action-packed and commercial for you

26
00:01:32,060 --> 00:00:53,579
which means you'll unfortunately never

27
00:01:34,429 --> 00:01:32,070
hear my voice alright people how we

28
00:01:36,410 --> 00:01:34,439
doing out there from sunny San Diego I'm

29
00:01:39,050 --> 00:01:36,420
Greg Carl wood and I think everybody

30
00:01:41,420 --> 00:01:39,060
knows by now just how hard it is to step

31
00:01:43,520 --> 00:01:41,430
outside of a paradigm and a culture that

32
00:01:46,370 --> 00:01:43,530
you've been raised in as if it were the

33
00:01:48,740 --> 00:01:46,380
gospel truth of course they say this is

34
00:01:50,389 --> 00:01:48,750
why colonizers are so quick to establish

35
00:01:53,120 --> 00:01:50,399
schools and the lands they take over

36
00:01:55,639 --> 00:01:53,130
control the culture and you control its

37
00:01:58,100 --> 00:01:55,649
people and one of the primary things we

38
00:01:59,959 --> 00:01:58,110

try to do on THC is peel back those

39

00:02:02,060 --> 00:01:59,969

layers of thought control in a whole

40

00:02:04,700 --> 00:02:02,070

host of areas but it all starts with a

41

00:02:07,429 --> 00:02:04,710

fundamental re-education about reality

42

00:02:09,800 --> 00:02:07,439

itself because concepts like true

43

00:02:12,050 --> 00:02:09,810

consciousness remote viewing free energy

44

00:02:13,910 --> 00:02:12,060

devices or anti-gravity crafts will

45

00:02:15,620 --> 00:02:13,920

always seem impossible from the

46

00:02:18,620 --> 00:02:15,630

vantage point of the so-called civilized

47

00:02:21,080 --> 00:02:18,630

Western mainstream models and yet as the

48

00:02:23,180 --> 00:02:21,090

system does it stand us to suppress any

49

00:02:27,500 --> 00:02:23,190

momentum gained in these areas they

50

00:02:29,570 --> 00:02:27,510

continue to really one day humanity can

51
00:02:31,670 --> 00:02:29,580
confront this realization that many of

52
00:02:33,559 --> 00:02:31,680
its models are fundamentally flawed and

53
00:02:35,809 --> 00:02:33,569
it's actually the ideas that have been

54
00:02:37,729 --> 00:02:35,819
kept alive within some secret societies

55
00:02:39,830 --> 00:02:37,739
initiatory orders and Eastern religions

56
00:02:42,350 --> 00:02:39,840
that need to be shuffled out onto the

57
00:02:44,420 --> 00:02:42,360
main stage but until that day will

58
00:02:46,130 --> 00:02:44,430
continue to tell the tales around our

59
00:02:48,229 --> 00:02:46,140
digital campfire with those who have

60
00:02:50,690 --> 00:02:48,239
seen the light and better yet actually

61
00:02:52,699 --> 00:02:50,700
understand it well one of those bright

62
00:02:55,880 --> 00:02:52,709
minds in these troubled times is today's

63
00:02:57,620 --> 00:02:55,890

guest Ernst will hem Vandenberg who has

64

00:03:01,729 --> 00:02:57,630

been tinkering with the world from an

65

00:03:03,830 --> 00:03:01,739

early age born in 1964 in Amsterdam he

66

00:03:06,259 --> 00:03:03,840

was repairing all things electronic by

67

00:03:08,780 --> 00:03:06,269

his teens and built his first computer

68

00:03:11,030 --> 00:03:08,790

when he was just 18 he went off to

69

00:03:14,600 --> 00:03:11,040

university to study computer science and

70

00:03:16,250 --> 00:03:14,610

physics and worked in IT until 2005 then

71

00:03:18,500 --> 00:03:16,260

he moved to Thailand and while looking

72

00:03:20,630 --> 00:03:18,510

for a new hobby decided to take a deep

73

00:03:22,340 --> 00:03:20,640

dive into the work of Nikola Tesla and

74

00:03:22,990 --> 00:03:22,350

it's really been off to the races ever

75

00:03:26,030 --> 00:03:23,000

since

76

00:03:27,560 --> 00:03:26,040

now he's collected nearly all of Tesla's

77

00:03:29,690 --> 00:03:27,570

works and writings that aren't sealed

78

00:03:32,120 --> 00:03:29,700

away in classified files has been

79

00:03:34,520 --> 00:03:32,130

replicating Tesla's experiments and has

80

00:03:36,319 --> 00:03:34,530

written four books along the way with

81

00:03:39,440 --> 00:03:36,329

titles like Tesla's magnifying

82

00:03:41,840 --> 00:03:39,450

transmitter recreating Tesla's dream the

83

00:03:44,569 --> 00:03:41,850

problem of increasing human energy the

84

00:03:47,150 --> 00:03:44,579

Tesla Code the Battle of Wardenclyffe

85

00:03:49,610 --> 00:03:47,160

historian Letters and his most recent

86

00:03:52,220 --> 00:03:49,620

release the topic of the day the science

87

00:03:54,500 --> 00:03:52,230

of Tesla's magic I think it's gonna be a

88

00:03:56,509 --> 00:03:54,510

great time so let's do it coming to us

89

00:03:58,940 --> 00:03:56,519

from the remote rice fields of Thailand

90

00:04:01,550 --> 00:03:58,950

far away from civilization the Tesla

91

00:04:03,710 --> 00:04:01,560

decoder the ether educator and the

92

00:04:05,870 --> 00:04:03,720

electrical experimenter extraordinaire

93

00:04:08,900 --> 00:04:05,880

Ernst vom Vandenberg

94

00:04:11,300 --> 00:04:08,910

welcome to the higher side thank you of

95

00:04:14,030 --> 00:04:11,310

what is up but this is quite an info

96

00:04:15,949 --> 00:04:14,040

thank you all for having me well I

97

00:04:17,750 --> 00:04:15,959

really appreciate this I know it's not

98

00:04:19,789 --> 00:04:17,760

the easiest thing to do where you are

99

00:04:21,860 --> 00:04:19,799

and of course I have to thank Aron

100

00:04:23,990 --> 00:04:21,870

Murakami again for getting us in touch

101

00:04:25,909 --> 00:04:24,000

I saw your latest book and just had to

102

00:04:27,110 --> 00:04:25,919

see if we could make it happen and here

103

00:04:28,610 --> 00:04:27,120

we are

104

00:04:31,250 --> 00:04:28,620

to kick this off I figured you could

105

00:04:33,290 --> 00:04:31,260

tell us about this period of time when

106

00:04:34,939 --> 00:04:33,300

you found Tesla's work because you say

107

00:04:37,790 --> 00:04:34,949

in the book that you are really working

108

00:04:40,430 --> 00:04:37,800

towards artificial intelligence and in a

109

00:04:42,680 --> 00:04:40,440

strange way your AI programs guided you

110

00:04:44,300 --> 00:04:42,690

to Tesla and that alone is intriguing

111

00:04:46,700 --> 00:04:44,310

but what can you tell us about this

112

00:04:49,180 --> 00:04:46,710

period of time where your focus really

113

00:04:52,640 --> 00:04:49,190

shifted to where it is now

114

00:04:55,310 --> 00:04:52,650

alright so I just moved to Thailand and

115

00:04:58,460 --> 00:04:55,320

I have to leave my job and information

116

00:05:01,129 --> 00:04:58,470

technology behind so I was looking for a

117

00:05:04,610 --> 00:05:01,139

way to make some money now I've done so

118

00:05:06,560 --> 00:05:04,620

before playing the stock market so I

119

00:05:08,570 --> 00:05:06,570

thought I could use my knowledge of

120

00:05:11,030 --> 00:05:08,580

artificial intelligence to create

121

00:05:15,500 --> 00:05:11,040

something to analyze the stock market

122

00:05:18,469 --> 00:05:15,510

and help me interest my money so while I

123

00:05:21,320 --> 00:05:18,479

was doing that I made something that

124

00:05:22,969 --> 00:05:21,330

work pretty well and every time it

125

00:05:25,909 --> 00:05:22,979

worked well up to a certain point and

126

00:05:27,590 --> 00:05:25,919

then it deviated from reality so I

127

00:05:29,480 --> 00:05:27,600

started looking into that point what

128

00:05:32,990 --> 00:05:29,490

happened at that point and I saw that

129

00:05:35,060 --> 00:05:33,000

there were large gold transactions

130

00:05:39,740 --> 00:05:35,070

happening that very very large both

131

00:05:43,460 --> 00:05:39,750

transactions so since no one has the

132

00:05:46,580 --> 00:05:43,470

money to play with tens of billions

133

00:05:49,430 --> 00:05:46,590

worth of coal I started looking into the

134

00:05:52,960 --> 00:05:49,440

cold market and I found that the role

135

00:05:57,950 --> 00:05:52,970

that JP Morgan played there so I started

136

00:05:59,470 --> 00:05:57,960

investing JP Morgan and I found work

137

00:06:02,130 --> 00:05:59,480

with

138

00:06:05,230 --> 00:06:02,140

and that immediately got my attention

139

00:06:07,120 --> 00:06:05,240

because yeah who is going to build such

140

00:06:11,950 --> 00:06:07,130

a huge Tower and what was the purpose of

141

00:06:15,100 --> 00:06:11,960

all that so then I read about Nikola

142

00:06:17,890 --> 00:06:15,110

Tesla and I knew him because I've heard

143

00:06:22,120 --> 00:06:17,900

of the slack both poor but not much more

144

00:06:26,040 --> 00:06:22,130

and then I saw that he did quite a lot

145

00:06:28,390 --> 00:06:26,050

more than just build Tesla coils so I

146

00:06:31,900 --> 00:06:28,400

want to know more about that and I

147

00:06:34,840 --> 00:06:31,910

started reading perfect I think that's

148

00:06:37,180 --> 00:06:34,850

awesome and you go on to say that it

149

00:06:39,250 --> 00:06:37,190

took you 20 years to arrive at the

150

00:06:41,830 --> 00:06:39,260

conclusion that the goal you are working

151
00:06:43,690 --> 00:06:41,840
towards is unattainable and you have

152
00:06:45,460 --> 00:06:43,700
since found several others who have

153
00:06:48,190 --> 00:06:45,470
provided additional evidence that this

154
00:06:50,440 --> 00:06:48,200
was indeed the case - is the goal of

155
00:06:52,050 --> 00:06:50,450
artificial intelligence or conscious

156
00:06:55,620 --> 00:06:52,060
computers what you're talking about here

157
00:06:59,350 --> 00:06:55,630
yes Michael artificial consciousness

158
00:07:02,650 --> 00:06:59,360
really I wanted to understand the

159
00:07:06,400 --> 00:07:02,660
universe and I realized that since we

160
00:07:11,440 --> 00:07:06,410
are part of it we may not be able to

161
00:07:13,900 --> 00:07:11,450
really investigate it every secret so

162
00:07:17,290 --> 00:07:13,910
you need a tool to help us and I thought

163
00:07:20,770 --> 00:07:17,300

artificial intelligence would be that

164

00:07:23,680 --> 00:07:20,780

tool that could help us but it needed to

165

00:07:25,870 --> 00:07:23,690

start thinking on its own so it must

166

00:07:29,469 --> 00:07:25,880

have an artificial consciousness as well

167

00:07:33,459 --> 00:07:29,479

not just the reasoning

168

00:07:36,600 --> 00:07:33,469

so my interest was in creating an

169

00:07:39,670 --> 00:07:36,610

artificial consciousness and I started

170

00:07:43,059 --> 00:07:39,680

researching that a data over a period of

171

00:07:49,180 --> 00:07:43,069

many now many to three decades and then

172

00:07:51,640 --> 00:07:49,190

found it it cannot be done hmm because

173

00:07:55,080 --> 00:07:51,650

any consciousness that comes into

174

00:07:59,140 --> 00:07:55,090

creation creates as a necessity of its

175

00:08:02,670 --> 00:07:59,150

being its existent it creates the

176

00:08:07,860 --> 00:08:02,680

universe that it sees itself living in

177

00:08:10,720 --> 00:08:07,870

so if one word creates an artificial

178

00:08:14,590 --> 00:08:10,730

conscious program then that program

179

00:08:16,210 --> 00:08:14,600

would create its own universe and report

180

00:08:21,070 --> 00:08:16,220

about that universe not about power

181

00:08:25,000 --> 00:08:21,080

universe so there's no point in doing

182

00:08:27,010 --> 00:08:25,010

that with the purpose that I had hmm yes

183

00:08:29,290 --> 00:08:27,020

I had that written down that quote that

184

00:08:31,960 --> 00:08:29,300

for any consciousness to exist it must

185

00:08:33,969 --> 00:08:31,970

create its own reality and I guess I

186

00:08:37,020 --> 00:08:33,979

would ask for people who hear that why

187

00:08:40,680 --> 00:08:37,030

is that how do we know that to be true

188

00:08:42,719 --> 00:08:40,690

this is very it took me decades to come

189

00:08:44,460 --> 00:08:42,729

to that conclusion but I think working

190

00:08:48,120 --> 00:08:44,470

backwards is the easiest way to

191

00:08:51,240 --> 00:08:48,130

understand it so assume that you already

192

00:08:54,120 --> 00:08:51,250

have a computer program that is

193

00:08:57,990 --> 00:08:54,130

conscious then it must be self conscious

194

00:09:00,540 --> 00:08:58,000

first because it has to know that it

195

00:09:02,680 --> 00:09:00,550

exists before it can think that it

196

00:09:05,410 --> 00:09:02,690

thinks

197

00:09:08,499 --> 00:09:05,420

so it has to see itself it has to

198

00:09:10,629 --> 00:09:08,509

perceive itself in some form but a

199

00:09:12,480 --> 00:09:10,639

running program doesn't have any form

200

00:09:16,170 --> 00:09:12,490

it's just

201
00:09:19,310 --> 00:09:16,180
a sequence of states in a computer it

202
00:09:23,340 --> 00:09:19,320
doesn't have any physical reality to it

203
00:09:26,430 --> 00:09:23,350
so in order to come into existence it

204
00:09:29,970 --> 00:09:26,440
will see this sequence of states this

205
00:09:31,970 --> 00:09:29,980
process as a physical entity so it sees

206
00:09:34,570 --> 00:09:31,980
itself

207
00:09:37,720 --> 00:09:34,580
as a physical thing

208
00:09:41,170 --> 00:09:37,730
thus it can see other processes in this

209
00:09:43,389 --> 00:09:41,180
computer also as physical things so it

210
00:09:46,030 --> 00:09:43,399
will see everything that's running in

211
00:09:49,090 --> 00:09:46,040
the computer every program as a physical

212
00:09:52,720 --> 00:09:49,100
object they are by creating its own

213
00:09:54,540 --> 00:09:52,730

human code which is not our universe

214

00:09:57,699 --> 00:09:54,550

it's something completely different

215

00:10:00,490 --> 00:09:57,709

mm-hmm well said well said I think that

216

00:10:04,329 --> 00:10:00,500

makes sense and I agree with that notion

217

00:10:08,019 --> 00:10:04,339

that for some of these more complex or

218

00:10:10,449 --> 00:10:08,029

abstract things it is typically best to

219

00:10:12,819 --> 00:10:10,459

work backwards one of my favorite Carl

220

00:10:14,470 --> 00:10:12,829

Sagan quotes is if you wish to make an

221

00:10:16,569 --> 00:10:14,480

apple pie from scratch you must first

222

00:10:18,639 --> 00:10:16,579

invent the universe which is just a

223

00:10:20,920 --> 00:10:18,649

great way of expressing that need to get

224

00:10:22,449 --> 00:10:20,930

more fundamental to understand the

225

00:10:25,150 --> 00:10:22,459

things that are built on its

226

00:10:27,490 --> 00:10:25,160

foundational principles yeah and that is

227

00:10:29,620 --> 00:10:27,500

how you start the book by talking about

228

00:10:31,870 --> 00:10:29,630

the elements and a better way to

229

00:10:34,150 --> 00:10:31,880

understand reality than this idea of a

230

00:10:36,220 --> 00:10:34,160

random Big Bang and now we're floating

231

00:10:39,069 --> 00:10:36,230

on this rock and space you basically

232

00:10:42,819 --> 00:10:39,079

have to discard what we were taught and

233

00:10:44,430 --> 00:10:42,829

start with a new truer foundation I mean

234

00:10:47,490 --> 00:10:44,440

it is complicated how would you go about

235

00:10:51,130 --> 00:10:47,500

explaining this foundation to people

236

00:10:55,019 --> 00:10:51,140

yeah that's a quite difficult thing but

237

00:10:58,510 --> 00:10:55,029

if it's through our consciousness our

238

00:11:02,460 --> 00:10:58,520

being our existence exists in four

239

00:11:05,410 --> 00:11:02,470

levels we have a physical body we have

240

00:11:07,800 --> 00:11:05,420

our thoughts things that we can't

241

00:11:11,620 --> 00:11:07,810

visualize things that we can think and

242

00:11:14,620 --> 00:11:11,630

we have emotions things we feel but we

243

00:11:18,189 --> 00:11:14,630

cannot picture them and then there's

244

00:11:22,210 --> 00:11:18,199

some driving force that leads us that

245

00:11:25,420 --> 00:11:22,220

forms our emotions into thoughts and a

246

00:11:28,689 --> 00:11:25,430

physical occurrence so that also

247

00:11:32,829 --> 00:11:28,699

explains how your thoughts and make you

248

00:11:35,220 --> 00:11:32,839

ill or and cure you because those those

249

00:11:38,050 --> 00:11:35,230

things are all related so we're all

250

00:11:40,070 --> 00:11:38,060

those are four levels that we exist in

251
00:11:43,730 --> 00:11:40,080
and they're all related

252
00:11:47,620 --> 00:11:43,740
now for example we cannot know what

253
00:11:51,220 --> 00:11:47,630
happens when we die to our

254
00:11:53,650 --> 00:11:51,230
my who are thinking to our soul what you

255
00:11:56,850 --> 00:11:53,660
won't call it but we do know what

256
00:12:00,030 --> 00:11:56,860
happens to our body so through

257
00:12:02,939 --> 00:12:00,040
understanding that these things are

258
00:12:06,960 --> 00:12:02,949
corresponding

259
00:12:09,239 --> 00:12:06,970
the body the physical world is a picture

260
00:12:10,920 --> 00:12:09,249
is an image of the mental world which is

261
00:12:16,199 --> 00:12:10,930
an image

262
00:12:17,610 --> 00:12:16,209
of the ultimate source the element of

263
00:12:20,130 --> 00:12:17,620

fire

264

00:12:23,940 --> 00:12:20,140

so by looking at what happens to our

265

00:12:28,490 --> 00:12:23,950

body we can draw conclusions about what

266

00:12:31,740 --> 00:12:28,500

happened to our mind or soul one quote

267

00:12:33,990 --> 00:12:31,750

hmm they would basically decay and get

268

00:12:36,390 --> 00:12:34,000

absorbed into everything that is is that

269

00:12:39,060 --> 00:12:36,400

what you're not yeah see some people

270

00:12:41,610 --> 00:12:39,070

think that we will live on that will

271

00:12:44,660 --> 00:12:41,620

live on in another person so that our

272

00:12:47,430 --> 00:12:44,670

soul will reincarnate in some other

273

00:12:52,950 --> 00:12:47,440

living entity whether it's in person or

274

00:12:54,630 --> 00:12:52,960

animal the deepest / religion but that

275

00:12:56,990 --> 00:12:54,640

would be in my opinion that would be

276

00:13:00,000 --> 00:12:57,000

highly inefficient because in your life

277

00:13:02,880 --> 00:13:00,010

build up many experiences and knowledge

278

00:13:05,670 --> 00:13:02,890

and all that will be gone when you die

279

00:13:07,200 --> 00:13:05,680

and then you go to a new body and you

280

00:13:09,990 --> 00:13:07,210

have to continue your life that is

281

00:13:13,650 --> 00:13:10,000

extremely inefficient and if you look at

282

00:13:17,250 --> 00:13:13,660

nature you see that everything is very

283

00:13:22,380 --> 00:13:17,260

efficient actually so that seems some

284

00:13:26,060 --> 00:13:22,390

disconnect here so what I think is or

285

00:13:28,770 --> 00:13:26,070

what happening is if whatever you were

286

00:13:32,370 --> 00:13:28,780

the case

287

00:13:34,940 --> 00:13:32,380

enters into new living entities but not

288

00:13:38,400 --> 00:13:34,950

in one piece but it's taken apart and

289

00:13:41,570 --> 00:13:38,410

the pieces will live on in other living

290

00:13:43,680 --> 00:13:41,580

instance hmm right because those

291

00:13:46,460 --> 00:13:43,690

experiences and that knowledge that you

292

00:13:49,130 --> 00:13:46,470

gained if it wasn't being utilized

293

00:13:53,460 --> 00:13:49,140

somewhere then it wouldn't be efficient

294

00:13:55,830 --> 00:13:53,470

yes hmm if you have to build up all your

295

00:14:00,000 --> 00:13:55,840

experience again in the next life Heidi

296

00:14:03,180 --> 00:14:00,010

increasing right right mmm and so when

297

00:14:06,270 --> 00:14:03,190

it comes to the formation of the

298

00:14:07,950 --> 00:14:06,280

universe you talk about it through the

299

00:14:09,840 --> 00:14:07,960

four elements as you kind of broke them

300

00:14:13,230 --> 00:14:09,850

down for us there as well as there being

301
00:14:16,290 --> 00:14:13,240
four corresponding levels to a human

302
00:14:18,480 --> 00:14:16,300
being it makes a lot more sense than the

303
00:14:21,150 --> 00:14:18,490
current model and it's really poetic and

304
00:14:23,490 --> 00:14:21,160
clear and I wish we kind of taught

305
00:14:26,220 --> 00:14:23,500
everyone about the universe this way

306
00:14:29,820 --> 00:14:26,230
earth is the physical water is the

307
00:14:31,740 --> 00:14:29,830
emotions air is the idea and fire is the

308
00:14:33,750 --> 00:14:31,750
source of everything as you send the

309
00:14:36,510 --> 00:14:33,760
book you can't really know it directly

310
00:14:39,390 --> 00:14:36,520
that only its effects and consciousness

311
00:14:41,940 --> 00:14:39,400
people have described it as a light you

312
00:14:44,040 --> 00:14:41,950
know some it's definitely in the the

313
00:14:46,170 --> 00:14:44,050

symbolism the language we use to talk

314

00:14:48,240 --> 00:14:46,180

about it it is kind of unknowable the

315

00:14:51,540 --> 00:14:48,250

soul is described as a light body but

316

00:14:53,070 --> 00:14:51,550

this is like the energy that we're kind

317

00:14:55,710 --> 00:14:53,080

of talking about that's driving what

318

00:14:58,530 --> 00:14:55,720

life is the F is represented in a force

319

00:15:01,890 --> 00:14:58,540

is why the other three elements are more

320

00:15:04,410 --> 00:15:01,900

material so you see this also in

321

00:15:07,800 --> 00:15:04,420

particle physics where you have for

322

00:15:10,770 --> 00:15:07,810

example the leptons they are classified

323

00:15:14,220 --> 00:15:10,780

in three generations the electron the

324

00:15:15,640 --> 00:15:14,230

muon and the Tau platform then when I

325

00:15:17,700 --> 00:15:15,650

learned this

326

00:15:19,740 --> 00:15:17,710

I immediately thought there must be a

327

00:15:22,950 --> 00:15:19,750

fourth

328

00:15:25,200 --> 00:15:22,960

being connected to these three and the

329

00:15:27,840 --> 00:15:25,210

sporting is not material it is course

330

00:15:30,780 --> 00:15:27,850

and later on you learn that there's a Z

331

00:15:33,930 --> 00:15:30,790

boson which is indeed a force that is

332

00:15:40,970 --> 00:15:33,940

connected to this level so you see that

333

00:15:43,840 --> 00:15:40,980

this division in for level four roots

334

00:15:46,490 --> 00:15:43,850

you see just repeated everywhere

335

00:15:48,019 --> 00:15:46,500

mm-hmm-hmm and would also really clicked

336

00:15:51,470 --> 00:15:48,029

for me is when you talk about the

337

00:15:53,449 --> 00:15:51,480

elements as male and female are having

338

00:15:56,060 --> 00:15:53,459

male and female correspondence and

339

00:15:57,980 --> 00:15:56,070

saying that new things emerge from the

340

00:16:00,139 --> 00:15:57,990

interactions between the male and female

341

00:16:01,910 --> 00:16:00,149

elements because we all know where

342

00:16:04,430 --> 00:16:01,920

babies come from so it all starts to

343

00:16:06,920 --> 00:16:04,440

make sense and you use this example of a

344

00:16:09,379 --> 00:16:06,930

drain and a bathtub and the forces that

345

00:16:12,199 --> 00:16:09,389

create that vortex that we see a male

346

00:16:14,600 --> 00:16:12,209

force that pushes inward the water and a

347

00:16:17,180 --> 00:16:14,610

female force that pushes outward the air

348

00:16:19,699 --> 00:16:17,190

and in the middle of the interactions

349

00:16:22,340 --> 00:16:19,709

between these male and female forces as

350

00:16:25,910 --> 00:16:22,350

you say matter or to be more precise

351
00:16:28,340 --> 00:16:25,920
elementary particles are born yes can

352
00:16:30,470 --> 00:16:28,350
you elaborate on that principle and

353
00:16:32,569 --> 00:16:30,480
place as we see it it just it does make

354
00:16:34,670 --> 00:16:32,579
so much sense but it are there other

355
00:16:37,220 --> 00:16:34,680
examples other than the vortex of a

356
00:16:40,220 --> 00:16:37,230
bathtub where we might see a male and

357
00:16:43,019 --> 00:16:40,230
female elemental force interacting to

358
00:16:53,019 --> 00:16:48,490
put one we seated okay okay so the earth

359
00:16:56,650 --> 00:16:53,029
is female then above it you see the air

360
00:17:00,490 --> 00:16:56,660
which is the mill representation and on

361
00:17:02,350 --> 00:17:00,500
where they need to meet that where light

362
00:17:04,569 --> 00:17:02,360
is created where we live where they're

363
00:17:08,439 --> 00:17:04,579

mostly at the pound where everything

364

00:17:10,919 --> 00:17:08,449

takes place where this male force meets

365

00:17:16,960 --> 00:17:10,929

the female force that's where life

366

00:17:19,210 --> 00:17:16,970

starts mmm yeah that's a great response

367

00:17:21,809 --> 00:17:19,220

I mean it's just so interesting and for

368

00:17:24,880 --> 00:17:21,819

people trying to follow along as to why

369

00:17:28,179 --> 00:17:24,890

earth and water are considered to be the

370

00:17:30,400 --> 00:17:28,189

female versus air and fire being the

371

00:17:32,590 --> 00:17:30,410

male from the perspective of the

372

00:17:34,390 --> 00:17:32,600

observer we just say you know you need a

373

00:17:36,880 --> 00:17:34,400

consciousness creates its universe so

374

00:17:38,650 --> 00:17:36,890

when it comes to earth material objects

375

00:17:40,930 --> 00:17:38,660

are formed outside of us so the

376

00:17:43,870 --> 00:17:40,940

direction assigned to it is inward or

377

00:17:46,630 --> 00:17:43,880

towards the object air thoughts are

378

00:17:50,080 --> 00:17:46,640

formed inside of us but we see them as

379

00:17:52,390 --> 00:17:50,090

projected outwards water those are the

380

00:17:55,210 --> 00:17:52,400

emotions we can't visualize them because

381

00:17:57,549 --> 00:17:55,220

they're formed inside and then projected

382

00:17:59,530 --> 00:17:57,559

further inward and fire we can only

383

00:18:01,870 --> 00:17:59,540

perceive its effects it's like someone

384

00:18:03,940 --> 00:18:01,880

or something standing behind us and

385

00:18:06,220 --> 00:18:03,950

moving things in front of us so it's all

386

00:18:08,799 --> 00:18:06,230

about the direction that these things

387

00:18:10,480 --> 00:18:08,809

are most associated with relative to the

388

00:18:13,660 --> 00:18:10,490

observer because again it all comes back

389

00:18:17,230 --> 00:18:13,670

to the conscious observer is the center

390

00:18:21,430 --> 00:18:17,240

so to speak of the universe yes exactly

391

00:18:23,830 --> 00:18:21,440

so the male force is always directed

392

00:18:26,620 --> 00:18:23,840

outward and the females always are at

393

00:18:31,200 --> 00:18:26,630

the teamwork that's how they are

394

00:18:33,940 --> 00:18:31,210

represented yes I just love that general

395

00:18:38,350 --> 00:18:33,950

perspective it's a very cohesive story

396

00:18:41,860 --> 00:18:38,360

it's it's holistic and it just kind of

397

00:18:45,880 --> 00:18:41,870

creates a paradigm that I think is a lot

398

00:18:47,770 --> 00:18:45,890

more coherent than this random explosion

399

00:18:51,490 --> 00:18:47,780

reality that we're given

400

00:18:54,840 --> 00:18:51,500

exactly uh also you can see the

401
00:18:57,910 --> 00:18:54,850
explosion universe the Big Bang Theory

402
00:19:02,280 --> 00:18:57,920
dating the creation must have happened

403
00:19:06,530 --> 00:19:02,290
in the distant past but they forget that

404
00:19:10,070 --> 00:19:06,540
the thing that creates our universe

405
00:19:13,010 --> 00:19:10,080
has to exist before our universe and our

406
00:19:15,800 --> 00:19:13,020
space and time existed so it cannot be

407
00:19:19,940 --> 00:19:15,810
part can not be subject to the time that

408
00:19:26,270 --> 00:19:19,950
we live in so it lives in a different

409
00:19:28,550 --> 00:19:26,280
time so it creates our time maybe in one

410
00:19:31,580 --> 00:19:28,560
moment of his time and then it beats

411
00:19:34,880 --> 00:19:31,590
everything at the same time so past

412
00:19:40,250 --> 00:19:34,890
present and future are all created at

413
00:19:42,710 --> 00:19:40,260

the same time for this favor hmm it's

414

00:19:45,140 --> 00:19:42,720

quite trippy and just to add another

415

00:19:46,490 --> 00:19:45,150

layer to it because this is important to

416

00:19:48,920 --> 00:19:46,500

the big picture you also note that

417

00:19:51,200 --> 00:19:48,930

besides just male and female we have

418

00:19:53,510 --> 00:19:51,210

older and newer manifestations of the

419

00:19:55,850 --> 00:19:53,520

elements and you right that force acts

420

00:19:59,090 --> 00:19:55,860

as the element fire and the fluid medium

421

00:20:02,030 --> 00:19:59,100

water through this interaction to new

422

00:20:05,660 --> 00:20:02,040

substances appear a solid made of ether

423

00:20:08,510 --> 00:20:05,670

vortexes and a gaseous medium consisting

424

00:20:10,190 --> 00:20:08,520

of electric particles this matches the

425

00:20:13,760 --> 00:20:10,200

young elements earth and air

426

00:20:15,920 --> 00:20:13,770

respectively and I just love that but

427

00:20:20,900 --> 00:20:15,930

it's interesting that we have two

428

00:20:22,370 --> 00:20:20,910

generations of elements and I guess

429

00:20:25,760 --> 00:20:22,380

that's important because a lot of people

430

00:20:29,180 --> 00:20:25,770

think of ether as just a electrical

431

00:20:30,830 --> 00:20:29,190

field of some sorts but this paradigm

432

00:20:33,170 --> 00:20:30,840

that you're describing is like no there

433

00:20:35,270 --> 00:20:33,180

must be two things interacting because

434

00:20:39,530 --> 00:20:35,280

that's just the way it goes and so you

435

00:20:43,100 --> 00:20:39,540

have you have an ether that's a fluid

436

00:20:46,610 --> 00:20:43,110

fluid yeah maybe you can explain it yeah

437

00:20:49,640 --> 00:20:46,620

yeah when Maxwell started to think about

438

00:20:52,430 --> 00:20:49,650

this thing he came up with an ether

439

00:20:55,070 --> 00:20:52,440

model a model for the ether that he used

440

00:20:59,990 --> 00:20:55,080

as the basis for his equations to arrive

441

00:21:02,630 --> 00:21:00,000

at this equation in this model he said

442

00:21:05,060 --> 00:21:02,640

there's a fluid ether we all know that

443

00:21:07,820 --> 00:21:05,070

fluid ether because at his time everyone

444

00:21:10,730 --> 00:21:07,830

assumed there was a fluid heater filling

445

00:21:13,580 --> 00:21:10,740

up all space and the must an lan force

446

00:21:17,380 --> 00:21:13,590

that acts on this medium on this fluid

447

00:21:21,550 --> 00:21:17,390

medium and that creates vortices and

448

00:21:25,720 --> 00:21:21,560

some particle so creates two more

449

00:21:28,660 --> 00:21:25,730

particles to more entities so you first

450

00:21:32,410 --> 00:21:28,670

have the force and a fluid they work

451
00:21:36,280 --> 00:21:32,420
together to create a solid the vortex

452
00:21:38,440 --> 00:21:36,290
cells forming a solid and a gaseous

453
00:21:42,070 --> 00:21:38,450
medium consisting of the particles that

454
00:21:45,190 --> 00:21:42,080
move between these cortex cells so you

455
00:21:49,330 --> 00:21:45,200
see again a force acting on a fluid

456
00:21:52,090 --> 00:21:49,340
creating a solid and a gas so you have

457
00:21:55,740 --> 00:21:52,100
to hold elements first creating the

458
00:21:59,710 --> 00:21:55,750
younger element and at metros time

459
00:22:01,990 --> 00:21:59,720
people said here is beautiful model and

460
00:22:05,110 --> 00:22:02,000
the results that you come up with are

461
00:22:10,780 --> 00:22:05,120
perfect but at the same time most

462
00:22:14,670 --> 00:22:10,790
unlikely model for either possible while

463
00:22:17,740 --> 00:22:14,680

in my opinion it is a very very likely

464

00:22:20,830 --> 00:22:17,750

model to be true because it matches the

465

00:22:22,420 --> 00:22:20,840

fragment exactly right right and that

466

00:22:26,230 --> 00:22:22,430

elegance is kind of what you're looking

467

00:22:29,290 --> 00:22:26,240

for in a good model and this whole idea

468

00:22:32,200 --> 00:22:29,300

of birthing substances from the

469

00:22:34,810 --> 00:22:32,210

interaction between two other substances

470

00:22:37,540 --> 00:22:34,820

it just makes me curious about something

471

00:22:40,900 --> 00:22:37,550

this is quite extreme but something like

472

00:22:43,780 --> 00:22:40,910

bringing new universes or at least

473

00:22:47,170 --> 00:22:43,790

galaxies and nebulae into being if you

474

00:22:49,330 --> 00:22:47,180

could harness the right plasma fire seed

475

00:22:51,970 --> 00:22:49,340

and the right elemental water could you

476
00:22:54,670 --> 00:22:51,980
generate a nebula or something like that

477
00:22:56,970 --> 00:22:54,680
in some sort of container and grow it

478
00:22:59,300 --> 00:22:56,980
like you would a flower

479
00:23:02,850 --> 00:22:59,310
that's an interesting question I think

480
00:23:05,550 --> 00:23:02,860
there's the electrical universe is

481
00:23:09,360 --> 00:23:05,560
trying to do this exact thing in the

482
00:23:13,770 --> 00:23:09,370
Sapphire project they are modeling the

483
00:23:16,380 --> 00:23:13,780
Sun as an electrical unit and creating

484
00:23:19,460 --> 00:23:16,390
the plasma around it and see what

485
00:23:26,810 --> 00:23:22,639
they show they can create actual

486
00:23:30,720 --> 00:23:26,820
chemical elements that were not in the

487
00:23:33,739 --> 00:23:30,730
experiment before at a time so

488
00:23:36,389 --> 00:23:33,749

it shows in states of creation I think

489

00:23:39,269 --> 00:23:36,399

wow wow

490

00:23:41,279 --> 00:23:39,279

man I know you know Eric dollard's done

491

00:23:42,749 --> 00:23:41,289

a little experimentation in that realm I

492

00:23:45,509 --> 00:23:42,759

know you're familiar with him through

493

00:23:47,460 --> 00:23:45,519

the forums and through Aaron but it's a

494

00:23:50,279 --> 00:23:47,470

trippy idea but there seems to be a

495

00:23:52,930 --> 00:23:50,289

relationship between plasma and life I

496

00:23:56,280 --> 00:23:52,940

don't know what it is

497

00:23:58,900 --> 00:23:56,290

it's a very complex relationship because

498

00:24:01,810 --> 00:23:58,910

we have our consciousness creating the

499

00:24:04,660 --> 00:24:01,820

University for giving physical

500

00:24:05,910 --> 00:24:04,670

appearances to other processes as it

501
00:24:09,590 --> 00:24:05,920
were

502
00:24:13,490 --> 00:24:09,600
and some of these processes we see as

503
00:24:17,340 --> 00:24:13,500
other living beings are as we see as

504
00:24:19,410 --> 00:24:17,350
plasma or universes it's pretty

505
00:24:21,340 --> 00:24:19,420
complicated because everything connects

506
00:24:24,399 --> 00:24:21,350
together

507
00:24:28,810 --> 00:24:24,409
our consciousness creates this physical

508
00:24:31,269 --> 00:24:28,820
world that we see and it is in reality

509
00:24:35,230 --> 00:24:31,279
that these are just processes running

510
00:24:38,769 --> 00:24:35,240
somewhere and we are consciousness gives

511
00:24:42,100 --> 00:24:38,779
it a physical presence and some of these

512
00:24:44,259 --> 00:24:42,110
presence we see as living beings some we

513
00:24:47,529 --> 00:24:44,269

see as galaxies tomorrow we see as

514

00:24:50,980 --> 00:24:47,539

metals whatever were what you have what

515

00:24:53,470 --> 00:24:50,990

have you so everything connects together

516

00:24:55,280 --> 00:24:53,480

but everything is in fact just

517

00:24:59,240 --> 00:24:55,290

consciousness

518

00:25:02,450 --> 00:24:59,250

hmm so a lot of this is obviously

519

00:25:05,390 --> 00:25:02,460

related to the work of Tesla and you've

520

00:25:08,150 --> 00:25:05,400

done so much reading and studying of his

521

00:25:10,760 --> 00:25:08,160

primary writings to get back to him a

522

00:25:13,460 --> 00:25:10,770

little bit more in this book you write

523

00:25:15,770 --> 00:25:13,470

that Tesla was no Mad Men you need to

524

00:25:18,770 --> 00:25:15,780

see through the outlandish claims and

525

00:25:22,130 --> 00:25:18,780

understand his situation and his time

526

00:25:24,410 --> 00:25:22,140

well what context is important for

527

00:25:26,360 --> 00:25:24,420

people in this regard to really

528

00:25:29,430 --> 00:25:26,370

understanding the man how do we put him

529

00:25:32,880 --> 00:25:29,440

back in his proper context

530

00:25:36,880 --> 00:25:32,890

yes you have to go back to this time I

531

00:25:40,000 --> 00:25:36,890

said when you read it work now

532

00:25:42,310 --> 00:25:40,010

in our age then you see he writes about

533

00:25:46,120 --> 00:25:42,320

Peter and we don't believe in either you

534

00:25:48,400 --> 00:25:46,130

see Emma right about Athens and we think

535

00:25:51,100 --> 00:25:48,410

about atoms in a certain way we see a

536

00:25:54,610 --> 00:25:51,110

nucleus with electrons circling around

537

00:25:56,320 --> 00:25:54,620

it that is not what this loves all you

538

00:25:59,350 --> 00:25:56,330

have to realize all these things all

539

00:26:04,360 --> 00:25:59,360

this changed when Tesla talked about the

540

00:26:06,880 --> 00:26:04,370

ether having in it another medium that

541

00:26:09,100 --> 00:26:06,890

you could call electricity a gaseous

542

00:26:13,630 --> 00:26:09,110

medium that causes electrical effects

543

00:26:15,490 --> 00:26:13,640

and year to thing when he talks about

544

00:26:18,070 --> 00:26:15,500

electricity he talks about this meeting

545

00:26:23,740 --> 00:26:18,080

he does not talk about moving electrons

546

00:26:25,240 --> 00:26:23,750

and charges as we see them because when

547

00:26:27,520 --> 00:26:25,250

you at school learn about electricity

548

00:26:30,820 --> 00:26:27,530

you learn electricity is all about

549

00:26:34,180 --> 00:26:30,830

electrons well that is a very limited

550

00:26:36,220 --> 00:26:34,190

fuel because electron is the negative

551
00:26:40,000 --> 00:26:36,230
charge so whether the positive charge

552
00:26:43,720 --> 00:26:40,010
come from so there has to be something

553
00:26:47,289 --> 00:26:43,730
else that creates both positive charge

554
00:26:49,270 --> 00:26:47,299
and negative charge and that more

555
00:26:52,060 --> 00:26:49,280
fundamental thing that is what person I

556
00:26:55,210 --> 00:26:52,070
was talking about not electricity as we

557
00:26:57,400 --> 00:26:55,220
see it today yes that makes sense I mean

558
00:26:58,840 --> 00:26:57,410
the terms do you kind of change their

559
00:27:01,780 --> 00:26:58,850
meanings are different plus you have

560
00:27:04,810 --> 00:27:01,790
people throwing a lot of hyperbole on it

561
00:27:07,210 --> 00:27:04,820
yeah and in that you go on to say that

562
00:27:09,940 --> 00:27:07,220
people might need to understand the

563
00:27:12,880 --> 00:27:09,950

message he was trying to convey what you

564

00:27:15,300 --> 00:27:12,890

think his primary message to the world

565

00:27:19,920 --> 00:27:17,550

I don't know what his primary message

566

00:27:22,440 --> 00:27:19,930

was but I know what he wants to get the

567

00:27:24,480 --> 00:27:22,450

world he wanted to give the world a way

568

00:27:29,600 --> 00:27:24,490

to communicate all of the world which we

569

00:27:33,240 --> 00:27:29,610

have today through the internet and also

570

00:27:37,860 --> 00:27:33,250

free energy he wanted to have everyone

571

00:27:40,080 --> 00:27:37,870

access to energy in a easy way he

572

00:27:43,260 --> 00:27:40,090

designed all that and that's what he

573

00:27:46,530 --> 00:27:43,270

wanted to give to the world and then he

574

00:27:51,330 --> 00:27:46,540

saw this new science coming up from the

575

00:27:53,460 --> 00:27:51,340

words of Einstein and his group and that

576

00:27:57,940 --> 00:27:53,470

was trying to push a different paradigm

577

00:28:01,100 --> 00:27:57,950

and that would

578

00:28:04,060 --> 00:28:01,110

obscure pubes so he was trying to fight

579

00:28:06,580 --> 00:28:04,070

the new paradigm

580

00:28:10,299 --> 00:28:06,590

while parts of that paradigm may still

581

00:28:12,230 --> 00:28:10,309

be correct so for example he said there

582

00:28:14,800 --> 00:28:12,240

are no

583

00:28:17,720 --> 00:28:14,810

transfers weight transfers

584

00:28:20,800 --> 00:28:17,730

electromagnetic waves while we know that

585

00:28:24,130 --> 00:28:20,810

there are we can prove that some

586

00:28:26,900 --> 00:28:24,140

electromagnetic waves are transferred

587

00:28:29,810 --> 00:28:26,910

but he insisted that I work on

588

00:28:31,490 --> 00:28:29,820

longitudinal but why did he do so

589

00:28:33,890 --> 00:28:31,500

because I was thinking and didn't point

590

00:28:36,440 --> 00:28:33,900

he was thinking of his electricity is

591

00:28:39,290 --> 00:28:36,450

medium and in this medium he saw the

592

00:28:41,540 --> 00:28:39,300

compressions and deep impressions and so

593

00:28:43,970 --> 00:28:41,550

it's all from the children aware and he

594

00:28:45,830 --> 00:28:43,980

wants to convey that to the world we

595

00:28:49,190 --> 00:28:45,840

have to look deeper we have to look at

596

00:28:51,920 --> 00:28:49,200

her more from the mental picture in

597

00:28:55,090 --> 00:28:51,930

order to understand it and when you

598

00:28:59,289 --> 00:28:55,100

understand it you can use it

599

00:29:02,230 --> 00:28:59,299

for this purposes yes and on the subject

600

00:29:04,450 --> 00:29:02,240

of looking deeper if we were to talk a

601
00:29:07,539 --> 00:29:04,460
little bit more about ether and this

602
00:29:10,029 --> 00:29:07,549
gaseous medium aka electricity just

603
00:29:11,950 --> 00:29:10,039
calling it that to simplify it's

604
00:29:13,450 --> 00:29:11,960
important because when we're trying to

605
00:29:15,940 --> 00:29:13,460
understand this stuff I think a lot of

606
00:29:18,879 --> 00:29:15,950
people just replace the phrase space is

607
00:29:22,060 --> 00:29:18,889
a vacuum with space is the ether and

608
00:29:22,659 --> 00:29:22,070
then their understanding sort of stops

609
00:29:25,149 --> 00:29:22,669
there

610
00:29:27,639 --> 00:29:25,159
but this male/female elemental

611
00:29:30,549 --> 00:29:27,649
interaction is important because the

612
00:29:32,830 --> 00:29:30,559
whole thing is a lot more complex it

613
00:29:35,289 --> 00:29:32,840

isn't just an ether and I guess we

614

00:29:38,610 --> 00:29:35,299

should think of the ether as particles

615

00:29:41,409 --> 00:29:38,620

that are a network of particles that are

616

00:29:44,889 --> 00:29:41,419

spinning in a sense and have polarity

617

00:29:46,539 --> 00:29:44,899

positive negative charge yeah it's more

618

00:29:50,490 --> 00:29:46,549

complicated than that but I think

619

00:29:54,100 --> 00:29:50,500

Maxwell is a good starting point by

620

00:29:57,369 --> 00:29:54,110

showing his poor past so the fluid

621

00:29:59,860 --> 00:29:57,379

medium the fluid heater a force acting

622

00:30:01,310 --> 00:29:59,870

on it creating a solid and a gaseous

623

00:30:03,890 --> 00:30:01,320

medium

624

00:30:06,620 --> 00:30:03,900

the slaps were only the fluid median the

625

00:30:08,420 --> 00:30:06,630

ether and the gaseous medium because he

626

00:30:11,120 --> 00:30:08,430

was only interested in electricity so

627

00:30:13,640 --> 00:30:11,130

this gaseous medium was their cause of

628

00:30:17,860 --> 00:30:13,650

electricity or because of electrical

629

00:30:20,600 --> 00:30:17,870

effects I should say ah yes it's very

630

00:30:23,300 --> 00:30:20,610

complicated to me I am you know but a

631

00:30:26,060 --> 00:30:23,310

simple stone or host here but your book

632

00:30:27,830 --> 00:30:26,070

is so full of great diagrams that you

633

00:30:30,320 --> 00:30:27,840

know really help me feel like I'm

634

00:30:32,570 --> 00:30:30,330

grasping some of this stuff and it is

635

00:30:34,550 --> 00:30:32,580

just so difficult because of the box

636

00:30:37,820 --> 00:30:34,560

that we're in as you say in the book

637

00:30:39,470 --> 00:30:37,830

it's hard to really get blueprints of a

638

00:30:41,930 --> 00:30:39,480

room that you're locked inside of it's

639

00:30:43,610 --> 00:30:41,940

hard to know something outside of what

640

00:30:46,040 --> 00:30:43,620

you know and this paradigm is so

641

00:30:47,870 --> 00:30:46,050

pervasive and everybody is so damn sure

642

00:30:49,700 --> 00:30:47,880

that there's nothing else to learn about

643

00:30:52,610 --> 00:30:49,710

reality that it is hard to

644

00:30:54,470 --> 00:30:52,620

reverse-engineer all this and it's

645

00:30:55,820 --> 00:30:54,480

important we really should start over

646

00:30:57,560 --> 00:30:55,830

and and learn things the right way

647

00:31:00,710 --> 00:30:57,570

because a lot of beautiful things can

648

00:31:04,290 --> 00:31:00,720

come out of the understanding right yes

649

00:31:07,020 --> 00:31:04,300

I think that's true we are locked in our

650

00:31:09,900 --> 00:31:07,030

our understanding and you have to go

651
00:31:13,520 --> 00:31:09,910
back to clear up all the mess that we've

652
00:31:15,740 --> 00:31:13,530
made you can see that

653
00:31:18,500 --> 00:31:15,750
I think you can divide modern science

654
00:31:20,779 --> 00:31:18,510
into three groups the the real

655
00:31:24,049 --> 00:31:20,789
scientists quote-unquote real scientists

656
00:31:28,810 --> 00:31:24,059
who know that they don't know anything

657
00:31:30,460 --> 00:31:28,820
but they're trying to explore reality

658
00:31:33,250 --> 00:31:30,470
those are the professors that also

659
00:31:35,080 --> 00:31:33,260
taught me at university day they tell

660
00:31:37,780 --> 00:31:35,090
you they know how to predict the outcome

661
00:31:40,570 --> 00:31:37,790
of experiment but they don't know the

662
00:31:44,740 --> 00:31:40,580
mechanisms that are at work in these

663
00:31:47,320 --> 00:31:44,750

experiments so there is one class of

664

00:31:49,390 --> 00:31:47,330

science then you have popular science

665

00:31:52,120 --> 00:31:49,400

popular science says that we know

666

00:31:54,700 --> 00:31:52,130

everything we know exactly how

667

00:31:57,160 --> 00:31:54,710

everything works we know about neutron

668

00:31:58,960 --> 00:31:57,170

stars we know black holes we know that

669

00:32:03,560 --> 00:31:58,970

the spacious curve you know there's a

670

00:32:06,200 --> 00:32:03,570

black of dark matter and all this stuff

671

00:32:08,779 --> 00:32:06,210

while the real product of real science

672

00:32:11,210 --> 00:32:08,789

is to say yeah we think there must be

673

00:32:13,310 --> 00:32:11,220

something like dark matter we don't know

674

00:32:14,539 --> 00:32:13,320

what it is but to complete our

675

00:32:18,289 --> 00:32:14,549

understanding that must be something

676

00:32:22,450 --> 00:32:18,299

more and then you have what I'll call

677

00:32:24,739 --> 00:32:22,460

fantasy science that is people who

678

00:32:27,859 --> 00:32:24,749

understand there is something wrong with

679

00:32:30,700 --> 00:32:27,869

the other side and they try to explain

680

00:32:34,299 --> 00:32:30,710

it in their own way they try to make up

681

00:32:37,700 --> 00:32:34,309

some science that is based on

682

00:32:39,529 --> 00:32:37,710

misunderstanding and concede now you

683

00:32:41,600 --> 00:32:39,539

think that this fantasy science is

684

00:32:44,180 --> 00:32:41,610

something completely

685

00:32:47,300 --> 00:32:44,190

separate from the other ones but in

686

00:32:51,500 --> 00:32:47,310

reality the real science contains a lot

687

00:32:53,630 --> 00:32:51,510

of fantasy science because most of these

688

00:32:56,540 --> 00:32:53,640

people they actually believe that the

689

00:32:59,710 --> 00:32:56,550

Sun is a nuclear bomb that is exploding

690

00:33:03,590 --> 00:32:59,720

over a period of billions of years and

691

00:33:04,430 --> 00:33:03,600

all this other things that are obviously

692

00:33:07,760 --> 00:33:04,440

not true

693

00:33:10,930 --> 00:33:07,770

for example that also the earth has a

694

00:33:14,360 --> 00:33:10,940

inner core made of iron and nickel

695

00:33:17,150 --> 00:33:14,370

let's also utter nonsense that is easily

696

00:33:19,910 --> 00:33:17,160

dispelled and especially if you look at

697

00:33:21,879 --> 00:33:19,920

the reasoning behind it it is completely

698

00:33:25,210 --> 00:33:21,889

absurd

699

00:33:27,070 --> 00:33:25,220

if you wanted to go into that yes I love

700

00:33:28,600 --> 00:33:27,080

talking about the earth and I'm sure a

701

00:33:31,479 --> 00:33:28,610

lot of people would be like oh that's

702

00:33:34,359 --> 00:33:31,489

absurd and easy to disprove that it has

703

00:33:38,409 --> 00:33:34,369

an iron core sure let us know schools on

704

00:33:42,100 --> 00:33:38,419

the circuit if you look at the reasoning

705

00:33:45,729 --> 00:33:42,110

behind this why people believe that the

706

00:33:47,729 --> 00:33:45,739

earth as in iron and nickel core then it

707

00:33:50,799 --> 00:33:47,739

is because iron and nickel are the only

708

00:33:54,009 --> 00:33:50,809

elements that they knew before that are

709

00:33:57,700 --> 00:33:54,019

ferromagnetic and we know that the earth

710

00:33:59,529 --> 00:33:57,710

creates a magnetic field so there must

711

00:34:02,169 --> 00:33:59,539

be something magnetic inside of the

712

00:34:04,389 --> 00:34:02,179

earth now this is completely absurd

713

00:34:06,580 --> 00:34:04,399

because we also know that inside the

714

00:34:10,190 --> 00:34:06,590

earth the temperatures are very high and

715

00:34:13,130 --> 00:34:10,200

at its high temperatures

716

00:34:16,690 --> 00:34:13,140

these elements iron and nickel do not

717

00:34:20,570 --> 00:34:16,700

have any magnetic properties anymore so

718

00:34:25,110 --> 00:34:20,580

that avoids the whole reasoning the

719

00:34:29,080 --> 00:34:25,120

other reason is even more absurd

720

00:34:33,790 --> 00:34:31,330

we look what is in them and we find that

721

00:34:36,850 --> 00:34:33,800

they often contain high amounts of iron

722

00:34:39,159 --> 00:34:36,860

and nickel so that is the reason why we

723

00:34:42,790 --> 00:34:39,169

assume that the dirt poor must also be

724

00:34:47,320 --> 00:34:42,800

iron and nickel so this does not make

725

00:34:50,740 --> 00:34:47,330

any sense at all so if you look at this

726

00:34:55,480 --> 00:34:50,750

reasoning then I think it might as well

727

00:35:00,290 --> 00:34:55,490

say that the first pass or gold pour or

728

00:35:02,180 --> 00:35:00,300

it has a platinum or it is equally

729

00:35:05,650 --> 00:35:02,190

absurd

730

00:35:09,770 --> 00:35:05,660

there is no real reason why we assume it

731

00:35:10,340 --> 00:35:09,780

hmm so with the understanding that you

732

00:35:13,040 --> 00:35:10,350

have

733

00:35:15,050 --> 00:35:13,050

what would you hypothesize is in the

734

00:35:20,280 --> 00:35:15,060

middle some type of inner son or inner

735

00:35:20,290 --> 00:35:24,640

in a way yes in a way

736

00:35:32,020 --> 00:35:28,570

if you look for element again then you

737

00:35:36,610 --> 00:35:32,030

can project these on our solar system

738

00:35:38,860 --> 00:35:36,620

and you see then that the Sun is made

739

00:35:42,130 --> 00:35:38,870

this department fire the moon would be

740

00:35:46,030 --> 00:35:42,140

the element water the add atmosphere and

741

00:35:50,490 --> 00:35:46,040

blow the Stars everything would be air

742

00:35:56,040 --> 00:35:50,500

and then the earth will be the receiving

743

00:35:59,670 --> 00:35:56,050

Alamut earth Crispo earth now the energy

744

00:36:03,030 --> 00:35:59,680

goes from this comes from the zone but

745

00:36:05,280 --> 00:36:03,040

gets received in the earth heating up

746

00:36:08,130 --> 00:36:05,290

the inside of the earth which is also

747

00:36:11,370 --> 00:36:08,140

known and it's interesting to see that

748

00:36:14,910 --> 00:36:11,380

Tesla also says it

749

00:36:19,670 --> 00:36:14,920

he says that the Sun is an electrically

750

00:36:24,540 --> 00:36:19,680

charged object it's at a potential of

751
00:36:28,090 --> 00:36:24,550
215 or 216 billion fold and so it wants

752
00:36:31,450 --> 00:36:28,100
to discharge from of death electricity

753
00:36:34,890 --> 00:36:31,460
and it cannot do that because it's email

754
00:36:38,410 --> 00:36:34,900
ineffective so what happens then is that

755
00:36:41,620 --> 00:36:38,420
myths particles charged particles in the

756
00:36:45,810 --> 00:36:41,630
form of primary cosmic rays and these

757
00:36:48,760 --> 00:36:45,820
particles called through near-earth and

758
00:36:51,289 --> 00:36:48,770
in passing through the earth if they eat

759
00:36:55,969 --> 00:36:51,299
up the inside of the earth

760
00:36:58,489 --> 00:36:55,979
now that is not met immediately with our

761
00:37:02,449 --> 00:36:58,499
modern understanding because now modern

762
00:37:04,579 --> 00:37:02,459
fuels we say no there are nuclear

763
00:37:08,989 --> 00:37:04,589

processes happening inside the earth

764

00:37:12,739 --> 00:37:08,999

which eat up the earth but in the stars

765

00:37:18,169 --> 00:37:12,749

understanding these primary rates they

766

00:37:21,499 --> 00:37:18,179

cause radioactive decay so in passing to

767

00:37:24,229 --> 00:37:21,509

the earth they caused this radioactive

768

00:37:28,969 --> 00:37:24,239

decay and heat of the earth so these two

769

00:37:32,989 --> 00:37:28,979

fuse actually match and so the inside of

770

00:37:36,649 --> 00:37:32,999

the earth receives the energy from the

771

00:37:40,459 --> 00:37:36,659

Sun hmm so it's like a like a womb of

772

00:37:43,609 --> 00:37:40,469

sorts yes that's pretty interesting yeah

773

00:37:46,459 --> 00:37:43,619

I never hear described that way so I

774

00:37:49,009 --> 00:37:46,469

don't know if anything is being born out

775

00:37:51,019 --> 00:37:49,019

of that I guess except everything on the

776

00:37:52,399 --> 00:37:51,029

planet you know you could say that you

777

00:37:53,839 --> 00:37:52,409

know that's why we call it Mother Earth

778

00:37:56,929 --> 00:37:53,849

I mean I think there's probably

779

00:38:00,379 --> 00:37:56,939

something to that yes yeah that's

780

00:38:05,689 --> 00:38:00,389

probably that but I have not explored

781

00:38:07,969 --> 00:38:05,699

that I need further I'm afraid hmm well

782

00:38:10,219 --> 00:38:07,979

this might be a good place to bring up

783

00:38:12,019 --> 00:38:10,229

another book of yours one that I was

784

00:38:13,519 --> 00:38:12,029

really really interested in but didn't

785

00:38:17,239 --> 00:38:13,529

get time to read before this interview

786

00:38:19,639 --> 00:38:17,249

but that is the battle for Wardencllyffe

787

00:38:22,429 --> 00:38:19,649

a story in letters yeah because you took

788

00:38:25,189 --> 00:38:22,439

the actual correspondence between Tesla

789

00:38:28,039 --> 00:38:25,199

and JP Morgan and reproduce them which

790

00:38:30,109 --> 00:38:28,049

is just such a service to the world what

791

00:38:31,849 --> 00:38:30,119

would you say that you learned in that

792

00:38:34,639 --> 00:38:31,859

process there are a lot of assumptions

793

00:38:37,579 --> 00:38:34,649

and speculation but did anything you

794

00:38:39,739 --> 00:38:37,589

found contradict that general story that

795

00:38:43,159 --> 00:38:39,749

Tesla wanted to use that tower to

796

00:38:45,709 --> 00:38:43,169

provide power or communications to the

797

00:38:47,659 --> 00:38:45,719

whole world and JP Morgan shut it down

798

00:38:49,879 --> 00:38:47,669

and suppressed it I mean it seems like

799

00:38:53,059 --> 00:38:49,889

that is the general gist and it seems to

800

00:38:55,939 --> 00:38:53,069

be validated by these letters yes I

801
00:39:00,379 --> 00:38:55,949
think that is validated largely by these

802
00:39:03,259 --> 00:39:00,389
letters but what he do not see in these

803
00:39:05,210 --> 00:39:03,269
letters is that Tesla wanted to generate

804
00:39:09,290 --> 00:39:05,220
electricity in this war

805
00:39:12,859 --> 00:39:09,300
the power like this part very secret

806
00:39:16,820 --> 00:39:12,869
because I think you understood that that

807
00:39:18,980 --> 00:39:16,830
would take away the reason for investors

808
00:39:23,420 --> 00:39:18,990
to invest in this project especially

809
00:39:26,900 --> 00:39:23,430
projecting more than who had invested

810
00:39:29,750 --> 00:39:26,910
largely in other sources of electrical

811
00:39:32,290 --> 00:39:29,760
power and also the distribution of power

812
00:39:35,200 --> 00:39:32,300
so

813
00:39:38,440 --> 00:39:35,210

if wouldn't've power if it would replace

814

00:39:42,120 --> 00:39:38,450

the existing distribution system then

815

00:39:44,680 --> 00:39:42,130

that would also for it is fine and Sears

816

00:39:48,160 --> 00:39:44,690

Network for electrical power

817

00:39:50,440 --> 00:39:48,170

distribution right on and for people who

818

00:39:53,910 --> 00:39:50,450

have maybe seen the picture or who

819

00:39:56,380 --> 00:39:53,920

understand of course providing power or

820

00:39:58,740 --> 00:39:56,390

communications wirelessly obviously we

821

00:40:01,180 --> 00:39:58,750

kind of get a gist of that but if

822

00:40:03,640 --> 00:40:01,190

Tesla's goals with the Wardenclyffe

823

00:40:07,150 --> 00:40:03,650

tower were fully realized and there was

824

00:40:10,450 --> 00:40:07,160

no interference and we had his fully

825

00:40:13,900 --> 00:40:10,460

researched top-of-the-line model in use

826

00:40:16,030 --> 00:40:13,910

how would that change the way we get

827

00:40:19,540 --> 00:40:16,040

energy how would that change the life of

828

00:40:20,830 --> 00:40:19,550

the average person I think it would

829

00:40:24,790 --> 00:40:20,840

change it quite a matically

830

00:40:27,340 --> 00:40:24,800

because well you can do away with all

831

00:40:30,310 --> 00:40:27,350

these electrical this the whole

832

00:40:34,540 --> 00:40:30,320

electrical grid everywhere if you wanted

833

00:40:37,420 --> 00:40:34,550

to because with very small set of coils

834

00:40:41,829 --> 00:40:37,430

you can devise power at any place around

835

00:40:46,470 --> 00:40:41,839

the globe so that alone

836

00:40:49,289 --> 00:40:46,480

we'll change the world dramatically

837

00:40:52,680 --> 00:40:49,299

I think apart from that we would also

838

00:40:54,839 --> 00:40:52,690

like to use it for communication and

839

00:40:57,210 --> 00:40:54,849

navigation purposes but for that we

840

00:41:00,359 --> 00:40:57,220

already have developed the internet and

841

00:41:04,410 --> 00:41:00,369

GPS system so that would not change

842

00:41:08,400 --> 00:41:04,420

anything anymore but at this time the

843

00:41:10,650 --> 00:41:08,410

resolution mm-hmm so yes we could get

844

00:41:14,880 --> 00:41:10,660

rid of all the powerlines all the

845

00:41:17,069 --> 00:41:14,890

nasty-looking electric wires running up

846

00:41:19,200 --> 00:41:17,079

to our house and all around the eaves of

847

00:41:21,990 --> 00:41:19,210

our houses and all this stuff but when

848

00:41:24,630 --> 00:41:22,000

it comes to how we would turn a light on

849

00:41:26,730 --> 00:41:24,640

or how we would access that power would

850

00:41:29,130 --> 00:41:26,740

we just have an antenna that receives

851
00:41:31,440 --> 00:41:29,140
that signal from the tower on our home

852
00:41:33,510 --> 00:41:31,450
and then everything comes from that or

853
00:41:37,140 --> 00:41:33,520
how would the average person receive

854
00:41:42,329 --> 00:41:37,150
that power from the tower to powering

855
00:41:44,069 --> 00:41:42,339
the devices in their home I think to get

856
00:41:47,760 --> 00:41:44,079
enough power to generate an effort

857
00:41:49,699 --> 00:41:47,770
household you would need a large system

858
00:41:55,739 --> 00:41:49,709
so

859
00:41:59,819 --> 00:41:55,749
house or not I think if you can avoid

860
00:42:01,829 --> 00:41:59,829
that they would so in a community in a

861
00:42:05,039 --> 00:42:01,839
small village or so I think that would

862
00:42:07,049 --> 00:42:05,049
be one central plan to get this power

863
00:42:09,739 --> 00:42:07,059

and then distribute it to the houses I

864

00:42:13,499 --> 00:42:09,749

think that would be the most central

865

00:42:15,719 --> 00:42:13,509

simple way to use that fair so yes not

866

00:42:17,879 --> 00:42:15,729

every house needs a receiver just every

867

00:42:20,009 --> 00:42:17,889

community every neighborhood might need

868

00:42:23,060 --> 00:42:20,019

one and then would the energy just go

869

00:42:26,210 --> 00:42:23,070

from there through the ground

870

00:42:28,010 --> 00:42:26,220

no no then you just have the electrical

871

00:42:30,860 --> 00:42:28,020

wires because if you send it again

872

00:42:33,740 --> 00:42:30,870

through the crown then you need this

873

00:42:37,760 --> 00:42:33,750

similar system to receive the power

874

00:42:39,830 --> 00:42:37,770

again so that doesn't help gadget so we

875

00:42:43,700 --> 00:42:39,840

need the wires from the station from the

876
00:42:45,830 --> 00:42:43,710
receiver to the home yes unless you have

877
00:42:48,920 --> 00:42:45,840
only a small you need only a very small

878
00:42:51,620 --> 00:42:48,930
amount of energy to search your mobile

879
00:42:54,470 --> 00:42:51,630
phone then you could play some coils in

880
00:42:56,810 --> 00:42:54,480
your phone and receive it hmm yeah

881
00:42:59,470 --> 00:42:56,820
gotcha so anything that you could put a

882
00:43:02,840 --> 00:42:59,480
coil directly in would just be powered

883
00:43:05,180 --> 00:43:02,850
yes see there's the trick of course

884
00:43:07,040 --> 00:43:05,190
we're always we're always scrambling

885
00:43:09,740 --> 00:43:07,050
back to that outlet trying to get some

886
00:43:12,890 --> 00:43:09,750
juice you know and that and so this

887
00:43:15,410 --> 00:43:12,900
would be quite paradigm change yes and

888
00:43:18,140 --> 00:43:15,420

also like for example LED lights they

889

00:43:20,589 --> 00:43:18,150

use only very small amount of power so

890

00:43:24,909 --> 00:43:20,599

you can also wire them

891

00:43:26,259 --> 00:43:24,919

like them wirelessly hmm yes you have to

892

00:43:28,929 --> 00:43:26,269

find a way to switch them on and off

893

00:43:31,329 --> 00:43:28,939

that's the only thing and it would be

894

00:43:34,809 --> 00:43:31,339

the same distribution that you could

895

00:43:38,709 --> 00:43:34,819

also use to get communications around

896

00:43:41,169 --> 00:43:38,719

the world yes right that's really

897

00:43:43,299 --> 00:43:41,179

interesting it's the same thing but you

898

00:43:47,829 --> 00:43:43,309

already have this way to the earth and

899

00:43:51,459 --> 00:43:47,839

you can modulate new waves on this

900

00:43:54,849 --> 00:43:51,469

larger wave the larger wave is the power

901
00:43:58,120 --> 00:43:54,859
the energy and on that to modulate

902
00:44:03,179 --> 00:43:58,130
smaller waves which can be communication

903
00:44:06,549 --> 00:44:03,189
messages what happened by the way I

904
00:44:10,179 --> 00:44:06,559
understood from someone else that this

905
00:44:14,859 --> 00:44:10,189
system of distribution is not very clear

906
00:44:17,559 --> 00:44:14,869
even if you read my book I try to

907
00:44:21,819 --> 00:44:17,569
explain it in a clear manner but who

908
00:44:23,650 --> 00:44:21,829
doesn't get through too much because we

909
00:44:27,729 --> 00:44:23,660
grow up in a different paradigm

910
00:44:30,740 --> 00:44:27,739
you cannot immediately cross this issue

911
00:44:33,109 --> 00:44:30,750
but I think

912
00:44:36,080 --> 00:44:33,119
we sent to the earth consists of two

913
00:44:38,359 --> 00:44:36,090

parts one is a wave pressure wave from

914

00:44:42,140 --> 00:44:38,369

the children away in the medium in

915

00:44:45,890 --> 00:44:42,150

electricity so this medium this

916

00:44:49,880 --> 00:44:45,900

electricity is not a charge this is what

917

00:44:52,820 --> 00:44:49,890

causes charge so it is a gaseous medium

918

00:44:56,540 --> 00:44:52,830

that is held inside the earth and

919

00:44:59,570 --> 00:44:56,550

slightly around it and you create a

920

00:45:01,990 --> 00:44:59,580

standing longitudinal wave in this

921

00:45:04,780 --> 00:45:02,000

medium but it does not have any

922

00:45:08,839 --> 00:45:04,790

electrical or magnetic effect in itself

923

00:45:12,320 --> 00:45:08,849

it's only a way in the medium that

924

00:45:14,359 --> 00:45:12,330

causes elected that so after you have

925

00:45:19,599 --> 00:45:14,369

this way if you can create electrical

926

00:45:23,049 --> 00:45:19,609

cuts in it and those get amplified and

927

00:45:27,759 --> 00:45:23,059

the quality opposite of amplified in

928

00:45:30,160 --> 00:45:27,769

this way so you sent electromagnetic

929

00:45:34,809 --> 00:45:30,170

signals through this medium and this

930

00:45:38,890 --> 00:45:34,819

medium is also in a way it's a bit

931

00:45:41,440 --> 00:45:38,900

difficult to visualize I think it can do

932

00:45:43,749 --> 00:45:41,450

it but you know obviously you give all

933

00:45:46,509 --> 00:45:43,759

this context in the book and then you

934

00:45:48,099 --> 00:45:46,519

describe the very technical experiments

935

00:45:50,469 --> 00:45:48,109

that you've carried out to try and

936

00:45:53,259 --> 00:45:50,479

follow along with what Tesla was doing

937

00:45:55,569 --> 00:45:53,269

it is a fascinating journey but it is a

938

00:45:58,390 --> 00:45:55,579

bit complex and the diagrams and photos

939

00:46:00,940 --> 00:45:58,400

you provide are things we can't show

940

00:46:04,089 --> 00:46:00,950

people here but obviously you've

941

00:46:05,559 --> 00:46:04,099

verified a lot of this foundational

942

00:46:09,549 --> 00:46:05,569

stuff I guess how would you describe

943

00:46:12,510 --> 00:46:09,559

your progress or the state of what

944

00:46:14,520 --> 00:46:12,520

you've been able to achieve thus far

945

00:46:16,440 --> 00:46:14,530

there are few things that we first

946

00:46:21,570 --> 00:46:16,450

successfully verified I think the one

947

00:46:25,020 --> 00:46:21,580

over this is the 11.7 birds wave that

948

00:46:27,720 --> 00:46:25,030

you can create in the earth that many

949

00:46:29,520 --> 00:46:27,730

people just [h__h] to say you cannot

950

00:46:33,870 --> 00:46:29,530

have an electrical wave in near earth

951
00:46:37,109 --> 00:46:33,880
because it would diminish very rapidly

952
00:46:39,990 --> 00:46:37,119
and you cannot reach the other end of

953
00:46:41,430 --> 00:46:40,000
Europe that is because they don't

954
00:46:45,329 --> 00:46:41,440
understand what I was doing

955
00:46:48,150 --> 00:46:45,339
he was creating as I said before a wave

956
00:46:49,800 --> 00:46:48,160
in the medium that causes electric the

957
00:46:54,510 --> 00:46:49,810
facts not

958
00:46:57,690 --> 00:46:54,520
in electricity as we know it so this way

959
00:47:01,500 --> 00:46:57,700
I could reproduce and I can show that

960
00:47:06,120 --> 00:47:01,510
this wave of the 11.7 work that is the

961
00:47:09,450 --> 00:47:06,130
gist another much more important

962
00:47:12,480 --> 00:47:09,460
conclusion that I've been able to verify

963
00:47:15,270 --> 00:47:12,490

is that in an electrical discharge at

964

00:47:18,990 --> 00:47:15,280

sufficiently high voltage

965

00:47:21,630 --> 00:47:19,000

you have more electric charge coming out

966

00:47:26,360 --> 00:47:21,640

of the discharge then went in to the

967

00:47:30,150 --> 00:47:26,370

discharge and that way you can tap an

968

00:47:33,360 --> 00:47:30,160

energy source the same energy source

969

00:47:36,240 --> 00:47:33,370

actually does supply energy to lightning

970

00:47:40,050 --> 00:47:36,250

that we see in nature

971

00:47:44,460 --> 00:47:40,060

yes that last part is probably the most

972

00:47:46,470 --> 00:47:44,470

fascinating and is that related to what

973

00:47:49,320 --> 00:47:46,480

you talk about in the book as Tesla's

974

00:47:51,240 --> 00:47:49,330

self acting engine is it tapping this

975

00:47:56,230 --> 00:47:51,250

same energy source you're talking about

976

00:48:02,319 --> 00:47:58,799

that's the self-acting engine that is

977

00:48:05,230 --> 00:48:02,329

the magnifying transmitter but to start

978

00:48:08,799 --> 00:48:05,240

this process is magnetron transmitter so

979

00:48:12,190 --> 00:48:08,809

what it does is you start it up first

980

00:48:14,020 --> 00:48:12,200

with conventional energy and then you

981

00:48:17,770 --> 00:48:14,030

create a very high voltage this voltage

982

00:48:21,250 --> 00:48:17,780

spark who were receiving circuit and we

983

00:48:24,790 --> 00:48:21,260

sent that power into the earth higher

984

00:48:26,849 --> 00:48:24,800

frequency so this pulse travels to the

985

00:48:29,380 --> 00:48:26,859

other side of the earth comes back and

986

00:48:32,600 --> 00:48:29,390

feeds back into your secondary coil

987

00:48:36,470 --> 00:48:32,610

again so it's reused

988

00:48:39,350 --> 00:48:36,480

in the system so at some point you have

989

00:48:42,260 --> 00:48:39,360

enough energy coming back to keep the

990

00:48:44,900 --> 00:48:42,270

system alive so then you have a self

991

00:48:46,730 --> 00:48:44,910

acting engine which of course modern

992

00:48:50,930 --> 00:48:46,740

science would say oh that's perpetual

993

00:48:53,450 --> 00:48:50,940

motion that cannot exist but in a strict

994

00:48:57,610 --> 00:48:53,460

way it's not perpetual motion because it

995

00:49:01,000 --> 00:48:57,620

draws energy from the environment so

996

00:49:04,040 --> 00:49:01,010

it's allowed by their laws of physics

997

00:49:08,090 --> 00:49:04,050

mm-hmm yes I thought that was super

998

00:49:09,910 --> 00:49:08,100

fascinating you talked about cooling a

999

00:49:12,290 --> 00:49:09,920

portion of the atmosphere and then

1000

00:49:14,750 --> 00:49:12,300

collecting heat in the form of

1001
00:49:16,580 --> 00:49:14,760
electrical potential you use this to

1002
00:49:18,470 --> 00:49:16,590
strike the earth at regular intervals

1003
00:49:21,200 --> 00:49:18,480
creating a standing wave of the Earth's

1004
00:49:23,780 --> 00:49:21,210
electricity and then on this wave you

1005
00:49:26,000 --> 00:49:23,790
modulate a high-frequency signal that

1006
00:49:28,160 --> 00:49:26,010
can be picked up by receivers all around

1007
00:49:31,400 --> 00:49:28,170
the world basically because it's in the

1008
00:49:33,680 --> 00:49:31,410
atmosphere and also by our magnifying

1009
00:49:35,990 --> 00:49:33,690
transmitter and that would be used to

1010
00:49:38,620 --> 00:49:36,000
keep it going you basically use its own

1011
00:49:42,620 --> 00:49:38,630
energy to power its you know it's

1012
00:49:44,890 --> 00:49:42,630
feedback loop it's working except the

1013
00:49:48,260 --> 00:49:44,900

you draw power from the atmosphere and

1014

00:49:51,440 --> 00:49:48,270

that with that power your people going

1015

00:49:54,880 --> 00:49:51,450

and you draw enough power from the

1016

00:49:58,370 --> 00:49:54,890

atmosphere to send some power to other

1017

00:50:01,060 --> 00:49:58,380

receivers as well yeah it's amazing and

1018

00:50:05,510 --> 00:50:01,070

I wanted to revisit what you said about

1019

00:50:07,160 --> 00:50:05,520

the fantasy science it seems like when

1020

00:50:10,910 --> 00:50:07,170

you're talking about that you know there

1021

00:50:13,550 --> 00:50:10,920

are people that create these call them

1022

00:50:16,100 --> 00:50:13,560

free energy devices and you talk about

1023

00:50:18,500 --> 00:50:16,110

them in the book as you're going through

1024

00:50:21,020 --> 00:50:18,510

this methodically trying to follow

1025

00:50:22,370 --> 00:50:21,030

Tesla's work and build up to something

1026

00:50:23,960 --> 00:50:22,380

like that but there are people who have

1027

00:50:26,510 --> 00:50:23,970

created it and then they don't

1028

00:50:27,920 --> 00:50:26,520

necessarily know why it works it does

1029

00:50:30,140 --> 00:50:27,930

work I mean you're not saying it doesn't

1030

00:50:32,390 --> 00:50:30,150

work but then they come up with a theory

1031

00:50:34,730 --> 00:50:32,400

or they come up with new terms to

1032

00:50:36,680 --> 00:50:34,740

describe what's happening and that's why

1033

00:50:38,990 --> 00:50:36,690

nothing really progresses because

1034

00:50:41,330 --> 00:50:39,000

everyone gets confused on these

1035

00:50:43,190 --> 00:50:41,340

compartmentalized terms there's no unity

1036

00:50:45,410 --> 00:50:43,200

to any of this and if you were to start

1037

00:50:48,470 --> 00:50:45,420

with the principles and work

1038

00:50:50,030 --> 00:50:48,480

up that way you know we could maybe all

1039

00:50:53,300 --> 00:50:50,040

get on the same page and it would be

1040

00:50:54,620 --> 00:50:53,310

easier to to actually talk about this

1041

00:50:57,079 --> 00:50:54,630

stuff

1042

00:50:59,690 --> 00:50:57,089

yes the dead stay principle you just

1043

00:51:01,880 --> 00:50:59,700

explained it perfectly in the way that

1044

00:51:05,989 --> 00:51:01,890

he cool a portion of the median and you

1045

00:51:09,289 --> 00:51:05,999

draw in that way power from the median

1046

00:51:12,410 --> 00:51:09,299

because the median supplies eat and eat

1047

00:51:16,549 --> 00:51:12,420

in the medium eating electricity is

1048

00:51:18,559 --> 00:51:16,559

equivalent to electrical charge I show

1049

00:51:20,089 --> 00:51:18,569

that in the book but maybe that's a

1050

00:51:24,289 --> 00:51:20,099

little bit too complicated according to

1051

00:51:27,739 --> 00:51:24,299

now but these other systems be compared

1052

00:51:33,849 --> 00:51:27,749

and I think and someone else does that

1053

00:51:40,239 --> 00:51:37,029

so you slowly build up charge you slowly

1054

00:51:42,459 --> 00:51:40,249

build up electric potential and this

1055

00:51:46,599 --> 00:51:42,469

pressure electric pressure and you

1056

00:51:49,569 --> 00:51:46,609

suddenly release that pressure thereby

1057

00:51:52,870 --> 00:51:49,579

you cool the medium because that's what

1058

00:51:56,229 --> 00:51:52,880

happens an air condition for example to

1059

00:51:58,299 --> 00:51:56,239

you you pressurize it and then you

1060

00:52:01,839 --> 00:51:58,309

pressurize the gas outside your house

1061

00:52:03,370 --> 00:52:01,849

and then it comes down to normal

1062

00:52:05,289 --> 00:52:03,380

temperature and then you let it inside

1063

00:52:08,370 --> 00:52:05,299

the house you decompress it and by

1064

00:52:10,920 --> 00:52:08,380

decompressing it you

1065

00:52:14,489 --> 00:52:10,930

absorb energy heat energy from inside

1066

00:52:17,359 --> 00:52:14,499

the house so you cool the house the same

1067

00:52:20,630 --> 00:52:17,369

thing happens in the SystemVue

1068

00:52:24,269 --> 00:52:20,640

compressed electricity so thereby

1069

00:52:27,989 --> 00:52:24,279

creating a high potential that you do

1070

00:52:30,749 --> 00:52:27,999

this slowly so you don't disturb the

1071

00:52:34,349 --> 00:52:30,759

heat environment then you suddenly

1072

00:52:37,019 --> 00:52:34,359

release this pressure and then you cool

1073

00:52:40,460 --> 00:52:37,029

this electricity and by cooling this

1074

00:52:44,729 --> 00:52:40,470

electricity you absorb it in the form of

1075

00:52:47,910 --> 00:52:44,739

electrical energy and this gets used in

1076

00:52:50,729 --> 00:52:47,920

these systems it's the same system you

1077

00:52:53,569 --> 00:52:50,739

see in these small systems that from the

1078

00:52:56,640 --> 00:52:53,579

autonomous the other people make and

1079

00:52:57,710 --> 00:52:56,650

it's the same that Tesla uses in its

1080

00:53:01,620 --> 00:52:57,720

water tower

1081

00:53:03,950 --> 00:53:01,630

hmm yes I think that's a great way to

1082

00:53:07,349 --> 00:53:03,960

summarize it and this idea that

1083

00:53:10,079 --> 00:53:07,359

lightning is kind of a clue it sort of

1084

00:53:11,910 --> 00:53:10,089

speaks to the intelligence of the

1085

00:53:13,829 --> 00:53:11,920

universe or something that it would show

1086

00:53:15,779 --> 00:53:13,839

you lightning and be like get you to

1087

00:53:17,729 --> 00:53:15,789

think huh what's up what's doing that

1088

00:53:19,410 --> 00:53:17,739

you know what how could I use this

1089

00:53:21,950 --> 00:53:19,420

because there's bright minds like viktor

1090

00:53:25,920 --> 00:53:21,960

schauberger who have looked to nature

1091

00:53:28,019 --> 00:53:25,930

and mechanisms of trout swimming

1092

00:53:29,910 --> 00:53:28,029

upstream and certain things like this to

1093

00:53:32,940 --> 00:53:29,920

then derive technologies from

1094

00:53:35,249 --> 00:53:32,950

rather than just smash in and blowing

1095

00:53:39,930 --> 00:53:35,259

everything up the way our conventional

1096

00:53:42,569 --> 00:53:39,940

system does well this has been just

1097

00:53:44,219 --> 00:53:42,579

super fascinating and really informative

1098

00:53:46,559 --> 00:53:44,229

I actually can't wait to get it out

1099

00:53:48,749 --> 00:53:46,569

there to the people but we should take

1100

00:53:50,940 --> 00:53:48,759

some time to tell them about your goals

1101
00:53:54,779 --> 00:53:50,950
going forward and how they can support

1102
00:53:57,299 --> 00:53:54,789
you I think it's a really ingenious idea

1103
00:53:59,609 --> 00:53:57,309
but you offer up seven possible

1104
00:54:01,589 --> 00:53:59,619
directions for the work to go and you

1105
00:54:04,289 --> 00:54:01,599
say that anyone who donates should just

1106
00:54:06,839 --> 00:54:04,299
use the last digit of their donation

1107
00:54:09,089 --> 00:54:06,849
amount to denote which option they'd

1108
00:54:11,309 --> 00:54:09,099
like to support for example if I wanted

1109
00:54:14,370 --> 00:54:11,319
to donate towards anti-gravity quirk

1110
00:54:16,109 --> 00:54:14,380
which is option six I might donate 100

1111
00:54:17,910 --> 00:54:16,119
dollars and six cents

1112
00:54:21,560 --> 00:54:17,920
I think that's clever

1113
00:54:24,480 --> 00:54:21,570

yeah also too I think that also

1114

00:54:26,460 --> 00:54:24,490

encourages people to to actually donate

1115

00:54:29,280 --> 00:54:26,470

something because they want to know

1116

00:54:31,260 --> 00:54:29,290

something more I will look into it if

1117

00:54:36,170 --> 00:54:31,270

you tell me what you want me to research

1118

00:54:38,400 --> 00:54:36,180

more right so you in order you have

1119

00:54:41,310 --> 00:54:38,410

rebuilding the Colorado Springs

1120

00:54:44,150 --> 00:54:41,320

Experimental Station researching

1121

00:54:47,210 --> 00:54:44,160

worldwide wireless transmission

1122

00:54:49,980 --> 00:54:47,220

researching single wire transmission

1123

00:54:53,250 --> 00:54:49,990

rebuilding a full-sized magnifying

1124

00:54:55,860 --> 00:54:53,260

transmitter researching down scaling

1125

00:54:57,860 --> 00:54:55,870

Tesla's energy source which would be

1126

00:55:00,870 --> 00:54:57,870

those gravity waves we talked about

1127

00:55:03,900 --> 00:55:00,880

anti-gravity and then fundamental

1128

00:55:06,720 --> 00:55:03,910

research into the nature of things well

1129

00:55:11,490 --> 00:55:06,730

those are the seven options which one's

1130

00:55:14,070 --> 00:55:11,500

winning I mean so far nothing is winning

1131

00:55:16,950 --> 00:55:14,080

it I've sold 15 copies of the book I

1132

00:55:20,859 --> 00:55:16,960

think basically I haven't looked

1133

00:55:23,109 --> 00:55:20,869

recently but not so so many books here

1134

00:55:27,789 --> 00:55:23,119

so yeah I think people are still chewing

1135

00:55:31,359 --> 00:55:27,799

on it and I've not got any response

1136

00:55:34,059 --> 00:55:31,369

let's hope yeah well we're gonna blow it

1137

00:55:36,069 --> 00:55:34,069

up here we're blowin up I had one person

1138

00:55:39,069 --> 00:55:36,079

that I am you negating with and he

1139

00:55:43,359 --> 00:55:39,079

pointed me out some troubles that he had

1140

00:55:45,910 --> 00:55:43,369

interpreting the book so maybe there

1141

00:55:50,049 --> 00:55:45,920

will be a next book in which I can

1142

00:55:52,029 --> 00:55:50,059

explain in more detail what his problems

1143

00:55:56,019 --> 00:55:52,039

are so more people can understand what's

1144

00:55:58,299 --> 00:55:56,029

going on more detail man I feel like I

1145

00:56:00,130 --> 00:55:58,309

was drowning in detail in this book it's

1146

00:56:02,769 --> 00:56:00,140

I mean in a good way you know

1147

00:56:05,430 --> 00:56:02,779

it's really impressive the way you show

1148

00:56:08,999 --> 00:56:05,440

these graphs and then you actually have

1149

00:56:12,219 --> 00:56:09,009

photographs of you doing the actual

1150

00:56:14,769 --> 00:56:12,229

experiments and the you know arc

1151

00:56:17,499 --> 00:56:14,779

discharges that are coming off of the

1152

00:56:20,469 --> 00:56:17,509

devices that you're running and it's

1153

00:56:22,870 --> 00:56:20,479

already impressive but it's very

1154

00:56:26,289 --> 00:56:22,880

difficult as I said to explain what's

1155

00:56:29,049 --> 00:56:26,299

happening in the terms that I want to

1156

00:56:31,539 --> 00:56:29,059

explain it because people are still in

1157

00:56:33,729 --> 00:56:31,549

this modern mindset it is more modern

1158

00:56:39,219 --> 00:56:33,739

paradigm it's very difficult

1159

00:56:41,680 --> 00:56:39,229

I found the essence across right

1160

00:56:44,009 --> 00:56:41,690

I think what's difficult for the layman

1161

00:56:46,859 --> 00:56:44,019

to understand is what are the true

1162

00:56:50,950 --> 00:56:46,869

implications what are the practical

1163

00:56:53,430 --> 00:56:50,960

applications of this work I mean I just

1164

00:56:55,809 --> 00:56:53,440

read those seven options and outside of

1165

00:56:58,209 --> 00:56:55,819

anti-gravity crafts which is pretty

1166

00:56:59,920 --> 00:56:58,219

clear a lot of people might wonder well

1167

00:57:02,549 --> 00:56:59,930

which one of these would impact my life

1168

00:57:05,950 --> 00:57:02,559

the most I don't even know what I want

1169

00:57:08,769 --> 00:57:05,960

yeah I don't know that's why I'm asking

1170

00:57:10,870 --> 00:57:08,779

that people I think we have to look

1171

00:57:14,200 --> 00:57:10,880

deeper into Tesla's work because there's

1172

00:57:16,900 --> 00:57:14,210

still so much that is not utilized and

1173

00:57:19,180 --> 00:57:16,910

we have to come to a point where it is

1174

00:57:22,599 --> 00:57:19,190

utilized where we use this new energy

1175

00:57:25,450 --> 00:57:22,609

source for example we have to use it so

1176
00:57:27,640 --> 00:57:25,460
how do you want me to proceed and give

1177
00:57:30,519 --> 00:57:27,650
me the means to proceed because I'm

1178
00:57:32,190 --> 00:57:30,529
pretty much run out of funds at the

1179
00:57:34,620 --> 00:57:32,200
moment

1180
00:57:37,260 --> 00:57:34,630
and that is also why I wrote these four

1181
00:57:42,150 --> 00:57:37,270
books these four books helped me to fund

1182
00:57:45,900 --> 00:57:42,160
my research in the future hmm so if I

1183
00:57:48,030 --> 00:57:45,910
was just to ask you between rebuilding

1184
00:57:51,380 --> 00:57:48,040
the Colorado Springs experimental

1185
00:57:55,710 --> 00:57:51,390
station or rebuilding a full-sized

1186
00:57:58,319 --> 00:57:55,720
magnifying transmitter which of those do

1187
00:57:59,160 --> 00:57:58,329
you think would yield the most bang for

1188
00:58:02,730 --> 00:57:59,170

the buck

1189

00:58:05,250 --> 00:58:02,740

I think the option pool would be better

1190

00:58:10,680 --> 00:58:05,260

the full-size magnifying transmitter but

1191

00:58:12,470 --> 00:58:10,690

it would imply also more experiments on

1192

00:58:16,680 --> 00:58:12,480

a smaller scale first

1193

00:58:18,900 --> 00:58:16,690

as I said before we have to know we have

1194

00:58:21,089 --> 00:58:18,910

to at least have some idea of what the

1195

00:58:26,130 --> 00:58:21,099

consequences are if we change the elect

1196

00:58:27,960 --> 00:58:26,140

status of the earth so we have to do

1197

00:58:30,060 --> 00:58:27,970

some more research on a smaller scale

1198

00:58:32,609 --> 00:58:30,070

first and then we can scale it up to the

1199

00:58:34,950 --> 00:58:32,619

magnifying transmitter it's actually the

1200

00:58:37,140 --> 00:58:34,960

same thing that Tesla did he first went

1201
00:58:40,109 --> 00:58:37,150
to Colorado Springs to this this

1202
00:58:41,910 --> 00:58:40,119
principles are and then he came and said

1203
00:58:46,020 --> 00:58:41,920
now I have it I want to build a

1204
00:58:47,849 --> 00:58:46,030
full-scale magnifying the paper hmm it

1205
00:58:50,579 --> 00:58:47,859
would be great to see and I guess I

1206
00:58:52,890 --> 00:58:50,589
would also ask you why move to seclusion

1207
00:58:55,170 --> 00:58:52,900
and Thailand where really it just seems

1208
00:58:58,319 --> 00:58:55,180
like you're further away from resources

1209
00:59:01,140 --> 00:58:58,329
or materials or potential partners that

1210
00:59:03,690 --> 00:59:01,150
might make this work easier yes but

1211
00:59:05,700 --> 00:59:03,700
you're also between the rice field

1212
00:59:10,050 --> 00:59:05,710
no one cares really about what I'm doing

1213
00:59:13,740 --> 00:59:10,060

here yeah if I were to build this lab in

1214

00:59:17,040 --> 00:59:13,750

Holland it would be demolished but

1215

00:59:19,680 --> 00:59:17,050

police and who knows what will come to

1216

00:59:21,359 --> 00:59:19,690

take it everything apart again before I

1217

00:59:25,470 --> 00:59:21,369

could do the thing from the first

1218

00:59:27,930 --> 00:59:25,480

experiment yeah I'm living between rice

1219

00:59:29,640 --> 00:59:27,940

farmers who hear the noise and they

1220

00:59:31,829 --> 00:59:29,650

think wow that is a loud noise and then

1221

00:59:33,809 --> 00:59:31,839

they go on and walk with a cow on the

1222

00:59:36,000 --> 00:59:33,819

street and then they get to eat some

1223

00:59:41,050 --> 00:59:36,010

processors they don't care what I'm

1224

00:59:43,960 --> 00:59:41,060

doing so yeah I can test their freedom

1225

00:59:47,020 --> 00:59:43,970

I like it I like it conjures up

1226
00:59:50,980 --> 00:59:47,030
provocative imagery of what you might be

1227
00:59:53,530 --> 00:59:50,990
doing out there but that's cool I can

1228
00:59:58,420 --> 00:59:53,540
tell you it's very very loud when you

1229
01:00:01,750 --> 00:59:58,430
have a spark at quarrel that takes 60

1230
01:00:06,340 --> 01:00:01,760
kilowatt it's like a machine gun going

1231
01:00:10,620 --> 01:00:06,350
off it's very loud is it dangerous to be

1232
01:00:12,960 --> 01:00:10,630
near some of this stuff I still live

1233
01:00:16,710 --> 01:00:12,970
yeah I wouldn't stand next to the coil

1234
01:00:19,880 --> 01:00:16,720
because it may arc to you and you

1235
01:00:24,299 --> 01:00:19,890
probably will not tell the tale

1236
01:00:27,660 --> 01:00:24,309
right right mmm well I guess is there

1237
01:00:30,180 --> 01:00:27,670
more to tell people about donating or

1238
01:00:32,620 --> 01:00:30,190

your future goals or anything else they

1239

01:00:36,190 --> 01:00:32,630

should know going forward

1240

01:00:38,290 --> 01:00:36,200

I think I summed it up in the last page

1241

01:00:42,460 --> 01:00:38,300

of the science of this last magic

1242

01:00:46,799 --> 01:00:42,470

if you skip to the last page last pages

1243

01:00:49,979 --> 01:00:46,809

I think is C 132

1244

01:00:52,169 --> 01:00:49,989

you see these options and you see the

1245

01:00:55,289 --> 01:00:52,179

ways in which you can support my project

1246

01:00:58,259 --> 01:00:55,299

is vital to cryptocurrencies

1247

01:01:03,029 --> 01:00:58,269

I give you my cryptocurrency addressed

1248

01:01:04,289 --> 01:01:03,039

or PayPal you can go to pay tell me /

1249

01:01:08,189 --> 01:01:04,299

paramdham

1250

01:01:10,360 --> 01:01:08,199

that is my name er and STW i double-l ii

1251

01:01:13,330 --> 01:01:10,370

and

1252

01:01:15,160 --> 01:01:13,340

there you can support me but also about

1253

01:01:19,840 --> 01:01:15,170

buying the books that I wrote you

1254

01:01:23,790 --> 01:01:19,850

support me so body book I would say and

1255

01:01:27,420 --> 01:01:23,800

help me out that way

1256

01:01:29,250 --> 01:01:27,430

yes and I will include the links to as

1257

01:01:31,200 --> 01:01:29,260

much of that as I can some of the

1258

01:01:33,420 --> 01:01:31,210

cryptocurrency addresses are a little

1259

01:01:36,270 --> 01:01:33,430

more complicated I don't know if you can

1260

01:01:38,070 --> 01:01:36,280

just take a photo of a QR code and then

1261

01:01:41,370 --> 01:01:38,080

reproduce it and get it to show up

1262

01:01:43,230 --> 01:01:41,380

accurately but I'll definitely do my

1263

01:01:45,360 --> 01:01:43,240

best to make it easy for people to

1264

01:01:47,790 --> 01:01:45,370

follow up on this and of course the

1265

01:01:49,200 --> 01:01:47,800

science of test is magic is the book and

1266

01:01:52,020 --> 01:01:49,210

will you be presenting it

1267

01:01:54,510 --> 01:01:52,030

Aran's next conference perhaps I don't

1268

01:01:57,090 --> 01:01:54,520

know yet at the moment I'm very short on

1269

01:02:00,540 --> 01:01:57,100

cash to travel to America is not an

1270

01:02:03,060 --> 01:02:00,550

option right now but it may be later who

1271

01:02:05,490 --> 01:02:03,070

knows who knows the future may be look

1272

01:02:11,000 --> 01:02:05,500

very different hey well who can put a

1273

01:02:15,330 --> 01:02:13,410

well I'm just messing around but it is

1274

01:02:17,730 --> 01:02:15,340

really important work you're doing and I

1275

01:02:20,970 --> 01:02:17,740

really value your time thanks for going

1276

01:02:23,180 --> 01:02:20,980

through the effort the logistical energy

1277

01:02:25,920 --> 01:02:23,190

put forth to actually make this happen

1278

01:02:28,320 --> 01:02:25,930

it's been a real pleasure thanks again

1279

01:02:31,290 --> 01:02:28,330

amazing work keep doing what you do and

1280

01:02:32,610 --> 01:02:31,300

stay safe out there well thanks for

1281

01:02:37,760 --> 01:02:32,620

having me

1282

01:02:40,310 --> 01:02:37,770

hope you'll reach a new audience

1283

01:02:47,600 --> 01:02:40,320

I think so I think so alright man well

1284

01:02:51,320 --> 01:02:47,610

enjoy the morning there I guess this is

1285

01:02:54,560 --> 01:02:51,330

the way higher side shatters this is the

1286

01:02:57,470 --> 01:02:54,570

way another look under the hood of ether

1287

01:03:00,680 --> 01:02:57,480

physics electricity and the suppressed

1288

01:03:04,370 --> 01:03:00,690

esoteric sciences I do hope you liked it

1289

01:03:07,490 --> 01:03:04,380

I know we got a little in the weeds with

1290

01:03:09,560 --> 01:03:07,500

some of the science e material but truth

1291

01:03:12,080 --> 01:03:09,570

be told it's those details and

1292

01:03:15,290 --> 01:03:12,090

explanations that we need to understand

1293

01:03:18,590 --> 01:03:15,300

to prove that this isn't sci-fi fantasy

1294

01:03:22,010 --> 01:03:18,600

stuff you know we can't just be vague

1295

01:03:25,490 --> 01:03:22,020

and hyperbolic we got to actually try to

1296

01:03:27,440 --> 01:03:25,500

understand it and as much as I do it I

1297

01:03:29,870 --> 01:03:27,450

don't actually like kickin off these

1298

01:03:33,620 --> 01:03:29,880

wrap ups with responses to criticisms

1299

01:03:35,630 --> 01:03:33,630

but we're here now and I've had a decent

1300

01:03:38,600 --> 01:03:35,640

amount of emails come in saying things

1301

01:03:39,980 --> 01:03:38,610

like I'm cancelling your show because it

1302

01:03:42,230 --> 01:03:39,990

used to be a lot of fun

1303

01:03:45,170 --> 01:03:42,240

spider beans and mind-control beams from

1304

01:03:49,310 --> 01:03:45,180

Saturn and now it's just a science

1305

01:03:53,600 --> 01:03:49,320

lesson or a health lesson and I get it I

1306

01:03:55,910 --> 01:03:53,610

do but I guess I'm trying to mature the

1307

01:03:58,940 --> 01:03:55,920

conspiracy culture a little bit if I

1308

01:04:03,110 --> 01:03:58,950

could be so bold and wild stuff will

1309

01:04:05,090 --> 01:04:03,120

always be in the higher side DNA as we

1310

01:04:07,490 --> 01:04:05,100

used to say we know they're lying to us

1311

01:04:10,580 --> 01:04:07,500

we just don't know to what degree so

1312

01:04:13,520 --> 01:04:10,590

we're gonna consider all degrees but if

1313

01:04:16,190 --> 01:04:13,530

we want to make progress in bringing

1314

01:04:21,200 --> 01:04:16,200

ether physics or the electric universe

1315

01:04:25,220 --> 01:04:21,210

or Tesla tech back from the cia's

1316

01:04:27,260 --> 01:04:25,230

basement and files of redacted documents

1317

01:04:30,530 --> 01:04:27,270

then we're gonna need to spend some time

1318

01:04:33,770 --> 01:04:30,540

with it real time I guess it comes down

1319

01:04:36,530 --> 01:04:33,780

to what you're looking for is the higher

1320

01:04:38,810 --> 01:04:36,540

side Schatz just something provocative

1321

01:04:42,050 --> 01:04:38,820

to listen to why you stock shelves or

1322

01:04:45,530 --> 01:04:42,060

fight the traffic back home or are we

1323

01:04:48,500 --> 01:04:45,540

trying to rally the troops and have an

1324

01:04:51,349 --> 01:04:48,510

impact and change the world

1325

01:04:54,440 --> 01:04:51,359

change the world what a cliché and lame

1326

01:04:58,250 --> 01:04:54,450

thing to say I understand but it is

1327

01:05:01,310 --> 01:04:58,260

actually a pretty big deal that we have

1328

01:05:04,670 --> 01:05:01,320

this show and it gets tens of thousands

1329

01:05:07,550 --> 01:05:04,680

of listeners and we go to this obscure

1330

01:05:09,920 --> 01:05:07,560

corner of Thailand and we talked to a

1331

01:05:12,079 --> 01:05:09,930

guy living in isolation between the rice

1332

01:05:13,430 --> 01:05:12,089

fields working on the same suppressed

1333

01:05:17,200 --> 01:05:13,440

science that gives us the understanding

1334

01:05:19,970 --> 01:05:17,210

of oh that's how electrogravitics works

1335

01:05:21,859 --> 01:05:19,980

that's how the elements interact and

1336

01:05:24,349 --> 01:05:21,869

reality filters down from consciousness

1337

01:05:29,300 --> 01:05:24,359

rather than a random explosion in the

1338

01:05:30,530 --> 01:05:29,310

beginning of time now I see I'm just

1339

01:05:33,349 --> 01:05:30,540

saying you got to go to some pretty

1340

01:05:36,710 --> 01:05:33,359

obscure places to get this information

1341

01:05:39,360 --> 01:05:36,720

from the people firsthand who are really

1342

01:05:41,750 --> 01:05:39,370

playing around with it

1343

01:05:46,500 --> 01:05:41,760

and there's also something I like about

1344

01:05:49,530 --> 01:05:46,510

episodes that highlight guests who never

1345

01:05:52,500 --> 01:05:49,540

asked for the spotlight he's not really

1346

01:05:55,740 --> 01:05:52,510

trying to be some famous talking head on

1347

01:05:58,860 --> 01:05:55,750

the alternative circuit he just wants to

1348

01:06:02,610 --> 01:05:58,870

raise funds for the work and he'll even

1349

01:06:06,030 --> 01:06:02,620

do the exact work you want I mean this

1350

01:06:08,940 --> 01:06:06,040

is a golden opportunity to fund the

1351

01:06:12,600 --> 01:06:08,950

creation of an electoral grow vidiq

1352

01:06:15,480 --> 01:06:12,610

Flying Saucer now I can't say if this

1353

01:06:18,960 --> 01:06:15,490

particular episode will have that impact

1354

01:06:21,840 --> 01:06:18,970

or not but today the breadcrumbs were

1355

01:06:23,460 --> 01:06:21,850

laid out for exactly that possibility

1356

01:06:25,800 --> 01:06:23,470

right

1357

01:06:28,650 --> 01:06:25,810

I mean isn't it a little exciting to be

1358

01:06:30,660 --> 01:06:28,660

just one degree away from these things

1359

01:06:33,000 --> 01:06:30,670

that we talk about and a credible

1360

01:06:35,640 --> 01:06:33,010

competent guy who can actually do the

1361

01:06:40,980 --> 01:06:35,650

work even if it doesn't happen to me

1362

01:06:43,079 --> 01:06:40,990

it's just really exciting and fun to be

1363

01:06:44,760 --> 01:06:43,089

that close to it to even dream about the

1364

01:06:50,040 --> 01:06:44,770

possibilities maybe one day we'll be

1365

01:06:52,470 --> 01:06:50,050

more organized as a force I don't know

1366

01:06:54,540 --> 01:06:52,480

outside of the science itself we're

1367

01:06:58,200 --> 01:06:54,550

talking with someone who has thoroughly

1368

01:07:03,330 --> 01:06:58,210

read all of tesla's available work notes

1369

01:07:05,220 --> 01:07:03,340

and letters like everything so he can

1370

01:07:08,120 --> 01:07:05,230

confirm some of those things that people

1371

01:07:11,430 --> 01:07:08,130

claim without really explaining them I

1372

01:07:14,340 --> 01:07:11,440

mean he laid it out there Tesla had a

1373

01:07:18,840 --> 01:07:14,350

plan for a flying craft with no wings or

1374

01:07:21,240 --> 01:07:18,850

propellers fact bears beats Battlestar

1375

01:07:22,859 --> 01:07:21,250

Galactica you get it

1376

01:07:24,990 --> 01:07:22,869

so I hope you like the secret science

1377

01:07:26,849 --> 01:07:25,000

shows much like the alternative health

1378

01:07:28,770 --> 01:07:26,859

shows there's something here and it

1379

01:07:31,800 --> 01:07:28,780

needs to be brought out of the basement

1380

01:07:35,040 --> 01:07:31,810

and that means we need to be adults

1381

01:07:38,700 --> 01:07:35,050

about how we talk about it and actually

1382

01:07:41,060 --> 01:07:38,710

put our brains to work to try to repair

1383

01:07:44,480 --> 01:07:41,070

the damage and actually understand it I

1384

01:07:45,839 --> 01:07:44,490

hope you agree and I hope you feel that

1385

01:07:48,630 --> 01:07:45,849

bit-by-bit

1386

01:07:51,900 --> 01:07:48,640

a real case is being made that this is

1387

01:07:54,930 --> 01:07:51,910

legit stuff and most of the guests on

1388

01:07:56,670 --> 01:07:54,940

this subject again don't really want to

1389

01:08:00,240 --> 01:07:56,680

be here or I guess I should say today's

1390

01:08:02,370 --> 01:08:00,250

guest plus guys like Eric Dollard they

1391

01:08:04,800 --> 01:08:02,380

don't ask me to come here they're not

1392

01:08:08,040 --> 01:08:04,810

hucksters they're not snake oil salesmen

1393

01:08:11,880 --> 01:08:08,050

trying to get some captive audience and

1394

01:08:14,609 --> 01:08:11,890

I think that's an important distinction

1395

01:08:18,240 --> 01:08:14,619

when trying to identify how much merit

1396

01:08:20,579 --> 01:08:18,250

this stuff has and if you only heard the

1397

01:08:22,769 --> 01:08:20,589

first free hour you are missing out

1398

01:08:24,840 --> 01:08:22,779

because in the second hour we got deeper

1399

01:08:27,329 --> 01:08:24,850

into things like the clues and the

1400

01:08:29,700 --> 01:08:27,339

clouds the perfect Phi ratio

1401

01:08:31,950 --> 01:08:29,710

distribution of the planets in the solar

1402

01:08:35,039 --> 01:08:31,960

system and what holds them in place it

1403

01:08:37,050 --> 01:08:35,049

ain't gravity we talked about Tarot and

1404

01:08:39,840 --> 01:08:37,060

connecting to higher consciousness with

1405

01:08:40,769 --> 01:08:39,850

playing cards why D wave isn't really

1406

01:08:43,740 --> 01:08:40,779

anything special

1407

01:08:46,740 --> 01:08:43,750

Tesla ether and the Flying Saucer the

1408

01:08:50,070 --> 01:08:46,750

connection between magic and science and

1409

01:08:53,940 --> 01:08:50,080

the importance and meaning of the Dragon

1410

01:08:56,249 --> 01:08:53,950

in the Chinese zodiac you know just

1411

01:08:57,539 --> 01:08:56,259

stuff you can pretty much get anywhere

1412

01:09:02,160 --> 01:08:57,549

else if you don't want to be a plus

1413

01:09:04,289 --> 01:09:02,170

member I kid I kid but if you want the

1414

01:09:06,630 --> 01:09:04,299

real detailed science get the book the

1415

01:09:08,430 --> 01:09:06,640

science of Tesla's magic and if you want

1416

01:09:11,170 --> 01:09:08,440

to go the extra mile donate to the

1417

01:09:12,730 --> 01:09:11,180

project of your choice

1418

01:09:15,010 --> 01:09:12,740

and it sucks that you can't just listen

1419

01:09:16,690 --> 01:09:15,020

to something right it's always thanks

1420

01:09:18,850 --> 01:09:16,700

for your time now we need your money

1421

01:09:21,280 --> 01:09:18,860

support the show support the guests by

1422

01:09:24,010 --> 01:09:21,290

the book I get it it's just the nature

1423

01:09:26,170 --> 01:09:24,020

of the game and different shows are

1424

01:09:29,530 --> 01:09:26,180

going to speak to different people out

1425

01:09:31,390 --> 01:09:29,540

there that's alright but if we ever get

1426

01:09:34,300 --> 01:09:31,400

big enough I do have dreams of being

1427

01:09:36,250 --> 01:09:34,310

able to fund this stuff myself or

1428

01:09:38,380 --> 01:09:36,260

instead of the money bomb like we used

1429

01:09:39,760 --> 01:09:38,390

to do I could say something like how

1430

01:09:43,420 --> 01:09:39,770

much do you need to build us a flying

1431

01:09:45,970 --> 01:09:43,430

saucer 20,000 ok well I'll put up half

1432

01:09:50,440 --> 01:09:45,980

and then we can collect half from the

1433

01:09:53,520 --> 01:09:50,450

audience and getting \$10,000 from a

1434

01:09:57,220 --> 01:09:53,530

hundred thousand people is no big deal

1435

01:09:59,800 --> 01:09:57,230

maybe a higher side GoFundMe section of

1436

01:10:01,840 --> 01:09:59,810

the website I don't know I guess I'm

1437

01:10:04,660 --> 01:10:01,850

just saying that one day I hope we can

1438

01:10:07,890 --> 01:10:04,670

mobilize this thing to take the talk to

1439

01:10:11,050 --> 01:10:07,900

the next level of actually doing and

1440

01:10:14,650 --> 01:10:11,060

then I can reveal the higher side saucer

1441

01:10:18,370 --> 01:10:14,660

and we won't have to wonder all in due

1442

01:10:20,620 --> 01:10:18,380

time I guess big dreams you know 2019

1443

01:10:23,040 --> 01:10:20,630

was about consolidating the sites trying

1444

01:10:26,500 --> 01:10:23,050

to improve the system that we use and

1445

01:10:29,080 --> 01:10:26,510

build us out to be a bit more future

1446

01:10:30,340 --> 01:10:29,090

proof it wasn't smooth and we're still

1447

01:10:32,860 --> 01:10:30,350

trying to tie some things up but

1448

01:10:35,590 --> 01:10:32,870

hopefully 2020 is where we really throw

1449

01:10:38,620 --> 01:10:35,600

some fuel on the THC fire and then

1450

01:10:40,660 --> 01:10:38,630

post-2020 we're funding the proof and

1451

01:10:43,630 --> 01:10:40,670

supplying the stuff that we want and

1452

01:10:46,960 --> 01:10:43,640

kicking it all up a notch and I don't

1453

01:10:48,700 --> 01:10:46,970

know we'll see but for now I am getting

1454

01:10:50,710 --> 01:10:48,710

out of here big thanks to our guest

1455

01:10:52,690 --> 01:10:50,720

today big thanks to you for listening

1456

01:10:55,210 --> 01:10:52,700

check out the show notes for mr.

1457

01:10:57,880 --> 01:10:55,220

Vandenberg donation information and I'll

1458

01:10:59,980 --> 01:10:57,890

catch you next time your movie so tarik

1459

01:11:02,290 --> 01:10:59,990

science oppressors liars of our electric

1460

01:11:07,180 --> 01:11:02,300

paradigm and moulders of the mainstream

1461

01:11:17,670 --> 01:11:12,370

woke up this morning with light in my

1462

01:11:21,200 --> 01:11:17,680

eyes and then realized it was done

1463

01:11:33,430 --> 01:11:24,590

ian was alive

1464

01:11:33,440 --> 01:11:36,100

you

1465

01:11:46,390 --> 01:11:40,810

must be those strangers that come every

1466

01:11:53,320 --> 01:11:46,400

night hoes saucer-shaped alight but

1467

01:11:58,389 --> 01:11:53,330

people obtain the blue-green footprints

1468

01:12:01,060 --> 01:11:58,399

left glow-in-the-dark I

1469

01:12:06,959 --> 01:12:01,070

they get home

1470

01:12:22,419 --> 01:12:13,149

mr. spaceman won't you please take me

1471

01:12:28,089 --> 01:12:22,429

along I won't do anything wrong hey mr.

1472

01:12:33,430 --> 01:12:28,099

spaceman won't you please take me along

1473

01:12:41,740 --> 01:12:37,729

moved up this morning

1474

01:12:46,390 --> 01:12:41,750

feeling quite weird I had a slide

1475

01:12:51,560 --> 01:12:46,400

it's in my beer my tooth pain

1476

01:13:00,580 --> 01:12:57,000

written my name so long

1477

01:13:00,590 --> 01:13:05,140

[Music]

1478

01:13:05,150 --> 01:13:08,680

mr. space

1479

01:13:16,090 --> 01:13:11,450

won't you please take me

1480

01:13:19,190 --> 01:13:16,100

I won't do anything wrong

1481

01:13:23,169 --> 01:13:21,800

mr. space

1482

01:13:33,839 --> 01:13:23,179

[Music]

1483

01:13:42,910 --> 01:13:36,939

mr. spaceman

1484

01:13:55,360 --> 01:13:42,920

won't you please take me alone won't do

1485

01:14:04,060 --> 01:13:55,370

anything won't you please take me along

1486

01:14:11,030 --> 01:14:04,070

the high side won't you please take me
