00:00:18,650 --> 00:00:15,890

the planets puppet-masters on my shirt

3  
00:00:21,350 --> 00:00:18,660

we have a plan which clearly maybe

4  
00:00:24,290 --> 00:00:21,360

something there beyond the realm of man

5  
00:00:27,440 --> 00:00:24,300

until we've thoroughly tested every last

6  
00:00:32,190 --> 00:00:27,450

close just if you find the more you

7  
00:00:32,200 --> 00:00:38,010

where will we be

8  
00:01:03,590 --> 00:00:52,890

[Music]

9  
00:01:05,690 --> 00:01:03,600

all right higher side chatters it is no

10  
00:01:07,670 --> 00:01:05,700

surprise that the public has seen the

11  
00:01:10,670 --> 00:01:07,680

needle on rocket and jet propulsion

12  
00:01:12,290 --> 00:01:10,680

technology move very little in a series

13  
00:01:13,910 --> 00:01:12,300

of decades that have shown rapid

14

00:01:16,700 --> 00:01:13,920

advancements in nearly all other

15

00:01:18,500 --> 00:01:16,710

technological areas because we know the

16

00:01:19,940 --> 00:01:18,510

sciences have been highly controlled to

17

00:01:22,070 --> 00:01:19,950

leave out the roads that lead to

18

00:01:23,600 --> 00:01:22,080

anti-gravity crafts and that the true

19

00:01:25,910 --> 00:01:23,610

advancements in these areas are

20

00:01:28,280 --> 00:01:25,920

completely quarantined by black projects

21

00:01:31,340 --> 00:01:28,290

and at this point maybe even a breakaway

22

00:01:32,690 --> 00:01:31,350

civilization yet we do have bright minds

23

00:01:34,580 --> 00:01:32,700

and alternative thinkers who have

24

00:01:36,410 --> 00:01:34,590

tinkered with the realms of ether

25

00:01:38,900 --> 00:01:36,420

physics alchemy and a more holistic

26  
00:01:40,999 --> 00:01:38,910  
systems approach and have stumbled upon

27  
00:01:42,770 --> 00:01:41,009  
many of the world changing applications

28  
00:01:44,990 --> 00:01:42,780  
that the capstone cabal would rather us

29  
00:01:46,400 --> 00:01:45,000  
just not know about and if we dig a

30  
00:01:48,800 --> 00:01:46,410  
little deeper I think we'll find

31  
00:01:51,050 --> 00:01:48,810  
qualities and principles of space the

32  
00:01:53,059 --> 00:01:51,060  
galaxy and life itself have been altered

33  
00:01:55,070 --> 00:01:53,069  
in similar ways to keep vital

34  
00:01:57,440 --> 00:01:55,080  
information from filtering down to the

35  
00:01:58,999 --> 00:01:57,450  
people and I don't think I'm alone in

36  
00:02:01,520 --> 00:01:59,009  
those thoughts because today's guest

37  
00:02:03,169 --> 00:02:01,530  
Paul Laviolette has spent most of his

38  
00:02:04,730 --> 00:02:03,179

life working against the grains of

39

00:02:06,710 --> 00:02:04,740

conventional science and has his own

40

00:02:09,139 --> 00:02:06,720

models for not only flying saucer

41

00:02:10,219 --> 00:02:09,149

technology but also the cosmology of the

42

00:02:12,890 --> 00:02:10,229

universe itself

43

00:02:15,200 --> 00:02:12,900

he received his BA in physics from John

44

00:02:17,750 --> 00:02:15,210

Hopkins his MBA from the University of

45

00:02:20,870 --> 00:02:17,760

Chicago and his PhD from Portland State

46

00:02:23,390 --> 00:02:20,880

University he is the first to predict

47

00:02:25,699 --> 00:02:23,400

that high intensity volleys of cosmic

48

00:02:27,320 --> 00:02:25,709

ray particles travel directly to our

49

00:02:29,900 --> 00:02:27,330

planet from distant sources in the

50

00:02:32,630 --> 00:02:29,910

galaxy a phenomenon that's now confirmed

51

00:02:34,850 --> 00:02:32,640

by scientific data he is also the

52

00:02:36,770 --> 00:02:34,860

developer of sub quantum kinetics came

53

00:02:38,660 --> 00:02:36,780

up with a new theory of gravity and has

54

00:02:40,550 --> 00:02:38,670

advanced a number of new ideas and

55

00:02:43,039 --> 00:02:40,560

theories and a whole plethora of areas

56

00:02:45,589 --> 00:02:43,049

related to space the Stars and even the

57

00:02:47,300 --> 00:02:45,599

ancient world his books include titles

58

00:02:48,420 --> 00:02:47,310

like secrets of anti-gravity propulsion

59

00:02:51,089 --> 00:02:48,430

tests

60

00:02:53,849 --> 00:02:51,099

UFOs and classified aerospace technology

61

00:02:56,610 --> 00:02:53,859

earth under fire humanity's survival of

62

00:02:58,890 --> 00:02:56,620

the Ice Age and decoding the message of

63

00:03:01,410 --> 00:02:58,900

the pulsars intelligent communications

64

00:03:03,270 --> 00:03:01,420

from the galaxy it is a real treat to

65

00:03:05,099 --> 00:03:03,280

have him here a guy who gets more done

66

00:03:07,890 --> 00:03:05,109

before his morning coffee than most of

67

00:03:10,949 --> 00:03:07,900

us do all week palma man welcome to the

68

00:03:14,429 --> 00:03:10,959

higher side well I've slowed down a bit

69

00:03:15,780 --> 00:03:14,439

these last few days well it seems like

70

00:03:18,690 --> 00:03:15,790

you deserve it man because you have a

71

00:03:20,250 --> 00:03:18,700

really impressive resume and I've tried

72

00:03:22,770 --> 00:03:20,260

to touch on most of it but you've done

73

00:03:26,009 --> 00:03:22,780

so much and of course I'm no scientist

74

00:03:28,289 --> 00:03:26,019

but I really do like the exploration of

75

00:03:31,080 --> 00:03:28,299

bright minds who have been suppressed in

76

00:03:33,539 --> 00:03:31,090

these areas Tesla Thomas Towne said

77

00:03:36,449 --> 00:03:33,549

Brown viktor schauberger just to name a

78

00:03:38,699 --> 00:03:36,459

few but the commonality that I see at

79

00:03:40,890 --> 00:03:38,709

least on a basic level is a more

80

00:03:42,809 --> 00:03:40,900

holistic systems approach and an

81

00:03:45,449 --> 00:03:42,819

acknowledgement of the ether things that

82

00:03:47,069 --> 00:03:45,459

I know you find important as well and I

83

00:03:48,780 --> 00:03:47,079

guess to kick this off talk to us about

84

00:03:51,000 --> 00:03:48,790

these things and what's wrong with

85

00:03:53,399 --> 00:03:51,010

conventional physics that has all these

86

00:03:54,629 --> 00:03:53,409

bright highly educated minds missing

87

00:03:58,349 --> 00:03:54,639

that really juicy stuff

88

00:04:00,539 --> 00:03:58,359

well the ether about a hundred years ago

89

00:04:02,819 --> 00:04:00,549  
they did an experiment and they

90

00:04:04,319 --> 00:04:02,829  
interpreted it that there was no ether

91

00:04:07,319 --> 00:04:04,329  
as a result of the Michelson Morley

92

00:04:09,270 --> 00:04:07,329  
experiment mm-hmm but the thing was that

93

00:04:11,339 --> 00:04:09,280  
the experiment was done in a certain way

94

00:04:14,099 --> 00:04:11,349  
and now somebody else has redone the

95

00:04:16,740 --> 00:04:14,109  
experiment and all they did was rotate

96

00:04:18,899 --> 00:04:16,750  
the whole apparatus they used 90 degrees

97

00:04:20,879 --> 00:04:18,909  
so they were instead of measuring either

98

00:04:23,939 --> 00:04:20,889  
flow past the earth they were measuring

99

00:04:27,149 --> 00:04:23,949  
vertically and now this is proved there

100

00:04:28,890 --> 00:04:27,159  
is an ether hmm many other experiments

101  
00:04:31,770 --> 00:04:28,900  
that proved there was an ether before

102  
00:04:33,629 --> 00:04:31,780  
that also happened to confirm a

103  
00:04:36,120 --> 00:04:33,639  
prediction I had made that there would

104  
00:04:38,490 --> 00:04:36,130  
be a vertical ether flux into the earth

105  
00:04:41,159 --> 00:04:38,500  
that's what generates Cirrus gravity

106  
00:04:43,649 --> 00:04:41,169  
field hmm but I guess you could pretty

107  
00:04:46,529 --> 00:04:43,659  
much wipe out most of modern physics and

108  
00:04:49,439 --> 00:04:46,539  
you wouldn't have much of a loss keep

109  
00:04:51,930 --> 00:04:49,449  
Newtonian physics what Newton came up

110  
00:04:54,240 --> 00:04:51,940  
with those equations Maxwell's equations

111  
00:04:56,339 --> 00:04:54,250  
things like that but once you get into

112  
00:05:00,600 --> 00:04:56,349  
quantum mechanics that's completely

113  
00:05:02,309 --> 00:05:00,610

haywire for example Randall Mills has

114

00:05:05,010 --> 00:05:02,319

produced a device

115

00:05:06,779 --> 00:05:05,020

gets energy out of water it's actually

116

00:05:10,559 --> 00:05:06,789

able to generate very high temperatures

117

00:05:13,019 --> 00:05:10,569

he gets a megawatt of power out of

118

00:05:14,749 --> 00:05:13,029

something that would fit in about the

119

00:05:18,179 --> 00:05:14,759

size of a little bigger than your

120

00:05:20,629 --> 00:05:18,189

refrigerator and physics says oh that's

121

00:05:23,369 --> 00:05:20,639

impossible based on quantum mechanics

122

00:05:26,249 --> 00:05:23,379

he's saying that the electrons in a

123

00:05:28,230 --> 00:05:26,259

water atom are able to jump down to a

124

00:05:32,159 --> 00:05:28,240

lower energy state release that energy

125

00:05:35,309 --> 00:05:32,169

so physics says that's impossible but if

126

00:05:38,010 --> 00:05:35,319

you revise quantum mechanics in the

127

00:05:42,570 --> 00:05:38,020

right way which I had done it is

128

00:05:45,719 --> 00:05:42,580

possible so the problems with physics

129

00:05:48,510 --> 00:05:45,729

are in effect keeping us from having

130

00:05:50,579 --> 00:05:48,520

these new technologies the ones

131

00:05:53,939 --> 00:05:50,589

referring to or overunity

132

00:05:56,969 --> 00:05:53,949

technologies in the case of Randall

133

00:05:59,489 --> 00:05:56,979

Mills technology he was burning water so

134

00:06:01,920 --> 00:05:59,499

he was actually getting energy from the

135

00:06:05,489 --> 00:06:01,930

water which is something of you know

136

00:06:07,079 --> 00:06:05,499

while people might find surprising that

137

00:06:10,230 --> 00:06:07,089

you can get energy from water

138

00:06:13,799 --> 00:06:10,240

I met one fellow at a conference this

139

00:06:16,439 --> 00:06:13,809

past summer in Idaho who has developed a

140

00:06:19,079 --> 00:06:16,449

car that runs on water special kinds of

141

00:06:22,040 --> 00:06:19,089

spark plugs nice all these people at the

142

00:06:27,119 --> 00:06:22,050

conference had these devices they were

143

00:06:30,089 --> 00:06:27,129

researching were very afraid how long

144

00:06:32,100 --> 00:06:30,099

they would be living right they sort of

145

00:06:34,199 --> 00:06:32,110

keep quiet who they are what they're

146

00:06:35,219 --> 00:06:34,209

doing except at this conference II

147

00:06:36,329 --> 00:06:35,229

talked about it

148

00:06:39,389 --> 00:06:36,339

do you remember the name of that

149

00:06:42,029 --> 00:06:39,399

conference yes our C conference energy

150

00:06:45,209 --> 00:06:42,039

science technology conference something

151  
00:06:47,609 --> 00:06:45,219  
like that interesting yes this does seem

152  
00:06:49,290 --> 00:06:47,619  
like some of the most dangerous material

153  
00:06:52,649 --> 00:06:49,300  
to get into because it upsets the apple

154  
00:06:54,059 --> 00:06:52,659  
cart of a lot of big corporations and

155  
00:06:56,939 --> 00:06:54,069  
just the way things have been for so

156  
00:06:59,459 --> 00:06:56,949  
long and I've heard people suggest that

157  
00:07:01,889 --> 00:06:59,469  
even the patent system itself is in

158  
00:07:04,559 --> 00:07:01,899  
place to kind of send up a red flag

159  
00:07:06,119 --> 00:07:04,569  
whenever someone files for something in

160  
00:07:08,579 --> 00:07:06,129  
these wheelhouses and then of course

161  
00:07:10,679 --> 00:07:08,589  
they're visited and co-opted or it's

162  
00:07:13,110 --> 00:07:10,689  
taken to the deep state so yeah I mean

163  
00:07:15,909 --> 00:07:13,120

this is super fascinating stuff for sure

164

00:07:18,969 --> 00:07:15,919

yeah I used to work at the pet

165

00:07:22,029 --> 00:07:18,979

hmm one point they had sent out a

166

00:07:26,110 --> 00:07:22,039

directive to all the examiners so this

167

00:07:28,719 --> 00:07:26,120

is not a legal not by law it's just a

168

00:07:31,089 --> 00:07:28,729

head of the Patent Office was

169

00:07:34,209 --> 00:07:31,099

instructing examiner's how they wanted

170

00:07:38,170 --> 00:07:34,219

them to examine patents and anything

171

00:07:41,950 --> 00:07:38,180

that was overunity in other words free

172

00:07:44,830 --> 00:07:41,960

energy or produced more energy than used

173

00:07:46,360 --> 00:07:44,840

to run it they were supposed to reject

174

00:07:48,580 --> 00:07:46,370

the patent hmm

175

00:07:50,379 --> 00:07:48,590

so that's you know if they end up

176

00:07:52,029 --> 00:07:50,389

following that directive that's why a

177

00:07:54,879 --> 00:07:52,039

lot of these patents are getting

178

00:07:58,390 --> 00:07:54,889

rejected illegally it's illegal to do

179

00:08:00,790 --> 00:07:58,400

that because the US law I'm talking

180

00:08:03,969 --> 00:08:00,800

about us now I don't know what they do

181

00:08:07,300 --> 00:08:03,979

at the other patent offices Europe and

182

00:08:10,439 --> 00:08:07,310

so on but in u.s. the law is if there's

183

00:08:13,450 --> 00:08:10,449

an invention that's new and it works and

184

00:08:17,619 --> 00:08:13,460

nobody has thought of it before you were

185

00:08:21,459 --> 00:08:17,629

entitled to get a patent so they're not

186

00:08:24,579 --> 00:08:21,469

saying that you can only patent what is

187

00:08:28,240 --> 00:08:24,589

green with physics the law was not

188

00:08:30,700 --> 00:08:28,250

written that way so unfortunately a lot

189

00:08:32,290 --> 00:08:30,710

of examiner's are rejecting patents

190

00:08:34,089 --> 00:08:32,300

because they don't agree with what the

191

00:08:36,430 --> 00:08:34,099

physicists say and the physicist

192

00:08:39,759 --> 00:08:36,440

unfortunately they're wrong hmm

193

00:08:42,639 --> 00:08:39,769

interesting so one of the big topics at

194

00:08:44,230 --> 00:08:42,649

hand is anti-gravity propulsion I really

195

00:08:47,079 --> 00:08:44,240

loved your book secrets of anti-gravity

196

00:08:49,210 --> 00:08:47,089

propulsion and of course it's a super

197

00:08:51,610 --> 00:08:49,220

fascinating area I heard you talk about

198

00:08:53,500 --> 00:08:51,620

some of your own developments in the

199

00:08:55,300 --> 00:08:53,510

works as well as several versions of

200

00:08:57,400 --> 00:08:55,310

this kind of technology and previous

201  
00:08:59,319 --> 00:08:57,410  
interviews but how far back can we take

202  
00:09:01,660 --> 00:08:59,329  
it where do we have the first people

203  
00:09:03,280 --> 00:09:01,670  
developing this type of craft as far as

204  
00:09:05,769 --> 00:09:03,290  
you know was it reverse-engineered from

205  
00:09:08,439 --> 00:09:05,779  
crashed alien ships or is there a path

206  
00:09:11,050 --> 00:09:08,449  
of more traditional development well

207  
00:09:12,850 --> 00:09:11,060  
more traditional development because if

208  
00:09:15,670 --> 00:09:12,860  
you look at the work of Townsend Brown

209  
00:09:20,110 --> 00:09:15,680  
which goes back to the early 20th

210  
00:09:22,389 --> 00:09:20,120  
century he was born in 1905 and when he

211  
00:09:24,519 --> 00:09:22,399  
was a teenager stead of going out and

212  
00:09:27,390 --> 00:09:24,529  
playing ball he was in a laboratory

213  
00:09:29,580 --> 00:09:27,400

working on experiments electrogravitics

214

00:09:30,630 --> 00:09:29,590

these appellative developed the field of

215

00:09:32,640 --> 00:09:30,640

electrogravitics

216

00:09:35,820 --> 00:09:32,650

he demonstrated that there's a

217

00:09:38,880 --> 00:09:35,830

connection between electric fields and a

218

00:09:43,500 --> 00:09:38,890

gravitational field so he was able to

219

00:09:46,050 --> 00:09:43,510

engineer gravity using electricity he

220

00:09:49,980 --> 00:09:46,060

would put high voltages like 100 150

221

00:09:53,010 --> 00:09:49,990

thousand volts charging up a capacitor

222

00:09:55,770 --> 00:09:53,020

that had a heavy dielectric insulator

223

00:09:58,260 --> 00:09:55,780

between the two plates and it would

224

00:10:01,620 --> 00:09:58,270

cause it to move towards its positive

225

00:10:04,050 --> 00:10:01,630

charged side so he further developed

226

00:10:06,090 --> 00:10:04,060

this and he was able to get devices will

227

00:10:09,930 --> 00:10:06,100

actually lift off the ground he would

228

00:10:12,930 --> 00:10:09,940

pulse it with high frequency DC pulses

229

00:10:14,520 --> 00:10:12,940

and actually lift off and then he had

230

00:10:17,460 --> 00:10:14,530

other versions that would fly around

231

00:10:20,040 --> 00:10:17,470

like a maypole that was a little

232

00:10:21,750 --> 00:10:20,050

different principle that's what you call

233

00:10:24,600 --> 00:10:21,760

electro kinetics instead of

234

00:10:29,070 --> 00:10:24,610

electrogravitics there it's dealing with

235

00:10:32,300 --> 00:10:29,080

unbalanced forces do the ions exerting

236

00:10:35,010 --> 00:10:32,310

forces on the craft so he was

237

00:10:38,010 --> 00:10:35,020

approaching the Navy back then he made

238

00:10:41,370 --> 00:10:38,020

demonstrations to the Navy and one story

239

00:10:44,490 --> 00:10:41,380

says that he had gone to the base in

240

00:10:46,410 --> 00:10:44,500

Hawaii and put a demonstration there

241

00:10:49,260 --> 00:10:46,420

with three-foot diameter discs flying

242

00:10:52,710 --> 00:10:49,270

around a gymnasium around a 50-foot

243

00:10:55,710 --> 00:10:52,720

radius course and it was suspended from

244

00:10:59,280 --> 00:10:55,720

the ceiling and he's disciplined circle

245

00:11:01,320 --> 00:10:59,290

around it was reported in a magazine

246

00:11:04,250 --> 00:11:01,330

under a BIA that they were going several

247

00:11:07,410 --> 00:11:04,260

hundred miles per hour although this was

248

00:11:10,440 --> 00:11:07,420

supposed to be kept quiet they wanted

249

00:11:13,530 --> 00:11:10,450

all the results classified of course so

250

00:11:16,740 --> 00:11:13,540

about that time Brown made a report to

251  
00:11:19,530 --> 00:11:16,750  
the Navy called Project Winterhaven as a

252  
00:11:22,670 --> 00:11:19,540  
proposal actually and he was proposing

253  
00:11:26,760 --> 00:11:22,680  
that he could design disc shaped craft

254  
00:11:28,320 --> 00:11:26,770  
with Mach 3 capability which was pretty

255  
00:11:31,740 --> 00:11:28,330  
good at those days they hadn't achieved

256  
00:11:35,880 --> 00:11:31,750  
mark 3 so back in the 50s this was in

257  
00:11:39,600 --> 00:11:35,890  
1952 that was an amazing unbelievable

258  
00:11:40,580 --> 00:11:39,610  
speed and in there he says in the

259  
00:11:44,630 --> 00:11:40,590  
proposal

260  
00:11:47,660 --> 00:11:44,640  
he has been required not to publish any

261  
00:11:51,220 --> 00:11:47,670  
of his work so that's why you hear about

262  
00:11:53,300 --> 00:11:51,230  
Einstein and not about Townsend Brown

263  
00:11:57,220 --> 00:11:53,310

Einstein could publish his work

264

00:11:59,810 --> 00:11:57,230

Einstein was wrong I say wrong period

265

00:12:04,580 --> 00:11:59,820

with special relativity and general

266

00:12:06,620 --> 00:12:04,590

relativity Einstein failed to connect

267

00:12:09,890 --> 00:12:06,630

electricity and gravity he was looking

268

00:12:11,960 --> 00:12:09,900

for the connection for decades until he

269

00:12:13,520 --> 00:12:11,970

died he couldn't figure it out he knew

270

00:12:15,790 --> 00:12:13,530

there was a connection because he knew

271

00:12:18,530 --> 00:12:15,800

Brown they both worked on a Philadelphia

272

00:12:21,530 --> 00:12:18,540

project the Navy tried to cover up

273

00:12:24,890 --> 00:12:21,540

afterwards life changing Browns resume

274

00:12:27,980 --> 00:12:24,900

that had been posted I guess it was his

275

00:12:29,900 --> 00:12:27,990

discharge papers they changed the record

276

00:12:32,690 --> 00:12:29,910

so he was discharged two years earlier

277

00:12:35,240 --> 00:12:32,700

so it wouldn't look like he was in

278

00:12:38,270 --> 00:12:35,250

Philadelphia when the Philadelphia

279

00:12:40,640 --> 00:12:38,280

Experiment was going on right that's the

280

00:12:42,770 --> 00:12:40,650

only reason I can suspect it was

281

00:12:45,080 --> 00:12:42,780

motivation well that was one of my

282

00:12:46,940 --> 00:12:45,090

favorite parts of your book because a

283

00:12:49,280 --> 00:12:46,950

lot of people who are critics of the

284

00:12:51,980 --> 00:12:49,290

Philadelphia project story say that the

285

00:12:53,930 --> 00:12:51,990

logs of the USS Eldridge don't match up

286

00:12:57,890 --> 00:12:53,940

with the dates of the proposed

287

00:12:59,660 --> 00:12:57,900

experiment but it's easy to fake logs if

288

00:13:01,520 --> 00:12:59,670

you're trying to actually cover up a

289

00:13:03,530 --> 00:13:01,530

secret covert project and it seems like

290

00:13:06,350 --> 00:13:03,540

if Brown was involved it's easy to do

291

00:13:08,440 --> 00:13:06,360

the same thing to his logs as well yeah

292

00:13:12,500 --> 00:13:08,450

well in the Navy's in charge of whatever

293

00:13:14,570 --> 00:13:12,510

documents they put out right fortunately

294

00:13:17,450 --> 00:13:14,580

have Browns resume which was made public

295

00:13:21,830 --> 00:13:17,460

before the Navy made their changes and

296

00:13:24,500 --> 00:13:21,840

we know he was in those locations that

297

00:13:26,080 --> 00:13:24,510

he was in charge of minesweeping project

298

00:13:29,000 --> 00:13:26,090

they called it that was the cover name

299

00:13:31,460 --> 00:13:29,010

he had brought fifty million dollars

300

00:13:34,430 --> 00:13:31,470

from England he was in charge of the

301  
00:13:38,090 --> 00:13:34,440  
shipment of that gold from England to

302  
00:13:40,880 --> 00:13:38,100  
the US wasn't said what it was for but

303  
00:13:44,510 --> 00:13:40,890  
when you realize about the Philadelphia

304  
00:13:47,570 --> 00:13:44,520  
project went on just after that you can

305  
00:13:49,420 --> 00:13:47,580  
figure out what it was and fifty million

306  
00:13:52,010 --> 00:13:49,430  
then was a huge amount of money

307  
00:13:53,920 --> 00:13:52,020  
considering the size of the US Defense

308  
00:13:56,290 --> 00:13:53,930  
Department budget back

309  
00:14:00,310 --> 00:13:56,300  
we were just starting to get involved in

310  
00:14:01,840 --> 00:14:00,320  
the war I guess it at that time but you

311  
00:14:04,210 --> 00:14:01,850  
know it's probably good they kept it

312  
00:14:06,670 --> 00:14:04,220  
quiet because they did get into some

313  
00:14:09,490 --> 00:14:06,680

pretty frightening stuff there yes and

314

00:14:12,250 --> 00:14:09,500

are you alluding to these stories that

315

00:14:14,350 --> 00:14:12,260

when the ship D materialized or went

316

00:14:16,420 --> 00:14:14,360

through its dimensional shift and came

317

00:14:19,480 --> 00:14:16,430

back whatever happened that a lot of the

318

00:14:21,240 --> 00:14:19,490

crew on board were embedded in the

319

00:14:23,230 --> 00:14:21,250

equipment of the boat and just

320

00:14:26,620 --> 00:14:23,240

apparently died in some very gruesome

321

00:14:29,710 --> 00:14:26,630

ways is that what you mean I believe it

322

00:14:32,130 --> 00:14:29,720

did happen because the physics I

323

00:14:35,290 --> 00:14:32,140

developed explains that it should happen

324

00:14:39,280 --> 00:14:35,300

so it's confirming what the theory

325

00:14:41,430 --> 00:14:39,290

predicts basically if you manipulate

326

00:14:44,260 --> 00:14:41,440

gravity which is what they were doing

327

00:14:46,120 --> 00:14:44,270

you can make things first become

328

00:14:48,940 --> 00:14:46,130

invisible and then actually be

329

00:14:52,960 --> 00:14:48,950

materialized hmm to do that you have to

330

00:14:55,630 --> 00:14:52,970

make a negative gravity field hmm easier

331

00:14:58,900 --> 00:14:55,640

said than done I'm sure yeah if you can

332

00:15:01,540 --> 00:14:58,910

make G Hill rather than G well like the

333

00:15:05,920 --> 00:15:01,550

Earth's gravity field is in a gravity

334

00:15:09,220 --> 00:15:05,930

well you should be able to make objects

335

00:15:11,560 --> 00:15:09,230

disappear for the same reason this

336

00:15:14,800 --> 00:15:11,570

physics theory which I call sub quantum

337

00:15:17,350 --> 00:15:14,810

kinetics and it's had something like 13

338

00:15:19,420 --> 00:15:17,360

confirmations that I've documented and

339

00:15:21,420 --> 00:15:19,430

even more that I haven't which are

340

00:15:25,090 --> 00:15:21,430

predictions that were made and

341

00:15:27,250 --> 00:15:25,100

subsequently confirmed so I have great

342

00:15:29,650 --> 00:15:27,260

confidence in this theory plus I found

343

00:15:32,890 --> 00:15:29,660

it it appears it existed in ancient

344

00:15:36,579 --> 00:15:32,900

times even and if we're not the first to

345

00:15:42,130 --> 00:15:36,589

discover this but that's the whole other

346

00:15:45,190 --> 00:15:42,140

story so for the same reason when you

347

00:15:48,970 --> 00:15:45,200

get outside of the galaxy where the

348

00:15:51,100 --> 00:15:48,980

gravity potential goes to a higher level

349

00:15:54,340 --> 00:15:51,110

in other words we're sort of in a

350

00:15:56,710 --> 00:15:54,350

gravity well here being in the galaxy if

351  
00:15:59,829 --> 00:15:56,720  
you go out away from the galaxy gravity

352  
00:16:01,449 --> 00:15:59,839  
potential increases and according to

353  
00:16:04,360 --> 00:16:01,459  
this physics once you get above a

354  
00:16:07,210 --> 00:16:04,370  
certain threshold then photons will lose

355  
00:16:10,300 --> 00:16:07,220  
energy instead of gain energy it takes

356  
00:16:13,120 --> 00:16:10,310  
more of impulse for something to be

357  
00:16:14,920 --> 00:16:13,130  
created in terms of matter creation in

358  
00:16:17,140 --> 00:16:14,930  
this physics you don't have a Big Bang

359  
00:16:19,569 --> 00:16:17,150  
you have matter being continuously

360  
00:16:22,150 --> 00:16:19,579  
created and all the data supports the

361  
00:16:25,329 --> 00:16:22,160  
continuous creation cosmology and

362  
00:16:27,880 --> 00:16:25,339  
disproves the Big Bang cosmology I've

363  
00:16:30,430 --> 00:16:27,890

written a paper on this and published in

364

00:16:33,699 --> 00:16:30,440

the Astrophysical Journal which is the

365

00:16:36,069 --> 00:16:33,709

same one that Hubble published in and in

366

00:16:39,750 --> 00:16:36,079

that I disproved a Big Bang Theory back

367

00:16:42,910 --> 00:16:39,760

in 1986 and show that the correct

368

00:16:47,110 --> 00:16:42,920

interpretation of the cosmological

369

00:16:49,630 --> 00:16:47,120

redshift is that light photons coming

370

00:16:52,390 --> 00:16:49,640

from a distant galaxy lose energy as

371

00:16:56,040 --> 00:16:52,400

they travel and as a result their

372

00:16:59,380 --> 00:16:56,050

spectrum changes to a redder wavelength

373

00:17:01,930 --> 00:16:59,390

the idea that suit of expansion is

374

00:17:04,890 --> 00:17:01,940

incorrect and this has been disproven is

375

00:17:08,340 --> 00:17:04,900

shown to be incorrect in a paper I wrote

376

00:17:11,800 --> 00:17:08,350

which didn't receive that much publicity

377

00:17:14,439 --> 00:17:11,810

astronomy magazine did publish something

378

00:17:18,100 --> 00:17:14,449

briefly about it but it didn't change

379

00:17:21,699 --> 00:17:18,110

the thinking of the mainstream cosmology

380

00:17:25,960 --> 00:17:21,709

community I did get letters from some of

381

00:17:28,210 --> 00:17:25,970

the renowned astronomers school thank me

382

00:17:31,210 --> 00:17:28,220

for the paper I wrote and we were very

383

00:17:33,520 --> 00:17:31,220

happy about the conclusions of course

384

00:17:35,800 --> 00:17:33,530

they were already having doubts about

385

00:17:37,450 --> 00:17:35,810

the Big Bang Theory but for the

386

00:17:40,450 --> 00:17:37,460

mainstream I guess they're just too

387

00:17:42,250 --> 00:17:40,460

scared and stuck with the wrong theory

388

00:17:46,060 --> 00:17:42,260

and that's we're still stuck with it

389

00:17:48,190 --> 00:17:46,070

unfortunately hmm yes so I heard some of

390

00:17:48,549 --> 00:17:48,200

your interviews from roughly a year ago

391

00:17:51,070 --> 00:17:48,559

and you were

392

00:17:53,830 --> 00:17:51,080

talking about developing your own craft

393

00:17:56,110 --> 00:17:53,840

using the Lorenz force and looking for

394

00:17:59,320 --> 00:17:56,120

some funding where is that project now

395

00:18:01,180 --> 00:17:59,330

has anything developed on that we got

396

00:18:03,100 --> 00:18:01,190

the funny we did the test and it doesn't

397

00:18:05,440 --> 00:18:03,110

work so we're going on it's something

398

00:18:08,320 --> 00:18:05,450

else now that was the new caecus

399

00:18:11,019 --> 00:18:08,330

thruster version two and three two

400

00:18:14,350 --> 00:18:11,029

superconducting thruster his first

401  
00:18:16,450 --> 00:18:14,360  
version works just the first version

402  
00:18:18,850 --> 00:18:16,460  
puts out a small amount of thrust

403  
00:18:21,009 --> 00:18:18,860  
we were hoping the second and third

404  
00:18:25,529 --> 00:18:21,019  
versions would work better but

405  
00:18:28,659 --> 00:18:25,539  
apparently here again physics and

406  
00:18:31,749 --> 00:18:28,669  
standard thinking has messed up the day

407  
00:18:33,940 --> 00:18:31,759  
for us because the whole invention of

408  
00:18:35,830 --> 00:18:33,950  
the second and third version of his

409  
00:18:39,129 --> 00:18:35,840  
thruster was based on the idea of

410  
00:18:42,700 --> 00:18:39,139  
Lorentz force that you have a coil

411  
00:18:44,470 --> 00:18:42,710  
winding solenoid they know that when you

412  
00:18:47,340 --> 00:18:44,480  
put huge amounts of current through a

413  
00:18:50,529 --> 00:18:47,350

solenoid coil it tends to want to expand

414

00:18:53,080 --> 00:18:50,539

radially I hope I'm not getting overly

415

00:18:55,749 --> 00:18:53,090

technical I don't think these details

416

00:18:58,529 --> 00:18:55,759

and there's two ways that could be

417

00:19:02,200 --> 00:18:58,539

occurring one is through Lorentz force

418

00:19:06,340 --> 00:19:02,210

where the force is acting perpendicular

419

00:19:08,470 --> 00:19:06,350

to the coil so in a radial direction and

420

00:19:11,859 --> 00:19:08,480

the other is the ampère force where the

421

00:19:15,070 --> 00:19:11,869

force acts along the windings so exactly

422

00:19:16,930 --> 00:19:15,080

90 degrees to the Lorentz force and they

423

00:19:18,879 --> 00:19:16,940

both increase the amount of force

424

00:19:22,119 --> 00:19:18,889

increases with current in about the same

425

00:19:23,950 --> 00:19:22,129

way but physicists chose to interpret as

426

00:19:25,600 --> 00:19:23,960

the Lorentz force that we ampere and

427

00:19:27,460 --> 00:19:25,610

that's well the results of our

428

00:19:29,980 --> 00:19:27,470

experiment basically show there is no

429

00:19:31,840 --> 00:19:29,990

Lorentz force that there's only ampere

430

00:19:35,230 --> 00:19:31,850

force and with ampere force you can't

431

00:19:37,840 --> 00:19:35,240

generate thrust with that design well it

432

00:19:41,169 --> 00:19:37,850

took a lot of wasn't that much money but

433

00:19:44,169 --> 00:19:41,179

it was sizable amount which an angel

434

00:19:46,810 --> 00:19:44,179

donor gave to us to do the final test

435

00:19:50,139 --> 00:19:46,820

and we had a crowdfunding project for

436

00:19:52,289 --> 00:19:50,149

testing the earlier version the positive

437

00:19:54,940 --> 00:19:52,299

thing you can say well we found it the

438

00:19:56,850 --> 00:19:54,950

standard view was wrong about the Lance

439

00:19:58,049 --> 00:19:56,860

force

440

00:20:00,510 --> 00:19:58,059

yeah I mean these things are gonna be

441

00:20:02,940 --> 00:20:00,520

trial and error to a point but there's

442

00:20:06,180 --> 00:20:02,950

other things going on and it's very

443

00:20:09,390 --> 00:20:06,190

interesting as far as free energy and

444

00:20:12,630 --> 00:20:09,400

propulsion I think we're at a watershed

445

00:20:15,270 --> 00:20:12,640

these things are going to be coming out

446

00:20:17,580 --> 00:20:15,280

very shortly and I think it's going to

447

00:20:20,669 --> 00:20:17,590

be difficult to stop them in any way

448

00:20:24,630 --> 00:20:20,679

stop all of them hmm do you think that's

449

00:20:26,549 --> 00:20:24,640

why we see things like the buzz around

450

00:20:28,650 --> 00:20:26,559

disclosure right now at the Pentagon

451  
00:20:30,900 --> 00:20:28,660  
having their UFO release Tom DeLonge

452  
00:20:32,250 --> 00:20:30,910  
stuff coming out now I'm seeing Lockheed

453  
00:20:34,740 --> 00:20:32,260  
Martin is actually gonna launch a

454  
00:20:37,440 --> 00:20:34,750  
podcast to quote bring some stuff up

455  
00:20:39,690 --> 00:20:37,450  
from skunk works and I mean I'm pretty

456  
00:20:41,909 --> 00:20:39,700  
skeptical but I think maybe their hand

457  
00:20:43,799 --> 00:20:41,919  
is being forced maybe it's like they

458  
00:20:46,080 --> 00:20:43,809  
have no choice but to disclose some of

459  
00:20:47,789 --> 00:20:46,090  
this otherwise more and more people are

460  
00:20:49,650 --> 00:20:47,799  
going to realize we've been deceived for

461  
00:20:51,930 --> 00:20:49,660  
a long time and that's probably not a

462  
00:20:53,970 --> 00:20:51,940  
perspective they want the majority of

463  
00:20:56,880 --> 00:20:53,980

people to have so why not just roll it

464

00:20:59,340 --> 00:20:56,890

out and act like it's new yeah well last

465

00:21:02,820 --> 00:20:59,350

summer or fall I got a call from

466

00:21:06,419 --> 00:21:02,830

somebody in the US Space Command and

467

00:21:09,530 --> 00:21:06,429

they were interested in if I was willing

468

00:21:11,850 --> 00:21:09,540

to work with them to develop

469

00:21:16,919 --> 00:21:11,860

electrogravitics technology things like

470

00:21:20,159 --> 00:21:16,929

this for the military in an open sense

471

00:21:22,950 --> 00:21:20,169

so it wouldn't be classified I told him

472

00:21:26,250 --> 00:21:22,960

yes since then I haven't heard back from

473

00:21:30,450 --> 00:21:26,260

them but they had said that there's been

474

00:21:32,730 --> 00:21:30,460

a change higher up in thinking and that

475

00:21:35,159 --> 00:21:32,740

they're ready to be more open about some

476  
00:21:38,220 --> 00:21:35,169  
of these technologies that have

477  
00:21:41,400 --> 00:21:38,230  
classified so what you're saying is very

478  
00:21:42,900 --> 00:21:41,410  
possible that is very exciting and I

479  
00:21:45,539 --> 00:21:42,910  
guess it seems like a lot of this

480  
00:21:48,060 --> 00:21:45,549  
development is clearly within the grasp

481  
00:21:50,580 --> 00:21:48,070  
of human hands if they're open-minded

482  
00:21:53,010 --> 00:21:50,590  
enough to find it maybe we don't need a

483  
00:21:56,250 --> 00:21:53,020  
crash at Roswell but I guess I would ask

484  
00:21:58,530 --> 00:21:56,260  
what are your thoughts on ET involvement

485  
00:22:01,110 --> 00:21:58,540  
either then or now or in the past

486  
00:22:02,940 --> 00:22:01,120  
because a lot of guests do talk about it

487  
00:22:05,870 --> 00:22:02,950  
yet we're talking about pretty practical

488  
00:22:09,000 --> 00:22:05,880

things that seem like man can achieve

489

00:22:10,090 --> 00:22:09,010

well I agree with what's been said that

490

00:22:12,669 --> 00:22:10,100

were actually

491

00:22:15,190 --> 00:22:12,679

terrestrial zin the craft it crashed was

492

00:22:16,990 --> 00:22:15,200

that what you were wondering essentially

493

00:22:19,799 --> 00:22:17,000

I mean just these technologies in

494

00:22:22,779 --> 00:22:19,809

general you hear rumors that they're

495

00:22:24,700 --> 00:22:22,789

developed from reverse engineered craft

496

00:22:26,620 --> 00:22:24,710

that that's where the transistor came

497

00:22:28,930 --> 00:22:26,630

from that most of our modern technology

498

00:22:30,940 --> 00:22:28,940

is derived from that incident but then

499

00:22:33,250 --> 00:22:30,950

on the other side you do hear people

500

00:22:35,350 --> 00:22:33,260

saying that a lot of these crafts are

501  
00:22:37,299 --> 00:22:35,360  
probably man-made they're from a

502  
00:22:40,150 --> 00:22:37,309  
breakaway civilization they're from

503  
00:22:43,029 --> 00:22:40,160  
Lockheed Martin and deep state projects

504  
00:22:44,919 --> 00:22:43,039  
so I guess it can be both you know if

505  
00:22:47,200 --> 00:22:44,929  
this technology exists then it could

506  
00:22:49,419 --> 00:22:47,210  
either be brought from elsewhere or just

507  
00:22:52,450 --> 00:22:49,429  
developed naturally but there is kind of

508  
00:22:54,880 --> 00:22:52,460  
that split in the community of trying to

509  
00:22:58,690 --> 00:22:54,890  
figure out if it's one or the other but

510  
00:23:01,060 --> 00:22:58,700  
maybe it's both yeah it's both Browns

511  
00:23:03,370 --> 00:23:01,070  
technology ended up in the b-2 bomber

512  
00:23:06,370 --> 00:23:03,380  
that's in my book I have a couple

513  
00:23:09,250 --> 00:23:06,380

chapters devoted to that I first came

514

00:23:13,180 --> 00:23:09,260

out with that as a paperback in 93 I

515

00:23:15,760 --> 00:23:13,190

think it was at a conference and I sent

516

00:23:19,480 --> 00:23:15,770

a copy to Aviation Week and space

517

00:23:22,330 --> 00:23:19,490

technology which is the journal or

518

00:23:25,180 --> 00:23:22,340

magazine where the black project

519

00:23:27,580 --> 00:23:25,190

scientists had spilled the beans on a

520

00:23:29,500 --> 00:23:27,590

lot of classified technologies including

521

00:23:31,960 --> 00:23:29,510

the b2 and they're the ones that said

522

00:23:35,590 --> 00:23:31,970

that they charged the leading edge of

523

00:23:37,960 --> 00:23:35,600

the wing on the b2 and they dumped the

524

00:23:41,770 --> 00:23:37,970

opposite charged ions out the back and

525

00:23:44,950 --> 00:23:41,780

the exhaust and based on that I was able

526  
00:23:46,539 --> 00:23:44,960  
to realize that it was Browns technology

527  
00:23:49,570 --> 00:23:46,549  
that were using because he had gotten

528  
00:23:52,149 --> 00:23:49,580  
two patents on this type of technology

529  
00:23:55,779 --> 00:23:52,159  
and it was easy to see that's exactly

530  
00:23:59,919 --> 00:23:55,789  
what Brown was proposing my paper was

531  
00:24:02,980 --> 00:23:59,929  
sent to his sister who was married at

532  
00:24:06,820 --> 00:24:02,990  
that time to fellow who had test flown

533  
00:24:08,740 --> 00:24:06,830  
to b2 and was said he was so angry after

534  
00:24:12,899 --> 00:24:08,750  
reading my paper that he wouldn't speak

535  
00:24:15,640 --> 00:24:12,909  
to his wife for a whole week about it so

536  
00:24:17,620 --> 00:24:15,650  
all the feedback I've gotten is that I

537  
00:24:19,270 --> 00:24:17,630  
was right on I mean I have no way to

538  
00:24:20,960 --> 00:24:19,280

check for sure because the whole matter

539

00:24:23,840 --> 00:24:20,970

is classified

540

00:24:26,390 --> 00:24:23,850

from little things you hear things

541

00:24:29,990 --> 00:24:26,400

people have leaked about the b2 giving

542

00:24:32,149 --> 00:24:30,000

off a very strong electric charge that

543

00:24:34,430 --> 00:24:32,159

could kill you if you touched it after

544

00:24:38,090 --> 00:24:34,440

landing that's why they have to ground

545

00:24:40,010 --> 00:24:38,100

it before opening that plane things like

546

00:24:42,440 --> 00:24:40,020

this you realize there's a lot of truth

547

00:24:44,659 --> 00:24:42,450

to this and it's unfortunate you know if

548

00:24:47,539 --> 00:24:44,669

NASA had this technology they could have

549

00:24:50,360 --> 00:24:47,549

avoided the Columbia space disaster and

550

00:24:52,880 --> 00:24:50,370

I had proposed to them to use Browns

551  
00:24:55,820 --> 00:24:52,890  
technology to deflect air around the

552  
00:25:00,140 --> 00:24:55,830  
wing but before the disaster happened

553  
00:25:03,080 --> 00:25:00,150  
and they weren't that interested so we

554  
00:25:05,960 --> 00:25:03,090  
pay the price for our stupidities it

555  
00:25:08,810 --> 00:25:05,970  
seems like we do in the case of the

556  
00:25:11,690 --> 00:25:08,820  
Roswell crash you've heard of arts parts

557  
00:25:15,560 --> 00:25:11,700  
the skin of the craft that was mailed to

558  
00:25:17,870 --> 00:25:15,570  
art del mm-hm and he gave it them to a

559  
00:25:20,990 --> 00:25:17,880  
few different researchers to analyze

560  
00:25:24,100 --> 00:25:21,000  
have you heard about this just vaguely

561  
00:25:27,710 --> 00:25:24,110  
but yeah tell us how that story ended up

562  
00:25:30,289 --> 00:25:27,720  
the son of one of the people who had

563  
00:25:34,220 --> 00:25:30,299

been to the crash site when it happened

564

00:25:37,159 --> 00:25:34,230

it was their farm managed to pick up a

565

00:25:38,960 --> 00:25:37,169

few pieces to keep for himself they were

566

00:25:42,039 --> 00:25:38,970

supposed to give up anything they picked

567

00:25:46,820 --> 00:25:42,049

but he happened to keep a few pieces and

568

00:25:50,840 --> 00:25:46,830

years later so the son sends this to our

569

00:25:53,570 --> 00:25:50,850

bill and they analyze it they find it's

570

00:25:56,890 --> 00:25:53,580

layers of bismuth and magnesium or

571

00:25:59,419 --> 00:25:56,900

something like this microns thin layers

572

00:26:02,380 --> 00:25:59,429

one on top of the other like sandwich

573

00:26:04,760 --> 00:26:02,390

and the whole thing is only maybe a

574

00:26:09,470 --> 00:26:04,770

sixteenth of an inch thick but it's

575

00:26:11,980 --> 00:26:09,480

extremely strong and light so in my book

576

00:26:15,260 --> 00:26:11,990

in secrets of anti-gravity propulsion I

577

00:26:18,020 --> 00:26:15,270

show the connection to explain what the

578

00:26:20,510 --> 00:26:18,030

significance of that is and I believe

579

00:26:23,060 --> 00:26:20,520

it's what they call phase conjugating

580

00:26:25,399 --> 00:26:23,070

material which means that you can

581

00:26:28,700 --> 00:26:25,409

develop a force on it if you expose it

582

00:26:30,710 --> 00:26:28,710

to the right microwave frequency so it's

583

00:26:34,490 --> 00:26:30,720

possibly we're using microwave

584

00:26:35,299 --> 00:26:34,500

propulsion and craft in this way really

585

00:26:37,879 --> 00:26:35,309

difficult

586

00:26:41,259 --> 00:26:37,889

no without knowing more about what they

587

00:26:44,360 --> 00:26:41,269

found but there are crafts that use

588

00:26:46,810 --> 00:26:44,370

microwave beam propulsion and I

589

00:26:50,090 --> 00:26:46,820

discussed this in the book it's called

590

00:26:52,519 --> 00:26:50,100

project sky ball that was started back

591

00:26:56,590 --> 00:26:52,529

in the late 40s like right after World

592

00:27:00,049 --> 00:26:56,600

War 2 was worked on at Rocketdyne and

593

00:27:03,139 --> 00:27:00,059

then later Hughes Aircraft took over to

594

00:27:05,629 --> 00:27:03,149

work and Hughes was dissolved so we

595

00:27:07,909 --> 00:27:05,639

don't know where that went but this

596

00:27:10,749 --> 00:27:07,919

would explain these triangular craft did

597

00:27:14,239 --> 00:27:10,759

you see hovering and have three luminous

598

00:27:16,489 --> 00:27:14,249

circles at each corner mm-hmm so what

599

00:27:20,180 --> 00:27:16,499

those are are they're microwave beam

600

00:27:22,220 --> 00:27:20,190

generators and you don't see them but

601  
00:27:25,940 --> 00:27:22,230  
they're creating a beam that goes down

602  
00:27:28,430 --> 00:27:25,950  
to the earth and it's a special kind of

603  
00:27:31,730 --> 00:27:28,440  
beam they make it shaped like sawtooth

604  
00:27:34,759 --> 00:27:31,740  
wave rather than a sine wave and it's

605  
00:27:37,879 --> 00:27:34,769  
able to actually create a force both on

606  
00:27:40,129 --> 00:27:37,889  
the ground and on the craft so it's as

607  
00:27:43,070 --> 00:27:40,139  
if the craft is supported on these legs

608  
00:27:46,369 --> 00:27:43,080  
that you don't see so to us it seems

609  
00:27:48,919 --> 00:27:46,379  
magical but when you realize these

610  
00:27:52,279 --> 00:27:48,929  
things are just like solid rods under

611  
00:27:55,970 --> 00:27:52,289  
the craft it doesn't seem so far out

612  
00:27:58,220 --> 00:27:55,980  
anymore right and this wall came to me

613  
00:28:00,739 --> 00:27:58,230

after somebody heard a presentation I

614

00:28:03,950 --> 00:28:00,749

made at a conference where I was talking

615

00:28:06,680 --> 00:28:03,960

about Browns work and he came up to me

616

00:28:09,409 --> 00:28:06,690

and wanted to send me a packet of

617

00:28:12,529 --> 00:28:09,419

information which he did apparently his

618

00:28:15,109 --> 00:28:12,539

boss where he worked had worked on that

619

00:28:17,899 --> 00:28:15,119

project and had told him a few things

620

00:28:20,119 --> 00:28:17,909

wasn't supposed to but he had leaked a

621

00:28:23,119 --> 00:28:20,129

few things and then had put him in touch

622

00:28:24,830 --> 00:28:23,129

with the boss's supervisor on that

623

00:28:28,039 --> 00:28:24,840

project who was still working on the

624

00:28:30,230 --> 00:28:28,049

project and gave him more information

625

00:28:33,350 --> 00:28:30,240

even though they thought they weren't

626

00:28:35,779 --> 00:28:33,360

giving that much information out with

627

00:28:38,509 --> 00:28:35,789

what this fellow sent me I was able to

628

00:28:41,840 --> 00:28:38,519

reverse engineer the whole project Wow

629

00:28:44,629 --> 00:28:41,850

so right now you give me a 50 million

630

00:28:48,560 --> 00:28:44,639

and team of scientists and I could build

631

00:28:48,930 --> 00:28:48,570

you one of these well that was gonna be

632

00:28:51,570 --> 00:28:48,940

what I'm

633

00:28:55,470 --> 00:28:51,580

questions because Thomas Townsend Brown

634

00:28:57,450 --> 00:28:55,480

died in 1985 so that's not that long ago

635

00:28:59,940 --> 00:28:57,460

and of course people talk a lot about

636

00:29:01,260 --> 00:28:59,950

Tesla and the more exotic applications

637

00:29:03,240 --> 00:29:01,270

of what he could have been working on

638

00:29:05,370 --> 00:29:03,250

there's a lot of rumors but Tesla's a

639

00:29:08,010 --> 00:29:05,380

little too far removed for us to have

640

00:29:10,320 --> 00:29:08,020

like footage and that sort of thing but

641

00:29:12,300 --> 00:29:10,330

not in the case of Townsend Brown I

642

00:29:13,830 --> 00:29:12,310

wonder how this thing was swept under

643

00:29:16,620 --> 00:29:13,840

the rug cuz there has to be people even

644

00:29:19,140 --> 00:29:16,630

alive today who have seen his work seen

645

00:29:21,390 --> 00:29:19,150

his craps in action probably footage of

646

00:29:23,070 --> 00:29:21,400

it I mean are there models still around

647

00:29:25,380 --> 00:29:23,080

are they showing up at these conferences

648

00:29:27,930 --> 00:29:25,390

or anything well people have been

649

00:29:30,120 --> 00:29:27,940

duplicating his work but it was one

650

00:29:32,070 --> 00:29:30,130

fellow brought a model that was probably

651  
00:29:34,880 --> 00:29:32,080  
one of the better I've seen when he had

652  
00:29:37,920 --> 00:29:34,890  
discs about three inches in diameter

653  
00:29:40,260 --> 00:29:37,930  
that we're going around and round so it

654  
00:29:42,150 --> 00:29:40,270  
demonstrates the principle but I don't

655  
00:29:45,620 --> 00:29:42,160  
know if anybody's built a big one

656  
00:29:49,050 --> 00:29:45,630  
similar to Browns maypole demonstrations

657  
00:29:51,570 --> 00:29:49,060  
it requires somebody willing to put in a

658  
00:29:53,790 --> 00:29:51,580  
little money to do it so you could also

659  
00:29:58,680 --> 00:29:53,800  
make I suppose model airplanes fly

660  
00:30:00,720 --> 00:29:58,690  
better attach time to them sure so I

661  
00:30:02,430 --> 00:30:00,730  
guess I also wanted to ask you a little

662  
00:30:04,620 --> 00:30:02,440  
bit more about ether because you

663  
00:30:07,740 --> 00:30:04,630

mentioned the detection of the ether but

664

00:30:10,050 --> 00:30:07,750

what is the function of the ether in the

665

00:30:12,270 --> 00:30:10,060

natural world I mean we hear about it so

666

00:30:14,040 --> 00:30:12,280

little that I'm sure a lot of us are in

667

00:30:15,620 --> 00:30:14,050

the dark but it sounds provocative

668

00:30:18,990 --> 00:30:15,630

because it's tied into so many other

669

00:30:22,620 --> 00:30:19,000

kind of fringy ideas and things like

670

00:30:24,390 --> 00:30:22,630

alchemy and transmutation but I am

671

00:30:28,740 --> 00:30:24,400

curious like what is its natural

672

00:30:31,350 --> 00:30:28,750

function oh it sustains universe it's

673

00:30:33,900 --> 00:30:31,360

not a static substance it's like your

674

00:30:37,170 --> 00:30:33,910

body you know your body is got all these

675

00:30:39,900 --> 00:30:37,180

reactions going on molecules going from

676  
00:30:41,820 --> 00:30:39,910  
one place to another things transformed

677  
00:30:44,070 --> 00:30:41,830  
from one thing into another and that's

678  
00:30:46,200 --> 00:30:44,080  
what's happening ether except that's not

679  
00:30:48,870 --> 00:30:46,210  
at a chemical level that's at the

680  
00:30:51,810 --> 00:30:48,880  
etheric level just like you have

681  
00:30:54,480 --> 00:30:51,820  
different molecules or atoms you have

682  
00:30:58,140 --> 00:30:54,490  
different types of ether Ahn's as I call

683  
00:31:01,140 --> 00:30:58,150  
them which is a new concept in 19th

684  
00:31:02,109 --> 00:31:01,150  
century ether was all the same this

685  
00:31:04,599 --> 00:31:02,119  
substance

686  
00:31:07,749 --> 00:31:04,609  
considered to be all the same and inert

687  
00:31:10,149 --> 00:31:07,759  
and we just sat there waves would be

688  
00:31:13,209 --> 00:31:10,159

mechanically conducted through it now

689

00:31:15,369 --> 00:31:13,219

the ether that I'm talking about sub

690

00:31:18,299 --> 00:31:15,379

quantum kinetics is what's called a

691

00:31:21,099 --> 00:31:18,309

reaction diffusion either which means it

692

00:31:24,369 --> 00:31:21,109

the ether ones are both reacting and

693

00:31:26,919 --> 00:31:24,379

diffusing through space if you write the

694

00:31:30,939 --> 00:31:26,929

right equation right recipe of how these

695

00:31:35,009 --> 00:31:30,949

react you can produce what we call

696

00:31:37,329 --> 00:31:35,019

solitons or in physics particles

697

00:31:39,849 --> 00:31:37,339

mathematics would be called a solar time

698

00:31:42,819 --> 00:31:39,859

but it's the analogy of a subatomic

699

00:31:45,549 --> 00:31:42,829

particle we actually have done

700

00:31:50,289 --> 00:31:45,559

simulations on this model which I call

701  
00:31:54,399 --> 00:31:50,299  
model G mala G is the recipe of how

702  
00:31:57,129 --> 00:31:54,409  
these ether reactions take place they

703  
00:31:59,969 --> 00:31:57,139  
produce a particle that matches exactly

704  
00:32:03,009 --> 00:31:59,979  
what they found in particle scattering

705  
00:32:06,279 --> 00:32:03,019  
experiments about 18 years ago I think

706  
00:32:10,689 --> 00:32:06,289  
they did the experiments to find how the

707  
00:32:13,149 --> 00:32:10,699  
neutron and proton field looks at the

708  
00:32:15,459 --> 00:32:13,159  
center of the particle and what they

709  
00:32:18,069 --> 00:32:15,469  
found matched exactly what's up quantum

710  
00:32:21,279 --> 00:32:18,079  
kinetics says that the field doesn't go

711  
00:32:24,149 --> 00:32:21,289  
to infinity at the center it's sort of

712  
00:32:27,009 --> 00:32:24,159  
like a top hat rounded off at the center

713  
00:32:29,559 --> 00:32:27,019

which disproves the formation of black

714

00:32:32,679 --> 00:32:29,569

holes right there you can't form black

715

00:32:35,349 --> 00:32:32,689

holes if the gravity field is formed in

716

00:32:38,499 --> 00:32:35,359

that way this is another thing that's

717

00:32:40,869 --> 00:32:38,509

ignored by physics and astronomy in

718

00:32:43,659 --> 00:32:40,879

other words from these equations are

719

00:32:46,059 --> 00:32:43,669

just three equations it's sort of like

720

00:32:48,549 --> 00:32:46,069

the genetic code of the universe you're

721

00:32:51,519 --> 00:32:48,559

able to generate everything you know

722

00:32:54,909 --> 00:32:51,529

because if you can generate particles

723

00:32:57,729 --> 00:32:54,919

that have charged spin and mass then

724

00:32:59,799 --> 00:32:57,739

that's the main goal of physics is to

725

00:33:03,299 --> 00:32:59,809

explain the formation of those particles

726

00:33:05,529 --> 00:33:03,309

because once they're formed at least for

727

00:33:08,919 --> 00:33:05,539

the part of physics dealing with

728

00:33:11,799 --> 00:33:08,929

creation anyway cosmology once you've

729

00:33:15,159 --> 00:33:11,809

created a particle showing how a

730

00:33:16,450 --> 00:33:15,169

particle is created just repeat that up

731

00:33:19,420 --> 00:33:16,460

ten million times

732

00:33:23,410 --> 00:33:19,430

billion trillion quadrillion and you've

733

00:33:25,690 --> 00:33:23,420

got the matter that forms universe this

734

00:33:28,900 --> 00:33:25,700

is the beauty of sub quantum kinetics is

735

00:33:31,900 --> 00:33:28,910

its simplicity because we begin with the

736

00:33:34,150 --> 00:33:31,910

genetic code so to speak and that

737

00:33:36,490 --> 00:33:34,160

genetic code you can play with it

738

00:33:39,520 --> 00:33:36,500

if you find it it needs some tweaking

739

00:33:42,220 --> 00:33:39,530

you can make changes right now it's

740

00:33:44,890 --> 00:33:42,230

explained an enormous number of things

741

00:33:48,220 --> 00:33:44,900

plus it's able to explain all these

742

00:33:52,000 --> 00:33:48,230

advanced technologies explain Randal

743

00:33:53,740 --> 00:33:52,010

Mills son cell technology it predicts

744

00:33:56,200 --> 00:33:53,750

the connection between electricity and

745

00:34:00,340 --> 00:33:56,210

gravitation in other words brown's

746

00:34:03,460 --> 00:34:00,350

technology the other thing is that it

747

00:34:05,470 --> 00:34:03,470

shows that we live in an open system

748

00:34:09,190 --> 00:34:05,480

rather than closed system for the

749

00:34:11,880 --> 00:34:09,200

universe the reason that they give for

750

00:34:14,290 --> 00:34:11,890

free energy being impossible we say well

751  
00:34:16,810 --> 00:34:14,300  
you can't create energy out of nothing

752  
00:34:20,590 --> 00:34:16,820  
but that's only true for closed systems

753  
00:34:22,930 --> 00:34:20,600  
if physicists will admit if there's an

754  
00:34:27,010 --> 00:34:22,940  
open system then yes you can create

755  
00:34:28,990 --> 00:34:27,020  
energy out of nothing hmm but they want

756  
00:34:32,080 --> 00:34:29,000  
to say that the physical universe is

757  
00:34:34,360 --> 00:34:32,090  
closed and that's a wrong assumption why

758  
00:34:36,930 --> 00:34:34,370  
should the rest of us pay the price of

759  
00:34:40,120 --> 00:34:36,940  
not having these advanced technologies

760  
00:34:41,590 --> 00:34:40,130  
just because the physicists want to

761  
00:34:45,460 --> 00:34:41,600  
believe the universe is a closed system

762  
00:34:47,800 --> 00:34:45,470  
a man there's consequences for the

763  
00:34:52,990 --> 00:34:47,810

stupidities of the physics community and

764

00:34:56,290 --> 00:34:53,000

I say this is a physicist myself my

765

00:34:58,570 --> 00:34:56,300

colleagues sure and so you're a

766

00:35:00,760 --> 00:34:58,580

proponent of ether Theory you developed

767

00:35:03,040 --> 00:35:00,770

your own theory of gravity you've talked

768

00:35:05,260 --> 00:35:03,050

about stars and their energy production

769

00:35:07,630 --> 00:35:05,270

and pretty unconventional ways I'm

770

00:35:10,600 --> 00:35:07,640

curious what are your thoughts on

771

00:35:12,400 --> 00:35:10,610

something like the possibility of hollow

772

00:35:14,350 --> 00:35:12,410

planets or that they might have some

773

00:35:16,990 --> 00:35:14,360

different qualities than we've learned

774

00:35:19,450 --> 00:35:17,000

about in school books did you have in

775

00:35:21,250 --> 00:35:19,460

mind a planet well Earth but I assume

776

00:35:23,830 --> 00:35:21,260

that however they're comprised would

777

00:35:26,130 --> 00:35:23,840

generally be applicable across the board

778

00:35:29,410 --> 00:35:26,140

but I guess let's start with our own

779

00:35:30,430 --> 00:35:29,420

well I'm a proponent of Hollow Earth

780

00:35:33,819 --> 00:35:30,440

theory

781

00:35:36,359 --> 00:35:33,829

mmm-hmm I stick with sub quantum

782

00:35:40,599 --> 00:35:36,369

kinetics and if sub quantum kinetics

783

00:35:43,089 --> 00:35:40,609

predicts it then in this case there's no

784

00:35:45,730 --> 00:35:43,099

way sub quan connects predicts it you

785

00:35:48,400 --> 00:35:45,740

could say or imagine okay suppose the

786

00:35:51,490 --> 00:35:48,410

center of the earth is not molten how

787

00:35:53,220 --> 00:35:51,500

that would happen I wouldn't know to be

788

00:35:55,930 --> 00:35:53,230

honest I don't agree with the theory

789

00:35:57,040 --> 00:35:55,940

fair enough I was just curious because

790

00:35:58,599 --> 00:35:57,050

you know you do talk about

791

00:35:58,900 --> 00:35:58,609

unconventional things and that's one of

792

00:36:01,059 --> 00:35:58,910

them

793

00:36:03,430 --> 00:36:01,069

the other theory is the earth is grown

794

00:36:07,300 --> 00:36:03,440

now that sub quantum kinetics does

795

00:36:09,670 --> 00:36:07,310

predict ah that there's an expansion in

796

00:36:13,690 --> 00:36:09,680

the size of the earth very slowly and

797

00:36:16,780 --> 00:36:13,700

they've measured this with lasers it's

798

00:36:20,740 --> 00:36:16,790

currently about ten times less than you

799

00:36:22,900 --> 00:36:20,750

would need to explain the growth of the

800

00:36:26,530 --> 00:36:22,910

planet to explain a separation of the

801  
00:36:28,450 --> 00:36:26,540  
continents from Penn Geum one theory is

802  
00:36:30,790 --> 00:36:28,460  
that if you shrink the earth to half its

803  
00:36:33,630 --> 00:36:30,800  
size all the continents will fit

804  
00:36:37,349 --> 00:36:33,640  
together the coastlines fit together

805  
00:36:40,589 --> 00:36:37,359  
mm-hmm so you don't need any fancy

806  
00:36:43,599 --> 00:36:40,599  
assumptions about plate tectonics

807  
00:36:45,700 --> 00:36:43,609  
causing all this this whole thing could

808  
00:36:47,980 --> 00:36:45,710  
be due to slow expansion of the earth

809  
00:36:50,650 --> 00:36:47,990  
well that's fascinating I mean what do

810  
00:36:52,930 --> 00:36:50,660  
you think is at the root cause of that

811  
00:36:55,059 --> 00:36:52,940  
expansion is it again this effect of

812  
00:36:57,520 --> 00:36:55,069  
being in an open system and is this

813  
00:37:00,010 --> 00:36:57,530

material generated from the middle well

814

00:37:02,260 --> 00:37:00,020

I haven't really explained it on the

815

00:37:05,079 --> 00:37:02,270

broadcast here very much about sub

816

00:37:08,530 --> 00:37:05,089

quantum kinetics it replaces the Big

817

00:37:10,800 --> 00:37:08,540

Bang Theory and in its place you get

818

00:37:14,430 --> 00:37:10,810

creation through continuous creation

819

00:37:17,500 --> 00:37:14,440

matter is being continuously created

820

00:37:19,240 --> 00:37:17,510

over the trillions of years not thirteen

821

00:37:21,400 --> 00:37:19,250

billion years we're talking now about

822

00:37:23,589 --> 00:37:21,410

trillions of years this can be going on

823

00:37:25,569 --> 00:37:23,599

because you don't have the limits that

824

00:37:27,160 --> 00:37:25,579

you have in standard cosmology any

825

00:37:28,809 --> 00:37:27,170

longer because you've crossed out Big

826

00:37:31,150 --> 00:37:28,819

Bang Theory special relativity in

827

00:37:33,490 --> 00:37:31,160

general relativity plus black hole

828

00:37:35,920 --> 00:37:33,500

theories and many other things these are

829

00:37:38,829 --> 00:37:35,930

all incorrect can easily be disproven

830

00:37:40,870 --> 00:37:38,839

which I've done in my books my other

831

00:37:42,330 --> 00:37:40,880

book sub quantum kinetics goes into more

832

00:37:45,730 --> 00:37:42,340

detail

833

00:37:48,160 --> 00:37:45,740

not only is matter or particles being

834

00:37:51,630 --> 00:37:48,170

created in space but they're being

835

00:37:54,370 --> 00:37:51,640

created inside planets too even the Sun

836

00:37:57,790 --> 00:37:54,380

huge amount of matter is being created

837

00:38:03,520 --> 00:37:57,800

every year inside the Sun in the case of

838

00:38:05,770 --> 00:38:03,530

the Sun the Sun burns part of it 90% of

839

00:38:07,870 --> 00:38:05,780

the sun's energy is fusion

840

00:38:11,040 --> 00:38:07,880

according to subnautica nedick's the

841

00:38:14,230 --> 00:38:11,050

other 10% is what I call genic

842

00:38:16,950 --> 00:38:14,240

spontaneously generated some of the

843

00:38:21,820 --> 00:38:16,960

matter that's created inside the Sun

844

00:38:26,410 --> 00:38:21,830

will help to for the 90% of the fusion

845

00:38:28,720 --> 00:38:26,420

energy so that goes into gets burned but

846

00:38:32,230 --> 00:38:28,730

part of that also gets expelled in this

847

00:38:35,440 --> 00:38:32,240

solar wind and then you have some left

848

00:38:38,380 --> 00:38:35,450

over that it causes the growth of the

849

00:38:40,599 --> 00:38:38,390

Sun so you have to change all of what

850

00:38:43,000 --> 00:38:40,609

they understand in astronomy when you go

851  
00:38:45,520 --> 00:38:43,010  
to sub quantum kinetics because stars

852  
00:38:50,380 --> 00:38:45,530  
like the Sun can now grow and pretty

853  
00:38:53,440 --> 00:38:50,390  
soon turn into blue supergiant like a 30

854  
00:38:55,390 --> 00:38:53,450  
solar mass star this is totally

855  
00:38:57,580 --> 00:38:55,400  
different from the standard view which

856  
00:39:01,480 --> 00:38:57,590  
says that star like the Sun will

857  
00:39:03,099 --> 00:39:01,490  
eventually exhaust its fuels burn out

858  
00:39:08,260 --> 00:39:03,109  
and then have maybe a supernova

859  
00:39:10,510 --> 00:39:08,270  
explosion or nova and up as a dead star

860  
00:39:13,150 --> 00:39:10,520  
this is all baloney

861  
00:39:17,430 --> 00:39:13,160  
this is part of the closed system view

862  
00:39:20,020 --> 00:39:17,440  
that physicists put out interesting and

863  
00:39:22,540 --> 00:39:20,030

you mentioned earlier that you suspect

864

00:39:24,700 --> 00:39:22,550

that ancient people knew about the ether

865

00:39:26,770 --> 00:39:24,710

and sub quantum kinetics to some extent

866

00:39:28,780 --> 00:39:26,780

I know that's in your book earth under

867

00:39:32,380 --> 00:39:28,790

fire I believe well

868

00:39:34,090 --> 00:39:32,390

genesis of the cosmos gotcha okay and uh

869

00:39:36,130 --> 00:39:34,100

as far as I understand you say the clues

870

00:39:39,400 --> 00:39:36,140

are an astrology and tarot is that right

871

00:39:42,670 --> 00:39:39,410

right I go into that in more in genesis

872

00:39:45,460 --> 00:39:42,680

of the cosmos the way that happened I

873

00:39:48,070 --> 00:39:45,470

had been explaining my theory to friend

874

00:39:50,110 --> 00:39:48,080

and she knew about the turo and she said

875

00:39:52,540 --> 00:39:50,120

well it sounds a lot like Tudor oh that

876

00:39:55,510 --> 00:39:52,550

I should take a course to learn about it

877

00:39:57,880 --> 00:39:55,520

which I did this was in Cambridge

878

00:40:00,580 --> 00:39:57,890

Massachusetts right there in Harvard

879

00:40:03,070 --> 00:40:00,590

Square they had of course is I was

880

00:40:05,770 --> 00:40:03,080

attending every week they were doing on

881

00:40:08,080 --> 00:40:05,780

our carnem every week and every week I'd

882

00:40:11,650 --> 00:40:08,090

see another part of my theory being

883

00:40:13,990 --> 00:40:11,660

explained to me it turns out the first

884

00:40:16,600 --> 00:40:14,000

eleven taro Arcana

885

00:40:18,190 --> 00:40:16,610

this is like the Marseilles back the

886

00:40:20,440 --> 00:40:18,200

original version because they tried to

887

00:40:23,200 --> 00:40:20,450

change it and by changing it they messed

888

00:40:25,840 --> 00:40:23,210

up so don't go to the newer tarot decks

889

00:40:29,140 --> 00:40:25,850

you should go to the original the first

890

00:40:31,180 --> 00:40:29,150

eleven Arcana explain theory of the

891

00:40:33,160 --> 00:40:31,190

creation of the universe and we know

892

00:40:35,680 --> 00:40:33,170

this dates back to at least ancient

893

00:40:38,920 --> 00:40:35,690

Egypt the gypsies are said to have

894

00:40:43,110 --> 00:40:38,930

gotten it from the Egyptian Maji who

895

00:40:46,360 --> 00:40:43,120

were instructing the priests the

896

00:40:48,670 --> 00:40:46,370

initiators of Osiris and this was the

897

00:40:50,830 --> 00:40:48,680

science they were teaching them they

898

00:40:53,650 --> 00:40:50,840

were explaining the meanings of the

899

00:40:56,020 --> 00:40:53,660

frescoes on the wall what they called a

900

00:40:58,630 --> 00:40:56,030

gallery of the Sphinx's in a chamber

901  
00:41:01,900 --> 00:40:58,640  
under the Sphinx supposedly they had

902  
00:41:05,890 --> 00:41:01,910  
these the instruction went on there this

903  
00:41:10,090 --> 00:41:05,900  
appears to be very ancient science you

904  
00:41:11,680 --> 00:41:10,100  
find it in the zodiac esoterically this

905  
00:41:14,140 --> 00:41:11,690  
Taric tradition is that there's a

906  
00:41:17,710 --> 00:41:14,150  
connection between astrology and the

907  
00:41:20,380 --> 00:41:17,720  
turo as far as matching up the signs to

908  
00:41:22,370 --> 00:41:20,390  
the Arcana and so I started looking at

909  
00:41:26,120 --> 00:41:22,380  
the zodiac to

910  
00:41:28,580 --> 00:41:26,130  
I found it there to the signs which are

911  
00:41:31,100 --> 00:41:28,590  
sort of psychological or personality

912  
00:41:33,500 --> 00:41:31,110  
descriptions if you look at them as

913  
00:41:35,960 --> 00:41:33,510

universal principles so you're using the

914

00:41:38,690 --> 00:41:35,970

analogy part of the mind which not

915

00:41:42,380 --> 00:41:38,700

everybody can use because not everyone

916

00:41:44,270 --> 00:41:42,390

is adept at using analogic thinking and

917

00:41:46,430 --> 00:41:44,280

really to do this kind of work you need

918

00:41:49,400 --> 00:41:46,440

to be good at that because you some

919

00:41:51,080 --> 00:41:49,410

people have difficulty seeing just like

920

00:41:52,850 --> 00:41:51,090

yet people are color blind there's

921

00:41:55,760 --> 00:41:52,860

people I have difficulty seeing

922

00:41:59,510 --> 00:41:55,770

analogies from one circumstance to

923

00:42:01,550 --> 00:41:59,520

another now I'm a systems theorist so I

924

00:42:04,160 --> 00:42:01,560

use this all the time that's what system

925

00:42:06,200 --> 00:42:04,170

theorists do is they bring ideas from

926  
00:42:09,920 --> 00:42:06,210  
one field into another by making

927  
00:42:11,780 --> 00:42:09,930  
analogies right and I think this is

928  
00:42:13,130 --> 00:42:11,790  
really interesting because when I've

929  
00:42:15,230 --> 00:42:13,140  
heard you talk about it before you've

930  
00:42:17,650 --> 00:42:15,240  
mentioned as an example where we see

931  
00:42:20,840 --> 00:42:17,660  
this in the zodiac would be that

932  
00:42:22,780 --> 00:42:20,850  
Sagittarius is arrow is aimed at the

933  
00:42:25,820 --> 00:42:22,790  
heart of the Scorpion or at least that's

934  
00:42:28,460 --> 00:42:25,830  
been written before I guess and 15,000

935  
00:42:31,400 --> 00:42:28,470  
years ago that arrow would have lined up

936  
00:42:33,950 --> 00:42:31,410  
and that kind of gets us into I guess a

937  
00:42:37,190 --> 00:42:33,960  
warning of super waves which is another

938  
00:42:38,990 --> 00:42:37,200

major aspect of your work yeah and

939

00:42:41,420 --> 00:42:39,000

that's what led me to the super wave

940

00:42:44,240 --> 00:42:41,430

theory I found this message encoded in

941

00:42:46,220 --> 00:42:44,250

the zodiac here are these constellations

942

00:42:49,670 --> 00:42:46,230

that are distributed across the sky

943

00:42:51,890 --> 00:42:49,680

which is where the zodiac is and these

944

00:42:54,560 --> 00:42:51,900

two pointers up there and said

945

00:42:55,760 --> 00:42:54,570

terrorists and Scorpios two arrows if

946

00:42:57,590 --> 00:42:55,770

you look where they're pointing at

947

00:43:00,830 --> 00:42:57,600

they're pointing at the galactic center

948

00:43:02,420 --> 00:43:00,840

essentially and the myth says that he's

949

00:43:04,670 --> 00:43:02,430

aiming at the heart of the scorpion

950

00:43:07,670 --> 00:43:04,680

which is the star antair so you'd get a

951  
00:43:10,760 --> 00:43:07,680  
sighting there between the arrow pointer

952  
00:43:13,460 --> 00:43:10,770  
and the heart and you see that currently

953  
00:43:17,000 --> 00:43:13,470  
the arrow is not aimed at the heart but

954  
00:43:19,190 --> 00:43:17,010  
back about 16,000 years ago it did go

955  
00:43:22,580 --> 00:43:19,200  
through the heart because the stars are

956  
00:43:25,790 --> 00:43:22,590  
moving that's why you have to see the

957  
00:43:28,970 --> 00:43:25,800  
positions of the stars back in time at

958  
00:43:31,370 --> 00:43:28,980  
that time it was passing within just a

959  
00:43:32,960 --> 00:43:31,380  
few tenths of a degree of the galactic

960  
00:43:35,660 --> 00:43:32,970  
center that's how accurate they were

961  
00:43:36,220 --> 00:43:35,670  
showing us and that was eight times

962  
00:43:38,260 --> 00:43:36,230  
better than

963  
00:43:42,370 --> 00:43:38,270

she had done it with the Mount Palomar

964

00:43:45,760 --> 00:43:42,380

telescope so here's something a myth at

965

00:43:48,609 --> 00:43:45,770

least 5000 years old is telling us stuff

966

00:43:49,390 --> 00:43:48,619

that we only found today using radio

967

00:43:51,940 --> 00:43:49,400

telescopes

968

00:43:54,190 --> 00:43:51,950

well Mount Palomar telescope and later

969

00:43:57,099 --> 00:43:54,200

with the radio telescope we will get it

970

00:43:59,740 --> 00:43:57,109

closer fixed what the message showed

971

00:44:02,230 --> 00:43:59,750

they use geometry to show the idea of

972

00:44:05,500 --> 00:44:02,240

the arrow launched from the galactic

973

00:44:08,770 --> 00:44:05,510

center actually arriving at earth you do

974

00:44:11,260 --> 00:44:08,780

that with geometry one Radian concept is

975

00:44:14,500 --> 00:44:11,270

demonstrated there all this is explained

976

00:44:16,180 --> 00:44:14,510

in the book the date of the arrow going

977

00:44:18,340 --> 00:44:16,190

through the heart would be the date of

978

00:44:21,190 --> 00:44:18,350

the eruption of the galactic center

979

00:44:23,830 --> 00:44:21,200

that's what I concluded I found that

980

00:44:25,660 --> 00:44:23,840

this wave of energy must have come by

981

00:44:27,580 --> 00:44:25,670

the earth it wasn't just something that

982

00:44:29,290 --> 00:44:27,590

happened out there twenty three thousand

983

00:44:31,930 --> 00:44:29,300

light years away but it's something

984

00:44:34,390 --> 00:44:31,940

actually traveled to us and on the way

985

00:44:38,109 --> 00:44:34,400

it triggered the two closest supernova

986

00:44:41,380 --> 00:44:38,119

remnants the two closest supernovas to

987

00:44:45,070 --> 00:44:41,390

earth to the solar system the Vela

988

00:44:48,340 --> 00:44:45,080

supernova and the crab supernova they

989

00:44:50,500 --> 00:44:48,350

line up on this event horizon which is a

990

00:44:53,620 --> 00:44:50,510

wave of energy that would have gone out

991

00:44:56,590 --> 00:44:53,630

from the galactic center at the speed of

992

00:44:58,810 --> 00:44:56,600

light and knowing that this happened you

993

00:45:01,240 --> 00:44:58,820

can see what's going on out there in

994

00:45:04,510 --> 00:45:01,250

space because it's this wave of energy

995

00:45:06,970 --> 00:45:04,520

still going out and it's creating radio

996

00:45:10,300 --> 00:45:06,980

waves which astronomers called the

997

00:45:12,910 --> 00:45:10,310

Galactic radio background emission hmm I

998

00:45:16,960 --> 00:45:12,920

mean that is fascinating and to think

999

00:45:20,260 --> 00:45:16,970

that this myth encodes something that

1000

00:45:22,710 --> 00:45:20,270

would have applied 15,000 years ago I

1001  
00:45:25,000 --> 00:45:22,720  
mean is that an implication that somehow

1002  
00:45:27,960 --> 00:45:25,010  
we were at the same level of development

1003  
00:45:32,980 --> 00:45:27,970  
that we are now 15,000 years ago

1004  
00:45:35,770 --> 00:45:32,990  
well Egyptians say in their myths that

1005  
00:45:38,830 --> 00:45:35,780  
the science they're sciences were taught

1006  
00:45:42,580 --> 00:45:38,840  
to them by Thoth who came from above

1007  
00:45:44,620 --> 00:45:42,590  
mm-hmm he was a Ibis headed God that's

1008  
00:45:48,010 --> 00:45:44,630  
the way they represented him so this

1009  
00:45:49,720 --> 00:45:48,020  
could be a reference to ET and ET origin

1010  
00:45:52,420 --> 00:45:49,730  
for the physics and

1011  
00:45:54,820 --> 00:45:52,430  
this I would believe because stuff that

1012  
00:45:58,540 --> 00:45:54,830  
they have encoded in the zodiacal long

1013  
00:46:00,790 --> 00:45:58,550

would require technologies like we used

1014

00:46:02,770 --> 00:46:00,800

to find a three degree Kelvin background

1015

00:46:05,460 --> 00:46:02,780

radiation we had developed

1016

00:46:09,400 --> 00:46:05,470

superconductors helium cool detectors

1017

00:46:11,349 --> 00:46:09,410

computers radio telemetry rocketry to

1018

00:46:13,480 --> 00:46:11,359

get the satellite up above the

1019

00:46:16,870 --> 00:46:13,490

atmosphere all this and yet they have

1020

00:46:19,650 --> 00:46:16,880

encoded the hot and cold spots three

1021

00:46:22,420 --> 00:46:19,660

degree Kelvin radiation in the zodiac

1022

00:46:25,960 --> 00:46:22,430

here we're talking about a very advanced

1023

00:46:28,840 --> 00:46:25,970

technology they encoded stuff in the

1024

00:46:31,690 --> 00:46:28,850

story of Atlantis Atlantis everyone

1025

00:46:33,340 --> 00:46:31,700

takes it literally but it's actually if

1026

00:46:36,370 --> 00:46:33,350

you study Plato it's supposed to be

1027

00:46:38,620 --> 00:46:36,380

taken allegorically and if you

1028

00:46:41,050 --> 00:46:38,630

understand sub quantum kinetics and

1029

00:46:44,080 --> 00:46:41,060

reaction diffusion systems you realize

1030

00:46:46,480 --> 00:46:44,090

that Lantis is a myth about the creation

1031

00:46:50,020 --> 00:46:46,490

of a subatomic particle so it's a lot

1032

00:46:52,120 --> 00:46:50,030

small actually than people think hmm

1033

00:46:54,040 --> 00:46:52,130

there's the other part of the Atlantis

1034

00:46:56,020 --> 00:46:54,050

myth which is in a different book that

1035

00:46:58,540 --> 00:46:56,030

Timaeus book which talks about the flood

1036

00:47:01,690 --> 00:46:58,550

and there that's also allegorical and

1037

00:47:04,720 --> 00:47:01,700

there Atlantis represents the North

1038

00:47:06,750 --> 00:47:04,730

American Ice Sheet which when it melted

1039

00:47:10,030 --> 00:47:06,760

it created a huge flood of water and

1040

00:47:12,700 --> 00:47:10,040

I've explained how this happened both in

1041

00:47:16,090 --> 00:47:12,710

my dissertation and now I the paper on

1042

00:47:17,800 --> 00:47:16,100

this last year refereed journal where I

1043

00:47:20,740 --> 00:47:17,810

explained about the glacier wave

1044

00:47:22,720 --> 00:47:20,750

phenomenon which is how these waves of

1045

00:47:24,940 --> 00:47:22,730

water would have descended from the ice

1046

00:47:27,370 --> 00:47:24,950

sheet because the ice sheet was up to

1047

00:47:30,280 --> 00:47:27,380

two and a half three kilometers high at

1048

00:47:31,540 --> 00:47:30,290

the center during warm periods when the

1049

00:47:35,080 --> 00:47:31,550

Sun was melting the ice

1050

00:47:39,180 --> 00:47:35,090

you had these lakes form on the surface

1051  
00:47:41,890 --> 00:47:39,190  
and you would have had dam failures and

1052  
00:47:44,290 --> 00:47:41,900  
floods of water coursing across the ice

1053  
00:47:47,650 --> 00:47:44,300  
sheet and as they did they would create

1054  
00:47:50,109 --> 00:47:47,660  
a domino effect and create a huge wave

1055  
00:47:52,120 --> 00:47:50,119  
that would sweep down the ice sheet

1056  
00:47:56,020 --> 00:47:52,130  
gaining energy and by the time it

1057  
00:47:59,170 --> 00:47:56,030  
reaches the edge you're up to maybe 300

1058  
00:48:01,599 --> 00:47:59,180  
meters high traveling a few hundred

1059  
00:48:03,400 --> 00:48:01,609  
miles an hour maybe a thousand

1060  
00:48:05,890 --> 00:48:03,410  
kilometers long

1061  
00:48:08,589 --> 00:48:05,900  
wall of water and it would have the

1062  
00:48:12,160 --> 00:48:08,599  
force to actually surmount mountains

1063  
00:48:14,500 --> 00:48:12,170

that are two kilometers high this would

1064

00:48:17,230 --> 00:48:14,510

be the origin of the great flood myth

1065

00:48:19,990 --> 00:48:17,240

which you find in all cultures around

1066

00:48:22,089 --> 00:48:20,000

the world and I go into this in earth

1067

00:48:25,480 --> 00:48:22,099

under fire I have a whole chapter just

1068

00:48:27,670 --> 00:48:25,490

about the flood I think two chapters one

1069

00:48:29,520 --> 00:48:27,680

dealing with the European and Asian

1070

00:48:32,079 --> 00:48:29,530

myths and the other with the Indian Miss

1071

00:48:34,690 --> 00:48:32,089

North American Indians have a lot of

1072

00:48:36,640 --> 00:48:34,700

myths about the flood right yeah it

1073

00:48:39,730 --> 00:48:36,650

seems like you've put together many many

1074

00:48:41,950 --> 00:48:39,740

pieces of the puzzle of course our time

1075

00:48:45,690 --> 00:48:41,960

is winding down together but I did want

1076

00:48:48,910 --> 00:48:45,700

to ask you maybe just to revisit the

1077

00:48:51,490 --> 00:48:48,920

conversation we started with when it

1078

00:48:53,349 --> 00:48:51,500

comes to the free energy devices you

1079

00:48:56,470 --> 00:48:53,359

mentioned that are right on our doorstep

1080

00:48:59,109 --> 00:48:56,480

perhaps is there a particular group or

1081

00:49:01,270 --> 00:48:59,119

two that you think are the closest or is

1082

00:49:03,940 --> 00:49:01,280

there any kind of resources you could

1083

00:49:06,579 --> 00:49:03,950

give us to look into maybe some of the

1084

00:49:08,680 --> 00:49:06,589

other Thomas towns and Browns of our age

1085

00:49:10,779 --> 00:49:08,690

the rebels of science that are close to

1086

00:49:13,990 --> 00:49:10,789

actually releasing things that are very

1087

00:49:17,920 --> 00:49:14,000

exciting yeah I can't talk about that I

1088

00:49:22,510 --> 00:49:17,930

don't want to jeopardize anybody there

1089

00:49:25,000 --> 00:49:22,520

but they do exist I know they exist and

1090

00:49:28,029 --> 00:49:25,010

then I believe my prediction to be

1091

00:49:32,170 --> 00:49:28,039

correct that we're on the verge of a new

1092

00:49:33,760 --> 00:49:32,180

era and it's a matter of a lot of people

1093

00:49:37,059 --> 00:49:33,770

making the breakthrough at the same time

1094

00:49:38,980 --> 00:49:37,069

so that no one can get stopped yes

1095

00:49:41,260 --> 00:49:38,990

but pretty soon you'll have a machine in

1096

00:49:43,390 --> 00:49:41,270

your house that will be generating

1097

00:49:48,039 --> 00:49:43,400

energy you'll be feeding back into the

1098

00:49:49,960 --> 00:49:48,049

grid and getting paid for it that sounds

1099

00:49:52,839 --> 00:49:49,970

great I mean I've heard those claims

1100

00:49:55,990 --> 00:49:52,849

made but I'm still waiting yeah keep

1101

00:49:59,559 --> 00:49:56,000

patient it's coming I do hope you are

1102

00:50:02,410 --> 00:49:59,569

right and well Paul this has really been

1103

00:50:04,299 --> 00:50:02,420

amazing just so much information you're

1104

00:50:07,089 --> 00:50:04,309

clearly a really smart guy digging into

1105

00:50:08,079 --> 00:50:07,099

some pretty big questions and ideas what

1106

00:50:10,809 --> 00:50:08,089

are some of the next things you're going

1107

00:50:12,880 --> 00:50:10,819

to be working on right now I'm trying to

1108

00:50:14,859 --> 00:50:12,890

prepare the paper on an and earth all

1109

00:50:16,900 --> 00:50:14,869

extinction I'm going through a lot of

1110

00:50:19,600 --> 00:50:16,910

ice core data

1111

00:50:21,540 --> 00:50:19,610

when you bring all the data together is

1112

00:50:23,590 --> 00:50:21,550

when you realize it hits you in the face

1113

00:50:25,120 --> 00:50:23,600

and that's the thing it's very

1114

00:50:28,330 --> 00:50:25,130

interdisciplinary that's the kind of

1115

00:50:30,430 --> 00:50:28,340

thing that system scientists do so here

1116

00:50:35,140 --> 00:50:30,440

I'm bringing data from ice core field

1117

00:50:37,030 --> 00:50:35,150

from anthropology from oceanography the

1118

00:50:39,930 --> 00:50:37,040

carbon 14 where it comes to oceanography

1119

00:50:42,280 --> 00:50:39,940

and then the knowledge about super waves

1120

00:50:45,880 --> 00:50:42,290

the other thing I'd like to mention I

1121

00:50:48,820 --> 00:50:45,890

guess today we're recording this Stephen

1122

00:50:52,030 --> 00:50:48,830

Hawking died and I just want to say that

1123

00:50:53,530 --> 00:50:52,040

I believe he was wrong he was greatly

1124

00:50:56,500 --> 00:50:53,540

overrated he's getting a lot of

1125

00:50:58,330 --> 00:50:56,510

publicity now but the black hole idea he

1126  
00:51:02,110 --> 00:50:58,340  
came up with is wrong can be easily

1127  
00:51:05,200 --> 00:51:02,120  
disproven the point is that stars if

1128  
00:51:06,720 --> 00:51:05,210  
they go into a collapsed phase they end

1129  
00:51:08,950 --> 00:51:06,730  
up generating so much energy

1130  
00:51:11,050 --> 00:51:08,960  
spontaneously in their cores there's no

1131  
00:51:13,300 --> 00:51:11,060  
way they can collapse and the other

1132  
00:51:15,580 --> 00:51:13,310  
thing is even if they did collapse as

1133  
00:51:17,950 --> 00:51:15,590  
the star collapses a gravity field

1134  
00:51:20,560 --> 00:51:17,960  
doesn't go to infinity like they said it

1135  
00:51:22,690 --> 00:51:20,570  
goes to zero at some point it's not

1136  
00:51:25,270 --> 00:51:22,700  
going to have any energy to make itself

1137  
00:51:27,070 --> 00:51:25,280  
collapsed now go into this and sub

1138  
00:51:29,680 --> 00:51:27,080

quantum kinetics for anybody that's

1139

00:51:31,450 --> 00:51:29,690

interested wow yeah and I love that

1140

00:51:34,150 --> 00:51:31,460

systems approach it almost seems like

1141

00:51:36,190 --> 00:51:34,160

the sciences have been set up to be

1142

00:51:39,160 --> 00:51:36,200

compartmentalized so that we don't have

1143

00:51:42,130 --> 00:51:39,170

this cross interdisciplinary type of

1144

00:51:44,770 --> 00:51:42,140

work well Systems Theory should be

1145

00:51:45,940 --> 00:51:44,780

taught in every University and it's not

1146

00:51:48,160 --> 00:51:45,950

unfortunately

1147

00:51:51,610 --> 00:51:48,170

ludwig von bertalanffy the father of

1148

00:51:53,950 --> 00:51:51,620

Systems Theory said that ideally a

1149

00:51:56,350 --> 00:51:53,960

person should take at least ideally four

1150

00:51:58,390 --> 00:51:56,360

years of systems theory and then

1151

00:52:02,260 --> 00:51:58,400

specialize in a field like physics

1152

00:52:05,470 --> 00:52:02,270

sociology this way they have the big

1153

00:52:08,740 --> 00:52:05,480

picture to start with and they're able

1154

00:52:10,510 --> 00:52:08,750

to bring stuff from other fields the way

1155

00:52:12,010 --> 00:52:10,520

things are done now is like everyone

1156

00:52:13,450 --> 00:52:12,020

speaks the different language they don't

1157

00:52:16,120 --> 00:52:13,460

know what the other guy is talking about

1158

00:52:17,410 --> 00:52:16,130

right so discoveries are made in one

1159

00:52:20,200 --> 00:52:17,420

field they don't come into the other

1160

00:52:23,290 --> 00:52:20,210

field so that's why it's important that

1161

00:52:26,710 --> 00:52:23,300

we get systems theory taught are looking

1162

00:52:29,320 --> 00:52:26,720

at these new approaches I'm with you man

1163

00:52:30,579 --> 00:52:29,330

and this has been really awesome we did

1164

00:52:32,799 --> 00:52:30,589

touch on several

1165

00:52:35,049 --> 00:52:32,809

of your books but do remind people about

1166

00:52:37,239 --> 00:52:35,059

your websites both contain a ton of

1167

00:52:39,609 --> 00:52:37,249

information a person can get lost for

1168

00:52:41,680 --> 00:52:39,619

days I would know but lots of great

1169

00:52:43,359 --> 00:52:41,690

stuff there so where should people go to

1170

00:52:46,359 --> 00:52:43,369

dig deeper into these things that we've

1171

00:52:49,630 --> 00:52:46,369

talked about Oh website where I sell my

1172

00:52:52,779 --> 00:52:49,640

books and also videos and also has a lot

1173

00:52:55,120 --> 00:52:52,789

of videos free for download not only

1174

00:53:01,299 --> 00:52:55,130

videos but papers for download is

1175

00:53:03,729 --> 00:53:01,309

etheric comm it's e th ER IC comm and

1176

00:53:06,910 --> 00:53:03,739

also there's a video there I'm selling

1177

00:53:09,910 --> 00:53:06,920

for \$20 which is a starburst foundation

1178

00:53:11,380 --> 00:53:09,920

video which explains the origin of the

1179

00:53:14,339 --> 00:53:11,390

universe according to sub quantum

1180

00:53:16,420 --> 00:53:14,349

kinetics and it's about 30-40 minutes

1181

00:53:19,959 --> 00:53:16,430

excellent video it's made with NASA

1182

00:53:22,539 --> 00:53:19,969

clips and NASA images if you want to

1183

00:53:25,539 --> 00:53:22,549

really know the truth about how the

1184

00:53:28,959 --> 00:53:25,549

universe was created this video gives

1185

00:53:32,380 --> 00:53:28,969

you a quick overview and then my other

1186

00:53:34,599 --> 00:53:32,390

site is starburst found org that's the

1187

00:53:37,269 --> 00:53:34,609

starboard foundation website that also

1188

00:53:41,190 --> 00:53:37,279

has a lot of information on all these

1189

00:53:43,650 --> 00:53:41,200

topics super waves sub quantum kinetics

1190

00:53:46,269 --> 00:53:43,660

extraterrestrial communication and

1191

00:53:48,900 --> 00:53:46,279

feeling tone theory which I had also

1192

00:53:54,339 --> 00:53:48,910

done some work in thought formation

1193

00:53:57,390 --> 00:53:54,349

psychology area hmm Wow well excellent

1194

00:53:59,950 --> 00:53:57,400

man clearly you're on to a lot of

1195

00:54:02,140 --> 00:53:59,960

complex things and I really respect the

1196

00:54:03,700 --> 00:54:02,150

work that you're doing out there keep it

1197

00:54:04,559 --> 00:54:03,710

up and hopefully we can talk again in

1198

00:54:09,700 --> 00:54:04,569

the future

1199

00:54:12,849 --> 00:54:09,710

okay thank you Greg thank you sweet

1200

00:54:15,519 --> 00:54:12,859

champagne supernova ladies and gentlemen

1201  
00:54:19,059 --> 00:54:15,529  
in that deluxe apartment in the sky paul

1202  
00:54:20,559 --> 00:54:19,069  
la vía what 70 years young I'm really

1203  
00:54:22,479 --> 00:54:20,569  
glad he was willing to talk to me I

1204  
00:54:25,150 --> 00:54:22,489  
sought him out because I really wanted

1205  
00:54:26,890 --> 00:54:25,160  
to focus a show on antigravity crafts

1206  
00:54:29,890 --> 00:54:26,900  
and Paul seems like one of the best

1207  
00:54:32,109 --> 00:54:29,900  
people for that subject I'm barely smart

1208  
00:54:34,120 --> 00:54:32,119  
enough to do it but I love to talk about

1209  
00:54:36,609 --> 00:54:34,130  
the things that physics leaves out I

1210  
00:54:39,519 --> 00:54:36,619  
love talking about ether so I'm a happy

1211  
00:54:41,109 --> 00:54:39,529  
guy you know I also figured hey I've

1212  
00:54:43,029 --> 00:54:41,119  
never heard Paul talked about hollow

1213  
00:54:44,579 --> 00:54:43,039

planets but let me toss that out there

1214

00:54:47,859 --> 00:54:44,589

see if he tosses it back

1215

00:54:49,720 --> 00:54:47,869

because ether new theories of gravity

1216

00:54:52,089 --> 00:54:49,730

doubting the models we have in a variety

1217

00:54:54,250 --> 00:54:52,099

of ways I thought maybe we'd hit a

1218

00:54:55,839 --> 00:54:54,260

bull's-eye there but it's completely

1219

00:54:58,750 --> 00:54:55,849

okay that he doesn't see that as a

1220

00:55:00,700 --> 00:54:58,760

possibility I think there's a ton to

1221

00:55:02,799 --> 00:55:00,710

like about Paul's work I have a huge

1222

00:55:05,140 --> 00:55:02,809

amount of respect for him we talked a

1223

00:55:07,569 --> 00:55:05,150

bit off air and I know that he is a

1224

00:55:09,789 --> 00:55:07,579

little cynical but who wouldn't be you

1225

00:55:11,950 --> 00:55:09,799

spend your life working on very complex

1226

00:55:14,500 --> 00:55:11,960

science and new models digging up the

1227

00:55:16,990 --> 00:55:14,510

evidence to support them being told that

1228

00:55:19,089 --> 00:55:17,000

you need more peer-reviewed papers then

1229

00:55:20,950 --> 00:55:19,099

you get those peer-reviewed publications

1230

00:55:23,650 --> 00:55:20,960

and you still feel like your life's work

1231

00:55:26,170 --> 00:55:23,660

has had little impact man and even if

1232

00:55:28,539 --> 00:55:26,180

you don't agree 100% with every aspect

1233

00:55:30,670 --> 00:55:28,549

of Paul's work as a human being you have

1234

00:55:32,890 --> 00:55:30,680

to have some respect for the journey and

1235

00:55:35,170 --> 00:55:32,900

a little empathy for a person who might

1236

00:55:37,779 --> 00:55:35,180

not feel as appreciated as they might

1237

00:55:41,230 --> 00:55:37,789

have hoped as their earthly story arc

1238

00:55:42,609 --> 00:55:41,240

starts to come to a close of course with

1239

00:55:45,339 --> 00:55:42,619

some of the things going on right now I

1240

00:55:47,620 --> 00:55:45,349

worry that aspects of the conspiracy

1241

00:55:50,740 --> 00:55:47,630

community you've gotten a little anti

1242

00:55:52,749 --> 00:55:50,750

science or anti intellectual and that's

1243

00:55:55,870 --> 00:55:52,759

not a good way to be I mean I'm

1244

00:55:58,180 --> 00:55:55,880

anti-establishment I even think as we

1245

00:56:00,069 --> 00:55:58,190

talked about today spending too long in

1246

00:56:02,349 --> 00:56:00,079

the system can leave you brainwashed and

1247

00:56:04,569 --> 00:56:02,359

indoctrinated to think a certain way we

1248

00:56:06,339 --> 00:56:04,579

know this but as long as you can

1249

00:56:08,170 --> 00:56:06,349

navigate that course without falling

1250

00:56:10,660 --> 00:56:08,180

into those traps you got to respect a

1251  
00:56:11,890 --> 00:56:10,670  
person who swims in those waters I mean

1252  
00:56:14,019 --> 00:56:11,900  
I wouldn't even know the first thing

1253  
00:56:16,059 --> 00:56:14,029  
about writing a peer-reviewed paper or

1254  
00:56:19,720 --> 00:56:16,069  
even a book for that matter so what do I

1255  
00:56:21,670 --> 00:56:19,730  
know really I'm rambling but you know

1256  
00:56:23,349 --> 00:56:21,680  
this show to me has always been about

1257  
00:56:25,299 --> 00:56:23,359  
the exploration of different

1258  
00:56:26,940 --> 00:56:25,309  
possibilities and lately it seems like

1259  
00:56:29,859 --> 00:56:26,950  
I'm seeing a lot of comments from people

1260  
00:56:32,109 --> 00:56:29,869  
who have settled on one conclusion and

1261  
00:56:34,059 --> 00:56:32,119  
are now dismissive of anyone else who

1262  
00:56:34,680 --> 00:56:34,069  
doesn't fit within it and I don't love

1263  
00:56:37,420 --> 00:56:34,690

that

1264

00:56:40,240 --> 00:56:37,430

but anyway another curiosity of mine

1265

00:56:41,950 --> 00:56:40,250

more related to the material is that of

1266

00:56:44,470 --> 00:56:41,960

course I'd have to have a much better

1267

00:56:46,210 --> 00:56:44,480

understanding of physics to find the

1268

00:56:48,430 --> 00:56:46,220

answer to this question but it seems

1269

00:56:50,140 --> 00:56:48,440

strange to me that we have these laws of

1270

00:56:52,059 --> 00:56:50,150

physics we have the laws of

1271

00:56:54,249 --> 00:56:52,069

thermodynamics and we could even toss in

1272

00:56:56,470 --> 00:56:54,259

the laws of gravity here as well we have

1273

00:56:57,850 --> 00:56:56,480

all these frameworks for how things are

1274

00:56:59,980 --> 00:56:57,860

supposed to work

1275

00:57:02,620 --> 00:56:59,990

and these frameworks are obviously

1276  
00:57:04,720 --> 00:57:02,630  
flawed but they do hold up well enough

1277  
00:57:07,780 --> 00:57:04,730  
that thousands of scientists never

1278  
00:57:09,850 --> 00:57:07,790  
really see door number three it's very

1279  
00:57:12,040 --> 00:57:09,860  
interesting to me how they could keep

1280  
00:57:14,560 --> 00:57:12,050  
people quarantined like that in that

1281  
00:57:17,080 --> 00:57:14,570  
mental space but clearly that is the

1282  
00:57:19,360 --> 00:57:17,090  
case that's what happens I know at one

1283  
00:57:21,400 --> 00:57:19,370  
point Paul did mention using NASA data

1284  
00:57:23,530 --> 00:57:21,410  
and imagery in our super way of

1285  
00:57:26,170 --> 00:57:23,540  
conversation which would be a trigger

1286  
00:57:28,180 --> 00:57:26,180  
phrase for some people but I don't think

1287  
00:57:30,070 --> 00:57:28,190  
that's a detail worth obsessing over I

1288  
00:57:32,680 --> 00:57:30,080

find NASA to be just another wing of the

1289

00:57:34,600 --> 00:57:32,690

American military essentially I don't

1290

00:57:36,160 --> 00:57:34,610

trust much of what comes out of them and

1291

00:57:38,530 --> 00:57:36,170

obviously our guest today draws some

1292

00:57:40,000 --> 00:57:38,540

very different conclusions and is also

1293

00:57:41,590 --> 00:57:40,010

upset by the suppression of many

1294

00:57:44,170 --> 00:57:41,600

different things under the scientific

1295

00:57:46,120 --> 00:57:44,180

umbrella and that's enough for me I

1296

00:57:48,850 --> 00:57:46,130

would rather appreciate our common

1297

00:57:51,190 --> 00:57:48,860

ground I think Paul should be really

1298

00:57:52,840 --> 00:57:51,200

proud of his body of work it is diverse

1299

00:57:54,700 --> 00:57:52,850

and not a lot of people are gonna dig

1300

00:57:57,010 --> 00:57:54,710

into this depth on these kind of topics

1301

00:57:59,770 --> 00:57:57,020

I love the things he has to say about

1302

00:58:01,780 --> 00:57:59,780

the ancient world how he sees the zodiac

1303

00:58:04,510 --> 00:58:01,790

encoded with some of the same science

1304

00:58:07,060 --> 00:58:04,520

that he's worked on those things alone

1305

00:58:08,980 --> 00:58:07,070

on top of anti-gravity crafts

1306

00:58:11,440 --> 00:58:08,990

pegging Thomastown said Brown to the

1307

00:58:14,020 --> 00:58:11,450

Philadelphia Experiment ether physics I

1308

00:58:17,110 --> 00:58:14,030

mean all of that is one hell of a wild

1309

00:58:19,840 --> 00:58:17,120

ride but then to ice that cake you throw

1310

00:58:22,870 --> 00:58:19,850

in his work and theories on Paul SARS I

1311

00:58:24,250 --> 00:58:22,880

mean that's not nothing to boldly assert

1312

00:58:26,710 --> 00:58:24,260

that some of the stars we see in the

1313

00:58:28,930 --> 00:58:26,720

night sky are artificial and act as

1314

00:58:31,420 --> 00:58:28,940

beacons for emerging civilizations to

1315

00:58:34,630 --> 00:58:31,430

recognize to code and possibly respond

1316

00:58:37,510 --> 00:58:34,640

to this is exactly the kind of thing

1317

00:58:39,280 --> 00:58:37,520

that I want to be pondering well

1318

00:58:41,290 --> 00:58:39,290

that and that the Inner Earth houses

1319

00:58:42,820 --> 00:58:41,300

civilizations far older and far more

1320

00:58:44,680 --> 00:58:42,830

advanced than anything on the surface

1321

00:58:47,020 --> 00:58:44,690

world and inside as a robust and vibrant

1322

00:58:48,940 --> 00:58:47,030

reality of abundance a city of mystics

1323

00:58:50,380 --> 00:58:48,950

beneath Tibet ferry lands in northern

1324

00:58:53,320 --> 00:58:50,390

Europe and maybe even Willy Wonka's

1325

00:58:55,210 --> 00:58:53,330

chocolate factory but that's my own can

1326  
00:58:55,680 --> 00:58:55,220  
of worms done PAC Paul ain't got time

1327  
00:58:58,150 --> 00:58:55,690  
for that

1328  
00:59:00,370 --> 00:58:58,160  
but in all seriousness if you found

1329  
00:59:02,380 --> 00:59:00,380  
value in the show reach out to Paul via

1330  
00:59:03,820 --> 00:59:02,390  
the comments section of his website he

1331  
00:59:06,520 --> 00:59:03,830  
mentioned to me that that is his

1332  
00:59:08,860 --> 00:59:06,530  
preferred method of correspondence that

1333  
00:59:10,120 --> 00:59:08,870  
being that a person read a piece on the

1334  
00:59:11,470 --> 00:59:10,130  
website and then if you have some

1335  
00:59:13,089 --> 00:59:11,480  
questions or feedback

1336  
00:59:16,000 --> 00:59:13,099  
you leave comments there and that's how

1337  
00:59:17,799 --> 00:59:16,010  
he likes to talk to people but also if

1338  
00:59:20,079 --> 00:59:17,809

you have any interest in his diverse

1339

00:59:22,630 --> 00:59:20,089

range of books we kind of touched on

1340

00:59:24,910 --> 00:59:22,640

most of them but how nice would it be to

1341

00:59:26,980 --> 00:59:24,920

be seventy years old and wake up and

1342

00:59:28,450 --> 00:59:26,990

feel the warm glow of a spike in sales

1343

00:59:32,710 --> 00:59:28,460

for the books you've worked on for years

1344

00:59:35,109 --> 00:59:32,720

I don't mean for this to sound so sales

1345

00:59:37,299 --> 00:59:35,119

pitchy but that feeling of validation is

1346

00:59:39,280 --> 00:59:37,309

such a priceless gift and we have

1347

00:59:42,339 --> 00:59:39,290

opportunities to provide people with

1348

00:59:44,710 --> 00:59:42,349

those rare moments all the time every

1349

00:59:46,690 --> 00:59:44,720

show we do really but I think there's

1350

00:59:48,700 --> 00:59:46,700

probably an equation somewhere that

1351  
00:59:52,420 --> 00:59:48,710  
shows how valuable those feelings are

1352  
00:59:54,250 --> 00:59:52,430  
based on the depth of work times age of

1353  
00:59:55,750 --> 00:59:54,260  
the person to the square root of how

1354  
00:59:58,240 --> 00:59:55,760  
impactful the adoption of your

1355  
01:00:00,099 --> 00:59:58,250  
conclusions would be and given that Paul

1356  
01:00:01,839 --> 01:00:00,109  
thinks the Galactic super wave could be

1357  
01:00:04,510 --> 01:00:01,849  
in our future that's pretty damn

1358  
01:00:06,520 --> 01:00:04,520  
impactful and I don't know but I think

1359  
01:00:08,440 --> 01:00:06,530  
he makes a convincing case I know he's

1360  
01:00:11,170 --> 01:00:08,450  
very serious about his work and research

1361  
01:00:13,569 --> 01:00:11,180  
he wants to be very academic about it

1362  
01:00:15,190 --> 01:00:13,579  
got a respected I don't know really what

1363  
01:00:17,079 --> 01:00:15,200

else would support the samples he's

1364

01:00:19,859 --> 01:00:17,089

found in the ice cores and that other

1365

01:00:22,390 --> 01:00:19,869

evidence I got no idea

1366

01:00:24,490 --> 01:00:22,400

but then we talk about ancient aliens

1367

01:00:26,859 --> 01:00:24,500

and the mythology's that suggests that

1368

01:00:29,380 --> 01:00:26,869

beings helped lead people down into the

1369

01:00:31,030 --> 01:00:29,390

earth in times of surface hazards there

1370

01:00:33,190 --> 01:00:31,040

has to be some catalyst for these

1371

01:00:36,010 --> 01:00:33,200

higher-level beings to even know about us

1372

01:00:38,530 --> 01:00:36,020

and furthermore to even care so I see a

1373

01:00:40,390 --> 01:00:38,540

few scenarios there already in the earth

1374

01:00:42,339 --> 01:00:40,400

and when they know trouble is coming

1375

01:00:44,440 --> 01:00:42,349

they lead some friendly tribes down to

1376

01:00:46,900 --> 01:00:44,450

their neck of the woods or this help

1377

01:00:48,190 --> 01:00:46,910

comes from some type of guardianship be

1378

01:00:51,849 --> 01:00:48,200

it a spiritual one or a

1379

01:00:53,920 --> 01:00:51,859

multi-dimensional one or whatever or in

1380

01:00:56,140 --> 01:00:53,930

the Galactic super wave scenario it's

1381

01:00:58,329 --> 01:00:56,150

such a big event that the implications

1382

01:01:00,789 --> 01:00:58,339

are so obvious to a wide range of

1383

01:01:02,440 --> 01:01:00,799

civilizations that the most advanced

1384

01:01:05,079 --> 01:01:02,450

would probably just get out in front of

1385

01:01:07,750 --> 01:01:05,089

it and help the rest of us like we might

1386

01:01:10,329 --> 01:01:07,760

do if a volcano blew or a forest fire

1387

01:01:13,210 --> 01:01:10,339

broke out or BP spilled a bunch of oil

1388

01:01:15,280 --> 01:01:13,220

in the Gulf you know we get out there we

1389

01:01:17,740 --> 01:01:15,290

try to get as many ignorant creatures

1390

01:01:20,260 --> 01:01:17,750

out of the way as we could I'm

1391

01:01:23,410 --> 01:01:20,270

spitballing here but I could see that as

1392

01:01:24,940 --> 01:01:23,420

a scenario in the insanely wide range of

1393

01:01:27,340 --> 01:01:24,950

paradigms I'm willing to consider

1394

01:01:29,290 --> 01:01:27,350

and if you didn't hear the plus show the

1395

01:01:31,390 --> 01:01:29,300

Galactic super wave stuff might not make

1396

01:01:34,150 --> 01:01:31,400

sense you should probably just sign up

1397

01:01:35,830 --> 01:01:34,160

already but in this week's episode we

1398

01:01:37,750 --> 01:01:35,840

get deep into some of the things I'm

1399

01:01:40,540 --> 01:01:37,760

glossing over now the Galactic super

1400

01:01:42,150 --> 01:01:40,550

wave threat Paul's work on Paul SARS and

1401

01:01:44,470 --> 01:01:42,160

the idea that their intergalactic

1402

01:01:46,990 --> 01:01:44,480

intelligently designed signals or

1403

01:01:49,630 --> 01:01:47,000

beacons for emerging civilizations to

1404

01:01:52,300 --> 01:01:49,640

decode crop circles and forcefield

1405

01:01:55,120 --> 01:01:52,310

beaming technology the prospect of a

1406

01:01:57,010 --> 01:01:55,130

federation in the cosmos the exotic

1407

01:01:59,530 --> 01:01:57,020

technology used to bring down the twin

1408

01:02:01,390 --> 01:01:59,540

towers yeah he goes there also the

1409

01:02:04,090 --> 01:02:01,400

technology we've seen in events like the

1410

01:02:06,160 --> 01:02:04,100

Norway spiral and other strange ring of

1411

01:02:08,020 --> 01:02:06,170

light style rocket launches we've seen

1412

01:02:10,510 --> 01:02:08,030

in recent years Blue Beam and

1413

01:02:13,810 --> 01:02:10,520

black-budget technologies ability to

1414

01:02:15,670 --> 01:02:13,820

create illusions subspace yeah remember

1415

01:02:18,250 --> 01:02:15,680

that term subspace there's an upcoming

1416

01:02:20,650 --> 01:02:18,260

THC all about the idea of hidden spaces

1417

01:02:23,440 --> 01:02:20,660

and maybe someone knows about them and

1418

01:02:25,930 --> 01:02:23,450

keeps them hidden but also we talked

1419

01:02:28,120 --> 01:02:25,940

with Paul about how ancient man dealt

1420

01:02:30,430 --> 01:02:28,130

with the Galactic super wave underground

1421

01:02:33,370 --> 01:02:30,440

tunnel networks and the Bosnian pyramid

1422

01:02:36,580 --> 01:02:33,380

there you have it come on over the plus

1423

01:02:39,670 --> 01:02:36,590

water's fine five bucks a month 60 bucks

1424

01:02:43,000 --> 01:02:39,680

a year and you get to enjoy so so much

1425

01:02:46,120 --> 01:02:43,010

more out of this show out of me and out

1426

01:02:46,660 --> 01:02:46,130

of the higher side guests so I hope we

1427

01:02:49,720 --> 01:02:46,670

liked that

1428

01:02:51,400 --> 01:02:49,730

especially the antigravity stuff thanks

1429

01:02:54,100 --> 01:02:51,410

for listening thanks for being so cool

1430

01:02:56,110 --> 01:02:54,110

and of course thanks to Paul for dumbing

1431

01:02:56,700 --> 01:02:56,120

down his complex work for someone like

1432

01:02:59,170 --> 01:02:56,710

me

1433

01:03:01,570 --> 01:02:59,180

your move quarantine errs of secret

1434

01:03:03,880 --> 01:03:01,580

sciences pulsar placers crop circle

1435

01:03:09,460 --> 01:03:03,890

makers and galactic super wave humanity

1436

01:03:19,530 --> 01:03:14,650

woke up this morning with light in my

1437

01:03:23,420 --> 01:03:19,540

eyes and then realized it was dark

1438

01:03:38,049 --> 01:03:29,890

it was the line coming down from the sky

1439

01:03:48,709 --> 01:03:43,099

must be those strangers that come every

1440

01:03:55,189 --> 01:03:48,719

night who's a saucer-shaped a light but

1441

01:03:58,819 --> 01:03:55,199

people uptight the blue-green footprint

1442

01:04:03,430 --> 01:03:58,829

where's my glove away in the dark

1443

01:04:09,240 --> 01:04:03,440

I hope you make it home Oh

1444

01:04:16,890 --> 01:04:15,430

mr. spaceman won't you please take me

1445

01:04:24,720 --> 01:04:16,900

along

1446

01:04:30,390 --> 01:04:24,730

I won't do anything wrong hey mr.

1447

01:04:40,510 --> 01:04:30,400

spaceman won't you please take me along

1448

01:04:48,730 --> 01:04:46,420

quite weird I had it flies in my beer my

1449

01:04:51,460 --> 01:04:48,740

tooth pain

1450

01:04:56,340 --> 01:04:51,470

[Music]

1451  
01:04:58,930 --> 01:04:56,350  
open my window wait written my name

1452  
01:05:07,010 --> 01:04:58,940  
[Music]

1453  
01:05:07,020 --> 01:05:10,950  
mr. space

1454  
01:05:21,359 --> 01:05:13,670  
won't you please take me

1455  
01:05:21,369 --> 01:05:26,450  
it's a spaceman

1456  
01:05:36,120 --> 01:05:27,990  
take me along

1457  
01:05:39,099 --> 01:05:36,130  
[Music]

1458  
01:05:43,190 --> 01:05:39,109  
this face man

1459  
01:05:49,950 --> 01:05:43,200  
or - please take me alone

1460  
01:05:49,960 --> 01:05:53,609  
[Music]

1461  
01:06:04,980 --> 01:05:58,269  
why don't you please take me along the

1462  
01:06:04,990 --> 01:06:13,310  
take me along the high
