action-packed and commercial free which

27
00:01:08,760 --> 00:01:02,430
means you'll unfortunately never hear my

28
00:01:14,039 --> 00:01:11,910
in the 1930s President Franklin Delano

29
00:01:16,620 --> 00:01:14,049
Roosevelt addressed the nation through a

30
00:01:19,560 --> 00:01:16,630
series of radio broadcasts known as the

31
00:01:21,539 --> 00:01:19,570
fireside chats his aim was to reassure

32
00:01:23,730 --> 00:01:21,549
the common man that our society would

33
00:01:26,160 --> 00:01:23,740
recover from its troubled times while

34
00:01:29,279 --> 00:01:26,170
we're far from 1930 and I deal with a

35
00:01:31,320 --> 00:01:29,289
different kind of fire a worldly

36
00:01:36,950 --> 00:01:31,330
frustration we offer a fresh

37
00:01:41,249 --> 00:01:39,060
how we doing out there higher side

38
00:01:43,020 --> 00:01:41,259

Cheddar's from sunny San Diego i'm greg

39

00:01:45,510 --> 00:01:43,030

carl wood and you know i can't complain

40

00:01:47,520 --> 00:01:45,520

well as long as i ignore the rampant

41

00:01:49,080 --> 00:01:47,530

corruption deeply rooted in our system

42

00:01:50,550 --> 00:01:49,090

the suppression of truth across many

43

00:01:52,830 --> 00:01:50,560

areas of life and of course the

44

00:01:54,630 --> 00:01:52,840

engineered outrage triggers that trip up

45

00:01:56,899 --> 00:01:54,640

so many people when i wish we could all

46

00:01:59,370 --> 00:01:56,909

just get along but what are you gonna do

47

00:02:01,770 --> 00:01:59,380

despite these things one of my favorite

48

00:02:03,870 --> 00:02:01,780

subject areas lately has been trying to

49

00:02:05,880 --> 00:02:03,880

construct a more accurate model of

50

00:02:08,639 --> 00:02:05,890

reality and earth science and that

51
00:02:10,859 --> 00:02:08,649
picture gets clearer every day after

52
00:02:13,229 --> 00:02:10,869
great conversations with previous guests

53
00:02:15,840 --> 00:02:13,239
like paul Laviolette eric Dollard Erin

54
00:02:18,569 --> 00:02:15,850
Murakami wal thornhill David Talbott and

55
00:02:20,340 --> 00:02:18,579
others we've looked at pieces like the

56
00:02:22,410 --> 00:02:20,350
electric universe model eat their

57
00:02:24,750 --> 00:02:22,420
physics plasma and the power of light

58
00:02:26,819 --> 00:02:24,760
Earth's cycles of catastrophe space

59
00:02:28,830 --> 00:02:26,829
weather and more and when you bring it

60
00:02:30,960 --> 00:02:28,840
all together you start to see the world

61
00:02:32,759 --> 00:02:30,970
with new eyes you can see why the

62
00:02:35,160 --> 00:02:32,769
culture has been steered onto the roads

63
00:02:37,559 --> 00:02:35,170

it's on why certain Sciences and

64

00:02:39,630 --> 00:02:37,569

scientists have been suppressed and why

65

00:02:41,640 --> 00:02:39,640

we're not encouraged to deeply explore

66

00:02:44,309 --> 00:02:41,650

the structures and stories of ancient

67

00:02:45,840 --> 00:02:44,319

civilizations meanwhile it seems that

68

00:02:48,539 --> 00:02:45,850

the puppet masters of the power pyramid

69

00:02:50,849 --> 00:02:48,549

are taking on this study in private and

70

00:02:53,009 --> 00:02:50,859

quite possibly preparing for a rough

71

00:02:54,500 --> 00:02:53,019

patch in the system SiC you learn Eicher

72

00:02:56,910 --> 00:02:54,510

they'd rather we just not know about

73

00:02:59,129 --> 00:02:56,920

well this all brings me to today's

74

00:03:01,110 --> 00:02:59,139

guests Ben Davidson the dedicated

75

00:03:03,059 --> 00:03:01,120

researcher doing all sorts of things in

76

00:03:06,420 --> 00:03:03,069

these areas he runs websites such as

77

00:03:09,870 --> 00:03:06,430

space weather news.com magnetic reversal

78

00:03:11,879 --> 00:03:09,880

org and quake watch net he's also the

79

00:03:14,009 --> 00:03:11,889

co-founder of the mobile observatory

80

00:03:15,539 --> 00:03:14,019

project and the annual observing the

81

00:03:17,610 --> 00:03:15,549

frontier conference as well as the

82

00:03:19,949 --> 00:03:17,620

author of the weather man's guide to the

83

00:03:21,930 --> 00:03:19,959

Sun and creator of the disaster

84

00:03:23,880 --> 00:03:21,940

prediction smartphone app

85

00:03:26,280 --> 00:03:23,890

on top of all this he's probably best

86

00:03:28,020 --> 00:03:26,290

known by the brand suspicious observers

87

00:03:30,210 --> 00:03:28,030

where he heads an online research

88

00:03:32,130 --> 00:03:30,220

community investigating solar activity

89

00:03:35,160 --> 00:03:32,140

earthquakes astrophysics and weather

90

00:03:38,370 --> 00:03:35,170

which operates a popular YouTube channel

91

00:03:40,410 --> 00:03:38,380

by the same name with over 370 thousand

92

00:03:42,600 --> 00:03:40,420

subscribers where Ben provides daily

93

00:03:44,840 --> 00:03:42,610

space weather updates and so much more

94

00:03:47,100 --> 00:03:44,850

so let's get into it the cosmic

95

00:03:49,320 --> 00:03:47,110

climatologist the earthquake whisperer

96

00:03:52,320 --> 00:03:49,330

and the space weather weatherman himself

97

00:03:54,270 --> 00:03:52,330

then welcome to the higher side that's

98

00:03:55,110 --> 00:03:54,280

probably the best introduction anyone's

99

00:03:59,130 --> 00:03:55,120

ever given me

100

00:04:00,000 --> 00:03:59,140

Wow too kind thank you man and it is a

101

00:04:02,310 --> 00:04:00,010

real pleasure

102

00:04:04,050 --> 00:04:02,320

I think the work you do is super deep

103

00:04:06,180 --> 00:04:04,060

and informative I'm really excited to

104

00:04:07,830 --> 00:04:06,190

have this audience hear from you of

105

00:04:10,080 --> 00:04:07,840

course I tried to do some justice to

106

00:04:11,850 --> 00:04:10,090

your work in that intro there but I

107

00:04:13,140 --> 00:04:11,860

guess tell us a little bit about how you

108

00:04:14,940 --> 00:04:13,150

got on this track because as I

109

00:04:16,890 --> 00:04:14,950

understand it you were content to go the

110

00:04:19,199 --> 00:04:16,900

academic route but when you tried to

111

00:04:21,509 --> 00:04:19,209

incorporate solar activity and Global

112

00:04:24,150 --> 00:04:21,519

electric circuitry into weather models

113

00:04:26,340 --> 00:04:24,160

you kind of ran into trouble right well

114

00:04:29,580 --> 00:04:26,350

I first ran into trouble at the

115

00:04:32,520 --> 00:04:29,590

university level I was going to be a

116

00:04:35,340 --> 00:04:32,530

meteorology major with a business minor

117

00:04:37,230 --> 00:04:35,350

but the papers that were coming out that

118

00:04:39,320 --> 00:04:37,240

were really starting to revolutionize

119

00:04:41,490 --> 00:04:39,330

our understanding of Earth's

120

00:04:43,350 --> 00:04:41,500

electromagnetism specifically something

121

00:04:46,050 --> 00:04:43,360

called the global electric circuit and

122

00:04:48,540 --> 00:04:46,060

how influential it was over the weather

123

00:04:51,780 --> 00:04:48,550

and how influenced it can be by the Sun

124

00:04:53,250 --> 00:04:51,790

and what we call space weather and even

125

00:04:55,950 --> 00:04:53,260

some of the papers that were coming out

126
00:04:57,930 --> 00:04:55,960
of scientists at the University where I

127
00:05:00,240 --> 00:04:57,940
was taking these classes we're not

128
00:05:02,220 --> 00:05:00,250
allowed to be actively integrated into

129
00:05:05,010 --> 00:05:02,230
the models and forecasting as we go

130
00:05:06,600 --> 00:05:05,020
along and it was politely suggested I

131
00:05:09,600 --> 00:05:06,610
find another major I found another

132
00:05:12,480 --> 00:05:09,610
university stuck with business and then

133
00:05:13,950 --> 00:05:12,490
found myself after law school and

134
00:05:16,290 --> 00:05:13,960
realizing that I didn't want to be a

135
00:05:18,060 --> 00:05:16,300
lawyer wish I had known that before I

136
00:05:19,680 --> 00:05:18,070
got to law school but it took an

137
00:05:23,310 --> 00:05:19,690
internship with the Supreme Court of

138
00:05:25,710 --> 00:05:23,320

Ohio and then an internship with a big

139

00:05:28,620 --> 00:05:25,720

corporate firm downtown to realize that

140

00:05:31,409 --> 00:05:28,630

really no side of legal work was going

141

00:05:34,200 --> 00:05:31,419

to be satisfying and so the only other

142

00:05:35,730 --> 00:05:34,210

thing you can really do is research and

143

00:05:38,189 --> 00:05:35,740

due diligence when you've got a lot

144

00:05:40,610 --> 00:05:38,199

greed turns out that a lot of equity

145

00:05:43,589 --> 00:05:40,620

firms called portfolio diversification

146

00:05:46,710 --> 00:05:43,599

their research analysts see as a lack of

147

00:05:49,469 --> 00:05:46,720

focus that causes us to learn and master

148

00:05:51,689 --> 00:05:49,479

a new subject basically every other week

149

00:05:54,059 --> 00:05:51,699

and then apply all the legal and

150

00:05:56,129 --> 00:05:54,069

economic things that we know to it as

151
00:05:59,070 --> 00:05:56,139
well but I found myself in that position

152
00:06:01,650 --> 00:05:59,080
and through having to get back into

153
00:06:04,050 --> 00:06:01,660
chemistry geology and various

154
00:06:08,010 --> 00:06:04,060
technologies I realized that hey I

155
00:06:10,800 --> 00:06:08,020
really do miss science and since what a

156
00:06:12,600 --> 00:06:10,810
due diligence analyst is is that's the

157
00:06:14,070 --> 00:06:12,610
people who have you know tens of

158
00:06:15,960 --> 00:06:14,080
hundreds of millions of dollars they

159
00:06:18,029 --> 00:06:15,970
look to due diligence analysts and they

160
00:06:19,490 --> 00:06:18,039
say is this a good investment you know

161
00:06:21,809 --> 00:06:19,500
what should we do here

162
00:06:23,490 --> 00:06:21,819
turns out the skill set you develop

163
00:06:25,260 --> 00:06:23,500

there combined with what you learn in

164

00:06:27,270 --> 00:06:25,270

law school makes you pretty good at

165

00:06:29,520 --> 00:06:27,280

interdisciplinary research of just about

166

00:06:33,089 --> 00:06:29,530

any kind provided you can understand it

167

00:06:36,360 --> 00:06:33,099

and so I realized that hey why don't I

168

00:06:37,020 --> 00:06:36,370

just have fun making YouTube videos I'll

169

00:06:39,210 --> 00:06:37,030

make it a hobby

170

00:06:41,760 --> 00:06:39,220

except I'll do what I do at work except

171

00:06:43,980 --> 00:06:41,770

for things that I enjoy

172

00:06:46,110 --> 00:06:43,990

and that way it'll be doing the

173

00:06:47,999 --> 00:06:46,120

highest-level but I'll actually like it

174

00:06:49,350 --> 00:06:48,009

before I knew it I looked down there

175

00:06:50,850 --> 00:06:49,360

were a hundred thousand people watching

176

00:06:53,659 --> 00:06:50,860

as you mentioned there's quite a bit

177

00:06:57,779 --> 00:06:53,669

more now a lot of the names on our lists

178

00:07:00,900 --> 00:06:57,789

emails ended in nasa.gov noah gov usgs

179

00:07:03,089 --> 00:07:00,910

gov and various universities so we

180

00:07:06,150 --> 00:07:03,099

decided hey we'll just dive in with both

181

00:07:08,339 --> 00:07:06,160

feet and since then it has been pretty

182

00:07:10,680 --> 00:07:08,349

incredible actually mm-hmm

183

00:07:12,900 --> 00:07:10,690

that is a great summary and your work

184

00:07:14,670 --> 00:07:12,910

can seem a little intimidating for some

185

00:07:16,379 --> 00:07:14,680

people just to jump right into cold

186

00:07:19,170 --> 00:07:16,389

because it is so consistent you're kind

187

00:07:20,850 --> 00:07:19,180

of jumping right into the stream but for

188

00:07:23,189 --> 00:07:20,860

that reason you made a video on how to

189

00:07:25,980 --> 00:07:23,199

introduce suspicious observers to people

190

00:07:27,839 --> 00:07:25,990

and you say the main points are that the

191

00:07:30,510 --> 00:07:27,849

electrical currents can predict

192

00:07:32,790 --> 00:07:30,520

earthquakes examining the flaws in the

193

00:07:34,920 --> 00:07:32,800

standard physics model and that solar

194

00:07:37,290 --> 00:07:34,930

activity affects cyclones and

195

00:07:39,390 --> 00:07:37,300

earthquakes on the earth which is great

196

00:07:41,730 --> 00:07:39,400

because it sort of frames up exactly

197

00:07:43,589 --> 00:07:41,740

where you differ from the conventional

198

00:07:45,779 --> 00:07:43,599

science but maybe you can elaborate on

199

00:07:47,610 --> 00:07:45,789

what you consider your biggest

200

00:07:50,040 --> 00:07:47,620

departures from the mainstream paradigm

201
00:07:52,020 --> 00:07:50,050
when it comes to the body of work that

202
00:07:55,379 --> 00:07:52,030
suspicious observers is really focused

203
00:07:57,959 --> 00:07:55,389
on well you know it's weird because if

204
00:08:00,120 --> 00:07:57,969
you had asked me five years ago when I

205
00:08:01,980 --> 00:08:00,130
started it I would have had a different

206
00:08:03,749 --> 00:08:01,990
answer than right now now would be the

207
00:08:05,459 --> 00:08:03,759
thing that is the most accepted I

208
00:08:07,320 --> 00:08:05,469
suppose that's kind of an interesting

209
00:08:09,719 --> 00:08:07,330
story to get started so the first time

210
00:08:12,839 --> 00:08:09,729
we ever discussed the word electro quake

211
00:08:15,809 --> 00:08:12,849
was in 2012 we had talked about it a

212
00:08:17,339 --> 00:08:15,819
little bit before conceptually in 2011

213
00:08:19,260 --> 00:08:17,349

but after reviewing everything and

214

00:08:20,999 --> 00:08:19,270

realizing exactly what earthquakes were

215

00:08:22,950 --> 00:08:21,009

and how some of them were being

216

00:08:25,469 --> 00:08:22,960

triggered we started talking about

217

00:08:29,040 --> 00:08:25,479

electro quakes and three years after

218

00:08:32,010 --> 00:08:29,050

that in 2015 we published the first

219

00:08:33,329 --> 00:08:32,020

paper on how the solar magnetic fields

220

00:08:35,370 --> 00:08:33,339

that streamed throughout the entire

221

00:08:38,130 --> 00:08:35,380

solar system when they're interacting

222

00:08:40,740 --> 00:08:38,140

with earth we have certain events that

223

00:08:42,870 --> 00:08:40,750

trigger magnitude 8 earthquake s-- my

224

00:08:45,120 --> 00:08:42,880

co-authors were dr. Luo Yin from NASA

225

00:08:47,699 --> 00:08:45,130

and dr. Holloman from the statistics

226

00:08:50,460 --> 00:08:47,709

department of Ohio State at this point

227

00:08:51,960 --> 00:08:50,470

today after that was really just kind of

228

00:08:53,570 --> 00:08:51,970

unthinkable I was surprised the paper

229

00:08:56,269 --> 00:08:53,580

even got out

230

00:08:57,889 --> 00:08:56,279

the seismo electromagnetic satellite has

231

00:09:00,500 --> 00:08:57,899

been launched by China and Italy

232

00:09:03,560 --> 00:09:00,510

specifically looking for pre seismic

233

00:09:06,139 --> 00:09:03,570

electromagnetic signals NASA and ETH

234

00:09:07,880 --> 00:09:06,149

Zurich had scientists team up and

235

00:09:10,579 --> 00:09:07,890

they're working on earthquake prediction

236

00:09:12,940 --> 00:09:10,589

using mostly electromagnetic anomalies

237

00:09:16,190 --> 00:09:12,950

and the american geophysical union

238

00:09:17,860 --> 00:09:16,200

basically the top geophysics group in

239

00:09:20,420 --> 00:09:17,870

the United States and probably the world

240

00:09:22,490 --> 00:09:20,430

who puts out their own books every once

241

00:09:25,100 --> 00:09:22,500

in a while put out a textbook just last

242

00:09:26,840 --> 00:09:25,110

summer called pre earthquake processes

243

00:09:28,970 --> 00:09:26,850

at about 90% of it is about

244

00:09:32,389 --> 00:09:28,980

electromagnetism soap the thing that was

245

00:09:34,970 --> 00:09:32,399

once crazy is now capable of being

246

00:09:35,930 --> 00:09:34,980

taught in schools via this textbook so

247

00:09:38,240 --> 00:09:35,940

that's amazing

248

00:09:40,550 --> 00:09:38,250

it's sort of a similar version of this

249

00:09:42,380 --> 00:09:40,560

story with the weather you know our

250

00:09:45,050 --> 00:09:42,390

student Ferris Wald and this is really

251

00:09:47,030 --> 00:09:45,060

the best way to describe it he was our

252

00:09:48,740 --> 00:09:47,040

first student apparently only one parent

253

00:09:50,210 --> 00:09:48,750

trusted us enough to let us tutor them

254

00:09:52,460 --> 00:09:50,220

but three months later he won the

255

00:09:54,230 --> 00:09:52,470

National Science Championship at the

256

00:09:56,570 --> 00:09:54,240

middle school level and he's now at the

257

00:09:58,730 --> 00:09:56,580

Google World Championships but it's for

258

00:10:00,740 --> 00:09:58,740

the effects of the Sun on the number of

259

00:10:02,329 --> 00:10:00,750

tropical cyclones and that being not

260

00:10:04,430 --> 00:10:02,339

just cyclones but typhoons and

261

00:10:05,900 --> 00:10:04,440

hurricanes as well that are counted

262

00:10:07,190 --> 00:10:05,910

throughout the year

263

00:10:09,019 --> 00:10:07,200

basically there are certain solar

264

00:10:10,100 --> 00:10:09,029

phenomena that will tell you whether

265

00:10:11,690 --> 00:10:10,110

you're going to get more this year

266

00:10:16,020 --> 00:10:11,700

you're going to get less this year and

267

00:10:19,020 --> 00:10:16,030

they remain pretty relative across time

268

00:10:20,340 --> 00:10:19,030

and so in terms of the Sun interacting

269

00:10:22,770 --> 00:10:20,350

with the weather and earthquakes this is

270

00:10:24,420 --> 00:10:22,780

pretty amazing because it seems that

271

00:10:26,550 --> 00:10:24,430

mainstream science and academia are

272

00:10:28,590 --> 00:10:26,560

actually coming around to this although

273

00:10:31,410 --> 00:10:28,600

on the weather side they still run up

274

00:10:33,210 --> 00:10:31,420

against the gigantic 50 billion

275

00:10:36,030 --> 00:10:33,220

dollar-a-year wall known as climate

276

00:10:39,470 --> 00:10:36,040

change and it's unshakeable paradigms

277

00:10:41,940 --> 00:10:39,480

where everything ever is humans fault

278

00:10:43,350 --> 00:10:41,950

but to actually answer your question I

279

00:10:45,960 --> 00:10:43,360

would say that the departure from

280

00:10:49,740 --> 00:10:45,970

mainstream physics is where we currently

281

00:10:52,890 --> 00:10:49,750

are as far away as possible from the

282

00:10:54,540 --> 00:10:52,900

mainstream and this mostly has to do

283

00:10:56,910 --> 00:10:54,550

with whether or not we live in what's

284

00:10:59,580 --> 00:10:56,920

known as the plasma universe which I

285

00:11:01,380 --> 00:10:59,590

would say is the scientifically proper

286

00:11:02,850 --> 00:11:01,390

way to describe what most people think

287

00:11:06,180 --> 00:11:02,860

of as the electric universe or the

288

00:11:08,340 --> 00:11:06,190

magnetic universe and that differs

289

00:11:10,470 --> 00:11:08,350

wholly from the standard model where we

290

00:11:13,100 --> 00:11:10,480

have dark matter and dark energy and

291

00:11:15,570 --> 00:11:13,110

everything's gravitationally dominated

292

00:11:17,820 --> 00:11:15,580

even in this field we're starting to see

293

00:11:20,520 --> 00:11:17,830

that their understanding that magnetic

294

00:11:23,610 --> 00:11:20,530

fields basically dominate the processes

295

00:11:27,540 --> 00:11:23,620

of star formation of molecular clouds

296

00:11:31,140 --> 00:11:27,550

shaping and their filament ation from

297

00:11:34,260 --> 00:11:31,150

themselves but truly we are living in a

298

00:11:36,960 --> 00:11:34,270

world where if you aren't big bang dark

299

00:11:39,780 --> 00:11:36,970

matter dark energy you're nuts according

300

00:11:41,550 --> 00:11:39,790

to them so I would say that the plasma

301
00:11:45,330 --> 00:11:41,560
universe stuff would probably be where

302
00:11:48,090 --> 00:11:45,340
we are where we are most differing but

303
00:11:51,150 --> 00:11:48,100
we're in good company I think while

304
00:11:54,750 --> 00:11:51,160
there are subtle differences from the

305
00:11:56,840 --> 00:11:54,760
plasma universe to what the Thunderbolts

306
00:12:00,930 --> 00:11:56,850
project would call the electric universe

307
00:12:02,820 --> 00:12:00,940
it's a lot of the same stuff same goes

308
00:12:04,680 --> 00:12:02,830
for the original electric universe which

309
00:12:06,540 --> 00:12:04,690
was actually invented by James McCann II

310
00:12:09,450 --> 00:12:06,550
in the 70s a lot of people don't know

311
00:12:11,280 --> 00:12:09,460
that it's name has been appropriated by

312
00:12:14,430 --> 00:12:11,290
others but it was actually James McCann

313
00:12:16,320 --> 00:12:14,440

II in the 70s but in terms of the core

314

00:12:17,910 --> 00:12:16,330

of it the plasma universe boyar we are

315

00:12:20,500 --> 00:12:17,920

you in good company if you start to

316

00:12:23,980 --> 00:12:20,510

think in those ways

317

00:12:25,900 --> 00:12:23,990

Kristian Birkeland he's got currents and

318

00:12:28,990 --> 00:12:25,910

space named after him called berkland

319

00:12:31,200 --> 00:12:29,000

currents Hannes Alfvén Alfvén waves

320

00:12:34,350 --> 00:12:31,210

these are magneto hydrodynamic

321

00:12:37,420 --> 00:12:34,360

interactive electromagnetic waves and

322

00:12:40,690 --> 00:12:37,430

the third would be Anthony Peratt the

323

00:12:43,450 --> 00:12:40,700

guy who basically discovered that all of

324

00:12:47,140 --> 00:12:43,460

these weird petroglyphs were actually

325

00:12:49,990 --> 00:12:47,150

describing plasma discharges he was in

326

00:12:52,660 --> 00:12:50,000

charge of serious nuclear committee in

327

00:12:56,320 --> 00:12:52,670

the country he was one of the top plasma

328

00:12:59,020 --> 00:12:56,330

physicists at Los Alamos National Lab he

329

00:13:01,120 --> 00:12:59,030

was the person who really took berkland

330

00:13:03,430 --> 00:13:01,130

and al fame and brought them together to

331

00:13:06,160 --> 00:13:03,440

really create the plasma universe ideas

332

00:13:08,770 --> 00:13:06,170

in general but still just not very well

333

00:13:11,020 --> 00:13:08,780

accepted to this day there's not as much

334

00:13:13,870 --> 00:13:11,030

money in it there's not as much grant

335

00:13:17,260 --> 00:13:13,880

security in it so it is what it is for

336

00:13:19,930 --> 00:13:17,270

the time being mm-hmm well that's a

337

00:13:22,870 --> 00:13:19,940

great summary and all those people are

338

00:13:24,310 --> 00:13:22,880

highly convincing in their arguments as

339

00:13:26,200 --> 00:13:24,320

far as I've seen and I think that

340

00:13:28,660 --> 00:13:26,210

there's a lot of exciting stuff in this

341

00:13:31,000 --> 00:13:28,670

alternative paradigm and I like how much

342

00:13:33,580 --> 00:13:31,010

steam it is gaining and I'm not entirely

343

00:13:35,590 --> 00:13:33,590

new to your work but it's been going on

344

00:13:37,720 --> 00:13:35,600

a long time and as we mentioned you do

345

00:13:40,260 --> 00:13:37,730

use the global electric circuit and

346

00:13:43,630 --> 00:13:40,270

solar activity to predict or forecast

347

00:13:45,100 --> 00:13:43,640

earthquakes and cyclones can you give

348

00:13:47,170 --> 00:13:45,110

people who maybe aren't familiar with

349

00:13:48,820 --> 00:13:47,180

your work some highlights - some of the

350

00:13:52,150 --> 00:13:48,830

big things that you have gotten right

351

00:13:54,370 --> 00:13:52,160

over the past few years well sure I'll

352

00:13:57,580 --> 00:13:54,380

start with the weather one people who

353

00:14:00,520 --> 00:13:57,590

might remember the run in the fall of

354

00:14:04,720 --> 00:14:00,530

2017 of hurricane Harvey than hurricane

355

00:14:07,180 --> 00:14:04,730

Irma hurricane maria am i missing one in

356

00:14:09,880 --> 00:14:07,190

there i think i might be but these

357

00:14:11,950 --> 00:14:09,890

occurred seemingly out of nowhere they

358

00:14:14,500 --> 00:14:11,960

all popped up in a cooler than average

359

00:14:17,770 --> 00:14:14,510

atlantic ocean basically in the same

360

00:14:20,680 --> 00:14:17,780

spots took similar tracks and we had the

361

00:14:23,020 --> 00:14:20,690

largest solar flare surge in 12 years

362

00:14:24,850 --> 00:14:23,030

and all of the solar flares took place

363

00:14:26,980 --> 00:14:24,860

when that part of the world was right

364

00:14:29,710 --> 00:14:26,990

around noon basically dead facing the

365

00:14:31,930 --> 00:14:29,720

sun and while they were initially

366

00:14:34,450 --> 00:14:31,940

forecasting and the big one here was

367

00:14:37,750 --> 00:14:34,460

Irma they originally forecasted

368

00:14:40,090 --> 00:14:37,760

to Miss Florida to the east cut up

369

00:14:41,710 --> 00:14:40,100

northward first and then either whack

370

00:14:45,790 --> 00:14:41,720

one of the Carolinas or maybe even

371

00:14:48,460 --> 00:14:45,800

Virginia and the sunspot group at that

372

00:14:50,350 --> 00:14:48,470

point was right around dead center on

373

00:14:52,720 --> 00:14:50,360

the Sun so it had at least three or four

374

00:14:55,180 --> 00:14:52,730

more days of pounding these solar flares

375

00:14:57,790 --> 00:14:55,190

it actually continued for five or six

376

00:14:59,170 --> 00:14:57,800

more days but while those solar flares

377

00:15:01,270 --> 00:14:59,180

were going on we knew there was no

378

00:15:02,830 --> 00:15:01,280

chance that this thing was going to take

379

00:15:05,740 --> 00:15:02,840

a turn to the north it had all the

380

00:15:08,170 --> 00:15:05,750

energy it needed to ride along the

381

00:15:10,690 --> 00:15:08,180

equatorial band right where the sunspot

382

00:15:13,360 --> 00:15:10,700

group was and then whenever the sunspot

383

00:15:15,850 --> 00:15:13,370

group sort of electromagnetically lost

384

00:15:17,920 --> 00:15:15,860

its grip on that area of the atmosphere

385

00:15:19,480 --> 00:15:17,930

in the ocean and things like that then

386

00:15:19,990 --> 00:15:19,490

you would begin to see the northward

387

00:15:22,900 --> 00:15:20,000

pull

388

00:15:26,110 --> 00:15:22,910

well that sunspot group stopped firing

389

00:15:27,430 --> 00:15:26,120

at us right as it was south of Florida

390

00:15:31,240 --> 00:15:27,440

and that's when it started to make its

391

00:15:33,280 --> 00:15:31,250

move north it fired one that was so

392

00:15:36,160 --> 00:15:33,290

strong we actually saw the x-ray

393

00:15:38,740 --> 00:15:36,170

explosion from when it was over on the

394

00:15:42,820 --> 00:15:38,750

other side of the Sun just over the edge

395

00:15:45,010 --> 00:15:42,830

so to speak and that was when we got the

396

00:15:48,400 --> 00:15:45,020

slight jostle to Irma's path and the

397

00:15:51,100 --> 00:15:48,410

slight intensification unexpectedly even

398

00:15:53,800 --> 00:15:51,110

though half of it was over land and so

399

00:15:56,380 --> 00:15:53,810

that was really nice to see because we

400

00:15:57,910 --> 00:15:56,390

had looked at papers for years saying

401
00:15:59,020 --> 00:15:57,920
that these are the things you could look

402
00:16:02,530 --> 00:15:59,030
at it was the first time we ever

403
00:16:04,780 --> 00:16:02,540
actually put it into play in the days

404
00:16:06,040 --> 00:16:04,790
whenever the forecast was calling it we

405
00:16:07,690 --> 00:16:06,050
were telling people in the morning news

406
00:16:09,220 --> 00:16:07,700
as long as those solar flares are firing

407
00:16:11,290 --> 00:16:09,230
don't you dare think this thing's going

408
00:16:14,290 --> 00:16:11,300
anything close to north it's going to

409
00:16:17,670 --> 00:16:14,300
ride west as hard and as fast as it

410
00:16:20,380 --> 00:16:17,680
possibly can and that was great to see

411
00:16:23,050 --> 00:16:20,390
now that was exciting for me I think

412
00:16:25,780 --> 00:16:23,060
just about everyone would agree the

413
00:16:27,400 --> 00:16:25,790

earthquake stuff is far cooler and I

414

00:16:30,850 --> 00:16:27,410

don't really have a good argument

415

00:16:33,520 --> 00:16:30,860

against it because using the global

416

00:16:37,210 --> 00:16:33,530

electric circuit to pick out signal

417

00:16:38,650 --> 00:16:37,220

areas above fault zones the risk of

418

00:16:40,900 --> 00:16:38,660

earthquakes is no longer

419

00:16:42,460 --> 00:16:40,910

hey there's fault lines all around the

420

00:16:44,590 --> 00:16:42,470

world an earthquake can happen anytime

421

00:16:47,830 --> 00:16:44,600

we don't really know when or where it's

422

00:16:48,310 --> 00:16:47,840

just sort of random well that's no

423

00:16:49,780 --> 00:16:48,320

longer the

424

00:16:52,240 --> 00:16:49,790

case because these global electric

425

00:16:55,390 --> 00:16:52,250

circuit signals can allow you to reduce

426
00:16:58,960 --> 00:16:55,400
that entire world of fault segments down

427
00:17:01,060 --> 00:16:58,970
to only 10 to 15% of them now sometimes

428
00:17:02,640 --> 00:17:01,070
many of them hold steady for a few days

429
00:17:05,500 --> 00:17:02,650
sometimes they're changing by the hour

430
00:17:07,569 --> 00:17:05,510
rapidly shifting along a fault line but

431
00:17:11,020 --> 00:17:07,579
still using these we can narrow it down

432
00:17:12,910 --> 00:17:11,030
to about 10 to 15% at this point someday

433
00:17:16,900 --> 00:17:12,920
we'd love to get a little narrower on

434
00:17:19,360 --> 00:17:16,910
that but right now in that 10 to 15% 90%

435
00:17:22,900 --> 00:17:19,370
of the magnitude 7 earthquakes since

436
00:17:25,660 --> 00:17:22,910
2016 have occurred within that 10 to 15%

437
00:17:28,360 --> 00:17:25,670
and of course if it is just all random

438
00:17:30,220 --> 00:17:28,370

you would have expected 10 to 15% of the

439

00:17:32,680 --> 00:17:30,230

magnitude 7 and higher earthquakes to

440

00:17:36,430 --> 00:17:32,690

fall within that range but in fact we

441

00:17:39,700 --> 00:17:36,440

are seeing the evidence of these things

442

00:17:41,590 --> 00:17:39,710

really matter and this is why China and

443

00:17:44,350 --> 00:17:41,600

Italy launched the satellite this is why

444

00:17:46,660 --> 00:17:44,360

a team from NASA and a team from eth

445

00:17:48,850 --> 00:17:46,670

zurich teamed up to do this basically if

446

00:17:51,280 --> 00:17:48,860

you take all the actual launching into

447

00:17:52,780 --> 00:17:51,290

space stuff and satellite stuff that

448

00:17:56,500 --> 00:17:52,790

nasa does if you take that away

449

00:17:58,630 --> 00:17:56,510

that's what eth zurich is in germany

450

00:18:00,400 --> 00:17:58,640

basically all the other divisions the

451
00:18:02,980 --> 00:18:00,410
thousands of people working on good

452
00:18:04,810 --> 00:18:02,990
science things like that it's the reason

453
00:18:07,630 --> 00:18:04,820
why they're using electromagnetism to

454
00:18:09,190 --> 00:18:07,640
try to predict earthquakes because it

455
00:18:11,800 --> 00:18:09,200
works and these signals are very very

456
00:18:14,200 --> 00:18:11,810
clear and one of them is what's known as

457
00:18:16,690 --> 00:18:14,210
blood echoes which are deep earthquakes

458
00:18:18,640 --> 00:18:16,700
of requisite magnitude there are

459
00:18:20,290 --> 00:18:18,650
powerful electric currents that run

460
00:18:23,440 --> 00:18:20,300
through an area called the low velocity

461
00:18:26,440 --> 00:18:23,450
zone it's basically somewhere between 70

462
00:18:28,720 --> 00:18:26,450
to 300 kilometers deep depending on

463
00:18:30,270 --> 00:18:28,730

where you are in the world and when you

464

00:18:33,370 --> 00:18:30,280

get earthquakes at these locations

465

00:18:35,530 --> 00:18:33,380

you're talking about partially melted

466

00:18:38,080 --> 00:18:35,540

rock sometimes even liquid rock how does

467

00:18:41,170 --> 00:18:38,090

that have an earthquake exactly well

468

00:18:43,480 --> 00:18:41,180

it's the electromagnetism of it surging

469

00:18:45,490 --> 00:18:43,490

a partially liquid stuff and so you know

470

00:18:47,830 --> 00:18:45,500

that at least beneath the ground there

471

00:18:50,980 --> 00:18:47,840

something electromagnetic is happening

472

00:18:52,960 --> 00:18:50,990

in the atmosphere all of the global

473

00:18:55,480 --> 00:18:52,970

electric circuit up and down energy

474

00:18:57,550 --> 00:18:55,490

comes through pressure cells in high

475

00:18:59,980 --> 00:18:57,560

pressure current is coming from the

476
00:19:02,109 --> 00:18:59,990
ionosphere at the top of the sky down to

477
00:19:04,839 --> 00:19:02,119
the ground and low pressure

478
00:19:07,269 --> 00:19:04,849
current is going back up and you can

479
00:19:08,679 --> 00:19:07,279
usually tell so if you have a

480
00:19:10,629 --> 00:19:08,689
high-pressure cell where you see that

481
00:19:12,849 --> 00:19:10,639
current coming down and you get all

482
00:19:13,539 --> 00:19:12,859
those blood echoes deep you might say

483
00:19:15,969 --> 00:19:13,549
hey wait a minute

484
00:19:18,519 --> 00:19:15,979
at that fault zone at that crack at that

485
00:19:20,289 --> 00:19:18,529
high conductivity area where high

486
00:19:22,839 --> 00:19:20,299
conductivity water is trickling down

487
00:19:25,149 --> 00:19:22,849
through the fall that energy that came

488
00:19:27,729 --> 00:19:25,159

down in the high pressure appears to

489

00:19:30,279 --> 00:19:27,739

have been building and capacities and

490

00:19:32,259 --> 00:19:30,289

down there at the low velocity zone well

491

00:19:33,969 --> 00:19:32,269

when that low pressure cell comes over a

492

00:19:36,009 --> 00:19:33,979

few days later what are the chances it's

493

00:19:37,449 --> 00:19:36,019

gonna pull that energy back out and

494

00:19:40,719 --> 00:19:37,459

we're gonna get a large quake in that

495

00:19:42,369 --> 00:19:40,729

exact location it's that simple it's

496

00:19:43,769 --> 00:19:42,379

knowing what the pressure cells do with

497

00:19:45,699 --> 00:19:43,779

the electricity on the earth and

498

00:19:47,619 --> 00:19:45,709

watching for where its building

499

00:19:50,289 --> 00:19:47,629

underground now there are a couple other

500

00:19:52,139 --> 00:19:50,299

nuances sure but at quake watch net

501
00:19:54,699 --> 00:19:52,149
we've got them all laid out for you and

502
00:19:57,039 --> 00:19:54,709
there are people who are successfully

503
00:20:00,009 --> 00:19:57,049
predicting earthquakes there every

504
00:20:02,139 --> 00:20:00,019
single week it seems we get somebody

505
00:20:04,119 --> 00:20:02,149
predicting a larger magnitude six event

506
00:20:06,369 --> 00:20:04,129
a number of times a year we've had a

507
00:20:08,259 --> 00:20:06,379
couple of people actually predict a

508
00:20:10,569 --> 00:20:08,269
magnitude seven events including a guy

509
00:20:13,389 --> 00:20:10,579
who just does it as a hobby in his spare

510
00:20:14,799 --> 00:20:13,399
time he's a fisherman from California he

511
00:20:16,089 --> 00:20:14,809
just was like hey I'll I'll read this

512
00:20:18,189 --> 00:20:16,099
website I'll try to predict earthquakes

513
00:20:21,009 --> 00:20:18,199

and he nailed a seven pointer I'm like

514

00:20:23,559 --> 00:20:21,019

his third try ever Wow we meet it's

515

00:20:25,859 --> 00:20:23,569

super easy for people so that you could

516

00:20:28,809 --> 00:20:25,869

do it it's fascinating stuff and

517

00:20:32,379 --> 00:20:28,819

congratulations really impressive and

518

00:20:35,499 --> 00:20:32,389

and shows like this you kind of gotta

519

00:20:37,419 --> 00:20:35,509

have some Corrections made to the model

520

00:20:39,849 --> 00:20:37,429

so that people can understand the

521

00:20:41,139 --> 00:20:39,859

mechanisms because it all relates to

522

00:20:43,089 --> 00:20:41,149

each other and I wanted to ask you about

523

00:20:45,099 --> 00:20:43,099

the Sun itself because I've had a lot of

524

00:20:46,989 --> 00:20:45,109

guests who say that on a fundamental

525

00:20:50,079 --> 00:20:46,999

level we're teaching people the wrong

526

00:20:52,599 --> 00:20:50,089

stuff about the Sun it's not a gigantic

527

00:20:54,789 --> 00:20:52,609

nuclear furnace that it's not so much

528

00:20:56,979 --> 00:20:54,799

gas as it is plasma or some have even

529

00:20:58,809 --> 00:20:56,989

said liquid some have even said that it

530

00:21:01,029 --> 00:20:58,819

should be thought of more as a portal to

531

00:21:02,229 --> 00:21:01,039

a dimension of conscious light I don't

532

00:21:04,479 --> 00:21:02,239

know what you're gonna do with that but

533

00:21:08,019 --> 00:21:04,489

how would you describe the Sun as you

534

00:21:11,019 --> 00:21:08,029

understand it well there are some

535

00:21:14,499 --> 00:21:11,029

interesting things here so the Sun has

536

00:21:16,419 --> 00:21:14,509

an 11-year sunspot cycle now not all of

537

00:21:18,969 --> 00:21:16,429

there are 11 years some of them are 10

538

00:21:21,489 --> 00:21:18,979

some are 12 and a half we've had them

539

00:21:25,119 --> 00:21:21,499

that are nine and a half years but every

540

00:21:26,799 --> 00:21:25,129

88 years they do tend to sync up so it

541

00:21:29,049 --> 00:21:26,809

doesn't matter if you've got one that's

542

00:21:31,329 --> 00:21:29,059

nine next one is ten and a half next one

543

00:21:32,859 --> 00:21:31,339

is eleven and a half every 88 years

544

00:21:35,649 --> 00:21:32,869

they're pretty much gonna sync up

545

00:21:37,689 --> 00:21:35,659

perfectly this is what's known as a

546

00:21:40,089 --> 00:21:37,699

synchronizing and a resynchronizing

547

00:21:42,639 --> 00:21:40,099

frequency they are signatures of

548

00:21:46,509 --> 00:21:42,649

computers they are signatures of clocks

549

00:21:49,359 --> 00:21:46,519

what they would also be as a violation

550

00:21:51,369 --> 00:21:49,369

of all nuclear physics for them to be

551
00:21:55,409 --> 00:21:51,379
happening on a giant thermonuclear

552
00:21:58,680 --> 00:21:55,419
engine the Sun exhibits either

553
00:22:02,519 --> 00:21:58,690
intelligence or

554
00:22:04,830 --> 00:22:02,529
an intelligent design and that doesn't

555
00:22:07,469 --> 00:22:04,840
mean that that design and those patterns

556
00:22:08,639 --> 00:22:07,479
and that math wasn't set in place at the

557
00:22:10,139 --> 00:22:08,649
beginning of the universe and then

558
00:22:12,060 --> 00:22:10,149
things just unfold I don't mean to

559
00:22:14,399 --> 00:22:12,070
suggest necessarily that God was out

560
00:22:16,529 --> 00:22:14,409
there sculpting it and programming it

561
00:22:18,869 --> 00:22:16,539
and fine-tuning it with a screwdriver

562
00:22:21,180 --> 00:22:18,879
I just mean this thing's not what we

563
00:22:24,210 --> 00:22:21,190

think it is beyond that there's no bulge

564

00:22:26,700 --> 00:22:24,220

to the Sun there's no sphere we know of

565

00:22:30,779 --> 00:22:26,710

that spins that doesn't have a bulge

566

00:22:33,389 --> 00:22:30,789

like that and this is really suggesting

567

00:22:38,159 --> 00:22:33,399

that the sun's some kind of chronometer

568

00:22:42,690 --> 00:22:38,169

that it's not this random chaotic

569

00:22:44,310 --> 00:22:42,700

nuclear furnace at the center and we see

570

00:22:47,159 --> 00:22:44,320

through its interplanetary magnetic

571

00:22:50,009 --> 00:22:47,169

fields how intimately connected it is

572

00:22:52,489 --> 00:22:50,019

with all the planets and the number of

573

00:22:55,950 --> 00:22:52,499

fantastic papers that have come out

574

00:22:58,649 --> 00:22:55,960

including very recently on Cornell's

575

00:23:01,349 --> 00:22:58,659

archive describing the connection

576

00:23:04,639 --> 00:23:01,359

between planetary orbital patterns and

577

00:23:08,460 --> 00:23:04,649

planetary alignments and solar activity

578

00:23:11,399 --> 00:23:08,470

it's not some minut gravitational thing

579

00:23:13,859 --> 00:23:11,409

this is a resonance frequency standing

580

00:23:16,499 --> 00:23:13,869

wave interaction all the planets and the

581

00:23:17,879 --> 00:23:16,509

Sun put out radio frequencies when you

582

00:23:20,009 --> 00:23:17,889

have them lining up you got the chance

583

00:23:22,499 --> 00:23:20,019

for standing waves not necessarily all

584

00:23:24,570 --> 00:23:22,509

along the line but certainly you know

585

00:23:27,719 --> 00:23:24,580

every three count every twenty count who

586

00:23:29,099 --> 00:23:27,729

knows and so the point is that we have

587

00:23:32,879 --> 00:23:29,109

all this evidence that the sun's not

588

00:23:37,409 --> 00:23:32,889

what we think it is and I think the fact

589

00:23:39,389 --> 00:23:37,419

that it can affect cyclones and

590

00:23:42,139 --> 00:23:39,399

earthquakes and so many other things our

591

00:23:46,440 --> 00:23:42,149

health our technology in these ways

592

00:23:50,310 --> 00:23:46,450

really is indicative of it being much

593

00:23:53,519 --> 00:23:50,320

more connected and I don't know if that

594

00:23:55,469 --> 00:23:53,529

necessarily has to go to a spiritual

595

00:23:59,430 --> 00:23:55,479

level I don't necessarily know that one

596

00:24:01,879 --> 00:23:59,440

could evidentially disprove it but what

597

00:24:04,529 --> 00:24:01,889

I do know is that there are things like

598

00:24:08,039 --> 00:24:04,539

the number of sunspots on your day of

599

00:24:11,470 --> 00:24:08,049

birth being tied to your life expectancy

600

00:24:13,600 --> 00:24:11,480

barring any things like accidents hmm

601
00:24:16,240 --> 00:24:13,610
it makes no sense unless there is some

602
00:24:18,310 --> 00:24:16,250
kind of energy resonance that the Sun

603
00:24:22,120 --> 00:24:18,320
puts out that affects all the living

604
00:24:24,760 --> 00:24:22,130
things around it including heavily when

605
00:24:26,380 --> 00:24:24,770
they enter this realm and how that

606
00:24:29,590 --> 00:24:26,390
basically will dictate things for the

607
00:24:31,450 --> 00:24:29,600
rest of their lives wow man that's

608
00:24:33,130 --> 00:24:31,460
fascinating and I'm right there with you

609
00:24:35,490 --> 00:24:33,140
on the same page I think just saying

610
00:24:38,800 --> 00:24:35,500
that it has an intelligence to it is

611
00:24:40,990 --> 00:24:38,810
probably the broadest way to express it

612
00:24:44,080 --> 00:24:41,000
I mean it is still such a mystery but I

613
00:24:47,620 --> 00:24:44,090

like what you're saying and so a major

614

00:24:50,140 --> 00:24:47,630

reason for me seeking you out right now

615

00:24:52,420 --> 00:24:50,150

is that I'm hearing a lot about the

616

00:24:54,730 --> 00:24:52,430

Earth's magnetic field the poles and

617

00:24:57,580 --> 00:24:54,740

solar activity and that we're seeing

618

00:24:59,470 --> 00:24:57,590

some unusual or heightened measurements

619

00:25:01,330 --> 00:24:59,480

that really need our attention of course

620

00:25:04,090 --> 00:25:01,340

in alternative circles I've heard this

621

00:25:05,470 --> 00:25:04,100

stuff leading up to 2012 and the New Age

622

00:25:08,110 --> 00:25:05,480

community has been talking about

623

00:25:10,510 --> 00:25:08,120

incoming cosmic energy ships for so long

624

00:25:11,920 --> 00:25:10,520

that I kind of stopped listening but

625

00:25:15,250 --> 00:25:11,930

just to read a couple recent

626

00:25:18,160 --> 00:25:15,260

conventional headlines December 7th 2018

627

00:25:19,990 --> 00:25:18,170

physics org Earth's magnetic poles could

628

00:25:23,650 --> 00:25:20,000

start to flip what happens then

629

00:25:25,950 --> 00:25:23,660

February 5th 2019 forbes.com Earth's

630

00:25:29,890 --> 00:25:25,960

magnetic pole has officially moved

631

00:25:32,140 --> 00:25:29,900

January 14 2019 live science calm

632

00:25:35,290 --> 00:25:32,150

Earth's magnetic pole is wandering

633

00:25:38,410 --> 00:25:35,300

towards Siberia I mean you'd be crazy

634

00:25:42,250 --> 00:25:38,420

not to wonder what this is all about but

635

00:25:43,930 --> 00:25:42,260

what's your assessment well the magnetic

636

00:25:47,110 --> 00:25:43,940

poles are in the process of something

637

00:25:50,230 --> 00:25:47,120

they do every few thousand to tens of

638

00:25:52,060 --> 00:25:50,240

thousands of years unfortunately there

639

00:25:54,490 --> 00:25:52,070

are a lot of mass extinctions tied to

640

00:25:57,250 --> 00:25:54,500

this thing unfortunately there is

641

00:25:59,550 --> 00:25:57,260

virtually no chance much technological

642

00:26:02,260 --> 00:25:59,560

if there are any ancient civilizations

643

00:26:06,130 --> 00:26:02,270

nothing technological survived something

644

00:26:07,720 --> 00:26:06,140

like this we are well underway we are

645

00:26:10,240 --> 00:26:07,730

hastening it's going very quickly

646

00:26:10,720 --> 00:26:10,250

although not as quickly as we know of in

647

00:26:13,360 --> 00:26:10,730

the past

648

00:26:15,760 --> 00:26:13,370

if the reversal were to complete today

649

00:26:18,400 --> 00:26:15,770

and the big event were to be all and

650

00:26:21,250 --> 00:26:18,410

done with by midnight tonight we would

651
00:26:24,280 --> 00:26:21,260
still have taken 20 years longer than

652
00:26:28,000 --> 00:26:24,290
the fastest record reversal

653
00:26:30,850 --> 00:26:28,010
so we are qualitatively in the danger

654
00:26:32,500 --> 00:26:30,860
zone already basically the Earth's

655
00:26:35,470 --> 00:26:32,510
magnetic field peaked and strength

656
00:26:37,840 --> 00:26:35,480
approximately 3000 years ago and it

657
00:26:39,970 --> 00:26:37,850
didn't exactly come off the peak too

658
00:26:41,980 --> 00:26:39,980
heavily technically it was coming down

659
00:26:44,230 --> 00:26:41,990
because it was a peak but we're talking

660
00:26:46,750 --> 00:26:44,240
about virtually no difference

661
00:26:50,860 --> 00:26:46,760
like the difference of one refrigerator

662
00:26:55,720 --> 00:26:50,870
magnet over the planet and sometime

663
00:26:58,780 --> 00:26:55,730

around 1600 that became a scientifically

664

00:27:03,940 --> 00:26:58,790

negligible but scientifically noticeable

665

00:27:06,520 --> 00:27:03,950

increase in the magnetic field changed

666

00:27:08,470 --> 00:27:06,530

now we're not talking about the actual

667

00:27:09,820 --> 00:27:08,480

position of the magnetic poles at this

668

00:27:11,830 --> 00:27:09,830

point we're talking about the field

669

00:27:13,810 --> 00:27:11,840

strength

670

00:27:15,880 --> 00:27:13,820

now all this while the magnetic poles

671

00:27:18,430 --> 00:27:15,890

are supposed to meander around the

672

00:27:20,740 --> 00:27:18,440

Arctic and Antarctic circles not

673

00:27:22,210 --> 00:27:20,750

necessarily at the geographic pole in

674

00:27:24,340 --> 00:27:22,220

fact we don't have much evidence of it

675

00:27:26,320 --> 00:27:24,350

actually lining up with our axis of

676

00:27:28,300 --> 00:27:26,330

rotation very often but it meanders

677

00:27:33,280 --> 00:27:28,310

around there a few kilometers every

678

00:27:35,890 --> 00:27:33,290

decade usually always however right

679

00:27:37,810 --> 00:27:35,900

around the 1600s and going back through

680

00:27:40,360 --> 00:27:37,820

the rock and tracking things like this

681

00:27:42,550 --> 00:27:40,370

and starting to get into the 1800s where

682

00:27:44,460 --> 00:27:42,560

navigators were able to use compasses

683

00:27:48,850 --> 00:27:44,470

and make recordings and things like that

684

00:27:50,950 --> 00:27:48,860

they realized that sometime between 1600

685

00:27:54,430 --> 00:27:50,960

and 1800 this thing started to increase

686

00:27:57,610 --> 00:27:54,440

its speed then in the 1800s things

687

00:28:02,160 --> 00:27:57,620

really got interesting because from 1850

688

00:28:04,570 --> 00:28:02,170

to the year 2000 earth lost 10% of its

689

00:28:08,230 --> 00:28:04,580

magnetic field strength a whole 10

690

00:28:10,480 --> 00:28:08,240

percent just gone during that time the

691

00:28:13,150 --> 00:28:10,490

normal few kilometers every decade

692

00:28:16,240 --> 00:28:13,160

motion of the magnetic poles turned into

693

00:28:20,270 --> 00:28:16,250

a few kilometers a year and then dozens

694

00:28:23,720 --> 00:28:20,280

of kilometers a year then in 2010

695

00:28:25,880 --> 00:28:23,730

that 10% lost number was updated to 15%

696

00:28:29,240 --> 00:28:25,890

by the European Space Agency in their

697

00:28:30,770 --> 00:28:29,250

swarm magnetic mission and they

698

00:28:34,370 --> 00:28:30,780

basically said that we've gone from

699

00:28:38,300 --> 00:28:34,380

losing 5% per century to losing 5% per

700

00:28:40,070 --> 00:28:38,310

decade this is scary math for anybody

701

00:28:42,890 --> 00:28:40,080

who can see the writing on the wall

702

00:28:45,410 --> 00:28:42,900

there and the news that we are hearing

703

00:28:47,290 --> 00:28:45,420

right now is the culmination of

704

00:28:51,260 --> 00:28:47,300

something we first reported back in

705

00:28:53,540 --> 00:28:51,270

March of 2018 that the error margin for

706

00:28:56,720 --> 00:28:53,550

the world magnetic model at the North

707

00:28:59,210 --> 00:28:56,730

Pole had way exceeded what they

708

00:29:01,280 --> 00:28:59,220

considered acceptable and they came out

709

00:29:02,750 --> 00:29:01,290

and said as much and they promised they

710

00:29:05,510 --> 00:29:02,760

were gonna do something about it and

711

00:29:08,090 --> 00:29:05,520

that's really what we are finally

712

00:29:10,730 --> 00:29:08,100

getting now 10 months later

713

00:29:14,390 --> 00:29:10,740

almost 11 months later they have made a

714

00:29:16,970 --> 00:29:14,400

tweak retro actively to their 2015 world

715

00:29:20,000 --> 00:29:16,980

magnetic model due to unexpected

716

00:29:21,830 --> 00:29:20,010

movement of the north magnetic pole it's

717

00:29:24,230 --> 00:29:21,840

moving much faster than they thought you

718

00:29:26,090 --> 00:29:24,240

know for the last couple of updates they

719

00:29:27,830 --> 00:29:26,100

have been predicting oh yes we know it's

720

00:29:30,200 --> 00:29:27,840

been moving fast but it's about to slow

721

00:29:32,390 --> 00:29:30,210

down it's about to slow down well this

722

00:29:34,310 --> 00:29:32,400

time it really didn't slow down this

723

00:29:36,980 --> 00:29:34,320

time it kicked it into another gear and

724

00:29:38,840 --> 00:29:36,990

they actually had to come in before the

725

00:29:41,240 --> 00:29:38,850

scheduled time for their next model

726

00:29:42,770 --> 00:29:41,250

release which was gonna be the 2020

727

00:29:44,840 --> 00:29:42,780

model which they always release about a

728

00:29:47,660 --> 00:29:44,850

week early last week of December so it's

729

00:29:50,270 --> 00:29:47,670

like December of this year 2019 we

730

00:29:52,880 --> 00:29:50,280

should get the 2020 world magnetic model

731

00:29:55,390 --> 00:29:52,890

but they just released that tweak here

732

00:30:00,320 --> 00:29:55,400

last week because they had to and

733

00:30:02,060 --> 00:30:00,330

flights GPS military all kinds of things

734

00:30:05,630 --> 00:30:02,070

would not have the correct information

735

00:30:07,490 --> 00:30:05,640

about Earth's magnetic field and maybe

736

00:30:10,580 --> 00:30:07,500

where they were or maybe where their

737

00:30:13,130 --> 00:30:10,590

aircraft or drones were or any number of

738

00:30:16,340 --> 00:30:13,140

other things at that time and so the

739

00:30:20,420 --> 00:30:16,350

situation is hastening in 2015 we did

740

00:30:24,200 --> 00:30:20,430

not get a new percentage update I think

741

00:30:27,470 --> 00:30:24,210

it's not unreasonable to suggest that we

742

00:30:29,480 --> 00:30:27,480

are down by 20 if not 25% and what we

743

00:30:33,440 --> 00:30:29,490

have been doing is we have been using

744

00:30:34,670 --> 00:30:33,450

the space weather magnitude like how big

745

00:30:37,010 --> 00:30:34,680

was the solar flare how

746

00:30:39,260 --> 00:30:37,020

was the geomagnetic storm there taking

747

00:30:41,300 --> 00:30:39,270

that information from decades ago where

748

00:30:43,070 --> 00:30:41,310

we do have it and seeing the kinds of

749

00:30:45,080 --> 00:30:43,080

technological and weather disruptions

750

00:30:47,000 --> 00:30:45,090

that went with it and comparing that to

751
00:30:49,220 --> 00:30:47,010
what we have now and unfortunately what

752
00:30:52,160 --> 00:30:49,230
we're finding is that smaller and

753
00:30:54,020 --> 00:30:52,170
smaller magnitude space weather is able

754
00:30:55,580 --> 00:30:54,030
to cause larger and larger magnitude

755
00:30:57,890 --> 00:30:55,590
effects on earth and this is because

756
00:31:00,380 --> 00:30:57,900
Earth's magnetic shield the

757
00:31:03,020 --> 00:31:00,390
electromagnetic interface with energy

758
00:31:05,480 --> 00:31:03,030
from space is weakening and the only

759
00:31:07,760 --> 00:31:05,490
thing keeping the Sun from having

760
00:31:10,250 --> 00:31:07,770
complete control over the global

761
00:31:13,280 --> 00:31:10,260
electric circuit aka the atmosphere and

762
00:31:16,370 --> 00:31:13,290
over earthquakes is the magnetosphere

763
00:31:18,230 --> 00:31:16,380

and it's disappearing evidence suggest

764

00:31:21,130 --> 00:31:18,240

that it goes down to five to ten percent

765

00:31:23,510 --> 00:31:21,140

at the worst parts of the reversal and

766

00:31:25,640 --> 00:31:23,520

through the weather and through the

767

00:31:27,170 --> 00:31:25,650

earthquakes and probably a little bit

768

00:31:28,880 --> 00:31:27,180

through the volcanoes as well although

769

00:31:30,830 --> 00:31:28,890

those are much more tied to cosmic rays

770

00:31:32,360 --> 00:31:30,840

although as I'm saying that I'm

771

00:31:33,830 --> 00:31:32,370

realizing that five to ten percent of

772

00:31:35,810 --> 00:31:33,840

the magnetosphere down means that the

773

00:31:37,760 --> 00:31:35,820

cosmic rays from the Sun are bombarding

774

00:31:39,230 --> 00:31:37,770

the crust and the mantle as well those

775

00:31:42,410 --> 00:31:39,240

high-energy particles make it all the

776

00:31:45,230 --> 00:31:42,420

way through the atmosphere and so that's

777

00:31:47,180 --> 00:31:45,240

your easy accounting for the mass

778

00:31:48,290 --> 00:31:47,190

extinctions tied up with these events

779

00:31:50,210 --> 00:31:48,300

not to mention the fact that those

780

00:31:54,070 --> 00:31:50,220

particles are bombarding your DNA and

781

00:31:56,360 --> 00:31:54,080

you've got not only the one particle

782

00:31:58,430 --> 00:31:56,370

instantaneous mutation that causes a

783

00:32:02,630 --> 00:31:58,440

tumor or something but you also have

784

00:32:04,940 --> 00:32:02,640

whole body and whole organ yearly and

785

00:32:06,680 --> 00:32:04,950

lifetime radiation dose limits that will

786

00:32:09,710 --> 00:32:06,690

have long term effects and things like

787

00:32:13,090 --> 00:32:09,720

that and so that's really what we're

788

00:32:19,629 --> 00:32:16,419

to make matters worse the other side of

789

00:32:21,610 --> 00:32:19,639

the only good news about this which is

790

00:32:24,430 --> 00:32:21,620

the fact that we all come from survivors

791

00:32:26,320 --> 00:32:24,440

and humans as you know we know them have

792

00:32:28,509 --> 00:32:26,330

probably survived many of these things

793

00:32:30,720 --> 00:32:28,519

over the last seventy thousand years or

794

00:32:34,530 --> 00:32:30,730

so at least

795

00:32:38,750 --> 00:32:34,540

the evidence that we get from them they

796

00:32:41,040 --> 00:32:38,760

all seem to blame the Sun and that's

797

00:32:44,820 --> 00:32:41,050

disconcerting because this thing seems

798

00:32:47,610 --> 00:32:44,830

scary enough without the Sun and yes we

799

00:32:49,860 --> 00:32:47,620

know that our technology is not gonna

800

00:32:52,800 --> 00:32:49,870

survive much once we get even tiny

801
00:32:55,260 --> 00:32:52,810
little EMPs in terms of solar flares and

802
00:32:57,030 --> 00:32:55,270
the cloud particle shock waves which

803
00:32:59,100 --> 00:32:57,040
normally Earth's magnetic field just

804
00:33:00,780 --> 00:32:59,110
deflects perfectly fine you know

805
00:33:03,120 --> 00:33:00,790
sometimes we get some induced currents

806
00:33:04,950 --> 00:33:03,130
in the ground and during the big storms

807
00:33:07,530 --> 00:33:04,960
yeah we see technological events but

808
00:33:09,930 --> 00:33:07,540
when the magnetosphere is down at that

809
00:33:12,800 --> 00:33:09,940
lower level little fluctuations of the

810
00:33:15,180 --> 00:33:12,810
solar wind are global EMP events

811
00:33:15,740 --> 00:33:15,190
atmosphere crust and everything in

812
00:33:20,280 --> 00:33:15,750
between

813
00:33:22,350 --> 00:33:20,290

hmm you gotta wonder exactly what those

814

00:33:24,960 --> 00:33:22,360

ancients because it's not like they had

815

00:33:26,700 --> 00:33:24,970

cellphones it's not like all of their

816

00:33:28,860 --> 00:33:26,710

technology disappeared and then they

817

00:33:30,720 --> 00:33:28,870

started chiseling and a stone and

818

00:33:33,790 --> 00:33:30,730

telling these stories and digging the

819

00:33:35,440 --> 00:33:33,800

tunnels underground and things like that

820

00:33:38,080 --> 00:33:35,450

putting the pieces to this whole thing

821

00:33:41,140 --> 00:33:38,090

together is really not a fun thing to be

822

00:33:45,460 --> 00:33:41,150

doing alright yeah it's a pretty bleak

823

00:33:48,220 --> 00:33:45,470

picture sometimes and you mentioned no

824

00:33:49,690 --> 00:33:48,230

update in 2015 I think it was and that

825

00:33:51,880 --> 00:33:49,700

kind of suggests that maybe they've

826
00:33:54,160 --> 00:33:51,890
stopped volunteering some of their data

827
00:33:56,280 --> 00:33:54,170
because of these concerning numbers is

828
00:33:59,740 --> 00:33:56,290
that something that's in play

829
00:34:02,860 --> 00:33:59,750
possibly and there's always going to be

830
00:34:04,600 --> 00:34:02,870
the people who are dead set on believing

831
00:34:07,060 --> 00:34:04,610
that they're trying to hide something

832
00:34:08,770 --> 00:34:07,070
guilty you know whether or not that's

833
00:34:10,570 --> 00:34:08,780
the case you know I could even see there

834
00:34:12,520 --> 00:34:10,580
being legitimate reasons for hiding

835
00:34:14,590 --> 00:34:12,530
something let's say they got a plan to

836
00:34:17,260 --> 00:34:14,600
save a hundred million people the only

837
00:34:19,450 --> 00:34:17,270
thing is they can't have panic and half

838
00:34:21,879 --> 00:34:19,460

of those people dying in chaos and

839

00:34:25,419 --> 00:34:21,889

looting and riots and they also can't

840

00:34:28,290 --> 00:34:25,429

have the plans to have these hundred

841

00:34:31,510 --> 00:34:28,300

thousand miles of underground tunnels

842

00:34:32,980 --> 00:34:31,520

disrupted so I could actually see why

843

00:34:35,830 --> 00:34:32,990

and we do remember that quote in the

844

00:34:38,320 --> 00:34:35,840

movie 2012 what do you want to just tell

845

00:34:39,639 --> 00:34:38,330

everyone they're doomed the anarchy

846

00:34:41,830 --> 00:34:39,649

there'll be chaos you know that guy was

847

00:34:44,080 --> 00:34:41,840

supposed to be the bad guy in that movie

848

00:34:46,359 --> 00:34:44,090

I think he was the only one making any

849

00:34:49,000 --> 00:34:46,369

sense for like the majority of the movie

850

00:34:51,190 --> 00:34:49,010

because think about the job he had think

851
00:34:53,470 --> 00:34:51,200
about the job you would have if you knew

852
00:34:54,780 --> 00:34:53,480
something like this was coming and you

853
00:34:57,900 --> 00:34:54,790
know what kind of tunnel-boring

854
00:35:01,020 --> 00:34:57,910
technology exists on the planet

855
00:35:04,080 --> 00:35:01,030
what would you do yeah I can't be easy

856
00:35:05,400 --> 00:35:04,090
it can't be easy I don't want to be the

857
00:35:08,550 --> 00:35:05,410
one who had to make the decision because

858
00:35:10,380 --> 00:35:08,560
I can tell you right now I know where my

859
00:35:12,030 --> 00:35:10,390
heart would go and then my eyes would

860
00:35:14,490 --> 00:35:12,040
come down to those numbers and I would

861
00:35:17,580 --> 00:35:14,500
realize that by doing what's in my heart

862
00:35:19,350 --> 00:35:17,590
I would be killing eighty percent of the

863
00:35:22,020 --> 00:35:19,360

country eighty percent of the world

864

00:35:25,410 --> 00:35:22,030

through panic and fear I think I would

865

00:35:28,140 --> 00:35:25,420

make the same choices they're making how

866

00:35:30,360 --> 00:35:28,150

do you consciously decide to end the

867

00:35:32,040 --> 00:35:30,370

lives of the majority of humans just on

868

00:35:33,900 --> 00:35:32,050

a principle of telling them the truth

869

00:35:35,490 --> 00:35:33,910

when you have plans on trying to save a

870

00:35:36,900 --> 00:35:35,500

bunch of them and letting them know the

871

00:35:39,780 --> 00:35:36,910

truth and see it with their own eyes

872

00:35:41,790 --> 00:35:39,790

anyway yeah no doubt it's a heavy

873

00:35:45,180 --> 00:35:41,800

situation and the truth would cause

874

00:35:47,400 --> 00:35:45,190

chaos and panic and death but if this is

875

00:35:49,170 --> 00:35:47,410

natural and inevitable then you're

876

00:35:51,690 --> 00:35:49,180

really just keeping the information to

877

00:35:54,870 --> 00:35:51,700

yourself for self-preservation I don't

878

00:35:57,420 --> 00:35:54,880

see it as a noble act I would prefer the

879

00:36:00,240 --> 00:35:57,430

truth so that people can adjust

880

00:36:03,480 --> 00:36:00,250

accordingly difficult as it might be but

881

00:36:06,840 --> 00:36:03,490

I don't always get what I want yeah

882

00:36:10,590 --> 00:36:06,850

normally that's the case the one area

883

00:36:12,060 --> 00:36:10,600

where that might have an arguable way

884

00:36:16,710 --> 00:36:12,070

around it is when it would

885

00:36:18,780 --> 00:36:16,720

unquestionably result in chaos and you

886

00:36:21,860 --> 00:36:18,790

know the mass deaths of millions if not

887

00:36:24,660 --> 00:36:21,870

billions of people right especially if

888

00:36:26,730 --> 00:36:24,670

the premise of the secrecy is you're

889

00:36:30,130 --> 00:36:26,740

trying to save a bunch of them and I

890

00:36:32,350 --> 00:36:30,140

know that about ten years ago

891

00:36:36,490 --> 00:36:32,360

the United States alone could fit about

892

00:36:38,410 --> 00:36:36,500

25 million people and the basis and all

893

00:36:40,150 --> 00:36:38,420

the other tunnel systems underground I

894

00:36:41,860 --> 00:36:40,160

wouldn't be shocked if they could fit

895

00:36:45,880 --> 00:36:41,870

three hundred million people down there

896

00:36:48,400 --> 00:36:45,890

today and the evidence that's around

897

00:36:51,070 --> 00:36:48,410

this and after diving in in every way

898

00:36:54,400 --> 00:36:51,080

possible is that they don't only think

899

00:36:56,980 --> 00:36:54,410

that this thing is survivable they see a

900

00:37:00,690 --> 00:36:56,990

continuity of the United States of

901
00:37:04,390 --> 00:37:00,700
America afterwards and it's imminent

902
00:37:07,750 --> 00:37:04,400
expansion thereafter in the chaos with

903
00:37:10,120 --> 00:37:07,760
basically an entire rest of the world

904
00:37:11,620 --> 00:37:10,130
unprepared now I think China just sent a

905
00:37:14,950 --> 00:37:11,630
lander to the other side of the Moon and

906
00:37:17,230 --> 00:37:14,960
they landed on the most magnetic anomaly

907
00:37:20,490 --> 00:37:17,240
that is probably the best evidence of

908
00:37:22,840 --> 00:37:20,500
the Sun causing this catastrophe Wow

909
00:37:25,150 --> 00:37:22,850
they know it too and I'm sure Russia

910
00:37:26,590 --> 00:37:25,160
knows it I'm sure the American elite

911
00:37:28,450 --> 00:37:26,600
feel like you should never let a good

912
00:37:31,570 --> 00:37:28,460
crisis go to waste and so they are

913
00:37:33,730 --> 00:37:31,580

planning how to pivot during all this

914

00:37:35,500 --> 00:37:33,740

stuff but I do feel you that sometimes

915

00:37:37,690 --> 00:37:35,510

there's a lot of conspiracy folks who

916

00:37:39,940 --> 00:37:37,700

almost seem like they're cheering on

917

00:37:42,400 --> 00:37:39,950

collapse yeah I know it's a debt based

918

00:37:44,860 --> 00:37:42,410

system of rule but if you really think

919

00:37:47,620 --> 00:37:44,870

about what that kind of rhetoric means

920

00:37:50,710 --> 00:37:47,630

it means that people that you care about

921

00:37:53,860 --> 00:37:50,720

will die will be thrust into poverty

922

00:37:56,500 --> 00:37:53,870

like do you really want to cheer on

923

00:37:58,120 --> 00:37:56,510

collapse the way you kind of say you do

924

00:37:59,800 --> 00:37:58,130

I mean sometimes there's utopian

925

00:38:02,380 --> 00:37:59,810

feelings about that without dealing with

926

00:38:05,110 --> 00:38:02,390

the real reality of what a system

927

00:38:08,350 --> 00:38:05,120

collapse would mean so I feel yeah these

928

00:38:10,120 --> 00:38:08,360

are difficult things and you kind of

929

00:38:11,950 --> 00:38:10,130

feel like just perpetuating it even if

930

00:38:12,310 --> 00:38:11,960

you want to change it but it is what it

931

00:38:18,400 --> 00:38:12,320

is

932

00:38:21,040 --> 00:38:18,410

of just a fun one but there has been a

933

00:38:24,010 --> 00:38:21,050

bunch of buzz about heightened activity

934

00:38:26,440 --> 00:38:24,020

in Antarctica in the last year or two

935

00:38:27,340 --> 00:38:26,450

and the speculation runs deep as to what

936

00:38:29,110 --> 00:38:27,350

that's all about

937

00:38:31,810 --> 00:38:29,120

but it could have something to do with

938

00:38:34,030 --> 00:38:31,820

the monitoring of space weather and this

939

00:38:35,530 --> 00:38:34,040

pole movement what do you think well I

940

00:38:38,830 --> 00:38:35,540

don't think they're monitoring anything

941

00:38:40,720 --> 00:38:38,840

I think that they are flying as fast as

942

00:38:42,820 --> 00:38:40,730

they can you look down there with

943

00:38:43,359 --> 00:38:42,830

satellites and I don't know how well

944

00:38:45,339 --> 00:38:43,369

Google

945

00:38:46,809 --> 00:38:45,349

keeps their satellite things updated I

946

00:38:50,859 --> 00:38:46,819

think they could be a couple years old

947

00:38:53,049 --> 00:38:50,869

even but you got tracks from the Chinese

948

00:38:55,630 --> 00:38:53,059

bases to the Americans to the British to

949

00:38:58,620 --> 00:38:55,640

the Russians there's no kind of fighting

950

00:39:02,099 --> 00:38:58,630

or tension going on down there they are

951
00:39:06,099 --> 00:39:02,109
doing everything they can to accomplish

952
00:39:07,599 --> 00:39:06,109
something I don't know what it is but it

953
00:39:08,950 --> 00:39:07,609
makes me feel like a lot of the stuff

954
00:39:11,710 --> 00:39:08,960
we're hearing in the news is like

955
00:39:15,999 --> 00:39:11,720
theater to keep us distracted from this

956
00:39:19,420 --> 00:39:16,009
I know that they have found tropical

957
00:39:24,339 --> 00:39:19,430
corals and both the Antarctic and the

958
00:39:28,210 --> 00:39:24,349
Arctic they have found petrified trees

959
00:39:30,700 --> 00:39:28,220
in Sweden with no rings basically

960
00:39:34,359 --> 00:39:30,710
meaning no seasons meaning it was at the

961
00:39:39,160 --> 00:39:34,369
equator they have found so many things

962
00:39:41,499 --> 00:39:39,170
suggesting that the earth either wobbles

963
00:39:44,410 --> 00:39:41,509

for a period or actually tilts for a

964

00:39:46,900 --> 00:39:44,420

period and in addition to all the other

965

00:39:49,930 --> 00:39:46,910

stories about this weather you want to

966

00:39:52,779 --> 00:39:49,940

look religiously or the ancient stories

967

00:39:55,420 --> 00:39:52,789

of the Sun standing still the long night

968

00:39:56,829 --> 00:39:55,430

of 22 hours which would have been the

969

00:39:59,200 --> 00:39:56,839

other side of the world from the Sun

970

00:40:01,269 --> 00:39:59,210

standing still or you look at major

971

00:40:02,920 --> 00:40:01,279

White's account to his son ken white

972

00:40:06,430 --> 00:40:02,930

which he wrote in a book called world in

973

00:40:08,710 --> 00:40:06,440

peril the book is sold out worldwide now

974

00:40:12,069 --> 00:40:08,720

which I apologize for it happened about

975

00:40:14,109 --> 00:40:12,079

24 hours after my video on it but major

976
00:40:16,509 --> 00:40:14,119
White was the guy who was sent by the

977
00:40:20,200 --> 00:40:16,519
military the first guy sent to the

978
00:40:22,359 --> 00:40:20,210
Arctic and his job was to map the North

979
00:40:25,059 --> 00:40:22,369
Pole and figure out how to navigate

980
00:40:27,999 --> 00:40:25,069
there and while they were there two of

981
00:40:29,549 --> 00:40:28,009
the scientists basically went on this

982
00:40:33,339 --> 00:40:29,559
crazy

983
00:40:37,569 --> 00:40:33,349
Archer Polanco hunt and found evidence

984
00:40:39,309 --> 00:40:37,579
they thought of nine earth catastrophes

985
00:40:40,050 --> 00:40:39,319
where the earth literally tilted over

986
00:40:41,420 --> 00:40:40,060
and

987
00:40:43,580 --> 00:40:41,430
[Music]

988
00:40:46,640 --> 00:40:43,590

in later chapters you hear from the

989

00:40:48,440 --> 00:40:46,650

Pentagon that you know the Pentagon

990

00:40:51,110 --> 00:40:48,450

meeting reporting's that he told his son

991

00:40:54,260 --> 00:40:51,120

that they said well actually there were

992

00:40:55,640 --> 00:40:54,270

five episodes and four of those really

993

00:40:57,500 --> 00:40:55,650

actually just looked like they were

994

00:41:00,110 --> 00:40:57,510

different ones because in the subsequent

995

00:41:02,240 --> 00:41:00,120

ones they got tossed so hard that they

996

00:41:03,950 --> 00:41:02,250

actually just got tossed on top of other

997

00:41:05,480 --> 00:41:03,960

ones and it looked like there were nine

998

00:41:08,420 --> 00:41:05,490

different layers when in fact there were

999

00:41:12,140 --> 00:41:08,430

only five which is an interesting but

1000

00:41:16,160 --> 00:41:12,150

still utterly horrifying thing and then

1001
00:41:18,200 --> 00:41:16,170
you realize that you okay for me to tell

1002
00:41:18,620 --> 00:41:18,210
a kind of scary story you're kind of

1003
00:41:25,810 --> 00:41:18,630
weird

1004
00:41:29,330 --> 00:41:25,820
of the people at those Pentagon meetings

1005
00:41:32,150 --> 00:41:29,340
for the CIA was a man named Charles

1006
00:41:34,700 --> 00:41:32,160
Hapgood he was there he received the

1007
00:41:37,370 --> 00:41:34,710
reports from major white and his men he

1008
00:41:39,920 --> 00:41:37,380
was part of the team at the CIA in the

1009
00:41:42,800 --> 00:41:39,930
Pentagon that made the judgment that it

1010
00:41:45,500 --> 00:41:42,810
was five turnovers of the planet and

1011
00:41:48,680 --> 00:41:45,510
that they happened every 12,000 years

1012
00:41:51,070 --> 00:41:48,690
and that they were caused by the

1013
00:41:53,980 --> 00:41:51,080

magnetic reversal

1014

00:41:56,140 --> 00:41:53,990

now this is very strange because we

1015

00:41:57,790 --> 00:41:56,150

usually think of the magnetic flip and

1016

00:42:01,000 --> 00:41:57,800

the geographic access is being

1017

00:42:03,280 --> 00:42:01,010

completely different things especially

1018

00:42:06,040 --> 00:42:03,290

in the mainstream science that's not

1019

00:42:08,590 --> 00:42:06,050

what major whites team found and that's

1020

00:42:10,720 --> 00:42:08,600

not what the Pentagon said now getting

1021

00:42:12,400 --> 00:42:10,730

back to Charles Hapgood he was one of

1022

00:42:13,890 --> 00:42:12,410

the guys for the CIA at this Pentagon

1023

00:42:16,180 --> 00:42:13,900

meeting he was one of the top

1024

00:42:18,310 --> 00:42:16,190

geophysicist I'm sure that many of those

1025

00:42:21,030 --> 00:42:18,320

conclusions I just relayed to you from

1026
00:42:24,640 --> 00:42:21,040
quote the Pentagon were actually hits

1027
00:42:27,700 --> 00:42:24,650
few years later he's a professor and

1028
00:42:29,990 --> 00:42:27,710
he's publishing the earth crust

1029
00:42:31,970 --> 00:42:30,000
displacement theory

1030
00:42:34,730 --> 00:42:31,980
except he's publishing a very very

1031
00:42:37,700 --> 00:42:34,740
different version of it he's publishing

1032
00:42:39,589 --> 00:42:37,710
a version where every few tens of

1033
00:42:42,170 --> 00:42:39,599
thousands of years over the span of

1034
00:42:45,080 --> 00:42:42,180
about a thousand years the earth tilts

1035
00:42:47,089 --> 00:42:45,090
by a few degrees which is not at all

1036
00:42:51,290 --> 00:42:47,099
what was reported by major white to his

1037
00:42:53,770 --> 00:42:51,300
son from this former CIA agent and this

1038
00:42:58,250 --> 00:42:53,780

is the earth crust displacement which

1039

00:42:59,480 --> 00:42:58,260

Einstein jumped onboard with but he said

1040

00:43:01,190 --> 00:42:59,490

there are things you still need to work

1041

00:43:03,400 --> 00:43:01,200

out with this but I see the evidence of

1042

00:43:05,630 --> 00:43:03,410

the catastrophe it's there it happens

1043

00:43:07,910 --> 00:43:05,640

this is the version that ended up

1044

00:43:13,880 --> 00:43:07,920

getting debunked by mainstream science

1045

00:43:16,010 --> 00:43:13,890

and this version is not at all what we

1046

00:43:17,359 --> 00:43:16,020

heard out of the Pentagon this is the

1047

00:43:21,620 --> 00:43:17,369

version of Earth's crust displacement

1048

00:43:24,680 --> 00:43:21,630

that can be debunked because you see in

1049

00:43:27,320 --> 00:43:24,690

the Pentagon version it's a 90 degree

1050

00:43:28,910 --> 00:43:27,330

tilt which will then tilt back and if

1051
00:43:31,070 --> 00:43:28,920
that's what you get time after time

1052
00:43:32,480 --> 00:43:31,080
after time guess what it looks like the

1053
00:43:34,520 --> 00:43:32,490
poles been in the same place for

1054
00:43:36,620 --> 00:43:34,530
hundreds of millions of years which is

1055
00:43:38,960 --> 00:43:36,630
what mainstream science says but if

1056
00:43:42,560 --> 00:43:38,970
there's only about a seven degree tilt

1057
00:43:44,089 --> 00:43:42,570
randomly chaotically every few thousands

1058
00:43:45,620 --> 00:43:44,099
of years well it's never going back to

1059
00:43:47,480 --> 00:43:45,630
the same place and it's not going to

1060
00:43:49,750 --> 00:43:47,490
have any kind of pattern and you would

1061
00:43:52,400 --> 00:43:49,760
see evidence of that all over the planet

1062
00:43:56,240 --> 00:43:52,410
but what we have is a way to satisfy

1063
00:43:58,730 --> 00:43:56,250

that mainstream science problem with the

1064

00:44:01,730 --> 00:43:58,740

theory except that's not what we got

1065

00:44:04,630 --> 00:44:01,740

from former CIA agent turned professor

1066

00:44:07,130 --> 00:44:04,640

Charles Hapgood who along with Einstein

1067

00:44:08,720 --> 00:44:07,140

basically dominated that entire

1068

00:44:10,550 --> 00:44:08,730

discussion basically this was a

1069

00:44:13,760 --> 00:44:10,560

fractured discussion where people

1070

00:44:15,770 --> 00:44:13,770

thought everything from God to internal

1071

00:44:20,060 --> 00:44:15,780

processes of the earth to the Sun to the

1072

00:44:21,589 --> 00:44:20,070

galaxy from the 1700s up to the 1950s

1073

00:44:24,710 --> 00:44:21,599

and all of a sudden here comes half good

1074

00:44:28,670 --> 00:44:24,720

and Einstein stomps out all other ideas

1075

00:44:31,310 --> 00:44:28,680

and basically floods the media and the

1076

00:44:33,570 --> 00:44:31,320

minds of the people with this notion

1077

00:44:34,970 --> 00:44:33,580

that is easily debunked

1078

00:44:37,090 --> 00:44:34,980

[Music]

1079

00:44:40,400 --> 00:44:37,100

and that seems very we're mean

1080

00:44:43,490 --> 00:44:40,410

Velikovsky was forgotten in a flash by

1081

00:44:46,359 --> 00:44:43,500

many of these people and the question is

1082

00:44:50,900 --> 00:44:46,369

what happened what in the world happened

1083

00:44:53,210 --> 00:44:50,910

between this guy being at the CIA and

1084

00:44:56,180 --> 00:44:53,220

delivering this report to major white at

1085

00:44:57,980 --> 00:44:56,190

the Pentagon and this Earth's crust

1086

00:44:59,590 --> 00:44:57,990

displacement theory he forced on the

1087

00:45:02,060 --> 00:44:59,600

world with Feinstein that was so

1088

00:45:05,960 --> 00:45:02,070

ridiculous and you actually go into and

1089

00:45:07,700 --> 00:45:05,970

look at it and easily debunked hmm it

1090

00:45:09,500 --> 00:45:07,710

really makes you wonder if they were

1091

00:45:10,849 --> 00:45:09,510

trying to hide the existence of this

1092

00:45:15,910 --> 00:45:10,859

thing you know I got a question have you

1093

00:45:18,710 --> 00:45:15,920

ever seen the actual Apollo mission

1094

00:45:20,870 --> 00:45:18,720

program logo I'm not talking about the

1095

00:45:22,640 --> 00:45:20,880

mission badges on the astronauts I'm

1096

00:45:24,770 --> 00:45:22,650

talking about the actual logo of the

1097

00:45:26,599 --> 00:45:24,780

mission I'm sure I've seen it but it

1098

00:45:28,010 --> 00:45:26,609

doesn't ring a bell to me exactly what

1099

00:45:31,760 --> 00:45:28,020

it is can you describe it for people

1100

00:45:35,830 --> 00:45:31,770

sure it's got a yellowish orange ish

1101
00:45:38,380 --> 00:45:35,840
burnt moon with Apollo's face on it

1102
00:45:41,740 --> 00:45:38,390
another thing that happened is two

1103
00:45:46,150 --> 00:45:41,750
months after this Pentagon meeting with

1104
00:45:52,000 --> 00:45:46,160
the CIA guys NASA was formed and there

1105
00:45:53,320 --> 00:45:52,010
was I imagine this want to know that you

1106
00:45:56,770 --> 00:45:53,330
know if there was evidence for this on

1107
00:45:59,500 --> 00:45:56,780
the moon and it's interesting because

1108
00:46:02,680 --> 00:45:59,510
around that time the Sun was entering a

1109
00:46:03,700 --> 00:46:02,690
grand solar maximum of the last 400

1110
00:46:07,210 --> 00:46:03,710
years it basically

1111
00:46:09,820 --> 00:46:07,220
crazy timing peak right then and they

1112
00:46:13,050 --> 00:46:09,830
started to realize oh god this might be

1113
00:46:15,430 --> 00:46:13,060

the Sun and so they went up to the moon

1114

00:46:17,530 --> 00:46:15,440

with the Apollo mission to look for

1115

00:46:20,260 --> 00:46:17,540

evidence of a solar catastrophe

1116

00:46:23,010 --> 00:46:20,270

now this claim I'm making requires

1117

00:46:25,060 --> 00:46:23,020

evidence yes well I'll start with some

1118

00:46:28,720 --> 00:46:25,070

circumstantial things and then I'll move

1119

00:46:31,120 --> 00:46:28,730

into the good stuff so Apollo has

1120

00:46:33,190 --> 00:46:31,130

absolutely nothing to do with the moon

1121

00:46:36,520 --> 00:46:33,200

he has never had anything to do with the

1122

00:46:39,490 --> 00:46:36,530

moon it is utter lunacy nonsense why

1123

00:46:42,340 --> 00:46:39,500

would you name your first mission to the

1124

00:46:45,280 --> 00:46:42,350

moon and all these missions Apollo he

1125

00:46:47,920 --> 00:46:45,290

was the god of the Sun always associated

1126
00:46:49,570 --> 00:46:47,930
with the Sun remember I told you all of

1127
00:46:51,400 --> 00:46:49,580
those stories where people are blaming

1128
00:46:52,720 --> 00:46:51,410
the Sun for these catastrophes the ones

1129
00:46:57,640 --> 00:46:52,730
that were able to leave them in voice

1130
00:46:59,890 --> 00:46:57,650
and Iraq that they carve they also say

1131
00:47:02,080 --> 00:46:59,900
the moon got burned

1132
00:47:03,460 --> 00:47:02,090
turning somewhere between yellow and

1133
00:47:05,590 --> 00:47:03,470
bright red and these are not people who

1134
00:47:08,800 --> 00:47:05,600
would have confused a normal blood moon

1135
00:47:10,270 --> 00:47:08,810
or a Harvest Moon these people had

1136
00:47:11,980 --> 00:47:10,280
nothing to do at night but look at the

1137
00:47:13,660 --> 00:47:11,990
sky they knew when something was

1138
00:47:15,460 --> 00:47:13,670

different and they didn't carve into

1139

00:47:16,750 --> 00:47:15,470

stone on a whim it's not like jotting

1140

00:47:19,010 --> 00:47:16,760

something down with a pencil and paper

1141

00:47:21,500 --> 00:47:19,020

this took some time

1142

00:47:24,800 --> 00:47:21,510

and the colors they describe are the

1143

00:47:27,680 --> 00:47:24,810

colors of the moon in the Apollo mission

1144

00:47:30,390 --> 00:47:27,690

now there's a lot of discussion about

1145

00:47:33,750 --> 00:47:30,400

the glass up there

1146

00:47:38,930 --> 00:47:33,760

and the glazing of the rocks

1147

00:47:42,220 --> 00:47:38,940

and while much of the glass is

1148

00:47:45,790 --> 00:47:42,230

unquestionably due to meteorite impact

1149

00:47:49,900 --> 00:47:45,800

and from volcanic of the moon there is a

1150

00:47:52,680 --> 00:47:49,910

class of glass up there that has fission

1151
00:47:55,960 --> 00:47:52,690
tracks from transuranic elements that's

1152
00:47:59,830 --> 00:47:55,970
elements higher than uranium in terms of

1153
00:48:04,109 --> 00:47:59,840
atomic number those things are not

1154
00:48:07,090 --> 00:48:04,119
coming from impactors those need

1155
00:48:08,560 --> 00:48:07,100
super-high relativistic temperatures not

1156
00:48:10,210 --> 00:48:08,570
saying that a meteorite couldn't cause

1157
00:48:11,890 --> 00:48:10,220
one just saying that if a meteorite that

1158
00:48:12,910 --> 00:48:11,900
big hit the moon there wouldn't be a

1159
00:48:16,240 --> 00:48:12,920
moon left

1160
00:48:18,160 --> 00:48:16,250
they found aluminum 26 in there as well

1161
00:48:20,050 --> 00:48:18,170
which can't be created except in a

1162
00:48:25,540 --> 00:48:20,060
supernova

1163
00:48:27,310 --> 00:48:25,550

or some kind of stellar Nova and you

1164

00:48:29,410 --> 00:48:27,320

also have these rocks that are only

1165

00:48:31,570 --> 00:48:29,420

glazed on the top like they are flash

1166

00:48:35,890 --> 00:48:31,580

burned and melted just the top few

1167

00:48:38,440 --> 00:48:35,900

layers you have these perfect beads of

1168

00:48:41,430 --> 00:48:38,450

glass in dumbbell shape that they say

1169

00:48:46,060 --> 00:48:41,440

had to have been rotating spinning at

1170

00:48:48,100 --> 00:48:46,070

60,000 rpm after an impact

1171

00:48:51,220 --> 00:48:48,110

maybe but we've also seen that happen

1172

00:48:54,790 --> 00:48:51,230

through x-ray excitation in the lab he

1173

00:48:58,540 --> 00:48:54,800

called spinning spallation and we start

1174

00:49:00,940 --> 00:48:58,550

to look around at the cosmos then and we

1175

00:49:03,190 --> 00:49:00,950

say okay well this would have to be

1176

00:49:04,600 --> 00:49:03,200

something other than a solar flare that

1177

00:49:07,330 --> 00:49:04,610

we know of this would have to be

1178

00:49:11,140 --> 00:49:07,340

something like a super flare or maybe

1179

00:49:12,760 --> 00:49:11,150

even a tiny version of innova but how

1180

00:49:15,040 --> 00:49:12,770

could that one be I mean the Sun is

1181

00:49:18,070 --> 00:49:15,050

still there right well you know most

1182

00:49:20,860 --> 00:49:18,080

people think of innova as a supernova as

1183

00:49:23,800 --> 00:49:20,870

the end of the star but did you know

1184

00:49:26,550 --> 00:49:23,810

that there are 10 known recurrent Nova

1185

00:49:31,230 --> 00:49:26,560

in the Milky Way and one in Andromeda

1186

00:49:34,770 --> 00:49:31,240

they have Nova repeatedly and the only

1187

00:49:38,380 --> 00:49:34,780

consensus modern astronomers have is

1188

00:49:40,420 --> 00:49:38,390

that the list is not complete we have

1189

00:49:42,850 --> 00:49:40,430

not been watching very long in terms of

1190

00:49:45,010 --> 00:49:42,860

cosmic time there are ones we have seen

1191

00:49:47,320 --> 00:49:45,020

go boom ones that we think now are

1192

00:49:50,050 --> 00:49:47,330

supernovae and we will someday realize

1193

00:49:52,270 --> 00:49:50,060

they are recurrent Nova there are ones

1194

00:49:55,130 --> 00:49:52,280

on super long periods of hundreds or

1195

00:49:56,930 --> 00:49:55,140

thousands of years

1196

00:49:59,769 --> 00:49:56,940

that we just haven't seen you and there

1197

00:50:02,180 --> 00:49:59,779

are ones whose Nova are so micro-mini

1198

00:50:03,680 --> 00:50:02,190

that after a few decades would have

1199

00:50:05,039 --> 00:50:03,690

dissipated and we wouldn't see them at

1200

00:50:07,759 --> 00:50:05,049

all

1201
00:50:11,789 --> 00:50:07,769
hmm and then you start to think about

1202
00:50:14,579 --> 00:50:11,799
the ancients blaming the Sun and you

1203
00:50:16,799 --> 00:50:14,589
start to think of the Sun as a clock

1204
00:50:18,899 --> 00:50:16,809
cycle and you start to think of the Sun

1205
00:50:22,469 --> 00:50:18,909
as intelligent and electromagnetically

1206
00:50:24,599 --> 00:50:22,479
connected to all of the planets in it

1207
00:50:26,999 --> 00:50:24,609
and you start to think about the

1208
00:50:30,989 --> 00:50:27,009
evidence across the cosmos and the

1209
00:50:35,419 --> 00:50:30,999
evidence on the moon and the evidence in

1210
00:50:40,709 --> 00:50:35,429
the fossils and you realize that the Sun

1211
00:50:44,549 --> 00:50:40,719
might be a very long period recurrent

1212
00:50:46,529 --> 00:50:44,559
micro Nova star or recurrent super flare

1213
00:50:48,359 --> 00:50:46,539

star and you know what's interesting

1214

00:50:50,930 --> 00:50:48,369

that last part doesn't even conflict

1215

00:50:52,819 --> 00:50:50,940

with mainstream science

1216

00:50:56,000 --> 00:50:52,829

mainstream science says something like

1217

00:50:59,359 --> 00:50:56,010

an X 100 solar flare something that is

1218

00:51:01,370 --> 00:50:59,369

literally a hundred times bigger than

1219

00:51:03,500 --> 00:51:01,380

even the worst solar storm we've ever

1220

00:51:05,299 --> 00:51:03,510

seen might happen once every eight

1221

00:51:07,099 --> 00:51:05,309

hundred years we're not talking about

1222

00:51:08,319 --> 00:51:07,109

12-thousand anymore we're talking about

1223

00:51:10,970 --> 00:51:08,329

something that happens every millennium

1224

00:51:14,029 --> 00:51:10,980

and when you scale that up it means that

1225

00:51:17,900 --> 00:51:14,039

something as powerful as a miniature

1226

00:51:20,569 --> 00:51:17,910

nova or a micro nova probably happens on

1227

00:51:22,760 --> 00:51:20,579

the Sun every few thousand years maybe

1228

00:51:26,690 --> 00:51:22,770

every twelve thousand years the reason

1229

00:51:27,770 --> 00:51:26,700

why I am fully willing to tie all of

1230

00:51:30,070 --> 00:51:27,780

those things together

1231

00:51:33,520 --> 00:51:30,080

is because

1232

00:51:37,360 --> 00:51:33,530

if you are going to operate under the

1233

00:51:40,120 --> 00:51:37,370

assumption that the earth does tip over

1234

00:51:42,940 --> 00:51:40,130

you have to realize it can't be the core

1235

00:51:45,970 --> 00:51:42,950

in the mantle it just has to be the

1236

00:51:47,110 --> 00:51:45,980

crust hmm because if it was the core in

1237

00:51:49,330 --> 00:51:47,120

the mantle the earth would literally

1238

00:51:54,310 --> 00:51:49,340

tear itself apart from momentum and

1239

00:51:58,410 --> 00:51:54,320

inertia it's just this thin little you

1240

00:52:03,010 --> 00:51:58,420

know peach skin shell on the outside

1241

00:52:05,020 --> 00:52:03,020

floating on liquid now for the most part

1242

00:52:08,710 --> 00:52:05,030

these two things are locked together and

1243

00:52:10,690 --> 00:52:08,720

the low velocity zone an area where they

1244

00:52:13,450 --> 00:52:10,700

actually describe rock as having high

1245

00:52:16,360 --> 00:52:13,460

plasticity even though it's melted or

1246

00:52:18,820 --> 00:52:16,370

melting it catches with incredible

1247

00:52:20,440 --> 00:52:18,830

friction and there's incredible electric

1248

00:52:22,900 --> 00:52:20,450

conductivity there but they say that

1249

00:52:25,060 --> 00:52:22,910

plasticity that friction that catching

1250

00:52:28,870 --> 00:52:25,070

that keeps the crust locked to the

1251
00:52:30,870 --> 00:52:28,880
mantle is based on a delicate thermo

1252
00:52:34,329 --> 00:52:30,880
electric equilibrium that means

1253
00:52:35,920 --> 00:52:34,339
electricity and temperature

1254
00:52:37,930 --> 00:52:35,930
now

1255
00:52:39,670 --> 00:52:37,940
that leads you to believe that the crust

1256
00:52:41,710 --> 00:52:39,680
could be unlocked in mainstream science

1257
00:52:42,999 --> 00:52:41,720
would then say well okay fine but we

1258
00:52:45,609 --> 00:52:43,009
just don't know of anything that could

1259
00:52:48,819 --> 00:52:45,619
actually do that nothing could actually

1260
00:52:50,349 --> 00:52:48,829
do that well we've been seeing some

1261
00:52:53,319 --> 00:52:50,359
papers that have been coming out and

1262
00:52:56,289 --> 00:52:53,329
these are not even close to being

1263
00:52:58,660 --> 00:52:56,299

questioned by mainstream science and

1264

00:53:02,000 --> 00:52:58,670

this is where one of the keys to tying

1265

00:53:05,950 --> 00:53:02,010

everything together comes in

1266

00:53:09,800 --> 00:53:05,960

they have noticed periodic shifts

1267

00:53:12,849 --> 00:53:09,810

oscillations glitches in the length of a

1268

00:53:16,400 --> 00:53:12,859

day we're all of a sudden out of nowhere

1269

00:53:18,620 --> 00:53:16,410

the day is a few microseconds different

1270

00:53:20,210 --> 00:53:18,630

maybe even a few femtoseconds different

1271

00:53:23,380 --> 00:53:20,220

there'd be millions or billions of a

1272

00:53:25,910 --> 00:53:23,390

second difference which shouldn't happen

1273

00:53:28,760 --> 00:53:25,920

especially not if it's not going to stay

1274

00:53:30,950 --> 00:53:28,770

that way okay maybe if one day earth is

1275

00:53:33,290 --> 00:53:30,960

spending a billionth of a second slower

1276

00:53:35,120 --> 00:53:33,300

you expect that oh maybe it's slowing

1277

00:53:36,560 --> 00:53:35,130

down slightly the next day it should

1278

00:53:38,270 --> 00:53:36,570

still be in billionth of a second slower

1279

00:53:42,020 --> 00:53:38,280

nope it caught up the very next day

1280

00:53:44,300 --> 00:53:42,030

somehow somehow hmm well what happened

1281

00:53:47,690 --> 00:53:44,310

was there's two things known to do this

1282

00:53:49,490 --> 00:53:47,700

powerful solar storms and core electric

1283

00:53:51,440 --> 00:53:49,500

events on the planet known as

1284

00:53:52,910 --> 00:53:51,450

geomagnetic jerks they allegedly

1285

00:53:56,450 --> 00:53:52,920

originated when there's an electric

1286

00:53:59,120 --> 00:53:56,460

issue at the core of the planet they say

1287

00:53:59,770 --> 00:53:59,130

driven by its own flows and things like

1288

00:54:05,420 --> 00:53:59,780

that

1289

00:54:09,050 --> 00:54:05,430

these geomagnetic jerks in these solar

1290

00:54:11,210 --> 00:54:09,060

storms are disrupting minutely the

1291

00:54:15,670 --> 00:54:11,220

thermoelectric equilibrium at the low

1292

00:54:18,400 --> 00:54:15,680

velocity zone and Earth is

1293

00:54:22,200 --> 00:54:18,410

not catching as much it slips a little

1294

00:54:25,300 --> 00:54:22,210

bit before recatch in once again and

1295

00:54:27,610 --> 00:54:25,310

that's why these changes in the length

1296

00:54:29,590 --> 00:54:27,620

of day are not sustained because it

1297

00:54:31,330 --> 00:54:29,600

happens instantaneously oh and then we

1298

00:54:33,880 --> 00:54:31,340

catch right again and we're right back

1299

00:54:36,310 --> 00:54:33,890

to going with the mantel in the core but

1300

00:54:38,680 --> 00:54:36,320

you get something like a super super

1301

00:54:41,110 --> 00:54:38,690

burst from the Sun and we already know

1302

00:54:43,870 --> 00:54:41,120

that even the regular solar flares we

1303

00:54:47,020 --> 00:54:43,880

see can induce currents down into the

1304

00:54:50,200 --> 00:54:47,030

mantle you get something powerful enough

1305

00:54:53,050 --> 00:54:50,210

to induce all the way to the core then

1306

00:54:55,690 --> 00:54:53,060

not only is that solar storm disrupting

1307

00:54:57,640 --> 00:54:55,700

the low velocity zone on its way down to

1308

00:54:59,560 --> 00:54:57,650

the core but it could create the

1309

00:55:02,920 --> 00:54:59,570

greatest geomagnetic jerk ever

1310

00:55:05,830 --> 00:55:02,930

imaginable and truly unlock the crust

1311

00:55:07,330 --> 00:55:05,840

for a meaningful period of time now if

1312

00:55:11,050 --> 00:55:07,340

you unlock the crust for a meaningful

1313

00:55:13,150 --> 00:55:11,060

period of time then you don't just have

1314

00:55:16,450 --> 00:55:13,160

this slight rotation speed difference

1315

00:55:18,280 --> 00:55:16,460

then all of a sudden Greenland says hey

1316

00:55:20,380 --> 00:55:18,290

centrifugal force wants me at the

1317

00:55:23,170 --> 00:55:20,390

equator let's see how far I can make it

1318

00:55:25,900 --> 00:55:23,180

before we catch again and we start

1319

00:55:27,580 --> 00:55:25,910

spinning that way Antarctica would love

1320

00:55:29,800 --> 00:55:27,590

to spend at the equator but it's evenly

1321

00:55:31,270 --> 00:55:29,810

distributed around our spin axis it

1322

00:55:32,860 --> 00:55:31,280

wouldn't know which way to tilt and it

1323

00:55:33,400 --> 00:55:32,870

couldn't tilt one way or another if it

1324

00:55:35,900 --> 00:55:33,410

wanted to

1325

00:55:38,599 --> 00:55:35,910

but Greenland can

1326
00:55:40,290 --> 00:55:38,609
it has as much ice mass as the whole of

1327
00:55:44,130 --> 00:55:40,300
Siberia

1328
00:55:46,730 --> 00:55:44,140
and the rock beneath it weighs more it's

1329
00:55:50,370 --> 00:55:46,740
not a lot of mud there's not a lot of

1330
00:55:52,500 --> 00:55:50,380
liquid under there hmm

1331
00:55:55,140 --> 00:55:52,510
Greenland has the possibility to tilt

1332
00:55:57,090 --> 00:55:55,150
the whole planet and what's interesting

1333
00:55:59,790 --> 00:55:57,100
is of Greenland tilts and Greenland

1334
00:56:00,530 --> 00:55:59,800
makes it that 90 degrees directly to the

1335
00:56:03,630 --> 00:56:00,540
equator

1336
00:56:06,810 --> 00:56:03,640
do you know where the new poles are no

1337
00:56:09,030 --> 00:56:06,820
the new poles are where the current

1338
00:56:11,340 --> 00:56:09,040

north and south magnetic poles are set

1339

00:56:12,600 --> 00:56:11,350

to meet and the opposite side of the

1340

00:56:15,420 --> 00:56:12,610

world which is known as the South

1341

00:56:17,220 --> 00:56:15,430

Atlantic magnetic anomaly the weakest

1342

00:56:19,590 --> 00:56:17,230

magnetic point the most anomalous

1343

00:56:21,480 --> 00:56:19,600

magnetic point on the planet so here we

1344

00:56:23,100 --> 00:56:21,490

got a tie in that magnetic pole movement

1345

00:56:24,990 --> 00:56:23,110

you know when people hear about pole

1346

00:56:26,550 --> 00:56:25,000

shifting or pole flipping you assume

1347

00:56:29,640 --> 00:56:26,560

they're gonna stay on opposite sides of

1348

00:56:32,940 --> 00:56:29,650

the world if one's at 12 and one's at 6

1349

00:56:34,470 --> 00:56:32,950

the one at 12 starts going towards 3 you

1350

00:56:37,530 --> 00:56:34,480

expect the one at 6 to start going

1351

00:56:39,300 --> 00:56:37,540

towards 9 oops and when you mention the

1352

00:56:40,980 --> 00:56:39,310

magnetic anomalies are you referencing

1353

00:56:43,650 --> 00:56:40,990

the dragon's triangle and the Bermuda

1354

00:56:47,880 --> 00:56:43,660

Triangle so those are right next to the

1355

00:56:50,010 --> 00:56:47,890

new spots so as crazy as that sounds Wow

1356

00:56:51,630 --> 00:56:50,020

the north magnetic pole is racing

1357

00:56:53,610 --> 00:56:51,640

towards Siberia from Canada but the

1358

00:56:56,670 --> 00:56:53,620

South Magnetic Pole although it is

1359

00:56:58,770 --> 00:56:56,680

moving slower it's way ahead in the race

1360

00:57:00,990 --> 00:56:58,780

it already left the Antarctica and it's

1361

00:57:02,460 --> 00:57:01,000

racing up into the Indian Ocean now just

1362

00:57:04,200 --> 00:57:02,470

picture in your head something coming

1363

00:57:06,600 --> 00:57:04,210

north into the Indian Ocean and

1364

00:57:08,220 --> 00:57:06,610

something coming down through Siberia

1365

00:57:10,440 --> 00:57:08,230

those things are going to meet in the

1366

00:57:12,420 --> 00:57:10,450

Bay of Bengal just off the coast of

1367

00:57:14,820 --> 00:57:12,430

Indonesia right next to the dragon's

1368

00:57:17,040 --> 00:57:14,830

triangle that's where one of the poles

1369

00:57:19,290 --> 00:57:17,050

would be if you took Greenland and you

1370

00:57:21,870 --> 00:57:19,300

tilted it directly southward to the

1371

00:57:23,340 --> 00:57:21,880

equator one of your poles is gonna be

1372

00:57:25,020 --> 00:57:23,350

over there where they're set to meet

1373

00:57:27,540 --> 00:57:25,030

basically around the dragon's triangle

1374

00:57:29,220 --> 00:57:27,550

give or take a few hundred miles and the

1375

00:57:31,440 --> 00:57:29,230

other side of the planet where the other

1376

00:57:34,080 --> 00:57:31,450

pole would have to be is the South

1377

00:57:36,420 --> 00:57:34,090

Atlantic anomaly the largest anomaly in

1378

00:57:37,670 --> 00:57:36,430

Earth's magnetic field in the entire

1379

00:57:41,120 --> 00:57:37,680

planet

1380

00:57:43,130 --> 00:57:41,130

which is just across the equator from

1381

00:57:46,430 --> 00:57:43,140

the Bermuda Triangle

1382

00:57:47,989 --> 00:57:46,440

which are weird crust on atmospheric

1383

00:57:50,200 --> 00:57:47,999

anomalies but we don't notice those

1384

00:57:53,870 --> 00:57:50,210

anomalies in the global magnetic field

1385

00:57:57,380 --> 00:57:53,880

but interestingly if you start to think

1386

00:57:59,299 --> 00:57:57,390

of these things as tilted connections so

1387

00:58:01,609 --> 00:57:59,309

if the Bermuda Triangle is the

1388

00:58:03,829 --> 00:58:01,619

lower-level disruption and it sort of

1389

00:58:05,390 --> 00:58:03,839

makes its way up or down to the southern

1390

00:58:07,940 --> 00:58:05,400

hemisphere by the time you reach the

1391

00:58:09,289 --> 00:58:07,950

outer magnetic shell of Earth and the

1392

00:58:11,870 --> 00:58:09,299

same thing with the dragon's triangle

1393

00:58:13,970 --> 00:58:11,880

and the place where the poles are set to

1394

00:58:16,160 --> 00:58:13,980

meet now at some point you really just

1395

00:58:18,829 --> 00:58:16,170

have to say alright are we really gonna

1396

00:58:23,630 --> 00:58:18,839

call these like 40 straight coincidences

1397

00:58:25,999 --> 00:58:23,640

here yes it's it's pretty out there but

1398

00:58:28,549 --> 00:58:26,009

it's all great information I mean you've

1399

00:58:30,140 --> 00:58:28,559

given us so much it's very dense I mean

1400

00:58:32,420 --> 00:58:30,150

I'm sure there's a lot of concern out

1401
00:58:34,220 --> 00:58:32,430
there with the people listening now are

1402
00:58:35,539 --> 00:58:34,230
there ways to prepare I know growing

1403
00:58:37,309 --> 00:58:35,549
your own food doesn't seem like it's

1404
00:58:39,349 --> 00:58:37,319
gonna matter much if your Gardens just

1405
00:58:41,420 --> 00:58:39,359
gonna get wiped out I know you recently

1406
00:58:43,220 --> 00:58:41,430
moved to New Mexico is that all we can

1407
00:58:45,890 --> 00:58:43,230
do if we're not in the club stay nimble

1408
00:58:48,170 --> 00:58:45,900
enough to move when we need to well you

1409
00:58:50,299 --> 00:58:48,180
know a quick word on the club I happen

1410
00:58:53,269 --> 00:58:50,309
to think the club's gonna be opened up

1411
00:58:54,650 --> 00:58:53,279
significantly they might want an army in

1412
00:58:56,299 --> 00:58:54,660
the aftermath they might want a

1413
00:58:57,859 --> 00:58:56,309

continuity of the country they might

1414

00:59:00,349 --> 00:58:57,869

just want a bunch of people to farm for

1415

00:59:02,479 --> 00:59:00,359

them or maybe they're just gonna look

1416

00:59:05,749 --> 00:59:02,489

down at their children and realize they

1417

00:59:07,309 --> 00:59:05,759

have a chance to be the hero daddy saved

1418

00:59:09,680 --> 00:59:07,319

all those people

1419

00:59:13,370 --> 00:59:09,690

I can't discount the power of that if

1420

00:59:15,170 --> 00:59:13,380

you're a parent and when you think about

1421

00:59:17,720 --> 00:59:15,180

when this happened before in the stories

1422

00:59:19,339 --> 00:59:17,730

what happened after Sodom and Gomorrah

1423

00:59:23,420 --> 00:59:19,349

was destroyed there was a bit of a

1424

00:59:25,609 --> 00:59:23,430

cleansing and things change I think we

1425

00:59:30,589 --> 00:59:25,619

build up to this more and more corrupt

1426
00:59:32,059 --> 00:59:30,599
and evil thing hmm no longer because the

1427
00:59:33,349 --> 00:59:32,069
people are born that way but because

1428
00:59:34,970 --> 00:59:33,359
they don't have any choice but to

1429
00:59:36,859 --> 00:59:34,980
survive in the system they don't know

1430
00:59:38,930 --> 00:59:36,869
another way and the system does this to

1431
00:59:41,599 --> 00:59:38,940
them what happens when it's gone what

1432
00:59:43,910 --> 00:59:41,609
happens when all of that has been torn

1433
00:59:45,499 --> 00:59:43,920
down and the people just looked down at

1434
00:59:48,140 --> 00:59:45,509
their children and all the other people

1435
00:59:49,999 --> 00:59:48,150
around do you think that being on the

1436
00:59:53,390 --> 00:59:50,009
top of the pyramid does you any good all

1437
00:59:55,759 --> 00:59:53,400
by yourself no it doesn't it really

1438
00:59:56,990 --> 00:59:55,769

really doesn't in fact agenda 21 is a

1439

00:59:59,150 --> 00:59:57,000

plan to support

1440

01:00:00,800 --> 00:59:59,160

hundred billion people on earth people

1441

01:00:03,710 --> 01:00:00,810

usually conflate agenda 21 and

1442

01:00:05,900 --> 01:00:03,720

depopulation they're kind of the exact

1443

01:00:07,580 --> 01:00:05,910

opposite things agenda 21 is the plan to

1444

01:00:07,970 --> 01:00:07,590

deal with a hundred billion people on

1445

01:00:10,070 --> 01:00:07,980

earth

1446

01:00:13,280 --> 01:00:10,080

you know stack them up seven thousand

1447

01:00:15,950 --> 01:00:13,290

feet high in cubes and in buildings so

1448

01:00:17,480 --> 01:00:15,960

they don't take up space very different

1449

01:00:18,650 --> 01:00:17,490

than the Georgia Guidestones and the D

1450

01:00:21,200 --> 01:00:18,660

populist agenda

1451

01:00:23,390 --> 01:00:21,210

very very different indeed two factions

1452

01:00:28,640 --> 01:00:23,400

you think Oh unquestionably you know

1453

01:00:31,640 --> 01:00:28,650

nobody ever heard a word online about

1454

01:00:33,560 --> 01:00:31,650

how evil the Rothschilds were or the

1455

01:00:36,500 --> 01:00:33,570

Rockefellers or any of this other stuff

1456

01:00:38,840 --> 01:00:36,510

until well with the example of the

1457

01:00:41,420 --> 01:00:38,850

Rothschilds they took all of their

1458

01:00:43,760 --> 01:00:41,430

investment money out of oil was a huge

1459

01:00:46,450 --> 01:00:43,770

announcement about fifteen years ago and

1460

01:00:48,650 --> 01:00:46,460

they put it all into solar and went I

1461

01:00:51,260 --> 01:00:48,660

don't think that was a wise financial

1462

01:00:53,180 --> 01:00:51,270

decision but within a month you started

1463

01:00:55,730 --> 01:00:53,190

getting all of these conspiracies online

1464

01:00:57,440 --> 01:00:55,740

about the Rothschild well our history

1465

01:01:00,050 --> 01:00:57,450

runs pretty deep I mean with the

1466

01:01:03,320 --> 01:01:00,060

suppression of alcohol as a fuel and

1467

01:01:06,650 --> 01:01:03,330

getting into the petrochemical market

1468

01:01:08,510 --> 01:01:06,660

but how deep is deep you know because

1469

01:01:12,560 --> 01:01:08,520

where it really starts to become

1470

01:01:14,870 --> 01:01:12,570

something that is more than just a

1471

01:01:16,820 --> 01:01:14,880

family that's trying to do something is

1472

01:01:18,920 --> 01:01:16,830

when you hear those conspiracies that

1473

01:01:21,560 --> 01:01:18,930

say oh these families have been ruling

1474

01:01:23,780 --> 01:01:21,570

for thousands and thousands of years

1475

01:01:26,420 --> 01:01:23,790

you know Rockefeller was poor in

1476

01:01:31,010 --> 01:01:26,430

Cleveland before he started that stuff

1477

01:01:33,500 --> 01:01:31,020

and before their very immoral play lying

1478

01:01:36,920 --> 01:01:33,510

about Napoleon to the people to game the

1479

01:01:39,560 --> 01:01:36,930

market the Rothschilds were middle of

1480

01:01:43,040 --> 01:01:39,570

the run bankers you know it was through

1481

01:01:45,200 --> 01:01:43,050

an evil move telling people bad

1482

01:01:46,850 --> 01:01:45,210

information about Napoleon making them

1483

01:01:48,890 --> 01:01:46,860

bet the other way when they knew the

1484

01:01:51,470 --> 01:01:48,900

real facts they bet the right way and

1485

01:01:54,200 --> 01:01:51,480

they took the house but before that they

1486

01:01:55,970 --> 01:01:54,210

report Satan goes for rockefeller and

1487

01:02:00,020 --> 01:01:55,980

the same goes for a lot of these I mean

1488

01:02:02,810 --> 01:02:00,030

the number of times that the kingship or

1489

01:02:05,480 --> 01:02:02,820

the Emperor ship has been overthrown and

1490

01:02:09,200 --> 01:02:05,490

new families have taken over

1491

01:02:11,870 --> 01:02:09,210

from China to England dozens of times

1492

01:02:15,620 --> 01:02:11,880

none of these families persist for very

1493

01:02:19,130 --> 01:02:15,630

long and one questions how much of it is

1494

01:02:20,930 --> 01:02:19,140

uneducated love for their children and

1495

01:02:23,540 --> 01:02:20,940

fear that their children are not going

1496

01:02:25,640 --> 01:02:23,550

to have the things that they had in life

1497

01:02:27,440 --> 01:02:25,650

I mean once you get there to that top of

1498

01:02:29,630 --> 01:02:27,450

the world and you don't ever want to

1499

01:02:32,350 --> 01:02:29,640

smell the smell of crap again you don't

1500

01:02:34,640 --> 01:02:32,360

want your kids to either mm-hmm you know

1501

01:02:36,950 --> 01:02:34,650

we'll definitely broadly speak and I

1502

01:02:38,660 --> 01:02:36,960

agree with you that instead of thinking

1503

01:02:41,510 --> 01:02:38,670

of it in conspiratorial terms of this

1504

01:02:44,000 --> 01:02:41,520

giant continuity that it is a revolving

1505

01:02:45,530 --> 01:02:44,010

door of elites at the top of the pyramid

1506

01:02:47,930 --> 01:02:45,540

and that people do get usurped

1507

01:02:50,480 --> 01:02:47,940

constantly and all that good stuff but I

1508

01:02:52,220 --> 01:02:50,490

did want to ask you about preparation is

1509

01:02:56,240 --> 01:02:52,230

there something that average people can

1510

01:02:58,640 --> 01:02:56,250

do well I would say that paying

1511

01:03:01,460 --> 01:02:58,650

attention is one of the key ways one of

1512

01:03:04,940 --> 01:03:01,470

the episodes in this series I'm doing on

1513

01:03:07,130 --> 01:03:04,950

this whole topic was the ways that the

1514

01:03:10,550 --> 01:03:07,140

Sun will tell us if it's going to do

1515

01:03:13,310 --> 01:03:10,560

this there's almost no chance that we

1516

01:03:16,040 --> 01:03:13,320

can see it progressing like this and

1517

01:03:18,109 --> 01:03:16,050

there's the stories of it changing in

1518

01:03:20,390 --> 01:03:18,119

ancient history and the way we see

1519

01:03:23,800 --> 01:03:20,400

Earth's changes taking place already and

1520

01:03:26,960 --> 01:03:23,810

the fact that you know the Sun Venus

1521

01:03:28,910 --> 01:03:26,970

Mars Jupiter Saturn Uranus and Neptune

1522

01:03:31,760 --> 01:03:28,920

are all actually changing faster than

1523

01:03:33,200 --> 01:03:31,770

Earth is in terms of the energetics it

1524

01:03:36,620 --> 01:03:33,210

lets you know that the Sun isn't just

1525

01:03:40,220 --> 01:03:36,630

gonna go boom out of nowhere and there

1526
01:03:42,500 --> 01:03:40,230
are changes from rotation speed which

1527
01:03:44,840 --> 01:03:42,510
would give you a few hours warning to

1528
01:03:47,210 --> 01:03:44,850
chemical changes ion changes in the

1529
01:03:49,970 --> 01:03:47,220
corona which we see very very well with

1530
01:03:53,270 --> 01:03:49,980
modern satellites which could give

1531
01:03:56,530 --> 01:03:53,280
months warning time and whether you're

1532
01:04:00,530 --> 01:03:56,540
worried about a magnitude 9 earthquake

1533
01:04:02,300 --> 01:04:00,540
or the loss of global power or a Nova

1534
01:04:04,609 --> 01:04:02,310
from the Sun you're talking about the

1535
01:04:07,370 --> 01:04:04,619
highest level longest term preparation

1536
01:04:10,609 --> 01:04:07,380
where it's not just food and water it's

1537
01:04:12,440 --> 01:04:10,619
water filtration it's organic non

1538
01:04:15,020 --> 01:04:12,450

Franken seeds that are actually gonna

1539

01:04:16,790 --> 01:04:15,030

sprout more than once and aren't gonna

1540

01:04:18,800 --> 01:04:16,800

grow up sterile and will produce more

1541

01:04:19,310 --> 01:04:18,810

seeds for you it's things that don't

1542

01:04:21,800 --> 01:04:19,320

require

1543

01:04:24,410 --> 01:04:21,810

electricity pre-industrial tools things

1544

01:04:26,000 --> 01:04:24,420

like that it's having books not

1545

01:04:27,160 --> 01:04:26,010

necessarily cramming your head with a

1546

01:04:30,020 --> 01:04:27,170

bunch of stuff you're never gonna

1547

01:04:31,580 --> 01:04:30,030

remember but having the books there

1548

01:04:34,700 --> 01:04:31,590

afterwards so that you have the

1549

01:04:37,400 --> 01:04:34,710

information having the maps of the area

1550

01:04:39,200 --> 01:04:37,410

of Greater area so you know where to go

1551

01:04:42,110 --> 01:04:39,210

knowing where the waterways are knowing

1552

01:04:44,390 --> 01:04:42,120

where the caves are if you don't have

1553

01:04:46,430 --> 01:04:44,400

heat or electricity or air conditioning

1554

01:04:48,440 --> 01:04:46,440

knowing where you're not gonna die at

1555

01:04:51,560 --> 01:04:48,450

certain times of the year things like

1556

01:04:54,290 --> 01:04:51,570

that it goes much beyond just the food

1557

01:04:56,660 --> 01:04:54,300

and the water and the clothing and the

1558

01:04:59,300 --> 01:04:56,670

ability to start a fire in this

1559

01:05:02,800 --> 01:04:59,310

worst-case scenario forget the cellphone

1560

01:05:05,420 --> 01:05:02,810

forget the radio forget all that stuff

1561

01:05:07,250 --> 01:05:05,430

get yourself a frontal lense one of

1562

01:05:07,810 --> 01:05:07,260

those things that can bend sunlight into

1563

01:05:10,460 --> 01:05:07,820

fire

1564

01:05:12,370 --> 01:05:10,470

they cost four dollars and they come and

1565

01:05:14,570 --> 01:05:12,380

they're about the size of a credit card

1566

01:05:17,930 --> 01:05:14,580

that's the kind of stuff we're talking

1567

01:05:19,880 --> 01:05:17,940

about here now granted chances are just

1568

01:05:23,630 --> 01:05:19,890

about everyone in the world will

1569

01:05:25,910 --> 01:05:23,640

experience one if not many smaller scale

1570

01:05:28,820 --> 01:05:25,920

shorter duration events from weather

1571

01:05:31,730 --> 01:05:28,830

from earthquakes from a lesser solar

1572

01:05:34,880 --> 01:05:31,740

storm before that big day and so things

1573

01:05:36,710 --> 01:05:34,890

like a Faraday cage for your electronics

1574

01:05:39,260 --> 01:05:36,720

having the NOAA a NOAA Weather Radio

1575

01:05:41,420 --> 01:05:39,270

having communications radios having

1576

01:05:43,490 --> 01:05:41,430

batteries flashlights candles things

1577

01:05:45,740 --> 01:05:43,500

like that those all still matter having

1578

01:05:48,470 --> 01:05:45,750

days worth of food and water and things

1579

01:05:50,900 --> 01:05:48,480

like that those things still matter it's

1580

01:05:54,370 --> 01:05:50,910

just that this is something else

1581

01:05:57,440 --> 01:05:54,380

this is a complete reset this is not hey

1582

01:05:59,540 --> 01:05:57,450

can you hold out until FEMA arrives

1583

01:06:02,660 --> 01:05:59,550

this is FEMA's not coming this is

1584

01:06:06,770 --> 01:06:02,670

nobody's ever coming again not for

1585

01:06:09,230 --> 01:06:06,780

thousands of years wow man I mean hey

1586

01:06:10,790 --> 01:06:09,240

most families do have a plan for some

1587

01:06:12,010 --> 01:06:10,800

kind of house fire might as well just

1588

01:06:15,260 --> 01:06:12,020

scale that up a bit

1589

01:06:16,940 --> 01:06:15,270

yeah well you know you mentioned that I

1590

01:06:18,410 --> 01:06:16,950

moved across the country and I know a

1591

01:06:21,980 --> 01:06:18,420

lot of people can't do that and I don't

1592

01:06:24,110 --> 01:06:21,990

recommend you know people just getting

1593

01:06:25,310 --> 01:06:24,120

scared quitting their jobs uprooting

1594

01:06:27,460 --> 01:06:25,320

their kids yanking them out of school

1595

01:06:29,170 --> 01:06:27,470

and going and living in the woods

1596

01:06:31,990 --> 01:06:29,180

because sons not giving us any of those

1597

01:06:33,760 --> 01:06:32,000

signs right now for one but also because

1598

01:06:37,430 --> 01:06:33,770

you're going to cut off your ability to

1599

01:06:42,050 --> 01:06:37,440

stay informed you're going to

1600

01:06:45,290 --> 01:06:42,060

really really hamper the quality of life

1601
01:06:47,030 --> 01:06:45,300
of your whole family and for all we know

1602
01:06:48,830 --> 01:06:47,040
this thing's a hundred years away for

1603
01:06:51,350 --> 01:06:48,840
all we know it's a thousand years away

1604
01:06:53,620 --> 01:06:51,360
when we're talking even on things are

1605
01:06:56,630 --> 01:06:53,630
short of time scales is 12,000 years

1606
01:06:58,280 --> 01:06:56,640
here we are we don't know if we're ten

1607
01:06:59,780 --> 01:06:58,290
thousand years later or four eleven

1608
01:07:03,080 --> 01:06:59,790
thousand nine hundred and ninety four

1609
01:07:05,780 --> 01:07:03,090
years later we don't know and you can't

1610
01:07:07,700 --> 01:07:05,790
just operate as if the world's coming to

1611
01:07:10,490 --> 01:07:07,710
an end you have to find a way to balance

1612
01:07:12,710 --> 01:07:10,500
it not finding a way to balance it ruins

1613
01:07:15,800 --> 01:07:12,720

relationships it ruins friendships I

1614

01:07:18,350 --> 01:07:15,810

know many people who have lost marriages

1615

01:07:21,080 --> 01:07:18,360

or girlfriends or boyfriends over things

1616

01:07:25,240 --> 01:07:21,090

like this and sometimes it has been

1617

01:07:27,410 --> 01:07:25,250

because their partner was unwilling to

1618

01:07:30,920 --> 01:07:27,420

have an open mind or they were just

1619

01:07:32,630 --> 01:07:30,930

happy being blissfully ignorant other

1620

01:07:35,990 --> 01:07:32,640

times it was because the people took it

1621

01:07:39,050 --> 01:07:36,000

too far and went to extreme and I've

1622

01:07:41,380 --> 01:07:39,060

seen it happen you know that placebo

1623

01:07:44,450 --> 01:07:41,390

thing goes the other way to a

1624

01:07:47,300 --> 01:07:44,460

hypochondriac thinking something's bad

1625

01:07:49,610 --> 01:07:47,310

for you is gonna make it worse hmm

1626

01:07:52,060 --> 01:07:49,620

that's called a nocebo or negative

1627

01:07:54,940 --> 01:07:52,070

placebo it works that way too and

1628

01:07:57,710 --> 01:07:54,950

there's a lot of things you can do to

1629

01:08:00,680 --> 01:07:57,720

make your life better that doesn't

1630

01:08:05,300 --> 01:08:00,690

involve money that really just involves

1631

01:08:07,070 --> 01:08:05,310

your family and knowledge because when

1632

01:08:09,770 --> 01:08:07,080

they say things like knowledge is power

1633

01:08:13,220 --> 01:08:09,780

knowing that I

1634

01:08:14,990 --> 01:08:13,230

analyzed this up and down and I chose a

1635

01:08:19,430 --> 01:08:15,000

place in the world I think is going to

1636

01:08:22,490 --> 01:08:19,440

be safe gives me peace it makes me happy

1637

01:08:24,559 --> 01:08:22,500

knowing that I've got items prepped

1638

01:08:27,180 --> 01:08:24,569

knowing that I know where the waterways

1639

01:08:29,670 --> 01:08:27,190

are the local caves are

1640

01:08:32,130 --> 01:08:29,680

it's a form of power that money can't

1641

01:08:36,390 --> 01:08:32,140

buy yeah I get that

1642

01:08:39,240 --> 01:08:36,400

so this is how you become powerful here

1643

01:08:41,520 --> 01:08:39,250

in the next age where luckily currency

1644

01:08:43,740 --> 01:08:41,530

will not be the only form of currency

1645

01:08:45,990 --> 01:08:43,750

where knowledge where honor where

1646

01:08:49,230 --> 01:08:46,000

respect where loyalty will once again

1647

01:08:53,310 --> 01:08:49,240

hold weight with people and I think in

1648

01:08:55,170 --> 01:08:53,320

that world when the elites have no

1649

01:08:58,390 --> 01:08:55,180

choice but to be on the same level as

1650

01:09:01,390 --> 01:08:58,400

everybody else at least at the start

1651

01:09:04,600 --> 01:09:01,400

I think that logically and the evidence

1652

01:09:07,360 --> 01:09:04,610

supports this that they're gonna try to

1653

01:09:10,360 --> 01:09:07,370

save many many people and even if you

1654

01:09:11,710 --> 01:09:10,370

want to be as Negative Nancy about it as

1655

01:09:13,300 --> 01:09:11,720

you want then you gotta say all right

1656

01:09:15,100 --> 01:09:13,310

well they just want their slaves they

1657

01:09:16,810 --> 01:09:15,110

want their cattle but they want them

1658

01:09:19,240 --> 01:09:16,820

that's what the evidence suggests it's

1659

01:09:20,860 --> 01:09:19,250

not like hey just let them all go and

1660

01:09:22,780 --> 01:09:20,870

we'll start over we'll build our own

1661

01:09:25,690 --> 01:09:22,790

pyramid the seven of us all by ourselves

1662

01:09:29,890 --> 01:09:25,700

this will work that's not their frickin

1663

01:09:33,160 --> 01:09:29,900

plant every pyramid needs a base every

1664

01:09:35,530 --> 01:09:33,170

pyramid needs a base and this is why the

1665

01:09:38,140 --> 01:09:35,540

depopulation side of things it isn't a

1666

01:09:40,360 --> 01:09:38,150

small faction the other side of things

1667

01:09:41,800 --> 01:09:40,370

realize is that the more people are at

1668

01:09:44,980 --> 01:09:41,810

the base of the pyramid the higher up

1669

01:09:46,570 --> 01:09:44,990

into the sky it is thrust and that's

1670

01:09:47,440 --> 01:09:46,580

where they want to be they love it up

1671

01:09:50,400 --> 01:09:47,450

there in the clouds

1672

01:09:52,840 --> 01:09:50,410

they love staying higher all the time

1673

01:09:54,700 --> 01:09:52,850

well I guess you know cross your fingers

1674

01:09:57,430 --> 01:09:54,710

folks and you can be the bottom rung on

1675

01:10:00,820 --> 01:09:57,440

the next ladder yeah well you know the

1676

01:10:03,160 --> 01:10:00,830

thing is I don't think that they get to

1677

01:10:06,430 --> 01:10:03,170

maintain their position after that and I

1678

01:10:09,160 --> 01:10:06,440

also it is not lost on me that at least

1679

01:10:12,100 --> 01:10:09,170

the United States tons of these elites

1680

01:10:15,940 --> 01:10:12,110

are like devout genuinely believing

1681

01:10:18,100 --> 01:10:15,950

Christians I mean part of that mindset I

1682

01:10:19,900 --> 01:10:18,110

mean let's be honest it's like doing

1683

01:10:22,600 --> 01:10:19,910

well in school and being a nice person

1684

01:10:26,050 --> 01:10:22,610

it helps you get ahead it helps you

1685

01:10:29,530 --> 01:10:26,060

succeed you know not screwing people

1686

01:10:31,810 --> 01:10:29,540

over working hard being moral being kind

1687

01:10:33,280 --> 01:10:31,820

these kind of things help you succeed in

1688

01:10:37,960 --> 01:10:33,290

the world there's a reason why so many

1689

01:10:39,760 --> 01:10:37,970

elites are like that hmm and if we're

1690

01:10:41,950 --> 01:10:39,770

talking about the Mormon elites or the

1691

01:10:44,710 --> 01:10:41,960

Jewish elites they are commanded to help

1692

01:10:46,690 --> 01:10:44,720

everybody I like to think that the

1693

01:10:49,360 --> 01:10:46,700

Christian elites are commanded to help

1694

01:10:50,740 --> 01:10:49,370

everybody - but it's not like most

1695

01:10:52,900 --> 01:10:50,750

people in our community have that

1696

01:10:54,280 --> 01:10:52,910

mindset and I think you have to realize

1697

01:11:00,220 --> 01:10:54,290

that

1698

01:11:03,150 --> 01:11:00,230

a person is smart but people are

1699

01:11:05,470 --> 01:11:03,160

dangerous and that doesn't just go for

1700

01:11:06,490 --> 01:11:05,480

looting and rioting that goes for the

1701

01:11:08,770 --> 01:11:06,500

elites as well

1702

01:11:12,180 --> 01:11:08,780

they feed on each other they feed on

1703

01:11:16,350 --> 01:11:14,430

at the end of the day they're not alien

1704

01:11:17,940 --> 01:11:16,360

reptiles now they haven't just been

1705

01:11:19,860 --> 01:11:17,950

breeding with their own bloodlines for

1706

01:11:22,200 --> 01:11:19,870

thousands of years and you know think

1707

01:11:24,570 --> 01:11:22,210

everything else is dirty they are just

1708

01:11:27,120 --> 01:11:24,580

like us they do drugs they have sex they

1709

01:11:29,460 --> 01:11:27,130

poop they are just like us and they know

1710

01:11:31,290 --> 01:11:29,470

it it's one of the reasons why at their

1711

01:11:32,790 --> 01:11:31,300

status they work so hard to convince

1712

01:11:36,360 --> 01:11:32,800

themselves and everybody else that

1713

01:11:41,100 --> 01:11:36,370

they're not hmm because they know they

1714

01:11:43,200 --> 01:11:41,110

are and their kids are and when that day

1715

01:11:45,330 --> 01:11:43,210

comes and they realize that there is no

1716

01:11:48,480 --> 01:11:45,340

more pyramid there's no more stock

1717

01:11:52,590 --> 01:11:48,490

market there's no more fancy car or

1718

01:11:54,480 --> 01:11:52,600

fancy purse hmm I feel that we're gonna

1719

01:11:57,000 --> 01:11:54,490

find a lot of them are smart enough to

1720

01:11:58,980 --> 01:11:57,010

do exactly what needs to be done and

1721

01:12:02,340 --> 01:11:58,990

what probably has been done many many

1722

01:12:03,660 --> 01:12:02,350

times in the past well maybe I mean

1723

01:12:06,810 --> 01:12:03,670

you're obviously a little more

1724

01:12:10,950 --> 01:12:06,820

optimistic than I am but I'm rooting for

1725

01:12:13,440 --> 01:12:10,960

you and this has definitely been a lot

1726
01:12:15,750 --> 01:12:13,450
of fun and very educational and a little

1727
01:12:18,090 --> 01:12:15,760
scary but before we get out of here do

1728
01:12:20,010 --> 01:12:18,100
give the people what they need to stay

1729
01:12:23,580 --> 01:12:20,020
informed and follow your work going

1730
01:12:25,650 --> 01:12:23,590
forward well absolutely well the free

1731
01:12:27,540 --> 01:12:25,660
videos come out every single day on the

1732
01:12:29,910 --> 01:12:27,550
suspicious observers YouTube channel

1733
01:12:32,520 --> 01:12:29,920
they are reposted at suspicious

1734
01:12:34,550 --> 01:12:32,530
observers or get space weather news.com

1735
01:12:37,950 --> 01:12:34,560
and a number of places across the net

1736
01:12:40,470 --> 01:12:37,960
tons of free videos tons of free

1737
01:12:42,810 --> 01:12:40,480
information on this stuff I always

1738
01:12:44,790 --> 01:12:42,820

recommend everybody take in as much of

1739

01:12:47,040 --> 01:12:44,800

the free stuff as possible it's

1740

01:12:49,350 --> 01:12:47,050

literally hundreds maybe even thousands

1741

01:12:51,390 --> 01:12:49,360

of hours of it and then after that if

1742

01:12:53,460 --> 01:12:51,400

you want a little more our disaster

1743

01:12:55,110 --> 01:12:53,470

prediction at my book and our website

1744

01:12:57,750 --> 01:12:55,120

are really great ways to stay informed

1745

01:12:59,700 --> 01:12:57,760

in the app specifically the moment I see

1746

01:13:01,230 --> 01:12:59,710

anything even remotely close to any of

1747

01:13:03,510 --> 01:13:01,240

the stuff I talked about in this show

1748

01:13:05,160 --> 01:13:03,520

coming to fruition or even showing the

1749

01:13:08,010 --> 01:13:05,170

first signs that it's beginning even

1750

01:13:10,410 --> 01:13:08,020

months in advance the only way I have to

1751

01:13:12,870 --> 01:13:10,420

really get into your hands and talk to

1752

01:13:14,780 --> 01:13:12,880

you is through this app so it's called

1753

01:13:16,880 --> 01:13:14,790

the disaster prediction app

1754

01:13:19,490 --> 01:13:16,890

other than that space weather news.com

1755

01:13:22,100 --> 01:13:19,500

suspicious observers on YouTube we're

1756

01:13:24,290 --> 01:13:22,110

here everyday very cool and you do have

1757

01:13:25,730 --> 01:13:24,300

an upcoming conference that I don't know

1758

01:13:27,890 --> 01:13:25,740

if this episode's gonna get out before

1759

01:13:30,770 --> 01:13:27,900

but there is always next year and it

1760

01:13:32,630 --> 01:13:30,780

sounds pretty exciting right that's

1761

01:13:35,270 --> 01:13:32,640

called observing the frontier we do it

1762

01:13:37,250 --> 01:13:35,280

every year if you do start watching

1763

01:13:40,010 --> 01:13:37,260

those free daily shows we do talk about

1764

01:13:42,170 --> 01:13:40,020

it when the time comes to see if maybe

1765

01:13:43,730 --> 01:13:42,180

you want to come out and be a part of

1766

01:13:45,260 --> 01:13:43,740

the awake event of the year where it's

1767

01:13:47,360 --> 01:13:45,270

not like trying to talk to your friends

1768

01:13:49,160 --> 01:13:47,370

and family about this stuff everybody

1769

01:13:51,620 --> 01:13:49,170

knows what you know and loves having

1770

01:13:53,150 --> 01:13:51,630

those conversations so and you'll be

1771

01:13:55,430 --> 01:13:53,160

surprised at how many people who work

1772

01:13:57,170 --> 01:13:55,440

for NASA or who are professors think

1773

01:13:58,940 --> 01:13:57,180

like you do and come to the show and

1774

01:14:00,230 --> 01:13:58,950

love talking to you about it because

1775

01:14:01,430 --> 01:14:00,240

they can't talk to their colleagues

1776

01:14:04,550 --> 01:14:01,440

about this stuff either

1777

01:14:08,690 --> 01:14:04,560

so yeah it's a lot of fun well community

1778

01:14:11,540 --> 01:14:08,700

is key so that does sound great and man

1779

01:14:15,110 --> 01:14:11,550

awesome thanks so much lot of

1780

01:14:17,510 --> 01:14:15,120

information to them all / great work and

1781

01:14:18,620 --> 01:14:17,520

take care out there man absolutely it

1782

01:14:21,580 --> 01:14:18,630

was good chatting with you you have a

1783

01:14:25,070 --> 01:14:21,590

good one man Cheers

1784

01:14:27,710 --> 01:14:25,080

all right people and crossing the finish

1785

01:14:31,130 --> 01:14:27,720

line Ben Davidson mr. suspicious

1786

01:14:33,800 --> 01:14:31,140

observer himself man do I respect his

1787

01:14:36,410 --> 01:14:33,810

work and his dedication to daily uploads

1788

01:14:38,930 --> 01:14:36,420

that is a commitment if I've ever seen

1789

01:14:41,690 --> 01:14:38,940

one and this would also be the first

1790

01:14:44,150 --> 01:14:41,700

full show that really spawned out of the

1791

01:14:44,630 --> 01:14:44,160

joint sessions that's probably worth a

1792

01:14:47,570 --> 01:14:44,640

mention

1793

01:14:50,690 --> 01:14:47,580

sh'mon jr. joined for the January

1794

01:14:53,630 --> 01:14:50,700

session brought up Ben's work I've seen

1795

01:14:55,940 --> 01:14:53,640

it on the Plus forums too but Ben's work

1796

01:14:58,490 --> 01:14:55,950

into space weather earth crust

1797

01:15:00,680 --> 01:14:58,500

displacement the global electric circuit

1798

01:15:04,670 --> 01:15:00,690

in his earthquake and cyclone prediction

1799

01:15:06,740 --> 01:15:04,680

work all top-notch but I did honestly

1800

01:15:09,230 --> 01:15:06,750

start to worry a little bit there

1801
01:15:12,260 --> 01:15:09,240
towards the end when we folded the elite

1802
01:15:16,790 --> 01:15:12,270
and the big conspiracy back into these

1803
01:15:20,720 --> 01:15:16,800
overall themes you heard my call to just

1804
01:15:22,550 --> 01:15:20,730
stick with some of the solutions or even

1805
01:15:25,070 --> 01:15:22,560
just some common interests because it's

1806
01:15:26,870 --> 01:15:25,080
clear that we do think a bit differently

1807
01:15:28,400 --> 01:15:26,880
when it comes to the rockefellers and

1808
01:15:30,200 --> 01:15:28,410
some of the elite families and

1809
01:15:32,090 --> 01:15:30,210
here and the whole thing is just a

1810
01:15:34,250 --> 01:15:32,100
little bittersweet that it was right at

1811
01:15:36,050 --> 01:15:34,260
the end of the show it was pretty

1812
01:15:38,030 --> 01:15:36,060
comical because I feel like we had a

1813
01:15:39,530 --> 01:15:38,040

great overall episode into that last

1814

01:15:43,640 --> 01:15:39,540

section I was just sitting here to

1815

01:15:48,110 --> 01:15:43,650

myself thinking oh boy you've done it

1816

01:15:49,670 --> 01:15:48,120

now Ben pull up pull up pull up but to

1817

01:15:52,370 --> 01:15:49,680

be a bit more serious about it if we're

1818

01:15:54,110 --> 01:15:52,380

going to get off the beaten path and

1819

01:15:57,290 --> 01:15:54,120

find people who have an alternative

1820

01:15:59,270 --> 01:15:57,300

expertise we have to understand that

1821

01:16:02,030 --> 01:15:59,280

they might not hold our same views in

1822

01:16:04,310 --> 01:16:02,040

every other area I wouldn't ask a good

1823

01:16:07,070 --> 01:16:04,320

mechanic about my teeth I wouldn't

1824

01:16:10,250 --> 01:16:07,080

consult a really good bowler on web

1825

01:16:13,220 --> 01:16:10,260

design you know everybody's got their

1826

01:16:15,890 --> 01:16:13,230

niche and it's fun to spend two hours

1827

01:16:17,780 --> 01:16:15,900

talking to people about material related

1828

01:16:20,210 --> 01:16:17,790

to their expertise but sometimes we

1829

01:16:22,700 --> 01:16:20,220

stumble into some points of difference

1830

01:16:25,220 --> 01:16:22,710

that's life and it's interesting because

1831

01:16:28,220 --> 01:16:25,230

we did have two different sections on

1832

01:16:30,950 --> 01:16:28,230

CIA manipulation and information control

1833

01:16:32,840 --> 01:16:30,960

and I knew how he felt about the moon

1834

01:16:35,120 --> 01:16:32,850

landings going into it although I wish I

1835

01:16:37,030 --> 01:16:35,130

had been able to dig a little bit more

1836

01:16:40,280 --> 01:16:37,040

into where he's gotten this information

1837

01:16:42,740 --> 01:16:40,290

in particular the thing about wrapping

1838

01:16:45,500 --> 01:16:42,750

everything in gold to get beyond the Van

1839

01:16:48,080 --> 01:16:45,510

Allen radiation belt that was pretty new

1840

01:16:50,300 --> 01:16:48,090

to me although it is a fun idea and I

1841

01:16:53,230 --> 01:16:50,310

like the possible tie-ins with ancient

1842

01:16:55,130 --> 01:16:53,240

cultures mining so much gold and

1843

01:16:56,000 --> 01:16:55,140

speculating that maybe there is

1844

01:16:59,240 --> 01:16:56,010

something to that

1845

01:17:02,270 --> 01:16:59,250

slave species hypothesis of a guy like

1846

01:17:05,660 --> 01:17:02,280

Michael tel injure but in this era of

1847

01:17:08,690 --> 01:17:05,670

infighting and choosing sides and almost

1848

01:17:11,240 --> 01:17:08,700

seeking out ideological conflict I'd

1849

01:17:13,040 --> 01:17:11,250

rather not because when it comes to some

1850

01:17:14,960 --> 01:17:13,050

of the points been made about the elite

1851

01:17:16,700 --> 01:17:14,970

I know where my head is at and I'm

1852

01:17:20,060 --> 01:17:16,710

comfortable with my opinions in these

1853

01:17:22,850 --> 01:17:20,070

areas and I hope you feel the same but

1854

01:17:24,800 --> 01:17:22,860

these are kind of small differences and

1855

01:17:26,780 --> 01:17:24,810

matters of opinion when really no one

1856

01:17:29,720 --> 01:17:26,790

knows what the capstone cabal says

1857

01:17:33,560 --> 01:17:29,730

behind closed doors and it's all quite

1858

01:17:36,590 --> 01:17:33,570

moot if the poles flip and we're all

1859

01:17:38,120 --> 01:17:36,600

thrust into chaos and that really is

1860

01:17:40,010 --> 01:17:38,130

what's compelling about this episode

1861

01:17:41,760 --> 01:17:40,020

learning more about our environment and

1862

01:17:43,950 --> 01:17:41,770

the overall system

1863

01:17:47,340 --> 01:17:43,960

this perspective that takes solar and

1864

01:17:48,960 --> 01:17:47,350

electrical energy into account and I

1865

01:17:50,760 --> 01:17:48,970

really liked what he said about the Sun

1866

01:17:54,960 --> 01:17:50,770

it gets back to that conscious light

1867

01:17:57,810 --> 01:17:54,970

kind of thing hmm and all that said I

1868

01:18:00,960 --> 01:17:57,820

mean Ben is a guy who was edged out of

1869

01:18:03,300 --> 01:18:00,970

academia for just this type of stuff and

1870

01:18:04,890 --> 01:18:03,310

I think it would be hard to not find

1871

01:18:07,980 --> 01:18:04,900

something worth taking away today

1872

01:18:09,780 --> 01:18:07,990

probably many things and the reason

1873

01:18:11,580 --> 01:18:09,790

we're steered away from ether physics

1874

01:18:13,410 --> 01:18:11,590

and a proper understanding of light

1875

01:18:16,770 --> 01:18:13,420

consciousness in the Sun it's probably

1876

01:18:19,230 --> 01:18:16,780

multifaceted one component probably is

1877

01:18:22,410 --> 01:18:19,240

that maybe the technology is simple

1878

01:18:24,660 --> 01:18:22,420

enough to be very destructive I've heard

1879

01:18:25,980 --> 01:18:24,670

a story of Tesla putting a device on the

1880

01:18:27,600 --> 01:18:25,990

side of a building the whole thing

1881

01:18:29,250 --> 01:18:27,610

starts to shake and then he pulls it off

1882

01:18:30,810 --> 01:18:29,260

real quick and says something about how

1883

01:18:33,090 --> 01:18:30,820

he could rip the earth in half with the

1884

01:18:35,970 --> 01:18:33,100

stuff he knows I don't doubt that

1885

01:18:37,410 --> 01:18:35,980

there's enough crazy Tesla lore out

1886

01:18:39,750 --> 01:18:37,420

there that who knows that that story is

1887

01:18:43,080 --> 01:18:39,760

even true but many researchers have

1888

01:18:45,660 --> 01:18:43,090

taken sacred geometry and ley lines and

1889

01:18:47,340 --> 01:18:45,670

sort of gridded out the planet and you

1890

01:18:51,480 --> 01:18:47,350

find that a ton of ancient megaliths

1891

01:18:53,040 --> 01:18:51,490

maybe all of them are on that grid funny

1892

01:18:56,100 --> 01:18:53,050

we're talking about this now but last

1893

01:18:58,260 --> 01:18:56,110

night on the joint sessions it went a

1894

01:19:00,870 --> 01:18:58,270

bit differently because we only had

1895

01:19:03,900 --> 01:19:00,880

three calls in an hour and a half and

1896

01:19:05,640 --> 01:19:03,910

really two of those calls took 95% of

1897

01:19:07,800 --> 01:19:05,650

the show and I put those two people

1898

01:19:10,530 --> 01:19:07,810

together and a lot of these very same

1899

01:19:13,080 --> 01:19:10,540

themes came up you might have even heard

1900

01:19:15,900 --> 01:19:13,090

me say oh you mean like they form the

1901

01:19:19,950 --> 01:19:15,910

pentagram and the guy's like no I'm not

1902

01:19:21,360 --> 01:19:19,960

talking about pentagrams here and that's

1903

01:19:23,490 --> 01:19:21,370

my bad because I've been getting into

1904

01:19:25,770 --> 01:19:23,500

the work of these two twins mark and

1905

01:19:29,250 --> 01:19:25,780

David Flynn I think David has actually

1906

01:19:32,280 --> 01:19:29,260

passed sadly but they've both done some

1907

01:19:35,730 --> 01:19:32,290

great work connecting ancient texts to

1908

01:19:38,340 --> 01:19:35,740

us coming from Mars even and they do

1909

01:19:41,970 --> 01:19:38,350

this earth grid work too but very much

1910

01:19:43,380 --> 01:19:41,980

from a religious standpoint although one

1911

01:19:45,420 --> 01:19:43,390

thing I liked is when they talked about

1912

01:19:48,930 --> 01:19:45,430

the fruit in the Adam and Eve story

1913

01:19:52,020 --> 01:19:48,940

being a quince and when you cut a quince

1914

01:19:54,750 --> 01:19:52,030

in half the seeds form a star it's a

1915

01:19:55,649 --> 01:19:54,760

pentagram in a circle and maybe the

1916

01:19:58,919 --> 01:19:55,659

forbidden

1917

01:20:00,750 --> 01:19:58,929

fruit is magic maybe it does relate to

1918

01:20:03,270 --> 01:20:00,760

Tesla in the sense that if you screw up

1919

01:20:05,120 --> 01:20:03,280

the frequencies and the resonance you

1920

01:20:07,799 --> 01:20:05,130

can break the whole system

1921

01:20:09,359 --> 01:20:07,809

maybe that's why secret societies

1922

01:20:13,409 --> 01:20:09,369

preserve this knowledge or at least in

1923

01:20:14,790 --> 01:20:13,419

part not to go all apologetic but since

1924

01:20:17,790 --> 01:20:14,800

I'm talking about them just to read a

1925

01:20:21,560 --> 01:20:17,800

little bit from their website I guess

1926

01:20:23,759 --> 01:20:21,570

Marc's website Sirius twins dot-com

1927

01:20:26,159 --> 01:20:23,769

megaliths on the earth seem to be

1928

01:20:29,640 --> 01:20:26,169

related to each other built along a grid

1929

01:20:32,549 --> 01:20:29,650

composed of two pentagrams within the

1930

01:20:34,439 --> 01:20:32,559

circle of the Equator if you're looking

1931

01:20:37,140 --> 01:20:34,449

down on the earth with the North Pole in

1932

01:20:39,600 --> 01:20:37,150

the center all the monuments fall into

1933

01:20:42,299 --> 01:20:39,610

place along this grid if one pentagram

1934

01:20:45,750 --> 01:20:42,309

is anchored at Giza and one at the Prime

1935

01:20:48,089 --> 01:20:45,760

Meridian 0 longitude to many major

1936

01:20:50,189 --> 01:20:48,099

architectural structures exist along

1937

01:20:53,040 --> 01:20:50,199

this dual pentagram design for to be

1938

01:20:54,899 --> 01:20:53,050

mere coincidence this design even

1939

01:20:58,049 --> 01:20:54,909

predicts where megalithic structures

1940

01:21:00,029 --> 01:20:58,059

will be found as well I think we're

1941

01:21:01,589 --> 01:21:00,039

familiar with this type of thing the

1942

01:21:04,379 --> 01:21:01,599

mapping around the globe

1943

01:21:06,359 --> 01:21:04,389

maybe they jailbroke it in the past I'm

1944

01:21:08,879 --> 01:21:06,369

pretty down with this energy grid thing

1945

01:21:11,339 --> 01:21:08,889

I'm sure there's many ways to map it and

1946

01:21:12,899 --> 01:21:11,349

draw it but it's clear we had this

1947

01:21:14,819 --> 01:21:12,909

previous round of history where the

1948

01:21:17,029 --> 01:21:14,829

entire grid was in use was it

1949

01:21:20,129 --> 01:21:17,039

enlightenment was it control who knows

1950

01:21:23,179 --> 01:21:20,139

but the fact that it's all ruins now and

1951

01:21:25,469 --> 01:21:23,189

we know very little about that time is

1952

01:21:28,739 --> 01:21:25,479

interesting maybe it caused something

1953

01:21:32,729 --> 01:21:28,749

like the great flood or maybe Joseph

1954

01:21:34,830 --> 01:21:32,739

Farrell's cosmic war is in play I'm open

1955

01:21:36,449 --> 01:21:34,840

to a lot of things and just let me read

1956

01:21:38,939 --> 01:21:36,459

one more thing from their website while

1957

01:21:41,520 --> 01:21:38,949

I have it up related to the Roswell

1958

01:21:43,709 --> 01:21:41,530

crash and sort of that Chris Knowles

1959

01:21:46,140 --> 01:21:43,719

something happened but maybe an alien

1960

01:21:48,509 --> 01:21:46,150

crash landing was the cover story kind

1961

01:21:51,479 --> 01:21:48,519

of perspective as well as this earth

1962

01:21:54,569 --> 01:21:51,489

grid thing and maybe it's connection to

1963

01:21:57,989 --> 01:21:54,579

higher dimensions or higher realms this

1964

01:22:00,989 --> 01:21:57,999

is what David Flynn says the impact near

1965

01:22:03,629 --> 01:22:00,999

Roswell lays 33 degrees north latitude

1966

01:22:06,899 --> 01:22:03,639

at a distance of two thousand and twelve

1967

01:22:09,420 --> 01:22:06,909

miles from the equator when the latitude

1968

01:22:11,370 --> 01:22:09,430

of the impact site 33 degrees north

1969

01:22:15,180 --> 01:22:11,380

is multiplied by the universal

1970

01:22:18,290 --> 01:22:15,190

mathematic constant pi the result is 104

1971

01:22:21,890 --> 01:22:18,300

degrees the longitude of the impact site

1972

01:22:26,130 --> 01:22:21,900

at Roswell if PI is multiplied by the

1973

01:22:29,480 --> 01:22:26,140

latitudes from 33 degrees to 33 point

1974

01:22:32,160 --> 01:22:29,490

five nine degrees a line with the

1975

01:22:35,250 --> 01:22:32,170

resultant longitude can be traced

1976

01:22:37,080 --> 01:22:35,260

showing the precise flight path the disc

1977

01:22:39,450 --> 01:22:37,090

traveled before impact

1978

01:22:41,970 --> 01:22:39,460

the line of coordinates lies Southeast

1979

01:22:43,980 --> 01:22:41,980

to Northwest exactly in the direction

1980

01:22:46,140 --> 01:22:43,990

the craft appeared to follow according

1981

01:22:50,610 --> 01:22:46,150

to eyewitnesses recorded in the Roswell

1982

01:22:52,770 --> 01:22:50,620

Daily Record July 8th 1947 the only

1983

01:22:54,800 --> 01:22:52,780

place on earth where a 33 degrees

1984

01:22:57,720 --> 01:22:54,810

latitude and 104 degrees longitude

1985

01:23:00,660 --> 01:22:57,730

exists without laying in an ocean as it

1986

01:23:03,120 --> 01:23:00,670

does south of the equator or on an

1987

01:23:07,050 --> 01:23:03,130

uninhabited mountain plateau as it does

1988

01:23:10,440 --> 01:23:07,060

in the eastern hemisphere is a few miles

1989

01:23:13,800 --> 01:23:10,450

northwest of Roswell New Mexico the

1990

01:23:16,710 --> 01:23:13,810

sacred number 33 multiplied by PI just

1991

01:23:21,900 --> 01:23:16,720

happens to produce the location where a

1992

01:23:24,360 --> 01:23:21,910

flying saucer crash-landed in 1947 so

1993

01:23:28,800 --> 01:23:24,370

this to me is kind of talking about

1994

01:23:31,470 --> 01:23:28,810

portals or using sacred geometry to open

1995

01:23:34,230 --> 01:23:31,480

up gateways or windows or hidden

1996

01:23:37,710 --> 01:23:34,240

hyperspace kingdoms and maybe something

1997

01:23:41,880 --> 01:23:37,720

came through maybe it was more of a

1998

01:23:44,130 --> 01:23:41,890

Roswell working as chris has put it I do

1999

01:23:47,370 --> 01:23:44,140

really want to try to get mr. Flynn on

2000

01:23:49,830 --> 01:23:47,380

the show I know the biblical perspective

2001

01:23:53,130 --> 01:23:49,840

is heavy with him but clearly he does a

2002

01:23:54,870 --> 01:23:53,140

lot of math as well he would probably be

2003

01:23:57,840 --> 01:23:54,880

another example of someone who I think

2004

01:23:59,910 --> 01:23:57,850

has some really great data and maybe

2005

01:24:02,880 --> 01:23:59,920

some points of difference with yours

2006

01:24:03,810 --> 01:24:02,890

truly so I don't know I just found all

2007

01:24:05,460 --> 01:24:03,820

that interesting

2008

01:24:08,400 --> 01:24:05,470

still thinking about last night's joint

2009

01:24:10,650 --> 01:24:08,410

session but I think a lot of these books

2010

01:24:12,360 --> 01:24:10,660

and texts that spawn religions that are

2011

01:24:14,820 --> 01:24:12,370

used for control on the surface actually

2012

01:24:17,610 --> 01:24:14,830

do contain information that the elite

2013

01:24:20,550 --> 01:24:17,620

seek out and coalesce with what they

2014

01:24:22,380 --> 01:24:20,560

already know from being in the club so

2015

01:24:23,189 --> 01:24:22,390

I'm getting a bit off-track here clearly

2016

01:24:25,169 --> 01:24:23,199

but the point is

2017

01:24:26,489 --> 01:24:25,179

there might be many reasons why we are

2018

01:24:29,009 --> 01:24:26,499

steered away from a deeper understanding

2019

01:24:31,979 --> 01:24:29,019

of our system and its energies this

2020

01:24:35,939 --> 01:24:31,989

stuff is extremely complex and I don't

2021

01:24:37,830 --> 01:24:35,949

think there's an easy solve whoo but hey

2022

01:24:39,899 --> 01:24:37,840

let's hope the poles don't flip on us

2023

01:24:42,870 --> 01:24:39,909

anytime soon and the Sun doesn't sneeze

2024

01:24:45,870 --> 01:24:42,880

in our general direction amen

2025

01:24:48,060 --> 01:24:45,880

as always we have an extra hour for

2026

01:24:50,609 --> 01:24:48,070

people who support the show via a plus

2027

01:24:53,219 --> 01:24:50,619

membership or patreon subscription and

2028

01:24:55,259 --> 01:24:53,229

in today's I talked to Ben about things

2029

01:24:57,359 --> 01:24:55,269

like the connection between solar

2030

01:24:59,609 --> 01:24:57,369

activity and human progress throughout

2031

01:25:02,520 --> 01:24:59,619

history the idea of consciousness

2032

01:25:05,699 --> 01:25:02,530

upgrades from changing solar activity

2033

01:25:07,529 --> 01:25:05,709

the polar vortex underground tunnels and

2034

01:25:10,620 --> 01:25:07,539

cities from the last round of solar

2035

01:25:13,410 --> 01:25:10,630

intensity ancient gold cultivation and

2036

01:25:15,839 --> 01:25:13,420

radiation deflection oh here's a good

2037

01:25:18,089 --> 01:25:15,849

one the Sun changing from yellow to

2038

01:25:19,620 --> 01:25:18,099

white and how it relates to the Four

2039

01:25:22,560 --> 01:25:19,630

Horsemen of the Apocalypse that was a

2040

01:25:26,790 --> 01:25:22,570

great little rant real tight little

2041

01:25:28,290 --> 01:25:26,800

package there I love that and then just

2042

01:25:30,569 --> 01:25:28,300

where I'd already mentioned here the

2043

01:25:34,199 --> 01:25:30,579

Earth's religions and their earth change

2044

01:25:36,959 --> 01:25:34,209

origins another CIA classified book that

2045

01:25:39,540 --> 01:25:36,969

speaks to coming cataclysms why the

2046

01:25:42,540 --> 01:25:39,550

plasma universe model is suppressed and

2047

01:25:45,930 --> 01:25:42,550

the 21 trillion in off-the-books money

2048

01:25:49,879 --> 01:25:45,940

within the Pentagon budget man we went

2049

01:25:53,580 --> 01:25:49,889

for it in that second hour no pressure

2050

01:25:55,680 --> 01:25:53,590

but all interesting and a few takes that

2051
01:25:59,219 --> 01:25:55,690
are different from the conventional and

2052
01:26:01,290 --> 01:25:59,229
surely add more food for thought if you

2053
01:26:04,560 --> 01:26:01,300
liked been let them know at suspicious

2054
01:26:07,109 --> 01:26:04,570
observers again daily updates a nice

2055
01:26:08,759 --> 01:26:07,119
complement to your morning coffee but I

2056
01:26:11,189 --> 01:26:08,769
got one more show to do before the month

2057
01:26:13,890 --> 01:26:11,199
end so I'm out of here I'll see you soon

2058
01:26:16,049 --> 01:26:13,900
until then I've done my part

2059
01:26:17,969 --> 01:26:16,059
your move secret-keeping scientists

2060
01:26:20,599 --> 01:26:17,979
weather Wizards and keepers of the

2061
01:26:28,239 --> 01:26:20,609
climatological quarantine

2062
01:26:36,219 --> 01:26:28,249
you're [h__h] maybe you'll see goddamn

2063
01:26:41,450 --> 01:26:36,229

this plan no fan spray in on me cronies

2064

01:26:47,870 --> 01:26:42,550

with

2065

01:26:53,740 --> 01:26:47,880

[Music]

2066

01:27:00,860 --> 01:26:53,750

oh it go it gone bye-bye

2067

01:27:02,370 --> 01:27:00,870

blue I think I sink it our time don't

2068

01:27:06,140 --> 01:27:02,380

you

2069

01:27:09,060 --> 01:27:07,400

with all the

2070

01:27:18,130 --> 01:27:09,070

[Music]

2071

01:27:47,850 --> 01:27:21,140

to the floor and

2072

01:27:50,410 --> 01:27:47,860

[Music]

2073

01:27:55,850 --> 01:27:50,420

don't you know

2074

01:28:07,659 --> 01:28:04,649

[Music]

2075

01:28:11,880 --> 01:28:07,669

- the part fallen to the floor

2076

01:28:15,530 --> 01:28:11,890

it marks the Sun

2077

01:28:17,810 --> 01:28:15,540

don't you doubt they control

2078

01:28:23,020 --> 01:28:17,820

[Music]

2079

01:28:28,660 --> 01:28:23,030

with the chemicals that they spread

2080

01:28:31,700 --> 01:28:28,670

[Music]

2081

01:28:33,069 --> 01:28:31,710

to the pollen to the
