[Music]

2  
00:00:10,970 --> 00:00:07,440

the place roughing masters almost surely

3  
00:00:13,820 --> 00:00:10,980

have a plan this clearly maybe something

4  
00:00:17,320 --> 00:00:13,830

there beyond the realm of man and two

5  
00:00:20,510 --> 00:00:17,330

already tested every lap goes just you

6  
00:00:23,800 --> 00:00:20,520

talk more you think you know the less

7  
00:00:28,939 --> 00:00:23,810

you really do that's true dr. Zaius

8  
00:00:32,010 --> 00:00:28,949

where would we be without each cuz we

9  
00:00:34,750 --> 00:00:32,020

know that scientist

10  
00:00:43,330 --> 00:00:34,760

[Music]

11  
00:00:48,380 --> 00:00:46,160

all right higher side Cheddar's anyone

12  
00:00:50,389 --> 00:00:48,390

who's been a fan of conspiracy lore has

13  
00:00:52,549 --> 00:00:50,399

seen quite a few explosive stories over

14

00:00:54,170 --> 00:00:52,559

the years from deep state sagas like the

15

00:00:56,420 --> 00:00:54,180

Philadelphia Experiment and Montauk

16

00:00:58,549 --> 00:00:56,430

Project to the Roswell crash an

17

00:01:00,170 --> 00:00:58,559

operation Highjump and it's hard to know

18

00:01:02,360 --> 00:01:00,180

exactly what the truth lies in these

19

00:01:04,040 --> 00:01:02,370

tales but it's obvious that there's a

20

00:01:06,200 --> 00:01:04,050

lot going on behind the scenes and we

21

00:01:07,700 --> 00:01:06,210

are stuck grasping at a few straws that

22

00:01:10,609 --> 00:01:07,710

have wailed loose and the nefarious

23

00:01:12,170 --> 00:01:10,619

elites nearly ironclad quarantine well I

24

00:01:14,120 --> 00:01:12,180

hope you're hungry for people because

25

00:01:16,820 --> 00:01:14,130

today we're taking a big hearty bowl of

26

00:01:19,130 --> 00:01:16,830

that oh so good conspiracy soup with

27

00:01:21,200 --> 00:01:19,140

generous portions of both education and

28

00:01:22,400 --> 00:01:21,210

speculation cooked up by today's guest

29

00:01:24,410 --> 00:01:22,410

Tim Schwartz

30

00:01:27,020 --> 00:01:24,420

Tim is an Emmy award-winning television

31

00:01:29,330 --> 00:01:27,030

producer videographer and the author or

32

00:01:31,760 --> 00:01:29,340

co-author of many many books with titles

33

00:01:33,830 --> 00:01:31,770

like the lost journals of Nikola Tesla

34

00:01:36,770 --> 00:01:33,840

evil agenda of the secret government

35

00:01:38,389 --> 00:01:36,780

time travel a how-to guide Richard

36

00:01:41,090 --> 00:01:38,399

shaver reality of the Inner Earth

37

00:01:44,120 --> 00:01:41,100

Admiral Byrd secret journey beyond the

38

00:01:45,949 --> 00:01:44,130

poles an evil empire of the ETS and the

39

00:01:48,199 --> 00:01:45,959

ultra terrestrials just to name a few

40

00:01:49,669 --> 00:01:48,209

and with titles like that you know we're

41

00:01:51,770 --> 00:01:49,679

going to have a good time so let's get

42

00:01:53,870 --> 00:01:51,780

this party started a legend in his own

43

00:01:55,699 --> 00:01:53,880

right the Casey Kasem of conspiracy

44

00:01:58,100 --> 00:01:55,709

classics Tim my men welcome to the

45

00:01:59,779 --> 00:01:58,110

higher side fly thank you very much Greg

46

00:02:02,150 --> 00:01:59,789

it's a pleasure to be with you today

47

00:02:04,820 --> 00:02:02,160

yeah then as I mentioned you've written

48

00:02:06,350 --> 00:02:04,830

or been a part of too many great books

49

00:02:09,169 --> 00:02:06,360

to name and I've heard you talk about

50

00:02:11,510 --> 00:02:09,179

even more during radio appearances and

51  
00:02:14,030 --> 00:02:11,520  
to me you and the guys you write with

52  
00:02:15,770 --> 00:02:14,040  
the crew you run with represent kind of

53  
00:02:16,970 --> 00:02:15,780  
the old-school researchers that really

54  
00:02:19,339 --> 00:02:16,980  
introduced me to a lot of these

55  
00:02:20,990 --> 00:02:19,349  
conspiracy staples and stories on coast

56  
00:02:23,059 --> 00:02:21,000  
to coast in those early years and in

57  
00:02:24,500 --> 00:02:23,069  
your writing but I am really psyched to

58  
00:02:26,869 --> 00:02:24,510  
have you here and to kick this off

59  
00:02:28,880 --> 00:02:26,879  
everyone here knows I really love the

60  
00:02:31,369 --> 00:02:28,890  
Hollow Earth idea and the possibility of

61  
00:02:32,960 --> 00:02:31,379  
Inner Earth civilizations of course you

62  
00:02:35,330 --> 00:02:32,970  
wrote Admiral Byrd's secret journey

63  
00:02:37,009 --> 00:02:35,340

beyond the poles which is a book of

64

00:02:38,990 --> 00:02:37,019

yours I've spent probably the most time

65

00:02:41,240 --> 00:02:39,000

with but it is about so much more than

66

00:02:43,520 --> 00:02:41,250

just the Admiral Byrd story of course

67

00:02:45,770 --> 00:02:43,530

that is a good one but there's actually

68

00:02:47,360 --> 00:02:45,780

a huge corpus of material and stories

69

00:02:50,570 --> 00:02:47,370

and mythology's from around the world

70

00:02:52,370 --> 00:02:50,580

related to inner worlds and the Hollow

71

00:02:54,400 --> 00:02:52,380

Earth idea doesn't just rely on

72

00:02:58,250 --> 00:02:54,410

operation Highjump does it

73

00:03:00,860 --> 00:02:58,260

no definitely not and that's what I was

74

00:03:04,370 --> 00:03:00,870

commissioned to write the Admiral Byrd

75

00:03:08,360 --> 00:03:04,380

book I really felt it would have been

76

00:03:12,290 --> 00:03:08,370

remiss not to also go into the whole

77

00:03:16,580 --> 00:03:12,300

Hollow Earth mythology because the idea

78

00:03:19,760 --> 00:03:16,590

that there is another world beneath our

79

00:03:22,340 --> 00:03:19,770

feet has been with us in myths and

80

00:03:26,050 --> 00:03:22,350

legends probably from the very beginning

81

00:03:30,699 --> 00:03:26,060

you know if you look at practically any

82

00:03:33,590 --> 00:03:30,709

society civilizations creation myths

83

00:03:37,040 --> 00:03:33,600

they have people either coming from the

84

00:03:40,100 --> 00:03:37,050

stars or coming from underneath era from

85

00:03:40,790 --> 00:03:40,110

caves or holes or something along those

86

00:03:44,990 --> 00:03:40,800

lines

87

00:03:48,410 --> 00:03:45,000

so when it comes to the Hollow Earth

88

00:03:52,820 --> 00:03:48,420

mythologies they play an important

89

00:03:57,320 --> 00:03:52,830

factor within our really how we

90

00:03:59,330 --> 00:03:57,330

developed as humans it plays an

91

00:04:02,030 --> 00:03:59,340

important role just as much as the idea

92

00:04:05,120 --> 00:04:02,040

that you know we were brought here by

93

00:04:07,970 --> 00:04:05,130

aliens from other planets mm-hmm and

94

00:04:10,460 --> 00:04:07,980

yeah and when you dig into it you know a

95

00:04:11,900 --> 00:04:10,470

lot of bright minds have considered that

96

00:04:14,180 --> 00:04:11,910

the earth could be Hollow in your book

97

00:04:16,699 --> 00:04:14,190

you mentioned 17th century astronomer

98

00:04:18,520 --> 00:04:16,709

and mathematician Sir Edmund Halley who

99

00:04:22,099 --> 00:04:18,530

calculated the orbit of Halley's Comet

100

00:04:24,200 --> 00:04:22,109

also German scientists have tenacious

101  
00:04:26,030 --> 00:04:24,210  
Kircher would be another one is there

102  
00:04:27,920 --> 00:04:26,040  
anything else we could say about bright

103  
00:04:31,460 --> 00:04:27,930  
minds who found this possibility worth

104  
00:04:34,370 --> 00:04:31,470  
exploring or had this belief well you

105  
00:04:38,540 --> 00:04:34,380  
know you have to understand also that in

106  
00:04:41,270 --> 00:04:38,550  
the times of say like Halley when he was

107  
00:04:43,060 --> 00:04:41,280  
working on his concept and his concept

108  
00:04:45,770 --> 00:04:43,070  
was that the earth was almost like

109  
00:04:48,920 --> 00:04:45,780  
Russian nesting dolls it had fears

110  
00:04:51,710 --> 00:04:48,930  
within spheres within spheres these were

111  
00:04:54,590 --> 00:04:51,720  
the early days of geology and trying to

112  
00:04:58,300 --> 00:04:54,600  
understand you know how the earth was

113  
00:05:00,710 --> 00:04:58,310

made up here in modern times we have

114

00:05:03,320 --> 00:05:00,720

supposedly you know I mean I'll take

115

00:05:06,780 --> 00:05:03,330

their word for it a better understanding

116

00:05:09,000 --> 00:05:06,790

on how the earth is made up

117

00:05:13,080 --> 00:05:09,010

just the fact that variable now to use

118

00:05:15,420 --> 00:05:13,090

earthquakes to determine what certain

119

00:05:16,920 --> 00:05:15,430

layers on the planet are made up of you

120

00:05:20,220 --> 00:05:16,930

know it's just it's absolutely

121

00:05:23,250 --> 00:05:20,230

fascinating so when you look back at

122

00:05:25,020 --> 00:05:23,260

some of these early conceptions of the

123

00:05:26,970 --> 00:05:25,030

earth and the possibility that it could

124

00:05:30,210 --> 00:05:26,980

be Hollow or you know I said feel before

125

00:05:33,420 --> 00:05:30,220

you have taken to mind that we didn't

126

00:05:35,970 --> 00:05:33,430

have a really great understanding of

127

00:05:40,140 --> 00:05:35,980

just you know how planets were formed

128

00:05:41,580 --> 00:05:40,150

and how our planet is made up but I need

129

00:05:43,500 --> 00:05:41,590

to point out also great that's I mean

130

00:05:46,080 --> 00:05:43,510

you know by no means do we have a

131

00:05:47,970 --> 00:05:46,090

perfect understanding of what's

132

00:05:51,060 --> 00:05:47,980

underneath our feet I mean either we've

133

00:05:53,250 --> 00:05:51,070

gotten kind of a general idea but we've

134

00:05:55,650 --> 00:05:53,260

never been able to go much further than

135

00:05:58,050 --> 00:05:55,660

say gosh I think maybe you know three to

136

00:06:01,530 --> 00:05:58,060

five miles I think is the deepest that

137

00:06:04,620 --> 00:06:01,540

we have managed to dig down so there's

138

00:06:06,510 --> 00:06:04,630

still a lot of unknown factors when it

139

00:06:09,000 --> 00:06:06,520

comes understanding that you know what's

140

00:06:11,640 --> 00:06:09,010

what's inside our planet mm-hmm good

141

00:06:13,890 --> 00:06:11,650

point and also it's fair to say that

142

00:06:15,630 --> 00:06:13,900

what's known isn't necessarily what's

143

00:06:20,460 --> 00:06:15,640

given out to the masses either

144

00:06:24,450 --> 00:06:20,470

oh well that's real that's true you know

145

00:06:26,820 --> 00:06:24,460

when I first became interested in the

146

00:06:29,400 --> 00:06:26,830

whole Hollow Earth mythology you know I

147

00:06:31,710 --> 00:06:29,410

mean I think that that was one of the

148

00:06:34,530 --> 00:06:31,720

one of the first things I really you

149

00:06:36,930 --> 00:06:34,540

know became interested in besides say

150

00:06:38,610 --> 00:06:36,940

you know like UFOs and you know ghosts

151  
00:06:39,720 --> 00:06:38,620  
and things like that one of the first

152  
00:06:41,520 --> 00:06:39,730  
books I ever bought

153  
00:06:43,380 --> 00:06:41,530  
you know just loudly enough happened to

154  
00:06:46,290 --> 00:06:43,390  
be a book written by Timothy greenback

155  
00:06:48,960 --> 00:06:46,300  
Lee who I worked with quite a bit now

156  
00:06:51,630 --> 00:06:48,970  
and his book was about the Hollow Earth

157  
00:06:54,240 --> 00:06:51,640  
and the Richard shaver Bureau mysteries

158  
00:06:58,050 --> 00:06:54,250  
and so I mean you know I've got off to a

159  
00:07:02,850 --> 00:06:58,060  
rich start you know on this kind of

160  
00:07:06,420 --> 00:07:02,860  
stuff really early on and you know the

161  
00:07:09,360 --> 00:07:06,430  
concept that the planet is hollow say

162  
00:07:11,670 --> 00:07:09,370  
like an eggshell that we live on the

163  
00:07:14,040 --> 00:07:11,680

other surface and then the crust is

164

00:07:16,770 --> 00:07:14,050

maybe five hundred to a thousand miles

165

00:07:19,370 --> 00:07:16,780

thick and then the rest of it is hollow

166

00:07:20,430 --> 00:07:19,380

with maybe a Sun in the center and

167

00:07:22,230 --> 00:07:20,440

cotton

168

00:07:25,170 --> 00:07:22,240

and water and you know people and

169

00:07:29,940 --> 00:07:25,180

animals living on the inside I'm less

170

00:07:32,340 --> 00:07:29,950

inclined now to believe that but more

171

00:07:35,660 --> 00:07:32,350

inclined to accept the idea that the

172

00:07:39,630 --> 00:07:35,670

earth is crisscross at various levels

173

00:07:40,950 --> 00:07:39,640

with tunnels and vast caverns and you

174

00:07:43,110 --> 00:07:40,960

know things they have more along the

175

00:07:43,680 --> 00:07:43,120

lines of say like turning to the center

176

00:07:47,070 --> 00:07:43,690

of the earth

177

00:07:48,720 --> 00:07:47,080

buy jewels learned rather than and I

178

00:07:50,910 --> 00:07:48,730

don't know if we premiere with these

179

00:07:52,620 --> 00:07:50,920

books but edgar rice burroughs you know

180

00:07:55,050 --> 00:07:52,630

the guy who wrote Tarzan he wrote a

181

00:07:59,400 --> 00:07:55,060

series of adventure books called the

182

00:08:01,620 --> 00:07:59,410

pellucid R series and his pellucid R is

183

00:08:02,550 --> 00:08:01,630

you know the old concept like I was

184

00:08:04,860 --> 00:08:02,560

talking about it with Hollow Earth

185

00:08:06,840 --> 00:08:04,870

there's a Sun in the center and there's

186

00:08:09,750 --> 00:08:06,850

you know people and prehistoric animals

187

00:08:11,880 --> 00:08:09,760

living there and there are openings and

188

00:08:15,090 --> 00:08:11,890

north and south poles that people can

189

00:08:17,430 --> 00:08:15,100

get in and out if you ever read these

190

00:08:18,990 --> 00:08:17,440

books I yeah yeah some of them yeah I

191

00:08:20,940 --> 00:08:19,000

highly recommend them I highly recommend

192

00:08:24,060 --> 00:08:20,950

your listeners read them as well because

193

00:08:26,159 --> 00:08:24,070

he really I mean obviously Burroughs did

194

00:08:27,990 --> 00:08:26,169

his research for his days I think he's

195

00:08:31,230 --> 00:08:28,000

will - written in like like maybe the

196

00:08:34,860 --> 00:08:31,240

1920's 1930's sort of thing so I mean

197

00:08:37,469 --> 00:08:34,870

all of the myths and legends about the

198

00:08:40,770 --> 00:08:37,479

Hollow Earth are included in his books

199

00:08:44,910 --> 00:08:40,780

and and are really you know just a good

200

00:08:48,540 --> 00:08:44,920

treaty to read if you want to know about

201  
00:08:51,420 --> 00:08:48,550  
some of these early 20th century ideas

202  
00:08:52,920 --> 00:08:51,430  
of the Hollow Earth you know since I

203  
00:08:55,050 --> 00:08:52,930  
went off on a wild ramble here you know

204  
00:08:57,060 --> 00:08:55,060  
you said whether or not so this

205  
00:09:01,020 --> 00:08:57,070  
knowledge about a Hollow Earth may be

206  
00:09:04,950 --> 00:09:01,030  
kept secret from us you know that is a

207  
00:09:08,490 --> 00:09:04,960  
possibility I do think that it is being

208  
00:09:11,460 --> 00:09:08,500  
kept from us that there are underground

209  
00:09:13,860 --> 00:09:11,470  
areas that feel more along the lines

210  
00:09:17,100 --> 00:09:13,870  
like I said of tunnels and vast caverns

211  
00:09:19,140 --> 00:09:17,110  
some of them may actually have people

212  
00:09:21,360 --> 00:09:19,150  
living there that broke away from the

213  
00:09:24,150 --> 00:09:21,370

human race a long time ago and kind of

214

00:09:26,340 --> 00:09:24,160

created their own civilization you know

215

00:09:29,220 --> 00:09:26,350

maybe people that are basically you know

216

00:09:31,620 --> 00:09:29,230

Homo sapiens or maybe cousins you know

217

00:09:34,540 --> 00:09:31,630

still within the you know hominid line

218

00:09:36,760 --> 00:09:34,550

but not quite to you know Homo sapiens

219

00:09:39,580 --> 00:09:36,770

like we are you know information like

220

00:09:43,060 --> 00:09:39,590

that yes definitely I think is probably

221

00:09:45,400 --> 00:09:43,070

being kept secret from us mm-hmm really

222

00:09:47,680 --> 00:09:45,410

the most exciting thing about the Hollow

223

00:09:50,770 --> 00:09:47,690

Earth idea is just the idea that there's

224

00:09:52,480 --> 00:09:50,780

unexplored lands or unknown people's on

225

00:09:55,750 --> 00:09:52,490

the earth or in the earth that we don't

226

00:09:58,780 --> 00:09:55,760

know so yeah I'm pretty impartial too if

227

00:10:01,270 --> 00:09:58,790

it's more like a giant ant farm or an

228

00:10:03,070 --> 00:10:01,280

actual hollow cavity but I still do hold

229

00:10:05,920 --> 00:10:03,080

out hope for that hollow cavity thought

230

00:10:07,780 --> 00:10:05,930

I mean I guess they say when John Quincy

231

00:10:09,550 --> 00:10:07,790

Adams was president he got really swept

232

00:10:11,710 --> 00:10:09,560

up in the idea and apparently he

233

00:10:13,600 --> 00:10:11,720

approved an expedition to explore the

234

00:10:15,490 --> 00:10:13,610

Inner Earth and some say that was a

235

00:10:17,680 --> 00:10:15,500

major reason he only served one term

236

00:10:19,510 --> 00:10:17,690

because other people weren't necessarily

237

00:10:22,750 --> 00:10:19,520

on board Congress wasn't on board but

238

00:10:24,640 --> 00:10:22,760

I've also been told the Smithsonian they

239

00:10:27,430 --> 00:10:24,650

say its original mission statement was

240

00:10:30,040 --> 00:10:27,440

related to displaying artifacts from

241

00:10:32,260 --> 00:10:30,050

this expedition that they say you know

242

00:10:34,780 --> 00:10:32,270

never happen so I guess it played a

243

00:10:36,940 --> 00:10:34,790

pretty decent role in people's minds in

244

00:10:39,340 --> 00:10:36,950

the past and I also tend to think like

245

00:10:41,830 --> 00:10:39,350

what's true for one celestial body

246

00:10:44,590 --> 00:10:41,840

should be true for all of them to an

247

00:10:47,260 --> 00:10:44,600

extent and when they crash that thing

248

00:10:49,870 --> 00:10:47,270

into the moon it rang like a bell and

249

00:10:52,180 --> 00:10:49,880

apparently Mars moon Phobos seems to be

250

00:10:53,740 --> 00:10:52,190

Hollow and there is speculation that

251  
00:10:56,710 --> 00:10:53,750  
both of those things could just be

252  
00:10:59,590 --> 00:10:56,720  
ancient alien space bases so maybe they

253  
00:11:01,510 --> 00:10:59,600  
aren't necessarily satellites or

254  
00:11:05,530 --> 00:11:01,520  
celestial bodies like the rest of them

255  
00:11:09,060 --> 00:11:05,540  
but they are intriguing ideas well that

256  
00:11:13,960 --> 00:11:09,070  
you have to consideration is the moon a

257  
00:11:16,770 --> 00:11:13,970  
natural object right because there's a

258  
00:11:20,620 --> 00:11:16,780  
hill there's been talk for a long time

259  
00:11:25,900 --> 00:11:20,630  
considering how large the Earth's moon

260  
00:11:28,900 --> 00:11:25,910  
is in comparison to other moons and our

261  
00:11:32,470 --> 00:11:28,910  
planets you know of course jupiter has

262  
00:11:35,560 --> 00:11:32,480  
moons that are almost as big as you know

263  
00:11:37,000 --> 00:11:35,570

some of our smaller planets but you know

264

00:11:39,880 --> 00:11:37,010

you look at size in comparison to

265

00:11:44,110 --> 00:11:39,890

Jupiter's moons and the earth-moon

266

00:11:46,330 --> 00:11:44,120

system is just wildly out of proportion

267

00:11:48,100 --> 00:11:46,340

in comparison with the rest of the solar

268

00:11:51,610 --> 00:11:48,110

system I mean it's all my

269

00:11:52,810 --> 00:11:51,620

a binary planet system if the orbits

270

00:11:55,930 --> 00:11:52,820

were a little bit different it would be

271

00:11:59,040 --> 00:11:55,940

a binary planet system but the idea that

272

00:12:01,569 --> 00:11:59,050

the moon is hollow was brought about by

273

00:12:04,810 --> 00:12:01,579

several Russian astronomers back in the

274

00:12:06,759 --> 00:12:04,820

early 1960s and then when you have like

275

00:12:09,100 --> 00:12:06,769

you said when they crashed some of the

276

00:12:11,380 --> 00:12:09,110

spent boosters from the Saturn five

277

00:12:14,139 --> 00:12:11,390

rockets onto the surface of the Moon it

278

00:12:16,180 --> 00:12:14,149

did seem to indicate that there's

279

00:12:20,410 --> 00:12:16,190

something unusual about the composition

280

00:12:23,019 --> 00:12:20,420

of the moon you know possibly you know

281

00:12:25,449 --> 00:12:23,029

some people have said that the moon was

282

00:12:28,870 --> 00:12:25,459

actually like a giant spaceship right

283

00:12:31,389 --> 00:12:28,880

that brought us here to this planet from

284

00:12:33,190 --> 00:12:31,399

someplace else you know or maybe it's a

285

00:12:36,579 --> 00:12:33,200

deaths you know like a spent Death Star

286

00:12:39,280 --> 00:12:36,589

I love it yeah I don't necessarily

287

00:12:42,550 --> 00:12:39,290

believe that concept but you know

288

00:12:44,710 --> 00:12:42,560

considering how unusual the moon is in

289

00:12:47,430 --> 00:12:44,720

comparison with the other moons of the

290

00:12:52,600 --> 00:12:47,440

solar system the way that it is

291

00:12:55,210 --> 00:12:52,610

perfectly set up that when it crosses

292

00:12:58,389 --> 00:12:55,220

the disk of the Sun it creates a perfect

293

00:13:03,220 --> 00:12:58,399

solar eclipse I mean things like that to

294

00:13:06,189 --> 00:13:03,230

me seemed to be beyond coincidence right

295

00:13:09,579 --> 00:13:06,199

it seems to be planned for what reason I

296

00:13:13,120 --> 00:13:09,589

don't know but that's just one of many

297

00:13:15,939 --> 00:13:13,130

you know examples that you know that I

298

00:13:18,519 --> 00:13:15,949

have found over the years concerning you

299

00:13:21,970 --> 00:13:18,529

know our planet the moon other planets

300

00:13:25,389 --> 00:13:21,980

universe and in general that makes me

301  
00:13:27,579 --> 00:13:25,399  
think that there's more going on than a

302  
00:13:30,819 --> 00:13:27,589  
lot of our scientist stars are letting

303  
00:13:33,400 --> 00:13:30,829  
on possibly you know they don't realize

304  
00:13:36,910 --> 00:13:33,410  
it themselves because most scientists

305  
00:13:41,650 --> 00:13:36,920  
nowadays are materialist and anything

306  
00:13:44,500 --> 00:13:41,660  
that seems to counteract that idea

307  
00:13:48,430 --> 00:13:44,510  
they're naturally going to shut down and

308  
00:13:50,079 --> 00:13:48,440  
not listen to it and of course any any

309  
00:13:51,880 --> 00:13:50,089  
of the scientists who are interested in

310  
00:13:53,350 --> 00:13:51,890  
this kind of stuff they kind of treat it

311  
00:13:56,230 --> 00:13:53,360  
like a hobby and don't tell anybody else

312  
00:13:58,660 --> 00:13:56,240  
about it because boy that's a great way

313  
00:14:01,240 --> 00:13:58,670

to lose your tenure or any future

314

00:14:02,079 --> 00:14:01,250

funding if your peers ever find out that

315

00:14:04,239 --> 00:14:02,089

you're interested

316

00:14:05,769 --> 00:14:04,249

you know some of this fringe material

317

00:14:07,960 --> 00:14:05,779

for the speaker yes

318

00:14:10,989 --> 00:14:07,970

cheers to that and it is tough to know

319

00:14:12,999 --> 00:14:10,999

exactly what elements to put stock into

320

00:14:14,829 --> 00:14:13,009

but it does seem a lot of the time like

321

00:14:16,900 --> 00:14:14,839

we are just living on one of the gears

322

00:14:19,960 --> 00:14:16,910

of the great cosmic grandfather clock

323

00:14:22,389 --> 00:14:19,970

and you also mentioned in the book

324

00:14:24,519 --> 00:14:22,399

Marshall B Gardner he's a scientist who

325

00:14:26,799 --> 00:14:24,529

spent two decades studying the aurora

326

00:14:28,869 --> 00:14:26,809

borealis and he said he was convinced

327

00:14:31,600 --> 00:14:28,879

that it came from light from inside the

328

00:14:34,540 --> 00:14:31,610

earth I think that is a provocative clue

329

00:14:36,309 --> 00:14:34,550

of course the poles are fairly heavily

330

00:14:38,019 --> 00:14:36,319

guarded and you know there's all that

331

00:14:40,809 --> 00:14:38,029

speculation that we can't get there we

332

00:14:43,210 --> 00:14:40,819

can't actually see holes but we can see

333

00:14:45,040 --> 00:14:43,220

the aurora borealis and it is

334

00:14:52,210 --> 00:14:45,050

interesting do you put any stock in that

335

00:14:55,780 --> 00:14:52,220

idea or not so much not so much I mean I

336

00:14:57,910 --> 00:14:55,790

I do accept the Givenchy idea that the

337

00:15:00,160 --> 00:14:57,920

aura borealis is you know the result of

338

00:15:03,309 --> 00:15:00,170

solar winds interacting with the Earth's

339

00:15:04,389 --> 00:15:03,319

magnetic field however there was an

340

00:15:07,949 --> 00:15:04,399

interesting picture

341

00:15:10,389 --> 00:15:07,959

that came out a few years ago of

342

00:15:13,150 --> 00:15:10,399

antarctica and this was a satellite

343

00:15:16,509 --> 00:15:13,160

picture and it seemed to show the

344

00:15:19,660 --> 00:15:16,519

Southern Lights coming out of what

345

00:15:22,179 --> 00:15:19,670

appeared to be rather large opening not

346

00:15:25,090 --> 00:15:22,189

quite as large as say like a bull or

347

00:15:27,400 --> 00:15:25,100

opening has been supposed by theorists

348

00:15:30,549 --> 00:15:27,410

on Hollow Earth but still you know like

349

00:15:34,199 --> 00:15:30,559

a large cave and it seems to show this

350

00:15:40,119 --> 00:15:34,209

electrified light coming out of it

351  
00:15:42,910 --> 00:15:40,129  
so whether or not it's a situation where

352  
00:15:46,929 --> 00:15:42,920  
you're seeing you know say like an inner

353  
00:15:48,939 --> 00:15:46,939  
Sun being reflected off of the polar ice

354  
00:15:51,129 --> 00:15:48,949  
you know something like that it's

355  
00:15:55,179 --> 00:15:51,139  
probably a little simplistic I think

356  
00:15:59,319 --> 00:15:55,189  
however considering the way that the

357  
00:16:02,410 --> 00:15:59,329  
planet is wrapped with all kinds of

358  
00:16:05,999 --> 00:16:02,420  
electrical fields fields of radiation

359  
00:16:10,059 --> 00:16:06,009  
and things like that if you do have

360  
00:16:13,210 --> 00:16:10,069  
openings of some kind that lead into the

361  
00:16:15,490 --> 00:16:13,220  
interior of the planet more than likely

362  
00:16:18,820 --> 00:16:15,500  
you're going to find the

363  
00:16:21,580 --> 00:16:18,830

at these lines of force we'll also you

364

00:16:25,020 --> 00:16:21,590

know move in and out of these openings

365

00:16:28,270 --> 00:16:25,030

and of course when you have these highly

366

00:16:29,980 --> 00:16:28,280

magnetic and electrified fields of

367

00:16:31,750 --> 00:16:29,990

course surrounding the planet any

368

00:16:34,740 --> 00:16:31,760

interaction with the Sun and other

369

00:16:37,900 --> 00:16:34,750

cosmic forces is going to create

370

00:16:39,220 --> 00:16:37,910

different kinds of lighting patterns

371

00:16:42,340 --> 00:16:39,230

whether it's you know like the

372

00:16:46,450 --> 00:16:42,350

electrified gases like Nasir or Laurie

373

00:16:50,200 --> 00:16:46,460

Alice or something along those lines of

374

00:16:52,510 --> 00:16:50,210

fields of radiation even so I mean I

375

00:16:54,730 --> 00:16:52,520

think that it is a possibility but the

376

00:16:57,250 --> 00:16:54,740

idea that's you know I said like the

377

00:17:00,700 --> 00:16:57,260

inner Sun is reflecting off the ice that

378

00:17:04,030 --> 00:17:00,710

is probably less likely than some of

379

00:17:05,949 --> 00:17:04,040

these other ideas that I just put forth

380

00:17:08,620 --> 00:17:05,959

there enough well you're speaking my

381

00:17:12,189 --> 00:17:08,630

language and I also wanted to ask you

382

00:17:14,140 --> 00:17:12,199

about this person dr. Wendy Lockwood she

383

00:17:16,510 --> 00:17:14,150

wrote a piece that is actually chapter 9

384

00:17:18,400 --> 00:17:16,520

in your book and one provocative quote

385

00:17:20,980 --> 00:17:18,410

from that chapter is where she says that

386

00:17:22,510 --> 00:17:20,990

NASA certainly knows about the northern

387

00:17:25,540 --> 00:17:22,520

entrance to the Hollow Earth and I

388

00:17:28,000 --> 00:17:25,550

suspect heart may be directed at seeking

389

00:17:30,130 --> 00:17:28,010

ways to penetrate those inner worlds

390

00:17:32,320 --> 00:17:30,140

which is a provocative idea I never

391

00:17:34,150 --> 00:17:32,330

considered that HAARP could somehow be

392

00:17:35,760 --> 00:17:34,160

related a lot of people also especially

393

00:17:38,020 --> 00:17:35,770

in the legends and the mythology

394

00:17:39,850 --> 00:17:38,030

considered anything under the umbrella

395

00:17:42,820 --> 00:17:39,860

Inner Earth they considered almost like

396

00:17:44,620 --> 00:17:42,830

a more of a spiritual place of some type

397

00:17:46,330 --> 00:17:44,630

but I just thought that was really

398

00:17:49,090 --> 00:17:46,340

interesting I've heard a lot of thoughts

399

00:17:50,830 --> 00:17:49,100

about what HAARP could be never have I

400

00:17:54,370 --> 00:17:50,840

heard it you know talked about in that

401  
00:17:56,950 --> 00:17:54,380  
way but I also bring her up because I

402  
00:17:59,110 --> 00:17:56,960  
went to her website and there is really

403  
00:18:01,990 --> 00:17:59,120  
a ton there except for a few articles

404  
00:18:04,450 --> 00:18:02,000  
and a logo that looks a lot like many

405  
00:18:07,240 --> 00:18:04,460  
secret society logos but it has a Hollow

406  
00:18:09,040 --> 00:18:07,250  
Earth on it and it says contact dr.

407  
00:18:11,050 --> 00:18:09,050  
Wendy Lockwood if you'd like to know

408  
00:18:13,810 --> 00:18:11,060  
more about the web of light mystery

409  
00:18:16,570 --> 00:18:13,820  
school and the site seemed like it was

410  
00:18:19,540 --> 00:18:16,580  
connected to yours or Timothy Beckley

411  
00:18:20,860 --> 00:18:19,550  
site but it's just super provocative to

412  
00:18:24,330 --> 00:18:20,870  
me can you tell us anything more about

413  
00:18:28,090 --> 00:18:24,340

her or this mystery school in particular

414

00:18:29,140 --> 00:18:28,100

yes well I should say that dr. Lockwood

415

00:18:33,370 --> 00:18:29,150

I have a bird Cooper

416

00:18:35,830 --> 00:18:33,380

in quite a while gosh I mean I think the

417

00:18:37,930 --> 00:18:35,840

last time that I spoke with her was

418

00:18:40,990 --> 00:18:37,940

probably about five or six years ago and

419

00:18:43,750 --> 00:18:41,000

at that time she was not in the best of

420

00:18:45,250 --> 00:18:43,760

health so you know I mean I don't want

421

00:18:47,530 --> 00:18:45,260

to go on the air and say that she has

422

00:18:51,220 --> 00:18:47,540

possibly passed on because I don't know

423

00:18:52,990 --> 00:18:51,230

that for sure but yeah that could be

424

00:18:53,920 --> 00:18:53,000

situation right and you're absolutely

425

00:18:58,180 --> 00:18:53,930

correct

426

00:18:58,600 --> 00:18:58,190

dr. Lockwood used to be a writer for Tim

427

00:19:03,280 --> 00:18:58,610

Bekker

428

00:19:07,540 --> 00:19:03,290

she wrote articles for his old magazines

429

00:19:11,350 --> 00:19:07,550

and some chapters for some of his early

430

00:19:16,350 --> 00:19:11,360

books and her teachings are more along

431

00:19:20,380 --> 00:19:16,360

the metaphysical lines and her ideas of

432

00:19:24,190 --> 00:19:20,390

say like a Hollow Earth and places like

433

00:19:28,740 --> 00:19:24,200

that tend to be her idea is that they

434

00:19:30,900 --> 00:19:28,750

tend to be more on a spiritual or other

435

00:19:34,380 --> 00:19:30,910

dimensional realm

436

00:19:38,920 --> 00:19:34,390

she thinks that there are physical

437

00:19:42,180 --> 00:19:38,930

entrances to the Hollow Earth but that

438

00:19:46,210 --> 00:19:42,190

after you go say like a certain distance

439

00:19:49,270 --> 00:19:46,220

then you actually are no longer in this

440

00:19:51,220 --> 00:19:49,280

sphere of reality that you know you're

441

00:19:53,740 --> 00:19:51,230

in a different plane of existence and

442

00:19:56,800 --> 00:19:53,750

she speculates that you know like all

443

00:19:58,000 --> 00:19:56,810

planets in our solar system and not just

444

00:20:00,580 --> 00:19:58,010

our soldiers we'll probably throughout

445

00:20:03,400 --> 00:20:00,590

the universe maybe operate along along

446

00:20:06,640 --> 00:20:03,410

the same ways that there is a connection

447

00:20:09,300 --> 00:20:06,650

to these other spheres of reality

448

00:20:13,330 --> 00:20:09,310

through these underground entrances

449

00:20:18,790 --> 00:20:13,340

almost to the point where say like if

450

00:20:21,070 --> 00:20:18,800

you would go to say Mars and would find

451  
00:20:24,160 --> 00:20:21,080  
one of these underground indexes you

452  
00:20:26,500 --> 00:20:24,170  
would go basically to the same reality

453  
00:20:29,000 --> 00:20:26,510  
as you would if you found the same type

454  
00:20:32,120 --> 00:20:29,010  
of cave entrance on the planet Earth

455  
00:20:35,360 --> 00:20:32,130  
it's almost like you know every portion

456  
00:20:37,760 --> 00:20:35,370  
of the real universe the physical

457  
00:20:40,820 --> 00:20:37,770  
universe no matter where you are that

458  
00:20:43,940 --> 00:20:40,830  
there are entrances to these other

459  
00:20:46,250 --> 00:20:43,950  
dimensional states of reality anywhere

460  
00:20:48,409 --> 00:20:46,260  
that you go in this universe you would

461  
00:20:50,960 --> 00:20:48,419  
end up in the same place I don't know if

462  
00:20:53,419 --> 00:20:50,970  
I make myself clear or not yeah portals

463  
00:20:55,690 --> 00:20:53,429

basically yeah yeah that's basically

464

00:20:58,130 --> 00:20:55,700

that's basically it but you know it's

465

00:20:59,539 --> 00:20:58,140

you would just you no matter where you

466

00:21:01,130 --> 00:20:59,549

would go in this universe you would

467

00:21:04,640 --> 00:21:01,140

always emerge in the same place in

468

00:21:07,159 --> 00:21:04,650

whatever these other dimensional realms

469

00:21:09,350 --> 00:21:07,169

are so you know I mean it's an

470

00:21:12,230 --> 00:21:09,360

interesting theory and it's another

471

00:21:14,930 --> 00:21:12,240

aspect of this that is interesting in my

472

00:21:17,060 --> 00:21:14,940

opinion is that and I don't know if

473

00:21:19,760 --> 00:21:17,070

you're familiar with this writer but

474

00:21:22,520 --> 00:21:19,770

there was a guy by the name of T Lobsang

475

00:21:27,380 --> 00:21:22,530

rambha who wrote a number of books about

476  
00:21:29,600 --> 00:21:27,390  
Tibet and to that mysticism especially

477  
00:21:32,930 --> 00:21:29,610  
back in the 1950s and you know he

478  
00:21:37,340 --> 00:21:32,940  
continued to write into the 1960s as

479  
00:21:39,140 --> 00:21:37,350  
well but he claimed that he lived as a

480  
00:21:43,340 --> 00:21:39,150  
Buddhist monk and he was born in in

481  
00:21:47,000 --> 00:21:43,350  
Tibet and was brought into like a secret

482  
00:21:49,760 --> 00:21:47,010  
society when I recited I mean it you

483  
00:21:53,930 --> 00:21:49,770  
know like that part of Tibet nibbles

484  
00:21:58,580 --> 00:21:53,940  
Buddhist tradition but it goes a lot

485  
00:22:03,169 --> 00:21:58,590  
deeper into the mystical aspects of this

486  
00:22:06,799 --> 00:22:03,179  
Eastern philosophy and one of the things

487  
00:22:11,240 --> 00:22:06,809  
that he wrote about was that he was

488  
00:22:15,260 --> 00:22:11,250

taken into a cavern system in the

489

00:22:18,049 --> 00:22:15,270

Himalayas and was taken into basically

490

00:22:21,590 --> 00:22:18,059

you know the whole ER or some of these

491

00:22:23,470 --> 00:22:21,600

huge tunnel of cavern systems to the

492

00:22:26,390 --> 00:22:23,480

underground civilization of Agartha

493

00:22:28,789 --> 00:22:26,400

which is you know like supposedly where

494

00:22:31,100 --> 00:22:28,799

like the great masters of the world

495

00:22:34,850 --> 00:22:31,110

resigned I mean you know these are the

496

00:22:37,520 --> 00:22:34,860

immortal masters of the planet that

497

00:22:39,530 --> 00:22:37,530

really lose basically they they know all

498

00:22:42,320 --> 00:22:39,540

and see all and and that sort of thing

499

00:22:42,740 --> 00:22:42,330

the interesting part of this was that at

500

00:22:46,880 --> 00:22:42,750

one

501  
00:22:50,480 --> 00:22:46,890  
point he came to a portal of light and

502  
00:22:54,650 --> 00:22:50,490  
was asked to step into it and when he

503  
00:22:57,530 --> 00:22:54,660  
did he found that he was on another

504  
00:23:00,050 --> 00:22:57,540  
planet or another reality you know I

505  
00:23:02,510 --> 00:23:00,060  
mean it's difficult to discern just

506  
00:23:04,520 --> 00:23:02,520  
exactly where he was and he didn't feel

507  
00:23:06,920 --> 00:23:04,530  
like that he was on planet earth anymore

508  
00:23:10,640 --> 00:23:06,930  
but he felt that he was in a place that

509  
00:23:13,010 --> 00:23:10,650  
was connected to all the planets and you

510  
00:23:15,920 --> 00:23:13,020  
know all the physical realms on planet

511  
00:23:18,860 --> 00:23:15,930  
earth that they all led to this one kind

512  
00:23:22,900 --> 00:23:18,870  
of like you know super mystical location

513  
00:23:26,270 --> 00:23:22,910

and he was basically told by these

514

00:23:27,920 --> 00:23:26,280

highly evolved beings I mean these

515

00:23:29,840 --> 00:23:27,930

beings were evolved to the point where

516

00:23:32,330 --> 00:23:29,850

they no longer had physical bodies they

517

00:23:34,550 --> 00:23:32,340

were basically just like globes of light

518

00:23:37,720 --> 00:23:34,560

just you know like hyper intelligence

519

00:23:41,750 --> 00:23:37,730

and they were told that it was mankind's

520

00:23:45,970 --> 00:23:41,760

function to eventually evolve to become

521

00:23:50,420 --> 00:23:45,980

like our concept of angels and that our

522

00:23:52,970 --> 00:23:50,430

destiny would be to evolve into kind of

523

00:23:55,370 --> 00:23:52,980

like the state deeper into almost beams

524

00:23:58,610 --> 00:23:55,380

of pure energy and that it would be our

525

00:24:02,230 --> 00:23:58,620

task to bring other life-forms and

526

00:24:05,690 --> 00:24:02,240

intelligences to the same point and that

527

00:24:09,320 --> 00:24:05,700

every intelligent species in this

528

00:24:13,100 --> 00:24:09,330

universe or ultimate destiny is to lead

529

00:24:15,280 --> 00:24:13,110

others into this higher state of being

530

00:24:18,320 --> 00:24:15,290

which would them you know supposedly

531

00:24:21,530 --> 00:24:18,330

bring the completion of you know

532

00:24:24,680 --> 00:24:21,540

whatever the creative force of the

533

00:24:27,020 --> 00:24:24,690

entire multiverse is that we're all just

534

00:24:30,050 --> 00:24:27,030

kind of like sparks off of this creative

535

00:24:32,540 --> 00:24:30,060

force and that our goal is to you know

536

00:24:34,580 --> 00:24:32,550

help these other life-forms to to

537

00:24:38,060 --> 00:24:34,590

achieve the same goal so I mean you know

538

00:24:40,640 --> 00:24:38,070

Rama's story sounds very much like dr.

539

00:24:42,710 --> 00:24:40,650

Lockwood's ideas and of course you know

540

00:24:46,040 --> 00:24:42,720

duhkha Lockwood I mean she says that

541

00:24:48,380 --> 00:24:46,050

there are physical underground locations

542

00:24:50,480 --> 00:24:48,390

say under Mount Shasta that there's an

543

00:24:53,910 --> 00:24:50,490

actual underground city there that was

544

00:24:56,280 --> 00:24:53,920

built long time ago by remnants of

545

00:24:58,800 --> 00:24:56,290

what we would call Lemuria you know

546

00:24:59,730 --> 00:24:58,810

which would be the Pacific version of

547

00:25:02,190 --> 00:24:59,740

Atlantis

548

00:25:05,520 --> 00:25:02,200

that was a civilization that supposedly

549

00:25:08,660 --> 00:25:05,530

existed a number of million or so years

550

00:25:11,580 --> 00:25:08,670

ago but then for one reason or another

551

00:25:13,620 --> 00:25:11,590

site into the ocean and then the

552

00:25:16,560 --> 00:25:13,630

remnants of that civilization you know

553

00:25:19,260 --> 00:25:16,570

scattered across the globe and kind of

554

00:25:21,660 --> 00:25:19,270

seeded you know help seed civilization

555

00:25:24,410 --> 00:25:21,670

from their knowledge and one of these

556

00:25:29,070 --> 00:25:24,420

remnant cities is under Mount Shasta

557

00:25:32,220 --> 00:25:29,080

which is now in California mm-hmm I love

558

00:25:34,380 --> 00:25:32,230

it that's a great breakdown and another

559

00:25:36,540 --> 00:25:34,390

story from the book that is kind of

560

00:25:38,630 --> 00:25:36,550

related to this that I was completely

561

00:25:41,850 --> 00:25:38,640

unfamiliar with apparently this guy

562

00:25:46,230 --> 00:25:41,860

Pythias this Greek geographer from

563

00:25:48,480 --> 00:25:46,240

around 333 BC nearly he sailed north as

564

00:25:51,150 --> 00:25:48,490

far north as he could through what he

565

00:25:53,970 --> 00:25:51,160

called the quote congealed seas and he

566

00:25:55,560 --> 00:25:53,980

discovered a land he called dual or dual

567

00:25:58,230 --> 00:25:55,570

a you know just like the old Nazi

568

00:26:00,390 --> 00:25:58,240

occultist Society but he said that the

569

00:26:02,880 --> 00:26:00,400

people there showed him the place where

570

00:26:05,670 --> 00:26:02,890

the son goes to sleep and he wrote about

571

00:26:09,060 --> 00:26:05,680

the landscape as a place where land

572

00:26:11,310 --> 00:26:09,070

properly speaking no longer existed nor

573

00:26:13,860 --> 00:26:11,320

air or water but a mixture of these

574

00:26:16,740 --> 00:26:13,870

things as if it was like a marine lung

575

00:26:19,230 --> 00:26:16,750

in which all matter is in suspension as

576

00:26:21,360 --> 00:26:19,240

if this something was a link between all

577

00:26:23,730 --> 00:26:21,370

these elements on which one could not

578

00:26:25,350 --> 00:26:23,740

walk or sail and that's a hell of a

579

00:26:28,620 --> 00:26:25,360

story man and it kind of relates to that

580

00:26:31,620 --> 00:26:28,630

model you were just describing it really

581

00:26:33,980 --> 00:26:31,630

does and modern historians I mean they

582

00:26:38,160 --> 00:26:33,990

have no doubt that this guy actually

583

00:26:41,580 --> 00:26:38,170

existed because of the time and you have

584

00:26:45,510 --> 00:26:41,590

realized of course that his writings no

585

00:26:47,550 --> 00:26:45,520

longer exist but he was written about by

586

00:26:50,130 --> 00:26:47,560

his skeptics you know the people who

587

00:26:54,000 --> 00:26:50,140

lived in his time when he came back and

588

00:26:56,730 --> 00:26:54,010

told his stories you know he basically

589

00:26:58,170 --> 00:26:56,740

was ridiculed and his skeptics wrote

590

00:27:00,390 --> 00:26:58,180

about it yeah you know here's the crazy

591

00:27:03,390 --> 00:27:00,400

stories that this guy told us you know

592

00:27:06,540 --> 00:27:03,400

that sort of thing but if you go and

593

00:27:07,890 --> 00:27:06,550

kind of strip away the archaic writing

594

00:27:10,800 --> 00:27:07,900

and ideas

595

00:27:15,030 --> 00:27:10,810

that they had at the time he basically

596

00:27:17,100 --> 00:27:15,040

was probably one of the first in you

597

00:27:21,300 --> 00:27:17,110

know like a Greek of Western your early

598

00:27:23,700 --> 00:27:21,310

Western society to discover the northern

599

00:27:25,620 --> 00:27:23,710

polar regions naturally I mean you know

600

00:27:26,760 --> 00:27:25,630

you had the natives who lived up there

601  
00:27:28,950 --> 00:27:26,770  
but you know they didn't communicate

602  
00:27:31,170 --> 00:27:28,960  
perfectly but say like with the ancient

603  
00:27:35,460 --> 00:27:31,180  
Greeks anybody like that right so so

604  
00:27:38,850 --> 00:27:35,470  
when he went past the British Isles and

605  
00:27:42,150 --> 00:27:38,860  
sailed further north you know he

606  
00:27:44,640 --> 00:27:42,160  
discovered there was ice bergs floating

607  
00:27:47,520 --> 00:27:44,650  
around and that the day's grew shorter

608  
00:27:49,800 --> 00:27:47,530  
and you know he got to the point where

609  
00:27:53,460 --> 00:27:49,810  
during the Arctic winter you know the

610  
00:27:55,350 --> 00:27:53,470  
Sun either it never rose or just I think

611  
00:27:58,500 --> 00:27:55,360  
he reported that it actually just kind

612  
00:28:00,420 --> 00:27:58,510  
of like went along the horizon did never

613  
00:28:01,890 --> 00:28:00,430

got her high up it just kind of rolled

614

00:28:04,350 --> 00:28:01,900

along the horizon and then went back

615

00:28:07,560 --> 00:28:04,360

down again and then during the Arctic

616

00:28:09,090 --> 00:28:07,570

summer it never set and so when he came

617

00:28:12,330 --> 00:28:09,100

back with these stories everybody they

618

00:28:14,550 --> 00:28:12,340

thought of him the guy yeah right you

619

00:28:19,490 --> 00:28:14,560

are you obviously were you know we were

620

00:28:22,440 --> 00:28:19,500

drinking too much or dinner or whatever

621

00:28:26,820 --> 00:28:22,450

but he did like he said you know he

622

00:28:31,110 --> 00:28:26,830

brought back the story of the land of

623

00:28:32,300 --> 00:28:31,120

cool and if you look at some of these

624

00:28:34,980 --> 00:28:32,310

other mythologies

625

00:28:38,220 --> 00:28:34,990

especially you know say like German

626  
00:28:40,980 --> 00:28:38,230  
mythology says a lot about cool and then

627  
00:28:44,190 --> 00:28:40,990  
some of the more northern races that

628  
00:28:46,080 --> 00:28:44,200  
live say like in Norway and Finland and

629  
00:28:49,050 --> 00:28:46,090  
you know even some of the ancient

630  
00:28:53,250 --> 00:28:49,060  
peoples that live in Siberia they have

631  
00:28:57,000 --> 00:28:53,260  
these similar stories on the land that

632  
00:28:59,310 --> 00:28:57,010  
exists extremely far north to the point

633  
00:29:02,430 --> 00:28:59,320  
where it almost seems like it's no

634  
00:29:05,510 --> 00:29:02,440  
longer part of the regular planet the

635  
00:29:09,990 --> 00:29:05,520  
Inuits of North America you know their

636  
00:29:12,720 --> 00:29:10,000  
creation mythology has it that they came

637  
00:29:15,830 --> 00:29:12,730  
from a land from the far north where the

638  
00:29:18,870 --> 00:29:15,840

Sun never set and it was always warm and

639

00:29:21,360 --> 00:29:18,880

there was an abundance of you know food

640

00:29:21,750 --> 00:29:21,370

and it was just really a pretty nice and

641

00:29:23,640 --> 00:29:21,760

buyer

642

00:29:26,670 --> 00:29:23,650

which always makes me wonder why Meg did

643

00:29:29,220 --> 00:29:26,680

believe he you know to then live in you

644

00:29:33,450 --> 00:29:29,230

know Arctic wasteland so to speak but if

645

00:29:36,860 --> 00:29:33,460

you look at - like almost any of these

646

00:29:39,630 --> 00:29:36,870

peoples that live in the far northern

647

00:29:42,510 --> 00:29:39,640

climates they all have very similar

648

00:29:45,660 --> 00:29:42,520

stories of originally coming from a land

649

00:29:48,690 --> 00:29:45,670

of Perpetual daylight and a lot warmer

650

00:29:50,730 --> 00:29:48,700

conditions then they live live in now

651  
00:29:53,160 --> 00:29:50,740  
which you know again that goes back to

652  
00:29:55,800 --> 00:29:53,170  
this whole idea of the Hollow Earth with

653  
00:29:59,100 --> 00:29:55,810  
center Sun because you know if you have

654  
00:30:01,350 --> 00:29:59,110  
a Sun that is suspended gravitationally

655  
00:30:03,570 --> 00:30:01,360  
in the center of the planet it's never

656  
00:30:05,610 --> 00:30:03,580  
gonna say you know so you're going to be

657  
00:30:08,900 --> 00:30:05,620  
living in a place where in seal

658  
00:30:11,640 --> 00:30:08,910  
perpetual daylight's and probably a

659  
00:30:13,590 --> 00:30:11,650  
tropical environments where you know

660  
00:30:16,050 --> 00:30:13,600  
it's always warm you know until you

661  
00:30:19,250 --> 00:30:16,060  
start getting to the more northern areas

662  
00:30:21,690 --> 00:30:19,260  
of the sphere or north or south regions

663  
00:30:25,110 --> 00:30:21,700

there's a gentleman by dr. Brooke

664

00:30:27,300 --> 00:30:25,120

magnums yes he has done some really

665

00:30:30,900 --> 00:30:27,310

excellent research I think on this whole

666

00:30:34,080 --> 00:30:30,910

idea and you know science postulates

667

00:30:36,360 --> 00:30:34,090

that the core of the planet is made up

668

00:30:40,020 --> 00:30:36,370

of you know like a highly compressed

669

00:30:42,510 --> 00:30:40,030

nickel and steel and iron to the point

670

00:30:45,720 --> 00:30:42,520

where it's almost a completely different

671

00:30:48,060 --> 00:30:45,730

element because it's is so condensed by

672

00:30:50,550 --> 00:30:48,070

the pressures of the planet and dr.

673

00:30:52,680 --> 00:30:50,560

Agnew I mean you know he suggests that

674

00:30:55,920 --> 00:30:52,690

the interior depend it could be Hollow

675

00:30:57,660 --> 00:30:55,930

and that this nickel iron core or the

676  
00:30:59,610 --> 00:30:57,670  
front of the sites you notice I just

677  
00:31:03,600 --> 00:30:59,620  
love to talk about could actually be

678  
00:31:05,970 --> 00:31:03,610  
this internal Sun and that there is a

679  
00:31:08,760 --> 00:31:05,980  
pretty good-sized cavity etcetera the

680  
00:31:12,480 --> 00:31:08,770  
planet but that you know our our seismic

681  
00:31:14,840 --> 00:31:12,490  
readings that we use to deduce what the

682  
00:31:19,050 --> 00:31:14,850  
interior of the planet is made of is

683  
00:31:22,110 --> 00:31:19,060  
partially in era because I guess so as

684  
00:31:24,120 --> 00:31:22,120  
he puts it some of these seismic

685  
00:31:27,620 --> 00:31:24,130  
readings

686  
00:31:31,670 --> 00:31:27,630  
the evidence that they come out with

687  
00:31:34,350 --> 00:31:31,680  
seen the same type of material that they

688  
00:31:37,850 --> 00:31:34,360

postulated in the you know at the center

689

00:31:40,410 --> 00:31:37,860

of the planet could also be

690

00:31:44,910 --> 00:31:40,420

statistically shown to be an open area

691

00:31:47,370 --> 00:31:44,920

rather than a crustal formation before

692

00:31:49,680 --> 00:31:47,380

you get to the island core so he says

693

00:31:51,480 --> 00:31:49,690

that the evidence shows that it could be

694

00:31:52,920 --> 00:31:51,490

you know one way or the other and of

695

00:31:54,840 --> 00:31:52,930

course naturally he likes to think that

696

00:31:58,290 --> 00:31:54,850

it shows that there's a hollow cavity

697

00:32:00,450 --> 00:31:58,300

boy oh yeah Brooks is great he was a

698

00:32:02,310 --> 00:32:00,460

previous guest one of my favorites to

699

00:32:04,470 --> 00:32:02,320

talk about Hollow Earth but sorry go

700

00:32:06,750 --> 00:32:04,480

ahead no no no no yeah he I mean he's a

701  
00:32:10,530 --> 00:32:06,760  
great guy you know he's done some really

702  
00:32:12,690 --> 00:32:10,540  
good research along these lines and so I

703  
00:32:16,650 --> 00:32:12,700  
was going to add that you know naturally

704  
00:32:19,170 --> 00:32:16,660  
I've never been down there so you know I

705  
00:32:21,870 --> 00:32:19,180  
can't say for sure one way or the other

706  
00:32:23,910 --> 00:32:21,880  
that's true you know I just offered the

707  
00:32:25,950 --> 00:32:23,920  
theories and my own you know ideas based

708  
00:32:27,420 --> 00:32:25,960  
on these theories and I always leave it

709  
00:32:29,970 --> 00:32:27,430  
up to the you know readers or listeners

710  
00:32:31,800 --> 00:32:29,980  
to make up their own minds of the matter

711  
00:32:33,810 --> 00:32:31,810  
you know what maybe one of these days if

712  
00:32:35,300 --> 00:32:33,820  
we are able to get down there we'll be

713  
00:32:38,070 --> 00:32:35,310

able to prove it one way or the other

714

00:32:40,110 --> 00:32:38,080

hopefully you know that's the way to do

715

00:32:42,960 --> 00:32:40,120

it and you're talking about legends and

716

00:32:45,330 --> 00:32:42,970

even the legend of Santa Claus comes

717

00:32:48,950 --> 00:32:45,340

from Scandinavia and this idea that a

718

00:32:53,130 --> 00:32:48,960

man comes from the North Pole and bring

719

00:32:54,990 --> 00:32:53,140

gifts or supplies in the harshest of

720

00:32:56,820 --> 00:32:55,000

winter environments I mean that's the

721

00:32:59,820 --> 00:32:56,830

story that's Santa we've turned it into

722

00:33:02,790 --> 00:32:59,830

a materialism consumer fest with all

723

00:33:05,910 --> 00:33:02,800

these gifts that came from dear old st.

724

00:33:07,920 --> 00:33:05,920

Nick but the story itself is kind of in

725

00:33:10,140 --> 00:33:07,930

that vein of a guy coming from the

726  
00:33:13,230 --> 00:33:10,150  
northernmost point the pole perhaps from

727  
00:33:14,580 --> 00:33:13,240  
inside and bringing supplies I don't

728  
00:33:16,790 --> 00:33:14,590  
know it it's definitely interesting

729  
00:33:19,860 --> 00:33:16,800  
because so many of the legends of

730  
00:33:21,750 --> 00:33:19,870  
indigenous people who talk about another

731  
00:33:24,120 --> 00:33:21,760  
type of being it's always about some

732  
00:33:26,370 --> 00:33:24,130  
kind of helper in most cases like some

733  
00:33:28,620 --> 00:33:26,380  
kind of being that came and led them

734  
00:33:31,740 --> 00:33:28,630  
down into the earth during a cataclysm

735  
00:33:34,620 --> 00:33:31,750  
or brought supplies so I just think that

736  
00:33:37,310 --> 00:33:34,630  
is an interesting part of modern culture

737  
00:33:39,530 --> 00:33:37,320  
that kind of harkens back to that idea

738  
00:33:42,110 --> 00:33:39,540

well yeah and you could you know you can

739

00:33:44,800 --> 00:33:42,120

take that a step further because the old

740

00:33:47,990 --> 00:33:44,810

stories that say Nicholas he had his

741

00:33:49,760 --> 00:33:48,000

companion Krampus that came with him and

742

00:33:52,400 --> 00:33:49,770

you know krump us was always described

743

00:33:54,950 --> 00:33:52,410

as being almost like a demonic type of

744

00:33:57,550 --> 00:33:54,960

entity and that's one of the other

745

00:34:01,120 --> 00:33:57,560

factors of the whole Palo Inner Earth

746

00:34:04,300 --> 00:34:01,130

stories is that not only do you have

747

00:34:07,100 --> 00:34:04,310

racess that live down there that are

748

00:34:09,980 --> 00:34:07,110

spiritually more developed than we are

749

00:34:13,190 --> 00:34:09,990

but it's also the abode of you know like

750

00:34:15,440 --> 00:34:13,200

devils and demons and creatures of the

751  
00:34:18,830 --> 00:34:15,450  
nether world the whole Richard shaver

752  
00:34:21,440 --> 00:34:18,840  
garrow's stories goes in that direction

753  
00:34:23,390 --> 00:34:21,450  
I mean you know the DeRose who are

754  
00:34:26,210 --> 00:34:23,400  
basically the modern-day equivalent of

755  
00:34:28,280 --> 00:34:26,220  
the devils and demons that love to tour

756  
00:34:30,380 --> 00:34:28,290  
masks so yes you're absolutely right I

757  
00:34:32,930 --> 00:34:30,390  
mean it's it's very interesting how a

758  
00:34:35,840 --> 00:34:32,940  
lot of these mythologies are still with

759  
00:34:39,680 --> 00:34:35,850  
us today I'll be though in a kind of

760  
00:34:41,840 --> 00:34:39,690  
like a sweet and fairytale types of

761  
00:34:43,610 --> 00:34:41,850  
versions right but like the modern fairy

762  
00:34:45,380 --> 00:34:43,620  
tales you know if you go and trace them

763  
00:34:48,980 --> 00:34:45,390

back you know you'll find that they have

764

00:34:50,870 --> 00:34:48,990

some realities to them and oftentimes

765

00:34:55,070 --> 00:34:50,880

that you're not quite so pleasant

766

00:34:56,000 --> 00:34:55,080

realities man and Antarctica is another

767

00:34:59,120 --> 00:34:56,010

thing we were going to talk about

768

00:35:00,890 --> 00:34:59,130

because it is the most under explored

769

00:35:03,350 --> 00:35:00,900

place on the planet really if you

770

00:35:05,630 --> 00:35:03,360

discount the oceans and you'd really

771

00:35:07,730 --> 00:35:05,640

drown in red tape and regulation trying

772

00:35:10,250 --> 00:35:07,740

to get there and it's been in a lot of

773

00:35:12,320 --> 00:35:10,260

alternative news lately the Russian

774

00:35:14,060 --> 00:35:12,330

patriarch the Secretary of State and

775

00:35:16,790 --> 00:35:14,070

Buzz Aldrin all invited down there

776

00:35:18,440 --> 00:35:16,800

recently to look at something what are

777

00:35:20,570 --> 00:35:18,450

your thoughts on the story there what do

778

00:35:23,760 --> 00:35:20,580

you think could be at the heart of this

779

00:35:25,980 --> 00:35:23,770

kind of provocative mystery

780

00:35:29,160 --> 00:35:25,990

it's really been interesting over the

781

00:35:32,100 --> 00:35:29,170

past year or so how much attention has

782

00:35:34,350 --> 00:35:32,110

suddenly been given to Antarctica you

783

00:35:37,220 --> 00:35:34,360

know like you said I mean you had a

784

00:35:40,800 --> 00:35:37,230

former Secretary of State John Kerry and

785

00:35:41,730 --> 00:35:40,810

Apollo 11 astronaut Buzz Aldrin going

786

00:35:46,560 --> 00:35:41,740

down there

787

00:35:49,350 --> 00:35:46,570

I mean yeah and then of course you know

788

00:35:52,440 --> 00:35:49,360

Admiral Byrd back in the 20th century

789

00:35:55,320 --> 00:35:52,450

the patriarch of Moscow like you said

790

00:35:58,530 --> 00:35:55,330

you know when what what is going on down

791

00:36:01,980 --> 00:35:58,540

there boy and we can just speculate as

792

00:36:03,560 --> 00:36:01,990

much as you want to and a lot of people

793

00:36:07,470 --> 00:36:03,570

have will you go on the internet and

794

00:36:09,690 --> 00:36:07,480

google of antarctic mysteries and man

795

00:36:12,330 --> 00:36:09,700

you've got everything from the Nazi

796

00:36:14,609 --> 00:36:12,340

secret base to like the Hollow Earth I

797

00:36:16,830 --> 00:36:14,619

was on a show a couple months ago and

798

00:36:19,350 --> 00:36:16,840

the host of that show you know he had a

799

00:36:21,510 --> 00:36:19,360

really interesting idea and we talked

800

00:36:23,640 --> 00:36:21,520

about it quite a bit and if it's his

801  
00:36:26,580 --> 00:36:23,650  
idea that you know the Russians have

802  
00:36:29,940 --> 00:36:26,590  
been drilling into that lake lake vostok

803  
00:36:32,580 --> 00:36:29,950  
that has been covered in ice for you

804  
00:36:35,730 --> 00:36:32,590  
know millions of years and basically

805  
00:36:38,310 --> 00:36:35,740  
sealed up whatever had been around in

806  
00:36:40,590 --> 00:36:38,320  
our environment at the time that it was

807  
00:36:42,480 --> 00:36:40,600  
finally covered over with ice and it was

808  
00:36:46,859 --> 00:36:42,490  
his speculation that possibly that they

809  
00:36:49,160 --> 00:36:46,869  
discovered in that lake a life-form that

810  
00:36:51,420 --> 00:36:49,170  
for all intents and purposes would be a

811  
00:36:53,250 --> 00:36:51,430  
extraterrestrial and what I'd be by

812  
00:36:55,890 --> 00:36:53,260  
life-form I mean you know more along the

813  
00:36:58,830 --> 00:36:55,900

lines and say like bacteria or virus or

814

00:37:00,300 --> 00:36:58,840

you know not yeah I'm not like an

815

00:37:02,880 --> 00:37:00,310

ancient astronaut still swimming around

816

00:37:04,710 --> 00:37:02,890

under there the spacesuit but something

817

00:37:07,320 --> 00:37:04,720

more along the lines of an ancient

818

00:37:10,470 --> 00:37:07,330

ancestor of ours but this ancient

819

00:37:12,069 --> 00:37:10,480

ancestor you know didn't originate on

820

00:37:14,160 --> 00:37:12,079

planet Earth

821

00:37:19,680 --> 00:37:14,170

this

822

00:37:22,109 --> 00:37:19,690

descendants ah

823

00:37:22,789 --> 00:37:22,119

like it was a remnant of panspermia or

824

00:37:27,059 --> 00:37:22,799

something

825

00:37:29,970 --> 00:37:27,069

exactly exactly around the time that

826

00:37:33,089 --> 00:37:29,980

this Lake was covered over and that

827

00:37:35,009 --> 00:37:33,099

Antarctica found its way to where it was

828

00:37:39,120 --> 00:37:35,019

but they'd have to realize that at one

829

00:37:42,660 --> 00:37:39,130

time Antarctica was not located at the

830

00:37:44,309 --> 00:37:42,670

South Pole I'm not quite sure where it

831

00:37:48,269 --> 00:37:44,319

was I mean it was it was definitely

832

00:37:50,660 --> 00:37:48,279

closer to the equator at one time so it

833

00:37:53,519 --> 00:37:50,670

had more of a tropical environment and

834

00:37:57,480 --> 00:37:53,529

you know at some time in our ancient

835

00:37:59,130 --> 00:37:57,490

past there was some kind of event nobody

836

00:38:03,180 --> 00:37:59,140

really knows for sure what happened well

837

00:38:05,579 --> 00:38:03,190

basically you know almost all life-forms

838

00:38:09,180 --> 00:38:05,589

on this planet were killed and that

839

00:38:12,170 --> 00:38:09,190

included the majority of undersea life

840

00:38:14,880 --> 00:38:12,180

forms as well and then after a

841

00:38:18,710 --> 00:38:14,890

relatively short period of time

842

00:38:21,210 --> 00:38:18,720

in geological history there was a sudden

843

00:38:24,349 --> 00:38:21,220

explosion of life that came out of the

844

00:38:27,920 --> 00:38:24,359

Seas but this life was extremely bizarre

845

00:38:29,999 --> 00:38:27,930

it didn't really resemble the previous

846

00:38:32,940 --> 00:38:30,009

life-forms on the planet before whatever

847

00:38:35,009 --> 00:38:32,950

this cataclysmic event was which has led

848

00:38:38,279 --> 00:38:35,019

some you know scientists to speculate

849

00:38:39,240 --> 00:38:38,289

that this new life form and when I say

850

00:38:43,799 --> 00:38:39,250

new life form

851

00:38:47,009 --> 00:38:43,809

it was the seed that that were all

852

00:38:49,079 --> 00:38:47,019

descended from you know every all the

853

00:38:53,099 --> 00:38:49,089

life on the planet now descended from

854

00:38:54,990 --> 00:38:53,109

this new rather bizarre forms of life

855

00:38:56,910 --> 00:38:55,000

that emerged after this cataclysmic

856

00:39:00,120 --> 00:38:56,920

event some scientists have speculated

857

00:39:04,230 --> 00:39:00,130

that this was a cosmic event you know I

858

00:39:06,140 --> 00:39:04,240

possibly say like another Sun came close

859

00:39:09,109 --> 00:39:06,150

to the edge of our solar system and

860

00:39:12,749 --> 00:39:09,119

disturb the Oort cloud sending comets

861

00:39:15,779 --> 00:39:12,759

racing into the interior of the solar

862

00:39:19,529 --> 00:39:15,789

system and then bombarding your earth

863

00:39:22,950 --> 00:39:19,539

Mars Venus everything and that that time

864

00:39:25,499 --> 00:39:22,960

Mars probably had life on it but do you

865

00:39:26,400 --> 00:39:25,509

know that it had an ocean and atmosphere

866

00:39:28,289 --> 00:39:26,410

and

867

00:39:30,450 --> 00:39:28,299

that when these comets bombarded Mars

868

00:39:32,460 --> 00:39:30,460

they blasted off chunks of the planet

869

00:39:34,099 --> 00:39:32,470

which then fell to earth and we know

870

00:39:37,289 --> 00:39:34,109

that that's true because we have found

871

00:39:38,730 --> 00:39:37,299

Martian meteorites in Antarctica

872

00:39:39,960 --> 00:39:38,740

you know they stand out very clearly of

873

00:39:45,569 --> 00:39:39,970

course this is from you know later

874

00:39:48,510 --> 00:39:45,579

events so it could be that the new life

875

00:39:52,410 --> 00:39:48,520

that arose on earth came from Mars and

876

00:39:54,720 --> 00:39:52,420

that we are the Martians so to speak and

877

00:39:57,089 --> 00:39:54,730

this was the idea that this one person

878

00:39:59,190 --> 00:39:57,099

you know suggested to me which you know

879

00:40:02,370 --> 00:39:59,200

like that's pretty good pretty good idea

880

00:40:04,260 --> 00:40:02,380

because I mean I do I do believe in

881

00:40:06,870 --> 00:40:04,270

penance for me Leo like you said the

882

00:40:09,000 --> 00:40:06,880

idea that the universe is teeming with

883

00:40:11,400 --> 00:40:09,010

life and that it's probably constantly

884

00:40:16,079 --> 00:40:11,410

you know raining down on us from outer

885

00:40:19,770 --> 00:40:16,089

space in one form or another and the

886

00:40:23,010 --> 00:40:19,780

idea that we involved from some of these

887

00:40:26,789 --> 00:40:23,020

early dustings of life is not too

888

00:40:28,500 --> 00:40:26,799

far-fetched to me and considering how

889

00:40:33,180 --> 00:40:28,510

long that Antarctica has been frozen

890

00:40:35,809 --> 00:40:33,190

over and with the warming of our climate

891

00:40:39,150 --> 00:40:35,819

and the melting of the Antarctic ice

892

00:40:41,460 --> 00:40:39,160

some of these primitive life forms may

893

00:40:44,250 --> 00:40:41,470

be coming out and be revealed which

894

00:40:46,589 --> 00:40:44,260

could be why the sudden interest in

895

00:40:48,809 --> 00:40:46,599

Antarctica and why some of these people

896

00:40:51,990 --> 00:40:48,819

are going down there to check this out

897

00:40:53,029 --> 00:40:52,000

you know I mean hey come come and look

898

00:40:54,680 --> 00:40:53,039

at your great-great-great

899

00:40:58,410 --> 00:40:54,690

great-great-great great-great

900

00:41:00,569 --> 00:40:58,420

great-granddaddy he's down here yeah I

901  
00:41:02,039 --> 00:41:00,579  
love it and it also kind of could give

902  
00:41:03,569 --> 00:41:02,049  
some clues as to why a lot of these

903  
00:41:05,670 --> 00:41:03,579  
people are ending up sick there was a

904  
00:41:07,200 --> 00:41:05,680  
Lockheed Martin guy who got sick there

905  
00:41:09,930 --> 00:41:07,210  
was also of course blows Aldrin butt

906  
00:41:12,150 --> 00:41:09,940  
right in the same vein I took this down

907  
00:41:14,730 --> 00:41:12,160  
from Joseph Farrell's web site but he

908  
00:41:16,500 --> 00:41:14,740  
wrote about this recently saying as if

909  
00:41:18,180 --> 00:41:16,510  
it couldn't possibly get any stranger

910  
00:41:20,069 --> 00:41:18,190  
there were also these stories several

911  
00:41:21,960 --> 00:41:20,079  
years ago that the Russians had found

912  
00:41:25,160 --> 00:41:21,970  
something near their installations at

913  
00:41:27,930 --> 00:41:25,170

the vast under ice lake vostok where

914

00:41:29,519 --> 00:41:27,940

there there were emergency evacuations

915

00:41:31,380 --> 00:41:29,529

at the time of people becoming suddenly

916

00:41:32,970 --> 00:41:31,390

sick perhaps the weirdest of all the

917

00:41:34,620 --> 00:41:32,980

stories was that the Saudis found

918

00:41:36,319 --> 00:41:34,630

something during the next Cove a ssin

919

00:41:39,420 --> 00:41:36,329

around the Grand Mosque at Mecca

920

00:41:40,370 --> 00:41:39,430

something which so terrified them that

921

00:41:43,009 --> 00:41:40,380

they turned it over to

922

00:41:45,829 --> 00:41:43,019

rushon to promptly so the story goes

923

00:41:48,680 --> 00:41:45,839

took it to Antarctica where patriarchy

924

00:41:52,120 --> 00:41:48,690

Kiril performed ancient rituals over it

925

00:41:54,019 --> 00:41:52,130

so that is provocative of course and

926  
00:41:57,380 --> 00:41:54,029  
it's just like what you were saying

927  
00:42:00,079 --> 00:41:57,390  
something under Lake Vostok possibly an

928  
00:42:02,599 --> 00:42:00,089  
ancient virus of some type or maybe some

929  
00:42:04,220 --> 00:42:02,609  
type of ancient technology that is

930  
00:42:06,799 --> 00:42:04,230  
giving off some type of radiation

931  
00:42:07,249 --> 00:42:06,809  
because if it's just a virus I don't

932  
00:42:11,480 --> 00:42:07,259  
know

933  
00:42:14,559 --> 00:42:11,490  
need to go look at it unless it might be

934  
00:42:17,539 --> 00:42:14,569  
something a little more epic to the eye

935  
00:42:20,299 --> 00:42:17,549  
yeah you know all of those stories with

936  
00:42:21,799 --> 00:42:20,309  
the exception of the Saudis discovering

937  
00:42:24,620 --> 00:42:21,809  
something because I don't think that

938  
00:42:27,620 --> 00:42:24,630

they would be too inclined to give

939

00:42:29,509 --> 00:42:27,630

whatever they discovered to the rest of

940

00:42:32,990 --> 00:42:29,519

this tchen yeah yeah I am a you know the

941

00:42:36,499 --> 00:42:33,000

rest was impaneled so yeah so to speak

942

00:42:37,819 --> 00:42:36,509

you know unless they just gave the but

943

00:42:40,640 --> 00:42:37,829

then again why would they why would you

944

00:42:43,700 --> 00:42:40,650

give it to to to the Russians if it was

945

00:42:46,009 --> 00:42:43,710

discovered say like in Syria or you know

946

00:42:48,289 --> 00:42:46,019

like one of these countries that is on a

947

00:42:50,900 --> 00:42:48,299

more friendly term with Russia go Saudi

948

00:42:55,130 --> 00:42:50,910

Arabia more friendly with the United

949

00:42:57,829 --> 00:42:55,140

States right but you know it's like a

950

00:43:02,240 --> 00:42:57,839

it's like I said earlier Antarctica has

951  
00:43:04,759 --> 00:43:02,250  
not always been covered with ice and in

952  
00:43:08,299 --> 00:43:04,769  
fact a number of writers have speculated

953  
00:43:11,660 --> 00:43:08,309  
that Antarctica may have been the

954  
00:43:15,190 --> 00:43:11,670  
location of what we call Atlantis right

955  
00:43:17,630 --> 00:43:15,200  
now you know some kind of anti diluvian

956  
00:43:21,140 --> 00:43:17,640  
civilization that really existed long

957  
00:43:23,240 --> 00:43:21,150  
before modern civilization and it's you

958  
00:43:26,210 --> 00:43:23,250  
know it's it's its own face it's now

959  
00:43:30,200 --> 00:43:26,220  
covered in almost a mile in most places

960  
00:43:32,599 --> 00:43:30,210  
a mile thick ice sheet but again like I

961  
00:43:36,289 --> 00:43:32,609  
said with the climate changing and

962  
00:43:39,499 --> 00:43:36,299  
Antarctica melting as fast as it has it

963  
00:43:43,279 --> 00:43:39,509

could very well be that some of the

964

00:43:44,930 --> 00:43:43,289

remnants of a lost civilization

965

00:43:47,809 --> 00:43:44,940

and when I say lawsuit was a Shannara

966

00:43:51,289 --> 00:43:47,819

civilization that existed you know more

967

00:43:53,019 --> 00:43:51,299

than a million years ago long before the

968

00:43:55,239 --> 00:43:53,029

last ice age

969

00:43:57,699 --> 00:43:55,249

I mean I'm I couldn't tell you offhand

970

00:44:01,059 --> 00:43:57,709

how long Antarctica has been in its

971

00:44:05,499 --> 00:44:01,069

current location but it's been you know

972

00:44:08,859 --> 00:44:05,509

several million years at least so if

973

00:44:11,229 --> 00:44:08,869

they have uncovered remnants of some

974

00:44:12,729 --> 00:44:11,239

kind of lost civilization in that

975

00:44:14,949 --> 00:44:12,739

location you know we're talking about

976

00:44:18,579 --> 00:44:14,959

civilization that existed supposedly

977

00:44:23,409 --> 00:44:18,589

long before modern man was even the

978

00:44:25,239 --> 00:44:23,419

gleam in chimpanzees eye right if you go

979

00:44:26,739 --> 00:44:25,249

into the ancient aliens idea I mean

980

00:44:29,349 --> 00:44:26,749

people and that can't believe that

981

00:44:30,969 --> 00:44:29,359

something intelligent made us so clearly

982

00:44:33,640 --> 00:44:30,979

there's some kind of intelligence

983

00:44:36,370 --> 00:44:33,650

perhaps in the background way before us

984

00:44:38,819 --> 00:44:36,380

well you know if there was going to be

985

00:44:40,989 --> 00:44:38,829

the remnants of an ancient civilization

986

00:44:43,299 --> 00:44:40,999

Antarctica really is one of the best

987

00:44:45,759 --> 00:44:43,309

locations it's been frozen for such a

988

00:44:48,370 --> 00:44:45,769

long period of time I mean all across

989

00:44:52,299 --> 00:44:48,380

the planet you know we've seen possibly

990

00:44:54,130 --> 00:44:52,309

hints of remnants of some kind of

991

00:44:56,829 --> 00:44:54,140

civilization that existed before the

992

00:45:00,130 --> 00:44:56,839

last ice age but naturally you know due

993

00:45:02,199 --> 00:45:00,140

to erosion and other aspects most of

994

00:45:06,279 --> 00:45:02,209

that has long since disappeared

995

00:45:08,739 --> 00:45:06,289

however Antarctica being basically you

996

00:45:11,439 --> 00:45:08,749

know frozen in stasis for so long a time

997

00:45:14,049 --> 00:45:11,449

I mean this really would be an excellent

998

00:45:16,499 --> 00:45:14,059

location to find remnants you know if

999

00:45:19,919 --> 00:45:16,509

they actually existed of a previous

1000

00:45:22,539 --> 00:45:19,929

possibly higher technological

1001  
00:45:26,559 --> 00:45:22,549  
civilization that lived on this planet

1002  
00:45:31,709 --> 00:45:26,569  
before we did I mean as I I am a firm

1003  
00:45:33,939 --> 00:45:31,719  
believer that we are not the only

1004  
00:45:36,849 --> 00:45:33,949  
technologically advanced civilization

1005  
00:45:39,699 --> 00:45:36,859  
that has existed on this planet I think

1006  
00:45:43,120 --> 00:45:39,709  
that humans are probably a lot older

1007  
00:45:46,749 --> 00:45:43,130  
than archaeologists give us credit for

1008  
00:45:51,159 --> 00:45:46,759  
yeah we're just now really discovering

1009  
00:45:53,769 --> 00:45:51,169  
how many subspecies of humans have

1010  
00:45:55,359 --> 00:45:53,779  
existed over the millenniums I mean you

1011  
00:45:58,569 --> 00:45:55,369  
know we just we just recently discovered

1012  
00:46:00,429 --> 00:45:58,579  
the Denisovans you know it apparently

1013  
00:46:03,279 --> 00:46:00,439

seems to be an offshoot of the D and

1014

00:46:04,989 --> 00:46:03,289

atolls and we had no idea they existed

1015

00:46:06,589 --> 00:46:04,999

but once we discovered that little tiny

1016

00:46:09,890 --> 00:46:06,599

finger bone and a case

1017

00:46:12,109 --> 00:46:09,900

Siberia and got the DNA out of it you

1018

00:46:15,650 --> 00:46:12,119

know we discovered that there are still

1019

00:46:18,469 --> 00:46:15,660

people you know on this planet that have

1020

00:46:21,620 --> 00:46:18,479

the genetic leftovers from this race you

1021

00:46:23,509 --> 00:46:21,630

know still in our genetic makeup so I

1022

00:46:27,890 --> 00:46:23,519

mean it's to me it's not inconceivable

1023

00:46:29,930 --> 00:46:27,900

that humans or human subspecies arose a

1024

00:46:32,390 --> 00:46:29,940

lot longer on this planet so you know

1025

00:46:34,609 --> 00:46:32,400

back that we care to think about

1026

00:46:37,339 --> 00:46:34,619

and that homo sapiens sapiens is this

1027

00:46:40,759 --> 00:46:37,349

really I think we're justice newcomers

1028

00:46:43,489 --> 00:46:40,769

who knows what kinds of and I'm going to

1029

00:46:47,900 --> 00:46:43,499

say hominid you know because I guess I'm

1030

00:46:51,160 --> 00:46:47,910

a little biased along the hook line but

1031

00:46:54,789 --> 00:46:51,170

I suppose it's not inconceivable that

1032

00:46:58,069 --> 00:46:54,799

other intelligent species could have

1033

00:47:01,069 --> 00:46:58,079

evolved on this planet long before we

1034

00:47:03,289 --> 00:47:01,079

did that weren't necessarily hominids I

1035

00:47:06,620 --> 00:47:03,299

know a lot of people will be like Isis

1036

00:47:09,170 --> 00:47:06,630

crazy talk but you know I mean given the

1037

00:47:12,559 --> 00:47:09,180

way that time works and that evolution

1038

00:47:15,140 --> 00:47:12,569

works and the whole creative process and

1039

00:47:18,709 --> 00:47:15,150

life works I mean it's not inconceivable

1040

00:47:21,229 --> 00:47:18,719

that some of the first intelligent

1041

00:47:23,150 --> 00:47:21,239

technological based civilizations on

1042

00:47:25,190 --> 00:47:23,160

this planet may not necessarily have

1043

00:47:27,979 --> 00:47:25,200

been human as we think of humans but

1044

00:47:30,079 --> 00:47:27,989

right yeah no it's very very conceivable

1045

00:47:31,849 --> 00:47:30,089

and of course the further you go back

1046

00:47:33,709 --> 00:47:31,859

there's going to be diminishing returns

1047

00:47:36,259 --> 00:47:33,719

for what you can actually on earth so

1048

00:47:39,170 --> 00:47:36,269

who knows how far back things go and

1049

00:47:42,650 --> 00:47:39,180

another great story you wrote about in

1050

00:47:45,739 --> 00:47:42,660

the details of that book is uh the caves

1051  
00:47:46,999 --> 00:47:45,749  
in Malta and I found out so interesting

1052  
00:47:49,160 --> 00:47:47,009  
can you tell us about what was found

1053  
00:47:52,819 --> 00:47:49,170  
when they followed these caves and

1054  
00:47:54,709 --> 00:47:52,829  
tunnels down as far as they did oh oh

1055  
00:47:58,130 --> 00:47:54,719  
gosh I think you hope to I think you'll

1056  
00:48:00,019 --> 00:47:58,140  
have to remind me I I can I can so you

1057  
00:48:02,299 --> 00:48:00,029  
know you have to realize Greg that a lot

1058  
00:48:04,519 --> 00:48:02,309  
of these books being I write them and

1059  
00:48:06,109 --> 00:48:04,529  
then you know I go on to your like

1060  
00:48:06,950 --> 00:48:06,119  
different books so I may not remember

1061  
00:48:10,370 --> 00:48:06,960  
all the details

1062  
00:48:12,319 --> 00:48:10,380  
oh of course well apparently some men

1063  
00:48:14,630 --> 00:48:12,329

were digging a well fell into the earth

1064

00:48:16,910 --> 00:48:14,640

found a cave system that opened up into

1065

00:48:19,780 --> 00:48:16,920

multiple chambers and they found that

1066

00:48:21,940 --> 00:48:19,790

was underneath Neolithic village and

1067

00:48:24,070 --> 00:48:21,950

stun the stone carvings at the entrance

1068

00:48:26,650 --> 00:48:24,080

to this lower section once they got down

1069

00:48:29,200 --> 00:48:26,660

in there they believed that occasionally

1070

00:48:30,820 --> 00:48:29,210

a human sacrifice was chained to the

1071

00:48:32,740 --> 00:48:30,830

entrance every so often I guess there's

1072

00:48:35,530 --> 00:48:32,750

some kind of indications of that but

1073

00:48:37,660 --> 00:48:35,540

then down even deeper they cleared out

1074

00:48:40,870 --> 00:48:37,670

thirty thousand skeletons from a

1075

00:48:43,510 --> 00:48:40,880

passageway and found old cave art murals

1076

00:48:46,030 --> 00:48:43,520

behind them and deeper still you find

1077

00:48:47,650 --> 00:48:46,040

what was called the Oracle a hole in the

1078

00:48:50,320 --> 00:48:47,660

wall that when you would speak into it

1079

00:48:52,480 --> 00:48:50,330

it carried your voice throughout all of

1080

00:48:57,280 --> 00:48:52,490

these caves and the theory was that

1081

00:48:59,920 --> 00:48:57,290

someone was using this amplification to

1082

00:49:02,530 --> 00:48:59,930

may be scare the villagers into offering

1083

00:49:04,360 --> 00:49:02,540

sacrifices or maybe tell them when they

1084

00:49:06,790 --> 00:49:04,370

needed to bring one otherwise they were

1085

00:49:08,350 --> 00:49:06,800

going to have trouble but if you go even

1086

00:49:11,320 --> 00:49:08,360

further down from there there was

1087

00:49:13,240 --> 00:49:11,330

another room that had a stone altar in

1088

00:49:16,360 --> 00:49:13,250

the center and beds carved into the

1089

00:49:19,780 --> 00:49:16,370

walls and in these little bed sections

1090

00:49:21,700 --> 00:49:19,790

were little enclaves where people's

1091

00:49:24,220 --> 00:49:21,710

heads would go or their feet would go

1092

00:49:27,310 --> 00:49:24,230

and the indications is that these beings

1093

00:49:29,680 --> 00:49:27,320

were four feet tall or some even smaller

1094

00:49:32,260 --> 00:49:29,690

and then it opens up into natural caves

1095

00:49:34,120 --> 00:49:32,270

which nobody knows how far that goes but

1096

00:49:36,460 --> 00:49:34,130

I thought that was a pretty amazing

1097

00:49:39,700 --> 00:49:36,470

story I even looked up pictures of the

1098

00:49:43,390 --> 00:49:39,710

Maltese cave art and yeah it's really

1099

00:49:45,430 --> 00:49:43,400

interesting that it almost is a parallel

1100

00:49:47,260 --> 00:49:45,440

story to the idea of fairy folk

1101

00:49:49,480 --> 00:49:47,270

underground or some kind of smaller

1102

00:49:51,370 --> 00:49:49,490

being underground like coming up and

1103

00:49:53,260 --> 00:49:51,380

stealing people and maybe they worked

1104

00:49:54,820 --> 00:49:53,270

out some kind of King Kong arrangement

1105

00:49:56,500 --> 00:49:54,830

where they just give them a person once

1106

00:50:00,730 --> 00:49:56,510

in a while to say them tons of trouble

1107

00:50:03,160 --> 00:50:00,740

but I love that story well and Malta is

1108

00:50:07,570 --> 00:50:03,170

also the location of some very

1109

00:50:10,150 --> 00:50:07,580

interesting roadways that seem to go out

1110

00:50:14,080 --> 00:50:10,160

into the walk they start out on the land

1111

00:50:17,200 --> 00:50:14,090

and then and going out into the ocean so

1112

00:50:19,000 --> 00:50:17,210

either these were boat docks of some

1113

00:50:21,160 --> 00:50:19,010

kind but it's unusual because these

1114

00:50:23,140 --> 00:50:21,170

roads but also criss cross they eyelids

1115

00:50:25,420 --> 00:50:23,150

and then eventually it'll lead out into

1116

00:50:30,400 --> 00:50:25,430

see you leading some people speculate

1117

00:50:33,490 --> 00:50:30,410

that Malta is what's left of a larger

1118

00:50:36,520 --> 00:50:33,500

land you know again arcing back to

1119

00:50:38,650 --> 00:50:36,530

the Atlantis idea and of course some of

1120

00:50:42,130 --> 00:50:38,660

you know we give the idea of Atlantis

1121

00:50:44,770 --> 00:50:42,140

anymore to really any kind of land that

1122

00:50:46,870 --> 00:50:44,780

has sunk the ocean but if you look I

1123

00:50:49,210 --> 00:50:46,880

mean you'll see that all across the

1124

00:50:51,910 --> 00:50:49,220

globe there's indications of this that

1125

00:50:52,750 --> 00:50:51,920

what now may be nothing more than just a

1126

00:50:54,850 --> 00:50:52,760

little island

1127

00:50:56,800 --> 00:50:54,860

you know poke it out from the ocean now

1128

00:51:00,670 --> 00:50:56,810

at one time used to be something that

1129

00:51:04,480 --> 00:51:00,680

was landmass that was a lot larger but

1130

00:51:07,240 --> 00:51:04,490

the whole Malta cavern situation is

1131

00:51:09,370 --> 00:51:07,250

something that you'll also see in other

1132

00:51:12,100 --> 00:51:09,380

locations around the globe I mean there

1133

00:51:14,860 --> 00:51:12,110

are you're almost almost exactly the

1134

00:51:17,890 --> 00:51:14,870

same types of situations where you will

1135

00:51:20,080 --> 00:51:17,900

have layer upon layer of caverns with

1136

00:51:22,690 --> 00:51:20,090

the oldest ones being the deepest and

1137

00:51:26,380 --> 00:51:22,700

some of these deepest caverns seem to

1138

00:51:29,140 --> 00:51:26,390

show some kind of human or whatever type

1139

00:51:31,660 --> 00:51:29,150

of activity possibly even you know

1140

00:51:35,770 --> 00:51:31,670

before the last ice age which you know

1141

00:51:37,960 --> 00:51:35,780

again according to modern science before

1142

00:51:39,580 --> 00:51:37,970

that I mean humans were really nothing

1143

00:51:41,680 --> 00:51:39,590

more than just brute running around

1144

00:51:45,370 --> 00:51:41,690

knocking each other and head with rocks

1145

00:51:47,710 --> 00:51:45,380

no way having the sophistication to to

1146

00:51:50,140 --> 00:51:47,720

carve out these sophisticated cavern

1147

00:51:52,240 --> 00:51:50,150

systems that we're finding you or not

1148

00:51:54,820 --> 00:51:52,250

again not only multi-button but in other

1149

00:51:57,780 --> 00:51:54,830

locations and you know you pointed out

1150

00:52:00,460 --> 00:51:57,790

the idea that these caverns were

1151  
00:52:04,150 --> 00:52:00,470  
acoustically perfect to the point where

1152  
00:52:07,870 --> 00:52:04,160  
at the secret location you could talk

1153  
00:52:10,600 --> 00:52:07,880  
quietly and it would echo throughout the

1154  
00:52:13,150 --> 00:52:10,610  
entire system almost like like a

1155  
00:52:15,930 --> 00:52:13,160  
prehistoric PA system there's other

1156  
00:52:19,060 --> 00:52:15,940  
location you know there is a location in

1157  
00:52:22,990 --> 00:52:19,070  
New England I think it's in the American

1158  
00:52:27,190 --> 00:52:23,000  
Stonehenge where they have found some of

1159  
00:52:29,920 --> 00:52:27,200  
these underground structures that if you

1160  
00:52:32,980 --> 00:52:29,930  
go to a certain location speak quietly

1161  
00:52:35,890 --> 00:52:32,990  
your voice can be heard throughout this

1162  
00:52:38,800 --> 00:52:35,900  
limited area again where it seems to be

1163  
00:52:41,710 --> 00:52:38,810

that you had somebody like maybe a like

1164

00:52:45,180 --> 00:52:41,720

a priest system that would guide the

1165

00:52:47,320 --> 00:52:45,190

population one reason or the other by

1166

00:52:49,960 --> 00:52:47,330

pretending to be you know

1167

00:52:52,390 --> 00:52:49,970

spirits or gods or what-have-you and

1168

00:52:55,780 --> 00:52:52,400

that that seems to be the situation that

1169

00:53:00,190 --> 00:52:55,790

is going on in Malta you know some have

1170

00:53:03,390 --> 00:53:00,200

speculated that you have these ancient

1171

00:53:07,860 --> 00:53:03,400

locations say like Malta or Egypt or

1172

00:53:10,990 --> 00:53:07,870

even this fairly recently discovered

1173

00:53:12,370 --> 00:53:11,000

location in Turkey you know where

1174

00:53:15,070 --> 00:53:12,380

they've discovered these really

1175

00:53:18,580 --> 00:53:15,080

sophisticated megalithic structures and

1176

00:53:20,640 --> 00:53:18,590

carvings that go really to the very hot

1177

00:53:23,680 --> 00:53:20,650

no it seems to be the very beginning of

1178

00:53:26,050 --> 00:53:23,690

mankind and even a little bit past from

1179

00:53:31,270 --> 00:53:26,060

what we thought we knew where there

1180

00:53:36,310 --> 00:53:31,280

seems to have been maybe an outside

1181

00:53:37,420 --> 00:53:36,320

influence going on from yeah and again I

1182

00:53:39,510 --> 00:53:37,430

mean you know you have the ancient

1183

00:53:41,050 --> 00:53:39,520

astronaut theorists who say that

1184

00:53:45,370 --> 00:53:41,060

extraterrestrials from other planets

1185

00:53:48,700 --> 00:53:45,380

came here and taught our early ancestors

1186

00:53:50,860 --> 00:53:48,710

you know the ways of civilization by

1187

00:53:52,930 --> 00:53:50,870

either pretending to be gods or just you

1188

00:53:55,360 --> 00:53:52,940

know doing you know what they would we

1189

00:53:59,920 --> 00:53:55,370

just interpreted them as gods or it

1190

00:54:03,730 --> 00:53:59,930

could be where you have remnants of an

1191

00:54:06,310 --> 00:54:03,740

even earlier technological civilization

1192

00:54:09,580 --> 00:54:06,320

that for one reason or another was

1193

00:54:13,030 --> 00:54:09,590

destroyed or died or what have you and

1194

00:54:15,970 --> 00:54:13,040

that you had like these small groups of

1195

00:54:19,390 --> 00:54:15,980

survivors that were scattered across the

1196

00:54:22,510 --> 00:54:19,400

globe and then kind of restarted

1197

00:54:26,560 --> 00:54:22,520

civilization from these locations and

1198

00:54:30,190 --> 00:54:26,570

done you know Egypt Malta places and you

1199

00:54:32,950 --> 00:54:30,200

know I can China South America places

1200

00:54:34,570 --> 00:54:32,960

like that that seem to be like the seeds

1201  
00:54:36,910 --> 00:54:34,580  
that's you know that's really a good way

1202  
00:54:41,230 --> 00:54:36,920  
to describe it they're like seed points

1203  
00:54:44,470 --> 00:54:41,240  
where civilization restarted and then

1204  
00:54:46,660 --> 00:54:44,480  
spread across the globe so you know I

1205  
00:54:48,640 --> 00:54:46,670  
suppose it's a matter of interpretation

1206  
00:54:50,650 --> 00:54:48,650  
whether or not you know if you believe

1207  
00:54:52,150 --> 00:54:50,660  
in ancient astronauts or ancient aliens

1208  
00:54:54,550 --> 00:54:52,160  
you know whether or not these seed

1209  
00:54:57,160 --> 00:54:54,560  
points were brought about by visitors

1210  
00:54:59,620 --> 00:54:57,170  
from other planets or or we're talking

1211  
00:55:01,180 --> 00:54:59,630  
about remnants of a past civilization

1212  
00:55:02,890 --> 00:55:01,190  
you know kind of

1213  
00:55:06,190 --> 00:55:02,900

lay in the groundwork for a new

1214

00:55:08,710 --> 00:55:06,200

civilization I'm not discounting the

1215

00:55:11,200 --> 00:55:08,720

idea of ancient aliens or ancient

1216

00:55:13,420 --> 00:55:11,210

astronauts I think that is a good

1217

00:55:15,819 --> 00:55:13,430

possibility but possibly that was

1218

00:55:19,540 --> 00:55:15,829

something that happened a lot further

1219

00:55:21,819 --> 00:55:19,550

back then some of these more and I say

1220

00:55:23,890 --> 00:55:21,829

modern what I mean modern I mean you're

1221

00:55:27,040 --> 00:55:23,900

just right after the Ice Age I said the

1222

00:55:29,109 --> 00:55:27,050

last ice age but yet I do think that

1223

00:55:31,870 --> 00:55:29,119

that we have been visited you know in

1224

00:55:34,839 --> 00:55:31,880

the past and probably still are by aged

1225

00:55:37,240 --> 00:55:34,849

aliens I just think that some of these

1226

00:55:39,760 --> 00:55:37,250

places like Malta that you were

1227

00:55:43,660 --> 00:55:39,770

referring to could actually be starting

1228

00:55:47,130 --> 00:55:43,670

points or restarting points of survivors

1229

00:55:50,620 --> 00:55:47,140

of a past but now you know destroyed a

1230

00:55:54,430 --> 00:55:50,630

technological civilization hell yeah man

1231

00:55:56,290 --> 00:55:54,440

I'm right there with you and man Tim I

1232

00:55:57,640 --> 00:55:56,300

could do this all day but that pretty

1233

00:56:00,490 --> 00:55:57,650

much does bring us to the finish line

1234

00:56:01,990 --> 00:56:00,500

the world is full of weirdness and you

1235

00:56:03,819 --> 00:56:02,000

are doing your damndest to tell the

1236

00:56:05,380 --> 00:56:03,829

people about it I love it

1237

00:56:07,660 --> 00:56:05,390

let them know where they can get more

1238

00:56:09,309 --> 00:56:07,670

Tim Schwartz in their life definitely

1239

00:56:11,410 --> 00:56:09,319

well you know if you want to read any of

1240

00:56:16,420 --> 00:56:11,420

my books always have to do is just go to

1241

00:56:18,370 --> 00:56:16,430

Amazon type in Tim R Swartz SWA RTZ and

1242

00:56:21,579 --> 00:56:18,380

every book I think that I've ever been

1243

00:56:26,890 --> 00:56:21,589

involved with will show up by my website

1244

00:56:29,349 --> 00:56:26,900

is conspiracy journal dot-com at that

1245

00:56:31,990 --> 00:56:29,359

location you can subscribe to my free

1246

00:56:33,790 --> 00:56:32,000

email newsletter it comes out once a

1247

00:56:37,030 --> 00:56:33,800

week it's an aggregate of all the weird

1248

00:56:39,099 --> 00:56:37,040

story that I've wrote across or has been

1249

00:56:43,120 --> 00:56:39,109

said to me by many stringers throughout

1250

00:56:47,380 --> 00:56:43,130

the world you can get it by email or do

1251  
00:56:50,950 --> 00:56:47,390  
you know the RSS feeds and it's all the

1252  
00:56:56,260 --> 00:56:50,960  
strange and weird news that they don't

1253  
00:56:58,809 --> 00:56:56,270  
want you to know of it is very cool well

1254  
00:57:00,400 --> 00:56:58,819  
it's been a real pleasure for me thanks

1255  
00:57:01,480 --> 00:57:00,410  
so much for being here and keep fighting

1256  
00:57:03,280 --> 00:57:01,490  
the good side out there

1257  
00:57:06,220 --> 00:57:03,290  
thank you Greg it's been a pleasure to

1258  
00:57:08,440 --> 00:57:06,230  
be with you today you got it all right

1259  
00:57:11,770 --> 00:57:08,450  
all right people going back to that good

1260  
00:57:13,450 --> 00:57:11,780  
old nonpartisan weird stuff 101 big

1261  
00:57:15,000 --> 00:57:13,460  
thanks to Tim he's been in the game for

1262  
00:57:17,130 --> 00:57:15,010  
a long time

1263  
00:57:19,170 --> 00:57:17,140

probably responsible for reducing me to

1264

00:57:21,630 --> 00:57:19,180

more than a couple things over the years

1265

00:57:24,600 --> 00:57:21,640

if you didn't like this one you are too

1266

00:57:26,670 --> 00:57:24,610

[h\_\_h] serious now I don't care you can

1267

00:57:28,650 --> 00:57:26,680

not like this one if you want to but I

1268

00:57:30,510 --> 00:57:28,660

thought it was good fun these are some

1269

00:57:33,570 --> 00:57:30,520

of my favorite areas of speculation

1270

00:57:36,720 --> 00:57:33,580

enter earth stuff Antarctica stuff that

1271

00:57:38,700 --> 00:57:36,730

description of the caves in Malta and I

1272

00:57:40,830 --> 00:57:38,710

would love actually to visit that area

1273

00:57:42,030 --> 00:57:40,840

of the world I've been thinking about

1274

00:57:44,370 --> 00:57:42,040

this a lot lately

1275

00:57:46,530 --> 00:57:44,380

and I got really the perfect trip I

1276

00:57:48,540 --> 00:57:46,540

think the move is to fly in a Portugal

1277

00:57:50,820 --> 00:57:48,550

where the drugs are legal just to get

1278

00:57:52,740 --> 00:57:50,830

the vacation started then you're so

1279

00:57:54,390 --> 00:57:52,750

close to Spain go over to the coast

1280

00:57:57,330 --> 00:57:54,400

where I hear the weather makes it

1281

00:58:00,060 --> 00:57:57,340

Europe's San Diego then you fly across

1282

00:58:02,370 --> 00:58:00,070

that water so picturesque have a few

1283

00:58:04,650 --> 00:58:02,380

glasses of wine and you arrive in Rome

1284

00:58:07,020 --> 00:58:04,660

you do Rome for a few days you see that

1285

00:58:09,480 --> 00:58:07,030

Colosseum and you are so close to Malta

1286

00:58:12,930 --> 00:58:09,490

you hop over you check those caves you

1287

00:58:14,430 --> 00:58:12,940

holler in that wall hole then ladies and

1288

00:58:16,920 --> 00:58:14,440

gentlemen you go to Egypt because it's

1289

00:58:19,800 --> 00:58:16,930

not far and when you got to get home

1290

00:58:22,350 --> 00:58:19,810

your flight out of Europe it leaves from

1291

00:58:24,470 --> 00:58:22,360

Greece so you make that Egypt Greece

1292

00:58:29,460 --> 00:58:24,480

trip and you think about the old days

1293

00:58:31,980 --> 00:58:29,470

huh I think that's a great two weeks and

1294

00:58:34,440 --> 00:58:31,990

if anybody is free this fall let's start

1295

00:58:36,600 --> 00:58:34,450

the higher side Travel Group and if it

1296

00:58:39,050 --> 00:58:36,610

goes well our next journey will be to

1297

00:58:41,339 --> 00:58:39,060

find those poles ladies and gentlemen

1298

00:58:44,759 --> 00:58:41,349

just to see

1299

00:58:46,890 --> 00:58:44,769

Antarctica you know it's always on my

1300

00:58:49,109 --> 00:58:46,900

mind this is a little something to add

1301

00:58:53,219 --> 00:58:49,119

to the pile along with cliff high from a

1302

00:58:55,289 --> 00:58:53,229

few weeks back so I'm a happy man if you

1303

00:58:57,660 --> 00:58:55,299

listen to the show regularly you know

1304

00:58:59,609 --> 00:58:57,670

that every show is actually two hours

1305

00:59:02,460 --> 00:58:59,619

and I put the first hour out for free

1306

00:59:05,069 --> 00:59:02,470

hoping that you'll like it hoping that

1307

00:59:07,680 --> 00:59:05,079

you'll think man this guy does

1308

00:59:09,509 --> 00:59:07,690

phenomenal interviews and I just don't

1309

00:59:11,460 --> 00:59:09,519

know what my life would be like if I

1310

00:59:13,859 --> 00:59:11,470

didn't have this great show and this

1311

00:59:17,640 --> 00:59:13,869

great resource of amazing authors

1312

00:59:21,690 --> 00:59:17,650

lecturers and researchers of the most

1313

00:59:22,289 --> 00:59:21,700

fringe topics known to man what would I

1314

00:59:24,630 --> 00:59:22,299

do

1315

00:59:26,519 --> 00:59:24,640

well a show without corporate sponsors

1316

00:59:28,799 --> 00:59:26,529

need support sign up for the higher side

1317

00:59:32,759 --> 00:59:28,809

chats plus five dollars a month get

1318

00:59:34,739 --> 00:59:32,769

there was five full to our shows plus

1319

00:59:36,839 --> 00:59:34,749

some other things like lifetime form

1320

00:59:39,509 --> 00:59:36,849

access and downloads of the music I play

1321

00:59:43,049 --> 00:59:39,519

on the show the higher side chats plus

1322

00:59:45,299 --> 00:59:43,059

calm think about it that's all I'm going

1323

00:59:48,180 --> 00:59:45,309

to say in this episode that's second

1324

00:59:50,069 --> 00:59:48,190

hour we get into the Tesla group that

1325

00:59:52,259 --> 00:59:50,079

was tasked with building a ship to get

1326  
00:59:55,200 --> 00:59:52,269  
to Mars responding to a call from

1327  
00:59:58,289 --> 00:59:55,210  
Martian channelers we got more insights

1328  
01:00:00,630 --> 00:59:58,299  
from dr. 2d Lockwood we talked to the

1329  
01:00:02,519 --> 01:00:00,640  
Philadelphia Experiment Al Bielek and

1330  
01:00:04,890 --> 01:00:02,529  
the Montauk Project had to get into

1331  
01:00:07,829 --> 01:00:04,900  
those stories due to Tim's proximity to

1332  
01:00:09,989 --> 01:00:07,839  
a lot of the major figures in them and

1333  
01:00:12,569 --> 01:00:09,999  
we talked about Tim's latest stuff like

1334  
01:00:14,849 --> 01:00:12,579  
time travel and time slip stories the

1335  
01:00:18,089 --> 01:00:14,859  
hidden agenda of the ultra terrestrials

1336  
01:00:20,549 --> 01:00:18,099  
and of course more gallon red mercury

1337  
01:00:23,569 --> 01:00:20,559  
plagues and the deep state everything

1338  
01:00:27,479 --> 01:00:23,579

you could want and more you could say

1339

01:00:29,400 --> 01:00:27,489

this show is like a Tomahawk missile

1340

01:00:32,039 --> 01:00:29,410

strike folks because it covers a lot of

1341

01:00:34,049 --> 01:00:32,049

ground come on over to plus there's

1342

01:00:35,940 --> 01:00:34,059

plenty of signup options I try to make

1343

01:00:37,289 --> 01:00:35,950

it easy I just hope you'll meet me in

1344

01:00:39,599 --> 01:00:37,299

the middle if you like the show that I

1345

01:00:43,140 --> 01:00:39,609

do but thanks for listening anyway

1346

01:00:45,569 --> 01:00:43,150

everybody that's it I've done my part

1347

01:00:52,320 --> 01:00:45,579

your move Hollow Earth hidens into earth

1348

01:01:12,309 --> 01:01:03,099

hello you see no random it's attached

1349

01:01:16,180 --> 01:01:12,319

string control over nine five tribes

1350

01:01:21,930 --> 01:01:16,190

still young now going bad dancing feel

1351

01:01:29,349 --> 01:01:21,940

you hello can hear me

1352

01:01:34,070 --> 01:01:29,359

should I play man I'm some spy agency we

1353

01:02:52,650 --> 01:01:36,690

I'll be thankful when

1354

01:03:07,500 --> 01:02:59,260

so typically talk about stuff sorry

1355

01:03:12,430 --> 01:03:07,510

that's good and well did you ever hear

1356

01:03:31,560 --> 01:03:12,440

arguments nothing really happened

1357

01:05:11,490 --> 01:03:58,630

[Music]

1358

01:05:17,020 --> 01:05:11,500

[Applause]
