1
00:00:14,749 --> 00:00:09,400
these are you when they in your church

2
00:00:18,290 --> 00:00:14,759
America's asking you to call dragon who

3
00:00:21,290 --> 00:00:18,300
the USA America's the greatest land of

4
00:00:25,340 --> 00:00:21,300
all on a highway or a rolled along a

5
00:00:29,509 --> 00:00:25,350
levee performance is sweeter nothing can

6
00:01:19,210 --> 00:00:29,519
beat her life is complete or in go make

7
00:01:23,930 --> 00:01:22,219
hello higher sad shatters Greg girl

8
00:01:26,810 --> 00:01:23,940
would here along with my good friend an

9
00:01:30,139 --> 00:01:26,820
occasional co-host Kyle hello calma man

10
00:01:31,940 --> 00:01:30,149
hello Greg well let me tell you last

11
00:01:34,730 --> 00:01:31,950
week I took my special lady to this

12
00:01:36,830 --> 00:01:34,740
place that served a \$65 Sunday and a

13
00:01:38,540 --> 00:01:36,840

goddamn pint glass and that was nothing

14

00:01:40,790 --> 00:01:38,550

compared to the treat i have for you

15

00:01:42,950 --> 00:01:40,800

tonight people a gen-u-wine nuclear

16

00:01:44,960 --> 00:01:42,960

physicist Stanton Friedman got his

17

00:01:48,770 --> 00:01:44,970

masters of science in physics at the

18

00:01:51,290 --> 00:01:48,780

University of Chicago in 1955 for 14

19

00:01:53,210 --> 00:01:51,300

years he worked for companies like GE GM

20

00:01:55,190 --> 00:01:53,220

McDonnell Douglas and Westinghouse on

21

00:01:57,440 --> 00:01:55,200

highly advanced in classified programs

22

00:01:59,359 --> 00:01:57,450

involving nuclear aircraft fission

23

00:02:02,570 --> 00:01:59,369

fusion rockets and various nuclear power

24

00:02:04,370 --> 00:02:02,580

plants for use on land and in space he

25

00:02:06,380 --> 00:02:04,380

left the corporate world appropriately

26

00:02:08,240 --> 00:02:06,390

in the 60s to forge a new path as a

27

00:02:10,520 --> 00:02:08,250

researcher in lecture on flying saucers

28

00:02:13,100 --> 00:02:10,530

and ufology having now lectured before

29

00:02:14,720 --> 00:02:13,110

more than 600 colleges and 100

30

00:02:17,030 --> 00:02:14,730

professional groups across all 50 states

31

00:02:18,710 --> 00:02:17,040

and around this big crazy rock he's

32

00:02:20,690 --> 00:02:18,720

provided written testimony to

33

00:02:22,790 --> 00:02:20,700

congressional hearings appeared twice at

34

00:02:24,530 --> 00:02:22,800

the UN and now in what's sure to be the

35

00:02:27,040 --> 00:02:24,540

highlight of an impressive career he

36

00:02:30,740 --> 00:02:27,050

joins us on my stupid stoner show the

37

00:02:32,270 --> 00:02:30,750

\$65 Sunday of ufology Stan I'm clearly

38

00:02:34,880 --> 00:02:32,280

speechless thanks a million for being

39

00:02:38,360 --> 00:02:34,890

here how are you I think I'm glad to be

40

00:02:40,460 --> 00:02:38,370

on you know I hope so too but let's get

41

00:02:42,080 --> 00:02:40,470

into it Stan I really respect

42

00:02:43,460 --> 00:02:42,090

intelligence because my hands so limited

43

00:02:45,530 --> 00:02:43,470

as Kyle could probably tell you but

44

00:02:47,660 --> 00:02:45,540

coming off that intro having been on

45

00:02:49,100 --> 00:02:47,670

such a conventional trajectory for

46

00:02:49,940 --> 00:02:49,110

successful young science it's what led

47

00:02:52,580 --> 00:02:49,950

you to break from the mainstream

48

00:02:54,199 --> 00:02:52,590

philosophy to reject the idea of alien

49

00:02:56,930 --> 00:02:54,209

spacecraft I'll write and ignore any

50

00:02:59,720 --> 00:02:56,940

data associated with it well it's the

51
00:03:01,640 --> 00:02:59,730
reverse I jumped into looking at data

52
00:03:03,180 --> 00:03:01,650
and looked at a lot more data and found

53
00:03:06,990 --> 00:03:03,190
a lot of stuff I hadn't known

54
00:03:08,940 --> 00:03:07,000
student started a lecture professional

55
00:03:11,370 --> 00:03:08,950
groups responded extremely well to the

56
00:03:13,170 --> 00:03:11,380
programs and when the bottom fell out of

57
00:03:16,080 --> 00:03:13,180
the advanced nuclear in space systems

58
00:03:19,260 --> 00:03:16,090
business as it did in nineteen seventy I

59
00:03:21,960 --> 00:03:19,270
gave my first lecture in 1967 I went

60
00:03:25,260 --> 00:03:21,970
full time Eufaula gisin if I can make up

61
00:03:27,210 --> 00:03:25,270
a word I and I found that there was

62
00:03:29,070 --> 00:03:27,220
enormous public interests and I've

63
00:03:31,260 --> 00:03:29,080

spoken all those colleges and

64

00:03:33,660 --> 00:03:31,270

professional groups and the thing is I

65

00:03:36,060 --> 00:03:33,670

can't reject the acceptance of the

66

00:03:39,000 --> 00:03:36,070

professional community I one of my early

67

00:03:41,060 --> 00:03:39,010

talks was at the engineering society of

68

00:03:43,590 --> 00:03:41,070

Detroit for example they were sold out

69

00:03:45,690 --> 00:03:43,600

four thousand and eight people for

70

00:03:48,450 --> 00:03:45,700

dinner and a talk and there wasn't one

71

00:03:50,640 --> 00:03:48,460

negative question now he's not a bunch

72

00:03:53,240 --> 00:03:50,650

of muddy guys up there in Detroit I

73

00:03:56,040 --> 00:03:53,250

spoke to the american nuclear society

74

00:04:00,180 --> 00:03:56,050

section at Los Alamos National

75

00:04:04,050 --> 00:04:00,190

Laboratory and we had over 500 people no

76

00:04:06,630 --> 00:04:04,060

negative questions very responsive so I

77

00:04:08,940 --> 00:04:06,640

decided since on my ham I enjoyed being

78

00:04:11,520 --> 00:04:08,950

on the stage and the response was so

79

00:04:13,380 --> 00:04:11,530

good and I worried you know the first

80

00:04:15,090 --> 00:04:13,390

year or two is somebody gonna say

81

00:04:17,010 --> 00:04:15,100

something which throws out everything I

82

00:04:20,070 --> 00:04:17,020

thought was true and I'll have to bury

83

00:04:22,530 --> 00:04:20,080

my head in the sand no it didn't happen

84

00:04:25,800 --> 00:04:22,540

that way as a matter of fact I found

85

00:04:28,980 --> 00:04:25,810

that in over seven hundred lectures I've

86

00:04:31,380 --> 00:04:28,990

had all of the eleven hecklers and two

87

00:04:34,800 --> 00:04:31,390

of them were drunk the audience took

88

00:04:39,240 --> 00:04:34,810

care the other nine I people are

89

00:04:41,490 --> 00:04:39,250

interested excited responsive and you

90

00:04:43,140 --> 00:04:41,500

know one of the problems here is that

91

00:04:45,060 --> 00:04:43,150

people really are interested in this

92

00:04:47,159 --> 00:04:45,070

subject and most of them except some

93

00:04:49,380 --> 00:04:47,169

UFOs alien spacecraft but are afraid to

94

00:04:51,870 --> 00:04:49,390

admit it right it there's a laughter

95

00:04:54,060 --> 00:04:51,880

curtain that's been erected by the nasty

96

00:04:56,700 --> 00:04:54,070

noisy negative astir than they sang

97

00:05:00,990 --> 00:04:56,710

newsman the fossilized physicist I like

98

00:05:03,020 --> 00:05:01,000

alliteration issues led and what I have

99

00:05:07,800 --> 00:05:03,030

tried to do is to take advantage of that

100

00:05:10,740 --> 00:05:07,810

so the space with facts data solid

101
00:05:12,870 --> 00:05:10,750
information and my early lectures

102
00:05:16,320 --> 00:05:12,880
especially I focused on five large-scale

103
00:05:18,540 --> 00:05:16,330
scientific studies and after each one

104
00:05:21,360 --> 00:05:18,550
I was nasty enough they asked how many

105
00:05:23,550 --> 00:05:21,370
people here have read this and I know

106
00:05:25,469 --> 00:05:23,560
that it was fewer than 2% all the time

107
00:05:27,300 --> 00:05:25,479
you need so that I know that I'm

108
00:05:31,290 --> 00:05:27,310
presenting information that people

109
00:05:34,559 --> 00:05:31,300
aren't really aware of because the the

110
00:05:37,469 --> 00:05:34,569
popular risers of the negative movements

111
00:05:40,469 --> 00:05:37,479
haven't told them about it so I'm

112
00:05:42,719 --> 00:05:40,479
filling a need I'm replacing the boy I

113
00:05:45,209 --> 00:05:42,729

better not say anything but Oh everybody

114

00:05:46,920 --> 00:05:45,219

else is interested too and a good

115

00:05:49,559 --> 00:05:46,930

illustration of this at the end of many

116

00:05:52,260 --> 00:05:49,569

of my lectures I will ask the first

117

00:05:53,670 --> 00:05:52,270

question how many people here believe

118

00:05:55,709 --> 00:05:53,680

that they have seen what I would

119

00:05:58,320 --> 00:05:55,719

describe as a flying saucer I'd given

120

00:05:59,610 --> 00:05:58,330

definitions early in the lecture and I'm

121

00:06:01,469 --> 00:05:59,620

like a joke you know we didn't let the

122

00:06:03,149 --> 00:06:01,479

CIA and it's okay just raise your hand

123

00:06:05,010 --> 00:06:03,159

and I'll point and count and then I

124

00:06:07,170 --> 00:06:05,020

start doing that the hands go up

125

00:06:08,790 --> 00:06:07,180

reluctantly you can totally just barely

126

00:06:11,070 --> 00:06:08,800

get up over their heads but I'm on a

127

00:06:13,070 --> 00:06:11,080

stage I can see them by the time i get

128

00:06:15,860 --> 00:06:13,080

off to my right the hands go up proudly

129

00:06:19,320 --> 00:06:15,870

each person had body was the only one

130

00:06:21,089 --> 00:06:19,330

typically it's ten percent we got a

131

00:06:23,580 --> 00:06:21,099

thousand people out there that's a

132

00:06:26,459 --> 00:06:23,590

hundred people who had sightings but

133

00:06:28,580 --> 00:06:26,469

then i asked the embarrassing question

134

00:06:30,769 --> 00:06:28,590

how many of you reported what you saw

135

00:06:33,329 --> 00:06:30,779

ninety percent of the hands go down

136

00:06:34,890 --> 00:06:33,339

mm-hmm and when people come up to my

137

00:06:37,529 --> 00:06:34,900

table and they want me to sign their

138

00:06:38,909 --> 00:06:37,539

books or whatever though they've got to

139

00:06:40,230 --> 00:06:38,919

come either story they gotta tell

140

00:06:42,570 --> 00:06:40,240

somebody who's not gonna laugh at him

141

00:06:46,529 --> 00:06:42,580

you know and that's me I laugh at the

142

00:06:48,959 --> 00:06:46,539

nasty noisy negative reaction and and i

143

00:06:52,670 --> 00:06:48,969

will ask after listen to their story

144

00:06:55,439 --> 00:06:52,680

i'll say did you report it no why not

145

00:06:57,869 --> 00:06:55,449

they think I was some kind of a nut that

146

00:06:59,550 --> 00:06:57,879

was really the most common answer hmm so

147

00:07:01,980 --> 00:06:59,560

I'm trying to do something about that

148

00:07:03,689 --> 00:07:01,990

and I mentioned it's because a lot of

149

00:07:05,519 --> 00:07:03,699

people think that before you must get a

150

00:07:08,189 --> 00:07:05,529

hard time you come on so strong because

151

00:07:10,140 --> 00:07:08,199

I start every lecture by saying that

152

00:07:14,850 --> 00:07:10,150

I've reached four major conclusions

153

00:07:17,790 --> 00:07:14,860

after tea now it's what 54 years since i

154

00:07:21,570 --> 00:07:17,800

began studying you if you follow if you

155

00:07:24,300 --> 00:07:21,580

will read a little guy I my birthday is

156

00:07:28,080 --> 00:07:24,310

sunday i'll turn 78 and i'm not a chance

157

00:07:30,150 --> 00:07:28,090

happy early birthday thank you

158

00:07:33,560 --> 00:07:30,160

uh Peter Jennings was born on july

159

00:07:38,219 --> 00:07:33,570

twenty ninth and so is Benito Mussolini

160

00:07:41,879 --> 00:07:38,229

an exalted company I am anyway what I

161

00:07:45,390 --> 00:07:41,889

find is that people are interested they

162

00:07:48,930 --> 00:07:45,400

want to do something about it they don't

163

00:07:51,180 --> 00:07:48,940

know how so I try to fill that void with

164

00:07:53,219 --> 00:07:51,190

facts with data and I raise all the

165

00:07:55,260 --> 00:07:53,229

objections of the nasty noisy negative s

166

00:07:58,290 --> 00:07:55,270

and I demolish them I don't ignore them

167

00:08:00,870 --> 00:07:58,300

and you see the four major conclusions

168

00:08:02,550 --> 00:08:00,880

very straightforward one the evidence is

169

00:08:04,290 --> 00:08:02,560

overwhelming that plunder earth is being

170

00:08:06,300 --> 00:08:04,300

visited by intelligently controlled

171

00:08:10,409 --> 00:08:06,310

extraterrestrial spacecraft in other

172

00:08:11,909 --> 00:08:10,419

words some underlying 37 times some UFOs

173

00:08:14,600 --> 00:08:11,919

are really in space Creek most earnest

174

00:08:17,310 --> 00:08:14,610

about that only one has to be really

175

00:08:19,080 --> 00:08:17,320

well you know I'm mostly blind 7 feet

176

00:08:21,000 --> 00:08:19,090

tall a basketball coach says what do I

177

00:08:22,920 --> 00:08:21,010

care give me one you know yeah I exact

178

00:08:24,210 --> 00:08:22,930

about the ones who are the second

179

00:08:27,120 --> 00:08:24,220

conclusion is we're dealing with a

180

00:08:28,890 --> 00:08:27,130

cosmic Watergate a neat turn of phrase

181

00:08:30,330 --> 00:08:28,900

but what I mean is some few people

182

00:08:33,779 --> 00:08:30,340

within major governments have known

183

00:08:36,990 --> 00:08:33,789

since at least July 1947 that indeed

184

00:08:39,029 --> 00:08:37,000

some UFOs or alien spacecraft you don't

185

00:08:41,550 --> 00:08:39,039

keep secrets by telling everybody and

186

00:08:43,110 --> 00:08:41,560

hoping nobody will talk you releases

187

00:08:45,780 --> 00:08:43,120

little information as possible i worked

188

00:08:47,850 --> 00:08:45,790

under security for 14 years I've been to

189

00:08:49,590 --> 00:08:47,860

20 archives they know how many zillions

190

00:08:53,070 --> 00:08:49,600

of documents are out there that you

191

00:08:54,810 --> 00:08:53,080

don't have accessed right the third

192

00:08:56,760 --> 00:08:54,820

conclusions there are no good arguments

193

00:08:59,490 --> 00:08:56,770

against the first to conclude anything

194

00:09:00,960 --> 00:08:59,500

and the fourth conclusion is we're

195

00:09:02,699 --> 00:09:00,970

dealing with the biggest story of the

196

00:09:04,740 --> 00:09:02,709

millennium visits the planet Earth play

197

00:09:08,160 --> 00:09:04,750

alien spacecraft successful cover with

198

00:09:10,019 --> 00:09:08,170

the best data bodies and wreckage for 65

199

00:09:13,140 --> 00:09:10,029

years now I was just in Roswell to

200

00:09:19,290 --> 00:09:13,150

celebrate the 65th anniversary of the

201
00:09:22,050 --> 00:09:19,300
Roswell incident in 1947 so the there

202
00:09:24,930 --> 00:09:22,060
are four problems when you're trying to

203
00:09:27,000 --> 00:09:24,940
listen to the debunkers and I don't like

204
00:09:28,860 --> 00:09:27,010
to but I do listen to me like I refute

205
00:09:31,050 --> 00:09:28,870
their arguments there are four

206
00:09:33,750 --> 00:09:31,060
techniques for rules that they abide by

207
00:09:36,390 --> 00:09:33,760
one don't bother me with the facts my

208
00:09:39,060 --> 00:09:36,400
mind's made up right what the public

209
00:09:41,519 --> 00:09:39,070
doesn't know I'm not going to tell three

210
00:09:43,259 --> 00:09:41,529
if you can't attack the data attack

211
00:09:45,900 --> 00:09:43,269
the people it's easier and nobody'll

212
00:09:48,239 --> 00:09:45,910
know the difference and for do your

213
00:09:49,650 --> 00:09:48,249

research by Proclamation investigation

214

00:09:53,280 --> 00:09:49,660

is too much trouble and who's going to

215

00:09:54,689 --> 00:09:53,290

know and so when you're right as soon as

216

00:09:57,869 --> 00:09:54,699

you recognize these and you keep

217

00:10:00,210 --> 00:09:57,879

listening for the signs one of the

218

00:10:02,639 --> 00:10:00,220

biggest debunkers for example was a guy

219

00:10:04,769 --> 00:10:02,649

named philip klass who were several anti

220

00:10:07,110 --> 00:10:04,779

UFO books senior avionics editor for

221

00:10:09,660 --> 00:10:07,120

aviation week and space technology the

222

00:10:12,420 --> 00:10:09,670

late Philip Glass and on two different

223

00:10:15,059 --> 00:10:12,430

appearances on Larry King he talked

224

00:10:19,110 --> 00:10:15,069

about the book that was under discussion

225

00:10:22,110 --> 00:10:19,120

and one was by dr. David Jacobs who

226

00:10:23,639 --> 00:10:22,120

specializes in abductions and all those

227

00:10:25,679 --> 00:10:23,649

people are have mental health problems

228

00:10:27,329 --> 00:10:25,689

not phil was trained in electrical

229

00:10:29,340 --> 00:10:27,339

engineering the forward to the book was

230

00:10:31,170 --> 00:10:29,350

written by dr. John Mack Harvard

231

00:10:33,179 --> 00:10:31,180

psychiatrist you'd think he'd be in a

232

00:10:35,489 --> 00:10:33,189

better position to judge anyway halfway

233

00:10:39,480 --> 00:10:35,499

through the program larry s him did you

234

00:10:41,340 --> 00:10:39,490

read the book no and the same thing

235

00:10:44,639 --> 00:10:41,350

happened to second time with a different

236

00:10:47,579 --> 00:10:44,649

book so you learn to be very wary of

237

00:10:49,199 --> 00:10:47,589

pronouncements from on high and to make

238

00:10:52,679 --> 00:10:49,209

sure that the people have actually

239

00:10:55,350 --> 00:10:52,689

looked at the evidence and one of my pet

240

00:10:56,730 --> 00:10:55,360

communities is the setting community you

241

00:10:59,850 --> 00:10:56,740

know search for extraterrestrial

242

00:11:04,019 --> 00:10:59,860

intelligence and they're just not doing

243

00:11:08,040 --> 00:11:04,029

it right well frankly SETI should stand

244

00:11:12,059 --> 00:11:08,050

for a silly effort to investigate as we

245

00:11:14,879 --> 00:11:12,069

really based on bad science they're

246

00:11:17,939 --> 00:11:14,889

assuming for some reason that aliens are

247

00:11:20,460 --> 00:11:17,949

sending messages to us why I have no

248

00:11:22,499 --> 00:11:20,470

idea and secondly they're assuming that

249

00:11:25,079 --> 00:11:22,509

they're using technology that's

250

00:11:26,910 --> 00:11:25,089

appropriate to our technology existed

251

00:11:31,169 --> 00:11:26,920

long distance radio since nineteen oh

252

00:11:33,660 --> 00:11:31,179

one big deal I mean there are stars that

253

00:11:36,150 --> 00:11:33,670

my favorite stars for which from which

254

00:11:38,119 --> 00:11:36,160

aliens originated on planets around

255

00:11:42,059 --> 00:11:38,129

awkward sentence but you get the idea

256

00:11:44,160 --> 00:11:42,069

Zeta 1 and Zeta 2 Reticuli mm-hmm it's

257

00:11:45,660 --> 00:11:44,170

the constellation of reticulum you can't

258

00:11:47,579 --> 00:11:45,670

see him from here you gotta go below the

259

00:11:49,199 --> 00:11:47,589

equator these come out of the Betty and

260

00:11:51,900 --> 00:11:49,209

Barney Hill story and there's a whole

261

00:11:53,400 --> 00:11:51,910

chapter in the book captured the Betty

262

00:11:55,500 --> 00:11:53,410

and Barney Hill folk experience for

263

00:11:57,510 --> 00:11:55,510

myself and Catherine Martin

264

00:12:00,240 --> 00:11:57,520

who's Betty's niece has only had noses

265

00:12:05,190 --> 00:12:00,250

tapes all the rest of that anyway those

266

00:12:06,840 --> 00:12:05,200

bass stars uh the 39.3 light-years away

267

00:12:09,330 --> 00:12:06,850

which is just down the street you

268

00:12:11,700 --> 00:12:09,340

understand mm-hmm they're only an eighth

269

00:12:13,590 --> 00:12:11,710

of a light year apart which means that

270

00:12:15,810 --> 00:12:13,600

30 times closer to each other than we

271

00:12:18,360 --> 00:12:15,820

are to the next are over so we're out in

272

00:12:21,510 --> 00:12:18,370

the boondocks right kend a little extra

273

00:12:25,560 --> 00:12:21,520

detail there are cool billion years

274

00:12:29,310 --> 00:12:25,570

older than the Sun now you think they're

275

00:12:33,420 --> 00:12:29,320

stuck with our technology from 111 years

276

00:12:36,750 --> 00:12:33,430

ago you know that's absurd when we start

277

00:12:39,390 --> 00:12:36,760

looking at the evidence we find out that

278

00:12:42,630 --> 00:12:39,400

none of the arguments stand up I mean

279

00:12:44,190 --> 00:12:42,640

you can't get here from there well you

280

00:12:47,340 --> 00:12:44,200

can't get from fredericton new brunswick

281

00:12:52,310 --> 00:12:47,350

where i live to Los Angeles in 10 hours

282

00:12:54,600 --> 00:12:52,320

on a bicycle right or in a car but

283

00:12:56,820 --> 00:12:54,610

getting the right airplanes you can do

284

00:12:58,320 --> 00:12:56,830

it or you get on the space station it

285

00:13:01,560 --> 00:12:58,330

goes around the whole planet in 90

286

00:13:03,660 --> 00:13:01,570

minutes it took Magellan's ship three

287

00:13:06,870 --> 00:13:03,670

years to go around the planet back in

288

00:13:09,960 --> 00:13:06,880

1522 that was not long ago on a cosmic

289

00:13:12,350 --> 00:13:09,970

time scale so and the kicker here is

290

00:13:15,390 --> 00:13:12,360

that I worked on nuclear fishing rod

291

00:13:18,120 --> 00:13:15,400

rockets I think you have a picture of

292

00:13:21,930 --> 00:13:18,130

one of them it says phoebus on it I'm

293

00:13:24,540 --> 00:13:21,940

toward the bottom and that was tested in

294

00:13:26,940 --> 00:13:24,550

the late 1960s it was built by Los

295

00:13:29,520 --> 00:13:26,950

Alamos and it's big brother Phoebus too

296

00:13:32,970 --> 00:13:29,530

i think i sent you the Phoebus one the

297

00:13:38,580 --> 00:13:32,980

famous to be less than seven feet in

298

00:13:41,370 --> 00:13:38,590

diameter power level 4400 megawatts

299

00:13:43,130 --> 00:13:41,380

that's twice Hoover Dam if you want

300

00:13:46,700 --> 00:13:43,140

something to compare it to which is

301
00:13:49,200 --> 00:13:46,710
larger than seven feet inside the

302
00:13:53,340 --> 00:13:49,210
exhaust temperature it uses liquid

303
00:13:56,790 --> 00:13:53,350
hydrogen and goes in liquid comes out at

304
00:14:00,990 --> 00:13:56,800
very hot gas temperature about the 4300

305
00:14:04,440 --> 00:14:01,000
degrees Fahrenheit and it worked that's

306
00:14:06,360 --> 00:14:04,450
no clear fishin I worked on a study of

307
00:14:07,689 --> 00:14:06,370
nuclear fusion that's really the

308
00:14:11,229 --> 00:14:07,699
exciting kind of

309
00:14:12,999 --> 00:14:11,239
potion system fusion for people don't

310
00:14:15,780 --> 00:14:13,009
recognize is the major source of energy

311
00:14:19,379 --> 00:14:15,790
throughout the universe all the stars

312
00:14:25,179 --> 00:14:19,389
produce their energy not by burning gas

313
00:14:27,220 --> 00:14:25,189

but by nuclear fusion processes and it's

314

00:14:29,739 --> 00:14:27,230

a little more efficient than burning gas

315

00:14:31,269 --> 00:14:29,749

or even than fishing we use the right

316

00:14:33,249 --> 00:14:31,279

stuff and the right way and kick

317

00:14:36,009 --> 00:14:33,259

particles out the back end of a fusion

318

00:14:38,019 --> 00:14:36,019

rocket that have 10 million times as

319

00:14:40,629 --> 00:14:38,029

much energy per particle as I can get in

320

00:14:41,979 --> 00:14:40,639

the dumb old chemical rocket and the

321

00:14:44,109 --> 00:14:41,989

thing is it's one of the things about

322

00:14:46,359 --> 00:14:44,119

the city guys they never refer to the

323

00:14:47,619 --> 00:14:46,369

advance of propulsion systems they think

324

00:14:50,319 --> 00:14:47,629

they'd have to be developed at a

325

00:14:53,019 --> 00:14:50,329

university had a guy tell me two guys

326

00:14:55,569 --> 00:14:53,029

tell me frankly that if Roswell really

327

00:14:57,639 --> 00:14:55,579

happens Stan they would have had to put

328

00:14:59,590 --> 00:14:57,649

half the physicist out of colleges

329

00:15:01,569 --> 00:14:59,600

across the country and I left I said

330

00:15:03,039 --> 00:15:01,579

you've got to be kidding yeah but you

331

00:15:04,629 --> 00:15:03,049

realize that we got national

332

00:15:07,929 --> 00:15:04,639

laboratories like Los Alamos and

333

00:15:10,090 --> 00:15:07,939

oakridge and Hanford and Sandia and

334

00:15:12,639 --> 00:15:10,100

Lawrence Livermore and we got companies

335

00:15:15,699 --> 00:15:12,649

like GE and Westinghouse and Lockheed

336

00:15:16,960 --> 00:15:15,709

and Boeing and all these guys plenty of

337

00:15:20,549 --> 00:15:16,970

guys with appropriate security

338

00:15:25,109 --> 00:15:20,559

clearances and very sharp talons out

339

00:15:28,509 --> 00:15:25,119

there um you know the Manhattan Project

340

00:15:30,460 --> 00:15:28,519

well it was done secretly first thing

341

00:15:32,549 --> 00:15:30,470

some people say it involves many is a

342

00:15:36,069 --> 00:15:32,559

hundred thousand people others say only

343

00:15:41,679 --> 00:15:36,079

60,000 the gaseous diffusion plant at

344

00:15:44,109 --> 00:15:41,689

Oak Ridge Tennessee used five percent of

345

00:15:47,409 --> 00:15:44,119

the electrical power produced in the

346

00:15:49,720 --> 00:15:47,419

United States to pump uranium

347

00:15:52,269 --> 00:15:49,730

hexafluoride a gas through little holes

348

00:15:55,119 --> 00:15:52,279

and nickel barriers in order to enrich

349

00:15:58,569 --> 00:15:55,129

it in u-235 the plant was a mile long

350

00:16:00,099 --> 00:15:58,579

done a secret use five percent of the

351

00:16:02,739 --> 00:16:00,109

electrical power of the United States

352

00:16:06,460 --> 00:16:02,749

and it was in Tennessee because they had

353

00:16:09,819 --> 00:16:06,470

TB a Tennessee Valley Authority they

354

00:16:13,509 --> 00:16:09,829

produced electricity and you know was a

355

00:16:15,669 --> 00:16:13,519

big project and when I well as an

356

00:16:17,439 --> 00:16:15,679

example i worked on aircraft nuclear

357

00:16:19,090 --> 00:16:17,449

propulsion systems and I mention that

358

00:16:21,580 --> 00:16:19,100

people look at me what's he talking

359

00:16:25,470 --> 00:16:21,590

about work for General Electric here

360

00:16:31,900 --> 00:16:25,480

their propulsion department Cincinnati

361

00:16:34,600 --> 00:16:31,910

1958 we spent 100 million dollars that

362

00:16:37,630 --> 00:16:34,610

was a lot of money for 1958 we annoyed

363

00:16:39,760 --> 00:16:37,640

30 35 hundred people of whom 1,100 were

364

00:16:42,720 --> 00:16:39,770

engineers and scientists this wasn't

365

00:16:46,510 --> 00:16:42,730

eight professors and 25 grad students

366

00:16:47,890 --> 00:16:46,520

this is a major undertaking would you

367

00:16:49,990 --> 00:16:47,900

believe that we have nuclear-powered

368

00:16:53,920 --> 00:16:50,000

aircraft carriers that can operate for

369

00:16:55,780 --> 00:16:53,930

18 years without refueling I read that

370

00:16:57,670 --> 00:16:55,790

in the book that that was the first time

371

00:17:00,310 --> 00:16:57,680

I had ever heard that that is crazy oh

372

00:17:02,320 --> 00:17:00,320

it is razy but I mean it just

373

00:17:04,270 --> 00:17:02,330

illustrates and this was not done in

374

00:17:06,720 --> 00:17:04,280

academia it was done an industry of

375

00:17:12,640 --> 00:17:06,730

course mm-hmm but that's nuclear fission

376

00:17:15,970 --> 00:17:12,650

now look at the progression from 1944 we

377

00:17:17,980 --> 00:17:15,980

had ten ton blockbusters these are that

378

00:17:20,380 --> 00:17:17,990

was a name for our biggest bombs and

379

00:17:22,360 --> 00:17:20,390

they weighed ten tons he like 10 tons of

380

00:17:25,240 --> 00:17:22,370

explosive and made a big hole in the

381

00:17:29,800 --> 00:17:25,250

ground boy I'll tell you at 1945 we

382

00:17:32,890 --> 00:17:29,810

tested the first atomic bomb it produced

383

00:17:35,800 --> 00:17:32,900

the energy of about 19,000 tons of

384

00:17:41,470 --> 00:17:35,810

explosives and boy we really went at it

385

00:17:45,220 --> 00:17:41,480

in 1952 the first nuclear device uh 10

386

00:17:48,280 --> 00:17:45,230

million tons of TNT wow that was a three

387

00:17:49,330 --> 00:17:48,290

mile wide fireball man and what just a

388

00:17:52,300 --> 00:17:49,340

minute what do you think they're at

389

00:17:55,360 --> 00:17:52,310

today well we we know that the Russians

390

00:17:58,390 --> 00:17:55,370

tested a bigger 157 million tons of

391

00:18:00,250 --> 00:17:58,400

explosive energy release equivalent and

392

00:18:02,620 --> 00:18:00,260

fortunately things have slowed down

393

00:18:05,260 --> 00:18:02,630

we've only tested and people realize

394

00:18:07,510 --> 00:18:05,270

we've exploded two thousand nuclear

395

00:18:10,330 --> 00:18:07,520

weapons on this planet only two of them

396

00:18:13,870 --> 00:18:10,340

and anger thank goodness you know I'm

397

00:18:16,150 --> 00:18:13,880

glad of that but 2002 clear weapons and

398

00:18:19,510 --> 00:18:16,160

the point of mentioning this is that

399

00:18:21,280 --> 00:18:19,520

gets you to one of the key questions not

400

00:18:22,860 --> 00:18:21,290

just can you get here from there which

401
00:18:25,840 --> 00:18:22,870
you can if you want to spend the money

402
00:18:27,820 --> 00:18:25,850
but why would they come here why don't

403
00:18:29,260 --> 00:18:27,830
they land on the White House lawn you

404
00:18:32,890 --> 00:18:29,270
know how they sit down for tea or

405
00:18:35,049 --> 00:18:32,900
whatever let's step back a little to

406
00:18:37,659 --> 00:18:35,059
look at those numbers I just gave

407
00:18:42,690 --> 00:18:37,669
we used weapons during the war world war

408
00:18:45,879 --> 00:18:42,700
two we killed 60 million of our own kind

409
00:18:49,060 --> 00:18:45,889
some people say 70 I'm very concerning

410
00:18:52,330 --> 00:18:49,070
so I only said 60 yes and we destroyed

411
00:18:53,710 --> 00:18:52,340
seventeen hundreds cities now if you

412
00:18:56,440 --> 00:18:53,720
were an alien would you want us out

413
00:18:58,330 --> 00:18:56,450

there I don't like no no of course not

414

00:19:00,639 --> 00:18:58,340

and you know why come here to make sure

415

00:19:02,019 --> 00:19:00,649

we don't go up there you got to keep

416

00:19:04,299 --> 00:19:02,029

tabs on the primitives in the

417

00:19:06,190 --> 00:19:04,309

neighborhood but only close tabs on the

418

00:19:08,919 --> 00:19:06,200

primitives to show signs of being able

419

00:19:11,560 --> 00:19:08,929

to bother you and what better place to

420

00:19:13,269 --> 00:19:11,570

do that in 1947 and then divide a desert

421

00:19:14,830 --> 00:19:13,279

you know I mean that's where we were

422

00:19:18,509 --> 00:19:14,840

testing a lot of our cutting-edge

423

00:19:21,580 --> 00:19:18,519

technology am i right well look in July

424

00:19:24,820 --> 00:19:21,590

1947 at the time of Roswell there were

425

00:19:26,799 --> 00:19:24,830

three signs that any visiting alien

426

00:19:30,789 --> 00:19:26,809

would notice that would indicate soon we

427

00:19:34,060 --> 00:19:30,799

be moving out nuclear weapons powerful

428

00:19:37,169 --> 00:19:34,070

rockets the German v2 our personal clear

429

00:19:39,279 --> 00:19:37,179

weapon test was in 1945 at trinity site

430

00:19:41,169 --> 00:19:39,289

which is on the grounds of the white

431

00:19:43,029 --> 00:19:41,179

sands missile range which is where we

432

00:19:46,180 --> 00:19:43,039

were testing the captured german rockets

433

00:19:47,350 --> 00:19:46,190

and where we had our best radar which is

434

00:19:50,049 --> 00:19:47,360

the beginning of the electronics

435

00:19:54,940 --> 00:19:50,059

revolution really just before World War

436

00:19:56,739 --> 00:19:54,950

two ah and that's where runs well this

437

00:19:59,710 --> 00:19:56,749

is southeastern New Mexico now

438

00:20:02,080 --> 00:19:59,720

admittedly I had a very haughty British

439

00:20:04,210 --> 00:20:02,090

astronomer say on a television program a

440

00:20:06,879 --> 00:20:04,220

lake could have gone in a Soviet Union

441

00:20:08,470 --> 00:20:06,889

and he said no sorry I didn't test their

442

00:20:12,940 --> 00:20:08,480

first nuclear weapon until nineteen

443

00:20:15,700 --> 00:20:12,950

forty nine so I I can understand them

444

00:20:19,509 --> 00:20:15,710

being there and I can understand their

445

00:20:23,080 --> 00:20:19,519

concern with us and I can understand the

446

00:20:28,029 --> 00:20:23,090

military's concern with the aliens I

447

00:20:32,230 --> 00:20:28,039

have personally heard seven stories of

448

00:20:35,049 --> 00:20:32,240

airplanes military planes chasing UFOs

449

00:20:36,460 --> 00:20:35,059

and not coming back if I've heard seven

450

00:20:39,600 --> 00:20:36,470

such stories have been a lot more than

451
00:20:43,960 --> 00:20:39,610
that and people don't realize it but in

452
00:20:46,280 --> 00:20:43,970
1952 the military gave orders that was a

453
00:20:50,300 --> 00:20:46,290
big year for UFO sightings

454
00:20:53,870 --> 00:20:50,310
shoot them down if they don't land when

455
00:20:55,340 --> 00:20:53,880
instructed to do so that's what was what

456
00:20:58,430 --> 00:20:55,350
said those were the orders it was in the

457
00:21:00,050 --> 00:20:58,440
newspapers and they even named the

458
00:21:01,790 --> 00:21:00,060
military officer and there was an Air

459
00:21:03,650 --> 00:21:01,800
Force general who shortly thereafter

460
00:21:08,060 --> 00:21:03,660
said we've scrambled them three hundred

461
00:21:13,490 --> 00:21:08,070
times what can I say there's a lot going

462
00:21:18,260 --> 00:21:13,500
on the mutual UFO network largest UFO

463
00:21:23,420 --> 00:21:18,270

group around mm-hmm I has been getting

464

00:21:24,820 --> 00:21:23,430

over 600 sighting reports a month for

465

00:21:28,310 --> 00:21:24,830

years it's a lot of sightings

466

00:21:30,410 --> 00:21:28,320

something's definitely happening yeah it

467

00:21:32,390 --> 00:21:30,420

is and the point isn't that I'm saying

468

00:21:35,990 --> 00:21:32,400

every UFO sightings an alien spacecraft

469

00:21:38,780 --> 00:21:36,000

of course not no and every isotope of

470

00:21:42,320 --> 00:21:38,790

uranium is not fashionable either so

471

00:21:45,140 --> 00:21:42,330

what right it only tells if one if one

472

00:21:48,470 --> 00:21:45,150

is that's that's la you know history

473

00:21:50,570 --> 00:21:48,480

changing yeah and and that's the thing

474

00:21:52,640 --> 00:21:50,580

that history has been changing and some

475

00:21:54,260 --> 00:21:52,650

people may get a little upset when I say

476

00:21:56,540 --> 00:21:54,270

we're primitive society as major

477

00:21:59,870 --> 00:21:56,550

activity is tribal where for warfare but

478

00:22:03,620 --> 00:21:59,880

the u.s. just passed a new military

479

00:22:06,890 --> 00:22:03,630

budget the other day six hundred billion

480

00:22:09,170 --> 00:22:06,900

dollars you throw in the rest of the

481

00:22:11,660 --> 00:22:09,180

planet and Earthlings will spend

482

00:22:14,720 --> 00:22:11,670

approximately a trillion dollars this

483

00:22:16,670 --> 00:22:14,730

coming year sad and thousands of

484

00:22:18,740 --> 00:22:16,680

children die every single day of

485

00:22:20,480 --> 00:22:18,750

preventable disease or starvation that

486

00:22:23,540 --> 00:22:20,490

tells you a lot about this planet I

487

00:22:26,480 --> 00:22:23,550

think yeah I mean I feel like so many

488

00:22:28,070 --> 00:22:26,490

people you know he would hear what

489

00:22:31,700 --> 00:22:28,080

you're saying and feel the exact same

490

00:22:33,950 --> 00:22:31,710

way but it just kind of in one way seems

491

00:22:35,380 --> 00:22:33,960

to be outside of our control you know

492

00:22:37,550 --> 00:22:35,390

there seems to be people who want to

493

00:22:39,730 --> 00:22:37,560

operate a certain way and no matter

494

00:22:43,040 --> 00:22:39,740

which leaders we tend to elect they

495

00:22:45,200 --> 00:22:43,050

always always seem to just want to

496

00:22:47,900 --> 00:22:45,210

engage in warfare it's an unfortunate

497

00:22:49,910 --> 00:22:47,910

circumstance that that's how you get

498

00:22:52,940 --> 00:22:49,920

boats isn't it I'm stronger than their

499

00:22:54,320 --> 00:22:52,950

car kenley so um now let me ask you

500

00:22:56,600 --> 00:22:54,330

about Roswell because you know you

501
00:22:58,640 --> 00:22:56,610
reopened the case in 1970 even no one

502
00:22:59,810 --> 00:22:58,650
was talking about it you've done tons of

503
00:23:01,640 --> 00:22:59,820
research

504
00:23:03,830 --> 00:23:01,650
doing it today probably for 40 years

505
00:23:05,330 --> 00:23:03,840
you've been talking about it but I gotta

506
00:23:06,440 --> 00:23:05,340
have you walk me through the Roswell

507
00:23:09,080 --> 00:23:06,450
case because there's so much wild

508
00:23:12,710 --> 00:23:09,090
speculation that they were Japanese poww

509
00:23:14,180 --> 00:23:12,720
experiments or there were no bodies or

510
00:23:16,550 --> 00:23:14,190
crash tests on me so what does it look

511
00:23:19,400 --> 00:23:16,560
like to you the Roswell case well trim

512
00:23:21,500 --> 00:23:19,410
more crazy stories than you can shake a

513
00:23:23,570 --> 00:23:21,510

stick at right first of all we have to

514

00:23:26,090 --> 00:23:23,580

recognize that nobody came running to me

515

00:23:29,210 --> 00:23:26,100

with the Roswell story hey Stan I got a

516

00:23:31,100 --> 00:23:29,220

good one for you right at all I was in

517

00:23:33,620 --> 00:23:31,110

Baton Rouge Louisiana the television

518

00:23:37,130 --> 00:23:33,630

stations promoting my lecture that night

519

00:23:39,550 --> 00:23:37,140

this in 1978 promoting my lecture that

520

00:23:42,470 --> 00:23:39,560

night at Louisiana State University and

521

00:23:44,390 --> 00:23:42,480

I had done two interviews I supposed to

522

00:23:46,340 --> 00:23:44,400

do with third one at the station and the

523

00:23:48,440 --> 00:23:46,350

reporter was nowhere to be found no cell

524

00:23:51,140 --> 00:23:48,450

phone thing so you know how do you how

525

00:23:52,910 --> 00:23:51,150

do you find her where is she and the guy

526

00:23:54,410 --> 00:23:52,920

the station managers give me coffee he's

527

00:23:55,880 --> 00:23:54,420

looking at his watch because he knew the

528

00:23:58,280 --> 00:23:55,890

people who brought me to the station he

529

00:24:00,470 --> 00:23:58,290

knew I had other things to do in out of

530

00:24:03,230 --> 00:24:00,480

the blue he says you know the guy you

531

00:24:05,240 --> 00:24:03,240

got to talk to is jesse marcel and

532

00:24:09,050 --> 00:24:05,250

brilliant investigator that I am I said

533

00:24:10,460 --> 00:24:09,060

who's he oh he handled wreckage from one

534

00:24:13,120 --> 00:24:10,470

of those saucers you're interested in

535

00:24:16,400 --> 00:24:13,130

when he was in the military what I

536

00:24:17,840 --> 00:24:16,410

dropped my teeth you know tell me more

537

00:24:19,820 --> 00:24:17,850

what do you know about him he lives in

538

00:24:22,420 --> 00:24:19,830

Houma Louisiana what didn't tell me

539

00:24:25,160 --> 00:24:22,430

anything didn't know where homo who does

540

00:24:28,850 --> 00:24:25,170

I've been there since to talk to Jesse

541

00:24:30,680 --> 00:24:28,860

anyway he told me about Jesse and then

542

00:24:32,450 --> 00:24:30,690

the reporter showed up and had a great

543

00:24:35,570 --> 00:24:32,460

crowd that night the next day from the

544

00:24:37,700 --> 00:24:35,580

airport I was there a bit early I called

545

00:24:40,460 --> 00:24:37,710

information this is before the internet

546

00:24:42,770 --> 00:24:40,470

you understand right now it's easier

547

00:24:45,650 --> 00:24:42,780

called information got a number for

548

00:24:47,180 --> 00:24:45,660

Jesse Marcel talked to him and he told

549

00:24:49,580 --> 00:24:47,190

me a story now he couldn't deny it

550

00:24:52,040 --> 00:24:49,590

because as I found out later his picture

551
00:24:55,400 --> 00:24:52,050
was in newspapers all over the place the

552
00:24:56,630 --> 00:24:55,410
story was all over the place he could

553
00:24:58,250 --> 00:24:56,640
hardly say oh I didn't have anything to

554
00:25:00,590 --> 00:24:58,260
do with that well you know there wasn't

555
00:25:03,650 --> 00:25:00,600
a story so he told me he was the

556
00:25:05,480 --> 00:25:03,660
intelligence officer for the 509 now

557
00:25:08,270 --> 00:25:05,490
it's an important thing to recall that

558
00:25:11,330 --> 00:25:08,280
the 50 ninth was the most elite military

559
00:25:13,490 --> 00:25:11,340
group in the world why do I say that

560
00:25:16,790 --> 00:25:13,500
because they dropped the atomic bombs

561
00:25:18,350 --> 00:25:16,800
Hiroshima and Nagasaki 45 and they

562
00:25:22,420 --> 00:25:18,360
dropped two more in operation crossroads

563
00:25:25,460 --> 00:25:22,430

in 1946 that was out in the Pacific and

564

00:25:28,990 --> 00:25:25,470

so all the officers were hand-picked

565

00:25:31,460 --> 00:25:29,000

officers high level of clearances etc so

566

00:25:33,560 --> 00:25:31,470

he's the intelligence officer he's the

567

00:25:35,900 --> 00:25:33,570

duty officer for the day on Sunday the

568

00:25:38,450 --> 00:25:35,910

sixth they get a call from the Sheriff's

569

00:25:41,870 --> 00:25:38,460

Office that a rancher had come in with

570

00:25:44,120 --> 00:25:41,880

some strange wreckage now I should add

571

00:25:46,370 --> 00:25:44,130

that there were we now know the roughly

572

00:25:48,950 --> 00:25:46,380

a thousand sightings in the June July

573

00:25:50,450 --> 00:25:48,960

time frame right here Kenneth Arnold's

574

00:25:52,490 --> 00:25:50,460

big sighting on june twenty-fourth

575

00:25:58,700 --> 00:25:52,500

started the ball rolling so just two

576

00:26:00,680 --> 00:25:58,710

weeks earlier and so the sheriff

577

00:26:02,180 --> 00:26:00,690

naturally called the base as he was

578

00:26:04,220 --> 00:26:02,190

supposed to if there was anything that

579

00:26:06,260 --> 00:26:04,230

might involve the base nobody was

580

00:26:08,480 --> 00:26:06,270

talking about Martians or anything like

581

00:26:10,820 --> 00:26:08,490

that but people were seeing awful

582

00:26:12,320 --> 00:26:10,830

strange stuff flying very fast all over

583

00:26:16,790 --> 00:26:12,330

the United States and some other

584

00:26:18,950 --> 00:26:16,800

countries and so the chef was supposed

585

00:26:20,600 --> 00:26:18,960

to call the base he talked to Jesse

586

00:26:22,130 --> 00:26:20,610

Jesse went and looked at the records

587

00:26:23,810 --> 00:26:22,140

that the ramp sure had brought in a

588

00:26:26,600 --> 00:26:23,820

small amount of what was out of his

589

00:26:28,220 --> 00:26:26,610

ranch he said there was nothing

590

00:26:30,320 --> 00:26:28,230

conventional there at all he'd served

591

00:26:33,140 --> 00:26:30,330

with Pacific 18 airplane crash if he

592

00:26:35,930 --> 00:26:33,150

knew what to expect and he talks to the

593

00:26:37,070 --> 00:26:35,940

base commander Colonel Blanchard the

594

00:26:39,290 --> 00:26:37,080

blocks man says take the

595

00:26:41,180 --> 00:26:39,300

counterintelligence Corps guy that means

596

00:26:44,330 --> 00:26:41,190

he was concerned about who's spying on

597

00:26:47,480 --> 00:26:44,340

us you could hide an army in New Mexico

598

00:26:49,130 --> 00:26:47,490

very low population density and so they

599

00:26:52,760 --> 00:26:49,140

go out they follow the rancher a big

600

00:26:55,550 --> 00:26:52,770

finest debris field three quarters of a

601
00:26:57,440 --> 00:26:55,560
mile long a few hundred yards wide crazy

602
00:26:59,600 --> 00:26:57,450
stuff strewn out all over the place

603
00:27:02,150 --> 00:26:59,610
foil-like material mostly very

604
00:27:04,820 --> 00:27:02,160
lightweight very strong and what Jesse

605
00:27:06,650 --> 00:27:04,830
told me our first conversation was there

606
00:27:09,320 --> 00:27:06,660
wasn't anything conventional out there

607
00:27:12,710 --> 00:27:09,330
you expect vacuum tubes you expect wires

608
00:27:15,530 --> 00:27:12,720
you expect tag saying made in Oshkosh on

609
00:27:17,840 --> 00:27:15,540
equipment you know airplane crashes

610
00:27:20,420 --> 00:27:17,850
produce a lot of junk and there wasn't

611
00:27:21,940 --> 00:27:20,430
anything like that and Jesse figured

612
00:27:24,710 --> 00:27:21,950
that it had to be a mid-air explosion

613
00:27:26,730 --> 00:27:24,720

because covering such a large area and

614

00:27:28,980 --> 00:27:26,740

there was no crater

615

00:27:31,470 --> 00:27:28,990

because when airplane goes in you make a

616

00:27:33,480 --> 00:27:31,480

big hole in the ground mm-hmm so they

617

00:27:35,340 --> 00:27:33,490

goes back like each take some other

618

00:27:37,860 --> 00:27:35,350

wreckage still leaving most of it out

619

00:27:40,980 --> 00:27:37,870

there go back to town late at night on

620

00:27:44,130 --> 00:27:40,990

the 7th on the 8th at the big meeting in

621

00:27:46,320 --> 00:27:44,140

the morning meeting at the base the base

622

00:27:50,160 --> 00:27:46,330

commander gives two orders one is to the

623

00:27:51,960 --> 00:27:50,170

press guy Walter out put out a press

624

00:27:53,850 --> 00:27:51,970

release saying we picked up one of these

625

00:27:56,460 --> 00:27:53,860

saucers that people have been saying and

626
00:27:58,950 --> 00:27:56,470
the other ones to jesse marcel take some

627
00:28:01,049 --> 00:27:58,960
of this wreckage with you to

628
00:28:02,820 --> 00:28:01,059
wright-patterson Air Force Base that's

629
00:28:05,070 --> 00:28:02,830
where captured equipment is supposed to

630
00:28:08,640 --> 00:28:05,080
go and make a stop at our headquarters

631
00:28:12,440 --> 00:28:08,650
eight airports in Fort Worth Texas so

632
00:28:14,910 --> 00:28:12,450
naturally everybody follows orders and

633
00:28:16,830 --> 00:28:14,920
press release goes out about noon New

634
00:28:19,919 --> 00:28:16,840
Mexico time which is too late for the

635
00:28:23,520 --> 00:28:19,929
East Coast entirely but not too late for

636
00:28:26,130 --> 00:28:23,530
evening papers from Chicago west and I

637
00:28:28,590 --> 00:28:26,140
found copies in Chicago Daily News in

638
00:28:31,520 --> 00:28:28,600

the San Francisco paper and the salt

639

00:28:34,169 --> 00:28:31,530

lake tribune and Spokane Chronicle and

640

00:28:37,350 --> 00:28:34,179

Los Angeles hurl examiner had the

641

00:28:40,710 --> 00:28:37,360

original story and because of the time

642

00:28:42,600 --> 00:28:40,720

difference had the cover-up general

643

00:28:45,540 --> 00:28:42,610

Roger Ramey head of the 8th Air Force at

644

00:28:47,430 --> 00:28:45,550

port where it says just the radar

645

00:28:49,890 --> 00:28:47,440

reflector weather balloon combination

646

00:28:51,930 --> 00:28:49,900

which is an insult the intelligence of

647

00:28:55,110 --> 00:28:51,940

all the guys in the 5 online but they

648

00:28:57,690 --> 00:28:55,120

couldn't recognize that is Austin now I

649

00:28:59,850 --> 00:28:57,700

should add some people said oh but they

650

00:29:02,850 --> 00:28:59,860

handed Blanchard his head for putting

651
00:29:04,919 --> 00:29:02,860
out that crazy press release he got four

652
00:29:07,320 --> 00:29:04,929
more promotions after that and wound up

653
00:29:09,180 --> 00:29:07,330
as a four-star general and vice chief of

654
00:29:11,520 --> 00:29:09,190
staff for the United States Air Force

655
00:29:13,980 --> 00:29:11,530
when he died of a massive heart attack

656
00:29:17,700 --> 00:29:13,990
at the Pentagon in the mid 60s he was

657
00:29:19,020 --> 00:29:17,710
not punished early in July 1947 bill

658
00:29:22,410 --> 00:29:19,030
went to the University of Minnesota

659
00:29:24,900 --> 00:29:22,420
library periodicals department there was

660
00:29:27,500 --> 00:29:24,910
a story confirming what Jesse it's

661
00:29:30,090 --> 00:29:27,510
giving us more names more information

662
00:29:32,190 --> 00:29:30,100
they spelled Walter house name four

663
00:29:34,980 --> 00:29:32,200

different ways when you pick up papers

664

00:29:38,070 --> 00:29:34,990

but in the next year and a half we found

665

00:29:40,140 --> 00:29:38,080

62 people connected with the event Wow

666

00:29:41,820 --> 00:29:40,150

and it

667

00:29:43,800 --> 00:29:41,830

that was the old fashioned way you know

668

00:29:47,010 --> 00:29:43,810

telephone information and stuff of their

669

00:29:49,250 --> 00:29:47,020

say no internet what I was lucky I'll

670

00:29:53,130 --> 00:29:49,260

grant that I called the Roswell paper

671

00:29:55,860 --> 00:29:53,140

once I found out they had one as for the

672

00:29:57,570 --> 00:29:55,870

editor from 1947 oh he's long gone what

673

00:29:59,430 --> 00:29:57,580

do you need that's a long count this

674

00:30:01,860 --> 00:29:59,440

article here that says the base public

675

00:30:03,420 --> 00:30:01,870

information officer Gannon Walter we've

676

00:30:07,230 --> 00:30:03,430

before I could finish to such as all his

677

00:30:09,480 --> 00:30:07,240

wife works here what conveniently you

678

00:30:12,000 --> 00:30:09,490

don't expect the guy who was born in

679

00:30:15,660 --> 00:30:12,010

Chicago as a matter of fact who was

680

00:30:18,720 --> 00:30:15,670

based in roswell in 1947 to still be

681

00:30:21,540 --> 00:30:18,730

there in 1978 but he was he had a base

682

00:30:23,160 --> 00:30:21,550

yearbook was a tower of strength one of

683

00:30:26,970 --> 00:30:23,170

the founders of the international UFO

684

00:30:30,060 --> 00:30:26,980

museum incidentally I a great guy and I

685

00:30:32,190 --> 00:30:30,070

talked a lot of people know Walter he

686

00:30:35,480 --> 00:30:32,200

was also a bomba during the war more

687

00:30:37,710 --> 00:30:35,490

than 20 missions dropping bombs on Japan

688

00:30:40,320 --> 00:30:37,720

dropped the instrument package one of

689

00:30:42,240 --> 00:30:40,330

those two nuclear weapons tests in 1946

690

00:30:44,190 --> 00:30:42,250

you pick your best people to do that I

691

00:30:45,510 --> 00:30:44,200

want to stress because weren't a bunch

692

00:30:47,220 --> 00:30:45,520

of nuts they weren't a bunch of kooks

693

00:30:50,190 --> 00:30:47,230

they were people who had something on

694

00:30:53,550 --> 00:30:50,200

the ball no question right and the first

695

00:30:57,330 --> 00:30:53,560

book came out in 1980 I got a percentage

696

00:30:58,980 --> 00:30:57,340

of Bill Maurice royalties he worked with

697

00:31:00,630 --> 00:30:58,990

charles berlitz whose name was magic

698

00:31:04,380 --> 00:31:00,640

with publishers because of the perimeter

699

00:31:08,100 --> 00:31:04,390

trial and we kept at it by 1985 we'd

700

00:31:09,630 --> 00:31:08,110

found 92 people and the research is

701
00:31:11,460 --> 00:31:09,640
going on of course most of the people

702
00:31:15,020 --> 00:31:11,470
are dead but if you go to my website

703
00:31:17,550 --> 00:31:15,030
tripled up I adopt Stanton Friedman calm

704
00:31:21,660 --> 00:31:17,560
one of the DVD sets listed his

705
00:31:25,290 --> 00:31:21,670
recollections of Roswell with firsthand

706
00:31:28,440 --> 00:31:25,300
witnesses only 27 of them and almost all

707
00:31:31,380 --> 00:31:28,450
of them are dead not quite a skin I mean

708
00:31:34,230 --> 00:31:31,390
it's getting to be that time you know

709
00:31:37,530 --> 00:31:34,240
the human lifespan only last so long but

710
00:31:39,570 --> 00:31:37,540
let me ask you where do the alien bodies

711
00:31:42,420 --> 00:31:39,580
come in you know where did you start to

712
00:31:46,020 --> 00:31:42,430
hear those reporting wait there wasn't

713
00:31:50,060 --> 00:31:46,030

any talk about bodies back then in 47

714

00:31:52,620 --> 00:31:50,070

but as I started to do the research I

715

00:31:53,190 --> 00:31:52,630

was checking around who can we talk to

716

00:31:58,470 --> 00:31:53,200

in

717

00:32:03,120 --> 00:31:58,480

of the people that was mentioned was

718

00:32:05,509 --> 00:32:03,130

Glenn Dennis the Undertaker and he's the

719

00:32:08,070 --> 00:32:05,519

one who first came up with the body's

720

00:32:13,769 --> 00:32:08,080

story and then we had other people tell

721

00:32:17,399 --> 00:32:13,779

us the same thing and he got a telephone

722

00:32:20,340 --> 00:32:17,409

call from the base guy who handled

723

00:32:22,350 --> 00:32:20,350

funerals and stuff like that asking

724

00:32:25,919 --> 00:32:22,360

about how they could get small caskets

725

00:32:28,560 --> 00:32:25,929

and he said well we've got a couple here

726

00:32:30,810 --> 00:32:28,570

three footers four-footers you know like

727

00:32:33,360 --> 00:32:30,820

four kids and we can get you more over

728

00:32:35,070 --> 00:32:33,370

in Amarillo take a day or two and so

729

00:32:37,889 --> 00:32:35,080

forth and what was there an accident

730

00:32:39,029 --> 00:32:37,899

that you need my services no I'm just

731

00:32:41,610 --> 00:32:39,039

wondering it what would you do to

732

00:32:43,620 --> 00:32:41,620

preserve bodies that were found out in

733

00:32:46,710 --> 00:32:43,630

the desert gets awful hot down there

734

00:32:48,120 --> 00:32:46,720

Glenn talked about dry ice and told them

735

00:32:51,720 --> 00:32:48,130

where they could get it stuff like that

736

00:32:53,250 --> 00:32:51,730

and when i talked to glenn at first he

737

00:32:55,950 --> 00:32:53,260

was reluctant to tell me much of

738

00:32:58,950 --> 00:32:55,960

anything and then I i sent him a bunch

739

00:33:01,580 --> 00:32:58,960

of background material and so we know i

740

00:33:04,289 --> 00:33:01,590

wasn't a national enquirer early work

741

00:33:06,930 --> 00:33:04,299

it's a come on up we'll talk about it I

742

00:33:10,200 --> 00:33:06,940

was with another guy who knew Glenn

743

00:33:14,610 --> 00:33:10,210

drove me up there and I Glenn tells me a

744

00:33:16,759 --> 00:33:14,620

story about he dropped an airman off at

745

00:33:19,490 --> 00:33:16,769

the base hospital i squirted a min be

746

00:33:23,009 --> 00:33:19,500

this may surprise some people but the

747

00:33:26,220 --> 00:33:23,019

funeral service provided the ambulance

748

00:33:28,560 --> 00:33:26,230

service thank you know I Hurston an

749

00:33:31,680 --> 00:33:28,570

ambulance not much difference went down

750

00:33:34,590 --> 00:33:31,690

tonight splitting hairs it and he walked

751

00:33:38,009 --> 00:33:34,600

in to see a nurse he had some interest

752

00:33:39,389 --> 00:33:38,019

in and she saw him you know get out of

753

00:33:42,450 --> 00:33:39,399

here they're gonna give me a hard time

754

00:33:45,240 --> 00:33:42,460

you can't stay here and the guys there

755

00:33:47,519 --> 00:33:45,250

gave him a hard time I don't you ever

756

00:33:50,190 --> 00:33:47,529

say anything in town etc they escorted

757

00:33:53,220 --> 00:33:50,200

him out the next day he met her for

758

00:33:57,539 --> 00:33:53,230

lunch at the officer's club she was a

759

00:33:59,970 --> 00:33:57,549

lieutenant and she was drafted into

760

00:34:02,630 --> 00:33:59,980

service by some doctors that were there

761

00:34:04,160 --> 00:34:02,640

who were

762

00:34:07,250 --> 00:34:04,170

that's the word I want I don't want to

763

00:34:09,980 --> 00:34:07,260

say they weren't autopsying but they

764

00:34:12,760 --> 00:34:09,990

were cutting up some bodies that were

765

00:34:16,520 --> 00:34:12,770

there that stank to high heaven and

766

00:34:18,500 --> 00:34:16,530

really got her very upset she drew a

767

00:34:23,300 --> 00:34:18,510

picture for him their hands looked like

768

00:34:24,800 --> 00:34:23,310

and so forth and I she pretty upset

769

00:34:26,240 --> 00:34:24,810

about the whole thing and then when he

770

00:34:28,760 --> 00:34:26,250

tried to get back to talk to her in a

771

00:34:31,399 --> 00:34:28,770

couple of days she was gone she'd been

772

00:34:33,380 --> 00:34:31,409

shipped out so since then we've heard

773

00:34:36,380 --> 00:34:33,390

many other stories about bodies but

774

00:34:40,580 --> 00:34:36,390

again always quietly in the background

775

00:34:44,169 --> 00:34:40,590

and do you think Roswell is the the

776

00:34:48,290 --> 00:34:44,179

closest we've ever come to a smoking gun

777

00:34:52,630 --> 00:34:48,300

well the aspect case was just as good

778

00:34:56,060 --> 00:34:52,640

more bodies and more intact craft yeah

779

00:35:00,230 --> 00:34:56,070

yeah yeahs and that that's why mention

780

00:35:03,020 --> 00:35:00,240

that book Aztec incident it's listed on

781

00:35:05,470 --> 00:35:03,030

the website and you also get the

782

00:35:08,720 --> 00:35:05,480

multiple witness radar visual cases

783

00:35:10,990 --> 00:35:08,730

which are very exciting when a plane in

784

00:35:12,950 --> 00:35:11,000

the sky has a saucer fly around it

785

00:35:16,430 --> 00:35:12,960

especially if it's a reconnaissance

786

00:35:19,220 --> 00:35:16,440

bomber the plane and they're monitoring

787

00:35:22,130 --> 00:35:19,230

with fancy equipment and a radio the

788

00:35:25,610 --> 00:35:22,140

ground and the ground radar military fix

789

00:35:28,220 --> 00:35:25,620

them up and this object and the deciding

790

00:35:30,200 --> 00:35:28,230

goes on for an hour multiple witness

791

00:35:33,080 --> 00:35:30,210

read our visual was highly trained

792

00:35:35,390 --> 00:35:33,090

people that's pretty exciting and then

793

00:35:38,810 --> 00:35:35,400

Len well there was a case up in the

794

00:35:42,110 --> 00:35:38,820

Yukon 31 witnesses you see this

795

00:35:45,130 --> 00:35:42,120

monstrous craft and a civil engineer

796

00:35:47,720 --> 00:35:45,140

named Martin jacek wrote a report on it

797

00:35:49,520 --> 00:35:47,730

he was able to triangulate because there

798

00:35:52,370 --> 00:35:49,530

were so many witnesses spread out over

799

00:35:54,140 --> 00:35:52,380

quite an area on the ground and this

800

00:35:59,990 --> 00:35:54,150

thing was between half a mile and a mile

801
00:36:03,470 --> 00:36:00,000
long she yeah you know there was the

802
00:36:04,910 --> 00:36:03,480
Japan Airlines case where the crew of

803
00:36:09,440 --> 00:36:04,920
the plane which was heading toward

804
00:36:11,390 --> 00:36:09,450
Fairbanks Alaska from Iceland this big

805
00:36:14,599 --> 00:36:11,400
ole object twice the size of an aircraft

806
00:36:17,390 --> 00:36:14,609
carrier they said circled around them

807
00:36:20,989 --> 00:36:17,400
they pick it up on the plane radar they

808
00:36:23,359 --> 00:36:20,999
radio the ground the military radar

809
00:36:25,940 --> 00:36:23,369
there they pick them up in the object

810
00:36:28,269 --> 00:36:25,950
they get permission to fly in a circle

811
00:36:30,920 --> 00:36:28,279
and this thing station keeps whip them

812
00:36:33,589 --> 00:36:30,930
at all this being recorded by the guys

813
00:36:35,960 --> 00:36:33,599

on the ground now what do you do with

814

00:36:39,920 --> 00:36:35,970

the case like that we cover it up as a

815

00:36:42,289 --> 00:36:39,930

matter of fact the FAA guy Callahan has

816

00:36:44,660 --> 00:36:42,299

talked about he was told to grab all the

817

00:36:47,089 --> 00:36:44,670

paper and all the radar screen

818

00:36:48,979 --> 00:36:47,099

information take it to a meeting in

819

00:36:51,349 --> 00:36:48,989

Washington it was all taken from her and

820

00:36:53,180 --> 00:36:51,359

that was the end of that hmm but you

821

00:36:56,690 --> 00:36:53,190

know these are the guys were depending

822

00:36:59,120 --> 00:36:56,700

on to monitor our skies and so forth you

823

00:37:00,940 --> 00:36:59,130

can't ignore their testimony right you

824

00:37:04,220 --> 00:37:00,950

gotta you gotta think they're credible

825

00:37:07,700 --> 00:37:04,230

yeah and then there's the Ted Phillips

826

00:37:10,339 --> 00:37:07,710

of Missouri's collected well last time

827

00:37:12,829 --> 00:37:10,349

record about 4,000 physical trace cases

828

00:37:15,440 --> 00:37:12,839

from 80 countries where people see a

829

00:37:18,019 --> 00:37:15,450

craft on the ground and after it leaves

830

00:37:20,450 --> 00:37:18,029

one finds physical changes and one-sixth

831

00:37:23,269 --> 00:37:20,460

of the guys 16 of the cases involving

832

00:37:25,729 --> 00:37:23,279

reports of little beings then of course

833

00:37:29,359 --> 00:37:25,739

you got your abduction cases like the

834

00:37:31,940 --> 00:37:29,369

Betty Barney Hill case incredible story

835

00:37:34,400 --> 00:37:31,950

but the psychiatrist that was involved

836

00:37:37,670 --> 00:37:34,410

involved doing the hypnosis was a

837

00:37:41,390 --> 00:37:37,680

world-class expert dr. Benjamin silent

838

00:37:44,720 --> 00:37:41,400

on Oh today we'd say PTSD post-traumatic

839

00:37:47,329 --> 00:37:44,730

stress disorder you know hmm Betty and

840

00:37:49,190 --> 00:37:47,339

Barney were each separately when under

841

00:37:52,370 --> 00:37:49,200

hypnosis because there was a period of

842

00:37:57,289 --> 00:37:52,380

missing time he this is many sessions

843

00:38:00,289 --> 00:37:57,299

each separately and he is as in writing

844

00:38:03,109 --> 00:38:00,299

said but the emotional intensity as they

845

00:38:05,210 --> 00:38:03,119

relive the experience was as great as

846

00:38:07,759 --> 00:38:05,220

that of any of the war veterans that he

847

00:38:09,890 --> 00:38:07,769

had worked with he ran at 3,000 bed

848

00:38:13,009 --> 00:38:09,900

hospital for shell shock War veterans

849

00:38:15,410 --> 00:38:13,019

man so this is a guy who knows what he's

850

00:38:18,890 --> 00:38:15,420

talking about and he had to stop one

851
00:38:20,779 --> 00:38:18,900
session each because he wasn't sure they

852
00:38:24,109 --> 00:38:20,789
could handle it you know blood pressure

853
00:38:27,330 --> 00:38:24,119
going up heart rate going up terror pure

854
00:38:31,350 --> 00:38:28,950
weren't copying anybody because nobody

855
00:38:32,700 --> 00:38:31,360
reported in such a case before they can

856
00:38:35,520 --> 00:38:32,710
you give us the details of that account

857
00:38:38,010 --> 00:38:35,530
of that of that case what did they say

858
00:38:39,960 --> 00:38:38,020
that they experienced well they were

859
00:38:42,360 --> 00:38:39,970
driving home from Canada toward

860
00:38:45,690 --> 00:38:42,370
Portsmouth New Hampshire late at night

861
00:38:47,310 --> 00:38:45,700
they spotted this object in the sky kind

862
00:38:48,470 --> 00:38:47,320
of lonely country I've been up there as

863
00:38:52,470 --> 00:38:48,480

a matter of fact they'll be a whole

864

00:38:55,440 --> 00:38:52,480

anniversary celebration September 14 15

865

00:38:59,490 --> 00:38:55,450

16 in New Hampshire Lincoln New

866

00:39:01,710 --> 00:38:59,500

Hampshire I and they spot this thing

867

00:39:04,530 --> 00:39:01,720

flying in the sky and Betty watches and

868

00:39:07,560 --> 00:39:04,540

describes it to Barney he's driving late

869

00:39:09,660 --> 00:39:07,570

at night and oh no Betty there aren't

870

00:39:12,390 --> 00:39:09,670

any flying saucers and it's probably a

871

00:39:15,180 --> 00:39:12,400

Piper Cub well it's moving strangely

872

00:39:18,390 --> 00:39:15,190

quite strangely it flew in front of the

873

00:39:20,640 --> 00:39:18,400

moon I you know between them and the

874

00:39:22,470 --> 00:39:20,650

moon and stuff like that and it flew

875

00:39:25,110 --> 00:39:22,480

near the old man of the mountain which

876

00:39:27,800 --> 00:39:25,120

was a major monument up there it since

877

00:39:30,570 --> 00:39:27,810

fallen into the like button and it was

878

00:39:34,160 --> 00:39:30,580

one and a half times the size of the

879

00:39:36,180 --> 00:39:34,170

sort of sculpture which is 48 feet so

880

00:39:40,950 --> 00:39:36,190

people are trying to identify this as

881

00:39:44,580 --> 00:39:40,960

Jupiter Jupiter doesn't fly in front of

882

00:39:47,880 --> 00:39:44,590

the moon nobody realizes that and it

883

00:39:50,490 --> 00:39:47,890

certainly isn't 70 feet high you know as

884

00:39:55,200 --> 00:39:50,500

you're watching a pattern there on the

885

00:39:57,630 --> 00:39:55,210

planet I anyway they keep driving long

886

00:39:59,970 --> 00:39:57,640

going home and this thing comes up close

887

00:40:02,490 --> 00:39:59,980

to them less than 200 feet away Barney

888

00:40:03,900 --> 00:40:02,500

gets out of the car with binoculars he's

889

00:40:05,580 --> 00:40:03,910

looking at the same through the

890

00:40:08,940 --> 00:40:05,590

binoculars through the windows of this

891

00:40:11,100 --> 00:40:08,950

round craft up there he sees about a

892

00:40:13,920 --> 00:40:11,110

10-man crew of sort of strange

893

00:40:18,390 --> 00:40:13,930

characters and he suddenly gets very

894

00:40:20,270 --> 00:40:18,400

frightened yes his back to the car tell

895

00:40:23,850 --> 00:40:20,280

Barney the government I capture us

896

00:40:27,120 --> 00:40:23,860

drives off does something very strange

897

00:40:29,880 --> 00:40:27,130

she turned from a major highway route 32

898

00:40:31,470 --> 00:40:29,890

a secondary road to a tertiary eroded

899

00:40:33,750 --> 00:40:31,480

dirt road out in the middle of nowhere

900

00:40:35,970 --> 00:40:33,760

Barney would never have done that and

901
00:40:38,490 --> 00:40:35,980
they see beings in front of them on the

902
00:40:40,740 --> 00:40:38,500
roads dark that's been a really good

903
00:40:43,020 --> 00:40:40,750
start but

904
00:40:45,840 --> 00:40:43,030
and they stopped the car and to make a

905
00:40:49,010 --> 00:40:45,850
long story short we get taken on board

906
00:40:51,540 --> 00:40:49,020
the craft examined in separate rooms I

907
00:40:53,730 --> 00:40:51,550
stick a needle here scrape a little skin

908
00:40:55,530 --> 00:40:53,740
there that sort of thing Betty had

909
00:40:56,730 --> 00:40:55,540
grabbed but she called the book because

910
00:40:58,380 --> 00:40:56,740
you didn't know what else to call it

911
00:41:00,660 --> 00:40:58,390
they wouldn't let her take that with

912
00:41:03,780 --> 00:41:00,670
them and one of the interesting parts of

913
00:41:05,550 --> 00:41:03,790

the story is Betty as many would ask

914

00:41:07,050 --> 00:41:05,560

anybody anything she knew who she was a

915

00:41:11,130 --> 00:41:07,060

social worker with the state of New

916

00:41:13,620 --> 00:41:11,140

Hampshire family came over in the 1600

917

00:41:16,260 --> 00:41:13,630

and Barney's was black but he was white

918

00:41:18,840 --> 00:41:16,270

Barney's grandfather was a slave mixed

919

00:41:21,000 --> 00:41:18,850

couple they had nothing to gain by going

920

00:41:23,330 --> 00:41:21,010

public and didn't intend to but somebody

921

00:41:29,580 --> 00:41:23,340

betrayed a secret and so forth anyway

922

00:41:31,200 --> 00:41:29,590

Betty ask them typical Betty where you

923

00:41:34,920 --> 00:41:31,210

from I know you're not from around here

924

00:41:36,690 --> 00:41:34,930

the understatement of the month it shows

925

00:41:39,000 --> 00:41:36,700

you what I can call a three-dimensional

926
00:41:41,220 --> 00:41:39,010
star map or model probably a hologram

927
00:41:43,110 --> 00:41:41,230
points of light which ER stars different

928
00:41:45,540 --> 00:41:43,120
kinds of lines between them which are

929
00:41:49,260 --> 00:41:45,550
trade routes or occasional expeditions

930
00:41:52,620 --> 00:41:49,270
and she's looking at this thing about 3

931
00:41:55,320 --> 00:41:52,630
feet by 2 feet by 2 feet and she said

932
00:41:58,010 --> 00:41:55,330
where are you on the map white sky alien

933
00:42:00,180 --> 00:41:58,020
says you know where you are in a mess no

934
00:42:02,160 --> 00:42:00,190
how can I tell you where I don't know

935
00:42:03,450 --> 00:42:02,170
anything about astronomy she said well

936
00:42:04,920 --> 00:42:03,460
how can I tell you where I'm from if you

937
00:42:07,380 --> 00:42:04,930
don't know where you're at end of

938
00:42:10,350 --> 00:42:07,390

discussion now dr. Simon who was

939

00:42:11,700 --> 00:42:10,360

mystified by all his stuff he didn't

940

00:42:13,320 --> 00:42:11,710

know much about police officers he

941

00:42:16,530 --> 00:42:13,330

answer she can't remember what the map

942

00:42:18,990 --> 00:42:16,540

look like and she says yes and she drew

943

00:42:20,880 --> 00:42:19,000

it only if it could was to be drawn

944

00:42:22,230 --> 00:42:20,890

accurately and it's in the book the

945

00:42:25,040 --> 00:42:22,240

first book could interrupt a journey

946

00:42:31,380 --> 00:42:25,050

back in the mid-60s by John gene fuller

947

00:42:33,390 --> 00:42:31,390

anyway odd they get dropped off there

948

00:42:36,930 --> 00:42:33,400

were some strange sounds on the trunk of

949

00:42:38,730 --> 00:42:36,940

the car and they suddenly sort of wake

950

00:42:41,100 --> 00:42:38,740

up they hadn't said anything for 30

951
00:42:42,720 --> 00:42:41,110
miles trouble is they got home two hours

952
00:42:45,570 --> 00:42:42,730
later than they should have gotten home

953
00:42:46,590 --> 00:42:45,580
huh and their watches didn't work and

954
00:42:48,630 --> 00:42:46,600
they're a whole bunch of other stuff

955
00:42:51,180 --> 00:42:48,640
which which is in the book captured

956
00:42:53,550 --> 00:42:51,190
which incidentally will be made into a

957
00:42:56,940 --> 00:42:53,560
movie if we're lucky it's been optioned

958
00:42:59,280 --> 00:42:56,950
oh nice and my book top secret magic has

959
00:43:04,440 --> 00:42:59,290
been option that's about the mouse just

960
00:43:10,350 --> 00:43:04,450
as well yeah I the two titles are magic

961
00:43:13,110 --> 00:43:10,360
men ma jic and Betty and Barney I may be

962
00:43:16,530 --> 00:43:13,120
lucky enough while I'm still alive that

963
00:43:18,950 --> 00:43:16,540

movies made it to my book oh man I'm

964

00:43:24,510 --> 00:43:18,960

what Richard Dreyfuss could play me now

965

00:43:26,400 --> 00:43:24,520

kippen Dorf himself yeah but anyway the

966

00:43:27,900 --> 00:43:26,410

story they were missing this two hour

967

00:43:31,050 --> 00:43:27,910

period and it was a couple years later

968

00:43:33,720 --> 00:43:31,060

before body was developing ulcers or

969

00:43:35,610 --> 00:43:33,730

other problems finally his doctor says I

970

00:43:37,700 --> 00:43:35,620

can't do anything more for you Barney I

971

00:43:40,860 --> 00:43:37,710

think you ought to see dr. Simon

972

00:43:43,230 --> 00:43:40,870

psychiatrist and Betty went to

973

00:43:46,980 --> 00:43:43,240

separately I mean the separate sessions

974

00:43:50,670 --> 00:43:46,990

and it was only under his very special

975

00:43:52,770 --> 00:43:50,680

brand of hypnosis like I say he treated

976
00:43:54,480 --> 00:43:52,780
thousands of War veterans you know your

977
00:43:57,090 --> 00:43:54,490
buddy's head gets blown off next to you

978
00:43:59,880 --> 00:43:57,100
it's a little hard to integrate that I

979
00:44:02,670 --> 00:43:59,890
can select so it was out of the hypnosis

980
00:44:05,130 --> 00:44:02,680
sessions and the fact that a reporter

981
00:44:07,230 --> 00:44:05,140
got hold of the story and without their

982
00:44:08,670 --> 00:44:07,240
permission or approval and carried it

983
00:44:11,220 --> 00:44:08,680
they thought they're gonna lose their

984
00:44:12,450 --> 00:44:11,230
jobs Betty worked for the state of New

985
00:44:14,940 --> 00:44:12,460
Hampshire boy weren't for the post

986
00:44:16,740 --> 00:44:14,950
office very active in civil rights but

987
00:44:20,730 --> 00:44:16,750
the last thing they needed you know was

988
00:44:23,810 --> 00:44:20,740

a story like this young and surprisingly

989

00:44:26,990 --> 00:44:23,820

the story was very well received and

990

00:44:31,650 --> 00:44:27,000

then a book that made John fuller

991

00:44:34,020 --> 00:44:31,660

outstanding reporter wrote a book he

992

00:44:36,990 --> 00:44:34,030

also wrote a book into their an incident

993

00:44:40,050 --> 00:44:37,000

at Exeter about some events over there

994

00:44:43,860 --> 00:44:40,060

and the story got it was a best-seller

995

00:44:46,560 --> 00:44:43,870

in many countries I and it set the pace

996

00:44:48,780 --> 00:44:46,570

for abduction research and the things i

997

00:44:51,390 --> 00:44:48,790

met betty and barney and betty many

998

00:44:56,160 --> 00:44:51,400

times party died like four months after

999

00:45:01,050 --> 00:44:56,170

i met them and she only died five years

1000

00:45:04,290 --> 00:45:01,060

ago I guess and fortunately the kathy

1001
00:45:07,320 --> 00:45:04,300
martin Betty's nice did most of the work

1002
00:45:10,110 --> 00:45:07,330
on the book i has all the

1003
00:45:14,100 --> 00:45:10,120
the audio tapes the hypnosis sessions

1004
00:45:16,650 --> 00:45:14,110
and stuff like that they're scary that

1005
00:45:19,110 --> 00:45:16,660
means his powerful emotion involvement

1006
00:45:21,030 --> 00:45:19,120
case and the thing is that there were

1007
00:45:22,950 --> 00:45:21,040
there was physical evidence as well as

1008
00:45:25,200 --> 00:45:22,960
described in the book Barney shoes were

1009
00:45:27,210 --> 00:45:25,210
all scuffed he was an immaculate dresser

1010
00:45:30,210 --> 00:45:27,220
could never wear the shoes except for

1011
00:45:32,880 --> 00:45:30,220
gardening after that Betty's dress was

1012
00:45:34,710 --> 00:45:32,890
torn in a couple places a new dress and

1013
00:45:37,470 --> 00:45:34,720

there was some crazy pink stuff on the

1014

00:45:40,200 --> 00:45:37,480

on the dress it's been analyzing very

1015

00:45:43,230 --> 00:45:40,210

strange so it's the chemist really much

1016

00:45:46,050 --> 00:45:43,240

but yeah he does evidence that's crazy

1017

00:45:48,060 --> 00:45:46,060

you know it is evidence of course it was

1018

00:45:50,490 --> 00:45:48,070

not the next day kind of thing cuz they

1019

00:45:53,520 --> 00:45:50,500

didn't know what had happened but so

1020

00:45:57,530 --> 00:45:53,530

that that story is a good solid story

1021

00:45:59,520 --> 00:45:57,540

and you know the aliens were humanoid

1022

00:46:01,320 --> 00:45:59,530

you'd have recognized they weren't from

1023

00:46:02,970 --> 00:46:01,330

around here and like I walking down the

1024

00:46:05,550 --> 00:46:02,980

street in New York which you know who

1025

00:46:09,990 --> 00:46:05,560

knows what we're gonna I assume the

1026

00:46:12,270 --> 00:46:10,000

communication was telepathic well yes uh

1027

00:46:14,940 --> 00:46:12,280

they made strange noises amongst

1028

00:46:17,430 --> 00:46:14,950

themselves but by and large telepathic

1029

00:46:19,770 --> 00:46:17,440

and man you know some people don't want

1030

00:46:21,570 --> 00:46:19,780

to accept that and some people don't

1031

00:46:24,090 --> 00:46:21,580

want to accept all kinds of stuff that's

1032

00:46:25,680 --> 00:46:24,100

true but I know how to do that so it

1033

00:46:28,080 --> 00:46:25,690

can't be real is kind of the added that

1034

00:46:31,890 --> 00:46:28,090

that led to the book science was wrong

1035

00:46:34,350 --> 00:46:31,900

incidentally I by Kathleen Martin and

1036

00:46:37,470 --> 00:46:34,360

myself because in so many areas of

1037

00:46:39,960 --> 00:46:37,480

science are 14 chapters and each one

1038

00:46:41,820 --> 00:46:39,970

dealing with an example of important

1039

00:46:44,940 --> 00:46:41,830

scientists saying stupid things which

1040

00:46:47,610 --> 00:46:44,950

delayed progress for a long time you

1041

00:46:50,370 --> 00:46:47,620

know a great astronomer in 1903 October

1042

00:46:52,650 --> 00:46:50,380

saying it's eminently clear that man

1043

00:46:54,420 --> 00:46:52,660

will never fly any distance in any kind

1044

00:46:56,550 --> 00:46:54,430

of a vehicle two months before the

1045

00:46:58,890 --> 00:46:56,560

Wright brothers first flight the

1046

00:47:01,110 --> 00:46:58,900

astronomer royal saying a year before

1047

00:47:03,870 --> 00:47:01,120

Sputnik that space travel is utter

1048

00:47:07,640 --> 00:47:03,880

nonsense what would be the use of it

1049

00:47:10,800 --> 00:47:07,650

nobody would spend the money oh well and

1050

00:47:14,970 --> 00:47:10,810

medical stuff where people said

1051
00:47:17,550 --> 00:47:14,980
impossible I'd like Billy Mitchell who

1052
00:47:20,190 --> 00:47:17,560
was a an American pilot during the First

1053
00:47:20,630 --> 00:47:20,200
World War and after the war was saying

1054
00:47:22,420 --> 00:47:20,640
that

1055
00:47:25,400 --> 00:47:22,430
the airplane is going to revolutionize

1056
00:47:28,220 --> 00:47:25,410
warfare will be sinking ships from the

1057
00:47:32,000 --> 00:47:28,230
air and boy the Secretary of the Navy

1058
00:47:35,299 --> 00:47:32,010
got very upset like Korra and Billy got

1059
00:47:39,829 --> 00:47:35,309
court-martialed for insubordination for

1060
00:47:43,930 --> 00:47:39,839
saying and the epitome of why this is a

1061
00:47:48,170 --> 00:47:43,940
problem these attitudes on November 29

1062
00:47:50,690 --> 00:47:48,180
in 1941 the army-navy game was played

1063
00:47:54,049 --> 00:47:50,700

and in the program was a picture of the

1064

00:47:55,940 --> 00:47:54,059

USS Arizona this huge battleship in a

1065

00:47:59,599 --> 00:47:55,950

statement that nobody had ever sunk a

1066

00:48:04,059 --> 00:47:59,609

battleship from the air eight days later

1067

00:48:08,569 --> 00:48:04,069

was Pearl Harbor in the u.s. SFO sunk

1068

00:48:10,430 --> 00:48:08,579

1,100 guys on 49 yeah people love to say

1069

00:48:11,779 --> 00:48:10,440

things are impossible right up until the

1070

00:48:14,299 --> 00:48:11,789

moment they happen i don't know what

1071

00:48:16,460 --> 00:48:14,309

what that tendency is i don't know why

1072

00:48:19,609 --> 00:48:16,470

but it's certainly true and you got to

1073

00:48:21,620 --> 00:48:19,619

be very careful i supposes i'm so smart

1074

00:48:24,589 --> 00:48:21,630

if this were true I would know about it

1075

00:48:27,769 --> 00:48:24,599

i don't so it must not be as it is some

1076

00:48:31,549 --> 00:48:27,779

kind of a nut I mean you know you run

1077

00:48:33,680 --> 00:48:31,559

across it let me ask you um how far do

1078

00:48:36,410 --> 00:48:33,690

you think the government's knowledge of

1079

00:48:38,180 --> 00:48:36,420

extraterrestrials goes now do you buy

1080

00:48:41,150 --> 00:48:38,190

into any of the theories that there's

1081

00:48:43,130 --> 00:48:41,160

been official contact or do you think

1082

00:48:44,539 --> 00:48:43,140

it's just recovered craft and we're

1083

00:48:48,019 --> 00:48:44,549

still trying to study it and we really

1084

00:48:51,529 --> 00:48:48,029

don't know what it is well I I think

1085

00:48:55,089 --> 00:48:51,539

probably there has been context there

1086

00:48:58,970 --> 00:48:55,099

are two stories about General Eisenhower

1087

00:49:05,210 --> 00:48:58,980

as there are sure does there's a guy

1088

00:49:07,490 --> 00:49:05,220

reporting now art Campbell I he talked

1089

00:49:10,160 --> 00:49:07,500

two crew members of the president's

1090

00:49:13,009 --> 00:49:10,170

airplane when Ike was supposedly in

1091

00:49:15,589 --> 00:49:13,019

georgia atlanta playing golf you know i

1092

00:49:18,859 --> 00:49:15,599

like i like to play golf in its great

1093

00:49:20,960 --> 00:49:18,869

cover you'll understand and the plane

1094

00:49:24,859 --> 00:49:20,970

went in secret to alamogordo new mexico

1095

00:49:26,690 --> 00:49:24,869

Holloman Air Force Base and down the

1096

00:49:28,670 --> 00:49:26,700

other end of the field was a saucer on

1097

00:49:31,849 --> 00:49:28,680

the ground and supposedly hike meant

1098

00:49:34,130 --> 00:49:31,859

with the guys now arts done an awful lot

1099

00:49:34,700 --> 00:49:34,140

of work he was a schoolteacher and he

1100

00:49:40,370 --> 00:49:34,710

found other

1101

00:49:41,750 --> 00:49:40,380

he was on the right track and there's

1102

00:49:46,310 --> 00:49:41,760

another story about Edwards Air Force

1103

00:49:48,700 --> 00:49:46,320

Base where the newsmen again Ike was

1104

00:49:50,870 --> 00:49:48,710

playing golf on in Palm Springs and

1105

00:49:52,579 --> 00:49:50,880

suddenly the newsmen realized they

1106

00:49:54,440 --> 00:49:52,589

hadn't seen him for a while and I guess

1107

00:49:57,260 --> 00:49:54,450

the press secretary oh I'll check for

1108

00:49:59,210 --> 00:49:57,270

you no problem he gets back to them well

1109

00:50:02,320 --> 00:49:59,220

he was embarrassed I could been at the

1110

00:50:04,370 --> 00:50:02,330

dentist she's under anaesthetic and

1111

00:50:06,290 --> 00:50:04,380

didn't want to say anything about that

1112

00:50:08,780 --> 00:50:06,300

somebody might choose to attack at that

1113

00:50:11,270 --> 00:50:08,790

time mm-hmm but everything's okay well

1114

00:50:13,550 --> 00:50:11,280

bill warm my colleague who with whom I

1115

00:50:15,710 --> 00:50:13,560

worked on the Roswell case did some

1116

00:50:17,839 --> 00:50:15,720

checking many years later he found the

1117

00:50:20,540 --> 00:50:17,849

wife of the dentist the dentist was dead

1118

00:50:22,280 --> 00:50:20,550

she had no recollection of her husband

1119

00:50:24,950 --> 00:50:22,290

treating the president that would seem a

1120

00:50:27,859 --> 00:50:24,960

little strange that's crazy what do you

1121

00:50:29,720 --> 00:50:27,869

think I mean if those interactions

1122

00:50:30,890 --> 00:50:29,730

really did happen what do you think they

1123

00:50:32,599 --> 00:50:30,900

were talking about what do you think

1124

00:50:35,120 --> 00:50:32,609

they looked like because I've heard that

1125

00:50:36,710 --> 00:50:35,130

they were making a deal for technology

1126

00:50:38,780 --> 00:50:36,720

to and then also the government was

1127

00:50:40,310 --> 00:50:38,790

allowing me extraterrestrials to abduct

1128

00:50:42,680 --> 00:50:40,320

a certain amount of people of course

1129

00:50:44,710 --> 00:50:42,690

this is wild speculation but I mean I'm

1130

00:50:49,130 --> 00:50:44,720

sure you've heard some of these stories

1131

00:50:51,170 --> 00:50:49,140

well sure I have and the thing that gets

1132

00:50:55,070 --> 00:50:51,180

to me is the fact that i mentioned early

1133

00:50:57,320 --> 00:50:55,080

on that we haven't exploded any nuclear

1134

00:51:00,859 --> 00:50:57,330

weapons in warfare even though there's

1135

00:51:04,460 --> 00:51:00,869

been a bunch wars and the guy named

1136

00:51:07,040 --> 00:51:04,470

Robert Hastings and another one named

1137

00:51:11,180 --> 00:51:07,050

Robert Salas SI la s who have talked

1138

00:51:12,920 --> 00:51:11,190

about nukes and UFOs it appears that the

1139

00:51:14,930 --> 00:51:12,930

aliens have a strong interest in

1140

00:51:20,180 --> 00:51:14,940

nuclear-tipped missiles and things like

1141

00:51:21,740 --> 00:51:20,190

that and it maybe they don't want to see

1142

00:51:23,560 --> 00:51:21,750

the place destroy you know maybe they've

1143

00:51:28,609 --> 00:51:23,570

been stealing goodies here for a lot

1144

00:51:32,180 --> 00:51:28,619

yeah what a mining it could be that you

1145

00:51:33,859 --> 00:51:32,190

know this is a penal colony they dumped

1146

00:51:35,510 --> 00:51:33,869

all the bad boys and girls here and

1147

00:51:38,420 --> 00:51:35,520

that's why were so nasty to each other

1148

00:51:41,780 --> 00:51:38,430

you know the Australians are very proud

1149

00:51:45,920 --> 00:51:41,790

of their convict say yeah we're just a

1150

00:51:47,780 --> 00:51:45,930

cosmic Australia could be so they may

1151
00:51:48,600 --> 00:51:47,790
there may have been communication about

1152
00:51:50,610 --> 00:51:48,610
what the rules

1153
00:51:52,740 --> 00:51:50,620
the neighborhood are I don't know

1154
00:51:54,450 --> 00:51:52,750
obviously I'm not privy to any of that

1155
00:51:56,340 --> 00:51:54,460
people with what is it what the sauce

1156
00:51:58,020 --> 00:51:56,350
was made at it nobody sends me

1157
00:52:00,780 --> 00:51:58,030
classified reports I don't know what

1158
00:52:04,860 --> 00:52:00,790
clearance rate to know you know I'm

1159
00:52:07,230 --> 00:52:04,870
sorry if people think some people think

1160
00:52:09,720 --> 00:52:07,240
the city people think governments can't

1161
00:52:13,160 --> 00:52:09,730
keep secrets one of the silliest lines

1162
00:52:15,150 --> 00:52:13,170
i've ever heard a dr. Neil deGrasse

1163
00:52:18,240 --> 00:52:15,160

Tyson who's head of the Hayden

1164

00:52:20,820 --> 00:52:18,250

Planetarium in one set it as talk at

1165

00:52:23,700 --> 00:52:20,830

Penn State University that the prophetic

1166

00:52:25,560 --> 00:52:23,710

events can't keep secrets is look how

1167

00:52:30,090 --> 00:52:25,570

much we know about President Clinton's

1168

00:52:32,310 --> 00:52:30,100

genitalia Oh on that yeah but it was a

1169

00:52:33,900 --> 00:52:32,320

media sideshow you know to distract from

1170

00:52:37,440 --> 00:52:33,910

real issues that's why they focus on

1171

00:52:40,650 --> 00:52:37,450

that seth shostack of the SETI Institute

1172

00:52:44,220 --> 00:52:40,660

is also said it well look how bad a job

1173

00:52:47,340 --> 00:52:44,230

FEMA did with Katrina what's that got to

1174

00:52:49,620 --> 00:52:47,350

do with the NRO the CIA the DIA the NSA

1175

00:52:52,050 --> 00:52:49,630

almost alphabet soup agencies Hank they

1176

00:52:54,840 --> 00:52:52,060

don't want to keep secrets none FEMA and

1177

00:52:56,700 --> 00:52:54,850

he said oh look how badly better job

1178

00:53:00,150 --> 00:52:56,710

they do with the post office what I got

1179

00:53:02,160 --> 00:53:00,160

to do with Nationals right Stan do you

1180

00:53:06,030 --> 00:53:02,170

think we're ever going to see public

1181

00:53:09,180 --> 00:53:06,040

disclosure I don't know I frankly I

1182

00:53:12,240 --> 00:53:09,190

believe that if any media group had a

1183

00:53:14,850 --> 00:53:12,250

Woodward and Bernstein could put their

1184

00:53:16,860 --> 00:53:14,860

noses to find out what went on with this

1185

00:53:21,330 --> 00:53:16,870

cosmic Watergate I think they could do

1186

00:53:23,580 --> 00:53:21,340

it in a very short time six months the

1187

00:53:29,100 --> 00:53:23,590

documents are there that NSA has

1188

00:53:31,560 --> 00:53:29,110

released a 156 formerly top secret umbra

1189

00:53:33,660 --> 00:53:31,570

UFO documents on which you can read one

1190

00:53:36,630 --> 00:53:33,670

sentence per page the rest is white

1191

00:53:40,980 --> 00:53:36,640

adapt this is the earlier old documents

1192

00:53:44,520 --> 00:53:40,990

and the CIA has withheld 50 some

1193

00:53:46,320 --> 00:53:44,530

top-secret umbra blacked out documents

1194

00:53:49,260 --> 00:53:46,330

you can read five or six words per page

1195

00:53:51,750 --> 00:53:49,270

you know and we also have a statement

1196

00:53:55,680 --> 00:53:51,760

from a general air force general Carroll

1197

00:53:57,300 --> 00:53:55,690

bolander eole nder he was tasked with

1198

00:54:00,960 --> 00:53:57,310

the job of figuring out what we should

1199

00:54:02,309 --> 00:54:00,970

do with Project Blue Book it's in 1969

1200

00:54:04,259 --> 00:54:02,319

after the condom report

1201

00:54:05,430 --> 00:54:04,269

came out he had no previous connection

1202

00:54:07,620 --> 00:54:05,440

with and he worked on the lunar

1203

00:54:12,479 --> 00:54:07,630

excursion module a good sharp engineer

1204

00:54:14,549 --> 00:54:12,489

incidentally and he came at it open and

1205

00:54:18,809 --> 00:54:14,559

clear and he recommended that Blue Book

1206

00:54:21,239 --> 00:54:18,819

be closed but he noted reports of ufos

1207

00:54:24,359 --> 00:54:21,249

which could affect national security are

1208

00:54:27,180 --> 00:54:24,369

made in accordance with jay nap join

1209

00:54:31,039 --> 00:54:27,190

army navy air force publication 146 or

1210

00:54:35,640 --> 00:54:31,049

air force manual 55 Dec 11 and are not

1211

00:54:38,370 --> 00:54:35,650

part of the Blue Book system those are

1212

00:54:41,729 --> 00:54:38,380

probably the most interesting cases well

1213

00:54:43,529 --> 00:54:41,739

yeah and he to Paris later he says if we

1214

00:54:45,390 --> 00:54:43,539

close Project Blue Book the public won't

1215

00:54:47,999 --> 00:54:45,400

have a place to report UFO sightings

1216

00:54:50,069 --> 00:54:48,009

however as previously noted reports

1217

00:54:52,829 --> 00:54:50,079

which could affect national security

1218

00:54:54,509 --> 00:54:52,839

will continue to be investigated using

1219

00:54:57,359 --> 00:54:54,519

the procedures established for that

1220

00:54:59,309 --> 00:54:57,369

purpose nobody's ever been told that

1221

00:55:01,680 --> 00:54:59,319

because we've always been told blue book

1222

00:55:03,150 --> 00:55:01,690

was it folks when we close blue book we

1223

00:55:06,259 --> 00:55:03,160

weren't doing anything well I found

1224

00:55:08,839 --> 00:55:06,269

general Bolander he's not alive now but

1225

00:55:10,829 --> 00:55:08,849

had a conversation with them and

1226
00:55:12,359 --> 00:55:10,839
indicated Jean sounds like you're saying

1227
00:55:15,749 --> 00:55:12,369
there were two separate reporting

1228
00:55:17,219 --> 00:55:15,759
systems he said there were you know if a

1229
00:55:18,870 --> 00:55:17,229
saucer goes down the runway at a

1230
00:55:20,609 --> 00:55:18,880
strategic air command base where nuclear

1231
00:55:23,849 --> 00:55:20,619
weapons are stored that's a national

1232
00:55:25,829 --> 00:55:23,859
security problem if my wife and I go out

1233
00:55:27,689 --> 00:55:25,839
of the driveway and look up and see a

1234
00:55:31,650 --> 00:55:27,699
saucer flying by what's the big deal

1235
00:55:34,920 --> 00:55:31,660
happens all the time you know so I know

1236
00:55:37,439 --> 00:55:34,930
major group has ever pointed out that

1237
00:55:39,749 --> 00:55:37,449
this was what was said by a general who

1238
00:55:43,799 --> 00:55:39,759

was charged with you know finding out

1239

00:55:48,170 --> 00:55:43,809

what's going on I we've been being lied

1240

00:55:50,489 --> 00:55:48,180

to persistently up to Roswell reports

1241

00:55:53,130 --> 00:55:50,499

once about a thousand pages the other

1242

00:55:54,689 --> 00:55:53,140

ones a little under three hundred a full

1243

00:55:59,400 --> 00:55:54,699

of baloney I mean you can start a

1244

00:56:02,099 --> 00:55:59,410

delicatessen Alyssa you know the the

1245

00:56:07,229 --> 00:56:02,109

notion what my favorite explanation is

1246

00:56:09,569 --> 00:56:07,239

really crash test dummies for Roswell I

1247

00:56:14,009 --> 00:56:09,579

found the guy whose picture is in the

1248

00:56:15,210 --> 00:56:14,019

airport report the Roswell report case

1249

00:56:18,870 --> 00:56:15,220

closed is the one

1250

00:56:21,300 --> 00:56:18,880

the dummies they think we're dummies the

1251

00:56:24,000 --> 00:56:21,310

man who was in charge of the crash test

1252

00:56:26,280 --> 00:56:24,010

dummy program the airplanes are flying

1253

00:56:27,359 --> 00:56:26,290

higher and farther and getting a pilot

1254

00:56:29,960 --> 00:56:27,369

out of there if something goes wrong

1255

00:56:32,160 --> 00:56:29,970

with the plane is a problem and so

1256

00:56:33,599 --> 00:56:32,170

ejection seats and all that stuff and

1257

00:56:36,000 --> 00:56:33,609

you don't want to put pilots in there

1258

00:56:38,520 --> 00:56:36,010

until you make sure the things work and

1259

00:56:41,640 --> 00:56:38,530

he pointed out to me to thing I met with

1260

00:56:45,109 --> 00:56:41,650

him in person in EI occurred he's

1261

00:56:51,810 --> 00:56:45,119

deceased now too he pointed out what the

1262

00:56:55,710 --> 00:56:51,820

dummies were six feet tall 175 pounds

1263

00:56:57,780 --> 00:56:55,720

and they were in uniform the uniform is

1264

00:56:59,250 --> 00:56:57,790

because a pilot would be in uniform and

1265

00:57:01,440 --> 00:56:59,260

that would affect the drag and how

1266

00:57:03,150 --> 00:57:01,450

quickly the parachute would open and the

1267

00:57:07,349 --> 00:57:03,160

temperature cause its spring gold up

1268

00:57:10,830 --> 00:57:07,359

there at 40,000 feet etc and how do you

1269

00:57:13,140 --> 00:57:10,840

convert a 6 feet tall 175 pound dummy

1270

00:57:16,530 --> 00:57:13,150

into a little four and a half foot tall

1271

00:57:18,750 --> 00:57:16,540

guy with a big hit fair point I can't

1272

00:57:20,849 --> 00:57:18,760

believe any Rancher out in the desert

1273

00:57:23,339 --> 00:57:20,859

they're spotting one of the dummies

1274

00:57:28,070 --> 00:57:23,349

would have said oh my god an alien

1275

00:57:29,910 --> 00:57:28,080

invasion make sense at all right and

1276

00:57:31,650 --> 00:57:29,920

incidentally there was another little

1277

00:57:34,260 --> 00:57:31,660

problem none were dropped until six

1278

00:57:37,620 --> 00:57:34,270

years after Roswell yeah that would be a

1279

00:57:41,310 --> 00:57:37,630

problem with that explanation I travel

1280

00:57:43,170 --> 00:57:41,320

for crash test dummies let me ask you

1281

00:57:46,710 --> 00:57:43,180

another question you know lately the UFO

1282

00:57:49,079 --> 00:57:46,720

community I see a lot more people like

1283

00:57:51,990 --> 00:57:49,089

my last guest Nick Redfern suggesting

1284

00:57:54,300 --> 00:57:52,000

that these things may be more paranormal

1285

00:57:56,460 --> 00:57:54,310

or multi-dimensional or even spiritual

1286

00:57:58,470 --> 00:57:56,470

rather than like physical metal crafts

1287

00:57:59,670 --> 00:57:58,480

from outer space do you entertain any

1288

00:58:04,050 --> 00:57:59,680

similar ideas or do you think they're

1289

00:58:06,660 --> 00:58:04,060

all physical crafts well I would draw a

1290

00:58:08,599 --> 00:58:06,670

compromise there it would amaze me of an

1291

00:58:12,570 --> 00:58:08,609

advanced technological civilization

1292

00:58:15,359 --> 00:58:12,580

wasn't able to use telepathy and know

1293

00:58:17,160 --> 00:58:15,369

about reincarnation and be able to do

1294

00:58:20,640 --> 00:58:17,170

crazy things like go through walls

1295

00:58:23,460 --> 00:58:20,650

without cracking the walls uh you know

1296

00:58:26,250 --> 00:58:23,470

by advanced technology by definition is

1297

00:58:29,480 --> 00:58:26,260

Arthur Clarke once that is magic yeah

1298

00:58:33,780 --> 00:58:29,490

not mtj I see

1299

00:58:35,700 --> 00:58:33,790

so I would expect that they are going to

1300

00:58:37,860 --> 00:58:35,710

know things we don't know my mantra is

1301
00:58:40,800 --> 00:58:37,870
the technological progress comes from

1302
00:58:44,460 --> 00:58:40,810
doing things differently in an

1303
00:58:47,010 --> 00:58:44,470
unpredictable way so I would be

1304
00:58:51,210 --> 00:58:47,020
astonished if a truly advanced

1305
00:58:56,300 --> 00:58:51,220
civilization able to get here I wasn't

1306
00:59:00,710 --> 00:58:59,000
I can't say there won't be time travel I

1307
00:59:02,390 --> 00:59:00,720
don't know how to do it fourth

1308
00:59:04,570 --> 00:59:02,400
dimensional space-time working but I

1309
00:59:06,830 --> 00:59:04,580
think the problem is that our

1310
00:59:09,590 --> 00:59:06,840
contemporary people are unwilling to

1311
00:59:11,030 --> 00:59:09,600
open up their minds to the fact that my

1312
00:59:12,710 --> 00:59:11,040
goodness there could be beings out there

1313
00:59:16,220 --> 00:59:12,720

that are a billion years ahead of us

1314

00:59:19,040 --> 00:59:16,230

mm-hmm and boy do we feel stupid so

1315

00:59:22,460 --> 00:59:19,050

which is a natural feeling I guess

1316

00:59:24,410 --> 00:59:22,470

remember we're right at the center of a

1317

00:59:26,570 --> 00:59:24,420

change in our attitude about where we

1318

00:59:28,730 --> 00:59:26,580

fit in the scheme of things mm-hmm first

1319

00:59:31,370 --> 00:59:28,740

there was told me who said the earth was

1320

00:59:32,960 --> 00:59:31,380

the center of the universe all you got

1321

00:59:34,730 --> 00:59:32,970

to do is look at you see the moon and

1322

00:59:36,710 --> 00:59:34,740

the Sun go around the earth and so do

1323

00:59:39,470 --> 00:59:36,720

the stars go outside some night you see

1324

00:59:42,620 --> 00:59:39,480

they go around us and Copernicus came

1325

00:59:44,270 --> 00:59:42,630

along and 1543 the same year he died he

1326
00:59:47,330 --> 00:59:44,280
had a book published in which he said

1327
00:59:51,440 --> 00:59:47,340
that sorry the earth and the other

1328
00:59:54,830 --> 00:59:51,450
planets go around the Sun and the church

1329
00:59:56,240 --> 00:59:54,840
band that book for 300 years because it

1330
00:59:58,910 --> 00:59:56,250
took man out of the center of the

1331
01:00:00,230 --> 00:59:58,920
universe but we still consoled ourselves

1332
01:00:02,630 --> 01:00:00,240
as well there aren't any other planets

1333
01:00:06,320 --> 01:00:02,640
out there so we're probably it folks ah

1334
01:00:09,940 --> 01:00:06,330
we're the kings of the universe well now

1335
01:00:12,530 --> 01:00:09,950
we've got Kepler up there oh my goodness

1336
01:00:15,350 --> 01:00:12,540
we now think that a reasonable number

1337
01:00:18,260 --> 01:00:15,360
for the number of planets in our galaxy

1338
01:00:23,120 --> 01:00:18,270

just the Milky Way is that may be 10

1339

01:00:24,500 --> 01:00:23,130

billion the SETI guys think that a few

1340

01:00:26,570 --> 01:00:24,510

years ago Frank Drake was saying oh

1341

01:00:28,930 --> 01:00:26,580

there might be as many as 10,000 places

1342

01:00:31,850 --> 01:00:28,940

in the galaxy that could send signals

1343

01:00:36,440 --> 01:00:31,860

well 10 billion is a little bit more

1344

01:00:38,870 --> 01:00:36,450

than 10,000 right and so suddenly we

1345

01:00:42,020 --> 01:00:38,880

recognize that the earth was not created

1346

01:00:43,850 --> 01:00:42,030

in 4,000 4 BC and some people would have

1347

01:00:48,220 --> 01:00:43,860

us believe was more like four billion in

1348

01:00:52,010 --> 01:00:48,230

for Kirby our status in other words

1349

01:00:54,660 --> 01:00:52,020

we're not at the top of the heap we

1350

01:00:57,510 --> 01:00:54,670

haven't qualified for kindergarten

1351
01:01:01,740 --> 01:00:57,520
and that that makes some people three

1352
01:01:03,570 --> 01:01:01,750
upset but look Pat Robertson has loudly

1353
01:01:05,700 --> 01:01:03,580
and clearly said we are the only

1354
01:01:07,980 --> 01:01:05,710
intelligent life in the universe right

1355
01:01:09,510 --> 01:01:07,990
all that you have had Robins the work of

1356
01:01:12,840 --> 01:01:09,520
the devil he's done it he's the

1357
01:01:16,790 --> 01:01:12,850
authority he's done his research oh yes

1358
01:01:20,160 --> 01:01:16,800
yes yes research by Proclamation yeah

1359
01:01:24,120 --> 01:01:20,170
you know so we're dealing with some

1360
01:01:25,680 --> 01:01:24,130
troubling questions and also if there's

1361
01:01:27,240 --> 01:01:25,690
somebody coming here from someplace else

1362
01:01:29,850 --> 01:01:27,250
they have maybe figured out how to get

1363
01:01:34,760 --> 01:01:29,860

along with their neighbors we don't seem

1364

01:01:37,590 --> 01:01:34,770

to do right clearly a problem for us I

1365

01:01:40,020 --> 01:01:37,600

and people say why don't they talk to us

1366

01:01:41,240 --> 01:01:40,030

in my off hand silly comment is I don't

1367

01:01:43,710 --> 01:01:41,250

talk to the squirrels in my backyard

1368

01:01:45,600 --> 01:01:43,720

yeah exactly you don't stop on the

1369

01:01:49,250 --> 01:01:45,610

highway to check out what an ant hills

1370

01:01:51,600 --> 01:01:49,260

doing that's that's make sense to me

1371

01:01:53,220 --> 01:01:51,610

Stan let me ask you another question I

1372

01:01:54,810 --> 01:01:53,230

mean this is completely unrelated but I

1373

01:01:57,530 --> 01:01:54,820

just don't know the next time that I'm

1374

01:02:00,480 --> 01:01:57,540

going to speak to a nuclear physicist oh

1375

01:02:02,790 --> 01:02:00,490

you know there's a lot of conspiracy

1376

01:02:04,680 --> 01:02:02,800

talk about a cover-up in regards to how

1377

01:02:07,440 --> 01:02:04,690

much damage the Fukushima disaster

1378

01:02:08,850 --> 01:02:07,450

really caused I mean from what from your

1379

01:02:10,860 --> 01:02:08,860

knowledge do you think there's really

1380

01:02:12,720 --> 01:02:10,870

any real concerns of radiation reaching

1381

01:02:14,070 --> 01:02:12,730

the west coast of North America or is it

1382

01:02:15,390 --> 01:02:14,080

just a bunch of fear-mongering because

1383

01:02:19,140 --> 01:02:15,400

you know it seems like they're hiding

1384

01:02:21,500 --> 01:02:19,150

data in some sense there's no question

1385

01:02:24,240 --> 01:02:21,510

that the Japanese authorities had been

1386

01:02:27,600 --> 01:02:24,250

somewhat negligent and how they handle

1387

01:02:29,360 --> 01:02:27,610

things let me put it that way there's

1388

01:02:32,370 --> 01:02:29,370

also no question that there will be some

1389

01:02:36,030 --> 01:02:32,380

radiation some particles with radiation

1390

01:02:37,800 --> 01:02:36,040

on them reach the west coast just as we

1391

01:02:40,140 --> 01:02:37,810

had plenty of stuff from nuclear fallout

1392

01:02:42,300 --> 01:02:40,150

when we tested nuclear weapons mm-hmm

1393

01:02:45,000 --> 01:02:42,310

you could buy milk in Rochester New York

1394

01:02:50,220 --> 01:02:45,010

that hadn't written measurable radiation

1395

01:02:52,590 --> 01:02:50,230

geez now the kicker here is that man

1396

01:02:54,830 --> 01:02:52,600

developed as a species and a planet that

1397

01:02:57,450 --> 01:02:54,840

was even more radioactive than it is now

1398

01:02:58,830 --> 01:02:57,460

when most of us forget that we're if you

1399

01:03:00,330 --> 01:02:58,840

sleep in the same bed with somebody for

1400

01:03:02,940 --> 01:03:00,340

a year you get a measurable dose of

1401

01:03:05,660 --> 01:03:02,950

radiation mm-hmm our measuring

1402

01:03:08,250 --> 01:03:05,670

techniques are very sensitive and so

1403

01:03:12,150 --> 01:03:08,260

there's even a lot of work that show

1404

01:03:15,810 --> 01:03:12,160

was that a small amount of radiation is

1405

01:03:18,930 --> 01:03:15,820

beneficial this is called hormesis you

1406

01:03:21,300 --> 01:03:18,940

know to ask for no cure your headache 30

1407

01:03:25,020 --> 01:03:21,310

would probably kill you someplace in

1408

01:03:28,770 --> 01:03:25,030

between is an appropriate an optimum

1409

01:03:31,380 --> 01:03:28,780

level so I've worked around radiation

1410

01:03:33,960 --> 01:03:31,390

and you develop a healthy respect for it

1411

01:03:36,780 --> 01:03:33,970

but you also recognize well there's a

1412

01:03:38,220 --> 01:03:36,790

classic case and in Taiwan two buildings

1413

01:03:40,260 --> 01:03:38,230

built at about the same time the

1414

01:03:42,780 --> 01:03:40,270

apartment buildings one unfortunately

1415

01:03:45,960 --> 01:03:42,790

the steel somehow I've been contaminated

1416

01:03:48,810 --> 01:03:45,970

by some Cobalt radioactive cobalt-60 was

1417

01:03:52,500 --> 01:03:48,820

mixed in the mess and it was years

1418

01:03:54,390 --> 01:03:52,510

before they found this out and so then

1419

01:03:55,650 --> 01:03:54,400

they did some checking as to the medical

1420

01:03:57,240 --> 01:03:55,660

status of the people who've been in

1421

01:04:01,410 --> 01:03:57,250

these two buildings or it close to each

1422

01:04:02,790 --> 01:04:01,420

other but separate turns out the people

1423

01:04:06,450 --> 01:04:02,800

who were in the building that had

1424

01:04:08,610 --> 01:04:06,460

radioactive steel were healthier but

1425

01:04:11,090 --> 01:04:08,620

people were in the other building and

1426

01:04:13,290 --> 01:04:11,100

there been experiments done with the

1427

01:04:14,790 --> 01:04:13,300

multiplication of bacteria and stuff

1428

01:04:17,100 --> 01:04:14,800

where you put in shielding so you cut

1429

01:04:19,460 --> 01:04:17,110

back the radiation levels and the growth

1430

01:04:21,810 --> 01:04:19,470

rate is less when there was no radiation

1431

01:04:25,320 --> 01:04:21,820

seems to maybe affect the immune system

1432

01:04:26,730 --> 01:04:25,330

who knows so I don't doubt but some of

1433

01:04:30,110 --> 01:04:26,740

the material coming to the coast of

1434

01:04:33,030 --> 01:04:30,120

North America it's got a measurable

1435

01:04:35,670 --> 01:04:33,040

there's a good instruments level of

1436

01:04:37,380 --> 01:04:35,680

radioactivity in terms of it being a

1437

01:04:39,690 --> 01:04:37,390

major threats or the well-being of the

1438

01:04:43,350 --> 01:04:39,700

people on the west coast I don't think

1439

01:04:44,670 --> 01:04:43,360

so they're all right what yeah I'm not

1440

01:04:47,280 --> 01:04:44,680

running around up and down the beach

1441

01:04:48,990 --> 01:04:47,290

misery all right yeah I mean I did I did

1442

01:04:50,820 --> 01:04:49,000

want to ask you that because it's so

1443

01:04:53,160 --> 01:04:50,830

hard to get a straight answer be it on

1444

01:04:54,900 --> 01:04:53,170

this or UFOs or yeah you know on

1445

01:04:56,790 --> 01:04:54,910

anything as the government lies to us so

1446

01:04:59,310 --> 01:04:56,800

much but you know fellas it's getting to

1447

01:05:00,720 --> 01:04:59,320

be that time um Kyle I mean was there

1448

01:05:03,740 --> 01:05:00,730

anything you want to ask that we didn't

1449

01:05:06,720 --> 01:05:03,750

tackle I just wanted to say but the

1450

01:05:09,900 --> 01:05:06,730

cosmic Watergate that there's seemingly

1451

01:05:14,790 --> 01:05:09,910

harmless information that is out there

1452

01:05:18,600 --> 01:05:14,800

and it is known such as nuclear fusion

1453

01:05:19,920 --> 01:05:18,610

is a reality and there's devices I just

1454

01:05:22,089 --> 01:05:19,930

don't understand why we're still using

1455

01:05:25,509 --> 01:05:22,099

coal and I feel like

1456

01:05:27,279 --> 01:05:25,519

there must be some correlation there

1457

01:05:28,930 --> 01:05:27,289

some connection here between people

1458

01:05:31,989 --> 01:05:28,940

withholding this information on a

1459

01:05:34,930 --> 01:05:31,999

need-to-know basis and the rest of

1460

01:05:36,609 --> 01:05:34,940

humanity who doesn't need to know they

1461

01:05:38,920 --> 01:05:36,619

still have to burn coal they select to

1462

01:05:41,009 --> 01:05:38,930

pay for their energy and aren't we isn't

1463

01:05:43,420 --> 01:05:41,019

it factual that were past this point

1464

01:05:46,660 --> 01:05:43,430

technologically and we just aren't being

1465

01:05:47,890 --> 01:05:46,670

honest with the public well it's true

1466

01:05:49,539 --> 01:05:47,900

that they're not being honest with the

1467

01:05:52,779 --> 01:05:49,549

public there's no question about that

1468

01:05:54,849 --> 01:05:52,789

this is not the only thing like that in

1469

01:05:57,430 --> 01:05:54,859

flying saucers in science i have a whole

1470

01:06:00,400 --> 01:05:57,440

chapter on examples of big programs that

1471

01:06:01,989 --> 01:06:00,410

were covered up well the NRO National

1472

01:06:04,269 --> 01:06:01,999

Reconnaissance Office which is one of

1473

01:06:07,539 --> 01:06:04,279

the biggest of the black budget agencies

1474

01:06:09,069 --> 01:06:07,549

they admitted very quietly was a little

1475

01:06:11,769 --> 01:06:09,079

blurb in the paper they'd cancel the

1476

01:06:14,079 --> 01:06:11,779

program with Boeing to improve the

1477

01:06:17,469 --> 01:06:14,089

architecture of the big satellites at

1478

01:06:18,969 --> 01:06:17,479

the NRO uses something cost half a

1479

01:06:21,670 --> 01:06:18,979

billion dollars i mean these are not

1480

01:06:26,019 --> 01:06:21,680

little toys and they had already spent

1481

01:06:27,819 --> 01:06:26,029

13 billion dollars at boeing ought to

1482

01:06:31,150 --> 01:06:27,829

try to improve the architecture and

1483

01:06:34,989 --> 01:06:31,160

hadn't been successful 13 pointed a lot

1484

01:06:37,299 --> 01:06:34,999

of money yeah you know and they're not

1485

01:06:39,789 --> 01:06:37,309

the only agency well our first

1486

01:06:44,559 --> 01:06:39,799

successful spy satellite the corona spy

1487

01:06:47,380 --> 01:06:44,569

sent way back in the early 60s got more

1488

01:06:48,849 --> 01:06:47,390

data on soviet military establishments

1489

01:06:51,309 --> 01:06:48,859

than all the youtube flights that

1490

01:06:53,349 --> 01:06:51,319

preceded it there wasn't one word in

1491

01:06:55,660 --> 01:06:53,359

public for more than 20 years about the

1492

01:06:58,120 --> 01:06:55,670

corona I mean Russian certainly knew we

1493

01:07:00,700 --> 01:06:58,130

were flying them apart but the American

1494

01:07:02,950 --> 01:07:00,710

people weren't told that so there are a

1495

01:07:05,440 --> 01:07:02,960

lot of examples of that and that's why I

1496

01:07:07,569 --> 01:07:05,450

say I want a Woodward Bernstein I don't

1497

01:07:09,279 --> 01:07:07,579

want all technical data out on the table

1498

01:07:11,859 --> 01:07:09,289

I think there was a legitimate national

1499

01:07:13,239 --> 01:07:11,869

security concern unless the Russians and

1500

01:07:16,479 --> 01:07:13,249

the Chinese and everybody else puts

1501

01:07:18,190 --> 01:07:16,489

their technical data out on the table on

1502

01:07:21,190 --> 01:07:18,200

the other hand I think we should be told

1503

01:07:23,499 --> 01:07:21,200

the planets being visited and maybe

1504

01:07:26,440 --> 01:07:23,509

refresh our memory about how we must

1505

01:07:29,229 --> 01:07:26,450

look to the advanced beings coming here

1506

01:07:30,880 --> 01:07:29,239

and it's time that if you make such an

1507

01:07:34,839 --> 01:07:30,890

announcement maybe the Queen in the Pope

1508

01:07:36,020 --> 01:07:34,849

together how's that for not at least you

1509

01:07:39,670 --> 01:07:36,030

could say they're going to be in

1510

01:07:44,720 --> 01:07:39,680

national conferences about the economic

1511

01:07:48,200 --> 01:07:44,730

psychological religious you know impact

1512

01:07:51,920 --> 01:07:48,210

of the fact that we're not alone it's

1513

01:07:53,570 --> 01:07:51,930

it's a ball game changer you know and I

1514

01:07:59,690 --> 01:07:53,580

would like to see that happen while I'm

1515

01:08:01,160 --> 01:07:59,700

still alive you yes I would Stan you

1516

01:08:03,020 --> 01:08:01,170

know I stand in awe of your

1517

01:08:04,880 --> 01:08:03,030

accomplishments and your dedicated

1518

01:08:06,830 --> 01:08:04,890

research I'm honored just to share a bit

1519

01:08:08,570 --> 01:08:06,840

of your time you know I know all your

1520

01:08:10,670 --> 01:08:08,580

books and DVDs are available on your

1521

01:08:12,410 --> 01:08:10,680

website Stanton Friedman not come tell

1522

01:08:13,520 --> 01:08:12,420

the people a little bit about what's

1523

01:08:15,980 --> 01:08:13,530

available there I mean we talked about

1524

01:08:19,880 --> 01:08:15,990

the books in terms of DVDs what you got

1525

01:08:22,760 --> 01:08:19,890

oh yeah the books are captured the Betty

1526

01:08:26,180 --> 01:08:22,770

and Barney Hill UFO experience science

1527

01:08:29,000 --> 01:08:26,190

was wrong both of those are by Kathleen

1528

01:08:31,610 --> 01:08:29,010

Martin and myself my book flying saucers

1529

01:08:33,140 --> 01:08:31,620

in science which lists the important

1530

01:08:35,180 --> 01:08:33,150

source of information I answers the

1531

01:08:38,090 --> 01:08:35,190

question can you get here from there yes

1532

01:08:40,930 --> 01:08:38,100

and why the cover-up and all those other

1533

01:08:44,840 --> 01:08:40,940

things there's my book top secret magic

1534

01:08:46,700 --> 01:08:44,850

about the majestic 12 documents of which

1535

01:08:48,020 --> 01:08:46,710

more than a hundred I think three are

1536

01:08:49,670 --> 01:08:48,030

genuine and the most important

1537

01:08:53,660 --> 01:08:49,680

classified documents leaked to the

1538

01:08:56,900 --> 01:08:53,670

public as my book crash at Corona here

1539

01:08:59,480 --> 01:08:56,910

we go again with corona the inside story

1540

01:09:05,240 --> 01:08:59,490

the roswell incident that goes way back

1541

01:09:07,700 --> 01:09:05,250

to the 90s and there's a book with

1542

01:09:10,220 --> 01:09:07,710

aliens and ufos which i have two

1543

01:09:12,950 --> 01:09:10,230

chapters in it Kathleen as one and the

1544

01:09:16,010 --> 01:09:12,960

dvds include recollections of Roswell

1545

01:09:22,309 --> 01:09:16,020

firsthand testimony from 27 firsthand

1546

01:09:25,220 --> 01:09:22,319

witnesses there's the my book my DVD

1547

01:09:28,070 --> 01:09:25,230

UFOs are real and there's flying saucers

1548

01:09:31,640 --> 01:09:28,080

are real and there's do you believe in

1549

01:09:34,910 --> 01:09:31,650

magic Maj and I say in this case and

1550

01:09:36,920 --> 01:09:34,920

there's a debate our flying saucers real

1551
01:09:38,960 --> 01:09:36,930
between me and James McGaha and Air

1552
01:09:41,870 --> 01:09:38,970
Force former Air Force pilot who says

1553
01:09:45,690 --> 01:09:41,880
ain't nothing a flying saucers and we

1554
01:09:48,690 --> 01:09:45,700
had a formal debate in Tennessee

1555
01:09:51,900 --> 01:09:48,700
Tennessee State and you can decide for

1556
01:09:54,360 --> 01:09:51,910
yourself for one there's also copies of

1557
01:09:56,400 --> 01:09:54,370
some hard to get documents like Project

1558
01:09:58,020 --> 01:09:56,410
Blue Book special report 14 biggest

1559
01:10:00,570 --> 01:09:58,030
study ever done for the Air Force I

1560
01:10:04,050 --> 01:10:00,580
never mentioned by the noisy negative

1561
01:10:06,930 --> 01:10:04,060
assistive crackers and I and you know

1562
01:10:08,310 --> 01:10:06,940
and there's this book Aztec yes for

1563
01:10:11,340 --> 01:10:08,320

which I wrote the forwards on some

1564

01:10:13,080 --> 01:10:11,350

copies one thing you by buying your

1565

01:10:16,730 --> 01:10:13,090

books for me you get signatures you get

1566

01:10:18,900 --> 01:10:16,740

autographs I'm sort of done line yes

1567

01:10:21,060 --> 01:10:18,910

amazon is a fine place to do business

1568

01:10:25,200 --> 01:10:21,070

but they don't have my autograph sitting

1569

01:10:26,850 --> 01:10:25,210

around oh you know that it'll keep you

1570

01:10:28,830 --> 01:10:26,860

busy for a while if you're interested

1571

01:10:30,960 --> 01:10:28,840

sure yeah I mean I encourage everyone to

1572

01:10:32,970 --> 01:10:30,970

check them out those books I mean I know

1573

01:10:35,250 --> 01:10:32,980

me and Kyle we just read flying saucers

1574

01:10:37,320 --> 01:10:35,260

and science a really good book you know

1575

01:10:40,200 --> 01:10:37,330

it really breaks down the data that's

1576

01:10:42,090 --> 01:10:40,210

there that you know is overwhelming that

1577

01:10:44,010 --> 01:10:42,100

there's clearly live being told it's

1578

01:10:46,140 --> 01:10:44,020

just it sucks that the problem is to

1579

01:10:48,480 --> 01:10:46,150

what degree because you know you let

1580

01:10:49,980 --> 01:10:48,490

crazies run wild and you got people on

1581

01:10:51,780 --> 01:10:49,990

the disclosure project saying that

1582

01:10:53,520 --> 01:10:51,790

they've found 57 different races and

1583

01:10:56,280 --> 01:10:53,530

they call them the Heinz 57 and you're

1584

01:10:59,750 --> 01:10:56,290

like why are you the only guy who knows

1585

01:11:02,700 --> 01:10:59,760

about that but it just it sucks quick

1586

01:11:05,520 --> 01:11:02,710

but I I mean I guess it's time we put

1587

01:11:07,260 --> 01:11:05,530

all yellow down gentlemen stand sir it's

1588

01:11:10,230 --> 01:11:07,270

been an absolute pleasure keep doing

1589

01:11:13,140 --> 01:11:10,240

what you do I'm gonna cry and thanks for

1590

01:11:17,550 --> 01:11:13,150

having me and thank you thank you have a

1591

01:11:19,110 --> 01:11:17,560

good day sir thank you Dan wow what the

1592

01:11:21,840 --> 01:11:19,120

[h__h] call I can't believe we just did

1593

01:11:24,030 --> 01:11:21,850

that yeah for those of you don't know

1594

01:11:27,270 --> 01:11:24,040

man Kyle here he runs the facebook page

1595

01:11:28,830 --> 01:11:27,280

for conspiracies please if you want to

1596

01:11:30,870 --> 01:11:28,840

see harsh truths and interesting

1597

01:11:32,730 --> 01:11:30,880

speculation in your newsfeed give it a

1598

01:11:35,640 --> 01:11:32,740

like he does an excellent job seriously

1599

01:11:37,500 --> 01:11:35,650

that's the coolest should I see all day

1600

01:11:40,140 --> 01:11:37,510

is that page so thank you for doing that

1601
01:11:41,610 --> 01:11:40,150
yes I feel every image from everyone

1602
01:11:44,490 --> 01:11:41,620
else on the Internet so thank them as

1603
01:11:45,600 --> 01:11:44,500
well that's the American Way what'd you

1604
01:11:48,450 --> 01:11:45,610
think of that do you think that went

1605
01:11:50,370 --> 01:11:48,460
pretty well the guy's an expert he's

1606
01:11:52,800 --> 01:11:50,380
definitely talked with a lot of dead

1607
01:11:54,900 --> 01:11:52,810
people and he's been doing it a long

1608
01:11:57,030 --> 01:11:54,910
time so I got twenty seventy eight years

1609
01:11:58,420 --> 01:11:57,040
old that goes with the territory yeah

1610
01:12:00,760 --> 01:11:58,430
can I

1611
01:12:02,380 --> 01:12:00,770
I it's sad because I you know nick

1612
01:12:04,570 --> 01:12:02,390
redfern point on the last episode I just

1613
01:12:06,040 --> 01:12:04,580

think people are going to die out and

1614

01:12:08,310 --> 01:12:06,050

there's not going to be anyone who knows

1615

01:12:10,510 --> 01:12:08,320

and all the documents are redacted and

1616

01:12:12,160 --> 01:12:10,520

you know the secrets are going to die

1617

01:12:15,370 --> 01:12:12,170

and it sucks is further we get away from

1618

01:12:19,720 --> 01:12:15,380

it you know it gets away from us yeah

1619

01:12:21,490 --> 01:12:19,730

but it's not just the UFO thing that

1620

01:12:24,100 --> 01:12:21,500

there's a cosmic Watergate it's just a

1621

01:12:25,690 --> 01:12:24,110

huge wealth of information that is

1622

01:12:28,900 --> 01:12:25,700

withheld from the public on every single

1623

01:12:30,850 --> 01:12:28,910

level and the people starting to realize

1624

01:12:33,160 --> 01:12:30,860

that I hope and yeah I mean the question

1625

01:12:35,550 --> 01:12:33,170

you asked Stanley actually does say in

1626

01:12:37,480 --> 01:12:35,560

the book a little bit that the

1627

01:12:39,010 --> 01:12:37,490

implications of the technologies you're

1628

01:12:41,620 --> 01:12:39,020

talking about would be cataclysmic to

1629

01:12:44,740 --> 01:12:41,630

the economy and so it see they're just

1630

01:12:46,420 --> 01:12:44,750

not instituted and i agree with you i

1631

01:12:49,170 --> 01:12:46,430

mean i know you were kind of going at

1632

01:12:51,970 --> 01:12:49,180

that angle that it's for the greed of

1633

01:12:55,030 --> 01:12:51,980

elitist that they're just going to take

1634

01:12:57,820 --> 01:12:55,040

advantage of us on primitive systems

1635

01:12:59,950 --> 01:12:57,830

while they may and i'm not convinced

1636

01:13:01,660 --> 01:12:59,960

that they've instituted these systems

1637

01:13:03,490 --> 01:13:01,670

for their own use like i'm not sure

1638

01:13:05,890 --> 01:13:03,500

Henry Kissinger's house runs on free

1639

01:13:08,470 --> 01:13:05,900

energy but you know in his day they were

1640

01:13:10,270 --> 01:13:08,480

working on nuclear weapons and I think

1641

01:13:11,860 --> 01:13:10,280

today they're working on energy and i

1642

01:13:13,930 --> 01:13:11,870

think that there's probably been

1643

01:13:15,400 --> 01:13:13,940

advances that you know we can't even

1644

01:13:17,500 --> 01:13:15,410

fathom I mean you look at what we

1645

01:13:19,690 --> 01:13:17,510

publicly have seen just with phones and

1646

01:13:21,220 --> 01:13:19,700

the Internet in our lifetime think about

1647

01:13:24,600 --> 01:13:21,230

what we don't know they're probably two

1648

01:13:26,740 --> 01:13:24,610

generations ahead and just that's insane

1649

01:13:28,960 --> 01:13:26,750

it's impossible to know what they

1650

01:13:31,390 --> 01:13:28,970

actually have I mean Dan is talking

1651
01:13:33,280 --> 01:13:31,400
about nuclear submarines when people

1652
01:13:36,580 --> 01:13:33,290
think a nuclear power thing a giant

1653
01:13:39,280 --> 01:13:36,590
Fukushima like reactors huge

1654
01:13:42,370 --> 01:13:39,290
installations and what stan is talking

1655
01:13:44,160 --> 01:13:42,380
about is in the 50s having naval

1656
01:13:48,160 --> 01:13:44,170
submersibles that are running off of

1657
01:13:51,880 --> 01:13:48,170
nuclear fission or fusion essentially

1658
01:13:54,460 --> 01:13:51,890
and the implications of that is that a

1659
01:13:58,170 --> 01:13:54,470
very small device could be used to run

1660
01:14:01,390 --> 01:13:58,180
things from seemingly endless energy and

1661
01:14:05,710 --> 01:14:01,400
instead what we're doing is burning coal

1662
01:14:07,750 --> 01:14:05,720
when bang bang boat fare I mean but the

1663
01:14:09,340 --> 01:14:07,760

quote the question is though is it safe

1664

01:14:12,090 --> 01:14:09,350

because you know we've only had a few

1665

01:14:13,980 --> 01:14:12,100

disasters and they really are Cataclysm

1666

01:14:15,840 --> 01:14:13,990

so is it a safe technology I mean I

1667

01:14:17,190 --> 01:14:15,850

don't know enough about it I mean stands

1668

01:14:18,240 --> 01:14:17,200

clearly thinks it is I mean it's

1669

01:14:20,580 --> 01:14:18,250

interesting that he's worked so closely

1670

01:14:22,740 --> 01:14:20,590

with it and he doesn't have cancer I

1671

01:14:25,500 --> 01:14:22,750

mean that's just an interesting thing to

1672

01:14:26,940 --> 01:14:25,510

me because it seems like the ideas

1673

01:14:29,550 --> 01:14:26,950

behind it that it's so dangerous you

1674

01:14:30,990 --> 01:14:29,560

can't even get [h__\h] close to it but I

1675

01:14:33,120 --> 01:14:31,000

mean I'm sure he's taking his

1676

01:14:35,130 --> 01:14:33,130

precautions but he's it's been a big

1677

01:14:36,660 --> 01:14:35,140

part of his life I thought it was very

1678

01:14:38,490 --> 01:14:36,670

strange answer when you asked about

1679

01:14:40,560 --> 01:14:38,500

Fukushima that he said a certain amount

1680

01:14:43,170 --> 01:14:40,570

of radiation was beneficial to mankind

1681

01:14:46,290 --> 01:14:43,180

ice yeah I highly doubt that nuclear

1682

01:14:48,480 --> 01:14:46,300

disasters going to have a net benefit

1683

01:14:51,960 --> 01:14:48,490

humanity but well I get to remain

1684

01:14:54,030 --> 01:14:51,970

sleeping there thanks again for coming

1685

01:14:56,580 --> 01:14:54,040

on the show that was a great opportunity

1686

01:14:58,470 --> 01:14:56,590

we talked to a guy's just done so much

1687

01:15:00,990 --> 01:14:58,480

in his lifetime you know you're welcome

1688

01:15:04,320 --> 01:15:01,000

folks I gotta say here's track it's a

1689

01:15:06,450 --> 01:15:04,330

favorite of mine watchtower by heist

1690

01:15:09,240 --> 01:15:06,460

click to play us out into the infinite

1691

01:15:16,170 --> 01:15:09,250

abyss Kyle thanks again thank you higher

1692

01:15:21,420 --> 01:15:19,560

with the Renegades castaways outlaws to

1693

01:15:23,880 --> 01:15:21,430

the game like Thomas Paine ones they

1694

01:15:27,150 --> 01:15:23,890

masquerade us who's the blame is now set

1695

01:15:29,490 --> 01:15:27,160

to slowly hey we made us know Lisa sees

1696

01:15:32,070 --> 01:15:29,500

the police to show piece of these me no

1697

01:15:37,050 --> 01:15:32,080

William piece underneath the Beast lies

1698

01:15:39,450 --> 01:15:37,060

dormant underground subliminal on it

1699

01:15:41,550 --> 01:15:39,460

like a RS one cuz I'm criminal minded a

1700

01:15:46,050 --> 01:15:41,560

run with soldiers amongst the vultures

1701

01:15:47,820 --> 01:15:46,060

may under control live in the battle

1702

01:15:49,620 --> 01:15:47,830

slowly I walk through the valley of

1703

01:15:51,630 --> 01:15:49,630

shadow and there's no man it's gonna

1704

01:16:08,140 --> 01:15:51,640

keep me down to the deep to the king

1705

01:16:08,150 --> 01:16:11,820

Oh

1706

01:16:17,290 --> 01:16:14,440

before we learn to burn my eyes out and

1707

01:16:19,360 --> 01:16:17,300

would your lights out like who's but

1708

01:16:21,700 --> 01:16:19,370

wiser than the act like jumpy and fight

1709

01:16:23,440 --> 01:16:21,710

the power when the thought crossed the

1710

01:16:25,480 --> 01:16:23,450

watchtower and shower the game with

1711

01:16:27,310 --> 01:16:25,490

Anson Blane every hour developing scorn

1712

01:16:29,530 --> 01:16:27,320

for politicians in office they keep

1713

01:16:31,600 --> 01:16:29,540

watching satellites normally so hold

1714

01:16:34,680 --> 01:16:31,610

1715

01:16:38,930 --> 01:16:34,690

Oh

1719

01:17:10,810 --> 01:17:08,710

can't run faster when i completed the

1720

01:17:15,030 --> 01:17:10,820

strings of the puppet master the chains

1721

01:17:19,580 --> 01:17:15,040

01:17:42,890 --> 01:17:38,030

I know you won't itch cream too sweet so

1727

01:17:42,900 --> 01:17:58,520

down

1728

01:17:58,530 --> 01:18:01,010

Angie

1729

01:18:01,020 --> 01:18:05,280

down
