24

00:00:52,490 --> 00:00:50,850

troubled times always action-packed and

25

00:01:30,980 --> 00:00:52,500

commercial for you which means you'll

26

00:01:33,109 --> 00:01:30,990

unfortunately never hear my voice hey

27

00:01:35,660 --> 00:01:33,119

there and hello higher side chatters

28

00:01:37,940 --> 00:01:35,670

just another pre-show announcement from

29

00:01:40,640 --> 00:01:37,950

your humble host today to say that this

30

00:01:43,730 --> 00:01:40,650

show is only an hour and is coming out

31

00:01:45,950 --> 00:01:43,740

as a plus bonus show for now but it's

32

00:01:47,990 --> 00:01:45,960

probably just going to be an early

33

00:01:50,870 --> 00:01:48,000

release for plus people because I do

34

00:01:53,149 --> 00:01:50,880

want to put this out for everyone when

35

00:01:55,370 --> 00:01:53,159

we sat down to record this I had planned

36

00:01:57,350 --> 00:01:55,380

for a two-hour show so it kind of put me

37

00:02:00,170 --> 00:01:57,360

behind schedule in terms of my

38

00:02:02,539 --> 00:02:00,180

obligations to the audience but

39

00:02:04,730 --> 00:02:02,549

sometimes that's just how it goes I'm

40

00:02:07,459 --> 00:02:04,740

lucky enough to be completely flexible

41

00:02:10,580 --> 00:02:07,469

and I'm really glad we were able to do

42

00:02:12,229 --> 00:02:10,590

it i bugged dr. mill hem for a while to

43

00:02:14,220 --> 00:02:12,239

get him to agree because he's very

44

00:02:16,440 --> 00:02:14,230

serious about this

45

00:02:19,710 --> 00:02:16,450

and he's been collecting data and

46

00:02:21,330 --> 00:02:19,720

sounding the alarm for decades and for

47

00:02:24,180 --> 00:02:21,340

someone who has made this their life's

48

00:02:25,520 --> 00:02:24,190

mission and has proved their point over

49

00:02:27,960 --> 00:02:25,530

and over again

50

00:02:30,509 --> 00:02:27,970

sometimes they're hesitant to appear on

51
00:02:33,600 --> 00:02:30,519
a show that calls itself a conspiracy

52
00:02:36,930 --> 00:02:33,610
show and uses some of the logos and

53
00:02:39,420 --> 00:02:36,940
imagery that we use so I had to really

54
00:02:42,479 --> 00:02:39,430
make the case that THC is a serious

55
00:02:43,650 --> 00:02:42,489
place and I was really happy when he

56
00:02:46,559 --> 00:02:43,660
eventually agreed

57
00:02:49,530 --> 00:02:46,569
dr. mill hem is not a young man anymore

58
00:02:51,210 --> 00:02:49,540
and even suffered a stroke last year

59
00:02:54,180 --> 00:02:51,220
unfortunately that I learned about

60
00:02:56,910 --> 00:02:54,190
during the show so I understand the idea

61
00:02:59,670 --> 00:02:56,920
of two hours just being way too much of

62
00:03:01,470 --> 00:02:59,680
a commitment and it's clear that he's

63
00:03:03,210 --> 00:03:01,480

been committed to this work because he's

64

00:03:05,910 --> 00:03:03,220

still trying to get the word out despite

65

00:03:08,580 --> 00:03:05,920

all of this and that said I hope you

66

00:03:11,280 --> 00:03:08,590

enjoy it and take to heart some of these

67

00:03:13,890 --> 00:03:11,290

warnings about a realm of health dangers

68

00:03:16,949 --> 00:03:13,900

and corporate corruption that is not

69

00:03:19,710 --> 00:03:16,959

talked about nearly enough so let's get

70

00:03:22,449 --> 00:03:19,720

into it with dr. Sam know him on the

71

00:03:30,420 --> 00:03:26,899

the market to little sparking just about

72

00:03:34,300 --> 00:03:32,339

information about the secret

73

00:03:36,000 --> 00:03:34,310

manipulation and the wine assist

74

00:03:37,680 --> 00:03:36,010

aficionados he can find

75

00:03:40,560 --> 00:03:37,690

[Music]

76

00:03:42,660 --> 00:03:40,570

man care normally thought we get dessert

77

00:03:52,800 --> 00:03:42,670

so we can see the world with a brand new

78

00:03:57,970 --> 00:03:55,809

all right higher side Cheddar's how we

79

00:03:59,890 --> 00:03:57,980

doing out there from sunny San Diego I'm

80

00:04:01,390 --> 00:03:59,900

Greg Carl wood and we know that our

81

00:04:03,640 --> 00:04:01,400

Western ways are still awash with

82

00:04:05,440 --> 00:04:03,650

harmful chemicals and unhealthy habits

83

00:04:06,760 --> 00:04:05,450

that it can be hard to properly pin down

84

00:04:09,340 --> 00:04:06,770

exactly what's what

85

00:04:11,380 --> 00:04:09,350

but the purity and integrity of our food

86

00:04:13,510 --> 00:04:11,390

water and medicine are all in poor shape

87

00:04:16,210 --> 00:04:13,520

and don't seem to be trending in our

88

00:04:18,430 --> 00:04:16,220

direction any time soon and even with

89

00:04:20,949 --> 00:04:18,440

the many conversations we've had about

90

00:04:22,990 --> 00:04:20,959

all these areas of concern it seems we

91

00:04:25,240 --> 00:04:23,000

missed a major component of the sickness

92

00:04:27,430 --> 00:04:25,250

soup that is our modern society which

93

00:04:28,960 --> 00:04:27,440

has only recently hit my radar through

94

00:04:32,469 --> 00:04:28,970

the work of today's highly credentialed

95

00:04:34,420 --> 00:04:32,479

guest dr. Sam mill heme dr. mill heme is

96

00:04:37,000 --> 00:04:34,430

a physician an epidemiologist

97

00:04:39,100 --> 00:04:37,010

specializing in Public Health with more

98

00:04:41,170 --> 00:04:39,110

than a hundred scientific publications

99

00:04:44,050 --> 00:04:41,180

and several awards for his work he

100

00:04:46,120 --> 00:04:44,060

really is a pioneer in understanding the

101
00:04:48,550 --> 00:04:46,130
relationship between electricity and

102
00:04:50,650 --> 00:04:48,560
human health and he's well known as

103
00:04:52,710 --> 00:04:50,660
being the first scientist to raise the

104
00:04:55,080 --> 00:04:52,720
alarm on the frightening link between

105
00:04:58,659 --> 00:04:55,090
occupational exposure to electromagnetic

106
00:05:00,909 --> 00:04:58,669
fields and human disease well despite

107
00:05:02,740 --> 00:05:00,919
our wildly unhealthy lifestyles and the

108
00:05:05,080 --> 00:05:02,750
many factors we focus on with other

109
00:05:06,730 --> 00:05:05,090
guests it's dr. mill hams contention

110
00:05:08,920 --> 00:05:06,740
that it's really our constant exposure

111
00:05:10,810 --> 00:05:08,930
to electricity and the shady practices

112
00:05:13,180 --> 00:05:10,820
of the corporations involved that's

113
00:05:15,450 --> 00:05:13,190

actually killing us he breaks it all

114

00:05:17,890 --> 00:05:15,460

down in his great book dirty electricity

115

00:05:20,110 --> 00:05:17,900

electrification and the diseases of

116

00:05:22,210 --> 00:05:20,120

civilization and I'm really excited to

117

00:05:24,130 --> 00:05:22,220

have him here to talk about it a public

118

00:05:26,409 --> 00:05:24,140

health hero and true champion of the

119

00:05:30,070 --> 00:05:26,419

people dr. Mel hem welcome to the higher

120

00:05:31,600 --> 00:05:30,080

side we're quite up here well I'm really

121

00:05:34,029 --> 00:05:31,610

psyched to be doing this thanks so much

122

00:05:35,500 --> 00:05:34,039

for your time I know a lot of this has

123

00:05:37,690 --> 00:05:35,510

been your life's work and it definitely

124

00:05:40,120 --> 00:05:37,700

should be highlighted and appreciated

125

00:05:41,650 --> 00:05:40,130

we've done several previous episodes

126
00:05:44,200 --> 00:05:41,660
with guests who have a lot of concerns

127
00:05:46,840 --> 00:05:44,210
over cellphones Wi-Fi and that latest

128
00:05:49,120 --> 00:05:46,850
buzzword 5g but you've been showing the

129
00:05:52,120 --> 00:05:49,130
data that proves we have had a problem

130
00:05:54,040 --> 00:05:52,130
for a long time long before anyone knew

131
00:05:56,350 --> 00:05:54,050
these latest terms and to kick this off

132
00:05:58,810 --> 00:05:56,360
with a quote from the book you say when

133
00:05:59,920 --> 00:05:58,820
Thomas Edison began wiring New York City

134
00:06:03,279 --> 00:05:59,930
with a direct current distribution

135
00:06:05,050 --> 00:06:03,289
system in the 1880s he gave mankind the

136
00:06:07,540 --> 00:06:05,060
magic of electric light

137
00:06:09,940 --> 00:06:07,550
heat and power in the process though he

138
00:06:12,970 --> 00:06:09,950

inadvertently opened a Pandora's box of

139

00:06:15,129 --> 00:06:12,980

unimaginable illness and death well

140

00:06:17,170 --> 00:06:15,139

obviously that's quite a statement but

141

00:06:20,379 --> 00:06:17,180

the point there is that this is not a

142

00:06:22,600 --> 00:06:20,389

new problem is it no it goes back to

143

00:06:24,430 --> 00:06:22,610

Thomas Edison they're the guys who will

144

00:06:26,770 --> 00:06:24,440

generate in the stuff at the Pearl

145

00:06:28,300 --> 00:06:26,780

Street Station kinda slick but that's

146

00:06:30,270 --> 00:06:28,310

all in the bar people could read the

147

00:06:33,280 --> 00:06:30,280

book and read about the old stuff and

148

00:06:35,590 --> 00:06:33,290

you know the other thing is that open

149

00:06:37,510 --> 00:06:35,600

floor know there's a couple populations

150

00:06:39,930 --> 00:06:37,520

in the world that have very low

151
00:06:43,240 --> 00:06:39,940
exposures to this stuff the Amos

152
00:06:45,430 --> 00:06:43,250
Mennonite sect the rule of North and

153
00:06:47,680 --> 00:06:45,440
South America if you look at them

154
00:06:50,260 --> 00:06:47,690
they're they're repulsive healthier we

155
00:06:54,280 --> 00:06:50,270
are unfortunately they don't have cancer

156
00:06:58,330 --> 00:06:54,290
their bones are stronger and I want to

157
00:06:59,800 --> 00:06:58,340
get out of my shop it is interested in

158
00:07:01,600 --> 00:06:59,810
worth mentioning because you talk about

159
00:07:03,610 --> 00:07:01,610
how difficult it can be to find a

160
00:07:06,310 --> 00:07:03,620
control group and that would definitely

161
00:07:08,560 --> 00:07:06,320
be one and when I was younger I

162
00:07:10,650 --> 00:07:08,570
definitely kind of laughed at the Amish

163
00:07:13,840 --> 00:07:10,660

for saying things like electricity were

164

00:07:15,310 --> 00:07:13,850

demonic or evil or bad but they clearly

165

00:07:17,860 --> 00:07:15,320

are not good for us

166

00:07:20,830 --> 00:07:17,870

and so maybe we should pay a little more

167

00:07:23,230 --> 00:07:20,840

respect I was going to Hopkins for a

168

00:07:26,200 --> 00:07:23,240

Master of Public Health dead people at

169

00:07:28,690 --> 00:07:26,210

work and then that's fifteen fifty five

170

00:07:32,380 --> 00:07:28,700

sixty years ago it was wrong long time

171

00:07:34,330 --> 00:07:32,390

ago her study name is Pennsylvania and

172

00:07:38,529 --> 00:07:34,340

they were stuck on the fact that they

173

00:07:40,779 --> 00:07:38,539

just didn't get diabetes and that's one

174

00:07:43,750 --> 00:07:40,789

of the diseases that's really a hallmark

175

00:07:45,310 --> 00:07:43,760

of EMS exposure mmm in fact when we

176

00:07:47,650 --> 00:07:45,320

clean up houses

177

00:07:50,670 --> 00:07:47,660

we're diabetics live we have to warn

178

00:07:53,469 --> 00:07:50,680

them that I'll see if there's like one

179

00:07:55,330 --> 00:07:53,479

themselves insulin every day that the

180

00:07:58,750 --> 00:07:55,340

need for it's going to change ginger a

181

00:08:01,330 --> 00:07:58,760

lot we warned him about it it always

182

00:08:03,279 --> 00:08:01,340

happens yeah and we're gonna get into

183

00:08:05,529 --> 00:08:03,289

that too but that's one of those mind

184

00:08:08,200 --> 00:08:05,539

blowers to me that even diabetes is

185

00:08:10,360 --> 00:08:08,210

affected by electrical exposure because

186

00:08:12,040 --> 00:08:10,370

that's something so synonymous with diet

187

00:08:13,210 --> 00:08:12,050

because we always think about the blood

188

00:08:16,060 --> 00:08:13,220

sugar and what you're putting in your

189

00:08:18,760 --> 00:08:16,070

body but no that's not true right no

190

00:08:21,010 --> 00:08:18,770

it's today EMF

191

00:08:23,170 --> 00:08:21,020

diet away look at all the dietary

192

00:08:27,010 --> 00:08:23,180

differences around the planet everybody

193

00:08:29,140 --> 00:08:27,020

suffers from EMF spiders their diet look

194

00:08:35,350 --> 00:08:29,150

at that hey miss D shoo fly pie and

195

00:08:37,180 --> 00:08:35,360

greasy stuff no order yes well while

196

00:08:38,019 --> 00:08:37,190

we're talking about other countries

197

00:08:39,909 --> 00:08:38,029

around the world

198

00:08:42,459 --> 00:08:39,919

I heard you mention that some countries

199

00:08:44,949 --> 00:08:42,469

have a delta system I'm curious what

200

00:08:47,920 --> 00:08:44,959

that means how is their system different

201
00:08:49,829 --> 00:08:47,930
than our electrical grid North America

202
00:08:54,040 --> 00:08:49,839
and South America we've got a grounded y

203
00:08:57,310 --> 00:08:54,050
system which means it and every

204
00:09:00,190 --> 00:08:57,320
transport well used to be four five ten

205
00:09:02,350 --> 00:09:00,200
grams per mile but now go out look at

206
00:09:04,480 --> 00:09:02,360
the pole method transformers look at the

207
00:09:07,030 --> 00:09:04,490
gray cylinders up on top each one of

208
00:09:08,740 --> 00:09:07,040
those has got a wire to earth now that

209
00:09:11,110 --> 00:09:08,750
was there initially when it was built

210
00:09:14,949 --> 00:09:11,120
for emergencies unlike lightnings

211
00:09:18,040 --> 00:09:14,959
dragger wires if drop flagged over but

212
00:09:20,829 --> 00:09:18,050
now it's used to save the utilities from

213
00:09:22,840 --> 00:09:20,839

putting more wires up on top only

214

00:09:24,940 --> 00:09:22,850

electricity that comes to your house has

215

00:09:27,430 --> 00:09:24,950

to go back to the substation goes you

216

00:09:30,639 --> 00:09:27,440

know back at the hippie era krisi which

217

00:09:33,280 --> 00:09:30,649

is nearly as vitalife and unfortunately

218

00:09:34,660 --> 00:09:33,290

now it's at the ground is for fall of

219

00:09:36,240 --> 00:09:34,670

all the returned currents and that's

220

00:09:38,920 --> 00:09:36,250

another source of exposure that's

221

00:09:41,110 --> 00:09:38,930

increasing by the day and i think that

222

00:09:43,510 --> 00:09:41,120

they're in the reasons why animals that

223

00:09:46,690 --> 00:09:43,520

live in the ground like like what what

224

00:09:50,620 --> 00:09:46,700

please croaking like man mmm croup frogs

225

00:09:52,840 --> 00:09:50,630

and here bibs they're just a half and

226

00:09:56,290 --> 00:09:52,850

pull other animals too busy feed on them

227

00:09:58,500 --> 00:09:56,300

but anyway now in Europe and other

228

00:10:01,150 --> 00:09:58,510

places they've got a a grid where all

229

00:10:06,400 --> 00:10:01,160

white Rosina goes to your house goes

230

00:10:09,310 --> 00:10:06,410

back on the wires like our shirt mm-hmm

231

00:10:10,900 --> 00:10:09,320

right and that was something I was going

232

00:10:12,790 --> 00:10:10,910

to get into because when we talked about

233

00:10:14,079 --> 00:10:12,800

getting this interview set up I learned

234

00:10:16,420 --> 00:10:14,089

you're not a big fan of that term

235

00:10:18,190 --> 00:10:16,430

conspiracy and I understand that but

236

00:10:19,900 --> 00:10:18,200

these companies have to know what's

237

00:10:22,600 --> 00:10:19,910

going on and they clearly would rather

238

00:10:25,449 --> 00:10:22,610

cover it up and fix it and maybe calling

239

00:10:28,060 --> 00:10:25,459

it an attack is going too far but you do

240

00:10:30,250 --> 00:10:28,070

say in the last 20 years over 70% of the

241

00:10:32,440 --> 00:10:30,260

electricity we use runs back to the

242

00:10:36,100 --> 00:10:32,450

station through the ground rather than

243

00:10:38,020 --> 00:10:36,110

neutral transmission lines so like most

244

00:10:40,210 --> 00:10:38,030

corporations they're using the earth as

245

00:10:43,360 --> 00:10:40,220

a general dumping ground for their

246

00:10:45,370 --> 00:10:43,370

garbage but talk to us about how these

247

00:10:47,800 --> 00:10:45,380

utility companies are making things

248

00:10:50,680 --> 00:10:47,810

worse than they even have to be well you

249

00:10:52,390 --> 00:10:50,690

know every States got a rule and says

250

00:10:55,180 --> 00:10:52,400

they can't do that but they do it I mean

251
00:10:57,850 --> 00:10:55,190
it says yeah I read to California when I

252
00:11:01,060 --> 00:10:57,860
live down there and Wimmers now I'm a

253
00:11:03,310 --> 00:11:01,070
Washington state year-round but it says

254
00:11:05,110 --> 00:11:03,320
clearly you can only use that for

255
00:11:07,500 --> 00:11:05,120
emergencies and they use it routinely

256
00:11:10,330 --> 00:11:07,510
and as I've measured the ground

257
00:11:12,540 --> 00:11:10,340
everywhere like I used to hike up on the

258
00:11:16,180 --> 00:11:12,550
Cascade crest trail down here California

259
00:11:18,700 --> 00:11:16,190
you find really strong fields and

260
00:11:20,620 --> 00:11:18,710
currents in the earth another one of the

261
00:11:23,500 --> 00:11:20,630
ways it's showing up is freshwater

262
00:11:24,730 --> 00:11:23,510
electrocutions down snasser goin up and

263
00:11:26,860 --> 00:11:24,740

Clank see we had one right here in the

264

00:11:29,410 --> 00:11:26,870

state last year a couple weeks floating

265

00:11:33,160 --> 00:11:29,420

down a river a girl's heart stopped

266

00:11:34,870 --> 00:11:33,170

Kehaar they've got what kinds of funny

267

00:11:39,310 --> 00:11:34,880

reasons why it happened but it happened

268

00:11:40,500 --> 00:11:39,320

because the rivers elect a high electric

269

00:11:44,620 --> 00:11:40,510

fields and in the water

270

00:11:47,140 --> 00:11:44,630

hmm that's the ground current occasion I

271

00:11:48,550 --> 00:11:47,150

fishing I used to fish a lot I would net

272

00:11:49,990 --> 00:11:48,560

there one of the islands of my teacher

273

00:11:53,170 --> 00:11:50,000

sent and it happened

274

00:11:56,050 --> 00:11:53,180

squawks it's a tribal island actually

275

00:11:57,420 --> 00:11:56,060

said it was a prison for four years now

276

00:12:01,870 --> 00:11:57,430

nobody lives there

277

00:12:04,360 --> 00:12:01,880

the we can go on it and a tribal guy cut

278

00:12:06,250 --> 00:12:04,370

me out and I measured the recurrence on

279

00:12:07,960 --> 00:12:06,260

the island I had to get there Lee they

280

00:12:10,990 --> 00:12:07,970

run underneath they went on the water

281

00:12:12,850 --> 00:12:11,000

and they capture on the land and down

282

00:12:15,550 --> 00:12:12,860

the other side to go back to the

283

00:12:17,260 --> 00:12:15,560

substation came from so there's no place

284

00:12:20,290 --> 00:12:17,270

in North America that I measured I

285

00:12:23,200 --> 00:12:20,300

measured Alaska Canada and the west

286

00:12:25,810 --> 00:12:23,210

coast and had other people measurement

287

00:12:27,520 --> 00:12:25,820

measurements back east and if to get

288

00:12:30,790 --> 00:12:27,530

grounded why system they got occur in

289

00:12:33,220 --> 00:12:30,800

the ground the trip in the year mmm and

290

00:12:35,800 --> 00:12:33,230

he kept in warehouses like when I lived

291

00:12:38,650 --> 00:12:35,810

in California lifted a four-plex and

292

00:12:40,420 --> 00:12:38,660

Indio and my dog good said not bad

293

00:12:42,520 --> 00:12:40,430

they're teeth he liked to sleep on the

294

00:12:46,220 --> 00:12:42,530

tile floor in the bathroom well turns

295

00:12:48,860 --> 00:12:46,230

out that that was hot as electric fields

296

00:12:51,710 --> 00:12:48,870

he'll turn it and Fanta is coming into

297

00:12:53,750 --> 00:12:51,720

the house from the concrete slab and was

298

00:12:56,600 --> 00:12:53,760

getting into the slab from each end of

299

00:12:58,970 --> 00:12:56,610

the building at a gas supply the gas

300

00:13:01,250 --> 00:12:58,980

meter so hooked when we cook to the gas

301

00:13:03,260 --> 00:13:01,260

meter to the ground I found a whole

302

00:13:04,760 --> 00:13:03,270

bunch of odd Krissi a certainty there I

303

00:13:08,360 --> 00:13:04,770

mean was it going to be tonight like

304

00:13:11,330 --> 00:13:08,370

Perseid just before they were making

305

00:13:14,270 --> 00:13:11,340

them wi-fi's like most part leadership

306

00:13:16,100 --> 00:13:14,280

and those are worse for us right oh god

307

00:13:18,260 --> 00:13:16,110

that's where I have a smart meter on my

308

00:13:19,190 --> 00:13:18,270

house for a couple years when they put

309

00:13:22,670 --> 00:13:19,200

it on I was an arrow

310

00:13:24,110 --> 00:13:22,680

Hey look I don't want that thing well he

311

00:13:26,270 --> 00:13:24,120

said well you either have that it we

312

00:13:29,120 --> 00:13:26,280

shut the electricity off so he could it

313

00:13:31,700 --> 00:13:29,130

do so I had it on for a while tried

314

00:13:34,480 --> 00:13:31,710

shielded it I could be held that the

315

00:13:37,970 --> 00:13:34,490

came with love Washington's state said

316

00:13:39,650 --> 00:13:37,980

you can opt out so I did I may kill them

317

00:13:41,810 --> 00:13:39,660

well c'mon crew Cindy but I don't have

318

00:13:45,050 --> 00:13:41,820

that damn smart meter keep me up all

319

00:13:46,730 --> 00:13:45,060

night hear that my bedroom wall now my

320

00:13:49,460 --> 00:13:46,740

house has no clue so second sleep

321

00:13:51,530 --> 00:13:49,470

mmm-hmm so anyway forgetting this

322

00:13:55,130 --> 00:13:51,540

through the wires and to the wiring

323

00:13:57,170 --> 00:13:55,140

through the earth California the floor

324

00:13:59,420 --> 00:13:57,180

of the bathroom and any metal that was

325

00:14:02,270 --> 00:13:59,430

attached to the floor like a door jams

326

00:14:04,460 --> 00:14:02,280

and the windows were hot and you catch

327

00:14:06,770 --> 00:14:04,470

something you get hurt in her body

328

00:14:08,900 --> 00:14:06,780

that's another thing you disagree with

329

00:14:12,530 --> 00:14:08,910

the first letter shown how to measure

330

00:14:15,320 --> 00:14:12,540

the current not approximated from there

331

00:14:17,330 --> 00:14:15,330

volts times amps equals a power if you

332

00:14:20,270 --> 00:14:17,340

get the power and voltage you can figure

333

00:14:21,830 --> 00:14:20,280

the amperage just by division but we can

334

00:14:25,130 --> 00:14:21,840

actually measure it now to measure it

335

00:14:28,280 --> 00:14:25,140

with a meter and we found out that I put

336

00:14:32,710 --> 00:14:28,290

my fashion icon this is the ordinary six

337

00:14:38,590 --> 00:14:35,290

have you heard my body we went around

338

00:14:40,210 --> 00:14:38,600

town opposition if it's got high ceiling

339

00:14:43,360 --> 00:14:40,220

it's fine but it see how it's under sea

340

00:14:46,900 --> 00:14:43,370

tension your comfy place or did they

341

00:14:50,110 --> 00:14:46,910

come over said if natural aside LEDs are

342

00:14:53,079 --> 00:14:50,120

bad and full of a curlicue come back for

343

00:14:56,429 --> 00:14:53,089

us is your bad so you know we'd have a

344

00:14:59,650 --> 00:14:56,439

lot of stuff we got our void you know

345

00:15:02,699 --> 00:14:59,660

and Wi-Fi is one thing we got to avoid

346

00:15:08,170 --> 00:15:02,709

gonna learn LEDs of fluorescent lights

347

00:15:10,509 --> 00:15:08,180

etc alright ask questions well you

348

00:15:14,139 --> 00:15:10,519

mentioned that the utility companies are

349

00:15:15,879 --> 00:15:14,149

supposed to have that extra wire that

350

00:15:17,980 --> 00:15:15,889

runs everything back and they just

351

00:15:19,600 --> 00:15:17,990

aren't it's more expensive to run that

352

00:15:23,230 --> 00:15:19,610

wire so they're dumping it in the ground

353

00:15:25,929 --> 00:15:23,240

well what it does is I work with stats

354

00:15:26,650 --> 00:15:25,939

are up in Wisconsin Dave Stutzer he does

355

00:15:29,350 --> 00:15:26,660

this every day

356

00:15:31,809 --> 00:15:29,360

and what's happened there's the grad

357

00:15:34,949 --> 00:15:31,819

Kirk messes up the cows they don't know

358

00:15:37,929 --> 00:15:34,959

any other animals on the ground get sick

359

00:15:40,030 --> 00:15:37,939

they've had some cases where they just

360

00:15:42,730 --> 00:15:40,040

had to put that line up for return

361

00:15:44,170 --> 00:15:42,740

currents and cows get better so you know

362

00:15:44,889 --> 00:15:44,180

if you make a cow's better you can make

363

00:15:47,319 --> 00:15:44,899

people better

364

00:15:49,569 --> 00:15:47,329

mm-hm and I went out and measured what

365

00:15:52,509 --> 00:15:49,579

amis were against it you know when they

366

00:15:54,579 --> 00:15:52,519

buy a house they rip the wires out they

367

00:15:57,280 --> 00:15:54,589

sell silver copper don't have any

368

00:15:59,290 --> 00:15:57,290

electricity in their barns that they

369

00:16:02,019 --> 00:15:59,300

don't get asthma they don't get a lot of

370

00:16:04,329 --> 00:16:02,029

stuff but unfortunately I want a little

371

00:16:06,759 --> 00:16:04,339

bit electricity we don't have that dirty

372

00:16:10,059 --> 00:16:06,769

electricity you can have no off-grid

373

00:16:13,509 --> 00:16:10,069

solar and solar and wind or another

374

00:16:15,730 --> 00:16:13,519

problems with a modern modern way but if

375

00:16:19,299 --> 00:16:15,740

the tied to the grid they have to invert

376

00:16:22,600 --> 00:16:19,309

the tuner in DC and have the Jenner

377

00:16:24,100 --> 00:16:22,610

they can AC and the inverters put

378

00:16:27,150 --> 00:16:24,110

through the electricity into the house

379

00:16:31,569 --> 00:16:27,160

wiring into the wearing of the system

380

00:16:33,100 --> 00:16:31,579

that's bad mmm-hmm yeah and I did gloss

381

00:16:35,290 --> 00:16:33,110

over some of your credentials but you

382

00:16:36,970 --> 00:16:35,300

have worked for the Washington State and

383

00:16:38,650 --> 00:16:36,980

New York State Department's of Public

384

00:16:40,569 --> 00:16:38,660

Health you mentioned earlier they're

385

00:16:43,059 --> 00:16:40,579

supposed to be doing this one way and

386

00:16:45,009 --> 00:16:43,069

they're not doing it well what are the

387

00:16:46,690 --> 00:16:45,019

departments of Public Health saying

388

00:16:48,310 --> 00:16:46,700

about this are they just ignorant

389

00:16:49,540 --> 00:16:48,320

to it are they overlooking it I mean

390

00:16:50,500 --> 00:16:49,550

these are the watchdog's that are

391

00:16:53,380 --> 00:16:50,510

supposed to hold these people

392

00:16:55,750 --> 00:16:53,390

accountable yeah like I think it paid

393

00:16:58,330 --> 00:16:55,760

off by these hoodies when I was working

394

00:17:01,450 --> 00:16:58,340

in Wisconsin an epidemic in in the

395

00:17:05,800 --> 00:17:01,460

schools - lets her clear a couple

396

00:17:08,380 --> 00:17:05,810

epidemics by putting filters in and then

397

00:17:11,350 --> 00:17:08,390

cured the problem but just one one

398

00:17:12,100 --> 00:17:11,360

Catholic school we figured they had a

399

00:17:14,830 --> 00:17:12,110

hell of a problem

400

00:17:17,920 --> 00:17:14,840

cancer the kids some of the teachers and

401
00:17:20,380 --> 00:17:17,930
they just tossed us out with the public

402
00:17:22,720 --> 00:17:20,390
health people who have to feel good and

403
00:17:24,390 --> 00:17:22,730
we really jumped into this thing but

404
00:17:26,650 --> 00:17:24,400
maybe we could better to find dirty

405
00:17:28,510 --> 00:17:26,660
electricity is it always coming from the

406
00:17:30,610 --> 00:17:28,520
ground is it sometimes coming from the

407
00:17:33,550 --> 00:17:30,620
wires and the devices has it hidden us

408
00:17:35,320 --> 00:17:33,560
know it moist mr. Cunningham other stuff

409
00:17:38,440 --> 00:17:35,330
in your house will you put your

410
00:17:41,560 --> 00:17:38,450
microwave over them it puts our eggs out

411
00:17:43,270 --> 00:17:41,570
and you have LEDs or any other murderers

412
00:17:44,860 --> 00:17:43,280
in your house that's put dirty

413
00:17:46,930 --> 00:17:44,870

electricity in there you're in a

414

00:17:48,970 --> 00:17:46,940

neighborhood that's got solar you've got

415

00:17:51,100 --> 00:17:48,980

through the electricity because it runs

416

00:17:53,800 --> 00:17:51,110

into the wires and gets to your house

417

00:17:56,530 --> 00:17:53,810

from your neighbors the perfect place to

418

00:17:59,320 --> 00:17:56,540

live with the by yourself out on 15

419

00:18:01,420 --> 00:17:59,330

acres nothing around your eyes full of

420

00:18:03,370 --> 00:18:01,430

stuff in the ground because you know

421

00:18:06,430 --> 00:18:03,380

like up on the Cascade crest tree lives

422

00:18:09,580 --> 00:18:06,440

20 miles from anywhere I could visit the

423

00:18:11,440 --> 00:18:09,590

stuff in the ground all the time hmm and

424

00:18:12,580 --> 00:18:11,450

let's also break down which conditions

425

00:18:14,430 --> 00:18:12,590

we're talking about this dirty

426

00:18:16,390 --> 00:18:14,440

electricity might be responsible for

427

00:18:18,910 --> 00:18:16,400

leukemia lymphoma

428

00:18:20,710 --> 00:18:18,920

various cancers even obesity and

429

00:18:22,540 --> 00:18:20,720

diabetes which are the really weird ones

430

00:18:24,880 --> 00:18:22,550

to understand but what all falls under

431

00:18:28,330 --> 00:18:24,890

this umbrella of health conditions and

432

00:18:30,250 --> 00:18:28,340

disease caused by dirty electricity when

433

00:18:33,250 --> 00:18:30,260

I first started I started with leukemia

434

00:18:35,140 --> 00:18:33,260

and that's obviously related to it but

435

00:18:37,570 --> 00:18:35,150

lower cancer suppressant cancer female

436

00:18:39,120 --> 00:18:37,580

breast cancer is a big one and it's

437

00:18:42,130 --> 00:18:39,130

their heart diseases

438

00:18:45,940 --> 00:18:42,140

it's everything except accidents car

439

00:18:48,040 --> 00:18:45,950

accidents look at liquefied versus

440

00:18:51,010 --> 00:18:48,050

unoccupied populations in this country

441

00:18:54,160 --> 00:18:51,020

the book was basically result of the

442

00:18:57,100 --> 00:18:54,170

study I did way back one and I just used

443

00:18:59,740 --> 00:18:57,110

death records and I used to buy

444

00:19:00,440 --> 00:18:59,750

statement at didn't nationally and it

445

00:19:02,180 --> 00:19:00,450

showed that if

446

00:19:04,130 --> 00:19:02,190

lived in a place that well what happened

447

00:19:05,840 --> 00:19:04,140

is electricity they have to run worth

448

00:19:07,400 --> 00:19:05,850

your ass from the generating stations

449

00:19:10,570 --> 00:19:07,410

cities got it right away

450

00:19:14,270 --> 00:19:10,580

they got it say ten years of medicine

451

00:19:19,250 --> 00:19:14,280

late 18-hundreds but the less forms

452

00:19:21,560 --> 00:19:19,260

didn't get electrified us until 1955 so

453

00:19:23,360 --> 00:19:21,570

you had half a century we had half the

454

00:19:25,820 --> 00:19:23,370

country with electricity half without it

455

00:19:29,080 --> 00:19:25,830

and I just looked at the difference in

456

00:19:32,330 --> 00:19:29,090

mortality rates they're just incredible

457

00:19:34,160 --> 00:19:32,340

places and electrification add a lot

458

00:19:36,410 --> 00:19:34,170

more of everything except why do I

459

00:19:41,680 --> 00:19:36,420

difference suicides a big one that's

460

00:19:45,500 --> 00:19:43,340

suicide

461

00:19:48,050 --> 00:19:45,510

no that's because of the stress response

462

00:19:51,610 --> 00:19:48,060

I guess that this is causing who knows

463

00:19:55,870 --> 00:19:51,620

who knows with interstate changes here

464

00:20:00,680 --> 00:19:55,880

your ionic levels in your blood calcium

465

00:20:02,780 --> 00:20:00,690

ions commanded the tracer you know we we

466

00:20:05,690 --> 00:20:02,790

evolved with electricity on the planet

467

00:20:09,680 --> 00:20:05,700

Schumann resonances and lightning that's

468

00:20:12,740 --> 00:20:09,690

bad and the Earth's fields then all of a

469

00:20:14,840 --> 00:20:12,750

sudden editor stuffin and this 5g is

470

00:20:16,850 --> 00:20:14,850

going to be bad because it's putting a

471

00:20:19,430 --> 00:20:16,860

lot more transmitters closer to a lot

472

00:20:22,880 --> 00:20:19,440

more people i don't care we could put

473

00:20:24,650 --> 00:20:22,890

out so bad mmm-hmm this is kind of a

474

00:20:26,840 --> 00:20:24,660

weird one but i wanted to ask you in

475

00:20:29,390 --> 00:20:26,850

terms of the history about that whole

476

00:20:31,820 --> 00:20:29,400

tesla verse edison saga i think a lot of

477

00:20:33,830 --> 00:20:31,830

folks seem to think of tesla as a

478

00:20:35,600 --> 00:20:33,840

futurist who wanted to help humanity and

479

00:20:37,040 --> 00:20:35,610

edison as the savvy businessman who

480

00:20:39,500 --> 00:20:37,050

wanted to commercialize the whole thing

481

00:20:42,050 --> 00:20:39,510

but there is that alternating current

482

00:20:44,030 --> 00:20:42,060

verse direct current debate and i'm not

483

00:20:46,070 --> 00:20:44,040

sure if it matters anymore but is one

484

00:20:49,790 --> 00:20:46,080

less harmful health-wise than the other

485

00:20:52,130 --> 00:20:49,800

oh yeah DC is a whole lot healthier for

486

00:20:53,900 --> 00:20:52,140

either if you could have it because it

487

00:20:58,370 --> 00:20:53,910

doesn't carry that dirty electricity and

488

00:20:59,390 --> 00:20:58,380

DC is what edison backed no Addison what

489

00:21:03,440 --> 00:20:59,400

was a she man

490

00:21:07,250 --> 00:21:03,450

oh hey generate a seat at the grocery

491

00:21:08,810 --> 00:21:07,260

substations sure yeah then it's bad for

492

00:21:10,940 --> 00:21:08,820

the pocketbook and for the body

493

00:21:14,000 --> 00:21:10,950

yeah well it's bad for everything

494

00:21:15,770 --> 00:21:14,010

unfortunately I know we could with

495

00:21:18,650 --> 00:21:15,780

now if we can put people on the moon we

496

00:21:20,360 --> 00:21:18,660

can get clean electricity well we can go

497

00:21:22,190 --> 00:21:20,370

to a delta type grid like they have in

498

00:21:23,750 --> 00:21:22,200

Europe but you know they've got sober

499

00:21:26,530 --> 00:21:23,760

they got wind over there so I think our

500

00:21:29,480 --> 00:21:26,540

problems those technologies are dirty

501
00:21:30,799 --> 00:21:29,490
their vision down the California has

502
00:21:34,100 --> 00:21:30,809
spent a lot of time measuring the wind

503
00:21:35,960 --> 00:21:34,110
farms done in San Diego and I've been

504
00:21:39,409 --> 00:21:35,970
missing a home on a solar places they're

505
00:21:41,840 --> 00:21:39,419
all bad nothing good about yes I

506
00:21:44,710 --> 00:21:41,850
actually think you did a study of a

507
00:21:48,200 --> 00:21:44,720
tribe that was living near a wind

508
00:21:50,419 --> 00:21:48,210
turbine field and they're a great case

509
00:21:54,260 --> 00:21:50,429
study as to the damage that can be done

510
00:21:57,350 --> 00:21:54,270
right yeah enough effect along the way

511
00:22:01,159 --> 00:21:57,360
if it does affect your homes burning or

512
00:22:04,220 --> 00:22:01,169
Daniel somewhere along with them like 20

513
00:22:07,370 --> 00:22:04,230

windmills and they offered spectacular

514

00:22:11,169 --> 00:22:07,380

blades flatten cross fire coming out of

515

00:22:15,260 --> 00:22:11,179

that nature to put no one to it again

516

00:22:17,539 --> 00:22:15,270

hmm so I was trying to look at other

517

00:22:19,610 --> 00:22:17,549

sources to kind of educate myself on

518

00:22:22,669 --> 00:22:19,620

this stuff because it is fairly complex

519

00:22:25,100 --> 00:22:22,679

and when I was reading said that the

520

00:22:27,049 --> 00:22:25,110

towers operate on direct current but

521

00:22:29,270 --> 00:22:27,059

it's the electrical current supplied to

522

00:22:30,919 --> 00:22:29,280

the tower that is alternating current

523

00:22:33,500 --> 00:22:30,929

and they're therefore they need to have

524

00:22:36,380 --> 00:22:33,510

an inverter and the inverter is a big

525

00:22:38,870 --> 00:22:36,390

part of the problem why this mismatching

526

00:22:41,900 --> 00:22:38,880

of the two different systems why can't

527

00:22:44,840 --> 00:22:41,910

we just stick to one he's addicted easy

528

00:22:47,390 --> 00:22:44,850

as it was you stick to I mean all radios

529

00:22:49,610 --> 00:22:47,400

run on DC it on except if you plug them

530

00:22:52,159 --> 00:22:49,620

in the wall they've got a river to

531

00:22:52,970 --> 00:22:52,169

change they easy to DC that hasn't

532

00:22:56,870 --> 00:22:52,980

overworks

533

00:22:59,510 --> 00:22:56,880

solar cells make the recurrent and if

534

00:23:01,250 --> 00:22:59,520

you want to electrify your AC house you

535

00:23:04,580 --> 00:23:01,260

have to put it through a device that

536

00:23:07,610 --> 00:23:04,590

changes the AC to DC it's like they use

537

00:23:09,890 --> 00:23:07,620

AC DC for transmission and DC

538

00:23:11,780 --> 00:23:09,900

transmissions bed early they take the

539

00:23:14,600 --> 00:23:11,790

big five there's a big DC transmission

540

00:23:17,419 --> 00:23:14,610

line that runs down the coast but the

541

00:23:20,750 --> 00:23:17,429

devices they have at each end the AC DC

542

00:23:23,120 --> 00:23:20,760

transmission or vice versa or bad I mean

543

00:23:26,750 --> 00:23:23,130

they put crap in the fly that's why you

544

00:23:29,630 --> 00:23:26,760

get these wires along power lines

545

00:23:33,020 --> 00:23:29,640

pipes they brand everything gotten the

546

00:23:35,900 --> 00:23:33,030

same quarterly I buy our lines and pipe

547

00:23:39,799 --> 00:23:35,910

the first the current that makes them

548

00:23:42,320 --> 00:23:39,809

weak and they blow yeah bunch of people

549

00:23:44,080 --> 00:23:42,330

killed on a pipeline blew and line up

550

00:23:47,690 --> 00:23:44,090

here I'm sure that's what happened

551

00:23:50,060 --> 00:23:47,700

hmm yeah we really have been kind of

552

00:23:52,700 --> 00:23:50,070

tiptoeing around that paper you have the

553

00:23:56,210 --> 00:23:52,710

dark side of clean energy or the dark

554

00:23:58,490 --> 00:23:56,220

side of green energy and so I do know

555

00:24:00,080 --> 00:23:58,500

people who have recently put solar

556

00:24:02,870 --> 00:24:00,090

panels on their house thinking they're

557

00:24:04,400 --> 00:24:02,880

doing the right thing can they fix that

558

00:24:06,350 --> 00:24:04,410

I mean they just made a twenty thousand

559

00:24:09,740 --> 00:24:06,360

dollar investment how can they fix it so

560

00:24:13,580 --> 00:24:09,750

they're not cooking themselves well it's

561

00:24:15,320 --> 00:24:13,590

over just go work come on shut it off we

562

00:24:18,049 --> 00:24:15,330

go to sleep hmm

563

00:24:19,970 --> 00:24:18,059

what you can do here their house you get

564

00:24:23,270 --> 00:24:19,980

that exposed so if you work from home

565

00:24:25,220 --> 00:24:23,280

you're just done you're screwed ah

566

00:24:27,740 --> 00:24:25,230

there's nothing there's no kind of

567

00:24:28,400 --> 00:24:27,750

tweaks that you can do to the system

568

00:24:35,570 --> 00:24:28,410

itself

569

00:24:37,520 --> 00:24:35,580

oh no yourself nothing's going to help

570

00:24:39,950 --> 00:24:37,530

you you're working around their house

571

00:24:43,190 --> 00:24:39,960

and it's got solar during the day you're

572

00:24:46,850 --> 00:24:43,200

getting exposed to Wow well that's that

573

00:24:49,220 --> 00:24:46,860

here it is nothing they got rules to

574

00:25:00,049 --> 00:24:49,230

California all houses have to have

575

00:25:01,940 --> 00:25:00,059

silica certain yeah yeah dude well I do

576

00:25:04,549 --> 00:25:01,950

like that you've sort of focused your

577

00:25:06,500 --> 00:25:04,559

career on occupational hazard for one

578

00:25:08,419 --> 00:25:06,510

because I think a lot of companies put

579

00:25:10,010 --> 00:25:08,429

people in harmony either don't care or

580

00:25:11,780 --> 00:25:10,020

don't put the effort into really knowing

581

00:25:13,520 --> 00:25:11,790

all the hazards involved but as you say

582

00:25:15,890 --> 00:25:13,530

in the book it also shows that a

583

00:25:17,990 --> 00:25:15,900

condition is situational and thus

584

00:25:19,760 --> 00:25:18,000

preventable can you give the people an

585

00:25:22,730 --> 00:25:19,770

example or two about maybe big

586

00:25:25,760 --> 00:25:22,740

occupational studies you did well I

587

00:25:29,470 --> 00:25:25,770

studied the paper workers plea as xxxii

588

00:25:32,870 --> 00:25:29,480

carpet crews in turn anyway us in Canada

589

00:25:34,820 --> 00:25:32,880

and now they've got their problems but

590

00:25:38,149 --> 00:25:34,830

people have studied you like co-workers

591

00:25:39,080 --> 00:25:38,159

and they all show the same problems they

592

00:25:42,050 --> 00:25:39,090

get exposed to

593

00:25:45,080 --> 00:25:42,060

seems ugly are anymore and it shows up

594

00:25:47,840 --> 00:25:45,090

in their mortality morbidity matters the

595

00:25:49,730 --> 00:25:47,850

one study really helped stay candidly

596

00:25:52,160 --> 00:25:49,740

they had a different meter they were

597

00:25:54,140 --> 00:25:52,170

measuring high-frequency stuff and that

598

00:25:56,570 --> 00:25:54,150

shared lung cancer I mean that's smoking

599

00:25:59,090 --> 00:25:56,580

cancer and people who had high frequency

600

00:26:00,740 --> 00:25:59,100

exposure and that's that's about the

601
00:26:04,100 --> 00:26:00,750
time I learned about that I learned

602
00:26:07,070 --> 00:26:04,110
about this stuff Spitzer Marta Grimm

603
00:26:07,760 --> 00:26:07,080
we're doing the cows in Wisconsin I look

604
00:26:09,890 --> 00:26:07,770
with them

605
00:26:13,040 --> 00:26:09,900
and that's what the dirty electricity is

606
00:26:16,850 --> 00:26:13,050
its high frequency stuff that shouldn't

607
00:26:19,850 --> 00:26:16,860
be there hmm 60 cycle is bad because not

608
00:26:22,040 --> 00:26:19,860
as bad as the high frequency stuff like

609
00:26:23,840 --> 00:26:22,050
to talk about the Moscow embassy being

610
00:26:26,780 --> 00:26:23,850
microwaved by the Russians they did book

611
00:26:29,270 --> 00:26:26,790
microwaves with it the walls real 3 foot

612
00:26:31,460 --> 00:26:29,280
concrete micros don't go through three

613
00:26:33,950 --> 00:26:31,470

feet of concrete he just really dirty

614

00:26:37,310 --> 00:26:33,960

electricity in for the wires nobody

615

00:26:40,310 --> 00:26:37,320

knows that I talked to a guy allocated

616

00:26:42,680 --> 00:26:40,320

he's good rush it but attempt on the

617

00:26:44,690 --> 00:26:42,690

cube I think they've had a place where

618

00:26:48,890 --> 00:26:44,700

people get sick there's not mention

619

00:26:50,960 --> 00:26:48,900

sequestration mmm-hmm yes the LaQuinta

620

00:26:52,640 --> 00:26:50,970

middle school teacher situation the

621

00:26:55,310 --> 00:26:52,650

cancer cluster there that's one of your

622

00:26:57,440 --> 00:26:55,320

big claims to fame isn't it yeah but

623

00:26:59,990 --> 00:26:57,450

unfortunately he's still getting exposed

624

00:27:03,260 --> 00:27:00,000

the school district the politicians down

625

00:27:07,490 --> 00:27:03,270

there didn't knuckle under just another

626
00:27:10,420 --> 00:27:07,500
school I worked at elementary school of

627
00:27:16,310 --> 00:27:14,090
anyways I wrote it they've got an even

628
00:27:16,880 --> 00:27:16,320
worse problem teaches a lot breast

629
00:27:21,650 --> 00:27:16,890
cancer

630
00:27:25,820 --> 00:27:21,660
the kids were not so we fixed a crazy

631
00:27:28,310 --> 00:27:25,830
doesn't the kids filtering the room

632
00:27:31,509 --> 00:27:28,320
I went to a school board get you tonight

633
00:27:34,009 --> 00:27:31,519
hey clean the place up great for free

634
00:27:36,889 --> 00:27:34,019
right so as far as I know there's those

635
00:27:38,389 --> 00:27:36,899
forget exposed another real winner I had

636
00:27:40,909 --> 00:27:38,399
down there is that cleaned up you're

637
00:27:42,950 --> 00:27:40,919
this look into school was a wipe see a

638
00:27:46,519 --> 00:27:42,960

daycare center where that was really

639

00:27:49,609 --> 00:27:46,529

filthy as I clean that up you know or

640

00:27:52,159 --> 00:27:49,619

this was put him in back down on a visit

641

00:27:54,470 --> 00:27:52,169

my linen to check out the place is doing

642

00:27:56,810 --> 00:27:54,480

it kind of filters your god they take it

643

00:27:59,119 --> 00:27:56,820

up twice never sold until have done

644

00:28:02,090 --> 00:27:59,129

something and nobody would own up to

645

00:28:03,379 --> 00:28:02,100

what had happened or why so that the

646

00:28:05,690 --> 00:28:03,389

kids are getting exposed again and

647

00:28:11,330 --> 00:28:05,700

unfortunately hmm so I know you're gonna

648

00:28:15,080 --> 00:28:11,340

watch it right it's just like everything

649

00:28:16,879 --> 00:28:15,090

is leaning towards maximizing the damage

650

00:28:19,700 --> 00:28:16,889

done by this stuff there's no filters

651
00:28:22,099 --> 00:28:19,710
there's no anything you know we get in

652
00:28:25,369 --> 00:28:22,109
this car you if you look to compare our

653
00:28:28,639 --> 00:28:25,379
house it's also due to places that have

654
00:28:30,109 --> 00:28:28,649
that Delta grid we're worse you know we

655
00:28:32,060 --> 00:28:30,119
spent a lot more money on the healthy

656
00:28:34,340 --> 00:28:32,070
and the results aren't as good and I

657
00:28:46,129 --> 00:28:34,350
think part of it is is due to electrical

658
00:28:51,080 --> 00:28:46,139
exposure and unfortunately and another

659
00:28:54,159 --> 00:28:51,090
study you did was on aluminum plant

660
00:28:57,109 --> 00:28:54,169
workers at Kaiser aluminum and you say

661
00:28:59,570 --> 00:28:57,119
when you did that study management of

662
00:29:02,180 --> 00:28:59,580
Kaiser retained Sir Richard doll to

663
00:29:04,460 --> 00:29:02,190

neutralize my cancer findings after he

664

00:29:07,340 --> 00:29:04,470

died it was revealed that Monsanto paid

665

00:29:09,019 --> 00:29:07,350

him \$1500 a day for many years yeah

666

00:29:11,180 --> 00:29:09,029

that's the sort of thing that doesn't

667

00:29:12,680 --> 00:29:11,190

surprise me anymore it's a major factor

668

00:29:14,479 --> 00:29:12,690

in the suppression of this sort of data

669

00:29:17,389 --> 00:29:14,489

but how often have you run into

670

00:29:19,570 --> 00:29:17,399

situations like this Hey look at where

671

00:29:23,359 --> 00:29:19,580

it really happens is it crackers I mean

672

00:29:26,539 --> 00:29:23,369

why do we give Israel 23,000 bucks a

673

00:29:28,820 --> 00:29:26,549

family every year you know for free and

674

00:29:31,099 --> 00:29:28,830

because a pack you know pro-israeli

675

00:29:32,389 --> 00:29:31,109

Lobby which is I mean we're representing

676

00:29:34,730 --> 00:29:32,399

a foreign country they're not even

677

00:29:36,799 --> 00:29:34,740

licensed however all the other people

678

00:29:39,560 --> 00:29:36,809

want to represent other countries are

679

00:29:43,369 --> 00:29:39,570

licensed they take entourage

680

00:29:45,409 --> 00:29:43,379

our congresspeople over there to Israel

681

00:29:48,440 --> 00:29:45,419

put them in nice hotels of you it's

682

00:29:51,619 --> 00:29:48,450

tough you know hey lookit we're going to

683

00:29:54,320 --> 00:29:51,629

have this problem until we get federal

684

00:29:57,710 --> 00:29:54,330

funding of Elections no more this

685

00:30:00,169 --> 00:29:57,720

giveaway stuff like we got pay for

686

00:30:02,960 --> 00:30:00,179

prison to the prison people spent a

687

00:30:06,469 --> 00:30:02,970

couple million bucks in terms of bribes

688

00:30:08,690 --> 00:30:06,479

that's what they are as bribes and they

689

00:30:10,989 --> 00:30:08,700

got their way right why should check out

690

00:30:14,599 --> 00:30:10,999

that paper prison that's crazy

691

00:30:18,080 --> 00:30:14,609

indeed agreed and yeah in terms of

692

00:30:19,669 --> 00:30:18,090

lobbying and ribéry you think General

693

00:30:22,099 --> 00:30:19,679

Electric doesn't have some money set

694

00:30:23,979 --> 00:30:22,109

aside for that kind of thing Hey look at

695

00:30:27,710 --> 00:30:23,989

they all do look at polling with these

696

00:30:30,769 --> 00:30:27,720

make replacement she's to the crashed on

697

00:30:34,310 --> 00:30:30,779

a kind of a software problem that just

698

00:30:37,820 --> 00:30:34,320

nonsense mmm-hmm and that he'd even

699

00:30:39,729 --> 00:30:37,830

wanna let the things fly they sold some

700

00:30:42,200 --> 00:30:39,739

of those points if I fix on their

701
00:30:45,769 --> 00:30:42,210
company said the people who bought the

702
00:30:48,919 --> 00:30:45,779
place had to pay more money for what

703
00:30:53,180 --> 00:30:48,929
safety is you gotta buy it but anyway I

704
00:30:56,149 --> 00:30:53,190
hope it doesn't doesn't put they'll

705
00:30:59,560 --> 00:30:56,159
survive this is the slogan for a while

706
00:31:01,549 --> 00:30:59,570
but they all survived oh yeah these

707
00:31:03,739 --> 00:31:01,559
handful of companies that have been

708
00:31:06,019 --> 00:31:03,749
around longer than me maybe even longer

709
00:31:08,060 --> 00:31:06,029
than you they don't go anywhere they

710
00:31:10,430 --> 00:31:08,070
always weather every storm and offload

711
00:31:12,619 --> 00:31:10,440
all responsibility and any kind of

712
00:31:15,249 --> 00:31:12,629
penalties they might pay they're gonna

713
00:31:17,570 --> 00:31:15,259

come to you and I they're not going to

714

00:31:20,239 --> 00:31:17,580

hurt their bottom line or come from

715

00:31:22,369 --> 00:31:20,249

their shareholders at all you know I'm

716

00:31:25,339 --> 00:31:22,379

still working in my old age because

717

00:31:27,769 --> 00:31:25,349

that's when I wrote a paper documenting

718

00:31:29,989 --> 00:31:27,779

problem lighting lighting is important

719

00:31:33,409 --> 00:31:29,999

you know big office buildings San Diego

720

00:31:37,580 --> 00:31:33,419

or LA or anywhere else in the world most

721

00:31:40,190 --> 00:31:37,590

of us wrestle Isis or LEDs that's a bad

722

00:31:43,700 --> 00:31:40,200

source of exposure I was wondering why

723

00:31:45,859 --> 00:31:43,710

people work he's healthy and if you

724

00:31:48,440 --> 00:31:45,869

compare of kinds of working dirty shops

725

00:31:51,049 --> 00:31:48,450

to the kids reach their highest and

726

00:31:53,359 --> 00:31:51,059

people who work in office buildings and

727

00:31:56,180 --> 00:31:53,369

a lot of other stuff that is highlight

728

00:31:59,269 --> 00:31:56,190

assured that cancer that's related to

729

00:32:01,430 --> 00:31:59,279

the sunlight oh no no it's a lot more

730

00:32:04,060 --> 00:32:01,440

common people don't have any sunshine

731

00:32:06,200 --> 00:32:04,070

exposure there's guys who work outdoors

732

00:32:08,989 --> 00:32:06,210

so you know damn well it's not the

733

00:32:12,799 --> 00:32:08,999

sunlight so like does it but Christmas

734

00:32:14,299 --> 00:32:12,809

does it too for sure mmm-hmm well there

735

00:32:17,269 --> 00:32:14,309

was also something really interesting

736

00:32:20,139 --> 00:32:17,279

about sunlight in one of the papers that

737

00:32:23,029 --> 00:32:20,149

you have where obviously we have this

738

00:32:25,609 --> 00:32:23,039

idea that sunlight is causing cancer and

739

00:32:28,220 --> 00:32:25,619

you write about a study of multiple

740

00:32:30,259 --> 00:32:28,230

sclerosis and vitamin D saying that the

741

00:32:32,269 --> 00:32:30,269

results show that the more sunshine

742

00:32:34,399 --> 00:32:32,279

there is where you live the less MS

743

00:32:36,710 --> 00:32:34,409

there is and you go on to say that your

744

00:32:39,799 --> 00:32:36,720

first cousin developed MS you told him

745

00:32:41,720 --> 00:32:39,809

to get a job outside he did and it's

746

00:32:44,479 --> 00:32:41,730

been minimal ever since I think that's

747

00:32:47,539 --> 00:32:44,489

probably worth a mention hey hey I

748

00:32:50,210 --> 00:32:47,549

talked to him last year as a fact that I

749

00:32:52,039 --> 00:32:50,220

was really close with his brother about

750

00:32:56,680 --> 00:32:52,049

things well you got a lot of problems

751
00:32:59,450 --> 00:32:56,690
with old age but he doesn't mention wow

752
00:33:01,849 --> 00:32:59,460
people are spending so much money in our

753
00:33:03,919 --> 00:33:01,859
broken health care system to fix these

754
00:33:06,470 --> 00:33:03,929
debilitating conditions and all you need

755
00:33:10,729 --> 00:33:06,480
to do sometimes is go outside or limit

756
00:33:13,759 --> 00:33:10,739
your exposure so I'll put my laughing

757
00:33:15,979 --> 00:33:13,769
not funny I mean we laugh so we don't

758
00:33:18,139 --> 00:33:15,989
cry right yeah

759
00:33:19,489 --> 00:33:18,149
well another thing I thought was

760
00:33:21,440 --> 00:33:19,499
interesting because it's just right down

761
00:33:23,899 --> 00:33:21,450
the road from me San Diego State

762
00:33:25,549 --> 00:33:23,909
University you had a situation where

763
00:33:27,320 --> 00:33:25,559

there was a cluster of eight cases of

764

00:33:29,799 --> 00:33:27,330

breast cancer in a short period of time

765

00:33:33,589 --> 00:33:29,809

come to find out it was electromagnetic

766

00:33:36,619 --> 00:33:33,599

radiation from the elevator system well

767

00:33:39,499 --> 00:33:36,629

I don't know what it was environmental

768

00:33:42,859 --> 00:33:39,509

in that place that don't let stuff down

769

00:33:45,349 --> 00:33:42,869

in that area they had a lot like motor

770

00:33:47,629 --> 00:33:45,359

yeah that's right remember forget the

771

00:33:50,930 --> 00:33:47,639

heck had a passable stroke a couple

772

00:33:53,359 --> 00:33:50,940

years ago I memory for four specific

773

00:33:55,600 --> 00:33:53,369

places that is good it used to be oh

774

00:33:57,910 --> 00:33:55,610

yeah I mean there's also certain

775

00:34:00,370 --> 00:33:57,920

occupational problems do unusual

776

00:34:02,970 --> 00:34:00,380

exposure to high frequencies and high

777

00:34:04,510 --> 00:34:02,980

levels of dirty electricity and

778

00:34:08,050 --> 00:34:04,520

unfortunately they're going to keep

779

00:34:10,510 --> 00:34:08,060

happening do we get new electricity

780

00:34:13,570 --> 00:34:10,520

system or let's clean up all the dirty

781

00:34:15,190 --> 00:34:13,580

places yes and you mentioned the

782

00:34:17,920 --> 00:34:15,200

lighting and that's something I wanted

783

00:34:19,960 --> 00:34:17,930

to maybe have you elaborate on what is

784

00:34:22,060 --> 00:34:19,970

the best kind of lighting to put in our

785

00:34:25,330 --> 00:34:22,070

home or office is there any kind

786

00:34:26,950 --> 00:34:25,340

yeah the old good condition types look

787

00:34:28,660 --> 00:34:26,960

at they could make clean fluorescent so

788

00:34:32,170 --> 00:34:28,670

they can make clean out engage but they

789

00:34:36,820 --> 00:34:32,180

don't go out by stuff just by the oil in

790

00:34:38,220 --> 00:34:36,830

a vacuum bag 60 and 100 Hertz bulbs we

791

00:34:41,710 --> 00:34:38,230

use it

792

00:34:44,020 --> 00:34:41,720

some places cause you can't buy them

793

00:34:48,010 --> 00:34:44,030

anywhere there's a store and I might

794

00:34:50,110 --> 00:34:48,020

restore the apartment yeah I just find

795

00:34:53,440 --> 00:34:50,120

that so curious the way the legal

796

00:34:55,150 --> 00:34:53,450

infrastructure is changing to support

797

00:34:56,440 --> 00:34:55,160

things that aren't good for us but well

798

00:34:58,180 --> 00:34:56,450

you don't wait like the light bulb like

799

00:35:00,790 --> 00:34:58,190

it should take it AM radio work with you

800

00:35:03,100 --> 00:35:00,800

to the draw station and put it through

801

00:35:07,270 --> 00:35:03,110

the bulb to put those opposed it's ok

802

00:35:08,500 --> 00:35:07,280

you could find him under the drop mm-hmm

803

00:35:10,240 --> 00:35:08,510

that was something I found really

804

00:35:12,340 --> 00:35:10,250

interesting from the book is if you

805

00:35:15,550 --> 00:35:12,350

don't have a meter just you can use an

806

00:35:18,130 --> 00:35:15,560

AM radio to kind of notice the hum of

807

00:35:20,680 --> 00:35:18,140

the static and it changes based on what

808

00:35:24,820 --> 00:35:20,690

it's picking up that's right put it in

809

00:35:26,560 --> 00:35:24,830

your microwave put it dirty dirty bug or

810

00:35:28,840 --> 00:35:26,570

any anything else that's putting out the

811

00:35:34,600 --> 00:35:28,850

stuff some of the old TVs used to be bad

812

00:35:36,400 --> 00:35:34,610

new ones hmm so have you we talked about

813

00:35:38,470 --> 00:35:36,410

the fact that we have this neutral

814

00:35:41,080 --> 00:35:38,480
capacity return wiring that is not

815

00:35:44,890 --> 00:35:41,090
happening has there ever been a kind of

816

00:35:47,110 --> 00:35:44,900
a building built an office building or

817

00:35:48,970 --> 00:35:47,120
something where they do take all the

818

00:35:51,640 --> 00:35:48,980
right precautions or maybe the advice

819

00:35:54,670 --> 00:35:51,650
you would give them and build something

820

00:35:58,660 --> 00:35:54,680
that's made specifically to kind of stop

821

00:36:01,540 --> 00:35:58,670
this dirty electricity no I sort of had

822

00:36:03,490 --> 00:36:01,550
the idea of trying to welcome rules for

823

00:36:06,130 --> 00:36:03,500
now but I think somebody want to build

824

00:36:07,710 --> 00:36:06,140
for all these people with me being sick

825

00:36:10,290 --> 00:36:07,720
by this stuff

826

00:36:12,150 --> 00:36:10,300

those are clean a liquid clean play as

827

00:36:14,010 --> 00:36:12,160

you could do it and you can build it

828

00:36:15,540 --> 00:36:14,020

just as cheap as you can do the regular

829

00:36:18,120 --> 00:36:15,550

place you're gonna put it the right

830

00:36:22,230 --> 00:36:18,130

place you gotta build it properly and I

831

00:36:25,859 --> 00:36:22,240

like to come by not just not being done

832

00:36:29,640 --> 00:36:25,869

mm-hmm and so one that some of the other

833

00:36:31,980 --> 00:36:29,650

major sources of exposure say within the

834

00:36:33,599 --> 00:36:31,990

home like if we were to hear this Emilio

835

00:36:35,069 --> 00:36:33,609

we got to get our house in order

836

00:36:38,390 --> 00:36:35,079

where are some of the first places we

837

00:36:41,510 --> 00:36:38,400

would go besides the lighting Oh

838

00:36:46,319 --> 00:36:41,520

anything that uses a whole lot of use

839

00:36:48,870 --> 00:36:46,329

vanilla your microwave my place really

840

00:36:51,960 --> 00:36:48,880

clean compared to the place in

841

00:36:54,630 --> 00:36:51,970

California well you could find it with

842

00:36:57,089 --> 00:36:54,640

AM radio all the time you find any band

843

00:37:00,180 --> 00:36:57,099

emitters it'll make our AM radio

844

00:37:04,020 --> 00:37:00,190

positive because it's radio frequency

845

00:37:04,710 --> 00:37:04,030

where you'll pick it up yeah it's that

846

00:37:08,579 --> 00:37:04,720

simple huh

847

00:37:13,140 --> 00:37:08,589

yeah I could fancy equipment to measure

848

00:37:14,970 --> 00:37:13,150

but I always take a radio take a radio

849

00:37:24,870 --> 00:37:14,980

when you go to home people see all the

850

00:37:28,829 --> 00:37:24,880

places it buzzes they demonstrate mmm

851
00:37:31,109 --> 00:37:28,839
yeah it is a damn shame and you have

852
00:37:33,210 --> 00:37:31,119
found some really fascinating and

853
00:37:35,640 --> 00:37:33,220
surprising places where we're being

854
00:37:37,680 --> 00:37:35,650
damaged radio operators and the military

855
00:37:40,140 --> 00:37:37,690
ham radio operators you've even gotten

856
00:37:42,000 --> 00:37:40,150
high readings while driving that you

857
00:37:44,250 --> 00:37:42,010
discovered was because of the magnetic

858
00:37:47,880 --> 00:37:44,260
metal wiring and rotating tires that's

859
00:37:50,339 --> 00:37:47,890
interesting yeah well he ladies Academy

860
00:37:53,569 --> 00:37:50,349
pleased to carry my meals on twelve

861
00:37:56,910 --> 00:37:53,579
resonating echo some of the Californian

862
00:37:58,500 --> 00:37:56,920
was some places where the Wi-Fi is just

863
00:38:01,530 --> 00:37:58,510

know every building that got

864

00:38:03,359 --> 00:38:01,540

transmitters on it the Palm Springs I

865

00:38:06,290 --> 00:38:03,369

had to add a couple places with people

866

00:38:08,730 --> 00:38:06,300

he needs sick lots of stuff in this

867

00:38:10,319 --> 00:38:08,740

here's the bitterest room buildings like

868

00:38:12,780 --> 00:38:10,329

a quarter-mile away they were put in

869

00:38:15,030 --> 00:38:12,790

advance they had fields happen so they

870

00:38:16,680 --> 00:38:15,040

has no idea where it was coming from she

871

00:38:19,530 --> 00:38:16,690

poured the meter at it

872

00:38:22,200 --> 00:38:19,540

buzzes ordered away doesn't like

873

00:38:25,230 --> 00:38:22,210

directional RF meter Center find the

874

00:38:27,540 --> 00:38:25,240

stuff if it's coming from the source

875

00:38:30,180 --> 00:38:27,550

but then I measured when I was doing

876

00:38:32,580 --> 00:38:30,190

studying a farmers market at Palm

877

00:38:35,700 --> 00:38:32,590

Springs if most of the portion was

878

00:38:38,070 --> 00:38:35,710

coming from FN microwave transmitters on

879

00:38:40,830 --> 00:38:38,080

high-rise buildings to stop in to the

880

00:38:44,030 --> 00:38:40,840

campus but as I walked around in the

881

00:38:46,440 --> 00:38:44,040

school boy there was a really bad spot

882

00:38:49,470 --> 00:38:46,450

where am I going to tell hey you had a

883

00:38:53,040 --> 00:38:49,480

fancy pocket hmm but can't tell people

884

00:38:55,200 --> 00:38:53,050

that you're nuts can't feel it you can't

885

00:38:56,010 --> 00:38:55,210

taste it if this never smelt bad or

886

00:38:59,700 --> 00:38:56,020

changed a bed

887

00:39:00,990 --> 00:38:59,710

we don't disagree indeed that was gonna

888

00:39:02,070 --> 00:39:01,000

be one of the questions I asked you

889

00:39:04,920 --> 00:39:02,080

because I have heard you mention that

890

00:39:06,690 --> 00:39:04,930

farmers market before and I wasn't sure

891

00:39:09,210 --> 00:39:06,700

if it was just its location or if it was

892

00:39:12,950 --> 00:39:09,220

all the stuff that people bring to the

893

00:39:15,840 --> 00:39:12,960

little cubicles within the market well

894

00:39:17,670 --> 00:39:15,850

most of the stuff they saw was growing

895

00:39:20,550 --> 00:39:17,680

in the house but it wasn't going to kill

896

00:39:22,590 --> 00:39:20,560

anybody that I did you go on Sunday with

897

00:39:24,360 --> 00:39:22,600

a nice whole lot of the chocolate now

898

00:39:28,500 --> 00:39:24,370

you can find out if the stuff is dirty

899

00:39:30,420 --> 00:39:28,510

look at AM radio mm-hmm and we keep

900

00:39:32,880 --> 00:39:30,430

mentioning the you know the fact that an

901
00:39:35,700 --> 00:39:32,890
AM radio will work what's the term for

902
00:39:37,470 --> 00:39:35,710
like a more sophisticated reader that an

903
00:39:40,710 --> 00:39:37,480
average person could go out and look at

904
00:39:43,980 --> 00:39:40,720
you can get a magnetic field meter and

905
00:39:46,530 --> 00:39:43,990
use one it cost a couple of bucks

906
00:39:49,500 --> 00:39:46,540
and well you know you can keep going on

907
00:39:51,960 --> 00:39:49,510
and deeper I need a field meter hole

908
00:39:54,570 --> 00:39:51,970
puncher come I but I do most of my

909
00:39:57,140 --> 00:39:54,580
shopping right at the shop recently from

910
00:39:59,480 --> 00:39:57,150
a place in Albany New York

911
00:40:03,180 --> 00:39:59,490
Leslie enough I think it's called

912
00:40:05,849 --> 00:40:03,190
yeah let's see in that room you les lan

913
00:40:09,450 --> 00:40:05,859

and there's a couple other places that

914

00:40:11,849 --> 00:40:09,460

sell if you put that up all the

915

00:40:14,460 --> 00:40:11,859

competitors to come up and hate that

916

00:40:17,640 --> 00:40:14,470

with the delicate modern computer you I

917

00:40:19,460 --> 00:40:17,650

was looking for some vacation trips now

918

00:40:23,880 --> 00:40:19,470

every screen will bring up the gutter

919

00:40:26,630 --> 00:40:23,890

nice vacation ship that comes up because

920

00:40:30,000 --> 00:40:26,640

I asked for it about a month ago

921

00:40:34,290 --> 00:40:30,010

yes those advertising bots are quite

922

00:40:36,870 --> 00:40:34,300

smart these days yeah okay and on the

923

00:40:39,690 --> 00:40:36,880

subject of unusual places to find high

924

00:40:41,370 --> 00:40:39,700

readings what about the shower yeah

925

00:40:44,130 --> 00:40:41,380

where would have my house because Morgan

926

00:40:46,980 --> 00:40:44,140

sure was at that place goes just by

927

00:40:49,680 --> 00:40:46,990

where it was it's got water running

928

00:40:52,260 --> 00:40:49,690

metal pipes you have more middle pipes

929

00:40:55,230 --> 00:40:52,270

around your body down there needing it

930

00:40:58,170 --> 00:40:55,240

his attachment came to the floor where

931

00:41:00,780 --> 00:40:58,180

else would he ask a terabyte like that

932

00:41:03,770 --> 00:41:00,790

for very long he's got to touch the

933

00:41:07,589 --> 00:41:03,780

handles to get hotter cold

934

00:41:09,270 --> 00:41:07,599

mercury reading you - mm-hmm

935

00:41:10,890 --> 00:41:09,280

yeah I thought that was really

936

00:41:12,420 --> 00:41:10,900

interesting I wouldn't have thought that

937

00:41:15,450 --> 00:41:12,430

at first and I've heard you talk about

938

00:41:18,329 --> 00:41:15,460

how this work though it is frustrating

939

00:41:20,430 --> 00:41:18,339

that no he's nobody's doing anything you

940

00:41:22,440 --> 00:41:20,440

keep doing it even up into your old age

941

00:41:24,180 --> 00:41:22,450

because it's kind of exciting and

942

00:41:26,640 --> 00:41:24,190

there's all kinds of twists and turns

943

00:41:29,220 --> 00:41:26,650

and the work is always changing you're

944

00:41:32,190 --> 00:41:29,230

always learning new stuff yeah I want to

945

00:41:33,690 --> 00:41:32,200

go down the north - well when weather

946

00:41:35,550 --> 00:41:33,700

gets better I'm going to open

947

00:41:37,410 --> 00:41:35,560

measure the river was a cow got

948

00:41:41,280 --> 00:41:37,420

electrocuted no wanna go down just a

949

00:41:44,760 --> 00:41:41,290

couple women then emits middle age of 40

950

00:41:47,980 --> 00:41:44,770

certainty said we're swimming read the

951
00:41:51,910 --> 00:41:47,990
word on them and Alabama

952
00:41:53,560 --> 00:41:51,920
I did kaboom separate oh my god and the

953
00:41:57,040 --> 00:41:53,570
guys are waiting to get the bodies I got

954
00:42:00,640 --> 00:41:57,050
shocked so they they told you what was

955
00:42:05,200 --> 00:42:00,650
going on mm-hmm we know where to take on

956
00:42:06,609 --> 00:42:05,210
shark and the freshwater saltwater so

957
00:42:10,540 --> 00:42:06,619
productive doesn't get to you

958
00:42:13,750 --> 00:42:10,550
mm-hmm it's a bridge back you write in

959
00:42:15,370 --> 00:42:13,760
the book a little about this long career

960
00:42:17,410 --> 00:42:15,380
you've had and you published some of

961
00:42:19,060 --> 00:42:17,420
these early findings about leukemia and

962
00:42:22,780 --> 00:42:19,070
cancer and you had a lot of colleagues

963
00:42:24,760 --> 00:42:22,790

that came back at you and didn't believe

964

00:42:26,770 --> 00:42:24,770

this stuff and you just said hey look

965

00:42:28,120 --> 00:42:26,780

prove me wrong that's all you got to do

966

00:42:30,520 --> 00:42:28,130

we don't need to huff and puff just

967

00:42:32,980 --> 00:42:30,530

prove me wrong how are they responding

968

00:42:36,849 --> 00:42:32,990

to your work now I'm sure you of course

969

00:42:39,579 --> 00:42:36,859

you haven't been hey that's the nurse -

970

00:42:42,480 --> 00:42:39,589

about ten years ago I wrote a paper and

971

00:42:46,150 --> 00:42:42,490

a couple of guys took a professorship

972

00:42:48,099 --> 00:42:46,160

we've got you came here wrote a critique

973

00:42:51,190 --> 00:42:48,109

and a critique was full of crap I mean

974

00:42:53,859 --> 00:42:51,200

and every time I read a paper nothing

975

00:42:55,720 --> 00:42:53,869

well they dip their hand the aunt

976
00:42:58,020 --> 00:42:55,730
acknowledging one of the recent papers

977
00:43:01,480 --> 00:42:58,030
were recent critiques that they write

978
00:43:04,089 --> 00:43:01,490
second 70 said now I remember it okay

979
00:43:06,070 --> 00:43:04,099
bring these guys right out nasty rebut

980
00:43:08,230 --> 00:43:06,080
to it but they don't make sense or that

981
00:43:09,130 --> 00:43:08,240
I wrote them exactly the same

982
00:43:11,290 --> 00:43:09,140
glitterizer

983
00:43:14,980 --> 00:43:11,300
I wrote about the book I said that's

984
00:43:17,140 --> 00:43:14,990
sure I'm wrong Joseph sure that what we

985
00:43:20,740 --> 00:43:17,150
found was wrong and he showed that it

986
00:43:24,700 --> 00:43:20,750
doesn't exist instead of going in his

987
00:43:25,390 --> 00:43:24,710
editor oh [h__\h] comparisons but whatever

988
00:43:31,570 --> 00:43:25,400

all right

989

00:43:33,099 --> 00:43:31,580

you guy can accepted a shitty now

990

00:43:34,720 --> 00:43:33,109

unfortunately that those guys getting

991

00:43:37,500 --> 00:43:34,730

paid by Electric Power Research

992

00:43:39,970 --> 00:43:37,510

Institute which is a wholly wholly owned

993

00:43:42,579 --> 00:43:39,980

wholly subsidized by the private

994

00:43:45,700 --> 00:43:42,589

utilities it's a lot of money and they

995

00:43:50,800 --> 00:43:45,710

printed these guys junk at RIT stupid

996

00:43:53,500 --> 00:43:50,810

avers and but you know I read to some of

997

00:43:55,240 --> 00:43:53,510

the same journals usually editor or the

998

00:43:58,720 --> 00:43:55,250

chaos today we got another one of these

999

00:43:59,770 --> 00:43:58,730

disclaiming letters and he she finally

1000

00:44:02,250 --> 00:43:59,780

told

1001
00:44:05,500 --> 00:44:02,260
don't bother sending these to us anymore

1002
00:44:08,770 --> 00:44:05,510
but you know the other people I don't do

1003
00:44:10,480 --> 00:44:08,780
it but anyway you can't believe

1004
00:44:13,270 --> 00:44:10,490
everything you read I like you took a

1005
00:44:15,310 --> 00:44:13,280
good journal we know we mentioned a

1006
00:44:20,620 --> 00:44:15,320
couple of really serious conditions like

1007
00:44:22,420 --> 00:44:20,630
leukemia and various cancers yeah that's

1008
00:44:24,910 --> 00:44:22,430
a serious one well my question was gonna

1009
00:44:26,859 --> 00:44:24,920
be are these conditions reversible by

1010
00:44:28,960 --> 00:44:26,869
getting away from this stuff suicide of

1011
00:44:32,260 --> 00:44:28,970
course not so much but are any of these

1012
00:44:34,810 --> 00:44:32,270
other conditions yes yes yes yes know it

1013
00:44:38,050 --> 00:44:34,820

suicides really high and the US Armed

1014

00:44:40,599 --> 00:44:38,060

Forces but it's not high sailors does

1015

00:44:42,820 --> 00:44:40,609

not hire people who were stationed in

1016

00:44:45,430 --> 00:44:42,830

the Middle East the Middle East they

1017

00:44:47,830 --> 00:44:45,440

air-conditioned and they don't know how

1018

00:44:52,450 --> 00:44:47,840

to do it and people get electrocuted

1019

00:44:55,060 --> 00:44:52,460

yeah yeah really primitive equipment and

1020

00:44:57,460 --> 00:44:55,070

they were getting exposed just killing

1021

00:45:02,410 --> 00:44:57,470

them no mm-hmm I'm sure you could we

1022

00:45:04,359 --> 00:45:02,420

could get rid of a lot of survival right

1023

00:45:06,400 --> 00:45:04,369

I mean my thought would be that some of

1024

00:45:09,220 --> 00:45:06,410

those suicides would be related to some

1025

00:45:10,839 --> 00:45:09,230

of the horrors they see over there no no

1026

00:45:13,329 --> 00:45:10,849

no it's not it's not the guys who were

1027

00:45:14,320 --> 00:45:13,339

shooting it cooked and anybody else who

1028

00:45:16,240 --> 00:45:14,330

worked over there

1029

00:45:18,339 --> 00:45:16,250

and the people who were stationed in the

1030

00:45:21,550 --> 00:45:18,349

cooler climates don't commit suicide

1031

00:45:23,710 --> 00:45:21,560

people fly planes are at 600 suicide

1032

00:45:26,230 --> 00:45:23,720

it's just these people were stationed at

1033

00:45:28,920 --> 00:45:26,240

places where they were spending two

1034

00:45:32,710 --> 00:45:28,930

billion dollars on oil to air-condition

1035

00:45:36,520 --> 00:45:32,720

hmm interesting I think I wrote that up

1036

00:45:40,680 --> 00:45:36,530

in the paper that's in the book are you

1037

00:45:42,250 --> 00:45:40,690

really gonna jettison tomorrow night

1038

00:45:43,990 --> 00:45:42,260

you've said enough

1039

00:45:46,470 --> 00:45:44,000

you know it with this book I mean

1040

00:45:49,180 --> 00:45:46,480

anybody can take it it's written and

1041

00:45:51,670 --> 00:45:49,190

it's well segmented it's written in

1042

00:45:54,220 --> 00:45:51,680

these little segments where you know you

1043

00:45:56,200 --> 00:45:54,230

can digest one thing before going on to

1044

00:45:58,720 --> 00:45:56,210

the next and it makes a pretty ironclad

1045

00:46:01,329 --> 00:45:58,730

case I don't know how much more you need

1046

00:46:03,070 --> 00:46:01,339

to put in it yes well I want to get it

1047

00:46:03,810 --> 00:46:03,080

to Congress but you know they were real

1048

00:46:06,700 --> 00:46:03,820

crooked

1049

00:46:09,790 --> 00:46:06,710

once the summit arts of the villains are

1050

00:46:12,680 --> 00:46:09,800

no two candidates I wondered how many

1051

00:46:16,040 --> 00:46:12,690

have been as good a judge

1052

00:46:20,240 --> 00:46:16,050

yeah he said he or some person yeah

1053

00:46:24,460 --> 00:46:20,250

there Pete Buddha judge yeah he just get

1054

00:46:25,930 --> 00:46:24,470

that come on fancy cookies real hangover

1055

00:46:28,460 --> 00:46:25,940

mm-hmm

1056

00:46:30,410 --> 00:46:28,470

yeah I thought he wasn't so bad but hey

1057

00:46:34,160 --> 00:46:30,420

yeah that's a red flag

1058

00:46:38,690 --> 00:46:34,170

no that that it's one thing I'm sort of

1059

00:46:40,819 --> 00:46:38,700

- I don't wear well one thing I like to

1060

00:46:44,120 --> 00:46:40,829

focus on when we are looking at some

1061

00:46:47,150 --> 00:46:44,130

material that is new to people and kind

1062

00:46:48,829 --> 00:46:47,160

of complex is you know who really knew

1063

00:46:50,359 --> 00:46:48,839

what when and when it comes to the solar

1064

00:46:52,880 --> 00:46:50,369

panels I've heard you say that the

1065

00:46:55,010 --> 00:46:52,890

industry knows the solar inverters are

1066

00:46:56,809 --> 00:46:55,020

the problem you've read white papers

1067

00:46:59,300 --> 00:46:56,819

where they pretty much put it in there

1068

00:47:01,760 --> 00:46:59,310

well not just that but that's a place is

1069

00:47:04,400 --> 00:47:01,770

really generated it was one place it

1070

00:47:05,059 --> 00:47:04,410

desert that they're shot the Palm

1071

00:47:07,730 --> 00:47:05,069

Springs

1072

00:47:09,920 --> 00:47:07,740

they had like 15 guys work there buddy

1073

00:47:12,620 --> 00:47:09,930

eat them they don't diabetes the time

1074

00:47:14,780 --> 00:47:12,630

they work there they hope these are

1075

00:47:18,440 --> 00:47:14,790

couple of years and I didn't write that

1076

00:47:21,200 --> 00:47:18,450

up I just told telling everybody they

1077

00:47:23,809 --> 00:47:21,210

want to find out well diabetes is for

1078

00:47:25,400 --> 00:47:23,819

sure tied to this can you elaborate on

1079

00:47:27,680 --> 00:47:25,410

that because so many people are already

1080

00:47:30,319 --> 00:47:27,690

kind of pre-programmed to assume that

1081

00:47:32,839 --> 00:47:30,329

it's diet related diabetes I mean an

1082

00:47:34,599 --> 00:47:32,849

obesity - do you think this would be

1083

00:47:37,970 --> 00:47:34,609

about the food we're putting in our body

1084

00:47:43,000 --> 00:47:37,980

got my website I got papers on obesity

1085

00:47:45,800 --> 00:47:43,010

and diabetes it the obesity stuff showed

1086

00:47:47,680 --> 00:47:45,810

that look at the places in the world

1087

00:47:49,339 --> 00:47:47,690

that her or keep her fat ass through

1088

00:47:53,059 --> 00:47:49,349

places where they're getting these

1089

00:47:54,890 --> 00:47:53,069

exposures that's in the southeast it

1090

00:47:57,859 --> 00:47:54,900

wasn't always that way they used each

1091

00:48:00,380 --> 00:47:57,869

efficient stuff they harvested then

1092

00:48:04,870 --> 00:48:00,390

World War two came we brought in troops

1093

00:48:07,130 --> 00:48:04,880

and us food and then they got fat

1094

00:48:09,140 --> 00:48:07,140

whatever wait I don't want to get into

1095

00:48:11,359 --> 00:48:09,150

what they got drive on that mm-hmm

1096

00:48:13,490 --> 00:48:11,369

well here's a little mind blower that I

1097

00:48:16,190 --> 00:48:13,500

love from your book you talk about this

1098

00:48:18,770 --> 00:48:16,200

weird correlation between economic

1099

00:48:21,050 --> 00:48:18,780

recessions and better health that has

1100

00:48:23,720 --> 00:48:21,060

puzzled scientists for years where in

1101

00:48:25,370 --> 00:48:23,730

recessions we get better life expectancy

1102

00:48:26,030 --> 00:48:25,380

and mortality rates despite the

1103

00:48:27,920 --> 00:48:26,040

convention

1104

00:48:30,380 --> 00:48:27,930

knowledge that they would get worse and

1105

00:48:32,180 --> 00:48:30,390

the contributing factor might be people

1106

00:48:33,890 --> 00:48:32,190

not being able to keep the lights on is

1107

00:48:35,960 --> 00:48:33,900

that right that's it

1108

00:48:37,580 --> 00:48:35,970

you look at every time we've had a big

1109

00:48:40,730 --> 00:48:37,590

recession in this country people got

1110

00:48:42,490 --> 00:48:40,740

healthier happened down in Cuba too when

1111

00:48:44,990 --> 00:48:42,500

things got tough down there

1112

00:48:47,470 --> 00:48:45,000

unfortunately your ass woman it could

1113

00:48:49,910 --> 00:48:47,480

have lit electricity kills you

1114

00:48:53,120 --> 00:48:49,920

that's where the Amos stuff they don't

1115

00:48:55,730 --> 00:48:53,130

Isla Cruces doesn't kill him mm-hmm and

1116

00:48:58,490 --> 00:48:55,740

it's all the drugs and stuff that people

1117

00:49:01,100 --> 00:48:58,500

take get headache and headache is one of

1118

00:49:05,120 --> 00:49:01,110

the main major symptoms of stuff head

1119

00:49:07,070 --> 00:49:05,130

ain't you funny Paulson device to get

1120

00:49:09,100 --> 00:49:07,080

funny feelings down in that house in

1121

00:49:12,830 --> 00:49:09,110

California or when I moved up here again

1122

00:49:15,080 --> 00:49:12,840

or it was just what a difference

1123

00:49:17,420 --> 00:49:15,090

I got a nice clean house the ground Kurt

1124

00:49:20,540 --> 00:49:17,430

doesn't get in my house as a son posted

1125

00:49:22,730 --> 00:49:20,550

posted beam down there they had a slab

1126

00:49:26,480 --> 00:49:22,740

the basement there's no way to avoid

1127

00:49:29,900 --> 00:49:26,490

this stuff tech wrote about it well

1128

00:49:31,820 --> 00:49:29,910

right in terms of the types of houses

1129

00:49:34,490 --> 00:49:31,830

people have their basements their slabs

1130

00:49:37,090 --> 00:49:34,500

they're on some kind of maybe risers or

1131

00:49:39,320 --> 00:49:37,100

stilts what is the best option

1132

00:49:44,450 --> 00:49:39,330

something the kitchen wait in the ground

1133

00:49:46,460 --> 00:49:44,460

number one just a man house or dc-dc

1134

00:49:49,270 --> 00:49:46,470

house off grid that'd be the best way to

1135

00:49:52,700 --> 00:49:49,280

live you can have your electricity and

1136

00:49:58,010 --> 00:49:52,710

it's not going to get you hey C is bad

1137

00:50:03,620 --> 00:49:58,020

that's all that Christmas AC except some

1138

00:50:06,560 --> 00:50:03,630

places really mm-hmm and so many of us

1139

00:50:08,780 --> 00:50:06,570

are economically shackled to our

1140

00:50:12,380 --> 00:50:08,790

situation it's really hard to make some

1141

00:50:17,870 --> 00:50:12,390

drastic change I know I look like an a

1142

00:50:19,160 --> 00:50:17,880

picker another torn 19 year old truck we

1143

00:50:21,380 --> 00:50:19,170

got another old car we're going to go

1144

00:50:23,360 --> 00:50:21,390

buy a car and I started researching and

1145

00:50:25,730 --> 00:50:23,370

I thought all the different assets got

1146

00:50:28,610 --> 00:50:25,740

just pollution affordances devices or to

1147

00:50:31,780 --> 00:50:28,620

radar you know that's bad news except

1148

00:50:36,190 --> 00:50:31,790

for the Subaru so I'm gonna buy a super

1149

00:50:41,859 --> 00:50:36,200

is waiting just hold on safer

1150

00:50:44,319 --> 00:50:41,869

Smith compared to but NEXRAD radar mhm

1151
00:50:49,390 --> 00:50:44,329
look imagine working in a tollbooth the

1152
00:50:52,059 --> 00:50:49,400
recurrent comes up is a kanya Wow people

1153
00:50:54,670 --> 00:50:52,069
have brought a head electric cars and

1154
00:50:57,819 --> 00:50:54,680
measured a couple of really bad news I

1155
00:50:59,289 --> 00:50:57,829
would have one I've measured it found it

1156
00:51:01,750 --> 00:50:59,299
my queen Wow

1157
00:51:04,329 --> 00:51:01,760
yes I'm sure it can be if you know what

1158
00:51:06,480 --> 00:51:04,339
you're trying to get you can get it but

1159
00:51:08,680 --> 00:51:06,490
people still talk about the problems

1160
00:51:10,839 --> 00:51:08,690
yeah well I mean there's not a lot of

1161
00:51:12,130 --> 00:51:10,849
consumer advocacy out there anymore it's

1162
00:51:14,829 --> 00:51:12,140
really tough to find good information

1163
00:51:16,270 --> 00:51:14,839

when everything's so compromised well

1164

00:51:19,780 --> 00:51:16,280

that's what people are interested in is

1165

00:51:23,470 --> 00:51:19,790

5g I'll stop it but time to get it out

1166

00:51:25,440 --> 00:51:23,480

here I'll be gone but there are your

1167

00:51:28,200 --> 00:51:25,450

grandkids

1168

00:51:32,720 --> 00:51:28,210

a lot of other people relatives coming

1169

00:51:38,280 --> 00:51:36,089

well it is so sad but that's why I

1170

00:51:40,020 --> 00:51:38,290

wanted you to be here I mean that's what

1171

00:51:43,020 --> 00:51:40,030

I try to do with most of the guests is

1172

00:51:46,079 --> 00:51:43,030

find credible experts who are kind of

1173

00:51:48,030 --> 00:51:46,089

isolated in their position I mean we've

1174

00:51:51,349 --> 00:51:48,040

already talked about a giant industry

1175

00:51:53,700 --> 00:51:51,359

that pays people to give out the

1176

00:51:56,790 --> 00:51:53,710

counterpoints but it's hard for the

1177

00:51:58,579 --> 00:51:56,800

average person to find a book like yours

1178

00:52:01,380 --> 00:51:58,589

and be like you know despite what

1179

00:52:03,000 --> 00:52:01,390

everything is telling me I'm gonna trust

1180

00:52:05,400 --> 00:52:03,010

this guy because you're right we can't

1181

00:52:08,069 --> 00:52:05,410

see it now you can't feel it it's there

1182

00:52:10,020 --> 00:52:08,079

just measuring it thinking a paranoid oh

1183

00:52:12,480 --> 00:52:10,030

my god I know where it's bad

1184

00:52:14,400 --> 00:52:12,490

I don't avoid those places dog

1185

00:52:16,260 --> 00:52:14,410

fortunately what are evil entities

1186

00:52:19,349 --> 00:52:16,270

laughing good whether we replace the

1187

00:52:21,089 --> 00:52:19,359

farmers market downtown and one day I

1188

00:52:22,829 --> 00:52:21,099

measured them oh my god I couldn't we

1189

00:52:27,770 --> 00:52:22,839

thought that it was for the lots of

1190

00:52:29,819 --> 00:52:27,780

sources you know I told people that it

1191

00:52:32,910 --> 00:52:29,829

organizes the shop with this dog

1192

00:52:38,430 --> 00:52:32,920

leukemia the DNA work guarantee a week

1193

00:52:40,859 --> 00:52:38,440

or whatever and this might be an odd

1194

00:52:43,319 --> 00:52:40,869

question but I'm just curious how has

1195

00:52:45,180 --> 00:52:43,329

this work affected the way you think

1196

00:52:47,040 --> 00:52:45,190

about the human body because sometimes

1197

00:52:50,359 --> 00:52:47,050

when people start talking about energy

1198

00:52:53,190 --> 00:52:50,369

fields or auras or chakras or the body's

1199

00:52:55,109 --> 00:52:53,200

electromagnetic system eyes can roll

1200

00:52:57,809 --> 00:52:55,119

people tend to like what they can see

1201
00:53:00,150 --> 00:52:57,819
but the body is pretty complex I know

1202
00:53:03,329 --> 00:53:00,160
your parents were Orthodox Christians

1203
00:53:05,880 --> 00:53:03,339
which might relate but has this gained

1204
00:53:08,220 --> 00:53:05,890
knowledge had any sort of effect on the

1205
00:53:10,970 --> 00:53:08,230
way you think about the body or unseen

1206
00:53:14,609 --> 00:53:10,980
parts of it or even spirituality

1207
00:53:18,059 --> 00:53:14,619
spirituality doesn't do it I'm

1208
00:53:20,339 --> 00:53:18,069
completely agnostic and we're kind of

1209
00:53:22,380 --> 00:53:20,349
that's made me more self anything but

1210
00:53:24,839 --> 00:53:22,390
it's all right here this is another

1211
00:53:28,079 --> 00:53:24,849
environmental stressor like hot weather

1212
00:53:30,690 --> 00:53:28,089
or or anything else that that's bad and

1213
00:53:32,520 --> 00:53:30,700

I feel bad that the animals that can't

1214

00:53:34,980 --> 00:53:32,530

control their environment but work on

1215

00:53:38,720 --> 00:53:34,990

that work too you know we're on Crichton

1216

00:53:43,480 --> 00:53:38,730

and grounded dirty cities well any

1217

00:53:47,089 --> 00:53:43,490

curtain two analyses by urban and rural

1218

00:53:49,720 --> 00:53:47,099

that's changed the old datums urban

1219

00:53:52,130 --> 00:53:49,730

people were fine now they're not so fine

1220

00:53:54,349 --> 00:53:52,140

so tell us about something look at that

1221

00:53:57,650 --> 00:53:54,359

because it feels get harder from from

1222

00:54:00,380 --> 00:53:57,660

the towers you just make the phone to

1223

00:54:03,560 --> 00:54:00,390

work okay where will you've had you had

1224

00:54:05,329 --> 00:54:03,570

your our got a call sure I just wanted

1225

00:54:07,400 --> 00:54:05,339

it the only thing is uh you know I'm

1226
00:54:09,800 --> 00:54:07,410
brought up the spirituality aspect just

1227
00:54:11,240 --> 00:54:09,810
because a lot of people in that camp say

1228
00:54:13,310 --> 00:54:11,250
things like oh you need to ground

1229
00:54:16,310 --> 00:54:13,320
yourself by one of these grounding mats

1230
00:54:18,710 --> 00:54:16,320
or blankets oh no no God I'm glad you

1231
00:54:19,940 --> 00:54:18,720
got to that don't crowd yourself the

1232
00:54:22,670 --> 00:54:19,950
ground is filthy

1233
00:54:25,730 --> 00:54:22,680
I mean I wrote a paper on that summer

1234
00:54:27,770 --> 00:54:25,740
ticket got on the website like what this

1235
00:54:30,050 --> 00:54:27,780
guy in Palm Springs who sells a damn

1236
00:54:31,250 --> 00:54:30,060
thing he saw everything mats they wrote

1237
00:54:32,990 --> 00:54:31,260
a book or everything which is all

1238
00:54:35,560 --> 00:54:33,000

Philippa he'd say they don't know

1239

00:54:38,599 --> 00:54:35,570

anything about electricity

1240

00:54:43,059 --> 00:54:38,609

people call me out again say I got this

1241

00:54:45,740 --> 00:54:43,069

that I don't feel don't use it sit back

1242

00:54:47,690 --> 00:54:45,750

well I thank I didn't open up the when

1243

00:54:50,809 --> 00:54:47,700

he said rather than outside line to the

1244

00:54:53,839 --> 00:54:50,819

grand I used to in my plug it's got a

1245

00:54:58,040 --> 00:54:53,849

grand in it and no matter what I did I

1246

00:55:01,910 --> 00:54:58,050

feel it in my body wouldn't get without

1247

00:55:04,550 --> 00:55:01,920

so don't so grant grounding a bad news

1248

00:55:06,530 --> 00:55:04,560

indeed well lastly are there any

1249

00:55:08,660 --> 00:55:06,540

products that you do recommend for the

1250

00:55:09,079 --> 00:55:08,670

home adapters we can put on our plugs or

1251

00:55:12,470 --> 00:55:09,089

anything

1252

00:55:17,089 --> 00:55:12,480

Oh what thing you could buy dips that's

1253

00:55:18,829 --> 00:55:17,099

our ste TCE ourselves filters you can

1254

00:55:21,079 --> 00:55:18,839

plug in your outlets if you have to the

1255

00:55:23,000 --> 00:55:21,089

electricity it'll will take out certain

1256

00:55:26,120 --> 00:55:23,010

frequencies and it's made a big

1257

00:55:27,920 --> 00:55:26,130

difference of diabetics and cured some

1258

00:55:30,140 --> 00:55:27,930

people of diseases leak and they got

1259

00:55:31,640 --> 00:55:30,150

from her electricity that's what I've

1260

00:55:33,829 --> 00:55:31,650

got him in my house and then you cross

1261

00:55:35,150 --> 00:55:33,839

that watching they've been here for 20

1262

00:55:37,340 --> 00:55:35,160

years

1263

00:55:39,050 --> 00:55:37,350

so should make sure that the kids at my

1264

00:55:42,140 --> 00:55:39,060

house was as clean as I can get them

1265

00:55:46,490 --> 00:55:42,150

I've got a screen I put on my microwave

1266

00:55:49,640 --> 00:55:46,500

oh well we like to pay my excess money

1267

00:55:52,040 --> 00:55:49,650

and headset that puts green does it does

1268

00:55:53,810 --> 00:55:52,050

it get me that measured with and without

1269

00:55:57,440 --> 00:55:53,820

the screen it makes a big difference

1270

00:55:59,300 --> 00:55:57,450

little stuff like that okay when I

1271

00:56:02,480 --> 00:55:59,310

bought my TV I checked it was a good

1272

00:56:05,450 --> 00:56:02,490

woman did provide bad solution I don't

1273

00:56:06,950 --> 00:56:05,460

have any I got one I'm white house a

1274

00:56:09,770 --> 00:56:06,960

fluorescent light button everything

1275

00:56:11,050 --> 00:56:09,780

related to demonstrate to people puts

1276

00:56:15,200 --> 00:56:11,060

out fields

1277

00:56:17,780 --> 00:56:15,210

all right well doc it is a lot to take

1278

00:56:20,330 --> 00:56:17,790

in but I have so much respect for your

1279

00:56:22,490 --> 00:56:20,340

work again the book is dirty electricity

1280

00:56:25,550 --> 00:56:22,500

you've been doing this your whole life

1281

00:56:27,020 --> 00:56:25,560

been very dedicated and I really

1282

00:56:30,860 --> 00:56:27,030

appreciate it again I'll put links to

1283

00:56:32,860 --> 00:56:30,870

your website it is your name and thanks

1284

00:56:38,620 --> 00:56:32,870

so much keep fighting the good fight oh

1285

00:56:42,440 --> 00:56:38,630

I've been rude take care take care

1286

00:56:44,830 --> 00:56:42,450

alright guys dr. Sam Mel him doing his

1287

00:56:47,990 --> 00:56:44,840

thing fighting back the big machine and

1288

00:56:50,150 --> 00:56:48,000

exposing the untold dangers of working

1289

00:56:51,530 --> 00:56:50,160

on the ground floor of some of these

1290

00:56:54,050 --> 00:56:51,540

shady companies

1291

00:56:56,360 --> 00:56:54,060

he's like the Erin Brockovich of dirty

1292

00:56:59,180 --> 00:56:56,370

electricity and he's definitely made me

1293

00:57:01,220 --> 00:56:59,190

more aware of a subject area that I

1294

00:57:05,120 --> 00:57:01,230

think a lot of us are probably quite

1295

00:57:08,930 --> 00:57:05,130

ignorant of I know we hear about 5g and

1296

00:57:11,450 --> 00:57:08,940

smart meters quite a bit but this dirty

1297

00:57:14,000 --> 00:57:11,460

electricity issue is still within the

1298

00:57:17,020 --> 00:57:14,010

realm but it's completely untalked about

1299

00:57:19,580 --> 00:57:17,030

and it's been going on for a long time

1300

00:57:20,990 --> 00:57:19,590

his book does cover a lot of ground and

1301

00:57:23,480 --> 00:57:21,000

I had some other things I wanted to

1302

00:57:25,970 --> 00:57:23,490

bring up but I didn't know we were only

1303

00:57:29,510 --> 00:57:25,980

getting an hour until we got to an hour

1304

00:57:31,790 --> 00:57:29,520

but that's okay obviously I was able to

1305

00:57:34,370 --> 00:57:31,800

fit in quite a few questions in just an

1306

00:57:37,280 --> 00:57:34,380

hour because dr. mill hems responses

1307

00:57:41,580 --> 00:57:37,290

were a little more direct then some of

1308

00:57:43,260 --> 00:57:41,590

our longer winded guests that's for sure

1309

00:57:46,790 --> 00:57:43,270

one thing I got thinking about was

1310

00:57:49,560 --> 00:57:46,800

forest bathing this somewhat mystical

1311

00:57:52,230 --> 00:57:49,570

idea we had been talking about about the

1312

00:57:54,750 --> 00:57:52,240

Japanese having success and healing by

1313

00:57:55,980 --> 00:57:54,760

going out into the forest well maybe

1314

00:57:58,740 --> 00:57:55,990

they're just getting away from their

1315

00:58:01,500 --> 00:57:58,750

electrical environment I also thought

1316

00:58:03,270 --> 00:58:01,510

the mortality rates I mean we did talk

1317

00:58:06,720 --> 00:58:03,280

about this but those mortality rates

1318

00:58:09,240 --> 00:58:06,730

during recessions and depressions not

1319

00:58:11,460 --> 00:58:09,250

really correlating to the conventional

1320

00:58:13,800 --> 00:58:11,470

wisdom was also interesting and maybe it

1321

00:58:16,530 --> 00:58:13,810

does have to do with not being able to

1322

00:58:18,570 --> 00:58:16,540

keep the lights on or having to ration

1323

00:58:22,740 --> 00:58:18,580

electricity it ends up boosting your

1324

00:58:24,690 --> 00:58:22,750

health even in times of poverty I'm no

1325

00:58:27,210 --> 00:58:24,700

scientist I'm just going off dr. Mel

1326

00:58:29,880 --> 00:58:27,220

hems work of course but I do think this

1327

00:58:32,250 --> 00:58:29,890

is all really interesting and food for

1328

00:58:33,930 --> 00:58:32,260

thought for sure you know I don't trust

1329

00:58:37,080 --> 00:58:33,940

a corporation any further than I can

1330

00:58:40,170 --> 00:58:37,090

throw them so to see someone calling

1331

00:58:42,540 --> 00:58:40,180

them out it's a beautiful thing that's

1332

00:58:44,400 --> 00:58:42,550

also why this really is just going to be

1333

00:58:47,160 --> 00:58:44,410

a timed exclusive for plus people

1334

00:58:49,110 --> 00:58:47,170

because I'm sure it can be frustrating

1335

00:58:51,240 --> 00:58:49,120

to have spent all these years on this

1336

00:58:54,000 --> 00:58:51,250

feel as if you're not being heard or

1337

00:58:55,920 --> 00:58:54,010

your expertise appreciated and so I

1338

00:58:58,920 --> 00:58:55,930

don't want to hold him back either and

1339

00:59:02,430 --> 00:58:58,930

I'd like to at least get him the largest

1340

00:59:04,770 --> 00:59:02,440

audience that I can out of respect but I

1341

00:59:06,960 --> 00:59:04,780

also want to treat the people who do

1342

00:59:09,570 --> 00:59:06,970

keep the THC train moving or we wouldn't

1343

00:59:11,610 --> 00:59:09,580

be here so when a show like this comes

1344

00:59:14,730 --> 00:59:11,620

up that falls outside of the normal

1345

00:59:17,910 --> 00:59:14,740

routine I try to think of ways to still

1346

00:59:19,980 --> 00:59:17,920

make it a overall win-win and I know

1347

00:59:22,140 --> 00:59:19,990

that we talked to a lot of credible

1348

00:59:24,360 --> 00:59:22,150

experts in different areas and it's

1349

00:59:27,390 --> 00:59:24,370

common to hear a laundry list of

1350

00:59:30,870 --> 00:59:27,400

conditions that are assigned to issue a

1351
00:59:34,020 --> 00:59:30,880
B or C and it can be confusing and hard

1352
00:59:35,850 --> 00:59:34,030
to know exactly what is causing what but

1353
00:59:39,300 --> 00:59:35,860
I try not to get too bogged down on

1354
00:59:41,670 --> 00:59:39,310
those specific details and think whether

1355
00:59:44,100 --> 00:59:41,680
or not dirty electricity is say the

1356
00:59:46,950 --> 00:59:44,110
leading cause of obesity I think we

1357
00:59:49,800 --> 00:59:46,960
should still be aware of it and limit

1358
00:59:51,870 --> 00:59:49,810
our overall exposure you know whether

1359
00:59:55,290 --> 00:59:51,880
this is the number one issue we're

1360
00:59:57,120 --> 00:59:55,300
facing or the number seven issue or

1361
01:00:00,030 --> 00:59:57,130
facing it's still something to be aware

1362
01:00:02,280 --> 01:00:00,040
of and I think we hit on several areas

1363
01:00:05,010 --> 01:00:02,290

of exposure especially in the home that

1364

01:00:06,650 --> 01:00:05,020

many of us probably didn't see coming we

1365

01:00:09,360 --> 01:00:06,660

also heard about how these corporations

1366

01:00:11,580 --> 01:00:09,370

funded their own experts and smear

1367

01:00:14,610 --> 01:00:11,590

campaigns and how dr. Mel hem has had to

1368

01:00:17,010 --> 01:00:14,620

deal with that too but his book is short

1369

01:00:19,700 --> 01:00:17,020

and sweet one part autobiographical

1370

01:00:21,660 --> 01:00:19,710

memoir and then one part rapid-fire

1371

01:00:24,720 --> 01:00:21,670

explanations of different case studies

1372

01:00:26,280 --> 01:00:24,730

he's worked on and different segments of

1373

01:00:28,140 --> 01:00:26,290

workers who are damaged by the

1374

01:00:31,770 --> 01:00:28,150

environment their employees put them in

1375

01:00:33,720 --> 01:00:31,780

and of course the improper wiring and

1376

01:00:37,200 --> 01:00:33,730

dumping that they still aren't being

1377

01:00:39,090 --> 01:00:37,210

held accountable for so good stuff and I

1378

01:00:41,610 --> 01:00:39,100

absolutely have a lot of respect for

1379

01:00:44,190 --> 01:00:41,620

what he's done and I know sometimes the

1380

01:00:47,760 --> 01:00:44,200

aging guests we talked to can be a bit

1381

01:00:49,680 --> 01:00:47,770

hard to hear but for me these are really

1382

01:00:51,900 --> 01:00:49,690

important interviews to get under my

1383

01:00:54,300 --> 01:00:51,910

belt to get into my archives

1384

01:00:57,060 --> 01:00:54,310

it's like collecting Pokemon but

1385

01:01:00,000 --> 01:00:57,070

sometimes it's either get them now or

1386

01:01:02,220 --> 01:01:00,010

don't get them at all but consider this

1387

01:01:03,690 --> 01:01:02,230

a little extra icing on the tht cake

1388

01:01:05,970 --> 01:01:03,700

this month thanks for being a plus

1389

01:01:08,100 --> 01:01:05,980

member or if you're hearing this when

1390

01:01:10,110 --> 01:01:08,110

it's out for everyone you're welcome

1391

01:01:11,490 --> 01:01:10,120

consider signing up for the full show

1392

01:01:14,250 --> 01:01:11,500

because it's my only source of income

1393

01:01:15,750 --> 01:01:14,260

and my only focus is to concentrate on

1394

01:01:19,170 --> 01:01:15,760

continuing to put out a high-quality

1395

01:01:21,950 --> 01:01:19,180

show that has very little fluff and no

1396

01:01:24,600 --> 01:01:21,960

commercials or unrelated wasted time

1397

01:01:26,790 --> 01:01:24,610

that said I'm getting out of here big

1398

01:01:29,070 --> 01:01:26,800

thanks to dr. Mel hem again dirty

1399

01:01:29,790 --> 01:01:29,080

electricity is the book and I'll see you

1400

01:01:32,250 --> 01:01:29,800

next time

1401
01:01:34,380 --> 01:01:32,260
your move electrical exposures corporate

1402
01:01:36,750 --> 01:01:34,390
crime cover-up errs and architects of a

1403
01:01:42,380 --> 01:01:36,760
harmful electric grid

1404
01:01:47,910 --> 01:01:42,390
you're [h__h] hmm they built a little

1405
01:01:53,870 --> 01:01:47,920
empire out of some crazy garbage called

1406
01:01:58,950 --> 01:01:53,880
the blood on the exploited working-class

1407
01:02:02,940 --> 01:01:58,960
but they've overcome their shyness now

1408
01:02:10,620 --> 01:02:02,950
we're calling them your highness and the

1409
01:02:13,940 --> 01:02:10,630
world screams save me THC they destroyed

1410
01:02:19,350 --> 01:02:13,950
the bonds of friendship and respect

1411
01:02:23,390 --> 01:02:19,360
between the only people left who'd even

1412
01:02:27,780 --> 01:02:23,400
look them in the eye

1413
01:02:32,460 --> 01:02:27,790

now they laugh and make a fortune off

1414

01:02:36,790 --> 01:02:32,470

the same ones that they tortured and a

1415

01:02:45,970 --> 01:02:36,800

world screams save me THC

1416

01:03:01,530 --> 01:02:55,790

mr. Jesus away now we are the only one

1417

01:03:06,720 --> 01:03:01,540

who can tell me if it's true

1418

01:03:13,810 --> 01:03:06,730

[Music]

1419

01:03:18,390 --> 01:03:13,820

- they built a little Empire out of some

1420

01:03:22,520 --> 01:03:18,400

crazy garbage called the blood of the

1421

01:03:27,630 --> 01:03:22,530

exploited working class

1422

01:03:31,500 --> 01:03:27,640

but they've overcome their shyness now

1423

01:03:35,990 --> 01:03:31,510

we're calling them your highness and the

1424

01:03:40,670 --> 01:03:36,000

world screams save me THC
