410 --> 00:57:31,220

be that you know it could be more

1418

00:57:34,210 --> 00:57:32,420

complex it could be both

1419

00:57:35,770 --> 00:57:34,220

some one or the other right could be

1420

00:57:38,200 --> 00:57:35,780

because some of these guys have also

1421

00:57:40,150 --> 00:57:38,210

been contacted who knows see him as a

1422

00:57:42,460 --> 00:57:40,160

matter of fact what am I talking about

1423

00:57:44,500 --> 00:57:42,470

Andre up a harsh a drape a heart was

1424

00:57:46,930 --> 00:57:44,510

army intelligence back in then at that

1425

00:57:49,060 --> 00:57:46,940

time the late 40s 50s and he's a contact

1426

00:57:50,500 --> 00:57:49,070

It could have been Andrea the hearts

1427

00:57:54,250 --> 00:57:50,510

behind it because he's pops up in my

1428

00:57:56,590 --> 00:57:54,260

life all the time and I reach was

1429

00:57:57,609 --> 00:57:56,600

connected with oh you know who else was

1430

00:58:00,550 --> 00:57:57,619

involved this who's the guy to

1431

00:58:02,710 --> 00:58:00,560

Scientology guy well ron Hubbard was

1432

00:58:07,140 --> 00:58:02,720

part of it and also he was saying and

1433

00:58:10,570 --> 00:58:07,150

also Jack Parsons you know about that

1434

00:58:14,170 --> 00:58:10,580

stuff oh you know I know Parsons partner

1435

00:58:15,609 --> 00:58:14,180

I know Frank Frank Molina I was in love

1436

00:58:17,380 --> 00:58:15,619

with Frank Molina in Paris I mean

1437

00:58:18,730 --> 00:58:17,390

there's all these connections there all

1438

00:58:20,560 --> 00:58:18,740

these learning connections where you

1439

00:58:22,990 --> 00:58:20,570

probe into it's all it's like a tight

1440

00:58:24,670 --> 00:58:23,000

network of coincidences can't all be a

1441

00:58:29,590 --> 00:58:24,680

coincidence okay

1442

00:58:32,620 --> 00:58:29,600

and so when you saw the check tak when

1443

00:58:36,250 --> 00:58:32,630

that was finally remember of 17 everyone

1444

00:58:37,810 --> 00:58:36,260

satanic then I know this is it look it

1445

00:58:40,420 --> 00:58:37,820

could be it's an arm

1446

00:58:43,420 --> 00:58:40,430

there's certainly is an intelligence

1447

00:58:45,130 --> 00:58:43,430

operation going on long-term I'm also

1448

00:58:47,320 --> 00:58:45,140

friends with you know I don't feel James

1449

00:58:52,270 --> 00:58:47,330

sees this Angleton was you know he was

1450

00:58:54,490 --> 00:58:52,280

you know James you say well oh s hacen

1451

00:58:56,290 --> 00:58:54,500

but he was they he was the guy in

1452

00:59:00,370 --> 00:58:56,300

counterintelligence looking for the mole

1453

00:59:02,349 --> 00:59:00,380

you know any case is his grandson and I

1454

00:59:06,960 --> 00:59:02,359

had calls friends know and then and it

1455

00:59:09,910 --> 00:59:06,970

turns out his grandson confirms that

1456

00:59:13,780 --> 00:59:09,920

James angleton was very worried about

1457

00:59:16,150 --> 00:59:13,790

the UFO thing that Roswell that the CIA

1458

00:59:19,260 --> 00:59:16,160

one was created it was created partly

1459

00:59:21,490 --> 00:59:19,270

because things like the Roswell crash

1460

00:59:22,810 --> 00:59:21,500

okay and there's all kinds of other

1461

00:59:25,000 --> 00:59:22,820

things I got to be real careful cuz I

1462

00:59:28,510 --> 00:59:25,010

have friends I have I have a friend

1463

00:59:29,980 --> 00:59:28,520

who's very well positioned guy and I

1464

00:59:31,410 --> 00:59:29,990

don't want to mention because he's

1465

00:59:34,660 --> 00:59:31,420

involved with a very prestigious

1466

00:59:36,760 --> 00:59:34,670

organization who actually had possession

1467

00:59:39,430 --> 00:59:36,770

of the Roswell material for a week he

1468

00:59:42,250 --> 00:59:39,440

was working for the CIA back in late 60s

1469

00:59:46,420 --> 00:59:42,260

and there's a whole story there okay so

1470

00:59:48,700 --> 00:59:46,430

far what you've told me causes me to

1471

00:59:51,520 --> 00:59:48,710

think it is even more likely that in

1472

00:59:57,820 --> 00:59:51,530

fact these tic-tacs that were seen and

1473

01:00:00,430 --> 00:59:57,830

was for and in 2015 are us craft and the

1474

01:00:02,109 --> 01:00:00,440

reason I say that is you've told me that

1475

01:00:04,180 --> 01:00:02,119

this for me that you've come up with is

1476

01:00:05,500 --> 01:00:04,190

very simple you say you're the only one

1477

01:00:07,000 --> 01:00:05,510

that has it but you says that these

1478

01:00:12,820 --> 01:00:07,010

other people are idiots not to know they

1479

01:00:14,800 --> 01:00:12,830

did get ok formula and with billions of

1480

01:00:17,020 --> 01:00:14,810

dollars this could be you know

1481

01:00:18,640 --> 01:00:17,030

manhattan-style project as you said with

1482

01:00:21,340 --> 01:00:18,650

billions of dollars this could be built

1483

01:00:25,090 --> 01:00:21,350

and we know that the black project

1484

01:00:26,680 --> 01:00:25,100

budget according to Nick cook I think is

1485

01:00:29,560 --> 01:00:26,690

wonderful you know has been over 30

1486

01:00:31,750 --> 01:00:29,570

billion dollars per year for many for

1487

01:00:33,760 --> 01:00:31,760

decades now essentially so that those

1488

01:00:36,250 --> 01:00:33,770

monies could be going to have developed

1489

01:00:39,010 --> 01:00:36,260

that and the u.s. did in fact developed

1490

01:00:41,200 --> 01:00:39,020

us okay I agree with you that's a

1491

01:00:44,050 --> 01:00:41,210

reasonable proposition

1492

01:00:46,330 --> 01:00:44,060

okay the reason I don't think it's true

1493

01:00:48,040 --> 01:00:46,340

is because of guys like Chris Mellon and

1494

01:00:51,990 --> 01:00:48,050

how put off how part of us held the

1495

01:00:55,290 --> 01:00:52,000

highest security clearances possible and

1496

01:00:59,080 --> 01:00:55,300

he doesn't know Chris Mellon

1497

01:01:01,720 --> 01:00:59,090

you know deputy assistant secretary of

1498

01:01:04,000 --> 01:01:01,730

defense for intelligence Pentagon

1499

01:01:07,510 --> 01:01:04,010

doesn't know well they say they don't

1500

01:01:09,640 --> 01:01:07,520

know no no I've been touched they would

1501

01:01:11,950 --> 01:01:09,650

tell you if they know no because I'd the

1502

01:01:13,480 --> 01:01:11,960

questions he asks I know he doesn't know

1503

01:01:15,070 --> 01:01:13,490

he's very concerned about he just wrote

1504

01:01:17,500 --> 01:01:15,080

in fact just read his article he a

1505

01:01:19,150 --> 01:01:17,510

Christian wrote her an article in the

1506

01:01:20,109 --> 01:01:19,160

American Legion magazine I think I sent

1507

01:01:21,579 --> 01:01:20,119

you

1508

01:01:23,529 --> 01:01:21,589

and he's talking how this could be a

1509

01:01:24,970 --> 01:01:23,539

Pearl Harbor and support he but I

1510

01:01:27,490 --> 01:01:24,980

couldn't these black projects be so

1511

01:01:30,010 --> 01:01:27,500

siloes that even somebody when I don't I

1512

01:01:31,299 --> 01:01:30,020

don't know I don't think so because

1513

01:01:33,430 --> 01:01:31,309

there's no way to keep something like

1514

01:01:35,260 --> 01:01:33,440

that a secret for so many years no way

1515

01:01:37,210 --> 01:01:35,270

it's gonna I wish that's what that was

1516

01:01:38,799 --> 01:01:37,220

my original point so I had experts on

1517

01:01:40,690 --> 01:01:38,809

who told me that self technology was

1518

01:01:42,910 --> 01:01:40,700

kept a secret yeah and the guy the guy

1519

01:01:44,680 --> 01:01:42,920

who said is claiming that he has give me

1520

01:01:46,420 --> 01:01:44,690

a bunch of [h__h] about the 1g if it's

1521

01:01:48,339 --> 01:01:46,430

the same guy right no this is just

1522

01:01:48,789 --> 01:01:48,349

experts about you know the Nick cooks of

1523

01:01:51,000 --> 01:01:48,799

the world

1524

01:01:53,260 --> 01:01:51,010

okay well the cook is working with me

1525

01:01:55,539 --> 01:01:53,270

Nick cook and we're on the same team so

1526

01:01:57,250 --> 01:01:55,549

he told me a story he you know I I said

1527

01:01:59,230 --> 01:01:57,260

gee I can't imagine this being able to

1528

01:02:01,839 --> 01:01:59,240

be kept secret for at least two decades

1529

01:02:03,010 --> 01:02:01,849

and I believe it was Nick or maybe some

1530

01:02:04,539 --> 01:02:03,020

other experts you said well actually

1531

01:02:06,220 --> 01:02:04,549

there have been technologies that have

1532

01:02:07,960 --> 01:02:06,230

been kept secret that long yeah but not

1533

01:02:10,720 --> 01:02:07,970

this is too this is too dramatic of

1534

01:02:13,930 --> 01:02:10,730

technology and I mean it's I don't I

1535

01:02:15,700 --> 01:02:13,940

listen I can't say you're wrong I give

1536

01:02:18,069 --> 01:02:15,710

what you're saying low fairly low

1537

01:02:21,309 --> 01:02:18,079

probably maybe 25% probability I think

1538

01:02:22,650 --> 01:02:21,319

it's a you know my position I say 75

1539

01:02:27,760 --> 01:02:22,660

percent probability

1540

01:02:30,730 --> 01:02:27,770

oddly enough in October of 2017

1541

01:02:33,250 --> 01:02:30,740

I was with Hal put off in kid green in

1542

01:02:35,529 --> 01:02:33,260

London when they were setting up the

1543

01:02:37,000 --> 01:02:35,539

release of the information on tic-tac

1544

01:02:38,500 --> 01:02:37,010

you know they're they're part of the to

1545

01:02:41,529 --> 01:02:38,510

the stars Academy what's that guy the

1546

01:02:44,920 --> 01:02:41,539

the rock star what's his name Tom

1547

01:02:46,870 --> 01:02:44,930

DeLonge yeah and and we were like doing

1548

01:02:48,789 --> 01:02:46,880

things and then a phone call would come

1549

01:02:50,890 --> 01:02:48,799

in and and how I'd have to get out of

1550

01:02:52,029 --> 01:02:50,900

the room for a private he was probably

1551

01:02:53,890 --> 01:02:52,039

talking to all these guys about

1552

01:02:57,010 --> 01:02:53,900

releasing the information on Tic Tac Toe

1553

01:02:59,769 --> 01:02:57,020

okay but I know at the time that Howe

1554

01:03:01,930 --> 01:02:59,779

had not a clue about how it really

1555

01:03:03,370 --> 01:03:01,940

worked how old he had like half the

1556

01:03:05,589 --> 01:03:03,380

thing what Hal has done how his

1557

01:03:06,990 --> 01:03:05,599

published papers showing that if you had

1558

01:03:09,400 --> 01:03:07,000

this kind of warp drive

1559

01:03:10,690 --> 01:03:09,410

how close would metric engineering and I

1560

01:03:12,309 --> 01:03:10,700

could that's what's called metric

1561

01:03:14,769 --> 01:03:12,319

engineering is the key word if you had

1562

01:03:17,370 --> 01:03:14,779

gravitational metric engineering what

1563

01:03:20,650 --> 01:03:17,380

Hal there was to show how what commander

1564

01:03:22,900 --> 01:03:20,660

frivolity I'd woodsy flavor

1565

01:03:25,990 --> 01:03:22,910

bravery right yeah David flavor thank

1566

01:03:28,180 --> 01:03:26,000

you well what he would see but how had

1567

01:03:30,190 --> 01:03:28,190

not a clue about how you can achieve

1568

01:03:31,539 --> 01:03:30,200

that with small amounts of energy you

1569

01:03:32,980 --> 01:03:31,549

see how a still under the pressure would

1570

01:03:33,470 --> 01:03:32,990

take enormous amount of entries how does

1571

01:03:36,980 --> 01:03:33,480

it work

1572

01:03:39,859 --> 01:03:36,990

and I solved the energy and still though

1573

01:03:41,990 --> 01:03:39,869

the real trick you you you say it's

1574

01:03:44,870 --> 01:03:42,000

absolutely possible to do is actually

1575

01:03:47,569 --> 01:03:44,880

somewhat somebody's it because someone

1576

01:03:49,280 --> 01:03:47,579

has don't you say the biggest trick is

1577

01:03:51,140 --> 01:03:49,290

gonna be figuring out exactly how to

1578

01:03:52,940 --> 01:03:51,150

make this minimum yeah that's that's

1579

01:03:55,520 --> 01:03:52,950

that's analogous like trying to figure

1580

01:03:58,520 --> 01:03:55,530

out Oakridge how to refine the required

1581

01:04:01,040 --> 01:03:58,530

isotopes of uranium and plutonium needed

1582

01:04:02,810 --> 01:04:01,050

to get a fission bomb or to solve the

1583

01:04:04,730 --> 01:04:02,820

implosion problem to get a fusion bomb

1584

01:04:06,050 --> 01:04:04,740

okay is that that's the engineering

1585

01:04:08,720 --> 01:04:06,060

that's the engineering physics part

1586

01:04:10,190 --> 01:04:08,730

that's the hard part by the way one more

1587

01:04:12,140 --> 01:04:10,200

question I forgot to ask about the the

1588

01:04:14,000 --> 01:04:12,150

tick tack in this magnetic field and so

1589

01:04:17,710 --> 01:04:14,010

on gravity field gravity force our

1590

01:04:22,339 --> 01:04:20,839

how would that cause a disturbance say

1591

01:04:23,839 --> 01:04:22,349

in the water you know they talk about

1592

01:04:27,410 --> 01:04:23,849

disturbance they saw in the water but

1593

01:04:29,270 --> 01:04:27,420

yeah it could I mean it doesn't have to

1594

01:04:31,609 --> 01:04:29,280

you have all kinds of pie you could it's

1595

01:04:33,829 --> 01:04:31,619

like you could for example if you want

1596

01:04:36,020 --> 01:04:33,839

to you could emit gravitational waves

1597

01:04:37,370 --> 01:04:36,030

that would cause that disturbance there

1598

01:04:39,140 --> 01:04:37,380

could be some kind of communication with

1599

01:04:40,309 --> 01:04:39,150

something else and so you could do that

1600

01:04:42,140 --> 01:04:40,319

but you don't want to do it if I was a

1601
01:04:43,640 --> 01:04:42,150
flight you could use it as a weapon

1602
01:04:46,640 --> 01:04:43,650
you could beam these like a

1603
01:04:48,020 --> 01:04:46,650
gravitational wave laser at something I

1604
01:04:49,550 --> 01:04:48,030
mean you could do there's all kinds of

1605
01:04:50,089 --> 01:04:49,560
possibilities yeah you can explain it

1606
01:04:51,530 --> 01:04:50,099
with that

1607
01:04:53,270 --> 01:04:51,540
once you've controlled the gravitational

1608
01:04:55,490 --> 01:04:53,280
you control everything and what about it

1609
01:04:57,770 --> 01:04:55,500
traveling under water does it make sense

1610
01:04:59,510 --> 01:04:57,780
sure son you're oh yeah take that go

1611
01:05:02,990 --> 01:04:59,520
into water because it's yeah it's just

1612
01:05:05,450 --> 01:05:03,000
slipping sure there's no problem would

1613
01:05:07,400 --> 01:05:05,460

it go under what it tracker in the same

1614

01:05:10,339 --> 01:05:07,410

way that it would travel through space

1615

01:05:12,290 --> 01:05:10,349

or well that's I know that's a good

1616

01:05:14,240 --> 01:05:12,300

question and I don't want to give a flip

1617

01:05:16,040 --> 01:05:14,250

answer that no probably not because

1618

01:05:17,450 --> 01:05:16,050

though because when you change in the

1619

01:05:18,829 --> 01:05:17,460

gravitational field around the water

1620

01:05:20,510 --> 01:05:18,839

then you're making water waves and

1621

01:05:22,700 --> 01:05:20,520

churning and ya know it's not quite the

1622

01:05:24,559 --> 01:05:22,710

same not quite this is so what about

1623

01:05:26,870 --> 01:05:24,569

speed could have traveled the same speed

1624

01:05:31,160 --> 01:05:26,880

underwater well they said it travel if I

1625

01:05:33,020 --> 01:05:31,170

owe their reports 500 miles an hour but

1626
01:05:36,349 --> 01:05:33,030
based on your conception of what this

1627
01:05:37,940 --> 01:05:36,359
thing would be could have traveled just

1628
01:05:39,829 --> 01:05:37,950
as fast underwater or do you think no

1629
01:05:41,900 --> 01:05:39,839
it'd be likely done probably not i l

1630
01:05:43,579 --> 01:05:41,910
don't listen this is something that I'm

1631
01:05:46,099 --> 01:05:43,589
not an engineer that's a good question

1632
01:05:46,520 --> 01:05:46,109
I'm I guess my lying my educated guess

1633
01:05:48,680 --> 01:05:46,530
is that

1634
01:05:50,300 --> 01:05:48,690
would be more limited because the

1635
01:05:52,280 --> 01:05:50,310
gravitational disturbance is good to

1636
01:05:55,340 --> 01:05:52,290
serve the water you can in fact you did

1637
01:06:00,530 --> 01:05:55,350
see the services in water am I correct

1638
01:06:02,870 --> 01:06:00,540

also that this invention would not have

1639

01:06:04,310 --> 01:06:02,880

that much utility in space per se

1640

01:06:07,880 --> 01:06:04,320

because you don't have gravitational

1641

01:06:09,500 --> 01:06:07,890

pulls in space no no no it has no no of

1642

01:06:11,180 --> 01:06:09,510

course in space in space you want to

1643

01:06:12,950 --> 01:06:11,190

it's a it's a starship

1644

01:06:15,200 --> 01:06:12,960

you wanna get you want to get to an

1645

01:06:17,120 --> 01:06:15,210

exoplanet you want to build wormhole a

1646

01:06:18,410 --> 01:06:17,130

Stargate you in you have to engineer the

1647

01:06:21,260 --> 01:06:18,420

gravitational field there's plenty of

1648

01:06:23,060 --> 01:06:21,270

gravity in an empty space I mean the

1649

01:06:25,400 --> 01:06:23,070

earth the Sun is pulling all the planets

1650

01:06:26,780 --> 01:06:25,410

this gravitational well you have well

1651

01:06:28,580 --> 01:06:26,790

but but but there doesn't seem to me

1652

01:06:32,090 --> 01:06:28,590

that there's such gravity that it

1653

01:06:34,160 --> 01:06:32,100

inhibits yeah but you travel no like

1654

01:06:36,560 --> 01:06:34,170

what's the gravitational pole when I

1655

01:06:38,390 --> 01:06:36,570

leave the Earth's atmosphere well enough

1656

01:06:40,040 --> 01:06:38,400

enough to control planet the point is

1657

01:06:41,300 --> 01:06:40,050

you want it you wanted no you want to do

1658

01:06:43,850 --> 01:06:41,310

the same thing space that you're doing

1659

01:06:47,300 --> 01:06:43,860

oh yeah and you want to but you may want

1660

01:06:49,640 --> 01:06:47,310

to make a wormhole to get from here to

1661

01:06:52,490 --> 01:06:49,650

Alpha Centauri and in two minutes you

1662

01:06:52,990 --> 01:06:52,500

know we go to bars okay okay here's the

1663

01:06:58,400 --> 01:06:53,000

other thing

1664

01:07:01,160 --> 01:06:58,410

hey Ilan Musk if you're listening Elon

1665

01:07:05,560 --> 01:07:01,170

Musk if you're listening Richard Branson

1666

01:07:08,720 --> 01:07:05,570

who's in Branson guys Bezos Jeff Bezos

1667

01:07:12,050 --> 01:07:08,730

yeah if your phasers you're wasting your

1668

01:07:14,480 --> 01:07:12,060

money man you're doing in science what

1669

01:07:16,040 --> 01:07:14,490

bloomberg's don't even politics you're

1670

01:07:19,370 --> 01:07:16,050

barking up the wrong tree

1671

01:07:21,740 --> 01:07:19,380

yeah yeah it's stupid

1672

01:07:23,810 --> 01:07:21,750

developing Rockets is stupid and with

1673

01:07:25,820 --> 01:07:23,820

that kind of money Jeff Bezos those guys

1674

01:07:28,310 --> 01:07:25,830

they get this thing done in six months

1675

01:07:30,260 --> 01:07:28,320

maybe in one year with that with those

1676

01:07:33,920 --> 01:07:30,270

kinds of resources doesn't even have to

1677

01:07:35,540 --> 01:07:33,930

be the government so this Randall Bailey

1678

01:07:36,980 --> 01:07:35,550

maybe if they listen to you they main

1679

01:07:38,840 --> 01:07:36,990

sooner so the chick tax should be able

1680

01:07:43,490 --> 01:07:38,850

to get from Earth to Mars and in how

1681

01:07:45,770 --> 01:07:43,500

much time split-second in principle for

1682

01:07:47,450 --> 01:07:45,780

the wormhole a couple of minutes you've

1683

01:07:49,340 --> 01:07:47,460

walked through it you bought what we

1684

01:07:52,450 --> 01:07:49,350

could say what it was metric engineering

1685

01:07:56,060 --> 01:07:52,460

we could set up a traversable wormhole

1686

01:07:58,850 --> 01:07:56,070

connecting earth with Mars and literally

1687

01:08:00,590 --> 01:07:58,860

millions of people walk through it and

1688

01:08:00,800 --> 01:08:00,600

they're just like going through a door

1689

01:08:06,350 --> 01:08:00,810

and

1690

01:08:07,640 --> 01:08:06,360

metamaterial well with maybe not so much

1691

01:08:09,950 --> 01:08:07,650

this particular matter of its here but

1692

01:08:12,050 --> 01:08:09,960

with the kind once you have this basic

1693

01:08:13,730 --> 01:08:12,060

insight how to control the gravitational

1694

01:08:15,080 --> 01:08:13,740

fear there's gonna be other creative

1695

01:08:17,240 --> 01:08:15,090

people coming in with all kinds of

1696

01:08:18,860 --> 01:08:17,250

applications and ideas baby man was here

1697

01:08:21,170 --> 01:08:18,870

maybe something else yeah I'm looking at

1698

01:08:23,030 --> 01:08:21,180

it from a very obviously simplistic view

1699

01:08:24,079 --> 01:08:23,040

of gravity right because I'm just

1700

01:08:25,760 --> 01:08:24,089

thinking about controlling the

1701

01:08:27,770 --> 01:08:25,770

gravitational field with small amounts

1702

01:08:30,650 --> 01:08:27,780

of energy that's the key idea and once

1703

01:08:32,480 --> 01:08:30,660

you can do that you know how does that

1704

01:08:34,099 --> 01:08:32,490

allow you to zip through the universe

1705

01:08:36,140 --> 01:08:34,109

that's the part that I'm cause yeah but

1706

01:08:38,360 --> 01:08:36,150

because wait because guys just to finish

1707

01:08:40,970 --> 01:08:38,370

my thought yeah gravity is out there but

1708

01:08:43,340 --> 01:08:40,980

it's not that strong that we feel strong

1709

01:08:44,960 --> 01:08:43,350

enough it's strong enough okay but it's

1710

01:08:46,160 --> 01:08:44,970

not is it the thing but know what

1711

01:08:48,170 --> 01:08:46,170

gravity does well you're able to with

1712

01:08:50,660 --> 01:08:48,180

the wormhole you could collapse the

1713

01:08:52,460 --> 01:08:50,670

distance between Earth and Mars in this

1714

01:08:55,340 --> 01:08:52,470

alternate okay and how do you create a

1715

01:08:56,990 --> 01:08:55,350

wormhole from the tic-tac we've gone

1716

01:08:58,160 --> 01:08:57,000

from tic-tac to creating a wormhole you

1717

01:08:59,840 --> 01:08:58,170

connect those two things for me well

1718

01:09:02,540 --> 01:08:59,850

well the boy with the wormholes could

1719

01:09:06,230 --> 01:09:02,550

because the wormhole is just a solution

1720

01:09:08,690 --> 01:09:06,240

of Einstein's field equations as it's

1721

01:09:11,300 --> 01:09:08,700

being generated from electrical energy

1722

01:09:14,360 --> 01:09:11,310

so you just have to have the computer

1723

01:09:16,880 --> 01:09:14,370

design a gravitational war field that

1724

01:09:18,380 --> 01:09:16,890

will be a wormhole solution and connect

1725

01:09:21,680 --> 01:09:18,390

with Mars I'm not saying how to do it

1726

01:09:22,190 --> 01:09:21,690

offhand but with the fact that the

1727

01:09:26,930 --> 01:09:22,200

tic-tacs

1728

01:09:29,660 --> 01:09:26,940

here they're time-traveling from our

1729

01:09:31,970 --> 01:09:29,670

future to our past okay stop right there

1730

01:09:33,320 --> 01:09:31,980

what you just explained that hey you

1731

01:09:35,120 --> 01:09:33,330

could create a wormhole we could travel

1732

01:09:37,280 --> 01:09:35,130

somewhere super quickly anywhere in the

1733

01:09:38,630 --> 01:09:37,290

universe so why couldn't that be what

1734

01:09:41,360 --> 01:09:38,640

tic-tacs are as opposed to from the

1735

01:09:43,190 --> 01:09:41,370

future why can't they be from some unbe

1736

01:09:46,610 --> 01:09:43,200

they can be but they told me they were

1737

01:09:49,670 --> 01:09:46,620

from the future yeah thank you okay they

1738

01:09:51,380 --> 01:09:49,680

told me he told you in 1953 right okay

1739

01:09:54,079 --> 01:09:51,390

so I'm going on the basis that's about

1740

01:09:58,660 --> 01:09:54,089

what John Wheeler says we have a few

1741

01:10:01,310 --> 01:09:58,670

what iron clad iron posts of facts

1742

01:10:04,280 --> 01:10:01,320

covered with a paper mache of theory and

1743

01:10:06,110 --> 01:10:04,290

speculation okay so I'm just like you

1744

01:10:08,780 --> 01:10:06,120

know what's the guy dragged it just the

1745

01:10:11,720 --> 01:10:08,790

facts man okay okay so I got like a cop

1746

01:10:14,700 --> 01:10:11,730

okay I was told they're from the future

1747

01:10:17,439 --> 01:10:14,710

and yeah I was told that so

1748

01:10:19,120 --> 01:10:17,449

you've talked about to multiple

1749

01:10:20,950 --> 01:10:19,130

incredible concepts we're on the round

1750

01:10:22,899 --> 01:10:20,960

at least three right now one is the Tic

1751

01:10:25,270 --> 01:10:22,909

Tac and being mailed to design Tic Tac

1752

01:10:26,740 --> 01:10:25,280

and saying you know two is being able to

1753

01:10:28,930 --> 01:10:26,750

create a wormhole that would allow you

1754

01:10:31,750 --> 01:10:28,940

to travel you know instantaneously

1755

01:10:34,570 --> 01:10:31,760

throughout space and an entire verse and

1756

01:10:36,729 --> 01:10:34,580

then number three is I'm calling it a

1757

01:10:37,570 --> 01:10:36,739

third thing which is time travel back in

1758

01:10:39,880 --> 01:10:37,580

time yeah

1759

01:10:40,959 --> 01:10:39,890

well because they that's usually you

1760

01:10:43,990 --> 01:10:40,969

believe that's possible too

1761

01:10:46,930 --> 01:10:44,000

well I'd say that's the only way to

1762

01:10:49,390 --> 01:10:46,940

understand the facts of Tic Tac no we

1763

01:10:50,740 --> 01:10:49,400

were okay we already come upon one is

1764

01:10:51,550 --> 01:10:50,750

the US invented it the other said it

1765

01:10:55,630 --> 01:10:51,560

came from somewhere else in the universe

1766

01:10:59,020 --> 01:10:55,640

yeah okay but my my understanding of it

1767

01:11:02,680 --> 01:10:59,030

is because people like Chris melon and

1768

01:11:04,330 --> 01:11:02,690

how put off happens a clue and they were

1769

01:11:05,770 --> 01:11:04,340

certainly position to have a clue and

1770

01:11:07,510 --> 01:11:05,780

because everybody a mitten the

1771

01:11:09,010 --> 01:11:07,520

government involved in dia stuff like

1772

01:11:10,899 --> 01:11:09,020

that but I get I I know why you don't

1773

01:11:11,830 --> 01:11:10,909

think it's us yeah why don't you think

1774

01:11:15,880 --> 01:11:11,840

it came from somewhere else in the

1775

01:11:18,070 --> 01:11:15,890

universe uh it's possible it did but

1776

01:11:19,419 --> 01:11:18,080

then why would they contact me and

1777

01:11:21,220 --> 01:11:19,429

saying they were from the future so you

1778

01:11:25,140 --> 01:11:21,230

know and now everything is fitting

1779

01:11:27,760 --> 01:11:25,150

together okay and then because again

1780

01:11:28,840 --> 01:11:27,770

1953 still could have been a hoax so

1781

01:11:31,630 --> 01:11:28,850

could have been a hoax so let's give a

1782

01:11:35,590 --> 01:11:31,640

nice but I'm gonna been hooked so what

1783

01:11:37,780 --> 01:11:35,600

is your scientific explanation as to how

1784

01:11:38,950 --> 01:11:37,790

something could travel back in time well

1785

01:11:43,660 --> 01:11:38,960

that's the whole but some wormhole

1786

01:11:45,340 --> 01:11:43,670

physics the point is this that with the

1787

01:11:47,020 --> 01:11:45,350

wormhole you could have time travel now

1788

01:11:48,970 --> 01:11:47,030

there are arguments by Stephen Hawking

1789

01:11:52,450 --> 01:11:48,980

and even Kip Thorne they're trying to

1790

01:11:55,419 --> 01:11:52,460

say that if you create a wormhole with

1791

01:11:57,729 --> 01:11:55,429

time travel it back from you know from

1792

01:12:01,479 --> 01:11:57,739

future to past that there's gonna be

1793

01:12:03,340 --> 01:12:01,489

some catastrophe it but their arguments

1794

01:12:04,720 --> 01:12:03,350

are basically hand waving and what I'm

1795

01:12:07,240 --> 01:12:04,730

saying is that their arguments have to

1796

01:12:09,490 --> 01:12:07,250

be wrong because of the fact of the

1797

01:12:11,770 --> 01:12:09,500

tic-tac I'm because they told me they're

1798

01:12:14,169 --> 01:12:11,780

from the future everything my best

1799

01:12:16,689 --> 01:12:14,179

let's but my best analysis everything is

1800

01:12:18,669 --> 01:12:16,699

probabilities right my best judgment

1801

01:12:20,590 --> 01:12:18,679

from everything I know and everything

1802

01:12:23,020 --> 01:12:20,600

it's happening is that the most probable

1803

01:12:24,220 --> 01:12:23,030

scenario is that they're time travelers

1804

01:12:25,180 --> 01:12:24,230

back from the future and by the way

1805

01:12:26,470 --> 01:12:25,190

there's a bunch of other people

1806

01:12:27,670 --> 01:12:26,480

independently coming to that conclusion

1807

01:12:29,740 --> 01:12:27,680

I'm not the only

1808

01:12:32,860 --> 01:12:29,750

if you look at the coast I was on coast

1809

01:12:34,270 --> 01:12:32,870

to coast this is guy Robert masters you

1810

01:12:36,040 --> 01:12:34,280

know and he was a who's not even

1811

01:12:37,840 --> 01:12:36,050

physicists he's just from empirical

1812

01:12:39,820 --> 01:12:37,850

evidence he's some kind of evolutionary

1813

01:12:43,300 --> 01:12:39,830

anthropologist very smart guy you should

1814

01:12:44,290 --> 01:12:43,310

actually have on your shelf and so let's

1815

01:12:46,450 --> 01:12:44,300

put this way

1816

01:12:48,190 --> 01:12:46,460

I'd say the probably the most probable

1817

01:12:49,870 --> 01:12:48,200

thing that if I'm the future they could

1818

01:12:54,790 --> 01:12:49,880

also be coming from elsewhere they could

1819

01:12:56,860 --> 01:12:54,800

be aliens but well maybe but both could

1820

01:12:58,180 --> 01:12:56,870

be true so both let's talk a little bit

1821

01:12:59,530 --> 01:12:58,190

about what we know about time is space

1822

01:13:02,410 --> 01:12:59,540

time because it's always fascinated me

1823

01:13:06,250 --> 01:13:02,420

this idea that time slows down as you

1824

01:13:08,470 --> 01:13:06,260

speed up right and so you could the twin

1825

01:13:11,710 --> 01:13:08,480

theory that you have identical twins one

1826

01:13:14,050 --> 01:13:11,720

travels out in space and comes back and

1827

01:13:15,220 --> 01:13:14,060

is much younger than well that's not

1828

01:13:16,720 --> 01:13:15,230

that's not aspect that's the fact

1829

01:13:18,820 --> 01:13:16,730

they've done that with me wizards and

1830

01:13:21,220 --> 01:13:18,830

cosmic rays it's proven right oh that's

1831

01:13:21,930 --> 01:13:21,230

proven in fact if you were on the space

1832

01:13:25,890 --> 01:13:21,940

station

1833

01:13:28,660 --> 01:13:25,900

it's like point zero zero one second

1834

01:13:30,430 --> 01:13:28,670

younger than you would have been yeah if

1835

01:13:32,620 --> 01:13:30,440

you were if you see the movie

1836

01:13:35,350 --> 01:13:32,630

interstellar see all that is accurate

1837

01:13:39,430 --> 01:13:35,360

Kip Thorne who I know Caltech professor

1838

01:13:41,050 --> 01:13:39,440

faiman professor the expert see if you

1839

01:13:42,730 --> 01:13:41,060

see and that's the other thing Kip

1840

01:13:45,790 --> 01:13:42,740

Thorne oh the other thing the other

1841

01:13:48,460 --> 01:13:45,800

reasons I know it's not our guys Kip

1842

01:13:49,900 --> 01:13:48,470

Thorne his students he has a lot of

1843

01:13:53,040 --> 01:13:49,910

students he and John Wheeler John

1844

01:13:55,720 --> 01:13:53,050

Wheeler had the highest level secure

1845

01:13:59,260 --> 01:13:55,730

security clearances he helped develop

1846

01:14:02,710 --> 01:13:59,270

the h-bomb with with Aunt Eller who I

1847

01:14:04,570 --> 01:14:02,720

also knew and Kip Thorne as a student

1848

01:14:06,760 --> 01:14:04,580

Kip thought all of Kip Thorne has like a

1849

01:14:09,580 --> 01:14:06,770

hundred students they run the Department

1850

01:14:10,900 --> 01:14:09,590

of Energy they run the NSF they run all

1851

01:14:12,580 --> 01:14:10,910

these programs at Lockheed well they

1852

01:14:13,990 --> 01:14:12,590

said they and I know what they know and

1853

01:14:16,030 --> 01:14:14,000

it would Kip Thorne knows that's why I

1854

01:14:19,230 --> 01:14:16,040

know it's not our guys because if

1855

01:14:22,240 --> 01:14:19,240

anybody would they'll be kept Thorne but

1856

01:14:23,650 --> 01:14:22,250

kept it so secret what what about the

1857

01:14:25,330 --> 01:14:23,660

fact though that you know we discovered

1858

01:14:29,410 --> 01:14:25,340

a nuclear energy and what year do you

1859

01:14:32,170 --> 01:14:29,420

attribute that to the 30s here we are a

1860

01:14:37,030 --> 01:14:32,180

hundred years later essentially we've

1861

01:14:39,010 --> 01:14:37,040

had no major new discovery yep a long

1862

01:14:40,480 --> 01:14:39,020

time okay now you could see this why is

1863

01:14:41,140 --> 01:14:40,490

Jack Starfighter getting so much

1864

01:14:42,970 --> 01:14:41,150

opposition

1865

01:14:45,580 --> 01:14:42,980

from you know for the powers-that-be

1866

01:14:49,209 --> 01:14:45,590

about this maybe because they don't want

1867

01:14:51,070 --> 01:14:49,219

anybody to know okay you could say that

1868

01:14:53,740 --> 01:14:51,080

so that's not about giving me your faith

1869

01:14:55,300 --> 01:14:53,750

right but we forgot the Russians we

1870

01:14:56,950 --> 01:14:55,310

forgot the Russians they've gotta talk

1871

01:14:58,899 --> 01:14:56,960

about the Russians that Russia Russia

1872

01:15:01,209 --> 01:14:58,909

Russia right the residence all right

1873

01:15:02,890 --> 01:15:01,219

let's put a pin in Russian for a second

1874

01:15:05,560 --> 01:15:02,900

just I want to finish the time-travel

1875

01:15:08,260 --> 01:15:05,570

thing so what what we know and

1876

01:15:10,090 --> 01:15:08,270

apparently is proven is that if you

1877

01:15:11,860 --> 01:15:10,100

travel the closer to the speed of light

1878

01:15:18,610 --> 01:15:11,870

the faster that you go the more time

1879

01:15:19,899 --> 01:15:18,620

slows down correct yes and so okay okay

1880

01:15:21,310 --> 01:15:19,909

let's just talking about okay let's

1881

01:15:22,540 --> 01:15:21,320

plane that to people yeah I just want to

1882

01:15:23,919 --> 01:15:22,550

make sure the first of all yeah I

1883

01:15:26,830 --> 01:15:23,929

understand that

1884

01:15:28,540 --> 01:15:26,840

what we do know yeah you're saying

1885

01:15:30,340 --> 01:15:28,550

that's not time travel I mean to some

1886

01:15:31,810 --> 01:15:30,350

extent you can travel into the future it

1887

01:15:34,149 --> 01:15:31,820

doesn't go into the past exactly that's

1888

01:15:35,979 --> 01:15:34,159

especially even then it's arguable that

1889

01:15:38,350 --> 01:15:35,989

it's not really time travel it's just

1890

01:15:39,850 --> 01:15:38,360

that travel times slowed down for you

1891

01:15:42,669 --> 01:15:39,860

but it is true that when you come back

1892

01:15:44,260 --> 01:15:42,679

after five years everybody on earth is

1893

01:15:48,970 --> 01:15:44,270

it's 50 years later so in that exactly

1894

01:15:50,590 --> 01:15:48,980

but that's not as that okay

1895

01:15:53,800 --> 01:15:50,600

so what you're saying is the time the

1896

01:15:56,500 --> 01:15:53,810

the the the the time travel that we do

1897

01:15:57,970 --> 01:15:56,510

know about that is proven it's not

1898

01:15:59,979 --> 01:15:57,980

related to what you're talking about

1899

01:16:01,419 --> 01:15:59,989

which there's zero scientific evidence

1900

01:16:03,700 --> 01:16:01,429

for therefore no the reason I the

1901

01:16:05,860 --> 01:16:03,710

evidence is the tic-tac itself the

1902

01:16:08,830 --> 01:16:05,870

tic-tac itself okay and also my

1903

01:16:10,500 --> 01:16:08,840

particular experiences which is not you

1904

01:16:12,490 --> 01:16:10,510

know you have to take a leap of faith

1905

01:16:14,770 --> 01:16:12,500

that it actually happened but there are

1906

01:16:19,270 --> 01:16:14,780

other there are other yeah so in case

1907

01:16:20,620 --> 01:16:19,280

it's my purse my educated guess is that

1908

01:16:22,600 --> 01:16:20,630

from the future and you think that it

1909

01:16:24,010 --> 01:16:22,610

obviously you think it is scientifically

1910

01:16:24,939 --> 01:16:24,020

possible to travel back in time

1911

01:16:26,830 --> 01:16:24,949

absolutely

1912

01:16:28,630 --> 01:16:26,840

and but there's no formulas for that yet

1913

01:16:30,550 --> 01:16:28,640

there's no real form we have plenty of

1914

01:16:32,080 --> 01:16:30,560

formulas phonies are out there he would

1915

01:16:33,970 --> 01:16:32,090

keep throwing those forms out that would

1916

01:16:35,530 --> 01:16:33,980

prove that that's possible oh yeah that

1917

01:16:38,649 --> 01:16:35,540

said there's physical review of this

1918

01:16:40,810 --> 01:16:38,659

whole industry of theorists showing how

1919

01:16:42,729 --> 01:16:40,820

time travel may be possible

1920

01:16:44,770 --> 01:16:42,739

theoretically in terms of mindset yeah

1921

01:16:46,180 --> 01:16:44,780

back in time there are there problems

1922

01:16:48,160 --> 01:16:46,190

where some people think that this

1923

01:16:50,140 --> 01:16:48,170

through quantum effects is gonna be as

1924

01:16:52,919 --> 01:16:50,150

soon as the worm hold that becomes a

1925

01:16:54,900 --> 01:16:52,929

time machine it's gonna blow up well

1926

01:16:57,060 --> 01:16:54,910

they're doing that spec

1927

01:16:58,560 --> 01:16:57,070

laney on quantum gravity theories which

1928

01:17:00,420 --> 01:16:58,570

nobody really has a good quantum gravity

1929

01:17:02,580 --> 01:17:00,430

theory yet so so that's the speculation

1930

01:17:06,060 --> 01:17:02,590

what I'm saying is that the fact of the

1931

01:17:08,190 --> 01:17:06,070

tic-tac revelations in December 2017 by

1932

01:17:10,040 --> 01:17:08,200

the US Navy all this stuff shows that

1933

01:17:12,360 --> 01:17:10,050

those speculations are somehow wrong

1934

01:17:13,530 --> 01:17:12,370

because the fact is because I was told

1935

01:17:14,430 --> 01:17:13,540

they are from the future and it makes

1936

01:17:17,700 --> 01:17:14,440

sense that they're coming from the

1937

01:17:20,190 --> 01:17:17,710

future so and I again I could be wrong

1938

01:17:22,650 --> 01:17:20,200

any good scientists well thank you again

1939

01:17:24,930 --> 01:17:22,660

to dr. Jack Sarfati check him out on the

1940

01:17:26,960 --> 01:17:24,940

web he's all over the place on the

1941

01:17:29,640 --> 01:17:26,970

Internet as well as his book Stace

1942

01:17:32,430 --> 01:17:29,650

space-time and beyond which you can find

1943

01:17:33,990 --> 01:17:32,440

on Amazon thank you to our producer

1944

01:17:35,100 --> 01:17:34,000

Michael Parker thank you all for

1945

01:17:37,350 --> 01:17:35,110

listening to the hidden Drew's show
