26

which means you'll unfortunately never

27  
00:01:33,530 --> 00:01:31,890  
hear my voice all right people here to

28

help you navigate the rough waters of

29  
00:01:37,940 --> 00:01:36,119  
the vast conspiracy from sunny San Diego

30  
00:01:40,609 --> 00:01:37,950  
I'm Greg Carl wood and I know those

31  
00:01:42,710 --> 00:01:40,619  
waves are choppy out there the economic

32  
00:01:45,050 --> 00:01:42,720  
and censorship screws are tightening the

33  
00:01:46,520 --> 00:01:45,060  
chemical and signal based soups we sit

34  
00:01:48,800 --> 00:01:46,530  
in all day are getting near peak

35  
00:01:50,450 --> 00:01:48,810  
exposure and the secret cabal is behind

36  
00:01:52,960 --> 00:01:50,460  
the curtain have been keeping us in the

37  
00:01:55,219 --> 00:01:52,970  
dark for so long we almost have no

38  
00:01:57,620 --> 00:01:55,229

context for the deeper layers of what's

39

00:02:00,469 --> 00:01:57,630

really going on or what reality even is

40

00:02:02,240 --> 00:02:00,479

but lucky for us we found a few bright

41

00:02:04,550 --> 00:02:02,250

minds for our troubled times like

42

00:02:06,380 --> 00:02:04,560

today's returning guest cliff hi cliff

43

00:02:08,660 --> 00:02:06,390

was here almost two years ago to the day

44

00:02:10,070 --> 00:02:08,670

and a lot has changed since then you

45

00:02:12,290 --> 00:02:10,080

might remember cliffs claim to fame

46

00:02:12,780 --> 00:02:12,300

being his infamous web bot prediction

47

00:02:14,339 --> 00:02:12,790

report

48

00:02:17,280 --> 00:02:14,349

swear through a combination of

49

00:02:18,780 --> 00:02:17,290

algorithms and personal analysis he

50

00:02:20,729 --> 00:02:18,790

would comb through the digital landscape

51  
00:02:23,190 --> 00:02:20,739  
for changes in the language we use

52  
00:02:25,259 --> 00:02:23,200  
online to extract some residue from

53  
00:02:27,539 --> 00:02:25,269  
humanity's collective subconscious

54  
00:02:30,449 --> 00:02:27,549  
psychic abilities for what he calls a

55  
00:02:32,819 --> 00:02:30,459  
process of predictive linguistics I've

56  
00:02:35,099 --> 00:02:32,829  
always considered the web bot a fun tool

57  
00:02:37,440 --> 00:02:35,109  
in the arsenal of the uninitiated to

58  
00:02:39,599 --> 00:02:37,450  
maybe get a peek at things unseen as

59  
00:02:42,750 --> 00:02:39,609  
well as just another thing to fold into

60  
00:02:44,420 --> 00:02:42,760  
our outsider's understanding but alas it

61  
00:02:47,069 --> 00:02:44,430  
seems that the Internet censorship

62  
00:02:49,349 --> 00:02:47,079  
crackdown has thrown a major wrench in

63  
00:02:51,089 --> 00:02:49,359

the web bot project and it seems that it

64

00:02:53,550 --> 00:02:51,099

may have even run its course

65

00:02:55,710 --> 00:02:53,560

cliff has also recently produced a

66

00:02:57,960 --> 00:02:55,720

series called tales from the cancer ward

67

00:03:00,629 --> 00:02:57,970

which sadly is fairly self-explanatory

68

00:03:02,240 --> 00:03:00,639

but also provides a prominent public

69

00:03:04,229 --> 00:03:02,250

figure of the woowoo world an

70

00:03:06,119 --> 00:03:04,239

opportunity to talk about the

71

00:03:08,009 --> 00:03:06,129

alternative protocols we hear about and

72

00:03:10,080 --> 00:03:08,019

test their effectiveness and from what

73

00:03:12,240 --> 00:03:10,090

I've seen they seem very effective

74

00:03:14,099 --> 00:03:12,250

indeed so let's get into it the cancer

75

00:03:14,640 --> 00:03:14,109

fighting web bot wizard of the woo-woo

76

00:03:16,289 --> 00:03:14,650

world

77

00:03:21,750 --> 00:03:16,299

uncle cliff welcome back to the higher

78

00:03:26,460 --> 00:03:21,760

side hey thanks guys thanks oh I had to

79

00:03:28,979 --> 00:03:26,470

mute myself I was 11 so I appreciate

80

00:03:31,080 --> 00:03:28,989

that and man this is a real pleasure

81

00:03:33,240 --> 00:03:31,090

thanks for doing it it seems like you've

82

00:03:35,129 --> 00:03:33,250

bounced back quite well from your cancer

83

00:03:37,199 --> 00:03:35,139

encounter and that's a beautiful thing

84

00:03:38,759 --> 00:03:37,209

but well that's the start hang on a

85

00:03:41,369 --> 00:03:38,769

second let's guardar language a bit

86

00:03:47,219 --> 00:03:41,379

because it was it's not a bounce I'm

87

00:03:49,770 --> 00:03:47,229

just about let's see in a month and what

88

00:03:51,979 --> 00:03:49,780

what's today what actually is today okay

89

00:03:55,439 --> 00:03:51,989

so in a month in a day I'll be a year

90

00:03:59,599 --> 00:03:55,449

post-surgery and so it has been a long

91

00:04:02,369 --> 00:03:59,609

slow daunting slog back to this level

92

00:04:05,129 --> 00:04:02,379

not a balance which implies that it was

93

00:04:06,179 --> 00:04:05,139

easy or quick right and you just you

94

00:04:09,479 --> 00:04:06,189

know that's something that people just

95

00:04:13,349 --> 00:04:09,489

have got to understand this [h\_\_h] is not

96

00:04:15,869 --> 00:04:13,359

quick fair fair absolutely important and

97

00:04:17,610 --> 00:04:15,879

this is something that a lot of people

98

00:04:19,229 --> 00:04:17,620

are sadly going to deal with in their

99

00:04:22,529 --> 00:04:19,239

lives or at least within their inner

100

00:04:25,370 --> 00:04:22,539

circles of friends and family and so it

101  
00:04:27,370 --> 00:04:25,380  
definitely is important to be accurate

102  
00:04:30,560 --> 00:04:27,380  
and I've watched these cancer ward

103  
00:04:32,000 --> 00:04:30,570  
segments that you've done and like I

104  
00:04:35,390 --> 00:04:32,010  
kind of just mentioned in the intro it

105  
00:04:37,430 --> 00:04:35,400  
is intriguing to see someone who is a

106  
00:04:39,980 --> 00:04:37,440  
public figure and also clued in to the

107  
00:04:42,140 --> 00:04:39,990  
alternative information really testing

108  
00:04:45,140 --> 00:04:42,150  
the waters with these things that we

109  
00:04:47,510 --> 00:04:45,150  
hear about and I guess I would ask you

110  
00:04:50,480 --> 00:04:47,520  
where you saw the most success it seems

111  
00:04:53,090 --> 00:04:50,490  
like the protocol was quite lengthy but

112  
00:04:54,410 --> 00:04:53,100  
vitamin C was a huge factor some of

113  
00:04:57,830 --> 00:04:54,420

these other things we hear about what

114

00:04:59,300 --> 00:04:57,840

could you tell us it's not a single

115

00:05:02,090 --> 00:04:59,310

thing and that's something else we have

116

00:05:05,030 --> 00:05:02,100

to get over there's no like single

117

00:05:08,540 --> 00:05:05,040

savior myth for cancer in my opinion

118

00:05:10,570 --> 00:05:08,550

cancer is not a disease it's a condition

119

00:05:13,220 --> 00:05:10,580

that arises from a number of causes

120

00:05:15,470 --> 00:05:13,230

including the electro magnetic and

121

00:05:18,890 --> 00:05:15,480

chemical soup as you noted but then also

122

00:05:22,430 --> 00:05:18,900

some form of initiating stress it's a

123

00:05:24,140 --> 00:05:22,440

combo norick okay so it is it's not any

124

00:05:27,050 --> 00:05:24,150

individual thing I'm doing although

125

00:05:30,380 --> 00:05:27,060

they're all effective in their own level

126

00:05:32,390 --> 00:05:30,390

into their own domain so to speak but

127

00:05:35,480 --> 00:05:32,400

the combination of them is just hugely

128

00:05:38,660 --> 00:05:35,490

successful insofar as I'm feeling now

129

00:05:40,760 --> 00:05:38,670

and the notable physical gains I've made

130

00:05:42,530 --> 00:05:40,770

in the past few months and I'm see I'm

131

00:05:45,170 --> 00:05:42,540

at a very interesting point now because

132

00:05:47,690 --> 00:05:45,180

I've reached the plateau where I'm

133

00:05:50,720 --> 00:05:47,700

having fewer days attempting to recover

134

00:05:52,850 --> 00:05:50,730

from the drain that the cancer had taken

135

00:05:57,710 --> 00:05:52,860

on me over 30 years of its growth and

136

00:06:00,110 --> 00:05:57,720

now I'm back into gaining good days so

137

00:06:03,110 --> 00:06:00,120

to speak it's so I'm starting to be able

138

00:06:04,850 --> 00:06:03,120

to Bank little tiny bits of energy to

139

00:06:08,060 --> 00:06:04,860

carry over to the next day which also

140

00:06:10,820 --> 00:06:08,070

makes it a better day etc etc and this

141

00:06:13,970 --> 00:06:10,830

is growing to a very noticeable stage

142

00:06:15,410 --> 00:06:13,980

now because I've reached a turning point

143

00:06:16,880 --> 00:06:15,420

but that turning point was not an

144

00:06:18,590 --> 00:06:16,890

individual day or anything it was

145

00:06:21,590 --> 00:06:18,600

probably a course of maybe three or four

146

00:06:24,500 --> 00:06:21,600

months hmm that sort of makes sense yes

147

00:06:26,090 --> 00:06:24,510

it does and so you did have a surgery

148

00:06:28,100 --> 00:06:26,100

which is an important thing to note

149

00:06:31,010 --> 00:06:28,110

because some people completely try to

150

00:06:33,590 --> 00:06:31,020

avoid any conventional techniques which

151  
00:06:35,780 --> 00:06:33,600  
are surgery and chemotherapy but you did

152  
00:06:38,090 --> 00:06:35,790  
have a surgery I had a surgery because I

153  
00:06:41,000 --> 00:06:38,100  
was going to die that day had I not

154  
00:06:43,370 --> 00:06:41,010  
okay I had him I had a mass in my colon

155  
00:06:46,220 --> 00:06:43,380  
that was two and a half inches by two

156  
00:06:48,740 --> 00:06:46,230  
and a half inches by one and a quarter

157  
00:06:50,890 --> 00:06:48,750  
inches thick and so it had caused an

158  
00:06:53,510 --> 00:06:50,900  
intestinal blockage that had been

159  
00:06:57,290 --> 00:06:53,520  
draining me for months and I'd been

160  
00:07:01,070 --> 00:06:57,300  
undiagnosed for years so I had lost 30

161  
00:07:02,840 --> 00:07:01,080  
pounds 35 pounds was you know suffering

162  
00:07:05,000 --> 00:07:02,850  
all kinds of ill effects and if I had

163  
00:07:07,250 --> 00:07:05,010

not had that surgery I would have died

164

00:07:09,290 --> 00:07:07,260

that day probably an hour too after

165

00:07:11,090 --> 00:07:09,300

calling the medics if we hadn't gotten

166

00:07:13,010 --> 00:07:11,100

to that quick Wow

167

00:07:15,080 --> 00:07:13,020

so see it was very last stage in that

168

00:07:18,200 --> 00:07:15,090

sense but it was not staged for cancer

169

00:07:19,790 --> 00:07:18,210

the reason it was not in my opinion was

170

00:07:22,520 --> 00:07:19,800

that for all of the years of being

171

00:07:24,350 --> 00:07:22,530

undiagnosed by the allopaths the

172

00:07:26,420 --> 00:07:24,360

allopathic medicine the regular doctors

173

00:07:28,760 --> 00:07:26,430

and so forth they just totally missed

174

00:07:30,740 --> 00:07:28,770

the fact that I had a cancer or ignored

175

00:07:33,200 --> 00:07:30,750

warning signs even though I reported it

176

00:07:36,050 --> 00:07:33,210

to you know gastroenterologist I

177

00:07:38,150 --> 00:07:36,060

reported classic cancer symptoms for

178

00:07:40,040 --> 00:07:38,160

better part of four years and yet there

179

00:07:41,990 --> 00:07:40,050

was never a diagnosis that oh geez maybe

180

00:07:44,720 --> 00:07:42,000

we should check it for cancer in any

181

00:07:48,500 --> 00:07:44,730

event though so I go on the 13th of July

182

00:07:51,430 --> 00:07:48,510

Friday the 13th my lucky day on a 40

183

00:07:55,610 --> 00:07:51,440

mile excruciating Lee pain Pole

184

00:07:57,830 --> 00:07:55,620

conscious ride to a local hospital in an

185

00:08:00,770 --> 00:07:57,840

emergency condition having made my peace

186

00:08:03,200 --> 00:08:00,780

with everything because I did not expect

187

00:08:05,600 --> 00:08:03,210

to recover it all went through the whole

188

00:08:08,390 --> 00:08:05,610

process and did recover and then I

189

00:08:10,010 --> 00:08:08,400

realized how easy it would have been to

190

00:08:12,680 --> 00:08:10,020

die how much easier it would have been

191

00:08:17,030 --> 00:08:12,690

to die because the building myself back

192

00:08:20,210 --> 00:08:17,040

up overcoming the constant barrage of

193

00:08:22,640 --> 00:08:20,220

the cancer industry and as I say

194

00:08:24,320 --> 00:08:22,650

recovering my body mass and my key

195

00:08:27,950 --> 00:08:24,330

energy and all of these sorts of things

196

00:08:30,950 --> 00:08:27,960

was very grueling those first few months

197

00:08:33,110 --> 00:08:30,960

that's when there were was the potential

198

00:08:35,000 --> 00:08:33,120

for all kinds of relapses but the reason

199

00:08:37,100 --> 00:08:35,010

as I say that I didn't go into like

200

00:08:38,870 --> 00:08:37,110

Stage four with the cancer that there

201  
00:08:43,010 --> 00:08:38,880  
was no penetration of the cancer into

202  
00:08:45,260 --> 00:08:43,020  
any of my lymph nodes whatsoever may

203  
00:08:47,060 --> 00:08:45,270  
have to do with one of two things or

204  
00:08:49,780 --> 00:08:47,070  
either of two things or a combination of

205  
00:08:51,660 --> 00:08:49,790  
both one thing is that I have

206  
00:08:56,640 --> 00:08:51,670  
schizophrenic genes

207  
00:08:58,830 --> 00:08:56,650  
rare for them to die from cancer it's

208  
00:09:01,020 --> 00:08:58,840  
just one of the things that your system

209  
00:09:03,060 --> 00:09:01,030  
seems to protect you from the death of

210  
00:09:05,280 --> 00:09:03,070  
cancer although you it would have killed

211  
00:09:07,770 --> 00:09:05,290  
me by having destroyed my blood vessels

212  
00:09:09,330 --> 00:09:07,780  
basically and obstructed a bell but in

213  
00:09:11,850 --> 00:09:09,340

any event though another thing was that

214

00:09:13,080 --> 00:09:11,860

for years because I was undiagnosed I

215

00:09:14,790 --> 00:09:13,090

was trying all different kinds of

216

00:09:19,200 --> 00:09:14,800

alternative things and it settled on a

217

00:09:22,170 --> 00:09:19,210

really fairly intense vitamin regimen as

218

00:09:24,360 --> 00:09:22,180

well as taking c60 and those things over

219

00:09:26,100 --> 00:09:24,370

the course of the last five years may

220

00:09:28,620 --> 00:09:26,110

have prevented that cancer from being

221

00:09:30,300 --> 00:09:28,630

able to go to stage four and it simply

222

00:09:33,420 --> 00:09:30,310

grew and grew and grew as opposed to

223

00:09:35,640 --> 00:09:33,430

metastasize then since that was the case

224

00:09:39,150 --> 00:09:35,650

and it was removed I've had to deal with

225

00:09:41,550 --> 00:09:39,160

the loss of all different kinds of

226

00:09:44,850 --> 00:09:41,560

systems so I lost a muscle mass I lost

227

00:09:47,640 --> 00:09:44,860

as I say 30-plus pounds

228

00:09:49,940 --> 00:09:47,650

I had my testosterone dropped just

229

00:09:52,890 --> 00:09:49,950

totally unacceptable levels and

230

00:09:54,600 --> 00:09:52,900

testosterone is a key hormone from in

231

00:09:57,360 --> 00:09:54,610

and you really need it especially to

232

00:09:58,130 --> 00:09:57,370

overcome and struggle back from disease

233

00:10:02,370 --> 00:09:58,140

and stuff

234

00:10:06,690 --> 00:10:02,380

now I had done Kido for 30 years and I

235

00:10:10,530 --> 00:10:06,700

credit the key powers the key arts were

236

00:10:13,560 --> 00:10:10,540

you basically develop and pack in life

237

00:10:15,780 --> 00:10:13,570

energy key energy I credit that with

238

00:10:19,590 --> 00:10:15,790

keeping me going through the months

239

00:10:21,660 --> 00:10:19,600

following the surgery which were so it

240

00:10:23,460 --> 00:10:21,670

was a case of being fairly there you

241

00:10:25,080 --> 00:10:23,470

know I could have dropped over dead at

242

00:10:27,090 --> 00:10:25,090

any moment because of having suffered

243

00:10:29,940 --> 00:10:27,100

through that for the last 15 years and

244

00:10:32,430 --> 00:10:29,950

then the last five really badly and then

245

00:10:35,930 --> 00:10:32,440

the last three excruciating and then the

246

00:10:38,420 --> 00:10:35,940

last one where it basically was

247

00:10:40,700 --> 00:10:38,430

consuming me and the mass doubled in the

248

00:10:43,550 --> 00:10:40,710

course of a year is the estimation of

249

00:10:45,710 --> 00:10:43,560

the doctors but I had already decided

250

00:10:48,020 --> 00:10:45,720

that well okay you know I came out of it

251  
00:10:50,180 --> 00:10:48,030  
and I thought oh crap I'm alive you know

252  
00:10:52,370 --> 00:10:50,190  
this was this was not good that was like

253  
00:10:55,910 --> 00:10:52,380  
one of my first thoughts because I I

254  
00:10:57,920 --> 00:10:55,920  
knew that I'd really suffered a terrible

255  
00:11:00,260 --> 00:10:57,930  
degradation of body and that's what led

256  
00:11:02,930 --> 00:11:00,270  
to the regimen I'm on now and I realized

257  
00:11:04,580 --> 00:11:02,940  
that I had to harden my body against

258  
00:11:06,500 --> 00:11:04,590  
cancer because I have obviously

259  
00:11:09,350 --> 00:11:06,510  
developed it and I'm obviously living in

260  
00:11:12,020 --> 00:11:09,360  
a stew of cancer-causing radiation and

261  
00:11:14,300 --> 00:11:12,030  
chemicals and so the only sane and

262  
00:11:17,810 --> 00:11:14,310  
practical thing to do is to take those

263  
00:11:21,080 --> 00:11:17,820

steps that would make the body far less

264

00:11:23,600 --> 00:11:21,090

likely of succumbing to cancer and also

265

00:11:25,970 --> 00:11:23,610

much more prone to fight it and so I

266

00:11:28,160 --> 00:11:25,980

decided to plump up my cellular

267

00:11:29,480 --> 00:11:28,170

structure and throw us the vitamin C at

268

00:11:31,610 --> 00:11:29,490

what a lot of people consider to be

269

00:11:33,830 --> 00:11:31,620

extraordinary levels but it's really

270

00:11:36,110 --> 00:11:33,840

isn't I take four grams a day mainly in

271

00:11:39,230 --> 00:11:36,120

order to be able to absorb at least 20

272

00:11:40,880 --> 00:11:39,240

400 grams a day so is it you know it's

273

00:11:43,640 --> 00:11:40,890

not like I'm taking 10,000 or anything

274

00:11:45,380 --> 00:11:43,650

like that but my inner cellular mass or

275

00:11:48,320 --> 00:11:45,390

intercellular cement is ever so much

276

00:11:50,840 --> 00:11:48,330

better now and so can resist cancer

277

00:11:53,150 --> 00:11:50,850

trying to adhere to any given area to

278

00:11:55,310 --> 00:11:53,160

you know basically feed off the body and

279

00:11:57,280 --> 00:11:55,320

then I'm doing other things in order to

280

00:12:01,480 --> 00:11:57,290

provide

281

00:12:04,660 --> 00:12:01,490

immuno system boosts such that I'm

282

00:12:07,150 --> 00:12:04,670

taking a prophylactic immunotherapy

283

00:12:10,180 --> 00:12:07,160

approach to this so it's a combination

284

00:12:13,180 --> 00:12:10,190

of orthomolecular medicine immunotherapy

285

00:12:16,630 --> 00:12:13,190

in the form of this stuff called GC mass

286

00:12:19,360 --> 00:12:16,640

which is glycoprotein macrophage

287

00:12:21,520 --> 00:12:19,370

activating factor and that activates

288

00:12:23,440 --> 00:12:21,530

killer cells in your body to go and

289

00:12:26,050 --> 00:12:23,450

destroy any cancer cells that they find

290

00:12:28,960 --> 00:12:26,060

and then also I'm using medicinal

291

00:12:31,740 --> 00:12:28,970

mushrooms and other traditional Chinese

292

00:12:34,320 --> 00:12:31,750

herbal products primarily as

293

00:12:37,570 --> 00:12:34,330

prophylactics but also some of them for

294

00:12:39,550 --> 00:12:37,580

boosting the testosterone

295

00:12:42,250 --> 00:12:39,560

something that people fail to grasp is

296

00:12:44,530 --> 00:12:42,260

the critical nature of hormones in their

297

00:12:46,750 --> 00:12:44,540

system at any given time and you

298

00:12:49,090 --> 00:12:46,760

basically have the following system this

299

00:12:50,040 --> 00:12:49,100

is horribly simplified but it'll give

300

00:12:53,199 --> 00:12:50,050

you the idea

301  
00:12:55,030 --> 00:12:53,209  
your liver produces cholesterol for

302  
00:12:56,740 --> 00:12:55,040  
instance right and beyond the

303  
00:12:59,230 --> 00:12:56,750  
cholesterol it also produces hormones

304  
00:13:02,500 --> 00:12:59,240  
some of those hormones use cholesterol

305  
00:13:04,900 --> 00:13:02,510  
to be produced others don't but the

306  
00:13:07,509 --> 00:13:04,910  
hormone tree from the liver onward can

307  
00:13:09,940 --> 00:13:07,519  
branch and it can branch into your

308  
00:13:12,460 --> 00:13:09,950  
ordinary good hormones like human growth

309  
00:13:14,829 --> 00:13:12,470  
hormone and testosterone and estrogen

310  
00:13:17,079 --> 00:13:14,839  
and etc or it can branch into the

311  
00:13:19,870 --> 00:13:17,089  
cortisol side cortisol is a stress

312  
00:13:23,139 --> 00:13:19,880  
hormone that activates and is activated

313  
00:13:25,090 --> 00:13:23,149

by the adrenal gland and causes adrenal

314

00:13:27,610 --> 00:13:25,100

fatigue but also prompts adrenal fatigue

315

00:13:29,680 --> 00:13:27,620

so these are like negative feedback

316

00:13:32,769 --> 00:13:29,690

loops that are really vicious with the

317

00:13:34,240 --> 00:13:32,779

cortisol once you get into the cortisol

318

00:13:36,610 --> 00:13:34,250

loop because your body's under stress

319

00:13:38,170 --> 00:13:36,620

with cancer that is to say once the

320

00:13:39,310 --> 00:13:38,180

cancer is developed to the point where

321

00:13:41,769 --> 00:13:39,320

it's starting to interfere with your

322

00:13:44,800 --> 00:13:41,779

other body systems it will continually

323

00:13:48,550 --> 00:13:44,810

drain you of the ability to produce

324

00:13:51,850 --> 00:13:48,560

regular ordinary hormones that are your

325

00:13:53,410 --> 00:13:51,860

primary defense against aging and body

326

00:13:56,500 --> 00:13:53,420

degradation at so many different levels

327

00:13:58,720 --> 00:13:56,510

including opportunistic disease attacks

328

00:14:00,519 --> 00:13:58,730

and these kinds of things so I was

329

00:14:04,000 --> 00:14:00,529

shocked for instance over a course of

330

00:14:06,730 --> 00:14:04,010

only a couple of years to lose 60% of my

331

00:14:08,740 --> 00:14:06,740

testosterone level and yet the

332

00:14:11,019 --> 00:14:08,750

allopathic physicians including the

333

00:14:12,819 --> 00:14:11,029

seemingly knowledgeable concierge

334

00:14:15,460 --> 00:14:12,829

physician I was dealing with at the time

335

00:14:17,290 --> 00:14:15,470

said that well you know there basically

336

00:14:19,030 --> 00:14:17,300

isn't much we can do about it and in my

337

00:14:20,650 --> 00:14:19,040

opinion they should have like put this

338

00:14:23,860 --> 00:14:20,660

in there and said hmmm wonder what's

339

00:14:26,439 --> 00:14:23,870

causing that you know because I had been

340

00:14:28,210 --> 00:14:26,449

at regular testosterone levels in my

341

00:14:29,800 --> 00:14:28,220

opinion I'd chartered them since I was

342

00:14:32,470 --> 00:14:29,810

in my 40s when I had a complete

343

00:14:36,540 --> 00:14:32,480

bloodwork done and I saw him go from

344

00:14:40,060 --> 00:14:36,550

over 600 down to under 300 in a

345

00:14:42,819 --> 00:14:40,070

radically short period of time and this

346

00:14:44,530 --> 00:14:42,829

is just not good yes a man can exist on

347

00:14:48,130 --> 00:14:44,540

testosterone levels that are lower than

348

00:14:50,360 --> 00:14:48,140

300 but I had been used to having higher

349

00:14:53,600 --> 00:14:50,370

than median or higher than mean

350

00:14:55,850 --> 00:14:53,610

levels of testosterone for my age and I

351

00:14:58,549 --> 00:14:55,860

counted on that for basically getting

352

00:15:00,829 --> 00:14:58,559

[\h\_\_\h] done you know I mean it get you out

353

00:15:02,449 --> 00:15:00,839

there and drive you so now I'm pleased

354

00:15:05,389 --> 00:15:02,459

to note that you know I've been able to

355

00:15:07,519 --> 00:15:05,399

restore through herbal means and not

356

00:15:09,410 --> 00:15:07,529

synthetic testosterone so I'm not givin

357

00:15:12,199 --> 00:15:09,420

myself shots I'm not taking testosterone

358

00:15:13,699 --> 00:15:12,209

replacement therapy or anything and I'll

359

00:15:15,319 --> 00:15:13,709

be having another test here fairly soon

360

00:15:17,480 --> 00:15:15,329

when I can get into town and get the

361

00:15:23,030 --> 00:15:17,490

blood work done but I've been able to

362

00:15:24,499 --> 00:15:23,040

restore it back up to over 500 so in a

363

00:15:27,530 --> 00:15:24,509

short period of time I've been able to

364

00:15:31,519 --> 00:15:27,540

and I'm talking months you see now it's

365

00:15:34,570 --> 00:15:31,529

been let's just say six months maximum

366

00:15:36,750 --> 00:15:34,580

that I've been on the

367

00:15:39,400 --> 00:15:36,760

a regimen that was designed to produce

368

00:15:42,280 --> 00:15:39,410

increased testosterone levels and I've

369

00:15:44,290 --> 00:15:42,290

been able to basically double the level

370

00:15:46,810 --> 00:15:44,300

I had in my system both a free

371

00:15:50,949 --> 00:15:46,820

testosterone in the floating bound

372

00:15:53,230 --> 00:15:50,959

testosterone hmm well I mean

373

00:15:55,240 --> 00:15:53,240

congratulations on the progress you have

374

00:15:59,410 --> 00:15:55,250

had I mean yes it is a grueling process

375

00:16:01,660 --> 00:15:59,420

it is very tough to make the lifestyle

376

00:16:04,150 --> 00:16:01,670

changes that are necessary to recover

377

00:16:06,310 --> 00:16:04,160

and to keep the stuff out of your system

378

00:16:08,920 --> 00:16:06,320

for the rest of your days and as you

379

00:16:10,720 --> 00:16:08,930

said it's a recovery recipe that

380

00:16:13,949 --> 00:16:10,730

includes a lot of things GC mass we've

381

00:16:17,290 --> 00:16:13,959

talked about before sea 60 special

382

00:16:19,420 --> 00:16:17,300

mushrooms Paul Stamets is really great

383

00:16:23,560 --> 00:16:19,430

about mushrooms he's a really intriguing

384

00:16:26,170 --> 00:16:23,570

guy and I just congratulate you on that

385

00:16:28,000 --> 00:16:26,180

success I also wanted to ask about the

386

00:16:29,920 --> 00:16:28,010

web bot project and what's going on with

387

00:16:31,840 --> 00:16:29,930

that because it has been the primary

388

00:16:34,180 --> 00:16:31,850

thing that you're known for for so long

389

00:16:35,889 --> 00:16:34,190

but maybe for the people who haven't

390

00:16:38,650 --> 00:16:35,899

checked in in a while it seems that the

391

00:16:40,780 --> 00:16:38,660

program has been held back or maybe even

392

00:16:42,910 --> 00:16:40,790

retired due to the censorship and

393

00:16:44,490 --> 00:16:42,920

changing landscape of the internet is

394

00:16:47,889 --> 00:16:44,500

that right what's going on there

395

00:16:51,819 --> 00:16:47,899

the latter is indeed correct okay so at

396

00:16:55,949 --> 00:16:51,829

this point the censorship the avowed

397

00:17:00,190 --> 00:16:55,959

open heavy-handed basically ham-fisted

398

00:17:03,310 --> 00:17:00,200

censorship has really caused me two sets

399

00:17:04,809 --> 00:17:03,320

of problems before it emerged there was

400

00:17:07,329 --> 00:17:04,819

a tendency on the part of people the

401  
00:17:10,929 --> 00:17:07,339  
self censor because so many individuals

402  
00:17:12,850 --> 00:17:10,939  
were being you know a shadow ban or soft

403  
00:17:16,270 --> 00:17:12,860  
censored so to speak in terms of

404  
00:17:18,069 --> 00:17:16,280  
individual channels or people being

405  
00:17:21,130 --> 00:17:18,079  
kicked off of social media or put into

406  
00:17:22,329 --> 00:17:21,140  
social media jail for a while the and so

407  
00:17:23,770 --> 00:17:22,339  
a lot of people started becoming

408  
00:17:25,600 --> 00:17:23,780  
paranoid they started self censoring

409  
00:17:27,069 --> 00:17:25,610  
their language even admitting to self

410  
00:17:29,770 --> 00:17:27,079  
censoring their language within the

411  
00:17:33,880 --> 00:17:29,780  
media itself and that obviously affects

412  
00:17:37,180 --> 00:17:33,890  
the ability of the gathering of the data

413  
00:17:40,870 --> 00:17:37,190

to get an unrestricted language to be

414

00:17:43,520 --> 00:17:40,880

able to follow moving trends so one part

415

00:17:47,320 --> 00:17:43,530

of that aspect of this

416

00:17:50,390 --> 00:17:47,330

pre official censorship was that the

417

00:17:54,280 --> 00:17:50,400

the target was shrinking as it was

418

00:17:55,630 --> 00:17:54,290

moving so to speak and that because the

419

00:17:58,790 --> 00:17:55,640

self-censorship

420

00:18:01,010 --> 00:17:58,800

was even openly discussed among others

421

00:18:04,570 --> 00:18:01,020

that rippled out a great degree and it

422

00:18:07,840 --> 00:18:04,580

forced lots of people into really weird

423

00:18:10,820 --> 00:18:07,850

from the my perspective very strange

424

00:18:12,710 --> 00:18:10,830

linguistic cul-de-sacs or thinking or

425

00:18:15,770 --> 00:18:12,720

prisons however you want to describe it

426

00:18:19,880 --> 00:18:15,780

but here's an example so we've got a guy

427

00:18:21,710 --> 00:18:19,890

that runs a YouTube channel now I didn't

428

00:18:24,140 --> 00:18:21,720

do much with YouTube I in terms of I

429

00:18:25,790 --> 00:18:24,150

never did any text-to-speech in order to

430

00:18:27,560 --> 00:18:25,800

get the linguistics there but I

431

00:18:29,060 --> 00:18:27,570

recognized a number of years ago I would

432

00:18:32,120 --> 00:18:29,070

have to move in that direction because

433

00:18:34,070 --> 00:18:32,130

YouTube is a major outlet for

434

00:18:36,380 --> 00:18:34,080

linguistics and the spoken word is now

435

00:18:38,630 --> 00:18:36,390

as powerful as the written word if not

436

00:18:41,480 --> 00:18:38,640

more so and so I was gonna gradually

437

00:18:43,460 --> 00:18:41,490

move into doing text-to-speech but it's

438

00:18:46,130 --> 00:18:43,470

fraught with peril because you you to

439

00:18:47,420 --> 00:18:46,140

get original untainted speech you've got

440

00:18:51,190 --> 00:18:47,430

to be sure that your text-to-speech

441

00:18:53,360 --> 00:18:51,200

engine is getting a known level of

442

00:18:55,670 --> 00:18:53,370

accuracy and then you have to factor in

443

00:18:56,680 --> 00:18:55,680

the inaccuracy so if it routinely

444

00:18:58,700 --> 00:18:56,690

mistranslates

445

00:19:00,470 --> 00:18:58,710

11% of the words you've got to know

446

00:19:02,120 --> 00:19:00,480

which words it's going to miss translate

447

00:19:04,430 --> 00:19:02,130

most often in order to kick him out of

448

00:19:06,980 --> 00:19:04,440

my kind of processing so it becomes very

449

00:19:09,230 --> 00:19:06,990

tedious and I had yet to move that way

450

00:19:11,300 --> 00:19:09,240

however on YouTube you see people saying

451  
00:19:15,140 --> 00:19:11,310  
well they're actually reading an article

452  
00:19:17,360 --> 00:19:15,150  
as part of their News presentation

453  
00:19:19,100 --> 00:19:17,370  
YouTube channel for instance and they

454  
00:19:21,380 --> 00:19:19,110  
show you the article and you can see

455  
00:19:23,480 --> 00:19:21,390  
that the article has certain words in it

456  
00:19:25,850 --> 00:19:23,490  
and then they do not use those words

457  
00:19:27,920 --> 00:19:25,860  
because they're afraid that the YouTube

458  
00:19:30,230 --> 00:19:27,930  
algorithm will pick them up saying those

459  
00:19:32,120 --> 00:19:30,240  
words and decide that they're expressing

460  
00:19:34,070 --> 00:19:32,130  
those words positively and kick their

461  
00:19:37,850 --> 00:19:34,080  
channel off when in fact they were

462  
00:19:39,920 --> 00:19:37,860  
making an anti those words comments if

463  
00:19:41,870 --> 00:19:39,930

that makes sense right so there they

464

00:19:44,240 --> 00:19:41,880

were against the subject but they do not

465

00:19:46,310 --> 00:19:44,250

even use the language of the domain of

466

00:19:48,530 --> 00:19:46,320

the subject so it's like it's as though

467

00:19:51,530 --> 00:19:48,540

we were talking about arduino z'

468

00:19:53,660 --> 00:19:51,540

okay arduino czar these little computers

469

00:19:55,100 --> 00:19:53,670

that kids can learn to program with or

470

00:19:56,899 --> 00:19:55,110

you can use the really cool i like them

471

00:19:58,279 --> 00:19:56,909

i've got a number of them in unnecessary

472

00:20:00,619 --> 00:19:58,289

with them you can use them to control

473

00:20:02,629 --> 00:20:00,629

other devices and things but you know

474

00:20:04,519 --> 00:20:02,639

they're very desperately anti-art we

475

00:20:06,560 --> 00:20:04,529

know they don't like Arduino they don't

476

00:20:08,330 --> 00:20:06,570

want to even discuss the Arduino s'what

477

00:20:09,710 --> 00:20:08,340

they need to discuss the subject of the

478

00:20:11,899 --> 00:20:09,720

fact that our dwee neo is now in the

479

00:20:14,659 --> 00:20:11,909

news and they dare not use the word

480

00:20:16,129 --> 00:20:14,669

Arduino for your fear of triggering it

481

00:20:18,289 --> 00:20:16,139

because it's a word that's been

482

00:20:20,210 --> 00:20:18,299

repressed in the social media so you see

483

00:20:21,950 --> 00:20:20,220

how bizarre it is from my perspective it

484

00:20:24,519 --> 00:20:21,960

is as though the language is now

485

00:20:27,080 --> 00:20:24,529

corralled it has to exist within certain

486

00:20:29,659 --> 00:20:27,090

extremely limited domains which does not

487

00:20:32,690 --> 00:20:29,669

do me any good the nature of prescient

488

00:20:35,089 --> 00:20:32,700

language is that your psychic nature

489

00:20:38,060 --> 00:20:35,099

that has to leak out one way or another

490

00:20:39,799 --> 00:20:38,070

will leak out in your language but if

491

00:20:42,469 --> 00:20:39,809

your language has to go through a

492

00:20:46,279 --> 00:20:42,479

conscious filter continuously because

493

00:20:48,229 --> 00:20:46,289

your social presence depends on it then

494

00:20:50,570 --> 00:20:48,239

those leaks are going to get filtered

495

00:20:52,580 --> 00:20:50,580

out because frequently they were in

496

00:20:56,719 --> 00:20:52,590

inappropriate and extreme use as a

497

00:20:59,889 --> 00:20:56,729

language for the domains right I think

498

00:21:02,960 --> 00:20:59,899

that makes a lot of sense if your bot is

499

00:21:05,180 --> 00:21:02,970

analyzing thought patterns or just

500

00:21:07,339 --> 00:21:05,190

natural psychic ability that comes out

501  
00:21:09,619 --> 00:21:07,349  
through our language a lot of magic

502  
00:21:11,599 --> 00:21:09,629  
stuff from what I understand is best

503  
00:21:13,219 --> 00:21:11,609  
when it's subconscious so if you are

504  
00:21:15,830 --> 00:21:13,229  
constantly thinking about what you're

505  
00:21:18,109 --> 00:21:15,840  
saying you're gonna screw up your own

506  
00:21:19,609 --> 00:21:18,119  
psychic ability which is manifesting on

507  
00:21:22,249 --> 00:21:19,619  
the Internet and then being read by your

508  
00:21:26,060 --> 00:21:22,259  
web BOTS so I get that this is a real

509  
00:21:27,139 --> 00:21:26,070  
problem for your protocol and I also

510  
00:21:29,180 --> 00:21:27,149  
wanted to ask you about this because

511  
00:21:31,039 --> 00:21:29,190  
some of the big predictions that have

512  
00:21:33,499 --> 00:21:31,049  
gotten a lot of blowback seem to be

513  
00:21:36,979 --> 00:21:33,509

around bit coin and crypto zit seems

514

00:21:38,899 --> 00:21:36,989

like through most of 2018 the story was

515

00:21:41,450 --> 00:21:38,909

that 2019 was going to be a huge year

516

00:21:44,119 --> 00:21:41,460

for Bitcoin and that kind of stuff I

517

00:21:46,310 --> 00:21:44,129

know my pops is really paying a lot of

518

00:21:47,629 --> 00:21:46,320

attention to what you say because he

519

00:21:51,229 --> 00:21:47,639

bought Bitcoin when it was in the

520

00:21:53,539 --> 00:21:51,239

hundreds and now he's hoping that he can

521

00:21:55,549 --> 00:21:53,549

pop that champagne in his retirement you

522

00:21:57,349 --> 00:21:55,559

know he's a little bit over he just

523

00:22:00,049 --> 00:21:57,359

turned 70 so this is going to be a

524

00:22:02,690 --> 00:22:00,059

crucial factor in the last decade of his

525

00:22:04,399 --> 00:22:02,700

life but some of those prediction models

526

00:22:05,869 --> 00:22:04,409

were throwing out numbers like thirteen

527

00:22:08,180 --> 00:22:05,879

thousand eight hundred and eighty eight

528

00:22:10,370 --> 00:22:08,190

numbers far above that what is the

529

00:22:12,530 --> 00:22:10,380

latest when it comes to crypto

530

00:22:15,980 --> 00:22:12,540

markets and maybe not just the value but

531

00:22:18,590 --> 00:22:15,990

even this transition of the economy from

532

00:22:21,560 --> 00:22:18,600

Fiat to the blockchain I mean is this

533

00:22:25,300 --> 00:22:21,570

still something you're bullish about Oh

534

00:22:29,120 --> 00:22:25,310

certainly okay so we're at a very

535

00:22:31,900 --> 00:22:29,130

interesting time because of the real

536

00:22:36,010 --> 00:22:31,910

work that's being done in the lack of

537

00:22:39,050 --> 00:22:36,020

sensationalistic speculative verbage in

538

00:22:42,350 --> 00:22:39,060

multiple media sources so we don't have

539

00:22:45,800 --> 00:22:42,360

the excitement levels that we had before

540

00:22:50,480 --> 00:22:45,810

but we've got far more actual progress

541

00:22:52,250 --> 00:22:50,490

than we had in 2000 17 and 18 so the

542

00:22:55,250 --> 00:22:52,260

situation we had those we crossed into

543

00:22:57,560 --> 00:22:55,260

2018 with the large run-up and then the

544

00:22:59,840 --> 00:22:57,570

subsequent crash replicates what

545

00:23:03,380 --> 00:22:59,850

happened when Bitcoin was basically out

546

00:23:06,020 --> 00:23:03,390

of the gate in mount GOx in 2013 and

547

00:23:08,720 --> 00:23:06,030

crashed from 1,100 down to a hundred and

548

00:23:11,360 --> 00:23:08,730

something I think was like maybe 130 on

549

00:23:13,730 --> 00:23:11,370

some exchanges now we've got a very

550

00:23:15,770 --> 00:23:13,740

interesting situation arising then a

551  
00:23:18,020 --> 00:23:15,780  
reason that this is arising is because a

552  
00:23:20,180 --> 00:23:18,030  
lot of crypto companies are failing and

553  
00:23:22,670 --> 00:23:20,190  
this is actually turns out to be good

554  
00:23:25,130 --> 00:23:22,680  
because they're clearing out weakness

555  
00:23:26,450 --> 00:23:25,140  
out of the market and distraction out of

556  
00:23:28,520 --> 00:23:26,460  
the market and then there we have a lot

557  
00:23:30,950 --> 00:23:28,530  
of crypto companies and coins that are

558  
00:23:32,650 --> 00:23:30,960  
doing very well and they're doing well

559  
00:23:35,210 --> 00:23:32,660  
because they're actually achieving

560  
00:23:37,370 --> 00:23:35,220  
traction in particular markets or

561  
00:23:39,320 --> 00:23:37,380  
achieving traction with particular goals

562  
00:23:42,350 --> 00:23:39,330  
that they'd set out when they had their

563  
00:23:45,140 --> 00:23:42,360

first forays into crypto space we also

564

00:23:47,960 --> 00:23:45,150

have a situation where regulation is now

565

00:23:52,220 --> 00:23:47,970

starting to get moving

566

00:23:54,590 --> 00:23:52,230

and start to catch up with the existing

567

00:23:57,320 --> 00:23:54,600

regulation with those things that it can

568

00:24:00,140 --> 00:23:57,330

in terms of dealing with bad actors in

569

00:24:02,840 --> 00:24:00,150

the markets and so the markets are

570

00:24:05,900 --> 00:24:02,850

becoming just through regulation are

571

00:24:07,490 --> 00:24:05,910

becoming more acceptable because the

572

00:24:09,740 --> 00:24:07,500

level of risk is perceived to be

573

00:24:11,720 --> 00:24:09,750

dropping it's no longer considered the

574

00:24:13,880 --> 00:24:11,730

Wild West because there's a few sheriffs

575

00:24:16,640 --> 00:24:13,890

now showing up in some of the towns and

576  
00:24:20,720 --> 00:24:16,650  
as a result of that we're seeing a

577  
00:24:23,060 --> 00:24:20,730  
broader adoption of the concepts that

578  
00:24:24,080 --> 00:24:23,070  
were talked about justice concepts in

579  
00:24:25,899 --> 00:24:24,090  
2003

580  
00:24:28,720 --> 00:24:25,909  
13 and 14 in the banking business

581  
00:24:32,000 --> 00:24:28,730  
conferences now be rolled out into

582  
00:24:32,899 --> 00:24:32,010  
functioning systems this year and into

583  
00:24:34,760 --> 00:24:32,909  
next year

584  
00:24:36,799 --> 00:24:34,770  
there's critical areas that were

585  
00:24:39,169 --> 00:24:36,809  
crossing this year though relative to

586  
00:24:41,149 --> 00:24:39,179  
the whole crypto story and so for

587  
00:24:44,659 --> 00:24:41,159  
instance paying attention to Bitcoin at

588  
00:24:48,019 --> 00:24:44,669

this moment might give you a skewed

589

00:24:50,510 --> 00:24:48,029

impression of where things are at and

590

00:24:52,820 --> 00:24:50,520

what's happening better it would be to

591

00:24:54,649 --> 00:24:52,830

look at like coin because like coins

592

00:24:57,380 --> 00:24:54,659

coming through it's having here this

593

00:24:59,570 --> 00:24:57,390

year and is already feeling the effect

594

00:25:01,430 --> 00:24:59,580

of that and this will become more

595

00:25:04,010 --> 00:25:01,440

magnified as we get close to the halving

596

00:25:07,100 --> 00:25:04,020

and then for the 30 or 40 days following

597

00:25:09,169 --> 00:25:07,110

it and then this effect this you could

598

00:25:12,049 --> 00:25:09,179

probably chart to some degree a

599

00:25:15,110 --> 00:25:12,059

correspondence between Bitcoin and it's

600

00:25:19,220 --> 00:25:15,120

having next year and the like coin

601  
00:25:21,799 --> 00:25:19,230  
having this year so in interesting

602  
00:25:23,720 --> 00:25:21,809  
perspectives on things like various

603  
00:25:27,799 --> 00:25:23,730  
different forms of distributed access

604  
00:25:31,310 --> 00:25:27,809  
objects and distributed exchanges and

605  
00:25:34,279 --> 00:25:31,320  
these kind of issues right so for

606  
00:25:37,430 --> 00:25:34,289  
instance throughout 2016 and 17 we had

607  
00:25:40,070 --> 00:25:37,440  
the story of the I SEOs initial coin

608  
00:25:45,169 --> 00:25:40,080  
offerings and those if you will are

609  
00:25:48,950 --> 00:25:45,179  
analogues to a company offering its own

610  
00:25:51,049 --> 00:25:48,960  
stock for sale on a retail market very

611  
00:25:52,880 --> 00:25:51,059  
much like a penny stock right any

612  
00:25:54,980 --> 00:25:52,890  
company can sell stock directly to the

613  
00:25:57,980 --> 00:25:54,990

public if they follow the SCC's rules

614

00:25:59,899 --> 00:25:57,990

for doing so and that they need not have

615

00:26:02,029 --> 00:25:59,909

an initial public offering involve

616

00:26:04,220 --> 00:26:02,039

itself with any financial structure

617

00:26:06,430 --> 00:26:04,230

whatsoever although you note that many

618

00:26:10,340 --> 00:26:06,440

of them do because the market is not

619

00:26:12,740 --> 00:26:10,350

without its peril so now today we have

620

00:26:15,470 --> 00:26:12,750

initial exchange offerings where

621

00:26:17,840 --> 00:26:15,480

companies that are bringing cryptos into

622

00:26:20,060 --> 00:26:17,850

the market for one reason or another go

623

00:26:24,139 --> 00:26:20,070

through and have an exchange offer these

624

00:26:26,180 --> 00:26:24,149

now this is an entirely one level it's a

625

00:26:28,130 --> 00:26:26,190

sort of a meaningless abstraction as to

626  
00:26:30,560 --> 00:26:28,140  
whether the company issues the coins or

627  
00:26:33,710 --> 00:26:30,570  
in exchange does but at the human level

628  
00:26:38,010 --> 00:26:33,720  
it provides another layer that is

629  
00:26:40,410 --> 00:26:38,020  
seemingly providing a sense of surety

630  
00:26:44,280 --> 00:26:40,420  
more certainty in terms of pricing and

631  
00:26:47,310 --> 00:26:44,290  
so on as well as a sense of solidity the

632  
00:26:49,860 --> 00:26:47,320  
reason being that these exchanges don't

633  
00:26:52,740 --> 00:26:49,870  
want to be doing initial exchange

634  
00:26:56,100 --> 00:26:52,750  
offerings on coins that come on out and

635  
00:26:58,290 --> 00:26:56,110  
go bluey and eat up you know 12 to 15

636  
00:27:00,180 --> 00:26:58,300  
million dollars just overnight that kind

637  
00:27:01,290 --> 00:27:00,190  
of thing so they're only going to

638  
00:27:03,840 --> 00:27:01,300

theoretically they're going to be

639

00:27:05,910 --> 00:27:03,850

vetting those coins and stuff that they

640

00:27:07,620 --> 00:27:05,920

actually offer now this this whole

641

00:27:09,450 --> 00:27:07,630

concept is fraught with peril because

642

00:27:11,940 --> 00:27:09,460

you could have bad actors even within

643

00:27:14,580 --> 00:27:11,950

exchanges and you're just assuming that

644

00:27:16,919 --> 00:27:14,590

the exchange has a long-term business

645

00:27:18,840 --> 00:27:16,929

model which tends to favor them being

646

00:27:20,520 --> 00:27:18,850

more honest than a short-term business

647

00:27:22,710 --> 00:27:20,530

model which is let's do this for a

648

00:27:26,070 --> 00:27:22,720

couple of years rake in 300 million and

649

00:27:28,380 --> 00:27:26,080

say bye-bye suckers so you know if you

650

00:27:30,330 --> 00:27:28,390

looked at it the same operation in

651  
00:27:32,669 --> 00:27:30,340  
either perspective yields different

652  
00:27:34,530 --> 00:27:32,679  
results but we're at this interesting

653  
00:27:38,010 --> 00:27:34,540  
stage here because you see that we've

654  
00:27:41,310 --> 00:27:38,020  
got inter country sovereign settlements

655  
00:27:43,370 --> 00:27:41,320  
of oil debt with cryptos so my

656  
00:27:46,710 --> 00:27:43,380  
predictions that came out of the bots

657  
00:27:49,380 --> 00:27:46,720  
really before bitcoin took off in 2014

658  
00:27:51,540 --> 00:27:49,390  
have been shown to be accurate indeed

659  
00:27:54,480 --> 00:27:51,550  
bitcoin is scaled to that level and will

660  
00:27:57,510 --> 00:27:54,490  
scale even more so as we go forward we

661  
00:28:00,919 --> 00:27:57,520  
now have countries that are reacting to

662  
00:28:03,960 --> 00:28:00,929  
the profit that can be made again and

663  
00:28:07,140 --> 00:28:03,970

mining and are demanding that these

664

00:28:10,200 --> 00:28:07,150

miners pay actual costs for mining since

665

00:28:12,120 --> 00:28:10,210

they're so becoming so successful in

666

00:28:14,490 --> 00:28:12,130

their area that they can afford to pay

667

00:28:16,560 --> 00:28:14,500

their actual electricity cost this is

668

00:28:18,150 --> 00:28:16,570

like in Pakistan Bangladesh and a few

669

00:28:19,799 --> 00:28:18,160

other countries where subsidized

670

00:28:23,150 --> 00:28:19,809

electricity has made a lot of people

671

00:28:25,230 --> 00:28:23,160

very wealthy Bitcoin and other miners I

672

00:28:27,650 --> 00:28:25,240

mean anywhere you want to look in the

673

00:28:31,890 --> 00:28:27,660

crypto space it's becoming more and more

674

00:28:34,500 --> 00:28:31,900

part of the emerging sci-fi economy

675

00:28:39,350 --> 00:28:34,510

although you're not going to see a whole

676

00:28:42,240 --> 00:28:39,360

lot of it in the public mainstream media

677

00:28:44,130 --> 00:28:42,250

you'll see more in alternative media but

678

00:28:46,799 --> 00:28:44,140

a curious factor of getting back to the

679

00:28:50,490 --> 00:28:46,809

ensorship is that the death of the I

680

00:28:52,019 --> 00:28:50,500

wrote a blog on my website that I called

681

00:28:54,570 --> 00:28:52,029

the death of predicted when

682

00:28:56,549 --> 00:28:54,580

and in there I note the conditions and

683

00:28:59,369 --> 00:28:56,559

why predictive linguistics has been so

684

00:29:00,749 --> 00:28:59,379

impacted by the censorship but there's a

685

00:29:03,029 --> 00:29:00,759

few things that really need to be

686

00:29:05,759 --> 00:29:03,039

understood it's not just my system

687

00:29:07,830 --> 00:29:05,769

that's impacted by this everyone else

688

00:29:09,509 --> 00:29:07,840

that depends on a linguistically in

689

00:29:12,149 --> 00:29:09,519

terms of you know that's running algos

690

00:29:14,310 --> 00:29:12,159

running various different forms of web

691

00:29:16,499 --> 00:29:14,320

scraping or web spiders and getting

692

00:29:17,879 --> 00:29:16,509

information that way is also going to

693

00:29:20,279 --> 00:29:17,889

run into this so you've got a lot of

694

00:29:22,499 --> 00:29:20,289

companies that do forecasting for stock

695

00:29:24,180 --> 00:29:22,509

market basically they were doing the

696

00:29:26,729 --> 00:29:24,190

same thing that I was which was trying

697

00:29:29,820 --> 00:29:26,739

to do sentiment you know human sentiment

698

00:29:31,589 --> 00:29:29,830

trending around linguistics and so these

699

00:29:33,570 --> 00:29:31,599

guys are snookered - you've got to

700

00:29:36,209 --> 00:29:33,580

happen because we've all been so

701

00:29:39,989 --> 00:29:36,219

constrained and as certain adjectives

702

00:29:42,419 --> 00:29:39,999

become preserves based on the mainstream

703

00:29:45,289 --> 00:29:42,429

media you get into this curious thing

704

00:29:48,839 --> 00:29:45,299

where the mainstream media's ideological

705

00:29:51,269 --> 00:29:48,849

possession is now basically forbidding

706

00:29:54,119 --> 00:29:51,279

them from talking about crypto

707

00:29:55,680 --> 00:29:54,129

currencies and it's doing so not because

708

00:29:57,570 --> 00:29:55,690

of the crypto currencies or the

709

00:30:00,029 --> 00:29:57,580

financials or anything like that but

710

00:30:02,279 --> 00:30:00,039

because of an ideology that says the

711

00:30:04,769 --> 00:30:02,289

crypto currencies are not something that

712

00:30:06,419 --> 00:30:04,779

progressives mess about in it's

713

00:30:08,759 --> 00:30:06,429

something that only conservatives and

714

00:30:14,279 --> 00:30:08,769

the alt-right deal in and so because

715

00:30:16,349 --> 00:30:14,289

it's considered to be you know like I

716

00:30:19,049 --> 00:30:16,359

don't know how they consider I mean it's

717

00:30:21,180 --> 00:30:19,059

the it's just mine numbing to me that

718

00:30:23,700 --> 00:30:21,190

this is actually the case but they are

719

00:30:25,950 --> 00:30:23,710

censoring articles about crypto

720

00:30:27,989 --> 00:30:25,960

currencies or using articles in crypto

721

00:30:30,419 --> 00:30:27,999

currencies in an extremely negative

722

00:30:32,639 --> 00:30:30,429

fashion in the mainstream media with

723

00:30:34,589 --> 00:30:32,649

very few exceptions and the reason has

724

00:30:36,329 --> 00:30:34,599

far less to do with the state of the

725

00:30:37,700 --> 00:30:36,339

financial world than it does to the

726

00:30:40,979 --> 00:30:37,710

state of the political world

727

00:30:43,619 --> 00:30:40,989

hmm well I think that's a great analysis

728

00:30:45,719 --> 00:30:43,629

there definitely kind of keeping that

729

00:30:47,969 --> 00:30:45,729

conversation to alternative media but

730

00:30:50,579 --> 00:30:47,979

then you also have kind of this

731

00:30:52,229 --> 00:30:50,589

hush-hush situation where the Royal

732

00:30:55,950 --> 00:30:52,239

Family's released a crypto coin

733

00:30:57,810 --> 00:30:55,960

Facebook's releasing one Wells Fargo JP

734

00:31:00,060 --> 00:30:57,820

Morgan Chase I mean they're doing things

735

00:31:02,099 --> 00:31:00,070

in this space that they maybe aren't

736

00:31:04,169 --> 00:31:02,109

quite talking about publicly on the

737

00:31:05,760 --> 00:31:04,179

mainstream networks yet and it

738

00:31:08,100 --> 00:31:05,770

definitely seems as if

739

00:31:10,409 --> 00:31:08,110

were being on boarded to digital

740

00:31:12,779 --> 00:31:10,419

everything economy included and I guess

741

00:31:14,490 --> 00:31:12,789

my attitude is I can't stop what the big

742

00:31:16,230 --> 00:31:14,500

machine has planned but if I can make

743

00:31:18,990 --> 00:31:16,240

some money during the transition then so

744

00:31:21,600 --> 00:31:19,000

be it but in previous talks and videos

745

00:31:24,419 --> 00:31:21,610

you talk about this move to crypto and

746

00:31:26,340 --> 00:31:24,429

the blockchain economics as a good thing

747

00:31:29,010 --> 00:31:26,350

for us but what concerns me is that even

748

00:31:32,190 --> 00:31:29,020

though the Fiat system is completely

749

00:31:33,870 --> 00:31:32,200

corrupt cash offers a lot more freedom

750

00:31:35,519 --> 00:31:33,880

from the watchful eye of the

751  
00:31:38,220 --> 00:31:35,529  
surveillance state and if we go the way

752  
00:31:40,649 --> 00:31:38,230  
of the Social Credit System and move

753  
00:31:43,289 --> 00:31:40,659  
away from a cashless society people who

754  
00:31:45,419 --> 00:31:43,299  
upset the applecart like us me maybe

755  
00:31:47,430 --> 00:31:45,429  
could just have our accounts shut off

756  
00:31:50,190 --> 00:31:47,440  
does this sort of stuff concern you

757  
00:31:52,470 --> 00:31:50,200  
about the future at all it's too late

758  
00:31:55,710 --> 00:31:52,480  
it's too late there is no such thing as

759  
00:31:59,279 --> 00:31:55,720  
a cash economy within the dollar realm

760  
00:32:01,529 --> 00:31:59,289  
okay right now I think and you'll have

761  
00:32:03,779 --> 00:32:01,539  
to like go fact-check me on the

762  
00:32:07,830 --> 00:32:03,789  
statistics but I think there's something

763  
00:32:10,860 --> 00:32:07,840

like okay last figure I saw it was \$100

764

00:32:13,440 --> 00:32:10,870

bills and under printed available to be

765

00:32:17,340 --> 00:32:13,450

used there's less than one third of 1%

766

00:32:19,500 --> 00:32:17,350

of such dollars in our current system

767

00:32:22,500 --> 00:32:19,510

and we're already entirely in a digital

768

00:32:25,110 --> 00:32:22,510

system so you have to understand exactly

769

00:32:28,019 --> 00:32:25,120

what's going on here if you thought you

770

00:32:31,440 --> 00:32:28,029

were going to use cash to disappear and

771

00:32:33,930 --> 00:32:31,450

be able to exist in off the grid like in

772

00:32:37,139 --> 00:32:33,940

some kind of a you know a John wick kind

773

00:32:41,039 --> 00:32:37,149

of a movie right you're gonna be very

774

00:32:43,260 --> 00:32:41,049

rudely awakened because the system is

775

00:32:46,919 --> 00:32:43,270

now able to concentrate its

776

00:32:49,380 --> 00:32:46,929

observational power on cash only or cash

777

00:32:51,659 --> 00:32:49,390

majority operations to see who's doing

778

00:32:53,639 --> 00:32:51,669

what they don't do it the same way but

779

00:32:54,960 --> 00:32:53,649

it's very easy to track because it's

780

00:32:56,669 --> 00:32:54,970

such a small part of our total

781

00:32:58,350 --> 00:32:56,679

transactions and the rest of the

782

00:33:00,720 --> 00:32:58,360

transactions are entirely automated

783

00:33:02,909 --> 00:33:00,730

there are far better ways to disappear

784

00:33:05,549 --> 00:33:02,919

from the grid than to try dealing with

785

00:33:07,710 --> 00:33:05,559

things in a cash system and there just

786

00:33:09,510 --> 00:33:07,720

is not that much cash right now

787

00:33:12,830 --> 00:33:09,520

everything's digital if the banking

788

00:33:15,990 --> 00:33:12,840

system goes down 98% of all of the

789

00:33:18,720 --> 00:33:16,000

presumed wealth goes away to the minute

790

00:33:20,400 --> 00:33:18,730

that it can't come back up again so

791

00:33:22,620 --> 00:33:20,410

we wouldn't have a cache system this and

792

00:33:25,620 --> 00:33:22,630

the gold or silver is a means of

793

00:33:27,120 --> 00:33:25,630

exchange just is ludicrous anymore it

794

00:33:29,669 --> 00:33:27,130

just is not better happen that there's

795

00:33:32,450 --> 00:33:29,679

going to be any kind of a return to such

796

00:33:35,549 --> 00:33:32,460

a system with our current populations so

797

00:33:37,919 --> 00:33:35,559

absent gigantic die-off in the

798

00:33:40,409 --> 00:33:37,929

population that reached you know the

799

00:33:41,789 --> 00:33:40,419

level of say it have to be double the

800

00:33:43,919 --> 00:33:41,799

black death in order to make a

801  
00:33:45,900 --> 00:33:43,929  
significant impact so we'd have to have

802  
00:33:48,120 --> 00:33:45,910  
two out of every three people die on the

803  
00:33:51,060 --> 00:33:48,130  
planet in order for systems to collapse

804  
00:33:54,150 --> 00:33:51,070  
enough but also civilization to remain

805  
00:33:56,190 --> 00:33:54,160  
large enough to require the large

806  
00:33:58,110 --> 00:33:56,200  
amounts of wealth be able to be

807  
00:34:00,539 --> 00:33:58,120  
transferred and then we would go back to

808  
00:34:04,500 --> 00:34:00,549  
something like gold but failing that we

809  
00:34:06,750 --> 00:34:04,510  
won't so the thing to do the smart human

810  
00:34:09,210 --> 00:34:06,760  
these days in my opinion should become

811  
00:34:11,909 --> 00:34:09,220  
as immersed in the underpinnings of the

812  
00:34:14,669 --> 00:34:11,919  
technological system as they are able to

813  
00:34:17,550 --> 00:34:14,679

grasp and then force themselves beyond

814

00:34:19,440 --> 00:34:17,560

that comfort zone and dig deeper into it

815

00:34:21,240 --> 00:34:19,450

because the more you understand about

816

00:34:23,460 --> 00:34:21,250

this system the more you will realize

817

00:34:26,030 --> 00:34:23,470

its vulnerabilities and those

818

00:34:29,220 --> 00:34:26,040

vulnerabilities also will present to you

819

00:34:32,280 --> 00:34:29,230

legal legitimate opportunities such as

820

00:34:35,070 --> 00:34:32,290

buying Bitcoin like your father did when

821

00:34:37,109 --> 00:34:35,080

a cheap in anticipation of its emergence

822

00:34:39,629 --> 00:34:37,119

into a major global force which is

823

00:34:42,419 --> 00:34:39,639

indeed happening well I think that's

824

00:34:45,270 --> 00:34:42,429

well said because it's kind of

825

00:34:47,940 --> 00:34:45,280

equivalent to the dot-com boom it's like

826

00:34:50,909 --> 00:34:47,950

yes it did turn into largely a data

827

00:34:54,330 --> 00:34:50,919

driven digital dystopia surveillance

828

00:34:56,040 --> 00:34:54,340

state but if you educated yourself on it

829

00:34:58,170 --> 00:34:56,050

when it was first started you probably

830

00:35:00,090 --> 00:34:58,180

would be to an all-right right now and

831

00:35:02,460 --> 00:35:00,100

maybe we're in another phase of that

832

00:35:04,560 --> 00:35:02,470

again can't stop the big machine might

833

00:35:07,260 --> 00:35:04,570

as well get educated on where it's going

834

00:35:09,960 --> 00:35:07,270

to go to insulate yourself from it and

835

00:35:11,580 --> 00:35:09,970

you have a video that's about six months

836

00:35:13,680 --> 00:35:11,590

old at this point but you talk a lot

837

00:35:16,020 --> 00:35:13,690

about the panic language you were seeing

838

00:35:18,180 --> 00:35:16,030

and the prospect of a dollar collapse in

839

00:35:20,550 --> 00:35:18,190

the near future obviously economic

840

00:35:23,040 --> 00:35:20,560

collapse predictions are nothing new in

841

00:35:25,200 --> 00:35:23,050

the alternative media but what is the

842

00:35:28,020 --> 00:35:25,210

state of this panic language now and

843

00:35:30,000 --> 00:35:28,030

your thoughts on how soon we could start

844

00:35:31,760 --> 00:35:30,010

seeing some major collapsing of the

845

00:35:34,190 --> 00:35:31,770

traditional systems

846

00:35:36,350 --> 00:35:34,200

well we're sort of seeing it now the

847

00:35:39,470 --> 00:35:36,360

language itself the panic language is

848

00:35:43,570 --> 00:35:39,480

now emerged into mainstream media

849

00:35:46,220 --> 00:35:43,580

mainstream financial media primarily so

850

00:35:49,280 --> 00:35:46,230

we're at that stage where it's

851

00:35:53,120 --> 00:35:49,290

manifesting but as with all things in

852

00:35:56,660 --> 00:35:53,130

such a large society as ours it's going

853

00:36:01,310 --> 00:35:56,670

to be a long continuing process that

854

00:36:02,960 --> 00:36:01,320

takes out things in segments or clumps

855

00:36:05,359 --> 00:36:02,970

or whatever I mean it's not gonna be

856

00:36:06,730 --> 00:36:05,369

like all the business dries up it's

857

00:36:10,130 --> 00:36:06,740

going to be very much as though

858

00:36:12,650 --> 00:36:10,140

technological innovation and currency

859

00:36:15,230 --> 00:36:12,660

issues and liquidity issues force all

860

00:36:17,120 --> 00:36:15,240

different kinds of changes at a very

861

00:36:19,370 --> 00:36:17,130

substantial rate and will be occupied by

862

00:36:21,770 --> 00:36:19,380

these changes for the next 15 years as

863

00:36:24,140 --> 00:36:21,780

they solidified and then in about 15

864

00:36:25,490 --> 00:36:24,150

years we will have a feeling that oh

865

00:36:27,859 --> 00:36:25,500

well this is the way the world always

866

00:36:30,290 --> 00:36:27,869

should have been and always was

867

00:36:32,120 --> 00:36:30,300

basically and in fact we won't recognize

868

00:36:34,370 --> 00:36:32,130

what a huge transition we went through

869

00:36:37,550 --> 00:36:34,380

and that we're in that period of time of

870

00:36:39,560 --> 00:36:37,560

the transition at this moment so we've

871

00:36:42,740 --> 00:36:39,570

got businesses that are shutting down in

872

00:36:45,290 --> 00:36:42,750

China that are moving to open up

873

00:36:48,050 --> 00:36:45,300

operations here in the United States as

874

00:36:51,320 --> 00:36:48,060

a result of these kind of moves a

875

00:36:54,380 --> 00:36:51,330

forecast that I made way back from the

876

00:36:57,440 --> 00:36:54,390

data probably 2005 or something about

877

00:37:00,740 --> 00:36:57,450

retail mall space being converted to

878

00:37:03,680 --> 00:37:00,750

industrial operations is now happening

879

00:37:06,530 --> 00:37:03,690

we've got places like Amazon even as

880

00:37:09,109 --> 00:37:06,540

buying old malls and converting them to

881

00:37:12,260 --> 00:37:09,119

Amazon warehouses so warehousing as I

882

00:37:14,930 --> 00:37:12,270

pointed out in 2005 6 & 7 was going to

883

00:37:17,660 --> 00:37:14,940

be a major industry to be in once things

884

00:37:19,460 --> 00:37:17,670

turned and we're at that point now as I

885

00:37:23,150 --> 00:37:19,470

also pointed out we would get to a stage

886

00:37:27,440 --> 00:37:23,160

where the housing quote industry unquote

887

00:37:30,560 --> 00:37:27,450

would be in a major stall out period

888

00:37:32,060 --> 00:37:30,570

sort of stagflation and where markets

889

00:37:35,300 --> 00:37:32,070

would be crumbling and crashing all

890

00:37:38,030 --> 00:37:35,310

around some more egregious and openly

891

00:37:40,040 --> 00:37:38,040

than others were there now so depending

892

00:37:42,520 --> 00:37:40,050

on where you wanted to buy and your your

893

00:37:46,030 --> 00:37:42,530

resources to do the buying you can find

894

00:37:50,440 --> 00:37:46,040

hugely great real estate deals these

895

00:37:53,050 --> 00:37:50,450

and we're seeing the predicted exodus

896

00:37:56,710 --> 00:37:53,060

from lots of different states and way

897

00:37:58,360 --> 00:37:56,720

back in I think maybe 2000 and say I

898

00:38:00,670 --> 00:37:58,370

think maybe it was five or seven

899

00:38:03,670 --> 00:38:00,680

somewhere in there there was this set of

900

00:38:06,310 --> 00:38:03,680

predictions about interstate financial

901  
00:38:07,990 --> 00:38:06,320  
issues where the federal government was

902  
00:38:10,300 --> 00:38:08,000  
going to have to start acting as a

903  
00:38:11,980 --> 00:38:10,310  
referee if you will between the states

904  
00:38:13,870 --> 00:38:11,990  
as they fought over various different

905  
00:38:16,240 --> 00:38:13,880  
kinds of assets that they were trying to

906  
00:38:18,790 --> 00:38:16,250  
seize from their citizens through the

907  
00:38:21,760 --> 00:38:18,800  
theft that we laughingly call taxation

908  
00:38:24,310 --> 00:38:21,770  
and we're at that point now where one

909  
00:38:26,350 --> 00:38:24,320  
state claims that no no we own the the

910  
00:38:28,390 --> 00:38:26,360  
right to tax this millionaire because he

911  
00:38:30,010 --> 00:38:28,400  
lives here and then another state says

912  
00:38:32,140 --> 00:38:30,020  
no no we own the right to tax and

913  
00:38:34,530 --> 00:38:32,150

because his businesses are here and so

914

00:38:37,090 --> 00:38:34,540

we've gotten to that level due to the

915

00:38:39,520 --> 00:38:37,100

impoverishment of the states as we all

916

00:38:41,380 --> 00:38:39,530

ran into this giant debt issue so the

917

00:38:42,940 --> 00:38:41,390

collapse is here right at the moment

918

00:38:45,880 --> 00:38:42,950

it's big chunks of government that are

919

00:38:48,490 --> 00:38:45,890

collapsing curiously just as was pointed

920

00:38:51,610 --> 00:38:48,500

out in sci-fi world predictions which I

921

00:38:54,820 --> 00:38:51,620

think was like October or so maybe

922

00:38:56,530 --> 00:38:54,830

December of 2016 we're at that point

923

00:38:59,050 --> 00:38:56,540

where as part of all of this the

924

00:39:01,540 --> 00:38:59,060

government's releasing its UFO stuff and

925

00:39:04,960 --> 00:39:01,550

its releasing the UFO stuff as a prelude

926

00:39:06,790 --> 00:39:04,970

to releasing technologies they were

927

00:39:08,920 --> 00:39:06,800

scared shitless of releasing the

928

00:39:11,950 --> 00:39:08,930

technologies because they were afraid of

929

00:39:13,660 --> 00:39:11,960

people weaponizing because it's so easy

930

00:39:16,270 --> 00:39:13,670

to turn the same kind of technology that

931

00:39:18,520 --> 00:39:16,280

makes an antigravity device into one

932

00:39:20,560 --> 00:39:18,530

hell of a weapon or actually dozens of

933

00:39:23,110 --> 00:39:20,570

different kinds of weapons but they're

934

00:39:25,420 --> 00:39:23,120

doing it now because they're basically

935

00:39:27,730 --> 00:39:25,430

in a bind the evolution of the planet

936

00:39:30,640 --> 00:39:27,740

depends on it at one level evolutionary

937

00:39:32,680 --> 00:39:30,650

processes are heard to stop humanity is

938

00:39:35,110 --> 00:39:32,690

going forth they know other countries

939

00:39:36,700 --> 00:39:35,120

are not as worried about their citizenry

940

00:39:39,640 --> 00:39:36,710

getting hold of some of the stuff the

941

00:39:42,579 --> 00:39:39,650

same way that our government is and they

942

00:39:45,430 --> 00:39:42,589

are some kind of an increased

943

00:39:49,420 --> 00:39:45,440

pressure from the UFOs from the let's

944

00:39:52,059 --> 00:39:49,430

just say alien problem that is pushing

945

00:39:54,009 --> 00:39:52,069

government to act now and I think that

946

00:39:56,589 --> 00:39:54,019

the acting now is part of a plan that's

947

00:39:58,239 --> 00:39:56,599

been in the works for a number of years

948

00:40:00,309 --> 00:39:58,249

that is to say has been on the Shelf and

949

00:40:02,109 --> 00:40:00,319

they're rolling it out and that they're

950

00:40:04,239 --> 00:40:02,119

rolling it out as a result of being

951  
00:40:07,089 --> 00:40:04,249  
prompted by some kind of interaction

952  
00:40:08,529 --> 00:40:07,099  
between government and aliens so

953  
00:40:10,269 --> 00:40:08,539  
basically they've got to do it now

954  
00:40:12,400 --> 00:40:10,279  
because they know some shits coming down

955  
00:40:14,579 --> 00:40:12,410  
the road and that'll get us all whipped

956  
00:40:18,249 --> 00:40:14,589  
up if we're not somewhat prepped for it

957  
00:40:20,170 --> 00:40:18,259  
hmm well said I'm really glad you went

958  
00:40:22,329 --> 00:40:20,180  
there cuz that was gonna be my next

959  
00:40:24,670 --> 00:40:22,339  
question was about the sci-fi world and

960  
00:40:26,769 --> 00:40:24,680  
folding in the woo a bit as you

961  
00:40:28,930 --> 00:40:26,779  
mentioned in this sci-fi World Report

962  
00:40:32,049 --> 00:40:28,940  
one of your older reports you call the

963  
00:40:33,700 --> 00:40:32,059

2020s the soaring 20s with a picture of

964

00:40:36,370 --> 00:40:33,710

people in a flying craft like the

965

00:40:38,380 --> 00:40:36,380

Jetsons and I was gonna ask if we are on

966

00:40:41,200 --> 00:40:38,390

the cusp of this technological rollout

967

00:40:43,630 --> 00:40:41,210

you clearly just told us we are but what

968

00:40:46,390 --> 00:40:43,640

are the big indicators that we should

969

00:40:49,359 --> 00:40:46,400

look for or the bullet points along this

970

00:40:51,609 --> 00:40:49,369

timeline we should be citing as evidence

971

00:40:53,859 --> 00:40:51,619

for people who are maybe more skeptical

972

00:40:55,930 --> 00:40:53,869

or who've heard this before that

973

00:40:57,880 --> 00:40:55,940

disclosure is coming I mean this is a

974

00:41:01,059 --> 00:40:57,890

kind of very controlled and maybe

975

00:41:02,589 --> 00:41:01,069

deceptive disclosure but what would we

976

00:41:05,529 --> 00:41:02,599

say to make the case that it is

977

00:41:07,359 --> 00:41:05,539

happening well the thing is disclosure

978

00:41:10,599 --> 00:41:07,369

has been happening since the first

979

00:41:14,799 --> 00:41:10,609

reports of flying discs around Mount

980

00:41:17,319 --> 00:41:14,809

Rainier in 1946 I think it was by pilots

981

00:41:20,049 --> 00:41:17,329

right then we had the crash in 47 we've

982

00:41:22,870 --> 00:41:20,059

been seeing disclosure all around us my

983

00:41:24,940 --> 00:41:22,880

entire life has been lived in that

984

00:41:26,769 --> 00:41:24,950

disclosure creeping into the technology

985

00:41:29,049 --> 00:41:26,779

in which I now operate and surround

986

00:41:31,479 --> 00:41:29,059

myself which also is responsible for the

987

00:41:33,549 --> 00:41:31,489

electromagnetic radiation that probably

988

00:41:36,190 --> 00:41:33,559

contributes to the cancer that I had as

989

00:41:38,620 --> 00:41:36,200

well as everybody else's and so we've

990

00:41:40,479 --> 00:41:38,630

all been immersed in it all of our lives

991

00:41:43,390 --> 00:41:40,489

the bubble heads that are out there

992

00:41:45,400 --> 00:41:43,400

saying oh oh Obama or Trump is gonna

993

00:41:47,200 --> 00:41:45,410

come on out and Pat a little alien on

994

00:41:49,329 --> 00:41:47,210

the head and shake his hand and all that

995

00:41:50,829 --> 00:41:49,339

kind of stuff or exactly that their

996

00:41:54,339 --> 00:41:50,839

bubble heads that are part of the WoW

997

00:41:56,030 --> 00:41:54,349

crowd that want to live on the edge of

998

00:41:58,340 --> 00:41:56,040

what they think of as

999

00:42:00,410 --> 00:41:58,350

discovery or disclosure but really all

1000

00:42:02,870 --> 00:42:00,420

they're doing is responding to dopamine

1001  
00:42:05,570 --> 00:42:02,880  
in their brain that creates this shock

1002  
00:42:08,180 --> 00:42:05,580  
of the new effect okay they are waiting

1003  
00:42:10,160 --> 00:42:08,190  
for this shock of the new and because

1004  
00:42:12,170 --> 00:42:10,170  
they're waiting for it to appear their

1005  
00:42:14,990 --> 00:42:12,180  
mind has created some kind of an image

1006  
00:42:18,020 --> 00:42:15,000  
as to what disclosure is or or should be

1007  
00:42:21,020 --> 00:42:18,030  
and they insist that everything else is

1008  
00:42:22,940 --> 00:42:21,030  
fake disclosure or limited disclosure or

1009  
00:42:24,980 --> 00:42:22,950  
something along these lines really

1010  
00:42:26,570 --> 00:42:24,990  
what's going on is their minds are so

1011  
00:42:29,180 --> 00:42:26,580  
limited they can only conceive of

1012  
00:42:31,700 --> 00:42:29,190  
disclosure in their framework and it's

1013  
00:42:33,500 --> 00:42:31,710

never going to happen that way and in

1014

00:42:35,750 --> 00:42:33,510

fact if they were to simply open up

1015

00:42:38,420 --> 00:42:35,760

their eyes and stop trying to control

1016

00:42:40,790 --> 00:42:38,430

the narrative and to thereby profit from

1017

00:42:42,740 --> 00:42:40,800

that control then they would see that

1018

00:42:46,160 --> 00:42:42,750

disclosure is actually occurring around

1019

00:42:47,840 --> 00:42:46,170

us all the time and it's falling out of

1020

00:42:49,940 --> 00:42:47,850

the government in all different

1021

00:42:51,170 --> 00:42:49,950

directions as the technology is creeping

1022

00:42:53,990 --> 00:42:51,180

on out and that's the thing about

1023

00:42:55,430 --> 00:42:54,000

disclosure basically if for instance the

1024

00:42:57,470 --> 00:42:55,440

government came out and said hey here's

1025

00:42:59,540 --> 00:42:57,480

an alien everybody look at him on TV and

1026  
00:43:01,490 --> 00:42:59,550  
you know we'll even you know an anal

1027  
00:43:03,710 --> 00:43:01,500  
probe the alien here on TV and he'll

1028  
00:43:05,510 --> 00:43:03,720  
scream and you'll tell he's an alien and

1029  
00:43:07,250 --> 00:43:05,520  
then they just say and he's here in

1030  
00:43:09,230 --> 00:43:07,260  
Washington DC and anybody that wanted to

1031  
00:43:10,820 --> 00:43:09,240  
come and talk to him can talk to him if

1032  
00:43:13,790 --> 00:43:10,830  
they just did that but it had no other

1033  
00:43:16,010 --> 00:43:13,800  
impact on our lives the impact of

1034  
00:43:18,290 --> 00:43:16,020  
disclosure would be in who cares right

1035  
00:43:20,210 --> 00:43:18,300  
pokemon is more interesting than a

1036  
00:43:22,370 --> 00:43:20,220  
little grey alien that sits there and

1037  
00:43:25,160 --> 00:43:22,380  
basically is a some kind of an organ or

1038  
00:43:27,050 --> 00:43:25,170

a bot but what really is the impact on

1039

00:43:29,690 --> 00:43:27,060

our lives the reason that disclosure is

1040

00:43:31,970 --> 00:43:29,700

seen is such a big deal is because of

1041

00:43:34,790 --> 00:43:31,980

the technology and the fundamentally the

1042

00:43:37,370 --> 00:43:34,800

ability to control energy fields that is

1043

00:43:40,340 --> 00:43:37,380

at the core of what we think of as free

1044

00:43:41,690 --> 00:43:40,350

energy the antigrav it expect row groove

1045

00:43:43,280 --> 00:43:41,700

it expand then all of the other

1046

00:43:44,750 --> 00:43:43,290

electrodes so there will be all

1047

00:43:46,790 --> 00:43:44,760

different kinds of things like electro

1048

00:43:50,060 --> 00:43:46,800

filtering electro mining you know

1049

00:43:51,650 --> 00:43:50,070

electro this that the other and it's all

1050

00:43:53,630 --> 00:43:51,660

because we'll really start learning how

1051  
00:43:55,640 --> 00:43:53,640  
to control electricity in ways we hadn't

1052  
00:43:57,890 --> 00:43:55,650  
even considered bear in mind that when

1053  
00:44:00,470 --> 00:43:57,900  
the Roswell crash or those crashes of

1054  
00:44:03,770 --> 00:44:00,480  
space alien vessels in the night summer

1055  
00:44:05,900 --> 00:44:03,780  
of 1947 occurred we were really we were

1056  
00:44:08,030 --> 00:44:05,910  
still in the process of electrifying the

1057  
00:44:09,780 --> 00:44:08,040  
continent on which we live it had not

1058  
00:44:12,360 --> 00:44:09,790  
been fully accomplished at that

1059  
00:44:14,340 --> 00:44:12,370  
stage so all of our citizens didn't even

1060  
00:44:16,800 --> 00:44:14,350  
have access to electricity and the

1061  
00:44:18,690 --> 00:44:16,810  
electricity that we had was the crudest

1062  
00:44:20,910 --> 00:44:18,700  
form of control that you can possibly

1063  
00:44:24,170 --> 00:44:20,920

achieve and still spread the stuff

1064

00:44:26,990 --> 00:44:24,180

around so we were basically in a sense a

1065

00:44:29,670 --> 00:44:27,000

electromagnetic sense we were akin to

1066

00:44:31,650 --> 00:44:29,680

cavemen gathering around fire they had

1067

00:44:33,270 --> 00:44:31,660

achieved fire and they could cook their

1068

00:44:35,010 --> 00:44:33,280

food with it but they had no real

1069

00:44:37,440 --> 00:44:35,020

concept of you know how to avoid its

1070

00:44:38,790 --> 00:44:37,450

dangers of you know monoxide poisoning

1071

00:44:40,530 --> 00:44:38,800

and all of this kind of thing so we were

1072

00:44:43,020 --> 00:44:40,540

at that level of our dealing with

1073

00:44:45,150 --> 00:44:43,030

electricity now look at us we have the

1074

00:44:47,100 --> 00:44:45,160

ability to control some the

1075

00:44:48,540 --> 00:44:47,110

electromagnetic fields to such a degree

1076

00:44:51,660 --> 00:44:48,550

that we're actually able to

1077

00:44:53,700 --> 00:44:51,670

inadvertently engineer systems that are

1078

00:44:55,260 --> 00:44:53,710

gonna kill us all such as the 5g

1079

00:44:57,960 --> 00:44:55,270

radiation right we'll give everybody

1080

00:45:00,660 --> 00:44:57,970

cancer that exists in that stuff and as

1081

00:45:03,000 --> 00:45:00,670

the electromagnetic radiation from 4G is

1082

00:45:05,310 --> 00:45:03,010

in my way of thinking one of the primary

1083

00:45:07,170 --> 00:45:05,320

reasons that 9 out of 10 dogs are going

1084

00:45:09,330 --> 00:45:07,180

to die of cancer now and we're

1085

00:45:11,670 --> 00:45:09,340

approaching that very rapidly some vets

1086

00:45:14,220 --> 00:45:11,680

are saying that we've already passed 50%

1087

00:45:17,460 --> 00:45:14,230

of all the dogs and cats and their care

1088

00:45:20,130 --> 00:45:17,470

dying of cancers and you know they live

1089

00:45:21,810 --> 00:45:20,140

in an electromagnetic stew like us but

1090

00:45:23,790 --> 00:45:21,820

something that is interesting here is

1091

00:45:25,650 --> 00:45:23,800

that dogs and cats and horses and these

1092

00:45:28,380 --> 00:45:25,660

other animals that are suffering so much

1093

00:45:30,660 --> 00:45:28,390

from the electromagnetic effects of 4G

1094

00:45:33,510 --> 00:45:30,670

radiation have something we don't have

1095

00:45:35,550 --> 00:45:33,520

they have a lot more chromosomes so dogs

1096

00:45:38,640 --> 00:45:35,560

for instance have thirty nine pairs

1097

00:45:40,470 --> 00:45:38,650

whereas we only have 23 so it may be

1098

00:45:43,260 --> 00:45:40,480

that the shortness of our chromosome

1099

00:45:46,560 --> 00:45:43,270

levels has in some way provided us some

1100

00:45:48,300 --> 00:45:46,570

level of protection to this stage but

1101

00:45:50,610 --> 00:45:48,310

now five g's rolling out at

1102

00:45:52,230 --> 00:45:50,620

submillimetre bandwidth and this is

1103

00:45:54,900 --> 00:45:52,240

going to be able to penetrate even down

1104

00:45:55,470 --> 00:45:54,910

into our DNA levels and so basically

1105

00:45:57,360 --> 00:45:55,480

we're screwed

1106

00:45:59,760 --> 00:45:57,370

mmm you know we're engineering our own

1107

00:46:02,280 --> 00:45:59,770

extinction with the 5g stuff I'm very

1108

00:46:04,050 --> 00:46:02,290

optimistic about things and because of

1109

00:46:06,870 --> 00:46:04,060

the technological leaps that we're going

1110

00:46:10,260 --> 00:46:06,880

to take here I'm really anticipating

1111

00:46:12,360 --> 00:46:10,270

that the forecast that 5g will be a

1112

00:46:15,780 --> 00:46:12,370

flash in the pan that will instantly

1113

00:46:18,570 --> 00:46:15,790

discard for better technology will

1114

00:46:20,270 --> 00:46:18,580

actually emerge so the datasets that had

1115

00:46:23,539 --> 00:46:20,280

provided some of these long-term

1116

00:46:27,980 --> 00:46:23,549

forecasts back through

1117

00:46:30,630 --> 00:46:27,990

let's say 2010 onward up through into

1118

00:46:33,000 --> 00:46:30,640

2014 there was a very large long-term

1119

00:46:35,099 --> 00:46:33,010

data sets then seemed to be very very

1120

00:46:37,349 --> 00:46:35,109

accurate and it was within those larger

1121

00:46:39,599 --> 00:46:37,359

data sets that we got the idea that 5g

1122

00:46:42,630 --> 00:46:39,609

would be a real big problem all kinds of

1123

00:46:44,400 --> 00:46:42,640

people raising hell about it and then it

1124

00:46:45,630 --> 00:46:44,410

would disappear in the course of just a

1125

00:46:47,760 --> 00:46:45,640

couple of years because it would be

1126  
00:46:49,920 --> 00:46:47,770  
replaced by wouldn't even really be

1127  
00:46:52,950 --> 00:46:49,930  
truly rolled out and would be replaced

1128  
00:46:55,950 --> 00:46:52,960  
by some superior technology that would

1129  
00:46:59,039 --> 00:46:55,960  
leapfrog it so far and at such low cost

1130  
00:47:00,510 --> 00:46:59,049  
the no point even dealing with 5g and I

1131  
00:47:03,109 --> 00:47:00,520  
think we're almost there with some of

1132  
00:47:04,950 --> 00:47:03,119  
the quantum entangled particle

1133  
00:47:07,079 --> 00:47:04,960  
teleportation experiments and these

1134  
00:47:09,660 --> 00:47:07,089  
kinds of things going on because then

1135  
00:47:12,150 --> 00:47:09,670  
you don't need carrier waves okay and so

1136  
00:47:14,339 --> 00:47:12,160  
instantly if we had this happen say that

1137  
00:47:16,410 --> 00:47:14,349  
we had a little chip that could work off

1138  
00:47:19,140 --> 00:47:16,420

of quantum entangled carbon particles

1139

00:47:21,990 --> 00:47:19,150

and our best guess at the moment is the

1140

00:47:24,720 --> 00:47:22,000

carbon c60 could be broken up and each

1141

00:47:27,390 --> 00:47:24,730

molecule could be for each atom would

1142

00:47:29,670 --> 00:47:27,400

instantly be entangled with the other 59

1143

00:47:31,950 --> 00:47:29,680

atoms and then you could take one from

1144

00:47:34,200 --> 00:47:31,960

those and entangle it with another 59

1145

00:47:36,510 --> 00:47:34,210

and into another c60 and then all of

1146

00:47:38,519 --> 00:47:36,520

them combined would be so entangled and

1147

00:47:40,920 --> 00:47:38,529

so on and so there would be no need to

1148

00:47:43,950 --> 00:47:40,930

have a carrier wave and so you'd put one

1149

00:47:45,870 --> 00:47:43,960

carbon atom in your phone and one would

1150

00:47:47,779 --> 00:47:45,880

be in everybody else's phone and they

1151  
00:47:50,190 --> 00:47:47,789  
would all be basically tuned to the same

1152  
00:47:53,010 --> 00:47:50,200  
entanglement for lack of a better word

1153  
00:47:54,720 --> 00:47:53,020  
frequency the pulse really is what it is

1154  
00:47:56,430 --> 00:47:54,730  
and then you wouldn't need the radio

1155  
00:47:57,930 --> 00:47:56,440  
wave to carry information to you it

1156  
00:47:59,910 --> 00:47:57,940  
would be done through that entangled

1157  
00:48:01,529 --> 00:47:59,920  
particle and it would be instantly

1158  
00:48:03,150 --> 00:48:01,539  
available anywhere on the planet without

1159  
00:48:06,150 --> 00:48:03,160  
the need for any kind of a tower

1160  
00:48:08,640 --> 00:48:06,160  
anywhere of any kind and so we wouldn't

1161  
00:48:10,260 --> 00:48:08,650  
have radio frequency for cellphones we

1162  
00:48:12,000 --> 00:48:10,270  
would just use this entanglement thing

1163  
00:48:13,440 --> 00:48:12,010

and I think it could be swapped over to

1164

00:48:15,420 --> 00:48:13,450

where our production would go fairly

1165

00:48:18,420 --> 00:48:15,430

rapidly and we might see that you know

1166

00:48:21,150 --> 00:48:18,430

maybe it would happen in 2020 and so

1167

00:48:23,640 --> 00:48:21,160

prior at 2020 a great shift takes place

1168

00:48:26,579 --> 00:48:23,650

and we suddenly swap over to entangled

1169

00:48:30,029 --> 00:48:26,589

particle communications at all levels

1170

00:48:32,730 --> 00:48:30,039

for televisions for internet for

1171

00:48:35,069 --> 00:48:32,740

telephones for anything you can think of

1172

00:48:36,870 --> 00:48:35,079

and at that point then the previous

1173

00:48:38,999 --> 00:48:36,880

technology would die to the point

1174

00:48:41,220 --> 00:48:39,009

where we would have an industry as was

1175

00:48:43,440 --> 00:48:41,230

forecast in those long term data sets of

1176

00:48:45,509 --> 00:48:43,450

people that would be taking down the

1177

00:48:47,279 --> 00:48:45,519

cell towers that would be demolishing

1178

00:48:50,009 --> 00:48:47,289

all of the old industry and putting it

1179

00:48:52,559 --> 00:48:50,019

back to uses resources because it had

1180

00:48:54,720 --> 00:48:52,569

been superseded so I'm I'm not really

1181

00:48:56,220 --> 00:48:54,730

worried about 5g but I don't want any of

1182

00:49:00,089 --> 00:48:56,230

it around me because this stuff is

1183

00:49:02,279 --> 00:49:00,099

basically really deadly yes but it seems

1184

00:49:04,589 --> 00:49:02,289

like your overall forecast is pretty

1185

00:49:09,029 --> 00:49:04,599

optimistic I've also heard you talk

1186

00:49:11,519 --> 00:49:09,039

about 5g in the context of DNA scanning

1187

00:49:14,039 --> 00:49:11,529

and we've heard from many previous

1188

00:49:16,349 --> 00:49:14,049

guests that we have hybrids among us

1189

00:49:19,440 --> 00:49:16,359

there is some type of as you mentioned

1190

00:49:22,980 --> 00:49:19,450

earlier alien problem and I did think it

1191

00:49:26,480 --> 00:49:22,990

was pretty mind-blowing and creative to

1192

00:49:29,640 --> 00:49:26,490

think about this technology as a sort of

1193

00:49:31,950 --> 00:49:29,650

hybrid detection system do you think

1194

00:49:34,620 --> 00:49:31,960

that's part of the reason for this

1195

00:49:37,349 --> 00:49:34,630

rollout is that still in the cards okay

1196

00:49:40,289 --> 00:49:37,359

that's my thinking about the 5g full

1197

00:49:41,700 --> 00:49:40,299

back scatter radiation devices that TSA

1198

00:49:43,140 --> 00:49:41,710

runs at the airport I don't even know if

1199

00:49:45,150 --> 00:49:43,150

they still do it I haven't flown in so

1200

00:49:48,509 --> 00:49:45,160

long but those back scatter radiation

1201  
00:49:52,559 --> 00:49:48,519  
devices with 5g in my opinion are there

1202  
00:49:56,670 --> 00:49:52,569  
to only or primarily to find deviant DNA

1203  
00:49:58,859 --> 00:49:56,680  
non human DNA and any other effect from

1204  
00:50:01,799 --> 00:49:58,869  
them is basically ancillary other than

1205  
00:50:03,420 --> 00:50:01,809  
the production of profit okay so some

1206  
00:50:04,980 --> 00:50:03,430  
company made a lot of money but they're

1207  
00:50:07,410 --> 00:50:04,990  
really not all that effective for

1208  
00:50:09,690 --> 00:50:07,420  
finding stuff right and there's a lot of

1209  
00:50:12,029 --> 00:50:09,700  
ways to get stuff through those scanners

1210  
00:50:14,789 --> 00:50:12,039  
even though they theoretically see

1211  
00:50:18,269 --> 00:50:14,799  
everything and so they're extremely

1212  
00:50:20,220 --> 00:50:18,279  
expensive very tedious to operate very

1213  
00:50:22,380 --> 00:50:20,230

dangerous to operate they have a high

1214

00:50:24,599 --> 00:50:22,390

insurance liability for the operators

1215

00:50:26,309 --> 00:50:24,609

because of the cancers that they caused

1216

00:50:27,809 --> 00:50:26,319

for the people that turn the switches on

1217

00:50:29,849 --> 00:50:27,819

and off and stand near and when the

1218

00:50:32,430 --> 00:50:29,859

capacitors release the charge and get

1219

00:50:35,279 --> 00:50:32,440

everything fired up and so on so the

1220

00:50:38,130 --> 00:50:35,289

operational costs and the industry level

1221

00:50:39,960 --> 00:50:38,140

liabilities would say the company would

1222

00:50:42,450 --> 00:50:39,970

be foolish to ever do this without a

1223

00:50:44,519 --> 00:50:42,460

government guarantees of no suits by

1224

00:50:46,799 --> 00:50:44,529

employees for cancers or something along

1225

00:50:49,380 --> 00:50:46,809

those lines and some kind of a

1226

00:50:50,250 --> 00:50:49,390

guaranteed profit off of them so I'm

1227

00:50:52,560 --> 00:50:50,260

thinking that well

1228

00:50:54,330 --> 00:50:52,570

the government did do that so the reason

1229

00:50:57,060 --> 00:50:54,340

it did that was not to promote a

1230

00:50:59,160 --> 00:50:57,070

scanning industry because once the

1231

00:51:00,690 --> 00:50:59,170

airports and TSA was covered you don't

1232

00:51:02,280 --> 00:51:00,700

see that there being these scanners are

1233

00:51:05,070 --> 00:51:02,290

being put in every grocery store or

1234

00:51:07,349 --> 00:51:05,080

anything like that right and so the

1235

00:51:09,630 --> 00:51:07,359

reason that they were stuck only in

1236

00:51:12,690 --> 00:51:09,640

airports makes sense relative to the

1237

00:51:15,960 --> 00:51:12,700

mobility of our population and hunting

1238

00:51:18,390 --> 00:51:15,970

for hybrids and non-human DNA I think

1239

00:51:20,400 --> 00:51:18,400

that that is indeed a primary reason for

1240

00:51:22,440 --> 00:51:20,410

it now you can also do that same effect

1241

00:51:24,930 --> 00:51:22,450

you can also get that same in kind of

1242

00:51:27,990 --> 00:51:24,940

information if you had your receivers

1243

00:51:29,550 --> 00:51:28,000

that were mobile and see in the in the

1244

00:51:31,050 --> 00:51:29,560

airport system it's the people going

1245

00:51:33,270 --> 00:51:31,060

through it that are mobile and the

1246

00:51:35,700 --> 00:51:33,280

receiver in the radiation systems are

1247

00:51:39,300 --> 00:51:35,710

stationary but you can achieve the same

1248

00:51:42,030 --> 00:51:39,310

effect with mobile people and stationary

1249

00:51:43,859 --> 00:51:42,040

emitters of the radiation and mobile

1250

00:51:46,440 --> 00:51:43,869

receivers you could just drive around

1251  
00:51:48,599 --> 00:51:46,450  
with a receiver for instance receiving

1252  
00:51:50,790 --> 00:51:48,609  
plate you could even put it on a truck

1253  
00:51:52,200 --> 00:51:50,800  
on a panel truck and probably wouldn't

1254  
00:51:54,210 --> 00:51:52,210  
even know it was there make it look like

1255  
00:51:56,490 --> 00:51:54,220  
a billboard or advertising or something

1256  
00:51:59,280 --> 00:51:56,500  
and just drive around and it would scan

1257  
00:52:01,620 --> 00:51:59,290  
people on the street based on how the 5g

1258  
00:52:04,349 --> 00:52:01,630  
was bouncing off of them and be able to

1259  
00:52:06,210 --> 00:52:04,359  
tell you whether or not that DNA was

1260  
00:52:08,760 --> 00:52:06,220  
hybrid whether or not that was a space

1261  
00:52:10,080 --> 00:52:08,770  
alien hybrid basically so you could do

1262  
00:52:13,500 --> 00:52:10,090  
it that way and it actually would be

1263  
00:52:14,730 --> 00:52:13,510

very much more cost-effective so that

1264

00:52:19,380 --> 00:52:14,740

would be the only way that you could

1265

00:52:20,610 --> 00:52:19,390

make the 5g work at that level for the

1266

00:52:22,260 --> 00:52:20,620

government

1267

00:52:23,820 --> 00:52:22,270

or for whoever's trying to track the

1268

00:52:25,050 --> 00:52:23,830

aliens I'm assuming that there was

1269

00:52:27,420 --> 00:52:25,060

someone trying to track him through the

1270

00:52:29,420 --> 00:52:27,430

airports that it was mildly successful

1271

00:52:31,950 --> 00:52:29,430

up to a certain point and then the

1272

00:52:34,260 --> 00:52:31,960

targeted individuals just stopped going

1273

00:52:37,410 --> 00:52:34,270

through airports for their travel and so

1274

00:52:38,970 --> 00:52:37,420

this caused the drop-off in the number

1275

00:52:41,280 --> 00:52:38,980

of reported instances that they were

1276  
00:52:43,770 --> 00:52:41,290  
then able to track and so it was at that

1277  
00:52:46,980 --> 00:52:43,780  
point that we saw the big rollout or the

1278  
00:52:51,330 --> 00:52:46,990  
big push in the background media that

1279  
00:52:53,850 --> 00:52:51,340  
prepared the telcos to push for 5g and

1280  
00:52:56,150 --> 00:52:53,860  
then it stated all of these reasons and

1281  
00:52:58,860 --> 00:52:56,160  
I noticed a number of years ago say

1282  
00:53:01,380 --> 00:52:58,870  
seven or eight years ago that there was

1283  
00:53:03,630 --> 00:53:01,390  
a in the back-channel telco publications

1284  
00:53:06,840 --> 00:53:03,640  
there was a list of like seven reasons

1285  
00:53:10,680 --> 00:53:06,850  
to switch over to 5g and they presented

1286  
00:53:12,300 --> 00:53:10,690  
seven prompts to profit to companies in

1287  
00:53:14,700 --> 00:53:12,310  
order to do this but only one of them

1288  
00:53:16,740 --> 00:53:14,710

has really taken and one of them is the

1289

00:53:18,420 --> 00:53:16,750

one that's being sold to the public and

1290

00:53:20,190 --> 00:53:18,430

they were it was basically a trial

1291

00:53:22,260 --> 00:53:20,200

balloon when they did those articles at

1292

00:53:24,480 --> 00:53:22,270

that time seven or eight years ago was

1293

00:53:26,670 --> 00:53:24,490

to see what should these reasons they

1294

00:53:28,320 --> 00:53:26,680

would be able to sell 5g width and the

1295

00:53:31,620 --> 00:53:28,330

idea was that it would be this

1296

00:53:32,940 --> 00:53:31,630

enhancement to your devices such as you

1297

00:53:35,100 --> 00:53:32,950

can instantly get all this information

1298

00:53:36,690 --> 00:53:35,110

about every damn thing around you just

1299

00:53:39,720 --> 00:53:36,700

because you were continually connected

1300

00:53:42,180 --> 00:53:39,730

at bandwidth so massively wide that it

1301  
00:53:44,670 --> 00:53:42,190  
would be incredibly cheap and so you

1302  
00:53:47,160 --> 00:53:44,680  
could you know point your camera at a

1303  
00:53:49,500 --> 00:53:47,170  
plant and have you know the world's

1304  
00:53:52,230 --> 00:53:49,510  
botanists identify it for you in real

1305  
00:53:53,610 --> 00:53:52,240  
time basically as well as give you any

1306  
00:53:55,530 --> 00:53:53,620  
kind of information he went about it

1307  
00:53:57,960 --> 00:53:55,540  
just because they could pump it through

1308  
00:54:00,690 --> 00:53:57,970  
all of the bandwidth now that's true 5g

1309  
00:54:03,420 --> 00:54:00,700  
is incredible as a carrier but it's also

1310  
00:54:05,790 --> 00:54:03,430  
incredibly deadly as we've seen

1311  
00:54:07,260 --> 00:54:05,800  
especially with the protests and stuff

1312  
00:54:10,170 --> 00:54:07,270  
but you know the first place I ever

1313  
00:54:15,660 --> 00:54:10,180

encountered the stuff was in a genealogy

1314

00:54:17,850 --> 00:54:15,670

laboratory with fish that's interesting

1315

00:54:20,070 --> 00:54:17,860

yeah I was doing some work for the

1316

00:54:22,140 --> 00:54:20,080

Washington State fisheries and they had

1317

00:54:23,760 --> 00:54:22,150

contacts with people up the U of dub and

1318

00:54:26,230 --> 00:54:23,770

on one of these field trips up there

1319

00:54:28,120 --> 00:54:26,240

where I was doing software

1320

00:54:29,560 --> 00:54:28,130

I ran across these guys that said hey

1321

00:54:33,220 --> 00:54:29,570

come and look at this and it was like a

1322

00:54:35,320 --> 00:54:33,230

DNA microscope and it was 5g and it was

1323

00:54:37,510 --> 00:54:35,330

in its only intent was to be able to

1324

00:54:39,010 --> 00:54:37,520

tell you they were in the process of

1325

00:54:40,990 --> 00:54:39,020

writing software to go along with this

1326  
00:54:42,990 --> 00:54:41,000  
device but was to be able to tell you

1327  
00:54:48,160 --> 00:54:43,000  
whether it was hatchery raised or wild

1328  
00:54:49,540 --> 00:54:48,170  
salmon stock Wow interesting so I love

1329  
00:54:51,700 --> 00:54:49,550  
all this it's a little over my head I

1330  
00:54:55,870 --> 00:54:51,710  
like what you said about the prospect of

1331  
00:54:58,990 --> 00:54:55,880  
us moving from this radiation type of

1332  
00:55:01,540 --> 00:54:59,000  
carrier to an entangled particle system

1333  
00:55:03,310 --> 00:55:01,550  
but I guess it depends on who's in

1334  
00:55:05,170 --> 00:55:03,320  
charge and what the agenda is because

1335  
00:55:07,960 --> 00:55:05,180  
the narrative that I'm hearing most

1336  
00:55:11,200 --> 00:55:07,970  
often is that the rollout of this 5g

1337  
00:55:13,120 --> 00:55:11,210  
radiation grid is to facilitate that

1338  
00:55:15,820 --> 00:55:13,130

hybrid life and to do away with

1339

00:55:17,290 --> 00:55:15,830

biological life that the aliens are in

1340

00:55:18,820 --> 00:55:17,300

charge they've compromised the

1341

00:55:21,430 --> 00:55:18,830

governments and the tech companies and

1342

00:55:24,490 --> 00:55:21,440

they're creating say may be digitally

1343

00:55:27,130 --> 00:55:24,500

terraforming the planet for the

1344

00:55:30,130 --> 00:55:27,140

propagation of their life and the

1345

00:55:31,750 --> 00:55:30,140

decline of ours is that anything that

1346

00:55:33,970 --> 00:55:31,760

you think is in the mix is there a

1347

00:55:36,880 --> 00:55:33,980

struggle going on or what's your take on

1348

00:55:38,160 --> 00:55:36,890

that there's a struggle going on there's

1349

00:55:41,440 --> 00:55:38,170

no question about that

1350

00:55:44,650 --> 00:55:41,450

it's an existential struggle so we're

1351  
00:55:46,900 --> 00:55:44,660  
struggling for our existence most of the

1352  
00:55:49,420 --> 00:55:46,910  
humans on the planet are unaware of this

1353  
00:55:52,180 --> 00:55:49,430  
that the struggle is taking place I

1354  
00:55:56,690 --> 00:55:52,190  
agree that they're trying to hybridize

1355  
00:55:58,550 --> 00:55:56,700  
us out of existence but at the same time

1356  
00:56:01,520 --> 00:55:58,560  
I'd have to really think very deeply

1357  
00:56:04,340 --> 00:56:01,530  
about it and I have not but I at this

1358  
00:56:08,930 --> 00:56:04,350  
point I'm not of the opinion that 5g is

1359  
00:56:11,340 --> 00:56:08,940  
an aid to the space aliens okay so

1360  
00:56:15,030 --> 00:56:11,350  
here's the here's the thing right

1361  
00:56:17,310 --> 00:56:15,040  
as I understand the existent space alien

1362  
00:56:19,710 --> 00:56:17,320  
kind of structure we would have to look

1363  
00:56:22,560 --> 00:56:19,720

at some oh well we could look at it in

1364

00:56:25,230 --> 00:56:22,570

basic biological terms here right if for

1365

00:56:27,180 --> 00:56:25,240

instance the top dog space alien was an

1366

00:56:29,340 --> 00:56:27,190

insect they probably don't give a rat's

1367

00:56:31,440 --> 00:56:29,350

ass about five G because insects in the

1368

00:56:32,100 --> 00:56:31,450

main are impervious to electromagnetic

1369

00:56:33,720 --> 00:56:32,110

radiation

1370

00:56:35,340 --> 00:56:33,730

you know cockroaches would survive

1371

00:56:37,770 --> 00:56:35,350

nuclear blasts as long as they're not

1372

00:56:40,590 --> 00:56:37,780

crushed by something falling on them so

1373

00:56:43,590 --> 00:56:40,600

insects in the main are not sensitive to

1374

00:56:45,210 --> 00:56:43,600

it however if we had the idea that the

1375

00:56:46,860 --> 00:56:45,220

insects were behind or anybody was

1376

00:56:49,500 --> 00:56:46,870

behind a breeding program of

1377

00:56:52,650 --> 00:56:49,510

hybridization involving the implantation

1378

00:56:55,290 --> 00:56:52,660

of other DNA within the human genome

1379

00:56:57,690 --> 00:56:55,300

then a couple of things occur the

1380

00:56:59,760 --> 00:56:57,700

hybrids are more vulnerable even if they

1381

00:57:02,010 --> 00:56:59,770

have hybrid vigor in terms of a

1382

00:57:04,860 --> 00:57:02,020

biological term they are still more

1383

00:57:08,460 --> 00:57:04,870

vulnerable because their DNA is spliced

1384

00:57:11,550 --> 00:57:08,470

and that splice DNA is much more

1385

00:57:13,920 --> 00:57:11,560

subjected to potential for damage and

1386

00:57:16,890 --> 00:57:13,930

it's much more of an unknown when

1387

00:57:19,710 --> 00:57:16,900

subjected to radiation and so it would

1388

00:57:21,390 --> 00:57:19,720

be unwise for anybody any space alien

1389

00:57:24,570 --> 00:57:21,400

running such a breeding program with

1390

00:57:26,790 --> 00:57:24,580

human DNA human DNA being known to

1391

00:57:29,970 --> 00:57:26,800

respond to radiation in the form of

1392

00:57:31,680 --> 00:57:29,980

creating cancers within that body and so

1393

00:57:33,330 --> 00:57:31,690

you're gonna make hybrids that you want

1394

00:57:35,640 --> 00:57:33,340

to replace humans

1395

00:57:38,040 --> 00:57:35,650

you're gonna displace in human DNA which

1396

00:57:39,780 --> 00:57:38,050

you cannot avoid bringing in our ability

1397

00:57:42,450 --> 00:57:39,790

to create or our capacity to create

1398

00:57:44,820 --> 00:57:42,460

cancers from over radiation exposure and

1399

00:57:47,130 --> 00:57:44,830

ian's anything you add to us is not

1400

00:57:48,660 --> 00:57:47,140

going to necessarily reduce that it's

1401

00:57:51,570 --> 00:57:48,670

just gonna compound it and make it a

1402

00:57:53,220 --> 00:57:51,580

little bit more problematic so if we

1403

00:57:55,710 --> 00:57:53,230

assume that what we see around us is

1404

00:57:57,390 --> 00:57:55,720

actually evidence then we can make some

1405

00:58:00,480 --> 00:57:57,400

conclusions then we have to say that

1406

00:58:02,610 --> 00:58:00,490

whoever engineered us as humans way the

1407

00:58:06,180 --> 00:58:02,620

hell back in multiple millions of years

1408

00:58:09,000 --> 00:58:06,190

ago didn't do it one-off there were lots

1409

00:58:12,180 --> 00:58:09,010

of other hominids lots of other not Homo

1410

00:58:14,210 --> 00:58:12,190

sapiens but other Neanderthals you know

1411

00:58:15,830 --> 00:58:14,220

Zinj anthropos

1412

00:58:19,790 --> 00:58:15,840

dozens of different kinds of humans so

1413

00:58:23,390 --> 00:58:19,800

our kind Homo sapiens sapiens is the

1414

00:58:25,220 --> 00:58:23,400

result of natural selection among many

1415

00:58:27,830 --> 00:58:25,230

different kinds of humans that were

1416

00:58:29,900 --> 00:58:27,840

created so whoever did all that creation

1417

00:58:31,730 --> 00:58:29,910

wasn't all that good that they would

1418

00:58:34,370 --> 00:58:31,740

know in advance which one of these is

1419

00:58:36,500 --> 00:58:34,380

going to survive and so nature at some

1420

00:58:39,740 --> 00:58:36,510

level intrudes in there and cooperates

1421

00:58:42,589 --> 00:58:39,750

or is unharmonious to your reaction to

1422

00:58:44,240 --> 00:58:42,599

your goal and you know your creatures

1423

00:58:46,310 --> 00:58:44,250

die off because they're not able to

1424

00:58:49,070 --> 00:58:46,320

compete with the other forces within

1425

00:58:51,650 --> 00:58:49,080

nature so under the circumstances it

1426

00:58:54,890 --> 00:58:51,660

doesn't strike me as a sound thing or a

1427

00:58:57,800 --> 00:58:54,900

logical progression of thought to assume

1428

00:58:59,359 --> 00:58:57,810

that the 5g is being run by the aliens

1429

00:59:01,609 --> 00:58:59,369

for their benefit because it certainly

1430

00:59:04,130 --> 00:59:01,619

wouldn't do they're hybrids any good and

1431

00:59:06,200 --> 00:59:04,140

because it's very definitely not doing

1432

00:59:07,849 --> 00:59:06,210

us humans any good and we can assume

1433

00:59:09,530 --> 00:59:07,859

that they're hybrid maybe they would try

1434

00:59:11,240 --> 00:59:09,540

to kill off the humans with the 5g

1435

00:59:13,400 --> 00:59:11,250

radiation and hope that some of their

1436

00:59:15,140 --> 00:59:13,410

hybrids survive the process but that's

1437

00:59:17,780 --> 00:59:15,150

that's not a very good effective

1438

00:59:20,329 --> 00:59:17,790

conquering kind of a strategy but on the

1439

00:59:21,920 --> 00:59:20,339

other hand we can say in a very short

1440

00:59:25,640 --> 00:59:21,930

way and it all makes sense

1441

00:59:28,220 --> 00:59:25,650

military discovers a hybrid infestation

1442

00:59:31,220 --> 00:59:28,230

military Ponder's mmm what to do

1443

00:59:34,010 --> 00:59:31,230

military says oh look we can see hybrids

1444

00:59:36,260 --> 00:59:34,020

using this this radiation when military

1445

00:59:37,720 --> 00:59:36,270

use that to try and see hybrids even at

1446

00:59:40,849 --> 00:59:37,730

some cost to the civilian population

1447

00:59:43,270 --> 00:59:40,859

sure they'd do that they would say oh

1448

00:59:45,410 --> 00:59:43,280

okay so we know that 5g is gonna cause

1449

00:59:47,359 --> 00:59:45,420

cancer rates to escalate and an

1450

00:59:49,609 --> 00:59:47,369

additional 12% of the population will

1451  
00:59:51,950 --> 00:59:49,619  
die off over the first 10 years that's

1452  
00:59:53,780 --> 00:59:51,960  
acceptable we can take those losses bla

1453  
00:59:55,609 --> 00:59:53,790  
bla bla bla bla you know I know the

1454  
00:59:57,260 --> 00:59:55,619  
military mindset because the goal is

1455  
00:59:58,970 --> 00:59:57,270  
what's important not the individual

1456  
01:00:00,829 --> 00:59:58,980  
under those circumstances and to a

1457  
01:00:03,349 --> 01:00:00,839  
certain extent I would have to agree

1458  
01:00:06,470 --> 01:00:03,359  
with them if the goal is for this human

1459  
01:00:08,630 --> 01:00:06,480  
form to avoid extinction I would say

1460  
01:00:11,240 --> 01:00:08,640  
that we could afford to take some pretty

1461  
01:00:14,030 --> 01:00:11,250  
substantial casualties in order to keep

1462  
01:00:17,120 --> 01:00:14,040  
the population in the civilization alive

1463  
01:00:20,660 --> 01:00:17,130

and functioning against space alien

1464

01:00:23,329 --> 01:00:20,670

invasion mm-hmm yeah these kinds of

1465

01:00:26,780 --> 01:00:23,339

conversations require a lot of nuance

1466

01:00:27,980 --> 01:00:26,790

and details because I've looked at some

1467

01:00:30,050 --> 01:00:27,990

comments on previous

1468

01:00:32,270 --> 01:00:30,060

talks you've done about 5g and maybe it

1469

01:00:35,810 --> 01:00:32,280

wasn't emphasized how deadly it is and

1470

01:00:37,730 --> 01:00:35,820

instead people focus on this idea that

1471

01:00:39,170 --> 01:00:37,740

it's somehow for the benefit of humanity

1472

01:00:42,140 --> 01:00:39,180

and they latch on to that and they just

1473

01:00:45,140 --> 01:00:42,150

get real angry but maybe there is

1474

01:00:47,000 --> 01:00:45,150

something here that yes it is deadly

1475

01:00:49,370 --> 01:00:47,010

but the military doesn't care about

1476

01:00:51,640 --> 01:00:49,380

massive casualty loss if they achieve

1477

01:00:54,410 --> 01:00:51,650

their goal and if there is a hybrid

1478

01:00:56,900 --> 01:00:54,420

infestation and that is the goal to weed

1479

01:00:59,480 --> 01:00:56,910

it out yeah I'm with you they'll accept

1480

01:01:02,300 --> 01:00:59,490

a lot of death to get that done but I'm

1481

01:01:04,220 --> 01:01:02,310

just not so sure I I have no idea I have

1482

01:01:06,680 --> 01:01:04,230

no context really I'm on the outside

1483

01:01:10,310 --> 01:01:06,690

here but I've heard a lot of speculation

1484

01:01:12,710 --> 01:01:10,320

that there is a real cozy relationship

1485

01:01:15,500 --> 01:01:12,720

between the US government and these

1486

01:01:18,440 --> 01:01:15,510

beans and they've exchanged technology

1487

01:01:20,390 --> 01:01:18,450

for abduction is that not the case right

1488

01:01:23,120 --> 01:01:20,400

okay and see that may very well be the

1489

01:01:26,270 --> 01:01:23,130

case however we have to understand how

1490

01:01:28,580 --> 01:01:26,280

how limiting language is on our own mind

1491

01:01:31,609 --> 01:01:28,590

all right and in you're a very smart

1492

01:01:33,920 --> 01:01:31,619

educated fellow that understands

1493

01:01:36,380 --> 01:01:33,930

language and nuance and yet you fall

1494

01:01:38,570 --> 01:01:36,390

into the same kind of trap that all that

1495

01:01:40,760 --> 01:01:38,580

all kinds of us do that all sorts of

1496

01:01:44,240 --> 01:01:40,770

people do and that trap is to identify

1497

01:01:46,670 --> 01:01:44,250

the thing with the language so I always

1498

01:01:48,710 --> 01:01:46,680

always in my life I always maintain the

1499

01:01:51,830 --> 01:01:48,720

thought that Lao Tzu has which is the

1500

01:01:54,290 --> 01:01:51,840

Dao that can be named is not the Tao

1501  
01:01:56,420 --> 01:01:54,300  
it's just a word and so in this case you

1502  
01:01:58,460 --> 01:01:56,430  
say government well okay

1503  
01:01:59,750 --> 01:01:58,470  
so I can think to myself I've been

1504  
01:02:02,090 --> 01:01:59,760  
involved with government I've worked

1505  
01:02:03,440 --> 01:02:02,100  
with government agencies I was born into

1506  
01:02:06,830 --> 01:02:03,450  
the government in the sense of being a

1507  
01:02:09,020 --> 01:02:06,840  
military brat and being involved in that

1508  
01:02:11,810 --> 01:02:09,030  
structure for the first 17 years of my

1509  
01:02:13,849 --> 01:02:11,820  
life and so I have a concept of what

1510  
01:02:17,210 --> 01:02:13,859  
government is and it is not monolithic

1511  
01:02:19,490 --> 01:02:17,220  
so I would think sure maybe somebody did

1512  
01:02:22,550 --> 01:02:19,500  
sign some kind of a weird agreement with

1513  
01:02:25,880 --> 01:02:22,560

the space aliens but does that affect my

1514

01:02:27,380 --> 01:02:25,890

local state patrol yeah probably not I

1515

01:02:29,300 --> 01:02:27,390

don't think my local state patrol is

1516

01:02:31,370 --> 01:02:29,310

involved with space aliens what about

1517

01:02:33,980 --> 01:02:31,380

you know the Washington Department of

1518

01:02:35,810 --> 01:02:33,990

Wildlife and Fisheries probably not

1519

01:02:37,550 --> 01:02:35,820

probably not many of those guys involved

1520

01:02:38,240 --> 01:02:37,560

and so you could just do this and you

1521

01:02:40,130 --> 01:02:38,250

understand

1522

01:02:41,809 --> 01:02:40,140

you can individuate the whole thing and

1523

01:02:43,039 --> 01:02:41,819

so you understand that yeah

1524

01:02:46,130 --> 01:02:43,049

there are humans that are undoubtedly

1525

01:02:47,689 --> 01:02:46,140

involved as collaborators willingly or

1526

01:02:50,420 --> 01:02:47,699

not because we don't know what kind of

1527

01:02:53,029 --> 01:02:50,430

mind control our enemies can exert over

1528

01:02:55,309 --> 01:02:53,039

us all right and so we have to I'm

1529

01:02:58,459 --> 01:02:55,319

assuming and giving them as somebody who

1530

01:03:00,079 --> 01:02:58,469

studied the art confrontation contention

1531

01:03:02,930 --> 01:03:00,089

I'm assuming that the guys that I'm

1532

01:03:06,920 --> 01:03:02,940

calling my enemies are not necessarily

1533

01:03:09,049 --> 01:03:06,930

willing collaborators and they might be

1534

01:03:10,759 --> 01:03:09,059

quite happy to kill the people they're

1535

01:03:14,059 --> 01:03:10,769

collaborating with now those beings

1536

01:03:15,459 --> 01:03:14,069

given a free mind so I'm just going to

1537

01:03:18,499 --> 01:03:15,469

watch out for them but not necessarily

1538

01:03:20,239 --> 01:03:18,509

assume that I need to be you know out

1539

01:03:22,489 --> 01:03:20,249

thrashing other humans that kind of

1540

01:03:25,969 --> 01:03:22,499

thing right but under the circumstances

1541

01:03:28,549 --> 01:03:25,979

here government I think there's a word

1542

01:03:31,309 --> 01:03:28,559

that it's like a four-letter word that I

1543

01:03:33,920 --> 01:03:31,319

want to avoid using because it doesn't

1544

01:03:36,410 --> 01:03:33,930

describe the nature of a complex level

1545

01:03:39,620 --> 01:03:36,420

of regulatory authorities and those

1546

01:03:41,329 --> 01:03:39,630

force agencies that is to say those

1547

01:03:44,809 --> 01:03:41,339

groups of people that are tasked with

1548

01:03:47,569 --> 01:03:44,819

and can use deadly force be it military

1549

01:03:48,829 --> 01:03:47,579

or law enforcement or whoever I don't

1550

01:03:51,289 --> 01:03:48,839

think that there is any kind of a

1551

01:03:54,439 --> 01:03:51,299

monolithic structure and so I'm quite

1552

01:03:55,910 --> 01:03:54,449

certain that and I also even if that

1553

01:03:58,549 --> 01:03:55,920

were the case that the government as a

1554

01:04:00,859 --> 01:03:58,559

whole had coerced all of its hundreds of

1555

01:04:02,630 --> 01:04:00,869

thousands and millions of employees to

1556

01:04:04,189 --> 01:04:02,640

supporting the space alien agenda

1557

01:04:06,410 --> 01:04:04,199

through the structure of the hierarchy

1558

01:04:08,959 --> 01:04:06,420

I'm quite certain they're individuals

1559

01:04:11,630 --> 01:04:08,969

within that hierarchy whose own personal

1560

01:04:13,849 --> 01:04:11,640

agendas are at odds with those of their

1561

01:04:16,939 --> 01:04:13,859

managers and the overall structure and

1562

01:04:19,939 --> 01:04:16,949

so they would be agents for Humanity

1563

01:04:21,650 --> 01:04:19,949

within that structure even if it existed

1564

01:04:24,380 --> 01:04:21,660

and I think it's much more fractured I

1565

01:04:27,559 --> 01:04:24,390

think it's much more chaotic and chaos

1566

01:04:29,569 --> 01:04:27,569

rules and we only think to impose order

1567

01:04:32,269 --> 01:04:29,579

with our minds and so we've got to be

1568

01:04:33,890 --> 01:04:32,279

careful of what kind of order we impose

1569

01:04:38,239 --> 01:04:33,900

on it because it can be extremely

1570

01:04:41,809 --> 01:04:38,249

misleading mm-hmm no that's absolutely

1571

01:04:45,019 --> 01:04:41,819

legit and conspiracy folks can be

1572

01:04:48,140 --> 01:04:45,029

attractive to simple singular narratives

1573

01:04:51,410 --> 01:04:48,150

and language can be a clunky thing and I

1574

01:04:53,209 --> 01:04:51,420

am but a simple stoner host but I agree

1575

01:04:55,320 --> 01:04:53,219

with you yeah you can't discount the

1576

01:04:57,300 --> 01:04:55,330

factors of

1577

01:05:00,000 --> 01:04:57,310

complexity that are involved with this

1578

01:05:03,090 --> 01:05:00,010

number of people and non people perhaps

1579

01:05:04,530 --> 01:05:03,100

and as we're starting to pull back into

1580

01:05:06,360 --> 01:05:04,540

the station here I just want to ask you

1581

01:05:08,340 --> 01:05:06,370

in a more open-ended sense because we

1582

01:05:10,080 --> 01:05:08,350

have talked about so many things and you

1583

01:05:12,240 --> 01:05:10,090

are full of so much information and

1584

01:05:13,920 --> 01:05:12,250

things are moving so quickly is there

1585

01:05:16,530 --> 01:05:13,930

anything you're paying attention to now

1586

01:05:20,460 --> 01:05:16,540

that I don't even know to ask you about

1587

01:05:23,250 --> 01:05:20,470

what's the latest on your mind well okay

1588

01:05:24,960 --> 01:05:23,260

so at this point in my particular

1589

01:05:27,510 --> 01:05:24,970

journey what I'm doing is I'm sort of

1590

01:05:30,780 --> 01:05:27,520

taking myself back to school and I'm

1591

01:05:34,290 --> 01:05:30,790

delving even deeper into interacting

1592

01:05:35,910 --> 01:05:34,300

with computing devices from laptops and

1593

01:05:38,880 --> 01:05:35,920

phones and networks and all of these

1594

01:05:41,010 --> 01:05:38,890

kind of things and I'm upgrading all of

1595

01:05:42,240 --> 01:05:41,020

my skills relative to changes that have

1596

01:05:43,680 --> 01:05:42,250

occurred while I was doing all the web

1597

01:05:45,120 --> 01:05:43,690

bot stuff and I could only work on my

1598

01:05:48,120 --> 01:05:45,130

stuff and never be involved with

1599

01:05:50,880 --> 01:05:48,130

anything else and so in a broader sense

1600

01:05:53,100 --> 01:05:50,890

it's a time of retiring forming here

1601

01:05:55,560 --> 01:05:53,110

okay in terms of but not retiring from

1602

01:05:58,470 --> 01:05:55,570

non production but rather upgrade all of

1603

01:06:01,110 --> 01:05:58,480

my skills for new projects now in the

1604

01:06:03,030 --> 01:06:01,120

meantime I'm doing some exploration of

1605

01:06:04,830 --> 01:06:03,040

stuff okay there's some been some really

1606

01:06:06,570 --> 01:06:04,840

interesting information that's come on

1607

01:06:09,120 --> 01:06:06,580

out but most people are not thinking of

1608

01:06:10,620 --> 01:06:09,130

it in my opinion quite correctly because

1609

01:06:14,490 --> 01:06:10,630

they're missing some of the obvious

1610

01:06:16,560 --> 01:06:14,500

things so in let's just really summarize

1611

01:06:18,330 --> 01:06:16,570

this really cool book so there's a Skye

1612

01:06:21,570 --> 01:06:18,340

Graham Hancock and he wrote this book

1613

01:06:24,360 --> 01:06:21,580

called America before and his contention

1614

01:06:27,000 --> 01:06:24,370

is that America was the seat of our

1615

01:06:29,700 --> 01:06:27,010

current civilization not the quote old

1616

01:06:32,430 --> 01:06:29,710

world of Europe and Asia and the Middle

1617

01:06:35,010 --> 01:06:32,440

East that America was the seat of the

1618

01:06:36,570 --> 01:06:35,020

civilization that now emerged around the

1619

01:06:39,480 --> 01:06:36,580

the planet after a giant catastrophe

1620

01:06:42,720 --> 01:06:39,490

some 13,000 years ago and that that

1621

01:06:44,910 --> 01:06:42,730

catastrophe struck America and destroyed

1622

01:06:47,490 --> 01:06:44,920

all of the civilization that was really

1623

01:06:49,110 --> 01:06:47,500

effective in the Americas both north and

1624

01:06:51,900 --> 01:06:49,120

south of the such a gigantic catastrophe

1625

01:06:55,020 --> 01:06:51,910

as well as impacting most of the planet

1626

01:06:57,480 --> 01:06:55,030

but most of its physical effects were

1627

01:06:59,790 --> 01:06:57,490

here that's why we find the remnants of

1628

01:07:02,550 --> 01:06:59,800

the ancient civilizations the old

1629

01:07:05,460 --> 01:07:02,560

megaliths and stuff in areas further

1630

01:07:07,350 --> 01:07:05,470

away from where this disaster hit the

1631

01:07:08,980 --> 01:07:07,360

disaster appears to have hit the

1632

01:07:11,140 --> 01:07:08,990

Laurentian Ice Sheet

1633

01:07:14,109 --> 01:07:11,150

is over the Gulf Lawrence the Great

1634

01:07:16,270 --> 01:07:14,119

Lakes the Laurentian river water basin

1635

01:07:18,160 --> 01:07:16,280

and so forth that part of North America

1636

01:07:20,920 --> 01:07:18,170

you know vaguely the northeast of the

1637

01:07:23,680 --> 01:07:20,930

United States up into the eastern part

1638

01:07:25,450 --> 01:07:23,690

of Canada and so we can see that the

1639

01:07:27,609 --> 01:07:25,460

megalithic structures in the forests

1640

01:07:30,190 --> 01:07:27,619

South America on the other side of the

1641

01:07:32,710 --> 01:07:30,200

curve of the equator were mostly spared

1642

01:07:35,020 --> 01:07:32,720

but any megalithic structures within the

1643

01:07:37,210 --> 01:07:35,030

North American continent were really

1644

01:07:39,400 --> 01:07:37,220

devastated if they existed at all they

1645

01:07:42,430 --> 01:07:39,410

existed is just really hardly visible

1646

01:07:45,130 --> 01:07:42,440

kind of ruins now this brings up some

1647

01:07:48,460 --> 01:07:45,140

interesting thoughts because we now know

1648

01:07:51,220 --> 01:07:48,470

from roadwork in California that humans

1649

01:07:54,930 --> 01:07:51,230

were here in in North America 130,000

1650

01:07:58,570 --> 01:07:54,940

years ago knowing on Mastodon bones and

1651  
01:08:00,550 --> 01:07:58,580  
coexisting the giant megafauna like big

1652  
01:08:03,609 --> 01:08:00,560  
North American lions and these kind of

1653  
01:08:06,280 --> 01:08:03,619  
things so this also brings up other

1654  
01:08:09,100 --> 01:08:06,290  
thoughts that well 130,000 years ago

1655  
01:08:11,560 --> 01:08:09,110  
we're going on on mammoth bones but

1656  
01:08:13,330 --> 01:08:11,570  
maybe a hundred thousand years ago after

1657  
01:08:15,940 --> 01:08:13,340  
30 thousand years of development our

1658  
01:08:19,210 --> 01:08:15,950  
presumed level of development mostly

1659  
01:08:21,130 --> 01:08:19,220  
from our inception as a species now so

1660  
01:08:22,450 --> 01:08:21,140  
basically our mainstream media says our

1661  
01:08:26,440 --> 01:08:22,460  
history is about thirty thousand years

1662  
01:08:27,849 --> 01:08:26,450  
old as hominids as humans and so look

1663  
01:08:29,530 --> 01:08:27,859

what we've achieved in thirty thousand

1664

01:08:31,930 --> 01:08:29,540

years well if that were the case if

1665

01:08:33,340 --> 01:08:31,940

there were hominids back in America 130

1666

01:08:35,230 --> 01:08:33,350

thousand years ago then they had an

1667

01:08:37,269 --> 01:08:35,240

advanced civilization a hundred thousand

1668

01:08:39,340 --> 01:08:37,279

years ago just having evolved over those

1669

01:08:40,809 --> 01:08:39,350

thirty thousand years if that was the

1670

01:08:43,930 --> 01:08:40,819

case it was destroyed when this

1671

01:08:45,999 --> 01:08:43,940

catastrophe took place except there's a

1672

01:08:46,900 --> 01:08:46,009

couple of areas where perhaps it didn't

1673

01:08:48,789 --> 01:08:46,910

get destroyed

1674

01:08:50,829 --> 01:08:48,799

and I happen to live in one of them at

1675

01:08:53,170 --> 01:08:50,839

the moment which is a particular on the

1676

01:08:55,390 --> 01:08:53,180

ocean side of the Olympic mountain range

1677

01:08:56,890 --> 01:08:55,400

and it was on the ocean side of the

1678

01:08:58,749 --> 01:08:56,900

Sierra Nevada mountain range in

1679

01:09:01,450 --> 01:08:58,759

California that they found the evidence

1680

01:09:03,910 --> 01:09:01,460

of humans being here 130,000 years ago

1681

01:09:06,010 --> 01:09:03,920

so if that's the case you can presume

1682

01:09:08,289 --> 01:09:06,020

that there will be a few areas the

1683

01:09:09,970 --> 01:09:08,299

southwest of the United States on the

1684

01:09:13,090 --> 01:09:09,980

other side of the devastation of the

1685

01:09:16,420 --> 01:09:13,100

Grand Canyon into Mexico and

1686

01:09:18,700 --> 01:09:16,430

along the west coast strip where we

1687

01:09:20,890 --> 01:09:18,710

might if we look hard enough and dig

1688

01:09:22,900 --> 01:09:20,900

deep enough we might actually be able to

1689

01:09:25,000 --> 01:09:22,910

find remnants of this ancient

1690

01:09:28,450 --> 01:09:25,010

technological civilization that was

1691

01:09:29,860 --> 01:09:28,460

wiped out 13,000 years ago and so under

1692

01:09:32,410 --> 01:09:29,870

the circumstances that's something

1693

01:09:34,900 --> 01:09:32,420

that's going to be a hobby an avocation

1694

01:09:37,000 --> 01:09:34,910

of mine paddling up the various streams

1695

01:09:38,560 --> 01:09:37,010

and rivers here looking for various

1696

01:09:40,420 --> 01:09:38,570

different landforms and things that

1697

01:09:42,670 --> 01:09:40,430

could indicate that indeed this was the

1698

01:09:44,470 --> 01:09:42,680

case that you know if I were to dig over

1699

01:09:46,420 --> 01:09:44,480

there for instance that I might find

1700

01:09:48,250 --> 01:09:46,430

something just like the people with the

1701

01:09:49,900 --> 01:09:48,260

Bosnian pyramid you know they live on

1702

01:09:51,700 --> 01:09:49,910

the mountain and farm on it and one day

1703

01:09:53,950 --> 01:09:51,710

somebody gets far enough away and says

1704

01:09:55,540 --> 01:09:53,960

hey that thing looks like a pyramid I

1705

01:09:58,270 --> 01:09:55,550

wonder what will happen if I dig in it

1706

01:09:59,830 --> 01:09:58,280

you know and sure enough there you go

1707

01:10:02,080 --> 01:09:59,840

Bob's your uncle you got a pyramid under

1708

01:10:04,120 --> 01:10:02,090

your farm and so maybe that's the

1709

01:10:05,800 --> 01:10:04,130

condition of the situation around here

1710

01:10:08,170 --> 01:10:05,810

it's just something I'm gonna do to keep

1711

01:10:15,730 --> 01:10:08,180

myself going while I'm upgrading all my

1712

01:10:17,730 --> 01:10:15,740

skills yes awesome it's a good book I'll

1713

01:10:20,410 --> 01:10:17,740

let you go though guy I know that sure

1714

01:10:22,510 --> 01:10:20,420

yes I was going to say I definitely had

1715

01:10:24,790 --> 01:10:22,520

a great time fascinating as ever

1716

01:10:27,220 --> 01:10:24,800

I appreciate your analysis of this weird

1717

01:10:28,690 --> 01:10:27,230

world we're in half past human calm is

1718

01:10:31,690 --> 01:10:28,700

the website anything else we should

1719

01:10:33,370 --> 01:10:31,700

share promotion wise no I'm not not

1720

01:10:34,510 --> 01:10:33,380

trying to sell anything or make any

1721

01:10:35,860 --> 01:10:34,520

money or anything when I've got

1722

01:10:37,570 --> 01:10:35,870

something new I'll let people know about

1723

01:10:39,520 --> 01:10:37,580

it so something will come out of all of

1724

01:10:40,630 --> 01:10:39,530

this work with computers I'm just not

1725

01:10:42,640 --> 01:10:40,640

sure what at the moment

1726

01:10:45,880 --> 01:10:42,650

right on a true champion of the people

1727

01:10:47,380 --> 01:10:45,890

well again and I'm glad you're healthy

1728

01:10:49,030 --> 01:10:47,390

and everything keep doing what you do

1729

01:10:50,339 --> 01:10:49,040

and take care out there thank you very

1730

01:10:55,859 --> 01:10:50,349

much

1731

01:11:00,419 --> 01:10:55,869

I believe in miracles you sexy thing you

1732

01:11:02,399 --> 01:11:00,429

uncle cliff in the house definitely good

1733

01:11:05,609 --> 01:11:02,409

to have him back one funny thing is that

1734

01:11:08,729 --> 01:11:05,619

we actually recorded this about 24 hours

1735

01:11:11,700 --> 01:11:08,739

before the big Bitcoin surge this past

1736

01:11:14,839 --> 01:11:11,710

week where it went clear past 10,000 up

1737

01:11:17,850 --> 01:11:14,849

to 13,000 and then back down to 10 again

1738

01:11:19,560 --> 01:11:17,860

but still right on the heels of cliff

1739

01:11:22,589 --> 01:11:19,570

saying just wait a minute something's

1740

01:11:25,379 --> 01:11:22,599

gonna happen it actually did which I've

1741

01:11:27,260 --> 01:11:25,389

said before I bought Bitcoin when I was

1742

01:11:30,660 --> 01:11:27,270

still at Gamestop and it was roughly

1743

01:11:33,660 --> 01:11:30,670

\$800 to a thousand a coin and I had to

1744

01:11:37,140 --> 01:11:33,670

justify to pretty much everyone why I

1745

01:11:41,490 --> 01:11:37,150

would take a 1100 dollar paycheck that I

1746

01:11:45,510 --> 01:11:41,500

got for two weeks of awful work and by

1747

01:11:48,510 --> 01:11:45,520

an \$800 digital coin that most people

1748

01:11:50,939 --> 01:11:48,520

hadn't heard of at the time so I got to

1749

01:11:53,280 --> 01:11:50,949

thank guys like Jeff Berwick and some of

1750

01:11:56,540 --> 01:11:53,290

those early THC guests we had that

1751

01:11:59,339 --> 01:11:56,550

brought it up and I feel validated

1752

01:12:01,260 --> 01:11:59,349

pretty much no matter how it goes but

1753

01:12:03,569 --> 01:12:01,270

I'm just gonna hold on to this stuff and

1754

01:12:06,540 --> 01:12:03,579

see how far we can take it it's money I

1755

01:12:09,540 --> 01:12:06,550

spent six years ago I don't miss it I

1756

01:12:11,310 --> 01:12:09,550

don't need it I'm on a new thing now but

1757

01:12:13,160 --> 01:12:11,320

I would like to see my pops get his

1758

01:12:16,560 --> 01:12:13,170

Lambo before the end of the story

1759

01:12:19,040 --> 01:12:16,570

my overall position on Bitcoin is that

1760

01:12:21,510 --> 01:12:19,050

it's ultimately a worse economic

1761

01:12:24,479 --> 01:12:21,520

position on the roadmap to social

1762

01:12:26,550 --> 01:12:24,489

crediting and complete control yes so

1763

01:12:29,069 --> 01:12:26,560

was the internet but that worked out

1764

01:12:31,709 --> 01:12:29,079

okay for me things are not just one

1765

01:12:34,050 --> 01:12:31,719

thing but I thought it was good at first

1766

01:12:36,419 --> 01:12:34,060

because the only people talking about it

1767

01:12:37,890 --> 01:12:36,429

were those libertarian types fixated on

1768

01:12:40,709 --> 01:12:37,900

getting out from under the thumb of the

1769

01:12:43,770 --> 01:12:40,719

Federal Reserve but when you sit with it

1770

01:12:46,770 --> 01:12:43,780

you realize we're just being on boarded

1771

01:12:49,410 --> 01:12:46,780

to another digital system and back then

1772

01:12:53,310 --> 01:12:49,420

I saw it as a rare opportunity to

1773

01:12:56,850 --> 01:12:53,320

possibly get to six figures seven

1774

01:12:59,729 --> 01:12:56,860

figures I was broke living on a couch I

1775

01:13:02,069 --> 01:12:59,739

needed a long shot because I was in a

1776

01:13:05,160 --> 01:13:02,079

long shot situation

1777

01:13:07,680 --> 01:13:05,170

desperate back then that my job was

1778

01:13:11,100 --> 01:13:07,690

never going to do it for me so I had to

1779

01:13:13,830 --> 01:13:11,110

have a few longshot balls in the air

1780

01:13:17,220 --> 01:13:13,840

looking for that Hail Mary to get to a

1781

01:13:19,379 --> 01:13:17,230

decent life outside the rat race and now

1782

01:13:21,959 --> 01:13:19,389

I care a lot less about that particular

1783

01:13:22,799 --> 01:13:21,969

longshot because I found success with a

1784

01:13:24,750 --> 01:13:22,809

different one

1785

01:13:28,049 --> 01:13:24,760

I just didn't know at the time that it

1786

01:13:29,640 --> 01:13:28,059

could possibly be a podcast so Bitcoin

1787

01:13:31,470 --> 01:13:29,650

was just another ball in the air for me

1788

01:13:34,229 --> 01:13:31,480

another seed that I could hope would

1789

01:13:36,419 --> 01:13:34,239

grow without hurting anybody - I'm not

1790

01:13:39,120 --> 01:13:36,429

investing in weapons manufacturers and

1791

01:13:41,040 --> 01:13:39,130

just holding digital coins and the Cabal

1792

01:13:42,990 --> 01:13:41,050

is gonna do what the Cabal does with or

1793

01:13:46,950 --> 01:13:43,000

without me it's like if you had bought

1794

01:13:49,229 --> 01:13:46,960

disney.com or walmart.com when you first

1795

01:13:51,919 --> 01:13:49,239

heard of the internet we're just trying

1796

01:13:54,899 --> 01:13:51,929

to bob and weave and not get crushed and

1797

01:13:56,939 --> 01:13:54,909

I do agree with Cliff's point that most

1798

01:14:00,410 --> 01:13:56,949

of the current fiat system is digital

1799

01:14:02,700 --> 01:14:00,420

anyway but even if it's just 1% cash I

1800

01:14:04,740 --> 01:14:02,710

promise you that if I put enough energy

1801

01:14:07,979 --> 01:14:04,750

into it if you put enough energy into it

1802

01:14:11,549 --> 01:14:07,989

we could withdraw enough cash to live

1803

01:14:13,680 --> 01:14:11,559

fairly incognito you could buy all your

1804

01:14:15,780 --> 01:14:13,690

cigarettes and alcohol with cash and

1805

01:14:17,490 --> 01:14:15,790

completely hide it from a spouse even if

1806

01:14:20,339 --> 01:14:17,500

they are the one who manages the bills

1807

01:14:22,350 --> 01:14:20,349

and stuff yes there's not a ton of cash

1808

01:14:25,649 --> 01:14:22,360

out there but there's enough for

1809

01:14:29,189 --> 01:14:25,659

individuals who want to move unseen to

1810

01:14:31,740 --> 01:14:29,199

do so and that does go away with digital

1811

01:14:34,770 --> 01:14:31,750

Ledger's and all incoming and outgoing

1812

01:14:36,540 --> 01:14:34,780

funds being recorded there yeah the

1813

01:14:39,209 --> 01:14:36,550

addresses may be anonymous but if

1814

01:14:43,410 --> 01:14:39,219

they're known then all transactions are

1815

01:14:46,830 --> 01:14:43,420

recorded and there's just no line spots

1816

01:14:48,280 --> 01:14:46,840

that cash would create on a typical bank

1817

01:14:50,590 --> 01:14:48,290

account

1818

01:14:52,750 --> 01:14:50,600

but this show is about a lot more than

1819

01:14:55,090 --> 01:14:52,760

Bitcoin we definitely heard some takes

1820

01:14:57,310 --> 01:14:55,100

and angles that are different from the

1821

01:15:00,070 --> 01:14:57,320

conventional conspiratorial position

1822

01:15:03,280 --> 01:15:00,080

several times today I had responses

1823

01:15:05,380 --> 01:15:03,290

along the lines of huh well that's an

1824

01:15:07,990 --> 01:15:05,390

interesting perspective and that's

1825

01:15:11,050 --> 01:15:08,000

because a lot of cliffs takes are fresh

1826

01:15:13,570 --> 01:15:11,060

and different the five G grid a

1827

01:15:17,560 --> 01:15:13,580

detection system for non human DNA I

1828

01:15:19,540 --> 01:15:17,570

mean whoa but think about that so they

1829

01:15:21,940 --> 01:15:19,550

find the hybrids then what are they

1830

01:15:24,580 --> 01:15:21,950

gonna do get all Nazi Germany about it I

1831

01:15:27,630 --> 01:15:24,590

don't know but even within this

1832

01:15:30,700 --> 01:15:27,640

conspiracy culture I don't like to see

1833

01:15:32,950 --> 01:15:30,710

monotonous monolithic thinking about

1834

01:15:34,180 --> 01:15:32,960

these different topics I prefer

1835

01:15:37,090 --> 01:15:34,190

something that I hadn't considered

1836

01:15:40,540 --> 01:15:37,100

before and I think cliff gives us that

1837

01:15:43,000 --> 01:15:40,550

and cliff never said five G wasn't

1838

01:15:45,700 --> 01:15:43,010

deadly only that there might be an end

1839

01:15:48,870 --> 01:15:45,710

goal beyond just depopulation and making

1840

01:15:51,660 --> 01:15:48,880

us all sick that might be a side effect

1841

01:15:54,700 --> 01:15:51,670

but we got to get these hybrids people

1842

01:15:57,430 --> 01:15:54,710

and maybe the hybrid program is very

1843

01:15:57,970 --> 01:15:57,440

ancient Duncan Lunan definitely thought

1844

01:16:00,130 --> 01:15:57,980

so

1845

01:16:02,650 --> 01:16:00,140

if you remember his take on the green

1846

01:16:04,630 --> 01:16:02,660

children of Woolpit story he thought

1847

01:16:06,630 --> 01:16:04,640

they came from the stars and that the

1848

01:16:10,660 --> 01:16:06,640

elite in the area were expecting them

1849

01:16:13,600 --> 01:16:10,670

and it was quite far out stuff to cliffs

1850

01:16:17,020 --> 01:16:13,610

point maybe Genghis Khan was just wiping

1851  
01:16:21,220 --> 01:16:17,030  
out alien hybrids that were penetrating

1852  
01:16:24,460 --> 01:16:21,230  
our population but even that's a very

1853  
01:16:26,740 --> 01:16:24,470  
thorny thing to be suggesting that the

1854  
01:16:29,470 --> 01:16:26,750  
dead in the wake of Genghis Khan are

1855  
01:16:30,660 --> 01:16:29,480  
acceptable because they had some other

1856  
01:16:35,530 --> 01:16:30,670  
genetics

1857  
01:16:37,360 --> 01:16:35,540  
yikes I mean did you see district 9 who

1858  
01:16:40,210 --> 01:16:37,370  
knows but on several things we heard

1859  
01:16:42,280 --> 01:16:40,220  
some counter counterculture opinions

1860  
01:16:44,020 --> 01:16:42,290  
today some things that go against the

1861  
01:16:46,810 --> 01:16:44,030  
conspiracy narratives out there

1862  
01:16:49,570 --> 01:16:46,820  
especially in the plush show and I have

1863  
01:16:51,460 --> 01:16:49,580

no real dog in any fight I just like to

1864

01:16:54,370 --> 01:16:51,470

pick the brains of unconventional people

1865

01:16:56,830 --> 01:16:54,380

that I find to be onto something let's

1866

01:16:58,840 --> 01:16:56,840

say in one way or another and I know

1867

01:17:02,030 --> 01:16:58,850

some of the things cliff said are going

1868

01:17:05,110 --> 01:17:02,040

to piss people off and I'll have a few

1869

01:17:08,029 --> 01:17:05,120

whose cliff working for comments

1870

01:17:10,189 --> 01:17:08,039

primarily on YouTube

1871

01:17:14,450 --> 01:17:10,199

but to have a different opinion is not

1872

01:17:16,490 --> 01:17:14,460

to be somehow an agents of the system

1873

01:17:19,189 --> 01:17:16,500

I kind of hate that sort of simple

1874

01:17:23,029 --> 01:17:19,199

thinking but I really enjoyed it cliff

1875

01:17:24,979 --> 01:17:23,039

is a very interesting guy and I am

1876

01:17:27,799 --> 01:17:24,989

interested to see how this one sits with

1877

01:17:30,830 --> 01:17:27,809

the audience I did have a few other

1878

01:17:33,709 --> 01:17:30,840

things I wanted to get to with cliff but

1879

01:17:35,899 --> 01:17:33,719

unfortunately I chose the wrong words a

1880

01:17:36,950 --> 01:17:35,909

few times which sent us off in different

1881

01:17:40,220 --> 01:17:36,960

directions

1882

01:17:41,870 --> 01:17:40,230

definitely my bad I do wish we could

1883

01:17:45,560 --> 01:17:41,880

have talked about the Sun a little bit

1884

01:17:47,529 --> 01:17:45,570

more that grand solar minimum sure seems

1885

01:17:50,000 --> 01:17:47,539

like it's going to be a pretty big deal

1886

01:17:51,890 --> 01:17:50,010

there are a few growing theories out

1887

01:17:53,930 --> 01:17:51,900

there that every couple thousand years

1888

01:17:57,290 --> 01:17:53,940

the Sun just sheds its outer layer

1889

01:17:59,419 --> 01:17:57,300

people die off in mass and the elite go

1890

01:18:01,000 --> 01:17:59,429

underground and then come back out to

1891

01:18:03,859 --> 01:18:01,010

the surface to restart everything

1892

01:18:05,720 --> 01:18:03,869

rewrite history and hide all the

1893

01:18:08,750 --> 01:18:05,730

knowledge of the last round of history

1894

01:18:09,799 --> 01:18:08,760

in the Vatican basement and I'm starting

1895

01:18:14,479 --> 01:18:09,809

to think that way

1896

01:18:16,279 --> 01:18:14,489

more and more but who am i anyway so

1897

01:18:18,799 --> 01:18:16,289

good times with uncle cliff got to

1898

01:18:21,350 --> 01:18:18,809

appreciate his time glad he's healthy if

1899

01:18:23,509 --> 01:18:21,360

you liked the first free hour that I put

1900

01:18:25,310 --> 01:18:23,519

out for you definitely consider signing

1901

01:18:28,609 --> 01:18:25,320

up to be a plus member and here the

1902

01:18:30,740 --> 01:18:28,619

second hour of this and every show it's

1903

01:18:33,229 --> 01:18:30,750

how we get by without any stupid

1904

01:18:37,129 --> 01:18:33,239

sponsorships or interrupting ad breaks

1905

01:18:40,069 --> 01:18:37,139

it's just you and me and the guest makes

1906

01:18:43,129 --> 01:18:40,079

three baby but I like this second hour

1907

01:18:45,529 --> 01:18:43,139

with cliff in it we got into how cliff

1908

01:18:49,339 --> 01:18:45,539

expects to see the stages of the new

1909

01:18:51,109 --> 01:18:49,349

energy rollout occur implications for

1910

01:18:54,220 --> 01:18:51,119

opening up the quantum realm to the

1911

01:18:57,580 --> 01:18:54,230

masses why reptilians are overblown

1912

01:19:00,189 --> 01:18:57,590

grand solar minimum effects and concerns

1913

01:19:03,200 --> 01:19:00,199

also where cliff gets his information

1914

01:19:07,009 --> 01:19:03,210

when it comes to alien hierarchies and

1915

01:19:10,759 --> 01:19:07,019

hybridization programs and we revisited

1916

01:19:12,939 --> 01:19:10,769

the antarctica topic and look for a

1917

01:19:16,759 --> 01:19:12,949

couple of updates little antarctica news

1918

01:19:19,069 --> 01:19:16,769

since the last time we talked a Rolodex

1919

01:19:21,350 --> 01:19:19,079

of interesting material from a really

1920

01:19:23,540 --> 01:19:21,360

interesting researcher

1921

01:19:25,760 --> 01:19:23,550

and with that I'm getting out of here

1922

01:19:28,220 --> 01:19:25,770

your move alien hybrid invaders

1923

01:19:34,490 --> 01:19:28,230

cryptocurrency cabal's and captains of

1924

[Music]

1927

1931

while the screaming on the masses who do

1932  
01:20:38,110 --> 01:20:34,700

you think they are fancy sing gonna say

1933  
01:20:40,990 --> 01:20:38,120

God I tell you the basics they print

1934

1936  
01:20:50,380 --> 01:20:46,160

in

1940

01:21:16,629 --> 01:21:14,140

plans are simple the best protection of

1941

01:21:18,549 --> 01:21:16,639

all is the special shelter built

1942

01:21:21,819 --> 01:21:18,559

according to specifications of your

1943

01:21:23,709 --> 01:21:21,829

local civil defense organizations the

1945

01:21:27,939 --> 01:21:26,119

become a good - improvised shelters if

1946

01:21:31,569 --> 01:21:27,949

you block the windows with the same

1947
