

HIDDEN TRUTH SHOW WITH JIM BRESLO

MIKE TURBER

1
00:00:11,910 --> 00:00:08,629
and now for a little uh

2
00:00:13,749 --> 00:00:11,920
tic tac talk do you like that

3
00:00:16,230 --> 00:00:13,759
tic tac tot yeah we and then we talk

4
00:00:20,070 --> 00:00:16,240
about tic tac jack so

5
00:00:23,990 --> 00:00:20,080
so when we last had mr turbo on the show

6
00:00:26,870 --> 00:00:24,000
he told us that this was u.s technology

7
00:00:27,990 --> 00:00:26,880
which it still is built at plant 42

8
00:00:31,029 --> 00:00:28,000
which it is not

9
00:00:31,589 --> 00:00:31,039
by by multiple companies because we had

10
00:00:34,470 --> 00:00:31,599
three different

11
00:00:35,350 --> 00:00:34,480
we had go fast gimbal and and it was

12
00:00:36,950 --> 00:00:35,360
called tic tac

13
00:00:39,270 --> 00:00:36,960

yeah or flare one is the name of the

14

00:00:42,950 --> 00:00:39,280

video and and you you told us with

15

00:00:45,510 --> 00:00:42,960

100 certainty that this was u.s

16

00:00:47,029 --> 00:00:45,520

technology absolutely and and it's an

17

00:00:50,549 --> 00:00:47,039

actual

18

00:00:53,270 --> 00:00:50,559

40-foot flying object

19

00:00:55,189 --> 00:00:53,280

uh that flies without propulsion and is

20

00:00:58,069 --> 00:00:55,199

gravity defying and

21

00:00:59,189 --> 00:00:58,079

so forth and has even been flown over to

22

00:01:00,549 --> 00:00:59,199

north korea

23

00:01:02,470 --> 00:01:00,559

exactly is there anything about that

24

00:01:05,590 --> 00:01:02,480

that you would like to amend

25

00:01:07,750 --> 00:01:05,600

absolutely i owe you

26
00:01:09,830 --> 00:01:07,760
and your viewers and anyone else that

27
00:01:12,789 --> 00:01:09,840
was uh taken aback by this

28
00:01:13,670 --> 00:01:12,799
an apology but an apology with a little

29
00:01:16,310 --> 00:01:13,680
you know

30
00:01:16,950 --> 00:01:16,320
catch to it the apology is to you my

31
00:01:20,230 --> 00:01:16,960
friend

32
00:01:22,469 --> 00:01:20,240
um uh i did hoodwink you into that

33
00:01:23,670 --> 00:01:22,479
and uh i do remember saying we might

34
00:01:25,590 --> 00:01:23,680
want to edit that out

35
00:01:26,950 --> 00:01:25,600
but we it was left end so since it was

36
00:01:28,149 --> 00:01:26,960
left in i said you know what i'm going

37
00:01:30,310 --> 00:01:28,159
to go ahead and run with my original

38
00:01:32,550 --> 00:01:30,320

idea which was to

39

00:01:35,109 --> 00:01:32,560

uh basically run a social experiment to

40

00:01:38,710 --> 00:01:35,119

see exactly how these things work

41

00:01:41,670 --> 00:01:38,720

and it worked perfectly actually

42

00:01:42,389 --> 00:01:41,680

but for you and for michael i wanted to

43

00:01:45,670 --> 00:01:42,399

say

44

00:01:49,030 --> 00:01:45,680

i apologize um hopefully

45

00:01:50,630 --> 00:01:49,040

you're not mad at me um

46

00:01:52,389 --> 00:01:50,640

but well you're back out you're back on

47

00:01:53,030 --> 00:01:52,399

the show but it might be for me to [h__\h]

48

00:01:54,789 --> 00:01:53,040

on you so

49

00:01:56,149 --> 00:01:54,799

yeah it could be and you're and you

50

00:01:58,709 --> 00:01:56,159

would be well within your

51
00:01:59,749 --> 00:01:58,719
your writing reasons to do that uh but

52
00:02:01,190 --> 00:01:59,759
you know i just want to make certain

53
00:02:03,510 --> 00:02:01,200
that everybody understands uh

54
00:02:05,350 --> 00:02:03,520
why that was done and at this point in

55
00:02:08,229 --> 00:02:05,360
time i'm actually

56
00:02:10,150 --> 00:02:08,239
in a better position because that was

57
00:02:12,309 --> 00:02:10,160
done it allowed me to see and prove

58
00:02:14,710 --> 00:02:12,319
certain things and aspects of how that

59
00:02:15,830 --> 00:02:14,720
the ufo community works and how

60
00:02:17,510 --> 00:02:15,840
different things operate

61
00:02:20,150 --> 00:02:17,520
in in that area so i did the same thing

62
00:02:22,390 --> 00:02:20,160
inside uh the

63
00:02:24,309 --> 00:02:22,400

flat earth community as well so um i

64

00:02:26,070 --> 00:02:24,319

went and there's another entity it just

65

00:02:27,510 --> 00:02:26,080

basically bounced around challenged eric

66

00:02:29,030 --> 00:02:27,520

debate 100 000

67

00:02:32,150 --> 00:02:29,040

you know debate and all these different

68

00:02:35,589 --> 00:02:32,160

things um but in this one

69

00:02:38,710 --> 00:02:35,599

the the thing was it seems to be

70

00:02:39,670 --> 00:02:38,720

interesting that some in that ufo

71

00:02:42,690 --> 00:02:39,680

community

72

00:02:44,070 --> 00:02:42,700

will accept things at face value

73

00:02:48,550 --> 00:02:44,080

[Music]

74

00:02:51,830 --> 00:02:48,560

and then argue other points meaning this

75

00:02:53,750 --> 00:02:51,840

ttsa came out with those three videos um

76

00:02:55,830 --> 00:02:53,760

that videos essentially came from dod

77

00:02:56,869 --> 00:02:55,840

but tsas who actually presented those

78

00:02:59,589 --> 00:02:56,879

to the public

79

00:03:01,030 --> 00:02:59,599

um even after you know that one of them

80

00:03:02,390 --> 00:03:01,040

had been presented before

81

00:03:04,790 --> 00:03:02,400

so you have these three videos that come

82

00:03:06,710 --> 00:03:04,800

out and everyone is eating these things

83

00:03:08,790 --> 00:03:06,720

up taking them at face value

84

00:03:10,390 --> 00:03:08,800

the things that were explained to people

85

00:03:12,949 --> 00:03:10,400

um in the videos were

86

00:03:14,869 --> 00:03:12,959

were taken for their word for it they

87

00:03:15,430 --> 00:03:14,879

assumed that many experts had looked at

88

00:03:20,229 --> 00:03:15,440

these

89

00:03:22,949 --> 00:03:20,239

television show that had the experts

90

00:03:24,550 --> 00:03:22,959

on the show explained that certain

91

00:03:25,350 --> 00:03:24,560

objects were doing certain things that

92

00:03:27,750 --> 00:03:25,360

they

93

00:03:29,190 --> 00:03:27,760

actually were not doing but you know if

94

00:03:30,789 --> 00:03:29,200

you watch the video

95

00:03:32,309 --> 00:03:30,799

and someone's telling you what what's

96

00:03:33,589 --> 00:03:32,319

happening in the video you tend to want

97

00:03:36,869 --> 00:03:33,599

to believe it

98

00:03:38,470 --> 00:03:36,879

and the issue at this point is it's not

99

00:03:39,509 --> 00:03:38,480

and i even found out that i was

100

00:03:41,750 --> 00:03:39,519

hoodwinked

101
00:03:43,110 --> 00:03:41,760
and so was my friend the av specialist

102
00:03:45,270 --> 00:03:43,120
that we had the

103
00:03:46,710 --> 00:03:45,280
debriefing call from 2005. that that

104
00:03:47,430 --> 00:03:46,720
actually happened okay well let's go

105
00:03:50,869 --> 00:03:47,440
back to

106
00:03:52,309 --> 00:03:50,879
to you being hoodwinked because

107
00:03:53,990 --> 00:03:52,319
you know there's two elements to the

108
00:03:56,149 --> 00:03:54,000
things that you reported on the show one

109
00:03:59,429 --> 00:03:56,159
is that you definitively know

110
00:04:02,470 --> 00:03:59,439
that this is u.s technology and that

111
00:04:03,990 --> 00:04:02,480
it is uh incredible new us technology

112
00:04:06,949 --> 00:04:04,000
that what they saw is actually

113
00:04:08,789 --> 00:04:06,959

real it wasn't a phantom it wasn't a

114

00:04:10,869 --> 00:04:08,799

spoofing technology that it was

115

00:04:12,630 --> 00:04:10,879

real u.s technology built by u.s

116

00:04:14,149 --> 00:04:12,640

companies at plant 42

117

00:04:16,150 --> 00:04:14,159

and to the extent that one was even

118

00:04:18,229 --> 00:04:16,160

flown over north korea so there was

119

00:04:19,430 --> 00:04:18,239

that part of your story and then the

120

00:04:21,990 --> 00:04:19,440

other part of the story

121

00:04:23,749 --> 00:04:22,000

some of it that was told in the

122

00:04:27,110 --> 00:04:23,759

interview some of it was

123

00:04:29,350 --> 00:04:27,120

you know over beers later that that

124

00:04:30,629 --> 00:04:29,360

in addition to this object being real

125

00:04:33,430 --> 00:04:30,639

you've actually

126
00:04:34,790 --> 00:04:33,440
flown in one mm-hmm so when you talk

127
00:04:37,909 --> 00:04:34,800
about social experiment

128
00:04:39,270 --> 00:04:37,919
which yeah which yeah

129
00:04:40,629 --> 00:04:39,280
where do i where do we draw the line

130
00:04:41,110 --> 00:04:40,639
what's true and what's not and what have

131
00:04:43,270 --> 00:04:41,120
you

132
00:04:44,230 --> 00:04:43,280
um so let's start with before we get to

133
00:04:46,469 --> 00:04:44,240
you flying in one

134
00:04:47,270 --> 00:04:46,479
let's start with with with the assertion

135
00:04:49,909 --> 00:04:47,280
with 100

136
00:04:50,629 --> 00:04:49,919
certainty as you said at the time that

137
00:04:52,469 --> 00:04:50,639
this is a

138
00:04:54,550 --> 00:04:52,479

u.s technology built by your companies

139

00:04:56,870 --> 00:04:54,560

at plan 42 which turns out to

140

00:04:59,270 --> 00:04:56,880

you're saying now not be correct well

141

00:05:02,550 --> 00:04:59,280

the the fact that the physical object

142

00:05:04,550 --> 00:05:02,560

that did what was claimed it was doing

143

00:05:06,629 --> 00:05:04,560

all the the incredible g turns and the

144

00:05:08,710 --> 00:05:06,639

incredible speeds being made at plant 42

145

00:05:11,670 --> 00:05:08,720

that that is not the case now

146

00:05:12,629 --> 00:05:11,680

i have subsequently uh learned quite a

147

00:05:14,710 --> 00:05:12,639

bit more since

148

00:05:16,310 --> 00:05:14,720

we've been on that show on your show

149

00:05:17,510 --> 00:05:16,320

i've done this in a couple other shows

150

00:05:19,270 --> 00:05:17,520

but for the most part

151

00:05:22,070 --> 00:05:19,280

okay but i'm going to stick with the

152

00:05:24,870 --> 00:05:22,080

things that you said before because

153

00:05:26,150 --> 00:05:24,880

your credibility obviously is in serious

154

00:05:29,189 --> 00:05:26,160

doubt right now so

155

00:05:30,950 --> 00:05:29,199

before anybody would give two

156

00:05:33,189 --> 00:05:30,960

seconds thought to what you're saying

157

00:05:35,350 --> 00:05:33,199

now you've learned right

158

00:05:36,390 --> 00:05:35,360

we first have to cover well why did you

159

00:05:39,270 --> 00:05:36,400

tell us

160

00:05:41,430 --> 00:05:39,280

a year and a half ago that that it was

161

00:05:43,590 --> 00:05:41,440

u.s technology and and

162

00:05:44,629 --> 00:05:43,600

pretty definitively right obviously it's

163

00:05:47,430 --> 00:05:44,639

a head scratcher

164

00:05:48,390 --> 00:05:47,440

um but the the situation is this during

165

00:05:51,110 --> 00:05:48,400

that time

166

00:05:51,430 --> 00:05:51,120

i when i presented that information to

167

00:05:57,670 --> 00:05:51,440

you

168

00:05:59,670 --> 00:05:57,680

okay

169

00:06:01,430 --> 00:05:59,680

if someone could fool you or at least

170

00:06:01,749 --> 00:06:01,440

give you enough doubt or enough question

171

00:06:10,710 --> 00:06:01,759

to

172

00:06:11,110 --> 00:06:10,720

okay so if that happens then that means

173

00:06:14,950 --> 00:06:11,120

that

174

00:06:18,390 --> 00:06:14,960

did it on purpose

175

00:06:19,830 --> 00:06:18,400

out exactly

176

00:06:21,590 --> 00:06:19,840

where these people go with these things

177

00:06:22,230 --> 00:06:21,600

because this is obviously happening you

178

00:06:23,990 --> 00:06:22,240

can't have

179

00:06:25,670 --> 00:06:24,000

all of the different descriptions of

180

00:06:29,350 --> 00:06:25,680

what's going on with tic tac

181

00:06:31,749 --> 00:06:29,360

all be true it's just not possible so

182

00:06:32,550 --> 00:06:31,759

that allowed me to have people argue

183

00:06:35,189 --> 00:06:32,560

against me

184

00:06:36,870 --> 00:06:35,199

it made me look for the correct answers

185

00:06:38,230 --> 00:06:36,880

and in my travel across the country i

186

00:06:39,590 --> 00:06:38,240

was able to go to different places and

187

00:06:41,189 --> 00:06:39,600

actually start

188

00:06:43,029 --> 00:06:41,199

gathering more information and finding

189

00:06:46,390 --> 00:06:43,039

out what this really was and

190

00:06:47,990 --> 00:06:46,400

the evidence is if and

191

00:06:49,830 --> 00:06:48,000

just to clarify on your show the things

192

00:06:51,029 --> 00:06:49,840

that were not true trump did not order

193

00:06:53,350 --> 00:06:51,039

this thing to go fly to

194

00:06:55,029 --> 00:06:53,360

north korea there was okay but we're

195

00:06:58,230 --> 00:06:55,039

going to go through these things kind of

196

00:07:01,189 --> 00:06:58,240

one by one okay so

197

00:07:02,150 --> 00:07:01,199

yeah so first what you're saying is this

198

00:07:04,390 --> 00:07:02,160

was an experiment

199

00:07:05,749 --> 00:07:04,400

by you to put some information out there

200

00:07:08,629 --> 00:07:05,759

albeit false

201
00:07:09,510 --> 00:07:08,639
right to see how people respond to it

202
00:07:11,510 --> 00:07:09,520
and to see

203
00:07:13,270 --> 00:07:11,520
whether by putting out false information

204
00:07:15,909 --> 00:07:13,280
you can somehow

205
00:07:17,350 --> 00:07:15,919
gain factual information correct is that

206
00:07:19,670 --> 00:07:17,360
the problem

207
00:07:21,589 --> 00:07:19,680
to some degree i'm not i don't want to i

208
00:07:22,950 --> 00:07:21,599
don't want to be a hoaxer

209
00:07:24,950 --> 00:07:22,960
i don't i'm not late i don't want to be

210
00:07:27,350 --> 00:07:24,960
labeled as that

211
00:07:29,110 --> 00:07:27,360
but what it allowed me to do if you want

212
00:07:29,589 --> 00:07:29,120
to use the term social experiment which

213
00:07:32,150 --> 00:07:29,599

is a

214

00:07:33,029 --> 00:07:32,160

cliche kind of weird term that some

215

00:07:35,909 --> 00:07:33,039

people use

216

00:07:37,990 --> 00:07:35,919

you can use it as that um but but it did

217

00:07:40,629 --> 00:07:38,000

yield the results i needed at the time

218

00:07:41,350 --> 00:07:40,639

and uh to this day it has uh yeah i

219

00:07:43,270 --> 00:07:41,360

pretty much got

220

00:07:45,029 --> 00:07:43,280

gotten a lot further away from that

221

00:07:46,309 --> 00:07:45,039

stigma um

222

00:07:48,230 --> 00:07:46,319

but you know it's still there and i'll

223

00:07:49,110 --> 00:07:48,240

still have to deal with it uh the cool

224

00:07:51,189 --> 00:07:49,120

thing is is that i

225

00:07:53,510 --> 00:07:51,199

i at this point it doesn't matter

226

00:07:55,350 --> 00:07:53,520

because the factual information

227

00:07:56,790 --> 00:07:55,360

is what i was after all along number one

228

00:07:57,670 --> 00:07:56,800

it's definitely us well go ahead and go

229

00:08:00,790 --> 00:07:57,680

down your list

230

00:08:01,670 --> 00:08:00,800

yeah okay so so well just just for

231

00:08:04,710 --> 00:08:01,680

instance because

232

00:08:06,309 --> 00:08:04,720

it's fascinating uh to me

233

00:08:08,230 --> 00:08:06,319

maybe to others you know some of the

234

00:08:10,469 --> 00:08:08,240

things that you came up with

235

00:08:11,430 --> 00:08:10,479

as part of this social experiment so for

236

00:08:13,990 --> 00:08:11,440

instance

237

00:08:15,029 --> 00:08:14,000

the idea that it was flown to north

238

00:08:18,710 --> 00:08:15,039

korea by

239

00:08:19,510 --> 00:08:18,720

trump to show off to kim related to the

240

00:08:22,550 --> 00:08:19,520

time period

241

00:08:25,510 --> 00:08:22,560

when the u.s had put korea on

242

00:08:26,070 --> 00:08:25,520

um the terrorist list or some type of uh

243

00:08:30,390 --> 00:08:26,080

right

244

00:08:32,870 --> 00:08:30,400

yeah list um so

245

00:08:33,990 --> 00:08:32,880

how did you come up with that idea i'm

246

00:08:35,110 --> 00:08:34,000

just i'm just trying to get into the

247

00:08:37,190 --> 00:08:35,120

turbo brain

248

00:08:38,949 --> 00:08:37,200

right as when he plans the social

249

00:08:40,149 --> 00:08:38,959

experiment to say these things that are

250

00:08:41,990 --> 00:08:40,159

not true

251
00:08:43,750 --> 00:08:42,000
there's some pretty creative stuff there

252
00:08:46,070 --> 00:08:43,760
so that was that was some

253
00:08:47,750 --> 00:08:46,080
that was very creative is that something

254
00:08:49,350 --> 00:08:47,760
that that you came up with

255
00:08:51,110 --> 00:08:49,360
while sitting there in the interview or

256
00:08:53,670 --> 00:08:51,120
something that you oh

257
00:08:54,470 --> 00:08:53,680
huh this is about maybe a week before we

258
00:08:56,870 --> 00:08:54,480
did the show

259
00:08:58,470 --> 00:08:56,880
if you remember when we had gone out you

260
00:08:59,190 --> 00:08:58,480
we we should have had the show back in

261
00:09:00,389 --> 00:08:59,200
like june or

262
00:09:02,630 --> 00:09:00,399
may or june or something remember you

263
00:09:03,990 --> 00:09:02,640

got married and that we delayed delayed

264

00:09:05,350 --> 00:09:04,000

the show till

265

00:09:07,430 --> 00:09:05,360

been a while like november or something

266

00:09:08,949 --> 00:09:07,440

but you remember the day when i did the

267

00:09:12,310 --> 00:09:08,959

i found your your doctor friend or

268

00:09:14,710 --> 00:09:12,320

whatever from a while back it was around

269

00:09:15,990 --> 00:09:14,720

that time frame before you went to uh

270

00:09:17,750 --> 00:09:16,000

you got married and went to

271

00:09:19,030 --> 00:09:17,760

italy what have you so who was the

272

00:09:20,230 --> 00:09:19,040

doctor friend

273

00:09:22,550 --> 00:09:20,240

i'm trying to remember me we were

274

00:09:24,470 --> 00:09:22,560

sitting there and i i was trying to show

275

00:09:24,949 --> 00:09:24,480

you how fast i could find people and one

276

00:09:26,710 --> 00:09:24,959

of the

277

00:09:28,310 --> 00:09:26,720

questions that you had was there was a

278

00:09:29,030 --> 00:09:28,320

person you had you had not seen in years

279

00:09:32,070 --> 00:09:29,040

and years and years

280

00:09:34,070 --> 00:09:32,080

oh right right right yeah so um yeah

281

00:09:36,070 --> 00:09:34,080

so that was like a proof of of being

282

00:09:39,910 --> 00:09:36,080

able to actually do something

283

00:09:41,750 --> 00:09:39,920

so which i hopefully you you appreciated

284

00:09:42,949 --> 00:09:41,760

yeah so so we ended up doing the

285

00:09:44,630 --> 00:09:42,959

interview

286

00:09:45,990 --> 00:09:44,640

right after i got back from my wedding

287

00:09:46,550 --> 00:09:46,000

which would have been i think you're

288

00:09:48,470 --> 00:09:46,560

right yeah

289

00:09:49,829 --> 00:09:48,480

i got back in late october so yeah i

290

00:09:50,550 --> 00:09:49,839

think it was late october earlier yeah

291

00:09:52,630 --> 00:09:50,560

november

292

00:09:53,910 --> 00:09:52,640

4th is when the show came out yeah yeah

293

00:09:55,110 --> 00:09:53,920

okay but anyway

294

00:09:56,949 --> 00:09:55,120

you're you're answering the question

295

00:09:59,990 --> 00:09:56,959

about when the

296

00:10:03,110 --> 00:10:00,000

trump having the tic tac flown

297

00:10:03,509 --> 00:10:03,120

to show kim jong-un popped into your

298

00:10:05,030 --> 00:10:03,519

head

299

00:10:06,470 --> 00:10:05,040

right that was about a week before so i

300

00:10:07,269 --> 00:10:06,480

had to pick a time frame as to when i

301
00:10:09,670 --> 00:10:07,279
flew

302
00:10:11,509 --> 00:10:09,680
the tic tac so i went to his that time

303
00:10:14,550 --> 00:10:11,519
frame of around you know my birthday

304
00:10:15,990 --> 00:10:14,560
november 18th 2017.

305
00:10:17,750 --> 00:10:16,000
he was in the middle of the las vegas

306
00:10:19,670 --> 00:10:17,760
investigation could put a lot of time so

307
00:10:21,350 --> 00:10:19,680
i was toying with which way to swing

308
00:10:22,870 --> 00:10:21,360
this thing and when i did i started

309
00:10:24,389 --> 00:10:22,880
looking at okay this has to be some

310
00:10:25,829 --> 00:10:24,399
world events that would have occurred

311
00:10:28,470 --> 00:10:25,839
at a time that would involve the

312
00:10:30,550 --> 00:10:28,480
intelligence community so

313
00:10:32,150 --> 00:10:30,560

that's when i picked okay these two

314

00:10:33,269 --> 00:10:32,160

events happen very close to each other

315

00:10:36,230 --> 00:10:33,279

literally one

316

00:10:37,350 --> 00:10:36,240

after the other putin was put on notice

317

00:10:39,430 --> 00:10:37,360

and then

318

00:10:41,030 --> 00:10:39,440

north korea you know was put back on the

319

00:10:41,670 --> 00:10:41,040

terrorist list all within a day of each

320

00:10:44,470 --> 00:10:41,680

other

321

00:10:45,590 --> 00:10:44,480

also during that exact same week trump

322

00:10:47,269 --> 00:10:45,600

was nowhere to be found

323

00:10:48,710 --> 00:10:47,279

and there was his daily schedule if you

324

00:10:51,030 --> 00:10:48,720

look it up on wikipedia

325

00:10:53,430 --> 00:10:51,040

went blank that week so i was like wow

326

00:10:55,430 --> 00:10:53,440

all this is just so too perfect so

327

00:10:57,110 --> 00:10:55,440

it was thanksgiving week i recall yeah

328

00:10:58,870 --> 00:10:57,120

it was around thanksgiving week but

329

00:11:00,710 --> 00:10:58,880

but the previous year he had not been

330

00:11:01,670 --> 00:11:00,720

gone that many days so it kind of it

331

00:11:04,150 --> 00:11:01,680

just kind of worked out

332

00:11:04,949 --> 00:11:04,160

where everything was like did did quite

333

00:11:08,790 --> 00:11:04,959

well

334

00:11:12,310 --> 00:11:08,800

and what i wanted to do was to show you

335

00:11:14,310 --> 00:11:12,320

spoofing technology and how it works

336

00:11:16,710 --> 00:11:14,320

and so when i turned my phone over to

337

00:11:19,190 --> 00:11:16,720

you and you got to see

338

00:11:20,230 --> 00:11:19,200

me being able to prove that i flew from

339

00:11:22,790 --> 00:11:20,240

california

340

00:11:24,310 --> 00:11:22,800

to washington dc and your the phone

341

00:11:24,949 --> 00:11:24,320

showed that i landed right at the white

342

00:11:28,310 --> 00:11:24,959

house

343

00:11:31,590 --> 00:11:28,320

for you um in an hour and 24 minutes

344

00:11:34,710 --> 00:11:31,600

so for me to explain that to you

345

00:11:37,430 --> 00:11:34,720

to spoof my phone

346

00:11:37,910 --> 00:11:37,440

to spoof to you so i spoofed the phone

347

00:11:40,069 --> 00:11:37,920

which

348

00:11:42,470 --> 00:11:40,079

in turn spoofed you and we're all have

349

00:11:44,870 --> 00:11:42,480

been spoofed by the

350

00:11:45,990 --> 00:11:44,880

these objects and i'll get into that in

351
00:11:48,470 --> 00:11:46,000
a minute

352
00:11:49,509 --> 00:11:48,480
yeah so so the the phone trick was what

353
00:11:52,790 --> 00:11:49,519
was part of

354
00:11:53,829 --> 00:11:52,800
the um the deception on the uh whether

355
00:11:57,030 --> 00:11:53,839
you flew in one

356
00:11:59,190 --> 00:11:57,040
yeah the the the the phone showed

357
00:12:00,069 --> 00:11:59,200
based on google maps i think it was

358
00:12:03,350 --> 00:12:00,079
right at

359
00:12:06,389 --> 00:12:03,360
this time you were in somewhere in uh

360
00:12:06,949 --> 00:12:06,399
inland empire los angeles and an hour

361
00:12:09,110 --> 00:12:06,959
and 24

362
00:12:10,870 --> 00:12:09,120
minutes later you're in washington dc

363
00:12:12,949 --> 00:12:10,880

correct um

364

00:12:14,470 --> 00:12:12,959

there's no craft that could get you

365

00:12:16,230 --> 00:12:14,480

there that quickly

366

00:12:18,389 --> 00:12:16,240

so yeah so i had to make it fast enough

367

00:12:20,870 --> 00:12:18,399

to allow that to occur

368

00:12:21,910 --> 00:12:20,880

um and then but not so fast that i

369

00:12:24,790 --> 00:12:21,920

couldn't explain

370

00:12:26,310 --> 00:12:24,800

the 1g acceleration so i had to come up

371

00:12:29,750 --> 00:12:26,320

with the 1g acceleration

372

00:12:31,430 --> 00:12:29,760

or we were the acceleration so so

373

00:12:33,190 --> 00:12:31,440

slow that you wouldn't even notice it

374

00:12:34,710 --> 00:12:33,200

but over a period of time

375

00:12:36,790 --> 00:12:34,720

which only in 15 minutes you're you're

376

00:12:37,430 --> 00:12:36,800

going you know easily over 1000 miles an

377

00:12:40,790 --> 00:12:37,440

hour

378

00:12:42,230 --> 00:12:40,800

so um and and that's where jack safari

379

00:12:43,190 --> 00:12:42,240

comes in so me and him have had a lot of

380

00:12:46,069 --> 00:12:43,200

conversations a lot

381

00:12:47,110 --> 00:12:46,079

that that's actually how we we we met up

382

00:12:49,509 --> 00:12:47,120

so the idea

383

00:12:51,670 --> 00:12:49,519

you know before our interview as far as

384

00:12:53,190 --> 00:12:51,680

the idea of tic tac

385

00:12:55,350 --> 00:12:53,200

you know the question was are these

386

00:12:57,350 --> 00:12:55,360

things real and also i think there was

387

00:12:58,710 --> 00:12:57,360

probably an assumption that well if even

388

00:13:01,670 --> 00:12:58,720

if they are real

389

00:13:03,430 --> 00:13:01,680

uh there's no one flying in them because

390

00:13:06,150 --> 00:13:03,440

you couldn't handle the g-force

391

00:13:06,470 --> 00:13:06,160

right so so so if you're going to fly it

392

00:13:10,790 --> 00:13:06,480

as

393

00:13:13,430 --> 00:13:10,800

empire los angeles to dc

394

00:13:15,030 --> 00:13:13,440

right you would only be able to travel

395

00:13:17,590 --> 00:13:15,040

to accelerate

396

00:13:19,269 --> 00:13:17,600

at what one g is that well you could

397

00:13:19,990 --> 00:13:19,279

accelerate faster but at one g you

398

00:13:21,430 --> 00:13:20,000

wouldn't even hardly

399

00:13:23,269 --> 00:13:21,440

notice it but you would still attain the

400

00:13:25,750 --> 00:13:23,279

speed necessary to get me from

401
00:13:26,470 --> 00:13:25,760
los angeles to washington dc an hour and

402
00:13:27,670 --> 00:13:26,480
24 minutes

403
00:13:29,670 --> 00:13:27,680
right but so you did those kind of

404
00:13:32,389 --> 00:13:29,680
calculations and

405
00:13:33,350 --> 00:13:32,399
then studying and then to set up on

406
00:13:35,509 --> 00:13:33,360
google maps

407
00:13:36,629 --> 00:13:35,519
which i did learn after when i did a

408
00:13:38,389 --> 00:13:36,639
little test for myself that

409
00:13:39,990 --> 00:13:38,399
it's very easy to go into google maps

410
00:13:43,590 --> 00:13:40,000
and just enter in

411
00:13:45,110 --> 00:13:43,600
times you you can edit you can edit

412
00:13:46,870 --> 00:13:45,120
you can edit times and stuff but what

413
00:13:48,069 --> 00:13:46,880

you can't do is spoof it so you have to

414

00:13:49,670 --> 00:13:48,079

get a spoofing software

415

00:13:51,269 --> 00:13:49,680

program that actually makes it look like

416

00:13:51,990 --> 00:13:51,279

you're there and you like right now i

417

00:13:53,110 --> 00:13:52,000

could do it and

418

00:13:54,629 --> 00:13:53,120

it would look like i was somewhere

419

00:13:55,990 --> 00:13:54,639

walking around and everything so it's

420

00:13:56,550 --> 00:13:56,000

actually an app that you put on your

421

00:13:59,030 --> 00:13:56,560

phone

422

00:14:00,389 --> 00:13:59,040

and i think this one's called fake gps

423

00:14:01,509 --> 00:14:00,399

and it literally makes it look like

424

00:14:03,509 --> 00:14:01,519

you're somewhere

425

00:14:04,710 --> 00:14:03,519

walking around at a mall or whatever you

426

00:14:05,509 --> 00:14:04,720

want to do you can make it do all kinds

427

00:14:08,150 --> 00:14:05,519

of things something that

428

00:14:08,790 --> 00:14:08,160

certainly a lot of husbands may want to

429

00:14:11,030 --> 00:14:08,800

have

430

00:14:14,710 --> 00:14:11,040

access to yes and at the end of the show

431

00:14:18,870 --> 00:14:17,910

so um anyway i mean uh so this is all

432

00:14:21,590 --> 00:14:18,880

part of

433

00:14:22,310 --> 00:14:21,600

it was an elaborate plan to basically

434

00:14:24,790 --> 00:14:22,320

spooof

435

00:14:26,389 --> 00:14:24,800

you now i at the time i didn't have the

436

00:14:27,430 --> 00:14:26,399

intention of going beyond your show it

437

00:14:30,230 --> 00:14:27,440

was just basically

438

00:14:31,590 --> 00:14:30,240

to show you and then it at the end i was

439

00:14:34,230 --> 00:14:31,600
going to say aha you know see

440

00:14:34,790 --> 00:14:34,240
how easy it was to fool you now imagine

441

00:14:36,389 --> 00:14:34,800
how

442

00:14:37,509 --> 00:14:36,399
this works in the bigger scale you've

443

00:14:39,110 --> 00:14:37,519
got so many people out with so many

444

00:14:41,030 --> 00:14:39,120
different stories some of the stories

445

00:14:42,230 --> 00:14:41,040
you know people may actually truly

446

00:14:43,990 --> 00:14:42,240
believe them some of them maybe

447

00:14:45,670 --> 00:14:44,000
someone has been in the story so long

448

00:14:46,230 --> 00:14:45,680
that they now believe it themselves or

449

00:14:48,389 --> 00:14:46,240
what have you

450

00:14:49,829 --> 00:14:48,399
so all of these different things occur

451

00:14:51,350 --> 00:14:49,839

and i've seen this over and over and

452

00:14:52,550 --> 00:14:51,360

over again and you've seen it to you i

453

00:14:56,230 --> 00:14:52,560

mean you've talked to people that you

454

00:14:58,069 --> 00:14:56,240

that you you just know that you know

455

00:14:59,269 --> 00:14:58,079

you know so but but we all we all deal

456

00:15:01,829 --> 00:14:59,279

with that and

457

00:15:02,790 --> 00:15:01,839

i can say that you know to your credit

458

00:15:04,310 --> 00:15:02,800

you were very good

459

00:15:05,829 --> 00:15:04,320

you you told me well because i had

460

00:15:07,110 --> 00:15:05,839

enough accurate information

461

00:15:09,350 --> 00:15:07,120

some of the stuff i told you was

462

00:15:10,230 --> 00:15:09,360

absolutely legit well and you're you're

463

00:15:12,790 --> 00:15:10,240

you're

464

00:15:13,750 --> 00:15:12,800

yes i'm a lawyer but you know my i'm not

465

00:15:16,949 --> 00:15:13,760

a physicist

466

00:15:20,150 --> 00:15:16,959

and i'm not a ufologist right so

467

00:15:21,350 --> 00:15:20,160

you know and i'm a very trusting person

468

00:15:24,310 --> 00:15:21,360

especially

469

00:15:25,829 --> 00:15:24,320

of you not anymore but but at that point

470

00:15:28,550 --> 00:15:25,839

well i did good for vegas for you

471

00:15:30,629 --> 00:15:28,560

but exactly so you know i was kind of an

472

00:15:33,590 --> 00:15:30,639

easy target now

473

00:15:34,470 --> 00:15:33,600

still obviously i was extremely

474

00:15:37,030 --> 00:15:34,480

skeptical

475

00:15:38,310 --> 00:15:37,040

you know wanting wanting to believe uh

476
00:15:40,629 --> 00:15:38,320
wanting

477
00:15:43,030 --> 00:15:40,639
to think that we weren't uh well duped

478
00:15:44,629 --> 00:15:43,040
uh michael parker our our producer

479
00:15:46,550 --> 00:15:44,639
was a little bit more skeptical because

480
00:15:48,470 --> 00:15:46,560
he's just

481
00:15:50,150 --> 00:15:48,480
i think you know he initially was

482
00:15:51,910 --> 00:15:50,160
believing the story but he said jim

483
00:15:53,350 --> 00:15:51,920
you know back when i covered ufos

484
00:15:54,790 --> 00:15:53,360
regularly right

485
00:15:57,590 --> 00:15:54,800
i can't tell you how many people that

486
00:15:59,590 --> 00:15:57,600
i'd run across that would tell fantastic

487
00:16:00,710 --> 00:15:59,600
stories that when you hear them sound

488
00:16:03,509 --> 00:16:00,720

perfectly

489

00:16:04,230 --> 00:16:03,519

believable um but they all turn out to

490

00:16:07,350 --> 00:16:04,240

be false

491

00:16:09,350 --> 00:16:07,360

right and that's partly the entire point

492

00:16:11,749 --> 00:16:09,360

of this

493

00:16:13,189 --> 00:16:11,759

the the thing is i mixed in actual

494

00:16:20,710 --> 00:16:13,199

information

495

00:16:23,430 --> 00:16:20,720

ufo trip to washington dc and so forth

496

00:16:25,030 --> 00:16:23,440

so i mixed the two together um so inside

497

00:16:26,870 --> 00:16:25,040

the information that i gave you was

498

00:16:28,790 --> 00:16:26,880

you know was the technology real or was

499

00:16:30,870 --> 00:16:28,800

it technology u.s technology yes it's

500

00:16:33,430 --> 00:16:30,880

absolutely united states technology

501
00:16:34,310 --> 00:16:33,440
in fact i can tell you where the

502
00:16:36,069 --> 00:16:34,320
technology

503
00:16:37,509 --> 00:16:36,079
exists to a point i can't there's some

504
00:16:38,629 --> 00:16:37,519
things i still can't say but there's

505
00:16:40,230 --> 00:16:38,639
some things i can but i

506
00:16:41,430 --> 00:16:40,240
but by the end of this you'll have a

507
00:16:43,110 --> 00:16:41,440
pretty good understanding of how all

508
00:16:45,910 --> 00:16:43,120
this works

509
00:16:47,030 --> 00:16:45,920
but but but at the time of the interview

510
00:16:49,590 --> 00:16:47,040
to be clear

511
00:16:51,030 --> 00:16:49,600
you were telling us these are actual

512
00:16:54,150 --> 00:16:51,040
40-foot objects

513
00:16:56,949 --> 00:16:54,160

made by the us yes and at the time

514

00:16:57,829 --> 00:16:56,959

i honestly believe that okay and if so

515

00:16:59,509 --> 00:16:57,839

you're here today

516

00:17:01,189 --> 00:16:59,519

to tell us that turns out not to be the

517

00:17:03,350 --> 00:17:01,199

case yeah

518

00:17:04,549 --> 00:17:03,360

and that's where i got hoodwinked um

519

00:17:06,069 --> 00:17:04,559

because i want to

520

00:17:07,590 --> 00:17:06,079

let's stick with how you get so how did

521

00:17:09,750 --> 00:17:07,600

you get hoodwinked

522

00:17:11,750 --> 00:17:09,760

back in early 2005 remember i told you

523

00:17:12,549 --> 00:17:11,760

about the the telephone call i had with

524

00:17:15,829 --> 00:17:12,559

a

525

00:17:19,110 --> 00:17:15,839

set up the slides

526
00:17:21,029 --> 00:17:19,120
uh for the uh the briefing about

527
00:17:23,750 --> 00:17:21,039
the technology that was utilized by the

528
00:17:27,829 --> 00:17:23,760
that nimitzing nemez event

529
00:17:29,110 --> 00:17:27,839
at that time i

530
00:17:31,110 --> 00:17:29,120
didn't really put a whole lot of thought

531
00:17:32,950 --> 00:17:31,120
into it because all i heard was the

532
00:17:33,669 --> 00:17:32,960
comms the cop the communications between

533
00:17:36,710 --> 00:17:33,679
the pilots

534
00:17:38,549 --> 00:17:36,720
and atc that's that's all i i i heard

535
00:17:40,230 --> 00:17:38,559
specifically from the nimitz encounter

536
00:17:41,990 --> 00:17:40,240
in 2004 we're talking correct

537
00:17:43,990 --> 00:17:42,000
correct yeah and that was specifically

538
00:17:44,789 --> 00:17:44,000

uh yeah everything is just specific to

539

00:17:47,909 --> 00:17:44,799

that event

540

00:17:49,750 --> 00:17:47,919

and the this friend

541

00:17:51,350 --> 00:17:49,760

uh who was with the navy and helped put

542

00:17:51,830 --> 00:17:51,360

together the slides he was at the air

543

00:17:57,990 --> 00:17:51,840

force

544

00:17:59,029 --> 00:17:58,000

uh he recently has has left the air

545

00:18:02,470 --> 00:17:59,039

force

546

00:18:04,870 --> 00:18:02,480

is now left as of last

547

00:18:05,669 --> 00:18:04,880

october november we're still not

548

00:18:08,950 --> 00:18:05,679

disclosing

549

00:18:10,630 --> 00:18:08,960

your friends no

550

00:18:12,070 --> 00:18:10,640

anyone that actually goes into this and

551
00:18:13,029 --> 00:18:12,080
goes around the date of when that

552
00:18:15,430 --> 00:18:13,039
briefing was

553
00:18:16,630 --> 00:18:15,440
we'll kind of be able to figure it out

554
00:18:18,070 --> 00:18:16,640
because there's not that many av

555
00:18:19,990 --> 00:18:18,080
specialists that set up the uh

556
00:18:21,590 --> 00:18:20,000
powerpoint presentations back at that

557
00:18:23,190 --> 00:18:21,600
time at that particular base which i

558
00:18:25,669 --> 00:18:23,200
haven't mentioned the base yet

559
00:18:27,110 --> 00:18:25,679
air force specialist there is an av

560
00:18:29,270 --> 00:18:27,120
specialist in there oh av

561
00:18:30,710 --> 00:18:29,280
specialist i thought that's why i

562
00:18:34,150 --> 00:18:30,720
thought you were saying navy

563
00:18:35,830 --> 00:18:34,160

av specialist right um okay but this

564

00:18:38,549 --> 00:18:35,840

person is real and exists

565

00:18:41,430 --> 00:18:38,559

yep scout's honor scout's honor

566

00:18:43,750 --> 00:18:41,440

whatever this guy's owner is

567

00:18:45,350 --> 00:18:43,760

were you ever in the scouts uh i was in

568

00:18:47,590 --> 00:18:45,360

the i was in the cub scouts

569

00:18:48,470 --> 00:18:47,600

okay so cub scout's honor if there's

570

00:18:50,549 --> 00:18:48,480

such a thing sure

571

00:18:52,549 --> 00:18:50,559

okay look at the camera mike oh over

572

00:18:53,430 --> 00:18:52,559

here yes absolutely the person existing

573

00:18:55,909 --> 00:18:53,440

is a real person

574

00:18:56,789 --> 00:18:55,919

if you actually went back to that time

575

00:18:59,190 --> 00:18:56,799

frame

576
00:19:00,789 --> 00:18:59,200
to that and you know and looking at the

577
00:19:01,990 --> 00:19:00,799
camera scout signer you spoke to this

578
00:19:05,830 --> 00:19:02,000
person

579
00:19:06,789 --> 00:19:05,840
looking at the cameras but scout's honor

580
00:19:07,909 --> 00:19:06,799
i can't swim in the bible because you

581
00:19:09,590 --> 00:19:07,919
know i'm atheist so you're not going to

582
00:19:10,630 --> 00:19:09,600
take me down well that's right sure i'm

583
00:19:11,990 --> 00:19:10,640
using the cupcakes let's just put it

584
00:19:12,630 --> 00:19:12,000
this way this is all gonna come out

585
00:19:15,110 --> 00:19:12,640
anyway

586
00:19:16,070 --> 00:19:15,120
so this this part is going to prove

587
00:19:17,909 --> 00:19:16,080
itself

588
00:19:19,190 --> 00:19:17,919

true anyway so i'm not even really okay

589

00:19:20,070 --> 00:19:19,200

so let's go back to how you were

590

00:19:21,909 --> 00:19:20,080

hoodwinked so

591

00:19:23,270 --> 00:19:21,919

so you speak to the person you hear the

592

00:19:24,789 --> 00:19:23,280

comms keep going yeah

593

00:19:26,549 --> 00:19:24,799

now he and i both thought when you're

594

00:19:28,070 --> 00:19:26,559

listening if all you hear is the radio

595

00:19:30,549 --> 00:19:28,080

transmission is going back and forth

596

00:19:32,470 --> 00:19:30,559

you believe that there's something going

597

00:19:35,270 --> 00:19:32,480

on these people that they're chasing

598

00:19:36,390 --> 00:19:35,280

a ufo that's what it sounds like and

599

00:19:37,990 --> 00:19:36,400

just like when you watch the

600

00:19:39,669 --> 00:19:38,000

nimitz encounters which is that the

601
00:19:41,029 --> 00:19:39,679
documentary by dave beatty which is

602
00:19:42,789 --> 00:19:41,039
excellent and everybody should see that

603
00:19:44,630 --> 00:19:42,799
by the way um and it puts

604
00:19:46,310 --> 00:19:44,640
visual perspective on all this so it all

605
00:19:49,590 --> 00:19:46,320
makes sense

606
00:19:51,270 --> 00:19:49,600
when you hear that that's

607
00:19:52,710 --> 00:19:51,280
keep in mind if you if you watch dave

608
00:19:55,110 --> 00:19:52,720
beatty's show and didn't watch

609
00:19:56,390 --> 00:19:55,120
any of the graphics and just heard the

610
00:19:59,029 --> 00:19:56,400
radio transitions that's

611
00:20:00,310 --> 00:19:59,039
all we heard um but he was putting

612
00:20:02,950 --> 00:20:00,320
together the data

613
00:20:04,950 --> 00:20:02,960

and what was also happening was the

614

00:20:07,190 --> 00:20:04,960

contractors were showing up

615

00:20:08,710 --> 00:20:07,200

so on the second call well the first

616

00:20:10,310 --> 00:20:08,720

call they called me says hey mike

617

00:20:11,909 --> 00:20:10,320

blah blah blah you know what are you

618

00:20:13,430 --> 00:20:11,919

doing today i need to talk to you

619

00:20:15,029 --> 00:20:13,440

something's going on blah blah blah so

620

00:20:15,669 --> 00:20:15,039

then he calls me back about an hour

621

00:20:19,990 --> 00:20:15,679

later which

622

00:20:22,549 --> 00:20:20,000

basically breaks a huge is a huge no-no

623

00:20:23,029 --> 00:20:22,559

to do this but he played a snippet for

624

00:20:26,149 --> 00:20:23,039

me

625

00:20:27,750 --> 00:20:26,159

over the phone um and he says what do

626

00:20:30,549 --> 00:20:27,760

you think that was after about

627

00:20:31,830 --> 00:20:30,559

maybe four minutes or so i said wow it

628

00:20:34,230 --> 00:20:31,840

sounds like this guy was

629

00:20:36,230 --> 00:20:34,240

chasing ufo i said what is this he says

630

00:20:37,990 --> 00:20:36,240

he says i don't know it's some

631

00:20:39,590 --> 00:20:38,000

navy's navy stuff that we just got and

632

00:20:40,390 --> 00:20:39,600

we're setting up the briefing slide for

633

00:20:42,310 --> 00:20:40,400

it or whatever

634

00:20:43,510 --> 00:20:42,320

so he wasn't even far enough into it for

635

00:20:45,590 --> 00:20:43,520

him to know

636

00:20:46,710 --> 00:20:45,600

the next day or two days later i think

637

00:20:48,870 --> 00:20:46,720

he calls me back

638

00:20:50,630 --> 00:20:48,880

and says oh i think it's it's definitely

639

00:20:53,510 --> 00:20:50,640

our stuff i just don't know

640

00:20:53,990 --> 00:20:53,520

you know more enough about it because he

641

00:20:55,669 --> 00:20:54,000

just said

642

00:20:57,909 --> 00:20:55,679

the slides and then he was no longer a

643

00:21:00,470 --> 00:20:57,919

part of it so just the graphics part

644

00:21:01,430 --> 00:21:00,480

um and then that was it i i never

645

00:21:04,549 --> 00:21:01,440

thought about it again

646

00:21:06,390 --> 00:21:04,559

until dave beatty's show came out and i

647

00:21:07,909 --> 00:21:06,400

heard i was able to hear

648

00:21:09,430 --> 00:21:07,919

the actual audio because if you look

649

00:21:09,830 --> 00:21:09,440

back at the tic tac video there is no

650

00:21:11,590 --> 00:21:09,840

audio

651
00:21:12,870 --> 00:21:11,600
you don't hear chad underwood which is

652
00:21:15,430 --> 00:21:12,880
the person who filmed

653
00:21:16,789 --> 00:21:15,440
the tic tac is chad underwood you don't

654
00:21:17,830 --> 00:21:16,799
hear the communications going back and

655
00:21:20,230 --> 00:21:17,840
forth to the ship

656
00:21:21,190 --> 00:21:20,240
so you don't get to to be privy to that

657
00:21:24,310 --> 00:21:21,200
so

658
00:21:25,750 --> 00:21:24,320
um in hearing them on dave's show just

659
00:21:28,149 --> 00:21:25,760
the reenactment of them

660
00:21:29,350 --> 00:21:28,159
then it it clicked and and it put two

661
00:21:30,710 --> 00:21:29,360
and two together to figure out what that

662
00:21:34,149 --> 00:21:30,720
was and uh

663
00:21:36,789 --> 00:21:34,159

so back at the time i believed

664

00:21:38,710 --> 00:21:36,799

that they were utilizing u.s technology

665

00:21:40,789 --> 00:21:38,720

because it was clear it was our

666

00:21:42,310 --> 00:21:40,799

technology by the way he said this

667

00:21:42,870 --> 00:21:42,320

meeting was set up the contractors were

668

00:21:49,270 --> 00:21:42,880

there

669

00:21:50,549 --> 00:21:49,280

um and at the time you could tell that

670

00:21:53,669 --> 00:21:50,559

these were

671

00:21:56,950 --> 00:21:53,679

what he thought were physical objects

672

00:21:59,750 --> 00:21:56,960

and there are physical objects that were

673

00:22:01,750 --> 00:21:59,760

part of this but as far as them

674

00:22:03,590 --> 00:22:01,760

exhibiting the characteristic flights

675

00:22:05,029 --> 00:22:03,600

patterns and all the speeds and all the

676

00:22:08,149 --> 00:22:05,039

g-forces and all that

677

00:22:11,110 --> 00:22:08,159

it no it didn't that didn't happen so

678

00:22:11,990 --> 00:22:11,120

in what way were you hoodwinked well

679

00:22:15,669 --> 00:22:12,000

because at the time

680

00:22:19,990 --> 00:22:15,679

i i believed that they were actual

681

00:22:21,510 --> 00:22:20,000

physical objects doing what

682

00:22:23,430 --> 00:22:21,520

they tell us they were doing in the

683

00:22:25,990 --> 00:22:23,440

videos which not one of the videos

684

00:22:27,190 --> 00:22:26,000

shows anything extraordinary but it's

685

00:22:30,710 --> 00:22:27,200

we're told that it does

686

00:22:33,510 --> 00:22:30,720

okay but you you believed it but but

687

00:22:34,630 --> 00:22:33,520

who hoodwinked you um i'm i'm doing the

688

00:22:35,990 --> 00:22:34,640

you know those face you know the guys

689

00:22:37,430 --> 00:22:36,000

that do the uh

690

00:22:38,630 --> 00:22:37,440

uh where they look at you the body

691

00:22:41,029 --> 00:22:38,640

language and stuff so i'm gonna try to

692

00:22:43,270 --> 00:22:41,039

keep doing this right here

693

00:22:44,789 --> 00:22:43,280

just have fun with um who had weak no

694

00:22:46,310 --> 00:22:44,799

one's technically hoodwinked me i

695

00:22:48,230 --> 00:22:46,320

basically hoodwinked myself because i

696

00:22:51,110 --> 00:22:48,240

believed that that was an actual object

697

00:22:53,510 --> 00:22:51,120

right so you believed it and then came

698

00:22:55,909 --> 00:22:53,520

on the show and said it as a fact though

699

00:22:57,190 --> 00:22:55,919

it was 100 certainty well this is what

700

00:22:59,110 --> 00:22:57,200

it is

701
00:23:01,270 --> 00:22:59,120
and that you know this for sure and that

702
00:23:03,190 --> 00:23:01,280
it's built at plant plant 42

703
00:23:04,549 --> 00:23:03,200
and that there's three different types

704
00:23:06,070 --> 00:23:04,559
and they're built by different u.s

705
00:23:08,149 --> 00:23:06,080
manufacturers

706
00:23:09,750 --> 00:23:08,159
so all of that was things that you

707
00:23:12,390 --> 00:23:09,760
believed at the time

708
00:23:12,950 --> 00:23:12,400
the part about the the different

709
00:23:15,190 --> 00:23:12,960
different

710
00:23:17,350 --> 00:23:15,200
types of tic tac and stuff like that was

711
00:23:19,350 --> 00:23:17,360
more or less me trying to decipher

712
00:23:20,789 --> 00:23:19,360
information that i had little tidbits

713
00:23:21,909 --> 00:23:20,799

that i was getting from him while he was

714

00:23:23,110 --> 00:23:21,919

talking to me about that which

715

00:23:24,710 --> 00:23:23,120

contractors are there because there were

716

00:23:27,830 --> 00:23:24,720

more than one contractor there

717

00:23:28,789 --> 00:23:27,840

and each contractor did not really have

718

00:23:30,470 --> 00:23:28,799

overlapping

719

00:23:32,470 --> 00:23:30,480

technologies that i thought of at the

720

00:23:35,350 --> 00:23:32,480

time let's put it this way

721

00:23:36,789 --> 00:23:35,360

lockheed raytheon two different two

722

00:23:39,190 --> 00:23:36,799

different contractors they

723

00:23:41,110 --> 00:23:39,200

lockheed's located at plant 42

724

00:23:43,350 --> 00:23:41,120

raytheon's at plant 44

725

00:23:45,110 --> 00:23:43,360

um they make physical craft but they

726

00:23:46,549 --> 00:23:45,120

also make other things as well

727

00:23:48,230 --> 00:23:46,559

so if you look if you look at it from

728

00:23:48,789 --> 00:23:48,240

standpoint that one makes the at-fire

729

00:23:51,269 --> 00:23:48,799

pod

730

00:23:52,870 --> 00:23:51,279

keep in mind all three of these videos

731

00:23:55,510 --> 00:23:52,880

were manufactured

732

00:23:57,269 --> 00:23:55,520

uh the the app flier pods manufactured

733

00:24:00,149 --> 00:23:57,279

by one company

734

00:24:00,950 --> 00:24:00,159

the atlar pod that took all three videos

735

00:24:04,549 --> 00:24:00,960

same company

736

00:24:08,070 --> 00:24:04,559

raytheon all three videos show

737

00:24:08,870 --> 00:24:08,080

objects that we're told are doing

738

00:24:12,630 --> 00:24:08,880

something

739

00:24:15,590 --> 00:24:12,640
that i can prove that they're not

740

00:24:18,549 --> 00:24:15,600
we'll get to that okay we're not letting

741

00:24:21,590 --> 00:24:18,559
you off yet i know i know i'm

742

00:24:23,750 --> 00:24:21,600
so i wanted uh discern between

743

00:24:25,430 --> 00:24:23,760
things that you believed at the time

744

00:24:27,750 --> 00:24:25,440
right of our interview

745

00:24:29,029 --> 00:24:27,760
versus things that you were was the part

746

00:24:32,149 --> 00:24:29,039
of the social experiment

747

00:24:32,630 --> 00:24:32,159
okay so so what did you believe was the

748

00:24:35,110 --> 00:24:32,640
case

749

00:24:36,390 --> 00:24:35,120
versus what little things you just

750

00:24:39,350 --> 00:24:36,400
sprinkled in like you know the

751
00:24:40,470 --> 00:24:39,360
the the trump north korea thing right

752
00:24:43,750 --> 00:24:40,480
the

753
00:24:45,430 --> 00:24:43,760
42

754
00:24:47,430 --> 00:24:45,440
that are made by these three companies i

755
00:24:49,190 --> 00:24:47,440
mean obviously you didn't in fact know

756
00:24:52,230 --> 00:24:49,200
that you had to make that up because

757
00:24:53,990 --> 00:24:52,240
now you're saying it's not true no

758
00:24:55,269 --> 00:24:54,000
no those contractors were there and they

759
00:24:59,190 --> 00:24:55,279
did manufacture

760
00:25:00,789 --> 00:24:59,200
the items that created what we

761
00:25:02,230 --> 00:25:00,799
not what we see on the video but what

762
00:25:04,549 --> 00:25:02,240
the pilot saw and what

763
00:25:05,990 --> 00:25:04,559

kevin day and what all the right but at

764

00:25:08,070 --> 00:25:06,000

the time of the interview we were

765

00:25:11,669 --> 00:25:08,080

talking about a 40-foot

766

00:25:15,110 --> 00:25:11,679

actual tic tac to buying

767

00:25:17,590 --> 00:25:15,120

technology futuristic technology

768

00:25:18,149 --> 00:25:17,600

that you're now saying is not what was

769

00:25:21,269 --> 00:25:18,159

involved

770

00:25:24,149 --> 00:25:21,279

in this so so that part

771

00:25:25,669 --> 00:25:24,159

was just kind of fabricated for to make

772

00:25:27,669 --> 00:25:25,679

for a good story

773

00:25:29,430 --> 00:25:27,679

well let's put this way the at the time

774

00:25:31,269 --> 00:25:29,440

i believed that the object that i was

775

00:25:32,230 --> 00:25:31,279

looking at on the video was a physical

776

00:25:34,310 --> 00:25:32,240

object which it was

777

00:25:36,390 --> 00:25:34,320

each of the videos shows a physical

778

00:25:39,029 --> 00:25:36,400

object okay

779

00:25:41,029 --> 00:25:39,039

the objects that you see on the video

780

00:25:43,830 --> 00:25:41,039

are simply not

781

00:25:45,430 --> 00:25:43,840

what we're being told they probably are

782

00:25:46,390 --> 00:25:45,440

or could be or what have you they're not

783

00:25:48,470 --> 00:25:46,400

you know all these other things that

784

00:25:50,390 --> 00:25:48,480

we'll get into later right or

785

00:25:51,750 --> 00:25:50,400

not but they tell us what what you told

786

00:25:53,990 --> 00:25:51,760

us they are well yeah

787

00:25:55,430 --> 00:25:54,000

not what you told us they are right true

788

00:25:57,669 --> 00:25:55,440

very good point very good point

789

00:25:59,669 --> 00:25:57,679

um because i believed at the time that

790

00:26:01,669 --> 00:25:59,679

these objects were real based on

791

00:26:02,870 --> 00:26:01,679

the research i was doing to try to find

792

00:26:05,750 --> 00:26:02,880

out what could

793

00:26:07,350 --> 00:26:05,760

what research was being done to cause

794

00:26:09,350 --> 00:26:07,360

these craft to be built

795

00:26:11,110 --> 00:26:09,360

who and who had the technology to do it

796

00:26:12,950 --> 00:26:11,120

and that's when i narrowed down because

797

00:26:14,310 --> 00:26:12,960

i knew lockheed was one of them

798

00:26:16,870 --> 00:26:14,320

and i knew lockheed was working on

799

00:26:18,390 --> 00:26:16,880

fusion and lockheed in 2014 released a

800

00:26:19,430 --> 00:26:18,400

video that said within five years we'll

801
00:26:21,590 --> 00:26:19,440
have a working

802
00:26:22,549 --> 00:26:21,600
fusion reactor that will work on an

803
00:26:24,230 --> 00:26:22,559
aircraft

804
00:26:25,269 --> 00:26:24,240
and it will be used by the military

805
00:26:27,110 --> 00:26:25,279
first and then that would be

806
00:26:27,830 --> 00:26:27,120
subsequently given to the public and

807
00:26:29,750 --> 00:26:27,840
that video

808
00:26:31,110 --> 00:26:29,760
is still there it's actually on my

809
00:26:34,149 --> 00:26:31,120
channel um

810
00:26:35,269 --> 00:26:34,159
that lockheed produced so at the time of

811
00:26:37,269 --> 00:26:35,279
the interview

812
00:26:39,110 --> 00:26:37,279
you said that the reason that you were

813
00:26:40,230 --> 00:26:39,120

coming forward with the information

814

00:26:43,190 --> 00:26:40,240

which turned out to be

815

00:26:44,870 --> 00:26:43,200

false information was for to help the

816

00:26:46,549 --> 00:26:44,880

military guys you wanted to support

817

00:26:46,950 --> 00:26:46,559

these guys that had seen what they had

818

00:26:48,950 --> 00:26:46,960

seen

819

00:26:50,870 --> 00:26:48,960

and you wanted to you thought you felt

820

00:26:52,070 --> 00:26:50,880

bad that they weren't being told the

821

00:26:54,950 --> 00:26:52,080

truth by the military

822

00:26:56,630 --> 00:26:54,960

that the military was lying to them and

823

00:26:58,149 --> 00:26:56,640

that you were providing this information

824

00:26:59,590 --> 00:26:58,159

to help them with closure

825

00:27:00,950 --> 00:26:59,600

yeah and that's true to this day because

826
00:27:02,070 --> 00:27:00,960
at the time i did believe that the

827
00:27:04,310 --> 00:27:02,080
objects were

828
00:27:05,590 --> 00:27:04,320
physically manufactured and we had the

829
00:27:09,830 --> 00:27:05,600
technology at the time

830
00:27:12,310 --> 00:27:09,840
to do what they do now i'm being

831
00:27:14,470 --> 00:27:12,320
the information i've found out since the

832
00:27:17,269 --> 00:27:14,480
show that i did with you

833
00:27:19,990 --> 00:27:17,279
completely wipes that off the chart and

834
00:27:21,909 --> 00:27:20,000
actually brings up some rather uh

835
00:27:23,510 --> 00:27:21,919
disturbing other questions you know why

836
00:27:26,870 --> 00:27:23,520
why would the our own government

837
00:27:28,149 --> 00:27:26,880
spoofer our own military right uh

838
00:27:30,630 --> 00:27:28,159

into all these different things it's

839

00:27:32,389 --> 00:27:30,640

just not not right not right

840

00:27:34,310 --> 00:27:32,399

rather than so rather than providing

841

00:27:37,669 --> 00:27:34,320

closure for the military guys

842

00:27:39,430 --> 00:27:37,679

you actually just confused things

843

00:27:40,789 --> 00:27:39,440

more for them well at the time i

844

00:27:41,190 --> 00:27:40,799

actually believed that the objects were

845

00:27:42,870 --> 00:27:41,200

real

846

00:27:44,470 --> 00:27:42,880

i believed i believe at the time you

847

00:27:45,110 --> 00:27:44,480

didn't just say that you believed it you

848

00:27:47,430 --> 00:27:45,120

said that they

849

00:27:49,190 --> 00:27:47,440

are for sure and you're coming forward

850

00:27:51,110 --> 00:27:49,200

with this information to help them with

851
00:27:52,950 --> 00:27:51,120
with closure and that 100 percent the

852
00:27:56,710 --> 00:27:52,960
government is lying about it

853
00:27:57,110 --> 00:27:56,720
right and 100 these are u.s technology

854
00:28:01,909 --> 00:27:57,120
which

855
00:28:02,630 --> 00:28:01,919
not split hairs i know i know i got you

856
00:28:04,789 --> 00:28:02,640
i got you

857
00:28:06,789 --> 00:28:04,799
so is there something you'd like to say

858
00:28:08,549 --> 00:28:06,799
to the to the military guys that you

859
00:28:13,110 --> 00:28:08,559
supposedly were coming on to

860
00:28:15,669 --> 00:28:13,120
help them with closure basically that um

861
00:28:17,269 --> 00:28:15,679
i mean if anything i said at the time

862
00:28:21,269 --> 00:28:17,279
offended anyone and i know it did

863
00:28:23,190 --> 00:28:21,279

obviously to a degree my goal

864

00:28:25,029 --> 00:28:23,200

at the time and still is to this day is

865

00:28:26,549 --> 00:28:25,039

to get accurate information and to put

866

00:28:27,990 --> 00:28:26,559

that out at the time the information

867

00:28:30,789 --> 00:28:28,000

that i had that i was given

868

00:28:32,149 --> 00:28:30,799

and told i believed to be a factual at

869

00:28:34,870 --> 00:28:32,159

the time so when i

870

00:28:35,590 --> 00:28:34,880

said that the craft was real the 40-foot

871

00:28:37,029 --> 00:28:35,600

tic-tac

872

00:28:38,789 --> 00:28:37,039

i believed at the time that it was in

873

00:28:41,830 --> 00:28:38,799

fact a real physical

874

00:28:42,549 --> 00:28:41,840

um object which it technically kind of

875

00:28:44,789 --> 00:28:42,559

is

876

00:28:46,149 --> 00:28:44,799

but i have to wait till the next part of

877

00:28:50,470 --> 00:28:46,159

the show to be able to explain

878

00:28:52,389 --> 00:28:50,480

why i'm saying that um but anyway so

879

00:28:54,070 --> 00:28:52,399

you believed it but but you also

880

00:28:56,870 --> 00:28:54,080

presented it as fact

881

00:28:57,510 --> 00:28:56,880

when when you didn't know it as a fact

882

00:28:59,830 --> 00:28:57,520

you

883

00:29:00,549 --> 00:28:59,840

believed it so that was the deception

884

00:29:02,470 --> 00:29:00,559

was well

885

00:29:03,590 --> 00:29:02,480

there's something i was shown that made

886

00:29:07,190 --> 00:29:03,600

me believe it was

887

00:29:08,710 --> 00:29:07,200

fact um so that's where the

888

00:29:12,230 --> 00:29:08,720

the other part of the hoodwinking comes

889

00:29:15,590 --> 00:29:12,240

in information was given to me uh

890

00:29:17,029 --> 00:29:15,600

that was purported to be fact factual it

891

00:29:18,789 --> 00:29:17,039

looked factual looked real

892

00:29:22,870 --> 00:29:18,799

just like some of the a lot of the other

893

00:29:25,750 --> 00:29:24,310

what was that it was basically a

894

00:29:26,870 --> 00:29:25,760

document that she had pictures that

895

00:29:28,549 --> 00:29:26,880

talked about different

896

00:29:29,909 --> 00:29:28,559

uh things that were being manufactured

897

00:29:31,110 --> 00:29:29,919

at plant 42 that's why i kept going to

898

00:29:32,950 --> 00:29:31,120

plant 42. i kept one

899

00:29:35,430 --> 00:29:32,960

wanting to catch image of this flying

900

00:29:36,070 --> 00:29:35,440

out of building 600 601 or whichever the

901
00:29:37,830 --> 00:29:36,080
main

902
00:29:39,590 --> 00:29:37,840
factory building is that's what i wanted

903
00:29:42,950 --> 00:29:39,600
to do

904
00:29:44,789 --> 00:29:42,960
but an individual that i won't say which

905
00:29:48,549 --> 00:29:44,799
company he works for

906
00:29:51,669 --> 00:29:48,559
but uh was feeding me that um

907
00:29:53,590 --> 00:29:51,679
and uh comes

908
00:29:54,710 --> 00:29:53,600
it's hard to say because we're going to

909
00:29:55,990 --> 00:29:54,720
get it we're going to get into that

910
00:29:59,430 --> 00:29:56,000
spoofing area

911
00:30:01,029 --> 00:29:59,440
really fast if we stay on this path okay

912
00:30:03,269 --> 00:30:01,039
there are physical objects that are

913
00:30:06,310 --> 00:30:03,279

being made but if this is this

914

00:30:08,310 --> 00:30:06,320

this person intentionally deceived you

915

00:30:09,830 --> 00:30:08,320

i don't think they did i think he was so

916

00:30:10,789 --> 00:30:09,840

compartmentalized and he was so

917

00:30:13,029 --> 00:30:10,799

believing in

918

00:30:14,310 --> 00:30:13,039

what the what he thought the object was

919

00:30:15,669 --> 00:30:14,320

going to do as well

920

00:30:17,750 --> 00:30:15,679

uh that he thought it was doing

921

00:30:20,789 --> 00:30:17,760

something different so

922

00:30:22,710 --> 00:30:20,799

when i kept pressing him for his uh

923

00:30:24,789 --> 00:30:22,720

status as to what he did there that's

924

00:30:28,230 --> 00:30:24,799

when he came clean and told me what uh

925

00:30:31,190 --> 00:30:28,240

what what they actually are um and

926
00:30:32,149 --> 00:30:31,200
this goes from plant 42 plant 44

927
00:30:35,110 --> 00:30:32,159
mckinney texas

928
00:30:36,149 --> 00:30:35,120
it goes it goes all over all over the

929
00:30:39,750 --> 00:30:36,159
map as far as how this

930
00:30:41,350 --> 00:30:39,760
how this works now then let me cover

931
00:30:43,269 --> 00:30:41,360
two last things about what you had to

932
00:30:46,310 --> 00:30:43,279
say then and then we'll get to what

933
00:30:49,350 --> 00:30:46,320
you have to see now um you talked

934
00:30:51,990 --> 00:30:49,360
specifically about teresa

935
00:30:54,630 --> 00:30:52,000
and there being 16 people that were

936
00:30:58,630 --> 00:30:54,640
going to disseminate this information

937
00:31:01,110 --> 00:30:58,640
about the what the tic tac actually

938
00:31:02,630 --> 00:31:01,120

is right um and you're one of the people

939

00:31:04,310 --> 00:31:02,640

that was to come forward

940

00:31:05,909 --> 00:31:04,320

and then you expected the others to also

941

00:31:08,230 --> 00:31:05,919

come forward and

942

00:31:09,430 --> 00:31:08,240

they ultimately did not one person in

943

00:31:11,590 --> 00:31:09,440

particular

944

00:31:13,269 --> 00:31:11,600

you kind of said uh was supposed to come

945

00:31:16,389 --> 00:31:13,279

forward with this information

946

00:31:17,430 --> 00:31:16,399

and did not so did i tell you this on

947

00:31:19,750 --> 00:31:17,440

the show because i don't remember

948

00:31:21,029 --> 00:31:19,760

did i mention teresa on the show yeah

949

00:31:23,990 --> 00:31:21,039

okay um

950

00:31:24,630 --> 00:31:24,000

but serious teresa is a real person um

951
00:31:28,470 --> 00:31:24,640
and

952
00:31:30,870 --> 00:31:28,480
there's a group of people that are from

953
00:31:31,590 --> 00:31:30,880
an area that i worked in and all of us

954
00:31:33,269 --> 00:31:31,600
kind of like

955
00:31:34,549 --> 00:31:33,279
chitchat and goof goof around with each

956
00:31:35,990 --> 00:31:34,559
other we have a little email thing we do

957
00:31:39,269 --> 00:31:36,000
back and forth kind of like the

958
00:31:40,149 --> 00:31:39,279
the one that you see um but foddy's

959
00:31:41,990 --> 00:31:40,159
email chain

960
00:31:43,909 --> 00:31:42,000
yeah that one um it's kind of like that

961
00:31:45,590 --> 00:31:43,919
but but we're you know it's all

962
00:31:47,669 --> 00:31:45,600
you know us just bullshitting back and

963
00:31:51,830 --> 00:31:47,679

forth with each other um

964

00:31:57,269 --> 00:31:54,950

we got a wild dog back there

965

00:31:58,389 --> 00:31:57,279

hold on one second let me no problem

966

00:32:01,509 --> 00:31:58,399

take one break

967

00:32:04,710 --> 00:32:01,519

um okay teresa in in the email

968

00:32:06,549 --> 00:32:04,720

thread or that that that is so

969

00:32:08,230 --> 00:32:06,559

irrelevant to everything that it's

970

00:32:09,990 --> 00:32:08,240

really not even important um

971

00:32:11,430 --> 00:32:10,000

that is well but it was a good part of

972

00:32:12,630 --> 00:32:11,440

your story and again i'm trying to

973

00:32:15,029 --> 00:32:12,640

discern between

974

00:32:15,909 --> 00:32:15,039

parts of the the story where well they

975

00:32:18,389 --> 00:32:15,919

were your belief

976

00:32:20,230 --> 00:32:18,399

yeah on the teresa thing and that she

977

00:32:22,230 --> 00:32:20,240

she used to be the coordinator

978

00:32:23,269 --> 00:32:22,240

uh for the organization i used to work

979

00:32:26,310 --> 00:32:23,279

with that would get

980

00:32:27,509 --> 00:32:26,320

everybody where they needed to go i may

981

00:32:27,990 --> 00:32:27,519

have mentioned this to you that that was

982

00:32:30,389 --> 00:32:28,000

her job

983

00:32:31,909 --> 00:32:30,399

it was basically like dispatch slash uh

984

00:32:34,389 --> 00:32:31,919

coordinator slash whatever

985

00:32:35,509 --> 00:32:34,399

and so all of us would rally around her

986

00:32:37,750 --> 00:32:35,519

whenever

987

00:32:39,509 --> 00:32:37,760

she would you know announce that we had

988

00:32:41,990 --> 00:32:39,519

a job to do or what have you so

989

00:32:43,269 --> 00:32:42,000

you know we'd have a four-man group go

990

00:32:45,029 --> 00:32:43,279

or six man or whatever

991

00:32:46,789 --> 00:32:45,039

um and she was the person that put all

992

00:32:50,070 --> 00:32:46,799

that together so that's that's all

993

00:32:53,430 --> 00:32:50,080

that is so gotcha so you kind of

994

00:32:57,590 --> 00:32:53,440

morph that into the story and yeah

995

00:33:00,310 --> 00:32:57,600

uh yes is part of the the fabricated

996

00:33:01,990 --> 00:33:00,320

social experiment part of the story well

997

00:33:03,590 --> 00:33:02,000

they are real people but i just

998

00:33:04,549 --> 00:33:03,600

fabricated that part into the story yes

999

00:33:07,430 --> 00:33:04,559

correct yeah

1000

00:33:08,149 --> 00:33:07,440

and then uh what about you you also gave

1001
00:33:10,310 --> 00:33:08,159
some background

1002
00:33:11,669 --> 00:33:10,320
history as to how this thing was

1003
00:33:14,549 --> 00:33:11,679
developed emanating from

1004
00:33:15,750 --> 00:33:14,559
star wars and coming from universities

1005
00:33:17,669 --> 00:33:15,760
dundee university

1006
00:33:18,789 --> 00:33:17,679
yeah yeah jack got a kick out of that

1007
00:33:20,950 --> 00:33:18,799
one um

1008
00:33:23,029 --> 00:33:20,960
that was all just kind of woven and

1009
00:33:24,870 --> 00:33:23,039
fabricated into that was all

1010
00:33:26,389 --> 00:33:24,880
to give us the anti-gravity because if

1011
00:33:26,710 --> 00:33:26,399
you go look for anti-gravity and you

1012
00:33:28,710 --> 00:33:26,720
look

1013
00:33:30,149 --> 00:33:28,720

at something that's fairly silly but

1014

00:33:33,350 --> 00:33:30,159

somewhat

1015

00:33:36,470 --> 00:33:33,360

was the most workable part was he had um

1016

00:33:39,269 --> 00:33:36,480

kid i think his last name was kid and he

1017

00:33:41,990 --> 00:33:39,279

had come up with a a way of

1018

00:33:43,430 --> 00:33:42,000

you know reducing the inertia or the

1019

00:33:43,990 --> 00:33:43,440

mass of another you're not reducing the

1020

00:33:45,990 --> 00:33:44,000

mass but

1021

00:33:47,909 --> 00:33:46,000

just basically the the weight of an

1022

00:33:49,990 --> 00:33:47,919

object um

1023

00:33:51,830 --> 00:33:50,000

and he was able to apparently do it by

1024

00:33:53,029 --> 00:33:51,840

like 0.2 or something like this but no

1025

00:33:53,990 --> 00:33:53,039

one has ever been able to actually

1026

00:33:55,590 --> 00:33:54,000

duplicate it

1027

00:33:57,269 --> 00:33:55,600

uh but some other experiments that they

1028

00:33:58,870 --> 00:33:57,279

did in dundee university i wanted to

1029

00:34:00,789 --> 00:33:58,880

have it outside the united states

1030

00:34:02,389 --> 00:34:00,799

um that way it'd be harder to check on

1031

00:34:05,350 --> 00:34:02,399

or what have you but but um

1032

00:34:06,789 --> 00:34:05,360

but i think sandy kid is his name um i

1033

00:34:09,030 --> 00:34:06,799

believe that's his name

1034

00:34:11,430 --> 00:34:09,040

but no that's all you know you keep in

1035

00:34:13,430 --> 00:34:11,440

mind that all of the research done

1036

00:34:15,349 --> 00:34:13,440

to lead towards where we're eventually

1037

00:34:15,909 --> 00:34:15,359

will have anti-gravity which effectively

1038

00:34:19,270 --> 00:34:15,919

we can

1039

00:34:20,389 --> 00:34:19,280

probably do you know within a reasonable

1040

00:34:23,990 --> 00:34:20,399

amount of time

1041

00:34:25,430 --> 00:34:24,000

um is based on

1042

00:34:27,270 --> 00:34:25,440

all of the research done by all the

1043

00:34:28,389 --> 00:34:27,280

people before you know just like you

1044

00:34:30,470 --> 00:34:28,399

you know we're not no one's going to get

1045

00:34:33,510 --> 00:34:30,480

anywhere without da vinci or without

1046

00:34:33,990 --> 00:34:33,520

you know uh edison without tesla you

1047

00:34:35,589 --> 00:34:34,000

know all

1048

00:34:37,349 --> 00:34:35,599

the things they've done to get us to the

1049

00:34:38,950 --> 00:34:37,359

point where so you have to look back and

1050

00:34:40,470 --> 00:34:38,960

that's easy another cool little fact

1051
00:34:42,629 --> 00:34:40,480
that you kind of sprinkled in was that

1052
00:34:46,470 --> 00:34:42,639
the tic tacs were actually transported

1053
00:34:49,589 --> 00:34:46,480
via large trucks

1054
00:34:53,109 --> 00:34:49,599
from plant 42 to vanderberg

1055
00:34:54,710 --> 00:34:53,119
yeah that was also just a fabrication to

1056
00:34:57,030 --> 00:34:54,720
embellish the story a bit and make it

1057
00:34:59,349 --> 00:34:57,040
seem more believable

1058
00:35:01,190 --> 00:34:59,359
yes but the i mean they're still

1059
00:35:02,790 --> 00:35:01,200
transported by truck but they're

1060
00:35:04,390 --> 00:35:02,800
they're not transported in the manner

1061
00:35:06,470 --> 00:35:04,400
that i basically discussed that

1062
00:35:08,390 --> 00:35:06,480
so yeah all of that was all part of a

1063
00:35:10,710 --> 00:35:08,400

big so so if you take the

1064

00:35:12,230 --> 00:35:10,720

the anything that had to do with a

1065

00:35:14,710 --> 00:35:12,240

physical tic tac

1066

00:35:16,550 --> 00:35:14,720

a physical object that part of the story

1067

00:35:19,109 --> 00:35:16,560

complete fabrication

1068

00:35:20,790 --> 00:35:19,119

okay or based on information that was

1069

00:35:21,430 --> 00:35:20,800

told to me by another person but either

1070

00:35:23,750 --> 00:35:21,440

way

1071

00:35:25,349 --> 00:35:23,760

we can i'll just take it all myself that

1072

00:35:27,670 --> 00:35:25,359

it's just totally hogwash

1073

00:35:29,510 --> 00:35:27,680

okay now so i'll leave it up to the

1074

00:35:30,630 --> 00:35:29,520

listeners and viewers as to whether or

1075

00:35:32,710 --> 00:35:30,640

not they would like to

1076

00:35:33,670 --> 00:35:32,720

uh oh they should watch it continue

1077

00:35:35,190 --> 00:35:33,680

watching because

1078

00:35:38,150 --> 00:35:35,200

now we're going to go into what turbo

1079

00:35:40,230 --> 00:35:38,160

has to say now right after he's admitted

1080

00:35:42,150 --> 00:35:40,240

that all the stuff that he said before

1081

00:35:43,270 --> 00:35:42,160

was hogwash so yeah well now someone's

1082

00:35:43,990 --> 00:35:43,280

gonna have to make the make their own

1083

00:35:46,230 --> 00:35:44,000

determination

1084

00:35:47,510 --> 00:35:46,240

whether or not uh anything is to be

1085

00:35:49,510 --> 00:35:47,520

believed going forward

1086

00:35:52,150 --> 00:35:49,520

and and i agree wholeheartedly and for

1087

00:35:55,990 --> 00:35:52,160

me at this point with what i've

1088

00:35:57,349 --> 00:35:56,000

basically found out is that i

1089

00:36:00,069 --> 00:35:57,359

the information that i had at the time

1090

00:36:03,510 --> 00:36:00,079

that i did your show uh

1091

00:36:05,270 --> 00:36:03,520

was still positive but meaning

1092

00:36:07,030 --> 00:36:05,280

it's u.s technology we're not dealing

1093

00:36:09,589 --> 00:36:07,040

with china we're not dealing with russia

1094

00:36:11,589 --> 00:36:09,599

there's reasons and there's proofs that

1095

00:36:12,150 --> 00:36:11,599

anyone could see and go yeah that makes

1096

00:36:14,630 --> 00:36:12,160

sense

1097

00:36:15,910 --> 00:36:14,640

remember my story took all of this to

1098

00:36:16,630 --> 00:36:15,920

put it together so the parts of the

1099

00:36:20,310 --> 00:36:16,640

story that are

1100

00:36:22,150 --> 00:36:20,320

factual um are still factual

1101
00:36:23,510 --> 00:36:22,160
um and also an explanation of things i

1102
00:36:25,349 --> 00:36:23,520
found out subsequently like

1103
00:36:27,349 --> 00:36:25,359
the people that ended up showing up at

1104
00:36:29,190 --> 00:36:27,359
the nimitz event there was four not two

1105
00:36:30,790 --> 00:36:29,200
it's four people that showed up not two

1106
00:36:32,470 --> 00:36:30,800
um that took the data bricks and all

1107
00:36:33,349 --> 00:36:32,480
that stuff that pj was so mad at me

1108
00:36:37,109 --> 00:36:33,359
about

1109
00:36:37,910 --> 00:36:37,119
the new information for those who are

1110
00:36:41,109 --> 00:36:37,920
still uh

1111
00:36:43,910 --> 00:36:41,119
tuned in um i want to start with

1112
00:36:45,589 --> 00:36:43,920
the video that you just released on 5x5

1113
00:36:48,790 --> 00:36:45,599

news on youtube

1114

00:36:49,030 --> 00:36:48,800

um where you talk about the uh is it the

1115

00:36:55,109 --> 00:36:49,040

go

1116

00:36:55,829 --> 00:36:55,119

event on the east coast from 20 what

1117

00:36:58,230 --> 00:36:55,839

year

1118

00:36:58,950 --> 00:36:58,240

uh 20 yeah the end of 2014 beginning of

1119

00:37:01,990 --> 00:36:58,960

2015

1120

00:37:04,230 --> 00:37:02,000

roosevelt okay and you lay out

1121

00:37:05,510 --> 00:37:04,240

and as you point out in the video a guy

1122

00:37:08,950 --> 00:37:05,520

even before you mick

1123

00:37:09,829 --> 00:37:08,960

west is his name right yeah mcquest is

1124

00:37:11,510 --> 00:37:09,839

done

1125

00:37:13,430 --> 00:37:11,520

he's kind of a famous debunker right

1126
00:37:16,790 --> 00:37:13,440
correct correct he

1127
00:37:19,910 --> 00:37:16,800
um debunked that video

1128
00:37:21,829 --> 00:37:19,920
and essentially uh said that

1129
00:37:23,109 --> 00:37:21,839
just based on the information on the

1130
00:37:23,589 --> 00:37:23,119
screen and you point out the same thing

1131
00:37:25,910 --> 00:37:23,599
in your

1132
00:37:27,750 --> 00:37:25,920
video that if you do the calculations

1133
00:37:29,190 --> 00:37:27,760
it's not true that the object was flying

1134
00:37:30,550 --> 00:37:29,200
close to the water it was flying at

1135
00:37:32,310 --> 00:37:30,560
about 13 000 feet

1136
00:37:34,310 --> 00:37:32,320
and it's not true that it was going

1137
00:37:36,069 --> 00:37:34,320
close to the speed of sound it actually

1138
00:37:37,349 --> 00:37:36,079

was going only 40 miles an hour which

1139

00:37:38,870 --> 00:37:37,359

just happens to be the speed of

1140

00:37:41,349 --> 00:37:38,880

approximately the wind

1141

00:37:41,990 --> 00:37:41,359

and the size of it was more like a meter

1142

00:37:46,710 --> 00:37:42,000

and not

1143

00:37:49,750 --> 00:37:46,720

uh 40 meters and uh or 40 feet

1144

00:37:51,430 --> 00:37:49,760

and um and most likely therefore it's

1145

00:37:53,510 --> 00:37:51,440

simply a balloon

1146

00:37:54,870 --> 00:37:53,520

and that is that is now your belief

1147

00:37:58,069 --> 00:37:54,880

correct uh

1148

00:38:00,069 --> 00:37:58,079

yes okay and there there's there's the

1149

00:38:01,670 --> 00:38:00,079

the extra information to go along with

1150

00:38:03,670 --> 00:38:01,680

that um

1151
00:38:05,670 --> 00:38:03,680
obviously everything you said is is true

1152
00:38:07,829 --> 00:38:05,680
the the

1153
00:38:09,030 --> 00:38:07,839
the problem that i have with it is that

1154
00:38:11,030 --> 00:38:09,040
if the information

1155
00:38:12,069 --> 00:38:11,040
in the video itself is enough

1156
00:38:15,030 --> 00:38:12,079
information

1157
00:38:15,750 --> 00:38:15,040
to debunk the video then how in the

1158
00:38:18,069 --> 00:38:15,760
world

1159
00:38:19,190 --> 00:38:18,079
did an organization like ttsa to the

1160
00:38:21,589 --> 00:38:19,200
stars academy

1161
00:38:22,870 --> 00:38:21,599
have these experts come on board and all

1162
00:38:25,349 --> 00:38:22,880
this and

1163
00:38:26,630 --> 00:38:25,359

still repeat the same story even after

1164

00:38:29,670 --> 00:38:26,640

they were told

1165

00:38:33,510 --> 00:38:29,680

that of the three videos this one is

1166

00:38:35,349 --> 00:38:33,520

a hundred percent debunked on face value

1167

00:38:37,109 --> 00:38:35,359

how did it slip through their cracks who

1168

00:38:39,270 --> 00:38:37,119

are these experts that they hired

1169

00:38:40,790 --> 00:38:39,280

that could not figure this out and then

1170

00:38:42,390 --> 00:38:40,800

it was argued with myself

1171

00:38:44,630 --> 00:38:42,400

with as you as you're aware of because

1172

00:38:47,190 --> 00:38:44,640

you saw the emails with uh eric

1173

00:38:48,630 --> 00:38:47,200

eric bates oh i said air bags uh with

1174

00:38:52,550 --> 00:38:48,640

eric davis

1175

00:38:55,030 --> 00:38:52,560

that um that mike turbers uh you know

1176
00:38:55,829 --> 00:38:55,040
krueger dunning whatever issue that he

1177
00:38:58,310 --> 00:38:55,839
claims i have

1178
00:38:59,990 --> 00:38:58,320
and turbo can't do math and turbo's this

1179
00:39:01,990 --> 00:39:00,000
and he all these different things and

1180
00:39:04,950 --> 00:39:02,000
i'm thinking okay well

1181
00:39:05,430 --> 00:39:04,960
you don't know by the way i had to look

1182
00:39:07,349 --> 00:39:05,440
that up

1183
00:39:09,430 --> 00:39:07,359
by the way you maybe you you knew what

1184
00:39:12,230 --> 00:39:09,440
that was krueger dunning it's called

1185
00:39:14,069 --> 00:39:12,240
right yeah yeah apparently it's it's

1186
00:39:14,870 --> 00:39:14,079
people that are too dumb to realize how

1187
00:39:16,230 --> 00:39:14,880
dumb they are

1188
00:39:17,670 --> 00:39:16,240

yes people that you've done they realize

1189

00:39:18,950 --> 00:39:17,680

how dumb they are or people that are

1190

00:39:22,630 --> 00:39:18,960

really stupid

1191

00:39:23,990 --> 00:39:22,640

and believe or exaggerate on their

1192

00:39:25,430 --> 00:39:24,000

abilities that they can do things that

1193

00:39:27,190 --> 00:39:25,440

they actually can't

1194

00:39:28,790 --> 00:39:27,200

which i find amusing because every

1195

00:39:30,310 --> 00:39:28,800

you've seen all the stuff that

1196

00:39:32,069 --> 00:39:30,320

i do i just i prove it to you except for

1197

00:39:33,670 --> 00:39:32,079

the tic-tac-toe yeah

1198

00:39:35,670 --> 00:39:33,680

now but but but let me make sure because

1199

00:39:38,150 --> 00:39:35,680

there's three different um

1200

00:39:38,950 --> 00:39:38,160

videos or for three different incidents

1201
00:39:41,750 --> 00:39:38,960
nimitz

1202
00:39:42,230 --> 00:39:41,760
yeah and then roosevelt well two

1203
00:39:45,030 --> 00:39:42,240
incidents

1204
00:39:45,910 --> 00:39:45,040
nimitz and roosevelt okay okay there's

1205
00:39:47,750 --> 00:39:45,920
three videos

1206
00:39:49,190 --> 00:39:47,760
the flear one video which is the title

1207
00:39:51,349 --> 00:39:49,200
of the video is the tic tac video

1208
00:39:52,230 --> 00:39:51,359
from the nimitz which is actually filmed

1209
00:39:53,990 --> 00:39:52,240
by chad

1210
00:39:55,910 --> 00:39:54,000
underwood not fragrant which a lot of

1211
00:39:57,270 --> 00:39:55,920
people think but um but fravor is the

1212
00:39:57,910 --> 00:39:57,280
one that chased the tic tac but he

1213
00:40:00,310 --> 00:39:57,920

didn't have

1214

00:40:02,230 --> 00:40:00,320

any ability to film it the other two

1215

00:40:03,109 --> 00:40:02,240

videos you have go fast and you have

1216

00:40:06,390 --> 00:40:03,119

gimbal

1217

00:40:07,750 --> 00:40:06,400

those two videos were filmed uh in 2014

1218

00:40:10,230 --> 00:40:07,760

2015

1219

00:40:12,069 --> 00:40:10,240

um you know two different times and

1220

00:40:14,470 --> 00:40:12,079

which is the video where you hear the

1221

00:40:16,630 --> 00:40:14,480

pilots going holy [h__h] can you

1222

00:40:18,230 --> 00:40:16,640

believe what you read the song let's go

1223

00:40:21,109 --> 00:40:18,240

fast and they actually take that

1224

00:40:22,309 --> 00:40:21,119

that audio and they play not not tsa but

1225

00:40:24,550 --> 00:40:22,319

some people have taken that

1226

00:40:26,069 --> 00:40:24,560

and because the audio is so salacious on

1227

00:40:27,349 --> 00:40:26,079

that one video that they put it on top

1228

00:40:29,030 --> 00:40:27,359

of the other videos

1229

00:40:30,950 --> 00:40:29,040

to make it sound like those videos are

1230

00:40:34,230 --> 00:40:30,960

more exciting than they actually are

1231

00:40:38,069 --> 00:40:34,240

but if that video is

1232

00:40:39,510 --> 00:40:38,079

sorry that audio is from the go fest

1233

00:40:41,270 --> 00:40:39,520

the video of the go fast what you're

1234

00:40:42,069 --> 00:40:41,280

saying actually is simply a weather

1235

00:40:43,670 --> 00:40:42,079

balloon

1236

00:40:46,390 --> 00:40:43,680

what's the explanation for why these

1237

00:40:49,190 --> 00:40:46,400

pilots were yelling and screaming

1238

00:40:50,870 --> 00:40:49,200

the well if you keep keep in mind you're

1239

00:40:52,950 --> 00:40:50,880

only seeing i think it's a minute and

1240

00:40:54,710 --> 00:40:52,960

37 seconds a minute and 17 seconds of

1241

00:40:56,630 --> 00:40:54,720

video so you're not seeing what happened

1242

00:40:58,150 --> 00:40:56,640

before that you're not seeing what

1243

00:41:01,109 --> 00:40:58,160

happened after that

1244

00:41:01,910 --> 00:41:01,119

um so without being privy to that and

1245

00:41:04,950 --> 00:41:01,920

i'm not going to

1246

00:41:06,630 --> 00:41:04,960

say that i have pre i have privy to that

1247

00:41:08,790 --> 00:41:06,640

but we'll just stick with just the video

1248

00:41:11,990 --> 00:41:08,800

itself so you hear him say whoa

1249

00:41:13,670 --> 00:41:12,000

got him did you box a moving target

1250

00:41:15,829 --> 00:41:13,680

and i got him with you know whatever so

1251

00:41:17,829 --> 00:41:15,839

he's what he's done is

1252

00:41:19,430 --> 00:41:17,839

they feel that target's moving and the

1253

00:41:21,190 --> 00:41:19,440

target was so small

1254

00:41:22,790 --> 00:41:21,200

they thought it was just far away but

1255

00:41:24,390 --> 00:41:22,800

the target's relatively small is going

1256

00:41:25,190 --> 00:41:24,400

to be hard to box so he boxed the moving

1257

00:41:27,190 --> 00:41:25,200

target

1258

00:41:28,390 --> 00:41:27,200

and uh but they were the ones

1259

00:41:31,349 --> 00:41:28,400

effectively

1260

00:41:33,270 --> 00:41:31,359

doing more of the moving so if if i took

1261

00:41:34,069 --> 00:41:33,280

this camera here and started rotating it

1262

00:41:36,390 --> 00:41:34,079

around my

1263

00:41:38,230 --> 00:41:36,400

finger this back object everything would

1264

00:41:39,109 --> 00:41:38,240

look like it's moving really fast

1265

00:41:41,270 --> 00:41:39,119

and that's all you're doing you're

1266

00:41:43,910 --> 00:41:41,280

having a slow moving object move through

1267

00:41:45,670 --> 00:41:43,920

space and you're having an object that's

1268

00:41:47,349 --> 00:41:45,680

moving at two i think it's 250 knots is

1269

00:41:49,030 --> 00:41:47,359

what the the plane was moving at

1270

00:41:50,870 --> 00:41:49,040

moving a different direction and through

1271

00:41:51,430 --> 00:41:50,880

parallax effect you're essentially

1272

00:41:53,589 --> 00:41:51,440

seeing

1273

00:41:55,030 --> 00:41:53,599

what appears to be an object close in to

1274

00:41:58,309 --> 00:41:55,040

the surface of the water

1275

00:41:59,030 --> 00:41:58,319

and moving fast in fact tsa's guys the

1276

00:42:01,670 --> 00:41:59,040

experts

1277

00:42:02,470 --> 00:42:01,680

had a term for how fast the object was

1278

00:42:04,710 --> 00:42:02,480

going

1279

00:42:07,349 --> 00:42:04,720

and i believe they use the term hauling

1280

00:42:08,550 --> 00:42:07,359

ass which directly translates into a

1281

00:42:10,710 --> 00:42:08,560

scientific term

1282

00:42:11,670 --> 00:42:10,720

uh for hauling ass is two-thirds the

1283

00:42:13,910 --> 00:42:11,680

speed of sound

1284

00:42:15,109 --> 00:42:13,920

so you have like you have ludicrous

1285

00:42:16,870 --> 00:42:15,119

speed

1286

00:42:18,230 --> 00:42:16,880

and now we have hauling ass is

1287

00:42:20,069 --> 00:42:18,240

two-thirds of the speed of sound so we

1288

00:42:21,910 --> 00:42:20,079

can now put that in the books

1289

00:42:23,430 --> 00:42:21,920

but that was where they left it they had

1290

00:42:25,829 --> 00:42:23,440

these two experts come on the show

1291

00:42:27,589 --> 00:42:25,839

on the unidentified show both of them

1292

00:42:28,950 --> 00:42:27,599

around 20-25 years of experience one

1293

00:42:29,670 --> 00:42:28,960

commercial pilot the other military

1294

00:42:32,950 --> 00:42:29,680

pilot

1295

00:42:34,710 --> 00:42:32,960

and one says it's hauling ass

1296

00:42:36,630 --> 00:42:34,720

the other says it's two thirds of speed

1297

00:42:38,790 --> 00:42:36,640

of sound um and they're saying that it's

1298

00:42:41,990 --> 00:42:38,800

close to the surface of the water

1299

00:42:43,589 --> 00:42:42,000

the problem is is that especially the

1300

00:42:45,430 --> 00:42:43,599

military pilot if he ever used

1301

00:42:46,710 --> 00:42:45,440

flare now keep in mind app flier is not

1302

00:42:49,030 --> 00:42:46,720

used on all planes

1303

00:42:51,030 --> 00:42:49,040

it's only used pretty much on the f18 so

1304

00:42:53,829 --> 00:42:51,040

if he didn't fly f18s

1305

00:42:55,349 --> 00:42:53,839

he wouldn't know you know what some of

1306

00:42:56,950 --> 00:42:55,359

that data would be on the screen but he

1307

00:42:59,349 --> 00:42:56,960

could probably figure it out

1308

00:43:01,430 --> 00:42:59,359

if an object's if we know the distance

1309

00:43:03,990 --> 00:43:01,440

that an object like this is a camera

1310

00:43:05,750 --> 00:43:04,000

if we know the distance the object is

1311

00:43:08,950 --> 00:43:05,760

and the angle that the object is

1312

00:43:09,829 --> 00:43:08,960

from that source then we could basically

1313

00:43:11,990 --> 00:43:09,839

figure out

1314

00:43:13,750 --> 00:43:12,000

by figuring out the angle and

1315

00:43:15,670 --> 00:43:13,760

the triangle

1316

00:43:17,670 --> 00:43:15,680

measure the sides now you know how far

1317

00:43:19,589 --> 00:43:17,680

away it is and you know

1318

00:43:21,670 --> 00:43:19,599

the altitude it is above the surface of

1319

00:43:22,470 --> 00:43:21,680

the water so that's why i did the video

1320

00:43:25,109 --> 00:43:22,480

that you saw

1321

00:43:26,470 --> 00:43:25,119

i didn't use any calculator i didn't use

1322

00:43:29,190 --> 00:43:26,480

anything at all

1323

00:43:29,910 --> 00:43:29,200

and you're able to determine this

1324

00:43:33,030 --> 00:43:29,920

altitude

1325

00:43:34,309 --> 00:43:33,040

of the object just by a few pieces of

1326

00:43:35,829 --> 00:43:34,319

information if you know the plane's at

1327

00:43:37,829 --> 00:43:35,839

25 000 feet

1328

00:43:39,190 --> 00:43:37,839

you know the object sits 4.4 nautical

1329

00:43:42,390 --> 00:43:39,200

miles when it was first boxed

1330

00:43:44,630 --> 00:43:42,400

that's 26 735 feet and you go

1331

00:43:45,990 --> 00:43:44,640

down that angle which i could you could

1332

00:43:49,670 --> 00:43:46,000

show graphics whatever

1333

00:43:51,670 --> 00:43:49,680

um that's 11 720 feet below the

1334

00:43:53,510 --> 00:43:51,680

the flying craft if they fly if the f-18

1335

00:43:55,430 --> 00:43:53,520

is 25 000 feet

1336

00:43:57,349 --> 00:43:55,440

it's that means the craft is at 13 000

1337

00:43:59,510 --> 00:43:57,359

feet that's nowhere near low

1338

00:44:01,109 --> 00:43:59,520

and close to the surface of the ocean so

1339

00:44:03,109 --> 00:44:01,119

so if this thing

1340

00:44:04,550 --> 00:44:03,119

turned out turns out to simply be a

1341

00:44:06,309 --> 00:44:04,560

weather balloon

1342

00:44:07,829 --> 00:44:06,319

what would be the explanation for why

1343

00:44:09,510 --> 00:44:07,839

the pilots didn't understand i mean

1344

00:44:10,470 --> 00:44:09,520

these guys aren't idiots i mean they fly

1345

00:44:12,309 --> 00:44:10,480

by stuff

1346

00:44:14,309 --> 00:44:12,319

that's you know i'm sure they've flown

1347

00:44:17,270 --> 00:44:14,319

by weather balloons probably before but

1348

00:44:18,950 --> 00:44:17,280

i mean how how how could you just what

1349

00:44:22,150 --> 00:44:18,960

is the violence being tricked yeah what

1350

00:44:24,230 --> 00:44:22,160

did what did the pilot say that it was

1351

00:44:25,349 --> 00:44:24,240

they remember they they just i i don't

1352

00:44:28,390 --> 00:44:25,359

recall it was just that

1353

00:44:29,109 --> 00:44:28,400

they never did they expressed shock and

1354

00:44:32,309 --> 00:44:29,119

surprise

1355

00:44:32,630 --> 00:44:32,319

and like whoa holy [\h__\h] kind of response

1356

00:44:34,630 --> 00:44:32,640

so

1357

00:44:36,309 --> 00:44:34,640

right and then that's two guys flying

1358

00:44:37,589 --> 00:44:36,319

along they see something moving over the

1359

00:44:39,829 --> 00:44:37,599

water that they they feel

1360

00:44:41,589 --> 00:44:39,839

and they they box it and they were

1361

00:44:43,430 --> 00:44:41,599

excited to to box it

1362

00:44:45,510 --> 00:44:43,440

but they never say whoa we just boxed

1363

00:44:47,190 --> 00:44:45,520

the ufo well we need to get permission

1364

00:44:48,710 --> 00:44:47,200

to go chase this thing well they clearly

1365

00:44:50,550 --> 00:44:48,720

thought it was they clearly thought it

1366

00:44:51,349 --> 00:44:50,560

was a ufo because they were acting so

1367

00:44:53,109 --> 00:44:51,359

surprised if they

1368

00:44:54,710 --> 00:44:53,119

they wouldn't say oh my god look at that

1369

00:44:55,990 --> 00:44:54,720

weather balloon

1370

00:44:57,750 --> 00:44:56,000

yeah well so they clearly didn't think

1371

00:44:59,270 --> 00:44:57,760

it was a weather balloon yeah

1372

00:45:00,870 --> 00:44:59,280

and i gotta think these guys have enough

1373

00:45:01,430 --> 00:45:00,880

experience and understanding that an

1374

00:45:03,270 --> 00:45:01,440

object

1375

00:45:05,030 --> 00:45:03,280

that's not moving will appear to be

1376

00:45:07,109 --> 00:45:05,040

moving right if you like

1377

00:45:08,630 --> 00:45:07,119

now you're interjecting thought into

1378

00:45:11,190 --> 00:45:08,640

this video the video does

1379

00:45:13,750 --> 00:45:11,200

nothing that you say i'm just like i

1380

00:45:15,430 --> 00:45:13,760

thought into the pilot's head

1381

00:45:17,270 --> 00:45:15,440

explain why would the pilots have

1382

00:45:18,550 --> 00:45:17,280

reacted as they did

1383

00:45:20,550 --> 00:45:18,560

if this thing was simply a weather

1384

00:45:22,309 --> 00:45:20,560

balloon who knows but the

1385

00:45:24,150 --> 00:45:22,319

the thing is is that these pilots if

1386

00:45:25,910 --> 00:45:24,160

they whenever they come forward

1387

00:45:26,870 --> 00:45:25,920

they they would they would first off

1388

00:45:28,230 --> 00:45:26,880

they're going to know that the

1389

00:45:28,710 --> 00:45:28,240

information supplied to them on that

1390

00:45:31,030 --> 00:45:28,720

floor

1391

00:45:32,630 --> 00:45:31,040

they didn't say hey we boxed a moving

1392

00:45:34,870 --> 00:45:32,640

target hauling ass

1393

00:45:37,030 --> 00:45:34,880

near the ocean's surface that

1394

00:45:38,470 --> 00:45:37,040

information was given to us by tsa

1395

00:45:41,510 --> 00:45:38,480

the department of defense never said

1396

00:45:43,670 --> 00:45:41,520

that they didn't made that claim

1397

00:45:45,190 --> 00:45:43,680

defense has said that we don't know what

1398

00:45:48,870 --> 00:45:45,200

these things were that they

1399

00:45:49,750 --> 00:45:48,880

experienced some uap unidentified aerial

1400

00:45:51,829 --> 00:45:49,760

phenomenon

1401
00:45:53,349 --> 00:45:51,839
right and if they and if they never went

1402
00:45:53,670 --> 00:45:53,359
down and checked out that object that

1403
00:45:56,950 --> 00:45:53,680
was

1404
00:45:58,150 --> 00:45:56,960
of the speed of sound they still could

1405
00:46:00,069 --> 00:45:58,160
keep up with it

1406
00:46:01,589 --> 00:46:00,079
and they never did so so for all of

1407
00:46:05,270 --> 00:46:01,599
these smart people

1408
00:46:08,150 --> 00:46:05,280
that have looked at that video at tsa

1409
00:46:08,870 --> 00:46:08,160
department of defense yep interested

1410
00:46:11,990 --> 00:46:08,880
parties

1411
00:46:15,430 --> 00:46:12,000
yeah are we saying that mick west

1412
00:46:15,910 --> 00:46:15,440
and mike turber are the two people that

1413
00:46:17,990 --> 00:46:15,920

have

1414

00:46:19,349 --> 00:46:18,000

figured this out and no one else has

1415

00:46:20,550 --> 00:46:19,359

yeah and i even offered ten thousand

1416

00:46:22,790 --> 00:46:20,560

dollars to anybody that could prove

1417

00:46:24,470 --> 00:46:22,800

prove it wrong um and people came on the

1418

00:46:27,750 --> 00:46:24,480

show and no one to this date

1419

00:46:29,990 --> 00:46:27,760

has been able to do to do that even yeah

1420

00:46:31,109 --> 00:46:30,000

so let's okay so that's that one now

1421

00:46:33,510 --> 00:46:31,119

let's talk about

1422

00:46:34,870 --> 00:46:33,520

uh no let's hang on let's let's finish

1423

00:46:36,550 --> 00:46:34,880

with go fast real quick i want to be

1424

00:46:38,390 --> 00:46:36,560

real clear on go fast okay

1425

00:46:39,829 --> 00:46:38,400

the reason the reason why go fast is so

1426

00:46:42,630 --> 00:46:39,839

important of the three videos

1427

00:46:42,870 --> 00:46:42,640

is because it debunks itself the problem

1428

00:46:47,510 --> 00:46:42,880

is

1429

00:46:49,030 --> 00:46:47,520

pushed these videos out there and told

1430

00:46:50,150 --> 00:46:49,040

you what's in the video

1431

00:46:51,750 --> 00:46:50,160

they didn't just put it out there and

1432

00:46:53,270 --> 00:46:51,760

say okay you take a look at it and let's

1433

00:46:54,309 --> 00:46:53,280

all come together and see what we think

1434

00:46:55,990 --> 00:46:54,319

this is

1435

00:46:58,790 --> 00:46:56,000

no they put it out there and said that

1436

00:47:01,670 --> 00:46:58,800

this object is doing these things

1437

00:47:02,550 --> 00:47:01,680

it's not that's the problem you don't

1438

00:47:04,069 --> 00:47:02,560

have to be

1439

00:47:06,150 --> 00:47:04,079

you don't have to use trigonometry or

1440

00:47:07,670 --> 00:47:06,160

anything to figure out what this did the

1441

00:47:10,630 --> 00:47:07,680

amazing thing

1442

00:47:11,990 --> 00:47:10,640

is that this one video of the three okay

1443

00:47:15,030 --> 00:47:12,000

this one video

1444

00:47:15,510 --> 00:47:15,040

is clearly not what is what is purported

1445

00:47:17,750 --> 00:47:15,520

to be

1446

00:47:19,349 --> 00:47:17,760

the bigger question is when that

1447

00:47:21,670 --> 00:47:19,359

information was given to

1448

00:47:23,510 --> 00:47:21,680

to the stars academy that they did not

1449

00:47:23,990 --> 00:47:23,520

retract it in the scientific community

1450

00:47:25,990 --> 00:47:24,000

and we were

1451
00:47:28,150 --> 00:47:26,000
promised that tsa would look at these

1452
00:47:29,589 --> 00:47:28,160
things from a scientific perspective

1453
00:47:31,670 --> 00:47:29,599
so if you're going to going to do that

1454
00:47:32,630 --> 00:47:31,680
and someone says hey no it's it's not

1455
00:47:34,309 --> 00:47:32,640
doing that

1456
00:47:35,990 --> 00:47:34,319
or it's not at the altitude you said

1457
00:47:38,069 --> 00:47:36,000
which also means it's not the altitude

1458
00:47:39,670 --> 00:47:38,079
it's certainly not doing the same speed

1459
00:47:41,829 --> 00:47:39,680
and then come to find out it's doing the

1460
00:47:45,109 --> 00:47:41,839
same speed as a prevailing wind

1461
00:47:45,589 --> 00:47:45,119
then there's a problem but what happens

1462
00:47:47,190 --> 00:47:45,599
if i

1463
00:47:48,470 --> 00:47:47,200

like let's say you you tell me something

1464

00:47:49,910 --> 00:47:48,480

jim and you come up you do this

1465

00:47:51,270 --> 00:47:49,920

experiment whatever and you say hey

1466

00:47:53,109 --> 00:47:51,280

this is doing this and this and this and

1467

00:47:55,030 --> 00:47:53,119

then i prove to you that it's not doing

1468

00:47:58,950 --> 00:47:55,040

what you said it does

1469

00:48:00,790 --> 00:47:58,960

what do you do well just interject

1470

00:48:02,069 --> 00:48:00,800

i'm not going to say that you have

1471

00:48:04,470 --> 00:48:02,079

proven

1472

00:48:06,710 --> 00:48:04,480

that that's not that it's not that you

1473

00:48:07,430 --> 00:48:06,720

have you've presented an analysis and a

1474

00:48:09,109 --> 00:48:07,440

theory

1475

00:48:11,030 --> 00:48:09,119

right uh that actually mcquest

1476

00:48:12,630 --> 00:48:11,040

originally posited

1477

00:48:14,150 --> 00:48:12,640

based on his youtube video about a year

1478

00:48:16,950 --> 00:48:14,160

ago um and

1479

00:48:18,470 --> 00:48:16,960

it has yet to have been countered is

1480

00:48:20,230 --> 00:48:18,480

really what you're saying

1481

00:48:22,950 --> 00:48:20,240

and i'm i haven't done any digging to

1482

00:48:24,790 --> 00:48:22,960

see has tsa or any other experts

1483

00:48:27,270 --> 00:48:24,800

responded for instance to what nick west

1484

00:48:29,510 --> 00:48:27,280

put up a year ago in saying that

1485

00:48:31,109 --> 00:48:29,520

actually mick west you're wrong and

1486

00:48:33,430 --> 00:48:31,119

here's in what way you're wrong

1487

00:48:34,790 --> 00:48:33,440

no there's not there's nothing out there

1488

00:48:36,230 --> 00:48:34,800

that they have

1489

00:48:37,750 --> 00:48:36,240

that said they what they've done is

1490

00:48:39,510 --> 00:48:37,760

they've attacked the individual they've

1491

00:48:42,870 --> 00:48:39,520

attacked me they've attacked nick

1492

00:48:45,910 --> 00:48:42,880

they've they've basically stated that uh

1493

00:48:47,510 --> 00:48:45,920

our experts uh you know it's like our

1494

00:48:51,030 --> 00:48:47,520

kung fu is better than your kung fu

1495

00:48:52,470 --> 00:48:51,040

so to speak but the problem is is that

1496

00:48:54,470 --> 00:48:52,480

they can't show it if you're gonna

1497

00:48:56,470 --> 00:48:54,480

present something and you

1498

00:48:57,829 --> 00:48:56,480

and i'm always asked to present the data

1499

00:49:00,230 --> 00:48:57,839

with it so

1500

00:49:02,390 --> 00:49:00,240

the data is in the video it's this isn't

1501
00:49:04,470 --> 00:49:02,400
something that i have to go calculate

1502
00:49:05,910 --> 00:49:04,480
and figure out or whatever yeah well i

1503
00:49:08,870 --> 00:49:05,920
encourage people to watch

1504
00:49:09,430 --> 00:49:08,880
both your video and make west's video to

1505
00:49:11,109 --> 00:49:09,440
see

1506
00:49:12,230 --> 00:49:11,119
the calculation because it is as you

1507
00:49:13,109 --> 00:49:12,240
point out a very straightforward

1508
00:49:15,430 --> 00:49:13,119
calculation

1509
00:49:16,630 --> 00:49:15,440
right but but that okay we can go back

1510
00:49:19,030 --> 00:49:16,640
to one of you if you want but i want to

1511
00:49:20,710 --> 00:49:19,040
move on to the two others because it

1512
00:49:22,309 --> 00:49:20,720
is relevant if you're saying that one

1513
00:49:24,230 --> 00:49:22,319

has been discredited then

1514

00:49:25,829 --> 00:49:24,240

what do we have to discredit the other

1515

00:49:27,589 --> 00:49:25,839

two the other two

1516

00:49:30,150 --> 00:49:27,599

on gimbal which is about the same time

1517

00:49:33,190 --> 00:49:30,160

frame is go fast that one has been

1518

00:49:33,589 --> 00:49:33,200

so in my opinion the best debunking of

1519

00:49:35,750 --> 00:49:33,599

that

1520

00:49:37,670 --> 00:49:35,760

has been done by mick west so it would

1521

00:49:40,230 --> 00:49:37,680

be much better for someone to go look

1522

00:49:43,589 --> 00:49:40,240

at mick west's work and to see what he's

1523

00:49:46,790 --> 00:49:43,599

done on that because he not only shows

1524

00:49:49,990 --> 00:49:46,800

what the object is most likely

1525

00:49:52,230 --> 00:49:50,000

doing he proves it he

1526

00:49:53,190 --> 00:49:52,240

essentially duplicates what you see on

1527

00:49:55,109 --> 00:49:53,200

the screen

1528

00:49:57,030 --> 00:49:55,119

using normal items that you'd find

1529

00:49:58,549 --> 00:49:57,040

around this home

1530

00:50:00,309 --> 00:49:58,559

yeah is that the one because i watched

1531

00:50:02,069 --> 00:50:00,319

his videos his videos are very

1532

00:50:03,430 --> 00:50:02,079

short very easy watches so i also

1533

00:50:06,230 --> 00:50:03,440

encourage those um

1534

00:50:07,670 --> 00:50:06,240

is that the one where he said it was

1535

00:50:08,309 --> 00:50:07,680

actually a plane or is that the one

1536

00:50:11,430 --> 00:50:08,319

where you're saying

1537

00:50:14,549 --> 00:50:11,440

it it's a glare right he said you see

1538

00:50:16,790 --> 00:50:14,559

mix shows that it's glare and that the

1539

00:50:17,829 --> 00:50:16,800

lens system inside the app floor pod

1540

00:50:21,270 --> 00:50:17,839

once it hits

1541

00:50:23,190 --> 00:50:21,280

zero degrees it rotates it has it can't

1542

00:50:24,790 --> 00:50:23,200

you know it's like a you've seen the

1543

00:50:26,309 --> 00:50:24,800

cameras ptz cameras what have you when

1544

00:50:27,910 --> 00:50:26,319

they get to a certain point they can't

1545

00:50:29,510 --> 00:50:27,920

go any further so they have to change

1546

00:50:31,589 --> 00:50:29,520

angle and go a different direction so as

1547

00:50:32,309 --> 00:50:31,599

you see that happening the internal lens

1548

00:50:35,589 --> 00:50:32,319

turns

1549

00:50:37,430 --> 00:50:35,599

this is so easily seen

1550

00:50:38,950 --> 00:50:37,440

when you're debunking this a person

1551
00:50:41,190 --> 00:50:38,960
that's used to looking at video

1552
00:50:42,790 --> 00:50:41,200
would look at it and immediately know

1553
00:50:44,950 --> 00:50:42,800
that that's a lens turning

1554
00:50:46,390 --> 00:50:44,960
because you can see see it you can

1555
00:50:47,829 --> 00:50:46,400
literally see it there's problems

1556
00:50:48,309 --> 00:50:47,839
turning but what exactly are we looking

1557
00:50:50,790 --> 00:50:48,319
at we're

1558
00:50:52,230 --> 00:50:50,800
looking at glare glare on the lens glare

1559
00:50:54,069 --> 00:50:52,240
from what

1560
00:50:55,589 --> 00:50:54,079
glare from the object whenever you're

1561
00:50:58,470 --> 00:50:55,599
looking at an object that's

1562
00:50:59,670 --> 00:50:58,480
uh it has a heat plume or has whatever

1563
00:51:00,470 --> 00:50:59,680

whatever you're looking at inside the

1564

00:51:02,150 --> 00:51:00,480

lens system

1565

00:51:03,510 --> 00:51:02,160

there's going to be glare inside the

1566

00:51:06,069 --> 00:51:03,520

lens it's called aberratic

1567

00:51:07,670 --> 00:51:06,079

uh uh ever you know an aberration which

1568

00:51:09,349 --> 00:51:07,680

is ghost it's term for ghost

1569

00:51:10,710 --> 00:51:09,359

if you have chromatic aberration which

1570

00:51:11,990 --> 00:51:10,720

you've seen on your own pictures when

1571

00:51:13,270 --> 00:51:12,000

you take a picture of anything that has

1572

00:51:15,270 --> 00:51:13,280

sunlight coming in

1573

00:51:16,790 --> 00:51:15,280

or anything that's that is bright or

1574

00:51:19,190 --> 00:51:16,800

anything is different than the

1575

00:51:20,230 --> 00:51:19,200

object behind it there's going to be

1576
00:51:21,750 --> 00:51:20,240
artifacts

1577
00:51:23,589 --> 00:51:21,760
that come off of that object that are

1578
00:51:24,950 --> 00:51:23,599
not straight if you aim a camera at a

1579
00:51:26,470 --> 00:51:24,960
light you see

1580
00:51:28,230 --> 00:51:26,480
the the rays coming out you don't see

1581
00:51:29,510 --> 00:51:28,240
them with your eyes but the camera does

1582
00:51:32,150 --> 00:51:29,520
and the reason is is because of the

1583
00:51:33,670 --> 00:51:32,160
optics inside the camera's lens

1584
00:51:35,670 --> 00:51:33,680
and that provided an explanation because

1585
00:51:38,790 --> 00:51:35,680
in that gimbal video you see the thing

1586
00:51:41,190 --> 00:51:38,800
rotating a bit right yeah and it does if

1587
00:51:42,069 --> 00:51:41,200
if without knowing the other information

1588
00:51:44,069 --> 00:51:42,079

or you know

1589

00:51:46,069 --> 00:51:44,079

without being able to analyze it it does

1590

00:51:47,990 --> 00:51:46,079

look like it's doing some crazy stuff

1591

00:51:49,109 --> 00:51:48,000

that object's doing 120 miles an hour

1592

00:51:51,190 --> 00:51:49,119

but let me just ask this

1593

00:51:53,190 --> 00:51:51,200

so okay so let's say that he has

1594

00:51:53,430 --> 00:51:53,200

debunked the idea that this whatever it

1595

00:51:57,910 --> 00:51:53,440

is

1596

00:52:01,430 --> 00:51:57,920

proven that it was not

1597

00:52:04,390 --> 00:52:01,440

a uap flying at

1598

00:52:05,270 --> 00:52:04,400

you know incredible speeds etc well that

1599

00:52:07,430 --> 00:52:05,280

object wasn't

1600

00:52:09,109 --> 00:52:07,440

um none of the objects were traveling at

1601
00:52:10,790 --> 00:52:09,119
any great speed and

1602
00:52:12,549 --> 00:52:10,800
you know so that's the cool thing is

1603
00:52:14,630 --> 00:52:12,559
that somehow

1604
00:52:15,829 --> 00:52:14,640
these the way that this was it's genius

1605
00:52:17,270 --> 00:52:15,839
is how they did it the way these three

1606
00:52:18,309 --> 00:52:17,280
videos have been presented to us and

1607
00:52:20,950 --> 00:52:18,319
over time

1608
00:52:22,150 --> 00:52:20,960
we have formed in our heads our vision

1609
00:52:23,910 --> 00:52:22,160
of what they're actually doing when in

1610
00:52:25,589 --> 00:52:23,920
fact if you just watch the video

1611
00:52:28,150 --> 00:52:25,599
and don't have anyone explain anything

1612
00:52:29,349 --> 00:52:28,160
to you they do nothing extraordinary

1613
00:52:31,270 --> 00:52:29,359

not one of them does anything

1614

00:52:32,870 --> 00:52:31,280

extraordinary

1615

00:52:34,630 --> 00:52:32,880

expect and then when you start to to

1616

00:52:35,829 --> 00:52:34,640

know the mechanics behind it and the

1617

00:52:37,670 --> 00:52:35,839

analytics behind it

1618

00:52:38,870 --> 00:52:37,680

and everything else that goes along with

1619

00:52:41,109 --> 00:52:38,880

looking at an object

1620

00:52:43,589 --> 00:52:41,119

and going frame by frame and figuring

1621

00:52:45,829 --> 00:52:43,599

out okay now i know what's going on

1622

00:52:47,109 --> 00:52:45,839

and then you're able to duplicate it

1623

00:52:48,630 --> 00:52:47,119

that's where that's where mick west

1624

00:52:49,670 --> 00:52:48,640

excels at that because he was able to

1625

00:52:52,390 --> 00:52:49,680

duplicate

1626
00:52:53,510 --> 00:52:52,400
what you see in gimbal um okay let's go

1627
00:52:57,349 --> 00:52:53,520
let's go to nimitz

1628
00:53:00,549 --> 00:52:57,359
okay uh as far as that video

1629
00:53:03,510 --> 00:53:00,559
the chat underwood video um

1630
00:53:05,190 --> 00:53:03,520
which purports what what are the tsa

1631
00:53:07,109 --> 00:53:05,200
guys saying that that video

1632
00:53:08,950 --> 00:53:07,119
they're they're saying that the object

1633
00:53:11,430 --> 00:53:08,960
at the end of the video

1634
00:53:12,630 --> 00:53:11,440
you see what appears and i hope you play

1635
00:53:14,230 --> 00:53:12,640
these videos maybe in the background

1636
00:53:16,710 --> 00:53:14,240
maybe a graphic or something um

1637
00:53:18,710 --> 00:53:16,720
you will see the object appear to move

1638
00:53:21,670 --> 00:53:18,720

or jet off to the left at an

1639

00:53:22,069 --> 00:53:21,680

an incredible accelerated speed but what

1640

00:53:24,630 --> 00:53:22,079

so

1641

00:53:25,829 --> 00:53:24,640

hold on how how fast is it supposedly

1642

00:53:28,390 --> 00:53:25,839

going before

1643

00:53:29,589 --> 00:53:28,400

it jets off at the screen they don't

1644

00:53:31,270 --> 00:53:29,599

ever really say

1645

00:53:32,549 --> 00:53:31,280

how fast it's going at that basically

1646

00:53:33,510 --> 00:53:32,559

they were keeping up with it because it

1647

00:53:36,069 --> 00:53:33,520

wasn't getting

1648

00:53:36,549 --> 00:53:36,079

larger or smaller or whatever it it's

1649

00:53:38,790 --> 00:53:36,559

it's a

1650

00:53:39,750 --> 00:53:38,800

whatever it is it was moving to the left

1651
00:53:42,230 --> 00:53:39,760
to begin with

1652
00:53:42,950 --> 00:53:42,240
right and then and then uh yeah and

1653
00:53:45,270 --> 00:53:42,960
again

1654
00:53:46,950 --> 00:53:45,280
there's a short mick west video on this

1655
00:53:49,829 --> 00:53:46,960
that um

1656
00:53:50,390 --> 00:53:49,839
and i think yeah at the end of the

1657
00:53:52,150 --> 00:53:50,400
screen

1658
00:53:54,630 --> 00:53:52,160
yeah and he's really saying that that

1659
00:53:55,670 --> 00:53:54,640
was the did you say it was the camera

1660
00:53:57,910 --> 00:53:55,680
adjusting or something

1661
00:53:59,190 --> 00:53:57,920
there's two things one as the as the

1662
00:54:00,790 --> 00:53:59,200
object is

1663
00:54:03,190 --> 00:54:00,800

appears to be jutting off the screen

1664

00:54:04,710 --> 00:54:03,200

you'll see the zoom on the magnification

1665

00:54:05,430 --> 00:54:04,720

change from two to one back forth or

1666

00:54:07,990 --> 00:54:05,440

what have you

1667

00:54:09,430 --> 00:54:08,000

so when when you zoom the object it it

1668

00:54:10,470 --> 00:54:09,440

obviously looks like it moves off screen

1669

00:54:13,510 --> 00:54:10,480

so as

1670

00:54:13,910 --> 00:54:13,520

the app flier lost lock on the object

1671

00:54:16,549 --> 00:54:13,920

because

1672

00:54:17,990 --> 00:54:16,559

if you look at the range it says 99.9

1673

00:54:19,750 --> 00:54:18,000

that means the object is beyond the

1674

00:54:20,790 --> 00:54:19,760

range of the outflare's ability to range

1675

00:54:22,710 --> 00:54:20,800

it anyway

1676
00:54:25,190 --> 00:54:22,720
so the object was a long way away the

1677
00:54:25,670 --> 00:54:25,200
range of the app flare is 18.5 to 22

1678
00:54:28,549 --> 00:54:25,680
miles

1679
00:54:29,750 --> 00:54:28,559
so the object was past that distance it

1680
00:54:31,510 --> 00:54:29,760
was at it at

1681
00:54:33,510 --> 00:54:31,520
probably one of the most extreme

1682
00:54:36,789 --> 00:54:33,520
magnifications to even get to that

1683
00:54:37,990 --> 00:54:36,799
level to see it the object if you

1684
00:54:40,630 --> 00:54:38,000
compare it to another

1685
00:54:41,270 --> 00:54:40,640
app flare or another flir video that i

1686
00:54:45,190 --> 00:54:41,280
have

1687
00:54:47,270 --> 00:54:45,200
like an f18

1688
00:54:48,390 --> 00:54:47,280

banking to the left and i have that

1689

00:54:50,789 --> 00:54:48,400

video on my channel

1690

00:54:51,670 --> 00:54:50,799

i have video of a forward-looking

1691

00:54:55,670 --> 00:54:51,680

infrared

1692

00:54:58,150 --> 00:54:55,680

of a of an f-18 banking to the left

1693

00:55:00,309 --> 00:54:58,160

and it looks almost identical to the

1694

00:55:02,870 --> 00:55:00,319

flare one video that chad underwood took

1695

00:55:05,190 --> 00:55:02,880

and my question is this if chad took off

1696

00:55:06,950 --> 00:55:05,200

with a wingman

1697

00:55:08,630 --> 00:55:06,960

why wasn't his wingman ever mentioned in

1698

00:55:10,630 --> 00:55:08,640

the report beyond

1699

00:55:11,910 --> 00:55:10,640

them going off together and where was

1700

00:55:14,710 --> 00:55:11,920

his wingman

1701
00:55:15,109 --> 00:55:14,720
um whether whether what other objects

1702
00:55:16,950 --> 00:55:15,119
were

1703
00:55:18,470 --> 00:55:16,960
occupying that section of the sky at the

1704
00:55:20,630 --> 00:55:18,480
same time so

1705
00:55:22,470 --> 00:55:20,640
you would posit that what we see in the

1706
00:55:24,309 --> 00:55:22,480
video is actually another f-18

1707
00:55:26,150 --> 00:55:24,319
it's probably another f-18 and it very

1708
00:55:26,950 --> 00:55:26,160
well could be chad underwood's wingman i

1709
00:55:30,710 --> 00:55:26,960
don't know

1710
00:55:31,430 --> 00:55:30,720
in uh gimbal do we have a theory as to

1711
00:55:33,589 --> 00:55:31,440
what

1712
00:55:34,950 --> 00:55:33,599
it's it's it's it's probably an f-18 as

1713
00:55:36,789 --> 00:55:34,960

well um

1714

00:55:38,150 --> 00:55:36,799

because it when you look at it if you if

1715

00:55:40,549 --> 00:55:38,160

you transpose the

1716

00:55:42,230 --> 00:55:40,559

the rear end of an f-18 or a video of an

1717

00:55:44,150 --> 00:55:42,240

f-18 going off that direction

1718

00:55:45,910 --> 00:55:44,160

you know traveling to the left banking

1719

00:55:49,430 --> 00:55:45,920

to the left on the flare one video

1720

00:55:51,109 --> 00:55:49,440

and doing a not even a turn i mean

1721

00:55:52,549 --> 00:55:51,119

the the funny thing about gimbal is is

1722

00:55:53,990 --> 00:55:52,559

the object's really not even turning

1723

00:55:54,630 --> 00:55:54,000

it's literally just the lens system

1724

00:55:56,230 --> 00:55:54,640

inside

1725

00:55:58,069 --> 00:55:56,240

the flare turning the reason why you

1726
00:55:59,190 --> 00:55:58,079
know it's the lens turning is because

1727
00:56:02,630 --> 00:55:59,200
the clouds

1728
00:56:04,470 --> 00:56:02,640
dirty lens is moving

1729
00:56:06,390 --> 00:56:04,480
with that so the whole the whole scene

1730
00:56:09,430 --> 00:56:06,400
moves

1731
00:56:11,670 --> 00:56:09,440
okay so is that the end

1732
00:56:13,030 --> 00:56:11,680
it turns out that these things were

1733
00:56:14,950 --> 00:56:13,040
misinterpreted

1734
00:56:16,069 --> 00:56:14,960
no that's not the end this is this might

1735
00:56:17,750 --> 00:56:16,079
be a two-part

1736
00:56:20,470 --> 00:56:17,760
show because if you get into what they

1737
00:56:21,670 --> 00:56:20,480
actually were and what i'm finding out

1738
00:56:23,990 --> 00:56:21,680

let's look at look at it this way

1739

00:56:25,829 --> 00:56:24,000

mercury systems mercury systems is a

1740

00:56:27,750 --> 00:56:25,839

company that makes drfms which is a

1741

00:56:30,470 --> 00:56:27,760

device that actually mimics

1742

00:56:32,309 --> 00:56:30,480

anything that they want it to and so if

1743

00:56:33,950 --> 00:56:32,319

a plane's flying along has transponder

1744

00:56:35,990 --> 00:56:33,960

or is emitting any type of

1745

00:56:39,270 --> 00:56:36,000

electromagnetic waves or whatever

1746

00:56:41,829 --> 00:56:39,280

that device is able to mimic it

1747

00:56:43,430 --> 00:56:41,839

and then continue on with its

1748

00:56:44,710 --> 00:56:43,440

transmission so it could make it look

1749

00:56:47,270 --> 00:56:44,720

like there's one of them

1750

00:56:49,109 --> 00:56:47,280

or a hundred of them okay and it also

1751
00:56:50,630 --> 00:56:49,119
does the doppler effect so that it can

1752
00:56:53,109 --> 00:56:50,640
show the object moving

1753
00:56:55,670 --> 00:56:53,119
and moving at great speeds this is what

1754
00:56:58,309 --> 00:56:55,680
the technology was being proven in 2014

1755
00:57:00,309 --> 00:56:58,319
and 2015 they got the contract i believe

1756
00:57:03,030 --> 00:57:00,319
in 2015 mercury systems

1757
00:57:04,150 --> 00:57:03,040
so if you write after the show look up

1758
00:57:06,470 --> 00:57:04,160
mercury systems

1759
00:57:07,510 --> 00:57:06,480
spoofing technology and look who bought

1760
00:57:13,270 --> 00:57:07,520
it

1761
00:57:15,349 --> 00:57:13,280
so in the 2004 incident what you're

1762
00:57:15,990 --> 00:57:15,359
looking at is spoofing technology back

1763
00:57:18,549 --> 00:57:16,000

then

1764

00:57:19,510 --> 00:57:18,559

uh primarily partially by raytheon and

1765

00:57:22,390 --> 00:57:19,520

to get

1766

00:57:24,390 --> 00:57:22,400

the entire exercise to work properly and

1767

00:57:26,470 --> 00:57:24,400

for everyone to analyze the data

1768

00:57:28,069 --> 00:57:26,480

and the reason why the bricks were taken

1769

00:57:29,910 --> 00:57:28,079

was so that no one would know

1770

00:57:31,670 --> 00:57:29,920

that they were spoofed the four guys

1771

00:57:33,430 --> 00:57:31,680

that went on the ship two plain clothes

1772

00:57:34,870 --> 00:57:33,440

guys you had two guys in flight suits

1773

00:57:37,190 --> 00:57:34,880

yeah the two plane coast guys they were

1774

00:57:38,150 --> 00:57:37,200

from raytheon um that i was able to find

1775

00:57:39,670 --> 00:57:38,160

out that's worth

1776

00:57:41,190 --> 00:57:39,680

that's what i was told whether or not

1777

00:57:42,950 --> 00:57:41,200

it's true you know

1778

00:57:44,549 --> 00:57:42,960

i don't know but what i was told was the

1779

00:57:47,430 --> 00:57:44,559

two guys that were in plain clothes

1780

00:57:48,789 --> 00:57:47,440

were from raytheon and i believe pj may

1781

00:57:52,549 --> 00:57:48,799

know that by now i don't know

1782

00:57:54,549 --> 00:57:52,559

but um but that's the data bricks went

1783

00:57:56,549 --> 00:57:54,559

back to the manufacturer

1784

00:57:57,990 --> 00:57:56,559

and then the data from that was either

1785

00:57:59,270 --> 00:57:58,000

recorded or whatever but anyway it got

1786

00:58:02,710 --> 00:57:59,280

back to

1787

00:58:04,870 --> 00:58:02,720

a certain airbase that the us

1788

00:58:06,549 --> 00:58:04,880

air force research laboratory is

1789

00:58:09,829 --> 00:58:06,559

residing at

1790

00:58:12,069 --> 00:58:09,839

so um you're saying back in

1791

00:58:14,309 --> 00:58:12,079

the nimitz incident that was raytheon

1792

00:58:15,670 --> 00:58:14,319

technology

1793

00:58:17,750 --> 00:58:15,680

and but but for the other one it's

1794

00:58:19,589 --> 00:58:17,760

mercury systems technology mercury

1795

00:58:21,030 --> 00:58:19,599

systems was the technology that was

1796

00:58:21,990 --> 00:58:21,040

being tested at the time that the

1797

00:58:24,950 --> 00:58:22,000

roosevelt

1798

00:58:25,430 --> 00:58:24,960

uh was out and keep in mind both carrier

1799

00:58:28,309 --> 00:58:25,440

groups

1800

00:58:29,030 --> 00:58:28,319

just had upgrades to their radar systems

1801
00:58:31,510 --> 00:58:29,040
um

1802
00:58:32,870 --> 00:58:31,520
both were in training uh scenarios they

1803
00:58:33,589 --> 00:58:32,880
were in their workups to go out for

1804
00:58:37,430 --> 00:58:33,599
crews

1805
00:58:40,069 --> 00:58:37,440
um and the perfect situation

1806
00:58:41,349 --> 00:58:40,079
whenever fravor was going out or the

1807
00:58:43,109 --> 00:58:41,359
other pilots were going out they were

1808
00:58:45,270 --> 00:58:43,119
specifically asked

1809
00:58:47,109 --> 00:58:45,280
for what what is their loadout now what

1810
00:58:48,710 --> 00:58:47,119
that means is they're asking do you have

1811
00:58:50,950 --> 00:58:48,720
any weapons on board

1812
00:58:53,030 --> 00:58:50,960
um it's my opinion that they were being

1813
00:58:55,750 --> 00:58:53,040

asked if they had weapons on board

1814

00:58:57,270 --> 00:58:55,760

not because they needed those weapons to

1815

00:58:58,789 --> 00:58:57,280

shoot down the objects possibly that

1816

00:59:00,630 --> 00:58:58,799

they were about to encounter

1817

00:59:01,910 --> 00:59:00,640

they wanted to make absolutely certain

1818

00:59:03,829 --> 00:59:01,920

that they did not

1819

00:59:05,109 --> 00:59:03,839

shoot down those objects because the

1820

00:59:06,549 --> 00:59:05,119

objects were ours anyway

1821

00:59:08,390 --> 00:59:06,559

keep in mind when the pilots came back

1822

00:59:09,030 --> 00:59:08,400

and everything was reported to upper

1823

00:59:10,309 --> 00:59:09,040

command

1824

00:59:12,230 --> 00:59:10,319

hold on when you say the objects are

1825

00:59:13,670 --> 00:59:12,240

ours but you're saying they're spoofing

1826
00:59:14,309 --> 00:59:13,680
so aren't you saying that they actually

1827
00:59:15,430 --> 00:59:14,319
don't exist

1828
00:59:17,589 --> 00:59:15,440
no you have to you have to put a

1829
00:59:19,510 --> 00:59:17,599
physical object in in the air and

1830
00:59:20,950 --> 00:59:19,520
in some of these cases to have this look

1831
00:59:23,109 --> 00:59:20,960
like you think imagine a

1832
00:59:24,150 --> 00:59:23,119
a string of lights okay and the lights

1833
00:59:25,510 --> 00:59:24,160
are all off

1834
00:59:27,430 --> 00:59:25,520
if you wanted to give the appearance

1835
00:59:29,030 --> 00:59:27,440
that the lights were moving you blinked

1836
00:59:29,510 --> 00:59:29,040
this one on this one on this one on this

1837
00:59:31,109 --> 00:59:29,520
one on

1838
00:59:32,710 --> 00:59:31,119

and so forth so it appears that the

1839

00:59:34,230 --> 00:59:32,720

lights are moving that's effectively how

1840

00:59:35,829 --> 00:59:34,240

some of the spoofing technology works

1841

00:59:38,230 --> 00:59:35,839

is you actually have a physical object

1842

00:59:39,829 --> 00:59:38,240

that actually has something on board

1843

00:59:42,069 --> 00:59:39,839

which transmits the signal to make it

1844

00:59:43,589 --> 00:59:42,079

look like it's moving you also have what

1845

00:59:44,069 --> 00:59:43,599

kind of physical object are we talking

1846

00:59:46,309 --> 00:59:44,079

about

1847

00:59:49,430 --> 00:59:46,319

uh looks amazingly like um they look

1848

00:59:52,789 --> 00:59:51,670

and you would just need one balloon no

1849

00:59:54,870 --> 00:59:52,799

you could use several

1850

00:59:56,950 --> 00:59:54,880

which which would create a much larger

1851
00:59:57,589 --> 00:59:56,960
effect or the drfms would be able to

1852
00:59:59,589 --> 00:59:57,599
transmit

1853
01:00:00,950 --> 00:59:59,599
uh those signals to make it appear that

1854
01:00:01,430 --> 01:00:00,960
objects are moving through space and

1855
01:00:03,990 --> 01:00:01,440
time

1856
01:00:04,630 --> 01:00:04,000
this is not the one what i'm saying now

1857
01:00:06,630 --> 01:00:04,640
is not even

1858
01:00:08,150 --> 01:00:06,640
classified this is information that you

1859
01:00:09,589 --> 01:00:08,160
can look up right now

1860
01:00:12,549 --> 01:00:09,599
it's right there just just look at

1861
01:00:16,150 --> 01:00:12,559
mercury systems um

1862
01:00:19,030 --> 01:00:16,160
navy by spoofing technology and

1863
01:00:21,190 --> 01:00:19,040

and how does it work so let's say you

1864

01:00:23,510 --> 01:00:21,200

have multiple balloons

1865

01:00:26,069 --> 01:00:23,520

how could you make it appear to a pilot

1866

01:00:28,870 --> 01:00:26,079

who's out there flying

1867

01:00:29,670 --> 01:00:28,880

that it's moved from balloon a to bloom

1868

01:00:31,430 --> 01:00:29,680

b

1869

01:00:32,870 --> 01:00:31,440

well keep in mind each of the pilots

1870

01:00:35,109 --> 01:00:32,880

whenever they saw something

1871

01:00:36,470 --> 01:00:35,119

it was one object then when they say

1872

01:00:38,870 --> 01:00:36,480

that they saw fleets of them

1873

01:00:40,789 --> 01:00:38,880

it's look at the asa but they saw one

1874

01:00:42,789 --> 01:00:40,799

object moving

1875

01:00:44,309 --> 01:00:42,799

so so how does the spoofing technology

1876

01:00:45,910 --> 01:00:44,319

make it appear that it's moving

1877

01:00:47,990 --> 01:00:45,920

it's it doesn't and that's where this

1878

01:00:49,109 --> 01:00:48,000

gets into a realm that what i'm about to

1879

01:00:52,309 --> 01:00:49,119

tell you

1880

01:00:54,150 --> 01:00:52,319

is going to be uh scrutinized greatly

1881

01:00:56,710 --> 01:00:54,160

and i'm probably going to be laughed at

1882

01:00:58,870 --> 01:00:56,720

because of it but this is the

1883

01:01:00,870 --> 01:00:58,880

best information that i have to date

1884

01:01:03,510 --> 01:01:00,880

based on what i have

1885

01:01:04,950 --> 01:01:03,520

the whenever fravor went out and when

1886

01:01:08,069 --> 01:01:04,960

kurth went out before

1887

01:01:08,789 --> 01:01:08,079

they both saw a bubbling of whatever in

1888

01:01:11,510 --> 01:01:08,799

the water

1889

01:01:12,309 --> 01:01:11,520

okay about the size of a small jetliner

1890

01:01:13,829 --> 01:01:12,319

what have you but

1891

01:01:16,069 --> 01:01:13,839

obviously the same about the same size

1892

01:01:17,510 --> 01:01:16,079

of the submarine so they see this

1893

01:01:19,670 --> 01:01:17,520

bubbling effect in the water

1894

01:01:20,710 --> 01:01:19,680

well kurth sees that but not the tic tac

1895

01:01:23,589 --> 01:01:20,720

comes on back

1896

01:01:23,990 --> 01:01:23,599

uh to the ship flavor continues on with

1897

01:01:25,910 --> 01:01:24,000

it with

1898

01:01:27,430 --> 01:01:25,920

with his wingman or wing woman if you

1899

01:01:29,030 --> 01:01:27,440

want to call her that um

1900

01:01:30,710 --> 01:01:29,040

and so you have four individuals that go

1901

01:01:32,549 --> 01:01:30,720

out and as they look down

1902

01:01:33,829 --> 01:01:32,559

they see the tic tac so how can you

1903

01:01:35,349 --> 01:01:33,839

visually see this object

1904

01:01:38,470 --> 01:01:35,359

remember it's darting back and forth

1905

01:01:41,190 --> 01:01:38,480

across the water but always in a north

1906

01:01:43,030 --> 01:01:41,200

south angle in other words the object

1907

01:01:43,750 --> 01:01:43,040

say if this was i wish i had a fake tic

1908

01:01:45,430 --> 01:01:43,760

tac here

1909

01:01:46,950 --> 01:01:45,440

so if this was your tic tac it always

1910

01:01:48,789 --> 01:01:46,960

stayed at the same

1911

01:01:50,630 --> 01:01:48,799

uh angle of attack so to speak and it

1912

01:01:52,069 --> 01:01:50,640

was it didn't turn and then go this way

1913

01:01:53,349 --> 01:01:52,079

and then turn and go this way and so

1914

01:01:54,630 --> 01:01:53,359

forth it just stayed like this and went

1915

01:01:58,150 --> 01:01:54,640

back and forth

1916

01:02:00,950 --> 01:01:58,160

amazingly enough when you launch a

1917

01:02:02,710 --> 01:02:00,960

spoofing balloon from a submarine and it

1918

01:02:05,190 --> 01:02:02,720

goes up and it's still on a tether

1919

01:02:06,710 --> 01:02:05,200

and it inflates and it's getting ready

1920

01:02:10,069 --> 01:02:06,720

to go it's on the tether

1921

01:02:12,630 --> 01:02:10,079

and if you have ever held an object

1922

01:02:13,910 --> 01:02:12,640

underwater or above the water with a

1923

01:02:15,829 --> 01:02:13,920

string attached to it

1924

01:02:17,510 --> 01:02:15,839

and any movement happens it's going to

1925

01:02:20,069 --> 01:02:17,520

look like that thing's

1926

01:02:21,190 --> 01:02:20,079

doing all of this just like a bobber

1927

01:02:22,789 --> 01:02:21,200

that you have when you're fishing

1928

01:02:24,789 --> 01:02:22,799

so you have this thing in the sky that's

1929

01:02:27,430 --> 01:02:24,799

being tethered still to a submarine

1930

01:02:28,150 --> 01:02:27,440

and then the final release so it's

1931

01:02:30,390 --> 01:02:28,160

framers

1932

01:02:33,029 --> 01:02:30,400

and then this is just me piecing this

1933

01:02:34,870 --> 01:02:33,039

together so none of this is

1934

01:02:36,710 --> 01:02:34,880

this is the best case scenario of how to

1935

01:02:39,990 --> 01:02:36,720

explain what these guys are seeing

1936

01:02:41,910 --> 01:02:40,000

okay the spoofing actually is

1937

01:02:43,029 --> 01:02:41,920

is the legit what's happening now is

1938

01:02:45,109 --> 01:02:43,039

just me explaining it

1939

01:02:46,150 --> 01:02:45,119

forever flies down sees this object move

1940

01:02:48,150 --> 01:02:46,160

moving back and forth

1941

01:02:50,069 --> 01:02:48,160

as framers flying down the balloon is

1942

01:02:50,630 --> 01:02:50,079

released so the balloon starts to come

1943

01:02:55,190 --> 01:02:50,640

up

1944

01:02:57,990 --> 01:02:55,200

and he's coming down he's following it

1945

01:02:59,670 --> 01:02:58,000

in his mind he thinks it's a lot further

1946

01:03:01,510 --> 01:02:59,680

away than it actually is it's a lot

1947

01:03:03,190 --> 01:03:01,520

closer to him so as he goes

1948

01:03:05,349 --> 01:03:03,200

remember during the story he says he cut

1949

01:03:05,910 --> 01:03:05,359

the circle in half and as he cut the

1950

01:03:08,710 --> 01:03:05,920

circle

1951
01:03:10,549 --> 01:03:08,720
the object greatly accelerated and went

1952
01:03:11,589 --> 01:03:10,559
past his wing and then just flew off and

1953
01:03:14,950 --> 01:03:11,599
was over the

1954
01:03:16,710 --> 01:03:14,960
horizon within two seconds well

1955
01:03:18,390 --> 01:03:16,720
according to what i was told was that

1956
01:03:19,270 --> 01:03:18,400
fravor actually got so close to this

1957
01:03:22,309 --> 01:03:19,280
balloon

1958
01:03:24,150 --> 01:03:22,319
actually exploded or popped

1959
01:03:25,829 --> 01:03:24,160
and then went straight down to the water

1960
01:03:26,870 --> 01:03:25,839
as he turns around to look

1961
01:03:28,870 --> 01:03:26,880
they're thinking that the thing

1962
01:03:30,470 --> 01:03:28,880
continued on that path but it actually

1963
01:03:32,630 --> 01:03:30,480

was not moving hardly at all

1964

01:03:35,510 --> 01:03:32,640

all of the motion just like go fast was

1965

01:03:37,670 --> 01:03:35,520

him as he cuts that circle in half

1966

01:03:39,589 --> 01:03:37,680

and he flies towards it it's a he's a

1967

01:03:42,710 --> 01:03:39,599

lot closer to it than he thought he was

1968

01:03:44,710 --> 01:03:42,720

and that object pops goes to the water

1969

01:03:46,230 --> 01:03:44,720

he looks back thinks he sees it going

1970

01:03:48,950 --> 01:03:46,240

over the uh the horizon

1971

01:03:50,309 --> 01:03:48,960

the object shows up at the cap point um

1972

01:03:52,069 --> 01:03:50,319

and you know within if

1973

01:03:53,349 --> 01:03:52,079

i think it was within 30 seconds or so

1974

01:03:55,510 --> 01:03:53,359

actually probably faster than that

1975

01:03:57,109 --> 01:03:55,520

that shows up at the cap point how would

1976

01:03:59,270 --> 01:03:57,119

that object know where the cap point is

1977

01:04:02,390 --> 01:03:59,280

the cap point just everybody knows is a

1978

01:04:05,349 --> 01:04:02,400

is a space is a area in space

1979

01:04:06,150 --> 01:04:05,359

not space like space but an area um that

1980

01:04:07,589 --> 01:04:06,160

the

1981

01:04:09,829 --> 01:04:07,599

planes would rally around that would be

1982

01:04:10,549 --> 01:04:09,839

like a rally point um for lack of a

1983

01:04:13,349 --> 01:04:10,559

better term

1984

01:04:14,870 --> 01:04:13,359

uh but for that object to show up

1985

01:04:15,670 --> 01:04:14,880

directly at the cap point we're not

1986

01:04:18,710 --> 01:04:15,680

talking about

1987

01:04:19,750 --> 01:04:18,720

altitude same everything they would have

1988

01:04:23,029 --> 01:04:19,760

to know where that was

1989

01:04:24,710 --> 01:04:23,039

well obviously the air force knew where

1990

01:04:27,190 --> 01:04:24,720

it was so they spoofed

1991

01:04:28,309 --> 01:04:27,200

an object being at that point the other

1992

01:04:30,309 --> 01:04:28,319

thing too

1993

01:04:31,910 --> 01:04:30,319

well yeah i'm trying to distinguish

1994

01:04:34,309 --> 01:04:31,920

between

1995

01:04:36,630 --> 01:04:34,319

the actual balloon and a spoofed balloon

1996

01:04:38,309 --> 01:04:36,640

so you're saying those essentially both

1997

01:04:41,510 --> 01:04:38,319

yeah well the the balloon that whatever

1998

01:04:42,870 --> 01:04:41,520

was being launched from the submarine

1999

01:04:43,990 --> 01:04:42,880

you can say it was a spoofing balloon or

2000

01:04:44,950 --> 01:04:44,000

it was going to be whatever i don't want

2001
01:04:46,549 --> 01:04:44,960
to say weather balloon because you're

2002
01:04:48,069 --> 01:04:46,559
not launching weather balloons from from

2003
01:04:49,750 --> 01:04:48,079
submarines just for for the fun of it so

2004
01:04:51,750 --> 01:04:49,760
whatever balloon was being launched was

2005
01:04:53,109 --> 01:04:51,760
to aid in the spoofing technology test

2006
01:04:54,710 --> 01:04:53,119
that was being done at the time

2007
01:04:56,789 --> 01:04:54,720
right the whole area was cleared out

2008
01:04:58,230 --> 01:04:56,799
anyway the air force is already there

2009
01:04:59,750 --> 01:04:58,240
testing other things of course

2010
01:05:01,589 --> 01:04:59,760
you have a hypersonic missile that was

2011
01:05:02,309 --> 01:05:01,599
tested two days after this in the same

2012
01:05:06,789 --> 01:05:02,319
area

2013
01:05:08,150 --> 01:05:06,799

there was a reason for the air force to

2014

01:05:11,190 --> 01:05:08,160

be in that area that's the

2015

01:05:13,589 --> 01:05:11,200

the 10 point the mach 10.5 x 47 i think

2016

01:05:17,029 --> 01:05:13,599

it is x 43 or x 47.

2017

01:05:18,390 --> 01:05:17,039

so so um do do you understand how the

2018

01:05:22,470 --> 01:05:18,400

spoofing technology

2019

01:05:25,750 --> 01:05:22,480

works i've got a i've got how using a

2020

01:05:27,029 --> 01:05:25,760

balloon are they able to somehow and

2021

01:05:29,589 --> 01:05:27,039

they're not using the balloon the

2022

01:05:30,390 --> 01:05:29,599

balloon is carrying a loft the drfm

2023

01:05:33,349 --> 01:05:30,400

which is the

2024

01:05:33,990 --> 01:05:33,359

transmitter that transmits the um the

2025

01:05:36,069 --> 01:05:34,000

signal

2026
01:05:37,349 --> 01:05:36,079
that is mimicked they can mimic whatever

2027
01:05:38,630 --> 01:05:37,359
they want it to make it appear to be

2028
01:05:39,190 --> 01:05:38,640
they can make it look like it's one

2029
01:05:40,230 --> 01:05:39,200
plane

2030
01:05:41,270 --> 01:05:40,240
they can make it look like it's a

2031
01:05:42,549 --> 01:05:41,280
hundred planes they can make it look

2032
01:05:44,950 --> 01:05:42,559
like it's a huge plane

2033
01:05:46,390 --> 01:05:44,960
and they can have it like are we talking

2034
01:05:49,430 --> 01:05:46,400
about simply

2035
01:05:53,029 --> 01:05:49,440
to fool a radar system or

2036
01:05:55,990 --> 01:05:53,039
actually the human eye uh well both

2037
01:05:58,069 --> 01:05:56,000
but the actual system itself is made to

2038
01:06:00,309 --> 01:05:58,079

spoof the radar systems keep in mind

2039

01:06:01,190 --> 01:06:00,319

each object that you saw on those three

2040

01:06:04,630 --> 01:06:01,200

videos

2041

01:06:06,549 --> 01:06:04,640

flare one which is the tic tac

2042

01:06:08,069 --> 01:06:06,559

if it is what we what we're saying it is

2043

01:06:10,390 --> 01:06:08,079

it's just an f-18

2044

01:06:11,589 --> 01:06:10,400

at a distance gimbal is just a balloon

2045

01:06:12,390 --> 01:06:11,599

which may be one of those spoofing

2046

01:06:13,829 --> 01:06:12,400

balloons that was

2047

01:06:15,589 --> 01:06:13,839

happened to be in that area because they

2048

01:06:18,630 --> 01:06:15,599

were testing it there as well

2049

01:06:21,190 --> 01:06:18,640

and the same thing with uh with the

2050

01:06:22,549 --> 01:06:21,200

uh with gimbal rather uh gimbal would

2051

01:06:24,230 --> 01:06:22,559

have been just another plane

2052

01:06:25,750 --> 01:06:24,240

and all you're seeing is artifacts so

2053

01:06:26,870 --> 01:06:25,760

someone looking at these videos cherry

2054

01:06:28,390 --> 01:06:26,880

picked these videos

2055

01:06:29,750 --> 01:06:28,400

because of either the audio made it

2056

01:06:31,510 --> 01:06:29,760

looks delicious or just the information

2057

01:06:34,150 --> 01:06:31,520

in the video made the video look good

2058

01:06:34,789 --> 01:06:34,160

they screwed up when they brought on go

2059

01:06:36,230 --> 01:06:34,799

fest

2060

01:06:37,589 --> 01:06:36,240

that's where they made the mistake

2061

01:06:38,870 --> 01:06:37,599

that's the achilles heel on this whole

2062

01:06:40,950 --> 01:06:38,880

thing is go fest

2063

01:06:42,710 --> 01:06:40,960

so what would you see going back to the

2064

01:06:44,390 --> 01:06:42,720

spoofing technology

2065

01:06:45,750 --> 01:06:44,400

and what was never been clear to me is

2066

01:06:47,270 --> 01:06:45,760

fraver talks about

2067

01:06:49,190 --> 01:06:47,280

seeing this thing go from here to there

2068

01:06:50,630 --> 01:06:49,200

when he talks about seeing it

2069

01:06:52,069 --> 01:06:50,640

was he talking about with his own eyes

2070

01:06:53,190 --> 01:06:52,079

or is he talking about on his radar

2071

01:06:55,270 --> 01:06:53,200

screen no he's someone

2072

01:06:56,470 --> 01:06:55,280

on his with his own eyes when he look

2073

01:06:58,710 --> 01:06:56,480

according to his

2074

01:07:00,390 --> 01:06:58,720

uh what i remember of what he what he

2075

01:07:02,069 --> 01:07:00,400

said i'm trying to be very clear

2076

01:07:03,510 --> 01:07:02,079

because i i really don't want to offend

2077

01:07:05,670 --> 01:07:03,520

any of these guys and there's almost no

2078

01:07:07,349 --> 01:07:05,680

way around it i guess at this point

2079

01:07:09,829 --> 01:07:07,359

as he's looking down he sees it with his

2080

01:07:12,870 --> 01:07:09,839

own eyes and he knows how

2081

01:07:14,390 --> 01:07:12,880

far an object uh how big an object is

2082

01:07:16,710 --> 01:07:14,400

based on the distance he is from it so

2083

01:07:18,150 --> 01:07:16,720

he when he estimated the object was 40

2084

01:07:20,789 --> 01:07:18,160

feet

2085

01:07:21,589 --> 01:07:20,799

uh my my i'm being told the object was

2086

01:07:24,230 --> 01:07:21,599

half that

2087

01:07:24,789 --> 01:07:24,240

size but if but if he saw it then what

2088

01:07:38,630 --> 01:07:24,799

he

2089

01:07:40,150 --> 01:07:38,640

inflate and it goes up and it holds on

2090

01:07:41,430 --> 01:07:40,160

tether until everything is ready to go

2091

01:07:43,910 --> 01:07:41,440

and then it releases

2092

01:07:45,829 --> 01:07:43,920

um that's the way it was explained to me

2093

01:07:49,029 --> 01:07:45,839

if the submarine's underwater and the

2094

01:07:50,950 --> 01:07:49,039

it was skies were clear beautiful day

2095

01:07:53,029 --> 01:07:50,960

those oceans were fairly calm but maybe

2096

01:07:54,710 --> 01:07:53,039

enough motion to allow that

2097

01:07:56,230 --> 01:07:54,720

the tether or whatever to move around to

2098

01:07:57,990 --> 01:07:56,240

make it appear that this thing is

2099

01:07:58,630 --> 01:07:58,000

bobbing up and down so an object bobbing

2100

01:08:00,789 --> 01:07:58,640

up and down

2101
01:08:02,470 --> 01:08:00,799
at a distance can also look like it's

2102
01:08:04,710 --> 01:08:02,480
doing river but the key thing he said

2103
01:08:08,069 --> 01:08:04,720
that made it very clear so what it was

2104
01:08:11,109 --> 01:08:08,079
was that the object kept its orientation

2105
01:08:12,230 --> 01:08:11,119
at a north south orientation the

2106
01:08:14,710 --> 01:08:12,240
prevailing winds

2107
01:08:16,149 --> 01:08:14,720
for that day were exactly that so if

2108
01:08:17,269 --> 01:08:16,159
you're tethering a balloon that has a

2109
01:08:19,990 --> 01:08:17,279
shape of a tic-tac

2110
01:08:21,430 --> 01:08:20,000
it is going to move maneuver itself just

2111
01:08:23,269 --> 01:08:21,440
like a wind sock

2112
01:08:24,630 --> 01:08:23,279
the direction that the wind is traveling

2113
01:08:28,149 --> 01:08:24,640

so would you say that

2114

01:08:30,229 --> 01:08:28,159

that fraver was spoofed or fragra

2115

01:08:31,269 --> 01:08:30,239

did not understand what he was seeing i

2116

01:08:34,470 --> 01:08:31,279

honestly i

2117

01:08:36,550 --> 01:08:34,480

i can't stand doing it but uh many

2118

01:08:37,990 --> 01:08:36,560

pilots before fraber have made a mistake

2119

01:08:39,510 --> 01:08:38,000

looking at an object

2120

01:08:41,110 --> 01:08:39,520

thinking of something else now here's

2121

01:08:42,550 --> 01:08:41,120

the problem you got four people that saw

2122

01:08:44,470 --> 01:08:42,560

this not just fravor

2123

01:08:45,749 --> 01:08:44,480

so you got three people you're two other

2124

01:08:47,269 --> 01:08:45,759

people that are still on station at

2125

01:08:49,510 --> 01:08:47,279

twenty some odd thousand feet

2126
01:08:50,470 --> 01:08:49,520
watching this and then you have fravor

2127
01:08:52,789 --> 01:08:50,480
in his wizzo

2128
01:08:54,630 --> 01:08:52,799
going down to investigate the object now

2129
01:08:56,390 --> 01:08:54,640
fravor in the wizzo

2130
01:08:57,829 --> 01:08:56,400
information kind of they don't they

2131
01:09:00,229 --> 01:08:57,839
don't match up exactly

2132
01:09:01,110 --> 01:09:00,239
um but that's that's another story

2133
01:09:03,110 --> 01:09:01,120
altogether

2134
01:09:04,709 --> 01:09:03,120
uh but as he's coming down as he cuts

2135
01:09:06,709 --> 01:09:04,719
that circle in half

2136
01:09:08,070 --> 01:09:06,719
he thinks it's this far away it's really

2137
01:09:09,269 --> 01:09:08,080
this far away and it's actually him

2138
01:09:10,390 --> 01:09:09,279

coming towards it that gives the

2139

01:09:12,630 --> 01:09:10,400

appearance of

2140

01:09:14,630 --> 01:09:12,640

of an acceleration towards him and he

2141

01:09:17,430 --> 01:09:14,640

just flies right by it

2142

01:09:19,990 --> 01:09:17,440

and the object hits the water and he

2143

01:09:23,110 --> 01:09:20,000

thinks it went over the horizon

2144

01:09:23,510 --> 01:09:23,120

and that's what it seems like that's

2145

01:09:26,229 --> 01:09:23,520

what

2146

01:09:27,189 --> 01:09:26,239

most likely happened and i hate doing

2147

01:09:28,789 --> 01:09:27,199

that because i know i'm going to be

2148

01:09:30,550 --> 01:09:28,799

ridiculed like crazy when this thing

2149

01:09:31,590 --> 01:09:30,560

comes out and i get it and i understand

2150

01:09:33,990 --> 01:09:31,600

it but

2151
01:09:35,749 --> 01:09:34,000
so many great pilots before him have

2152
01:09:37,510 --> 01:09:35,759
also made similar mistakes

2153
01:09:38,950 --> 01:09:37,520
well but you're saying that he made a

2154
01:09:40,870 --> 01:09:38,960
mistake

2155
01:09:41,990 --> 01:09:40,880
but this was also spoofing technology so

2156
01:09:43,189 --> 01:09:42,000
i guess i'm a little confused

2157
01:09:44,789 --> 01:09:43,199
well it just happened to be that

2158
01:09:45,189 --> 01:09:44,799
whatever the balloon whatever the object

2159
01:09:49,110 --> 01:09:45,199
was

2160
01:09:50,390 --> 01:09:49,120
balloon that particular object as it

2161
01:09:53,910 --> 01:09:50,400
came out of the water

2162
01:09:55,189 --> 01:09:53,920
was a they they have several

2163
01:09:56,790 --> 01:09:55,199

variations now they have them where the

2164

01:09:57,590 --> 01:09:56,800

drones come out from the same type

2165

01:09:59,750 --> 01:09:57,600

canister well look

2166

01:10:01,750 --> 01:09:59,760

the whole thing started with the guys on

2167

01:10:03,510 --> 01:10:01,760

the princeton i believe

2168

01:10:05,350 --> 01:10:03,520

seeing all kinds of crazy objects on

2169

01:10:07,430 --> 01:10:05,360

radar correct so that's what sent

2170

01:10:09,669 --> 01:10:07,440

people out to begin with i guess and how

2171

01:10:12,229 --> 01:10:09,679

fast are the objects going

2172

01:10:13,270 --> 01:10:12,239

i don't recall about 100 knots 120 or so

2173

01:10:15,510 --> 01:10:13,280

miles an hour okay

2174

01:10:16,310 --> 01:10:15,520

so the objects were doing that at twenty

2175

01:10:17,590 --> 01:10:16,320

eight thousand

2176
01:10:19,990 --> 01:10:17,600
eighty thousand feet you know somewhere

2177
01:10:23,189 --> 01:10:20,000
in that range is what kevin davis stated

2178
01:10:25,590 --> 01:10:23,199
the prevailing winds for those dates

2179
01:10:26,870 --> 01:10:25,600
at those altitudes were the speeds that

2180
01:10:28,470 --> 01:10:26,880
these objects were moving

2181
01:10:30,310 --> 01:10:28,480
so the objects were moving at the same

2182
01:10:32,229 --> 01:10:30,320
speed as a prevailing wind at that

2183
01:10:33,590 --> 01:10:32,239
altitude but but i thought it appeared

2184
01:10:36,310 --> 01:10:33,600
to them

2185
01:10:36,709 --> 01:10:36,320
on radar that they were darting around

2186
01:10:40,709 --> 01:10:36,719
no

2187
01:10:41,990 --> 01:10:40,719
they were just tracking he said they

2188
01:10:43,590 --> 01:10:42,000

were tracking south

2189

01:10:45,430 --> 01:10:43,600

which so who reported that they were

2190

01:10:48,709 --> 01:10:45,440

darting around them

2191

01:10:50,709 --> 01:10:48,719

uh flavor fragrance only favor well

2192

01:10:52,229 --> 01:10:50,719

my only favorite that moment but when

2193

01:10:53,830 --> 01:10:52,239

kevin day was saying and i

2194

01:10:55,910 --> 01:10:53,840

and i've talked with kevin or chatted

2195

01:10:57,189 --> 01:10:55,920

with kevin and and i still got a lot

2196

01:10:58,630 --> 01:10:57,199

more to talk to him about and maybe

2197

01:11:01,030 --> 01:10:58,640

we'll we'll converse some more

2198

01:11:03,270 --> 01:11:01,040

but the objects as they as they dropped

2199

01:11:05,590 --> 01:11:03,280

from 80 000 feet or above 80 000 feet

2200

01:11:07,590 --> 01:11:05,600

into the phase a radar viewing area

2201

01:11:09,110 --> 01:11:07,600

and down to the surface of the ocean

2202

01:11:11,110 --> 01:11:09,120

around 50 feet or so from the surface of

2203

01:11:12,310 --> 01:11:11,120

the ocean at 0.78 seconds which is what

2204

01:11:14,229 --> 01:11:12,320

he remembers it to be because he

2205

01:11:16,149 --> 01:11:14,239

remember doing the plots the next day

2206

01:11:18,390 --> 01:11:16,159

um that would mean the object was moving

2207

01:11:19,750 --> 01:11:18,400

at 24 or 104 thousand miles an hour

2208

01:11:20,390 --> 01:11:19,760

depending on which altitude it dropped

2209

01:11:24,229 --> 01:11:20,400

from

2210

01:11:26,790 --> 01:11:24,239

so the appearance of that is this

2211

01:11:27,830 --> 01:11:26,800

this is how the the spoofing works if

2212

01:11:32,149 --> 01:11:27,840

this

2213

01:11:34,149 --> 01:11:32,159

is another spoofing balloon over here

2214

01:11:35,590 --> 01:11:34,159

this will send a signal and then this

2215

01:11:37,270 --> 01:11:35,600

one will sit in the signal

2216

01:11:38,709 --> 01:11:37,280

and the next one will send the signal

2217

01:11:41,590 --> 01:11:38,719

and it looks like

2218

01:11:42,550 --> 01:11:41,600

that that object is just zooming through

2219

01:11:44,709 --> 01:11:42,560

through space

2220

01:11:46,310 --> 01:11:44,719

um and that's the thing i would love to

2221

01:11:49,430 --> 01:11:46,320

be able to see the data

2222

01:11:51,189 --> 01:11:49,440

uh directly from the event um

2223

01:11:53,270 --> 01:11:51,199

and that's what we need to clear this

2224

01:11:54,709 --> 01:11:53,280

all up 100 because we're never going to

2225

01:11:57,350 --> 01:11:54,719

have the complete answer

2226

01:11:58,550 --> 01:11:57,360

until we get that and apparently we're

2227

01:12:01,430 --> 01:11:58,560

not going to get it

2228

01:12:02,870 --> 01:12:01,440

but all righty well i think that's

2229

01:12:05,030 --> 01:12:02,880

enough for now but

2230

01:12:06,470 --> 01:12:05,040

one wrap up question would be the the

2231

01:12:11,030 --> 01:12:06,480

old friend

2232

01:12:12,950 --> 01:12:11,040

from the briefing from 2005.

2233

01:12:14,790 --> 01:12:12,960

if we were talking to him today and he

2234

01:12:18,149 --> 01:12:14,800

was speaking freely

2235

01:12:21,189 --> 01:12:18,159

what would he say was reported

2236

01:12:24,149 --> 01:12:21,199

at this briefing he

2237

01:12:25,110 --> 01:12:24,159

he well at the time is it's it's just

2238

01:12:27,510 --> 01:12:25,120

like with me

2239

01:12:28,870 --> 01:12:27,520

at the time we both thought that what

2240

01:12:30,630 --> 01:12:28,880

was being reported the briefing was

2241

01:12:32,950 --> 01:12:30,640

physical objects doing

2242

01:12:34,310 --> 01:12:32,960

what we all thought they were doing they

2243

01:12:34,630 --> 01:12:34,320

claimed speech and all this other stuff

2244

01:12:38,070 --> 01:12:34,640

that's

2245

01:12:40,070 --> 01:12:38,080

didn't

2246

01:12:42,229 --> 01:12:40,080

sit in on the meeting and find out but

2247

01:12:44,470 --> 01:12:42,239

but when he said who was there

2248

01:12:45,910 --> 01:12:44,480

that kind of gave a clue as to what what

2249

01:12:48,709 --> 01:12:45,920

we were looking at so you're saying he

2250

01:12:50,310 --> 01:12:48,719

he thought that they were actual 40-foot

2251

01:12:53,669 --> 01:12:50,320

u.s technology objects

2252

01:12:54,790 --> 01:12:53,679

right and what about today no he he

2253

01:12:58,070 --> 01:12:54,800

knows they're spoofing

2254

01:13:01,430 --> 01:12:58,080

and how has he learned that and

2255

01:13:02,870 --> 01:13:01,440

well i mean he just just through things

2256

01:13:05,430 --> 01:13:02,880

that he's read

2257

01:13:06,390 --> 01:13:05,440

let let me get rid of a big big misnomer

2258

01:13:08,630 --> 01:13:06,400

that everybody thinks

2259

01:13:10,390 --> 01:13:08,640

people think that you have if you have a

2260

01:13:11,669 --> 01:13:10,400

um a topsy you have to have a top secret

2261

01:13:12,709 --> 01:13:11,679

security clearance to get data out of

2262

01:13:13,110 --> 01:13:12,719

somebody or you have to have this

2263

01:13:15,590 --> 01:13:13,120

whatever

2264

01:13:17,110 --> 01:13:15,600

and that's that should be true but you

2265

01:13:18,870 --> 01:13:17,120

know as well as i do that if

2266

01:13:20,709 --> 01:13:18,880

but play it out the right way you can

2267

01:13:23,030 --> 01:13:20,719

get information from people

2268

01:13:24,550 --> 01:13:23,040

uh and not necessarily throw them into

2269

01:13:26,070 --> 01:13:24,560

the bus or they don't have to be in a

2270

01:13:28,070 --> 01:13:26,080

skiff or anything like that

2271

01:13:30,149 --> 01:13:28,080

to to get classified information it's

2272

01:13:30,950 --> 01:13:30,159

not that hard it's not like i'm going in

2273

01:13:32,870 --> 01:13:30,960

trying to

2274

01:13:33,990 --> 01:13:32,880

to be a spy or whatever to get things

2275

01:13:35,270 --> 01:13:34,000

out of it i just

2276

01:13:36,550 --> 01:13:35,280

you can just sit in a bar and just be

2277

01:13:37,830 --> 01:13:36,560

talking to somebody and they'll give you

2278

01:13:40,709 --> 01:13:37,840

enough information to where

2279

01:13:42,310 --> 01:13:40,719

you can piece together a pretty good uh

2280

01:13:43,270 --> 01:13:42,320

you know puzzle piece here so that

2281

01:13:44,709 --> 01:13:43,280

that's part of

2282

01:13:46,070 --> 01:13:44,719

of how some of this works is basically

2283

01:13:46,870 --> 01:13:46,080

being able to get in somewhere to do

2284

01:13:50,790 --> 01:13:46,880

that

2285

01:13:52,630 --> 01:13:50,800

but the the key thing is is this

2286

01:13:54,630 --> 01:13:52,640

an organization was put together to the

2287

01:13:56,709 --> 01:13:54,640

stars academy based on

2288

01:13:58,630 --> 01:13:56,719

these three videos that have been fed to

2289

01:14:00,229 --> 01:13:58,640

us for three and a half years

2290

01:14:01,990 --> 01:14:00,239

over that three and a half years it's

2291

01:14:05,110 --> 01:14:02,000

been clearly proven

2292

01:14:07,110 --> 01:14:05,120

that at least one of the three

2293

01:14:08,390 --> 01:14:07,120

is not what it is now that that could be

2294

01:14:10,550 --> 01:14:08,400

up for argument but

2295

01:14:12,070 --> 01:14:10,560

as far as i'm concerned as far as many

2296

01:14:13,430 --> 01:14:12,080

of the others

2297

01:14:15,350 --> 01:14:13,440

because the information is inside the

2298

01:14:16,630 --> 01:14:15,360

video there's there's you can't remove

2299

01:14:17,830 --> 01:14:16,640

the information from the video it's

2300

01:14:20,870 --> 01:14:17,840

already there

2301

01:14:24,709 --> 01:14:20,880

so if that is being told to us

2302

01:14:26,790 --> 01:14:24,719

and it's factually incorrect and it's

2303

01:14:28,470 --> 01:14:26,800

then what else is being said yeah and

2304

01:14:31,830 --> 01:14:28,480

the same thing could be said about me

2305

01:14:33,590 --> 01:14:31,840

because i i gave you a bunch of hogwash

2306

01:14:35,750 --> 01:14:33,600

back on that show

2307

01:14:38,229 --> 01:14:35,760

and i ran with it to see where it would

2308

01:14:39,910 --> 01:14:38,239

take me and i was able to find out where

2309

01:14:41,189 --> 01:14:39,920

it would take me which i'm kind of glad

2310

01:14:42,070 --> 01:14:41,199

i did because it did give me some other

2311

01:14:43,990 --> 01:14:42,080

information

2312

01:14:46,149 --> 01:14:44,000

i'm going to make follow-up videos to

2313

01:14:47,990 --> 01:14:46,159

this that will explain

2314

01:14:49,830 --> 01:14:48,000

better and with graphics because it's

2315

01:14:50,790 --> 01:14:49,840

hard to do a lot of this without showing

2316

01:14:53,510 --> 01:14:50,800

people things

2317

01:14:54,229 --> 01:14:53,520

um exactly what it is that i'm talking

2318

01:14:58,550 --> 01:14:54,239

about

2319

01:15:02,709 --> 01:15:00,470

used this spoofing technology in real

2320

01:15:04,709 --> 01:15:02,719

world situations against the enemy yes

2321

01:15:06,149 --> 01:15:04,719

that we've used we used it during during

2322

01:15:08,630 --> 01:15:06,159

the cuban missile crisis

2323

01:15:09,669 --> 01:15:08,640

we used it back then um that's how all

2324

01:15:12,790 --> 01:15:09,679

this technology is

2325

01:15:15,189 --> 01:15:12,800

basically a submarine pulled up

2326

01:15:15,910 --> 01:15:15,199

towards uh cuba launched a bunch of

2327

01:15:17,669 --> 01:15:15,920

balloons

2328

01:15:19,430 --> 01:15:17,679

and which forced them to turn on all

2329

01:15:20,790 --> 01:15:19,440

their radars because they thought

2330

01:15:22,390 --> 01:15:20,800

that they were being attacked and all

2331

01:15:23,510 --> 01:15:22,400

these balloons go into the air but i

2332

01:15:25,110 --> 01:15:23,520

mean it's a technology is that

2333

01:15:26,870 --> 01:15:25,120

simplistic and old

2334

01:15:28,630 --> 01:15:26,880

why won't kevin day and the others on

2335

01:15:31,510 --> 01:15:28,640

princeton been confused by it

2336

01:15:32,950 --> 01:15:31,520

well that the basic technology is that

2337

01:15:33,990 --> 01:15:32,960

all but obviously today we would know if

2338

01:15:34,790 --> 01:15:34,000

somebody popped a whole bunch of

2339

01:15:36,149 --> 01:15:34,800

balloons into the air

2340

01:15:38,070 --> 01:15:36,159

we would recognize immediately what they

2341

01:15:39,510 --> 01:15:38,080

are um but

2342

01:15:41,110 --> 01:15:39,520

but aquadillo will tell you something

2343

01:15:42,550 --> 01:15:41,120

different that's a whole nother the

2344

01:15:45,350 --> 01:15:42,560

puerto rico video

2345

01:15:46,870 --> 01:15:45,360

but the case in point you've got a

2346

01:15:49,510 --> 01:15:46,880

situation where

2347

01:15:51,110 --> 01:15:49,520

the technology is there it's old you can

2348

01:15:52,709 --> 01:15:51,120

look it up right now it's already there

2349

01:15:55,110 --> 01:15:52,719

mercury systems is who currently

2350

01:15:56,390 --> 01:15:55,120

supplies the the navy with it um air

2351

01:15:59,110 --> 01:15:56,400

force is supplied with it

2352

01:16:00,550 --> 01:15:59,120

i believe from raytheon um and lockheed

2353

01:16:01,830 --> 01:16:00,560

martin's involved too so when you start

2354

01:16:02,630 --> 01:16:01,840

looking at these players your mind

2355

01:16:04,070 --> 01:16:02,640

starts

2356

01:16:05,590 --> 01:16:04,080

you know telling you that oh it has to

2357

01:16:06,070 --> 01:16:05,600

be this or it has to be that when in

2358

01:16:09,350 --> 01:16:06,080

reality

2359

01:16:09,750 --> 01:16:09,360

it's it's really not what we would think

2360

01:16:13,110 --> 01:16:09,760

it is

2361

01:16:15,910 --> 01:16:13,120

and none of the videos not one shows any

2362

01:16:16,790 --> 01:16:15,920

flight characteristic that is

2363

01:16:19,590 --> 01:16:16,800

extraordinary

2364

01:16:21,669 --> 01:16:19,600

at all not one um anyone that would sit

2365

01:16:23,350 --> 01:16:21,679

down and analyze it frame by frame

2366

01:16:24,950 --> 01:16:23,360

and look at it would probably come to

2367

01:16:26,709 --> 01:16:24,960

the same conclusion yeah

2368

01:16:28,550 --> 01:16:26,719

well but you know it wasn't just about

2369

01:16:30,070 --> 01:16:28,560

the videos it was about the eyewitnesses

2370

01:16:30,630 --> 01:16:30,080

it was yeah and that's where the problem

2371

01:16:31,750 --> 01:16:30,640

comes on

2372

01:16:34,229 --> 01:16:31,760

so anything that has to do with the

2373

01:16:36,390 --> 01:16:34,239

eyewitnesses is a whole another

2374

01:16:37,510 --> 01:16:36,400

area that's very touchy sensitive

2375

01:16:39,990 --> 01:16:37,520

subject that i

2376

01:16:40,709 --> 01:16:40,000

i don't feel comfortable doing because

2377

01:16:44,550 --> 01:16:40,719

it's

2378

01:16:45,910 --> 01:16:44,560

explain what it is they may have seen to

2379

01:16:48,390 --> 01:16:45,920

give them at least an answer

2380

01:16:50,070 --> 01:16:48,400

but at the same time i shouldn't it

2381

01:16:51,830 --> 01:16:50,080

shouldn't be my place to do that

2382

01:16:53,669 --> 01:16:51,840

i shouldn't even be really talking about

2383

01:16:55,430 --> 01:16:53,679

it yeah i'll just put the information

2384

01:16:57,030 --> 01:16:55,440

out there and if they accept it then

2385

01:16:58,550 --> 01:16:57,040

then that's it if it turns out to be

2386

01:17:00,310 --> 01:16:58,560

that's what it is then great if yeah

2387

01:17:02,550 --> 01:17:00,320

if it's and if it's spoofing technology

2388

01:17:04,390 --> 01:17:02,560

then that's yeah and they're going to be

2389

01:17:05,750 --> 01:17:04,400

i'm going to say it's it's got to be

2390

01:17:08,950 --> 01:17:05,760

pretty advanced because

2391

01:17:12,070 --> 01:17:08,960

david framer just as one example is very

2392

01:17:14,630 --> 01:17:12,080

apparently a very experienced uh

2393

01:17:15,510 --> 01:17:14,640

fighter pilot commander and that was all

2394

01:17:16,790 --> 01:17:15,520

the whole thing and

2395

01:17:18,390 --> 01:17:16,800

he's going over he's flying around the

2396

01:17:19,910 --> 01:17:18,400

country right now going to ufo events

2397

01:17:22,310 --> 01:17:19,920

saying that he saw a ufo so

2398

01:17:24,390 --> 01:17:22,320

right yeah and if they could fool him

2399

01:17:26,470 --> 01:17:24,400

the whole idea for testing on her

2400

01:17:27,669 --> 01:17:26,480

see the problem is this type of testing

2401

01:17:30,310 --> 01:17:27,679

should be illegal

2402

01:17:32,310 --> 01:17:30,320

it basically there are laws against the

2403

01:17:34,630 --> 01:17:32,320

military doing this type of testing and

2404

01:17:36,790 --> 01:17:34,640

because it becomes a safety issue okay

2405

01:17:38,790 --> 01:17:36,800

so that that should not have been done

2406

01:17:41,189 --> 01:17:38,800

kind of the way they did it so if this

2407

01:17:42,550 --> 01:17:41,199

is proven to be spoofing technology

2408

01:17:44,550 --> 01:17:42,560

and that we actually had physical

2409

01:17:47,110 --> 01:17:44,560

objects in that airspace

2410

01:17:48,229 --> 01:17:47,120

that were producing these signals then

2411

01:17:51,189 --> 01:17:48,239

guess what

2412

01:17:52,950 --> 01:17:51,199

you've got an issue with us breaking our

2413

01:17:54,630 --> 01:17:52,960

own laws to just test something

2414

01:17:56,149 --> 01:17:54,640

there's some there's a problem with that

2415

01:17:57,590 --> 01:17:56,159

a big problem with that so i have a

2416

01:17:58,870 --> 01:17:57,600

problem with that i don't i don't think

2417

01:18:00,070 --> 01:17:58,880

that should be done and also

2418

01:18:01,590 --> 01:18:00,080

the sailors have a problem with it

2419

01:18:03,110 --> 01:18:01,600

because they say that it can't be that

2420

01:18:03,910 --> 01:18:03,120

because it would be illegal well how

2421

01:18:06,310 --> 01:18:03,920

many times has

2422

01:18:07,590 --> 01:18:06,320

the government you've done things that's

2423

01:18:11,189 --> 01:18:07,600

not necessarily

2424

01:18:14,390 --> 01:18:11,199

you know legal but the bigger issue is

2425

01:18:15,669 --> 01:18:14,400

that the u.s government has well let's

2426

01:18:17,910 --> 01:18:15,679

just say the military

2427

01:18:18,790 --> 01:18:17,920

the us air force during the nimitz event

2428

01:18:21,270 --> 01:18:18,800

is who was

2429

01:18:22,870 --> 01:18:21,280

utilizing or being utilized to exhibit

2430

01:18:25,030 --> 01:18:22,880

the technology against the navy

2431

01:18:26,630 --> 01:18:25,040

so the navy could test their radar

2432

01:18:29,910 --> 01:18:26,640

systems against it as well the

2433

01:18:33,189 --> 01:18:29,920

the the easy thing behind it is

2434

01:18:35,510 --> 01:18:33,199

think of this if that was

2435

01:18:37,030 --> 01:18:35,520

actually a real object and it was

2436

01:18:37,669 --> 01:18:37,040

actually there and the commander got

2437

01:18:39,750 --> 01:18:37,679

wind of it

2438

01:18:42,310 --> 01:18:39,760

that these that this fighter pilot went

2439

01:18:45,669 --> 01:18:42,320
out to chase this object down

2440

01:18:47,750 --> 01:18:45,679
and was never able to get it

2441

01:18:48,950 --> 01:18:47,760
or another pilot went out after it and

2442

01:18:52,470 --> 01:18:48,960
got film of it

2443

01:18:54,630 --> 01:18:52,480
why wasn't a plane from

2444

01:18:55,750 --> 01:18:54,640
a different base that had weapons

2445

01:18:58,149 --> 01:18:55,760
scrambled to do it

2446

01:18:58,790 --> 01:18:58,159
if these objects are operating with

2447

01:19:00,870 --> 01:18:58,800
impunity

2448

01:19:02,950 --> 01:19:00,880
inside of our airspace inside of our

2449

01:19:04,870 --> 01:19:02,960
training a military training airspace

2450

01:19:06,550 --> 01:19:04,880
why didn't they take it more seriously

2451

01:19:08,229 --> 01:19:06,560

why didn't they

2452

01:19:09,830 --> 01:19:08,239

go after these things or continue to

2453

01:19:12,709 --> 01:19:09,840

follow them i mean why didn't

2454

01:19:13,350 --> 01:19:12,719

uh chad underwood speed up and go catch

2455

01:19:15,350 --> 01:19:13,360

this thing

2456

01:19:17,510 --> 01:19:15,360

get better video why did he stay past

2457

01:19:18,870 --> 01:19:17,520

the range of the app flier

2458

01:19:20,390 --> 01:19:18,880

you know these are questions that make

2459

01:19:21,830 --> 01:19:20,400

you wonder i'm not questioning the pilot

2460

01:19:23,270 --> 01:19:21,840

so to speak because they have to go by

2461

01:19:26,149 --> 01:19:23,280

what they're told to do

2462

01:19:27,669 --> 01:19:26,159

you know but fravor my understanding is

2463

01:19:30,790 --> 01:19:27,679

when he was coming back he asked for

2464

01:19:33,510 --> 01:19:30,800

permission to continue the pursuit

2465

01:19:34,470 --> 01:19:33,520

um so you know that's a piece of

2466

01:19:36,229 --> 01:19:34,480

information that's not out there so

2467

01:19:37,350 --> 01:19:36,239

fravor was ever if fraber's ever asked

2468

01:19:38,709 --> 01:19:37,360

hey where you asked

2469

01:19:40,149 --> 01:19:38,719

uh did you ask for permission to

2470

01:19:40,630 --> 01:19:40,159

continue to pursue because turbo says

2471

01:19:41,990 --> 01:19:40,640

you did

2472

01:19:44,070 --> 01:19:42,000

and if he goes oh yeah yeah i remember

2473

01:19:45,189 --> 01:19:44,080

that then that that would sit i heard it

2474

01:19:48,870 --> 01:19:45,199

on the comps

2475

01:19:50,229 --> 01:19:48,880

but um the you know there's so many

2476

01:19:52,390 --> 01:19:50,239

questions that that just

2477

01:19:53,590 --> 01:19:52,400

make you think common sense wise the

2478

01:19:56,390 --> 01:19:53,600

captain of the ship

2479

01:19:57,510 --> 01:19:56,400

didn't seem to care when he was told no

2480

01:19:59,910 --> 01:19:57,520

big deal

2481

01:20:00,709 --> 01:19:59,920

so was it that he didn't really consider

2482

01:20:02,310 --> 01:20:00,719

it a concern

2483

01:20:04,390 --> 01:20:02,320

or was it that he knew that it was

2484

01:20:07,270 --> 01:20:04,400

basically a testing operation and that
