[Music]

2  
00:00:08,169 --> 00:00:05,690

congratulations YouTube you did it you

3  
00:00:10,660 --> 00:00:08,179

wore me down and you sucked me back in I

4  
00:00:13,270 --> 00:00:10,670

have too many subscribers here just to

5  
00:00:15,789 --> 00:00:13,280

walk away entirely especially with no

6  
00:00:18,009 --> 00:00:15,799

alternative that truly stacks up and so

7  
00:00:21,399 --> 00:00:18,019

many copycat channels uploading my shows

8  
00:00:24,579 --> 00:00:21,409

for me anyway but we can't forget the th

9  
00:00:26,200 --> 00:00:24,589

C's account here is on thin ice and so

10  
00:00:29,290 --> 00:00:26,210

the YouTube version of the show has to

11  
00:00:32,200 --> 00:00:29,300

be prefaced with this little PSA only to

12  
00:00:33,369 --> 00:00:32,210

say that episodes that contain the kinds

13  
00:00:36,250 --> 00:00:33,379

of themes that have been regularly

14

00:00:38,709 --> 00:00:36,260

banned on YouTube will not appear here

15

00:00:40,660 --> 00:00:38,719

and even with that precaution there's

16

00:00:42,939 --> 00:00:40,670

already enough in the archive to get us

17

00:00:45,310 --> 00:00:42,949

removed so remember that the higher side

18

00:00:48,160 --> 00:00:45,320

chats could be banned or put in timeout

19

00:00:50,200 --> 00:00:48,170

again at any time and I won't be able to

20

00:00:52,000 --> 00:00:50,210

tell you guys about it so if you feel

21

00:00:53,500 --> 00:00:52,010

like it's been too long since you've

22

00:00:56,590 --> 00:00:53,510

heard from me here on this digital

23

00:00:59,410 --> 00:00:56,600

dystopian draconian data-mining monster

24

00:01:00,910 --> 00:00:59,420

of a police state seeking platform your

25

00:01:03,180 --> 00:01:00,920

first step should be to check the higher

26

00:01:08,920 --> 00:01:03,190

side chats calm for the latest shows

27

00:01:10,630 --> 00:01:08,930

alright alright enjoy embrace yourself

29

00:01:14,440 --> 00:01:12,560

another free first hour episode of the

30

00:01:15,639 --> 00:01:14,450

higher side chats and we just want to

31

00:01:17,260 --> 00:01:15,649

let you know that whether you're looking

32

00:01:19,270 --> 00:01:17,270

for a companion through your paranoid

33

00:01:21,399 --> 00:01:19,280

insomnia entertaining yourself through

34

00:01:23,020 --> 00:01:21,409

one of life's mundane activities or

35

00:01:25,090 --> 00:01:23,030

trying to ward off the internal scream

36

00:01:27,850 --> 00:01:25,100

to all those sad smothered Souls around

37

00:01:29,080 --> 00:01:27,860

the office THC is here and you should

38

00:01:31,060 --> 00:01:29,090

know that every episode of the higher

39

troubled times always action-packed and

51  
00:02:06,650 --> 00:02:00,439  
commercial free which means you'll

52  
00:02:06,660 --> 00:02:17,210  
[Music]

53  
00:02:23,309 --> 00:02:20,520  
the planets puppet-masters on my shirt

54  
00:02:26,059 --> 00:02:23,319  
we have a plan it's clearly maybe

55  
00:02:28,890 --> 00:02:26,069  
something there beyond the realm of man

56  
00:02:31,770 --> 00:02:28,900  
till we've thoroughly tested every last

57  
00:02:34,620 --> 00:02:31,780  
clothes just did you find the boy you

58  
00:02:39,800 --> 00:02:34,630  
think you know much you really do

59  
00:02:43,740 --> 00:02:39,810  
[Music]

60  
00:02:46,910 --> 00:02:43,750  
see we know the lying to us just don't

61  
00:02:49,190 --> 00:02:46,920  
know what to green where would we be

62  
00:03:07,400 --> 00:02:49,200  
without

63  
00:03:09,080 --> 00:03:07,410

a car wouldn't come alright higher side

64

00:03:11,180 --> 00:03:09,090

Cheddar's we have read between enough

65

00:03:13,070 --> 00:03:11,190

lines by now to know that a carefully

66

00:03:15,770 --> 00:03:13,080

crafted box of convention has been

67

00:03:17,479 --> 00:03:15,780

placed over our mundane modern lives and

68

00:03:19,160 --> 00:03:17,489

people have become more enthralled with

69

00:03:21,740 --> 00:03:19,170

scrolling through their phones than

70

00:03:23,720 --> 00:03:21,750

discovering the real mysteries magic and

71

00:03:26,900 --> 00:03:23,730

rich hidden history that's usually all

72

00:03:29,690 --> 00:03:26,910

around them ley lines energy vortexes

73

00:03:31,069 --> 00:03:29,700

sacred geometry ancient mounds ruins

74

00:03:33,890 --> 00:03:31,079

that align with the night sky

75

00:03:36,140 --> 00:03:33,900

cannibalistic giants healing hot springs

76

00:03:40,069 --> 00:03:36,150

the amplification and harnessing of the

77

00:03:42,020 --> 00:03:40,079

Earth's natural energy flow etc etc of

78

00:03:44,420 --> 00:03:42,030

course many of these things are spread

79

00:03:46,280 --> 00:03:44,430

all across America and while a lot of

80

00:03:48,530 --> 00:03:46,290

Americans might be enamored by the Giza

81

00:03:51,259 --> 00:03:48,540

Plateau gobekli tepe or the stone

82

00:03:53,150 --> 00:03:51,269

circles of the British Isles sadly we

83

00:03:55,610 --> 00:03:53,160

are largely ignorant of the sullied

84

00:03:57,140 --> 00:03:55,620

history of our own surroundings most

85

00:03:59,180 --> 00:03:57,150

likely because the official version

86

00:04:01,370 --> 00:03:59,190

minimizes the crimes of the European

87

00:04:03,259 --> 00:04:01,380

invasion but also because many of the

88

00:04:05,740 --> 00:04:03,269

colonialists and early founders were

89

00:04:07,849 --> 00:04:05,750

deeply embedded in the esoteric arts

90

00:04:10,280 --> 00:04:07,859

Freemasonry and a plethora of other

91

00:04:12,620 --> 00:04:10,290

secret societies and they have both

92

00:04:14,030 --> 00:04:12,630

co-opted the environmental magic that

93

00:04:16,490 --> 00:04:14,040

was used by the people who were here

94

00:04:18,050 --> 00:04:16,500

before and also built and ritualized

95

00:04:19,909 --> 00:04:18,060

many of their own structures and

96

00:04:21,590 --> 00:04:19,919

monuments that harness these very same

97

00:04:23,719 --> 00:04:21,600

forces they'd rather you just know

98

00:04:26,150 --> 00:04:23,729

nothing about well we've talked about

99

00:04:28,640 --> 00:04:26,160

the free masonic layout of washington

100

00:04:30,409 --> 00:04:28,650

d.c nearly to death but we know the

101  
00:04:32,360 --> 00:04:30,419  
American landscape holds many other

102  
00:04:35,180 --> 00:04:32,370  
things of interest and that brings me to

103  
00:04:37,460 --> 00:04:35,190  
today's guest Corey Daniel Corey is a

104  
00:04:39,379 --> 00:04:37,470  
third-generation Phoenician writer

105  
00:04:41,180 --> 00:04:39,389  
researcher and professional guide

106  
00:04:43,520 --> 00:04:41,190  
currently living in the Phoenix Arizona

107  
00:04:45,650 --> 00:04:43,530  
area and he has spent most of his life

108  
00:04:47,900 --> 00:04:45,660  
immersing himself in his environment and

109  
00:04:50,240 --> 00:04:47,910  
learning all he can about desert flora

110  
00:04:53,120 --> 00:04:50,250  
Native American cultures religion

111  
00:04:55,279 --> 00:04:53,130  
physics poetry botany philosophy

112  
00:04:58,580 --> 00:04:55,289  
primitive survival traditional archery

113  
00:05:00,440 --> 00:04:58,590

and the occult he since taken his

114

00:05:01,990 --> 00:05:00,450

passion and knowledge to the net with

115

00:05:04,150 --> 00:05:02,000

bee Phoenix enigma

116

00:05:06,040 --> 00:05:04,160

deeply fascinating website devoted to

117

00:05:08,560 --> 00:05:06,050

decoding and reverse engineering the

118

00:05:10,990 --> 00:05:08,570

esoteric symbolism history and mystery

119

00:05:11,620 --> 00:05:11,000

of the magical microcosm that is Phoenix

120

00:05:13,630 --> 00:05:11,630

Arizona

121

00:05:15,550 --> 00:05:13,640

he's blowing my mind more than once and

122

00:05:17,350 --> 00:05:15,560

I wish every major city had someone so

123

00:05:19,590 --> 00:05:17,360

dedicated to digging out the good stuff

124

00:05:22,510 --> 00:05:19,600

the teller of untold tales an esoteric

125

00:05:25,210 --> 00:05:22,520

Arizonian Explorer extraordinaire Corey

126

00:05:27,430 --> 00:05:25,220

Daniel welcome to the higher side thank

127

00:05:27,700 --> 00:05:27,440

you for the intro very much I appreciate

128

00:05:31,090 --> 00:05:27,710

that

129

00:05:33,820 --> 00:05:31,100

yeah I wish everyone was so enthusiastic

130

00:05:35,770 --> 00:05:33,830

about my work as you are great I think

131

00:05:37,330 --> 00:05:35,780

they will be man because I mean there is

132

00:05:39,250 --> 00:05:37,340

just so much to talk about I know we're

133

00:05:40,780 --> 00:05:39,260

not going to get to it all and I've been

134

00:05:42,970 --> 00:05:40,790

really looking forward to this for a

135

00:05:44,680 --> 00:05:42,980

couple of weeks it's become really one

136

00:05:48,340 --> 00:05:44,690

of my favorite types of shows to do a

137

00:05:50,890 --> 00:05:48,350

deep look into one area or city full of

138

00:05:53,020 --> 00:05:50,900

rich history and mystery to unpack we've

139

00:05:55,240 --> 00:05:53,030

talked to guests who have become similar

140

00:05:57,610 --> 00:05:55,250

types of scholars about places like the

141

00:05:59,800 --> 00:05:57,620

Susquehanna River or the city of

142

00:06:02,380 --> 00:05:59,810

Philadelphia and I'm just pretty psyched

143

00:06:03,940 --> 00:06:02,390

to expose the audience to the awesome

144

00:06:06,400 --> 00:06:03,950

stuff you've uncovered about the Phoenix

145

00:06:08,440 --> 00:06:06,410

area and maybe to kick this off you can

146

00:06:10,360 --> 00:06:08,450

give us a little overview of your

147

00:06:12,159 --> 00:06:10,370

thoughts on Phoenix Arizona now that

148

00:06:14,560 --> 00:06:12,169

you've learned all these things and

149

00:06:17,020 --> 00:06:14,570

maybe a bit of how you got all that

150

00:06:18,790 --> 00:06:17,030

insight I mean this is not the kind of

151

00:06:21,460 --> 00:06:18,800

stuff you come across every day you know

152

00:06:25,150 --> 00:06:21,470

no you're right it's not it didn't all

153

00:06:27,130 --> 00:06:25,160

come at once it was me growing up in

154

00:06:29,590 --> 00:06:27,140

Phoenix and tell you the truth there was

155

00:06:32,200 --> 00:06:29,600

really no interest in my own town until

156

00:06:33,670 --> 00:06:32,210

I moved out of it and I moved to the

157

00:06:36,190 --> 00:06:33,680

western part of the state when I was

158

00:06:37,930 --> 00:06:36,200

about eighteen cowboied for a few years

159

00:06:41,170 --> 00:06:37,940

and ran the family business we owned

160

00:06:42,850 --> 00:06:41,180

operated gas stations but that gas

161

00:06:45,490 --> 00:06:42,860

station where I went to was in the

162

00:06:47,680 --> 00:06:45,500

middle of nowhere it's about 300 people

163

00:06:51,610 --> 00:06:47,690

halfway to Las Vegas from Phoenix it's

164

00:06:52,510 --> 00:06:51,620

called wickiup Arizona and that town is

165

00:06:56,170 --> 00:06:52,520

probably one of the most mysterious

166

00:06:58,090 --> 00:06:56,180

places in my opinion in Arizona and I

167

00:06:59,590 --> 00:06:58,100

met an old a hippie they've been living

168

00:07:01,630 --> 00:06:59,600

there and he was into the occult and

169

00:07:03,940 --> 00:07:01,640

Egypt in the ancient mysteries I

170

00:07:06,280 --> 00:07:03,950

befriended him and we just roamed those

171

00:07:09,190 --> 00:07:06,290

deserts for years out there and when I

172

00:07:13,060 --> 00:07:09,200

moved back to Phoenix everything that I

173

00:07:16,180 --> 00:07:13,070

had become out there in that desert with

174

00:07:18,250 --> 00:07:16,190

my hometown coming back at me

175

00:07:20,950 --> 00:07:18,260

start studying and I don't know why and

176

00:07:22,840 --> 00:07:20,960

I started recognizing all the pyramids

177

00:07:24,880 --> 00:07:22,850

around Phoenix and then I got into the

178

00:07:25,750 --> 00:07:24,890

history a little bit then I became a

179

00:07:28,090 --> 00:07:25,760

tour guide

180

00:07:31,570 --> 00:07:28,100

I had to reinvent myself after Oh eight

181

00:07:33,670 --> 00:07:31,580

oh nine the crash came and like a lot of

182

00:07:36,820 --> 00:07:33,680

people we lost everything we had and I

183

00:07:38,170 --> 00:07:36,830

became a tour guide and just dove in a

184

00:07:39,630 --> 00:07:38,180

hundred percent into the history of

185

00:07:42,400 --> 00:07:39,640

Phoenix and that's when everything

186

00:07:44,200 --> 00:07:42,410

coalesced and if you have a background

187

00:07:47,620 --> 00:07:44,210

in the occult and you have a background

188

00:07:49,450 --> 00:07:47,630

in botany or pharmakeia or witchcraft as

189

00:07:52,420 --> 00:07:49,460

we know it and you start putting it

190

00:07:54,760 --> 00:07:52,430

together with the modern-day pieces of

191

00:07:57,310 --> 00:07:54,770

art that's commissioned and the speeches

192

00:07:59,530 --> 00:07:57,320

and then it just rolled to make a long

193

00:08:01,570 --> 00:07:59,540

story short in it there's a point at

194

00:08:03,940 --> 00:08:01,580

which all knowledge really does dovetail

195

00:08:07,750 --> 00:08:03,950

whether you're talking about Western

196

00:08:09,670 --> 00:08:07,760

history or botany or the occult there's

197

00:08:11,980 --> 00:08:09,680

a point where it all intersects and

198

00:08:14,290 --> 00:08:11,990

that's where I'm at and my bubble is

199

00:08:18,340 --> 00:08:14,300

Phoenix and I'm glad it is because it is

200

00:08:21,100 --> 00:08:18,350

a rich untapped undiscovered nest in

201  
00:08:22,870 --> 00:08:21,110  
hive of Freemasonry and that's what I've

202  
00:08:26,560 --> 00:08:22,880  
been concentrating on for the past four

203  
00:08:30,100 --> 00:08:26,570  
years here hmm yes it seems like a real

204  
00:08:32,140 --> 00:08:30,110  
hotbed for ancient civilization as well

205  
00:08:35,770 --> 00:08:32,150  
as being established in this round of

206  
00:08:38,770 --> 00:08:35,780  
human history as a free Masonic ritual

207  
00:08:41,409 --> 00:08:38,780  
or I don't know experiment or Haven and

208  
00:08:43,089 --> 00:08:41,419  
both of these things speak to some

209  
00:08:45,850 --> 00:08:43,099  
natural qualities that certain people

210  
00:08:48,490 --> 00:08:45,860  
appreciate and others miss entirely but

211  
00:08:50,410 --> 00:08:48,500  
if we were gonna focus on the naming or

212  
00:08:53,050 --> 00:08:50,420  
the founding of Phoenix or even the

213  
00:08:55,150 --> 00:08:53,060

whole state of Arizona these are loaded

214

00:08:57,340 --> 00:08:55,160

names that mean something to people in

215

00:08:59,140 --> 00:08:57,350

the know how did they get them because

216

00:09:01,960 --> 00:08:59,150

you seem to be of the mindset that this

217

00:09:05,290 --> 00:09:01,970

was a very calculated free Masonic

218

00:09:07,630 --> 00:09:05,300

operation from the start right yeah

219

00:09:09,190 --> 00:09:07,640

so I'm going to give a somewhat of a

220

00:09:11,140 --> 00:09:09,200

long answer here but it's going to come

221

00:09:14,020 --> 00:09:11,150

back around the conversation when we get

222

00:09:16,750 --> 00:09:14,030

there later on to understand everything

223

00:09:19,150 --> 00:09:16,760

about Phoenix and why it is a hive of

224

00:09:22,380 --> 00:09:19,160

Freemasonry you have to understand the

225

00:09:24,730 --> 00:09:22,390

ancient culture that used to be here

226

00:09:26,980 --> 00:09:24,740

anthropologist archeologists the group

227

00:09:29,950 --> 00:09:26,990

Native Americans kind of into two groups

228

00:09:32,230 --> 00:09:29,960

tribes after 1500 or Spanish Europe

229

00:09:33,130 --> 00:09:32,240

in contact and cultures prior to that

230

00:09:36,040 --> 00:09:33,140

because we really don't know a lot about

231

00:09:38,440 --> 00:09:36,050

them and we just kind of separate them

232

00:09:40,750 --> 00:09:38,450

by artwork and burial rites trading

233

00:09:42,730 --> 00:09:40,760

patterns and architecture in the Phoenix

234

00:09:46,240 --> 00:09:42,740

area was a culture by the name of the

235

00:09:48,310 --> 00:09:46,250

Hohokam HOH okay am Hohokam

236

00:09:50,740 --> 00:09:48,320

and that's a Pima word and that's a

237

00:09:52,449 --> 00:09:50,750

local tribe today and the word Hohokam

238

00:09:53,460 --> 00:09:52,459

means those who are vanquished for those

239

00:09:56,550 --> 00:09:53,470

who are all used up

240

00:09:59,889 --> 00:09:56,560

they were here between about 300 BC and

241

00:10:03,040 --> 00:09:59,899

1425 AD and they were known for doing

242

00:10:05,560 --> 00:10:03,050

primarily two things one of which was

243

00:10:07,449 --> 00:10:05,570

digging canals they constructed a canal

244

00:10:11,560 --> 00:10:07,459

system in the Phoenix Basin or the Salt

245

00:10:15,070 --> 00:10:11,570

River Valley of over 1,000 miles of

246

00:10:16,660 --> 00:10:15,080

canals hmm 200 miles of which were

247

00:10:20,320 --> 00:10:16,670

called trunk canals they're about 70

248

00:10:21,760 --> 00:10:20,330

feet across by 20 feet deep mm-hmm and

249

00:10:24,760 --> 00:10:21,770

if you're good at math that's about 50

250

00:10:26,949 --> 00:10:24,770

4.6 million cubic yards of Earth those

251

00:10:28,329 --> 00:10:26,959

then fed out and feeder canals and

252

00:10:31,570 --> 00:10:28,339

distribution canals and they're 800

253

00:10:33,190 --> 00:10:31,580

miles of canals about 20 feet across by

254

00:10:35,320 --> 00:10:33,200

5 feet deep and they irrigated a hundred

255

00:10:37,390 --> 00:10:35,330

thousand acres of land Wow

256

00:10:38,769 --> 00:10:37,400

yeah this isn't a bunch of spear

257

00:10:40,900 --> 00:10:38,779

chucking hide we're and wagon burn and

258

00:10:42,730 --> 00:10:40,910

savages you got some serious engineering

259

00:10:44,470 --> 00:10:42,740

going on here and this is where I first

260

00:10:46,620 --> 00:10:44,480

dove in and this is the beginning of my

261

00:10:50,199 --> 00:10:46,630

journey that's why I'm starting here

262

00:10:53,740 --> 00:10:50,209

when the founding fathers got here they

263

00:10:57,130 --> 00:10:53,750

found the canals were all covered in the

264

00:10:58,600 --> 00:10:57,140

floods that had happened from 1425 since

265

00:10:59,490 --> 00:10:58,610

had just covered in all these canals and

266

00:11:03,850 --> 00:10:59,500

that's when the Hohokam

267

00:11:05,920 --> 00:11:03,860

dispersed but before we get there know

268

00:11:08,230 --> 00:11:05,930

that these canals are dug to a perfect

269

00:11:10,690 --> 00:11:08,240

gradient of three to four feet of drop

270

00:11:12,220 --> 00:11:10,700

per mile and the reason why that

271

00:11:13,660 --> 00:11:12,230

gradient is important because for the

272

00:11:16,600 --> 00:11:13,670

silt and the Salt River

273

00:11:19,480 --> 00:11:16,610

it's the perfect gradient so that it

274

00:11:23,140 --> 00:11:19,490

doesn't IIE tear out the sides of the

275

00:11:26,470 --> 00:11:23,150

canals or it doesn't deposit and fill

276

00:11:28,960 --> 00:11:26,480

them up they used Weir's which is a 3/4

277

00:11:31,960 --> 00:11:28,970

dam pointing up flow so it pressurizes

278

00:11:33,790 --> 00:11:31,970

the water to get it to go over a hill or

279

00:11:35,560 --> 00:11:33,800

pump it uphill a little bit they

280

00:11:38,350 --> 00:11:35,570

utilized flood gates and they farmed

281

00:11:41,560 --> 00:11:38,360

fish in these canals their main crop was

282

00:11:43,360 --> 00:11:41,570

cotton which harkens to Egypt if you're

283

00:11:46,150 --> 00:11:43,370

thinking along the lines here

284

00:11:48,430 --> 00:11:46,160

in fact today the Pima Indians still

285

00:11:50,710 --> 00:11:48,440

produce a cotton called pima cotton if

286

00:11:52,210 --> 00:11:50,720

you've ever bought that men shirts and

287

00:11:54,430 --> 00:11:52,220

sheets are made out of pima cotton the

288

00:11:56,440 --> 00:11:54,440

second finest cotton on earth and that's

289

00:11:58,150 --> 00:11:56,450

because the botanist came here in 1905

290

00:12:00,400 --> 00:11:58,160

found this cotton that had been grown

291

00:12:02,560 --> 00:12:00,410

for 2,000 years in the Phoenix Basin and

292

00:12:05,530 --> 00:12:02,570

hybrid it with an Egyptian strain and

293

00:12:08,410 --> 00:12:05,540

they still grow it today but to the

294

00:12:10,150 --> 00:12:08,420

point here you have this ancient culture

295

00:12:13,390 --> 00:12:10,160

called the Hohokam who constructed over

296

00:12:15,190 --> 00:12:13,400

1,000 miles of canals to a perfect

297

00:12:18,190 --> 00:12:15,200

gradient they had no written language

298

00:12:20,590 --> 00:12:18,200

they left no mathematics they had no

299

00:12:22,810 --> 00:12:20,600

metallurgy skills they had no wheel and

300

00:12:24,790 --> 00:12:22,820

they had no pack animals supposably they

301  
00:12:27,040 --> 00:12:24,800  
dug these canals with sharp sticks and

302  
00:12:29,920 --> 00:12:27,050  
flat rocks and they moved the dirt with

303  
00:12:33,130 --> 00:12:29,930  
baskets from yucca cactus fiber okay

304  
00:12:35,350 --> 00:12:33,140  
their other accomplishment was platform

305  
00:12:36,400 --> 00:12:35,360  
mounds we know the biggest platform

306  
00:12:38,740 --> 00:12:36,410  
around the United States to be at

307  
00:12:41,530 --> 00:12:38,750  
Cahokia in southern Illinois it has a

308  
00:12:43,420 --> 00:12:41,540  
footprint of about 14 acres that's one

309  
00:12:45,070 --> 00:12:43,430  
acre bigger than the Pyramid of Giza you

310  
00:12:47,560 --> 00:12:45,080  
know the Great Pyramid on the Giza

311  
00:12:49,180 --> 00:12:47,570  
Plateau you don't see any platform

312  
00:12:51,370 --> 00:12:49,190  
mounds again - you get out to Phoenix

313  
00:12:54,970 --> 00:12:51,380

and when the founding fathers got here

314

00:12:56,710 --> 00:12:54,980

they found 48 of them three of which are

315

00:12:59,350 --> 00:12:56,720

still around the rest have been

316

00:13:01,660 --> 00:12:59,360

demolished in the late 1800s Early 1900s

317

00:13:04,540 --> 00:13:01,670

because it was primary farming area and

318

00:13:05,980 --> 00:13:04,550

they had to bulldoze him down and blade

319

00:13:07,630 --> 00:13:05,990

him down so they could plant in fact if

320

00:13:09,580 --> 00:13:07,640

you had a canal if you had an ancient

321

00:13:12,190 --> 00:13:09,590

ho-hum canal or a platform out on your

322

00:13:13,720 --> 00:13:12,200

property it was worth less money back in

323

00:13:15,340 --> 00:13:13,730

the day the turn of the century because

324

00:13:19,510 --> 00:13:15,350

you had to do work before he could plant

325

00:13:21,340 --> 00:13:19,520

it strangely enough but all this history

326

00:13:25,090 --> 00:13:21,350

just got bulldozed over and is still

327

00:13:27,280 --> 00:13:25,100

today underneath modern-day Phoenix you

328

00:13:28,540 --> 00:13:27,290

can go to parks in central Phoenix and

329

00:13:30,490 --> 00:13:28,550

south Phoenix and you go on the back

330

00:13:33,310 --> 00:13:30,500

there and you will find pottery shards

331

00:13:35,680 --> 00:13:33,320

all the time all this history is very

332

00:13:37,480 --> 00:13:35,690

real and relevant today when the

333

00:13:40,600 --> 00:13:37,490

founding fathers got here about eighteen

334

00:13:43,600 --> 00:13:40,610

well when they named Phoenix in 1868

335

00:13:45,190 --> 00:13:43,610

there was a couple primary fathers that

336

00:13:47,380 --> 00:13:45,200

I've written about a guy named Lord

337

00:13:50,380 --> 00:13:47,390

Daryl dupa and a fella by the name of

338

00:13:52,510 --> 00:13:50,390

Jax willing we know Lord dupa was a

339

00:13:54,790 --> 00:13:52,520

high-ranking freemason rumored to be

340

00:13:56,850 --> 00:13:54,800

1/32 but no one really has any proof of

341

00:14:01,350 --> 00:13:56,860

that he came for

342

00:14:03,690 --> 00:14:01,360

a well-to-do family in I was Wales I

343

00:14:05,730 --> 00:14:03,700

believe and he traveled the whole world

344

00:14:08,520 --> 00:14:05,740

found his way to Phoenix and made this

345

00:14:09,870 --> 00:14:08,530

his home him and Jack's willing and a

346

00:14:13,650 --> 00:14:09,880

bunch of other founding fathers we're

347

00:14:16,080 --> 00:14:13,660

sitting on some ruins some Hohokam ruins

348

00:14:18,840 --> 00:14:16,090

about a mile from the airport right now

349

00:14:21,240 --> 00:14:18,850

it's called Pueblo Grande it is a museum

350

00:14:23,040 --> 00:14:21,250

and it talks about those platform mounds

351

00:14:24,780 --> 00:14:23,050

and all those canals I just told you

352

00:14:26,460 --> 00:14:24,790

about pretty clear like 5 whole dollars

353

00:14:28,770 --> 00:14:26,470

to get in and you to walk up on top of

354

00:14:30,690 --> 00:14:28,780

this platform mound one of three left

355

00:14:32,790 --> 00:14:30,700

and they're trying to decide what to

356

00:14:34,800 --> 00:14:32,800

name our town and our name was called

357

00:14:36,270 --> 00:14:34,810

pumpkin ville that was our first name

358

00:14:38,220 --> 00:14:36,280

now people know that this pumpkin go

359

00:14:40,850 --> 00:14:38,230

everyone hated it we almost became known

360

00:14:43,530 --> 00:14:40,860

swilling after jack they almost named us

361

00:14:45,030 --> 00:14:43,540

Stonewall because most of the founding

362

00:14:47,220 --> 00:14:45,040

fathers were veterans from the War of

363

00:14:48,150 --> 00:14:47,230

Northern Aggression we almost became

364

00:14:50,550 --> 00:14:48,160

known as Celina

365

00:14:52,020 --> 00:14:50,560

after the salty River Land the Salt

366

00:14:55,880 --> 00:14:52,030

River runs through Phoenix but Lord

367

00:14:59,100 --> 00:14:55,890

Daryl dupa stood up and he says

368

00:15:01,680 --> 00:14:59,110

gentlemen this canal was constructed in

369

00:15:04,320 --> 00:15:01,690

an age now forgotten prehistoric cities

370

00:15:06,780 --> 00:15:04,330

lie in ruins all around you a great

371

00:15:09,240 --> 00:15:06,790

ancient civilization once thrived in

372

00:15:09,900 --> 00:15:09,250

this valley let the new city arise from

373

00:15:12,900 --> 00:15:09,910

its ashes

374

00:15:17,100 --> 00:15:12,910

let it be called Phoenix and that's how

375

00:15:19,590 --> 00:15:17,110

we got aim yeah it harkens right back to

376

00:15:22,080 --> 00:15:19,600

the Hohokam we were named for this

377

00:15:23,580 --> 00:15:22,090

ancient culture pretty cool he also went

378

00:15:25,560 --> 00:15:23,590

on to be in the town of Tempe you know

379

00:15:29,460 --> 00:15:25,570

you've heard a Tempe Arizona right ASU

380

00:15:30,810 --> 00:15:29,470

well Tempe was named by Lord Daryl dupa

381

00:15:33,000 --> 00:15:30,820

as well and if you've ever gone to

382

00:15:35,610 --> 00:15:33,010

Greece there is a valley called the Vale

383

00:15:37,530 --> 00:15:35,620

@mb or the Vale of Tempe and it's not

384

00:15:39,840 --> 00:15:37,540

unlike Thermopylae so it's a strategic

385

00:15:43,050 --> 00:15:39,850

location it's a gorge that runs through

386

00:15:44,550 --> 00:15:43,060

this rocky outcropping and there's only

387

00:15:45,960 --> 00:15:44,560

one way through it well the Greek

388

00:15:49,560 --> 00:15:45,970

believe that when the gods put on their

389

00:15:51,360 --> 00:15:49,570

mortal coils and came down they spent

390

00:15:54,810 --> 00:15:51,370

their time hanging out in this beautiful

391

00:15:57,330 --> 00:15:54,820

temperate green place down there well if

392

00:15:59,400 --> 00:15:57,340

you've ever been to Tempe Arizona there

393

00:16:01,230 --> 00:15:59,410

is a rock outcropping on both sides of

394

00:16:03,090 --> 00:16:01,240

the 202 freeway that goes through there

395

00:16:05,760 --> 00:16:03,100

and it's called the Papago mountains and

396

00:16:07,920 --> 00:16:05,770

that is a conglomerate rock formation

397

00:16:09,540 --> 00:16:07,930

that rises out of the alluvial fill of

398

00:16:12,420 --> 00:16:09,550

the Phoenix Basin and one

399

00:16:14,490 --> 00:16:12,430

does it pushes the water the salt river

400

00:16:16,170 --> 00:16:14,500

water up to the surface there so even in

401  
00:16:18,780 --> 00:16:16,180  
times of drought back in the ancient

402  
00:16:19,740 --> 00:16:18,790  
days there was always water right at

403  
00:16:22,410 --> 00:16:19,750  
Tempe Arizona

404  
00:16:26,069 --> 00:16:22,420  
well this spot in the 1800s reminded

405  
00:16:27,170 --> 00:16:26,079  
Lord dupa of timbi grease so he named it

406  
00:16:29,790 --> 00:16:27,180  
Tempe Arizona

407  
00:16:33,870 --> 00:16:29,800  
if you travel the rest of our state you

408  
00:16:35,639 --> 00:16:33,880  
will find Egyptian names from southern

409  
00:16:36,360 --> 00:16:35,649  
Arizona all the way there especially the

410  
00:16:38,699 --> 00:16:36,370  
Grand Canyon

411  
00:16:40,740 --> 00:16:38,709  
there's tons of Egyptian and Hindu names

412  
00:16:42,600 --> 00:16:40,750  
all through the Grand Canyon

413  
00:16:44,910 --> 00:16:42,610

the Masons really got here first and

414

00:16:46,440 --> 00:16:44,920

they claimed it they grabbed all the

415

00:16:47,850 --> 00:16:46,450

resources they implemented their

416

00:16:51,120 --> 00:16:47,860

institutions and today they're still

417

00:16:53,069 --> 00:16:51,130

allocating these resources and managing

418

00:16:55,650 --> 00:16:53,079

them for whomever I don't pretend to

419

00:16:58,590 --> 00:16:55,660

know all that but that's kind of words

420

00:17:00,269 --> 00:16:58,600

that today very interesting man and I've

421

00:17:03,300 --> 00:17:00,279

interviewed so many guests and

422

00:17:05,400 --> 00:17:03,310

researchers about the idea that when it

423

00:17:07,710 --> 00:17:05,410

comes to the elite they have this secret

424

00:17:10,650 --> 00:17:07,720

religion so much of what they do has

425

00:17:13,110 --> 00:17:10,660

Egyptian or Babylonian symbolism it's

426

00:17:15,059 --> 00:17:13,120

drenched all over the place and they

427

00:17:17,280 --> 00:17:15,069

have a tendency to try to rebuild or

428

00:17:19,770 --> 00:17:17,290

recreate biblical events and locations

429

00:17:21,840 --> 00:17:19,780

and it seems like Phoenix Arizona and

430

00:17:23,159 --> 00:17:21,850

the surrounding area they're you know

431

00:17:26,760 --> 00:17:23,169

there might be something in that mix

432

00:17:29,220 --> 00:17:26,770

making a city of modern Phoenicians I

433

00:17:31,110 --> 00:17:29,230

mean phonetically they pay a lot of

434

00:17:34,669 --> 00:17:31,120

attention to those types of details it

435

00:17:37,470 --> 00:17:34,679

seems yes they do if you follow Western

436

00:17:40,110 --> 00:17:37,480

civilization we know that Sumeria was

437

00:17:41,310 --> 00:17:40,120

the first right and from there Egypt

438

00:17:42,960 --> 00:17:41,320

came out and of course you had the

439

00:17:45,360 --> 00:17:42,970

Minoans and the Phoenicians and all the

440

00:17:47,580 --> 00:17:45,370

other Jared like cultures in there from

441

00:17:50,520 --> 00:17:47,590

there it went into Greece and then into

442

00:17:53,010 --> 00:17:50,530

Rome and then into England or Europe

443

00:17:56,310 --> 00:17:53,020

right and London actually means new Rome

444

00:17:57,840 --> 00:17:56,320

I'm sure you know that and then we came

445

00:17:59,820 --> 00:17:57,850

over to the United States and we have

446

00:18:03,120 --> 00:17:59,830

Washington DC or the District of

447

00:18:05,700 --> 00:18:03,130

Columbia Columbia is the goddess Isis

448

00:18:07,950 --> 00:18:05,710

and then we had the Western expansion

449

00:18:10,740 --> 00:18:07,960

across the United States it's just one

450

00:18:12,540 --> 00:18:10,750

big continuation with the same religion

451  
00:18:14,610 --> 00:18:12,550  
the same backbone the same gods and

452  
00:18:17,310 --> 00:18:14,620  
goddesses with new names but it's the

453  
00:18:19,440 --> 00:18:17,320  
same ceremony and religion and dogma all

454  
00:18:20,850 --> 00:18:19,450  
the way through once you learn how to

455  
00:18:22,290 --> 00:18:20,860  
read it you can just go right back and

456  
00:18:23,360 --> 00:18:22,300  
just connect the dots all the way back

457  
00:18:25,880 --> 00:18:23,370  
to the beginning

458  
00:18:27,140 --> 00:18:25,890  
you can even go back and I've study

459  
00:18:28,580 --> 00:18:27,150  
other people's work and you can study

460  
00:18:30,320 --> 00:18:28,590  
the people in charge they're the same

461  
00:18:34,460 --> 00:18:30,330  
people the same families you know we all

462  
00:18:36,590 --> 00:18:34,470  
know that haha I just love how this

463  
00:18:40,460 --> 00:18:36,600

local researcher doing ties into the big

464

00:18:42,650 --> 00:18:40,470

story and speaking of weird secret

465

00:18:44,870 --> 00:18:42,660

beliefs of the elite I was also really

466

00:18:47,540 --> 00:18:44,880

interested in Hunt's tomb for people who

467

00:18:49,520 --> 00:18:47,550

aren't familiar George W P hunt was

468

00:18:52,760 --> 00:18:49,530

Arizona's first governor and he had a

469

00:18:54,830 --> 00:18:52,770

pyramid tomb built in 1931 for his

470

00:18:57,710 --> 00:18:54,840

family and himself you also note that

471

00:19:00,320 --> 00:18:57,720

this isn't an arbitrary thing because

472

00:19:02,690 --> 00:19:00,330

it's the exact same size as the capstone

473

00:19:05,000 --> 00:19:02,700

of the Great Pyramid was of course it's

474

00:19:07,820 --> 00:19:05,010

not there now but dimensionally it fits

475

00:19:10,040 --> 00:19:07,830

and he was a high-ranking freemason who

476  
00:19:12,380 --> 00:19:10,050  
oversaw the dedication of every Masonic

477  
00:19:15,110 --> 00:19:12,390  
Lodge founded in Arizona when he was

478  
00:19:17,299 --> 00:19:15,120  
alive so he really seems to know some

479  
00:19:19,549 --> 00:19:17,309  
stuff in Egyptian mysteries and sacred

480  
00:19:21,169 --> 00:19:19,559  
geometry are always just a big part of

481  
00:19:24,250 --> 00:19:21,179  
that knowledge I guess what else do you

482  
00:19:27,890 --> 00:19:24,260  
find interesting about hunt or his tomb

483  
00:19:29,510 --> 00:19:27,900  
you know I was there this week and I

484  
00:19:30,860 --> 00:19:29,520  
it's just kind of on the way home and I

485  
00:19:32,360 --> 00:19:30,870  
stopped there and walk up there sitting

486  
00:19:36,799 --> 00:19:32,370  
next to the tomb I just think sometimes

487  
00:19:40,250 --> 00:19:36,809  
and yeah there is a pyramid technically

488  
00:19:42,020 --> 00:19:40,260

it is a capstone as it measures the same

489

00:19:43,940 --> 00:19:42,030

size as the missing capstone from the

490

00:19:48,640 --> 00:19:43,950

top of the pyramid and gaze over there

491

00:19:51,169 --> 00:19:48,650

Koufos pyramid George Wiley Paul Hunt

492

00:19:53,840 --> 00:19:51,179

from Huntsville Missouri came out here

493

00:19:55,490 --> 00:19:53,850

seven-term governor of Arizona state of

494

00:19:57,010 --> 00:19:55,500

Arizona as well as I believe the

495

00:20:00,049 --> 00:19:57,020

territorial governor as well for a while

496

00:20:01,730 --> 00:20:00,059

he came out here and he was a whirlwind

497

00:20:05,180 --> 00:20:01,740

he was a badass they called him the

498

00:20:08,960 --> 00:20:05,190

walrus he was liberal I mean that in the

499

00:20:11,750 --> 00:20:08,970

Jeffersonian term liberal is a true

500

00:20:14,180 --> 00:20:11,760

liberal thinker progressive with women's

501  
00:20:17,360 --> 00:20:14,190  
rights and voting and all that stuff but

502  
00:20:20,810 --> 00:20:17,370  
he was a bona fide 32nd degree Scottish

503  
00:20:22,700 --> 00:20:20,820  
Rite freemason and he was all over the

504  
00:20:23,620 --> 00:20:22,710  
state of Arizona he was a self-made man

505  
00:20:25,940 --> 00:20:23,630  
if you get into his history

506  
00:20:27,740 --> 00:20:25,950  
tough-as-nails kind of up by the

507  
00:20:32,120 --> 00:20:27,750  
bootstraps kind of guy educated himself

508  
00:20:34,760 --> 00:20:32,130  
and if you go to Papago Park right next

509  
00:20:36,330 --> 00:20:34,770  
to Tempe Arizona named after you know

510  
00:20:38,399 --> 00:20:36,340  
the Vale of Tempe in Greece

511  
00:20:40,169 --> 00:20:38,409  
you will go a place called the hole in

512  
00:20:43,860 --> 00:20:40,179  
the rock that's a park there at Papago

513  
00:20:47,549 --> 00:20:43,870

Park and near this ancient Hohokam arc

514

00:20:50,370 --> 00:20:47,559

you astronomical calendar which is just

515

00:20:53,880 --> 00:20:50,380

off to the north of the pyramid you will

516

00:20:56,669 --> 00:20:53,890

find Hunt's tomb and seven people are

517

00:21:00,870 --> 00:20:56,679

buried in that tomb with him and it

518

00:21:02,399 --> 00:21:00,880

looks identical to the pyramid on the

519

00:21:05,250 --> 00:21:02,409

back of the one dollar bill in fact it

520

00:21:06,419 --> 00:21:05,260

is the same angle I just went up there

521

00:21:08,940 --> 00:21:06,429

over this week to do some more research

522

00:21:11,250 --> 00:21:08,950

on it I took measurements and it is the

523

00:21:13,320 --> 00:21:11,260

same angle as the pyramid on the back of

524

00:21:16,799 --> 00:21:13,330

the one dollar bill that of course gets

525

00:21:19,799 --> 00:21:16,809

into the latitudinal lines and sacred

526

00:21:22,380 --> 00:21:19,809

geometry with the 72 squares you know

527

00:21:23,639 --> 00:21:22,390

bricks that are in that it is Masonic

528

00:21:26,370 --> 00:21:23,649

all the way and what's really

529

00:21:28,289 --> 00:21:26,380

frustrating as a researcher here you can

530

00:21:30,060 --> 00:21:28,299

go there and hear the Rangers and the

531

00:21:32,789 --> 00:21:30,070

Park Rangers say oh he was just a quirky

532

00:21:35,130 --> 00:21:32,799

Arizona guy and all this Egyptian stuff

533

00:21:37,409 --> 00:21:35,140

all this Freemasonry all this ancient

534

00:21:40,289 --> 00:21:37,419

occultic symbolism embedded into our

535

00:21:43,220 --> 00:21:40,299

very fabric of Arizona is dismissed

536

00:21:46,380 --> 00:21:43,230

every time as some quirky Western

537

00:21:47,940 --> 00:21:46,390

caricature you know it's frustrating it

538

00:21:50,519 --> 00:21:47,950

really is but it's there for the whole

539

00:21:52,260 --> 00:21:50,529

world to see it is white in color it has

540

00:21:55,049 --> 00:21:52,270

four inch by four inch white tiles

541

00:21:56,490 --> 00:21:55,059

interestingly enough the Egyptians of

542

00:21:58,769 --> 00:21:56,500

course covered their pyramids with that

543

00:22:01,789 --> 00:21:58,779

white limestone you can see it up to 25

544

00:22:04,710 --> 00:22:01,799

to 40 miles away it's been reported

545

00:22:07,680 --> 00:22:04,720

governor hunt covered his pyramid with

546

00:22:09,840 --> 00:22:07,690

white tiles and the ancient Hohokam

547

00:22:11,820 --> 00:22:09,850

which we just talked about those 48

548

00:22:14,730 --> 00:22:11,830

platform mounds they believe they

549

00:22:17,730 --> 00:22:14,740

covered with a caliche which is a white

550

00:22:19,649 --> 00:22:17,740

clay about three feet under the valley

551

00:22:21,149 --> 00:22:19,659

floor in Phoenix it's the remnant of an

552

00:22:23,549 --> 00:22:21,159

ancient ocean that was here years ago

553

00:22:25,919 --> 00:22:23,559

the Western interior sea it's really

554

00:22:27,419 --> 00:22:25,929

thick and it's hard to manipulate and

555

00:22:29,580 --> 00:22:27,429

move but we know that they covered their

556

00:22:31,950 --> 00:22:29,590

platform mounds with this white clay as

557

00:22:34,440 --> 00:22:31,960

well to make it visible so we have a lot

558

00:22:36,480 --> 00:22:34,450

of symbology going on here with tying

559

00:22:38,789 --> 00:22:36,490

together ancient Egypt with a modern-day

560

00:22:41,460 --> 00:22:38,799

Phoenix with the ancient Hohokam who

561

00:22:44,340 --> 00:22:41,470

lived in this valley once again not just

562

00:22:47,100 --> 00:22:44,350

the pyramid itself but the pyramid is

563

00:22:50,080 --> 00:22:47,110

three levels high there's three main

564

00:22:52,420 --> 00:22:50,090

levels including the stone pad it sits

565

00:22:54,280 --> 00:22:52,430

and that is the three degrees of

566

00:22:55,720 --> 00:22:54,290

Freemasonry you know the entered

567

00:22:57,550 --> 00:22:55,730

apprentice the fellow craft and the

568

00:22:59,530 --> 00:22:57,560

Master Mason when you look at it from

569

00:23:01,330 --> 00:22:59,540

the air on Google Earth

570

00:23:05,200 --> 00:23:01,340

it looks like steps there's three steps

571

00:23:07,900 --> 00:23:05,210

as well so this has truly been built in

572

00:23:10,210 --> 00:23:07,910

three dimensions on top of an ancient

573

00:23:11,950 --> 00:23:10,220

Hohokam power point utilize from that

574

00:23:14,590 --> 00:23:11,960

ancient earth magic the ancient earth

575

00:23:17,290 --> 00:23:14,600

energy right and that was gonna be one

576

00:23:20,380 --> 00:23:17,300

of my questions for you I had pulled a

577

00:23:22,030 --> 00:23:20,390

lengthy paragraph off your website that

578

00:23:24,700 --> 00:23:22,040

you pretty much gave us all the good

579

00:23:27,310 --> 00:23:24,710

stuff out of your clearly recognizing

580

00:23:28,990 --> 00:23:27,320

some important details but I'm

581

00:23:32,850 --> 00:23:29,000

interested in this ancient earth magic

582

00:23:34,900 --> 00:23:32,860

and the Hohokam you write that it was

583

00:23:36,580 --> 00:23:34,910

astrological magick and I'm just curious

584

00:23:39,100 --> 00:23:36,590

if you can elaborate on what you think

585

00:23:41,350 --> 00:23:39,110

the ancients were doing exactly magic

586

00:23:43,360 --> 00:23:41,360

wise because I see the attraction

587

00:23:45,820 --> 00:23:43,370

to some of these energy points I see the

588

00:23:47,440 --> 00:23:45,830

smoke but I don't understand the fire

589

00:23:49,780 --> 00:23:47,450

fully there seems to be differing

590

00:23:52,060 --> 00:23:49,790

opinions out there or at least some

591

00:23:55,210 --> 00:23:52,070

holes in the full picture can you tell

592

00:23:57,430 --> 00:23:55,220

us anything more begin to urgh I spent a

593

00:23:59,890 --> 00:23:57,440

lot of time in Sedona and I understand

594

00:24:01,450 --> 00:23:59,900

the theories about the earth energy and

595

00:24:03,100 --> 00:24:01,460

the ley lines the dragon lines I have

596

00:24:05,350 --> 00:24:03,110

Navajo friends and Native American

597

00:24:07,270 --> 00:24:05,360

friends that talk about this roundabout

598

00:24:08,800 --> 00:24:07,280

but I don't pretend to understand

599

00:24:11,800 --> 00:24:08,810

exactly how it works other than that

600

00:24:15,910 --> 00:24:11,810

there are points on the earth obviously

601  
00:24:17,230 --> 00:24:15,920  
that these sacred sites line up with you

602  
00:24:18,850 --> 00:24:17,240  
can go to all the ancient megalithic

603  
00:24:20,560 --> 00:24:18,860  
sites and there's of course video after

604  
00:24:24,100 --> 00:24:20,570  
video a lot of people's research right

605  
00:24:27,730 --> 00:24:24,110  
from Peru to Egypt to Turkey all over

606  
00:24:29,200 --> 00:24:27,740  
and these sites are always there when

607  
00:24:30,460 --> 00:24:29,210  
the Muslims come in and conquer the

608  
00:24:32,680 --> 00:24:30,470  
Christians they'll tear down a church

609  
00:24:33,970 --> 00:24:32,690  
and build it right on top of that church

610  
00:24:35,200 --> 00:24:33,980  
when the Christians don't take over the

611  
00:24:38,020 --> 00:24:35,210  
pagans they'll build their churches

612  
00:24:41,350 --> 00:24:38,030  
right on top of that as the same thing

613  
00:24:44,890 --> 00:24:41,360

with this continent I don't believe that

614

00:24:47,650 --> 00:24:44,900

the European colonization of America was

615

00:24:49,660 --> 00:24:47,660

the first time other people were over

616

00:24:52,240 --> 00:24:49,670

here it's obviously on the pale to me

617

00:24:54,250 --> 00:24:52,250

that we have been here over and over and

618

00:24:56,410 --> 00:24:54,260

over again how many times who knows but

619

00:24:58,390 --> 00:24:56,420

we know in about 10,000 years everything

620

00:24:59,680 --> 00:24:58,400

goes back to dirt rust dissolves it's

621

00:25:02,260 --> 00:24:59,690

gone you don't even know that it was

622

00:25:03,100 --> 00:25:02,270

there except for the mines the ancient

623

00:25:03,640 --> 00:25:03,110

mines right

624

00:25:05,110 --> 00:25:03,650

the

625

00:25:07,870 --> 00:25:05,120

you think build out a stone that stuff

626

00:25:10,210 --> 00:25:07,880

sticks around right and that's what

627

00:25:12,190 --> 00:25:10,220

we're finding across this country and

628

00:25:13,540 --> 00:25:12,200

Arizona today you know I worked at the

629

00:25:17,820 --> 00:25:13,550

Grand Canyon for a year and they find

630

00:25:23,110 --> 00:25:20,860

but as far as hunt goes as far as the

631

00:25:24,970 --> 00:25:23,120

tomb goes I've been going through the

632

00:25:28,510 --> 00:25:24,980

actual Phoenix itself and there are

633

00:25:31,210 --> 00:25:28,520

powerpoints and there are buildings of

634

00:25:32,620 --> 00:25:31,220

significance at certain locations in the

635

00:25:34,990 --> 00:25:32,630

Phoenix Valley and all that later if you

636

00:25:36,340 --> 00:25:35,000

want as well but this Papago Park is

637

00:25:39,280 --> 00:25:36,350

definitely a power point

638

00:25:41,290 --> 00:25:39,290

the military has an underground base

639

00:25:43,810 --> 00:25:41,300

right there I don't know if you know

640

00:25:46,270 --> 00:25:43,820

that or not hmm didn't know that yeah on

641

00:25:47,770 --> 00:25:46,280

the west side of this park its bedrock

642

00:25:49,150 --> 00:25:47,780

it's really hard conglomerate rock and

643

00:25:50,740 --> 00:25:49,160

they go straight down and a buddy of

644

00:25:53,260 --> 00:25:50,750

mine was a contractor there he says it

645

00:25:55,810 --> 00:25:53,270

goes down seven or eight levels hmm and

646

00:25:57,730 --> 00:25:55,820

no one really in Phoenix knows that but

647

00:25:58,810 --> 00:25:57,740

yeah why is the military they're doing

648

00:26:01,240 --> 00:25:58,820

what they're doing is it just a hardened

649

00:26:03,100 --> 00:26:01,250

vocation I don't know but I can't find

650

00:26:05,230 --> 00:26:03,110

anything else about that it's mums the

651  
00:26:07,380 --> 00:26:05,240  
word on that you know right and there

652  
00:26:10,150 --> 00:26:07,390  
are just so many interesting little

653  
00:26:12,610 --> 00:26:10,160  
bullet points and red flags you can

654  
00:26:15,130 --> 00:26:12,620  
point to that there's just something in

655  
00:26:17,140 --> 00:26:15,140  
the periphery here in Phoenix that a lot

656  
00:26:19,450 --> 00:26:17,150  
of people seem to know about but it's

657  
00:26:21,340 --> 00:26:19,460  
under wraps it's in the shadows and you

658  
00:26:23,740 --> 00:26:21,350  
probably have to be initiated to really

659  
00:26:25,480 --> 00:26:23,750  
get a handle on exactly why it's

660  
00:26:26,830 --> 00:26:25,490  
important and what those ancients were

661  
00:26:28,780 --> 00:26:26,840  
doing I mean obviously that's a big

662  
00:26:30,550 --> 00:26:28,790  
question I can't expect you to know but

663  
00:26:33,790 --> 00:26:30,560

I definitely noticed those same patterns

664

00:26:36,370 --> 00:26:33,800

of rebuilding on the Earth's energy grid

665

00:26:38,650 --> 00:26:36,380

and just a certain the even military

666

00:26:40,420 --> 00:26:38,660

bases internationally we're told are

667

00:26:43,180 --> 00:26:40,430

usually about controlling these places

668

00:26:45,010 --> 00:26:43,190

banks churches yes everything they can

669

00:26:47,140 --> 00:26:45,020

do and let me ask you I guess a little

670

00:26:48,970 --> 00:26:47,150

more practical question that I've heard

671

00:26:50,620 --> 00:26:48,980

you talk about that I also just think is

672

00:26:52,750 --> 00:26:50,630

quite interesting I never really thought

673

00:26:55,360 --> 00:26:52,760

about it much but you've written about

674

00:26:57,370 --> 00:26:55,370

the natural environment in Arizona

675

00:27:00,670 --> 00:26:57,380

itself and how similar it is to places

676

00:27:03,130 --> 00:27:00,680

where civilizations tend to develop why

677

00:27:06,090 --> 00:27:03,140

is this template of a dry desert with a

678

00:27:08,620 --> 00:27:06,100

river running through it so typical for

679

00:27:12,280 --> 00:27:08,630

civilizations as a starting place as

680

00:27:15,460 --> 00:27:12,290

opposed to areas that are more lush yeah

681

00:27:17,560 --> 00:27:15,470

this occurred to me after my probably

682

00:27:19,480 --> 00:27:17,570

400 tour down here

683

00:27:21,370 --> 00:27:19,490

given Sonoran desert ethnobotanical

684

00:27:23,860 --> 00:27:21,380

tours and it really occurred to me one

685

00:27:26,710 --> 00:27:23,870

day these people were thriving these

686

00:27:29,110 --> 00:27:26,720

ancient Hohokam were thriving first of

687

00:27:30,910 --> 00:27:29,120

all there are six rivers that meet in

688

00:27:33,190 --> 00:27:30,920

Phoenix right we have the Gila River the

689

00:27:35,740 --> 00:27:33,200

Salt River the Verde New River Agua Fria

690

00:27:36,820 --> 00:27:35,750

and the Hacienda some of those meet the

691

00:27:38,410 --> 00:27:36,830

other rivers but they needed a place

692

00:27:40,330 --> 00:27:38,420

called phase three dos which is about

693

00:27:43,840 --> 00:27:40,340

seven miles west of downtown Phoenix

694

00:27:47,590 --> 00:27:43,850

so imagine hundreds of years ago six

695

00:27:49,960 --> 00:27:47,600

riparian lush water systems flowing in

696

00:27:51,940 --> 00:27:49,970

from three directions into the valley

697

00:27:55,030 --> 00:27:51,950

where gently rolls through and can be

698

00:27:56,890 --> 00:27:55,040

irrigated and farmed those were highways

699

00:27:59,560 --> 00:27:56,900

back in the day going out to the great

700

00:28:02,230 --> 00:27:59,570

plains with New Mexico up to the Anasazi

701  
00:28:05,080 --> 00:28:02,240  
culture in the Four Corners area to all

702  
00:28:07,000 --> 00:28:05,090  
the Sinagua nagua free and muggy on

703  
00:28:08,110 --> 00:28:07,010  
Salado cultures to the north all the way

704  
00:28:09,490 --> 00:28:08,120  
to the Grand Canyon and then the

705  
00:28:12,610 --> 00:28:09,500  
battalion culture in the Colorado

706  
00:28:14,890 --> 00:28:12,620  
Plateau to the West everything and

707  
00:28:16,440 --> 00:28:14,900  
anything flooding from anywhere in

708  
00:28:18,880 --> 00:28:16,450  
America down had to come through Phoenix

709  
00:28:22,390 --> 00:28:18,890  
anything from the Yucatan up had to come

710  
00:28:24,160 --> 00:28:22,400  
right through Phoenix and it's evident

711  
00:28:25,630 --> 00:28:24,170  
from these canal systems the amount of

712  
00:28:27,070 --> 00:28:25,640  
Labor and time would have taken to

713  
00:28:30,610 --> 00:28:27,080

Dunham's that people have been here for

714

00:28:32,200 --> 00:28:30,620

a long time probably the beginning we

715

00:28:35,500 --> 00:28:32,210

look over to the middle east

716

00:28:40,060 --> 00:28:35,510

you have Iraq you have Afghanistan

717

00:28:43,950 --> 00:28:40,070

Pakistan right these deserts where we

718

00:28:46,660 --> 00:28:43,960

know that civilization started maybe not

719

00:28:48,760 --> 00:28:46,670

humanity but civilization definitely the

720

00:28:52,060 --> 00:28:48,770

first recorded civilization was summer

721

00:28:53,680 --> 00:28:52,070

and that is modern-day Baghdad and it's

722

00:28:56,650 --> 00:28:53,690

because in my opinion that it is a

723

00:28:58,450 --> 00:28:56,660

desert you have a hot dry climate with

724

00:29:01,570 --> 00:28:58,460

perennial water sources coming through

725

00:29:03,430 --> 00:29:01,580

this allows for three to four planting

726

00:29:05,470 --> 00:29:03,440

seasons per year especially if you have

727

00:29:07,540 --> 00:29:05,480

good grain like corn you can get to

728

00:29:09,280 --> 00:29:07,550

plantings of that then your tubers right

729

00:29:10,810 --> 00:29:09,290

in the fall if you've ever garden in

730

00:29:14,680 --> 00:29:10,820

your spring greens and your fall greens

731

00:29:17,250 --> 00:29:14,690

you can farm as the water comes in and

732

00:29:20,020 --> 00:29:17,260

floods your rivers like the Nile it

733

00:29:21,160 --> 00:29:20,030

redeposits more nutrients right and then

734

00:29:24,280 --> 00:29:21,170

it goes back down again so you have a

735

00:29:25,630 --> 00:29:24,290

cycle there are no tropical diseases

736

00:29:27,830 --> 00:29:25,640

because you're not in the jungle right

737

00:29:30,500 --> 00:29:27,840

so you don't have to fight that

738

00:29:33,649 --> 00:29:30,510

life is a little tougher in certain ways

739

00:29:36,680 --> 00:29:33,659

and we see a lot of violence coming out

740

00:29:37,850 --> 00:29:36,690

of jungle cultures right all the way

741

00:29:39,320 --> 00:29:37,860

around the world no matter what

742

00:29:40,880 --> 00:29:39,330

continent you're on and they say it's

743

00:29:43,130 --> 00:29:40,890

because the anthropologists say it's

744

00:29:44,390 --> 00:29:43,140

because life is easier so people you

745

00:29:45,560 --> 00:29:44,400

know idle hand the devil's work they

746

00:29:47,659 --> 00:29:45,570

spend a lot of time fighting instead of

747

00:29:49,220 --> 00:29:47,669

surviving and they put all their energy

748

00:29:51,169 --> 00:29:49,230

to that and they just develop violent

749

00:29:53,750 --> 00:29:51,179

cultures well you don't see a lot of

750

00:29:55,279 --> 00:29:53,760

violent cultures developing in desert

751  
00:29:57,529 --> 00:29:55,289  
cultures and because of that you have

752  
00:30:00,590 --> 00:29:57,539  
more cooperative cultures like the Hopi

753  
00:30:02,450 --> 00:30:00,600  
like the ancient Arab cultures and you

754  
00:30:05,060 --> 00:30:02,460  
have no snow you have no downtime you

755  
00:30:06,710 --> 00:30:05,070  
don't have to plan and sit around for

756  
00:30:09,200 --> 00:30:06,720  
six months you know you can keep working

757  
00:30:12,010 --> 00:30:09,210  
this allows for more food this allows

758  
00:30:15,560 --> 00:30:12,020  
for more time they start developing

759  
00:30:17,419 --> 00:30:15,570  
technologies and more religion and ideas

760  
00:30:19,460 --> 00:30:17,429  
and kind of just gets a jumpstart on

761  
00:30:21,669 --> 00:30:19,470  
civilization I don't think it's a

762  
00:30:23,630 --> 00:30:21,679  
coincidence that we see these ancient

763  
00:30:26,930 --> 00:30:23,640

technology in the canals and the

764

00:30:29,990 --> 00:30:26,940

platform mounds here in Phoenix that we

765

00:30:31,220 --> 00:30:30,000

see in the Middle East yeah man I just

766

00:30:32,870 --> 00:30:31,230

thought a lot of that was really

767

00:30:35,299 --> 00:30:32,880

fascinating because I never thought

768

00:30:37,970 --> 00:30:35,309

about it much either especially the

769

00:30:40,010 --> 00:30:37,980

point you just made about the scale of

770

00:30:42,440 --> 00:30:40,020

violence and jungle cultures versus

771

00:30:45,409 --> 00:30:42,450

something like ancient Egypt or these

772

00:30:47,240 --> 00:30:45,419

places that are more desert like I mean

773

00:30:50,480 --> 00:30:47,250

I definitely think there's a link

774

00:30:52,490 --> 00:30:50,490

between place and psyche that we are as

775

00:30:55,010 --> 00:30:52,500

much a part of our environment as our

776

00:30:56,899 --> 00:30:55,020

environments a part of us and I don't

777

00:30:59,060 --> 00:30:56,909

know there's something there but just

778

00:31:02,149 --> 00:30:59,070

the idea of there being less disease

779

00:31:04,250 --> 00:31:02,159

milder winter fewer dangerous animals or

780

00:31:06,710 --> 00:31:04,260

at least better visibility yeah River

781

00:31:10,250 --> 00:31:06,720

travel for trade trade those are just

782

00:31:14,090 --> 00:31:10,260

great points and it's weird to think

783

00:31:16,039 --> 00:31:14,100

about Arizona in that context of being a

784

00:31:17,690 --> 00:31:16,049

match for all that and then you know you

785

00:31:19,850 --> 00:31:17,700

get into reading between the lines of

786

00:31:23,180 --> 00:31:19,860

its history and maybe there's been

787

00:31:25,639 --> 00:31:23,190

multiple cultural layers some some of

788

00:31:28,190 --> 00:31:25,649

them obviously suppressed and it all

789

00:31:30,529 --> 00:31:28,200

just forms a pretty interesting picture

790

00:31:32,810 --> 00:31:30,539

of the area when we generally write off

791

00:31:35,210 --> 00:31:32,820

the Southwest you know we don't think

792

00:31:36,980 --> 00:31:35,220

about the American Southwest generally

793

00:31:39,860 --> 00:31:36,990

as all that interesting but it

794

00:31:41,670 --> 00:31:39,870

definitely seems to be no and I'll tell

795

00:31:44,520 --> 00:31:41,680

you what I tell people when I

796

00:31:47,250 --> 00:31:44,530

take him out into the desert on tour we

797

00:31:48,600 --> 00:31:47,260

think of America starting with the Old

798

00:31:50,130 --> 00:31:48,610

West fight with the Cowboys but it

799

00:31:52,050 --> 00:31:50,140

didn't going backwards

800

00:31:53,940 --> 00:31:52,060

we had the Americans right and then we

801  
00:31:56,700 --> 00:31:53,950  
had the Mexicans part of the XSL Mexico

802  
00:31:58,710 --> 00:31:56,710  
and then it was a Spaniel nueva or New

803  
00:32:01,470 --> 00:31:58,720  
Spain right prior to that it was pea

804  
00:32:04,230 --> 00:32:01,480  
Maria Alta which was the Pima empire

805  
00:32:06,930 --> 00:32:04,240  
prior to that it was the whole calm for

806  
00:32:09,150 --> 00:32:06,940  
sixteen hundred years prior to that it

807  
00:32:10,950 --> 00:32:09,160  
was the archaic cultures and the basket

808  
00:32:12,720 --> 00:32:10,960  
weaving cultures we know prior to that

809  
00:32:14,910 --> 00:32:12,730  
it was the Clovis cultures that's about

810  
00:32:17,610 --> 00:32:14,920  
as far as we can really find stuff going

811  
00:32:19,560 --> 00:32:17,620  
back on but when you get into the

812  
00:32:22,500 --> 00:32:19,570  
stories of Atlantis and play it on

813  
00:32:25,020 --> 00:32:22,510

Aristotle they talk about faraway lands

814

00:32:26,550 --> 00:32:25,030

when you talk about more modern like the

815

00:32:30,660 --> 00:32:26,560

Ming Dynasty right Ming send out the

816

00:32:33,330 --> 00:32:30,670

Starfleet and he sent what 300 ships

817

00:32:35,100 --> 00:32:33,340

forward I believe and two didn't come

818

00:32:37,770 --> 00:32:35,110

back for about five years they FICA

819

00:32:40,290 --> 00:32:37,780

Mixon we discovered this great huge land

820

00:32:41,700 --> 00:32:40,300

off to the east and we got off the ships

821

00:32:43,230 --> 00:32:41,710

and Winn inland and there was this huge

822

00:32:45,840 --> 00:32:43,240

Canyon we couldn't get to the bottom of

823

00:32:47,490 --> 00:32:45,850

his massive unfathomable this document

824

00:32:49,500 --> 00:32:47,500

it could only be the Grand Canyon you

825

00:32:51,690 --> 00:32:49,510

know when I spent time with a medicine

826

00:32:53,400 --> 00:32:51,700

man by the name of man ma NN up on the

827

00:32:55,440 --> 00:32:53,410

wall up high Indian Reservation years

828

00:32:57,000 --> 00:32:55,450

ago I get to sit up on a mountaintop

829

00:32:59,760 --> 00:32:57,010

with him for about eight hours and just

830

00:33:01,230 --> 00:32:59,770

listen to him and he said that he was

831

00:33:03,570 --> 00:33:01,240

hunting bears a boy sometime in the

832

00:33:05,070 --> 00:33:03,580

1930s he was down them canyons was a

833

00:33:08,250 --> 00:33:05,080

tributary coming into the Grand Canyon

834

00:33:10,380 --> 00:33:08,260

he said he took refuge in a cave and he

835

00:33:12,600 --> 00:33:10,390

began finding symbols didn't know what

836

00:33:14,070 --> 00:33:12,610

they were years later he found out they

837

00:33:16,200 --> 00:33:14,080

were Chinese he went back and wrote them

838

00:33:18,240 --> 00:33:16,210

all down and there's ancient Chinese

839

00:33:19,890 --> 00:33:18,250

written on these cave systems all

840

00:33:21,030 --> 00:33:19,900

through the Grand can he says we all

841

00:33:23,610 --> 00:33:21,040

know about him that aldaire he says

842

00:33:25,830 --> 00:33:23,620

Chinese were here prior to the Americans

843

00:33:27,510 --> 00:33:25,840

prior to the Spanish without a doubt he

844

00:33:29,300 --> 00:33:27,520

speaks what matter-of-factly I think

845

00:33:32,220 --> 00:33:29,310

people been coming here for a long time

846

00:33:34,710 --> 00:33:32,230

well not only just coming there but

847

00:33:36,390 --> 00:33:34,720

making your way to some remote natural

848

00:33:39,060 --> 00:33:36,400

beauty and then feeling the need to

849

00:33:41,010 --> 00:33:39,070

carve something in it is a very human

850

00:33:43,890 --> 00:33:41,020

thing to do if you've ever been anywhere

851

00:33:45,900 --> 00:33:43,900

remote or unique kind of a sad thing

852

00:33:47,910 --> 00:33:45,910

really but at least in this context it's

853

00:33:50,580 --> 00:33:47,920

a clue to the truth and the fact that

854

00:33:53,430 --> 00:33:50,590

someone would do that at any time depth

855

00:33:54,990 --> 00:33:53,440

is very easy for me to believe it just

856

00:33:57,780 --> 00:33:55,000

makes sense

857

00:34:00,600 --> 00:33:57,790

yeah when you go through and you you

858

00:34:02,280 --> 00:34:00,610

kind of study European colonization

859

00:34:04,320 --> 00:34:02,290

we're all taught in school that they

860

00:34:06,300 --> 00:34:04,330

thought the world was flat right and

861

00:34:09,300 --> 00:34:06,310

they took a big chance coming over here

862

00:34:11,970 --> 00:34:09,310

BS you know absolute BS the mores

863

00:34:14,400 --> 00:34:11,980

knew that it was round they knew it was

864

00:34:16,710 --> 00:34:14,410

over here ponce de leon sailed with the

865

00:34:17,970 --> 00:34:16,720

moors and he knew that there was a

866

00:34:20,700 --> 00:34:17,980

spring over here we'll get into that

867

00:34:22,200 --> 00:34:20,710

later but everyone knew the Chinese knew

868

00:34:23,820 --> 00:34:22,210

that the earth was round and they came

869

00:34:26,760 --> 00:34:23,830

over and it's already flat earthers out

870

00:34:28,710 --> 00:34:26,770

I respect your opinion you have great

871

00:34:33,390 --> 00:34:28,720

arguments by the way but well that's

872

00:34:35,850 --> 00:34:33,400

something yeah when we came over here I

873

00:34:38,700 --> 00:34:35,860

have a sneaky suspicion that these

874

00:34:41,280 --> 00:34:38,710

ancient societies and the monarchy knew

875

00:34:43,710 --> 00:34:41,290

they knew monarchy was changing and the

876

00:34:44,550 --> 00:34:43,720

next phase was being laid out they got

877

00:34:47,610 --> 00:34:44,560

here first

878

00:34:50,340 --> 00:34:47,620

they staked their claim and they made

879

00:34:52,770 --> 00:34:50,350

their Western expansion and claimed all

880

00:34:54,090 --> 00:34:52,780

this territory from Arizona I mean all

881

00:34:56,490 --> 00:34:54,100

of it the whole to our country was taken

882

00:34:57,780 --> 00:34:56,500

by Mason's hmm I don't know if you

883

00:35:00,570 --> 00:34:57,790

noticed but everyone who died at the

884

00:35:02,400 --> 00:35:00,580

Alamo they're all Freemasons no they

885

00:35:04,410 --> 00:35:02,410

found Billy the kids apron a couple

886

00:35:06,360 --> 00:35:04,420

years back Pat Garrett was a Mason all

887

00:35:08,060 --> 00:35:06,370

these Western men were Masons they all

888

00:35:11,130 --> 00:35:08,070

came out Buffalo Bill Cody was a Mason

889

00:35:14,280 --> 00:35:11,140

the histories of Southwest and masonry

890

00:35:17,400 --> 00:35:14,290

and further to my point the conquering

891

00:35:19,080 --> 00:35:17,410

and the acquisition and managing of the

892

00:35:21,120 --> 00:35:19,090

resources and that's what this is all

893

00:35:23,790 --> 00:35:21,130

about it's the control of the resources

894

00:35:25,320 --> 00:35:23,800

and that's where my research ties into

895

00:35:27,090 --> 00:35:25,330

the all this ancient history they're

896

00:35:29,250 --> 00:35:27,100

still here in Phoenix and they're laying

897

00:35:30,690 --> 00:35:29,260

out their fingerprints all over and they

898

00:35:32,280 --> 00:35:30,700

manage the insurance companies and they

899

00:35:34,440 --> 00:35:32,290

manage the water SRP the Salt River

900

00:35:37,200 --> 00:35:34,450

Project and the Colorado River pact

901  
00:35:38,760 --> 00:35:37,210  
because water is life out here they

902  
00:35:40,680 --> 00:35:38,770  
manage the politics all of it the

903  
00:35:42,900 --> 00:35:40,690  
direction where the new highways are

904  
00:35:45,150 --> 00:35:42,910  
gonna go all these powerpoints and they

905  
00:35:46,590 --> 00:35:45,160  
put their little their little shrines up

906  
00:35:47,430 --> 00:35:46,600  
everywhere they can to mark their

907  
00:35:48,930 --> 00:35:47,440  
territory

908  
00:35:51,770 --> 00:35:48,940  
right out in the open for those who have

909  
00:35:54,210 --> 00:35:51,780  
the eyes to see yeah and it's all over

910  
00:35:55,890 --> 00:35:54,220  
absolutely resource management something

911  
00:35:57,840 --> 00:35:55,900  
we take for granted because we get water

912  
00:35:59,130 --> 00:35:57,850  
piped into our house so we just don't

913  
00:36:00,960 --> 00:35:59,140

really think about it all that much but

914

00:36:02,940 --> 00:36:00,970

I live in San Diego where they're

915

00:36:05,190 --> 00:36:02,950

finding people for watering their lawn

916

00:36:08,640 --> 00:36:05,200

meanwhile I Drive down the highway and I

917

00:36:10,440 --> 00:36:08,650

see just these massive big Agri farms

918

00:36:12,690 --> 00:36:10,450

they're just watering dirt or it's

919

00:36:14,790 --> 00:36:12,700

watering the highway Road like they're

920

00:36:17,370 --> 00:36:14,800

wasting gallons and so it's all about

921

00:36:19,880 --> 00:36:17,380

well you regular people need to conserve

922

00:36:22,350 --> 00:36:19,890

but we can't even touch the waste that

923

00:36:24,750 --> 00:36:22,360

agricultural corporations are doing and

924

00:36:26,460 --> 00:36:24,760

of course they get a free pass so it's

925

00:36:28,980 --> 00:36:26,470

just an interesting little side note but

926  
00:36:31,110 --> 00:36:28,990  
this is really awesome and I'm sure you

927  
00:36:34,140 --> 00:36:31,120  
have just many many personal anecdotes

928  
00:36:35,760 --> 00:36:34,150  
that are fascinating to someone like me

929  
00:36:37,770 --> 00:36:35,770  
and to switch gears just a bit I like

930  
00:36:40,590 --> 00:36:37,780  
this one section of your bio where you

931  
00:36:42,540 --> 00:36:40,600  
say for a while you rode for a local

932  
00:36:44,730 --> 00:36:42,550  
ranch working cattle the old way and

933  
00:36:46,470 --> 00:36:44,740  
teamed up with an old prospector to

934  
00:36:49,020 --> 00:36:46,480  
explore the surrounding mountains and

935  
00:36:50,970 --> 00:36:49,030  
valleys many afternoons were spent in

936  
00:36:54,150 --> 00:36:50,980  
trading posts listening to first-hand

937  
00:36:56,220 --> 00:36:54,160  
accounts of ruins lost mines secret

938  
00:36:58,410 --> 00:36:56,230

springs and the caves deep in the desert

939

00:37:01,290 --> 00:36:58,420

you then headed into the desert and

940

00:37:03,570 --> 00:37:01,300

found those places and more I mean wow

941

00:37:05,190 --> 00:37:03,580

man I'm always particularly interested

942

00:37:07,200 --> 00:37:05,200

in stories of caves and underground

943

00:37:10,200 --> 00:37:07,210

cities and they pop up all over the

944

00:37:12,000 --> 00:37:10,210

southwest there's a pretty famous 40 in

945

00:37:13,830 --> 00:37:12,010

story of finding the ruins of an ancient

946

00:37:16,890 --> 00:37:13,840

underground city of Giants in Death

947

00:37:19,140 --> 00:37:16,900

Valley for example sure but I'm curious

948

00:37:21,540 --> 00:37:19,150

what you could tell us about Lost mines

949

00:37:23,310 --> 00:37:21,550

or caves in that area that you find most

950

00:37:27,660 --> 00:37:23,320

interesting or have tried to find

951  
00:37:30,510 --> 00:37:27,670  
yourself so when I was living in wickiup

952  
00:37:32,970 --> 00:37:30,520  
at 18 I met up with an old prospect my

953  
00:37:35,430 --> 00:37:32,980  
name of Jim Miller I mean he was just a

954  
00:37:38,130 --> 00:37:35,440  
modern-day shady pirate of a guy you

955  
00:37:39,720 --> 00:37:38,140  
know that proverbial man with a pickaxe

956  
00:37:41,790 --> 00:37:39,730  
and the mule wandering on the desert

957  
00:37:43,140 --> 00:37:41,800  
yeah that was this dude he had a limp if

958  
00:37:45,270 --> 00:37:43,150  
he had a patch it'd be pretty actually

959  
00:37:47,370 --> 00:37:45,280  
he did have a fake eye so you know this

960  
00:37:49,920 --> 00:37:47,380  
was him and we just clicked he was a

961  
00:37:53,370 --> 00:37:49,930  
cool cat he was in the prospecting he

962  
00:37:54,870 --> 00:37:53,380  
knew Carlos Castaneda from California he

963  
00:37:56,550 --> 00:37:54,880

known him for 10 years and worked with

964

00:37:58,260 --> 00:37:56,560

him over there so he had all these crazy

965

00:38:01,110 --> 00:37:58,270

stories and for an 18 year old boy that

966

00:38:03,060 --> 00:38:01,120

was awesome I was studying botany at the

967

00:38:06,120 --> 00:38:03,070

time and he was in the prospect he had a

968

00:38:10,320 --> 00:38:06,130

perpetual gold fever so we teamed up and

969

00:38:12,840 --> 00:38:10,330

I would go help him find mineral in the

970

00:38:15,180 --> 00:38:12,850

desert because certain plants grow where

971

00:38:16,200 --> 00:38:15,190

certain minerals are heavier right you

972

00:38:18,000 --> 00:38:16,210

know copy are you gonna find more

973

00:38:20,220 --> 00:38:18,010

junipers you're gonna find Ocotillo

974

00:38:21,950 --> 00:38:20,230

cactus over limestone deposits which is

975

00:38:24,500 --> 00:38:21,960

indicative of caves on and on

976

00:38:27,380 --> 00:38:24,510

so we teamed up doing all that there

977

00:38:29,210 --> 00:38:27,390

were some cowboys old Mexican Cowboys

978

00:38:31,579 --> 00:38:29,220

have been up in that area forever and

979

00:38:33,109 --> 00:38:31,589

they had tell me about these spots back

980

00:38:35,569 --> 00:38:33,119

in the desert where these caves and

981

00:38:37,609 --> 00:38:35,579

Cavett's and I went back there

982

00:38:39,670 --> 00:38:37,619

we found these Indian burial grounds we

983

00:38:42,230 --> 00:38:39,680

found places where people don't go

984

00:38:44,599 --> 00:38:42,240

people think that everything's been

985

00:38:47,589 --> 00:38:44,609

found out here in the desert you know

986

00:38:49,819 --> 00:38:47,599

Gregg if you think about it probably Oh

987

00:38:51,500 --> 00:38:49,829

what percentage of people do you say get

988

00:38:53,329 --> 00:38:51,510

out here and walk around in the Arizona

989

00:38:56,030 --> 00:38:53,339

Southwest in the backcountry

990

00:38:58,670 --> 00:38:56,040

oh man almost none because I just

991

00:39:00,339 --> 00:38:58,680

recently drove to and from Vegas and I

992

00:39:03,140 --> 00:39:00,349

know it's obviously not the same but

993

00:39:06,589 --> 00:39:03,150

everywhere you look you just think go

994

00:39:08,690 --> 00:39:06,599

500 feet off this road and who knows the

995

00:39:10,880 --> 00:39:08,700

last time a person actually stood there

996

00:39:13,940 --> 00:39:10,890

right we just drive on these two-lane

997

00:39:16,339 --> 00:39:13,950

highways you don't ever walk out even a

998

00:39:18,319 --> 00:39:16,349

hundred feet from that road yeah I'd say

999

00:39:19,819 --> 00:39:18,329

probably 20 30 percent of the US

1000

00:39:21,710 --> 00:39:19,829

population is healthy enough to go

1001  
00:39:23,839 --> 00:39:21,720  
backpacking in this often no trail

1002  
00:39:25,549 --> 00:39:23,849  
rugged stuff out of them probably 2

1003  
00:39:27,710 --> 00:39:25,559  
percent have the inclination to do so

1004  
00:39:28,819 --> 00:39:27,720  
and out of them probably almost none of

1005  
00:39:29,780 --> 00:39:28,829  
them know what they're looking at once

1006  
00:39:30,980 --> 00:39:29,790  
they get out there because they're just

1007  
00:39:32,510 --> 00:39:30,990  
out there for recreation you know

1008  
00:39:34,069 --> 00:39:32,520  
watching the birds and you know the

1009  
00:39:37,370 --> 00:39:34,079  
rocks they're not looking for ruin

1010  
00:39:38,660 --> 00:39:37,380  
systems or ancient markings or how it

1011  
00:39:40,940 --> 00:39:38,670  
all plays in line with the ancient

1012  
00:39:42,260 --> 00:39:40,950  
history and the patterns of migration so

1013  
00:39:43,640 --> 00:39:42,270

if you go out there looking for the

1014

00:39:45,740 --> 00:39:43,650

right things you're gonna find stuff

1015

00:39:46,940 --> 00:39:45,750

it's out there right now just laying

1016

00:39:49,039 --> 00:39:46,950

there waiting for someone to connect

1017

00:39:50,870 --> 00:39:49,049

those dots Coronado

1018

00:39:52,160 --> 00:39:50,880

I'm sorry Corner Cortez came up through

1019

00:39:55,400 --> 00:39:52,170

the Big Sandy Valley that's where

1020

00:39:58,609 --> 00:39:55,410

wickiups at a friend of mine showed me

1021

00:39:59,569 --> 00:39:58,619

years ago Jimmy I'm not gonna give his

1022

00:40:02,000 --> 00:39:59,579

last name I don't when his family

1023

00:40:03,680 --> 00:40:02,010

harassed but he pulled out these beads

1024

00:40:05,450 --> 00:40:03,690

and he showed me these strings of beads

1025

00:40:07,910 --> 00:40:05,460

that he had and they were a clay a

1026

00:40:10,190 --> 00:40:07,920

hardened clay and here's where we go

1027

00:40:11,809 --> 00:40:10,200

down the rabbit hole partner yeah I saw

1028

00:40:13,309 --> 00:40:11,819

these beads firsthand I touched him I

1029

00:40:15,500 --> 00:40:13,319

looked at him for a couple hours while

1030

00:40:19,250 --> 00:40:15,510

we made biscuits and bacon and sat there

1031

00:40:21,670 --> 00:40:19,260

and talked come to find out later he

1032

00:40:23,260 --> 00:40:21,680

dies and

1033

00:40:26,260 --> 00:40:23,270

I try to track these beads down last

1034

00:40:27,760 --> 00:40:26,270

year I talked to his buddy and I get a

1035

00:40:29,410 --> 00:40:27,770

hold of me says yeah man you know we

1036

00:40:31,990 --> 00:40:29,420

didn't know about those beads he thought

1037

00:40:33,910 --> 00:40:32,000

I'm in a cave hmm about 12 miles north

1038

00:40:35,560 --> 00:40:33,920

of wickiup off to the side of the

1039

00:40:38,130 --> 00:40:35,570

highway there he said he found him in

1040

00:40:40,000 --> 00:40:38,140

the 1970s and they had these little

1041

00:40:41,230 --> 00:40:40,010

edgings all around and they weren't

1042

00:40:42,340 --> 00:40:41,240

smooth they had edgings we didn't know

1043

00:40:43,510 --> 00:40:42,350

what the riding were that's why he had

1044

00:40:45,880 --> 00:40:43,520

showed me because he knew that I studied

1045

00:40:48,400 --> 00:40:45,890

ancient cultures at that time come to

1046

00:40:52,390 --> 00:40:48,410

find out they took him to an expert and

1047

00:40:53,800 --> 00:40:52,400

they were Polynesian Wow Polynesian

1048

00:40:56,050 --> 00:40:53,810

that's what the guy told me says these

1049

00:40:58,270 --> 00:40:56,060

are without a doubt now back in the late

1050

00:40:59,650 --> 00:40:58,280

70s he had contacted the Smithsonian

1051  
00:41:01,750 --> 00:40:59,660  
Institute and told him that he had him

1052  
00:41:03,340 --> 00:41:01,760  
and he mailed him over there he got a

1053  
00:41:04,990 --> 00:41:03,350  
phone call about two weeks later saying

1054  
00:41:06,610 --> 00:41:05,000  
he got any more of these he's like nope

1055  
00:41:08,200 --> 00:41:06,620  
you know of course he had hundreds more

1056  
00:41:09,280 --> 00:41:08,210  
he said what is it they said well we

1057  
00:41:10,390 --> 00:41:09,290  
don't know yet we're gonna hang on to

1058  
00:41:11,680 --> 00:41:10,400  
these if you find any more you let us

1059  
00:41:12,730 --> 00:41:11,690  
know we're just gonna keep these so they

1060  
00:41:15,430 --> 00:41:12,740  
wouldn't even give them back they

1061  
00:41:17,200 --> 00:41:15,440  
wouldn't tell him but they were

1062  
00:41:20,440 --> 00:41:17,210  
Polynesian when they took him in again

1063  
00:41:23,590 --> 00:41:20,450

the guy looked into the grooves in the

1064

00:41:26,980 --> 00:41:23,600

clay and they found micro etchings in

1065

00:41:29,460 --> 00:41:26,990

the groove Wow of this Polynesian

1066

00:41:32,950 --> 00:41:29,470

language yeah and that's one thing that

1067

00:41:34,600 --> 00:41:32,960

we find up there in wickiup you know

1068

00:41:36,430 --> 00:41:34,610

people have men have their proverbial

1069

00:41:38,050 --> 00:41:36,440

man caves I have a cave cave you know I

1070

00:41:39,910 --> 00:41:38,060

go to my cave cave up there and it's

1071

00:41:42,160 --> 00:41:39,920

gonna spring in the back of it no one

1072

00:41:44,950 --> 00:41:42,170

ever goes back there I got some initials

1073

00:41:48,930 --> 00:41:44,960

from old cowboy from the 1920s I think

1074

00:41:51,220 --> 00:41:48,940

on the wall but it's an ancient Pathan

1075

00:41:52,690 --> 00:41:51,230

migration camp when they came through

1076

00:41:54,550 --> 00:41:52,700

from the Colorado Delta up to the

1077

00:41:55,990 --> 00:41:54,560

Prescott area you know I know what it is

1078

00:41:57,910 --> 00:41:56,000

I haven't dug down but it's there

1079

00:42:00,490 --> 00:41:57,920

there's stuff all through there and it's

1080

00:42:03,430 --> 00:42:00,500

amazing I discovered a couple years ago

1081

00:42:08,770 --> 00:42:03,440

some pictographs on the ceiling of a

1082

00:42:10,690 --> 00:42:08,780

cave not far from wickiup and I took the

1083

00:42:12,520 --> 00:42:10,700

photos to an expert on pictographs and

1084

00:42:15,010 --> 00:42:12,530

petroglyphs of specifically Arizona

1085

00:42:16,440 --> 00:42:15,020

cultures and he could not contain

1086

00:42:18,970 --> 00:42:16,450

himself want me to take him out there

1087

00:42:21,100 --> 00:42:18,980

he's written three books on you know

1088

00:42:22,510 --> 00:42:21,110

this stuff but we could never come to an

1089

00:42:24,100 --> 00:42:22,520

agreement as to naming rights or

1090

00:42:26,800 --> 00:42:24,110

anything else he just wanted to grab the

1091

00:42:28,260 --> 00:42:26,810

glory of it and I'm working on a deal to

1092

00:42:30,610 --> 00:42:28,270

take an expedition out there currently

1093

00:42:32,140 --> 00:42:30,620

but he says they're more than likely put

1094

00:42:34,920 --> 00:42:32,150

tie-in and if they are they're the only

1095

00:42:36,660 --> 00:42:34,930

ones in existence so

1096

00:42:38,220 --> 00:42:36,670

there's stuff out there man all over the

1097

00:42:41,790 --> 00:42:38,230

desert I'm Kurt anyone listening to this

1098

00:42:43,260 --> 00:42:41,800

go on Google Earth go 50-mile radius of

1099

00:42:46,380 --> 00:42:43,270

your home and start exploring you're

1100

00:42:49,559 --> 00:42:46,390

gonna find stuff man yeah it's awesome

1101

00:42:51,120 --> 00:42:49,569

I'm with you and I absolutely used to

1102

00:42:52,920 --> 00:42:51,130

have this attitude that everything's

1103

00:42:56,520 --> 00:42:52,930

been discovered and there's no great

1104

00:42:58,859 --> 00:42:56,530

mysteries and that is so so untrue and

1105

00:43:00,900 --> 00:42:58,869

nobody's spotlight is on ancient

1106

00:43:03,829 --> 00:43:00,910

American cultures for the most part I

1107

00:43:06,780 --> 00:43:03,839

think there's malls built right next to

1108

00:43:09,180 --> 00:43:06,790

mounds and all kinds of crazy stuff like

1109

00:43:10,680 --> 00:43:09,190

we've probably covered a lot of it but I

1110

00:43:13,650 --> 00:43:10,690

think there's still a lot out there all

1111

00:43:14,940 --> 00:43:13,660

across America yeah without a doubt

1112

00:43:17,250 --> 00:43:14,950

without a doubt there's you know it's

1113

00:43:19,200 --> 00:43:17,260

like when we gave that worthless strip

1114

00:43:20,910 --> 00:43:19,210

of land to the Navajos years and years

1115

00:43:23,339 --> 00:43:20,920

ago then they find out there's uranium

1116

00:43:25,140 --> 00:43:23,349

and coal under it right mmm not so

1117

00:43:25,799 --> 00:43:25,150

worthless anymore what are we gonna

1118

00:43:27,569 --> 00:43:25,809

discover

1119

00:43:30,750 --> 00:43:27,579

a hundred years from now when we have

1120

00:43:33,660 --> 00:43:30,760

equipment to tap into dark matter or

1121

00:43:35,040 --> 00:43:33,670

energy where there's forces around us

1122

00:43:37,770 --> 00:43:35,050

that these energy spots that are gonna

1123

00:43:39,120 --> 00:43:37,780

be revalued you know that's what I think

1124

00:43:42,480 --> 00:43:39,130

about when I walk by these ancient sites

1125

00:43:46,260 --> 00:43:42,490

right so let me ask you about these

1126

00:43:49,109 --> 00:43:46,270

stories of ancient Giants or this oldest

1127

00:43:51,960 --> 00:43:49,119

cannibalistic tribe of red-haired Giants

1128

00:43:54,599 --> 00:43:51,970

that some Native American tribes have

1129

00:43:56,430 --> 00:43:54,609

legends of do you think there is truth

1130

00:43:58,710 --> 00:43:56,440

to that again the Smithsonian comes up

1131

00:44:00,390 --> 00:43:58,720

in those stories not returning the bones

1132

00:44:03,150 --> 00:44:00,400

that were sent to them so that was kind

1133

00:44:05,460 --> 00:44:03,160

of a interesting correlation there but

1134

00:44:09,440 --> 00:44:05,470

what are your thoughts on those stories

1135

00:44:12,030 --> 00:44:09,450

so Giants are one of my favorite topics

1136

00:44:15,270 --> 00:44:12,040

of course I'll never be a Stephen Quayle

1137

00:44:17,430 --> 00:44:15,280

he writes amazing information about it

1138

00:44:19,559 --> 00:44:17,440

but not all of it there's a lot of it he

1139

00:44:22,079 --> 00:44:19,569

misses because he can't you know get to

1140

00:44:24,270 --> 00:44:22,089

everything I've asked every one of my

1141

00:44:27,630 --> 00:44:24,280

Native American friends Apaches Hopi

1142

00:44:30,569 --> 00:44:27,640

Navajo Paiute every one of them without

1143

00:44:31,770 --> 00:44:30,579

fail talk about Giants not only the fact

1144

00:44:35,730 --> 00:44:31,780

that they were cannibals and hunted

1145

00:44:38,789 --> 00:44:35,740

humans but that sometimes they came from

1146

00:44:40,799 --> 00:44:38,799

those Giants as well and it is

1147

00:44:42,780 --> 00:44:40,809

ubiquitous just like Genesis 6:4 talks

1148

00:44:45,660 --> 00:44:42,790

about the creation story those Giants

1149

00:44:49,319 --> 00:44:45,670

are always tied to a flood story

1150

00:44:51,599 --> 00:44:49,329

there's a story I wrote about Hoke H Oh

1151  
00:44:53,359 --> 00:44:51,609  
a posture fee okay down here on the Gila

1152  
00:44:56,700 --> 00:44:53,369  
River with the Gila people

1153  
00:44:59,339 --> 00:44:56,710  
there's K ho which is a modern-day story

1154  
00:45:00,900 --> 00:44:59,349  
of a so-called alleged giant around the

1155  
00:45:03,109 --> 00:45:00,910  
Hoover Dam that they found the bones

1156  
00:45:06,989 --> 00:45:03,119  
right sometime and I believe the 50s

1157  
00:45:10,229 --> 00:45:06,999  
there's the red-haired Giants up in the

1158  
00:45:12,239 --> 00:45:10,239  
Lovelock cave in Nevada the Navajos have

1159  
00:45:13,739 --> 00:45:12,249  
the stories of the twin Giants right and

1160  
00:45:14,819 --> 00:45:13,749  
the I'm sorry of the Giants and the

1161  
00:45:18,089 --> 00:45:14,829  
twins that kill them

1162  
00:45:19,349 --> 00:45:18,099  
the Apaches called the Giants the Gwyn

1163  
00:45:21,180 --> 00:45:19,359

dippin's and they lived in the

1164

00:45:23,489 --> 00:45:21,190

Superstition Mountains just east of

1165

00:45:25,349 --> 00:45:23,499

Phoenix Arizona in fact if you ever come

1166

00:45:27,059 --> 00:45:25,359

to the valley and you go out towards

1167

00:45:30,450 --> 00:45:27,069

Apache Junction into the superstitions

1168

00:45:32,190 --> 00:45:30,460

you'll see all these rock spires coming

1169

00:45:33,720 --> 00:45:32,200

up on the west side well they believe

1170

00:45:35,970 --> 00:45:33,730

that those were the Giants that got

1171

00:45:38,729 --> 00:45:35,980

caught by the water couldn't get up and

1172

00:45:40,620 --> 00:45:38,739

they turn to stone which kind of ties

1173

00:45:41,910 --> 00:45:40,630

into the story of a lot of Sodom and

1174

00:45:43,559 --> 00:45:41,920

Gomorrah when his wife turns around and

1175

00:45:46,499 --> 00:45:43,569

turns to a pillar of ash or a salt

1176

00:45:48,239 --> 00:45:46,509

pillar you see these congruences and

1177

00:45:50,549 --> 00:45:48,249

these metaphors through these ancient

1178

00:45:52,049 --> 00:45:50,559

Native American stories and the biblical

1179

00:45:54,660 --> 00:45:52,059

ones and the biblical one is the one I

1180

00:45:56,670 --> 00:45:54,670

you know being European and all those

1181

00:45:58,559 --> 00:45:56,680

stories I'm sure they go into all the

1182

00:46:00,239 --> 00:45:58,569

other creation stories as well we know

1183

00:46:02,190 --> 00:46:00,249

that the Vedic talk about I'm in India

1184

00:46:04,049 --> 00:46:02,200

right ancient Ireland the Gaelic the

1185

00:46:05,849 --> 00:46:04,059

pagans talk about in ancient England has

1186

00:46:08,279 --> 00:46:05,859

stories of giants it's just ubiquitous

1187

00:46:08,789 --> 00:46:08,289

and here in the southwest it's no

1188

00:46:12,299 --> 00:46:08,799

different

1189

00:46:16,440 --> 00:46:12,309

a couple commonalities between all these

1190

00:46:18,749 --> 00:46:16,450

stories is that there's a woman who goes

1191

00:46:21,359 --> 00:46:18,759

off on her own and she's forced or raped

1192

00:46:23,339 --> 00:46:21,369

in the desert and comes back and nine

1193

00:46:26,339 --> 00:46:23,349

months later gives birth to a large

1194

00:46:28,890 --> 00:46:26,349

child I'll just kind of retell the story

1195

00:46:31,680 --> 00:46:28,900

of Hulk for you here sure this takes

1196

00:46:32,970 --> 00:46:31,690

place not far from sand/tan which it's

1197

00:46:34,470 --> 00:46:32,980

kind of its own town but it can be

1198

00:46:35,160 --> 00:46:34,480

considered a suburb of Phoenix off to

1199

00:46:37,559 --> 00:46:35,170

the southeast

1200

00:46:39,509 --> 00:46:37,569

the santan mountains and the Gila Indian

1201  
00:46:42,599 --> 00:46:39,519  
tribe out there a woman goes out gets

1202  
00:46:47,160 --> 00:46:42,609  
violated gives birth to a girl and the

1203  
00:46:49,019 --> 00:46:47,170  
girl is big and she bites a lot and

1204  
00:46:50,849 --> 00:46:49,029  
she's violent and cries a lot and as she

1205  
00:46:53,370 --> 00:46:50,859  
grows older you know she starts

1206  
00:46:55,890 --> 00:46:53,380  
developing these paws like feet like

1207  
00:46:58,470 --> 00:46:55,900  
paws of a dog or an animal and she has

1208  
00:46:59,310 --> 00:46:58,480  
claws on her hand not nails and the

1209  
00:47:00,450 --> 00:46:59,320  
other boys won't play

1210  
00:47:02,520 --> 00:47:00,460  
with her and the girls won't play with

1211  
00:47:03,990 --> 00:47:02,530  
her so she joins the hunting parties

1212  
00:47:06,330 --> 00:47:04,000  
with the men and she hunts with the men

1213  
00:47:07,980 --> 00:47:06,340

for a couple years and after a while the

1214

00:47:09,450 --> 00:47:07,990

men are like damn she's mean you know

1215

00:47:10,710 --> 00:47:09,460

she's like chasing down rabbits and

1216

00:47:12,540 --> 00:47:10,720

ripping them apart with her teeth and

1217

00:47:14,850 --> 00:47:12,550

and she's fighting with the men and she

1218

00:47:16,020 --> 00:47:14,860

killed a man once and no more she and a

1219

00:47:16,560 --> 00:47:16,030

lot of hunt with us anymore she's out of

1220

00:47:18,720 --> 00:47:16,570

control

1221

00:47:21,540 --> 00:47:18,730

so they kick her out of the tribe and

1222

00:47:22,860 --> 00:47:21,550

she goes to live in a cave in the San

1223

00:47:24,420 --> 00:47:22,870

Tan Mountains I know right where the

1224

00:47:26,490 --> 00:47:24,430

caves at I've been there yet cuz it's on

1225

00:47:29,610 --> 00:47:26,500

the Indian rezoned I don't know any any

1226

00:47:30,960 --> 00:47:29,620

Gila natives take me out there but it's

1227

00:47:33,150 --> 00:47:30,970

there and there's a big effigy by the

1228

00:47:34,500 --> 00:47:33,160

way made in rocks at the base of this

1229

00:47:36,870 --> 00:47:34,510

cave and that's for her still there

1230

00:47:39,250 --> 00:47:36,880

today this big rock design at the bottom

1231

00:47:41,200 --> 00:47:39,260

of this cave it's still out there

1232

00:47:42,790 --> 00:47:41,210

but she goes live in this cave and then

1233

00:47:45,730 --> 00:47:42,800

notice you know months later that all

1234

00:47:48,220 --> 00:47:45,740

the deer are disappearing and then the

1235

00:47:49,900 --> 00:47:48,230

children start disappearing and they

1236

00:47:52,330 --> 00:47:49,910

realized that she has this insatiable

1237

00:47:53,800 --> 00:47:52,340

appetite and hunger and they know what's

1238

00:47:55,870 --> 00:47:53,810

going on so they go to the medicine man

1239

00:47:57,610 --> 00:47:55,880

and say what are we gonna do and they

1240

00:47:59,680 --> 00:47:57,620

say what's throw a big party for her and

1241

00:48:01,540 --> 00:47:59,690

we have to kill her somehow so let's get

1242

00:48:04,000 --> 00:48:01,550

her drunk so anyway the story goes on

1243

00:48:05,710 --> 00:48:04,010

but they bring her to the festival and

1244

00:48:08,740 --> 00:48:05,720

for four days they give her alcohol

1245

00:48:10,810 --> 00:48:08,750

fermented cactus fruit wine and you

1246

00:48:13,180 --> 00:48:10,820

dance they make her exhausted and they

1247

00:48:15,310 --> 00:48:13,190

carry her back to her cave and they

1248

00:48:17,230 --> 00:48:15,320

stick her in this cave and they piled up

1249

00:48:19,810 --> 00:48:17,240

with mesquite and wood and they light it

1250

00:48:21,970 --> 00:48:19,820

on fire and she screams as she's dying

1251

00:48:23,980 --> 00:48:21,980

and she's dead

1252

00:48:26,110 --> 00:48:23,990

the story goes on from there that her

1253

00:48:27,700 --> 00:48:26,120

spirit comes out her body and cracks the

1254

00:48:29,170 --> 00:48:27,710

top of the cave and there is a crack in

1255

00:48:31,960 --> 00:48:29,180

the rock right there and it shoots into

1256

00:48:33,790 --> 00:48:31,970

a bird and the bird comes down and lands

1257

00:48:34,570 --> 00:48:33,800

in a pot of beans and some medicine man

1258

00:48:37,270 --> 00:48:34,580

eats the beans

1259

00:48:39,160 --> 00:48:37,280

so it's possession the story goes on to

1260

00:48:40,570 --> 00:48:39,170

possession and they have to go to the

1261

00:48:42,220 --> 00:48:40,580

top of South Mountain in south Phoenix

1262

00:48:43,660 --> 00:48:42,230

and get a medicine man to come down

1263

00:48:45,190 --> 00:48:43,670

because that's where the medicine men

1264

00:48:47,920 --> 00:48:45,200

live and South mountains its own thing

1265

00:48:50,380 --> 00:48:47,930

as well but they eventually get rid of

1266

00:48:53,950 --> 00:48:50,390

the spirit of Hoek and she no longer

1267

00:48:55,900 --> 00:48:53,960

torments them it's kind of crazy but if

1268

00:48:57,820 --> 00:48:55,910

you start studying Native American

1269

00:49:00,810 --> 00:48:57,830

stories mythology you know where the

1270

00:49:03,940 --> 00:49:00,820

lines are drawn between the morals right

1271

00:49:06,010 --> 00:49:03,950

and actual event kind of like the Bible

1272

00:49:08,080 --> 00:49:06,020

with the parables and whatnot mm-hmm I

1273

00:49:11,380 --> 00:49:08,090

love those kind of stories and I just

1274

00:49:13,330 --> 00:49:11,390

love the tales of giants it seems so

1275

00:49:16,510 --> 00:49:13,340

far-fetched but I think there's enough

1276

00:49:20,500 --> 00:49:16,520

there to you know put it in the true

1277

00:49:22,510 --> 00:49:20,510

column and I took a research tour of our

1278

00:49:25,360 --> 00:49:22,520

mania with Graham Hancock a couple of

1279

00:49:27,900 --> 00:49:25,370

years ago as like two weeks and the

1280

00:49:30,790 --> 00:49:27,910

local researchers would talk about

1281

00:49:32,860 --> 00:49:30,800

giants and places where bones were found

1282

00:49:35,110 --> 00:49:32,870

and Graham would roll his eyes and say

1283

00:49:36,880 --> 00:49:35,120

he wasn't interested in those giant

1284

00:49:39,100 --> 00:49:36,890

stories didn't believe him but I would

1285

00:49:41,200 --> 00:49:39,110

always pry a little bit more I'd be like

1286

00:49:43,420 --> 00:49:41,210

you know I get the translator hey can

1287

00:49:45,430 --> 00:49:43,430

you ask Baskin a little more about that

1288

00:49:48,580 --> 00:49:45,440

giant thing like and I'd get a few more

1289

00:49:50,530 --> 00:49:48,590

sentences and I just loved to throw that

1290

00:49:52,069 --> 00:49:50,540

out there because these local Romanian

1291

00:49:54,049 --> 00:49:52,079

researchers have almost zero

1292

00:49:56,749 --> 00:49:54,059

reach but they also have a lot of

1293

00:49:59,660 --> 00:49:56,759

fascinating stuff they found in the area

1294

00:50:02,209 --> 00:49:59,670

but to go back to that section of your

1295

00:50:04,489 --> 00:50:02,219

bio that I read in that paragraph

1296

00:50:07,279 --> 00:50:04,499

you mentioned secret Springs and I'm

1297

00:50:09,130 --> 00:50:07,289

curious if this is a reference to Castle

1298

00:50:12,319 --> 00:50:09,140

hot springs or something else

1299

00:50:14,630 --> 00:50:12,329

no it's there's other Springs out there

1300

00:50:17,479 --> 00:50:14,640

on map you have to keep in mind that

1301  
00:50:19,039 --> 00:50:17,489  
I've walked and backpacked miles and

1302  
00:50:20,719 --> 00:50:19,049  
miles and miles of desert and there's

1303  
00:50:22,370 --> 00:50:20,729  
something mystical and literally

1304  
00:50:24,680 --> 00:50:22,380  
spiritual and sacred about water in the

1305  
00:50:28,039 --> 00:50:24,690  
desert there are Springs that are not on

1306  
00:50:30,019 --> 00:50:28,049  
maps out their secret Springs that are

1307  
00:50:32,150 --> 00:50:30,029  
coming out of an old pipe you know that

1308  
00:50:34,039 --> 00:50:32,160  
some cowboy stuck in the ground or that

1309  
00:50:35,749 --> 00:50:34,049  
are underground and don't surface and

1310  
00:50:37,819 --> 00:50:35,759  
you can go under these caves and find

1311  
00:50:39,890 --> 00:50:37,829  
them there are secret springs in the

1312  
00:50:42,199 --> 00:50:39,900  
desert and that's what I was talking

1313  
00:50:44,979 --> 00:50:42,209

about there was a half-breed Eddy

1314

00:50:47,779 --> 00:50:44,989

benegas half Mexican cowboy out there

1315

00:50:49,940 --> 00:50:47,789

back then I used to brew beer and he was

1316

00:50:51,349 --> 00:50:49,950

a bit of a imbibe er he would come over

1317

00:50:52,819 --> 00:50:51,359

and I would give him my homebrew and he

1318

00:50:54,019 --> 00:50:52,829

would tell me these ancient stories and

1319

00:50:56,900 --> 00:50:54,029

all the secrets of the desert out there

1320

00:50:59,059 --> 00:50:56,910

pretty good arrangement that's great and

1321

00:51:00,049 --> 00:50:59,069

he told me he said get your maps out and

1322

00:51:01,279 --> 00:51:00,059

we would sit there and have a couple

1323

00:51:04,219 --> 00:51:01,289

brews and he would tell me where these

1324

00:51:07,069 --> 00:51:04,229

ancient places were I was lucky I was

1325

00:51:08,749 --> 00:51:07,079

lucky to have him there but yeah they're

1326  
00:51:11,390 --> 00:51:08,759  
out there Castle hot springs is another

1327  
00:51:13,939 --> 00:51:11,400  
story yeah it's at the base of the

1328  
00:51:17,630 --> 00:51:13,949  
Bradshaw Mountains it is the first

1329  
00:51:19,849 --> 00:51:17,640  
territorial capital of Arizona before it

1330  
00:51:21,410 --> 00:51:19,859  
started rolling around it's a very

1331  
00:51:23,630 --> 00:51:21,420  
powerful spot it's known as the healing

1332  
00:51:26,089 --> 00:51:23,640  
Springs to the Yavapai as well as the

1333  
00:51:28,519 --> 00:51:26,099  
Apache even in times of war people were

1334  
00:51:30,380 --> 00:51:28,529  
granted pass to go in there in more

1335  
00:51:32,839 --> 00:51:30,390  
modern day times when the colonization

1336  
00:51:34,519 --> 00:51:32,849  
happened the governors and the wealthy

1337  
00:51:35,839 --> 00:51:34,529  
the Carnegie's the Rockefellers would

1338  
00:51:38,539 --> 00:51:35,849

come to Arizona they would hang out

1339

00:51:41,479 --> 00:51:38,549

there in these Springs later on JFK came

1340

00:51:43,640 --> 00:51:41,489

there and he healed up right lots of

1341

00:51:45,049 --> 00:51:43,650

famous people wealthy people have come

1342

00:51:47,779 --> 00:51:45,059

from around the world to sit in these

1343

00:51:50,959 --> 00:51:47,789

Springs Castle Hot Springs is known as

1344

00:51:53,329 --> 00:51:50,969

the deepest rock water in Arizona that

1345

00:51:56,209 --> 00:51:53,339

we know of it's at least 7,000 feet deep

1346

00:51:57,170 --> 00:51:56,219

it comes out I want to see us I can't

1347

00:51:59,660 --> 00:51:57,180

remember I wrote the article years ago

1348

00:52:02,120 --> 00:51:59,670

guys it was 120 degrees I think and

1349

00:52:04,370 --> 00:52:02,130

there's three pools and each pool is a

1350

00:52:05,970 --> 00:52:04,380

little bit cooler they had built the

1351

00:52:07,410 --> 00:52:05,980

capital of Arizona right there

1352

00:52:09,210 --> 00:52:07,420

and when the train came through

1353

00:52:10,560 --> 00:52:09,220

Wickenburg there was a stagecoach that

1354

00:52:12,060 --> 00:52:10,570

would run up there into those mountains

1355

00:52:13,410 --> 00:52:12,070

to where that was they used to hang

1356

00:52:15,329 --> 00:52:13,420

people from the front steps of this

1357

00:52:17,550 --> 00:52:15,339

territorial capital it was the

1358

00:52:19,200 --> 00:52:17,560

governor's office and it was the hanging

1359

00:52:20,700 --> 00:52:19,210

tree and it was the whole you know

1360

00:52:22,770 --> 00:52:20,710

business it was everything it was kind

1361

00:52:24,210 --> 00:52:22,780

of a cool little piece of history it was

1362

00:52:26,490 --> 00:52:24,220

bought out by a number of different

1363

00:52:29,099 --> 00:52:26,500

people through the years Arizona State

1364

00:52:30,750 --> 00:52:29,109

University bought it and as of last year

1365

00:52:32,040 --> 00:52:30,760

I think it just changed hands again I

1366

00:52:34,050 --> 00:52:32,050

haven't looked at who's got it but

1367

00:52:36,690 --> 00:52:34,060

they're talking of opening it back up

1368

00:52:40,349 --> 00:52:36,700

for memberships and to go in there and

1369

00:52:42,810 --> 00:52:40,359

sit in the springs and heal so this

1370

00:52:45,780 --> 00:52:42,820

caught my attention because I had been

1371

00:52:48,089 --> 00:52:45,790

studying the ancient colonization of our

1372

00:52:51,000 --> 00:52:48,099

country and Ponce de Leon right in the

1373

00:52:53,310 --> 00:52:51,010

Fountain of Youth well this also ties

1374

00:52:56,370 --> 00:52:53,320

into a guy who was doing a lot of work

1375

00:52:58,170 --> 00:52:56,380

here in the 70s on the monoatomic gold

1376

00:52:59,730 --> 00:52:58,180

yeah have you heard of well that whole

1377

00:53:03,480 --> 00:52:59,740

thing started right here in Phoenix he

1378

00:53:04,670 --> 00:53:03,490

was a farmer to the southwest and he had

1379

00:53:07,170 --> 00:53:04,680

was trying to figure out how to

1380

00:53:09,120 --> 00:53:07,180

chemically get rid of the alkalinity on

1381

00:53:12,089 --> 00:53:09,130

a soil he's pouring chemicals on his

1382

00:53:14,370 --> 00:53:12,099

soil and he takes in the soil to get a

1383

00:53:16,950 --> 00:53:14,380

say and he finds this new element right

1384

00:53:18,359 --> 00:53:16,960

it intrigues them he spends hundreds of

1385

00:53:20,849 --> 00:53:18,369

thousands of dollars and buys a

1386

00:53:23,069 --> 00:53:20,859

spectrometer and discovers a new element

1387

00:53:25,050 --> 00:53:23,079

what he calls monoatomic gold when he

1388

00:53:27,240 --> 00:53:25,060

hits it a certain frequency for the burn

1389

00:53:29,130 --> 00:53:27,250

off it leaves the dimension it

1390

00:53:31,170 --> 00:53:29,140

disappears completely then it reappears

1391

00:53:33,990 --> 00:53:31,180

again well while this is happening

1392

00:53:35,520 --> 00:53:34,000

he's patenting it he's forming his own

1393

00:53:37,650 --> 00:53:35,530

dare I say religion but he's still out

1394

00:53:38,880 --> 00:53:37,660

there you can look up monoatomic gold

1395

00:53:40,740 --> 00:53:38,890

and get into all the research yourself

1396

00:53:43,800 --> 00:53:40,750

it's quite copious its exhaustive to

1397

00:53:48,480 --> 00:53:43,810

tell you the truth but what he's saying

1398

00:53:50,400 --> 00:53:48,490

is that this monoatomic gold is what

1399

00:53:52,109 --> 00:53:50,410

bridges the synapses in the brain kind

1400

00:53:54,390 --> 00:53:52,119

of like spice on that movie dune you

1401  
00:53:57,510 --> 00:53:54,400  
member the old sci-fi dune yes yeah

1402  
00:53:58,680 --> 00:53:57,520  
basically it's just like spice and that

1403  
00:54:01,109 --> 00:53:58,690  
the natives would eat at the medicine

1404  
00:54:04,079 --> 00:54:01,119  
men would eat it he's parking it back to

1405  
00:54:05,790 --> 00:54:04,089  
ancient Egypt with Moses and Mount Sinai

1406  
00:54:09,540 --> 00:54:05,800  
and that they used to manufacture it

1407  
00:54:12,030 --> 00:54:09,550  
there well I met a guy in Florida who

1408  
00:54:14,640 --> 00:54:12,040  
said yeah well the Fountain of Youth

1409  
00:54:16,829 --> 00:54:14,650  
down here in Florida what it is is you

1410  
00:54:19,980 --> 00:54:16,839  
have this gold washing off of the

1411  
00:54:22,350 --> 00:54:19,990  
mainland it hits the limestone

1412  
00:54:24,150 --> 00:54:22,360  
bed and it goes down deep in those

1413  
00:54:25,920 --> 00:54:24,160

caverns and it becomes pressurized so

1414

00:54:28,140 --> 00:54:25,930

all this heavy metal sinks way way way

1415

00:54:29,730 --> 00:54:28,150

way down there and you have the

1416

00:54:33,210 --> 00:54:29,740

nutritious salts coming in off the ocean

1417

00:54:36,540 --> 00:54:33,220

in all this cocktail getting pressurized

1418

00:54:39,390 --> 00:54:36,550

underground for who knows how long and

1419

00:54:43,200 --> 00:54:39,400

then coming up in in artesian spring so

1420

00:54:44,910 --> 00:54:43,210

a natural engine or a natural foundry if

1421

00:54:47,340 --> 00:54:44,920

you will that creates this monoatomic

1422

00:54:49,109 --> 00:54:47,350

Gold Underground through the salts and

1423

00:54:51,060 --> 00:54:49,119

the limestone the nutritious soils the

1424

00:54:53,880 --> 00:54:51,070

heat and the pressure and then coming up

1425

00:54:56,310 --> 00:54:53,890

through an artesian spring well to tie

1426  
00:55:00,480 --> 00:54:56,320  
this back to Arizona here the Bradshaw

1427  
00:55:01,830 --> 00:55:00,490  
mountains are the most mineralized

1428  
00:55:03,750 --> 00:55:01,840  
mountain range in the United States of

1429  
00:55:06,480 --> 00:55:03,760  
America it's been told there's more

1430  
00:55:08,250 --> 00:55:06,490  
heavy metals gold silver and other heavy

1431  
00:55:09,840 --> 00:55:08,260  
metals around that mountain than

1432  
00:55:12,810 --> 00:55:09,850  
anywhere else the concentration only

1433  
00:55:15,540 --> 00:55:12,820  
it's not confident of to actually dig it

1434  
00:55:17,190 --> 00:55:15,550  
out it's all spread out well if you have

1435  
00:55:19,710 --> 00:55:17,200  
are the southern end of that right at

1436  
00:55:22,050 --> 00:55:19,720  
the bottom of that drainage a spring

1437  
00:55:24,450 --> 00:55:22,060  
coming up it what's the chances of those

1438  
00:55:26,550 --> 00:55:24,460

heavy metals going down and pressurizing

1439

00:55:27,750 --> 00:55:26,560

7,000 feet and coming up we know there's

1440

00:55:29,790 --> 00:55:27,760

a healing spring there that's been

1441

00:55:31,680 --> 00:55:29,800

revered by all Native Americans in

1442

00:55:32,970 --> 00:55:31,690

ancient times we know that the wealthy

1443

00:55:34,740 --> 00:55:32,980

and the elite came here and the first

1444

00:55:36,440 --> 00:55:34,750

thing they did in Arizona was a build a

1445

00:55:38,670 --> 00:55:36,450

territorial capital on the spring

1446

00:55:41,580 --> 00:55:38,680

there's something to it you know I'm

1447

00:55:46,260 --> 00:55:41,590

convinced money and wealth and power

1448

00:55:48,359 --> 00:55:46,270

does not gravitate arbitrarily they seek

1449

00:55:50,220 --> 00:55:48,369

out power and they take the good stuff

1450

00:55:51,870 --> 00:55:50,230

and if they came right here when they

1451

00:55:54,300 --> 00:55:51,880

first got to Arizona there's a reason

1452

00:55:56,430 --> 00:55:54,310

for it you know we wouldn't know until

1453

00:55:58,859 --> 00:55:56,440

1970s about the monoatomic gold but I

1454

00:55:59,940 --> 00:55:58,869

think that's the science underneath it

1455

00:56:01,680 --> 00:55:59,950

and that's for someone else to go

1456

00:56:03,570 --> 00:56:01,690

through and figure out I can't be an

1457

00:56:04,590 --> 00:56:03,580

expert in everything but I can connect

1458

00:56:07,530 --> 00:56:04,600

enough dots to tell you there's

1459

00:56:10,109 --> 00:56:07,540

something there absolutely man we have

1460

00:56:12,120 --> 00:56:10,119

talked on the show about alchemy and the

1461

00:56:13,950 --> 00:56:12,130

idea of Ormus I think that's another

1462

00:56:15,960 --> 00:56:13,960

term people use for this stuff and you

1463

00:56:17,520 --> 00:56:15,970

mentioned that popping into another

1464

00:56:19,170 --> 00:56:17,530

dimension that's exactly how they

1465

00:56:21,450 --> 00:56:19,180

describe this stuff yep there's a

1466

00:56:24,359 --> 00:56:21,460

documentary out there called all the

1467

00:56:27,090 --> 00:56:24,369

gold you can eat where a guy talks to

1468

00:56:29,099 --> 00:56:27,100

five or six different older gentlemen

1469

00:56:31,440 --> 00:56:29,109

who have spent their lives keeping this

1470

00:56:33,510 --> 00:56:31,450

secret or working on this in secret and

1471

00:56:36,680 --> 00:56:33,520

it's fascinating I mean

1472

00:56:38,880 --> 00:56:36,690

even some suggestion that the large

1473

00:56:42,390 --> 00:56:38,890

corporations know this stuff and they

1474

00:56:44,190 --> 00:56:42,400

have highly guarded secret bunkers where

1475

00:56:46,110 --> 00:56:44,200

they're actually making the things that

1476

00:56:47,940 --> 00:56:46,120

they're saying are artificially scarce I

1477

00:56:49,200 --> 00:56:47,950

mean who knows you can imagine that that

1478

00:56:51,300 --> 00:56:49,210

would just be something that would be

1479

00:56:54,630 --> 00:56:51,310

one of the biggest secrets you'd want to

1480

00:56:56,220 --> 00:56:54,640

keep and in terms of water yeah I

1481

00:56:58,050 --> 00:56:56,230

absolutely think water has healing

1482

00:57:00,420 --> 00:56:58,060

properties in certain conditions

1483

00:57:02,880 --> 00:57:00,430

maybe natural sights did give ancient

1484

00:57:04,560 --> 00:57:02,890

people insight into this and there's

1485

00:57:06,330 --> 00:57:04,570

techniques probably to amplify it

1486

00:57:08,790 --> 00:57:06,340

further it's no surprise that our modern

1487

00:57:12,270 --> 00:57:08,800

water supply is such [h\_\_\h] quality and

1488

00:57:14,280 --> 00:57:12,280

this information is so suppressed and as

1489

00:57:15,900 --> 00:57:14,290

a side note this was something that I

1490

00:57:18,570 --> 00:57:15,910

thought was pretty damn interesting too

1491

00:57:19,430 --> 00:57:18,580

from your article about Castle Hot

1492

00:57:22,890 --> 00:57:19,440

Springs

1493

00:57:24,390 --> 00:57:22,900

David Copperfield has claimed to have

1494

00:57:27,690 --> 00:57:24,400

discovered a Fountain of Youth on one of

1495

00:57:29,730 --> 00:57:27,700

his eleven islands purchased in 2006 for

1496

00:57:31,890 --> 00:57:29,740

fifty million dollars to quote mr.

1497

00:57:34,710 --> 00:57:31,900

Copperfield I've discovered a true

1498

00:57:36,360 --> 00:57:34,720

phenomenon you can take dead leaves they

1499

00:57:38,640 --> 00:57:36,370

come in contact with the water and

1500

00:57:40,560 --> 00:57:38,650

become full of life again bugs or

1501

00:57:42,660 --> 00:57:40,570

insects that are near death come in

1502

00:57:45,270 --> 00:57:42,670

contact with the water and they'll fly

1503

00:57:48,240 --> 00:57:45,280

away it's an amazing thing very very

1504

00:57:51,390 --> 00:57:48,250

exciting he also states we found this

1505

00:57:53,370 --> 00:57:51,400

liquid that in its simple stages can

1506

00:57:55,710 --> 00:57:53,380

actually do miraculous things Brown

1507

00:57:57,420 --> 00:57:55,720

leaves turn green it is natural simple

1508

00:57:59,910 --> 00:57:57,430

organisms that are near death are

1509

00:58:01,260 --> 00:57:59,920

rejuvenated so we don't know about the

1510

00:58:03,390 --> 00:58:01,270

effects on humans but we're doing

1511

00:58:07,050 --> 00:58:03,400

research and development I mean that

1512

00:58:10,230 --> 00:58:07,060

sounds like this kind of monoatomic gold

1513

00:58:12,180 --> 00:58:10,240

or miss fluid I mean it all ties into

1514

00:58:14,310 --> 00:58:12,190

ether physics and this all cut all this

1515

00:58:15,900 --> 00:58:14,320

stuff I think is suppressed and also

1516

00:58:18,240 --> 00:58:15,910

synergistic like you mentioned earlier

1517

00:58:19,800 --> 00:58:18,250

it all ties them together and to point

1518

00:58:21,960 --> 00:58:19,810

out David convertibles islands aren't

1519

00:58:23,730 --> 00:58:21,970

that far from Florida it's right there

1520

00:58:25,650 --> 00:58:23,740

right it's not raft the coast there it's

1521

00:58:27,720 --> 00:58:25,660

like I said early on everything

1522

00:58:30,470 --> 00:58:27,730

eventually ties in together at some

1523

00:58:33,060 --> 00:58:30,480

point it's really hard to stay on topic

1524

00:58:34,740 --> 00:58:33,070

when we talk about this stuff because

1525

00:58:38,010 --> 00:58:34,750

the Giants go to the model atomic which

1526

00:58:39,660 --> 00:58:38,020

goes it just it all ties together so no

1527

00:58:42,150 --> 00:58:39,670

it's fascinating it's it's really

1528

00:58:44,430 --> 00:58:42,160

amazing stuff and to talk about another

1529

00:58:47,380 --> 00:58:44,440

ancient site that somewhat of a mystery

1530

00:58:50,109 --> 00:58:47,390

we've all probably heard about the Nazca

1531

00:58:51,940 --> 00:58:50,119

these giant animals and humanoid figure

1532

00:58:53,859 --> 00:58:51,950

outlines that were made to be seen from

1533

00:58:55,900 --> 00:58:53,869

the sky which begs the question why

1534

00:58:58,000 --> 00:58:55,910

would a civilization hundreds or

1535

00:58:59,650 --> 00:58:58,010

thousands of years before conventional

1536

00:59:01,299 --> 00:58:59,660

air travel put so much energy into

1537

00:59:04,150 --> 00:59:01,309

building things you can only see from

1538

00:59:06,730 --> 00:59:04,160

the sky well Arizona actually has a site

1539

00:59:10,000 --> 00:59:06,740

that's quite similar doesn't it it does

1540

00:59:11,650 --> 00:59:10,010

are called the Blythe intaglio z' so

1541

00:59:13,539 --> 00:59:11,660

that's the name forum they're right

1542

00:59:15,789 --> 00:59:13,549

outside of Blythe California on the

1543

00:59:18,400 --> 00:59:15,799

California side there but there are

1544

00:59:19,930 --> 00:59:18,410

several of them along the Gila River all

1545

00:59:20,890 --> 00:59:19,940

the way into the Phoenix area if you

1546

00:59:23,140 --> 00:59:20,900

know where to look they don't like

1547

00:59:24,309 --> 00:59:23,150

talking about them the archaeologists

1548

00:59:26,529 --> 00:59:24,319

don't want people out there messing with

1549

00:59:29,829 --> 00:59:26,539

them they're made the exact same way

1550

00:59:31,269 --> 00:59:29,839

there is a tarnished patina rock on the

1551

00:59:34,480 --> 00:59:31,279

desert floor that's just been baked

1552

00:59:37,210 --> 00:59:34,490

there for millions of years and they

1553

00:59:39,160 --> 00:59:37,220

move that rock aside and uncovered the

1554

00:59:41,380 --> 00:59:39,170

lighter rock underneath it and these

1555

00:59:44,170 --> 00:59:41,390

designs that whomever made we don't know

1556

00:59:46,660 --> 00:59:44,180

who made them are a horse or doglike

1557

00:59:49,029 --> 00:59:46,670

creature there's one of a woman with

1558

00:59:51,390 --> 00:59:49,039

really really long arms there's another

1559

00:59:54,609 --> 00:59:51,400

one of someone spearing a fish and

1560

00:59:56,109 --> 00:59:54,619

there's other ones there as well there's

1561

00:59:58,210 --> 00:59:56,119

also the one like I mentioned just a

1562

01:00:00,880 --> 00:59:58,220

minute ago with Hoke the rocks are laid

1563

01:00:02,259 --> 01:00:00,890

out there's some if I understand along

1564

01:00:04,900 --> 01:00:02,269

the Gila River not far from Gila Bend

1565

01:00:08,289 --> 01:00:04,910

out in the desert along the river as

1566

01:00:11,950 --> 01:00:08,299

well so they're all out there to me it

1567

01:00:14,950 --> 01:00:11,960

would make sense that the Nazca or maybe

1568

01:00:17,920 --> 01:00:14,960

someone who was there with them migrated

1569

01:00:21,220 --> 01:00:17,930

up there nowhere near as big and as

1570

01:00:24,009 --> 01:00:21,230

perfect and intricate as the ones in

1571

01:00:26,200 --> 01:00:24,019

Nazca but they are here it's kind of

1572

01:00:28,870 --> 01:00:26,210

like it would be to the Nazca lines what

1573

01:00:30,190 --> 01:00:28,880

the later pyramids were in Egypt to the

1574

01:00:32,170 --> 01:00:30,200

Great Pyramid right they just weren't

1575

01:00:34,809 --> 01:00:32,180

quite as awesome mm-hmm

1576

01:00:37,180 --> 01:00:34,819

they came after no doubt but yeah

1577

01:00:38,769 --> 01:00:37,190

they're here I saw the pictures that you

1578

01:00:40,720 --> 01:00:38,779

put up of them they're pretty impressive

1579

01:00:43,089 --> 01:00:40,730

I mean a lot of people probably see

1580

01:00:45,009 --> 01:00:43,099

these Nazca lines on TV and they're like

1581

01:00:46,900 --> 01:00:45,019

man I wish I could go there meanwhile

1582

01:00:49,599 --> 01:00:46,910

you're probably just a few states over

1583

01:00:51,130 --> 01:00:49,609

from something very very similar it's

1584

01:00:52,720 --> 01:00:51,140

just not on television so you didn't

1585

01:00:54,430 --> 01:00:52,730

know about it it's just kind of crazy

1586

01:00:55,960 --> 01:00:54,440

yeah you know and they've gone through

1587

01:00:57,759 --> 01:00:55,970

and they ask these natives they said so

1588

01:00:59,710 --> 01:00:57,769

why did you guys build this and that's

1589

01:01:00,110 --> 01:00:59,720

mojave country they're like we didn't

1590

01:01:02,110 --> 01:01:00,120

make

1591

01:01:06,050 --> 01:01:02,120

they were here when we got here you know

1592

01:01:09,410 --> 01:01:06,060

I love that kind of stuff you know I've

1593

01:01:13,150 --> 01:01:09,420

asked a lot of guests about insight from

1594

01:01:15,800 --> 01:01:13,160

Native American tribes because it is so

1595

01:01:17,810 --> 01:01:15,810

kept close to the chest for them they

1596

01:01:19,850 --> 01:01:17,820

don't really give a lot of the secrets

1597

01:01:21,410 --> 01:01:19,860

out and why would they you know you know

1598

01:01:23,540 --> 01:01:21,420

we don't really deserve them in a lot of

1599

01:01:26,600 --> 01:01:23,550

cases but there are people like yourself

1600

01:01:30,020 --> 01:01:26,610

who do make friends with them and

1601  
01:01:31,430 --> 01:01:30,030  
sometimes get great insight from them

1602  
01:01:34,610 --> 01:01:31,440  
when they open up a little bit

1603  
01:01:36,680 --> 01:01:34,620  
I'm just curious broadly speaking if you

1604  
01:01:38,780 --> 01:01:36,690  
could talk to us a little bit more about

1605  
01:01:40,370 --> 01:01:38,790  
that kind of thing because it's just

1606  
01:01:42,250 --> 01:01:40,380  
like where else are we going to learn

1607  
01:01:45,210 --> 01:01:42,260  
this stuff

1608  
01:01:47,349 --> 01:01:45,220  
yeah when you're talking with natives

1609  
01:01:48,460 --> 01:01:47,359  
first of all they're like everyone else

1610  
01:01:50,859 --> 01:01:48,470  
they're just human they're just people

1611  
01:01:52,359 --> 01:01:50,869  
right they know what they know Europeans

1612  
01:01:53,859 --> 01:01:52,369  
especially have some they think they're

1613  
01:01:54,970 --> 01:01:53,869

like magical creatures or something no

1614

01:01:57,160 --> 01:01:54,980

they're thin-skinned mammals the

1615

01:01:58,839 --> 01:01:57,170

opposable thumbs just like us and they

1616

01:02:01,420 --> 01:01:58,849

have cellphones and drive Chevy trucks

1617

01:02:05,140 --> 01:02:01,430

but they have something else they have

1618

01:02:07,720 --> 01:02:05,150

an ancient history that they don't want

1619

01:02:09,790 --> 01:02:07,730

to be corrupted right you know when I

1620

01:02:12,040 --> 01:02:09,800

talked to my Apache friend Albert he's a

1621

01:02:13,359 --> 01:02:12,050

full-blooded mescal era he'll tell me

1622

01:02:15,460 --> 01:02:13,369

stories of you know what his grandfather

1623

01:02:18,160 --> 01:02:15,470

told me but they only know what they

1624

01:02:20,260 --> 01:02:18,170

know some natives are more willing to

1625

01:02:21,670 --> 01:02:20,270

talk about this stuff others aren't I've

1626

01:02:23,380 --> 01:02:21,680

written a ton about skinwalkers and I

1627

01:02:25,359 --> 01:02:23,390

have a gentleman I've been in touch with

1628

01:02:27,520 --> 01:02:25,369

from the res and he's open about

1629

01:02:30,060 --> 01:02:27,530

skinwalkers one of the only names I've

1630

01:02:32,440 --> 01:02:30,070

ever known who is most of them will not

1631

01:02:34,870 --> 01:02:32,450

it just got to be courteous and you have

1632

01:02:37,450 --> 01:02:34,880

to know when to stop asking questions

1633

01:02:39,700 --> 01:02:37,460

and you have to ask a question a certain

1634

01:02:42,099 --> 01:02:39,710

way without being intrusive and it's

1635

01:02:43,720 --> 01:02:42,109

just respect and politeness but if you

1636

01:02:46,630 --> 01:02:43,730

let them tell you what they want to tell

1637

01:02:49,750 --> 01:02:46,640

you and if you know how to listen you'll

1638

01:02:52,030 --> 01:02:49,760

really start picking stuff up if that

1639

01:02:53,620 --> 01:02:52,040

makes any sense does you know I have a

1640

01:02:54,970 --> 01:02:53,630

really good friend who's half Paiute I

1641

01:02:56,740 --> 01:02:54,980

grew up with and wickiup and we did a

1642

01:02:58,030 --> 01:02:56,750

lot of hunting together and he taught me

1643

01:02:59,620 --> 01:02:58,040

you know he told me a little bit more

1644

01:03:01,420 --> 01:02:59,630

than the average person than he would

1645

01:03:03,790 --> 01:03:01,430

anyone else when I was at the Grand

1646

01:03:05,589 --> 01:03:03,800

Canyon I guided with a Hopi we lived in

1647

01:03:07,569 --> 01:03:05,599

the same home for about a year we were

1648

01:03:09,670 --> 01:03:07,579

bunkmates right next door so we would

1649

01:03:11,170 --> 01:03:09,680

you know grab a bottle of wine and we'd

1650

01:03:12,309 --> 01:03:11,180

all sit there and talk him and of course

1651

01:03:13,660 --> 01:03:12,319

we're all interested in what he had to

1652

01:03:15,190 --> 01:03:13,670

say and he would just weave the stories

1653

01:03:17,230 --> 01:03:15,200

and the tales of his people he was

1654

01:03:19,420 --> 01:03:17,240

coyote clan so he was a warrior he was

1655

01:03:22,420 --> 01:03:19,430

in the Marine Corps you know he ties his

1656

01:03:24,069 --> 01:03:22,430

ancient duty as the coyote clan into the

1657

01:03:25,480 --> 01:03:24,079

modern day life so he went to the

1658

01:03:27,069 --> 01:03:25,490

Marines and he went into battle and came

1659

01:03:27,690 --> 01:03:27,079

back and he's now a guide at the Grand

1660

01:03:29,980 --> 01:03:27,700

Canyon

1661

01:03:32,349 --> 01:03:29,990

they will tell you all kinds of really

1662

01:03:33,550 --> 01:03:32,359

cool stuff and if you ask you know if

1663

01:03:35,530 --> 01:03:33,560

they can tell you they will if they say

1664

01:03:37,420 --> 01:03:35,540

I won't talk about that okay it's cool

1665

01:03:39,370 --> 01:03:37,430

you don't but they generally won't

1666

01:03:43,300 --> 01:03:39,380

volunteer a lot of information and they

1667

01:03:45,670 --> 01:03:43,310

themselves don't put it into a context

1668

01:03:48,520 --> 01:03:45,680

that you and I are discussing now they

1669

01:03:50,740 --> 01:03:48,530

might know the story right but they

1670

01:03:53,349 --> 01:03:50,750

don't know what it means in relation to

1671

01:03:55,630 --> 01:03:53,359

the ancient Bible or the metaphysics

1672

01:03:57,940 --> 01:03:55,640

that we're talking about

1673

01:04:01,690 --> 01:03:57,950

mm-hmm so they don't have all the pieces

1674

01:04:03,880 --> 01:04:01,700

either well man this has been really

1675

01:04:05,950 --> 01:04:03,890

interesting a lot of fun I know there's

1676

01:04:07,270 --> 01:04:05,960

so much more to talk about hopefully we

1677

01:04:10,690 --> 01:04:07,280

can do it again sometime

1678

01:04:12,640 --> 01:04:10,700

I'd love to great until then do remind

1679

01:04:14,790 --> 01:04:12,650

the people where to find your website

1680

01:04:18,130 --> 01:04:14,800

and any other work you got going on I

1681

01:04:21,310 --> 01:04:18,140

got my website I'm a one-man show it is

1682

01:04:23,620 --> 01:04:21,320

the Phoenix enigma com the Phoenix

1683

01:04:25,030 --> 01:04:23,630

enigma com of course I got a patreon

1684

01:04:26,830 --> 01:04:25,040

there because I'm just if you want to

1685

01:04:28,570 --> 01:04:26,840

support my work please I could really

1686

01:04:29,830 --> 01:04:28,580

use it other than I'm not gonna beg for

1687

01:04:31,270 --> 01:04:29,840

money but if you would like to support

1688

01:04:33,610 --> 01:04:31,280

it that is there as well I would

1689

01:04:35,440 --> 01:04:33,620

appreciate it if you do I have a YouTube

1690

01:04:37,180 --> 01:04:35,450

channel where I cover the majority of my

1691

01:04:39,820 --> 01:04:37,190

political dia colton's

1692

01:04:42,190 --> 01:04:39,830

and the website even though it's been

1693

01:04:44,800 --> 01:04:42,200

more political I am gearing back into

1694

01:04:46,030 --> 01:04:44,810

the Phoenix area as of recently there's

1695

01:04:47,500 --> 01:04:46,040

a lot of stuff I've been working on

1696

01:04:49,750 --> 01:04:47,510

behind the scenes and someone's come to

1697

01:04:52,420 --> 01:04:49,760

come to fruition my book should be out

1698

01:04:54,870 --> 01:04:52,430

early next year or May mid next year I

1699

01:04:57,760 --> 01:04:54,880

have to get it edited and it's gonna be

1700

01:05:00,700 --> 01:04:57,770

concentrating on the fingerprints of

1701  
01:05:02,950 --> 01:05:00,710  
masonry in the Phoenix area and that's

1702  
01:05:04,300 --> 01:05:02,960  
all it's gonna be about going deep into

1703  
01:05:06,430 --> 01:05:04,310  
what we didn't talk a lot about today

1704  
01:05:07,690 --> 01:05:06,440  
gonna do another show on that by all

1705  
01:05:09,400 --> 01:05:07,700  
means give me a call and we can talk

1706  
01:05:11,710 --> 01:05:09,410  
about just that yeah when the book

1707  
01:05:13,570 --> 01:05:11,720  
launches we should yeah it's gonna be a

1708  
01:05:15,820 --> 01:05:13,580  
book dedicated to just that and it's

1709  
01:05:17,200 --> 01:05:15,830  
fascinating stuff but and then you're on

1710  
01:05:18,610 --> 01:05:17,210  
my website I throw in some stuff you

1711  
01:05:19,870 --> 01:05:18,620  
know some fun stuff about cactus every

1712  
01:05:22,510 --> 01:05:19,880  
once in a while just stuff to interest

1713  
01:05:24,580 --> 01:05:22,520

me being a botanist and whatnot um so

1714

01:05:26,710 --> 01:05:24,590

that's my work it's what I do well it is

1715

01:05:29,770 --> 01:05:26,720

a great website and in the interest of

1716

01:05:32,890 --> 01:05:29,780

trying to coax out some support do you

1717

01:05:34,330 --> 01:05:32,900

have any patreon specific content for

1718

01:05:36,730 --> 01:05:34,340

those people that do support you

1719

01:05:38,500 --> 01:05:36,740

financially I will I just opened my

1720

01:05:41,650 --> 01:05:38,510

patreon a few weeks ago so it's brand

1721

01:05:44,170 --> 01:05:41,660

new and I will be making one video a

1722

01:05:45,400 --> 01:05:44,180

month for just them you know I got a

1723

01:05:46,540 --> 01:05:45,410

couple I don't have too many tears I

1724

01:05:48,970 --> 01:05:46,550

wanted to make it really simple I think

1725

01:05:50,950 --> 01:05:48,980

I've got \$3 \$5 to \$10 and maybe an

1726

01:05:52,900 --> 01:05:50,960

advertising one for 60 bucks a month you

1727

01:05:54,790 --> 01:05:52,910

got something want to sell put it out on

1728

01:05:57,040 --> 01:05:54,800

my website for 60 bucks leave it there

1729

01:05:58,390 --> 01:05:57,050

we'll work it out give me a call we need

1730

01:06:02,110 --> 01:05:58,400

to help each other out in the genre you

1731

01:06:05,260 --> 01:06:02,120

know yes I agree I agree well awesome

1732

01:06:07,120 --> 01:06:05,270

again fascinating stuff I do wish I had

1733

01:06:07,569 --> 01:06:07,130

a guy like you in every weird City

1734

01:06:09,699 --> 01:06:07,579

across

1735

01:06:11,499 --> 01:06:09,709

America a major respect for doing this

1736

01:06:12,910 --> 01:06:11,509

work and I hope you keep it up thanks

1737

01:06:14,499 --> 01:06:12,920

for taking the time to go over some of

1738

01:06:15,489 --> 01:06:14,509

it and take care out there well thank

1739

01:06:17,249 --> 01:06:15,499

you for your time today I do appreciate

1740

01:06:20,319 --> 01:06:17,259

it you got it

1741

01:06:23,079 --> 01:06:20,329

hey-oh higher side chatters back in the

1742

01:06:25,719 --> 01:06:23,089

saddle another one on the books Corey

1743

01:06:28,900 --> 01:06:25,729

Daniel with the fire of a thousand suns

1744

01:06:31,809 --> 01:06:28,910

I don't really know what I'm saying guys

1745

01:06:34,509 --> 01:06:31,819

but I thought that was a [h\_\_\h] pretty

1746

01:06:37,509 --> 01:06:34,519

solid show if he asked me when I found

1747

01:06:38,799 --> 01:06:37,519

the Phoenix enigma website I saw more

1748

01:06:41,199 --> 01:06:38,809

than enough to know we could have a good

1749

01:06:43,569 --> 01:06:41,209

time thankfully Corey actually got back

1750

01:06:46,089 --> 01:06:43,579

to me and we were able to forge a pretty

1751

01:06:47,829 --> 01:06:46,099

fun path through his work and he's a

1752

01:06:49,690 --> 01:06:47,839

pretty good speaker for not having done

1753

01:06:52,180 --> 01:06:49,700

very many interviews hopefully he's

1754

01:06:54,039 --> 01:06:52,190

gonna get more requests now cuz I'm sure

1755

01:06:55,719 --> 01:06:54,049

there are a decent amount of podcast

1756

01:06:58,029 --> 01:06:55,729

hosts listening who are gonna want to

1757

01:07:01,239 --> 01:06:58,039

pick his brain and that's great

1758

01:07:03,789 --> 01:07:01,249

I've lived in some rural areas but

1759

01:07:05,289 --> 01:07:03,799

nothing as barren as the Arizona desert

1760

01:07:07,599 --> 01:07:05,299

and I just think it's really impressive

1761

01:07:09,999 --> 01:07:07,609

that he has cultivated all this

1762

01:07:12,999 --> 01:07:10,009

knowledge spent time with people even

1763

01:07:15,999 --> 01:07:13,009

less connected to society and just heard

1764

01:07:18,880 --> 01:07:16,009

their tales old ranchers and prospectors

1765

01:07:21,519 --> 01:07:18,890

these are the sorts of insights that I

1766

01:07:25,209 --> 01:07:21,529

would love to dig out of obscurity and

1767

01:07:27,069 --> 01:07:25,219

broadcast to all you guys I just get the

1768

01:07:29,229 --> 01:07:27,079

SPECIAL tingle from that I don't know

1769

01:07:31,959 --> 01:07:29,239

why but what I was getting at is that

1770

01:07:34,420 --> 01:07:31,969

even though I had a lot of questions and

1771

01:07:36,759 --> 01:07:34,430

material fleshed out I started to feel

1772

01:07:38,949 --> 01:07:36,769

like getting a lot more open-ended

1773

01:07:40,809 --> 01:07:38,959

because these little side stories and

1774

01:07:44,170 --> 01:07:40,819

anecdotes tended to come out a bit more

1775

01:07:46,420 --> 01:07:44,180

and that is to me one of those in the

1776

01:07:47,769 --> 01:07:46,430

moment things you got to go with because

1777

01:07:49,959 --> 01:07:47,779

you're not gonna get it next time I

1778

01:07:52,359 --> 01:07:49,969

could always pull up his articles again

1779

01:07:54,099 --> 01:07:52,369

if we have another show I wanted to

1780

01:07:56,890 --> 01:07:54,109

follow a few more of those personal

1781

01:08:00,039 --> 01:07:56,900

leads and I think there are a lot of

1782

01:08:02,430 --> 01:08:00,049

small towns stories so to speak that

1783

01:08:04,689 --> 01:08:02,440

died out because they aren't told

1784

01:08:07,329 --> 01:08:04,699

luckily the technology makes it possible

1785

01:08:10,599 --> 01:08:07,339

for us to reach those remote areas

1786

01:08:13,059 --> 01:08:10,609

before it slowly kills us I thought this

1787

01:08:15,489 --> 01:08:13,069

episode fit nicely with Michael one of

1788

01:08:18,459 --> 01:08:15,499

the Susquehanna River alchemy episode

1789

01:08:20,010 --> 01:08:18,469

and Ross Ben with the Philadelphia Ben

1790

01:08:22,500 --> 01:08:20,020

Franklin show as I said

1791

01:08:24,360 --> 01:08:22,510

beginning and this was obviously a bit

1792

01:08:27,120 --> 01:08:24,370

broader than the description of some

1793

01:08:29,640 --> 01:08:27,130

overarching ritual but I still feel like

1794

01:08:32,640 --> 01:08:29,650

we got our hands all over the elephant

1795

01:08:35,970 --> 01:08:32,650

there's definitely more meat on the e so

1796

01:08:37,920 --> 01:08:35,980

tarik free Masonic Phoenix bone but now

1797

01:08:39,840 --> 01:08:37,930

I do feel like Phoenix is a pretty

1798

01:08:42,120 --> 01:08:39,850

special place to those settlement

1799

01:08:44,880 --> 01:08:42,130

sorcerers and it's not a city that was

1800

01:08:47,070 --> 01:08:44,890

on my radar really at all I just can't

1801  
01:08:50,250 --> 01:08:47,080  
imagine soaking up all this knowledge

1802  
01:08:52,349 --> 01:08:50,260  
that he has largely in isolation for me

1803  
01:08:55,110 --> 01:08:52,359  
it's just nice to be able to appreciate

1804  
01:08:56,730 --> 01:08:55,120  
and then amplify that and I hope you

1805  
01:08:59,789 --> 01:08:56,740  
were into it too I can't imagine you

1806  
01:09:02,550 --> 01:08:59,799  
wouldn't be if you're a THC fan I'm not

1807  
01:09:05,010 --> 01:09:02,560  
so sure about the jungle cultures versus

1808  
01:09:06,870 --> 01:09:05,020  
desert cultures and violence thing the

1809  
01:09:09,450 --> 01:09:06,880  
more I think about it though because

1810  
01:09:12,360 --> 01:09:09,460  
like look at the Middle East that's

1811  
01:09:15,240 --> 01:09:12,370  
pretty violent look at shamanism in the

1812  
01:09:18,000 --> 01:09:15,250  
Amazon I know that's just an element of

1813  
01:09:20,670 --> 01:09:18,010

culture but it has to create a little

1814

01:09:22,800 --> 01:09:20,680

bit of a peaceful environment I really

1815

01:09:25,680 --> 01:09:22,810

just don't know enough about that to be

1816

01:09:27,120 --> 01:09:25,690

weighing in or speculating but when

1817

01:09:29,099 --> 01:09:27,130

Corey brought it up I thought it was an

1818

01:09:32,220 --> 01:09:29,109

interesting concept I definitely could

1819

01:09:33,990 --> 01:09:32,230

understand how the environment would

1820

01:09:36,390 --> 01:09:34,000

have such an effect on the psyche I

1821

01:09:39,690 --> 01:09:36,400

looked up some articles that said that

1822

01:09:41,730 --> 01:09:39,700

it's just the more warmer it is the more

1823

01:09:44,640 --> 01:09:41,740

violent a culture is I don't think it's

1824

01:09:47,550 --> 01:09:44,650

that simple I mean maybe it's just more

1825

01:09:50,039 --> 01:09:47,560

general irritation the heat is

1826

01:09:51,329 --> 01:09:50,049

irritating but so are the bugs of the

1827

01:09:53,430 --> 01:09:51,339

jungle that you wouldn't get in the

1828

01:09:55,290 --> 01:09:53,440

desert you know give me a week of that

1829

01:09:56,100 --> 01:09:55,300

and I'd be pretty ready to rip

1830

01:10:01,140 --> 01:09:56,110

somebody's head off

1831

01:10:04,470 --> 01:10:01,150

I don't know but in THC news I am sorry

1832

01:10:06,150 --> 01:10:04,480

for the large gap in shows I had to on

1833

01:10:07,800 --> 01:10:06,160

the calendar that had to be pushed back

1834

01:10:11,100 --> 01:10:07,810

a couple weeks so I was kind of just

1835

01:10:13,050 --> 01:10:11,110

waiting around for the next batter in

1836

01:10:14,580 --> 01:10:13,060

the lineup which wouldn't really be so

1837

01:10:16,470 --> 01:10:14,590

bad but then the editor was on vacation

1838

01:10:19,320 --> 01:10:16,480

and he needed a couple of days to

1839

01:10:23,550 --> 01:10:19,330

actually do the job once he got back so

1840

01:10:25,140 --> 01:10:23,560

a couple days for a and B and then C it

1841

01:10:26,340 --> 01:10:25,150

starts to stack up and then your ten

1842

01:10:29,130 --> 01:10:26,350

days into the month and the whole

1843

01:10:30,300 --> 01:10:29,140

goddamn podcast goes down on iTunes and

1844

01:10:33,570 --> 01:10:30,310

then you got a Russian to put out that

1845

01:10:35,760 --> 01:10:33,580

fire which means taking that line

1846

01:10:38,160 --> 01:10:35,770

a less Christian coast-to-coast hosted

1847

01:10:40,920 --> 01:10:38,170

by more mellow Alex Jones had to take

1848

01:10:43,500 --> 01:10:40,930

that out of the description and I think

1849

01:10:46,230 --> 01:10:43,510

just that keyword Alex Jones honestly

1850

01:10:48,420 --> 01:10:46,240

had something to do with it but it's

1851  
01:10:50,550 --> 01:10:48,430  
hard to say because Apple never gave me

1852  
01:10:54,750 --> 01:10:50,560  
any information at all they just flipped

1853  
01:10:57,630 --> 01:10:54,760  
the switch off I pruned up my podcast

1854  
01:11:01,620 --> 01:10:57,640  
description and they flipped it back on

1855  
01:11:04,110 --> 01:11:01,630  
and kudos to our shadowy anonymous

1856  
01:11:06,180 --> 01:11:04,120  
podcast editor because he got this back

1857  
01:11:09,600 --> 01:11:06,190  
to me a bit faster than expected he

1858  
01:11:11,940 --> 01:11:09,610  
clearly busted his ass so respect and

1859  
01:11:13,830 --> 01:11:11,950  
I'm confident we're back on track now

1860  
01:11:17,460 --> 01:11:13,840  
it's just getting tougher to keep up

1861  
01:11:19,500 --> 01:11:17,470  
when running such a lean operation but

1862  
01:11:21,270 --> 01:11:19,510  
there are many ways to make sure you get

1863  
01:11:22,710 --> 01:11:21,280

notified when a new episode comes out so

1864

01:11:25,470 --> 01:11:22,720

you don't have to keep checking and

1865

01:11:27,960 --> 01:11:25,480

checking and rechecking hopefully you

1866

01:11:29,970 --> 01:11:27,970

use a podcast catch your app that does

1867

01:11:33,420 --> 01:11:29,980

it all for you or just follow me on

1868

01:11:35,280 --> 01:11:33,430

Facebook or Twitter I almost never say

1869

01:11:37,170 --> 01:11:35,290

that because I really don't care if you

1870

01:11:39,240 --> 01:11:37,180

follow me on Facebook or Twitter I don't

1871

01:11:41,640 --> 01:11:39,250

even say very much there except to

1872

01:11:43,320 --> 01:11:41,650

announce new episodes so if that's what

1873

01:11:46,020 --> 01:11:43,330

you want that's where you'll get it and

1874

01:11:49,320 --> 01:11:46,030

for plus you can actually click on the

1875

01:11:52,500 --> 01:11:49,330

websites podcast player and set up email

1876

01:11:54,390 --> 01:11:52,510

notifications that seems to be a pretty

1877

01:11:57,180 --> 01:11:54,400

convenient thing that people have liked

1878

01:11:59,870 --> 01:11:57,190

doing if they need that I just like to

1879

01:12:01,980 --> 01:11:59,880

make sure everybody knows what's

1880

01:12:03,360 --> 01:12:01,990

available even if you don't take

1881

01:12:05,610 --> 01:12:03,370

advantage of it because I didn't get

1882

01:12:08,250 --> 01:12:05,620

several emails the past few weeks with

1883

01:12:10,230 --> 01:12:08,260

Plus questions in case there are other

1884

01:12:12,000 --> 01:12:10,240

people out there with questions of their

1885

01:12:14,370 --> 01:12:12,010

own if you go to the higher side chats

1886

01:12:16,950 --> 01:12:14,380

plus com there is a help frequently

1887

01:12:19,890 --> 01:12:16,960

asked questions page everyone who's even

1888

01:12:21,780 --> 01:12:19,900

half way interested in Plus should just

1889

01:12:24,000 --> 01:12:21,790

read that it's everything you're going

1890

01:12:26,790 --> 01:12:24,010

to want to know step by step photo

1891

01:12:29,760 --> 01:12:26,800

instructions for plugging Plus into apps

1892

01:12:31,530 --> 01:12:29,770

on both Android and Apple phones you

1893

01:12:33,600 --> 01:12:31,540

really don't have to ever go to the

1894

01:12:35,190 --> 01:12:33,610

website if you just plug in the plus

1895

01:12:37,770 --> 01:12:35,200

feet into one of these apps like you

1896

01:12:40,290 --> 01:12:37,780

would any other podcast podcast addict

1897

01:12:43,170 --> 01:12:40,300

is the one that I use most on Android it

1898

01:12:45,120 --> 01:12:43,180

never fails now I'm sorry if you already

1899

01:12:46,590 --> 01:12:45,130

know this stuff but you know you get

1900

01:12:47,290 --> 01:12:46,600

half a dozen emails and you start

1901

01:12:49,540 --> 01:12:47,300

thinking

1902

01:12:51,430 --> 01:12:49,550

yeah I never really communicate these

1903

01:12:54,580 --> 01:12:51,440

things I just kind of assume people will

1904

01:12:56,560 --> 01:12:54,590

figure it out but some don't and then

1905

01:12:59,440 --> 01:12:56,570

they hesitate to become plus members

1906

01:13:02,050 --> 01:12:59,450

because of these sorts of technological

1907

01:13:05,410 --> 01:13:02,060

hurdles and the ambiguity in the gray

1908

01:13:08,290 --> 01:13:05,420

area you can also sign up for the

1909

01:13:10,060 --> 01:13:08,300

patreon it is the same thing but if

1910

01:13:12,360 --> 01:13:10,070

you're familiar with patreon then you

1911

01:13:15,490 --> 01:13:12,370

might feel that it is more user friendly

1912

01:13:17,410 --> 01:13:15,500

don't let some uncertainty or

1913

01:13:19,720 --> 01:13:17,420

technological hurdle stop you from

1914

01:13:21,580 --> 01:13:19,730

becoming a plus member or enjoying the

1915

01:13:24,160 --> 01:13:21,590

second hour of all these great

1916

01:13:26,260 --> 01:13:24,170

interviews you know your iTunes goes

1917

01:13:29,110 --> 01:13:26,270

down sure it might have been somewhat

1918

01:13:31,440 --> 01:13:29,120

technical rather than content related

1919

01:13:35,590 --> 01:13:31,450

but we also got a content strike on

1920

01:13:37,690 --> 01:13:35,600

YouTube again for episode 69 some show

1921

01:13:40,360 --> 01:13:37,700

way back in the beginning when I was

1922

01:13:42,220 --> 01:13:40,370

still numbering them these things happen

1923

01:13:44,080 --> 01:13:42,230

and I do have to wonder like am I gonna

1924

01:13:46,480 --> 01:13:44,090

be able to do this show in 20 years

1925

01:13:50,530 --> 01:13:46,490

maybe I should put a little more energy

1926

01:13:53,680 --> 01:13:50,540

and fuel into the pitch for the premium

1927

01:13:55,480 --> 01:13:53,690

version and I know everybody's probably

1928

01:13:57,420 --> 01:13:55,490

wondering what was in this Plus show

1929

01:14:00,190 --> 01:13:57,430

well I'm gonna tell you we talked about

1930

01:14:03,280 --> 01:14:00,200

Arizona's own Nazca lines did you know

1931

01:14:05,620 --> 01:14:03,290

that did you know Arizona had a Nazca

1932

01:14:09,070 --> 01:14:05,630

lines type thing

1933

01:14:11,950 --> 01:14:09,080

the Blythe intaglio z-- how about that

1934

01:14:14,310 --> 01:14:11,960

Google bad we also talked about the

1935

01:14:15,850 --> 01:14:14,320

secrets and rumors of the Grand Canyon

1936

01:14:19,150 --> 01:14:15,860

Charles Dutton

1937

01:14:21,570 --> 01:14:19,160

the US reclamation act Seth Tanner and

1938

01:14:24,460 --> 01:14:21,580

the forbidden cave story the sedona

1939

01:14:27,130 --> 01:14:24,470

vortexes dee occulting john mccain's

1940

01:14:29,470 --> 01:14:27,140

free masonic funeral ritual now that was

1941

01:14:31,120 --> 01:14:29,480

interesting there's a lot of weird

1942

01:14:33,700 --> 01:14:31,130

things about McCain's funeral of course

1943

01:14:36,280 --> 01:14:33,710

he was an Arizona senator and a lot of

1944

01:14:39,100 --> 01:14:36,290

masonic numbers coming up and all kinds

1945

01:14:43,450 --> 01:14:39,110

of stuff did he even really die I don't

1946

01:14:47,950 --> 01:14:43,460

know I don't know we also talked about

1947

01:14:50,320 --> 01:14:47,960

Trump magic and the Jesuits as well as

1948

01:14:52,600 --> 01:14:50,330

the black eye Club did you know that a

1949

01:14:54,610 --> 01:14:52,610

ton of politicians and actors and just

1950

01:14:56,560 --> 01:14:54,620

general oligarchs have had some pretty

1951

01:14:59,770 --> 01:14:56,570

brutal black eyes

1952

01:15:02,229 --> 01:14:59,780

and no real answer for him it's

1953

01:15:04,060 --> 01:15:02,239

interesting and for people who did hear

1954

01:15:06,310 --> 01:15:04,070

the + show it was nice to talk to

1955

01:15:08,410 --> 01:15:06,320

someone who can say yeah some weird

1956

01:15:10,450 --> 01:15:08,420

stuff is going on with Trump he's doing

1957

01:15:13,810 --> 01:15:10,460

some moon magic stuff he's clearly got

1958

01:15:16,870 --> 01:15:13,820

some esoteric advisors etc without

1959

01:15:18,850 --> 01:15:16,880

jumping on the Trump cube bandwagon you

1960

01:15:21,339 --> 01:15:18,860

know I think we did all right with that

1961

01:15:24,760 --> 01:15:21,349

I think we towed that line as opposed to

1962

01:15:26,050 --> 01:15:24,770

a few weeks ago again plus people are

1963

01:15:26,470 --> 01:15:26,060

the only ones who know what I'm talking

1964

01:15:30,220 --> 01:15:26,480

about

1965

01:15:33,040 --> 01:15:30,230

and that's ok with me also in today's

1966

01:15:34,870 --> 01:15:33,050

flusher that little anecdote about the

1967

01:15:37,569 --> 01:15:34,880

glass company working on military

1968

01:15:39,700 --> 01:15:37,579

contracts harnessing new properties of

1969

01:15:42,010 --> 01:15:39,710

light hmm that was pretty damn

1970

01:15:44,140 --> 01:15:42,020

interesting see I don't always need an

1971

01:15:47,410 --> 01:15:44,150

author promoting a new book sometimes

1972

01:15:50,470 --> 01:15:47,420

people just out in the world get little

1973

01:15:53,439 --> 01:15:50,480

breadcrumbs to really out their stuff

1974

01:15:55,000 --> 01:15:53,449

and that's that's that's what I want

1975

01:15:57,580 --> 01:15:55,010

those open lines to be you know these

1976

01:15:59,589 --> 01:15:57,590

joint sessions we're doing give me your

1977

01:16:01,750 --> 01:15:59,599

insights your stories the little

1978

01:16:04,750 --> 01:16:01,760

glimpses and clues that you've gotten at

1979

01:16:06,790 --> 01:16:04,760

the big beast last time I felt like it

1980

01:16:09,220 --> 01:16:06,800

was a little more about promoting people

1981

01:16:12,160 --> 01:16:09,230

and fighting over dietary choices

1982

01:16:14,550 --> 01:16:12,170

although the Unabomber caller was pretty

1983

01:16:17,410 --> 01:16:14,560

damn compelling more of that and

1984

01:16:20,589 --> 01:16:17,420

remember the next joint session where I

1985

01:16:23,379 --> 01:16:20,599

sit here smoke and drink and answer your

1986

01:16:26,919 --> 01:16:23,389

Skype calls or zoom calls technically

1987

01:16:30,399 --> 01:16:26,929

will be on the 25th of October not that

1988

01:16:32,530 --> 01:16:30,409

long now coming up quick either way just

1989

01:16:34,060 --> 01:16:32,540

to close this plus thing out sign up for

1990

01:16:36,370 --> 01:16:34,070

the whole shebang if you're listening on

1991

01:16:39,069 --> 01:16:36,380

your phone right now you can just click

1992

01:16:40,629 --> 01:16:39,079

the text in the show description that

1993

01:16:43,300 --> 01:16:40,639

talks about signing up for plus it's a

1994

01:16:45,640 --> 01:16:43,310

big link you click it you put in your

1995

01:16:47,770 --> 01:16:45,650

card two seconds later you add the new

1996

01:16:50,800 --> 01:16:47,780

RSS feed now you got plus and we're best

1997

01:16:53,410 --> 01:16:50,810

friends but as I said we're back in full

1998

01:16:56,169 --> 01:16:53,420

swing I have the second and third shows

1999

01:16:58,600 --> 01:16:56,179

of the month recorded already they're

2000

01:17:01,839 --> 01:16:58,610

going to the editor one of them is a

2001

01:17:04,750 --> 01:17:01,849

return guest who is a preserver of an

2002

01:17:08,290 --> 01:17:04,760

oral tradition or should I say saga and

2003

01:17:10,090 --> 01:17:08,300

the other is a pretty perfect guest for

2004

01:17:12,160 --> 01:17:10,100

this hole what's up with 300

2005

01:17:14,710 --> 01:17:12,170

devices ether physics and flying saucers

2006

01:17:17,110 --> 01:17:14,720

kick I've been on because he runs those

2007

01:17:19,570 --> 01:17:17,120

conferences so I know you're gonna love

2008

01:17:22,390 --> 01:17:19,580

them and I'm out of here I've done my

2009

01:17:24,970 --> 01:17:22,400

part your move ancient secret keepers

2010

01:17:29,800 --> 01:17:24,980

giant bone hidens and Freemasons of

2011

01:17:32,950 --> 01:17:29,810

Phoenix your [h\_\_\h] move you're gonna

2012

01:17:41,420 --> 01:17:32,960

love this song - and I kid I kid the

2013

01:18:34,720 --> 01:18:12,230

[Music]

2014

01:18:35,290 --> 01:18:34,730

these rituals will make you a lot of

2015

01:18:38,100 --> 01:18:35,300

scars

2016

01:18:49,190 --> 01:18:38,110

[Applause]

2017

01:18:49,200 --> 01:19:12,850

[Music]

2018

01:19:12,860 --> 01:19:32,210

[Applause]
