Hard truths. Soft cotton.**

1
00:00:38,060 --> 00:00:35,780
hallelujah higher side shatters how the

2
00:00:39,650 --> 00:00:38,070
hell are you drink a little drink smokin

3
00:00:41,660 --> 00:00:39,660
a little smoke and getting ready for

4
00:00:44,060 --> 00:00:41,670
another weird ride from sunny San Diego

5
00:00:45,530 --> 00:00:44,070
I'm Greg Karl wood and as we all know

6
00:00:47,450 --> 00:00:45,540
there are many questions left unanswered

7
00:00:49,190 --> 00:00:47,460
when it comes to human history and that

8
00:00:50,870 --> 00:00:49,200
of our solar system and whether the

9
00:00:52,640 --> 00:00:50,880
shadowy elite of today know much more

10
00:00:54,710 --> 00:00:52,650
than we do is debatable but either way I

11
00:00:56,330 --> 00:00:54,720
doubt they're Charon so we're on our own

12
00:00:57,950 --> 00:00:56,340
to piece this thing together and on that

13
00:00:59,810 --> 00:00:57,960

journey it's always a good idea to use

14

00:01:01,310 --> 00:00:59,820

as many tools as we can to see if we

15

00:01:03,440 --> 00:01:01,320

can't get some answers of some of these

16

00:01:04,999 --> 00:01:03,450

huge mysteries and today we're going to

17

00:01:07,700 --> 00:01:05,009

examine what can be gleamed from the

18

00:01:09,410 --> 00:01:07,710

deepest and most exotic application of

19

00:01:11,450 --> 00:01:09,420

remote viewing with my guest Courtney

20

00:01:13,910 --> 00:01:11,460

Brown Courtney is the director of the

21

00:01:15,410 --> 00:01:13,920

Farsight Institute a nonprofit made up

22

00:01:17,330 --> 00:01:15,420

of highly skilled remote viewers

23

00:01:18,889 --> 00:01:17,340

applying their skills to such mysteries

24

00:01:21,289 --> 00:01:18,899

as the destruction of Atlantis the

25

00:01:23,300 --> 00:01:21,299

Cydonia region of Mars the Pyramids of

26

00:01:25,459 --> 00:01:23,310

Giza major events in the solar system

27

00:01:27,649 --> 00:01:25,469

multiple universes the truth about the

28

00:01:29,719 --> 00:01:27,659

events of 9/11 and most recently the

29

00:01:31,999 --> 00:01:29,729

true nature of a large anomalous

30

00:01:33,800 --> 00:01:32,009

structure on one of Saturn's moons I

31

00:01:35,449 --> 00:01:33,810

love what they're doing at the farside

32

00:01:38,719 --> 00:01:35,459

Institute so let's take this ride

33

00:01:40,129 --> 00:01:38,729

Courtney my man welcome to THC Greg it's

34

00:01:42,679 --> 00:01:40,139

great to be here thanks for inviting me

35

00:01:44,239 --> 00:01:42,689

yeah this is very cool I only recently

36

00:01:45,949 --> 00:01:44,249

found out about you guys from a few

37

00:01:47,809 --> 00:01:45,959

listener requests but I think this is

38

00:01:50,569 --> 00:01:47,819

such a great idea and a genius

39

00:01:52,010 --> 00:01:50,579

application of remote viewing of course

40

00:01:53,599 --> 00:01:52,020

we know the military's been heavily

41

00:01:55,459 --> 00:01:53,609

involved in remote viewing I've even

42

00:01:57,349 --> 00:01:55,469

heard some pretty credible stories of

43

00:01:59,480 --> 00:01:57,359

crimes being solved with remote viewing

44

00:02:01,249 --> 00:01:59,490

data but I'm sure there's still some

45

00:02:02,899 --> 00:02:01,259

skeptics out there and since everything

46

00:02:04,609 --> 00:02:02,909

we're talking about today hinges on the

47

00:02:06,499 --> 00:02:04,619

validity of remote viewing I think we

48

00:02:09,169 --> 00:02:06,509

got to start there what would you say to

49

00:02:10,790 --> 00:02:09,179

people who might be skeptical or unsure

50

00:02:15,200 --> 00:02:10,800

if they can trust this type of data to

51
00:02:17,390 --> 00:02:15,210
begin with well first of all I I used to

52
00:02:18,830 --> 00:02:17,400
live in Missouri the show-me-state

53
00:02:21,610 --> 00:02:18,840
me too

54
00:02:25,220 --> 00:02:21,620
so it's perfectly okay to be skeptical

55
00:02:29,120 --> 00:02:25,230
the the big thing about being a skeptic

56
00:02:31,070 --> 00:02:29,130
is that you're open-minded now most

57
00:02:32,750 --> 00:02:31,080
people who call themselves skeptics are

58
00:02:35,479 --> 00:02:32,760
not open-minded for example there's a

59
00:02:37,309 --> 00:02:35,489
group called psych ops a committee for

60
00:02:39,410 --> 00:02:37,319
the scientific investigation of claims

61
00:02:41,360 --> 00:02:39,420
of the paranormal and in my personal

62
00:02:43,580 --> 00:02:41,370
opinion they call themselves skeptic

63
00:02:46,309 --> 00:02:43,590

they have a skeptic magazine and so on

64

00:02:48,740 --> 00:02:46,319

but on my personal opinion there is

65

00:02:50,900 --> 00:02:48,750

dogmatic as the Catholic Church mm-hmm

66

00:02:52,640 --> 00:02:50,910

and I'm not criticizing the Catholic

67

00:02:54,440 --> 00:02:52,650

Church I mean I used to be the Cantor

68

00:02:57,110 --> 00:02:54,450

and the Basilica for years down here in

69

00:02:59,030 --> 00:02:57,120

Atlanta but the issue is I mean they

70

00:03:01,280 --> 00:02:59,040

they are firm believers they're just

71

00:03:03,370 --> 00:03:01,290

firm believers in the opposite side of

72

00:03:06,080 --> 00:03:03,380

people who think that there is

73

00:03:08,570 --> 00:03:06,090

paranormal or religious beliefs or

74

00:03:10,729 --> 00:03:08,580

whatever so they're they're you know

75

00:03:12,680 --> 00:03:10,739

they're they're firm believers to these

76

00:03:14,600 --> 00:03:12,690

so-called skeptics well but that's not

77

00:03:16,729 --> 00:03:14,610

that's not the real definition of a

78

00:03:17,900 --> 00:03:16,739

skeptic the real definition of a skeptic

79

00:03:21,890 --> 00:03:17,910

is someone who does doesn't take

80

00:03:24,470 --> 00:03:21,900

anything at blind faith and likes to see

81

00:03:26,030 --> 00:03:24,480

the data and actually evaluate it now

82

00:03:30,080 --> 00:03:26,040

people who generally call themselves

83

00:03:33,289 --> 00:03:30,090

skeptics are and Mike in my view they

84

00:03:35,840 --> 00:03:33,299

generally are really better classified

85

00:03:37,930 --> 00:03:35,850

as professional debunkers meaning they

86

00:03:40,309 --> 00:03:37,940

have an agenda just the same as a

87

00:03:43,130 --> 00:03:40,319

fanatical religious person has an agenda

88

00:03:45,860 --> 00:03:43,140

they have an agenda to convert as many

89

00:03:48,830 --> 00:03:45,870

people and get as many people sold on

90

00:03:50,479 --> 00:03:48,840

their bag of stuff well you know a lot

91

00:03:52,400 --> 00:03:50,489

of people who are so-called skeptics

92

00:03:53,809 --> 00:03:52,410

they have an agenda so they're not

93

00:03:56,030 --> 00:03:53,819

they're you know they're misusing the

94

00:03:58,129 --> 00:03:56,040

term but the proper use of the skeptic

95

00:03:59,840 --> 00:03:58,139

of the word skeptic is the way I like to

96

00:04:01,819 --> 00:03:59,850

use it which is its proper definition

97

00:04:03,590 --> 00:04:01,829

which is an open mind and don't take

98

00:04:05,900 --> 00:04:03,600

anything apply in faith and ask to see

99

00:04:08,240 --> 00:04:05,910

how what was done how the remote viewing

100

00:04:11,240 --> 00:04:08,250

was done how the how the date of

101
00:04:13,550 --> 00:04:11,250
anything are actually collected so what

102
00:04:17,900 --> 00:04:13,560
we do at the Farsight Institute is we

103
00:04:20,620 --> 00:04:17,910
keep all of our projects open meaning we

104
00:04:23,000 --> 00:04:20,630
do a lot of projects that are totally

105
00:04:24,980 --> 00:04:23,010
public all of our projects are public

106
00:04:27,320 --> 00:04:24,990
but we have a lot of projects that are

107
00:04:29,540 --> 00:04:27,330
public from the very beginning are some

108
00:04:31,760 --> 00:04:29,550
of our science projects I actually have

109
00:04:34,159 --> 00:04:31,770
public verification of the data

110
00:04:36,140 --> 00:04:34,169
action process for example and our

111
00:04:38,390 --> 00:04:36,150
so-called multiple universes project

112
00:04:40,279 --> 00:04:38,400
which was an explicit test on the

113
00:04:42,830 --> 00:04:40,289

existence of multiple or parallel

114

00:04:44,360 --> 00:04:42,840

timelines multiple universes sort of

115

00:04:48,409 --> 00:04:44,370

Star Trek type of thing

116

00:04:53,899 --> 00:04:48,419

well we designed an experiment in which

117

00:04:57,230 --> 00:04:53,909

the remote viewing was done first it was

118

00:05:00,080 --> 00:04:57,240

way beyond double blind because the

119

00:05:01,939 --> 00:05:00,090

targets did not even exist at the time

120

00:05:04,279 --> 00:05:01,949

that their sessions were being done

121

00:05:06,080 --> 00:05:04,289

meaning the sessions were done and that

122

00:05:07,610 --> 00:05:06,090

all of the sessions were encrypted there

123

00:05:09,589 --> 00:05:07,620

were paper and pen sessions in those

124

00:05:12,140 --> 00:05:09,599

days they were encrypted and they were

125

00:05:15,200 --> 00:05:12,150

put on the website for the Farsight

126
00:05:18,620 --> 00:05:15,210
Institute and allowed to be downloaded

127
00:05:22,999 --> 00:05:18,630
by literally tens of thousands of people

128
00:05:25,580 --> 00:05:23,009
around the world and then two months

129
00:05:29,149 --> 00:05:25,590
later someone a designated person would

130
00:05:31,129 --> 00:05:29,159
be would pick a target and that person

131
00:05:33,409 --> 00:05:31,139
would pick a target and that would be

132
00:05:35,469 --> 00:05:33,419
some event or place that the remote

133
00:05:38,209 --> 00:05:35,479
viewers were supposed to describe and

134
00:05:40,159 --> 00:05:38,219
that target was supposed to have

135
00:05:43,459 --> 00:05:40,169
occurred that event was supposed to have

136
00:05:47,629 --> 00:05:43,469
occurred after the remote viewers did

137
00:05:49,939 --> 00:05:47,639
their sessions but before the remote

138
00:05:51,529 --> 00:05:49,949

would be the the person who was picking

139

00:05:55,010 --> 00:05:51,539

the target that's person called the

140

00:05:58,040 --> 00:05:55,020

Tasker actually did it so if we had the

141

00:05:59,540 --> 00:05:58,050

sessions done in January some event

142

00:06:01,610 --> 00:05:59,550

would happen in February it could be

143

00:06:03,230 --> 00:06:01,620

anything in the world as long as there

144

00:06:05,450 --> 00:06:03,240

was public verification of it like a

145

00:06:07,760 --> 00:06:05,460

major news story or something and then

146

00:06:09,230 --> 00:06:07,770

in March the Tasker would look over

147

00:06:12,589 --> 00:06:09,240

everything that happened in the world

148

00:06:14,330 --> 00:06:12,599

and just pick one and then that we would

149

00:06:17,029 --> 00:06:14,340

take that and we'd post it on our

150

00:06:18,589 --> 00:06:17,039

website post the password to decrypt the

151
00:06:20,540 --> 00:06:18,599
sessions that people could see that the

152
00:06:23,209 --> 00:06:20,550
sessions that were done in January were

153
00:06:26,899 --> 00:06:23,219
a perfect not like vague foggy fuzzy but

154
00:06:29,209 --> 00:06:26,909
a perfect match for the actual target

155
00:06:30,890 --> 00:06:29,219
that happened in the future of when the

156
00:06:32,330 --> 00:06:30,900
remote viewing was done and so we

157
00:06:33,980 --> 00:06:32,340
actually had to have public

158
00:06:36,409 --> 00:06:33,990
participation and the data verification

159
00:06:37,969 --> 00:06:36,419
process with that experiment now that

160
00:06:40,579 --> 00:06:37,979
experiment was published in a leading

161
00:06:43,070 --> 00:06:40,589
journal and a peer-reviewed journal and

162
00:06:45,410 --> 00:06:43,080
it's available on our website and our

163
00:06:49,840 --> 00:06:45,420

website is

164

00:06:54,200 --> 00:06:49,850

Farsight if a RSI ght like seeing far

165

00:06:57,320 --> 00:06:54,210

org o RG and there is a if you go to

166

00:07:00,260 --> 00:06:57,330

scroll down you'll see a link down at

167

00:07:02,180 --> 00:07:00,270

down sorta towards two-thirds of the way

168

00:07:04,370 --> 00:07:02,190

down saying latest peer-reviewed

169

00:07:05,570 --> 00:07:04,380

published research and if you click on

170

00:07:09,410 --> 00:07:05,580

that you can actually read the article

171

00:07:12,380 --> 00:07:09,420

about on which that was that experiment

172

00:07:15,530 --> 00:07:12,390

was based and so you know all of our

173

00:07:19,000 --> 00:07:15,540

projects we put up 95% of everything

174

00:07:21,920 --> 00:07:19,010

that we have on our website including a

175

00:07:25,670 --> 00:07:21,930

course in remote viewing this over 20

176
00:07:27,950 --> 00:07:25,680
hours and hosted by YouTube free text

177
00:07:29,630 --> 00:07:27,960
and everything is free almost everything

178
00:07:32,780 --> 00:07:29,640
that we have on the website is totally

179
00:07:35,270 --> 00:07:32,790
free there are just a few projects that

180
00:07:40,130 --> 00:07:35,280
were recent projects that we actually

181
00:07:42,740 --> 00:07:40,140
sell DVDs or video on-demand things for

182
00:07:44,960 --> 00:07:42,750
and there's actually only four of those

183
00:07:46,700 --> 00:07:44,970
projects the Atlantis project which you

184
00:07:49,100 --> 00:07:46,710
already mentioned is actually available

185
00:07:52,640 --> 00:07:49,110
for free on YouTube you can get to it

186
00:07:56,090 --> 00:07:52,650
from our website and the the four

187
00:07:58,790 --> 00:07:56,100
projects that we do actually sell as

188
00:08:00,710 --> 00:07:58,800

DVDs or a video on demand they required

189

00:08:03,710 --> 00:08:00,720

a formal presentation that was like a

190

00:08:06,110 --> 00:08:03,720

couple hours long the e-911 project

191

00:08:09,620 --> 00:08:06,120

required two formal presentations

192

00:08:12,620 --> 00:08:09,630

meaning two to two videos that are about

193

00:08:15,890 --> 00:08:12,630

a two hours long to cover all of that

194

00:08:18,140 --> 00:08:15,900

stuff and those types of things are not

195

00:08:20,510 --> 00:08:18,150

really a youtube type of thing so you

196

00:08:23,900 --> 00:08:20,520

have to so we do those through Vimeo

197

00:08:25,820 --> 00:08:23,910

which a video on demand and the and we

198

00:08:30,860 --> 00:08:25,830

also has a DVD for people who want that

199

00:08:33,620 --> 00:08:30,870

that format so and those projects are

200

00:08:36,530 --> 00:08:33,630

really our most modern projects and one

201
00:08:40,219 --> 00:08:36,540
of the things that has changed is and

202
00:08:42,680 --> 00:08:40,229
this addresses the issue of people being

203
00:08:44,390 --> 00:08:42,690
skeptical but having an open mind that's

204
00:08:45,950 --> 00:08:44,400
different from saying people saying

205
00:08:49,520 --> 00:08:45,960
they're skeptical but having a very

206
00:08:51,260 --> 00:08:49,530
closed mind so if they are skeptical and

207
00:08:55,160 --> 00:08:51,270
have an open mind it's very good to

208
00:08:57,890 --> 00:08:55,170
watch some of the videos for our most

209
00:08:59,030 --> 00:08:57,900
recent projects where our reason most

210
00:09:01,790 --> 00:08:59,040
reason one is aliens

211
00:09:03,920 --> 00:09:01,800
then we had one on Cydonia Mars the so

212
00:09:07,100 --> 00:09:03,930
called face on Mars we had one on the

213
00:09:10,670 --> 00:09:07,110

9/11 events and the how the Great

214

00:09:12,499 --> 00:09:10,680

Pyramid of Giza was constructed and the

215

00:09:15,559 --> 00:09:12,509

reason it's good to do that is the

216

00:09:18,470 --> 00:09:15,569

videos themselves were done live meaning

217

00:09:21,710 --> 00:09:18,480

the remote viewing was done in those

218

00:09:25,160 --> 00:09:21,720

particular projects by dick al Geyer who

219

00:09:29,720 --> 00:09:25,170

down in Hawaii and Dez Smith who's out

220

00:09:32,480 --> 00:09:29,730

in Britain and those interviews I'm at

221

00:09:37,490 --> 00:09:32,490

those those remote viewing sessions were

222

00:09:38,900 --> 00:09:37,500

recorded live on video and they're all

223

00:09:41,180 --> 00:09:38,910

the work that we do at the Institute is

224

00:09:42,949 --> 00:09:41,190

solo so they were alone in the room they

225

00:09:45,319 --> 00:09:42,959

the remote viewers we had to train them

226

00:09:48,110 --> 00:09:45,329

to set up their own camera equipment

227

00:09:49,370 --> 00:09:48,120

their their own audio guy they had to

228

00:09:51,829 --> 00:09:49,380

get everything right and the video

229

00:09:55,280 --> 00:09:51,839

quality is spectacular we've got good

230

00:09:58,309 --> 00:09:55,290

cameras on both of them so you know what

231

00:10:01,519 --> 00:09:58,319

used to be sort of a boring enterprise

232

00:10:05,990 --> 00:10:01,529

of watching people draw on paper and pen

233

00:10:07,430 --> 00:10:06,000

and then comparing those drawings to the

234

00:10:10,069 --> 00:10:07,440

so-called target or thing they were

235

00:10:11,689 --> 00:10:10,079

supposed to be describing even if it was

236

00:10:13,069 --> 00:10:11,699

done under totally blind conditions

237

00:10:15,259 --> 00:10:13,079

which all of our work is done under

238

00:10:17,210 --> 00:10:15,269

totally blind conditions it was boring

239

00:10:20,269 --> 00:10:17,220

to watch but now that we do everything

240

00:10:22,189 --> 00:10:20,279

live on video I have never heard anybody

241

00:10:24,470 --> 00:10:22,199

say anything other than it is

242

00:10:26,600 --> 00:10:24,480

spine-tingling because you as the

243

00:10:28,280 --> 00:10:26,610

audience know what the target is because

244

00:10:31,250 --> 00:10:28,290

the projects been released but you're

245

00:10:33,230 --> 00:10:31,260

clearly watching somebody who has no

246

00:10:36,889 --> 00:10:33,240

idea what the target is and is trying to

247

00:10:38,780 --> 00:10:36,899

describe it live standing up in front of

248

00:10:41,660 --> 00:10:38,790

a whiteboard in a theatrically

249

00:10:43,670 --> 00:10:41,670

interesting manner now this this type of

250

00:10:46,850 --> 00:10:43,680

presentation was actually pioneered by

251

00:10:49,280 --> 00:10:46,860

dick Elgar who was a celebrity

252

00:10:52,970 --> 00:10:49,290

newscaster in Hawaii he was the face of

253

00:10:54,889 --> 00:10:52,980

the news for 30 years in Hawaii and he

254

00:10:59,569 --> 00:10:54,899

was more comfortable in front of a

255

00:11:01,939 --> 00:10:59,579

camera than then behind the camera so it

256

00:11:05,179 --> 00:11:01,949

was normal for him to say hey look why

257

00:11:07,220 --> 00:11:05,189

do this on paper and pen let's just do

258

00:11:09,050 --> 00:11:07,230

it in front of a video camera okay so he

259

00:11:11,600 --> 00:11:09,060

was doing a really pioneered the way we

260

00:11:12,800 --> 00:11:11,610

do it and now he does does it and when

261

00:11:15,800 --> 00:11:12,810

we trained somebody new

262

00:11:19,780 --> 00:11:15,810

my son is is learning how to do all this

263

00:11:21,920 --> 00:11:19,790

as well we trained the video component

264

00:11:24,830 --> 00:11:21,930

right from the get-go right from the

265

00:11:26,660 --> 00:11:24,840

beginning because it is the way to do

266

00:11:28,820 --> 00:11:26,670

remote viewing standing up live on white

267

00:11:30,830 --> 00:11:28,830

board recorded live on video and it is

268

00:11:32,500 --> 00:11:30,840

absolutely fascinating when you see

269

00:11:36,740 --> 00:11:32,510

these descriptions these aren't like big

270

00:11:39,050 --> 00:11:36,750

fuzzy fuzzy perceptions of like a line

271

00:11:42,260 --> 00:11:39,060

here or a squiggle there these are

272

00:11:44,480 --> 00:11:42,270

absolutely spot-on exact descriptions of

273

00:11:46,430 --> 00:11:44,490

exactly what the target is and it's

274

00:11:47,630 --> 00:11:46,440

clear that the remote viewers don't you

275

00:11:49,070 --> 00:11:47,640

can see it with your own eyes they don't

276

00:11:52,010 --> 00:11:49,080

have they don't know what the target it

277

00:11:55,910 --> 00:11:52,020

but they're describing it and it it's

278

00:11:58,790 --> 00:11:55,920

exact I mean it is it is at least as

279

00:12:00,440 --> 00:11:58,800

good as if they were there and saw

280

00:12:01,970 --> 00:12:00,450

everything with their physical eyes the

281

00:12:04,280 --> 00:12:01,980

reason I say at least meaning it's

282

00:12:06,740 --> 00:12:04,290

actually better because they can move in

283

00:12:08,900 --> 00:12:06,750

time if there's a wall they can move

284

00:12:10,610 --> 00:12:08,910

through the wall if they see an aircraft

285

00:12:12,950 --> 00:12:10,620

they can move into the aircraft in the

286

00:12:15,520 --> 00:12:12,960

cockpit so it's actually better but the

287

00:12:19,190 --> 00:12:15,530

clarity that they describe things with

288

00:12:21,140 --> 00:12:19,200

would not be any better if they were

289

00:12:22,940 --> 00:12:21,150

there physically with their own eyes and

290

00:12:26,510 --> 00:12:22,950

watching it so they're that good

291

00:12:29,240 --> 00:12:26,520

now not many people I can say well you

292

00:12:31,010 --> 00:12:29,250

know well how can this be I mean I don't

293

00:12:33,620 --> 00:12:31,020

know I don't do this how can you do this

294

00:12:35,270 --> 00:12:33,630

well it's difficult to do this that's

295

00:12:37,490 --> 00:12:35,280

why there's only a few really good

296

00:12:39,080 --> 00:12:37,500

remote viewers and they trained to do

297

00:12:41,210 --> 00:12:39,090

this and it took a long time to try and

298

00:12:43,340 --> 00:12:41,220

to do it to be able to do this at that

299

00:12:45,140 --> 00:12:43,350

level it's very much like playing the

300

00:12:47,390 --> 00:12:45,150

piano so sceptic can say yeah but I've

301
00:12:49,130 --> 00:12:47,400
never seen it and I say yeah great so

302
00:12:50,990 --> 00:12:49,140
you've never seen it have you ever gone

303
00:12:53,390 --> 00:12:51,000
to a concert and watched lang Lang play

304
00:12:55,010 --> 00:12:53,400
the piano if you've never seen Lang Lang

305
00:12:56,840 --> 00:12:55,020
or heard Lang Lang play the piano you

306
00:12:57,920 --> 00:12:56,850
you think it couldn't be happy it

307
00:13:02,390 --> 00:12:57,930
couldn't happen like that

308
00:13:04,910 --> 00:13:02,400
so the point is that this type of remote

309
00:13:07,490 --> 00:13:04,920
viewing is rare because the normal

310
00:13:10,340 --> 00:13:07,500
waking state of consciousness for humans

311
00:13:12,470 --> 00:13:10,350
does not have this experience like this

312
00:13:15,800 --> 00:13:12,480
right it's a specially-trained

313
00:13:18,310 --> 00:13:15,810

experience normally the big give you a

314

00:13:22,600 --> 00:13:18,320

basic idea of why it's so unusual is

315

00:13:25,650 --> 00:13:22,610

that our brains our human brains

316

00:13:29,250 --> 00:13:25,660

structure you know be the

317

00:13:33,270 --> 00:13:29,260

code of DNA are actually very

318

00:13:35,460 --> 00:13:33,280

sophisticated hologram generators now

319

00:13:37,490 --> 00:13:35,470

what that means is they generate images

320

00:13:40,650 --> 00:13:37,500

pictures things that we see a 3d reality

321

00:13:46,800 --> 00:13:40,660

out of energy out of frequencies you see

322

00:13:49,710 --> 00:13:46,810

no no physicist ever has ever discovered

323

00:13:52,860 --> 00:13:49,720

anything solid ever and a history of

324

00:13:56,100 --> 00:13:52,870

anything do they say well my planet is

325

00:13:59,190 --> 00:13:56,110

real my desk is real my car is real my

326

00:14:01,080 --> 00:13:59,200

body solid and I'd say no it's not that

327

00:14:03,570 --> 00:14:01,090

all that is empty space and molecules

328

00:14:05,340 --> 00:14:03,580

and inside the molecules it's empty

329

00:14:07,770 --> 00:14:05,350

space and atoms and inside the atoms

330

00:14:09,720 --> 00:14:07,780

empty space and protons neutrons and

331

00:14:12,300 --> 00:14:09,730

electrons and inside those and down the

332

00:14:16,140 --> 00:14:12,310

rabbit hole agos no physicist has ever

333

00:14:18,870 --> 00:14:16,150

found a solid billiard ball type of

334

00:14:21,540 --> 00:14:18,880

anything no particles in fact the

335

00:14:24,540 --> 00:14:21,550

physicists that are still looking for

336

00:14:28,020 --> 00:14:24,550

solid billiard ball type particles are

337

00:14:31,050 --> 00:14:28,030

called particle lists and they are

338

00:14:33,270 --> 00:14:31,060

almost an extinct species they just are

339

00:14:35,490 --> 00:14:33,280

going away so the only thing that a

340

00:14:39,210 --> 00:14:35,500

physicist has ever found anywhere in the

341

00:14:40,920 --> 00:14:39,220

universe is energy frequency waves now

342

00:14:43,890 --> 00:14:40,930

physics is still quite confused about

343

00:14:48,450 --> 00:14:43,900

that they're seduced by the by the the

344

00:14:51,030 --> 00:14:48,460

very seductive reality of physical world

345

00:14:53,040 --> 00:14:51,040

as it appears to us but the reality is

346

00:14:54,890 --> 00:14:53,050

they have never actually found anything

347

00:14:57,570 --> 00:14:54,900

solid they've only found energy and

348

00:15:00,090 --> 00:14:57,580

waves and that means that our whole

349

00:15:05,070 --> 00:15:00,100

universe is a frequency base universe

350

00:15:07,200 --> 00:15:05,080

and this gives you an idea of why our Y

351
00:15:09,450 --> 00:15:07,210
remote viewing is possible because the

352
00:15:11,730 --> 00:15:09,460
brains are essentially extremely

353
00:15:15,510 --> 00:15:11,740
sophisticated hologram generators that

354
00:15:18,930 --> 00:15:15,520
screen out all frequencies except the

355
00:15:21,090 --> 00:15:18,940
ones it wants you to see so it's just

356
00:15:23,280 --> 00:15:21,100
like a radio on a radio dial there's a

357
00:15:25,350 --> 00:15:23,290
lot of broadcast stations broadcasting

358
00:15:27,450 --> 00:15:25,360
but you only hear the one station you

359
00:15:30,330 --> 00:15:27,460
want to listen to television the same

360
00:15:32,220 --> 00:15:30,340
thing you turn on your TV all the other

361
00:15:33,750 --> 00:15:32,230
frequencies are being screened out all

362
00:15:36,030 --> 00:15:33,760
the other pictures all the other shows

363
00:15:39,000 --> 00:15:36,040

on the other channels you're only seeing

364

00:15:41,850 --> 00:15:39,010

the one channel so

365

00:15:44,310 --> 00:15:41,860

that's exactly what it's like with our

366

00:15:46,080 --> 00:15:44,320

brains there are a zillion things going

367

00:15:48,780 --> 00:15:46,090

on out there and the brain screens out

368

00:15:52,200 --> 00:15:48,790

everything except one and it is

369

00:15:53,850 --> 00:15:52,210

seductive it is so real and you can say

370

00:15:55,710 --> 00:15:53,860

yeah but it how can it be that real well

371

00:15:58,200 --> 00:15:55,720

look at a flat panel TV that looks

372

00:15:59,850 --> 00:15:58,210

pretty good and in ten years they're

373

00:16:02,070 --> 00:15:59,860

gonna have hologram projection

374

00:16:04,500 --> 00:16:02,080

televisions and you'll see Luke

375

00:16:06,480 --> 00:16:04,510

Skywalker and Han Solo and Princess Leia

376

00:16:09,090 --> 00:16:06,490

standing in your living room and it will

377

00:16:11,400 --> 00:16:09,100

look as real as your nice standing in

378

00:16:14,700 --> 00:16:11,410

our living rooms so you know it's just a

379

00:16:17,460 --> 00:16:14,710

matter of understanding how pictures and

380

00:16:19,920 --> 00:16:17,470

images as real as they look can be

381

00:16:22,110 --> 00:16:19,930

assembled out of frequencies so one

382

00:16:28,350 --> 00:16:22,120

remote viewing actually is is remove

383

00:16:31,170 --> 00:16:28,360

your strain to gradually allow to have

384

00:16:33,360 --> 00:16:31,180

the brain Allah sort of let in some of

385

00:16:36,720 --> 00:16:33,370

the other frequencies you actually have

386

00:16:39,540 --> 00:16:36,730

to work with the brain to actually get

387

00:16:42,090 --> 00:16:39,550

it to allow in some of the frequencies

388

00:16:44,010 --> 00:16:42,100

that it normally screens out and then

389

00:16:46,350 --> 00:16:44,020

the remote viewers what did they do is

390

00:16:49,410 --> 00:16:46,360

they learn to focus on those images

391

00:16:51,270 --> 00:16:49,420

those images are not as strong as a

392

00:16:54,990 --> 00:16:51,280

broadcast signal it's sort of like

393

00:16:57,660 --> 00:16:55,000

you're watching a TV and you're watching

394

00:17:00,420 --> 00:16:57,670

your favorite show but then you see like

395

00:17:03,660 --> 00:17:00,430

a ghost-like image on top of the show

396

00:17:07,220 --> 00:17:03,670

does that make sense mm-hmm yeah and so

397

00:17:09,810 --> 00:17:07,230

what if you stopped concentrating on

398

00:17:11,540 --> 00:17:09,820

your favorite show and just started

399

00:17:14,160 --> 00:17:11,550

concentrating on the ghost-like image

400

00:17:16,439 --> 00:17:14,170

you would eventually see a person there

401
00:17:18,540 --> 00:17:16,449
walking down the street there entering a

402
00:17:21,680 --> 00:17:18,550
building what's all that going that's

403
00:17:23,970 --> 00:17:21,690
where milk killing is like so you're

404
00:17:26,640 --> 00:17:23,980
focusing on something that's normally

405
00:17:30,180 --> 00:17:26,650
screened out and you're training the

406
00:17:33,630 --> 00:17:30,190
mind to allow that in without being

407
00:17:36,840 --> 00:17:33,640
interrupted and so that's why skeptics

408
00:17:38,580 --> 00:17:36,850
sort of have a field day saying laughing

409
00:17:41,160 --> 00:17:38,590
and saying this is ridiculous I don't

410
00:17:44,760 --> 00:17:41,170
see it a multiple reality well they're

411
00:17:47,520 --> 00:17:44,770
just seduced by the convincing seductive

412
00:17:49,050 --> 00:17:47,530
nature of the hologram that's being

413
00:17:51,630 --> 00:17:49,060

generated in front of them by their own

414

00:17:52,690 --> 00:17:51,640

brains but it's really stupid because

415

00:17:55,420 --> 00:17:52,700

they're not connecting

416

00:17:57,580 --> 00:17:55,430

dots which is nothing solid has ever

417

00:17:59,230 --> 00:17:57,590

been discovered ever and so now

418

00:18:01,300 --> 00:17:59,240

physicists have a problem with this -

419

00:18:04,390 --> 00:18:01,310

they still talk about mass they

420

00:18:05,830 --> 00:18:04,400

recognize that mass equals you know

421

00:18:07,390 --> 00:18:05,840

energy equals mass times the speed of

422

00:18:09,970 --> 00:18:07,400

light squared speed of light squared is

423

00:18:12,550 --> 00:18:09,980

simply a constant so mass and energy are

424

00:18:15,610 --> 00:18:12,560

equal and you know $E = MC^2$

425

00:18:19,690 --> 00:18:15,620

so they recognize that energy and mass

426

00:18:21,730 --> 00:18:19,700

are equivalent they just don't get it

427

00:18:25,300 --> 00:18:21,740

they don't wrap their head around how

428

00:18:27,430 --> 00:18:25,310

this reality can't exist for example one

429

00:18:28,780 --> 00:18:27,440

famous incident with the physicist and

430

00:18:30,010 --> 00:18:28,790

it's graduate students the graduate

431

00:18:32,830 --> 00:18:30,020

students were putting all this together

432

00:18:35,920 --> 00:18:32,840

and saying well that means that this

433

00:18:39,070 --> 00:18:35,930

can't be real this reality and the

434

00:18:42,160 --> 00:18:39,080

physicist the Ament the senior physicist

435

00:18:43,780 --> 00:18:42,170

when stubbed his toe and he looked at

436

00:18:46,800 --> 00:18:43,790

his graduate students and yelled at them

437

00:18:49,900 --> 00:18:46,810

we know it's real because that hurts

438

00:18:55,210 --> 00:18:49,910

mm-hmm but you know what kind of what

439

00:18:57,730 --> 00:18:55,220

kind of science is that I mean it's

440

00:19:00,010 --> 00:18:57,740

anyway so freaky illusion definitely

441

00:19:02,590 --> 00:19:00,020

it's a very tricky illusion and it's

442

00:19:04,090 --> 00:19:02,600

very seductive but we do know now why

443

00:19:07,210 --> 00:19:04,100

the remote viewing works actually the

444

00:19:11,080 --> 00:19:07,220

physics for why the remote viewing works

445

00:19:14,290 --> 00:19:11,090

is is fundamentally tied to a revolution

446

00:19:17,700 --> 00:19:14,300

and and the way quantum mechanics is

447

00:19:21,760 --> 00:19:17,710

interpreted and that was tied back to

448

00:19:24,370 --> 00:19:21,770

Hugh Everett in 1957 who did his

449

00:19:28,540 --> 00:19:24,380

dissertation and physics under John

450

00:19:31,180 --> 00:19:28,550

Wheeler at Princeton and whoever was

451

00:19:33,960 --> 00:19:31,190

widely laughed at at the time by the

452

00:19:36,040 --> 00:19:33,970

leading scholars in physics was so

453

00:19:38,440 --> 00:19:36,050

disturbed by the whole thing he left

454

00:19:40,870 --> 00:19:38,450

physics and went into the Defense

455

00:19:45,040 --> 00:19:40,880

Department and one of those nè was one

456

00:19:47,980 --> 00:19:45,050

of the the engineers for the nuclear

457

00:19:50,950 --> 00:19:47,990

policies of the US government and the

458

00:19:52,240 --> 00:19:50,960

world actually the so-called mad which

459

00:19:54,760 --> 00:19:52,250

was a mutually assured destruction

460

00:19:56,560 --> 00:19:54,770

destruction theory but that was actually

461

00:19:59,860 --> 00:19:56,570

pretty useful because there were people

462

00:20:01,660 --> 00:19:59,870

in civilian life leaders as well as in

463

00:20:05,050 --> 00:20:01,670

military who were actually in those days

464

00:20:06,460 --> 00:20:05,060

arguing for a first strike against the

465

00:20:09,860 --> 00:20:06,470

Soviet Union and China

466

00:20:11,560 --> 00:20:09,870

and it was huge

467

00:20:15,289 --> 00:20:11,570

that convinced him that that was

468

00:20:17,360 --> 00:20:15,299

insanity that you can't blow up half the

469

00:20:20,509 --> 00:20:17,370

planet and expect to live yourself right

470

00:20:22,490 --> 00:20:20,519

and so imagine if they had actually

471

00:20:25,669 --> 00:20:22,500

succeeded this is a sort of dr.

472

00:20:27,759 --> 00:20:25,679

Strangelove sort of thinking back back

473

00:20:30,919 --> 00:20:27,769

in those days but it actually was being

474

00:20:34,190 --> 00:20:30,929

thought about by what we would consider

475

00:20:36,680 --> 00:20:34,200

normal reasonable people in in the sense

476

00:20:38,720 --> 00:20:36,690

that they had you know general status

477

00:20:41,870 --> 00:20:38,730

and they were civilian leaders and so on

478

00:20:44,570 --> 00:20:41,880

and Hugh Everett was the one who said

479

00:20:46,700 --> 00:20:44,580

look we can do something different let

480

00:20:48,680 --> 00:20:46,710

both sides or all sides have their

481

00:20:51,560 --> 00:20:48,690

nuclear weapons point them at each other

482

00:20:53,330 --> 00:20:51,570

and we'll call that mad which is crazy

483

00:20:56,060 --> 00:20:53,340

but it's mad it's mutually assured

484

00:20:57,860 --> 00:20:56,070

destruction and that way nobody will

485

00:21:00,019 --> 00:20:57,870

launch anything and that was what saved

486

00:21:03,259 --> 00:21:00,029

us from annihilation

487

00:21:07,940 --> 00:21:03,269

so anyway that's what you ever did but

488

00:21:10,029 --> 00:21:07,950

it turns out that that type of thinking

489

00:21:13,120 --> 00:21:10,039

it's called the other worlds

490

00:21:16,210 --> 00:21:13,130

interpretation of quantum mechanics that

491

00:21:19,180 --> 00:21:16,220

everything is frequency based and that

492

00:21:21,860 --> 00:21:19,190

there are other parallel universes that

493

00:21:25,100 --> 00:21:21,870

type of thinking is now starting to

494

00:21:27,889 --> 00:21:25,110

enter mainstream physics took a while it

495

00:21:31,159 --> 00:21:27,899

took a while but approximately I

496

00:21:34,009 --> 00:21:31,169

understand now approximately 18% of all

497

00:21:35,930 --> 00:21:34,019

mainstream physicists have thrown out

498

00:21:39,009 --> 00:21:35,940

the earlier interpretations of quantum

499

00:21:41,330 --> 00:21:39,019

mechanics and relativistic physics and

500

00:21:43,159 --> 00:21:41,340

have adopted the other worlds

501
00:21:46,159 --> 00:21:43,169
interpretation now that still means at

502
00:21:49,279 --> 00:21:46,169
82% which is a large majority still

503
00:21:51,409 --> 00:21:49,289
clinging to the old ideas which are over

504
00:21:54,740 --> 00:21:51,419
100 years old the fundamentals of

505
00:21:56,750 --> 00:21:54,750
quantum mechanics and relativistic

506
00:21:58,009 --> 00:21:56,760
physics have not changed for over a

507
00:22:00,080 --> 00:21:58,019
hundred years so you know they're

508
00:22:02,480 --> 00:22:00,090
screwed up nothing in science changes I

509
00:22:06,379 --> 00:22:02,490
mean the details are better we have now

510
00:22:08,810 --> 00:22:06,389
merged the the Copenhagen interpretation

511
00:22:10,639 --> 00:22:08,820
with relativity so we have the standard

512
00:22:12,200 --> 00:22:10,649
model there's done a lot of change but

513
00:22:14,360 --> 00:22:12,210

there's been a lot of refinement

514

00:22:16,700 --> 00:22:14,370

mathematically but the fundamentals have

515

00:22:19,260 --> 00:22:16,710

been changed for over a hundred years so

516

00:22:20,910 --> 00:22:19,270

the multiple

517

00:22:23,400 --> 00:22:20,920

or other worlds interpretation of

518

00:22:26,280 --> 00:22:23,410

quantum mechanics really does change

519

00:22:28,860 --> 00:22:26,290

everything and now about eighteen

520

00:22:30,330 --> 00:22:28,870

percent of mainstream physicists have

521

00:22:32,400 --> 00:22:30,340

adopted that and we're essentially

522

00:22:34,980 --> 00:22:32,410

waiting for the older physicists to

523

00:22:36,900 --> 00:22:34,990

retire and die off and end of it none

524

00:22:40,110 --> 00:22:36,910

will be generational replacement and

525

00:22:42,540 --> 00:22:40,120

that's how the Max Planck noted long ago

526

00:22:44,970 --> 00:22:42,550

that that's how real change happens in

527

00:22:48,330 --> 00:22:44,980

science you have to wait to the old

528

00:22:49,860 --> 00:22:48,340

farts die off and then the new people

529

00:22:52,230 --> 00:22:49,870

who were introduced to these ideas from

530

00:22:54,540 --> 00:22:52,240

the beginning they adopt them and that's

531

00:22:56,100 --> 00:22:54,550

that's why there's a there's a lag yeah

532

00:22:58,110 --> 00:22:56,110

well it's good that they're kind of

533

00:22:59,640 --> 00:22:58,120

catching up to you a little bit I think

534

00:23:02,370 --> 00:22:59,650

that's a pretty good introduction to

535

00:23:04,680 --> 00:23:02,380

remote viewing and the changing view of

536

00:23:06,360 --> 00:23:04,690

mainstream physics and maybe we can get

537

00:23:07,740 --> 00:23:06,370

into a couple of the projects you've

538

00:23:08,790 --> 00:23:07,750

done maybe let's start with the latest

539

00:23:10,730 --> 00:23:08,800

one because this is pretty damn

540

00:23:14,160 --> 00:23:10,740

interesting it's called aliens on

541

00:23:15,840 --> 00:23:14,170

lapetus which is a moon of Saturn tell

542

00:23:17,580 --> 00:23:15,850

us about this and why out of all the

543

00:23:20,640 --> 00:23:17,590

strange things in our solar system this

544

00:23:23,610 --> 00:23:20,650

one became a priority for you guys well

545

00:23:28,980 --> 00:23:23,620

when we do projects at the Farsight

546

00:23:32,460 --> 00:23:28,990

Institute we always absolutely insist

547

00:23:36,840 --> 00:23:32,470

that a huge chunk of the project be

548

00:23:38,940 --> 00:23:36,850

totally verifiable so we can't do a

549

00:23:41,190 --> 00:23:38,950

project if it's just somebody's idea

550

00:23:42,890 --> 00:23:41,200

mm-hm and there's nothing verifiable

551

00:23:47,040 --> 00:23:42,900

there's nothing that you can actually

552

00:23:50,280 --> 00:23:47,050

see even if it's true you can't use

553

00:23:52,380 --> 00:23:50,290

remote viewing to prove something in the

554

00:23:53,760 --> 00:23:52,390

absence of something that's in the

555

00:23:56,640 --> 00:23:53,770

absence of something that's physical

556

00:23:59,670 --> 00:23:56,650

that you can compare with so remote

557

00:24:02,520 --> 00:23:59,680

feeling data doesn't stand by itself

558

00:24:04,980 --> 00:24:02,530

alone there has to be some evidence so

559

00:24:08,070 --> 00:24:04,990

what we were looking for in this

560

00:24:10,140 --> 00:24:08,080

particular set of projects is this is

561

00:24:12,150 --> 00:24:10,150

actually part two of a three-part

562

00:24:15,750 --> 00:24:12,160

projects of it the first one dealt with

563

00:24:18,600 --> 00:24:15,760

remote viewing the face on Mars on the

564

00:24:20,070 --> 00:24:18,610

cydonia region the second one is aliens

565

00:24:23,040 --> 00:24:20,080

on my app a distant the third one is

566

00:24:25,620 --> 00:24:23,050

coming out in mid-july and that one is

567

00:24:28,620 --> 00:24:25,630

on the famous incident of the Phoenix

568

00:24:32,520 --> 00:24:28,630

lights and so what we needed was

569

00:24:33,180 --> 00:24:32,530

something verifiable and so with Cydonia

570

00:24:38,720 --> 00:24:33,190

Mars

571

00:24:42,530 --> 00:24:38,730

have really good imagery coming from

572

00:24:46,260 --> 00:24:42,540

space probes that are orbiting Mars and

573

00:24:48,780 --> 00:24:46,270

sent there by NASA and they have

574

00:24:50,790 --> 00:24:48,790

pictures so when the remote viewers

575

00:24:53,190 --> 00:24:50,800

remote view that spot on Mars

576

00:24:54,570 --> 00:24:53,200

we know a lot of what's physically there

577

00:24:56,960 --> 00:24:54,580

because we're looking at the picture and

578

00:24:59,550 --> 00:24:56,970

the remote viewers have to describe that

579

00:25:03,270 --> 00:24:59,560

exactly but while they're there they

580

00:25:06,360 --> 00:25:03,280

also you know see other stuff like they

581

00:25:07,920 --> 00:25:06,370

see that facility that spots called the

582

00:25:10,140 --> 00:25:07,930

face on Mars and then they go into it

583

00:25:12,450 --> 00:25:10,150

stuff that you can't see in the picture

584

00:25:14,450 --> 00:25:12,460

but they give us the entire backstory on

585

00:25:16,830 --> 00:25:14,460

it they go back in time but the

586

00:25:18,870 --> 00:25:16,840

verifiable component is the physical

587

00:25:20,490 --> 00:25:18,880

what the physical thing looks like right

588

00:25:23,130 --> 00:25:20,500

now with the barren environment so on

589

00:25:24,990 --> 00:25:23,140

that has to be exactly correct in order

590

00:25:27,960 --> 00:25:25,000

for us to trust the rest of the data or

591

00:25:30,300 --> 00:25:27,970

to be pretty be persuaded that the rest

592

00:25:34,050 --> 00:25:30,310

of the data is our plot our plausible

593

00:25:39,240 --> 00:25:34,060

so with aliens on Iapetus that was a

594

00:25:42,480 --> 00:25:39,250

situation in which we had a picture with

595

00:25:45,090 --> 00:25:42,490

that was supplied by NASA using the

596

00:25:47,100 --> 00:25:45,100

Cassini space probe that by the way is

597

00:25:49,980 --> 00:25:47,110

still orbiting Saturn to this day still

598

00:25:54,120 --> 00:25:49,990

taking pictures of Saturn and its moons

599

00:25:56,190 --> 00:25:54,130

and so on and that space probe took a

600

00:25:58,140 --> 00:25:56,200

picture of a crater in which there was

601
00:26:00,240 --> 00:25:58,150
something on the side of that crater on

602
00:26:01,980 --> 00:26:00,250
the wall of the crater that definitely

603
00:26:05,040 --> 00:26:01,990
did not look like the wall of a crater

604
00:26:07,650 --> 00:26:05,050
it looked like some buildings with

605
00:26:11,850 --> 00:26:07,660
windows on them and a what looked like a

606
00:26:15,360 --> 00:26:11,860
huge staircase that actually had a very

607
00:26:20,160 --> 00:26:15,370
artificial right angle bend to it

608
00:26:22,770 --> 00:26:20,170
so it was very anomalous in terms of the

609
00:26:25,230 --> 00:26:22,780
picture and I said to myself long ago I

610
00:26:28,530 --> 00:26:25,240
had seen some internet chatter on it

611
00:26:31,110 --> 00:26:28,540
many years ago and I looked at the

612
00:26:34,020 --> 00:26:31,120
picture and I said whoa yes

613
00:26:35,520 --> 00:26:34,030

that's weird and so I just filed it in

614

00:26:37,950 --> 00:26:35,530

the back of my mind and the reason that

615

00:26:40,950 --> 00:26:37,960

I wanted to keep that as a possible

616

00:26:44,640 --> 00:26:40,960

target or project it's because we had a

617

00:26:47,160 --> 00:26:44,650

picture and so for example believe it or

618

00:26:50,520 --> 00:26:47,170

not you know the famous

619

00:26:53,670 --> 00:26:50,530

well incident in New Mexico the

620

00:26:55,740 --> 00:26:53,680

so-called crashed ship as many people

621

00:26:57,900 --> 00:26:55,750

think that's really important that's

622

00:27:00,870 --> 00:26:57,910

actually a project that we can't do very

623

00:27:02,820 --> 00:27:00,880

easily because we don't have anything

624

00:27:04,950 --> 00:27:02,830

verifiable I mean there were some

625

00:27:08,310 --> 00:27:04,960

witnesses but they were heavily coerced

626

00:27:10,680 --> 00:27:08,320

by governmental authorities to keep

627

00:27:13,680 --> 00:27:10,690

quiet you're really dealing with just

628

00:27:15,810 --> 00:27:13,690

hearsay what people said and we don't

629

00:27:17,460 --> 00:27:15,820

have any pictures we don't have anything

630

00:27:19,530 --> 00:27:17,470

that we can compare with the remote

631

00:27:22,170 --> 00:27:19,540

viewing data it's the location at a time

632

00:27:25,200 --> 00:27:22,180

not enough no because old you'd get was

633

00:27:27,240 --> 00:27:25,210

a desert environment and really what you

634

00:27:28,950 --> 00:27:27,250

really want

635

00:27:31,050 --> 00:27:28,960

you always you'd get is Roswell is

636

00:27:35,820 --> 00:27:31,060

essentially flat so what you'd get is

637

00:27:38,250 --> 00:27:35,830

flat land and you know that's just not

638

00:27:41,100 --> 00:27:38,260

enough to go on they just have flat land

639

00:27:41,580 --> 00:27:41,110

now I'm sure my app it is it's not flat

640

00:27:45,810 --> 00:27:41,590

land

641

00:27:51,150 --> 00:27:45,820

it's a meteor crater on a dry barren

642

00:27:53,070 --> 00:27:51,160

moon of Saturn and you have and there's

643

00:27:55,730 --> 00:27:53,080

no air so you have all of that

644

00:27:59,190 --> 00:27:55,740

information you have a a you have a an

645

00:28:01,800 --> 00:27:59,200

offworld place there's no air

646

00:28:03,660 --> 00:28:01,810

it's a crater so with obviously of

647

00:28:06,360 --> 00:28:03,670

impact there was a producing of craters

648

00:28:08,010 --> 00:28:06,370

and what would three mo viewers got it

649

00:28:10,980 --> 00:28:08,020

exactly they said this is a crater

650

00:28:15,390 --> 00:28:10,990

caused by a meteor on an offworld place

651
00:28:18,150 --> 00:28:15,400
and this thing that we're looking at is

652
00:28:19,800 --> 00:28:18,160
on the wall of the crater I mean that's

653
00:28:22,140 --> 00:28:19,810
a lot of physical stuff because we could

654
00:28:24,510 --> 00:28:22,150
see it in the picture see we don't have

655
00:28:27,690 --> 00:28:24,520
that for Roswell now I personally think

656
00:28:29,970 --> 00:28:27,700
that the Roswell event happened so it's

657
00:28:31,800 --> 00:28:29,980
not it's not that I don't think it

658
00:28:34,620 --> 00:28:31,810
happened it's just that not every

659
00:28:36,510 --> 00:28:34,630
project even if I think it's true lends

660
00:28:38,070 --> 00:28:36,520
itself to being a good remote viewing

661
00:28:40,250 --> 00:28:38,080
project because we have to have

662
00:28:43,080 --> 00:28:40,260
something physical that we have

663
00:28:47,160 --> 00:28:43,090

unambiguous evidence from right now a

664

00:28:51,450 --> 00:28:47,170

friend of mine said well why don't we do

665

00:28:54,420 --> 00:28:51,460

a session on MIT a project on some case

666

00:29:00,250 --> 00:28:54,430

where it was some reporter who had

667

00:29:03,070 --> 00:29:00,260

talked to some retired Japanese general

668

00:29:05,710 --> 00:29:03,080

and reported this and so the interview

669

00:29:08,500 --> 00:29:05,720

took place and the general was real and

670

00:29:11,670 --> 00:29:08,510

the general was reporting about some

671

00:29:13,930 --> 00:29:11,680

facility well the trouble with that is

672

00:29:15,460 --> 00:29:13,940

okay so you have an interview that did

673

00:29:17,800 --> 00:29:15,470

take place you have a general that was

674

00:29:23,020 --> 00:29:17,810

real and you had some reported facility

675

00:29:25,090 --> 00:29:23,030

or place that the trouble is that that

676

00:29:28,270 --> 00:29:25,100

building that facility we don't have

677

00:29:30,310 --> 00:29:28,280

anything public that's sort of known

678

00:29:33,640 --> 00:29:30,320

about that we could remove you a

679

00:29:36,720 --> 00:29:33,650

building there but the general a

680

00:29:39,850 --> 00:29:36,730

Japanese general is not enough to go on

681

00:29:43,930 --> 00:29:39,860

and one reporter interviewing that so

682

00:29:47,650 --> 00:29:43,940

there's a there's a level of there's

683

00:29:50,110 --> 00:29:47,660

level there's a level of verifiable

684

00:29:54,190 --> 00:29:50,120

believability that has to be there for

685

00:29:57,430 --> 00:29:54,200

us to pick a target so in the NASA and

686

00:29:59,830 --> 00:29:57,440

there's in the Iapetus project we had

687

00:30:02,320 --> 00:29:59,840

the Cassini space probe that's an

688

00:30:05,800 --> 00:30:02,330

official probe launched by the United

689

00:30:08,170 --> 00:30:05,810

States government launched by NASA sent

690

00:30:10,530 --> 00:30:08,180

there and it sent back official

691

00:30:13,360 --> 00:30:10,540

photographs that are publicly available

692

00:30:17,110 --> 00:30:13,370

you get it I mean that's like that's

693

00:30:18,430 --> 00:30:17,120

that's unambiguous and we don't have to

694

00:30:20,590 --> 00:30:18,440

we don't have to worry about the

695

00:30:24,520 --> 00:30:20,600

believability of a particular reporter

696

00:30:26,800 --> 00:30:24,530

or a particular general it's it's coming

697

00:30:29,050 --> 00:30:26,810

directly from the government so with

698

00:30:31,720 --> 00:30:29,060

Cydonia Mars it's it's the same thing

699

00:30:33,220 --> 00:30:31,730

now with the Phoenix lights experiment

700

00:30:35,530 --> 00:30:33,230

you can say well why is that we don't

701
00:30:39,040 --> 00:30:35,540
have you know the same type of thing

702
00:30:43,540 --> 00:30:39,050
well we actually have a lot of YouTube

703
00:30:48,460 --> 00:30:43,550
videos of the Phoenix lights however we

704
00:30:52,210 --> 00:30:48,470
can't use those videos as the basis for

705
00:30:54,280 --> 00:30:52,220
a video of a remote viewing project

706
00:30:56,110 --> 00:30:54,290
because we can ever know for sure

707
00:30:58,180 --> 00:30:56,120
I think the lot of those videos are

708
00:30:59,770 --> 00:30:58,190
perfectly great yeah they're exactly

709
00:31:00,580 --> 00:30:59,780
what they said they are but we can't

710
00:31:03,250 --> 00:31:00,590
know that for sure

711
00:31:04,570 --> 00:31:03,260
it could be somebody that just doctored

712
00:31:07,780 --> 00:31:04,580
it and what if we did a whole remote

713
00:31:09,550 --> 00:31:07,790

viewing project on a particular video

714

00:31:10,540 --> 00:31:09,560

that we saw on YouTube that was done by

715

00:31:12,130 --> 00:31:10,550

a private person

716

00:31:14,230 --> 00:31:12,140

well what if we invest the time and

717

00:31:16,480 --> 00:31:14,240

energy and come up with a DVD project

718

00:31:20,290 --> 00:31:16,490

and later on that person said oh I just

719

00:31:23,169 --> 00:31:20,300

concocted that on my computer using

720

00:31:26,140 --> 00:31:23,179

video software right you know that where

721

00:31:30,040 --> 00:31:26,150

are we the whole thing blows apart so we

722

00:31:32,140 --> 00:31:30,050

can't rely on something that's what a

723

00:31:35,530 --> 00:31:32,150

person uploads on YouTube

724

00:31:37,570 --> 00:31:35,540

however the there are many videos

725

00:31:39,580 --> 00:31:37,580

available on YouTube about that so

726

00:31:41,680 --> 00:31:39,590

collectively that's there but the

727

00:31:44,380 --> 00:31:41,690

Phoenix slice is different for a big

728

00:31:48,040 --> 00:31:44,390

reason the Phoenix lights were witnessed

729

00:31:51,190 --> 00:31:48,050

by hundreds of thousands of people for

730

00:31:54,280 --> 00:31:51,200

over an hour and they flew in formation

731

00:31:57,040 --> 00:31:54,290

over five states before they settled in

732

00:31:59,710 --> 00:31:57,050

over Phoenix and one of the witnesses

733

00:32:02,890 --> 00:31:59,720

was the governor of the state chief

734

00:32:05,020 --> 00:32:02,900

Symington who looked up and saw the

735

00:32:06,880 --> 00:32:05,030

underbelly of the ship and said it was

736

00:32:08,890 --> 00:32:06,890

the biggest thing that he ever saw

737

00:32:10,120 --> 00:32:08,900

flying it wasn't just like a flare that

738

00:32:11,799 --> 00:32:10,130

the government dropped he sold the

739

00:32:14,850 --> 00:32:11,809

underbelly of the ship together with a

740

00:32:19,620 --> 00:32:14,860

few hundred thousand other people so

741

00:32:23,049 --> 00:32:19,630

that was an eyewitness report that was

742

00:32:25,180 --> 00:32:23,059

useful for us to do the project because

743

00:32:27,220 --> 00:32:25,190

it wasn't one or two people it was a

744

00:32:29,290 --> 00:32:27,230

whole city that came out and and it

745

00:32:31,960 --> 00:32:29,300

stayed around long enough that everybody

746

00:32:34,660 --> 00:32:31,970

could see it so it was a big deal that's

747

00:32:38,200 --> 00:32:34,670

unlike Roswell Roswell may have been

748

00:32:41,350 --> 00:32:38,210

seen by 10 or 20 people and then hushed

749

00:32:43,090 --> 00:32:41,360

up but the Phoenix lights is different

750

00:32:45,910 --> 00:32:43,100

that's hundreds of thousands of people

751

00:32:48,250 --> 00:32:45,920

yeah and for a very long time period so

752

00:32:51,850 --> 00:32:48,260

that we don't have an official

753

00:32:54,480 --> 00:32:51,860

government released photograph but we do

754

00:32:57,340 --> 00:32:54,490

have the governor of the state and

755

00:32:59,580 --> 00:32:57,350

hundreds of thousands of people having

756

00:33:01,780 --> 00:32:59,590

witnessed stuff plus we have a slew of

757

00:33:04,810 --> 00:33:01,790

YouTube videos now one or two of the

758

00:33:07,150 --> 00:33:04,820

YouTube videos may be fraudulent but the

759

00:33:10,540 --> 00:33:07,160

general weight of it is all of those

760

00:33:12,790 --> 00:33:10,550

YouTube videos combined gives lives

761

00:33:15,250 --> 00:33:12,800

gives credibility to the idea that

762

00:33:17,650 --> 00:33:15,260

something very strange was there

763

00:33:19,210 --> 00:33:17,660

so the anyway that's why that's why we

764

00:33:20,860 --> 00:33:19,220

pick our projects a lot of people don't

765

00:33:22,299 --> 00:33:20,870

understand why we pick our projects so

766

00:33:25,780 --> 00:33:22,309

your question was actually a really good

767

00:33:28,029 --> 00:33:25,790

one well we and that verifiable element

768

00:33:29,320 --> 00:33:28,039

is important like somebody wrote to me

769

00:33:32,680 --> 00:33:29,330

other day and said why don't we remote

770

00:33:36,039 --> 00:33:32,690

view the Flat Earth I've been around

771

00:33:39,009 --> 00:33:36,049

this planet a lot you know I I fly to

772

00:33:41,680 --> 00:33:39,019

Africa a lot I mean it's I I mean it's

773

00:33:43,389 --> 00:33:41,690

around Earth but the whole idea is can

774

00:33:46,090 --> 00:33:43,399

you remote view something that's just a

775

00:33:48,359 --> 00:33:46,100

crazy idea right meaning and remote

776

00:33:51,009 --> 00:33:48,369

feeling can't be used by itself to prove

777

00:33:52,989 --> 00:33:51,019

something by itself so you can't remote

778

00:33:54,609 --> 00:33:52,999

view something like an idea like the

779

00:33:56,289 --> 00:33:54,619

Flat Earth I mean just crazy

780

00:33:57,820 --> 00:33:56,299

we're solutely middle of the planet like

781

00:33:59,859 --> 00:33:57,830

there are people of course the Flat

782

00:34:02,469 --> 00:33:59,869

Earth is definitely way out on the

783

00:34:04,089 --> 00:34:02,479

fringes of strange ideas but what about

784

00:34:05,710 --> 00:34:04,099

some people talk about there being a

785

00:34:08,049 --> 00:34:05,720

hollow cavity in the earth is there any

786

00:34:10,030 --> 00:34:08,059

way you could remote view the center of

787

00:34:12,369 --> 00:34:10,040

the planet no because we don't have

788

00:34:13,960 --> 00:34:12,379

anything verifiable we don't have a

789

00:34:16,480 --> 00:34:13,970

picture we don't have a government

790

00:34:18,309 --> 00:34:16,490

statement meaning remote viewing isn't

791

00:34:21,099 --> 00:34:18,319

even if the data you get back is

792

00:34:22,450 --> 00:34:21,109

accurate it's not very good and remote

793

00:34:25,990 --> 00:34:22,460

viewing something where you don't have

794

00:34:27,940 --> 00:34:26,000

some foothold of something that's

795

00:34:30,970 --> 00:34:27,950

totally verifiable coming from an

796

00:34:32,500 --> 00:34:30,980

unambiguous source so if there is a big

797

00:34:34,809 --> 00:34:32,510

cavity in the center of the planet that

798

00:34:36,280 --> 00:34:34,819

doesn't do us any good now I you know I

799

00:34:37,960 --> 00:34:36,290

know a lot of people talk about the

800

00:34:40,210 --> 00:34:37,970

so-called Hollow Earth idea

801
00:34:46,450 --> 00:34:40,220
it's crazy as far as I'm concerned

802
00:34:48,789 --> 00:34:46,460
because the the our planet is without

803
00:34:50,770 --> 00:34:48,799
any ambiguity and this is verifiable

804
00:34:54,730 --> 00:34:50,780
with zillions of scientists all over the

805
00:34:57,730 --> 00:34:54,740
planet is a giant ball of molten liquid

806
00:35:01,750 --> 00:34:57,740
rock eight thousand miles in diameter

807
00:35:04,960 --> 00:35:01,760
and it has an eight mile thin crust on

808
00:35:07,390 --> 00:35:04,970
it now from one perspective that's very

809
00:35:10,150 --> 00:35:07,400
important to know because if you were to

810
00:35:13,839 --> 00:35:10,160
pick a planet to live on this would not

811
00:35:16,390 --> 00:35:13,849
be it it's a very unstable planet where

812
00:35:20,849 --> 00:35:16,400
the atmosphere is thick the weather is

813
00:35:24,700 --> 00:35:20,859

horrible the gravity is very high and

814

00:35:26,710 --> 00:35:24,710

it's a molten ball of liquid lava yeah

815

00:35:29,829 --> 00:35:26,720

and we live on the surface of a balloon

816

00:35:32,230 --> 00:35:29,839

now it's okay for two three four five

817

00:35:34,569 --> 00:35:32,240

six eight ten thousand years but

818

00:35:36,130 --> 00:35:34,579

eventually the Sun is going to burp in

819

00:35:38,250 --> 00:35:36,140

our direction with a coronal mass

820

00:35:40,410 --> 00:35:38,260

ejection and

821

00:35:42,270 --> 00:35:40,420

that jelly that's on the end of the

822

00:35:43,830 --> 00:35:42,280

earth is going to quiver and when that

823

00:35:45,750 --> 00:35:43,840

quiver is the crust is going to crinkle

824

00:35:48,450 --> 00:35:45,760

and we will be brought back to

825

00:35:50,070 --> 00:35:48,460

hunter-gatherer stage so this hasn't

826

00:35:52,740 --> 00:35:50,080

been documented to have happened a

827

00:35:56,340 --> 00:35:52,750

number of times on a regular basis and

828

00:35:58,950 --> 00:35:56,350

one of the the authors of this theory

829

00:36:01,290 --> 00:35:58,960

that civilization as rose repeatedly and

830

00:36:05,280 --> 00:36:01,300

then been crushed basically because of

831

00:36:07,350 --> 00:36:05,290

solar phenomena is Robert Schoch SCH och

832

00:36:10,080 --> 00:36:07,360

and he's a tenured professor at Boston

833

00:36:13,020 --> 00:36:10,090

University and he wrote a book recently

834

00:36:15,420 --> 00:36:13,030

called forgotten civilizations and he he

835

00:36:18,690 --> 00:36:15,430

goes through the idea the whole process

836

00:36:21,960 --> 00:36:18,700

of at the evidence that civilization has

837

00:36:23,840 --> 00:36:21,970

in fact lived and been around a lot

838

00:36:26,700 --> 00:36:23,850

longer than three to five thousand years

839

00:36:29,400 --> 00:36:26,710

and that it basically gets crushed it

840

00:36:31,860 --> 00:36:29,410

gets ground down to a pulp and that's

841

00:36:33,660 --> 00:36:31,870

what kind of planet we live on so when

842

00:36:36,300 --> 00:36:33,670

people start telling me about the Hollow

843

00:36:38,970 --> 00:36:36,310

Earth idea I'm saying boy if they only

844

00:36:42,750 --> 00:36:38,980

knew the reality it's not only not holid

845

00:36:45,480 --> 00:36:42,760

it's a it's a bowl of jelly and there's

846

00:36:47,730 --> 00:36:45,490

it's and and you know there's no way

847

00:36:51,480 --> 00:36:47,740

you're gonna have a cavern in the middle

848

00:36:53,340 --> 00:36:51,490

of a bowl of liquid rock of a but you

849

00:36:55,560 --> 00:36:53,350

know in the middle of lava and no one in

850

00:36:58,410 --> 00:36:55,570

the right mind would build a cavern in

851

00:37:00,990 --> 00:36:58,420

the middle of a ball of liquid molten

852

00:37:04,080 --> 00:37:01,000

lava I mean it sounds pretty risky it's

853

00:37:08,160 --> 00:37:04,090

crazy and so now that doesn't mean that

854

00:37:11,340 --> 00:37:08,170

there aren't large underground

855

00:37:14,490 --> 00:37:11,350

facilities mm-hmm that can be a mile

856

00:37:17,940 --> 00:37:14,500

deep two miles deep yeah wasn't there a

857

00:37:19,860 --> 00:37:17,950

pat price was a remote viewer who if I

858

00:37:22,140 --> 00:37:19,870

remember correctly one of the things he

859

00:37:24,840 --> 00:37:22,150

thought he saw was four underground

860

00:37:26,340 --> 00:37:24,850

bases with cooperation between humans

861

00:37:27,780 --> 00:37:26,350

and an alien race that's pretty

862

00:37:30,150 --> 00:37:27,790

interesting remote viewing right there

863

00:37:32,580 --> 00:37:30,160

it is and I'm sure that that type of

864

00:37:34,980 --> 00:37:32,590

stuff is there but that's a whole lot

865

00:37:37,140 --> 00:37:34,990

different than Hollow Earth which is

866

00:37:40,230 --> 00:37:37,150

like a balloon that's empty we're only

867

00:37:41,820 --> 00:37:40,240

on the surface of it and so that is

868

00:37:44,070 --> 00:37:41,830

actually very believable very

869

00:37:47,220 --> 00:37:44,080

interesting that we could have caverns

870

00:37:49,350 --> 00:37:47,230

underneath you know a mile deep or two a

871

00:37:51,930 --> 00:37:49,360

mile deep but you're still talking about

872

00:37:54,210 --> 00:37:51,940

activity within the solid crust

873

00:37:57,900 --> 00:37:54,220

we're not talking about going into the

874

00:38:00,030 --> 00:37:57,910

core of the planet in fact we did one

875

00:38:02,340 --> 00:38:00,040

project called the so called Atlantis

876

00:38:03,930 --> 00:38:02,350

project which is available for free on

877

00:38:11,660 --> 00:38:03,940

YouTube and you get to it from our

878

00:38:15,300 --> 00:38:11,670

website Farsight org where we'd describe

879

00:38:17,880 --> 00:38:15,310

the civilization that built to what are

880

00:38:21,080 --> 00:38:17,890

now underwater anomalies which are is a

881

00:38:24,180 --> 00:38:21,090

large city on the bottom of the ocean

882

00:38:26,280 --> 00:38:24,190

three miles west of I mean I'm sorry

883

00:38:29,130 --> 00:38:26,290

three miles deep and a thousand miles

884

00:38:32,550 --> 00:38:29,140

west of Portugal and Morocco and that

885

00:38:35,310 --> 00:38:32,560

used to be a huge city huge city and

886

00:38:36,780 --> 00:38:35,320

it's under the water now and there's

887

00:38:38,580 --> 00:38:36,790

another set of anomaly assembly

888

00:38:40,590 --> 00:38:38,590

underwater down near Antarctica and we

889

00:38:42,660 --> 00:38:40,600

did remove film projects on that because

890

00:38:46,200 --> 00:38:42,670

we had very clear Google Earth imagery

891

00:38:48,720 --> 00:38:46,210

of those anomalies right and what it

892

00:38:52,550 --> 00:38:48,730

turned out to be that is 70,000 years

893

00:38:55,230 --> 00:38:52,560

ago our civilization had a technological

894

00:38:56,820 --> 00:38:55,240

level that was a little more advanced

895

00:38:59,610 --> 00:38:56,830

than we are today about a hundred years

896

00:39:01,470 --> 00:38:59,620

more advanced than we are today and they

897

00:39:03,510 --> 00:39:01,480

had a secret science project that they

898

00:39:06,510 --> 00:39:03,520

were doing at the time and that was to

899

00:39:08,280 --> 00:39:06,520

bore through the crust of the planet to

900

00:39:11,460 --> 00:39:08,290

get to the heat below though they

901
00:39:13,350 --> 00:39:11,470
thought they could control it and they

902
00:39:15,390 --> 00:39:13,360
literally it wasn't just like a crack in

903
00:39:18,000 --> 00:39:15,400
the crust that the little lava seeps

904
00:39:20,720 --> 00:39:18,010
through this is huge major bore holes

905
00:39:23,940 --> 00:39:20,730
like the tunnel connecting Britain and

906
00:39:26,580 --> 00:39:23,950
Europe are they Holland Tunnel and the

907
00:39:29,220 --> 00:39:26,590
Lincoln Tunnel I mean in New York area I

908
00:39:31,050 --> 00:39:29,230
mean this is huge bore holes going right

909
00:39:34,260 --> 00:39:31,060
through the crust and they thought they

910
00:39:36,650 --> 00:39:34,270
could control it and they didn't what

911
00:39:40,650 --> 00:39:36,660
happened is they popped the balloon and

912
00:39:43,980 --> 00:39:40,660
there was a huge explosion explosion you

913
00:39:45,660 --> 00:39:43,990

could have seen from from Mars Jupiter I

914

00:39:48,360 --> 00:39:45,670

mean you could have seen it honors from

915

00:39:50,820 --> 00:39:48,370

a long ways away it was that biggest

916

00:39:52,820 --> 00:39:50,830

explosion you could imagine and what

917

00:39:56,100 --> 00:39:52,830

happened is they popped the balloon and

918

00:39:57,810 --> 00:39:56,110

when you get a balloon and you release a

919

00:40:01,020 --> 00:39:57,820

lot of pressure like that that happened

920

00:40:03,660 --> 00:40:01,030

down near in a New Zealand area and it

921

00:40:05,670 --> 00:40:03,670

happened we do know for a reasons I can

922

00:40:08,130 --> 00:40:05,680

get into if you want it happened 70

923

00:40:11,550 --> 00:40:08,140

and years ago yeah and what did what it

924

00:40:14,610 --> 00:40:11,560

did is it created a dent in the antipode

925

00:40:17,160 --> 00:40:14,620

the anti poet is the exact opposite spot

926
00:40:19,470 --> 00:40:17,170
on the planet and what happens is when

927
00:40:22,470 --> 00:40:19,480
you release pressure on one side the

928
00:40:27,480 --> 00:40:22,480
opposite side goes in dent and that

929
00:40:29,730 --> 00:40:27,490
antipodal explosion area is exactly not

930
00:40:32,160 --> 00:40:29,740
approximately but exactly where the

931
00:40:34,620 --> 00:40:32,170
anomaly is under the ocean three miles

932
00:40:37,440 --> 00:40:34,630
deep 1,000 miles west of Portugal

933
00:40:40,170 --> 00:40:37,450
Morocco so that tells you that Europe 70

934
00:40:42,720 --> 00:40:40,180
thousand years ago used to extend at

935
00:40:43,560 --> 00:40:42,730
least a thousand miles west of where it

936
00:40:46,050 --> 00:40:43,570
is now

937
00:40:48,180 --> 00:40:46,060
that explosion mainstream science knows

938
00:40:50,790 --> 00:40:48,190

there was an explosion they like to

939

00:40:53,550 --> 00:40:50,800

refer to it as the Toba catastrophe

940

00:40:55,590 --> 00:40:53,560

theory which references Toba lake toba

941

00:40:58,380 --> 00:40:55,600

and indonesia where they think the big

942

00:41:00,180 --> 00:40:58,390

the big blowout happened there in the

943

00:41:03,240 --> 00:41:00,190

general right area if you look at the

944

00:41:05,640 --> 00:41:03,250

globe lake toba in indonesia is actually

945

00:41:08,910 --> 00:41:05,650

in the general area but they didn't get

946

00:41:12,000 --> 00:41:08,920

it exactly the exact area that it blew

947

00:41:15,210 --> 00:41:12,010

out was a little bit closer to New

948

00:41:17,550 --> 00:41:15,220

Zealand which is not far away from Lake

949

00:41:20,040 --> 00:41:17,560

Toba and in it's New Zealand and that

950

00:41:22,440 --> 00:41:20,050

spot has the largest concentration of

951

00:41:25,530 --> 00:41:22,450

lava rock on the planet and also the

952

00:41:27,870 --> 00:41:25,540

thinnest crust on the planet that's

953

00:41:30,150 --> 00:41:27,880

where the blowout actually occurred and

954

00:41:31,680 --> 00:41:30,160

it was being controlled the private the

955

00:41:34,890 --> 00:41:31,690

project was being controlled by the

956

00:41:35,850 --> 00:41:34,900

facility and Antarctica that is now

957

00:41:37,860 --> 00:41:35,860

under the water

958

00:41:40,470 --> 00:41:37,870

but actually much of it is under the

959

00:41:41,880 --> 00:41:40,480

water some of it is still on land and by

960

00:41:47,540 --> 00:41:41,890

the way this also tells you why the

961

00:41:51,960 --> 00:41:47,550

government is so keen on sending

962

00:41:54,300 --> 00:41:51,970

research bases to Antarctica you know

963

00:41:56,820 --> 00:41:54,310

under very extreme weather and harsh

964

00:41:59,040 --> 00:41:56,830

conditions they're not in the slightest

965

00:42:02,070 --> 00:41:59,050

bit interested in digging up Mastodon

966

00:42:05,940 --> 00:42:02,080

bones they want the tech they know that

967

00:42:07,680 --> 00:42:05,950

there's tech under the ice and that's

968

00:42:09,720 --> 00:42:07,690

that's the whole purpose for all of

969

00:42:12,360 --> 00:42:09,730

these exploratory digs going on in

970

00:42:15,270 --> 00:42:12,370

Antarctica the tech there's lots of tech

971

00:42:17,850 --> 00:42:15,280

there oh yeah with you there yeah so

972

00:42:19,819 --> 00:42:17,860

anyway that's that's that's what goes on

973

00:42:26,009 --> 00:42:19,829

there and for people who

974

00:42:27,960 --> 00:42:26,019

are doubting well you know I don't I

975

00:42:31,229 --> 00:42:27,970

don't know how much to emphasize this

976
00:42:35,700 --> 00:42:31,239
but the the government the government's

977
00:42:37,650 --> 00:42:35,710
main motive motive motors are on days

978
00:42:39,599 --> 00:42:37,660
it's the main way of working is through

979
00:42:42,150 --> 00:42:39,609
secrecy right of course the government

980
00:42:43,739 --> 00:42:42,160
has never spilled the beans on all types

981
00:42:46,799 --> 00:42:43,749
of stuff they keep things secret and

982
00:42:48,989 --> 00:42:46,809
maybe if they if some person feels good

983
00:42:51,390 --> 00:42:48,999
about releasing stuff the way this is 50

984
00:42:53,969 --> 00:42:51,400
60 years after the fact but if the

985
00:42:55,170 --> 00:42:53,979
secrecy is what it does the military

986
00:42:58,620 --> 00:42:55,180
does secrecy of the government does

987
00:42:59,219 --> 00:42:58,630
sequencing so if you're saying how could

988
00:43:03,019 --> 00:42:59,229

all this be

989

00:43:05,160 --> 00:43:03,029

you've just been seduced by an

990

00:43:07,589 --> 00:43:05,170

organization whose job is to keep

991

00:43:09,329 --> 00:43:07,599

secrets and so you don't look at the

992

00:43:11,609 --> 00:43:09,339

organization to get you out of the hole

993

00:43:12,960 --> 00:43:11,619

that you dug yourself look in the mirror

994

00:43:14,549 --> 00:43:12,970

yeah look in the mirror

995

00:43:17,460 --> 00:43:14,559

well said yeah I don't think anyone

996

00:43:19,410 --> 00:43:17,470

would argue with you on that so let's

997

00:43:20,940 --> 00:43:19,420

talk a little bit about the the details

998

00:43:22,829 --> 00:43:20,950

of this hapless

999

00:43:25,109 --> 00:43:22,839

structure I mean when they looked at it

1000

00:43:26,489 --> 00:43:25,119

yeah I love that documentary and when

1001

00:43:28,739 --> 00:43:26,499

they looked at it in modern times of

1002

00:43:30,299 --> 00:43:28,749

course they see ruins which don't really

1003

00:43:32,999 --> 00:43:30,309

surprise anyone but when they went back

1004

00:43:35,940 --> 00:43:33,009

into the past they found some really

1005

00:43:38,819 --> 00:43:35,950

interesting things about this strange

1006

00:43:40,650 --> 00:43:38,829

structure at the top of this crater on

1007

00:43:42,450 --> 00:43:40,660

one of Saturn's moons can you tell us

1008

00:43:45,630 --> 00:43:42,460

some of the details about what they saw

1009

00:43:47,489 --> 00:43:45,640

that it used to be yeah this is actually

1010

00:43:49,349 --> 00:43:47,499

one of the most interesting projects

1011

00:43:51,329 --> 00:43:49,359

that I've ever seen done with remote

1012

00:43:53,849 --> 00:43:51,339

feeling because when you think of an

1013

00:43:56,579 --> 00:43:53,859

alien facility you normally think of a

1014

00:44:00,539 --> 00:43:56,589

military base you think of a spy base

1015

00:44:02,819 --> 00:44:00,549

you think of a mining operation you

1016

00:44:06,390 --> 00:44:02,829

think of an industrial operation this

1017

00:44:09,920 --> 00:44:06,400

was none of that this was well let's put

1018

00:44:12,420 --> 00:44:09,930

it in human terms we have people like

1019

00:44:16,079 --> 00:44:12,430

Richard Branson who runs Virgin Airlines

1020

00:44:18,660 --> 00:44:16,089

we have people like Bill Gates we have

1021

00:44:21,539 --> 00:44:18,670

people like Warren Buffett those are

1022

00:44:23,039 --> 00:44:21,549

rich people and rich people do a lot of

1023

00:44:25,799 --> 00:44:23,049

funny things with their money for

1024

00:44:28,200 --> 00:44:25,809

example Marlon Brando took some of his

1025

00:44:30,990 --> 00:44:28,210

money and bought himself an island he

1026
00:44:34,500 --> 00:44:31,000
wanted an elephant so okay he got an ID

1027
00:44:38,520 --> 00:44:34,510
so they they do funny things with their

1028
00:44:41,760 --> 00:44:38,530
money and there was somebody in our

1029
00:44:45,540 --> 00:44:41,770
solar system in the ancient past we're

1030
00:44:50,820 --> 00:44:45,550
talking really ancient past who was far

1031
00:44:53,850 --> 00:44:50,830
richer than Richard Branson Bill Gates

1032
00:44:57,030 --> 00:44:53,860
Warren Buffett and he also had the

1033
00:44:59,580 --> 00:44:57,040
technical the technical ability to fly

1034
00:45:02,880 --> 00:44:59,590
to places like I habitus so let's say he

1035
00:45:04,590 --> 00:45:02,890
came from Mars for example he had the

1036
00:45:06,750 --> 00:45:04,600
ability to get there obviously quickly

1037
00:45:08,340 --> 00:45:06,760
like an hour - so he they weren't using

1038
00:45:11,070 --> 00:45:08,350

chemical rockets they were using the

1039

00:45:13,470 --> 00:45:11,080

propulsion systems that were common - or

1040

00:45:15,330 --> 00:45:13,480

the the whatever those systems are

1041

00:45:20,930 --> 00:45:15,340

called that are common to say UFOs that

1042

00:45:23,430 --> 00:45:20,940

we see so he what he did was he built

1043

00:45:26,630 --> 00:45:23,440

the only way you can really describe it

1044

00:45:31,230 --> 00:45:26,640

is like it is the most luxurious

1045

00:45:35,330 --> 00:45:31,240

vacation spot Hotel Resort Hotel type

1046

00:45:40,880 --> 00:45:35,340

thing that you can imagine it is it is a

1047

00:45:45,000 --> 00:45:40,890

combination hotel resort health spa

1048

00:45:48,390 --> 00:45:45,010

communal retreat all wrapped into one

1049

00:45:51,300 --> 00:45:48,400

and what basically happened there is

1050

00:45:56,330 --> 00:45:51,310

that the wealthiest of the wealthy the

1051
00:46:01,080 --> 00:45:56,340
elite of the elite would go there for

1052
00:46:05,580 --> 00:46:01,090
purposes of personal growth and if you

1053
00:46:09,780 --> 00:46:05,590
think about it that location on the wall

1054
00:46:12,630 --> 00:46:09,790
of the crater and lapetus is arguably on

1055
00:46:14,400 --> 00:46:12,640
the most beautiful location on the

1056
00:46:17,310 --> 00:46:14,410
planet earth on the pond on the solar

1057
00:46:20,310 --> 00:46:17,320
system it's on the moon of lapetus with

1058
00:46:23,550 --> 00:46:20,320
all of the stark harsh surrounding

1059
00:46:25,850 --> 00:46:23,560
terrain it's got no atmosphere so you're

1060
00:46:29,460 --> 00:46:25,860
talking about a completely unfettered

1061
00:46:33,630 --> 00:46:29,470
star field and right above you right

1062
00:46:37,530 --> 00:46:33,640
above you you have the rings of Saturn

1063
00:46:41,420 --> 00:46:37,540

and Saturn itself I mean can you imagine

1064

00:46:43,440 --> 00:46:41,430

a more beautiful spy you seen if you do

1065

00:46:46,150 --> 00:46:43,450

Google

1066

00:46:48,100 --> 00:46:46,160

pictures of Saturn and its rings you

1067

00:46:50,980 --> 00:46:48,110

seen a lot of pictures of Saturn and it

1068

00:46:53,970 --> 00:46:50,990

is a beautiful planet to look at it

1069

00:46:56,530 --> 00:46:53,980

through these pictures that you see and

1070

00:46:59,620 --> 00:46:56,540

imagine if you're right underneath the

1071

00:47:02,290 --> 00:46:59,630

Rings on a moon of Saturn on my app it

1072

00:47:04,240 --> 00:47:02,300

is looking up it was absolutely the most

1073

00:47:07,720 --> 00:47:04,250

beautiful scene and the plan on the

1074

00:47:10,920 --> 00:47:07,730

whole solar system and in terms of

1075

00:47:14,620 --> 00:47:10,930

talking about sort of feeling a communal

1076

00:47:19,390 --> 00:47:14,630

concept of close to God close to

1077

00:47:21,250 --> 00:47:19,400

whatever the universal source of life or

1078

00:47:22,630 --> 00:47:21,260

whatever I can't imagine a situation

1079

00:47:25,810 --> 00:47:22,640

that would be more inspiring to people

1080

00:47:29,220 --> 00:47:25,820

well this guy built this facility to k2

1081

00:47:31,300 --> 00:47:29,230

you know capture all of that and

1082

00:47:39,280 --> 00:47:31,310

everything had to be brought in and

1083

00:47:41,590 --> 00:47:39,290

nothing can be grown on I a participant

1084

00:47:44,200 --> 00:47:41,600

they had to help a help staff like a

1085

00:47:46,000 --> 00:47:44,210

hotel staff but the people that were

1086

00:47:49,240 --> 00:47:46,010

actually there enjoying the facility

1087

00:47:51,960 --> 00:47:49,250

they were they were the richest of the

1088

00:47:55,990 --> 00:47:51,970

richest elitist of the elite and and

1089

00:47:58,390 --> 00:47:56,000

then this was going along fine and then

1090

00:48:01,270 --> 00:47:58,400

we have a lot of indications from other

1091

00:48:04,630 --> 00:48:01,280

projects as well that there was a war

1092

00:48:07,260 --> 00:48:04,640

and the solar system something happened

1093

00:48:11,560 --> 00:48:07,270

that really disrupted everything and

1094

00:48:14,410 --> 00:48:11,570

this war ended it for that facility on I

1095

00:48:18,130 --> 00:48:14,420

after this and the people that were on I

1096

00:48:20,890 --> 00:48:18,140

a pata stood until

1097

00:48:22,360 --> 00:48:20,900

either they they didn't have the ships

1098

00:48:25,030 --> 00:48:22,370

because the ships had already taken

1099

00:48:28,720 --> 00:48:25,040

other people and no new ships came

1100

00:48:30,640 --> 00:48:28,730

because of the war or they had the ships

1101

00:48:32,620 --> 00:48:30,650

but had nowhere to go with the ships

1102

00:48:35,020 --> 00:48:32,630

meaning the war had devastated

1103

00:48:38,320 --> 00:48:35,030

everything now we know from some of our

1104

00:48:41,490 --> 00:48:38,330

other research that there is strong

1105

00:48:44,710 --> 00:48:41,500

evidence of a war for example the

1106

00:48:48,070 --> 00:48:44,720

asteroid belt we did a full project on

1107

00:48:51,220 --> 00:48:48,080

the origins of the asteroid belt and you

1108

00:48:52,780 --> 00:48:51,230

can see that on our website - under the

1109

00:48:56,980 --> 00:48:52,790

link in the nav bar called exploding

1110

00:48:59,230 --> 00:48:56,990

planet we investigated the dual theories

1111

00:49:02,020 --> 00:48:59,240

that the origin of the asteroid built

1112

00:49:06,910 --> 00:49:02,030

was because of a planet that was once

1113

00:49:09,250 --> 00:49:06,920

there that exploded or it was what

1114

00:49:11,470 --> 00:49:09,260

mainstream science says the refuse of

1115

00:49:16,240 --> 00:49:11,480

the junk that was left over from the

1116

00:49:19,000 --> 00:49:16,250

primordial solar nebula well there's not

1117

00:49:22,750 --> 00:49:19,010

a shred of evidence that supports the

1118

00:49:25,960 --> 00:49:22,760

solar nebula idea but Thomas van

1119

00:49:28,270 --> 00:49:25,970

Flandern a very mainstream scientists

1120

00:49:30,070 --> 00:49:28,280

who was head of his department of

1121

00:49:33,910 --> 00:49:30,080

celestial mechanics at the Naval

1122

00:49:36,580 --> 00:49:33,920

Observatory he had amassed a huge amount

1123

00:49:39,250 --> 00:49:36,590

of planetary data that clearly indicated

1124

00:49:41,350 --> 00:49:39,260

that the asteroid belt came from a

1125

00:49:43,750 --> 00:49:41,360

planet that was that exploded for

1126
00:49:46,240 --> 00:49:43,760
whatever reasons now there's a couple

1127
00:49:48,220 --> 00:49:46,250
big things that are obvious I won't go

1128
00:49:51,670 --> 00:49:48,230
through all the data that Thomas and

1129
00:49:53,410 --> 00:49:51,680
flandern discussed although I do mention

1130
00:49:55,570 --> 00:49:53,420
some of that in the video presentation

1131
00:50:00,520 --> 00:49:55,580
that's available on the web for the

1132
00:50:04,390 --> 00:50:00,530
exploding planet but the basic sort of

1133
00:50:07,030 --> 00:50:04,400
big thumbs that stick in your eye are

1134
00:50:10,630 --> 00:50:07,040
the asteroids are big rocks like Ceres

1135
00:50:12,820 --> 00:50:10,640
asteroid there are huge huge rocks you

1136
00:50:16,330 --> 00:50:12,830
can't get large solid rocks like that

1137
00:50:20,460 --> 00:50:16,340
out of the primordial solar nebula the

1138
00:50:23,620 --> 00:50:20,470

primordial solar nebula is dust and dust

1139

00:50:26,109 --> 00:50:23,630

gets attracted to a gravity source and

1140

00:50:29,290 --> 00:50:26,119

the gravity source and compresses the

1141

00:50:31,480 --> 00:50:29,300

dust into big rocks so you can't have

1142

00:50:33,640 --> 00:50:31,490

rocks by themselves coming out of the

1143

00:50:35,560 --> 00:50:33,650

primordial solar nebula they have to

1144

00:50:38,980 --> 00:50:35,570

have a gravity source to compress them

1145

00:50:41,080 --> 00:50:38,990

first and then you can get a rock and so

1146

00:50:44,230 --> 00:50:41,090

these big asteroids can't come from dust

1147

00:50:46,080 --> 00:50:44,240

dust doesn't form into rocks yet without

1148

00:50:49,710 --> 00:50:46,090

the absolute without the gravity source

1149

00:50:54,640 --> 00:50:49,720

secondly the surface of the asteroids

1150

00:50:58,690 --> 00:50:54,650

show tremendous evidence that they've

1151
00:51:02,859 --> 00:50:58,700
been exposed to extreme glazing heat a

1152
00:51:04,390 --> 00:51:02,869
strong heat source and so you know

1153
00:51:06,220 --> 00:51:04,400
because of melting glazing on the

1154
00:51:09,040 --> 00:51:06,230
surface so that's another indication

1155
00:51:10,120 --> 00:51:09,050
that whatever happens blue you know it

1156
00:51:13,450 --> 00:51:10,130
was in

1157
00:51:15,279 --> 00:51:13,460
a strong energy event and so what

1158
00:51:17,079 --> 00:51:15,289
basically happened from other projects

1159
00:51:20,890 --> 00:51:17,089
and and and many of the projects even

1160
00:51:24,249 --> 00:51:20,900
the cydonia project they all sort of

1161
00:51:27,249 --> 00:51:24,259
touch on this event in our solar system

1162
00:51:29,380 --> 00:51:27,259
that included this major war and I after

1163
00:51:33,400 --> 00:51:29,390

this apparently touches on that as well

1164

00:51:35,680 --> 00:51:33,410

that there was some war and that did it

1165

00:51:40,930 --> 00:51:35,690

for happiness so the people that were on

1166

00:51:43,839 --> 00:51:40,940

that facility they died there they ran

1167

00:51:45,880 --> 00:51:43,849

out of food they ran out of water they

1168

00:51:48,700 --> 00:51:45,890

ran out of air and I'm assuming that if

1169

00:51:50,950 --> 00:51:48,710

we went there today at the remote

1170

00:51:52,539 --> 00:51:50,960

viewing day this does suggest that some

1171

00:51:56,319 --> 00:51:52,549

of the power generators that they have

1172

00:52:00,640 --> 00:51:56,329

are still operating but it in and power

1173

00:52:02,349 --> 00:52:00,650

down mode they're a very low race and so

1174

00:52:07,599 --> 00:52:02,359

we would actually go into the facility

1175

00:52:10,269 --> 00:52:07,609

and we'd probably find the dead bodies

1176
00:52:11,289 --> 00:52:10,279
of the people who died there the bodies

1177
00:52:13,450 --> 00:52:11,299
of the people who died there

1178
00:52:15,220 --> 00:52:13,460
or maybe that are maybe the dust of

1179
00:52:17,890 --> 00:52:15,230
their bodies but they're you know

1180
00:52:19,359 --> 00:52:17,900
they're still there I'm assuming unless

1181
00:52:20,470 --> 00:52:19,369
somebody went in and cleaned it up but

1182
00:52:22,630 --> 00:52:20,480
why would you clean up something like

1183
00:52:24,160 --> 00:52:22,640
that it's the facilities typically

1184
00:52:27,329 --> 00:52:24,170
things like that are just left and

1185
00:52:30,609 --> 00:52:27,339
abandoned so it's a very interesting

1186
00:52:32,650 --> 00:52:30,619
historical thing because it doesn't fit

1187
00:52:36,490 --> 00:52:32,660
into any of the normal categories of

1188
00:52:38,950 --> 00:52:36,500

military base by base industrial

1189

00:52:40,690 --> 00:52:38,960

facility or mining operation it's

1190

00:52:43,420 --> 00:52:40,700

something completely new completely

1191

00:52:47,650 --> 00:52:43,430

different a rich person's whimsical idea

1192

00:52:50,200 --> 00:52:47,660

of a place to commune and he built this

1193

00:52:52,359 --> 00:52:50,210

thing yeah you could only do such a

1194

00:52:54,130 --> 00:52:52,369

thing if you had really what we would

1195

00:52:55,509 --> 00:52:54,140

consider unlimited wealth but we just

1196

00:52:57,519 --> 00:52:55,519

have to assume that in the distant past

1197

00:52:59,859 --> 00:52:57,529

there were some people like that we have

1198

00:53:02,950 --> 00:52:59,869

our Bill Gates we have our Warren

1199

00:53:04,809 --> 00:53:02,960

Buffett's so you know if you give enough

1200

00:53:06,220 --> 00:53:04,819

money they start thinking about what

1201
00:53:08,980 --> 00:53:06,230
what am I gonna do with this stuff

1202
00:53:10,809 --> 00:53:08,990
right it makes sense and one of the

1203
00:53:12,819 --> 00:53:10,819
viewers the way he put it that I really

1204
00:53:14,380 --> 00:53:12,829
liked is kind of like it was he was

1205
00:53:17,650 --> 00:53:14,390
seeing an extravagant building in a

1206
00:53:19,509 --> 00:53:17,660
wasteland similar to like a space Vegas

1207
00:53:21,160 --> 00:53:19,519
because Las Vegas of course is super

1208
00:53:23,440 --> 00:53:21,170
extravagant way out there in the middle

1209
00:53:26,230 --> 00:53:23,450
of the desert and this was kind of

1210
00:53:28,510 --> 00:53:26,240
like this a similar type thing a really

1211
00:53:31,960 --> 00:53:28,520
extravagant structure made out in

1212
00:53:34,060 --> 00:53:31,970
basically the space desert of Iapetus

1213
00:53:35,950 --> 00:53:34,070

and i found that really fascinating and

1214

00:53:37,000 --> 00:53:35,960

a good way to put it but on the subject

1215

00:53:39,190 --> 00:53:37,010

of the Rings

1216

00:53:41,410 --> 00:53:39,200

being able to see them from the surface

1217

00:53:43,030 --> 00:53:41,420

that's really interesting and one thing

1218

00:53:44,620 --> 00:53:43,040

they both noted that I liked was the

1219

00:53:46,960 --> 00:53:44,630

structure kind of like the st. Louis

1220

00:53:48,820 --> 00:53:46,970

Arch but leaning real severely like the

1221

00:53:50,980 --> 00:53:48,830

Leaning Tower of Pisa yeah I thought

1222

00:53:53,110 --> 00:53:50,990

that was interesting because at least

1223

00:53:55,240 --> 00:53:53,120

here many of the ancient sites are built

1224

00:53:57,010 --> 00:53:55,250

to form certain alignments and being

1225

00:53:58,750 --> 00:53:57,020

that close to the rings of Saturn and

1226

00:54:00,760 --> 00:53:58,760

having that shape I wondered if it

1227

00:54:02,470 --> 00:54:00,770

wasn't built to kind of capture some

1228

00:54:03,420 --> 00:54:02,480

type of ceremonial alignment in the

1229

00:54:05,770 --> 00:54:03,430

ancient past

1230

00:54:12,010 --> 00:54:05,780

actually Greg you're raising some really

1231

00:54:13,990 --> 00:54:12,020

great ideas the idea of that sort of

1232

00:54:16,180 --> 00:54:14,000

like the st. Louis Arch tipped on its

1233

00:54:18,520 --> 00:54:16,190

side the thing that's so interesting

1234

00:54:21,250 --> 00:54:18,530

about that is when you look up that's

1235

00:54:24,070 --> 00:54:21,260

exactly what you see with the rings of

1236

00:54:28,720 --> 00:54:24,080

Saturn you'll see an arch tipped on a

1237

00:54:30,850 --> 00:54:28,730

side right overhead and this arch that

1238

00:54:34,870 --> 00:54:30,860

they had that was sort of tipped on its

1239

00:54:39,850 --> 00:54:34,880

side it sort of makes sense given the

1240

00:54:42,670 --> 00:54:39,860

ring structure of the of Saturn so it's

1241

00:54:45,430 --> 00:54:42,680

a it's a really great idea that you

1242

00:54:49,000 --> 00:54:45,440

raise also the example that you're

1243

00:54:53,220 --> 00:54:49,010

raised of Las Vegas I mean that was a

1244

00:54:56,800 --> 00:54:53,230

brilliant example that's exactly it as a

1245

00:55:00,010 --> 00:54:56,810

luxury right off the scale in the middle

1246

00:55:02,560 --> 00:55:00,020

of a desert that those contrasts are

1247

00:55:06,370 --> 00:55:02,570

what makes something so interesting

1248

00:55:09,130 --> 00:55:06,380

those huge unbelievable contrasts but

1249

00:55:14,800 --> 00:55:09,140

yeah that that archetype thing that was

1250

00:55:16,440 --> 00:55:14,810

so clearly described on its side in fact

1251
00:55:19,000 --> 00:55:16,450
for the first time you've actually

1252
00:55:20,140 --> 00:55:19,010
explained why that arch thing would be

1253
00:55:22,780 --> 00:55:20,150
on its side Wow

1254
00:55:26,440 --> 00:55:22,790
it would it would parallel the ring

1255
00:55:28,390 --> 00:55:26,450
structure which is right above yeah yeah

1256
00:55:29,740 --> 00:55:28,400
I had thought that was so awesome

1257
00:55:31,240 --> 00:55:29,750
because he doesn't really know what he's

1258
00:55:35,380 --> 00:55:31,250
looking at and then he sees this thing

1259
00:55:37,360 --> 00:55:35,390
yeah and it fit pretty well yeah and you

1260
00:55:40,810 --> 00:55:37,370
know when they when they described the

1261
00:55:42,610 --> 00:55:40,820
thing and draw pictures of it there it's

1262
00:55:44,860 --> 00:55:42,620
I even have to pinch myself I've been

1263
00:55:46,780 --> 00:55:44,870

doing this for a long time but even I

1264

00:55:49,090 --> 00:55:46,790

when I see these data come in on our

1265

00:55:51,820 --> 00:55:49,100

projects I had to pinch myself because

1266

00:55:53,770 --> 00:55:51,830

here they are both remote viewers -

1267

00:55:56,260 --> 00:55:53,780

Smith and T Caligari they're both saying

1268

00:55:57,940 --> 00:55:56,270

this is a meteor crater what's this

1269

00:56:01,900 --> 00:55:57,950

doing here and then they describe the

1270

00:56:05,350 --> 00:56:01,910

the terrain exactly harsh barren terrain

1271

00:56:07,270 --> 00:56:05,360

with no vegetation I mean it's exactly I

1272

00:56:09,010 --> 00:56:07,280

mean and they're doing it totally blind

1273

00:56:11,950 --> 00:56:09,020

they'd have no idea where I sent them

1274

00:56:13,870 --> 00:56:11,960

and then they'd say and what's this

1275

00:56:15,340 --> 00:56:13,880

thing on the wall of the crater I mean

1276

00:56:17,260 --> 00:56:15,350

how the heck were they supposed to know

1277

00:56:19,630 --> 00:56:17,270

it was on the wall of the crater so I

1278

00:56:23,740 --> 00:56:19,640

mean this is for those people who are

1279

00:56:25,990 --> 00:56:23,750

open-minded but like to be shown the the

1280

00:56:27,790 --> 00:56:26,000

evidence such as a people from the good

1281

00:56:30,340 --> 00:56:27,800

state of Missouri the show-me-state

1282

00:56:33,190 --> 00:56:30,350

that's what true skepticism is meaning

1283

00:56:34,810 --> 00:56:33,200

why should we theorize and say how the

1284

00:56:36,550 --> 00:56:34,820

heck did they know that that thing was

1285

00:56:38,140 --> 00:56:36,560

on the wall of the crater I see it in

1286

00:56:43,390 --> 00:56:38,150

the photograph but they didn't know that

1287

00:56:45,370 --> 00:56:43,400

and so that's really really off the

1288

00:56:46,960 --> 00:56:45,380

scale in terms of interesting and when

1289

00:56:49,450 --> 00:56:46,970

they draw the picture of it and where it

1290

00:56:51,970 --> 00:56:49,460

is on the edge of the crater it's not

1291

00:56:56,290 --> 00:56:51,980

like an approximate sort of but you have

1292

00:56:58,360 --> 00:56:56,300

to sort of forgive them for getting at

1293

00:57:00,730 --> 00:56:58,370

50% right or and it's nothing like that

1294

00:57:02,800 --> 00:57:00,740

they got the whole thing exactly right

1295

00:57:04,840 --> 00:57:02,810

just the way it's there and so when they

1296

00:57:06,730 --> 00:57:04,850

start coming in with the new data which

1297

00:57:09,150 --> 00:57:06,740

is not in the picture for example when

1298

00:57:12,160 --> 00:57:09,160

they go back in time that becomes

1299

00:57:15,700 --> 00:57:12,170

believable at least very persuasive

1300

00:57:18,460 --> 00:57:15,710

because the stuff they got for what it

1301
00:57:20,980 --> 00:57:18,470
looks like now is so spot-on accurate

1302
00:57:23,020 --> 00:57:20,990
with respect to what you see and the

1303
00:57:25,240 --> 00:57:23,030
picture by the way I should mention Greg

1304
00:57:29,890 --> 00:57:25,250
that we've just covered now a major

1305
00:57:32,110 --> 00:57:29,900
reason why for foresight projects we

1306
00:57:36,610 --> 00:57:32,120
have to have that verifiable element

1307
00:57:38,860 --> 00:57:36,620
because it's it's that accuracy for the

1308
00:57:41,980 --> 00:57:38,870
verifiable stuff that everything else

1309
00:57:44,590 --> 00:57:41,990
depends yeah that makes a lot of sense

1310
00:57:46,870 --> 00:57:44,600
so we are getting kind of close to the

1311
00:57:48,640 --> 00:57:46,880
end here you've done so many high

1312
00:57:51,190 --> 00:57:48,650
profile targets already I'm kind of

1313
00:57:52,780 --> 00:57:51,200

curious outside of or beyond the Phoenix

1314

00:57:54,190 --> 00:57:52,790

lights is there anything else on your

1315

00:57:57,280 --> 00:57:54,200

list for the future you guys gonna be

1316

00:58:01,060 --> 00:57:57,290

taking a look at well in the old days I

1317

00:58:02,800 --> 00:58:01,070

would simply lie to you but now I I've

1318

00:58:05,170 --> 00:58:02,810

been caught at it so many times I just

1319

00:58:08,020 --> 00:58:05,180

thought to tell people it's it's obvious

1320

00:58:09,849 --> 00:58:08,030

we can never tell our future projects

1321

00:58:11,230 --> 00:58:09,859

the only reason I can tell you that

1322

00:58:13,349 --> 00:58:11,240

Phoenix lights is coming because the

1323

00:58:15,640 --> 00:58:13,359

remote feelings already done right

1324

00:58:18,700 --> 00:58:15,650

everything that we do has to be done

1325

00:58:21,700 --> 00:58:18,710

under totally blind conditions totally

1326
00:58:23,410 --> 00:58:21,710
there can be no leaks so if anyone ever

1327
00:58:26,109 --> 00:58:23,420
asks me are you gonna do this or you're

1328
00:58:28,270 --> 00:58:26,119
gonna do that I would always say under

1329
00:58:30,160 --> 00:58:28,280
no circumstances never would we touch

1330
00:58:31,780 --> 00:58:30,170
that in fact for years I told the remote

1331
00:58:34,240 --> 00:58:31,790
viewers and radio hosts that we would

1332
00:58:36,310 --> 00:58:34,250
never touch 911 we knew the government

1333
00:58:38,710 --> 00:58:36,320
didn't want us to do it it's a hands off

1334
00:58:40,690 --> 00:58:38,720
or not gonna touch it and it was at a

1335
00:58:42,550 --> 00:58:40,700
time when I thought everyone believed me

1336
00:58:46,210 --> 00:58:42,560
that I said now's the time perfect time

1337
00:58:49,450 --> 00:58:46,220
to do it so you know that's the only

1338
00:58:52,030 --> 00:58:49,460

time I officially lie when someone asks

1339

00:58:53,800 --> 00:58:52,040

us about a future target because as soon

1340

00:58:56,829 --> 00:58:53,810

as you say that you might do a target

1341

00:58:59,559 --> 00:58:56,839

that target cannot be done yeah it won't

1342

00:59:02,559 --> 00:58:59,569

influence the actual you can't I mean

1343

00:59:05,020 --> 00:59:02,569

it's it's garbage is you the whole thing

1344

00:59:07,120 --> 00:59:05,030

would be a public scandal no less I mean

1345

00:59:09,010 --> 00:59:07,130

everyone be able to point to say no you

1346

00:59:11,079 --> 00:59:09,020

talked about it on this radio show they

1347

00:59:12,520 --> 00:59:11,089

were gonna do that project so obviously

1348

00:59:13,780 --> 00:59:12,530

the remote viewers knew that was coming

1349

00:59:16,000 --> 00:59:13,790

and that's why they got the data that

1350

00:59:18,490 --> 00:59:16,010

was their affair I mean it would totally

1351
00:59:20,500 --> 00:59:18,500
corrupt everything we do so that's one

1352
00:59:22,450 --> 00:59:20,510
question I have never been able to

1353
00:59:23,740 --> 00:59:22,460
address truthfully so the only thing I'm

1354
00:59:25,510 --> 00:59:23,750
telling you now that's different from

1355
00:59:27,400 --> 00:59:25,520
the past is I'm telling you I'm not

1356
00:59:30,940 --> 00:59:27,410
gonna answer the question rather than

1357
00:59:33,339 --> 00:59:30,950
give you a story about this right right

1358
00:59:35,380 --> 00:59:33,349
normally what I would do is I'd wait for

1359
00:59:37,180 --> 00:59:35,390
them to ask me are you ever gonna do

1360
00:59:39,099 --> 00:59:37,190
this or are you gonna do that and then I

1361
00:59:41,410 --> 00:59:39,109
would definitively say no under no

1362
00:59:43,300 --> 00:59:41,420
circumstances would we ever do that yeah

1363
00:59:46,150 --> 00:59:43,310

even if but but in fact I may be

1364

00:59:48,400 --> 00:59:46,160

planning on doing that so yeah you got

1365

00:59:51,010 --> 00:59:48,410

to preserve that integrity which I guess

1366

00:59:53,050 --> 00:59:51,020

so yeah well wow man this has been

1367

00:59:55,050 --> 00:59:53,060

really fascinating we covered a lot of

1368

00:59:57,550 --> 00:59:55,060

different projects you guys have done

1369

00:59:59,410 --> 00:59:57,560

super awesome and I'm glad to see this

1370

01:00:00,819 --> 00:59:59,420

project happening is would you like to

1371

01:00:02,349 --> 01:00:00,829

remind the people one more time where

1372

01:00:04,870 --> 01:00:02,359

they can get the full details on some of

1373

01:00:07,109 --> 01:00:04,880

these things before we go yeah every

1374

01:00:12,039 --> 01:00:07,119

things on our website at farsighted org

1375

01:00:13,839 --> 01:00:12,049

WWF RS 8fa RSI GHD org o RG because

1376
01:00:15,670 --> 01:00:13,849
we're a non-profit and please when you

1377
01:00:17,710 --> 01:00:15,680
go there please sign up for our free

1378
01:00:19,690 --> 01:00:17,720
newsletter just put your email address

1379
01:00:22,779 --> 01:00:19,700
in that's the only way we have to

1380
01:00:26,319 --> 01:00:22,789
connect with people and we actually are

1381
01:00:29,589 --> 01:00:26,329
we actually have a very active youtube

1382
01:00:31,660 --> 01:00:29,599
channel as well which you'll hear more

1383
01:00:33,819 --> 01:00:31,670
about on our free newsletter so if you

1384
01:00:36,069 --> 01:00:33,829
get the newsletter you'll be connected

1385
01:00:39,130 --> 01:00:36,079
to our youtube channel as well so

1386
01:00:40,870 --> 01:00:39,140
YouTube's really helped us to boost up

1387
01:00:44,259 --> 01:00:40,880
the professionalism of our YouTube

1388
01:00:46,660 --> 01:00:44,269

channel so it's a really well organized

1389

01:00:48,789 --> 01:00:46,670

and a ton of free information we have

1390

01:00:51,190 --> 01:00:48,799

lots of trailers for all of our projects

1391

01:00:53,019 --> 01:00:51,200

all of our major projects and we

1392

01:00:54,910 --> 01:00:53,029

designed this trailers to actually be

1393

01:00:56,559 --> 01:00:54,920

windows that are behind the scenes so

1394

01:00:58,990 --> 01:00:56,569

they're not just they're not promotional

1395

01:01:01,150 --> 01:00:59,000

stuff it's actually windows behind the

1396

01:01:03,130 --> 01:01:01,160

scenes of so they give you all types of

1397

01:01:05,769 --> 01:01:03,140

extra information about the stuff going

1398

01:01:07,569 --> 01:01:05,779

on that's not in the documentary so it's

1399

01:01:09,910 --> 01:01:07,579

fascinating just to go through all the

1400

01:01:11,319 --> 01:01:09,920

into so-called trailers but they're

1401
01:01:12,299 --> 01:01:11,329
really behind the scene type things

1402
01:01:15,400 --> 01:01:12,309
awesome

1403
01:01:17,650 --> 01:01:15,410
well man thanks again Courtney this has

1404
01:01:19,539 --> 01:01:17,660
been great and I wish you guys the best

1405
01:01:20,849 --> 01:01:19,549
of luck out there keep doing what you do

1406
01:01:23,829 --> 01:01:20,859
and take care of yourself

1407
01:01:26,200 --> 01:01:23,839
yeah thanks Greg for the interview and I

1408
01:01:27,910 --> 01:01:26,210
appreciate very much rock me like a

1409
01:01:29,740 --> 01:01:27,920
hurricane people there we have it

1410
01:01:31,480 --> 01:01:29,750
definitely an interesting idea

1411
01:01:33,460 --> 01:01:31,490
I do wish we could have gotten into a

1412
01:01:35,380 --> 01:01:33,470
little more detail about the results of

1413
01:01:37,569 --> 01:01:35,390

these projects but it was a good time

1414

01:01:39,609 --> 01:01:37,579

and if you woke up today not knowing

1415

01:01:41,410 --> 01:01:39,619

about the farside Institute I think it's

1416

01:01:43,089 --> 01:01:41,420

at least something to make you wonder I

1417

01:01:45,460 --> 01:01:43,099

really do think remote viewing is

1418

01:01:46,900 --> 01:01:45,470

legitimate practice but it is tough for

1419

01:01:49,420 --> 01:01:46,910

a layman to understand what the

1420

01:01:51,069 --> 01:01:49,430

limitations of such a tool might be I've

1421

01:01:53,289 --> 01:01:51,079

seen enough to place my bet on there

1422

01:01:56,769 --> 01:01:53,299

being some type of ruins on the Moon and

1423

01:01:58,569 --> 01:01:56,779

Mars and I guess now I a pitous and even

1424

01:02:00,940 --> 01:01:58,579

if they are there all we can really do

1425

01:02:02,829 --> 01:02:00,950

is guess as to why and at least now we

1426
01:02:05,049 --> 01:02:02,839
have a group who's trying to dig deeper

1427
01:02:06,849 --> 01:02:05,059
in a more substantial way we did talk a

1428
01:02:08,740 --> 01:02:06,859
little bit about the Atlantis project

1429
01:02:10,480 --> 01:02:08,750
and the Mars project in the first hour

1430
01:02:12,549 --> 01:02:10,490
but in the Plus show we got more into

1431
01:02:15,309 --> 01:02:12,559
the cydonia study and the face on Mars

1432
01:02:17,890 --> 01:02:15,319
as well as the Pyramids of Giza project

1433
01:02:18,710 --> 01:02:17,900
and the 911 sessions all great

1434
01:02:21,170 --> 01:02:18,720
application

1435
01:02:22,820 --> 01:02:21,180
of remote-viewing if you ask me maybe

1436
01:02:24,710 --> 01:02:22,830
the Atlanteans did uh sure in their own

1437
01:02:26,870 --> 01:02:24,720
demise maybe some ancient

1438
01:02:29,210 --> 01:02:26,880

extraterrestrial tycoon did build an

1439

01:02:31,490 --> 01:02:29,220

intergalactic space spa retreat center

1440

01:02:33,500 --> 01:02:31,500

on a desert moon of Saturn either way

1441

01:02:35,510 --> 01:02:33,510

I'm glad the farside Institute is out

1442

01:02:36,920 --> 01:02:35,520

there keeping things interesting and I

1443

01:02:39,560 --> 01:02:36,930

guess that's another one in the bag as

1444

01:02:41,690 --> 01:02:39,570

always thanks for listening I'll see you

1445

01:02:43,370 --> 01:02:41,700

soon with something new and as for

1446

01:02:44,900 --> 01:02:43,380

adding a few more pieces of the big

1447

01:02:47,030 --> 01:02:44,910

mysterious puzzle of life the universe

1448

01:02:47,599 --> 01:02:47,040

and everything I think I did my part

1449

01:02:49,460 --> 01:02:47,609

today

1450

01:03:04,059 --> 01:02:49,470

your move builders of the elaborate

1451

01:03:13,989 --> 01:03:08,999

seas everybody's looking for something

1452

01:03:18,099 --> 01:03:13,999

some of them want to use you some of

1453

01:03:22,420 --> 01:03:18,109

them want to get used by you some of

1454

01:03:50,520 --> 01:03:22,430

them want to abuse you some of them want

1455

01:03:50,530 --> 01:03:57,960

day of the Sun
