action-packed and commercial for you

26

00:01:31,340 --> 00:00:53,579

which means you'll unfortunately never

27

00:01:33,109 --> 00:01:31,350

hear my voice well here we go good

28

00:01:35,210 --> 00:01:33,119

people of the internet from sunny San

29

00:01:37,370 --> 00:01:35,220

Diego I'm Greg Carl wood and we have

30

00:01:39,289 --> 00:01:37,380

spent many in episodes reversing these

31

00:01:41,569 --> 00:01:39,299

troubled times and sifting through the

32

00:01:43,270 --> 00:01:41,579

false paradigms laid out all around us

33

00:01:45,710 --> 00:01:43,280

and the more we learn about

34

00:01:47,420 --> 00:01:45,720

consciousnesses role in reality the more

35

00:01:50,300 --> 00:01:47,430

important what one believes to be

36

00:01:52,520 --> 00:01:50,310

possible seems to be yet so many

37

00:01:54,230 --> 00:01:52,530

slack-jawed sheeple caught up in the rat

38

00:01:56,510 --> 00:01:54,240

racers and hamster wheels of this

39

00:01:58,819 --> 00:01:56,520

fabricated lifestyle don't even know

40

00:02:01,069 --> 00:01:58,829

what they don't know because they're

41

00:02:03,530 --> 00:02:01,079

told the system is doing its best across

42

00:02:05,990 --> 00:02:03,540

the board GMOs to feed the world's

43

00:02:08,359 --> 00:02:06,000

growing population chemical cocktails

44

00:02:10,309 --> 00:02:08,369

sold as some sick backwards medicine and

45

00:02:12,949 --> 00:02:10,319

even with something like the quest for

46

00:02:13,770 --> 00:02:12,959

non-human intelligence the tiniest bit

47

00:02:15,870 --> 00:02:13,780

of digging show

48

00:02:18,449 --> 00:02:15,880

that not only are there usually many

49

00:02:20,850 --> 00:02:18,459

better ways in most cases the system

50

00:02:23,880 --> 00:02:20,860

actively suppresses the truth to the

51
00:02:25,530 --> 00:02:23,890
point of painting it as fantasy but fear

52
00:02:27,540 --> 00:02:25,540
not friends because beyond the

53
00:02:29,130 --> 00:02:27,550
razzle-dazzle of a big machine bright

54
00:02:31,290 --> 00:02:29,140
minds are putting the pieces back

55
00:02:33,059 --> 00:02:31,300
together in a whole host of areas and

56
00:02:36,390 --> 00:02:33,069
one that's making a lot of waves right

57
00:02:38,580 --> 00:02:36,400
now is new energy call it Oregon zero

58
00:02:41,190 --> 00:02:38,590
point either over unity or

59
00:02:43,440 --> 00:02:41,200
electromagnetism but several suppressed

60
00:02:45,750 --> 00:02:43,450
Sciences and processes seemed to yield

61
00:02:48,810 --> 00:02:45,760
cleaner more efficient and more abundant

62
00:02:50,850 --> 00:02:48,820
energies by harmonizing with our natural

63
00:02:54,090 --> 00:02:50,860

environment and the lesser-known gifts

64

00:02:56,340 --> 00:02:54,100

it gives and as the tide continues to

65

00:02:58,080 --> 00:02:56,350

turn we now have organizations like the

66

00:03:00,150 --> 00:02:58,090

breakthrough energy movement and the new

67

00:03:02,520 --> 00:03:00,160

energy movement that actually worked to

68

00:03:04,740 --> 00:03:02,530

promote vet and protect these working

69

00:03:06,690 --> 00:03:04,750

engines batteries and machines as well

70

00:03:08,640 --> 00:03:06,700

as the inventors brave enough to upset

71

00:03:11,520 --> 00:03:08,650

the economic applecart of the capstone

72

00:03:13,949 --> 00:03:11,530

cabal well two of these fun folks are

73

00:03:15,780 --> 00:03:13,959

with us today gene Manning and Susan

74

00:03:18,630 --> 00:03:15,790

manwich the co-authors of a great new

75

00:03:20,729 --> 00:03:18,640

book called hidden energy Tesla inspired

76

00:03:23,009 --> 00:03:20,739

inventors and a mindful path to energy

77

00:03:25,199 --> 00:03:23,019

abundance and these ladies are on the

78

00:03:27,690 --> 00:03:25,209

front lines of this new paradigm every

79

00:03:29,670 --> 00:03:27,700

day gene approached these new energy

80

00:03:31,920 --> 00:03:29,680

inventions as a skeptical journalist

81

00:03:33,720 --> 00:03:31,930

over 30 years ago and was clearly

82

00:03:35,550 --> 00:03:33,730

impressed with the field as she's been

83

00:03:38,190 --> 00:03:35,560

interviewing these new energy inventors

84

00:03:40,470 --> 00:03:38,200

and studying their work ever since her

85

00:03:43,410 --> 00:03:40,480

first book the coming energy revolution

86

00:03:45,750 --> 00:03:43,420

came out in 1996 and she's since been a

87

00:03:48,840 --> 00:03:45,760

speaker at energy technology conferences

88

00:03:50,670 --> 00:03:48,850

in five countries and as for Susan manna

89

00:03:52,620 --> 00:03:50,680

which she is the president of the new

90

00:03:54,900 --> 00:03:52,630

energy movement and has spent 20 years

91

00:03:56,819 --> 00:03:54,910

in the areas of leadership consulting

92

00:03:58,890 --> 00:03:56,829

emotional intelligence resident

93

00:04:00,720 --> 00:03:58,900

technology and better understanding

94

00:04:02,720 --> 00:04:00,730

human dynamics to successfully

95

00:04:05,460 --> 00:04:02,730

transition through these global changes

96

00:04:07,140 --> 00:04:05,470

let it be known that Susan was also a

97

00:04:09,420 --> 00:04:07,150

participant in the program for

98

00:04:11,460 --> 00:04:09,430

extraordinary experience research in

99

00:04:14,220 --> 00:04:11,470

Cambridge Massachusetts under the late

100

00:04:15,690 --> 00:04:14,230

great John Mack and Susan's greatest

101

00:04:17,699 --> 00:04:15,700

passion is working with new

102

00:04:19,800 --> 00:04:17,709

consciousness global strategies and

103

00:04:22,380 --> 00:04:19,810

emerging technologies to help humanity

104

00:04:23,700 --> 00:04:22,390

override the current program here they

105

00:04:26,130 --> 00:04:23,710

are to tell us about their new book

106

00:04:27,210 --> 00:04:26,140

hidden energy and tell us exactly what's

107

00:04:29,700 --> 00:04:27,220

going on and what

108

00:04:31,890 --> 00:04:29,710

can do to speed it along to shepherds of

109

00:04:34,170 --> 00:04:31,900

the secret sciences and true advocates

110

00:04:36,930 --> 00:04:34,180

for the post-scarcity system Jean and

111

00:04:39,270 --> 00:04:36,940

Susan welcome to the higher side thank

112

00:04:42,330 --> 00:04:39,280

you thank you so much but a tremendous

113

00:04:44,640 --> 00:04:42,340

introduction I'm all excited now I try I

114

00:04:47,130 --> 00:04:44,650

try and thanks for being here this is

115

00:04:49,410 --> 00:04:47,140

super exciting the topic of free energy

116

00:04:51,240 --> 00:04:49,420

and a deep dive into what's going on in

117

00:04:53,550 --> 00:04:51,250

this space is one of the most exciting

118

00:04:55,380 --> 00:04:53,560

things to me right now we've been lucky

119

00:04:58,380 --> 00:04:55,390

enough to have many of the bright minds

120

00:05:00,990 --> 00:04:58,390

in your book on as previous guests Aaron

121

00:05:03,450 --> 00:05:01,000

Murakami Eric Dollard Paul Laviolette

122

00:05:05,730 --> 00:05:03,460

wal Thornhill and Gerald [h__h] just to

123

00:05:07,950 --> 00:05:05,740

name a few but to find a book that

124

00:05:11,310 --> 00:05:07,960

really covers the spread of all this

125

00:05:13,200 --> 00:05:11,320

fascinating stuff is super impressive we

126

00:05:15,240 --> 00:05:13,210

hear a lot of claims in these fields but

127

00:05:17,070 --> 00:05:15,250

we don't often get the confirmation that

128

00:05:19,680 --> 00:05:17,080

I think a lot of us are really seeking

129

00:05:22,380 --> 00:05:19,690

and I guess to kick this off and maybe

130

00:05:24,330 --> 00:05:22,390

we'll start with gene what were you

131

00:05:26,700 --> 00:05:24,340

presented with that prompted you to be

132

00:05:29,340 --> 00:05:26,710

as dedicated on this as you have been

133

00:05:31,860 --> 00:05:29,350

for the last three decades clearly this

134

00:05:35,940 --> 00:05:31,870

stuff has been validated to you beyond

135

00:05:39,150 --> 00:05:35,950

hypotheticals right yes it has the first

136

00:05:42,060 --> 00:05:39,160

one was years ago a scientist dennis

137

00:05:45,420 --> 00:05:42,070

craven validating the Patterson Power

138

00:05:48,420 --> 00:05:45,430

Cell independent testing in front of a

139

00:05:52,740 --> 00:05:48,430

group of very critical people and then

140

00:05:55,920 --> 00:05:52,750

I've seen more under the wraps sorts of

141

00:05:58,350 --> 00:05:55,930

home experiments that proved it's

142

00:06:00,540 --> 00:05:58,360

possible to use just

143

00:06:03,510 --> 00:06:00,550

making circuits that use principles of

144

00:06:06,059 --> 00:06:03,520

resonance to end up with more power

145

00:06:07,830 --> 00:06:06,069

output than input and it's not violating

146

00:06:10,559 --> 00:06:07,840

any law of conservation of energy in the

147

00:06:13,920 --> 00:06:10,569

same with the approaches to the magnetic

148

00:06:16,050 --> 00:06:13,930

motor generators they're really not

149

00:06:19,170 --> 00:06:16,060

violating the law of conservation of

150

00:06:22,679 --> 00:06:19,180

energy when they find ways to build

151

00:06:24,839 --> 00:06:22,689

things differently to get around the

152

00:06:28,679 --> 00:06:24,849

limitations of something called Lenz's

153

00:06:30,540 --> 00:06:28,689

law which we can go into later so I'm

154

00:06:34,379 --> 00:06:30,550

not technical training my degrees in

155

00:06:37,159 --> 00:06:34,389

sociology actually but I am interested

156

00:06:40,760 --> 00:06:37,169

in the big picture just like susan is

157

00:06:44,659 --> 00:06:40,770

and the implications for humankind are

158

00:06:47,209 --> 00:06:44,669

tremendous yes and I understand why

159

00:06:48,619 --> 00:06:47,219

other journalists shy away from the

160

00:06:51,129 --> 00:06:48,629

field because it has been so

161

00:06:53,989 --> 00:06:51,139

marginalized and it's you know

162

00:06:57,439 --> 00:06:53,999

embarrassing to them to become an

163

00:07:02,089 --> 00:06:57,449

advocate or to interested we're taught

164

00:07:03,960 --> 00:07:02,099

to be distant and rather cynical for

165

00:07:07,950 --> 00:07:03,970

good reason

166

00:07:10,110 --> 00:07:07,960

but over the years it's been clear to me

167

00:07:12,960 --> 00:07:10,120

that their will is as you say meat on

168

00:07:15,090 --> 00:07:12,970

the bones and there really are real

169

00:07:17,730 --> 00:07:15,100

developments that prove that what they

170

00:07:20,820 --> 00:07:17,740

are trying to do is possible which is

171

00:07:22,200 --> 00:07:20,830

actually to bring clean energy abundance

172

00:07:25,230 --> 00:07:22,210

to humankind

173

00:07:28,830 --> 00:07:25,240

there are many layers many many layers

174

00:07:31,710 --> 00:07:28,840

of interest from the physical

175

00:07:34,920 --> 00:07:31,720

I'm tired of chopping wood her fires

176

00:07:38,550 --> 00:07:34,930

here in British Columbia all the way up

177

00:07:42,360 --> 00:07:38,560

to spiritual implications the more

178

00:07:45,480 --> 00:07:42,370

people possibly looking at the new

179

00:07:47,880 --> 00:07:45,490

science and new physics and realizing

180

00:07:52,380 --> 00:07:47,890

that the phrase we're all interconnected

181

00:07:55,650 --> 00:07:52,390

is not just words or speculation or

182

00:07:58,860 --> 00:07:55,660

somebody's mathematical theory it's a

183

00:08:02,000 --> 00:07:58,870

truth that we're all embedded and

184

00:08:04,380 --> 00:08:02,010

swimming in this and immersed and

185

00:08:08,970 --> 00:08:04,390

interpenetrated with this sea of energy

186

00:08:11,159 --> 00:08:08,980

and so what we do to one person we do to

187

00:08:13,380 --> 00:08:11,169

ourselves so the implications are so

188

00:08:15,900 --> 00:08:13,390

huge that's more my interest with a

189

00:08:19,590 --> 00:08:15,910

background in sociology I want to know

190

00:08:21,740 --> 00:08:19,600

what this can do for people for ordinary

191

00:08:25,080 --> 00:08:21,750

people or groups of people for societies

192

00:08:27,420 --> 00:08:25,090

yes very well said and that is exactly

193

00:08:30,030 --> 00:08:27,430

my motivation to just the big picture is

194

00:08:31,560 --> 00:08:30,040

so exciting and there's just so much

195

00:08:33,690 --> 00:08:31,570

depth to this stuff and it isn't just

196

00:08:35,070 --> 00:08:33,700

one inventor one discovery here and

197

00:08:36,540 --> 00:08:35,080

there there's a long lineage of

198

00:08:38,159 --> 00:08:36,550

different things and they're

199

00:08:40,409 --> 00:08:38,169

compartmentalized because a lot of these

200

00:08:42,060 --> 00:08:40,419

people didn't talk to each other along

201
00:08:43,770 --> 00:08:42,070
the way they had their own discoveries

202
00:08:45,570 --> 00:08:43,780
which also makes it difficult because

203
00:08:47,550 --> 00:08:45,580
they come up with their own terms and

204
00:08:51,240 --> 00:08:47,560
all that kind of stuff but it is very

205
00:08:53,460 --> 00:08:51,250
exciting and to bring Susan in here so

206
00:08:55,079 --> 00:08:53,470
often if I want to do a show about these

207
00:08:57,120 --> 00:08:55,089
things we go to the inventors and the

208
00:08:59,430 --> 00:08:57,130
engineers at least the ones willing to

209
00:09:01,650 --> 00:08:59,440
talk but this is a little different you

210
00:09:03,329 --> 00:09:01,660
do have a master's in science but I've

211
00:09:06,240 --> 00:09:03,339
heard you say that it's about a lot more

212
00:09:07,740 --> 00:09:06,250
than just having a working device you're

213
00:09:09,900 --> 00:09:07,750

going up against a lot of powerful

214

00:09:11,370 --> 00:09:09,910

interests who specialize in keeping

215

00:09:13,260 --> 00:09:11,380

these things behind the curtain and

216

00:09:16,230 --> 00:09:13,270

you're dealing with a programmed

217

00:09:17,140 --> 00:09:16,240

populace so I've heard you describe your

218

00:09:19,210 --> 00:09:17,150

role as a

219

00:09:21,850 --> 00:09:19,220

motor or a strategist or an advocate

220

00:09:23,920 --> 00:09:21,860

talk to us about these roadblocks and

221

00:09:26,140 --> 00:09:23,930

challenges that you try to address that

222

00:09:29,080 --> 00:09:26,150

are necessary beyond just building a

223

00:09:32,260 --> 00:09:29,090

free energy device yeah that's a very

224

00:09:34,420 --> 00:09:32,270

big question and it has you know there's

225

00:09:37,180 --> 00:09:34,430

a lot of answers to it because I think

226

00:09:39,100 --> 00:09:37,190

we have to understand there is a

227

00:09:41,320 --> 00:09:39,110

suppression aspect you know that has

228

00:09:44,380 --> 00:09:41,330

happened and that has gone on I mean

229

00:09:47,020 --> 00:09:44,390

that's something that has occurred right

230

00:09:49,570 --> 00:09:47,030

so we say that's there no to what degree

231

00:09:52,450 --> 00:09:49,580

well that can be anything under the Sun

232

00:09:55,240 --> 00:09:52,460

but then you you also look at the fact

233

00:09:59,470 --> 00:09:55,250

that this information has not been out

234

00:10:01,000 --> 00:09:59,480

for a lay person to understand so if

235

00:10:03,130 --> 00:10:01,010

people don't have awareness about

236

00:10:04,420 --> 00:10:03,140

something like this being possible then

237

00:10:07,000 --> 00:10:04,430

that's not even gonna hit their radar

238

00:10:11,170 --> 00:10:07,010

screen right so it makes it easier for

239

00:10:13,000 --> 00:10:11,180

things to go underneath a table and

240

00:10:15,880 --> 00:10:13,010

never come out you know it like topics

241

00:10:17,920 --> 00:10:15,890

such as this and then you also have you

242

00:10:18,990 --> 00:10:17,930

know the consciousness of people whether

243

00:10:21,280 --> 00:10:19,000

you want to call it consciousness

244

00:10:23,050 --> 00:10:21,290

mindfulness emotional intelligence you

245

00:10:25,090 --> 00:10:23,060

know I mean there's differences to each

246

00:10:27,900 --> 00:10:25,100

of those things I just said but the

247

00:10:31,530 --> 00:10:27,910

human aspect of

248

00:10:34,230 --> 00:10:31,540

how inventors are coming up with their

249

00:10:37,770 --> 00:10:34,240

ideas what they think is working versus

250

00:10:39,870 --> 00:10:37,780

what doesn't really work the field of

251

00:10:41,610 --> 00:10:39,880

who they have in their social support

252

00:10:44,370 --> 00:10:41,620

system who they have in their actual

253

00:10:46,380 --> 00:10:44,380

work support system I mean this is one

254

00:10:49,170 --> 00:10:46,390

of the fields that has the greatest

255

00:10:51,630 --> 00:10:49,180

opportunity to shift you know so much of

256

00:10:54,480 --> 00:10:51,640

what we're doing on this planet but at

257

00:10:56,340 --> 00:10:54,490

the same time it's not organized well

258

00:10:58,290 --> 00:10:56,350

and you know there are some groups that

259

00:11:00,480 --> 00:10:58,300

are able to organize I think fairly well

260

00:11:03,800 --> 00:11:00,490

that have you know fairly decent streams

261

00:11:07,920 --> 00:11:03,810

of funding but that's really rare and I

262

00:11:11,520 --> 00:11:07,930

think that we have a whole host of

263

00:11:14,610 --> 00:11:11,530

things to address at the same time one

264

00:11:17,040 --> 00:11:14,620

of which is just showing people that

265

00:11:18,900 --> 00:11:17,050

this is possible that this is feasible

266

00:11:21,000 --> 00:11:18,910

this is possible and there's something

267

00:11:22,950 --> 00:11:21,010

that hits individuals cognitive

268

00:11:25,110 --> 00:11:22,960

dissonance that says well this just

269

00:11:27,240 --> 00:11:25,120

can't be I mean we've heard a number of

270

00:11:29,250 --> 00:11:27,250

stories that inventors have a device

271

00:11:32,130 --> 00:11:29,260

that's working they'll show it to

272

00:11:33,750 --> 00:11:32,140

someone at a university or whatnot and

273

00:11:35,160 --> 00:11:33,760

the person at the University says well

274

00:11:37,080 --> 00:11:35,170

no this just can't be and then they walk

275

00:11:39,570 --> 00:11:37,090

out of the room so you know you've got

276

00:11:41,640 --> 00:11:39,580

this dissonance that occurs as well so

277

00:11:44,280 --> 00:11:41,650

you know there's again a number of

278

00:11:46,620 --> 00:11:44,290

different things I mean we could we'd

279

00:11:49,230 --> 00:11:46,630

have to get more specific questions to

280

00:11:51,450 --> 00:11:49,240

break that piece down and one of the

281

00:11:52,920 --> 00:11:51,460

things that you know I do speak about as

282

00:11:55,559 --> 00:11:52,930

well as

283

00:11:57,449 --> 00:11:55,569

the financial part as it relates to the

284

00:11:59,939 --> 00:11:57,459

devices you know we have this idea that

285

00:12:01,530 --> 00:11:59,949

we'll just put money into the

286

00:12:02,879 --> 00:12:01,540

development of these devices and then

287

00:12:04,470 --> 00:12:02,889

boom you know you're gonna have one

288

00:12:06,840 --> 00:12:04,480

that's working and you can go buy it at

289

00:12:09,689 --> 00:12:06,850

Kmart or Walmart or wherever Mart and

290

00:12:13,049 --> 00:12:09,699

you know that's not these devices don't

291

00:12:15,989 --> 00:12:13,059

seem to work in that type of way now why

292

00:12:19,169 --> 00:12:15,999

is the question that it makes us dig

293

00:12:21,600 --> 00:12:19,179

deeper as human beings of well maybe we

294

00:12:24,169 --> 00:12:21,610

really need to uplevel ourselves and

295

00:12:26,489 --> 00:12:24,179

maybe we need to uplevel how we hold the

296

00:12:30,600 --> 00:12:26,499

development of these devices in the

297

00:12:34,410 --> 00:12:30,610

potential distribution of them in a much

298

00:12:36,600 --> 00:12:34,420

more conscious way hmm I love it I love

299

00:12:38,970 --> 00:12:36,610

it and something I've heard you talk

300

00:12:40,859 --> 00:12:38,980

about as one of those little roadblocks

301

00:12:44,040 --> 00:12:40,869

and challenges that you kind of try to

302

00:12:46,859 --> 00:12:44,050

address is the idea of sharing plans or

303

00:12:49,290 --> 00:12:46,869

having safeguards against the loss of a

304

00:12:51,569 --> 00:12:49,300

single person decentralizing that

305

00:12:54,569 --> 00:12:51,579

knowledge because as you say there are

306

00:12:56,639 --> 00:12:54,579

times where one person starts to try to

307

00:12:58,350 --> 00:12:56,649

introduce what they've discovered to the

308

00:12:59,879 --> 00:12:58,360

system either through a university or

309

00:13:02,309 --> 00:12:59,889

through the patent office or something

310

00:13:04,769 --> 00:13:02,319

and that is when we don't see them

311

00:13:06,059 --> 00:13:04,779

anymore and their material is lost

312

00:13:08,939 --> 00:13:06,069

because they haven't shared it with any

313

00:13:11,910 --> 00:13:08,949

other experts and now the system has an

314

00:13:13,710 --> 00:13:11,920

easier time dismissing what that person

315

00:13:15,329 --> 00:13:13,720

discovered because they just say well

316

00:13:17,429 --> 00:13:15,339

where is it you know why isn't someone

317

00:13:20,400 --> 00:13:17,439

else in it so I think that's really

318

00:13:22,949 --> 00:13:20,410

smart and strategic and I like that we

319

00:13:25,249 --> 00:13:22,959

can say this is a field now because it

320

00:13:28,860 --> 00:13:25,259

really wasn't a field all that long ago

321

00:13:30,809 --> 00:13:28,870

mmm yeah I think it has become a field

322

00:13:33,360 --> 00:13:30,819

now you know someone like gene who's

323

00:13:36,720 --> 00:13:33,370

been doing this for 30 years I mean the

324

00:13:38,730 --> 00:13:36,730

level of bravery and courage is huge to

325

00:13:41,100 --> 00:13:38,740

be able to say hey this is what I'm

326

00:13:43,829 --> 00:13:41,110

writing about this is what I'm doing

327

00:13:46,289 --> 00:13:43,839

right so now you know with YouTube

328

00:13:49,470 --> 00:13:46,299

Twitter social media we're getting

329

00:13:51,269 --> 00:13:49,480

additional information that this is a

330

00:13:53,249 --> 00:13:51,279

greater possibility and it's not just

331

00:13:54,689 --> 00:13:53,259

living with one inventor that happens to

332

00:13:56,789 --> 00:13:54,699

live in a certain part of the world or

333

00:13:58,679 --> 00:13:56,799

another that you're seeing inventors all

334

00:14:00,840 --> 00:13:58,689

over the world so this is something that

335

00:14:04,739 --> 00:14:00,850

seems to be happening on a global scale

336

00:14:06,330 --> 00:14:04,749

so it demystifies it as being something

337

00:14:08,910 --> 00:14:06,340

that you know is this

338

00:14:10,590 --> 00:14:08,920

anomaly so to speak and that's a good

339

00:14:13,290 --> 00:14:10,600

thing and one of the things that I would

340

00:14:15,930 --> 00:14:13,300

also add is what I've been seeing from

341

00:14:17,700 --> 00:14:15,940

my world now is it just because it's my

342

00:14:20,519 --> 00:14:17,710

world I don't think so

343

00:14:23,840 --> 00:14:20,529

but I've been seeing inventors with a

344

00:14:26,670 --> 00:14:23,850

willingness to collaborate more and

345

00:14:28,740 --> 00:14:26,680

earlier on you know what I assad and

346

00:14:31,050 --> 00:14:28,750

gene can speak to her experiences is

347

00:14:33,960 --> 00:14:31,060

there is a lot of you know holding that

348

00:14:35,340 --> 00:14:33,970

information in in for again a whole host

349

00:14:37,290 --> 00:14:35,350

of different reasons we think well they

350

00:14:39,030 --> 00:14:37,300

must hold it in because you know they're

351
00:14:40,440 --> 00:14:39,040
afraid they're gonna get killed or

352
00:14:41,070 --> 00:14:40,450
whatever it no it's sometimes it's not

353
00:14:44,490 --> 00:14:41,080
like that

354
00:14:48,000 --> 00:14:44,500
sometimes they hold it in for reasons

355
00:14:50,700 --> 00:14:48,010
that is idiosyncratic to them but I'm

356
00:14:52,220 --> 00:14:50,710
seeing less and less of that like we

357
00:14:57,450 --> 00:14:52,230
work with inventor teams that

358
00:14:59,880 --> 00:14:57,460
collaborate quite freely and their main

359
00:15:01,380 --> 00:14:59,890
interest is about bringing these

360
00:15:02,850 --> 00:15:01,390
technologies because they believe that

361
00:15:04,890 --> 00:15:02,860
there's a shift that on the planet

362
00:15:06,450 --> 00:15:04,900
that's occurring and they have it to do

363
00:15:08,640 --> 00:15:06,460

you know they've got a mission here and

364

00:15:11,250 --> 00:15:08,650

that's to bring these in and bring these

365

00:15:14,430 --> 00:15:11,260

out to assist with this shift so I guess

366

00:15:17,130 --> 00:15:14,440

one has to look at the values that the

367

00:15:19,470 --> 00:15:17,140

inventor is holding and exhibiting and

368

00:15:21,600 --> 00:15:19,480

seeing you know we'll where is that in

369

00:15:23,430 --> 00:15:21,610

alignment with the other inventors and

370

00:15:26,460 --> 00:15:23,440

now we've been seeing that more and more

371

00:15:28,500 --> 00:15:26,470

often and it's less of a problem it

372

00:15:31,860 --> 00:15:28,510

seems these days than it was in the past

373

00:15:33,990 --> 00:15:31,870

mmm mm-hmm yes and of course there's

374

00:15:36,210 --> 00:15:34,000

just that classic issue as well that

375

00:15:38,550 --> 00:15:36,220

artists and inventors might not be the

376
00:15:42,780 --> 00:15:38,560
best business people that is an element

377
00:15:44,670 --> 00:15:42,790
as well I get that in the book itself

378
00:15:46,730 --> 00:15:44,680
you list many of the devices and

379
00:15:50,280 --> 00:15:46,740
processes that are yielding results

380
00:15:53,630 --> 00:15:50,290
employing natural tools the Vortech

381
00:15:56,790 --> 00:15:53,640
structure to convert energy times pulse

382
00:16:00,630 --> 00:15:56,800
electricity for big output from tiny

383
00:16:03,390 --> 00:16:00,640
input special geometries and natural

384
00:16:07,050 --> 00:16:03,400
ratios that seemed to help toroidal

385
00:16:09,480 --> 00:16:07,060
motion discharging voltage abruptly into

386
00:16:12,300 --> 00:16:09,490
an unsettled plasma I mean a lot of this

387
00:16:13,769 --> 00:16:12,310
stuff just is kind of a word salad to me

388
00:16:16,949 --> 00:16:13,779

but I've seen these different things

389

00:16:19,230 --> 00:16:16,959

like even cavitation people are doing

390

00:16:20,040 --> 00:16:19,240

really interesting things with just

391

00:16:22,139 --> 00:16:20,050

water and

392

00:16:25,170 --> 00:16:22,149

bubbles and of course electrogravitics

393

00:16:27,329 --> 00:16:25,180

is in there I guess I would ask Jean

394

00:16:30,300 --> 00:16:27,339

with three decades looking at this stuff

395

00:16:32,370 --> 00:16:30,310

can you talk to us about some of the may

396

00:16:34,710 --> 00:16:32,380

be different types of devices or even

397

00:16:37,110 --> 00:16:34,720

the the lab testing and the vetting that

398

00:16:39,090 --> 00:16:37,120

maybe you've seen or been a part of to

399

00:16:41,940 --> 00:16:39,100

help the listeners understand how

400

00:16:45,660 --> 00:16:41,950

significant and how broad and really how

401
00:16:47,819 --> 00:16:45,670
authentic these things are yes when it

402
00:16:50,880 --> 00:16:47,829
comes to the lab testing Susan's seeing

403
00:16:53,699 --> 00:16:50,890
more recent examples of it the varieties

404
00:16:56,160 --> 00:16:53,709
is one of the parts that I really have

405
00:17:00,300 --> 00:16:56,170
enjoyed that we're not putting all our

406
00:17:03,210 --> 00:17:00,310
eggs in one basket sort of analogy but

407
00:17:05,130 --> 00:17:03,220
rather it's a choice it's more of a rich

408
00:17:06,329 --> 00:17:05,140
diversity which is really more like the

409
00:17:08,640 --> 00:17:06,339
natural world too

410
00:17:12,079 --> 00:17:08,650
which goes along with the theme of

411
00:17:15,120 --> 00:17:12,089
tapping into energy that's available

412
00:17:19,049 --> 00:17:15,130
naturally rather than smashing an atom

413
00:17:21,809 --> 00:17:19,059

to try to get some power so yeah that

414

00:17:24,360 --> 00:17:21,819

what they have in common is that they're

415

00:17:28,350 --> 00:17:24,370

all striving for approaches that don't

416

00:17:32,610 --> 00:17:28,360

have polluting side-effects and getting

417

00:17:37,799 --> 00:17:32,620

there so yeah the first one that that I

418

00:17:41,159 --> 00:17:37,809

encountered was the magnetics and it's

419

00:17:43,100 --> 00:17:41,169

pretty interesting to hear the people

420

00:17:45,900 --> 00:17:43,110

that are really passionate about the

421

00:17:48,060 --> 00:17:45,910

possibilities of working with the new

422

00:17:49,560 --> 00:17:48,070

super-powerful permanent magnets while

423

00:17:52,919 --> 00:17:49,570

they were new at the time that I caught

424

00:17:54,720 --> 00:17:52,929

in the really super strong magnets that

425

00:17:57,360 --> 00:17:54,730

can hold so many more times their own

426

00:17:59,490 --> 00:17:57,370

weight so that in itself is violating

427

00:18:02,990 --> 00:17:59,500

what the old textbook said that magnets

428

00:18:06,560 --> 00:18:03,000

can't do work so the question came up

429

00:18:09,180 --> 00:18:06,570

well where does the power come from and

430

00:18:11,669 --> 00:18:09,190

that's what led the first inventor that

431

00:18:13,830 --> 00:18:11,679

I ever met to start seeking an answer to

432

00:18:15,659 --> 00:18:13,840

that and he looked here and there and

433

00:18:17,790 --> 00:18:15,669

everywhere in it at the time there

434

00:18:18,330 --> 00:18:17,800

wasn't as much talk about zero-point

435

00:18:21,090 --> 00:18:18,340

energy

436

00:18:23,760 --> 00:18:21,100

he ended up naming his company prom

437

00:18:26,730 --> 00:18:23,770

technology because of the ancient term

438

00:18:29,120 --> 00:18:26,740

prana which is in another word for the

439

00:18:31,950 --> 00:18:29,130

background energy of the universe or

440

00:18:36,090 --> 00:18:31,960

farther along on the

441

00:18:38,659 --> 00:18:36,100

spectrum toward a living energy is the

442

00:18:44,239 --> 00:18:38,669

life force

443

00:18:47,299 --> 00:18:44,249

and that caught my imagination had the

444

00:18:51,049 --> 00:18:47,309

possibilities they would have to

445

00:18:53,930 --> 00:18:51,059

overcome not by brute force because that

446

00:18:55,609 --> 00:18:53,940

just doesn't work they would have to

447

00:18:58,099 --> 00:18:55,619

overcome something it's called Lenz's

448

00:19:02,479 --> 00:18:58,109

law which means that there's always a

449

00:19:04,310 --> 00:19:02,489

back force that comes up when magnets

450

00:19:07,519 --> 00:19:04,320

move past an electric coil or the other

451
00:19:10,940 --> 00:19:07,529
way around and that fights against the

452
00:19:12,889 --> 00:19:10,950
forward moving motion of a rotor so

453
00:19:16,159 --> 00:19:12,899
there's always that to contend with and

454
00:19:19,159 --> 00:19:16,169
because of that reality the way motors

455
00:19:21,019 --> 00:19:19,169
and generators were built you always had

456
00:19:23,539 --> 00:19:21,029
the problem of you could not get out

457
00:19:25,909 --> 00:19:23,549
more than you put in you couldn't even

458
00:19:29,810 --> 00:19:25,919
be very efficient because of the problem

459
00:19:34,070 --> 00:19:29,820
of having to continually input power to

460
00:19:36,799 --> 00:19:34,080
overcome that force so over the years

461
00:19:39,790 --> 00:19:36,809
that problem has gradually been solved

462
00:19:42,930 --> 00:19:39,800
in various ways

463
00:19:45,400 --> 00:19:42,940

resonant technology host

464

00:19:48,580 --> 00:19:45,410

electromagnetism just building things

465

00:19:50,320 --> 00:19:48,590

with a different geometry so there's

466

00:19:54,330 --> 00:19:50,330

that approach that the first one that I

467

00:19:57,700 --> 00:19:54,340

encountered encountered back in 1981 the

468

00:20:00,100 --> 00:19:57,710

1889 the big announced of it about so

469

00:20:03,130 --> 00:20:00,110

called cold fusion which was miss named

470

00:20:06,030 --> 00:20:03,140

from the beginning and it's still a

471

00:20:08,290 --> 00:20:06,040

rather mysterious field were in which

472

00:20:10,570 --> 00:20:08,300

the scientists that have worked in that

473

00:20:12,400 --> 00:20:10,580

field many years know that there is

474

00:20:16,270 --> 00:20:12,410

something going on that the mainstream

475

00:20:18,180 --> 00:20:16,280

is avoiding looking at that has real

476

00:20:19,900 --> 00:20:18,190

implications for humankind but they

477

00:20:23,080 --> 00:20:19,910

acknowledge that they haven't really

478

00:20:26,140 --> 00:20:23,090

nailed exactly what is going on there

479

00:20:29,440 --> 00:20:26,150

are different theories so that's an

480

00:20:32,920 --> 00:20:29,450

interesting subfield because it's where

481

00:20:34,470 --> 00:20:32,930

most of the PhDs have come into the

482

00:20:36,960 --> 00:20:34,480

scene

483

00:20:40,289 --> 00:20:36,970

and some of those academics that came in

484

00:20:42,570 --> 00:20:40,299

because of the widespread publicity

485

00:20:45,120 --> 00:20:42,580

about that cold fusion so-called

486

00:20:47,659 --> 00:20:45,130

announcement those who actually have

487

00:20:52,380 --> 00:20:47,669

enough courage and curiosity and

488

00:20:54,780 --> 00:20:52,390

scientific honesty to pursue the

489

00:20:57,030 --> 00:20:54,790

anomalies and stayed in the field and

490

00:21:00,150 --> 00:20:57,040

continued to meet in conferences yearly

491

00:21:02,159 --> 00:21:00,160

a few of those also had the courage to

492

00:21:04,680 --> 00:21:02,169

look a little bit farther afield and say

493

00:21:07,680 --> 00:21:04,690

well look at what we're finding out you

494

00:21:10,400 --> 00:21:07,690

know one one of the scientists is a

495

00:21:14,900 --> 00:21:10,410

material expert who looked at

496

00:21:17,220 --> 00:21:14,910

microscopic vortices involved in certain

497

00:21:19,470 --> 00:21:17,230

nanomaterials that were used in some of

498

00:21:22,289 --> 00:21:19,480

the cold fusion experiments and that led

499

00:21:26,710 --> 00:21:22,299

him to be more open to the possibility

500

00:21:29,890 --> 00:21:26,720

that there are other things going on

501
00:21:33,010 --> 00:21:29,900
academia was missing and so when he

502
00:21:35,800 --> 00:21:33,020
encountered well.you we write about the

503
00:21:40,260 --> 00:21:35,810
encounter with the manila's device which

504
00:21:42,580 --> 00:21:40,270
is a solid-state device instead of just

505
00:21:44,290 --> 00:21:42,590
jumping in his car and getting out of

506
00:21:45,880 --> 00:21:44,300
there as fast he could when he saw

507
00:21:48,250 --> 00:21:45,890
something that he couldn't explain with

508
00:21:50,980 --> 00:21:48,260
the science that he'd been taught he

509
00:21:53,890 --> 00:21:50,990
hung around and he convinced the

510
00:21:58,150 --> 00:21:53,900
inventor to actually test him with

511
00:22:00,700 --> 00:21:58,160
testing the device and bring in his team

512
00:22:05,260 --> 00:22:00,710
to test it in a very rigorous way and

513
00:22:07,980 --> 00:22:05,270

they found out that wow this does go

514

00:22:11,080 --> 00:22:07,990

beyond anything we've ever taught hmm

515

00:22:13,570 --> 00:22:11,090

yes and in fact that was exactly the

516

00:22:16,900 --> 00:22:13,580

example that that I was going to bring

517

00:22:19,570 --> 00:22:16,910

up because Arthur man Alice he had this

518

00:22:21,640 --> 00:22:19,580

electric car and as you write in the

519

00:22:23,890 --> 00:22:21,650

book the battery that powered it was

520

00:22:25,360 --> 00:22:23,900

based on the work of Floyd Sparky sweet

521

00:22:27,520 --> 00:22:25,370

I think we've talked about him and past

522

00:22:30,160 --> 00:22:27,530

shows but he of course had passed but

523

00:22:32,260 --> 00:22:30,170

Arthur built on that and when it was

524

00:22:34,870 --> 00:22:32,270

tested and vetted by scientists and

525

00:22:37,840 --> 00:22:34,880

engineers you right they drove the car

526

00:22:41,740 --> 00:22:37,850

for 25 miles with four passengers the

527

00:22:45,310 --> 00:22:41,750

battery capacity increased from 68% when

528

00:22:47,170 --> 00:22:45,320

they started to 89% then they left the

529

00:22:49,180 --> 00:22:47,180

car sit for a week hooked it up to all

530

00:22:51,790 --> 00:22:49,190

this equipment and it recharged itself

531

00:22:53,730 --> 00:22:51,800

and the most interesting part another

532

00:22:56,650 --> 00:22:53,740

quote from the book data logging

533

00:22:57,340 --> 00:22:56,660

recording substantial dips and energy at

534

00:22:59,320 --> 00:22:57,350

certain times

535

00:23:01,780 --> 00:22:59,330

the engineers combing over the data

536

00:23:04,930 --> 00:23:01,790

found an exact correlation between those

537

00:23:07,510 --> 00:23:04,940

dips and the aurora borealis events they

538

00:23:09,640 --> 00:23:07,520

were baffled by interaction between the

539

00:23:11,980 --> 00:23:09,650

device and the magnetosphere that

540

00:23:14,530 --> 00:23:11,990

surrounds the earth and that is one of

541

00:23:17,350 --> 00:23:14,540

those mind blowers that is is really

542

00:23:20,530 --> 00:23:17,360

just hard to wrap your head around but

543

00:23:22,560 --> 00:23:20,540

it's also just an exciting clue to the

544

00:23:25,390 --> 00:23:22,570

interconnectedness of everything I guess

545

00:23:28,830 --> 00:23:25,400

yes that really jumped out at me too I

546

00:23:31,510 --> 00:23:28,840

tie it in in my mind with the Oregon

547

00:23:34,540 --> 00:23:31,520

experiments that show that at different

548

00:23:37,090 --> 00:23:34,550

times of day sunset and sunrise there is

549

00:23:40,150 --> 00:23:37,100

a difference it seems in the strength of

550

00:23:44,050 --> 00:23:40,160

this life force field around the planet

551
00:23:46,360 --> 00:23:44,060
and other very sensitive inventions that

552
00:23:48,940 --> 00:23:46,370
strangely operate differently in

553
00:23:53,140 --> 00:23:48,950
different locations and at different

554
00:23:55,360 --> 00:23:53,150
times a day so there's so much more

555
00:23:57,220 --> 00:23:55,370
going on that's not taught in the

556
00:23:59,860 --> 00:23:57,230
strictly materialistic if you can't

557
00:24:01,540 --> 00:23:59,870
measure it it isn't real or if we can't

558
00:24:04,830 --> 00:24:01,550
measure it with the instruments that we

559
00:24:07,180 --> 00:24:04,840
have you know we don't really maybe have

560
00:24:09,190 --> 00:24:07,190
instruments of the sensitivity that

561
00:24:11,710 --> 00:24:09,200
would measure this whatever the life

562
00:24:16,180 --> 00:24:11,720
force is a subtler level of energy or a

563
00:24:17,940 --> 00:24:16,190

higher frequency whatever's going on the

564

00:24:20,830 --> 00:24:17,950

test instruments that are used in

565

00:24:24,130 --> 00:24:20,840

standard science and engineering just

566

00:24:27,370 --> 00:24:24,140

don't detect it mm-hmm

567

00:24:28,540 --> 00:24:27,380

funny how that is because it is

568

00:24:30,220 --> 00:24:28,550

difficult when you learn how many

569

00:24:32,590 --> 00:24:30,230

different roads there are to get there

570

00:24:34,300 --> 00:24:32,600

it's like then you start trying to

571

00:24:35,860 --> 00:24:34,310

reverse-engineer well how is this a

572

00:24:38,650 --> 00:24:35,870

secret and then you think about all the

573

00:24:40,240 --> 00:24:38,660

people going to school for in the energy

574

00:24:43,540 --> 00:24:40,250

field and then the sciences and you're

575

00:24:45,940 --> 00:24:43,550

like man it's quite genius I guess how

576

00:24:48,400 --> 00:24:45,950

they've crafted this box that the

577

00:24:49,750 --> 00:24:48,410

brightest minds can study this stuff for

578

00:24:53,200 --> 00:24:49,760

years come out and become the best

579

00:24:55,000 --> 00:24:53,210

experts but yet it's all the important

580

00:24:57,040 --> 00:24:55,010

stuff was is hidden and they don't seem

581

00:24:59,070 --> 00:24:57,050

to stumble upon it all that that often

582

00:25:03,010 --> 00:24:59,080

that's what's fascinating to me

583

00:25:06,310 --> 00:25:03,020

well the vested interests have had about

584

00:25:10,419 --> 00:25:06,320

nearly a century to

585

00:25:12,639 --> 00:25:10,429

make sure that people marginalize any

586

00:25:16,990 --> 00:25:12,649

certain types of knowledge that might

587

00:25:20,080 --> 00:25:17,000

lead us to these discoveries when we're

588

00:25:22,509 --> 00:25:20,090

really really kept constantly bombarded

589

00:25:25,779 --> 00:25:22,519

with putting Einstein up on a pedestal

590

00:25:29,799 --> 00:25:25,789

as if everything in the relativity

591

00:25:32,620 --> 00:25:29,809

theories is just sacred even though

592

00:25:36,159 --> 00:25:32,630

Einstein himself admitted at the end of

593

00:25:40,269 --> 00:25:36,169

his life in a letter that is in public

594

00:25:42,810 --> 00:25:40,279

knowledge that he really doubted what he

595

00:25:44,579 --> 00:25:42,820

had said and Billy

596

00:25:46,049 --> 00:25:44,589

thought that there really isn't

597

00:25:48,779 --> 00:25:46,059

so-called ether

598

00:25:52,619 --> 00:25:48,789

now I say so-called it's just one of the

599

00:25:55,769 --> 00:25:52,629

names I actually like that name because

600

00:25:58,079 --> 00:25:55,779

it has the ancient echoes yes I like

601
00:25:59,339 --> 00:25:58,089
that term ether too it's just one of

602
00:26:01,560 --> 00:25:59,349
those funny things that we sometimes

603
00:26:03,329 --> 00:26:01,570
stumble over the language because there

604
00:26:06,180 --> 00:26:03,339
are so many words referencing the same

605
00:26:08,069 --> 00:26:06,190
kind of stuff and Susan to bring you

606
00:26:11,129 --> 00:26:08,079
back in here when it comes to the

607
00:26:13,229 --> 00:26:11,139
conferencing today are these devices

608
00:26:15,749 --> 00:26:13,239
that are demonstrated just powering a

609
00:26:18,149 --> 00:26:15,759
small light bulb or have you seen bigger

610
00:26:20,629 --> 00:26:18,159
things that could actually power a house

611
00:26:23,069 --> 00:26:20,639
or power a car as well or better than

612
00:26:24,599 --> 00:26:23,079
anything from the mainstream

613
00:26:27,209 --> 00:26:24,609

how close are these things

614

00:26:30,509 --> 00:26:27,219

developmentally to a tried and true

615

00:26:33,239 --> 00:26:30,519

rollout I would say that it's going

616

00:26:35,249 --> 00:26:33,249

through its evolutionary phase there's

617

00:26:37,349 --> 00:26:35,259

the world that I see right you know so

618

00:26:39,059 --> 00:26:37,359

gene had alluded to the fact that we get

619

00:26:42,599 --> 00:26:39,069

involved in testing and betting and we

620

00:26:46,829 --> 00:26:42,609

do like when I got into this field I got

621

00:26:49,889 --> 00:26:46,839

into it with an understanding that we're

622

00:26:52,409 --> 00:26:49,899

moving towards a subtler way of living

623

00:26:54,539 --> 00:26:52,419

in being it's something that I'll say

624

00:26:57,719 --> 00:26:54,549

that I came in with that it was

625

00:26:59,039 --> 00:26:57,729

basically like okay you know why are we

626

00:27:00,329 --> 00:26:59,049

doing the things that we're doing to the

627

00:27:02,039 --> 00:27:00,339

planet why are we creating these

628

00:27:04,499 --> 00:27:02,049

different technologies that seems to be

629

00:27:05,729 --> 00:27:04,509

taking away versus being an alignment

630

00:27:08,369 --> 00:27:05,739

you know that's something that's just

631

00:27:10,680 --> 00:27:08,379

been like a natural thought for me so

632

00:27:12,629 --> 00:27:10,690

when I got into this arena I'm also a

633

00:27:15,569 --> 00:27:12,639

New Englander were pretty pragmatic

634

00:27:16,799 --> 00:27:15,579

people even though I lived in Hawaii for

635

00:27:19,529 --> 00:27:16,809

a couple of years you know that

636

00:27:21,319 --> 00:27:19,539

pragmatism is just kind of there you

637

00:27:24,089 --> 00:27:21,329

know I said to myself all right well

638

00:27:26,939 --> 00:27:24,099

let's see it let's see what's working

639

00:27:29,939 --> 00:27:26,949

when I first got into this arena there

640

00:27:31,619 --> 00:27:29,949

was a lot of stories and the stories are

641

00:27:33,119 --> 00:27:31,629

great and they're interesting and

642

00:27:35,430 --> 00:27:33,129

they're charismatic and they pull

643

00:27:38,430 --> 00:27:35,440

people's energy in but you know a

644

00:27:41,639 --> 00:27:38,440

story's a story and let's say you're

645

00:27:44,069 --> 00:27:41,649

taking money to develop a device but you

646

00:27:45,809 --> 00:27:44,079

don't have a working prototype or you

647

00:27:48,059 --> 00:27:45,819

have a theory and again this is not a

648

00:27:50,639 --> 00:27:48,069

negative thing it's just saying okay you

649

00:27:52,649 --> 00:27:50,649

know where are we really at with who has

650

00:27:55,199 --> 00:27:52,659

what and what does that really look like

651
00:27:56,580 --> 00:27:55,209
and one of the things that surprised me

652
00:28:00,480 --> 00:27:56,590
the most was the

653
00:28:02,880 --> 00:28:00,490
amount of stories in this arena without

654
00:28:04,289 --> 00:28:02,890
actually having a physical device and I

655
00:28:08,610 --> 00:28:04,299
thought to myself well that's a little

656
00:28:11,220 --> 00:28:08,620
strange and then as I got into it more

657
00:28:14,060 --> 00:28:11,230
and more I realized that I started to

658
00:28:16,289 --> 00:28:14,070
gravitate towards people that had

659
00:28:17,940 --> 00:28:16,299
physical devices that were really you

660
00:28:19,680 --> 00:28:17,950
know I call and this is where Jean and I

661
00:28:22,260 --> 00:28:19,690
obviously really hit it off as well

662
00:28:24,060 --> 00:28:22,270
because this is what she did and you

663
00:28:27,090 --> 00:28:24,070

know some of her colleagues that then

664

00:28:28,950 --> 00:28:27,100

became our colleagues and it was that

665

00:28:31,590 --> 00:28:28,960

that pragmatism of you know getting in

666

00:28:36,299 --> 00:28:31,600

there and really working it and trying

667

00:28:39,299 --> 00:28:36,309

to get more power out if then power in

668

00:28:41,730 --> 00:28:39,309

and I went ah ha you know this is where

669

00:28:43,740 --> 00:28:41,740

I really need to be so this is what I

670

00:28:45,450 --> 00:28:43,750

was gravitating towards so you know as

671

00:28:47,460 --> 00:28:45,460

you asked about the field as a whole

672

00:28:48,990 --> 00:28:47,470

you've got folks that have theories

673

00:28:50,610 --> 00:28:49,000

you've got folks that have ideas you

674

00:28:53,399 --> 00:28:50,620

have people that have raised money on

675

00:28:56,820 --> 00:28:53,409

the backs of a promise without actually

676
00:29:00,000 --> 00:28:56,830
having a working prototype so what I saw

677
00:29:02,279 --> 00:29:00,010
for myself was geez if you're trying to

678
00:29:04,230 --> 00:29:02,289
run a legitimate organization you know

679
00:29:06,659 --> 00:29:04,240
where you're creating advocacy around

680
00:29:09,210 --> 00:29:06,669
for these folks and for these devices

681
00:29:10,529 --> 00:29:09,220
there has to be some parameters here

682
00:29:14,250 --> 00:29:10,539
there's got to be some guardrails

683
00:29:17,639 --> 00:29:14,260
otherwise this isn't credible and how do

684
00:29:20,909 --> 00:29:17,649
you work to bring awareness of something

685
00:29:22,980 --> 00:29:20,919
that is this huge if the credibility

686
00:29:24,990 --> 00:29:22,990
piece isn't there you know so yeah I

687
00:29:28,139 --> 00:29:25,000
have a master's in science and you know

688
00:29:29,850 --> 00:29:28,149

you want to be able to go to look at XYZ

689

00:29:31,830 --> 00:29:29,860

and see how it all fits and makes sense

690

00:29:33,630 --> 00:29:31,840

and have a paper trail that goes along

691

00:29:36,029 --> 00:29:33,640

with it or some type of a trail that

692

00:29:39,810 --> 00:29:36,039

goes along with it in terms of validity

693

00:29:42,600 --> 00:29:39,820

so we've worked really hard within our

694

00:29:45,180 --> 00:29:42,610

sphere within our group to come up with

695

00:29:48,360 --> 00:29:45,190

testing and vetting protocols and I

696

00:29:51,330 --> 00:29:48,370

think what you'll find is you know 95%

697

00:29:52,620 --> 00:29:51,340

of the devices don't work as tested now

698

00:29:54,180 --> 00:29:52,630

somebody could say well that's because

699

00:29:56,130 --> 00:29:54,190

you know as Jean alluded to that the

700

00:29:58,110 --> 00:29:56,140

testing measurement may not be that

701
00:30:00,180 --> 00:29:58,120
great well that could be some of the

702
00:30:03,060 --> 00:30:00,190
variables as well but you know we try to

703
00:30:05,820 --> 00:30:03,070
use the latest and greatest up-to-date

704
00:30:08,279 --> 00:30:05,830
devices and I am NOT an engineer but I

705
00:30:10,140 --> 00:30:08,289
work with a lot of engineers who are

706
00:30:11,790 --> 00:30:10,150
really good at what they do

707
00:30:15,210 --> 00:30:11,800
you know again we're a close-knit team

708
00:30:18,030 --> 00:30:15,220
so where are we really at what I would

709
00:30:19,860 --> 00:30:18,040
say as a whole right now what seems to

710
00:30:21,920 --> 00:30:19,870
be and I'm gonna take a leap here and

711
00:30:27,420 --> 00:30:21,930
say something because there is a lot of

712
00:30:30,390 --> 00:30:27,430
buzz in the alternative media and you

713
00:30:32,430 --> 00:30:30,400

know you do see it on CNN and you are

714

00:30:34,710 --> 00:30:32,440

seeing it you know posted in other

715

00:30:39,350 --> 00:30:34,720

places like more mainstream magazines

716

00:30:43,440 --> 00:30:39,360

and news outlets that the Navy has

717

00:30:45,060 --> 00:30:43,450

patented a device that can create I

718

00:30:46,440 --> 00:30:45,070

don't know if they use the words over

719

00:30:49,410 --> 00:30:46,450

unity I don't have the article in front

720

00:30:51,630 --> 00:30:49,420

of me but you're seeing more of this

721

00:30:52,950 --> 00:30:51,640

information popped out in the public

722

00:30:54,830 --> 00:30:52,960

domain and then you're seeing more of

723

00:30:59,070 --> 00:30:54,840

this information on alternative media

724

00:31:01,170 --> 00:30:59,080

but on my side of what I do see and why

725

00:31:04,290 --> 00:31:01,180

I'm going to say it's aside is there

726

00:31:06,510 --> 00:31:04,300

seems to be more inventors that are

727

00:31:09,420 --> 00:31:06,520

getting inspired to create these

728

00:31:11,520 --> 00:31:09,430

different technologies coupled with the

729

00:31:14,100 --> 00:31:11,530

fact that

730

00:31:16,289 --> 00:31:14,110

we seem to be at this space in place

731

00:31:18,899 --> 00:31:16,299

where you have a lot of what I would

732

00:31:21,570 --> 00:31:18,909

call working prototypes but those

733

00:31:24,450 --> 00:31:21,580

prototypes do have an issue of

734

00:31:26,730 --> 00:31:24,460

consistency and have an issue of

735

00:31:28,200 --> 00:31:26,740

scalability so you could have a working

736

00:31:30,000 --> 00:31:28,210

prototype but let's say it's you know

737

00:31:32,190 --> 00:31:30,010

outputting a certain amount of power but

738

00:31:34,770 --> 00:31:32,200

maybe that needs to be scaled a bit more

739

00:31:37,260 --> 00:31:34,780

maybe it needs to work for a much longer

740

00:31:39,120 --> 00:31:37,270

period of time so that's where it seems

741

00:31:42,060 --> 00:31:39,130

like the field is at right now it's not

742

00:31:44,430 --> 00:31:42,070

so much as are these things real I think

743

00:31:45,990 --> 00:31:44,440

they are real at least what I can see I

744

00:31:47,549 --> 00:31:46,000

think gene would probably say the same

745

00:31:50,490 --> 00:31:47,559

thing otherwise we probably wouldn't be

746

00:31:53,700 --> 00:31:50,500

doing this but it's an issue it seems of

747

00:31:57,510 --> 00:31:53,710

our maturity in how I mean energy is a

748

00:32:00,690 --> 00:31:57,520

big deal it's a big deal how we use the

749

00:32:04,860 --> 00:32:00,700

electron is a big deal not even getting

750

00:32:07,919 --> 00:32:04,870

into a spiritual conversation it's a big

751

00:32:09,810 --> 00:32:07,929

deal so maybe this teetering point this

752

00:32:12,450 --> 00:32:09,820

tipping point that we seem to be at

753

00:32:14,430 --> 00:32:12,460

right now is because we are being asked

754

00:32:16,950 --> 00:32:14,440

to understand this at a much greater

755

00:32:19,860 --> 00:32:16,960

level than what has gone on previously

756

00:32:21,870 --> 00:32:19,870

and again that leads into you know much

757

00:32:23,520 --> 00:32:21,880

deeper conversation as well so you know

758

00:32:26,279 --> 00:32:23,530

what I would say is we seem to be at a

759

00:32:28,409 --> 00:32:26,289

bit of this tipping point and I very

760

00:32:31,529 --> 00:32:28,419

much believe that this is not for the

761

00:32:34,399 --> 00:32:31,539

select few I very much believe being

762

00:32:37,409 --> 00:32:34,409

able to understand how energy moves and

763

00:32:39,690 --> 00:32:37,419

operates within ourselves with our

764

00:32:43,110 --> 00:32:39,700

planet and with the universe that we

765

00:32:45,690 --> 00:32:43,120

live in it is an important aspect to

766

00:32:48,750 --> 00:32:45,700

just our natural evolution and this is a

767

00:32:51,510 --> 00:32:48,760

part of it so I could go on and on but

768

00:32:54,560 --> 00:32:51,520

I'm gonna stop myself right there no

769

00:32:57,180 --> 00:32:54,570

very well said very well said and the

770

00:33:01,110 --> 00:32:57,190

overunity devices or zero-point energy

771

00:33:04,529 --> 00:33:01,120

devices those are definitely exciting

772

00:33:05,850 --> 00:33:04,539

and you also reference anti-gravity in

773

00:33:08,520 --> 00:33:05,860

the book which is a whole other thing

774

00:33:11,000 --> 00:33:08,530

that is pretty provocative and I'm a big

775

00:33:14,070 --> 00:33:11,010

believer in the idea that this is a

776

00:33:16,890 --> 00:33:14,080

simpler mechanic than people realize and

777

00:33:19,770 --> 00:33:16,900

has probably been done many times over

778

00:33:22,320 --> 00:33:19,780

history but I am curious if either of

779

00:33:25,260 --> 00:33:22,330

you have seen anti-gravity and the flesh

780

00:33:28,150 --> 00:33:25,270

at these concerts or at these conference

781

00:33:30,130 --> 00:33:28,160

or even behind closed doors

782

00:33:34,330 --> 00:33:30,140

well I've seen John Hutchinson's

783

00:33:37,600 --> 00:33:34,340

experiments ah yes now there's a mad

784

00:33:40,990 --> 00:33:37,610

scientist you guys love that guy

785

00:33:44,500 --> 00:33:41,000

yes he was actually the second in bet

786

00:33:49,270 --> 00:33:44,510

here that I met and that was a string of

787

00:33:52,600 --> 00:33:49,280

coincidences so whatever was happening

788

00:33:55,630 --> 00:33:52,610

in his experiments involving there are

789

00:33:58,060 --> 00:33:55,640

strong electrostatic forces but

790

00:34:01,390 --> 00:33:58,070

something was going on that was going

791

00:34:05,200 --> 00:34:01,400

beyond standard physics and did bring in

792

00:34:08,110 --> 00:34:05,210

viewers from military sources and there

793

00:34:11,230 --> 00:34:08,120

was a whole lot of intrigue around his

794

00:34:13,300 --> 00:34:11,240

story yes and well just for people who

795

00:34:16,119 --> 00:34:13,310

weren't familiar with him he did release

796

00:34:17,680 --> 00:34:16,129

videos online of his experiments or his

797

00:34:20,590 --> 00:34:17,690

demonstrations where he seemed to be

798

00:34:22,869 --> 00:34:20,600

able to aim an energy at certain things

799

00:34:24,520 --> 00:34:22,879

and get them to float off the table and

800

00:34:27,669 --> 00:34:24,530

it's a lot of things like the liquid

801
00:34:30,760 --> 00:34:27,679
inside of a cup the a bowl or a bowling

802
00:34:33,820 --> 00:34:30,770
ball and various different you know

803
00:34:36,399 --> 00:34:33,830
household items or things that are not

804
00:34:37,780 --> 00:34:36,409
super huge but it kind of alludes to the

805
00:34:39,280 --> 00:34:37,790
idea that people talk about in the

806
00:34:42,220 --> 00:34:39,290
ancient past they used to levitate

807
00:34:44,020 --> 00:34:42,230
stones somehow I don't know but that's

808
00:34:46,840 --> 00:34:44,030
kind of what John Hutchinson was doing

809
00:34:48,540 --> 00:34:46,850
was little levitation experiments in the

810
00:34:51,080 --> 00:34:48,550
lab as far as I know is that right

811
00:34:53,540 --> 00:34:51,090
that's right

812
00:34:56,360 --> 00:34:53,550
this is you know where some high

813
00:34:59,390 --> 00:34:56,370

strangeness comes in and I was always

814

00:35:01,730 --> 00:34:59,400

more interested in the practical what

815

00:35:04,940 --> 00:35:01,740

can we do for humankind rather than what

816

00:35:07,370 --> 00:35:04,950

can we do for people who want to do

817

00:35:10,580 --> 00:35:07,380

weird things to materials you know like

818

00:35:13,670 --> 00:35:10,590

some of the materials a metal would turn

819

00:35:15,650 --> 00:35:13,680

briefly transparent for long enough for

820

00:35:19,160 --> 00:35:15,660

something else to get embedded in it I

821

00:35:22,010 --> 00:35:19,170

saw ordinary table knife embedded in a

822

00:35:24,650 --> 00:35:22,020

slab of metal that's all very

823

00:35:28,100 --> 00:35:24,660

interesting but that really wasn't my

824

00:35:31,860 --> 00:35:28,110

main focus so I spent more time in all

825

00:35:36,090 --> 00:35:31,870

those decades looking for the

826

00:35:37,770 --> 00:35:36,100

answer for ordinary people for art clean

827

00:35:40,500 --> 00:35:37,780

energy problems at church really so

828

00:35:44,660 --> 00:35:40,510

crucial right now it always has been

829

00:35:47,930 --> 00:35:44,670

crucial to replace the polluting oil

830

00:35:53,109 --> 00:35:47,940

soaked politics and oil soaked

831

00:35:55,420 --> 00:35:53,119

technologies but of course right now

832

00:35:58,539 --> 00:35:55,430

it's in everybody's face that there's

833

00:36:01,630 --> 00:35:58,549

lots of demonstrations asking for a

834

00:36:06,460 --> 00:36:01,640

change of regime in the world as far as

835

00:36:08,289 --> 00:36:06,470

energy industry goes so yeah that's

836

00:36:09,670 --> 00:36:08,299

exactly but as far as anti-gravity

837

00:36:12,789 --> 00:36:09,680

experience and of course as I've written

838

00:36:15,999 --> 00:36:12,799

in the past about T Townsend Brown and

839

00:36:19,210 --> 00:36:16,009

his story and I know you had an

840

00:36:21,849 --> 00:36:19,220

interview with dr. Paul Laviolette who

841

00:36:26,049 --> 00:36:21,859

really has written the ultimate book on

842

00:36:29,109 --> 00:36:26,059

those experiments and technologies but

843

00:36:30,849 --> 00:36:29,119

the inventors that we encounter the ones

844

00:36:31,509 --> 00:36:30,859

that just have these Minds is just won't

845

00:36:33,609 --> 00:36:31,519

quit

846

00:36:36,460 --> 00:36:33,619

you know and they see that one thing

847

00:36:39,970 --> 00:36:36,470

works in approach in energy generations

848

00:36:41,859 --> 00:36:39,980

and and then they tell me later okay now

849

00:36:43,539 --> 00:36:41,869

I just want to do some experiments

850

00:36:46,410 --> 00:36:43,549

because I've got some ideas about how we

851

00:36:49,450 --> 00:36:46,420

can build this anti-gravity crowd

852

00:36:51,940 --> 00:36:49,460

Guaymas and I'm more of the point of

853

00:36:55,509 --> 00:36:51,950

view of please finish the energy yeah

854

00:36:57,519 --> 00:36:55,519

generator first you know how their minds

855

00:37:00,039 --> 00:36:57,529

went to hop off to the next thing

856

00:37:01,870 --> 00:37:00,049

rather than finish the first one yeah

857

00:37:03,670 --> 00:37:01,880

and that's you know it's funny because

858

00:37:06,249 --> 00:37:03,680

that's what seems to be the case because

859

00:37:08,019 --> 00:37:06,259

with inventors is I call it like the

860

00:37:10,059 --> 00:37:08,029

three tier the first tier is we just

861

00:37:12,579 --> 00:37:10,069

need to get this device out that can

862

00:37:14,440 --> 00:37:12,589

allow people to get off the grid and no

863

00:37:16,690 --> 00:37:14,450

something happens they can have heat and

864

00:37:18,339 --> 00:37:16,700

they can have the refrigerators run and

865

00:37:20,079 --> 00:37:18,349

they can have electricity but you know

866

00:37:22,509 --> 00:37:20,089

what we really want to get to is that

867

00:37:24,940 --> 00:37:22,519

something midstream which is something

868

00:37:27,069 --> 00:37:24,950

between antigravity in that first device

869

00:37:29,349 --> 00:37:27,079

but that's something that we hear a lot

870

00:37:31,059 --> 00:37:29,359

so it's almost as if the bottleneck

871

00:37:33,130 --> 00:37:31,069

needs to be loosened on some of these

872

00:37:38,170 --> 00:37:33,140

inventors because this is what we hear

873

00:37:41,229 --> 00:37:38,180

very very often mmhmm mmhmm yes and it

874

00:37:43,779 --> 00:37:41,239

is just so interesting how the Machine

875

00:37:45,809 --> 00:37:43,789

keeps all this under wraps you write in

876
00:37:48,640 --> 00:37:45,819
the book about the suppression angle and

877
00:37:50,349 --> 00:37:48,650
there's basically several techniques

878
00:37:52,509 --> 00:37:50,359
that you talk about in the book that

879
00:37:54,479 --> 00:37:52,519
they use compromising the schools and

880
00:37:57,249 --> 00:37:54,489
the certifications we talked about that

881
00:37:59,170 --> 00:37:57,259
promoting their own cultural thought

882
00:38:01,329 --> 00:37:59,180
leaders and experts these pre-approved

883
00:38:04,059 --> 00:38:01,339
people they'll put on TV as the go-to

884
00:38:06,700 --> 00:38:04,069
guy for science you control the Patent

885
00:38:06,930 --> 00:38:06,710
Office you classify research Emmet's

886
00:38:08,880 --> 00:38:06,940
here

887
00:38:11,790 --> 00:38:08,890
girls you promote red herrings and

888
00:38:13,650 --> 00:38:11,800

hoaxes so of course if Dateline NBC or

889

00:38:14,819 --> 00:38:13,660

60 minutes is going to give airtime to

890

00:38:16,589 --> 00:38:14,829

anything in this realm

891

00:38:18,960 --> 00:38:16,599

it's gonna be one of these red herrings

892

00:38:21,569 --> 00:38:18,970

and you threaten you you harm and you

893

00:38:23,579 --> 00:38:21,579

destroy and also purchasing the

894

00:38:25,950 --> 00:38:23,589

technology offering the inventor a

895

00:38:27,930 --> 00:38:25,960

non-disclosure and then barring it and

896

00:38:31,470 --> 00:38:27,940

it never comes out and that's common as

897

00:38:34,200 --> 00:38:31,480

well and because you are so focused on

898

00:38:37,290 --> 00:38:34,210

the strategy side of things Susan I'm

899

00:38:40,050 --> 00:38:37,300

curious outside of the good vetting

900

00:38:42,480 --> 00:38:40,060

process that's definitely important what

901
00:38:46,020 --> 00:38:42,490
else are you guys doing to neutralize

902
00:38:48,829 --> 00:38:46,030
these suppression tactics education

903
00:38:51,809 --> 00:38:48,839
education is absolutely critical

904
00:38:53,550 --> 00:38:51,819
absolutely critical I mean the book you

905
00:38:55,710 --> 00:38:53,560
know the book is written for a layperson

906
00:38:57,240 --> 00:38:55,720
in the book is also written by two

907
00:38:59,490 --> 00:38:57,250
people that I would say are kind of

908
00:39:01,589 --> 00:38:59,500
non-traditional in this arena and that's

909
00:39:03,390 --> 00:39:01,599
intentional because if you need to get

910
00:39:06,599 --> 00:39:03,400
additional awareness you need to be able

911
00:39:08,849 --> 00:39:06,609
to bring in both genders into this area

912
00:39:11,400 --> 00:39:08,859
and the book was written from that

913
00:39:13,740 --> 00:39:11,410

perspective it's written in the sense

914

00:39:16,380 --> 00:39:13,750

that you know it satisfies engineers

915

00:39:18,059 --> 00:39:16,390

probably curiosity like somebody that's

916

00:39:19,440 --> 00:39:18,069

new that's learning about this but you

917

00:39:21,990 --> 00:39:19,450

know from a layperson I mean obviously

918

00:39:23,849 --> 00:39:22,000

I'm a woman the amount of my friends

919

00:39:25,349 --> 00:39:23,859

that purchase this book alone that I

920

00:39:27,180 --> 00:39:25,359

would never think in a million years

921

00:39:29,970 --> 00:39:27,190

would read this they're reading it and

922

00:39:32,069 --> 00:39:29,980

you know these are people that you know

923

00:39:33,359 --> 00:39:32,079

may or may not have a degree but they're

924

00:39:34,740 --> 00:39:33,369

people that you would not expect but

925

00:39:37,579 --> 00:39:34,750

they're trying to educate themselves

926
00:39:40,829 --> 00:39:37,589
because they realize that in order for

927
00:39:42,990 --> 00:39:40,839
us to shift our thinking you've got to

928
00:39:45,089 --> 00:39:43,000
be able to get out of maybe your little

929
00:39:46,980 --> 00:39:45,099
box using your word earlier that you're

930
00:39:49,829 --> 00:39:46,990
in and actually begin to educate

931
00:39:51,809 --> 00:39:49,839
yourself in other areas that because

932
00:39:54,359 --> 00:39:51,819
we've been told physics is off topic to

933
00:39:56,490 --> 00:39:54,369
you if you don't have some type of a

934
00:39:58,559 --> 00:39:56,500
degree like it's typically we don't talk

935
00:40:00,059 --> 00:39:58,569
about physics it's off topic to you you

936
00:40:01,710 --> 00:40:00,069
know see you find people are being more

937
00:40:03,660 --> 00:40:01,720
brave and saying you know what maybe

938
00:40:05,579 --> 00:40:03,670

this is for me to be able to learn maybe

939

00:40:08,099 --> 00:40:05,589

it is for me to be able to say something

940

00:40:09,720 --> 00:40:08,109

you know in regards to my future in

941

00:40:11,819 --> 00:40:09,730

regards to maybe my child's education

942

00:40:13,470 --> 00:40:11,829

that I'm paying thirty-five thousand

943

00:40:14,849 --> 00:40:13,480

dollars a year that's going to college

944

00:40:18,240 --> 00:40:14,859

somewhere let's say for a degree in

945

00:40:20,339 --> 00:40:18,250

sciences right so you know this is what

946

00:40:22,499 --> 00:40:20,349

I think I think it's the education you

947

00:40:25,529 --> 00:40:22,509

what are we doing there's a lot of

948

00:40:27,059 --> 00:40:25,539

Education that needs to happen like nem

949

00:40:29,160 --> 00:40:27,069

we're working in a couple of projects

950

00:40:30,690 --> 00:40:29,170

right now they're not out there they'll

951
00:40:31,049 --> 00:40:30,700
probably be out there in about two

952
00:40:33,900 --> 00:40:31,059
months

953
00:40:36,089 --> 00:40:33,910
but going deeper from an educational

954
00:40:38,849 --> 00:40:36,099
standpoint in by the way it's not enough

955
00:40:41,309 --> 00:40:38,859
to just educate people on the science

956
00:40:43,079 --> 00:40:41,319
and the tech you also have to be able to

957
00:40:45,059 --> 00:40:43,089
educate well how do we really get here

958
00:40:47,069 --> 00:40:45,069
in the first place and why did all of

959
00:40:49,589 --> 00:40:47,079
this just become acceptable why did we

960
00:40:51,870 --> 00:40:49,599
just accept this as a norm I mean I've

961
00:40:55,349 --> 00:40:51,880
spent the last two weeks visiting

962
00:40:57,390 --> 00:40:55,359
colleges and working with individuals in

963
00:41:00,749 --> 00:40:57,400

colleges to be able to educate them

964

00:41:02,849 --> 00:41:00,759

about this and let me share with you the

965

00:41:06,089 --> 00:41:02,859

amount of openness has been off the

966

00:41:08,190 --> 00:41:06,099

chart and it's because they realize

967

00:41:10,200 --> 00:41:08,200

who's the de people at the college

968

00:41:11,999 --> 00:41:10,210

setting in you know because we think

969

00:41:13,920 --> 00:41:12,009

colleges are always the professor's know

970

00:41:15,239 --> 00:41:13,930

the colleges are the administration

971

00:41:17,640 --> 00:41:15,249

they're the people in the career center

972

00:41:20,099 --> 00:41:17,650

they're the people in the Alumni office

973

00:41:22,680 --> 00:41:20,109

there's people in administration that

974

00:41:24,690 --> 00:41:22,690

make up you know how these professors

975

00:41:27,150 --> 00:41:24,700

actually get in it's not just the

976
00:41:28,769 --> 00:41:27,160
professors and the students obviously

977
00:41:31,410 --> 00:41:28,779
being able to work with some of the

978
00:41:34,979 --> 00:41:31,420
students so the level of openness right

979
00:41:37,979 --> 00:41:34,989
now is much higher than you would

980
00:41:40,170 --> 00:41:37,989
suspect we keep wanting to go after the

981
00:41:42,329 --> 00:41:40,180
professor and you know get validation

982
00:41:44,849 --> 00:41:42,339
from this professor but I'll tell you

983
00:41:49,109 --> 00:41:44,859
folks that are in some of these colleges

984
00:41:53,130 --> 00:41:49,119
are realizing and you know these are

985
00:41:56,609 --> 00:41:53,140
their words I'm going to say that we

986
00:41:58,739 --> 00:41:56,619
can't answer the need of our students

987
00:42:01,109 --> 00:41:58,749
right now we understand and know that

988
00:42:03,209 --> 00:42:01,119

there's something going on and we feel

989

00:42:05,459 --> 00:42:03,219

powerless we don't know what it is that

990

00:42:08,459 --> 00:42:05,469

we can do to help and so when you

991

00:42:10,880 --> 00:42:08,469

introduce to them something like this

992

00:42:13,100 --> 00:42:10,890

book or this topic

993

00:42:16,790 --> 00:42:13,110

they begin to understand that this is

994

00:42:20,150 --> 00:42:16,800

about connecting maybe science whether

995

00:42:22,820 --> 00:42:20,160

you call it spirit or the ether but the

996

00:42:26,330 --> 00:42:22,830

connected universe so to speak they

997

00:42:28,670 --> 00:42:26,340

understand that this may be one of the

998

00:42:32,360 --> 00:42:28,680

things that needs to happen in order for

999

00:42:34,400 --> 00:42:32,370

these kids that are in these colleges to

1000

00:42:35,780 --> 00:42:34,410

be able to feel inspired and to be able

1001
00:42:37,820 --> 00:42:35,790
to feel like the college is actually

1002
00:42:39,710 --> 00:42:37,830
giving them something valuable and we

1003
00:42:41,510 --> 00:42:39,720
have a young woman that works with us

1004
00:42:44,540 --> 00:42:41,520
that graduated from college last year

1005
00:42:46,700 --> 00:42:44,550
and she echoed the same sentiment that

1006
00:42:48,260 --> 00:42:46,710
she's beyond what her professors can

1007
00:42:49,760 --> 00:42:48,270
share so you're finding that the

1008
00:42:52,100 --> 00:42:49,770
students are the ones that are sharing

1009
00:42:54,950 --> 00:42:52,110
this type of information back with their

1010
00:42:57,470 --> 00:42:54,960
professors it's an education back and

1011
00:42:59,510 --> 00:42:57,480
forth though and we also have another

1012
00:43:01,040 --> 00:42:59,520
person that potentially I say

1013
00:43:03,170 --> 00:43:01,050

potentially because he's working it out

1014

00:43:05,000 --> 00:43:03,180

with his professor right now he's gonna

1015

00:43:08,360 --> 00:43:05,010

working on his master's degree in

1016

00:43:10,910 --> 00:43:08,370

physics and he's working on a potential

1017

00:43:12,410 --> 00:43:10,920

experiment with us right now and you

1018

00:43:16,010 --> 00:43:12,420

know this is all great because again

1019

00:43:17,870 --> 00:43:16,020

it's an education back and forth and you

1020

00:43:20,720 --> 00:43:17,880

know this is one of the many things the

1021

00:43:23,300 --> 00:43:20,730

other thing is education has it relates

1022

00:43:25,790 --> 00:43:23,310

to working with creating a healthy

1023

00:43:28,580 --> 00:43:25,800

ecosystem for these technologies and the

1024

00:43:30,350 --> 00:43:28,590

inventors to be supported in you know

1025

00:43:33,200 --> 00:43:30,360

not taking what I call traditional

1026
00:43:34,760 --> 00:43:33,210
investment because that usually seems to

1027
00:43:37,130 --> 00:43:34,770
just fall flat on its face

1028
00:43:39,230 --> 00:43:37,140
and that's typically because you've got

1029
00:43:41,600 --> 00:43:39,240
an investor that wants to make money off

1030
00:43:43,100 --> 00:43:41,610
of this they see you know my god you

1031
00:43:44,720 --> 00:43:43,110
know this type of power savings do you

1032
00:43:47,570 --> 00:43:44,730
know how much money that can make me so

1033
00:43:49,790 --> 00:43:47,580
go and make this device and have it be

1034
00:43:52,400 --> 00:43:49,800
done by this in this day you know for

1035
00:43:55,070 --> 00:43:52,410
some reason this field doesn't work like

1036
00:43:58,220 --> 00:43:55,080
that for some reason there does seem to

1037
00:44:01,520 --> 00:43:58,230
be a consciousness mindfulness aspect to

1038
00:44:04,070 --> 00:44:01,530

this whole thing and I think that the

1039

00:44:06,440 --> 00:44:04,080

more someone is in this the longer the

1040

00:44:08,480 --> 00:44:06,450

years that they're in this this is what

1041

00:44:10,760 --> 00:44:08,490

we typically you know hear afterwards

1042

00:44:13,100 --> 00:44:10,770

from some of these very experienced PhDs

1043

00:44:17,450 --> 00:44:13,110

and physicists astrophysicists and

1044

00:44:20,240 --> 00:44:17,460

engineers hmm well said yes education is

1045

00:44:22,280 --> 00:44:20,250

key and obviously educating these

1046

00:44:24,230 --> 00:44:22,290

inventors of today on the cautionary

1047

00:44:24,620 --> 00:44:24,240

tales of the past is a big part of that

1048

00:44:27,320 --> 00:44:24,630

and how do

1049

00:44:29,660 --> 00:44:27,330

avoid those tricks and traps cuz these

1050

00:44:33,770 --> 00:44:29,670

system and his agents can be very sneaky

1051
00:44:36,530 --> 00:44:33,780
and strategic and let's get weird for a

1052
00:44:39,410 --> 00:44:36,540
minute Susan you are a person that has

1053
00:44:41,720 --> 00:44:39,420
had a contact the experience and only

1054
00:44:43,940 --> 00:44:41,730
you know I've talked of many many guests

1055
00:44:46,460 --> 00:44:43,950
who have as well like we're pretty hip

1056
00:44:48,800 --> 00:44:46,470
to that game but we've also heard that

1057
00:44:50,840 --> 00:44:48,810
Tesla used to feel that his ideas were

1058
00:44:52,430 --> 00:44:50,850
coming in telepathically and you've

1059
00:44:54,950 --> 00:44:52,440
written about people in the book who

1060
00:44:56,660 --> 00:44:54,960
also feel the same way or they had a

1061
00:44:59,060 --> 00:44:56,670
near-death experience when they were

1062
00:45:02,660 --> 00:44:59,070
young and that led them out a body like

1063
00:45:04,550 --> 00:45:02,670

this guy Jorge Merkel who's done so much

1064

00:45:07,240 --> 00:45:04,560

lucid dreaming and out-of-body stuff

1065

00:45:10,370 --> 00:45:07,250

that he says he's learned more about

1066

00:45:12,170 --> 00:45:10,380

mineralogy from visiting distant planets

1067

00:45:14,660 --> 00:45:12,180

than he ever learned in a classroom and

1068

00:45:16,670 --> 00:45:14,670

that's of course provocative but how

1069

00:45:19,550 --> 00:45:16,680

common is this element that these

1070

00:45:21,830 --> 00:45:19,560

inventors seem to have some connection

1071

00:45:24,280 --> 00:45:21,840

one way or another to the more than

1072

00:45:28,210 --> 00:45:24,290

human world

1073

00:45:31,930 --> 00:45:28,220

well I would say that it seems to be

1074

00:45:34,420 --> 00:45:31,940

quite common but not in all cases and I

1075

00:45:36,640 --> 00:45:34,430

do want to pull in Gina for a moment on

1076

00:45:38,290 --> 00:45:36,650

this because I don't think we can say

1077

00:45:40,240 --> 00:45:38,300

every one of the inventors that are

1078

00:45:42,550 --> 00:45:40,250

featured in the book has had let's say

1079

00:45:44,980 --> 00:45:42,560

contact but they seem to have some type

1080

00:45:48,070 --> 00:45:44,990

of a epiphany or some type of a

1081

00:45:51,040 --> 00:45:48,080

higher-level connection whether it's

1082

00:45:52,720 --> 00:45:51,050

through nature meditation thinking that

1083

00:45:53,830 --> 00:45:52,730

it's their higher self but you know I

1084

00:45:55,950 --> 00:45:53,840

think we can say there's a good amount

1085

00:45:59,490 --> 00:45:55,960

of people that have

1086

00:46:02,130 --> 00:45:59,500

and their dreams wake up in the morning

1087

00:46:03,510 --> 00:46:02,140

with a hot and so where did that come

1088

00:46:05,700 --> 00:46:03,520

from

1089

00:46:09,600 --> 00:46:05,710

you're right there's a whole spectrum of

1090

00:46:12,720 --> 00:46:09,610

how tuned in the inventors are some are

1091

00:46:15,960 --> 00:46:12,730

pretty close to the mechanistic but on

1092

00:46:18,540 --> 00:46:15,970

the other end of the scale of course dr.

1093

00:46:22,920 --> 00:46:18,550

Jorge Merkel was most fantastic

1094

00:46:26,310 --> 00:46:22,930

scientist I ever met and that's a

1095

00:46:30,420 --> 00:46:26,320

mind-blower his experiences of traveling

1096

00:46:34,440 --> 00:46:30,430

in and Lightbody out among the planets

1097

00:46:38,040 --> 00:46:34,450

and seeing how the different types of

1098

00:46:40,500 --> 00:46:38,050

minerals there that's a mind-blower yeah

1099

00:46:42,750 --> 00:46:40,510

and at the same time that gene and I

1100

00:46:44,970 --> 00:46:42,760

were writing this book there was

1101
00:46:47,340 --> 00:46:44,980
research that I published with this

1102
00:46:49,890 --> 00:46:47,350
group last year wait I have to say now

1103
00:46:52,500 --> 00:46:49,900
because it's now 20 20 year and a half

1104
00:46:54,780 --> 00:46:52,510
ago and that was about people that have

1105
00:46:57,090 --> 00:46:54,790
had quote-unquote contact experiences

1106
00:46:59,340 --> 00:46:57,100
but it's not all the same type of thing

1107
00:47:01,500 --> 00:46:59,350
like they saw a certain type of being

1108
00:47:03,720 --> 00:47:01,510
right it came through dream state it

1109
00:47:06,780 --> 00:47:03,730
came through either waking up in the

1110
00:47:09,750 --> 00:47:06,790
morning and laying in bed and having

1111
00:47:12,300 --> 00:47:09,760
this information come or it did come

1112
00:47:14,220 --> 00:47:12,310
through an actual dream some people that

1113
00:47:16,620 --> 00:47:14,230

came through meditations some people

1114

00:47:18,410 --> 00:47:16,630

that came through their contact with

1115

00:47:20,730 --> 00:47:18,420

what they would consider a

1116

00:47:22,380 --> 00:47:20,740

interdimensional being and again some

1117

00:47:24,750 --> 00:47:22,390

people said it was their higher self but

1118

00:47:26,400 --> 00:47:24,760

this one survey that we did that was

1119

00:47:28,530 --> 00:47:26,410

separate you know just to kind of show

1120

00:47:33,810 --> 00:47:28,540

you hey something big is going on here

1121

00:47:35,430 --> 00:47:33,820

out of almost 2500 people we asked do

1122

00:47:37,740 --> 00:47:35,440

you believe that you possess information

1123

00:47:39,600 --> 00:47:37,750

about like advanced technology advanced

1124

00:47:42,420 --> 00:47:39,610

physics or any scientific information

1125

00:47:46,560 --> 00:47:42,430

that you've never read or learned about

1126
00:47:48,540 --> 00:47:46,570
in your normal environment and 41.7% of

1127
00:47:50,390 --> 00:47:48,550
those people said yes that's a

1128
00:47:53,250 --> 00:47:50,400
significant number to say hey

1129
00:47:57,000 --> 00:47:53,260
something's going on in this state of

1130
00:47:59,670 --> 00:47:57,010
consciousness that may be important for

1131
00:48:02,070 --> 00:47:59,680
us to pay attention to and you know what

1132
00:48:04,200 --> 00:48:02,080
people were getting was lots of things

1133
00:48:06,240 --> 00:48:04,210
under the Sun about how the universe

1134
00:48:09,000 --> 00:48:06,250
works but you know some of the biggies

1135
00:48:11,980 --> 00:48:09,010
that I like to talk about it's like ok

1136
00:48:14,710 --> 00:48:11,990
so what was this really about

1137
00:48:17,230 --> 00:48:14,720
and the nature of the information was

1138
00:48:19,990 --> 00:48:17,240

that the universe is a living system you

1139

00:48:22,060 --> 00:48:20,000

know that was a biggie yeah yeah I mean

1140

00:48:24,070 --> 00:48:22,070

just like the importance of that

1141

00:48:25,750 --> 00:48:24,080

everything is living and you know when I

1142

00:48:27,310 --> 00:48:25,760

was listening to you and gene talk

1143

00:48:29,380 --> 00:48:27,320

earlier we were talking about like all

1144

00:48:33,040 --> 00:48:29,390

these different ways that we can extract

1145

00:48:35,080 --> 00:48:33,050

energy well if everything is alive in

1146

00:48:37,630 --> 00:48:35,090

the universe that's implicit that

1147

00:48:40,330 --> 00:48:37,640

everything has an energetic component to

1148

00:48:43,620 --> 00:48:40,340

it right so fascinating they were also

1149

00:48:46,990 --> 00:48:43,630

getting information about consciousness

1150

00:48:49,270 --> 00:48:47,000

education training basically how to work

1151

00:48:51,880 --> 00:48:49,280

with their emotion how to work with

1152

00:48:53,710 --> 00:48:51,890

intention how to work with visualization

1153

00:48:56,590 --> 00:48:53,720

so this was part of it it wasn't just

1154

00:48:58,630 --> 00:48:56,600

here's this calculation formula and now

1155

00:49:01,990 --> 00:48:58,640

this is gonna plug into this device

1156

00:49:04,660 --> 00:49:02,000

that's not entirely it there does seem

1157

00:49:07,780 --> 00:49:04,670

to be what I would call like a moral and

1158

00:49:10,960 --> 00:49:07,790

ethical responsibility that goes along

1159

00:49:13,150 --> 00:49:10,970

with the acquisition of this type of

1160

00:49:14,680 --> 00:49:13,160

information you know they were also

1161

00:49:16,330 --> 00:49:14,690

getting we wonder why why are they

1162

00:49:18,160 --> 00:49:16,340

wanting to create anti-gravity

1163

00:49:20,020 --> 00:49:18,170

technology well you know some of these

1164

00:49:22,060 --> 00:49:20,030

folks were being shown how to actually

1165

00:49:24,940 --> 00:49:22,070

create these ships and how to navigate

1166

00:49:26,800 --> 00:49:24,950

this right well for what well maybe

1167

00:49:28,570 --> 00:49:26,810

because of these earth changes maybe

1168

00:49:31,599 --> 00:49:28,580

because of this shift maybe because of

1169

00:49:35,400 --> 00:49:31,609

future preparation but a big aspect to

1170

00:49:38,260 --> 00:49:35,410

this thing was about feeling this

1171

00:49:40,900 --> 00:49:38,270

interconnectedness of love and you know

1172

00:49:42,520 --> 00:49:40,910

they'll talk about geez you know this

1173

00:49:44,849 --> 00:49:42,530

experience was profound I've got this

1174

00:49:47,200 --> 00:49:44,859

information but the love that I felt was

1175

00:49:49,660 --> 00:49:47,210

overwhelming you know it's like nothing

1176

00:49:52,599 --> 00:49:49,670

I felt before so you know this is what

1177

00:49:54,760 --> 00:49:52,609

seems to be coming back here and you

1178

00:49:57,040 --> 00:49:54,770

know I think these aspects are you know

1179

00:49:58,840 --> 00:49:57,050

really important to pay attention to and

1180

00:50:01,570 --> 00:49:58,850

there's a gentleman I've been speaking

1181

00:50:03,820 --> 00:50:01,580

with as well that he's trying to

1182

00:50:07,450 --> 00:50:03,830

understand what he got and this was in a

1183

00:50:09,430 --> 00:50:07,460

his friends are Native American he's not

1184

00:50:13,390 --> 00:50:09,440

and his friends are and they took him

1185

00:50:16,120 --> 00:50:13,400

into a sweat lodge and what he reported

1186

00:50:18,190 --> 00:50:16,130

was these downloads of information on

1187

00:50:21,910 --> 00:50:18,200

how to build this over-unity device and

1188

00:50:25,090 --> 00:50:21,920

so he ended up then going to school for

1189

00:50:25,510 --> 00:50:25,100

engineering to be able to understand how

1190

00:50:27,339 --> 00:50:25,520

to

1191

00:50:30,160 --> 00:50:27,349

work with this and what I would call

1192

00:50:32,170 --> 00:50:30,170

like our day-to-day reality so you know

1193

00:50:33,819 --> 00:50:32,180

I mean fascinating right so these are

1194

00:50:36,160 --> 00:50:33,829

people that we're trying to help to say

1195

00:50:38,140 --> 00:50:36,170

on one hand it's like okay let's look at

1196

00:50:39,819 --> 00:50:38,150

pragmatically what do you have but on

1197

00:50:41,079 --> 00:50:39,829

the other hand you're playing what I

1198

00:50:44,710 --> 00:50:41,089

would call almost like you know

1199

00:50:48,430 --> 00:50:44,720

nurturing mama energy you know our group

1200

00:50:51,670 --> 00:50:48,440

is not just me to try to help to bring

1201
00:50:54,400 --> 00:50:51,680
this to something that they can actually

1202
00:50:56,950 --> 00:50:54,410
connect in with other engineers or other

1203
00:50:59,410 --> 00:50:56,960
people that can understand them creating

1204
00:51:02,020 --> 00:50:59,420
these linkages is an enormous part of

1205
00:51:04,390 --> 00:51:02,030
helping them feel normalized also and

1206
00:51:06,640 --> 00:51:04,400
you know dare I say feel better but feel

1207
00:51:08,799 --> 00:51:06,650
like they're on task with what they're

1208
00:51:10,990 --> 00:51:08,809
here to do so that's one of the most

1209
00:51:13,809 --> 00:51:11,000
rewarding pieces of this whole thing is

1210
00:51:15,579 --> 00:51:13,819
helping people to feel like hey we're

1211
00:51:17,020 --> 00:51:15,589
gonna help you do what you came here to

1212
00:51:18,069 --> 00:51:17,030
do hopefully you know let's help each

1213
00:51:21,400 --> 00:51:18,079

other make this happen

1214

00:51:24,460 --> 00:51:21,410

yeah with you that's very important that

1215

00:51:26,260 --> 00:51:24,470

aspect if I can interject the season was

1216

00:51:28,569 --> 00:51:26,270

just mentioning about helping the

1217

00:51:31,450 --> 00:51:28,579

inventory's to feel okay about

1218

00:51:35,500 --> 00:51:31,460

themselves because I've known some dear

1219

00:51:37,450 --> 00:51:35,510

inventors who really find it painful to

1220

00:51:40,780 --> 00:51:37,460

live in this world they have this

1221

00:51:42,370 --> 00:51:40,790

unusual broader vision or our ability to

1222

00:51:45,010 --> 00:51:42,380

see things that others can't and

1223

00:51:47,980 --> 00:51:45,020

understand things that others can't seem

1224

00:51:50,319 --> 00:51:47,990

to but since society hasn't paid any

1225

00:51:53,890 --> 00:51:50,329

interest and certainly doesn't throw any

1226

00:51:57,819 --> 00:51:53,900

money their way and in many ways they do

1227

00:51:59,530 --> 00:51:57,829

feel so isolated it's not like 30 years

1228

00:52:01,569 --> 00:51:59,540

ago when there wasn't the internet and

1229

00:52:05,079 --> 00:52:01,579

there wasn't a way you could connect

1230

00:52:08,160 --> 00:52:05,089

with people online but still they need

1231

00:52:10,630 --> 00:52:08,170

more than that they need physical

1232

00:52:13,510 --> 00:52:10,640

face-to-face you're okay

1233

00:52:17,319 --> 00:52:13,520

we appreciate you for what you are

1234

00:52:20,349 --> 00:52:17,329

because often they're not socially able

1235

00:52:25,110 --> 00:52:20,359

to fit in just because it's in their

1236

00:52:27,360 --> 00:52:25,120

nature to be so driven to

1237

00:52:30,150 --> 00:52:27,370

put into manifestation what they know is

1238

00:52:31,950 --> 00:52:30,160

possible that they spend all their money

1239

00:52:34,020 --> 00:52:31,960

and their family's money and their

1240

00:52:36,120 --> 00:52:34,030

neighbors money their anybody they can

1241

00:52:39,390 --> 00:52:36,130

borrow on their magnets and their

1242

00:52:42,150 --> 00:52:39,400

machine shop bills and all the money

1243

00:52:43,470 --> 00:52:42,160

that takes to do experiments and just

1244

00:52:44,880 --> 00:52:43,480

for lots of reason they're socially

1245

00:52:46,860 --> 00:52:44,890

isolated because nobody else in their

1246

00:52:50,820 --> 00:52:46,870

community is interested in the sorts of

1247

00:52:53,280 --> 00:52:50,830

things they're doing so the human part

1248

00:52:55,290 --> 00:52:53,290

is really important and Susan's right

1249

00:52:57,660 --> 00:52:55,300

that's where we need the balance of the

1250

00:53:01,050 --> 00:52:57,670

yin and the yang in in the field to

1251

00:53:05,880 --> 00:53:01,060

nurture individuals and nurture the

1252

00:53:09,240 --> 00:53:05,890

teamwork the collaborative side right on

1253

00:53:11,940 --> 00:53:09,250

yes I agree and I can see how it could

1254

00:53:14,130 --> 00:53:11,950

be very polarizing and isolating to be

1255

00:53:16,650 --> 00:53:14,140

that kind of person that some of these

1256

00:53:20,310 --> 00:53:16,660

inventors are and I could also

1257

00:53:21,750 --> 00:53:20,320

understand the attraction to keeping

1258

00:53:24,000 --> 00:53:21,760

some of the high strangeness or

1259

00:53:25,950 --> 00:53:24,010

consciousness elements out of this stuff

1260

00:53:27,630 --> 00:53:25,960

just for the sake of mass adoption I

1261

00:53:30,150 --> 00:53:27,640

mean you're hitting people with a lot

1262

00:53:33,020 --> 00:53:30,160

just with the devices themselves but it

1263

00:53:37,020 --> 00:53:33,030

is all connected and it's a very

1264

00:53:39,270 --> 00:53:37,030

archetypical story actually that man in

1265

00:53:41,520 --> 00:53:39,280

the distant past like the whole idea of

1266

00:53:44,100 --> 00:53:41,530

a civilizing trickster or some entity

1267

00:53:47,340 --> 00:53:44,110

from the stars whether physical or

1268

00:53:49,410 --> 00:53:47,350

non-physical that jumpstart civilization

1269

00:53:52,590 --> 00:53:49,420

and teaches people how to live in

1270

00:53:54,690 --> 00:53:52,600

certain ways and this could possibly be

1271

00:53:57,210 --> 00:53:54,700

a round of that I mean even contact

1272

00:53:58,830 --> 00:53:57,220

experiences when you ask the people like

1273

00:54:00,960 --> 00:53:58,840

well what was the message it's always

1274

00:54:03,240 --> 00:54:00,970

about stewardship it's about that we're

1275

00:54:05,070 --> 00:54:03,250

destroying the planet and even if you

1276
00:54:06,840 --> 00:54:05,080
look at the crop circle phenomenon a lot

1277
00:54:10,380 --> 00:54:06,850
of these patterns that are in the crop

1278
00:54:12,450 --> 00:54:10,390
circles are the same toroidal vortex is

1279
00:54:14,850 --> 00:54:12,460
that you see popping up in the new

1280
00:54:16,740 --> 00:54:14,860
energy movement so I don't think there's

1281
00:54:19,470 --> 00:54:16,750
something out there trying to whisper in

1282
00:54:21,240 --> 00:54:19,480
our ears hey it's time to get to the

1283
00:54:23,040 --> 00:54:21,250
next level guys you know we helped you

1284
00:54:24,420 --> 00:54:23,050
get here but it's time let's move it

1285
00:54:26,999 --> 00:54:24,430
along

1286
00:54:29,819 --> 00:54:27,009
absolutely and I would share a small

1287
00:54:33,960 --> 00:54:29,829
little story with you I had been looking

1288
00:54:38,190 --> 00:54:33,970

at a device that was in England and the

1289

00:54:40,499 --> 00:54:38,200

next day that device appeared as a crop

1290

00:54:42,239 --> 00:54:40,509

circle huh and I mean it was a shared

1291

00:54:44,609 --> 00:54:42,249

experience by the way so it wasn't just

1292

00:54:46,499 --> 00:54:44,619

myself otherwise they would not tell

1293

00:54:48,749 --> 00:54:46,509

this story but it was a shared

1294

00:54:50,579 --> 00:54:48,759

experience and I mean you could look at

1295

00:54:53,039 --> 00:54:50,589

pictures it's you know you can see what

1296

00:54:54,720 --> 00:54:53,049

the relationship is but I mean listen

1297

00:54:57,210 --> 00:54:54,730

I've seen lots of different things and

1298

00:54:59,970 --> 00:54:57,220

even that made me it made me cry because

1299

00:55:01,920 --> 00:54:59,980

I was like oh my god you know when you

1300

00:55:05,249 --> 00:55:01,930

feel that aliveness when you feel it

1301

00:55:06,930 --> 00:55:05,259

inside of you and then you see oh man

1302

00:55:08,849 --> 00:55:06,940

you know because sometimes we're in our

1303

00:55:10,980 --> 00:55:08,859

head like even myself right like

1304

00:55:12,839 --> 00:55:10,990

sometimes you get in your head and then

1305

00:55:14,370 --> 00:55:12,849

you get you know more into that I don't

1306

00:55:15,930 --> 00:55:14,380

know what you call it body intelligence

1307

00:55:17,880 --> 00:55:15,940

or something and then you realize that

1308

00:55:19,589 --> 00:55:17,890

the big magnitude of all of this and

1309

00:55:20,880 --> 00:55:19,599

you're right there's communication

1310

00:55:23,489 --> 00:55:20,890

that's occurring you know they're saying

1311

00:55:26,970 --> 00:55:23,499

hey look over here or hey it's right

1312

00:55:28,799 --> 00:55:26,980

here so just absolutely incredible you

1313

00:55:30,809 --> 00:55:28,809

can't make it up I think some of these

1314

00:55:32,819 --> 00:55:30,819

amazing stories that gene has seen

1315

00:55:34,499 --> 00:55:32,829

throughout the years it's like you can't

1316

00:55:36,299 --> 00:55:34,509

make up this stuff because you know real

1317

00:55:38,160 --> 00:55:36,309

life is a heck of a lot more fascinating

1318

00:55:38,960 --> 00:55:38,170

especially in this arena than anything

1319

00:55:43,559 --> 00:55:38,970

else

1320

00:55:45,479 --> 00:55:43,569

Cheers I like it but man as we're

1321

00:55:47,640 --> 00:55:45,489

winding down here and getting towards

1322

00:55:50,069 --> 00:55:47,650

the end of this thing let me ask you

1323

00:55:52,380 --> 00:55:50,079

what it is that you hope people do with

1324

00:55:54,630 --> 00:55:52,390

this information as a strategist maybe

1325

00:55:58,019 --> 00:55:54,640

Susan can talk about this but how do you

1326
00:55:59,819 --> 00:55:58,029
want people listening now to potentially

1327
00:56:02,970 --> 00:55:59,829
help out is there something they can do

1328
00:56:05,190 --> 00:56:02,980
actionable steps would you like to

1329
00:56:08,609 --> 00:56:05,200
answer that well I don't know what

1330
00:56:10,440 --> 00:56:08,619
people caught their references to you

1331
00:56:12,749 --> 00:56:10,450
mentioned global famine and them and you

1332
00:56:15,150 --> 00:56:12,759
probably spelled out that them is

1333
00:56:17,220 --> 00:56:15,160
breakthrough energy movement and them is

1334
00:56:19,979 --> 00:56:17,230
what you're president of Susan the new

1335
00:56:22,589 --> 00:56:19,989
energy movement and this is where our

1336
00:56:25,589 --> 00:56:22,599
book comes in and on helping people to

1337
00:56:28,200 --> 00:56:25,599
see where they can take a role everybody

1338
00:56:30,749 --> 00:56:28,210

no matter what your circumstances can do

1339

00:56:32,519 --> 00:56:30,759

something to help like in the last

1340

00:56:34,680 --> 00:56:32,529

chapter that book particularly we

1341

00:56:37,560 --> 00:56:34,690

outline the steps that people can take

1342

00:56:38,790 --> 00:56:37,570

to help improve the situation

1343

00:56:41,880 --> 00:56:38,800

if you want to talk a little bit more

1344

00:56:44,280 --> 00:56:41,890

about the new energy movement sure so

1345

00:56:46,170 --> 00:56:44,290

new energy movement is a public

1346

00:56:47,730 --> 00:56:46,180

education advocacy group we've actually

1347

00:56:49,890 --> 00:56:47,740

picked up a couple of additional

1348

00:56:52,590 --> 00:56:49,900

volunteers in the last couple of weeks

1349

00:56:55,230 --> 00:56:52,600

and months and happy to say people are

1350

00:56:57,390 --> 00:56:55,240

moving along quite nicely and providing

1351
00:57:00,540 --> 00:56:57,400
some great support so that's wonderful

1352
00:57:02,820 --> 00:57:00,550
people are in the process of looking at

1353
00:57:06,330 --> 00:57:02,830
opening up chapters in their communities

1354
00:57:09,030 --> 00:57:06,340
both in the US Canada but also outside

1355
00:57:10,650 --> 00:57:09,040
of the US in Canada you just said that's

1356
00:57:12,450 --> 00:57:10,660
definitely a way that people can get

1357
00:57:15,150 --> 00:57:12,460
involved I mean you know what people can

1358
00:57:18,420 --> 00:57:15,160
do here obviously they can go to any em

1359
00:57:20,460 --> 00:57:18,430
new energy movement org they can go to

1360
00:57:22,770 --> 00:57:20,470
breakthrough energy movement

1361
00:57:26,010 --> 00:57:22,780
I think that's calm I'm not sure it's

1362
00:57:28,380 --> 00:57:26,020
org or calm also they can go to new e

1363
00:57:33,049 --> 00:57:28,390

the foundation for morale technology so

1364

00:57:34,909 --> 00:57:33,059

that is the new e foundation com

1365

00:57:36,859 --> 00:57:34,919

but one of the things that I think is

1366

00:57:39,099 --> 00:57:36,869

absolutely important because your

1367

00:57:41,749 --> 00:57:39,109

listeners are definitely educated people

1368

00:57:43,399 --> 00:57:41,759

Gregg in the sense of you know knowing

1369

00:57:44,989 --> 00:57:43,409

like so many different things that's

1370

00:57:46,519 --> 00:57:44,999

going on in this field as a whole

1371

00:57:49,039 --> 00:57:46,529

whether it's disclosure whether it's new

1372

00:57:52,339 --> 00:57:49,049

energy that the shift on the planet from

1373

00:57:54,229 --> 00:57:52,349

a cosmological Sun planetary scale or

1374

00:57:55,549 --> 00:57:54,239

you know even some of the other things

1375

00:57:58,729 --> 00:57:55,559

that are happening but I would just say

1376

00:58:00,949 --> 00:57:58,739

that it's really important that we ask

1377

00:58:04,609 --> 00:58:00,959

ourselves a couple of questions and that

1378

00:58:06,769 --> 00:58:04,619

would be the stories of well the energy

1379

00:58:08,390 --> 00:58:06,779

is the patent informations going to be

1380

00:58:10,130 --> 00:58:08,400

released and you know all this energy

1381

00:58:11,809 --> 00:58:10,140

technology is gonna be released to the

1382

00:58:14,449 --> 00:58:11,819

public and you know here we go happy

1383

00:58:16,279 --> 00:58:14,459

days I don't think it works like that

1384

00:58:18,589 --> 00:58:16,289

when you work in this thing every day

1385

00:58:20,899 --> 00:58:18,599

you see that there's a lot that's

1386

00:58:23,929 --> 00:58:20,909

happening and going on but also we're

1387

00:58:26,989 --> 00:58:23,939

being asked to understand about this

1388

00:58:29,239 --> 00:58:26,999

subtler energy in ways I don't think

1389

00:58:31,569 --> 00:58:29,249

that we've ever been asked before you

1390

00:58:33,589 --> 00:58:31,579

know at least in our lifetime and

1391

00:58:34,459 --> 00:58:33,599

Dolores can and I don't know if you've

1392

00:58:37,669 --> 00:58:34,469

ever heard of her

1393

00:58:38,989 --> 00:58:37,679

no she was this older woman who passed

1394

00:58:40,699 --> 00:58:38,999

away a couple years ago but she was a

1395

00:58:42,229 --> 00:58:40,709

great hypnotherapist she taught this

1396

00:58:44,539 --> 00:58:42,239

thing called quantum healing

1397

00:58:46,159 --> 00:58:44,549

hypnotherapy and this is where when she

1398

00:58:48,529 --> 00:58:46,169

was doing hypnotherapy she realized

1399

00:58:50,149 --> 00:58:48,539

though people were getting here we were

1400

00:58:52,249 --> 00:58:50,159

talking about earlier about the contact

1401
00:58:54,199 --> 00:58:52,259
experiences that people were reporting

1402
00:58:55,789 --> 00:58:54,209
their past life experiences contact

1403
00:58:58,279 --> 00:58:55,799
experiences like everything under the

1404
00:59:01,729 --> 00:58:58,289
Sun so it's a well practiced form of

1405
00:59:03,829 --> 00:59:01,739
hypnosis today but she would say from

1406
00:59:06,499 --> 00:59:03,839
what I can tell we come to this planet

1407
00:59:08,839 --> 00:59:06,509
to learn how to experience an influence

1408
00:59:10,640 --> 00:59:08,849
energy now that's like human energy

1409
00:59:13,609 --> 00:59:10,650
right but maybe the same thing as being

1410
00:59:15,199 --> 00:59:13,619
asked of us in the energy of the ether

1411
00:59:17,630 --> 00:59:15,209
right and how we generate our

1412
00:59:20,689 --> 00:59:17,640
electricity how we generate that energy

1413
00:59:23,899 --> 00:59:20,699

so to stay in that sovereignty of our

1414

00:59:26,689 --> 00:59:23,909

understanding versus acquiescing this to

1415

00:59:29,569 --> 00:59:26,699

someone else whoever that someone else

1416

00:59:31,909 --> 00:59:29,579

is maybe it's up to us to be able to

1417

00:59:34,640 --> 00:59:31,919

learn what we can and understand what we

1418

00:59:37,159 --> 00:59:34,650

can about ourselves and our relationship

1419

00:59:38,899 --> 00:59:37,169

to the world around us because it seems

1420

00:59:40,189 --> 00:59:38,909

very important you know and that's one

1421

00:59:41,870 --> 00:59:40,199

of the things that were being asked to

1422

00:59:44,569 --> 00:59:41,880

do so I would say stay in that

1423

00:59:46,309 --> 00:59:44,579

sovereignty of working to understand but

1424

00:59:46,880 --> 00:59:46,319

also to potentially be you know a

1425

00:59:50,299 --> 00:59:46,890

creator

1426
00:59:53,029 --> 00:59:50,309
in this process hmm well said well said

1427
00:59:54,799 --> 00:59:53,039
and something I like in your checklist

1428
00:59:57,650 --> 00:59:54,809
of things that people can do that's in

1429
01:00:00,440 --> 00:59:57,660
the book is lending your skills in areas

1430
01:00:03,319 --> 01:00:00,450
like legal project management graphics

1431
01:00:06,349 --> 01:00:03,329
accounting media you don't have to be

1432
01:00:08,990 --> 01:00:06,359
the inventor of the new energy device to

1433
01:00:12,470 --> 01:00:09,000
help out I mean like everything it's a

1434
01:00:14,839 --> 01:00:12,480
very robust team that helps things get

1435
01:00:16,730 --> 01:00:14,849
to the surface and you could have all

1436
01:00:20,029 --> 01:00:16,740
kinds of skills that you might not think

1437
01:00:23,990 --> 01:00:20,039
we're late and they actually do every

1438
01:00:25,910 --> 01:00:24,000

skill is needed personal skill that's

1439

01:00:28,970 --> 01:00:25,920

not needed I mean we're talking about a

1440

01:00:30,829 --> 01:00:28,980

planetary transition it's all needed of

1441

01:00:32,839 --> 01:00:30,839

course and the last thing I really

1442

01:00:34,700 --> 01:00:32,849

wanted to ask you about is just the

1443

01:00:37,910 --> 01:00:34,710

conferences because they are such a big

1444

01:00:39,200 --> 01:00:37,920

part of this really because there's

1445

01:00:41,599 --> 01:00:39,210

different groups running different

1446

01:00:43,940 --> 01:00:41,609

conferences what is say the next

1447

01:00:46,660 --> 01:00:43,950

conference that you guys will be at and

1448

01:00:49,279 --> 01:00:46,670

maybe people should attend or try to

1449

01:00:50,930 --> 01:00:49,289

energy science and technology conference

1450

01:00:53,779 --> 01:00:50,940

for people who really want to learn how

1451
01:00:56,359 --> 01:00:53,789
to build these things but Susan can talk

1452
01:00:58,640 --> 01:00:56,369
to the energy movement conferences new

1453
01:01:00,769 --> 01:00:58,650
energy movement yeah so breakthrough

1454
01:01:02,720 --> 01:01:00,779
energy movement they obviously had their

1455
01:01:04,609 --> 01:01:02,730
conference this past year they hadn't

1456
01:01:06,980 --> 01:01:04,619
had one I think for the last two years

1457
01:01:08,569 --> 01:01:06,990
or so but from what I understand they're

1458
01:01:11,359 --> 01:01:08,579
going to have another one probably in

1459
01:01:12,829 --> 01:01:11,369
November maybe in Amsterdam as well

1460
01:01:15,019 --> 01:01:12,839
which is where it was last year so

1461
01:01:17,900 --> 01:01:15,029
that's for technical people but it's

1462
01:01:20,779 --> 01:01:17,910
also for people that want to understand

1463
01:01:23,569 --> 01:01:20,789

participate in the other aspects that

1464

01:01:25,760 --> 01:01:23,579

support breakthrough energy that's

1465

01:01:28,280 --> 01:01:25,770

happening in November

1466

01:01:30,050 --> 01:01:28,290

very cool yes that is where people can

1467

01:01:31,780 --> 01:01:30,060

find me I get a lot of criticism that I

1468

01:01:33,890 --> 01:01:31,790

don't really get out in the world and

1469

01:01:35,630 --> 01:01:33,900

yeah I could go to the conspiracy

1470

01:01:37,970 --> 01:01:35,640

conferences if I need to see another

1471

01:01:39,589 --> 01:01:37,980

9/11 slide show but to me where the

1472

01:01:41,120 --> 01:01:39,599

rubber meets the road is the new energy

1473

01:01:42,920 --> 01:01:41,130

kind of stuff because it's still

1474

01:01:44,839 --> 01:01:42,930

suppressed and it's way more exciting

1475

01:01:48,260 --> 01:01:44,849

and it's something we can actually use

1476

01:01:51,290 --> 01:01:48,270

in the future rather than going over

1477

01:01:53,000 --> 01:01:51,300

past events again and again but man this

1478

01:01:55,070 --> 01:01:53,010

has been a lot of fun ladies I

1479

01:01:57,230 --> 01:01:55,080

appreciate everything you're doing and

1480

01:01:58,820 --> 01:01:57,240

this has been one of my favorite shows

1481

01:02:01,040 --> 01:01:58,830

in a while I can't wait for people to

1482

01:02:03,890 --> 01:02:01,050

hear a lot of provocative stuff and this

1483

01:02:06,620 --> 01:02:03,900

book is great it's so comprehensive from

1484

01:02:09,650 --> 01:02:06,630

the fundamentals of understanding this

1485

01:02:11,210 --> 01:02:09,660

new paradigm to the history to the

1486

01:02:13,490 --> 01:02:11,220

bright minds working on these things

1487

01:02:16,940 --> 01:02:13,500

today it really is a complete case

1488

01:02:18,470 --> 01:02:16,950

front-to-back so very cool and I look

1489

01:02:21,320 --> 01:02:18,480

forward to the future take care out

1490

01:02:22,609 --> 01:02:21,330

there Thank You Craig thank you I hope I

1491

01:02:28,700 --> 01:02:22,619

meet you at one of the conference's

1492

01:02:31,730 --> 01:02:28,710

Craig indeed holy ether fuel delete the

1493

01:02:35,810 --> 01:02:31,740

ometer people the powerful women of the

1494

01:02:38,780 --> 01:02:35,820

weird science movement hmm hell of a

1495

01:02:40,820 --> 01:02:38,790

show if you ask me and I know we've been

1496

01:02:43,450 --> 01:02:40,830

hitting this particular branch on the

1497

01:02:46,339 --> 01:02:43,460

higher side tree pretty hard lately and

1498

01:02:48,890 --> 01:02:46,349

honestly I did plan on taking a break

1499

01:02:51,020 --> 01:02:48,900

from it for a while but then James

1500

01:02:53,000 --> 01:02:51,030

DeMaio said he would do an interview and

1501
01:02:55,359 --> 01:02:53,010
then I thought okay now we're gonna

1502
01:02:57,829 --> 01:02:55,369
pause on this and hit some other areas

1503
01:02:59,839 --> 01:02:57,839
but then Jena and Susan's book was

1504
01:03:01,550 --> 01:02:59,849
released and I thought okay we'll do

1505
01:03:03,170 --> 01:03:01,560
this and then we'll take a break from

1506
01:03:06,079 --> 01:03:03,180
ether physics and this sort of stuff

1507
01:03:09,260 --> 01:03:06,089
because there is just so much under the

1508
01:03:11,540 --> 01:03:09,270
higher side umbrella but what I loved so

1509
01:03:14,120 --> 01:03:11,550
much about this one is that it's not

1510
01:03:17,210 --> 01:03:14,130
just a deep dive into one particular

1511
01:03:18,980 --> 01:03:17,220
person's work and theories it's a

1512
01:03:21,620 --> 01:03:18,990
journalistic look at the overall

1513
01:03:23,480 --> 01:03:21,630

landscape the history of it the current

1514

01:03:26,349 --> 01:03:23,490

state of things and how to bring it all

1515

01:03:28,730 --> 01:03:26,359

together and strategize a true rollout

1516

01:03:31,190 --> 01:03:28,740

it's what we need and it's a beautiful

1517

01:03:35,060 --> 01:03:31,200

thing and when we start talking

1518

01:03:38,470 --> 01:03:35,070

logistics and PR and strategy it all

1519

01:03:40,599 --> 01:03:38,480

starts to feel very real and very close

1520

01:03:44,049 --> 01:03:40,609

the dominant of wider inclusion in all

1521

01:03:45,700 --> 01:03:44,059

that and it's also a happy accident that

1522

01:03:48,099 --> 01:03:45,710

the best voices for this particular

1523

01:03:50,890 --> 01:03:48,109

layer of things are also voices that

1524

01:03:52,539 --> 01:03:50,900

bring some diversity to the table not a

1525

01:03:53,260 --> 01:03:52,549

lot of ladies hitting on this particular

1526

01:03:55,839 --> 01:03:53,270

topic

1527

01:03:58,650 --> 01:03:55,849

and not to get into it and there are

1528

01:04:00,670 --> 01:03:58,660

exceptions to every rule but I've heard

1529

01:04:03,130 --> 01:04:00,680

psychologists say that broadly speaking

1530

01:04:05,410 --> 01:04:03,140

one of the biggest mental differences

1531

01:04:08,079 --> 01:04:05,420

between the interests of men and women

1532

01:04:11,589 --> 01:04:08,089

is that women are interested in people

1533

01:04:13,539 --> 01:04:11,599

and men are interested in things which

1534

01:04:15,970 --> 01:04:13,549

is why you have a lot of male tinker's

1535

01:04:19,660 --> 01:04:15,980

out there mechanics or plumbers or

1536

01:04:22,569 --> 01:04:19,670

electricians or inventors and you have a

1537

01:04:25,210 --> 01:04:22,579

lot of women in positions or jobs or

1538

01:04:28,000 --> 01:04:25,220

careers that deal more with people like

1539

01:04:31,270 --> 01:04:28,010

teachers or HR positions and that sort

1540

01:04:33,640 --> 01:04:31,280

of thing but I don't know to me this is

1541

01:04:35,380 --> 01:04:33,650

a great example of what more female

1542

01:04:38,770 --> 01:04:35,390

energy would bring to this particular

1543

01:04:41,289 --> 01:04:38,780

table again broadly speaking and no pun

1544

01:04:43,599 --> 01:04:41,299

intended but you could also see how

1545

01:04:45,700 --> 01:04:43,609

otherwise you would have a bunch of

1546

01:04:48,280 --> 01:04:45,710

hermit type socially awkward guys

1547

01:04:51,370 --> 01:04:48,290

tolling away in their separate garage

1548

01:04:53,980 --> 01:04:51,380

labs which is where a lot of the history

1549

01:04:56,319 --> 01:04:53,990

of hidden energy looks like and if we're

1550

01:04:58,960 --> 01:04:56,329

gonna talk conspiratorial II it's a lot

1551

01:05:01,359 --> 01:04:58,970

easier to pick off and suppress those

1552

01:05:04,120 --> 01:05:01,369

individuals when those are the

1553

01:05:06,549 --> 01:05:04,130

conditions of the movement but either

1554

01:05:08,920 --> 01:05:06,559

way I was very happy when this one was

1555

01:05:11,440 --> 01:05:08,930

done I knew it would be a popular thing

1556

01:05:13,180 --> 01:05:11,450

with the people and it's also the best

1557

01:05:14,980 --> 01:05:13,190

we've been able to do regarding this

1558

01:05:17,109 --> 01:05:14,990

connection between plasma and

1559

01:05:19,870 --> 01:05:17,119

disembodied consciousness since we had

1560

01:05:22,270 --> 01:05:19,880

Eric Dollard here and even though I did

1561

01:05:24,880 --> 01:05:22,280

just say I'm very consciously trying to

1562

01:05:27,970 --> 01:05:24,890

pursue some other subject areas for you

1563

01:05:29,710 --> 01:05:27,980

the one thing in this realm that I'd

1564

01:05:33,520 --> 01:05:29,720

like to get into sooner rather than

1565

01:05:35,890 --> 01:05:33,530

later is the Sapphire project and yes

1566

01:05:37,690 --> 01:05:35,900

that was all in the Plus Show

1567

01:05:39,400 --> 01:05:37,700

sorry free listeners but you don't just

1568

01:05:41,200 --> 01:05:39,410

jump into the sudden emergence of

1569

01:05:43,569 --> 01:05:41,210

non-human intelligence from plasma

1570

01:05:45,329 --> 01:05:43,579

reactions you have to work up to that

1571

01:05:48,579 --> 01:05:45,339

sort of stuff

1572

01:05:51,579 --> 01:05:48,589

and it is why the plus shows are always

1573

01:05:53,589 --> 01:05:51,589

better but I say this every week I still

1574

01:05:55,690 --> 01:05:53,599

think we got a great breakdown of the

1575

01:05:58,289 --> 01:05:55,700

field in the first hour lots of names

1576

01:06:01,180 --> 01:05:58,299

and inventions to investigate further

1577

01:06:03,099 --> 01:06:01,190

lots of thoughtful examinations of how

1578

01:06:05,740 --> 01:06:03,109

the system attacks this field and what

1579

01:06:07,770 --> 01:06:05,750

we can do to counteract that a very

1580

01:06:10,450 --> 01:06:07,780

important piece of this puzzle clearly

1581

01:06:12,880 --> 01:06:10,460

it is another case where I would love

1582

01:06:14,200 --> 01:06:12,890

for everyone to hear every bit of the

1583

01:06:17,349 --> 01:06:14,210

full two hour show

1584

01:06:18,370 --> 01:06:17,359

but programs like this only survived in

1585

01:06:20,970 --> 01:06:18,380

three ways

1586

01:06:23,890 --> 01:06:20,980

reliance on sponsors and advertisers

1587

01:06:25,870 --> 01:06:23,900

being subsidized and funded by major

1588

01:06:27,789 --> 01:06:25,880

networks even though you lose the money

1589

01:06:31,930 --> 01:06:27,799

because you're still suiting an agenda

1590

01:06:35,380 --> 01:06:31,940

of theirs or direct a or B listener

1591

01:06:38,349 --> 01:06:35,390

funding there is really no other way for

1592

01:06:40,150 --> 01:06:38,359

a show to generate staying power and how

1593

01:06:42,039 --> 01:06:40,160

much more can i really give before a

1594

01:06:45,460 --> 01:06:42,049

particular listener might think that

1595

01:06:48,220 --> 01:06:45,470

they should reciprocate I mean you

1596

01:06:50,770 --> 01:06:48,230

already get half and my pitch for Plus

1597

01:06:52,930 --> 01:06:50,780

is a bit different than most because I'm

1598

01:06:56,620 --> 01:06:52,940

really not hurting I mean hey did you

1599

01:06:58,569 --> 01:06:56,630

see my new car but THC is not going

1600

01:07:00,579 --> 01:06:58,579

anywhere I'm not going to pretend that

1601
01:07:03,130 --> 01:07:00,589
we might disappear suddenly if you don't

1602
01:07:05,410 --> 01:07:03,140
sign up soon there is no threat

1603
01:07:08,530 --> 01:07:05,420
insinuated or gun to your proverbial

1604
01:07:10,690 --> 01:07:08,540
head it's really just that you're

1605
01:07:12,430 --> 01:07:10,700
missing out on a lot you're clearly

1606
01:07:14,380 --> 01:07:12,440
already into this stuff and if you're

1607
01:07:15,579 --> 01:07:14,390
gonna give a waiter 8 bucks for writing

1608
01:07:17,550 --> 01:07:15,589
down how you like your steak and

1609
01:07:19,410 --> 01:07:17,560
bringing you five plates of food

1610
01:07:23,490 --> 01:07:19,420
I would like to think that the service

1611
01:07:25,380 --> 01:07:23,500
here is at least that good but whatever

1612
01:07:28,560 --> 01:07:25,390
I guess I should also just throw in the

1613
01:07:31,020 --> 01:07:28,570

plus show topics now but outside of the

1614

01:07:33,660 --> 01:07:31,030

plasma stuff and the Sapphire project we

1615

01:07:36,270 --> 01:07:33,670

also touched on some other highlights

1616

01:07:39,180 --> 01:07:36,280

from the history of free or clean energy

1617

01:07:42,080 --> 01:07:39,190

devices and engines the potential

1618

01:07:45,360 --> 01:07:42,090

dangers of working with unseen energies

1619

01:07:47,520 --> 01:07:45,370

the work of Ken shoulders and also

1620

01:07:50,340 --> 01:07:47,530

what's happening in the realm of Health

1621

01:07:52,020 --> 01:07:50,350

and healing devices and I do hope the

1622

01:07:54,180 --> 01:07:52,030

health and healing devices is there

1623

01:07:55,920 --> 01:07:54,190

follow-up book lots of exciting stuff

1624

01:07:59,610 --> 01:07:55,930

there too and they definitely seem to

1625

01:08:01,590 --> 01:07:59,620

have their finger on that pulse so there

1626

01:08:03,780 --> 01:08:01,600

we have it for the people who have

1627

01:08:05,460 --> 01:08:03,790

written me and said they're tiring of

1628

01:08:08,130 --> 01:08:05,470

this topic and want to get back to a

1629

01:08:11,070 --> 01:08:08,140

wider range of themes I hear you we are

1630

01:08:13,800 --> 01:08:11,080

doing that now but I'm definitely going

1631

01:08:16,050 --> 01:08:13,810

to be keeping tabs on this field for

1632
