00:00:07,430 --> 00:00:03,849

[Music]

2
00:00:10,370 --> 00:00:07,440

the planets often masters almost surely

3
00:00:12,890 --> 00:00:10,380

have a plan this clearly made me

4
00:00:16,340 --> 00:00:12,900

something near beyond the realm of man

5
00:00:19,939 --> 00:00:16,350

and until utility tempted every map goes

6
00:00:23,090 --> 00:00:19,949

just use a time war you think you know

7
00:00:27,939 --> 00:00:23,100

the less you really do that's true dr.

8
00:00:32,010 --> 00:00:27,949

Zaius where would we be without dat

9
00:00:33,279 --> 00:00:32,020

country no society was

10
00:00:36,770 --> 00:00:33,289

[Music]

11
00:00:42,880 --> 00:00:36,780

well without the

12
00:00:47,210 --> 00:00:45,590

all right higher side shadows we know

13
00:00:49,060 --> 00:00:47,220

the nefarious view atop the power

14

00:00:51,590 --> 00:00:49,070

pyramid are always up to no good

15

00:00:53,150 --> 00:00:51,600

consolidating power siphoning off more

16

00:00:54,830 --> 00:00:53,160

wealth and carrying out multiple

17

00:00:56,570 --> 00:00:54,840

campaigns against the people and the

18

00:00:58,490 --> 00:00:56,580

planet all while leaving us largely in

19

00:01:00,140 --> 00:00:58,500

the dark they've got a stranglehold on

20

00:01:01,940 --> 00:01:00,150

mainstream media they're tightening the

21

00:01:03,950 --> 00:01:01,950

screws on alternative media and the

22

00:01:05,630 --> 00:01:03,960

persistent truth seekers we have left

23

00:01:07,490 --> 00:01:05,640

have to explore some rather exotic

24

00:01:09,050 --> 00:01:07,500

options to try and truly get a bead on

25

00:01:11,359 --> 00:01:09,060

what's going on behind the curtain

26

00:01:12,770 --> 00:01:11,369

but exotic options are just the sort of

27

00:01:14,270 --> 00:01:12,780

thing we like around here and today's

28

00:01:16,040 --> 00:01:14,280

guest is the man behind one of these

29

00:01:18,020 --> 00:01:16,050

options I've been intrigued by for many

30

00:01:20,540 --> 00:01:18,030

years his name is cliff high and he's

31

00:01:22,400 --> 00:01:20,550

the guy behind the web project a set of

32

00:01:23,690 --> 00:01:22,410

algorithms he's designed to crawl the

33

00:01:24,740 --> 00:01:23,700

internet for what's called predictive

34

00:01:26,840 --> 00:01:24,750

linguistics

35

00:01:28,550 --> 00:01:26,850

which means interesting variations in

36

00:01:30,320 --> 00:01:28,560

the language which suggests what's going

37

00:01:32,150 --> 00:01:30,330

on in the collective unconscious it

38

00:01:34,249 --> 00:01:32,160

oftentimes results in a forecast of

39

00:01:36,020 --> 00:01:34,259

possible predictions he also offers

40

00:01:37,550 --> 00:01:36,030

financial forecasts based off the web

41

00:01:40,550 --> 00:01:37,560

bought data which are a participative

42

00:01:41,930 --> 00:01:40,560

website half past human calm obviously

43

00:01:43,280 --> 00:01:41,940

something like this isn't an exact

44

00:01:44,780 --> 00:01:43,290

science but it's gotten a lot of

45

00:01:46,789 --> 00:01:44,790

attention when it's right which is

46

00:01:48,440 --> 00:01:46,799

usually more often than not and I for

47

00:01:50,090 --> 00:01:48,450

one can't wait to smell what the web bot

48

00:01:51,920 --> 00:01:50,100

is cooking these days joining me for the

49

00:01:55,550 --> 00:01:51,930

first time cliff hi welcome to the

50

00:01:57,200 --> 00:01:55,560

appropriately named fireside chat thank

51
00:01:59,120 --> 00:01:57,210
you very much it's good to be but I'm

52
00:02:01,219 --> 00:01:59,130
sure yeah man it is a real pleasure

53
00:02:02,690 --> 00:02:01,229
I do enjoy these web predictions I know

54
00:02:04,310 --> 00:02:02,700
you've been doing this for quite some

55
00:02:05,840 --> 00:02:04,320
time I'm sure a decent amount of

56
00:02:07,370 --> 00:02:05,850
listeners here familiar with your work

57
00:02:07,940 --> 00:02:07,380
but in the interest of leaving no man

58
00:02:09,770 --> 00:02:07,950
behind

59
00:02:11,600 --> 00:02:09,780
outside of what I mentioned in the intro

60
00:02:13,520 --> 00:02:11,610
there how do you typically explain the

61
00:02:16,580 --> 00:02:13,530
web bot and its mechanisms to people who

62
00:02:17,630 --> 00:02:16,590
might not be too familiar it depends on

63
00:02:20,449 --> 00:02:17,640

if I approach it from a technical

64

00:02:23,030 --> 00:02:20,459

viewpoint or from the ouya point because

65

00:02:25,640 --> 00:02:23,040

from the wu side basically what i say is

66

00:02:27,530 --> 00:02:25,650

that all humans are psychic most humans

67

00:02:29,930 --> 00:02:27,540

don't know their psychic but that

68

00:02:31,880 --> 00:02:29,940

psychic intuition pinging so to speak

69

00:02:33,350 --> 00:02:31,890

from universe has to come out and so

70

00:02:35,300 --> 00:02:33,360

they leak it out in their language

71

00:02:37,310 --> 00:02:35,310

whether they're aware of that or not by

72

00:02:39,770 --> 00:02:37,320

which words they choose to use in

73

00:02:41,750 --> 00:02:39,780

specific instances and I wrote software

74

00:02:43,940 --> 00:02:41,760

that goes on out scoops all those up and

75

00:02:45,830 --> 00:02:43,950

tries to make sense of it all right on

76

00:02:47,330 --> 00:02:45,840

yeah I like the woowoo side of that

77

00:02:47,839 --> 00:02:47,340

explanation I think there's something to

78

00:02:49,940 --> 00:02:47,849

that

79

00:02:52,040 --> 00:02:49,950

psychic ability and yeah a lot of people

80

00:02:52,250 --> 00:02:52,050

don't understand it or even know they

81

00:02:54,589 --> 00:02:52,260

have

82

00:02:56,960 --> 00:02:54,599

but we get deja vu we get intuitions and

83

00:02:58,759 --> 00:02:56,970

this is kind of a amalgamation of

84

00:03:01,009 --> 00:02:58,769

everybody's right I mean at least the

85

00:03:02,869 --> 00:03:01,019

people on the Internet that's the theory

86

00:03:04,910 --> 00:03:02,879

that's kind of the way it works right

87

00:03:06,619 --> 00:03:04,920

because if you look at it you know you

88

00:03:09,229 --> 00:03:06,629

go every day you get addicted to some

89

00:03:10,940 --> 00:03:09,239

behavior for some period of time and so

90

00:03:12,860 --> 00:03:10,950

you get used to go into a particular

91

00:03:15,740 --> 00:03:12,870

gardening forum and discussing your

92

00:03:19,039 --> 00:03:15,750

petunias versus how you know your

93

00:03:20,270 --> 00:03:19,049

azaleas and your zinnias and then for

94

00:03:21,470 --> 00:03:20,280

whatever reason all of a sudden you

95

00:03:24,460 --> 00:03:21,480

start talking about something else

96

00:03:27,140 --> 00:03:24,470

that's out of that context usual

97

00:03:29,240 --> 00:03:27,150

associations for you and that's that in

98

00:03:31,610 --> 00:03:29,250

my opinion is when one of these psychic

99

00:03:33,140 --> 00:03:31,620

impulses is trying to leak out and so

100

00:03:35,660 --> 00:03:33,150

you know for whatever reason you

101
00:03:38,569 --> 00:03:35,670
suddenly start discussing my how the

102
00:03:41,089 --> 00:03:38,579
zinnias are is blue is the logo on a

103
00:03:42,770 --> 00:03:41,099
particular Maritime company you happen

104
00:03:44,509 --> 00:03:42,780
to be aware of and then I'm using

105
00:03:46,610 --> 00:03:44,519
pulling this example just you know it's

106
00:03:48,440 --> 00:03:46,620
entirely fictitious but then two or

107
00:03:50,629 --> 00:03:48,450
three or four days later you see that

108
00:03:52,369 --> 00:03:50,639
there's been a major incident involving

109
00:03:54,710 --> 00:03:52,379
one of that maritime company's assets

110
00:03:56,059 --> 00:03:54,720
either ship or a oil platform or

111
00:03:57,770 --> 00:03:56,069
something and basically what was

112
00:03:59,210 --> 00:03:57,780
happening in those circumstances were

113
00:04:01,849 --> 00:03:59,220

that you were close enough to that

114

00:04:04,069 --> 00:04:01,859

actual event that the emotional

115

00:04:07,339 --> 00:04:04,079

repercussions of it all ripple through

116

00:04:08,990 --> 00:04:07,349

time so to speak and because of way

117

00:04:10,909 --> 00:04:09,000

consciousness works and your

118

00:04:13,009 --> 00:04:10,919

consciousness was trying to warn you you

119

00:04:14,089 --> 00:04:13,019

know it the only way it could and so it

120

00:04:16,339 --> 00:04:14,099

leaked it out through what we call

121

00:04:18,140 --> 00:04:16,349

psychic impression and it did so

122

00:04:22,310 --> 00:04:18,150

changing your language thinking you were

123

00:04:24,890 --> 00:04:22,320

smart enough to notice that I'm totally

124

00:04:26,810 --> 00:04:24,900

open to those possibilities and you do

125

00:04:28,040 --> 00:04:26,820

have a real long history with this can

126

00:04:30,290 --> 00:04:28,050

you tell us about maybe some of the

127

00:04:33,170 --> 00:04:30,300

greatest hits to give people an idea of

128

00:04:34,430 --> 00:04:33,180

the validity or the accuracy or sure oh

129

00:04:37,010 --> 00:04:34,440

sure there have been the very first

130

00:04:38,839 --> 00:04:37,020

prediction I put out was stated that

131

00:04:40,790 --> 00:04:38,849

there was going to be it was when I was

132

00:04:43,070 --> 00:04:40,800

using my lexicon and tuning it up so I

133

00:04:44,629 --> 00:04:43,080

didn't have a lot of words defined and

134

00:04:46,850 --> 00:04:44,639

so I was somewhat limited by what I

135

00:04:47,600 --> 00:04:46,860

could forecast at that stage but I said

136

00:04:49,550 --> 00:04:47,610

there was going to be a military

137

00:04:52,040 --> 00:04:49,560

accident and it was going to cause this

138

00:04:53,689 --> 00:04:52,050

kind of problems and change life forever

139

00:04:55,939 --> 00:04:53,699

and it would happen within the next

140

00:04:58,189 --> 00:04:55,949

eighty five days and the odds favored it

141

00:05:01,399 --> 00:04:58,199

happening within the first week or so of

142

00:05:03,500 --> 00:05:01,409

that 85 days and my math was reversed on

143

00:05:05,270 --> 00:05:03,510

that part okay because it in the last

144

00:05:06,110 --> 00:05:05,280

week of that 85 days it happened and

145

00:05:09,350 --> 00:05:06,120

that was the

146

00:05:11,900 --> 00:05:09,360

attack on the twin towers in 2001 and so

147

00:05:14,659 --> 00:05:11,910

I published this out in July of that

148

00:05:16,430 --> 00:05:14,669

year and then I got another hit really

149

00:05:19,520 --> 00:05:16,440

good one shortly thereafter with the

150

00:05:21,230 --> 00:05:19,530

power outage in 2003 and then costa

151
00:05:23,300 --> 00:05:21,240
concordia was a really good one about

152
00:05:25,969 --> 00:05:23,310
five months before that boat went off

153
00:05:27,969 --> 00:05:25,979
course i wrote the thing up is blondes

154
00:05:30,980 --> 00:05:27,979
on boats causing problems an

155
00:05:33,110 --> 00:05:30,990
international ship of state all these

156
00:05:35,330 --> 00:05:33,120
descriptors for a cruise ship with

157
00:05:38,060 --> 00:05:35,340
lethal ramifications of running aground

158
00:05:39,890 --> 00:05:38,070
and so on and it was difficult actually

159
00:05:41,390 --> 00:05:39,900
to determine at the time whether i was

160
00:05:44,330 --> 00:05:41,400
looking at data describing an actual

161
00:05:46,430 --> 00:05:44,340
ship or the ship of state running into a

162
00:05:48,050 --> 00:05:46,440
bunch of issues because there were some

163
00:05:49,490 --> 00:05:48,060

conferences going on in europe at the

164

00:05:51,560 --> 00:05:49,500

time but it turned out that the cost of

165

00:05:53,689 --> 00:05:51,570

concordia at the top eleven decks were

166

00:05:56,330 --> 00:05:53,699

named after the original GU countries

167

00:05:58,279 --> 00:05:56,340

and it was actually run off course by

168

00:06:00,830 --> 00:05:58,289

the captain theoretically being

169

00:06:03,379 --> 00:06:00,840

distracted by this blond passenger on

170

00:06:04,909 --> 00:06:03,389

the bridge and he took her way off

171

00:06:06,379 --> 00:06:04,919

course to go look at this island

172

00:06:08,629 --> 00:06:06,389

stephannie ran the boat aground and

173

00:06:11,000 --> 00:06:08,639

killed a bunch of people and so we had

174

00:06:12,950 --> 00:06:11,010

that one out five months before I've

175

00:06:14,870 --> 00:06:12,960

been able recently to tune it to where I

176

00:06:16,610 --> 00:06:14,880

can really predict what's going to

177

00:06:18,080 --> 00:06:16,620

happen with the crypto currencies I've

178

00:06:20,060 --> 00:06:18,090

been able to predict the rise and fall

179

00:06:22,580 --> 00:06:20,070

of Bitcoin with a pretty astonishing

180

00:06:25,550 --> 00:06:22,590

accuracy especially over these last year

181

00:06:29,089 --> 00:06:25,560

and a half it's an ongoing work in

182

00:06:32,719 --> 00:06:29,099

progress that is affected by basically

183

00:06:34,670 --> 00:06:32,729

by the level of emotional excitement or

184

00:06:37,189 --> 00:06:34,680

agitation in the population as a whole

185

00:06:41,240 --> 00:06:37,199

so these are obviously very fruitful

186

00:06:43,310 --> 00:06:41,250

times for me right and it does seem like

187

00:06:45,260 --> 00:06:43,320

even when it doesn't predict a future

188

00:06:47,750 --> 00:06:45,270

outcome per se it's definitely a good

189

00:06:49,580 --> 00:06:47,760

barometer for where the people's minds

190

00:06:51,650 --> 00:06:49,590

are at what people are talking about and

191

00:06:53,240 --> 00:06:51,660

maybe let's dive into where we are with

192

00:06:54,650 --> 00:06:53,250

this now since the economy does seem to

193

00:06:56,330 --> 00:06:54,660

be such a big part of the web bots

194

00:06:58,640 --> 00:06:56,340

predictions and also a big part of our

195

00:07:00,439 --> 00:06:58,650

lives what are you seeing in the data in

196

00:07:03,650 --> 00:07:00,449

that regard it doesn't look like smooth

197

00:07:06,409 --> 00:07:03,660

sailing ahead does it no we're at one of

198

00:07:09,980 --> 00:07:06,419

those giant inflection points that occur

199

00:07:13,520 --> 00:07:09,990

sporadically through history that the

200

00:07:17,300 --> 00:07:13,530

Chartists and the cycle forecasters in

201
00:07:19,760 --> 00:07:17,310
the Wall Street world use as benchmarks

202
00:07:21,800 --> 00:07:19,770
so to speak for like historical path

203
00:07:23,719 --> 00:07:21,810
so you can say that we're in one of

204
00:07:25,820 --> 00:07:23,729
those periods of times that emotionally

205
00:07:28,430 --> 00:07:25,830
will resemble the French Revolution

206
00:07:30,559 --> 00:07:28,440
which was the culmination actually of

207
00:07:32,839 --> 00:07:30,569
the economic impact of the Industrial

208
00:07:34,879 --> 00:07:32,849
Revolution disturbing the surf world

209
00:07:37,189 --> 00:07:34,889
that had existed prior to that and

210
00:07:39,469 --> 00:07:37,199
causing vast shortages as it was

211
00:07:41,510 --> 00:07:39,479
combined with the climate chaos and the

212
00:07:43,520 --> 00:07:41,520
loss of the wheat crops in Germany and

213
00:07:44,930 --> 00:07:43,530

throughout northern Europe and it caused

214

00:07:46,279 --> 00:07:44,940

that ended up causing the French

215

00:07:48,980 --> 00:07:46,289

Revolution and we're at one of those

216

00:07:51,559 --> 00:07:48,990

kind of times now the French Revolution

217

00:07:54,200 --> 00:07:51,569

has to be kept in context because it was

218

00:07:56,330 --> 00:07:54,210

not alone though it was a period of

219

00:07:57,920 --> 00:07:56,340

revolutions that occurred the Industrial

220

00:08:00,020 --> 00:07:57,930

Revolution and also the revolution

221

00:08:02,300 --> 00:08:00,030

within the colonies here in North

222

00:08:04,040 --> 00:08:02,310

America there was a revolutions at

223

00:08:06,320 --> 00:08:04,050

various levels throughout South America

224

00:08:07,939 --> 00:08:06,330

over the next couple of years so it was

225

00:08:10,070 --> 00:08:07,949

one of those periods and we're at that

226

00:08:11,570 --> 00:08:10,080

level of emotional intensity now and

227

00:08:13,219 --> 00:08:11,580

with bleeding it all off is the

228

00:08:16,010 --> 00:08:13,229

degradation of the financial system the

229

00:08:19,399 --> 00:08:16,020

actual breakdown of the system that's

230

00:08:21,770 --> 00:08:19,409

based on what we call fiat or digital

231

00:08:23,810 --> 00:08:21,780

currencies that are issued by sovereign

232

00:08:28,100 --> 00:08:23,820

states and managed by small groups of

233

00:08:30,260 --> 00:08:28,110

people yeah I mean these are troubled

234

00:08:32,180 --> 00:08:30,270

times the tension is palpable no doubt

235

00:08:34,069 --> 00:08:32,190

and I do know the Federal Reserve's

236

00:08:35,930 --> 00:08:34,079

rockefeller rothschild fractional

237

00:08:38,300 --> 00:08:35,940

reserve debt based system of rural can't

238

00:08:40,159 --> 00:08:38,310

last forever but they do keep managing

239

00:08:42,500 --> 00:08:40,169

to kick the can down the road despite

240

00:08:44,600 --> 00:08:42,510

the conspiracy world constantly crying

241

00:08:46,670 --> 00:08:44,610

wolf about collapse how do we know this

242

00:08:48,650 --> 00:08:46,680

is more serious than the usual collapse

243

00:08:51,319 --> 00:08:48,660

paranoia we've heard from the conspiracy

244

00:08:54,350 --> 00:08:51,329

world for decades really well see

245

00:08:58,190 --> 00:08:54,360

there's the thing collapse has been

246

00:09:00,829 --> 00:08:58,200

ongoing for decades and we've been on a

247

00:09:02,750 --> 00:09:00,839

I think it's been thirty years that

248

00:09:04,790 --> 00:09:02,760

we've been progressing downward toward

249

00:09:06,170 --> 00:09:04,800

zero percent interest rates if you want

250

00:09:07,910 --> 00:09:06,180

to wrap your head around what that means

251

00:09:11,120 --> 00:09:07,920

it means the very end of the welfare

252

00:09:13,030 --> 00:09:11,130

state means the very end of any kind of

253

00:09:15,199 --> 00:09:13,040

free money from any government agency

254

00:09:18,340 --> 00:09:15,209

means the end of the food stamp program

255

00:09:21,769 --> 00:09:18,350

and why well because there is no

256

00:09:24,260 --> 00:09:21,779

vigorish there's no debt based gain to

257

00:09:27,110 --> 00:09:24,270

support those so for instance the food

258

00:09:29,750 --> 00:09:27,120

stamp program has been paid for for many

259

00:09:31,819 --> 00:09:29,760

many many decades by dipping in

260

00:09:33,350 --> 00:09:31,829

basically to Social Security funds and

261

00:09:35,150 --> 00:09:33,360

the vigorish that

262

00:09:37,220 --> 00:09:35,160

were able to earn off of having some

263

00:09:39,800 --> 00:09:37,230

money in there now we've got a situation

264

00:09:41,990 --> 00:09:39,810

where even if you owned bonds you're not

265

00:09:43,730 --> 00:09:42,000

getting any yield off your bonds so you

266

00:09:45,710 --> 00:09:43,740

own a bond that's fine but you're not

267

00:09:47,569 --> 00:09:45,720

getting one or two or three percent you

268

00:09:50,269 --> 00:09:47,579

need at a bare minimum just to keep that

269

00:09:52,430 --> 00:09:50,279

service going on an annual basis you

270

00:09:55,370 --> 00:09:52,440

have a debt based asset that provides no

271

00:09:57,259 --> 00:09:55,380

return without that level of return then

272

00:09:59,810 --> 00:09:57,269

what must occur at that level of the

273

00:10:01,940 --> 00:09:59,820

social orders existence were there now

274

00:10:03,769 --> 00:10:01,950

and in order to support a socialist

275

00:10:06,139 --> 00:10:03,779

system under that circumstance and give

276

00:10:08,329 --> 00:10:06,149

out any kind of money at all to anybody

277

00:10:12,110 --> 00:10:08,339

you must actively take it from somebody

278

00:10:15,440 --> 00:10:12,120

so let me describe the situation in the

279

00:10:17,090 --> 00:10:15,450

1950s and 60s because of the United

280

00:10:19,880 --> 00:10:17,100

States having conquered the planet in

281

00:10:21,710 --> 00:10:19,890

World War two effectively and gathered

282

00:10:24,560 --> 00:10:21,720

all the gold and resources unto itself

283

00:10:26,930 --> 00:10:24,570

and having 25% of our population owned

284

00:10:29,240 --> 00:10:26,940

75 percent of all the world's well in

285

00:10:31,819 --> 00:10:29,250

terms of real assets gold silver

286

00:10:34,970 --> 00:10:31,829

production capacity everything so we

287

00:10:39,139 --> 00:10:34,980

were 25% of the populace with 75% of the

288

00:10:40,970 --> 00:10:39,149

well now we're 25% of the populace we're

289

00:10:44,600 --> 00:10:40,980

actually less than 25% of the populace

290

00:10:47,660 --> 00:10:44,610

but we're at a point where we know 75%

291

00:10:50,210 --> 00:10:47,670

of the global debt and we own that as

292

00:10:53,210 --> 00:10:50,220

our supposed assets so for instance the

293

00:10:54,829 --> 00:10:53,220

single largest asset right now on the

294

00:10:57,410 --> 00:10:54,839

Federal Reserve or the government's

295

00:10:59,960 --> 00:10:57,420

books is not land or any of that it's

296

00:11:02,120 --> 00:10:59,970

student debt all right and so the

297

00:11:04,730 --> 00:11:02,130

student debt is an asset that will never

298

00:11:08,389 --> 00:11:04,740

collect so how are you going to pay for

299

00:11:11,960 --> 00:11:08,399

a social program such as food stamps or

300

00:11:13,550 --> 00:11:11,970

medical needs for people when you try

301

00:11:15,769 --> 00:11:13,560

and collect on a debt that's not being

302

00:11:18,050 --> 00:11:15,779

paid and beyond the fact that these

303

00:11:20,030 --> 00:11:18,060

students can't get working and does pay

304

00:11:21,860 --> 00:11:20,040

the debt and the debt is onerous and

305

00:11:24,560 --> 00:11:21,870

taken out under extreme circumstances

306

00:11:26,060 --> 00:11:24,570

anyway we now have federal judges that

307

00:11:29,230 --> 00:11:26,070

have barred the even attempted

308

00:11:32,540 --> 00:11:29,240

collection of that debt thus basically

309

00:11:34,790 --> 00:11:32,550

nullifying the asset the largest single

310

00:11:37,430 --> 00:11:34,800

asset of the Federal Reserve and the

311

00:11:40,519 --> 00:11:37,440

federal government so Fannie and Freddie

312

00:11:41,300 --> 00:11:40,529

Mae or you know the housing agencies

313

00:11:43,280 --> 00:11:41,310

within the federal government

314

00:11:45,050 --> 00:11:43,290

theoretically on most of the mortgages

315

00:11:47,330 --> 00:11:45,060

and all those are broken worthless and

316

00:11:49,850 --> 00:11:47,340

they're not getting any great return off

317

00:11:51,650 --> 00:11:49,860

those especially as we're in this 0%

318

00:11:53,810 --> 00:11:51,660

rate environment where there's no yield

319

00:11:56,480 --> 00:11:53,820

so under those circumstances

320

00:11:59,090 --> 00:11:56,490

anybody with real capital that is to say

321

00:12:01,190 --> 00:11:59,100

people like myself that have worked for

322

00:12:03,500 --> 00:12:01,200

30 and 40 and 50 years and have lived

323

00:12:07,010 --> 00:12:03,510

far below their means in order to save

324

00:12:09,700 --> 00:12:07,020

even against this dwindling this rape of

325

00:12:11,960 --> 00:12:09,710

the savers that has been ongoing by the

326

00:12:14,000 --> 00:12:11,970

reduction of interest rates over this

327

00:12:16,310 --> 00:12:14,010

past 30 years even under those

328

00:12:19,070 --> 00:12:16,320

circumstances it has been possible to

329

00:12:21,560 --> 00:12:19,080

work your ass off and pay off your debt

330

00:12:23,780 --> 00:12:21,570

and accumulate only now the very thing

331

00:12:26,000 --> 00:12:23,790

you've accumulated in the dollar is

332

00:12:28,160 --> 00:12:26,010

turning worthless and so you must flee

333

00:12:30,260 --> 00:12:28,170

the dollar in order to preserve the

334

00:12:32,630 --> 00:12:30,270

capital you've worked so hard for over

335

00:12:34,640 --> 00:12:32,640

these last 30 years and I'm not talking

336

00:12:36,710 --> 00:12:34,650

about people that are multi millionaires

337

00:12:37,820 --> 00:12:36,720

and business tycoons and stuff I'm

338

00:12:39,829 --> 00:12:37,830

talking about the guy that you know

339

00:12:42,410 --> 00:12:39,839

owned what used to be the local gas

340

00:12:44,720 --> 00:12:42,420

station or you know the people that own

341

00:12:46,190 --> 00:12:44,730

and work at the local grocery store this

342

00:12:47,960 --> 00:12:46,200

kind of thing people like myself that

343

00:12:50,720 --> 00:12:47,970

have worked all their lives or in a

344

00:12:52,610 --> 00:12:50,730

situation where we're having to exit the

345

00:12:55,550 --> 00:12:52,620

financial system because it's crumbling

346

00:12:58,040 --> 00:12:55,560

away from us because there's no return

347

00:13:00,380 --> 00:12:58,050

for our having worked this long and hard

348

00:13:02,630 --> 00:13:00,390

and at a very personal level therefore

349

00:13:05,600 --> 00:13:02,640

you are desperate for yield the whole

350

00:13:08,120 --> 00:13:05,610

planet is starved for it and so thus the

351
00:13:11,540 --> 00:13:08,130
rise of crypto currencies and the flight

352
00:13:14,450 --> 00:13:11,550
of capital from fiat issued by

353
00:13:17,480 --> 00:13:14,460
sovereigns to fiat that is self issued

354
00:13:19,640 --> 00:13:17,490
or distributed or self-regulating which

355
00:13:22,250 --> 00:13:19,650
is a self governed on a software

356
00:13:23,630 --> 00:13:22,260
platform bear in mind that the fiat

357
00:13:25,190 --> 00:13:23,640
that's issued by the government the

358
00:13:27,140 --> 00:13:25,200
dollar is one hundred percent digital

359
00:13:29,090 --> 00:13:27,150
insofar as 90 percent of all when the

360
00:13:30,680 --> 00:13:29,100
people are involved in this country they

361
00:13:32,240 --> 00:13:30,690
use plastic or digital dollars

362
00:13:34,910 --> 00:13:32,250
continuously and never touch real

363
00:13:37,250 --> 00:13:34,920

currency so there's no difference for

364

00:13:39,290 --> 00:13:37,260

them other than you have a small group

365

00:13:41,540 --> 00:13:39,300

of people that are managing the dollar

366

00:13:44,090 --> 00:13:41,550

into oblivion and then you have the

367

00:13:46,070 --> 00:13:44,100

large mass of humanity that's trying to

368

00:13:47,840 --> 00:13:46,080

convert itself into crypto currencies or

369

00:13:50,570 --> 00:13:47,850

something else as rapidly as it possibly

370

00:13:53,180 --> 00:13:50,580

can so I think this defines an

371

00:13:55,880 --> 00:13:53,190

inflection point in that 30 year process

372

00:13:58,190 --> 00:13:55,890

of collapse to where we can say yep yep

373

00:13:59,750 --> 00:13:58,200

for sure it died a few years ago now the

374

00:14:01,619 --> 00:13:59,760

corpse is really stinking and we're all

375

00:14:04,449 --> 00:14:01,629

getting the hell out of here

376
00:14:06,970 --> 00:14:04,459
and it does seem like economic musical

377
00:14:10,240 --> 00:14:06,980
chairs and I guess the music is about to

378
00:14:12,309 --> 00:14:10,250
stop and to get deeper into Kryptos I do

379
00:14:13,960 --> 00:14:12,319
find them pretty complex still I've got

380
00:14:16,210 --> 00:14:13,970
a little bit I've had guests mentioning

381
00:14:18,670 --> 00:14:16,220
Bitcoin on and off for years and anyone

382
00:14:20,110 --> 00:14:18,680
who bought in the first few times it was

383
00:14:22,210 --> 00:14:20,120
mentioned on the show would definitely

384
00:14:24,699 --> 00:14:22,220
have made a healthy profit at this point

385
00:14:26,319 --> 00:14:24,709
but even if you lost half of it really

386
00:14:27,999 --> 00:14:26,329
because it's gone up so much in the past

387
00:14:30,040 --> 00:14:28,009
few years but what are your thoughts on

388
00:14:31,090 --> 00:14:30,050

Bitcoin at this point and Kryptos in

389

00:14:32,800 --> 00:14:31,100

general maybe you could tell us about

390

00:14:34,329 --> 00:14:32,810

some other Kryptos you're watching

391

00:14:36,759 --> 00:14:34,339

besides Bitcoin that have high growth

392

00:14:38,860 --> 00:14:36,769

potential which no I'm sorry I can't

393

00:14:40,869 --> 00:14:38,870

yeah I can't do that I've recently come

394

00:14:42,400 --> 00:14:40,879

to the decision I can't do that I can

395

00:14:43,900 --> 00:14:42,410

talk about Bitcoin I can talk about

396

00:14:45,400 --> 00:14:43,910

ethereum because I've mentioned them in

397

00:14:49,030 --> 00:14:45,410

the past but I can't mention anything

398

00:14:51,340 --> 00:14:49,040

else because coincidentally my mere

399

00:14:53,710 --> 00:14:51,350

mentioning it causes market movements

400

00:14:55,329 --> 00:14:53,720

that I don't want to involve myself in

401

00:14:57,790 --> 00:14:55,339

right because there's karmic

402

00:14:59,410 --> 00:14:57,800

repercussions here I might casually

403

00:15:01,629 --> 00:14:59,420

mention something as I have in the past

404

00:15:03,550 --> 00:15:01,639

and then people think oh oh this one's

405

00:15:05,470 --> 00:15:03,560

going to go way up or you know be

406

00:15:07,420 --> 00:15:05,480

long-term value or something like that

407

00:15:09,850 --> 00:15:07,430

and and it may be that you weren't

408

00:15:11,230 --> 00:15:09,860

listening appropriately or you didn't

409

00:15:13,300 --> 00:15:11,240

catch which side of the value

410

00:15:15,189 --> 00:15:13,310

proposition I thought that might be in

411

00:15:17,230 --> 00:15:15,199

and so you might get burned if you

412

00:15:18,670 --> 00:15:17,240

thought it was long-term or that it was

413

00:15:20,889 --> 00:15:18,680

going to be a quick earner if you were

414

00:15:22,480 --> 00:15:20,899

wrong on which side and so I want to be

415

00:15:24,490 --> 00:15:22,490

very careful about that in the future

416

00:15:25,960 --> 00:15:24,500

and let people make their own decision

417

00:15:27,999 --> 00:15:25,970

on their own research and so what I'll

418

00:15:30,009 --> 00:15:28,009

do is provide that kind of thing in my

419

00:15:32,860 --> 00:15:30,019

report I can talk about the general

420

00:15:35,410 --> 00:15:32,870

trend of it in existing coins that you

421

00:15:37,660 --> 00:15:35,420

might bring up I can comment on but I'm

422

00:15:38,889 --> 00:15:37,670

not going to offer any new names or that

423

00:15:40,660 --> 00:15:38,899

kind of thing make sense

424

00:15:43,480 --> 00:15:40,670

fair enough it totally does these

425

00:15:45,549 --> 00:15:43,490

obviously are small markets so they are

426

00:15:47,259 --> 00:15:45,559

volatile but maybe I could ask you

427

00:15:49,960 --> 00:15:47,269

without any specific names are there

428

00:15:53,470 --> 00:15:49,970

features of some crypto currencies that

429

00:15:55,840 --> 00:15:53,480

we should watch out for or could be

430

00:15:58,389 --> 00:15:55,850

potentially advantageous sure oh that's

431

00:16:00,069 --> 00:15:58,399

that's yeah that's real easy to discuss

432

00:16:02,049 --> 00:16:00,079

at that level because we're just got to

433

00:16:03,460 --> 00:16:02,059

get at an abstract that you can then use

434

00:16:06,340 --> 00:16:03,470

as a metric to apply to your own

435

00:16:07,840 --> 00:16:06,350

research exactly this is great so first

436

00:16:10,269 --> 00:16:07,850

thing I always look for is to find out

437

00:16:13,179 --> 00:16:10,279

if the coin or the token is in any way

438

00:16:15,040 --> 00:16:13,189

associated with mining so for instance

439

00:16:18,040 --> 00:16:15,050

if you found a company that was doing

440

00:16:20,380 --> 00:16:18,050

some business offering a coin and it was

441

00:16:22,360 --> 00:16:20,390

in no way mind it's a pre mind or

442

00:16:25,060 --> 00:16:22,370

pre-issued coin then I would be very

443

00:16:27,310 --> 00:16:25,070

very very leery up if it was a coin that

444

00:16:29,259 --> 00:16:27,320

was pre mined and each coin was there

445

00:16:32,170 --> 00:16:29,269

for and their-their after somehow

446

00:16:34,660 --> 00:16:32,180

associated or linked to some kind of a

447

00:16:37,030 --> 00:16:34,670

physical goods like a bottle of wine or

448

00:16:38,590 --> 00:16:37,040

a chunk of gold or something I would be

449

00:16:40,660 --> 00:16:38,600

very wary of it because there's all

450

00:16:42,639 --> 00:16:40,670

kinds of rules and laws still in place

451
00:16:44,769 --> 00:16:42,649
that allow those physical goods to be

452
00:16:47,350 --> 00:16:44,779
encumbered outside of your coins

453
00:16:49,569 --> 00:16:47,360
theoretic encumbrance of that good and

454
00:16:51,519 --> 00:16:49,579
so until you knew for sure that that

455
00:16:53,110 --> 00:16:51,529
coin was actually going to be able to

456
00:16:55,000 --> 00:16:53,120
make a claim on that good that

457
00:16:56,680 --> 00:16:55,010
supposedly affected I wouldn't get

458
00:16:57,579 --> 00:16:56,690
involved with it because again it's a

459
00:17:00,430 --> 00:16:57,589
management issue

460
00:17:02,980 --> 00:17:00,440
now I actually personally favor coins

461
00:17:05,199 --> 00:17:02,990
whether you've got the most possible

462
00:17:07,540 --> 00:17:05,209
chaotic discussion going on in the

463
00:17:09,010 --> 00:17:07,550

forums that support the coins because I

464

00:17:10,660 --> 00:17:09,020

know that you've got a passionate

465

00:17:12,400 --> 00:17:10,670

community you've got a bunch of

466

00:17:14,020 --> 00:17:12,410

programmers that are hell-bent on

467

00:17:16,059 --> 00:17:14,030

solving problems that are related to

468

00:17:17,980 --> 00:17:16,069

that coin or technical issue and that

469

00:17:20,020 --> 00:17:17,990

there's real growth potential from this

470

00:17:22,240 --> 00:17:20,030

they may not succeed because they may be

471

00:17:24,400 --> 00:17:22,250

going at the wrong niche or the coin

472

00:17:25,720 --> 00:17:24,410

itself may never get quite caught on

473

00:17:28,090 --> 00:17:25,730

it's too early too late in the process

474

00:17:31,360 --> 00:17:28,100

or something but in my personal opinion

475

00:17:33,909 --> 00:17:31,370

such chaotic forum discussion kind of

476

00:17:36,549 --> 00:17:33,919

things around coins or tokens those

477

00:17:39,490 --> 00:17:36,559

areas are much more likely to be

478

00:17:42,549 --> 00:17:39,500

long-term than are individually managed

479

00:17:45,880 --> 00:17:42,559

even in corporations or consortiums pre

480

00:17:47,049 --> 00:17:45,890

mined or non mined coins hmm that makes

481

00:17:49,030 --> 00:17:47,059

sense that's great advice

482

00:17:51,370 --> 00:17:49,040

and have you come across any of these

483

00:17:53,110 --> 00:17:51,380

coins I've had people send me a few of

484

00:17:55,240 --> 00:17:53,120

them that are almost structured like

485

00:17:56,950 --> 00:17:55,250

pyramid schemes in a way like you're

486

00:17:59,440 --> 00:17:56,960

supposed to get other shows it's doesn't

487

00:18:00,880 --> 00:17:59,450

so those yeah yeah yeah yeah you gotta

488

00:18:02,710 --> 00:18:00,890

watch out for that there there's also a

489

00:18:04,210 --> 00:18:02,720

bunch of those where they tie and figure

490

00:18:06,159 --> 00:18:04,220

the multi-level marketing and then

491

00:18:07,810 --> 00:18:06,169

explicit about it and it's like no

492

00:18:09,580 --> 00:18:07,820

you've got to run from these things run

493

00:18:11,380 --> 00:18:09,590

as fast as you can because you're going

494

00:18:14,950 --> 00:18:11,390

to get caught out there's this rule I

495

00:18:16,830 --> 00:18:14,960

had pre-internet okay and the rule was

496

00:18:19,900 --> 00:18:16,840

always good for me and it was always a

497

00:18:21,130 --> 00:18:19,910

proved itself exact all the time pyramid

498

00:18:23,980 --> 00:18:21,140

schemes have been around ever since the

499

00:18:25,870 --> 00:18:23,990

pyramid and so they came up in the 70s

500

00:18:27,669 --> 00:18:25,880

there was no internet so they had to

501
00:18:28,870 --> 00:18:27,679
spread by word of mouth or phone or

502
00:18:30,700 --> 00:18:28,880
something like this

503
00:18:32,320 --> 00:18:30,710
and so my rule was by the time I've

504
00:18:34,720 --> 00:18:32,330
heard of it it's about ready to collapse

505
00:18:36,370 --> 00:18:34,730
so sure enough anytime any of my friends

506
00:18:38,050 --> 00:18:36,380
called me up said hey hey we want you to

507
00:18:39,760 --> 00:18:38,060
join this and it was a pyramid scheme I

508
00:18:40,990 --> 00:18:39,770
would tell him run run run get out as

509
00:18:43,060 --> 00:18:41,000
quick as you can it's not ready to fall

510
00:18:44,680 --> 00:18:43,070
around your ears so if you were to send

511
00:18:46,600 --> 00:18:44,690
me such a thing I would assume that by

512
00:18:48,220 --> 00:18:46,610
the time it reached me that it's very

513
00:18:50,380 --> 00:18:48,230

near its peak and it's about ready to

514

00:18:52,300 --> 00:18:50,390

fail on its own as we're talking now I

515

00:18:55,120 --> 00:18:52,310

recently ran a scan and I was able to

516

00:18:59,200 --> 00:18:55,130

find 862 things I could identify as a

517

00:19:00,130 --> 00:18:59,210

crypto coin or a monetized token and so

518

00:19:01,870 --> 00:19:00,140

that's more than there were yesterday

519

00:19:04,000 --> 00:19:01,880

but a lot of those that were there

520

00:19:05,950 --> 00:19:04,010

yesterday are not there and they've been

521

00:19:07,360 --> 00:19:05,960

replaced by new ones it's going to be

522

00:19:09,820 --> 00:19:07,370

this way it's going to be chaotic for a

523

00:19:12,340 --> 00:19:09,830

long time this will offer great many

524

00:19:14,800 --> 00:19:12,350

people over a number of years a chance

525

00:19:17,500 --> 00:19:14,810

for a good potential for profit but also

526

00:19:19,090 --> 00:19:17,510

a good potential to really crap out

527

00:19:21,040 --> 00:19:19,100

because they pick the wrong one because

528

00:19:22,510 --> 00:19:21,050

they didn't do any research on it so I

529

00:19:24,160 --> 00:19:22,520

expect that there will be a larger

530

00:19:25,690 --> 00:19:24,170

number of people crapping out than

531

00:19:27,670 --> 00:19:25,700

profiting so if you're going to aim for

532

00:19:29,620 --> 00:19:27,680

the former of crapping out you got a

533

00:19:30,850 --> 00:19:29,630

good chance of being able to do that but

534

00:19:32,140 --> 00:19:30,860

if you're going to aim for the latter of

535

00:19:33,610 --> 00:19:32,150

trying to make some money at it you're

536

00:19:35,470 --> 00:19:33,620

going to have to really do some research

537

00:19:37,210 --> 00:19:35,480

and sharpen your brain on it it's not

538

00:19:41,230 --> 00:19:37,220

really that difficult it's just simply

539

00:19:43,810 --> 00:19:41,240

work write great advice and people out

540

00:19:45,700 --> 00:19:43,820

there be careful but don't totally avoid

541

00:19:46,390 --> 00:19:45,710

it because I do think this is the future

542

00:19:48,070 --> 00:19:46,400

in a big way

543

00:19:50,170 --> 00:19:48,080

well look at look at some of the things

544

00:19:51,910 --> 00:19:50,180

you can do about it ok so let's look at

545

00:19:53,530 --> 00:19:51,920

some of the really cool stuff we have

546

00:19:55,480 --> 00:19:53,540

Bitcoin which is a method of exchange

547

00:19:58,090 --> 00:19:55,490

between the two of us it's also a store

548

00:19:59,260 --> 00:19:58,100

of value it's also a currency as a unit

549

00:20:01,210 --> 00:19:59,270

of currency we can break it down

550

00:20:03,070 --> 00:20:01,220

infinitely it's we can also smooch it

551
00:20:05,380 --> 00:20:03,080
back together again so that we can build

552
00:20:07,030 --> 00:20:05,390
it back up it stores easily you can take

553
00:20:08,890 --> 00:20:07,040
it with you and it has all these really

554
00:20:10,720 --> 00:20:08,900
cool things and it's encrypted and it's

555
00:20:12,010 --> 00:20:10,730
sort of anonymous and then we have

556
00:20:13,810 --> 00:20:12,020
another thing that also runs on a

557
00:20:16,480 --> 00:20:13,820
blockchain which is called aetherium and

558
00:20:18,730 --> 00:20:16,490
the etherium environment provides us

559
00:20:21,400 --> 00:20:18,740
with these ether tokens that are

560
00:20:23,710 --> 00:20:21,410
basically like train tassels of past

561
00:20:26,710 --> 00:20:23,720
right a train because on the etherium

562
00:20:28,300 --> 00:20:26,720
platform the etherium coin is not only a

563
00:20:29,920 --> 00:20:28,310

store of value it's not only a medium of

564

00:20:32,830 --> 00:20:29,930

exchange it's not only a currency in

565

00:20:34,990 --> 00:20:32,840

that sense but it's also a fungible good

566

00:20:37,480 --> 00:20:35,000

that you can smush together and break

567

00:20:40,090 --> 00:20:37,490

apart again as you need to and it's also

568

00:20:42,730 --> 00:20:40,100

a consumable good in that you can use it

569

00:20:44,980 --> 00:20:42,740

to power robots on the etherium platform

570

00:20:46,240 --> 00:20:44,990

that then allow you to make money off of

571

00:20:51,190 --> 00:20:46,250

it now give you an example in half

572

00:20:54,310 --> 00:20:51,200

second these um these robots are made by

573

00:20:56,200 --> 00:20:54,320

writing software that is run through

574

00:20:58,480 --> 00:20:56,210

these compilers and it's usually in a

575

00:21:00,700 --> 00:20:58,490

language called solidity do it online on

576
00:21:02,680 --> 00:21:00,710
free so solidity compilers teach

577
00:21:06,040 --> 00:21:02,690
yourself how to do that or you can you

578
00:21:08,080 --> 00:21:06,050
know get plugins to Visual Studio from

579
00:21:09,250 --> 00:21:08,090
Microsoft even that kind of a thing and

580
00:21:10,540 --> 00:21:09,260
you write these little robots and what

581
00:21:13,240 --> 00:21:10,550
they would do I'm going to write one I'm

582
00:21:15,130 --> 00:21:13,250
in the process of it down that's going

583
00:21:17,110 --> 00:21:15,140
to be a kiosk and what it's going to do

584
00:21:19,480 --> 00:21:17,120
is to take the information I do from my

585
00:21:21,490 --> 00:21:19,490
research and it's going to put it into a

586
00:21:23,410 --> 00:21:21,500
format that I can put into these robots

587
00:21:25,330 --> 00:21:23,420
and release into this etherion platform

588
00:21:27,790 --> 00:21:25,340

now bear in mind my customers are going

589

00:21:29,440 --> 00:21:27,800

to interact with this kiosk from a web

590

00:21:31,330 --> 00:21:29,450

page so they're not going to see any of

591

00:21:32,770 --> 00:21:31,340

this stuff behind the scenes but what's

592

00:21:34,960 --> 00:21:32,780

going to go on behind the scenes is that

593

00:21:36,610 --> 00:21:34,970

they'll pop into the web page to buy one

594

00:21:38,650 --> 00:21:36,620

of my reports and it'll say what

595

00:21:41,040 --> 00:21:38,660

currency do you prefer to deal in it'll

596

00:21:43,390 --> 00:21:41,050

offer a whole plethora of choices

597

00:21:44,590 --> 00:21:43,400

because basically my currency choices

598

00:21:46,780 --> 00:21:44,600

are going to be limited to what I can

599

00:21:48,190 --> 00:21:46,790

exchange them for ultimately to reduce

600

00:21:51,820 --> 00:21:48,200

them down to aetherium or

601
00:21:53,380 --> 00:21:51,830
Bitcoin in the process of the robot but

602
00:21:55,960 --> 00:21:53,390
I don't care if it's any of these other

603
00:21:57,760 --> 00:21:55,970
coins that we might mention as long as

604
00:22:00,010 --> 00:21:57,770
it's still trading and had value and we

605
00:22:02,169 --> 00:22:00,020
could compute it out to the cost but the

606
00:22:03,730 --> 00:22:02,179
robot can do this math no worries it'll

607
00:22:06,100 --> 00:22:03,740
accept it can then will instantly change

608
00:22:07,330 --> 00:22:06,110
it for whatever and we'll do all this

609
00:22:09,760 --> 00:22:07,340
and I won't have to mess with it so

610
00:22:11,140 --> 00:22:09,770
basically it's the lazy persons way to

611
00:22:12,970 --> 00:22:11,150
sell things because then I'll put my

612
00:22:14,950 --> 00:22:12,980
information in there and this is the

613
00:22:16,480 --> 00:22:14,960

beauty part that I really like is that

614

00:22:18,250 --> 00:22:16,490

I'll put it in there in a format that

615

00:22:20,200 --> 00:22:18,260

will make it very easy for the machine

616

00:22:22,390 --> 00:22:20,210

to say what human language do you want

617

00:22:24,250 --> 00:22:22,400

to receive the information in and then

618

00:22:26,590 --> 00:22:24,260

it'll provide them with a link to a

619

00:22:27,790 --> 00:22:26,600

translated version of the information so

620

00:22:29,410 --> 00:22:27,800

if you want to see it in Korean no

621

00:22:30,940 --> 00:22:29,420

worries you can purchase and buy and the

622

00:22:34,210 --> 00:22:30,950

whole experience will be in Korean and

623

00:22:35,650 --> 00:22:34,220

if you want to use a particular coin the

624

00:22:37,660 --> 00:22:35,660

whole experience will be in that coin

625

00:22:39,220 --> 00:22:37,670

and it'll be transparent to you and

626

00:22:40,540 --> 00:22:39,230

it'll be transparent to me because all

627

00:22:43,120 --> 00:22:40,550

I'll have to do is design the interface

628

00:22:46,960 --> 00:22:43,130

once plug the robot into the backend and

629

00:22:49,330 --> 00:22:46,970

let it loose fearful man sounds uh Mike

630

00:22:51,610 --> 00:22:49,340

you're on or something well if it's not

631

00:22:53,140 --> 00:22:51,620

just me there's millions of millions of

632

00:22:55,240 --> 00:22:53,150

people out there that are doing this

633

00:22:56,560 --> 00:22:55,250

sort of thing and the the cost of entry

634

00:22:58,090 --> 00:22:56,570

is very low

635

00:22:59,620 --> 00:22:58,100

people can teach themselves how to do

636

00:23:01,389 --> 00:22:59,630

coding and rate these what they call

637

00:23:02,590 --> 00:23:01,399

them smart contracts but if you think of

638

00:23:05,259 --> 00:23:02,600

them as robots it's a whole lot easier

639

00:23:07,029 --> 00:23:05,269

to grasp what's going on mm-hmm yeah

640

00:23:08,950 --> 00:23:07,039

there's a ton of potential out there for

641

00:23:10,570 --> 00:23:08,960

people who are paying attention and

642

00:23:12,370 --> 00:23:10,580

getting in front of it rather than

643

00:23:15,100 --> 00:23:12,380

waiting for it all if smack them in the

644

00:23:17,440 --> 00:23:15,110

face well there's also I get real

645

00:23:20,019 --> 00:23:17,450

examples all the time so just one more

646

00:23:22,180 --> 00:23:20,029

real example here I got an email just

647

00:23:24,519 --> 00:23:22,190

the other day from a guy who's been able

648

00:23:26,710 --> 00:23:24,529

in the last week I think it was to pay

649

00:23:28,450 --> 00:23:26,720

off his student debt and his car loan

650

00:23:30,279 --> 00:23:28,460

based on following some of the advice

651

00:23:32,289 --> 00:23:30,289

and one of my reports or one of the

652

00:23:34,570 --> 00:23:32,299

guides I don't give advice and he was

653

00:23:35,830 --> 00:23:34,580

able to purchase the currencies and sell

654

00:23:37,810 --> 00:23:35,840

them out the appropriate time and then

655

00:23:40,600 --> 00:23:37,820

converted them to dollars and went paid

656

00:23:43,060 --> 00:23:40,610

off these two major debts this is such a

657

00:23:45,159 --> 00:23:43,070

unique time in history that had this

658

00:23:46,960 --> 00:23:45,169

time not existed in current crypto

659

00:23:49,509 --> 00:23:46,970

currencies come along the odds on this

660

00:23:51,509 --> 00:23:49,519

man being able to achieve that at his

661

00:23:54,460 --> 00:23:51,519

age you know ver infinitesimally small

662

00:23:57,249 --> 00:23:54,470

mm-hm yeah we should definitely look at

663

00:23:59,860 --> 00:23:57,259

the positives in this era of change and

664

00:24:01,629 --> 00:23:59,870

I wanted to get into some weird stuff to

665

00:24:03,940 --> 00:24:01,639

you clearly we got a lot of weird stuff

666

00:24:05,470 --> 00:24:03,950

going on in the world no doubt I heard

667

00:24:06,909 --> 00:24:05,480

you talking about Antarctica fairly

668

00:24:08,470 --> 00:24:06,919

recently it's been something a lot of

669

00:24:10,360 --> 00:24:08,480

listeners are curious about right now

670

00:24:12,639 --> 00:24:10,370

we've talked about John Kerry's visit

671

00:24:14,529 --> 00:24:12,649

right around election time also Buzz

672

00:24:16,450 --> 00:24:14,539

Aldrin need to need to be medically

673

00:24:18,009 --> 00:24:16,460

airlifted out of there but we also have

674

00:24:19,690 --> 00:24:18,019

Newt Gingrich going down there right

675

00:24:21,639 --> 00:24:19,700

after the election is if he was the

676

00:24:22,869 --> 00:24:21,649

liaison between the new administration

677

00:24:25,330 --> 00:24:22,879

and whatever the hell they got going on

678

00:24:27,399 --> 00:24:25,340

down there based on a few clues we do

679

00:24:30,220 --> 00:24:27,409

have can you tell us more about the

680

00:24:32,710 --> 00:24:30,230

goings on in Antarctica I can give us

681

00:24:34,419 --> 00:24:32,720

some more clues okay there are some

682

00:24:37,240 --> 00:24:34,429

areas that I haven't formed conclusions

683

00:24:38,860 --> 00:24:37,250

on yet but we have more clues the Newt

684

00:24:40,869 --> 00:24:38,870

Gingrich thing I think that's precisely

685

00:24:43,570 --> 00:24:40,879

what it was was that as the new

686

00:24:45,549 --> 00:24:43,580

administration came in they had to have

687

00:24:48,070 --> 00:24:45,559

a new ambassador to whatever the hell it

688

00:24:50,350 --> 00:24:48,080

is that's going on down there some of

689

00:24:52,299 --> 00:24:50,360

the other clues we've got now include a

690

00:24:53,889 --> 00:24:52,309

big ramping up of the number of jobs

691

00:24:55,539 --> 00:24:53,899

that are available the amount of money

692

00:24:57,190 --> 00:24:55,549

being put into the corporations that are

693

00:24:58,450 --> 00:24:57,200

down there the number of corporations

694

00:25:00,490 --> 00:24:58,460

that are now allowed to do business

695

00:25:02,110 --> 00:25:00,500

there the amount of passes that the

696

00:25:04,480 --> 00:25:02,120

military is handing out to the number of

697

00:25:07,299 --> 00:25:04,490

people and so on so we're looking at a

698

00:25:09,820 --> 00:25:07,309

ramping up of a very major operation

699

00:25:11,440 --> 00:25:09,830

there's hints that very large tracks

700

00:25:13,149 --> 00:25:11,450

of land in Australia are now being

701
00:25:16,060 --> 00:25:13,159
prepared for something

702
00:25:18,130 --> 00:25:16,070
there's also hints that port areas and

703
00:25:20,080 --> 00:25:18,140
coastline in New Zealand is also

704
00:25:21,340 --> 00:25:20,090
involved then the hints come in the form

705
00:25:23,139 --> 00:25:21,350
of corporations that are making

706
00:25:25,539 --> 00:25:23,149
movements in the acquisition of land and

707
00:25:28,240 --> 00:25:25,549
other facilities and also the

708
00:25:29,769 --> 00:25:28,250
importation into Australia of electronic

709
00:25:31,480 --> 00:25:29,779
gear and this kind of thing and new

710
00:25:35,289 --> 00:25:31,490
basically would amount to new cargo

711
00:25:38,409 --> 00:25:35,299
routes so something is up the ramping up

712
00:25:40,240 --> 00:25:38,419
level may yield an order of magnitude

713
00:25:43,029 --> 00:25:40,250

increase we just don't know it's

714

00:25:44,740 --> 00:25:43,039

currently ongoing this is curious though

715

00:25:46,090 --> 00:25:44,750

we knew it was coming but this is

716

00:25:49,269 --> 00:25:46,100

curious because of course it's the

717

00:25:52,330 --> 00:25:49,279

winter in the southern hemisphere so the

718

00:25:54,519 --> 00:25:52,340

expectation is or the the one conclusion

719

00:25:58,120 --> 00:25:54,529

I have is that the prepping that they're

720

00:26:01,299 --> 00:25:58,130

doing now is for some big push as soon

721

00:26:03,159 --> 00:26:01,309

as it becomes Clement weather Antarctica

722

00:26:05,620 --> 00:26:03,169

so that would be like Antarctica's

723

00:26:08,019 --> 00:26:05,630

upcoming spring and so they were

724

00:26:10,810 --> 00:26:08,029

preparing for something now whether

725

00:26:12,430 --> 00:26:10,820

we'll see any real manifestation of it

726

00:26:14,289 --> 00:26:12,440

here in the United States or wherever

727

00:26:16,330 --> 00:26:14,299

and we're paying for all of this I don't

728

00:26:18,129 --> 00:26:16,340

know but I do know that we're now

729

00:26:20,649 --> 00:26:18,139

approaching a point where it's a

730

00:26:24,250 --> 00:26:20,659

mathematical certainty that we'll soon

731

00:26:28,000 --> 00:26:24,260

have a fairly large population of

732

00:26:30,700 --> 00:26:28,010

returning people from various chores or

733

00:26:31,960 --> 00:26:30,710

tasks in Antarctica so we may start

734

00:26:34,480 --> 00:26:31,970

getting people that are going to spill

735

00:26:37,600 --> 00:26:34,490

out interesting information in larger

736

00:26:39,580 --> 00:26:37,610

and larger amounts as we go forward now

737

00:26:42,100 --> 00:26:39,590

and I am really excited about the

738

00:26:44,529 --> 00:26:42,110

potential there and some conventional

739

00:26:46,720 --> 00:26:44,539

ideas suggest that what's going on is

740

00:26:48,399 --> 00:26:46,730

resource mining or oil but those really

741

00:26:50,830 --> 00:26:48,409

aren't the companies that are down there

742

00:26:53,169 --> 00:26:50,840

are they that's quite correct and the

743

00:26:56,139 --> 00:26:53,179

issue there is that it's not oil it's

744

00:26:58,299 --> 00:26:56,149

coal they found fast quantities of some

745

00:27:02,320 --> 00:26:58,309

of the purest coal on the planet sitting

746

00:27:05,529 --> 00:27:02,330

in huge mountains in a mountain range as

747

00:27:08,590 --> 00:27:05,539

though it had already been mined and was

748

00:27:10,330 --> 00:27:08,600

cleaned and carefully piled up into

749

00:27:11,980 --> 00:27:10,340

these things that are five and six

750

00:27:13,899 --> 00:27:11,990

thousand feet high that you and I would

751

00:27:15,820 --> 00:27:13,909

think of as mountain sized foothills

752

00:27:17,409 --> 00:27:15,830

it's so clean that you can just

753

00:27:19,450 --> 00:27:17,419

literally truck on over there with your

754

00:27:22,750 --> 00:27:19,460

bulldozer or walk over by hand and pick

755

00:27:23,620 --> 00:27:22,760

up this coal and hit no dust or anything

756

00:27:27,130 --> 00:27:23,630

and

757

00:27:30,550 --> 00:27:27,140

more coal there in one of these

758

00:27:32,770 --> 00:27:30,560

mountains it is estimated then is the

759

00:27:33,940 --> 00:27:32,780

energy requirements of the United States

760

00:27:35,970 --> 00:27:33,950

for 200 years

761

00:27:38,590 --> 00:27:35,980

all energy requirements not just

762

00:27:41,110 --> 00:27:38,600

electricity but also the ability to

763

00:27:43,210 --> 00:27:41,120

convert coal to oil even inefficiently

764

00:27:45,250 --> 00:27:43,220

we'd be able to have all of our energy

765

00:27:47,110 --> 00:27:45,260

needs completely covered by the really

766

00:27:48,640 --> 00:27:47,120

cool coal out of Antarctica but that's

767

00:27:51,010 --> 00:27:48,650

not what's got them all excited because

768

00:27:52,750 --> 00:27:51,020

as you note it's much more high-tech

769

00:27:54,310 --> 00:27:52,760

companies that are down there and not

770

00:27:57,370 --> 00:27:54,320

people that are going to be buying a lot

771

00:27:59,080 --> 00:27:57,380

of caterpillars right I've obviously

772

00:28:01,390 --> 00:27:59,090

heard Boeing but then I've also heard

773

00:28:02,560 --> 00:28:01,400

you mention SAIC is down there which

774

00:28:04,060 --> 00:28:02,570

we've talked about them before

775

00:28:07,060 --> 00:28:04,070

apparently they're at the center of a

776

00:28:08,740 --> 00:28:07,070

lot of UFO stories and also seem to have

777

00:28:10,900 --> 00:28:08,750

worked and tested out some exotic

778

00:28:12,580 --> 00:28:10,910

electronic harassment technologies here

779

00:28:14,520 --> 00:28:12,590

in San Diego according to a book by

780

00:28:17,980 --> 00:28:14,530

Robert Guffey but this is a major

781

00:28:20,920 --> 00:28:17,990

indication that this might be UFO or

782

00:28:24,040 --> 00:28:20,930

alien related potentially right I think

783

00:28:26,710 --> 00:28:24,050

so personally and I also found it very

784

00:28:28,780 --> 00:28:26,720

curious that it's not simply SAIC now

785

00:28:31,450 --> 00:28:28,790

what actually occurred was that SAIC

786

00:28:33,370 --> 00:28:31,460

took its core divisions that had been

787

00:28:36,190 --> 00:28:33,380

there ever since its UFO inception

788

00:28:38,320 --> 00:28:36,200

period in the 50s and it took those core

789

00:28:41,080 --> 00:28:38,330

divisions and they've been repurposed

790

00:28:44,470 --> 00:28:41,090

under a new corporate name and all the

791

00:28:46,390 --> 00:28:44,480

other basically it was SAIC which owns

792

00:28:48,190 --> 00:28:46,400

all this other crud and is involved with

793

00:28:51,670 --> 00:28:48,200

all these other kind of things took its

794

00:28:54,040 --> 00:28:51,680

core central function group rebranded it

795

00:28:57,040 --> 00:28:54,050

as Latos and has given the rest of that

796

00:28:59,170 --> 00:28:57,050

stuff off to a another subgroup to deal

797

00:29:02,320 --> 00:28:59,180

with and has now focused their core

798

00:29:04,960 --> 00:29:02,330

science group on Antarctica and this is

799

00:29:06,850 --> 00:29:04,970

this is a huge shift because throughout

800

00:29:10,270 --> 00:29:06,860

the 50s and 60s these people were

801

00:29:13,450 --> 00:29:10,280

involved in contracts for the federal

802

00:29:14,890 --> 00:29:13,460

government almost exclusively or some

803

00:29:16,330 --> 00:29:14,900

other subcontractor the federal

804

00:29:18,790 --> 00:29:16,340

government and insofar as we were able

805

00:29:20,170 --> 00:29:18,800

to determine perhaps as much as 70 or 80

806

00:29:23,050 --> 00:29:20,180

percent of it was all UFO

807

00:29:25,600 --> 00:29:23,060

reverse-engineering stuff hmm yeah oh

808

00:29:26,980 --> 00:29:25,610

they're focused on Antarctica that's

809

00:29:28,630 --> 00:29:26,990

definitely something to look for me

810

00:29:31,180 --> 00:29:28,640

there's also that picture going around

811

00:29:33,100 --> 00:29:31,190

of the UFO and the ice I'm not sure if

812

00:29:35,950 --> 00:29:33,110

that's legitimate or not but you have

813

00:29:37,330 --> 00:29:35,960

any notes it's actually none and it's a

814

00:29:40,240 --> 00:29:37,340

lake the

815

00:29:42,100 --> 00:29:40,250

has been reversed top to bottom in order

816

00:29:45,400 --> 00:29:42,110

to cast the edge of the lake as the edge

817

00:29:47,950 --> 00:29:45,410

of the spaceship okay ah now here's the

818

00:29:49,330 --> 00:29:47,960

thing okay so let's let's get into some

819

00:29:50,140 --> 00:29:49,340

people over here for a minute all right

820

00:29:55,660 --> 00:29:50,150

yeah

821

00:29:57,430 --> 00:29:55,670

so I'm doing my my work let's say 2012 I

822

00:29:59,950 --> 00:29:57,440

mean I've had Antarctica stuff in my

823

00:30:01,300 --> 00:29:59,960

data since 2003 and earlier and have

824

00:30:02,290 --> 00:30:01,310

been reporting on it ever since then

825

00:30:04,780 --> 00:30:02,300

well actually since the very first

826

00:30:07,720 --> 00:30:04,790

report but it showed up with seriousness

827

00:30:09,430 --> 00:30:07,730

around 2003 and it grew for a number of

828

00:30:11,680 --> 00:30:09,440

years then it just almost sort of

829

00:30:15,640 --> 00:30:11,690

vanished so no real reports of it

830

00:30:17,830 --> 00:30:15,650

through the say 2007 through 9 then it

831

00:30:20,470 --> 00:30:17,840

starts getting ramped up again well

832

00:30:22,390 --> 00:30:20,480

around three or four or five years ago I

833

00:30:24,160 --> 00:30:22,400

started getting this ramped up of

834

00:30:26,740 --> 00:30:24,170

Antarctica being associated with all of

835

00:30:28,450 --> 00:30:26,750

these very high-tech company names and

836

00:30:31,300 --> 00:30:28,460

then also with industry as well as

837

00:30:32,890 --> 00:30:31,310

scientific devices so for instance I

838

00:30:35,470 --> 00:30:32,900

would just get these weird associations

839

00:30:37,030 --> 00:30:35,480

of Antarctica and scanning electron

840

00:30:39,340 --> 00:30:37,040

microscopes or tunneling scanning

841

00:30:41,140 --> 00:30:39,350

tunneling electron microscopes and those

842

00:30:43,720 --> 00:30:41,150

are not something you would usually use

843

00:30:46,000 --> 00:30:43,730

to investigate ice and so it was just

844

00:30:49,480 --> 00:30:46,010

odd that there was these associations of

845

00:30:51,970 --> 00:30:49,490

these rather strange scientific devices

846

00:30:53,920 --> 00:30:51,980

going de Antarctica not odd per se

847

00:30:55,390 --> 00:30:53,930

because that's all Antarctica used to

848

00:30:57,280 --> 00:30:55,400

have associated with it was basically

849

00:30:59,560 --> 00:30:57,290

the military in science and then there

850

00:31:01,930 --> 00:30:59,570

came out the rumors of the films of what

851
00:31:03,670 --> 00:31:01,940
were made in the 70s of the discoveries

852
00:31:06,820 --> 00:31:03,680
of these mountains of coals and so on

853
00:31:08,290 --> 00:31:06,830
anyway so as I say in the about 2012

854
00:31:11,380 --> 00:31:08,300
through 13 I started getting a lot of

855
00:31:13,600 --> 00:31:11,390
reports in my data more connections to

856
00:31:15,100 --> 00:31:13,610
the wu side of things and i thought oh

857
00:31:16,240 --> 00:31:15,110
this is really interesting and started

858
00:31:18,310 --> 00:31:16,250
really pouring through it i started

859
00:31:20,110 --> 00:31:18,320
reporting on it then I ran into this

860
00:31:22,510 --> 00:31:20,120
very curious situation and I couldn't

861
00:31:24,610 --> 00:31:22,520
really decide what was going on and this

862
00:31:26,410 --> 00:31:24,620
the situation was that it was almost as

863
00:31:29,170 --> 00:31:26,420

though there was an echo or an

864

00:31:31,480 --> 00:31:29,180

amplification of the stuff I was writing

865

00:31:33,880 --> 00:31:31,490

about it was not being scrubbed out by

866

00:31:36,550 --> 00:31:33,890

this thing I called mom okay I have this

867

00:31:38,500 --> 00:31:36,560

thing that M om model of model space and

868

00:31:40,090 --> 00:31:38,510

every time I write a report I take all

869

00:31:42,340 --> 00:31:40,100

the words that I've got associated with

870

00:31:45,400 --> 00:31:42,350

that report and I dump it in to mom

871

00:31:48,370 --> 00:31:45,410

which and mom is a robot and mom

872

00:31:50,920 --> 00:31:48,380

supervises the spiders and whenever it

873

00:31:51,190 --> 00:31:50,930

finds any of an echo of my own words and

874

00:31:54,279 --> 00:31:51,200

stuff

875

00:31:56,049 --> 00:31:54,289

that it throws it into a dustbin of our

876
00:31:58,419 --> 00:31:56,059
processing so to speak and we just don't

877
00:32:00,370 --> 00:31:58,429
involve ourselves with it so no Sakura

878
00:32:02,889 --> 00:32:00,380
just references because I ran into that

879
00:32:04,480 --> 00:32:02,899
with the very first report I did in 2001

880
00:32:06,340 --> 00:32:04,490
and it took me like six months to

881
00:32:08,289 --> 00:32:06,350
overcome the problems caused by people

882
00:32:10,539 --> 00:32:08,299
reporting on my own work showing back up

883
00:32:11,919 --> 00:32:10,549
in the next run and so I finally was

884
00:32:13,930 --> 00:32:11,929
able to come up with mom and work that

885
00:32:17,820 --> 00:32:13,940
out and then mom started I thought

886
00:32:20,680 --> 00:32:17,830
running into some serious issues in

887
00:32:23,889 --> 00:32:20,690
2012/2013 realm I don't know it excuse

888
00:32:26,590 --> 00:32:23,899

me that would have been 2014 and 15 very

889

00:32:28,060 --> 00:32:26,600

into 2014 and into 2015 I started

890

00:32:30,070 --> 00:32:28,070

getting more echoes than I was used to

891

00:32:32,649 --> 00:32:30,080

and having to slice out and do more

892

00:32:34,509 --> 00:32:32,659

manual editing on some of the woowoo

893

00:32:36,580 --> 00:32:34,519

data coming in for the space coat for

894

00:32:38,139 --> 00:32:36,590

insanity and love that was Antarctic

895

00:32:39,700 --> 00:32:38,149

based and I was somewhat disappointed

896

00:32:41,259 --> 00:32:39,710

because I was throwing out a lot of data

897

00:32:43,210 --> 00:32:41,269

that I couldn't tell if it was good or

898

00:32:46,810 --> 00:32:43,220

bad but I didn't want to be bringing up

899

00:32:49,629 --> 00:32:46,820

anything than spurious especially if it

900

00:32:51,700 --> 00:32:49,639

was a repetition of words I'd already

901
00:32:54,850 --> 00:32:51,710
put out onto the Internet and us I would

902
00:32:56,620 --> 00:32:54,860
magnify the effect and a long story and

903
00:32:58,450 --> 00:32:56,630
eventually it comes down to me having to

904
00:33:00,399 --> 00:32:58,460
write all these extra chunks of code and

905
00:33:02,139 --> 00:33:00,409
put in stored procedures and triggers

906
00:33:04,330 --> 00:33:02,149
into my sequel database to catch all

907
00:33:06,100 --> 00:33:04,340
this stuff and I finally realized well

908
00:33:07,990 --> 00:33:06,110
geez this is coming at me from all of

909
00:33:11,039 --> 00:33:08,000
these different directions I realized

910
00:33:13,120 --> 00:33:11,049
that this past year and I made some

911
00:33:15,370 --> 00:33:13,130
attempts to figure out what was going on

912
00:33:16,960 --> 00:33:15,380
by putting stuff into my reports in

913
00:33:19,419 --> 00:33:16,970

particular ways that I thought would

914

00:33:21,070 --> 00:33:19,429

interact and cause certain repercussions

915

00:33:23,110 --> 00:33:21,080

in these echoes and sure enough it did

916

00:33:24,700 --> 00:33:23,120

and lo and behold I was able to source

917

00:33:26,710 --> 00:33:24,710

the echos and it turns out to be this

918

00:33:29,289 --> 00:33:26,720

marketing group behind this individual

919

00:33:31,149 --> 00:33:29,299

by the name of Corey Goode and what they

920

00:33:33,370 --> 00:33:31,159

were what they were doing was and

921

00:33:36,279 --> 00:33:33,380

causing the problems for me was they

922

00:33:39,610 --> 00:33:36,289

were reading my reports and echoing the

923

00:33:41,139 --> 00:33:39,620

words back out into their own audience

924

00:33:43,360 --> 00:33:41,149

and into their own marketing stuff and

925

00:33:46,090 --> 00:33:43,370

it was showing up in context that I was

926
00:33:48,549 --> 00:33:46,100
not prepared to see my stuff show up in

927
00:33:51,669 --> 00:33:48,559
and so I didn't have filters already

928
00:33:53,259 --> 00:33:51,679
prepared for it right and so mom was not

929
00:33:55,419 --> 00:33:53,269
able to catch it some of it was coming

930
00:33:57,639 --> 00:33:55,429
through and causing these amplification

931
00:33:59,710 --> 00:33:57,649
of certain emotional things that were

932
00:34:01,370 --> 00:33:59,720
all out of whack with everything else

933
00:34:03,590 --> 00:34:01,380
that was coming through

934
00:34:05,480 --> 00:34:03,600
so I saw it building and then I started

935
00:34:07,430 --> 00:34:05,490
okay this is interesting now when I

936
00:34:09,680 --> 00:34:07,440
needed to do was as I say perform that

937
00:34:11,629 --> 00:34:09,690
experiment and I ended up tracking it

938
00:34:14,570 --> 00:34:11,639

down to this quarry good guy as the

939

00:34:17,149 --> 00:34:14,580

front end of this big giant marketing

940

00:34:19,369 --> 00:34:17,159

campaign so if I know for instance that

941

00:34:21,800 --> 00:34:19,379

a particular theme in woo woo was going

942

00:34:24,770 --> 00:34:21,810

to be used for a movie i preload mom

943

00:34:26,119 --> 00:34:24,780

with that to screen out all the PR crap

944

00:34:29,300 --> 00:34:26,129

that's going to be coming out about that

945

00:34:31,700 --> 00:34:29,310

film and so if we had for instance you

946

00:34:34,399 --> 00:34:31,710

know alien giant mushrooms in the film

947

00:34:36,649 --> 00:34:34,409

coming well i preload mom to screen out

948

00:34:38,600 --> 00:34:36,659

any of our data that was related to

949

00:34:40,369 --> 00:34:38,610

alien giant mushrooms over this period

950

00:34:42,500 --> 00:34:40,379

of time because very likely it's part of

951
00:34:44,810 --> 00:34:42,510
this but if it showed up two years later

952
00:34:46,760 --> 00:34:44,820
it might be a you know your mind trying

953
00:34:48,470 --> 00:34:46,770
to get you to think about this old idea

954
00:34:49,760 --> 00:34:48,480
you had in order to get new information

955
00:34:50,149 --> 00:34:49,770
out so we've got to be careful about

956
00:34:52,399 --> 00:34:50,159
that

957
00:34:55,159 --> 00:34:52,409
sort of make sense yeah it definitely

958
00:34:56,930 --> 00:34:55,169
does anyway it was a pain it was a royal

959
00:34:59,150 --> 00:34:56,940
pain and all kinds of stuff and I've got

960
00:35:00,590 --> 00:34:59,160
to retune the lexicon which brings us

961
00:35:02,690 --> 00:35:00,600
back to the Antarctic stuff right

962
00:35:04,280 --> 00:35:02,700
because I've got tons of it I'm

963
00:35:06,230 --> 00:35:04,290

reluctant to release any of it anymore

964

00:35:08,270 --> 00:35:06,240

because these bones are out there

965

00:35:11,450 --> 00:35:08,280

causing me problems with amplification

966

00:35:13,880 --> 00:35:11,460

around this subject specifically and I

967

00:35:16,580 --> 00:35:13,890

was able to amplify them up by putting

968

00:35:18,010 --> 00:35:16,590

in stuff in the reports and then one

969

00:35:19,370 --> 00:35:18,020

month after the next after the next

970

00:35:20,870 --> 00:35:19,380

accurate data

971

00:35:23,120 --> 00:35:20,880

I mean data that showed up in my

972

00:35:24,710 --> 00:35:23,130

processing it had already I'd already

973

00:35:27,020 --> 00:35:24,720

tumbled to the fact that something was

974

00:35:29,660 --> 00:35:27,030

going on I didn't know who it was but so

975

00:35:31,670 --> 00:35:29,670

I put in three separate memes with

976

00:35:33,290 --> 00:35:31,680

specific wording that caused certain

977

00:35:35,030 --> 00:35:33,300

things to occur and I now know what's

978

00:35:36,440 --> 00:35:35,040

going on but now it means I've got to go

979

00:35:38,540 --> 00:35:36,450

back and basically make all these

980

00:35:41,600 --> 00:35:38,550

filters permanent go and change all

981

00:35:43,520 --> 00:35:41,610

these state variables and temporal

982

00:35:45,050 --> 00:35:43,530

variables to account for this for the

983

00:35:47,930 --> 00:35:45,060

long term because we're in this big

984

00:35:50,360 --> 00:35:47,940

brouhaha as their giant marketing scheme

985

00:35:52,160 --> 00:35:50,370

comes unraveled and the repercussions

986

00:35:53,990 --> 00:35:52,170

are going to go on for years and I'm

987

00:35:56,480 --> 00:35:54,000

like really irritated I mean I'm sorry I

988

00:35:58,130 --> 00:35:56,490

don't need to vent but it caused me a

989

00:35:59,750 --> 00:35:58,140

whole lot of work at a time I didn't

990

00:36:02,270 --> 00:35:59,760

need it oh I get it

991

00:36:05,120 --> 00:36:02,280

I mean personally I've always liked the

992

00:36:06,740 --> 00:36:05,130

idea of a Hollow Earth or beings below

993

00:36:08,330 --> 00:36:06,750

the surface and because I always say

994

00:36:10,160 --> 00:36:08,340

that a lot of people have been pointing

995

00:36:12,320 --> 00:36:10,170

me to Corey Goode and David Wilcock

996

00:36:14,090 --> 00:36:12,330

because of the super-sensational tails

997

00:36:14,960 --> 00:36:14,100

they've been talking about which do tie

998

00:36:17,360 --> 00:36:14,970

in to the

999

00:36:19,430 --> 00:36:17,370

followers but I find it to be a bit too

1000

00:36:21,380 --> 00:36:19,440

sensational which some people might

1001
00:36:23,630 --> 00:36:21,390
think that's a catch-22 based on some of

1002
00:36:25,190 --> 00:36:23,640
my previous guests but I still do and I

1003
00:36:27,890 --> 00:36:25,200
mean you have made a pretty big splash

1004
00:36:30,250 --> 00:36:27,900
being very vocal about thinking the same

1005
00:36:32,660 --> 00:36:30,260
thing which I'm right there with you

1006
00:36:34,370 --> 00:36:32,670
well I was driven to it because I

1007
00:36:35,810 --> 00:36:34,380
normally I don't pop my head up and pay

1008
00:36:38,000 --> 00:36:35,820
attention to what's going on in the wu

1009
00:36:39,860 --> 00:36:38,010
community at a personality level i just

1010
00:36:41,450 --> 00:36:39,870
don't have the time so it took me a

1011
00:36:42,440 --> 00:36:41,460
while to tumble to these guys and it

1012
00:36:44,900 --> 00:36:42,450
didn't realize they've been out

1013
00:36:46,790 --> 00:36:44,910

operating at this con that's confidence

1014

00:36:48,650 --> 00:36:46,800

game for over a year and no wonder i'd

1015

00:36:49,580 --> 00:36:48,660

had problems for over a year because you

1016

00:36:51,740 --> 00:36:49,590

wouldn't believe where i was getting

1017

00:36:54,560 --> 00:36:51,750

this stuff from gardening forums and I

1018

00:36:57,170 --> 00:36:54,570

mean even deep military stuff that you

1019

00:36:59,450 --> 00:36:57,180

know anyway even on the dark web this

1020

00:37:01,580 --> 00:36:59,460

stuff was showing up and it was because

1021

00:37:03,260 --> 00:37:01,590

no one was calling [h__h] on it that

1022

00:37:05,570 --> 00:37:03,270

it was becoming amplified to the point

1023

00:37:06,650 --> 00:37:05,580

where people had contacted it for the

1024

00:37:08,780 --> 00:37:06,660

first time and they couldn't find

1025

00:37:11,060 --> 00:37:08,790

anybody seriously debunking it anywhere

1026

00:37:13,670 --> 00:37:11,070

and so they assumed no one could debunk

1027

00:37:16,580 --> 00:37:13,680

it ergo it's actually solid as opposed

1028

00:37:17,840 --> 00:37:16,590

to it just being I think you know a

1029

00:37:20,450 --> 00:37:17,850

marketing effort where they attempt to

1030

00:37:23,480 --> 00:37:20,460

squash people saying hey this is full of

1031

00:37:25,640 --> 00:37:23,490

crap mmhmm yeah man

1032

00:37:27,530 --> 00:37:25,650

I guess it's work kind of on that

1033

00:37:28,970 --> 00:37:27,540

subject let's talk about our place in

1034

00:37:31,520 --> 00:37:28,980

the universe a bit because you do

1035

00:37:33,530 --> 00:37:31,530

describe the Sun and Moon and space all

1036

00:37:35,270 --> 00:37:33,540

pretty differently than its presented to

1037

00:37:37,430 --> 00:37:35,280

us in school and in the mainstream which

1038

00:37:39,110 --> 00:37:37,440

isn't surprising we've had a lot of

1039

00:37:41,540 --> 00:37:39,120

guests break down many different ideas

1040

00:37:43,580 --> 00:37:41,550

but you talked to us about your model a

1041

00:37:45,290 --> 00:37:43,590

bit where you see the sharpest breaks

1042

00:37:49,010 --> 00:37:45,300

from the traditional teachings when it

1043

00:37:50,720 --> 00:37:49,020

comes to our composition here sure a lot

1044

00:37:52,430 --> 00:37:50,730

of my stuff comes from some work that

1045

00:37:56,030 --> 00:37:52,440

was done by a bunch of Hindu

1046

00:38:01,400 --> 00:37:56,040

mathematicians in the early 1900's a

1047

00:38:03,200 --> 00:38:01,410

late 1880s through 1940s or so and they

1048

00:38:04,940 --> 00:38:03,210

discovered by thinking and performing

1049

00:38:06,500 --> 00:38:04,950

some thought experiments as well as some

1050

00:38:09,310 --> 00:38:06,510

physical experiments that we can all

1051
00:38:12,440 --> 00:38:09,320
perform ourselves that we don't have a

1052
00:38:14,570 --> 00:38:12,450
heliocentric solar system so our solar

1053
00:38:16,520 --> 00:38:14,580
system for instance we're not orbiting

1054
00:38:18,860 --> 00:38:16,530
nor has the earth ever orbited around

1055
00:38:22,370 --> 00:38:18,870
the middle of the Sun okay we don't

1056
00:38:24,170 --> 00:38:22,380
orbit its ecliptic nor does any planet

1057
00:38:26,930 --> 00:38:24,180
and this can be easily proven to

1058
00:38:28,940 --> 00:38:26,940
ourselves because if that were true we

1059
00:38:31,490 --> 00:38:28,950
would only ever be able to observe

1060
00:38:33,349 --> 00:38:31,500
most of the other planets very very very

1061
00:38:35,740 --> 00:38:33,359
infrequently because the light of the

1062
00:38:37,790 --> 00:38:35,750
Sun would obscure them and ourselves

1063
00:38:39,980 --> 00:38:37,800

from being able to see these other

1064

00:38:42,020 --> 00:38:39,990

planets we'd never be able to see any of

1065

00:38:43,700 --> 00:38:42,030

the inner planets except for when they

1066

00:38:45,770 --> 00:38:43,710

cross between us and the Sun and they

1067

00:38:47,750 --> 00:38:45,780

would show up as a black dot we would

1068

00:38:49,910 --> 00:38:47,760

only be able to see those outer planets

1069

00:38:52,430 --> 00:38:49,920

that happen to be directly behind us in

1070

00:38:54,950 --> 00:38:52,440

a cone that's approximately 18 degrees

1071

00:38:56,599 --> 00:38:54,960

wide that it would basically be the area

1072

00:38:59,329 --> 00:38:56,609

that would be shielded by the light from

1073

00:39:02,630 --> 00:38:59,339

the Sun if we in fact orbited around the

1074

00:39:04,370 --> 00:39:02,640

Helios around its ecliptic so we

1075

00:39:06,109 --> 00:39:04,380

actually trail behind the Sun because

1076

00:39:08,390 --> 00:39:06,119

the whole model of the universe is

1077

00:39:11,329 --> 00:39:08,400

comets we know our Sun is moving it's

1078

00:39:12,829 --> 00:39:11,339

progressing in a direction we don't have

1079

00:39:14,089 --> 00:39:12,839

any idea of the direction it's going

1080

00:39:15,560 --> 00:39:14,099

north south east west it's all

1081

00:39:17,540 --> 00:39:15,570

meaningless in space but whatever

1082

00:39:20,540 --> 00:39:17,550

direction it's going it's moving like it

1083

00:39:22,700 --> 00:39:20,550

over 7,000 kilometers a second and it's

1084

00:39:24,560 --> 00:39:22,710

burrowing through whatever it is out

1085

00:39:26,690 --> 00:39:24,570

there and whatever it is out there is

1086

00:39:28,130 --> 00:39:26,700

not vacuumed because as the Sun

1087

00:39:30,440 --> 00:39:28,140

progresses through it the Sun is

1088

00:39:33,200 --> 00:39:30,450

reacting to material that is coming in

1089

00:39:36,609 --> 00:39:33,210

around the Sun that we perceive and can

1090

00:39:39,170 --> 00:39:36,619

sample as these basically ionized gases

1091

00:39:41,329 --> 00:39:39,180

gases at different densities and

1092

00:39:43,520 --> 00:39:41,339

different complexities our Sun is not a

1093

00:39:44,240 --> 00:39:43,530

giant nuclear reactor that's going to go

1094

00:39:46,640 --> 00:39:44,250

on forever

1095

00:39:48,559 --> 00:39:46,650

fueled by internal nuclear compression

1096

00:39:50,420 --> 00:39:48,569

based on the compression of hydrogen in

1097

00:39:52,819 --> 00:39:50,430

fact it probably has zero - very little

1098

00:39:55,250 --> 00:39:52,829

hydrogen in it at all it's primarily

1099

00:39:57,770 --> 00:39:55,260

composed of ferrite gold silver and

1100

00:39:59,780 --> 00:39:57,780

copper and the ferrite is the largest

1101
00:40:02,210 --> 00:39:59,790
amount of it it's probably about 3,000

1102
00:40:04,130 --> 00:40:02,220
degrees Kelvin so the surface of the Sun

1103
00:40:05,809 --> 00:40:04,140
itself is very cold so when we get a Sun

1104
00:40:07,910 --> 00:40:05,819
SPOT we're actually doing is looking

1105
00:40:10,490 --> 00:40:07,920
through the plasma at the cold iron

1106
00:40:13,940 --> 00:40:10,500
underneath the black ferrite surface

1107
00:40:15,980 --> 00:40:13,950
underneath and the plasma is caused by

1108
00:40:17,839 --> 00:40:15,990
this iron being shoved through these

1109
00:40:20,720 --> 00:40:17,849
ionized gases very much the way you

1110
00:40:23,240 --> 00:40:20,730
would have a tungsten tip in an ionized

1111
00:40:24,980 --> 00:40:23,250
gas and a TIG welder causing this arcing

1112
00:40:27,829 --> 00:40:24,990
and the plasma and that's what's going

1113
00:40:30,760 --> 00:40:27,839

on around the Sun is this plasma and the

1114

00:40:32,930 --> 00:40:30,770

plasma is actually currently retreating

1115

00:40:35,120 --> 00:40:32,940

condensing for reasons we don't know

1116

00:40:36,740 --> 00:40:35,130

down from about eight thousand degrees

1117

00:40:38,089 --> 00:40:36,750

Fahrenheit I think - about five thousand

1118

00:40:40,099 --> 00:40:38,099

degrees Fahrenheit in terms of its

1119

00:40:42,740 --> 00:40:40,109

temperature leading us into an ice age

1120

00:40:45,590 --> 00:40:42,750

period this contraction of that and

1121

00:40:46,820 --> 00:40:45,600

hope is about 125,000 years since the

1122

00:40:49,490 --> 00:40:46,830

last time it happened which is about

1123

00:40:51,370 --> 00:40:49,500

25,000 years overdue insofar as the

1124

00:40:53,650 --> 00:40:51,380

thinking of the people who study this in

1125

00:40:56,050 --> 00:40:53,660

coincident with that we have the two

1126

00:40:59,600 --> 00:40:56,060

largest planets in our solar system

1127

00:41:03,380 --> 00:40:59,610

Jupiter and Saturn in alignment relative

1128

00:41:06,200 --> 00:41:03,390

to our own paths in the solar system now

1129

00:41:08,570 --> 00:41:06,210

we're all trailing behind the Sun like

1130

00:41:10,520 --> 00:41:08,580

debris in a cometary field being drugged

1131

00:41:13,700 --> 00:41:10,530

behind it and this is what accounts for

1132

00:41:14,960 --> 00:41:13,710

the retrograde motion of the planets no

1133

00:41:17,390 --> 00:41:14,970

planet would ever appear to be

1134

00:41:19,700 --> 00:41:17,400

retrograde to us ever under any

1135

00:41:21,680 --> 00:41:19,710

circumstances if we were orbiting the

1136

00:41:23,420 --> 00:41:21,690

ecliptic of the Sun if we orbited the

1137

00:41:25,450 --> 00:41:23,430

equator of the Sun no planet would ever

1138

00:41:27,770 --> 00:41:25,460

show up in any way shape or form as

1139

00:41:30,170 --> 00:41:27,780

retrograde and the fact that we can see

1140

00:41:31,850 --> 00:41:30,180

all planets continuously means we don't

1141

00:41:33,710 --> 00:41:31,860

orbit the middle of the Sun whether it

1142

00:41:36,470 --> 00:41:33,720

we're back behind the Sun being drugged

1143

00:41:38,720 --> 00:41:36,480

behind it and so this is why we get

1144

00:41:40,910 --> 00:41:38,730

retrograde motion as the mercury for

1145

00:41:42,950 --> 00:41:40,920

instance spirals behind the Sun it

1146

00:41:44,630 --> 00:41:42,960

sometimes appears to be going backward

1147

00:41:46,550 --> 00:41:44,640

from our viewpoint but if we were to

1148

00:41:48,680 --> 00:41:46,560

transpose that into a two-dimensional

1149

00:41:50,990 --> 00:41:48,690

image it would look like a zigzag and so

1150

00:41:53,000 --> 00:41:51,000

you see these zigzag mercury eclipses or

1151

00:41:54,920 --> 00:41:53,010

Venus eclipses of the Sun and that's

1152

00:41:56,390 --> 00:41:54,930

actually the spiral being captured in a

1153

00:41:58,100 --> 00:41:56,400

two-dimensional form by the cameras

1154

00:41:59,900 --> 00:41:58,110

we've got looking at it which proved

1155

00:42:02,600 --> 00:41:59,910

that we're all being drugged behind the

1156

00:42:04,820 --> 00:42:02,610

Sun as cometary debris we know that the

1157

00:42:07,010 --> 00:42:04,830

solar system itself has some kind of a

1158

00:42:09,590 --> 00:42:07,020

shell around it that's composed of

1159

00:42:11,780 --> 00:42:09,600

something that is gaseous so to speak

1160

00:42:14,480 --> 00:42:11,790

but has enough radiation and energy in

1161

00:42:16,310 --> 00:42:14,490

it to prevent our Explorer ships from

1162

00:42:18,380 --> 00:42:16,320

ever leaving our solar system so they're

1163

00:42:20,570 --> 00:42:18,390

kind of like trapped in the cell walls

1164

00:42:22,670 --> 00:42:20,580

of our solar system we also know that

1165

00:42:24,650 --> 00:42:22,680

the only vacuum that exists is directly

1166

00:42:26,450 --> 00:42:24,660

behind the Sun and the further you get

1167

00:42:29,330 --> 00:42:26,460

out away from directly behind the Sun

1168

00:42:33,110 --> 00:42:29,340

the more you encounter the stuff that is

1169

00:42:36,080 --> 00:42:33,120

in the space between stars and we also

1170

00:42:37,700 --> 00:42:36,090

know that our orbit are positioned

1171

00:42:40,370 --> 00:42:37,710

behind the Sun we're falling further

1172

00:42:42,800 --> 00:42:40,380

behind that ever so slightly behind the

1173

00:42:45,230 --> 00:42:42,810

Sun because the earth itself is growing

1174

00:42:47,120 --> 00:42:45,240

larger it's growing larger because more

1175

00:42:50,150 --> 00:42:47,130

energy is coming around the Sun coming

1176

00:42:51,920 --> 00:42:50,160

through that plasma unaltered in the

1177

00:42:54,410 --> 00:42:51,930

form of gamma rays and other cosmic

1178

00:42:56,360 --> 00:42:54,420

radiation we can't identify it's getting

1179

00:42:56,660 --> 00:42:56,370

caught by the plasma core that's in the

1180

00:42:59,359 --> 00:42:56,670

middle

1181

00:43:03,049 --> 00:42:59,369

our earth which is making more material

1182

00:43:05,420 --> 00:43:03,059

more hydrogen oxygen oil zinc tungsten

1183

00:43:08,420 --> 00:43:05,430

etc and pushing the earth further

1184

00:43:09,920 --> 00:43:08,430

further apart in the plate as it makes

1185

00:43:12,170 --> 00:43:09,930

more stuff deep in the middle of a

1186

00:43:14,270 --> 00:43:12,180

planet it's got to go somewhere and so

1187

00:43:17,000 --> 00:43:14,280

in addition to the earth getting larger

1188

00:43:18,890 --> 00:43:17,010

the effect of Jupiter and Saturn are

1189

00:43:20,390 --> 00:43:18,900

also on a four hundred and two year

1190

00:43:22,490 --> 00:43:20,400

cycle that out to four hundred

1191

00:43:24,140 --> 00:43:22,500

twenty-five years and it's causing a

1192

00:43:26,539 --> 00:43:24,150

mini ice age on its own and all this

1193

00:43:28,250 --> 00:43:26,549

stuff is combining right at this moment

1194

00:43:32,930 --> 00:43:28,260

and we sit here and talk about

1195

00:43:35,120 --> 00:43:32,940

cryptocurrency fair enough man it is so

1196

00:43:38,690 --> 00:43:35,130

interesting I've seen computerized

1197

00:43:41,120 --> 00:43:38,700

models of that composition like this

1198

00:43:43,819 --> 00:43:41,130

corkscrew spiral pattern following the

1199

00:43:47,150 --> 00:43:43,829

Sun through space I am curious though if

1200

00:43:48,950 --> 00:43:47,160

that is our structure wouldn't we see

1201

00:43:50,839 --> 00:43:48,960

greater differences in regard to

1202

00:43:53,450 --> 00:43:50,849

celestial alignments or the

1203

00:43:55,430 --> 00:43:53,460

constellations precession they seem

1204

00:43:58,940 --> 00:43:55,440

pretty stable over thousands of years if

1205

00:44:00,650 --> 00:43:58,950

megalithic site alignments or any thing

1206

00:44:04,250 --> 00:44:00,660

to be considered of any value in this

1207

00:44:06,559 --> 00:44:04,260

area we will see that but bear in mind

1208

00:44:08,750 --> 00:44:06,569

it's going to take much more than a

1209

00:44:11,809 --> 00:44:08,760

single processional cycle for us to see

1210

00:44:14,690 --> 00:44:11,819

any deviation from that so for instance

1211

00:44:16,370 --> 00:44:14,700

it would take perhaps two or three

1212

00:44:18,920 --> 00:44:16,380

hundred thousand years maybe ten per

1213

00:44:21,230 --> 00:44:18,930

session cycles maybe you know 260

1214

00:44:23,690 --> 00:44:21,240

thousand years to see even a 1%

1215

00:44:26,089 --> 00:44:23,700

deviation caused by the position of the

1216

00:44:29,059 --> 00:44:26,099

Sun moving relative to some huge fixed

1217

00:44:31,130 --> 00:44:29,069

star Northstar etc etc I mean it takes

1218

00:44:33,589 --> 00:44:31,140

millions of years for us to shift from

1219

00:44:35,809 --> 00:44:33,599

one pole star to the next and it has

1220

00:44:38,510 --> 00:44:35,819

occurred Vega used to be the pole star

1221

00:44:41,089 --> 00:44:38,520

right so you know now we're in Polaris

1222

00:44:43,430 --> 00:44:41,099

and so in fact we do know though that

1223

00:44:45,230 --> 00:44:43,440

this has impacted humanity how do we

1224

00:44:47,210 --> 00:44:45,240

know this well if one looks into certain

1225

00:44:50,270 --> 00:44:47,220

aspects of archaeology you find that

1226

00:44:52,609 --> 00:44:50,280

seafaring peoples both on the Atlantic

1227

00:44:53,930 --> 00:44:52,619

and into the Southern Oceans and in the

1228

00:44:56,450 --> 00:44:53,940

Pacific and into the southern ocean

1229

00:44:58,730 --> 00:44:56,460

specifically the Southern Oceans notice

1230

00:45:02,569 --> 00:44:58,740

changes in the navigational stars and

1231

00:45:04,789 --> 00:45:02,579

made note of these changes about 4,500

1232

00:45:06,559 --> 00:45:04,799

years ago and it was over the course of

1233

00:45:08,750 --> 00:45:06,569

about eight or nine hundred years that

1234

00:45:10,550 --> 00:45:08,760

that change occurred and it was

1235

00:45:12,560 --> 00:45:10,560

necessary then so they are

1236

00:45:14,870 --> 00:45:12,570

they needed to have a degree of

1237

00:45:17,090 --> 00:45:14,880

refinement that you and I don't need

1238

00:45:18,770 --> 00:45:17,100

okay these guys were in the in the South

1239

00:45:20,330 --> 00:45:18,780

Pacific we're trying to find Islands

1240

00:45:23,300 --> 00:45:20,340

where they were separated from other

1241

00:45:24,770 --> 00:45:23,310

islands by Death in the water because if

1242

00:45:26,420 --> 00:45:24,780

you didn't find it you died there was

1243

00:45:28,010 --> 00:45:26,430

you can't live on the Pacific Ocean it's

1244

00:45:29,720 --> 00:45:28,020

a desert and so you got to live on the

1245

00:45:31,340 --> 00:45:29,730

little islands and in order to find that

1246

00:45:33,230 --> 00:45:31,350

Island you had to know where you were

1247

00:45:35,300 --> 00:45:33,240

within a few feet and so their

1248

00:45:37,970 --> 00:45:35,310

navigational stars had to be really

1249

00:45:40,310 --> 00:45:37,980

precise at a level that the Polestar per

1250

00:45:42,800 --> 00:45:40,320

se doesn't have to be or any of the

1251
00:45:44,840 --> 00:45:42,810
other ancillary stars so most of us are

1252
00:45:46,490 --> 00:45:44,850
not going to be aware of the continual

1253
00:45:49,130 --> 00:45:46,500
nature of these changes that are going

1254
00:45:50,600 --> 00:45:49,140
on but the South Pacific Islanders over

1255
00:45:52,730 --> 00:45:50,610
the course of eight hundred years of sea

1256
00:45:53,990 --> 00:45:52,740
songs that were their navigational way

1257
00:45:56,060 --> 00:45:54,000
of transmitting that knowledge from

1258
00:45:58,220 --> 00:45:56,070
generation to generation noted how

1259
00:46:00,290 --> 00:45:58,230
certain stars were changing the

1260
00:46:02,630 --> 00:46:00,300
personalities that were given to those

1261
00:46:03,980 --> 00:46:02,640
stars were noted in this change and they

1262
00:46:06,680 --> 00:46:03,990
followed them and then they noted that

1263
00:46:08,690 --> 00:46:06,690

they stabilized I mean that is a great

1264

00:46:11,300 --> 00:46:08,700

point and of course we are talking about

1265

00:46:13,340 --> 00:46:11,310

a massive massive scale it's really hard

1266

00:46:15,950 --> 00:46:13,350

to get your head around but we should

1267

00:46:20,240 --> 00:46:15,960

assume that all stars are moving in the

1268

00:46:21,380 --> 00:46:20,250

same way ours is right or not so we

1269

00:46:23,870 --> 00:46:21,390

should assume that they're all moving

1270

00:46:25,430 --> 00:46:23,880

let's not say way because it implies a

1271

00:46:28,280 --> 00:46:25,440

direction we don't know that they're all

1272

00:46:30,500 --> 00:46:28,290

moving in any way in any fashion close

1273

00:46:32,120 --> 00:46:30,510

to to the directions of any other stars

1274

00:46:34,250 --> 00:46:32,130

but we think that that's sort of the

1275

00:46:36,500 --> 00:46:34,260

case because if you look at the Milky

1276

00:46:39,920 --> 00:46:36,510

Way galaxy all of the stars seem to be

1277

00:46:42,530 --> 00:46:39,930

going in this big you know circle of

1278

00:46:43,910 --> 00:46:42,540

this big loop around what we think of is

1279

00:46:45,260 --> 00:46:43,920

more or less the center of the galaxy

1280

00:46:48,200 --> 00:46:45,270

where there's a whole lot more stars

1281

00:46:50,630 --> 00:46:48,210

that are moving a lot faster well it

1282

00:46:53,840 --> 00:46:50,640

does seem like spiral and rotation is

1283

00:46:55,400 --> 00:46:53,850

some fundamental basically technology if

1284

00:46:57,230 --> 00:46:55,410

you wanted to get into the Nazi Bell and

1285

00:47:00,350 --> 00:46:57,240

UFOs it just seems like there's a force

1286

00:47:02,270 --> 00:47:00,360

that is kind of left off the books and

1287

00:47:04,820 --> 00:47:02,280

physics that has some interesting

1288

00:47:06,980 --> 00:47:04,830

properties involving rotation and it

1289

00:47:09,710 --> 00:47:06,990

does seem to be kind of fundamental to

1290

00:47:11,000 --> 00:47:09,720

our structure so I see how it we could

1291

00:47:13,850 --> 00:47:11,010

be moving in that kind of a spiral

1292

00:47:16,010 --> 00:47:13,860

pattern and it's you know it goes back

1293

00:47:17,950 --> 00:47:16,020

to viktor schauberger and he was the one

1294

00:47:20,030 --> 00:47:17,960

that theoretically or supposedly

1295

00:47:21,470 --> 00:47:20,040

anecdotally came up with a breakthrough

1296

00:47:23,930 --> 00:47:21,480

that allowed him to do the implosion

1297

00:47:24,560 --> 00:47:23,940

engine from the Nazi bell and he based

1298

00:47:26,360 --> 00:47:24,570

it on

1299

00:47:29,390 --> 00:47:26,370

implosion science we've been close to

1300

00:47:31,580 --> 00:47:29,400

this before guy by the name of Keely in

1301

00:47:34,490 --> 00:47:31,590

the US and the 1800s built these

1302

00:47:36,200 --> 00:47:34,500

implosion devices not internal

1303

00:47:39,160 --> 00:47:36,210

combustion engines but internal

1304

00:47:41,210 --> 00:47:39,170

implosion engines and he was running

1305

00:47:43,460 --> 00:47:41,220

locomotives on them they were so large

1306

00:47:45,770 --> 00:47:43,470

and they were basically we wouldn't

1307

00:47:47,480 --> 00:47:45,780

think of them as zero energy devices but

1308

00:47:49,460 --> 00:47:47,490

there were very low input for very large

1309

00:47:51,020 --> 00:47:49,470

output devices and they were non

1310

00:47:53,270 --> 00:47:51,030

polluting and so on and of course they

1311

00:47:55,940 --> 00:47:53,280

were snatched up and on his death all of

1312

00:47:58,130 --> 00:47:55,950

those were purchased except for a couple

1313

00:47:59,630 --> 00:47:58,140

of the ones that were left out I think

1314

00:48:01,700 --> 00:47:59,640

some key elements were taken out of them

1315

00:48:03,110 --> 00:48:01,710

but they disappeared into the bowels of

1316

00:48:05,000 --> 00:48:03,120

the Smithsonian but if you call them

1317

00:48:07,310 --> 00:48:05,010

they've never heard of the check of

1318

00:48:10,340 --> 00:48:07,320

course we've heard that before right ha

1319

00:48:12,380 --> 00:48:10,350

ha so is it your contention that the

1320

00:48:15,410 --> 00:48:12,390

moon is the one body that is in an

1321

00:48:17,210 --> 00:48:15,420

actual true orbit around something no I

1322

00:48:19,250 --> 00:48:17,220

mean there's there we have stuff

1323

00:48:20,840 --> 00:48:19,260

orbiting us behind the Sun certainly

1324

00:48:22,130 --> 00:48:20,850

what's interesting about the moon is

1325

00:48:23,690 --> 00:48:22,140

that it's always self-correcting its

1326

00:48:25,370 --> 00:48:23,700

orbit right that's kind of whatever it

1327

00:48:27,200 --> 00:48:25,380

is it is correct it's always correcting

1328

00:48:30,500 --> 00:48:27,210

its orbit whether it's doing it or it's

1329

00:48:32,840 --> 00:48:30,510

being guided is a open to question yeah

1330

00:48:35,060 --> 00:48:32,850

that's exactly what I was getting at I

1331

00:48:36,440 --> 00:48:35,070

mean I've heard the moon is artificial

1332

00:48:38,690 --> 00:48:36,450

I've heard the moon is hollow hollow

1333

00:48:41,840 --> 00:48:38,700

seems a little bit easier to quantify

1334

00:48:43,490 --> 00:48:41,850

than artificial but I'm not so sure do

1335

00:48:46,160 --> 00:48:43,500

you think it's possibly more of an

1336

00:48:48,110 --> 00:48:46,170

ancient abandoned observation craft or

1337

00:48:50,060 --> 00:48:48,120

do you get any indication that it is

1338

00:48:51,680 --> 00:48:50,070

still active I guess this correction

1339

00:48:54,770 --> 00:48:51,690

would indicate some kind of activity

1340

00:48:56,210 --> 00:48:54,780

yeah it's ancient we know that the

1341

00:48:58,190 --> 00:48:56,220

debris in the surface of the Moon is

1342

00:49:00,380 --> 00:48:58,200

older than anything in our solar system

1343

00:49:04,850 --> 00:49:00,390

the likelihood is that the moon was

1344

00:49:06,830 --> 00:49:04,860

brought here we know it's active some

1345

00:49:10,040 --> 00:49:06,840

people on earth probably know by whom

1346

00:49:12,410 --> 00:49:10,050

and and with what but the rest of us are

1347

00:49:14,150 --> 00:49:12,420

just left with stuff going back to the

1348

00:49:15,830 --> 00:49:14,160

invention of the telescope and the

1349

00:49:20,210 --> 00:49:15,840

notations that we've seen since the late

1350

00:49:23,420 --> 00:49:20,220

1700s or 1800s early 1800s of moon

1351

00:49:25,010 --> 00:49:23,430

flashes and in ships across the moon and

1352

00:49:26,660 --> 00:49:25,020

all of this kind of thing so we've been

1353

00:49:29,390 --> 00:49:26,670

observing them for several hundred years

1354

00:49:31,160 --> 00:49:29,400

we know it's ongoing but nobody in

1355

00:49:32,960 --> 00:49:31,170

officialdom is willing to discuss it but

1356

00:49:35,420 --> 00:49:32,970

it's quite factual that the moon is

1357

00:49:37,310 --> 00:49:35,430

Hollow I would argue that you really

1358

00:49:38,450 --> 00:49:37,320

can't have anything that's going to be

1359

00:49:39,950 --> 00:49:38,460

Hollow

1360

00:49:41,960 --> 00:49:39,960

as large as the moon without it also

1361

00:49:44,210 --> 00:49:41,970

being artificial even if it was

1362

00:49:45,950 --> 00:49:44,220

partially hollowed out and then stuff

1363

00:49:48,829 --> 00:49:45,960

put into it however this one appears to

1364

00:49:51,079 --> 00:49:48,839

be quite observational II just crafted

1365

00:49:53,060 --> 00:49:51,089

out of you know some kind of sheet metal

1366

00:49:55,220 --> 00:49:53,070

or something and then it's just

1367

00:49:57,829 --> 00:49:55,230

accumulated a lot of debris on the top

1368

00:49:59,540 --> 00:49:57,839

of it ever since and you know the whole

1369

00:50:01,130 --> 00:49:59,550

idea of it ringing like a bell every

1370

00:50:03,530 --> 00:50:01,140

time we hit it with anything from down

1371

00:50:05,720 --> 00:50:03,540

here is very interesting and especially

1372

00:50:08,329 --> 00:50:05,730

since it took five and a half hours the

1373

00:50:10,670 --> 00:50:08,339

time they pop that little tiny bomb off

1374

00:50:12,560 --> 00:50:10,680

on it five and a half hours for it to

1375

00:50:14,510 --> 00:50:12,570

settle down and there were also

1376

00:50:16,190 --> 00:50:14,520

indications that just from the seismic

1377

00:50:18,800 --> 00:50:16,200

activity that was going on that you can

1378

00:50:21,410 --> 00:50:18,810

almost map out an internal tetrahedral

1379

00:50:23,150 --> 00:50:21,420

structure which curiously looks a lot

1380

00:50:25,910 --> 00:50:23,160

like the same kind of thing you see in

1381

00:50:28,220 --> 00:50:25,920

lapetus one of the moons with the most

1382

00:50:30,410 --> 00:50:28,230

strangest of what we can call orbit

1383

00:50:32,570 --> 00:50:30,420

because it is this weird swinging back

1384

00:50:34,730 --> 00:50:32,580

and forth looping over its own trail

1385

00:50:37,190 --> 00:50:34,740

while still keeping up with the rest of

1386

00:50:38,720 --> 00:50:37,200

the mass and it's not even really in

1387

00:50:40,820 --> 00:50:38,730

orbit it's a sort of weird figure 8

1388

00:50:42,470 --> 00:50:40,830

thing so there's all kinds of strange

1389

00:50:45,260 --> 00:50:42,480

stuff in our solar system and see this

1390

00:50:48,740 --> 00:50:45,270

is why at its core the ruler stuff is

1391

00:50:51,589 --> 00:50:48,750

all accurate ok and at its core maybe

1392

00:50:53,780 --> 00:50:51,599

even a third of what Corey Goode

1393

00:50:56,089 --> 00:50:53,790

mentioned is accurate all right but none

1394

00:50:58,640 --> 00:50:56,099

of it he experienced all of it he is

1395

00:51:00,890 --> 00:50:58,650

replaying out of what he's been told to

1396

00:51:03,050 --> 00:51:00,900

say it's not his own experience he's

1397

00:51:05,240 --> 00:51:03,060

just built a narrative around stuff that

1398

00:51:07,130 --> 00:51:05,250

is quite factual and the factual stuff

1399

00:51:09,920 --> 00:51:07,140

is that you know our military knows

1400

00:51:12,260 --> 00:51:09,930

things that it's not telling us and if

1401
00:51:14,270 --> 00:51:12,270
they are our military is not out there

1402
00:51:16,670 --> 00:51:14,280
flying these little triangular things

1403
00:51:18,380 --> 00:51:16,680
that I see with the goggles then someone

1404
00:51:19,730 --> 00:51:18,390
should tell our military we're in a real

1405
00:51:20,930 --> 00:51:19,740
world of hurt because somebody is up

1406
00:51:23,030 --> 00:51:20,940
there doing stuff that we don't know

1407
00:51:25,339 --> 00:51:23,040
about and so it's one of those deals if

1408
00:51:27,740 --> 00:51:25,349
they're either can plead ignorance or

1409
00:51:29,599 --> 00:51:27,750
incompetence let us please hope that

1410
00:51:31,310 --> 00:51:29,609
they're going to plead ignorance and

1411
00:51:33,380 --> 00:51:31,320
they really do know what's going on or

1412
00:51:35,960 --> 00:51:33,390
in fact are causing it because there's

1413
00:51:37,520 --> 00:51:35,970

so much activity going on so a lot of

1414

00:51:40,250 --> 00:51:37,530

this stuff is accurate there's a secret

1415

00:51:41,930 --> 00:51:40,260

space program I see the thing and the

1416

00:51:43,460 --> 00:51:41,940

one talks about it does it secret and

1417

00:51:45,109 --> 00:51:43,470

indeed we may even have all these

1418

00:51:47,300 --> 00:51:45,119

strange things like you know giant

1419

00:51:49,760 --> 00:51:47,310

cavernous rings that people used to

1420

00:51:51,860 --> 00:51:49,770

inhabit out around the planets all of

1421

00:51:53,720 --> 00:51:51,870

that stuff may be quite accurate but

1422

00:51:55,820 --> 00:51:53,730

the way in which it was fed back caused

1423

00:51:57,830 --> 00:51:55,830

me all kinds of problems and the fact

1424

00:52:00,620 --> 00:51:57,840

that they didn't acknowledge that they

1425

00:52:02,870 --> 00:52:00,630

were spinning a narrative out of you

1426
00:52:05,600 --> 00:52:02,880
know the various flotsam and jetsam that

1427
00:52:07,460 --> 00:52:05,610
littered the woowoo world mm-hmm yeah

1428
00:52:09,350 --> 00:52:07,470
man I definitely think there's a secret

1429
00:52:11,930 --> 00:52:09,360
space program out there I've just heard

1430
00:52:13,370 --> 00:52:11,940
too much I mean ever since gary mckinnon

1431
00:52:16,010 --> 00:52:13,380
it's been pretty obvious that they've

1432
00:52:18,440 --> 00:52:16,020
got things going on militarily related

1433
00:52:20,320 --> 00:52:18,450
to space that are far beyond what they

1434
00:52:23,060 --> 00:52:20,330
tell us about and that was a while ago

1435
00:52:24,710 --> 00:52:23,070
correct and in the what really irritates

1436
00:52:26,540 --> 00:52:24,720
me more than anything I think is the

1437
00:52:28,580 --> 00:52:26,550
lack of knowledge I mean I I don't know

1438
00:52:30,710 --> 00:52:28,590

if I would sleep better at night or not

1439

00:52:32,060 --> 00:52:30,720

knowing what these guys know you know I

1440

00:52:33,500 --> 00:52:32,070

mean if I knew there were giant hairy

1441

00:52:35,420 --> 00:52:33,510

spiders out there that are flying

1442

00:52:37,040 --> 00:52:35,430

spaceships trying to get me I don't know

1443

00:52:39,590 --> 00:52:37,050

if I really need to know that at this

1444

00:52:41,570 --> 00:52:39,600

point right but at the same time it's

1445

00:52:43,760 --> 00:52:41,580

irritating that somebody knows it and I

1446

00:52:45,440 --> 00:52:43,770

don't and if there are these guys well I

1447

00:52:47,390 --> 00:52:45,450

want to think about ways to maybe get

1448

00:52:48,980 --> 00:52:47,400

back at them that sort of thing so I

1449

00:52:50,570 --> 00:52:48,990

want in other words you know it's my

1450

00:52:52,970 --> 00:52:50,580

planet too and I want to involve myself

1451

00:52:54,260 --> 00:52:52,980

in it and it's also my planet's

1452

00:52:56,090 --> 00:52:54,270

atmosphere and if you guys are doing

1453

00:52:57,920 --> 00:52:56,100

things in it then I've got a right to

1454

00:53:00,890 --> 00:52:57,930

also participate in this at whatever

1455

00:53:03,110 --> 00:53:00,900

level I can so I find it very irritating

1456

00:53:04,820 --> 00:53:03,120

now on another practical level I see

1457

00:53:07,670 --> 00:53:04,830

that the marketing effort and everything

1458

00:53:09,080 --> 00:53:07,680

that's been put into this is symptomatic

1459

00:53:10,370 --> 00:53:09,090

of a lot of the stuff that's going on in

1460

00:53:12,170 --> 00:53:10,380

the financial system the political

1461

00:53:14,180 --> 00:53:12,180

system the social order at a lot of

1462

00:53:16,280 --> 00:53:14,190

different ways and the symptomatic

1463

00:53:17,870 --> 00:53:16,290

nature of it gives me a great deal of

1464

00:53:19,780 --> 00:53:17,880

hope because I know when it is

1465

00:53:23,060 --> 00:53:19,790

expressing itself in these other areas

1466

00:53:25,910 --> 00:53:23,070

financials political social etc it is

1467

00:53:29,150 --> 00:53:25,920

again appointing to a huge inflection

1468

00:53:31,790 --> 00:53:29,160

point in a major change currently under

1469

00:53:34,880 --> 00:53:31,800

way so the mere fact that someone felt

1470

00:53:37,520 --> 00:53:34,890

that they had to promote the marketing

1471

00:53:40,010 --> 00:53:37,530

group that was behind Cory good and get

1472

00:53:42,020 --> 00:53:40,020

them to do this at this time means that

1473

00:53:44,060 --> 00:53:42,030

they're very much afraid of what's

1474

00:53:47,000 --> 00:53:44,070

actually going to be coming out and they

1475

00:53:49,820 --> 00:53:47,010

were trying to muddy and the waters and

1476

00:53:52,520 --> 00:53:49,830

control the ebb and flow before that

1477

00:53:54,350 --> 00:53:52,530

occurred so this was a very good sign

1478

00:53:55,990 --> 00:53:54,360

once I tumbled to what's going on the

1479

00:53:58,880 --> 00:53:56,000

fact that the marketing group was

1480

00:54:01,640 --> 00:53:58,890

unsuccessful in selling their full

1481

00:54:03,530 --> 00:54:01,650

complete vision is also very good sign

1482

00:54:05,360 --> 00:54:03,540

and there are certain signs within the

1483

00:54:08,120 --> 00:54:05,370

language they've been using that are in

1484

00:54:09,980 --> 00:54:08,130

of people under a great deal of stress

1485

00:54:12,020 --> 00:54:09,990

and I'm talking about you know people

1486

00:54:14,240 --> 00:54:12,030

that that are under so much stress just

1487

00:54:15,620 --> 00:54:14,250

from their own internalization of the

1488

00:54:17,630 --> 00:54:15,630

pressures that are on them that these

1489

00:54:20,690 --> 00:54:17,640

people may literally keel over dead of a

1490

00:54:22,340 --> 00:54:20,700

heart attack at any given instant of

1491

00:54:24,140 --> 00:54:22,350

additional stress being provided they're

1492

00:54:25,850 --> 00:54:24,150

at that level of attention seeing the

1493

00:54:28,010 --> 00:54:25,860

language coming out so I think there's

1494

00:54:30,170 --> 00:54:28,020

something pressuring them on both sides

1495

00:54:31,760 --> 00:54:30,180

not only to break down of the narrative

1496

00:54:33,650 --> 00:54:31,770

and their control of it at the greater

1497

00:54:35,360 --> 00:54:33,660

world but also the people on the other

1498

00:54:37,070 --> 00:54:35,370

side that are you know provided the

1499

00:54:39,410 --> 00:54:37,080

money and the impetus that are just not

1500

00:54:41,390 --> 00:54:39,420

happy with the situation and that the

1501

00:54:43,760 --> 00:54:41,400

situation was driving them I think is

1502

00:54:45,530 --> 00:54:43,770

some form of a disclosure whether we

1503

00:54:49,070 --> 00:54:45,540

will like it afterwards is going to be

1504

00:54:51,260 --> 00:54:49,080

anybody's kiss those are great points in

1505

00:54:53,960 --> 00:54:51,270

an excellent breakdown because that does

1506

00:54:55,580 --> 00:54:53,970

indicate there is some value to studying

1507

00:54:57,230 --> 00:54:55,590

that material because obviously they put

1508

00:54:58,940 --> 00:54:57,240

it out for a reason to steer the

1509

00:55:02,270 --> 00:54:58,950

conversation to kind of get ahead of

1510

00:55:04,400 --> 00:55:02,280

something and that is the exciting part

1511

00:55:07,040 --> 00:55:04,410

of it well it got to be careful though

1512

00:55:09,140 --> 00:55:07,050

you know yes it's interesting I take it

1513

00:55:10,880 --> 00:55:09,150

as clues I'm not going to study any of

1514

00:55:13,070 --> 00:55:10,890

their details because I don't care about

1515

00:55:14,720 --> 00:55:13,080

the warped little twisted way in which

1516

00:55:16,250 --> 00:55:14,730

they're stitching it together right all

1517

00:55:18,200 --> 00:55:16,260

I need to know is that I can see the

1518

00:55:20,030 --> 00:55:18,210

stitchery and I can see the hand behind

1519

00:55:21,950 --> 00:55:20,040

it and then I can start thinking about

1520

00:55:24,200 --> 00:55:21,960

that hand and why it's doing that

1521

00:55:25,640 --> 00:55:24,210

and those I don't get involved with the

1522

00:55:26,810 --> 00:55:25,650

details because they will only lead you

1523

00:55:29,780 --> 00:55:26,820

so far and no further

1524

00:55:31,010 --> 00:55:29,790

amen I agree with you there we should we

1525

00:55:32,870 --> 00:55:31,020

have talked about a hell of a lot of

1526

00:55:33,890 --> 00:55:32,880

stuff as we start to wind down here is

1527

00:55:36,470 --> 00:55:33,900

there anything else you see in the

1528

00:55:37,910 --> 00:55:36,480

language of the web bot that is picking

1529

00:55:41,390 --> 00:55:37,920

up there might be worth a mention before

1530

00:55:45,920 --> 00:55:41,400

we go there is and it's really a caution

1531

00:55:47,750 --> 00:55:45,930

okay we're in very exciting times we're

1532

00:55:50,150 --> 00:55:47,760

at one of those key inflection points in

1533

00:55:52,940 --> 00:55:50,160

history where we have an old system

1534

00:55:54,710 --> 00:55:52,950

dying and a new one being born as a

1535

00:55:56,330 --> 00:55:54,720

result of that particular point in

1536

00:55:58,940 --> 00:55:56,340

history there will be an opportunity to

1537

00:56:01,040 --> 00:55:58,950

create great fortunes because things

1538

00:56:03,290 --> 00:56:01,050

will be in dynamic play as new

1539

00:56:05,600 --> 00:56:03,300

industries are born in old ones die and

1540

00:56:07,190 --> 00:56:05,610

will actually be allowed to die but you

1541

00:56:09,860 --> 00:56:07,200

know they have been able to declare

1542

00:56:11,210 --> 00:56:09,870

bankruptcy unfold for decades because of

1543

00:56:12,260 --> 00:56:11,220

the government supporting them and all

1544

00:56:14,240 --> 00:56:12,270

of this kind of thing all that's going

1545

00:56:15,530 --> 00:56:14,250

to go away so the whole social order is

1546

00:56:16,820 --> 00:56:15,540

going to change and everything in the

1547

00:56:18,540 --> 00:56:16,830

infrastructure will change over these

1548

00:56:19,860 --> 00:56:18,550

next 15 years

1549

00:56:21,300 --> 00:56:19,870

I hope that we move into the George

1550

00:56:24,090 --> 00:56:21,310

Jetson kind of world and that's where

1551
00:56:25,950 --> 00:56:24,100
I'm placing my bets and people that are

1552
00:56:27,960 --> 00:56:25,960
also thinking that may want to look into

1553
00:56:30,660 --> 00:56:27,970
crypto currencies and so forth but be

1554
00:56:33,000 --> 00:56:30,670
advised that in this current state

1555
00:56:35,520 --> 00:56:33,010
there's also there's great opportunity

1556
00:56:37,260 --> 00:56:35,530
but there's also great risk potential so

1557
00:56:39,360 --> 00:56:37,270
you've got to be smart about this and do

1558
00:56:41,340 --> 00:56:39,370
your research and be a dolt don't blame

1559
00:56:44,670 --> 00:56:41,350
anybody else for screwing up from this

1560
00:56:46,620 --> 00:56:44,680
point on cheers to that man

1561
00:56:48,750 --> 00:56:46,630
well cliff I could bounce questions off

1562
00:56:50,850 --> 00:56:48,760
you all day I really enjoy your videos I

1563
00:56:52,230 --> 00:56:50,860

think the web bot project is fascinating

1564

00:56:54,360 --> 00:56:52,240

I think your perspective on a lot of

1565

00:56:55,680 --> 00:56:54,370

stuff is enlightening really glad I

1566

00:56:57,210 --> 00:56:55,690

could get you here hopefully we can do

1567

00:56:59,550 --> 00:56:57,220

it again in the future before we really

1568

00:57:00,840 --> 00:56:59,560

go remind the people where to follow up

1569

00:57:02,370 --> 00:57:00,850

on what you're doing and where they can

1570

00:57:05,160 --> 00:57:02,380

get the reports you put out or anything

1571

00:57:06,960 --> 00:57:05,170

else you might want them to know sure

1572

00:57:10,020 --> 00:57:06,970

you can go to half past human comm and

1573

00:57:13,380 --> 00:57:10,030

pick up our reports I ran into a wrist

1574

00:57:15,000 --> 00:57:13,390

injury earlier before summer and so I'm

1575

00:57:17,310 --> 00:57:15,010

only doing the crypto reports at the

1576
00:57:18,750 --> 00:57:17,320
moment trying to let that heal and also

1577
00:57:21,450 --> 00:57:18,760
that's where all the action is and I

1578
00:57:23,340 --> 00:57:21,460
couldn't do both and and put a lot of

1579
00:57:25,320 --> 00:57:23,350
effort into the crypto which is required

1580
00:57:27,030 --> 00:57:25,330
I'll be doing that for at least the next

1581
00:57:29,460 --> 00:57:27,040
few months as we get into this period of

1582
00:57:32,100 --> 00:57:29,470
time so half past human calm and then on

1583
00:57:34,230 --> 00:57:32,110
cliff high channel on YouTube boom right

1584
00:57:35,970 --> 00:57:34,240
on well thanks again man it has been a

1585
00:57:38,340 --> 00:57:35,980
real pleasure keep doing what you do and

1586
00:57:41,940 --> 00:57:38,350
take care out there okay thank you much

1587
00:57:44,790 --> 00:57:41,950
you got it and boom goes the dynamite

1588
00:57:46,290 --> 00:57:44,800

people cliff hi so so glad I could

1589

00:57:48,180 --> 00:57:46,300

finally get cliff on I've been

1590

00:57:50,430 --> 00:57:48,190

interested in his web by predictions for

1591

00:57:52,260 --> 00:57:50,440

a long time I think predictive

1592

00:57:54,330 --> 00:57:52,270

linguistics is a really interesting

1593

00:57:56,790 --> 00:57:54,340

concept nobody said it was going to be

1594

00:57:58,950 --> 00:57:56,800

an exact science but I think it is just

1595

00:58:01,680 --> 00:57:58,960

another item to add to your basket of

1596

00:58:03,390 --> 00:58:01,690

things worth considering and I'm really

1597

00:58:05,400 --> 00:58:03,400

glad we got to spend some solid time on

1598

00:58:07,230 --> 00:58:05,410

Antarctica and get a little deeper on

1599

00:58:09,570 --> 00:58:07,240

that than we really been able to lately

1600

00:58:11,880 --> 00:58:09,580

I don't think he mentioned it here but

1601
00:58:14,190 --> 00:58:11,890
I've also heard cliff say the areas that

1602
00:58:16,650 --> 00:58:14,200
the Nazis supposedly claimed and calls

1603
00:58:18,720 --> 00:58:16,660
new schwaben land these areas are

1604
00:58:21,900 --> 00:58:18,730
airbrushed out on Google Earth when you

1605
00:58:24,600 --> 00:58:21,910
really get down into it and that's

1606
00:58:26,640 --> 00:58:24,610
pretty interesting I'm also glad we got

1607
00:58:28,830 --> 00:58:26,650
to talk about this spiral model of our

1608
00:58:31,080 --> 00:58:28,840
solar system I've seen that gift going

1609
00:58:32,100 --> 00:58:31,090
around a whole lot and a part of me

1610
00:58:34,650 --> 00:58:32,110
thinks that if you're going to go

1611
00:58:36,270 --> 00:58:34,660
with an electric universe just a little

1612
00:58:38,130 --> 00:58:36,280
bit different than normal kind of

1613
00:58:40,200 --> 00:58:38,140

paradigm that it does make sense that

1614

00:58:42,030 --> 00:58:40,210

the Sun would be moving along with

1615

00:58:44,640 --> 00:58:42,040

everything else that seems to be moving

1616

00:58:47,070 --> 00:58:44,650

rather than sitting put but I still

1617

00:58:49,890 --> 00:58:47,080

wonder about the way things line up from

1618

00:58:52,770 --> 00:58:49,900

our perspective like if all stars are in

1619

00:58:55,110 --> 00:58:52,780

motion the Milky Way is in motion we got

1620

00:58:58,890 --> 00:58:55,120

these stars moving and spiral patterns

1621

00:59:01,050 --> 00:58:58,900

all along the x y&z axis of space how

1622

00:59:03,390 --> 00:59:01,060

could something like carahunge the

1623

00:59:05,340 --> 00:59:03,400

armenian stonehenge how could it have

1624

00:59:08,070 --> 00:59:05,350

these ancient megalithic rocks with

1625

00:59:10,650 --> 00:59:08,080

holes carved perfectly to align with

1626
00:59:13,440 --> 00:59:10,660
Orion's belt on the armenian new year

1627
00:59:16,920 --> 00:59:13,450
how would carahunge maintain its

1628
00:59:19,170 --> 00:59:16,930
alignment I don't know but we do have to

1629
00:59:20,790 --> 00:59:19,180
deal with the fact that it does maybe

1630
00:59:22,770 --> 00:59:20,800
eight to twelve thousand years of

1631
00:59:25,440 --> 00:59:22,780
nothing in star travel time but it is

1632
00:59:28,350 --> 00:59:25,450
almost half a wobble that's not nothing

1633
00:59:30,000 --> 00:59:28,360
I don't know I get lost going places

1634
00:59:32,640 --> 00:59:30,010
I've been to twice before I'm supposed

1635
00:59:34,590 --> 00:59:32,650
to figure out this kind of [h__\h] it is

1636
00:59:37,470 --> 00:59:34,600
fascinating though to hear alternative

1637
00:59:38,880 --> 00:59:37,480
ideas on these kind of space things and

1638
00:59:40,950 --> 00:59:38,890

I thought cliff broke it down really

1639

00:59:42,600 --> 00:59:40,960

well and there's a lot of things in his

1640

00:59:44,700 --> 00:59:42,610

rolodex that we didn't even get to I

1641

00:59:47,070 --> 00:59:44,710

would love to have him back if you want

1642

00:59:48,900 --> 00:59:47,080

him to come back let's get him some good

1643

00:59:51,450 --> 00:59:48,910

feedback so he does know you're

1644

00:59:53,730 --> 00:59:51,460

listening let him know cliff does a lot

1645

00:59:55,140 --> 00:59:53,740

of shows the only way to separate which

1646

00:59:57,540 --> 00:59:55,150

ones are worth your time and which ones

1647

01:00:00,360 --> 00:59:57,550

aren't are the people who contact you

1648

01:00:03,440 --> 01:00:00,370

and say I heard you on X Y or Z go back

1649

01:00:05,970 --> 01:00:03,450

so let's throw them in the rotation I

1650

01:00:08,040 --> 01:00:05,980

also mentioned our mania and I need to

1651
01:00:10,320 --> 01:00:08,050
get another installment of that Graham

1652
01:00:12,990 --> 01:00:10,330
Hancock tour video out it's insane how

1653
01:00:16,110 --> 01:00:13,000
long has taken me the next one even has

1654
01:00:18,450 --> 01:00:16,120
the Buried pyramid but man time just

1655
01:00:19,890 --> 01:00:18,460
gets away from me month to month that's

1656
01:00:23,810 --> 01:00:19,900
how I try to figure out what I'm doing

1657
01:00:26,130 --> 01:00:23,820
is in these month-to-month chunks and

1658
01:00:27,630 --> 01:00:26,140
really I just am like okay you got to

1659
01:00:29,910 --> 01:00:27,640
keep up with emails and tech support

1660
01:00:31,890 --> 01:00:29,920
customer service four plus people and

1661
01:00:34,890 --> 01:00:31,900
four t-shirts you got to put out five

1662
01:00:37,590 --> 01:00:34,900
good shows don't eat like [h__\h] and do

1663
01:00:40,800 --> 01:00:37,600

one extra thing and it's always

1664

01:00:43,770 --> 01:00:40,810

something else like first we transition

1665

01:00:45,870 --> 01:00:43,780

to a new top quality high end forum that

1666

01:00:48,630 --> 01:00:45,880

took some time and then I don't

1667

01:00:51,270 --> 01:00:48,640

oh I think I did the hot ones challenge

1668

01:00:53,340 --> 01:00:51,280

Thane and edited that video then I did a

1669

01:00:55,110 --> 01:00:53,350

series of guest spots and a couple of

1670

01:00:57,810 --> 01:00:55,120

tinfoil hats tonight at another video

1671

01:01:00,600 --> 01:00:57,820

where I went on a Laurel Canyon tour

1672

01:01:02,600 --> 01:01:00,610

with Mark Devlin followed by a month

1673

01:01:05,640 --> 01:01:02,610

where I did an extra show with the

1674

01:01:07,710 --> 01:01:05,650

episode with Bruce Lipton and I also

1675

01:01:09,660 --> 01:01:07,720

just made a server move for all three

1676

01:01:11,640 --> 01:01:09,670

web sites which is great to them saving

1677

01:01:13,530 --> 01:01:11,650

a lot of money but it also wasn't

1678

01:01:16,140 --> 01:01:13,540

completely smooth and if you're having

1679

01:01:18,990 --> 01:01:16,150

problems with the THC iPhone app by the

1680

01:01:21,900 --> 01:01:19,000

way try to refresh it or clear the cache

1681

01:01:25,020 --> 01:01:21,910

or delete it and redownload it whatever

1682

01:01:27,960 --> 01:01:25,030

you can to reset it because the server

1683

01:01:29,790 --> 01:01:27,970

move kind of disrupted the linkage for

1684

01:01:32,220 --> 01:01:29,800

some people if you know what I'm saying

1685

01:01:35,040 --> 01:01:32,230

so minor thing but I've answered like

1686

01:01:37,380 --> 01:01:35,050

two dozen emails about it and I think we

1687

01:01:39,030 --> 01:01:37,390

are going to have the developer shore up

1688

01:01:41,250 --> 01:01:39,040

some issues with the app soon when you

1689

01:01:43,800 --> 01:01:41,260

get some time and that's a beautiful

1690

01:01:45,660 --> 01:01:43,810

thing and then I guess most recently I

1691

01:01:47,730 --> 01:01:45,670

went to this science of consciousness

1692

01:01:49,350 --> 01:01:47,740

conference and I'm trying to put

1693

01:01:52,140 --> 01:01:49,360

something together for you this weekend

1694

01:01:54,570 --> 01:01:52,150

I also typed up a lengthy description of

1695

01:01:57,030 --> 01:01:54,580

my recent past life regression session

1696

01:01:58,950 --> 01:01:57,040

and scenes I was shown and that's on the

1697

01:02:02,190 --> 01:01:58,960

wild card forum if you have any interest

1698

01:02:04,470 --> 01:02:02,200

in hearing about it it was too long of a

1699

01:02:06,900 --> 01:02:04,480

thing to talk about in the wrap-up of a

1700

01:02:09,270 --> 01:02:06,910

podcast but too short to record its own

1701

01:02:12,060 --> 01:02:09,280

thing about so I said screw it this is

1702

01:02:15,690 --> 01:02:12,070

what a forms for and now I'm also in the

1703

01:02:18,000 --> 01:02:15,700

process of redoing the basic THC website

1704

01:02:20,370 --> 01:02:18,010

I just can't help myself I have to

1705

01:02:23,310 --> 01:02:20,380

tinker but I got some data that

1706

01:02:26,040 --> 01:02:23,320

surprised me that like 70% of all the

1707

01:02:28,080 --> 01:02:26,050

website visitors are on mobile which

1708

01:02:30,390 --> 01:02:28,090

makes sense I mean that's how I do most

1709

01:02:32,550 --> 01:02:30,400

of the things I do but now I'm redoing

1710

01:02:35,070 --> 01:02:32,560

the website to make it look as sick as I

1711

01:02:37,140 --> 01:02:35,080

can on a cell phone because I want to

1712

01:02:40,110 --> 01:02:37,150

stay current I want to have one of these

1713

01:02:42,750 --> 01:02:40,120

outdated websites not a good look for a

1714

01:02:45,000 --> 01:02:42,760

conspiracy show so I'm redoing that

1715

01:02:48,390 --> 01:02:45,010

website and I think it looks pretty damn

1716

01:02:50,400 --> 01:02:48,400

good already the core of it does like if

1717

01:02:52,830 --> 01:02:50,410

you pull up the higher side chats calm

1718

01:02:54,690 --> 01:02:52,840

in your mobile browser you'll see a

1719

01:02:56,190 --> 01:02:54,700

simple description of the show that I

1720

01:02:59,420 --> 01:02:56,200

think is straightened to the point and

1721

01:03:03,559 --> 01:02:59,430

then you see a link for plus and a play

1722

01:03:06,380 --> 01:03:03,569

that fits right on your screen and it

1723

01:03:08,589 --> 01:03:06,390

plays the last 10 episodes in slide so

1724

01:03:10,519 --> 01:03:08,599

unless you're really really far behind

1725

01:03:12,890 --> 01:03:10,529

everything you need is going to be right

1726

01:03:15,260 --> 01:03:12,900

there and if you just subscribe to the

1727

01:03:17,480 --> 01:03:15,270

feed on some podcast app then you never

1728

01:03:19,190 --> 01:03:17,490

go to the site and I guess that but I

1729

01:03:21,680 --> 01:03:19,200

think this is the real upgrade in terms

1730

01:03:24,410 --> 01:03:21,690

of looking slick and modern I'm going to

1731

01:03:27,380 --> 01:03:24,420

flush out the rest and then next month

1732

01:03:30,170 --> 01:03:27,390

I'm getting married and then our mania

1733

01:03:32,809 --> 01:03:30,180

video chapters 2 and 3 we're just going

1734

01:03:34,910 --> 01:03:32,819

to knock it out come on Jesus this

1735

01:03:36,710 --> 01:03:34,920

really got away from me here but I do

1736

01:03:39,470 --> 01:03:36,720

like to touch base with you guys

1737

01:03:41,870 --> 01:03:39,480

sometimes just about what I try to do to

1738

01:03:43,789 --> 01:03:41,880

keep the ship on course I got nobody to

1739

01:03:46,910 --> 01:03:43,799

talk to about so I have no co-workers

1740

01:03:48,799 --> 01:03:46,920

but it also is just a decent list of the

1741

01:03:50,900 --> 01:03:48,809

extra things if you've missed any of

1742

01:03:54,680 --> 01:03:50,910

them the mark Devlin tour was pretty

1743

01:03:55,430 --> 01:03:54,690

cool the hot ones video is torture but

1744

01:03:58,579 --> 01:03:55,440

what can I say

1745

01:04:01,910 --> 01:03:58,589

cliff hi he knows a lot about a lot and

1746

01:04:04,160 --> 01:04:01,920

it was a real pleasure as any regular

1747

01:04:06,289 --> 01:04:04,170

listener knows we do that subscribe to

1748

01:04:09,019 --> 01:04:06,299

hear the extra our model 5 dollars a

1749

01:04:11,630 --> 01:04:09,029

month 5 shows a month plus occasional

1750

01:04:14,450 --> 01:04:11,640

extra stuff and lifetime access to the

1751

01:04:16,670 --> 01:04:14,460

forums a nice and simple model that

1752

01:04:18,440 --> 01:04:16,680

doesn't really rely on AdSense or

1753

01:04:20,990 --> 01:04:18,450

patreon but is a little more under my

1754

01:04:23,750 --> 01:04:21,000

control which i think is a godsend in

1755

01:04:25,579 --> 01:04:23,760

these troubling times and the Plus show

1756

01:04:29,059 --> 01:04:25,589

today we talked about the Mandela effect

1757

01:04:32,000 --> 01:04:29,069

and the prospect of CERN and deep state

1758

01:04:34,880 --> 01:04:32,010

time memory manipulation projects in

1759

01:04:37,160 --> 01:04:34,890

action quantum computers the likelihood

1760

01:04:39,589 --> 01:04:37,170

of exposing those cannibalistic blood

1761

01:04:41,720 --> 01:04:39,599

siphoning child abusing aspects of the

1762

01:04:44,299 --> 01:04:41,730

elite and the possibility of using any

1763

01:04:47,510 --> 01:04:44,309

and all types of disclosure to keep

1764

01:04:49,339 --> 01:04:47,520

those last few cards off the table it

1765

01:04:52,400 --> 01:04:49,349

seems like we could be getting into an

1766

01:04:54,109 --> 01:04:52,410

era of very interesting cat-and-mouse

1767

01:04:56,630 --> 01:04:54,119

with some of these things we've been

1768

01:04:59,480 --> 01:04:56,640

speculating about for a long time but we

1769

01:05:01,370 --> 01:04:59,490

also talked about the four categories of

1770

01:05:03,470 --> 01:05:01,380

alien races out there and cliffs

1771

01:05:05,779 --> 01:05:03,480

thoughts on Martin Armstrong and his

1772

01:05:08,539 --> 01:05:05,789

Socrates programs economic models

1773

01:05:13,010 --> 01:05:08,549

compared to his own both are predicting

1774

01:05:16,849 --> 01:05:13,020

a steady and consistent decline in the

1775

01:05:19,310 --> 01:05:16,859

Western world so we'll see and we got

1776

01:05:21,770 --> 01:05:19,320

into some tips and tricks for navigating

1777

01:05:22,820 --> 01:05:21,780

the rough economic road ahead how to get

1778

01:05:25,250 --> 01:05:22,830

creative with it

1779

01:05:27,770 --> 01:05:25,260

internet censorship and that alt media

1780

01:05:29,960 --> 01:05:27,780

crackdown and the AdSense undercut that

1781

01:05:33,680 --> 01:05:29,970

so many people have been talking about a

1782

01:05:36,349 --> 01:05:33,690

lot of THC guests recently too so all

1783

01:05:39,349 --> 01:05:36,359

good stuff the higher side chats plus

1784

01:05:43,130 --> 01:05:39,359

calm as for what's coming down the pipe

1785

01:05:45,980 --> 01:05:43,140

pike whatever I think it's a month of

1786

01:05:49,250 --> 01:05:45,990

pretty heavy woo as cliff would say not

1787

01:05:53,120 --> 01:05:49,260

all not all whoo but we are going back

1788

01:05:55,880 --> 01:05:53,130

into the hard woo territory for a lot of

1789

01:05:57,920 --> 01:05:55,890

the month of June so be ready and I'll

1790

01:05:59,390 --> 01:05:57,930

see you then friends I've got to wrap

1791

01:06:01,280 --> 01:05:59,400

this thing up holy hell

1792

01:06:05,000 --> 01:06:01,290

Bitcoin by the way I just saw it hit

1793

01:06:08,990 --> 01:06:05,010

three thousand a coin can't believe that

1794

01:06:09,890 --> 01:06:09,000

but I am really really loving it alright

1795

01:06:12,320 --> 01:06:09,900

I've done my part

1796

01:06:14,420 --> 01:06:12,330

your move psychic leakers Antarctic

1797

01:06:20,200 --> 01:06:14,430

secret keepers and architects of the

1798

01:06:30,430 --> 01:06:25,790

they built a little Empire out of some

1799

01:06:36,349 --> 01:06:30,440

crazy garbage called the blood only

1800

01:06:40,820 --> 01:06:36,359

exploited working class but they've all

1801
01:06:46,130 --> 01:06:40,830
become a shining now we're calling them

1802
01:06:52,700 --> 01:06:46,140
your highness and the world scream take

1803
01:06:57,190 --> 01:06:52,710
me PHP they destroyed the ones the

1804
01:07:01,049 --> 01:06:57,200
friendship and respect between the only

1805
01:07:07,979 --> 01:07:01,059
people love put even love

1806
01:07:13,019 --> 01:07:07,989
Mei now they love and plead the fortune

1807
01:07:49,890 --> 01:07:13,029
of the same ones that they torture and a

1808
01:07:55,039 --> 01:07:49,900
world scream eh the only one who they

1809
01:08:00,349 --> 01:07:55,049
built a little Empire out of some crazy

1810
01:08:06,359 --> 01:08:00,359
garbage called the blood of imploded

1811
01:08:10,109 --> 01:08:06,369
working-class but babe overcome her

1812
01:08:20,800 --> 01:08:10,119
shyness now we're calling Rama your
