[Music]

2
00:00:18,640 --> 00:00:15,850

the planets puppet-masters almost sure

3
00:00:21,390 --> 00:00:18,650

you have a plan it's clearly maybe

4
00:00:24,280 --> 00:00:21,400

something there beyond the realm of man

5
00:00:27,760 --> 00:00:24,290

until we've thoroughly tested every last

6
00:00:32,179 --> 00:00:27,770

pose just did you find the boy you think

7
00:00:32,189 --> 00:00:36,119

where will we be

8
00:00:43,560 --> 00:00:39,340

we know the lying to us just don't know

9
00:00:52,310 --> 00:00:43,570

what to green where would we be without

10
00:01:02,990 --> 00:00:59,770

[Music]

11
00:01:05,329 --> 00:01:03,000

all right higher side chatters as time

12
00:01:07,039 --> 00:01:05,339

goes on sometimes it seems like we spend

13
00:01:09,050 --> 00:01:07,049

so much time in the alternative we

14

00:01:11,539 --> 00:01:09,060

nearly forget what's really holding up

15

00:01:13,880 --> 00:01:11,549

consensus reality because the idea that

16

00:01:15,469 --> 00:01:13,890

the physical is all that exists that

17

00:01:17,840 --> 00:01:15,479

consciousness is nothing more than a

18

00:01:19,609 --> 00:01:17,850

trick of the brain has been proven false

19

00:01:21,680 --> 00:01:19,619

without a doubt even in my limited

20

00:01:23,330 --> 00:01:21,690

experience not to mention the mountain

21

00:01:25,249 --> 00:01:23,340

of research done on remote viewing

22

00:01:28,100 --> 00:01:25,259

near-death experience precognition

23

00:01:29,899 --> 00:01:28,110

dimethyltryptamine self-healing and many

24

00:01:32,149 --> 00:01:29,909

other phenomena and we can clearly see

25

00:01:34,370 --> 00:01:32,159

exist yet somehow remain completely

26

00:01:36,529 --> 00:01:34,380

ignored and dismissed by the gatekeeping

27

00:01:38,779 --> 00:01:36,539

priesthood from on high of what we call

28

00:01:40,760 --> 00:01:38,789

science ISM and that goes for the realm

29

00:01:42,350 --> 00:01:40,770

of geopolitical conspiracy too because

30

00:01:44,389 --> 00:01:42,360

we have plenty of information to show

31

00:01:46,969 --> 00:01:44,399

that our regulatory agencies are more

32

00:01:48,680 --> 00:01:46,979

for show than for safety we know false

33

00:01:50,480 --> 00:01:48,690

flags have been used to start many major

34

00:01:52,510 --> 00:01:50,490

conflicts and it's clear to see that

35

00:01:54,859 --> 00:01:52,520

powerful people almost without exception

36

00:01:56,810 --> 00:01:54,869

come from the same old network of

37

00:01:58,690 --> 00:01:56,820

interlocking secret clubs and think

38

00:02:01,880 --> 00:01:58,700

tanks such as Skull and Bones

39
00:02:04,219 --> 00:02:01,890
Freemasonry Bohemian Grove the CFR the

40
00:02:05,899 --> 00:02:04,229
Bilderberg Group and all the like but

41
00:02:07,639 --> 00:02:05,909
ask any person on the street and they'll

42
00:02:09,249 --> 00:02:07,649
tell you that it all amounts to nothing

43
00:02:11,930 --> 00:02:09,259
because it wasn't on the evening news

44
00:02:14,000 --> 00:02:11,940
well these are things today's guest Alec

45
00:02:16,039 --> 00:02:14,010
securest knows all too well and that he

46
00:02:17,840 --> 00:02:16,049
and I really are on parallel journeys

47
00:02:20,360 --> 00:02:17,850
alex is the host of the popular

48
00:02:22,430 --> 00:02:20,370
skeptical podcast and the author of why

49
00:02:25,490 --> 00:02:22,440
science is wrong about almost everything

50
00:02:27,830 --> 00:02:25,500
and he saw the cracks crevices and

51
00:02:29,780 --> 00:02:27,840
gaping holes ignored by academia and

52
00:02:31,940 --> 00:02:29,790
instead of finding a spoonful of sugar

53
00:02:34,670 --> 00:02:31,950
to help that medicine of denial go down

54
00:02:36,680 --> 00:02:34,680
he embarked on a podcasting journey to

55
00:02:38,030 --> 00:02:36,690
dig into the weirder data and talk to

56
00:02:39,860 --> 00:02:38,040
the bright minds and brilliant

57
00:02:41,330 --> 00:02:39,870
researchers that are just outside the

58
00:02:43,849 --> 00:02:41,340
box that could tell the stories

59
00:02:46,490 --> 00:02:43,859
carefully kept out of the mainstream so

60
00:02:49,039 --> 00:02:46,500
here he is people a fellow SoCal kindred

61
00:02:51,229 --> 00:02:49,049
spirit a data-driven digital detective

62
00:02:53,360 --> 00:02:51,239
in a confrontational co-conspirator and

63
00:02:55,069 --> 00:02:53,370

the plot to overthrow the oligarchs of

64

00:02:57,410 --> 00:02:55,079

sanctioned ideas and break the

65

00:02:59,960 --> 00:02:57,420

consciousness quarantine my friend and

66

00:03:00,620 --> 00:02:59,970

yours Alex welcome to the higher

67

00:03:03,949 --> 00:03:00,630

side

68

00:03:05,929 --> 00:03:03,959

Greg amazing introduction as usual

69

00:03:08,089 --> 00:03:05,939

great to be here as you know my huge fan

70

00:03:10,610 --> 00:03:08,099

of the show so it's gonna be fun you are

71

00:03:12,860 --> 00:03:10,620

too kind man and yes it's gonna be a

72

00:03:15,140 --> 00:03:12,870

real blast thanks for doing it long

73

00:03:17,449 --> 00:03:15,150

overdue you were kind enough to let my

74

00:03:19,190 --> 00:03:17,459

stupid stoner ramblings take up one of

75

00:03:20,629 --> 00:03:19,200

your episodes and I'm really psyched

76

00:03:23,149 --> 00:03:20,639

that could get you over here on my

77

00:03:25,580 --> 00:03:23,159

weirdo show now and I wanted to start

78

00:03:28,789 --> 00:03:25,590

this episode in that kind of classic

79

00:03:30,170 --> 00:03:28,799

skeptical fashion and find a point a

80

00:03:32,179 --> 00:03:30,180

difference that we could have a little

81

00:03:34,429 --> 00:03:32,189

friendly sparring over but I honestly

82

00:03:36,020 --> 00:03:34,439

struggled to find much it seems like

83

00:03:38,300 --> 00:03:36,030

we're pretty well aligned on the

84

00:03:41,479 --> 00:03:38,310

big-ticket items the fact that

85

00:03:43,309 --> 00:03:41,489

psychedelics do have value but also were

86

00:03:45,559 --> 00:03:43,319

used in mind-control experiments and

87

00:03:47,770 --> 00:03:45,569

attempts at culture shaping that the

88

00:03:50,270 --> 00:03:47,780

climate change movement is about control

89

00:03:52,729 --> 00:03:50,280

vaccines have been weaponized and the

90

00:03:54,949 --> 00:03:52,739

data suppressed the material atheist

91

00:03:55,780 --> 00:03:54,959

model is wrong and breaking down more

92

00:03:59,449 --> 00:03:55,790

all the time

93

00:04:02,000 --> 00:03:59,459

9/11 was clearly an inside job UFOs are

94

00:04:04,369 --> 00:04:02,010

both nuts and bolts spacecraft and have

95

00:04:06,110 --> 00:04:04,379

a key consciousness component powerful

96

00:04:08,449 --> 00:04:06,120

people know things about what we call

97

00:04:10,460 --> 00:04:08,459

magic that are hidden from us the data

98

00:04:12,349 --> 00:04:10,470

we have is rarely the full story when

99

00:04:15,589 --> 00:04:12,359

you factor in the conspiratorial cabal's

100

00:04:18,319 --> 00:04:15,599

we both love Southern California I mean

101
00:04:21,020 --> 00:04:18,329
man is there a point of difference

102
00:04:23,300 --> 00:04:21,030
that you think we disagree on we'll find

103
00:04:26,210 --> 00:04:23,310
one believe me it is my specialty area

104
00:04:28,490 --> 00:04:26,220
yes I love it but no I mean I think

105
00:04:31,310 --> 00:04:28,500
you've hit on a bunch of points there

106
00:04:32,749 --> 00:04:31,320
that we are in agreement with we're

107
00:04:35,930 --> 00:04:32,759
coming at it from a slightly different

108
00:04:38,810 --> 00:04:35,940
angle you are way ahead of the curve in

109
00:04:40,730 --> 00:04:38,820
terms of understanding and trying to

110
00:04:43,640 --> 00:04:40,740
understand and integrate the

111
00:04:47,089 --> 00:04:43,650
conspiratorial aspect of it I really

112
00:04:49,999 --> 00:04:47,099
started out as a guy who is asking some

113
00:04:53,149 --> 00:04:50,009

really basic science questions who are

114

00:04:55,339 --> 00:04:53,159

we why are we here and in the process of

115

00:04:57,920 --> 00:04:55,349

asking those questions and trying to get

116

00:05:00,050 --> 00:04:57,930

answers from the people I thought were

117

00:05:02,570 --> 00:05:00,060

the smartest people the people like you

118

00:05:04,670 --> 00:05:02,580

said who were ordained and sanctioned to

119

00:05:08,390 --> 00:05:04,680

be the holders of that knowledge

120

00:05:11,300 --> 00:05:08,400

I just ran smack dab freight train

121

00:05:14,560 --> 00:05:11,310

head-on into conspiracy at every turn

122

00:05:17,089 --> 00:05:14,570

into lies half-truths misinformation

123

00:05:17,900 --> 00:05:17,099

misdirection all the kind of stuff that

124

00:05:19,160 --> 00:05:17,910

is your

125

00:05:21,590 --> 00:05:19,170

bread and butter and that's where I

126

00:05:24,320 --> 00:05:21,600

think we truly are kindred spirits

127

00:05:26,660 --> 00:05:24,330

because it's then getting past that I

128

00:05:29,110 --> 00:05:26,670

mean like I like to say skeptic Oh for

129

00:05:31,780 --> 00:05:29,120

me has evolved into a three-part process

130

00:05:34,580 --> 00:05:31,790

follow the day that wherever it leads

131

00:05:36,020 --> 00:05:34,590

look for the conspiracy because if you

132

00:05:37,940 --> 00:05:36,030

don't it's going to bite you in the ass

133

00:05:40,010 --> 00:05:37,950

you're gonna be taking in stuff that you

134

00:05:43,160 --> 00:05:40,020

shouldn't be taken in and then finally

135

00:05:45,200 --> 00:05:43,170

find the deep spirituality for me that's

136

00:05:45,680 --> 00:05:45,210

answering those questions Who am I

137

00:05:48,140 --> 00:05:45,690

really

138

00:05:51,590 --> 00:05:48,150

why am I here at the end of the day if

139

00:05:55,370 --> 00:05:51,600

I'm not getting some little piece of

140

00:05:57,920 --> 00:05:55,380

information that moves me closer to that

141

00:06:00,950 --> 00:05:57,930

deeper spirituality well then I haven't

142

00:06:03,440 --> 00:06:00,960

really done much mmm well set and I do

143

00:06:05,660 --> 00:06:03,450

love those three guidelines I'm right

144

00:06:07,820 --> 00:06:05,670

there with you and you know the biggest

145

00:06:09,440 --> 00:06:07,830

criticism I get is that I don't

146

00:06:11,840 --> 00:06:09,450

challenge my guests and some of their

147

00:06:14,090 --> 00:06:11,850

wild claims enough and to me that is one

148

00:06:16,400 --> 00:06:14,100

of the most fun parts of skeptic aware

149

00:06:19,130 --> 00:06:16,410

you sort of do the opposite and question

150

00:06:21,440 --> 00:06:19,140

your guests conventional claims and it's

151

00:06:23,540 --> 00:06:21,450

so interesting to see those episodes

152

00:06:25,780 --> 00:06:23,550

where an academic finds themselves in

153

00:06:28,460 --> 00:06:25,790

the hot seat I guess I would ask you

154

00:06:30,800 --> 00:06:28,470

when you do these types of interviews do

155

00:06:32,950 --> 00:06:30,810

you see a certain pattern emerge when

156

00:06:35,780 --> 00:06:32,960

you challenge the paradigm of these PhDs

157

00:06:39,170 --> 00:06:35,790

sometimes their behavior and reactions

158

00:06:42,500 --> 00:06:39,180

can be pretty telling right yeah it's

159

00:06:44,690 --> 00:06:42,510

really something that has truly evolved

160

00:06:47,120 --> 00:06:44,700

over the time I mean I didn't go into it

161

00:06:51,290 --> 00:06:47,130

thinking that that's what I'm going to

162

00:06:53,540 --> 00:06:51,300

do I really went into it kind of naively

163

00:06:55,159 --> 00:06:53,550

thinking that these people could back up

164

00:06:57,560 --> 00:06:55,169

what they're saying and I'm just kind of

165

00:06:59,180 --> 00:06:57,570

naturally someone who is I'm from

166

00:07:01,460 --> 00:06:59,190

Chicago you know you're from Missouri

167

00:07:04,220 --> 00:07:01,470

the show-me-state you got a little bit

168

00:07:06,140 --> 00:07:04,230

of that in me I'm from Chicago wiseguy

169

00:07:08,240 --> 00:07:06,150

like hey you know what are you talking

170

00:07:11,140 --> 00:07:08,250

about back it up you know and when

171

00:07:14,180 --> 00:07:11,150

people didn't back it up then it kind of

172

00:07:16,550 --> 00:07:14,190

embolden me to move even further in that

173

00:07:19,490 --> 00:07:16,560

direction and then what I found really

174

00:07:22,760 --> 00:07:19,500

just is the best is presenting people

175

00:07:25,550 --> 00:07:22,770

with their own writing and where it is a

176

00:07:27,080 --> 00:07:25,560

misrepresentation of the research as

177

00:07:28,190 --> 00:07:27,090

it's known to be you know presenting

178

00:07:31,100 --> 00:07:28,200

someone where they've Mis quoted

179

00:07:31,580 --> 00:07:31,110

somebody I mean how can you not do that

180

00:07:32,990 --> 00:07:31,590

I mean if

181

00:07:35,630 --> 00:07:33,000

you see where they've misquoted or

182

00:07:37,910 --> 00:07:35,640

misinterpreted something then I think

183

00:07:39,470 --> 00:07:37,920

that has to be put on the table and I do

184

00:07:41,510 --> 00:07:39,480

so mm-hmm

185

00:07:44,300 --> 00:07:41,520

I could tell you a quick story about

186

00:07:47,660 --> 00:07:44,310

that if you want absolutely I love these

187

00:07:49,070 --> 00:07:47,670

little stories yeah well since a lot of

188

00:07:53,180 --> 00:07:49,080

what I do like I said is this

189

00:07:54,680 --> 00:07:53,190

consciousness related research stuff I

190

00:07:57,650 --> 00:07:54,690

had this occasion I was talking to this

191

00:08:01,250 --> 00:07:57,660

woman head of this department at this

192

00:08:02,900 --> 00:08:01,260

University in San Francisco since her

193

00:08:05,840 --> 00:08:02,910

whole departments about consciousness I

194

00:08:07,130 --> 00:08:05,850

was like keen to drill into this a

195

00:08:09,890 --> 00:08:07,140

little bit because I thought she'd

196

00:08:11,810 --> 00:08:09,900

missed the boat as we were chatting a

197

00:08:14,980 --> 00:08:11,820

little bit about prior to the interview

198

00:08:17,090 --> 00:08:14,990

that this consciousness thing really is

199

00:08:19,880 --> 00:08:17,100

fundamentally about some deep things

200

00:08:22,130 --> 00:08:19,890

about who we are are we these biological

201
00:08:25,550 --> 00:08:22,140
robots is consciousness an illusion or

202
00:08:27,710 --> 00:08:25,560
is there something more and you ask any

203
00:08:30,380 --> 00:08:27,720
six-year-old and he'll say well there's

204
00:08:32,720 --> 00:08:30,390
something more I'm real I have feelings

205
00:08:34,880 --> 00:08:32,730
you know and it's totally absurd and

206
00:08:37,780 --> 00:08:34,890
it's probably hard for some of your

207
00:08:41,030 --> 00:08:37,790
listeners to even believe that

208
00:08:44,030 --> 00:08:41,040
mainstream science still dabbles with

209
00:08:47,630 --> 00:08:44,040
and primarily supports the idea that

210
00:08:51,050 --> 00:08:47,640
consciousness your day by day minute by

211
00:08:53,240 --> 00:08:51,060
minute experience of who you are is

212
00:08:56,240 --> 00:08:53,250
nothing but an illusion I mean that is a

213
00:08:59,780 --> 00:08:56,250

crazy idea imagine you know you're you

214

00:09:01,910 --> 00:08:59,790

you think you're you you say hello and

215

00:09:05,050 --> 00:09:01,920

there's something that observes that and

216

00:09:07,670 --> 00:09:05,060

hears that you know that's not an

217

00:09:09,980 --> 00:09:07,680

illusion you know if anything in the

218

00:09:13,010 --> 00:09:09,990

world is real that's real you are real

219

00:09:15,380 --> 00:09:13,020

and yet science still dabbles with that

220

00:09:17,930 --> 00:09:15,390

idea that consciousness is an illusion

221

00:09:21,260 --> 00:09:17,940

and in a while we can talk about why

222

00:09:24,470 --> 00:09:21,270

they do what's at stake for them if they

223

00:09:25,730 --> 00:09:24,480

let go of that idea that as you said in

224

00:09:27,560 --> 00:09:25,740

the introduction really doesn't make any

225

00:09:30,560 --> 00:09:27,570

sense the back of the story so I'm

226

00:09:33,530 --> 00:09:30,570

talking this woman you know her pretty

227

00:09:35,660 --> 00:09:33,540

hard and she's probably used to people

228

00:09:37,160 --> 00:09:35,670

kissing her ass pretty good and I'm not

229

00:09:39,350 --> 00:09:37,170

being rude or anything but I'm kind of

230

00:09:43,820 --> 00:09:39,360

being a little bit pushy and finally she

231

00:09:45,830 --> 00:09:43,830

goes why do you care and it kind of set

232

00:09:49,130 --> 00:09:45,840

me aback a little bit because it

233

00:09:51,740 --> 00:09:49,140

why do I care why the don't you

234

00:09:53,570 --> 00:09:51,750

care more yes I mean isn't this the

235

00:09:55,640 --> 00:09:53,580

fundamental question that we should be

236

00:09:57,050 --> 00:09:55,650

asking isn't this what it's really all

237

00:09:59,990 --> 00:09:57,060

about you're playing all these games

238

00:10:02,810 --> 00:10:00,000

with rewording this stuff and misquoting

239

00:10:04,190 --> 00:10:02,820

research and not being attuned to the

240

00:10:05,950 --> 00:10:04,200

research you said you know near-death

241

00:10:08,420 --> 00:10:05,960

experience neural plasticity

242

00:10:10,640 --> 00:10:08,430

reincarnation science you know as a dunt

243

00:10:12,860 --> 00:10:10,650

at the university of virginia genetics

244

00:10:15,530 --> 00:10:12,870

and epigenetics you know all this stuff

245

00:10:16,700 --> 00:10:15,540

which falsifies this materialistic you

246

00:10:19,280 --> 00:10:16,710

are a robot in a meaningless universe

247

00:10:22,340 --> 00:10:19,290

paradigm all that kind of collapses and

248

00:10:26,000 --> 00:10:22,350

she's saying why do you care well I do

249

00:10:27,980 --> 00:10:26,010

care and to turn it back to you that's

250

00:10:30,890 --> 00:10:27,990

one of the things no

251

00:10:35,950 --> 00:10:30,900

that I really really appreciate about

252

00:10:40,280 --> 00:10:37,820

conspirators a lot of stuff out there

253

00:10:43,160 --> 00:10:40,290

that is conspirator what I feel like

254

00:10:46,160 --> 00:10:43,170

when I'm listening to your show is you

255

00:10:49,250 --> 00:10:46,170

care about the underlying truth you care

256

00:10:52,610 --> 00:10:49,260

about nudging closer to is this true is

257

00:10:54,980 --> 00:10:52,620

this not true and that to me is the

258

00:10:57,650 --> 00:10:54,990

corollary with the consciousness stuff

259

00:11:00,200 --> 00:10:57,660

because if we're not biological robots

260

00:11:03,980 --> 00:11:00,210

and a meaningless universe if were more

261

00:11:06,620 --> 00:11:03,990

and I think we are then there's a lot of

262

00:11:09,110 --> 00:11:06,630

that we gotta sort through mm-hmm

263

00:11:11,420 --> 00:11:09,120

well said man and I appreciate the kind

264

00:11:12,680 --> 00:11:11,430

words and before this started we were

265

00:11:14,270 --> 00:11:12,690

talking about that science of

266

00:11:16,220 --> 00:11:14,280

consciousness conference something that

267

00:11:18,050 --> 00:11:16,230

happened in our neck of the woods and I

268

00:11:19,670 --> 00:11:18,060

really wish I would have hit you up so

269

00:11:22,130 --> 00:11:19,680

we could go together because it is way

270

00:11:25,640 --> 00:11:22,140

more in your wheelhouse but so many of

271

00:11:28,610 --> 00:11:25,650

the presentations by these Silicon

272

00:11:30,470 --> 00:11:28,620

Valley folks were about building a

273

00:11:33,050 --> 00:11:30,480

better AI and where they are with that

274

00:11:35,480 --> 00:11:33,060

process and it was always about building

275

00:11:37,940 --> 00:11:35,490

a computer based off of the brain

276

00:11:39,860 --> 00:11:37,950

structure and I'm sitting there the

277

00:11:41,510 --> 00:11:39,870

least educated person in the room and

278

00:11:43,579 --> 00:11:41,520

I'm thinking I haven't heard one person

279

00:11:46,430 --> 00:11:43,589

bring up the fact that there's an

280

00:11:48,320 --> 00:11:46,440

element to our mind that is not the

281

00:11:50,180 --> 00:11:48,330

physical brain I mean it's not the

282

00:11:52,610 --> 00:11:50,190

physical brain that's floating out of

283

00:11:54,410 --> 00:11:52,620

our body for astral travel it's not the

284

00:11:57,140 --> 00:11:54,420

physical brain that is floating around

285

00:11:59,720 --> 00:11:57,150

doing the remote viewing that apparently

286

00:12:02,449 --> 00:11:59,730

actually happens as hard as that might

287

00:12:04,639 --> 00:12:02,459

to believe the data supports it and so

288

00:12:08,389 --> 00:12:04,649

there's obviously something else there

289

00:12:10,910 --> 00:12:08,399

and it's just crazy that an entire field

290

00:12:13,009 --> 00:12:10,920

of you'd think the brightest minds are

291

00:12:15,350 --> 00:12:13,019

in denial about it I think they're too

292

00:12:17,810 --> 00:12:15,360

smart to be in denial in some cases and

293

00:12:20,360 --> 00:12:17,820

I think that obviously like you said

294

00:12:23,720 --> 00:12:20,370

conspiracy touches on these areas

295

00:12:26,150 --> 00:12:23,730

it sure does and I always credit our

296

00:12:28,280 --> 00:12:26,160

buddy Gordon white with being one of the

297

00:12:29,870 --> 00:12:28,290

first people to really drive this home

298

00:12:33,019 --> 00:12:29,880

to me but there's a great conspiracy

299

00:12:36,560 --> 00:12:33,029

story in this one as well because if you

300

00:12:40,069 --> 00:12:36,570

look into the deep state shadow

301
00:12:43,879 --> 00:12:40,079
government's interest in consciousness

302
00:12:45,740 --> 00:12:43,889
it really started I hate to tie to UFOs

303
00:12:48,290 --> 00:12:45,750
but it really started right about the

304
00:12:50,960 --> 00:12:48,300
time that we suspect they started

305
00:12:53,810 --> 00:12:50,970
getting some information about UFOs and

306
00:12:56,300 --> 00:12:53,820
the occupants of those UFOs and some of

307
00:12:57,949 --> 00:12:56,310
the mind technology that they had in

308
00:12:59,930 --> 00:12:57,959
terms of telepathy and all the rest of

309
00:13:02,240 --> 00:12:59,940
that but if you're not quite ready to go

310
00:13:04,970 --> 00:13:02,250
there just set that aside and just look

311
00:13:08,059 --> 00:13:04,980
at the product of that research right so

312
00:13:10,160 --> 00:13:08,069
you have MKULTRA the famous mind-control

313
00:13:12,199 --> 00:13:10,170

project of the 50s where they did all

314

00:13:15,170 --> 00:13:12,209

these horrible experiments on people but

315

00:13:19,420 --> 00:13:15,180

it was all about understanding how to

316

00:13:22,879 --> 00:13:19,430

manipulate control weaponize if you will

317

00:13:25,850 --> 00:13:22,889

consciousness and they weren't under the

318

00:13:28,160 --> 00:13:25,860

illusion that it was an illusion they

319

00:13:30,559 --> 00:13:28,170

were way past that and if you want even

320

00:13:32,870 --> 00:13:30,569

more evidence of that look at the

321

00:13:35,240 --> 00:13:32,880

Stargate program you referenced again

322

00:13:37,460 --> 00:13:35,250

remote viewing so take it out to

323

00:13:39,920 --> 00:13:37,470

Stanford Research Institute right up the

324

00:13:42,290 --> 00:13:39,930

road he'll put off Russell Targ Uri

325

00:13:45,019 --> 00:13:42,300

Geller all names that people might

326

00:13:47,990 --> 00:13:45,029

recognize they're doing remote viewing

327

00:13:51,199 --> 00:13:48,000

they're doing psychic spying on the

328

00:13:52,759 --> 00:13:51,209

Russians on the Chinese on the American

329

00:13:54,769 --> 00:13:52,769

people of course they never include the

330

00:13:59,019 --> 00:13:54,779

people but of course they're doing that

331

00:14:01,610 --> 00:13:59,029

this completely presupposes that

332

00:14:05,120 --> 00:14:01,620

consciousness is more than consciousness

333

00:14:07,550 --> 00:14:05,130

is as you say outside of the brain as

334

00:14:09,470 --> 00:14:07,560

well as inside the brain because we do

335

00:14:12,290 --> 00:14:09,480

know there is a relationship between the

336

00:14:13,580 --> 00:14:12,300

brain and consciousness so anyways how

337

00:14:15,350 --> 00:14:13,590

are these guys front

338

00:14:18,200 --> 00:14:15,360

like this how are they fronting at this

339

00:14:20,540 --> 00:14:18,210

conference how is deepak chopra who on

340

00:14:22,070 --> 00:14:20,550

one hand is kind of speaking out of one

341

00:14:24,200 --> 00:14:22,080

side of his mouth and going oh yeah you

342

00:14:25,520 --> 00:14:24,210

know it's so much more but then can rub

343

00:14:27,920 --> 00:14:25,530

shoulders with all the Silicon Valley

344

00:14:30,500 --> 00:14:27,930

guys and go hey man if you can build AI

345

00:14:32,240 --> 00:14:30,510

and do it then do it because we can

346

00:14:36,230 --> 00:14:32,250

build a machine and it's all brain based

347

00:14:40,300 --> 00:14:36,240

stuff I mean there is a real conspiracy

348

00:14:44,710 --> 00:14:40,310

in terms of how consciousness has been

349

00:14:47,990 --> 00:14:44,720

assumed to be more by the deep state so

350

00:14:50,120 --> 00:14:48,000

assume to be spirits are somehow in the

351

00:14:51,800 --> 00:14:50,130

realm demons and all the rest of that

352

00:14:53,480 --> 00:14:51,810

stuff hey we got to consider that as

353

00:14:55,190 --> 00:14:53,490

part of the realm remote viewing we got

354

00:14:57,830 --> 00:14:55,200

to consider that part of the realm but

355

00:15:01,640 --> 00:14:57,840

the marching orders that have been given

356

00:15:05,180 --> 00:15:01,650

to academic science is pretend like none

357

00:15:07,190 --> 00:15:05,190

of that is real and it's not like as you

358

00:15:08,960 --> 00:15:07,200

and I could talk about and I'm sure

359

00:15:11,090 --> 00:15:08,970

you'd agree you know a lot of people

360

00:15:13,280 --> 00:15:11,100

miss hear that and they think oh you

361

00:15:15,500 --> 00:15:13,290

know there's some big smoky room where

362

00:15:17,240 --> 00:15:15,510

everyone gets together and gives their

363

00:15:19,160 --> 00:15:17,250

marching orders you know you say this

364

00:15:21,320 --> 00:15:19,170

you don't say this I don't think that's

365

00:15:23,990 --> 00:15:21,330

how it happens I think it's more than

366

00:15:26,030 --> 00:15:24,000

useful idiot model you know you just

367

00:15:28,310 --> 00:15:26,040

find someone who's parroting what you

368

00:15:29,870 --> 00:15:28,320

already want to say and you put a few

369

00:15:32,030 --> 00:15:29,880

bread crumbs out in front of them a few

370

00:15:34,550 --> 00:15:32,040

pieces of cheese and let him you know

371

00:15:36,380 --> 00:15:34,560

continue to go through the maze the way

372

00:15:38,210 --> 00:15:36,390

you want him to do and you never touch

373

00:15:39,890 --> 00:15:38,220

the gun and then the people who are

374

00:15:42,110 --> 00:15:39,900

saying the wrong thing we know what

375

00:15:44,030 --> 00:15:42,120

happens to them people are saying oh no

376

00:15:46,430 --> 00:15:44,040

there are these other realms there is

377

00:15:48,650 --> 00:15:46,440

the spirituality or this spirit realm

378

00:15:49,550 --> 00:15:48,660

that we have to consider we prune those

379

00:15:51,620 --> 00:15:49,560

off the tree

380

00:15:55,220 --> 00:15:51,630

you know we cut off their research or

381

00:15:58,730 --> 00:15:55,230

worse so how do you see that useful

382

00:16:01,040 --> 00:15:58,740

idiot versus inside player thing working

383

00:16:03,260 --> 00:16:01,050

out that is one thing I really wanted to

384

00:16:05,360 --> 00:16:03,270

so many questions believe but that was

385

00:16:07,190 --> 00:16:05,370

one of them that I wanted to kind of ask

386

00:16:10,040 --> 00:16:07,200

sure well you know I'm not really

387

00:16:12,440 --> 00:16:10,050

married to very many models but I would

388

00:16:14,840 --> 00:16:12,450

say like you if I were to guess I think

389

00:16:16,700 --> 00:16:14,850

it is kind of a lot more useful idiots

390

00:16:19,310 --> 00:16:16,710

out there than it is people who are

391

00:16:21,440 --> 00:16:19,320

actually meeting in those dark rooms

392

00:16:23,780 --> 00:16:21,450

because the way I see it is the

393

00:16:25,760 --> 00:16:23,790

oligarchs all they had to do was control

394

00:16:27,360 --> 00:16:25,770

the education boards and control the

395

00:16:30,329 --> 00:16:27,370

universities and once she

396

00:16:33,120 --> 00:16:30,339

get in there in those formative years of

397

00:16:36,180 --> 00:16:33,130

the American academia system you create

398

00:16:37,860 --> 00:16:36,190

the content and so you're going to breed

399

00:16:39,090 --> 00:16:37,870

all kinds of useful idiots because

400

00:16:42,150 --> 00:16:39,100

you're the ones giving out the

401
00:16:43,560 --> 00:16:42,160
certificates and chastising those who

402
00:16:45,870 --> 00:16:43,570
are going in other directions

403
00:16:48,990 --> 00:16:45,880
you control the career pipelines of all

404
00:16:50,700 --> 00:16:49,000
the scientific realms so right there is

405
00:16:53,760 --> 00:16:50,710
how you kind of control the narrative

406
00:16:56,310 --> 00:16:53,770
and anyone who wants to be successful in

407
00:16:59,010 --> 00:16:56,320
those pools has to do things your way or

408
00:17:01,170 --> 00:16:59,020
they just won't be and that creates the

409
00:17:02,910 --> 00:17:01,180
culture of self-policing these people

410
00:17:05,280 --> 00:17:02,920
will call out their own colleagues if

411
00:17:08,390 --> 00:17:05,290
they're going in these weird areas so I

412
00:17:09,990 --> 00:17:08,400
really think it's that easy sadly I

413
00:17:12,510 --> 00:17:10,000

totally agree with you and I think

414

00:17:14,309 --> 00:17:12,520

that's exactly how it does play out and

415

00:17:17,460 --> 00:17:14,319

you know I think there's another angle

416

00:17:18,960 --> 00:17:17,470

to it too and I had a excellent guest on

417

00:17:21,179 --> 00:17:18,970

who talked about this a guy's a

418

00:17:23,189 --> 00:17:21,189

scientist for longest time at Virginia

419

00:17:26,100 --> 00:17:23,199

Tech and taught science and the history

420

00:17:29,490 --> 00:17:26,110

of science and his point that he added

421

00:17:31,890 --> 00:17:29,500

to it was that you have economic or

422

00:17:35,549 --> 00:17:31,900

market forces added to that that in the

423

00:17:38,190 --> 00:17:35,559

50s there was this glut of PhDs because

424

00:17:40,530 --> 00:17:38,200

we were all pro science after the world

425

00:17:42,390 --> 00:17:40,540

war ii and we saw these opportunities to

426
00:17:45,030 --> 00:17:42,400
make money off of technology so it was

427
00:17:47,970 --> 00:17:45,040
like hey go for it but what happened is

428
00:17:50,340 --> 00:17:47,980
then the market shrunk and then there

429
00:17:53,220 --> 00:17:50,350
were fewer and fewer dollars being

430
00:17:54,870 --> 00:17:53,230
chased by more and more PhDs who we'd

431
00:17:57,720 --> 00:17:54,880
built the system like you said to crank

432
00:18:00,419 --> 00:17:57,730
it out and it kind of had that effect of

433
00:18:02,430 --> 00:18:00,429
making it even easier to control people

434
00:18:04,290 --> 00:18:02,440
cuz now you know there's fewer dollars

435
00:18:07,110 --> 00:18:04,300
and if you can hold on to those dollars

436
00:18:09,030 --> 00:18:07,120
you can really get the rats fighting and

437
00:18:10,980 --> 00:18:09,040
get them to say exactly what you want to

438
00:18:14,040 --> 00:18:10,990

say that guy's name by the way is dr.

439

00:18:18,090 --> 00:18:14,050

Henry Bower great guy great books and

440

00:18:20,790 --> 00:18:18,100

influential ideas hmm now another

441

00:18:23,400 --> 00:18:20,800

question that I wanted to try to hit

442

00:18:25,680 --> 00:18:23,410

early on was the question of why like

443

00:18:27,540 --> 00:18:25,690

why do you think consciousness and

444

00:18:29,580 --> 00:18:27,550

things like near-death experience and

445

00:18:31,200 --> 00:18:29,590

remote viewing research are such a

446

00:18:33,030 --> 00:18:31,210

threat to the establishment why does the

447

00:18:34,470 --> 00:18:33,040

state feel the need to dig their heels

448

00:18:37,050 --> 00:18:34,480

in on this idea that consciousness

449

00:18:39,210 --> 00:18:37,060

doesn't exist when the church had been

450

00:18:42,120 --> 00:18:39,220

able to rule over us pretty damn well

451

00:18:45,029 --> 00:18:42,130

when the idea of a saw was pretty

452

00:18:47,070 --> 00:18:45,039

well you might have hit on part of the

453

00:18:49,260 --> 00:18:47,080

reason I'll think that's kind of a false

454

00:18:52,230 --> 00:18:49,270

dichotomy that's been set up this idea

455

00:18:55,409 --> 00:18:52,240

of science versus religion but to

456

00:18:57,570 --> 00:18:55,419

whatever extent it's been set up it's

457

00:18:59,430 --> 00:18:57,580

pretty well-established and they play

458

00:19:02,279 --> 00:18:59,440

off it beautifully right so you're

459

00:19:04,860 --> 00:19:02,289

either an atheistic scientist or you're

460

00:19:06,930 --> 00:19:04,870

a religious person you know whenever you

461

00:19:09,330 --> 00:19:06,940

start talking about spirituality people

462

00:19:11,190 --> 00:19:09,340

wind up saying what are you you know

463

00:19:13,260 --> 00:19:11,200

which is like right you have to be

464

00:19:15,240 --> 00:19:13,270

pigeonholed you know I'm a Catholic I'm

465

00:19:18,419 --> 00:19:15,250

Jewish I'm what a ridiculous idea

466

00:19:21,450 --> 00:19:18,429

they're all these traditions that are

467

00:19:23,490 --> 00:19:21,460

based on cultish practices and

468

00:19:25,049 --> 00:19:23,500

controlling people you know and I piss

469

00:19:26,870 --> 00:19:25,059

off a lot of people when I say that but

470

00:19:30,659 --> 00:19:26,880

I don't know how you can really

471

00:19:32,549 --> 00:19:30,669

interpret that any differently sure

472

00:19:34,649 --> 00:19:32,559

there might have been some spiritual

473

00:19:36,240 --> 00:19:34,659

truths behind that but that's kind of

474

00:19:38,310 --> 00:19:36,250

where it evolved but it's even worse

475

00:19:40,860 --> 00:19:38,320

when you look over on the atheistic

476

00:19:43,169 --> 00:19:40,870

science side I mean their proposition

477

00:19:45,330 --> 00:19:43,179

again that we're biological robots in a

478

00:19:47,880 --> 00:19:45,340

meaningless universe is completely

479

00:19:52,380 --> 00:19:47,890

absurd and falsified like we say but as

480

00:19:55,770 --> 00:19:52,390

to why they bet everything on this

481

00:19:59,430 --> 00:19:55,780

proposition because if consciousness is

482

00:20:01,380 --> 00:19:59,440

more then they have to go back to the

483

00:20:03,390 --> 00:20:01,390

church they have to go back to their

484

00:20:06,690 --> 00:20:03,400

arch enemy on the other side and say oh

485

00:20:09,870 --> 00:20:06,700

you were right there is more to

486

00:20:13,620 --> 00:20:09,880

consider and since as scientists our job

487

00:20:16,289 --> 00:20:13,630

our whole idea is that we can measure

488

00:20:19,440 --> 00:20:16,299

the outside world we can measure it

489

00:20:21,990 --> 00:20:19,450

compare it contrast it and report back

490

00:20:24,029 --> 00:20:22,000

to you about how it works and if you

491

00:20:27,049 --> 00:20:24,039

introduce now the idea that

492

00:20:29,700 --> 00:20:27,059

fundamentally consciousness is

493

00:20:31,529 --> 00:20:29,710

overriding or underlying however you

494

00:20:34,440 --> 00:20:31,539

want to put it but that consciousness is

495

00:20:36,779 --> 00:20:34,450

fundamental to all that now all bets are

496

00:20:38,760 --> 00:20:36,789

off you know as I said in the book I

497

00:20:41,460 --> 00:20:38,770

give the example of boiling water let's

498

00:20:42,899 --> 00:20:41,470

take the most simple science experiment

499

00:20:46,080 --> 00:20:42,909

you can think of it's like what

500

00:20:47,850 --> 00:20:46,090

temperature does water boil at and some

501
00:20:50,730 --> 00:20:47,860
guy goes okay that's easy it's you know

502
00:20:52,860 --> 00:20:50,740
212 degrees Fahrenheit or whatever they

503
00:20:53,950 --> 00:20:52,870
go well hold on I have to control for

504
00:20:57,100 --> 00:20:53,960
all the variable

505
00:20:59,019 --> 00:20:57,110
what if you're up on the top of really

506
00:21:01,210 --> 00:20:59,029
high mountain okay well yeah we have to

507
00:21:02,529 --> 00:21:01,220
control for altitude that varies it so

508
00:21:03,750 --> 00:21:02,539
we have to get all our controls in place

509
00:21:06,220 --> 00:21:03,760
okay

510
00:21:08,769 --> 00:21:06,230
consciousness is not illusion there's a

511
00:21:11,560 --> 00:21:08,779
spiritual realm is that influencing the

512
00:21:13,120 --> 00:21:11,570
boiling water how many angels were on

513
00:21:15,880 --> 00:21:13,130

the head of the thermometer when you

514

00:21:18,639 --> 00:21:15,890

placed it in the water these are on one

515

00:21:20,769 --> 00:21:18,649

hit absurd questions but science can

516

00:21:23,620 --> 00:21:20,779

look around the corner and see that if

517

00:21:25,690 --> 00:21:23,630

it lets the game go that's where it goes

518

00:21:28,180 --> 00:21:25,700

right right it goes to where those

519

00:21:30,789 --> 00:21:28,190

questions do have to be put on the table

520

00:21:33,070 --> 00:21:30,799

and science at that point is obsoleted

521

00:21:36,430 --> 00:21:33,080

itself in saying we've done the best we

522

00:21:39,190 --> 00:21:36,440

can with this kind of little game that

523

00:21:41,409 --> 00:21:39,200

we've played but since consciousness

524

00:21:44,710 --> 00:21:41,419

extends beyond what we can measure

525

00:21:48,580 --> 00:21:44,720

currently extends beyond what we can

526

00:21:50,919 --> 00:21:48,590

observe then our game is up we have to

527

00:21:53,200 --> 00:21:50,929

put an asterisk by everything we do and

528

00:21:54,880 --> 00:21:53,210

saying we did the best we could but we

529

00:21:57,130 --> 00:21:54,890

weren't able to factor in consciousness

530

00:21:58,960 --> 00:21:57,140

because well nobody understands how many

531

00:22:01,630 --> 00:21:58,970

angels spit on the head of a thermometer

532

00:22:03,100 --> 00:22:01,640

you know right and I do think you're

533

00:22:05,680 --> 00:22:03,110

correct and it is a false dichotomy

534

00:22:07,330 --> 00:22:05,690

that's been set up to kind of control

535

00:22:09,490 --> 00:22:07,340

both sides of course something I'm

536

00:22:11,529 --> 00:22:09,500

always reminded of is the Big Bang

537

00:22:13,659 --> 00:22:11,539

Theory was cooked up by a Vatican

538

00:22:16,299 --> 00:22:13,669

astronomer you know the book of Genesis

539

00:22:18,940 --> 00:22:16,309

for scientists came from the same source

540

00:22:20,649 --> 00:22:18,950

that is the complete opposite side of

541

00:22:23,860 --> 00:22:20,659

the coin I just find that fascinating

542

00:22:26,440 --> 00:22:23,870

that one little point and I guess I

543

00:22:29,919 --> 00:22:26,450

would say we really need to know exactly

544

00:22:32,080 --> 00:22:29,929

what those Fifty's projects discovered

545

00:22:34,720 --> 00:22:32,090

about consciousness so that we could

546

00:22:37,330 --> 00:22:34,730

really understand why they hit us so

547

00:22:39,039 --> 00:22:37,340

hard in the later years with material

548

00:22:41,289 --> 00:22:39,049

atheism because I think that's kind of

549

00:22:43,720 --> 00:22:41,299

the key to understanding it we have

550

00:22:45,970 --> 00:22:43,730

speculations that they're breaking the

551
00:22:48,700 --> 00:22:45,980
minds of children and opening up portals

552
00:22:50,560 --> 00:22:48,710
to communications with entities and you

553
00:22:53,830 --> 00:22:50,570
really got to wonder like what the hell

554
00:22:56,169 --> 00:22:53,840
did they discover that I would say that

555
00:22:58,180 --> 00:22:56,179
the material atheism roll out was a real

556
00:23:00,820 --> 00:22:58,190
reaction to because I went to a private

557
00:23:02,710 --> 00:23:00,830
Catholic school and in my environment I

558
00:23:05,169 --> 00:23:02,720
was rebellious in the best way to be a

559
00:23:07,330 --> 00:23:05,179
rebel was to be a Material atheist to

560
00:23:08,019 --> 00:23:07,340
bring Christopher Hitchens book to class

561
00:23:11,919 --> 00:23:08,029
I

562
00:23:14,409 --> 00:23:11,929
line of getting in serious trouble and

563
00:23:16,060 --> 00:23:14,419

you know you're not gonna actually send

564

00:23:18,009 --> 00:23:16,070

a kid to the principal's office for

565

00:23:21,279 --> 00:23:18,019

bringing a book to class that says God

566

00:23:23,440 --> 00:23:21,289

is not real but you might want to and so

567

00:23:24,879 --> 00:23:23,450

to me at that time my life that was

568

00:23:26,070 --> 00:23:24,889

really interesting but at least I can

569

00:23:29,109 --> 00:23:26,080

look back and acknowledge that

570

00:23:30,940 --> 00:23:29,119

Christopher Hitchens Richard Dawkins a

571

00:23:33,279 --> 00:23:30,950

lot of these guys came out at the same

572

00:23:35,979 --> 00:23:33,289

time with New York Times bestsellers

573

00:23:37,690 --> 00:23:35,989

about atheism and now it does look a

574

00:23:40,089 --> 00:23:37,700

little bit like a roll out to me it's

575

00:23:42,489 --> 00:23:40,099

kind of curious in retrospect do you

576
00:23:45,399 --> 00:23:42,499
have those same thoughts well

577
00:23:47,200 --> 00:23:45,409
I view it as multifaceted the discussion

578
00:23:49,119 --> 00:23:47,210
we were having about how the educational

579
00:23:51,759 --> 00:23:49,129
process works and I think you nailed it

580
00:23:53,769 --> 00:23:51,769
if you control the institutions and the

581
00:23:55,419 --> 00:23:53,779
educational boards and the educational

582
00:23:57,489 --> 00:23:55,429
committees and more importantly if you

583
00:24:00,159 --> 00:23:57,499
control the money the grants that whole

584
00:24:01,269 --> 00:24:00,169
system you can shape it in a direction

585
00:24:04,149 --> 00:24:01,279
where it then becomes a

586
00:24:06,310 --> 00:24:04,159
self-perpetuating machine that goes in

587
00:24:08,440 --> 00:24:06,320
this certain direction and I think a lot

588
00:24:10,450 --> 00:24:08,450

of the materialistic you are a

589

00:24:12,579 --> 00:24:10,460

biological robot in a meaningless

590

00:24:14,889 --> 00:24:12,589

universe stuff is nothing more than that

591

00:24:17,799 --> 00:24:14,899

it's setting the wheels in motion and

592

00:24:20,440 --> 00:24:17,809

then they just run their own course but

593

00:24:22,299 --> 00:24:20,450

this is the conspiratorial work that you

594

00:24:25,450 --> 00:24:22,309

do and why I think it's so important to

595

00:24:29,379 --> 00:24:25,460

raise that and to ask that question to

596

00:24:31,089 --> 00:24:29,389

what extent was there this manufactured

597

00:24:33,129 --> 00:24:31,099

resistance on the part of the

598

00:24:34,419 --> 00:24:33,139

quote-unquote new atheist because

599

00:24:37,359 --> 00:24:34,429

there's two ways of looking at it

600

00:24:39,219 --> 00:24:37,369

there's the angle that you took but also

601
00:24:41,019 --> 00:24:39,229
remember that at that time there was a

602
00:24:43,389 --> 00:24:41,029
rise of the religious right in the

603
00:24:45,999 --> 00:24:43,399
United States particularly from a

604
00:24:47,859 --> 00:24:46,009
political standpoint George Bush figured

605
00:24:50,109 --> 00:24:47,869
out that even though he was a fake

606
00:24:53,049 --> 00:24:50,119
Christian he could really win over a lot

607
00:24:55,749 --> 00:24:53,059
of Christians with this stick that he

608
00:24:58,060 --> 00:24:55,759
did so some of it was no doubt a

609
00:25:00,459 --> 00:24:58,070
political reactionary movement to that

610
00:25:02,979 --> 00:25:00,469
but was there another element as you're

611
00:25:05,950 --> 00:25:02,989
suggesting hey man of course that's on

612
00:25:08,049 --> 00:25:05,960
the table mm-hmm and to further the

613
00:25:10,329 --> 00:25:08,059

point of why this stuff would be a

614

00:25:12,759 --> 00:25:10,339

threat well just imagine if the

615

00:25:15,070 --> 00:25:12,769

floodgates were truly open what if a

616

00:25:17,019 --> 00:25:15,080

hundred million Joe schmo's were trying

617

00:25:19,149 --> 00:25:17,029

to remote view the Pentagon backroom

618

00:25:21,789 --> 00:25:19,159

meetings or project their consciousness

619

00:25:23,889 --> 00:25:21,799

into the Vatican vault you know that

620

00:25:25,720 --> 00:25:23,899

could be something that the elite would

621

00:25:28,090 --> 00:25:25,730

want to worry about or you know

622

00:25:29,979 --> 00:25:28,100

self-healing if that was really explored

623

00:25:31,989 --> 00:25:29,989

it would completely disrupt Big Pharma's

624

00:25:34,509 --> 00:25:31,999

money train it could open up doors to

625

00:25:37,539 --> 00:25:34,519

magic who knows how powerful and

626
00:25:39,729 --> 00:25:37,549
awakened citizenry really could be it's

627
00:25:41,710 --> 00:25:39,739
also the same reason that the ancients

628
00:25:43,960 --> 00:25:41,720
are made to look so stupid you talk

629
00:25:46,570 --> 00:25:43,970
about a lot of these realms of science

630
00:25:49,979 --> 00:25:46,580
well you know it also ties into

631
00:25:53,379 --> 00:25:49,989
archeology and anthropology and just the

632
00:25:55,749 --> 00:25:53,389
exploration of our ancestors Egyptology

633
00:25:58,239 --> 00:25:55,759
I mean there's a clampdown in those

634
00:26:01,019 --> 00:25:58,249
areas too because I think that you can

635
00:26:03,789 --> 00:26:01,029
almost draw a continuity between the

636
00:26:07,060 --> 00:26:03,799
shutdown of all that stuff by the Roman

637
00:26:09,729 --> 00:26:07,070
Empire and then what we have today which

638
00:26:11,169 --> 00:26:09,739

is a culture of academics that says

639

00:26:13,210 --> 00:26:11,179

there's nothing to see there they were

640

00:26:15,129 --> 00:26:13,220

all stupid they're lucky that we brought

641

00:26:17,349 --> 00:26:15,139

them civilization and this is how we do

642

00:26:19,960 --> 00:26:17,359

things now and it really does seem to be

643

00:26:22,029 --> 00:26:19,970

kind of a big umbrella that's covering

644

00:26:24,940 --> 00:26:22,039

the same type of Secrets generation

645

00:26:27,279 --> 00:26:24,950

after generation and let me come at it

646

00:26:29,139 --> 00:26:27,289

from another angle as well that doesn't

647

00:26:31,210 --> 00:26:29,149

take away from all those or the

648

00:26:34,149 --> 00:26:31,220

potential of all those how about the

649

00:26:37,419 --> 00:26:34,159

basic fact that when we make people feel

650

00:26:39,430 --> 00:26:37,429

alone when we make them feel afraid when

651
00:26:42,340 --> 00:26:39,440
we make them feel disempowered like they

652
00:26:45,759 --> 00:26:42,350
don't have any any power in their life

653
00:26:47,379 --> 00:26:45,769
any ability to do anything well aren't

654
00:26:50,379 --> 00:26:47,389
those the kind of people that are a lot

655
00:26:53,229 --> 00:26:50,389
easier to control to manipulate to heard

656
00:26:56,200 --> 00:26:53,239
from here to there then a bunch of wild

657
00:26:58,869 --> 00:26:56,210
ass free thinkers who think that limits

658
00:27:01,149 --> 00:26:58,879
of their consciousness have no limits

659
00:27:03,340 --> 00:27:01,159
and that they can explore and be whoever

660
00:27:06,460 --> 00:27:03,350
they are and that they're not attached

661
00:27:09,970 --> 00:27:06,470
to what they can buy and what they can

662
00:27:12,549 --> 00:27:09,980
consume I mean which group do you want

663
00:27:16,299 --> 00:27:12,559

if you want to herd the cats you know I

664

00:27:18,129 --> 00:27:16,309

want the submissive alone afraid ones no

665

00:27:21,070 --> 00:27:18,139

doubt and I mean if consciousness

666

00:27:23,109 --> 00:27:21,080

affects matter that is just a huge

667

00:27:24,669 --> 00:27:23,119

problem for the elite I guess you could

668

00:27:27,070 --> 00:27:24,679

also say we see a similar thing with

669

00:27:29,619 --> 00:27:27,080

UFOs it might not be that flying saucers

670

00:27:31,450 --> 00:27:29,629

themselves are the problem it's maybe

671

00:27:33,639 --> 00:27:31,460

how easy they are to make or how

672

00:27:35,220 --> 00:27:33,649

disruptive they would be to the oil and

673

00:27:38,190 --> 00:27:35,230

energy industries an apparent

674

00:27:40,409 --> 00:27:38,200

they opened the doors to possibly some

675

00:27:42,900 --> 00:27:40,419

type of off the table physics that could

676
00:27:45,270 --> 00:27:42,910
really change humanity I've also heard

677
00:27:48,840 --> 00:27:45,280
quotes from Tesla that suggests that

678
00:27:52,440 --> 00:27:48,850
with very little effort or resources a

679
00:27:54,570 --> 00:27:52,450
person could use his technologies or his

680
00:27:56,100 --> 00:27:54,580
understanding of science to cause a lot

681
00:27:57,930 --> 00:27:56,110
of destruction things that would make

682
00:28:01,500 --> 00:27:57,940
the atom bomb look small by comparison

683
00:28:03,270 --> 00:28:01,510
and obviously that's a concern to the

684
00:28:05,549 --> 00:28:03,280
elite and everybody but I've heard some

685
00:28:06,960 --> 00:28:05,559
kind of elite apologists say well they

686
00:28:10,080 --> 00:28:06,970
have to suppress all this stuff because

687
00:28:12,150 --> 00:28:10,090
of its destructive power that may be but

688
00:28:14,730 --> 00:28:12,160

it's also disruptive to their piggy bank

689

00:28:17,280 --> 00:28:14,740

so let's not discount that element we've

690

00:28:20,310 --> 00:28:17,290

been down that pathway too many times to

691

00:28:21,960 --> 00:28:20,320

fall for that we need to protect you and

692

00:28:23,570 --> 00:28:21,970

here's how we're gonna do it we're gonna

693

00:28:25,770 --> 00:28:23,580

take away all your rights all the

694

00:28:27,570 --> 00:28:25,780

information that we promised to give you

695

00:28:29,250 --> 00:28:27,580

we'll just take it all away from you but

696

00:28:31,680 --> 00:28:29,260

there's another aspect of that that I

697

00:28:33,360 --> 00:28:31,690

think is very interesting to me and is

698

00:28:38,210 --> 00:28:33,370

certainly current in the news because

699

00:28:41,310 --> 00:28:38,220

you see drip by drip obvious disclosure

700

00:28:43,409 --> 00:28:41,320

charade that is the time to long a New

701
00:28:45,690 --> 00:28:43,419
York Times thing and I say it's a

702
00:28:48,180 --> 00:28:45,700
charade not because it isn't real but

703
00:28:51,570 --> 00:28:48,190
because of the way they framed it right

704
00:28:54,960 --> 00:28:51,580
the New York Times releases the reality

705
00:28:57,330 --> 00:28:54,970
of UFOs and no one says well obviously

706
00:28:59,730 --> 00:28:57,340
this opens the floodgates for the

707
00:29:01,289 --> 00:28:59,740
understanding that this is my boy and

708
00:29:03,030 --> 00:29:01,299
for 60 years it's not like this is the

709
00:29:04,799 --> 00:29:03,040
only program so the government is known

710
00:29:06,659 --> 00:29:04,809
the government has lied to us there's

711
00:29:09,150 --> 00:29:06,669
all these questions but I digress

712
00:29:11,640 --> 00:29:09,160
slightly I mean one part is why aren't

713
00:29:14,430 --> 00:29:11,650

those questions being asked but more

714

00:29:16,860 --> 00:29:14,440

importantly to me is what is being

715

00:29:19,110 --> 00:29:16,870

substituted and introduced as the

716

00:29:21,030 --> 00:29:19,120

questions we should ask what are the

717

00:29:23,520 --> 00:29:21,040

questions that Tom DeLonge is directing

718

00:29:26,100 --> 00:29:23,530

us towards and those are hey how can we

719

00:29:28,110 --> 00:29:26,110

use this to get free energy mm-hmm and

720

00:29:30,480 --> 00:29:28,120

I'm like well wait a minute I'm of the

721

00:29:32,880 --> 00:29:30,490

deep spirituality I'm Breyer we who are

722

00:29:36,210 --> 00:29:32,890

we why are we here and I'm saying you

723

00:29:39,390 --> 00:29:36,220

just dropped the consciousness bomb in

724

00:29:41,310 --> 00:29:39,400

terms of we are more there are other

725

00:29:43,620 --> 00:29:41,320

beings that are more there's this

726

00:29:47,760 --> 00:29:43,630

apparent realm that is outside of our

727

00:29:48,960 --> 00:29:47,770

existence where UFO ETS near-death

728

00:29:54,510 --> 00:29:48,970

experience

729

00:29:56,909 --> 00:29:54,520

Rick Strassman z' patients at New Mexico

730

00:29:59,430 --> 00:29:56,919

who dropped the DMT and then go to this

731

00:30:02,070 --> 00:29:59,440

other realm and there are the grays and

732

00:30:03,029 --> 00:30:02,080

they say glad you're here we've been

733

00:30:04,710 --> 00:30:03,039

waiting for you

734

00:30:06,480 --> 00:30:04,720

so there's this whole other realm that

735

00:30:08,940 --> 00:30:06,490

we've now explored that completely

736

00:30:11,880 --> 00:30:08,950

redefines who we are and what is time to

737

00:30:14,370 --> 00:30:11,890

long saying hey buddy how about some

738

00:30:15,750 --> 00:30:14,380

free energy off of that it's like

739

00:30:20,130 --> 00:30:15,760

your free energy

740

00:30:22,470 --> 00:30:20,140

know how this redefines who I am right

741

00:30:25,529 --> 00:30:22,480

right that is obviously a huge question

742

00:30:28,350 --> 00:30:25,539

as well and I really do like looking at

743

00:30:31,399 --> 00:30:28,360

blink-182 through the lens of like a

744

00:30:34,169 --> 00:30:31,409

Dave McGowan or even a Joe Atwell and

745

00:30:35,940 --> 00:30:34,179

looking at his father you know Tom

746

00:30:38,460 --> 00:30:35,950

DeLonge senior he was an oil company

747

00:30:41,279 --> 00:30:38,470

executive his mother was a mortgage

748

00:30:43,680 --> 00:30:41,289

broker so oil and banking right off the

749

00:30:45,480 --> 00:30:43,690

bat Mark Hoppus the guy who's in the

750

00:30:47,310 --> 00:30:45,490

band with him his father worked for the

751

00:30:50,789 --> 00:30:47,320

US Department of Defense designing

752

00:30:52,710 --> 00:30:50,799

missiles and bombs at the Navy testing

753

00:30:54,690 --> 00:30:52,720

center out here and so both of these

754

00:30:57,149 --> 00:30:54,700

guys are super connected and this is a

755

00:30:59,399 --> 00:30:57,159

bit of a tangent but Travis Barker seems

756

00:31:01,409 --> 00:30:59,409

to be the only one in that band with

757

00:31:03,419 --> 00:31:01,419

actual humble beginnings and funny

758

00:31:06,210 --> 00:31:03,429

enough there's a curious element to his

759

00:31:08,700 --> 00:31:06,220

story he was always afraid to fly in his

760

00:31:10,500 --> 00:31:08,710

teenage years he was quote-unquote sure

761

00:31:12,810 --> 00:31:10,510

he was going to die in some kind of

762

00:31:14,549 --> 00:31:12,820

plane crash also when blink-182 was

763

00:31:16,980 --> 00:31:14,559

putting together artwork for that take

764

00:31:19,440 --> 00:31:16,990

off your pants and jacket album in 2001

765

00:31:21,899 --> 00:31:19,450

they created an icon for each band

766

00:31:24,149 --> 00:31:21,909

member a jacket a pair of pants and an

767

00:31:25,919 --> 00:31:24,159

airplane and Travis is quoted saying

768

00:31:28,140 --> 00:31:25,929

please don't give me the plane I have a

769

00:31:29,580 --> 00:31:28,150

really fucked-up fear of flying but in

770

00:31:31,799 --> 00:31:29,590

the end they gave it to him anyway and

771

00:31:34,230 --> 00:31:31,809

sure enough he almost did die in a

772

00:31:36,720 --> 00:31:34,240

terrible plane crash and there's that

773

00:31:38,820 --> 00:31:36,730

eerie intuition at play number one but

774

00:31:40,740 --> 00:31:38,830

also the idea that these things don't

775

00:31:42,029 --> 00:31:40,750

seem to happen to people in the club as

776

00:31:44,580 --> 00:31:42,039

much as they happen to people right

777

00:31:47,760 --> 00:31:44,590

around the club and that's of course a

778

00:31:50,100 --> 00:31:47,770

tangent but it just raises a whole lot

779

00:31:52,380 --> 00:31:50,110

of red flags about why this would be the

780

00:31:54,600 --> 00:31:52,390

band why Tom DeLonge would be the guy

781

00:31:56,549 --> 00:31:54,610

that the deep state thinks the

782

00:31:58,980 --> 00:31:56,559

population is going to trust I mean I

783

00:32:00,510 --> 00:31:58,990

just think they were way off in that and

784

00:32:01,180 --> 00:32:00,520

that's why he's kind of drifted to the

785

00:32:03,610 --> 00:32:01,190

background

786

00:32:05,440 --> 00:32:03,620

they just thought that he had our trust

787

00:32:08,200 --> 00:32:05,450

and one of the things that didn't go

788

00:32:10,720 --> 00:32:08,210

well was his Joe Rogan interview but it

789

00:32:12,430 --> 00:32:10,730

just doesn't seem like the operation

790

00:32:15,520 --> 00:32:12,440

they were running took the way they

791

00:32:17,860 --> 00:32:15,530

wanted it to take I think you're spot-on

792

00:32:21,970 --> 00:32:17,870

and I don't think I saw that right away

793

00:32:24,430 --> 00:32:21,980

I reacted more to this free energy thing

794

00:32:26,350 --> 00:32:24,440

but I'll tell you one thing I think that

795

00:32:29,020 --> 00:32:26,360

you just touched on and this is like

796

00:32:30,880 --> 00:32:29,030

pure conspiracy stuff but it also

797

00:32:33,370 --> 00:32:30,890

relates to the kind of skeptical mission

798

00:32:35,110 --> 00:32:33,380

and where you see why I've come to the

799

00:32:37,420 --> 00:32:35,120

conclusion that if you're not in the

800

00:32:38,860 --> 00:32:37,430

conspiracy game you're not in the truth

801
00:32:40,810 --> 00:32:38,870
game in general I mean if you're just

802
00:32:43,390 --> 00:32:40,820
trying to find it figure out science if

803
00:32:45,610 --> 00:32:43,400
you're not in the conspiracy game you're

804
00:32:48,970 --> 00:32:45,620
not gonna figure it out

805
00:32:51,370 --> 00:32:48,980
I think the idea that the culture

806
00:32:54,550 --> 00:32:51,380
shapers if you will the people who are

807
00:32:57,400 --> 00:32:54,560
running these little games are much more

808
00:32:59,230 --> 00:32:57,410
in the reactive mode than they are in

809
00:33:00,790 --> 00:32:59,240
the proactive mode I mean they're just

810
00:33:01,750 --> 00:33:00,800
throwing up against the wall and

811
00:33:04,000 --> 00:33:01,760
see if it sticks

812
00:33:05,830 --> 00:33:04,010
so that's where I wouldn't quite go as

813
00:33:07,570 --> 00:33:05,840

far with the time to long thing I mean

814

00:33:10,060 --> 00:33:07,580

not totally shut down to that but I

815

00:33:12,250 --> 00:33:10,070

think it's more like hey this guy pops

816

00:33:14,020 --> 00:33:12,260

up raises his hand and says hey I'm

817

00:33:17,050 --> 00:33:14,030

really interested this and I want to do

818

00:33:20,140 --> 00:33:17,060

it and some guy said speckies hmm how

819

00:33:22,660 --> 00:33:20,150

could we use that MF man he's perfect

820

00:33:25,600 --> 00:33:22,670

he's ringing all our bells that we want

821

00:33:27,820 --> 00:33:25,610

bring him in buddy let's give him the

822

00:33:29,920 --> 00:33:27,830

gospel and see what happens and I think

823

00:33:32,860 --> 00:33:29,930

you're totally right I think they ran

824

00:33:35,050 --> 00:33:32,870

that thing and they went out and all

825

00:33:37,690 --> 00:33:35,060

indications are they thought it was

826

00:33:39,580 --> 00:33:37,700

gonna fly they thought the New York

827

00:33:41,950 --> 00:33:39,590

Times thing and that everyone would be

828

00:33:43,720 --> 00:33:41,960

and it didn't and they don't know but

829

00:33:46,630 --> 00:33:43,730

none of us know why as everyone

830

00:33:49,330 --> 00:33:46,640

distracted is everyone already past that

831

00:33:51,610 --> 00:33:49,340

did everyone see through it as the

832

00:33:54,280 --> 00:33:51,620

charade that it is or the half truth

833

00:33:56,380 --> 00:33:54,290

that it is we don't know and they don't

834

00:33:58,600 --> 00:33:56,390

know either that would be my contention

835

00:33:59,050 --> 00:33:58,610

they're just throwing against the

836

00:34:01,060 --> 00:33:59,060

wall

837

00:34:03,070 --> 00:34:01,070

and seeing how it sticks and when it

838

00:34:05,200 --> 00:34:03,080

doesn't stick then there's a guy in the

839

00:34:07,480 --> 00:34:05,210

back of the room that says you know what

840

00:34:10,210 --> 00:34:07,490

we can use that too you know and but

841

00:34:11,620 --> 00:34:10,220

next round we see will be based on you

842

00:34:14,169 --> 00:34:11,630

know that didn't work and we learn

843

00:34:16,690 --> 00:34:14,179

something from that so let's do this

844

00:34:18,069 --> 00:34:16,700

right they can always back out of a plan

845

00:34:20,589 --> 00:34:18,079

that's kind of something that people

846

00:34:22,809 --> 00:34:20,599

don't seem to realize you can fill the

847

00:34:25,119 --> 00:34:22,819

60s youth with psychedelics and if you

848

00:34:27,329 --> 00:34:25,129

don't like the way they react to it if

849

00:34:29,799 --> 00:34:27,339

they become too anti-establishment

850

00:34:32,200 --> 00:34:29,809

anti-authoritarian anti-war you just

851
00:34:36,099 --> 00:34:32,210
rusher in the war on drugs and lock them

852
00:34:38,710 --> 00:34:36,109
all up exactly great exactly and like

853
00:34:40,389 --> 00:34:38,720
Joe at well is awesome I love talked to

854
00:34:41,950 --> 00:34:40,399
him I've learned so much from them but I

855
00:34:44,440 --> 00:34:41,960
think that's where you're kind of

856
00:34:46,930 --> 00:34:44,450
teasing me about the conspiracy push

857
00:34:50,470 --> 00:34:46,940
back and what we might disagree on I

858
00:34:52,389 --> 00:34:50,480
mean I think there's so many areas to be

859
00:34:55,450 --> 00:34:52,399
a little bit more critical of our own

860
00:34:57,579 --> 00:34:55,460
community you know so joette well has

861
00:34:58,900 --> 00:34:57,589
done as you just interviewed them and

862
00:35:02,260 --> 00:34:58,910
I'm sure you guys talked about this but

863
00:35:03,760 --> 00:35:02,270

this culture shaping thing that the CIA

864

00:35:06,549 --> 00:35:03,770

or the shadow government has been

865

00:35:07,780 --> 00:35:06,559

involved with no doubt but then to think

866

00:35:09,700 --> 00:35:07,790

that they kind of have it all planned

867

00:35:12,549 --> 00:35:09,710

out and it worked out the way it did I

868

00:35:14,319 --> 00:35:12,559

think is the wrong road to go down and I

869

00:35:16,210 --> 00:35:14,329

think you have to challenge that a

870

00:35:18,640 --> 00:35:16,220

little bit and consider the alternative

871

00:35:21,640 --> 00:35:18,650

like what you just said to me makes a

872

00:35:24,099 --> 00:35:21,650

million times more sense in that oh

873

00:35:26,230 --> 00:35:24,109

you know that LSD thing that's doing

874

00:35:28,299 --> 00:35:26,240

exactly what we didn't want it to do you

875

00:35:32,079 --> 00:35:28,309

know it's lighting up everybody and

876

00:35:34,240 --> 00:35:32,089

making them open to a greater reality oh

877

00:35:37,420 --> 00:35:34,250

we can fix that we'll come in with the

878

00:35:38,950 --> 00:35:37,430

war on drugs you don't absolutely I

879

00:35:41,109 --> 00:35:38,960

think it just makes so much sense and

880

00:35:43,839 --> 00:35:41,119

when you consider the mind state of some

881

00:35:46,480 --> 00:35:43,849

of these deep players they're just not

882

00:35:47,890 --> 00:35:46,490

thinking about that awakening that would

883

00:35:51,490 --> 00:35:47,900

occur they're only thinking about

884

00:35:53,950 --> 00:35:51,500

weaponization about truth serums about

885

00:35:56,380 --> 00:35:53,960

that kind of stuff and how they can use

886

00:35:58,930 --> 00:35:56,390

it so I think when they pushed it out

887

00:36:00,130 --> 00:35:58,940

there and maybe this is real speculative

888

00:36:02,799 --> 00:36:00,140

but maybe they learned about a

889

00:36:05,470 --> 00:36:02,809

connection between opening portals and

890

00:36:07,510 --> 00:36:05,480

entities and these entheogens and they

891

00:36:09,819 --> 00:36:07,520

thought let's see what happens when we

892

00:36:10,870 --> 00:36:09,829

give it to thousands of people you know

893

00:36:12,579 --> 00:36:10,880

let's see what happens when we give it

894

00:36:15,309 --> 00:36:12,589

to tens of thousands of people if

895

00:36:17,109 --> 00:36:15,319

anything reacts to it and you know

896

00:36:18,910 --> 00:36:17,119

obviously that's way out there but I

897

00:36:20,440 --> 00:36:18,920

definitely think you can always put the

898

00:36:22,329 --> 00:36:20,450

genie back in the bottle when you pretty

899

00:36:24,609 --> 00:36:22,339

much have control of culture I kind of

900

00:36:27,490 --> 00:36:24,619

think that's what occupy was they let

901
00:36:28,030 --> 00:36:27,500
that thing go in New York for a long

902
00:36:29,950 --> 00:36:28,040
time it

903
00:36:31,840 --> 00:36:29,960
was a big community they had a lending

904
00:36:34,090 --> 00:36:31,850
library they're making meals people are

905
00:36:36,460 --> 00:36:34,100
donating things and then when you're

906
00:36:38,320 --> 00:36:36,470
done seeing how that experiment plays

907
00:36:39,430 --> 00:36:38,330
out you send in the cops and it's gone

908
00:36:42,640 --> 00:36:39,440
in two days

909
00:36:44,260 --> 00:36:42,650
yeah it's that simple but another thing

910
00:36:46,180 --> 00:36:44,270
I wanted to kind of ask you about it

911
00:36:48,310 --> 00:36:46,190
because we don't really get into the

912
00:36:49,990 --> 00:36:48,320
scientific data or the research on

913
00:36:51,640 --> 00:36:50,000

consciousness and side effects very

914

00:36:53,410 --> 00:36:51,650

often because I think some of the

915

00:36:56,230 --> 00:36:53,420

listeners here maybe take those things

916

00:36:57,700 --> 00:36:56,240

for a given but this is an area where

917

00:36:59,590 --> 00:36:57,710

you're very knowledgeable and we all

918

00:37:00,910 --> 00:36:59,600

have to deal with conventional thinkers

919

00:37:03,130 --> 00:37:00,920

in life so it's good to have some

920

00:37:05,650 --> 00:37:03,140

ammunition for the alternative let me

921

00:37:07,600 --> 00:37:05,660

ask it this way if you met a material

922

00:37:09,880 --> 00:37:07,610

atheist in a bar what is the research

923

00:37:12,070 --> 00:37:09,890

that you're citing to best make the case

924

00:37:13,390 --> 00:37:12,080

that there's more to the model than just

925

00:37:15,130 --> 00:37:13,400

the physical what would you confront

926
00:37:18,520 --> 00:37:15,140
them with well there's a couple ways you

927
00:37:20,920 --> 00:37:18,530
could go one you could take your drink

928
00:37:22,930 --> 00:37:20,930
and walk the other way because you're

929
00:37:25,180 --> 00:37:22,940
never going to change that mind you know

930
00:37:28,120 --> 00:37:25,190
belief systems especially these kind are

931
00:37:29,740 --> 00:37:28,130
really hard to penetrate but anyone

932
00:37:32,350 --> 00:37:29,750
who's listening to this show already

933
00:37:35,200 --> 00:37:32,360
knows that has had enough Thanksgiving

934
00:37:36,880 --> 00:37:35,210
dinner conversations to know that people

935
00:37:39,310 --> 00:37:36,890
are married to their beliefs in this

936
00:37:41,530 --> 00:37:39,320
strange way that doesn't allow for a lot

937
00:37:45,220 --> 00:37:41,540
of change but as far as research the

938
00:37:47,680 --> 00:37:45,230

really I think clincher is the

939

00:37:50,230 --> 00:37:47,690

near-death experience science research

940

00:37:52,360 --> 00:37:50,240

but you don't really want to start with

941

00:37:54,370 --> 00:37:52,370

that because they've already kind of

942

00:37:57,580 --> 00:37:54,380

poisoned that well a little bit they

943

00:37:59,290 --> 00:37:57,590

being the other side holding onto the

944

00:38:01,450 --> 00:37:59,300

material of science and they'll throw at

945

00:38:03,970 --> 00:38:01,460

you all these reasons we don't really

946

00:38:05,500 --> 00:38:03,980

know that they're dead and that's why we

947

00:38:07,390 --> 00:38:05,510

call it near-death and if they're dead

948

00:38:11,950 --> 00:38:07,400

they didn't come back or they'll say

949

00:38:15,040 --> 00:38:11,960

when the brain is in that state it still

950

00:38:16,570 --> 00:38:15,050

can record some kind of consciousness as

951
00:38:18,730 --> 00:38:16,580
we've shown at the University of

952
00:38:21,400 --> 00:38:18,740
Michigan and the rats who after they

953
00:38:23,110 --> 00:38:21,410
died still had a burst of brain now let

954
00:38:26,740 --> 00:38:23,120
me since I brought it up tell you the

955
00:38:27,970 --> 00:38:26,750
counter to all those arguments of course

956
00:38:29,740 --> 00:38:27,980
let me back up said the near-death

957
00:38:33,070 --> 00:38:29,750
experience everybody knows is this

958
00:38:35,830 --> 00:38:33,080
widely reported phenomenon that after

959
00:38:38,350 --> 00:38:35,840
people die they have an experience a

960
00:38:40,180 --> 00:38:38,360
conscious memory of both their dying

961
00:38:41,520 --> 00:38:40,190
process but then what happened after

962
00:38:45,180 --> 00:38:41,530
they died

963
00:38:48,150 --> 00:38:45,190

and not only is that a contemporary idea

964

00:38:50,100 --> 00:38:48,160

but you can find that in Plato back in

965

00:38:52,380 --> 00:38:50,110

the ancient Greeks you can find it all

966

00:38:54,270 --> 00:38:52,390

through history and through just about

967

00:38:57,060 --> 00:38:54,280

every culture that you can look at which

968

00:39:00,000 --> 00:38:57,070

is also a sign that scientists look at

969

00:39:02,220 --> 00:39:00,010

for a real phenomenon that is spread

970

00:39:04,860 --> 00:39:02,230

across cultures and across time so if

971

00:39:07,230 --> 00:39:04,870

you look at that and then you say okay

972

00:39:09,630 --> 00:39:07,240

are these near-death experiences really

973

00:39:11,820 --> 00:39:09,640

happening we have a couple of reasons to

974

00:39:15,840 --> 00:39:11,830

think that they really do happen one is

975

00:39:18,810 --> 00:39:15,850

that people have a continuous conscious

976
00:39:21,570 --> 00:39:18,820
experience from the time they have what

977
00:39:22,470 --> 00:39:21,580
typically happens is somebody has a

978
00:39:25,560 --> 00:39:22,480
heart attack

979
00:39:28,410 --> 00:39:25,570
or somebody has a car accident and their

980
00:39:30,600 --> 00:39:28,420
heart stops and immediately they pop

981
00:39:33,600 --> 00:39:30,610
outside their body and they're looking

982
00:39:35,760 --> 00:39:33,610
down on their body so at this point we

983
00:39:39,390 --> 00:39:35,770
don't know the physical condition of

984
00:39:43,230 --> 00:39:39,400
their brain but what we do know through

985
00:39:46,250 --> 00:39:43,240
50 years of work with EEG studies on

986
00:39:49,590 --> 00:39:46,260
animals and humans is that within

987
00:39:53,010 --> 00:39:49,600
usually 10 to 15 seconds but at the most

988
00:39:55,520 --> 00:39:53,020

one minute brain activity that we would

989

00:39:58,410 --> 00:39:55,530

associate with a conscious experience

990

00:39:59,940 --> 00:39:58,420

stops and I was careful the way that I

991

00:40:01,440 --> 00:39:59,950

said that because again you got the

992

00:40:03,270 --> 00:40:01,450

University of Michigan and you little

993

00:40:05,190 --> 00:40:03,280

burst and rats and all this other

994

00:40:08,640 --> 00:40:05,200

that they throw into just muddy

995

00:40:10,800 --> 00:40:08,650

the water all the neurological data all

996

00:40:13,830 --> 00:40:10,810

the neurological research we have

997

00:40:16,110 --> 00:40:13,840

associated with EEG s and other ways of

998

00:40:18,630 --> 00:40:16,120

measuring conscious experience in the

999

00:40:22,530 --> 00:40:18,640

traditional sense suggest that brain

1000

00:40:25,530 --> 00:40:22,540

activity stops within usually 15 seconds

1001
00:40:29,460 --> 00:40:25,540
after the heart stops so if people can

1002
00:40:32,460 --> 00:40:29,470
reliably report conscious experiences

1003
00:40:34,980 --> 00:40:32,470
long after their heart has stopped well

1004
00:40:36,930 --> 00:40:34,990
then you got a real problem for science

1005
00:40:39,300 --> 00:40:36,940
a real problem for a materialism the

1006
00:40:41,250 --> 00:40:39,310
study I always like to point out to

1007
00:40:43,260 --> 00:40:41,260
people because it kind of handles all

1008
00:40:46,920 --> 00:40:43,270
those stupid arguments that people make

1009
00:40:50,010 --> 00:40:46,930
is some research that was done by dr.

1010
00:40:52,800 --> 00:40:50,020
penny Satori in the UK and also done by

1011
00:40:55,200 --> 00:40:52,810
dr. Jan Holden at University of North

1012
00:40:58,230 --> 00:40:55,210
Texas what they did was really simple

1013
00:41:00,810 --> 00:40:58,240

they took a group of cardiac patients

1014

00:41:04,079 --> 00:41:00,820

people who are admitted to the hospital

1015

00:41:05,910 --> 00:41:04,089

because their heart is not so good if

1016

00:41:09,150 --> 00:41:05,920

they go to them beforehand and they say

1017

00:41:10,920 --> 00:41:09,160

hey you might have a heart attack if you

1018

00:41:12,420 --> 00:41:10,930

do have a heart attack we'd like your

1019

00:41:14,579 --> 00:41:12,430

permission that we're gonna do this

1020

00:41:17,820 --> 00:41:14,589

survey with you so they get people to

1021

00:41:19,859 --> 00:41:17,830

agree to that and then invariably people

1022

00:41:21,720 --> 00:41:19,869

have heart attacks when the people have

1023

00:41:23,670 --> 00:41:21,730

heart attacks and they're resuscitated

1024

00:41:25,859 --> 00:41:23,680

they go to them with the survey and the

1025

00:41:28,109 --> 00:41:25,869

survey is really simple it's divided up

1026
00:41:30,660 --> 00:41:28,119
into two groups a control group and

1027
00:41:32,849 --> 00:41:30,670
those are people who had the heart

1028
00:41:35,270 --> 00:41:32,859
attack but didn't have a near-death

1029
00:41:38,250 --> 00:41:35,280
experience they don't claim to have any

1030
00:41:40,470 --> 00:41:38,260
near-death experience any memory of what

1031
00:41:42,359 --> 00:41:40,480
happened after they died the other group

1032
00:41:44,730 --> 00:41:42,369
is the group that had a near-death

1033
00:41:47,150 --> 00:41:44,740
experience and then they asked them a

1034
00:41:50,790 --> 00:41:47,160
series of very simple questions about

1035
00:41:53,430 --> 00:41:50,800
their resuscitation they say hey do you

1036
00:41:56,130 --> 00:41:53,440
recall your resuscitation now you have

1037
00:41:58,670 --> 00:41:56,140
to know that in most modern hospitals

1038
00:42:00,900 --> 00:41:58,680

contrary to what you see on TV

1039

00:42:02,790 --> 00:42:00,910

resuscitation and the paddles and all

1040

00:42:05,250 --> 00:42:02,800

the rest that stuff doesn't happen for

1041

00:42:08,490 --> 00:42:05,260

and the average one to two minutes after

1042

00:42:10,620 --> 00:42:08,500

their heart stops so again we're outside

1043

00:42:12,329 --> 00:42:10,630

of that window when there should be any

1044

00:42:14,790 --> 00:42:12,339

brain activity when the resuscitation

1045

00:42:17,030 --> 00:42:14,800

starts so they go and they start asking

1046

00:42:19,770 --> 00:42:17,040

these people what was the resuscitation

1047

00:42:21,240 --> 00:42:19,780

process like and they have specific

1048

00:42:22,710 --> 00:42:21,250

questions and they asked the control

1049

00:42:24,540 --> 00:42:22,720

group that didn't have a near-death

1050

00:42:26,640 --> 00:42:24,550

experience and they say what are you

1051

00:42:28,290 --> 00:42:26,650

talking about I was dead I don't

1052

00:42:29,940 --> 00:42:28,300

remember anything and they said well

1053

00:42:32,640 --> 00:42:29,950

just do your best what do you think and

1054

00:42:34,920 --> 00:42:32,650

they wind up answering with this stuff

1055

00:42:36,900 --> 00:42:34,930

that sounds like a TV movie you know oh

1056

00:42:38,640 --> 00:42:36,910

well then they came over at the paddles

1057

00:42:40,620 --> 00:42:38,650

and you know this and that happened and

1058

00:42:42,690 --> 00:42:40,630

then they asked the other group and the

1059

00:42:44,880 --> 00:42:42,700

other group says oh no I'll tell you

1060

00:42:46,770 --> 00:42:44,890

exactly what happened as a matter of

1061

00:42:48,630 --> 00:42:46,780

fact there weren't any paddles they

1062

00:42:50,670 --> 00:42:48,640

started doing compressions on my chest

1063

00:42:52,290 --> 00:42:50,680

but the nurse wasn't big enough so she

1064

00:42:54,420 --> 00:42:52,300

called over this other doctor and then

1065

00:42:55,829 --> 00:42:54,430

he took over and Shima went around and

1066

00:42:58,050 --> 00:42:55,839

put something on my head and they did

1067

00:43:00,630 --> 00:42:58,060

this but I remember that the nurse had

1068

00:43:02,220 --> 00:43:00,640

this strange clip hanging off the side

1069

00:43:05,130 --> 00:43:02,230

of her thing they're given all these

1070

00:43:08,940 --> 00:43:05,140

details right that the control group

1071

00:43:12,030 --> 00:43:08,950

doesn't have so one small study

1072

00:43:13,730 --> 00:43:12,040

one small example that blows away and

1073

00:43:18,990 --> 00:43:13,740

again this is published peer-reviewed

1074

00:43:21,990 --> 00:43:19,000

journal it's academic by scientists PhDs

1075

00:43:23,700 --> 00:43:22,000

who know what they're doing and when you

1076

00:43:27,780 --> 00:43:23,710

have survival of consciousness after

1077

00:43:28,620 --> 00:43:27,790

death it completely closes the case we

1078

00:43:30,510 --> 00:43:28,630

could talk about self-directed

1079

00:43:33,000 --> 00:43:30,520

neuroplasticity we can talk about

1080

00:43:34,710 --> 00:43:33,010

epigenetics we can talk about a million

1081

00:43:36,990 --> 00:43:34,720

other things but that near-death

1082

00:43:39,599 --> 00:43:37,000

experience science like I just described

1083

00:43:42,569 --> 00:43:39,609

its case closed it was really no reason

1084

00:43:44,310 --> 00:43:42,579

to come go on after that right yeah I'm

1085

00:43:46,200 --> 00:43:44,320

so glad you did tell that and it makes

1086

00:43:48,420 --> 00:43:46,210

sense because if you're going along in

1087

00:43:51,180 --> 00:43:48,430

your vehicle and your car battery dies

1088

00:43:52,290 --> 00:43:51,190

or the tank runs out of gas you open

1089

00:43:54,210 --> 00:43:52,300

your door and you get out of the

1090

00:43:57,510 --> 00:43:54,220

driver's seat yeah so you know if

1091

00:43:59,760 --> 00:43:57,520

consciousness is kind of the true us in

1092

00:44:01,560 --> 00:43:59,770

this vehicle of a meat body it just

1093

00:44:02,970 --> 00:44:01,570

seems like that's the no-brainer that's

1094

00:44:05,339 --> 00:44:02,980

just how it happens of course a little

1095

00:44:07,620 --> 00:44:05,349

more automatic in the case of

1096

00:44:09,740 --> 00:44:07,630

consciousness but I can see the

1097

00:44:12,540 --> 00:44:09,750

similarities and I really love that

1098

00:44:14,280 --> 00:44:12,550

you're able to get some people on that

1099

00:44:16,319 --> 00:44:14,290

not only can confirm this kind of

1100

00:44:19,440 --> 00:44:16,329

research but also ones who still deny it

1101
00:44:21,510 --> 00:44:19,450
and I have to be honest initially I was

1102
00:44:23,609 --> 00:44:21,520
hesitant to listen to skeptic oh because

1103
00:44:26,190 --> 00:44:23,619
of the name I was like oh this is that

1104
00:44:28,109 --> 00:44:26,200
Michael Shermer skeptics society

1105
00:44:29,849 --> 00:44:28,119
I've heard enough of this but then

1106
00:44:33,000 --> 00:44:29,859
of course it's completely different than

1107
00:44:34,440 --> 00:44:33,010
that and I really think that name works

1108
00:44:35,910 --> 00:44:34,450
to your advantage because some

1109
00:44:37,890 --> 00:44:35,920
researchers who just think of it as

1110
00:44:39,569 --> 00:44:37,900
another media appearance they might not

1111
00:44:41,760 --> 00:44:39,579
dig any deeper and they have completely

1112
00:44:44,910 --> 00:44:41,770
conventional research and they go on a

1113
00:44:46,710 --> 00:44:44,920

show called skeptic Oh to make their

1114

00:44:48,809 --> 00:44:46,720

points and they're confronted with the

1115

00:44:50,520 --> 00:44:48,819

lion's den and I just think that's so

1116

00:44:52,319 --> 00:44:50,530

great maybe if I called my show the

1117

00:44:54,000 --> 00:44:52,329

consensus side schatz i could have some

1118

00:44:56,790 --> 00:44:54,010

of those conversations too but they just

1119

00:44:57,870 --> 00:44:56,800

won't come and talk to me could I just

1120

00:45:00,450 --> 00:44:57,880

tell you something there because it's

1121

00:45:04,170 --> 00:45:00,460

kind of a funny story yeah the name

1122

00:45:06,120 --> 00:45:04,180

skeptic Oh came about because you know I

1123

00:45:08,640 --> 00:45:06,130

started this thing really early on and I

1124

00:45:11,220 --> 00:45:08,650

was kind of looking at these skeptics

1125

00:45:13,260 --> 00:45:11,230

and I wanted to understand if they

1126
00:45:16,559 --> 00:45:13,270
really had a position because I thought

1127
00:45:19,170 --> 00:45:16,569
there was this other side to this but I

1128
00:45:22,430 --> 00:45:19,180
was much more open to their being a real

1129
00:45:24,770 --> 00:45:22,440
genuine argument there but anyways this

1130
00:45:26,599 --> 00:45:24,780
chronicity story is I was kind of hung

1131
00:45:28,250 --> 00:45:26,609
up on The Skeptical thing and I'm a

1132
00:45:31,370 --> 00:45:28,260
genuine skeptic I really don't know what

1133
00:45:33,380 --> 00:45:31,380
I believe so I have this Greek American

1134
00:45:34,970 --> 00:45:33,390
background and I found this skeptic oh I

1135
00:45:37,069 --> 00:45:34,980
found that there were this group of

1136
00:45:39,349 --> 00:45:37,079
thinkers in ancient Greece and they

1137
00:45:40,819 --> 00:45:39,359
questioned everything so I was a great I

1138
00:45:42,829 --> 00:45:40,829

don't even look any further I just plug

1139

00:45:46,640 --> 00:45:42,839

it in the DNS search okay it's available

1140

00:45:49,460 --> 00:45:46,650

grab it you know skeptic Oh with kko not

1141

00:45:53,120 --> 00:45:49,470

until five years later do I say you know

1142

00:45:55,819 --> 00:45:53,130

I at least understand what these guys

1143

00:45:57,980 --> 00:45:55,829

were all about this is five years later

1144

00:46:00,170 --> 00:45:57,990

you know I'm not super on the ball on

1145

00:46:02,990 --> 00:46:00,180

this thing mm-hmm I read this one

1146

00:46:06,140 --> 00:46:03,000

sentence that stuck with me forever

1147

00:46:10,550 --> 00:46:06,150

it's these philosophers and ancient

1148

00:46:15,920 --> 00:46:10,560

Greece who followed the idea of inquiry

1149

00:46:19,490 --> 00:46:15,930

to perpetuate doubt mm Wow is that

1150

00:46:21,440 --> 00:46:19,500

beautiful inquiry to perpetuate doubt

1151

00:46:23,720 --> 00:46:21,450

and to me that has meaning on so many

1152

00:46:27,170 --> 00:46:23,730

different levels but isn't that where we

1153

00:46:29,930 --> 00:46:27,180

want to be perpetuating doubt not

1154

00:46:32,900 --> 00:46:29,940

knowing not coming down for sure not

1155

00:46:35,240 --> 00:46:32,910

saying everything's decided because the

1156

00:46:38,120 --> 00:46:35,250

deeper we get into this I'm sure you'd

1157

00:46:40,160 --> 00:46:38,130

agree it only generates more questions

1158

00:46:41,750 --> 00:46:40,170

we have a sense of knowing about the

1159

00:46:45,020 --> 00:46:41,760

direction we're headed and it's kind of

1160

00:46:47,300 --> 00:46:45,030

good but the spiritual process is that

1161

00:46:50,450 --> 00:46:47,310

process of doubt baby it's perpetual

1162

00:46:53,180 --> 00:46:50,460

doubt yeah man and I do like that story

1163

00:46:54,950 --> 00:46:53,190

you're right skeptic has kind of been a

1164

00:46:56,000 --> 00:46:54,960

term that has changed its meaning or

1165

00:46:59,089 --> 00:46:56,010

means different things to different

1166

00:47:01,339 --> 00:46:59,099

people but that interpretation of being

1167

00:47:03,530 --> 00:47:01,349

skeptical of the official narrative is

1168

00:47:05,720 --> 00:47:03,540

the important aspect and I think that

1169

00:47:07,579 --> 00:47:05,730

that's kind of the definition that's in

1170

00:47:09,950 --> 00:47:07,589

the background for a lot of people these

1171

00:47:11,120 --> 00:47:09,960

days and one more point about the

1172

00:47:13,010 --> 00:47:11,130

near-death experience I was going to

1173

00:47:15,470 --> 00:47:13,020

make is that it's great that some

1174

00:47:16,910 --> 00:47:15,480

doctors and scientists are open to start

1175

00:47:18,890 --> 00:47:16,920

talking about what's happening on the

1176

00:47:20,809 --> 00:47:18,900

operating table of these people but what

1177

00:47:23,569 --> 00:47:20,819

they don't want to talk about very much

1178

00:47:25,010 --> 00:47:23,579

is that almost without exception these

1179

00:47:26,660 --> 00:47:25,020

people even though they see their own

1180

00:47:29,150 --> 00:47:26,670

resuscitation they're also greeted by

1181

00:47:32,780 --> 00:47:29,160

spirits and given messages about life

1182

00:47:34,730 --> 00:47:32,790

that sound a lot like the UFO contactees

1183

00:47:39,940 --> 00:47:34,740

messages that they get wouldn't you

1184

00:47:43,340 --> 00:47:39,950

say yes and no I mean more yes than no

1185

00:47:46,820 --> 00:47:43,350

have you ever ran across ray Hernandez

1186

00:47:48,850 --> 00:47:46,830

and the free group the foundation for

1187

00:47:51,730 --> 00:47:48,860

research into extraterrestrial

1188

00:47:54,140 --> 00:47:51,740

experience I don't think so actually

1189

00:47:56,180 --> 00:47:54,150

interesting guy I'll have to hook you up

1190

00:47:59,780 --> 00:47:56,190

with him because they're the first

1191

00:48:01,760 --> 00:47:59,790

people to really do solid research and

1192

00:48:04,430 --> 00:48:01,770

they have some really heavy hitter

1193

00:48:07,030 --> 00:48:04,440

research dr. Leo sprinkle I think he was

1194

00:48:09,200 --> 00:48:07,040

at Harvard but I mean he's like 30 years

1195

00:48:10,760 --> 00:48:09,210

PhD researcher but they put together a

1196

00:48:13,310 --> 00:48:10,770

very good serve and they kind of asked

1197

00:48:17,000 --> 00:48:13,320

the extended consciousness questions and

1198

00:48:19,000 --> 00:48:17,010

the data set they got back is very very

1199

00:48:22,550 --> 00:48:19,010

close to what you're saying is that

1200

00:48:25,520 --> 00:48:22,560

contrary to the way the abduction

1201

00:48:29,420 --> 00:48:25,530

quote-unquote experience has been spun

1202

00:48:31,910 --> 00:48:29,430

it really looks more like a spiritual

1203

00:48:34,540 --> 00:48:31,920

experience like we'd associate with a

1204

00:48:37,550 --> 00:48:34,550

near-death experience or other

1205

00:48:39,800 --> 00:48:37,560

extraordinary spiritual experiences like

1206

00:48:42,200 --> 00:48:39,810

people have with psychedelics not all

1207

00:48:44,840 --> 00:48:42,210

the time but you get the idea a lot of

1208

00:48:46,910 --> 00:48:44,850

commonality in these extended

1209

00:48:48,830 --> 00:48:46,920

consciousness spiritual experiences just

1210

00:48:51,200 --> 00:48:48,840

like you said yeah I mean there's just

1211

00:48:52,880 --> 00:48:51,210

so much connective tissue between all

1212

00:48:54,920 --> 00:48:52,890

the things that are in the quarantined

1213

00:48:57,200 --> 00:48:54,930

box and I think that's just so

1214

00:48:59,180 --> 00:48:57,210

fascinating that they're connected in

1215

00:49:02,180 --> 00:48:59,190

some way Thea matically to say the least

1216

00:49:04,160 --> 00:49:02,190

and back to that point about skeptic oh

1217

00:49:06,980 --> 00:49:04,170

and its initial meaning or its original

1218

00:49:09,200 --> 00:49:06,990

definition of rejecting the official

1219

00:49:12,170 --> 00:49:09,210

narrative it's like where are the

1220

00:49:13,190 --> 00:49:12,180

scientists that are going against the

1221

00:49:14,990 --> 00:49:13,200

official narrative they're like

1222

00:49:17,510 --> 00:49:15,000

non-existent there should be scientists

1223

00:49:20,180 --> 00:49:17,520

out there doing GMO glice efface studies

1224

00:49:22,130 --> 00:49:20,190

they should be going through the what

1225

00:49:24,349 --> 00:49:22,140

seventy vaccines we give the children

1226

00:49:26,030 --> 00:49:24,359

and double-checking the CDC's work they

1227

00:49:28,099 --> 00:49:26,040

should be testing chemtrails or even

1228

00:49:30,500 --> 00:49:28,109

cellphones and it's like the entire

1229

00:49:32,960 --> 00:49:30,510

scientific community doesn't challenge a

1230

00:49:36,770 --> 00:49:32,970

damn thing or ever test anything it's

1231

00:49:39,620 --> 00:49:36,780

just 100% blind consensus out there well

1232

00:49:43,190 --> 00:49:39,630

that's why I referenced dr. Henry Bauer

1233

00:49:44,660 --> 00:49:43,200

in his books in his research because not

1234

00:49:46,760 --> 00:49:44,670

disagreeing with anything you're saying

1235

00:49:49,130 --> 00:49:46,770

it's all that and worse

1236

00:49:52,550 --> 00:49:49,140

adding the understanding of the

1237

00:49:55,100 --> 00:49:52,560

economics that are involved and the

1238

00:49:56,930 --> 00:49:55,110

dynamics of promotion and all that you

1239

00:49:59,330 --> 00:49:56,940

know when I started this many years ago

1240

00:50:02,120 --> 00:49:59,340

I was at the University of Arizona and I

1241

00:50:03,530 --> 00:50:02,130

was getting a PhD because I had worked

1242

00:50:07,130 --> 00:50:03,540

for a couple of years out in the

1243

00:50:08,990 --> 00:50:07,140

workforce and the only thing I was able

1244

00:50:10,760 --> 00:50:09,000

to figure out as I sure as didn't

1245

00:50:12,650 --> 00:50:10,770

want to do that you know and all the

1246

00:50:15,080 --> 00:50:12,660

people who were above me I was like I'm

1247

00:50:18,770 --> 00:50:15,090

gonna turn into that no way you

1248

00:50:20,600 --> 00:50:18,780

know I'll go back I'll get a PhD I can

1249

00:50:23,180 --> 00:50:20,610

hang around campuses all the beautiful

1250

00:50:24,680 --> 00:50:23,190

girls just young growth you think you're

1251
00:50:26,570 --> 00:50:24,690
thinking when you're in your twenties of

1252
00:50:28,730 --> 00:50:26,580
course I'll just do that be easy life

1253
00:50:30,830 --> 00:50:28,740
all the rest so I went back and found it

1254
00:50:33,620 --> 00:50:30,840
to be just as bullshit

1255
00:50:35,600 --> 00:50:33,630
as the corporate money chasing world

1256
00:50:37,070 --> 00:50:35,610
that didn't last long but it propelled

1257
00:50:39,410 --> 00:50:37,080
me to start a company and I started a

1258
00:50:42,130 --> 00:50:39,420
company based on some AI technology I

1259
00:50:45,650 --> 00:50:42,140
had been working on and it was a long

1260
00:50:48,050 --> 00:50:45,660
road of of misery and pain and many many

1261
00:50:50,270 --> 00:50:48,060
mistakes but eventually it came out for

1262
00:50:53,390 --> 00:50:50,280
me but I guess what I learned in that

1263
00:50:56,270 --> 00:50:53,400

whole thing about academics is that it's

1264

00:50:59,240 --> 00:50:56,280

a different game than what we think

1265

00:51:01,190 --> 00:50:59,250

they're off in their own little world

1266

00:51:03,500 --> 00:51:01,200

like we always hear about in their ivory

1267

00:51:05,840 --> 00:51:03,510

tower and there's the infighting and

1268

00:51:08,720 --> 00:51:05,850

there's the change of focus and just

1269

00:51:11,930 --> 00:51:08,730

following the cheese I don't think it's

1270

00:51:13,670 --> 00:51:11,940

quite as back to this thing of you know

1271

00:51:15,890 --> 00:51:13,680

are they being directed or are they just

1272

00:51:18,560 --> 00:51:15,900

kind of useful idiots who are being kind

1273

00:51:21,500 --> 00:51:18,570

of led by the nose and I think many many

1274

00:51:24,260 --> 00:51:21,510

more useful idiots I mean pick any one

1275

00:51:26,270 --> 00:51:24,270

of those topics and we'd have that kind

1276
00:51:28,100 --> 00:51:26,280
of discussion mm-hmm I'm with you man

1277
00:51:30,820 --> 00:51:28,110
you like vaccines you know I mean

1278
00:51:33,530 --> 00:51:30,830
vaccines I mean are they sitting around

1279
00:51:35,270 --> 00:51:33,540
doing that or they just go oh here's the

1280
00:51:37,700 --> 00:51:35,280
next research we're supposed to do just

1281
00:51:40,490 --> 00:51:37,710
do it don't question you know the

1282
00:51:42,530 --> 00:51:40,500
underlying assumptions we're making just

1283
00:51:45,470 --> 00:51:42,540
do what they told us to do you know test

1284
00:51:47,960 --> 00:51:45,480
it this way right never mind that it's

1285
00:51:51,920 --> 00:51:47,970
not being administered that way or never

1286
00:51:54,800 --> 00:51:51,930
mind that we're giving 11 year old girls

1287
00:51:58,130 --> 00:51:54,810
this vaccine that only protects them for

1288
00:51:59,380 --> 00:51:58,140

five years of sex related cervical

1289

00:52:02,170 --> 00:51:59,390

cancer and

1290

00:52:03,519 --> 00:52:02,180

accounts for smalls ball presented to

1291

00:52:05,890 --> 00:52:03,529

people who will be sexually active

1292

00:52:07,809 --> 00:52:05,900

during that you never mind that just do

1293

00:52:11,769 --> 00:52:07,819

what they told us to do and that's it

1294

00:52:13,569 --> 00:52:11,779

don't question it yeah man and Wow this

1295

00:52:16,630 --> 00:52:13,579

has been great you know you said so many

1296

00:52:19,720 --> 00:52:16,640

kind things about me and THC and I

1297

00:52:22,029 --> 00:52:19,730

really do love skeptic oh not only do

1298

00:52:24,400 --> 00:52:22,039

you squeeze a lot out of guests like

1299

00:52:26,019 --> 00:52:24,410

Stanton Friedman and Michael - sorry on

1300

00:52:28,359 --> 00:52:26,029

a couple recent shows you did but also

1301

00:52:31,569 --> 00:52:28,369

those ones where you are more combative

1302

00:52:35,769 --> 00:52:31,579

like the dr. Churchland interview and

1303

00:52:38,349 --> 00:52:35,779

the one you did with the evolutionary

1304

00:52:40,809 --> 00:52:38,359

guy professor Michael Flannery

1305

00:52:43,299 --> 00:52:40,819

uh-huh yeah those those are just great

1306

00:52:45,970 --> 00:52:43,309

so you really have almost like two shows

1307

00:52:47,740 --> 00:52:45,980

two different ways of doing the

1308

00:52:49,900 --> 00:52:47,750

interviews you do and I just think that

1309

00:52:51,430 --> 00:52:49,910

they really are fascinating and again

1310

00:52:53,769 --> 00:52:51,440

the biggest criticism I get is not

1311

00:52:56,200 --> 00:52:53,779

challenging guests enough and I just

1312

00:52:58,359 --> 00:52:56,210

love the way you do it with a smile

1313

00:52:59,950 --> 00:52:58,369

still and just based on the data you

1314

00:53:02,109 --> 00:52:59,960

don't get into emotional arguments

1315

00:53:04,210 --> 00:53:02,119

you're like hey look at this you got a

1316

00:53:06,670 --> 00:53:04,220

look at it and I just think it's such a

1317

00:53:08,680 --> 00:53:06,680

great way to be and as we're winding

1318

00:53:12,400 --> 00:53:08,690

down you know I love a guest who does

1319

00:53:15,549 --> 00:53:12,410

know me and th see quite well because

1320

00:53:17,650 --> 00:53:15,559

you are so opinionated I feel like I can

1321

00:53:20,230 --> 00:53:17,660

take it as well and these things do make

1322

00:53:23,049 --> 00:53:20,240

us better what would you say are the

1323

00:53:25,029 --> 00:53:23,059

things you like least about THC what do

1324

00:53:27,160 --> 00:53:25,039

I do here that just makes you roll your

1325

00:53:33,039 --> 00:53:27,170

eyes and cringe and want to turn it off

1326

00:53:34,599 --> 00:53:33,049

oh well that's tough I mean what I do I

1327

00:53:36,339 --> 00:53:34,609

don't know this is a direct response to

1328

00:53:39,549 --> 00:53:36,349

that but what I do and I think most

1329

00:53:42,789 --> 00:53:39,559

people do with my show too is I pick the

1330

00:53:45,609 --> 00:53:42,799

guests that I want to listen to and I

1331

00:53:49,990 --> 00:53:45,619

think that's okay you know so I guess

1332

00:53:52,269 --> 00:53:50,000

the more work you put into selecting

1333

00:53:55,180 --> 00:53:52,279

guests that really make a contribution

1334

00:53:57,910 --> 00:53:55,190

to this body a knowledge that where we

1335

00:54:01,120 --> 00:53:57,920

can really learn something then that's

1336

00:54:04,480 --> 00:54:01,130

when I really get excited about THC if I

1337

00:54:06,789 --> 00:54:04,490

feel like it's a show that I've heard

1338

00:54:10,029 --> 00:54:06,799

before or that isn't adding anything new

1339

00:54:11,529 --> 00:54:10,039

to the body analogy I'm gonna have then

1340

00:54:13,240 --> 00:54:11,539

you know I just got to move on because

1341

00:54:14,740 --> 00:54:13,250

we're doing great shows

1342

00:54:16,240 --> 00:54:14,750

there are too many great episodes I

1343

00:54:18,130 --> 00:54:16,250

haven't listened to all the episodes of

1344

00:54:20,560 --> 00:54:18,140

THD so I'm just going on to the next

1345

00:54:23,050 --> 00:54:20,570

episode so does that get you know was

1346

00:54:26,020 --> 00:54:23,060

the guest selection I think is just so

1347

00:54:28,750 --> 00:54:26,030

so key yeah I definitely think that's

1348

00:54:30,940 --> 00:54:28,760

fair and there might be a filler guess

1349

00:54:32,170 --> 00:54:30,950

once in a while of course and you had

1350

00:54:35,920 --> 00:54:32,180

written to me that you agree with about

1351
00:54:38,440 --> 00:54:35,930
40% of THC and really disagree with

1352
00:54:41,680 --> 00:54:38,450
about 10% can you elaborate on what

1353
00:54:46,210 --> 00:54:41,690
material or topics fit into if not both

1354
00:54:49,090 --> 00:54:46,220
categories at least that 10% they really

1355
00:54:50,500 --> 00:54:49,100
gonna put me put me in the on the spot

1356
00:54:54,370 --> 00:54:50,510
trying to give you a taste here on

1357
00:54:57,430 --> 00:54:54,380
medicine man take for example Joseph

1358
00:55:01,750 --> 00:54:57,440
Farah mmm I love him I think he's great

1359
00:55:04,990 --> 00:55:01,760
I think his Nazi Roswell thing is absurd

1360
00:55:07,480 --> 00:55:05,000
and I don't know why he persists with

1361
00:55:09,340 --> 00:55:07,490
this other than he's had this idea out

1362
00:55:12,280 --> 00:55:09,350
there for a while and you know we just

1363
00:55:15,250 --> 00:55:12,290

can't back off of it take Chris Knowles

1364

00:55:17,050 --> 00:55:15,260

I really like crystals I mean I really

1365

00:55:18,370 --> 00:55:17,060

like him he's been on the show and it's

1366

00:55:20,500 --> 00:55:18,380

gonna be on the show a bunch of other

1367

00:55:25,170 --> 00:55:20,510

times and some of the information he has

1368

00:55:28,810 --> 00:55:25,180

is super important in terms of this

1369

00:55:32,110 --> 00:55:28,820

synchronistic symbology kind of thing

1370

00:55:34,060 --> 00:55:32,120

that people are into but he's a 40% you

1371

00:55:36,670 --> 00:55:34,070

know don't go too far with that stuff it

1372

00:55:38,800 --> 00:55:36,680

just kind of falls apart when you really

1373

00:55:42,010 --> 00:55:38,810

push it too far and I'm always trying to

1374

00:55:44,560 --> 00:55:42,020

like rein it in man I really enjoyed the

1375

00:55:47,290 --> 00:55:44,570

show that I did on astrology

1376

00:55:49,270 --> 00:55:47,300

because you know the drill a listener

1377

00:55:51,820 --> 00:55:49,280

sent me a request and said hey there's

1378

00:55:55,870 --> 00:55:51,830

this guest you should really interview

1379

00:55:59,890 --> 00:55:55,880

her name is Renee Allsop and she is the

1380

00:56:02,590 --> 00:55:59,900

Julie by shal of astrology now dr. Julie

1381

00:56:06,370 --> 00:56:02,600

by shal is the best medium researcher in

1382

00:56:08,770 --> 00:56:06,380

the world PhD in pharmacology completely

1383

00:56:11,440 --> 00:56:08,780

tuned into how to run a controlled study

1384

00:56:13,840 --> 00:56:11,450

has applied that on mediumship talking

1385

00:56:16,390 --> 00:56:13,850

to spirits and has concrete proof that

1386

00:56:18,580 --> 00:56:16,400

these things really happen right that's

1387

00:56:20,890 --> 00:56:18,590

her thing so my ears are perked up when

1388

00:56:24,820 --> 00:56:20,900

this guy says hey this woman has done

1389

00:56:26,740 --> 00:56:24,830

this quality of research on astrology so

1390

00:56:28,330 --> 00:56:26,750

I look at it sure enough she's published

1391

00:56:30,430 --> 00:56:28,340

the Journal of scientific exploration

1392

00:56:31,840 --> 00:56:30,440

which I know is a really hard journal

1393

00:56:33,640 --> 00:56:31,850

that you get into if you have a

1394

00:56:34,900 --> 00:56:33,650

peer-reviewed journal in there I've been

1395

00:56:36,160 --> 00:56:34,910

interviewed many guests who have they

1396

00:56:37,540 --> 00:56:36,170

said it's the hardest journal they've

1397

00:56:39,580 --> 00:56:37,550

ever had to get into among all the ones

1398

00:56:41,410 --> 00:56:39,590

they did so I'm all on board with doing

1399

00:56:43,900 --> 00:56:41,420

this and I'll make this shirt because

1400

00:56:46,330 --> 00:56:43,910

we're kind of wrapping it up but we set

1401

00:56:49,150 --> 00:56:46,340

up the interview and we set it up as a

1402

00:56:51,340 --> 00:56:49,160

two-parter first part you're gonna do an

1403

00:56:53,830 --> 00:56:51,350

astrology reading for me and second part

1404

00:56:55,750 --> 00:56:53,840

where we talk about your research we do

1405

00:56:59,830 --> 00:56:55,760

the first part the astrology reading

1406

00:57:01,600 --> 00:56:59,840

it's a bomb she's totally off I'm like

1407

00:57:03,670 --> 00:57:01,610

hey that's no problem you know I've done

1408

00:57:05,980 --> 00:57:03,680

a ton of these medium readings on the

1409

00:57:08,620 --> 00:57:05,990

air and stuff like that it's hit or miss

1410

00:57:13,030 --> 00:57:08,630

I get it and she's like no they're not I

1411

00:57:15,940 --> 00:57:13,040

am 95% accurate and I'm like no one's

1412

00:57:18,370 --> 00:57:15,950

95 percent that's not real

1413

00:57:20,620 --> 00:57:18,380

that's not how this stuff works so it

1414

00:57:23,650 --> 00:57:20,630

turned into this really interesting

1415

00:57:26,440 --> 00:57:23,660

interplay people can listen to the full

1416

00:57:29,170 --> 00:57:26,450

interview but at the end she came on and

1417

00:57:31,840 --> 00:57:29,180

she has fantastic research that would

1418

00:57:34,960 --> 00:57:31,850

lead one to conclude that there is a

1419

00:57:37,300 --> 00:57:34,970

reality to astrology but on the other

1420

00:57:39,070 --> 00:57:37,310

hand the astrological readings and

1421

00:57:41,700 --> 00:57:39,080

predictions and like you got that guy on

1422

00:57:45,070 --> 00:57:41,710

there doing it I don't think that really

1423

00:57:46,810 --> 00:57:45,080

that's a ten percenter there but we're

1424

00:57:49,600 --> 00:57:46,820

gonna know what's gonna happen next

1425

00:57:51,880 --> 00:57:49,610

quarter because somebody read the chart

1426

00:57:53,740 --> 00:57:51,890

of the United States or the world or

1427

00:57:56,380 --> 00:57:53,750

anything like that that's at the ten

1428

00:57:57,970 --> 00:57:56,390

percent category for me okay okay I

1429

00:57:59,680 --> 00:57:57,980

think there's something to it I really

1430

00:58:02,170 --> 00:57:59,690

do think we're kind of in some cosmic

1431

00:58:05,230 --> 00:58:02,180

grandfather clock and that divination in

1432

00:58:07,330 --> 00:58:05,240

multiple forms seems to work if there's

1433

00:58:08,740 --> 00:58:07,340

a long enough history of it maybe

1434

00:58:11,080 --> 00:58:08,750

because we're in some type of simulation

1435

00:58:12,700 --> 00:58:11,090

or it's a rule the game I don't know I I

1436

00:58:15,910 --> 00:58:12,710

definitely agree it's not a hundred

1437

00:58:18,750 --> 00:58:15,920

percent for sure and I got to let you go

1438

00:58:21,610 --> 00:58:18,760

but maybe one more thing related to

1439

00:58:23,440 --> 00:58:21,620

guest selection or really just to give a

1440

00:58:25,780 --> 00:58:23,450

nod to the good guys you've mentioned

1441

00:58:28,270 --> 00:58:25,790

several but who are the leaders we

1442

00:58:31,090 --> 00:58:28,280

should look for and plug for bucking the

1443

00:58:32,890 --> 00:58:31,100

system yet also stain academic and

1444

00:58:36,040 --> 00:58:32,900

scholarly who are your top people out

1445

00:58:37,220 --> 00:58:36,050

there right now mmm boy that's a tough

1446

00:58:40,250 --> 00:58:37,230

one

1447

00:58:42,980 --> 00:58:40,260

I really like Joe Atwell who you just

1448

00:58:45,200 --> 00:58:42,990

recently interviewed you know I like him

1449

00:58:47,750 --> 00:58:45,210

cuz everybody hates him not everybody

1450

00:58:49,849 --> 00:58:47,760

hates him but when you go online this is

1451
00:58:52,220 --> 00:58:49,859
like the quintessential sceptical moment

1452
00:58:54,640 --> 00:58:52,230
for me there's two of them one you

1453
00:58:58,010 --> 00:58:54,650
interview Joe at well and he says hey

1454
00:59:00,740 --> 00:58:58,020
Christianity is a controversy of the

1455
00:59:02,780 --> 00:59:00,750
Romans and he goes too far with that

1456
00:59:05,120 --> 00:59:02,790
theory but along the way he takes you

1457
00:59:08,120 --> 00:59:05,130
with some really solid that will

1458
00:59:10,640 --> 00:59:08,130
totally undermine anyone who has this

1459
00:59:12,380 --> 00:59:10,650
belief in the Bible or Christianity the

1460
00:59:14,300 --> 00:59:12,390
way it's been told it doesn't undermine

1461
00:59:17,510 --> 00:59:14,310
the underlying spiritual truth that

1462
00:59:19,700 --> 00:59:17,520
might be there but it sure undermines

1463
00:59:21,859 --> 00:59:19,710

the story but then you look at what

1464

00:59:23,690 --> 00:59:21,869

people are saying about Joe at well like

1465

00:59:26,240 --> 00:59:23,700

I did not interview these people some of

1466

00:59:31,940 --> 00:59:26,250

the top biblical scholars you know who

1467

00:59:33,109 --> 00:59:31,950

our carrier and price and Bart airman no

1468

00:59:35,480 --> 00:59:33,119

one knows these names were biblical

1469

00:59:37,460 --> 00:59:35,490

scholar at Duke and ILI's are obscure

1470

00:59:39,020 --> 00:59:37,470

fields but I'm digging into this stuff

1471

00:59:42,170 --> 00:59:39,030

I'm talking these people I'm having on

1472

00:59:43,940 --> 00:59:42,180

the show and one by one they're falling

1473

00:59:45,710 --> 00:59:43,950

they put up a good front and they're

1474

00:59:48,260 --> 00:59:45,720

saying they got their together and

1475

00:59:50,990 --> 00:59:48,270

they're falling like frickin dominoes

1476
00:59:52,849 --> 00:59:51,000
and they're having to admit that oh well

1477
00:59:55,670 --> 00:59:52,859
yeah I'm just saying he's going too far

1478
00:59:57,650 --> 00:59:55,680
but yeah I guess the Bible is pro room

1479
00:59:59,840 --> 00:59:57,660
and I guess mark does have all the

1480
01:00:01,520 --> 00:59:59,850
footprints of Josephus on it you know

1481
01:00:03,590 --> 01:00:01,530
the fundamental issues that people

1482
01:00:06,950 --> 01:00:03,600
should really care about these guys are

1483
01:00:09,109 --> 01:00:06,960
having to back off of their publicly

1484
01:00:14,270 --> 01:00:09,119
stated things that's the kind of stuff

1485
01:00:16,099 --> 01:00:14,280
that gets me fired up because for people

1486
01:00:19,310 --> 01:00:16,109
who are Christian it's a game changer

1487
01:00:22,070 --> 01:00:19,320
and here's a guy who's withstood all

1488
01:00:24,320 --> 01:00:22,080

this public criticism who on the

1489

01:00:26,000 --> 01:00:24,330

Internet is just single all the comments

1490

01:00:28,580 --> 01:00:26,010

I'm I think all this guy's been debunked

1491

01:00:31,609 --> 01:00:28,590

so many times it's like no you haven't

1492

01:00:34,400 --> 01:00:31,619

looked far enough he hasn't been to dunk

1493

01:00:36,980 --> 01:00:34,410

so he'd be won another one of my

1494

01:00:39,080 --> 01:00:36,990

favorites is I mentioned dr. Jeff long

1495

01:00:40,849 --> 01:00:39,090

and just a quick story about him that

1496

01:00:42,349 --> 01:00:40,859

she's the other quintessential skeptical

1497

01:00:45,620 --> 01:00:42,359

moment I always remember talking to Jeff

1498

01:00:47,990 --> 01:00:45,630

it was this top-notch NDE near-death

1499

01:00:51,230 --> 01:00:48,000

experience researcher and he talked

1500

01:00:52,700 --> 01:00:51,240

about helping this other research

1501

01:00:54,890 --> 01:00:52,710

who was a skeptic of near-death

1502

01:00:56,990 --> 01:00:54,900

experience but Jeff helped him all along

1503

01:01:00,140 --> 01:00:57,000

the research let him use some of his

1504

01:01:02,480 --> 01:01:00,150

data and then Jeff read the guy's paper

1505

01:01:03,110 --> 01:01:02,490

when he was done and not to get too

1506

01:01:05,810 --> 01:01:03,120

techie

1507

01:01:08,240 --> 01:01:05,820

but the guy had concluded that NDEs will

1508

01:01:10,430 --> 01:01:08,250

remand you know when you're sleeping the

1509

01:01:10,760 --> 01:01:10,440

REM cycle all this kind of stuff but

1510

01:01:13,940 --> 01:01:10,770

anyways

1511

01:01:17,740 --> 01:01:13,950

Jeff's reading it he goes

1512

01:01:20,180 --> 01:01:17,750

he's right oh my god I've been wrong I

1513

01:01:22,640 --> 01:01:20,190

put all my effort into this and I'm

1514

01:01:24,050 --> 01:01:22,650

wrong he's right and then he kind of

1515

01:01:25,880 --> 01:01:24,060

gathers himself and he takes a little

1516

01:01:28,850 --> 01:01:25,890

bit deep wrinkles they wait a minute

1517

01:01:30,410 --> 01:01:28,860

he didn't control for that and oh no he

1518

01:01:33,110 --> 01:01:30,420

did this and oh he made that assumption

1519

01:01:35,090 --> 01:01:33,120

oh no he's not right he's way off he's

1520

01:01:38,180 --> 01:01:35,100

really fiddled with the data but that

1521

01:01:41,540 --> 01:01:38,190

moment when a guy is willing to say oh

1522

01:01:42,050 --> 01:01:41,550

I'm wrong that to me is what it's

1523

01:01:44,000 --> 01:01:42,060

all about

1524

01:01:46,220 --> 01:01:44,010

if you're not open to play in that game

1525

01:01:48,620 --> 01:01:46,230

then you're playing some other game that

1526

01:01:50,030 --> 01:01:48,630

I don't understand cuz I want to just

1527

01:01:52,580 --> 01:01:50,040

try and nudge a little bit closer to the

1528

01:01:56,150 --> 01:01:52,590

truth and in the process I have to risk

1529

01:01:57,740 --> 01:01:56,160

being wrong all the time because I am

1530

01:01:59,810 --> 01:01:57,750

gonna be wrong and I probably said about

1531

01:02:01,160 --> 01:01:59,820

10 things in this episode that you know

1532

01:02:03,020 --> 01:02:01,170

you're gonna talk about here for now go

1533

01:02:04,490 --> 01:02:03,030

oh yeah I was just up I didn't

1534

01:02:07,010 --> 01:02:04,500

know what I was talking about but I

1535

01:02:09,920 --> 01:02:07,020

think that's the edge that run well I

1536

01:02:11,900 --> 01:02:09,930

think that is a great story for sure and

1537

01:02:13,940 --> 01:02:11,910

it does just kind of point out there's

1538

01:02:15,560 --> 01:02:13,950

many many layers to this stuff and we

1539

01:02:19,220 --> 01:02:15,570

really need to be careful about what we

1540

01:02:21,680 --> 01:02:19,230

think we know or what data or studies or

1541

01:02:23,420 --> 01:02:21,690

websites we just blindly trust because

1542

01:02:25,730 --> 01:02:23,430

there's just so many different little

1543

01:02:27,650 --> 01:02:25,740

nuances to how something can go one way

1544

01:02:30,230 --> 01:02:27,660

or a conclusion can come out the other

1545

01:02:31,460 --> 01:02:30,240

way and you just gotta be careful even

1546

01:02:33,260 --> 01:02:31,470

when it's not necessarily

1547

01:02:35,030 --> 01:02:33,270

ill-intentioned like it didn't seem that

1548

01:02:37,520 --> 01:02:35,040

in that case necessarily it's just more

1549

01:02:39,440 --> 01:02:37,530

about being stuck in a paradigm but also

1550

01:02:40,940 --> 01:02:39,450

with Joe out well got a thank you for

1551

01:02:42,590 --> 01:02:40,950

hooking us up you know that wouldn't

1552

01:02:44,210 --> 01:02:42,600

have happened if you hadn't made the

1553

01:02:45,860 --> 01:02:44,220

connection I don't think and I think it

1554

01:02:49,070 --> 01:02:45,870

really turned into a good episode but

1555

01:02:51,680 --> 01:02:49,080

either way man this has been a hell of a

1556

01:02:53,780 --> 01:02:51,690

ride I really enjoyed it I consider you

1557

01:02:55,970 --> 01:02:53,790

an inspiration I really loved the show

1558

01:02:57,170 --> 01:02:55,980

you do remind people where to find it

1559

01:02:59,510 --> 01:02:57,180

and anything else they should know about

1560

01:03:02,330 --> 01:02:59,520

keeping up with your work wow that's

1561

01:03:04,130 --> 01:03:02,340

super nice you to say Greg it's easy to

1562

01:03:04,849 --> 01:03:04,140

find you just have to spell skeptic Oh

1563

01:03:09,859 --> 01:03:04,859

with a can

1564

01:03:12,680 --> 01:03:09,869

ske PTI ko and then the book why science

1565

01:03:13,940 --> 01:03:12,690

is wrong about almost everything you

1566

01:03:16,400 --> 01:03:13,950

know that's it we're just out there

1567

01:03:18,829 --> 01:03:16,410

doing the doing the thing you know I

1568

01:03:21,079 --> 01:03:18,839

like we do you know the five casting

1569

01:03:23,120 --> 01:03:21,089

things so any ideas people have about

1570

01:03:26,539 --> 01:03:23,130

who they'd like to hear and who's in

1571

01:03:29,479 --> 01:03:26,549

that science consciousness realm I'd

1572

01:03:29,870 --> 01:03:29,489

love to hear about it right on cheers to

1573

01:03:33,170 --> 01:03:29,880

that

1574

01:03:34,849 --> 01:03:33,180

well awesome again big thanks to you for

1575

01:03:37,609 --> 01:03:34,859

taking the time and the kind words

1576

01:03:40,930 --> 01:03:37,619

you've said about me and THC keep doing

1577

01:03:44,650 --> 01:03:40,940

what you do okay Greg take care

1578

01:03:46,960 --> 01:03:44,660

and boom goes the dynamite people big

1579

01:03:49,569 --> 01:03:46,970

thanks to Alex I'm really happy to know

1580

01:03:51,819 --> 01:03:49,579

that guy you might remember I mentioned

1581

01:03:53,829 --> 01:03:51,829

in a show a few weeks back that I wanted

1582

01:03:56,859 --> 01:03:53,839

to incorporate a little more skeptical

1583

01:03:59,230 --> 01:03:56,869

into the higher side and by that I

1584

01:04:00,760 --> 01:03:59,240

really mean having on specifically some

1585

01:04:02,760 --> 01:04:00,770

of these researchers who are looking

1586

01:04:05,470 --> 01:04:02,770

into consciousness inside research

1587

01:04:07,750 --> 01:04:05,480

people who compile stories of

1588

01:04:10,630 --> 01:04:07,760

out-of-body experiences and hospitals

1589

01:04:13,359 --> 01:04:10,640

people who compile stories of kids who

1590

01:04:15,550 --> 01:04:13,369

remember past lives if we want to get

1591

01:04:17,859 --> 01:04:15,560

out of the conspiracy trenches a little

1592

01:04:20,859 --> 01:04:17,869

bit from time to time more often than we

1593

01:04:22,450 --> 01:04:20,869

have lately I think that these are some

1594

01:04:25,630 --> 01:04:22,460

of the other things we talked about and

1595

01:04:28,240 --> 01:04:25,640

I just don't go to those areas for guest

1596

01:04:30,849 --> 01:04:28,250

material as often as I'm starting to

1597

01:04:33,880 --> 01:04:30,859

think that I should just like sometimes

1598

01:04:36,339 --> 01:04:33,890

we talk about Secret Sciences and Tesla

1599

01:04:38,559 --> 01:04:36,349

tech and Thomas Townsend Browns flying

1600

01:04:41,260 --> 01:04:38,569

machines but I don't go to those

1601
01:04:43,599 --> 01:04:41,270
conferences or go over those speaker

1602
01:04:45,430 --> 01:04:43,609
line ups for guests either but that

1603
01:04:47,670 --> 01:04:45,440
would probably be another unique and

1604
01:04:50,620 --> 01:04:47,680
exciting area to get into more and

1605
01:04:53,680 --> 01:04:50,630
really of all the pools I tend to pull

1606
01:04:55,780 --> 01:04:53,690
from podcasting the least but of course

1607
01:04:58,450 --> 01:04:55,790
Alex is an exception and he was well

1608
01:05:01,300 --> 01:04:58,460
overdue and if you haven't heard skeptic

1609
01:05:04,569 --> 01:05:01,310
oh you can definitely rely on it to be

1610
01:05:06,430 --> 01:05:04,579
high-quality he also has no ads and

1611
01:05:08,440 --> 01:05:06,440
always gets right into the topic with a

1612
01:05:11,230 --> 01:05:08,450
great all-encompassing overview

1613
01:05:13,480 --> 01:05:11,240

introduction and he's very unique and

1614

01:05:16,900 --> 01:05:13,490

that this is a straight passion project

1615

01:05:19,030 --> 01:05:16,910

in every sense of the word yeah THC is a

1616

01:05:22,480 --> 01:05:19,040

passion project for me but it's also a

1617

01:05:24,460 --> 01:05:22,490

job and I have to manage it as both but

1618

01:05:27,069 --> 01:05:24,470

for Alex it's just all for the love of

1619

01:05:29,530 --> 01:05:27,079

the game and that adds an element to

1620

01:05:31,690 --> 01:05:29,540

what makes the show so good and why he

1621

01:05:34,120 --> 01:05:31,700

does push the more stubborn guests more

1622

01:05:36,670 --> 01:05:34,130

than other hosts would because that

1623

01:05:38,440 --> 01:05:36,680

exploration is the point if you can't

1624

01:05:40,510 --> 01:05:38,450

get out of the paradigm on skeptic Oh

1625

01:05:42,520 --> 01:05:40,520

what are you even doing there he doesn't

1626

01:05:44,800 --> 01:05:42,530

really care about being another softball

1627

01:05:48,910 --> 01:05:44,810

interview in your lineup of media rounds

1628

01:05:51,309 --> 01:05:48,920

he doesn't have to do this so check it

1629

01:05:53,079 --> 01:05:51,319

out I mean he's a good-natured guy we

1630

01:05:54,430 --> 01:05:53,089

talked about maybe working on some other

1631

01:05:56,950 --> 01:05:54,440

projects together

1632

01:06:00,460 --> 01:05:56,960

would be fun we're both in the same area

1633

01:06:02,710 --> 01:06:00,470

so I hope we can I hope we do also if

1634

01:06:05,859 --> 01:06:02,720

you heard the + show it's something that

1635

01:06:08,230 --> 01:06:05,869

I'm realizing happens with podcasters

1636

01:06:11,620 --> 01:06:08,240

but we end up talking about THC way too

1637

01:06:13,450 --> 01:06:11,630

much in my opinion and I can't help it

1638

01:06:16,559 --> 01:06:13,460

because it's the common ground that we

1639

01:06:19,000 --> 01:06:16,569

have between host guests and audience

1640

01:06:21,040 --> 01:06:19,010

obviously I always want to focus on the

1641

01:06:23,500 --> 01:06:21,050

guests but it's hard sometimes to get

1642

01:06:26,020 --> 01:06:23,510

too deep into specific episodes of their

1643

01:06:28,540 --> 01:06:26,030

shows when you the listening audience

1644

01:06:30,819 --> 01:06:28,550

don't really have that context and

1645

01:06:33,370 --> 01:06:30,829

sometimes it starts to sound like Oh

1646

01:06:35,710 --> 01:06:33,380

your interview with X was just so great

1647

01:06:39,010 --> 01:06:35,720

oh thanks well yeah that was a good one

1648

01:06:40,270 --> 01:06:39,020

oh yes and why was killer - oh well

1649

01:06:42,760 --> 01:06:40,280

you're just too kind

1650

01:06:44,589 --> 01:06:42,770

and that sort of back and forth that can

1651
01:06:46,620 --> 01:06:44,599
happen it's like two people talking

1652
01:06:49,210 --> 01:06:46,630
about a movie that you just haven't seen

1653
01:06:51,280 --> 01:06:49,220
so I try to avoid that but then we end

1654
01:06:53,200 --> 01:06:51,290
up talking about THC and then I just

1655
01:06:55,420 --> 01:06:53,210
feel weird and as awkward as I sound

1656
01:06:57,730 --> 01:06:55,430
taking compliments and over-explaining

1657
01:07:00,640 --> 01:06:57,740
my choices at least I know we're not

1658
01:07:02,800 --> 01:07:00,650
talking over your head also when it came

1659
01:07:04,750 --> 01:07:02,810
to the Plus show Alex had given me some

1660
01:07:07,569 --> 01:07:04,760
topic suggestions and there were a lot

1661
01:07:09,130 --> 01:07:07,579
of fun things in there and a lot of them

1662
01:07:12,819 --> 01:07:09,140
did come out in the Plus show we talked

1663
01:07:16,089 --> 01:07:12,829

about the flat earth and THC this Jason

1664

01:07:18,300 --> 01:07:16,099

hog kid Alex's experiences and the

1665

01:07:22,660 --> 01:07:18,310

business circles of Silicon Valley

1666

01:07:24,460 --> 01:07:22,670

Wolfgang how big on THC the various ways

1667

01:07:27,490 --> 01:07:24,470

to think about hierarchical

1668

01:07:29,470 --> 01:07:27,500

consciousness the proverbial tap on the

1669

01:07:33,700 --> 01:07:29,480

shoulder that we have to consider with

1670

01:07:35,500 --> 01:07:33,710

all alternative media and also something

1671

01:07:38,290 --> 01:07:35,510

we focused on for a while which was the

1672

01:07:40,420 --> 01:07:38,300

crossover between conspiracy and comedy

1673

01:07:42,430 --> 01:07:40,430

and neither of us are gonna be experts

1674

01:07:44,920 --> 01:07:42,440

there but I think it's definitely fodder

1675

01:07:47,500 --> 01:07:44,930

for a good conversation and I definitely

1676

01:07:50,470 --> 01:07:47,510

had a lot of little things to say about

1677

01:07:52,180 --> 01:07:50,480

various people in situations but it was

1678

01:07:54,160 --> 01:07:52,190

almost like we had Alex in the hosting

1679

01:07:55,329 --> 01:07:54,170

chair for a bit there but I guess that

1680

01:07:57,430 --> 01:07:55,339

happens when you're talking to an

1681

01:07:58,870 --> 01:07:57,440

interviewer they can flip you they can

1682

01:08:01,599 --> 01:07:58,880

flip you for real if you're not on your

1683

01:08:03,430 --> 01:08:01,609

guard but this was a great time and I

1684

01:08:05,140 --> 01:08:03,440

just wanted to introduce you to Alex's

1685

01:08:07,059 --> 01:08:05,150

work if you weren't familiar because I

1686

01:08:08,170 --> 01:08:07,069

hope he's someone who comes back here

1687

01:08:10,960 --> 01:08:08,180

and checks in from time

1688

01:08:13,480 --> 01:08:10,970

time and tells us about the latest going

1689

01:08:15,579 --> 01:08:13,490

on in his world but do go through the

1690

01:08:17,769 --> 01:08:15,589

skeptic o archives I mean he's got jock

1691

01:08:19,990 --> 01:08:17,779

fillet in there he's got Gordon White

1692

01:08:22,150 --> 01:08:20,000

and Chris Knowles in there Michael -

1693

01:08:24,729 --> 01:08:22,160

sorry on recently and I really liked

1694

01:08:27,990 --> 01:08:24,739

that one and I thought he squeezed a lot

1695

01:08:31,840 --> 01:08:28,000

of juice out of Stanton Friedman - oh

1696

01:08:33,910 --> 01:08:31,850

and he also had Jim Marrs on and asked

1697

01:08:36,789 --> 01:08:33,920

him point-blank are you involved in

1698

01:08:40,360 --> 01:08:36,799

Scientology I can't believe I forgot to

1699

01:08:43,809 --> 01:08:40,370

bring that up when he was here but yeah

1700

01:08:46,720 --> 01:08:43,819

that was awesome and so clearly we walk

1701

01:08:47,890 --> 01:08:46,730

on parallel tracks and that was just a

1702

01:08:51,160 --> 01:08:47,900

beautiful thing you should check that

1703

01:08:54,729 --> 01:08:51,170

one out for sure just like also I talked

1704

01:08:56,829 --> 01:08:54,739

about in the + show when Ryan and Sam on

1705

01:08:59,260 --> 01:08:56,839

tinfoil hat they asked Eddie Bravo

1706

01:09:01,300 --> 01:08:59,270

point-blank about Joe Rogan getting the

1707

01:09:02,769 --> 01:09:01,310

tap on the shoulder and that's the

1708

01:09:05,169 --> 01:09:02,779

elephant in the room because the show is

1709

01:09:05,740 --> 01:09:05,179

too huge not to have been brought into

1710

01:09:09,039 --> 01:09:05,750

the fold

1711

01:09:11,410 --> 01:09:09,049

even just subtly but that was something

1712

01:09:14,019 --> 01:09:11,420

to watch - and I think those guys will

1713

01:09:15,970 --> 01:09:14,029

have to be the next podcasters we do an

1714

01:09:19,479 --> 01:09:15,980

episode with because they've just been

1715

01:09:21,700 --> 01:09:19,489

great podcasting friends and they also

1716

01:09:24,160 --> 01:09:21,710

have really covered some impressive

1717

01:09:26,620 --> 01:09:24,170

ground and made real cool contributions

1718

01:09:29,200 --> 01:09:26,630

at this point and I hope that's what

1719

01:09:32,470 --> 01:09:29,210

more podcasters do strive for is like

1720

01:09:34,300 --> 01:09:32,480

real impact I think we've had some great

1721

01:09:37,180 --> 01:09:34,310

moments - contributing to the collective

1722

01:09:39,459 --> 01:09:37,190

record of interesting things Alex again

1723

01:09:42,249 --> 01:09:39,469

was very kind and pointing out some of

1724

01:09:43,660 --> 01:09:42,259

those things that he thinks qualify but

1725

01:09:46,630 --> 01:09:43,670

I really want to keep that in my mind

1726

01:09:49,150 --> 01:09:46,640

more often as Alex said guest selection

1727

01:09:51,189 --> 01:09:49,160

is key and the questions of does this

1728

01:09:52,240 --> 01:09:51,199

interview move the needle is this

1729

01:09:54,729 --> 01:09:52,250

something new

1730

01:09:57,520 --> 01:09:54,739

does this occupy an untapped space in

1731

01:09:59,410 --> 01:09:57,530

the archive or is it more the same these

1732

01:10:01,930 --> 01:09:59,420

are things we got to consider I got to

1733

01:10:03,850 --> 01:10:01,940

consider of course nothing is going to

1734

01:10:06,370 --> 01:10:03,860

be new all the time but the more we can

1735

01:10:09,160 --> 01:10:06,380

push that way the better no doubt

1736

01:10:11,140 --> 01:10:09,170

I think today's show did fill a void in

1737

01:10:13,840 --> 01:10:11,150

the archive with a real synthesis of

1738

01:10:16,660 --> 01:10:13,850

that data on the fringe and there's no

1739

01:10:18,910 --> 01:10:16,670

better guy than Alex for the job really

1740

01:10:20,709 --> 01:10:18,920

hope you liked it also if you're not a

1741

01:10:21,790 --> 01:10:20,719

plus member then you didn't hear the

1742

01:10:24,760 --> 01:10:21,800

latest THC

1743

01:10:27,640 --> 01:10:24,770

before this at all Laurie Hanrahan the

1744

01:10:31,450 --> 01:10:27,650

pedophile epidemic supply pipelines and

1745

01:10:33,220 --> 01:10:31,460

child abusers in power it is a very dark

1746

01:10:35,640 --> 01:10:33,230

one to say the least but she does go

1747

01:10:38,649 --> 01:10:35,650

pretty deep and it's a plus only show

1748

01:10:41,200 --> 01:10:38,659

rarely do we have that but once in a

1749

01:10:44,620 --> 01:10:41,210

while we do sign up already the higher

1750

01:10:49,060 --> 01:10:44,630

side chats plus calm slash subscribe or

1751

01:10:55,600 --> 01:10:52,870

or going run by archangel x and it looks

1752

01:10:58,479 --> 01:10:55,610

like there is gonna be a live chat about

1753

01:11:01,030 --> 01:10:58,489

THC every other night can you believe

1754

01:11:03,430 --> 01:11:01,040

that there was a poll and people

1755

01:11:05,589 --> 01:11:03,440

apparently want to talk THC every other

1756

01:11:09,280 --> 01:11:05,599

night so I think each will have a

1757

01:11:10,990 --> 01:11:09,290

focused topic if I'm not mistaken and

1758

01:11:14,620 --> 01:11:11,000

I'm pretty excited about it

1759

01:11:18,189 --> 01:11:14,630

the first one is Saturday March 17th at

1760

01:11:20,819 --> 01:11:18,199

7 p.m. Pacific I think I'm gonna miss

1761

01:11:23,680 --> 01:11:20,829

that one but I'll surely jump in soon

1762

01:11:26,740 --> 01:11:23,690

look in these show notes for the discord

1763

01:11:28,660 --> 01:11:26,750

server link and that's about it guys the

1764

01:11:31,629 --> 01:11:28,670

next THC is actually going to be a

1765

01:11:33,370 --> 01:11:31,639

whopper as well if you ask me I'm really

1766

01:11:36,399 --> 01:11:33,380

happy with the way that turned out can't

1767

01:11:37,390 --> 01:11:36,409

wait to unleash that beast Anya but

1768

01:11:39,609 --> 01:11:37,400

that's it for today

1769

01:11:42,040 --> 01:11:39,619

your move consciousness quarantine err

1770

01:11:45,100 --> 01:11:42,050

scientific school syllabus writers and

1771

01:11:45,100 --> 01:11:48,919

useful idiots of the big machine your

1772

01:12:02,560 --> 01:11:58,459

oh no you see the world isn't random

1773

01:12:10,070 --> 01:12:02,570

it's attached above our strength control

1774

01:12:13,899 --> 01:12:10,080

over everything a 95 is trying to steal

1775

01:12:20,510 --> 01:12:13,909

yeah now don't that job seems alien

1776

01:12:23,080 --> 01:12:20,520

hello can you hear me why should I play

1777

01:12:35,600 --> 01:12:23,090

man

1778

01:13:43,759 --> 01:12:47,330

and such a dear friend I'm Dan

1779

01:13:51,229 --> 01:13:43,769

[Music]

1780

01:13:56,000 --> 01:13:51,239

oh no they're cartoons it's so typical

1781

01:14:04,509 --> 01:13:56,010

of me to talk about the stuff I'm sorry

1782

01:14:08,720 --> 01:14:04,519

there's good and well did you ever hear

1783

01:14:17,980 --> 01:14:08,730

argument the nothing really happens it's

1784

01:16:08,590 --> 01:14:28,690

[Music]

1785

01:16:28,880 --> 01:16:08,600

[Applause]
