

**HIDDEN TRUTH SHOW
WITH JIM BRESLO**

SCOTT SHAY

**EVOLUTION CANNOT EXPLAIN
EXISTENCE OF HUMANS**

1
00:00:04,710 --> 00:00:03,270
here's our interview with scott shea

2
00:00:06,630 --> 00:00:04,720
what do you believe is the most

3
00:00:10,070 --> 00:00:06,640
compelling

4
00:00:11,190 --> 00:00:10,080
evidence or argument for religion over

5
00:00:12,150 --> 00:00:11,200
atheism

6
00:00:15,430 --> 00:00:12,160
well

7
00:00:17,029 --> 00:00:15,440
so let me say this first of all

8
00:00:18,630 --> 00:00:17,039
i'm going to just start with what is the

9
00:00:21,109 --> 00:00:18,640
most compelling evidence that there's a

10
00:00:23,590 --> 00:00:21,119
creator a maker an almighty that the

11
00:00:27,349 --> 00:00:23,600
universe didn't just come into into into

12
00:00:29,269 --> 00:00:27,359
being and here i also take i take

13
00:00:31,830 --> 00:00:29,279

basically science to prove it because

14

00:00:33,990 --> 00:00:31,840

you know one of the things that was

15

00:00:35,030 --> 00:00:34,000

one of the many casualties of the 20th

16

00:00:36,389 --> 00:00:35,040

century

17

00:00:38,470 --> 00:00:36,399

was

18

00:00:40,310 --> 00:00:38,480

science in a certain kind of way which

19

00:00:43,430 --> 00:00:40,320

has become scientism

20

00:00:45,270 --> 00:00:43,440

where science says certain things but it

21

00:00:47,110 --> 00:00:45,280

can't go beyond that

22

00:00:49,110 --> 00:00:47,120

it can and that's where we've got into

23

00:00:49,990 --> 00:00:49,120

scientism where people say the science

24

00:00:50,950 --> 00:00:50,000

says

25

00:00:52,470 --> 00:00:50,960

well

26

00:00:54,150 --> 00:00:52,480

science

27

00:00:55,830 --> 00:00:54,160

has its limits

28

00:00:56,790 --> 00:00:55,840

and

29

00:01:06,310 --> 00:00:56,800

the

30

00:01:09,510 --> 00:01:06,320

us living in a universe with

31

00:01:11,750 --> 00:01:09,520

either six famously six constants in

32

00:01:13,990 --> 00:01:11,760

other words numbers that have no

33

00:01:16,550 --> 00:01:14,000

relation to any other

34

00:01:18,149 --> 00:01:16,560

field force

35

00:01:20,230 --> 00:01:18,159

of nature

36

00:01:21,590 --> 00:01:20,240

they're required for our existence

37

00:01:22,789 --> 00:01:21,600

they're required to forget about our

38

00:01:24,390 --> 00:01:22,799

existence they're required that they

39

00:01:25,910 --> 00:01:24,400

could be sons

40

00:01:28,390 --> 00:01:25,920

i'm talking about the strong nuclear

41

00:01:29,990 --> 00:01:28,400

force the weak nuclear force the force

42

00:01:32,390 --> 00:01:30,000

that's essentially dark matter that

43

00:01:35,270 --> 00:01:32,400

keeps things expanding the force of

44

00:01:37,190 --> 00:01:35,280

gravitation they're just constants and

45

00:01:40,710 --> 00:01:37,200

some of them if they were very little

46

00:01:42,149 --> 00:01:40,720

very very small differences the universe

47

00:01:43,590 --> 00:01:42,159

wouldn't be able to be here in the way

48

00:01:45,030 --> 00:01:43,600

that we know it or hydrogen wouldn't

49

00:01:47,030 --> 00:01:45,040

have been able to

50

00:01:53,030 --> 00:01:47,040

um

51
00:01:57,749 --> 00:01:53,040
etc i don't want to go into too much

52
00:02:01,030 --> 00:01:57,759
detail but the way that scientists

53
00:02:02,550 --> 00:02:01,040
posit that this was all

54
00:02:05,350 --> 00:02:02,560
you know this

55
00:02:08,150 --> 00:02:05,360
hugely unlikely scenario of the universe

56
00:02:10,630 --> 00:02:08,160
existing as it does is that we're one of

57
00:02:12,630 --> 00:02:10,640
many multi we're one of many universes

58
00:02:15,110 --> 00:02:12,640
in the multiverse right you've heard the

59
00:02:17,750 --> 00:02:15,120
multiverse so that they're an infinite

60
00:02:19,350 --> 00:02:17,760
number of universes we happen to be on

61
00:02:22,070 --> 00:02:19,360
the one universe

62
00:02:24,070 --> 00:02:22,080
that is fit for our sort of carbon-based

63
00:02:27,030 --> 00:02:24,080

life

64

00:02:29,350 --> 00:02:27,040
now if you believe that it's okay

65

00:02:31,350 --> 00:02:29,360
but it's no

66

00:02:33,190 --> 00:02:31,360
more than a belief

67

00:02:35,589 --> 00:02:33,200
like believing in god

68

00:02:37,990 --> 00:02:35,599
because there's no proof of the

69

00:02:40,309 --> 00:02:38,000
multiverse there's no proof that there's

70

00:02:42,470 --> 00:02:40,319
any universe behind us i mean

71

00:02:44,229 --> 00:02:42,480
ask any scientist there's no proof

72

00:02:45,910 --> 00:02:44,239
there's math

73

00:02:46,710 --> 00:02:45,920
okay but if you

74

00:02:49,030 --> 00:02:46,720
take

75

00:02:51,110 --> 00:02:49,040
the percentages of

76

00:02:53,430 --> 00:02:51,120

all of these constants being random

77

00:02:55,990 --> 00:02:53,440

numbers and we being in this correct

78

00:02:58,149 --> 00:02:56,000

universe to have life so that you and i

79

00:03:00,790 --> 00:02:58,159

can be talking

80

00:03:03,110 --> 00:03:00,800

it's one in many men divided by many

81

00:03:05,910 --> 00:03:03,120

many many trillions trillions of

82

00:03:08,070 --> 00:03:05,920

trillions now that doesn't mean that we

83

00:03:10,229 --> 00:03:08,080

aren't just so lucky that we are the one

84

00:03:11,190 --> 00:03:10,239

divided by trillions

85

00:03:12,869 --> 00:03:11,200

but

86

00:03:14,070 --> 00:03:12,879

it's unlikely

87

00:03:15,670 --> 00:03:14,080

um

88

00:03:17,430 --> 00:03:15,680

and it

89

00:03:22,710 --> 00:03:17,440

begs for another

90

00:03:24,470 --> 00:03:22,720

and yeah that's an offerous one yeah i

91

00:03:27,110 --> 00:03:24,480

mean to put it simply we don't know what

92

00:03:29,589 --> 00:03:27,120

happened before the big bang and science

93

00:03:31,589 --> 00:03:29,599

hasn't explained that you know i know

94

00:03:32,470 --> 00:03:31,599

some people don't necessarily even

95

00:03:34,309 --> 00:03:32,480

necessarily

96

00:03:36,309 --> 00:03:34,319

buy into the big bang but most

97

00:03:39,350 --> 00:03:36,319

scientists that's the best explanation

98

00:03:41,350 --> 00:03:39,360

right is is big bang but

99

00:03:42,869 --> 00:03:41,360

to put to put it simply what happened

100

00:03:44,630 --> 00:03:42,879

prior to the big bang so scientists

101
00:03:47,910 --> 00:03:44,640
can't explain that

102
00:03:49,110 --> 00:03:47,920
um and therein lies the possibility of a

103
00:03:52,390 --> 00:03:49,120
creator

104
00:03:55,030 --> 00:03:52,400
want to call it but

105
00:03:56,229 --> 00:03:55,040
to me that still begs the question okay

106
00:03:59,030 --> 00:03:56,239
but

107
00:04:01,030 --> 00:03:59,040
so there's a creator is this a creator

108
00:04:02,949 --> 00:04:01,040
in the type that we talk about in

109
00:04:05,910 --> 00:04:02,959
religions of

110
00:04:09,429 --> 00:04:05,920
our world which is this god who's paying

111
00:04:10,869 --> 00:04:09,439
attention who's judging us who cares how

112
00:04:11,750 --> 00:04:10,879
we live our life

113
00:04:13,670 --> 00:04:11,760

that

114

00:04:16,390 --> 00:04:13,680

sends a big flood in

115

00:04:18,629 --> 00:04:16,400

that has heaven in hell i mean that's

116

00:04:21,349 --> 00:04:18,639

what i'm talking about when i talk for

117

00:04:23,350 --> 00:04:21,359

me that's atheism versus non-atheism

118

00:04:24,310 --> 00:04:23,360

because to say that well gee we don't

119

00:04:25,990 --> 00:04:24,320

know what happened but before the big

120

00:04:28,790 --> 00:04:26,000

bang and gee maybe that was a crater

121

00:04:29,749 --> 00:04:28,800

okay i could buy that but what i'm not

122

00:04:31,430 --> 00:04:29,759

buying

123

00:04:33,430 --> 00:04:31,440

is a god where

124

00:04:34,870 --> 00:04:33,440

humans are any more special than any

125

00:04:36,070 --> 00:04:34,880

other animal in fact let's stick with

126

00:04:37,350 --> 00:04:36,080

that one right there i'm just curious

127

00:04:39,189 --> 00:04:37,360

your thoughts on that because if you're

128

00:04:42,150 --> 00:04:39,199

a believer in the bible humans are

129

00:04:44,550 --> 00:04:42,160

special compared to any other living

130

00:04:45,909 --> 00:04:44,560

being on earth i don't see that i

131

00:04:47,749 --> 00:04:45,919

believe in evolution and if you see

132

00:04:50,150 --> 00:04:47,759

evolution everybody came from a single

133

00:04:51,270 --> 00:04:50,160

cell amoeba in the ocean and we evolved

134

00:04:53,270 --> 00:04:51,280

into various

135

00:04:55,350 --> 00:04:53,280

uh different life forms and humans

136

00:04:58,950 --> 00:04:55,360

happen to be one of the life forms

137

00:05:01,350 --> 00:04:58,960

yeah so first of all the people who

138

00:05:04,070 --> 00:05:01,360

i i believe that evolution is definitely

139

00:05:05,909 --> 00:05:04,080

a process i don't think there's any

140

00:05:08,790 --> 00:05:05,919

doubt about that to

141

00:05:11,189 --> 00:05:08,800

accept it on its own terms but

142

00:05:13,110 --> 00:05:11,199

no one is actually a darwinist anymore

143

00:05:14,950 --> 00:05:13,120

even among scientists

144

00:05:16,790 --> 00:05:14,960

everybody is a neo-darwinist in other

145

00:05:18,629 --> 00:05:16,800

words darwin first came up with the idea

146

00:05:21,670 --> 00:05:18,639

of natural selection

147

00:05:23,430 --> 00:05:21,680

and that works and we can see that

148

00:05:25,510 --> 00:05:23,440

before species

149

00:05:27,350 --> 00:05:25,520

we by the way have no evidence no

150

00:05:29,350 --> 00:05:27,360

understanding for what happened pre-k

151
00:05:30,950 --> 00:05:29,360
pre the cambrian explosion because if

152
00:05:32,710 --> 00:05:30,960
you go back

153
00:05:34,469 --> 00:05:32,720
um you know

154
00:05:36,710 --> 00:05:34,479
a few hundred million years ago to the

155
00:05:40,070 --> 00:05:36,720
cambrian era

156
00:05:42,310 --> 00:05:40,080
at that point every major species

157
00:05:44,150 --> 00:05:42,320
was represented

158
00:05:46,629 --> 00:05:44,160
there were no there's not any

159
00:05:49,270 --> 00:05:46,639
substantially new phylum there aren't

160
00:05:50,070 --> 00:05:49,280
any really new phylums that have arisen

161
00:05:53,270 --> 00:05:50,080
so

162
00:05:55,189 --> 00:05:53,280
you went from an era of say

163
00:05:57,430 --> 00:05:55,199

three billion years

164

00:06:00,550 --> 00:05:57,440

to a period of

165

00:06:03,350 --> 00:06:00,560

a few hundred million years where we

166

00:06:05,270 --> 00:06:03,360

were during those billions of years we

167

00:06:07,270 --> 00:06:05,280

had we went from

168

00:06:09,430 --> 00:06:07,280

cells that didn't process oxygen the

169

00:06:11,990 --> 00:06:09,440

same way to cells to process oxygen the

170

00:06:13,830 --> 00:06:12,000

same way we do to maybe some

171

00:06:19,990 --> 00:06:13,840

multi-celled

172

00:06:21,830 --> 00:06:20,000

not bigger than the earphones or not

173

00:06:23,670 --> 00:06:21,840

bigger than you know the tips of our

174

00:06:25,830 --> 00:06:23,680

fingers

175

00:06:28,070 --> 00:06:25,840

um and then all of a sudden we have

176

00:06:30,150 --> 00:06:28,080

everything that became the mammoths and

177

00:06:30,950 --> 00:06:30,160

became fish and became

178

00:06:34,070 --> 00:06:30,960

uh

179

00:06:35,350 --> 00:06:34,080

became prime eds and became reptiles etc

180

00:06:37,590 --> 00:06:35,360

etc

181

00:06:40,309 --> 00:06:37,600

so if you do the math

182

00:06:43,189 --> 00:06:40,319

evolution could conceivably work

183

00:06:44,790 --> 00:06:43,199

but when you consider the number of

184

00:06:47,029 --> 00:06:44,800

proteins

185

00:06:49,670 --> 00:06:47,039

in and you consider i'm sorry the number

186

00:06:52,790 --> 00:06:49,680

of amino acids in a protein

187

00:06:55,189 --> 00:06:52,800

and you assume you make a heroic

188

00:06:58,469 --> 00:06:55,199

assumption that every generation there

189

00:07:00,950 --> 00:06:58,479

is a major mutation and then you figure

190

00:07:03,430 --> 00:07:00,960

out and you have to do this

191

00:07:06,469 --> 00:07:03,440

most mutations result in the death or

192

00:07:09,830 --> 00:07:06,479

sterility most time death or sterility

193

00:07:12,950 --> 00:07:09,840

of the next generation very few

194

00:07:15,909 --> 00:07:12,960

mutations are positive very very few

195

00:07:17,990 --> 00:07:15,919

and if you just do the math evolution to

196

00:07:19,830 --> 00:07:18,000

human beings could work but it would

197

00:07:22,550 --> 00:07:19,840

still take another

198

00:07:23,589 --> 00:07:22,560

eight or ten billion years

199

00:07:28,870 --> 00:07:23,599

so

200

00:07:31,029 --> 00:07:28,880

you're on a good

201
00:07:32,790 --> 00:07:31,039
thread here but would you say the same

202
00:07:34,550 --> 00:07:32,800
thing about apes

203
00:07:36,309 --> 00:07:34,560
that that that that

204
00:07:38,070 --> 00:07:36,319
would not have evolved by now

205
00:07:40,629 --> 00:07:38,080
pre-cambrian oh for sure there would be

206
00:07:41,909 --> 00:07:40,639
no apes right now if you just follow the

207
00:07:43,990 --> 00:07:41,919
math

208
00:07:46,070 --> 00:07:44,000
of how long and i'm not i'm not taking

209
00:07:48,710 --> 00:07:46,080
any heroic assumptions i'm actually

210
00:07:50,070 --> 00:07:48,720
being very kind to evolution one

211
00:07:51,749 --> 00:07:50,080
mutation

212
00:07:55,270 --> 00:07:51,759
per generation

213
00:07:56,309 --> 00:07:55,280

that ends up being effective

214

00:07:58,629 --> 00:07:56,319

going

215

00:08:01,110 --> 00:07:58,639

from you know if you have enough time if

216

00:08:03,350 --> 00:08:01,120

you have the entire time in the universe

217

00:08:05,270 --> 00:08:03,360

then ultimately you could get to people

218

00:08:06,469 --> 00:08:05,280

but that won't happen before a sun

219

00:08:10,150 --> 00:08:06,479

explodes

220

00:08:13,189 --> 00:08:10,160

and becomes and engulfs us so what if if

221

00:08:15,589 --> 00:08:13,199

if we go with your uh theory here then

222

00:08:17,830 --> 00:08:15,599

what does that tell us because on the

223

00:08:19,589 --> 00:08:17,840

one hand you're saying yes evolution is

224

00:08:20,629 --> 00:08:19,599

taking place

225

00:08:24,070 --> 00:08:20,639

but

226
00:08:27,110 --> 00:08:24,080
not at a speed that could explain humans

227
00:08:29,510 --> 00:08:27,120
so my explanation is is that

228
00:08:32,230 --> 00:08:29,520
some being wanted humans

229
00:08:33,829 --> 00:08:32,240
now whether that being wants it because

230
00:08:35,670 --> 00:08:33,839
they enjoy

231
00:08:37,829 --> 00:08:35,680
watching us interact

232
00:08:40,149 --> 00:08:37,839
care i can't go to the point where i can

233
00:08:42,070 --> 00:08:40,159
prove there's no proof but but to be

234
00:08:44,470 --> 00:08:42,080
clear that that

235
00:08:46,630 --> 00:08:44,480
entity wants humans and it wants apes

236
00:08:47,990 --> 00:08:46,640
and it wants a lot of other

237
00:08:50,230 --> 00:08:48,000
animals that you're saying would not

238
00:08:51,269 --> 00:08:50,240

have evolved to this point yet

239

00:08:52,710 --> 00:08:51,279

100

240

00:08:58,150 --> 00:08:52,720

why not

241

00:08:59,910 --> 00:08:58,160

so what would have evolved

242

00:09:02,550 --> 00:08:59,920

what could have evolved to this point

243

00:09:03,910 --> 00:09:02,560

based on your theory as we look out at

244

00:09:07,670 --> 00:09:03,920

living creatures

245

00:09:10,630 --> 00:09:07,680

the math um there would be small

246

00:09:13,269 --> 00:09:10,640

many multi-celled

247

00:09:16,070 --> 00:09:13,279

creatures that would probably way less

248

00:09:17,430 --> 00:09:16,080

than the size of you know again

249

00:09:19,030 --> 00:09:17,440
