

David Paulides
Missing 411:
The National Parks Conspiracy
& Strange Disappearances Within

BROUGHT TO YOU BY:
 **onspiraTees.net**

1
00:00:04,550 --> 00:00:02,450
hey Greg this is Chris some just north

2
00:00:06,289 --> 00:00:04,560
of Pittsburgh PA I just found out about

3
00:00:10,280 --> 00:00:06,299
you maybe a month ago I think I found

4
00:00:12,830 --> 00:00:10,290
you on Freeman TV and I think your show

5
00:00:14,870 --> 00:00:12,840
is really good just listen to Saturn

6
00:00:16,099 --> 00:00:14,880
death cult it was awesome your shows are

7
00:00:18,080 --> 00:00:16,109
really fun I just wanna let you know I

8
00:00:20,330 --> 00:00:18,090
appreciate what you do new listener and

9
00:00:28,720 --> 00:00:20,340
I'm just going to keep listening man be

10
00:00:57,290 --> 00:00:54,830
through the determination here we go our

11
00:00:59,209 --> 00:00:57,300
side chatters welcome to THC drinking a

12
00:01:01,549 --> 00:00:59,219
little drink smoking a ton of smoke and

13
00:01:03,979 --> 00:01:01,559

join a sunny day in San Diego I'm Greg

14

00:01:05,870 --> 00:01:03,989

Karl wood and today is such an

15

00:01:09,080 --> 00:01:05,880

interesting show because typically we

16

00:01:11,029 --> 00:01:09,090

explore so many weird topics like UFO

17

00:01:13,999 --> 00:01:11,039

abductions secret underground bases

18

00:01:16,760 --> 00:01:14,009

classified military experiments child

19

00:01:18,350 --> 00:01:16,770

pedophilia rings of the elite all kinds

20

00:01:20,600 --> 00:01:18,360

of stuff and a lot of these subjects

21

00:01:22,790 --> 00:01:20,610

imply that some people might go missing

22

00:01:24,320 --> 00:01:22,800

sometimes either to be tested on or

23

00:01:26,420 --> 00:01:24,330

forced to work at these underground

24

00:01:28,040 --> 00:01:26,430

facilities or kids take it and trade it

25

00:01:30,020 --> 00:01:28,050

among the political financial and

26

00:01:31,880 --> 00:01:30,030

religious elite or maybe some folks

27

00:01:34,219 --> 00:01:31,890

might get involved in an unsavory

28

00:01:36,140 --> 00:01:34,229

encounter with a non recruited there's a

29

00:01:37,789 --> 00:01:36,150

lot of weirdness out there but usually

30

00:01:39,649 --> 00:01:37,799

when you get down to the details there's

31

00:01:41,390 --> 00:01:39,659

not a ton of names or evidence of

32

00:01:43,850 --> 00:01:41,400

victims gone missing for these

33

00:01:46,130 --> 00:01:43,860

large-scale conspiracies or encounters

34

00:01:48,200 --> 00:01:46,140

and today is almost a polar opposite

35

00:01:49,999 --> 00:01:48,210

show we have a ton of victims of strange

36

00:01:52,730 --> 00:01:50,009

circumstance that have gone missing and

37

00:01:55,249 --> 00:01:52,740

some have come back but others don't yet

38

00:01:57,530 --> 00:01:55,259

we have almost no story or clues as to

39
00:01:59,480 --> 00:01:57,540
why they disappeared or what happened to

40
00:02:01,969 --> 00:01:59,490
them because a lot of the clues we do

41
00:02:04,130 --> 00:02:01,979
have completely defy logic and these

42
00:02:06,499 --> 00:02:04,140
could be victims of some of the earlier

43
00:02:08,630 --> 00:02:06,509
conspiracies or situations I mentioned

44
00:02:11,660 --> 00:02:08,640
or we could be dealing with a completely

45
00:02:14,030 --> 00:02:11,670
new and different phenomenon altogether

46
00:02:15,710 --> 00:02:14,040
one that you could say the National Park

47
00:02:17,750 --> 00:02:15,720
Service might even know about and is

48
00:02:19,430 --> 00:02:17,760
trying to keep a lid on now when a lot

49
00:02:21,530 --> 00:02:19,440
of us think about the perfect getaway

50
00:02:23,690 --> 00:02:21,540
from the hectic nine-to-five many

51
00:02:25,520 --> 00:02:23,700
envision a camping trip or hike among

52
00:02:27,770 --> 00:02:25,530
the fresh air and beautiful landscapes

53
00:02:29,420 --> 00:02:27,780
of sweet mother nature but after hearing

54
00:02:31,910 --> 00:02:29,430
about the work of today's guest that

55
00:02:33,860 --> 00:02:31,920
might all change david Politis has spent

56
00:02:35,720 --> 00:02:33,870
20 years in law enforcement out here in

57
00:02:38,059 --> 00:02:35,730
california and he holds two degrees from

58
00:02:40,010 --> 00:02:38,069
the university of san francisco and now

59
00:02:41,810 --> 00:02:40,020
has three volumes out of his ax men

60
00:02:44,360 --> 00:02:41,820
using phonebook thick series about

61
00:02:45,980 --> 00:02:44,370
missing people missing for one one it

62
00:02:47,780 --> 00:02:45,990
explores what he's come to find is a

63
00:02:49,820 --> 00:02:47,790

shockingly vast number of strange

64

00:02:51,620 --> 00:02:49,830

disappearances within national parks and

65

00:02:53,630 --> 00:02:51,630

other remote areas mainly within the

66

00:02:55,580 --> 00:02:53,640

United States and Canada but as the

67

00:02:57,350 --> 00:02:55,590

research continues it seems pretty safe

68

00:02:59,120 --> 00:02:57,360

to say that these odd commonalities

69

00:03:01,220 --> 00:02:59,130

among the missing extend around the

70

00:03:02,750 --> 00:03:01,230

globe I've had a hell of a time reading

71

00:03:04,850 --> 00:03:02,760

about these cases and I don't think I've

72

00:03:07,310 --> 00:03:04,860

ever been more perplexed by a topic that

73

00:03:09,140 --> 00:03:07,320

included so much data and evidence that

74

00:03:11,540 --> 00:03:09,150

something strange is clearly going on

75

00:03:12,860 --> 00:03:11,550

and I can't wait to get down to it David

76

00:03:14,870 --> 00:03:12,870

my man welcome to the show

77

00:03:17,150 --> 00:03:14,880

hey thanks Greg appreciate being here

78

00:03:19,400 --> 00:03:17,160

yeah thanks so much I mean you've

79

00:03:21,200 --> 00:03:19,410

created an amazing archive of missing

80

00:03:23,450 --> 00:03:21,210

people and there seems to be a lot of

81

00:03:25,220 --> 00:03:23,460

curiosity and interest over the cases

82

00:03:28,790 --> 00:03:25,230

you've gathered because they're so

83

00:03:30,350 --> 00:03:28,800

strange but in the sheer numbers are

84

00:03:32,930 --> 00:03:30,360

pretty staggering too but I think

85

00:03:35,150 --> 00:03:32,940

there's kind of a tendency to see shows

86

00:03:37,250 --> 00:03:35,160

like Nancy Grace on TV or hear about

87

00:03:39,170 --> 00:03:37,260

these huge famous cases of a kid gone

88

00:03:40,640 --> 00:03:39,180

missing that we get every other year so

89

00:03:42,500 --> 00:03:40,650

and I think people are under the

90

00:03:44,270 --> 00:03:42,510

impression that the coverage of those

91

00:03:45,710 --> 00:03:44,280

cases that that's an indication of the

92

00:03:47,540 --> 00:03:45,720

amount of people and children that

93

00:03:48,949 --> 00:03:47,550

really go missing but that's pretty far

94

00:03:51,500 --> 00:03:48,959

from the truth isn't it man I mean you

95

00:03:53,720 --> 00:03:51,510

fill three books at this point correct

96

00:03:56,449 --> 00:03:53,730

actually that we just reached the fourth

97

00:04:00,560 --> 00:03:56,459

book a few weeks ago Wow the topic is

98

00:04:04,220 --> 00:04:00,570

very very complex without having a view

99

00:04:06,260 --> 00:04:04,230

of from 50,000 feet it may look as

100

00:04:09,140 --> 00:04:06,270

though it's mundane but when you get

101
00:04:10,460 --> 00:04:09,150
into the nitty-gritty details of it you

102
00:04:12,800 --> 00:04:10,470
start to realize that there really is

103
00:04:14,510 --> 00:04:12,810
something here yeah and I know you've

104
00:04:16,880 --> 00:04:14,520
spent a ton of time in the great

105
00:04:18,979 --> 00:04:16,890
outdoors yourself and together with your

106
00:04:21,229 --> 00:04:18,989
law enforcement background these things

107
00:04:22,760 --> 00:04:21,239
really put you in a prime position to be

108
00:04:24,800 --> 00:04:22,770
the guy who's doing this work because

109
00:04:27,350 --> 00:04:24,810
you recognize the strangeness and the

110
00:04:28,940 --> 00:04:27,360
patterns and most importantly the way

111
00:04:30,740 --> 00:04:28,950
that government agencies like the

112
00:04:33,440 --> 00:04:30,750
National Park Service are supposed to

113
00:04:35,000 --> 00:04:33,450

act and they've been very kind of

114

00:04:37,520 --> 00:04:35,010

combative with you and withheld some

115

00:04:39,350 --> 00:04:37,530

information sometimes unlawfully along

116

00:04:41,630 --> 00:04:39,360

the way as you've tried to gather this

117

00:04:44,540 --> 00:04:41,640

data it's been kind of strange hasn't it

118

00:04:45,980 --> 00:04:44,550

well I think it's a strange position for

119

00:04:48,260 --> 00:04:45,990

them to take that's for sure there's

120

00:04:49,820 --> 00:04:48,270

there's no doubt about it I don't I

121

00:04:51,800 --> 00:04:49,830

don't get it what are some of the

122

00:04:53,660 --> 00:04:51,810

experiences you've had along the way

123

00:04:55,610 --> 00:04:53,670

trying to get

124

00:04:59,450 --> 00:04:55,620

some documentation for cases as you

125

00:05:02,360 --> 00:04:59,460

compile these books well again we're

126
00:05:05,600 --> 00:05:02,370
nobody special than anybody else we run

127
00:05:10,130 --> 00:05:05,610
this organization under a website called

128
00:05:12,080 --> 00:05:10,140
the km missing project and we just write

129
00:05:14,330 --> 00:05:12,090
Freedom of Information Act request

130
00:05:17,900 --> 00:05:14,340
directly to the Park Service just like

131
00:05:19,850 --> 00:05:17,910
everybody else and according to the laws

132
00:05:21,620 --> 00:05:19,860
in the US we have a right to government

133
00:05:23,990 --> 00:05:21,630
documents as long as they're not secret

134
00:05:27,830 --> 00:05:24,000
and they don't compromise the the wall

135
00:05:29,360 --> 00:05:27,840
fare of the public and one of the first

136
00:05:31,640 --> 00:05:29,370
things we requested was a list of

137
00:05:35,120 --> 00:05:31,650
missing people from the 183 locations

138
00:05:37,610 --> 00:05:35,130

that the Park Service manages and to our

139

00:05:39,470 --> 00:05:37,620

astonishment they came back saying that

140

00:05:41,120 --> 00:05:39,480

they don't keep track of information on

141

00:05:44,000 --> 00:05:41,130

missing people and they don't have any

142

00:05:45,790 --> 00:05:44,010

lists of missing people and apparently

143

00:05:49,730 --> 00:05:45,800

they don't keep track of missing people

144

00:05:51,650 --> 00:05:49,740

Wow a pretty astonishing statement

145

00:05:54,580 --> 00:05:51,660

coming from a group that has one of the

146

00:05:57,710 --> 00:05:54,590

largest federal law enforcement

147

00:05:59,270 --> 00:05:57,720

contingents in the United States their

148

00:06:00,560 --> 00:05:59,280

law enforcement officers are all

149

00:06:02,990 --> 00:06:00,570

graduates at the federal law enforcement

150

00:06:04,520 --> 00:06:03,000

training institute one of the best

151
00:06:06,920 --> 00:06:04,530
training centers in the United States

152
00:06:09,500 --> 00:06:06,930
and and probably the world so they

153
00:06:11,120 --> 00:06:09,510
definitely know the political

154
00:06:16,730 --> 00:06:11,130
correctness of needing this information

155
00:06:18,740 --> 00:06:16,740
and as every law enforcement person that

156
00:06:21,500 --> 00:06:18,750
has contacted me says they do not

157
00:06:23,870 --> 00:06:21,510
believe the Park Service they believe

158
00:06:26,270 --> 00:06:23,880
they have the information and they're

159
00:06:28,820 --> 00:06:26,280
not giving it out seems like the one

160
00:06:31,990 --> 00:06:28,830
thing that they should be doing well as

161
00:06:35,690 --> 00:06:32,000
a another Park Service employee told me

162
00:06:38,450 --> 00:06:35,700
about a year ago they they know the

163
00:06:41,630 --> 00:06:38,460

number of toilet paper rolls they have

164

00:06:45,620 --> 00:06:41,640

in the parks so to say that they don't

165

00:06:48,260 --> 00:06:45,630

keep track of everything at a my new

166

00:06:50,150 --> 00:06:48,270

show level that's ridiculous it's a

167

00:06:51,470 --> 00:06:50,160

government agency they know the

168

00:06:53,840 --> 00:06:51,480

importance of keeping this information

169

00:06:57,410 --> 00:06:53,850

and to say they don't have it as

170

00:06:59,000 --> 00:06:57,420

ridiculous yeah and I mean again you're

171

00:07:01,280 --> 00:06:59,010

just finishing the fourth volume of

172

00:07:03,260 --> 00:07:01,290

these books and these are not just

173

00:07:04,610 --> 00:07:03,270

regular missing people cases I mean

174

00:07:06,920 --> 00:07:04,620

these are cases that have strange

175

00:07:09,050 --> 00:07:06,930

commonalities which we will get into

176
00:07:11,590 --> 00:07:09,060
some of them but these are the cases

177
00:07:13,909 --> 00:07:11,600
where you filtered out a lot of the

178
00:07:15,740 --> 00:07:13,919
standard reasons people might think that

179
00:07:17,210 --> 00:07:15,750
someone would go missing in a national

180
00:07:18,710 --> 00:07:17,220
park or out in the wilderness some of

181
00:07:20,270 --> 00:07:18,720
the things that seem a little more

182
00:07:22,930 --> 00:07:20,280
mundane these are only the cases that

183
00:07:25,909 --> 00:07:22,940
have these these weird oddities right

184
00:07:28,219 --> 00:07:25,919
correct there's a profile that we came

185
00:07:30,980 --> 00:07:28,229
up with after reading a couple thousand

186
00:07:32,719 --> 00:07:30,990
cases and that profile is the only one

187
00:07:35,930 --> 00:07:32,729
that we applies in the only one that we

188
00:07:38,749 --> 00:07:35,940

will do research about so say somebody

189

00:07:42,200 --> 00:07:38,759

wants to voluntarily disappear somebody

190

00:07:45,469 --> 00:07:42,210

who has mental issues drownings things

191

00:07:49,040 --> 00:07:45,479

like that are excluded yeah animal

192

00:07:53,330 --> 00:07:49,050

attacks they're excluded things like

193

00:07:56,089 --> 00:07:53,340

that that would be the vast bulk of the

194

00:07:59,270 --> 00:07:56,099

missing-persons cases we don't look into

195

00:08:02,510 --> 00:07:59,280

them but after reading many many many

196

00:08:05,089 --> 00:08:02,520

cases you start to see certain oddities

197

00:08:07,310 --> 00:08:05,099

fall out of the group and again these

198

00:08:08,870 --> 00:08:07,320

aren't easily found and a normal person

199

00:08:11,570 --> 00:08:08,880

would never find them and a person

200

00:08:14,020 --> 00:08:11,580

working on a search-and-rescue team and

201
00:08:16,460 --> 00:08:14,030
in a county would never understand this

202
00:08:18,379 --> 00:08:16,470
unless you looked at cases and I'm

203
00:08:20,930 --> 00:08:18,389
talking thousands of cases from North

204
00:08:22,700 --> 00:08:20,940
primarily North America but there's a

205
00:08:25,430 --> 00:08:22,710
small percentage that are falling

206
00:08:28,339 --> 00:08:25,440
outside the US as well in fact in the

207
00:08:31,580 --> 00:08:28,349
last year we've found a big association

208
00:08:34,250 --> 00:08:31,590
between cases in Australia in cases here

209
00:08:36,500 --> 00:08:34,260
in North America and the oddities here

210
00:08:40,310 --> 00:08:36,510
have carried over there in the last

211
00:08:42,260 --> 00:08:40,320
century as well but yeah the normal

212
00:08:45,050 --> 00:08:42,270
cases that you hear about the news no we

213
00:08:48,079 --> 00:08:45,060

don't work on but if they do fit

214

00:08:49,610 --> 00:08:48,089

the profile then we count them it's so

215

00:08:51,890 --> 00:08:49,620

interesting that you're finding this to

216

00:08:54,530 --> 00:08:51,900

be a global phenomenon because that just

217

00:08:57,079 --> 00:08:54,540

adds another layer of mystery to it

218

00:09:00,620 --> 00:08:57,089

because you can't chalk it up to just

219

00:09:02,990 --> 00:09:00,630

you know one group of crazy people in

220

00:09:05,210 --> 00:09:03,000

Yosemite who live in the backwoods who

221

00:09:08,360 --> 00:09:05,220

kidnap kids you know you can't chalk it

222

00:09:09,560 --> 00:09:08,370

up to one thing in this area or one

223

00:09:12,470 --> 00:09:09,570

thing in another or even the whole

224

00:09:13,550 --> 00:09:12,480

country I mean it makes it makes you

225

00:09:14,780 --> 00:09:13,560

think that there's something going on

226

00:09:17,300 --> 00:09:14,790

that's there's something out there that

227

00:09:19,490 --> 00:09:17,310

we just don't even know or a force that

228

00:09:20,300 --> 00:09:19,500

deals with people in nature that we just

229

00:09:23,180 --> 00:09:20,310

don't have

230

00:09:25,340 --> 00:09:23,190

information on well and you did bring up

231

00:09:28,430 --> 00:09:25,350

Yosemite so that's the largest cluster

232

00:09:31,340 --> 00:09:28,440

of missing people in the world that fall

233

00:09:34,430 --> 00:09:31,350

into the profile we've established now

234

00:09:36,860 --> 00:09:34,440

there's 52 clusters of missing people in

235

00:09:39,740 --> 00:09:36,870

North America that we've identified that

236

00:09:44,030 --> 00:09:39,750

Yosemite cluster is huge it goes back

237

00:09:46,250 --> 00:09:44,040

about 120 years and you're right you

238

00:09:48,320 --> 00:09:46,260

couldn't say that it's a group of serial

239

00:09:50,870 --> 00:09:48,330

killers in North America that are at

240

00:09:52,430 --> 00:09:50,880

these different locations that have gone

241

00:09:55,490 --> 00:09:52,440

about killing people because it

242

00:09:57,320 --> 00:09:55,500

surpasses a generation and therein lies

243

00:10:00,350 --> 00:09:57,330

one of the mysteries behind widest

244

00:10:02,720 --> 00:10:00,360

probably has never been understood or

245

00:10:06,500 --> 00:10:02,730

identified in the past a lot of these

246

00:10:09,470 --> 00:10:06,510

disappearances one may occur let's say

247

00:10:12,170 --> 00:10:09,480

in Crater Lake National Park today one

248

00:10:14,090 --> 00:10:12,180

more may occur in 14 years and then one

249

00:10:16,880 --> 00:10:14,100

more may occur in 16 years

250

00:10:19,310 --> 00:10:16,890

so three disappearances in one area

251

00:10:22,280 --> 00:10:19,320

would establish a cluster but that's

252

00:10:23,960 --> 00:10:22,290

more than 30 years and generally law

253

00:10:27,230 --> 00:10:23,970

enforcement people don't stay more than

254

00:10:30,200 --> 00:10:27,240

25 or 30 years on the job so when you

255

00:10:32,000 --> 00:10:30,210

look at in just your career well two

256

00:10:34,880 --> 00:10:32,010

incidences in 30 years you might not

257

00:10:38,030 --> 00:10:34,890

think much about but when you have four

258

00:10:39,710 --> 00:10:38,040

or five or six in a 30 year period it's

259

00:10:41,660 --> 00:10:39,720

going to raise the interest of everybody

260

00:10:44,690 --> 00:10:41,670

in that area and say something strange

261

00:10:47,300 --> 00:10:44,700

is going on here it's just enough not to

262

00:10:49,490 --> 00:10:47,310

raise the suspicion on a majority of

263

00:10:52,610 --> 00:10:49,500

occasions now I bring up Crater Lake

264

00:10:54,440 --> 00:10:52,620

because there's been five or six boys

265

00:10:55,160 --> 00:10:54,450

under the age of fourteen that have

266

00:10:57,950 --> 00:10:55,170

disappeared

267

00:11:00,350 --> 00:10:57,960

in or directly around Crater Lake under

268

00:11:02,150 --> 00:11:00,360

really really suspicious circumstances

269

00:11:04,880 --> 00:11:02,160

definitely do you want to tell us about

270

00:11:08,360 --> 00:11:04,890

a couple of those cases well I'll just

271

00:11:09,650 --> 00:11:08,370

briefly say that one boy was with his

272

00:11:11,240 --> 00:11:09,660

dad and his grandpa and they were

273

00:11:13,940 --> 00:11:11,250

looking for a Christmas tree right on

274

00:11:16,760 --> 00:11:13,950

the outskirts a part of the park and in

275

00:11:18,820 --> 00:11:16,770

area where there was nobody and they

276

00:11:21,380 --> 00:11:18,830

lost track of the boy for a short while

277

00:11:24,470 --> 00:11:21,390

just after the boy disappeared started

278

00:11:27,560 --> 00:11:24,480

snowing snowing and it continued snowing

279

00:11:29,570 --> 00:11:27,570

for days make a very long story short a

280

00:11:31,710 --> 00:11:29,580

massive search effort went into this the

281

00:11:35,190 --> 00:11:31,720

boy was never found

282

00:11:37,560 --> 00:11:35,200

now there is a weather phenomena related

283

00:11:40,740 --> 00:11:37,570

and it is part of this profiling that we

284

00:11:43,830 --> 00:11:40,750

do that and we can't explain why but in

285

00:11:46,800 --> 00:11:43,840

a majority of these circumstances when

286

00:11:47,610 --> 00:11:46,810

somebody disappears the weather changes

287

00:11:50,730 --> 00:11:47,620

for the worse

288

00:11:54,270 --> 00:11:50,740

and sometimes it's rain sometimes it's

289

00:11:56,610 --> 00:11:54,280

fog sometimes it's snow but it deeply

290

00:12:00,330 --> 00:11:56,620

hampers the search effort now also in

291

00:12:02,430 --> 00:12:00,340

crater lake there's a boy who had a

292

00:12:04,950 --> 00:12:02,440

disability and he had a mental

293

00:12:07,490 --> 00:12:04,960

disability and his name was Sammy bulky

294

00:12:10,230 --> 00:12:07,500

and his dad went up there on a vacation

295

00:12:12,930 --> 00:12:10,240

Sammy ran up on a mound of dirt on a

296

00:12:14,970 --> 00:12:12,940

turnout where they stopped and he turned

297

00:12:17,580 --> 00:12:14,980

and he walked off the mound the dad ran

298

00:12:20,550 --> 00:12:17,590

out ran up to that mound looked into the

299

00:12:21,750 --> 00:12:20,560

force didn't see the boy huge search the

300

00:12:23,970 --> 00:12:21,760

boy was never seen again

301
00:12:26,220 --> 00:12:23,980
now therein lies another part of the

302
00:12:30,480 --> 00:12:26,230
profile on another higher percentage of

303
00:12:32,280 --> 00:12:30,490
these cases is kids or adults with

304
00:12:33,750 --> 00:12:32,290
disabilities and we're talking we're not

305
00:12:36,540 --> 00:12:33,760
talking just mental these can be

306
00:12:39,300 --> 00:12:36,550
physical these can be some type of rare

307
00:12:41,130 --> 00:12:39,310
diseases that some people never have but

308
00:12:43,710 --> 00:12:41,140
this these people disappear and

309
00:12:47,250 --> 00:12:43,720
sometimes they're never found and so

310
00:12:49,350 --> 00:12:47,260
people with disabilities is another area

311
00:12:51,540 --> 00:12:49,360
that we started to track in the last

312
00:12:54,360 --> 00:12:51,550
three years that has gotten some real

313
00:12:57,210 --> 00:12:54,370

interesting results yeah that is a weird

314

00:12:59,130 --> 00:12:57,220

one I mean I'd say probably the cases

315

00:13:00,840 --> 00:12:59,140

that interest me the most the

316

00:13:03,030 --> 00:13:00,850

commonalities that seem most mysterious

317

00:13:04,980 --> 00:13:03,040

to me would be the ones where young

318

00:13:07,110 --> 00:13:04,990

children go missing and are found much

319

00:13:08,880 --> 00:13:07,120

further away than a child should be able

320

00:13:11,060 --> 00:13:08,890

to travel in the woods alone and this

321

00:13:13,170 --> 00:13:11,070

happens time and time again doesn't it

322

00:13:15,870 --> 00:13:13,180

so I'm glad you brought that up because

323

00:13:19,530 --> 00:13:15,880

I've given many talks in front of large

324

00:13:20,850 --> 00:13:19,540

groups and I always asked the audience I

325

00:13:23,220 --> 00:13:20,860

say how many people in the room have

326

00:13:24,960 --> 00:13:23,230

kids and usually it's about two-thirds

327

00:13:27,090 --> 00:13:24,970

they raise their hand and I and I ask

328

00:13:29,640 --> 00:13:27,100

them well when you had a two-year-old

329

00:13:31,079 --> 00:13:29,650

boy or girl if we put them in the middle

330

00:13:33,450 --> 00:13:31,089

of the forest and we told them to walk

331

00:13:35,160 --> 00:13:33,460

out and they didn't know the direction

332

00:13:37,350 --> 00:13:35,170

to walk out how far would they go before

333

00:13:40,200 --> 00:13:37,360

they sat down and gave up or sat down

334

00:13:43,260 --> 00:13:40,210

and took a nap and usually the answers

335

00:13:45,110 --> 00:13:43,270

range anywhere from a hundred yards to

336

00:13:47,550 --> 00:13:45,120

maybe a mile

337

00:13:49,650 --> 00:13:47,560

right and then I asked him well would

338

00:13:53,670 --> 00:13:49,660

they walk uphill or downhill and it

339

00:13:55,860 --> 00:13:53,680

usually it's 99% say downhill and so I

340

00:13:58,740 --> 00:13:55,870

like to ask you Greg since you read a

341

00:14:00,510 --> 00:13:58,750

lot of the stories what is a reasonable

342

00:14:04,020 --> 00:14:00,520

distance that a two-year-old would walk

343

00:14:06,870 --> 00:14:04,030

in your opinion after reading man I mean

344

00:14:08,790 --> 00:14:06,880

I would say at max two miles I mean

345

00:14:10,830 --> 00:14:08,800

anything beyond that would seem super

346

00:14:12,180 --> 00:14:10,840

crazy I mean we're two years old think

347

00:14:14,280 --> 00:14:12,190

of how young that is I would be

348

00:14:16,470 --> 00:14:14,290

surprised if they even got a mile I mean

349

00:14:18,300 --> 00:14:16,480

the woods are a pretty treacherous like

350

00:14:20,970 --> 00:14:18,310

it's kind of tough to climb over logs

351
00:14:24,840 --> 00:14:20,980
and and over mountains and sometimes

352
00:14:26,250 --> 00:14:24,850
across big raging rivers you know it

353
00:14:26,880 --> 00:14:26,260
doesn't seem like they could get very

354
00:14:29,550 --> 00:14:26,890
far

355
00:14:30,630 --> 00:14:29,560
and that's that's part of the point that

356
00:14:32,580 --> 00:14:30,640
the parents bring up in these

357
00:14:34,800 --> 00:14:32,590
discussions they said well you know a

358
00:14:38,220 --> 00:14:34,810
lot of kids don't start walking till 12

359
00:14:40,860 --> 00:14:38,230
to 16 17 months now you draw them in the

360
00:14:43,560 --> 00:14:40,870
woods with obstacles creeks like you

361
00:14:45,360 --> 00:14:43,570
said logs how far would they go

362
00:14:48,750 --> 00:14:45,370
especially without an adult there

363
00:14:50,910 --> 00:14:48,760

prodding them right that's that's the

364

00:14:54,000 --> 00:14:50,920

scariest thing that's why I like this a

365

00:14:56,340 --> 00:14:54,010

little section of stories because it

366

00:14:58,770 --> 00:14:56,350

seems like there's some type of

367

00:15:01,410 --> 00:14:58,780

assistance you know it seems like

368

00:15:03,030 --> 00:15:01,420

there's some kind of intelligent some

369

00:15:05,490 --> 00:15:03,040

kind of being that's able to pick up

370

00:15:07,680 --> 00:15:05,500

these kids and take them to areas that

371

00:15:09,270 --> 00:15:07,690

are miles away that they couldn't do on

372

00:15:11,820 --> 00:15:09,280

their own so that's what's so eerie

373

00:15:15,500 --> 00:15:11,830

about it but I guess to get into a

374

00:15:20,250 --> 00:15:15,510

couple of these cases let's talk about

375

00:15:22,410 --> 00:15:20,260

this case of Tommy Jenkins this kid was

376

00:15:25,350 --> 00:15:22,420

2 to 3 years old in Fort Lewis

377

00:15:28,290 --> 00:15:25,360

Washington found two days later what's

378

00:15:30,180 --> 00:15:28,300

his story so it's an interesting one for

379

00:15:32,270 --> 00:15:30,190

the people who don't know Fort Lewis is

380

00:15:36,450 --> 00:15:32,280

in the central area of Washington it's

381

00:15:39,500 --> 00:15:36,460

33,000 acres and in 1950 it was a was a

382

00:15:42,890 --> 00:15:39,510

big spot where the US had approximately

383

00:15:45,510 --> 00:15:42,900

6,000 soldiers on site and housed and

384

00:15:47,520 --> 00:15:45,520

there's a in the middle of it there's an

385

00:15:49,530 --> 00:15:47,530

area called the American Lake and it's a

386

00:15:52,680 --> 00:15:49,540

big lake kind of sitting in the center

387

00:15:56,640 --> 00:15:52,690

of the of the fort it kind of bisects

388

00:15:58,610 --> 00:15:56,650

highway 5 in that area and it's a it's a

389

00:16:02,450 --> 00:15:58,620

fairly pristine spot

390

00:16:04,430 --> 00:16:02,460

law on May 4th 1950 Tommy lived in a

391

00:16:06,920 --> 00:16:04,440

non-commissioned area of housing with

392

00:16:11,120 --> 00:16:06,930

his mom and dad and they lived about

393

00:16:14,750 --> 00:16:11,130

1500 feet from the lake well during that

394

00:16:18,170 --> 00:16:14,760

time span on that day his mom kind of

395

00:16:21,620 --> 00:16:18,180

lost sight of him and she knew that

396

00:16:24,830 --> 00:16:21,630

tommy was playing with an Irish Setter

397

00:16:25,550 --> 00:16:24,840

dog named lassie that belonged to the

398

00:16:28,280 --> 00:16:25,560

next-door neighbor

399

00:16:30,500 --> 00:16:28,290

now stop people there here's another

400

00:16:33,730 --> 00:16:30,510

part of this profiling is that a large

401
00:16:37,940 --> 00:16:33,740
large percentage of people and kids

402
00:16:42,290 --> 00:16:37,950
disappear with a canine and I can't

403
00:16:44,570 --> 00:16:42,300
explain it other than its fact and we'll

404
00:16:46,490 --> 00:16:44,580
talk about that more later but Tommy

405
00:16:49,460 --> 00:16:46,500
disappeared with this canine he didn't

406
00:16:51,530 --> 00:16:49,470
arrive back for lunch and if you have

407
00:16:54,200 --> 00:16:51,540
kids you know your kids aren't wait for

408
00:16:56,480 --> 00:16:54,210
lunch they're hungry kids they come back

409
00:16:59,330 --> 00:16:56,490
and they eat well he doesn't come back

410
00:17:01,910 --> 00:16:59,340
the mom gets scared calls the husband

411
00:17:03,800 --> 00:17:01,920
calls officials the base commander did

412
00:17:08,660 --> 00:17:03,810
the right thing he shut down the base

413
00:17:12,290 --> 00:17:08,670

and within hours he had over a thousand

414

00:17:14,660 --> 00:17:12,300

soldiers searching for the boy within 36

415

00:17:18,230 --> 00:17:14,670

hours he stopped everything on the base

416

00:17:21,110 --> 00:17:18,240

and he had all 6,000 of the soldiers

417

00:17:23,180 --> 00:17:21,120

searching Wow yet helicopters from the

418

00:17:26,060 --> 00:17:23,190

base in the air and he had planes flying

419

00:17:28,160 --> 00:17:26,070

formation around the base three

420

00:17:31,040 --> 00:17:28,170

different bloodhound teams were used

421

00:17:35,860 --> 00:17:31,050

looking for Tommy during this time

422

00:17:40,640 --> 00:17:35,870

period so the third day rolls around and

423

00:17:44,900 --> 00:17:40,650

a soldier is going through some bush and

424

00:17:49,240 --> 00:17:44,910

he finds Tommy and this dog named lassie

425

00:17:53,180 --> 00:17:49,250

on the beach in perfect condition and

426

00:17:56,120 --> 00:17:53,190

they bring them back in and the base

427

00:17:58,700 --> 00:17:56,130

commander gives an interview and in the

428

00:18:01,700 --> 00:17:58,710

interview he says there is no boy this

429

00:18:04,460 --> 00:18:01,710

age that could have survived the rain

430

00:18:06,290 --> 00:18:04,470

and the wind and the outdoor conditions

431

00:18:08,390 --> 00:18:06,300

we've had in the last three days

432

00:18:10,139 --> 00:18:08,400

there's no way unless he had some

433

00:18:12,949 --> 00:18:10,149

assistance

434

00:18:15,719 --> 00:18:12,959

and that kind of shook up the base and

435

00:18:18,989 --> 00:18:15,729

the dad kind of took the lead on that

436

00:18:21,029 --> 00:18:18,999

and tried to question Tommy and he

437

00:18:22,979 --> 00:18:21,039

couldn't get a coherent answer out of

438

00:18:26,219 --> 00:18:22,989

them and he couldn't determine if he was

439

00:18:29,729 --> 00:18:26,229

trying to be evasive or his mind was

440

00:18:32,099 --> 00:18:29,739

blank or something but the final outcome

441

00:18:33,119 --> 00:18:32,109

was Tommy was in really really good

442

00:18:35,369 --> 00:18:33,129

condition

443

00:18:37,739 --> 00:18:35,379

for a boy being out supposedly in the

444

00:18:41,009 --> 00:18:37,749

wild for three days and then the other

445

00:18:42,889 --> 00:18:41,019

part of that is how in the heck did six

446

00:18:46,559 --> 00:18:42,899

thousand soldiers three helicopters

447

00:18:49,769 --> 00:18:46,569

multiple planes miss a boy and a dog

448

00:18:52,319 --> 00:18:49,779

right yeah that is such an interesting

449

00:18:54,899 --> 00:18:52,329

case I mean apparently it got 240 degree

450

00:18:57,509 --> 00:18:54,909

weather and you like you said raining

451
00:18:59,819 --> 00:18:57,519
like and the the kid was it seemed like

452
00:19:01,469 --> 00:18:59,829
he was taken inside for two and a half

453
00:19:03,059 --> 00:19:01,479
three days and then brought back out

454
00:19:05,039 --> 00:19:03,069
like he just walked right out into the

455
00:19:07,859 --> 00:19:05,049
yard to play with this dog but I guess

456
00:19:10,109 --> 00:19:07,869
the only real thing that he said that

457
00:19:13,799 --> 00:19:10,119
was kind of interesting as he slept in

458
00:19:15,419 --> 00:19:13,809
an area with no homes and that he fell

459
00:19:19,009 --> 00:19:15,429
into a creek he said he fell into a

460
00:19:23,579 --> 00:19:19,019
creek but he showed up dry just so weird

461
00:19:26,219 --> 00:19:23,589
and again this one case if you read it

462
00:19:28,349 --> 00:19:26,229
on its own you could roll it through

463
00:19:30,899 --> 00:19:28,359

your mind and say you know what maybe he

464

00:19:33,449 --> 00:19:30,909

found some shelter maybe some people

465

00:19:35,969 --> 00:19:33,459

housed them maybe there there was a

466

00:19:39,419 --> 00:19:35,979

crime that occurred here where some

467

00:19:43,049 --> 00:19:39,429

pervert or something took him but that's

468

00:19:45,149 --> 00:19:43,059

one case of that you know hundreds and

469

00:19:47,189 --> 00:19:45,159

hundreds approaching 2,000 now that

470

00:19:49,739 --> 00:19:47,199

we've identified that doesn't make any

471

00:19:51,179 --> 00:19:49,749

sense another thing we should point out

472

00:19:53,429 --> 00:19:51,189

about the numbers that you're gathering

473

00:19:55,829 --> 00:19:53,439

is a lot of this in terms of

474

00:19:58,739 --> 00:19:55,839

documentation there are issues with

475

00:20:00,299 --> 00:19:58,749

classification if someone is presumed

476

00:20:01,739 --> 00:20:00,309

dead because of the elements or if

477

00:20:04,229 --> 00:20:01,749

they've been missing long enough they're

478

00:20:06,479 --> 00:20:04,239

no longer in missing people files that's

479

00:20:09,299 --> 00:20:06,489

kind of an issue for you is when you go

480

00:20:11,909 --> 00:20:09,309

back into some of these isn't it well

481

00:20:14,699 --> 00:20:11,919

and that is a big big issue and that's

482

00:20:17,129 --> 00:20:14,709

part of the National Parks Department of

483

00:20:18,989 --> 00:20:17,139

Interior and US Department of

484

00:20:21,779 --> 00:20:18,999

Agriculture that manages a lot of this

485

00:20:23,500 --> 00:20:21,789

land that's part of a classification

486

00:20:25,180 --> 00:20:23,510

they came up with too

487

00:20:28,090 --> 00:20:25,190

eliminate these people from public

488

00:20:31,060 --> 00:20:28,100

record meaning say somebody disappears

489

00:20:34,630 --> 00:20:31,070

in a National Forest and it's snowing

490

00:20:36,970 --> 00:20:34,640

blah blah blah they go 16 months without

491

00:20:38,980 --> 00:20:36,980

finding them then they get a

492

00:20:41,260 --> 00:20:38,990

classification called missing presumed

493

00:20:43,570 --> 00:20:41,270

dead meaning they're deceased meaning

494

00:20:44,680 --> 00:20:43,580

they're no longer missing meaning that

495

00:20:48,910 --> 00:20:44,690

you're not going to find them on any

496

00:20:51,970 --> 00:20:48,920

databases as an example the National

497

00:20:53,800 --> 00:20:51,980

Institute of justice has a program that

498

00:20:57,870 --> 00:20:53,810

they instituted about four years ago

499

00:21:01,780 --> 00:20:57,880

where they are trying to get DNA on

500

00:21:06,550 --> 00:21:01,790

every missing person case in the United

501
00:21:08,980 --> 00:21:06,560
States because there's coroner's offices

502
00:21:11,440 --> 00:21:08,990
throughout the u.s. in these rural areas

503
00:21:13,630 --> 00:21:11,450
many in Oregon and Washington in

504
00:21:16,510 --> 00:21:13,640
California where they have bones that

505
00:21:18,610 --> 00:21:16,520
they can't identify there's no there was

506
00:21:20,860 --> 00:21:18,620
no national database where they could go

507
00:21:23,620 --> 00:21:20,870
to them and say hey did someone

508
00:21:25,540 --> 00:21:23,630
disappear in honor model radius of here

509
00:21:28,060 --> 00:21:25,550
now they can go to this National

510
00:21:29,650 --> 00:21:28,070
Institute of Justice site and they can

511
00:21:32,400 --> 00:21:29,660
query it and they can get this

512
00:21:35,500 --> 00:21:32,410
information now in the last 14 months

513
00:21:38,740 --> 00:21:35,510

we've supplied them at their request

514

00:21:41,890 --> 00:21:38,750

with 12 cases that they had never heard

515

00:21:43,750 --> 00:21:41,900

of before missing people that we had

516

00:21:46,480 --> 00:21:43,760

gotten the documentation and the reports

517

00:21:49,120 --> 00:21:46,490

on many of them come in came out of

518

00:21:52,090 --> 00:21:49,130

Oregon and Washington where they have

519

00:21:54,070 --> 00:21:52,100

this classification or the sheriff's

520

00:21:56,620 --> 00:21:54,080

officer the police department lost the

521

00:21:59,500 --> 00:21:56,630

report and just threw away the case by

522

00:22:01,830 --> 00:21:59,510

accident we we got the documentation

523

00:22:05,230 --> 00:22:01,840

back we went back to them they we

524

00:22:07,300 --> 00:22:05,240

revived the report they just confirmed

525

00:22:08,680 --> 00:22:07,310

that the person still missing the

526

00:22:10,990 --> 00:22:08,690

Department of Justice now has this

527

00:22:13,570 --> 00:22:11,000

information Alyssa to justice now has

528

00:22:15,730 --> 00:22:13,580

this information so I like to say that

529

00:22:17,710 --> 00:22:15,740

our work has done some good in this

530

00:22:20,740 --> 00:22:17,720

long-term process of trying to identify

531

00:22:24,610 --> 00:22:20,750

people yeah yeah that's definitely

532

00:22:26,860 --> 00:22:24,620

noteworthy yeah and on the subject of

533

00:22:28,630 --> 00:22:26,870

Oregon let's talk about these two cases

534

00:22:30,370 --> 00:22:28,640

that are kind of connected when we're

535

00:22:32,200 --> 00:22:30,380

talking about kids that are traveling

536

00:22:35,350 --> 00:22:32,210

distances they shouldn't be able to

537

00:22:37,330 --> 00:22:35,360

these cases are 30 years apart but only

538

00:22:40,320 --> 00:22:37,340

19 miles by distance

539

00:22:44,590 --> 00:22:40,330

and that would be Cody shy I think and

540

00:22:46,120 --> 00:22:44,600

Keith Parkins Cody Sheehy and and Keith

541

00:22:50,680 --> 00:22:46,130

Park is yeah both of them

542

00:22:54,310 --> 00:22:50,690

strange strange cases but in April of

543

00:22:57,250 --> 00:22:54,320

1986 Cody she's 20 starcraft at six

544

00:23:00,130 --> 00:22:57,260

years old he was in an area near willow

545

00:23:01,960 --> 00:23:00,140

Oregon it's about 26 miles from the

546

00:23:04,650 --> 00:23:01,970

Washington border in the Blue Mountains

547

00:23:07,540 --> 00:23:04,660

in the far eastern sector of the state

548

00:23:09,460 --> 00:23:07,550

he went on a picnic with his family and

549

00:23:11,440 --> 00:23:09,470

he and his sister were playing this game

550

00:23:13,810 --> 00:23:11,450

called explorers where they kind of

551

00:23:16,510 --> 00:23:13,820

split up and they hide and they stay

552

00:23:19,000 --> 00:23:16,520

hidden for a little while and anyhow as

553

00:23:21,390 --> 00:23:19,010

was happening at about 12:30 that

554

00:23:23,770 --> 00:23:21,400

afternoon the mom couldn't find Cody

555

00:23:26,860 --> 00:23:23,780

well the mom the dad and the sister

556

00:23:29,230 --> 00:23:26,870

searched till 2:30 and they then called

557

00:23:31,750 --> 00:23:29,240

law enforcement and within a couple of

558

00:23:34,360 --> 00:23:31,760

hours this is quick for this part of the

559

00:23:36,520 --> 00:23:34,370

country they had to Cal copters in the

560

00:23:41,650 --> 00:23:36,530

air with FLIR forward-looking infrared

561

00:23:43,690 --> 00:23:41,660

radar and a dozen searchers were on site

562

00:23:47,920 --> 00:23:43,700

within an hour that first night

563

00:23:49,360 --> 00:23:47,930

searchers got up to almost 75 they're

564

00:23:51,250 --> 00:23:49,370

walking on the ground they're yelling

565

00:23:53,560 --> 00:23:51,260

for the boy they call in his name blah

566

00:23:56,170 --> 00:23:53,570

blah blah they're not getting any

567

00:23:57,820 --> 00:23:56,180

responses the helicopters with the flare

568

00:24:01,660 --> 00:23:57,830

in the air aren't seeing anything on the

569

00:24:05,770 --> 00:24:01,670

ground at 7:30 a.m. the following

570

00:24:10,030 --> 00:24:05,780

morning Cody arrives at a house on the

571

00:24:13,210 --> 00:24:10,040

outskirts of this nearest town and this

572

00:24:15,100 --> 00:24:13,220

house was 18 miles from where he was

573

00:24:19,780 --> 00:24:15,110

camping with his family on this picnic

574

00:24:23,050 --> 00:24:19,790

and he walked up and he asked for some

575

00:24:24,370 --> 00:24:23,060

help and the people wisely grabbed him

576

00:24:26,110 --> 00:24:24,380

and said hey you know we'll get the help

577

00:24:29,170 --> 00:24:26,120

for a law enforcement was called he's

578

00:24:32,980 --> 00:24:29,180

identified well you need some real

579

00:24:35,110 --> 00:24:32,990

fascinating statements he told his

580

00:24:38,970 --> 00:24:35,120

parents and law enforcement that he hid

581

00:24:41,410 --> 00:24:38,980

from a helicopter that night and

582

00:24:43,270 --> 00:24:41,420

interesting part was the hell or no

583

00:24:46,240 --> 00:24:43,280

helicopters up at night nay don't fly at

584

00:24:49,289 --> 00:24:46,250

night because of safety reasons and he

585

00:24:52,169 --> 00:24:49,299

also said he hid from coyotes at night

586

00:24:54,570 --> 00:24:52,179

and that puzzled the people because they

587

00:24:57,899 --> 00:24:54,580

they were out at night on foot and they

588

00:24:59,789 --> 00:24:57,909

didn't hear or see any coyotes he was

589

00:25:02,129 --> 00:24:59,799

found to be in excellent condition and

590

00:25:05,220 --> 00:25:02,139

it goes back to that statement he said

591

00:25:10,169 --> 00:25:05,230

earlier Gregg where this boy at six

592

00:25:15,239 --> 00:25:10,179

years old went 18 miles and about 14

593

00:25:19,259 --> 00:25:15,249

hours five hours unbelievable it's it's

594

00:25:21,479 --> 00:25:19,269

too weird and and then Keith Parkins was

595

00:25:23,549 --> 00:25:21,489

actually wait 30 years earlier than that

596

00:25:26,430 --> 00:25:23,559

but just nineteen miles away something

597

00:25:30,869 --> 00:25:26,440

very similar right correct he was

598

00:25:32,369 --> 00:25:30,879

visiting his grandparents ranch and he

599

00:25:35,849 --> 00:25:32,379

was walking around the ranch he was only

600

00:25:38,549 --> 00:25:35,859

2 years old and he disappeared there's a

601
00:25:40,710 --> 00:25:38,559
giant search and people are coming out

602
00:25:43,549 --> 00:25:40,720
of the woodwork to help and this

603
00:25:46,680 --> 00:25:43,559
location is 90 miles southwest of Aloha

604
00:25:51,690 --> 00:25:46,690
in the Jensen in the general general

605
00:25:57,210 --> 00:25:51,700
area so to speak and this was in April

606
00:26:00,479 --> 00:25:57,220
of 1952 and the following morning 19

607
00:26:03,029 --> 00:26:00,489
hours later after he disappears two

608
00:26:07,440 --> 00:26:03,039
mountain ranges several barbed wire

609
00:26:10,830 --> 00:26:07,450
fences several creeks to search and

610
00:26:14,369 --> 00:26:10,840
rescue people and his dad are in a dry

611
00:26:17,399 --> 00:26:14,379
creek bed 12 miles away and they find

612
00:26:20,060 --> 00:26:17,409
the boy facedown in this dry creek that

613
00:26:23,369 --> 00:26:20,070

alive the barely

614

00:26:26,419 --> 00:26:23,379

now they said is his pants were torn to

615

00:26:30,359 --> 00:26:26,429

shreds and he was suffering hypothermia

616

00:26:32,789 --> 00:26:30,369

etc now when we read this and there were

617

00:26:34,649 --> 00:26:32,799

three of us at read this we said well

618

00:26:37,830 --> 00:26:34,659

that's that's a phenomenal story but

619

00:26:40,519 --> 00:26:37,840

almost simultaneously the cops in us

620

00:26:43,619 --> 00:26:40,529

come out and they say oh wait a minute

621

00:26:46,409 --> 00:26:43,629

this two-year-old boy is gone for 19

622

00:26:49,529 --> 00:26:46,419

hours there is an ax search-and-rescue

623

00:26:51,930 --> 00:26:49,539

person in the world that would tell a

624

00:26:54,629 --> 00:26:51,940

dad and other workers to go look in a

625

00:26:58,799 --> 00:26:54,639

creek 12 miles away that's ridiculous

626

00:27:01,289 --> 00:26:58,809

right so our question to ourselves and

627

00:27:02,800 --> 00:27:01,299

we threw this around a lot is why were

628

00:27:05,860 --> 00:27:02,810

they there

629

00:27:07,720 --> 00:27:05,870

what did they know or why did they

630

00:27:10,360 --> 00:27:07,730

suspect that would be a reasonable place

631

00:27:15,190 --> 00:27:10,370

to even search mm-hmm yeah I'd have the

632

00:27:17,140 --> 00:27:15,200

same question it's it's very odd and not

633

00:27:19,450 --> 00:27:17,150

only are there a lot of cases where

634

00:27:21,760 --> 00:27:19,460

these kids are found many many miles

635

00:27:24,850 --> 00:27:21,770

away but also sometimes in mountainous

636

00:27:27,370 --> 00:27:24,860

areas they're found miles up which seems

637

00:27:31,390 --> 00:27:27,380

even tougher for a kid under 10 years

638

00:27:32,920 --> 00:27:31,400

old one of my favorites I thought it's

639

00:27:35,380 --> 00:27:32,930

hard to say favorites but the one of the

640

00:27:40,050 --> 00:27:35,390

ones I thought was most intriguing was

641

00:27:42,340 --> 00:27:40,060

uh Kenneth Edwards five years old in

642

00:27:44,380 --> 00:27:42,350

Rosemont California you remember that

643

00:27:47,950 --> 00:27:44,390

one oh yeah

644

00:27:51,400 --> 00:27:47,960

no you know the issue is is that with

645

00:27:53,920 --> 00:27:51,410

these cases as you know because you've

646

00:27:57,370 --> 00:27:53,930

looked at them is theirs there are a

647

00:27:59,770 --> 00:27:57,380

series of disappearances that all kind

648

00:28:01,930 --> 00:27:59,780

of look the same after a while and

649

00:28:05,500 --> 00:28:01,940

that's that's the baffling part I mean

650

00:28:08,350 --> 00:28:05,510

these kids that disappear in your mind

651

00:28:11,110 --> 00:28:08,360

you don't think well they're not really

652

00:28:13,360 --> 00:28:11,120

going to be found you know five miles

653

00:28:15,340 --> 00:28:13,370

away and uphill and so search and risk

654

00:28:18,160 --> 00:28:15,350

you may not throw a lot of resources at

655

00:28:18,880 --> 00:28:18,170

it but you can it's it case again two

656

00:28:24,130 --> 00:28:18,890

years old

657

00:28:26,500 --> 00:28:24,140

April 4th 1964 about 2:00 p.m. he's in

658

00:28:30,970 --> 00:28:26,510

an area near Rosamond California five

659

00:28:33,700 --> 00:28:30,980

miles north of LA right near the Los

660

00:28:37,620 --> 00:28:33,710

Angeles National Forest his family took

661

00:28:40,030 --> 00:28:37,630

a trip and they got into this area and

662

00:28:44,350 --> 00:28:40,040

somehow or another Kenneth got away from

663

00:28:46,270 --> 00:28:44,360

them well the parents called the CHP

664

00:28:49,360 --> 00:28:46,280

California Highway Patrol National Guard

665

00:28:52,080 --> 00:28:49,370

Kern County Sheriff's multiple multiple

666

00:28:54,130 --> 00:28:52,090

bloodhound teams come into the area and

667

00:28:55,600 --> 00:28:54,140

initially they started to question the

668

00:28:58,950 --> 00:28:55,610

parents because the dogs aren't finding

669

00:29:02,140 --> 00:28:58,960

any scent and this is another part of

670

00:29:05,080 --> 00:29:02,150

the profiling is that the dogs on these

671

00:29:08,440 --> 00:29:05,090

cases 99.9% of the time can't find a

672

00:29:10,660 --> 00:29:08,450

scent so the sheriff's office moved

673

00:29:13,360 --> 00:29:10,670

their perimeter meaning the area they're

674

00:29:14,950 --> 00:29:13,370

searching from two to five miles out and

675

00:29:16,450 --> 00:29:14,960

they're yelling for the boy they're not

676

00:29:19,390 --> 00:29:16,460

hearing anything they're not hearing

677

00:29:21,760 --> 00:29:19,400

boy they're not getting anything so a

678

00:29:24,270 --> 00:29:21,770

Native American tracker came in he

679

00:29:26,800 --> 00:29:24,280

didn't find any tracks of the boy and

680

00:29:29,350 --> 00:29:26,810

then about two miles from the original

681

00:29:31,150 --> 00:29:29,360

camp they find his jacket in his

682

00:29:33,460 --> 00:29:31,160

sweatshirt which they thought was

683

00:29:35,260 --> 00:29:33,470

strange because it was really pretty

684

00:29:40,690 --> 00:29:35,270

cold outside hmm

685

00:29:44,380 --> 00:29:40,700

and then later on they find him lying on

686

00:29:48,610 --> 00:29:44,390

a ridge top on a cliff seven miles from

687

00:29:50,710 --> 00:29:48,620

where he originally disappeared and a

688

00:29:53,470 --> 00:29:50,720

thousand yards from the sheriff's

689

00:29:57,280 --> 00:29:53,480

command post which they had moved now

690

00:30:01,030 --> 00:29:57,290

he's found face down which is unusually

691

00:30:02,890 --> 00:30:01,040

an unusual way to find somebody but a

692

00:30:06,340 --> 00:30:02,900

common way that people that we've

693

00:30:08,230 --> 00:30:06,350

identified are found mm-hmm now the

694

00:30:10,600 --> 00:30:08,240

original story was is that he was

695

00:30:11,340 --> 00:30:10,610

chasing a rabbit and got away from his

696

00:30:13,990 --> 00:30:11,350

parents

697

00:30:15,790 --> 00:30:14,000

well there's multiple issues about this

698

00:30:17,170 --> 00:30:15,800

that don't make sense first of all how

699

00:30:20,050 --> 00:30:17,180

could the boy outrun his parents for

700

00:30:22,060 --> 00:30:20,060

years chasing a rabbit yeah how could he

701
00:30:23,770 --> 00:30:22,070
get seven miles away at two years old

702
00:30:27,460 --> 00:30:23,780
and how can you find and get on top of

703
00:30:30,040 --> 00:30:27,470
the cliff right yeah the climbing is

704
00:30:32,560 --> 00:30:30,050
just it's one of those elements that it

705
00:30:34,180 --> 00:30:32,570
adds even another layer of mystery it's

706
00:30:36,460 --> 00:30:34,190
just like it seems like they're being

707
00:30:37,480 --> 00:30:36,470
assisted by something or we're just not

708
00:30:41,860 --> 00:30:37,490
given enough credit to these

709
00:30:44,920 --> 00:30:41,870
two-year-olds you know I think that if

710
00:30:46,330 --> 00:30:44,930
you if you have kids I think a parent is

711
00:30:48,160 --> 00:30:46,340
probably the best judge about the

712
00:30:50,500 --> 00:30:48,170
strength and the ability of their child

713
00:30:52,510 --> 00:30:50,510

and I haven't heard too many say that

714

00:30:57,010 --> 00:30:52,520

that could happen yeah

715

00:30:59,320 --> 00:30:57,020

and there was a another kid Larry Lewis

716

00:31:01,870 --> 00:30:59,330

who is pretty young also in California

717

00:31:04,150 --> 00:31:01,880

and my note here that I took says he was

718

00:31:06,150 --> 00:31:04,160

found several miles up from where he

719

00:31:08,860 --> 00:31:06,160

disappeared you remember that one

720

00:31:13,900 --> 00:31:08,870

that's a weird that that's even a more

721

00:31:16,210 --> 00:31:13,910

unusual case in that is it kind of the

722

00:31:18,250 --> 00:31:16,220

foothills of the Sierra the soft work of

723

00:31:19,020 --> 00:31:18,260

the MOE calumny River in Calaveras

724

00:31:23,460 --> 00:31:19,030

County

725

00:31:25,780 --> 00:31:23,470

June 9th 1945 years old about 10:00 a.m.

726

00:31:29,100 --> 00:31:25,790

family went up there for trout fishing

727

00:31:32,549 --> 00:31:29,110

trip his dad took a couple of the

728

00:31:35,880 --> 00:31:32,559

up the river and as they were coming

729

00:31:37,440 --> 00:31:35,890

back down Larry disappeared now that

730

00:31:39,120 --> 00:31:37,450

it's a pretty good-sized River and so I

731

00:31:41,220 --> 00:31:39,130

think initially the thought was maybe

732

00:31:42,840 --> 00:31:41,230

you went into the river but the u.s.

733

00:31:44,460 --> 00:31:42,850

Forest Service in Calaveras County

734

00:31:47,280 --> 00:31:44,470

Sheriff's Office did a pretty good job

735

00:31:51,510 --> 00:31:47,290

in in rounding up 100 searchers to comb

736

00:31:55,650 --> 00:31:51,520

the area and they worked it hard and at

737

00:31:59,730 --> 00:31:55,660

4:00 p.m. the following day they found

738

00:32:04,520 --> 00:31:59,740

that Larry had traveled through his 24

739

00:32:10,440 --> 00:32:04,530

hours he had climbed in XS up and down

740

00:32:14,250 --> 00:32:10,450

11,000 feet and three miles and he was

741

00:32:16,320 --> 00:32:14,260

found sleeping in a thicket now I'll

742

00:32:19,039 --> 00:32:16,330

stop the people here not and I know you

743

00:32:22,730 --> 00:32:19,049

know there's Greg but in these books I

744

00:32:27,600 --> 00:32:22,740

in each story there's at least one or

745

00:32:30,270 --> 00:32:27,610

multiple notes about where this

746

00:32:33,630 --> 00:32:30,280

information came from and the articles

747

00:32:35,370 --> 00:32:33,640

and the author etc so if there's any

748

00:32:37,380 --> 00:32:35,380

ever any question now about the veracity

749

00:32:38,970 --> 00:32:37,390

of what I'm saying in here you can

750

00:32:41,940 --> 00:32:38,980

always go back and check and you can see

751
00:32:43,140 --> 00:32:41,950
that this is exactly what was said many

752
00:32:44,940 --> 00:32:43,150
times we get the search and rescue

753
00:32:48,450 --> 00:32:44,950
reports are directly Street law

754
00:32:50,340 --> 00:32:48,460
enforcement reports and I know it's it's

755
00:32:52,020 --> 00:32:50,350
phenomenal to hear these things and you

756
00:32:53,820 --> 00:32:52,030
think oh you know this this is just an

757
00:32:55,590 --> 00:32:53,830
isolated case but that's what makes the

758
00:33:00,330 --> 00:32:55,600
books interesting is that these aren't

759
00:33:02,520 --> 00:33:00,340
isolated cases mm-hmm and another

760
00:33:04,590 --> 00:33:02,530
commonality we mentioned with with

761
00:33:06,120 --> 00:33:04,600
Kenneth Edwards is he took off some of

762
00:33:09,090 --> 00:33:06,130
his clothes he took off his coat and

763
00:33:12,150 --> 00:33:09,100

that seems to happen a lot which is a

764

00:33:16,169 --> 00:33:12,160

really weird thing and that would link

765

00:33:17,850 --> 00:33:16,179

us to the Corey Kelly case not a kid 38

766

00:33:21,210 --> 00:33:17,860

years old but definitely had an issue

767

00:33:24,330 --> 00:33:21,220

with the clothing right now Corey

768

00:33:26,310 --> 00:33:24,340

Kelly's case it that's pretty weird to

769

00:33:30,930 --> 00:33:26,320

say the least but I've actually been

770

00:33:33,450 --> 00:33:30,940

into that area of Minnesota and I mean I

771

00:33:35,610 --> 00:33:33,460

can't you won't believe the facts of it

772

00:33:36,750 --> 00:33:35,620

when you hear it and after you go to the

773

00:33:38,120 --> 00:33:36,760

area you're going to say this doesn't

774

00:33:41,220 --> 00:33:38,130

make any sense

775

00:33:42,600 --> 00:33:41,230

it's the Red Lake world earnest and far

776

00:33:47,460 --> 00:33:42,610

northern minutes

777

00:33:49,980 --> 00:33:47,470

Zota October 16 2006 Cory was 38 years

778

00:33:53,520 --> 00:33:49,990

old he had been to this area many many

779

00:33:55,650 --> 00:33:53,530

times he knew it well him and one of his

780

00:33:59,280 --> 00:33:55,660

best friends named Jim Knapp rude and

781

00:34:02,220 --> 00:33:59,290

Jim's Labrador dog went to the area to

782

00:34:05,070 --> 00:34:02,230

go hunting and as the men were setting

783

00:34:09,149 --> 00:34:05,080

up camp Jim realized that they needed

784

00:34:11,340 --> 00:34:09,159

some some gas for their stoves and so

785

00:34:13,649 --> 00:34:11,350

Cory said that he was going to wait with

786

00:34:15,060 --> 00:34:13,659

the dog while Jim went into town and

787

00:34:18,810 --> 00:34:15,070

Cory was going to take the dog and they

788

00:34:21,119 --> 00:34:18,820

were going to do some grouse hunting so

789

00:34:25,290 --> 00:34:21,129

Jim left Jim comes back in an hour and a

790

00:34:28,349 --> 00:34:25,300

half and Cory's gone and it's about

791

00:34:32,820 --> 00:34:28,359

seven o'clock at night so Jim sets up

792

00:34:34,889 --> 00:34:32,830

the car honks the horn flicks the lights

793

00:34:39,359 --> 00:34:34,899

he's not getting any response for Cory

794

00:34:40,800 --> 00:34:39,369

or the dog and he calls if you find some

795

00:34:42,419 --> 00:34:40,810

people that are in another adjoining

796

00:34:43,530 --> 00:34:42,429

camp that we're leaving tells him to

797

00:34:46,080 --> 00:34:43,540

call for law enforcement

798

00:34:48,180 --> 00:34:46,090

they bring in massive amount of trips

799

00:34:50,639 --> 00:34:48,190

from the Beltrami County Sheriff's and

800

00:34:54,869 --> 00:34:50,649

see troopers and there's a massive

801
00:34:56,700 --> 00:34:54,879
search for two weeks now if you if you

802
00:35:00,240 --> 00:34:56,710
stop for a second and think that

803
00:35:03,390 --> 00:35:00,250
how far can Cory Kelly get in an hour

804
00:35:05,430 --> 00:35:03,400
and a half mm-hmm and how far would you

805
00:35:06,960 --> 00:35:05,440
really want to go on an hour and a half

806
00:35:09,690 --> 00:35:06,970
Nona's buddy's going to be back and

807
00:35:11,220 --> 00:35:09,700
they're going to make dinner so all the

808
00:35:13,170 --> 00:35:11,230
indications are that this was going to

809
00:35:14,820 --> 00:35:13,180
be just a short you know maybe go out a

810
00:35:17,310 --> 00:35:14,830
couple hundred yards with the dog and

811
00:35:19,080 --> 00:35:17,320
look around and if you see a grouse

812
00:35:21,420 --> 00:35:19,090
great if not come on back and let's make

813
00:35:24,510 --> 00:35:21,430

dinner but that's not not what happened

814

00:35:26,490 --> 00:35:24,520

and the dog didn't respond to all the

815

00:35:28,290 --> 00:35:26,500

bark all the yells and things that net

816

00:35:34,770 --> 00:35:28,300

food was giving for his dog which was

817

00:35:40,470 --> 00:35:34,780

strange so on October 25th nine days

818

00:35:42,780 --> 00:35:40,480

after a quarry disappears some searchers

819

00:35:47,190 --> 00:35:42,790

were nine miles away and they find the

820

00:35:50,430 --> 00:35:47,200

lab wandering in the woods and it's

821

00:35:52,020 --> 00:35:50,440

dehydrated and hungry now one thing

822

00:35:53,880 --> 00:35:52,030

about being dehydrated that didn't make

823

00:35:56,100 --> 00:35:53,890

any sense to the searchers and doesn't

824

00:35:58,560 --> 00:35:56,110

make any sense to me

825

00:36:01,050 --> 00:35:58,570

is that there's more water in this area

826
00:36:04,650 --> 00:36:01,060
of the Red Lake wilderness than you can

827
00:36:07,020 --> 00:36:04,660
imagine it's a very swampy boggy area

828
00:36:11,580 --> 00:36:07,030
where there's no way a dog should ever

829
00:36:13,410 --> 00:36:11,590
be dehydrated and hungry I suppose that

830
00:36:16,620 --> 00:36:13,420
could be true if it hadn't had anything

831
00:36:18,870 --> 00:36:16,630
to eat but they took the dog to a vet

832
00:36:21,170 --> 00:36:18,880
and they took a sample from its stomach

833
00:36:27,540 --> 00:36:21,180
and found that it had been eating deer

834
00:36:30,750 --> 00:36:27,550
and that puzzled them so they keep

835
00:36:35,580 --> 00:36:30,760
searching and a day later they find

836
00:36:39,420 --> 00:36:35,590
Corey's cigarettes and a lighter a key

837
00:36:43,410 --> 00:36:39,430
point here Cory was a known hunter he

838
00:36:45,750 --> 00:36:43,420

carried Adam an adequate supply T of of

839

00:36:48,360 --> 00:36:45,760

clothes and things to keep warm it

840

00:36:50,010 --> 00:36:48,370

wasn't that cold and he had a lighter

841

00:36:52,650 --> 00:36:50,020

that if you wanted to start a fire he

842

00:36:54,390 --> 00:36:52,660

could start it but this cigarettes and a

843

00:36:57,180 --> 00:36:54,400

lighter were on the ground and that

844

00:36:57,690 --> 00:36:57,190

caused a lot of concern the following

845

00:37:01,620 --> 00:36:57,700

day

846

00:37:05,130 --> 00:37:01,630

14 miles from the campsite a tracker

847

00:37:11,280 --> 00:37:05,140

found his overalls his socks and his

848

00:37:14,180 --> 00:37:11,290

hooded sweatshirt now when you read the

849

00:37:16,800 --> 00:37:14,190

cases in this books in these books

850

00:37:19,080 --> 00:37:16,810

something starts to come out at you and

851
00:37:21,840 --> 00:37:19,090
that is is that in on many of these

852
00:37:26,160 --> 00:37:21,850
instances people are missing shoes or

853
00:37:28,200 --> 00:37:26,170
clothing or both yeah and I know a lot

854
00:37:30,900 --> 00:37:28,210
of people say well all hypothermia sets

855
00:37:33,120 --> 00:37:30,910
in and you start stripping clothes but

856
00:37:35,220 --> 00:37:33,130
there was no reason for hypothermia to

857
00:37:37,470 --> 00:37:35,230
set in because Cory had the ability to

858
00:37:40,080 --> 00:37:37,480
start fire and he was dressed real warm

859
00:37:43,650 --> 00:37:40,090
and he had the dog with him to keep him

860
00:37:45,540 --> 00:37:43,660
warm right and even if even if you did

861
00:37:48,900 --> 00:37:45,550
have to take off your clothes for some

862
00:37:55,410 --> 00:37:48,910
reason wouldn't you keep track of them

863
00:37:57,720 --> 00:37:55,420

you know I would think and many of the

864

00:37:59,880 --> 00:37:57,730

stories that I write about these

865

00:38:02,330 --> 00:37:59,890

people's clothes are found in close

866

00:38:05,100 --> 00:38:02,340

proximity to where they disappeared even

867

00:38:08,250 --> 00:38:05,110

before hypothermia could ever have set

868

00:38:09,840 --> 00:38:08,260

in many of the small kids who find that

869

00:38:10,950 --> 00:38:09,850

they strip their clothes the parents

870

00:38:13,350 --> 00:38:10,960

they didn't even know how to take their

871

00:38:17,430 --> 00:38:13,360

clothes off right yeah at that young age

872

00:38:18,690 --> 00:38:17,440

it's even even weirder I mean you've

873

00:38:20,640 --> 00:38:18,700

been looking at this for a lot longer

874

00:38:22,110 --> 00:38:20,650

than I have of course and I can't think

875

00:38:25,830 --> 00:38:22,120

of any but have you ever gotten a

876
00:38:28,020 --> 00:38:25,840
rational response as to why people would

877
00:38:32,550 --> 00:38:28,030
be missing their clothing outside of I

878
00:38:34,620 --> 00:38:32,560
guess hypothermia well I it is called

879
00:38:36,390 --> 00:38:34,630
paradoxical undressing and it's

880
00:38:42,090 --> 00:38:36,400
paradoxical because they can't figure it

881
00:38:45,090 --> 00:38:42,100
out right and so I think there's there's

882
00:38:49,470 --> 00:38:45,100
a little more to this than everyone kind

883
00:38:53,970 --> 00:38:49,480
of understands in that it's a convenient

884
00:38:57,420 --> 00:38:53,980
answer to a very complex scenario and as

885
00:38:59,970 --> 00:38:57,430
you'll see so about October 30th about

886
00:39:02,910 --> 00:38:59,980
14 days after the search started snow is

887
00:39:05,640 --> 00:39:02,920
falling the hamper the search searched

888
00:39:08,690 --> 00:39:05,650

and again dogs canines coming into the

889

00:39:11,100 --> 00:39:08,700

field they can't pick up a scent and so

890

00:39:13,740 --> 00:39:11,110

this goes off and on for another two

891

00:39:19,020 --> 00:39:13,750

weeks and finally the efforts to find

892

00:39:22,440 --> 00:39:19,030

Cory are terminated on November 23rd on

893

00:39:24,180 --> 00:39:22,450

April 28th snow starts to melt things

894

00:39:26,040 --> 00:39:24,190

start to come up and again and the

895

00:39:28,410 --> 00:39:26,050

sheriff gets a helicopter and they start

896

00:39:31,950 --> 00:39:28,420

flying the area around where they found

897

00:39:36,240 --> 00:39:31,960

is closed and in some real high reads

898

00:39:41,060 --> 00:39:36,250

about 15 feet off a nearby trail they

899

00:39:48,090 --> 00:39:41,070

found find Cory laying nearly naked in

900

00:39:50,900 --> 00:39:48,100

the reads so so does it make sense to

901
00:39:56,220 --> 00:39:50,910
anybody what happened to Cory Kelly no

902
00:39:59,040 --> 00:39:56,230
and the sheriff made a statement that he

903
00:40:02,670 --> 00:39:59,050
thought that Cory must have died that

904
00:40:03,840 --> 00:40:02,680
first night and he has no reason why he

905
00:40:07,500 --> 00:40:03,850
made that statement he has no

906
00:40:08,640 --> 00:40:07,510
justification and Cory's mother was

907
00:40:10,920 --> 00:40:08,650
interviewed and she said I don't believe

908
00:40:12,840 --> 00:40:10,930
my son even could have made it 14 miles

909
00:40:16,320 --> 00:40:12,850
through the woods to where he was found

910
00:40:20,160 --> 00:40:16,330
in that first night hmm and better

911
00:40:22,710 --> 00:40:20,170
better question why would he be right it

912
00:40:26,760 --> 00:40:22,720
doesn't make logical sense

913
00:40:28,770 --> 00:40:26,770

and I just think taking off shoes I mean

914

00:40:31,650 --> 00:40:28,780

that is just the worst idea if you're

915

00:40:33,690 --> 00:40:31,660

outside you your feet are very sensitive

916

00:40:35,520 --> 00:40:33,700

you can't travel without shoes it just

917

00:40:37,410 --> 00:40:35,530

seems like of all the things you'd want

918

00:40:41,820 --> 00:40:37,420

to keep if you weren't well equipped to

919

00:40:46,260 --> 00:40:41,830

be out there is your shoes so as I've

920

00:40:49,349 --> 00:40:46,270

told this before and our group has

921

00:40:52,170 --> 00:40:49,359

talked about this at length what's the

922

00:40:54,270 --> 00:40:52,180

one thing about shoes that may be

923

00:40:56,580 --> 00:40:54,280

different about everything else we wear

924

00:40:59,520 --> 00:40:56,590

on our body and I always ask people to

925

00:41:01,440 --> 00:40:59,530

think about this and the one thing we've

926
00:41:03,240 --> 00:41:01,450
come up with and we're not saying this

927
00:41:05,130 --> 00:41:03,250
is a reason or it's not but the one

928
00:41:07,950 --> 00:41:05,140
thing about shoes that's different than

929
00:41:10,950 --> 00:41:07,960
everything else we wear is it's probably

930
00:41:17,400 --> 00:41:10,960
the one place on our body that has the

931
00:41:20,040 --> 00:41:17,410
most bacteria hmm and I don't know what

932
00:41:22,380 --> 00:41:20,050
it means that is the one thing that's

933
00:41:24,450 --> 00:41:22,390
different yeah that's interesting

934
00:41:26,430 --> 00:41:24,460
because I've also thought about that

935
00:41:27,540 --> 00:41:26,440
because I know for a while I was

936
00:41:29,460 --> 00:41:27,550
listening to your interviews and you

937
00:41:31,650 --> 00:41:29,470
would bring up these feet that were

938
00:41:33,660 --> 00:41:31,660

washing up in Nova Scotia I think

939

00:41:36,150 --> 00:41:33,670

something like over a dozen or a couple

940

00:41:37,920 --> 00:41:36,160

dozen feet in shoes have washed up on

941

00:41:40,710 --> 00:41:37,930

the coast and I would think the same

942

00:41:42,870 --> 00:41:40,720

thing what's different about shoes and

943

00:41:45,570 --> 00:41:42,880

why are their feet and shoes and no

944

00:41:48,359 --> 00:41:45,580

bodies and my thought process then was

945

00:41:50,670 --> 00:41:48,369

that the creatures of the sea maybe are

946

00:41:52,380 --> 00:41:50,680

eating the bodies but the the shoes are

947

00:41:53,940 --> 00:41:52,390

too tough because of the rubber the

948

00:41:57,960 --> 00:41:53,950

shoes are a little harder to get through

949

00:42:01,349 --> 00:41:57,970

I don't know but yeah it doesn't make

950

00:42:03,900 --> 00:42:01,359

sense in either case no no in the weird

951
00:42:05,730 --> 00:42:03,910
part about those British kilometers I

952
00:42:08,280 --> 00:42:05,740
think eight or ten cases now in British

953
00:42:10,820 --> 00:42:08,290
Columbia and I only know of one case

954
00:42:15,300 --> 00:42:10,830
where they've been able to identify who

955
00:42:18,030 --> 00:42:15,310
whose foot it was so I think that's a

956
00:42:19,620 --> 00:42:18,040
perplexing scenario that they can't even

957
00:42:21,870 --> 00:42:19,630
though they have good DNA they can't

958
00:42:23,970 --> 00:42:21,880
seem to identify these people make sure

959
00:42:27,780 --> 00:42:23,980
wonder where they came from or what

960
00:42:31,170 --> 00:42:27,790
happened yeah yeah it's a weird thing

961
00:42:33,450 --> 00:42:31,180
and another case that was super

962
00:42:34,440 --> 00:42:33,460
interesting of a kid had gone missing

963
00:42:36,000 --> 00:42:34,450

you know we've talked about several

964

00:42:36,359 --> 00:42:36,010

these people are so far from where

965

00:42:37,890 --> 00:42:36,369

theirs

966

00:42:40,859 --> 00:42:37,900

to be you think that it'd be something

967

00:42:42,420 --> 00:42:40,869

assisted but you never get any kind of

968

00:42:44,640 --> 00:42:42,430

indication that that might be the case

969

00:42:46,799 --> 00:42:44,650

but there is one story where there is a

970

00:42:49,769 --> 00:42:46,809

slight inclination that there might have

971

00:42:52,170 --> 00:42:49,779

been something intelligent and involved

972

00:42:56,370 --> 00:42:52,180

moving something and that would be

973

00:42:58,380 --> 00:42:56,380

Dennis Martin's case well Dennis this

974

00:43:03,239 --> 00:42:58,390

case is the longest case I've ever

975

00:43:06,450 --> 00:43:03,249

written about in any book and it's it's

976
00:43:09,120 --> 00:43:06,460
something that I mean I one of the only

977
00:43:11,730 --> 00:43:09,130
cases I've ever proactively sought out

978
00:43:14,309 --> 00:43:11,740
the parents and probably the hardest

979
00:43:20,359 --> 00:43:14,319
case I've ever sat down to write because

980
00:43:23,249 --> 00:43:20,369
it hurt me to write it but June 14th

981
00:43:25,559 --> 00:43:23,259
1964 Great Smoky Mountain National Park

982
00:43:28,140 --> 00:43:25,569
Dennis was six year old six years old

983
00:43:30,210 --> 00:43:28,150
he's with his dad and his grandpa and

984
00:43:31,739 --> 00:43:30,220
his brother and they're spending a

985
00:43:35,430 --> 00:43:31,749
Father's Day outing and at a location

986
00:43:40,019 --> 00:43:35,440
called Spence field Spence field sits up

987
00:43:42,720 --> 00:43:40,029
about 1500 feet from the lower

988
00:43:45,059 --> 00:43:42,730

elevations of the park it's a very

989

00:43:48,930 --> 00:43:45,069

serene area you got to walk into it you

990

00:43:52,559 --> 00:43:48,940

can't drive to it the family hiked in

991

00:43:55,259 --> 00:43:52,569

the four men and they set up in this

992

00:43:57,180 --> 00:43:55,269

kind of grassy area and the two boys

993

00:43:59,880 --> 00:43:57,190

were playing as grandpa and dad were

994

00:44:02,400 --> 00:43:59,890

sitting there watching them and there's

995

00:44:04,680 --> 00:44:02,410

a lot of really really strange things

996

00:44:06,450 --> 00:44:04,690

that happen with this case that nobody

997

00:44:09,269 --> 00:44:06,460

could ever explain and the odds would be

998

00:44:11,849 --> 00:44:09,279

phenomenal but as they're in the middle

999

00:44:15,749 --> 00:44:11,859

of this wilderness setting on the east

1000

00:44:19,440 --> 00:44:15,759

in this meadow another family comes up

1001

00:44:21,239 --> 00:44:19,450

to the Martins and asked them if their

1002

00:44:24,210 --> 00:44:21,249

boys in their family could play with the

1003

00:44:25,289 --> 00:44:24,220

Martin boys mr. Martin stood up shook

1004

00:44:27,989 --> 00:44:25,299

their hand and goes eh my name's

1005

00:44:31,170 --> 00:44:27,999

so-and-so Martin and the sandwich around

1006

00:44:34,890 --> 00:44:31,180

said oh wow our last names the Martins

1007

00:44:36,509 --> 00:44:34,900

as well huh now what would be those odds

1008

00:44:41,430 --> 00:44:36,519

you know you think about that that's

1009

00:44:44,009 --> 00:44:41,440

pretty strange and through the Spence

1010

00:44:47,640 --> 00:44:44,019

field area runs the Appalachian Trail

1011

00:44:49,830 --> 00:44:47,650

and during the years I've written a lot

1012

00:44:52,020 --> 00:44:49,840

about the Appalachian Trail and the

1013

00:44:55,050 --> 00:44:52,030

usual things that have happened along it

1014

00:44:56,400 --> 00:44:55,060

and there's many strange things but

1015

00:45:00,090 --> 00:44:56,410

through Great Smoky Mountain National

1016

00:45:02,190 --> 00:45:00,100

Park in this area the trail runs so the

1017

00:45:03,780 --> 00:45:02,200

family sit down and they start the boys

1018

00:45:06,870 --> 00:45:03,790

start playing a game of hide and seek

1019

00:45:09,960 --> 00:45:06,880

and mr. Martin tells me that he sit in

1020

00:45:13,230 --> 00:45:09,970

the chair and he watches Dennis go up to

1021

00:45:16,170 --> 00:45:13,240

this bush right on the edge of the

1022

00:45:17,850 --> 00:45:16,180

wilderness at the end of this meadow and

1023

00:45:20,790 --> 00:45:17,860

Dennis hides behind the bush and goes

1024

00:45:24,840 --> 00:45:20,800

I'm looking at it I'm about 50 60 feet

1025

00:45:26,250 --> 00:45:24,850

away and he says everybody comes out

1026
00:45:29,190 --> 00:45:26,260
from playing hide-and-seek and Dennis

1027
00:45:30,750 --> 00:45:29,200
doesn't come out so he says they call

1028
00:45:33,210 --> 00:45:30,760
the name and then I start walking over

1029
00:45:35,550 --> 00:45:33,220
to the bush and I get behind the bush

1030
00:45:36,900 --> 00:45:35,560
and Dennis is in there and he goes

1031
00:45:39,780 --> 00:45:36,910
something to my gut told me something

1032
00:45:41,400 --> 00:45:39,790
really bad happened and the Appalachian

1033
00:45:43,380 --> 00:45:41,410
Trail is right next to where Dennis was

1034
00:45:45,300 --> 00:45:43,390
and mr. Martin took off he was in

1035
00:45:47,540 --> 00:45:45,310
excellent shape he took off running for

1036
00:45:50,870 --> 00:45:47,550
two miles down the Appalachian Trail as

1037
00:45:53,940 --> 00:45:50,880
everyone else is looking for the boy and

1038
00:45:57,600 --> 00:45:53,950

he comes back and he's nobody can find

1039

00:45:59,220 --> 00:45:57,610

him so the grandpa takes a quick stroll

1040

00:46:01,400 --> 00:45:59,230

down the mountain to get help as

1041

00:46:04,410 --> 00:46:01,410

everyone continues to look for Dennis

1042

00:46:10,500 --> 00:46:04,420

now final taneous Lee as this is going

1043

00:46:11,820 --> 00:46:10,510

on a family from outside the area drives

1044

00:46:16,440 --> 00:46:11,830

in the Great Smoky Mountain National

1045

00:46:18,330 --> 00:46:16,450

Park and goes up to a ranger and ask

1046

00:46:21,570 --> 00:46:18,340

them where they can go where they can

1047

00:46:23,370 --> 00:46:21,580

see bears and the Ranger says hey you go

1048

00:46:25,320 --> 00:46:23,380

to this area right right outside of

1049

00:46:26,580 --> 00:46:25,330

Cades Cove called Rowan's Creek and

1050

00:46:28,920 --> 00:46:26,590

there's a lot of wildlife there you

1051
00:46:31,740 --> 00:46:28,930
should be able to see something family

1052
00:46:33,960 --> 00:46:31,750
says okay so family parks their car and

1053
00:46:37,050 --> 00:46:33,970
they start walking up this valley I've

1054
00:46:42,690 --> 00:46:37,060
been in the valley it's pretty thick pre

1055
00:46:45,360 --> 00:46:42,700
rugged beautiful and though this is

1056
00:46:47,790 --> 00:46:45,370
another unusual coincidence the last

1057
00:46:52,140 --> 00:46:47,800
name of this family is the key family ke

1058
00:46:54,480 --> 00:46:52,150
Y and astonishingly in the opinion of

1059
00:46:58,620 --> 00:46:54,490
many this is the key point of this case

1060
00:47:02,460 --> 00:46:58,630
as the family is walking up Rowan's

1061
00:47:03,670 --> 00:47:02,470
Creek their twelve-year-old son says wow

1062
00:47:06,430 --> 00:47:03,680
dad

1063
00:47:10,060 --> 00:47:06,440

look at that and he points up a hill

1064

00:47:13,570 --> 00:47:10,070

that's in front of them says I think I

1065

00:47:16,690 --> 00:47:13,580

see a bear at about this time this

1066

00:47:18,940 --> 00:47:16,700

family hears the scream described as

1067

00:47:20,560 --> 00:47:18,950

birth shattering the loudest scream

1068

00:47:22,990 --> 00:47:20,570

they've ever heard in their life and

1069

00:47:26,950 --> 00:47:23,000

they look up the hill and they see this

1070

00:47:29,050 --> 00:47:26,960

thing hot hiding behind trees apparently

1071

00:47:32,260 --> 00:47:29,060

trying to avoid detection by the family

1072

00:47:34,950 --> 00:47:32,270

and the dad says well son I don't think

1073

00:47:38,170 --> 00:47:34,960

that's a bear I think that's a man and

1074

00:47:40,210 --> 00:47:38,180

this thing continues to dodge the trees

1075

00:47:45,280 --> 00:47:40,220

but the people get a pretty good look at

1076

00:47:49,270 --> 00:47:45,290

it and eventually they lose sight of it

1077

00:47:51,940 --> 00:47:49,280

and they go back to their car now at

1078

00:47:54,310 --> 00:47:51,950

8:30 that night this the disappearance

1079

00:47:57,640 --> 00:47:54,320

of Dennis happened at 4:30 at 8:30 that

1080

00:48:00,490 --> 00:47:57,650

night the rain starts to fall and it

1081

00:48:02,050 --> 00:48:00,500

falls hard at a rate that by midnight

1082

00:48:04,510 --> 00:48:02,060

there was two and a half inches of rain

1083

00:48:07,690 --> 00:48:04,520

in the park and it continued to rain

1084

00:48:09,790 --> 00:48:07,700

like that for the next seven days now

1085

00:48:12,280 --> 00:48:09,800

there was a huge response from the US

1086

00:48:18,300 --> 00:48:12,290

Air Force National Park Service local

1087

00:48:21,100 --> 00:48:18,310

jurisdictions etc now Dwight McCarter

1088

00:48:22,360 --> 00:48:21,110

eventually was the head tracker for the

1089

00:48:24,010 --> 00:48:22,370

National Park Service in Great Smoky

1090

00:48:26,410 --> 00:48:24,020

Mountain National Park and he wrote a

1091

00:48:28,900 --> 00:48:26,420

book about tracking and he's been

1092

00:48:32,250 --> 00:48:28,910

interviewed a couple of times about this

1093

00:48:36,790 --> 00:48:35,170

and interviewed him he's retired now and

1094

00:48:39,760 --> 00:48:36,800

he he has a great memory because I'll

1095

00:48:41,890 --> 00:48:39,770

never forget this he said I was one of

1096

00:48:46,330 --> 00:48:41,900

the liaisons between mr. Martin and the

1097

00:48:49,890 --> 00:48:46,340

National Park Service so I'll get back

1098

00:48:52,060 --> 00:48:49,900

to Dwight but as the search is going on

1099

00:48:54,700 --> 00:48:52,070

helicopters are flying in and out and

1100

00:48:56,980 --> 00:48:54,710

two big helicopters come into the park

1101

00:49:00,970 --> 00:48:56,990

filled with the Green Beret Special

1102

00:49:03,070 --> 00:49:00,980

Forces now there's rumors out there that

1103

00:49:05,890 --> 00:49:03,080

oh they were training nearby and just

1104

00:49:08,460 --> 00:49:05,900

happened to stop by the reality of it is

1105

00:49:10,840 --> 00:49:08,470

I have a file price four inches thick

1106

00:49:13,840 --> 00:49:10,850

from the National Park Service on this

1107

00:49:17,000 --> 00:49:13,850

and nobody that I could ever determine

1108

00:49:18,890 --> 00:49:17,010

call them nobody asked me to come in

1109

00:49:20,000 --> 00:49:18,900

the search nobody gave him permission to

1110

00:49:24,290 --> 00:49:20,010

land in the park

1111

00:49:26,480 --> 00:49:24,300

but they showed up McCarter told me that

1112

00:49:29,210 --> 00:49:26,490

when they came in they set up their own

1113

00:49:32,360 --> 00:49:29,220

camp away from everyone else with their

1114

00:49:33,920 --> 00:49:32,370

own communication systems and when the

1115

00:49:35,810 --> 00:49:33,930

National Park Service says well why

1116

00:49:37,700 --> 00:49:35,820

don't we put three of your guys with one

1117

00:49:39,710 --> 00:49:37,710

of our guys since we know the area and

1118

00:49:42,640 --> 00:49:39,720

we could be more efficient searching

1119

00:49:45,710 --> 00:49:42,650

they said no we'll search by ourselves

1120

00:49:47,330 --> 00:49:45,720

very very strange according to my card

1121

00:49:51,440 --> 00:49:47,340

that anybody no other group had ever

1122

00:49:54,230 --> 00:49:51,450

done that before so at the maximum point

1123

00:49:57,500 --> 00:49:54,240

there were almost 1,400 searchers inside

1124

00:50:00,350 --> 00:49:57,510

the park looking for Dennis and the FBI

1125

00:50:02,900 --> 00:50:00,360

sent an agent to quote-unquote monitor

1126

00:50:04,460 --> 00:50:02,910

the case but they didn't suspect their

1127

00:50:08,150 --> 00:50:04,470

crime had occurred but he was going to

1128

00:50:11,090 --> 00:50:08,160

monitor the case so the day after Dennis

1129

00:50:13,070 --> 00:50:11,100

disappears on the front of the Knoxville

1130

00:50:16,490 --> 00:50:13,080

Times is a picture of Dennis Martin

1131

00:50:19,730 --> 00:50:16,500

about this disappearance the key family

1132

00:50:22,250 --> 00:50:19,740

reads it and says wow you know the times

1133

00:50:24,890 --> 00:50:22,260

are kind of close I wonder if what we

1134

00:50:26,720 --> 00:50:24,900

saw on the mountain had something to do

1135

00:50:28,970 --> 00:50:26,730

with Dennis's disappearance since it was

1136

00:50:33,410 --> 00:50:28,980

almost directly below where he

1137

00:50:36,620 --> 00:50:33,420

disappeared right so the FBI sends an

1138

00:50:38,210 --> 00:50:36,630

agent and a ranger to contact the key

1139

00:50:39,950 --> 00:50:38,220

family and the key family says hey we'll

1140

00:50:42,440 --> 00:50:39,960

meet you at the park we'll show you the

1141

00:50:45,530 --> 00:50:42,450

point where we saw this and you can kind

1142

00:50:47,840 --> 00:50:45,540

of see the distances and things FBI says

1143

00:50:49,730 --> 00:50:47,850

no we'll meet you at your house or

1144

00:50:53,450 --> 00:50:49,740

somewhere in between but don't come to

1145

00:50:55,070 --> 00:50:53,460

the park which is wrong because as an

1146

00:50:57,440 --> 00:50:55,080

investigator you want to see the

1147

00:51:01,820 --> 00:50:57,450

distances and see if they could see what

1148

00:51:05,390 --> 00:51:01,830

they claimed to see and and so it seemed

1149

00:51:07,400 --> 00:51:05,400

odd and mr. Martin had an agreement with

1150

00:51:10,430 --> 00:51:07,410

the FBI and the Park Service that any

1151
00:51:12,020 --> 00:51:10,440
leads that they had on this case that

1152
00:51:15,140 --> 00:51:12,030
they would immediately come to him and

1153
00:51:16,790 --> 00:51:15,150
tell him he never left the park he

1154
00:51:21,230 --> 00:51:16,800
stayed in the park for six weeks

1155
00:51:23,870 --> 00:51:21,240
non-stop helping looking kind of be in

1156
00:51:26,810 --> 00:51:23,880
the eyes and ears he's an architect he's

1157
00:51:28,430 --> 00:51:26,820
a very smart man and I think he did the

1158
00:51:30,819 --> 00:51:28,440
right thing by staying there and

1159
00:51:35,150 --> 00:51:30,829
monitoring the situation

1160
00:51:37,549 --> 00:51:35,160
but make a long story short that key

1161
00:51:42,019 --> 00:51:37,559
family observation wasn't told to him by

1162
00:51:44,210 --> 00:51:42,029
the FBI or the Park Service a reporter

1163
00:51:46,370 --> 00:51:44,220

happened to hear about it from another

1164

00:51:49,670 --> 00:51:46,380

source went out and interviewed the key

1165

00:51:51,529 --> 00:51:49,680

family came back and told mr. Martin

1166

00:51:54,049 --> 00:51:51,539

that hey the FBI's already interviewed

1167

00:51:56,990 --> 00:51:54,059

this family and you ought to get on this

1168

00:51:58,910 --> 00:51:57,000

this sounds like an interesting lead so

1169

00:52:01,190 --> 00:51:58,920

mr. Martin confronts him and he gets us

1170

00:52:03,980 --> 00:52:01,200

told a series of Lies he gets told it

1171

00:52:06,069 --> 00:52:03,990

the time frames couldn't work he gets

1172

00:52:13,160 --> 00:52:06,079

told that it wasn't a substantiated

1173

00:52:14,720 --> 00:52:13,170

sighting etc etc etc and he gets mad so

1174

00:52:16,250 --> 00:52:14,730

he gets a hold of McCarter niece's aged

1175

00:52:17,930 --> 00:52:16,260

white he says this they're saying that

1176
00:52:20,289 --> 00:52:17,940
the times don't match up blah blah blah

1177
00:52:23,630 --> 00:52:20,299
and McCarty says well I think they do

1178
00:52:25,509 --> 00:52:23,640
he says lets you and me just move at a

1179
00:52:27,950 --> 00:52:25,519
quick pace let's see if we could do it

1180
00:52:29,539 --> 00:52:27,960
the following day they do it and they do

1181
00:52:33,410 --> 00:52:29,549
it within a timeframe that the key

1182
00:52:35,990 --> 00:52:33,420
family saw what they saw this makes mr.

1183
00:52:39,859 --> 00:52:36,000
Martin even more mad that they're

1184
00:52:40,970 --> 00:52:39,869
outright lying to him now so he gets a

1185
00:52:42,829 --> 00:52:40,980
whole and he actually gets an

1186
00:52:47,690 --> 00:52:42,839
opportunity to talk to the key family

1187
00:52:49,789 --> 00:52:47,700
and he the irritation gets worse make a

1188
00:52:51,819 --> 00:52:49,799

long story short the Park Service

1189

00:52:55,339 --> 00:52:51,829

doesn't tell them the truth

1190

00:52:58,249 --> 00:52:55,349

they're evasive with their answers he

1191

00:53:00,769 --> 00:52:58,259

gets the feeling that he's never told

1192

00:53:02,450 --> 00:53:00,779

the truth from the beginning he told me

1193

00:53:05,089 --> 00:53:02,460

he had the feeling that somebody was

1194

00:53:07,099 --> 00:53:05,099

pulling streams strings up the upper end

1195

00:53:08,539 --> 00:53:07,109

of the National Park Service and that

1196

00:53:12,980 --> 00:53:08,549

the superintendent was merely a

1197

00:53:14,960 --> 00:53:12,990

mouthpiece I was his words hmm so if

1198

00:53:17,210 --> 00:53:14,970

this was your son can you imagine how

1199

00:53:18,069 --> 00:53:17,220

irate you'd be at this point right of

1200

00:53:22,160 --> 00:53:18,079

course

1201
00:53:24,859 --> 00:53:22,170
so after two months everything starts to

1202
00:53:26,809 --> 00:53:24,869
wind down they really did there's rumors

1203
00:53:28,339 --> 00:53:26,819
that there was a shoe print found

1204
00:53:33,950 --> 00:53:28,349
somewhere they didn't really find

1205
00:53:36,559 --> 00:53:33,960
anything worth a darn and from what I

1206
00:53:39,470 --> 00:53:36,569
read on this and after interviewing the

1207
00:53:43,190 --> 00:53:39,480
Carter McCarter's beliefs were the

1208
00:53:44,480 --> 00:53:43,200
Dennis was abducted even though there's

1209
00:53:47,270 --> 00:53:44,490
nothing anywhere

1210
00:53:48,859 --> 00:53:47,280
that says that this was a possibility he

1211
00:53:50,960 --> 00:53:48,869
was there at the time he knew the

1212
00:53:54,470 --> 00:53:50,970
distances he knew the facts and that was

1213
00:53:57,290 --> 00:53:54,480

his opinion so I said well mr. Martin

1214

00:54:00,290 --> 00:53:57,300

hasn't talked to the press since the day

1215

00:54:03,980 --> 00:54:00,300

this happened supposedly because even

1216

00:54:05,990 --> 00:54:03,990

the press lied to him so myself and

1217

00:54:07,280 --> 00:54:06,000

another investigator without a phone

1218

00:54:10,070 --> 00:54:07,290

call or anything just when I'm knocked

1219

00:54:11,840 --> 00:54:10,080

at his door and he came to the door

1220

00:54:14,000 --> 00:54:11,850

recognized them and I explained who I

1221

00:54:15,320 --> 00:54:14,010

was I said I devoted months to the case

1222

00:54:18,740 --> 00:54:15,330

I probably know more about it than

1223

00:54:20,000 --> 00:54:18,750

anyone other than your family and I'd

1224

00:54:22,580 --> 00:54:20,010

like to talk to you and he says you know

1225

00:54:26,030 --> 00:54:22,590

he says the disappearance has ruined my

1226

00:54:28,670 --> 00:54:26,040

life and my wife's life it's been a

1227

00:54:31,040 --> 00:54:28,680

compelling issue for all of us we can't

1228

00:54:32,870 --> 00:54:31,050

get over the fact we lost our son and we

1229

00:54:35,390 --> 00:54:32,880

decided years back to just put it to

1230

00:54:37,160 --> 00:54:35,400

rest and not talk about it I said hey I

1231

00:54:39,109 --> 00:54:37,170

came here from California can you give

1232

00:54:40,460 --> 00:54:39,119

me just 15 minutes of your time because

1233

00:54:44,270 --> 00:54:40,470

I have some really important questions

1234

00:54:45,859 --> 00:54:44,280

to ask you opened the door came outside

1235

00:54:48,890 --> 00:54:45,869

on the front porch she says Dave you got

1236

00:54:50,510 --> 00:54:48,900

it what do you want so he confirmed

1237

00:54:53,180 --> 00:54:50,520

everything I just said

1238

00:54:54,650 --> 00:54:53,190

but in addition whenever I'm

1239

00:54:56,030 --> 00:54:54,660

interviewing a witness on a case like

1240

00:54:59,540 --> 00:54:56,040

this I always ask them a series of

1241

00:55:01,280 --> 00:54:59,550

questions at the end that I need clarity

1242

00:55:02,840 --> 00:55:01,290

about and things maybe that I didn't

1243

00:55:05,930 --> 00:55:02,850

understand and one of the things I ask

1244

00:55:08,810 --> 00:55:05,940

is that what do I need to know about

1245

00:55:10,870 --> 00:55:08,820

this that wasn't in the press though

1246

00:55:14,650 --> 00:55:10,880

that wasn't talked about in the media

1247

00:55:17,240 --> 00:55:14,660

but has been a compelling issue to you

1248

00:55:18,950 --> 00:55:17,250

mr. Martin says well de because you know

1249

00:55:22,280 --> 00:55:18,960

that thing that they saw on the hill I

1250

00:55:24,680 --> 00:55:22,290

said yeah and he says there was never

1251
00:55:27,650 --> 00:55:24,690
anything in the paper never anything in

1252
00:55:30,349 --> 00:55:27,660
the media but that key family told

1253
00:55:36,710 --> 00:55:30,359
everyone that whatever they saw had

1254
00:55:38,780 --> 00:55:36,720
something on his shoulder hmm and he

1255
00:55:40,609 --> 00:55:38,790
says they wouldn't put that in the paper

1256
00:55:45,109 --> 00:55:40,619
they wouldn't talk about it in public

1257
00:55:47,270 --> 00:55:45,119
but they would tell me man that is such

1258
00:55:52,490 --> 00:55:47,280
a fascinating case with so many details

1259
00:55:54,260 --> 00:55:52,500
it is super sad and if I'm not mistaken

1260
00:55:56,030 --> 00:55:54,270
wasn't there isn't there another detail

1261
00:55:57,650 --> 00:55:56,040
about an FBI agent that was

1262
00:55:58,040 --> 00:55:57,660
investigating a lot of disappearing

1263
00:56:03,050 --> 00:55:58,050

people

1264

00:56:05,740 --> 00:56:03,060

in that area yeah there was and when we

1265

00:56:09,200 --> 00:56:05,750

when I started to look into this case

1266

00:56:12,230 --> 00:56:09,210

there were several others in the general

1267

00:56:13,610 --> 00:56:12,240

region that disappeared but in addition

1268

00:56:16,250 --> 00:56:13,620

to dentists there were also two other

1269

00:56:19,150 --> 00:56:16,260

people that disappeared inside that Park

1270

00:56:22,520 --> 00:56:19,160

after him under suspicious circumstances

1271

00:56:25,310 --> 00:56:22,530

and in all of these cases in the park

1272

00:56:28,220 --> 00:56:25,320

and around the park there was the same

1273

00:56:31,730 --> 00:56:28,230

FBI agent that was sent by the bureau to

1274

00:56:35,600 --> 00:56:31,740

quote-unquote monitor the case now when

1275

00:56:37,820 --> 00:56:35,610

an agent is sent to monitor a case every

1276

00:56:40,280 --> 00:56:37,830

day he writes a series of notes that

1277

00:56:43,460 --> 00:56:40,290

gets sent to Virginia to the profiling

1278

00:56:46,910 --> 00:56:43,470

center where other agents look at it and

1279

00:56:50,900 --> 00:56:46,920

they try to find matching cases in other

1280

00:56:55,460 --> 00:56:50,910

areas that are similar and similar to

1281

00:56:58,690 --> 00:56:55,470

what I'm doing on these cases and this

1282

00:57:02,450 --> 00:56:58,700

agent did this and all of the cases and

1283

00:57:04,160 --> 00:57:02,460

after a while this whatever agent is

1284

00:57:06,530 --> 00:57:04,170

writing it will get responses from

1285

00:57:08,770 --> 00:57:06,540

headquarters about you know this matches

1286

00:57:11,720 --> 00:57:08,780

this this matches that blah blah blah

1287

00:57:15,470 --> 00:57:11,730

one my conversations with mr. Martin I

1288

00:57:17,780 --> 00:57:15,480

said okay so yeah the key family saw

1289

00:57:19,850 --> 00:57:17,790

this that I said wow that's that's

1290

00:57:22,460 --> 00:57:19,860

pretty impressed me says yeah he says

1291

00:57:24,680 --> 00:57:22,470

Dave I know you also wrote about these

1292

00:57:26,840 --> 00:57:24,690

other cases in the area and he said you

1293

00:57:29,660 --> 00:57:26,850

specifically mentioned this FBI agent I

1294

00:57:33,500 --> 00:57:29,670

said yeah he says do you know that that

1295

00:57:35,570 --> 00:57:33,510

FBI agent committed suicide I I had a

1296

00:57:40,190 --> 00:57:35,580

during the headlights look at looking at

1297

00:57:42,740 --> 00:57:40,200

him he said no that's true and after we

1298

00:57:44,860 --> 00:57:42,750

left we did confirm that that agent did

1299

00:57:48,110 --> 00:57:44,870

commit suicide Wow

1300

00:57:50,330 --> 00:57:48,120

it's like this case of all cases is the

1301
00:57:52,190 --> 00:57:50,340
one that makes me think that they know

1302
00:57:55,610 --> 00:57:52,200
more about what's happening and they're

1303
00:57:57,560 --> 00:57:55,620
covering something up and the answer

1304
00:57:59,570 --> 00:57:57,570
that I've heard you give in the past for

1305
00:58:01,340 --> 00:57:59,580
why this might be is just they don't

1306
00:58:03,950 --> 00:58:01,350
want to lose Park revenue because it is

1307
00:58:05,930 --> 00:58:03,960
such a huge thing for their states and

1308
00:58:07,760 --> 00:58:05,940
everyone wants just the nice cuddly

1309
00:58:09,380 --> 00:58:07,770
image of Smokey the Bear they don't want

1310
00:58:11,380 --> 00:58:09,390
to think about anything else dangerous

1311
00:58:13,969 --> 00:58:11,390
out there

1312
00:58:16,370 --> 00:58:13,979
one of the things in the latest book

1313
00:58:19,219 --> 00:58:16,380

that I wrote about is I got pretty lucky

1314

00:58:21,019 --> 00:58:19,229

I was in a national park maybe it's a

1315

00:58:24,650 --> 00:58:21,029

year and a half two years ago now with

1316

00:58:29,359 --> 00:58:24,660

another investigator and we were

1317

00:58:31,839 --> 00:58:29,369

listening to a group of Rangers talk in

1318

00:58:34,189 --> 00:58:31,849

a small shed at this National Park I

1319

00:58:35,479 --> 00:58:34,199

just stood in the doorway and listened

1320

00:58:37,370 --> 00:58:35,489

and there are a couple of guys in plain

1321

00:58:39,650 --> 00:58:37,380

clothes that were also chiming and older

1322

00:58:42,259 --> 00:58:39,660

guys and I could tell this one guy

1323

00:58:45,109 --> 00:58:42,269

really knew a lot and he was either a

1324

00:58:46,640 --> 00:58:45,119

retired ranger or something but I

1325

00:58:48,919 --> 00:58:46,650

followed him out into the parking lot I

1326
00:58:52,759 --> 00:58:48,929
introduced myself and we ended up having

1327
00:58:54,799 --> 00:58:52,769
this lengthy lengthy conversation and he

1328
00:58:57,349 --> 00:58:54,809
was a retired special agent from the

1329
00:59:01,609 --> 00:58:57,359
National Park Service and what that is

1330
00:59:03,949 --> 00:59:01,619
is law enforcement Rangers do that first

1331
00:59:06,319 --> 00:59:03,959
contact on a victim or suspect in the

1332
00:59:08,659 --> 00:59:06,329
field and the special agents inside the

1333
00:59:10,479 --> 00:59:08,669
Park Service are the follow-up entity

1334
00:59:13,880 --> 00:59:10,489
they're like the detectives that do the

1335
00:59:15,919 --> 00:59:13,890
long-term investigative work this guy

1336
00:59:18,979 --> 00:59:15,929
was a retired Special Agent for the Park

1337
00:59:20,989 --> 00:59:18,989
Service and I explained to him the type

1338
00:59:23,899 --> 00:59:20,999

of work we've been doing and the results

1339

00:59:26,029 --> 00:59:23,909

we had and the responses and he looked

1340

00:59:27,679 --> 00:59:26,039

me in the eye after I said why would the

1341

00:59:30,589 --> 00:59:27,689

National Park Service take this position

1342

00:59:36,309 --> 00:59:30,599

and the quote him directly said Dave

1343

00:59:40,159 --> 00:59:36,319

it's a complete lack of integrity and

1344

00:59:43,819 --> 00:59:40,169

when a family is at its lowest possible

1345

00:59:45,319 --> 00:59:43,829

point and they look to law enforcement

1346

00:59:48,259 --> 00:59:45,329

and they look to the government for

1347

00:59:50,779 --> 00:59:48,269

support and they get wise and

1348

00:59:53,989 --> 00:59:50,789

invasiveness can you imagine what that

1349

00:59:56,239 --> 00:59:53,999

would do to your as a person at that

1350

00:59:57,739 --> 00:59:56,249

lowest point in your life right I mean

1351

01:00:00,439 --> 00:59:57,749

we deal with a lot of issues on this

1352

01:00:02,569 --> 01:00:00,449

show that involve distrusting government

1353

01:00:05,719 --> 01:00:02,579

agencies but man to think that you would

1354

01:00:07,279 --> 01:00:05,729

have trusted the you know the government

1355

01:00:09,169 --> 01:00:07,289

the whole time and then when you really

1356

01:00:11,239 --> 01:00:09,179

need them you really need them you never

1357

01:00:12,829 --> 01:00:11,249

thought you would and there's just you

1358

01:00:14,599 --> 01:00:12,839

face these kind of roadblocks just to

1359

01:00:19,249 --> 01:00:14,609

get information about your own relatives

1360

01:00:21,420 --> 01:00:19,259

it's very sad it uh it's completely

1361

01:00:23,940 --> 01:00:21,430

debilitating I mean I

1362

01:00:25,800 --> 01:00:23,950

I talked to mr. Martin about it and I

1363

01:00:28,830 --> 01:00:25,810

don't know how he didn't go completely

1364

01:00:32,280 --> 01:00:28,840

crazy on the Park Service for what they

1365

01:00:33,960 --> 01:00:32,290

did to him and he told me he said Dave

1366

01:00:36,090 --> 01:00:33,970

this is the reason why I don't trust the

1367

01:00:38,070 --> 01:00:36,100

press and I don't trust the government

1368

01:00:40,110 --> 01:00:38,080

he said they lied to me they were

1369

01:00:43,200 --> 01:00:40,120

evasive he said the only guy that was

1370

01:00:45,570 --> 01:00:43,210

even slight egos was honest to me it was

1371

01:00:48,240 --> 01:00:45,580

bright McCarter he said he tried to help

1372

01:00:50,250 --> 01:00:48,250

me understand but even he couldn't

1373

01:00:51,810 --> 01:00:50,260

understand why they didn't think at the

1374

01:00:55,410 --> 01:00:51,820

beginning that this was an introduction

1375

01:00:57,630 --> 01:00:55,420

and handle it appropriately and on a

1376

01:01:00,540 --> 01:00:57,640

subject of that thing that the key

1377

01:01:02,370 --> 01:01:00,550

family saw I mean any speculation on

1378

01:01:04,140 --> 01:01:02,380

what that was I mean did it seem like a

1379

01:01:06,960 --> 01:01:04,150

person or I mean she described it as a

1380

01:01:09,270 --> 01:01:06,970

bear of course everyone knows that the

1381

01:01:12,390 --> 01:01:09,280

most famous cryptid is sasquatch I mean

1382

01:01:13,680 --> 01:01:12,400

it just seems very weird but that's the

1383

01:01:18,240 --> 01:01:13,690

only thing that it kind of seems to

1384

01:01:21,090 --> 01:01:18,250

allude to some McCarter I asked him

1385

01:01:23,070 --> 01:01:21,100

about that and he said well he goes a

1386

01:01:26,580 --> 01:01:23,080

few years before Dennis disappeared

1387

01:01:29,120 --> 01:01:26,590

there was a this was a time when the

1388

01:01:32,070 --> 01:01:29,130

Rangers were not armed in national parks

1389

01:01:34,200 --> 01:01:32,080

and he said a ranger was working alone

1390

01:01:35,940 --> 01:01:34,210

in a back area of Great Smoky Mountain

1391

01:01:38,990 --> 01:01:35,950

National Park and he was attacked

1392

01:01:42,270 --> 01:01:39,000

by what McCarter described as a Wildman

1393

01:01:45,900 --> 01:01:42,280

meaning a guy living off the grid like

1394

01:01:50,160 --> 01:01:45,910

you and me that lived off animals that

1395

01:01:54,720 --> 01:01:50,170

wore furs and didn't didn't have any

1396

01:01:56,580 --> 01:01:54,730

ethics and he said that this this wild

1397

01:01:59,250 --> 01:01:56,590

person attacked the Ranger and almost

1398

01:02:01,020 --> 01:01:59,260

killed him and he said you know because

1399

01:02:03,180 --> 01:02:01,030

the only thing I could think of is that

1400

01:02:05,970 --> 01:02:03,190

this family saw one of these wild men

1401

01:02:06,870 --> 01:02:05,980

that lives in the parks that the Park

1402

01:02:11,250 --> 01:02:06,880

Service doesn't want to acknowledge

1403

01:02:13,980 --> 01:02:11,260

lives there and maybe took Dennis but he

1404

01:02:15,600 --> 01:02:13,990

says it be conjecture at this point but

1405

01:02:19,290 --> 01:02:15,610

because I don't know what else to think

1406

01:02:22,080 --> 01:02:19,300

of it yeah that's so interesting and

1407

01:02:24,270 --> 01:02:22,090

weird and on another radio show I heard

1408

01:02:26,070 --> 01:02:24,280

you talking about this case and you had

1409

01:02:27,540 --> 01:02:26,080

alluded to or you just you just kind of

1410

01:02:29,610 --> 01:02:27,550

mentioned in passing that there was a

1411

01:02:31,830 --> 01:02:29,620

remote viewer report that was fairly

1412

01:02:33,660 --> 01:02:31,840

interesting and I was pretty intrigued

1413

01:02:34,650 --> 01:02:33,670

by that do you have any details on what

1414

01:02:38,070 --> 01:02:34,660

that remote view

1415

01:02:39,780 --> 01:02:38,080

I saw actually wasn't a remote viewer it

1416

01:02:43,640 --> 01:02:39,790

was a psychic gotcha

1417

01:02:45,720 --> 01:02:43,650

he had written in the Park Service and

1418

01:02:49,800 --> 01:02:45,730

supplied a report that was in this

1419

01:02:52,950 --> 01:02:49,810

massive amount of documents and this guy

1420

01:02:56,490 --> 01:02:52,960

had some apparent notoriety for the time

1421

01:02:58,890 --> 01:02:56,500

and said that his mind had a difficult

1422

01:03:03,270 --> 01:02:58,900

time going to where it was going because

1423

01:03:06,630 --> 01:03:03,280

it was such a dark place Wow and he

1424

01:03:11,010 --> 01:03:06,640

thought it was a there was a creek

1425

01:03:13,620 --> 01:03:11,020

nearby that possibly was a cave but that

1426

01:03:16,110 --> 01:03:13,630

what was happening to Dennis was beyond

1427

01:03:19,260 --> 01:03:16,120

the realm of his comprehension it was

1428

01:03:24,420 --> 01:03:19,270

along those kind of lines very bad very

1429

01:03:26,430 --> 01:03:24,430

dark kind of almost a horrific scenario

1430

01:03:31,980 --> 01:03:26,440

he didn't go into much more detail than

1431

01:03:34,740 --> 01:03:31,990

that and I think it's interesting

1432

01:03:36,660 --> 01:03:34,750

because we have a couple of guys that

1433

01:03:38,040 --> 01:03:36,670

live in that area that know that Park

1434

01:03:40,140 --> 01:03:38,050

like the back of their hand and I can

1435

01:03:43,800 --> 01:03:40,150

tell you that we have done extensive

1436

01:03:47,070 --> 01:03:43,810

research and we can't find an area where

1437

01:03:48,570 --> 01:03:47,080

there's a cave access and a creek

1438

01:03:53,780 --> 01:03:48,580

running through it because we've made

1439

01:03:56,730 --> 01:03:53,790

some big efforts to find it hmm man and

1440

01:03:58,650 --> 01:03:56,740

you know I talk about a lot of

1441

01:04:01,260 --> 01:03:58,660

paranormal concepts on the show they

1442

01:04:04,430 --> 01:04:01,270

come up all the time and sometimes I

1443

01:04:06,510 --> 01:04:04,440

wonder if there aren't some strange

1444

01:04:08,790 --> 01:04:06,520

electromagnetic effects on the planet

1445

01:04:11,070 --> 01:04:08,800

that we don't understand similar to how

1446

01:04:12,840 --> 01:04:11,080

planes fly into the Bermuda Triangle and

1447

01:04:16,230 --> 01:04:12,850

are covered in this electric fog and are

1448

01:04:18,390 --> 01:04:16,240

suddenly just disappeared and uh it's it

1449

01:04:19,980 --> 01:04:18,400

seems like some of these people just do

1450

01:04:22,170 --> 01:04:19,990

disappear from the scene as if they

1451

01:04:25,350 --> 01:04:22,180

walked through some type of portal or

1452

01:04:27,900 --> 01:04:25,360

gateway as weird as that sounds I've

1453

01:04:30,390 --> 01:04:27,910

heard that theory before from try

1454

01:04:34,440 --> 01:04:30,400

hundreds of people the issue I have with

1455

01:04:37,170 --> 01:04:34,450

it is that it is a very very underlined

1456

01:04:40,260 --> 01:04:37,180

very rare event when more than one

1457

01:04:43,200 --> 01:04:40,270

person disappears like this and you'd

1458

01:04:47,420 --> 01:04:43,210

think if that was the scenario we'd be

1459

01:04:48,859 --> 01:04:47,430

losing more than one person at a time or

1460

01:04:53,079 --> 01:04:48,869

there would be witnesses to that other

1461

01:04:56,540 --> 01:04:53,089

person disappearing right that is true

1462

01:04:59,120 --> 01:04:56,550

yeah well I mean another thought I had

1463

01:05:01,430 --> 01:04:59,130

is we cover a ton of conspiracies you

1464

01:05:03,770 --> 01:05:01,440

know alien abductions Bigfoot and other

1465

01:05:05,809 --> 01:05:03,780

cryptids child pedophilia rings of the

1466

01:05:07,240 --> 01:05:05,819

Vatican and political elite all sorts of

1467

01:05:09,859 --> 01:05:07,250

conspiracies and mysteries that

1468

01:05:11,809 --> 01:05:09,869

insinuate missing people but a lot of

1469

01:05:13,250 --> 01:05:11,819

times they don't have names or anyone

1470

01:05:16,130 --> 01:05:13,260

who's actually gone missing for these

1471

01:05:18,319 --> 01:05:16,140

things I wonder if some of these events

1472

01:05:20,420 --> 01:05:18,329

aren't connected with these types of

1473

01:05:23,120 --> 01:05:20,430

crimes and these types of things that

1474

01:05:25,549 --> 01:05:23,130

people talk about happening so I can

1475

01:05:28,190 --> 01:05:25,559

only look at it from a common sense in a

1476

01:05:31,790 --> 01:05:28,200

factual viewpoint and that is is that

1477

01:05:33,620 --> 01:05:31,800

many of these have occurred pretty deep

1478

01:05:37,700 --> 01:05:33,630

in the wilderness where there's not a

1479

01:05:42,589 --> 01:05:37,710

lot going on and the idea that there's a

1480

01:05:46,720 --> 01:05:42,599

human abduction process taking place I

1481

01:05:50,720 --> 01:05:46,730

know a lot of friends that are

1482

01:05:52,760 --> 01:05:50,730

backpackers that carry guns and if

1483

01:05:54,049 --> 01:05:52,770

somebody's going to try it you know

1484

01:05:57,770 --> 01:05:54,059

there's going to be there's going to be

1485

01:05:59,359 --> 01:05:57,780

some shooting going on and you never

1486

01:06:02,359 --> 01:05:59,369

hear about that and what I've explained

1487

01:06:06,370 --> 01:06:02,369

on other shows is whatever is happening

1488

01:06:10,150 --> 01:06:06,380

here is a hundred percent effective

1489

01:06:14,210 --> 01:06:10,160

because if they weren't we would hear

1490

01:06:16,480 --> 01:06:14,220

about a mistake or we would hear about

1491

01:06:19,370 --> 01:06:16,490

an attempt and we don't hear about that

1492

01:06:21,410 --> 01:06:19,380

right yeah it's a serious shame I mean

1493

01:06:23,270 --> 01:06:21,420

this should be one of the most important

1494

01:06:24,950 --> 01:06:23,280

things it involves people dying and we

1495

01:06:26,390 --> 01:06:24,960

don't know why isn't that national

1496

01:06:28,490 --> 01:06:26,400

security you know everyone's worried

1497

01:06:30,260 --> 01:06:28,500

about terrorism globally well here's

1498

01:06:32,150 --> 01:06:30,270

people going missing right in our own

1499

01:06:34,010 --> 01:06:32,160

backyard and we don't know what's going

1500

01:06:35,270 --> 01:06:34,020

on and we don't know who to blame and

1501

01:06:37,450 --> 01:06:35,280

that you would think that they dedicate

1502

01:06:40,339 --> 01:06:37,460

a little bit of resources to that

1503

01:06:43,549 --> 01:06:40,349

well you'd hope but I don't think it's

1504

01:06:45,049 --> 01:06:43,559

going to happen right right well David

1505

01:06:46,339 --> 01:06:45,059

this has been awesome it's about that

1506

01:06:48,500 --> 01:06:46,349

time we called in it's been a

1507

01:06:50,270 --> 01:06:48,510

fascinating show thanks so much for

1508

01:06:52,069 --> 01:06:50,280

being here I mean several listeners have

1509

01:06:54,500 --> 01:06:52,079

requested that you come on and you're

1510

01:06:56,900 --> 01:06:54,510

the only one doing this so I am very

1511

01:06:58,010 --> 01:06:56,910

appreciative but before we go would you

1512

01:06:59,450 --> 01:06:58,020

like to tell the people a little bit

1513

01:07:00,549 --> 01:06:59,460

about your website where to get the

1514

01:07:01,929 --> 01:07:00,559

books and maybe

1515

01:07:05,109 --> 01:07:01,939

what your plans are for the future with

1516

01:07:09,759 --> 01:07:05,119

this stuff so you can go to our website

1517

01:07:12,189 --> 01:07:09,769

it's can M missing comm and all four

1518

01:07:14,199 --> 01:07:12,199

books missing for one one as the title

1519

01:07:16,660 --> 01:07:14,209

of all our books are available on this

1520

01:07:19,209 --> 01:07:16,670

site you can also read about cases that

1521

01:07:21,579 --> 01:07:19,219

are occurring as we speak under current

1522

01:07:23,620 --> 01:07:21,589

events section at the site we try to

1523

01:07:27,729 --> 01:07:23,630

keep it updated with things that are

1524

01:07:29,410 --> 01:07:27,739

relevant and fit the profile I don't

1525

01:07:31,539 --> 01:07:29,420

know if there'll be another book anytime

1526

01:07:33,249 --> 01:07:31,549

in the near future but we are looking

1527

01:07:35,529 --> 01:07:33,259

into some other venues to get this

1528

01:07:37,809 --> 01:07:35,539

message out we are going to continue the

1529

01:07:39,969 --> 01:07:37,819

work and the only way the work continues

1530

01:07:43,269 --> 01:07:39,979

is through the support of people out

1531

01:07:44,650 --> 01:07:43,279

there in buying the books so it's people

1532

01:07:47,140 --> 01:07:44,660

like you Gregg that helped us get the

1533

01:07:49,749 --> 01:07:47,150

word out and have read the work and

1534

01:07:51,759 --> 01:07:49,759

understand that this is a credible issue

1535

01:07:54,099 --> 01:07:51,769

that needs some attention so I

1536

01:07:56,140 --> 01:07:54,109

appreciate that oh absolutely man thank

1537

01:07:57,999 --> 01:07:56,150

you for that and I would recommend him

1538

01:07:59,920 --> 01:07:58,009

to anyone I read the third one and I've

1539

01:08:01,689 --> 01:07:59,930

heard many cases from the first two and

1540

01:08:03,759 --> 01:08:01,699

just hearing now that you've got a

1541

01:08:06,789 --> 01:08:03,769

fourth one I'm super excited to dig into

1542

01:08:08,769 --> 01:08:06,799

that it's it's super interesting stuff

1543

01:08:11,380 --> 01:08:08,779

and far different from a lot of the

1544

01:08:13,650 --> 01:08:11,390

things that are similar in this realm of

1545

01:08:15,759 --> 01:08:13,660

fringe topics that I get into so I

1546

01:08:17,410 --> 01:08:15,769

appreciate it and the families I'm sure

1547

01:08:19,809 --> 01:08:17,420

appreciate what you're doing too but

1548

01:08:21,160 --> 01:08:19,819

thanks again you know keep doing it be

1549

01:08:22,899 --> 01:08:21,170

careful out there man you're digging up

1550

01:08:25,599 --> 01:08:22,909

a lot of stuff that some powerful people

1551

01:08:28,390 --> 01:08:25,609

seem to want to stay hidden so make sure

1552

01:08:30,459 --> 01:08:28,400

you take care of yourself I appreciate

1553

01:08:33,399 --> 01:08:30,469

it Greg and I'll try alright man have a

1554

01:08:36,669 --> 01:08:33,409

good one thank you sir you got it there

1555

01:08:39,519 --> 01:08:36,679

we have it people man I love love love

1556

01:08:41,530 --> 01:08:39,529

this show dave is so good at giving the

1557

01:08:43,660 --> 01:08:41,540

details of these cases and it's really

1558

01:08:46,390 --> 01:08:43,670

an unsolved mystery and something fresh

1559

01:08:48,609 --> 01:08:46,400

for conspiracy fans although that sounds

1560

01:08:50,979 --> 01:08:48,619

have been morbid and it was a lot more

1561

01:08:52,930 --> 01:08:50,989

work than normal to comb through and

1562

01:08:54,640 --> 01:08:52,940

pull out specific cases that had enough

1563

01:08:56,680 --> 01:08:54,650

links to present them as not just

1564

01:08:58,749 --> 01:08:56,690

isolated incidents so in the first hour

1565

01:09:01,209 --> 01:08:58,759

the commonality I latched on to was

1566

01:09:04,689 --> 01:09:01,219

young kids disappearing and being found

1567

01:09:06,700 --> 01:09:04,699

many miles away and Jesus how creepy is

1568

01:09:08,919 --> 01:09:06,710

that and then for the second hour the

1569

01:09:11,140 --> 01:09:08,929

main commonality I tried to focus on was

1570

01:09:13,420 --> 01:09:11,150

people who survived that mentioned

1571

01:09:17,140 --> 01:09:13,430

strange things about their mists

1572

01:09:19,750 --> 01:09:17,150

time meeting dog men and robots and

1573

01:09:22,270 --> 01:09:19,760

grandmas clone or hiding from the people

1574

01:09:23,800 --> 01:09:22,280

really weird and if you only heard the

1575

01:09:26,320 --> 01:09:23,810

first half and you liked it please

1576

01:09:28,930 --> 01:09:26,330

consider supporting me and the show with

1577

01:09:31,270 --> 01:09:28,940

just \$5 a month and I'll support you

1578

01:09:33,340 --> 01:09:31,280

with a longer episode I could really use

1579

01:09:35,080 --> 01:09:33,350

some more signups it is a pretty crucial

1580

01:09:36,640 --> 01:09:35,090

point but thanks to everyone who has I

1581

01:09:38,950 --> 01:09:36,650

mean we're only on the second show of

1582

01:09:40,750 --> 01:09:38,960

Plus so to support it this early really

1583

01:09:42,070 --> 01:09:40,760

does mean a lot and there were some

1584

01:09:44,020 --> 01:09:42,080

other cool things that came out of the

1585

01:09:46,660 --> 01:09:44,030

second hour today too like the Bermuda

1586

01:09:49,150 --> 01:09:46,670

Triangle connection and David's

1587

01:09:52,690 --> 01:09:49,160

breakdown of the percentage of found

1588

01:09:54,190 --> 01:09:52,700

alive versus dead or never found and you

1589

01:09:56,110 --> 01:09:54,200

know I'm really stuck in a bit of a

1590

01:09:57,610 --> 01:09:56,120

rough place because I want to just give

1591

01:09:59,980 --> 01:09:57,620

the show to everyone but I also need to

1592

01:10:02,800 --> 01:09:59,990

bring in money and the response has been

1593

01:10:04,510 --> 01:10:02,810

super understanding and positive but a

1594

01:10:07,690 --> 01:10:04,520

few folks have told me they'll never

1595

01:10:09,580 --> 01:10:07,700

listen again or I've sold out which is

1596

01:10:12,610 --> 01:10:09,590

kind of unfair because I think I've done

1597

01:10:14,860 --> 01:10:12,620

a lot of free work and it is my passion

1598

01:10:18,610 --> 01:10:14,870

I don't really mind but when it is

1599

01:10:21,130 --> 01:10:18,620

getting in the way of life's necessities

1600

01:10:23,050 --> 01:10:21,140

I got to do something and we're still

1601

01:10:25,060 --> 01:10:23,060

doing the money bomb on the last show of

1602

01:10:27,130 --> 01:10:25,070

every month you know five shows a month

1603

01:10:29,260 --> 01:10:27,140

the last one will be a money bomb winner

1604

01:10:32,140 --> 01:10:29,270

so for people to just be like give me

1605

01:10:35,560 --> 01:10:32,150

free [h__h] forever or [h__h] off that

1606

01:10:38,440 --> 01:10:35,570

really sours my hope for Humanity on a

1607

01:10:40,540 --> 01:10:38,450

grand scale yet some other people are

1608

01:10:42,610 --> 01:10:40,550

pissed that the first hour is now just a

1609

01:10:44,380 --> 01:10:42,620

commercial for the second hour I don't

1610

01:10:46,810 --> 01:10:44,390

want it to be like that either I think

1611

01:10:48,580 --> 01:10:46,820

these first hours can be appreciated on

1612

01:10:50,290 --> 01:10:48,590

their own but I have to inform the

1613

01:10:52,420 --> 01:10:50,300

people about what's in the second hour I

1614

01:10:55,270 --> 01:10:52,430

have to remind listeners the second hour

1615

01:10:57,070 --> 01:10:55,280

exists and I'm trying to survive on it

1616

01:10:59,350 --> 01:10:57,080

and it's available but we're in

1617

01:11:01,810 --> 01:10:59,360

transition and I'm kind of smoothing out

1618

01:11:04,030 --> 01:11:01,820

the edges as we go but the core of the

1619

01:11:07,000 --> 01:11:04,040

show which is great interviews has and

1620

01:11:08,620 --> 01:11:07,010

will always remain intact as long as

1621

01:11:10,860 --> 01:11:08,630

there is weirdness and corruption in the

1622

01:11:14,170 --> 01:11:10,870

world and people who support my

1623

01:11:16,600 --> 01:11:14,180

adventure in investigating it and if you

1624

01:11:18,720 --> 01:11:16,610

really I almost regret saying this but

1625

01:11:22,180 --> 01:11:18,730

if you really don't think you can afford

1626

01:11:24,760 --> 01:11:22,190

\$5 a month email me and maybe we can

1627

01:11:27,220 --> 01:11:24,770

talk also keep sending your music in

1628

01:11:30,010 --> 01:11:27,230

people I've got great plans too

1629

01:11:32,470 --> 01:11:30,020

create the podcast music archive that

1630

01:11:35,050 --> 01:11:32,480

helps both the artists and the

1631

01:11:36,850 --> 01:11:35,060

independent podcasters out there and I

1632

01:11:38,830 --> 01:11:36,860

think it's going to be a great fusion so

1633

01:11:41,590 --> 01:11:38,840

keep sending me that stuff so I can

1634

01:11:43,360 --> 01:11:41,600

build it up go to other podcasters ask

1635

01:11:45,340 --> 01:11:43,370

them to do the same for their audience

1636

01:11:49,150 --> 01:11:45,350

create a big archive that all these

1637

01:11:51,850 --> 01:11:49,160

producers have access to and then

1638

01:11:56,229 --> 01:11:51,860

independent musicians can start here and

1639

01:11:58,240 --> 01:11:56,239

their tracks all over the goddamn net it

1640

01:12:00,340 --> 01:11:58,250

could be really cool but that's it for

1641

01:12:02,650 --> 01:12:00,350

me this week I've done my part

1642

01:12:05,590 --> 01:12:02,660

your move wild men of the deep dark

1643

01:12:12,490 --> 01:12:05,600

redwoods and beyond your [h__h] move

1644

01:12:20,870 --> 01:12:16,820

you need to know from corruption to you

1645

01:12:26,459 --> 01:12:20,880

have for sure to grab your weed and

1646

01:12:26,469 --> 01:12:31,840

hi
