1
00:00:10,190 --> 00:00:07,130
the planets awesome masters almost

2
00:00:12,890 --> 00:00:10,200
surely have a plan that clearly maybe

3
00:00:17,320 --> 00:00:12,900
something there beyond the realm of man

4
00:00:20,750 --> 00:00:17,330
you already tested every last will just

5
00:00:29,190 --> 00:00:20,760
upon more you think you know that you

6
00:00:29,200 --> 00:00:33,260
[Music]

7
00:00:40,080 --> 00:00:37,200
where would we be without me

8
00:00:40,090 --> 00:00:43,099
and call

9
00:00:47,729 --> 00:00:45,930
how's it going higher side chatters we

10
00:00:49,500 --> 00:00:47,739
know there are many tools in the magical

11
00:00:51,000 --> 00:00:49,510
toolbox that are carefully kept to the

12
00:00:53,850 --> 00:00:51,010
fringes and mocked in mainstream culture

13
00:00:55,649 --> 00:00:53,860

so there is a long history of use by

14

00:00:57,899 --> 00:00:55,659

powerful people and results too

15

00:00:59,819 --> 00:00:57,909

convincing to be ignored one of these

16

00:01:02,039 --> 00:00:59,829

arcane tools of course is astrology

17

00:01:03,630 --> 00:01:02,049

anyone who's analyzed a proper birth

18

00:01:05,100 --> 00:01:03,640

chart knows what I'm talking about and

19

00:01:05,789 --> 00:01:05,110

if you haven't you really owe it to

20

00:01:07,830 --> 00:01:05,799

yourself

21

00:01:09,810 --> 00:01:07,840

today we're going deep into this occult

22

00:01:12,480 --> 00:01:09,820

art again with returning guests and

23

00:01:14,880 --> 00:01:12,490

fellow SoCal lever Austin Copic he's a

24

00:01:17,040 --> 00:01:14,890

highly respected astrologer author and

25

00:01:19,139 --> 00:01:17,050

teacher and I figured with events being

26
00:01:21,120 --> 00:01:19,149
so highly charged and unpredictable

27
00:01:24,480 --> 00:01:21,130
lately it would be great to get an

28
00:01:26,850 --> 00:01:24,490
astrological assessment of 2017 to give

29
00:01:28,620 --> 00:01:26,860
THD listeners some insight into how best

30
00:01:31,139 --> 00:01:28,630
to navigate the rough waters of our

31
00:01:33,779 --> 00:01:31,149
troubled times Ostrom a man welcome back

32
00:01:36,120 --> 00:01:33,789
to the higher side hey Greg thanks for

33
00:01:38,700 --> 00:01:36,130
having me hell yeah man psyched to have

34
00:01:40,859 --> 00:01:38,710
you back last time was a lot of fun we

35
00:01:42,990 --> 00:01:40,869
talked about the three hermetic arts

36
00:01:45,859 --> 00:01:43,000
communicating with entities how the

37
00:01:48,839 --> 00:01:45,869
gears of astrology work the astrological

38
00:01:50,969 --> 00:01:48,849

conditions of things like 9/11 it was a

39

00:01:52,589 --> 00:01:50,979

good time for sure and there were a

40

00:01:54,059 --> 00:01:52,599

couple questions left on the table

41

00:01:56,760 --> 00:01:54,069

though that I hoped we could kick this

42

00:01:59,419 --> 00:01:56,770

off with before we get into the 2017

43

00:02:02,820 --> 00:01:59,429

assessment yay let's begin with the past

44

00:02:05,100 --> 00:02:02,830

awesome yep always a strong play well

45

00:02:07,859 --> 00:02:05,110

one of those areas is astrology and how

46

00:02:09,359 --> 00:02:07,869

it relates to financial cycles obviously

47

00:02:11,580 --> 00:02:09,369

there's a lot of people wishing they

48

00:02:13,440 --> 00:02:11,590

could crack the code in this area but

49

00:02:15,630 --> 00:02:13,450

financial markets like everything else

50

00:02:17,670 --> 00:02:15,640

do seem like to have some cycles and

51
00:02:20,220 --> 00:02:17,680
patterns what's the best way to think

52
00:02:23,850 --> 00:02:20,230
about astrology in this context as you

53
00:02:27,210 --> 00:02:23,860
see it well well so that's not an area

54
00:02:29,580 --> 00:02:27,220
that I've specialized in one thing about

55
00:02:32,520 --> 00:02:29,590
astrology is that you can bring it to

56
00:02:35,820 --> 00:02:32,530
bear on a wide variety of subjects but

57
00:02:38,699 --> 00:02:35,830
it takes a lot of study yeah it you know

58
00:02:41,250 --> 00:02:38,709
we've you use the analogy of cracking a

59
00:02:43,140 --> 00:02:41,260
code you know if you look at code

60
00:02:46,770 --> 00:02:43,150
breakers they have to put in a lot of

61
00:02:48,300 --> 00:02:46,780
mental effort and so you know even where

62
00:02:50,730 --> 00:02:48,310
there are secrets to be found or

63
00:02:53,250 --> 00:02:50,740

patterns it's not like you just google

64

00:02:55,830 --> 00:02:53,260

and you're like okay that's it that said

65

00:02:57,089 --> 00:02:55,840

yeah there have been financial as

66

00:02:59,460 --> 00:02:57,099

all germs for as long as there have been

67

00:03:02,490 --> 00:02:59,470

market and there are a number of them

68

00:03:06,330 --> 00:03:02,500

who have excellent track records

69

00:03:10,080 --> 00:03:06,340

there's a guy remarry man who called the

70

00:03:12,630 --> 00:03:10,090

two thousand lei 2007 - or a 2009 super

71

00:03:14,460 --> 00:03:12,640

downturn years in advance remember

72

00:03:16,350 --> 00:03:14,470

reading this newsletter was like yeah so

73

00:03:19,680 --> 00:03:16,360

you want to hold onto your property and

74

00:03:20,789 --> 00:03:19,690

so maybe mid 2006 and then SELEX I think

75

00:03:24,720 --> 00:03:20,799

that's going to be the height of the

76

00:03:27,690 --> 00:03:24,730

market just like beautiful call if I had

77

00:03:30,509 --> 00:03:27,700

had if I had to own property at that

78

00:03:33,809 --> 00:03:30,519

time but that said there are there

79

00:03:35,550 --> 00:03:33,819

astrologers who focus on different

80

00:03:38,729 --> 00:03:35,560

levels of the market they're like that

81

00:03:40,530 --> 00:03:38,739

was at the macro trend right like what

82

00:03:43,500 --> 00:03:40,540

is the market as a whole going to be

83

00:03:45,210 --> 00:03:43,510

doing over ten years or five years but

84

00:03:47,550 --> 00:03:45,220

then there are also astrologers who use

85

00:03:51,319 --> 00:03:47,560

it for day trading which I thought was

86

00:03:56,699 --> 00:03:51,329

really interesting I know a guy who

87

00:03:58,530 --> 00:03:56,709

looks primarily at daily ships so you

88

00:04:00,449 --> 00:03:58,540

know a lot of the planets are moving but

89

00:04:04,559 --> 00:04:00,459

they don't change that much in a day

90

00:04:06,780 --> 00:04:04,569

right the only body that's you know kind

91

00:04:09,539 --> 00:04:06,790

of our visible system that changes

92

00:04:11,789 --> 00:04:09,549

really fast as the moon and so he

93

00:04:14,190 --> 00:04:11,799

basically watches the moon and watches

94

00:04:18,300 --> 00:04:14,200

it make configurations through a trading

95

00:04:20,879 --> 00:04:18,310

day and then set expectations for day

96

00:04:23,190 --> 00:04:20,889

trading based on that and he's been very

97

00:04:25,050 --> 00:04:23,200

successful he probably does some other

98

00:04:29,219 --> 00:04:25,060

things too I don't want to oversimplify

99

00:04:32,159 --> 00:04:29,229

his method that's Jonathan pearl so

100

00:04:34,469 --> 00:04:32,169

right on yeah but there's you know it's

101
00:04:36,450 --> 00:04:34,479
there it's there and you know what I've

102
00:04:40,050 --> 00:04:36,460
noticed is when I'm looking at I don't

103
00:04:42,690 --> 00:04:40,060
look first at money you know I look at

104
00:04:45,719 --> 00:04:42,700
the trend I look at you know where the

105
00:04:48,450 --> 00:04:45,729
planets are and what the cycles are and

106
00:04:51,540 --> 00:04:48,460
then try to unpack the symbols from

107
00:04:54,690 --> 00:04:51,550
there and maybe if I had missed my

108
00:04:57,570 --> 00:04:54,700
primary education had been in economics

109
00:04:59,040 --> 00:04:57,580
I would see those implications first but

110
00:05:02,310 --> 00:04:59,050
that's not you know I didn't get a

111
00:05:04,589 --> 00:05:02,320
degree and economic I know something but

112
00:05:06,089 --> 00:05:04,599
so that's not the first thing that comes

113
00:05:07,680 --> 00:05:06,099

to me but I have there are a few things

114

00:05:09,400 --> 00:05:07,690

from I go I wonder if this will mean

115

00:05:11,170 --> 00:05:09,410

this money-wise

116

00:05:14,440 --> 00:05:11,180

and a lot of times that is what it means

117

00:05:17,440 --> 00:05:14,450

but not my area but yeah it's there if

118

00:05:18,550 --> 00:05:17,450

you look for it it's absolutely out

119

00:05:21,490 --> 00:05:18,560

there people have been beating the

120

00:05:23,800 --> 00:05:21,500

market for 30 years well on a base level

121

00:05:26,890 --> 00:05:23,810

let me ask you are there certain planets

122

00:05:29,410 --> 00:05:26,900

or configurations that listeners could

123

00:05:34,030 --> 00:05:29,420

look for that tend to reflect well in

124

00:05:36,640 --> 00:05:34,040

the markets like what's our what's our

125

00:05:38,440 --> 00:05:36,650

money planet well so that's going to be

126
00:05:41,860 --> 00:05:38,450
different I mean it's going to be

127
00:05:45,790 --> 00:05:41,870
different for different countries and

128
00:05:46,420 --> 00:05:45,800
people so if you look at the the US

129
00:05:50,080 --> 00:05:46,430
chart

130
00:05:51,700 --> 00:05:50,090
the US has this so there's a little bit

131
00:05:56,410 --> 00:05:51,710
of controversy about which chart to use

132
00:05:59,230 --> 00:05:56,420
for the US most folks use roughly five

133
00:06:01,180 --> 00:05:59,240
o'clock on July fourth the signing of

134
00:06:04,120 --> 00:06:01,190
the Declaration of Independence as the

135
00:06:06,520 --> 00:06:04,130
you know as far as the moment when this

136
00:06:09,040 --> 00:06:06,530
entity really comes into being and

137
00:06:10,870 --> 00:06:09,050
separates from other entities mm-hmm

138
00:06:14,170 --> 00:06:10,880

it's reasonable that charts really

139

00:06:16,330 --> 00:06:14,180

responsive anyway the US has this Venus

140

00:06:19,030 --> 00:06:16,340

Jupiter conjunction in early tropical

141

00:06:21,670 --> 00:06:19,040

cancer and what's interesting is when

142

00:06:23,680 --> 00:06:21,680

those degrees get afflicted and

143

00:06:25,270 --> 00:06:23,690

afflicted as a technical term basically

144

00:06:29,400 --> 00:06:25,280

when there are configurations that are

145

00:06:33,370 --> 00:06:29,410

putting nasty pressure on another area

146

00:06:37,570 --> 00:06:33,380

we pretty much always have a downturn

147

00:06:39,820 --> 00:06:37,580

hmm and so you know part of you know in

148

00:06:42,190 --> 00:06:39,830

a sense if we're looking at money we're

149

00:06:45,040 --> 00:06:42,200

just as interested in things going down

150

00:06:47,440 --> 00:06:45,050

as things going up anything that takes

151
00:06:49,350 --> 00:06:47,450
us off the baseline right yeah and I

152
00:06:52,900 --> 00:06:49,360
would say that that's true for

153
00:06:56,500 --> 00:06:52,910
divination of any sort divination or

154
00:06:59,920 --> 00:06:56,510
just prognostication you know whether

155
00:07:02,740 --> 00:06:59,930
you're neat silver or beyond fortune

156
00:07:05,080 --> 00:07:02,750
right you know what what's going to pop

157
00:07:06,940 --> 00:07:05,090
things up above the baseline what's

158
00:07:10,630 --> 00:07:06,950
going to go below and what's going to

159
00:07:12,790 --> 00:07:10,640
maybe reset the base and so what's

160
00:07:15,670 --> 00:07:12,800
interesting about that I guess what's

161
00:07:18,670 --> 00:07:15,680
relevant about that is that those

162
00:07:21,520 --> 00:07:18,680
degrees are going to be those are so the

163
00:07:23,170 --> 00:07:21,530

Venus and Jupiter are the two planets

164

00:07:26,320 --> 00:07:23,180

which are traditionally referred to

165

00:07:29,590 --> 00:07:26,330

as benefics you know that bene is and

166

00:07:32,260 --> 00:07:29,600

beneficent benevolent etc and although

167

00:07:35,560 --> 00:07:32,270

those terms have a moral connotation

168

00:07:38,830 --> 00:07:35,570

Venus and Jupiter or codex more because

169

00:07:42,100 --> 00:07:38,840

they tend to bring about situations that

170

00:07:44,469 --> 00:07:42,110

people like right and that so it's the

171

00:07:47,290 --> 00:07:44,479

smaller definition of good like a good

172

00:07:49,659 --> 00:07:47,300

day or a good year right on and so the

173

00:07:52,600 --> 00:07:49,669

US has both of those sort of tied up

174

00:07:54,310 --> 00:07:52,610

together in this one area which makes

175

00:07:56,499 --> 00:07:54,320

them very strong right there's been a

176

00:07:59,409 --> 00:07:56,509

lot of abundance we look at the history

177

00:08:01,960 --> 00:07:59,419

of the United States but there's also it

178

00:08:05,050 --> 00:08:01,970

also sort of it puts both of those eggs

179

00:08:07,360 --> 00:08:05,060

in one basket and so when something

180

00:08:10,210 --> 00:08:07,370

comes along to kind of smash on that

181

00:08:13,240 --> 00:08:10,220

both eggs are mosaics are right there

182

00:08:17,710 --> 00:08:13,250

and so we talked a little bit last time

183

00:08:18,850 --> 00:08:17,720

about how the decade and not this year I

184

00:08:20,950 --> 00:08:18,860

guess we talked a little bit about this

185

00:08:23,260 --> 00:08:20,960

year but we talked about the Saturn

186

00:08:25,839 --> 00:08:23,270

Pluto conjunction at the end of this

187

00:08:29,800 --> 00:08:25,849

decade ending beginning like a 40 year

188

00:08:30,939 --> 00:08:29,810

power cycle right and so Saturn will

189

00:08:34,839 --> 00:08:30,949

basically come along and start

190

00:08:38,620 --> 00:08:34,849

pressuring those degrees in 2018 and 19

191

00:08:41,519 --> 00:08:38,630

right and as far as you know capitalism

192

00:08:45,220 --> 00:08:41,529

goes we're kind of due for another

193

00:08:47,320 --> 00:08:45,230

obvious downturn you know it's been it's

194

00:08:50,890 --> 00:08:47,330

getting to be about ten years and if you

195

00:08:53,050 --> 00:08:50,900

know I dare you to find 10 years this is

196

00:08:55,750 --> 00:08:53,060

what the century where there wasn't like

197

00:08:59,410 --> 00:08:55,760

a pretty obvious correction or you know

198

00:09:01,360 --> 00:08:59,420

or recession so that that'll probably

199

00:09:06,130 --> 00:09:01,370

arrive right on schedule not this year

200

00:09:07,780 --> 00:09:06,140

not this year but damn well I mean

201
00:09:09,790 --> 00:09:07,790
that's great to know I like I like that

202
00:09:11,310 --> 00:09:09,800
kind of insight of course people can dig

203
00:09:13,420 --> 00:09:11,320
deeper into those particular

204
00:09:16,090 --> 00:09:13,430
configurations and maybe see how they

205
00:09:18,400 --> 00:09:16,100
relate on their own charts but actually

206
00:09:20,949 --> 00:09:18,410
sorry I want to jump in just on one

207
00:09:23,319 --> 00:09:20,959
thing yeah so what's interesting about

208
00:09:27,730 --> 00:09:23,329
looking at an individual persons chart

209
00:09:30,760 --> 00:09:27,740
is that you get one or more planets

210
00:09:33,160 --> 00:09:30,770
maybe may end up being a money trigger

211
00:09:35,079 --> 00:09:33,170
for someone because of their chart that

212
00:09:37,040 --> 00:09:35,089
isn't usually associated with money

213
00:09:41,120 --> 00:09:37,050

right so if Venus and Jupiter

214

00:09:44,210 --> 00:09:41,130

and again there are the good doers and

215

00:09:47,030 --> 00:09:44,220

so they're generally positive but you

216

00:09:50,180 --> 00:09:47,040

know you absolutely have people's lives

217

00:09:53,150 --> 00:09:50,190

in charge where money for them is about

218

00:09:57,319 --> 00:09:53,160

the Sun or money is about Mars and

219

00:09:59,060 --> 00:09:57,329

that's the trigger for them and one

220

00:10:01,009 --> 00:09:59,070

thing that's interesting about financial

221

00:10:02,960 --> 00:10:01,019

strategy is listening to an interview

222

00:10:06,019 --> 00:10:02,970

with remarry man who had the good call

223

00:10:10,699 --> 00:10:06,029

about the massive danja last decade and

224

00:10:14,449 --> 00:10:10,709

he was talking about his best calls and

225

00:10:17,210 --> 00:10:14,459

his best calls about you know situations

226

00:10:20,300 --> 00:10:17,220

that weren't under his control lined up

227

00:10:22,790 --> 00:10:20,310

really cleanly with what were his best

228

00:10:25,370 --> 00:10:22,800

money transits like the things you know

229

00:10:26,750 --> 00:10:25,380

does the cycles in his chart that said

230

00:10:29,120 --> 00:10:26,760

okay you know this is going to be good

231

00:10:31,040 --> 00:10:29,130

for money for you that translated into

232

00:10:34,780 --> 00:10:31,050

him being able to make these really

233

00:10:36,759 --> 00:10:34,790

accurate calls and benefit

234

00:10:38,800 --> 00:10:36,769

astrology is literally wheels within

235

00:10:41,439 --> 00:10:38,810

wheels yeah we're literally looking at

236

00:10:43,930 --> 00:10:41,449

wheels right there's so many

237

00:10:46,420 --> 00:10:43,940

combinations it's definitely a deep

238

00:10:50,769 --> 00:10:46,430

study yet you know one of the things

239

00:10:52,629 --> 00:10:50,779

that I guess doesn't get discussed

240

00:10:54,310 --> 00:10:52,639

enough when people talking about you

241

00:10:57,160 --> 00:10:54,320

know learning astrology like there are

242

00:10:59,019 --> 00:10:57,170

basics you can learn but it's how many

243

00:11:00,790 --> 00:10:59,029

you know in a sense how many wheels can

244

00:11:04,600 --> 00:11:00,800

you hold in your head at the same time

245

00:11:07,150 --> 00:11:04,610

and maintain coherent clear thought yeah

246

00:11:10,269 --> 00:11:07,160

and what is your capacity to filter and

247

00:11:12,430 --> 00:11:10,279

process all of that information you know

248

00:11:14,319 --> 00:11:12,440

when I was first getting into astrology

249

00:11:16,600 --> 00:11:14,329

one of the things that I was excited

250

00:11:19,389 --> 00:11:16,610

about was I was like this is so hard

251

00:11:21,490 --> 00:11:19,399

like yeah this is just got to make me

252

00:11:23,319 --> 00:11:21,500

smarter you know if I consistently

253

00:11:25,990 --> 00:11:23,329

attempt to do this because this is

254

00:11:29,530 --> 00:11:26,000

engaging left reins engaged right brain

255

00:11:32,110 --> 00:11:29,540

and you know where requires a deep and

256

00:11:33,460 --> 00:11:32,120

complex harmonies and so I don't know

257

00:11:34,720 --> 00:11:33,470

I'd you know there's just always the

258

00:11:37,269 --> 00:11:34,730

matter and this is the thing with

259

00:11:39,550 --> 00:11:37,279

divination I was talking with our our

260

00:11:43,059 --> 00:11:39,560

friend and your your guest Gordon white

261

00:11:47,590 --> 00:11:43,069

about this couple weeks ago how you know

262

00:11:49,329 --> 00:11:47,600

sometimes the so we put this D the cards

263

00:11:52,120 --> 00:11:49,339

come up right or the you know the

264

00:11:55,930 --> 00:11:52,130

indicators were there you know in a

265

00:11:58,210 --> 00:11:55,940

planetary system but you weren't capable

266

00:12:01,180 --> 00:11:58,220

of seeing it at the time you know

267

00:12:02,639 --> 00:12:01,190

there's this necessary interface you

268

00:12:06,069 --> 00:12:02,649

know there's always a human interface

269

00:12:08,050 --> 00:12:06,079

with systems of divination and you know

270

00:12:10,930 --> 00:12:08,060

it's not a computer that just tells you

271

00:12:12,340 --> 00:12:10,940

exactly just that in the other sometimes

272

00:12:14,050 --> 00:12:12,350

it seems like that there are some things

273

00:12:16,269 --> 00:12:14,060

that are really easy to call but there's

274

00:12:19,180 --> 00:12:16,279

this sort of you know there's this human

275

00:12:21,189 --> 00:12:19,190

linkage between you know heaven and

276

00:12:24,280 --> 00:12:21,199

earth or between the visible and the

277

00:12:26,769 --> 00:12:24,290

invisible yeah well so that makes sense

278

00:12:28,180 --> 00:12:26,779

and so another thing I did want to ask

279

00:12:31,480 --> 00:12:28,190

you about that we didn't get you last

280

00:12:34,090 --> 00:12:31,490

time was a few kiss just apparent 13th

281

00:12:37,000 --> 00:12:34,100

sign that NASA made some statements

282

00:12:38,860 --> 00:12:37,010

about from what I read it's always kind

283

00:12:40,750 --> 00:12:38,870

of been there and maybe this is a tactic

284

00:12:41,500 --> 00:12:40,760

to make astrology seem random and

285

00:12:44,290 --> 00:12:41,510

useless

286

00:12:45,980 --> 00:12:44,300

it absolutely is fair enough what are

287

00:12:48,710 --> 00:12:45,990

your thoughts on this

288

00:12:50,600 --> 00:12:48,720

you won't hear me calling disinformation

289

00:12:55,370 --> 00:12:50,610

on many things

290

00:12:58,070 --> 00:12:55,380

so this is it's not that that's

291

00:13:01,010 --> 00:12:58,080

not a constellation right totally a

292

00:13:05,310 --> 00:13:01,020

constellation so let's just analyze this

293

00:13:07,590 --> 00:13:05,320

claim so 2,000 years ago

294

00:13:10,470 --> 00:13:07,600

in the eastern Mediterranean is where we

295

00:13:12,960 --> 00:13:10,480

have the first textual evidence that

296

00:13:14,999 --> 00:13:12,970

people are doing astrology more or less

297

00:13:18,269 --> 00:13:15,009

like I do it using a lot of the singing

298

00:13:22,439 --> 00:13:18,279

tools that people use now right

299

00:13:25,579 --> 00:13:22,449

so these are people who with absolutely

300

00:13:29,040 --> 00:13:25,589

no pollution in their skies look up and

301
00:13:31,530 --> 00:13:29,050
study the movements of the planets you

302
00:13:34,949 --> 00:13:31,540
know and the stars and they don't notice

303
00:13:36,540 --> 00:13:34,959
an entire constellation that's the idea

304
00:13:41,120 --> 00:13:36,550
right that's the Queen

305
00:13:43,980 --> 00:13:41,130
that's absurd we have star maps like

306
00:13:46,710 --> 00:13:43,990
Ophiuchus isn't even a modern name so

307
00:13:48,870 --> 00:13:46,720
the idea that this was discovered that

308
00:13:51,030 --> 00:13:48,880
this took like super powerful telescopes

309
00:13:52,800 --> 00:13:51,040
or you know science has liberated us

310
00:13:55,550 --> 00:13:52,810
from the you know the swamps of

311
00:13:59,999 --> 00:13:55,560
ignorance so that's that's a silly claim

312
00:14:04,199 --> 00:14:00,009
and it goes back to I think part of the

313
00:14:06,329 --> 00:14:04,209

reason that it's gotten cold at all is

314

00:14:09,059 --> 00:14:06,339

that people don't really know how the

315

00:14:11,370 --> 00:14:09,069

zodiac is constructed or what we do with

316

00:14:14,639 --> 00:14:11,380

it because it's astronomy and it's

317

00:14:17,939 --> 00:14:14,649

boring so basically that the zodiac that

318

00:14:21,720 --> 00:14:17,949

people use the names are drawn from

319

00:14:24,689 --> 00:14:21,730

constellations but it's actually a fixed

320

00:14:28,139 --> 00:14:24,699

geometrical division of the areas of the

321

00:14:30,000 --> 00:14:28,149

sky that doesn't process or move over

322

00:14:33,150 --> 00:14:30,010

time it's part of the problem is that

323

00:14:35,400 --> 00:14:33,160

the stars relatives us appear to move

324

00:14:38,420 --> 00:14:35,410

over time the sphere of the fixed stars

325

00:14:42,650 --> 00:14:38,430

is not entirely fixed it has this larger

326

00:14:46,379 --> 00:14:42,660

roughly like 25 26 thousand year cycle

327

00:14:48,870 --> 00:14:46,389

right and basically what that means is

328

00:14:50,970 --> 00:14:48,880

if you have a star calendar over a

329

00:14:53,280 --> 00:14:50,980

couple hundred years your star calendar

330

00:14:54,780 --> 00:14:53,290

stops being accurate it's up

331

00:14:57,480 --> 00:14:54,790

telling you what time of year it is

332

00:15:00,210 --> 00:14:57,490

right and the Egyptians the ancient

333

00:15:01,679 --> 00:15:00,220

Egyptians no doubt experienced this you

334

00:15:03,360 --> 00:15:01,689

see that they go through periods of

335

00:15:05,129 --> 00:15:03,370

calendar correction because they're like

336

00:15:07,259 --> 00:15:05,139

oh we've been doing 500 years it's

337

00:15:08,999 --> 00:15:07,269

supposed to be you know spring was

338

00:15:11,639 --> 00:15:09,009

supposed to start a week and a half ago

339

00:15:14,370 --> 00:15:11,649

but now it's just starting you get this

340

00:15:17,269 --> 00:15:14,380

you know this is the slippage right and

341

00:15:22,040 --> 00:15:17,279

so at some point

342

00:15:24,230 --> 00:15:22,050

you get this insight that you can divide

343

00:15:26,720 --> 00:15:24,240

the sky in a way that doesn't change

344

00:15:30,530 --> 00:15:26,730

over time and that's called the tropical

345

00:15:32,749 --> 00:15:30,540

zodiac right and so we have in order to

346

00:15:35,929 --> 00:15:32,759

account for this we get this Aristarchus

347

00:15:38,119 --> 00:15:35,939

and the 3rd century BCE is a great guy

348

00:15:40,970 --> 00:15:38,129

who we have record of it writing about

349

00:15:43,069 --> 00:15:40,980

this people probably figured this out

350

00:15:45,980 --> 00:15:43,079

earlier but it's at least that old right

351

00:15:47,689 --> 00:15:45,990

and so most of the time we're talking

352

00:15:50,150 --> 00:15:47,699

about signs we're talking about those

353

00:15:53,210 --> 00:15:50,160

divisions of the sky that don't change

354

00:15:55,100 --> 00:15:53,220

and because they're named for

355

00:15:58,040 --> 00:15:55,110

constellations it's really confusing

356

00:16:01,939 --> 00:15:58,050

right if you don't know about all of

357

00:16:04,160 --> 00:16:01,949

this now we still look at stars stars

358

00:16:06,679 --> 00:16:04,170

are still really important like so if

359

00:16:09,439 --> 00:16:06,689

you have you know Mars coming right next

360

00:16:11,780 --> 00:16:09,449

to this brilliant star would say Antares

361

00:16:14,540 --> 00:16:11,790

mark spent a lot of time next to red and

362

00:16:17,389 --> 00:16:14,550

parties last year that's still accounted

363

00:16:19,999 --> 00:16:17,399

for but the stars won't use to define

364

00:16:22,100 --> 00:16:20,009

the signs because the stars from our

365

00:16:26,240 --> 00:16:22,110

point of view move over time we want a

366

00:16:29,410 --> 00:16:26,250

fixed frame of reference okay so you

367

00:16:32,869 --> 00:16:29,420

know part of it is this information and

368

00:16:36,019 --> 00:16:32,879

then part of it is it's complicated and

369

00:16:38,179 --> 00:16:36,029

I daresay potentially boring to find the

370

00:16:40,910 --> 00:16:38,189

truth hahahaha

371

00:16:42,619 --> 00:16:40,920

right well I'm glad we definitely got to

372

00:16:44,840 --> 00:16:42,629

address that because it's come up before

373

00:16:46,999 --> 00:16:44,850

whenever I've brought up astrology it

374

00:16:49,249 --> 00:16:47,009

seems to be something people talk about

375

00:16:51,170 --> 00:16:49,259

yeah and it's the the you get the same

376

00:16:53,629 --> 00:16:51,180

issue with the sign changing over time

377

00:16:55,369 --> 00:16:53,639

that was baked in from the beginning

378

00:16:57,019 --> 00:16:55,379

that's why we're using this fixed frame

379

00:16:59,150 --> 00:16:57,029

of reference instead of the Stars

380

00:17:01,400 --> 00:16:59,160

because the Stars do slide over time so

381

00:17:02,889 --> 00:17:01,410

when NASA says oh you know the signs

382

00:17:06,770 --> 00:17:02,899

have changed things have moved

383

00:17:08,419 --> 00:17:06,780

absolutely and that's exactly why we use

384

00:17:10,250 --> 00:17:08,429

the tools that we have and that's why

385

00:17:13,899 --> 00:17:10,260

they started using it as ends of years

386

00:17:16,730 --> 00:17:13,909

ago so we wouldn't have that issue but

387

00:17:19,610 --> 00:17:16,740

you know what's funny is that comes up

388

00:17:22,279 --> 00:17:19,620

about every two years at least out of

389

00:17:27,169 --> 00:17:22,289

the last ten as if it were a totally new

390

00:17:29,600 --> 00:17:27,179

discovery yeah I'm sure well good

391

00:17:31,130 --> 00:17:29,610

summary there and to get into the actual

392

00:17:32,990 --> 00:17:31,140

timeline of course

393

00:17:34,880 --> 00:17:33,000

we did talk about the astrological

394

00:17:37,490 --> 00:17:34,890

conditions of the final few months of

395

00:17:39,350 --> 00:17:37,500

2016 last time we talked I think we both

396

00:17:41,419 --> 00:17:39,360

kind of expected Clinton to take the

397

00:17:44,680 --> 00:17:41,429

election and we talked about that cycle

398

00:17:47,630 --> 00:17:44,690

I did yeah yeah all Mia culpa on that

399

00:17:49,549 --> 00:17:47,640

you know I I didn't dig into the

400

00:17:52,789 --> 00:17:49,559

candidates chart super hard I have some

401
00:17:55,070 --> 00:17:52,799
colleagues who have great track records

402
00:17:57,710 --> 00:17:55,080
and have spent a lot more time in that

403
00:17:59,330 --> 00:17:57,720
branch tonight I had and everybody was

404
00:18:02,090 --> 00:17:59,340
just like yeah Clinton's gonna take it

405
00:18:05,810 --> 00:18:02,100
and I was like okay I'm really busy I

406
00:18:08,960 --> 00:18:05,820
don't want to spend 40 hours you know

407
00:18:11,450 --> 00:18:08,970
redoing the work you did but not the

408
00:18:13,039 --> 00:18:11,460
case yeah well I think it was a lot of

409
00:18:15,260 --> 00:18:13,049
it had to do with we talked about that

410
00:18:17,600 --> 00:18:15,270
cycle ending in 2020 so we thought that

411
00:18:19,970 --> 00:18:17,610
Hillary would be a natural choice to

412
00:18:22,250 --> 00:18:19,980
kind of close out that cycle this whole

413
00:18:24,289 --> 00:18:22,260

thing about the globalist movement

414

00:18:25,730 --> 00:18:24,299

you know this whole collectivist kind of

415

00:18:27,440 --> 00:18:25,740

thing and now we're rearing back the

416

00:18:30,860 --> 00:18:27,450

other way but I think that's kind of

417

00:18:33,159 --> 00:18:30,870

what brought us to that idea yeah well

418

00:18:34,940 --> 00:18:33,169

in you know what's interesting is so

419

00:18:36,500 --> 00:18:34,950

again I'm going to reference a

420

00:18:41,090 --> 00:18:36,510

conversation Gordon and I had a while

421

00:18:44,960 --> 00:18:41,100

ago so you know the high-water mark for

422

00:18:47,690 --> 00:18:44,970

this wave of globalization I think it

423

00:18:50,000 --> 00:18:47,700

obviously happened and that's receding

424

00:18:52,669 --> 00:18:50,010

right you see resistance to that all

425

00:18:55,250 --> 00:18:52,679

over the world right now for all sorts

426
00:18:59,510 --> 00:18:55,260
of reasons itting reasons great reasons

427
00:19:02,240 --> 00:18:59,520
and terrible reasons and what I kind of

428
00:19:05,659 --> 00:19:02,250
the scenario that I thought was we were

429
00:19:07,310 --> 00:19:05,669
going to get really sick of it under

430
00:19:11,419 --> 00:19:07,320
Clinton and that it was going to be like

431
00:19:13,970 --> 00:19:11,429
death by decay all right but instead it

432
00:19:16,159 --> 00:19:13,980
got immolated right I would see the

433
00:19:18,980 --> 00:19:16,169
Trump victory and the way this is

434
00:19:21,500 --> 00:19:18,990
working is as a much more rapid

435
00:19:24,049 --> 00:19:21,510
decomposition right like the you know

436
00:19:26,450 --> 00:19:24,059
setting the corpse on fire rather than

437
00:19:28,640 --> 00:19:26,460
letting it gently rot and that's a

438
00:19:31,730 --> 00:19:28,650

metaphor from alchemy they called it

439

00:19:34,159 --> 00:19:31,740

there's the the dry way and the wet way

440

00:19:37,909 --> 00:19:34,169

and both of them are ways of separating

441

00:19:39,510 --> 00:19:37,919

the spirit or essence of matter from the

442

00:19:41,690 --> 00:19:39,520

body of matter

443

00:19:43,710 --> 00:19:41,700

literally it's the difference between

444

00:19:46,260 --> 00:19:43,720

you know throwing something in the oven

445

00:19:48,480 --> 00:19:46,270

versus letting you know letting the bugs

446

00:19:51,120 --> 00:19:48,490

pick it clean right letting it letting

447

00:19:53,960 --> 00:19:51,130

it rot and decompose and so instead of

448

00:19:58,590 --> 00:19:53,970

the wet way we're going the dry way

449

00:20:00,930 --> 00:19:58,600

history coming in dry for a way more

450

00:20:04,220 --> 00:20:00,940

aggressive reaction or changing of the

451

00:20:08,220 --> 00:20:04,230

tide yeah yeah I mean it's the same

452

00:20:11,130 --> 00:20:08,230

transition right but the the route to

453

00:20:13,940 --> 00:20:11,140

the end of the decade is different than

454

00:20:17,280 --> 00:20:13,950

I thought it was going to be right on so

455

00:20:19,380 --> 00:20:17,290

looking back at 2016 analysis are there

456

00:20:21,150 --> 00:20:19,390

other areas that surprised you perhaps

457

00:20:24,810 --> 00:20:21,160

or maybe areas where you can actually

458

00:20:27,540 --> 00:20:24,820

see the reflection of the roadmap in the

459

00:20:29,910 --> 00:20:27,550

sky being highly accurate or having a

460

00:20:32,450 --> 00:20:29,920

great influence oh yeah I'm really happy

461

00:20:35,370 --> 00:20:32,460

with everything I said about 2016

462

00:20:38,370 --> 00:20:35,380

basically except the election yeah I'm

463

00:20:39,660 --> 00:20:38,380

totally like I well we weren't talking

464

00:20:41,550 --> 00:20:39,670

at the beginning of 2016

465

00:20:43,560 --> 00:20:41,560

but right away I was like okay there's

466

00:20:45,990 --> 00:20:43,570

this Mars Saturn thing giant pain in the

467

00:20:48,300 --> 00:20:46,000

ass lots of you know contentiousness

468

00:20:50,850 --> 00:20:48,310

you know cultural contentious is like we

469

00:20:53,280 --> 00:20:50,860

haven't seen some very serious military

470

00:20:56,340 --> 00:20:53,290

action you end up the height I know and

471

00:20:59,310 --> 00:20:56,350

I pin that to the Mars retrograde cycle

472

00:21:02,160 --> 00:20:59,320

and I don't want to go back into all of

473

00:21:04,800 --> 00:21:02,170

the specifics of it but basically we had

474

00:21:06,570 --> 00:21:04,810

a lot of military action in the Middle

475

00:21:08,550 --> 00:21:06,580

East that wasn't reported on because

476
00:21:11,010 --> 00:21:08,560
every was interested in what Donald or

477
00:21:15,810 --> 00:21:11,020
Hillary said you know there's the multi

478
00:21:17,640 --> 00:21:15,820
front land war happening which is yeah

479
00:21:19,170 --> 00:21:17,650
kind of important so yeah I remember

480
00:21:22,230 --> 00:21:19,180
they were launching this military

481
00:21:24,510 --> 00:21:22,240
operation to retake Fallujah at the end

482
00:21:26,310 --> 00:21:24,520
of spring and everybody's like but

483
00:21:28,530 --> 00:21:26,320
Hillary said this or but Donald said

484
00:21:31,320 --> 00:21:28,540
this and I'm just like that this is a

485
00:21:33,240 --> 00:21:31,330
huge thing yeah yeah

486
00:21:36,660 --> 00:21:33,250
anyway I yeah I'm totally happy with

487
00:21:39,000 --> 00:21:36,670
what I said about 2016 except for the

488
00:21:41,370 --> 00:21:39,010

election I really thought it was going

489

00:21:44,070 --> 00:21:41,380

to go the other way one element that I

490

00:21:45,570 --> 00:21:44,080

did think was interesting you can

491

00:21:48,960 --> 00:21:45,580

definitely tell there's something in the

492

00:21:51,690 --> 00:21:48,970

air around the idea of fake news or not

493

00:21:52,940 --> 00:21:51,700

being able to really identify truth as

494

00:21:55,310 --> 00:21:52,950

easily and

495

00:21:57,470 --> 00:21:55,320

the biggest phenomenon a 2016 that was

496

00:21:59,420 --> 00:21:57,480

just had nothing to do with the election

497

00:22:02,780 --> 00:21:59,430

or politics with Pokemon go so you got

498

00:22:04,700 --> 00:22:02,790

people looking for fake creatures out in

499

00:22:07,160 --> 00:22:04,710

the world and it definitely caught on

500

00:22:09,620 --> 00:22:07,170

more than anything and then you couple

501
00:22:11,840 --> 00:22:09,630
that kind of theme with the fake news

502
00:22:14,090 --> 00:22:11,850
narrative and you can definitely get a

503
00:22:18,170 --> 00:22:14,100
sense that something was going on there

504
00:22:20,360 --> 00:22:18,180
oh yeah well and I and plenty of other

505
00:22:24,500 --> 00:22:20,370
astrologers we're talking about that in

506
00:22:27,770 --> 00:22:24,510
2015 going into 2016 that's really that

507
00:22:29,870 --> 00:22:27,780
was an easy call reality getting melty

508
00:22:34,280 --> 00:22:29,880
there was a series of Saturn Neptune

509
00:22:38,300 --> 00:22:34,290
squares we expected the definition of

510
00:22:41,470 --> 00:22:38,310
the real culturally to get very

511
00:22:45,100 --> 00:22:41,480
difficult to ascertain it's like

512
00:22:48,920 --> 00:22:45,110
confusion and depression and delusion um

513
00:22:52,490 --> 00:22:48,930

it's it was just a sort of anatomy of

514

00:22:54,380 --> 00:22:52,500

that Saturn is basically the planet that

515

00:22:57,430 --> 00:22:54,390

when we connect to that or see its

516

00:23:01,130 --> 00:22:57,440

influence or whatever it signifies

517

00:23:03,350 --> 00:23:01,140

reality like most people's dads mean

518

00:23:05,690 --> 00:23:03,360

when they say reality right like you

519

00:23:07,790 --> 00:23:05,700

know like get a job this is the economic

520

00:23:10,600 --> 00:23:07,800

situation you're going to get up on time

521

00:23:13,670 --> 00:23:10,610

go to work right it's time and space as

522

00:23:18,110 --> 00:23:13,680

we experience it and it can agree on

523

00:23:23,420 --> 00:23:18,120

right like solid knock-knock Neptune is

524

00:23:25,730 --> 00:23:23,430

the tripped-out hippy planet and so

525

00:23:27,650 --> 00:23:25,740

Neptune is if you think of if you

526

00:23:30,350 --> 00:23:27,660

imagine the solar system for a second

527

00:23:34,250 --> 00:23:30,360

and you imagine all of the the planets

528

00:23:37,250 --> 00:23:34,260

proper right Neptune is the farthest out

529

00:23:39,680 --> 00:23:37,260

and its orbit encloses the rest of the

530

00:23:42,080 --> 00:23:39,690

system right you have stuff beyond

531

00:23:45,380 --> 00:23:42,090

Neptune but different stuff right yep

532

00:23:47,870 --> 00:23:45,390

puto but Neptune is like 300 times the

533

00:23:51,290 --> 00:23:47,880

size of Pluto okay it's a different kind

534

00:23:54,290 --> 00:23:51,300

of body and so Neptune is this like very

535

00:23:56,630 --> 00:23:54,300

big very fluid

536

00:23:58,580 --> 00:23:56,640

you know dreamy perspective it's really

537

00:24:00,830 --> 00:23:58,590

you know when people get a Neptune

538

00:24:04,340 --> 00:24:00,840

transit or people are born with like a

539

00:24:06,170 --> 00:24:04,350

Sun Neptune conjunction they have really

540

00:24:06,560 --> 00:24:06,180

big perspectives but they have a hard

541

00:24:08,480 --> 00:24:06,570

time

542

00:24:11,690 --> 00:24:08,490

I'm bringing it down as soon as

543

00:24:15,110 --> 00:24:11,700

literally it's the edge of our systems

544

00:24:17,810 --> 00:24:15,120

reality right it gets dark and cold and

545

00:24:19,940 --> 00:24:17,820

weird if you go out further than that

546

00:24:22,399 --> 00:24:19,950

and so when you have historically when

547

00:24:24,200 --> 00:24:22,409

you have Saturn and Neptune in the

548

00:24:26,570 --> 00:24:24,210

configuration that they were last year

549

00:24:29,450 --> 00:24:26,580

which is a square and a square means

550

00:24:31,700 --> 00:24:29,460

that they're exactly 90 degrees away

551
00:24:35,810 --> 00:24:31,710
from our point of view rent in reference

552
00:24:39,769 --> 00:24:35,820
to us and so squares basically give you

553
00:24:41,570 --> 00:24:39,779
friction between those two planets like

554
00:24:43,909 --> 00:24:41,580
between what their you know their

555
00:24:46,119 --> 00:24:43,919
priorities right it's the one of the

556
00:24:48,259 --> 00:24:46,129
worst it's one of the least harmonious

557
00:24:51,499 --> 00:24:48,269
relationships that those spheres can

558
00:24:53,810 --> 00:24:51,509
have and so when you have like tripped

559
00:24:56,629 --> 00:24:53,820
out I'm not sure what's real planet and

560
00:25:00,039 --> 00:24:56,639
you know dad reality planet in

561
00:25:02,930 --> 00:25:00,049
contention it ends up sort of messing up

562
00:25:05,869 --> 00:25:02,940
what people expect and what reality is

563
00:25:08,269 --> 00:25:05,879

going to offer and so you get challenges

564

00:25:11,360 --> 00:25:08,279

to you know what everybody can agree on

565

00:25:14,480 --> 00:25:11,370

what is the news what are the facts you

566

00:25:16,490 --> 00:25:14,490

know is virtual reality reality okay and

567

00:25:18,289 --> 00:25:16,500

so that's a cycle you can you can just

568

00:25:21,049 --> 00:25:18,299

follow and go back through and that one

569

00:25:24,860 --> 00:25:21,059

was interesting and this is a little

570

00:25:26,740 --> 00:25:24,870

kind of jumping back to how you always

571

00:25:29,139 --> 00:25:26,750

have to have a human doing

572

00:25:32,629 --> 00:25:29,149

prognostication you know whether it's

573

00:25:36,680 --> 00:25:32,639

Tarot or statistics or whatever or

574

00:25:38,600 --> 00:25:36,690

serology I was aware of that and I think

575

00:25:40,310 --> 00:25:38,610

did an excellent job of articulating it

576

00:25:42,860 --> 00:25:40,320

repeatedly throughout the year you can

577

00:25:46,100 --> 00:25:42,870

listen again other podcasts or reading

578

00:25:50,080 --> 00:25:46,110

my luminous writings that doesn't mean

579

00:25:52,820 --> 00:25:50,090

that I was totally immune right

580

00:25:55,100 --> 00:25:52,830

it just it doesn't mean just because

581

00:25:57,529 --> 00:25:55,110

you're aware of something doesn't make

582

00:26:00,919 --> 00:25:57,539

you invulnerable to it right and that's

583

00:26:03,799 --> 00:26:00,929

one of the you know it you're certainly

584

00:26:06,590 --> 00:26:03,809

better positioned than if you didn't

585

00:26:08,720 --> 00:26:06,600

know about it right I don't know what

586

00:26:11,779 --> 00:26:08,730

confusions I avoided because I avoided

587

00:26:13,700 --> 00:26:11,789

them but at the same time you know when

588

00:26:16,700 --> 00:26:13,710

you're looking at history you're still

589

00:26:19,129 --> 00:26:16,710

part of history right that makes perfect

590

00:26:20,330 --> 00:26:19,139

sense well and actually just sorry one

591

00:26:24,110 --> 00:26:20,340

thing I would say that we're in

592

00:26:25,850 --> 00:26:24,120

hangover period that that was going to

593

00:26:26,990 --> 00:26:25,860

be my question is because we talked

594

00:26:29,419 --> 00:26:27,000

about you know the Saturn and Neptune

595

00:26:31,610 --> 00:26:29,429

cycle and how it affects the fake news

596

00:26:33,289 --> 00:26:31,620

stain and then there's also the Saturn

597

00:26:35,180 --> 00:26:33,299

Pluto conjunction and the thickening of

598

00:26:37,190 --> 00:26:35,190

borders and I was curious when those two

599

00:26:39,610 --> 00:26:37,200

things might be coming to an end because

600

00:26:43,159 --> 00:26:39,620

I find them both pretty annoying okay so

601
00:26:45,260 --> 00:26:43,169
so our perfect configuration or the

602
00:26:47,029 --> 00:26:45,270
perfect version is Saturn up to exactly

603
00:26:52,669 --> 00:26:47,039
90 degrees away from each other right

604
00:26:56,330 --> 00:26:52,679
that happened three times in 2016 it

605
00:26:58,909 --> 00:26:56,340
will not happen again in 2017 however

606
00:27:01,669 --> 00:26:58,919
there is sort of like a margin of error

607
00:27:04,159 --> 00:27:01,679
where it's close enough to be active

608
00:27:06,320 --> 00:27:04,169
right where the planets are let's say

609
00:27:08,990 --> 00:27:06,330
they're not ninety but it's like 87

610
00:27:10,070 --> 00:27:09,000
degrees right and so you still get some

611
00:27:13,580 --> 00:27:10,080
of that action

612
00:27:16,039 --> 00:27:13,590
but it's not quite right and so when

613
00:27:18,230 --> 00:27:16,049

we're coming into a period where it's

614

00:27:21,350 --> 00:27:18,240

not happened yet but it's almost there

615

00:27:24,470 --> 00:27:21,360

we call that applying right that this is

616

00:27:26,120 --> 00:27:24,480

coming into being and then after

617

00:27:28,340 --> 00:27:26,130

something has happened like I said I'm

618

00:27:30,560 --> 00:27:28,350

on Neptune Square after it's happened

619

00:27:32,570 --> 00:27:30,570

and it's not going to you know we're

620

00:27:35,000 --> 00:27:32,580

done with it but at the same time it's

621

00:27:36,980 --> 00:27:35,010

only like 30 feet behind us in the

622

00:27:39,710 --> 00:27:36,990

rearview mirror we say that those two

623

00:27:43,669 --> 00:27:39,720

are separating but it's still active and

624

00:27:46,100 --> 00:27:43,679

so you know for a lot of 2017 we're in

625

00:27:48,380 --> 00:27:46,110

the separating from that where it's the

626

00:27:50,450 --> 00:27:48,390

last thing that we saw so it's still on

627

00:27:53,360 --> 00:27:50,460

our minds but it is in the rearview

628

00:27:55,909 --> 00:27:53,370

mirror right and so you know after

629

00:27:58,490 --> 00:27:55,919

something happens you try to process it

630

00:28:00,230 --> 00:27:58,500

right and that's what you look at the

631

00:28:03,769 --> 00:28:00,240

media or what people are saying online

632

00:28:05,930 --> 00:28:03,779

people are trying to process these very

633

00:28:08,510 --> 00:28:05,940

real challenges to reality and there's

634

00:28:11,630 --> 00:28:08,520

this hangover from you know oh I believe

635

00:28:13,580 --> 00:28:11,640

this and it was wrong or those people

636

00:28:16,669 --> 00:28:13,590

believe this and it's wrong you know

637

00:28:19,700 --> 00:28:16,679

it's the sort of disillusionment so

638

00:28:21,230 --> 00:28:19,710

that's fading this year as far as the

639

00:28:23,180 --> 00:28:21,240

configuration is concerned we're

640

00:28:25,250 --> 00:28:23,190

processing that rather than getting

641

00:28:28,970 --> 00:28:25,260

exactly the same trick happening again

642

00:28:31,760 --> 00:28:28,980

the saturn pudo thing i would say that

643

00:28:33,409 --> 00:28:31,770

we're so that conjunction and a

644

00:28:34,130 --> 00:28:33,419

conjunction is very easy to imagine the

645

00:28:35,450 --> 00:28:34,140

planets are just

646

00:28:39,170 --> 00:28:35,460

right next to each other in our sky

647

00:28:40,760 --> 00:28:39,180

right that doesn't even happen proper

648

00:28:44,120 --> 00:28:40,770

until the end of the decade but we're

649

00:28:47,630 --> 00:28:44,130

moving towards it there was a shadow of

650

00:28:49,610 --> 00:28:47,640

it especially last year but we'll be

651
00:28:52,310 --> 00:28:49,620
like that that's that's really waiting

652
00:28:55,400 --> 00:28:52,320
for us that'll be that's something that

653
00:28:58,370 --> 00:28:55,410
I think will be more evident in 2018

654
00:29:00,380 --> 00:28:58,380
even than now as much as I don't like

655
00:29:02,630 --> 00:29:00,390
that just strictly from an astrological

656
00:29:04,940 --> 00:29:02,640
point of view that's going to intensify

657
00:29:09,470 --> 00:29:04,950
as we get towards the end of the decade

658
00:29:11,990 --> 00:29:09,480
rather than evaporate hmm right on well

659
00:29:13,730 --> 00:29:12,000
so now that we do know Trump is

660
00:29:15,470 --> 00:29:13,740
president have you looked into his chart

661
00:29:18,230 --> 00:29:15,480
anymore or gotten insights from other

662
00:29:20,870 --> 00:29:18,240
astrologers about his character or what

663
00:29:22,730 --> 00:29:20,880

kind of president he might be well so I

664

00:29:24,920 --> 00:29:22,740

mean I've looked at his chart before

665

00:29:28,130 --> 00:29:24,930

looking at someone's chart and being

666

00:29:30,980 --> 00:29:28,140

able to say some things about their

667

00:29:33,140 --> 00:29:30,990

character or their behavior is a lot

668

00:29:35,980 --> 00:29:33,150

easier than knowing whether they will

669

00:29:38,510 --> 00:29:35,990

win a contest with another person right

670

00:29:41,630 --> 00:29:38,520

so one of the things that's nice is

671

00:29:44,300 --> 00:29:41,640

we've had a timed birth certificate

672

00:29:46,220 --> 00:29:44,310

chart for Trump from the beginning one

673

00:29:49,030 --> 00:29:46,230

of the issues with the election last

674

00:29:51,320 --> 00:29:49,040

year is that a lot of astrologers were

675

00:29:53,990 --> 00:29:51,330

making predictions about Trump versus

676

00:29:57,200 --> 00:29:54,000

Clinton when they didn't have Clinton's

677

00:29:59,840 --> 00:29:57,210

real data we still don't know when she's

678

00:30:01,610 --> 00:29:59,850

born really yeah there are like three

679

00:30:03,470 --> 00:30:01,620

different birth times fooling around out

680

00:30:05,450 --> 00:30:03,480

there and some astrologers are like I

681

00:30:09,350 --> 00:30:05,460

think I'm pretty sure it's this one

682

00:30:12,860 --> 00:30:09,360

because this works well enough with her

683

00:30:14,630 --> 00:30:12,870

history but we still don't know and this

684

00:30:17,330 --> 00:30:14,640

might be fun for you and some your

685

00:30:21,440 --> 00:30:17,340

listeners there's actually a pretty good

686

00:30:24,830 --> 00:30:21,450

case to be made that she found out about

687

00:30:28,100 --> 00:30:24,840

astrology long time ago and actually

688

00:30:30,200 --> 00:30:28,110

intentionally gave wrong data ah because

689

00:30:32,210 --> 00:30:30,210

she didn't want people you know she

690

00:30:34,610 --> 00:30:32,220

because she didn't want people to be

691

00:30:37,100 --> 00:30:34,620

able to say this or that about her right

692

00:30:39,800 --> 00:30:37,110

yeah and that yet my my friend Chris

693

00:30:42,500 --> 00:30:39,810

Brennan did a whole podcast about that I

694

00:30:45,080 --> 00:30:42,510

love that kind of stuff he was just on

695

00:30:47,470 --> 00:30:45,090

it with the day like he tracked on every

696

00:30:50,410 --> 00:30:47,480

source he called these reporters

697

00:30:52,750 --> 00:30:50,420

story-like 1991 you know apparently

698

00:30:56,260 --> 00:30:52,760

there's another astrologer you know 20

699

00:31:00,760 --> 00:30:56,270

years ago who or 25 years ago who like

700

00:31:03,910 --> 00:31:00,770

talked to someone who knew her was a non

701
00:31:05,500 --> 00:31:03,920
acupuncturist the chiropractor and

702
00:31:08,290 --> 00:31:05,510
apparently the chiropractor was into

703
00:31:10,360 --> 00:31:08,300
astrology and was like oh hey I looked

704
00:31:12,960 --> 00:31:10,370
at her chart and was like oh hey you're

705
00:31:15,550 --> 00:31:12,970
a Leo rising just like me and you know

706
00:31:18,100 --> 00:31:15,560
there's a rabbit hole there but that was

707
00:31:21,250 --> 00:31:18,110
one of the issues with I think a lot of

708
00:31:24,910 --> 00:31:21,260
the predictions last year is that people

709
00:31:27,310 --> 00:31:24,920
a number of astrologers didn't actually

710
00:31:29,110 --> 00:31:27,320
have the data you know they knew the day

711
00:31:31,720 --> 00:31:29,120
but there's a big when you're trying to

712
00:31:34,750 --> 00:31:31,730
figure out something in a contest right

713
00:31:37,480 --> 00:31:34,760

you need time of day and it was like

714

00:31:40,930 --> 00:31:37,490

8:00 p.m. 8:00 a.m. 1:30 in the morning

715

00:31:43,270 --> 00:31:40,940

and all those gave very different charts

716

00:31:45,400 --> 00:31:43,280

right sorry that was a that was a

717

00:31:46,720 --> 00:31:45,410

tangent but I don't know husband but

718

00:31:49,330 --> 00:31:46,730

yeah that was one of the problems and I

719

00:31:52,180 --> 00:31:49,340

was looking back I should have been more

720

00:31:55,270 --> 00:31:52,190

critical of some of my colleagues than

721

00:31:57,580 --> 00:31:55,280

like so you're saying this and assuming

722

00:32:02,080 --> 00:31:57,590

that it's 8 a.m. or 8 p.m. birth time

723

00:32:03,430 --> 00:32:02,090

but we don't know hmm right yeah because

724

00:32:07,600 --> 00:32:03,440

astrology is hard enough when you have

725

00:32:11,830 --> 00:32:07,610

the data but with Trump we will call on

726

00:32:14,170 --> 00:32:11,840

chart with Trump we do have a birth

727

00:32:16,540 --> 00:32:14,180

certificate and every astrologer I've

728

00:32:18,790 --> 00:32:16,550

ever seen look at it like oh yeah oh

729

00:32:21,960 --> 00:32:18,800

yeah so here are the two things that

730

00:32:25,660 --> 00:32:21,970

make everybody go oh yeah first he has

731

00:32:29,290 --> 00:32:25,670

Mars and Leo on the ascendant so the

732

00:32:31,410 --> 00:32:29,300

ascendant is ascending is rising right

733

00:32:35,560 --> 00:32:31,420

so that's your rising sign literally

734

00:32:38,140 --> 00:32:35,570

Mars had just breached the horizon in

735

00:32:40,630 --> 00:32:38,150

the east where everything rises most

736

00:32:43,390 --> 00:32:40,640

obviously the Sun and so the ascendant

737

00:32:46,030 --> 00:32:43,400

point in a chart is how that person

738

00:32:48,100 --> 00:32:46,040

projects themselves into the world right

739

00:32:50,460 --> 00:32:48,110

so if you have like Jupiter there you

740

00:32:52,750 --> 00:32:50,470

can expect like a relatively like jolly

741

00:32:55,780 --> 00:32:52,760

philosophical fellow if you have Saturn

742

00:32:59,620 --> 00:32:55,790

there they're going to be kind of cranky

743

00:33:01,360 --> 00:32:59,630

and cranky and more reserved so Mars I

744

00:33:02,980 --> 00:33:01,370

think everybody

745

00:33:06,520 --> 00:33:02,990

has some associations with the planet

746

00:33:09,340 --> 00:33:06,530

Mars Mars is the warrior the fighter

747

00:33:11,500 --> 00:33:09,350

it's a kid there's contentiousness right

748

00:33:13,840 --> 00:33:11,510

is going getting right in your face

749

00:33:16,720 --> 00:33:13,850

Mars rising with Mars on the rising like

750

00:33:19,480 --> 00:33:16,730

that you absolutely expect someone who

751

00:33:23,290 --> 00:33:19,490

you know you look at a book like pull

752

00:33:25,600 --> 00:33:23,300

may from 1700 years or 1800 years ago or

753

00:33:27,460 --> 00:33:25,610

video sound and look up Mars on the

754

00:33:30,820 --> 00:33:27,470

rising the Bick oh yes this person will

755

00:33:33,160 --> 00:33:30,830

be brash and rude and uncouth and they

756

00:33:35,860 --> 00:33:33,170

will affect their enemies like this is

757

00:33:39,610 --> 00:33:35,870

not one of the subtleties of the art and

758

00:33:41,919 --> 00:33:39,620

it's in the sign of Leo so a planet will

759

00:33:45,760 --> 00:33:41,929

always be in a sign and a sign sort of

760

00:33:47,560 --> 00:33:45,770

puts clothes on the significations

761

00:33:50,860 --> 00:33:47,570

of the planet right the planets are all

762

00:33:52,810 --> 00:33:50,870

these sort of raw areas right and they

763

00:33:55,480 --> 00:33:52,820

have a character but they're not it's

764

00:33:56,919 --> 00:33:55,490

not super filled in you need the sign

765

00:34:02,530 --> 00:33:56,929

that the planets been to kind of help

766

00:34:05,290 --> 00:34:02,540

fill out the image right and so in Mars

767

00:34:07,450 --> 00:34:05,300

and Leo is about representation it's

768

00:34:11,440 --> 00:34:07,460

about self it's about you know we have

769

00:34:14,440 --> 00:34:11,450

Mars using the image of self as a tool

770

00:34:16,330 --> 00:34:14,450

or a weapon and so you know you this is

771

00:34:18,700 --> 00:34:16,340

the guy who has his name all over

772

00:34:21,280 --> 00:34:18,710

everything and we can say no matter what

773

00:34:24,310 --> 00:34:21,290

you think I'm extremely brand conscious

774

00:34:26,320 --> 00:34:24,320

right yeah and so you have you know it's

775

00:34:28,930 --> 00:34:26,330

just like oh god that it's right there

776

00:34:34,600 --> 00:34:28,940

and if you look at some of the physio na

777

00:34:36,909 --> 00:34:34,610

mcstuffles in the rising supposed to be

778

00:34:38,830 --> 00:34:36,919

red faced supposed to give them a

779

00:34:41,290 --> 00:34:38,840

reddish coloration they're supposed to

780

00:34:43,690 --> 00:34:41,300

be like red-faced and rude and out of

781

00:34:45,760 --> 00:34:43,700

breast and contentious and willing to

782

00:34:47,619 --> 00:34:45,770

fight and you know it's just right there

783

00:34:50,560 --> 00:34:47,629

it's everybody looks at that and they're

784

00:34:53,379 --> 00:34:50,570

like oh okay away literature and it's

785

00:34:56,020 --> 00:34:53,389

literally from a birth certificate the

786

00:34:59,470 --> 00:34:56,030

other thing that I think is really

787

00:35:01,810 --> 00:34:59,480

obvious is if you look at the position

788

00:35:04,720 --> 00:35:01,820

of the Sun in its chart so he has the

789

00:35:06,910 --> 00:35:04,730

Sun in Gemini right and whenever you

790

00:35:08,710 --> 00:35:06,920

have not everybody does but sometimes

791

00:35:11,230 --> 00:35:08,720

you'll have a planet that's right there

792

00:35:13,660 --> 00:35:11,240

in line with the Sun you know if you

793

00:35:14,690 --> 00:35:13,670

could see through the sun's blinding

794

00:35:16,370 --> 00:35:14,700

rays you

795

00:35:18,920 --> 00:35:16,380

would see the other planet behind it

796

00:35:22,040 --> 00:35:18,930

lined up like that or in front of it if

797

00:35:26,270 --> 00:35:22,050

it's Venus we call that a conjunction

798

00:35:28,520 --> 00:35:26,280

and so Trump has a son Uranus

799

00:35:30,440 --> 00:35:28,530

conjunction right and so this one has to

800

00:35:34,609 --> 00:35:30,450

do with identity and sort of what is the

801
00:35:37,790 --> 00:35:34,619
person's center and Uranus if we look at

802
00:35:41,480 --> 00:35:37,800
the significations for Uranus it's all

803
00:35:44,109 --> 00:35:41,490
about breaking patterns revolting

804
00:35:46,310 --> 00:35:44,119
against whatever you're supposed to do

805
00:35:46,970 --> 00:35:46,320
revolt against whoever you're supposed

806
00:35:49,760 --> 00:35:46,980
to be

807
00:35:53,180 --> 00:35:49,770
it's the planet of departure from the

808
00:35:57,740 --> 00:35:53,190
norm of pattern breaking of rebellion

809
00:35:59,990 --> 00:35:57,750
it's contentious like Mars but it's it's

810
00:36:00,440 --> 00:36:00,000
not necessarily about I'm going to fight

811
00:36:06,050 --> 00:36:00,450
you

812
00:36:09,950 --> 00:36:06,060
say and I'm going to do things my way as

813
00:36:12,890 --> 00:36:09,960

these are things that we prize in our

814

00:36:15,200 --> 00:36:12,900

culture right of individuality and all

815

00:36:17,750 --> 00:36:15,210

that but you know departure from the

816

00:36:18,589 --> 00:36:17,760

norm and rebellion is neither good nor

817

00:36:21,380 --> 00:36:18,599

bad

818

00:36:23,180 --> 00:36:21,390

right right it does seem accurate though

819

00:36:25,220 --> 00:36:23,190

yeah and so when you have somebody like

820

00:36:27,140 --> 00:36:25,230

it's you know that it's literally it's

821

00:36:29,960 --> 00:36:27,150

the wild card planet the planet of

822

00:36:33,620 --> 00:36:29,970

disruption one thing that's kind of fun

823

00:36:36,530 --> 00:36:33,630

if you look at so Uranus the planet is

824

00:36:38,450 --> 00:36:36,540

thought to be really really strong when

825

00:36:40,730 --> 00:36:38,460

it's in the section of the sky that we

826

00:36:43,040 --> 00:36:40,740

call Aquarius which is seven years out

827

00:36:46,460 --> 00:36:43,050

of every 84 and if we just look at the

828

00:36:50,540 --> 00:36:46,470

20th century he was there twice the last

829

00:36:53,120 --> 00:36:50,550

time was like how I was like 96 through

830

00:36:54,740 --> 00:36:53,130

2003 we got the Internet everybody got

831

00:36:56,510 --> 00:36:54,750

the internet it had been around for a

832

00:37:00,020 --> 00:36:56,520

while but everybody got it the time

833

00:37:01,940 --> 00:37:00,030

before that was the mid teens where we

834

00:37:04,579 --> 00:37:01,950

had World War one and it was the first

835

00:37:07,280 --> 00:37:04,589

industrial war you know the machine gun

836

00:37:10,880 --> 00:37:07,290

was very disruptive technology as was

837

00:37:13,250 --> 00:37:10,890

artillery and gas and planes right and

838

00:37:14,420 --> 00:37:13,260

you can go back you know those are I

839

00:37:17,690 --> 00:37:14,430

think those are good examples of

840

00:37:19,790 --> 00:37:17,700

disruptions that are neither you know I

841

00:37:23,930 --> 00:37:19,800

guess you can say World War one is

842

00:37:26,240 --> 00:37:23,940

pretty much in the negative but you know

843

00:37:28,280 --> 00:37:26,250

that the consumer Internet like

844

00:37:31,490 --> 00:37:28,290

everybody getting the Internet

845

00:37:34,250 --> 00:37:31,500

manly 96 to 2003 period you know that

846

00:37:37,760 --> 00:37:34,260

was a Pandora's box full of gifts

847

00:37:40,430 --> 00:37:37,770

blessings and curses right yeah and so

848

00:37:43,340 --> 00:37:40,440

it the key thing that Uranus does is it

849

00:37:46,700 --> 00:37:43,350

changes the game you know it's not about

850

00:37:49,370 --> 00:37:46,710

making a smart or a dumb move within the

851

00:37:50,870 --> 00:37:49,380

rule set it's trying to change the rule

852

00:37:52,370 --> 00:37:50,880

set or just be like you know what I'm

853

00:37:54,500 --> 00:37:52,380

not going to play by those rules right

854

00:37:56,600 --> 00:37:54,510

instead of a good or a bad role of

855

00:38:00,800 --> 00:37:56,610

Monopoly it's kicking over the table

856

00:38:02,660 --> 00:38:00,810

right and so you know with Trump having

857

00:38:04,910 --> 00:38:02,670

that conjunctive son and being sort of

858

00:38:07,550 --> 00:38:04,920

an avatar of that that makes perfect

859

00:38:09,770 --> 00:38:07,560

sense you know the first couple weeks of

860

00:38:11,480 --> 00:38:09,780

the presidency there's a lot of like no

861

00:38:13,550 --> 00:38:11,490

I'm going to try to do things even

862

00:38:15,410 --> 00:38:13,560

though the rules say I can't right yeah

863

00:38:17,780 --> 00:38:15,420

you know I think that was very much the

864

00:38:19,280 --> 00:38:17,790

nature of the primaries in the election

865

00:38:21,800 --> 00:38:19,290

was there like well but you're not

866

00:38:23,210 --> 00:38:21,810

playing this game smartly according to

867

00:38:26,900 --> 00:38:23,220

the rules where if he was playing a

868

00:38:30,140 --> 00:38:26,910

different game yeah and so you know

869

00:38:31,930 --> 00:38:30,150

whatever people think about him I think

870

00:38:34,190 --> 00:38:31,940

that we can say that those Iranian

871

00:38:36,320 --> 00:38:34,200

characteristics which are suggested

872

00:38:39,440 --> 00:38:36,330

extremely strongly by the natal chart

873

00:38:41,360 --> 00:38:39,450

are very much right there

874

00:38:43,340 --> 00:38:41,370

you know that's pretty in arguable and

875

00:38:45,140 --> 00:38:43,350

it's not like there's you know if you

876

00:38:47,600 --> 00:38:45,150

know even just a little smallest bit of

877

00:38:50,120 --> 00:38:47,610

astrology I'm not stretching or

878

00:38:53,150 --> 00:38:50,130

torturing symbols to get their Sun and

879

00:38:56,270 --> 00:38:53,160

Uranus right there boom one thing that's

880

00:38:59,270 --> 00:38:56,280

interesting about that is so I talked

881

00:39:02,450 --> 00:38:59,280

about wheels within wheels right so one

882

00:39:05,450 --> 00:39:02,460

thing you can do is you can hold up the

883

00:39:06,950 --> 00:39:05,460

United States chart next to a leaders

884

00:39:09,470 --> 00:39:06,960

chart and you can look at the

885

00:39:12,590 --> 00:39:09,480

relationship between those two this is

886

00:39:14,600 --> 00:39:12,600

basically synastry and so much more

887

00:39:16,970 --> 00:39:14,610

common to look at two charts in

888

00:39:19,550 --> 00:39:16,980

relationship to each other for romantic

889

00:39:21,620 --> 00:39:19,560

compatibility or male friendship or

890

00:39:25,050 --> 00:39:21,630

relationship but you can also do this

891

00:39:27,480 --> 00:39:25,060

with a larger entity and a person

892

00:39:30,960 --> 00:39:27,490

what is worth noting is if you look at

893

00:39:32,640 --> 00:39:30,970

the u.s. chart the Mars for the US right

894

00:39:35,610 --> 00:39:32,650

we know what Mars means Mars

895

00:39:36,870 --> 00:39:35,620

you know warfare contention that kind of

896

00:39:41,970 --> 00:39:36,880

attitude

897

00:39:45,000 --> 00:39:41,980

Mars is right on top of trumps on Uranus

898

00:39:48,150 --> 00:39:45,010

conjunction so if we're looking at where

899

00:39:50,250 --> 00:39:48,160

does Trump naturally intersect with the

900

00:39:53,460 --> 00:39:50,260

Americans aggregor with the you know

901
00:39:57,420 --> 00:39:53,470
this larger you know the American psyche

902
00:39:58,440 --> 00:39:57,430
right yeah he plugs right into Mars that

903
00:40:01,320 --> 00:39:58,450
doesn't sound good

904
00:40:03,990 --> 00:40:01,330
well I mean you know was anger an

905
00:40:04,380 --> 00:40:04,000
important part of getting elected for

906
00:40:07,440 --> 00:40:04,390
him

907
00:40:11,730 --> 00:40:07,450
yeah things like it right that Mars is

908
00:40:13,500 --> 00:40:11,740
angry so yeah you know there's that well

909
00:40:15,720 --> 00:40:13,510
does that signify we should expect a lot

910
00:40:18,420 --> 00:40:15,730
of war and his presidency you know

911
00:40:20,340 --> 00:40:18,430
that's a good question I don't

912
00:40:22,170 --> 00:40:20,350
necessarily know I don't necessarily

913
00:40:25,020 --> 00:40:22,180

think so I would want to look at a bunch

914

00:40:27,990 --> 00:40:25,030

of other stuff so there's this idea you

915

00:40:29,760 --> 00:40:28,000

know each chart it tends to unfold in a

916

00:40:32,100 --> 00:40:29,770

certain way right where there will be

917

00:40:33,870 --> 00:40:32,110

periods that are very contentious and

918

00:40:36,330 --> 00:40:33,880

periods are very peaceful and periods of

919

00:40:39,770 --> 00:40:36,340

internal conflict and external conflict

920

00:40:43,650 --> 00:40:39,780

all this kind of stuff right and so

921

00:40:46,430 --> 00:40:43,660

ensure the person who is plugged into

922

00:40:50,640 --> 00:40:46,440

the big seat of that larger entity

923

00:40:54,600 --> 00:40:50,650

matters but I would tend to say that the

924

00:40:57,570 --> 00:40:54,610

the cycles of the nation itself are more

925

00:41:00,240 --> 00:40:57,580

dominant than the single person in

926
00:41:01,980 --> 00:41:00,250
charge I actually had this discussion an

927
00:41:04,680 --> 00:41:01,990
astrology podcast my friend Chris

928
00:41:07,260 --> 00:41:04,690
Brennan where he was looking at some

929
00:41:09,450 --> 00:41:07,270
Roman era astrological attacks and

930
00:41:11,700 --> 00:41:09,460
they're like oh the the chart of the

931
00:41:14,940 --> 00:41:11,710
Emperor becomes the chart of the nation

932
00:41:17,610 --> 00:41:14,950
and that makes sense if you have an

933
00:41:19,470 --> 00:41:17,620
emperor with unlimited power right you'd

934
00:41:23,040 --> 00:41:19,480
be like okay so let's throw this chart

935
00:41:26,010 --> 00:41:23,050
out hey kiddo but regardless of how many

936
00:41:27,210 --> 00:41:26,020
of the rules Trump challenges and

937
00:41:29,640 --> 00:41:27,220
regardless of whether it gets away with

938
00:41:32,670 --> 00:41:29,650

this or gets away with that it's not

939

00:41:35,190 --> 00:41:32,680

going to become an imperial autocracy

940

00:41:37,140 --> 00:41:35,200

with you know if we're not going back to

941

00:41:38,430 --> 00:41:37,150

Caligula mm-hmm right there are some

942

00:41:41,010 --> 00:41:38,440

frightening

943

00:41:42,359 --> 00:41:41,020

sort of shadows of that like I know that

944

00:41:45,150 --> 00:41:42,369

there are a lot of people who are

945

00:41:47,430 --> 00:41:45,160

worried about you know people thought

946

00:41:50,280 --> 00:41:47,440

people used to you know COO or take over

947

00:41:51,210 --> 00:41:50,290

or Hitler's rise to power I understand

948

00:41:54,660 --> 00:41:51,220

that there are some frightening

949

00:41:56,970 --> 00:41:54,670

parallels it seems absurd that we would

950

00:42:00,630 --> 00:41:56,980

literally get to Roman emperor level

951
00:42:03,809 --> 00:42:00,640
even the monastic dictator alive right

952
00:42:05,819 --> 00:42:03,819
now can't really compare or have a hard

953
00:42:07,740 --> 00:42:05,829
time really comparing to what has

954
00:42:09,329 --> 00:42:07,750
happened you know what happened you know

955
00:42:09,859 --> 00:42:09,339
two thousand years ago or a thousand

956
00:42:13,200 --> 00:42:09,869
years ago

957
00:42:15,120 --> 00:42:13,210
fair enough so time is definitely going

958
00:42:18,809 --> 00:42:15,130
by pretty quickly let's get into that

959
00:42:20,370 --> 00:42:18,819
road map for 2017 as an overview broadly

960
00:42:21,809 --> 00:42:20,380
speaking what kind of year does it look

961
00:42:26,370 --> 00:42:21,819
like it's going to be what do you see as

962
00:42:29,370 --> 00:42:26,380
being the major themes okay so I guess

963
00:42:31,680 --> 00:42:29,380

first of all I see it as 2016 part two

964

00:42:34,640 --> 00:42:31,690

right I don't know if it's the

965

00:42:37,829 --> 00:42:34,650

redemption the revenge the you know

966

00:42:43,559 --> 00:42:37,839

depends of your storyline but the two

967

00:42:45,839 --> 00:42:43,569

have a tremendous amount in common 2017

968

00:42:49,680 --> 00:42:45,849

again I'm thinking of it as a sequel to

969

00:42:52,710 --> 00:42:49,690

2016 and the reason why is that it has a

970

00:42:57,059 --> 00:42:52,720

lot in common with 2016 astrologically

971

00:42:59,430 --> 00:42:57,069

we have several planets so several outer

972

00:43:01,859 --> 00:42:59,440

planets which are these marker like

973

00:43:05,760 --> 00:43:01,869

Saturn for example marks out like two to

974

00:43:07,740 --> 00:43:05,770

three year chapters of the world right

975

00:43:10,920 --> 00:43:07,750

and Saturn is going to be in the same

976
00:43:12,950 --> 00:43:10,930
sign and we have some other indicators

977
00:43:17,099 --> 00:43:12,960
that are basically in the same place

978
00:43:22,950 --> 00:43:17,109
right so we have a there's a lot of the

979
00:43:25,170 --> 00:43:22,960
character is similar it's not um okay

980
00:43:28,050 --> 00:43:25,180
when you think how summarize this I

981
00:43:30,150 --> 00:43:28,060
wrote like an 8,000 word article on this

982
00:43:33,089 --> 00:43:30,160
a month and a half ago which people

983
00:43:36,510 --> 00:43:33,099
should read one of the characteristics

984
00:43:39,440 --> 00:43:36,520
of 2017 just looking at the astrology is

985
00:43:42,780 --> 00:43:39,450
that you have this super abundance of

986
00:43:45,630 --> 00:43:42,790
planets in fire signs right so the signs

987
00:43:48,059 --> 00:43:45,640
are associated with one of the four

988
00:43:50,790 --> 00:43:48,069

classical elements think of them as

989

00:43:52,170 --> 00:43:50,800

states of matter solid versus plasmas

990

00:43:55,349 --> 00:43:52,180

etc etc

991

00:43:59,430 --> 00:43:55,359

and with 2017 we have a super abundance

992

00:44:03,180 --> 00:43:59,440

of fire stuff and so just this elemental

993

00:44:07,109 --> 00:44:03,190

quality helps characterize some of the

994

00:44:11,069 --> 00:44:07,119

year right if looking at water versus

995

00:44:15,690 --> 00:44:11,079

fire versus error versus hearth and fire

996

00:44:18,780 --> 00:44:15,700

is the most volatile and chaotic and

997

00:44:20,250 --> 00:44:18,790

highest energy of the elements right if

998

00:44:22,380 --> 00:44:20,260

we're looking at them in terms of states

999

00:44:24,180 --> 00:44:22,390

of matter it's the high energy state of

1000

00:44:26,849 --> 00:44:24,190

matter right when things are on fire

1001
00:44:30,450 --> 00:44:26,859
their plasma their stars right we can

1002
00:44:33,510 --> 00:44:30,460
say high energy harder to predict it can

1003
00:44:35,190 --> 00:44:33,520
be difficult you know to predict the

1004
00:44:38,099 --> 00:44:35,200
movement of air right that's like

1005
00:44:41,790 --> 00:44:38,109
convection patterns that's that map is

1006
00:44:44,430 --> 00:44:41,800
beyond me but fire is the structure of

1007
00:44:48,150 --> 00:44:44,440
fire is even more difficult to predict

1008
00:44:51,109 --> 00:44:48,160
and we have a bunch of stuff we have a

1009
00:44:53,609 --> 00:44:51,119
bunch of configurations that highlight

1010
00:44:56,430 --> 00:44:53,619
Uranus which as I said before has a

1011
00:44:59,789 --> 00:44:56,440
disruptive quality and indicates moments

1012
00:45:03,809 --> 00:44:59,799
where the game changes so we have a lot

1013
00:45:07,470 --> 00:45:03,819

of things changing very rapidly

1014

00:45:09,720 --> 00:45:07,480

it being very difficult to just sort of

1015

00:45:12,079 --> 00:45:09,730

planting plan out your year and expect

1016

00:45:14,900 --> 00:45:12,089

everything to move according to plan

1017

00:45:17,160 --> 00:45:14,910

right if we're thinking about strategies

1018

00:45:20,579 --> 00:45:17,170

you know different types of strategies

1019

00:45:22,859 --> 00:45:20,589

for dealing with a year you know some

1020

00:45:25,650 --> 00:45:22,869

years it makes a lot of sense to bunker

1021

00:45:28,109 --> 00:45:25,660

down to make really structured plans and

1022

00:45:29,460 --> 00:45:28,119

just execute those right whereas at

1023

00:45:32,339 --> 00:45:29,470

other points we have to be really

1024

00:45:34,230 --> 00:45:32,349

adaptable because if we make a plan it's

1025

00:45:38,490 --> 00:45:34,240

going to be invalidated you know in a

1026

00:45:39,599 --> 00:45:38,500

month and so this is very much again

1027

00:45:41,400 --> 00:45:39,609

this is something Gordon that we're

1028

00:45:44,309 --> 00:45:41,410

talking about and I wrote about a lot in

1029

00:45:47,430 --> 00:45:44,319

December is getting flexibility and

1030

00:45:51,839 --> 00:45:47,440

adaptability right because what that

1031

00:45:53,359 --> 00:45:51,849

means is not not making plans because

1032

00:45:55,500 --> 00:45:53,369

things might change

1033

00:45:57,270 --> 00:45:55,510

there's a quote I'm going to butcher

1034

00:46:01,079 --> 00:45:57,280

from a book I was reading at the time

1035

00:46:03,420 --> 00:46:01,089

where the character was just 90 year old

1036

00:46:05,520 --> 00:46:03,430

secret agent it's thinking back to an

1037

00:46:09,240 --> 00:46:05,530

old sergeant you know in Burma and

1038

00:46:12,330 --> 00:46:09,250

that guy told her that if you expect the

1039

00:46:14,700 --> 00:46:12,340

unexpected the expected will walk up

1040

00:46:17,730 --> 00:46:14,710

behind you and blow your expectations

1041

00:46:20,340 --> 00:46:17,740

out through the back of your head expect

1042

00:46:20,820 --> 00:46:20,350

the expected just don't forget about the

1043

00:46:24,720 --> 00:46:20,830

rest

1044

00:46:28,290 --> 00:46:24,730

mm-hmm right because being opened to the

1045

00:46:31,770 --> 00:46:28,300

unknown shouldn't mean that you trash

1046

00:46:34,700 --> 00:46:31,780

the known right there you know although

1047

00:46:38,340 --> 00:46:34,710

the the sort of direction of our

1048

00:46:40,710 --> 00:46:38,350

republic seems to be in a more uncertain

1049

00:46:42,900 --> 00:46:40,720

place than it's been for a while like it

1050

00:46:45,570 --> 00:46:42,910

or not you know our lives are not

1051
00:46:46,950 --> 00:46:45,580
equally chaotic yeah the configuration

1052
00:46:50,610 --> 00:46:46,960
is this year we'll definitely have some

1053
00:46:54,240 --> 00:46:50,620
surprises and shifts for people big

1054
00:46:56,550 --> 00:46:54,250
jumps but it's not the same thing right

1055
00:46:58,590 --> 00:46:56,560
it's not complete randomness no it is

1056
00:47:01,650 --> 00:46:58,600
yeah and on no level is a complete

1057
00:47:04,740 --> 00:47:01,660
randomness and just because the larger

1058
00:47:08,310 --> 00:47:04,750
entity that you're inside of is in a

1059
00:47:10,650 --> 00:47:08,320
particularly volatile state it doesn't

1060
00:47:13,590 --> 00:47:10,660
mean that your life is in exactly that

1061
00:47:15,630 --> 00:47:13,600
same state right makes sense yeah I see

1062
00:47:17,820 --> 00:47:15,640
a lot of people conflating the sort of

1063
00:47:20,280 --> 00:47:17,830

macro and micro or the personal and

1064

00:47:21,870 --> 00:47:20,290

political right now and you know they

1065

00:47:23,310 --> 00:47:21,880

both exist and they're both worth

1066

00:47:24,750 --> 00:47:23,320

considering but though you gotta

1067

00:47:27,840 --> 00:47:24,760

remember that they don't operate under

1068

00:47:29,460 --> 00:47:27,850

exactly the same rules so but looking at

1069

00:47:32,820 --> 00:47:29,470

this year led me into with a lot of

1070

00:47:36,030 --> 00:47:32,830

thinking about flexible planning right

1071

00:47:38,430 --> 00:47:36,040

there are some military Maxim's and

1072

00:47:40,980 --> 00:47:38,440

axioms where it's like you plan for

1073

00:47:42,630 --> 00:47:40,990

everything and then once you get into

1074

00:47:45,360 --> 00:47:42,640

the battle you toss that out the window

1075

00:47:47,780 --> 00:47:45,370

right but you do that planning first

1076
00:47:51,540 --> 00:47:47,790
yeah in case things go according to plan

1077
00:47:54,300 --> 00:47:51,550
then you're prepared right you just you

1078
00:47:56,370 --> 00:47:54,310
just don't freak out when the territory

1079
00:48:00,690 --> 00:47:56,380
in the map no longer have a meaningful

1080
00:48:02,310 --> 00:48:00,700
relationship so fire fire fire and I'm

1081
00:48:05,220 --> 00:48:02,320
going to spare you all the technical

1082
00:48:08,690 --> 00:48:05,230
details there one of the as far as

1083
00:48:11,010 --> 00:48:08,700
volatility we get a lot of it basically

1084
00:48:13,260 --> 00:48:11,020
February through like let's say mid

1085
00:48:16,320 --> 00:48:13,270
February mid April there's a

1086
00:48:18,900 --> 00:48:16,330
particularly intense potentially for

1087
00:48:21,240 --> 00:48:18,910
people like positive transformative

1088
00:48:23,640 --> 00:48:21,250

period also a period that a lot of

1089

00:48:25,200 --> 00:48:23,650

little freak a lot of people out for

1090

00:48:27,059 --> 00:48:25,210

both personal and political reasons

1091

00:48:29,579 --> 00:48:27,069

because we get a couple things on top of

1092

00:48:31,710 --> 00:48:29,589

each other right you know if you look at

1093

00:48:33,630 --> 00:48:31,720

human beings most human beings are

1094

00:48:36,029 --> 00:48:33,640

pretty good at dealing with one thing at

1095

00:48:37,950 --> 00:48:36,039

a time even if it's really hard it's

1096

00:48:40,380 --> 00:48:37,960

when you get things coming from a couple

1097

00:48:41,960 --> 00:48:40,390

different angles and you can't deal with

1098

00:48:44,279 --> 00:48:41,970

this because this demands your attention

1099

00:48:46,020 --> 00:48:44,289

but you can't totally focus on this

1100

00:48:47,700 --> 00:48:46,030

because there's that other thing right

1101

00:48:49,410 --> 00:48:47,710

and that's you know when you look at

1102

00:48:52,680 --> 00:48:49,420

human life through the lens of astrology

1103

00:48:54,750 --> 00:48:52,690

you look at periods of time where the

1104

00:48:56,640 --> 00:48:54,760

planets are again like I have a lot of

1105

00:48:58,650 --> 00:48:56,650

faith in people to deal with one thing

1106

00:49:00,480 --> 00:48:58,660

at a time even if it's really difficult

1107

00:49:02,460 --> 00:49:00,490

but when there's a bunch of stuff going

1108

00:49:04,680 --> 00:49:02,470

on and nope there's not you don't have

1109

00:49:06,900 --> 00:49:04,690

enough bandwidth to really solve that

1110

00:49:09,660 --> 00:49:06,910

one thing those are the periods that

1111

00:49:13,890 --> 00:49:09,670

really tend to be more difficult to

1112

00:49:16,859 --> 00:49:13,900

handle right on so that said the factors

1113

00:49:18,859 --> 00:49:16,869

that make this next specially you know

1114

00:49:21,720 --> 00:49:18,869

again mid-february to mid-march is

1115

00:49:24,269 --> 00:49:21,730

probably the the most interesting and

1116

00:49:28,049 --> 00:49:24,279

intense block of time because we get

1117

00:49:30,630 --> 00:49:28,059

some eclipses and we get a Venus

1118

00:49:34,319 --> 00:49:30,640

retrograde right so people probably here

1119

00:49:35,970 --> 00:49:34,329

Mercury retrograde bandied about yeah so

1120

00:49:38,069 --> 00:49:35,980

mercury goes retrograde three times a

1121

00:49:40,710 --> 00:49:38,079

year it's worth noting it doesn't

1122

00:49:43,079 --> 00:49:40,720

signify the apocalypse Venus is

1123

00:49:45,930 --> 00:49:43,089

retrograde happens once every year and a

1124

00:49:48,599 --> 00:49:45,940

half about a year and a half and those

1125

00:49:51,420 --> 00:49:48,609

year and a half increments are bundled

1126

00:49:54,900 --> 00:49:51,430

together to make a very orderly eight

1127

00:49:59,700 --> 00:49:54,910

year cycle which repeats itself so this

1128

00:50:02,370 --> 00:49:59,710

is the Venus in Aries retrograde and the

1129

00:50:04,740 --> 00:50:02,380

planet will be a retrograde from our

1130

00:50:09,380 --> 00:50:04,750

point of view from I believe it's March

1131

00:50:14,609 --> 00:50:09,390

4th to a prolonged and OH February and

1132

00:50:17,670 --> 00:50:14,619

so what Venus retrograde do or what kind

1133

00:50:21,240 --> 00:50:17,680

of experiences they correspond to they

1134

00:50:23,579 --> 00:50:21,250

dig up what's in people's hearts it's

1135

00:50:27,120 --> 00:50:23,589

basically like it's like taking an

1136

00:50:30,480 --> 00:50:27,130

emotional laxative a lot of the stuff

1137

00:50:32,680 --> 00:50:30,490

that's in people comes out and it's very

1138

00:50:36,010 --> 00:50:32,690

important for relation

1139

00:50:38,589 --> 00:50:36,020

chips and it's in relationships both on

1140

00:50:41,050 --> 00:50:38,599

a personal level as well as a collective

1141

00:50:42,730 --> 00:50:41,060

level but you know in terms of people's

1142

00:50:46,150 --> 00:50:42,740

personal lives the Venus retrograde xur

1143

00:50:48,579 --> 00:50:46,160

a period of cleansing and you know

1144

00:50:50,920 --> 00:50:48,589

things out and then saying oh I

1145

00:50:53,079 --> 00:50:50,930

guess I've been carrying that around

1146

00:50:56,680 --> 00:50:53,089

I've been packed up pretty here and a

1147

00:50:59,020 --> 00:50:56,690

half yeah and it's interesting in terms

1148

00:51:00,970 --> 00:50:59,030

of like what you see in the news Venus

1149

00:51:04,950 --> 00:51:00,980

retrograde tend to be good for sex

1150

00:51:08,200 --> 00:51:04,960

scandals all right yeah Pizza Gate Oh

1151

00:51:09,550 --> 00:51:08,210

God and so with one thing that's

1152

00:51:13,120 --> 00:51:09,560

interesting is because you have this

1153

00:51:15,220 --> 00:51:13,130

eight year cycle comprised of five units

1154

00:51:18,309 --> 00:51:15,230

retrogrades what you'll see is that

1155

00:51:21,540 --> 00:51:18,319

people because of the structure of their

1156

00:51:25,210 --> 00:51:21,550

their charts individually tend to be

1157

00:51:27,339 --> 00:51:25,220

sensitive to one or another of these and

1158

00:51:29,589 --> 00:51:27,349

if you can just if you do a little

1159

00:51:32,800 --> 00:51:29,599

history and you can figure out which one

1160

00:51:34,720 --> 00:51:32,810

which one's of these matter for you you

1161

00:51:37,930 --> 00:51:34,730

can get really interesting and

1162

00:51:40,780 --> 00:51:37,940

consistent precedents and that that

1163

00:51:42,460 --> 00:51:40,790

allows you to project forward there's a

1164

00:51:45,520 --> 00:51:42,470

friend and colleague of mine Patrick

1165

00:51:47,770 --> 00:51:45,530

Watson took a look at this Venus

1166

00:51:49,990 --> 00:51:47,780

retrograde cycle just one in Aries which

1167

00:51:53,890 --> 00:51:50,000

is again so this is like late winter

1168

00:51:57,540 --> 00:51:53,900

spring 2017 late winter spring 2009 late

1169

00:52:01,079 --> 00:51:57,550

winter spring 2001 93 you know etc etc

1170

00:52:04,569 --> 00:52:01,089

anyways we looked at this with Trump and

1171

00:52:08,440 --> 00:52:04,579

almost everything almost every important

1172

00:52:11,740 --> 00:52:08,450

event in his romantic life cooks into

1173

00:52:14,800 --> 00:52:11,750

this cycle Wow yeah people should read

1174

00:52:17,410 --> 00:52:14,810

the article look up Patrick Watson Venus

1175

00:52:20,230 --> 00:52:17,420

Trump yeah and it goes back into the

1176

00:52:23,170 --> 00:52:20,240

early 80s and it's like he meets his

1177

00:52:25,120 --> 00:52:23,180

wife he divorces his wife he becomes a

1178

00:52:28,240 --> 00:52:25,130

bachelor he goes back to being married

1179

00:52:29,650 --> 00:52:28,250

like it's just these big signposts ha

1180

00:52:32,770 --> 00:52:29,660

you know if you're looking at the

1181

00:52:35,230 --> 00:52:32,780

symbolism or the meaning of you know a

1182

00:52:37,089 --> 00:52:35,240

planet from our perspective reversing

1183

00:52:39,460 --> 00:52:37,099

its course a lot of times you have

1184

00:52:42,849 --> 00:52:39,470

reversals right where it's like changing

1185

00:52:45,309 --> 00:52:42,859

directions and so you'll see that and a

1186

00:52:46,630 --> 00:52:45,319

lot of people will feel that emotionally

1187

00:52:48,670 --> 00:52:46,640

they'll feel like change

1188

00:52:51,220 --> 00:52:48,680

directions well maybe I don't want to do

1189

00:52:53,230 --> 00:52:51,230

this and then they'll come back to maybe

1190

00:52:55,750 --> 00:52:53,240

I do want to do this but not this way or

1191

00:52:58,150 --> 00:52:55,760

maybe I do love this person or there's a

1192

00:53:00,280 --> 00:52:58,160

lot of literally what's funny is what

1193

00:53:03,370 --> 00:53:00,290

you see what you people experience is

1194

00:53:05,680 --> 00:53:03,380

back and forth about something and

1195

00:53:07,270 --> 00:53:05,690

that's what the planet is visibly doing

1196

00:53:09,970 --> 00:53:07,280

if you watch two different talk a bit

1197

00:53:13,000 --> 00:53:09,980

back and forth or the same patch of sky

1198

00:53:15,040 --> 00:53:13,010

right on all right so we have that and

1199

00:53:19,390 --> 00:53:15,050

so that like volatize is the passion

1200

00:53:22,000 --> 00:53:19,400

right and so we have that brewing well

1201

00:53:24,910 --> 00:53:22,010

we have two eclipses and that's not

1202

00:53:27,970 --> 00:53:24,920

necessarily a crazy thing there are four

1203

00:53:30,930 --> 00:53:27,980

eclipses every year with very few

1204

00:53:34,240 --> 00:53:30,940

exceptions they're not all equally

1205

00:53:36,910 --> 00:53:34,250

intense but they they're you almost

1206

00:53:39,610 --> 00:53:36,920

always get forever year but you get a

1207

00:53:41,590 --> 00:53:39,620

2-pack at a time you get a one solar one

1208

00:53:44,830 --> 00:53:41,600

lunar and then about six months later

1209

00:53:48,070 --> 00:53:44,840

you get one solar in one lunar right so

1210

00:53:52,480 --> 00:53:48,080

this year we get it we have a penumbral

1211

00:53:56,230 --> 00:53:52,490

eclipse in leo on February 10th and then

1212

00:53:58,840 --> 00:53:56,240

we have an annular eclipse in solar

1213

00:54:02,410 --> 00:53:58,850

eclipse in Pisces on the 26th of the

1214

00:54:04,870 --> 00:54:02,420

month and in annular eclipse is one of

1215

00:54:07,630 --> 00:54:04,880

those Ring of Fire one they're really

1216

00:54:09,760 --> 00:54:07,640

cool looking it's not just like some

1217

00:54:12,490 --> 00:54:09,770

kind of beer barely visible sort of

1218

00:54:13,420 --> 00:54:12,500

shadow yeah because sometimes

1219

00:54:14,770 --> 00:54:13,430

you know you hear there's going to be an

1220

00:54:17,530 --> 00:54:14,780

eclipse and you go to see in your like

1221

00:54:20,230 --> 00:54:17,540

well that really wasn't that cool that

1222

00:54:21,340 --> 00:54:20,240

was it yeah that was that I thought that

1223

00:54:23,500 --> 00:54:21,350

you know I thought it was going to be

1224

00:54:25,600 --> 00:54:23,510

darkness in the day and the birds would

1225

00:54:32,470 --> 00:54:25,610

come out and start singing hymns to the

1226

00:54:34,090 --> 00:54:32,480

old ones and you know but eclipses do a

1227

00:54:37,150 --> 00:54:34,100

lot of things there's a lot of eclipses

1228

00:54:39,340 --> 00:54:37,160

lorb people have been telling stories

1229

00:54:41,080 --> 00:54:39,350

about eclipses as long as they're been

1230

00:54:42,640 --> 00:54:41,090

people it's one of the when you know

1231

00:54:45,280 --> 00:54:42,650

when you get a real one it's one of the

1232

00:54:48,340 --> 00:54:45,290

most dramatic celestial events you can

1233

00:54:50,460 --> 00:54:48,350

see right on what I will say is that

1234

00:54:53,940 --> 00:54:50,470

what eclipses you do consistently is

1235

00:54:58,300 --> 00:54:53,950

they get things moving that which is

1236

00:55:00,460 --> 00:54:58,310

latent in a person's life often rises to

1237

00:55:03,099 --> 00:55:00,470

the surface and then makes a change

1238

00:55:05,530 --> 00:55:03,109

it's almost like the eclipses sort of if

1239

00:55:07,809 --> 00:55:05,540

we have like the sort of visible and

1240

00:55:11,260 --> 00:55:07,819

invisible or the apparent and the latent

1241

00:55:13,300 --> 00:55:11,270

those two are usually kind of off-center

1242

00:55:16,210 --> 00:55:13,310

they're kind of they're not quite

1243

00:55:18,069 --> 00:55:16,220

connecting right so some stuff stays

1244

00:55:20,339 --> 00:55:18,079

over here and hidden and some stuff

1245

00:55:22,780 --> 00:55:20,349

stays over here and seen and visible

1246

00:55:27,130 --> 00:55:22,790

eclipses tend to bring those two layers

1247

00:55:29,770 --> 00:55:27,140

into alignment and so what you get as

1248

00:55:33,130 --> 00:55:29,780

stuff comes out of nowhere and also

1249

00:55:35,800 --> 00:55:33,140

stuff goes back to nowhere it's almost

1250

00:55:38,859 --> 00:55:35,810

like the mythological angle on it would

1251
00:55:41,770 --> 00:55:38,869
be like the gateway between the world of

1252
00:55:43,569 --> 00:55:41,780
the living and the dead is open for

1253
00:55:46,420 --> 00:55:43,579
business and stuff can jump out of there

1254
00:55:48,370 --> 00:55:46,430
and stuff can fall into there and what

1255
00:55:49,059 --> 00:55:48,380
that means in practice is stuff moves a

1256
00:55:53,260 --> 00:55:49,069
lot quicker

1257
00:55:54,790 --> 00:55:53,270
during that lunar cycle and so so we

1258
00:55:57,190 --> 00:55:54,800
have a pair of those the one on February

1259
00:55:59,650 --> 00:55:57,200
10th is you kind of feel it but it's not

1260
00:56:02,980 --> 00:55:59,660
it's not super dramatic the one on the

1261
00:56:05,170 --> 00:56:02,990
26 on February 26 is pretty intense and

1262
00:56:07,390 --> 00:56:05,180
it's right around Venus retrograde

1263
00:56:09,700 --> 00:56:07,400

station there's some pretty intense Mars

1264

00:56:12,190 --> 00:56:09,710

stuff happening and if February should

1265

00:56:16,089 --> 00:56:12,200

be pretty interesting and by interesting

1266

00:56:18,579 --> 00:56:16,099

I mean semi terrifying if you watch yes

1267

00:56:20,470 --> 00:56:18,589

and so there's that and then you know

1268

00:56:24,099 --> 00:56:20,480

we'll work through that and go back to

1269

00:56:26,559 --> 00:56:24,109

sort of the normal volatility for this

1270

00:56:29,740 --> 00:56:26,569

year because to see this year as a whole

1271

00:56:31,599 --> 00:56:29,750

is you know more volatile than most

1272

00:56:34,270 --> 00:56:31,609

years right just you know if we looked

1273

00:56:37,059 --> 00:56:34,280

at like a 40-year average right a lot of

1274

00:56:39,390 --> 00:56:37,069

questions there are a lot of questions

1275

00:56:42,819 --> 00:56:39,400

throughout the year when I wrote my

1276
00:56:45,220 --> 00:56:42,829
mighty is attempting to summarize 2017

1277
00:56:48,250 --> 00:56:45,230
but I can December I decided to go with

1278
00:56:49,780 --> 00:56:48,260
a casino metaphor right yeah right

1279
00:56:51,670 --> 00:56:49,790
because it's like you gotta you gotta

1280
00:56:53,770 --> 00:56:51,680
wait for those cards to get turned over

1281
00:56:56,470 --> 00:56:53,780
before you know how strong your hand is

1282
00:56:58,990 --> 00:56:56,480
and you know one thing that's fun about

1283
00:57:02,640 --> 00:56:59,000
poker is a metaphor is it's a game of

1284
00:57:05,230 --> 00:57:02,650
both skill and chance yeah it's not like

1285
00:57:07,750 --> 00:57:05,240
everything's random you might get

1286
00:57:09,640 --> 00:57:07,760
you know that that's not that's not the

1287
00:57:12,490 --> 00:57:09,650
message it's just that there's you know

1288
00:57:13,990 --> 00:57:12,500

there are a lot of you think of the

1289

00:57:14,500 --> 00:57:14,000

lotteries where they have all the little

1290

00:57:16,660 --> 00:57:14,510

ball

1291

00:57:18,670 --> 00:57:16,670

bouncing around right you know no matter

1292

00:57:21,250 --> 00:57:18,680

what industry you're in right now

1293

00:57:23,590 --> 00:57:21,260

there's a good chance that everybody's

1294

00:57:25,260 --> 00:57:23,600

watching those balls and they're you

1295

00:57:29,290 --> 00:57:25,270

know it's going to be plan a B or C

1296

00:57:30,160 --> 00:57:29,300

depending on which ones come up right

1297

00:57:32,290 --> 00:57:30,170

right

1298

00:57:34,120 --> 00:57:32,300

I love the analogy because it's like

1299

00:57:36,730 --> 00:57:34,130

you're talking earlier about the

1300

00:57:38,950 --> 00:57:36,740

flexibility required and I play a lot of

1301

00:57:40,720 --> 00:57:38,960

Texas Hold'em you get your two cards and

1302

00:57:43,300 --> 00:57:40,730

then you see the flop and that could

1303

00:57:44,410 --> 00:57:43,310

drastically change your situation and

1304

00:57:47,110 --> 00:57:44,420

when you get to the river I mean

1305

00:57:50,080 --> 00:57:47,120

everybody knows the river can turn the

1306

00:57:52,360 --> 00:57:50,090

whole game upside down so yeah you can

1307

00:57:55,480 --> 00:57:52,370

plan but then you also have to be ready

1308

00:57:57,550 --> 00:57:55,490

for sudden changes right right and so

1309

00:58:00,580 --> 00:57:57,560

that's part of the you know that

1310

00:58:02,950 --> 00:58:00,590

territory of this year and to a certain

1311

00:58:06,990 --> 00:58:02,960

degree that that's interesting for me as

1312

00:58:10,270 --> 00:58:07,000

an astrologer because the symbols are

1313

00:58:12,220 --> 00:58:10,280

literally giving are providing this

1314

00:58:14,710 --> 00:58:12,230

image for this impression right saying

1315

00:58:17,470 --> 00:58:14,720

like okay wait and see and then move it

1316

00:58:19,300 --> 00:58:17,480

doesn't mean don't come up with any

1317

00:58:22,120 --> 00:58:19,310

ideas about what you might do if this

1318

00:58:26,200 --> 00:58:22,130

eventualities a mob but you know the

1319

00:58:29,440 --> 00:58:26,210

strategy is not you know fixed start to

1320

00:58:32,290 --> 00:58:29,450

finish it the strategy of working with a

1321

00:58:34,810 --> 00:58:32,300

volatile situation which is interesting

1322

00:58:36,550 --> 00:58:34,820

because that's in contradiction to a

1323

00:58:38,920 --> 00:58:36,560

certain degree with the idea of oh I'm

1324

00:58:40,600 --> 00:58:38,930

going to predict the future right yeah

1325

00:58:43,540 --> 00:58:40,610

soon as you can see that there's a

1326

00:58:45,730 --> 00:58:43,550

period where making hard predictions and

1327

00:58:49,990 --> 00:58:45,740

expecting things to go exactly that way

1328

00:58:52,330 --> 00:58:50,000

is not a good strategy right right which

1329

00:58:54,690 --> 00:58:52,340

is ironic because that in of itself is

1330

00:58:57,640 --> 00:58:54,700

hopefully an accurate prediction right

1331

00:58:59,620 --> 00:58:57,650

yeah but again there's that meta level

1332

00:59:02,410 --> 00:58:59,630

where you're not immune to the times

1333

00:59:03,910 --> 00:59:02,420

that you're getting the data on you can

1334

00:59:06,160 --> 00:59:03,920

say this is a period of history that

1335

00:59:09,100 --> 00:59:06,170

looks like this and if you live through

1336

00:59:11,830 --> 00:59:09,110

that you don't get a free pass you get a

1337

00:59:13,690 --> 00:59:11,840

you know you get maybe a better map but

1338

00:59:15,640 --> 00:59:13,700

you know the map does not make you

1339

00:59:20,200 --> 00:59:15,650

invulnerable in the territory it's not

1340

00:59:22,870 --> 00:59:20,210

god mode right whilst that so one thing

1341

00:59:24,300 --> 00:59:22,880

I want to get to it's really interesting

1342

00:59:26,430 --> 00:59:24,310

of

1343

00:59:29,630 --> 00:59:26,440

probably the most interesting single

1344

00:59:32,130 --> 00:59:29,640

thing in the astrology of 2017 is

1345

00:59:35,160 --> 00:59:32,140

something that's already being called

1346

00:59:38,250 --> 00:59:35,170

the great American Eclipse yeah August

1347

00:59:42,030 --> 00:59:38,260

right I love that I love like evocative

1348

00:59:44,580 --> 00:59:42,040

poetic titles oh yeah you know the media

1349

00:59:47,520 --> 00:59:44,590

very rarely gives me those we usually

1350

00:59:50,310 --> 00:59:47,530

have to make them up myself yeah so that

1351

00:59:54,810 --> 00:59:50,320

the great American eclipse is a total

1352

00:59:58,200 --> 00:59:54,820

solar eclipse in August and let me get

1353

01:00:00,450 --> 00:59:58,210

you the actual date it's um it's August

1354

01:00:03,450 --> 01:00:00,460

21st I think I wrote it on the calendar

1355

01:00:06,480 --> 01:00:03,460

yeah I just got done writing about

1356

01:00:10,070 --> 01:00:06,490

February exhaustively and so all of my

1357

01:00:14,400 --> 01:00:10,080

my data slots per temporarily occupied

1358

01:00:18,540 --> 01:00:14,410

mm-hmm do do oh there it is beautiful ad

1359

01:00:22,590 --> 01:00:18,550

so it's is August 21st and so that is a

1360

01:00:25,500 --> 01:00:22,600

total solar eclipse in leo

1361

01:00:28,290 --> 01:00:25,510

now the reason that it's being called

1362

01:00:31,260 --> 01:00:28,300

the great American Eclipse is that it

1363

01:00:35,790 --> 01:00:31,270

will be visible through almost the

1364

01:00:37,650 --> 01:00:35,800

entire country it'll start if you track

1365

01:00:40,260 --> 01:00:37,660

the path of it across the country

1366

01:00:43,440 --> 01:00:40,270

basically starts being visible in the

1367

01:00:46,770 --> 01:00:43,450

northwestern United States and then it

1368

01:00:50,400 --> 01:00:46,780

sort of exits down there around the sort

1369

01:00:53,310 --> 01:00:50,410

of south-central East Coast and so we

1370

01:00:55,140 --> 01:00:53,320

haven't had a total floor eclipse that

1371

01:01:00,740 --> 01:00:55,150

was visible across pretty much the

1372

01:01:02,010 --> 01:01:00,750

entire continental US since Huson 1918

1373

01:01:03,690 --> 01:01:02,020

1918

1374

01:01:07,080 --> 01:01:03,700

right so this doesn't happen very often

1375

01:01:10,620 --> 01:01:07,090

and what's even more interesting about

1376

01:01:14,730 --> 01:01:10,630

that is so this eclipse takes place at

1377

01:01:17,490 --> 01:01:14,740

the very end of the sign of Leo and it

1378

01:01:20,700 --> 01:01:17,500

takes place at 28 degrees out of 30 of

1379

01:01:24,809 --> 01:01:20,710

Leo and

1380

01:01:27,000 --> 01:01:24,819

back to Trump Trump has that Mars that

1381

01:01:30,599 --> 01:01:27,010

we were talking about and that ascendant

1382

01:01:33,720 --> 01:01:30,609

in the last degrees of Leo so this is

1383

01:01:38,250 --> 01:01:33,730

right on his Mars and it's right on his

1384

01:01:40,079 --> 01:01:38,260

ascendant and so you know if if a client

1385

01:01:42,029 --> 01:01:40,089

came to me and we were sitting down were

1386

01:01:44,099 --> 01:01:42,039

like oh let's talk about this year and I

1387

01:01:45,960 --> 01:01:44,109

saw that you know my eyebrows would

1388

01:01:50,190 --> 01:01:45,970

would would shoot through my hairline

1389

01:01:54,420 --> 01:01:50,200

hmm that's a that's a big in mythology

1390

01:01:57,269 --> 01:01:54,430

goes you know eclipses it interesting it

1391

01:01:59,910 --> 01:01:57,279

it can be difficult to know exactly what

1392

01:02:01,829 --> 01:01:59,920

eclipses with you but they do stuff it's

1393

01:02:04,230 --> 01:02:01,839

a highly charged moment yeah you

1394

01:02:06,799 --> 01:02:04,240

underline it a couple times and you know

1395

01:02:09,750 --> 01:02:06,809

you get out your highlighter right and

1396

01:02:12,630 --> 01:02:09,760

that ascendant we're talking about that

1397

01:02:14,400 --> 01:02:12,640

the ascending degree of a chart that's

1398

01:02:18,809 --> 01:02:14,410

considered to be an extremely sensitive

1399

01:02:20,519 --> 01:02:18,819

point in a person's natal chart we could

1400

01:02:23,130 --> 01:02:20,529

say that that's analogous to your

1401

01:02:25,440 --> 01:02:23,140

doorstop right that's your front that's

1402

01:02:27,690 --> 01:02:25,450

the front door of your chart right and

1403

01:02:30,180 --> 01:02:27,700

so when you get a significant

1404

01:02:33,230 --> 01:02:30,190

configuration that comes to your

1405

01:02:37,620 --> 01:02:33,240

doorstep like that it's gonna mean stuff

1406

01:02:39,240 --> 01:02:37,630

and so that's really interesting and you

1407

01:02:41,970 --> 01:02:39,250

know it's so funny that it's literally

1408

01:02:44,250 --> 01:02:41,980

on the rising of the President of the

1409

01:02:47,180 --> 01:02:44,260

United States and just happened to be

1410

01:02:50,160 --> 01:02:47,190

visible across all of the United States

1411

01:02:53,069 --> 01:02:50,170

man right so you know that says

1412

01:02:54,779 --> 01:02:53,079

something about this country it's my

1413

01:02:57,989 --> 01:02:54,789

country can you say if it's more

1414

01:03:00,689 --> 01:02:57,999

positive or negative so

1415

01:03:03,089 --> 01:03:00,699

what I will say is because it's in Leo

1416

01:03:07,019 --> 01:03:03,099

and it's on dragon's head or North node

1417

01:03:09,179 --> 01:03:07,029

of the moon in general dis Eclipse cycle

1418

01:03:11,369 --> 01:03:09,189

because this one is in Leo but we're

1419

01:03:15,149 --> 01:03:11,379

going to have them in Leo and Aquarius

1420

01:03:17,639 --> 01:03:15,159

until early 2018 Eclipse his move in

1421

01:03:20,039 --> 01:03:17,649

cycles where you get you'll get them in

1422

01:03:22,289 --> 01:03:20,049

this pair of signs and then this pair of

1423

01:03:27,569 --> 01:03:22,299

signs and the next pair of signs it's

1424

01:03:29,669 --> 01:03:27,579

roughly 18 months per cycle doesn't

1425

01:03:33,269 --> 01:03:29,679

always work out to exactly that this one

1426

01:03:35,759 --> 01:03:33,279

is going to be more like 23 but so this

1427

01:03:38,159 --> 01:03:35,769

one has the North node or the dragon's

1428

01:03:40,159 --> 01:03:38,169

head which is the Eclipse indicator in

1429

01:03:44,069 --> 01:03:40,169

Leo so half a Morgan to me in Leo

1430

01:03:45,869 --> 01:03:44,079

generally if I were interpreting that it

1431

01:03:51,809 --> 01:03:45,879

would mean that it would it would speak

1432

01:03:55,879 --> 01:03:51,819

to a rise in identification with now as

1433

01:03:59,069 --> 01:03:55,889

you say a rise in nationalism a rise in

1434

01:04:01,679 --> 01:03:59,079

you know waving a banner and identifying

1435

01:04:04,829 --> 01:04:01,689

with the banner it's very like team

1436

01:04:06,959 --> 01:04:04,839

sports damn on a positive level on an

1437

01:04:08,729 --> 01:04:06,969

individual level I think this psyche

1438

01:04:11,429 --> 01:04:08,739

will give a lot of people to courage to

1439

01:04:14,369 --> 01:04:11,439

stand up and say this is who I am and

1440

01:04:17,509 --> 01:04:14,379

this is what I believe it's basically a

1441

01:04:21,359 --> 01:04:17,519

push to get out there and represent

1442

01:04:24,239 --> 01:04:21,369

whatever that and it's very linked to

1443

01:04:26,459 --> 01:04:24,249

the identification mechanism which

1444

01:04:29,009 --> 01:04:26,469

obviously works on a national level and

1445

01:04:31,439 --> 01:04:29,019

works on a on a local level and an

1446

01:04:33,719 --> 01:04:31,449

individual level we can think of a lot

1447

01:04:36,329 --> 01:04:33,729

of you know a lot of nationalism to

1448

01:04:38,609 --> 01:04:36,339

terrible things but that process of

1449

01:04:42,169 --> 01:04:38,619

identification with something is not

1450

01:04:45,479 --> 01:04:42,179

inherently pathological unless you're a

1451

01:04:47,279 --> 01:04:45,489

really serious Buddhist right like

1452

01:04:48,659 --> 01:04:47,289

they're being willing to step into you

1453

01:04:51,209 --> 01:04:48,669

know what this is who I am and this is

1454

01:04:53,189 --> 01:04:51,219

what I believe and I'm willing to you

1455

01:04:55,529 --> 01:04:53,199

know I'm willing to be seen doing that

1456

01:04:57,209 --> 01:04:55,539

right that seems to be happening a lot

1457

01:04:59,159 --> 01:04:57,219

even with the women's March and the

1458

01:05:02,369 --> 01:04:59,169

react the negative reaction to Trump I

1459

01:05:05,339 --> 01:05:02,379

mean that's in the air wow man I love it

1460

01:05:07,559 --> 01:05:05,349

so that does just about covered I think

1461

01:05:09,149 --> 01:05:07,569

and just like last time I leave this

1462

01:05:11,640 --> 01:05:09,159

conversation really fired up about

1463

01:05:13,710 --> 01:05:11,650

astrology and I've definitely got a

1464

01:05:15,570 --> 01:05:13,720

Yukie areas marked on my calendar that

1465

01:05:18,090 --> 01:05:15,580

eclipse for sure and we'll see what

1466

01:05:19,770 --> 01:05:18,100

happens and if people do want more

1467

01:05:21,630 --> 01:05:19,780

austin topic remind them how to do that

1468

01:05:23,160 --> 01:05:21,640

you have some intensive classes you have

1469

01:05:25,890 --> 01:05:23,170

a yearly almanac what else should people

1470

01:05:27,060 --> 01:05:25,900

know so you can find pretty much

1471

01:05:32,820 --> 01:05:27,070

everything i'm doing

1472

01:05:36,570 --> 01:05:32,830

at austin capcom i write almost i write

1473

01:05:39,270 --> 01:05:36,580

every week I write weeklies I write I

1474

01:05:41,930 --> 01:05:39,280

write about months I wrote about this

1475

01:05:45,600 --> 01:05:41,940

year I've been doing a lot of writing

1476

01:05:48,000 --> 01:05:45,610

trying to put it down I'm teaching a

1477

01:05:50,520 --> 01:05:48,010

series of classes on the fundamentals of

1478

01:05:54,150 --> 01:05:50,530

astrology the first one actually starts

1479

01:05:57,420 --> 01:05:54,160

tomorrow on the 4th of February so that

1480

01:05:59,670 --> 01:05:57,430

people probably won't get this in time

1481

01:06:02,730 --> 01:05:59,680

to sign up for that but that's part of

1482

01:06:05,250 --> 01:06:02,740

an eight month modular series where you

1483

01:06:07,350 --> 01:06:05,260

can jump in at any point and you can

1484

01:06:10,080 --> 01:06:07,360

also get recordings if you want to catch

1485

01:06:12,440 --> 01:06:10,090

up but yeah I'm teaching classes for

1486

01:06:15,810 --> 01:06:12,450

beginner intermediate advanced topics

1487

01:06:17,850 --> 01:06:15,820

all year and I try to you know get that

1488

01:06:20,760 --> 01:06:17,860

out through newsletters and

1489

01:06:22,800 --> 01:06:20,770

announcements and whatnot oh I I do

1490

01:06:26,480 --> 01:06:22,810

readings usually I'm booked out till

1491

01:06:30,030 --> 01:06:26,490

June right now damn can dress thank you

1492

01:06:32,730 --> 01:06:30,040

yeah it's a great problem to have

1493

01:06:36,270 --> 01:06:32,740

I feel really bad telling someone they

1494

01:06:40,740 --> 01:06:36,280

have to wait for months but it's just I

1495

01:06:43,230 --> 01:06:40,750

just can't do it it's not something I

1496

01:06:45,030 --> 01:06:43,240

like I don't want to rush you know I

1497

01:06:46,530 --> 01:06:45,040

don't it's not a conveyor about where

1498

01:06:47,970 --> 01:06:46,540

I'm just like let's do everyone quickly

1499

01:06:50,160 --> 01:06:47,980

you know as quickly and efficiently as

1500

01:06:53,340 --> 01:06:50,170

possible let's get this assembly line

1501
01:06:54,930 --> 01:06:53,350
style divination going but if people

1502
01:06:57,510 --> 01:06:54,940
want to make an appoint with me for the

1503
01:07:00,120 --> 01:06:57,520
summer you know because that you know

1504
01:07:03,600 --> 01:07:00,130
that four or five months booked out just

1505
01:07:05,100 --> 01:07:03,610
keeps pushing further and further so you

1506
01:07:07,920 --> 01:07:05,110
know if you if you want to schedule a

1507
01:07:08,280 --> 01:07:07,930
talk like it's way smarter to just get

1508
01:07:10,470 --> 01:07:08,290
it

1509
01:07:12,000 --> 01:07:10,480
ironed out now so you know that in

1510
01:07:15,420 --> 01:07:12,010
September we're going to have a chat or

1511
01:07:18,480 --> 01:07:15,430
July yeah sweet that makes sense

1512
01:07:20,520 --> 01:07:18,490
well very cool Austin you are the

1513
01:07:22,080 --> 01:07:20,530

goddamn man thanks again take care of

1514

01:07:23,340 --> 01:07:22,090

yourself out there well thanks for

1515

01:07:24,480 --> 01:07:23,350

having me on it's always great to talk

1516

01:07:27,870 --> 01:07:24,490

to you

1517

01:07:30,660 --> 01:07:27,880

and boom goes the dynamite people the

1518

01:07:33,120 --> 01:07:30,670

triumphant return of Austin Copic gotta

1519

01:07:35,580 --> 01:07:33,130

love it I'm becoming more and more of a

1520

01:07:37,380 --> 01:07:35,590

fan of astrology I just enjoy looking at

1521

01:07:40,410 --> 01:07:37,390

the world from that perspective once in

1522

01:07:43,140 --> 01:07:40,420

a while I think the way you explain the

1523

01:07:46,320 --> 01:07:43,150

period we're in as it relates to the

1524

01:07:49,290 --> 01:07:46,330

Zodiac wheel is always so fascinating to

1525

01:07:51,000 --> 01:07:49,300

me and this show is a rare case where

1526

01:07:54,030 --> 01:07:51,010

the main thing I wanted to explore and

1527

01:07:56,359 --> 01:07:54,040

talk about didn't come up until the Plus

1528

01:07:59,160 --> 01:07:56,369

show but that is the great American

1529

01:08:01,320 --> 01:07:59,170

Eclipse it's coming in August and every

1530

01:08:04,010 --> 01:08:01,330

astrologer is apparently drawing a huge

1531

01:08:05,820 --> 01:08:04,020

circle around it as the event this year

1532

01:08:08,910 --> 01:08:05,830

astrologically it's the most interesting

1533

01:08:11,850 --> 01:08:08,920

and has some curious tie-ins to Trump's

1534

01:08:13,890 --> 01:08:11,860

chart but again that is mainly in the

1535

01:08:16,380 --> 01:08:13,900

second hour so sign up for plus if

1536

01:08:19,680 --> 01:08:16,390

you're interested or just keep an eye on

1537

01:08:22,769 --> 01:08:19,690

August 21st onward a big part of why I

1538

01:08:25,650 --> 01:08:22,779

like astrology is that to some degree

1539

01:08:27,660 --> 01:08:25,660

it's testable of course it's not always

1540

01:08:30,720 --> 01:08:27,670

black and white but it's an art form

1541

01:08:32,280 --> 01:08:30,730

really that goes back so long it should

1542

01:08:34,710 --> 01:08:32,290

be respected if you think the ancients

1543

01:08:37,289 --> 01:08:34,720

were insightful or that secret societies

1544

01:08:39,749 --> 01:08:37,299

only study and maintain things that they

1545

01:08:41,849 --> 01:08:39,759

think have merit and with this eclipse

1546

01:08:44,519 --> 01:08:41,859

we don't know exactly what's going to

1547

01:08:46,620 --> 01:08:44,529

happen of course as Austan said but we

1548

01:08:49,289 --> 01:08:46,630

can highlight it and underline it and

1549

01:08:52,380 --> 01:08:49,299

expect it to be meaningful in some way

1550

01:08:54,840 --> 01:08:52,390

and we'll just have to see but if you

1551

01:08:56,849 --> 01:08:54,850

liked Austin's first appearance I think

1552

01:08:59,700 --> 01:08:56,859

this is a pretty good complement to it a

1553

01:09:01,800 --> 01:08:59,710

pretty good continuation it's also funny

1554

01:09:04,289 --> 01:09:01,810

because I just mentioned last week how

1555

01:09:07,590 --> 01:09:04,299

we got this fresh new form thing going

1556

01:09:09,990 --> 01:09:07,600

on and someone actually posted about the

1557

01:09:12,480 --> 01:09:10,000

Eclipse before this show came out and

1558

01:09:14,640 --> 01:09:12,490

them being in Wyoming and that the whole

1559

01:09:16,470 --> 01:09:14,650

town is getting booked up by tourists

1560

01:09:18,630 --> 01:09:16,480

who want to get out there and see the

1561

01:09:20,910 --> 01:09:18,640

Eclipse from that vantage point even

1562

01:09:23,430 --> 01:09:20,920

this far in advance several months I

1563

01:09:25,230 --> 01:09:23,440

find that interesting it's actually kind

1564

01:09:27,660 --> 01:09:25,240

of cool that in the modern world people

1565

01:09:29,970 --> 01:09:27,670

would put that much foresight into

1566

01:09:33,150 --> 01:09:29,980

getting a good look at an astrological

1567

01:09:36,840 --> 01:09:33,160

event planning their short rare

1568

01:09:38,190 --> 01:09:36,850

vacations around it I like it regardless

1569

01:09:40,620 --> 01:09:38,200

of the reasoning

1570

01:09:42,480 --> 01:09:40,630

I just like that the moon would have

1571

01:09:43,110 --> 01:09:42,490

such an influence over the movement of

1572

01:09:44,490 --> 01:09:43,120

people

1573

01:09:48,630 --> 01:09:44,500

makes you wonder who's really in charge

1574

01:09:50,250 --> 01:09:48,640

huh so I thought the first hour of this

1575

01:09:52,020 --> 01:09:50,260

show was pretty awesome

1576

01:09:54,450 --> 01:09:52,030

of course I think the Eclipse talk in

1577

01:09:55,710 --> 01:09:54,460

the second is the highlight but you know

1578

01:09:57,360 --> 01:09:55,720

to sign up you've probably been

1579

01:09:59,640 --> 01:09:57,370

listening long enough but some other

1580

01:10:02,340 --> 01:09:59,650

things we get into our aspects of my

1581

01:10:05,340 --> 01:10:02,350

natal chart and how 2017 looks for me

1582

01:10:07,590 --> 01:10:05,350

who cares right but Austin also drop

1583

01:10:09,990 --> 01:10:07,600

knowledge about the Chinese zodiac and

1584

01:10:12,750 --> 01:10:10,000

what it means for 2017 to be the year of

1585

01:10:15,090 --> 01:10:12,760

the fire and really is there any

1586

01:10:17,220 --> 01:10:15,100

better president to be getting sworn in

1587

01:10:19,920 --> 01:10:17,230

and the first month of the year the fire

1588

01:10:22,350 --> 01:10:19,930

to Donald Trump I mean I think

1589

01:10:24,330 --> 01:10:22,360

people who love them and those who hate

1590

01:10:26,520 --> 01:10:24,340

them could probably come together and

1591

01:10:29,490 --> 01:10:26,530

agree that he sort of embodies that

1592

01:10:33,240 --> 01:10:29,500

perfectly the apex of aggressive male

1593

01:10:35,790 --> 01:10:33,250

energy capitalism personified I think it

1594

01:10:38,910 --> 01:10:35,800

applies but we also talked about the

1595

01:10:42,480 --> 01:10:38,920

importance of 2018 as a game changer

1596

01:10:44,940 --> 01:10:42,490

year as opposed to 2017 just being 16

1597

01:10:46,620 --> 01:10:44,950

part two talked about the closing of

1598

01:10:48,750 --> 01:10:46,630

both the twenty and two hundred year

1599

01:10:50,910 --> 01:10:48,760

cycle and the implications that may have

1600

01:10:53,070 --> 01:10:50,920

on the elite in various power structures

1601
01:10:55,170 --> 01:10:53,080
throughout the planet a continuation of

1602
01:10:58,140 --> 01:10:55,180
something we did touch on in that last

1603
01:10:59,670 --> 01:10:58,150
talk and we also got into the fact that

1604
01:11:02,850 --> 01:10:59,680
we will be transitioning from an earth

1605
01:11:05,700 --> 01:11:02,860
dominant era to an air dominant era and

1606
01:11:07,230 --> 01:11:05,710
what that might mean to me it seemed to

1607
01:11:09,900 --> 01:11:07,240
have characteristics that would be

1608
01:11:12,420 --> 01:11:09,910
appropriate for a rebuilding period

1609
01:11:15,810 --> 01:11:12,430
regardless of if we go through one or

1610
01:11:18,320 --> 01:11:15,820
not they just seemed like helpful

1611
01:11:22,290 --> 01:11:18,330
attributes for a time period like that

1612
01:11:24,750 --> 01:11:22,300
so good time all around interesting

1613
01:11:27,030 --> 01:11:24,760

stuff Austin is the man I took a little

1614

01:11:29,190 --> 01:11:27,040

long to get this show out I realized so

1615

01:11:29,880 --> 01:11:29,200

the next one should be right around the

1616

01:11:32,550 --> 01:11:29,890

corner

1617

01:11:34,860 --> 01:11:32,560

got to stay timely got to try to be

1618

01:11:38,100 --> 01:11:34,870

professional and this next show is

1619

01:11:39,780 --> 01:11:38,110

another return guest that I think a lot

1620

01:11:43,290 --> 01:11:39,790

of people liked last time we're going to

1621

01:11:45,780 --> 01:11:43,300

leave it a mystery because why not and

1622

01:11:46,710 --> 01:11:45,790

with that I guess I'm out of here I've

1623

01:11:49,290 --> 01:11:46,720

done my part

1624

01:11:52,139 --> 01:11:49,300

your move natal chart navigators and the

1625

01:12:10,450 --> 01:11:52,149

mysterious forces of the zodiac wheel

1626

01:12:10,460 --> 01:13:05,790

I

1627

01:13:05,800 --> 01:13:46,250

you

1628

01:14:45,109 --> 01:14:14,189

and

1629

01:14:55,349 --> 01:14:46,760

maybe

1630

01:14:55,359 --> 01:15:04,689

mmm
