00:00:07,400 --> 00:00:06,240  
episode of the higher side chats and we

4  
00:00:08,810 --> 00:00:07,410  
just want to let you know that whether

5  
00:00:10,790 --> 00:00:08,820  
you're looking for a companion through

6  
00:00:12,379 --> 00:00:10,800  
your paranoid insomnia entertaining

7  
00:00:14,390 --> 00:00:12,389  
yourself through one of life's mundane

8  
00:00:16,070 --> 00:00:14,400  
activities we're trying to ward off the

9  
00:00:18,710 --> 00:00:16,080  
internal scream to all those sad

10  
00:00:20,480 --> 00:00:18,720  
smothered Souls around the office THC is

11  
00:00:22,130 --> 00:00:20,490  
here and you should know that every

12  
00:00:24,170 --> 00:00:22,140  
episode of the higher side chats has an

13  
00:00:26,540 --> 00:00:24,180

entire second hour four plus members

action-packed and commercial for you

26

00:01:00,869 --> 00:00:53,579

which means you'll unfortunately never

27

00:01:06,090 --> 00:01:04,140

in the 1930s President Franklin Delano

28

00:01:08,700 --> 00:01:06,100

Roosevelt addressed the nation through a

29

00:01:11,820 --> 00:01:08,710

series of radio broadcast known as the

30

00:01:13,620 --> 00:01:11,830

fireside chats his aim was to reassure

31

00:01:15,420 --> 00:01:13,630

the common man that our society would

32

00:01:18,120 --> 00:01:15,430

recover from its troubled times

33

00:01:21,359 --> 00:01:18,130

well we're far from 1930 and I deal with

34

00:01:23,399 --> 00:01:21,369

a different kind of buyer worldly

35

00:01:26,910 --> 00:01:23,409

frustration we offer a fresh

36

00:01:31,230 --> 00:01:26,920

conversation I'm Gregor wood and these

37

00:01:33,930 --> 00:01:31,240

are the higher side here we go people

38

00:01:36,029 --> 00:01:33,940

riding another wave of universal mystery

39

00:01:38,550 --> 00:01:36,039

and intrigue from sunny San Diego i'm

40

00:01:40,200 --> 00:01:38,560

greg carl wood and i say mystery and

41

00:01:42,570 --> 00:01:40,210

intrigue because when we remove

42

00:01:44,730 --> 00:01:42,580

ourselves from concrete cities traffic

43

00:01:46,950 --> 00:01:44,740

jams the not so pleasant sights sounds

44

00:01:50,090 --> 00:01:46,960

and smells that grace most of our major

45

00:01:52,200 --> 00:01:50,100

metropolis we do see the magical

46

00:01:55,230 --> 00:01:52,210

self-organizing beauty and connectedness

47

00:01:57,570 --> 00:01:55,240

of the natural world yet the egotistic

48

00:01:59,490 --> 00:01:57,580

sages of the scientific method try to

49

00:02:03,240 --> 00:01:59,500

break this all down into separate

50

00:02:06,209 --> 00:02:03,250

systems biology chemistry physics

51  
00:02:08,999 --> 00:02:06,219  
quantum mechanics genetics and it's this

52  
00:02:11,069 --> 00:02:09,009  
sectioning off that has largely kept us

53  
00:02:13,289 --> 00:02:11,079  
from seizing the opportunity to look at

54  
00:02:16,680 --> 00:02:13,299  
our universe holistically the way it

55  
00:02:19,289 --> 00:02:16,690  
should be seen the way it works though I

56  
00:02:21,300 --> 00:02:19,299  
like to think our understanding is a lot

57  
00:02:23,250 --> 00:02:21,310  
further down the road than some crusty

58  
00:02:25,500 --> 00:02:23,260  
academics who are still clinging to a

59  
00:02:27,360 --> 00:02:25,510  
mechanical materialist model and

60  
00:02:30,360 --> 00:02:27,370  
debating if consciousness is even a

61  
00:02:32,520 --> 00:02:30,370  
thing it's a sad and backwards place for

62  
00:02:34,710 --> 00:02:32,530  
modern civilizations so-called brightest

63  
00:02:36,630 --> 00:02:34,720

minds because it's so wrong and so

64

00:02:38,190 --> 00:02:36,640

archaic I have a hard time even

65

00:02:41,220 --> 00:02:38,200

accepting this is what they actually

66

00:02:43,349 --> 00:02:41,230

believe but if they keep us glued to

67

00:02:45,599 --> 00:02:43,359

Netflix in baseball bank accounts in

68

00:02:47,130 --> 00:02:45,609

mimosa brunch who's really taken the

69

00:02:49,020 --> 00:02:47,140

time to hold their feet to the fire or

70

00:02:52,050 --> 00:02:49,030

develop their own personal relationship

71

00:02:54,120 --> 00:02:52,060

with the truly entangled universe well

72

00:02:56,759 --> 00:02:54,130

today's power houseguest nassim haramain

73

00:02:58,830 --> 00:02:56,769

is certainly someone who is as he's

74

00:03:00,569 --> 00:02:58,840

developed his own unified physics and

75

00:03:03,390 --> 00:03:00,579

holistic science that has been dubbed

76

00:03:06,300 --> 00:03:03,400

the hollow fractal graphic unified field

77

00:03:08,759 --> 00:03:06,310

theory it's a poetic worldview that is

78

00:03:11,039 --> 00:03:08,769

as much an art and philosophy as it is a

79

00:03:12,880 --> 00:03:11,049

science and with it comes a wide range

80

00:03:14,470 --> 00:03:12,890

of explanations and answers

81

00:03:16,420 --> 00:03:14,480

to the stranger aspects of the world

82

00:03:19,240 --> 00:03:16,430

that the mainstream model just ignores

83

00:03:21,220 --> 00:03:19,250

the power of intention the fundamental

84

00:03:23,260 --> 00:03:21,230

importance of sacred geometry and the

85

00:03:24,850 --> 00:03:23,270

flower of life the understanding of

86

00:03:28,570 --> 00:03:24,860

reality held by ancient civilizations

87

00:03:30,430 --> 00:03:28,580

all over the globe epigenetics ifx the

88

00:03:32,430 --> 00:03:30,440

placebo effect the Anthea genic

89

00:03:34,660 --> 00:03:32,440

experienced the power of meditation

90

00:03:36,460 --> 00:03:34,670

alternative methods of travel and

91

00:03:38,949 --> 00:03:36,470

off-the-books energy sources

92

00:03:41,620 --> 00:03:38,959

remote viewing astral travel and a whole

93

00:03:43,870 --> 00:03:41,630

Pandora's box of things academia dare

94

00:03:47,440 --> 00:03:43,880

not touch but are no less valid as

95

00:03:49,449 --> 00:03:47,450

verified pieces of this weird world you

96

00:03:51,550 --> 00:03:49,459

might remember a previous episode we had

97

00:03:53,470 --> 00:03:51,560

dedicated tuna seams work with the

98

00:03:55,990 --> 00:03:53,480

passionate advocate running the holo

99

00:03:58,690 --> 00:03:56,000

fractal subreddit known as holo fractal

100

00:04:01,150 --> 00:03:58,700

Joe which definitely works to help set

101  
00:04:03,699 --> 00:04:01,160  
up today and proves my intention muscles

102  
00:04:06,190 --> 00:04:03,709  
must be working just fine as now we have

103  
00:04:07,960 --> 00:04:06,200  
the man himself of course you can always

104  
00:04:10,090 --> 00:04:07,970  
learn more about this stuff at the

105  
00:04:13,210 --> 00:04:10,100  
resonance Science Foundation where you

106  
00:04:16,000 --> 00:04:13,220  
can dig into a ton of high-level content

107  
00:04:18,580 --> 00:04:16,010  
videos articles fully developed courses

108  
00:04:20,590 --> 00:04:18,590  
and even join in on travel adventures to

109  
00:04:23,200 --> 00:04:20,600  
the world's most interesting locations

110  
00:04:25,420 --> 00:04:23,210  
and sacred sites so let's get this thing

111  
00:04:28,000 --> 00:04:25,430  
going here the man who knows the plan

112  
00:04:30,670 --> 00:04:28,010  
the mystery decoder and brain overload

113  
00:04:33,550 --> 00:04:30,680

er the sacred geometry Jesus and the

114

00:04:34,540 --> 00:04:33,560

father of holo fractal graphic goodness

115

00:04:41,110 --> 00:04:34,550

Naseem

116

00:04:43,390 --> 00:04:41,120

welcome to the higher side thank you man

117

00:04:45,159 --> 00:04:43,400

this is a real pleasure I'm really glad

118

00:04:47,830 --> 00:04:45,169

to have you here you have a contagious

119

00:04:49,780 --> 00:04:47,840

passion for life and you really do seem

120

00:04:52,270 --> 00:04:49,790

to embody the science and philosophy

121

00:04:54,040 --> 00:04:52,280

that you talked about as I mentioned we

122

00:04:55,390 --> 00:04:54,050

have done a show about your work before

123

00:04:58,210 --> 00:04:55,400

and I don't want to start off too

124

00:04:59,860 --> 00:04:58,220

fundamental we won't get to the advanced

125

00:05:01,510 --> 00:04:59,870

stuff if we do that but I got to get the

126  
00:05:03,279 --> 00:05:01,520  
wheels moving somehow maybe you can

127  
00:05:05,050 --> 00:05:03,289  
start by telling us a little more about

128  
00:05:07,270 --> 00:05:05,060  
the major principles behind your work

129  
00:05:10,630 --> 00:05:07,280  
and a little about how you uncovered it

130  
00:05:13,420 --> 00:05:10,640  
well I think if I was to identify one of

131  
00:05:18,580 --> 00:05:13,430  
the most fundamental principle behind my

132  
00:05:23,380 --> 00:05:18,590  
work it would be that you can divide

133  
00:05:25,530 --> 00:05:23,390  
things to infinity 'm and when you get

134  
00:05:28,170 --> 00:05:25,540  
down to the really really

135  
00:05:32,190 --> 00:05:28,180  
really really tiny you're basically

136  
00:05:34,590 --> 00:05:32,200  
talking about electromagnetic field they

137  
00:05:38,370 --> 00:05:34,600  
are fluctuating in the structure of

138  
00:05:41,700 --> 00:05:38,380

space so so the basic principle is that

139

00:05:45,110 --> 00:05:41,710

space is not empty space is full that we

140

00:05:49,020 --> 00:05:45,120

are swimming in an ether of energy and

141

00:05:52,380 --> 00:05:49,030

that this energy is the source of all

142

00:05:54,570 --> 00:05:52,390

matter and forces in the universe and

143

00:05:57,870 --> 00:05:54,580

most likely the source of what we call

144

00:06:01,170 --> 00:05:57,880

consciousness as well and I got to that

145

00:06:05,310 --> 00:06:01,180

at the very young age when I was

146

00:06:07,140 --> 00:06:05,320

contemplating the foundation of reality

147

00:06:09,930 --> 00:06:07,150

I was trying to figure out how things

148

00:06:13,830 --> 00:06:09,940

got together how things got so organized

149

00:06:16,890 --> 00:06:13,840

how you know the bees and the flowers

150

00:06:19,050 --> 00:06:16,900

didn't get put on different planets but

151  
00:06:21,210 --> 00:06:19,060  
they got put on the same planet because

152  
00:06:24,600 --> 00:06:21,220  
they need each other you know like how

153  
00:06:27,870 --> 00:06:24,610  
the nature organize that's in contrary

154  
00:06:31,380 --> 00:06:27,880  
to entropy to this organization it's in

155  
00:06:34,350 --> 00:06:31,390  
contrary to a universe that was just the

156  
00:06:36,480 --> 00:06:34,360  
result of random fluctuations due to an

157  
00:06:38,940 --> 00:06:36,490  
explosion I felt like there was an

158  
00:06:42,390 --> 00:06:38,950  
organizing principle and I look for it

159  
00:06:44,040 --> 00:06:42,400  
well said so we know the conventional

160  
00:06:46,080 --> 00:06:44,050  
models are a mess having two

161  
00:06:48,930 --> 00:06:46,090  
disconnected models for small and large

162  
00:06:51,420 --> 00:06:48,940  
stains makes no sense but when you break

163  
00:06:53,850 --> 00:06:51,430

down your work you make it all seem so

164

00:06:56,430 --> 00:06:53,860

connected and so obvious I just wonder

165

00:06:58,620 --> 00:06:56,440

if everything is entangled and it's all

166

00:07:00,450 --> 00:06:58,630

right there in front of us why don't the

167

00:07:02,580 --> 00:07:00,460

scientists study in the world stumble

168

00:07:05,790 --> 00:07:02,590

upon this reality is it more ignorance

169

00:07:09,090 --> 00:07:05,800

or is there some kind of cover-up okay

170

00:07:12,030 --> 00:07:09,100

well I would say most likely it's a

171

00:07:13,950 --> 00:07:12,040

little bit of both they did stumble upon

172

00:07:18,780 --> 00:07:13,960

it the problem is there was a lot of

173

00:07:21,360 --> 00:07:18,790

stumbling along the way and historically

174

00:07:26,190 --> 00:07:21,370

some of the discoveries that needed to

175

00:07:30,830 --> 00:07:26,200

be put together were spread apart from

176

00:07:34,440 --> 00:07:30,840

so much time distance that by the time

177

00:07:37,540 --> 00:07:34,450

these new discoveries occurred the old

178

00:07:40,540 --> 00:07:37,550

one had taken hold and

179

00:07:43,930 --> 00:07:40,550

the fundamental split in physics happen

180

00:07:48,189 --> 00:07:43,940

and what I mean by that is that earlier

181

00:07:50,439 --> 00:07:48,199

on Maxwell when he rode what is known as

182

00:07:52,980 --> 00:07:50,449

the Maxwell's equation now for the

183

00:07:56,290 --> 00:07:52,990

electromagnetic field assume a

184

00:07:59,830 --> 00:07:56,300

fundamental ether he assumed that space

185

00:08:03,010 --> 00:07:59,840

time our space was filled with this

186

00:08:06,339 --> 00:08:03,020

substance this fluid like substance of

187

00:08:09,369 --> 00:08:06,349

energy and that electromagnetic waves

188

00:08:11,710 --> 00:08:09,379

were the result of fluctuations in that

189

00:08:14,290 --> 00:08:11,720

energy and he wrote these equations then

190

00:08:18,249 --> 00:08:14,300

you know describing basically little

191

00:08:23,110 --> 00:08:18,259

vortices as electromagnetic fluctuation

192

00:08:26,080 --> 00:08:23,120

of these luminous ether energy and his

193

00:08:28,659 --> 00:08:26,090

equations were very successful and they

194

00:08:32,290 --> 00:08:28,669

give all the right answers except that

195

00:08:35,649 --> 00:08:32,300

they were very complex to solve fluid

196

00:08:40,079 --> 00:08:35,659

dynamics equation and quaternions were a

197

00:08:43,659 --> 00:08:40,089

little complex people as a result of

198

00:08:46,389 --> 00:08:43,669

experiments that were actually not

199

00:08:49,870 --> 00:08:46,399

complete experiments mark Olson and

200

00:08:52,410 --> 00:08:49,880

Marley and others felt like it was and

201  
00:08:57,040 --> 00:08:52,420  
as a result of Einstein field equations

202  
00:08:58,930 --> 00:08:57,050  
felt like the fundamental ether needed

203  
00:09:02,800 --> 00:08:58,940  
to be removed and replaced with

204  
00:09:05,290 --> 00:09:02,810  
space-time which was a conceptual notion

205  
00:09:10,540 --> 00:09:05,300  
of the structure of space this

206  
00:09:15,090 --> 00:09:10,550  
conceptual notion mathematically did not

207  
00:09:19,990 --> 00:09:15,100  
require that we assign it a physical

208  
00:09:23,319 --> 00:09:20,000  
value so space-time was like a concept

209  
00:09:27,130 --> 00:09:23,329  
in the clouds that basically you know

210  
00:09:29,800 --> 00:09:27,140  
then just was a way to calculate gravity

211  
00:09:32,380 --> 00:09:29,810  
and way to calculate the curvature of

212  
00:09:36,460 --> 00:09:32,390  
space-time to define gravity but

213  
00:09:38,829 --> 00:09:36,470

space-time was not ever defined what is

214

00:09:41,800 --> 00:09:38,839

space-time like what do you mean space

215

00:09:44,530 --> 00:09:41,810

and time is curving you know if it's

216

00:09:47,590 --> 00:09:44,540

curving it must be something but that

217

00:09:49,420 --> 00:09:47,600

something was never defined the concept

218

00:09:52,060 --> 00:09:49,430

got worse

219

00:09:55,710 --> 00:09:52,070

with the amount of quantum theory which

220

00:09:59,860 --> 00:09:55,720

of course Max Planck was the father but

221

00:10:03,040 --> 00:09:59,870

actually was partly fathered by Einstein

222

00:10:06,340 --> 00:10:03,050

himself and with the photoelectric

223

00:10:08,530 --> 00:10:06,350

effect where he defined photons and got

224

00:10:11,170 --> 00:10:08,540

the Nobel Prize for that people are not

225

00:10:14,380 --> 00:10:11,180

necessarily clear that actually Einstein

226  
00:10:18,630 --> 00:10:14,390  
was part of fathering quantum mechanics

227  
00:10:23,020 --> 00:10:18,640  
but I wid that event even further

228  
00:10:26,050 --> 00:10:23,030  
fundamental models of mechanics were

229  
00:10:29,010 --> 00:10:26,060  
abandoned and physics became more and

230  
00:10:32,470 --> 00:10:29,020  
more mathematical and more more and more

231  
00:10:37,780 --> 00:10:32,480  
conceptual and less and less attached to

232  
00:10:40,230 --> 00:10:37,790  
reality and as they stumbled they found

233  
00:10:42,850 --> 00:10:40,240  
that oh my god particles can be

234  
00:10:45,280 --> 00:10:42,860  
entangled in the structure of space-time

235  
00:10:47,190 --> 00:10:45,290  
at the quantum scale so space-time at

236  
00:10:50,170 --> 00:10:47,200  
the quantum scale must be completely

237  
00:10:53,170 --> 00:10:50,180  
different and and then they they

238  
00:10:56,140 --> 00:10:53,180

couldn't reconcile gravity are in

239

00:10:58,660 --> 00:10:56,150

Stein's equations for space-time at the

240

00:11:02,380 --> 00:10:58,670

universal level at the stars and

241

00:11:04,990 --> 00:11:02,390

galaxies and planet level with quantum

242

00:11:07,420 --> 00:11:05,000

mechanics which said that space-time was

243

00:11:12,550 --> 00:11:07,430

very very strange at the quantum scale

244

00:11:15,640 --> 00:11:12,560

and so this division happened and all

245

00:11:18,580 --> 00:11:15,650

the weinstein when the division happen

246

00:11:20,830 --> 00:11:18,590

einstein felt this can't be right he

247

00:11:24,190 --> 00:11:20,840

felt like there must be a solution and

248

00:11:26,830 --> 00:11:24,200

later in his life you realize that the

249

00:11:31,450 --> 00:11:26,840

solution was to reintroduce the ether

250

00:11:33,580 --> 00:11:31,460

mm-hmm which in some bizarre way had

251  
00:11:36,580 --> 00:11:33,590  
been found I'm just giving you all the

252  
00:11:39,460 --> 00:11:36,590  
stumbling had been found in quantum

253  
00:11:42,310 --> 00:11:39,470  
field theory so as quantum physics

254  
00:11:44,590 --> 00:11:42,320  
developed and it got deeper and deeper

255  
00:11:48,520 --> 00:11:44,600  
in the equations eventually quantum

256  
00:11:51,000 --> 00:11:48,530  
field theory was written by very very

257  
00:11:56,200 --> 00:11:51,010  
good physicist called Paul Dirac and

258  
00:11:59,080 --> 00:11:56,210  
when Dirac got into the nitty-gritty of

259  
00:12:01,970 --> 00:11:59,090  
space at the quantum scale you realized

260  
00:12:04,310 --> 00:12:01,980  
that space was full of energy

261  
00:12:07,910 --> 00:12:04,320  
and that that space which is called

262  
00:12:10,340 --> 00:12:07,920  
vacuum fluctuations is quantized and it

263  
00:12:12,230 --> 00:12:10,350

produces particles that are called

264

00:12:14,630 --> 00:12:12,240

virtual particles not because they're

265

00:12:18,620 --> 00:12:14,640

not existing just because they exist

266

00:12:22,250 --> 00:12:18,630

very shortly in our reality but because

267

00:12:25,210 --> 00:12:22,260

now physics had gone in such different

268

00:12:29,690 --> 00:12:25,220

ways between quantum field theory and

269

00:12:33,260 --> 00:12:29,700

relativity that was never reconciled

270

00:12:36,800 --> 00:12:33,270

meaning the ether and vacuum fluctuation

271

00:12:40,160 --> 00:12:36,810

were never put back together until

272

00:12:42,890 --> 00:12:40,170

recently were people like me and others

273

00:12:47,150 --> 00:12:42,900

for instance Frank will jet that did an

274

00:12:49,370 --> 00:12:47,160

amazing talk in 2017 I believed it to be

275

00:12:52,640 --> 00:12:49,380

one of the most significant talk from

276

00:12:55,070 --> 00:12:52,650

the mainstream physics community in a

277

00:12:57,560 --> 00:12:55,080

hundred years of physics that is called

278

00:12:59,540 --> 00:12:57,570

the materiality of the vacuum if people

279

00:13:02,990 --> 00:12:59,550

want to look it up on YouTube they can

280

00:13:05,120 --> 00:13:03,000

watch it it's laymen talk by Frank will

281

00:13:09,080 --> 00:13:05,130

check which is a Nobel Prize winner in

282

00:13:11,750 --> 00:13:09,090

physics which clearly defined the

283

00:13:14,420 --> 00:13:11,760

history of the ether and show that

284

00:13:16,430 --> 00:13:14,430

vacuum fluctuations and the ether are

285

00:13:18,890 --> 00:13:16,440

the same thing and show that these

286

00:13:20,930 --> 00:13:18,900

should not have been separated that the

287

00:13:22,910 --> 00:13:20,940

ether has to be put back into the

288

00:13:26,480 --> 00:13:22,920

physics and that's the solution to new

289

00:13:28,550 --> 00:13:26,490

my unifying physics of course I've been

290

00:13:30,710 --> 00:13:28,560

on that path for over 30 years and I've

291

00:13:32,630 --> 00:13:30,720

solved these equations so I you know

292

00:13:35,060 --> 00:13:32,640

it's recent that the mainstream is

293

00:13:37,970 --> 00:13:35,070

acknowledging this error that happened

294

00:13:41,540 --> 00:13:37,980

in physics so that was a big big stumble

295

00:13:43,640 --> 00:13:41,550

that Einstein tried to repair but by the

296

00:13:45,650 --> 00:13:43,650

time he tried to repair it it was too

297

00:13:48,620 --> 00:13:45,660

late they were not listening to him

298

00:13:51,410 --> 00:13:48,630

anymore they felt like he had abandoned

299

00:13:53,900 --> 00:13:51,420

quantum physics and that he was going

300

00:13:56,540 --> 00:13:53,910

against it and so the history books

301  
00:13:59,000 --> 00:13:56,550  
really portrays Einstein as producing

302  
00:14:01,640 --> 00:13:59,010  
this incredible work in a few years

303  
00:14:04,820 --> 00:14:01,650  
where he wrote special relativity and

304  
00:14:07,940 --> 00:14:04,830  
general relativity but then not being

305  
00:14:11,480 --> 00:14:07,950  
very prolific or you know contributing

306  
00:14:13,240 --> 00:14:11,490  
very much after and it's it's really not

307  
00:14:15,309 --> 00:14:13,250  
correct

308  
00:14:17,350 --> 00:14:15,319  
that seems to happen a lot where we have

309  
00:14:19,269 --> 00:14:17,360  
these bright minds these people we have

310  
00:14:21,069 --> 00:14:19,279  
to remember through history and then the

311  
00:14:23,410 --> 00:14:21,079  
further they go down the rabbit hole

312  
00:14:25,210 --> 00:14:23,420  
then later in their life we have in

313  
00:14:27,040 --> 00:14:25,220

their biography oh and then they went

314

00:14:28,480 --> 00:14:27,050

nuts then they went crazy and after a

315

00:14:30,490 --> 00:14:28,490

certain age nothing they looked at

316

00:14:33,220 --> 00:14:30,500

mattered anymore that was all nonsense

317

00:14:36,100 --> 00:14:33,230

exactly it's remarkable it seems like

318

00:14:38,590 --> 00:14:36,110

and they did the same thing to Dirac

319

00:14:42,790 --> 00:14:38,600

where direct at the end of this life

320

00:14:46,030 --> 00:14:42,800

wrote very very important theory called

321

00:14:47,610 --> 00:14:46,040

the large number and hypothesis Dirac

322

00:14:50,350 --> 00:14:47,620

was probably one of the best

323

00:14:54,610 --> 00:14:50,360

mathematical physicists on the planet

324

00:14:58,019 --> 00:14:54,620

ever is amazing physicist you know he

325

00:15:02,050 --> 00:14:58,029

was the head of Cambridge I mean and

326

00:15:04,960 --> 00:15:02,060

although he had all these you know title

327

00:15:08,679 --> 00:15:04,970

and and resolves behind him when he

328

00:15:11,499 --> 00:15:08,689

wrote the large number of potus's which

329

00:15:14,530 --> 00:15:11,509

was really really close to solving all

330

00:15:18,809 --> 00:15:14,540

this and you know my theory finishes it

331

00:15:21,119 --> 00:15:18,819

he was thought to have been doing

332

00:15:24,400 --> 00:15:21,129

numerology they accused him of doing

333

00:15:28,660 --> 00:15:24,410

numerology and being too old you know

334

00:15:33,490 --> 00:15:28,670

and decrepit to think properly and it's

335

00:15:37,059 --> 00:15:33,500

so sad because it really removes I'm

336

00:15:42,660 --> 00:15:37,069

gonna dare to use the word magic mm-hmm

337

00:15:46,119 --> 00:15:42,670

it removes the magic of creativity and

338

00:15:52,150 --> 00:15:46,129

amazing discoveries that you know just

339

00:15:55,509 --> 00:15:52,160

pass by his story and got us in a little

340

00:15:58,840 --> 00:15:55,519

bit of the mess that we are in today now

341

00:16:01,269 --> 00:15:58,850

on the other side of the stumbling there

342

00:16:04,480 --> 00:16:01,279

is because you know the

343

00:16:07,629 --> 00:16:04,490

military-industrial complex should not

344

00:16:11,199 --> 00:16:07,639

be underestimated no they have large

345

00:16:14,860 --> 00:16:11,209

budgets and a lot of scientists they are

346

00:16:18,160 --> 00:16:14,870

quite capable of exploring things that

347

00:16:20,049 --> 00:16:18,170

are not necessarily available to the

348

00:16:23,710 --> 00:16:20,059

mainstream scientific community because

349

00:16:25,870 --> 00:16:23,720

of the restrictions of their position in

350

00:16:26,750 --> 00:16:25,880

the universities and so on which is not

351  
00:16:29,300 --> 00:16:26,760  
present

352  
00:16:32,030 --> 00:16:29,310  
in the military industrial complex where

353  
00:16:36,860 --> 00:16:32,040  
they are encouraged to be creative and

354  
00:16:40,639 --> 00:16:36,870  
come up with new stuff so there is I

355  
00:16:43,189 --> 00:16:40,649  
believe a clear understanding for a

356  
00:16:47,030 --> 00:16:43,199  
certain amount of time certainly since

357  
00:16:50,480 --> 00:16:47,040  
Tesla and maybe before that there is

358  
00:16:52,550 --> 00:16:50,490  
energy foundation to the structure of

359  
00:16:55,040 --> 00:16:52,560  
space-time that this energy can be

360  
00:16:57,949 --> 00:16:55,050  
tapped into that this energy can be

361  
00:17:00,949 --> 00:16:57,959  
manipulated to produce gravitational

362  
00:17:02,990 --> 00:17:00,959  
effects or other effects how far they

363  
00:17:06,230 --> 00:17:03,000

have gone down that rabbit hole and been

364

00:17:09,140 --> 00:17:06,240

successful in doing that well you know

365

00:17:12,110 --> 00:17:09,150

they are still restricted from their

366

00:17:14,750 --> 00:17:12,120

education and their mind so I don't know

367

00:17:17,659 --> 00:17:14,760

how far they were able to go but

368

00:17:20,960 --> 00:17:17,669

certainly I think that there is a much

369

00:17:25,750 --> 00:17:20,970

larger opening in that section and that

370

00:17:30,159 --> 00:17:25,760

there has been very you know deliberate

371

00:17:33,860 --> 00:17:30,169

let's say level of suppression and

372

00:17:37,460 --> 00:17:33,870

censoring of this type of information in

373

00:17:39,560 --> 00:17:37,470

the open mainstream community well said

374

00:17:42,320 --> 00:17:39,570

I think that's a great history lesson it

375

00:17:43,700 --> 00:17:42,330

is a messy road no doubt and great point

376

00:17:46,730 --> 00:17:43,710

about the military industrial complex

377

00:17:48,500 --> 00:17:46,740

and there's also CIA documents that show

378

00:17:50,930 --> 00:17:48,510

that they look at some very weird things

379

00:17:52,789 --> 00:17:50,940

that they would just tell us or nonsense

380

00:17:54,320 --> 00:17:52,799

so I think those are important things to

381

00:17:55,970 --> 00:17:54,330

point out and I wanted to ask you about

382

00:17:58,159 --> 00:17:55,980

consciousness because of course that's

383

00:17:59,510 --> 00:17:58,169

another huge buzzword right now but you

384

00:18:02,000 --> 00:17:59,520

talk about it in a pretty interesting

385

00:18:04,010 --> 00:18:02,010

way I think this refers to the unified

386

00:18:06,799 --> 00:18:04,020

space memory network but you talk about

387

00:18:09,039 --> 00:18:06,809

consciousness as a field that reinforces

388

00:18:11,030 --> 00:18:09,049

itself and informs itself through

389

00:18:14,919 --> 00:18:11,040

experience can you elaborate on that

390

00:18:17,750 --> 00:18:14,929

well yes so basically I looked at this

391

00:18:20,510 --> 00:18:17,760

fundamental energy structure of the

392

00:18:22,820 --> 00:18:20,520

vacuum fluctuation of this ether this

393

00:18:24,740 --> 00:18:22,830

energy that's present in space

394

00:18:26,840 --> 00:18:24,750

everywhere and people might say well

395

00:18:29,840 --> 00:18:26,850

what is he talking about space is empty

396

00:18:32,150 --> 00:18:29,850

it's clearly empty well think about it

397

00:18:34,280 --> 00:18:32,160

this way like the space around you is

398

00:18:36,620 --> 00:18:34,290

full of electromagnetic fields and you

399

00:18:38,810 --> 00:18:36,630

think you know you don't feel them you

400

00:18:39,130 --> 00:18:38,820

don't see them it's outside of the range

401

00:18:42,160 --> 00:18:39,140

or

402

00:18:44,050 --> 00:18:42,170

your central body so you know you don't

403

00:18:46,900 --> 00:18:44,060

know that it's there like France and the

404

00:18:49,990 --> 00:18:46,910

radio waves they're all around you the

405

00:18:52,960 --> 00:18:50,000

infrared and you know the ultraviolet

406

00:18:55,240 --> 00:18:52,970

with the background radiation from the

407

00:18:57,130 --> 00:18:55,250

galaxy is all around you you know I mean

408

00:18:59,470 --> 00:18:57,140

there's all sorts of electromagnetic

409

00:19:02,350 --> 00:18:59,480

fluctuations all around you and unless

410

00:19:05,710 --> 00:19:02,360

you put a little crystal on there and

411

00:19:08,650 --> 00:19:05,720

tune it with a little electronic sync

412

00:19:11,860 --> 00:19:08,660

circuit and you tap into the radio waves

413

00:19:14,440 --> 00:19:11,870

you know and hear the radio set come on

414

00:19:17,710 --> 00:19:14,450

you don't necessarily know that there's

415

00:19:21,310 --> 00:19:17,720

a radio station that's broadcasting the

416

00:19:23,830 --> 00:19:21,320

football game right and so just like

417

00:19:27,400 --> 00:19:23,840

that you can imagine that there's a

418

00:19:33,010 --> 00:19:27,410

broadcast that's happening in the vacuum

419

00:19:35,590 --> 00:19:33,020

that is the universal broadcast that is

420

00:19:40,390 --> 00:19:35,600

the you know the radio station of

421

00:19:43,630 --> 00:19:40,400

creation if you'd like and that radio

422

00:19:47,320 --> 00:19:43,640

station is exchanging bits of

423

00:19:50,140 --> 00:19:47,330

information and so I found the bit sighs

424

00:19:52,540 --> 00:19:50,150

I finally found the bit size it had been

425

00:19:55,120 --> 00:19:52,550

found by Mike's plonk but it was not

426  
00:19:57,070 --> 00:19:55,130  
applied to the structure of space-time

427  
00:20:00,550 --> 00:19:57,080  
because it was thought to be quantum

428  
00:20:03,280 --> 00:20:00,560  
mechanics and space-time is relativity

429  
00:20:07,000 --> 00:20:03,290  
and the two were not to be mixed so I

430  
00:20:10,330 --> 00:20:07,010  
applied the grain size which I call

431  
00:20:11,890 --> 00:20:10,340  
plunk spherical units to the structure

432  
00:20:14,230 --> 00:20:11,900  
of space-time and realize that

433  
00:20:16,210 --> 00:20:14,240  
space-time is basically these little

434  
00:20:17,890 --> 00:20:16,220  
bits now these bits are really little

435  
00:20:19,570 --> 00:20:17,900  
they're billions and billions and

436  
00:20:22,660 --> 00:20:19,580  
billions of times smaller than an atom

437  
00:20:25,150 --> 00:20:22,670  
and there you can think of it as little

438  
00:20:28,170 --> 00:20:25,160

spinners little vortices in space-time

439

00:20:30,430 --> 00:20:28,180

and so you can think of it as like

440

00:20:33,160 --> 00:20:30,440

information in the structure of space

441

00:20:38,950 --> 00:20:33,170

that's being exchanged through this

442

00:20:41,110 --> 00:20:38,960

medium and I use these equations to try

443

00:20:45,130 --> 00:20:41,120

to figure out okay well out of this

444

00:20:48,430 --> 00:20:45,140

exchange of information can i i'll put a

445

00:20:50,320 --> 00:20:48,440

proton can I put an electron can I get

446

00:20:51,130 --> 00:20:50,330

an atom can I get a table of elements

447

00:20:56,950 --> 00:20:51,140

can

448

00:21:00,010 --> 00:20:56,960

temperature of the universe you know all

449

00:21:02,770 --> 00:21:00,020

these things and they all came out but

450

00:21:06,310 --> 00:21:02,780

that I'm just gonna say straight up they

451  
00:21:11,230 --> 00:21:06,320  
didn't come out approximately right they

452  
00:21:13,680 --> 00:21:11,240  
came out extremely correct okay

453  
00:21:17,200 --> 00:21:13,690  
extremely correct the point that I

454  
00:21:19,990 --> 00:21:17,210  
actually it looked long for the proton

455  
00:21:22,300 --> 00:21:20,000  
it was one instant where it look wrong

456  
00:21:25,030 --> 00:21:22,310  
it looked like the the mass was

457  
00:21:27,340 --> 00:21:25,040  
extremely correct but the radius was 4%

458  
00:21:31,480 --> 00:21:27,350  
smaller than what was measured at the

459  
00:21:34,120 --> 00:21:31,490  
time I published it in 2012 and you know

460  
00:21:35,920 --> 00:21:34,130  
with this new radius for the proton and

461  
00:21:38,440 --> 00:21:35,930  
said that maybe experiments would

462  
00:21:40,210 --> 00:21:38,450  
confirm it I didn't know in Switzerland

463  
00:21:42,130 --> 00:21:40,220

in an accelerator they were in the

464

00:21:43,720 --> 00:21:42,140

middle of making doing experiments to

465

00:21:46,060 --> 00:21:43,730

measure the radius the proton more

466

00:21:48,370 --> 00:21:46,070

precisely they ended up with the radius

467

00:21:51,640 --> 00:21:48,380

that was four percent smaller exactly

468

00:21:54,130 --> 00:21:51,650

what I had predicted and you know it's

469

00:21:58,330 --> 00:21:54,140

thrown a monkey wrench and the standard

470

00:22:00,760 --> 00:21:58,340

model and so on and so it came up with

471

00:22:02,770 --> 00:22:00,770

the right answer we just published for

472

00:22:05,020 --> 00:22:02,780

the universe the mass of the universe no

473

00:22:07,990 --> 00:22:05,030

need for dark energy no need for dark

474

00:22:10,270 --> 00:22:08,000

matter it gives the right answer for

475

00:22:13,450 --> 00:22:10,280

everything it's remarkable for the

476  
00:22:16,030 --> 00:22:13,460  
forces everything this song published I

477  
00:22:19,290 --> 00:22:16,040  
just solved for super clusters clusters

478  
00:22:23,560 --> 00:22:19,300  
galaxies stars I mean it's unbelievable

479  
00:22:26,350 --> 00:22:23,570  
and all it is is a fairly simple

480  
00:22:30,250 --> 00:22:26,360  
equation that that describes the

481  
00:22:33,580 --> 00:22:30,260  
information exchanged in this ether

482  
00:22:36,580 --> 00:22:33,590  
structure and how it produces boundaries

483  
00:22:38,980 --> 00:22:36,590  
at different scales so basically there's

484  
00:22:42,010 --> 00:22:38,990  
an exchange between the inside of the

485  
00:22:46,390 --> 00:22:42,020  
volume of the system and the outside and

486  
00:22:49,870 --> 00:22:46,400  
this exchange produces a energy effect

487  
00:22:52,690 --> 00:22:49,880  
that we call mass and of course mass is

488  
00:22:56,080 --> 00:22:52,700

equivalent to energy right  $E$  equals  $MC^2$

489

00:22:58,390 --> 00:22:56,090

square and the  $C$  is the speed of light

490

00:23:00,910 --> 00:22:58,400

so now it's starting it it explains the

491

00:23:03,060 --> 00:23:00,920

speed of light it explains mass which we

492

00:23:06,390 --> 00:23:03,070

don't know what it is in normal physics

493

00:23:09,450 --> 00:23:06,400

so all of a sudden since we now know

494

00:23:11,970 --> 00:23:09,460

what mass and speed a light is all of a

495

00:23:15,060 --> 00:23:11,980

sudden explains energy and when you

496

00:23:18,360 --> 00:23:15,070

think about energy you think of systems

497

00:23:21,270 --> 00:23:18,370

you know that are organizing because of

498

00:23:23,700 --> 00:23:21,280

energy effects and what we see in

499

00:23:26,070 --> 00:23:23,710

biology what we see on our planet what

500

00:23:28,890 --> 00:23:26,080

we see in our body which is extremely

501  
00:23:31,110 --> 00:23:28,900  
complex a hundred trillion cells each

502  
00:23:33,210 --> 00:23:31,120  
made out of a hundred trillion atoms you

503  
00:23:37,080 --> 00:23:33,220  
know that function perfectly and all

504  
00:23:38,990 --> 00:23:37,090  
this those are all self-organizing

505  
00:23:43,380 --> 00:23:39,000  
energy effects that you can't

506  
00:23:46,440 --> 00:23:43,390  
accommodate with the idea that stuff is

507  
00:23:48,960 --> 00:23:46,450  
just bumping into each other like with

508  
00:23:51,450 --> 00:23:48,970  
some kind of miracle that makes it like

509  
00:23:54,480 --> 00:23:51,460  
it bumps into each other just right to

510  
00:23:56,760 --> 00:23:54,490  
continuously create so that your arm

511  
00:23:59,090 --> 00:23:56,770  
doesn't fall off so how does it self

512  
00:24:02,160 --> 00:23:59,100  
organize well because there's an

513  
00:24:04,920 --> 00:24:02,170

exchange of information you have

514

00:24:06,870 --> 00:24:04,930

feedback between the field and the

515

00:24:09,390 --> 00:24:06,880

system and when you have feedback you

516

00:24:12,120 --> 00:24:09,400

have self-organizing geometry it's

517

00:24:15,270 --> 00:24:12,130

called fractal systems the equations

518

00:24:18,290 --> 00:24:15,280

that feed back on itself that produce

519

00:24:22,820 --> 00:24:18,300

high level of coherency high level of

520

00:24:25,560 --> 00:24:22,830

complexity very very quickly and so

521

00:24:29,820 --> 00:24:25,570

basically you start to think wait a

522

00:24:31,800 --> 00:24:29,830

minute consciousness then is the result

523

00:24:34,410 --> 00:24:31,810

of feedback in the structure of

524

00:24:37,950 --> 00:24:34,420

space-time it's the universe learning

525

00:24:41,460 --> 00:24:37,960

about itself and oh my god like the

526

00:24:43,680 --> 00:24:41,470

whole thing unfolds and you start to

527

00:24:46,200 --> 00:24:43,690

write equations then it comes out and it

528

00:24:48,360 --> 00:24:46,210

makes sense and like all of a sudden you

529

00:24:51,720 --> 00:24:48,370

realize like we're all like little

530

00:24:54,990 --> 00:24:51,730

probes of space-time learning about our

531

00:24:58,380 --> 00:24:55,000

self and as a result you know informing

532

00:25:01,950 --> 00:24:58,390

the universe the universe is learning

533

00:25:04,950 --> 00:25:01,960

through all of the biological structures

534

00:25:07,830 --> 00:25:04,960

at the very fine edge of the fractal

535

00:25:11,030 --> 00:25:07,840

structure of the boundary event horizon

536

00:25:13,770 --> 00:25:11,040

created by the structure of information

537

00:25:15,840 --> 00:25:13,780

Wow well I think that's a nice little

538

00:25:17,050 --> 00:25:15,850

primer for people for sure it's deep and

539

00:25:18,760 --> 00:25:17,060

complex stuff but

540

00:25:20,760 --> 00:25:18,770

you know we've been learning a lot about

541

00:25:23,740 --> 00:25:20,770

things such as structured water

542

00:25:26,110 --> 00:25:23,750

frequency the electromagnetic field of

543

00:25:27,520 --> 00:25:26,120

the body and how important this stuff

544

00:25:29,650 --> 00:25:27,530

really is even though we don't see it

545

00:25:31,840 --> 00:25:29,660

and I wanted to ask you about these ark

546

00:25:34,060 --> 00:25:31,850

crystal pendants you're producing the

547

00:25:36,070 --> 00:25:34,070

website says art crystals are a

548

00:25:38,530 --> 00:25:36,080

revolutionary technology that greatly

549

00:25:42,100 --> 00:25:38,540

boosts the body's natural ability to a

550

00:25:44,050 --> 00:25:42,110

tune with the vitalistic and expansive

551  
00:25:46,480 --> 00:25:44,060  
zero-point field of the quantum vacuum

552  
00:25:48,940 --> 00:25:46,490  
the quantum vacuum represents the

553  
00:25:51,640 --> 00:25:48,950  
revolutionary understanding in modern

554  
00:25:53,500 --> 00:25:51,650  
physics that space is not empty on the

555  
00:25:55,690 --> 00:25:53,510  
contrary it's one thing that connects

556  
00:25:57,760 --> 00:25:55,700  
all things so these are crystals it

557  
00:26:00,700 --> 00:25:57,770  
sounds pretty amazing but they also are

558  
00:26:02,230 --> 00:26:00,710  
quite expensive at \$1000 but tell us

559  
00:26:04,990 --> 00:26:02,240  
about these things what what do they do

560  
00:26:07,720 --> 00:26:05,000  
why are they so unique and important so

561  
00:26:11,290 --> 00:26:07,730  
of course you know as I wrote these

562  
00:26:14,080 --> 00:26:11,300  
equations over the years over a period

563  
00:26:16,060 --> 00:26:14,090

of thirty years I start to tank ok well

564

00:26:18,930 --> 00:26:16,070

you know these equations are clearly

565

00:26:23,280 --> 00:26:18,940

telling me how this all works

566

00:26:25,960 --> 00:26:23,290

you know what stopped us from making

567

00:26:29,790 --> 00:26:25,970

technology that does the same thing as

568

00:26:32,680 --> 00:26:29,800

nature meaning meaning if nature is

569

00:26:35,980 --> 00:26:32,690

exchanging information with the field

570

00:26:38,770 --> 00:26:35,990

and since technology is made out of the

571

00:26:41,710 --> 00:26:38,780

field like the equation basically says

572

00:26:46,030 --> 00:26:41,720

that all atoms are like little mortises

573

00:26:49,660 --> 00:26:46,040

of the field then of course it's a drag

574

00:26:52,150 --> 00:26:49,670

thought or direct path to like okay well

575

00:26:54,340 --> 00:26:52,160

let's use the little vortices of the

576

00:26:58,210 --> 00:26:54,350

field that we call atoms in the right

577

00:27:01,570 --> 00:26:58,220

way to create a larger vortices in the

578

00:27:04,840 --> 00:27:01,580

field right like connect with the field

579

00:27:08,410 --> 00:27:04,850

directly if we could that would be

580

00:27:10,810 --> 00:27:08,420

amazing when you calculate how much

581

00:27:14,290 --> 00:27:10,820

energy there is in the field in the

582

00:27:17,740 --> 00:27:14,300

vacuum fluctuation it's insane in a

583

00:27:20,830 --> 00:27:17,750

centimeter cube of space there's 10 to

584

00:27:23,460 --> 00:27:20,840

the 93 grams per centimeter cube like

585

00:27:28,050 --> 00:27:23,470

this called a plunk density it's

586

00:27:29,860 --> 00:27:28,060

insanely dance in energy if we extracted

587

00:27:33,340 --> 00:27:29,870

one

588

00:27:35,320 --> 00:27:33,350

billionth of a percent of the energy in

589

00:27:38,250 --> 00:27:35,330

a centimeter cube of space we would have

590

00:27:41,290 --> 00:27:38,260

energy enough energy only in that

591

00:27:44,020 --> 00:27:41,300

extraction to run the planet for

592

00:27:47,230 --> 00:27:44,030

thousands of years like the mass the

593

00:27:50,020 --> 00:27:47,240

universe is 10 to the 55 so this is 39

594

00:27:52,240 --> 00:27:50,030

orders of magnitude larger than the mass

595

00:27:55,180 --> 00:27:52,250

the universe in terms of energy in the

596

00:27:57,250 --> 00:27:55,190

same you cube of space people might say

597

00:27:59,590 --> 00:27:57,260

oh why can't I feel that well you know

598

00:28:02,380 --> 00:27:59,600

the example of the radio waves is the

599

00:28:04,900 --> 00:28:02,390

answer so now you can imagine that I

600

00:28:07,930 --> 00:28:04,910

start to think well okay how can I do

601  
00:28:12,310 --> 00:28:07,940  
this how what is my equations telling me

602  
00:28:15,610 --> 00:28:12,320  
about how to like engineer a device to

603  
00:28:18,280 --> 00:28:15,620  
like extract or interact with the vacuum

604  
00:28:20,919 --> 00:28:18,290  
well are clearly you would need a really

605  
00:28:24,910 --> 00:28:20,929  
good oscillator well what's a good

606  
00:28:27,430 --> 00:28:24,920  
oscillator crystals right crystals are

607  
00:28:28,810 --> 00:28:27,440  
using all of our technology because

608  
00:28:31,090 --> 00:28:28,820  
they're really really good

609  
00:28:33,040 --> 00:28:31,100  
oscillators all right we have little

610  
00:28:35,350 --> 00:28:33,050  
chips that have little wafers or

611  
00:28:39,190 --> 00:28:35,360  
crystals in there that we oscillate at

612  
00:28:42,520 --> 00:28:39,200  
very high frequency and so on so clearly

613  
00:28:45,940 --> 00:28:42,530

crystals would be one of the elements

614

00:28:48,010 --> 00:28:45,950

you would want to pick to try to create

615

00:28:51,490 --> 00:28:48,020

a resonance match to the vacuum

616

00:28:53,680 --> 00:28:51,500

structure and then plasma and all these

617

00:28:56,260 --> 00:28:53,690

other things okay it gets more complex

618

00:29:00,910 --> 00:28:56,270

but you can imagine and I figured out a

619

00:29:05,500 --> 00:29:00,920

way to create enough coherency in a

620

00:29:09,190 --> 00:29:05,510

crystal metric that I can make a crystal

621

00:29:12,490 --> 00:29:09,200

that is very special crystal get a

622

00:29:15,760 --> 00:29:12,500

little bit bumped around get a little

623

00:29:17,260 --> 00:29:15,770

bit oscillated by the vacuum fluctuation

624

00:29:20,350 --> 00:29:17,270

more than normal

625

00:29:25,180 --> 00:29:20,360

so that it starts to emit a little bit

626  
00:29:28,060 --> 00:29:25,190  
of energy now you know until recently it

627  
00:29:31,060 --> 00:29:28,070  
was hard for me to prove it directly

628  
00:29:33,010 --> 00:29:31,070  
because I could see the effect on things

629  
00:29:36,490 --> 00:29:33,020  
like I could see the effect of the

630  
00:29:38,320 --> 00:29:36,500  
crystals after I treated it on the water

631  
00:29:39,790 --> 00:29:38,330  
structure for instance it would change

632  
00:29:42,520 --> 00:29:39,800  
the water structure it would energize

633  
00:29:43,120 --> 00:29:42,530  
the water what self ionized the water it

634  
00:29:46,780 --> 00:29:43,130  
would make the

635  
00:29:48,970 --> 00:29:46,790  
all of a sudden change its pH and which

636  
00:29:51,460 --> 00:29:48,980  
means that thousands and thousands and

637  
00:29:53,920 --> 00:29:51,470  
millions of negative ions have been

638  
00:29:56,410 --> 00:29:53,930

added to the waters as a result of

639

00:29:58,420 --> 00:29:56,420

exposure to this little crystal but

640

00:30:01,330 --> 00:29:58,430

recently I was able and we're gonna

641

00:30:04,180 --> 00:30:01,340

publish this soon I was able to actually

642

00:30:07,270 --> 00:30:04,190

measure the photon emission from these

643

00:30:08,740 --> 00:30:07,280

crystals and yes they are expensive they

644

00:30:14,050 --> 00:30:08,750

are expensive because they're very

645

00:30:17,170 --> 00:30:14,060

difficult to build so I in 1999 I was

646

00:30:20,260 --> 00:30:17,180

able to produce a few of these crystals

647

00:30:22,690 --> 00:30:20,270

but it took me until two years ago until

648

00:30:24,790 --> 00:30:22,700

I could produce them in quantities

649

00:30:27,580 --> 00:30:24,800

because the technology was just not

650

00:30:30,640 --> 00:30:27,590

present on the planet to make large

651  
00:30:32,920 --> 00:30:30,650  
number of these crystals they take years

652  
00:30:35,470 --> 00:30:32,930  
to grow they take you know they have to

653  
00:30:37,810 --> 00:30:35,480  
be cut very very very precisely and all

654  
00:30:40,420 --> 00:30:37,820  
this so so this is why you know they're

655  
00:30:43,300 --> 00:30:40,430  
not just like a crystal I pick out of

656  
00:30:44,950 --> 00:30:43,310  
the other mine and you know just treat

657  
00:30:48,070 --> 00:30:44,960  
them a little bit and then they go to

658  
00:30:50,230 --> 00:30:48,080  
you so so that's why they're a little

659  
00:30:52,930 --> 00:30:50,240  
more expensive I'm sure these prices

660  
00:30:55,330 --> 00:30:52,940  
eventually will be able to be reduced

661  
00:30:58,410 --> 00:30:55,340  
but like any new technology that

662  
00:31:01,090 --> 00:30:58,420  
requires very high level of cutting-edge

663  
00:31:04,240 --> 00:31:01,100

technology to produce you know they're

664

00:31:07,720 --> 00:31:04,250

very expensive to produce but we are now

665

00:31:11,410 --> 00:31:07,730

able to measure photon emissions that

666

00:31:14,350 --> 00:31:11,420

are being emitted by the vertices of the

667

00:31:16,330 --> 00:31:14,360

crystal we have now understood the

668

00:31:18,850 --> 00:31:16,340

mechanism in which it's affecting the

669

00:31:21,220 --> 00:31:18,860

water molecules and various elements

670

00:31:23,560 --> 00:31:21,230

around it and so it's very exciting

671

00:31:26,380 --> 00:31:23,570

because we're able to demonstrate that

672

00:31:29,380 --> 00:31:26,390

we're extracting a little bit very

673

00:31:34,380 --> 00:31:29,390

little but a little bit of energy from

674

00:31:37,210 --> 00:31:34,390

the vacuum and the result is that the

675

00:31:44,050 --> 00:31:37,220

material world around us get a little

676

00:31:47,380 --> 00:31:44,060

energized from it and water is 75% of

677

00:31:50,110 --> 00:31:47,390

your body content 80% of your brain so

678

00:31:53,350 --> 00:31:50,120

if your water gets energized a little

679

00:31:55,919 --> 00:31:53,360

bit then that means everything runs a

680

00:31:57,960 --> 00:31:55,929

little better that means that maybe

681

00:31:59,899 --> 00:31:57,970

is better communication between cells

682

00:32:03,779 --> 00:31:59,909

that means you know a lot of

683

00:32:07,859 --> 00:32:03,789

consequences to health we applied this

684

00:32:10,499 --> 00:32:07,869

concept to plants for instance we charge

685

00:32:15,090 --> 00:32:10,509

water applied it to plants we see right

686

00:32:18,299 --> 00:32:15,100

away plants growing you know 200 to 300

687

00:32:20,759 --> 00:32:18,309

to 400 percent faster you know so they

688

00:32:23,399 --> 00:32:20,769

they grow much faster four times faster

689

00:32:25,799 --> 00:32:23,409

all of a sudden they produce much more

690

00:32:27,659 --> 00:32:25,809

seeds the fruits are much larger they

691

00:32:30,930 --> 00:32:27,669

have much more mineral content they're

692

00:32:34,350 --> 00:32:30,940

much more resistant to pathogens and so

693

00:32:38,310 --> 00:32:34,360

if we see all that in plants it stands

694

00:32:41,279 --> 00:32:38,320

to reason that it's good for humans as

695

00:32:43,409 --> 00:32:41,289

well yes and he's thin seem way more

696

00:32:46,230 --> 00:32:43,419

valuable than green paper anyway but

697

00:32:48,419 --> 00:32:46,240

economics makes people skeptical of

698

00:32:51,389 --> 00:32:48,429

almost everything unfortunately mm-hm

699

00:32:53,820 --> 00:32:51,399

and I know you've been granted a patent

700

00:32:55,769 --> 00:32:53,830

on this and some of these diagrams I was

701  
00:32:57,960 --> 00:32:55,779  
looking at they seem kind of like the

702  
00:33:01,470 --> 00:32:57,970  
shape of a flying saucer and this idea

703  
00:33:04,669 --> 00:33:01,480  
of plasma and rotation seems to be

704  
00:33:06,989 --> 00:33:04,679  
central to both energy devices and

705  
00:33:08,730 --> 00:33:06,999  
potential modes of travel I mean these

706  
00:33:10,259 --> 00:33:08,740  
are the things people are talking about

707  
00:33:12,359 --> 00:33:10,269  
to me it's always in that same

708  
00:33:15,659 --> 00:33:12,369  
wheelhouse are these things related or

709  
00:33:18,930 --> 00:33:15,669  
am I crazy no that's correct and you

710  
00:33:22,830 --> 00:33:18,940  
know it might seem like way out there

711  
00:33:25,889 --> 00:33:22,840  
for most people that lay you know maybe

712  
00:33:28,680 --> 00:33:25,899  
we would have gravity control you know

713  
00:33:31,499 --> 00:33:28,690

flying saucer type of things you know

714

00:33:35,249 --> 00:33:31,509

maybe in a very far future I assure you

715

00:33:37,859 --> 00:33:35,259

that this level of technology is at our

716

00:33:40,080 --> 00:33:37,869

doorstep and it's not just coming from

717

00:33:42,749 --> 00:33:40,090

my laboratories there's many other labs

718

00:33:45,239 --> 00:33:42,759

around the world working on this you

719

00:33:48,180 --> 00:33:45,249

know I think we're finally getting to

720

00:33:51,590 --> 00:33:48,190

the place where we'll be just like in

721

00:33:55,379 --> 00:33:51,600

earlier history we learn to control

722

00:33:59,609 --> 00:33:55,389

electromagnetic field and by the mere

723

00:34:03,299 --> 00:33:59,619

control of magnetic and electric fields

724

00:34:06,720 --> 00:34:03,309

we've basically produce our whole

725

00:34:08,329 --> 00:34:06,730

advanced society well the next step for

726

00:34:09,780 --> 00:34:08,339

Humanity is to learn to control

727

00:34:11,850 --> 00:34:09,790

gravitational field

728

00:34:14,790 --> 00:34:11,860

which are we're now starting to

729

00:34:17,040 --> 00:34:14,800

understand how they work and that will

730

00:34:19,560 --> 00:34:17,050

give us gravity control so that we can

731

00:34:23,100 --> 00:34:19,570

travel they are in our solar system in

732

00:34:26,070 --> 00:34:23,110

our galaxy and you know not be doing it

733

00:34:29,399 --> 00:34:26,080

on fossil fuel it will change as well

734

00:34:32,070 --> 00:34:29,409

everything if we extract energy from the

735

00:34:34,770 --> 00:34:32,080

vacuum to control gravitational fields

736

00:34:37,440 --> 00:34:34,780

of course we can run all of our society

737

00:34:40,110 --> 00:34:37,450

on this energy as well so you can start

738

00:34:43,620 --> 00:34:40,120

to imagine running your car or your

739

00:34:46,530 --> 00:34:43,630

house on like an oscillating crystal

740

00:34:48,330 --> 00:34:46,540

that is producing you know significant

741

00:34:50,940 --> 00:34:48,340

amount of energy directly out of the

742

00:34:54,330 --> 00:34:50,950

structure of space-time I mean this is

743

00:34:56,700 --> 00:34:54,340

all around the corner and you know time

744

00:34:58,920 --> 00:34:56,710

crystals I mean there's all sorts of

745

00:35:02,570 --> 00:34:58,930

stuff that's happening in many different

746

00:35:05,550 --> 00:35:02,580

levels not just you know bleeding-edge

747

00:35:08,760 --> 00:35:05,560

laboratories like mine but as well into

748

00:35:12,150 --> 00:35:08,770

the mainstream that is really leading us

749

00:35:14,310 --> 00:35:12,160

down this road and most importantly to

750

00:35:16,880 --> 00:35:14,320

the unification of physics and our

751  
00:35:19,860 --> 00:35:16,890  
understanding of consciousness as well

752  
00:35:22,110 --> 00:35:19,870  
mm-hmm great points yes in terms of

753  
00:35:23,490 --> 00:35:22,120  
travel it seems pretty clear rocketry

754  
00:35:26,100 --> 00:35:23,500  
isn't going to get us anywhere I'm

755  
00:35:28,380 --> 00:35:26,110  
skeptical that it ever has okay and you

756  
00:35:31,050 --> 00:35:28,390  
have said that we can control gravity

757  
00:35:34,590 --> 00:35:31,060  
via rotating plasma this is in the mix

758  
00:35:36,630 --> 00:35:34,600  
of so many esoteric documents that seem

759  
00:35:39,840 --> 00:35:36,640  
to pop up on the internet but it's

760  
00:35:42,660 --> 00:35:39,850  
definitely a theme and we also hear a

761  
00:35:44,790 --> 00:35:42,670  
lot of talk about bio photons and we've

762  
00:35:46,350 --> 00:35:44,800  
heard terms like the light body when

763  
00:35:48,840 --> 00:35:46,360

we're talking about you know biological

764

00:35:50,640 --> 00:35:48,850

life but there is something curious to

765

00:35:53,100 --> 00:35:50,650

this connection between light and

766

00:35:55,320 --> 00:35:53,110

consciousness or even the Sun and our

767

00:35:56,880 --> 00:35:55,330

human bodies how do you understand this

768

00:35:59,790 --> 00:35:56,890

relationship between light and

769

00:36:03,300 --> 00:35:59,800

consciousness or the Sun and the human

770

00:36:05,850 --> 00:36:03,310

body right well like I was saying

771

00:36:10,680 --> 00:36:05,860

earlier I mean light is electromagnetic

772

00:36:14,550 --> 00:36:10,690

fields clearly the original equations

773

00:36:17,810 --> 00:36:14,560

from Maxwell define light as a result of

774

00:36:21,270 --> 00:36:17,820

this vacuum fluctuation or this ether

775

00:36:23,520 --> 00:36:21,280

oscillating that was the correct answer

776

00:36:26,550 --> 00:36:23,530

the fact that the equations were

777

00:36:29,160 --> 00:36:26,560

eventually linearized by heavy site and

778

00:36:32,190 --> 00:36:29,170

others and that the vacuum fluctuation

779

00:36:35,640 --> 00:36:32,200

or the ether was removed is not relevant

780

00:36:38,550 --> 00:36:35,650

because clearly it led us down the wrong

781

00:36:41,790 --> 00:36:38,560

road now if we re-establish our

782

00:36:44,580 --> 00:36:41,800

understanding I mean the wrong road let

783

00:36:47,250 --> 00:36:44,590

me just qualify that at least you know

784

00:36:51,090 --> 00:36:47,260

kind of a little detour what we

785

00:36:55,170 --> 00:36:51,100

understand about electromagnetic field

786

00:36:57,780 --> 00:36:55,180

is limited by this detour we took and

787

00:36:59,760 --> 00:36:57,790

now we're starting to see yes these

788

00:37:01,950 --> 00:36:59,770

fluctuations of the vacuum which are

789

00:37:05,130 --> 00:37:01,960

electromagnetic fluctuation remember the

790

00:37:08,250 --> 00:37:05,140

radio set the radio broadcasts of the

791

00:37:11,400 --> 00:37:08,260

universe is most likely the radio

792

00:37:14,640 --> 00:37:11,410

station that produces the event we call

793

00:37:17,430 --> 00:37:14,650

consciousness in which it's not produced

794

00:37:19,680 --> 00:37:17,440

by the brain but that the brain and the

795

00:37:22,530 --> 00:37:19,690

whole body in fact is like an antenna

796

00:37:25,740 --> 00:37:22,540

tune to that frequency and it's

797

00:37:27,570 --> 00:37:25,750

receiving and emitting information so

798

00:37:32,280 --> 00:37:27,580

it's not just a receiver but it's a

799

00:37:34,470 --> 00:37:32,290

transceiver and so you know light that

800

00:37:36,990 --> 00:37:34,480

we see so the visible light the

801  
00:37:41,160 --> 00:37:37,000  
electromagnetic fields emitted by the

802  
00:37:44,670 --> 00:37:41,170  
Sun is really let's just say it's like a

803  
00:37:47,100 --> 00:37:44,680  
phase or function of the vacuum

804  
00:37:51,030 --> 00:37:47,110  
fluctuation it's a it's the vacuum

805  
00:37:55,130 --> 00:37:51,040  
fluctuation at a fairly slow frequency

806  
00:37:58,110 --> 00:37:55,140  
that we see and that we experience and

807  
00:38:02,030 --> 00:37:58,120  
the those vacuum fluctuation at that

808  
00:38:04,860 --> 00:38:02,040  
frequency will start to create

809  
00:38:07,290 --> 00:38:04,870  
self-organizing system you know they

810  
00:38:11,400 --> 00:38:07,300  
just discovered this was published very

811  
00:38:15,090 --> 00:38:11,410  
recently that actually black holes which

812  
00:38:16,190 --> 00:38:15,100  
are huge electromagnetic emitters you

813  
00:38:19,170 --> 00:38:16,200

know they're the brightest

814

00:38:22,550 --> 00:38:19,180

electromagnetic places in the universe

815

00:38:24,870 --> 00:38:22,560

are the fundamental elements these

816

00:38:27,390 --> 00:38:24,880

electromagnetic fluctuations are not

817

00:38:29,610 --> 00:38:27,400

actually destructive they just

818

00:38:32,460 --> 00:38:29,620

discovered that they're the elements

819

00:38:35,069 --> 00:38:32,470

that actually would be necessary to

820

00:38:39,449 --> 00:38:35,079

produce life so

821

00:38:42,180 --> 00:38:39,459

our sun and the galactic center you know

822

00:38:45,380 --> 00:38:42,190

which is a huge black hole the stars and

823

00:38:48,809 --> 00:38:45,390

all this are really just life-giving

824

00:38:51,359 --> 00:38:48,819

systems that are life-giving because

825

00:38:54,180 --> 00:38:51,369

they create organization in the

826  
00:38:57,329 --> 00:38:54,190  
structure of space-time so and then our

827  
00:39:01,380 --> 00:38:57,339  
body are the result of this organization

828  
00:39:04,670 --> 00:39:01,390  
which is smaller vortices smaller you

829  
00:39:07,219 --> 00:39:04,680  
know lil spinners in space-time that

830  
00:39:11,160 --> 00:39:07,229  
self-organized and so we really are

831  
00:39:15,959 --> 00:39:11,170  
electromagnetic at the foundation of us

832  
00:39:17,390 --> 00:39:15,969  
and then there's electric exchange so

833  
00:39:20,160 --> 00:39:17,400  
you can think of it as different

834  
00:39:24,150 --> 00:39:20,170  
resolution like he imagined being a

835  
00:39:26,729 --> 00:39:24,160  
light body at the quantum scale of like

836  
00:39:29,130 --> 00:39:26,739  
the planck feel like way below the atom

837  
00:39:33,359 --> 00:39:29,140  
and then you know imagine like the

838  
00:39:37,620 --> 00:39:33,369

dampening of the spinners right creating

839

00:39:40,769 --> 00:39:37,630

like larger vortices of organized little

840

00:39:43,620 --> 00:39:40,779

vortices in space that we call protons

841

00:39:45,989 --> 00:39:43,630

and electrons and so now you have an

842

00:39:48,749 --> 00:39:45,999

electric charge and there's electric

843

00:39:50,939 --> 00:39:48,759

charge that's exchanging and that we see

844

00:39:53,309 --> 00:39:50,949

as chemistry and then the chemistry

845

00:39:56,400 --> 00:39:53,319

exchange of these electric charge

846

00:39:59,519 --> 00:39:56,410

produce self-organizing system that we

847

00:40:02,999 --> 00:39:59,529

call biology you see so it's like it's

848

00:40:06,749 --> 00:40:03,009

just a down stepping of the energy to

849

00:40:08,699 --> 00:40:06,759

energy levels in which we experience the

850

00:40:12,420 --> 00:40:08,709

world that like these other energy

851

00:40:16,620 --> 00:40:12,430

levels are too high in frequency and

852

00:40:18,959 --> 00:40:16,630

subtle for us to directly observe well

853

00:40:21,029 --> 00:40:18,969

said I think that makes a lot of sense

854

00:40:22,650 --> 00:40:21,039

we're just talking about scale and some

855

00:40:24,719 --> 00:40:22,660

of these same principles and the

856

00:40:26,339 --> 00:40:24,729

implications for health and wellness are

857

00:40:28,079 --> 00:40:26,349

pretty crazy when you learn about the

858

00:40:30,289 --> 00:40:28,089

electromagnetic fields and these things

859

00:40:32,519 --> 00:40:30,299

we can't see in the power of light and

860

00:40:34,799 --> 00:40:32,529

earlier when we mentioned rotating

861

00:40:38,130 --> 00:40:34,809

plasma well what is the Sun what is a

862

00:40:39,660 --> 00:40:38,140

star other than rotating plasma I mean

863

00:40:41,640 --> 00:40:39,670

that's seems to be what it is and I've

864

00:40:45,420 --> 00:40:41,650

heard your art crystals described as a

865

00:40:47,759 --> 00:40:45,430

star in a jar too but to kind of move on

866

00:40:48,110 --> 00:40:47,769

to other celestial bodies let me ask you

867

00:40:50,270 --> 00:40:48,120

about

868

00:40:53,300 --> 00:40:50,280

planets I think our conventional model

869

00:40:55,310 --> 00:40:53,310

is pretty off on this - they say planets

870

00:40:57,740 --> 00:40:55,320

get more and more dense towards the core

871

00:41:00,440 --> 00:40:57,750

but there are theories out there that

872

00:41:02,150 --> 00:41:00,450

planets are actually hollow or have

873

00:41:05,180 --> 00:41:02,160

hollow cavities in the middle

874

00:41:07,490 --> 00:41:05,190

some even say an inner Sun or something

875

00:41:09,950 --> 00:41:07,500

in the middle what are your thoughts on

876

00:41:13,430 --> 00:41:09,960

this and how planets really are

877

00:41:16,910 --> 00:41:13,440

comprised right well it comes back to

878

00:41:20,720 --> 00:41:16,920

stars as well you know and and galaxies

879

00:41:23,960 --> 00:41:20,730

and universes then Adam I mean because I

880

00:41:26,870 --> 00:41:23,970

found from the physics I wrote but I as

881

00:41:28,670 --> 00:41:26,880

well now from you know what I've learned

882

00:41:31,190 --> 00:41:28,680

in the universe is that there's one

883

00:41:34,240 --> 00:41:31,200

model there's not like 20 million

884

00:41:37,220 --> 00:41:34,250

different things the universe does will

885

00:41:40,100 --> 00:41:37,230

self-organizes in very specific ways and

886

00:41:43,310 --> 00:41:40,110

you know it's not just a free fall out

887

00:41:48,140 --> 00:41:43,320

there and so let me just say right off

888

00:41:50,390 --> 00:41:48,150

the bat that a planet or star that would

889

00:41:53,720 --> 00:41:50,400

not be Hollow that would be getting

890

00:41:57,170 --> 00:41:53,730

denser towards the middle and full would

891

00:42:02,180 --> 00:41:57,180

be completely completely inconsistent

892

00:42:07,010 --> 00:42:02,190

with what we observe meaning that we see

893

00:42:10,850 --> 00:42:07,020

stars and planet oscillating at very

894

00:42:14,780 --> 00:42:10,860

high rate and creating you know like

895

00:42:17,210 --> 00:42:14,790

ringing ringing in space like Francis we

896

00:42:19,460 --> 00:42:17,220

recorded the ringing of all the planets

897

00:42:23,270 --> 00:42:19,470

in our solar system and the Sun we can

898

00:42:26,840 --> 00:42:23,280

the literally can be recorded in their

899

00:42:30,020 --> 00:42:26,850

ringing and this would be equivalent of

900

00:42:33,980 --> 00:42:30,030

thinking that you can make a bell that's

901  
00:42:36,890 --> 00:42:33,990  
completely full ring right tapping on a

902  
00:42:38,930 --> 00:42:36,900  
rock or a boulder right it's not gonna

903  
00:42:42,500 --> 00:42:38,940  
ring very well I mean it would not

904  
00:42:45,320 --> 00:42:42,510  
sustain ringing right it would tear

905  
00:42:48,670 --> 00:42:45,330  
itself out if you tried to ring it to

906  
00:42:51,830 --> 00:42:48,680  
heart you should know but a hollow

907  
00:42:55,070 --> 00:42:51,840  
structure like a bell will ring very

908  
00:42:58,240 --> 00:42:55,080  
well and we see these stars and planets

909  
00:43:00,820 --> 00:42:58,250  
ringing very very well our moon is

910  
00:43:02,470 --> 00:43:00,830  
a really good example it's like it rings

911  
00:43:04,930 --> 00:43:02,480  
like there's no tomorrow

912  
00:43:07,390 --> 00:43:04,940  
when we land on the moon and you know a

913  
00:43:10,030 --> 00:43:07,400

lander on the moon is a very teeny thing

914

00:43:11,950 --> 00:43:10,040

compared to the moon when we land on the

915

00:43:14,880 --> 00:43:11,960

moon just the fact that we land

916

00:43:16,720 --> 00:43:14,890

something on the moon makes the moon

917

00:43:19,390 --> 00:43:16,730

alter it's ringing

918

00:43:22,420 --> 00:43:19,400

a little bit for like days if not weeks

919

00:43:25,450 --> 00:43:22,430

and so you know I mean it you can

920

00:43:27,580 --> 00:43:25,460

imagine it's very sensitive and so you

921

00:43:31,120 --> 00:43:27,590

know that is much more consistent with a

922

00:43:34,210 --> 00:43:31,130

hollow system now now I'm making these

923

00:43:37,240 --> 00:43:34,220

claims not only because of the ringing

924

00:43:39,310 --> 00:43:37,250

that's just one part of the evidence the

925

00:43:42,370 --> 00:43:39,320

other part is the physics I wrote

926  
00:43:45,160 --> 00:43:42,380  
clearly demonstrate that that the center

927  
00:43:47,260 --> 00:43:45,170  
of all system is singularity so that

928  
00:43:49,720 --> 00:43:47,270  
might be coming to a shock to people

929  
00:43:51,790 --> 00:43:49,730  
there is a singularity at the center of

930  
00:43:53,590 --> 00:43:51,800  
the earth there is a singularity at the

931  
00:43:56,380 --> 00:43:53,600  
center of the Sun there is a singularity

932  
00:43:58,930 --> 00:43:56,390  
at the center of galaxies and as I

933  
00:44:00,820 --> 00:43:58,940  
proven in my math there is a singularity

934  
00:44:03,700 --> 00:44:00,830  
at the center of the atoms we call

935  
00:44:06,460 --> 00:44:03,710  
proton so a singularity or a black hole

936  
00:44:09,760 --> 00:44:06,470  
would you know for the earth is very

937  
00:44:13,960 --> 00:44:09,770  
small the size of a walnut would be like

938  
00:44:16,450 --> 00:44:13,970

a little point of light if you were to

939

00:44:19,960 --> 00:44:16,460

look at it from the outside in the

940

00:44:22,870 --> 00:44:19,970

hollow structure of our planet inside

941

00:44:25,900 --> 00:44:22,880

that region matter would have collapsed

942

00:44:28,900 --> 00:44:25,910

into that singularity so the matter

943

00:44:31,300 --> 00:44:28,910

would be absorbed the matter that's far

944

00:44:33,520 --> 00:44:31,310

enough would stay in orbit because of

945

00:44:36,820 --> 00:44:33,530

angular momentum you have a balance at

946

00:44:40,660 --> 00:44:36,830

one point you had a balance between you

947

00:44:43,510 --> 00:44:40,670

know the centrifugal forces of rotation

948

00:44:45,610 --> 00:44:43,520

and the centripetal force of the

949

00:44:49,510 --> 00:44:45,620

gravitational effect of the singularity

950

00:44:52,900 --> 00:44:49,520

and so you would get across and that

951  
00:44:55,870 --> 00:44:52,910  
crust would start to build various

952  
00:45:00,370 --> 00:44:55,880  
levels of density which is called the

953  
00:45:05,640 --> 00:45:00,380  
carbon cycle and stars and it would go

954  
00:45:09,700 --> 00:45:05,650  
through various level of heat or thermal

955  
00:45:12,040 --> 00:45:09,710  
effects it would produce high level of

956  
00:45:14,700 --> 00:45:12,050  
friction and heat

957  
00:45:18,220 --> 00:45:14,710  
and electromagnetic and magnetic

958  
00:45:19,630 --> 00:45:18,230  
components and so if you measure the

959  
00:45:23,830 --> 00:45:19,640  
magnetic field of the earth on the

960  
00:45:26,400 --> 00:45:23,840  
surface it's almost point seven gals you

961  
00:45:29,920 --> 00:45:26,410  
know it's pretty strong it's non-trivial

962  
00:45:32,620 --> 00:45:29,930  
hmm and you know you put a little bit of

963  
00:45:34,690 --> 00:45:32,630

iron on the needle and it will point to

964

00:45:36,400 --> 00:45:34,700

the North Pole and it doesn't matter how

965

00:45:38,650 --> 00:45:36,410

far you are from the North Pole

966

00:45:42,850 --> 00:45:38,660

right so it's a pretty strong magnetic

967

00:45:45,460 --> 00:45:42,860

field well if you calculate how strong

968

00:45:48,400 --> 00:45:45,470

the magnetic field at yet the core the

969

00:45:50,470 --> 00:45:48,410

earth would have to be to produce such a

970

00:45:53,440 --> 00:45:50,480

magnetic field on the surface

971

00:45:56,860 --> 00:45:53,450

since magnetic fields drop at the square

972

00:45:59,770 --> 00:45:56,870

of the distance and actually in high

973

00:46:01,870 --> 00:45:59,780

magnetic field it's exponential but even

974

00:46:03,880 --> 00:46:01,880

if you do a conservative calculation

975

00:46:05,440 --> 00:46:03,890

just at the square the distance that the

976

00:46:07,870 --> 00:46:05,450

magnetic field in the centre of the

977

00:46:10,960 --> 00:46:07,880

earth would have to be huge and it'd be

978

00:46:13,180 --> 00:46:10,970

you know similar to what it would be for

979

00:46:15,400 --> 00:46:13,190

black holes so so yes

980

00:46:18,250 --> 00:46:15,410

I'm a proponent that the earth is hollow

981

00:46:21,400 --> 00:46:18,260

and that actually all planets are and

982

00:46:25,240 --> 00:46:21,410

stars as well and they are centered by

983

00:46:28,420 --> 00:46:25,250

singularity and as well that continental

984

00:46:30,790 --> 00:46:28,430

drift is not the result of all the

985

00:46:32,830 --> 00:46:30,800

continent being together in some side of

986

00:46:36,520 --> 00:46:32,840

the earth at one point but is the result

987

00:46:39,310 --> 00:46:36,530

of the earth growing and so expanding

988

00:46:41,770 --> 00:46:39,320

her theory I thought I had discovered it

989

00:46:43,570 --> 00:46:41,780

by myself when I was doing my math and

990

00:46:46,150 --> 00:46:43,580

physics 20 years ago and then I

991

00:46:48,790 --> 00:46:46,160

discovered that another physicist in the

992

00:46:52,120 --> 00:46:48,800

60s had come to the same conclusion the

993

00:46:54,160 --> 00:46:52,130

earth is not stable in terms of its size

994

00:46:57,700 --> 00:46:54,170

but it has been growing through

995

00:47:01,300 --> 00:46:57,710

millennia and you know when you shrink

996

00:47:04,960 --> 00:47:01,310

the earth 60% the continents come

997

00:47:08,040 --> 00:47:04,970

together very very cleanly much more

998

00:47:11,200 --> 00:47:08,050

cleanly than the current prevalent

999

00:47:13,540 --> 00:47:11,210

continental drift theory and tectonic

1000

00:47:15,970 --> 00:47:13,550

plates theory where they need to do a

1001

00:47:18,430 --> 00:47:15,980

lot of deformation of the of the

1002

00:47:20,500 --> 00:47:18,440

continents to make them fit together and

1003

00:47:23,530 --> 00:47:20,510

people can see down YouTube as well they

1004

00:47:24,880 --> 00:47:23,540

can go and you tube and put expanding

1005

00:47:27,849 --> 00:47:24,890

Earth theory

1006

00:47:29,519 --> 00:47:27,859

they will see videos animation of this

1007

00:47:34,329 --> 00:47:29,529

theory and I think it's much more

1008

00:47:37,479 --> 00:47:34,339

correct and much more aligned with the

1009

00:47:40,749 --> 00:47:37,489

concepts that a spinning sphere would

1010

00:47:44,589 --> 00:47:40,759

not troll all of its massed one side but

1011

00:47:46,870 --> 00:47:44,599

would expand and amass the continent

1012

00:47:49,779 --> 00:47:46,880

mass would move away from each other as

1013

00:47:52,930 --> 00:47:49,789

it expands yes yes well said I think

1014

00:47:55,630 --> 00:47:52,940

those are really great logical arguments

1015

00:47:57,009 --> 00:47:55,640

for why you would think this way I think

1016

00:47:59,410 --> 00:47:57,019

the earth grows as well I mean

1017

00:48:01,839 --> 00:47:59,420

everything we see grows trees grow

1018

00:48:03,729 --> 00:48:01,849

people grow animals grow why would we

1019

00:48:06,430 --> 00:48:03,739

think the earth doesn't in fact we do

1020

00:48:08,349 --> 00:48:06,440

think the earth formed and then I guess

1021

00:48:10,239 --> 00:48:08,359

the conventional model just thinks it's

1022

00:48:12,190 --> 00:48:10,249

stopped it forms to a point and then

1023

00:48:14,579 --> 00:48:12,200

just stops right and that doesn't make

1024

00:48:17,589 --> 00:48:14,589

sense I do think it would be continuous

1025

00:48:19,680 --> 00:48:17,599

change like everything else and you

1026

00:48:21,819 --> 00:48:19,690

mentioned the rotational angular

1027

00:48:23,979 --> 00:48:21,829

momentum it's kind of like that ride at

1028

00:48:25,960 --> 00:48:23,989

the carnival that spins so fast it holds

1029

00:48:27,579 --> 00:48:25,970

you up against the wall and away from

1030

00:48:30,220 --> 00:48:27,589

the middle if you're under the influence

1031

00:48:31,479 --> 00:48:30,230

of that force if there was something in

1032

00:48:35,109 --> 00:48:31,489

the middle that was dangerous you'd be

1033

00:48:37,630 --> 00:48:35,119

held off by that rotation right and you

1034

00:48:39,690 --> 00:48:37,640

mentioned a singularity in the middle I

1035

00:48:43,779 --> 00:48:39,700

guess I would be curious is that

1036

00:48:45,609 --> 00:48:43,789

singularity really dangerous to be

1037

00:48:48,160 --> 00:48:45,619

around is it possible the in the

1038

00:48:49,420 --> 00:48:48,170

interior could be habitable or would it

1039

00:48:52,390 --> 00:48:49,430

be way too intense

1040

00:48:56,079 --> 00:48:52,400

well it depends if the cavities far

1041

00:48:59,410 --> 00:48:56,089

enough from the singularity it would be

1042

00:49:02,440 --> 00:48:59,420

like our Sun just like the center of our

1043

00:49:05,079 --> 00:49:02,450

galaxy right like you know the center of

1044

00:49:08,559 --> 00:49:05,089

the galaxies is a supermassive black

1045

00:49:11,049 --> 00:49:08,569

hole but it's not dangerous to us

1046

00:49:14,019 --> 00:49:11,059

because we're far enough in orbit that

1047

00:49:17,200 --> 00:49:14,029

you know it's actually life-giving this

1048

00:49:19,630 --> 00:49:17,210

is the error that has been made and this

1049

00:49:22,059 --> 00:49:19,640

is starting to be rectified even by the

1050

00:49:24,670 --> 00:49:22,069

mainstream the error that has been made

1051

00:49:26,739 --> 00:49:24,680

that that has depicted black holes as

1052

00:49:28,989 --> 00:49:26,749

these giants that just eat everything

1053

00:49:31,269 --> 00:49:28,999

around them and just destroys everything

1054

00:49:33,789 --> 00:49:31,279

all they're starting to discover now

1055

00:49:36,339 --> 00:49:33,799

actually black holes may be the

1056

00:49:38,440 --> 00:49:36,349

life-giving force of the universe and

1057

00:49:41,290 --> 00:49:38,450

that they are

1058

00:49:44,410 --> 00:49:41,300

you know the center of energy that

1059

00:49:46,060 --> 00:49:44,420

produces all of our systems and you know

1060

00:49:49,300 --> 00:49:46,070

of course I've been saying this for a

1061

00:49:51,880 --> 00:49:49,310

long time as a resolved 25 years ago I

1062

00:49:54,040 --> 00:49:51,890

was in physics conference trying to

1063

00:49:55,720 --> 00:49:54,050

explain to people that like there would

1064

00:49:57,660 --> 00:49:55,730

be a black hole at the center of every

1065

00:50:00,400 --> 00:49:57,670

galaxy which at the time was like

1066

00:50:02,050 --> 00:50:00,410

preposterous and I got in a lot of

1067

00:50:04,810 --> 00:50:02,060

trouble for saying that and then

1068

00:50:06,490 --> 00:50:04,820

eventually they found black holes at the

1069

00:50:09,550 --> 00:50:06,500

center of every galaxy they've ever

1070

00:50:12,700 --> 00:50:09,560

observed and so you know of course it's

1071

00:50:14,950 --> 00:50:12,710

harder for them to swallow the rest that

1072

00:50:16,810 --> 00:50:14,960

I was telling them that atoms are mini

1073

00:50:19,540 --> 00:50:16,820

black hole that stars are many black

1074

00:50:21,819 --> 00:50:19,550

holes and are black holes as well and so

1075

00:50:24,280 --> 00:50:21,829

on but they're getting there they still

1076  
00:50:26,950 --> 00:50:24,290  
haven't agreed to that there they'll get

1077  
00:50:29,079 --> 00:50:26,960  
there the atoms it's becoming more

1078  
00:50:31,240 --> 00:50:29,089  
popular there's more and more very

1079  
00:50:34,089 --> 00:50:31,250  
high-level physicists that are starting

1080  
00:50:36,640 --> 00:50:34,099  
to realize that particles at the atomic

1081  
00:50:40,000 --> 00:50:36,650  
level are acting very much like black

1082  
00:50:43,390 --> 00:50:40,010  
holes and so it's coming along

1083  
00:50:45,400 --> 00:50:43,400  
but basically you know a black hole is a

1084  
00:50:48,099 --> 00:50:45,410  
vortex in the structure of space-time

1085  
00:50:50,500 --> 00:50:48,109  
and that vortex produces angular

1086  
00:50:52,329 --> 00:50:50,510  
momentum and so when there's angular

1087  
00:50:54,849 --> 00:50:52,339  
momentum you don't just have a

1088  
00:50:57,370 --> 00:50:54,859

gravitational force sucking towards the

1089

00:50:59,530 --> 00:50:57,380

middle you have a centrifugal force

1090

00:51:02,710 --> 00:50:59,540

pulling away from the middle and the

1091

00:51:05,829 --> 00:51:02,720

tube balanced out and creates boundary

1092

00:51:07,480 --> 00:51:05,839

conditions and stable orbits and that's

1093

00:51:10,059 --> 00:51:07,490

exactly what we see in the universe

1094

00:51:12,579 --> 00:51:10,069

whether at the quantum level or at the

1095

00:51:14,530 --> 00:51:12,589

universal level so interesting yes

1096

00:51:17,800 --> 00:51:14,540

singularity is at the center of every

1097

00:51:19,569 --> 00:51:17,810

galaxy every atom and every planet and

1098

00:51:22,960 --> 00:51:19,579

everything it just seems like the same

1099

00:51:24,190 --> 00:51:22,970

stuff with a different scale and let's

1100

00:51:26,190 --> 00:51:24,200

get weird I mean I was just thinking

1101  
00:51:29,050 --> 00:51:26,200  
about this but we're talking about

1102  
00:51:30,520 --> 00:51:29,060  
singularities and their potential for I

1103  
00:51:32,680 --> 00:51:30,530  
mean they're entangled so they have this

1104  
00:51:35,800 --> 00:51:32,690  
potential for travel might we get

1105  
00:51:37,540 --> 00:51:35,810  
farther by going inside the earth as

1106  
00:51:40,990 --> 00:51:37,550  
opposed to out into the universe if we

1107  
00:51:43,390 --> 00:51:41,000  
can access that singularity well that's

1108  
00:51:45,609 --> 00:51:43,400  
a really good question let me go a

1109  
00:51:48,339 --> 00:51:45,619  
little further down the rabbit hole into

1110  
00:51:50,530 --> 00:51:48,349  
these equations when I wrote these

1111  
00:51:52,690 --> 00:51:50,540  
equations something really weird

1112  
00:51:55,839 --> 00:51:52,700  
happened I was writing a quite

1113  
00:51:58,060 --> 00:51:55,849

for the exchange of information inside

1114

00:52:01,089 --> 00:51:58,070

the proton the volume of the proton

1115

00:52:03,819 --> 00:52:01,099

relative to the outside and they give me

1116

00:52:06,780 --> 00:52:03,829

the right answer but part of the answer

1117

00:52:10,300 --> 00:52:06,790

that it gave me was that the information

1118

00:52:12,819 --> 00:52:10,310

inside the proton is the exactly

1119

00:52:17,859 --> 00:52:12,829

equivalent to the critical mass of the

1120

00:52:20,950 --> 00:52:17,869

universe hmm so that man that all the

1121

00:52:24,880 --> 00:52:20,960

other protons information is present in

1122

00:52:29,079 --> 00:52:24,890

one proton so it's holographic which had

1123

00:52:31,420 --> 00:52:29,089

predicted but it was kind of stunning to

1124

00:52:34,120 --> 00:52:31,430

see it just appear you know like that

1125

00:52:36,190 --> 00:52:34,130

because it wasn't just approximately the

1126

00:52:38,470 --> 00:52:36,200

right answer it was exactly the right

1127

00:52:40,660 --> 00:52:38,480

answer for the critical mass of the

1128

00:52:43,780 --> 00:52:40,670

universe which I finally just published

1129

00:52:45,940 --> 00:52:43,790

now and so it was kind of stunning and

1130

00:52:49,660 --> 00:52:45,950

so I started to think about it well you

1131

00:52:51,849 --> 00:52:49,670

know if atoms are many black holes these

1132

00:52:55,930 --> 00:52:51,859

many black holes may be connected by

1133

00:52:58,089 --> 00:52:55,940

wormholes and wormholes are predicted by

1134

00:53:01,390 --> 00:52:58,099

Einstein field equations but usually at

1135

00:53:03,130 --> 00:53:01,400

the cosmological scale right with them

1136

00:53:06,609 --> 00:53:03,140

when we think of wormholes we think of

1137

00:53:08,050 --> 00:53:06,619

these huge like vortices and space that

1138

00:53:10,030 --> 00:53:08,060

could bring us from one side the

1139

00:53:12,309 --> 00:53:10,040

university the other instantaneously and

1140

00:53:14,980 --> 00:53:12,319

all this stuff it's predicted by

1141

00:53:18,400 --> 00:53:14,990

Einstein field equation but it's not

1142

00:53:21,069 --> 00:53:18,410

being applied to the quantum scale until

1143

00:53:23,349 --> 00:53:21,079

recently um you know the last few years

1144

00:53:26,920 --> 00:53:23,359

now this you know in a very famous

1145

00:53:29,530 --> 00:53:26,930

physicist such skin that you know with

1146

00:53:32,290 --> 00:53:29,540

went to Sarah you know and others shown

1147

00:53:34,540 --> 00:53:32,300

that like maybe there's these micro

1148

00:53:37,180 --> 00:53:34,550

wormholes occurring at the Planck scale

1149

00:53:39,520 --> 00:53:37,190

that are riddling all the structure of

1150

00:53:41,849 --> 00:53:39,530

space that space you know that that the

1151  
00:53:44,620 --> 00:53:41,859  
vacuum fluctuation is not just

1152  
00:53:47,109 --> 00:53:44,630  
fluctuating randomly but actually it's

1153  
00:53:50,400 --> 00:53:47,119  
creating these micro wormholes that

1154  
00:53:54,599 --> 00:53:50,410  
connects everything and so my equation

1155  
00:53:56,950 --> 00:53:54,609  
definitely showed that and I was really

1156  
00:53:59,920 --> 00:53:56,960  
intrigued because then that means that

1157  
00:54:02,950 --> 00:53:59,930  
all the protons are connected like it's

1158  
00:54:05,349 --> 00:54:02,960  
all one big network right

1159  
00:54:10,060 --> 00:54:05,359  
and so then I thought wow if we can

1160  
00:54:13,210 --> 00:54:10,070  
enter the network then we could go so

1161  
00:54:15,460 --> 00:54:13,220  
think of the black hole's singularity at

1162  
00:54:18,790 --> 00:54:15,470  
all the scales being the hubs of the

1163  
00:54:23,800 --> 00:54:18,800

network like the server's of the network

1164

00:54:27,190 --> 00:54:23,810

of computers and the wormholes being the

1165

00:54:31,120 --> 00:54:27,200

cables that connects all the server's

1166

00:54:35,290 --> 00:54:31,130

hmm and so I started to think wait if we

1167

00:54:37,500 --> 00:54:35,300

get inside one of those puppies we could

1168

00:54:41,140 --> 00:54:37,510

go anywhere in the universe

1169

00:54:43,660 --> 00:54:41,150

instantaneously you know I came up with

1170

00:54:45,250 --> 00:54:43,670

these ideas before I could prove them

1171

00:54:48,700 --> 00:54:45,260

mathematically I came up with these

1172

00:54:51,820 --> 00:54:48,710

ideas 25 years ago and so I start to

1173

00:54:54,099 --> 00:54:51,830

observe the Sun I started to like figure

1174

00:54:56,349 --> 00:54:54,109

out you know is there stuff coming in

1175

00:54:59,050 --> 00:54:56,359

and out of the Sun that's not explained

1176

00:55:00,910 --> 00:54:59,060

easily you know I mean is there stuff

1177

00:55:04,180 --> 00:55:00,920

coming in and out of the center of our

1178

00:55:07,030 --> 00:55:04,190

world of our planet you know that cannot

1179

00:55:09,670 --> 00:55:07,040

be explained easily some say there is

1180

00:55:11,950 --> 00:55:09,680

some say there is there's been talk

1181

00:55:14,500 --> 00:55:11,960

about that stuff things going in and out

1182

00:55:16,780 --> 00:55:14,510

of volcanoes for instance you know which

1183

00:55:20,230 --> 00:55:16,790

would be a vortex to the center of the

1184

00:55:22,990 --> 00:55:20,240

singularity you know I mean you know

1185

00:55:26,859 --> 00:55:23,000

it's a good question you ask I can't

1186

00:55:30,640 --> 00:55:26,869

answer with certitude but I would answer

1187

00:55:33,420 --> 00:55:30,650

with some background to be able to get

1188

00:55:38,470 --> 00:55:33,430

the answer and certainly some

1189

00:55:41,920 --> 00:55:38,480

theoretical sport yes if I was to try to

1190

00:55:45,010 --> 00:55:41,930

go across the universe using the

1191

00:55:47,680 --> 00:55:45,020

universal wormhole black hole network I

1192

00:55:49,390 --> 00:55:47,690

would attempt to enter the singularity

1193

00:55:51,190 --> 00:55:49,400

at the center of our planet which would

1194

00:55:52,870 --> 00:55:51,200

lead to the singularity at the center of

1195

00:55:54,400 --> 00:55:52,880

our Sun which would lead to the

1196

00:55:57,700 --> 00:55:54,410

singularity at the center of our galaxy

1197

00:55:59,620 --> 00:55:57,710

and then you know if I wanted to go to

1198

00:56:03,130 --> 00:55:59,630

another star inside our galaxy that I

1199

00:56:06,400 --> 00:56:03,140

would dial in the frequency of that star

1200

00:56:08,800 --> 00:56:06,410

to lead to the center of that star and

1201  
00:56:11,950 --> 00:56:08,810  
then I would come out of the center of

1202  
00:56:14,140 --> 00:56:11,960  
that star into that solar system I love

1203  
00:56:16,210 --> 00:56:14,150  
it I love it it really seems like the

1204  
00:56:18,400 --> 00:56:16,220  
movie Stargate is a decent

1205  
00:56:20,440 --> 00:56:18,410  
Najee except that the portals are in the

1206  
00:56:22,030 --> 00:56:20,450  
center of the planet not these things on

1207  
00:56:24,339 --> 00:56:22,040  
the surface but they still need to be

1208  
00:56:27,040 --> 00:56:24,349  
dialed in and then you can travel

1209  
00:56:29,950 --> 00:56:27,050  
through them right so you have to create

1210  
00:56:32,940 --> 00:56:29,960  
your own singularity get linked into the

1211  
00:56:36,640 --> 00:56:32,950  
network and then go through the scales

1212  
00:56:38,589 --> 00:56:36,650  
well said well said and it does seem

1213  
00:56:40,599 --> 00:56:38,599

like the best way for your theories to

1214

00:56:42,630 --> 00:56:40,609

be more widely accepted and to beat back

1215

00:56:45,180 --> 00:56:42,640

the resistance is through creating

1216

00:56:47,710 --> 00:56:45,190

technologies like the art crystal

1217

00:56:50,109 --> 00:56:47,720

technologies that clearly seem to work

1218

00:56:52,450 --> 00:56:50,119

and validate the ideas because they'd be

1219

00:56:54,010 --> 00:56:52,460

undeniable if these things worked are

1220

00:56:56,859 --> 00:56:54,020

there any other things that you're

1221

00:56:59,910 --> 00:56:56,869

working on in the technology space that

1222

00:57:02,470 --> 00:56:59,920

might help to push this further of

1223

00:57:04,690 --> 00:57:02,480

course I mean there's the technology and

1224

00:57:06,970 --> 00:57:04,700

is the theory the papers I publish in

1225

00:57:08,710 --> 00:57:06,980

theoretical physics are very important

1226

00:57:11,020 --> 00:57:08,720

as well because they informed a

1227

00:57:13,150 --> 00:57:11,030

theoretical community of these

1228

00:57:15,250 --> 00:57:13,160

advancements in physics there's

1229

00:57:17,490 --> 00:57:15,260

resistance but more and more physicists

1230

00:57:20,770 --> 00:57:17,500

are very excited about what I'm writing

1231

00:57:23,609 --> 00:57:20,780

all around the world in many

1232

00:57:26,140 --> 00:57:23,619

universities I'm fairly well known and

1233

00:57:28,720 --> 00:57:26,150

those ideas are becoming more and more

1234

00:57:31,000 --> 00:57:28,730

accepted that doesn't mean they can come

1235

00:57:33,370 --> 00:57:31,010

publicly and talk about it because the

1236

00:57:36,160 --> 00:57:33,380

institutions they're in are not so

1237

00:57:38,020 --> 00:57:36,170

excited about that we literally get

1238

00:57:40,210 --> 00:57:38,030

people from all around the world that

1239

00:57:43,720 --> 00:57:40,220

when they participate we have a small

1240

00:57:47,339 --> 00:57:43,730

team of physicists PhD physicists and

1241

00:57:51,609 --> 00:57:47,349

ISO physicists and astronomers and and

1242

00:57:54,160 --> 00:57:51,619

biologists biophysicist that work out we

1243

00:57:56,920 --> 00:57:54,170

all work together but as well in

1244

00:57:58,420 --> 00:57:56,930

laboratory and of course working on many

1245

00:58:02,859 --> 00:57:58,430

other technologies than they are

1246

00:58:06,540 --> 00:58:02,869

crystals and eventually to reach you

1247

00:58:09,339 --> 00:58:06,550

know gravitational control and there's

1248

00:58:12,550 --> 00:58:09,349

lots of these things that are gonna come

1249

00:58:15,640 --> 00:58:12,560

in the next few years in the future that

1250

00:58:17,859 --> 00:58:15,650

are gonna support clearly support that

1251

00:58:20,050 --> 00:58:17,869

the theory is correct but the theory

1252

00:58:23,430 --> 00:58:20,060

stands on its own

1253

00:58:26,260 --> 00:58:23,440

of course all good theories have to be

1254

00:58:29,680 --> 00:58:26,270

sustained and supported by experimental

1255

00:58:32,440 --> 00:58:29,690

studies both observation

1256

00:58:35,260 --> 00:58:32,450

mental studies and technological

1257

00:58:40,090 --> 00:58:35,270

development so that's all there there's

1258

00:58:42,040 --> 00:58:40,100

a lot of observational studies that have

1259

00:58:44,890 --> 00:58:42,050

supported my theory throughout the years

1260

00:58:47,830 --> 00:58:44,900

I've made many many predictions that

1261

00:58:50,610 --> 00:58:47,840

came through the proton one is the most

1262

00:58:53,710 --> 00:58:50,620

known one because it was well documented

1263

00:58:55,720 --> 00:58:53,720

but this as well technological

1264

00:58:58,180 --> 00:58:55,730

developments that supports my theory

1265

00:59:01,810 --> 00:58:58,190

they're not so well known because

1266

00:59:05,430 --> 00:59:01,820

they're still in the confines of dark

1267

00:59:09,220 --> 00:59:05,440

alleys of you know in the back of

1268

00:59:11,230 --> 00:59:09,230

laboratories and and garage inventors

1269

00:59:13,720 --> 00:59:11,240

around the world but it's coming along

1270

00:59:17,920 --> 00:59:13,730

and it's gonna emerge in the next few

1271

00:59:19,900 --> 00:59:17,930

years I'm no doubt Wow well I am excited

1272

00:59:22,060 --> 00:59:19,910

for that and I'm so glad I got to run

1273

00:59:25,330 --> 00:59:22,070

through all my weirdo questions for ya

1274

00:59:26,980 --> 00:59:25,340

and big thanks to everyone who helped

1275

00:59:28,270 --> 00:59:26,990

make this possible and get us connected

1276

00:59:31,570 --> 00:59:28,280

you're a lot of fun you have a lot of

1277

00:59:33,520 --> 00:59:31,580

really great exciting ideas and before

1278

00:59:35,800 --> 00:59:33,530

we go what would you want to tell people

1279

00:59:37,510 --> 00:59:35,810

about following up here or learning more

1280

00:59:40,660 --> 00:59:37,520

about the things you're doing with the

1281

00:59:42,340 --> 00:59:40,670

resonance science foundation yeah so if

1282

00:59:45,010 --> 00:59:42,350

people go to the residence Science

1283

00:59:49,740 --> 00:59:45,020

Foundation you know resonance science

1284

00:59:52,450 --> 00:59:49,750

org then they can connect with our

1285

00:59:56,020 --> 00:59:52,460

community for instance all of our

1286

01:00:00,310 --> 00:59:56,030

research groups and then as well

1287

01:00:02,800 --> 01:00:00,320

get involved in to delegate program

1288

01:00:04,720 --> 01:00:02,810

which is a program where you know all

1289

01:00:07,900 --> 01:00:04,730

the science I'm talking about has been

1290

01:00:11,830 --> 01:00:07,910

written and you can learn about it and

1291

01:00:14,440 --> 01:00:11,840

there's like all the links you know that

1292

01:00:16,690 --> 01:00:14,450

to all of the different things that we

1293

01:00:19,990 --> 01:00:16,700

have discovered this is all gonna change

1294

01:00:22,570 --> 01:00:20,000

into an app very soon we need support we

1295

01:00:25,030 --> 01:00:22,580

need financial support to be able to do

1296

01:00:27,940 --> 01:00:25,040

that we're working on it and then it's

1297

01:00:29,470 --> 01:00:27,950

really great because thousands of people

1298

01:00:33,580 --> 01:00:29,480

from all around the world are

1299

01:00:35,380 --> 01:00:33,590

participating over 80 countries and so

1300

01:00:39,040 --> 01:00:35,390

you get to connect with the community of

1301  
01:00:41,830 --> 01:00:39,050  
all like-minded individuals every month

1302  
01:00:43,540 --> 01:00:41,840  
for two hours I answer questions for all

1303  
01:00:46,150 --> 01:00:43,550  
the people taking the

1304  
01:00:50,110 --> 01:00:46,160  
and we have a lot of fun we discovered

1305  
01:00:52,390 --> 01:00:50,120  
together and being involved is what -

1306  
01:00:55,270 --> 01:00:52,400  
like help this transformation happen is

1307  
01:00:57,640 --> 01:00:55,280  
so critical every single person that

1308  
01:00:59,860 --> 01:00:57,650  
gets involved make a difference as well

1309  
01:01:02,710 --> 01:00:59,870  
it helps us financially to be able to

1310  
01:01:07,090 --> 01:01:02,720  
finance this research which is extremely

1311  
01:01:09,730 --> 01:01:07,100  
expensive you know it's not easy so it

1312  
01:01:12,340 --> 01:01:09,740  
really helps us and so you get to

1313  
01:01:14,890 --> 01:01:12,350

participate in in this transformation

1314

01:01:15,640 --> 01:01:14,900

for for planet Earth and for generations

1315

01:01:17,860 --> 01:01:15,650

to come

1316

01:01:20,200 --> 01:01:17,870

awesome very cool well I hope this

1317

01:01:22,270 --> 01:01:20,210

interview is letting the fire for a few

1318

01:01:22,780 --> 01:01:22,280

people it's definitely been an honor and

1319

01:01:24,940 --> 01:01:22,790

a pleasure

1320

01:01:27,100 --> 01:01:24,950

my good man keep up the great work and

1321

01:01:28,780 --> 01:01:27,110

take care out there thank you so much

1322

01:01:30,640 --> 01:01:28,790

for having me it was great to discuss

1323

01:01:32,550 --> 01:01:30,650

this with you

1324

01:01:41,040 --> 01:01:32,560

you

1325

01:01:43,610 --> 01:01:41,050

show today definitely one I was super

1326

01:01:46,590 --> 01:01:43,620

excited to record and to put out to you

1327

01:01:48,900 --> 01:01:46,600

obviously I like to keep our subjects

1328

01:01:50,820 --> 01:01:48,910

pretty diverse around here so we do

1329

01:01:53,280 --> 01:01:50,830

something from column a and then next

1330

01:01:56,820 --> 01:01:53,290

week I like to go to column D then jump

1331

01:02:00,090 --> 01:01:56,830

over to column Y you know we tend to go

1332

01:02:03,600 --> 01:02:00,100

for that extreme diversity and this one

1333

01:02:05,280 --> 01:02:03,610

is pretty aligned with Jim Elvidge just

1334

01:02:07,790 --> 01:02:05,290

a couple shows back so we are kind of

1335

01:02:10,050 --> 01:02:07,800

double dipping but when you get an email

1336

01:02:12,450 --> 01:02:10,060

asking if you want to have him to sim on

1337

01:02:15,150 --> 01:02:12,460

you just say yes and you deal with the

1338

01:02:16,980 --> 01:02:15,160

rest I've heard a lot of his interviews

1339

01:02:19,260 --> 01:02:16,990

and it seems like we got to talk about

1340

01:02:21,710 --> 01:02:19,270

some things today that I don't know that

1341

01:02:25,410 --> 01:02:21,720

I've heard him speak about before

1342

01:02:28,460 --> 01:02:25,420

primarily hollow planets growing hollow

1343

01:02:32,100 --> 01:02:28,470

planets but hollow planets nonetheless

1344

01:02:34,890 --> 01:02:32,110

clearly that was my favorite part I am

1345

01:02:38,130 --> 01:02:34,900

always looking for more bright minds to

1346

01:02:40,560 --> 01:02:38,140

confirm my crazy stoner desires and a

1347

01:02:43,680 --> 01:02:40,570

habitable Hollow Earth is certainly one

1348

01:02:46,260 --> 01:02:43,690

of them but this episode is about so

1349

01:02:49,170 --> 01:02:46,270

much more than just that and the hollow

1350

01:02:52,770 --> 01:02:49,180

fractal paradigm is one that resonates

1351  
01:02:55,470 --> 01:02:52,780  
with me quite well the way he explains

1352  
01:02:58,230 --> 01:02:55,480  
why our mainstream physics has been

1353  
01:03:00,930 --> 01:02:58,240  
onion affined and what he did to solve

1354  
01:03:03,690 --> 01:03:00,940  
for them makes a lot of sense for me at

1355  
01:03:06,120 --> 01:03:03,700  
least his layman's explanation I haven't

1356  
01:03:08,970 --> 01:03:06,130  
checked the math but going back to

1357  
01:03:11,610 --> 01:03:08,980  
guests like Eric dollar Jumanji near

1358  
01:03:14,130 --> 01:03:11,620  
Aaron Burr akame and like I mentioned

1359  
01:03:16,830 --> 01:03:14,140  
Jim Elvidge of course there are nuances

1360  
01:03:19,110 --> 01:03:16,840  
and small differences among these guys

1361  
01:03:21,450 --> 01:03:19,120  
but add it all up and I think we're

1362  
01:03:24,320 --> 01:03:21,460  
circling around a much better model for

1363  
01:03:27,500 --> 01:03:24,330

reality than anything else I know

1364

01:03:29,600 --> 01:03:27,510

space is a medium every proton is an

1365

01:03:32,900 --> 01:03:29,610

entangled singularity woven into the

1366

01:03:35,810 --> 01:03:32,910

nucleus of every atom I mean even if you

1367

01:03:38,960 --> 01:03:35,820

pull up a diagram a typical diagram of

1368

01:03:41,780 --> 01:03:38,970

the parts of an atom it kind of looks

1369

01:03:44,840 --> 01:03:41,790

just like this and that's what we always

1370

01:03:47,390 --> 01:03:44,850

say about quarantined physics you can't

1371

01:03:49,280 --> 01:03:47,400

change what the atom looks like but it

1372

01:03:51,830 --> 01:03:49,290

seems like the powers that be have

1373

01:03:55,460 --> 01:03:51,840

shoehorned in explanations that make as

1374

01:03:58,370 --> 01:03:55,470

much sense as they can without revealing

1375

01:04:00,830 --> 01:03:58,380

the potentials for free energy for

1376

01:04:03,320 --> 01:04:00,840

flying saucers for all the things guys

1377

01:04:05,300 --> 01:04:03,330

like Tesla and T Townsend Brown and

1378

01:04:09,860 --> 01:04:05,310

Wilhelm Reich and viktor schauberger

1379

01:04:12,110 --> 01:04:09,870

were on the trail of so when people see

1380

01:04:14,240 --> 01:04:12,120

actual flying saucers are here about

1381

01:04:17,000 --> 01:04:14,250

folks who have made free energy devices

1382

01:04:20,090 --> 01:04:17,010

they think oh well that's clearly

1383

01:04:22,370 --> 01:04:20,100

impossible but it isn't and it requires

1384

01:04:25,070 --> 01:04:22,380

what I consider to be a relatively small

1385

01:04:28,040 --> 01:04:25,080

tweak to the way we think about the

1386

01:04:30,860 --> 01:04:28,050

models and it really opens the universe

1387

01:04:33,080 --> 01:04:30,870

up to feel like some cosmic sandbox or

1388

01:04:36,530 --> 01:04:33,090

playground where we do have this

1389

01:04:39,890 --> 01:04:36,540

limitless potential it seems like this

1390

01:04:43,240 --> 01:04:39,900

framework of scarcity is somewhat

1391

01:04:46,220 --> 01:04:43,250

artificial and just placed on us so that

1392

01:04:49,580 --> 01:04:46,230

corporations and the dynastic families

1393

01:04:52,510 --> 01:04:49,590

can stack cash I'm pissed

1394

01:04:55,640 --> 01:04:52,520

but now imagine an advanced civilization

1395

01:04:58,610 --> 01:04:55,650

who knows these things scopes out the

1396

01:05:00,470 --> 01:04:58,620

earth and sees the ass backwards way we

1397

01:05:02,840 --> 01:05:00,480

do things just so we can consolidate

1398

01:05:05,360 --> 01:05:02,850

green paper into the hands of a

1399

01:05:08,180 --> 01:05:05,370

privileged few and it's no wonder they

1400

01:05:10,670 --> 01:05:08,190

stay away for the most part but overall

1401

01:05:12,710 --> 01:05:10,680

I love it a holistic look at a holistic

1402

01:05:15,020 --> 01:05:12,720

world it only makes sense

1403

01:05:17,960 --> 01:05:15,030

in fact I've been hearing a lot of

1404

01:05:19,700 --> 01:05:17,970

Andrew yang recently and he of course is

1405

01:05:23,780 --> 01:05:19,710

the only guy in politics talking about

1406

01:05:24,710 --> 01:05:23,790

automation and how the solution is yeah

1407

01:05:27,200 --> 01:05:24,720

ubi

1408

01:05:29,480 --> 01:05:27,210

he says the universal basic income but

1409

01:05:32,330 --> 01:05:29,490

really we need to find value in

1410

01:05:34,100 --> 01:05:32,340

ourselves outside of the market because

1411

01:05:36,140 --> 01:05:34,110

the robots in the AI they're going to

1412

01:05:38,339 --> 01:05:36,150

take the market so we better start

1413

01:05:41,729 --> 01:05:38,349

assigning some value

1414

01:05:45,329 --> 01:05:41,739

on love or what it means to be human or

1415

01:05:48,390 --> 01:05:45,339

family or on why we're here and what we

1416

01:05:51,029 --> 01:05:48,400

want our lives to be the next phase of

1417

01:05:52,920 --> 01:05:51,039

the Industrial Revolution the automation

1418

01:05:56,009 --> 01:05:52,930

of everything it's not going to be

1419

01:05:57,959 --> 01:05:56,019

stopped but the damage can be limited by

1420

01:06:00,120 --> 01:05:57,969

getting out of the mindset that the only

1421

01:06:02,579 --> 01:06:00,130

thing that matters is your productivity

1422

01:06:05,759 --> 01:06:02,589

and some cubicle or on some assembly

1423

01:06:08,670 --> 01:06:05,769

line so what I say miss Eames work feels

1424

01:06:10,890 --> 01:06:08,680

like as much a philosophy as it is a

1425

01:06:14,090 --> 01:06:10,900

science this is the kind of thing

1426

01:06:16,610 --> 01:06:14,100

thinking about I'm talking about

1427

01:06:19,580 --> 01:06:16,620

and I don't just think it's a better way

1428

01:06:22,160 --> 01:06:19,590

to look at life with the corresponding

1429

01:06:25,040 --> 01:06:22,170

science and apparently math but clearly

1430

01:06:28,010 --> 01:06:25,050

that's over my head it's not just a

1431

01:06:30,560 --> 01:06:28,020

better way it's a necessary way it's a

1432

01:06:33,080 --> 01:06:30,570

much-needed change in mindset and this

1433

01:06:36,340 --> 01:06:33,090

model is like a bread crumb that leads

1434

01:06:38,960 --> 01:06:36,350

to all sorts of paradigm changing places

1435

01:06:42,380 --> 01:06:38,970

and I try to prove that today just by

1436

01:06:44,900 --> 01:06:42,390

asking so many out there things

1437

01:06:47,210 --> 01:06:44,910

and I also want to say big thanks to

1438

01:06:49,280 --> 01:06:47,220

holo fractal Joe for doing that first

1439

01:06:52,130 --> 01:06:49,290

show with me for setting the groundwork

1440

01:06:54,590 --> 01:06:52,140

up and for putting THC on the radar of

1441

01:06:57,530 --> 01:06:54,600

the resonance Academy's inner circle and

1442

01:07:01,160 --> 01:06:57,540

thus laying down the path that we walked

1443

01:07:03,470 --> 01:07:01,170

to get to today and since I mentioned

1444

01:07:05,060 --> 01:07:03,480

all the far-out stuff I brought up I

1445

01:07:06,920 --> 01:07:05,070

guess I should tell you what was in the

1446

01:07:09,710 --> 01:07:06,930

Plus show if you only happen to be

1447

01:07:12,230 --> 01:07:09,720

hearing the fre first hour but I asked

1448

01:07:14,750 --> 01:07:12,240

him about magic and ritual and the

1449

01:07:16,940 --> 01:07:14,760

mechanisms behind it and he told us how

1450

01:07:20,270 --> 01:07:16,950

he thinks it works we talked about

1451

01:07:22,280 --> 01:07:20,280

cataclysms and contact events UFO

1452

01:07:25,640 --> 01:07:22,290

disclosure and the military industrial

1453

01:07:27,530 --> 01:07:25,650

complex when lost technology becomes

1454

01:07:29,500 --> 01:07:27,540

legend the Ark of the Covenant and the

1455

01:07:33,050 --> 01:07:29,510

pyramids health and wellness

1456

01:07:35,300 --> 01:07:33,060

applications of his model of course I

1457

01:07:37,580 --> 01:07:35,310

had to ask him about the breatharian

1458

01:07:40,430 --> 01:07:37,590

stuff but we also talked about new

1459

01:07:43,970 --> 01:07:40,440

technologies in development based off

1460

01:07:46,460 --> 01:07:43,980

his work all really fun stuff and we did

1461

01:07:48,380 --> 01:07:46,470

not shy away from weird aspects of

1462

01:07:51,370 --> 01:07:48,390

reality that must be explained by any

1463

01:07:55,820 --> 01:07:51,380

model and I felt like his answers were

1464

01:07:58,670 --> 01:07:55,830

unique and intriguing of course this is

1465

01:08:00,410 --> 01:07:58,680

how I put out the first hour ad-free is

1466

01:08:03,140 --> 01:08:00,420

that we have these plus memberships

1467

01:08:05,060 --> 01:08:03,150

instead of asking for donations I say

1468

01:08:06,770 --> 01:08:05,070

hey you like the first hour enough to

1469

01:08:09,490 --> 01:08:06,780

tip me eight bucks a month I'll actually

1470

01:08:12,890 --> 01:08:09,500

give you a two hour episodes instead

1471

01:08:16,580 --> 01:08:12,900

seems like a good deal to me sign up at

1472

01:08:19,250 --> 01:08:16,590

the higher side chats comm and speaking

1473

01:08:21,770 --> 01:08:19,260

of the higher side chats comm I hope you

1474

01:08:24,230 --> 01:08:21,780

heard my previous post in the feed a

1475

01:08:27,860 --> 01:08:24,240

little audio update on what the hell's

1476

01:08:29,450 --> 01:08:27,870

been going on with THC I'm obviously not

1477

01:08:31,760 --> 01:08:29,460

going to go over all of that here but

1478

01:08:34,160 --> 01:08:31,770

suffice to say it's been a rough August

1479

01:08:37,280 --> 01:08:34,170

and a rough launch on the new website

1480

01:08:39,500 --> 01:08:37,290

but we're 90% of the way there with just

1481

01:08:42,680 --> 01:08:39,510

a little bit more to go but we have a

1482

01:08:46,190 --> 01:08:42,690

much more unified and user-friendly

1483

01:08:48,890 --> 01:08:46,200

system how appropriate for today but if

1484

01:08:52,700 --> 01:08:48,900

you want to hear the full shows hop on

1485

01:08:55,430 --> 01:08:52,710

board I got a very large catalogue of

1486

01:08:56,479 --> 01:08:55,440

hundreds of shows and I could use you

1487

01:08:59,789 --> 01:08:56,489

right now actually

1488

01:09:01,890 --> 01:08:59,799

but I'm really thankful again to Nasim

1489

01:09:05,189 --> 01:09:01,900

and those who helped to make it happen I

1490

01:09:07,950 --> 01:09:05,199

hope we can say justice was done here I

1491

01:09:10,530 --> 01:09:07,960

actually think there are many worthy

1492

01:09:13,050 --> 01:09:10,540

higher side guests on the resonance

1493

01:09:15,089 --> 01:09:13,060

Academy staff and I'm sure this won't be

1494

01:09:17,069 --> 01:09:15,099

the last time we talk about it but

1495

01:09:19,859 --> 01:09:17,079

thanks for listening you have a

1496

01:09:22,530 --> 01:09:19,869

limitless sea of options and I work hard

1497

01:09:26,339 --> 01:09:22,540

to try and make sure everything I do

1498

01:09:28,079 --> 01:09:26,349

around here is worth your time so take

1499

01:09:30,809 --> 01:09:28,089

care and I will see you soon with

1500

01:09:32,760 --> 01:09:30,819

another heavy hitter because it's crunch

1501

01:09:35,729 --> 01:09:32,770

time for me the rest of the month

1502

01:09:37,800 --> 01:09:35,739

but until then I've done my part your

1503

01:09:40,229 --> 01:09:37,810

move cultural perception managers

1504

01:09:45,079 --> 01:09:40,239

scientific warranty nurs and hidere of

1505

01:09:48,539 --> 01:09:45,089

the Hollow Earth your bucket

1506

01:09:51,090 --> 01:09:48,549

lucid dreams are so vivid cuz you go to

1507

01:09:54,120 --> 01:09:51,100

bed at 7:00 and your brain comes alive

1508

01:09:56,790 --> 01:09:54,130

cuz your h and nine to five you wake up

1509

01:09:59,250 --> 01:09:56,800

with a dread and make sure your cats are

1510

01:10:01,560 --> 01:09:59,260

fed did your brain talk to a ghost who

1511

01:10:05,310 --> 01:10:01,570

moved your coffee and your toast as you

1512

01:10:08,100 --> 01:10:05,320

listened to the higher side chats you

1513

01:10:10,920 --> 01:10:08,110

get to your desk and your boss says it's

1514

01:10:13,380 --> 01:10:10,930

a mess and your soul slowly goes to a

1515

01:10:17,510 --> 01:10:13,390

place where nothing grows when you think

1516

01:10:20,910 --> 01:10:17,520

he's not around you insert a SETI sound

1517

01:10:24,189 --> 01:10:20,920

the eom says turn it down and you say

1518

01:10:27,360 --> 01:10:24,199

it's just the higher side chats

1519

01:10:32,130 --> 01:10:27,370

oh do you think you're being invited to

1520

01:10:35,830 --> 01:10:32,140

Bohemian Grove to a Bilderberg Club a

1521

01:10:42,660 --> 01:10:35,840

little you think could be invited by

1522

01:10:45,140 --> 01:10:42,670

Rasta to a party on a submarine diving

1523

01:10:48,200 --> 01:10:45,150

to the center of the

1524

01:10:52,399 --> 01:10:48,210

to the Marianas Trench your teeth begin

1525

01:10:56,359 --> 01:10:52,409

to clench from the sulphureous stench the

1526

01:11:00,710 --> 01:10:56,369

mask you give in doesn't fit because

1527

01:11:06,270 --> 01:11:03,660

starting today you'll make plans to get

1528

01:11:08,700 --> 01:11:06,280

away there's no one to hold you down and

1529

01:11:11,550 --> 01:11:08,710

the what-ifs start to drown then you

1530

01:11:14,430 --> 01:11:11,560

wake to the glare of a co fluorescent

1531

01:11:16,800 --> 01:11:14,440

stare and the light winks at you cuz its

1532

01:11:19,620 --> 01:11:16,810

life is almost through but it's holding

1533

01:11:23,670 --> 01:11:19,630

gone to quit time just like you it's
