1
00:00:04,550 --> 00:00:02,360
alright I'm ready for the answer what is

2
00:00:07,849 --> 00:00:04,560
different about our response to this

3
00:00:11,480 --> 00:00:07,859
virus versus the ones you cite or why

4
00:00:14,810 --> 00:00:11,490
why the difference it's us it's the

5
00:00:15,970 --> 00:00:14,820
reaction and I think a few things have

6
00:00:20,210 --> 00:00:15,980
been going on here

7
00:00:25,670 --> 00:00:20,220
one is they've been working on this by

8
00:00:29,089 --> 00:00:25,680
they I mean the public health people the

9
00:00:33,049 --> 00:00:29,099
media they've been working on this since

10
00:00:35,200 --> 00:00:33,059
aids which was the first epidemic that's

11
00:00:39,229 --> 00:00:35,210
that's where I kind of ground my teeth

12
00:00:43,040 --> 00:00:39,239
beginning in 1987 I wrote a book on it I

13
00:00:46,880 --> 00:00:43,050

wrote countless articles you may recall

14

00:00:49,910 --> 00:00:46,890

we were told the the disease of them is

15

00:00:54,770 --> 00:00:49,920

suddenly the disease of us aids doesn't

16

00:00:58,549 --> 00:00:54,780

discriminate on and on and on and it was

17

00:01:04,310 --> 00:00:58,559

off it was all fake aids was always a

18

00:01:06,980 --> 00:01:04,320

disease of gay men intravenous drug

19

00:01:09,950 --> 00:01:06,990

users and originally recipients of blood

20

00:01:12,140 --> 00:01:09,960

and blood products it was always that

21

00:01:14,960 --> 00:01:12,150

way it remains that way in the United

22

00:01:17,690 --> 00:01:14,970

States today these people lied I mean

23

00:01:19,490 --> 00:01:17,700

there's no polite way of saying they

24

00:01:23,330 --> 00:01:19,500

lied because they thought they were

25

00:01:26,840 --> 00:01:23,340

doing you know the Lord the Lord's work

26

00:01:30,980 --> 00:01:26,850

they decided that to the extent the AIDS

27

00:01:33,200 --> 00:01:30,990

was seen as a disease of undesirables it

28

00:01:36,230 --> 00:01:33,210

wouldn't get the kind of attention and

29

00:01:39,740 --> 00:01:36,240

money it deserved and I will grant them

30

00:01:43,520 --> 00:01:39,750

this they were incredibly successful to

31

00:01:47,510 --> 00:01:43,530

this day AIDS is the second biggest line

32

00:01:50,780 --> 00:01:47,520

item in the the National Institutes of

33

00:01:53,149 --> 00:01:50,790

Health Research budget my point was the

34

00:01:56,660 --> 00:01:53,159

bad guys as I as I call them they don't

35

00:02:00,139 --> 00:01:56,670

see themselves as bad guys but they were

36

00:02:03,170 --> 00:02:00,149

liars and they intentionally lied and

37

00:02:05,929 --> 00:02:03,180

they got away with it they got away with

38

00:02:07,760 --> 00:02:05,939

it beyond their wildest dreams the ends

39

00:02:08,900 --> 00:02:07,770

justified the means in their mind though

40

00:02:12,500 --> 00:02:08,910

because they didn't want this to be a

41

00:02:13,940 --> 00:02:12,510

stigmatized community the gays etc and

42

00:02:15,530 --> 00:02:13,950

so they said let's

43

00:02:17,510 --> 00:02:15,540

like this affects everyone equally I

44

00:02:19,040 --> 00:02:17,520

totally agree with you and I've always

45

00:02:21,229 --> 00:02:19,050

thought that and you've proven it with

46

00:02:24,530 --> 00:02:21,239

your book so okay keep going

47

00:02:28,309 --> 00:02:24,540

but it's not just the idea it's the

48

00:02:30,350 --> 00:02:28,319

people themselves because two of the

49

00:02:33,350 --> 00:02:30,360

biggest culprits perhaps you've heard

50

00:02:37,100 --> 00:02:33,360

their names were Anthony foul G and

51
00:02:42,920 --> 00:02:37,110
Robert Redfield if you look at my book

52
00:02:46,940 --> 00:02:42,930
my 1990 book Redfield is on 24 different

53
00:02:49,699 --> 00:02:46,950
pages of my book vouchers and there are

54
00:02:53,240 --> 00:02:49,709
other fewer pages but foul she actually

55
00:02:56,539 --> 00:02:53,250
kicked off basically the hysteria

56
00:03:00,589 --> 00:02:56,549
with a paper that he's solely authored

57
00:03:03,890 --> 00:03:00,599
in 1983 saying it looked like aids could

58
00:03:06,979 --> 00:03:03,900
be spread through basically like a flu

59
00:03:10,250 --> 00:03:06,989
if you be spread within a family he

60
00:03:12,259 --> 00:03:10,260
published that paper in 1983 the very

61
00:03:15,949 --> 00:03:12,269
next year he was appointed to his

62
00:03:19,360 --> 00:03:15,959
current position at the National

63
00:03:22,190 --> 00:03:19,370

infectious National Institute of

64

00:03:24,740 --> 00:03:22,200

allergies and infectious diseases that

65

00:03:28,160 --> 00:03:24,750

was his reward for being spectacularly

66

00:03:31,849 --> 00:03:28,170

wrong but wrong in the right direction

67

00:03:35,120 --> 00:03:31,859

he was alarmist ly wrong Redfield was

68

00:03:37,879 --> 00:03:35,130

wrong basically just across the board

69

00:03:40,490 --> 00:03:37,889

including co-authoring a paper that said

70

00:03:44,809 --> 00:03:40,500

your chance of getting AIDS through

71

00:03:49,940 --> 00:03:44,819

vaginal contact was fifty percent per

72

00:03:52,490 --> 00:03:49,950

sex act so basically after three acts of

73

00:03:55,420 --> 00:03:52,500

sex between a man and a woman if one or

74

00:03:58,699 --> 00:03:55,430

the other had HIV the other would get it

75

00:04:00,979 --> 00:03:58,709

that's that's insane it's it's probably

76

00:04:03,710 --> 00:04:00,989

on the order of thousands of acts of

77

00:04:04,879 --> 00:04:03,720

intercourse thousands so Redfield was

78

00:04:12,740 --> 00:04:04,889

spectacularly wrong

79

00:04:14,360 --> 00:04:12,750

now one of the two top infectious

80

00:04:18,740 --> 00:04:14,370

disease people in the country and

81

00:04:20,870 --> 00:04:18,750

Redfield is the other one it pays to be

82

00:04:23,029 --> 00:04:20,880

spectacularly wrong if you're wrong in

83

00:04:26,420 --> 00:04:23,039

the right direction so my point in

84

00:04:27,410 --> 00:04:26,430

bringing was bringing all this up is the

85

00:04:29,510 --> 00:04:27,420

bad guys

86

00:04:32,090 --> 00:04:29,520

as I put it public health people the

87

00:04:34,070 --> 00:04:32,100

media they've learned from AIDS that you

88

00:04:37,250 --> 00:04:34,080

cannot just get away with this

89

00:04:39,740 --> 00:04:37,260

but spectacularly so so we have seen it

90

00:04:41,750 --> 00:04:39,750

time and again since we saw it with

91

00:04:43,400 --> 00:04:41,760

avian flu that was supposed to kill

92

00:04:47,150 --> 00:04:43,410

millions and millions of people

93

00:04:48,890 --> 00:04:47,160

it kills 400 we saw it with SARS it was

94

00:04:53,330 --> 00:04:48,900

supposed to kill millions and millions

95

00:04:55,970 --> 00:04:53,340

of people he killed 744 we saw with mad

96

00:04:59,320 --> 00:04:55,980

cow disease that a guy named Neil

97

00:05:02,420 --> 00:04:59,330

Ferguson said would kill as many as

98

00:05:05,690 --> 00:05:02,430

50,000 people it killed a couple of

99

00:05:09,410 --> 00:05:05,700

hundred Neil Ferguson also weighed in on

100

00:05:12,410 --> 00:05:09,420

avian flu a couple million there again

101
00:05:15,440 --> 00:05:12,420
it kills about 400 people yeah that's

102
00:05:19,790 --> 00:05:15,450
the same Neil Ferguson that came up with

103
00:05:23,900 --> 00:05:19,800
the model saying as many as 2.2 million

104
00:05:27,290 --> 00:05:23,910
American deaths from covin 19 Neil

105
00:05:30,260 --> 00:05:27,300
Ferguson personally learned that the

106
00:05:34,310 --> 00:05:30,270
more outrageous you are the more wrong

107
00:05:35,750 --> 00:05:34,320
you are the more you are rewarded all of

108
00:05:41,210 --> 00:05:35,760
these people have been taught

109
00:05:43,730 --> 00:05:41,220
Ebola one Ebola to I mean I Zika virus I

110
00:05:46,370 --> 00:05:43,740
wrote about all of these things I was

111
00:05:49,820 --> 00:05:46,380
right they were wrong look where I am

112
00:05:53,090 --> 00:05:49,830
look where they are we each and every

113
00:05:55,550 --> 00:05:53,100

foe epidemic each and every for disaster

114

00:05:58,250 --> 00:05:55,560

these people learned we can get away

115

00:06:01,160 --> 00:05:58,260

with this well and also aren't doctors

116

00:06:03,950 --> 00:06:01,170

in general just kind of predisposed to

117

00:06:05,540 --> 00:06:03,960

give you worst-case scenario and and

118

00:06:07,430 --> 00:06:05,550

that's kind of what they're doing they

119

00:06:09,530 --> 00:06:07,440

want to err on the side of worst-case

120

00:06:11,960 --> 00:06:09,540

scenario because you know if you

121

00:06:14,600 --> 00:06:11,970

underestimated something now you're

122

00:06:17,300 --> 00:06:14,610

really heads on a chopping block but if

123

00:06:19,670 --> 00:06:17,310

you overestimated it you know we air it

124

00:06:22,610 --> 00:06:19,680

on the side of extra caution everybody's

125

00:06:24,800 --> 00:06:22,620

gonna cut you some slack is well okay

126

00:06:27,790 --> 00:06:24,810

thank God it didn't turn out to be that

127

00:06:31,820 --> 00:06:27,800

bad but we erred on the side of caution

128

00:06:34,340 --> 00:06:31,830

blessed is the additional factor of you

129

00:06:36,440 --> 00:06:34,350

always see this they say the only reason

130

00:06:39,410 --> 00:06:36,450

it didn't turn out to be apocalyptic

131

00:06:40,589 --> 00:06:39,420

like we said it would be is because we

132

00:06:44,100 --> 00:06:40,599

said it would be a

133

00:06:46,409 --> 00:06:44,110

galenic because people listen to us and

134

00:06:50,129 --> 00:06:46,419

they took the proper actions and that's

135

00:06:54,029 --> 00:06:50,139

never been the case what what incredible

136

00:06:54,779 --> 00:06:54,039

things did we do to fight Ebola nothing

137

00:06:57,480 --> 00:06:54,789

really

138

00:07:00,600 --> 00:06:57,490

Ebola was always in African disease it

139

00:07:04,799 --> 00:07:00,610

was always slated to remain in African

140

00:07:07,760 --> 00:07:04,809

disease a few cases I came by airplane

141

00:07:12,779 --> 00:07:07,770

to other countries and and nobody got

142

00:07:16,320 --> 00:07:12,789

infected from those few cases SARS was

143

00:07:20,909 --> 00:07:16,330

always had a high lethality rate was

144

00:07:21,629 --> 00:07:20,919

very very hard to spread just on and on

145

00:07:26,820 --> 00:07:21,639

and on

146

00:07:29,369 --> 00:07:26,830

I personally wrote at that time these

147

00:07:30,449 --> 00:07:29,379

things are exaggerated these predictions

148

00:07:34,109 --> 00:07:30,459

are false

149

00:07:36,809 --> 00:07:34,119

I didn't write in hindsight I was right

150

00:07:41,489 --> 00:07:36,819

they were all wrong how is it that Mike

151
00:07:44,279 --> 00:07:41,499
Fomento with no formal epidemiological

152
00:07:45,480 --> 00:07:44,289
training no no formal very logical

153
00:07:47,969 --> 00:07:45,490
training or anything like that

154
00:07:50,609 --> 00:07:47,979
how was it I was right and they were all

155
00:07:52,709 --> 00:07:50,619
wrong with their their degrees and their

156
00:07:55,469 --> 00:07:52,719
positions and what happened and it

157
00:07:57,689 --> 00:07:55,479
really comes down to you know a couple

158
00:08:00,359 --> 00:07:57,699
of things I hate being wrong it just

159
00:08:02,699 --> 00:08:00,369
it's a OCD thing it just drives me nuts

160
00:08:06,269 --> 00:08:02,709
I will put in any amount of research to

161
00:08:07,829 --> 00:08:06,279
not be wrong but another thing is I want

162
00:08:10,619 --> 00:08:07,839
to be right I want to tell people the

163
00:08:12,329 --> 00:08:10,629

truth whatever it happens to be they

164

00:08:14,429 --> 00:08:12,339

don't want to be right they don't want

165

00:08:16,409 --> 00:08:14,439

itself be people the truth whatever it

166

00:08:18,779 --> 00:08:16,419

happens to be they want to exaggerate

167

00:08:21,209 --> 00:08:18,789

and isn't the other parallel to AIDS

168

00:08:23,899 --> 00:08:21,219

that just as with AIDS they wanted to

169

00:08:27,899 --> 00:08:23,909

make it appear that anyone can get this

170

00:08:29,579 --> 00:08:27,909

with coronavirus it appears very clear

171

00:08:31,499 --> 00:08:29,589

it affects the elderly and people with

172

00:08:34,259 --> 00:08:31,509

serious pre-existing health conditions

173

00:08:36,569 --> 00:08:34,269

but they don't want people to think that

174

00:08:37,800 --> 00:08:36,579

all no this is just an elderly thing

175

00:08:40,740 --> 00:08:37,810

it's just people with health conditions

176

00:08:43,879 --> 00:08:40,750

and so they exaggerate how much it

177

00:08:46,319 --> 00:08:43,889

affects your average healthy person

178

00:08:49,079 --> 00:08:46,329

right you see it in the slogans like

179

00:08:52,049 --> 00:08:49,089

we're all in this together it's just

180

00:08:54,540 --> 00:08:52,059

like aids aids doesn't discriminate for

181

00:08:57,030 --> 00:08:54,550

komen it's we're all in this together

182

00:09:00,000 --> 00:08:57,040

no we're not all in this together almost

183

00:09:04,290 --> 00:09:00,010

nobody in the United States under age 20

184

00:09:07,080 --> 00:09:04,300

has died of kovat under age 20 you are

185

00:09:10,080 --> 00:09:07,090

less likely to get the disease you are

186

00:09:11,820 --> 00:09:10,090

less likely to spread the disease a lot

187

00:09:13,650 --> 00:09:11,830

of people don't know that and you're

188

00:09:16,290 --> 00:09:13,660

much less likely to die of the disease

189

00:09:18,420 --> 00:09:16,300

almost no chance of dying of COVID if

190

00:09:20,460 --> 00:09:18,430

you're under 20 for that matter of

191

00:09:23,430 --> 00:09:20,470

you're under 30 there's almost no chance

192

00:09:27,600 --> 00:09:23,440

of die of the disease it's basically you

193

00:09:30,300 --> 00:09:27,610

know by the time a up to 60 65 75 80

194

00:09:33,480 --> 00:09:30,310

that's when your risks start to get real

195

00:09:35,880 --> 00:09:33,490

and even there as you pointed out almost

196

00:09:39,660 --> 00:09:35,890

all of these people have pre-existing

197

00:09:41,400 --> 00:09:39,670

conditions diabetes heart disease as a

198

00:09:46,080 --> 00:09:41,410

lot of things like that

199

00:09:51,600 --> 00:09:46,090

the CDC this is also a new CDC study has

200

00:09:54,240 --> 00:09:51,610

found that 93% of all COVID deaths in

201

00:09:56,880 --> 00:09:54,250

the United States those people had at
