BROUGHT TO YOU BY:

1  
00:00:05,030 --> 00:00:03,740  
hey people I gotta take a second to tell

2  
00:00:07,430 --> 00:00:05,040  
you about something we do around here

3  
00:00:09,470 --> 00:00:07,440  
called the THC Money bomb what I do is

4  
00:00:11,030 --> 00:00:09,480  
every five episodes total up the

5  
00:00:12,560 --> 00:00:11,040  
donations I've gotten in that period of

6  
00:00:14,539 --> 00:00:12,570  
time and half keeps me and the show

7  
00:00:16,849 --> 00:00:14,549  
going I take the other half and I gift

8  
00:00:18,710 --> 00:00:16,859  
that back to a random listener so far

9  
00:00:20,179 --> 00:00:18,720  
we're hitting about 500 each round and I

10  
00:00:22,070 --> 00:00:20,189  
couldn't be happier about it

11  
00:00:23,420 --> 00:00:22,080  
so consider throwing in 5 or 10 bucks

12  
00:00:25,070 --> 00:00:23,430  
it's cheaper than a hand at the

13  
00:00:26,870 --> 00:00:25,080

blackjack table with better odds and a

14

00:00:28,580 --> 00:00:26,880

scratch-off ticket plus you know half

15

00:00:29,900 --> 00:00:28,590

supports a show you like and at the very

16

00:00:31,820 --> 00:00:29,910

least half will go to a like-minded

17

00:00:33,830 --> 00:00:31,830

person who could probably use a nice

18

00:00:35,420 --> 00:00:33,840

surprise in these troubled times when

19

00:00:37,190 --> 00:00:35,430

you make a donation I can see your email

20

00:00:38,900 --> 00:00:37,200

address and that's how I pick the winner

21

00:00:40,760 --> 00:00:38,910

but to keep things kosher you can also

22

00:00:43,130 --> 00:00:40,770

get in the pool by sending your info on

23

00:00:48,139 --> 00:00:43,140

a postcard to me Greg Karl would p.o box

24

00:00:53,299 --> 00:00:48,149

6 3 5 2 2 3 San Diego California 9 2 1 6

25

00:00:55,430 --> 00:00:53,309

3 5 snow paid bonus shows and I want to

26

00:00:56,900 --> 00:00:55,440

keep it that way on principle but I'm

27

00:00:59,000 --> 00:00:56,910

not a millionaire at the podcast on the

28

00:01:00,439 --> 00:00:59,010

side this is it for me and I'm the only

29

00:01:01,369 --> 00:01:00,449

one I know is trying to help the people

30

00:01:04,369 --> 00:01:01,379

out as well

31

00:01:05,780 --> 00:01:04,379

that's my man so help me help you if you

32

00:01:07,820 --> 00:01:05,790

want to play along go to the higher side

33

00:01:10,700 --> 00:01:07,830

Chad STATCOM slash donate and get in the

34

00:01:13,550 --> 00:01:10,710

game dollars bitcoins it's all good to

35

00:01:57,700 --> 00:01:13,560

me and that's what we call the THC Money

36

00:02:02,630 --> 00:02:00,620

here we go our such a tore streak little

37

00:02:04,960 --> 00:02:02,640

drink smokin a little smoke

38

00:02:09,020 --> 00:02:04,970

I'm Greg Carl Wood from San Diego and

39

00:02:12,020 --> 00:02:09,030

this is episode 95 we're all still here

40

00:02:14,000 --> 00:02:12,030

we have not collapsed yet that's great

41

00:02:16,790 --> 00:02:14,010

gotta celebrate the little things the

42

00:02:18,590 --> 00:02:16,800

banker deaths are now up to nine so who

43

00:02:21,170 --> 00:02:18,600

knows if we're looking at some kind of

44

00:02:23,570 --> 00:02:21,180

Winston the wolf cleaner guy covering

45

00:02:25,190 --> 00:02:23,580

the tracks of some Wall Street crimes I

46

00:02:27,440 --> 00:02:25,200

don't even know if they need to do that

47

00:02:29,390 --> 00:02:27,450

though you can flat-out tell us about

48

00:02:32,420 --> 00:02:29,400

the crimes in wall street and everybody

49

00:02:35,449 --> 00:02:32,430

just kind of says oh that sucks and goes

50

00:02:39,350 --> 00:02:35,459

about their day so do you really need to

51  
00:02:41,390 --> 00:02:39,360  
kill nine people debatable but I don't

52  
00:02:43,340 --> 00:02:41,400  
know what's happening anyway we have

53  
00:02:46,009 --> 00:02:43,350  
some really great guests coming up in

54  
00:02:48,530 --> 00:02:46,019  
March several from the suggestions on

55  
00:02:51,620 --> 00:02:48,540  
the THC Facebook page and the subreddit

56  
00:02:54,440 --> 00:02:51,630  
higher side chats please post more

57  
00:02:56,000 --> 00:02:54,450  
suggestions or even interesting news for

58  
00:02:58,550 --> 00:02:56,010  
the higher education segments there

59  
00:03:00,979 --> 00:02:58,560  
that's cool too and like I mentioned it

60  
00:03:03,020 --> 00:03:00,989  
is episode 95 that means one money bomb

61  
00:03:04,699 --> 00:03:03,030  
has ended and another begins this time

62  
00:03:07,280 --> 00:03:04,709  
we got eight hundred and ten dollars in

63  
00:03:09,650 --> 00:03:07,290

donations biggest one yet thanks a ton I

64

00:03:12,020 --> 00:03:09,660

gave half four hundred and five dollars

65

00:03:13,460 --> 00:03:12,030

to a lucky listener named Chrissy who

66

00:03:16,009 --> 00:03:13,470

was kind enough to spend a few minutes

67

00:03:17,930 --> 00:03:16,019

with me for the show we're going to play

68

00:03:20,240 --> 00:03:17,940

that but first I also gotta say thanks

69

00:03:22,790 --> 00:03:20,250

to the people at vapor Jeannie they

70

00:03:25,280 --> 00:03:22,800

opted to send me their new Volta

71

00:03:27,440 --> 00:03:25,290

vaporizer for free I'm generally not a

72

00:03:29,300 --> 00:03:27,450

big fan of vaporizers I can never tell

73

00:03:31,640 --> 00:03:29,310

if I'm inhaling enough because it's so

74

00:03:34,280 --> 00:03:31,650

subtle I usually just end up putting the

75

00:03:35,870 --> 00:03:34,290

brown vape weed in a bowl anyway but I

76

00:03:38,000 --> 00:03:35,880

was sick last week I might have

77

00:03:40,699 --> 00:03:38,010

celebrated my freedom a little too hard

78

00:03:43,220 --> 00:03:40,709

and vaporizing weed is a lot less harsh

79

00:03:43,550 --> 00:03:43,230

so it was convenient to have the valta

80

00:03:45,530 --> 00:03:43,560

it's a

81

00:03:48,589 --> 00:03:45,540

neat little battery-operated really easy

82

00:03:50,570 --> 00:03:48,599

to use bamboo apparatus and I should say

83

00:03:52,490 --> 00:03:50,580

that I am totally okay with a small

84

00:03:54,140 --> 00:03:52,500

company or listener who's trying to get

85

00:03:56,300 --> 00:03:54,150

something off the ground sending me a

86

00:03:58,190 --> 00:03:56,310

sample or something and I'll mention

87

00:04:00,620 --> 00:03:58,200

them on the air I can't do it all the

88

00:04:03,589 --> 00:04:00,630

time I can't do it too much and I don't

89

00:04:05,600 --> 00:04:03,599

want to go down the advertiser Road but

90

00:04:07,729 --> 00:04:05,610

that said next time you're in the market

91

00:04:09,350 --> 00:04:07,739

for a piece consider going to vapor

92

00:04:11,750 --> 00:04:09,360

genie just because they were bold enough

93

00:04:14,780 --> 00:04:11,760

and cool enough to support me and THC

94

00:04:17,719 --> 00:04:14,790

and we're pretty out there so I respect

95

00:04:19,520 --> 00:04:17,729

anyone who's willing to do that and now

96

00:04:21,319 --> 00:04:19,530

let's get down to business guys this is

97

00:04:24,020 --> 00:04:21,329

a great one I have been interested in

98

00:04:27,230 --> 00:04:24,030

the Bermuda Triangle for many years and

99

00:04:28,850 --> 00:04:27,240

Gyan is the go-to guy he has several

100

00:04:31,640 --> 00:04:28,860

great stories about the triangle

101  
00:04:33,260 --> 00:04:31,650  
especially in the second half so let's

102  
00:04:34,969 --> 00:04:33,270  
do this then thanks again to everyone

103  
00:04:36,650 --> 00:04:34,979  
here's just a few minutes with the new

104  
00:04:38,360 --> 00:04:36,660  
money bomb winner because I'm sure the

105  
00:04:40,909 --> 00:04:38,370  
listeners are curious as to where their

106  
00:04:42,680 --> 00:04:40,919  
donations go and on the other side we're

107  
00:04:44,810 --> 00:04:42,690  
taking a trip through the triangle with

108  
00:04:46,820 --> 00:04:44,820  
fascinating tales of mystery and a

109  
00:04:51,380 --> 00:04:46,830  
little and fibia Spig foot for good

110  
00:04:54,529 --> 00:04:51,390  
measure with Gian quasar hey is this

111  
00:04:57,140 --> 00:04:54,539  
Chrissy yeah hey this is correct from

112  
00:04:59,570 --> 00:04:57,150  
the higher side chats how are you hi I'm

113  
00:05:00,770 --> 00:04:59,580

actually super excited that I won thank

114

00:05:03,440 --> 00:05:00,780

you so much

115

00:05:05,390 --> 00:05:03,450

no problem Congrats on winning that's

116

00:05:07,159 --> 00:05:05,400

pretty awesome thanks for donating you

117

00:05:08,870 --> 00:05:07,169

know that's a big deal to donate five

118

00:05:12,100 --> 00:05:08,880

bucks to some show you could listen to

119

00:05:15,920 --> 00:05:14,540

your show is really really good I

120

00:05:18,620 --> 00:05:15,930

appreciate that

121

00:05:20,540 --> 00:05:18,630

yeah my husband and I both listen to you

122

00:05:20,750 --> 00:05:20,550

and it's really good show we both love

123

00:05:27,500 --> 00:05:20,760

it

124

00:05:29,170 --> 00:05:27,510

topics that you like oh all your topics

125

00:05:31,400 --> 00:05:29,180

like all your guests are really

126  
00:05:34,279 --> 00:05:31,410  
interesting you know and you know your

127  
00:05:36,800 --> 00:05:34,289  
your your questions are always like just

128  
00:05:40,219 --> 00:05:36,810  
really insightful yes you do really good

129  
00:05:42,050 --> 00:05:40,229  
interviews thank you and you know

130  
00:05:45,440 --> 00:05:42,060  
sometimes even when your guests sound

131  
00:05:46,700 --> 00:05:45,450  
maybe a little I don't know like maybe

132  
00:05:49,129 --> 00:05:46,710  
you might not believe what they're

133  
00:05:51,649 --> 00:05:49,139  
saying they'll show them like a lot of

134  
00:05:52,880 --> 00:05:51,659  
respect and like seem really interested

135  
00:05:55,430 --> 00:05:52,890  
in whatever they're saying and that's

136  
00:05:56,959 --> 00:05:55,440  
just really cool well thanks I

137  
00:05:58,850 --> 00:05:56,969  
appreciate that

138  
00:06:02,149 --> 00:05:58,860

my husband wanted me to mention that he

139

00:06:04,989 --> 00:06:02,159

loved Michael grubart the collapse guy

140

00:06:07,549 --> 00:06:04,999

that you thought on the other week yeah

141

00:06:08,089 --> 00:06:07,559

he's like a big fan of Michael Rupert I

142

00:06:09,739 --> 00:06:08,099

guess

143

00:06:12,889 --> 00:06:09,749

well that's very cool because a lot of

144

00:06:16,159 --> 00:06:12,899

people didn't seem to dig that one you

145

00:06:17,779 --> 00:06:16,169

know he I know it what yeah I heard you

146

00:06:19,879 --> 00:06:17,789

say that some people didn't really dig

147

00:06:22,939 --> 00:06:19,889

him but you know my husband really did

148

00:06:25,850 --> 00:06:22,949

so I thought it was good I thought it

149

00:06:26,419 --> 00:06:25,860

was an interesting show you know I liked

150

00:06:29,179 --> 00:06:26,429

him

151  
00:06:31,609 --> 00:06:29,189  
I like Steven Greer you know I know not

152  
00:06:34,759 --> 00:06:31,619  
everyone is yeah that's another one

153  
00:06:36,529 --> 00:06:34,769  
that's another one of those guys right I

154  
00:06:38,869 --> 00:06:36,539  
thought he was really cool that I think

155  
00:06:41,089 --> 00:06:38,879  
he's really interesting that's awesome

156  
00:06:42,469 --> 00:06:41,099  
well I wanted to say you know you got

157  
00:06:43,939 --> 00:06:42,479  
four hundred and five dollars it's not

158  
00:06:46,009 --> 00:06:43,949  
gonna change your life but it's a nice

159  
00:06:47,359 --> 00:06:46,019  
pile of money to walk into and since its

160  
00:06:49,729 --> 00:06:47,369  
kind of made up of the listeners

161  
00:06:51,529 --> 00:06:49,739  
donations the people might be curious if

162  
00:06:54,439 --> 00:06:51,539  
you have any idea how you would use it

163  
00:06:58,539 --> 00:06:54,449

Oh totally

164

00:07:00,919 --> 00:06:58,549

um okay super excited okay so my husband

165

00:07:03,409 --> 00:07:00,929

can go he's gonna use we're gonna need

166

00:07:07,699 --> 00:07:03,419

150 dollars he's gonna take it to get

167

00:07:09,619 --> 00:07:07,709

his GED and then we've got one of our

168

00:07:11,689 --> 00:07:09,629

credit cards almost paid off and

169

00:07:13,429 --> 00:07:11,699

actually the rest of it will just off

170

00:07:16,549 --> 00:07:13,439

one of our credit cards so we'll get

171

00:07:18,379 --> 00:07:16,559

that out of the way and then I think

172

00:07:24,139 --> 00:07:18,389

we're gonna donate a little bit back

173

00:07:26,299 --> 00:07:24,149

into PhD no way yeah I mean yeah because

174

00:07:30,289 --> 00:07:26,309

it's just a really good show and you

175

00:07:32,719 --> 00:07:30,299

know work I'm excited that we won and so

176

00:07:34,699 --> 00:07:32,729

I think you know Johnny I know like 25

177

00:07:37,309 --> 00:07:34,709

50 bucks something like that back into

178

00:07:41,059 --> 00:07:37,319

the show for the next winner and then

179

00:07:42,019 --> 00:07:41,069

also a friend of mine is doing the AIDS

180

00:07:45,049 --> 00:07:42,029

lifecycle

181

00:07:49,909 --> 00:07:45,059

it's like he's bicycling like 500 miles

182

00:07:52,519 --> 00:07:49,919

from like San Francisco down to LA money

183

00:07:54,559 --> 00:07:52,529

for AIDS and HIV so I'm gonna we're

184

00:07:56,659 --> 00:07:54,569

gonna donate some money to him that's so

185

00:07:58,489 --> 00:07:56,669

funny because well AIDS isn't funny but

186

00:08:01,519 --> 00:07:58,499

my girlfriend has been talking about

187

00:08:04,039 --> 00:08:01,529

wanting to ride her bike from here in

188

00:08:05,839 --> 00:08:04,049

San Diego up to San Francisco for some

189

00:08:09,460 --> 00:08:05,849

kind of cause like that there's one

190

00:08:11,230 --> 00:08:09,470

right there oh yeah totally

191

00:08:13,090 --> 00:08:11,240

very cool well hey thanks guys for

192

00:08:14,680 --> 00:08:13,100

sticking with me on this little show of

193

00:08:16,600 --> 00:08:14,690

mine I'm glad you like it enough to

194

00:08:18,400 --> 00:08:16,610

donate and I'm glad you won so thanks

195

00:08:21,160 --> 00:08:18,410

again thank you

196

00:08:25,720 --> 00:08:21,170

alright well take care of yourself okay

197

00:08:27,910 --> 00:08:25,730

you too all right people one of the most

198

00:08:29,530 --> 00:08:27,920

legendary mysteries on the planet is the

199

00:08:30,070 --> 00:08:29,540

strange enigma known as the Bermuda

200

00:08:31,270 --> 00:08:30,080

Triangle

201  
00:08:33,339 --> 00:08:31,280  
today's guest is one of the most

202  
00:08:34,779 --> 00:08:33,349  
respected authorities on the topic he's

203  
00:08:36,850 --> 00:08:34,789  
the first person to have completely

204  
00:08:38,620 --> 00:08:36,860  
documented the Bermuda Triangle case by

205  
00:08:41,260 --> 00:08:38,630  
case and a threat of research spanning

206  
00:08:43,600 --> 00:08:41,270  
more than 12 years and over 350 cases

207  
00:08:45,520 --> 00:08:43,610  
that span over two centuries his

208  
00:08:47,980 --> 00:08:45,530  
tenacity and finding every scrap

209  
00:08:49,420 --> 00:08:47,990  
available his gaining recognition as the

210  
00:08:51,040 --> 00:08:49,430  
man responsible for bringing the subject

211  
00:08:53,770 --> 00:08:51,050  
forward for an entirely new generation

212  
00:08:55,650 --> 00:08:53,780  
his name is Gian quasar and I'm psyched

213  
00:08:58,570 --> 00:08:55,660

to have him here John how are you doing

214

00:09:00,700 --> 00:08:58,580

good how are you Oh can't complain man

215

00:09:02,530 --> 00:09:00,710

I'm really psyched for this you've done

216

00:09:04,900 --> 00:09:02,540

some great research and from what I

217

00:09:06,580 --> 00:09:04,910

understand you sort of resurrected and

218

00:09:08,530 --> 00:09:06,590

expanded on the research of the Bermuda

219

00:09:09,700 --> 00:09:08,540

Triangle disappearances in a big way why

220

00:09:11,530 --> 00:09:09,710

don't you take a second to tell the

221

00:09:13,180 --> 00:09:11,540

people about that journey where was for

222

00:09:15,880 --> 00:09:13,190

me to triangle research before you got

223

00:09:17,290 --> 00:09:15,890

started how have you added to it and

224

00:09:20,770 --> 00:09:17,300

what's been an old introduction of yours

225

00:09:23,560 --> 00:09:20,780

it's been 25 years now yeah I pulled it

226

00:09:25,870 --> 00:09:23,570

off of some website but yeah I thought

227

00:09:28,210 --> 00:09:25,880

it might be dated 25 years a long time

228

00:09:30,730 --> 00:09:28,220

you know I think that's that's when my

229

00:09:33,850 --> 00:09:30,740

book came out it was 12 years well when

230

00:09:36,490 --> 00:09:33,860

I started in 1990 there was nothing the

231

00:09:38,170 --> 00:09:36,500

Bermuda Triangle simply was gone it has

232

00:09:41,710 --> 00:09:38,180

faded into the deep freeze and the

233

00:09:45,010 --> 00:09:41,720

triangle for me had been something of

234

00:09:48,160 --> 00:09:45,020

mystery of adventure and I started a

235

00:09:50,020 --> 00:09:48,170

very fascinating case and in the 1970s

236

00:09:51,850 --> 00:09:50,030

it was a big deal for my generation we

237

00:09:53,829 --> 00:09:51,860

were growing up right and then it fell

238

00:09:55,750 --> 00:09:53,839

into the wayside by the late seventies

239

00:09:58,840 --> 00:09:55,760

it was supposedly debunked and solved

240

00:10:01,240 --> 00:09:58,850

and in the 1980s it was simply in the

241

00:10:04,300 --> 00:10:01,250

deep freeze no one no one talked about

242

00:10:06,610 --> 00:10:04,310

it anymore and so I was curious about

243

00:10:08,700 --> 00:10:06,620

all that was said if it was a real

244

00:10:10,870 --> 00:10:08,710

phenomenon it would still be going on

245

00:10:15,460 --> 00:10:10,880

and you had nothing I could find nothing

246

00:10:19,060 --> 00:10:15,470

in 1990 that dated past 1977 hmm no

247

00:10:20,920 --> 00:10:19,070

disappearances no discussions nothing so

248

00:10:22,120 --> 00:10:20,930

if it was true he would still be going

249

00:10:30,970 --> 00:10:22,130

on

250

00:10:33,790 --> 00:10:30,980

a database search for me and they could

251  
00:10:37,509 --> 00:10:33,800  
go back to 1964 and so they searched for

252  
00:10:42,009 --> 00:10:37,519  
every missing aircraft and lo and behold

253  
00:10:45,009 --> 00:10:42,019  
there were a probably 40 aircraft that

254  
00:10:47,290 --> 00:10:45,019  
had vanished during these 60s and 70s

255  
00:10:48,460 --> 00:10:47,300  
that the authors of the original and

256  
00:10:49,900 --> 00:10:48,470  
popular books didn't even know about

257  
00:10:53,139 --> 00:10:49,910  
because they'd never consulted the

258  
00:10:55,480 --> 00:10:53,149  
archives and then after that time there

259  
00:10:58,059 --> 00:10:55,490  
are probably just as many if not more

260  
00:11:02,379 --> 00:10:58,069  
well that had vanished in the late 70s

261  
00:11:03,730 --> 00:11:02,389  
to 1980s after no one bothered to

262  
00:11:05,170 --> 00:11:03,740  
inquire about the subject and so I

263  
00:11:08,170 --> 00:11:05,180

continued to get these updates I

264

00:11:11,730 --> 00:11:08,180

continued to get reports accident

265

00:11:15,220 --> 00:11:11,740

reports existed as far back as 1978 and

266

00:11:18,519 --> 00:11:15,230

within these there were you know one

267

00:11:19,930 --> 00:11:18,529

case where a pilot is panicking over a

268

00:11:23,499 --> 00:11:19,940

weird object around some of his aircraft

269

00:11:25,329 --> 00:11:23,509

in two cases in which aircraft vanished

270

00:11:27,480 --> 00:11:25,339

essentially with eyewitnesses watching

271

00:11:31,900 --> 00:11:27,490

them learn well coming in for landing

272

00:11:35,079 --> 00:11:31,910

and that got me hooked to me I had found

273

00:11:37,300 --> 00:11:35,089

the great adventure the great mystery

274

00:11:40,749 --> 00:11:37,310

that was full of hundreds of mysteries

275

00:11:43,269 --> 00:11:40,759

and an exotic location and I continued

276

00:11:44,920 --> 00:11:43,279

to pursue it yeah man it is a

277

00:11:47,650 --> 00:11:44,930

fascinating case do you have any idea

278

00:11:49,240 --> 00:11:47,660

why interest or research might have died

279

00:11:52,980 --> 00:11:49,250

off in the way it did was it considered

280

00:11:55,389 --> 00:11:52,990

solved in any way well there you know

281

00:11:57,400 --> 00:11:55,399

Charles Berlitz who really popularized

282

00:11:58,420 --> 00:11:57,410

it had a number of mistakes in his

283

00:12:02,439 --> 00:11:58,430

popular books

284

00:12:04,389 --> 00:12:02,449

Larry cush came along and our librarian

285

00:12:07,179 --> 00:12:04,399

from Arizona and he took selected cases

286

00:12:09,610 --> 00:12:07,189

and could say that he solved some of

287

00:12:11,590 --> 00:12:09,620

these cases and the books by Harper &

288

00:12:14,019 --> 00:12:11,600

row build it up with the title Saul's on

289

00:12:17,620 --> 00:12:14,029

it and I suppose it just kind of died

290

00:12:19,480 --> 00:12:17,630

out after that which makes it harder

291

00:12:21,610 --> 00:12:19,490

that had burned burned brightly and

292

00:12:23,740 --> 00:12:21,620

burned out quickly and I have to tell

293

00:12:26,050 --> 00:12:23,750

you it's an expensive it's an expensive

294

00:12:29,980 --> 00:12:26,060

mystery to research really you have to

295

00:12:32,860 --> 00:12:29,990

travel the location just one one

296

00:12:35,290 --> 00:12:32,870

incident the USS Cyclops disappearance

297

00:12:35,890 --> 00:12:35,300

I'm finishing up my book on that case

298

00:12:38,340 --> 00:12:35,900

alone

299

00:12:40,930 --> 00:12:38,350

that cost me \$500 just to get the

300

00:12:43,450 --> 00:12:40,940

official documentation there are 2,000

301  
00:12:44,230 --> 00:12:43,460  
pages in the archives all these reports

302  
00:12:47,680 --> 00:12:44,240  
cost money

303  
00:12:49,600 --> 00:12:47,690  
very few are given free by the

304  
00:12:53,200 --> 00:12:49,610  
government agencies you have to write

305  
00:12:55,060 --> 00:12:53,210  
back in the days before internet and get

306  
00:12:59,320 --> 00:12:55,070  
referred all over the place you have to

307  
00:13:03,550 --> 00:12:59,330  
write International Archives and it's a

308  
00:13:05,410 --> 00:13:03,560  
time-consuming and expensive hobby I was

309  
00:13:07,840 --> 00:13:05,420  
years researching this before I even

310  
00:13:10,510 --> 00:13:07,850  
tried to write a book and all this was

311  
00:13:12,610 --> 00:13:10,520  
before the internet I I didn't get on

312  
00:13:14,920 --> 00:13:12,620  
the internet until 1999 with the website

313  
00:13:16,960 --> 00:13:14,930

and I had been researching since 1990

314

00:13:20,170 --> 00:13:16,970

it just really is quite engrossing

315

00:13:22,600 --> 00:13:20,180

because it is a very real a mystery it's

316

00:13:24,730 --> 00:13:22,610

not a subjective one as many of the

317

00:13:26,920 --> 00:13:24,740

other popular mysteries are yeah that's

318

00:13:29,920 --> 00:13:26,930

unfortunate that they put such barriers

319

00:13:32,980 --> 00:13:29,930

of entry into just gaining information

320

00:13:34,630 --> 00:13:32,990

just the way archives work back then

321

00:13:36,550 --> 00:13:34,640

before you could get anything online

322

00:13:37,960 --> 00:13:36,560

you had to stumble around and write

323

00:13:39,670 --> 00:13:37,970

letters and then then they would refer

324

00:13:43,180 --> 00:13:39,680

you to another archive and you had asked

325

00:13:44,650 --> 00:13:43,190

and they tell you what they have and you

326

00:13:47,500 --> 00:13:44,660

it just takes years to put together

327

00:13:50,800 --> 00:13:47,510

everything today is much easier yeah

328

00:13:53,350 --> 00:13:50,810

with the internet now at first some

329

00:13:55,180 --> 00:13:53,360

people might think that it's not that

330

00:13:57,940 --> 00:13:55,190

mysterious that crafts have gone missing

331

00:13:59,530 --> 00:13:57,950

I mean the ocean is a big place it's a

332

00:14:01,690 --> 00:13:59,540

treacherous place but we're talking

333

00:14:03,310 --> 00:14:01,700

about hundreds of cases and and no

334

00:14:05,500 --> 00:14:03,320

wreckage found that's an important thing

335

00:14:07,900 --> 00:14:05,510

to state I mean that's the kicker to

336

00:14:09,760 --> 00:14:07,910

this kind of thing you know also the

337

00:14:11,770 --> 00:14:09,770

water there is relatively clear and

338

00:14:13,420 --> 00:14:11,780

shallow correct so it is so strange to

339

00:14:16,810 --> 00:14:13,430

have hundreds of craft missing with no

340

00:14:18,790 --> 00:14:16,820

wreckage most yeah the most interesting

341

00:14:23,850 --> 00:14:18,800

cases are over the Bahama banks which

342

00:14:26,920 --> 00:14:23,860

can be a few feet deep 250 feet deep and

343

00:14:29,040 --> 00:14:26,930

in which wreckage and such shallow water

344

00:14:32,380 --> 00:14:29,050

will attract the growth of turtle grass

345

00:14:34,990 --> 00:14:32,390

and so from these that's from the air

346

00:14:37,000 --> 00:14:35,000

you look down on the banks and they look

347

00:14:38,650 --> 00:14:37,010

like a nice soft aquamarine because

348

00:14:41,320 --> 00:14:38,660

they're so shallow and it's a very sandy

349

00:14:42,640 --> 00:14:41,330

bottom but where there's wreckage where

350

00:14:44,860 --> 00:14:42,650

there's rocks you will see this

351

00:14:47,860 --> 00:14:44,870

discoloration marled look of a little

352

00:14:49,420 --> 00:14:47,870

oasis 20 feet underwater but of all the

353

00:14:51,780 --> 00:14:49,430

aircrafts and ships that have this

354

00:14:54,700 --> 00:14:51,790

here and none of them have ever left

355

00:14:57,010 --> 00:14:54,710

I've ever grown I've ever left a mark

356

00:14:59,829 --> 00:14:57,020

where turtle grass raising grows and the

357

00:15:01,090 --> 00:14:59,839

locals are very familiar with with the

358

00:15:03,730 --> 00:15:01,100

bottoms in the way it is you know when

359

00:15:05,260 --> 00:15:03,740

there's something like this happens the

360

00:15:06,790 --> 00:15:05,270

divers will go out because they seem a

361

00:15:09,160 --> 00:15:06,800

wreck and they assume conch will be

362

00:15:11,590 --> 00:15:09,170

growing there and it's been good for

363

00:15:13,510 --> 00:15:11,600

fishing but with all those that have

364

00:15:16,090 --> 00:15:13,520

vanished never have served in any sign

365

00:15:18,220 --> 00:15:16,100

that they crashed Wow

366

00:15:20,139 --> 00:15:18,230

that's just I've loved this mystery

367

00:15:22,630 --> 00:15:20,149

since I was a kid you know and you kind

368

00:15:24,910 --> 00:15:22,640

of alluded to the erroneous conclusions

369

00:15:26,170 --> 00:15:24,920

made by some other researchers what are

370

00:15:29,440 --> 00:15:26,180

some of those the one the biggest one

371

00:15:31,510 --> 00:15:29,450

I've heard about is the idea that the

372

00:15:33,220 --> 00:15:31,520

ocean releases some type of methane gas

373

00:15:34,840 --> 00:15:33,230

that affects vessels in the area it

374

00:15:36,430 --> 00:15:34,850

sounds pretty far-fetched for an

375

00:15:38,470 --> 00:15:36,440

explanation sounds like the swamp gas

376

00:15:40,600 --> 00:15:38,480

type explanation what do you think about

377

00:15:44,470 --> 00:15:40,610

that one well you know some of the

378

00:15:47,590 --> 00:15:44,480

exposed rational explanations are just

379

00:15:50,290 --> 00:15:47,600

as absurd as so the far-out ones but the

380

00:15:52,180 --> 00:15:50,300

the largest beds of methane are off the

381

00:15:55,660 --> 00:15:52,190

Carolinans which technically are in the

382

00:15:58,630 --> 00:15:55,670

Triangle by one shape or another but

383

00:15:59,890 --> 00:15:58,640

it's the gas well the methane would have

384

00:16:02,440 --> 00:15:59,900

to go through thousands of feet of

385

00:16:04,210 --> 00:16:02,450

sediment thousands of feet of ocean and

386

00:16:07,060 --> 00:16:04,220

here up right under a ship and it's

387

00:16:10,329 --> 00:16:07,070

passing over so what are the mathematic

388

00:16:13,210 --> 00:16:10,339

probabilities right and it might happen

389

00:16:15,850 --> 00:16:13,220

with one it's perfectly possible there

390

00:16:17,590 --> 00:16:15,860

was a rig that drilled into a methane

391

00:16:20,170 --> 00:16:17,600

bed by accident and it sank and there

392

00:16:22,090 --> 00:16:20,180

were helicopters circling overhead

393

00:16:24,430 --> 00:16:22,100

filming this for the news and they were

394

00:16:28,150 --> 00:16:24,440

unaffected so even if you can get at

395

00:16:30,699 --> 00:16:28,160

least one ship that would sink suddenly

396

00:16:32,350 --> 00:16:30,709

from methane it's not going to affect

397

00:16:33,670 --> 00:16:32,360

all the aircraft and some of the

398

00:16:36,220 --> 00:16:33,680

aircraft disappearances are far more

399

00:16:39,790 --> 00:16:36,230

interesting right in the terms of

400

00:16:43,030 --> 00:16:39,800

unexplained now before we get into the

401  
00:16:44,890 --> 00:16:43,040  
only hijacked an aircraft right you know

402  
00:16:47,290 --> 00:16:44,900  
you well you know piracy is always the

403  
00:16:48,970 --> 00:16:47,300  
possibility for small vessels but how

404  
00:16:51,730 --> 00:16:48,980  
how do you stop an aircraft Midway in

405  
00:16:53,740 --> 00:16:51,740  
flight and pirate it yeah that's an

406  
00:16:55,510 --> 00:16:53,750  
interesting question and I want to get

407  
00:16:58,420 --> 00:16:55,520  
into some of the cases but before we do

408  
00:17:00,760 --> 00:16:58,430  
the one other explanation I hear people

409  
00:17:02,950 --> 00:17:00,770  
say when they try to make the Bermuda

410  
00:17:04,540 --> 00:17:02,960  
Triangle seem less mysterious

411  
00:17:06,460 --> 00:17:04,550  
that they say if you do the math on

412  
00:17:08,140 --> 00:17:06,470  
crashes and disappearances around the

413  
00:17:10,360 --> 00:17:08,150

world that their Bermuda Triangle really

414

00:17:11,110 --> 00:17:10,370

isn't that special of an area but if

415

00:17:12,610 --> 00:17:11,120

incorrect

416

00:17:15,550 --> 00:17:12,620

yeah you could dispute that claim pretty

417

00:17:17,290 --> 00:17:15,560

easily I would assume right I did in my

418

00:17:18,699 --> 00:17:17,300

book in the first chapter I think it was

419

00:17:21,280 --> 00:17:18,709

that I compared all the Coast Guard

420

00:17:22,660 --> 00:17:21,290

districts for example where the

421

00:17:25,780 --> 00:17:22,670

triangles in the 7th Coast Guard

422

00:17:27,100 --> 00:17:25,790

district I kept in the first Coast Guard

423

00:17:30,010 --> 00:17:27,110

district would be off in England I

424

00:17:32,220 --> 00:17:30,020

compared the number of calls for

425

00:17:36,010 --> 00:17:32,230

assistance which are very close

426

00:17:38,860 --> 00:17:36,020

19500 opposed to 10,200 from New England

427

00:17:41,230 --> 00:17:38,870

to compared to the 7th Coast Guard

428

00:17:43,260 --> 00:17:41,240

district but over the time I study at

429

00:17:46,810 --> 00:17:43,270

the whole decade of the 1990s four

430

00:17:49,420 --> 00:17:46,820

aircraft vanished in foul-weather

431

00:17:50,500 --> 00:17:49,430

of New England compared to 20 that

432

00:17:53,740 --> 00:17:50,510

vanished in the Triangle and

433

00:17:55,420 --> 00:17:53,750

fair-weather hmm and so there's the

434

00:17:58,210 --> 00:17:55,430

difference just in Coast Guard districts

435

00:18:02,380 --> 00:17:58,220

people still pull out the old line that

436

00:18:04,420 --> 00:18:02,390

when Lloyd did a study in 1975 where

437

00:18:06,760 --> 00:18:04,430

Lloyd's doesn't even insure the smaller

438

00:18:09,190 --> 00:18:06,770

stuff so their statistics wouldn't

439

00:18:11,410 --> 00:18:09,200  
matter and all the Coast Guard

440

00:18:13,150 --> 00:18:11,420  
statistics show that the calls for

441

00:18:16,410 --> 00:18:13,160  
assistance and the travel and traffic

442

00:18:19,470 --> 00:18:16,420  
are very similar off all the East Coast

443

00:18:21,760 --> 00:18:19,480  
and yet the triangle stands out 20 times

444

00:18:23,980 --> 00:18:21,770  
for disappearances and we're not talking

445

00:18:26,110 --> 00:18:23,990  
about wrecks we're not talking about a

446

00:18:30,100 --> 00:18:26,120  
boat Nick who's torched his boat with

447

00:18:31,690 --> 00:18:30,110  
his barbecue which has happened we're

448

00:18:33,280 --> 00:18:31,700  
not talking about you know someone who

449

00:18:35,740 --> 00:18:33,290  
Rams another one or whatever we're

450

00:18:36,280 --> 00:18:35,750  
talking about total disappearance not

451  
00:18:38,680 --> 00:18:36,290  
wreck

452  
00:18:40,930 --> 00:18:38,690  
yeah that's the most mysterious part of

453  
00:18:42,670 --> 00:18:40,940  
all and as far as the cases are

454  
00:18:44,770 --> 00:18:42,680  
concerned probably the most famous that

455  
00:18:46,510 --> 00:18:44,780  
I know about is flight 19 and I know

456  
00:18:48,690 --> 00:18:46,520  
you've written a book specifically about

457  
00:18:51,010 --> 00:18:48,700  
the case called they flew into oblivion

458  
00:18:53,830 --> 00:18:51,020  
can you tell us about that case and the

459  
00:18:55,030 --> 00:18:53,840  
conclusions you've come to ironically I

460  
00:18:57,910 --> 00:18:55,040  
don't believe it disappeared in the

461  
00:19:00,100 --> 00:18:57,920  
Triangle right I really can't say all

462  
00:19:03,280 --> 00:19:00,110  
that caused them to be confused over the

463  
00:19:05,710 --> 00:19:03,290

Bahamas so the flight leaders compass

464

00:19:07,830 --> 00:19:05,720

certainly malfunctioned he said so why

465

00:19:10,150 --> 00:19:07,840

all of the pilots didn't say something

466

00:19:12,760 --> 00:19:10,160

there were five pilots why they didn't

467

00:19:15,310 --> 00:19:12,770

say we're on course and it's only your

468

00:19:16,220 --> 00:19:15,320

compasses why they didn't mark where the

469

00:19:18,710 --> 00:19:16,230

Sun was

470

00:19:20,330 --> 00:19:18,720

they did what they did I can't explain

471

00:19:22,700 --> 00:19:20,340

everything but ultimately I do not

472

00:19:24,110 --> 00:19:22,710

believe that the flight disappeared in

473

00:19:25,820 --> 00:19:24,120

the Triangle but in fact disappeared

474

00:19:28,730 --> 00:19:25,830

over southern Georgia yeah and the

475

00:19:31,220 --> 00:19:28,740

swamplands you know in a federal refuge

476  
00:19:34,070 --> 00:19:31,230  
that's huge it's 660 square miles I

477  
00:19:37,460 --> 00:19:34,080  
believe that is that's been true and we

478  
00:19:39,320 --> 00:19:37,470  
very popular because I was objective

479  
00:19:41,390 --> 00:19:39,330  
enough to remove it from the triangles I

480  
00:19:42,980 --> 00:19:41,400  
mean it technically will always be the

481  
00:19:44,320 --> 00:19:42,990  
cornerstone of the triangle that's what

482  
00:19:46,940 --> 00:19:44,330  
directed everybody's attention out there

483  
00:19:49,640 --> 00:19:46,950  
well ultimately I do believe although it

484  
00:19:52,760 --> 00:19:49,650  
got lost there that it did disappear for

485  
00:19:55,850 --> 00:19:52,770  
a number of reasons including search and

486  
00:19:58,010 --> 00:19:55,860  
rescue follow-up and just some very hard

487  
00:19:58,340 --> 00:19:58,020  
things to explain about what happened

488  
00:20:01,100 --> 00:19:58,350

that night

489

00:20:04,340 --> 00:20:01,110

in 1945 and the reason I think the case

490

00:20:06,590 --> 00:20:04,350

is so popular is because like five

491

00:20:07,820 --> 00:20:06,600

planes went missing but I mean I guess

492

00:20:10,340 --> 00:20:07,830

you come to this conclusion because

493

00:20:13,010 --> 00:20:10,350

there were some radar reports in the

494

00:20:16,130 --> 00:20:13,020

Georgia area of five planes that were

495

00:20:19,780 --> 00:20:16,140

unaccounted for pier transport command

496

00:20:22,100 --> 00:20:19,790

both at Brunswick and Jacksonville

497

00:20:24,740 --> 00:20:22,110

reported five and identified aircraft

498

00:20:26,919 --> 00:20:24,750

had a particular heading and so then

499

00:20:29,330 --> 00:20:26,929

they asked search-and-rescue you know

500

00:20:30,200 --> 00:20:29,340

how can this be them search and rescue

501  
00:20:32,990 --> 00:20:30,210  
telling them that they should have been

502  
00:20:34,610 --> 00:20:33,000  
down and out of gas by 8:00 p.m. but

503  
00:20:37,940 --> 00:20:34,620  
these radar reports are coming in at

504  
00:20:41,180 --> 00:20:37,950  
8:50 well you're going over all that the

505  
00:20:43,970 --> 00:20:41,190  
Navy compiled in fact those those

506  
00:20:45,770 --> 00:20:43,980  
aircraft had at least an extra hour of

507  
00:20:48,110 --> 00:20:45,780  
fuel on board there were so many snafus

508  
00:20:50,090 --> 00:20:48,120  
coming out of Fort Lauderdale that there

509  
00:20:52,700 --> 00:20:50,100  
was a lot of acrimony between officers

510  
00:20:54,140 --> 00:20:52,710  
over this and when I first began I

511  
00:20:56,750 --> 00:20:54,150  
researched some of them were still alive

512  
00:20:58,610 --> 00:20:56,760  
and I just did not want to get in

513  
00:21:01,789 --> 00:20:58,620

between some of it because they could

514

00:21:02,930 --> 00:21:01,799

get very adamant a two of them refused

515

00:21:06,230 --> 00:21:02,940

to even be in the same room with each

516

00:21:07,820 --> 00:21:06,240

other and the one had used dereliction

517

00:21:09,289 --> 00:21:07,830

of duty against another one which is a

518

00:21:12,770 --> 00:21:09,299

very serious thing to say to a military

519

00:21:14,810 --> 00:21:12,780

man so it's it's quite a controversy why

520

00:21:18,110 --> 00:21:14,820

there was such an erroneous gas estimate

521

00:21:19,610 --> 00:21:18,120

why Fort Lauderdale didn't even know the

522

00:21:21,760 --> 00:21:19,620

actual time these planes were supposed

523

00:21:23,690 --> 00:21:21,770

to land they were off by an hour

524

00:21:27,230 --> 00:21:23,700

interesting search and rescue was

525

00:21:30,380 --> 00:21:27,240

delayed yeah there's just so many snafus

526

00:21:31,549 --> 00:21:30,390

that when those radar reports came in

527

00:21:32,779 --> 00:21:31,559

because it should they were just kind of

528

00:21:35,060 --> 00:21:32,789

dismissed because they thought they

529

00:21:37,130 --> 00:21:35,070

should have ditched by that time and

530

00:21:38,419 --> 00:21:37,140

when the board of inquiry actually

531

00:21:41,240 --> 00:21:38,429

challenged their search and rescue

532

00:21:44,149 --> 00:21:41,250

officer pathos radar reports that how

533

00:21:48,560 --> 00:21:44,159

did you evaluate those as negative yeah

534

00:21:50,840 --> 00:21:48,570

he replied they never landed interesting

535

00:21:52,220 --> 00:21:50,850

and that was his only excuse why those

536

00:21:53,960 --> 00:21:52,230

could not have been accurate reports

537

00:21:55,730 --> 00:21:53,970

because they logically should have

538

00:21:57,710 --> 00:21:55,740

landed that they tone or Jacksonville or

539

00:22:00,139 --> 00:21:57,720

something right no other no other

540

00:22:01,850 --> 00:22:00,149

thought entered his mind and certainly

541

00:22:04,580 --> 00:22:01,860

higher-ups saw the problems I mean there

542

00:22:06,139 --> 00:22:04,590

was the overall admiral FD wagner said

543

00:22:08,990 --> 00:22:06,149

there was obviously a lot of problems in

544

00:22:10,730 --> 00:22:09,000

the search-and-rescue now another

545

00:22:13,820 --> 00:22:10,740

interesting thread to the Romina

546

00:22:16,070 --> 00:22:13,830

triangles and a lot of UFO investigators

547

00:22:18,799 --> 00:22:16,080

have claimed that it's a UFO hotspot and

548

00:22:20,779 --> 00:22:18,809

I know there's a couple of cases I don't

549

00:22:24,590 --> 00:22:20,789

know how credible they are where people

550

00:22:27,320 --> 00:22:24,600

talk about being involved with seeing

551  
00:22:29,000 --> 00:22:27,330  
some type of strange UFO or flying craft

552  
00:22:31,490 --> 00:22:29,010  
have you investigated any of those cases

553  
00:22:32,029 --> 00:22:31,500  
that seem credible but there's only that

554  
00:22:35,779 --> 00:22:32,039  
one

555  
00:22:39,049 --> 00:22:35,789  
technically in 1980 I have the Mayday on

556  
00:22:41,269 --> 00:22:39,059  
my website so people can listen to it

557  
00:22:44,240 --> 00:22:41,279  
the pilot is panicking he's calling than

558  
00:22:45,830 --> 00:22:44,250  
one Airport and he is talking about a

559  
00:22:50,529 --> 00:22:45,840  
weird object interfering with his craft

560  
00:22:52,909 --> 00:22:50,539  
he's off the coast of San Juan near Oh

561  
00:22:55,460 --> 00:22:52,919  
cabo rojo is that it's where there was

562  
00:22:58,639 --> 00:22:55,470  
an awful lot of Olympus every juntas

563  
00:23:02,750 --> 00:22:58,649

flat back in the 70s this was the area

564

00:23:06,340 --> 00:23:02,760

off Puerto Rico where that began and so

565

00:23:10,009 --> 00:23:06,350

in 1980 this guy's flying a plane with

566

00:23:11,659 --> 00:23:10,019

his his friend in the passenger seat and

567

00:23:14,720 --> 00:23:11,669

thirty five miles off the coast he's

568

00:23:17,659 --> 00:23:14,730

panicking over the weird object and he

569

00:23:20,899 --> 00:23:17,669

keeps avoiding it and he's trying to

570

00:23:23,269 --> 00:23:20,909

avoid it and the Iberia flight is

571

00:23:25,269 --> 00:23:23,279

relaying San Juans instructions and

572

00:23:29,000 --> 00:23:25,279

trying to explain you know trying to get

573

00:23:31,669 --> 00:23:29,010

ascertain what is the problem and the

574

00:23:34,669 --> 00:23:31,679

aircraft is actually on Atlantic weapons

575

00:23:39,430 --> 00:23:34,679

radar at the time and around 803 p.m. it

576  
00:23:42,019 --> 00:23:39,440  
simply vanished Wow there was no more

577  
00:23:43,570 --> 00:23:42,029  
communication an object reappeared on

578  
00:23:45,370 --> 00:23:43,580  
the radar scope

579  
00:23:48,040 --> 00:23:45,380  
Austin's was supposed to be a plane but

580  
00:23:50,260 --> 00:23:48,050  
it was tracking in a different direction

581  
00:23:53,590 --> 00:23:50,270  
it didn't answer any calls didn't send

582  
00:23:56,710 --> 00:23:53,600  
any calls and then it vanished - Wow and

583  
00:23:58,840 --> 00:23:56,720  
so there simply was no evidence of what

584  
00:24:02,110 --> 00:23:58,850  
happened and the plane was owned by an

585  
00:24:06,190 --> 00:24:02,120  
arrow police officer of Puerto Rico his

586  
00:24:09,780 --> 00:24:06,200  
son was the passenger and his son's

587  
00:24:11,740 --> 00:24:09,790  
friend was the pilot so the father spent

588  
00:24:14,920 --> 00:24:11,750

hours and hours in his own helicopter

589

00:24:16,390 --> 00:24:14,930

trying to find out what happened and in

590

00:24:19,390 --> 00:24:16,400

the end according to the sister they had

591

00:24:21,360 --> 00:24:19,400

no they had no answer except you know

592

00:24:23,920 --> 00:24:21,370

the only connection was the weird object

593

00:24:26,500 --> 00:24:23,930

did he describe the object at all with

594

00:24:28,840 --> 00:24:26,510

any characteristic so were know every

595

00:24:31,570 --> 00:24:28,850

weird object no just you can listen to

596

00:24:33,100 --> 00:24:31,580

the Mayday on my website it'll take

597

00:24:36,040 --> 00:24:33,110

several lessons to understand both his

598

00:24:38,410 --> 00:24:36,050

accent and try and get it clearly but he

599

00:24:41,710 --> 00:24:38,420

just calls it a weird object in the

600

00:24:43,240 --> 00:24:41,720

report in the whole National

601  
00:24:46,600 --> 00:24:43,250  
Transportation Safety Board report the

602  
00:24:50,050 --> 00:24:46,610  
father well-known early aircraft does

603  
00:24:52,030 --> 00:24:50,060  
state about his own research and he

604  
00:24:54,310 --> 00:24:52,040  
called it the four parts in Spanish so

605  
00:24:55,600 --> 00:24:54,320  
he called it no jet so Luminoso so he

606  
00:24:57,750 --> 00:24:55,610  
called it a glowing object in the

607  
00:25:00,400 --> 00:24:57,760  
reports where he got that I don't know

608  
00:25:02,590 --> 00:25:00,410  
because it's only called a weird object

609  
00:25:07,090 --> 00:25:02,600  
by the pilot who was Jose Maldonado

610  
00:25:08,830 --> 00:25:07,100  
Torres interesting so now when it comes

611  
00:25:10,810 --> 00:25:08,840  
to these cases of people who've lived to

612  
00:25:12,640 --> 00:25:10,820  
tell the tales of the triangle what are

613  
00:25:15,130 --> 00:25:12,650

some of the major themes of strangeness

614

00:25:16,990 --> 00:25:15,140

they've encountered idiots what is the

615

00:25:19,330 --> 00:25:17,000

most interesting thing that people I

616

00:25:20,890 --> 00:25:19,340

think should accept is true but they

617

00:25:23,620 --> 00:25:20,900

don't have to put any kind of paranormal

618

00:25:26,560 --> 00:25:23,630

explanation on it but this is the

619

00:25:28,030 --> 00:25:26,570

correct behold

620

00:25:31,090 --> 00:25:28,040

enigma the triangle and that's the

621

00:25:32,470 --> 00:25:31,100

electronic fog right and this is

622

00:25:35,500 --> 00:25:32,480

something that's a real even Charles

623

00:25:38,830 --> 00:25:35,510

Lindbergh wrote about it finally in 1976

624

00:25:43,120 --> 00:25:38,840

and his autobiography of values he wrote

625

00:25:45,640 --> 00:25:43,130

about his flight from Havana and in

626  
00:25:49,570 --> 00:25:45,650  
spirit of st. Louie and he believed he

627  
00:25:51,850 --> 00:25:49,580  
passed into a grey mist fog bank his

628  
00:25:53,800 --> 00:25:51,860  
ground-induction gear all this early

629  
00:25:57,010 --> 00:25:53,810  
navigation gear and his compass went

630  
00:25:57,700 --> 00:25:57,020  
wacky and he continued to fly along he

631  
00:26:00,910 --> 00:25:57,710  
could look

632  
00:26:03,970 --> 00:26:00,920  
and see the stars and he tried to get

633  
00:26:06,430 --> 00:26:03,980  
above the fog but he couldn't and he

634  
00:26:09,220 --> 00:26:06,440  
finally came out of this and he was 300

635  
00:26:11,620 --> 00:26:09,230  
miles off course and amazingly that is

636  
00:26:13,930 --> 00:26:11,630  
what so many others have said Bruce

637  
00:26:15,640 --> 00:26:13,940  
Gernon is one of them he coined the term

638  
00:26:18,700 --> 00:26:15,650

electronic fog and he encountered it

639

00:26:21,610 --> 00:26:18,710

twice and he said you know it looks like

640

00:26:24,010 --> 00:26:21,620

a fog bank when you're in it but that's

641

00:26:26,530 --> 00:26:24,020

not the case it travels with you you are

642

00:26:29,470 --> 00:26:26,540

not traveling through it then you can

643

00:26:32,560 --> 00:26:29,480

look up and see the sky you can look

644

00:26:34,780 --> 00:26:32,570

straight down and see the ocean and it's

645

00:26:37,210 --> 00:26:34,790

really like you're in a doughnut weird

646

00:26:39,730 --> 00:26:37,220

it's all around you but right

647

00:26:41,110 --> 00:26:39,740

immediately you can look down and see so

648

00:26:42,820 --> 00:26:41,120

there it's kind of like a vortex and

649

00:26:44,500 --> 00:26:42,830

that's basically what Lindbergh was

650

00:26:47,440 --> 00:26:44,510

describing without knowing it he kept

651  
00:26:49,780 --> 00:26:47,450  
trying to get on top of this and Bruce

652  
00:26:52,180 --> 00:26:49,790  
said that is the big mistake to make

653  
00:26:54,610 --> 00:26:52,190  
that you are traveling through it it is

654  
00:26:56,470 --> 00:26:54,620  
traveling with you right it's like maybe

655  
00:26:58,450 --> 00:26:56,480  
if it's electromagnetic maybe it's

656  
00:27:00,760 --> 00:26:58,460  
attracted to the metal of the craft and

657  
00:27:03,880 --> 00:27:00,770  
just well it should not be because

658  
00:27:07,870 --> 00:27:03,890  
aircraft have leech lines are supposed

659  
00:27:10,750 --> 00:27:07,880  
to dispel static electricity boats and

660  
00:27:11,920 --> 00:27:10,760  
links they're supposed to discharge that

661  
00:27:13,860 --> 00:27:11,930  
so this is something it's

662  
00:27:16,120 --> 00:27:13,870  
electromagnetic but it's not something

663  
00:27:17,910 --> 00:27:16,130

you're familiar with because it should

664

00:27:21,190 --> 00:27:17,920

not be able to hold on to an aircraft

665

00:27:24,190 --> 00:27:21,200

right sonic fog exists it's an aircraft

666

00:27:25,510 --> 00:27:24,200

goes at a certain speed it can condense

667

00:27:28,450 --> 00:27:25,520

the atmosphere around it and you've seen

668

00:27:30,460 --> 00:27:28,460

these famous photos Boeing takes of

669

00:27:33,100 --> 00:27:30,470

experimental jets and there's this big

670

00:27:35,920 --> 00:27:33,110

powder puff cotton ball around the

671

00:27:38,560 --> 00:27:35,930

aircraft mm-hmm well that sonic fog

672

00:27:40,000 --> 00:27:38,570

that's well known but it just puffs away

673

00:27:43,960 --> 00:27:40,010

behind the aircraft it doesn't hold on

674

00:27:48,340 --> 00:27:43,970

to it the electronic fog does hold on to

675

00:27:51,070 --> 00:27:48,350

the aircraft or the boat now and so it's

676

00:27:53,680 --> 00:27:51,080

not it's not supernatural but I would

677

00:27:54,820 --> 00:27:53,690

suggest since the Bermuda Triangle is so

678

00:27:58,630 --> 00:27:54,830

intimately connected with

679

00:28:00,460 --> 00:27:58,640

electromagnetic aberrations pilots and

680

00:28:04,530 --> 00:28:00,470

ship masters speaking about twirling

681

00:28:07,450 --> 00:28:04,540

compasses and odd fogs and lights and

682

00:28:09,610 --> 00:28:07,460

strange things that we're talking about

683

00:28:11,860 --> 00:28:09,620

an electromagnetic phenomenon out there

684

00:28:14,480 --> 00:28:11,870

that's rather unique to that area

685

00:28:16,190 --> 00:28:14,490

that's fascinating stuff now there's

686

00:28:19,040 --> 00:28:16,200

another interesting case that I had

687

00:28:23,060 --> 00:28:19,050

heard because the disappearance of craft

688

00:28:24,410 --> 00:28:23,070

is just what's so I brow raising to me

689

00:28:26,240 --> 00:28:24,420

but there's a famous case of a guy who

690

00:28:28,040 --> 00:28:26,250

is towing a barge through the triangle

691

00:28:30,770 --> 00:28:28,050

are you familiar with that case at all

692

00:28:31,430 --> 00:28:30,780

mmm looking at captain Don Henry can you

693

00:28:33,530 --> 00:28:31,440

tell us about that

694

00:28:39,800 --> 00:28:33,540

that's an incident of the electronic

695

00:28:42,620 --> 00:28:39,810

prog probably the good news his tugboat

696

00:28:45,830 --> 00:28:42,630

was telling the barge from I think San

697

00:28:50,120 --> 00:28:45,840

Juan to Miami and over the tongue of the

698

00:28:52,490 --> 00:28:50,130

ocean this unusual fog first of all he

699

00:28:53,900 --> 00:28:52,500

was in the near the bridge and the

700

00:28:56,960 --> 00:28:53,910

people on the bridge were panicking that

701  
00:28:58,760 --> 00:28:56,970  
compass was twirling he went up there

702  
00:29:00,770 --> 00:28:58,770  
trying to figure out what happened and

703  
00:29:03,230 --> 00:29:00,780  
he looked behind he says instinct

704  
00:29:04,430 --> 00:29:03,240  
whenever you're hauling anything and so

705  
00:29:06,500 --> 00:29:04,440  
he looked behind and he couldn't see his

706  
00:29:11,180 --> 00:29:06,510  
barge it was surrounded in this fog that

707  
00:29:13,550 --> 00:29:11,190  
just hung around it and it was they

708  
00:29:15,800 --> 00:29:13,560  
could go back and pull on the the rope

709  
00:29:17,930 --> 00:29:15,810  
that held the barge and they couldn't

710  
00:29:21,860 --> 00:29:17,940  
see it it was there but they couldn't

711  
00:29:23,480 --> 00:29:21,870  
see it because just just local tough it

712  
00:29:26,000 --> 00:29:23,490  
wasn't like this big cotton ball was

713  
00:29:28,550 --> 00:29:26,010

around the barge mm-hmm and eventually

714

00:29:31,850 --> 00:29:28,560

when that disappeared all the power came

715

00:29:33,860 --> 00:29:31,860

back on the boat the batteries that he

716

00:29:37,070 --> 00:29:33,870

was carrying were drained but the

717

00:29:38,870 --> 00:29:37,080

compass was now working again and so

718

00:29:41,140 --> 00:29:38,880

that's quite a famous case one of the

719

00:29:44,000 --> 00:29:41,150

best known ones for the electronic fog

720

00:29:46,190 --> 00:29:44,010

occurring on surface level and was the

721

00:29:47,960 --> 00:29:46,200

barge still there this fog cleared yes

722

00:29:49,730 --> 00:29:47,970

yes when it was still there they went

723

00:29:51,290 --> 00:29:49,740

back and checked it and he said the

724

00:29:56,270 --> 00:29:51,300

water it was warmer than it should have

725

00:30:00,350 --> 00:29:56,280

been Wow now I've heard of some of the

726

00:30:02,750 --> 00:30:00,360

more strange cases involving time slips

727

00:30:04,880 --> 00:30:02,760

we're a strange amount of time seems to

728

00:30:06,680 --> 00:30:04,890

go by and that they can't explain that

729

00:30:11,270 --> 00:30:06,690

is there any credibility to those type

730

00:30:14,900 --> 00:30:11,280

of stories they appear implicitly in a

731

00:30:19,120 --> 00:30:14,910

couple of reports one Civil Air Patrol

732

00:30:22,940 --> 00:30:19,130

student took off without permission from

733

00:30:24,630 --> 00:30:22,950

st. Thomas he didn't give his

734

00:30:26,640 --> 00:30:24,640

destination but

735

00:30:28,650 --> 00:30:26,650

five six hours later he's in a twin

736

00:30:30,960 --> 00:30:28,660

aircraft a Beechcraft so five or six

737

00:30:33,540 --> 00:30:30,970

hours later they finally pick him up and

738

00:30:37,080 --> 00:30:33,550

he's off Miami this is a 1980-81

739

00:30:39,620 --> 00:30:37,090

incident he says that he's lost in fog

740

00:30:41,880 --> 00:30:39,630

at 150 feet outside he says it's clouds

741

00:30:45,300 --> 00:30:41,890

and her in 50 feet he's gonna have to

742

00:30:46,620 --> 00:30:45,310

ditch because he's gotta gasps hmm Miami

743

00:30:49,080 --> 00:30:46,630

didn't understand because the weather

744

00:30:50,760 --> 00:30:49,090

was perfect off Miami but Miami also

745

00:30:53,850 --> 00:30:50,770

didn't hear him David this was relayed

746

00:30:55,730 --> 00:30:53,860

to Miami from two Jumbo's off of Bermuda

747

00:30:57,930 --> 00:30:55,740

that picked him up a thousand miles away

748

00:30:59,430 --> 00:30:57,940

so it was ridden off they went out and

749

00:31:02,490 --> 00:30:59,440

looked they couldn't find him they

750

00:31:05,640 --> 00:31:02,500

thought this was a pilot who was not

751

00:31:07,400 --> 00:31:05,650

qualified and he simply ditched and

752

00:31:11,190 --> 00:31:07,410

didn't survive and there was no trace

753

00:31:13,800 --> 00:31:11,200

well lo and behold 11 hours later Caicos

754

00:31:15,690 --> 00:31:13,810

Islands hour which is an island about

755

00:31:17,940 --> 00:31:15,700

midway between San Juan Puerto Rico and

756

00:31:19,410 --> 00:31:17,950

Miami so about 6-hundred miles away from

757

00:31:21,150 --> 00:31:19,420

Miami in the Bahamas

758

00:31:23,220 --> 00:31:21,160

gets a call from a young man's voice

759

00:31:24,450 --> 00:31:23,230

they say they got the call number of the

760

00:31:27,180 --> 00:31:24,460

registration number of the plane quite

761

00:31:30,870 --> 00:31:27,190

accurately he said he was 10 this was 11

762

00:31:32,820 --> 00:31:30,880

hours later now and they said he said he

763

00:31:36,030 --> 00:31:32,830

was 10 miles out because they clear him

764

00:31:37,560 --> 00:31:36,040

for coming in for landing and they said

765

00:31:38,630 --> 00:31:37,570

yes they had no idea that aircraft was

766

00:31:41,700 --> 00:31:38,640

being looked for

767

00:31:44,490 --> 00:31:41,710

and so they clear him and he still

768

00:31:46,470 --> 00:31:44,500

doesn't come in there's no trace there

769

00:31:48,060 --> 00:31:46,480

you cannot fly in and fly out of

770

00:31:50,730 --> 00:31:48,070

anywhere in the Bahamas and refuel about

771

00:31:53,190 --> 00:31:50,740

being clocked in and so how was he still

772

00:31:57,120 --> 00:31:53,200

in the flight 11 hours later at 600

773

00:31:58,590 --> 00:31:57,130

miles away and after fuel starvation so

774

00:32:01,020 --> 00:31:58,600

that's one of the confusing cases

775

00:32:03,870 --> 00:32:01,030

there's other ones in which an SOS was

776

00:32:06,140 --> 00:32:03,880

picked up many hours after the aircraft

777

00:32:08,880 --> 00:32:06,150

had to be down it's a bit of a

778

00:32:10,170 --> 00:32:08,890

mysterious case Bruce Gernon has

779

00:32:11,910 --> 00:32:10,180

mentioned the time lapse when he

780

00:32:13,890 --> 00:32:11,920

countered the electronic fog that there

781

00:32:16,590 --> 00:32:13,900

was he was thirty minutes ahead of

782

00:32:18,030 --> 00:32:16,600

schedule and he should not have been and

783

00:32:21,090 --> 00:32:18,040

he could not account for it the fuel had

784

00:32:24,780 --> 00:32:21,100

not been consumed either he checked so

785

00:32:27,540 --> 00:32:24,790

that would be his 1970 incident so you

786

00:32:31,530 --> 00:32:27,550

get some they're very vague yeah but

787

00:32:33,510 --> 00:32:31,540

there there are allusions to it there

788

00:32:36,300 --> 00:32:33,520

are allusions to the electronic fog and

789

00:32:37,390 --> 00:32:36,310

also at the time and uh let me get weird

790

00:32:39,160 --> 00:32:37,400

on you for a minute when I was

791

00:32:41,230 --> 00:32:39,170

kid I heard this story that really

792

00:32:44,800 --> 00:32:41,240

struck out to me I believe it was on

793

00:32:46,300 --> 00:32:44,810

coast to coast and I can't find any

794

00:32:47,560 --> 00:32:46,310

information on it when I was trying to

795

00:32:49,120 --> 00:32:47,570

prepare for the show I was looking for

796

00:32:51,400 --> 00:32:49,130

it but as I remember it

797

00:32:53,440 --> 00:32:51,410

there was a plane flying around looking

798

00:32:55,060 --> 00:32:53,450

for this particular Airport below and

799

00:32:56,800 --> 00:32:55,070

they have radio communication on the

800

00:32:59,110 --> 00:32:56,810

ground and they're saying to this this

801  
00:33:01,060 --> 00:32:59,120  
plane that they're seeing it with no

802  
00:33:03,130 --> 00:33:01,070  
problem but the pilot is saying that he

803  
00:33:05,920 --> 00:33:03,140  
sees nothing down below but trees and

804  
00:33:07,660 --> 00:33:05,930  
overgrowth and the speculation was that

805  
00:33:09,610 --> 00:33:07,670  
this pilot was looking through some type

806  
00:33:11,530 --> 00:33:09,620  
of portal and was seeing the earth

807  
00:33:13,570 --> 00:33:11,540  
possibly at a different time

808  
00:33:15,460 --> 00:33:13,580  
maybe when before the airport was built

809  
00:33:17,200 --> 00:33:15,470  
are you familiar with a case like that

810  
00:33:17,740 --> 00:33:17,210  
or was I just listening to a crazy

811  
00:33:21,160 --> 00:33:17,750  
person

812  
00:33:24,250 --> 00:33:21,170  
no that was June 1969 Carolyn Cascio

813  
00:33:25,960 --> 00:33:24,260

with her boyfriend Robert rose and they

814

00:33:29,280 --> 00:33:25,970

were flying over grand Turks and the

815

00:33:31,450 --> 00:33:29,290

Cessna 172 the thing is I have the brief

816

00:33:33,250 --> 00:33:31,460

to that accident but the accident

817

00:33:35,920 --> 00:33:33,260

reports have been lost since that time

818

00:33:37,990 --> 00:33:35,930

so I've never seen the details to try

819

00:33:40,660 --> 00:33:38,000

and explain all of that but that to what

820

00:33:44,530 --> 00:33:40,670

you've recounted I think some of it's

821

00:33:47,440 --> 00:33:44,540

probably legendary right at the tourists

822

00:33:50,260 --> 00:33:47,450

were annoyed by the aircraft circling

823

00:33:54,040 --> 00:33:50,270

overhead and then the aircraft took off

824

00:33:56,590 --> 00:33:54,050

into the sea and but Carolyn Coski I've

825

00:33:59,260 --> 00:33:56,600

been telling the radar the radio control

826

00:34:00,790 --> 00:33:59,270

that there's nothing down there may have

827

00:34:05,050 --> 00:34:00,800

been two different aircrafts I don't

828

00:34:08,020 --> 00:34:05,060

know if it was the electronic fog and

829

00:34:10,149 --> 00:34:08,030

she simply couldn't see mm-hmm and it

830

00:34:12,460 --> 00:34:10,159

didn't parenting you know didn't make

831

00:34:14,110 --> 00:34:12,470

any impression on those on the ground

832

00:34:17,740 --> 00:34:14,120

I don't know how visible the electronic

833

00:34:19,270 --> 00:34:17,750

fog can be from whatever angle mm-hmm

834

00:34:20,590 --> 00:34:19,280

so maybe that's it but I would have to

835

00:34:22,930 --> 00:34:20,600

find the report until I get really

836

00:34:27,460 --> 00:34:22,940

detailed all right there is a case that

837

00:34:31,090 --> 00:34:27,470

I do have the report to in 2001 in which

838

00:34:33,940 --> 00:34:31,100

an aircraft was playing tag for training

839

00:34:34,540 --> 00:34:33,950

purposes with a Coast Guard interceptor

840

00:34:38,200 --> 00:34:34,550

for drugs

841

00:34:41,680 --> 00:34:38,210

interception this was off marathon key

842

00:34:44,290 --> 00:34:41,690

in the in the Florida Keys the sealing

843

00:34:46,680 --> 00:34:44,300

and invisibility was 12 miles and

844

00:34:49,060 --> 00:34:46,690

everything was fine and the Coast Guard

845

00:34:51,659 --> 00:34:49,070

aircraft reports flying marathon

846

00:34:57,240 --> 00:34:51,669

reporting weather reporting station

847

00:35:00,329 --> 00:34:57,250

firms but the pilot well I want to say

848

00:35:04,440 --> 00:35:00,339

the name is Chuck can't remember it but

849

00:35:06,180 --> 00:35:04,450

he suddenly reports himself IMC which is

850

00:35:09,510 --> 00:35:06,190

instrument meteorological conditions

851

00:35:10,770 --> 00:35:09,520

which means he's in meteorological

852

00:35:15,750 --> 00:35:10,780

conditions and yet it was clear to

853

00:35:18,329 --> 00:35:15,760

everybody else he apparently does the

854

00:35:22,950 --> 00:35:18,339

Deadman spiral he loses complete control

855

00:35:25,859 --> 00:35:22,960

of his horizon and he disappears in a

856

00:35:28,500 --> 00:35:25,869

search a couple days later finally finds

857

00:35:30,210 --> 00:35:28,510

a couple pieces of the aircraft so that

858

00:35:33,450 --> 00:35:30,220

he might have gotten spatially

859

00:35:37,890 --> 00:35:33,460

disoriented and crashed and that's a

860

00:35:39,990 --> 00:35:37,900

very implicit allusion to the electronic

861

00:35:41,609 --> 00:35:40,000

fogs and that he was in perfectly clear

862

00:35:44,940 --> 00:35:41,619

conditions and so does everybody else

863

00:35:46,200 --> 00:35:44,950

but suddenly he alone as I am see those

864

00:35:51,059 --> 00:35:46,210

are basically his last words and then

865

00:35:52,770 --> 00:35:51,069

he's gone Wow now I guess in more modern

866

00:35:54,359 --> 00:35:52,780

times you said this was from 2001 I

867

00:35:57,539 --> 00:35:54,369

would assume that in more modern times

868

00:36:00,420 --> 00:35:57,549

there would be better technology for

869

00:36:02,039 --> 00:36:00,430

tracking these crafts or transponders or

870

00:36:03,599 --> 00:36:02,049

the black box I mean up for the black

871

00:36:07,770 --> 00:36:03,609

box of course you've got to find the

872

00:36:10,380 --> 00:36:07,780

plane but has a small little puddle

873

00:36:13,530 --> 00:36:10,390

jumper aircraft oh gosh esna I don't

874

00:36:15,920 --> 00:36:13,540

think we'd have a black box but yeah

875

00:36:20,460 --> 00:36:15,930

you'd have to find the aircraft but will

876

00:36:25,349 --> 00:36:20,470

120 aircraft I've checked have carried

877

00:36:29,010 --> 00:36:25,359

elts which is the emergency locator

878

00:36:31,140 --> 00:36:29,020

transmitter this is the this is the

879

00:36:32,520 --> 00:36:31,150

little electronic automatic alarm that

880

00:36:36,000 --> 00:36:32,530

when the aircraft impacts it will

881

00:36:38,039 --> 00:36:36,010

jettison the pod alarm mm-hmm and this

882

00:36:41,160 --> 00:36:38,049

signal electronic signal will be picked

883

00:36:46,500 --> 00:36:41,170

up by base stations by passing aircraft

884

00:36:47,700 --> 00:36:46,510

and even by satellites and it can float

885

00:36:48,859 --> 00:36:47,710

at sea of course that's what it's

886

00:36:51,210 --> 00:36:48,869

designed for

887

00:36:52,890 --> 00:36:51,220

and it's the whole purpose of such an

888

00:36:54,660 --> 00:36:52,900

invention is to mark the point where

889

00:36:58,859 --> 00:36:54,670

there was an impact so a rescuers could

890

00:37:01,380 --> 00:36:58,869

go there quickly 120 craft I know by my

891

00:37:02,520 --> 00:37:01,390

last count have carried these are not

892

00:37:04,079 --> 00:37:02,530

one of them that's ever left an

893

00:37:05,630 --> 00:37:04,089

automatic alarm signal indicating they

894

00:37:08,069 --> 00:37:05,640

impacted

895

00:37:09,690 --> 00:37:08,079

interesting so the mystery of the

896

00:37:13,620 --> 00:37:09,700

triangle still defies our modern

897

00:37:16,219 --> 00:37:13,630

technology even now then now when you

898

00:37:18,809 --> 00:37:16,229

look at the radio communication between

899

00:37:21,710 --> 00:37:18,819

crafts that are in the air or vessels

900

00:37:25,219 --> 00:37:21,720

that are on the sea and their

901  
00:37:27,839 --> 00:37:25,229  
counterparts on land is there any more

902  
00:37:29,430 --> 00:37:27,849  
information we can extrapolate to try to

903  
00:37:36,089 --> 00:37:29,440  
come to a conclusion based on what they

904  
00:37:37,829 --> 00:37:36,099  
say I would I would say not because the

905  
00:37:41,219 --> 00:37:37,839  
disappearance whatever is causing them

906  
00:37:42,690 --> 00:37:41,229  
seems to be very sudden and for those

907  
00:37:44,489 --> 00:37:42,700  
that disappear and radar we know that

908  
00:37:45,979 --> 00:37:44,499  
because one sweep of the radar there

909  
00:37:49,859 --> 00:37:45,989  
there the other sweep they're gone that

910  
00:37:51,059 --> 00:37:49,869  
applies even to a dc-3 in and there was

911  
00:37:51,989 --> 00:37:51,069  
no wreckage when they went out and

912  
00:37:54,900 --> 00:37:51,999  
looked and spawned they knew exactly

913  
00:37:58,799 --> 00:37:54,910

where it disappeared from the radar so

914

00:38:00,180 --> 00:37:58,809

whatever happens is very sudden and I

915

00:38:02,219 --> 00:38:00,190

don't think there's really except in a

916

00:38:05,489 --> 00:38:02,229

very couple of cases like Torres

917

00:38:08,130 --> 00:38:05,499

panicking off Cuba off of Porto Rico

918

00:38:09,269 --> 00:38:08,140

rather there's really no chance for them

919

00:38:10,950 --> 00:38:09,279

to say anything they're either trying to

920

00:38:11,969 --> 00:38:10,960

control the aircraft or understand

921

00:38:16,589 --> 00:38:11,979

what's happening or the radios not

922

00:38:20,059 --> 00:38:16,599

working or simply they are gone one

923

00:38:23,099 --> 00:38:20,069

twin-engine charter Beechcraft left

924

00:38:25,049 --> 00:38:23,109

Miami or Fort Lauderdale headed for

925

00:38:28,729 --> 00:38:25,059

Bimini which is only about 56 miles away

926

00:38:31,680 --> 00:38:28,739

off the coast it slowed to a dangerously

927

00:38:35,640 --> 00:38:31,690

low airspeed of like 90 miles an hour

928

00:38:37,440 --> 00:38:35,650

and six people on board and then it went

929

00:38:39,140 --> 00:38:37,450

into a dive and they're not answering

930

00:38:41,519 --> 00:38:39,150

any calls they're not sending anything

931

00:38:43,499 --> 00:38:41,529

just appeared off radar then it went out

932

00:38:46,859 --> 00:38:43,509

there looking and they course didn't

933

00:38:50,130 --> 00:38:46,869

find a trace but two witnesses quite a

934

00:38:53,039 --> 00:38:50,140

distance away off Bimini reported seeing

935

00:38:55,829 --> 00:38:53,049

an aircraft plunge into the ocean off

936

00:38:57,390 --> 00:38:55,839

Bimini well they had the right spot

937

00:38:58,410 --> 00:38:57,400

because they thought and so the Coast

938

00:39:00,539 --> 00:38:58,420

Guard went out there and looked it's

939

00:39:02,370 --> 00:39:00,549

only 18 feet of water and yet there's

940

00:39:03,870 --> 00:39:02,380

still nothing there so I don't know if

941

00:39:06,890 --> 00:39:03,880

they were seeing a mirage of the actual

942

00:39:11,370 --> 00:39:06,900

aircraft plunging into the Gulf Stream

943

00:39:14,209 --> 00:39:11,380

or what but even though it was not

944

00:39:16,880 --> 00:39:14,219

completely sudden radar controllers were

945

00:39:19,250 --> 00:39:16,890

amazed at why this aircraft was suddenly

946

00:39:21,990 --> 00:39:19,260

heard in some odd miles 290

947

00:39:23,400 --> 00:39:22,000

before it plunged still there was no

948

00:39:24,559 --> 00:39:23,410

communication from anybody in the

949

00:39:27,690 --> 00:39:24,569

aircraft

950

00:39:29,880 --> 00:39:27,700

creepy stuff now let's talk about some

951  
00:39:31,380 --> 00:39:29,890  
of the more far-out explanations I mean

952  
00:39:33,690 --> 00:39:31,390  
one of my favorite when I was younger

953  
00:39:35,730 --> 00:39:33,700  
was the idea that Atlantis has been

954  
00:39:37,859 --> 00:39:35,740  
there and sunk into the sea and that

955  
00:39:39,839 --> 00:39:37,869  
they had a lot of electromagnetic

956  
00:39:42,270 --> 00:39:39,849  
technology that was still active and

957  
00:39:44,040 --> 00:39:42,280  
effects crafts in the area I think some

958  
00:39:49,680 --> 00:39:44,050  
of that came from Edgar Cayce if I'm not

959  
00:39:51,480 --> 00:39:49,690  
mistaken yes it did Charles Berlitz and

960  
00:39:53,970 --> 00:39:51,490  
J Manson Valentine made that very

961  
00:39:56,250 --> 00:39:53,980  
popular well you know if you accept that

962  
00:39:58,859 --> 00:39:56,260  
the triangle is really the adventure

963  
00:40:01,140 --> 00:39:58,869

area you have to accept the triangles

964

00:40:03,930 --> 00:40:01,150

two things one it's the enigma of the

965

00:40:05,730 --> 00:40:03,940

triangle which is that more aircraft and

966

00:40:08,579 --> 00:40:05,740

ships vanish in fair weather without any

967

00:40:10,410 --> 00:40:08,589

known cause number two that it is an

968

00:40:13,980 --> 00:40:10,420

actual geographic area obviously between

969

00:40:15,690 --> 00:40:13,990

Bermuda southern Florida Puerto Rico so

970

00:40:19,339 --> 00:40:15,700

whatever is going on in there whether

971

00:40:22,020 --> 00:40:19,349

it's high seas high seas high jinks or

972

00:40:25,799 --> 00:40:22,030

piracy their disappearance or voodoo

973

00:40:28,849 --> 00:40:25,809

rituals or strange ruins on the bottom

974

00:40:32,069 --> 00:40:28,859

it is part of the Bermuda Triangle

975

00:40:35,280 --> 00:40:32,079

enigma yeah so you can talk about

976  
00:40:38,849 --> 00:40:35,290  
Atlantis and there are unusual man-made

977  
00:40:42,000 --> 00:40:38,859  
ruins but there's no there's no evidence

978  
00:40:47,280 --> 00:40:42,010  
that Edgar Cayce is Atlantis but Wally

979  
00:40:49,799 --> 00:40:47,290  
stone twice Don it's cold is pulsing off

980  
00:40:55,500 --> 00:40:49,809  
of natural energy in the rock is the

981  
00:40:57,000 --> 00:40:55,510  
theory and sending a ship or plane into

982  
00:40:59,670 --> 00:40:57,010  
another dimension or disintegrating it

983  
00:41:01,920 --> 00:40:59,680  
out right yeah as far as ruins are

984  
00:41:03,720 --> 00:41:01,930  
concerned I mean Bimini Road is located

985  
00:41:06,510 --> 00:41:03,730  
there which is like some underground or

986  
00:41:08,190 --> 00:41:06,520  
not underground but undersea ancient

987  
00:41:11,549 --> 00:41:08,200  
ruins they found can you tell us about

988  
00:41:13,859 --> 00:41:11,559

that at all oh it's very well known it's

989

00:41:17,579 --> 00:41:13,869

an inverted J there's other segments

990

00:41:20,190 --> 00:41:17,589

running parallel to it it's in Oh 20

991

00:41:21,980 --> 00:41:20,200

feet of water at least lost family it's

992

00:41:24,150 --> 00:41:21,990

quite beautiful I maps the whole thing

993

00:41:26,099 --> 00:41:24,160

but it was trunk I think so much for my

994

00:41:28,010 --> 00:41:26,109

book you really can't appreciate it but

995

00:41:30,630 --> 00:41:28,020

on my website somewhere you can actually

996

00:41:32,420 --> 00:41:30,640

click onto it and see all the stones and

997

00:41:36,200 --> 00:41:32,430

how its arranged

998

00:41:39,200 --> 00:41:36,210

it looks like a inca park where the inca

999

00:41:41,990 --> 00:41:39,210

stonework polygonal stones like sexy

1000

00:41:43,910 --> 00:41:42,000

Wallen mm-hmm but it's on its side so

1001  
00:41:46,970 --> 00:41:43,920  
it's either a platform or was a wall

1002  
00:41:51,920 --> 00:41:46,980  
that fell over the general theory is

1003  
00:41:55,820 --> 00:41:51,930  
it's a ancient dock or something and

1004  
00:41:57,760 --> 00:41:55,830  
that's why people some extent do believe

1005  
00:41:59,780 --> 00:41:57,770  
in edited cases Atlantis the super

1006  
00:42:01,160 --> 00:41:59,790  
civilization out there is that he had

1007  
00:42:06,320 --> 00:42:01,170  
said that they're gonna find something

1008  
00:42:08,150 --> 00:42:06,330  
around Bimini one year and so J Manson

1009  
00:42:10,790 --> 00:42:08,160  
Valentine was one who dives and then

1010  
00:42:13,820 --> 00:42:10,800  
found too many stones so people say see

1011  
00:42:16,910 --> 00:42:13,830  
that's the covalent yeah it's a little

1012  
00:42:20,060 --> 00:42:16,920  
off but you could twist the pieces to

1013  
00:42:22,940 --> 00:42:20,070

make them fit another interesting aspect

1014

00:42:25,460 --> 00:42:22,950

to the ruins there at Bimini the Bimini

1015

00:42:28,100 --> 00:42:25,470

area is that they are located or they're

1016

00:42:29,090 --> 00:42:28,110

actually on the perry reis map which is

1017

00:42:31,310 --> 00:42:29,100

something we've talked about with a

1018

00:42:33,440 --> 00:42:31,320

previous guest which is an old ancient

1019

00:42:34,940 --> 00:42:33,450

map and it appears like there's

1020

00:42:38,360 --> 00:42:34,950

something there but it's yet it's not

1021

00:42:40,040 --> 00:42:38,370

underwater on the map no i actually

1022

00:42:42,260 --> 00:42:40,050

discovered that i had a big article on

1023

00:42:45,200 --> 00:42:42,270

that a long long time ago and then

1024

00:42:46,940 --> 00:42:45,210

graham hancock picked up on that too and

1025

00:42:50,240 --> 00:42:46,950

he had it in one of his books underworld

1026

00:42:53,510 --> 00:42:50,250

I think mmm-hmm but I have I think that

1027

00:42:55,790 --> 00:42:53,520

page is still up on my website here but

1028

00:42:59,090 --> 00:42:55,800

I have so many pages you'd have to dig

1029

00:43:01,430 --> 00:42:59,100

through there but you will see it on the

1030

00:43:05,950 --> 00:43:01,440

piri Reis which I have a blow-up section

1031

00:43:08,300 --> 00:43:05,960

and it is in a map on the Bahamas

1032

00:43:10,880 --> 00:43:08,310

what Island they're trying to convey but

1033

00:43:13,250 --> 00:43:10,890

it is on land if it's Bimini or not or

1034

00:43:18,200 --> 00:43:13,260

some other place it you know ancient

1035

00:43:19,910 --> 00:43:18,210

cartographers did mark a significant you

1036

00:43:22,340 --> 00:43:19,920

know to mark an area did use something

1037

00:43:24,110 --> 00:43:22,350

significant that was unique to it and so

1038

00:43:28,420 --> 00:43:24,120

obviously this cartographer was told

1039

00:43:34,550 --> 00:43:32,390

interesting but I knew about it yeah

1040

00:43:36,740 --> 00:43:34,560

that's very cool I love that kind of

1041

00:43:38,840 --> 00:43:36,750

stuff and another theory that gets

1042

00:43:41,540 --> 00:43:38,850

tossed around we kind of alluded to it

1043

00:43:43,250 --> 00:43:41,550

earlier this is mainly in paranormal a

1044

00:43:45,680 --> 00:43:43,260

conspiracy circles but they talk about

1045

00:43:46,279 --> 00:43:45,690

that time warp phenomenon or you know a

1046

00:43:48,259 --> 00:43:46,289

multi do

1047

00:43:50,029 --> 00:43:48,269

mention important there does is there

1048

00:43:59,059 --> 00:43:50,039

any kind of science that could support

1049

00:44:00,859 --> 00:43:59,069

that type of theory there's well time is

1050

00:44:04,870 --> 00:44:00,869

you know if you're going to go by it

1051  
00:44:08,299 --> 00:44:04,880  
strictly by Einsteins that a heavy mass

1052  
00:44:11,059 --> 00:44:08,309  
will Bend space in their with time

1053  
00:44:12,829 --> 00:44:11,069  
according to his theory that's based on

1054  
00:44:18,199 --> 00:44:12,839  
you know atomic clocks at orbital

1055  
00:44:20,749 --> 00:44:18,209  
Heights and at sea surface will record

1056  
00:44:23,239 --> 00:44:20,759  
time slightly differently very minor but

1057  
00:44:25,009 --> 00:44:23,249  
it's it's moving slower mmm-hmm

1058  
00:44:28,729 --> 00:44:25,019  
well we're recording it slower it's not

1059  
00:44:31,849 --> 00:44:28,739  
moving slower it's at the closer to the

1060  
00:44:34,909 --> 00:44:31,859  
center of gravity well if you can bend

1061  
00:44:36,949 --> 00:44:34,919  
space by another means other than a

1062  
00:44:39,799 --> 00:44:36,959  
massive object if you can bend space by

1063  
00:44:42,679 --> 00:44:39,809

electromagnetic wavelengths that are

1064

00:44:47,709 --> 00:44:42,689

obviously within space or through us all

1065

00:44:50,679 --> 00:44:47,719

they're everywhere could you bend time

1066

00:44:55,759 --> 00:44:50,689

could you slow it we know how to slow it

1067

00:44:57,380 --> 00:44:55,769

just by bending space so excuse me that

1068

00:44:59,299 --> 00:44:57,390

would be the closest you can come is

1069

00:45:02,390 --> 00:44:59,309

that what the electromagnetic phenomenon

1070

00:45:05,209 --> 00:45:02,400

over the triangle obviously it would

1071

00:45:09,469 --> 00:45:05,219

need the C doesn't happen over land

1072

00:45:14,809 --> 00:45:09,479

mmm-hmm so I would if the effects are

1073

00:45:19,039 --> 00:45:14,819

right could something some vortex a bend

1074

00:45:21,409 --> 00:45:19,049

space in project magnet dr. Robert Smith

1075

00:45:24,229 --> 00:45:21,419

or will Bert's I don't know if he ever

1076

00:45:27,259 --> 00:45:24,239

earned his PhD but anyway he was head of

1077

00:45:29,329 --> 00:45:27,269

project magnetic Canada in the 1950s he

1078

00:45:30,589 --> 00:45:29,339

found these areas much more common in

1079

00:45:33,259 --> 00:45:30,599

the tropics he called them areas of

1080

00:45:34,729 --> 00:45:33,269

reduced binding they were diameter

1081

00:45:37,609 --> 00:45:34,739

circular diameter they could get a

1082

00:45:39,439 --> 00:45:37,619

thousand feet in diameter and they came

1083

00:45:43,969 --> 00:45:39,449

and went and so these areas of reduced

1084

00:45:48,890 --> 00:45:43,979

binding became well known within the

1085

00:45:50,659 --> 00:45:48,900

literature in the 1950s and we're

1086

00:45:52,039 --> 00:45:50,669

discussed in relationship to a triangle

1087

00:45:55,339 --> 00:45:52,049

since they're more common in the tropics

1088

00:45:58,130 --> 00:45:55,349

and he thought that if an aircraft at

1089

00:46:00,460 --> 00:45:58,140

high speed hit one of these he would

1090

00:46:03,040 --> 00:46:00,470

disintegrate he said they come and go

1091

00:46:05,230 --> 00:46:03,050

well later research indicates that these

1092

00:46:07,170 --> 00:46:05,240

could be magnetic 40 says that's been

1093

00:46:11,440 --> 00:46:07,180

into existence temporarily due to

1094

00:46:13,960 --> 00:46:11,450

figures in the Earth's rotation so if

1095

00:46:17,800 --> 00:46:13,970

you have an invisible magnetic vortex

1096

00:46:19,599 --> 00:46:17,810

out there if you have a solar storm or

1097

00:46:23,230 --> 00:46:19,609

something

1098

00:46:25,420 --> 00:46:23,240

the vortex could attract all the charged

1099

00:46:28,300 --> 00:46:25,430

particles this would be an invisible

1100

00:46:30,280 --> 00:46:28,310

matrix spinning out there you cannot see

1101

00:46:33,210 --> 00:46:30,290

what would happen if an aircraft first

1102

00:46:36,160 --> 00:46:33,220

ship did come into proximity of that

1103

00:46:38,890 --> 00:46:36,170

remember charged particles after a solar

1104

00:46:41,470 --> 00:46:38,900

storm will detect the magnetic lines of

1105

00:46:43,839 --> 00:46:41,480

force mm-hmm and our Earth's magnetic

1106

00:46:45,550 --> 00:46:43,849

field when there are clouds there you'll

1107

00:46:47,260 --> 00:46:45,560

see they get charged and the clouds will

1108

00:46:48,790 --> 00:46:47,270

begin to spin around the magnetic field

1109

00:46:51,220 --> 00:46:48,800

lines of force they look like a

1110

00:46:53,349 --> 00:46:51,230

corkscrew all right of the picture on

1111

00:46:55,890 --> 00:46:53,359

the my website about that mm-hmm

1112

00:46:58,450 --> 00:46:55,900

and so now if you're thinking about this

1113

00:47:00,839 --> 00:46:58,460

basically perpendicular to the earth

1114

00:47:04,359 --> 00:47:00,849

it's magnetic vortex what will happen

1115

00:47:07,630 --> 00:47:04,369

out there if it's charged after a solar

1116

00:47:09,210 --> 00:47:07,640

storm I can't tell you what but you know

1117

00:47:12,250 --> 00:47:09,220

it's not something I would like to

1118

00:47:13,329 --> 00:47:12,260

encounter because in this dish you know

1119

00:47:16,450 --> 00:47:13,339

you're talking about an invisible

1120

00:47:18,849 --> 00:47:16,460

cyclone but a magnetic electromagnetic

1121

00:47:21,400 --> 00:47:18,859

cyclone and there are pilots and ship

1122

00:47:23,200 --> 00:47:21,410

masters who have you know at night at

1123

00:47:25,390 --> 00:47:23,210

sea you can't see a waterspout

1124

00:47:27,460 --> 00:47:25,400

you can begin to hear it in an aircraft

1125

00:47:28,390 --> 00:47:27,470

you won't so what happens if you fly

1126  
00:47:32,170 --> 00:47:28,400  
into one of these where you're going to

1127  
00:47:33,760 --> 00:47:32,180  
be disintegrated right away Wow oh but

1128  
00:47:36,790 --> 00:47:33,770  
what happens if you fly into one of

1129  
00:47:40,180 --> 00:47:36,800  
these these forty PSA's these magnetic

1130  
00:47:41,920 --> 00:47:40,190  
vortices or even within proximity to it

1131  
00:47:44,220 --> 00:47:41,930  
is that what explains the electronic fog

1132  
00:47:47,380 --> 00:47:44,230  
is that what explains all the reports of

1133  
00:47:50,920 --> 00:47:47,390  
compass malfunction could be a just

1134  
00:47:52,780 --> 00:47:50,930  
being near one by common in the Bahamas

1135  
00:47:55,780 --> 00:47:52,790  
you know I talked to enough people out

1136  
00:47:58,569 --> 00:47:55,790  
there and they say the only reason why

1137  
00:48:00,099 --> 00:47:58,579  
it doesn't get more attention is that

1138  
00:48:01,990 --> 00:48:00,109

all these old hands in the Bahamas are

1139

00:48:04,690 --> 00:48:02,000

used to point of sight navigating they

1140

00:48:06,309 --> 00:48:04,700

know the islands of the peninsula's and

1141

00:48:07,809 --> 00:48:06,319

they seldom look at their compass but

1142

00:48:10,150 --> 00:48:07,819

when they do sometimes it's pointing in

1143

00:48:12,820 --> 00:48:10,160

the wrong direction and they joke look

1144

00:48:15,460 --> 00:48:12,830

the Bermuda Triangle

1145

00:48:17,050 --> 00:48:15,470

yeah that's that's trippy how weird

1146

00:48:19,810 --> 00:48:17,060

would it be how wild would it be to

1147

00:48:22,510 --> 00:48:19,820

learn that some of these crafts were

1148

00:48:25,660 --> 00:48:22,520

going through some type of time portal

1149

00:48:28,090 --> 00:48:25,670

and we're popping out and other ages

1150

00:48:31,150 --> 00:48:28,100

maybe you know thousands of years ago

1151

00:48:33,130 --> 00:48:31,160

maybe the the high-tech UFOs that people

1152

00:48:34,750 --> 00:48:33,140

see or crafts that have gotten stuck in

1153

00:48:36,100 --> 00:48:34,760

the Triangle in the future that have

1154

00:48:38,290 --> 00:48:36,110

popped out in our time

1155

00:48:41,710 --> 00:48:38,300

that's some crazy speculation but that'd

1156

00:48:44,920 --> 00:48:41,720

be pretty wild they'd like to see ERISA

1157

00:48:48,640 --> 00:48:44,930

better wormholes and all sorts of things

1158

00:48:51,910 --> 00:48:48,650

I remember I had agreed with ancient

1159

00:48:55,080 --> 00:48:51,920

aliens why the History Channel has that

1160

00:48:57,820 --> 00:48:55,090

show I don't know it asked me to explain

1161

00:48:59,740 --> 00:48:57,830

what the theory is that the aliens are

1162

00:49:01,330 --> 00:48:59,750

based on Earth and I said well I can

1163

00:49:04,540 --> 00:49:01,340

explain it you know how it's based in

1164

00:49:06,490 --> 00:49:04,550

the triangle how Yvan Sanderson made

1165

00:49:09,340 --> 00:49:06,500

that very popular and J Manson Valentine

1166

00:49:11,490 --> 00:49:09,350

believed that and Edgar Cayce and all

1167

00:49:13,630 --> 00:49:11,500

these these guys said so I'll explain it

1168

00:49:17,430 --> 00:49:13,640

and sure enough they made it sound like

1169

00:49:20,080 --> 00:49:17,440

I was endorsing it hmm and I don't

1170

00:49:23,050 --> 00:49:20,090

certainly I've investigated UFOs you

1171

00:49:26,230 --> 00:49:23,060

cannot ignore them if you have such

1172

00:49:30,910 --> 00:49:26,240

references in an accident report I'm not

1173

00:49:35,080 --> 00:49:30,920

shy about investigating anything but the

1174

00:49:38,530 --> 00:49:35,090

whole theories that evolved about UFOs

1175

00:49:40,630 --> 00:49:38,540

being based in the triangle well I have

1176

00:49:43,150 --> 00:49:40,640

one accident report where it's a weird

1177

00:49:45,130 --> 00:49:43,160

object is alluded to I do know of

1178

00:49:47,770 --> 00:49:45,140

incidents where there are lines on the

1179

00:49:49,870 --> 00:49:47,780

shallow banks because when an anchor was

1180

00:49:51,300 --> 00:49:49,880

drugged but it's not an anchor there's

1181

00:49:54,400 --> 00:49:51,310

of something at high speed underwater

1182

00:49:56,170 --> 00:49:54,410

went over it for a long time and they go

1183

00:49:59,880 --> 00:49:56,180

over islands and then start on the other

1184

00:50:02,560 --> 00:49:59,890

side again oh wow but the data disclosed

1185

00:50:04,650 --> 00:50:02,570

had you come aside from lights and

1186

00:50:07,840 --> 00:50:04,660

reports that people make of these

1187

00:50:09,460 --> 00:50:07,850

strange lights or even what they think

1188

00:50:12,610 --> 00:50:09,470

is a craft coming and going from the

1189

00:50:14,320 --> 00:50:12,620

water it was all subjective

1190

00:50:18,310 --> 00:50:14,330

except for that in one accident report

1191

00:50:20,110 --> 00:50:18,320

now probably the most far-out thing I've

1192

00:50:21,820 --> 00:50:20,120

heard about that area and it's probably

1193

00:50:24,910 --> 00:50:21,830

a hoax but I got to ask you about it is

1194

00:50:26,720 --> 00:50:24,920

the story of dr. Ray Brown where he said

1195

00:50:28,790 --> 00:50:26,730

in the 1970s he was scooped

1196

00:50:31,339 --> 00:50:28,800

diving and he went inside of a sunken

1197

00:50:33,260 --> 00:50:31,349

glass like pyramid and he took some

1198

00:50:35,450 --> 00:50:33,270

crystal out of it and then five years

1199

00:50:39,620 --> 00:50:35,460

later he started showing this crystal at

1200

00:50:40,940 --> 00:50:39,630

different conferences sounds way out

1201

00:50:46,310 --> 00:50:40,950

there I mean have you heard of this

1202

00:50:48,290 --> 00:50:46,320

story no actually I thought he was the

1203

00:50:50,270 --> 00:50:48,300

one there was someone out there who saw

1204

00:50:52,490 --> 00:50:50,280

a bigfoot of a deep i remember that one

1205

00:50:55,670 --> 00:50:52,500

what's that story i got one channel lost

1206

00:50:59,680 --> 00:50:55,680

looking for that looking for a guinea

1207

00:51:02,060 --> 00:50:59,690

hannover Gabriel Figueroa got all upset

1208

00:51:03,740 --> 00:51:02,070

when he was telling the story about the

1209

00:51:04,839 --> 00:51:03,750

Amazon and what lives there and he was

1210

00:51:08,599 --> 00:51:04,849

telling orson welles

1211

00:51:11,839 --> 00:51:08,609

back in the 1940s that there was such a

1212

00:51:15,430 --> 00:51:11,849

creature that lived in the Amazon so it

1213

00:51:21,859 --> 00:51:15,440

was kind of like an amphibious walking

1214

00:51:23,420 --> 00:51:21,869

man and William Åland was one of course

1215

00:51:24,970 --> 00:51:23,430

and Welles mercury theater people he

1216

00:51:27,950 --> 00:51:24,980

played the reporter in Citizen Kane

1217

00:51:29,870 --> 00:51:27,960

through familiar with classic movies yes

1218

00:51:32,120 --> 00:51:29,880

well William along turned to production

1219

00:51:34,160 --> 00:51:32,130

in the 1950s and he was so fascinated by

1220

00:51:37,520 --> 00:51:34,170

Gabriel Figueroa who was a well-known

1221

00:51:39,109 --> 00:51:37,530

director of photography and and Gabriel

1222

00:51:40,339 --> 00:51:39,119

Figueroa had gotten so adamant when

1223

00:51:43,040 --> 00:51:40,349

Orson Welles challenged in that this

1224

00:51:46,220 --> 00:51:43,050

could not be true so William Allen

1225

00:51:47,510 --> 00:51:46,230

decided to turn this into a movie and he

1226

00:51:49,000 --> 00:51:47,520

is the producer of Creature from the

1227

00:51:52,550 --> 00:51:49,010

Black Lagoon ah

1228

00:51:55,280 --> 00:51:52,560

and so that is supposedly it does come

1229

00:51:56,870 --> 00:51:55,290

from Gabriel Figueroa insisting

1230

00:51:59,780 --> 00:51:56,880

adamantly that such a creature was

1231

00:52:02,240 --> 00:51:59,790

reported in the Amazon and there's a few

1232

00:52:04,700 --> 00:52:02,250

people I've heard tell one got in a book

1233

00:52:07,099 --> 00:52:04,710

somewhere about seeing such a thing

1234

00:52:09,950 --> 00:52:07,109

called Bigfoot of the deep where you

1235

00:52:13,460 --> 00:52:09,960

have an amphibian that is more or less a

1236

00:52:16,670 --> 00:52:13,470

turtle's type of back hind legs and kind

1237

00:52:18,260 --> 00:52:16,680

of you know Bigfoot face strange and

1238

00:52:21,050 --> 00:52:18,270

once in a while they can come up on the

1239

00:52:24,109 --> 00:52:21,060

land and the footprints in the Bahamas

1240

00:52:24,800 --> 00:52:24,119

or wherever that's fascinating but I

1241

00:52:26,359 --> 00:52:24,810

doubt it

1242

00:52:28,370 --> 00:52:26,369

I know but that's not a career that's

1243

00:52:30,309 --> 00:52:28,380

he's the one I thought that it's all

1244

00:52:34,490 --> 00:52:30,319

that I didn't know about the crystal oh

1245

00:52:37,400 --> 00:52:34,500

this was a famous swimmer I thought it

1246

00:52:40,190 --> 00:52:37,410

was Ray Brown does not strike there's

1247

00:52:42,680 --> 00:52:40,200

another dr. Brown or doctor I forget who

1248

00:52:45,140 --> 00:52:42,690

it is that saw the glowing column off

1249

00:52:47,480 --> 00:52:45,150

Bimini is that same one I don't know

1250

00:52:49,730 --> 00:52:47,490

what's that story that sounds familiar

1251  
00:52:52,940 --> 00:52:49,740  
to me found a saw a glowing column

1252  
00:52:56,450 --> 00:52:52,950  
underwater it's in dr. zinc's book the

1253  
00:52:59,569 --> 00:52:56,460  
stones of Atlantis 1957 I can't tell you

1254  
00:53:02,780 --> 00:52:59,579  
much except I've asked some divers to go

1255  
00:53:04,460 --> 00:53:02,790  
looking and I've seen a picture from

1256  
00:53:06,230 --> 00:53:04,470  
that area that looks like something that

1257  
00:53:06,740 --> 00:53:06,240  
fell over but there's no column that

1258  
00:53:08,780 --> 00:53:06,750  
they know of

1259  
00:53:13,069 --> 00:53:08,790  
but in the zinc's book you can see the

1260  
00:53:15,380 --> 00:53:13,079  
picture looks like it's glowing and the

1261  
00:53:17,510 --> 00:53:15,390  
diver who discovered William Bell that

1262  
00:53:21,260 --> 00:53:17,520  
was his name so that's not brown William

1263  
00:53:22,910 --> 00:53:21,270

Bell was getting bloody noses from being

1264

00:53:26,120 --> 00:53:22,920

around this metal column he could not

1265

00:53:29,870 --> 00:53:26,130

explain by implication of course it was

1266

00:53:31,309 --> 00:53:29,880

part of Atlantis you'll encounter an

1267

00:53:32,900 --> 00:53:31,319

awful lot of odd claims out there

1268

00:53:35,270 --> 00:53:32,910

there's people who do some really weird

1269

00:53:36,920 --> 00:53:35,280

things with quartz crystals while

1270

00:53:40,550 --> 00:53:36,930

they're cruising over the Bimini stones

1271

00:53:43,150 --> 00:53:40,560

and very odd things happen odd voodoo

1272

00:53:46,059 --> 00:53:43,160

things happen to Luna sacrifices rituals

1273

00:53:48,260 --> 00:53:46,069

from the people in the Bermuda area oh

1274

00:53:49,250 --> 00:53:48,270

yeah and then the Bermuda Triangle yeah

1275

00:53:53,240 --> 00:53:49,260

there's a lot of loot in there

1276

00:53:59,180 --> 00:53:53,250

Wow very odd things ritual on ships

1277

00:54:03,349 --> 00:53:59,190

murder strangeness there is and there's

1278

00:54:05,120 --> 00:54:03,359

then you have very unusual incidents

1279

00:54:06,800 --> 00:54:05,130

where people think well you know it's so

1280

00:54:09,980 --> 00:54:06,810

shallow and crystal clear the water I'm

1281

00:54:12,650 --> 00:54:09,990

going to go out in a little a 15 20 foot

1282

00:54:14,720 --> 00:54:12,660

boat can just go fish where they go out

1283

00:54:18,319 --> 00:54:14,730

in their kayaks and they don't

1284

00:54:20,359 --> 00:54:18,329

understand that barracudas can use the

1285

00:54:21,290 --> 00:54:20,369

shallow bottom to push off with and

1286

00:54:23,870 --> 00:54:21,300

they'll jump in the boat and they'll

1287

00:54:27,559 --> 00:54:23,880

grab you and pull you in oh my god oh

1288

00:54:30,050 --> 00:54:27,569

yeah talk about evolution there's a

1289

00:54:32,990 --> 00:54:30,060

number of derelict kayaks or small out

1290

00:54:36,559 --> 00:54:33,000

boards and you can pretty much guess

1291

00:54:38,660 --> 00:54:36,569

that barracudas or something not them I

1292

00:54:41,059 --> 00:54:38,670

know of a case in 2010 in which two

1293

00:54:43,010 --> 00:54:41,069

people wear a double kayak and the

1294

00:54:46,940 --> 00:54:43,020

Barracuda saw her she was the girl was

1295

00:54:47,099 --> 00:54:46,950

in the back jumped in jumped at her bit

1296

00:54:50,309 --> 00:54:47,109

her

1297

00:54:51,779 --> 00:54:50,319

the chest punctured a lung then jumped

1298

00:54:54,269 --> 00:54:51,789

back in the water and she freaked out

1299

00:54:56,249 --> 00:54:54,279

and fortunately she was with a guy and

1300

00:54:58,380 --> 00:54:56,259

he could call medevac and they could

1301  
00:54:59,519 --> 00:54:58,390  
save her had she been on her own the

1302  
00:55:02,190 --> 00:54:59,529  
Barracuda would have come back around

1303  
00:55:05,249 --> 00:55:02,200  
and drug her under and have been a

1304  
00:55:07,140 --> 00:55:05,259  
derelict kayak oh my god yeah I was

1305  
00:55:08,670 --> 00:55:07,150  
thinking about like considering the

1306  
00:55:10,769 --> 00:55:08,680  
water is so shallow there I was thinking

1307  
00:55:12,630 --> 00:55:10,779  
to myself you know there's a place I

1308  
00:55:15,329 --> 00:55:12,640  
should take a vacation go check out the

1309  
00:55:17,400 --> 00:55:15,339  
Bimini Road now I'm not so sure that's a

1310  
00:55:18,989 --> 00:55:17,410  
good idea well deep enough there you

1311  
00:55:21,239 --> 00:55:18,999  
don't have to worry I think unless they

1312  
00:55:25,489 --> 00:55:21,249  
really get some speed and jump up in the

1313  
00:55:28,739 --> 00:55:25,499

boat but a Coast Guard Petty Officer

1314

00:55:32,819 --> 00:55:28,749

Powell was his last name I think he was

1315

00:55:35,039 --> 00:55:32,829

off Andros Island with his outboard in

1316

00:55:38,339 --> 00:55:35,049

seven feet of water that crystal-clear

1317

00:55:40,049 --> 00:55:38,349

beautiful water of the Andros Island and

1318

00:55:43,650 --> 00:55:40,059

he vanished they went out there his boat

1319

00:55:46,200 --> 00:55:43,660

was still anchored his fishing line over

1320

00:55:48,739 --> 00:55:46,210

the and you know yeah no sign of it is

1321

00:55:51,059 --> 00:55:48,749

no sign of a disturbance no sign that

1322

00:55:54,029 --> 00:55:51,069

heavy powerboat had cut up sand

1323

00:55:54,390 --> 00:55:54,039

underneath and they never found trace of

1324

00:55:56,849 --> 00:55:54,400

him

1325

00:55:58,769 --> 00:55:56,859

creepy now there are also some

1326  
00:56:00,569 --> 00:55:58,779  
researchers to talk about this idea that

1327  
00:56:02,460 --> 00:56:00,579  
if you map out some of the ancient

1328  
00:56:04,349 --> 00:56:02,470  
world's historic sites like Stonehenge

1329  
00:56:05,970 --> 00:56:04,359  
and the Great Pyramids and some people

1330  
00:56:07,769 --> 00:56:05,980  
also include the Bermuda Triangle in

1331  
00:56:09,870 --> 00:56:07,779  
this that you'll find these sites on

1332  
00:56:12,539 --> 00:56:09,880  
some type of ley lines or nodes of

1333  
00:56:14,789 --> 00:56:12,549  
electromagnetic energy that may be in

1334  
00:56:16,559 --> 00:56:14,799  
the ancient past we were more aware of

1335  
00:56:18,420 --> 00:56:16,569  
or we harnessed this type of natural

1336  
00:56:20,130 --> 00:56:18,430  
energy but we've lost touch with it a

1337  
00:56:20,999 --> 00:56:20,140  
lot of speculation in that area do you

1338  
00:56:26,729 --> 00:56:21,009

have any thoughts on that

1339

00:56:28,529 --> 00:56:26,739

no really don't you know to me it's I

1340

00:56:31,349 --> 00:56:28,539

was I've read about it but it's not

1341

00:56:33,559 --> 00:56:31,359

something I retain as much because

1342

00:56:35,460 --> 00:56:33,569

people that write about it

1343

00:56:36,900 --> 00:56:35,470

associated with some very erroneous

1344

00:56:38,839 --> 00:56:36,910

facts in the Triangle about where the

1345

00:56:42,150 --> 00:56:38,849

electromagnetic incidents really occur

1346

00:56:44,299 --> 00:56:42,160

and concentrated in any rate it's me the

1347

00:56:47,329 --> 00:56:44,309

triangle is the you know this is the

1348

00:56:50,370 --> 00:56:47,339

flipper the real-life adventure

1349

00:56:53,190 --> 00:56:50,380

adventure and mystery is a very exotic

1350

00:56:56,789 --> 00:56:53,200

location it's not it's not a paranormal

1351

00:56:58,410 --> 00:56:56,799

pursuit for me sir and I mean I don't

1352

00:57:00,100 --> 00:56:58,420

pass judgment on people for believing

1353

00:57:03,700 --> 00:57:00,110

it's paranormal but it's

1354

00:57:05,470 --> 00:57:03,710

not not what I do yeah the real mystery

1355

00:57:07,330 --> 00:57:05,480

the facts are strange enough that you

1356

00:57:08,380 --> 00:57:07,340

really don't have to add a whole lot of

1357

00:57:10,690 --> 00:57:08,390

that other stuff to it

1358

00:57:12,040 --> 00:57:10,700

but another thing I was going to ask you

1359

00:57:13,420 --> 00:57:12,050

about it as I've always heard the

1360

00:57:16,000 --> 00:57:13,430

Bermuda Triangle holds some type of

1361

00:57:18,670 --> 00:57:16,010

religious significance to Muslims and

1362

00:57:22,270 --> 00:57:18,680

Hindus and their culture yeah

1363

00:57:24,540 --> 00:57:22,280

they do yes to some to some Muslims yes

1364

00:57:29,350 --> 00:57:24,550

I got in trouble with him did you

1365

00:57:31,410 --> 00:57:29,360

because their 12th Imam some of them is

1366

00:57:34,660 --> 00:57:31,420

supposed to according to their prophecy

1367

00:57:37,270 --> 00:57:34,670

just to rise on a throne from the

1368

00:57:41,290 --> 00:57:37,280

crystal the Sapphire see and they say

1369

00:57:46,390 --> 00:57:41,300

that's Bonita and they say because I'm

1370

00:57:49,410 --> 00:57:46,400

regarded as the world expert that I'm

1371

00:57:51,730 --> 00:57:49,420

obliged to tell them what to do yes

1372

00:57:55,000 --> 00:57:51,740

you're the Savior I giving them more

1373

00:57:57,640 --> 00:57:55,010

information I had had very odd

1374

00:58:01,270 --> 00:57:57,650

communication about it after all the big

1375

00:58:03,370 --> 00:58:01,280

terrorist insurgent and 13c in 2001 and

1376

00:58:04,840 --> 00:58:03,380

watch a couple really got out of it with

1377

00:58:06,160 --> 00:58:04,850

me that I was to help them get there

1378

00:58:06,730 --> 00:58:06,170

because they couldn't get in the US

1379

00:58:10,960 --> 00:58:06,740

anymore

1380

00:58:14,290 --> 00:58:10,970

oh and one of them was a Saudi the other

1381

00:58:16,480 --> 00:58:14,300

was a Pakistani merchant mariner and one

1382

00:58:20,620 --> 00:58:16,490

had me in his dreams that he was to

1383

00:58:23,520 --> 00:58:20,630

contact a man whose name means shank of

1384

00:58:25,960 --> 00:58:23,530

beef well that's not me but to contact

1385

00:58:27,370 --> 00:58:25,970

another man whose name means God of

1386

00:58:30,520 --> 00:58:27,380

beginnings and that's what my name

1387

00:58:32,560 --> 00:58:30,530

actually means in Italian and so they

1388

00:58:36,970 --> 00:58:32,570

said yeah I was in their dreams I had to

1389

00:58:39,220 --> 00:58:36,980

do this I had to help them you know in

1390

00:58:41,770 --> 00:58:39,230

the United States and now that's far out

1391

00:58:44,020 --> 00:58:41,780

it is interesting though that cultures

1392

00:58:45,400 --> 00:58:44,030

that are geographically not that close

1393

00:58:48,070 --> 00:58:45,410

to the Bermuda Triangle would have

1394

00:58:50,830 --> 00:58:48,080

legends of something coming from that

1395

00:58:53,110 --> 00:58:50,840

area and then in modern times we find

1396

00:58:54,550 --> 00:58:53,120

out that it is a strange anomalous area

1397

00:58:57,520 --> 00:58:54,560

that that's kind of a strange

1398

00:59:01,380 --> 00:58:57,530

correlation you can probably look on

1399

00:59:03,400 --> 00:59:01,390

YouTube and find very serious

1400

00:59:06,040 --> 00:59:03,410

dissertations from some within this

1401

00:59:07,420 --> 00:59:06,050

Muslim section on the significance of

1402

00:59:09,910 --> 00:59:07,430

the Bermuda Triangle one of them was a

1403

00:59:11,380 --> 00:59:09,920

doctor of something rather and he wanted

1404

00:59:12,120 --> 00:59:11,390

me to look at it to see if it was fine

1405

00:59:21,990 --> 00:59:12,130

and

1406

00:59:25,440 --> 00:59:22,000

he he had a very serious dissertation on

1407

00:59:27,780 --> 00:59:25,450

the significance of Bermuda and certain

1408

00:59:30,660 --> 00:59:27,790

things in the 'quran and that the

1409

00:59:34,890 --> 00:59:30,670

Bermuda Triangle may be a blueprint to

1410

00:59:38,220 --> 00:59:34,900

this Austen's plea the last Imam very

1411

00:59:41,100 --> 00:59:38,230

cool so I understand how the

1412

00:59:43,860 --> 00:59:41,110

electromagnetic fog could confuse pilots

1413

00:59:46,140 --> 00:59:43,870

and cause them to crash but man the fact

1414

00:59:49,380 --> 00:59:46,150

that we have no wreckage that's so damn

1415

00:59:52,620 --> 00:59:49,390

strange man no turtle graft no little

1416

00:59:55,200 --> 00:59:52,630

islands of I there they're called the

1417

00:59:57,750 --> 00:59:55,210

eye about fifty five miles east of

1418

01:00:00,420 --> 00:59:57,760

Bimini and which there where the Bahama

1419

01:00:03,120 --> 01:00:00,430

banks which is nothing but a sandy

1420

01:00:05,700 --> 01:00:03,130

underwater desert 20 feet down mm-hmm

1421

01:00:08,910 --> 01:00:05,710

you can come across this marled area

1422

01:00:10,800 --> 01:00:08,920

from the sky and they went down there to

1423

01:00:12,960 --> 01:00:10,810

have a look at it people I know and of

1424

01:00:14,460 --> 01:00:12,970

course it's an airplane wreckage and

1425

01:00:17,340 --> 01:00:14,470

that's why the turtle grass grows down

1426

01:00:21,330 --> 01:00:17,350

there there's pictures on the website

1427

01:00:23,820 --> 01:00:21,340

and I think little doctor little was one

1428

01:00:26,010 --> 01:00:23,830

who went down there in Bimini brown and

1429

01:00:27,510 --> 01:00:26,020

you know sure enough whenever I wasn't

1430

01:00:30,840 --> 01:00:27,520

like I told you whenever the old hands

1431

01:00:32,660 --> 01:00:30,850

see one of these marled locations that

1432

01:00:34,860 --> 01:00:32,670

they'll call the eye or the whatever

1433

01:00:36,510 --> 01:00:34,870

they know there's wreckage there that

1434

01:00:39,660 --> 01:00:36,520

turtle grass taken up to ten years and

1435

01:00:42,210 --> 01:00:39,670

it will grow around this and so they go

1436

01:00:44,550 --> 01:00:42,220

and looks and then this aircraft can't

1437

01:00:46,140 --> 01:00:44,560

be identified right now I've looked at

1438

01:00:48,240 --> 01:00:46,150

the propeller I've been on TV looking at

1439

01:00:50,460 --> 01:00:48,250

the propeller and everything but until

1440

01:00:51,990 --> 01:00:50,470

when it came out of the warehouse and

1441

01:00:54,570 --> 01:00:52,000

everything but can't really find out who

1442

01:00:56,610 --> 01:00:54,580

had this aircraft but that is an example

1443

01:00:58,680 --> 01:00:56,620

of an aircraft that is wrecked now all

1444

01:01:01,530 --> 01:00:58,690

these that vanished granted they don't

1445

01:01:04,200 --> 01:01:01,540

leave wreckage immediately for the

1446

01:01:06,570 --> 01:01:04,210

searchers to find but within years there

1447

01:01:09,090 --> 01:01:06,580

should be these curious eyes these moral

1448

01:01:11,700 --> 01:01:09,100

areas appearing on the plush sands

1449

01:01:14,010 --> 01:01:11,710

Oklahoma banks but they never have not

1450

01:01:16,080 --> 01:01:14,020

one ship at one aircraft that has

1451  
01:01:18,150 --> 01:01:16,090  
disappeared has ever been found through

1452  
01:01:20,850 --> 01:01:18,160  
divers just curiously finding a new

1453  
01:01:23,730 --> 01:01:20,860  
little oasis of turtle grass on the

1454  
01:01:25,590 --> 01:01:23,740  
bottom of the otherwise previously just

1455  
01:01:28,590 --> 01:01:25,600  
desert II

1456  
01:01:31,110 --> 01:01:28,600  
bottom of the Bahamas weird so are there

1457  
01:01:33,990 --> 01:01:31,120  
any prevailing theories that you put out

1458  
01:01:35,340 --> 01:01:34,000  
to explain where the crafts have been

1459  
01:01:38,340 --> 01:01:35,350  
disappearing or are you just leaving it

1460  
01:01:40,230 --> 01:01:38,350  
up to mystery oh I believe the

1461  
01:01:43,230 --> 01:01:40,240  
electronic fog that electromagnetic

1462  
01:01:45,480 --> 01:01:43,240  
phenomenon is quite intimate with the

1463  
01:01:46,950 --> 01:01:45,490

whole thing with all that I documented

1464

01:01:49,530 --> 01:01:46,960

with all these different disappearances

1465

01:01:51,030 --> 01:01:49,540

I assure you it's multifactorial not all

1466

01:01:54,120 --> 01:01:51,040

of these vanished for the same reason

1467

01:01:54,950 --> 01:01:54,130

some you know are just pilot didn't know

1468

01:01:58,310 --> 01:01:54,960

what he was doing

1469

01:02:01,350 --> 01:01:58,320

piracy certainly can be involved but

1470

01:02:03,900 --> 01:02:01,360

even out of what 300 and some odd cases

1471

01:02:05,910 --> 01:02:03,910

if only 30 or 40 of these are truly

1472

01:02:08,190 --> 01:02:05,920

mysterious from the electronic fog that

1473

01:02:10,380 --> 01:02:08,200

is you have a phenomenon that has to be

1474

01:02:12,720 --> 01:02:10,390

looked into much more closely mmm-hmm

1475

01:02:15,120 --> 01:02:12,730

and it does exist I mean there's no

1476

01:02:17,670 --> 01:02:15,130

question that does exist there are some

1477

01:02:19,800 --> 01:02:17,680

meteorologists who now accept it David

1478

01:02:21,570 --> 01:02:19,810

Paris is one he's been trying to figure

1479

01:02:24,120 --> 01:02:21,580

it out he's worked with Bruce Gernon on

1480

01:02:26,640 --> 01:02:24,130

it and so I do believe that what we

1481

01:02:28,230 --> 01:02:26,650

consider to be the ultimate enigma of

1482

01:02:30,600 --> 01:02:28,240

the triangle the electromagnetic

1483

01:02:32,310 --> 01:02:30,610

phenomenon the strange fog seeing

1484

01:02:34,290 --> 01:02:32,320

spinning compasses creates quite

1485

01:02:36,600 --> 01:02:34,300

associated that the electronic fog

1486

01:02:38,940 --> 01:02:36,610

points to something much deeper

1487

01:02:40,740 --> 01:02:38,950

underlying in the ocean in the

1488

01:02:43,400 --> 01:02:40,750

atmosphere there and that ultimately

1489

01:02:45,930 --> 01:02:43,410

solving that will tell us what the

1490

01:02:47,610 --> 01:02:45,940

enigma of the triangle really is 100

1491

01:02:50,310 --> 01:02:47,620

lies that all people should have to

1492

01:02:53,850 --> 01:02:50,320

understand it is still a great adventure

1493

01:02:56,400 --> 01:02:53,860

it's not something to be dismissed or to

1494

01:02:58,950 --> 01:02:56,410

be erased by too much theorizing do

1495

01:03:01,410 --> 01:02:58,960

stick with the basic information that

1496

01:03:03,120 --> 01:03:01,420

more aircraft and ships do vanish and be

1497

01:03:06,380 --> 01:03:03,130

curious enough to look as to why don't

1498

01:03:09,570 --> 01:03:06,390

just dismiss it or fantasize about it

1499

01:03:11,670 --> 01:03:09,580

great advice well man that does about do

1500

01:03:13,410 --> 01:03:11,680

it the world is a weird place there's so

1501  
01:03:14,790 --> 01:03:13,420  
much we still don't know and I'm glad

1502  
01:03:15,870 --> 01:03:14,800  
people like you are out there trying to

1503  
01:03:17,490 --> 01:03:15,880  
get to the bottom of some of this

1504  
01:03:19,260 --> 01:03:17,500  
weirdness would you like to tell the

1505  
01:03:20,640 --> 01:03:19,270  
people about any of your other work or

1506  
01:03:27,690 --> 01:03:20,650  
give them your website before I let you

1507  
01:03:29,880 --> 01:03:27,700  
go they can go to WWE triangle org to

1508  
01:03:31,950 --> 01:03:29,890  
see all that I do I will be spinning all

1509  
01:03:35,190 --> 01:03:31,960  
this other stuff off into a separate

1510  
01:03:36,390 --> 01:03:35,200  
website because I look for all sorts of

1511  
01:03:38,730 --> 01:03:36,400  
things I was called the real-life

1512  
01:03:39,540 --> 01:03:38,740  
Kolchak because I investigate so much

1513  
01:03:42,240 --> 01:03:39,550

different

1514

01:03:44,400 --> 01:03:42,250

so you can check out my research and

1515

01:03:48,710 --> 01:03:44,410

find real Mount Sinai or into true-crime

1516

01:03:51,630 --> 01:03:48,720

Jack the Ripper the e AR Zodiac killer

1517

01:03:53,280 --> 01:03:51,640

Bigfoot everything but all that will

1518

01:03:55,220 --> 01:03:53,290

soon be moved to a whole other website

1519

01:03:57,839 --> 01:03:55,230

so that the triangle site which is huge

1520

01:03:59,880 --> 01:03:57,849

just remains on its own with flight 19

1521

01:04:02,070 --> 01:03:59,890

the triangle and the Cyclops

1522

01:04:04,050 --> 01:04:02,080

disappearance very cool

1523

01:04:05,790 --> 01:04:04,060

awesome man well it has been great

1524

01:04:07,950 --> 01:04:05,800

talking to you thanks so much for being

1525

01:04:08,849 --> 01:04:07,960

here and take care of yourself hopefully

1526

01:04:10,680 --> 01:04:08,859

we'll get to the bottom of things

1527

01:04:13,650 --> 01:04:10,690

eventually thank you very much

1528

01:04:15,690 --> 01:04:13,660

there we have a Gian quasar cool guy

1529

01:04:17,400 --> 01:04:15,700

extraordinaire thanks for listening

1530

01:04:18,660 --> 01:04:17,410

people another Money bomb starts today

1531

01:04:20,099 --> 01:04:18,670

and hopefully this one won't be a

1532

01:04:22,140 --> 01:04:20,109

disappointment because I know the

1533

01:04:24,450 --> 01:04:22,150

amazing things I have been working on

1534

01:04:27,599 --> 01:04:24,460

for the hundredth episode special won't

1535

01:04:29,250 --> 01:04:27,609

be I can't thank everyone enough and the

1536

01:04:31,109 --> 01:04:29,260

people at vapor genie for taking care of

1537

01:04:33,390 --> 01:04:31,119

me one more time I want to mention that

1538

01:04:35,609 --> 01:04:33,400

if you are a redditor people at the

1539

01:04:38,339 --> 01:04:35,619

subreddit hire said Chet's I'm trying to

1540

01:04:39,089 --> 01:04:38,349

make it pop I love reddit anyway see you
