00:00:05,660 --> 00:00:02,800

[Music]

2
00:00:08,179 --> 00:00:05,670

congratulations YouTube you did it you

3
00:00:10,669 --> 00:00:08,189

wore me down and you sucked me back in I

4
00:00:13,249 --> 00:00:10,679

have too many subscribers here just to

5
00:00:15,799 --> 00:00:13,259

walk away entirely especially with no

6
00:00:17,990 --> 00:00:15,809

alternative that truly stacks up and so

7
00:00:21,410 --> 00:00:18,000

many copycat channels uploading my shows

8
00:00:23,720 --> 00:00:21,420

for me anyway but we can't forget the th

9
00:00:25,820 --> 00:00:23,730

C's account here is on thin ice

10
00:00:28,400 --> 00:00:25,830

and so the YouTube version of the show

11
00:00:31,640 --> 00:00:28,410

has to be prefaced with this little PSA

12
00:00:32,959 --> 00:00:31,650

only to say that episodes that contain

13
00:00:35,270 --> 00:00:32,969

the kinds of themes that have been

14

00:00:37,549 --> 00:00:35,280

regularly banned on YouTube will not

15

00:00:39,739 --> 00:00:37,559

appear here and even with that

16

00:00:42,079 --> 00:00:39,749

precaution there's already enough in the

17

00:00:43,790 --> 00:00:42,089

archive to get us removed so remember

18

00:00:46,219 --> 00:00:43,800

that the higher side chats could be

19

00:00:48,469 --> 00:00:46,229

banned or put in timeout again at any

20

00:00:50,719 --> 00:00:48,479

time and I won't be able to tell you

21

00:00:52,610 --> 00:00:50,729

guys about it so if you feel like it's

22

00:00:55,099 --> 00:00:52,620

been too long since you've heard from me

23

00:00:57,379 --> 00:00:55,109

here on this digital dystopian draconian

24

00:01:00,020 --> 00:00:57,389

data-mining monster of a police state

25

00:01:02,000 --> 00:01:00,030

seeking platform your first step should

26
00:01:05,060 --> 00:01:02,010
be to check the higher side shots calm

27
00:01:11,950 --> 00:01:05,070
for the latest shows alright alright

28
00:01:16,700 --> 00:01:14,390
alright higher side Cheddar's as we wade

29
00:01:18,950 --> 00:01:16,710
through a world of invasive technologies

30
00:01:21,170 --> 00:01:18,960
directing and recording far more of our

31
00:01:23,000 --> 00:01:21,180
actions than we'd like to admit many of

32
00:01:24,650 --> 00:01:23,010
us start to wonder what we'll find at

33
00:01:26,990 --> 00:01:24,660
the end of this curve lan concerning

34
00:01:29,150 --> 00:01:27,000
road others examine our history of

35
00:01:31,040 --> 00:01:29,160
perpetual war and conquest most without

36
00:01:34,010 --> 00:01:31,050
a reasonable motivation given to the

37
00:01:35,960 --> 00:01:34,020
people and again we wonder what's really

38
00:01:37,880 --> 00:01:35,970

driving these conflicts and military

39

00:01:40,820 --> 00:01:37,890

movements across the globe even today

40

00:01:42,650 --> 00:01:40,830

and the savviest amongst us have seen

41

00:01:44,240 --> 00:01:42,660

the testimonies and texts leading all

42

00:01:46,130 --> 00:01:44,250

the way back to the earliest age is a

43

00:01:48,680 --> 00:01:46,140

man that described interactions

44

00:01:50,660 --> 00:01:48,690

rulership enlightenment maybe even the

45

00:01:52,730 --> 00:01:50,670

engineering of humanity by some other

46

00:01:54,500 --> 00:01:52,740

intelligent beings and know that there

47

00:01:56,030 --> 00:01:54,510

must be a deeper story we aren't being

48

00:01:58,460 --> 00:01:56,040

told when it comes to most of these

49

00:02:00,170 --> 00:01:58,470

threads - well today's guest is very

50

00:02:01,640 --> 00:02:00,180

clear in his assertion that whether

51
00:02:03,830 --> 00:02:01,650
you're talking about the trajectory of

52
00:02:06,740 --> 00:02:03,840
our technology our geopolitical agenda

53
00:02:09,169 --> 00:02:06,750
of perpetual war or many other aspects

54
00:02:11,300 --> 00:02:09,179
of the human story your picture won't be

55
00:02:13,250 --> 00:02:11,310
complete without factoring in the exo

56
00:02:13,430 --> 00:02:13,260
political element and so that is what

57
00:02:15,920 --> 00:02:13,440
we're

58
00:02:18,080 --> 00:02:15,930
here to do his name is David Griffin and

59
00:02:20,900 --> 00:02:18,090
he's a UK researcher largely responsible

60
00:02:23,120 --> 00:02:20,910
for the UK branch of the exo politics

61
00:02:25,400 --> 00:02:23,130
sites and a card-carrying member of both

62
00:02:28,520 --> 00:02:25,410
the XO politics Institute and world

63
00:02:30,860 --> 00:02:28,530

network having studied Peace Studies and

64

00:02:33,140 --> 00:02:30,870

conflict resolution as well as learning

65

00:02:34,010 --> 00:02:33,150

innovation and interactive media and the

66

00:02:36,230 --> 00:02:34,020

college days

67

00:02:38,720 --> 00:02:36,240

he realized that while not being

68

00:02:40,520 --> 00:02:38,730

interested in ufology initially you

69

00:02:42,470 --> 00:02:40,530

really need to incorporate that third

70

00:02:44,420 --> 00:02:42,480

rail to understand the game behind the

71

00:02:46,790 --> 00:02:44,430

game and the subtext to many world

72

00:02:49,520 --> 00:02:46,800

events and David has done a great job

73

00:02:52,430 --> 00:02:49,530

nailling down and connecting exactly this

74

00:02:54,620 --> 00:02:52,440

type of subtext by conducting an amazing

75

00:02:56,750 --> 00:02:54,630

series of presentations that dive deep

76

00:02:58,700 --> 00:02:56,760

into the secret motivations and ET

77

00:03:01,460 --> 00:02:58,710

involvement and not only the Falklands

78

00:03:03,530 --> 00:03:01,470

War but also the goings on in Antarctica

79

00:03:05,900 --> 00:03:03,540

and the strange string of deaths and

80

00:03:08,780 --> 00:03:05,910

quote suicides that took many Marconi

81

00:03:10,730 --> 00:03:08,790

scientists and engineers much of this

82

00:03:13,130 --> 00:03:10,740

revolves around a dangerous et

83

00:03:15,260 --> 00:03:13,140

technology that many refer to as the

84

00:03:16,310 --> 00:03:15,270

black goo and we're definitely going to

85

00:03:19,130 --> 00:03:16,320

get into it today

86

00:03:20,960 --> 00:03:19,140

the professor of XO politics the saucer

87

00:03:23,780 --> 00:03:20,970

school scholar and the black goo guy

88

00:03:28,100 --> 00:03:23,790

himself David Griffin welcome to the

89

00:03:30,260 --> 00:03:28,110

higher side Greg I thank you and I don't

90

00:03:32,210 --> 00:03:30,270

think Michael Salla or Alfred Weber the

91

00:03:34,699 --> 00:03:32,220

two early proponents together with me

92

00:03:37,699 --> 00:03:34,709

who set up the very early national

93

00:03:39,530 --> 00:03:37,709

networks of X politics in 2003 to try

94

00:03:41,870 --> 00:03:39,540

and change your follow G and bring it on

95

00:03:43,490 --> 00:03:41,880

from its under oxidases Annunaki us to

96

00:03:43,970 --> 00:03:43,500

does that mean something does that mean

97

00:03:46,970 --> 00:03:43,980

cont

98

00:03:48,949 --> 00:03:46,980

I'm that promoter with the term but I it

99

00:03:51,620 --> 00:03:48,959

just means in this case you apology was

100

00:03:53,660 --> 00:03:51,630

doing very well the 90s over here but it

101
00:03:55,280 --> 00:03:53,670
was more nuts and bolts and Iraqi Title

102
00:03:56,630 --> 00:03:55,290
Il mean than dirty tights that will show

103
00:03:59,090 --> 00:03:56,640
me a piece of the source or I don't

104
00:04:00,979 --> 00:03:59,100
believe and yet I still gathered a big

105
00:04:02,630 --> 00:04:00,989
audience then it went quieter and this

106
00:04:05,750 --> 00:04:02,640
was used to the death of UFO magazine

107
00:04:07,520 --> 00:04:05,760
now taken by your own us bill birnes

108
00:04:10,250 --> 00:04:07,530
he's taken that magazine over but that

109
00:04:12,710 --> 00:04:10,260
was originally a UK thing so we had like

110
00:04:15,110 --> 00:04:12,720
five six hundred people coming to these

111
00:04:17,120 --> 00:04:15,120
events on UFOs but it was round around

112
00:04:19,250 --> 00:04:17,130
nuts and bolts and it bored me and I was

113
00:04:23,060 --> 00:04:19,260

into the topic but not that so ex

114

00:04:24,860 --> 00:04:23,070

politics came up by dr. Saleh and I went

115

00:04:27,379 --> 00:04:24,870

forward with the first national site

116

00:04:29,540 --> 00:04:27,389

outside the US on that and

117

00:04:32,059 --> 00:04:29,550

you mentioned coming forward out silence

118

00:04:34,640 --> 00:04:32,069

and I don't sound pretentious but that

119

00:04:37,249 --> 00:04:34,650

is based mostly on you contacting me and

120

00:04:39,709 --> 00:04:37,259

on this topic that you've asked me to

121

00:04:42,140 --> 00:04:39,719

discuss or update between myself

122

00:04:44,450 --> 00:04:42,150

Alec Neil's whose contact he that was

123

00:04:46,159 --> 00:04:44,460

jailed for nine years for no reason

124

00:04:48,140 --> 00:04:46,169

simply having a contacts accounts that

125

00:04:49,879 --> 00:04:48,150

he wouldn't give an account on to

126

00:04:52,309 --> 00:04:49,889

certain people but arrived from Britain

127

00:04:54,140 --> 00:04:52,319

to New Zealand and that Duncan Rose who

128

00:04:56,269 --> 00:04:54,150

runs Nexus magazine who many people

129

00:04:59,809 --> 00:04:56,279

would be familiar with two decades bring

130

00:05:02,420 --> 00:04:59,819

next magazine so three of us since 2011

131

00:05:04,790 --> 00:05:02,430

have worked on this and bring it out to

132

00:05:07,040 --> 00:05:04,800

the wider public since Alex first book

133

00:05:09,800 --> 00:05:07,050

coevolution but mostly I'll just say

134

00:05:11,510 --> 00:05:09,810

this it was your scope of work and what

135

00:05:12,830 --> 00:05:11,520

I admire is that you thought you can't

136

00:05:14,990 --> 00:05:12,840

just go on looking good

137

00:05:17,480 --> 00:05:15,000

give me show me a Steve Bassett says I

138

00:05:19,610 --> 00:05:17,490

want the latrine know if that's us would

139

00:05:21,079 --> 00:05:19,620

show me the latrine film the toilet from

140

00:05:23,600 --> 00:05:21,089

the source and I'll believe you if the

141

00:05:26,390 --> 00:05:23,610

same as young rats and Exopolitics was

142

00:05:28,309 --> 00:05:26,400

meant to move that on into saying right

143

00:05:30,469 --> 00:05:28,319

look for F sake we know that they're

144

00:05:32,360 --> 00:05:30,479

here and let's just deal with that and

145

00:05:34,249 --> 00:05:32,370

also at the same time which I'd moved

146

00:05:35,629 --> 00:05:34,259

away from now let's deal with what the

147

00:05:36,769 --> 00:05:35,639

government knows and that went on for

148

00:05:38,659 --> 00:05:36,779

that 1012 years

149

00:05:40,550 --> 00:05:38,669

so evel's are sort of fallen out and

150

00:05:42,829 --> 00:05:40,560

gone their own ways by now and iPhone

151

00:05:44,420 --> 00:05:42,839

their way but in between that talking

152

00:05:46,249 --> 00:05:44,430

about something discussed is one that

153

00:05:48,290 --> 00:05:46,259

you'll ride I've gone right on hand for

154

00:05:51,110 --> 00:05:48,300

a reason and one might hope that perhaps

155

00:05:53,420 --> 00:05:51,120

we can deal with today by discussing

156

00:05:55,939 --> 00:05:53,430

with you and tell you why all three of

157

00:05:57,350 --> 00:05:55,949

us who had very tightly searched the

158

00:05:59,269 --> 00:05:57,360

southern hemisphere New Zealand

159

00:06:01,429 --> 00:05:59,279

Australia and Britain and this whole

160

00:06:03,079 --> 00:06:01,439

black goon thing that you type in since

161

00:06:04,760 --> 00:06:03,089

it now a huge amount of results that

162

00:06:07,999 --> 00:06:04,770

come back well I guarantee you they

163

00:06:10,339 --> 00:06:08,009

weren't there in 2012 2011 so this is

164

00:06:12,740 --> 00:06:10,349

what's happened since and it's your site

165

00:06:15,290 --> 00:06:12,750

that covered things like Liz Fraser with

166

00:06:17,420 --> 00:06:15,300

their own ideas of the siren because I

167

00:06:19,040 --> 00:06:17,430

did talks on visual language so the

168

00:06:21,019 --> 00:06:19,050

point is it's not a narrow look at

169

00:06:22,939 --> 00:06:21,029

things and you are a host that

170

00:06:26,329 --> 00:06:22,949

represents something that isn't a narrow

171

00:06:27,889 --> 00:06:26,339

look at this area or what we call all in

172

00:06:30,800 --> 00:06:27,899

Devon Town Hall's high strangeness

173

00:06:32,929 --> 00:06:30,810

itself you know your channel and your

174

00:06:35,540 --> 00:06:32,939

show represents a wider scale of things

175

00:06:37,279 --> 00:06:35,550

so you tell me where you want me to

176
00:06:39,170 --> 00:06:37,289
begin because there is been a gap and

177
00:06:41,550 --> 00:06:39,180
all three of us I mentioned the name is

178
00:06:43,830 --> 00:06:41,560
have refused interviews since about 20

179
00:06:46,800 --> 00:06:43,840
14 when we did Nexus conference in

180
00:06:48,690 --> 00:06:46,810
Australia remotely because alyc a guy

181
00:06:51,330 --> 00:06:48,700
from New Zealand was stopped from

182
00:06:53,430 --> 00:06:51,340
getting a visa into Australia if you can

183
00:06:55,470 --> 00:06:53,440
imagine such a thing and I couldn't get

184
00:06:56,820 --> 00:06:55,480
over either so there's something going

185
00:06:59,010 --> 00:06:56,830
on there when all you want to do is talk

186
00:07:00,960 --> 00:06:59,020
about an event of two 300 people in

187
00:07:02,580 --> 00:07:00,970
Australia well no way the Australian

188
00:07:04,590 --> 00:07:02,590

government aren't let you in to talk at

189

00:07:06,390 --> 00:07:04,600

a conference but there's more going on

190

00:07:07,830 --> 00:07:06,400

than that so you tell me what you know

191

00:07:09,360 --> 00:07:07,840

about the case and give me a starting

192

00:07:12,240 --> 00:07:09,370

point and we'll go from there

193

00:07:14,760 --> 00:07:12,250

sure sure yeah you definitely hit on a

194

00:07:16,740 --> 00:07:14,770

lot of things right there it is a real

195

00:07:19,230 --> 00:07:16,750

treat to have you here and I am so

196

00:07:21,480 --> 00:07:19,240

interested in the Falklands War Marconi

197

00:07:22,680 --> 00:07:21,490

deaths black goo saga and it is the main

198

00:07:25,440 --> 00:07:22,690

thing we're going to talk about today

199

00:07:27,360 --> 00:07:25,450

but you mentioned Liz Fraser and I gotta

200

00:07:29,340 --> 00:07:27,370

bring up the fact that when I asked you

201
00:07:31,980 --> 00:07:29,350
about coming on THC you checked out a

202
00:07:33,420 --> 00:07:31,990
few episodes first as one should and you

203
00:07:35,430 --> 00:07:33,430
listened to one of the shows I did with

204
00:07:36,930 --> 00:07:35,440
Chris Knowles and you said to me

205
00:07:38,850 --> 00:07:36,940
someone else is sussed out that

206
00:07:41,430 --> 00:07:38,860
Elizabeth brazier is a siren and they're

207
00:07:43,530 --> 00:07:41,440
not even from England and you said what

208
00:07:45,000 --> 00:07:43,540
she's really doing is using visual

209
00:07:46,770 --> 00:07:45,010
language you mentioned that too just a

210
00:07:49,640 --> 00:07:46,780
moment ago and I saw your presentation

211
00:07:51,570 --> 00:07:49,650
on this that these non-human

212
00:07:53,790 --> 00:07:51,580
intelligences speak in higher

213
00:07:56,400 --> 00:07:53,800

dimensional language sometimes they

214

00:07:58,110 --> 00:07:56,410

speak in color so to speak Terence

215

00:08:00,719 --> 00:07:58,120

Mckenna used to talk about this a lot

216

00:08:03,240 --> 00:08:00,729

and it relates to cymatics and the power

217

00:08:04,710 --> 00:08:03,250

of psychedelics and maybe even modes of

218

00:08:07,680 --> 00:08:04,720

contact you can have with these

219

00:08:09,570 --> 00:08:07,690

intelligences yourself but because so

220

00:08:12,300 --> 00:08:09,580

many people in this audience are big

221

00:08:14,610 --> 00:08:12,310

fans of the Elizabeth Fraser sirens saga

222

00:08:17,490 --> 00:08:14,620

work that Chris Knowles is done I'm just

223

00:08:19,680 --> 00:08:17,500

really anxious before we dive into this

224

00:08:22,140 --> 00:08:19,690

Marconi thing and this Falklands thing

225

00:08:24,390 --> 00:08:22,150

I'm just curious to hear from someone

226

00:08:26,190 --> 00:08:24,400

else who's able to fold her into their

227

00:08:28,950 --> 00:08:26,200

work what can you tell us from your

228

00:08:32,190 --> 00:08:28,960

perspective about that little Elizabeth

229

00:08:34,020 --> 00:08:32,200

Fraser saga okay go ahead can I be so

230

00:08:36,390 --> 00:08:34,030

peaceful a moment just on traffic and

231

00:08:38,070 --> 00:08:36,400

this is my cultural thermostat as I call

232

00:08:40,680 --> 00:08:38,080

it on many issues and I do this if I do

233

00:08:42,449 --> 00:08:40,690

two walks around UK Europe and I ask

234

00:08:44,219 --> 00:08:42,459

certain questions I'm interested in a

235

00:08:46,829 --> 00:08:44,229

slightly selfish you saying Chris

236

00:08:49,410 --> 00:08:46,839

Knowles talks I think he's done too for

237

00:08:51,600 --> 00:08:49,420

you coming the siren and this Fraser as

238

00:08:53,630 --> 00:08:51,610

a important central part of that are you

239

00:08:55,550 --> 00:08:53,640

saying that tracks quite a bit

240

00:08:58,340 --> 00:08:55,560

attention the symbol of the topics just

241

00:09:00,440 --> 00:08:58,350

interested briefly for my show that's

242

00:09:02,150 --> 00:09:00,450

been a real popular topic and Chris

243

00:09:04,370 --> 00:09:02,160

Knowles has been a real popular guest

244

00:09:06,410 --> 00:09:04,380

and I think it's just because of all the

245

00:09:08,690 --> 00:09:06,420

connections that unwind in that

246

00:09:11,750 --> 00:09:08,700

synchronistic way when you examine her

247

00:09:14,240 --> 00:09:11,760

and the things she chants over and over

248

00:09:17,060 --> 00:09:14,250

in these songs and how they tend to come

249

00:09:19,910 --> 00:09:17,070

to pass and again that might relate to a

250

00:09:21,620 --> 00:09:19,920

higher dimensional higher vibrational

251
00:09:24,290 --> 00:09:21,630
type of language that actually maybe

252
00:09:26,870 --> 00:09:24,300
contains some type of for scene of

253
00:09:29,480 --> 00:09:26,880
events but because you did mention that

254
00:09:32,960 --> 00:09:29,490
to me and it is such an off the radar

255
00:09:35,810 --> 00:09:32,970
and unique slice of the pie I'm just

256
00:09:38,240 --> 00:09:35,820
curious to get your thoughts well top

257
00:09:40,550 --> 00:09:38,250
marks to it to you and mr. Knowles for

258
00:09:44,860 --> 00:09:40,560
actually covering up topic because I

259
00:09:47,090 --> 00:09:44,870
kept quiet and I didn't talk on et's

260
00:09:49,130 --> 00:09:47,100
psychedelics and visual language which

261
00:09:51,770 --> 00:09:49,140
can find again online in conferences

262
00:09:53,870 --> 00:09:51,780
from 2010 onwards and like you say you

263
00:09:56,240 --> 00:09:53,880

mentioned the great late terence mckenna

264

00:09:58,970 --> 00:09:56,250

who died far too early bless him from

265

00:10:00,770 --> 00:09:58,980

brain cancer because what he gave us is

266

00:10:03,140 --> 00:10:00,780

if you're a scientist I'm not going to

267

00:10:04,550 --> 00:10:03,150

go on too long about this but he had a

268

00:10:07,280 --> 00:10:04,560

scientific view on this and a

269

00:10:09,730 --> 00:10:07,290

psychedelic view about ESI electron spin

270

00:10:12,710 --> 00:10:09,740

resonance which essentially says that

271

00:10:14,900 --> 00:10:12,720

certain things like a magic mushroom or

272

00:10:17,510 --> 00:10:14,910

certain tones like shamans from the

273

00:10:19,970 --> 00:10:17,520

Amazon talked about have the ability to

274

00:10:22,760 --> 00:10:19,980

sort of pass a threshold where they

275

00:10:24,950 --> 00:10:22,770

begin spinning a stated consciousness in

276

00:10:27,680 --> 00:10:24,960

other people so I found out my meaning

277

00:10:30,290 --> 00:10:27,690

is stuff that shamans could pass colors

278

00:10:31,910 --> 00:10:30,300

between each other and shapes whether it

279

00:10:33,800 --> 00:10:31,920

was with drums you know again everyone

280

00:10:35,060 --> 00:10:33,810

goes on about David Icke and everyone

281

00:10:36,530 --> 00:10:35,070

was going over the hours and go yeah

282

00:10:39,260 --> 00:10:36,540

I'll be there at the AMA so I've done my

283

00:10:40,130 --> 00:10:39,270

ayahuasca or whatever it is and you know

284

00:10:42,080 --> 00:10:40,140

you've got these middle-class people

285

00:10:43,850 --> 00:10:42,090

going off and camenisch out back about

286

00:10:46,070 --> 00:10:43,860

in the US and the UK and other parts but

287

00:10:47,750 --> 00:10:46,080

the point is that Terence was there in

288

00:10:50,510 --> 00:10:47,760

the mid seventies and he found that

289

00:10:53,660 --> 00:10:50,520

these shamans could pass by using the

290

00:10:55,820 --> 00:10:53,670

right vocal tones they could actually

291

00:10:58,280 --> 00:10:55,830

afterwards discuss their trip whether it

292

00:10:59,960 --> 00:10:58,290

was with ayahuasca or the plant the

293

00:11:01,610 --> 00:10:59,970

sacred plants demons or whether it was

294

00:11:03,920 --> 00:11:01,620

with just roaming I mean they could get

295

00:11:05,990 --> 00:11:03,930

to that stage they could pass on symbols

296

00:11:06,889 --> 00:11:06,000

and colors and they discuss concepts

297

00:11:08,600 --> 00:11:06,899

like Oh

298

00:11:10,129 --> 00:11:08,610

that circle of pink had a bit more blue

299

00:11:11,989 --> 00:11:10,139

and I would have understood the concepts

300

00:11:14,449 --> 00:11:11,999

you were sending me and these are groups

301
00:11:17,119 --> 00:11:14,459
of Charmin so this I did a visual

302
00:11:21,170 --> 00:11:17,129
language already exists and this Frazer

303
00:11:23,720 --> 00:11:21,180
to me is the central person who has come

304
00:11:25,790 --> 00:11:23,730
forward our Swami in the pop charts and

305
00:11:27,559 --> 00:11:25,800
I'm astonished that and I didn't know

306
00:11:29,749 --> 00:11:27,569
how big they were in America has come

307
00:11:31,249 --> 00:11:29,759
forward and mr. Knowles has gone and

308
00:11:33,470 --> 00:11:31,259
looked into that and he's gone a little

309
00:11:36,139 --> 00:11:33,480
bit more New World Order than me and

310
00:11:38,030 --> 00:11:36,149
then too many boos I listened to I just

311
00:11:39,710 --> 00:11:38,040
stayed a little bit more on all she

312
00:11:42,379 --> 00:11:39,720
represents is that we're now a time

313
00:11:44,239 --> 00:11:42,389

where as you can see from the madness on

314

00:11:48,439 --> 00:11:44,249

the news where you turn on CNN in your

315

00:11:50,710 --> 00:11:48,449

country the BBC and our news country but

316

00:11:53,869 --> 00:11:50,720

when concepts are being portrayed like

317

00:11:55,669 --> 00:11:53,879

Putin has hacking the election I've seen

318

00:11:57,739 --> 00:11:55,679

rubbish but I mean that's one example of

319

00:12:00,079 --> 00:11:57,749

many but essentially that politicians

320

00:12:02,269 --> 00:12:00,089

are in saying you have a reality Channel

321

00:12:03,980 --> 00:12:02,279

person as your president we over here

322

00:12:05,480 --> 00:12:03,990

have just a mess of the House of Commons

323

00:12:07,879 --> 00:12:05,490

that don't know where to go on anything

324

00:12:09,739 --> 00:12:07,889

so what I think comes through and this

325

00:12:11,179 --> 00:12:09,749

phrase is then represented us they

326

00:12:13,369 --> 00:12:11,189

become bigger right to the point

327

00:12:15,739 --> 00:12:13,379

as mr. Knowles nation of heaven and Las

328

00:12:18,679 --> 00:12:15,749

Vegas the album and I challenge anyone

329

00:12:21,079 --> 00:12:18,689

who listens to this get a copy or buy

330

00:12:23,929 --> 00:12:21,089

you Nick steel liberate a copy of heaven

331

00:12:25,910 --> 00:12:23,939

and Las Vegas and play one night and

332

00:12:28,069 --> 00:12:25,920

just tell me after one or two listens if

333

00:12:30,139 --> 00:12:28,079

you're not hypnotized and it doesn't

334

00:12:31,819 --> 00:12:30,149

take you to your own so this is not

335

00:12:35,059 --> 00:12:31,829

about someone trying to entrace you like

336

00:12:37,220 --> 00:12:35,069

the use of hit binaural beats this is

337

00:12:39,290 --> 00:12:37,230

about this Fraser the Cocteau twins that

338

00:12:41,030 --> 00:12:39,300

they have found she has found some magic

339

00:12:45,110 --> 00:12:41,040

key to take you to a different place now

340

00:12:47,449 --> 00:12:45,120

if you watch one of my talks or you look

341

00:12:49,129 --> 00:12:47,459

at the work I did with Kim sparks Craig

342

00:12:51,619 --> 00:12:49,139

you've heard of Jim sparks the contactee

343

00:12:52,939 --> 00:12:51,629

I have and will definitely get into him

344

00:12:54,530 --> 00:12:52,949

too because these an important piece of

345

00:12:56,540 --> 00:12:54,540

the puzzle

346

00:12:58,879 --> 00:12:56,550

well I'm glad to go there if you want

347

00:13:00,740 --> 00:12:58,889

but I interviewed him even before Linda

348

00:13:03,139 --> 00:13:00,750

my own hamster and essentially he was

349

00:13:04,610 --> 00:13:03,149

doing similar things so he has cymbals

350

00:13:06,259 --> 00:13:04,620

produced in his mind when he was on

351
00:13:08,060 --> 00:13:06,269
board a craft they were a bit rough with

352
00:13:09,139 --> 00:13:08,070
him the way he was treated but you know

353
00:13:11,090 --> 00:13:09,149
I have a hint this might be a bit

354
00:13:13,400 --> 00:13:11,100
government interference there that's one

355
00:13:14,840 --> 00:13:13,410
case I'll admit I've known you've spots

356
00:13:16,670 --> 00:13:14,850
for a fair while there's a few stray

357
00:13:19,850 --> 00:13:16,680
things going on there but let's keep it

358
00:13:22,430 --> 00:13:19,860
simple so it's essential that et's use

359
00:13:24,590 --> 00:13:22,440
telepathy what we call telepathy but

360
00:13:26,960 --> 00:13:24,600
essentially it's a way of transmitting

361
00:13:28,189 --> 00:13:26,970
things so people will say I thought of

362
00:13:30,230 --> 00:13:28,199
the question to ask them these are

363
00:13:33,199 --> 00:13:30,240

contactees or people in who end up in

364

00:13:34,730 --> 00:13:33,209

their cubby on a craft or whatever the

365

00:13:37,400 --> 00:13:34,740

closer was like they answered the

366

00:13:38,840 --> 00:13:37,410

question as I or before I thought about

367

00:13:41,629 --> 00:13:38,850

it now you know this tells us something

368

00:13:43,850 --> 00:13:41,639

about time-space and basically that yet

369

00:13:45,920 --> 00:13:43,860

we call it to let the ESP but

370

00:13:48,139 --> 00:13:45,930

essentially what I'm saying is that this

371

00:13:50,090 --> 00:13:48,149

visual thing that behind if you watch my

372

00:13:52,160 --> 00:13:50,100

talks and I even show this in physics

373

00:13:53,990 --> 00:13:52,170

that we talk in a bubble we don't know

374

00:13:56,629 --> 00:13:54,000

this but we if you look into physics

375

00:13:58,370 --> 00:13:56,639

when we talk it sends out a bubble and

376

00:14:01,490 --> 00:13:58,380

this bubble is passed on in a sort of

377

00:14:03,290 --> 00:14:01,500

visual cymatic I mean I'm glad breaking

378

00:14:04,850 --> 00:14:03,300

watch valuations cymatics and that's

379

00:14:06,559 --> 00:14:04,860

crucial and people go and look up

380

00:14:08,960 --> 00:14:06,569

cymatics for themselves if they want

381

00:14:11,240 --> 00:14:08,970

which he says you say is that as sound

382

00:14:13,460 --> 00:14:11,250

is passed as vibrations then it creates

383

00:14:15,019 --> 00:14:13,470

a visual image they're on board this

384

00:14:16,189 --> 00:14:15,029

like a drum you'll know you might be

385

00:14:17,930 --> 00:14:16,199

able to explain it better than me but

386

00:14:20,689 --> 00:14:17,940

the fact is it creates a vision it's

387

00:14:22,970 --> 00:14:20,699

that's a rudimentary form of electron

388

00:14:24,680 --> 00:14:22,980

spin resonance that the chemical bit so

389

00:14:26,720 --> 00:14:24,690

essentially mr. Noles goes in two

390

00:14:29,210 --> 00:14:26,730

different areas to me but i think liz is

391

00:14:31,579 --> 00:14:29,220

here to represent we're at this weird

392

00:14:33,829 --> 00:14:31,589

simulation or as gene board relies of

393

00:14:35,960 --> 00:14:33,839

French philosopher said in the 80s book

394

00:14:38,150 --> 00:14:35,970

on simulator a top French philosopher

395

00:14:39,769 --> 00:14:38,160

very weird guide we had it bang-on he

396

00:14:41,900 --> 00:14:39,779

basically said that we get to the point

397

00:14:44,000 --> 00:14:41,910

now where we live it in a simulation

398

00:14:45,829 --> 00:14:44,010

essentially we're sort of programming

399

00:14:47,990 --> 00:14:45,839

our own realities and they bounce back

400

00:14:50,180 --> 00:14:48,000

at us well this could only explain why

401
00:14:52,280 --> 00:14:50,190
myself and one of my best friends in

402
00:14:54,259 --> 00:14:52,290
twenty thirty years work shit-scared

403
00:14:55,610 --> 00:14:54,269
Greg how old are you just addressed you

404
00:14:57,920 --> 00:14:55,620
can give me a rough age already three

405
00:15:00,170 --> 00:14:57,930
okay so I'm a bit older than you by a

406
00:15:02,210 --> 00:15:00,180
three or four years but you may well

407
00:15:04,550 --> 00:15:02,220
remember you know the year of Reagan

408
00:15:06,710 --> 00:15:04,560
Thatcher and others when people in the

409
00:15:08,269 --> 00:15:06,720
sixties go about duck-and-cover for

410
00:15:09,769 --> 00:15:08,279
nuclear bombs will in the

411
00:15:11,119 --> 00:15:09,779
early eighties which you remember as

412
00:15:11,780 --> 00:15:11,129
well even though you're a few years

413
00:15:13,850 --> 00:15:11,790

younger than me

414

00:15:15,769 --> 00:15:13,860

I remember being scared because

415

00:15:18,230 --> 00:15:15,779

they told us that at the school I was in

416

00:15:20,269 --> 00:15:18,240

if a bomb went off in Birmingham central

417

00:15:22,460 --> 00:15:20,279

I left sideburn at that time that's

418

00:15:25,040 --> 00:15:22,470

essentially we wouldn't die we'd be or I

419

00:15:26,720 --> 00:15:25,050

got into a desk and died but a skin and

420

00:15:28,579 --> 00:15:26,730

fall off and this it happened but you

421

00:15:30,559 --> 00:15:28,589

know when we got home if a parents live

422

00:15:32,329 --> 00:15:30,569

the north they'd be dead

423

00:15:34,699 --> 00:15:32,339

so all this sort of stuff was going on

424

00:15:36,920 --> 00:15:34,709

and so when suddenly it happens that

425

00:15:38,629 --> 00:15:36,930

Putin came back as the enemy during this

426

00:15:40,999 --> 00:15:38,639

whole time of the Trump you know again

427

00:15:42,710 --> 00:15:41,009

your country rules what goes on in the

428

00:15:44,929 --> 00:15:42,720

world this is why it's good for you to

429

00:15:47,030 --> 00:15:44,939

get UK people on for a different view

430

00:15:49,100 --> 00:15:47,040

now on that because your country has a

431

00:15:51,290 --> 00:15:49,110

profound impact on things whether it's

432

00:15:53,059 --> 00:15:51,300

discussing this Fraser who's on the UK

433

00:15:55,610 --> 00:15:53,069

or whether it's discussing the wider

434

00:15:57,079 --> 00:15:55,620

issues of the et contact issue and so of

435

00:15:58,999 --> 00:15:57,089

course the Putin came back and suddenly

436

00:16:01,069 --> 00:15:59,009

became the enemy of life I said to my

437

00:16:03,079 --> 00:16:01,079

friend from the eighties he's again

438

00:16:04,759 --> 00:16:03,089

years older he is like why have you

439

00:16:06,110 --> 00:16:04,769

suddenly gone hunting Russia again we

440

00:16:07,999 --> 00:16:06,120

thought we'd been through that and in

441

00:16:10,160 --> 00:16:08,009

both our heads we've been told that the

442

00:16:10,639 --> 00:16:10,170

nuclear issue in the deep consciousness

443

00:16:12,410 --> 00:16:10,649

of our heads

444

00:16:13,910 --> 00:16:12,420

we've been scared as kids we've

445

00:16:16,610 --> 00:16:13,920

been told that that's no longer an issue

446

00:16:18,530 --> 00:16:16,620

well as you've seen out there now

447

00:16:20,660 --> 00:16:18,540

goading Putin and it's not really about

448

00:16:22,579 --> 00:16:20,670

what's going on but it's about the fact

449

00:16:24,829 --> 00:16:22,589

that my god these people in Parliament

450

00:16:28,069 --> 00:16:24,839

both your lot and a lot in the House

451
00:16:31,100 --> 00:16:28,079
Commons in Britain have forgotten what

452
00:16:33,410 --> 00:16:31,110
the scariness of what nuclear war means

453
00:16:36,170 --> 00:16:33,420
it was like they've been taken away

454
00:16:39,049 --> 00:16:36,180
philip k dick another us over called it

455
00:16:40,939 --> 00:16:39,059
an uneasy about he calls it we

456
00:16:42,710 --> 00:16:40,949
remembering in other words we erase

457
00:16:44,210 --> 00:16:42,720
that's been around for a long time and

458
00:16:45,740 --> 00:16:44,220
it's not about the fact that we're not

459
00:16:47,210 --> 00:16:45,750
going out there to learn this is a

460
00:16:49,009 --> 00:16:47,220
mistake people make on that let's go

461
00:16:51,139 --> 00:16:49,019
learn facts on the Internet by going

462
00:16:54,079 --> 00:16:51,149
through YouTube videos or crappy blogs

463
00:16:56,269 --> 00:16:54,089

philip k dick famous author after his

464

00:16:58,939 --> 00:16:56,279

death essentially said it's an amnesia

465

00:17:01,340 --> 00:16:58,949

and this is all to do with he thought

466

00:17:03,410 --> 00:17:01,350

columns you put them around the archons

467

00:17:06,169 --> 00:17:03,420

and things and that basically said we're

468

00:17:08,179 --> 00:17:06,179

learning in Lewis we've forgotten and

469

00:17:09,919 --> 00:17:08,189

what this is is a blanking of memory so

470

00:17:11,569 --> 00:17:09,929

what I think is really learning and to

471

00:17:13,760 --> 00:17:11,579

bring it back to the topic that you

472

00:17:16,189 --> 00:17:13,770

mentioned the Chris mentioned very

473

00:17:18,889 --> 00:17:16,199

articulate great guy with Liz Fraser

474

00:17:21,679 --> 00:17:18,899

I believe that she's there as a meme mmm

475

00:17:23,840 --> 00:17:21,689

how Express in America that with the way

476

00:17:25,250 --> 00:17:23,850

that she sings with her lyrics again

477

00:17:30,080 --> 00:17:25,260

heaven Las Vegas of the album

478

00:17:33,649 --> 00:17:30,090

essentially she is saying this is a step

479

00:17:35,539 --> 00:17:33,659

in between current textual language in a

480

00:17:37,760 --> 00:17:35,549

way we write all the way down told me to

481

00:17:40,279 --> 00:17:37,770

you now and the next stage of visual

482

00:17:41,750 --> 00:17:40,289

language which again if you watch well

483

00:17:43,130 --> 00:17:41,760

Tom my talks with Joseph Canada and

484

00:17:44,720 --> 00:17:43,140

other people who have dipped into this

485

00:17:46,970 --> 00:17:44,730

area I've just been a bit more greatly

486

00:17:50,090 --> 00:17:46,980

linking it to ETS which few people will

487

00:17:51,799 --> 00:17:50,100

do right man I actually think it's so

488

00:17:53,720 --> 00:17:51,809

fascinating because I think you and

489

00:17:55,520 --> 00:17:53,730

Chris are circling around the same sort

490

00:17:58,010 --> 00:17:55,530

of thing because his contention is that

491

00:18:00,350 --> 00:17:58,020

this is channeled information you know

492

00:18:02,090 --> 00:18:00,360

that she has tapped into something he

493

00:18:04,010 --> 00:18:02,100

refers to her as a prophet of doom

494

00:18:05,630 --> 00:18:04,020

because he's pointed out a lot of things

495

00:18:07,570 --> 00:18:05,640

that have been negative but who knows

496

00:18:10,039 --> 00:18:07,580

who's causing what but she's definitely

497

00:18:12,230 --> 00:18:10,049

tapped into something and channeling

498

00:18:14,630 --> 00:18:12,240

something and it's so crazy because

499

00:18:16,970 --> 00:18:14,640

Chris and I when we're talking we always

500

00:18:19,159 --> 00:18:16,980

say that the level of detail that is in

501
00:18:21,380 --> 00:18:19,169
this case seems to precise for human

502
00:18:24,110 --> 00:18:21,390
hands and I can almost see a parallel

503
00:18:25,850 --> 00:18:24,120
between this multi-layered level of

504
00:18:28,490 --> 00:18:25,860
detail surrounding Frazier and her

505
00:18:30,919 --> 00:18:28,500
prophecies and the complexity and

506
00:18:33,080 --> 00:18:30,929
multi-layered elements of this language

507
00:18:35,450 --> 00:18:33,090
that these beings seem to speak through

508
00:18:38,060 --> 00:18:35,460
it seems like a perfect fit I'm gonna

509
00:18:39,169 --> 00:18:38,070
have to get Chris back soon for sure to

510
00:18:41,180 --> 00:18:39,179
talk about it maybe have you guys

511
00:18:43,520 --> 00:18:41,190
together but I also just wanted to ask

512
00:18:45,320 --> 00:18:43,530
you about these beans themselves why

513
00:18:47,419 --> 00:18:45,330

they're here and their motivations I'm

514

00:18:50,419 --> 00:18:47,429

sure just like humans they fall all

515

00:18:52,549 --> 00:18:50,429

along the spectrum of polarity but many

516

00:18:55,490 --> 00:18:52,559

people call them spirits or demons

517

00:18:57,139 --> 00:18:55,500

others extraterrestrials or aliens but

518

00:18:59,330 --> 00:18:57,149

in one of your presentations you make a

519

00:19:02,120 --> 00:18:59,340

comment that they accidentally got stuck

520

00:19:04,520 --> 00:19:02,130

here or that at least one group of them

521

00:19:07,490 --> 00:19:04,530

is multi-dimensional in nature and

522

00:19:09,740 --> 00:19:07,500

somehow got stuck or somehow penetrated

523

00:19:12,830 --> 00:19:09,750

our lair and if that's true it does a

524

00:19:14,720 --> 00:19:12,840

great deal to rectify those two camps I

525

00:19:16,789 --> 00:19:14,730

guess can you flesh that out a bit more

526

00:19:18,900 --> 00:19:16,799

for us before we get into the bigger

527

00:19:21,000 --> 00:19:18,910

story of the day

528

00:19:22,290 --> 00:19:21,010

okay I'll go for what I think you all

529

00:19:24,360 --> 00:19:22,300

about with the beings that got stuck

530

00:19:26,970 --> 00:19:24,370

here but I'll just say with regards

531

00:19:28,830 --> 00:19:26,980

sectionals and with Lister Asia it could

532

00:19:31,770 --> 00:19:28,840

be a simple I've been person that's

533

00:19:34,500 --> 00:19:31,780

being to seances now this why I've

534

00:19:35,940 --> 00:19:34,510

chosen you to come and chat to because

535

00:19:38,550 --> 00:19:35,950

you're open-minded with these things

536

00:19:40,800 --> 00:19:38,560

well I'm a person that's into the expose

537

00:19:43,410 --> 00:19:40,810

its et content issue and yet I've also

538

00:19:46,070 --> 00:19:43,420

my god people who know me will now

539

00:19:48,570 --> 00:19:46,080

shrink in the UK that I'm also been to

540

00:19:51,600 --> 00:19:48,580

seances but organized by groups that

541

00:19:53,970 --> 00:19:51,610

have lasted 40 or 50 years objects have

542

00:19:55,770 --> 00:19:53,980

been lifted keyboards lifted in front of

543

00:19:58,260 --> 00:19:55,780

me and played its unit with no strings

544

00:20:00,270 --> 00:19:58,270

around photos taken I can prove that's a

545

00:20:02,310 --> 00:20:00,280

different issue so these two areas are

546

00:20:05,370 --> 00:20:02,320

intersecting and so what I say when you

547

00:20:08,190 --> 00:20:05,380

mention this fascia is it ETS or spirits

548

00:20:10,620 --> 00:20:08,200

what she's doing and Chris has the siren

549

00:20:12,780 --> 00:20:10,630

we said right she's owned ourselves up

550

00:20:14,370 --> 00:20:12,790

the music that I think it's a husband

551
00:20:16,830 --> 00:20:14,380
plays I don't know they fell out like

552
00:20:18,870 --> 00:20:16,840
that the husband plays when he hears it

553
00:20:21,030 --> 00:20:18,880
she has got the ability and a few

554
00:20:22,830 --> 00:20:21,040
singers and the pop world got the

555
00:20:25,050 --> 00:20:22,840
ability to do this it's like meditation

556
00:20:27,390 --> 00:20:25,060
how many of us can meditate first time

557
00:20:29,940 --> 00:20:27,400
go to a yoga class very few I mean it's

558
00:20:31,950 --> 00:20:29,950
a technique to empty your mind liz has

559
00:20:34,380 --> 00:20:31,960
the ability to do this and she channels

560
00:20:36,660 --> 00:20:34,390
this knowledge that comes to in a

561
00:20:38,460 --> 00:20:36,670
frequency and I always see in America

562
00:20:40,080 --> 00:20:38,470
when we hear about your churches or your

563
00:20:41,340 --> 00:20:40,090

fundamentalist churches I'm trying to

564

00:20:43,320 --> 00:20:41,350

get things sort of go to it here with

565

00:20:45,540 --> 00:20:43,330

the whole idea of the way other people

566

00:20:47,010 --> 00:20:45,550

see the us which is important at the

567

00:20:49,590 --> 00:20:47,020

moment with trumpet things but when we

568

00:20:51,030 --> 00:20:49,600

sing Baptist churches we think of your

569

00:20:53,160 --> 00:20:51,040

preachers madly go around touching

570

00:20:55,530 --> 00:20:53,170

people and then talking in tongues well

571

00:20:56,760 --> 00:20:55,540

all this phrase is doing is instead of

572

00:20:58,860 --> 00:20:56,770

going to a Baptist Church

573

00:21:01,080 --> 00:20:58,870

she's allowing that talking in tongues

574

00:21:03,630 --> 00:21:01,090

that's not perhaps forced or faked in a

575

00:21:05,730 --> 00:21:03,640

way that some may be in Baptist churches

576

00:21:07,530 --> 00:21:05,740

in the US and over here but she allows

577

00:21:10,080 --> 00:21:07,540

that siren as crystals it to come

578

00:21:11,910 --> 00:21:10,090

through and that babble I dare anyone to

579

00:21:14,250 --> 00:21:11,920

call it babble it's a beautiful sound so

580

00:21:16,830 --> 00:21:14,260

I think she is channeling higher self

581

00:21:18,270 --> 00:21:16,840

and news I think he's right in that so I

582

00:21:20,730 --> 00:21:18,280

don't know whether it's deities there

583

00:21:22,770 --> 00:21:20,740

but with her I'd leave it that simple

584

00:21:26,190 --> 00:21:22,780

one thing I say with this is this

585

00:21:29,340 --> 00:21:26,200

situation with ETS it's doing the exit

586

00:21:30,990 --> 00:21:29,350

politics thing in 2002 onwards for 20

587

00:21:32,610 --> 00:21:31,000

years I run a site and people were

588

00:21:34,470 --> 00:21:32,620

saying we'll are the extraterrestrials

589

00:21:37,380 --> 00:21:34,480

are the extradimensional and I was going

590

00:21:39,030 --> 00:21:37,390

essentially when monkeys in suits that's

591

00:21:40,560 --> 00:21:39,040

what most of us are you get the train in

592

00:21:43,290 --> 00:21:40,570

the morning go to work whether in New

593

00:21:45,390 --> 00:21:43,300

York or in London we're monkeys in suits

594

00:21:47,490 --> 00:21:45,400

we cannot answer questions of the cosmos

595

00:21:50,220 --> 00:21:47,500

whether in this case so isn't this

596

00:21:52,110 --> 00:21:50,230

Fraser in touch with ETS or is it that

597

00:21:53,850 --> 00:21:52,120

she's simply tapping into some sort of

598

00:21:56,010 --> 00:21:53,860

higher form of herself the latter which

599

00:21:58,710 --> 00:21:56,020

I go for but the point is the same with

600

00:22:00,660 --> 00:21:58,720

the Exopolitics versus the whole ETH

601
00:22:03,299 --> 00:22:00,670
versus extra-dimensional I agree with

602
00:22:06,030 --> 00:22:03,309
Steve Bassett we are not in a position

603
00:22:08,549 --> 00:22:06,040
to answer those sort of questions so why

604
00:22:10,919 --> 00:22:08,559
should we we don't need to it's like a

605
00:22:13,500 --> 00:22:10,929
point scoring case so let's leave those

606
00:22:15,570 --> 00:22:13,510
questions until for once we invite these

607
00:22:17,640 --> 00:22:15,580
people down these creatures these

608
00:22:20,310 --> 00:22:17,650
intelligences this Federation is most

609
00:22:22,169 --> 00:22:20,320
definitely in contact with us and I have

610
00:22:24,450 --> 00:22:22,179
proof a VAT which people all be laughing

611
00:22:26,190 --> 00:22:24,460
at but come out with me for a night and

612
00:22:28,710 --> 00:22:26,200
England's out through about a society

613
00:22:31,080 --> 00:22:28,720

shoe so you're getting to the stage

614

00:22:33,990 --> 00:22:31,090

where instead of thinking about these

615

00:22:36,150 --> 00:22:34,000

creatures as one form or another then I

616

00:22:37,919 --> 00:22:36,160

think if we steer onto now what we're

617

00:22:40,230 --> 00:22:37,929

going to talk about the old case well

618

00:22:43,560 --> 00:22:40,240

you can merge in his eighties which were

619

00:22:45,900 --> 00:22:43,570

strange enough the blue eighties that he

620

00:22:48,150 --> 00:22:45,910

called them now he wrote a contact book

621

00:22:50,490 --> 00:22:48,160

called coevolution and essentially what

622

00:22:52,650 --> 00:22:50,500

happened is that his whole life

623

00:22:55,080 --> 00:22:52,660

rearranged so that he could be picked up

624

00:22:57,900 --> 00:22:55,090

for ten days with his car in New Zealand

625

00:23:00,570 --> 00:22:57,910

and he wrote a book on this afterwards

626

00:23:02,340 --> 00:23:00,580

and his manager dissolved he left his

627

00:23:04,410 --> 00:23:02,350

family behind and he happened to take

628

00:23:06,270 --> 00:23:04,420

the only ruse that would take him two or

629

00:23:08,549 --> 00:23:06,280

three hours using it's not a huge

630

00:23:11,160 --> 00:23:08,559

country allowed not only him but his

631

00:23:12,750 --> 00:23:11,170

card and he picked up and you're right

632

00:23:15,299 --> 00:23:12,760

when he was picked up and then take it

633

00:23:17,040 --> 00:23:15,309

on board and given up a new body to then

634

00:23:18,750 --> 00:23:17,050

walk around it and be told various

635

00:23:20,460 --> 00:23:18,760

things which I start going off onto this

636

00:23:23,220 --> 00:23:20,470

stuff we're gonna be three hours but

637

00:23:26,160 --> 00:23:23,230

essentially you're right what he said is

638

00:23:28,230 --> 00:23:26,170

that unlike the Roswell let's just take

639

00:23:28,620 --> 00:23:28,240

the u.s. your country annoys me I'll say

640

00:23:31,140 --> 00:23:28,630

out loud

641

00:23:33,090 --> 00:23:31,150

you push Roswell on the rest of the

642

00:23:35,070 --> 00:23:33,100

world so I don't saying you what one

643

00:23:36,450 --> 00:23:35,080

thing is Stanton Friedman though

644

00:23:38,790 --> 00:23:36,460

ufologist that I've known about for

645

00:23:40,560 --> 00:23:38,800

years they push Roswell on us and it's

646

00:23:43,140 --> 00:23:40,570

great but I'm pretty sure that those

647

00:23:46,049 --> 00:23:43,150

beings were hidden in earth on cabins

648

00:23:48,930 --> 00:23:46,059

incomes for ages read Anthony Sanchez

649

00:23:52,289 --> 00:23:48,940

UFL highway is an incredible account so

650

00:23:55,049 --> 00:23:52,299

sanity's aren't from outside here

651
00:23:57,389 --> 00:23:55,059
whatever extraterrestrial means so the

652
00:23:59,070 --> 00:23:57,399
Roswell lot happened to fly around why

653
00:24:01,830 --> 00:23:59,080
would they have his live sources they

654
00:24:03,930 --> 00:24:01,840
had plane shaped the actual Roswell

655
00:24:06,299 --> 00:24:03,940
think was a plane shaped crafting

656
00:24:08,969 --> 00:24:06,309
actually looks like a jet from the

657
00:24:11,070 --> 00:24:08,979
container I I'm the truth if you finds

658
00:24:13,229 --> 00:24:11,080
one the artist that knows about this is

659
00:24:14,969 --> 00:24:13,239
that it was shaped like that so no not

660
00:24:17,999 --> 00:24:14,979
sort of soon not all of them are like

661
00:24:21,539 --> 00:24:18,009
that however Alex Bluth was mixed with

662
00:24:23,129 --> 00:24:21,549
elders robots I don't think it's a Yeti

663
00:24:25,259 --> 00:24:23,139

there but I've met someone that had a

664

00:24:26,849 --> 00:24:25,269

Yeti on board this was a huge craft that

665

00:24:29,219 --> 00:24:26,859

he went up in but you're right

666

00:24:31,259 --> 00:24:29,229

essentially they picked him up and they

667

00:24:33,839 --> 00:24:31,269

but he said we did something wrong

668

00:24:36,060 --> 00:24:33,849

trying to move it to write on it and now

669

00:24:38,369 --> 00:24:36,070

we can have to re-engage the time line

670

00:24:39,989 --> 00:24:38,379

on earth through various means which

671

00:24:41,669 --> 00:24:39,999

gets us onto the black goo I'm

672

00:24:43,769 --> 00:24:41,679

mentioning that term to make people sit

673

00:24:46,799 --> 00:24:43,779

up which I formerly called the sentient

674

00:24:48,539 --> 00:24:46,809

nano a substance the first interview I

675

00:24:50,669 --> 00:24:48,549

did which I've sent you the links to and

676
00:24:53,539 --> 00:24:50,679
I hope you can publish with the most of

677
00:24:56,729 --> 00:24:53,549
this and so Alec says she went and got a

678
00:24:58,769 --> 00:24:56,739
10-day not only tour around their planet

679
00:25:00,779 --> 00:24:58,779
and they're amazing spaceship when you

680
00:25:02,579 --> 00:25:00,789
read his first two editions but

681
00:25:05,039 --> 00:25:02,589
basically they said yeah we're sorry in

682
00:25:08,269 --> 00:25:05,049
our experiment to enter light bodies we

683
00:25:11,399 --> 00:25:08,279
basically merged with your solar system

684
00:25:13,680 --> 00:25:11,409
you'll raise and so what's coming is

685
00:25:15,209 --> 00:25:13,690
something that you're not expecting also

686
00:25:16,979 --> 00:25:15,219
this is partially your fault and of

687
00:25:18,599 --> 00:25:16,989
course it is this is to do with shooting

688
00:25:21,180 --> 00:25:18,609

down craft at Roswell shooting down

689

00:25:24,719 --> 00:25:21,190

crafts instead sending fighters up in

690

00:25:25,379 --> 00:25:24,729

1952 on purpose to shoot down craft we'd

691

00:25:28,589 --> 00:25:25,389

Frank

692

00:25:29,879 --> 00:25:28,599

Moschino book based on the 1952 press

693

00:25:31,589 --> 00:25:29,889

cuttings where he found that the

694

00:25:32,459 --> 00:25:31,599

military said shoot them down and that's

695

00:25:34,680 --> 00:25:32,469

the title of this book

696

00:25:36,329 --> 00:25:34,690

we sent fighters have to shoot down so

697

00:25:38,070 --> 00:25:36,339

these crafts come down because we've let

698

00:25:39,839 --> 00:25:38,080

nuclear bombs off everyone who listen to

699

00:25:41,759 --> 00:25:39,849

your show I don't need to be pasteurized

700

00:25:44,129 --> 00:25:41,769

they all know that this is the reason in

701

00:25:46,349 --> 00:25:44,139

47 they came down and they basically

702

00:25:47,999 --> 00:25:46,359

warned us you know there's Minot Air

703

00:25:49,829 --> 00:25:48,009

Base you're their air bases where they

704

00:25:51,509 --> 00:25:49,839

said stop letting off nuclear bombs so

705

00:25:53,339 --> 00:25:51,519

we have that whole that's why they came

706

00:25:55,739 --> 00:25:53,349

down the reason they tried to help out

707

00:25:59,049 --> 00:25:55,749

we refused that help and my view is

708

00:26:01,629 --> 00:25:59,059

because Eisenhower under pressure

709

00:26:02,799 --> 00:26:01,639

the military-industrial complex we shall

710

00:26:05,169 --> 00:26:02,809

know is quote from as with your

711

00:26:06,430 --> 00:26:05,179

listeners is that because we refuse that

712

00:26:08,379 --> 00:26:06,440

help when they said we can give you

713

00:26:10,299 --> 00:26:08,389

technology both to clean up your world

714

00:26:12,580 --> 00:26:10,309

you don't need a nuclear power we can

715

00:26:14,710 --> 00:26:12,590

end poverty and help you on your way to

716

00:26:16,389 --> 00:26:14,720

the Stars which as a kid I've always

717

00:26:18,430 --> 00:26:16,399

wanted I don't want to be on this planet

718

00:26:20,409 --> 00:26:18,440

I don't feel oh here and I met many of

719

00:26:22,090 --> 00:26:20,419

us that don't want to be on this planet

720

00:26:24,399 --> 00:26:22,100

it's a beautiful planet but it's being

721

00:26:26,440 --> 00:26:24,409

screwed up because of that eyes now and

722

00:26:28,659 --> 00:26:26,450

the pressure to turn it down and let's

723

00:26:30,820 --> 00:26:28,669

just get away from linear progressive

724

00:26:32,590 --> 00:26:30,830

reasons instead of this idea that's

725

00:26:34,149 --> 00:26:32,600

right we're being punished because eyes

726

00:26:35,919 --> 00:26:34,159

now have turned down his offer of free

727

00:26:37,539 --> 00:26:35,929

energy and the into property and the

728

00:26:40,090 --> 00:26:37,549

move towards the Stars which we were

729

00:26:42,430 --> 00:26:40,100

June 4 in the 20s or before when Tesla

730

00:26:44,080 --> 00:26:42,440

was around essentially what happens the

731

00:26:46,810 --> 00:26:44,090

military forced him to turn it down

732

00:26:49,330 --> 00:26:46,820

hence his two speeches that you'll know

733

00:26:51,519 --> 00:26:49,340

about that he ended his terms with and

734

00:26:54,970 --> 00:26:51,529

that what happened was that as a result

735

00:26:57,580 --> 00:26:54,980

of this these blue-gray ETS having their

736

00:27:00,070 --> 00:26:57,590

classic grade luigi's were on a strange

737

00:27:02,529 --> 00:27:00,080

rocky island called southern food near

738

00:27:05,440 --> 00:27:02,539

Argentina that basically they were

739

00:27:07,539 --> 00:27:05,450

trying to DN janilla and nano substance

740

00:27:09,850 --> 00:27:07,549

and lo behold how could now come about

741

00:27:11,739 --> 00:27:09,860

for the nineteen fifties sixties

742

00:27:14,200 --> 00:27:11,749

seventies they couldn't because nano

743

00:27:16,690 --> 00:27:14,210

offer believed in our heads but lo and

744

00:27:19,690 --> 00:27:16,700

hold in the ages it sort was when was

745

00:27:21,430 --> 00:27:19,700

the Falklands War in the 1980s so what

746

00:27:22,930 --> 00:27:21,440

I'll leave you I'll let you come back to

747

00:27:24,340 --> 00:27:22,940

me with the quotes that yes they came

748

00:27:26,859 --> 00:27:24,350

and said there's about to be a division

749

00:27:29,529 --> 00:27:26,869

the two universities asked to a mistake

750

00:27:32,680 --> 00:27:29,539

but also yours to your mistake we as

751
00:27:34,419 --> 00:27:32,690
humans must also go with flawed not just

752
00:27:36,100 --> 00:27:34,429
Eisenhower on his military but you know

753
00:27:38,649 --> 00:27:36,110
we vote these people that we vote Trump

754
00:27:40,779 --> 00:27:38,659
in we vote Hillary pedophile Clinton in

755
00:27:43,359 --> 00:27:40,789
it so we could also take personal

756
00:27:46,330 --> 00:27:43,369
responsibility for these situations so

757
00:27:48,279 --> 00:27:46,340
they said to him listen to this from

758
00:27:50,169 --> 00:27:48,289
World War one but I believe he made it

759
00:27:52,419 --> 00:27:50,179
before they had an agreement with

760
00:27:55,330 --> 00:27:52,429
Argentina this is where this base is

761
00:27:58,330 --> 00:27:55,340
done some fall near Antarctica they said

762
00:28:01,119 --> 00:27:58,340
we're trying to quote D engineer and

763
00:28:04,149 --> 00:28:01,129

nano subs as soon to be activated by

764

00:28:05,830 --> 00:28:04,159

signals from space and undersea and one

765

00:28:07,359 --> 00:28:05,840

in the Great Wall of China which we

766

00:28:09,940 --> 00:28:07,369

haven't discussed before which has been

767

00:28:12,100 --> 00:28:09,950

proven that since essentially a signal

768

00:28:14,440 --> 00:28:12,110

is going out to activate this now

769

00:28:16,750 --> 00:28:14,450

Alec was told the writer of couette

770

00:28:19,930 --> 00:28:16,760

evolution that how clever think of this

771

00:28:22,090 --> 00:28:19,940

in a sci-fi sort of way that this black

772

00:28:24,490 --> 00:28:22,100

goo something that I called the sentient

773

00:28:26,740 --> 00:28:24,500

nano substance before the interview that

774

00:28:29,200 --> 00:28:26,750

changes the black goo but essentially it

775

00:28:31,270 --> 00:28:29,210

was left there by previous go see the

776
00:28:33,190 --> 00:28:31,280
movie Prometheus that surprisingly came

777
00:28:35,620 --> 00:28:33,200
out what you're after this whole

778
00:28:38,530 --> 00:28:35,630
description of black goo that's an alien

779
00:28:40,539 --> 00:28:38,540
race before them had left this on the

780
00:28:42,760 --> 00:28:40,549
planet that should they get kicked off

781
00:28:44,560 --> 00:28:42,770
the place ie they come and say we want

782
00:28:46,600 --> 00:28:44,570
earth and another group that's down here

783
00:28:48,760 --> 00:28:46,610
and ego or a federation don't know you

784
00:28:51,100 --> 00:28:48,770
have no right we have humans growing you

785
00:28:53,289 --> 00:28:51,110
or yet is growing here or towards

786
00:28:55,750 --> 00:28:53,299
whatever it is and they go right alright

787
00:28:59,080 --> 00:28:55,760
with off but as they leave they plant a

788
00:29:01,630 --> 00:28:59,090

high-tech biological nano weapon deep in

789

00:29:04,000 --> 00:29:01,640

the seabed in very cold conditions and

790

00:29:04,360 --> 00:29:04,010

they leave and as they lead to go right

791

00:29:06,010 --> 00:29:04,370

goodbye

792

00:29:08,440 --> 00:29:06,020

and they're saying bye yet not going to

793

00:29:11,560 --> 00:29:08,450

take part is over but they then press a

794

00:29:14,380 --> 00:29:11,570

button send a signal and it starts off a

795

00:29:16,630 --> 00:29:14,390

terraforming of this plummet and this is

796

00:29:19,419 --> 00:29:16,640

what is told race to the Gulf of Mexico

797

00:29:20,740 --> 00:29:19,429

and several other things right right so

798

00:29:22,930 --> 00:29:20,750

I'll let you come back on that on where

799

00:29:25,600 --> 00:29:22,940

you want to steer me to after that sure

800

00:29:28,060 --> 00:29:25,610

man I mean this is really the meat of it

801
00:29:30,070 --> 00:29:28,070
and you told us a little bit about Alec

802
00:29:31,990 --> 00:29:30,080
and his story it's pretty fascinating

803
00:29:35,260 --> 00:29:32,000
and it overlaps quite a bit with this

804
00:29:37,360 --> 00:29:35,270
Falklands War saga and I like to make

805
00:29:39,220 --> 00:29:37,370
sure the audience has the context they

806
00:29:42,909 --> 00:29:39,230
need so for people who aren't familiar

807
00:29:44,770 --> 00:29:42,919
with the Falklands War it was a short 72

808
00:29:47,919 --> 00:29:44,780
day conflict between the UK and

809
00:29:50,169 --> 00:29:47,929
Argentina in 1982 it started when

810
00:29:52,390 --> 00:29:50,179
Argentina invaded and occupied the

811
00:29:54,850 --> 00:29:52,400
Falkland Islands which are right off

812
00:29:57,820 --> 00:29:54,860
their coast but had been claimed as

813
00:29:59,799 --> 00:29:57,830

British colonies since the 1940s and it

814

00:30:02,230 --> 00:29:59,809

was a curious thing like why rock the

815

00:30:04,330 --> 00:30:02,240

boat like this why invade these islands

816

00:30:05,530 --> 00:30:04,340

just to start some you know the UK

817

00:30:08,289 --> 00:30:05,540

isn't going to just let it go

818

00:30:10,539 --> 00:30:08,299

so the whole conflict seems to be

819

00:30:13,299 --> 00:30:10,549

lacking a motivation if you asked me and

820

00:30:15,640 --> 00:30:13,309

that's because behind the curtain this

821

00:30:18,400 --> 00:30:15,650

whole conflict was more about this alien

822

00:30:20,290 --> 00:30:18,410

base located on one of those islands one

823

00:30:23,500 --> 00:30:20,300

that's actually called Thule Island as

824

00:30:25,590 --> 00:30:23,510

you mentioned funny enough and of course

825

00:30:28,710 --> 00:30:25,600

the reverse engineering of this

826

00:30:30,390 --> 00:30:28,720

black goo nano substance and you can

827

00:30:32,340 --> 00:30:30,400

take it from there if you feel like that

828

00:30:34,860 --> 00:30:32,350

overview is pretty accurate for the

829

00:30:36,510 --> 00:30:34,870

Falklands War yeah okay I'll tell you

830

00:30:39,690 --> 00:30:36,520

what I'll do it a bit of a person while

831

00:30:42,690 --> 00:30:39,700

say that people may adapt Leon this is

832

00:30:44,850 --> 00:30:42,700

mister of tools that both I myself do on

833

00:30:47,460 --> 00:30:44,860

Allen Newell to stun this a guy that

834

00:30:50,310 --> 00:30:47,470

I've known a guy that I treasure for his

835

00:30:52,380 --> 00:30:50,320

honesty the guy is a car salesman an

836

00:30:54,450 --> 00:30:52,390

engineer love doing rally cars in New

837

00:30:56,340 --> 00:30:54,460

Zealand you know typical Kiwi sort of

838

00:30:58,350 --> 00:30:56,350

guy very mellow I mean that country's a

839

00:31:00,450 --> 00:30:58,360

whole different case and I don't know

840

00:31:02,820 --> 00:31:00,460

you know listeners may know that people

841

00:31:05,070 --> 00:31:02,830

by James Cameron and others are

842

00:31:07,470 --> 00:31:05,080

currently flying oh they're Alec yield

843

00:31:10,680 --> 00:31:07,480

himself the precious sailors but he sold

844

00:31:12,899 --> 00:31:10,690

a property to a Russian oligarch but

845

00:31:14,549 --> 00:31:12,909

very well-to-do Russian and sold it well

846

00:31:16,320 --> 00:31:14,559

above its asking price and probably

847

00:31:19,380 --> 00:31:16,330

slightly for saying that metaphorically

848

00:31:21,210 --> 00:31:19,390

but New Zealand is the place to go and I

849

00:31:23,850 --> 00:31:21,220

could go into how certain maps of the

850

00:31:25,950 --> 00:31:23,860

future that are done by there's two very

851
00:31:27,539 --> 00:31:25,960
famous people who find show that New

852
00:31:30,480 --> 00:31:27,549
Zealand is one of the few places that

853
00:31:32,789 --> 00:31:30,490
rises the rest of these San Francisco

854
00:31:34,799 --> 00:31:32,799
goes parts of England go up to where I'm

855
00:31:36,960 --> 00:31:34,809
living very strangely the Peak District

856
00:31:39,360 --> 00:31:36,970
but the point I want to make is for nine

857
00:31:41,340 --> 00:31:39,370
years because Alec wouldn't tell his

858
00:31:43,320 --> 00:31:41,350
story they knew something it happened

859
00:31:45,299 --> 00:31:43,330
because of his car which Greg is gonna

860
00:31:49,409 --> 00:31:45,309
take too long to go into well give them

861
00:31:51,090 --> 00:31:49,419
some context for the car ok context and

862
00:31:53,580 --> 00:31:51,100
a few words I'll tell you how weird it

863
00:31:54,600 --> 00:31:53,590

gets you Yanks know well the first with

864

00:31:56,370 --> 00:31:54,610

all this technology

865

00:31:57,750 --> 00:31:56,380

apart from probably China but energy

866

00:32:00,299 --> 00:31:57,760

management systems perhaps in the

867

00:32:02,730 --> 00:32:00,309

eighties ok so you get the first energy

868

00:32:04,590 --> 00:32:02,740

management systems in a Jaguar very

869

00:32:06,180 --> 00:32:04,600

simple you think I don't know Greg how

870

00:32:08,159 --> 00:32:06,190

much to know about cars but you'd

871

00:32:10,470 --> 00:32:08,169

imagine in 1982 I don't know much for

872

00:32:12,510 --> 00:32:10,480

you think fairly simple but they were

873

00:32:14,100 --> 00:32:12,520

expecting to put Alec back on this

874

00:32:16,380 --> 00:32:14,110

planet they thought he'd naturally come

875

00:32:18,779 --> 00:32:16,390

with them because he done his job down

876

00:32:20,399 --> 00:32:18,789

it he said no I want to see what happens

877

00:32:22,020 --> 00:32:20,409

to the earth so they put him back down

878

00:32:23,909 --> 00:32:22,030

but they weren't expecting it for how to

879

00:32:26,010 --> 00:32:23,919

come back this is interesting that's a

880

00:32:27,419 --> 00:32:26,020

time their ship entering our atmosphere

881

00:32:30,180 --> 00:32:27,429

the scoutship

882

00:32:32,010 --> 00:32:30,190

at a certain point so it's all timing

883

00:32:34,680 --> 00:32:32,020

you know this is interesting it has

884

00:32:37,409 --> 00:32:34,690

authenticity to contact accounts and

885

00:32:38,909 --> 00:32:37,419

take me on any contact account once I

886

00:32:39,370 --> 00:32:38,919

think will offend it because people say

887

00:32:41,530 --> 00:32:39,380

well

888

00:32:43,330 --> 00:32:41,540

one's word no the very fact that people

889

00:32:45,640 --> 00:32:43,340

add in things like they had to change

890

00:32:47,350 --> 00:32:45,650

the whole agenda come via another planet

891

00:32:49,360 --> 00:32:47,360

drop off someone else where and then

892

00:32:51,880 --> 00:32:49,370

come in at a certain time to drop him

893

00:32:54,550 --> 00:32:51,890

back off in New Zealand in ten days time

894

00:32:56,440 --> 00:32:54,560

when they weren't expected to a aliens

895

00:32:58,810 --> 00:32:56,450

aren't perfect I don't know the future

896

00:33:00,790 --> 00:32:58,820

but also they had to rearrange things

897

00:33:01,810 --> 00:33:00,800

and drop him off but as part of this

898

00:33:04,360 --> 00:33:01,820

rearrangement

899

00:33:05,980 --> 00:33:04,370

they dropped his Mercedes off use a car

900

00:33:07,540 --> 00:33:05,990

salesman and he'd written is Mercedes

901
00:33:09,700 --> 00:33:07,550
after splitting up this family the first

902
00:33:11,770 --> 00:33:09,710
time he would not be missed for ten days

903
00:33:14,110 --> 00:33:11,780
or two weeks get that into your head

904
00:33:15,490 --> 00:33:14,120
right so whilst a chance for et's to

905
00:33:17,170 --> 00:33:15,500
come and pick you up for the first time

906
00:33:19,840 --> 00:33:17,180
your family would miss you and they know

907
00:33:21,670 --> 00:33:19,850
he's left his wife and children and was

908
00:33:23,320 --> 00:33:21,680
moving to the country I don't know the

909
00:33:25,720 --> 00:33:23,330
background is too sensitive it's not my

910
00:33:28,000 --> 00:33:25,730
place to ask him that and anyway the ETS

911
00:33:30,580 --> 00:33:28,010
picked him up on this one chance and put

912
00:33:32,440 --> 00:33:30,590
him back down but what happens then his

913
00:33:34,780 --> 00:33:32,450

car is electrostatically charged

914

00:33:37,150 --> 00:33:34,790

something picks up on satellite right he

915

00:33:39,610 --> 00:33:37,160

takes into a garage the garage reports

916

00:33:41,830 --> 00:33:39,620

it to Jaguar in Great Britain hence me

917

00:33:44,320 --> 00:33:41,840

coming in with stuff and the first

918

00:33:47,230 --> 00:33:44,330

engine management system of Jaguar they

919

00:33:50,050 --> 00:33:47,240

send over to people from Jaguar to New

920

00:33:53,680 --> 00:33:50,060

Zealand and also to people if you want

921

00:33:55,870 --> 00:33:53,690

to go look this up our i l a RIA

922

00:33:57,760 --> 00:33:55,880

go look that up is the will institution

923

00:33:59,740 --> 00:33:57,770

for international affairs very hidden

924

00:34:02,440 --> 00:33:59,750

but don't look up you'll see Reagan

925

00:34:04,210 --> 00:34:02,450

Thatcher and the Queen this is a higher

926

00:34:07,030 --> 00:34:04,220

ranking whether it still exists a lot I

927

00:34:09,970 --> 00:34:07,040

don't know so two people visiting from

928

00:34:11,350 --> 00:34:09,980

RIA the real issue for International

929

00:34:13,060 --> 00:34:11,360

Affairs I just want to prove to people

930

00:34:15,730 --> 00:34:13,070

are not sucked it'll be in contact

931

00:34:17,500 --> 00:34:15,740

no it's not I think so go and

932

00:34:20,020 --> 00:34:17,510

check that up these images out there on

933

00:34:21,580 --> 00:34:20,030

Mars and secondly what's happened in the

934

00:34:24,369 --> 00:34:21,590

rush to put it back they'd put his car

935

00:34:27,190 --> 00:34:24,379

back they put him back but the engine

936

00:34:29,470 --> 00:34:27,200

management system on the early ones has

937

00:34:31,750 --> 00:34:29,480

reverses become a mirror image they

938

00:34:33,970 --> 00:34:31,760

up the aliens have ended up

939

00:34:36,520 --> 00:34:33,980

putting the early circuit board back

940

00:34:38,680 --> 00:34:36,530

into his car I eat they picked up with

941

00:34:40,180 --> 00:34:38,690

him and his car which happens that have

942

00:34:41,830 --> 00:34:40,190

been a Barney Hill but it's up near some

943

00:34:44,200 --> 00:34:41,840

cases you know y'all picked up with the

944

00:34:46,600 --> 00:34:44,210

car usually not so they put in back down

945

00:34:47,200 --> 00:34:46,610

for in the rush or I think wants you to

946

00:34:48,820 --> 00:34:47,210

a blip

947

00:34:51,040 --> 00:34:48,830

because they would expect him to put in

948

00:34:52,560 --> 00:34:51,050

back down so something went wrong a

949

00:34:55,540 --> 00:34:52,570

mirror image this

950

00:34:57,700 --> 00:34:55,550

the first engine management systems you

951
00:34:59,530 --> 00:34:57,710
know before we all have just shift stick

952
00:35:01,870 --> 00:34:59,540
gears on your by steering wheel we have

953
00:35:04,810 --> 00:35:01,880
the drive non automatic solving and

954
00:35:06,670 --> 00:35:04,820
again it has one of the first Jack Ullis

955
00:35:08,410 --> 00:35:06,680
with this circuit board that allows the

956
00:35:10,120 --> 00:35:08,420
engine to sort of monitor itself and

957
00:35:12,430 --> 00:35:10,130
maintain a fuel all the basic abilities

958
00:35:14,620 --> 00:35:12,440
of and jocular get this back and they go

959
00:35:16,210 --> 00:35:14,630
no way there's no way this can be

960
00:35:18,280 --> 00:35:16,220
produced we don't use it like this but

961
00:35:20,800 --> 00:35:18,290
also it's too perfect in this mirror

962
00:35:22,750 --> 00:35:20,810
image it's not just been sold about

963
00:35:24,970 --> 00:35:22,760

together by human being this is a mirror

964

00:35:26,859 --> 00:35:24,980

image so they send two people over who

965

00:35:28,420 --> 00:35:26,869

also turn up with people from the

966

00:35:31,000 --> 00:35:28,430

organization I'm not going to mention

967

00:35:33,310 --> 00:35:31,010

again that turn up then and as along

968

00:35:34,870 --> 00:35:33,320

soon as they question Alec and he

969

00:35:36,400 --> 00:35:34,880

refuses to say anything mostly because

970

00:35:38,109 --> 00:35:36,410

he doesn't know a lot so it comes back

971

00:35:39,640 --> 00:35:38,119

gradually hours and those of capti

972

00:35:41,349 --> 00:35:39,650

accounts to it comes back grunts early

973

00:35:43,599 --> 00:35:41,359

to him but he knew some it got on

974

00:35:45,130 --> 00:35:43,609

several reasons that I won't go into but

975

00:35:46,859 --> 00:35:45,140

what happens if they keep coming out

976
00:35:48,910 --> 00:35:46,869
finger what happens why is your car got

977
00:35:50,890 --> 00:35:48,920
electrostatic did you get hit by

978
00:35:53,770 --> 00:35:50,900
thunderstorm why is this circuit board a

979
00:35:55,570 --> 00:35:53,780
merit and what they do within about six

980
00:35:59,230 --> 00:35:55,580
months he ends up being done at for

981
00:36:01,599 --> 00:35:59,240
selling it was a second car so he ends

982
00:36:04,390 --> 00:36:01,609
up being done for some law in New

983
00:36:06,460 --> 00:36:04,400
Zealand where ultimately they do a fraud

984
00:36:09,220 --> 00:36:06,470
all a totally made-up chased and he

985
00:36:10,450 --> 00:36:09,230
doesn't nine guy bless him I mean when

986
00:36:12,400 --> 00:36:10,460
you meet and you know what I mean when I

987
00:36:14,740 --> 00:36:12,410
say blessing because he's like a lamb I

988
00:36:16,810 --> 00:36:14,750

mean he's a good strong guy but you know

989

00:36:19,839 --> 00:36:16,820

he wouldn't hurt anyone so to get nine

990

00:36:21,460 --> 00:36:19,849

years for simply having being a second

991

00:36:23,859 --> 00:36:21,470

time car salesman something wrong in

992

00:36:25,630 --> 00:36:23,869

their books smells a bit at BS to me and

993

00:36:27,220 --> 00:36:25,640

so what most people early he does nine

994

00:36:30,730 --> 00:36:27,230

years in jail but it's not because of

995

00:36:32,500 --> 00:36:30,740

his cars they know that he's had contact

996

00:36:35,170 --> 00:36:32,510

they keep hinting at it if you read the

997

00:36:37,630 --> 00:36:35,180

book so he ends up to nine years in a

998

00:36:39,520 --> 00:36:37,640

jail in New Zealand now what annoys me

999

00:36:41,710 --> 00:36:39,530

with its black goo thing as lots of

1000

00:36:43,900 --> 00:36:41,720

people have said since I talk about the

1001
00:36:45,490 --> 00:36:43,910
black goo yes we know as a mission to

1002
00:36:46,810 --> 00:36:45,500
you Greg in our creature we know that

1003
00:36:48,940 --> 00:36:46,820
the black goo has been mentioned in the

1004
00:36:51,099 --> 00:36:48,950
blob I sent you an x-files thing that's

1005
00:36:54,520 --> 00:36:51,109
the most recent prometheus even before

1006
00:36:56,349 --> 00:36:54,530
that one guy from America sent me comics

1007
00:36:58,030 --> 00:36:56,359
and he said here's all the comics I

1008
00:37:00,370 --> 00:36:58,040
thought how nice of him he sent me all

1009
00:37:03,760 --> 00:37:00,380
these comics i from childhood on there I

1010
00:37:05,500 --> 00:37:03,770
spied him a 1968 where the black people

1011
00:37:06,130 --> 00:37:05,510
were all black goggles were mentioned

1012
00:37:08,170 --> 00:37:06,140
and he

1013
00:37:09,819 --> 00:37:08,180

always research like four pages so we

1014

00:37:12,940 --> 00:37:09,829

know the black bean was out there

1015

00:37:14,620 --> 00:37:12,950

already but the difference was that alec

1016

00:37:17,499 --> 00:37:14,630

was introduced to it in a different way

1017

00:37:20,380 --> 00:37:17,509

point I'm saying is that not revealing

1018

00:37:22,029 --> 00:37:20,390

about this he went to jail and did nine

1019

00:37:24,940 --> 00:37:22,039

years now for most people that came

1020

00:37:27,220 --> 00:37:24,950

after and said right well we also know

1021

00:37:28,809 --> 00:37:27,230

about black goo again a term I didn't

1022

00:37:30,489 --> 00:37:28,819

use the start if you watch the videos

1023

00:37:32,799 --> 00:37:30,499

that I first did in 2012

1024

00:37:35,109 --> 00:37:32,809

I called his sentient nano substance

1025

00:37:38,049 --> 00:37:35,119

that was a degree term like goo came

1026
00:37:40,359 --> 00:37:38,059
from gray goo from one of the majestic

1027
00:37:43,329 --> 00:37:40,369
12 first members called John von Neumann

1028
00:37:45,789 --> 00:37:43,339
and as you may know a highly educated

1029
00:37:48,249 --> 00:37:45,799
computer person who actually found that

1030
00:37:50,019 --> 00:37:48,259
gray goo whatever that was a mix or was

1031
00:37:52,450 --> 00:37:50,029
the first early forms of artificial

1032
00:37:54,130 --> 00:37:52,460
intelligence and that term then went to

1033
00:37:56,529 --> 00:37:54,140
black goo while I was sat there doing

1034
00:37:58,779 --> 00:37:56,539
this interview so yes black goo is out

1035
00:38:00,309 --> 00:37:58,789
as a term but it came from gray goo

1036
00:38:02,380 --> 00:38:00,319
while I was sat there this three day

1037
00:38:04,299 --> 00:38:02,390
into you I did in London with group

1038
00:38:07,269 --> 00:38:04,309

called a mash or basis which you can

1039

00:38:10,029 --> 00:38:07,279

find online but boy was Alan went to

1040

00:38:12,190 --> 00:38:10,039

jail for that not discussing anything to

1041

00:38:13,989 --> 00:38:12,200

do with that and he knew a lot more than

1042

00:38:16,089 --> 00:38:13,999

he say a lot more came back to me in

1043

00:38:18,789 --> 00:38:16,099

prison he wrote notes in prison but

1044

00:38:20,680 --> 00:38:18,799

essentially the ETS whom he met during

1045

00:38:22,210 --> 00:38:20,690

that 10 day voyage said a lot more

1046

00:38:24,519 --> 00:38:22,220

that's too old to go into now but

1047

00:38:26,890 --> 00:38:24,529

basically said we are de engineering in

1048

00:38:28,900 --> 00:38:26,900

this island called Southern fool but you

1049

00:38:31,690 --> 00:38:28,910

look on your globe you'll find full

1050

00:38:33,400 --> 00:38:31,700

North the Americans who might stick it

1051
00:38:35,380 --> 00:38:33,410
everywhere after the British or did the

1052
00:38:38,380 --> 00:38:35,390
British in their Imperial days there's

1053
00:38:40,569 --> 00:38:38,390
Thal in the northern hemisphere right on

1054
00:38:43,299 --> 00:38:40,579
top of the North hemisphere pole cap and

1055
00:38:45,849 --> 00:38:43,309
then we have sudden Thal just up from

1056
00:38:48,370 --> 00:38:45,859
Antarctic is part of the Falklands so of

1057
00:38:50,829 --> 00:38:48,380
course the Falklands War then started

1058
00:38:52,839 --> 00:38:50,839
but that's the background to that but my

1059
00:38:54,249 --> 00:38:52,849
take is and I'll let you come back in

1060
00:38:56,710 --> 00:38:54,259
there Greg is that the Falklands War

1061
00:38:59,769 --> 00:38:56,720
actually started in 1976 because this

1062
00:39:02,440 --> 00:38:59,779
appears to be when the Argentinians and

1063
00:39:04,450 --> 00:39:02,450

I have a friend sent you a picture will

1064

00:39:06,849 --> 00:39:04,460

move there in 76 they set up a base

1065

00:39:08,309 --> 00:39:06,859

which was a quote weather station I've

1066

00:39:11,380 --> 00:39:08,319

sent you pictures of this and

1067

00:39:12,910 --> 00:39:11,390

essentially 1976 they set that up and

1068

00:39:15,430 --> 00:39:12,920

the British obviously got a bit annoyed

1069

00:39:18,130 --> 00:39:15,440

and probably had heard by the Americans

1070

00:39:18,790 --> 00:39:18,140

this is also interesting that there was

1071

00:39:20,500 --> 00:39:18,800

some eighties

1072

00:39:22,810 --> 00:39:20,510

the engineering this is magic substance

1073

00:39:24,760 --> 00:39:22,820

not just destructive if you got hold of

1074

00:39:26,890 --> 00:39:24,770

this nano substance and could program it

1075

00:39:30,460 --> 00:39:26,900

which brings us to Marconi in Britain

1076

00:39:33,070 --> 00:39:30,470

then you had the elixir of life or the

1077

00:39:35,740 --> 00:39:33,080

elixir of technology itself so Greg help

1078

00:39:37,240 --> 00:39:35,750

me out a bit here and guide me yes well

1079

00:39:39,580 --> 00:39:37,250

this is all greatness a lot of

1080

00:39:43,060 --> 00:39:39,590

information of course the point to

1081

00:39:45,120 --> 00:39:43,070

bringing up Alex story is that it shows

1082

00:39:48,370 --> 00:39:45,130

us that there are multiple unrelated

1083

00:39:51,370 --> 00:39:48,380

sources confirming this same type of

1084

00:39:53,170 --> 00:39:51,380

black goo nanobots substance which is so

1085

00:39:54,790 --> 00:39:53,180

fascinating why would this come up in

1086

00:39:58,000 --> 00:39:54,800

several stories it kind of helps to

1087

00:40:00,040 --> 00:39:58,010

validate these stories and in terms of

1088

00:40:02,740 --> 00:40:00,050

the Falklands War I would really love it

1089

00:40:05,230 --> 00:40:02,750

to be about an alien base and these

1090

00:40:07,870 --> 00:40:05,240

things are usually so secret it's hard

1091

00:40:09,640 --> 00:40:07,880

to get a smoking gun for that but for

1092

00:40:12,280 --> 00:40:09,650

people who are new to this or are

1093

00:40:15,640 --> 00:40:12,290

skeptical what is the best evidence that

1094

00:40:18,190 --> 00:40:15,650

you can give us to make that case that

1095

00:40:21,010 --> 00:40:18,200

the subtext for this Falklands War

1096

00:40:24,250 --> 00:40:21,020

dust-up was actually about an alien base

1097

00:40:25,600 --> 00:40:24,260

on thule Island okay well for once I'm

1098

00:40:27,850 --> 00:40:25,610

not going to go with the Aboriginality

1099

00:40:29,590 --> 00:40:27,860

about an interview here that ETS I'm

1100

00:40:32,290 --> 00:40:29,600

gonna go back to the same thing I said

1101
00:40:33,460 --> 00:40:32,300
to you and again youth not reply but you

1102
00:40:35,740 --> 00:40:33,470
don't have to and it may have been

1103
00:40:37,780 --> 00:40:35,750
different I don't know to do with the

1104
00:40:39,760 --> 00:40:37,790
nuclear thing that as kids we were fine

1105
00:40:41,860 --> 00:40:39,770
to death with well when the Falklands

1106
00:40:43,300 --> 00:40:41,870
War was just about at the same time just

1107
00:40:45,100 --> 00:40:43,310
after the whole nuclear threat oh you

1108
00:40:46,810 --> 00:40:45,110
know if nuclear bombs let off we've been

1109
00:40:48,940 --> 00:40:46,820
taught this at Primary School for God's

1110
00:40:51,160 --> 00:40:48,950
sake you know kids I believe in Timothy

1111
00:40:53,440 --> 00:40:51,170
Leary's are dev imprinting that as you

1112
00:40:55,510 --> 00:40:53,450
enter your early teens that you get

1113
00:40:57,400 --> 00:40:55,520

imprinted with these ideas and theories

1114

00:40:59,260 --> 00:40:57,410

you well this is why I'm in the mate

1115

00:41:01,660 --> 00:40:59,270

advice Putin after we thought the corn

1116

00:41:03,400 --> 00:41:01,670

was over but now it's back when Trump or

1117

00:41:05,260 --> 00:41:03,410

Hillary kept towards the last election

1118

00:41:07,510 --> 00:41:05,270

and we were like this is bizarre but

1119

00:41:10,420 --> 00:41:07,520

with the Falklands it's the same sort of

1120

00:41:11,920 --> 00:41:10,430

thing at the time and again go and have

1121

00:41:15,210 --> 00:41:11,930

a look at video or I said Craig a

1122

00:41:17,140 --> 00:41:15,220

picture of this that our tabloids had a

1123

00:41:18,910 --> 00:41:17,150

recently you'll have heard of the

1124

00:41:21,070 --> 00:41:18,920

ability the Britain house these things

1125

00:41:23,440 --> 00:41:21,080

called D notices to do with a certain

1126

00:41:26,080 --> 00:41:23,450

racial issue or the idea of covering

1127

00:41:28,150 --> 00:41:26,090

grooming of girls over here by a certain

1128

00:41:29,620 --> 00:41:28,160

cultural community and he went early

1129

00:41:32,170 --> 00:41:29,630

choirs the press went dead

1130

00:41:32,329 --> 00:41:32,180

well a for had three D notices now we're

1131

00:41:37,009 --> 00:41:32,339

the

1132

00:41:39,799 --> 00:41:37,019

are lots of gaps in what's going on and

1133

00:41:41,599 --> 00:41:39,809

remind me in fact I'm making those tell

1134

00:41:43,249 --> 00:41:41,609

you about a Freedom of Information thing

1135

00:41:44,539 --> 00:41:43,259

that I found the backs this up in fact

1136

00:41:45,680 --> 00:41:44,549

what you just said great on the

1137

00:41:46,999 --> 00:41:45,690

ambassador food there's a really good

1138

00:41:48,739 --> 00:41:47,009

point no one's ever asked me that in

1139

00:41:50,509 --> 00:41:48,749

about 20 interviews no one's ever said

1140

00:41:52,880 --> 00:41:50,519

what's your group though okay but I'm

1141

00:41:55,819 --> 00:41:52,890

saying to you I'll be honest and go when

1142

00:41:58,039 --> 00:41:55,829

I saw the eye-opener too often I've sent

1143

00:42:00,739 --> 00:41:58,049

you an image of the Sun newspaper is a

1144

00:42:02,329 --> 00:42:00,749

classic tabloid British tabloid and as

1145

00:42:05,180 --> 00:42:02,339

the war was going on they had a gotcha

1146

00:42:07,370 --> 00:42:05,190

as a title and I opened the talks I did

1147

00:42:09,559 --> 00:42:07,380

with this up gotcha because what we've

1148

00:42:10,849 --> 00:42:09,569

done is we dove illegally in

1149

00:42:12,499 --> 00:42:10,859

international waters the British

1150

00:42:15,380 --> 00:42:12,509

should've snuck up and bombed an

1151
00:42:17,390 --> 00:42:15,390
Argentine personnel carrier ship they've

1152
00:42:19,400 --> 00:42:17,400
on this in international waters Thatcher

1153
00:42:21,559 --> 00:42:19,410
had given the OK for this this is all

1154
00:42:23,870 --> 00:42:21,569
related to the exercise missile from

1155
00:42:25,999 --> 00:42:23,880
France which goes into a more complex

1156
00:42:27,920 --> 00:42:26,009
issue that's it was hidden deep into the

1157
00:42:30,620 --> 00:42:27,930
fact that Thatcher threatened to nuke

1158
00:42:32,779 --> 00:42:30,630
Argentina which I can't go into now but

1159
00:42:34,519 --> 00:42:32,789
essentially it was the fries that hit me

1160
00:42:37,400 --> 00:42:34,529
when I saw this newspaper headline and

1161
00:42:37,759 --> 00:42:37,410
the flag waving I was like this is

1162
00:42:39,680 --> 00:42:37,769
insane

1163
00:42:41,599 --> 00:42:39,690

these islands are like ten kilometres

1164

00:42:44,569 --> 00:42:41,609

square that if you she put a few people

1165

00:42:47,150 --> 00:42:44,579

on you know one mare the full island

1166

00:42:48,829 --> 00:42:47,160

which ended the Falklands War no I'll

1167

00:42:50,420 --> 00:42:48,839

tell you that annual find it history

1168

00:42:52,759 --> 00:42:50,430

through Island where this space

1169

00:42:54,349 --> 00:42:52,769

essentially was underground and where

1170

00:42:56,120 --> 00:42:54,359

the Argentine's had built an above

1171

00:42:58,069 --> 00:42:56,130

ground base which you can find in

1172

00:43:00,529 --> 00:42:58,079

pictures that I've sent Greg or on the

1173

00:43:02,630 --> 00:43:00,539

truth I have done the killer is that

1174

00:43:04,489 --> 00:43:02,640

both my head says this is idiotic why

1175

00:43:06,559 --> 00:43:04,499

would we send all these troops down

1176

00:43:07,999 --> 00:43:06,569

there just because the Argentine's and

1177

00:43:10,069 --> 00:43:08,009

they didn't want the four guns they go

1178

00:43:12,229 --> 00:43:10,079

that they wanted shipping a whaling rice

1179

00:43:14,989 --> 00:43:12,239

fishing right around the area quite

1180

00:43:16,579 --> 00:43:14,999

rightly in one sense because a it

1181

00:43:19,190 --> 00:43:16,589

Britain's imperial ages over but also

1182

00:43:22,069 --> 00:43:19,200

Argentina is a few hundred kilometers

1183

00:43:25,190 --> 00:43:22,079

away from for condyle for some fool and

1184

00:43:27,229 --> 00:43:25,200

Britain is thousands of miles away so it

1185

00:43:29,569 --> 00:43:27,239

was that reason in my hand but on top of

1186

00:43:31,309 --> 00:43:29,579

that then of course you end up for once

1187

00:43:34,160 --> 00:43:31,319

unlike many people who talk about the

1188

00:43:36,200 --> 00:43:34,170

contact issue I get into an Argentine

1189

00:43:39,109 --> 00:43:36,210

guy who was on there from 97 he was a

1190

00:43:40,640 --> 00:43:39,119

logistics soldier on this quote weather

1191

00:43:43,039 --> 00:43:40,650

station he goes yeah it wasn't weather

1192

00:43:44,870 --> 00:43:43,049

station it wasn't this is me translating

1193

00:43:47,330 --> 00:43:44,880

in Google Translate is Spanish

1194

00:43:49,070 --> 00:43:47,340

very well you know unlike other people I

1195

00:43:50,540 --> 00:43:49,080

don't just go for on the British angle a

1196

00:43:52,490 --> 00:43:50,550

British soldier said this to me I've

1197

00:43:54,470 --> 00:43:52,500

heard all this before so many times a

1198

00:43:56,270 --> 00:43:54,480

British soldier said it wasn't to do

1199

00:43:58,970 --> 00:43:56,280

with what you say to do with the Spanish

1200

00:44:02,570 --> 00:43:58,980

flu and no I've got an Argentinian

1201
00:44:04,550 --> 00:44:02,580
person who was there from 1976 to 82 so

1202
00:44:07,250 --> 00:44:04,560
although the war said to be only a year

1203
00:44:08,810 --> 00:44:07,260
or two long no actually I'm 76 the

1204
00:44:11,120 --> 00:44:08,820
British were messing with this and

1205
00:44:13,370 --> 00:44:11,130
there's a base built on there and you'll

1206
00:44:15,350 --> 00:44:13,380
also see a photo and B where one fake

1207
00:44:17,540 --> 00:44:15,360
video that songs done almost like a

1208
00:44:19,580 --> 00:44:17,550
nuclear bomb blowing this face up a red

1209
00:44:22,280 --> 00:44:19,590
base you'll find it on some fool look it

1210
00:44:24,500 --> 00:44:22,290
up on my stuff on YouTube it's very rare

1211
00:44:26,870 --> 00:44:24,510
video though is the fact that there was

1212
00:44:28,850 --> 00:44:26,880
a base built there and the point was the

1213
00:44:31,220 --> 00:44:28,860

Argentine's wouldn't risk a war without

1214

00:44:32,840 --> 00:44:31,230

this sort of thing I'll say one more

1215

00:44:36,080 --> 00:44:32,850

thing that the second reason that means

1216

00:44:38,420 --> 00:44:36,090

is time line right so a guy wrote a book

1217

00:44:40,610 --> 00:44:38,430

on what's called the Marconi deaths so

1218

00:44:42,770 --> 00:44:40,620

we had all these bizarre deaths let's

1219

00:44:45,770 --> 00:44:42,780

just say lots of strangers coming back

1220

00:44:48,020 --> 00:44:45,780

it's a main UK defense supplier in

1221

00:44:50,060 --> 00:44:48,030

England right call Marconi who but I've

1222

00:44:51,290 --> 00:44:50,070

looked into and got a little bit more

1223

00:44:53,420 --> 00:44:51,300

than they probably thought I'd get

1224

00:44:55,160 --> 00:44:53,430

including internal news letters and

1225

00:44:57,440 --> 00:44:55,170

what's essentially happened is what

1226

00:44:59,420 --> 00:44:57,450

aligns perfectly with the end of the

1227

00:45:01,190 --> 00:44:59,430

Falklands War it's not when they

1228

00:45:03,710 --> 00:45:01,200

conquered course Stanley as they claim

1229

00:45:06,080 --> 00:45:03,720

it's when suddenly think about the UK

1230

00:45:08,090 --> 00:45:06,090

mark only expands and all these staff

1231

00:45:10,940 --> 00:45:08,100

working in computers who say when they

1232

00:45:13,670 --> 00:45:10,950

activate a new technology in quotes that

1233

00:45:16,760 --> 00:45:13,680

they found it starts altering weather

1234

00:45:19,130 --> 00:45:16,770

satellites in over the world so they

1235

00:45:21,020 --> 00:45:19,140

found a way to program at this quote

1236

00:45:21,740 --> 00:45:21,030

fluid and it starts offering weather

1237

00:45:23,840 --> 00:45:21,750

satellites

1238

00:45:27,110 --> 00:45:23,850

it also has effects on those working

1239

00:45:28,160 --> 00:45:27,120

near it and we have 2030 people dying

1240

00:45:30,080 --> 00:45:28,170

bizarre deaths

1241

00:45:32,690 --> 00:45:30,090

going you could go distract yourself if

1242

00:45:34,910 --> 00:45:32,700

you wished well sure the situation there

1243

00:45:37,280 --> 00:45:34,920

we've had a couple guests talk about in

1244

00:45:39,860 --> 00:45:37,290

the past Nick Redfern would be one but

1245

00:45:42,800 --> 00:45:39,870

Marconi is basically like the Bell Labs

1246

00:45:44,620 --> 00:45:42,810

of the UK and it's one of these defense

1247

00:45:47,360 --> 00:45:44,630

contractors working in

1248

00:45:50,060 --> 00:45:47,370

telecommunications and in this small

1249

00:45:52,280 --> 00:45:50,070

sliver of time there were between 20 and

1250

00:45:55,160 --> 00:45:52,290

30 like you say scientists and engineers

1251

00:45:56,930 --> 00:45:55,170

that committed suicide or died in very

1252

00:45:58,640 --> 00:45:56,940

strange ways either jumping off

1253

00:46:00,589 --> 00:45:58,650

buildings or

1254

00:46:03,170 --> 00:46:00,599

tying ropes around their neck and then

1255

00:46:05,539 --> 00:46:03,180

driving a car and cutting their heads

1256

00:46:08,210 --> 00:46:05,549

off and a lot of really strange things

1257

00:46:10,309 --> 00:46:08,220

but I was also going to ask you to point

1258

00:46:12,739 --> 00:46:10,319

out maybe a couple of those quotes from

1259

00:46:14,539 --> 00:46:12,749

Marconi scientists or people who worked

1260

00:46:17,779 --> 00:46:14,549

there because you have some compelling

1261

00:46:20,749 --> 00:46:17,789

things they've said that does kind of

1262

00:46:22,670 --> 00:46:20,759

make the case that they were dealing

1263

00:46:24,980 --> 00:46:22,680

with this black goo substance or

1264

00:46:28,079 --> 00:46:24,990

something very very strange which were

1265

00:46:31,049 --> 00:46:28,089

suggesting was the substance

1266

00:46:33,089 --> 00:46:31,059

okay well look this topic as I know I've

1267

00:46:35,759 --> 00:46:33,099

done ten talk so that you can you upon

1268

00:46:38,279 --> 00:46:35,769

this and different quotes each time now

1269

00:46:41,039 --> 00:46:38,289

I look around got quotes from the

1270

00:46:43,650 --> 00:46:41,049

Marconi workers one led by I think his

1271

00:46:45,809 --> 00:46:43,660

name is Victor Powell and when you hear

1272

00:46:48,499 --> 00:46:45,819

the tested miss from their wives you

1273

00:46:51,059 --> 00:46:48,509

find out that he's happy non-suicidal

1274

00:46:53,939 --> 00:46:51,069

promising working for those two

1275

00:46:56,099 --> 00:46:53,949

companies Marconi and Plessy both with

1276

00:46:59,239 --> 00:46:56,109

the us work on satellite engineering

1277

00:47:01,620 --> 00:46:59,249

under submarine high-tech technology and

1278

00:47:02,880 --> 00:47:01,630

hydraulics is the keyword that I'm not

1279

00:47:04,620 --> 00:47:02,890

going to say any more on because we're

1280

00:47:07,229 --> 00:47:04,630

working on that at the moment hydraulics

1281

00:47:09,839 --> 00:47:07,239

is that this nano stuff also had a

1282

00:47:11,999 --> 00:47:09,849

positive impact on hydraulics in today's

1283

00:47:14,429 --> 00:47:12,009

modern world as well as a negative one

1284

00:47:16,049 --> 00:47:14,439

but essentially what happens let's go

1285

00:47:17,459 --> 00:47:16,059

back to what I said about the nuclear

1286

00:47:18,929 --> 00:47:17,469

thing with the Eisenhower that you all

1287

00:47:21,660 --> 00:47:18,939

know about and all your listeners know

1288

00:47:24,120 --> 00:47:21,670

about now if you go and mess with

1289

00:47:26,910 --> 00:47:24,130

something like the aten bottom has bless

1290

00:47:27,989 --> 00:47:26,920

him GMR said now well online and there's

1291

00:47:29,640 --> 00:47:27,999

certain people come up with lines

1292

00:47:32,309 --> 00:47:29,650

Wendell Stephen I've got quote from him

1293

00:47:34,559 --> 00:47:32,319

and Jamar's he said a note went out from

1294

00:47:36,569 --> 00:47:34,569

earth to the universe going the kids

1295

00:47:38,039 --> 00:47:36,579

have started playing with the matches

1296

00:47:39,689 --> 00:47:38,049

and this was of course about nuclear

1297

00:47:41,459 --> 00:47:39,699

bomb and of course good ol G Mars comes

1298

00:47:43,319 --> 00:47:41,469

out with these classic he's so well

1299

00:47:45,569 --> 00:47:43,329

versed in these again like yourself

1300

00:47:47,429 --> 00:47:45,579

covers wide topic of there is you know

1301
00:47:49,589 --> 00:47:47,439
not this narrow focus on one thing so

1302
00:47:51,449 --> 00:47:49,599
the kids playing the matches he knew was

1303
00:47:52,559 --> 00:47:51,459
this why litter with we're gonna attract

1304
00:47:54,569 --> 00:47:52,569
attention that's why they're saying

1305
00:47:56,999 --> 00:47:54,579
women see stuff we don't know about well

1306
00:47:59,939 --> 00:47:57,009
the black goo phrase that I hate

1307
00:48:01,620 --> 00:47:59,949
sentient nano a substance which appears

1308
00:48:03,650 --> 00:48:01,630
to be more hydraulic in nature when it's

1309
00:48:06,359 --> 00:48:03,660
linked to oil but that's another topic

1310
00:48:09,059 --> 00:48:06,369
essentially what happens was that when

1311
00:48:10,979 --> 00:48:09,069
we started playing I mean Greg you and

1312
00:48:13,049 --> 00:48:10,989
your listeners who know and an interest

1313
00:48:15,660 --> 00:48:13,059

in the et issue will know that when

1314

00:48:17,130 --> 00:48:15,670

people turn up and find sources that

1315

00:48:19,349 --> 00:48:17,140

have landed you hear about this from the

1316

00:48:21,419 --> 00:48:19,359

military or contactees that they have

1317

00:48:23,759 --> 00:48:21,429

negative effects this you'll get bird by

1318

00:48:26,009 --> 00:48:23,769

radiation also so the example but this I

1319

00:48:28,499 --> 00:48:26,019

believe there's a coalescence are almost

1320

00:48:31,199 --> 00:48:28,509

a lesson of the nuclear era that we

1321

00:48:33,479 --> 00:48:31,209

stole the British Royal Marines I know

1322

00:48:35,939 --> 00:48:33,489

in previous interviews I've said SAS

1323

00:48:38,249 --> 00:48:35,949

I've now confirmed that it was the Royal

1324

00:48:40,439 --> 00:48:38,259

Marines that went in not the SAS Special

1325

00:48:41,490 --> 00:48:40,449

Air Service of Britain very famous all

1326

00:48:43,770 --> 00:48:41,500

the special boat sir

1327

00:48:45,480 --> 00:48:43,780

I've set batteries it wasn't it appears

1328

00:48:47,760 --> 00:48:45,490

to be the memory system it's I got

1329

00:48:49,470 --> 00:48:47,770

contacted by one so we went in and we

1330

00:48:51,630 --> 00:48:49,480

took something that wasn't ours because

1331

00:48:53,700 --> 00:48:51,640

what were these friends are Alec Neal's

1332

00:48:55,170 --> 00:48:53,710

that contact he who wrote books who's

1333

00:48:57,390 --> 00:48:55,180

now in its third edition that's coming

1334

00:48:59,730 --> 00:48:57,400

out this year what happens is that they

1335

00:49:02,100 --> 00:48:59,740

were trying to stop us they knew that we

1336

00:49:04,290 --> 00:49:02,110

so in the 18th century Greg you know

1337

00:49:06,210 --> 00:49:04,300

that we were horse and cart in the US

1338

00:49:08,370 --> 00:49:06,220

and UK how the hell could we have

1339

00:49:10,770 --> 00:49:08,380

altered nanotech so it could lie there

1340

00:49:12,510 --> 00:49:10,780

unhindered on this island deep in the

1341

00:49:14,160 --> 00:49:12,520

ground apparently it's the cold that

1342

00:49:16,020 --> 00:49:14,170

keeps it inactive but once you bring it

1343

00:49:18,360 --> 00:49:16,030

to temperature user needs to it sensor

1344

00:49:19,500 --> 00:49:18,370

signals to it it starts activating and

1345

00:49:22,530 --> 00:49:19,510

gets out of control

1346

00:49:24,990 --> 00:49:22,540

we're so arrogant as with the atom bomb

1347

00:49:26,460 --> 00:49:25,000

the British take it away my intuition is

1348

00:49:29,340 --> 00:49:26,470

the emergence may have had it already

1349

00:49:31,830 --> 00:49:29,350

and maybe Argentinians but this is our

1350

00:49:34,350 --> 00:49:31,840

story if you look into the shuttle

1351
00:49:36,690 --> 00:49:34,360
diplomacy of Reagan and his minions but

1352
00:49:39,360 --> 00:49:36,700
I've come so deep into this boy to death

1353
00:49:40,890 --> 00:49:39,370
so we take it back and what happens we

1354
00:49:42,750 --> 00:49:40,900
go back to Britain a little old country

1355
00:49:45,330 --> 00:49:42,760
we take it back to what we think is our

1356
00:49:47,490 --> 00:49:45,340
best defense industry in the early

1357
00:49:50,130 --> 00:49:47,500
eighties right at the end the Falklands

1358
00:49:51,720 --> 00:49:50,140
War and as they start on that program

1359
00:49:53,820 --> 00:49:51,730
they find a way to interface with this

1360
00:49:55,710 --> 00:49:53,830
stuff so when they're back in the UK

1361
00:49:57,900 --> 00:49:55,720
they start trying to program this stuff

1362
00:49:59,280 --> 00:49:57,910
and get their greedy mitts on it after

1363
00:50:00,720 --> 00:49:59,290

good I believe there's good people

1364

00:50:03,240 --> 00:50:00,730

perhaps for good reasons

1365

00:50:05,130 --> 00:50:03,250

perhaps to develop a new AI missile to

1366

00:50:06,930 --> 00:50:05,140

take out your any mean whatever yeah and

1367

00:50:09,000 --> 00:50:06,940

it's good and bad in every one every

1368

00:50:11,880 --> 00:50:09,010

sector and so they get this stuff back

1369

00:50:14,700 --> 00:50:11,890

but when you take something just as von

1370

00:50:16,170 --> 00:50:14,710

Neumann who said I become destroyed of

1371

00:50:16,680 --> 00:50:16,180

do you know that Craig destroyer of

1372

00:50:19,620 --> 00:50:16,690

worlds

1373

00:50:21,600 --> 00:50:19,630

yeah from the bhagavad-gita it was the

1374

00:50:24,060 --> 00:50:21,610

guy who first led off the atom bomb

1375

00:50:26,220 --> 00:50:24,070

which was Oppenheimer

1376

00:50:27,690 --> 00:50:26,230

there was Oppenheimer bingo good

1377

00:50:29,760 --> 00:50:27,700

Mountaineer right off and Highness said

1378

00:50:32,730 --> 00:50:29,770

become destroy wells well I believe that

1379

00:50:36,630 --> 00:50:32,740

literal Britain we became the destroyer

1380

00:50:38,790 --> 00:50:36,640

of worlds again in a microcosm of the

1381

00:50:40,410 --> 00:50:38,800

whole thing that was pop and I was

1382

00:50:41,970 --> 00:50:40,420

saying there again off entirely new

1383

00:50:44,400 --> 00:50:41,980

intuitively when he saw that motion

1384

00:50:46,410 --> 00:50:44,410

fabula he knew that well when these

1385

00:50:49,350 --> 00:50:46,420

people saw weather satellites started

1386

00:50:49,890 --> 00:50:49,360

behaving strangely and people working on

1387

00:50:52,020 --> 00:50:49,900

this

1388

00:50:53,410 --> 00:50:52,030

sentient nano fluid when they saw them

1389

00:50:55,090 --> 00:50:53,420

start to you

1390

00:50:56,920 --> 00:50:55,100

let me do it in detail for your

1391

00:51:00,070 --> 00:50:56,930

listeners just for a bit of gore factor

1392

00:51:01,510 --> 00:51:00,080

one guy ended up tying a rope around his

1393

00:51:03,520 --> 00:51:01,520

neck you know there are ways to do a

1394

00:51:05,650 --> 00:51:03,530

quick death and other ways and there

1395

00:51:07,390 --> 00:51:05,660

ways for your wife's trip girlfriend to

1396

00:51:09,490 --> 00:51:07,400

find you and there ways that you don't

1397

00:51:10,180 --> 00:51:09,500

want them to find you and he tie a rope

1398

00:51:12,430 --> 00:51:10,190

around his neck

1399

00:51:14,440 --> 00:51:12,440

and I can give you another 15 examples

1400

00:51:15,700 --> 00:51:14,450

because I've read three different books

1401

00:51:16,840 --> 00:51:15,710

on this stuff that you won't find

1402

00:51:17,230 --> 00:51:16,850

anywhere else to into secondhand

1403

00:51:18,730 --> 00:51:17,240

bookshop

1404

00:51:20,680 --> 00:51:18,740

so we try to rope around his next

1405

00:51:22,210 --> 00:51:20,690

tribunal into a tree or lamppost quite a

1406

00:51:24,430 --> 00:51:22,220

number which press the accelerations

1407

00:51:26,680 --> 00:51:24,440

calm and pull his head off now that may

1408

00:51:28,870 --> 00:51:26,690

be a quick death but what makes you

1409

00:51:31,180 --> 00:51:28,880

think would you really thought of that

1410

00:51:33,460 --> 00:51:31,190

as a way of suicide or killing yourself

1411

00:51:35,860 --> 00:51:33,470

under pressure before I don't think many

1412

00:51:37,960 --> 00:51:35,870

people would have thought about so this

1413

00:51:40,270 --> 00:51:37,970

is done the same as you mentioned what a

1414

00:51:41,860 --> 00:51:40,280

nihilist and the same sort of thing but

1415

00:51:43,930 --> 00:51:41,870

you know the balloons that alec dealt

1416

00:51:45,520 --> 00:51:43,940

with saying no great should come in

1417

00:51:47,740 --> 00:51:45,530

there were several international

1418

00:51:49,210 --> 00:51:47,750

students after this that I can't go into

1419

00:51:51,370 --> 00:51:49,220

again too long let's try and get a hold

1420

00:51:53,050 --> 00:51:51,380

of more of this stuff the Russians were

1421

00:51:55,120 --> 00:51:53,060

especially ahead it seemed to where the

1422

00:51:57,940 --> 00:51:55,130

Germans I mean if you want a new version

1423

00:52:00,400 --> 00:51:57,950

of geopolitics you look into this area

1424

00:52:02,680 --> 00:52:00,410

because it turns geopolitics on its head

1425

00:52:05,080 --> 00:52:02,690

the Americans being very crafty staying

1426
00:52:07,360 --> 00:52:05,090
in between but you have Israel you know

1427
00:52:09,640 --> 00:52:07,370
you have these documents that come up

1428
00:52:11,140 --> 00:52:09,650
showing bizarre even if after the falls

1429
00:52:13,810 --> 00:52:11,150
even if you take either half of being

1430
00:52:15,880 --> 00:52:13,820
true there's a war the term Greg

1431
00:52:18,670 --> 00:52:15,890
satellite government or as I call it in

1432
00:52:20,920 --> 00:52:18,680
big build Eagles terms above government

1433
00:52:23,050 --> 00:52:20,930
agencies so that we've got satellite

1434
00:52:25,060 --> 00:52:23,060
government or above government that says

1435
00:52:29,050 --> 00:52:25,070
she has no relation to what we see on TV

1436
00:52:31,090 --> 00:52:29,060
with Trump right so essentially they

1437
00:52:32,770 --> 00:52:31,100
played with fire like you said with

1438
00:52:35,350 --> 00:52:32,780

Oppenheimer and it resulted in these

1439

00:52:36,910 --> 00:52:35,360

deaths carry Cassie said to shut them up

1440

00:52:38,410 --> 00:52:36,920

they injected them with the black goo

1441

00:52:41,020 --> 00:52:38,420

that they found the falklands daily I

1442

00:52:43,240 --> 00:52:41,030

said no it wasn't that single any jet no

1443

00:52:45,640 --> 00:52:43,250

this stuff has a field if you read input

1444

00:52:47,290 --> 00:52:45,650

Sheldrake morphogenic feels this stuff

1445

00:52:48,970 --> 00:52:47,300

has a field around that's so potent

1446

00:52:51,460 --> 00:52:48,980

you've messed with it you caught it from

1447

00:52:53,440 --> 00:52:51,470

deep underground and now it's gonna act

1448

00:52:55,180 --> 00:52:53,450

on you and I'm going to finish this

1449

00:52:56,770 --> 00:52:55,190

interview by telling you so that's not

1450

00:52:57,910 --> 00:52:56,780

been told from how it yields that's

1451
00:52:59,890 --> 00:52:57,920
about to go this third edition of his

1452
00:53:01,050 --> 00:52:59,900
book we should back up what I'm saying

1453
00:53:04,960 --> 00:53:01,060
so sorry Betty

1454
00:53:06,680 --> 00:53:04,970
mm-hmm no it's all great and you know I

1455
00:53:08,480 --> 00:53:06,690
had asked you about

1456
00:53:10,880 --> 00:53:08,490
the evidence for the subtext being an

1457
00:53:12,200 --> 00:53:10,890
alien base and you know one of the

1458
00:53:14,030 --> 00:53:12,210
things that I've heard you talk about

1459
00:53:16,400 --> 00:53:14,040
before was Freedom of Information Act

1460
00:53:18,020 --> 00:53:16,410
requests that of course with some kind

1461
00:53:20,180 --> 00:53:18,030
of conflict like this there's gonna be a

1462
00:53:23,690 --> 00:53:20,190
lot of documents moving around treaties

1463
00:53:25,700 --> 00:53:23,700

a lot of that kind of stuff and you can

1464

00:53:27,860 --> 00:53:25,710

get the documents for all those Islands

1465

00:53:30,500 --> 00:53:27,870

except for thule island where the

1466

00:53:32,660 --> 00:53:30,510

documents are sealed for 40 years and

1467

00:53:34,310 --> 00:53:32,670

that alone is suspicious but you

1468

00:53:36,380 --> 00:53:34,320

mentioned the Germans and that's why I

1469

00:53:39,050 --> 00:53:36,390

asked the question of how can we be sure

1470

00:53:40,910 --> 00:53:39,060

that this is about an alien base because

1471

00:53:42,800 --> 00:53:40,920

we've talked to a lot of guests about

1472

00:53:44,540 --> 00:53:42,810

the Nazis and where they went after the

1473

00:53:46,540 --> 00:53:44,550

war and the advanced technology they

1474

00:53:48,890 --> 00:53:46,550

were working on this whole story

1475

00:53:51,260 --> 00:53:48,900

revolves around a secret base off the

1476

00:53:53,810 --> 00:53:51,270

coast of Argentina which is

1477

00:53:55,340 --> 00:53:53,820

coincidentally on through all Island so

1478

00:53:57,770 --> 00:53:55,350

these are things that make me wonder

1479

00:54:00,740 --> 00:53:57,780

like how do we know the big secret here

1480

00:54:04,400 --> 00:54:00,750

isn't that a post-war Nazi outpost was

1481

00:54:07,040 --> 00:54:04,410

discovered rather than an et one well

1482

00:54:08,930 --> 00:54:07,050

Greg if he saw something again I was not

1483

00:54:11,300 --> 00:54:08,940

she gonna discuss that uh she's been

1484

00:54:13,850 --> 00:54:11,310

discussed between Duncan Rhodes Alan old

1485

00:54:17,000 --> 00:54:13,860

and myself for the last three years but

1486

00:54:19,400 --> 00:54:17,010

don't forget here the the Blues I the

1487

00:54:21,110 --> 00:54:19,410

blue gray looking so imagine gray

1488

00:54:24,110 --> 00:54:21,120

looking the Blues that picked Alec got

1489

00:54:26,690 --> 00:54:24,120

said we have been working and remember I

1490

00:54:28,640 --> 00:54:26,700

said there's a quote from a famous UFO

1491

00:54:31,580 --> 00:54:28,650

writer I think it's John keel who said

1492

00:54:33,650 --> 00:54:31,590

it's steam engine time when it's steam

1493

00:54:35,240 --> 00:54:33,660

engine time and what he meant by that he

1494

00:54:38,720 --> 00:54:35,250

was basically saying that what happens

1495

00:54:40,640 --> 00:54:38,730

is you see et technologies like you know

1496

00:54:42,020 --> 00:54:40,650

in Texas you might know the cases and

1497

00:54:44,360 --> 00:54:42,030

you Mars again the great amount of

1498

00:54:47,210 --> 00:54:44,370

mentions that these what I call blimps

1499

00:54:49,820 --> 00:54:47,220

flying ships blimps had come over they

1500

00:54:51,440 --> 00:54:49,830

landed and no these pipe smoking bearded

1501
00:54:53,510 --> 00:54:51,450
Ward's got out as well you know this was

1502
00:54:55,940 --> 00:54:53,520
all documented by several people but

1503
00:54:58,820 --> 00:54:55,950
this was just ahead of the Germans

1504
00:55:00,650 --> 00:54:58,830
inventing the blimp so when he Lou

1505
00:55:02,780 --> 00:55:00,660
whoever just mission mentioned it when

1506
00:55:05,660 --> 00:55:02,790
it's damaged in time what he's very

1507
00:55:09,230 --> 00:55:05,670
wisely and erudite Lee saying is that a

1508
00:55:12,470 --> 00:55:09,240
culture only encounters a technology or

1509
00:55:14,030 --> 00:55:12,480
exceeds it as it is when it's time for

1510
00:55:16,160 --> 00:55:14,040
that in other words really saw the

1511
00:55:18,690 --> 00:55:16,170
blimps came over and people saw those

1512
00:55:20,520 --> 00:55:18,700
that were aliens disk

1513
00:55:22,109 --> 00:55:20,530

these things all add consciousness when

1514

00:55:24,359 --> 00:55:22,119

we're looking at things sees things is

1515

00:55:26,790 --> 00:55:24,369

that way and it's the same with this

1516

00:55:27,390 --> 00:55:26,800

source that essentially we jumped a bit

1517

00:55:29,160 --> 00:55:27,400

here

1518

00:55:31,560 --> 00:55:29,170

you know the ETS have been since World

1519

00:55:34,170 --> 00:55:31,570

War one dealing with this stuff so we

1520

00:55:36,210 --> 00:55:34,180

went in ahead as a result twenty top

1521

00:55:38,400 --> 00:55:36,220

computer scientists ended up dead

1522

00:55:40,079 --> 00:55:38,410

because what it is we jumped this alien

1523

00:55:41,310 --> 00:55:40,089

gap that we weren't meant to be involved

1524

00:55:43,050 --> 00:55:41,320

with this different the same as with

1525

00:55:45,480 --> 00:55:43,060

nuclear bombs we didn't have the

1526

00:55:47,550 --> 00:55:45,490

spiritual ability to deal with nuclear

1527

00:55:48,920 --> 00:55:47,560

energy so we ended up you know with your

1528

00:55:51,359 --> 00:55:48,930

achievement and we ended up now that

1529

00:55:52,920 --> 00:55:51,369

atmospheres you know the airplanes go

1530

00:55:54,810 --> 00:55:52,930

around and you have air hostesses will

1531

00:55:57,420 --> 00:55:54,820

host with their hair falling out all

1532

00:55:59,250 --> 00:55:57,430

whistles awesome but interestingly when

1533

00:56:01,349 --> 00:55:59,260

you mentioned the Germans there you

1534

00:56:02,970 --> 00:56:01,359

mentioned two things I bring it down so

1535

00:56:05,430 --> 00:56:02,980

let's go through two points that are

1536

00:56:07,050 --> 00:56:05,440

killer points on this thing well I'm

1537

00:56:08,910 --> 00:56:07,060

gonna be honest so I can't answer there

1538

00:56:10,800 --> 00:56:08,920

because actually what you put up great

1539

00:56:13,380 --> 00:56:10,810

by the Germans there is you know what

1540

00:56:15,329 --> 00:56:13,390

was found on the island when this base

1541

00:56:16,800 --> 00:56:15,339

was blown up and go and see the picture

1542

00:56:19,200 --> 00:56:16,810

so I got where the British Royal Marines

1543

00:56:21,240 --> 00:56:19,210

or SAS I don't know who did the top at

1544

00:56:23,430 --> 00:56:21,250

least I know if the bombe idea

1545

00:56:26,069 --> 00:56:23,440

then they put putting charges on your

1546

00:56:28,440 --> 00:56:26,079

seat base destroyed on through Ireland

1547

00:56:29,760 --> 00:56:28,450

but what did they do when they went

1548

00:56:33,270 --> 00:56:29,770

deeper down a layer

1549

00:56:36,270 --> 00:56:33,280

they found this foundry metal had stunts

1550

00:56:38,430 --> 00:56:36,280

on Germany and this is pre-world War one

1551
00:56:40,319 --> 00:56:38,440
day so by Heath reminded me of that so

1552
00:56:41,849 --> 00:56:40,329
you'll tell me Greg what's going on

1553
00:56:45,359 --> 00:56:41,859
there the Germans have got a found

1554
00:56:47,010 --> 00:56:45,369
eastern pre-world War one I just before

1555
00:56:50,220 --> 00:56:47,020
that suggests that they were down there

1556
00:56:52,890 --> 00:56:50,230
before or along with these blue e t--'s

1557
00:56:54,660 --> 00:56:52,900
either building a base there or helping

1558
00:56:56,730 --> 00:56:54,670
them I don't know but the point is the

1559
00:56:59,220 --> 00:56:56,740
methyl has a stamp on and we have

1560
00:57:02,010 --> 00:56:59,230
previous we have zoomed in shots that

1561
00:57:05,099 --> 00:57:02,020
I'm not gonna go into envy metal was

1562
00:57:07,140 --> 00:57:05,109
stamped with German foundry marks

1563
00:57:09,750 --> 00:57:07,150

glitchy found e marks so you have that

1564

00:57:11,790 --> 00:57:09,760

but the biggest killer thing that to me

1565

00:57:13,829 --> 00:57:11,800

is right and again I put this in the

1566

00:57:15,690 --> 00:57:13,839

talks I sent a picture as you mentioned

1567

00:57:18,120 --> 00:57:15,700

freedom the information well learn

1568

00:57:20,010 --> 00:57:18,130

behold what happens when I do all the

1569

00:57:21,870 --> 00:57:20,020

research into this which cost me a lot

1570

00:57:24,270 --> 00:57:21,880

of time a lot of money that I did have

1571

00:57:26,730 --> 00:57:24,280

that's when you go in and go into the

1572

00:57:27,150 --> 00:57:26,740

British with Tony Blair now regrets

1573

00:57:29,280 --> 00:57:27,160

doing

1574

00:57:31,960 --> 00:57:29,290

he thinks the Iraq war was great to kill

1575

00:57:33,130 --> 00:57:31,970

half a million people and kids

1576

00:57:34,780 --> 00:57:33,140

I should've done that Freedom of

1577

00:57:36,099 --> 00:57:34,790

Information Act in Britain receives that

1578

00:57:37,930 --> 00:57:36,109

while it did it you know that he'd kill

1579

00:57:39,760 --> 00:57:37,940

anyone but never mind Iraq a side issue

1580

00:57:41,560 --> 00:57:39,770

but the Freedom of Information Act

1581

00:57:43,060 --> 00:57:41,570

I go down teaching gardens in Britain

1582

00:57:44,950 --> 00:57:43,070

which is where all this stuff's held and

1583

00:57:47,020 --> 00:57:44,960

I go round there library and I look

1584

00:57:49,120 --> 00:57:47,030

through all this stuff both online and

1585

00:57:53,170 --> 00:57:49,130

also in the library so what do I find

1586

00:57:55,000 --> 00:57:53,180

that you can get any details of the

1587

00:57:57,580 --> 00:57:55,010

Falklands War you want you can get them

1588

00:58:00,250 --> 00:57:57,590

sailing from flemeth in Britain which is

1589

00:58:03,940 --> 00:58:00,260

where the people left to go to the US

1590

00:58:05,320 --> 00:58:03,950

the Puritans to the US so you can find

1591

00:58:07,450 --> 00:58:05,330

where they left the ship from you can

1592

00:58:09,430 --> 00:58:07,460

find the logistics in Port Stanley which

1593

00:58:11,650 --> 00:58:09,440

is the main Falkland Islands but when it

1594

00:58:14,080 --> 00:58:11,660

comes to Southern fool all we've got is

1595

00:58:15,970 --> 00:58:14,090

well they sent at the end of the wars

1596

00:58:18,160 --> 00:58:15,980

over see so I've been declared which

1597

00:58:21,250 --> 00:58:18,170

don't tell anyone they went to some fool

1598

00:58:23,589 --> 00:58:21,260

and did this quiet activity I went in

1599

00:58:25,510 --> 00:58:23,599

supply will give me ceasefire document

1600

00:58:27,040 --> 00:58:25,520

I've got the one for Port Stanley I got

1601
00:58:28,960 --> 00:58:27,050
all the other islands if you go and look

1602
00:58:31,330 --> 00:58:28,970
at the map I say Craig was up there

1603
00:58:34,480 --> 00:58:31,340
but what couldn't I get hold of I could

1604
00:58:36,280 --> 00:58:34,490
order a copy of the ceasefire document

1605
00:58:38,320 --> 00:58:36,290
the logistics Hanna ships win who signed

1606
00:58:40,359 --> 00:58:38,330
and while food right now to the toilet

1607
00:58:42,190 --> 00:58:40,369
paper they use I don't right I'll tell

1608
00:58:43,750 --> 00:58:42,200
you are I want the ceasefire because

1609
00:58:45,280 --> 00:58:43,760
that's getting me interested I want the

1610
00:58:46,839 --> 00:58:45,290
ceasefire Demong given what I've been

1611
00:58:49,150 --> 00:58:46,849
told my at this stage I'm still not

1612
00:58:51,280 --> 00:58:49,160
believing the Alec Neal story of this

1613
00:58:53,620 --> 00:58:51,290

underground base no so I go and tell you

1614

00:58:55,690 --> 00:58:53,630

given this is a British war I want the

1615

00:58:57,250 --> 00:58:55,700

ceasefire document that says this is the

1616

00:58:59,050 --> 00:58:57,260

conditions at which you lay down your

1617

00:59:00,910 --> 00:58:59,060

arms because they surrounded that red

1618

00:59:02,260 --> 00:59:00,920

base for a couple of days and Tom to

1619

00:59:04,089 --> 00:59:02,270

come out then they blew it up afterwards

1620

00:59:06,910 --> 00:59:04,099

which you'll see the two pictures up but

1621

00:59:10,140 --> 00:59:06,920

low in the hole what's the one document

1622

00:59:14,560 --> 00:59:10,150

you can't get and that is the ceasefire

1623

00:59:16,510 --> 00:59:14,570

document for Southern fool THU le the

1624

00:59:18,370 --> 00:59:16,520

germans call it to lea and you know

1625

00:59:20,349 --> 00:59:18,380

again any but I think one in north just

1626
00:59:21,760 --> 00:59:20,359
above Antarctica don't find it on the

1627
00:59:25,390 --> 00:59:21,770
map or have a look at the initials of

1628
00:59:28,510 --> 00:59:25,400
st. Greg so why would every and believe

1629
00:59:30,430 --> 00:59:28,520
me I spent hours days checking this so I

1630
00:59:32,109 --> 00:59:30,440
could get ceasefire documents for the

1631
00:59:34,060 --> 00:59:32,119
other islands or whether there was other

1632
00:59:35,740 --> 00:59:34,070
bits of Argentine troops I could get

1633
00:59:38,770 --> 00:59:35,750
through there was brought in to supply

1634
00:59:40,570 --> 00:59:38,780
the people on the main support Stanley

1635
00:59:42,490 --> 00:59:40,580
the main Falkland Islands and what the

1636
00:59:43,670 --> 00:59:42,500
residents there were quote British for

1637
00:59:45,650 --> 00:59:43,680
that was still there but

1638
00:59:48,109 --> 00:59:45,660

when I wanted to ceasefire agreement for

1639

00:59:50,270 --> 00:59:48,119

seventh or where this pound from the

1640

00:59:53,660 --> 00:59:50,280

ground base was with this quote black

1641

00:59:56,540 --> 00:59:53,670

Google that's now been shelled and I was

1642

00:59:57,799 --> 00:59:56,550

back in 2012 until 2019 so next year

1643

01:00:00,680 --> 00:59:57,809

apparently you know I'm looking forward

1644

01:00:02,510 --> 01:00:00,690

to this 2019 that either kill me or I'll

1645

01:00:04,549 --> 01:00:02,520

go down there and I'll try and get it

1646

01:00:05,569 --> 01:00:04,559

and it will be available or have been

1647

01:00:07,430 --> 01:00:05,579

lost or I'll get it

1648

01:00:09,980 --> 01:00:07,440

I don't know but all the others were

1649

01:00:12,410 --> 01:00:09,990

released in the last couple years or the

1650

01:00:14,150 --> 01:00:12,420

last decade but the war on a document

1651

01:00:16,160 --> 01:00:14,160

I'm telling you I went through this in

1652

01:00:18,589 --> 01:00:16,170

detail but one document you cannot get

1653

01:00:20,900 --> 01:00:18,599

until 2019 and remember I was

1654

01:00:23,089 --> 01:00:20,910

researching this in 2012 everything else

1655

01:00:25,910 --> 01:00:23,099

was available I could read it all online

1656

01:00:27,980 --> 01:00:25,920

or go in in Kew Gardens itself but the

1657

01:00:30,020 --> 01:00:27,990

one I couldn't they said we're gonna

1658

01:00:32,299 --> 01:00:30,030

restrict this the only one they

1659

01:00:35,240 --> 01:00:32,309

restricted for an extra decade was the

1660

01:00:36,559 --> 01:00:35,250

thule sudden through island the treaty

1661

01:00:38,960 --> 01:00:36,569

agreement was done with those

1662

01:00:41,599 --> 01:00:38,970

Argentinians that were sat above that

1663

01:00:43,970 --> 01:00:41,609

suppose it et base that was there so

1664

01:00:45,530 --> 01:00:43,980

you've got that together whatever the

1665

01:00:48,140 --> 01:00:45,540

Germans as you mentioned you remind me

1666

01:00:50,750 --> 01:00:48,150

at that great Germans had foundry stands

1667

01:00:52,130 --> 01:00:50,760

for I think it was like 1903 or so I

1668

01:00:53,809 --> 01:00:52,140

don't know we found something

1669

01:00:56,270 --> 01:00:53,819

so the Germans were down that even

1670

01:00:58,400 --> 01:00:56,280

before World War one the Germans be that

1671

01:01:00,020 --> 01:00:58,410

interested so have two things and you

1672

01:01:02,270 --> 01:01:00,030

remind me of both those things but

1673

01:01:04,250 --> 01:01:02,280

there's two things that tell you when

1674

01:01:06,170 --> 01:01:04,260

you look at this five kilometer square

1675

01:01:08,089 --> 01:01:06,180

volcanic freezing-cold

1676

01:01:10,670 --> 01:01:08,099

island full of penguin not a lot

1677

01:01:13,940 --> 01:01:10,680

else for I on earth would you put a base

1678

01:01:15,799 --> 01:01:13,950

on there 14 people on there and then get

1679

01:01:17,299 --> 01:01:15,809

the British to send an armada and I can

1680

01:01:19,849 --> 01:01:17,309

give you how many ships about the boy -

1681

01:01:21,650 --> 01:01:19,859

definitely they sent but you can't find

1682

01:01:23,109 --> 01:01:21,660

the one document that's they've given

1683

01:01:25,700 --> 01:01:23,119

out for the rest of the Falkland Islands

1684

01:01:28,309 --> 01:01:25,710

so there are things that I counters

1685

01:01:29,930 --> 01:01:28,319

absolutely compares in most cases you

1686

01:01:31,039 --> 01:01:29,940

see with people playing on YouTube where

1687

01:01:33,740 --> 01:01:31,049

they have actually nothing but their own

1688

01:01:36,799 --> 01:01:33,750

voice and those documents and pounding

1689

01:01:39,650 --> 01:01:36,809

metal the Germans pre-world War one that

1690

01:01:41,870 --> 01:01:39,660

tells me why on a rocky island

1691

01:01:44,630 --> 01:01:41,880

sorry I think a kilometer wide why

1692

01:01:45,950 --> 01:01:44,640

always interest so that's the two points

1693

01:01:48,410 --> 01:01:45,960

answered and the two points you brought

1694

01:01:51,230 --> 01:01:48,420

up were two the main points that I'd say

1695

01:01:53,539 --> 01:01:51,240

along with Alex encounter with these so

1696

01:01:56,070 --> 01:01:53,549

the point is this is crucial then I'll

1697

01:01:58,290 --> 01:01:56,080

pass back to you the even if you

1698

01:02:00,420 --> 01:01:58,300

this is crucial I think that people that

1699

01:02:03,660 --> 01:02:00,430

just swallow contactee things or swallow

1700

01:02:06,060 --> 01:02:03,670

ET or UFO sightings or CGI bollocks on

1701

01:02:08,640 --> 01:02:06,070

the internet the point is even if you

1702

01:02:10,380 --> 01:02:08,650

take Alex account out a bit it's written

1703

01:02:12,240 --> 01:02:10,390

account of what they said let it we've

1704

01:02:14,340 --> 01:02:12,250

been de engineering this nano substance

1705

01:02:16,110 --> 01:02:14,350

for you because now you're ready to deal

1706

01:02:17,580 --> 01:02:16,120

with it and you'll weaponize it so we're

1707

01:02:19,110 --> 01:02:17,590

going to try and do engineer it but no

1708

01:02:20,850 --> 01:02:19,120

we chase them out of there they went to

1709

01:02:22,530 --> 01:02:20,860

Tibet that's where they flew from they

1710

01:02:25,320 --> 01:02:22,540

catch them on the way but that's another

1711

01:02:27,060 --> 01:02:25,330

story so the point is that even if you

1712

01:02:28,950 --> 01:02:27,070

take away the contactee even if you have

1713

01:02:30,510 --> 01:02:28,960

contact a skeptic the point is the two

1714

01:02:32,340 --> 01:02:30,520

point she bought took Greg well right

1715

01:02:35,370 --> 01:02:32,350

the Germans were there with founding

1716

01:02:36,930 --> 01:02:35,380

metal very to pre-world War one and on

1717

01:02:40,200 --> 01:02:36,940

top of that the freedom information

1718

01:02:41,400 --> 01:02:40,210

article is only on that island the rest

1719

01:02:43,770 --> 01:02:41,410

of them he could find to do with the

1720

01:02:45,840 --> 01:02:43,780

Falklands War two years worth of freedom

1721

01:02:49,080 --> 01:02:45,850

information act but not that one only in

1722

01:02:51,690 --> 01:02:49,090

2019 cannot be found back to you

1723

01:02:53,130 --> 01:02:51,700

yes those are curious details for sure

1724

01:02:55,800 --> 01:02:53,140

and if you look at this whole picture

1725

01:02:58,260 --> 01:02:55,810

it's very clear that these government's

1726

01:03:00,210 --> 01:02:58,270

cared way too much about what was going

1727

01:03:02,190 --> 01:03:00,220

on here they put too much energy into a

1728

01:03:04,470 --> 01:03:02,200

small area that shouldn't have been all

1729

01:03:06,990 --> 01:03:04,480

that important so it's a major clue that

1730

01:03:08,610 --> 01:03:07,000

there's something secretive going on

1731

01:03:11,640 --> 01:03:08,620

especially not being able to get that

1732

01:03:14,610 --> 01:03:11,650

document and I guess with the black goo

1733

01:03:17,220 --> 01:03:14,620

the story is that like many times when

1734

01:03:19,320 --> 01:03:17,230

the government seems to recover some

1735

01:03:20,700 --> 01:03:19,330

exotic technology the typical move is

1736

01:03:22,230 --> 01:03:20,710

they try to fold it into some

1737

01:03:25,170 --> 01:03:22,240

corporation they try to do that with

1738

01:03:27,570 --> 01:03:25,180

Marconi it didn't work out and they

1739

01:03:30,150 --> 01:03:27,580

ended up wiping out probably everybody

1740

01:03:32,640 --> 01:03:30,160

who saw it it seems to be the reason why

1741

01:03:34,500 --> 01:03:32,650

these twenty or thirty people would be

1742

01:03:36,870 --> 01:03:34,510

dead and who knows how much progress

1743

01:03:38,910 --> 01:03:36,880

they made but you know as we're closing

1744

01:03:41,160 --> 01:03:38,920

this up you did tell us about the whole

1745

01:03:43,890 --> 01:03:41,170

saga of the Falklands War the Marconi

1746

01:03:47,310 --> 01:03:43,900

deaths the sentient nano substance and

1747

01:03:49,050 --> 01:03:47,320

all the subtext to that big story and of

1748

01:03:51,570 --> 01:03:49,060

course in our private conversations

1749

01:03:53,480 --> 01:03:51,580

we've talked about the ufology community

1750

01:03:55,950 --> 01:03:53,490

a little bit and you've had some

1751

01:03:58,410 --> 01:03:55,960

not-so-great things to say about the

1752

01:04:00,540 --> 01:03:58,420

direction it's gone or the way it may be

1753

01:04:02,850 --> 01:04:00,550

his quarantine certain information of

1754

01:04:04,890 --> 01:04:02,860

course on the mainstream stage we have

1755

01:04:07,080 --> 01:04:04,900

the Tom DeLonge dust-up you mentioned

1756

01:04:08,550 --> 01:04:07,090

Trump is the president a lot of people

1757

01:04:09,170 --> 01:04:08,560

in the alt community are talking about

1758

01:04:11,390 --> 01:04:09,180

him being

1759

01:04:13,010 --> 01:04:11,400

the disclosure president I've heard that

1760

01:04:16,220 --> 01:04:13,020

a thousand times before I'm not

1761

01:04:18,799 --> 01:04:16,230

convinced but you know you also did say

1762

01:04:22,250 --> 01:04:18,809

that you've been silent for so many

1763

01:04:24,170 --> 01:04:22,260

years for a specific reason and I guess

1764

01:04:26,329 --> 01:04:24,180

I wanted to close with maybe getting

1765

01:04:29,299 --> 01:04:26,339

that reason because when you initially

1766

01:04:31,400 --> 01:04:29,309

came up with this presentation it was

1767

01:04:33,769 --> 01:04:31,410

pretty huge a lot of people saw this

1768

01:04:35,930 --> 01:04:33,779

thing it was a big dust-up in the

1769

01:04:40,190 --> 01:04:35,940

alternative community and like you said

1770

01:04:42,079 --> 01:04:40,200

since 2012 2014 you've been pretty quiet

1771

01:04:44,510 --> 01:04:42,089

and that's a couple of years I mean

1772

01:04:47,180 --> 01:04:44,520

that's a long time to stay quiet and I

1773

01:04:49,069 --> 01:04:47,190

guess I'm just curious what happened or

1774

01:04:53,000 --> 01:04:49,079

what that reason might be and why the

1775

01:04:55,700 --> 01:04:53,010

re-emergence now well two angles Greg

1776

01:04:58,370 --> 01:04:55,710

one was the way that I saw the internet

1777

01:05:00,319 --> 01:04:58,380

works and again as I said I've worked at

1778

01:05:03,859 --> 01:05:00,329

universities on the Internet's on

1779

01:05:05,359 --> 01:05:03,869

learning to Internet's 1990s so on what

1780

01:05:07,670 --> 01:05:05,369

internet grow but I didn't know it's

1781

01:05:09,890 --> 01:05:07,680

going to become this thing where what

1782

01:05:12,289 --> 01:05:09,900

was pronounced by one person that would

1783

01:05:14,420 --> 01:05:12,299

echo around and become true simply from

1784

01:05:17,440 --> 01:05:14,430

the fact it was mentioned or so point

1785

01:05:20,930 --> 01:05:17,450

I'm making is that you can now go online

1786

01:05:23,539 --> 01:05:20,940

make a podcast or a statement we'll get

1787

01:05:26,210 --> 01:05:23,549

fooled by someone and simply waffle and

1788

01:05:27,559 --> 01:05:26,220

everyone's gozar us really good that

1789

01:05:30,049 --> 01:05:27,569

night you're a super soldier and you

1790

01:05:31,970 --> 01:05:30,059

kill people and then you come back and

1791

01:05:34,010 --> 01:05:31,980

you're normal person that's one example

1792

01:05:36,200 --> 01:05:34,020

but there are many so I got tired of

1793

01:05:38,630 --> 01:05:36,210

that a little bit but this is gonna give

1794

01:05:40,250 --> 01:05:38,640

some trouble if I say I put on a

1795

01:05:42,140 --> 01:05:40,260

decade's worth of Exopolitics

1796

01:05:43,760 --> 01:05:42,150

conferences okay with another guy and

1797

01:05:46,099 --> 01:05:43,770

with sort of the people and alternative

1798

01:05:48,890 --> 01:05:46,109

knowledge things I met a lot of people

1799

01:05:52,039 --> 01:05:48,900

immature Dolan's Steve Bassets many

1800

01:05:53,870 --> 01:05:52,049

people and for the latter stages as I

1801
01:05:55,579 --> 01:05:53,880
started thinking the numbers weren't

1802
01:05:57,380 --> 01:05:55,589
going up to the X protein that we're

1803
01:05:59,900 --> 01:05:57,390
putting on and I was just like this is

1804
01:06:01,760 --> 01:05:59,910
insane this subject should be viral it's

1805
01:06:04,309 --> 01:06:01,770
weird that Tom DeLonge I mention or

1806
01:06:06,410 --> 01:06:04,319
secure team 10 their video is it watched

1807
01:06:08,390 --> 01:06:06,420
by that but thousands of people tens of

1808
01:06:09,799 --> 01:06:08,400
thousands of thousand people but you

1809
01:06:11,690 --> 01:06:09,809
know I know people 18 don't get off the

1810
01:06:13,339 --> 01:06:11,700
sofa but people weren't coming in

1811
01:06:15,620 --> 01:06:13,349
increasing them was to the conference

1812
01:06:17,420 --> 01:06:15,630
that were making us broke his down

1813
01:06:20,000 --> 01:06:17,430

hardening so I started going more

1814

01:06:22,470 --> 01:06:20,010

towards the contacts here a secret space

1815

01:06:24,990 --> 01:06:22,480

I did a lot of work with Gary McKinnon

1816

01:06:27,390 --> 01:06:25,000

ten years went down to see people in

1817

01:06:29,099 --> 01:06:27,400

houses of parliament and I supported

1818

01:06:30,750 --> 01:06:29,109

gamma King and tried to get MPs on his

1819

01:06:32,819 --> 01:06:30,760

side you start getting deported to a

1820

01:06:34,980 --> 01:06:32,829

supermax prison in your country so I

1821

01:06:36,780 --> 01:06:34,990

spent little time doing that that was

1822

01:06:38,579 --> 01:06:36,790

the Penguins task as soon as he then

1823

01:06:40,230 --> 01:06:38,589

gets a reprieve the UFO people in

1824

01:06:42,870 --> 01:06:40,240

Britain come out with a like oh you know

1825

01:06:44,280 --> 01:06:42,880

Gary interview another chap but while

1826
01:06:45,690 --> 01:06:44,290
you might be in some danger fishing

1827
01:06:47,579 --> 01:06:45,700
associate and try and stop and go to

1828
01:06:50,069 --> 01:06:47,589
jail then no one watch you come forward

1829
01:06:52,290 --> 01:06:50,079
but warned that still the big names I

1830
01:06:54,480 --> 01:06:52,300
said will surely look into Exopolitics

1831
01:06:56,819 --> 01:06:54,490
we into the whole new ethology think at

1832
01:06:59,130 --> 01:06:56,829
certain point it comes down to contact

1833
01:07:02,160 --> 01:06:59,140
and let's just say fifty percent of time

1834
01:07:03,839 --> 01:07:02,170
I had a way to show Richard Dolan

1835
01:07:06,089 --> 01:07:03,849
I think they've written three volumes

1836
01:07:08,760 --> 01:07:06,099
and UFO history about that's mainly

1837
01:07:11,430 --> 01:07:08,770
possible than me or another group that

1838
01:07:14,339 --> 01:07:11,440

lives within 20 miles of me in this

1839

01:07:17,339 --> 01:07:14,349

scenario Britain could take you out for

1840

01:07:19,890 --> 01:07:17,349

four or five hours at dusk and you would

1841

01:07:21,839 --> 01:07:19,900

have interactions with what I can pretty

1842

01:07:25,319 --> 01:07:21,849

much guarantee you isn't had flares let

1843

01:07:26,910 --> 01:07:25,329

off trying to distract me by it since I

1844

01:07:28,589 --> 01:07:26,920

turn the ignition off in the car flares

1845

01:07:29,910 --> 01:07:28,599

forgot that the other side the hill but

1846

01:07:31,829 --> 01:07:29,920

they forgot I had an infrared night

1847

01:07:33,240 --> 01:07:31,839

mission I could see the smoke you know

1848

01:07:34,829 --> 01:07:33,250

if you got my site you'll see these

1849

01:07:36,870 --> 01:07:34,839

things but the point I'm making is that

1850

01:07:38,849 --> 01:07:36,880

every time I invited these big names in

1851

01:07:41,490 --> 01:07:38,859

the US big names in the UK big names in

1852

01:07:42,870 --> 01:07:41,500

Europe I'm doing I said well surely the

1853

01:07:44,700 --> 01:07:42,880

crux of this and this is where I don't

1854

01:07:46,260 --> 01:07:44,710

get this topic this is where I just left

1855

01:07:48,960 --> 01:07:46,270

and I thought washing my hands of it is

1856

01:07:50,730 --> 01:07:48,970

because surely the crux of whatever area

1857

01:07:53,250 --> 01:07:50,740

you're aiming actually the crux is that

1858

01:07:55,650 --> 01:07:53,260

you want to know that these crafts

1859

01:07:57,420 --> 01:07:55,660

whether it's past my intelligences you

1860

01:07:59,250 --> 01:07:57,430

know only slight crafter and understood

1861

01:08:00,839 --> 01:07:59,260

she want some sort of proof because

1862

01:08:03,270 --> 01:08:00,849

she'd been looking through documents for

1863

01:08:04,620 --> 01:08:03,280

us thirty bloody years and then you want

1864

01:08:07,440 --> 01:08:04,630

to know firsthand

1865

01:08:08,700 --> 01:08:07,450

unmediated this is the priesthoods did

1866

01:08:10,980 --> 01:08:08,710

this throughout our history the

1867

01:08:13,290 --> 01:08:10,990

priesthood has stopped us getting direct

1868

01:08:15,690 --> 01:08:13,300

in touch with quote God and what I meant

1869

01:08:17,280 --> 01:08:15,700

was visitors that's what that meant or

1870

01:08:19,019 --> 01:08:17,290

intelligences let's just call them now

1871

01:08:22,530 --> 01:08:19,029

I'm not saying aliens visitors

1872

01:08:24,720 --> 01:08:22,540

intelligences and I'm saying that out of

1873

01:08:26,910 --> 01:08:24,730

all the people that I asked you'd be

1874

01:08:28,470 --> 01:08:26,920

amazed who turned me down I really said

1875

01:08:30,630 --> 01:08:28,480

well look you over here for X amount of

1876

01:08:32,700 --> 01:08:30,640

days I'll put you up I'll pay for a B&B

1877

01:08:35,160 --> 01:08:32,710

as long as the weather's where I'd come

1878

01:08:36,300 --> 01:08:35,170

and there's a certain place where might

1879

01:08:38,520 --> 01:08:36,310

not be all the time but let's say

1880

01:08:40,320 --> 01:08:38,530

50/50 you'll see something I don't

1881

01:08:42,480 --> 01:08:40,330

probably respond to you and what I was

1882

01:08:44,160 --> 01:08:42,490

interested in it's all on my behalf I

1883

01:08:46,290 --> 01:08:44,170

was interested in this person who's

1884

01:08:47,640 --> 01:08:46,300

written excellent of books or been

1885

01:08:51,840 --> 01:08:47,650

around for this long I was interested in

1886

01:08:54,030 --> 01:08:51,850

how do then these rights craft plasma

1887

01:08:56,010 --> 01:08:54,040

intelligences how do they respond when

1888

01:08:58,620 --> 01:08:56,020

you have another person walking out in

1889

01:09:00,210 --> 01:08:58,630

fields with your ballots or in a car how

1890

01:09:01,890 --> 01:09:00,220

does it respond so I had an interest in

1891

01:09:03,960 --> 01:09:01,900

taking that person thing how does that

1892

01:09:07,770 --> 01:09:03,970

change the phenomena well I'll tell you

1893

01:09:09,900 --> 01:09:07,780

what 99% of those people I asked said no

1894

01:09:11,250 --> 01:09:09,910

thank you we don't want to but all these

1895

01:09:13,170 --> 01:09:11,260

people I got them well with it was about

1896

01:09:15,690 --> 01:09:13,180

me and they didn't want to come out and

1897

01:09:17,130 --> 01:09:15,700

so I can see what's going on so you can

1898

01:09:18,450 --> 01:09:17,140

write all these books you can say you

1899

01:09:20,280 --> 01:09:18,460

all this you can look at all these

1900

01:09:22,890 --> 01:09:20,290

feelings back but you don't want to then

1901

01:09:25,020 --> 01:09:22,900

go and meet what his quote might be I'm

1902

01:09:26,430 --> 01:09:25,030

not saying he is the real thing at least

1903

01:09:28,020 --> 01:09:26,440

a chance of meeting that little thing

1904

01:09:29,880 --> 01:09:28,030

and I just didn't get that and

1905

01:09:31,740 --> 01:09:29,890

disheartening I just thought what's

1906

01:09:33,660 --> 01:09:31,750

going on - people like enlighten

1907

01:09:34,890 --> 01:09:33,670

abstraction you know if you offer to

1908

01:09:36,420 --> 01:09:34,900

come face-to-face with something that

1909

01:09:39,240 --> 01:09:36,430

you've been writing and going on about

1910

01:09:40,500 --> 01:09:39,250

for 20-30 years and then you go no you

1911

01:09:43,050 --> 01:09:40,510

are right even though you're often to

1912

01:09:44,550 --> 01:09:43,060

pay my hotel fees so that was it and why

1913

01:09:46,860 --> 01:09:44,560

Jewish use to deal with the goo and how

1914

01:09:48,960 --> 01:09:46,870

that what changed that was it but now my

1915

01:09:50,790 --> 01:09:48,970

hope is that Alec will we're trying to

1916

01:09:53,910 --> 01:09:50,800

put a book together with my takes in

1917

01:09:55,470 --> 01:09:53,920

some of Duncan's Alex also wider take on

1918

01:09:57,990 --> 01:09:55,480

this and we hope it finds this time

1919

01:10:00,180 --> 01:09:58,000

intelligent audience but I'm hoping that

1920

01:10:02,340 --> 01:10:00,190

talking to people like you who Christ we

1921

01:10:04,170 --> 01:10:02,350

build a good I'm not saying can be big

1922

01:10:06,330 --> 01:10:04,180

but I'd rather have a small intelligent

1923

01:10:09,300 --> 01:10:06,340

right audience that gets Alex book and

1924

01:10:11,790 --> 01:10:09,310

that we launch at you full of contact to

1925

01:10:13,590 --> 01:10:11,800

point naught or the idea of what

1926

01:10:15,030 --> 01:10:13,600

visiting intelligence ISM or he'll the

1927

01:10:15,300 --> 01:10:15,040

Irish human beings that's what it's

1928

01:10:18,270 --> 01:10:15,310

about

1929

01:10:20,850 --> 01:10:18,280

know that plate as one's me it's not

1930

01:10:22,770 --> 01:10:20,860

about what's out there is about us so

1931

01:10:24,360 --> 01:10:22,780

that's what I came on that basically is

1932

01:10:25,860 --> 01:10:24,370

try and let's see what Alex third book

1933

01:10:28,200 --> 01:10:25,870

which is out this year hopefully will

1934

01:10:29,610 --> 01:10:28,210

encompass some of this change and let's

1935

01:10:33,390 --> 01:10:29,620

see if we can encourage a few more

1936

01:10:34,890 --> 01:10:33,400

people to not rely on the priesthood and

1937

01:10:37,110 --> 01:10:34,900

go direct

1938

01:10:39,060 --> 01:10:37,120

remove the mediator and see these things

1939

01:10:41,010 --> 01:10:39,070

however that's done the same crop

1940

01:10:42,660 --> 01:10:41,020

circles you know whatever it is that's

1941

01:10:45,080 --> 01:10:42,670

the idea but those are some of the

1942

01:10:47,630 --> 01:10:45,090

reasons that I went away

1943

01:10:49,880 --> 01:10:47,640

right on yeah well direct experience is

1944

01:10:52,400 --> 01:10:49,890

always the best it's a shame to hear you

1945

01:10:54,910 --> 01:10:52,410

felt disenfranchised marginalized and

1946

01:10:57,500 --> 01:10:54,920

frustrated with the overall community

1947

01:10:59,600 --> 01:10:57,510

but it does happen I would say keep

1948

01:11:01,940 --> 01:10:59,610

fighting your fight and doing things

1949

01:11:03,890 --> 01:11:01,950

your way and who really cares how the

1950

01:11:05,450 --> 01:11:03,900

rest of the community responds we all

1951

01:11:07,370 --> 01:11:05,460

have the internet and people can tune

1952

01:11:10,820 --> 01:11:07,380

into your own website and it doesn't

1953

01:11:13,610 --> 01:11:10,830

really matter what other voices tend to

1954

01:11:15,260 --> 01:11:13,620

think but man this has been a lot of fun

1955

01:11:17,150 --> 01:11:15,270

really great talking to you I'll

1956

01:11:19,370 --> 01:11:17,160

definitely include the resources you

1957

01:11:21,170 --> 01:11:19,380

mentioned is there anything else to tell

1958

01:11:22,610 --> 01:11:21,180

the people regarding your website or how

1959

01:11:23,690 --> 01:11:22,620

they can keep up with what you're doing

1960

01:11:27,710 --> 01:11:23,700

before I cut you loose

1961

01:11:30,020 --> 01:11:27,720

so X closest to all UK was a very high

1962

01:11:33,170 --> 01:11:30,030

traffic site actually if you want to see

1963

01:11:36,170 --> 01:11:33,180

my articles go to XO politics journal

1964

01:11:38,540 --> 01:11:36,180

org i'm the joint editor i was it shut

1965

01:11:40,340 --> 01:11:38,550

down with my silo but you'll find me

1966

01:11:42,740 --> 01:11:40,350

talking about the deep state before is

1967

01:11:44,780 --> 01:11:42,750

even mentioned on TV so Exopolitics

1968

01:11:46,790 --> 01:11:44,790

journal dog that's where you'll find you

1969

01:11:48,350 --> 01:11:46,800

can search my name i've got about ten

1970

01:11:50,630 --> 01:11:48,360

fifteen articles up there but they're

1971

01:11:53,600 --> 01:11:50,640

going back decades or decade and a half

1972

01:11:56,150 --> 01:11:53,610

but my own site export each to all UK is

1973

01:12:00,080 --> 01:11:56,160

shut down after fourteen years that you

1974

01:12:02,330 --> 01:12:00,090

can find it contact - x net and you'll

1975

01:12:03,770 --> 01:12:02,340

find a little bit of my stuff there that

1976

01:12:05,630 --> 01:12:03,780

i'm starting to build up again after

1977

01:12:07,460 --> 01:12:05,640

shutting down the Exopolitics i and

1978

01:12:09,200 --> 01:12:07,470

getting dissolution the whole scene so

1979

01:12:10,610 --> 01:12:09,210

that's it but Greg I appreciate your

1980

01:12:12,800 --> 01:12:10,620

time your patience you've been a great

1981

01:12:14,600 --> 01:12:12,810

interviewer and I appreciate the fact

1982

01:12:17,300 --> 01:12:14,610

that you probably at work looking into

1983

01:12:19,040 --> 01:12:17,310

stuff I've done and thanks to the song

1984

01:12:20,570 --> 01:12:19,050

for the siren and mr. Knowles as well

1985

01:12:23,360 --> 01:12:20,580

and I hope we can talk about that at

1986

01:12:25,850 --> 01:12:23,370

some time for sure man all in a day's

1987

01:12:27,290 --> 01:12:25,860

work and I appreciate it I'm glad you're

1988

01:12:29,630 --> 01:12:27,300

back on the scene and keep doing what

1989

01:12:30,920 --> 01:12:29,640

you do and take care out there okay

1990

01:12:33,230 --> 01:12:30,930

cheese Drake I'm going to send you some

1991

01:12:36,020 --> 01:12:33,240

more pictures so if you wish otherwise

1992

01:12:39,740 --> 01:12:36,030

besties listeners best to you and we'll

1993

01:12:43,010 --> 01:12:39,750

be in touch soon oh lordy and sweet

1994

01:12:45,380 --> 01:12:43,020

space force people David Griffin a fast

1995

01:12:47,660 --> 01:12:45,390

talker from across the pond and if you

1996

01:12:50,180 --> 01:12:47,670

followed his work a lot of this might

1997

01:12:52,550 --> 01:12:50,190

have seemed like review but call me a

1998

01:12:55,700 --> 01:12:52,560

sucker for the black goo sentient nano

1999

01:12:58,580 --> 01:12:55,710

fluid stuff I think this is just a

2000

01:12:58,910 --> 01:12:58,590

really engrossing saga a quick war over

2001

01:13:01,250 --> 01:12:58,920

a nail

2002

01:13:03,560 --> 01:13:01,260

an outpost secret technology discovered

2003

01:13:05,570 --> 01:13:03,570

attempts to fold it into some deep state

2004

01:13:07,790 --> 01:13:05,580

corporate research and then wipe out

2005

01:13:09,620 --> 01:13:07,800

anyone who learned about it maybe this

2006

01:13:12,169 --> 01:13:09,630

stuff is the very AI controlled

2007

01:13:15,620 --> 01:13:12,179

substance that unpacked it's coded DNA

2008

01:13:18,320 --> 01:13:15,630

and terraform the planet I have no idea

2009

01:13:19,939 --> 01:13:18,330

I haven't seen this stuff but David's

2010

01:13:22,729 --> 01:13:19,949

presentations going back a few years

2011

01:13:25,250 --> 01:13:22,739

really impressed me and I'm psyched he

2012

01:13:28,280 --> 01:13:25,260

decided to come back on the scene via

2013

01:13:29,959 --> 01:13:28,290

the higher side chats it was also nice

2014

01:13:32,180 --> 01:13:29,969

to talk about Elizabeth Fraser with

2015

01:13:34,550 --> 01:13:32,190

someone else to write a bit of a

2016

01:13:37,160 --> 01:13:34,560

different take but the major themes of

2017

01:13:39,890 --> 01:13:37,170

channeling and premonition are still

2018

01:13:42,500 --> 01:13:39,900

there but if David has more info to come

2019

01:13:44,660 --> 01:13:42,510

out with I'm glad we got introduced so

2020

01:13:46,520 --> 01:13:44,670

that maybe we can talk to some of the

2021

01:13:49,370 --> 01:13:46,530

people David works with and explore a

2022

01:13:50,720 --> 01:13:49,380

few more elements of this stuff I would

2023

01:13:52,790 --> 01:13:50,730

try to make sure he's got a better

2024

01:13:55,370 --> 01:13:52,800

recording environment next time this was

2025

01:13:58,760 --> 01:13:55,380

okay but I'd want to work with him on

2026

01:14:01,430 --> 01:13:58,770

that before we did it again I tried to

2027

01:14:04,070 --> 01:14:01,440

press a bit on the issue also of how do

2028

01:14:06,439 --> 01:14:04,080

we know this was an alien base it's on

2029

01:14:08,840 --> 01:14:06,449

Thule Island how do we know it wasn't

2030

01:14:10,910 --> 01:14:08,850

some hidden Nazi base and then he told

2031

01:14:13,400 --> 01:14:10,920

us that they did find a Nazi emblem

2032

01:14:16,100 --> 01:14:13,410

there so now I'm really confused I don't

2033

01:14:18,650 --> 01:14:16,110

know what to think but maybe there is an

2034

01:14:22,160 --> 01:14:18,660

alignment of strange factions there

2035

01:14:24,500 --> 01:14:22,170

we've heard about it before so it's hard

2036

01:14:26,840 --> 01:14:24,510

to say what it is but there's surely a

2037

01:14:30,830 --> 01:14:26,850

subtext to the Falklands War that has

2038

01:14:34,490 --> 01:14:30,840

gone undisclosed and a place called dual

2039

01:14:37,610 --> 01:14:34,500

island being the ground zero for it

2040

01:14:40,040 --> 01:14:37,620

already has me excited from the jump I

2041

01:14:41,750 --> 01:14:40,050

think he's just put together an immense

2042

01:14:44,300 --> 01:14:41,760

amount of research too I mean he's fired

2043

01:14:45,680 --> 01:14:44,310

so many photos and documents at me

2044

01:14:49,010 --> 01:14:45,690

sometimes I don't know what I'm looking

2045

01:14:51,350 --> 01:14:49,020

at but it is obvious that the research

2046

01:14:54,050 --> 01:14:51,360

has gone really deep and is quite

2047

01:14:58,130 --> 01:14:54,060

respectable and I'm gonna try to include

2048

01:15:01,700 --> 01:14:58,140

as many links as I can for you he sent

2049

01:15:04,939 --> 01:15:01,710

me a zip file that did not work but I'm

2050

01:15:06,709 --> 01:15:04,949

gonna see what I can do it's a trip and

2051

01:15:09,260 --> 01:15:06,719

I know David doesn't love the black goo

2052

01:15:12,560 --> 01:15:09,270

term either but it's a popular one I

2053

01:15:14,149 --> 01:15:12,570

mean it's stuck no pun intended

2054

01:15:16,700 --> 01:15:14,159

as always if you like the first hour

2055

01:15:20,390 --> 01:15:16,710

join th c+ and listen to that second

2056

01:15:23,419 --> 01:15:20,400

hour of this and every show today we got

2057

01:15:26,120 --> 01:15:23,429

into some of the latest chapters in the

2058

01:15:28,399 --> 01:15:26,130

black goo story where the ETS are

2059

01:15:30,589 --> 01:15:28,409

congregating now how the Great Wall of

2060

01:15:33,890 --> 01:15:30,599

China and the Gulf oil spill could

2061

01:15:36,830 --> 01:15:33,900

possibly relate to this hidden narrative

2062

01:15:38,510 --> 01:15:36,840

and gary mckinnon came up as well and i

2063

01:15:40,459 --> 01:15:38,520

was thinking about his story in the wake

2064

01:15:42,260 --> 01:15:40,469

of the newly revealed space force and

2065

01:15:44,270 --> 01:15:42,270

I'm pretty sure Gary used that exact

2066

01:15:46,010 --> 01:15:44,280

term 15 years ago when he tapped into

2067

01:15:48,410 --> 01:15:46,020

the Pentagon computers and found that

2068

01:15:51,439 --> 01:15:48,420

list of military space personnel out on

2069

01:15:55,100 --> 01:15:51,449

an undisclosed space platform and here's

2070

01:15:56,810 --> 01:15:55,110

a fun fact for you guys I recently like

2071

01:15:57,379 --> 01:15:56,820

three days ago reached out to Gary

2072

01:15:59,959 --> 01:15:57,389

McKinnon

2073

01:16:02,660 --> 01:15:59,969

and I asked him if he'd be interested in

2074

01:16:05,030 --> 01:16:02,670

coming on the higher side chats and he

2075

01:16:07,640 --> 01:16:05,040

did respond but unfortunately he

2076

01:16:09,350 --> 01:16:07,650

declined saying that what he went

2077

01:16:10,939 --> 01:16:09,360

through was not pleasant and he doesn't

2078

01:16:13,850 --> 01:16:10,949

really want to talk about it anymore

2079

01:16:16,069 --> 01:16:13,860

and that's sad for us but I definitely

2080

01:16:18,229 --> 01:16:16,079

understand I actually felt honored to

2081

01:16:20,209 --> 01:16:18,239

even get a personal response because I

2082

01:16:22,930 --> 01:16:20,219

do have so much respect for what he went

2083

01:16:25,520 --> 01:16:22,940

through and what he was able to expose I

2084

01:16:27,740 --> 01:16:25,530

already had a lot of confidence in the

2085

01:16:29,359 --> 01:16:27,750

truth of his story but the fact that he

2086

01:16:31,970 --> 01:16:29,369

declined the interview I think adds

2087

01:16:35,060 --> 01:16:31,980

credibility if he was running some kind

2088

01:16:36,859 --> 01:16:35,070

of hoax or SIOP then he'd be paid to do

2089

01:16:39,500 --> 01:16:36,869

shows like this and talk about it

2090

01:16:41,450 --> 01:16:39,510

instead he's a guy who faced the wrath

2091

01:16:44,390 --> 01:16:41,460

of the US government and does not want

2092

01:16:46,250 --> 01:16:44,400

to reignite that fire I get it

2093

01:16:48,140 --> 01:16:46,260

I respect it and I don't blame him I

2094

01:16:51,859 --> 01:16:48,150

just wanted to give him a shout out

2095

01:16:54,319 --> 01:16:51,869

anyway I hope he's doing well but there

2096

01:16:56,390 --> 01:16:54,329

we have it if you think I should do a

2097

01:16:58,459 --> 01:16:56,400

show with David and maybe even Alec

2098

01:17:01,010 --> 01:16:58,469

Newall door Duncan Rhodes from Nexus

2099

01:17:03,109 --> 01:17:01,020

magazine let me know because David

2100

01:17:05,479 --> 01:17:03,119

suggested that he could make that happen

2101
01:17:06,830 --> 01:17:05,489
and now the David officially knows no

2102
01:17:08,540 --> 01:17:06,840
one gets away from the Carl would in

2103
01:17:12,500 --> 01:17:08,550
under two hours I mean who knows what we

2104
01:17:15,680 --> 01:17:12,510
could get into a little reference mainly

2105
01:17:15,919 --> 01:17:15,690
for the plus people but I'm glad we did

2106
01:17:17,750 --> 01:17:15,929
this

2107
01:17:20,720 --> 01:17:17,760
a real unique set of stories for the

2108
01:17:21,979 --> 01:17:20,730
archives and I'm pretty happy and next

2109
01:17:23,959 --> 01:17:21,989
week we're going to get into a bunch of

2110
01:17:26,420 --> 01:17:23,969
current event stories with a great new

2111
01:17:30,080 --> 01:17:26,430
guest a lot of people wish to

2112
01:17:31,700 --> 01:17:30,090
she was more quote on trend but I kind

2113
01:17:33,560 --> 01:17:31,710

of like to do my own thing unless

2114

01:17:35,510 --> 01:17:33,570

there's a huge unavoidable event of

2115

01:17:39,920 --> 01:17:35,520

course but I don't want to get blown

2116

01:17:43,070 --> 01:17:39,930

away with the media and the trendy

2117

01:17:44,720 --> 01:17:43,080

stories of the day I also like to let

2118

01:17:46,880 --> 01:17:44,730

things happen and make sure that we

2119

01:17:49,880 --> 01:17:46,890

don't jump the gun too early and cover

2120

01:17:52,340 --> 01:17:49,890

something wrong I'm not always

2121

01:17:55,310 --> 01:17:52,350

interested in being first you know I

2122

01:17:58,040 --> 01:17:55,320

just wanted to be good and things are

2123

01:18:01,100 --> 01:17:58,050

just so chaotic out there now it's like

2124

01:18:03,140 --> 01:18:01,110

for a conspiracy show trying to parse

2125

01:18:05,660 --> 01:18:03,150

out the truth in the narratives that are

2126
01:18:07,940 --> 01:18:05,670
being thrown around looking at how at

2127
01:18:10,220 --> 01:18:07,950
odds the presidential administration is

2128
01:18:13,190 --> 01:18:10,230
with the media and the established power

2129
01:18:15,950 --> 01:18:13,200
they're sure it could be absolutely a

2130
01:18:17,690 --> 01:18:15,960
manufactured conflict but with a lot of

2131
01:18:19,610 --> 01:18:17,700
the latest issues you have to choose

2132
01:18:22,220 --> 01:18:19,620
between trusting the government or the

2133
01:18:24,700 --> 01:18:22,230
media because their stories on multiple

2134
01:18:27,860 --> 01:18:24,710
fronts are just completely at odds and

2135
01:18:30,200 --> 01:18:27,870
both the elite class businessmen and

2136
01:18:32,750 --> 01:18:30,210
politicians and the project Mockingbird

2137
01:18:36,200 --> 01:18:32,760
dominated media are both experts at

2138
01:18:37,760 --> 01:18:36,210

and charging up our emotions so

2139

01:18:40,580 --> 01:18:37,770

we just got to be careful what we get

2140

01:18:43,580 --> 01:18:40,590

caught up in just because the media

2141

01:18:45,770 --> 01:18:43,590

tells us it's happening you can of

2142

01:18:47,020 --> 01:18:45,780

course go too far with that too and I

2143

01:18:50,300 --> 01:18:47,030

don't really know what to say

2144

01:18:53,030 --> 01:18:50,310

beyond that except get ready for the

2145

01:18:54,680 --> 01:18:53,040

next episode you might like it it is a

2146

01:18:57,140 --> 01:18:54,690

perspective you aren't used to hearing

2147

01:18:59,990 --> 01:18:57,150

me cover but we're gonna go there

2148

01:19:02,540 --> 01:19:00,000

regardless these episodes are about the

2149

01:19:05,650 --> 01:19:02,550

guests perspective not necessarily mine

2150

01:19:08,180 --> 01:19:05,660

so no conspiracy left behind right

2151

01:19:10,370 --> 01:19:08,190

people definitely love the last show

2152

01:19:12,110 --> 01:19:10,380

with Ross Ben I know I did and a lot of

2153

01:19:14,630 --> 01:19:12,120

people told me that they listened to it

2154

01:19:17,560 --> 01:19:14,640

two or three times and that's great that

2155

01:19:22,070 --> 01:19:17,570

is one I was really pumped to release I

2156

01:19:25,100 --> 01:19:22,080

also think this is a great complete 180

2157

01:19:25,940 --> 01:19:25,110

crazy story too so I hope you learned a

2158

01:19:28,100 --> 01:19:25,950

little something

2159

01:19:30,140 --> 01:19:28,110

hope you had a good time big thanks to

2160

01:19:31,160 --> 01:19:30,150

David Griffin and I'll see you soon I've

2161

01:19:33,200 --> 01:19:31,170

done my part

2162

01:19:35,420 --> 01:19:33,210

your move extraterrestrial base

2163

2164

01:19:45,479 --> 01:19:37,610

routers and guardians of the black goo

2165

01:19:56,140 --> 01:19:52,419

maybe you'll see goddamn let's plan no

2166

01:20:01,290 --> 01:19:56,150

fan spray in on me

01:20:09,440 --> 01:20:07,240

because that

2169

01:20:16,360 --> 01:20:09,450

[Music]

2170

01:20:23,150 --> 01:20:16,370

oh it go it gone bye-bye

2175

01:21:16,590 --> 01:21:12,020

don't you know

2176

01:21:16,600 --> 01:21:21,630

[Music]
