THE
HIGHERSIDE
SERIES

1
00:00:09,080 --> 00:00:07,280
the planets thought the Masters almost

2
00:00:11,390 --> 00:00:09,090
surely have a plan

3
00:00:13,880 --> 00:00:11,400
this clearly may be something near

4
00:00:18,050 --> 00:00:13,890
beyond the realm of man

5
00:00:20,660 --> 00:00:18,060
I already tested every last question I'm

6
00:00:38,030 --> 00:00:20,670
fine boy you think you know the less you

7
00:00:38,040 --> 00:00:42,870
aside

8
00:00:47,100 --> 00:00:45,150
all right people we know the shadowy

9
00:00:48,990 --> 00:00:47,110
elite have dedicated many pages in their

10
00:00:51,270 --> 00:00:49,000
playbook to suppressing information

11
00:00:52,530 --> 00:00:51,280
technology and scientific advancements

12
00:00:54,060 --> 00:00:52,540
that could improve the lives of the

13
00:00:56,190 --> 00:00:54,070

people and help us better understand

14

00:00:58,290 --> 00:00:56,200

reality but those of us who are paying

15

00:01:00,360 --> 00:00:58,300

attention have recognized the scientific

16

00:01:02,430 --> 00:01:00,370

quarantine and seen many indications of

17

00:01:04,350 --> 00:01:02,440

the big suppression along the way the

18

00:01:06,570 --> 00:01:04,360

work of Nikola Tesla denial of

19

00:01:09,060 --> 00:01:06,580

electrogravitic crafts lost legends of

20

00:01:10,650 --> 00:01:09,070

alchemy the lies of NASA whispers of a

21

00:01:12,690 --> 00:01:10,660

breakaway civilization and the

22

00:01:14,040 --> 00:01:12,700

free-energy cancer cure technologies

23

00:01:16,710 --> 00:01:14,050

we've heard exist but have been

24

00:01:18,030 --> 00:01:16,720

thoroughly kibosh for our own good we

25

00:01:19,710 --> 00:01:18,040

know there's hidden truth is in these

26

00:01:21,690 --> 00:01:19,720

areas and that mainstream science is

27

00:01:23,040 --> 00:01:21,700

incomplete and here to help us piece the

28

00:01:25,170 --> 00:01:23,050

puzzle back together as an independent

29

00:01:27,510 --> 00:01:25,180

researcher known only as the Shema

30

00:01:29,609 --> 00:01:27,520

engineer for over a decade he's worked

31

00:01:31,889 --> 00:01:29,619

in a variety of industries on robotics

32

00:01:33,359 --> 00:01:31,899

manufacturing equipment chemical systems

33

00:01:35,310 --> 00:01:33,369

and alternative energy and he knows

34

00:01:37,230 --> 00:01:35,320

firsthand that were being held back in

35

00:01:39,120 --> 00:01:37,240

more ways than one after a few

36

00:01:40,980 --> 00:01:39,130

interesting posts on the Plus forums he

37

00:01:43,260 --> 00:01:40,990

contacted me directly through the THC

38

00:01:45,240 --> 00:01:43,270

plus messaging system with a ton of

39

00:01:47,010 --> 00:01:45,250

titillating research and information

40

00:01:49,290 --> 00:01:47,020

that I think will make an excellent show

41

00:01:51,059 --> 00:01:49,300

I know I've had my mind blown more than

42

00:01:52,859 --> 00:01:51,069

a few times already and I can't wait to

43

00:01:54,480 --> 00:01:52,869

get back into this stuff and his first

44

00:01:56,820 --> 00:01:54,490

real interview coming out of the shadows

45

00:01:59,219 --> 00:01:56,830

nah under the mainstage sure mangia near

46

00:02:01,169 --> 00:01:59,229

my man welcome to the higher side thank

47

00:02:04,350 --> 00:02:01,179

you very much Greg that's a great intro

48

00:02:05,850 --> 00:02:04,360

as always I try man's one of the few

49

00:02:08,279 --> 00:02:05,860

jobs a host has that they should

50

00:02:10,050 --> 00:02:08,289

actually put some energy into but this

51
00:02:12,510 --> 00:02:10,060
is exciting man people have requested

52
00:02:14,490 --> 00:02:12,520
many times that maybe I have a listener

53
00:02:16,470 --> 00:02:14,500
or a member from the forums on as a

54
00:02:18,720 --> 00:02:16,480
guest and I've been pretty resistant to

55
00:02:20,610 --> 00:02:18,730
it but you hit me with some super

56
00:02:22,920 --> 00:02:20,620
fascinating stuff and have connected a

57
00:02:25,199 --> 00:02:22,930
lot of dots between previous guests and

58
00:02:27,270 --> 00:02:25,209
topics that have really been some of my

59
00:02:29,880 --> 00:02:27,280
favorite and a lot of this revolves

60
00:02:32,100 --> 00:02:29,890
around ether I guess this idea that many

61
00:02:33,570 --> 00:02:32,110
bright minds used to include in their

62
00:02:36,000 --> 00:02:33,580
model of the universe but mainstream

63
00:02:38,729 --> 00:02:36,010

science has taken out most likely

64

00:02:40,949 --> 00:02:38,739

because of its huge potential and we're

65

00:02:42,690 --> 00:02:40,959

now given a model of space as an empty

66

00:02:45,390 --> 00:02:42,700

void literally nothing to see here

67

00:02:47,130 --> 00:02:45,400

people and I guess this ties into a lot

68

00:02:49,290 --> 00:02:47,140

of other areas but lay us a base here

69

00:02:52,890 --> 00:02:49,300

what is being proposed in this dynamic

70

00:02:55,690 --> 00:02:52,900

ether Theory well I should just start

71

00:02:59,830 --> 00:02:55,700

with what ether is

72

00:03:01,750 --> 00:02:59,840

just in itself sure I mean people say oh

73

00:03:03,309 --> 00:03:01,760

I pull stuff out of the ether you've

74

00:03:06,220 --> 00:03:03,319

said that on your show several times

75

00:03:08,710 --> 00:03:06,230

that guilty and so it's in the DOMA

76

00:03:11,460 --> 00:03:08,720

nature people say it but they don't

77

00:03:14,890 --> 00:03:11,470

really understand what it means so

78

00:03:18,370 --> 00:03:14,900

there's kind of a nebulous understanding

79

00:03:21,640 --> 00:03:18,380

of it as this other space or something

80

00:03:23,170 --> 00:03:21,650

like that and the understanding doesn't

81

00:03:25,710 --> 00:03:23,180

really go much beyond that sometimes

82

00:03:29,589 --> 00:03:25,720

people will build into the actual

83

00:03:32,880 --> 00:03:29,599

scientific background of it but not very

84

00:03:36,160 --> 00:03:32,890

deep because we're always told that

85

00:03:38,710 --> 00:03:36,170

general relativity just put the kibosh

86

00:03:41,289 --> 00:03:38,720

on that it's all done with you don't

87

00:03:45,190 --> 00:03:41,299

need to worry about ether just worry

88

00:03:48,400 --> 00:03:45,200

about relativity and space-time is a

89

00:03:52,089 --> 00:03:48,410

good analogy to the ether actually

90

00:03:55,750 --> 00:03:52,099

because that is the modern ether it's

91

00:03:57,850 --> 00:03:55,760

what we use in our conception for a way

92

00:04:00,550 --> 00:03:57,860

for light to bend and things like that

93

00:04:04,090 --> 00:04:00,560

which is actually covered in the ether

94

00:04:06,940 --> 00:04:04,100

theory mm-hmm so ether is the medium of

95

00:04:11,640 --> 00:04:06,950

light in the ether model it composes

96

00:04:14,650 --> 00:04:11,650

matter and it gives rise to gravity so

97

00:04:16,330 --> 00:04:14,660

gravity in the ether model is

98

00:04:19,539 --> 00:04:16,340

essentially a flow of ether

99

00:04:21,550 --> 00:04:19,549

if you imagine kind of a fluid flowing

100

00:04:25,540 --> 00:04:21,560

past you and holding you down to the

101
00:04:28,930 --> 00:04:25,550
earth that's an analogy but it's kind of

102
00:04:32,710 --> 00:04:28,940
a spatial fluid okay so this is just

103
00:04:36,600 --> 00:04:32,720
broad strokes what might either be

104
00:04:41,110 --> 00:04:36,610
conceived of that's ether with an e

105
00:04:46,270 --> 00:04:41,120
there's also what's discussed a either

106
00:04:49,839 --> 00:04:46,280
the ae4 version of that word right and

107
00:04:54,190 --> 00:04:49,849
it's for the undifferentiated ether it's

108
00:04:57,790 --> 00:04:54,200
the ether that is more an informational

109
00:04:59,860 --> 00:04:57,800
ether the thought space there's actually

110
00:05:03,610 --> 00:04:59,870
this relationship between the two ethers

111
00:05:05,830 --> 00:05:03,620
where one gives rise to the other the

112
00:05:09,210 --> 00:05:05,840
undifferentiated ether gives rise to the

113
00:05:12,800 --> 00:05:09,220

differentiated either that relationship

114

00:05:16,980 --> 00:05:12,810

can account for the transition from

115

00:05:19,980 --> 00:05:16,990

material to energy to information okay

116

00:05:22,980 --> 00:05:19,990

and these are the main levels of how

117

00:05:26,580 --> 00:05:22,990

modeling occurs in any science so you

118

00:05:29,370 --> 00:05:26,590

have to take account of matter energy

119

00:05:31,080 --> 00:05:29,380

and information and how those all

120

00:05:34,440 --> 00:05:31,090

transpose there's there's actually

121

00:05:37,860 --> 00:05:34,450

something called Maxwell's demon which

122

00:05:40,380 --> 00:05:37,870

is the concept of being able to make an

123

00:05:44,880 --> 00:05:40,390

information change having that give rise

124

00:05:48,270 --> 00:05:44,890

to energy and so Maxwell's demon is what

125

00:05:51,150 --> 00:05:48,280

prevents you from doing that but there

126
00:05:54,330 --> 00:05:51,160
was recent experiments a few years ago

127
00:05:57,960 --> 00:05:54,340
where they they actually claimed to have

128
00:06:00,330 --> 00:05:57,970
quantum leap I asked Maxwell's demon so

129
00:06:02,670 --> 00:06:00,340
there's implications right there for

130
00:06:04,890 --> 00:06:02,680
things like free energy and stuff like

131
00:06:06,540 --> 00:06:04,900
that and also that would fit with the

132
00:06:09,270 --> 00:06:06,550
ether model being able to do something

133
00:06:12,500 --> 00:06:09,280
like that because that would include a

134
00:06:16,190 --> 00:06:12,510
larger informational space beyond our

135
00:06:21,180 --> 00:06:16,200
stated reality our observable reality

136
00:06:25,380 --> 00:06:21,190
that's kind of a base conception of how

137
00:06:27,390 --> 00:06:25,390
all this relates to everything from what

138
00:06:31,740 --> 00:06:27,400

you can touch to what you think mm-hmm

139

00:06:34,320 --> 00:06:31,750

right on so yeah it's definitely dense

140

00:06:35,880 --> 00:06:34,330

stuff and you know as you mentioned in

141

00:06:38,310 --> 00:06:35,890

our conversation I've had a lot of

142

00:06:40,740 --> 00:06:38,320

guests who allude to a secret science

143

00:06:43,020 --> 00:06:40,750

and an incomplete puzzle but a lot of

144

00:06:45,330 --> 00:06:43,030

the dots have kind of yet to really

145

00:06:48,420 --> 00:06:45,340

connect and this is the answer as you

146

00:06:49,830 --> 00:06:48,430

see it right yeah once I start to get

147

00:06:52,110 --> 00:06:49,840

into the history I'm going to get to

148

00:06:54,090 --> 00:06:52,120

that later but you'll see that ether

149

00:06:57,690 --> 00:06:54,100

theory is really what has given rise to

150

00:07:01,920 --> 00:06:57,700

those technologies and it didn't start

151
00:07:05,670 --> 00:07:01,930
in you know the 1940s after World War

152
00:07:08,220 --> 00:07:05,680
two it started much earlier and it has

153
00:07:12,120 --> 00:07:08,230
roots going all the way into the

154
00:07:14,280 --> 00:07:12,130
Renaissance hmm Perseids it's something

155
00:07:16,740 --> 00:07:14,290
that you know once you start to get into

156
00:07:18,960 --> 00:07:16,750
the understanding of alchemy and how

157
00:07:20,400 --> 00:07:18,970
that fits into the ether model then

158
00:07:22,540 --> 00:07:20,410
they'll that will start to make a bit

159
00:07:25,930 --> 00:07:22,550
more sense right on so

160
00:07:28,140 --> 00:07:25,940
you know if we call the air or the the

161
00:07:32,460 --> 00:07:28,150
atmosphere or whatever we call it ether

162
00:07:35,950 --> 00:07:32,470
well that's not really correct so air is

163
00:07:38,230 --> 00:07:35,960

an atomic structure it's a molecular

164

00:07:40,390 --> 00:07:38,240

structure action okay yeah so all these

165

00:07:43,240 --> 00:07:40,400

different atoms and molecules but the

166

00:07:45,940 --> 00:07:43,250

ether is like the fluid of space it's

167

00:07:51,160 --> 00:07:45,950

the electric fluid as Faraday called it

168

00:07:52,980 --> 00:07:51,170

okay so sure yeah I'm this is fairly new

169

00:07:57,190 --> 00:07:52,990

to me in terms of the actual

170

00:07:59,500 --> 00:07:57,200

nomenclature in terms but why should you

171

00:08:01,510 --> 00:07:59,510

know why should a listener care what are

172

00:08:04,750 --> 00:08:01,520

the implications of this understanding

173

00:08:08,830 --> 00:08:04,760

of the environment kind of as opposed to

174

00:08:12,120 --> 00:08:08,840

the traditional one basically the

175

00:08:14,970 --> 00:08:12,130

current scientific model is extremely

176

00:08:17,350 --> 00:08:14,980

materialistic it's it's based on

177

00:08:20,650 --> 00:08:17,360

observations that are very strictly

178

00:08:23,080 --> 00:08:20,660

defined in terms of being able to be

179

00:08:25,600 --> 00:08:23,090

explained in a rational way with

180

00:08:29,080 --> 00:08:25,610

material models everything boils down to

181

00:08:31,030 --> 00:08:29,090

particles even dark matter that's

182

00:08:35,920 --> 00:08:31,040

something we can't observe but yet oh

183

00:08:39,070 --> 00:08:35,930

well it must be matter right so do you

184

00:08:42,930 --> 00:08:39,080

want to get into maybe some of the best

185

00:08:46,600 --> 00:08:42,940

scientific evidence for the ether model

186

00:08:49,030 --> 00:08:46,610

sure so I'll go ahead and start with a

187

00:08:52,210 --> 00:08:49,040

you quotes from Tesla and Einstein

188

00:08:55,300 --> 00:08:52,220

because at the time of Einstein

189

00:08:58,510 --> 00:08:55,310

proposing relativity Tesla was one of

190

00:09:03,160 --> 00:08:58,520

the main objectives to his model and so

191

00:09:07,180 --> 00:09:03,170

you'll see a bit of his own idea of what

192

00:09:09,430 --> 00:09:07,190

was going on the time so today's

193

00:09:11,080 --> 00:09:09,440

scientists have substituted mathematics

194

00:09:13,000 --> 00:09:11,090

for experiments and they wander off

195

00:09:14,320 --> 00:09:13,010

through equation after equation and

196

00:09:15,940 --> 00:09:14,330

eventually build a structure which has

197

00:09:19,360 --> 00:09:15,950

no relation to reality

198

00:09:21,220 --> 00:09:19,370

that's what Nikola Tesla said hmm now

199

00:09:24,220 --> 00:09:21,230

I'm going to give some quotes from

200

00:09:26,460 --> 00:09:24,230

Albert Einstein on the ether because

201
00:09:29,500 --> 00:09:26,470
most people don't realize this but

202
00:09:31,390 --> 00:09:29,510
relativity requires an ether and and

203
00:09:34,210 --> 00:09:31,400
Albert Einstein actually said that and

204
00:09:35,950 --> 00:09:34,220
these quotes will illustrate that the

205
00:09:36,400 --> 00:09:35,960
special theory of relativity does not

206
00:09:38,800 --> 00:09:36,410
compel

207
00:09:40,449 --> 00:09:38,810
to deny we may assume the existence of

208
00:09:44,379 --> 00:09:40,459
an ether only we must give up

209
00:09:47,470 --> 00:09:44,389
describing a definite motion to it ie we

210
00:09:49,660 --> 00:09:47,480
must take by extraction from it the last

211
00:09:52,030 --> 00:09:49,670
mechanical characteristic which Lorenz

212
00:09:55,749 --> 00:09:52,040
had still left it so what he's saying

213
00:09:59,410 --> 00:09:55,759

there is that I am using an ether model

214

00:10:02,069 --> 00:09:59,420

but this ether can't move so that's

215

00:10:05,829 --> 00:10:02,079

where we get the idea of curvature of

216

00:10:09,069 --> 00:10:05,839

space-time curvature that gravitational

217

00:10:11,439 --> 00:10:09,079

lensing bending light around objects and

218

00:10:15,790 --> 00:10:11,449

things like that it comes from this idea

219

00:10:19,780 --> 00:10:15,800

that you can't have things moving in

220

00:10:21,429 --> 00:10:19,790

terms of space-time really and then

221

00:10:23,889 --> 00:10:21,439

here's another quote from Albert

222

00:10:25,600 --> 00:10:23,899

Einstein it would be a great advance if

223

00:10:26,980 --> 00:10:25,610

we can succeed in comprehending the

224

00:10:28,929 --> 00:10:26,990

gravitational field and the

225

00:10:31,780 --> 00:10:28,939

electromagnetic field together as one

226

00:10:33,819 --> 00:10:31,790

unified confirmation then for the first

227

00:10:36,249 --> 00:10:33,829

time in the epoch of theoretical physics

228

00:10:38,319 --> 00:10:36,259

founded by Faraday and Maxwell we would

229

00:10:40,269 --> 00:10:38,329

reach a satisfactory conclusion the

230

00:10:44,170 --> 00:10:40,279

contrast between ether and matter which

231

00:10:49,569 --> 00:10:44,180

bade obey so even Einstein recognizes

232

00:10:51,309 --> 00:10:49,579

that ether and matter are related then

233

00:10:53,620 --> 00:10:51,319

that there's a kind of a transmutation

234

00:10:55,960 --> 00:10:53,630

going on between there that's out what I

235

00:10:59,160 --> 00:10:55,970

think what he was talking about in his e

236

00:11:00,970 --> 00:10:59,170

equals mc-squared equation hmm

237

00:11:03,639 --> 00:11:00,980

interesting yeah I love getting the

238

00:11:06,309 --> 00:11:03,649

context for those old quotes because it

239

00:11:09,160 --> 00:11:06,319

seems like our modern interpretation has

240

00:11:12,249 --> 00:11:09,170

gotten way away from even what the guys

241

00:11:14,949 --> 00:11:12,259

were saying at the time and it's just

242

00:11:18,069 --> 00:11:14,959

kind of weird how we leave out some of

243

00:11:20,769 --> 00:11:18,079

even their questions about you know what

244

00:11:22,210 --> 00:11:20,779

remains but I guess another part of this

245

00:11:23,999 --> 00:11:22,220

we should talk about is what is ether

246

00:11:28,240 --> 00:11:24,009

drift

247

00:11:30,340 --> 00:11:28,250

so I'll start real quickly with what

248

00:11:33,670 --> 00:11:30,350

kind of gave rise to the model of the

249

00:11:36,429 --> 00:11:33,680

ether that the either drift experiments

250

00:11:40,420 --> 00:11:36,439

were trying to look after if you think

251

00:11:43,960 --> 00:11:40,430

about sound traveling in air or water

252

00:11:47,110 --> 00:11:43,970

the denser the medium the better the

253

00:11:50,139 --> 00:11:47,120

transmission so it'll be louder better

254

00:11:52,809 --> 00:11:50,149

attenuation you know you'll pick up more

255

00:11:55,689 --> 00:11:52,819

and you hear that with whale songs

256

00:11:57,910 --> 00:11:55,699

versus bird songs if you walk away from

257

00:11:59,889 --> 00:11:57,920

a bird singing it'll drop off pretty

258

00:12:02,499 --> 00:11:59,899

quickly if you're underwater it's much

259

00:12:05,379 --> 00:12:02,509

denser and the whales song will carry

260

00:12:07,720 --> 00:12:05,389

for miles but when they were looking at

261

00:12:10,960 --> 00:12:07,730

light when they're first looking at the

262

00:12:14,049 --> 00:12:10,970

properties of light they basically

263

00:12:16,949 --> 00:12:14,059

realized okay this is traveling so fast

264

00:12:19,179 --> 00:12:16,959

it must be an incredibly dense media and

265

00:12:20,920 --> 00:12:19,189

it's kind of a little bit elastic

266

00:12:22,989 --> 00:12:20,930

soaking allow these waves to pass

267

00:12:24,670 --> 00:12:22,999

through they understood the interference

268

00:12:26,920 --> 00:12:24,680

of the waves and things like that so

269

00:12:30,100 --> 00:12:26,930

they understood that they were working

270

00:12:32,530 --> 00:12:30,110

with wave action and so that's basically

271

00:12:36,939 --> 00:12:32,540

where the model of the luminiferous

272

00:12:41,199 --> 00:12:36,949

ether comes from now Michelson Morley

273

00:12:42,309 --> 00:12:41,209

experiment was set up to test the

274

00:12:45,730 --> 00:12:42,319

illumina furs

275

00:12:47,769 --> 00:12:45,740

if ether model so basically what they

276

00:12:49,509 --> 00:12:47,779

did was they made a large granite

277

00:12:52,090 --> 00:12:49,519

platform I believe or maybe the

278

00:12:56,230 --> 00:12:52,100

sandstone it was heavy and it was very

279

00:12:58,840 --> 00:12:56,240

stable and then they built a cross array

280

00:13:00,579 --> 00:12:58,850

on it that had mirrors and lights and

281

00:13:02,829 --> 00:13:00,589

they would look and they would see if

282

00:13:04,929 --> 00:13:02,839

there was a drift in this little fringe

283

00:13:07,179 --> 00:13:04,939

pattern that would be set up where they

284

00:13:09,790 --> 00:13:07,189

were supposed to look and by observing

285

00:13:12,549 --> 00:13:09,800

that drift and the fringes they could

286

00:13:15,340 --> 00:13:12,559

tell if there was an etheric motion

287

00:13:18,809 --> 00:13:15,350

being entrained by the earth as it moved

288

00:13:21,369 --> 00:13:18,819

through space so if you think about just

289

00:13:23,460 --> 00:13:21,379

clumping a ball through water or

290

00:13:25,989 --> 00:13:23,470

something like that you're going to have

291

00:13:28,389 --> 00:13:25,999

this boundary layer that gets built up

292

00:13:31,449 --> 00:13:28,399

around it where there's less drift

293

00:13:34,829 --> 00:13:31,459

towards the surface but if you're able

294

00:13:38,019 --> 00:13:34,839

to to measure it can get a a good idea

295

00:13:40,360 --> 00:13:38,029

kind of the properties but the thing was

296

00:13:42,309 --> 00:13:40,370

that the Michelson Morley experiment was

297

00:13:44,470 --> 00:13:42,319

an extremely deficient experiment

298

00:13:47,860 --> 00:13:44,480

it only had 36 data points which is

299

00:13:49,780 --> 00:13:47,870

fairly statistically significant so when

300

00:13:52,179 --> 00:13:49,790

you're doing statistical analysis you

301
00:13:55,480 --> 00:13:52,189
want at least 30 data points to have any

302
00:13:57,999 --> 00:13:55,490
real statistical significance and if

303
00:14:01,059 --> 00:13:58,009
you're making a fundamental observation

304
00:14:03,780 --> 00:14:01,069
of reality I mean how many decimal

305
00:14:05,970 --> 00:14:03,790
places they take out gravity

306
00:14:08,670 --> 00:14:05,980
you know some of these other constants

307
00:14:12,050 --> 00:14:08,680
too in these guys bro using thirty six

308
00:14:16,320 --> 00:14:12,060
data points you can't really make big

309
00:14:17,730 --> 00:14:16,330
determinations from that so today if you

310
00:14:19,260 --> 00:14:17,740
go to Wikipedia you look up the

311
00:14:22,470 --> 00:14:19,270
michelson-morley experiment they'll say

312
00:14:25,650 --> 00:14:22,480
it was a null results right but if you

313
00:14:29,340 --> 00:14:25,660

actually go and look at the paper which

314

00:14:31,650 --> 00:14:29,350

I sent you mm-hmm then there's more to

315

00:14:34,950 --> 00:14:31,660

it than that that you actually see this

316

00:14:37,920 --> 00:14:34,960

small little sinusoidal wave in the raw

317

00:14:41,220 --> 00:14:37,930

data they show it there and in their

318

00:14:43,980 --> 00:14:41,230

supplement to the experiment they

319

00:14:46,680 --> 00:14:43,990

actually say it is obvious from what has

320

00:14:48,720 --> 00:14:46,690

gone before referencing the main body of

321

00:14:50,490 --> 00:14:48,730

the paper that it would be hopeless to

322

00:14:51,780 --> 00:14:50,500

attempt to solve the question of the

323

00:14:54,150 --> 00:14:51,790

motion of the solar system by

324

00:14:56,130 --> 00:14:54,160

observations of optical phenomena at the

325

00:14:57,270 --> 00:14:56,140

surface of the earth now you got to

326

00:15:00,180 --> 00:14:57,280

realize there experiment was conducted

327

00:15:02,580 --> 00:15:00,190

in a basement at sea level so they were

328

00:15:04,590 --> 00:15:02,590

right at the surface there which is be

329

00:15:07,230 --> 00:15:04,600

the worst place to measure it actually

330

00:15:09,300 --> 00:15:07,240

but it is not impossible that it even

331

00:15:10,980 --> 00:15:09,310

moderate distances about the level of

332

00:15:13,020 --> 00:15:10,990

the sea at the top of an isolated

333

00:15:14,970 --> 00:15:13,030

mountain peak for instance the relative

334

00:15:16,920 --> 00:15:14,980

motion might be perceptible and an

335

00:15:19,530 --> 00:15:16,930

apparatus like that used in these

336

00:15:20,610 --> 00:15:19,540

experiments perhaps if the experiment

337

00:15:22,770 --> 00:15:20,620

should ever be tried in these

338

00:15:24,900 --> 00:15:22,780

circumstances the cover should be glass

339

00:15:26,190 --> 00:15:24,910
or should be removed so they're

340

00:15:29,760 --> 00:15:26,200
recognizing that there could be

341

00:15:31,230 --> 00:15:29,770
interference from large masses one more

342

00:15:33,630 --> 00:15:31,240
thing before I give up on

343

00:15:35,700 --> 00:15:33,640
michelson-morley we should note that

344

00:15:38,160 --> 00:15:35,710
Michelson of the Michelson Morley

345

00:15:40,290 --> 00:15:38,170
experiment believed in either based

346

00:15:43,260 --> 00:15:40,300
physics until the day he died to

347

00:15:45,120 --> 00:15:43,270
understand the basic differences in the

348

00:15:48,150 --> 00:15:45,130
different types of beeper now I'm going

349

00:15:50,940 --> 00:15:48,160
to start to go into that so there's a

350

00:15:52,680 --> 00:15:50,950
luminiferous ether and that's the one

351

00:15:55,410 --> 00:15:52,690

that we started to get into a little bit

352

00:15:57,950 --> 00:15:55,420

and the way I really conceived of it is

353

00:16:00,930 --> 00:15:57,960

kind of like a cosmic block of granite

354

00:16:03,570 --> 00:16:00,940

that's kind of rubbery I mean it's very

355

00:16:05,340 --> 00:16:03,580

dense but it's kind of rubbery hmm

356

00:16:08,670 --> 00:16:05,350

because it's able to transmit these

357

00:16:11,910 --> 00:16:08,680

waves I'm just giving you the context

358

00:16:14,520 --> 00:16:11,920

for that experiment gotcha okay so that

359

00:16:17,280 --> 00:16:14,530

you can understand what they actually

360

00:16:19,079 --> 00:16:17,290

proved in the experiment right

361

00:16:20,579 --> 00:16:19,089

I talked about what they actually said

362

00:16:23,610 --> 00:16:20,589

about it they said that they couldn't

363

00:16:26,579 --> 00:16:23,620

really make a determination now I'm

364

00:16:29,160 --> 00:16:26,589

going to go into what is implied by

365

00:16:31,829 --> 00:16:29,170

their experiment and then get into the

366

00:16:33,990 --> 00:16:31,839

further experiments of Dayton Miller

367

00:16:35,610 --> 00:16:34,000

where he actually did follow their

368

00:16:38,340 --> 00:16:35,620

recommendations and go up to the top of

369

00:16:41,759 --> 00:16:38,350

the mountain and take off the covers of

370

00:16:44,629 --> 00:16:41,769

the apparatus mm-hmm so what they were

371

00:16:48,269 --> 00:16:44,639

looking for was the luminiferous ether

372

00:16:51,360 --> 00:16:48,279

their experimental rig was set up for

373

00:16:53,910 --> 00:16:51,370

that and it would have shown something

374

00:16:56,129 --> 00:16:53,920

if it was there the way I would explain

375

00:16:59,759 --> 00:16:56,139

it is it's kind of like you're looking

376

00:17:02,519 --> 00:16:59,769

for hail and you put out a bucket it's

377

00:17:08,069 --> 00:17:02,529

just funny and you're like there's no

378

00:17:10,590 --> 00:17:08,079

moisture here it wasn't set up properly

379

00:17:16,319 --> 00:17:10,600

to detect what's actually there in my

380

00:17:18,120 --> 00:17:16,329

okay so the luminiferous ether think of

381

00:17:20,579 --> 00:17:18,130

a cosmic block of granite representing

382

00:17:23,159 --> 00:17:20,589

space it was a rigid transducer of

383

00:17:25,140 --> 00:17:23,169

electromagnetic waves while the motion

384

00:17:28,289 --> 00:17:25,150

of a rigid ether was disproved by

385

00:17:31,380 --> 00:17:28,299

Michelson Morley it did not disprove the

386

00:17:34,370 --> 00:17:31,390

motion of a dynamic ether a dynamic

387

00:17:38,870 --> 00:17:34,380

ether is an ether that's capable of

388

00:17:42,690 --> 00:17:38,880

transitioning into other states of

389

00:17:47,010 --> 00:17:42,700

arrangement so it would have differing

390

00:17:50,070 --> 00:17:47,020

properties depending on the excitations

391

00:17:51,530 --> 00:17:50,080

that it was experiencing if that makes

392

00:17:54,149 --> 00:17:51,540

sense

393

00:17:55,830 --> 00:17:54,159

now I'm going to explain the difference

394

00:17:58,500 --> 00:17:55,840

between the luminiferous ether and the

395

00:18:01,470 --> 00:17:58,510

relativistic ether so the relativistic

396

00:18:02,970 --> 00:18:01,480

ether is the ether that Albert Einstein

397

00:18:05,700 --> 00:18:02,980

was talking about he was talking about

398

00:18:08,280 --> 00:18:05,710

either in his book now the fabric of

399

00:18:11,430 --> 00:18:08,290

space-time that current scientific

400

00:18:13,530 --> 00:18:11,440

thinking espouses and its really rather

401
00:18:16,370 --> 00:18:13,540
than a fabric it's more of a gelatin

402
00:18:20,280 --> 00:18:16,380
because it fills three dimensional space

403
00:18:22,649 --> 00:18:20,290
it can curve and it can dig you know

404
00:18:25,470 --> 00:18:22,659
twists and things like that but it

405
00:18:27,530 --> 00:18:25,480
doesn't have real motion to it mm-hmm

406
00:18:30,320 --> 00:18:27,540
does that make sense yeah

407
00:18:32,540 --> 00:18:30,330
now like I said before that's where the

408
00:18:36,890 --> 00:18:32,550
concept gravitational lensing comes from

409
00:18:41,480 --> 00:18:36,900
this curvature so now the dynamic ether

410
00:18:43,040 --> 00:18:41,490
is where space can flow and it's the

411
00:18:45,830 --> 00:18:43,050
medium of electromagnetic and

412
00:18:48,440 --> 00:18:45,840
gravitational transmission it's based on

413
00:18:50,690 --> 00:18:48,450

the range of frequency of conduction for

414

00:18:53,900 --> 00:18:50,700

electrical signals and the ether is a

415

00:18:56,290 --> 00:18:53,910

compressible fluid like a gas but it can

416

00:19:00,020 --> 00:18:56,300

act like a liquid or a solid and

417

00:19:04,670 --> 00:19:00,030

possibly even a plasma I'm not sure but

418

00:19:07,760 --> 00:19:04,680

this is kind of the range of states that

419

00:19:10,340 --> 00:19:07,770

we kind of see in our material world

420

00:19:13,450 --> 00:19:10,350

seem to be the sort of states that can

421

00:19:16,040 --> 00:19:13,460

appear in this a theory world and

422

00:19:19,190 --> 00:19:16,050

there's also also the possibility that

423

00:19:21,200 --> 00:19:19,200

when the ancients were talking about the

424

00:19:23,990 --> 00:19:21,210

elements they weren't really talking

425

00:19:27,650 --> 00:19:24,000

about the actual elements that they

426

00:19:31,060 --> 00:19:27,660

thought comprised an atom of any given

427

00:19:36,520 --> 00:19:31,070

material it may have been the states

428

00:19:38,420 --> 00:19:36,530

that were involved in the etheric a

429

00:19:41,420 --> 00:19:38,430

configuration of that material or

430

00:19:43,820 --> 00:19:41,430

something those lines because I think

431

00:19:45,590 --> 00:19:43,830

that a lot of ancient people were

432

00:19:47,960 --> 00:19:45,600

dealing with this stuff on a more

433

00:19:50,450 --> 00:19:47,970

intuitive level because that's how it

434

00:19:55,010 --> 00:19:50,460

expresses itself when it is expressed

435

00:19:58,460 --> 00:19:55,020

mm-hmm in people's minds so I think that

436

00:20:01,120 --> 00:19:58,470

there is some truth to those conceptions

437

00:20:04,430 --> 00:20:01,130

but they aren't in the material realm

438

00:20:07,130 --> 00:20:04,440

specifically they're kind of domains of

439

00:20:09,920 --> 00:20:07,140

the etheric if you think about it that

440

00:20:12,800 --> 00:20:09,930

way for different ways for the spirit

441

00:20:16,070 --> 00:20:12,810

energy to behave depending on the

442

00:20:17,960 --> 00:20:16,080

conditions yeah that makes sense so I'm

443

00:20:19,220 --> 00:20:17,970

going to talk about Dayton Miller now he

444

00:20:23,090 --> 00:20:19,230

followed up on the Michelson Morley

445

00:20:25,550 --> 00:20:23,100

experiments and he basically built a

446

00:20:28,190 --> 00:20:25,560

house a wooden house at the top of Mount

447

00:20:28,850 --> 00:20:28,200

Wilson to house the experimental

448

00:20:32,030 --> 00:20:28,860

apparatus

449

00:20:33,710 --> 00:20:32,040

it was own large block of stone hit a

450

00:20:35,480 --> 00:20:33,720

few different configurations I think

451
00:20:38,780 --> 00:20:35,490
there was a brass one there was a steel

452
00:20:41,000 --> 00:20:38,790
one there was another one that it had

453
00:20:44,660 --> 00:20:41,010
different panels there was like panels

454
00:20:47,810 --> 00:20:44,670
korkin panels of glass and he kind of

455
00:20:49,550 --> 00:20:47,820
saw how different effects would work on

456
00:20:51,710 --> 00:20:49,560
the apparatus if it was heated yet

457
00:20:54,020 --> 00:20:51,720
parabolic heaters he set up all around

458
00:20:57,200 --> 00:20:54,030
it to see if heating effects would

459
00:20:59,150 --> 00:20:57,210
affect it and basically what he did was

460
00:21:00,970 --> 00:20:59,160
he repeated the experiments Michelson

461
00:21:03,920 --> 00:21:00,980
Morley seeing if there's this

462
00:21:07,160 --> 00:21:03,930
entrainment of the ether around the

463
00:21:09,950 --> 00:21:07,170

Earth and he was able to detect it and

464

00:21:13,130 --> 00:21:09,960

he was able to detect its direction he

465

00:21:15,380 --> 00:21:13,140

was able to detect its speed and at the

466

00:21:19,220 --> 00:21:15,390

time Albert Einstein he actually

467

00:21:22,400 --> 00:21:19,230

recognized that if Miller's experiments

468

00:21:24,380 --> 00:21:22,410

held up it would invalidate his theory

469

00:21:26,780 --> 00:21:24,390

of relativity and this is his photo

470

00:21:28,550 --> 00:21:26,790

subject he said my opinion about

471

00:21:31,400 --> 00:21:28,560

Miller's experiments is the following

472

00:21:33,950 --> 00:21:31,410

should the positive result be confirmed

473

00:21:35,660 --> 00:21:33,960

in a special theory of relativity and

474

00:21:38,560 --> 00:21:35,670

with it the general theory of relativity

475

00:21:41,660 --> 00:21:38,570

in its current form would be invalid

476

00:21:43,700 --> 00:21:41,670

experimental some us judex only the

477

00:21:45,380 --> 00:21:43,710

equivalence of inertia and gravitation

478

00:21:47,680 --> 00:21:45,390

would remain hell over they would lead

479

00:21:50,600 --> 00:21:47,690

to a significantly different theory and

480

00:21:55,130 --> 00:21:50,610

as Albert Einstein in a letter to Edwin

481

00:21:59,530 --> 00:21:55,140

he Slauson on 8th of July 1925 as from

482

00:22:04,150 --> 00:21:59,540

Hebrew University archive interest so I

483

00:22:07,220 --> 00:22:04,160

like that now at the time and even today

484

00:22:10,370 --> 00:22:07,230

those results of Dayton Miller's are

485

00:22:12,350 --> 00:22:10,380

dismissed and I'll tell you why at the

486

00:22:14,960 --> 00:22:12,360

time they said well it's heating effects

487

00:22:16,880 --> 00:22:14,970

from the Sun now never mind that this

488

00:22:19,010 --> 00:22:16,890

wooden house that he added in he

489

00:22:19,850 --> 00:22:19,020

basically had it set up like a tent over

490

00:22:23,090 --> 00:22:19,860

the house

491

00:22:25,250 --> 00:22:23,100

they're always streaming like linen

492

00:22:27,980 --> 00:22:25,260

cloths that he hang from the house to

493

00:22:31,070 --> 00:22:27,990

help block the Sun and distribute the

494

00:22:32,720 --> 00:22:31,080

heat away from the house and he ought

495

00:22:37,700 --> 00:22:32,730

like I said he corrected for heating

496

00:22:41,480 --> 00:22:37,710

with parabolic heaters and also the

497

00:22:44,960 --> 00:22:41,490

fluctuations did not correlate with the

498

00:22:46,520 --> 00:22:44,970

heating cycles of the Sun so the I mean

499

00:22:49,340 --> 00:22:46,530

the argument falls apart right there

500

00:22:51,080 --> 00:22:49,350

today there's currently a paper that's

501
00:22:52,970 --> 00:22:51,090
floating out there on the internet that

502
00:22:54,190 --> 00:22:52,980
I saw where they're basically claiming

503
00:22:55,930 --> 00:22:54,200
well

504
00:22:58,030 --> 00:22:55,940
the heating effects weren't really that

505
00:22:59,200 --> 00:22:58,040
you know something that was really that

506
00:23:02,320 --> 00:22:59,210
effect but we're going to just look at

507
00:23:04,480 --> 00:23:02,330
it from the statistical standpoint and

508
00:23:07,300 --> 00:23:04,490
they go down that road and I didn't see

509
00:23:09,640 --> 00:23:07,310
anything really conclusive from them in

510
00:23:11,320 --> 00:23:09,650
terms of why it was being rejected there

511
00:23:13,840 --> 00:23:11,330
at their basic argument boiled down to

512
00:23:16,180 --> 00:23:13,850
well we've got computers nowadays so

513
00:23:18,790 --> 00:23:16,190

that's why their statistical analysis

514

00:23:20,350 --> 00:23:18,800

wasn't correct and it's like wait that

515

00:23:21,970 --> 00:23:20,360

has nothing to do with statistical

516

00:23:23,080 --> 00:23:21,980

analysis just because it was done by

517

00:23:24,490 --> 00:23:23,090

hand doesn't mean it was done

518

00:23:27,220 --> 00:23:24,500

incorrectly they had an independent

519

00:23:28,810 --> 00:23:27,230

analysis done the mathematics of since

520

00:23:31,720 --> 00:23:28,820

districts have not changed in that

521

00:23:34,630 --> 00:23:31,730

period of time since the 1920s to where

522

00:23:36,370 --> 00:23:34,640

it would fall apart I mean there would

523

00:23:39,660 --> 00:23:36,380

be dozens of other things from before

524

00:23:42,640 --> 00:23:39,670

mm-hmm what so we developed Maxwell's

525

00:23:45,070 --> 00:23:42,650

equations with no statistical analysis

526
00:23:46,570 --> 00:23:45,080
that was valid I mean come on right well

527
00:23:47,860 --> 00:23:46,580
they always got to have an official

528
00:23:49,450 --> 00:23:47,870
answer you know weather balloons and

529
00:23:51,850 --> 00:23:49,460
swamp gas they gotta come up with some

530
00:23:53,140 --> 00:23:51,860
way to dismiss stuff yeah it's small

531
00:23:55,990 --> 00:23:53,150
communities from what I can tell that

532
00:23:59,620 --> 00:23:56,000
paper so interesting man I mean that's a

533
00:24:02,200 --> 00:23:59,630
pretty good background in context for

534
00:24:04,900 --> 00:24:02,210
you know the validity of this ether

535
00:24:06,490 --> 00:24:04,910
theory obviously a big part of what we

536
00:24:08,740 --> 00:24:06,500
talk about on the show is that our

537
00:24:11,290 --> 00:24:08,750
traditional paradigm has problems and

538
00:24:13,810 --> 00:24:11,300

leaves a lot of questions unanswered how

539

00:24:16,600 --> 00:24:13,820

does this model affect the way we should

540

00:24:20,350 --> 00:24:16,610

think about space in our environment in

541

00:24:23,260 --> 00:24:20,360

a practical way well you asked me before

542

00:24:26,290 --> 00:24:23,270

about how this relates to the electric

543

00:24:28,660 --> 00:24:26,300

universe and stuff like that and all the

544

00:24:32,500 --> 00:24:28,670

things that you know well Thornhill and

545

00:24:35,500 --> 00:24:32,510

I think it's Donald you stud basically

546

00:24:37,750 --> 00:24:35,510

what they're looking at as inspiration

547

00:24:40,000 --> 00:24:37,760

is plasma physics and plasma physics

548

00:24:42,790 --> 00:24:40,010

fits perfectly with the ether model

549

00:24:45,070 --> 00:24:42,800

Tesla was working with plasmas all day

550

00:24:48,480 --> 00:24:45,080

long beauty first came up with the use

551
00:24:53,050 --> 00:24:48,490
of plasma for medical sterilization

552
00:24:55,360 --> 00:24:53,060
plasma is is right up right up ether

553
00:24:58,180 --> 00:24:55,370
physics Alan so whatever whatever

554
00:25:00,760 --> 00:24:58,190
backstory they put on it if they have

555
00:25:02,560 --> 00:25:00,770
their own theories based on materialist

556
00:25:04,990 --> 00:25:02,570
science then that's what they're putting

557
00:25:07,570 --> 00:25:05,000
forward but I would contend that the

558
00:25:08,350 --> 00:25:07,580
ether model can explain it better mm-hmm

559
00:25:10,539 --> 00:25:08,360
well

560
00:25:12,220 --> 00:25:10,549
Thornhill talks about the pinch of X the

561
00:25:15,580 --> 00:25:12,230
pinch effect is essentially where

562
00:25:17,230 --> 00:25:15,590
there's counter rotational plasma

563
00:25:19,960 --> 00:25:17,240

vortices that are coming together and

564

00:25:22,870 --> 00:25:19,970

they're creating gravitation for

565

00:25:26,020 --> 00:25:22,880

gravitational waves and that's precisely

566

00:25:28,510 --> 00:25:26,030

what I've talked about in my discussion

567

00:25:31,090 --> 00:25:28,520

with you about the ether model on the

568

00:25:33,549 --> 00:25:31,100

interior of the Sun there is a pinch

569

00:25:35,919 --> 00:25:33,559

effect in the center and that's what he

570

00:25:38,620 --> 00:25:35,929

was describing but that's exactly what

571

00:25:41,560 --> 00:25:38,630

is modeled from the ether mom and it

572

00:25:44,260 --> 00:25:41,570

also models there being an internal Sun

573

00:25:45,880 --> 00:25:44,270

in the center of the earth right so I'm

574

00:25:49,510 --> 00:25:45,890

going to start to get into that now

575

00:25:52,840 --> 00:25:49,520

basically the Sun is a receiver and a

576

00:25:55,510 --> 00:25:52,850

transmitter of longitudinal energy so

577

00:25:57,580 --> 00:25:55,520

longitudinal or scalar energy basically

578

00:26:00,990 --> 00:25:57,590

the best way to think about it is like a

579

00:26:04,990 --> 00:26:01,000

twizzler in the air it's this long

580

00:26:08,409 --> 00:26:05,000

twisted thread okay actually that's what

581

00:26:10,780 --> 00:26:08,419

the Kobe Indian scholar is a thread hmm

582

00:26:14,380 --> 00:26:10,790

they live in the Sierra Nevada de Santa

583

00:26:16,930 --> 00:26:14,390

Marta and Columbia and there's actually

584

00:26:19,090 --> 00:26:16,940

a documentary called the Luna where they

585

00:26:22,140 --> 00:26:19,100

follow these guys around they they

586

00:26:26,320 --> 00:26:22,150

actually have a golden thread made and

587

00:26:30,159 --> 00:26:26,330

they walk it along the beach in Colombia

588

00:26:32,350 --> 00:26:30,169

as a symbolic act and they go for like

589

00:26:33,940 --> 00:26:32,360

hundreds of miles just walking carrying

590

00:26:36,070 --> 00:26:33,950

this thread dragging it behind them

591

00:26:39,340 --> 00:26:36,080

because what they wanted to do was raise

592

00:26:41,890 --> 00:26:39,350

awareness of the effect that people's

593

00:26:44,650 --> 00:26:41,900

actions have through longitudinal fields

594

00:26:48,159 --> 00:26:44,660

to lirik currents the world energy grid

595

00:26:50,530 --> 00:26:48,169

and demonstrate to them that what they

596

00:26:52,419 --> 00:26:50,540

do down in the valley affects how the

597

00:26:54,760 --> 00:26:52,429

animals live up in the mountains were

598

00:26:57,610 --> 00:26:54,770

there and they're tired of everybody

599

00:26:59,680 --> 00:26:57,620

crapping down they're you know they're

600

00:27:02,080 --> 00:26:59,690

over building there they're sealing off

601
00:27:04,960 --> 00:27:02,090
the surfaces you know all the water just

602
00:27:06,730 --> 00:27:04,970
gets drained off into the ocean and so

603
00:27:08,980 --> 00:27:06,740
they're saying you know you're hurting

604
00:27:11,500 --> 00:27:08,990
our main foam and they're also digging

605
00:27:13,390 --> 00:27:11,510
up golden idols that they've buried that

606
00:27:15,760 --> 00:27:13,400
are meant to be there for ceremonial

607
00:27:18,880 --> 00:27:15,770
purposes but they also tie into the

608
00:27:20,500 --> 00:27:18,890
telluric energy it's affecting the the

609
00:27:22,150 --> 00:27:20,510
way the plants are growing because the

610
00:27:23,710 --> 00:27:22,160
telluric energy is being destroyed

611
00:27:26,440 --> 00:27:23,720
because people are digging up those

612
00:27:27,580 --> 00:27:26,450
idols to sell them for gold these are

613
00:27:30,910 --> 00:27:27,590

all things that come from this

614

00:27:34,750 --> 00:27:30,920

documentary basically these currents in

615

00:27:37,390 --> 00:27:34,760

the electric universe model these give

616

00:27:39,190 --> 00:27:37,400

rise to berkland currents which are

617

00:27:41,410 --> 00:27:39,200

something that's described heavily in

618

00:27:44,470 --> 00:27:41,420

that model they they talk about it how

619

00:27:47,650 --> 00:27:44,480

it distributes hundreds and thousands of

620

00:27:49,930 --> 00:27:47,660

amps you know millions of volts going

621

00:27:52,450 --> 00:27:49,940

going through the universe just

622

00:27:54,580 --> 00:27:52,460

everywhere there's a streaming all over

623

00:27:56,170 --> 00:27:54,590

the place there we go yeah you're the

624

00:27:57,550 --> 00:27:56,180

arbiter they're all over the place

625

00:28:00,100 --> 00:27:57,560

they're at they're distributing energy

626
00:28:02,620 --> 00:28:00,110
throughout the universe you know that's

627
00:28:05,770 --> 00:28:02,630
exactly what's predicted by an ether

628
00:28:08,380 --> 00:28:05,780
physics model hmm okay so let's get a

629
00:28:10,420 --> 00:28:08,390
little bit into Maxwell's equations sure

630
00:28:12,730 --> 00:28:10,430
so Maxwell's equations when they were

631
00:28:15,730 --> 00:28:12,740
originally written they were written in

632
00:28:19,690 --> 00:28:15,740
a type of algebra that specifically had

633
00:28:22,030 --> 00:28:19,700
a it had a tensor component or a vector

634
00:28:24,160 --> 00:28:22,040
it's basically it's a direction with a

635
00:28:28,300 --> 00:28:24,170
magnitude and then it had a scalar

636
00:28:29,110 --> 00:28:28,310
component which was a magnitude but what

637
00:28:32,470 --> 00:28:29,120
it really is

638
00:28:35,890 --> 00:28:32,480

space is a vortex okay because the

639

00:28:38,740 --> 00:28:35,900

scalar is a vortex it's where all of the

640

00:28:40,600 --> 00:28:38,750

arrows once it comes back the other side

641

00:28:42,040 --> 00:28:40,610

around of the vortex it's pointing in

642

00:28:44,320 --> 00:28:42,050

the opposite direction with the same

643

00:28:46,240 --> 00:28:44,330

magnitude so they all cancel out

644

00:28:49,630 --> 00:28:46,250

mathematically but they're still a

645

00:28:52,870 --> 00:28:49,640

vortex there this was accounted for in

646

00:28:55,270 --> 00:28:52,880

Maxwell's original equations but by the

647

00:28:58,090 --> 00:28:55,280

time it got to you know I think it was

648

00:29:00,700 --> 00:28:58,100

Heaviside went through it and and he

649

00:29:03,610 --> 00:29:00,710

modified it and Hertz

650

00:29:05,500 --> 00:29:03,620

came in and he modified it a bit and so

651
00:29:09,370 --> 00:29:05,510
by the time it gets the point where it's

652
00:29:12,310 --> 00:29:09,380
quote-unquote usable then that's been

653
00:29:15,330 --> 00:29:12,320
taken out mm-hmm and so there are very

654
00:29:19,300 --> 00:29:15,340
few people Tesla being one of them who

655
00:29:21,850 --> 00:29:19,310
understood that that still had a major

656
00:29:22,420 --> 00:29:21,860
effect and that that was something to

657
00:29:25,390 --> 00:29:22,430
look into

658
00:29:27,670 --> 00:29:25,400
mmm-hmm interesting and so how does this

659
00:29:30,490 --> 00:29:27,680
relate to the the idea of the inner Sun

660
00:29:33,700 --> 00:29:30,500
or the Hollow Earth itself I'll start

661
00:29:35,150 --> 00:29:33,710
just kind of with formation of Suns and

662
00:29:37,790 --> 00:29:35,160
planets

663
00:29:41,630 --> 00:29:37,800

things like that need so so basically

664

00:29:44,570 --> 00:29:41,640

what we call black holes aren't really

665

00:29:46,640 --> 00:29:44,580

black holes they don't have a boundary

666

00:29:49,190 --> 00:29:46,650

layer that they're basically a

667

00:30:06,470 --> 00:29:49,200

mathematical artifact of dividing by

668

00:30:10,040 --> 00:30:06,480

zero really it's an implosive structure

669

00:30:11,810 --> 00:30:10,050

the math doesn't work out - to have it

670

00:30:14,450 --> 00:30:11,820

describe the way that they we want it to

671

00:30:16,280 --> 00:30:14,460

be described but basically whenever you

672

00:30:18,200 --> 00:30:16,290

have these implosive structures and

673

00:30:19,700 --> 00:30:18,210

there's an implosive structure at the

674

00:30:21,440 --> 00:30:19,710

center the Sun there's the poster

675

00:30:22,790 --> 00:30:21,450

structure at the center there's a

676

00:30:27,170 --> 00:30:22,800

glossary structure at the center of the

677

00:30:30,050 --> 00:30:27,180

earth it's all depending on these flows

678

00:30:32,330 --> 00:30:30,060

of plasma and how they twist against

679

00:30:34,130 --> 00:30:32,340

each other it kind of like the Nazi Bell

680

00:30:37,040 --> 00:30:34,140

where there are these twisting

681

00:30:39,100 --> 00:30:37,050

counter-rotating mercury plasmas that

682

00:30:41,420 --> 00:30:39,110

are being pulsed with electricity it's

683

00:30:43,460 --> 00:30:41,430

similar in concept to that and that's

684

00:30:45,740 --> 00:30:43,470

why all hell breaks loose around that

685

00:30:48,530 --> 00:30:45,750

damn thing you know people melting into

686

00:30:50,480 --> 00:30:48,540

great gobs of goo and it lifting off and

687

00:30:53,450 --> 00:30:50,490

you know breaking from it s'mores and

688

00:30:56,000 --> 00:30:53,460

all sorts of stuff like that so

689

00:30:59,240 --> 00:30:56,010

basically the way that this stuff forms

690

00:31:03,020 --> 00:30:59,250

is that there are these implosive these

691

00:31:04,970 --> 00:31:03,030

majorly implosive structures that we

692

00:31:06,500 --> 00:31:04,980

call black holes but they're really I

693

00:31:09,460 --> 00:31:06,510

don't know what to call them in closer

694

00:31:12,560 --> 00:31:09,470

structures they're basically these big

695

00:31:16,520 --> 00:31:12,570

vortices that come together and then

696

00:31:19,510 --> 00:31:16,530

they they spray out these particles but

697

00:31:23,570 --> 00:31:19,520

in there are also these longitudinal

698

00:31:26,270 --> 00:31:23,580

fields and they start to carry energy

699

00:31:28,340 --> 00:31:26,280

with them and they start to spin

700

00:31:32,050 --> 00:31:28,350

depending on the motion of the

701
00:31:35,960 --> 00:31:32,060
surrounding universe they start to form

702
00:31:38,720 --> 00:31:35,970
these conglomerations of matter and

703
00:31:42,050 --> 00:31:38,730
these met these convulsions of matter

704
00:31:44,290 --> 00:31:42,060
are spinning and if you have a

705
00:31:48,140 --> 00:31:44,300
conglomeration of matter that's spinning

706
00:31:48,590 --> 00:31:48,150
then it won't be a ball if it's big

707
00:31:53,600 --> 00:31:48,600
enough

708
00:31:54,649 --> 00:31:53,610
to be Hollow because it's going to all

709
00:31:56,840 --> 00:31:54,659
come to the outside

710
00:31:59,149 --> 00:31:56,850
hmm think about a centrifuge what

711
00:32:01,580 --> 00:31:59,159
happens Oh everything gets forced to the

712
00:32:03,649 --> 00:32:01,590
outside right I thought about that ride

713
00:32:05,659 --> 00:32:03,659

that is at a lot of amusement parks

714

00:32:07,999 --> 00:32:05,669

where you line up along the outside wall

715

00:32:10,039 --> 00:32:08,009

and then as it spins you can lift your

716

00:32:11,509 --> 00:32:10,049

legs up and feet up and the whole game

717

00:32:14,810 --> 00:32:11,519

is like trying to pull your hand off the

718

00:32:18,409 --> 00:32:14,820

wall and it sticks back to it exactly so

719

00:32:20,600 --> 00:32:18,419

if you have a large enough energy of

720

00:32:23,450 --> 00:32:20,610

rotation basically then you're going to

721

00:32:26,119 --> 00:32:23,460

have a cavity structure form in there

722

00:32:28,700 --> 00:32:26,129

and if a cavity structure forms and

723

00:32:29,899 --> 00:32:28,710

everything starts to get stabilized I

724

00:32:32,090 --> 00:32:29,909

mean the first there'd be the formation

725

00:32:35,720 --> 00:32:32,100

of the Sun the Sun would find its place

726

00:32:38,539 --> 00:32:35,730

and then it'd start to form these belts

727

00:32:41,570 --> 00:32:38,549

of planetary you know a debris that

728

00:32:44,560 --> 00:32:41,580

would rotate into masses and things like

729

00:32:46,399 --> 00:32:44,570

that and it all conforms to a harmonic

730

00:32:49,909 --> 00:32:46,409

relationship it's actually called the

731

00:32:52,389 --> 00:32:49,919

bode points because there was this guy

732

00:32:55,279 --> 00:32:52,399

named bode who calculated that these are

733

00:32:58,869 --> 00:32:55,289

these planets aren't just spaced out

734

00:33:03,289 --> 00:32:58,879

randomly they're according to like

735

00:33:05,389 --> 00:33:03,299

resonant relationships between the size

736

00:33:08,049 --> 00:33:05,399

and the planets now far away they are

737

00:33:10,610 --> 00:33:08,059

sighs the Sun and all this stuff

738

00:33:13,909 --> 00:33:10,620

basically at these points is where these

739

00:33:15,799 --> 00:33:13,919

things start to form and they develop

740

00:33:18,230 --> 00:33:15,809

this cavity but they're also being fed

741

00:33:21,220 --> 00:33:18,240

this energy from the Sun which is being

742

00:33:24,919 --> 00:33:21,230

fed this energy from nearby black holes

743

00:33:28,310 --> 00:33:24,929

so to speak and the reason is because

744

00:33:30,440 --> 00:33:28,320

once you get into this this pinch as

745

00:33:35,029 --> 00:33:30,450

well Thornhill calls it or this counter

746

00:33:37,759 --> 00:33:35,039

rotational plasma arrangement then you

747

00:33:41,600 --> 00:33:37,769

have the perfect condition for there to

748

00:33:43,639 --> 00:33:41,610

be a vacuum of immense immense

749

00:33:45,799 --> 00:33:43,649

proportions created inside of there and

750

00:33:49,009 --> 00:33:45,809

that is what actually is powering

751
00:33:52,070 --> 00:33:49,019
everything it's this vacuum energy the

752
00:33:55,220 --> 00:33:52,080
zero-point that's actually coming out in

753
00:33:57,080 --> 00:33:55,230
that arranged and so that that is

754
00:33:59,899 --> 00:33:57,090
primarily coming out of these large

755
00:34:02,390 --> 00:33:59,909
these large black hole structures and

756
00:34:04,640 --> 00:34:02,400
then that feeds into the Sun

757
00:34:07,850 --> 00:34:04,650
which developed their own little

758
00:34:11,480 --> 00:34:07,860
implosive center inside of them and that

759
00:34:14,840 --> 00:34:11,490
in turn feeds the planets and so it's

760
00:34:15,980 --> 00:34:14,850
all kind of a distribution network if

761
00:34:18,110 --> 00:34:15,990
you will okay

762
00:34:19,610 --> 00:34:18,120
that's what wal thornhill was describing

763
00:34:22,580 --> 00:34:19,620

when he was describing these berkland

764

00:34:27,010 --> 00:34:22,590

currents you know these plasmas these

765

00:34:29,950 --> 00:34:27,020

plasmas are essentially an indicator of

766

00:34:32,450 --> 00:34:29,960

these longitudinal fields I think

767

00:34:33,740 --> 00:34:32,460

because if once you get the longitudinal

768

00:34:35,000 --> 00:34:33,750

field there then yeah all this other

769

00:34:37,250 --> 00:34:35,010

stuff is going to carry one I'll carry

770

00:34:41,840 --> 00:34:37,260

it along with it video without that it

771

00:34:43,730 --> 00:34:41,850

would do informed right on then I mean

772

00:34:45,560 --> 00:34:43,740

it's a lot it definitely is some

773

00:34:47,720 --> 00:34:45,570

high-level stuff I didn't learn this in

774

00:34:50,260 --> 00:34:47,730

school but you also talked about the

775

00:34:54,020 --> 00:34:50,270

possibility that the earth is expanding

776

00:34:56,659 --> 00:34:54,030

yes yes well that's what all this

777

00:34:58,220 --> 00:34:56,669

Energy's going to yeah you know I mean

778

00:34:59,990 --> 00:34:58,230

you're getting this feed from the the

779

00:35:01,910 --> 00:35:00,000

emissions of the black holes it going

780

00:35:04,160 --> 00:35:01,920

into the Sun the sun's remitting it

781

00:35:07,970 --> 00:35:04,170

giving a little bit boost of its own

782

00:35:09,830 --> 00:35:07,980

comes into the earth and that goes into

783

00:35:12,200 --> 00:35:09,840

its own little Sun in the center there

784

00:35:14,630 --> 00:35:12,210

that is feeding the growth of the earth

785

00:35:16,610 --> 00:35:14,640

so there's this constant expansion and

786

00:35:19,580 --> 00:35:16,620

and if you look at the you look at the

787

00:35:22,900 --> 00:35:19,590

ocean floor maps from NOAA NOAA the

788

00:35:26,330 --> 00:35:22,910

National Oceanic and what is it

789

00:35:28,400 --> 00:35:26,340

atmospheric Association or something

790

00:35:30,680 --> 00:35:28,410

yeah something like that they actually

791

00:35:32,090 --> 00:35:30,690

have a map of the ocean floor and you'll

792

00:35:36,080 --> 00:35:32,100

see that they're the counties little

793

00:35:38,750 --> 00:35:36,090

bursts of growth and basically the all

794

00:35:39,590 --> 00:35:38,760

the continents serve bout two billion

795

00:35:41,900 --> 00:35:39,600

years old

796

00:35:44,360 --> 00:35:41,910

you know everybody everybody looked at

797

00:35:46,430 --> 00:35:44,370

the you know at the globe when they were

798

00:35:48,530 --> 00:35:46,440

a kid and they're like well how it looks

799

00:35:51,340 --> 00:35:48,540

like it fits together mm-hmm

800

00:35:54,080 --> 00:35:51,350

you know yeah well you're right it does

801
00:35:57,200 --> 00:35:54,090
everybody knows it intuitively yeah it

802
00:35:59,600 --> 00:35:57,210
fits together so basically as the earth

803
00:36:04,490 --> 00:35:59,610
was forming it had this cavity inside

804
00:36:08,270 --> 00:36:04,500
and it didn't initially have a Sun it

805
00:36:12,080 --> 00:36:08,280
was kind of this small little rock kind

806
00:36:15,080 --> 00:36:12,090
of floating around following the Sun

807
00:36:17,630 --> 00:36:15,090
but at some point you know because it

808
00:36:19,940 --> 00:36:17,640
kept accumulating and accumulating more

809
00:36:21,740 --> 00:36:19,950
matter and there was still energy

810
00:36:23,170 --> 00:36:21,750
streaming into it from the Sun it's kind

811
00:36:27,290 --> 00:36:23,180
of like when you have a nuclear reactor

812
00:36:29,030 --> 00:36:27,300
you know if you get enough energy flown

813
00:36:32,450 --> 00:36:29,040

into it it's all getting concentrated

814

00:36:34,880 --> 00:36:32,460

clean it's kind of kicks off yeah so

815

00:36:37,190 --> 00:36:34,890

that's that's what happened there around

816

00:36:39,260 --> 00:36:37,200

65 million years ago is when it kind of

817

00:36:41,300 --> 00:36:39,270

kicked off but there are little little

818

00:36:43,820 --> 00:36:41,310

blips before that you see on the map but

819

00:36:46,610 --> 00:36:43,830

at that point it just starts going

820

00:36:48,350 --> 00:36:46,620

bonkers like you'll see huge expansions

821

00:36:50,840 --> 00:36:48,360

that'll kind of chill out for a bit and

822

00:36:53,630 --> 00:36:50,850

then you'll see huge expansions and then

823

00:36:55,870 --> 00:36:53,640

it'll stop and you see these different

824

00:36:58,670 --> 00:36:55,880

areas where on the sea floor like it's

825

00:37:00,440 --> 00:36:58,680

65 million years old it's like 25

826

00:37:03,770 --> 00:37:00,450

million years old and then it's getting

827

00:37:06,380 --> 00:37:03,780

closer to to our age and and the closer

828

00:37:09,140 --> 00:37:06,390

it gets the bigger it gets so it looks

829

00:37:11,350 --> 00:37:09,150

like you know these expansive spurts of

830

00:37:16,700 --> 00:37:11,360

the earth from this this longitudinal

831

00:37:19,700 --> 00:37:16,710

and plasmic and electric and all this

832

00:37:21,290 --> 00:37:19,710

energy coming in streaming out of it out

833

00:37:25,100 --> 00:37:21,300

of the Sun and out of the out of these

834

00:37:28,580 --> 00:37:25,110

black holes is causing the earth to in

835

00:37:31,550 --> 00:37:28,590

periodic times to grow and grow

836

00:37:33,710 --> 00:37:31,560

dramatically that kind of aligns with a

837

00:37:35,510 --> 00:37:33,720

lot of ancient thoughts and it looks

838

00:37:37,220 --> 00:37:35,520

like it's been about four times so kind

839

00:37:40,700 --> 00:37:37,230

of like a well we're in the fourth world

840

00:37:42,410 --> 00:37:40,710

or something like that you know there

841

00:37:44,480 --> 00:37:42,420

there might be some tie in there who

842

00:37:46,100 --> 00:37:44,490

knows but I'm not really saying that

843

00:37:48,530 --> 00:37:46,110

there were people around 65 million

844

00:37:52,190 --> 00:37:48,540

years ago but who knows who might have

845

00:37:54,770 --> 00:37:52,200

told them that that happened yeah I love

846

00:37:57,290 --> 00:37:54,780

it man but this distribution network is

847

00:37:58,520 --> 00:37:57,300

a little odd that so much of it meaning

848

00:38:01,160 --> 00:37:58,530

the other planets

849

00:38:04,100 --> 00:38:01,170

we're told appear to be largely useless

850

00:38:05,750 --> 00:38:04,110

just big dead rocks or balls of gas it's

851

00:38:08,240 --> 00:38:05,760

weird to think the distribution network

852

00:38:10,670 --> 00:38:08,250

would churn out all this extra stuff and

853

00:38:12,200 --> 00:38:10,680

then this one small planet that all the

854

00:38:15,080 --> 00:38:12,210

life is on somewhere in the middle

855

00:38:18,890 --> 00:38:15,090

doesn't seem that efficient really well

856

00:38:24,190 --> 00:38:18,900

I can talk about Wilhelm Reich oh sure

857

00:38:30,490 --> 00:38:26,650

Wilhelm Reich he was a student of

858

00:38:34,420 --> 00:38:30,500

Sigmund Freud and he went into studying

859

00:38:37,270 --> 00:38:34,430

sprites libido and he wanted to see if

860

00:38:41,500 --> 00:38:37,280

there was a way to you know measure

861

00:38:42,849 --> 00:38:41,510

sexual energy scientifically and so what

862

00:38:44,980 --> 00:38:42,859

he did was he hooked up a galvanometer

863

00:38:46,930 --> 00:38:44,990

to people and he started to do some

864

00:38:49,510 --> 00:38:46,940

experiments and he basically realized

865

00:38:51,970 --> 00:38:49,520

there's a real energy here there's

866

00:38:55,900 --> 00:38:51,980

something here and it's showing up in

867

00:38:57,160 --> 00:38:55,910

these Alva meter experiments and he was

868

00:39:00,069 --> 00:38:57,170

just measuring people's surface

869

00:39:02,890 --> 00:39:00,079

conductivity of their skin and he

870

00:39:05,500 --> 00:39:02,900

realized it was a pulsating energy

871

00:39:10,359 --> 00:39:05,510

and what we're talking about is a kind

872

00:39:13,449 --> 00:39:10,369

of pulsating energy mm-hmm and so

873

00:39:14,739 --> 00:39:13,459

basically as he went into that when he

874

00:39:17,979 --> 00:39:14,749

started to get into his by on

875

00:39:20,979 --> 00:39:17,989

experiments is where it kind of gets

876

00:39:23,949 --> 00:39:20,989

into life on other worlds and things

877

00:39:26,679 --> 00:39:23,959

like that what he did was he took things

878

00:39:29,620 --> 00:39:26,689

like grass clippings and he would heat

879

00:39:33,339 --> 00:39:29,630

it up to incandescence and then you know

880

00:39:36,400 --> 00:39:33,349

put it in boiled water in under sterile

881

00:39:39,849 --> 00:39:36,410

conditions and then he would just lit it

882

00:39:44,019 --> 00:39:39,859

kind of stew for a while and see what

883

00:39:45,400 --> 00:39:44,029

happened and lo and behold he's started

884

00:39:47,620 --> 00:39:45,410

watching it and all these little

885

00:39:50,859 --> 00:39:47,630

particles in there would start to kind

886

00:39:53,109 --> 00:39:50,869

of form these little balls and then they

887

00:39:56,739 --> 00:39:53,119

would start to glow and pulsate and

888

00:40:00,160 --> 00:39:56,749

before long he was able to actually grow

889

00:40:03,160 --> 00:40:00,170

these little amoebas and stuff like that

890

00:40:06,069 --> 00:40:03,170

from carbons carbon and and you know

891

00:40:09,069 --> 00:40:06,079

other like Silica's and yeah nothing too

892

00:40:11,829 --> 00:40:09,079

exotic there but he was able to do it

893

00:40:14,919 --> 00:40:11,839

and there's actually a book recently

894

00:40:16,809 --> 00:40:14,929

written by I think it was a Stanford

895

00:40:18,579 --> 00:40:16,819

University researcher it's called

896

00:40:20,140 --> 00:40:18,589

Wilhelm Reich biologist and he actually

897

00:40:22,779 --> 00:40:20,150

went through and looked at all wilhelm

898

00:40:24,939 --> 00:40:22,789

reich laboratory notebooks and his

899

00:40:26,739 --> 00:40:24,949

contention in that book is basically yes

900

00:40:30,099 --> 00:40:26,749

i went through all his laboratory

901
00:40:35,949 --> 00:40:30,109
notebooks he did the right thing he

902
00:40:37,630 --> 00:40:35,959
wasn't full of [h__h] no good to know so i

903
00:40:40,929 --> 00:40:37,640
mean is that is the implication that

904
00:40:42,759 --> 00:40:40,939
that process is going on on other

905
00:40:45,429 --> 00:40:42,769
planets even though their environments

906
00:40:48,579 --> 00:40:45,439
are extremely different it brings up the

907
00:40:51,339 --> 00:40:48,589
the idea of otto genesis this idea that

908
00:40:53,319 --> 00:40:51,349
life it's not a one-off thing it's not

909
00:40:55,599 --> 00:40:53,329
something that's all ooh you got a get

910
00:40:57,400 --> 00:40:55,609
conditions just right no it's just kind

911
00:40:59,919 --> 00:40:57,410
of like whoa let me let me burn the hell

912
00:41:01,539 --> 00:40:59,929
out of this you know all slappin it some

913
00:41:06,609 --> 00:41:01,549

water here and just kind of let it sit

914

00:41:10,269 --> 00:41:06,619

yeah you don't think that happens every

915

00:41:12,849 --> 00:41:10,279

single day it's kind of like Alan Watts

916

00:41:15,009 --> 00:41:12,859

he says that the earth peoples the way

917

00:41:18,939 --> 00:41:15,019

an apple tree apples it just makes

918

00:41:22,419 --> 00:41:18,949

people yeah I think anywhere life can

919

00:41:24,349 --> 00:41:22,429

exist it just pops into existence that's

920

00:41:28,700 --> 00:41:24,359

what I think the old Jeff Goldblum

921

00:41:30,229 --> 00:41:28,710

life finds away yeah well it it doesn't

922

00:41:34,460 --> 00:41:30,239

look like it easily and he really has to

923

00:41:36,140 --> 00:41:34,470

try it in art that's interesting man so

924

00:41:38,329 --> 00:41:36,150

let's get into the history a little bit

925

00:41:39,769 --> 00:41:38,339

time is obviously flying by and we're

926
00:41:41,569 --> 00:41:39,779
not gonna get to everything we had

927
00:41:45,259 --> 00:41:41,579
wanted to get to I don't think is right

928
00:41:46,729 --> 00:41:45,269
pretty much the halfway point but let's

929
00:41:48,319 --> 00:41:46,739
get into the history a little bit this

930
00:41:49,759 --> 00:41:48,329
you say this goes back to the

931
00:41:51,789 --> 00:41:49,769
Renaissance at least the knowledge of

932
00:41:55,640 --> 00:41:51,799
this the study of this in some degree

933
00:41:57,440 --> 00:41:55,650
yeah I was talking more about the the

934
00:42:01,400 --> 00:41:57,450
alchemical roots and things like that

935
00:42:03,769 --> 00:42:01,410
getting into I mean that gets into the

936
00:42:06,529 --> 00:42:03,779
whole Ormus ball of wax if you want to

937
00:42:07,970 --> 00:42:06,539
delve into that absolutely what I would

938
00:42:10,329 --> 00:42:07,980

say about that is man of all the things

939

00:42:12,170 --> 00:42:10,339

you shared with me you shared this

940

00:42:13,940 --> 00:42:12,180

documentary this trailer for this

941

00:42:18,319 --> 00:42:13,950

documentary all the gold you can eat

942

00:42:20,660 --> 00:42:18,329

about this Ormus substance and dude I

943

00:42:22,759 --> 00:42:20,670

have not had my mind blown by a vacuum

944

00:42:23,989 --> 00:42:22,769

entering like that in a long time

945

00:42:26,210 --> 00:42:23,999

because I've seen a lot of [h__\h]

946

00:42:28,999 --> 00:42:26,220

especially at this point but this

947

00:42:30,650 --> 00:42:29,009

unlocked a whole new section like I'd

948

00:42:32,410 --> 00:42:30,660

never heard of this before and it's

949

00:42:35,539 --> 00:42:32,420

pretty fascinating and it ties into

950

00:42:38,329 --> 00:42:35,549

alchemy and modern alchemists and I and

951
00:42:42,140 --> 00:42:38,339
ether theory of course but yeah tell us

952
00:42:45,890 --> 00:42:42,150
a little bit about this so I'll just go

953
00:42:48,259 --> 00:42:45,900
into the more recent stuff kind of where

954
00:42:50,749 --> 00:42:48,269
where it was you know found in in

955
00:42:53,229 --> 00:42:50,759
Arizona that's okay sure so there

956
00:42:56,150 --> 00:42:53,239
there's this guy named David Hudson and

957
00:42:58,519 --> 00:42:56,160
he was like the son of like the head of

958
00:43:01,930 --> 00:42:58,529
the Agriculture Department there or

959
00:43:05,089 --> 00:43:01,940
something like that and he had like

960
00:43:07,640 --> 00:43:05,099
75,000 acres or something crazy that he

961
00:43:11,749 --> 00:43:07,650
was farming and you know they've been

962
00:43:14,569 --> 00:43:11,759
farming it for generations and it was

963
00:43:18,769 --> 00:43:14,579

just kind of this crappy soil though it

964

00:43:21,079 --> 00:43:18,779

had this high alkaline content it was

965

00:43:25,039 --> 00:43:21,089

kind of crunchy it didn't really retain

966

00:43:27,079 --> 00:43:25,049

water that well and so they had that

967

00:43:28,999 --> 00:43:27,089

they had to basically go into three

968

00:43:32,359 --> 00:43:29,009

rotations on it in order to be able to

969

00:43:33,710 --> 00:43:32,369

grow their crops and so he decided well

970

00:43:37,160 --> 00:43:33,720

I'm just gonna spray the hell out of

971

00:43:38,240 --> 00:43:37,170

those sulphuric acid and so he takes

972

00:43:39,920 --> 00:43:38,250

these drugs and sulfur

973

00:43:43,250 --> 00:43:39,930

gasps that need to start spraying down

974

00:43:46,130 --> 00:43:43,260

the fields and he's still having some

975

00:43:47,600 --> 00:43:46,140

issues and so he's like oh let me you

976
00:43:50,210 --> 00:43:47,610
know because he did some test fields I

977
00:43:51,950 --> 00:43:50,220
think first and then he kind of starts

978
00:43:55,610 --> 00:43:51,960
doing this analysis on the soil trying

979
00:43:58,140 --> 00:43:55,620
to figure out what's going on and he

980
00:44:00,420 --> 00:43:58,150
comes up with this white powder

981
00:44:02,430 --> 00:44:00,430
and the more he looks at he's like I

982
00:44:04,380 --> 00:44:02,440
think this is part what my problem is

983
00:44:06,089 --> 00:44:04,390
but I don't know what this is what is

984
00:44:09,120 --> 00:44:06,099
this and so he takes it around a few

985
00:44:11,579 --> 00:44:09,130
places and they're like I'm not sure

986
00:44:13,680 --> 00:44:11,589
exactly what this is and he gets it

987
00:44:15,150 --> 00:44:13,690
tested at the University and they they

988
00:44:17,309 --> 00:44:15,160

basically say you know they've got this

989

00:44:18,359 --> 00:44:17,319

this really fancy equipment it goes down

990

00:44:22,289 --> 00:44:18,369

like parts-per-billion

991

00:44:24,839 --> 00:44:22,299

and it determines basically that he has

992

00:44:26,339 --> 00:44:24,849

aluminium and iron and some silica and

993

00:44:28,999 --> 00:44:26,349

he's like that's not it

994

00:44:31,259 --> 00:44:29,009

this isn't this is different stuff and

995

00:44:33,569 --> 00:44:31,269

then they came back and they're like our

996

00:44:36,509 --> 00:44:33,579

quick memo detective we don't know what

997

00:44:41,099 --> 00:44:36,519

it is so he starts playing with a little

998

00:44:43,049 --> 00:44:41,109

bit and what he what he starts to

999

00:44:47,130 --> 00:44:43,059

realize pretty quickly is that this is

1000

00:44:51,749 --> 00:44:47,140

not normal stuff it does really weird

1001

00:44:54,779 --> 00:44:51,759

things if you get this powder and the

1002

00:44:56,940 --> 00:44:54,789

new you put it out in the Sun it

1003

00:45:02,130 --> 00:44:56,950

disappears in a blinding flash of light

1004

00:45:05,370 --> 00:45:02,140

it just pops and and gone and you're

1005

00:45:07,589 --> 00:45:05,380

like what happened and so he started to

1006

00:45:10,349 --> 00:45:07,599

kind of do some experiments he talked to

1007

00:45:15,989 --> 00:45:10,359

help put off actually I think he worked

1008

00:45:18,150 --> 00:45:15,999

at a sir I didn't he I think so yeah so

1009

00:45:20,039 --> 00:45:18,160

he talks to help put off and and and how

1010

00:45:23,640 --> 00:45:20,049

put off is basically telling him well

1011

00:45:25,349 --> 00:45:23,650

this stuff's disappearing are you sure

1012

00:45:27,059 --> 00:45:25,359

it's an explosion because he thought it

1013

00:45:29,489 --> 00:45:27,069

was an explanation he's like you might

1014

00:45:31,259 --> 00:45:29,499

be an implosion so what they did was

1015

00:45:33,539 --> 00:45:31,269

they put a pencil and they stood it up

1016

00:45:37,950 --> 00:45:33,549

on end in a little pile this stuff and

1017

00:45:41,309 --> 00:45:37,960

they they exposed to light and Boop it

1018

00:45:45,450 --> 00:45:41,319

goes but the pencils still there like it

1019

00:45:47,609 --> 00:45:45,460

didn't move it's like it's like an

1020

00:45:51,390 --> 00:45:47,619

ethereal extraction of some kind this

1021

00:45:53,249 --> 00:45:51,400

powder well it's like each each little

1022

00:45:56,999 --> 00:45:53,259

grain of it's imploding on itself

1023

00:45:59,700 --> 00:45:57,009

so if it's just kind of like popping out

1024

00:46:01,229 --> 00:45:59,710

of existence yeah and they're all just

1025

00:46:03,059 --> 00:46:01,239

these little grains all doing it

1026

00:46:08,309 --> 00:46:03,069

independently agility adds up to a big

1027

00:46:11,069 --> 00:46:08,319

light but it won't move pencil crazy man

1028

00:46:15,749 --> 00:46:11,079

I've never seen anything like it

1029

00:46:17,130 --> 00:46:15,759

but now what he finally does is he gets

1030

00:46:19,829 --> 00:46:17,140

a little - some Russians and they're

1031

00:46:21,989 --> 00:46:19,839

like yeah yeah you guys don't know how

1032

00:46:26,190 --> 00:46:21,999

to test materials over there in the West

1033

00:46:28,559 --> 00:46:26,200

you guys just mess it all up let us tell

1034

00:46:33,630 --> 00:46:28,569

you what the and Mother Russia hahaha

1035

00:46:36,410 --> 00:46:33,640

you get tungsten electrodes so he goes

1036

00:46:38,219 --> 00:46:36,420

back he gets this piece of sky like

1037

00:46:39,569 --> 00:46:38,229

exorbitant amount of money a couple

1038

00:46:43,019 --> 00:46:39,579

million dollars or something set up this

1039

00:46:44,519 --> 00:46:43,029

test form custom and basically what they

1040

00:46:47,549 --> 00:46:44,529

do is they do away with the American

1041

00:46:49,920 --> 00:46:47,559

style of electronic spectroscopy they

1042

00:46:52,589 --> 00:46:49,930

remove the carbon electrodes they put in

1043

00:46:56,670 --> 00:46:52,599

these tungsten electrodes and they rock

1044

00:46:59,310 --> 00:46:56,680

and roll they get alumina iron silica

1045

00:47:06,570 --> 00:46:59,320

and then

1046

00:47:08,910 --> 00:47:06,580

finally get osmium iridium platinum gold

1047

00:47:10,380 --> 00:47:08,920

silver all these different platinum

1048

00:47:13,590 --> 00:47:10,390

group metals and they're like what is

1049

00:47:14,310 --> 00:47:13,600

going on here this isn't is it if this

1050

00:47:19,910 --> 00:47:14,320

is right

1051
00:47:23,190 --> 00:47:19,920
I've got like hundreds of ounces per ton

1052
00:47:24,630 --> 00:47:23,200
and that's I mean that's that's unheard

1053
00:47:26,250 --> 00:47:24,640
of in gold mining uh-huh

1054
00:47:29,820 --> 00:47:26,260
if you're if you're in that sort of

1055
00:47:31,320 --> 00:47:29,830
range you you are sitting pretty Wow if

1056
00:47:33,840 --> 00:47:31,330
that's the concentration you're getting

1057
00:47:37,080 --> 00:47:33,850
out of your ore and so he basically

1058
00:47:38,640 --> 00:47:37,090
realized that he had something special

1059
00:47:40,650 --> 00:47:38,650
and then a friend of his started to talk

1060
00:47:43,650 --> 00:47:40,660
to him about hey you might want to look

1061
00:47:47,970 --> 00:47:43,660
into some of this stuff in the Bible

1062
00:47:49,230 --> 00:47:47,980
here he's like III he's like well

1063
00:47:55,680 --> 00:47:49,240

they're talking about this white powder

1064

00:47:58,050 --> 00:47:55,690

of gold he's like what it comes up in a

1065

00:48:00,720 --> 00:47:58,060

Golden Calf story yeah that's what he

1066

00:48:03,990 --> 00:48:00,730

was pointed to was you know this this

1067

00:48:06,270 --> 00:48:04,000

story of Moses coming down from the

1068

00:48:08,730 --> 00:48:06,280

mountain he's got the commandments in

1069

00:48:10,620 --> 00:48:08,740

hand and everybody's like hey look cap

1070

00:48:12,900 --> 00:48:10,630

he's like what the hell are you guys

1071

00:48:17,430 --> 00:48:12,910

going getting up to - up on the mountain

1072

00:48:20,550 --> 00:48:17,440

so what they say is he took the calf he

1073

00:48:25,470 --> 00:48:20,560

burned it and then it it turned into

1074

00:48:29,640 --> 00:48:25,480

gold powder and it's like that doesn't

1075

00:48:31,890 --> 00:48:29,650

work and it says they ate it - yeah well

1076

00:48:33,510 --> 00:48:31,900

basically you know that it's it's

1077

00:48:36,210 --> 00:48:33,520

described in a few different cultures

1078

00:48:39,000 --> 00:48:36,220

and one of them is the Egyptians and in

1079

00:48:45,510 --> 00:48:39,010

the Egyptian culture they called it muff

1080

00:48:49,290 --> 00:48:45,520

God and the thing with muff khat is that

1081

00:48:51,900 --> 00:48:49,300

it's depicted as a cone on a dish in the

1082

00:48:55,440 --> 00:48:51,910

hieroglyphic record and it was said to

1083

00:48:58,680 --> 00:48:55,450

be food for the light body so it's kind

1084

00:49:01,920 --> 00:48:58,690

of like your your etheric body is fed by

1085

00:49:03,390 --> 00:49:01,930

this stuff wow man that's interesting

1086

00:49:05,880 --> 00:49:03,400

that kind of makes me think of Graham

1087

00:49:07,200 --> 00:49:05,890

Hancock's latest point about the man

1088

00:49:09,240 --> 00:49:07,210

bags I don't know if you've seen this

1089

00:49:11,880 --> 00:49:09,250

but he's been pointing out the same

1090

00:49:12,960 --> 00:49:11,890

symbol this bag that's in the hand of a

1091

00:49:15,480 --> 00:49:12,970

lot of carved

1092

00:49:18,630 --> 00:49:15,490

years whether it's Sumerian Egyptian

1093

00:49:20,010 --> 00:49:18,640

even Mayan you see this same bag and he

1094

00:49:23,040 --> 00:49:20,020

talks about it in conjunction with a

1095

00:49:25,470 --> 00:49:23,050

cedar culture I think the most

1096

00:49:27,780 --> 00:49:25,480

well-known man-bag picture is the

1097

00:49:30,300 --> 00:49:27,790

Sumerian ones where they have a pinecone

1098

00:49:32,550 --> 00:49:30,310

in the other hand oh well the pinecone I

1099

00:49:34,980 --> 00:49:32,560

mean that this that's dead giveaway for

1100

00:49:36,750 --> 00:49:34,990

the pineal gland right of course and so

1101
00:49:38,070 --> 00:49:36,760
then you see this back like symbol and

1102
00:49:40,710 --> 00:49:38,080
the other hand in several ancient

1103
00:49:43,650 --> 00:49:40,720
cultures I think Graham jokingly calls

1104
00:49:45,960 --> 00:49:43,660
it the Brotherhood of the man-bag but it

1105
00:49:48,480 --> 00:49:45,970
is a bit odd and it symbolizes something

1106
00:49:50,490 --> 00:49:48,490
it could fit into a conversation about

1107
00:49:55,589 --> 00:49:50,500
the pineal and the white body and that

1108
00:49:57,240 --> 00:49:55,599
kind of stuff yeah I mention that in one

1109
00:50:00,839 --> 00:49:57,250
of his interviews but I didn't really

1110
00:50:03,720 --> 00:50:00,849
know what it was in reference to sure it

1111
00:50:07,710 --> 00:50:03,730
sounds like it could be connected I'm I

1112
00:50:09,450 --> 00:50:07,720
have no idea really well I do know one

1113
00:50:11,430 --> 00:50:09,460

thing though at the end of their lives

1114

00:50:15,540 --> 00:50:11,440

in the old kingdom the pharaohs were

1115

00:50:18,780 --> 00:50:15,550

sent into the field of Muscat and those

1116

00:50:21,720 --> 00:50:18,790

are the most of the Pharaohs that we

1117

00:50:24,420 --> 00:50:21,730

don't have any mummies for we've never

1118

00:50:27,420 --> 00:50:24,430

found their bodies we found their tombs

1119

00:50:30,000 --> 00:50:27,430

but we never found their bodies there's

1120

00:50:34,079 --> 00:50:30,010

the idea that this may have helped them

1121

00:50:37,109 --> 00:50:34,089

transmute themselves from a material

1122

00:50:39,120 --> 00:50:37,119

being into a spirit being I think that

1123

00:50:41,070 --> 00:50:39,130

that may have some validity because

1124

00:50:45,290 --> 00:50:41,080

there's been a lot of experiments done

1125

00:50:48,079 --> 00:50:45,300

on the Shroud of Turin mm-hmm and

1126

00:50:51,000 --> 00:50:48,089

basically what they've shown is that

1127

00:50:52,770 --> 00:50:51,010

there was some sort of radiation that

1128

00:50:55,710 --> 00:50:52,780

was given off

1129

00:50:57,780 --> 00:50:55,720

when that image was embedded on the

1130

00:51:01,050 --> 00:50:57,790

cloth and it has three-dimensional

1131

00:51:03,570 --> 00:51:01,060

information embedded in it and the only

1132

00:51:08,700 --> 00:51:03,580

way that it could have been put on the

1133

00:51:10,320 --> 00:51:08,710

cloth was they think well the only way

1134

00:51:14,640 --> 00:51:10,330

they were able to reproduce it was by

1135

00:51:16,710 --> 00:51:14,650

basically doing a polarized scan so

1136

00:51:18,510 --> 00:51:16,720

they'd scan in one direction and then

1137

00:51:20,460 --> 00:51:18,520

they scan in the other direction you

1138

00:51:24,960 --> 00:51:20,470

know 90 degrees opposed to each other

1139

00:51:29,250 --> 00:51:24,970

and I think that basically what happened

1140

00:51:31,380 --> 00:51:29,260

was when Jesus was in the tomb and and

1141

00:51:34,830 --> 00:51:31,390

he because there's supposed to be three

1142

00:51:37,530 --> 00:51:34,840

days where your light body hangs out

1143

00:51:40,530 --> 00:51:37,540

around your regular body and that's kind

1144

00:51:42,720 --> 00:51:40,540

of supposed to be the the magic grace

1145

00:51:44,460 --> 00:51:42,730

period for you to get your [h__h] together

1146

00:51:47,850 --> 00:51:44,470

and get over to the other side the right

1147

00:51:52,290 --> 00:51:47,860

way so basically what I think happened

1148

00:51:55,560 --> 00:51:52,300

was he got in under the wire and he was

1149

00:51:58,740 --> 00:51:55,570

able to transmute his body into you know

1150

00:52:00,090 --> 00:51:58,750

the spirit but in doing so he left

1151
00:52:02,430 --> 00:52:00,100
behind the evidence because of the

1152
00:52:06,270 --> 00:52:02,440
Hebrew burial practices in the form of

1153
00:52:09,270 --> 00:52:06,280
the Shroud of Turin and I think that

1154
00:52:11,580 --> 00:52:09,280
that bi-directional light was actually

1155
00:52:14,190 --> 00:52:11,590
emitted from the pineal gland because

1156
00:52:16,860 --> 00:52:14,200
the pineal gland it actually has this

1157
00:52:21,890 --> 00:52:16,870
pattern on it there's actually kind of

1158
00:52:27,530 --> 00:52:24,650
of activation in terms of the spirals on

1159
00:52:29,480 --> 00:52:27,540
it if you know you can see a spiral

1160
00:52:31,340 --> 00:52:29,490
going up around the outside long ways

1161
00:52:34,970 --> 00:52:31,350
then there's kind of one that's at more

1162
00:52:37,130 --> 00:52:34,980
of an angle and so I would not be

1163
00:52:39,890 --> 00:52:37,140

surprised if that was how this

1164

00:52:44,700 --> 00:52:39,900

information was embedded have you ever

1165

00:52:46,769 --> 00:52:44,710

seen what DMT looks like

1166

00:52:50,519 --> 00:52:46,779

when you ever heard of what it looks

1167

00:52:54,120 --> 00:52:50,529

like I've taken it I've smoked it well

1168

00:52:57,049 --> 00:52:54,130

it's actually these resplendent golden I

1169

00:52:59,490 --> 00:52:57,059

mean utt gold and rainbow crystals

1170

00:53:02,940 --> 00:52:59,500

mm-hmm-hmm when the guys who make it

1171

00:53:06,870 --> 00:53:02,950

break it up these rainbow Sparx come off

1172

00:53:09,000 --> 00:53:06,880

of it it's like yeah

1173

00:53:11,460 --> 00:53:09,010

I haven't seen it myself but I've heard

1174

00:53:15,660 --> 00:53:11,470

and I'm just like well there's something

1175

00:53:18,480 --> 00:53:15,670

there I mean right there you're dealing

1176

00:53:21,089 --> 00:53:18,490

with some sort of like physio electric

1177

00:53:23,039 --> 00:53:21,099

but also psychoactive material I mean

1178

00:53:24,930 --> 00:53:23,049

that's that's pretty special there might

1179

00:53:26,789 --> 00:53:24,940

be some other strange properties that

1180

00:53:30,029 --> 00:53:26,799

stuff that you know might be a bit more

1181

00:53:32,400 --> 00:53:30,039

unexpected mm-hmm so I I think that's

1182

00:53:34,890 --> 00:53:32,410

it's a prime candidate for something

1183

00:53:37,109 --> 00:53:34,900

like that happening there and I mean

1184

00:53:39,779 --> 00:53:37,119

that fits in with ether model and that's

1185

00:53:42,480 --> 00:53:39,789

what I've been talking about so far yeah

1186

00:53:44,160 --> 00:53:42,490

I mean it does connect a lot of dots all

1187

00:53:46,109 --> 00:53:44,170

these things are kind of quarantined

1188

00:53:49,019 --> 00:53:46,119

from mainstream society and people might

1189

00:53:50,549 --> 00:53:49,029

get into one or another but it does seem

1190

00:53:52,710 --> 00:53:50,559

like there is a relationship between

1191

00:53:55,920 --> 00:53:52,720

many of these things that are just

1192

00:53:57,480 --> 00:53:55,930

outside of the mainstream and I guess I

1193

00:53:59,519 --> 00:53:57,490

would ask what more can you say do you

1194

00:54:01,589 --> 00:53:59,529

think this is at the heart of those

1195

00:54:03,690 --> 00:54:01,599

whispers and legends of alchemists

1196

00:54:07,769 --> 00:54:03,700

during the Middle Ages and things like

1197

00:54:10,920 --> 00:54:07,779

that so definitely yes the Orbis as as

1198

00:54:13,049 --> 00:54:10,930

it's being taught to people I think

1199

00:54:15,930 --> 00:54:13,059

that's the lesser Arkana

1200

00:54:17,670 --> 00:54:15,940

kind of the lesser work right that's the

1201
00:54:20,519 --> 00:54:17,680
stuff where like okay you can take it

1202
00:54:22,799 --> 00:54:20,529
you're not gonna really overdose on it

1203
00:54:25,799 --> 00:54:22,809
it's pretty safe and it has a lot of

1204
00:54:28,079 --> 00:54:25,809
benefits but then there's the major are

1205
00:54:31,710 --> 00:54:28,089
kind of the Philosopher's Stone as it

1206
00:54:34,140 --> 00:54:31,720
were and the Ormus that you see spread

1207
00:54:37,190 --> 00:54:34,150
around on the web is is white the white

1208
00:54:40,490 --> 00:54:37,200
powder but there's also the red powder

1209
00:54:43,000 --> 00:54:40,500
and that's the Philosopher's Stone it

1210
00:54:46,190 --> 00:54:43,010
could also be from what I've heard a a

1211
00:54:50,089 --> 00:54:46,200
solid lump of kind of like a ruby right

1212
00:54:53,060 --> 00:54:50,099
on but that stuff is not stuff you want

1213
00:54:55,609 --> 00:54:53,070

to toy when I watched all the gold you

1214

00:54:59,150 --> 00:54:55,619

can eat there talking to Don Nance there

1215

00:55:02,210 --> 00:54:59,160

and he says that when he was making some

1216

00:55:04,490 --> 00:55:02,220

of the Red Lion which is it's a form of

1217

00:55:06,589 --> 00:55:04,500

this kind of powder powdered gold only

1218

00:55:10,640 --> 00:55:06,599

they would keep it in liquid form when

1219

00:55:14,740 --> 00:55:10,650

he was making that he gave lady three

1220

00:55:19,430 --> 00:55:14,750

drops of the water that was used to

1221

00:55:21,930 --> 00:55:19,440

carry his stuff over and he said that

1222

00:55:24,180 --> 00:55:21,940

that she went like

1223

00:55:26,430 --> 00:55:24,190

she she basically I mean she didn't go

1224

00:55:29,040 --> 00:55:26,440

crazy because this stuff was happening

1225

00:55:33,510 --> 00:55:29,050

to her every negative thought that she

1226

00:55:36,210 --> 00:55:33,520

had manifested around her hahaha so if

1227

00:55:38,610 --> 00:55:36,220

you thought oh man that cops gonna pull

1228

00:55:41,660 --> 00:55:38,620

me over [\h__\h] he just runs right across

1229

00:55:46,050 --> 00:55:41,670

the street backs up to you says give me

1230

00:55:47,940 --> 00:55:46,060

give me your license man that is that is

1231

00:55:49,590 --> 00:55:47,950

how on earth to have every thought it's

1232

00:55:51,480 --> 00:55:49,600

like don't think of a pink elephant you

1233

00:55:53,040 --> 00:55:51,490

think of one if you start realizing that

1234

00:55:55,320 --> 00:55:53,050

every negative thoughts gonna manifest

1235

00:55:59,990 --> 00:55:55,330

you're gonna create Armageddon real fast

1236

00:56:02,010 --> 00:56:00,000

well why the alchemists kept the

1237

00:56:04,260 --> 00:56:02,020

philosopher's stone the great works

1238

00:56:06,420 --> 00:56:04,270

secret this lady only took the water

1239

00:56:09,540 --> 00:56:06,430

that that was being used to distill it I

1240

00:56:14,310 --> 00:56:09,550

mean it's you know this is this is not

1241

00:56:15,600 --> 00:56:14,320

the final product I think it affected it

1242

00:56:18,660 --> 00:56:15,610

for nine months or something like that

1243

00:56:20,760 --> 00:56:18,670

Wow and so for something like that just

1244

00:56:23,010 --> 00:56:20,770

from three drops so that's pretty

1245

00:56:24,390 --> 00:56:23,020

dangerous and actually what what the

1246

00:56:26,960 --> 00:56:24,400

alchemists would do when they would

1247

00:56:29,040 --> 00:56:26,970

actually use the Philosopher's Stone

1248

00:56:31,830 --> 00:56:29,050

first they had to prepare themselves

1249

00:56:34,590 --> 00:56:31,840

mentally and and they had to take a lot

1250

00:56:37,710 --> 00:56:34,600

of the white stuff first because that

1251
00:56:41,100 --> 00:56:37,720
would prepare you physically for being

1252
00:56:44,190 --> 00:56:41,110
able to take the red damn but once you

1253
00:56:46,470 --> 00:56:44,200
actually took the red you would get like

1254
00:56:50,880 --> 00:56:46,480
light up a dozen glasses a dozen glasses

1255
00:56:53,820 --> 00:56:50,890
of wine and you and you would put a

1256
00:56:56,160 --> 00:56:53,830
little green a bit they said like you

1257
00:56:59,130 --> 00:56:56,170
know that the tip of what you could fit

1258
00:57:01,350 --> 00:56:59,140
on to a pin and you put that in one

1259
00:57:03,630 --> 00:57:01,360
glass and then you take a drop from that

1260
00:57:05,370 --> 00:57:03,640
one and you put it the next one then you

1261
00:57:07,650 --> 00:57:05,380
take a drop from that one and you put it

1262
00:57:10,320 --> 00:57:07,660
in the next one ah you do that dosnt i

1263
00:57:15,420 --> 00:57:10,330

dilute it that much and then you drink

1264

00:57:17,430 --> 00:57:15,430

the last glass [h__h] so powerful stuff

1265

00:57:21,330 --> 00:57:17,440

and from what I understand that's about

1266

00:57:24,600 --> 00:57:21,340

the sort of amount you use for things

1267

00:57:27,240 --> 00:57:24,610

like transmutation as well hmm it's it's

1268

00:57:29,820 --> 00:57:27,250

very very small mouths so what kind of

1269

00:57:32,310 --> 00:57:29,830

look at why were they taking it they

1270

00:57:35,549 --> 00:57:32,320

felt it was the you know the way to

1271

00:57:39,539 --> 00:57:35,559

opening a third eye expanding the crown

1272

00:57:42,029 --> 00:57:39,549

on chakra all that stuff mm-hmm and it

1273

00:57:45,719 --> 00:57:42,039

feeds like body as the Egyptians say it

1274

00:57:49,499 --> 00:57:45,729

helps you expand yourself out of

1275

00:57:51,390 --> 00:57:49,509

yourself so to speak hmm so right in

1276

00:57:53,309 --> 00:57:51,400

this realm to quote something that you

1277

00:57:54,809 --> 00:57:53,319

had said to me when we're writing back

1278

00:57:56,910 --> 00:57:54,819

and forth you said alchemy when used

1279

00:57:59,069 --> 00:57:56,920

properly is capable of life extension

1280

00:58:01,859 --> 00:57:59,079

when used improperly is most dangerous

1281

00:58:05,069 --> 00:58:01,869

as a vehicle for life extraction across

1282

00:58:07,319 --> 00:58:05,079

interdimensional boundaries and that's

1283

00:58:09,809 --> 00:58:07,329

obviously interesting that's an

1284

00:58:11,279 --> 00:58:09,819

intriguing statement what do you think

1285

00:58:13,019 --> 00:58:11,289

this could be used for because if we get

1286

00:58:15,239 --> 00:58:13,029

into the idea that the elite know all

1287

00:58:17,099 --> 00:58:15,249

about this that they use this you know

1288

00:58:19,949 --> 00:58:17,109

they use every tool in their toolbox if

1289

00:58:23,789 --> 00:58:19,959

this is something in their toolbox how

1290

00:58:28,469 --> 00:58:23,799

could it be used against the people I've

1291

00:58:31,979 --> 00:58:28,479

heard rumors strobe lights being used in

1292

00:58:34,140 --> 00:58:31,989

in some sort of some sort of damaging

1293

00:58:39,900 --> 00:58:34,150

fashion because they actually contain

1294

00:58:42,179 --> 00:58:39,910

xenon gas and xenon gas is a it's an

1295

00:58:45,809 --> 00:58:42,189

azeotrope with these enormous elements

1296

00:58:47,699 --> 00:58:45,819

in the gas form so in the atmosphere

1297

00:58:50,339 --> 00:58:47,709

there's these Ormus elements in the

1298

00:58:51,589 --> 00:58:50,349

gaseous form it's also in the water and

1299

00:58:56,539 --> 00:58:51,599

it's also in the earth

1300

00:58:58,679 --> 00:58:56,549

it's very mobile very mobile

1301
00:59:00,989 --> 00:58:58,689
basically what happens is with the gas

1302
00:59:04,529 --> 00:59:00,999
form it gets entrained with other things

1303
00:59:07,439 --> 00:59:04,539
it gets carried off so and that's kind

1304
00:59:09,390 --> 00:59:07,449
of a way to think about it okay all

1305
00:59:12,179 --> 00:59:09,400
right oh man yeah that's super

1306
00:59:14,099 --> 00:59:12,189
fascinating because okay so the white

1307
00:59:17,039 --> 00:59:14,109
powder that the movies largely about

1308
00:59:18,499 --> 00:59:17,049
there's people who are they're taking it

1309
00:59:20,549 --> 00:59:18,509
orally they're giving it to horses

1310
00:59:24,509 --> 00:59:20,559
they're saying that it increases

1311
00:59:26,910 --> 00:59:24,519
vitality energy life extension and then

1312
00:59:28,559 --> 00:59:26,920
this is also I guess technically this is

1313
00:59:30,779 --> 00:59:28,569

powdered gold because there's you know

1314

00:59:32,099 --> 00:59:30,789

it tests positive for gold and the

1315

00:59:34,439 --> 00:59:32,109

parts-per-million so I guess this is

1316

00:59:37,739 --> 00:59:34,449

it's it they call it Ormus because it's

1317

00:59:40,079 --> 00:59:37,749

orbitally rearranged monoatomic elements

1318

00:59:42,089 --> 00:59:40,089

God so I mean Gold's the mono atomic

1319

00:59:44,009 --> 00:59:42,099

element most of the other elements kind

1320

00:59:47,910 --> 00:59:44,019

of bunch up in little and little

1321

00:59:49,410 --> 00:59:47,920

clusters and basically once you get into

1322

00:59:52,680 --> 00:59:49,420

these clusters there's actually a

1323

00:59:55,770 --> 00:59:52,690

I've got that is called micro cluster

1324

00:59:58,590 --> 00:59:55,780

physics and it talks about the alkaline

1325

01:00:01,380 --> 00:59:58,600

metals and how how they all interact in

1326

01:00:03,680 --> 01:00:01,390

these arrangements and way it shows

1327

01:00:08,100 --> 01:00:03,690

pictures and you'll actually see where

1328

01:00:10,470 --> 01:00:08,110

there's atoms being added to this little

1329

01:00:11,820 --> 01:00:10,480

cluster but you can't see the specific

1330

01:00:14,460 --> 01:00:11,830

atoms they're all kind of blended

1331

01:00:17,940 --> 01:00:14,470

together it's it's really weird they

1332

01:00:21,930 --> 01:00:17,950

kind of become a homogeneous mass as it

1333

01:00:25,320 --> 01:00:21,940

were they're all entangled and they're

1334

01:00:27,690 --> 01:00:25,330

superconducting to a lot of these mono

1335

01:00:30,540 --> 01:00:27,700

atomic elements are superconducting Wow

1336

01:00:33,800 --> 01:00:30,550

I'm not sure about the base metals but I

1337

01:00:36,240 --> 01:00:33,810

know the platinum group elements are

1338

01:00:39,630 --> 01:00:36,250

superconducting especially the gold hmm

1339

01:00:42,090 --> 01:00:39,640

if I was going to list the properties I

1340

01:00:45,690 --> 01:00:42,100

would say that there's there's life

1341

01:00:50,690 --> 01:00:45,700

extension there's superconductivity

1342

01:00:57,930 --> 01:00:53,540

transmutation teleportation and

1343

01:01:02,040 --> 01:00:57,940

levitation hmm and that actually bears

1344

01:01:03,990 --> 01:01:02,050

into the history of alchemy and the rise

1345

01:01:07,560 --> 01:01:04,000

of the breakaway civilization right

1346

01:01:11,010 --> 01:01:07,570

because I believe that it was alchemists

1347

01:01:12,990 --> 01:01:11,020

who were developing this stuff late in

1348

01:01:17,660 --> 01:01:13,000

the 19th century in the middle to late

1349

01:01:19,500 --> 01:01:17,670

19th century who actually created the

1350

01:01:22,650 --> 01:01:19,510

foundations and the roots of the

1351

01:01:24,180 --> 01:01:22,660

breakaway civilization yeah I totally

1352

01:01:26,520 --> 01:01:24,190

see that I think that makes perfect

1353

01:01:30,120 --> 01:01:26,530

sense and you're probably onto something

1354

01:01:31,680 --> 01:01:30,130

there so man I guess obviously you're

1355

01:01:33,090 --> 01:01:31,690

not selling a book today I mean is there

1356

01:01:34,800 --> 01:01:33,100

anything you'd want to plug or any

1357

01:01:36,240 --> 01:01:34,810

contact info you'd want to give out

1358

01:01:40,050 --> 01:01:36,250

should people just find you on those

1359

01:01:41,850 --> 01:01:40,060

plus forms well you know I I wish I wish

1360

01:01:45,060 --> 01:01:41,860

this could come out tonight because

1361

01:01:48,330 --> 01:01:45,070

there is the Wilhelm Reich documentary

1362

01:01:50,790 --> 01:01:48,340

and I would have loved to have plugged

1363

01:01:52,920 --> 01:01:50,800

it before today but it tomorrow I think

1364

01:01:54,000 --> 01:01:52,930

no way there's three days left but

1365

01:01:59,150 --> 01:01:54,010

you're still not gonna probably get it

1366

01:02:03,190 --> 01:01:59,160

out but yeah that that was an IndieGoGo

1367

01:02:05,880 --> 01:02:03,200

thing and and it's it's

1368

01:02:10,000 --> 01:02:05,890

some support so far it's raised nearly

1369

01:02:12,880 --> 01:02:10,010

\$300,000 to make a factual documentary

1370

01:02:14,829 --> 01:02:12,890

about Wilhelm Reich damn it's also

1371

01:02:19,060 --> 01:02:14,839

supported by the guy who wrote Wilhelm

1372

01:02:23,290 --> 01:02:19,070

Reich biologist damn in that and that is

1373

01:02:27,970 --> 01:02:23,300

James II strict PhD and it's from the

1374

01:02:30,310 --> 01:02:27,980

Harvard Press so but it's supposed to be

1375

01:02:33,490 --> 01:02:30,320

I mean this guy went to I think like

1376

01:02:35,560 --> 01:02:33,500

four or five different countries maybe

1377

01:02:37,500 --> 01:02:35,570

three or four different countries but he

1378

01:02:40,210 --> 01:02:37,510

went all around the world trying to find

1379

01:02:42,970 --> 01:02:40,220

information about Wilhelm Reich he

1380

01:02:48,520 --> 01:02:42,980

visited organon he visited Norway

1381

01:02:50,910 --> 01:02:48,530

Germany and Iggy he went through

1382

01:02:55,510 --> 01:02:50,920

everything he could find all available

1383

01:02:57,370 --> 01:02:55,520

information even Reich's FBI file and he

1384

01:02:58,900 --> 01:02:57,380

put this documentary together from it

1385

01:03:01,359 --> 01:02:58,910

and I think that it's something that

1386

01:03:04,359 --> 01:03:01,369

really really deserves support he didn't

1387

01:03:06,069 --> 01:03:04,369

get enough he was looking for a hundred

1388

01:03:07,569 --> 01:03:06,079

and eighty thousand in this round of

1389

01:03:11,800 --> 01:03:07,579

financing but he only got about a

1390

01:03:13,150 --> 01:03:11,810

hundred six thousand so far so I'm sure

1391

01:03:14,800 --> 01:03:13,160

he's gonna probably do another round of

1392

01:03:16,510 --> 01:03:14,810

financing it'd be really great if people

1393

01:03:19,410 --> 01:03:16,520

can help right on something to keep an

1394

01:03:22,030 --> 01:03:19,420

eye on yeah it's being headed by Kevin

1395

01:03:25,859 --> 01:03:22,040

pinchy and it's the Wilhelm Reich

1396

01:03:29,079 --> 01:03:25,869

documentary film project edit face cool

1397

01:03:31,630 --> 01:03:29,089

hopefully it comes to fruition but man

1398

01:03:33,099 --> 01:03:31,640

Shema engineer I do appreciate you

1399

01:03:36,130 --> 01:03:33,109

reaching out man I think this has

1400

01:03:38,500 --> 01:03:36,140

connected quite a few dots my mind is

1401
01:03:40,990 --> 01:03:38,510
thoroughly blown so great job on that I

1402
01:03:42,760 --> 01:03:41,000
guess take care of yourself in I'm sure

1403
01:03:45,420 --> 01:03:42,770
we'll do this again sometime sounds

1404
01:03:48,670 --> 01:03:45,430
great let me know alright man okay peace

1405
01:03:50,800 --> 01:03:48,680
alright alright last day of the month at

1406
01:03:53,620 --> 01:03:50,810
the zero hour slide in another episode

1407
01:03:55,359 --> 01:03:53,630
into that roster and I love this one I

1408
01:03:57,339 --> 01:03:55,369
think these secret science shows are

1409
01:03:59,500 --> 01:03:57,349
some of my favorite guests like wal

1410
01:04:01,870 --> 01:03:59,510
thornhill and Erik Dollard and Brooks

1411
01:04:03,520 --> 01:04:01,880
Agnew this one I think was firmly in

1412
01:04:06,160 --> 01:04:03,530
that vein and I've been thinking about

1413
01:04:08,500 --> 01:04:06,170

this information for the past couple of

1414

01:04:10,660 --> 01:04:08,510

weeks and looking into it and I think a

1415

01:04:13,210 --> 01:04:10,670

little ether Theory a little electric

1416

01:04:15,400 --> 01:04:13,220

universe and this is where I think a lot

1417

01:04:17,180 --> 01:04:15,410

of the secrets are I'm pretty convinced

1418

01:04:19,460 --> 01:04:17,190

I know we mentioned the

1419

01:04:21,079 --> 01:04:19,470

Mandela effect but I can't remember

1420

01:04:23,150 --> 01:04:21,089

which hour was in and I know a lot of

1421

01:04:26,059 --> 01:04:23,160

people have wanted to see that pop up on

1422

01:04:28,130 --> 01:04:26,069

THC so that's good but obviously I think

1423

01:04:30,470 --> 01:04:28,140

people would like to see a full show on

1424

01:04:33,109 --> 01:04:30,480

it or something more in-depth but large

1425

01:04:35,329 --> 01:04:33,119

chunks of people have memories that are

1426

01:04:37,059 --> 01:04:35,339

just slightly different than reality

1427

01:04:40,400 --> 01:04:37,069

that's kind of the crux of this whole

1428

01:04:42,530 --> 01:04:40,410

effect some people think it's proof of

1429

01:04:45,109 --> 01:04:42,540

timeline switching or dimensional

1430

01:04:47,180 --> 01:04:45,119

jumping but it could also be just people

1431

01:04:50,510 --> 01:04:47,190

remembering [h__h] wrong the most

1432

01:04:52,099 --> 01:04:50,520

compelling and most famous example is

1433

01:04:54,530 --> 01:04:52,109

those books that we had when we were

1434

01:04:57,770 --> 01:04:54,540

kids called the Berenstain bear books

1435

01:05:00,880 --> 01:04:57,780

you remember Berenstain bears well funny

1436

01:05:03,470 --> 01:05:00,890

enough the real name is berenstain bears

1437

01:05:05,750 --> 01:05:03,480

but barely anybody remembers it that way

1438

01:05:09,050 --> 01:05:05,760

I know I didn't and they call this thing

1439

01:05:11,540 --> 01:05:09,060

the Mandela effect because though Nelson

1440

01:05:14,480 --> 01:05:11,550

Mandela died a few years ago many people

1441

01:05:16,280 --> 01:05:14,490

remember him dying a few years even

1442

01:05:19,099 --> 01:05:16,290

earlier than that when he was still in

1443

01:05:22,670 --> 01:05:19,109

prison but honestly these things happen

1444

01:05:23,510 --> 01:05:22,680

everybody knows the famous line Luke I

1445

01:05:26,630 --> 01:05:23,520

am your father

1446

01:05:29,150 --> 01:05:26,640

right well that line is actually never

1447

01:05:31,579 --> 01:05:29,160

said in the movie the real line when

1448

01:05:35,300 --> 01:05:31,589

Luke says Uncle Ben said that you killed

1449

01:05:38,030 --> 01:05:35,310

my father Vader says no I am your father

1450

01:05:39,620 --> 01:05:38,040

but nobody remembers it that way and I

1451

01:05:42,380 --> 01:05:39,630

think in this case the reason is because

1452

01:05:45,230 --> 01:05:42,390

when other movies and media want to make

1453

01:05:47,780 --> 01:05:45,240

references to that scene no I am your

1454

01:05:49,520 --> 01:05:47,790

father isn't descriptive enough so it

1455

01:05:51,410 --> 01:05:49,530

became Luke I am your father and then

1456

01:05:53,150 --> 01:05:51,420

people just remember it that way

1457

01:05:56,000 --> 01:05:53,160

thinking that that's the way it wasn't a

1458

01:05:58,300 --> 01:05:56,010

movie but it's not the real line so I

1459

01:06:01,550 --> 01:05:58,310

don't know maybe CERN is jumping

1460

01:06:03,680 --> 01:06:01,560

timelines to get narratives the way they

1461

01:06:06,559 --> 01:06:03,690

want them and Berenstein became

1462

01:06:08,900 --> 01:06:06,569

Berenstein as a side effect or maybe

1463

01:06:11,660 --> 01:06:08,910

memory isn't as concrete as we want to

1464

01:06:13,490 --> 01:06:11,670

believe but leave it to humans to say no

1465

01:06:16,520 --> 01:06:13,500

I couldn't possibly be wrong about

1466

01:06:19,400 --> 01:06:16,530

something the entire universe obviously

1467

01:06:22,190 --> 01:06:19,410

must have changed I'm messing around but

1468

01:06:23,660 --> 01:06:22,200

it is an interesting kind of effect and

1469

01:06:27,470 --> 01:06:23,670

worth looking into because there's so

1470

01:06:30,980 --> 01:06:27,480

many cases however fun show I thought I

1471

01:06:33,740 --> 01:06:30,990

feel confident that Sherman jr. made

1472

01:06:36,560 --> 01:06:33,750

solid case for ether theory and he did a

1473

01:06:38,960 --> 01:06:36,570

great job for a first interview not that

1474

01:06:41,480 --> 01:06:38,970

THC is really a hard show to deal with

1475

01:06:43,040 --> 01:06:41,490

but two hours is a long time and I

1476

01:06:45,140 --> 01:06:43,050

thought he did great I think we'll

1477

01:06:47,630 --> 01:06:45,150

probably do it again unless the feedback

1478

01:06:49,550 --> 01:06:47,640

I get is way off from what I expect of

1479

01:06:51,440 --> 01:06:49,560

course there will be comments about

1480

01:06:53,450 --> 01:06:51,450

shutting it off ten minutes in because

1481

01:06:55,970 --> 01:06:53,460

he thinks the earth is a ball and so you

1482

01:06:58,280 --> 01:06:55,980

quote heard all you needed to hear but I

1483

01:07:01,670 --> 01:06:58,290

try not to let that affect me too much I

1484

01:07:02,930 --> 01:07:01,680

try to think back to 90s television and

1485

01:07:05,180 --> 01:07:02,940

standards and practices when a

1486

01:07:08,090 --> 01:07:05,190

late-night host might say something that

1487

01:07:09,260 --> 01:07:08,100

causes dozens of angry Christians to

1488

01:07:13,460 --> 01:07:09,270

write a letter and then the network

1489

01:07:16,280 --> 01:07:13,470

freaks out that 0.0001 percent of the

1490

01:07:18,260 --> 01:07:16,290

audience didn't like something when they

1491

01:07:21,050 --> 01:07:18,270

forget that millions of people saw it

1492

01:07:23,120 --> 01:07:21,060

and apparently didn't have a problem but

1493

01:07:25,010 --> 01:07:23,130

nobody writes a letter to NBC saying how

1494

01:07:27,470 --> 01:07:25,020

they weren't offended by last night's

1495

01:07:29,750 --> 01:07:27,480

show I think something's going on

1496

01:07:33,170 --> 01:07:29,760

similarly with the Flat Earth people and

1497

01:07:35,470 --> 01:07:33,180

a small loud segment of an audience can

1498

01:07:38,570 --> 01:07:35,480

seem much bigger when they're also vocal

1499

01:07:40,700 --> 01:07:38,580

but I've said it before the Flat Earth

1500

01:07:43,760 --> 01:07:40,710

has some really compelling points I

1501
01:07:46,160 --> 01:07:43,770
think the show with Eric Dubay brought

1502
01:07:49,400 --> 01:07:46,170
out most of those things but I'm not

1503
01:07:52,160 --> 01:07:49,410
convinced because I I'm gonna say it I

1504
01:07:54,890 --> 01:07:52,170
think space exists I'm a space theorist

1505
01:07:55,630 --> 01:07:54,900
I hate to be so controversial but I

1506
01:07:58,550 --> 01:07:55,640
gotta say it

1507
01:08:00,890 --> 01:07:58,560
however Ormus and alchemy man

1508
01:08:02,750 --> 01:08:00,900
fascinating stuff right alchemy doesn't

1509
01:08:06,109 --> 01:08:02,760
seem possible until you really consider

1510
01:08:08,570 --> 01:08:06,119
ether Theory heavily and if spirits or

1511
01:08:10,490 --> 01:08:08,580
entities can pop into our reality from

1512
01:08:15,080 --> 01:08:10,500
somewhere else why can't alchemical

1513
01:08:17,450 --> 01:08:15,090

materials my simple stoner college

1514

01:08:18,710 --> 01:08:17,460

dropout excuse for a brain thinks that

1515

01:08:21,289 --> 01:08:18,720

there might be some type of connection

1516

01:08:23,990 --> 01:08:21,299

there you could say this realm is kind

1517

01:08:26,390 --> 01:08:24,000

of the science of magic obviously it's a

1518

01:08:28,460 --> 01:08:26,400

bit over my head but I feel like it

1519

01:08:31,519 --> 01:08:28,470

connects a lot of dots and I want to

1520

01:08:34,340 --> 01:08:31,529

find more guests on this sort of topic

1521

01:08:36,380 --> 01:08:34,350

now for sure as for the Plus show we got

1522

01:08:38,030 --> 01:08:36,390

into another fascinating saga that

1523

01:08:40,400 --> 01:08:38,040

hasn't been mentioned on THC but I

1524

01:08:42,200 --> 01:08:40,410

almost had the author of this book

1525

01:08:44,660 --> 01:08:42,210

secrets of del Chou

1526

01:08:47,059 --> 01:08:44,670

on his name is Dennis Crenshaw but we

1527

01:08:49,729 --> 01:08:47,069

lost touch because he's pretty much off

1528

01:08:52,400 --> 01:08:49,739

the grid and then synchronistically my

1529

01:08:54,860 --> 01:08:52,410

next guest Jumanji near brings up the

1530

01:08:57,349 --> 01:08:54,870

Sonora Aero Club which is what that book

1531

01:09:00,370 --> 01:08:57,359

is about and this very same secret

1532

01:09:03,019 --> 01:09:00,380

society of airship Flyers and borderline

1533

01:09:04,880 --> 01:09:03,029

alchemists may be the earliest

1534

01:09:07,760 --> 01:09:04,890

inclinations of a type of breakaway

1535

01:09:10,459 --> 01:09:07,770

civilization using these texts it is

1536

01:09:12,800 --> 01:09:10,469

great stuff super interesting we talk

1537

01:09:15,289 --> 01:09:12,810

about other fascinating stuff in the

1538

01:09:18,289 --> 01:09:15,299

Plus show and Shema genera adds some

1539

01:09:20,419 --> 01:09:18,299

logs to the Stephen Hawking human puppet

1540

01:09:22,789 --> 01:09:20,429

fire that I had mentioned a few weeks

1541

01:09:24,919 --> 01:09:22,799

ago but now I'm pretty convinced that

1542

01:09:28,430 --> 01:09:24,929

they are using a different guy entirely

1543

01:09:31,340 --> 01:09:28,440

myles Mathis has worked on this and a

1544

01:09:32,959 --> 01:09:31,350

lot of people sent me his work I'm gonna

1545

01:09:35,660 --> 01:09:32,969

try to get him on but he makes a pretty

1546

01:09:37,729 --> 01:09:35,670

strong case the bone structure looks

1547

01:09:40,760 --> 01:09:37,739

like it changed somewhere in the late

1548

01:09:43,430 --> 01:09:40,770

80s but man so much packed in here today

1549

01:09:45,019 --> 01:09:43,440

I hope you liked it I'm gonna get out of

1550

01:09:47,450 --> 01:09:45,029

here but if you enjoyed this episode

1551

01:09:49,849 --> 01:09:47,460

sign up for plus and if you already have

1552

01:09:52,189 --> 01:09:49,859

then get on the forums and get deep with

1553

01:09:54,229 --> 01:09:52,199

sh'mon janae or he's on there trying to

1554

01:09:56,900 --> 01:09:54,239

start conversation screaming into the

1555

01:09:58,760 --> 01:09:56,910

abyss maybe now some responses will pop

1556

01:10:01,880 --> 01:09:58,770

up I'm sure we can get a conversation

1557

01:10:03,890 --> 01:10:01,890

going around these subjects so join that

1558

01:10:06,380 --> 01:10:03,900

party and I'll see you next time that's

1559

01:10:08,240 --> 01:10:06,390

it for me your move sorcerer's of Sonora

1560

01:10:11,510 --> 01:10:08,250

keepers of secret Sciences and

1561

01:10:14,510 --> 01:10:11,520

alchemical quarantine errs your [h__h]

1562

01:10:25,000 --> 01:10:19,670

woke up this morning with light in my

1563

01:10:28,510 --> 01:10:25,010

eyes and then realized it was done

1564

01:10:43,090 --> 01:10:34,130

it was the light coming down from the

1565

01:10:53,720 --> 01:10:48,530

must be those strangers that come every

1566

01:10:59,650 --> 01:10:53,730

night who's a saucer-shaped a light put

1567

01:11:05,180 --> 01:10:59,660

people up tight the blue-green

1568

01:11:14,300 --> 01:11:05,190

footprints left glow-in-the-dark I hope

1569

01:11:21,900 --> 01:11:20,460

mr. spaceman won't you please take me

1570

01:11:29,760 --> 01:11:21,910

along

1571

01:11:35,400 --> 01:11:29,770

I won't do anything wrong hey mr.

1572

01:11:40,750 --> 01:11:35,410

spaceman won't you please take me along

1573

01:11:40,760 --> 01:11:45,630

hold up this money

1574

01:11:56,479 --> 01:11:49,170

quite weird I had it slide

1575

01:12:12,390 --> 01:12:03,200

open my window lake written my name so

1576

01:12:12,400 --> 01:12:17,060

today's

1577

01:12:27,530 --> 01:12:18,750

take me

1578

01:12:30,500 --> 01:12:27,540

I won't do anything wrong hey mr.

1579

01:12:38,770 --> 01:12:30,510

spaceman

1580

01:12:38,780 --> 01:12:40,959

Hey

1581

01:12:50,229 --> 01:12:44,200

this face man

1582

01:13:02,410 --> 01:12:50,239

want to please take me alone I won't do

1583

01:13:05,899 --> 01:13:02,420

anything why don't you please take me

1584

01:13:23,550 --> 01:13:05,909

along the high side

1585

01:13:27,460 --> 01:13:25,870

hey guys thanks for listening to the

1586

01:13:29,800 --> 01:13:27,470

first hour of the higher side chats

1587

01:13:31,870 --> 01:13:29,810

podcast with me Greg Carl wood if you

1588

01:13:34,240 --> 01:13:31,880

don't know there is a second hour to all

1589

01:13:35,920 --> 01:13:34,250

the episodes we do around here generally

1590

01:13:37,660 --> 01:13:35,930

we're able to get a lot deeper into the

1591

01:13:39,670 --> 01:13:37,670

topics and ideas that a guest is about

1592

01:13:42,790 --> 01:13:39,680

so if you enjoyed what you've heard from

1593

01:13:44,680 --> 01:13:42,800

THC for free consider signing up at the

1594

01:13:46,750 --> 01:13:44,690

higher side chats plus com

1595

01:13:49,300 --> 01:13:46,760

to get the second hour of the 5 shows I

1596

01:13:51,190 --> 01:13:49,310

put together each month I never really

1597

01:13:52,900 --> 01:13:51,200

wanted to be a paid subscriber podcast

1598

01:13:54,700 --> 01:13:52,910

but I really hate the idea of spending

1599

01:13:56,800 --> 01:13:54,710

the airtime promoting some product

1600

01:13:58,390 --> 01:13:56,810

that's completely unrelated and telling

1601
01:14:01,120 --> 01:13:58,400
you the best way to support the show is

1602
01:14:02,980 --> 01:14:01,130
to buy an audiobook or new underwear by

1603
01:14:05,470 --> 01:14:02,990
mail or something crazy like that so

1604
01:14:07,120 --> 01:14:05,480
instead if you like the show double your

1605
01:14:09,130 --> 01:14:07,130
time with it for 5 bucks a month and

1606
01:14:10,720 --> 01:14:09,140
let's cut out all the other [h__h] it's

1607
01:14:12,760 --> 01:14:10,730
half the price of a movie ticket and you

1608
01:14:15,400 --> 01:14:12,770
get at least an extra five hours of show

1609
01:14:17,200 --> 01:14:15,410
a month collectively it keeps us stable

1610
01:14:18,790 --> 01:14:17,210
and it frees me from wasting your time

1611
01:14:21,340 --> 01:14:18,800
with anything but the show you came to

1612
01:14:23,320 --> 01:14:21,350
listen to it's really the only way for

1613
01:14:25,120 --> 01:14:23,330

an independent one-man show to make it

1614

01:14:27,370 --> 01:14:25,130

and I do what I can so that it's worth

1615

01:14:29,350 --> 01:14:27,380

your while since we started this I've

1616

01:14:31,360 --> 01:14:29,360

always tried to use the subscriptions to

1617

01:14:33,910 --> 01:14:31,370

improve the podcast and make signups

1618

01:14:35,860 --> 01:14:33,920

more advantageous it started with just a

1619

01:14:37,510 --> 01:14:35,870

second hour for the main show but now

1620

01:14:39,550 --> 01:14:37,520

we've got a nice forum going where

1621

01:14:41,290 --> 01:14:39,560

people can get deeper in conversation

1622

01:14:44,170 --> 01:14:41,300

about the episodes with other listeners

1623

01:14:46,420 --> 01:14:44,180

submit a candidate in the guest request

1624

01:14:48,100 --> 01:14:46,430

thread or share their own personal

1625

01:14:50,200 --> 01:14:48,110

projects to get out of the soul-crushing

1626

01:14:52,780 --> 01:14:50,210

nine-to-five cog in the wheel life on

1627

01:14:54,460 --> 01:14:52,790

the entrepreneurs thread the forum in

1628

01:14:56,140 --> 01:14:54,470

the Plus comments are always the first

1629

01:14:58,390 --> 01:14:56,150

places I try to go for listener

1630

01:15:00,760 --> 01:14:58,400

engagement but it does get harder as the

1631

01:15:02,620 --> 01:15:00,770

show gets more popular because of that

1632

01:15:04,090 --> 01:15:02,630

there's also a direct messaging feature

1633

01:15:06,910 --> 01:15:04,100

that you can use to reach me through the

1634

01:15:08,530 --> 01:15:06,920

plus site also but beyond the forum if

1635

01:15:10,720 --> 01:15:08,540

you like any of the music I've used for

1636

01:15:12,490 --> 01:15:10,730

THC most of it I've hired artists to

1637

01:15:14,830 --> 01:15:12,500

make and I provided all its free

1638

01:15:16,210 --> 01:15:14,840

downloads to Plus members too so if you

1639

01:15:18,400 --> 01:15:16,220

like a particular song you've heard

1640

01:15:20,740 --> 01:15:18,410

close the show out recently come get the

1641

01:15:22,780 --> 01:15:20,750

mp3 I should also mention that if you

1642

01:15:25,120 --> 01:15:22,790

don't like the idea of paying \$5

1643

01:15:27,280 --> 01:15:25,130

recurring every month I get that you can

1644

01:15:29,650 --> 01:15:27,290

buy three months six months or a year

1645

01:15:31,390 --> 01:15:29,660

upfront and just be done with it I have

1646

01:15:33,940 --> 01:15:31,400

plenty of listeners who send checks and

1647

01:15:35,980 --> 01:15:33,950

money orders to the PIO box too I try to

1648

01:15:36,220 --> 01:15:35,990

make it as easy for people as I can and

1649

01:15:37,690 --> 01:15:36,230

you

1650

01:15:40,420 --> 01:15:37,700

read more about it on the signup page

1651

01:15:42,130 --> 01:15:40,430

also be sure to check out the FAQ help

1652

01:15:43,780 --> 01:15:42,140

page on the plus site if you have any

1653

01:15:45,670 --> 01:15:43,790

questions or concerns about how to

1654

01:15:48,040 --> 01:15:45,680

listen to a password-protected show on

1655

01:15:49,960 --> 01:15:48,050

your devices I've highlighted a lot of

1656

01:15:52,420 --> 01:15:49,970

great solutions and one of those would

1657

01:15:55,150 --> 01:15:52,430

be the iPhone app that just recently hit

1658

01:15:57,250 --> 01:15:55,160

the Apple App Store a super kind and

1659

01:15:59,110 --> 01:15:57,260

talented listener made it for us and you

1660

01:16:01,270 --> 01:15:59,120

can use it to stream or download either

1661

01:16:04,240 --> 01:16:01,280

the free or the plus show if you're on

1662

01:16:05,800 --> 01:16:04,250

Android I'd use pocket casts or podcast

1663

01:16:08,410 --> 01:16:05,810

addict and subscribe to the feed

1664

01:16:11,080 --> 01:16:08,420

manually that way I also try to throw an

1665

01:16:13,090 --> 01:16:11,090

occasional bonus shows or QA shows and

1666

01:16:15,280 --> 01:16:13,100

I've got a few other weird ideas I might

1667

01:16:17,200 --> 01:16:15,290

get to try out soon but I give you all I

1668

01:16:18,880 --> 01:16:17,210

can for five bucks and I hope you'll at

1669

01:16:20,590 --> 01:16:18,890

least give it a shot if you've listened

1670

01:16:22,360 --> 01:16:20,600

to a few free shows and you find them

1671

01:16:24,130 --> 01:16:22,370

unique or valuable I know there's a lot

1672

01:16:26,290 --> 01:16:24,140

of podcasts out there and I'm just one

1673

01:16:28,120 --> 01:16:26,300

of them but if you have any questions

1674

01:16:29,530 --> 01:16:28,130

concerns or comments about any of this

1675

01:16:30,640 --> 01:16:29,540

please get in touch with us at the

1676

01:16:33,880 --> 01:16:30,650

higher side chats

1677

01:16:35,260 --> 01:16:33,890

team @ gmail.com I also wanted to plug

1678

01:16:37,210 --> 01:16:35,270

the higher side newsletter I'm going to

1679

01:16:38,740 --> 01:16:37,220

be putting out totally free for anyone

1680

01:16:40,750 --> 01:16:38,750

who wants to sign up at the main

1681

01:16:42,340 --> 01:16:40,760

Internet web site for the show the

1682

01:16:44,200 --> 01:16:42,350

higher side chats com

1683

01:16:45,970 --> 01:16:44,210

you can also get on that email list

1684

01:16:48,310 --> 01:16:45,980

through the higher side chats Facebook

1685

01:16:49,780 --> 01:16:48,320

page there's a button there as well but

1686

01:16:52,300 --> 01:16:49,790

the reason I'm doing this is because I

1687

01:16:54,400 --> 01:16:52,310

get tons and tons of emails after a show

1688

01:16:56,260 --> 01:16:54,410

goes up asking me about how I feel about

1689

01:16:57,850 --> 01:16:56,270

a particular guest or topic and the

1690

01:16:59,770 --> 01:16:57,860

wrap-up isn't always the best place to

1691

01:17:01,810 --> 01:16:59,780

do that especially if I have anything

1692

01:17:03,700 --> 01:17:01,820

negative to say sometimes the dust needs

1693

01:17:06,160 --> 01:17:03,710

to settle sometimes they need to hear

1694

01:17:07,750 --> 01:17:06,170

feedback from you guys first there are a

1695

01:17:09,340 --> 01:17:07,760

lot of factors but I usually have

1696

01:17:11,800 --> 01:17:09,350

something to communicate to you and I

1697

01:17:12,310 --> 01:17:11,810

just don't get to do it so on the first

1698

01:17:13,810 --> 01:17:12,320

of the month

1699

01:17:15,610 --> 01:17:13,820

I plan to send out a little newsletter

1700

01:17:17,680 --> 01:17:15,620

with my thoughts about the five shows

1701

01:17:19,720 --> 01:17:17,690

the previous month and talk to you about

1702

01:17:22,090 --> 01:17:19,730

anything else that's on my mind or

1703

01:17:23,979 --> 01:17:22,100

that's going on and what's probably most

1704

01:17:25,840 --> 01:17:23,989

enticing is that I'm gonna give you some

1705

01:17:27,970 --> 01:17:25,850

insight into at least one guest I have

1706

01:17:29,979 --> 01:17:27,980

coming up in the month which people have

1707

01:17:32,200 --> 01:17:29,989

been begging for some posted schedule

1708

01:17:34,150 --> 01:17:32,210

for a long time I personally think I'd

1709

01:17:35,979 --> 01:17:34,160

like the surprise but sign up for the

1710

01:17:37,570 --> 01:17:35,989

higher side newsletter it's free it

1711

01:17:39,100 --> 01:17:37,580

comes out on the 1st of the month and I

1712

01:17:41,860 --> 01:17:39,110

won't waste your time with any other

1713

01:17:43,510 --> 01:17:41,870

emails and that's it I appreciate you

1714

01:17:45,700 --> 01:17:43,520

listening I try to give alternative

1715

01:17:48,060 --> 01:17:45,710

ideas and guests a fair shake on a high

1716

01:17:50,140 --> 01:17:48,070

quality podcast expose some deep level

1717

01:17:52,120 --> 01:17:50,150

conspiracies without the yelling

1718

01:17:53,890 --> 01:17:52,130

and I hope to offer some inspiration

1719

01:17:55,540 --> 01:17:53,900

that even though the system relentlessly

1720

01:17:58,000 --> 01:17:55,550

suggests you should follow their

1721

01:17:59,710 --> 01:17:58,010

blueprint to mediocrity you can do your

1722

01:18:01,660 --> 01:17:59,720

own thing and live a much happier life

1723

01:18:04,510 --> 01:18:01,670

despite all the negativity in the world
