

HIDDEN TRUTH SHOW WITH JIM BRESLO

MICHAEL FUMENTO

1
00:00:07,150 --> 00:00:05,530
how restrictive are you as far as being

2
00:00:09,570 --> 00:00:07,160
able to comment about the truth of

3
00:00:13,120 --> 00:00:09,580
what's going on in the Philippines today

4
00:00:16,990 --> 00:00:13,130
I'm not sure that even answering that is

5
00:00:21,060 --> 00:00:17,000
a smartest thing in the world I can say

6
00:00:24,159 --> 00:00:21,070
that it's a bit illustrative of the

7
00:00:28,269 --> 00:00:24,169
what's going on worldwide in the

8
00:00:30,970 --> 00:00:28,279
Philippines presumably because it is

9
00:00:33,970 --> 00:00:30,980
very hot here it is very humid here and

10
00:00:39,279 --> 00:00:33,980
it is very sunny here this is not an

11
00:00:42,189 --> 00:00:39,289
ideal country for covin 19 and you end

12
00:00:45,489 --> 00:00:42,199
for that reason I would guess we have

13
00:00:47,049 --> 00:00:45,499

very few cases and almost no deaths

14

00:00:50,470 --> 00:00:47,059

we're running we've been running at

15

00:00:53,680 --> 00:00:50,480

about 10 deaths a day for a country of a

16

00:00:58,029 --> 00:00:53,690

hundred and nine million people well

17

00:01:01,180 --> 00:00:58,039

that's essentially zero but the lockdown

18

00:01:04,990 --> 00:01:01,190

the quarantine here is about as severe

19

00:01:09,310 --> 00:01:05,000

as any place in the world and describe

20

00:01:11,860 --> 00:01:09,320

that for us quickly well we're very

21

00:01:17,260 --> 00:01:11,870

restricted by quarantine cards we can

22

00:01:20,590 --> 00:01:17,270

only go within certain boundaries is

23

00:01:22,960 --> 00:01:20,600

that on your phone in some way is that

24

00:01:25,000 --> 00:01:22,970

is there an app on your phone that is

25

00:01:28,780 --> 00:01:25,010

tracking you in some well no it's just

26

00:01:31,510 --> 00:01:28,790

the piece of paper that if you're smart

27

00:01:34,740 --> 00:01:31,520

you laminate because after nine weeks a

28

00:01:38,460 --> 00:01:34,750

piece of paper would have fallen apart

29

00:01:43,330 --> 00:01:38,470

so you're restricted to where you can go

30

00:01:46,140 --> 00:01:43,340

there's a curfew at 8 o'clock we have no

31

00:01:48,730 --> 00:01:46,150

transportation unless you have your own

32

00:01:52,090 --> 00:01:48,740

there are no cabs running there's no

33

00:01:54,450 --> 00:01:52,100

Oberer we have motorcycle cabs they do

34

00:01:57,940 --> 00:01:54,460

not run there's no mass transportation

35

00:02:00,640 --> 00:01:57,950

so basically even if you can leave your

36

00:02:02,980 --> 00:02:00,650

house there's no place you can't get to

37

00:02:05,320 --> 00:02:02,990

where you would want to go and there's

38

00:02:08,589 --> 00:02:05,330

nothing open only drug stores and

39

00:02:10,660 --> 00:02:08,599

grocery stores are open and how is the

40

00:02:12,849 --> 00:02:10,670

communication there from the government

41

00:02:14,290 --> 00:02:12,859

as you see I'm sure here we got cuomo

42

00:02:17,250 --> 00:02:14,300

every morning on doing his

43

00:02:20,710 --> 00:02:17,260

one-hour conference Trump's on you know

44

00:02:22,690 --> 00:02:20,720

24/7 you've got Newsom in Garcetti here

45

00:02:24,280 --> 00:02:22,700

in California on every day are they

46

00:02:28,720 --> 00:02:24,290

communicating in this same way in the

47

00:02:31,110 --> 00:02:28,730

Philippines no it's very sparse every

48

00:02:34,150 --> 00:02:31,120

few days they might release something

49

00:02:36,760 --> 00:02:34,160

but literally within a few hours they

50

00:02:39,370 --> 00:02:36,770

might take it back and people take

51
00:02:42,640 --> 00:02:39,380
advantage of that unfortunately the

52
00:02:45,610 --> 00:02:42,650
people to post false things on social

53
00:02:48,120 --> 00:02:45,620
media like crazy and they will take

54
00:02:51,220 --> 00:02:48,130
official documents here and they'll just

55
00:02:53,710 --> 00:02:51,230
change things like like dates you know

56
00:02:56,500 --> 00:02:53,720
things like that you know the quarantine

57
00:02:59,950 --> 00:02:56,510
will now be extended till and you don't

58
00:03:02,050 --> 00:02:59,960
know if it's real or not so it's it's

59
00:03:04,050 --> 00:03:02,060
it's kind of crazy here and how would

60
00:03:08,770 --> 00:03:04,060
you describe people there are they

61
00:03:12,150 --> 00:03:08,780
relatively compliant yeah to say the

62
00:03:16,960 --> 00:03:12,160
least remember this place was a Spanish

63
00:03:18,880 --> 00:03:16,970

colony for 350 years and the Spanish

64

00:03:23,260 --> 00:03:18,890

they always ruled with the jackboot

65

00:03:27,400 --> 00:03:23,270

wherever they went then the United

66

00:03:29,740 --> 00:03:27,410

States took over in 1898 it was a u.s.

67

00:03:32,590 --> 00:03:29,750

colony for about 50 years but that

68

00:03:34,720 --> 00:03:32,600

didn't really have much impact and then

69

00:03:38,190 --> 00:03:34,730

the Japanese took over for four years so

70

00:03:41,800 --> 00:03:38,200

they were under the Japanese jackboot so

71

00:03:46,330 --> 00:03:41,810

they've been trained basically for about

72

00:03:48,070 --> 00:03:46,340

four centuries to be compliant so you're

73

00:03:51,370 --> 00:03:48,080

not gonna get the kind of rallies

74

00:03:53,800 --> 00:03:51,380

demonstrations protests that you get in

75

00:03:56,140 --> 00:03:53,810

places like the United States it's just

76
00:03:57,520 --> 00:03:56,150
not going to happen and if they were to

77
00:04:00,220 --> 00:03:57,530
occur they wouldn't have been there

78
00:04:04,090 --> 00:04:00,230
wouldn't be looked upon too highly by

79
00:04:06,430 --> 00:04:04,100
those in charge no they wouldn't and and

80
00:04:09,280 --> 00:04:06,440
what about the economy I mean I assume

81
00:04:11,259 --> 00:04:09,290
this is extremely destructive to their

82
00:04:13,630 --> 00:04:11,269
economy like it is these other countries

83
00:04:17,710 --> 00:04:13,640
what kind of shape is the Philippines in

84
00:04:20,259 --> 00:04:17,720
to be able to handle this well among

85
00:04:23,140 --> 00:04:20,269
other things 9% of GDP here is from

86
00:04:23,830 --> 00:04:23,150
tourism outside tourism what percent

87
00:04:28,200 --> 00:04:23,840
that's good

88
00:04:31,150 --> 00:04:28,210

ninety percent nine mm-hmm that's gone

89

00:04:33,189 --> 00:04:31,160

no tourism they say for the for the rest

90

00:04:35,409 --> 00:04:33,199

of the year one hopes that that's an

91

00:04:39,550 --> 00:04:35,419

exaggeration but you can't you can't

92

00:04:43,900 --> 00:04:39,560

just lose nine percent and and not have

93

00:04:46,240 --> 00:04:43,910

a severe impact telecommuting here is

94

00:04:49,150 --> 00:04:46,250

very rare because we don't have I have

95

00:04:52,390 --> 00:04:49,160

Wi-Fi here but that's actually very rare

96

00:04:55,300 --> 00:04:52,400

most people just update of plans so they

97

00:04:57,820 --> 00:04:55,310

can't tell it communicate remember when

98

00:04:59,950 --> 00:04:57,830

I told you about transportation even if

99

00:05:02,980 --> 00:04:59,960

their job is still open they probably

100

00:05:06,149 --> 00:05:02,990

can't get to it but their job probably

101

00:05:08,890 --> 00:05:06,159

isn't open this is going to absolutely

102

00:05:13,200 --> 00:05:08,900

devastate the the Filipino economy and

103

00:05:16,149 --> 00:05:13,210

it's already having a very severe impact

104

00:05:18,879 --> 00:05:16,159

unfortunately on the the average person

105

00:05:23,279 --> 00:05:18,889

are they sending out free money to

106

00:05:27,580 --> 00:05:23,289

people like they are here in America yes

107

00:05:31,540 --> 00:05:27,590

some money but no not like you know

108

00:05:36,730 --> 00:05:31,550

America know very very little it depends

109

00:05:39,850 --> 00:05:36,740

on the area and then bags of rice and

110

00:05:43,209 --> 00:05:39,860

some canned goods these people are being

111

00:05:47,469 --> 00:05:43,219

there at truly subsistence level like

112

00:05:50,260 --> 00:05:47,479

like Americans can't even understand so

113

00:05:52,360 --> 00:05:50,270

you would I mean America is in a unique

114

00:05:55,779 --> 00:05:52,370

position as far as having the world's

115

00:05:58,450 --> 00:05:55,789

currency and being very wealthy and

116

00:06:01,059 --> 00:05:58,460

being able to essentially print print

117

00:06:02,110 --> 00:06:01,069

its way out of this print money to help

118

00:06:03,640 --> 00:06:02,120

us out of this countries like

119

00:06:05,980 --> 00:06:03,650

Philippines it seems to me do not have

120

00:06:08,350 --> 00:06:05,990

that ability so you would think that

121

00:06:11,170 --> 00:06:08,360

they would be the ones really leading

122

00:06:13,540 --> 00:06:11,180

the charge to reopen recognizing that

123

00:06:15,189 --> 00:06:13,550

they just can't sustain the kind of

124

00:06:19,330 --> 00:06:15,199

economic damage that they're doing to

125

00:06:22,540 --> 00:06:19,340

themselves you're right and I can't go

126

00:06:24,399 --> 00:06:22,550

into the reasons for that well but the

127

00:06:25,809 --> 00:06:24,409

Philippines certainly isn't unique we

128

00:06:29,980 --> 00:06:25,819

have something that seems to be

129

00:06:34,540 --> 00:06:29,990

worldwide and as as skeptical as I am

130

00:06:37,240 --> 00:06:34,550

about government's response to this and

131

00:06:39,310 --> 00:06:37,250

essentially being a gross overreaction

132

00:06:40,719 --> 00:06:39,320

and I think in general you share that

133

00:06:42,700 --> 00:06:40,729

view and we'll get into that I

134

00:06:45,339 --> 00:06:42,710

you check myself sometimes and think but

135

00:06:49,540 --> 00:06:45,349

gosh how could every one of these

136

00:06:52,839 --> 00:06:49,550

countries all be wrong you know

137

00:06:54,879 --> 00:06:52,849

mmm I and others that think long lines

138

00:06:56,799 --> 00:06:54,889

that I do that say that this is a huge

139

00:06:59,890 --> 00:06:56,809

government overreaction and they're just

140

00:07:02,709 --> 00:06:59,900

taking the absolute wrong approach to

141

00:07:06,640 --> 00:07:02,719

this yet it almost seems like everyone

142

00:07:08,980 --> 00:07:06,650

is wrong except for perhaps Sweden yeah

143

00:07:12,969 --> 00:07:08,990

there are a few outliers not just Sweden

144

00:07:15,309 --> 00:07:12,979

Iceland basically didn't walk down South

145

00:07:18,369 --> 00:07:15,319

Korea did very little in the way of

146

00:07:20,950 --> 00:07:18,379

locking down Taiwan did very little in a

147

00:07:23,619 --> 00:07:20,960

way of locking down and the interesting

148

00:07:27,040 --> 00:07:23,629

thing is that I and others who are much

149

00:07:33,459 --> 00:07:27,050

better at analyzing these things than I

150

00:07:36,879 --> 00:07:33,469

am we find no pattern we find for

151
00:07:39,219 --> 00:07:36,889
example let's look at Sweden Sweden has

152
00:07:42,010 --> 00:07:39,229
done almost nothing in terms of locking

153
00:07:45,100 --> 00:07:42,020
down at first they restricted gatherings

154
00:07:47,619 --> 00:07:45,110
to 500 people that's not much of a

155
00:07:52,269 --> 00:07:47,629
restriction it means no football games

156
00:07:54,939 --> 00:07:52,279
no a pecan certs except is currently in

157
00:07:58,860 --> 00:07:54,949
hiatus anyway there's been talk about a

158
00:08:01,540 --> 00:07:58,870
comeback though yeah they're coming back

159
00:08:03,670 --> 00:08:01,550
then they restricted that the 50 people

160
00:08:05,800 --> 00:08:03,680
well that's that's still a lot of people

161
00:08:07,719 --> 00:08:05,810
who can get together they closed almost

162
00:08:09,820 --> 00:08:07,729
no restaurants they didn't close the

163
00:08:11,889 --> 00:08:09,830

bars very importantly they didn't close

164

00:08:13,889 --> 00:08:11,899

they're great schools their little kids

165

00:08:18,040 --> 00:08:13,899

have been going to school the whole time

166

00:08:23,139 --> 00:08:18,050

Sweden's deaths are below Belgium the

167

00:08:25,360 --> 00:08:23,149

United Kingdom France Spain Italy those

168

00:08:26,469 --> 00:08:25,370

are major European countries well but

169

00:08:28,299 --> 00:08:26,479

hold on a second there's been a lot of

170

00:08:29,829 --> 00:08:28,309

reports and you know everybody's texting

171

00:08:31,059 --> 00:08:29,839

all kinds of things these days the

172

00:08:34,509 --> 00:08:31,069

latest reports I've gotten multiple

173

00:08:36,969 --> 00:08:34,519

texts from my progressive friends who

174

00:08:39,339 --> 00:08:36,979

think that you know the u.s. hasn't done

175

00:08:43,089 --> 00:08:39,349

enough to stop this about Sweden and

176

00:08:44,620 --> 00:08:43,099

their death rate of late and that and I

177

00:08:46,449 --> 00:08:44,630

and I read them and it appeared to be

178

00:08:50,530 --> 00:08:46,459

accurate that their death rate per

179

00:08:53,830 --> 00:08:50,540

capita now is exceeding most if not all

180

00:08:56,530 --> 00:08:53,840

of Europe now

181

00:08:59,290 --> 00:08:56,540

I don't get my my death rates from

182

00:09:00,910 --> 00:08:59,300

social media or anything like that well

183

00:09:02,860 --> 00:09:00,920

this is the mainstream articles because

184

00:09:04,420 --> 00:09:02,870

trust me well when we say mainstream

185

00:09:06,310 --> 00:09:04,430

news I mean that's the New York Times

186

00:09:09,190 --> 00:09:06,320

but we all know that New York Times has

187

00:09:12,760 --> 00:09:09,200

its own bent and that bottom line in the

188

00:09:15,930 --> 00:09:12,770

u.s. the breakdown is CNN MSNBC

189

00:09:18,640 --> 00:09:15,940

and the generally speaking liberal press

190

00:09:20,020 --> 00:09:18,650

want you know talk about this thing you

191

00:09:21,520 --> 00:09:20,030

know the u.s. hasn't been doing enough

192

00:09:23,170 --> 00:09:21,530

they're on the side that we need to

193

00:09:25,150 --> 00:09:23,180

continue to lock down and then your Fox

194

00:09:26,770 --> 00:09:25,160

News and conservative outlets are saying

195

00:09:30,070 --> 00:09:26,780

that you know this is an overreaction so

196

00:09:31,620 --> 00:09:30,080

for the New York Times or I think this

197

00:09:35,230 --> 00:09:31,630

was actually the San Francisco Chronicle

198

00:09:36,610 --> 00:09:35,240

to talk about the death rates in Sweden

199

00:09:38,710 --> 00:09:36,620

well we already know that there's some

200

00:09:40,390 --> 00:09:38,720

bias there but still the numbers are the

201
00:09:43,690 --> 00:09:40,400
numbers so I don't know what numbers are

202
00:09:47,040 --> 00:09:43,700
you seeing and from what sources various

203
00:09:51,360 --> 00:09:47,050
sites one is called world oh meters

204
00:09:55,020 --> 00:09:51,370
another is the the website of the

205
00:09:58,120 --> 00:09:55,030
European Center for Disease Control

206
00:10:00,370 --> 00:09:58,130
another is the Johns Hopkins website

207
00:10:02,350 --> 00:10:00,380
there are numerous websites you can go

208
00:10:04,600 --> 00:10:02,360
to to get the direct data okay so in the

209
00:10:06,940 --> 00:10:04,610
most so I'm all just trust you on this

210
00:10:09,130 --> 00:10:06,950
so the most recent news after you

211
00:10:11,370 --> 00:10:09,140
checking those on deaths per capita

212
00:10:15,340 --> 00:10:11,380
which is the most important measure

213
00:10:18,220 --> 00:10:15,350

where does Sweden rank among the Western

214

00:10:21,910 --> 00:10:18,230

European countries it is it's definitely

215

00:10:24,490 --> 00:10:21,920

higher than most European countries or

216

00:10:26,950 --> 00:10:24,500

most Western European countries but I

217

00:10:32,950 --> 00:10:26,960

think it's very important to note it is

218

00:10:35,020 --> 00:10:32,960

vastly below Belgium Italy and Spain and

219

00:10:37,540 --> 00:10:35,030

it's actually still well below that of

220

00:10:39,490 --> 00:10:37,550

the United Kingdom and France and these

221

00:10:42,670 --> 00:10:39,500

are all major countries we're not

222

00:10:45,880 --> 00:10:42,680

talking like Slovenia or Slovakia which

223

00:10:48,840 --> 00:10:45,890

you know relatively tiny countries yeah

224

00:10:51,280 --> 00:10:48,850

I think look density of a country is

225

00:10:53,170 --> 00:10:51,290

critical I think that's the one thing

226

00:10:55,690 --> 00:10:53,180

we've seen through all this primarily

227

00:10:59,590 --> 00:10:55,700

just looking at America New York City

228

00:11:02,980 --> 00:10:59,600

high density a bit of a problem lower

229

00:11:05,230 --> 00:11:02,990

density Los Angeles not a problem at all

230

00:11:07,000 --> 00:11:05,240

you wouldn't know that reading the media

231

00:11:09,520 --> 00:11:07,010

they call it Los Angeles the Epis

232

00:11:11,710 --> 00:11:09,530

Center of the problem in California even

233

00:11:15,820 --> 00:11:11,720

though our rates are just incredibly

234

00:11:18,100 --> 00:11:15,830

incredibly low but see clearly you see a

235

00:11:24,000 --> 00:11:18,110

correlation between population density

236

00:11:27,250 --> 00:11:24,010

and the virus yes you make a good point

237

00:11:30,670 --> 00:11:27,260

there will never be a controlled study

238

00:11:34,290 --> 00:11:30,680

you will never have like a drug study

239

00:11:37,690 --> 00:11:34,300

where you have one set of lab rats and

240

00:11:40,750 --> 00:11:37,700

you have a control set of lab rats and

241

00:11:43,090 --> 00:11:40,760

they give the one set the drug and you

242

00:11:46,470 --> 00:11:43,100

give the other set the placebo and in

243

00:11:49,480 --> 00:11:46,480

fact it would be double blinded meaning

244

00:11:51,130 --> 00:11:49,490

sounds strange enough the rats don't

245

00:11:54,160 --> 00:11:51,140

know whether they giving the drug or the

246

00:11:56,710 --> 00:11:54,170

placebo but neither does it neither do

247

00:11:59,440 --> 00:11:56,720

they yet the scientists it's called a

248

00:12:01,600 --> 00:11:59,450

double blinded study that is your ideal

249

00:12:03,790 --> 00:12:01,610

study you're not gonna get that when

250

00:12:05,830 --> 00:12:03,800

you're comparing countries we're not

251
00:12:07,900 --> 00:12:05,840
talking lab rats we're talking human

252
00:12:10,950 --> 00:12:07,910
beings each country is gonna have a

253
00:12:14,320 --> 00:12:10,960
different density it's going to have

254
00:12:17,710 --> 00:12:14,330
different cultures for example the

255
00:12:20,110 --> 00:12:17,720
Swedes and southern Italians are going

256
00:12:22,390 --> 00:12:20,120
to interact differently

257
00:12:25,060 --> 00:12:22,400
Swedes urquhart are going to be a colder

258
00:12:27,040 --> 00:12:25,070
people and nothing against them southern

259
00:12:28,660 --> 00:12:27,050
Italians are about the warmest people on

260
00:12:31,180 --> 00:12:28,670
earth so you can expect southern

261
00:12:33,250 --> 00:12:31,190
Italians to be more doing more hugging

262
00:12:35,140 --> 00:12:33,260
and kissing and all that and sweets

263
00:12:37,930 --> 00:12:35,150

especially during the winter are gonna

264

00:12:40,150 --> 00:12:37,940

be doing less you're gonna have climate

265

00:12:42,190 --> 00:12:40,160

differences I already discussed that the

266

00:12:44,620 --> 00:12:42,200

climate situation in the Philippines

267

00:12:48,340 --> 00:12:44,630

which is a very bad climate for the

268

00:12:52,450 --> 00:12:48,350

virus conversely Sweden of course is a

269

00:12:56,080 --> 00:12:52,460

very cold dry country and really an

270

00:12:58,450 --> 00:12:56,090

ideal place for the virus itself to be

271

00:13:01,510 --> 00:12:58,460

spreading so you have all of these

272

00:13:04,270 --> 00:13:01,520

different variables you can't do a a one

273

00:13:06,280 --> 00:13:04,280

to one comparison I'm just saying if you

274

00:13:09,520 --> 00:13:06,290

look at Sweden and the other outliers

275

00:13:12,760 --> 00:13:09,530

like Iceland like Taiwan like South

276

00:13:15,880 --> 00:13:12,770

Korea we really don't see a pattern

277

00:13:19,810 --> 00:13:15,890

between locking down and death rates

278

00:13:29,630 --> 00:13:24,880

if lockdowns work if they do and

279

00:13:31,610 --> 00:13:29,640

Sweden's not locking down that means

280

00:13:35,300 --> 00:13:31,620

basically their front loading their

281

00:13:37,100 --> 00:13:35,310

desks they're getting deaths now that

282

00:13:39,830 --> 00:13:37,110

other countries are gonna get when they

283

00:13:42,470 --> 00:13:39,840

unlock so it may not be fair to compare

284

00:13:44,690 --> 00:13:42,480

Swedish deaths the other countries

285

00:13:47,240 --> 00:13:44,700

deaths at all oh that's that's not I'm

286

00:13:49,850 --> 00:13:47,250

an absolute agreement on that you until

287

00:13:51,410 --> 00:13:49,860

this thing is all said and done we're in

288

00:13:53,240 --> 00:13:51,420

the middle who knows what inning we're

289

00:13:56,120 --> 00:13:53,250

in but we're in the middle of the game

290

00:13:58,340 --> 00:13:56,130

here so what their death rate is now is

291

00:14:00,410 --> 00:13:58,350

really somewhat irrelevant I would say

292

00:14:03,050 --> 00:14:00,420

that well of course their death rate is

293

00:14:04,520 --> 00:14:03,060

gonna be higher because they didn't lock

294

00:14:07,040 --> 00:14:04,530

down subscribing to the idea that

295

00:14:09,140 --> 00:14:07,050

locking em probably does help prevent

296

00:14:12,200 --> 00:14:09,150

the spread but they're playing the long

297

00:14:15,320 --> 00:14:12,210

game because are you gonna stay lockdown

298

00:14:17,690 --> 00:14:15,330

until there's a quote-unquote cure which

299

00:14:20,000 --> 00:14:17,700

we don't know if it will ever come but

300

00:14:22,610 --> 00:14:20,010

the mayor in Los Angeles Garcetti has is

301
00:14:25,340 --> 00:14:22,620
on record saying restrictions will stay

302
00:14:28,910 --> 00:14:25,350
in place until we find a cure so he is

303
00:14:31,570 --> 00:14:28,920
at least acknowledged the moving of the

304
00:14:33,860 --> 00:14:31,580
goal posts the original goal posts were

305
00:14:37,730 --> 00:14:33,870
locked down to not overwhelm the

306
00:14:39,380 --> 00:14:37,740
healthcare system and then start

307
00:14:41,450 --> 00:14:39,390
releasing you know as long as there's

308
00:14:42,620 --> 00:14:41,460
not that problem well we haven't

309
00:14:44,900 --> 00:14:42,630
overwhelmed the healthcare system

310
00:14:46,400 --> 00:14:44,910
anywhere in America except arguably New

311
00:14:49,310 --> 00:14:46,410
York but even there I think there's it's

312
00:14:51,110 --> 00:14:49,320
debatable yet they're not easing the

313
00:14:53,210 --> 00:14:51,120

restrictions or we're doing it extremely

314

00:14:54,890 --> 00:14:53,220

slowly and we're now learning that's

315

00:14:56,690 --> 00:14:54,900

because they want to keep the

316

00:15:01,010 --> 00:14:56,700

restrictions in place until there's a

317

00:15:03,980 --> 00:15:01,020

cure so if that's if that's the new

318

00:15:06,650 --> 00:15:03,990

strategy then that totally changes the

319

00:15:08,720 --> 00:15:06,660

calculus of everything yes it's

320

00:15:12,260 --> 00:15:08,730

important to keep in mind that only one

321

00:15:15,980 --> 00:15:12,270

virus has ever been cured hepatitis C it

322

00:15:18,580 --> 00:15:15,990

took decades of research before we could

323

00:15:22,910 --> 00:15:18,590

do that it's also incredibly expensive

324

00:15:23,300 --> 00:15:22,920

so a cure isn't even that's not on the

325

00:15:26,300 --> 00:15:23,310

board

326

00:15:27,980 --> 00:15:26,310

well vaccine though ok vaccine is

327

00:15:30,740 --> 00:15:27,990

different I think that's what he's

328

00:15:33,470 --> 00:15:30,750

referring to some of these people

329

00:15:35,360 --> 00:15:33,480

actually use the word cure he

330

00:15:38,680 --> 00:15:35,370

he used the word cure he did the mayor

331

00:15:41,840 --> 00:15:38,690

but I think in his mind he means vaccine

332

00:15:44,750 --> 00:15:41,850

okay then let's talk about vaccines the

333

00:15:47,720 --> 00:15:44,760

flu back we have a flu vaccine every

334

00:15:51,290 --> 00:15:47,730

year it actually comprises three

335

00:15:54,800 --> 00:15:51,300

different strains of flu but as many as

336

00:15:57,220 --> 00:15:54,810

60,000 Americans still died of flu every

337

00:16:00,949 --> 00:15:57,230

year because it's not a perfect vaccine

338

00:16:03,740 --> 00:16:00,959

all vaccines in fact are to an extent

339

00:16:05,540 --> 00:16:03,750

age dependent the older you are the less

340

00:16:10,610 --> 00:16:05,550

effective the vaccine

341

00:16:15,860 --> 00:16:10,620

what demographic group does kovat 19

342

00:16:19,090 --> 00:16:15,870

affect the most the elderly so the

343

00:16:23,449 --> 00:16:19,100

elderly are going to be the least

344

00:16:25,220 --> 00:16:23,459

protected by a Kovan 19 vaccine I don't

345

00:16:27,470 --> 00:16:25,230

care what they come up with and I don't

346

00:16:29,629 --> 00:16:27,480

care how fast they come up with it so a

347

00:16:33,110 --> 00:16:29,639

vaccine is not gonna wipe this disease

348

00:16:35,720 --> 00:16:33,120

out basically but we can't expect this

349

00:16:38,090 --> 00:16:35,730

disease to be wiped out it's going to be

350

00:16:41,600 --> 00:16:38,100

right now it's what's called epidemic

351

00:16:44,689 --> 00:16:41,610

level shortly it will go down to what's

352

00:16:46,910 --> 00:16:44,699

called endemic level which means you

353

00:16:52,400 --> 00:16:46,920

know not high rates it means a low rate

354

00:16:54,019 --> 00:16:52,410

but it's still gonna be out there and so

355

00:16:58,600 --> 00:16:54,029

if you're waiting for the virus to go

356

00:17:01,819 --> 00:16:58,610

away we could be waiting a few decades

357

00:17:03,170 --> 00:17:01,829

yeah and that's the way in which Sweden

358

00:17:06,770 --> 00:17:03,180

ultimately is gonna come out of this

359

00:17:07,490 --> 00:17:06,780

looking smart because there is no cure

360

00:17:09,770 --> 00:17:07,500

for it

361

00:17:11,539 --> 00:17:09,780

there is no guaranteed vaccine even if

362

00:17:13,760 --> 00:17:11,549

it comes it's gonna come way down the

363

00:17:15,319 --> 00:17:13,770

road it's not gonna necessarily be a

364

00:17:17,090 --> 00:17:15,329

hundred percent effective are you gonna

365

00:17:19,130 --> 00:17:17,100

mandate the three hundred million people

366

00:17:20,809 --> 00:17:19,140

in the u.s. take the vaccine I can tell

367

00:17:22,130 --> 00:17:20,819

you my mom and my sister ain't taken

368

00:17:24,199 --> 00:17:22,140

that vaccine there's some people that

369

00:17:26,360 --> 00:17:24,209

are very anti vaccine for their own

370

00:17:27,679 --> 00:17:26,370

personal reasons and and so be it but

371

00:17:29,990 --> 00:17:27,689

you would have to mandate that everybody

372

00:17:31,940 --> 00:17:30,000

take it so the only way out of this

373

00:17:34,970 --> 00:17:31,950

thing it seems to me is to allow it to

374

00:17:36,320 --> 00:17:34,980

spread through the community and make

375

00:17:38,810 --> 00:17:36,330

sure it doesn't overwhelm the healthcare

376

00:17:41,690 --> 00:17:38,820

system but that's about all you can do

377

00:17:44,299 --> 00:17:41,700

and yes we'd maybe ahead on the death

378

00:17:46,070 --> 00:17:44,309

rate right now but unless America plans

379

00:17:47,120 --> 00:17:46,080

on staying locked down for the next 18

380

00:17:48,950 --> 00:17:47,130

months

381

00:17:51,350 --> 00:17:48,960

we're gonna get there on the death-rate

382

00:17:53,990 --> 00:17:51,360

right the virus is gonna is gonna do

383

00:17:58,820 --> 00:17:54,000

what the virus is gonna do nobody in

384

00:18:01,880 --> 00:17:58,830

history has ever quarantined a virus to

385

00:18:02,630 --> 00:18:01,890

death and guess what we're not gonna be

386

00:18:07,160 --> 00:18:02,640

the first

387

00:18:09,080 --> 00:18:07,170

it just takes incredible hubris to think

388

00:18:11,780 --> 00:18:09,090

that we are gonna be the first that

389

00:18:14,600 --> 00:18:11,790

we're gonna lock up healthy people long

390

00:18:18,110 --> 00:18:14,610

enough to wipe out of a virus now mind

391

00:18:23,240 --> 00:18:18,120

you some viruses disappear on their own

392

00:18:29,930 --> 00:18:23,250

in fact a sister virus SARS did in fact

393

00:18:32,480 --> 00:18:29,940

disappear in July of the of 2003 SARS

394

00:18:34,460 --> 00:18:32,490

disappeared but serves was a different

395

00:18:37,520 --> 00:18:34,470

coronavirus there are many different

396

00:18:40,100 --> 00:18:37,530

corner viruses it was it basically

397

00:18:42,590 --> 00:18:40,110

embedded much deeper in the lungs it was

398

00:18:46,490 --> 00:18:42,600

more susceptible to disappearing where

399

00:18:49,370 --> 00:18:46,500

is this cove in nineteen likes to live

400

00:18:51,800 --> 00:18:49,380

basically in the throat and so it's much

401
00:18:53,420 --> 00:18:51,810
less likely to simply disappear I won't

402
00:18:56,030 --> 00:18:53,430
say it won't disappear I'm saying it

403
00:18:57,980 --> 00:18:56,040
almost certainly won't MERS that was

404
00:19:02,120 --> 00:18:57,990
another coronavirus and it disappeared

405
00:19:04,100 --> 00:19:02,130
as well so this might disappear but you

406
00:19:07,640 --> 00:19:04,110
know a lot of colds are caused by

407
00:19:09,470 --> 00:19:07,650
corona viruses and they don't disappear

408
00:19:13,310 --> 00:19:09,480
they come back year after year after

409
00:19:15,260 --> 00:19:13,320
year so we can't just presume that this

410
00:19:17,120 --> 00:19:15,270
virus will disappear it would be nice if

411
00:19:19,460 --> 00:19:17,130
it would what do you think about the

412
00:19:21,620 --> 00:19:19,470
contagiousness of it you know the early

413
00:19:23,810 --> 00:19:21,630

reports are contagiousness is much more

414

00:19:26,120 --> 00:19:23,820

contagious than the flu much more deadly

415

00:19:27,800 --> 00:19:26,130

than the flu but speaking of Sweden

416

00:19:31,070 --> 00:19:27,810

we're hearing now out of there that

417

00:19:33,680 --> 00:19:31,080

they're surprised by the percentage of

418

00:19:35,900 --> 00:19:33,690

people at this point that have got it

419

00:19:39,530 --> 00:19:35,910

they're estimating it now at only like

420

00:19:41,240 --> 00:19:39,540

seven to eight percent of Swedes have

421

00:19:42,470 --> 00:19:41,250

had this virus at some point they

422

00:19:45,610 --> 00:19:42,480

thought it was gonna be much higher by

423

00:19:48,800 --> 00:19:45,620

this point I think some people were

424

00:19:51,710 --> 00:19:48,810

expecting that the antibody tests that

425

00:19:54,560 --> 00:19:51,720

meaning you don't have it now but you

426
00:19:56,630 --> 00:19:54,570
had it which shows somewhere around 50

427
00:19:58,730 --> 00:19:56,640
to 60 percent of Swedes would have would

428
00:20:00,270 --> 00:19:58,740
have been infected by now and you're

429
00:20:03,270 --> 00:20:00,280
right it's a fraction of that

430
00:20:07,230 --> 00:20:03,280
so this does not appear to be more

431
00:20:11,570 --> 00:20:07,240
contagious than than your typical season

432
00:20:15,120 --> 00:20:11,580
influenza seasonal influenza as far as

433
00:20:18,090 --> 00:20:15,130
the fatality rate goes the CDC actually

434
00:20:23,010 --> 00:20:18,100
just a few days ago released a report on

435
00:20:27,000 --> 00:20:23,020
that and their best estimate was the

436
00:20:29,730 --> 00:20:27,010
fatality rate is not three point four

437
00:20:33,290 --> 00:20:29,740
percent as the w-h-o originally

438
00:20:37,290 --> 00:20:33,300

estimated based on early Chinese data

439

00:20:39,270 --> 00:20:37,300

from crummy Chinese hospitals they sell

440

00:20:40,460 --> 00:20:39,280

out extrapolate of that to the whole

441

00:20:47,040 --> 00:20:40,470

world

442

00:20:51,090 --> 00:20:47,050

rather it's appears to be around 0.26

443

00:20:54,600 --> 00:20:51,100

percent now mind you seasonal flu is

444

00:20:57,540 --> 00:20:54,610

thought to be around half of that so

445

00:21:03,810 --> 00:20:57,550

okay it appears that kovat is about

446

00:21:05,760 --> 00:21:03,820

twice as fatal for case as typical

447

00:21:07,680 --> 00:21:05,770

seasonal flu so sorry let me make sure I

448

00:21:11,070 --> 00:21:07,690

get the number right so point

449

00:21:15,810 --> 00:21:11,080

essentially 0.26% about a quarter

450

00:21:17,370 --> 00:21:15,820

percent is the rate in that CDC and is

451
00:21:20,790 --> 00:21:17,380
that an American stat or is that a world

452
00:21:22,920 --> 00:21:20,800
stat or that's the world's that okay

453
00:21:24,810 --> 00:21:22,930
because I I've been trying to get that

454
00:21:27,840 --> 00:21:24,820
figure on my own through doing

455
00:21:30,330 --> 00:21:27,850
calculations of New York reporting their

456
00:21:31,650 --> 00:21:30,340
antibody test results in extrapolating

457
00:21:33,150 --> 00:21:31,660
like for instance they say over 20

458
00:21:36,450 --> 00:21:33,160
percent of New York people in New York

459
00:21:38,880 --> 00:21:36,460
City have had it in Los Angeles they say

460
00:21:39,960 --> 00:21:38,890
I think they're saying somewhere run I'm

461
00:21:42,600 --> 00:21:39,970
kind of guessing there but some around

462
00:21:44,940 --> 00:21:42,610
five percent people have had it

463
00:21:48,690 --> 00:21:44,950

and when I've extrapolated I found like

464

00:21:52,020 --> 00:21:48,700

a point eight percent number in New York

465

00:21:54,420 --> 00:21:52,030

and a point five percent number in LA

466

00:21:56,910 --> 00:21:54,430

County but you're citing a number even

467

00:22:01,860 --> 00:21:56,920

lower than that at that point is such a

468

00:22:05,550 --> 00:22:01,870

quarter percent right which as I said

469

00:22:12,840 --> 00:22:05,560

that's about double of typical seasonal

470

00:22:14,040 --> 00:22:12,850

flu however the Asian flu of 1950

471

00:22:18,420 --> 00:22:14,050

straight nine

472

00:22:23,880 --> 00:22:18,430

57 1958 was estimated to have a

473

00:22:28,110 --> 00:22:23,890

mortality rate of 0.76 percent perhaps

474

00:22:30,630 --> 00:22:28,120

three times what cope it has now a lot

475

00:22:33,150 --> 00:22:30,640

of people did in fact die from that flu

476

00:22:38,030 --> 00:22:33,160

because it had a very high mortality

477

00:22:43,560 --> 00:22:38,040

rate the vaccines did not work that year

478

00:22:46,680 --> 00:22:43,570

but but the question is did we did we

479

00:22:49,260 --> 00:22:46,690

shred the Constitution for that Asian

480

00:22:52,110 --> 00:22:49,270

flu T yeah a little bit for our time we

481

00:22:54,870 --> 00:22:52,120

only weren't quite born yet but as I

482

00:22:57,660 --> 00:22:54,880

recall we didn't shred the Constitution

483

00:23:01,220 --> 00:22:57,670

we didn't make everybody wear masks we

484

00:23:04,830 --> 00:23:01,230

didn't shut down businesses and mass

485

00:23:07,890 --> 00:23:04,840

basically life just went on in the late

486

00:23:11,070 --> 00:23:07,900

1950s despite what turned out to be a

487

00:23:13,680 --> 00:23:11,080

fairly bad flu then there was another

488

00:23:16,110 --> 00:23:13,690

one that did in fact occur during my

489

00:23:21,540 --> 00:23:16,120

lifetime although I was very young

490

00:23:26,060 --> 00:23:21,550

that was the Hong Kong flu from 60 68 to

491

00:23:28,530 --> 00:23:26,070

69 it's an exceptionally high death rate

492

00:23:32,310 --> 00:23:28,540

much higher than the death rate we're

493

00:23:34,680 --> 00:23:32,320

saying from covin 19 were people wearing

494

00:23:37,530 --> 00:23:34,690

masks I'm old enough that I would

495

00:23:39,510 --> 00:23:37,540

remember that I've got a good yeah good

496

00:23:42,540 --> 00:23:39,520

memory I remember things from when I was

497

00:23:44,610 --> 00:23:42,550

four I would remember the people wearing

498

00:23:46,640 --> 00:23:44,620

that they weren't wearing masks they

499

00:23:49,140 --> 00:23:46,650

weren't shutting down businesses

500

00:23:52,230 --> 00:23:49,150

constitutional rights were not suspended

501
00:23:54,060 --> 00:23:52,240
there we didn't go into a recession such

502
00:23:57,750 --> 00:23:54,070
as the recession we've already gone into

503
00:23:59,780 --> 00:23:57,760
that didn't happen for two worst

504
00:24:02,460 --> 00:23:59,790
influences than we're suffering now

505
00:24:06,930 --> 00:24:02,470
something very different is going on now

506
00:24:09,000 --> 00:24:06,940
and it's not the virus all right I'm

507
00:24:11,460 --> 00:24:09,010
ready for the answer what is different

508
00:24:14,370 --> 00:24:11,470
about our response to this virus versus

509
00:24:18,630 --> 00:24:14,380
the ones you cite or why why the

510
00:24:21,390 --> 00:24:18,640
difference it's us it's the reaction and

511
00:24:25,220 --> 00:24:21,400
I think a few things have been going on

512
00:24:28,369 --> 00:24:25,230
here one is they've been working on this

513
00:24:33,109 --> 00:24:28,379

by they I mean

514

00:24:35,869 --> 00:24:33,119

the public health people the media

515

00:24:39,089 --> 00:24:35,879

they've been working on this since aids

516

00:24:41,180 --> 00:24:39,099

which was the the first epidemic that's

517

00:24:45,239 --> 00:24:41,190

that's where I kind of ground my teeth

518

00:24:49,019 --> 00:24:45,249

beginning in 1987 I wrote a book on it I

519

00:24:52,859 --> 00:24:49,029

wrote countless articles you may recall

520

00:24:55,919 --> 00:24:52,869

we were told the the disease of them is

521

00:25:00,779 --> 00:24:55,929

suddenly the disease of us aids doesn't

522

00:25:04,559 --> 00:25:00,789

discriminate on and on and on and it was

523

00:25:10,319 --> 00:25:04,569

off it was all fake aids was always a

524

00:25:12,989 --> 00:25:10,329

disease of gay men intravenous drug

525

00:25:15,959 --> 00:25:12,999

users and originally recipients of blood

526

00:25:18,269 --> 00:25:15,969

and blood products it was always that

527

00:25:20,969 --> 00:25:18,279

way it remains that way in the United

528

00:25:23,669 --> 00:25:20,979

States today these people lied I mean

529

00:25:25,499 --> 00:25:23,679

this does not polite way of saying they

530

00:25:29,309 --> 00:25:25,509

lied because they thought they were

531

00:25:32,430 --> 00:25:29,319

doing you know the Lord the Lord's work

532

00:25:35,359 --> 00:25:32,440

they decided that to the extent that

533

00:25:38,369 --> 00:25:35,369

aids was seen as a disease of

534

00:25:41,459 --> 00:25:38,379

undesirables it wouldn't get the kind of

535

00:25:43,009 --> 00:25:41,469

attention and money it deserved and I

536

00:25:47,039 --> 00:25:43,019

will grant them this they were

537

00:25:51,829 --> 00:25:47,049

incredibly successful to this day AIDS

538

00:25:53,969 --> 00:25:51,839

is the second biggest line item in the

539

00:25:56,639 --> 00:25:53,979

National Institutes of Health Research

540

00:25:59,809 --> 00:25:56,649

budget even though AIDS in the United

541

00:26:02,579 --> 00:25:59,819

States kills virtually nobody anymore

542

00:26:05,519 --> 00:26:02,589

you know the big killers are cancer

543

00:26:08,489 --> 00:26:05,529

heart disease anything you can name that

544

00:26:11,279 --> 00:26:08,499

kills people kills more people than AIDS

545

00:26:13,649 --> 00:26:11,289

in the United States yeah let me know

546

00:26:15,629 --> 00:26:13,659

number two yeah let me just tag onto

547

00:26:17,430 --> 00:26:15,639

that with a little anecdotal story

548

00:26:21,329 --> 00:26:17,440

because I don't think you're diminishing

549

00:26:26,699 --> 00:26:21,339

what it was that it was a major problem

550

00:26:28,919 --> 00:26:26,709

at at a time but due to medicine etc the

551

00:26:32,489 --> 00:26:28,929

extent of the problem now is far far far

552

00:26:34,079 --> 00:26:32,499

lower yet these federal programs still

553

00:26:35,339 --> 00:26:34,089

remain in my little anecdotal story I

554

00:26:37,739 --> 00:26:35,349

just happen to be flying on a plane with

555

00:26:39,629 --> 00:26:37,749

a guy and this was about ten years ago

556

00:26:40,590 --> 00:26:39,639

during the the recession of ten years

557

00:26:42,540 --> 00:26:40,600

ago

558

00:26:45,720 --> 00:26:42,550

he was running some federal department

559

00:26:48,030 --> 00:26:45,730

that provides housing for aids people

560

00:26:50,460 --> 00:26:48,040

with AIDS or HIV provides housing for

561

00:26:53,100 --> 00:26:50,470

them well when it was a death sentence

562

00:26:55,140 --> 00:26:53,110

that was a very important thing to have

563

00:26:57,330 --> 00:26:55,150

a place for them to live you know but it

564

00:26:59,700 --> 00:26:57,340

was a death sentence nobody's dying from

565

00:27:01,560 --> 00:26:59,710

it anymore to speak of it yet we still

566

00:27:03,360 --> 00:27:01,570

have this housing I said I said Wow well

567

00:27:04,620 --> 00:27:03,370

your budget you know these are tough

568

00:27:06,180 --> 00:27:04,630

times you probably haven't tough times

569

00:27:08,370 --> 00:27:06,190

with your buddy you just know we just

570

00:27:10,080 --> 00:27:08,380

got a budget increase this past year so

571

00:27:12,450 --> 00:27:10,090

the Fed will get you once you put a

572

00:27:14,970 --> 00:27:12,460

program in place getting rid of it we

573

00:27:17,580 --> 00:27:14,980

all know is next to impossible so more

574

00:27:20,610 --> 00:27:17,590

and more money keeps going into federal

575

00:27:23,610 --> 00:27:20,620

aids programs despite the fact that it

576

00:27:26,240 --> 00:27:23,620

is no longer a death sentence right it's

577

00:27:29,430 --> 00:27:26,250

actually this under the Ryan White Act

578

00:27:31,200 --> 00:27:29,440

which yes was inaugurated back when AIDS

579

00:27:33,770 --> 00:27:31,210

was a death sentence but it keeps

580

00:27:36,590 --> 00:27:33,780

getting renewed every five years and it

581

00:27:40,770 --> 00:27:36,600

it's a little bit like there was a a

582

00:27:44,760 --> 00:27:40,780

spanish-american war tax imposed in 1898

583

00:27:47,610 --> 00:27:44,770

and it wasn't repealed until the last

584

00:27:51,000 --> 00:27:47,620

decade or so ago these things they they

585

00:27:53,850 --> 00:27:51,010

just they you know it's it's it's called

586

00:27:55,620 --> 00:27:53,860

new Newton's law of inertia yeah a body

587

00:27:57,390 --> 00:27:55,630

and motion tends to stay in motion

588

00:27:59,850 --> 00:27:57,400

unless something from the outside

589

00:28:03,090 --> 00:27:59,860

interrupts it which is also actually

590

00:28:05,190 --> 00:28:03,100

going on with the lockdown when you

591

00:28:05,730 --> 00:28:05,200

think about it you mean you stated it

592

00:28:09,500 --> 00:28:05,740

perfectly

593

00:28:14,220 --> 00:28:09,510

the initial idea of the lockdowns of

594

00:28:17,220 --> 00:28:14,230

flattening the curve was never that we

595

00:28:19,890 --> 00:28:17,230

would get pure deaths or cases out of it

596

00:28:21,780 --> 00:28:19,900

never know you're not gonna eliminate

597

00:28:24,390 --> 00:28:21,790

that any part of the curve you're gonna

598

00:28:28,050 --> 00:28:24,400

flatten it you're gonna stretch out the

599

00:28:31,560 --> 00:28:28,060

cases so that we wouldn't overwhelm the

600

00:28:34,470 --> 00:28:31,570

healthcare system once we we scored that

601
00:28:36,870 --> 00:28:34,480
goal as it were they had to move the

602
00:28:39,330 --> 00:28:36,880
goalposts because to a great extent it

603
00:28:41,180 --> 00:28:39,340
was simply a matter of inertia nobody

604
00:28:43,860 --> 00:28:41,190
thought about well what are we gonna do

605
00:28:47,070 --> 00:28:43,870
once we scored the goal and so we just

606
00:28:50,790 --> 00:28:47,080
keep going we just keep mindlessly going

607
00:28:53,220 --> 00:28:50,800
and going going yeah and it is mindless

608
00:28:54,030 --> 00:28:53,230
because I keep asking people okay if not

609
00:28:57,630 --> 00:28:54,040
now

610
00:28:59,970 --> 00:28:57,640
when right that is the question about

611
00:29:01,950 --> 00:28:59,980
any lockdown right now or for that

612
00:29:03,840 --> 00:29:01,960
matter visiting your parents I'm gonna

613
00:29:05,130 --> 00:29:03,850

go visit my parents are in their 80s or

614

00:29:06,360 --> 00:29:05,140

live in Arizona in a retirement

615

00:29:07,590 --> 00:29:06,370

community and I'm gonna see him next

616

00:29:09,600 --> 00:29:07,600

week and there was a big debate among

617

00:29:12,360 --> 00:29:09,610

the family as to whether we should see

618

00:29:15,420 --> 00:29:12,370

them on my own like well if not now when

619

00:29:18,000 --> 00:29:15,430

are they gonna not see their family for

620

00:29:21,270 --> 00:29:18,010

two years as we wait for this so-called

621

00:29:23,910 --> 00:29:21,280

cure or if it to go away which may never

622

00:29:25,590 --> 00:29:23,920

happen and they're in their 80s and so

623

00:29:30,320 --> 00:29:25,600

we're gonna keep extending and extending

624

00:29:32,880 --> 00:29:30,330

and extending so they had a

625

00:29:34,560 --> 00:29:32,890

well-thought-out arguably goal which is

626
00:29:36,480 --> 00:29:34,570
not overwhelming the health care system

627
00:29:38,730 --> 00:29:36,490
and I even say that you know what

628
00:29:40,500 --> 00:29:38,740
suspending some constitutional rights to

629
00:29:42,750 --> 00:29:40,510
make sure people aren't dying in the

630
00:29:45,780 --> 00:29:42,760
streets because we're so overwhelmed

631
00:29:48,930 --> 00:29:45,790
okay I kind of get that maybe the but

632
00:29:51,210 --> 00:29:48,940
the the mirror objective of limiting the

633
00:29:53,970 --> 00:29:51,220
number of people who get sick as a

634
00:29:57,060 --> 00:29:53,980
reason for locking people down no no no

635
00:29:58,860 --> 00:29:57,070
no no I mean we'd be locking people down

636
00:30:02,100 --> 00:29:58,870
for all kinds of reasons you know for

637
00:30:04,740 --> 00:30:02,110
drug addiction and for car accidents and

638
00:30:07,320 --> 00:30:04,750

so on and obviously that's not a proper

639

00:30:09,000 --> 00:30:07,330

ground so as you just pointed out

640

00:30:11,460 --> 00:30:09,010

they've moved the goalposts

641

00:30:14,640 --> 00:30:11,470

but nobody will tell us where it's been

642

00:30:16,950 --> 00:30:14,650

moved to yeah except perhaps again the

643

00:30:18,720 --> 00:30:16,960

LA mayor I wrote about this recent op-ed

644

00:30:20,640 --> 00:30:18,730

you know he's the one who's come clean

645

00:30:23,100 --> 00:30:20,650

and said that the goalposts now has been

646

00:30:25,380 --> 00:30:23,110

moved to to a cure but let's go back to

647

00:30:27,450 --> 00:30:25,390

age and so it's so complete the parallel

648

00:30:29,310 --> 00:30:27,460

that you're making between how we

649

00:30:33,240 --> 00:30:29,320

approach that versus what you're seeing

650

00:30:35,130 --> 00:30:33,250

today my point was the bad guys as I

651
00:30:40,050 --> 00:30:35,140
call them they don't see themselves as

652
00:30:41,940 --> 00:30:40,060
bad guys but they were liars and they

653
00:30:45,240 --> 00:30:41,950
intentionally lied and they got away

654
00:30:47,550 --> 00:30:45,250
with it they got away with it beyond

655
00:30:49,020 --> 00:30:47,560
their wildest dreams the ends justified

656
00:30:49,950 --> 00:30:49,030
the means in their mind though because

657
00:30:53,550 --> 00:30:49,960
they didn't want this to be a

658
00:30:55,440 --> 00:30:53,560
stigmatized community the gays etc and

659
00:30:57,720 --> 00:30:55,450
so they said let's pretend like this

660
00:30:58,920 --> 00:30:57,730
affects everyone equally I totally agree

661
00:31:00,990 --> 00:30:58,930
with you and I've always thought that

662
00:31:04,200 --> 00:31:01,000
and you've proven it with your book so

663
00:31:07,710 --> 00:31:04,210

okay keep going but it's not just the

664

00:31:10,049 --> 00:31:07,720

idea it's the people themselves

665

00:31:12,870 --> 00:31:10,059

because two of the biggest culprits

666

00:31:16,409 --> 00:31:12,880

perhaps you've heard their names were

667

00:31:21,110 --> 00:31:16,419

Anthony foul G and Robert Redfield if

668

00:31:24,779 --> 00:31:21,120

you look at my book my 1990 book

669

00:31:29,070 --> 00:31:24,789

Redfield is on 24 different pages of my

670

00:31:32,210 --> 00:31:29,080

book vouchers on or rather fewer pages

671

00:31:35,850 --> 00:31:32,220

but foul she actually kicked off

672

00:31:40,260 --> 00:31:35,860

basically the hysteria with a paper that

673

00:31:43,279 --> 00:31:40,270

he's solely authored in 1983 saying it

674

00:31:46,380 --> 00:31:43,289

looked like aids could be spread through

675

00:31:48,690 --> 00:31:46,390

basically like a flu if you be spread

676
00:31:52,500 --> 00:31:48,700
within a family he published that paper

677
00:31:56,399 --> 00:31:52,510
in 1983 the very next year he was

678
00:31:59,789 --> 00:31:56,409
appointed to his current position at the

679
00:32:02,520 --> 00:31:59,799
National infectious National Institute

680
00:32:04,760 --> 00:32:02,530
of allergies and infectious diseases

681
00:32:08,250 --> 00:32:04,770
that was his reward for being

682
00:32:09,029 --> 00:32:08,260
spectacularly wrong but wrong in the

683
00:32:12,870 --> 00:32:09,039
right direction

684
00:32:13,649 --> 00:32:12,880
he was alarmist ly wrong Redfield was

685
00:32:16,169 --> 00:32:13,659
wrong

686
00:32:18,899 --> 00:32:16,179
basically just across the board

687
00:32:21,510 --> 00:32:18,909
including co-authoring a paper that said

688
00:32:25,860 --> 00:32:21,520

your chance of getting AIDS through

689

00:32:30,990 --> 00:32:25,870

vaginal contact was fifty percent per

690

00:32:33,539 --> 00:32:31,000

sex act so basically after three acts of

691

00:32:35,070 --> 00:32:33,549

sex between a man and woman if one or

692

00:32:37,770 --> 00:32:35,080

the other had HIV

693

00:32:40,080 --> 00:32:37,780

the other would get it that's that's

694

00:32:42,450 --> 00:32:40,090

insane it's it's probably on the order

695

00:32:45,510 --> 00:32:42,460

of thousands of acts of intercourse

696

00:32:47,700 --> 00:32:45,520

thousands so Redfield was spectacularly

697

00:32:50,789 --> 00:32:47,710

wrong thought she was spectacularly

698

00:32:52,789 --> 00:32:50,799

wrong thought she is now one of the two

699

00:32:55,200 --> 00:32:52,799

top

700

00:32:59,399 --> 00:32:55,210

infectious disease people in the country

701
00:33:01,680 --> 00:32:59,409
and Redfield is the other one it pays to

702
00:33:04,049 --> 00:33:01,690
be spectacularly wrong if you're wrong

703
00:33:07,440 --> 00:33:04,059
in the right direction so my point in

704
00:33:10,110 --> 00:33:07,450
bringing was bringing all this up is the

705
00:33:13,110 --> 00:33:10,120
bad guys as I put Public Health people

706
00:33:15,560 --> 00:33:13,120
the media they learn from AIDS that you

707
00:33:18,539 --> 00:33:15,570
cannot just get away with this but

708
00:33:21,400 --> 00:33:18,549
spectacularly so so we have seen it time

709
00:33:23,440 --> 00:33:21,410
and again since we saw with AV

710
00:33:24,460 --> 00:33:23,450
it was supposed to kill millions and

711
00:33:28,180 --> 00:33:24,470
millions of people

712
00:33:29,950 --> 00:33:28,190
he kills 400 we saw it with SARS it was

713
00:33:34,390 --> 00:33:29,960

supposed to kill millions and millions

714

00:33:37,000 --> 00:33:34,400

of people he killed 744 we saw with mad

715

00:33:40,350 --> 00:33:37,010

cow disease that a guy named Neil

716

00:33:43,450 --> 00:33:40,360

Ferguson said would kill as many as

717

00:33:46,720 --> 00:33:43,460

50,000 people it killed a couple of

718

00:33:50,440 --> 00:33:46,730

hundred Neil Ferguson also weighed in on

719

00:33:53,440 --> 00:33:50,450

avian flu a couple million there again

720

00:33:56,530 --> 00:33:53,450

it kills about 400 people yeah that's

721

00:34:00,820 --> 00:33:56,540

the same Neil Ferguson that came up with

722

00:34:04,960 --> 00:34:00,830

the model saying as many as 2.2 million

723

00:34:08,350 --> 00:34:04,970

American deaths from Kovan 19 Neil

724

00:34:11,290 --> 00:34:08,360

Ferguson personally learned that the

725

00:34:15,370 --> 00:34:11,300

more outrageous you are the more wrong

726

00:34:18,030 --> 00:34:15,380

you are the more you are rewarded all of

727

00:34:22,570 --> 00:34:18,040

these people have been taught Ebola one

728

00:34:25,120 --> 00:34:22,580

Ebola - I mean I Zika virus I wrote

729

00:34:27,970 --> 00:34:25,130

about all of these things I was right

730

00:34:31,270 --> 00:34:27,980

they were wrong look where I am look

731

00:34:34,120 --> 00:34:31,280

where they are we each in every fo

732

00:34:36,909 --> 00:34:34,130

epidemic each and every for disaster

733

00:34:39,310 --> 00:34:36,919

these people learned we can get away

734

00:34:42,190 --> 00:34:39,320

with this well and also aren't doctors

735

00:34:44,980 --> 00:34:42,200

in general just kind of predisposed to

736

00:34:46,570 --> 00:34:44,990

give you worst case scenario and and

737

00:34:48,460 --> 00:34:46,580

that's kind of what they're doing they

738

00:34:50,590 --> 00:34:48,470

want to err on the side of worst-case

739

00:34:52,060 --> 00:34:50,600

scenario because you know if you

740

00:34:54,700 --> 00:34:52,070

underestimate it something

741

00:34:57,670 --> 00:34:54,710

now you're really heads on a chopping

742

00:34:59,410 --> 00:34:57,680

block but if you overestimated it you

743

00:35:02,080 --> 00:34:59,420

know we erred on the side of extra

744

00:35:05,230 --> 00:35:02,090

caution everybody's gonna cut you some

745

00:35:07,330 --> 00:35:05,240

slack is well okay thank God it didn't

746

00:35:08,820 --> 00:35:07,340

turn out to be that bad but we erred on

747

00:35:12,850 --> 00:35:08,830

the side of caution

748

00:35:15,370 --> 00:35:12,860

last is the additional factor of you

749

00:35:17,470 --> 00:35:15,380

always see this they say the only reason

750

00:35:20,470 --> 00:35:17,480

it didn't turn out to be apocalyptic

751
00:35:23,470 --> 00:35:20,480
like we said it would be is because we

752
00:35:25,690 --> 00:35:23,480
said it would be a Bach elliptic because

753
00:35:28,150 --> 00:35:25,700
people listen to us and they took the

754
00:35:32,080 --> 00:35:28,160
proper actions and that's never been the

755
00:35:35,200 --> 00:35:32,090
case what what incredible things did we

756
00:35:37,930 --> 00:35:35,210
do to fight Ebola nothing

757
00:35:40,810 --> 00:35:37,940
really Ebola was always an African

758
00:35:45,220 --> 00:35:40,820
disease it was always slated to remain

759
00:35:47,770 --> 00:35:45,230
an african disease a few cases I came by

760
00:35:52,140 --> 00:35:47,780
airplane to other countries and and

761
00:35:55,990 --> 00:35:52,150
nobody got infected from those few cases

762
00:36:01,270 --> 00:35:56,000
SARS was always had a high lethality

763
00:36:02,680 --> 00:36:01,280

rate was very very hard to spread just

764

00:36:07,839 --> 00:36:02,690

on and on and on

765

00:36:10,390 --> 00:36:07,849

I personally wrote at the time these

766

00:36:11,650 --> 00:36:10,400

things are exaggerated these predictions

767

00:36:15,160 --> 00:36:11,660

are false

768

00:36:17,829 --> 00:36:15,170

I didn't write in hindsight I was right

769

00:36:22,540 --> 00:36:17,839

they were all wrong how is it that mic

770

00:36:25,329 --> 00:36:22,550

fomento with no formal epidemiological

771

00:36:27,280 --> 00:36:25,339

training no no formal very logical

772

00:36:29,320 --> 00:36:27,290

training or anything like that how was

773

00:36:31,660 --> 00:36:29,330

it I was right and they were all wrong

774

00:36:33,760 --> 00:36:31,670

with their their degrees and their

775

00:36:36,490 --> 00:36:33,770

positions and what-have-you and it

776

00:36:38,650 --> 00:36:36,500

really comes down to you know a couple

777

00:36:41,620 --> 00:36:38,660

of things I hate being wrong it's just

778

00:36:43,960 --> 00:36:41,630

it's a OCD thing it just drives me nuts

779

00:36:47,320 --> 00:36:43,970

I will put in any amount of research to

780

00:36:48,880 --> 00:36:47,330

not be wrong but another thing is I want

781

00:36:51,640 --> 00:36:48,890

to be right I want to tell people the

782

00:36:53,349 --> 00:36:51,650

truth whatever it happens to be they

783

00:36:55,480 --> 00:36:53,359

don't want to be right they don't want

784

00:36:57,460 --> 00:36:55,490

itself be people the truth whatever it

785

00:36:59,800 --> 00:36:57,470

happens to be they want to exaggerate

786

00:37:02,230 --> 00:36:59,810

and isn't the other parallel to AIDS

787

00:37:04,950 --> 00:37:02,240

that just as with AIDS they wanted to

788

00:37:09,040 --> 00:37:04,960

make it appear that anyone can get this

789

00:37:10,720 --> 00:37:09,050

with coronavirus it appears very clear

790

00:37:12,550 --> 00:37:10,730

it affects the elderly and people with

791

00:37:15,310 --> 00:37:12,560

serious pre-existing health conditions

792

00:37:17,620 --> 00:37:15,320

but they don't want people to think that

793

00:37:19,240 --> 00:37:17,630

all know this is just an elderly thing

794

00:37:21,790 --> 00:37:19,250

it's just people with health conditions

795

00:37:24,930 --> 00:37:21,800

and so they exaggerate how much it

796

00:37:27,339 --> 00:37:24,940

affects your average healthy person

797

00:37:30,130 --> 00:37:27,349

right you see it in the slogans like

798

00:37:32,130 --> 00:37:30,140

we're all in this together it's just

799

00:37:34,660 --> 00:37:32,140

like a it's AIDS doesn't discriminate

800

00:37:35,230 --> 00:37:34,670

for Kovan it's we're all in this

801
00:37:41,050 --> 00:37:35,240
together

802
00:37:45,339 --> 00:37:41,060
nobody in the United States under age 20

803
00:37:48,130 --> 00:37:45,349
has died of COBIT under age 20 you are

804
00:37:48,970 --> 00:37:48,140
less likely to get the disease you are

805
00:37:51,490 --> 00:37:48,980
less likely

806
00:37:53,500 --> 00:37:51,500
just spread the disease a lot of people

807
00:37:55,840 --> 00:37:53,510
don't know that and you're much less

808
00:37:57,970 --> 00:37:55,850
likely to die of the disease almost no

809
00:38:00,280 --> 00:37:57,980
chance of dying of COBIT if you're under

810
00:38:02,260 --> 00:38:00,290
20 for that matter of you're under 30

811
00:38:04,840 --> 00:38:02,270
there's almost no chance of die of the

812
00:38:09,910 --> 00:38:04,850
disease it's basically you know by the

813
00:38:12,010 --> 00:38:09,920

time he up to 60 65 75 80 that's when

814

00:38:15,250 --> 00:38:12,020

your risks start to get real and even

815

00:38:17,010 --> 00:38:15,260

there as you pointed out almost all of

816

00:38:20,710 --> 00:38:17,020

these people have pre-existing

817

00:38:22,450 --> 00:38:20,720

conditions diabetes heart disease as a

818

00:38:27,130 --> 00:38:22,460

lot of things like that

819

00:38:32,620 --> 00:38:27,140

the CDC this is also a new CDC study has

820

00:38:35,260 --> 00:38:32,630

found that 93% of all Coppa deaths in

821

00:38:37,930 --> 00:38:35,270

the United States those people had at

822

00:38:42,160 --> 00:38:37,940

least one pre-existing condition and

823

00:38:45,220 --> 00:38:42,170

often two three or even more so you can

824

00:38:47,440 --> 00:38:45,230

be almost as old as you want but so long

825

00:38:50,200 --> 00:38:47,450

as you don't have something bad else

826

00:38:52,570 --> 00:38:50,210

else going on you're still probably not

827

00:38:55,780 --> 00:38:52,580

gonna die and it also explains why

828

00:38:58,180 --> 00:38:55,790

progressive politicians go for the lock

829

00:39:00,250 --> 00:38:58,190

down because they love equality they

830

00:39:03,280 --> 00:39:00,260

love the utopian notion that everybody

831

00:39:06,090 --> 00:39:03,290

is the same they don't like that one

832

00:39:08,500 --> 00:39:06,100

group is differentiated from another so

833

00:39:11,800 --> 00:39:08,510

even if it's true that it affects old

834

00:39:14,200 --> 00:39:11,810

people or it affects sick people so what

835

00:39:15,849 --> 00:39:14,210

we're all in this together lock everyone

836

00:39:18,400 --> 00:39:15,859

down they've got no problem with that

837

00:39:20,580 --> 00:39:18,410

yeah and unfortunately we smacked right

838

00:39:24,280 --> 00:39:20,590

into the wall of unintended consequences

839

00:39:26,580 --> 00:39:24,290

what we have found is that among those

840

00:39:30,180 --> 00:39:26,590

people who have died of kovat an

841

00:39:34,720 --> 00:39:30,190

incredible percentage are people in

842

00:39:36,250 --> 00:39:34,730

nursing facilities I did I might be

843

00:39:38,770 --> 00:39:36,260

confusing this with another country but

844

00:39:43,270 --> 00:39:38,780

I'm guessing for the United States it's

845

00:39:45,760 --> 00:39:43,280

around 40% of it's not a gas it's gonna

846

00:39:47,920 --> 00:39:45,770

be around 40% I don't have the data in

847

00:39:50,380 --> 00:39:47,930

front of me of people who have died of

848

00:39:53,349 --> 00:39:50,390

kovat in the United States have been in

849

00:39:58,599 --> 00:39:53,359

nursing facilities this is incredible

850

00:40:01,540 --> 00:39:58,609

it's incredible negligence really we so

851
00:40:02,350 --> 00:40:01,550
by pretending that we're all at equal

852
00:40:05,320 --> 00:40:02,360
risk

853
00:40:09,730 --> 00:40:05,330
we have failed to protect those who are

854
00:40:13,210 --> 00:40:09,740
most at risk and what is the explanation

855
00:40:16,600 --> 00:40:13,220
though again for why this has become

856
00:40:18,340 --> 00:40:16,610
what it's become today compared to the

857
00:40:20,290 --> 00:40:18,350
US and the world's response to those

858
00:40:22,390 --> 00:40:20,300
other viruses that you were talking

859
00:40:24,760 --> 00:40:22,400
about earlier what's your explanation as

860
00:40:30,010 --> 00:40:24,770
to why we reacted so differently this

861
00:40:32,650 --> 00:40:30,020
time I have a few theories and they're

862
00:40:35,500 --> 00:40:32,660
really you know when when I'm talking

863
00:40:37,780 --> 00:40:35,510

data I'll tell you I'm talking data when

864

00:40:41,050 --> 00:40:37,790

I'm talking theory I will tell you I'm

865

00:40:44,110 --> 00:40:41,060

talking theory one theory is they have

866

00:40:47,650 --> 00:40:44,120

been building up over time they were

867

00:40:50,950 --> 00:40:47,660

successful with hiv/aids they were

868

00:40:54,610 --> 00:40:50,960

successful with scaring the crap out of

869

00:40:58,270 --> 00:40:54,620

people over avian flu over SARS over

870

00:41:02,770 --> 00:40:58,280

Ebola won over Ebola to over Zika virus

871

00:41:04,480 --> 00:41:02,780

and probably a few few history is that I

872

00:41:06,630 --> 00:41:04,490

fought that I don't even remember

873

00:41:12,340 --> 00:41:06,640

anymore because there have been so many

874

00:41:16,960 --> 00:41:12,350

they've kept being successful and so

875

00:41:18,970 --> 00:41:16,970

they've learned from each and it what

876
00:41:21,720 --> 00:41:18,980
works and what doesn't for example with

877
00:41:27,520 --> 00:41:21,730
Ebola the whu-oh

878
00:41:31,410 --> 00:41:27,530
published a model showing 1.4 million

879
00:41:34,060 --> 00:41:31,420
deaths in just two African countries I

880
00:41:34,930 --> 00:41:34,070
opposed it at the time I said this is

881
00:41:38,130 --> 00:41:34,940
asinine

882
00:41:40,510 --> 00:41:38,140
there is no basis for this whatsoever

883
00:41:44,050 --> 00:41:40,520
total number of deaths in those two

884
00:41:48,820 --> 00:41:44,060
countries 800 which means they were

885
00:41:51,520 --> 00:41:48,830
about 1.4 million shy of 1.4 million but

886
00:41:55,720 --> 00:41:51,530
nobody was ever called to task for that

887
00:41:58,330 --> 00:41:55,730
so they saw that they could get away

888
00:42:00,310 --> 00:41:58,340

with it they saw how they how they could

889

00:42:03,100 --> 00:42:00,320

get away with it I think they've been

890

00:42:06,460 --> 00:42:03,110

building up to this ever since really

891

00:42:11,710 --> 00:42:06,470

since 1987 that's part of it they've

892

00:42:15,610 --> 00:42:11,720

been learning another aspect is social

893

00:42:19,060 --> 00:42:15,620

media now social media you know can give

894

00:42:22,030 --> 00:42:19,070

it's a tool it can be for good or it can

895

00:42:24,850 --> 00:42:22,040

be for bad but if you look at what's

896

00:42:31,480 --> 00:42:24,860

happened with social media if you look

897

00:42:38,830 --> 00:42:31,490

at Facebook if you look at I'm tempted

898

00:42:41,560 --> 00:42:38,840

to st. tinder tweet Twitter if you look

899

00:42:45,100 --> 00:42:41,570

at Twitter if you look at that Facebook

900

00:42:47,650 --> 00:42:45,110

they are both censoring if you don't say

901
00:42:51,310 --> 00:42:47,660
the right things about covet you will be

902
00:42:53,560 --> 00:42:51,320
blocked I had I've had a couple of

903
00:42:54,520 --> 00:42:53,570
bizarre things blocked you can't make

904
00:42:57,250 --> 00:42:54,530
these things up

905
00:43:01,260 --> 00:42:57,260
I jokingly posted a picture of my cat

906
00:43:04,570 --> 00:43:01,270
and said Mike ours was imposing

907
00:43:08,050 --> 00:43:04,580
self-quarantine they pulled my cat's

908
00:43:12,610 --> 00:43:08,060
photo down you can't make these things

909
00:43:15,240 --> 00:43:12,620
up so when social media is censoring the

910
00:43:18,280 --> 00:43:15,250
so-called wrong things about kovat and

911
00:43:20,680 --> 00:43:18,290
allowing the so-called right things then

912
00:43:22,960 --> 00:43:20,690
social media is definitely contributing

913
00:43:24,880 --> 00:43:22,970

to this as well and I presume you say

914

00:43:27,280 --> 00:43:24,890

the 24-hour news cycle I mean that's

915

00:43:29,620 --> 00:43:27,290

only gotten bigger and bigger these days

916

00:43:31,810 --> 00:43:29,630

and you have most of them lined up on

917

00:43:35,620 --> 00:43:31,820

the side of this being a big deal and

918

00:43:38,380 --> 00:43:35,630

you've got a natural financial incentive

919

00:43:41,200 --> 00:43:38,390

to do that I mean we all know the media

920

00:43:43,780 --> 00:43:41,210

always over blows an earthquake a flood

921

00:43:45,280 --> 00:43:43,790

a fire if you're the one living there

922

00:43:46,780 --> 00:43:45,290

you're all of your friends from across

923

00:43:49,030 --> 00:43:46,790

the country are always calling it oh my

924

00:43:51,190 --> 00:43:49,040

god it looks so horrible out there it's

925

00:43:53,290 --> 00:43:51,200

like it's actually not that bad so

926
00:43:55,530 --> 00:43:53,300
they've got a natural inclination of

927
00:43:58,630 --> 00:43:55,540
always overblown these type of things

928
00:44:03,070 --> 00:43:58,640
yeah there was a volcano erupted a

929
00:44:05,590 --> 00:44:03,080
couple of months ago I don't know 3 3 3

930
00:44:09,730 --> 00:44:05,600
400 miles away from here people were

931
00:44:12,250 --> 00:44:09,740
worried about right that's the way it

932
00:44:17,860 --> 00:44:12,260
goes but you're right even you know SARS

933
00:44:20,680 --> 00:44:17,870
was was 2002-2003 seemingly not so long

934
00:44:23,440 --> 00:44:20,690
ago but I think the only 24-hour network

935
00:44:26,110 --> 00:44:23,450
at that time was with CNN

936
00:44:29,109 --> 00:44:26,120
maybe ESPN as well but that's not

937
00:44:31,450 --> 00:44:29,119
exactly ESPN's ambit

938
00:44:33,880 --> 00:44:31,460

now I mean quite seriously when this

939

00:44:35,910 --> 00:44:33,890

first broke out I was referring to CNN

940

00:44:39,400 --> 00:44:35,920

as the corona News Network

941

00:44:43,390 --> 00:44:39,410

everything I'm CNN weather was broadcast

942

00:44:46,859 --> 00:44:43,400

or whether it was CNN print was

943

00:44:50,079 --> 00:44:46,869

coronavirus say somehow weren't

944

00:44:52,029 --> 00:44:50,089

coronavirus into into everything if it

945

00:44:54,190 --> 00:44:52,039

was somebody's you know hundredth

946

00:44:55,930 --> 00:44:54,200

birthday and they worked in WoW is a

947

00:44:58,420 --> 00:44:55,940

hundred years old and he's not dead of

948

00:45:00,430 --> 00:44:58,430

coronavirus they were coronavirus in

949

00:45:04,329 --> 00:45:00,440

that and then quite simply everything

950

00:45:09,549 --> 00:45:04,339

you've seen these memes so-called joke

951
00:45:13,749 --> 00:45:09,559
memes let's say like man man eaten by

952
00:45:16,960 --> 00:45:13,759
shark dies of coronavirus okay so let's

953
00:45:20,349 --> 00:45:16,970
talk about what is motivating the foul

954
00:45:22,539 --> 00:45:20,359
cheese of the world is their heart in

955
00:45:25,359 --> 00:45:22,549
the right place they're just being

956
00:45:27,519 --> 00:45:25,369
overly cautious in trying to protect

957
00:45:30,390 --> 00:45:27,529
lives or is there something corrupt or

958
00:45:33,999 --> 00:45:30,400
sinister about their motives

959
00:45:36,640 --> 00:45:34,009
well again both pouchy and red field to

960
00:45:39,670 --> 00:45:36,650
be quite specific rose to their very

961
00:45:41,650 --> 00:45:39,680
high positions through saying false

962
00:45:43,479 --> 00:45:41,660
things but their heart was in the right

963
00:45:45,549 --> 00:45:43,489

place they were trying to save lives and

964

00:45:47,710 --> 00:45:45,559

and they and let's just say that they

965

00:45:50,380 --> 00:45:47,720

lied but in their view they were lying

966

00:45:52,809 --> 00:45:50,390

to save lives so that you shouldn't ever

967

00:45:54,970 --> 00:45:52,819

lie right but they thought that they had

968

00:45:57,720 --> 00:45:54,980

a proper motive to help protect lives to

969

00:46:01,809 --> 00:45:57,730

get everybody invested in trying to to

970

00:46:03,940 --> 00:46:01,819

find a cure for AIDS so what about now

971

00:46:05,829 --> 00:46:03,950

is it could we say the same thing that

972

00:46:10,329 --> 00:46:05,839

they're lying but they're doing it to

973

00:46:15,549 --> 00:46:10,339

protect lives I tend to think that pouch

974

00:46:20,950 --> 00:46:15,559

is an extremely intelligent man whereas

975

00:46:24,400 --> 00:46:20,960

red field is basically stupid which is

976
00:46:27,999 --> 00:46:24,410
you know so I'm drawing a contrast there

977
00:46:31,359 --> 00:46:28,009
that in a sense kind of gives red field

978
00:46:33,970 --> 00:46:31,369
more of a vibe and vouching if if red

979
00:46:36,039 --> 00:46:33,980
field is acting out of stupidity but for

980
00:46:39,190 --> 00:46:36,049
example I did a whole article on red

981
00:46:42,190 --> 00:46:39,200
fill your your people can look it up

982
00:46:43,010 --> 00:46:42,200
just put through mental and red field

983
00:46:44,870 --> 00:46:43,020
into the brows

984
00:46:47,240 --> 00:46:44,880
you're probably you know you and Cove it

985
00:46:50,390 --> 00:46:47,250
and you'll call up my article and you'll

986
00:46:52,160 --> 00:46:50,400
see my god how did this guy ever become

987
00:46:54,950 --> 00:46:52,170
the head of the Centers for Disease

988
00:46:57,950 --> 00:46:54,960

Control and Prevention when he says so

989

00:47:00,650 --> 00:46:57,960

many stupid things but among the stupid

990

00:47:04,550 --> 00:47:00,660

things he said about Coleman was that

991

00:47:08,390 --> 00:47:04,560

this is the worst outbreak of disease in

992

00:47:14,080 --> 00:47:08,400

over a century okay wait a second this

993

00:47:22,430 --> 00:47:17,750

101 years ago it was called the Spanish

994

00:47:27,830 --> 00:47:22,440

flu maybe you've heard of it the worst

995

00:47:32,000 --> 00:47:27,840

epidemic in modern times millions and

996

00:47:34,760 --> 00:47:32,010

millions of people died worldwide the

997

00:47:38,480 --> 00:47:34,770

u.s. death toll was utterly fantastic

998

00:47:40,870 --> 00:47:38,490

utterly incomparable to anything we've

999

00:47:44,740 --> 00:47:40,880

seen probably since the black deaths

1000

00:47:48,020 --> 00:47:44,750

which was what eight hundred years ago

1001
00:47:51,320 --> 00:47:48,030
this what wet films never heard of the

1002
00:47:53,690 --> 00:47:51,330
Spanish flu honestly and the answer may

1003
00:47:56,390 --> 00:47:53,700
be yes the head of the Centers for

1004
00:47:59,420 --> 00:47:56,400
Disease Control has never heard of the

1005
00:48:02,810 --> 00:47:59,430
Spanish flu I can't answer that for you

1006
00:48:04,730 --> 00:48:02,820
I did I called the CDC non-it politely

1007
00:48:08,000 --> 00:48:04,740
put in the question knowing they would

1008
00:48:10,910 --> 00:48:08,010
never give back they didn't get back I

1009
00:48:14,630 --> 00:48:10,920
think he's just plain stupid but [h__h]

1010
00:48:17,390 --> 00:48:14,640
just a very smart guy so I you know when

1011
00:48:20,810 --> 00:48:17,400
you asked me to when it comes to lying

1012
00:48:22,490 --> 00:48:20,820
you're going into not whether they're

1013
00:48:25,790 --> 00:48:22,500

telling the truth or not you're going

1014

00:48:28,520 --> 00:48:25,800

into mental states and that makes it

1015

00:48:30,890 --> 00:48:28,530

very tough for me to call anybody a liar

1016

00:48:33,260 --> 00:48:30,900

very easy for me to say they're saying

1017

00:48:36,920 --> 00:48:33,270

false things very tough for me to say

1018

00:48:39,080 --> 00:48:36,930

they're lying well or you know

1019

00:48:43,370 --> 00:48:39,090

exaggerating or erring on the side of

1020

00:48:45,440 --> 00:48:43,380

extreme caution but bottom line it

1021

00:48:47,030 --> 00:48:45,450

sounds like you're not ascribing look

1022

00:48:49,760 --> 00:48:47,040

there's lots of conspiracy theories out

1023

00:48:51,500 --> 00:48:49,770

there lots of people saying oh foul

1024

00:48:52,760 --> 00:48:51,510

she's got some financial interest in

1025

00:48:54,500 --> 00:48:52,770

this that he's going to make a ton of

1026
00:48:56,420 --> 00:48:54,510
money if there's a vaccine and this that

1027
00:48:59,060 --> 00:48:56,430
and the other you're not seeing

1028
00:49:01,490 --> 00:48:59,070
any of that type of conspiracy here your

1029
00:49:03,380 --> 00:49:01,500
de seeing perhaps a guy who's spent his

1030
00:49:06,890 --> 00:49:03,390
whole life on infectious diseases and

1031
00:49:10,010 --> 00:49:06,900
this is his moment in the Sun and he's

1032
00:49:12,190 --> 00:49:10,020
quite excited about it yeah there's a

1033
00:49:14,960 --> 00:49:12,200
term I coined during the AIDS epidemic

1034
00:49:19,100 --> 00:49:14,970
where I said I don't see so much a

1035
00:49:20,450 --> 00:49:19,110
conspiracy as a meeting of the minds now

1036
00:49:23,840 --> 00:49:20,460
mind you there were there was a

1037
00:49:26,240 --> 00:49:23,850
conspiracy drain in fairness they really

1038
00:49:29,690 --> 00:49:26,250

did get together in smoke-filled rooms

1039

00:49:32,870 --> 00:49:29,700

as the expression goes and they really

1040

00:49:35,990 --> 00:49:32,880

did decide between themselves that we

1041

00:49:38,720 --> 00:49:36,000

have to grossly exaggerated the impact

1042

00:49:41,210 --> 00:49:38,730

of this epidemic and the and how

1043

00:49:43,850 --> 00:49:41,220

widespread it will be or else it's not

1044

00:49:45,800 --> 00:49:43,860

going to get the kind of funding and the

1045

00:49:49,010 --> 00:49:45,810

kind of attention it deserves there

1046

00:49:51,020 --> 00:49:49,020

literally was an AIDS conspiracy but

1047

00:49:54,890 --> 00:49:51,030

there was also simply a meeting of the

1048

00:49:58,490 --> 00:49:54,900

minds where without conspiring they

1049

00:50:01,340 --> 00:49:58,500

simply decided individually or as groups

1050

00:50:03,470 --> 00:50:01,350

look we got to do this we've just got to

1051
00:50:06,230 --> 00:50:03,480
do this for AIDS and I think you're

1052
00:50:17,470 --> 00:50:06,240
seeing this again that's for example the

1053
00:50:21,470 --> 00:50:17,480
CDC - okay here's the facts to have

1054
00:50:24,770 --> 00:50:21,480
kovin 19 on your death certificate you

1055
00:50:29,020 --> 00:50:24,780
don't need to die of Kovan 19 it's right

1056
00:50:33,620 --> 00:50:29,030
in the CDC's promulgation the CDC says

1057
00:50:36,380 --> 00:50:33,630
if it appears basically the patient may

1058
00:50:38,660 --> 00:50:36,390
have died of kovat you can put that on

1059
00:50:42,470 --> 00:50:38,670
the on the death certificate you don't

1060
00:50:45,320 --> 00:50:42,480
need a test well what's in the news

1061
00:50:48,410 --> 00:50:45,330
today is it was the flu in the news is

1062
00:50:51,410 --> 00:50:48,420
heart disease in the news is asthma in

1063
00:50:54,710 --> 00:50:51,420

the news no what's in the news is kovin

1064

00:50:59,870 --> 00:50:54,720

19 and you can't really just look at a

1065

00:51:03,740 --> 00:50:59,880

corpse and go Kovan 19 verses non kovin

1066

00:51:05,240 --> 00:51:03,750

19 even if that corpse was tested you

1067

00:51:06,950 --> 00:51:05,250

still can't do that

1068

00:51:10,240 --> 00:51:06,960

in other words you can say this person

1069

00:51:13,570 --> 00:51:10,250

had kovin 19 but the person

1070

00:51:15,700 --> 00:51:13,580

had asthma heart disease diabetes and

1071

00:51:18,970 --> 00:51:15,710

three other pre-existing conditions and

1072

00:51:22,000 --> 00:51:18,980

you can't automatically say which one of

1073

00:51:25,150 --> 00:51:22,010

those it was but since Kovan 19 is the

1074

00:51:30,130 --> 00:51:25,160

in the news what are you more likely to

1075

00:51:33,940 --> 00:51:30,140

put on that deficit right over 19 but it

1076

00:51:37,290 --> 00:51:33,950

gets worse than that this isn't a story

1077

00:51:41,410 --> 00:51:37,300

I have coming out tomorrow hopefully in

1078

00:51:44,920 --> 00:51:41,420

Colorado a man was found dead in the

1079

00:51:47,010 --> 00:51:44,930

park with double the amount of alcohol

1080

00:51:51,310 --> 00:51:47,020

and the system needed to kill him

1081

00:51:54,240 --> 00:51:51,320

the coroner dutifully wrote on his death

1082

00:51:56,920 --> 00:51:54,250

certificate died of alcohol poisoning

1083

00:52:00,400 --> 00:51:56,930

the State Department of Health and

1084

00:52:03,790 --> 00:52:00,410

Environment for its official statistics

1085

00:52:07,570 --> 00:52:03,800

changes it to go with 19 is is it true

1086

00:52:09,310 --> 00:52:07,580

the SHAC them there's an internet rumor

1087

00:52:10,780 --> 00:52:09,320

going around I call it a rumor because I

1088

00:52:13,690 --> 00:52:10,790

haven't tracked it down myself maybe

1089

00:52:16,960 --> 00:52:13,700

it's more than a river but that Medicare

1090

00:52:18,610 --> 00:52:16,970

pays X amount of dollars if it's a Cova

1091

00:52:20,530 --> 00:52:18,620

death have you run that down and seeing

1092

00:52:23,020 --> 00:52:20,540

if that's true or not there's a run it

1093

00:52:26,070 --> 00:52:23,030

down it's half rumor and is half true

1094

00:52:28,660 --> 00:52:26,080

the half rumor is that you get a bonus

1095

00:52:32,200 --> 00:52:28,670

if the person is put on a ventilator

1096

00:52:35,140 --> 00:52:32,210

that's not true the truth is that under

1097

00:52:40,450 --> 00:52:35,150

the cares Act passed in March of this

1098

00:52:45,370 --> 00:52:40,460

year specifically for kovin 19 under the

1099

00:52:47,740 --> 00:52:45,380

Medicare system if you put Kovac 19 down

1100

00:52:51,970 --> 00:52:47,750

on that death certificate as opposed to

1101
00:52:56,460 --> 00:52:51,980
anything else you will get a 20% bonus

1102
00:53:03,070 --> 00:52:56,470
from Medicare that's a fact

1103
00:53:05,410 --> 00:53:03,080
well you know yeah yep so so okay you're

1104
00:53:07,630 --> 00:53:05,420
already you know you're inundated with

1105
00:53:12,340 --> 00:53:07,640
news about kovin I think overnight think

1106
00:53:13,720 --> 00:53:12,350
over 19 you got a corpse and you're not

1107
00:53:17,740 --> 00:53:13,730
entirely sure

1108
00:53:21,730 --> 00:53:17,750
was it asthma was it heart disease was

1109
00:53:23,790 --> 00:53:21,740
it Cove in 19 well Medicare's gonna give

1110
00:53:26,940 --> 00:53:23,800
you a 20% bonus

1111
00:53:29,010 --> 00:53:26,950
if you just happen to put copan 19 on

1112
00:53:31,490 --> 00:53:29,020
the first line of that birth death

1113
00:53:34,140 --> 00:53:31,500

certificate instead of something else

1114

00:53:37,290 --> 00:53:34,150

isn't maybe that's gonna push you in the

1115

00:53:39,210 --> 00:53:37,300

direction of copan 19 yeah thanks yeah

1116

00:53:42,330 --> 00:53:39,220

clearly well and you know going back to

1117

00:53:44,670 --> 00:53:42,340

the cdc and and them as far as how you

1118

00:53:47,580 --> 00:53:44,680

categorize a Cova death and so on and

1119

00:53:49,710 --> 00:53:47,590

them overestimating how big this thing's

1120

00:53:51,720 --> 00:53:49,720

the best with you some of that doesn't

1121

00:53:53,310 --> 00:53:51,730

bother me so much so much because i just

1122

00:53:55,170 --> 00:53:53,320

know they're always gonna be extra

1123

00:53:56,910 --> 00:53:55,180

cautious doctors give me extra cautious

1124

00:53:59,400 --> 00:53:56,920

extra warning you if you go to your own

1125

00:53:59,850 --> 00:53:59,410

doctor don't drink don't smoke don't eat

1126
00:54:01,920 --> 00:53:59,860
red meat

1127
00:54:04,950 --> 00:54:01,930
you know nobody listens to their doctor

1128
00:54:07,590 --> 00:54:04,960
so I almost blame the politicians more

1129
00:54:09,750 --> 00:54:07,600
for just a hundred percent buying into

1130
00:54:11,100 --> 00:54:09,760
an only seeing what they're saying

1131
00:54:12,570 --> 00:54:11,110
handing it over to something like found

1132
00:54:15,630 --> 00:54:12,580
you to decide when we're gonna be

1133
00:54:17,640 --> 00:54:15,640
reopening as opposed to looking and say

1134
00:54:19,410 --> 00:54:17,650
okay thank you very much medical

1135
00:54:21,480 --> 00:54:19,420
community we hear what you're saying as

1136
00:54:23,340 --> 00:54:21,490
far as the potential risks but we're

1137
00:54:26,540 --> 00:54:23,350
also going to listen to economists and

1138
00:54:28,350 --> 00:54:26,550

we're gonna listen to a

1139

00:54:29,910 --> 00:54:28,360

constitutionalist about what our

1140

00:54:31,170 --> 00:54:29,920

Constitution allows and so on and then

1141

00:54:34,170 --> 00:54:31,180

we're gonna make a decision based on

1142

00:54:36,840 --> 00:54:34,180

that as opposed to simply relying on

1143

00:54:39,560 --> 00:54:36,850

these medical professionals that we know

1144

00:54:41,280 --> 00:54:39,570

always exaggerate this kind of stuff

1145

00:54:42,510 --> 00:54:41,290

right you know what they're gonna say

1146

00:54:45,560 --> 00:54:42,520

ahead of time

1147

00:54:47,160 --> 00:54:45,570

don't get me wrong there have been

1148

00:54:49,350 --> 00:54:47,170

epidemiologists who have been very

1149

00:54:52,910 --> 00:54:49,360

honest about this although almost all of

1150

00:54:58,140 --> 00:54:52,920

them are in Europe for some reason and

1151
00:55:00,510 --> 00:54:58,150
but nobody voted last I checked for

1152
00:55:02,640 --> 00:55:00,520
Robert Redfield and nobody voted for

1153
00:55:04,620 --> 00:55:02,650
Anthony pouchy or for these local health

1154
00:55:07,560 --> 00:55:04,630
officials that we have in various states

1155
00:55:11,100 --> 00:55:07,570
and cities right the Michael Ulster

1156
00:55:13,950 --> 00:55:11,110
Holmes from Minnesota and so on guys who

1157
00:55:16,080 --> 00:55:13,960
have been wrong for for every epidemic

1158
00:55:18,030 --> 00:55:16,090
since you know since I was born

1159
00:55:19,680 --> 00:55:18,040
Barbara Farrar here in LA County I've

1160
00:55:22,380 --> 00:55:19,690
been writing about her and sharing her

1161
00:55:24,540 --> 00:55:22,390
bio and and you know what her education

1162
00:55:27,990 --> 00:55:24,550
is and it's all it's all about health

1163
00:55:30,690 --> 00:55:28,000

care inequality and outcome equities and

1164

00:55:34,230 --> 00:55:30,700

this and that all big-time progressive

1165

00:55:37,349 --> 00:55:34,240

agendas yeah I'll never forget that when

1166

00:55:39,930 --> 00:55:37,359

my aides my aides book was was actually

1167

00:55:42,599 --> 00:55:39,940

extremely well reviewed it was literally

1168

00:55:44,910 --> 00:55:42,609

banned don't get me wrong a lot of

1169

00:55:47,519 --> 00:55:44,920

stores and even chains refused to carry

1170

00:55:49,109 --> 00:55:47,529

it but it got great reviews from JAMA

1171

00:55:52,440 --> 00:55:49,119

and the New England Journal of Medicine

1172

00:55:58,319 --> 00:55:52,450

and this and that but it did yet one

1173

00:56:03,059 --> 00:55:58,329

particularly bad review by a a communist

1174

00:56:06,210 --> 00:56:03,069

I mean an avowed communist um communists

1175

00:56:07,440 --> 00:56:06,220

actually play a very important role in

1176

00:56:10,829 --> 00:56:07,450

public health

1177

00:56:12,839 --> 00:56:10,839

the current head of the w-h-o is a

1178

00:56:17,999 --> 00:56:12,849

member of the Communist Party that's not

1179

00:56:21,660 --> 00:56:18,009

a joke the last head of the w-h-o was

1180

00:56:23,180 --> 00:56:21,670

Chinese and presumably a member of the

1181

00:56:26,640 --> 00:56:23,190

Communist Party

1182

00:56:28,979 --> 00:56:26,650

communists literally gravitate towards

1183

00:56:32,160 --> 00:56:28,989

public health in the same way that

1184

00:56:34,079 --> 00:56:32,170

liberals gravitate towards journalism

1185

00:56:38,309 --> 00:56:34,089

it's just you know it's one of those

1186

00:56:40,170 --> 00:56:38,319

things so we are I mean literally I

1187

00:56:43,890 --> 00:56:40,180

don't want to be you know sound like a

1188

00:56:46,680 --> 00:56:43,900

read Bader or anything but literally we

1189

00:56:49,140 --> 00:56:46,690

are you know when we give these people a

1190

00:56:53,009 --> 00:56:49,150

lot of power we're giving power to

1191

00:56:55,620 --> 00:56:53,019

people who believe in in utopianism who

1192

00:56:58,259 --> 00:56:55,630

believe in the leveling out of incomes

1193

00:56:59,789 --> 00:56:58,269

who believes the rich countries who

1194

00:57:02,069 --> 00:56:59,799

believe that bringing down the rich

1195

00:57:05,539 --> 00:57:02,079

countries brings up the poor countries

1196

00:57:08,940 --> 00:57:05,549

that's what we're dealing with and our

1197

00:57:11,970 --> 00:57:08,950

elected officials should be the barrier

1198

00:57:14,249 --> 00:57:11,980

between us and them and they're they're

1199

00:57:16,229 --> 00:57:14,259

not doing their job they're not doing it

1200

00:57:19,229 --> 00:57:16,239

in Los Angeles in the state of

1201

00:57:23,339 --> 00:57:19,239

California in Illinois in the city of

1202

00:57:27,210 --> 00:57:23,349

Chicago in in the city of New York they

1203

00:57:29,729 --> 00:57:27,220

are making very bad decisions very very

1204

00:57:31,849 --> 00:57:29,739

well-put it's getting very late there so

1205

00:57:35,880 --> 00:57:31,859

I promise this is the last question

1206

00:57:39,120 --> 00:57:35,890

we've been kind of assuming that Wuhan

1207

00:57:41,400 --> 00:57:39,130

was way worse than the Chinese have been

1208

00:57:44,039 --> 00:57:41,410

disclosing they're hiding something

1209

00:57:46,440 --> 00:57:44,049

there's piles of dead bodies there's a

1210

00:57:49,349 --> 00:57:46,450

there being incinerated and you know

1211

00:57:50,700 --> 00:57:49,359

there's spy satellite photos of this but

1212

00:57:52,650 --> 00:57:50,710

we haven't seen it and so

1213

00:57:56,490 --> 00:57:52,660

and so forth but I'm starting to think

1214

00:57:57,780 --> 00:57:56,500

the more I see this and see 7% of Swedes

1215

00:57:59,280 --> 00:57:57,790

have it despite the fact that they

1216

00:58:01,200 --> 00:57:59,290

didn't lock down so it hasn't been near

1217

00:58:03,960 --> 00:58:01,210

as contagious as we thought hasn't been

1218

00:58:07,140 --> 00:58:03,970

near as deadly as we thought that maybe

1219

00:58:09,630 --> 00:58:07,150

China actually didn't accurately report

1220

00:58:12,720 --> 00:58:09,640

the wuhan numbers we're not gonna find

1221

00:58:17,010 --> 00:58:12,730

out that they were grossly understated

1222

00:58:19,800 --> 00:58:17,020

what are your thoughts on that it's

1223

00:58:22,050 --> 00:58:19,810

gonna take a while before the truth

1224

00:58:24,839 --> 00:58:22,060

actually trickles out of China they're

1225

00:58:28,710 --> 00:58:24,849

there in terms of news they're locked

1226

00:58:30,780 --> 00:58:28,720

down pretty tight the word coming out of

1227

00:58:33,510 --> 00:58:30,790

North Korea is that they're having an

1228

00:58:36,210 --> 00:58:33,520

absolute disaster as one would expect

1229

00:58:38,910 --> 00:58:36,220

from North Korea China is really hard to

1230

00:58:42,900 --> 00:58:38,920

say but yeah i'm i'm guessing towards

1231

00:58:46,680 --> 00:58:42,910

your position that probably they have

1232

00:58:50,220 --> 00:58:46,690

such power to to control their people

1233

00:58:52,339 --> 00:58:50,230

mind you the photos you may have seen of

1234

00:58:56,640 --> 00:58:52,349

people being welded inside their houses

1235

00:58:59,609 --> 00:58:56,650

fake news just like that did you see the

1236

00:59:02,640 --> 00:58:59,619

picture of the rows and rows of coffins

1237

00:59:05,880 --> 00:59:02,650

in italy oh my gosh that was so scary

1238

00:59:08,790 --> 00:59:05,890

fake news so much of these things are

1239

00:59:11,099 --> 00:59:08,800

fake news so yeah I'm guessing the

1240

00:59:14,880 --> 00:59:11,109

probably China was not nearly as hard

1241

00:59:20,339 --> 00:59:14,890

yet as a lot of people are saying but

1242

00:59:24,060 --> 00:59:20,349

with China who knows you know Michael's

1243

00:59:27,510 --> 00:59:24,070

got a quick question yeah Michael just

1244

00:59:29,070 --> 00:59:27,520

when European what was why is there such

1245

00:59:34,020 --> 00:59:29,080

pushback within the US on the

1246

00:59:41,150 --> 00:59:34,030

hydroxychloroquine the studies I've seen

1247

00:59:43,980 --> 00:59:41,160

are not particularly supportive of that

1248

00:59:46,680 --> 00:59:43,990

some studies say yes but most of the

1249

00:59:48,630 --> 00:59:46,690

studies say that that it isn't

1250

00:59:49,650 --> 00:59:48,640

particularly effective or isn't

1251
00:59:53,310 --> 00:59:49,660
effective at all

1252
00:59:55,460 --> 00:59:53,320
all that said another factor going on

1253
01:00:00,180 --> 00:59:55,470
here which I kind of forgot to mention

1254
01:00:02,580 --> 01:00:00,190
was Donald J Trump the media hate Trump

1255
01:00:05,520 --> 01:00:02,590
with a passion

1256
01:00:08,460 --> 01:00:05,530
as I already pointed out the media our

1257
01:00:10,020 --> 01:00:08,470
left-wing I personally am NOT a trump

1258
01:00:11,640 --> 01:00:10,030
supporter I didn't vote for him

1259
01:00:16,050 --> 01:00:11,650
I don't intend to vote for him in

1260
01:00:20,130 --> 01:00:16,060
November um that said I think a lot of

1261
01:00:24,180 --> 01:00:20,140
what's going on is is to go after Trump

1262
01:00:25,470 --> 01:00:24,190
I mean these people literally they even

1263
01:00:27,540 --> 01:00:25,480

thought through it or they haven't

1264

01:00:31,010 --> 01:00:27,550

really thought through it I think a lot

1265

01:00:34,800 --> 01:00:31,020

of people want to destroy the economy

1266

01:00:39,000 --> 01:00:34,810

because it will be very difficult for

1267

01:00:41,610 --> 01:00:39,010

Trump to be reelected if you know if we

1268

01:00:43,410 --> 01:00:41,620

have a destroyed economy basically in

1269

01:00:44,760 --> 01:00:43,420

November well here's a lesson there's a

1270

01:00:46,320 --> 01:00:44,770

less sinister way of looking at it

1271

01:00:49,110 --> 01:00:46,330

Michael but but but agreeing with you

1272

01:00:52,920 --> 01:00:49,120

that they are invested in the narrative

1273

01:00:54,990 --> 01:00:52,930

that Trump did not do enough to stop

1274

01:00:56,490 --> 01:00:55,000

this this is Trump's fault I'm hearing

1275

01:00:59,400 --> 01:00:56,500

this again and again they want to blame

1276

01:01:01,800 --> 01:00:59,410

Trump for this well in order for that to

1277

01:01:04,110 --> 01:01:01,810

work this thing had to have been a big

1278

01:01:06,930 --> 01:01:04,120

deal if this thing's not a big deal then

1279

01:01:08,730 --> 01:01:06,940

Trump did an okay job but if this

1280

01:01:11,310 --> 01:01:08,740

thing's a big deal and Trump failed to

1281

01:01:13,400 --> 01:01:11,320

stop it then you've got a problem so

1282

01:01:15,750 --> 01:01:13,410

they are invested in the narrative that

1283

01:01:17,220 --> 01:01:15,760

Trump failed to stop this thing failed

1284

01:01:19,050 --> 01:01:17,230

to take the proper actions and this

1285

01:01:20,580 --> 01:01:19,060

thing is a really big deal and that's

1286

01:01:22,080 --> 01:01:20,590

why they're hanging on to the idea that

1287

01:01:24,210 --> 01:01:22,090

this is a really big deal so that they

1288

01:01:25,290 --> 01:01:24,220

can hang Trump in November saying that

1289

01:01:27,810 --> 01:01:25,300

because everybody saying this is a

1290

01:01:30,270 --> 01:01:27,820

referendum November's a referendum on

1291

01:01:32,460 --> 01:01:30,280

how Trump handled the coronavirus so

1292

01:01:35,070 --> 01:01:32,470

they need to subscribe to the idea that

1293

01:01:37,590 --> 01:01:35,080

this thing's a really big deal and he

1294

01:01:40,500 --> 01:01:37,600

failed to take proper action right such

1295

01:01:42,540 --> 01:01:40,510

things as if we had only locked down a

1296

01:01:45,480 --> 01:01:42,550

week or two earlier we would have saved

1297

01:01:45,870 --> 01:01:45,490

X number of lives okay here's one for

1298

01:01:50,250 --> 01:01:45,880

you

1299

01:01:53,640 --> 01:01:50,260

the CBC was five weeks late in coming

1300

01:01:56,460 --> 01:01:53,650

out with a coronavirus test they could

1301

01:01:58,800 --> 01:01:56,470

have gotten one essentially free of

1302

01:02:03,510 --> 01:01:58,810

charge I mean the formula free of charge

1303

01:02:06,390 --> 01:02:03,520

from the w-h-o but the CDC decided now

1304

01:02:08,880 --> 01:02:06,400

now we're gonna make our round and then

1305

01:02:12,780 --> 01:02:08,890

they blew it they contaminated their

1306

01:02:16,020 --> 01:02:12,790

their early coronavirus tests so we were

1307

01:02:18,240 --> 01:02:16,030

five weeks late in hand

1308

01:02:20,820 --> 01:02:18,250

being able to test people that had

1309

01:02:24,080 --> 01:02:20,830

absolutely nothing to do with Donald J

1310

01:02:27,960 --> 01:02:24,090

Trump it had everything to do with home

1311

01:02:30,090 --> 01:02:27,970

Robert Redfield and nobody is held

1312

01:02:33,690 --> 01:02:30,100

Redfield's feet to the fire on that

1313

01:02:35,730 --> 01:02:33,700

except your your current yes and real

1314

01:02:39,240 --> 01:02:35,740

quick why did not why did he reject the

1315

01:02:42,750 --> 01:02:39,250

test from the whu-oh Ashley it's not

1316

01:02:45,660 --> 01:02:42,760

that unusual for the for CDC to say yeah

1317

01:02:49,470 --> 01:02:45,670

we think we can do a better job I think

1318

01:02:52,260 --> 01:02:49,480

in retrospect everybody at the CDC

1319

01:02:54,420 --> 01:02:52,270

except for Redfield would tell you yeah

1320

01:02:56,850 --> 01:02:54,430

we kind of blew it we should have gone

1321

01:02:59,750 --> 01:02:56,860

with it WH and we know that that order

1322

01:03:03,570 --> 01:02:59,760

did not come from the White House

1323

01:03:05,600 --> 01:03:03,580

there's no nobody's looked into that all

1324

01:03:10,140 --> 01:03:05,610

you can read one article after another

1325

01:03:13,710 --> 01:03:10,150

saying the CDC blew it but nobody ever

1326

01:03:16,410 --> 01:03:13,720

says that the Chief of CDC blew it

1327

01:03:18,750 --> 01:03:16,420

nobody ever brings up the name of red

1328

01:03:19,980 --> 01:03:18,760

pill but I could you see the left really

1329

01:03:21,510 --> 01:03:19,990

trying to hang Trump of that because

1330

01:03:22,890 --> 01:03:21,520

that would be a very trumpian thing to

1331

01:03:24,390 --> 01:03:22,900

do and I think I I think I've heard

1332

01:03:28,230 --> 01:03:24,400

people allude to the fact that or

1333

01:03:30,570 --> 01:03:28,240

accused Trump of rejecting tests from

1334

01:03:32,430 --> 01:03:30,580

the World Health Organization because it

1335

01:03:35,130 --> 01:03:32,440

is what it is in America first and we're

1336

01:03:36,840 --> 01:03:35,140

gonna make things at America now Trump

1337

01:03:38,940 --> 01:03:36,850

had absolutely nothing to do with that

1338

01:03:41,220 --> 01:03:38,950

and of course he had absolutely nothing

1339

01:03:43,650 --> 01:03:41,230

to do with it how is how is the

1340

01:03:47,070 --> 01:03:43,660

president supposed to make a decision

1341

01:03:51,030 --> 01:03:47,080

like that that is a decision made by the

1342

01:03:54,900 --> 01:03:51,040

head of the CDC in consultation with the

1343

01:03:57,930 --> 01:03:54,910

people below him so red field of course

1344

01:03:59,910 --> 01:03:57,940

it is red fields fault let's add to this

1345

01:04:02,880 --> 01:03:59,920

that red field spent much of his career

1346

01:04:05,700 --> 01:04:02,890

in the army he was a colonel he was in

1347

01:04:08,580 --> 01:04:05,710

the army just like I was I was a noncom

1348

01:04:11,820 --> 01:04:08,590

he was a calm everything that anybody

1349

01:04:15,900 --> 01:04:11,830

did and under me when I was a sergeant I

1350

01:04:18,030 --> 01:04:15,910

had to accept as my responsibility if

1351

01:04:20,820 --> 01:04:18,040

they got drunk if they beat their wives

1352

01:04:24,510 --> 01:04:20,830

if they showed up late for formation as

1353

01:04:26,970 --> 01:04:24,520

the sergeant I was responsible Redfield

1354

01:04:29,880 --> 01:04:26,980

should know that as a colonel he should

1355

01:04:33,590 --> 01:04:29,890

be held to military standards everything

1356

01:04:36,620 --> 01:04:33,600

goes wrong at the CDC whether it's a a

1357

01:04:40,200 --> 01:04:36,630

broken coffee maker anything like that

1358

01:04:42,390 --> 01:04:40,210

basically is Redfield's fault and nobody

1359

01:04:44,580 --> 01:04:42,400

has attributed this to Robert Redfield

1360

01:04:46,320 --> 01:04:44,590

and I think the reason is because he

1361

01:04:49,080 --> 01:04:46,330

said all the right things during the

1362

01:04:51,330 --> 01:04:49,090

AIDS epidemic yeah well I I told my

1363

01:04:53,760 --> 01:04:51,340

progressive Democrat friends that hey if

1364

01:04:54,900 --> 01:04:53,770

you want to attack Trump attack him for

1365

01:04:57,450 --> 01:04:54,910

the fact that he's got

1366

01:05:00,990 --> 01:04:57,460

ouchy and redfield in place those are

1367

01:05:03,750 --> 01:05:01,000

his guys attacking actually I am on

1368

01:05:06,030 --> 01:05:03,760

record criticizing Trump in the New York
