

**KIM MACK ROSENBERG & EILEEN IORIO**  
**THE HPV VACCINE ON TRIAL, ADJUVANTS, & DATA MANIPULATION**  
PRESENTED BY THE HIGHERSIDE CHATS

LISTEN TO THE EPISODE AT [THEHIGHERSIDECHATS.COM](http://THEHIGHERSIDECHATS.COM)

LISTEN TO THE EXTENDED SHOW AT [THEHIGHERSIDECHATSPLUS.COM](http://THEHIGHERSIDECHATSPLUS.COM)

1  
00:00:03,980 --> 00:00:02,240  
embrace yourself because you're about to

2  
00:00:06,170 --> 00:00:03,990  
dive into another free first hour

3  
00:00:07,369 --> 00:00:06,180  
episode of the higher side chats and we

4  
00:00:08,780 --> 00:00:07,379  
just want to let you know that whether

5  
00:00:10,820 --> 00:00:08,790  
you're looking for a companion through

6  
00:00:12,350 --> 00:00:10,830  
your paranoid insomnia entertaining

7  
00:00:14,360 --> 00:00:12,360  
yourself through one of life's mundane

8  
00:00:16,039 --> 00:00:14,370  
activities or trying to ward off the

9  
00:00:18,680 --> 00:00:16,049  
internal scream to all those sad

10  
00:00:20,420 --> 00:00:18,690  
smothered Souls around the office THC is

11  
00:00:22,099 --> 00:00:20,430  
here and you should know that every

12  
00:00:24,109 --> 00:00:22,109  
episode of the higher side chats has an

13  
00:00:26,509 --> 00:00:24,119

entire second hour four plus members

14

00:00:29,000 --> 00:00:26,519

sign up at the higher side chats plus

15

00:00:31,550 --> 00:00:29,010

calm and you get years of plus show

16

00:00:32,990 --> 00:00:31,560

archives lifetime forum access the

17

00:00:36,380 --> 00:00:33,000

special invite to Greg Carl woods

18

00:00:39,979 --> 00:00:36,390

monthly joint sessions mp3s of THC music

19

00:00:42,319 --> 00:00:39,989

bonus episodes for videos and 10% off

20

00:00:44,299 --> 00:00:42,329

t-shirts grinders and whatever else ends

21

00:00:46,279 --> 00:00:44,309

up in the higher side store it's eight

22

00:00:48,110 --> 00:00:46,289

dollars a month that you won't miss so

23

00:00:49,819 --> 00:00:48,120

become a plus member and treat yourself

24

00:00:51,500 --> 00:00:49,829

in these troubled times always

25

00:00:53,540 --> 00:00:51,510

action-packed and commercial for you

26  
00:00:59,430 --> 00:00:53,550  
which means you'll unfortunately never

27  
00:00:59,440 --> 00:01:09,990  
[Music]

28  
00:01:16,060 --> 00:01:13,300  
the planets popping masters on my shirt

29  
00:01:18,810 --> 00:01:16,070  
have a plan who's clearly maybe

30  
00:01:21,700 --> 00:01:18,820  
something there beyond the realm of man

31  
00:01:24,850 --> 00:01:21,710  
till we've thoroughly tested every last

32  
00:01:29,580 --> 00:01:24,860  
close just did you find the more you

33  
00:01:29,590 --> 00:01:33,550  
where will we be

34  
00:01:40,700 --> 00:01:36,740  
we know the lying to us just don't know

35  
00:01:42,120 --> 00:01:40,710  
what to green where would we be without

36  
00:01:47,490 --> 00:01:42,130  
this

37  
00:02:01,500 --> 00:02:00,090  
a car wouldn't come alright higher side

38  
00:02:03,690 --> 00:02:01,510

Cheddar's I think it's safe to say our

39

00:02:05,250 --> 00:02:03,700

general feelings and relationship with

40

00:02:07,770 --> 00:02:05,260

the medical establishment are

41

00:02:09,359 --> 00:02:07,780

contentious at best and despite the

42

00:02:11,280 --> 00:02:09,369

standard response of trusting the

43

00:02:14,370 --> 00:02:11,290

experts and authorities to have our best

44

00:02:16,080 --> 00:02:14,380

interests at heart we wonder how can you

45

00:02:17,699 --> 00:02:16,090

not look at this system with the

46

00:02:19,830 --> 00:02:17,709

skeptical eye when you consider the

47

00:02:22,110 --> 00:02:19,840

amounts of money involved the revolving

48

00:02:24,090 --> 00:02:22,120

door of regulatory capture between Big

49

00:02:26,550 --> 00:02:24,100

Pharma and those agencies created to

50

00:02:28,800 --> 00:02:26,560

police the industry and the simple fact

51  
00:02:30,150 --> 00:02:28,810  
that just a few generations ago doctors

52  
00:02:32,460 --> 00:02:30,160  
were willing to recommend their favorite

53  
00:02:35,220 --> 00:02:32,470  
brand of cigarettes for the right price

54  
00:02:37,410 --> 00:02:35,230  
and while we know marketing is often

55  
00:02:39,449 --> 00:02:37,420  
deceptive and dishonest when it comes to

56  
00:02:41,640 --> 00:02:39,459  
the life and death seriousness of

57  
00:02:43,740 --> 00:02:41,650  
medical matters we sometimes let our

58  
00:02:45,690 --> 00:02:43,750  
guards down because who would be

59  
00:02:48,390 --> 00:02:45,700  
heartless enough to take the money when

60  
00:02:51,210 --> 00:02:48,400  
the stakes are this high sadly the

61  
00:02:53,430 --> 00:02:51,220  
answer is many many people and I'm sure

62  
00:02:55,080 --> 00:02:53,440  
some of you listening now have heard the

63  
00:02:58,470 --> 00:02:55,090

herald angels sing the chorus line

64

00:03:01,229 --> 00:02:58,480

urging young ladies to be one less by

65

00:03:02,820 --> 00:03:01,239

getting a tried-and-true HPV vaccine to

66

00:03:06,270 --> 00:03:02,830

protect yourself from the ever-growing

67

00:03:08,340 --> 00:03:06,280

risk of cervical cancer well folks it

68

00:03:10,470 --> 00:03:08,350

seems like Merck and quack so SmithKline

69

00:03:13,500 --> 00:03:10,480

the companies that manufacture HPV

70

00:03:15,840 --> 00:03:13,510

vaccines such as Gardasil have ydu and

71

00:03:18,780 --> 00:03:15,850

have caused damage death and heartbreak

72

00:03:20,550 --> 00:03:18,790

all around the world and only because of

73

00:03:22,860 --> 00:03:20,560

brave people willing to push back

74

00:03:25,830 --> 00:03:22,870

against the blind faith prerogative like

75

00:03:28,680 --> 00:03:25,840

today's two guests Kim Mac Rosenberg and

76  
00:03:31,009 --> 00:03:28,690  
Eileen I Oreo do we even have the facts

77  
00:03:33,900 --> 00:03:31,019  
and data we need to confidently say no

78  
00:03:36,150 --> 00:03:33,910  
because Kim and Eileen are two of the

79  
00:03:38,940 --> 00:03:36,160  
three authors along with Mary Holland of

80  
00:03:42,240 --> 00:03:38,950  
the NYU School of Law behind the great

81  
00:03:44,370 --> 00:03:42,250  
new book called the HPV vaccine on trial

82  
00:03:48,090 --> 00:03:44,380  
seeking justice for a generation

83  
00:03:50,759 --> 00:03:48,100  
betrayed at over 350 pages it tells the

84  
00:03:52,860 --> 00:03:50,769  
full story of the HPV vaccine with over

85  
00:03:55,170 --> 00:03:52,870  
another hundred pages of meticulously

86  
00:03:57,869 --> 00:03:55,180  
crafted sources and endnotes that

87  
00:04:00,180 --> 00:03:57,879  
combined make a pretty ironclad case

88  
00:04:00,980 --> 00:04:00,190

that even the most trusting people can't

89

00:04:03,260 --> 00:04:00,990

deny

90

00:04:05,480 --> 00:04:03,270

I for one I'm definitely excited to get

91

00:04:07,850 --> 00:04:05,490

into it two passionate advocates for

92

00:04:10,400 --> 00:04:07,860

truth Mary and Kim welcome to the higher

93

00:04:11,960 --> 00:04:10,410

side thank you so much for having us

94

00:04:14,420 --> 00:04:11,970

Gregg we appreciate the time to share

95

00:04:17,810 --> 00:04:14,430

information about the book Thank You reg

96

00:04:19,910 --> 00:04:17,820

thank you of course it is my pleasure I

97

00:04:22,490 --> 00:04:19,920

am so glad you ladies are here on behalf

98

00:04:24,140 --> 00:04:22,500

of everyone thanks for not only talking

99

00:04:26,390 --> 00:04:24,150

to me today but for putting this book

100

00:04:28,580 --> 00:04:26,400

together I think a lot of us realized

101  
00:04:30,830 --> 00:04:28,590  
that a big portion of the population is

102  
00:04:33,470 --> 00:04:30,840  
in denial about this sort of thing and

103  
00:04:35,600 --> 00:04:33,480  
it doesn't help to hand them a book

104  
00:04:37,460 --> 00:04:35,610  
called the vaccine conspiracy with

105  
00:04:40,130 --> 00:04:37,470  
crying babies and a skull and crossbones

106  
00:04:43,550 --> 00:04:40,140  
on the cover you know those books exist

107  
00:04:45,770 --> 00:04:43,560  
but your book the HPV vaccine on trial

108  
00:04:48,050 --> 00:04:45,780  
is incredibly professional and well put

109  
00:04:50,570 --> 00:04:48,060  
together and you should both be really

110  
00:04:53,440 --> 00:04:50,580  
proud and to kick this off you say in

111  
00:04:55,970 --> 00:04:53,450  
the intro we bring legal and financial

112  
00:04:58,220 --> 00:04:55,980  
backgrounds to the task while we are not

113  
00:05:00,260 --> 00:04:58,230

doctors or scientists we believe that

114

00:05:02,680 --> 00:05:00,270

our perspective is critical to the

115

00:05:06,260 --> 00:05:02,690

debate and I hoped we could start by

116

00:05:08,450 --> 00:05:06,270

elaborating on that obviously expertise

117

00:05:10,670 --> 00:05:08,460

is important can you talk to us about

118

00:05:13,310 --> 00:05:10,680

your credentials and how you three

119

00:05:15,350 --> 00:05:13,320

ladies came together to tackle this just

120

00:05:16,520 --> 00:05:15,360

for when my open-minded audience tries

121

00:05:19,820 --> 00:05:16,530

to share this with their less

122

00:05:23,000 --> 00:05:19,830

open-minded friends and family sure this

123

00:05:26,300 --> 00:05:23,010

is Eileen I come to it from a

124

00:05:27,580 --> 00:05:26,310

perspective I have three children two

125

00:05:30,580 --> 00:05:27,590

girls and a boy

126

00:05:33,560 --> 00:05:30,590

initially it was on the basis of

127

00:05:35,900 --> 00:05:33,570

opposing really mandating this vaccine

128

00:05:37,970 --> 00:05:35,910

in New York where we live and whatever

129

00:05:39,620 --> 00:05:37,980

your stance in vaccines I believe that

130

00:05:41,840 --> 00:05:39,630

it shouldn't be mandated this is a

131

00:05:45,920 --> 00:05:41,850

vaccine against a sexually transmitted

132

00:05:48,740 --> 00:05:45,930

infection and I felt that mandating this

133

00:05:51,500 --> 00:05:48,750

for school entry was egregious at best

134

00:05:54,170 --> 00:05:51,510

and I came to it from that perspective

135

00:05:56,570 --> 00:05:54,180

years ago my son was injured by vaccines

136

00:05:59,150 --> 00:05:56,580

and hospitalized and thankfully he

137

00:06:01,700 --> 00:05:59,160

pulled through so I was already looking

138

00:06:04,490 --> 00:06:01,710

into this issue and blogging about it

139

00:06:06,710 --> 00:06:04,500

and you know this is a new vaccine and

140

00:06:10,040 --> 00:06:06,720

there's a lot of information and a lot

141

00:06:12,830 --> 00:06:10,050

of controversy so naturally I Lent

142

00:06:14,660 --> 00:06:12,840

towards investigating this and writing a

143

00:06:17,450 --> 00:06:14,670

blog on it for the thing

144

00:06:19,820 --> 00:06:17,460

Kingman's revolution and then got

145

00:06:23,090 --> 00:06:19,830

involved in meeting legislators in New

146

00:06:25,370 --> 00:06:23,100

York to oppose this particular vaccine

147

00:06:27,770 --> 00:06:25,380

mandate which comes up every year which

148

00:06:30,020 --> 00:06:27,780

led me to meeting Kim and Mary but

149

00:06:33,110 --> 00:06:30,030

essentially this is about risk awareness

150

00:06:36,110 --> 00:06:33,120

informed consent and as the title of the

151  
00:06:38,090 --> 00:06:36,120  
book suggests HPV vaccine on trial this

152  
00:06:40,490 --> 00:06:38,100  
vaccine is very much on child throughout

153  
00:06:42,080 --> 00:06:40,500  
the world both in the courts of law

154  
00:06:44,480 --> 00:06:42,090  
which Kim can talk about and in the

155  
00:06:46,040 --> 00:06:44,490  
course of public opinion so I felt it

156  
00:06:48,860 --> 00:06:46,050  
was important to get to the bottom of

157  
00:06:52,220 --> 00:06:48,870  
this figure out was it safe to the

158  
00:06:55,160 --> 00:06:52,230  
trials show that it was safe and like I

159  
00:06:59,510 --> 00:06:55,170  
said because it's new in my opinion the

160  
00:07:01,670 --> 00:06:59,520  
jury's still out so this is Kim I came

161  
00:07:04,220 --> 00:07:01,680  
to it both from a legal perspective and

162  
00:07:06,590 --> 00:07:04,230  
the perspective of a parent I have an 18

163  
00:07:09,950 --> 00:07:06,600

year old son who is vaccine injured as

164

00:07:12,140 --> 00:07:09,960

well but as a lawyer I have been

165

00:07:14,390 --> 00:07:12,150

practicing for many years and my

166

00:07:15,890 --> 00:07:14,400

practice has focused on insurance

167

00:07:18,440 --> 00:07:15,900

related issues and products liability

168

00:07:21,230 --> 00:07:18,450

issues and as a products liability

169

00:07:23,170 --> 00:07:21,240

litigator I've done a great deal of work

170

00:07:26,590 --> 00:07:23,180

directly with experts such as

171

00:07:29,480 --> 00:07:26,600

epidemiologists MDS and PhDs in various

172

00:07:31,790 --> 00:07:29,490

specialties in addressing the

173

00:07:34,010 --> 00:07:31,800

connections between injuries and

174

00:07:36,320 --> 00:07:34,020

exposures so I have a lot of background

175

00:07:38,630 --> 00:07:36,330

in that and have learned to critically

176

00:07:41,030 --> 00:07:38,640

read for example peer-reviewed studies

177

00:07:43,220 --> 00:07:41,040

and meta analyses and things like that

178

00:07:45,320 --> 00:07:43,230

as Eileen said you know we were very

179

00:07:48,530 --> 00:07:45,330

concerned about the idea of mandating

180

00:07:50,420 --> 00:07:48,540

the HPV vaccine in New York State and

181

00:07:52,610 --> 00:07:50,430

elsewhere where your mandates have been

182

00:07:56,630 --> 00:07:52,620

tried and in some cases in a few states

183

00:07:58,820 --> 00:07:56,640

actually it is mandated it's a very

184

00:08:02,390 --> 00:07:58,830

controversial vaccine and as we dug into

185

00:08:04,790 --> 00:08:02,400

it what we found was the evidence that

186

00:08:07,370 --> 00:08:04,800

we present in our book is there in

187

00:08:09,620 --> 00:08:07,380

sources from the US government the

188

00:08:12,710 --> 00:08:09,630

European Medicines Agency you know CDC

189

00:08:16,430 --> 00:08:12,720

FDA aesop all the alphabet soup of

190

00:08:18,590 --> 00:08:16,440

governmental agencies w-h-o so a lot of

191

00:08:20,180 --> 00:08:18,600

what we rely on and we want readers or

192

00:08:22,460 --> 00:08:20,190

curious people to know this is

193

00:08:25,130 --> 00:08:22,470

information directly from those sources

194

00:08:26,900 --> 00:08:25,140

we go beyond those sources but we bring

195

00:08:28,940 --> 00:08:26,910

you the information that

196

00:08:30,620 --> 00:08:28,950

out there from them that people don't

197

00:08:32,870 --> 00:08:30,630

know about and it's really important

198

00:08:34,670 --> 00:08:32,880

that people learn this because just

199

00:08:36,980 --> 00:08:34,680

reading a package insert or reading a

200

00:08:39,469 --> 00:08:36,990

vaccine information statement or even

201  
00:08:41,000 --> 00:08:39,479  
talking to your doctor who hasn't seen

202  
00:08:42,890 --> 00:08:41,010  
all this information in all likelihood

203  
00:08:44,720 --> 00:08:42,900  
is not going to give you a complete

204  
00:08:46,250 --> 00:08:44,730  
picture and allow you to make a truly

205  
00:08:48,210 --> 00:08:46,260  
informed decision that's right for you

206  
00:08:50,370 --> 00:08:48,220  
or your family

207  
00:08:52,890 --> 00:08:50,380  
right and just to add quicky Greg the

208  
00:08:54,960 --> 00:08:52,900  
book has been endorsed by dr. Luke

209  
00:08:57,930 --> 00:08:54,970  
montagnier who is a world-renowned

210  
00:09:00,600 --> 00:08:57,940  
biologist and Nobel Prize winner for his

211  
00:09:03,560 --> 00:09:00,610  
discovery of the AIDS virus and many

212  
00:09:06,330 --> 00:09:03,570  
doctors have reviewed the book for its

213  
00:09:08,190 --> 00:09:06,340

content we are not doctors and the book

214

00:09:10,350 --> 00:09:08,200

doesn't contain medical advice it's more

215

00:09:12,030 --> 00:09:10,360

of an investigative journalist ik look

216

00:09:14,160 --> 00:09:12,040

at this vaccine and the scandal

217

00:09:17,090 --> 00:09:14,170

throughout the world it's heavily cited

218

00:09:19,200 --> 00:09:17,100

and to date we have not had any

219

00:09:21,750 --> 00:09:19,210

professional or alphabet-soup

220

00:09:24,330 --> 00:09:21,760

agency raised any issues with our book

221

00:09:26,760 --> 00:09:24,340

and no Corrections have been asked to be

222

00:09:29,850 --> 00:09:26,770

made this is very well researched it has

223

00:09:31,800 --> 00:09:29,860

taken a long time to put together yes it

224

00:09:33,600 --> 00:09:31,810

is so impressive and that's definitely

225

00:09:36,030 --> 00:09:33,610

worth pointing out it's also got tons of

226

00:09:38,490 --> 00:09:36,040

endorsements and praise right there in

227

00:09:40,770 --> 00:09:38,500

the first few pages as well as the

228

00:09:42,210 --> 00:09:40,780

doctors you talked to and the studies

229

00:09:44,340 --> 00:09:42,220

you pulled out along the way

230

00:09:46,980 --> 00:09:44,350

and the book is broken down into four

231

00:09:49,080 --> 00:09:46,990

parts part one looks at the testing and

232

00:09:50,850 --> 00:09:49,090

the clinical trials part two looks at

233

00:09:53,460 --> 00:09:50,860

what happened when the vaccine hit the

234

00:09:55,650 --> 00:09:53,470

market part three is a deeper dive into

235

00:09:58,050 --> 00:09:55,660

the latest research on aluminum

236

00:10:00,600 --> 00:09:58,060

containing adjuvant and other

237

00:10:03,150 --> 00:10:00,610

ingredients of concern and part four

238

00:10:05,490 --> 00:10:03,160

looks at the International implication

239

00:10:06,900 --> 00:10:05,500

so it's really methodical but let's get

240

00:10:09,990 --> 00:10:06,910

deeper into the clinical trials because

241

00:10:12,180 --> 00:10:10,000

what you lay out is pretty shocking and

242

00:10:14,040 --> 00:10:12,190

I think this is where we can get a lot

243

00:10:15,840 --> 00:10:14,050

of people who assume something so

244

00:10:18,150 --> 00:10:15,850

important would have super strict and

245

00:10:21,300 --> 00:10:18,160

honest testing because that is not the

246

00:10:23,730 --> 00:10:21,310

case what did you find when you looked

247

00:10:25,740 --> 00:10:23,740

into these trials that was most shocking

248

00:10:28,740 --> 00:10:25,750

Eileen maybe you can tell us what she

249

00:10:30,990 --> 00:10:28,750

saw I think what most people find most

250

00:10:33,150 --> 00:10:31,000

shocking not us because we've researched

251  
00:10:35,520 --> 00:10:33,160  
many vaccines but what most people find

252  
00:10:37,890 --> 00:10:35,530  
shocking is that the placebo and the

253  
00:10:40,980 --> 00:10:37,900  
clinical trials was not saline or inert

254  
00:10:43,290 --> 00:10:40,990  
it was in fact the exact same adjuvant

255  
00:10:46,290 --> 00:10:43,300  
as is found in the vaccine an image

256  
00:10:48,690 --> 00:10:46,300  
event is an immune stimulating and

257  
00:10:50,579 --> 00:10:48,700  
immune priming ingredients that enables

258  
00:10:53,720 --> 00:10:50,589  
the vaccine to work so without the

259  
00:10:56,100 --> 00:10:53,730  
adjuvant in this case a novel

260  
00:10:57,750 --> 00:10:56,110  
proprietary adjuvant belonging to Merck

261  
00:11:00,270 --> 00:10:57,760  
that nobody has ever studied

262  
00:11:01,890 --> 00:11:00,280  
independently so initially that's what

263  
00:11:04,650 --> 00:11:01,900

people find shocking how can you

264

00:11:08,340 --> 00:11:04,660

clinical trial without a saline or inert

265

00:11:10,860 --> 00:11:08,350

control where is your safety data coming

266

00:11:12,930 --> 00:11:10,870

from there isn't any and in fact

267

00:11:14,970 --> 00:11:12,940

throughout the entire clinical trial

268

00:11:18,870 --> 00:11:14,980

process over many years and many trials

269

00:11:22,230 --> 00:11:18,880

there was no inert control even the one

270

00:11:24,360 --> 00:11:22,240

small clinical trial involving the

271

00:11:26,490 --> 00:11:24,370

youngest children the target market of

272

00:11:28,500 --> 00:11:26,500

nine to fifteen year olds the FDA

273

00:11:31,050 --> 00:11:28,510

claimed that that was a saving child

274

00:11:32,910 --> 00:11:31,060

whereas in fact it was not it didn't

275

00:11:35,580 --> 00:11:32,920

have the aluminum adjuvant but it did

276

00:11:38,070 --> 00:11:35,590

have other non inert substances like

277

00:11:40,290 --> 00:11:38,080

borax al histidine and polysorbate 80

278

00:11:42,600 --> 00:11:40,300

all ingredients which have never been

279

00:11:44,550 --> 00:11:42,610

really tested independently to be

280

00:11:47,340 --> 00:11:44,560

injected into children but the most

281

00:11:49,800 --> 00:11:47,350

shocking thing we found was that aside

282

00:11:52,710 --> 00:11:49,810

from the lack of informed consent issues

283

00:11:55,230 --> 00:11:52,720

that we do raise that small trial I just

284

00:11:56,910 --> 00:11:55,240

mentioned with the youngest children the

285

00:11:59,490 --> 00:11:56,920

clinical trial they were involved with

286

00:12:01,980 --> 00:11:59,500

that they participated in in the vaccine

287

00:12:04,500 --> 00:12:01,990

arm they were given half the amount of

288

00:12:06,510 --> 00:12:04,510

this aluminum adjuvant that was

289

00:12:08,880 --> 00:12:06,520

eventually in the formulation of the

290

00:12:11,580 --> 00:12:08,890

vaccine that went to market so in other

291

00:12:13,530 --> 00:12:11,590

words the children that were used in the

292

00:12:15,120 --> 00:12:13,540

clinical trial to convince the FDA that

293

00:12:17,820 --> 00:12:15,130

it was safe for young children and

294

00:12:20,730 --> 00:12:17,830

effective only got half the dose of this

295

00:12:22,140 --> 00:12:20,740

immune stimulating adjuvant of what's on

296

00:12:24,630 --> 00:12:22,150

the markets that children are getting

297

00:12:26,940 --> 00:12:24,640

today so not only was it not tested

298

00:12:29,340 --> 00:12:26,950

against it saying in placebo the vaccine

299

00:12:31,080 --> 00:12:29,350

was never tested at all and this has an

300

00:12:33,000 --> 00:12:31,090

implication for safety because we know

301  
00:12:34,980 --> 00:12:33,010  
and you can see in part three of the

302  
00:12:37,710 --> 00:12:34,990  
book where we talk about the adjuvant

303  
00:12:40,230 --> 00:12:37,720  
that this has an implication for safety

304  
00:12:42,750 --> 00:12:40,240  
that the aluminum adjuvant does cause

305  
00:12:44,250 --> 00:12:42,760  
side effects it is implicated in many

306  
00:12:46,640 --> 00:12:44,260  
autoimmune conditions throughout the

307  
00:12:49,320 --> 00:12:46,650  
world allergies and many other

308  
00:12:51,630 --> 00:12:49,330  
neurological disorders so this is far

309  
00:12:54,090 --> 00:12:51,640  
from a clinical trial that we consider

310  
00:12:58,050 --> 00:12:54,100  
to be robust for safety purposes and

311  
00:13:00,840 --> 00:12:58,060  
just to follow up on what Eileen said we

312  
00:13:03,630 --> 00:13:00,850  
discovered this anomaly in the dosing of

313  
00:13:04,860 --> 00:13:03,640

aluminum in the youngest children test

314

00:13:06,690 --> 00:13:04,870

group

315

00:13:09,120 --> 00:13:06,700

it's in the FDA's clinical review

316

00:13:12,720 --> 00:13:09,130

documents and the table in the FDA's

317

00:13:15,480 --> 00:13:12,730

documents is actually sort of a cut and

318

00:13:17,220 --> 00:13:15,490

paste and insert from a Merck document

319

00:13:19,410 --> 00:13:17,230

so this is information directly from

320

00:13:21,150 --> 00:13:19,420

Merck it hasn't been transposed any of

321

00:13:24,750 --> 00:13:21,160

number of times or lost in translation

322

00:13:26,430 --> 00:13:24,760

it smirks own data and they have not

323

00:13:30,000 --> 00:13:26,440

come forward and said that that data is

324

00:13:32,160 --> 00:13:30,010

incorrect and the FDA are currently

325

00:13:34,680 --> 00:13:32,170

looking at it Gregg so we have raised

326

00:13:37,110 --> 00:13:34,690

these issues I did mention the lack of

327

00:13:39,240 --> 00:13:37,120

informed consent in the opening chapter

328

00:13:41,850 --> 00:13:39,250

you might remember that we tell the

329

00:13:43,530 --> 00:13:41,860

story of two young girls from Denmark

330

00:13:45,810 --> 00:13:43,540

who were involved in the clinical trials

331

00:13:49,620 --> 00:13:45,820

one was in the vaccine arm and the other

332

00:13:51,660 --> 00:13:49,630

was in the placebo arm or the facio arm

333

00:13:53,730 --> 00:13:51,670

as we call it because it was a very

334

00:13:55,380 --> 00:13:53,740

similar substance and that mirrored the

335

00:13:58,200 --> 00:13:55,390

clinical trials really and they both

336

00:14:00,420 --> 00:13:58,210

became ill which is what the clinical

337

00:14:02,670 --> 00:14:00,430

trials did actually discover that there

338

00:14:05,220 --> 00:14:02,680

was the same rate of harm in each group

339

00:14:07,170 --> 00:14:05,230

which didn't raise a flag to them as a

340

00:14:09,120 --> 00:14:07,180

safety signal in fact it reinforced

341

00:14:11,970 --> 00:14:09,130

their opinion that the vaccine was safe

342

00:14:13,980 --> 00:14:11,980

incredibly so but we talked to the girls

343

00:14:16,710 --> 00:14:13,990

who were enrolled in the clinical trials

344

00:14:18,810 --> 00:14:16,720

and they were told and they received

345

00:14:20,519 --> 00:14:18,820

brochures to this effect that the

346

00:14:23,400 --> 00:14:20,529

vaccine was safe it had already been

347

00:14:26,280 --> 00:14:23,410

tested and this was 2002 the vaccine was

348

00:14:28,470 --> 00:14:26,290

approved in 2006 they were also told

349

00:14:30,420 --> 00:14:28,480

that the placebo would be saline and

350

00:14:32,040 --> 00:14:30,430

they were under the impression that the

351  
00:14:35,579 --> 00:14:32,050  
clinical trial investigators also

352  
00:14:38,370 --> 00:14:35,589  
believed that the placebo was saline so

353  
00:14:40,500 --> 00:14:38,380  
this was terribly egregious and some

354  
00:14:42,870 --> 00:14:40,510  
people consider it fraud on these girls

355  
00:14:45,269 --> 00:14:42,880  
this hasn't been tested of course but

356  
00:14:48,000 --> 00:14:45,279  
it's a terrible terrible indication of

357  
00:14:50,760 --> 00:14:48,010  
the lack attitudes that Merck had

358  
00:14:52,260 --> 00:14:50,770  
towards these very generous clinical

359  
00:14:55,320 --> 00:14:52,270  
trial participants who risk their health

360  
00:14:57,030 --> 00:14:55,330  
under false pretenses to give their

361  
00:14:58,890 --> 00:14:57,040  
contribution to science they believed

362  
00:15:00,810 --> 00:14:58,900  
that they were helping to save women

363  
00:15:03,840 --> 00:15:00,820

from cervical cancer and they themselves

364

00:15:06,449 --> 00:15:03,850

got sick and it was never recorded or

365

00:15:08,070 --> 00:15:06,459

reported it was dismissed because and

366

00:15:10,050 --> 00:15:08,080

even the girls say that the clinical

367

00:15:11,519 --> 00:15:10,060

trial investigators believed that there

368

00:15:13,949 --> 00:15:11,529

was no side effects they were told

369

00:15:16,350 --> 00:15:13,959

everybody assumed this was safe so where

370

00:15:17,579 --> 00:15:16,360

are the checks and balances how do we

371

00:15:18,240 --> 00:15:17,589

know that Merck did a good job

372

00:15:20,010 --> 00:15:18,250

if

373

00:15:23,430 --> 00:15:20,020

these girls who were actually in Denmark

374

00:15:24,810 --> 00:15:23,440

a very regulated country as regards

375

00:15:25,440 --> 00:15:24,820

clinical trials what about other

376

00:15:27,690 --> 00:15:25,450

countries

377

00:15:29,430 --> 00:15:27,700

it just doesn't bode well and it would

378

00:15:31,410 --> 00:15:29,440

take many years to figure out all that

379

00:15:34,350 --> 00:15:31,420

information we only had a certain amount

380

00:15:36,360 --> 00:15:34,360

of time yes those were some of the very

381

00:15:38,340 --> 00:15:36,370

issues at the forefront of my mind that

382

00:15:40,290 --> 00:15:38,350

I found pretty shocking in your book

383

00:15:42,300 --> 00:15:40,300

with the findings that there was no true

384

00:15:45,330 --> 00:15:42,310

saline placebo probably being the most

385

00:15:47,550 --> 00:15:45,340

severe along with only testing half of

386

00:15:49,560 --> 00:15:47,560

the volume found in the retail vaccine

387

00:15:51,390 --> 00:15:49,570

and it's just so sad because you bring

388

00:15:53,460 --> 00:15:51,400

these girls in you tell them they're

389

00:15:56,220 --> 00:15:53,470

getting a saline placebo and then you

390

00:15:58,650 --> 00:15:56,230

inject them with these adjuvant and some

391

00:16:02,400 --> 00:15:58,660

of them come away damaged just from that

392

00:16:04,950 --> 00:16:02,410

right but what this practice does which

393

00:16:06,570 --> 00:16:04,960

is so sinister is it masks the hazards

394

00:16:08,610 --> 00:16:06,580

that would come from these adjuvant

395

00:16:11,760 --> 00:16:08,620

because there's no true control group as

396

00:16:14,040 --> 00:16:11,770

your book puts it Merck and the FDA

397

00:16:16,380 --> 00:16:14,050

concluded that because the vaccine and

398

00:16:18,990 --> 00:16:16,390

the control had similar safety profiles

399

00:16:20,880 --> 00:16:19,000

the vaccine must be safe that's like

400

00:16:23,400 --> 00:16:20,890

saying because cigarettes and cigars

401  
00:16:25,920 --> 00:16:23,410  
have similar risk profiles that they

402  
00:16:28,920 --> 00:16:25,930  
must both be safe and that's a great

403  
00:16:30,329 --> 00:16:28,930  
analogy but it is clear to see what

404  
00:16:32,910 --> 00:16:30,339  
they're doing here first they flat-out

405  
00:16:35,520 --> 00:16:32,920  
lied then they obviously manipulated the

406  
00:16:38,460 --> 00:16:35,530  
data dishonestly there has to be a

407  
00:16:39,840 --> 00:16:38,470  
deeper answer here than ignorance right

408  
00:16:43,020 --> 00:16:39,850  
I mean how could such a thing happen

409  
00:16:44,610 --> 00:16:43,030  
with the protocols and protections that

410  
00:16:45,270 --> 00:16:44,620  
we assume are in place for stuff like

411  
00:16:48,090 --> 00:16:45,280  
this

412  
00:16:49,590 --> 00:16:48,100  
well everyone asks us that you know how

413  
00:16:51,650 --> 00:16:49,600

did they ever get it approved so we

414

00:16:55,170 --> 00:16:51,660

asked the FDA you know why did you allow

415

00:16:57,540 --> 00:16:55,180

Merck to use an aluminum adjuvant and

416

00:17:01,110 --> 00:16:57,550

their response was well we've been using

417

00:17:03,780 --> 00:17:01,120

aluminum salts for 70 years and Merck

418

00:17:06,179 --> 00:17:03,790

wanted to double-blind the studies so

419

00:17:08,880 --> 00:17:06,189

that means that neither the participant

420

00:17:11,370 --> 00:17:08,890

nor the person administering the vaccine

421

00:17:12,660 --> 00:17:11,380

would know right which was switched so

422

00:17:16,050 --> 00:17:12,670

they wanted to make it look the same

423

00:17:18,210 --> 00:17:16,060

which is absolutely bogus because as you

424

00:17:20,939 --> 00:17:18,220

will have read and we just spoke about

425

00:17:23,040 --> 00:17:20,949

it that they did design a clinical trial

426

00:17:25,500 --> 00:17:23,050

that did not contain the adjuvant it did

427

00:17:27,750 --> 00:17:25,510

contain the other ingredients but so it

428

00:17:30,900 --> 00:17:27,760

isn't true that they needed to do that

429

00:17:31,350 --> 00:17:30,910

and many trials are done without the

430

00:17:33,480 --> 00:17:31,360

vaccine

431

00:17:35,669 --> 00:17:33,490

looking the same I mean the vials so

432

00:17:37,350 --> 00:17:35,679

there are the ways to do it it's not

433

00:17:39,660 --> 00:17:37,360

good enough and like you said they used

434

00:17:42,600 --> 00:17:39,670

it as evidence of safety which is

435

00:17:45,240 --> 00:17:42,610

preposterous and when they were asked by

436

00:17:46,919 --> 00:17:45,250

an independent scientist in the UK dr.

437

00:17:49,140 --> 00:17:46,929

Christopher Exley who's been studying

438

00:17:51,510 --> 00:17:49,150

aluminum for 30 odd years and he's the

439

00:17:54,270 --> 00:17:51,520

world's experts in its toxicity and its

440

00:17:58,380 --> 00:17:54,280

effects on the humans and animals

441

00:18:00,210 --> 00:17:58,390

he asked Merck to receive a vial so he

442

00:18:02,460 --> 00:18:00,220

could independently test it in his lab

443

00:18:04,230 --> 00:18:02,470

and they said no so where is the

444

00:18:06,600 --> 00:18:04,240

independent study that this is safe to

445

00:18:09,630 --> 00:18:06,610

inject into prepubescent children we

446

00:18:11,070 --> 00:18:09,640

don't know the effect of injecting this

447

00:18:13,260 --> 00:18:11,080

amount and the new version of the

448

00:18:15,330 --> 00:18:13,270

vaccine Gardasil 9 has double the

449

00:18:17,340 --> 00:18:15,340

amounts that was studied in the clinical

450

00:18:19,350 --> 00:18:17,350

trials the original clinical trials and

451  
00:18:21,659 --> 00:18:19,360  
guess what guess what was it the control

452  
00:18:23,250 --> 00:18:21,669  
in Gardez and nines clinical trials well

453  
00:18:26,789 --> 00:18:23,260  
it was the first version of the vaccine

454  
00:18:28,680 --> 00:18:26,799  
so not only did you have no placebo in

455  
00:18:30,510 --> 00:18:28,690  
the original trials then you come to

456  
00:18:32,940 --> 00:18:30,520  
testing this new product and then they

457  
00:18:35,430 --> 00:18:32,950  
use the old version so the whole thing

458  
00:18:37,880 --> 00:18:35,440  
begs so many questions and they've never

459  
00:18:40,919 --> 00:18:37,890  
been answered right and another element

460  
00:18:43,440 --> 00:18:40,929  
seems to be that in the Gardasil

461  
00:18:46,380 --> 00:18:43,450  
clinical trials they used a new metric

462  
00:18:49,110 --> 00:18:46,390  
of new medical conditions as a way to

463  
00:18:51,240 --> 00:18:49,120

claim that maybe serious health problems

464

00:18:52,980 --> 00:18:51,250

after vaccination were unrelated to

465

00:18:55,650 --> 00:18:52,990

injections this is the type of moving

466

00:18:57,750 --> 00:18:55,660

the goal posts that I've seen before but

467

00:18:59,580 --> 00:18:57,760

how does it come into play here well I

468

00:19:02,430 --> 00:18:59,590

think it comes into play in a very key

469

00:19:03,900 --> 00:19:02,440

way they tracked serious adverse events

470

00:19:07,169 --> 00:19:03,910

other adverse events and reactions

471

00:19:09,390 --> 00:19:07,179

really for the first 15 days following

472

00:19:12,480 --> 00:19:09,400

each injection so it's a very short

473

00:19:14,280 --> 00:19:12,490

timeframe in which to see adverse events

474

00:19:16,080 --> 00:19:14,290

particularly things like autoimmune

475

00:19:18,870 --> 00:19:16,090

conditions which we're seeing so many

476

00:19:21,390 --> 00:19:18,880

young people develop following HPV

477

00:19:23,310 --> 00:19:21,400

vaccination and those can take months

478

00:19:25,980 --> 00:19:23,320

and years to develop and even longer to

479

00:19:29,640 --> 00:19:25,990

get a diagnosis they're tricky diseases

480

00:19:31,020 --> 00:19:29,650

to diagnose and what they did was create

481

00:19:32,909 --> 00:19:31,030

this metric called new medical

482

00:19:36,720 --> 00:19:32,919

conditions and almost built into the

483

00:19:38,730 --> 00:19:36,730

metric is a presumption that those

484

00:19:41,280 --> 00:19:38,740

conditions are not related to the

485

00:19:44,200 --> 00:19:41,290

vaccine and that clinical trial

486

00:19:46,270 --> 00:19:44,210

investigators were not required to

487

00:19:48,640 --> 00:19:46,280

as much information about these new

488

00:19:52,060 --> 00:19:48,650

medical conditions as they were about

489

00:19:53,680 --> 00:19:52,070

serious adverse events and they have new

490

00:19:55,900 --> 00:19:53,690

medical conditions going out seven

491

00:19:57,250 --> 00:19:55,910

months 12 months depending on the trial

492

00:19:59,020 --> 00:19:57,260

group and they're very serious

493

00:20:02,170 --> 00:19:59,030

conditions there's gastrointestinal

494

00:20:04,210 --> 00:20:02,180

issues there's autoimmune issues there

495

00:20:06,880 --> 00:20:04,220

are reproductive and breasts health

496

00:20:09,400 --> 00:20:06,890

issues there are blood issues cardiac

497

00:20:11,650 --> 00:20:09,410

issues these are not serious infections

498

00:20:14,620 --> 00:20:11,660

these are not just passing you know I

499

00:20:16,840 --> 00:20:14,630

have a headache or my arm hurts type of

500

00:20:19,720 --> 00:20:16,850

reaction they're very serious conditions

501  
00:20:21,970 --> 00:20:19,730  
and we know from the girls in Denmark

502  
00:20:24,400 --> 00:20:21,980  
one of the girls in Denmark as we talked

503  
00:20:25,170 --> 00:20:24,410  
about in the book said that she was very

504  
00:20:27,790 --> 00:20:25,180  
sick

505  
00:20:30,100 --> 00:20:27,800  
fouling vaccinations and she would go in

506  
00:20:31,930 --> 00:20:30,110  
and report these whole series of

507  
00:20:34,500 --> 00:20:31,940  
symptoms that she was experiencing that

508  
00:20:37,270 --> 00:20:34,510  
were very serious and when she later

509  
00:20:39,550 --> 00:20:37,280  
obtained her records through a Freedom

510  
00:20:41,470 --> 00:20:39,560  
of Information Act request obtained her

511  
00:20:44,350 --> 00:20:41,480  
clinical trial records with the help of

512  
00:20:46,270 --> 00:20:44,360  
a reporter from Slate there was very

513  
00:20:49,180 --> 00:20:46,280

little notation in those records of what

514

00:20:50,830 --> 00:20:49,190

she was reporting it almost looked as if

515

00:20:54,490 --> 00:20:50,840

she was reporting something relatively

516

00:20:57,730 --> 00:20:54,500

mild whereas she was debilitated quite

517

00:20:59,110 --> 00:20:57,740

frankly so this new metric as I said

518

00:21:01,240 --> 00:20:59,120

sort of had this presumption of almost

519

00:21:05,770 --> 00:21:01,250

not being related to the vaccine but

520

00:21:08,700 --> 00:21:05,780

importantly almost 50% of young women in

521

00:21:10,890 --> 00:21:08,710

all the clinical trial groups combined

522

00:21:15,580 --> 00:21:10,900

reported new medical conditions

523

00:21:17,620 --> 00:21:15,590

following vaccination and given that we

524

00:21:19,150 --> 00:21:17,630

know that there's perhaps scant

525

00:21:21,340 --> 00:21:19,160

reporting on some of these the numbers

526

00:21:24,250 --> 00:21:21,350

could be even higher than what's shown

527

00:21:25,990 --> 00:21:24,260

in the clinical trial data if you have

528

00:21:28,210 --> 00:21:26,000

someone like the young woman in our book

529

00:21:30,160 --> 00:21:28,220

who said her conditions really weren't

530

00:21:31,420 --> 00:21:30,170

written down very well so I to me it

531

00:21:33,970 --> 00:21:31,430

begs the question of whether that number

532

00:21:36,640 --> 00:21:33,980

is in fact even higher but what we have

533

00:21:39,430 --> 00:21:36,650

is half of people reporting that they're

534

00:21:40,930 --> 00:21:39,440

ill and it's also critical that the

535

00:21:43,150 --> 00:21:40,940

readers understand in your listeners

536

00:21:44,970 --> 00:21:43,160

understand that the people who

537

00:21:48,520 --> 00:21:44,980

participated in these clinical trials

538

00:21:51,280 --> 00:21:48,530

were a really select group of basically

539

00:21:54,450 --> 00:21:51,290

the healthiest of healthy young women

540

00:21:56,650 --> 00:21:54,460

there were numerous exclusion criteria

541

00:21:57,970 --> 00:21:56,660

that the clinical trial investigators

542

00:22:00,070 --> 00:21:57,980

would apply

543

00:22:02,110 --> 00:22:00,080

I in determining who could participate

544

00:22:04,450 --> 00:22:02,120

in the clinical trials and it had to do

545

00:22:06,070 --> 00:22:04,460

with you know how healthy you were your

546

00:22:07,539 --> 00:22:06,080

gynecologic history your a number of

547

00:22:09,250 --> 00:22:07,549

sexual partners you couldn't have had

548

00:22:11,860 --> 00:22:09,260

more than four sexual partners in your

549

00:22:14,440 --> 00:22:11,870

life whether or not you had some sort of

550

00:22:16,320 --> 00:22:14,450

immunological or autoimmune condition so

551  
00:22:19,330 --> 00:22:16,330  
all those people would be left out and

552  
00:22:21,610 --> 00:22:19,340  
then there was a sort of catch-all that

553  
00:22:23,799 --> 00:22:21,620  
the clinical trial investigator could

554  
00:22:25,690 --> 00:22:23,809  
exclude anyone who he or she thought for

555  
00:22:27,580 --> 00:22:25,700  
whatever reason might skew the results

556  
00:22:29,830 --> 00:22:27,590  
of the trial somehow or not be an

557  
00:22:31,659 --> 00:22:29,840  
appropriate candidate for the trial so

558  
00:22:34,060 --> 00:22:31,669  
you could lump a bunch of people into

559  
00:22:37,240 --> 00:22:34,070  
that category so what you're getting is

560  
00:22:39,310 --> 00:22:37,250  
the healthiest of healthy nine to twenty

561  
00:22:41,830 --> 00:22:39,320  
three year olds primarily in one country

562  
00:22:45,460 --> 00:22:41,840  
it went up to 26 but 9 to 26 year olds

563  
00:22:47,830 --> 00:22:45,470

who are super super healthy and half of

564

00:22:49,860 --> 00:22:47,840

them are getting serious illnesses

565

00:22:52,480 --> 00:22:49,870

during these trials that's astounding

566

00:22:55,000 --> 00:22:52,490

yes that's an excellent point because

567

00:22:56,470 --> 00:22:55,010

it's all factors and data that goes out

568

00:22:58,210 --> 00:22:56,480

the window and you're injecting the

569

00:23:01,390 --> 00:22:58,220

masses because they don't have the

570

00:23:03,730 --> 00:23:01,400

strict criteria once the trials are over

571

00:23:07,000 --> 00:23:03,740

with but another factor that's really

572

00:23:09,480 --> 00:23:07,010

important is the age because I guess

573

00:23:12,820 --> 00:23:09,490

it's given to girls as young as nine

574

00:23:15,430 --> 00:23:12,830

perhaps but in the trials the subjects

575

00:23:17,650 --> 00:23:15,440

of the study were significantly older

576

00:23:21,580 --> 00:23:17,660

why is that important what data does

577

00:23:23,260 --> 00:23:21,590

that obscure well the reason that the

578

00:23:25,870 --> 00:23:23,270

girls were older in the trials was

579

00:23:27,700 --> 00:23:25,880

because the endpoints in other words

580

00:23:30,070 --> 00:23:27,710

what they were testing involved

581

00:23:32,169 --> 00:23:30,080

gynecological examinations right so and

582

00:23:34,240 --> 00:23:32,179

they had to be of an age group that were

583

00:23:38,049 --> 00:23:34,250

potentially sexually active so that they

584

00:23:40,240 --> 00:23:38,059

could study the virus and if the control

585

00:23:43,120 --> 00:23:40,250

group which we know is a foe SIBO but if

586

00:23:44,350 --> 00:23:43,130

HPV infections were being induced so

587

00:23:47,320 --> 00:23:44,360

that was the reason for the age group

588

00:23:50,289 --> 00:23:47,330

and younger children of course cannot

589

00:23:54,400 --> 00:23:50,299

have gynecological exams we believe that

590

00:23:56,470 --> 00:23:54,410

the target market was young children we

591

00:23:59,680 --> 00:23:56,480

know from let's say the back way around

592

00:24:01,840 --> 00:23:59,690

this that they weren't likely to have

593

00:24:03,789 --> 00:24:01,850

sexual intercourse and the vaccine is

594

00:24:06,130 --> 00:24:03,799

supposedly more effective in young

595

00:24:08,470 --> 00:24:06,140

children and we did find in the clinical

596

00:24:09,980 --> 00:24:08,480

trials that if the young women had HPV

597

00:24:12,590 --> 00:24:09,990

infections they were

598

00:24:14,480 --> 00:24:12,600

more likely to develop disease later on

599

00:24:17,030 --> 00:24:14,490

but perhaps Kim maybe you can answer

600

00:24:19,190 --> 00:24:17,040

that better than I can sure so what they

601  
00:24:21,440 --> 00:24:19,200  
found as Eileen said there is one sort

602  
00:24:23,180 --> 00:24:21,450  
of logical reason that the vast majority

603  
00:24:25,070 --> 00:24:23,190  
of clinical trial participants were

604  
00:24:27,020 --> 00:24:25,080  
older and that they were able to conduct

605  
00:24:29,600 --> 00:24:27,030  
gynecologic exams on them which they

606  
00:24:34,390 --> 00:24:29,610  
couldn't ethically do on you know nine

607  
00:24:38,740 --> 00:24:34,400  
and ten-year-olds but they also found in

608  
00:24:41,110 --> 00:24:38,750  
one small sub study group that women who

609  
00:24:44,450 --> 00:24:41,120  
were at the time they were vaccinated

610  
00:24:46,910 --> 00:24:44,460  
both had evidence from a blood test of

611  
00:24:52,150 --> 00:24:46,920  
prior exposure to one of the vaccine

612  
00:24:55,280 --> 00:24:52,160  
types of HPV and had some evidence of

613  
00:24:58,010 --> 00:24:55,290

current exposure based on physical exam

614

00:25:00,740 --> 00:24:58,020

that those women who were vaccinated

615

00:25:05,780 --> 00:25:00,750

were over forty four percent more likely

616

00:25:08,900 --> 00:25:05,790

to develop vaccine type HPV associated

617

00:25:11,540 --> 00:25:08,910

disease during the trial period than the

618

00:25:13,460 --> 00:25:11,550

same cohort who received that cohort who

619

00:25:15,919 --> 00:25:13,470

received the control the aluminum

620

00:25:18,110 --> 00:25:15,929

adjuvant and they found also that those

621

00:25:20,990 --> 00:25:18,120

women had more quote unquote

622

00:25:23,000 --> 00:25:21,000

real-world risk factors for disease as

623

00:25:25,250 --> 00:25:23,010

well they were smokers some of them were

624

00:25:27,169 --> 00:25:25,260

obese so they had these risk factors

625

00:25:30,020 --> 00:25:27,179

that play into the development of

626

00:25:31,250 --> 00:25:30,030

disease but if you're vaccinating

627

00:25:32,870 --> 00:25:31,260

someone and you know that they have

628

00:25:35,460 --> 00:25:32,880

those risk factors and you know that

629

00:25:38,100 --> 00:25:35,470

they may have an infection

630

00:25:41,370 --> 00:25:38,110

that should raise red flags but instead

631

00:25:42,419 --> 00:25:41,380

in the real world what we're seeing is

632

00:25:45,060 --> 00:25:42,429

that the American College of

633

00:25:47,159 --> 00:25:45,070

Obstetricians and Gynaecologists says

634

00:25:50,250 --> 00:25:47,169

don't pre-screen for HPV infection

635

00:25:51,960 --> 00:25:50,260

before administering the vaccine so

636

00:25:55,169 --> 00:25:51,970

they're not looking for those women who

637

00:25:57,060 --> 00:25:55,179

may be at a greater risk because of an

638

00:25:59,340 --> 00:25:57,070

infection and other risk factors and

639

00:26:01,649 --> 00:25:59,350

you're less likely to have those risk

640

00:26:03,360 --> 00:26:01,659

factors with young children and young

641

00:26:04,649 --> 00:26:03,370

children they're less likely to be

642

00:26:05,669 --> 00:26:04,659

smokers they're less likely to be

643

00:26:08,130 --> 00:26:05,679

sexually active

644

00:26:10,260 --> 00:26:08,140

that doesn't mean they may not have been

645

00:26:11,880 --> 00:26:10,270

exposed to HPV and there certainly were

646

00:26:14,159 --> 00:26:11,890

young children in the clinical trials

647

00:26:17,130 --> 00:26:14,169

who had evidence of prior exposure

648

00:26:20,399 --> 00:26:17,140

through blood testing and there are

649

00:26:23,220 --> 00:26:20,409

other ways to be infected with HPV than

650

00:26:25,470 --> 00:26:23,230

just through sexual activity it's less

651  
00:26:27,870 --> 00:26:25,480  
common but it's very real I mean there's

652  
00:26:30,390 --> 00:26:27,880  
mother to infant transmission during

653  
00:26:31,770 --> 00:26:30,400  
births and there's hand to body part

654  
00:26:33,090 --> 00:26:31,780  
transmission even you know with young

655  
00:26:35,130 --> 00:26:33,100  
children changing diapers and things

656  
00:26:37,919 --> 00:26:35,140  
like that so it is possible for someone

657  
00:26:40,380 --> 00:26:37,929  
who's not sexually active to have an HPV

658  
00:26:43,590 --> 00:26:40,390  
infection though less common but by

659  
00:26:46,110 --> 00:26:43,600  
switching the cohort to these younger

660  
00:26:47,789 --> 00:26:46,120  
children as the target market you've

661  
00:26:49,620 --> 00:26:47,799  
sort of removed some of those risks

662  
00:26:52,230 --> 00:26:49,630  
theoretically right and there was also

663  
00:26:54,270 --> 00:26:52,240

the risk of pregnancy miscarriage that

664

00:26:56,880 --> 00:26:54,280

we saw in the trials but we can't say

665

00:26:58,649 --> 00:26:56,890

for sure if it was intended or it was

666

00:27:01,500 --> 00:26:58,659

switched to the younger market partway

667

00:27:03,090 --> 00:27:01,510

through we have to assume that the

668

00:27:05,190 --> 00:27:03,100

target market was always these young

669

00:27:07,409 --> 00:27:05,200

children because they're more

670

00:27:10,200 --> 00:27:07,419

immunologically responsive to a vaccine

671

00:27:12,690 --> 00:27:10,210

that's at least what we are told and you

672

00:27:14,940 --> 00:27:12,700

know we're also told that the target

673

00:27:18,390 --> 00:27:14,950

market was really the developing world

674

00:27:20,549 --> 00:27:18,400

and that doesn't appear to be in reality

675

00:27:22,680 --> 00:27:20,559

what's happening the developing world is

676  
00:27:25,560 --> 00:27:22,690  
not receiving this vaccine where most

677  
00:27:28,350 --> 00:27:25,570  
cases of cervical cancer mortality are

678  
00:27:30,899 --> 00:27:28,360  
highest I think it's over 90% of

679  
00:27:32,940 --> 00:27:30,909  
cervical cancer cases happen in the

680  
00:27:36,140 --> 00:27:32,950  
developing world so you know this is

681  
00:27:39,180 --> 00:27:36,150  
kind of a very not well thought out

682  
00:27:41,460 --> 00:27:39,190  
vaccine in terms of distribution rollout

683  
00:27:44,850 --> 00:27:41,470  
marketing and instead the developed

684  
00:27:48,120 --> 00:27:44,860  
world's the US UK Europe Australia

685  
00:27:48,910 --> 00:27:48,130  
Canada are giving this vaccine to their

686  
00:27:52,600 --> 00:27:48,920  
youngest

687  
00:27:54,670 --> 00:27:52,610  
Queens and subsidizing for other

688  
00:27:57,010 --> 00:27:54,680

countries to enter into this arrangement

689

00:27:59,200 --> 00:27:57,020

of giving the vaccine to their children

690

00:28:01,870 --> 00:27:59,210

so it's a little bit upside down at the

691

00:28:04,980 --> 00:28:01,880

moment and as Kim said the recent

692

00:28:07,750 --> 00:28:04,990

approval by the FDA to include women

693

00:28:09,520 --> 00:28:07,760

twenty seven to forty five women and men

694

00:28:12,760 --> 00:28:09,530

actually twenty seven to forty five is

695

00:28:13,990 --> 00:28:12,770

also preposterous given that we saw in

696

00:28:16,360 --> 00:28:14,000

the clinical trials that there's an

697

00:28:20,260 --> 00:28:16,370

increased risk for disease enhancements

698

00:28:22,570 --> 00:28:20,270

in women who have had HPV in the past

699

00:28:25,090 --> 00:28:22,580

and added to that there's been no

700

00:28:27,220 --> 00:28:25,100

testing on man and they used this method

701  
00:28:29,380 --> 00:28:27,230  
in clinical trials when you can't study

702  
00:28:31,180 --> 00:28:29,390  
the target market so they couldn't study

703  
00:28:32,740 --> 00:28:31,190  
the children and they couldn't study men

704  
00:28:34,690 --> 00:28:32,750  
really because this was a cervical

705  
00:28:38,080 --> 00:28:34,700  
cancer study so they use things called

706  
00:28:40,660 --> 00:28:38,090  
bridging studies so they will do tighter

707  
00:28:43,180 --> 00:28:40,670  
tests or blood tests after giving the

708  
00:28:46,360 --> 00:28:43,190  
participants the vaccine and then bridge

709  
00:28:48,760 --> 00:28:46,370  
it up let's say compare it to the more

710  
00:28:50,740 --> 00:28:48,770  
studies market and then through their

711  
00:28:52,240 --> 00:28:50,750  
bridging in other words they were

712  
00:28:54,490 --> 00:28:52,250  
connected somehow they'll say oh well

713  
00:28:56,260 --> 00:28:54,500

let's compare the two groups and then

714

00:28:59,080 --> 00:28:56,270

that's how they get approval for these

715

00:29:00,670 --> 00:28:59,090

young kids and men by bridging and

716

00:29:03,400 --> 00:29:00,680

saying well it's pretty similar we're

717

00:29:06,220 --> 00:29:03,410

good to go without including the

718

00:29:08,680 --> 00:29:06,230

differences that young children have an

719

00:29:10,870 --> 00:29:08,690

men have in their immune response to

720

00:29:13,420 --> 00:29:10,880

vaccines so this is white knuckling it

721

00:29:15,160 --> 00:29:13,430

you know this vaccine is one of the

722

00:29:17,140 --> 00:29:15,170

least tested although it claims that

723

00:29:19,300 --> 00:29:17,150

it's the most tested it may be the most

724

00:29:21,220 --> 00:29:19,310

tested in terms of time spent on

725

00:29:24,370 --> 00:29:21,230

clinical trials but it's the least

726

00:29:27,610 --> 00:29:24,380

tested in terms of substance hmm well

727

00:29:29,590 --> 00:29:27,620

that's a great summary and it's just so

728

00:29:32,380 --> 00:29:29,600

sad we have all these issues with the

729

00:29:36,850 --> 00:29:32,390

trials it's sloppiness at best deception

730

00:29:39,370 --> 00:29:36,860

and criminality at worst and to get into

731

00:29:42,100 --> 00:29:39,380

Part two maybe let's look deeper at what

732

00:29:44,110 --> 00:29:42,110

happened when the vaccine came to market

733

00:29:46,720 --> 00:29:44,120

what can you tell us about how many

734

00:29:48,640 --> 00:29:46,730

girls have gotten it and some of the

735

00:29:51,640 --> 00:29:48,650

damage and issues that arose once it

736

00:29:54,190 --> 00:29:51,650

actually did come out so millions of

737

00:29:56,320 --> 00:29:54,200

girls and boys now worldwide have gotten

738

00:29:58,180 --> 00:29:56,330

the vaccine and I think one thing that

739

00:30:00,090 --> 00:29:58,190

we try to do and it's important to put

740

00:30:02,400 --> 00:30:00,100

in perspective is

741

00:30:04,140 --> 00:30:02,410

is looking and Eileen touched on this

742

00:30:06,060 --> 00:30:04,150

the difference between high resource

743

00:30:09,270 --> 00:30:06,070

countries and low resource countries and

744

00:30:11,789 --> 00:30:09,280

the purported need for the vaccine when

745

00:30:13,770 --> 00:30:11,799

you look at information and we did and

746

00:30:18,240 --> 00:30:13,780

we have it in the book about who's

747

00:30:20,070 --> 00:30:18,250

really at risk of cervical cancer in the

748

00:30:24,390 --> 00:30:20,080

United States according to the National

749

00:30:26,520 --> 00:30:24,400

Cancer Institute's own data 0.6 percent

750

00:30:28,980 --> 00:30:26,530

of US women are at risk of developing

751  
00:30:32,279 --> 00:30:28,990  
cervical cancer in their lifetime so

752  
00:30:34,760 --> 00:30:32,289  
just over half a percent of women and of

753  
00:30:37,529 --> 00:30:34,770  
course any case of cervical cancer is

754  
00:30:39,720 --> 00:30:37,539  
devastating and no one wants anyone to

755  
00:30:43,500 --> 00:30:39,730  
have cervical cancer but the reality is

756  
00:30:45,779 --> 00:30:43,510  
that the risk is extraordinarily low for

757  
00:30:48,779 --> 00:30:45,789  
women in the United States so Merck's

758  
00:30:51,090 --> 00:30:48,789  
marketing that you know a mother or a

759  
00:30:55,130 --> 00:30:51,100  
parent would help their daughter to be

760  
00:30:57,529 --> 00:30:55,140  
one less case of cervical cancer is

761  
00:30:59,880 --> 00:30:57,539  
misleading because in most instances

762  
00:31:01,649 --> 00:30:59,890  
those girls were never going to be a

763  
00:31:05,159 --> 00:31:01,659

case of cervical cancer because the

764

00:31:07,770 --> 00:31:05,169

incidence is so low in the u.s. in other

765

00:31:09,510 --> 00:31:07,780

parts of the world as Eileen pointed out

766

00:31:11,520 --> 00:31:09,520

it's much more devastating both the

767

00:31:14,399 --> 00:31:11,530

incident rate and the death rates are

768

00:31:17,460 --> 00:31:14,409

much much higher in places like East

769

00:31:19,620 --> 00:31:17,470

Africa and there are many reasons that

770

00:31:23,010 --> 00:31:19,630

contribute to those increases including

771

00:31:25,230 --> 00:31:23,020

smoking exposure to toxic smokes lack of

772

00:31:27,450 --> 00:31:25,240

screening because in developed countries

773

00:31:29,520 --> 00:31:27,460

generally speaking if you are screened

774

00:31:32,039 --> 00:31:29,530

any sort of abnormality is going to be

775

00:31:33,600 --> 00:31:32,049

caught and can be treated early and that

776

00:31:35,430 --> 00:31:33,610

the majority of women who develop

777

00:31:37,890 --> 00:31:35,440

cervical cancer in a country like the

778

00:31:39,779 --> 00:31:37,900

United States have not been screened in

779

00:31:42,180 --> 00:31:39,789

five or more years so screening is

780

00:31:44,430 --> 00:31:42,190

critical and one of the things that

781

00:31:47,549 --> 00:31:44,440

we're seeing and is being reported in

782

00:31:50,100 --> 00:31:47,559

this now post vaccine era that we're in

783

00:31:52,500 --> 00:31:50,110

is that when the youngest girls are

784

00:31:55,980 --> 00:31:52,510

vaccinated you know your tweens and your

785

00:32:00,450 --> 00:31:55,990

early teens that those girls seem to not

786

00:32:03,149 --> 00:32:00,460

be engaging in recommended gynecological

787

00:32:05,220 --> 00:32:03,159

screenings going forward so they're not

788

00:32:07,620 --> 00:32:05,230

getting their pap smears or their HPV

789

00:32:09,299 --> 00:32:07,630

DNA testing the way they should and that

790

00:32:11,760 --> 00:32:09,309

is very troubling because we know that

791

00:32:14,340 --> 00:32:11,770

screening works and those girls should

792

00:32:17,130 --> 00:32:14,350

be screened and the vaccine only

793

00:32:18,570 --> 00:32:17,140

against a limited number to the extent

794

00:32:22,049 --> 00:32:18,580

it protects it protects against a

795

00:32:25,549 --> 00:32:22,059

limited number of types of HPV so this

796

00:32:28,799 --> 00:32:25,559

idea that the vaccine will prevent all

797

00:32:30,659 --> 00:32:28,809

cervical cancer or that the vaccine will

798

00:32:32,130 --> 00:32:30,669

last your whole lifetime none of those

799

00:32:35,250 --> 00:32:32,140

things have been proven there are other

800

00:32:37,830 --> 00:32:35,260

types of HPV not in the vaccine that are

801  
00:32:41,549 --> 00:32:37,840  
associated with cervical cancer as well

802  
00:32:45,000 --> 00:32:41,559  
in other cancers and there's no evidence

803  
00:32:46,799 --> 00:32:45,010  
of lifetime protection you know it's a

804  
00:32:50,159 --> 00:32:46,809  
relatively new vaccine we don't know how

805  
00:32:51,990 --> 00:32:50,169  
long its protections will last to the

806  
00:32:53,970 --> 00:32:52,000  
extent there are protections so it's

807  
00:32:56,730 --> 00:32:53,980  
very worrisome that these girls might

808  
00:32:59,580 --> 00:32:56,740  
not be engaging in the kind of screening

809  
00:33:01,200 --> 00:32:59,590  
behavior and really at 11 and 12 years

810  
00:33:01,649 --> 00:33:01,210  
old which is really the central target

811  
00:33:04,140 --> 00:33:01,659  
market

812  
00:33:06,750 --> 00:33:04,150  
those girls are basically at that point

813  
00:33:09,120 --> 00:33:06,760

in their lives at zero risk of cervical

814

00:33:10,980 --> 00:33:09,130

cancer and you know Greg we're seeing in

815

00:33:13,710 --> 00:33:10,990

the real world while on one hand they'll

816

00:33:15,930 --> 00:33:13,720

say oh look at Australia and you know

817

00:33:18,149 --> 00:33:15,940

HPV infections are down by half but

818

00:33:21,690 --> 00:33:18,159

these are benign infections in most

819

00:33:23,460 --> 00:33:21,700

cases 95% of in cases they will regress

820

00:33:25,560 --> 00:33:23,470

on their own with our body's immune

821

00:33:27,419 --> 00:33:25,570

system so we're hearing about this

822

00:33:29,490 --> 00:33:27,429

quote-unquote success of the vaccine so

823

00:33:32,010 --> 00:33:29,500

why would you not but they're ignoring

824

00:33:33,930 --> 00:33:32,020

the trail of destruction that we see all

825

00:33:35,820 --> 00:33:33,940

around the world and there's also this

826

00:33:38,130 --> 00:33:35,830

more subtle effect that hasn't yet been

827

00:33:40,200 --> 00:33:38,140

proven but we're seeing it you know Kim

828

00:33:41,820 --> 00:33:40,210

talked about screening and in the UK I

829

00:33:44,460 --> 00:33:41,830

think is a good example because they've

830

00:33:48,029 --> 00:33:44,470

had the vaccine in the schools for ten

831

00:33:49,620 --> 00:33:48,039

years at 90% uptake and what you see in

832

00:33:51,299 --> 00:33:49,630

the cervical cancer rates in the very

833

00:33:53,100 --> 00:33:51,309

young women there and we didn't really

834

00:33:54,870 --> 00:33:53,110

talk too much about this in the book

835

00:33:57,450 --> 00:33:54,880

because it just needs to be looked at

836

00:34:00,299 --> 00:33:57,460

more but cervical cancer in the young

837

00:34:02,789 --> 00:34:00,309

age group there are 20 to 28 years old

838

00:34:05,730 --> 00:34:02,799

is on the rise and we do know that

839

00:34:08,399 --> 00:34:05,740

screening is down by about 20 percent

840

00:34:10,919 --> 00:34:08,409

since the vaccine came in so this

841

00:34:13,109 --> 00:34:10,929

complacency towards screening or over

842

00:34:15,030 --> 00:34:13,119

reliance on the vaccine now why would

843

00:34:18,139 --> 00:34:15,040

cancer be going up in very young women

844

00:34:20,669 --> 00:34:18,149

either most likely lack of screening or

845

00:34:22,740 --> 00:34:20,679

most of them have had the vaccine so why

846

00:34:24,419 --> 00:34:22,750

didn't it work or what's happening this

847

00:34:27,230 --> 00:34:24,429

all needs to be looked at and yet it

848

00:34:29,540 --> 00:34:27,240

isn't because the w-h-o is focusing on

849

00:34:31,820 --> 00:34:29,550

small success stories like no warts in

850

00:34:33,680 --> 00:34:31,830

Australia I mean that has never been a

851  
00:34:36,230 --> 00:34:33,690  
public health threat to my knowledge and

852  
00:34:38,180 --> 00:34:36,240  
you know the other reason could be that

853  
00:34:41,030 --> 00:34:38,190  
Kim also mentioned and it needs to be

854  
00:34:43,159 --> 00:34:41,040  
studied again is this idea that other

855  
00:34:45,500 --> 00:34:43,169  
strains could be taking the place of

856  
00:34:46,909 --> 00:34:45,510  
those two very prevalent strains sixteen

857  
00:34:49,040 --> 00:34:46,919  
and eighteen that were in the vaccine

858  
00:34:51,320 --> 00:34:49,050  
that those children got in the UK and

859  
00:34:53,780 --> 00:34:51,330  
elsewhere but perhaps there are other

860  
00:34:56,180 --> 00:34:53,790  
strains now filling the void nature

861  
00:34:59,660 --> 00:34:56,190  
abhors a vacuum and this is well known

862  
00:35:01,430 --> 00:34:59,670  
in virology that other strains could

863  
00:35:03,740 --> 00:35:01,440

become more virulent and take the place

864

00:35:05,870 --> 00:35:03,750

so why are these young women in the UK

865

00:35:07,880 --> 00:35:05,880

now more prone to cancer numbers

866

00:35:10,490 --> 00:35:07,890

thankfully are small but the trend is on

867

00:35:13,400 --> 00:35:10,500

the way up since the vaccine came in and

868

00:35:14,630 --> 00:35:13,410

it's shocking and scary and women need

869

00:35:17,290 --> 00:35:14,640

to get screened I think that's the

870

00:35:20,120 --> 00:35:17,300

message right and there is some evidence

871

00:35:21,620 --> 00:35:20,130

even in studies from the US Centers for

872

00:35:24,710 --> 00:35:21,630

Disease Control there is some evidence

873

00:35:26,359 --> 00:35:24,720

that type replacement is occurring it's

874

00:35:28,550 --> 00:35:26,369

still equivocal at this point and it's

875

00:35:30,320 --> 00:35:28,560

early days and hard to tell but there

876

00:35:32,240 --> 00:35:30,330

certainly is some evidence that this

877

00:35:35,270 --> 00:35:32,250

type replacement is occurring and that

878

00:35:37,460 --> 00:35:35,280

once you take out as Eileen said these

879

00:35:40,160 --> 00:35:37,470

predominant strains that other strains

880

00:35:41,720 --> 00:35:40,170

that may we don't know that may be more

881

00:35:44,090 --> 00:35:41,730

virulent which is why they were sort of

882

00:35:46,910 --> 00:35:44,100

camped down by the less virulent strains

883

00:35:50,840 --> 00:35:46,920

are going to come in to fill that void

884

00:35:52,790 --> 00:35:50,850

and it is very very concerning that

885

00:35:55,490 --> 00:35:52,800

these young women you know the 20 to 28

886

00:35:57,620 --> 00:35:55,500

year olds that cervical cancer is on the

887

00:35:59,690 --> 00:35:57,630

rise right that cohort because the

888

00:36:03,800 --> 00:35:59,700

incident rate for cervical cancer in

889

00:36:05,840 --> 00:36:03,810

that age group is thankfully very very

890

00:36:09,080 --> 00:36:05,850

low but you don't want to see any rise

891

00:36:10,970 --> 00:36:09,090

in cancer in those young women so that

892

00:36:12,620 --> 00:36:10,980

needs to be watched not just in the UK

893

00:36:14,000 --> 00:36:12,630

but in other countries as well where the

894

00:36:18,230 --> 00:36:14,010

programs have been in place for a long

895

00:36:20,900 --> 00:36:18,240

time and it's just all so interesting

896

00:36:23,359 --> 00:36:20,910

and let's use maybe the US as a

897

00:36:26,240 --> 00:36:23,369

microcosm because you said just over a

898

00:36:28,849 --> 00:36:26,250

half a percent are actually at risk of

899

00:36:32,510 --> 00:36:28,859

cervical cancer in the u.s. how many

900

00:36:34,820 --> 00:36:32,520

people how many women got this vaccine

901  
00:36:37,940 --> 00:36:34,830  
versus like what kind of statistics do

902  
00:36:40,039 --> 00:36:37,950  
we have on how many end up adversely

903  
00:36:42,679 --> 00:36:40,049  
affected out in the real world

904  
00:36:45,289 --> 00:36:42,689  
mmm well historically over the last 10

905  
00:36:48,259 --> 00:36:45,299  
years or what is it no 12 years since

906  
00:36:50,689 --> 00:36:48,269  
the vaccine was approved in 2006 uptake

907  
00:36:54,499 --> 00:36:50,699  
has been very low in the u.s. averaging

908  
00:36:57,769 --> 00:36:54,509  
around 30% it started off as a three

909  
00:37:01,370 --> 00:36:57,779  
injection series so kids would have to

910  
00:37:04,039 --> 00:37:01,380  
get three injections and in 2016-17 it

911  
00:37:06,679 --> 00:37:04,049  
was reduced to two injections for the

912  
00:37:08,929 --> 00:37:06,689  
very young again because they know that

913  
00:37:11,239 --> 00:37:08,939

the youngest kids have more of an immune

914

00:37:14,749 --> 00:37:11,249

response to vaccines so if you're over

915

00:37:16,729 --> 00:37:14,759

15 it's three so historically it's been

916

00:37:19,249 --> 00:37:16,739

around thirty percent and that is

917

00:37:21,979 --> 00:37:19,259

slightly increasing with the two dose

918

00:37:24,529 --> 00:37:21,989

schedule because obviously it's less

919

00:37:27,620 --> 00:37:24,539

onerous on the patient as regards

920

00:37:30,019 --> 00:37:27,630

injuries and statistics in terms of what

921

00:37:32,719 --> 00:37:30,029

percentage we can only tell from what's

922

00:37:35,329 --> 00:37:32,729

reported to the vaccine adverse events

923

00:37:37,339 --> 00:37:35,339

reporting system bears which is very

924

00:37:40,339 --> 00:37:37,349

passive not many people know about it

925

00:37:42,319 --> 00:37:40,349

not even doctors let alone the public so

926  
00:37:44,630 --> 00:37:42,329  
if you have our vaccine reaction your

927  
00:37:46,819 --> 00:37:44,640  
doctor should report it to bears now

928  
00:37:48,890 --> 00:37:46,829  
it's something that you can do online or

929  
00:37:52,009 --> 00:37:48,900  
you know the doctor can call or report

930  
00:37:53,449 --> 00:37:52,019  
it to Merck but this is not routine my

931  
00:37:55,999 --> 00:37:53,459  
reason for saying that is that numbers

932  
00:37:59,150 --> 00:37:56,009  
are underestimated rather than over so

933  
00:38:04,549 --> 00:37:59,160  
currently we have around 61 thousand

934  
00:38:06,199 --> 00:38:04,559  
reported reactions since 2006 and 430

935  
00:38:08,390 --> 00:38:06,209  
deaths I think came we looked at it the

936  
00:38:10,549 --> 00:38:08,400  
other day that's right right around 430

937  
00:38:13,099 --> 00:38:10,559  
yeah now not all of those reports of

938  
00:38:15,589 --> 00:38:13,109

course are accurate like I said it's a

939

00:38:16,489 --> 00:38:15,599

passive system it's not robust in its

940

00:38:19,130 --> 00:38:16,499

reporting spot

941

00:38:23,120 --> 00:38:19,140

it is also underreported so for however

942

00:38:25,009 --> 00:38:23,130

many of those 430 deaths maybe oh I read

943

00:38:27,919 --> 00:38:25,019

something on the internet you could

944

00:38:30,620 --> 00:38:27,929

amplify that up by times ten to a

945

00:38:34,039 --> 00:38:30,630

hundred because we know that around only

946

00:38:37,039 --> 00:38:34,049

1% to 10% of real injuries are ever

947

00:38:39,620 --> 00:38:37,049

reported so we could be looking at 4,000

948

00:38:41,419 --> 00:38:39,630

deaths in the United States well

949

00:38:43,459 --> 00:38:41,429

actually there's does include some from

950

00:38:47,120 --> 00:38:43,469

around the world so around 4,000 deaths

951  
00:38:49,160 --> 00:38:47,130  
as opposed to yes cervical cancer deaths

952  
00:38:51,620 --> 00:38:49,170  
are terrifying and frightening and it's

953  
00:38:52,160 --> 00:38:51,630  
a horrible disease we don't in any shape

954  
00:38:52,730 --> 00:38:52,170  
or form

955  
00:38:56,180 --> 00:38:52,740  
who

956  
00:38:58,250 --> 00:38:56,190  
to belittle that there are 4,000 deaths

957  
00:39:01,070 --> 00:38:58,260  
due to cervical cancer annually in the

958  
00:39:03,560 --> 00:39:01,080  
United States it is ranked number 20 in

959  
00:39:06,859 --> 00:39:03,570  
the list of cancers in cancer mortality

960  
00:39:08,300 --> 00:39:06,869  
and you know most of those deaths I

961  
00:39:10,820 --> 00:39:08,310  
think Kim you mentioned this are in

962  
00:39:15,890 --> 00:39:10,830  
women who have not had regular pap

963  
00:39:18,650 --> 00:39:15,900

screens or not availing program here in

964

00:39:20,480 --> 00:39:18,660

the United States so it's not to compare

965

00:39:22,490 --> 00:39:20,490

deaths to deaths it's horrifying either

966

00:39:24,320 --> 00:39:22,500

one but it's just to point out that

967

00:39:25,880 --> 00:39:24,330

there have been cases and Kim maybe you

968

00:39:28,220 --> 00:39:25,890

can talk about that settled in court

969

00:39:30,859 --> 00:39:28,230

where death has been rooms as caused by

970

00:39:32,870 --> 00:39:30,869

the vaccine sure and I just wanted to

971

00:39:35,660 --> 00:39:32,880

also go back to something Ilene said

972

00:39:38,300 --> 00:39:35,670

about the passiveness of the ver system

973

00:39:40,520 --> 00:39:38,310

and the underreporting there was a study

974

00:39:42,950 --> 00:39:40,530

done that the US Department of Health

975

00:39:46,670 --> 00:39:42,960

and Human Services commissioned by the

976  
00:39:48,770 --> 00:39:46,680  
Harvard Pilgrim group and they found

977  
00:39:50,120 --> 00:39:48,780  
that approximately 1 percent of injuries

978  
00:39:53,450 --> 00:39:50,130  
were reported to bears that the

979  
00:39:55,640 --> 00:39:53,460  
underreporting is really severe and when

980  
00:39:57,380 --> 00:39:55,650  
they went back to CDC to try to get more

981  
00:39:59,570 --> 00:39:57,390  
information and to flesh this out

982  
00:40:01,760 --> 00:39:59,580  
further CDC stopped returning their

983  
00:40:03,530 --> 00:40:01,770  
phone calls so they were essentially

984  
00:40:04,910 --> 00:40:03,540  
shut down but they did some good study

985  
00:40:07,099 --> 00:40:04,920  
and some good data and this is again

986  
00:40:10,820 --> 00:40:07,109  
very mainstream sources saying you know

987  
00:40:14,030 --> 00:40:10,830  
these injuries the 65,000 66,000 HPV

988  
00:40:16,730 --> 00:40:14,040

injuries reported to bears are literally

989

00:40:19,250 --> 00:40:16,740

a tiny fraction of the potential

990

00:40:21,590 --> 00:40:19,260

injuries that are out there and there

991

00:40:24,020 --> 00:40:21,600

have been cases that have been settled

992

00:40:26,570 --> 00:40:24,030

or have been compensated in the vaccine

993

00:40:29,510 --> 00:40:26,580

injury compensation program for very

994

00:40:32,480 --> 00:40:29,520

serious injuries and for death and in

995

00:40:35,570 --> 00:40:32,490

the United States many people don't know

996

00:40:38,300 --> 00:40:35,580

that you cannot sue the vaccine

997

00:40:40,790 --> 00:40:38,310

manufacturer in a regular court of law

998

00:40:44,660 --> 00:40:40,800

if you've been injured by a vaccine if

999

00:40:47,359 --> 00:40:44,670

I've been injured in my car I'm in an

1000

00:40:49,160 --> 00:40:47,369

accident my seat belt fails I can sue

1001  
00:40:50,330 --> 00:40:49,170  
the manufacturer of my car and the you

1002  
00:40:51,500 --> 00:40:50,340  
know probably the manufacturer of the

1003  
00:40:54,500 --> 00:40:51,510  
seat belt and all kinds of other things

1004  
00:40:57,560 --> 00:40:54,510  
if I have a vaccine injury

1005  
00:41:00,200 --> 00:40:57,570  
I can't sue the manufacturer I can't

1006  
00:41:02,630 --> 00:41:00,210  
zoom work I can't sue Glaxo what I can

1007  
00:41:03,890 --> 00:41:02,640  
do is bring a claim

1008  
00:41:05,450 --> 00:41:03,900  
in what's called the vaccine injury

1009  
00:41:08,420 --> 00:41:05,460  
compensation program which has been

1010  
00:41:10,580 --> 00:41:08,430  
around since 1986 and it was put in

1011  
00:41:12,800 --> 00:41:10,590  
place at a time when there were

1012  
00:41:15,620 --> 00:41:12,810  
significant legal claims against vaccine

1013  
00:41:18,170 --> 00:41:15,630

manufacturers for injuries surrounding

1014

00:41:20,060 --> 00:41:18,180

primarily the diphtheria tetanus

1015

00:41:23,060 --> 00:41:20,070

pertussis shot that was made with

1016

00:41:24,710 --> 00:41:23,070

whole-cell pertussis and there were

1017

00:41:26,090 --> 00:41:24,720

threats by the vaccine manufacturers

1018

00:41:28,730 --> 00:41:26,100

that they couldn't survive this they

1019

00:41:30,950 --> 00:41:28,740

would stop manufacturing vaccines and so

1020

00:41:33,830 --> 00:41:30,960

the Compensation Act was put into place

1021

00:41:37,370 --> 00:41:33,840

and it shields the manufacturers from

1022

00:41:38,870 --> 00:41:37,380

liability so when you as a person or as

1023

00:41:41,510 --> 00:41:38,880

a family member of a person who's been

1024

00:41:43,700 --> 00:41:41,520

injured makes a claim you're not making

1025

00:41:45,860 --> 00:41:43,710

that claim against the manufacturer you

1026

00:41:47,180 --> 00:41:45,870

are making the claim against the US

1027

00:41:50,540 --> 00:41:47,190

Department of Health and Human Services

1028

00:41:53,150 --> 00:41:50,550

that is the respondent in the program

1029

00:41:55,760 --> 00:41:53,160

it's a program where you don't get any

1030

00:41:57,260 --> 00:41:55,770

discovery let alone any discovery from

1031

00:42:00,400 --> 00:41:57,270

the manufacturer who would be a third

1032

00:42:03,950 --> 00:42:00,410

party at that point it was meant to be a

1033

00:42:05,600 --> 00:42:03,960

non-confrontational means of resolving

1034

00:42:08,570 --> 00:42:05,610

disputes and it really has turned into a

1035

00:42:10,580 --> 00:42:08,580

much more confrontational program it is

1036

00:42:13,490 --> 00:42:10,590

not a quick resolution it can take many

1037

00:42:15,500 --> 00:42:13,500

years we tell the story of Christina to

1038

00:42:19,060 --> 00:42:15,510

her cell and her mother Emily in the

1039

00:42:21,800 --> 00:42:19,070

book Emily had taken Christina who was a

1040

00:42:23,960 --> 00:42:21,810

brilliant scholar an incredibly talented

1041

00:42:26,420 --> 00:42:23,970

artist we have some beautiful photos in

1042

00:42:28,010 --> 00:42:26,430

the book of our work that she done and a

1043

00:42:30,080 --> 00:42:28,020

competitive tennis player she was a

1044

00:42:32,330 --> 00:42:30,090

student at bard University here in New

1045

00:42:34,580 --> 00:42:32,340

York State the family you know she'd

1046

00:42:37,130 --> 00:42:34,590

taken her to get the vaccine talked to

1047

00:42:39,770 --> 00:42:37,140

the gynecologists about it Emily's own

1048

00:42:41,360 --> 00:42:39,780

sister had passed away from uterine

1049

00:42:45,580 --> 00:42:41,370

cancer and so was concerned about

1050

00:42:50,390 --> 00:42:45,590

reproductive cancers got the vaccine and

1051  
00:42:52,820 --> 00:42:50,400  
after I believe the third dose Emily got

1052  
00:42:54,320 --> 00:42:52,830  
a knock that no parent wants on her door

1053  
00:42:56,090 --> 00:42:54,330  
in the middle of the night a couple of

1054  
00:42:59,510 --> 00:42:56,100  
weeks after Chris had gotten her shot

1055  
00:43:02,240 --> 00:42:59,520  
and had gone back to school it was

1056  
00:43:04,080 --> 00:43:02,250  
police officers telling her that Chris

1057  
00:43:08,520 --> 00:43:04,090  
had been found

1058  
00:43:10,860 --> 00:43:08,530  
in her bed and had passed away and it

1059  
00:43:15,330 --> 00:43:10,870  
turned out that she had passed away from

1060  
00:43:17,070 --> 00:43:15,340  
a cardiac issue and Emily filed in the

1061  
00:43:20,100 --> 00:43:17,080  
compensation program she was denied

1062  
00:43:21,720 --> 00:43:20,110  
initially she took that case up on

1063  
00:43:24,870 --> 00:43:21,730

appeal to the federal court of claims

1064

00:43:26,550 --> 00:43:24,880

which overturned the denial it went back

1065

00:43:28,530 --> 00:43:26,560

to the compensation program for

1066

00:43:30,390 --> 00:43:28,540

reconsideration under the standards that

1067

00:43:31,980 --> 00:43:30,400

the court of claims set forth as the

1068

00:43:33,930 --> 00:43:31,990

appropriate standards and she was

1069

00:43:36,240 --> 00:43:33,940

compensated but in the compensation

1070

00:43:38,730 --> 00:43:36,250

program it's cold comfort for a family

1071

00:43:41,190 --> 00:43:38,740

who's lost a child because life is

1072

00:43:43,410 --> 00:43:41,200

valued at \$250,000 in that program

1073

00:43:46,590 --> 00:43:43,420

that's the cap on what a parent can

1074

00:43:49,230 --> 00:43:46,600

receive a person who is still living and

1075

00:43:50,910 --> 00:43:49,240

severely injured the awards can be tens

1076  
00:43:52,500 --> 00:43:50,920  
of millions of dollars depending on the

1077  
00:43:54,750 --> 00:43:52,510  
injuries and the annuities that are put

1078  
00:43:57,000 --> 00:43:54,760  
in place to cover that person's care and

1079  
00:43:59,010 --> 00:43:57,010  
we see there was just a recent decision

1080  
00:44:02,310 --> 00:43:59,020  
that came down from a young woman who

1081  
00:44:04,830 --> 00:44:02,320  
again had been a vibrant healthy active

1082  
00:44:07,290 --> 00:44:04,840  
young woman received one injection of

1083  
00:44:09,690 --> 00:44:07,300  
the vaccine and developed a multiple

1084  
00:44:12,390 --> 00:44:09,700  
sclerosis like autoimmune denial eating

1085  
00:44:16,110 --> 00:44:12,400  
disorder and is in a wheelchair and will

1086  
00:44:19,170 --> 00:44:16,120  
require lifelong care so there are

1087  
00:44:21,320 --> 00:44:19,180  
really serious injuries that are being

1088  
00:44:24,270 --> 00:44:21,330

compensated are being settled and

1089

00:44:28,230 --> 00:44:24,280

tragically there are deaths Chris

1090

00:44:30,840 --> 00:44:28,240

carsales is not the only case yes it is

1091

00:44:33,330 --> 00:44:30,850

quite sad and injuries are bad enough

1092

00:44:35,940 --> 00:44:33,340

but is there more to say about how

1093

00:44:39,420 --> 00:44:35,950

fertility is affected I know they didn't

1094

00:44:42,660 --> 00:44:39,430

test fertility in humans only in rats

1095

00:44:44,760 --> 00:44:42,670

with the initial clinical trials but do

1096

00:44:47,850 --> 00:44:44,770

we have any better data now or better

1097

00:44:51,060 --> 00:44:47,860

idea of how fertility is affected by

1098

00:44:54,210 --> 00:44:51,070

this vaccine well I'll start with that

1099

00:44:56,970 --> 00:44:54,220

Greg it's a delicate issue because this

1100

00:44:59,610 --> 00:44:56,980

vaccine is aimed at a virus of the

1101  
00:45:02,820 --> 00:44:59,620  
cervix and to suggest that this would

1102  
00:45:06,030 --> 00:45:02,830  
cause a fertility issue is frightening

1103  
00:45:07,530 --> 00:45:06,040  
and nobody would believe it right but we

1104  
00:45:09,180 --> 00:45:07,540  
did see from those new medical

1105  
00:45:11,430 --> 00:45:09,190  
conditions that we spoke of earlier that

1106  
00:45:12,960 --> 00:45:11,440  
10 or 12 percent of both sides both the

1107  
00:45:17,040 --> 00:45:12,970  
vaccine and the faceva

1108  
00:45:17,609 --> 00:45:17,050  
arm reported new reproductive disorders

1109  
00:45:25,950 --> 00:45:17,619  
so

1110  
00:45:28,799 --> 00:45:25,960  
when you look at the clinical trials the

1111  
00:45:30,269 --> 00:45:28,809  
data for let's say pregnancy that would

1112  
00:45:33,509 --> 00:45:30,279  
be where you would see an effect on

1113  
00:45:37,109 --> 00:45:33,519

fertility and it was reported by mark

1114

00:45:38,960 --> 00:45:37,119

that 27 percent of women who became

1115

00:45:40,170 --> 00:45:38,970

pregnant after receiving the vaccine

1116

00:45:43,230 --> 00:45:40,180

miscarried

1117

00:45:45,210 --> 00:45:43,240

now that was passed off by Merck to the

1118

00:45:47,549 --> 00:45:45,220

FDA as oh it's the same as background

1119

00:45:49,650 --> 00:45:47,559

rates and alarm bells should have been

1120

00:45:51,749 --> 00:45:49,660

going off at the FDA because these were

1121

00:45:54,989 --> 00:45:51,759

women like we said before were young

1122

00:45:57,059 --> 00:45:54,999

women the average age was 20 and if they

1123

00:45:59,009 --> 00:45:57,069

inadvertently got pregnant after the

1124

00:46:01,380 --> 00:45:59,019

vaccine a normal

1125

00:46:04,499 --> 00:46:01,390

miscarriage rate in that age group is 10

1126  
00:46:06,569 --> 00:46:04,509  
to 15% and some studies showed even

1127  
00:46:09,120 --> 00:46:06,579  
lower we found a study from around that

1128  
00:46:11,970 --> 00:46:09,130  
time published in 1998 from a Danish

1129  
00:46:15,480 --> 00:46:11,980  
registry in Europe that put the rate at

1130  
00:46:17,819 --> 00:46:15,490  
8 to 9% but in the u.s. it's around 10%

1131  
00:46:19,470 --> 00:46:17,829  
so it's pretty consistent and a lot of

1132  
00:46:24,660 --> 00:46:19,480  
the trial participants were from the US

1133  
00:46:26,609 --> 00:46:24,670  
and Europe so if and again pushing it on

1134  
00:46:29,279 --> 00:46:26,619  
to Gardasil 9 a similar rate of

1135  
00:46:31,890 --> 00:46:29,289  
miscarriage was found in the garden so

1136  
00:46:34,349 --> 00:46:31,900  
nine trials which is what girls receive

1137  
00:46:37,799 --> 00:46:34,359  
and boys receive right now and it was

1138  
00:46:40,170 --> 00:46:37,809

even higher in the 24 year old - 26

1139

00:46:42,269 --> 00:46:40,180

year-old age bracket it was 40 percent

1140

00:46:44,190 --> 00:46:42,279

now in the real world you don't see

1141

00:46:47,400 --> 00:46:44,200

miscarriage rates of 40 percent until

1142

00:46:50,430 --> 00:46:47,410

you're over 40 and this is known this is

1143

00:46:52,499 --> 00:46:50,440

not some conspiracy so to think that

1144

00:46:55,109 --> 00:46:52,509

there's an effect on fertility it is

1145

00:46:57,180 --> 00:46:55,119

shocking but we did also look at a study

1146

00:46:59,430 --> 00:46:57,190

from Stanford and I'll come to the CDC

1147

00:47:02,130 --> 00:46:59,440

perspective in a second there was a

1148

00:47:05,069 --> 00:47:02,140

study in Stanford a Stanford Clinic that

1149

00:47:09,120 --> 00:47:05,079

looked at premature ovarian failure in

1150

00:47:11,279 --> 00:47:09,130

teens it was before 2006 unheard of they

1151

00:47:13,769 --> 00:47:11,289

decided to look at their clinic and a

1152

00:47:16,979 --> 00:47:13,779

k-series study of their cases in the

1153

00:47:18,720 --> 00:47:16,989

clinic because they had seen cases come

1154

00:47:21,089 --> 00:47:18,730

in and they were shocked these doctors

1155

00:47:23,329 --> 00:47:21,099

were kind of shocked and they looked at

1156

00:47:28,620 --> 00:47:23,339

all cases of primary ovarian failure

1157

00:47:30,990 --> 00:47:28,630

since 1998 and they found 15 cases and

1158

00:47:32,490 --> 00:47:31,000

14 were since 2006 with

1159

00:47:35,340 --> 00:47:32,500

just the year the vaccine was approved

1160

00:47:36,960 --> 00:47:35,350

of course they did not associate these

1161

00:47:39,570 --> 00:47:36,970

cases with the vaccine nor did they

1162

00:47:41,040 --> 00:47:39,580

study it but they did say that it could

1163

00:47:42,990 --> 00:47:41,050

be an environmental factor

1164

00:47:45,240 --> 00:47:43,000

these were idiopathic cases in other

1165

00:47:47,220 --> 00:47:45,250

words there's no known cause there are

1166

00:47:49,350 --> 00:47:47,230

other cases where a cause is known but

1167

00:47:52,590 --> 00:47:49,360

these were cases of idiopathic primary

1168

00:47:54,750 --> 00:47:52,600

variant failure the CDC decided to do

1169

00:47:56,190 --> 00:47:54,760

their own study a few months ago and

1170

00:47:58,200 --> 00:47:56,200

this would be something that doctors may

1171

00:48:01,860 --> 00:47:58,210

mention in response to that but they

1172

00:48:03,810 --> 00:48:01,870

looked at cases since 2006 and didn't go

1173

00:48:06,180 --> 00:48:03,820

back prior to when the vaccine was on

1174

00:48:08,370 --> 00:48:06,190

the market so this is a whitewash of a

1175

00:48:11,190 --> 00:48:08,380

study basically just to calm everyone

1176  
00:48:13,350 --> 00:48:11,200  
down I think and they did find 46 cases

1177  
00:48:15,330 --> 00:48:13,360  
and maintained that that was not

1178  
00:48:18,090 --> 00:48:15,340  
statistically significant and you have

1179  
00:48:20,790 --> 00:48:18,100  
to ask statistically significant to whom

1180  
00:48:22,650 --> 00:48:20,800  
to those 46 children who developed

1181  
00:48:24,930 --> 00:48:22,660  
idiopathic cases the primary ovarian

1182  
00:48:27,660 --> 00:48:24,940  
failure following a vaccine but they

1183  
00:48:29,160 --> 00:48:27,670  
compared children who got Gardasil to

1184  
00:48:31,680 --> 00:48:29,170  
children who got other aluminum

1185  
00:48:33,510 --> 00:48:31,690  
containing vaccines at the same age this

1186  
00:48:36,270 --> 00:48:33,520  
12-year old age so this is really

1187  
00:48:39,090 --> 00:48:36,280  
preposterous the way that they churn out

1188  
00:48:42,210 --> 00:48:39,100

studies in response to scandals as if to

1189

00:48:45,360 --> 00:48:42,220

head off the rumor at the past this is

1190

00:48:47,850 --> 00:48:45,370

what is continually done in order to put

1191

00:48:50,940 --> 00:48:47,860

these rumors to bed and if anyone with

1192

00:48:52,860 --> 00:48:50,950

any semblance of common sense read that

1193

00:48:56,190 --> 00:48:52,870

study they would say but why did you not

1194

00:48:58,050 --> 00:48:56,200

go back to 1996 for example and see what

1195

00:49:00,150 --> 00:48:58,060

primary ovarian failure rates were like

1196

00:49:01,710 --> 00:49:00,160

back then just ten years before the

1197

00:49:05,490 --> 00:49:01,720

vaccine and that's not done and it's

1198

00:49:07,650 --> 00:49:05,500

pretty basic and so you know all we have

1199

00:49:09,060 --> 00:49:07,660

to go by is look at the book and look at

1200

00:49:11,280 --> 00:49:09,070

the chapter that we talked about on

1201  
00:49:13,620 --> 00:49:11,290  
fertility there are two ingredients in

1202  
00:49:16,890 --> 00:49:13,630  
the vaccine that you know are associated

1203  
00:49:18,870 --> 00:49:16,900  
with infertility in rats and we tend to

1204  
00:49:21,210 --> 00:49:18,880  
laugh when we say well they only studied

1205  
00:49:23,520 --> 00:49:21,220  
the vaccine on rats they couldn't study

1206  
00:49:26,610 --> 00:49:23,530  
it on women of course because it would

1207  
00:49:28,470 --> 00:49:26,620  
be unethical but they didn't variably by

1208  
00:49:30,060 --> 00:49:28,480  
default have pregnant women in the

1209  
00:49:32,780 --> 00:49:30,070  
studies and they had to report on those

1210  
00:49:36,480 --> 00:49:32,790  
findings and you know finally the FDA

1211  
00:49:39,000 --> 00:49:36,490  
accepted that 30 percent miscarriage

1212  
00:49:41,640 --> 00:49:39,010  
rate in women young women is acceptable

1213  
00:49:43,140 --> 00:49:41,650

so we have to ask the question the

1214

00:49:44,470 --> 00:49:43,150

evidence is stacking up and you have

1215

00:49:46,830 --> 00:49:44,480

worldwide

1216

00:49:50,770 --> 00:49:46,840

teen pregnancy rates down by 50% since

1217

00:49:53,530 --> 00:49:50,780

2006 2008 and nobody's asking what

1218

00:49:55,570 --> 00:49:53,540

environmental factors are at play we

1219

00:49:57,700 --> 00:49:55,580

don't think the vaccine is the only

1220

00:49:59,650 --> 00:49:57,710

thing but it could be you know there's

1221

00:50:02,410 --> 00:49:59,660

many other factors social media

1222

00:50:05,470 --> 00:50:02,420

attitudes or you know increased access

1223

00:50:07,599 --> 00:50:05,480

to abortion medication but until

1224

00:50:10,300 --> 00:50:07,609

somebody looks critically and medically

1225

00:50:14,230 --> 00:50:10,310

at these children for an environmental

1226

00:50:15,790 --> 00:50:14,240

factor that's a drug or this vaccine

1227

00:50:18,700 --> 00:50:15,800

that I don't think we can rule it out

1228

00:50:20,710 --> 00:50:18,710

and I'm Greg I will have to leave the

1229

00:50:22,960 --> 00:50:20,720

interview right now but I'm going to

1230

00:50:26,170 --> 00:50:22,970

leave you in the capable hands of Kim

1231

00:50:28,510 --> 00:50:26,180

Mac Rosenberg and I thank you very much

1232

00:50:30,760 --> 00:50:28,520

and I hope to talk to you again soon

1233

00:50:33,550 --> 00:50:30,770

Eileen thanks for being here and for all

1234

00:50:37,359 --> 00:50:33,560

the great information and the great book

1235

00:50:38,800 --> 00:50:37,369

take care thank you so much Kylie just

1236

00:50:40,300 --> 00:50:38,810

to build on what she said a little bit

1237

00:50:43,060 --> 00:50:40,310

about these issues of premature ovarian

1238

00:50:44,800 --> 00:50:43,070

failure and fertility issues it was also

1239

00:50:46,570 --> 00:50:44,810

very concerning to us and again we're

1240

00:50:48,070 --> 00:50:46,580

not doctors and scientists were coming

1241

00:50:52,230 --> 00:50:48,080

at it from sort of investigative

1242

00:50:54,480 --> 00:50:52,240

journalists perspective but by

1243

00:50:57,150 --> 00:50:54,490

choosing the target market of 11 to 12

1244

00:51:00,740 --> 00:50:57,160

year olds let's say 9 to 14 15 year-olds

1245

00:51:03,089 --> 00:51:00,750

you're choosing children who are either

1246

00:51:04,530 --> 00:51:03,099

prepubescent or just entering puberty

1247

00:51:08,520 --> 00:51:04,540

and their bodies are going through

1248

00:51:11,099 --> 00:51:08,530

enormous hormonal changes very different

1249

00:51:14,350 --> 00:51:11,109

than what's happening to a 16 to 26 year

1250

00:51:18,340 --> 00:51:16,450

that needs to be considered an accounted

1251  
00:51:21,430 --> 00:51:18,350  
for and it was tested again on very few

1252  
00:51:23,770 --> 00:51:21,440  
children in that age range and also at

1253  
00:51:26,740 --> 00:51:23,780  
that age you know young women frankly

1254  
00:51:29,340 --> 00:51:26,750  
may not have started menstruating yet or

1255  
00:51:31,990 --> 00:51:29,350  
their periods may not be very regular so

1256  
00:51:35,740 --> 00:51:32,000  
changes and irregularities in that

1257  
00:51:37,750 --> 00:51:35,750  
regard may not be apparent to anyone at

1258  
00:51:40,330 --> 00:51:37,760  
that time if a girl hasn't started

1259  
00:51:42,579 --> 00:51:40,340  
menstruating yet or it's several years

1260  
00:51:44,469 --> 00:51:42,589  
and then

1261  
00:51:48,549 --> 00:51:44,479  
as Eileen said many factors could be at

1262  
00:51:50,709 --> 00:51:48,559  
play but to even consider or take into

1263  
00:51:52,930 --> 00:51:50,719

account the possible role of the vaccine

1264

00:51:56,700 --> 00:51:52,940

if it's not realized till many years

1265

00:51:59,170 --> 00:51:56,710

later that this young woman has perhaps

1266

00:52:01,690 --> 00:51:59,180

primary ovarian failure or some other

1267

00:52:04,989 --> 00:52:01,700

fertility related issues or menstrual

1268

00:52:08,019 --> 00:52:04,999

issues time goes by and you may not even

1269

00:52:09,430 --> 00:52:08,029

recall that she got that vaccine or that

1270

00:52:10,779 --> 00:52:09,440

maybe you noticed things or didn't

1271

00:52:12,339 --> 00:52:10,789

notice things because she was so young

1272

00:52:14,620 --> 00:52:12,349

when she got it they could have an

1273

00:52:16,359 --> 00:52:14,630

impact down the road and again that's

1274

00:52:17,920 --> 00:52:16,369

just a question that we raised because

1275

00:52:21,579 --> 00:52:17,930

we do think it's important to look at

1276

00:52:25,660 --> 00:52:21,589

that and to remember that you know young

1277

00:52:29,319 --> 00:52:25,670

children are very different than older

1278

00:52:31,839 --> 00:52:29,329

teens and young adults and we know that

1279

00:52:32,979 --> 00:52:31,849

for example just looking and Eileen

1280

00:52:36,549 --> 00:52:32,989

touched on this at the immune response

1281

00:52:38,200 --> 00:52:36,559

of the young children compared to the 16

1282

00:52:40,779 --> 00:52:38,210

to 23 year olds in that bridging study

1283

00:52:42,400 --> 00:52:40,789

she talked about the immune responses of

1284

00:52:45,489 --> 00:52:42,410

the younger children the nine to fifteen

1285

00:52:47,319 --> 00:52:45,499

year olds were substantially higher both

1286

00:52:49,719 --> 00:52:47,329

in that half dose of aluminum group and

1287

00:52:53,069 --> 00:52:49,729

the full dose of aluminum group compared

1288

00:52:55,660 --> 00:52:53,079

to sixteen to twenty three year olds and

1289

00:52:57,880 --> 00:52:55,670

that's taken as a good thing that these

1290

00:53:00,940 --> 00:52:57,890

children are having a more robust immune

1291

00:53:02,499 --> 00:53:00,950

response but is it necessarily a good

1292

00:53:04,509 --> 00:53:02,509

thing because with that robust immune

1293

00:53:06,370 --> 00:53:04,519

response can come more negative

1294

00:53:08,849 --> 00:53:06,380

reactions as well because you're priming

1295

00:53:11,950 --> 00:53:08,859

the immune system to fight something

1296

00:53:13,479 --> 00:53:11,960

mm-hmm yes and those are great points

1297

00:53:17,019 --> 00:53:13,489

and that's kind of what stuck out to me

1298

00:53:19,299 --> 00:53:17,029

about giving it to younger girls is

1299

00:53:22,299 --> 00:53:19,309

because if the name of the game is

1300

00:53:25,089 --> 00:53:22,309

obscuring the dangers and the damage

1301

00:53:27,400 --> 00:53:25,099

that were kind of picked up on in some

1302

00:53:29,739 --> 00:53:27,410

of these clinical trials instead of

1303

00:53:32,349 --> 00:53:29,749

confessing and fessing up to those red

1304

00:53:34,630 --> 00:53:32,359

flags you just move the age back because

1305

00:53:37,269 --> 00:53:34,640

obviously as you said the puberty

1306

00:53:39,819 --> 00:53:37,279

process creates all kinds of changes in

1307

00:53:41,650 --> 00:53:39,829

the body so it creates a lot of cover to

1308

00:53:43,329 --> 00:53:41,660

say well that could have been something

1309

00:53:44,410 --> 00:53:43,339

else that could have been a naturally

1310

00:53:46,120 --> 00:53:44,420

occurring we don't know how they were

1311

00:53:48,729 --> 00:53:46,130

going to develop because you're

1312

00:53:50,739 --> 00:53:48,739

injecting them before that happens and

1313

00:53:52,359 --> 00:53:50,749

that's I mean I don't know we can't talk

1314

00:53:54,009 --> 00:53:52,369

about motives but it sounds like a dirty

1315

00:53:56,020 --> 00:53:54,019

trick to me I mean especially when you

1316

00:53:58,870 --> 00:53:56,030

add in the stuff we've already talked to

1317

00:54:01,300 --> 00:53:58,880

and I know we're getting down to it the

1318

00:54:03,940 --> 00:54:01,310

one last thing I wanted to broach here

1319

00:54:07,510 --> 00:54:03,950

was I wanted to touch on this component

1320

00:54:09,220 --> 00:54:07,520

of the book about Vioxx I found this to

1321

00:54:12,970 --> 00:54:09,230

be pretty interesting and telling but

1322

00:54:15,700 --> 00:54:12,980

why is Vioxx important to the Gardasil

1323

00:54:18,730 --> 00:54:15,710

story so Vioxx is important to the

1324

00:54:23,200 --> 00:54:18,740

Gardasil story for a few reasons one is

1325

00:54:27,250 --> 00:54:23,210

that merck was embroiled sort of in the

1326  
00:54:29,260 --> 00:54:27,260  
Vioxx scandal at this time and you know

1327  
00:54:31,930 --> 00:54:29,270  
there's the colloquial sort of inside

1328  
00:54:35,710 --> 00:54:31,940  
joke that HPV stands for help pay for

1329  
00:54:38,530 --> 00:54:35,720  
Vioxx but Merck had to pay substantial

1330  
00:54:41,260 --> 00:54:38,540  
fines as a result of the Vioxx clinical

1331  
00:54:43,330 --> 00:54:41,270  
trial fraud the data showed that Vioxx

1332  
00:54:47,380 --> 00:54:43,340  
was causing very serious health issues

1333  
00:54:49,270 --> 00:54:47,390  
and that data was manipulated and not

1334  
00:54:51,040 --> 00:54:49,280  
disclosed in the manner that it should

1335  
00:54:54,070 --> 00:54:51,050  
have been and as a result that drug was

1336  
00:54:56,230 --> 00:54:54,080  
approved it went to market and hundreds

1337  
00:54:58,080 --> 00:54:56,240  
of thousands of people suffered very

1338  
00:55:01,780 --> 00:54:58,090

very serious injuries

1339

00:55:04,630 --> 00:55:01,790

so that was an expensive proposition for

1340

00:55:07,570 --> 00:55:04,640

Merck so it was important that Merck had

1341

00:55:10,120 --> 00:55:07,580

something on the burner that it could

1342

00:55:14,080 --> 00:55:10,130

bring out and HPV infections are

1343

00:55:16,420 --> 00:55:14,090

something that most people get most

1344

00:55:18,120 --> 00:55:16,430

people never know they have them because

1345

00:55:21,730 --> 00:55:18,130

they tend to be completely asymptomatic

1346

00:55:24,100 --> 00:55:21,740

and as we said earlier over 90% of them

1347

00:55:25,810 --> 00:55:24,110

resolved on their own but you've

1348

00:55:29,620 --> 00:55:25,820

essentially got a market of almost all

1349

00:55:32,830 --> 00:55:29,630

adults in America at that point and in

1350

00:55:34,000 --> 00:55:32,840

other countries for this vaccine and you

1351

00:55:35,440 --> 00:55:34,010

know in the developing world where

1352

00:55:37,840 --> 00:55:35,450

cervical disease and cervical cancer

1353

00:55:40,300 --> 00:55:37,850

death are very very serious issues a

1354

00:55:43,310 --> 00:55:40,310

potential market there as Eileen said it

1355

00:55:45,500 --> 00:55:43,320

really hasn't worked that way

1356

00:55:47,270 --> 00:55:45,510

the countries where the rates are the

1357

00:55:51,980 --> 00:55:47,280

highest tend to not be the countries who

1358

00:55:53,360 --> 00:55:51,990

have programs in place so we could talk

1359

00:55:55,040 --> 00:55:53,370

about that and it's the countries where

1360

00:55:57,290 --> 00:55:55,050

you know like the United States where

1361

00:55:59,180 --> 00:55:57,300

you're at a very low risk of developing

1362

00:56:01,030 --> 00:55:59,190

cervical cancer that you have higher

1363

00:56:04,970 --> 00:56:01,040

uptake and then in countries like

1364

00:56:06,980 --> 00:56:04,980

Australia and the UK and Ireland where

1365

00:56:10,310 --> 00:56:06,990

there are school-based programs uptake

1366

00:56:12,080 --> 00:56:10,320

is even higher almost everyone gets them

1367

00:56:14,780 --> 00:56:12,090

in some of those countries in Ireland

1368

00:56:17,240 --> 00:56:14,790

following a whole series of injuries and

1369

00:56:19,040 --> 00:56:17,250

publicity surrounding those that the

1370

00:56:22,010 --> 00:56:19,050

vaccination rates actually dropped

1371

00:56:24,140 --> 00:56:22,020

significantly but in other countries I

1372

00:56:27,170 --> 00:56:24,150

think Eileen mentioned the UK where you

1373

00:56:30,800 --> 00:56:27,180

know uptake is in the 80 or 90 percent

1374

00:56:34,040 --> 00:56:30,810

range you know you have a huge worldwide

1375

00:56:36,620 --> 00:56:34,050

market for this vaccine because nearly

1376

00:56:43,160 --> 00:56:36,630

everyone will be exposed to HPV in their

1377

00:56:45,320 --> 00:56:43,170

lifetime it's it's it's overwhelming you

1378

00:56:48,020 --> 00:56:45,330

know it's really really sad and I do

1379

00:56:48,620 --> 00:56:48,030

appreciate you spending the two hours

1380

00:56:52,160 --> 00:56:48,630

with me

1381

00:56:54,380 --> 00:56:52,170

big thanks to Eileen as well for being

1382

00:56:55,910 --> 00:56:54,390

here as long as she could it's very sad

1383

00:56:57,830 --> 00:56:55,920

and frustrating this sort of stuff

1384

00:57:00,290 --> 00:56:57,840

happens but you ladies really are

1385

00:57:01,760 --> 00:57:00,300

beacons of light in the darkness and I

1386

00:57:04,610 --> 00:57:01,770

really love that you're out there

1387

00:57:08,120 --> 00:57:04,620

fighting back again the book is amazing

1388

00:57:10,550 --> 00:57:08,130

the HPV vaccine on trial seeking justice

1389

00:57:12,560 --> 00:57:10,560

for a generation betrayed is there

1390

00:57:14,750 --> 00:57:12,570

anything else we should maybe tell

1391

00:57:16,700 --> 00:57:14,760

people about staying informed or

1392

00:57:18,520 --> 00:57:16,710

following any other work you're going to

1393

00:57:19,930 --> 00:57:18,530

be putting out

1394

00:57:22,240 --> 00:57:19,940

well we're still trying to get the word

1395

00:57:24,730 --> 00:57:22,250

out about this one what's in it that's

1396

00:57:26,860 --> 00:57:24,740

uh one thing at a time so we encourage

1397

00:57:29,350 --> 00:57:26,870

people to not only get the book and read

1398

00:57:30,820 --> 00:57:29,360

it for themselves but to buy a copy for

1399

00:57:31,690 --> 00:57:30,830

their doctor because we just know

1400

00:57:38,470 --> 00:57:31,700

anecdotally

1401  
00:57:42,340 --> 00:57:38,480  
in talking to physicians that a lot of

1402  
00:57:44,160 --> 00:57:42,350  
them aren't aware of the flaws for

1403  
00:57:47,740 --> 00:57:44,170  
example in the clinical trial process

1404  
00:57:49,240 --> 00:57:47,750  
with his vaccine in particular you know

1405  
00:57:50,530 --> 00:57:49,250  
we know that sometimes you say to a

1406  
00:57:53,410 --> 00:57:50,540  
doctor well you know there was no

1407  
00:57:54,820 --> 00:57:53,420  
placebo but there was no saline placebo

1408  
00:57:56,470 --> 00:57:54,830  
and they say of course there was there

1409  
00:58:00,100 --> 00:57:56,480  
always saline placebos in the clinical

1410  
00:58:02,380 --> 00:58:00,110  
trials you say well no actually there

1411  
00:58:04,000 --> 00:58:02,390  
weren't and I can show you the documents

1412  
00:58:07,330 --> 00:58:04,010  
from the government and from Merck that

1413  
00:58:09,850 --> 00:58:07,340

show that that's often an opportunity I

1414

00:58:13,120 --> 00:58:09,860

have found and I know others have found

1415

00:58:15,400 --> 00:58:13,130

to really start a conversation because

1416

00:58:20,830 --> 00:58:15,410

something like that is often shocking

1417

00:58:22,960 --> 00:58:20,840

for doctors and they'll say okay what

1418

00:58:26,100 --> 00:58:22,970

else went on in the clinical trial

1419

00:58:32,250 --> 00:58:26,110

tell me more right it opens the door and

1420

00:58:35,140 --> 00:58:32,260

because we relied so much on the

1421

00:58:37,900 --> 00:58:35,150

documents from the FDA and from the EMA

1422

00:58:39,820 --> 00:58:37,910

and the Merck information that's

1423

00:58:42,610 --> 00:58:39,830

incorporated into the clinical reviews

1424

00:58:44,650 --> 00:58:42,620

in the FDA and the memos that Merck

1425

00:58:48,760 --> 00:58:44,660

submitted to FDA in their testimony to

1426  
00:58:51,970 --> 00:58:48,770  
FDA and the underlying science about HPV

1427  
00:58:54,940 --> 00:58:51,980  
infections and cervical disease and

1428  
00:58:57,310 --> 00:58:54,950  
other things from you know doctors the

1429  
00:58:58,960 --> 00:58:57,320  
National Cancer Institute and similar

1430  
00:59:04,420 --> 00:58:58,970  
scientists you know this very mainstream

1431  
00:59:07,540 --> 00:59:04,430  
very credible research that shows the

1432  
00:59:10,180 --> 00:59:07,550  
flaws in this whole process and then you

1433  
00:59:12,400 --> 00:59:10,190  
know the stories that are out there that

1434  
00:59:14,200 --> 00:59:12,410  
show what's happened since the vaccine

1435  
00:59:16,000 --> 00:59:14,210  
has gone to market and since the

1436  
00:59:17,980 --> 00:59:16,010  
marketing campaigns and the school-based

1437  
00:59:20,260 --> 00:59:17,990  
campaigns that are exposing so many kids

1438  
00:59:22,690 --> 00:59:20,270

to these vaccines and then seeing the

1439

00:59:24,460 --> 00:59:22,700

children and young adults who have been

1440

00:59:25,840 --> 00:59:24,470

injured following vaccination

1441

00:59:27,610 --> 00:59:25,850

you know the book is sort of an

1442

00:59:29,380 --> 00:59:27,620

emotional roller coaster to me even in

1443

00:59:31,700 --> 00:59:29,390

writing and rereading it at various

1444

00:59:33,650 --> 00:59:31,710

times yeah you go from the hard

1445

00:59:36,349 --> 00:59:33,660

ion's and these deep dive into aluminum

1446

00:59:39,859 --> 00:59:36,359

and the toll-like receptor agonists and

1447

00:59:42,260 --> 00:59:39,869

clinical trial data to the real world

1448

00:59:44,660 --> 00:59:42,270

stories of what's happening around the

1449

00:59:47,510 --> 00:59:44,670

world in Colombia and Carmen de Bolivar

1450

00:59:50,930 --> 00:59:47,520

were hundreds of girls in one town were

1451  
00:59:52,910 --> 00:59:50,940  
injured by the Gardasil vaccine to India

1452  
00:59:54,410 --> 00:59:52,920  
where those families were not able to

1453  
00:59:56,900 --> 00:59:54,420  
give true informed consent and girls

1454  
00:59:59,329 --> 00:59:56,910  
died in these demonstration projects to

1455  
01:00:03,020 --> 00:59:59,339  
families here around the United States

1456  
01:00:05,839 --> 01:00:03,030  
and elsewhere who have been injured it

1457  
01:00:08,450 --> 01:00:05,849  
brings all that science sort of home in

1458  
01:00:11,240 --> 01:00:08,460  
a very real-world way that I think is

1459  
01:00:14,030 --> 01:00:11,250  
compelling for readers and you know we

1460  
01:00:18,740 --> 01:00:14,040  
know that one of the challenges here

1461  
01:00:20,839 --> 01:00:18,750  
with connecting injury to the vaccine

1462  
01:00:23,000 --> 01:00:20,849  
where it's appropriate to do so is that

1463  
01:00:26,750 --> 01:00:23,010

a lot of doctors don't know how to

1464

01:00:28,520 --> 01:00:26,760

recognize vaccine injury so we also

1465

01:00:30,380 --> 01:00:28,530

point doctors towards some literature

1466

01:00:33,470 --> 01:00:30,390

here so there's literature here the

1467

01:00:36,620 --> 01:00:33,480

doctors can look to again not a doctor

1468

01:00:38,109 --> 01:00:36,630

but we have spoken to doctors and have

1469

01:00:40,400 --> 01:00:38,119

found published peer-reviewed literature

1470

01:00:42,290 --> 01:00:40,410

that talks about what these vaccine

1471

01:00:45,260 --> 01:00:42,300

injuries look like and the mechanisms of

1472

01:00:47,660 --> 01:00:45,270

the injuries and we hope that that will

1473

01:00:49,490 --> 01:00:47,670

be helpful for doctors who are treating

1474

01:00:52,700 --> 01:00:49,500

girls and boys who are coming to them

1475

01:00:54,890 --> 01:00:52,710

with a myriad of unusual symptoms in

1476

01:00:56,839 --> 01:00:54,900

many cases trying to connect the dots

1477

01:00:58,790 --> 01:00:56,849

and figuring out what happened to this

1478

01:01:00,470 --> 01:00:58,800

child and then you know where do you go

1479

01:01:03,410 --> 01:01:00,480

from there and how do you treat them and

1480

01:01:04,940 --> 01:01:03,420

how can you hopefully help to get some

1481

01:01:08,750 --> 01:01:04,950

improvements in their quality of health

1482

01:01:11,020 --> 01:01:08,760

and quality of life going forward well I

1483

01:01:13,910 --> 01:01:11,030

do think it's an amazing book and as a

1484

01:01:15,500 --> 01:01:13,920

quintessential lay man I can't think of

1485

01:01:18,200 --> 01:01:15,510

a way that it could be laid out any

1486

01:01:21,349 --> 01:01:18,210

better it leads even the most skeptical

1487

01:01:25,070 --> 01:01:21,359

to a pretty ironclad case that something

1488

01:01:27,260 --> 01:01:25,080

is not right so Kim and company brave

1489

01:01:30,230 --> 01:01:27,270

and noble stuff you're doing thanks

1490

01:01:32,540 --> 01:01:30,240

again keep it up and continue to do

1491

01:01:36,140 --> 01:01:32,550

great work well thank you very much and

1492

01:01:39,079 --> 01:01:36,150

thank you for having us on you got it

1493

01:01:41,120 --> 01:01:39,089

alright alright higher side shutters I

1494

01:01:43,219 --> 01:01:41,130

hope everybody had a good holiday I hope

1495

01:01:45,799 --> 01:01:43,229

everybody enjoyed bird box and I hope

1496

01:01:48,709 --> 01:01:45,809

you liked today's show it checks a lot

1497

01:01:51,049 --> 01:01:48,719

of boxes for me number one I just think

1498

01:01:53,329 --> 01:01:51,059

it's nice to have a female centric

1499

01:01:55,699 --> 01:01:53,339

medical conspiracy episode right after a

1500

01:01:58,489 --> 01:01:55,709

circumcision episode for the guys just a

1501  
01:02:01,069 --> 01:01:58,499  
nice equilibrium for the month it's also

1502  
01:02:03,289 --> 01:02:01,079  
always a treat to have two guests it

1503  
01:02:05,420 --> 01:02:03,299  
adds a layer of complexity and audio

1504  
01:02:07,670 --> 01:02:05,430  
quality and editing and all that but it

1505  
01:02:09,890 --> 01:02:07,680  
is a little something extra that is nice

1506  
01:02:13,279 --> 01:02:09,900  
to see on THC once in a while so that's

1507  
01:02:15,170 --> 01:02:13,289  
fun and also the caliber of guests they

1508  
01:02:17,809 --> 01:02:15,180  
definitely have done the research and

1509  
01:02:19,819 --> 01:02:17,819  
produced a real ironclad case against

1510  
01:02:22,130 --> 01:02:19,829  
this particular vaccine you know not all

1511  
01:02:24,199 --> 01:02:22,140  
vaccines but definitely this one and

1512  
01:02:26,089 --> 01:02:24,209  
that's kind of what I was trying to say

1513  
01:02:28,640 --> 01:02:26,099

in the beginning about the way this kind

1514

01:02:30,890 --> 01:02:28,650

of information is sometimes presented in

1515

01:02:32,900 --> 01:02:30,900

that over-the-top new world order kind

1516

01:02:34,729 --> 01:02:32,910

of way and I'm not even trying to

1517

01:02:36,319 --> 01:02:34,739

suggest that they don't know what

1518

01:02:38,449 --> 01:02:36,329

they're doing or that's not actually the

1519

01:02:41,630 --> 01:02:38,459

case but it's about tonality and

1520

01:02:43,309 --> 01:02:41,640

convincing new people because lately I

1521

01:02:46,759 --> 01:02:43,319

am of the mindset of trying to increase

1522

01:02:48,979 --> 01:02:46,769

our general numbers and break through

1523

01:02:51,799 --> 01:02:48,989

the false sense of security people get

1524

01:02:54,199 --> 01:02:51,809

in organizations like the CDC or the FDA

1525

01:02:57,469 --> 01:02:54,209

and I've tried to structure this show

1526

01:03:01,789 --> 01:02:57,479

the same sort of way that someone who is

1527

01:03:04,160 --> 01:03:01,799

maybe very Pro vaccine could listen to

1528

01:03:07,400 --> 01:03:04,170

it and we can at least get through to

1529

01:03:09,829 --> 01:03:07,410

them about this one case and if that's

1530

01:03:13,309 --> 01:03:09,839

true I think you have to conclude that

1531

01:03:15,229 --> 01:03:13,319

the whole thing is suspect I also tried

1532

01:03:17,630 --> 01:03:15,239

to ask some pretty deep questions

1533

01:03:19,880 --> 01:03:17,640

related to those wider implications as

1534

01:03:22,609 --> 01:03:19,890

well I think it was in the Plus show

1535

01:03:25,729 --> 01:03:22,619

when it was just me and Kim but I set it

1536

01:03:27,589 --> 01:03:25,739

up as saying these people are not new to

1537

01:03:30,289 --> 01:03:27,599

statistics and gathering data these are

1538

01:03:32,719 --> 01:03:30,299

the world's elite level scientists and

1539

01:03:35,089 --> 01:03:32,729

medical experts and knowing that and

1540

01:03:37,669 --> 01:03:35,099

having gone over the data manipulation

1541

01:03:40,910 --> 01:03:37,679

and obscuration and fraud that

1542

01:03:43,519 --> 01:03:40,920

exists within these trials if we had a

1543

01:03:47,660 --> 01:03:43,529

thought exercise here where a nefarious

1544

01:03:49,920 --> 01:03:47,670

few wanted to poison kill sterilize etc

1545

01:03:52,890 --> 01:03:49,930

an entire population or

1546

01:03:55,200 --> 01:03:52,900

narration yet the world is a big place

1547

01:03:57,359 --> 01:03:55,210

and we have safety testing in place and

1548

01:03:59,309 --> 01:03:57,369

we have this long process with certain

1549

01:04:01,890 --> 01:03:59,319

requirements to get something to market

1550

01:04:03,660 --> 01:04:01,900

hoops that must be gone through before

1551  
01:04:07,770 --> 01:04:03,670  
you can gain access to millions of

1552  
01:04:09,150 --> 01:04:07,780  
people if a nefarious few knew they

1553  
01:04:12,000 --> 01:04:09,160  
would have to navigate that terrain

1554  
01:04:16,200 --> 01:04:12,010  
skillfully when their intention was to

1555  
01:04:19,079 --> 01:04:16,210  
hurt us how might you suspect it would

1556  
01:04:22,319 --> 01:04:19,089  
look different from what we actually see

1557  
01:04:23,880 --> 01:04:22,329  
in this data to me that was my best

1558  
01:04:25,920 --> 01:04:23,890  
question today and again another

1559  
01:04:28,650 --> 01:04:25,930  
parallel to Brendon Murata's

1560  
01:04:30,359 --> 01:04:28,660  
circumcision show in both cases these

1561  
01:04:32,450 --> 01:04:30,369  
are guests that want to stick to the

1562  
01:04:35,579 --> 01:04:32,460  
facts and would rather not get into

1563  
01:04:38,309 --> 01:04:35,589

capstone cabal secret agenda speculation

1564

01:04:41,010 --> 01:04:38,319

territory and I absolutely get that and

1565

01:04:43,620 --> 01:04:41,020

I think it's what they should do I think

1566

01:04:46,559 --> 01:04:43,630

it's better if my role as a host is just

1567

01:04:49,290 --> 01:04:46,569

a tiptoe into those waters because I do

1568

01:04:51,780 --> 01:04:49,300

like these episodes to constantly

1569

01:04:54,450 --> 01:04:51,790

reinforce our worldview in an

1570

01:04:57,120 --> 01:04:54,460

intellectual way and I like to use these

1571

01:04:58,940 --> 01:04:57,130

things to constantly rebuild and

1572

01:05:02,490 --> 01:04:58,950

strengthen our overarching

1573

01:05:04,710 --> 01:05:02,500

conspiratorial perspective that if we

1574

01:05:08,339 --> 01:05:04,720

have all these agencies signing off on

1575

01:05:11,190 --> 01:05:08,349

this dangerous HPV vaccine what does

1576

01:05:12,930 --> 01:05:11,200

that say about their integrity overall

1577

01:05:16,589 --> 01:05:12,940

and what does that say about their

1578

01:05:20,579 --> 01:05:16,599

intentions is it consistent with some of

1579

01:05:22,349 --> 01:05:20,589

the wildest claims about them and if we

1580

01:05:24,240 --> 01:05:22,359

just made the case that these agencies

1581

01:05:26,579 --> 01:05:24,250

and companies can't be trusted at all

1582

01:05:28,200 --> 01:05:26,589

across all the products that they make

1583

01:05:30,020 --> 01:05:28,210

and all the recommendations that they

1584

01:05:33,210 --> 01:05:30,030

make and the testing that they do if

1585

01:05:35,809 --> 01:05:33,220

this is all untrustworthy which i think

1586

01:05:38,370 --> 01:05:35,819

is the case then we're in deep

1587

01:05:40,230 --> 01:05:38,380

conspiracy land because you also have to

1588

01:05:42,900 --> 01:05:40,240

look at why they would have these

1589

01:05:45,120 --> 01:05:42,910

special isolated courts set up why

1590

01:05:48,150 --> 01:05:45,130

Eileen and Kim are able to figure all

1591

01:05:51,180 --> 01:05:48,160

this out and identify these issues and

1592

01:05:53,450 --> 01:05:51,190

our larger system just doesn't just

1593

01:05:56,640 --> 01:05:53,460

can't I don't know

1594

01:05:59,220 --> 01:05:56,650

again how is what is happening in this

1595

01:06:01,289 --> 01:05:59,230

case functionally different then an

1596

01:06:05,490 --> 01:06:01,299

attack on the people which needs to be

1597

01:06:07,530 --> 01:06:05,500

thinly veiled as safe another way of

1598

01:06:10,230 --> 01:06:07,540

getting at this again I think a question

1599

01:06:12,809 --> 01:06:10,240

in the plus show sorry but I said

1600

01:06:14,370 --> 01:06:12,819

something to the effect of I get that

1601  
01:06:16,530 --> 01:06:14,380  
there's a lot of money involved and we

1602  
01:06:19,710 --> 01:06:16,540  
can say that it's greed and general

1603  
01:06:21,630 --> 01:06:19,720  
capitalist corruption okay but that

1604  
01:06:24,510 --> 01:06:21,640  
would be true even if they were

1605  
01:06:27,480 --> 01:06:24,520  
injecting people with something benign

1606  
01:06:30,120 --> 01:06:27,490  
or mundane like saline solution and just

1607  
01:06:32,430 --> 01:06:30,130  
calling it a vaccine anything

1608  
01:06:34,710 --> 01:06:32,440  
ineffective could be a money-making

1609  
01:06:37,680 --> 01:06:34,720  
machine but this isn't just ineffective

1610  
01:06:41,010 --> 01:06:37,690  
it's harmful and deadly it seems to be

1611  
01:06:42,539 --> 01:06:41,020  
crushing fertility rates so I look at

1612  
01:06:44,069 --> 01:06:42,549  
the end results and then I speculate

1613  
01:06:45,720 --> 01:06:44,079

about motive because I think these

1614

01:06:46,289 --> 01:06:45,730

people are getting exactly what they

1615

01:06:48,780 --> 01:06:46,299

want

1616

01:06:51,270 --> 01:06:48,790

like we said world's best scientific

1617

01:06:52,980 --> 01:06:51,280

minds and medical experts they've seen

1618

01:06:55,589 --> 01:06:52,990

the same clinical trials they carried

1619

01:06:57,690 --> 01:06:55,599

him out and they twisted it to hide what

1620

01:07:00,510 --> 01:06:57,700

they knew was gonna happen when they

1621

01:07:02,760 --> 01:07:00,520

mainstreamed this and isn't it funny

1622

01:07:05,579 --> 01:07:02,770

then we don't have any of these stories

1623

01:07:08,430 --> 01:07:05,589

where they say breaking news we just

1624

01:07:10,349 --> 01:07:08,440

found out the HPV vaccine or the flu

1625

01:07:12,960 --> 01:07:10,359

shot is not as effective as we thought

1626

01:07:15,120 --> 01:07:12,970

it was but you will experience and

1627

01:07:17,520 --> 01:07:15,130

overall strengthening of your general

1628

01:07:19,319 --> 01:07:17,530

immune system you should see a 20%

1629

01:07:22,319 --> 01:07:19,329

reduction in stress and you'd have a

1630

01:07:23,010 --> 01:07:22,329

slight lift and cognitive fog etc you

1631

01:07:26,030 --> 01:07:23,020

know what I'm saying

1632

01:07:28,500 --> 01:07:26,040

it's never good side effects ever if

1633

01:07:30,059 --> 01:07:28,510

Merck tried to create a vaccine and

1634

01:07:32,280 --> 01:07:30,069

because of the complexity of these

1635

01:07:33,509 --> 01:07:32,290

things it just wasn't the super defense

1636

01:07:35,039 --> 01:07:33,519

we thought it was

1637

01:07:37,559 --> 01:07:35,049

but it still had some benefits that

1638

01:07:40,499 --> 01:07:37,569

would be one thing but where is that

1639

01:07:42,870 --> 01:07:40,509

example it's like I've said about

1640

01:07:44,159 --> 01:07:42,880

fluoride for a long time okay so you

1641

01:07:45,329 --> 01:07:44,169

don't want to believe that it's poison

1642

01:07:47,399 --> 01:07:45,339

that's fine

1643

01:07:49,439 --> 01:07:47,409

well why just something to strengthen

1644

01:07:51,779 --> 01:07:49,449

teeth why not just put vitamins and

1645

01:07:54,239 --> 01:07:51,789

minerals in the water supply something

1646

01:07:56,279 --> 01:07:54,249

completely non-controversial and

1647

01:07:57,620 --> 01:07:56,289

universally good for the body why not do

1648

01:07:59,720 --> 01:07:57,630

that

1649

01:08:01,340 --> 01:07:59,730

and I'm trying to stay a bit measured

1650

01:08:03,440 --> 01:08:01,350

here I don't want to go full Alex Jones

1651

01:08:05,480 --> 01:08:03,450

I want to maintain the overall tone of

1652

01:08:07,040 --> 01:08:05,490

the guests and maybe just kick it up a

1653

01:08:10,370 --> 01:08:07,050

notch or two without tipping over the

1654

01:08:12,200 --> 01:08:10,380

whole boat but seriously these are the

1655

01:08:13,700 --> 01:08:12,210

ways to get the mental wheels turning

1656

01:08:16,450 --> 01:08:13,710

for people who still aren't there yet

1657

01:08:18,410 --> 01:08:16,460

I'm not trying to paint this as

1658

01:08:20,030 --> 01:08:18,420

conspiracy because it's fun and

1659

01:08:23,390 --> 01:08:20,040

provocative and I just want everyone to

1660

01:08:24,830 --> 01:08:23,400

think like me I'm saying as objectively

1661

01:08:27,260 --> 01:08:24,840

as I can at this point which is a

1662

01:08:31,220 --> 01:08:27,270

struggle I don't know how to see it any

1663

01:08:34,160 --> 01:08:31,230

other way so there it is all good stuff

1664

01:08:35,750 --> 01:08:34,170

that's the show I work hard to try and

1665

01:08:37,970 --> 01:08:35,760

bring you the best if you enjoy it

1666

01:08:40,430 --> 01:08:37,980

please sign up for THC plus and get

1667

01:08:43,610 --> 01:08:40,440

yourself two uninterrupted hours of the

1668

01:08:46,190 --> 01:08:43,620

show in this one the Plus show covered

1669

01:08:48,760 --> 01:08:46,200

some of the latest research on aluminum

1670

01:08:50,900 --> 01:08:48,770

and other adjuvant used in vaccines

1671

01:08:53,240 --> 01:08:50,910

countries who are resisting and

1672

01:08:56,330 --> 01:08:53,250

rejecting the HPV vaccine and their

1673

01:08:58,220 --> 01:08:56,340

individual stories other legal and

1674

01:09:00,650 --> 01:08:58,230

financial elements that demonstrate

1675

01:09:04,040 --> 01:09:00,660

tilted scales and conflicts of interest

1676  
01:09:07,250 --> 01:09:04,050  
and another interesting story of doctor

1677  
01:09:09,170 --> 01:09:07,260  
Lee and his findings on the live HPV

1678  
01:09:11,060 --> 01:09:09,180  
virus in the vaccine despite what was

1679  
01:09:14,870 --> 01:09:11,070  
being said about it and we talked about

1680  
01:09:17,930 --> 01:09:14,880  
GMO DNA in the vaccines and stuff like

1681  
01:09:20,000 --> 01:09:17,940  
that so more than enough to make it

1682  
01:09:22,580 --> 01:09:20,010  
worth it by my standard but we're all

1683  
01:09:24,980 --> 01:09:22,590  
different major thanks to my guests kim

1684  
01:09:27,620 --> 01:09:24,990  
and eileen find them on social media and

1685  
01:09:31,070 --> 01:09:27,630  
tell them thanks one more show for the

1686  
01:09:32,960 --> 01:09:31,080  
year and then in 2019 i'm thinking of

1687  
01:09:35,300 --> 01:09:32,970  
sticking with my plan to change the

1688  
01:09:38,420 --> 01:09:35,310

theme song yearly I think we're gonna

1689

01:09:41,450 --> 01:09:38,430

reinvent the original THC intro and use

1690

01:09:43,670 --> 01:09:41,460

that for a while not sure which one you

1691

01:09:46,280 --> 01:09:43,680

guys really like better my old original

1692

01:09:48,400 --> 01:09:46,290

radio voiceover or this latest song that

1693

01:09:51,460 --> 01:09:48,410

I guess we should call where would we be

1694

01:09:53,450 --> 01:09:51,470

which we've had two versions of now

1695

01:09:55,160 --> 01:09:53,460

obviously this is a very important

1696

01:09:58,400 --> 01:09:55,170

decision that I'm gonna mull over for

1697

01:10:00,190 --> 01:09:58,410

the next five days but I have options so

1698

01:10:02,960 --> 01:10:00,200

maybe let me know which one you'd rather

1699

01:10:05,660 --> 01:10:02,970

have ringing you into the higher side

1700

01:10:07,610 --> 01:10:05,670

before a show because I'm kind of

1701

01:10:09,310 --> 01:10:07,620

curious but either way I do like

1702

01:10:10,870 --> 01:10:09,320

changing it up

1703

01:10:13,090 --> 01:10:10,880

and that said I'm gonna get out of here

1704

01:10:16,060 --> 01:10:13,100

seems like we made a pretty complete

1705

01:10:18,730 --> 01:10:16,070

case today so I did my part

1706

01:10:22,090 --> 01:10:18,740

your move Medical miscreants scientist

1707

01:10:28,930 --> 01:10:22,100

sleaze balls and harm doing doctors your

1708

01:10:29,920 --> 01:10:28,940

if it's alright I'll keep my

1709

01:10:33,010 --> 01:10:29,930

refuge

1710

01:10:35,950 --> 01:10:33,020

I would seem it a bigger things and have

1711

01:10:43,780 --> 01:10:35,960

to leave my old life behind got a

1712

01:10:46,020 --> 01:10:43,790

transfer to the built a box builder now

1713

01:10:58,480 --> 01:10:46,030

you'll find me in the bunker

1714

01:11:04,520 --> 01:11:01,459

take it

1715

01:11:07,170 --> 01:11:04,530

in the manga welcome

1716

01:11:16,050 --> 01:11:07,180

[Music]

1717

01:11:18,900 --> 01:11:16,060

find me in a bunker banka banka yeah the

1718

01:11:21,840 --> 01:11:18,910

last thing a li classes while the

1719

01:11:27,210 --> 01:11:21,850

screaming on the masses who do you think

1720

01:11:30,240 --> 01:11:27,220

they are fancy see you Lana say God tell

1721

01:11:31,680 --> 01:11:30,250

you the basics they print your money got

1722

01:11:35,220 --> 01:11:31,690

the Fed in your head

1723

01:11:38,200 --> 01:11:35,230

currency now the smiling under cage me

1724

01:11:52,640 --> 01:11:38,210

how this happened how you don't see

1725

01:11:52,650 --> 01:11:56,550

radial engine

1726

01:11:56,560 --> 01:12:01,220

[Music]

1727

01:12:07,320 --> 01:12:04,830

plans are simple the best protection of

1728

01:12:09,120 --> 01:12:07,330

all is the special shelter built

1729

01:12:11,990 --> 01:12:09,130

according to specifications of your

1730

01:12:14,090 --> 01:12:12,000

local civil defense organization

1731

01:12:16,400 --> 01:12:14,100

the basement of any house or building

1732

01:12:18,620 --> 01:12:16,410

will become a good to improvise shelters

1733

01:12:22,250 --> 01:12:18,630

if you block the windows with the same

1734

01:12:27,080 --> 01:12:22,260

thing if you don't have sandbags just

1735

01:12:29,190 --> 01:12:27,090

what can you do take it under you'll

1736

01:12:35,610 --> 01:12:29,200

find me in the bunker bunker

1737

01:13:01,620 --> 01:12:35,620

[Music]
