00:00:05,670 --> 00:00:02,830

[Music]

2
00:00:08,470 --> 00:00:05,680

congratulations youtube you did it you

3
00:00:10,709 --> 00:00:08,480

wore me down and you sucked me back in i

4
00:00:13,350 --> 00:00:10,719

have too many subscribers here just to

5
00:00:15,749 --> 00:00:13,360

walk away entirely especially with no

6
00:00:17,990 --> 00:00:15,759

alternative that truly stacks up and so

7
00:00:19,590 --> 00:00:18,000

many copycat channels uploading my shows

8
00:00:22,070 --> 00:00:19,600

for me anyway

9
00:00:24,150 --> 00:00:22,080

but we can't forget the thc's account

10
00:00:25,910 --> 00:00:24,160

here is on thin ice

11
00:00:28,710 --> 00:00:25,920

and so the youtube version of the show

12
00:00:31,589 --> 00:00:28,720

has to be prefaced with this little psa

13
00:00:32,870 --> 00:00:31,599

only to say that episodes that contain

14

00:00:35,350 --> 00:00:32,880

the kinds of themes that have been

15

00:00:36,790 --> 00:00:35,360

regularly banned on youtube will not

16

00:00:38,709 --> 00:00:36,800

appear here

17

00:00:40,630 --> 00:00:38,719

and even with that precaution there's

18

00:00:42,950 --> 00:00:40,640

already enough in the archive to get us

19

00:00:45,270 --> 00:00:42,960

removed so remember that the higher side

20

00:00:48,069 --> 00:00:45,280

chats could be banned or put in time out

21

00:00:50,229 --> 00:00:48,079

again at any time and i won't be able to

22

00:00:51,910 --> 00:00:50,239

tell you guys about it so if you feel

23

00:00:53,670 --> 00:00:51,920

like it's been too long since you've

24

00:00:56,470 --> 00:00:53,680

heard from me here on this digital

25

00:00:59,110 --> 00:00:56,480

dystopian draconian data mining monster

26

00:01:00,990 --> 00:00:59,120

of a police state seeking platform

27

00:01:03,750 --> 00:01:01,000

your first step should be to check the

28

00:01:05,590 --> 00:01:03,760

hiresightchats.com for the latest shows

29

00:01:11,030 --> 00:01:05,600

alright alright

30

00:01:15,510 --> 00:01:12,950

welcome to another free first hour

31

00:01:17,030 --> 00:01:15,520

episode of the higher side chats i know

32

00:01:19,190 --> 00:01:17,040

we want to get into the action but i

33

00:01:21,670 --> 00:01:19,200

have to ask that you help me armor us up

34

00:01:23,190 --> 00:01:21,680

a bit for the bumpy road ahead because i

35

00:01:25,910 --> 00:01:23,200

bring you the first hour of this show

36

00:01:28,789 --> 00:01:25,920

without unrelated ad nonsense as a proof

37

00:01:30,950 --> 00:01:28,799

of concept and if you value it then come

38

00:01:32,630 --> 00:01:30,960

over to the plus for the eight dollars a

39

00:01:34,550 --> 00:01:32,640

month and hear the full two hour

40

00:01:37,390 --> 00:01:34,560

interviews as they were designed to be

41

00:01:39,270 --> 00:01:37,400

and as you would enjoy them most go to

42

00:01:41,190 --> 00:01:39,280

thehiresidechats.com or just click the

43

00:01:42,789 --> 00:01:41,200

link in the show notes to get started

44

00:01:45,109 --> 00:01:42,799

and within a minute you'll be plugging

45

00:01:47,990 --> 00:01:45,119

in your new plus show rss feed into a

46

00:01:50,230 --> 00:01:48,000

hopefully decentralized podcasting 2.0

47

00:01:52,230 --> 00:01:50,240

supported app feed the things you want

48

00:01:54,789 --> 00:01:52,240

to grow and starve the things that gotta

49

00:02:04,149 --> 00:01:54,799

go and we will reach the promised land

50

00:02:08,710 --> 00:02:06,870

in the 1930s president franklin delano

51
00:02:11,270 --> 00:02:08,720
roosevelt addressed the nation through a

52
00:02:14,390 --> 00:02:11,280
series of radio broadcasts known as the

53
00:02:16,150 --> 00:02:14,400
fireside chats his aim was to reassure

54
00:02:18,309 --> 00:02:16,160
the common man that our society would

55
00:02:20,869 --> 00:02:18,319
recover from its troubled times well

56
00:02:23,430 --> 00:02:20,879
we're far from 1930 and i deal with a

57
00:02:25,990 --> 00:02:23,440
different kind of fire for a new era of

58
00:02:29,830 --> 00:02:26,000
worldly frustration we offer a fresh

59
00:02:32,949 --> 00:02:29,840
conversation i'm greg carlwood and these

60
00:02:34,470 --> 00:02:32,959
are the higher side chats

61
00:02:36,229 --> 00:02:34,480
well this is the way higher side

62
00:02:38,470 --> 00:02:36,239
chatters coming in hot from sunny san

63
00:02:40,229 --> 00:02:38,480

diego and looking to help you solve even

64

00:02:42,630 --> 00:02:40,239

a fraction of life's wide range of

65

00:02:44,070 --> 00:02:42,640

problems i'm greg carlwood and sometimes

66

00:02:46,790 --> 00:02:44,080

i think that although there are many

67

00:02:48,550 --> 00:02:46,800

ideas and options we like to explore

68

00:02:50,229 --> 00:02:48,560

deep down we know that the big machine

69

00:02:52,470 --> 00:02:50,239

keeps marching on and the thing that

70

00:02:53,589 --> 00:02:52,480

will really make us happy and healthy is

71

00:02:55,509 --> 00:02:53,599

distance

72

00:02:57,670 --> 00:02:55,519

the pollution-coated 5g filled

73

00:02:59,910 --> 00:02:57,680

constantly surveilled digital dystopian

74

00:03:01,509 --> 00:02:59,920

smart cities are just not going to do it

75

00:03:03,550 --> 00:03:01,519

and as much as they try to push us

76

00:03:05,910 --> 00:03:03,560

towards them and shove the teat of

77

00:03:08,390 --> 00:03:05,920

totalitarian system dependence down our

78

00:03:11,190 --> 00:03:08,400

throats we know these places are an

79

00:03:13,190 --> 00:03:11,200

archonic paradise not a human one

80

00:03:14,869 --> 00:03:13,200

but what if instead we utilized all

81

00:03:18,070 --> 00:03:14,879

we've heard about permaculture

82

00:03:19,830 --> 00:03:18,080

biodynamics symbiosis good water forest

83

00:03:22,470 --> 00:03:19,840

bathing engaging with the earth

84

00:03:24,710 --> 00:03:22,480

independence and self-sufficiency folded

85

00:03:26,869 --> 00:03:24,720

in the aspects of modern technology we

86

00:03:28,949 --> 00:03:26,879

decided could serve our lifestyles and

87

00:03:30,869 --> 00:03:28,959

built the reality we often dream of

88

00:03:32,550 --> 00:03:30,879

during corporate zoo meeting pep talks

89

00:03:34,550 --> 00:03:32,560

or highway traffic

90

00:03:36,390 --> 00:03:34,560

well that dream is largely the reality

91

00:03:38,630 --> 00:03:36,400

of today's guest mike winter who lives

92

00:03:40,949 --> 00:03:38,640

nestled among old growth redwoods in the

93

00:03:42,789 --> 00:03:40,959

pure pristine waters of the smith river

94

00:03:45,030 --> 00:03:42,799

deep in the pacific northwest on the

95

00:03:47,670 --> 00:03:45,040

off-grid alpha vedic farm under the

96

00:03:49,670 --> 00:03:47,680

tutelage of the great bear lando whom we

97

00:03:52,550 --> 00:03:49,680

spoke with just a few months ago back in

98

00:03:55,670 --> 00:03:52,560

may and together they run alphavedic.com

99

00:03:57,509 --> 00:03:55,680

and host the alphacast podcast he's also

100

00:03:59,229 --> 00:03:57,519

on the team of a forward-thinking new

101
00:04:01,190 --> 00:03:59,239
project dedicated to building a

102
00:04:03,270 --> 00:04:01,200
blockchain-based community-driven

103
00:04:06,070 --> 00:04:03,280
decentralized internet infrastructure of

104
00:04:07,830 --> 00:04:06,080
the future known as quartal but that's

105
00:04:10,309 --> 00:04:07,840
not all folks he's also one of the

106
00:04:12,390 --> 00:04:10,319
founders of music and sky a private

107
00:04:14,470 --> 00:04:12,400
wellness and entertainment gathering for

108
00:04:16,310 --> 00:04:14,480
families in the magical setting of the

109
00:04:18,710 --> 00:04:16,320
california sierras

110
00:04:20,710 --> 00:04:18,720
a jack of many trades folding the new in

111
00:04:22,870 --> 00:04:20,720
with the old and living the solar punk

112
00:04:24,950 --> 00:04:22,880
dream the dedicated decentralist

113
00:04:27,189 --> 00:04:24,960

holistic homesteader and permaculture

114

00:04:29,830 --> 00:04:27,199

podcaster mike winter welcome to the

115

00:04:32,150 --> 00:04:29,840

higher side

116

00:04:34,310 --> 00:04:32,160

greg that was awesome man always love

117

00:04:35,670 --> 00:04:34,320

your intros brother and just so honored

118

00:04:38,070 --> 00:04:35,680

to be here with you man

119

00:04:40,629 --> 00:04:38,080

right on yes i try and it is definitely

120

00:04:42,950 --> 00:04:40,639

a pleasure i am a huge fan of the alpha

121

00:04:45,830 --> 00:04:42,960

cast you guys really go deep on a lot of

122

00:04:49,110 --> 00:04:45,840

themes that are important to me a modern

123

00:04:51,510 --> 00:04:49,120

nature-based spirituality secret science

124

00:04:53,909 --> 00:04:51,520

bioterrain theory the work of guys like

125

00:04:55,990 --> 00:04:53,919

rudolph steiner and wilhelm reich and

126

00:04:58,710 --> 00:04:56,000

all sorts of other good stuff plus the

127

00:05:01,510 --> 00:04:58,720

surroundings of the alpha vedic farm

128

00:05:03,189 --> 00:05:01,520

sound really refreshing and maybe we can

129

00:05:04,870 --> 00:05:03,199

start there because i know there's a ton

130

00:05:06,870 --> 00:05:04,880

to talk about but for people who don't

131

00:05:08,790 --> 00:05:06,880

know much about what you got going on up

132

00:05:11,270 --> 00:05:08,800

there talk to us a little bit about the

133

00:05:13,510 --> 00:05:11,280

alpha vedic farm the techniques you guys

134

00:05:16,469 --> 00:05:13,520

use to keep things at a high level and

135

00:05:18,150 --> 00:05:16,479

some of the philosophy behind it all

136

00:05:20,469 --> 00:05:18,160

yeah thanks for that

137

00:05:23,189 --> 00:05:20,479

really quite fortunate to be living here

138

00:05:25,350 --> 00:05:23,199

as i say on the podcast i wake up every

139

00:05:27,670 --> 00:05:25,360

morning and kiss the ground greg i moved

140

00:05:29,430 --> 00:05:27,680

my family up here from redondo beach

141

00:05:31,909 --> 00:05:29,440

california kind of down by where you're

142

00:05:32,870 --> 00:05:31,919

at i actually grew up in social in orange

143

00:05:35,830 --> 00:05:32,880

county

144

00:05:37,510 --> 00:05:35,840

and then the day before trump came in

145

00:05:39,430 --> 00:05:37,520

the office it just kind of happened to

146

00:05:42,310 --> 00:05:39,440

be when we closed on our house and moved

147

00:05:45,350 --> 00:05:42,320

up here i moved my entire family up from

148

00:05:47,590 --> 00:05:45,360

los angeles area to this very remote

149

00:05:50,070 --> 00:05:47,600

piece of california where in actually in

150

00:05:52,150 --> 00:05:50,080

del norte county we call it the great

151
00:05:54,469 --> 00:05:52,160
state of jefferson which is really more

152
00:05:56,390 --> 00:05:54,479
of a mindset than anything but it's

153
00:05:58,070 --> 00:05:56,400
funny most people in california don't

154
00:05:59,670 --> 00:05:58,080
even know this county exists and we kind

155
00:06:03,430 --> 00:05:59,680
of like it like that

156
00:06:06,150 --> 00:06:03,440
so it's uh it's a great place yes we are

157
00:06:10,070 --> 00:06:06,160
very close to where they shot return of

158
00:06:13,350 --> 00:06:10,080
the jedi and e.t among some other films

159
00:06:15,749 --> 00:06:13,360
so we're only about 25 miles from the

160
00:06:17,510 --> 00:06:15,759
coast but we're just inland enough to

161
00:06:20,070 --> 00:06:17,520
where we're not really hit by the

162
00:06:22,150 --> 00:06:20,080
coastal inversion so we have this like

163
00:06:24,629 --> 00:06:22,160

perfect micro climate for growing the

164

00:06:27,510 --> 00:06:24,639

herbs that we grow on the farm with our

165

00:06:30,550 --> 00:06:27,520

our main crop jiao gulan the t of

166

00:06:33,189 --> 00:06:30,560

immortality which dr berlando is a

167

00:06:35,270 --> 00:06:33,199

master at growing outside of asia and

168

00:06:36,230 --> 00:06:35,280

that's kind of one of our premium

169

00:06:39,029 --> 00:06:36,240

premier

170

00:06:40,390 --> 00:06:39,039

adaptogens that we grow biodynamically

171

00:06:42,550 --> 00:06:40,400

on the farm

172

00:06:44,870 --> 00:06:42,560

using the beautiful waters from the

173

00:06:47,029 --> 00:06:44,880

smith river which is the only undammed

174

00:06:50,790 --> 00:06:47,039

river in california and one of the

175

00:06:52,950 --> 00:06:50,800

purest rivers really in north america so

176
00:06:55,430 --> 00:06:52,960
that was really what drew me here was

177
00:06:58,629 --> 00:06:55,440
not only the remoteness getting away

178
00:07:01,670 --> 00:06:58,639
from the big cities but also being on a

179
00:07:04,629 --> 00:07:01,680
body of water or on a water flow that is

180
00:07:06,950 --> 00:07:04,639
that special and pure because a lot of

181
00:07:08,950 --> 00:07:06,960
times what we talk about on alpha caste

182
00:07:10,469 --> 00:07:08,960
is the importance of water and how we

183
00:07:12,390 --> 00:07:10,479
really don't even understand what water

184
00:07:15,749 --> 00:07:12,400
is in many respects in terms of

185
00:07:18,390 --> 00:07:15,759
mainstream science and by

186
00:07:21,270 --> 00:07:18,400
engaging with the river every day

187
00:07:24,550 --> 00:07:21,280
my soul is lifted and we drink from it

188
00:07:26,469 --> 00:07:24,560

we bathe in it and we use it to water

189

00:07:29,270 --> 00:07:26,479

our crops so

190

00:07:31,350 --> 00:07:29,280

yeah it's a magical place and somewhere

191

00:07:34,550 --> 00:07:31,360

we would love for you to visit sometime

192

00:07:36,469 --> 00:07:34,560

i appreciate that i would love to and

193

00:07:37,830 --> 00:07:36,479

the river was definitely one of those

194

00:07:39,990 --> 00:07:37,840

things i wanted to make sure we

195

00:07:42,950 --> 00:07:40,000

highlighted because i love the pacific

196

00:07:44,790 --> 00:07:42,960

northwest and areas like colorado

197

00:07:47,350 --> 00:07:44,800

probably more than any other natural

198

00:07:50,309 --> 00:07:47,360

landscape and i'm down here at the end

199

00:07:53,430 --> 00:07:50,319

of the completely compromised colorado

200

00:07:55,350 --> 00:07:53,440

river but the pictures i've seen of the

201
00:07:57,110 --> 00:07:55,360
smith river they do look great as you

202
00:08:00,070 --> 00:07:57,120
say on the site it is

203
00:08:02,950 --> 00:08:00,080
known as one of the cleanest rivers in

204
00:08:04,550 --> 00:08:02,960
north america and as you say water is

205
00:08:06,309 --> 00:08:04,560
super important

206
00:08:08,950 --> 00:08:06,319
you actually did a really interesting

207
00:08:11,270 --> 00:08:08,960
podcast recently with a woman named vada

208
00:08:13,029 --> 00:08:11,280
austin a water researcher and water

209
00:08:13,749 --> 00:08:13,039
photographer and you guys talked about

210
00:08:16,950 --> 00:08:13,759
the

211
00:08:17,990 --> 00:08:16,960
victor shawburger story where he would

212
00:08:19,990 --> 00:08:18,000
discuss

213
00:08:22,790 --> 00:08:20,000

the fact that he could meditate near the

214

00:08:24,550 --> 00:08:22,800

river and get into this weird state

215

00:08:26,629 --> 00:08:24,560

where the water would carry his

216

00:08:29,270 --> 00:08:26,639

consciousness off and then he'd snap

217

00:08:32,230 --> 00:08:29,280

back into it with a knowledge download

218

00:08:34,469 --> 00:08:32,240

from the river and i just find that

219

00:08:38,070 --> 00:08:34,479

story really provocative obviously it

220

00:08:39,909 --> 00:08:38,080

fueled him to go deeper into water and

221

00:08:40,709 --> 00:08:39,919

veda's work sounded really interesting

222

00:08:43,110 --> 00:08:40,719

too

223

00:08:44,389 --> 00:08:43,120

i'm curious how you guys do optimize

224

00:08:47,190 --> 00:08:44,399

water there it seems like you already

225

00:08:50,230 --> 00:08:47,200

got a good base level but do you drink

226
00:08:53,430 --> 00:08:50,240
it vortexed or implement any other water

227
00:08:54,389 --> 00:08:53,440
related optimization techniques

228
00:08:57,030 --> 00:08:54,399
yeah

229
00:08:59,910 --> 00:08:57,040
great question that's really dr lando's

230
00:09:02,230 --> 00:08:59,920
forte and where his specialty lies so we

231
00:09:05,269 --> 00:09:02,240
pull the water out of the river the farm

232
00:09:08,230 --> 00:09:05,279
is off grid so it's our main source of

233
00:09:11,269 --> 00:09:08,240
water besides some rain catchment and

234
00:09:13,190 --> 00:09:11,279
that is been vortex correct and used not

235
00:09:15,509 --> 00:09:13,200
only through the vortex brewer for the

236
00:09:18,710 --> 00:09:15,519
compost teas and things that he makes

237
00:09:21,350 --> 00:09:18,720
but also used for his ormus and things

238
00:09:24,790 --> 00:09:21,360

that we create for our products and in

239

00:09:27,670 --> 00:09:24,800

doing so we are pulling from pure

240

00:09:29,750 --> 00:09:27,680

natural consciousness of a structured

241

00:09:32,470 --> 00:09:29,760

likeness that is really

242

00:09:34,070 --> 00:09:32,480

representative of the actual

243

00:09:35,590 --> 00:09:34,080

i guess you could call it the gaia

244

00:09:38,230 --> 00:09:35,600

consciousness

245

00:09:39,750 --> 00:09:38,240

and this water is extremely structured

246

00:09:41,670 --> 00:09:39,760

because of the way it flows through the

247

00:09:43,350 --> 00:09:41,680

bedrock and out through springs it's a

248

00:09:47,430 --> 00:09:43,360

spring-driven river

249

00:09:50,310 --> 00:09:47,440

so it is very important for how we grow

250

00:09:52,550 --> 00:09:50,320

but also for internally for our internal

251

00:09:54,630 --> 00:09:52,560

milo of our terrain because we are

252

00:09:56,870 --> 00:09:54,640

terrain specialists and and we could

253

00:09:59,269 --> 00:09:56,880

talk a little bit about that today greg

254

00:10:01,269 --> 00:09:59,279

but how important it is to be taking in

255

00:10:04,710 --> 00:10:01,279

structured water

256

00:10:06,550 --> 00:10:04,720

one thing that i like to do what i'll do

257

00:10:08,389 --> 00:10:06,560

is i'll take the structured water from

258

00:10:10,069 --> 00:10:08,399

well i'll take the smith river water and

259

00:10:12,389 --> 00:10:10,079

then i'll actually i have my own little

260

00:10:14,550 --> 00:10:12,399

vortex brewer in the kitchen here

261

00:10:16,790 --> 00:10:14,560

and then i will put some of our zero

262

00:10:18,710 --> 00:10:16,800

point in and that's like my morning

263

00:10:20,310 --> 00:10:18,720

breakfast really

264

00:10:22,949 --> 00:10:20,320

and then of course the other thing that

265

00:10:24,230 --> 00:10:22,959

bear and i are big big fans of

266

00:10:26,150 --> 00:10:24,240

are the

267

00:10:28,230 --> 00:10:26,160

wim hof style

268

00:10:29,030 --> 00:10:28,240

ice water dips especially this time of

269

00:10:31,430 --> 00:10:29,040

year

270

00:10:34,150 --> 00:10:31,440

so i will go down to the river i have a

271

00:10:35,829 --> 00:10:34,160

little pool eddie that i go into and i

272

00:10:37,750 --> 00:10:35,839

do three minutes i do my breath work

273

00:10:40,550 --> 00:10:37,760

then i go in and i sit in for three

274

00:10:42,389 --> 00:10:40,560

minutes and unlike an ice bath which is

275

00:10:44,230 --> 00:10:42,399

more of a traditional wim hof method and

276

00:10:46,389 --> 00:10:44,240

i'm sure many of your listeners are

277

00:10:48,069 --> 00:10:46,399

familiar with the wim hof method

278

00:10:50,949 --> 00:10:48,079

which is the idea of right cold

279

00:10:53,590 --> 00:10:50,959

submersion with breath work

280

00:10:56,310 --> 00:10:53,600

most people will do an ice bath where

281

00:10:58,949 --> 00:10:56,320

they submerge themselves in oftentimes

282

00:11:01,110 --> 00:10:58,959

god forbid tap water with ice and so i

283

00:11:03,350 --> 00:11:01,120

feel like by doing this in a flowing

284

00:11:05,110 --> 00:11:03,360

alive river especially something as pure

285

00:11:07,190 --> 00:11:05,120

as the smith river or what we really

286

00:11:09,350 --> 00:11:07,200

should call the haiuchi river which is

287

00:11:10,470 --> 00:11:09,360

the native american indigenous name for

288

00:11:12,150 --> 00:11:10,480

it

289

00:11:14,470 --> 00:11:12,160

there's an information flow coming

290

00:11:16,470 --> 00:11:14,480

through information fields that dr lando

291

00:11:19,030 --> 00:11:16,480

would explain much better than i in

292

00:11:19,990 --> 00:11:19,040

terms of the waveform mechanics of it

293

00:11:22,230 --> 00:11:20,000

but

294

00:11:23,990 --> 00:11:22,240

my cells must structured water and my

295

00:11:25,670 --> 00:11:24,000

cells are talking with the river and

296

00:11:27,509 --> 00:11:25,680

getting information

297

00:11:28,870 --> 00:11:27,519

this is actually we talked about a bit

298

00:11:31,590 --> 00:11:28,880

with veda why

299

00:11:33,509 --> 00:11:31,600

animals dogs for instance will naturally

300

00:11:35,910 --> 00:11:33,519

prefer going out and i don't know if you

301
00:11:37,110 --> 00:11:35,920
have a dog greg but if you notice after

302
00:11:39,269 --> 00:11:37,120
a rain

303
00:11:41,030 --> 00:11:39,279
my dog loves to go drink the water out

304
00:11:43,670 --> 00:11:41,040
of a dirty puddle we'll actually prefer

305
00:11:45,829 --> 00:11:43,680
to do that than drink out of his own her

306
00:11:47,829 --> 00:11:45,839
own bowl in the house and that's because

307
00:11:50,389 --> 00:11:47,839
there's actual information fields

308
00:11:53,030 --> 00:11:50,399
attached to that structured water

309
00:11:55,269 --> 00:11:53,040
and what's exciting about this idea is

310
00:11:57,670 --> 00:11:55,279
what we kind of postulated with the veda

311
00:11:59,829 --> 00:11:57,680
podcast is that that could very well be

312
00:12:01,910 --> 00:11:59,839
the future of communication and i

313
00:12:04,949 --> 00:12:01,920

believe actually ancient cultures and

314

00:12:07,350 --> 00:12:04,959

technologies used water structured water

315

00:12:09,750 --> 00:12:07,360

to actually um communicate with each

316

00:12:11,750 --> 00:12:09,760

other across long distances through a

317

00:12:13,269 --> 00:12:11,760

more fractal holographic form of

318

00:12:15,030 --> 00:12:13,279

communication that is actually more

319

00:12:16,790 --> 00:12:15,040

natural for humans than what we're

320

00:12:19,670 --> 00:12:16,800

currently doing in the simulacrum of

321

00:12:22,150 --> 00:12:19,680

digital ones and zeros

322

00:12:24,389 --> 00:12:22,160

cheers to that yeah i agree water is

323

00:12:26,870 --> 00:12:24,399

definitely fascinating we know it can

324

00:12:29,430 --> 00:12:26,880

carry information so in the natural

325

00:12:31,910 --> 00:12:29,440

context in the holistic system why

326

00:12:33,350 --> 00:12:31,920

wouldn't that be a major component of it

327

00:12:36,069 --> 00:12:33,360

that we're

328

00:12:37,670 --> 00:12:36,079

overlooking in modern times but i did

329

00:12:39,350 --> 00:12:37,680

want to talk about your store a little

330

00:12:41,190 --> 00:12:39,360

bit because you mentioned the tea of

331

00:12:43,110 --> 00:12:41,200

immortality that was something i was

332

00:12:45,430 --> 00:12:43,120

planning on asking you about because

333

00:12:48,470 --> 00:12:45,440

that's a very provocative name but you

334

00:12:50,629 --> 00:12:48,480

also sell a lot of things broken up by

335

00:12:53,750 --> 00:12:50,639

the benefit that people are looking for

336

00:12:56,550 --> 00:12:53,760

from relaxing to longevity and i'm

337

00:12:58,949 --> 00:12:56,560

probably most interested in the energy

338

00:13:00,790 --> 00:12:58,959

and think categories to counterbalance

339

00:13:03,590 --> 00:13:00,800

my stoner tendencies because i can't

340

00:13:07,110 --> 00:13:03,600

stop mike but tell us about some of

341

00:13:09,829 --> 00:13:07,120

these things like primal essence chaga

342

00:13:11,110 --> 00:13:09,839

coffee illuminated gold super conductive

343

00:13:14,550 --> 00:13:11,120

minerals and

344

00:13:15,430 --> 00:13:14,560

gaesha chai

345

00:13:17,990 --> 00:13:15,440

so

346

00:13:20,790 --> 00:13:18,000

yeah i'm with you man i'm i'm a fan of

347

00:13:24,230 --> 00:13:20,800

the sativa personally because i like to

348

00:13:24,949 --> 00:13:24,240

go go go but yes in terms of the ability

349

00:13:26,870 --> 00:13:24,959

to

350

00:13:28,949 --> 00:13:26,880

and i'm not a fan of like the quote

351

00:13:30,710 --> 00:13:28,959

unquote bio hacking

352

00:13:32,790 --> 00:13:30,720

concepts right we're not really doing

353

00:13:35,190 --> 00:13:32,800

that we're just working with mother

354

00:13:38,069 --> 00:13:35,200

nature in how she was designed to help

355

00:13:41,910 --> 00:13:38,079

us out so everything we do is

356

00:13:44,310 --> 00:13:41,920

naturally derived from herbs botanicals

357

00:13:46,389 --> 00:13:44,320

we don't really get into the nortropic

358

00:13:49,829 --> 00:13:46,399

space or any of that everything is all

359

00:13:52,310 --> 00:13:49,839

from mother nature herself and luckily

360

00:13:54,389 --> 00:13:52,320

we have bear lando the master alchemist

361

00:13:57,030 --> 00:13:54,399

and herbalist who really is the

362

00:14:00,629 --> 00:13:57,040

formulator so this all comes from his

363

00:14:02,470 --> 00:14:00,639

genius mind of 40 years experience as a

364

00:14:04,870 --> 00:14:02,480

not only a biodynamic farmer but of

365

00:14:07,590 --> 00:14:04,880

course a bio terrain specialist where he

366

00:14:09,430 --> 00:14:07,600

has applied all of these different

367

00:14:11,509 --> 00:14:09,440

recipes if you will within his own

368

00:14:13,910 --> 00:14:11,519

practice and seen the results so this is

369

00:14:15,430 --> 00:14:13,920

all results driven

370

00:14:17,189 --> 00:14:15,440

empirically

371

00:14:20,150 --> 00:14:17,199

satisfied

372

00:14:22,230 --> 00:14:20,160

product line that's it like i said 30 35

373

00:14:25,509 --> 00:14:22,240

40 years in development

374

00:14:27,829 --> 00:14:25,519

but yeah in terms of the products i can

375

00:14:30,310 --> 00:14:27,839

give you a little recommendation greg on

376

00:14:31,910 --> 00:14:30,320

and to help you out one of my favorite

377

00:14:33,670 --> 00:14:31,920

like go-to

378

00:14:35,750 --> 00:14:33,680

booster thinking

379

00:14:39,750 --> 00:14:35,760

tonics that we have is actually our

380

00:14:41,590 --> 00:14:39,760

guayusa thermogenic and guayusa if

381

00:14:43,829 --> 00:14:41,600

you're not familiar with that is kind of

382

00:14:47,430 --> 00:14:43,839

like an herba mate it comes down from

383

00:14:49,430 --> 00:14:47,440

ecuador that we have a partnership with

384

00:14:51,350 --> 00:14:49,440

a company called runa down there and you

385

00:14:53,189 --> 00:14:51,360

may have seen aruna drinks in your local

386

00:14:55,189 --> 00:14:53,199

health store they're pretty popular now

387

00:14:57,509 --> 00:14:55,199

they're in like whole foods and stuff

388

00:14:59,910 --> 00:14:57,519

channing tatum actually it's his company

389

00:15:02,310 --> 00:14:59,920

he works with the indigenous people down

390

00:15:03,990 --> 00:15:02,320

there and basically allows them to run

391

00:15:05,030 --> 00:15:04,000

the business they have equity in the

392

00:15:07,670 --> 00:15:05,040

business

393

00:15:08,949 --> 00:15:07,680

so it's done in the right way and it's a

394

00:15:10,230 --> 00:15:08,959

less bitter

395

00:15:12,710 --> 00:15:10,240

more

396

00:15:13,829 --> 00:15:12,720

smooth energetic than

397

00:15:16,389 --> 00:15:13,839

mate

398

00:15:17,829 --> 00:15:16,399

and i really love it and it's actually

399

00:15:19,670 --> 00:15:17,839

what bear lando

400

00:15:21,509 --> 00:15:19,680

is a big fan and we blend that with our

401
00:15:23,750 --> 00:15:21,519
jiao gulon which is one of the best

402
00:15:26,069 --> 00:15:23,760
adaptogens in the world called the t of

403
00:15:28,949 --> 00:15:26,079
immortality for a reason and in the

404
00:15:32,150 --> 00:15:28,959
secret the secret greg is to blend it

405
00:15:33,670 --> 00:15:32,160
with coconut oil or or raw butter this

406
00:15:35,509 --> 00:15:33,680
has been made very

407
00:15:38,629 --> 00:15:35,519
trendy with the bulletproof

408
00:15:40,949 --> 00:15:38,639
trend which good old dave asprey right

409
00:15:44,150 --> 00:15:40,959
took to the mainstream but this is a

410
00:15:46,150 --> 00:15:44,160
thousands year old technology that the

411
00:15:47,030 --> 00:15:46,160
monks of tibet have been using with yak

412
00:15:48,629 --> 00:15:47,040
butter

413
00:15:50,310 --> 00:15:48,639

for forever

414

00:15:52,389 --> 00:15:50,320

and all you're doing is you're taking

415

00:15:54,629 --> 00:15:52,399

the caffeine and you're blending it and

416

00:15:55,829 --> 00:15:54,639

essentially encapsulating it in a fat

417

00:15:58,470 --> 00:15:55,839

lipid

418

00:16:00,230 --> 00:15:58,480

to allow for a slower release a slower

419

00:16:02,870 --> 00:16:00,240

burn of the caffeine so you don't get

420

00:16:04,230 --> 00:16:02,880

that peak that boost of caffeine and

421

00:16:07,829 --> 00:16:04,240

then the crash

422

00:16:09,670 --> 00:16:07,839

so it's a wonderful way to extend the

423

00:16:11,829 --> 00:16:09,680

beautiful effects of caffeine and i know

424

00:16:14,150 --> 00:16:11,839

in the health world there's a lot of

425

00:16:16,550 --> 00:16:14,160

controversy about caffeine

426
00:16:19,110 --> 00:16:16,560
and a lot of people have been bashing my

427
00:16:21,269 --> 00:16:19,120
my wonderful coffee of late saying that

428
00:16:23,269 --> 00:16:21,279
it's about as bad as sugar

429
00:16:25,350 --> 00:16:23,279
and just like anything if you approach

430
00:16:28,710 --> 00:16:25,360
these things in a way that fits your

431
00:16:30,629 --> 00:16:28,720
lifestyle in a responsible grown-up way

432
00:16:32,710 --> 00:16:30,639
and you do it in the most appropriate

433
00:16:34,629 --> 00:16:32,720
way for you i feel like

434
00:16:35,829 --> 00:16:34,639
we can use these things to our benefit

435
00:16:37,509 --> 00:16:35,839
and so

436
00:16:39,430 --> 00:16:37,519
with our coffee

437
00:16:41,430 --> 00:16:39,440
the reason why we have chaga and heishi

438
00:16:43,590 --> 00:16:41,440

wu in there is because they actually

439

00:16:45,829 --> 00:16:43,600

help with the adrenal fatigue that you

440

00:16:47,590 --> 00:16:45,839

get from caffeine so not only by

441

00:16:50,629 --> 00:16:47,600

encapsulating it in the lipid layer

442

00:16:53,430 --> 00:16:50,639

which i prefer organic coconut oil

443

00:16:54,550 --> 00:16:53,440

and not the mct oil that the bulletproof

444

00:16:56,710 --> 00:16:54,560

folks push

445

00:16:58,310 --> 00:16:56,720

once again we're all about naturally

446

00:17:00,230 --> 00:16:58,320

derived everything should come from

447

00:17:02,550 --> 00:17:00,240

mother nature so

448

00:17:04,150 --> 00:17:02,560

why do we need to break apart the pieces

449

00:17:05,510 --> 00:17:04,160

you know that's the reductionist model

450

00:17:08,150 --> 00:17:05,520

where we've gone wrong with like

451
00:17:10,230 --> 00:17:08,160
allopathic medicine let's use what

452
00:17:11,990 --> 00:17:10,240
mother nature gives us in its entirety

453
00:17:12,949 --> 00:17:12,000
because all aspects of the coconut are

454
00:17:13,829 --> 00:17:12,959
important

455
00:17:15,270 --> 00:17:13,839
so

456
00:17:17,590 --> 00:17:15,280
you take the coconut oil and you blend

457
00:17:20,710 --> 00:17:17,600
that and then with the chaga mushroom

458
00:17:21,829 --> 00:17:20,720
and the hishiwu those are very important

459
00:17:23,189 --> 00:17:21,839
tonic

460
00:17:26,150 --> 00:17:23,199
herbs that help

461
00:17:28,390 --> 00:17:26,160
revitalize the adrenal glands so that

462
00:17:31,029 --> 00:17:28,400
you're not getting that taxation you

463
00:17:32,470 --> 00:17:31,039

would get with a typical cup of joe

464

00:17:34,230 --> 00:17:32,480

mmm

465

00:17:35,909 --> 00:17:34,240

i like it that's a hell of a pitch i'm

466

00:17:38,710 --> 00:17:35,919

gonna check that out

467

00:17:40,950 --> 00:17:38,720

so i i'm a coffee guy greg i've always

468

00:17:43,270 --> 00:17:40,960

have been so like my morning routine

469

00:17:45,270 --> 00:17:43,280

once again as i do that smith river

470

00:17:48,070 --> 00:17:45,280

water tonic with fresh squeezed organic

471

00:17:50,150 --> 00:17:48,080

lemon our zero point i blend all our

472

00:17:52,470 --> 00:17:50,160

zero points together and so our zero

473

00:17:54,870 --> 00:17:52,480

point liquids are amazing they're a

474

00:17:56,870 --> 00:17:54,880

liquid fulvic humic base so if you've

475

00:17:58,789 --> 00:17:56,880

ever heard of shilajit i know it's

476
00:18:02,150 --> 00:17:58,799
become quite trendy in the alternative

477
00:18:03,510 --> 00:18:02,160
health space that is basically

478
00:18:06,390 --> 00:18:03,520
your humic

479
00:18:08,950 --> 00:18:06,400
your fulvic minerals that are naturally

480
00:18:11,590 --> 00:18:08,960
basically over thousands of years

481
00:18:13,350 --> 00:18:11,600
all your base minerals in a natural

482
00:18:15,110 --> 00:18:13,360
source on the tops of the himalaya

483
00:18:17,110 --> 00:18:15,120
mountains we actually get them in the

484
00:18:19,430 --> 00:18:17,120
united states in a very secret location

485
00:18:21,590 --> 00:18:19,440
very pure pristine location

486
00:18:24,710 --> 00:18:21,600
and then what we do though we put those

487
00:18:26,150 --> 00:18:24,720
within a transitional element base so we

488
00:18:27,590 --> 00:18:26,160

actually have them

489

00:18:30,549 --> 00:18:27,600

alchemically

490

00:18:33,190 --> 00:18:30,559

optimized so that they're vibrating at a

491

00:18:34,789 --> 00:18:33,200

more ceramic level not a metallic level

492

00:18:36,789 --> 00:18:34,799

which just basically means for your

493

00:18:39,110 --> 00:18:36,799

cellular matrix you can

494

00:18:41,669 --> 00:18:39,120

saturate your cellular matrix better

495

00:18:43,830 --> 00:18:41,679

than traditional

496

00:18:46,470 --> 00:18:43,840

even liquid vitamins

497

00:18:49,430 --> 00:18:46,480

once again this is dr berlando's

498

00:18:51,270 --> 00:18:49,440

expertise more than i but ever since

499

00:18:54,950 --> 00:18:51,280

i've been taking these for about 10

500

00:18:57,909 --> 00:18:54,960

years my energy is off the hook so

501
00:18:59,990 --> 00:18:57,919
i must say this stuff works dude

502
00:19:01,669 --> 00:19:00,000
right on right on

503
00:19:03,510 --> 00:19:01,679
wow well

504
00:19:06,789 --> 00:19:03,520
in terms of the farm to help people

505
00:19:09,110 --> 00:19:06,799
maybe get a better mental picture of the

506
00:19:10,950 --> 00:19:09,120
space how large is it how many people

507
00:19:12,789 --> 00:19:10,960
really live there is it just your family

508
00:19:14,630 --> 00:19:12,799
and dr lando's

509
00:19:16,630 --> 00:19:14,640
yeah so actually

510
00:19:18,470 --> 00:19:16,640
it's kind of unique and interesting i

511
00:19:19,750 --> 00:19:18,480
don't live on the farm i live in a

512
00:19:21,029 --> 00:19:19,760
little town

513
00:19:23,990 --> 00:19:21,039

right over the other side of the

514

00:19:25,830 --> 00:19:24,000

mountains i'm on grid because i'm as a

515

00:19:27,750 --> 00:19:25,840

technologist

516

00:19:29,830 --> 00:19:27,760

living off a satellite internet is just

517

00:19:32,789 --> 00:19:29,840

too difficult at this time

518

00:19:34,230 --> 00:19:32,799

so uh i'm fortunate to live in a 700

519

00:19:36,630 --> 00:19:34,240

person little

520

00:19:38,630 --> 00:19:36,640

town that just has a post office and a

521

00:19:40,070 --> 00:19:38,640

little corner market on the middle fork

522

00:19:42,549 --> 00:19:40,080

of the smith river

523

00:19:44,710 --> 00:19:42,559

and then the farm itself as the crow

524

00:19:48,470 --> 00:19:44,720

flies is only about

525

00:19:49,990 --> 00:19:48,480

25 not even that maybe 15 miles away but

526
00:19:52,630 --> 00:19:50,000
due to the

527
00:19:54,390 --> 00:19:52,640
kind of the rocky terrain and landscape

528
00:19:56,150 --> 00:19:54,400
here it's about a 45 minute to an hour

529
00:19:58,470 --> 00:19:56,160
drive and they're on the south fork of

530
00:19:59,590 --> 00:19:58,480
the smith river nestled in an off-grid

531
00:20:02,149 --> 00:19:59,600
community

532
00:20:04,470 --> 00:20:02,159
and there it's dr lando and his wife and

533
00:20:07,350 --> 00:20:04,480
then we do have our good friend shannon

534
00:20:09,750 --> 00:20:07,360
who lives on the property now and she's

535
00:20:11,750 --> 00:20:09,760
a caretaker and then we have people from

536
00:20:14,630 --> 00:20:11,760
the alpha beta community that come up

537
00:20:17,110 --> 00:20:14,640
and volunteer throughout the season

538
00:20:19,430 --> 00:20:17,120

it is a permaculture farm which means

539

00:20:20,390 --> 00:20:19,440

that it's built out in phases and in

540

00:20:23,270 --> 00:20:20,400

zones

541

00:20:26,230 --> 00:20:23,280

and it's actually the core space of the

542

00:20:29,110 --> 00:20:26,240

farm is only a few acres as of now which

543

00:20:31,270 --> 00:20:29,120

is actually a lot of a lot of growing to

544

00:20:32,870 --> 00:20:31,280

be done in just a few acres but the

545

00:20:35,510 --> 00:20:32,880

overall goal if you understand

546

00:20:38,070 --> 00:20:35,520

permaculture it's all about human design

547

00:20:40,870 --> 00:20:38,080

and phasing things out in stages so it's

548

00:20:43,590 --> 00:20:40,880

all zoned out appropriately according to

549

00:20:45,430 --> 00:20:43,600

as that how you develop that design so

550

00:20:48,470 --> 00:20:45,440

right now we have completed pretty much

551
00:20:50,870 --> 00:20:48,480
zone one which is about like i said i

552
00:20:53,510 --> 00:20:50,880
think it's about an acre and a half

553
00:20:56,310 --> 00:20:53,520
and that is primarily our jalgu lawn

554
00:20:59,830 --> 00:20:56,320
which are trellised under the shade of

555
00:21:01,830 --> 00:20:59,840
the conifers we have a lot of dug furs

556
00:21:03,990 --> 00:21:01,840
and pine trees that surround the

557
00:21:06,630 --> 00:21:04,000
property and we integrate it right into

558
00:21:07,830 --> 00:21:06,640
the nature so the farm as a permaculture

559
00:21:09,190 --> 00:21:07,840
farm is not your traditional

560
00:21:11,350 --> 00:21:09,200
monocropping

561
00:21:13,350 --> 00:21:11,360
it's very unique in terms of the design

562
00:21:17,830 --> 00:21:13,360
and everything is also geometrically

563
00:21:19,430 --> 00:21:17,840

designed to kind of mirror nature's

564

00:21:22,870 --> 00:21:19,440

cosmic design

565

00:21:27,110 --> 00:21:22,880

which dr lando is a genius at so

566

00:21:28,830 --> 00:21:27,120

we use a lot of geometry and also

567

00:21:31,510 --> 00:21:28,840

symmetry with

568

00:21:34,070 --> 00:21:31,520

how we basically

569

00:21:36,470 --> 00:21:34,080

take guilds which are

570

00:21:38,870 --> 00:21:36,480

how different plants can work together

571

00:21:40,789 --> 00:21:38,880

and help each other out so for instance

572

00:21:42,870 --> 00:21:40,799

we'll have fruit trees with ashwagandha

573

00:21:44,470 --> 00:21:42,880

around it and then nestled in between

574

00:21:46,870 --> 00:21:44,480

there are certain herbs and they all

575

00:21:48,950 --> 00:21:46,880

feed off each other and work together

576

00:21:51,669 --> 00:21:48,960

harmoniously

577

00:21:53,190 --> 00:21:51,679

bear is also a master at soil science so

578

00:21:56,149 --> 00:21:53,200

he does all sorts of different

579

00:21:58,870 --> 00:21:56,159

electrical polarization and different

580

00:22:01,350 --> 00:21:58,880

things he does with the soil to ensure

581

00:22:03,830 --> 00:22:01,360

optimum growth so it really is like

582

00:22:05,909 --> 00:22:03,840

going into a magical garden it's really

583

00:22:07,029 --> 00:22:05,919

more of like a botanical garden than a

584

00:22:09,830 --> 00:22:07,039

farm

585

00:22:11,510 --> 00:22:09,840

when you go and when you do visit greg i

586

00:22:13,190 --> 00:22:11,520

cannot wait to take you on the tour

587

00:22:15,190 --> 00:22:13,200

because it really is like going to

588

00:22:17,110 --> 00:22:15,200

disneyland

589

00:22:18,430 --> 00:22:17,120

it's really impressive sounding man i

590

00:22:20,870 --> 00:22:18,440

mean because i've had all these

591

00:22:23,830 --> 00:22:20,880

conversations with all kinds of really

592

00:22:25,830 --> 00:22:23,840

bright minds and the information just

593

00:22:27,669 --> 00:22:25,840

really doesn't go anywhere but it's cool

594

00:22:30,149 --> 00:22:27,679

to know there's a place where you are

595

00:22:33,510 --> 00:22:30,159

layering what we know about sacred

596

00:22:36,390 --> 00:22:33,520

geometry and energetics and cymatics and

597

00:22:38,950 --> 00:22:36,400

alchemy and biodynamics and even just

598

00:22:41,430 --> 00:22:38,960

good soil health as you say and

599

00:22:43,909 --> 00:22:41,440

efficiency and symbiosis it should be

600

00:22:45,669 --> 00:22:43,919

the goal but you just don't see it it's

601
00:22:46,549 --> 00:22:45,679
pretty rare

602
00:22:48,710 --> 00:22:46,559
well

603
00:22:50,710 --> 00:22:48,720
one thing that bear talks about a lot is

604
00:22:52,549 --> 00:22:50,720
physicians back in the day

605
00:22:55,750 --> 00:22:52,559
even pre-renaissance

606
00:22:56,549 --> 00:22:55,760
what some call the dark ages but really

607
00:22:58,310 --> 00:22:56,559
i'm

608
00:23:00,630 --> 00:22:58,320
coming to find greg that they might have

609
00:23:03,029 --> 00:23:00,640
been one of the highlights of our recent

610
00:23:05,430 --> 00:23:03,039
civilization if you start to uncover

611
00:23:07,669 --> 00:23:05,440
things like tartaria and these all these

612
00:23:09,909 --> 00:23:07,679
lost technologies that are really analog

613
00:23:11,990 --> 00:23:09,919

in nature and we really try to embrace

614

00:23:13,669 --> 00:23:12,000

that so like recently i installed some

615

00:23:17,110 --> 00:23:13,679

reikian

616

00:23:20,149 --> 00:23:17,120

earth pipes and um we're doing different

617

00:23:22,470 --> 00:23:20,159

kind of tower buster type technologies

618

00:23:25,190 --> 00:23:22,480

we integrate all sorts of different

619

00:23:27,909 --> 00:23:25,200

like you said sacred geometry patterning

620

00:23:30,149 --> 00:23:27,919

and then of course biogeometry is a huge

621

00:23:34,070 --> 00:23:30,159

influence on bear and i so

622

00:23:36,390 --> 00:23:34,080

yes the true alchemical sciences which

623

00:23:37,990 --> 00:23:36,400

are coming back and

624

00:23:40,149 --> 00:23:38,000

that's something that i'm really getting

625

00:23:42,630 --> 00:23:40,159

excited about as a technologist i

626

00:23:44,870 --> 00:23:42,640

believe that we are now moving more

627

00:23:46,310 --> 00:23:44,880

towards that and things like blockchain

628

00:23:49,110 --> 00:23:46,320

and bitcoin things we can talk about in

629

00:23:50,390 --> 00:23:49,120

a bit are going to be a stepping stone

630

00:23:52,470 --> 00:23:50,400

towards that

631

00:23:54,630 --> 00:23:52,480

yes yes that's exactly where i was gonna

632

00:23:57,430 --> 00:23:54,640

go next looking at the clock and i have

633

00:23:59,510 --> 00:23:57,440

tartaria and tower busting on the list

634

00:24:01,830 --> 00:23:59,520

but we won't get him into the first hour

635

00:24:04,310 --> 00:24:01,840

if we want to talk about cortl

636

00:24:05,909 --> 00:24:04,320

and this is one of the main catalysts

637

00:24:07,830 --> 00:24:05,919

for us getting together and we want to

638

00:24:11,110 --> 00:24:07,840

get it in this first hour i think a lot

639

00:24:13,990 --> 00:24:11,120

of our guests here oftentimes present a

640

00:24:16,470 --> 00:24:14,000

negative view of blockchain technology i

641

00:24:18,590 --> 00:24:16,480

understand things like controllable

642

00:24:21,110 --> 00:24:18,600

central bank digital

643

00:24:23,110 --> 00:24:21,120

cryptocurrencies and putting health

644

00:24:25,510 --> 00:24:23,120

records on the blockchain and the

645

00:24:26,950 --> 00:24:25,520

symbolic resonance of terms like crypto

646

00:24:29,750 --> 00:24:26,960

and blockchain

647

00:24:31,830 --> 00:24:29,760

but i engage with crypto quite a bit and

648

00:24:33,190 --> 00:24:31,840

it is the second best thing i've ever

649

00:24:34,310 --> 00:24:33,200

gotten involved with next to this

650

00:24:36,390 --> 00:24:34,320

podcast

651
00:24:39,590 --> 00:24:36,400
there's really impressive stuff going on

652
00:24:42,470 --> 00:24:39,600
in the d5 staking yield farming space

653
00:24:45,190 --> 00:24:42,480
basically taking all the money tricks

654
00:24:48,230 --> 00:24:45,200
the banks have used for a long long time

655
00:24:49,990 --> 00:24:48,240
and democratizing them with super insane

656
00:24:51,990 --> 00:24:50,000
interest yields you could have an

657
00:24:55,510 --> 00:24:52,000
interest bearing crypto bank account for

658
00:24:58,470 --> 00:24:55,520
example right now with like 50 apy

659
00:25:00,149 --> 00:24:58,480
returns or more and that's just a little

660
00:25:02,149 --> 00:25:00,159
preface for people who don't know that

661
00:25:04,390 --> 00:25:02,159
little secret because it's an aspect of

662
00:25:06,230 --> 00:25:04,400
my life that so rarely gets

663
00:25:09,029 --> 00:25:06,240

voiced on this show

664

00:25:10,390 --> 00:25:09,039

but i do see both sides of it and like

665

00:25:12,470 --> 00:25:10,400

most things

666

00:25:15,110 --> 00:25:12,480

that start to become tools for freedom

667

00:25:17,430 --> 00:25:15,120

the system co-ops them and crypto will

668

00:25:19,750 --> 00:25:17,440

probably be a mixed bag just like

669

00:25:21,909 --> 00:25:19,760

everything just like the internet itself

670

00:25:23,830 --> 00:25:21,919

and we're also not going to stop it so

671

00:25:25,190 --> 00:25:23,840

we should probably support the projects

672

00:25:27,669 --> 00:25:25,200

that will move the needle in the

673

00:25:30,310 --> 00:25:27,679

altruistic direction and with that said

674

00:25:32,950 --> 00:25:30,320

tell us about quartal

675

00:25:35,830 --> 00:25:32,960

that's beautiful man you get it it's a

676
00:25:37,350 --> 00:25:35,840
tool technology's a tool and we live in

677
00:25:39,590 --> 00:25:37,360
a dualistic

678
00:25:42,549 --> 00:25:39,600
reality and so

679
00:25:44,310 --> 00:25:42,559
it can go either way right and really

680
00:25:45,590 --> 00:25:44,320
one thing that we're looking at in terms

681
00:25:46,710 --> 00:25:45,600
of crypto

682
00:25:49,029 --> 00:25:46,720
is

683
00:25:50,390 --> 00:25:49,039
humankind mankind likes to mess things

684
00:25:51,350 --> 00:25:50,400
up

685
00:25:55,830 --> 00:25:51,360
and

686
00:25:58,470 --> 00:25:55,840
read the bitcoin white paper satoshi

687
00:26:00,789 --> 00:25:58,480
nakamoto put forth in 2009 which was the

688
00:26:03,430 --> 00:26:00,799

catalyst for it all

689

00:26:05,430 --> 00:26:03,440

you can see the purity and the mindset

690

00:26:06,230 --> 00:26:05,440

that that came out of which was really

691

00:26:10,470 --> 00:26:06,240

to

692

00:26:11,510 --> 00:26:10,480

disrupt centralization disrupt the eons

693

00:26:14,710 --> 00:26:11,520

old

694

00:26:18,310 --> 00:26:14,720

manipulation of man through

695

00:26:19,830 --> 00:26:18,320

economics through scarcity through money

696

00:26:24,070 --> 00:26:19,840

and

697

00:26:26,710 --> 00:26:24,080

this is my kind of theory on where we

698

00:26:28,789 --> 00:26:26,720

need to go and why we're suffering

699

00:26:31,750 --> 00:26:28,799

this relates to everything right now

700

00:26:33,590 --> 00:26:31,760

greg the global health

701
00:26:36,950 --> 00:26:33,600
whatever you want to call it pandemic

702
00:26:38,549 --> 00:26:36,960
scamdemic pandemic whatever your kind of

703
00:26:39,269 --> 00:26:38,559
thoughts are on that

704
00:26:43,430 --> 00:26:39,279
to

705
00:26:46,630 --> 00:26:43,440
political strife the social strife all

706
00:26:49,430 --> 00:26:46,640
of it becomes from one singular place

707
00:26:51,430 --> 00:26:49,440
and i used to think that was debt was

708
00:26:54,230 --> 00:26:51,440
the debt-based system that we're in but

709
00:26:56,470 --> 00:26:54,240
actually debt is just an after effect

710
00:26:58,070 --> 00:26:56,480
part of the mechanism of something

711
00:26:59,909 --> 00:26:58,080
greater which is

712
00:27:02,390 --> 00:26:59,919
really the lack of trust and

713
00:27:04,870 --> 00:27:02,400

transparency humankind has with each

714

00:27:07,269 --> 00:27:04,880

other with our institutions

715

00:27:11,029 --> 00:27:07,279

and with how we interact with basically

716

00:27:12,710 --> 00:27:11,039

all humans inner species relations

717

00:27:14,789 --> 00:27:12,720

we don't have trust

718

00:27:16,390 --> 00:27:14,799

and that has to do with a lot of things

719

00:27:17,750 --> 00:27:16,400

but mainly it comes down to

720

00:27:20,950 --> 00:27:17,760

consciousness

721

00:27:23,269 --> 00:27:20,960

and the human condition is based upon

722

00:27:24,870 --> 00:27:23,279

lack of trust and transparency

723

00:27:27,350 --> 00:27:24,880

certain actors whether they be

724

00:27:29,350 --> 00:27:27,360

archonically controlled or

725

00:27:31,669 --> 00:27:29,360

the minions of arimon

726
00:27:33,830 --> 00:27:31,679
they're going to take advantage of this

727
00:27:36,230 --> 00:27:33,840
and the end result is

728
00:27:38,549 --> 00:27:36,240
basically a debt-based system

729
00:27:40,310 --> 00:27:38,559
and when we have a debt based system

730
00:27:42,549 --> 00:27:40,320
because we are unable to trust our

731
00:27:43,830 --> 00:27:42,559
neighbor and because we're afraid of bad

732
00:27:45,510 --> 00:27:43,840
actors

733
00:27:47,590 --> 00:27:45,520
we buy into this

734
00:27:50,710 --> 00:27:47,600
using credit and using debt and it's

735
00:27:52,310 --> 00:27:50,720
really easy to go for this because

736
00:27:55,669 --> 00:27:52,320
look at the debt bubble we're in now i

737
00:27:59,269 --> 00:27:55,679
mean if you look at the last 50 60 years

738
00:28:00,549 --> 00:27:59,279

many keynesian economics professors etc

739

00:28:03,350 --> 00:28:00,559

will say that

740

00:28:05,669 --> 00:28:03,360

we've now enjoyed the greatest

741

00:28:08,389 --> 00:28:05,679

civilization success in the history of

742

00:28:11,029 --> 00:28:08,399

mankind look at all the growth

743

00:28:12,789 --> 00:28:11,039

but to what cost

744

00:28:14,710 --> 00:28:12,799

i often relate this to health into the

745

00:28:17,269 --> 00:28:14,720

allopathic model

746

00:28:19,430 --> 00:28:17,279

the allopathic proponents will say we

747

00:28:22,070 --> 00:28:19,440

have been able to basically vanquish all

748

00:28:23,669 --> 00:28:22,080

disease but at what cost we have chronic

749

00:28:25,750 --> 00:28:23,679

illness at an all-time high we have

750

00:28:26,950 --> 00:28:25,760

depression at all time high obesity all

751
00:28:28,789 --> 00:28:26,960
these things and i know some of those

752
00:28:31,110 --> 00:28:28,799
play into more of the cultural

753
00:28:32,950 --> 00:28:31,120
aspects of humanity and the big

754
00:28:33,750 --> 00:28:32,960
corporations etc

755
00:28:36,470 --> 00:28:33,760
but

756
00:28:38,710 --> 00:28:36,480
with any ponzi scheme it can always look

757
00:28:40,549 --> 00:28:38,720
really wonderful

758
00:28:42,149 --> 00:28:40,559
on the top layer

759
00:28:43,990 --> 00:28:42,159
but when you start to dig a little

760
00:28:46,549 --> 00:28:44,000
deeper you realize how much trouble

761
00:28:48,549 --> 00:28:46,559
we're in and obviously what we're facing

762
00:28:49,669 --> 00:28:48,559
right now is a debt crisis beyond

763
00:28:51,990 --> 00:28:49,679

measure

764

00:28:54,310 --> 00:28:52,000

and it's really tough right like it's

765

00:28:57,510 --> 00:28:54,320

going to be really tough to try to fix

766

00:28:59,269 --> 00:28:57,520

this it's essentially what most honest

767

00:29:01,029 --> 00:28:59,279

people looking at this

768

00:29:03,190 --> 00:29:01,039

are seeing now is it's there's really

769

00:29:05,269 --> 00:29:03,200

one way only a few ways out one is

770

00:29:08,470 --> 00:29:05,279

complete and total collapse into like a

771

00:29:10,070 --> 00:29:08,480

mad max world two complete technocracy

772

00:29:13,909 --> 00:29:10,080

because that's how they push the debt

773

00:29:16,549 --> 00:29:13,919

bubble along is more centralization more

774

00:29:17,990 --> 00:29:16,559

control more statism

775

00:29:20,149 --> 00:29:18,000

so they're doing that of course through

776

00:29:22,950 --> 00:29:20,159

technology and through the technocracy

777

00:29:25,190 --> 00:29:22,960

but i think the third way out is

778

00:29:28,230 --> 00:29:25,200

through a holistic model of

779

00:29:29,990 --> 00:29:28,240

kind of slowly moving into a parallel

780

00:29:31,510 --> 00:29:30,000

system and that's where we can talk

781

00:29:33,029 --> 00:29:31,520

about bitcoin and what chordal is

782

00:29:35,430 --> 00:29:33,039

looking to do as well

783

00:29:37,750 --> 00:29:35,440

but real quick on the technocracy side

784

00:29:41,190 --> 00:29:37,760

one thing we have to remember too is

785

00:29:43,590 --> 00:29:41,200

that technology itself is deflationary

786

00:29:46,470 --> 00:29:43,600

in nature we must understand that it's

787

00:29:48,630 --> 00:29:46,480

extremely important aspect to this all

788

00:29:50,230 --> 00:29:48,640

due to moore's law and the network

789

00:29:52,710 --> 00:29:50,240

effect and game theory and all these

790

00:29:55,510 --> 00:29:52,720

wonderful aspects of technology

791

00:29:57,669 --> 00:29:55,520

it is essentially always

792

00:30:01,110 --> 00:29:57,679

rapidly improving and getting more

793

00:30:04,070 --> 00:30:01,120

efficient and making our lives easier so

794

00:30:07,269 --> 00:30:04,080

if we can maintain a decentralized

795

00:30:10,549 --> 00:30:07,279

holistic kind of connection to it

796

00:30:12,549 --> 00:30:10,559

it can allow us to free up our time and

797

00:30:15,510 --> 00:30:12,559

not that i'm saying that this is some

798

00:30:17,669 --> 00:30:15,520

sort of utopian ideal here of technology

799

00:30:20,070 --> 00:30:17,679

saving us not at all but it is a tool

800

00:30:22,070 --> 00:30:20,080

and it can allow us to really go

801
00:30:24,389 --> 00:30:22,080
to places as long as we do it in the

802
00:30:27,190 --> 00:30:24,399
right way to allow us to be more free

803
00:30:29,190 --> 00:30:27,200
and allow us to engage economically in a

804
00:30:31,669 --> 00:30:29,200
more deflationary way which is extremely

805
00:30:33,350 --> 00:30:31,679
important because that is the opposite

806
00:30:35,830 --> 00:30:33,360
of what we're dealing with right now in

807
00:30:37,750 --> 00:30:35,840
terms of how we relate to debt and with

808
00:30:40,310 --> 00:30:37,760
inflation and right now really

809
00:30:42,149 --> 00:30:40,320
stagflation is what we're looking at so

810
00:30:44,950 --> 00:30:42,159
important to remember that technology in

811
00:30:47,269 --> 00:30:44,960
itself is deflationary and an example of

812
00:30:50,470 --> 00:30:47,279
that would be what we're doing right now

813
00:30:53,190 --> 00:30:50,480

10 15 years ago to be able to put out

814

00:30:55,990 --> 00:30:53,200

content like this we would have had to

815

00:30:57,909 --> 00:30:56,000

probably meet in person and record it i

816

00:30:59,750 --> 00:30:57,919

would have had to pay for a flight fly

817

00:31:01,669 --> 00:30:59,760

down to san diego

818

00:31:03,509 --> 00:31:01,679

you would have had expensive recording

819

00:31:05,190 --> 00:31:03,519

equipment we would have then had to save

820

00:31:07,029 --> 00:31:05,200

that to tape we would have had to

821

00:31:08,789 --> 00:31:07,039

transfer that and then people would have

822

00:31:10,789 --> 00:31:08,799

to be a member where we would literally

823

00:31:11,830 --> 00:31:10,799

have that delivered to them in the mail

824

00:31:14,389 --> 00:31:11,840

so

825

00:31:16,549 --> 00:31:14,399

now this is essentially free

826

00:31:19,269 --> 00:31:16,559

so that is a very important aspect of

827

00:31:20,470 --> 00:31:19,279

technology we need to remember and it is

828

00:31:22,870 --> 00:31:20,480

something that

829

00:31:26,070 --> 00:31:22,880

excites me every day i wake up because

830

00:31:27,909 --> 00:31:26,080

like i said earlier this technology is

831

00:31:31,669 --> 00:31:27,919

just the very beginning it's like the

832

00:31:34,870 --> 00:31:31,679

caveman version of where we're gonna go

833

00:31:36,230 --> 00:31:34,880

in terms of our own inert technologies

834

00:31:37,110 --> 00:31:36,240

within us

835

00:31:39,190 --> 00:31:37,120

and

836

00:31:41,269 --> 00:31:39,200

yeah greg i really want to get into this

837

00:31:43,590 --> 00:31:41,279

idea of

838

00:31:45,350 --> 00:31:43,600

this is gonna this is the perfect place

839

00:31:47,190 --> 00:31:45,360

to talk about this higher side chats

840

00:31:48,870 --> 00:31:47,200

because this gets trippy

841

00:31:51,269 --> 00:31:48,880

let me give you my little download i've

842

00:31:54,149 --> 00:31:51,279

gotten recently so remember how i said

843

00:31:55,909 --> 00:31:54,159

that the biggest problem we have in

844

00:31:57,990 --> 00:31:55,919

terms of why we're in a debt system is

845

00:32:00,549 --> 00:31:58,000

because of lack of trust and lack of

846

00:32:02,310 --> 00:32:00,559

transparency and we'll get into how

847

00:32:04,230 --> 00:32:02,320

crypto will be the first phase and

848

00:32:06,549 --> 00:32:04,240

specifically bitcoin and projects like

849

00:32:08,789 --> 00:32:06,559

chordal will help us get there but the

850

00:32:10,870 --> 00:32:08,799

end result i truly believe and this goes

851
00:32:12,149 --> 00:32:10,880
into steiner into the mystics and stuff

852
00:32:14,470 --> 00:32:12,159
is that

853
00:32:15,669 --> 00:32:14,480
we are going to go back to being psychic

854
00:32:17,590 --> 00:32:15,679
connected

855
00:32:20,789 --> 00:32:17,600
people like we were maybe in the times

856
00:32:23,269 --> 00:32:20,799
of lumeria and when we get there

857
00:32:25,350 --> 00:32:23,279
we're basically living on a blockchain

858
00:32:28,310 --> 00:32:25,360
in a sense of complete transparency and

859
00:32:30,710 --> 00:32:28,320
truth and in doing that the idea of

860
00:32:32,950 --> 00:32:30,720
money will cease to need to exist

861
00:32:35,590 --> 00:32:32,960
because we will be basically living

862
00:32:37,990 --> 00:32:35,600
according to law according to virtue we

863
00:32:40,950 --> 00:32:38,000

will know who is unvirtuous who is not

864

00:32:42,870 --> 00:32:40,960

to trust we won't need money anymore

865

00:32:45,909 --> 00:32:42,880

and in doing that our entire

866

00:32:48,310 --> 00:32:45,919

relationship with currency and with how

867

00:32:49,269 --> 00:32:48,320

economics work will be so drastically

868

00:32:51,269 --> 00:32:49,279

different

869

00:32:53,909 --> 00:32:51,279

that those in power won't be in power

870

00:32:56,070 --> 00:32:53,919

anymore and will be i'm not saying this

871

00:32:58,870 --> 00:32:56,080

is a utopian paradise but it will be a

872

00:33:02,149 --> 00:32:58,880

whole new idea of how

873

00:33:04,870 --> 00:33:02,159

we interact and how we engage and how we

874

00:33:06,149 --> 00:33:04,880

live in a much more harmonious virtuous

875

00:33:08,630 --> 00:33:06,159

way

876

00:33:12,149 --> 00:33:08,640

hmm i like it it's like the

877

00:33:14,389 --> 00:33:12,159

blockchain digital ledger is a

878

00:33:16,310 --> 00:33:14,399

sort of training wheel to get us back to

879

00:33:18,710 --> 00:33:16,320

that psychic space

880

00:33:21,190 --> 00:33:18,720

exactly and that's you you really said

881

00:33:24,070 --> 00:33:21,200

the right word ledger because really

882

00:33:25,909 --> 00:33:24,080

that's all we need a transparent ledger

883

00:33:28,070 --> 00:33:25,919

that we know is immutable

884

00:33:30,470 --> 00:33:28,080

that we know we're all in agreement with

885

00:33:32,789 --> 00:33:30,480

that's money i mean that really is so

886

00:33:35,350 --> 00:33:32,799

what is money money is the i guess the

887

00:33:38,310 --> 00:33:35,360

quantification of time right the idea

888

00:33:41,509 --> 00:33:38,320

that when you put forth time into a

889

00:33:43,509 --> 00:33:41,519

specific task or creative endeavor

890

00:33:45,669 --> 00:33:43,519

you get a representation of that that

891

00:33:47,509 --> 00:33:45,679

you can then use in the future to

892

00:33:49,909 --> 00:33:47,519

represent that time and if you have the

893

00:33:53,029 --> 00:33:49,919

right kind of money hopefully your time

894

00:33:54,870 --> 00:33:53,039

is actually increased and that you can

895

00:33:56,549 --> 00:33:54,880

get more time down the line so i the

896

00:33:59,029 --> 00:33:56,559

idea right traditionally is that you

897

00:34:00,710 --> 00:33:59,039

work for 40 years so you get all your

898

00:34:02,870 --> 00:34:00,720

your money saved so that you can then

899

00:34:05,110 --> 00:34:02,880

enjoy that time when you're retired that

900

00:34:08,230 --> 00:34:05,120

was kind of like the traditional nine to

901
00:34:09,270 --> 00:34:08,240
five the american dream of the 1950s

902
00:34:10,790 --> 00:34:09,280
right

903
00:34:12,629 --> 00:34:10,800
well i think that relationship has

904
00:34:14,790 --> 00:34:12,639
obviously been skewed and changed now

905
00:34:16,389 --> 00:34:14,800
where essentially that time has been

906
00:34:17,990 --> 00:34:16,399
stripped and stolen from us due to

907
00:34:19,349 --> 00:34:18,000
inflation which is really a secret

908
00:34:22,069 --> 00:34:19,359
hidden tax

909
00:34:23,829 --> 00:34:22,079
but i also believe that we can do better

910
00:34:26,230 --> 00:34:23,839
i believe that

911
00:34:27,669 --> 00:34:26,240
as inherent creative

912
00:34:31,270 --> 00:34:27,679
consciousness

913
00:34:34,389 --> 00:34:31,280

that our experience on this planet

914

00:34:36,790 --> 00:34:34,399

in relationship to time needs to be

915

00:34:39,510 --> 00:34:36,800

rethought and restructured and in doing

916

00:34:41,349 --> 00:34:39,520

so so will our relationship with money

917

00:34:43,589 --> 00:34:41,359

and that's really what's exciting about

918

00:34:46,310 --> 00:34:43,599

blockchain is that we can start playing

919

00:34:47,589 --> 00:34:46,320

with this because we have the ability to

920

00:34:49,589 --> 00:34:47,599

relate

921

00:34:51,589 --> 00:34:49,599

different aspects of time and different

922

00:34:53,430 --> 00:34:51,599

aspects of our experience onto the

923

00:34:55,030 --> 00:34:53,440

blockchain which is just an immutable

924

00:34:56,950 --> 00:34:55,040

transparent ledger

925

00:34:59,349 --> 00:34:56,960

and so that's essentially what proof of

926
00:35:01,430 --> 00:34:59,359
work does it immediately sets

927
00:35:02,630 --> 00:35:01,440
transactions in time

928
00:35:03,990 --> 00:35:02,640
and so

929
00:35:05,990 --> 00:35:04,000
in doing that

930
00:35:08,950 --> 00:35:06,000
it's phase one it's phase one of us

931
00:35:11,270 --> 00:35:08,960
moving towards this far-off ideal of us

932
00:35:13,750 --> 00:35:11,280
all being psychic and being transparent

933
00:35:16,069 --> 00:35:13,760
and virtuous in our relations and and

934
00:35:17,829 --> 00:35:16,079
essentially living like the essenes did

935
00:35:19,589 --> 00:35:17,839
thousands of years ago where they didn't

936
00:35:20,950 --> 00:35:19,599
have money but they still had possession

937
00:35:22,470 --> 00:35:20,960
and they still were able to relate and

938
00:35:24,790 --> 00:35:22,480

do commerce and it was all based on

939

00:35:27,750 --> 00:35:24,800

mutual respect by the law

940

00:35:29,430 --> 00:35:27,760

so yeah very exciting times and the one

941

00:35:32,150 --> 00:35:29,440

thing i will say about crypto is

942

00:35:33,990 --> 00:35:32,160

probably about 95 of it is tainted it's

943

00:35:35,109 --> 00:35:34,000

centralized it's been manipulated and

944

00:35:37,270 --> 00:35:35,119

controlled

945

00:35:39,109 --> 00:35:37,280

and it's going to be very interesting to

946

00:35:40,790 --> 00:35:39,119

see where it goes in the next few years

947

00:35:42,310 --> 00:35:40,800

and if we are going to see a bit of a

948

00:35:43,670 --> 00:35:42,320

collapse or if we're going to be able to

949

00:35:46,550 --> 00:35:43,680

kind of get through that and move

950

00:35:48,310 --> 00:35:46,560

towards these higher ideals

951
00:35:50,390 --> 00:35:48,320
i don't know i'm not a huge fan of

952
00:35:52,150 --> 00:35:50,400
projects like ethereum and cardano

953
00:35:53,829 --> 00:35:52,160
because i feel like

954
00:35:56,069 --> 00:35:53,839
they're centralized and they came from a

955
00:35:57,670 --> 00:35:56,079
place of centralization from the get-go

956
00:36:00,310 --> 00:35:57,680
with the idea of an initial coin

957
00:36:02,390 --> 00:36:00,320
offering essentially fiat 2.0 where you

958
00:36:05,190 --> 00:36:02,400
have the progenitors pre-minting

959
00:36:07,190 --> 00:36:05,200
pre-mining the coin having control of it

960
00:36:09,829 --> 00:36:07,200
and then having a staking model where

961
00:36:12,470 --> 00:36:09,839
based upon whoever has more shekels will

962
00:36:15,030 --> 00:36:12,480
have more control of the consensus i

963
00:36:17,430 --> 00:36:15,040

think that's man messing it up messing

964

00:36:19,109 --> 00:36:17,440

up the original vision of satoshi so

965

00:36:20,550 --> 00:36:19,119

with chordal

966

00:36:23,430 --> 00:36:20,560

what we're trying to do is we're trying

967

00:36:25,190 --> 00:36:23,440

to go back to satoshi's satoshi's vision

968

00:36:26,550 --> 00:36:25,200

of having a truly decentralized

969

00:36:29,109 --> 00:36:26,560

mechanism

970

00:36:31,750 --> 00:36:29,119

to allow for a new internet we're happy

971

00:36:33,990 --> 00:36:31,760

with bitcoin we think bitcoin is doing a

972

00:36:36,710 --> 00:36:34,000

pretty good job even though btc as is is

973

00:36:39,589 --> 00:36:36,720

not the original bitcoin we know in 2017

974

00:36:41,589 --> 00:36:39,599

was segregated witness it forked off and

975

00:36:43,990 --> 00:36:41,599

became something kind of different

976

00:36:46,230 --> 00:36:44,000

the bitcoin core team is a corporation

977

00:36:48,630 --> 00:36:46,240

running the bitcoin protocol and there

978

00:36:50,470 --> 00:36:48,640

are concerns with that but still i guess

979

00:36:53,030 --> 00:36:50,480

you could call me a i'm not a bitcoin

980

00:36:55,349 --> 00:36:53,040

maximalist but a bitcoin idealist and i

981

00:36:57,990 --> 00:36:55,359

do support support that blockchain

982

00:36:59,910 --> 00:36:58,000

immensely and most of my portfolio is

983

00:37:01,670 --> 00:36:59,920

btc

984

00:37:03,670 --> 00:37:01,680

but with chordal what we're looking to

985

00:37:06,150 --> 00:37:03,680

do is really

986

00:37:07,829 --> 00:37:06,160

reimagine what the internet is and so

987

00:37:09,990 --> 00:37:07,839

it's a completely different beast we're

988

00:37:11,910 --> 00:37:10,000

not competing with bitcoin we see

989

00:37:13,589 --> 00:37:11,920

bitcoin as a friend

990

00:37:16,470 --> 00:37:13,599

with chordal what we're looking to do is

991

00:37:18,390 --> 00:37:16,480

provide 10x value to the internet and

992

00:37:19,910 --> 00:37:18,400

thus allow for new adoption on a

993

00:37:20,950 --> 00:37:19,920

decentralized

994

00:37:22,870 --> 00:37:20,960

more

995

00:37:24,310 --> 00:37:22,880

human-friendly version of what the

996

00:37:26,150 --> 00:37:24,320

internet can be

997

00:37:28,390 --> 00:37:26,160

and in doing that

998

00:37:30,630 --> 00:37:28,400

we're bringing decentralization the

999

00:37:31,990 --> 00:37:30,640

trustless nature the universal nature of

1000

00:37:33,829 --> 00:37:32,000

blockchain

1001
00:37:36,790 --> 00:37:33,839
and with things like community

1002
00:37:37,829 --> 00:37:36,800
collaboration cooperation and abundance

1003
00:37:39,510 --> 00:37:37,839
so

1004
00:37:41,270 --> 00:37:39,520
yeah let me know what questions do you

1005
00:37:43,349 --> 00:37:41,280
have about chordal it's a very deep

1006
00:37:45,990 --> 00:37:43,359
subject there's a lot to it

1007
00:37:48,870 --> 00:37:46,000
and i'm happy to discuss any aspects of

1008
00:37:50,790 --> 00:37:48,880
it for sure for sure and yeah i

1009
00:37:52,950 --> 00:37:50,800
definitely think that a lot of times

1010
00:37:55,190 --> 00:37:52,960
with crypto conversations they can get

1011
00:37:56,710 --> 00:37:55,200
too fundamental like what is a

1012
00:37:58,390 --> 00:37:56,720
blockchain and all this kind of stuff

1013
00:38:00,550 --> 00:37:58,400

and there's so much out there that if

1014

00:38:02,870 --> 00:38:00,560

people need to be brought up to speed go

1015

00:38:05,589 --> 00:38:02,880

bring yourself up to speed but one

1016

00:38:07,030 --> 00:38:05,599

aspect of this protocol that i think is

1017

00:38:09,270 --> 00:38:07,040

interesting that maybe a lot of people

1018

00:38:12,710 --> 00:38:09,280

haven't heard elaborated on would be

1019

00:38:15,510 --> 00:38:12,720

proof of time or this minting aspect as

1020

00:38:18,470 --> 00:38:15,520

compared to proof of work which bitcoin

1021

00:38:21,030 --> 00:38:18,480

uses or proof of stake which is being

1022

00:38:24,069 --> 00:38:21,040

considered the next big thing help

1023

00:38:26,470 --> 00:38:24,079

people understand these mechanisms and

1024

00:38:27,990 --> 00:38:26,480

what chordal does differently and almost

1025

00:38:30,630 --> 00:38:28,000

uniquely because i don't think i've

1026

00:38:32,470 --> 00:38:30,640

heard of another proof of time

1027

00:38:35,349 --> 00:38:32,480

project

1028

00:38:36,790 --> 00:38:35,359

yeah so cortical in itself is its own

1029

00:38:38,870 --> 00:38:36,800

blockchain it was developed from the

1030

00:38:40,310 --> 00:38:38,880

ground up it's been about six years in

1031

00:38:42,470 --> 00:38:40,320

the making

1032

00:38:45,349 --> 00:38:42,480

really kind of the original

1033

00:38:47,829 --> 00:38:45,359

ethics and momentum of bitcoin came out

1034

00:38:49,750 --> 00:38:47,839

of the cipher punk mentality right from

1035

00:38:51,430 --> 00:38:49,760

the 80s and 90s i always think of that

1036

00:38:53,750 --> 00:38:51,440

movie like hacker or whatever from the

1037

00:38:55,430 --> 00:38:53,760

90s you know like guys on rollerblades

1038

00:38:57,670 --> 00:38:55,440

wearing neon but

1039

00:38:59,190 --> 00:38:57,680

yeah it was really these underground

1040

00:39:01,430 --> 00:38:59,200

cypherpunks who

1041

00:39:03,829 --> 00:39:01,440

saw that the bitcoin model of

1042

00:39:05,990 --> 00:39:03,839

proof-of-work well ingenious on so many

1043

00:39:07,670 --> 00:39:06,000

ways and really we are fans of bitcoin

1044

00:39:09,270 --> 00:39:07,680

because the proof-of-work model is

1045

00:39:11,510 --> 00:39:09,280

important to understand and really the

1046

00:39:14,630 --> 00:39:11,520

proof-of-work model is based on

1047

00:39:16,230 --> 00:39:14,640

traditional classic economics of supply

1048

00:39:18,390 --> 00:39:16,240

and demand and

1049

00:39:21,030 --> 00:39:18,400

based on the idea of computers competing

1050

00:39:23,270 --> 00:39:21,040

against each other to solve complex

1051
00:39:25,750 --> 00:39:23,280
problems based on a specific difficulty

1052
00:39:28,470 --> 00:39:25,760
setting to allow for a completely

1053
00:39:30,470 --> 00:39:28,480
transparent and decentralized mechanism

1054
00:39:32,310 --> 00:39:30,480
of maintaining truth

1055
00:39:34,310 --> 00:39:32,320
on a digital network

1056
00:39:36,390 --> 00:39:34,320
what we call blockchain

1057
00:39:39,349 --> 00:39:36,400
an extremely important innovation and

1058
00:39:41,349 --> 00:39:39,359
something that i think will be

1059
00:39:43,589 --> 00:39:41,359
like the printing press used for

1060
00:39:44,790 --> 00:39:43,599
hundreds if not thousands of years i

1061
00:39:47,109 --> 00:39:44,800
really do

1062
00:39:47,990 --> 00:39:47,119
there are limitations though to proof of

1063
00:39:49,750 --> 00:39:48,000

work

1064

00:39:51,990 --> 00:39:49,760

in terms of

1065

00:39:54,630 --> 00:39:52,000

the egalitarian nature of it because it

1066

00:39:57,109 --> 00:39:54,640

does tend to centralize because in the

1067

00:39:59,109 --> 00:39:57,119

end there is a race for computing power

1068

00:40:01,030 --> 00:39:59,119

and the race for computing power

1069

00:40:03,349 --> 00:40:01,040

essentially means those who can afford

1070

00:40:04,790 --> 00:40:03,359

to buy the best computers and those who

1071

00:40:07,510 --> 00:40:04,800

can team up and create the biggest

1072

00:40:09,510 --> 00:40:07,520

mining systems will thus have more what

1073

00:40:11,510 --> 00:40:09,520

they call hashing power which will give

1074

00:40:13,750 --> 00:40:11,520

you more power on the bitcoin or

1075

00:40:15,349 --> 00:40:13,760

whatever proof of work blockchain

1076

00:40:18,230 --> 00:40:15,359

and the other thing too about bitcoin is

1077

00:40:20,230 --> 00:40:18,240

based on a scarcity model which is fine

1078

00:40:22,870 --> 00:40:20,240

which is fine for the mechanism of what

1079

00:40:24,710 --> 00:40:22,880

it's turned into which is a means for

1080

00:40:26,230 --> 00:40:24,720

securing a

1081

00:40:31,750 --> 00:40:26,240

deflationary

1082

00:40:33,990 --> 00:40:31,760

for basically digital gold right having

1083

00:40:35,829 --> 00:40:34,000

a savings account it makes a lot of

1084

00:40:37,589 --> 00:40:35,839

sense however

1085

00:40:39,910 --> 00:40:37,599

like any technology

1086

00:40:42,309 --> 00:40:39,920

there are other variants and uses that

1087

00:40:43,510 --> 00:40:42,319

can be ascertained out of the blockchain

1088

00:40:45,270 --> 00:40:43,520

model and

1089

00:40:47,030 --> 00:40:45,280

one thing that we saw a problem with

1090

00:40:49,910 --> 00:40:47,040

bitcoin for what we're trying to tackle

1091

00:40:50,790 --> 00:40:49,920

which is creating a new hosting paradigm

1092

00:40:56,230 --> 00:40:50,800

for

1093

00:40:58,870 --> 00:40:56,240

really needs to be as egalitarian as

1094

00:41:01,190 --> 00:40:58,880

possible we want the network to be as

1095

00:41:03,510 --> 00:41:01,200

decentralized and to be run by every

1096

00:41:04,870 --> 00:41:03,520

single individual in the world if we

1097

00:41:06,230 --> 00:41:04,880

really want to create the new internet

1098

00:41:07,990 --> 00:41:06,240

which originally that's what the

1099

00:41:09,670 --> 00:41:08,000

internet was right before the internet

1100

00:41:11,910 --> 00:41:09,680

service providers came about the

1101

00:41:14,230 --> 00:41:11,920

computers and the aols

1102

00:41:16,150 --> 00:41:14,240

the nerds of the world would connect

1103

00:41:18,150 --> 00:41:16,160

person to person on the internet you

1104

00:41:20,630 --> 00:41:18,160

would plug in your phone modem and dial

1105

00:41:22,470 --> 00:41:20,640

in and go in one of those old boards and

1106

00:41:24,230 --> 00:41:22,480

you know the forums and stuff and

1107

00:41:25,430 --> 00:41:24,240

interact person to person through your

1108

00:41:27,910 --> 00:41:25,440

connection

1109

00:41:29,589 --> 00:41:27,920

and we wanted to get back to that so in

1110

00:41:32,470 --> 00:41:29,599

order to do that we need an economic

1111

00:41:34,069 --> 00:41:32,480

model that incentivizes and that is it's

1112

00:41:36,150 --> 00:41:34,079

completely universal and fair as

1113

00:41:37,030 --> 00:41:36,160

possible so we were thinking well what

1114

00:41:38,790 --> 00:41:37,040

would be

1115

00:41:41,589 --> 00:41:38,800

the value metric for that what is

1116

00:41:43,510 --> 00:41:41,599

something that everybody has access to

1117

00:41:44,870 --> 00:41:43,520

in the human condition what is the thing

1118

00:41:46,150 --> 00:41:44,880

that everybody can relate to and

1119

00:41:48,150 --> 00:41:46,160

everybody has access to and that of

1120

00:41:49,750 --> 00:41:48,160

course is time we're all here for a

1121

00:41:51,030 --> 00:41:49,760

certain amount of time right nobody gets

1122

00:41:51,990 --> 00:41:51,040

out alive

1123

00:41:53,910 --> 00:41:52,000

so

1124

00:41:56,470 --> 00:41:53,920

by figuring out a way

1125

00:41:57,990 --> 00:41:56,480

to not only create an egalitarian model

1126
00:42:00,309 --> 00:41:58,000
where everybody shares a piece of the

1127
00:42:01,910 --> 00:42:00,319
pie but also based upon something that

1128
00:42:04,309 --> 00:42:01,920
everybody has access to we're able to

1129
00:42:07,030 --> 00:42:04,319
come up with minting which essentially

1130
00:42:08,630 --> 00:42:07,040
is our own consensus model that

1131
00:42:10,870 --> 00:42:08,640
basically just tracks the amount of time

1132
00:42:13,270 --> 00:42:10,880
that you are running your own node

1133
00:42:15,510 --> 00:42:13,280
supporting the network so simple think

1134
00:42:17,589 --> 00:42:15,520
of it as like a bittorrent right a bit

1135
00:42:20,390 --> 00:42:17,599
torrent traditionally you put the

1136
00:42:21,910 --> 00:42:20,400
software on your computer and you start

1137
00:42:24,390 --> 00:42:21,920
essentially supporting

1138
00:42:25,829 --> 00:42:24,400

bits of everybody's data that's all

1139

00:42:28,390 --> 00:42:25,839

essentially we're doing but with a

1140

00:42:31,589 --> 00:42:28,400

blockchain attached and the blockchain

1141

00:42:33,109 --> 00:42:31,599

allows for the universal

1142

00:42:35,990 --> 00:42:33,119

transparent

1143

00:42:37,829 --> 00:42:36,000

ledger that is built in time just like

1144

00:42:39,190 --> 00:42:37,839

the bitcoin blockchain however the

1145

00:42:40,870 --> 00:42:39,200

difference being that unlike

1146

00:42:42,390 --> 00:42:40,880

proof-of-work where you're competing

1147

00:42:44,790 --> 00:42:42,400

with computers

1148

00:42:46,790 --> 00:42:44,800

to get the prize right the coin when you

1149

00:42:49,190 --> 00:42:46,800

quote unquote win a block

1150

00:42:50,790 --> 00:42:49,200

this is just everybody's pulling in all

1151
00:42:52,710 --> 00:42:50,800
together we're all in this together

1152
00:42:54,470 --> 00:42:52,720
we're collaborating together and every

1153
00:42:57,349 --> 00:42:54,480
minute that we have minute blocks

1154
00:42:59,670 --> 00:42:57,359
everybody shares a piece of the pie

1155
00:43:01,349 --> 00:42:59,680
so everybody in every minute based upon

1156
00:43:03,030 --> 00:43:01,359
how many users there are how many full

1157
00:43:04,950 --> 00:43:03,040
nodes are running

1158
00:43:06,790 --> 00:43:04,960
there is a specific block reward that

1159
00:43:08,150 --> 00:43:06,800
comes out and gets split across the

1160
00:43:10,470 --> 00:43:08,160
entire board

1161
00:43:11,510 --> 00:43:10,480
so what we did is we essentially were

1162
00:43:13,430 --> 00:43:11,520
able to

1163
00:43:15,349 --> 00:43:13,440

one of the big problems with bitcoin is

1164

00:43:17,030 --> 00:43:15,359

the bitcoin mining pools that have taken

1165

00:43:18,710 --> 00:43:17,040

over where they're taking everyone's

1166

00:43:21,270 --> 00:43:18,720

little bit of hashing power right and

1167

00:43:23,190 --> 00:43:21,280

spreading the block reward amongst that

1168

00:43:25,270 --> 00:43:23,200

pool members we said well we'll just

1169

00:43:27,349 --> 00:43:25,280

make one big pool and then everybody

1170

00:43:29,190 --> 00:43:27,359

shares and then of course we do have the

1171

00:43:31,510 --> 00:43:29,200

leveling system which we can talk about

1172

00:43:33,910 --> 00:43:31,520

which gives a sense of authority based

1173

00:43:35,910 --> 00:43:33,920

upon how much time and how much

1174

00:43:38,230 --> 00:43:35,920

basically you've given time wise to the

1175

00:43:40,309 --> 00:43:38,240

network and that allows for not only

1176
00:43:42,870 --> 00:43:40,319
further rewards but also voting and

1177
00:43:46,150 --> 00:43:42,880
opens up a whole amazing

1178
00:43:48,230 --> 00:43:46,160
opportunity for us to be agile and

1179
00:43:50,950 --> 00:43:48,240
creative in the ways that we can upgrade

1180
00:43:53,430 --> 00:43:50,960
the system depending on what trials and

1181
00:43:56,309 --> 00:43:53,440
tribulations come ahead so unlike

1182
00:43:58,790 --> 00:43:56,319
bitcoin that relies upon the miners to

1183
00:44:00,870 --> 00:43:58,800
make these decisions on the future of

1184
00:44:02,630 --> 00:44:00,880
the protocol this is actually done

1185
00:44:03,829 --> 00:44:02,640
through a much more egalitarian voting

1186
00:44:07,670 --> 00:44:03,839
method

1187
00:44:10,390 --> 00:44:07,680
that still also does honor those leaders

1188
00:44:11,589 --> 00:44:10,400

who started it the elders if you will

1189

00:44:13,270 --> 00:44:11,599

who are

1190

00:44:14,950 --> 00:44:13,280

higher levels based upon the amount of

1191

00:44:17,829 --> 00:44:14,960

time they put in it so it's not just

1192

00:44:20,309 --> 00:44:17,839

pure democracy mob rule it's based kind

1193

00:44:21,030 --> 00:44:20,319

of more on a model of republic if you

1194

00:44:23,430 --> 00:44:21,040

will

1195

00:44:25,270 --> 00:44:23,440

where those who have put more time that

1196

00:44:27,349 --> 00:44:25,280

are more knowledgeable have a little bit

1197

00:44:29,510 --> 00:44:27,359

more weight on the voting

1198

00:44:32,390 --> 00:44:29,520

so that in essence is kind of what we

1199

00:44:34,390 --> 00:44:32,400

developed it's a lot more to it but it's

1200

00:44:36,390 --> 00:44:34,400

fun anybody can jump in right now and

1201

00:44:38,870 --> 00:44:36,400

once you've proven yourself

1202

00:44:41,109 --> 00:44:38,880

over 7 200 blocks or that's about five

1203

00:44:43,430 --> 00:44:41,119

days of running the blockchain you get

1204

00:44:45,190 --> 00:44:43,440

sponsored by someone who's level five or

1205

00:44:47,510 --> 00:44:45,200

above it's kind of a little protection

1206

00:44:49,030 --> 00:44:47,520

mechanism so you need to find an elder

1207

00:44:52,550 --> 00:44:49,040

who will allow you to come into the

1208

00:44:53,910 --> 00:44:52,560

tribe and it's very easy to do basically

1209

00:44:56,550 --> 00:44:53,920

you just prove you're a real human being

1210

00:44:59,750 --> 00:44:56,560

and that you want to be a part and then

1211

00:45:01,589 --> 00:44:59,760

you run the node your node for 7 200

1212

00:45:04,309 --> 00:45:01,599

blocks and then you hit level one and

1213

00:45:06,470 --> 00:45:04,319

then every minute you start earning coin

1214

00:45:08,309 --> 00:45:06,480

and you can take part in the beautiful

1215

00:45:10,950 --> 00:45:08,319

thing that is quartal

1216

00:45:13,270 --> 00:45:10,960

yes yes that is a great summary and of

1217

00:45:15,829 --> 00:45:13,280

course it's not all about getting rich

1218

00:45:19,190 --> 00:45:15,839

but when someone minds bitcoin they're

1219

00:45:22,069 --> 00:45:19,200

in it for the reward which is that token

1220

00:45:24,230 --> 00:45:22,079

and quartal uses the court token i know

1221

00:45:27,589 --> 00:45:24,240

your liquidity pairs right now are

1222

00:45:31,030 --> 00:45:27,599

litecoin and doge and court trades at

1223

00:45:34,390 --> 00:45:31,040

about a dollar 46

1224

00:45:37,030 --> 00:45:34,400

according to your decentralized exchange

1225

00:45:40,309 --> 00:45:37,040

platform and you have people running

1226

00:45:42,550 --> 00:45:40,319

their nodes and building up 30 40 even a

1227

00:45:43,510 --> 00:45:42,560

hundred thousand court

1228

00:45:45,510 --> 00:45:43,520

and

1229

00:45:48,230 --> 00:45:45,520

not that this is just about money but

1230

00:45:49,990 --> 00:45:48,240

that sounds like real money man and i'm

1231

00:45:51,510 --> 00:45:50,000

still trying to work out

1232

00:45:54,550 --> 00:45:51,520

how this all

1233

00:45:57,750 --> 00:45:54,560

would play out for a newbie because it

1234

00:46:01,349 --> 00:45:57,760

seems like level one would receive five

1235

00:46:02,710 --> 00:46:01,359

percent of the block rewards and

1236

00:46:05,910 --> 00:46:02,720

you said

1237

00:46:10,230 --> 00:46:05,920

7 200 blocks takes about five days so

1238

00:46:12,309 --> 00:46:10,240

dividing that down it's like 1440 a day

1239

00:46:15,270 --> 00:46:12,319

uh it's just it starts to get kind of

1240

00:46:18,069 --> 00:46:15,280

complicated but i was unsure how much

1241

00:46:20,870 --> 00:46:18,079

court is distributed per block

1242

00:46:24,550 --> 00:46:20,880

and just what sort of court yield would

1243

00:46:26,630 --> 00:46:24,560

a level one person see in say a 30-day

1244

00:46:29,030 --> 00:46:26,640

period just for running a node on their

1245

00:46:30,790 --> 00:46:29,040

pc consistently

1246

00:46:33,030 --> 00:46:30,800

yeah that's a great question and of

1247

00:46:34,870 --> 00:46:33,040

course there's a lot of factors that

1248

00:46:37,349 --> 00:46:34,880

play because it depends on how many

1249

00:46:39,109 --> 00:46:37,359

nodes are running at the same time and

1250

00:46:42,630 --> 00:46:39,119

this is really built upon the network

1251
00:46:45,030 --> 00:46:42,640
effect so the beauty of the abundance

1252
00:46:47,190 --> 00:46:45,040
model the sharing model is that

1253
00:46:48,870 --> 00:46:47,200
the ideally here and another note you

1254
00:46:52,230 --> 00:46:48,880
kind of mentioned briefly greg is that

1255
00:46:53,670 --> 00:46:52,240
we are not on any centralized exchanges

1256
00:46:56,150 --> 00:46:53,680
the only way that you can get into

1257
00:46:58,790 --> 00:46:56,160
chordal is either by minting or by

1258
00:47:01,430 --> 00:46:58,800
coming in with currently doge or

1259
00:47:03,349 --> 00:47:01,440
litecoin we will be adding other

1260
00:47:05,670 --> 00:47:03,359
projects that we see are decentralized

1261
00:47:09,349 --> 00:47:05,680
enough to bring in so

1262
00:47:11,109 --> 00:47:09,359
ravencoin digibyte our other partner

1263
00:47:12,550 --> 00:47:11,119

that we're really aligned with is pirate

1264

00:47:15,109 --> 00:47:12,560

chain if you're familiar with them which

1265

00:47:17,270 --> 00:47:15,119

is a wonderful privacy coin

1266

00:47:18,470 --> 00:47:17,280

and so we are working with

1267

00:47:19,270 --> 00:47:18,480

monero

1268

00:47:21,190 --> 00:47:19,280

and

1269

00:47:24,790 --> 00:47:21,200

pirate chain to bring them in to give

1270

00:47:28,069 --> 00:47:24,800

some privacy options as well but yeah if

1271

00:47:29,750 --> 00:47:28,079

you go to the chordal wiki it has all

1272

00:47:33,190 --> 00:47:29,760

that information you can look at the

1273

00:47:37,030 --> 00:47:33,200

reward structure and how that works

1274

00:47:39,109 --> 00:47:37,040

now chordal has been around we've been

1275

00:47:41,510 --> 00:47:39,119

we will be going on a year and a half

1276

00:47:44,710 --> 00:47:41,520

two years now almost of running the

1277

00:47:46,150 --> 00:47:44,720

blockchain and the founders we did not

1278

00:47:47,990 --> 00:47:46,160

pre-mine anything there was no

1279

00:47:49,109 --> 00:47:48,000

pre-minting you you basically started

1280

00:47:51,109 --> 00:47:49,119

day one

1281

00:47:52,790 --> 00:47:51,119

and those who were running nodes were

1282

00:47:55,510 --> 00:47:52,800

getting a bigger piece of the pie

1283

00:47:57,190 --> 00:47:55,520

because they were early adopters so

1284

00:47:59,349 --> 00:47:57,200

that's why you're seeing some of those

1285

00:48:01,109 --> 00:47:59,359

larger coin holders

1286

00:48:04,870 --> 00:48:01,119

able to put those buys out and those

1287

00:48:06,470 --> 00:48:04,880

cells out because they were early on but

1288

00:48:08,470 --> 00:48:06,480

i want to be very clear there was no

1289

00:48:10,390 --> 00:48:08,480

pre-mine or anything it's like a proof

1290

00:48:11,750 --> 00:48:10,400

of work in a sense we had a genesis

1291

00:48:13,270 --> 00:48:11,760

block and then everybody was able to

1292

00:48:15,829 --> 00:48:13,280

join the network and start sharing in

1293

00:48:18,710 --> 00:48:15,839

the rewards every minute but if you go

1294

00:48:20,390 --> 00:48:18,720

to the chordal wiki page and you look at

1295

00:48:21,829 --> 00:48:20,400

the minting overview

1296

00:48:24,150 --> 00:48:21,839

they have the block rewards and

1297

00:48:27,349 --> 00:48:24,160

distribution laid out there

1298

00:48:29,030 --> 00:48:27,359

and so it does depend upon like how many

1299

00:48:30,870 --> 00:48:29,040

nodes are running and we're getting you

1300

00:48:33,190 --> 00:48:30,880

know we have more full nodes running on

1301

00:48:34,950 --> 00:48:33,200

our network than litecoin does now

1302

00:48:37,270 --> 00:48:34,960

which is pretty fascinating considering

1303

00:48:38,790 --> 00:48:37,280

how much of a legacy blockchain that is

1304

00:48:40,630 --> 00:48:38,800

and kind of worrying if you start to

1305

00:48:42,309 --> 00:48:40,640

think about it in terms of something as

1306

00:48:43,589 --> 00:48:42,319

big as litecoin

1307

00:48:45,910 --> 00:48:43,599

but

1308

00:48:47,750 --> 00:48:45,920

the way it works is like and this is a

1309

00:48:49,750 --> 00:48:47,760

great question and i'm probably not the

1310

00:48:52,710 --> 00:48:49,760

best person to ask and i think i would

1311

00:48:54,470 --> 00:48:52,720

love for you to have jason crowe on

1312

00:48:55,910 --> 00:48:54,480

he is really the technologist and the

1313

00:48:57,589 --> 00:48:55,920

person who

1314

00:48:59,829 --> 00:48:57,599

really was like the guy who brought this

1315

00:49:02,470 --> 00:48:59,839

all together with the coders and he's

1316

00:49:04,790 --> 00:49:02,480

much more knowledgeable about how those

1317

00:49:08,150 --> 00:49:04,800

rewards would work in terms of

1318

00:49:10,309 --> 00:49:08,160

practicalities but i would say

1319

00:49:12,470 --> 00:49:10,319

in a month's time considering my

1320

00:49:14,790 --> 00:49:12,480

eight-year-old is doing it

1321

00:49:18,230 --> 00:49:14,800

just from practicality from what he's

1322

00:49:19,670 --> 00:49:18,240

seen he's earned only about i would say

1323

00:49:20,710 --> 00:49:19,680

five or six

1324

00:49:22,790 --> 00:49:20,720

coin

1325

00:49:25,109 --> 00:49:22,800

court in that month's time

1326

00:49:28,069 --> 00:49:25,119

so it's not a ton

1327

00:49:30,790 --> 00:49:28,079

however the idea here is

1328

00:49:33,190 --> 00:49:30,800

with the network effect we're looking i

1329

00:49:36,390 --> 00:49:33,200

mean ideally what i'm looking at is

1330

00:49:38,150 --> 00:49:36,400

court hitting going from a dollar ten to

1331

00:49:40,870 --> 00:49:38,160

exponential growth for the next year to

1332

00:49:42,630 --> 00:49:40,880

hitting easily 10 to 15 dollars a coin

1333

00:49:44,790 --> 00:49:42,640

by next summer

1334

00:49:46,710 --> 00:49:44,800

i think with the way crypto's going i

1335

00:49:49,190 --> 00:49:46,720

wouldn't be surprised if it starts to

1336

00:49:51,190 --> 00:49:49,200

hit a hundred dollars a coin within

1337

00:49:52,950 --> 00:49:51,200

a little over a year with the way the

1338

00:49:54,870 --> 00:49:52,960

model is working so

1339

00:49:56,710 --> 00:49:54,880

it's an amazing way to get in right now

1340

00:49:58,710 --> 00:49:56,720

and we know how crypto works

1341

00:50:01,030 --> 00:49:58,720

with how the centralized markets work

1342

00:50:03,030 --> 00:50:01,040

with the pump and up schemes and and all

1343

00:50:05,190 --> 00:50:03,040

of those ploys we've tried to stay out

1344

00:50:07,990 --> 00:50:05,200

of that as much as we can we're not into

1345

00:50:10,710 --> 00:50:08,000

the casino crypto racket we're really

1346

00:50:12,950 --> 00:50:10,720

all about adoption we're about utility

1347

00:50:14,950 --> 00:50:12,960

so in the end the court coin is really

1348

00:50:17,589 --> 00:50:14,960

just a utility coin

1349

00:50:19,510 --> 00:50:17,599

it'll be used for the services and then

1350

00:50:21,990 --> 00:50:19,520

down the line we will launch the ability

1351
00:50:24,150 --> 00:50:22,000
to create assets and so that those who

1352
00:50:27,349 --> 00:50:24,160
want to develop new economic models a

1353
00:50:29,670 --> 00:50:27,359
new kind of unique methodologies for how

1354
00:50:30,630 --> 00:50:29,680
economies can work we can do that all on

1355
00:50:31,670 --> 00:50:30,640
chordal

1356
00:50:33,430 --> 00:50:31,680
so

1357
00:50:34,870 --> 00:50:33,440
you know if you wanted to even i know a

1358
00:50:36,950 --> 00:50:34,880
lot of projects do this but if you

1359
00:50:39,270 --> 00:50:36,960
wanted to you know put out the higher

1360
00:50:41,430 --> 00:50:39,280
side chat coin you could easily do that

1361
00:50:44,309 --> 00:50:41,440
as an asset and then it would still be

1362
00:50:46,549 --> 00:50:44,319
based on the proof of time model

1363
00:50:48,710 --> 00:50:46,559

however we will allow though down the

1364

00:50:51,109 --> 00:50:48,720

line like for instance i'm working on a

1365

00:50:52,390 --> 00:50:51,119

proof of experience model that would use

1366

00:50:55,190 --> 00:50:52,400

the court

1367

00:50:56,870 --> 00:50:55,200

sub architecture in terms of the hosting

1368

00:50:59,349 --> 00:50:56,880

and the data hosting

1369

00:51:02,390 --> 00:50:59,359

as the substructure but then have a kind

1370

00:51:04,630 --> 00:51:02,400

of a different consensus algo on top of

1371

00:51:08,230 --> 00:51:04,640

that in terms of an actual economic

1372

00:51:10,549 --> 00:51:08,240

model built upon sharing experiences

1373

00:51:13,510 --> 00:51:10,559

so exciting stuff really this will be

1374

00:51:15,670 --> 00:51:13,520

the sub-level layer of the data hosting

1375

00:51:17,270 --> 00:51:15,680

and the web hosting

1376
00:51:19,990 --> 00:51:17,280
and one other thing that's really unique

1377
00:51:23,349 --> 00:51:20,000
about chordal 2 is you

1378
00:51:24,790 --> 00:51:23,359
define your own name to your single

1379
00:51:26,710 --> 00:51:24,800
public address now you can create as

1380
00:51:28,630 --> 00:51:26,720
many accounts as you want as many

1381
00:51:30,630 --> 00:51:28,640
addresses as you want but your one

1382
00:51:32,950 --> 00:51:30,640
account basically there's one public

1383
00:51:34,790 --> 00:51:32,960
address per account and then there you

1384
00:51:38,069 --> 00:51:34,800
can register a name and that name will

1385
00:51:39,990 --> 00:51:38,079
be individually unique on the blockchain

1386
00:51:41,670 --> 00:51:40,000
and that is going to be the hosts the

1387
00:51:42,870 --> 00:51:41,680
host names the domain names of the

1388
00:51:45,030 --> 00:51:42,880

future

1389

00:51:48,150 --> 00:51:45,040

so very exciting because we are

1390

00:51:50,230 --> 00:51:48,160

basically taking out the icann

1391

00:51:51,990 --> 00:51:50,240

centralized model that we know during

1392

00:51:53,109 --> 00:51:52,000

the obama administration was given to

1393

00:51:55,190 --> 00:51:53,119

the un

1394

00:51:57,030 --> 00:51:55,200

which is a huge choke point for the

1395

00:51:59,030 --> 00:51:57,040

future for free speech on the

1396

00:51:59,910 --> 00:51:59,040

traditional internet

1397

00:52:02,390 --> 00:51:59,920

yes

1398

00:52:04,470 --> 00:52:02,400

very exciting stuff probably a little

1399

00:52:06,630 --> 00:52:04,480

dense for some people in this audience

1400

00:52:08,230 --> 00:52:06,640

but it's a wide net of people that

1401
00:52:09,750 --> 00:52:08,240
listen to the show and i'm sure some are

1402
00:52:10,950 --> 00:52:09,760
onto this stuff

1403
00:52:13,190 --> 00:52:10,960
you can be

1404
00:52:16,069 --> 00:52:13,200
scared of it and skeptical of it but

1405
00:52:18,470 --> 00:52:16,079
this crypto thing is happening and just

1406
00:52:21,190 --> 00:52:18,480
like the internet happened if you had

1407
00:52:23,510 --> 00:52:21,200
paid better attention to the

1408
00:52:25,829 --> 00:52:23,520
first steps of that technology you

1409
00:52:27,990 --> 00:52:25,839
probably would be retired right now and

1410
00:52:31,030 --> 00:52:28,000
i think the same can be said for crypto

1411
00:52:33,270 --> 00:52:31,040
and not every project has a nefarious

1412
00:52:35,030 --> 00:52:33,280
intention in fact most of them don't the

1413
00:52:37,990 --> 00:52:35,040

ones that have

1414

00:52:40,870 --> 00:52:38,000

kind of uh sketchy funding and get the

1415

00:52:43,829 --> 00:52:40,880

most publicity maybe do but you can dig

1416

00:52:46,470 --> 00:52:43,839

beyond those projects even the nft space

1417

00:52:49,430 --> 00:52:46,480

is very interesting the

1418

00:52:50,790 --> 00:52:49,440

criticism of the nft space is oh people

1419

00:52:52,790 --> 00:52:50,800

are just paying a hundred thousand

1420

00:52:55,349 --> 00:52:52,800

dollars for a piece of digital art well

1421

00:52:58,069 --> 00:52:55,359

if you dig deeper that digital art

1422

00:53:00,230 --> 00:52:58,079

actually gives you a ticket to a private

1423

00:53:02,710 --> 00:53:00,240

community that does distribute a coin in

1424

00:53:05,510 --> 00:53:02,720

most cases and that coin can then be

1425

00:53:08,230 --> 00:53:05,520

converted to fiat and so in some

1426
00:53:09,829 --> 00:53:08,240
situations owning this quote-unquote

1427
00:53:12,470 --> 00:53:09,839
piece of digital art

1428
00:53:14,630 --> 00:53:12,480
actually is more like a money printer of

1429
00:53:17,270 --> 00:53:14,640
digital currency and the reason why

1430
00:53:19,829 --> 00:53:17,280
they're selling for a million dollars is

1431
00:53:21,750 --> 00:53:19,839
because they generate say

1432
00:53:24,230 --> 00:53:21,760
two thousand dollars a month so if you

1433
00:53:26,549 --> 00:53:24,240
have something that generates you two

1434
00:53:28,470 --> 00:53:26,559
thousand dollars of income a month what

1435
00:53:30,630 --> 00:53:28,480
price would you put on it because i'd

1436
00:53:32,069 --> 00:53:30,640
probably say a pretty high price and

1437
00:53:34,309 --> 00:53:32,079
that's the issue

1438
00:53:36,549 --> 00:53:34,319

and they're never telling you that on

1439

00:53:37,990 --> 00:53:36,559

television when stephen colbert decides

1440

00:53:40,150 --> 00:53:38,000

to on

1441

00:53:41,750 --> 00:53:40,160

crypto and nfts they don't mention that

1442

00:53:43,910 --> 00:53:41,760

part that a lot of people are finding

1443

00:53:45,430 --> 00:53:43,920

financial independence through this i

1444

00:53:47,349 --> 00:53:45,440

get pretty jazzed up about it i don't

1445

00:53:48,870 --> 00:53:47,359

feel like it really fits with thc all

1446

00:53:50,790 --> 00:53:48,880

that much so i kind of just keep it to

1447

00:53:52,630 --> 00:53:50,800

myself but

1448

00:53:55,109 --> 00:53:52,640

you mentioned the host names of the

1449

00:53:56,630 --> 00:53:55,119

future and this is an area i wanted to

1450

00:53:58,790 --> 00:53:56,640

talk to you about because i know it is

1451
00:54:01,829 --> 00:53:58,800
in chordal's future plans to implement

1452
00:54:04,549 --> 00:54:01,839
web hosting and there are a few projects

1453
00:54:07,829 --> 00:54:04,559
trying to do this and it's all very new

1454
00:54:09,030 --> 00:54:07,839
but a decentralized internet is very

1455
00:54:11,510 --> 00:54:09,040
important to

1456
00:54:13,349 --> 00:54:11,520
someone who hosts a podcast like mine

1457
00:54:15,030 --> 00:54:13,359
but the details are still pretty fuzzy

1458
00:54:17,190 --> 00:54:15,040
i'm curious

1459
00:54:20,309 --> 00:54:17,200
in some cases would this still be able

1460
00:54:22,630 --> 00:54:20,319
to use a dot-com url could it still be a

1461
00:54:24,950 --> 00:54:22,640
wordpress-based website i mean i've

1462
00:54:26,950 --> 00:54:24,960
changed hosting providers several times

1463
00:54:29,750 --> 00:54:26,960

over the years but what are the major

1464

00:54:32,069 --> 00:54:29,760

differences in blockchain based hosting

1465

00:54:34,309 --> 00:54:32,079

and how different it has to be does it

1466

00:54:36,630 --> 00:54:34,319

plug into the conventional internet or

1467

00:54:38,870 --> 00:54:36,640

is it really its own thing

1468

00:54:40,789 --> 00:54:38,880

yes great great question and and just as

1469

00:54:43,430 --> 00:54:40,799

a side to your

1470

00:54:46,630 --> 00:54:43,440

comment on the nft space and everything

1471

00:54:48,870 --> 00:54:46,640

it's all about consensus understanding

1472

00:54:50,950 --> 00:54:48,880

as a community what something of value

1473

00:54:53,349 --> 00:54:50,960

is and if everybody comes to consensus

1474

00:54:55,670 --> 00:54:53,359

on something that's all money is we came

1475

00:54:59,109 --> 00:54:55,680

to consensus that gold had value because

1476

00:55:02,150 --> 00:54:59,119

it was scarce and it lasts forever and

1477

00:55:05,589 --> 00:55:02,160

so we use that as a foundational metric

1478

00:55:07,990 --> 00:55:05,599

to underscore value of exchange and the

1479

00:55:10,549 --> 00:55:08,000

nft space people as long as it's

1480

00:55:13,109 --> 00:55:10,559

transparent and truly decentralized and

1481

00:55:15,990 --> 00:55:13,119

also immutable which is the beauty of

1482

00:55:17,829 --> 00:55:16,000

blockchain then i don't really care

1483

00:55:21,109 --> 00:55:17,839

if people are coming to consensus that

1484

00:55:23,589 --> 00:55:21,119

jelly beans digital jelly beans that

1485

00:55:24,710 --> 00:55:23,599

are set in specific parameters by code

1486

00:55:26,549 --> 00:55:24,720

and that are done in a way that are

1487

00:55:28,390 --> 00:55:26,559

decentralized and they're transparent

1488

00:55:30,069 --> 00:55:28,400

once again and immutable

1489

00:55:32,789 --> 00:55:30,079

then go for it

1490

00:55:35,270 --> 00:55:32,799

i also find it really exciting that like

1491

00:55:37,190 --> 00:55:35,280

this is being tied to hard assets like

1492

00:55:39,670 --> 00:55:37,200

art like banksy's art he's you know

1493

00:55:41,750 --> 00:55:39,680

breaking that into pieces and people can

1494

00:55:43,589 --> 00:55:41,760

own and have equity in through a

1495

00:55:45,750 --> 00:55:43,599

tokenization so

1496

00:55:48,150 --> 00:55:45,760

yes there is so much exciting stuff in

1497

00:55:49,670 --> 00:55:48,160

this space but i will stress it needs to

1498

00:55:51,510 --> 00:55:49,680

be decentralized

1499

00:55:53,510 --> 00:55:51,520

now that being said

1500

00:55:55,190 --> 00:55:53,520

in terms of your question about the

1501
00:55:57,829 --> 00:55:55,200
hosting and the internet

1502
00:56:00,309 --> 00:55:57,839
we must be very clear here blockchain is

1503
00:56:01,190 --> 00:56:00,319
not ideal for handling large amounts of

1504
00:56:04,710 --> 00:56:01,200
data

1505
00:56:07,030 --> 00:56:04,720
but blockchain is really good for

1506
00:56:09,510 --> 00:56:07,040
keeping that transparent immutable

1507
00:56:13,190 --> 00:56:09,520
ledger and so if we do this in the right

1508
00:56:15,589 --> 00:56:13,200
way which i vision cordle doing i think

1509
00:56:17,910 --> 00:56:15,599
we can really fix a lot of the problems

1510
00:56:21,430 --> 00:56:17,920
we have with censorship with the

1511
00:56:23,670 --> 00:56:21,440
problems with the centralization of isps

1512
00:56:25,430 --> 00:56:23,680
and we'll get into isps in a second but

1513
00:56:27,750 --> 00:56:25,440

in the hosting companies and the domain

1514

00:56:29,910 --> 00:56:27,760

providers coming in i have friends that

1515

00:56:31,349 --> 00:56:29,920

have had lost their websites because

1516

00:56:33,990 --> 00:56:31,359

literally the hosting company didn't

1517

00:56:36,710 --> 00:56:34,000

like what they were putting out there so

1518

00:56:38,870 --> 00:56:36,720

how does this work with chordal

1519

00:56:40,390 --> 00:56:38,880

essentially very similar to like a

1520

00:56:42,789 --> 00:56:40,400

bittorrent

1521

00:56:47,030 --> 00:56:42,799

where you will basically be able to run

1522

00:56:49,589 --> 00:56:47,040

a node that will have ability to

1523

00:56:52,470 --> 00:56:49,599

spread and share the bits of the data

1524

00:56:54,630 --> 00:56:52,480

across the entire network that is done

1525

00:56:56,150 --> 00:56:54,640

not on a blockchain that is done on a

1526

00:56:57,670 --> 00:56:56,160

more traditional

1527

00:56:59,990 --> 00:56:57,680

sort of technology that something like

1528

00:57:02,150 --> 00:57:00,000

bittorrent would use however the

1529

00:57:03,190 --> 00:57:02,160

blockchain is extremely important

1530

00:57:05,190 --> 00:57:03,200

because

1531

00:57:08,710 --> 00:57:05,200

in essence the time stamping the

1532

00:57:11,750 --> 00:57:08,720

authority the name like we mentioned

1533

00:57:14,150 --> 00:57:11,760

that is set in stone and basically

1534

00:57:17,030 --> 00:57:14,160

provides authorship and authority and

1535

00:57:20,309 --> 00:57:17,040

ownership in a way that is immutable

1536

00:57:21,829 --> 00:57:20,319

transparent and decentralized so it's

1537

00:57:23,430 --> 00:57:21,839

kind of might be hard for some people to

1538

00:57:25,750 --> 00:57:23,440

wrap their head around

1539

00:57:26,950 --> 00:57:25,760

oh and also the economic model right the

1540

00:57:28,150 --> 00:57:26,960

ability to

1541

00:57:31,349 --> 00:57:28,160

be able to

1542

00:57:32,630 --> 00:57:31,359

make a living off it is important so

1543

00:57:34,950 --> 00:57:32,640

that being said

1544

00:57:37,190 --> 00:57:34,960

yes you will be able to

1545

00:57:39,109 --> 00:57:37,200

patch in the legacy system it's just a

1546

00:57:41,750 --> 00:57:39,119

question of how centralized you want to

1547

00:57:43,750 --> 00:57:41,760

play so you can

1548

00:57:45,349 --> 00:57:43,760

with chordal which we're only a month

1549

00:57:47,829 --> 00:57:45,359

and a half away from launching which is

1550

00:57:50,150 --> 00:57:47,839

very very exciting you will be able to

1551
00:57:51,990 --> 00:57:50,160
put on the right now to run chordal you

1552
00:57:53,910 --> 00:57:52,000
have to install the chordal node which

1553
00:57:56,390 --> 00:57:53,920
is the core which is running the

1554
00:57:57,829 --> 00:57:56,400
blockchain and then the user interface

1555
00:57:59,349 --> 00:57:57,839
right the software that allows you to

1556
00:58:00,390 --> 00:57:59,359
interact with it without having to know

1557
00:58:02,390 --> 00:58:00,400
code

1558
00:58:03,990 --> 00:58:02,400
once you do that in the user interface

1559
00:58:06,150 --> 00:58:04,000
there will essentially be like a web

1560
00:58:08,390 --> 00:58:06,160
browser in that web browser you'll be

1561
00:58:09,430 --> 00:58:08,400
able to browse everybody's websites that

1562
00:58:11,510 --> 00:58:09,440
are hosted

1563
00:58:13,030 --> 00:58:11,520

using the chordal blockchain

1564

00:58:15,349 --> 00:58:13,040

infrastructure

1565

00:58:17,589 --> 00:58:15,359

that will be able to easily be pull up

1566

00:58:19,589 --> 00:58:17,599

on anyone's name so

1567

00:58:21,430 --> 00:58:19,599

you can have higher side chats on the

1568

00:58:22,710 --> 00:58:21,440

blockchain it'll be the only higher side

1569

00:58:24,950 --> 00:58:22,720

chats

1570

00:58:26,630 --> 00:58:24,960

and people can pull that up and we will

1571

00:58:28,789 --> 00:58:26,640

have we actually already have it built

1572

00:58:31,430 --> 00:58:28,799

in i think it's already been tested a

1573

00:58:33,270 --> 00:58:31,440

wordpress importer so with a click of a

1574

00:58:36,150 --> 00:58:33,280

button you can import your wordpress

1575

00:58:37,750 --> 00:58:36,160

site and the html and the css and the

1576

00:58:39,349 --> 00:58:37,760

javascript all the front end will be

1577

00:58:41,109 --> 00:58:39,359

transferred over and it will be

1578

00:58:45,030 --> 00:58:41,119

interwoven into

1579

00:58:46,470 --> 00:58:45,040

the chordal data service

1580

00:58:49,270 --> 00:58:46,480

and basically

1581

00:58:51,510 --> 00:58:49,280

any basic html blog

1582

00:58:54,870 --> 00:58:51,520

any structure like that for phase one

1583

00:58:57,349 --> 00:58:54,880

can be brought over fairly easily

1584

00:59:00,069 --> 00:58:57,359

if you want to then have a forwarding a

1585

00:59:02,630 --> 00:59:00,079

port forwarding or you know through your

1586

00:59:04,549 --> 00:59:02,640

traditional domain you can do that so

1587

00:59:07,910 --> 00:59:04,559

because this is

1588

00:59:10,150 --> 00:59:07,920

using the layer sockets of the internet

1589

00:59:13,190 --> 00:59:10,160

you can actually use a traditional

1590

00:59:15,990 --> 00:59:13,200

domain forward and forward with even use

1591

00:59:18,470 --> 00:59:16,000

it so it's a pretty domain so someone

1592

00:59:20,870 --> 00:59:18,480

can still go to hiresightchats.com

1593

00:59:22,630 --> 00:59:20,880

it'll then forward to the data layer of

1594

00:59:24,630 --> 00:59:22,640

the chordal network

1595

00:59:27,109 --> 00:59:24,640

you can have it so the user wouldn't

1596

00:59:29,589 --> 00:59:27,119

even really know they were using chordal

1597

00:59:31,829 --> 00:59:29,599

now that is a centralized mechanism you

1598

00:59:34,390 --> 00:59:31,839

are using to allow for users to easily

1599

00:59:35,829 --> 00:59:34,400

access it but that's totally doable

1600

00:59:38,309 --> 00:59:35,839

right out of the gate

1601
00:59:40,789 --> 00:59:38,319
so yes to answer your question you can

1602
00:59:43,750 --> 00:59:40,799
use kind of legacy systems with chordal

1603
00:59:46,309 --> 00:59:43,760
to have still a decentralized back-end

1604
00:59:47,910 --> 00:59:46,319
but allow for the newbie to engage

1605
00:59:50,470 --> 00:59:47,920
without much

1606
00:59:52,549 --> 00:59:50,480
technological discovery

1607
00:59:55,750 --> 00:59:52,559
right on right on well that's a great

1608
00:59:58,069 --> 00:59:55,760
explanation it is important to

1609
00:59:59,750 --> 00:59:58,079
shore up our game if we want to avoid

1610
01:00:01,829 --> 00:59:59,760
the censorship

1611
01:00:04,470 --> 01:00:01,839
crackdown but then also

1612
01:00:06,630 --> 01:00:04,480
we need good usability for people who

1613
01:00:09,589 --> 01:00:06,640

aren't so technical so that's a

1614

01:00:11,910 --> 01:00:09,599

beautiful thing i love it and

1615

01:00:14,470 --> 01:00:11,920

man we have just covered a lot and i had

1616

01:00:17,109 --> 01:00:14,480

a good time doing it we know we can't

1617

01:00:19,270 --> 01:00:17,119

get honest answers from the enslavement

1618

01:00:20,950 --> 01:00:19,280

system so we have to talk these things

1619

01:00:22,630 --> 01:00:20,960

out ourselves with the people who have a

1620

01:00:24,549 --> 01:00:22,640

knack for them so i appreciate the

1621

01:00:26,950 --> 01:00:24,559

insights maybe we should close with a

1622

01:00:29,750 --> 01:00:26,960

bit about music and sky or any of the

1623

01:00:30,870 --> 01:00:29,760

other irons in the mic winter fire tell

1624

01:00:32,390 --> 01:00:30,880

them what they should know about

1625

01:00:34,069 --> 01:00:32,400

following up on the things you have

1626
01:00:37,190 --> 01:00:34,079
going on

1627
01:00:38,150 --> 01:00:37,200
yeah thanks greg so when 2020 hit hard

1628
01:00:39,829 --> 01:00:38,160
and

1629
01:00:42,549 --> 01:00:39,839
we were told we are not allowed to meet

1630
01:00:43,670 --> 01:00:42,559
in person or enjoy life anymore

1631
01:00:45,270 --> 01:00:43,680
one thing a lot of people don't know

1632
01:00:47,670 --> 01:00:45,280
about me is i've been an underground

1633
01:00:49,510 --> 01:00:47,680
house dj going on 20 years

1634
01:00:52,150 --> 01:00:49,520
and it's my favorite thing to do in the

1635
01:00:54,710 --> 01:00:52,160
world i used to play raves and actually

1636
01:00:55,990 --> 01:00:54,720
down in san diego i used to play at off

1637
01:00:58,230 --> 01:00:56,000
broadway i think it's called

1638
01:00:59,990 --> 01:00:58,240

off-broadway or on broadway it was a big

1639

01:01:01,349 --> 01:01:00,000

nightclub down there in the gaslamp

1640

01:01:03,270 --> 01:01:01,359

district

1641

01:01:04,710 --> 01:01:03,280

when that was happening i was like my

1642

01:01:06,069 --> 01:01:04,720

friends hit me up we're like we're gonna

1643

01:01:07,589 --> 01:01:06,079

put on an event

1644

01:01:09,510 --> 01:01:07,599

and we're gonna buck the trend we're

1645

01:01:11,750 --> 01:01:09,520

gonna do it in joshua tree and we want

1646

01:01:14,150 --> 01:01:11,760

it to be all holistic health-minded but

1647

01:01:16,069 --> 01:01:14,160

kind of got that underground house music

1648

01:01:17,270 --> 01:01:16,079

thing going but we're gonna do it and

1649

01:01:19,109 --> 01:01:17,280

people thought we were crazy and we

1650

01:01:21,589 --> 01:01:19,119

called it music and sky it was actually

1651
01:01:23,270 --> 01:01:21,599
kind of an offshoot from a burning man

1652
01:01:25,829 --> 01:01:23,280
decompression party that had been going

1653
01:01:27,910 --> 01:01:25,839
on for about 10 years but we changed it

1654
01:01:30,870 --> 01:01:27,920
we flipped it into a totally holistic

1655
01:01:32,950 --> 01:01:30,880
minded event family event with ice baths

1656
01:01:34,630 --> 01:01:32,960
and meditation and all this great stuff

1657
01:01:37,349 --> 01:01:34,640
that we talked about with alpha vedic

1658
01:01:39,750 --> 01:01:37,359
and so that's now gone two years and we

1659
01:01:42,470 --> 01:01:39,760
now moved it up to the sierras in this

1660
01:01:44,470 --> 01:01:42,480
beautiful location and it's all we have

1661
01:01:46,150 --> 01:01:44,480
speakers like david avocado wolf was

1662
01:01:47,190 --> 01:01:46,160
there rynette cena who's running for

1663
01:01:49,510 --> 01:01:47,200

governor

1664

01:01:52,549 --> 01:01:49,520

all sorts of fantastic characters it has

1665

01:01:54,630 --> 01:01:52,559

a 24 hour live art gallery a children's

1666

01:01:57,270 --> 01:01:54,640

stage now a children's village it's very

1667

01:02:00,069 --> 01:01:57,280

family oriented and it's a 24-hour like

1668

01:02:01,990 --> 01:02:00,079

camping festival it goes for a few days

1669

01:02:03,589 --> 01:02:02,000

and so that is something probably my

1670

01:02:06,549 --> 01:02:03,599

favorite thing of time of the year and

1671

01:02:07,990 --> 01:02:06,559

we do that typically may june

1672

01:02:10,549 --> 01:02:08,000

last year we did it on the fourth of

1673

01:02:12,069 --> 01:02:10,559

july weekend it was fantastic so that's

1674

01:02:14,069 --> 01:02:12,079

called music and sky and you can check

1675

01:02:16,069 --> 01:02:14,079

that out music and sky dot com and we'll

1676
01:02:17,670 --> 01:02:16,079
be doing it again this year and then we

1677
01:02:19,990 --> 01:02:17,680
take a lot of those talks and we put

1678
01:02:22,309 --> 01:02:20,000
them out on a summit format the first

1679
01:02:24,549 --> 01:02:22,319
one was called reunion summit which i do

1680
01:02:27,270 --> 01:02:24,559
with josh del sol who did the 5g summit

1681
01:02:30,309 --> 01:02:27,280
with sayer g from green med info

1682
01:02:32,950 --> 01:02:30,319
and that's now kind of blossomed into

1683
01:02:34,910 --> 01:02:32,960
the event which is happening god next

1684
01:02:37,190 --> 01:02:34,920
week if you go to

1685
01:02:38,470 --> 01:02:37,200
alphabetic.com forward slash the event

1686
01:02:39,510 --> 01:02:38,480
you can find out all the information

1687
01:02:42,069 --> 01:02:39,520
about that

1688
01:02:45,029 --> 01:02:42,079

and so that hopefully will

1689

01:02:46,950 --> 01:02:45,039

spurn people into becoming that natural

1690

01:02:48,870 --> 01:02:46,960

path that you want to see because that's

1691

01:02:51,670 --> 01:02:48,880

what we're pushing we want people to

1692

01:02:53,109 --> 01:02:51,680

start taking on those roles and then of

1693

01:02:55,029 --> 01:02:53,119

course if you're interested in finding

1694

01:02:59,270 --> 01:02:55,039

out more about chordal you can go to

1695

01:03:00,950 --> 01:02:59,280

chordal.org that's q o r t a l dot org

01:03:03,029 --> 01:03:00,960

you can join the network and start

01:03:12,950 --> 01:03:09,760

i go by alpha warrior on the discord and

telegram and then of course alpha vedic

1702
01:03:19,990 --> 01:03:16,480
we have a co-op where people can join us

01:03:25,270 --> 01:03:22,559
or just join us on our monthly calls and

1705
01:03:30,069 --> 01:03:25,280
you can join us there at alphavedic.com

1706
01:03:34,710 --> 01:03:32,470
beautiful well mike you are one of the

1707
01:03:36,870 --> 01:03:34,720
good guys i'm happy to know you thanks

1708
01:03:38,309 --> 01:03:36,880
for doing this tell bear i said hey and

1709
01:03:42,630 --> 01:03:38,319
take care

1710
01:03:47,750 --> 01:03:45,670
yes people mike winner bulletproof tiger

1711
01:03:49,829 --> 01:03:47,760
really enjoyed this one always nice to

1712
01:03:51,190 --> 01:03:49,839
get a fellow podcaster with a quality

1713
01:03:53,349 --> 01:03:51,200

setup on

1714

01:03:55,990 --> 01:03:53,359

and i'm glad we could focus a portion of

1715

01:03:57,670 --> 01:03:56,000

an episode on the positive applications

1716

01:03:59,589 --> 01:03:57,680

of blockchain tech rather than just

1717

01:04:01,349 --> 01:03:59,599

saying crypto bad

1718

01:04:04,470 --> 01:04:01,359

because i don't think that's ever a very

1719

01:04:06,870 --> 01:04:04,480

good approach it's intellectually lazy

1720

01:04:09,029 --> 01:04:06,880

and you can just mentally shut yourself

1721

01:04:11,430 --> 01:04:09,039

off and ignore the massive amount of

1722

01:04:14,390 --> 01:04:11,440

nuance in the crypto world

1723

01:04:17,349 --> 01:04:14,400

or you could resist the temptation for

1724

01:04:18,870 --> 01:04:17,359

simple thinking and go deeper

1725

01:04:20,630 --> 01:04:18,880

you know when i'm interviewed on other

1726

01:04:22,390 --> 01:04:20,640

shows and they want to get into the

1727

01:04:24,950 --> 01:04:22,400

history of the

1728

01:04:27,190 --> 01:04:24,960

i always say it was a hail mary because

1729

01:04:28,710 --> 01:04:27,200

i was in a pretty desperate hail mary

1730

01:04:31,190 --> 01:04:28,720

situation

1731

01:04:35,029 --> 01:04:31,200

while the opportunities in crypto and

1732

01:04:37,029 --> 01:04:35,039

defy and nfts they're there

1733

01:04:38,789 --> 01:04:37,039

and some of them are also hail mary's

1734

01:04:41,349 --> 01:04:38,799

but they are within reach and it just

1735

01:04:42,710 --> 01:04:41,359

takes some time to learn and vet various

1736

01:04:44,630 --> 01:04:42,720

projects

1737

01:04:46,950 --> 01:04:44,640

you could say it's like the stock market

1738

01:04:49,190 --> 01:04:46,960

in that you should put your money into

1739

01:04:51,430 --> 01:04:49,200

things that you believe in and avoid

1740

01:04:53,670 --> 01:04:51,440

weapons manufacturers and vaccine

1741

01:04:54,470 --> 01:04:53,680

manufacturers and maybe that's the same

1742

01:04:56,069 --> 01:04:54,480

thing

1743

01:04:59,029 --> 01:04:56,079

sounded more like it every day but you

1744

01:05:01,910 --> 01:04:59,039

know what i mean nobody says companies

1745

01:05:04,390 --> 01:05:01,920

full stop are blanket bad

1746

01:05:07,670 --> 01:05:04,400

so it's not the worst idea in the world

1747

01:05:10,630 --> 01:05:07,680

to try and propel something like quartal

1748

01:05:12,870 --> 01:05:10,640

and other decentralized projects

1749

01:05:15,270 --> 01:05:12,880

or engage in defy

1750

01:05:17,349 --> 01:05:15,280

which stands for decentralized finance

1751

01:05:19,589 --> 01:05:17,359

something i thought we all wanted

1752

01:05:21,670 --> 01:05:19,599

we have networks and exchanges that have

1753

01:05:23,910 --> 01:05:21,680

harnessed the tools that banks have used

1754

01:05:25,910 --> 01:05:23,920

for years to make money on money and

1755

01:05:28,150 --> 01:05:25,920

they've given access to little old you

1756

01:05:30,390 --> 01:05:28,160

and me to engage with that

1757

01:05:32,150 --> 01:05:30,400

savings accounts that have huge yields

1758

01:05:33,990 --> 01:05:32,160

even on stable coins if you don't like

1759

01:05:35,510 --> 01:05:34,000

the risk of something like bitcoin or

1760

01:05:37,910 --> 01:05:35,520

ethereum

1761

01:05:40,069 --> 01:05:37,920

but blockchain web hosting is super

1762

01:05:42,309 --> 01:05:40,079

exciting to me decentralizing the

1763

01:05:44,470 --> 01:05:42,319

internet itself and having no company

1764

01:05:45,829 --> 01:05:44,480

that can turn off your site

1765

01:05:47,990 --> 01:05:45,839

you can bet i'm going to be watching

1766

01:05:51,190 --> 01:05:48,000

that space and pouncing on it when the

1767

01:05:53,109 --> 01:05:51,200

tech is ready not only is it still a

1768

01:05:55,109 --> 01:05:53,119

little soon for a quartal but even other

1769

01:05:57,430 --> 01:05:55,119

projects are still saying that it's on

1770

01:05:59,029 --> 01:05:57,440

their roadmap down the line

1771

01:06:01,349 --> 01:05:59,039

but i do have some friends that are in

1772

01:06:03,829 --> 01:06:01,359

jobs that they hate

1773

01:06:06,549 --> 01:06:03,839

just trying to get by and they have put

1774

01:06:10,069 --> 01:06:06,559

a thousand or two into a crypto yielding

1775

01:06:12,950 --> 01:06:10,079

account or some kind of liquidity pool

1776

01:06:15,829 --> 01:06:12,960

and they're generating like 50 60 75

1777

01:06:18,069 --> 01:06:15,839

bucks a day whether they're on the clock

1778

01:06:19,589 --> 01:06:18,079

or not and that's the magic of passive

1779

01:06:20,789 --> 01:06:19,599

income and there are opportunities in

1780

01:06:22,309 --> 01:06:20,799

crypto

1781

01:06:24,470 --> 01:06:22,319

just saying

1782

01:06:27,430 --> 01:06:24,480

and here's one example actually of the

1783

01:06:29,829 --> 01:06:27,440

wild west of crypto that

1784

01:06:32,150 --> 01:06:29,839

applies to me but there is a company

1785

01:06:34,230 --> 01:06:32,160

called ethereum name services and they

1786

01:06:36,470 --> 01:06:34,240

sell blockchain domain addresses so that

1787

01:06:38,710 --> 01:06:36,480

your wallet doesn't have to be this big

1788

01:06:40,270 --> 01:06:38,720

long string of letters and numbers

1789

01:06:42,230 --> 01:06:40,280

so i bought the

1790

01:06:43,990 --> 01:06:42,240

highersidechats.eth and made it my

1791

01:06:46,710 --> 01:06:44,000

metamask wallet

1792

01:06:48,390 --> 01:06:46,720

to buy domain is pretty cheap like 40

1793

01:06:50,870 --> 01:06:48,400

bucks or something

1794

01:06:53,430 --> 01:06:50,880

so now if anyone wanted to donate

1795

01:06:55,829 --> 01:06:53,440

ethereum to me or pay for a plus

1796

01:06:58,630 --> 01:06:55,839

membership in ethereum that's all you

1797

01:07:00,870 --> 01:06:58,640

have to know the highersidechats.eth

1798

01:07:03,029 --> 01:07:00,880

and that alone is pretty cool and if i

1799

01:07:05,270 --> 01:07:03,039

was even more forward thinking i should

1800

01:07:08,150 --> 01:07:05,280

have bought up a lot of other ones like

1801
01:07:09,670 --> 01:07:08,160
budweiser now owns beer.eth

1802
01:07:12,710 --> 01:07:09,680
you know i really could have capitalized

1803
01:07:14,950 --> 01:07:12,720
on all of this but the point is

1804
01:07:16,950 --> 01:07:14,960
ens the company decided they wanted to

1805
01:07:19,670 --> 01:07:16,960
launch a token of their own for their

1806
01:07:22,390 --> 01:07:19,680
own ecosystem common thing to do

1807
01:07:24,549 --> 01:07:22,400
and they airdropped the coins to people

1808
01:07:26,549 --> 01:07:24,559
based on the number of dot eth domains

1809
01:07:28,390 --> 01:07:26,559
they hold and how long they've held them

1810
01:07:29,990 --> 01:07:28,400
another reason that i wish i had gotten

1811
01:07:31,670 --> 01:07:30,000
more but there was no way to know this

1812
01:07:34,549 --> 01:07:31,680
at the time

1813
01:07:37,589 --> 01:07:34,559

but on the day of the airdrop i checked

1814

01:07:40,390 --> 01:07:37,599

my wallet and there's a handful of ens

1815

01:07:42,230 --> 01:07:40,400

coins and i checked the value of those

1816

01:07:45,029 --> 01:07:42,240

coins and it was about eight thousand

1817

01:07:47,750 --> 01:07:45,039

dollars so huge win

1818

01:07:50,309 --> 01:07:47,760

i sold off about half right away and

1819

01:07:53,029 --> 01:07:50,319

then the next day the value of the coin

1820

01:07:55,430 --> 01:07:53,039

skyrocketed and i sold the other half

1821

01:07:57,430 --> 01:07:55,440

for about four times that

1822

01:07:58,309 --> 01:07:57,440

so all in all i think it was like

1823

01:08:02,069 --> 01:07:58,319

12

1824

01:08:04,390 --> 01:08:02,079

or 14 000 and all i did was buy a domain

1825

01:08:05,349 --> 01:08:04,400

name for thc trying to be forward

1826

01:08:07,270 --> 01:08:05,359

thinking

1827

01:08:08,870 --> 01:08:07,280

for about 40 bucks

1828

01:08:11,990 --> 01:08:08,880

and i don't really know many other ways

1829

01:08:13,589 --> 01:08:12,000

to just come up on a couple grand

1830

01:08:15,109 --> 01:08:13,599

it definitely never happened for me at

1831

01:08:16,789 --> 01:08:15,119

gamestop

1832

01:08:19,110 --> 01:08:16,799

and it was really helpful because

1833

01:08:21,110 --> 01:08:19,120

getting risked out of the birth center

1834

01:08:24,630 --> 01:08:21,120

and rushed to the hospital and paying

1835

01:08:26,789 --> 01:08:24,640

for all of that and a three-night stay

1836

01:08:29,189 --> 01:08:26,799

well it was an unexpected expense and

1837

01:08:31,030 --> 01:08:29,199

this random airdrop really helped iron

1838

01:08:33,110 --> 01:08:31,040

it out for us

1839

01:08:35,910 --> 01:08:33,120

so yeah this isn't really a financial

1840

01:08:38,470 --> 01:08:35,920

advice podcast but since it was in the

1841

01:08:40,630 --> 01:08:38,480

mix of topics we talked about today

1842

01:08:41,749 --> 01:08:40,640

i would take the opportunity to say to

1843

01:08:44,390 --> 01:08:41,759

you guys

1844

01:08:45,590 --> 01:08:44,400

if you are tech savvy at all

1845

01:08:46,550 --> 01:08:45,600

i would

1846

01:08:47,430 --> 01:08:46,560

learn

1847

01:08:49,269 --> 01:08:47,440

about

1848

01:08:51,990 --> 01:08:49,279

terms like defy

1849

01:08:53,189 --> 01:08:52,000

staking and liquidity pools i would get

1850

01:08:55,430 --> 01:08:53,199

involved

1851

01:08:57,829 --> 01:08:55,440

it's not all about well i missed bitcoin

1852

01:09:00,709 --> 01:08:57,839

so i'm just gonna sit out

1853

01:09:03,189 --> 01:09:00,719

people say it's risky and it's volatile

1854

01:09:05,510 --> 01:09:03,199

well i think living paycheck to paycheck

1855

01:09:07,349 --> 01:09:05,520

is risky and volatile

1856

01:09:09,269 --> 01:09:07,359

i think the inflation and the supply

1857

01:09:10,950 --> 01:09:09,279

chains we're dealing with are risky and

1858

01:09:13,110 --> 01:09:10,960

volatile

1859

01:09:15,349 --> 01:09:13,120

but a lot of people don't have a choice

1860

01:09:17,269 --> 01:09:15,359

and a lot of people who are

1861

01:09:20,149 --> 01:09:17,279

looking for a hail mary are still doing

1862

01:09:22,870 --> 01:09:20,159

things like buying lottery tickets or

1863

01:09:23,829 --> 01:09:22,880

trying to make it come up in casinos on

1864

01:09:26,309 --> 01:09:23,839

some

1865

01:09:28,309 --> 01:09:26,319

slot machine polls and it's like

1866

01:09:31,430 --> 01:09:28,319

well that's definitely

1867

01:09:33,990 --> 01:09:31,440

a tilted advantage against you whereas

1868

01:09:35,910 --> 01:09:34,000

there are many wins in the casino of

1869

01:09:37,910 --> 01:09:35,920

crypto let's say

1870

01:09:39,590 --> 01:09:37,920

and it's sad it's sad that we are in an

1871

01:09:42,630 --> 01:09:39,600

economic position where a lot of people

1872

01:09:45,030 --> 01:09:42,640

have to do really risky hail mary stuff

1873

01:09:47,590 --> 01:09:45,040

to try to have a normal life

1874

01:09:50,789 --> 01:09:47,600

but i can't change the system i can only

1875

01:09:52,550 --> 01:09:50,799

present you with some possibly potential

1876

01:09:55,510 --> 01:09:52,560

come ups if you don't want to start your

1877

01:09:57,430 --> 01:09:55,520

own podcast that's really all i know

1878

01:10:00,390 --> 01:09:57,440

so even like mike was saying with

1879

01:10:01,590 --> 01:10:00,400

quartal maybe you get five court tokens

1880

01:10:05,430 --> 01:10:01,600

a month

1881

01:10:08,070 --> 01:10:05,440

but if that does go up to 50 or 75 or

1882

01:10:09,750 --> 01:10:08,080

100 bucks in value per coin

1883

01:10:11,750 --> 01:10:09,760

now we're talking who couldn't use an

1884

01:10:13,750 --> 01:10:11,760

extra 500 a month

1885

01:10:15,270 --> 01:10:13,760

if you get to level two or three even

1886

01:10:18,149 --> 01:10:15,280

more rewards

1887

01:10:20,709 --> 01:10:18,159

i guess i would say the crypto space is

1888

01:10:22,550 --> 01:10:20,719

full of opportunities and projects like

1889

01:10:25,350 --> 01:10:22,560

chortle that are paying

1890

01:10:27,750 --> 01:10:25,360

their note operators or doing other

1891

01:10:29,990 --> 01:10:27,760

things like air drops

1892

01:10:31,830 --> 01:10:30,000

and these things do stack up even if

1893

01:10:33,830 --> 01:10:31,840

it's not a lot it's still something and

1894

01:10:36,229 --> 01:10:33,840

it's a paradigm shift from the old

1895

01:10:38,149 --> 01:10:36,239

legacy systems that we've criticized so

1896

01:10:40,390 --> 01:10:38,159

much for so long

1897

01:10:43,350 --> 01:10:40,400

if you're interested i would investigate

1898

01:10:45,910 --> 01:10:43,360

exchanges like yearn.finance

1899

01:10:48,870 --> 01:10:45,920

or miyaimar

1900

01:10:51,910 --> 01:10:48,880

dot exchange miyaimar is

1901
01:10:55,430 --> 01:10:53,990
watch some youtube videos conspiracy

1902
01:10:57,270 --> 01:10:55,440
folks definitely know how to do their

1903
01:10:59,189 --> 01:10:57,280
own research right

1904
01:11:01,430 --> 01:10:59,199
my two favorite youtube channels for

1905
01:11:03,270 --> 01:11:01,440
this stuff are altcoin daily and

1906
01:11:05,110 --> 01:11:03,280
whiteboard crypto

1907
01:11:07,750 --> 01:11:05,120
but you do you i'm just throwing it out

1908
01:11:10,229 --> 01:11:07,760
there but i'm also a really big fan of

1909
01:11:11,350 --> 01:11:10,239
bear really loved that episode with dr

1910
01:11:14,229 --> 01:11:11,360
lando

1911
01:11:16,310 --> 01:11:14,239
so to talk to mike about the alpha vedic

1912
01:11:17,830 --> 01:11:16,320
grounds and products was really

1913
01:11:20,550 --> 01:11:17,840

interesting

1914

01:11:22,470 --> 01:11:20,560

a great complement to that previous show

1915

01:11:24,229 --> 01:11:22,480

in the plus portion

1916

01:11:26,149 --> 01:11:24,239

we added quite a few other things that

1917

01:11:28,149 --> 01:11:26,159

i've heard mike talk about a real grab

1918

01:11:30,630 --> 01:11:28,159

bag of various stuff

1919

01:11:32,870 --> 01:11:30,640

like the metaverse the new california

1920

01:11:36,550 --> 01:11:32,880

movement exotic energy and secret

1921

01:11:39,750 --> 01:11:36,560

science antiquitech a really great term

1922

01:11:42,470 --> 01:11:39,760

manipulating the weather with orgone

1923

01:11:45,590 --> 01:11:42,480

re-greening the deserts land patents

1924

01:11:48,229 --> 01:11:45,600

health and bioterrain and energetics

1925

01:11:49,990 --> 01:11:48,239

and watching out for the next scariest

1926

01:11:52,229 --> 01:11:50,000

another good term

1927

01:11:54,070 --> 01:11:52,239

but i did enjoy going back and forth on

1928

01:11:56,310 --> 01:11:54,080

terrain theory as well you know i do

1929

01:11:58,790 --> 01:11:56,320

subscribe to it but i just like to play

1930

01:12:00,390 --> 01:11:58,800

devil's advocate and try to get some of

1931

01:12:03,350 --> 01:12:00,400

those last

1932

01:12:05,270 --> 01:12:03,360

unanswered questions answered

1933

01:12:07,350 --> 01:12:05,280

the thing about viruses as opposed to

1934

01:12:09,270 --> 01:12:07,360

bacteria and parasites is they are much

1935

01:12:10,950 --> 01:12:09,280

smaller and require that electron

1936

01:12:12,709 --> 01:12:10,960

microscope and that's where we get into

1937

01:12:14,870 --> 01:12:12,719

this private club of people who have a

1938

01:12:16,310 --> 01:12:14,880

hundred grand to use the device to see

1939

01:12:17,910 --> 01:12:16,320

the thing

1940

01:12:20,149 --> 01:12:17,920

and it's weird to say that we come in

1941

01:12:22,149 --> 01:12:20,159

contact with millions of viruses a day

1942

01:12:23,990 --> 01:12:22,159

but they can find this one or that one

1943

01:12:26,310 --> 01:12:24,000

that causes illness

1944

01:12:27,910 --> 01:12:26,320

because it's not like the other million

1945

01:12:29,910 --> 01:12:27,920

are mapped out right they don't know

1946

01:12:31,270 --> 01:12:29,920

what a lot of these things do

1947

01:12:33,990 --> 01:12:31,280

if anything

1948

01:12:36,070 --> 01:12:34,000

so where's the periodic table of viruses

1949

01:12:37,750 --> 01:12:36,080

telling us what each one does so that we

1950

01:12:39,510 --> 01:12:37,760

can rule them out when something like

1951

01:12:40,870 --> 01:12:39,520

covet comes along

1952

01:12:43,830 --> 01:12:40,880

you know the whole thing does start to

1953

01:12:46,630 --> 01:12:43,840

fall apart but i also wonder what covet

1954

01:12:47,990 --> 01:12:46,640

is i know it's similar to a flu

1955

01:12:50,790 --> 01:12:48,000

if you're in good health but it is

1956

01:12:52,870 --> 01:12:50,800

different enough and what is the flu

1957

01:12:54,790 --> 01:12:52,880

even is it really just changes in the

1958

01:12:56,390 --> 01:12:54,800

electrical environment

1959

01:12:57,430 --> 01:12:56,400

i don't know i'm compelled by the

1960

01:12:59,830 --> 01:12:57,440

argument

1961

01:13:02,630 --> 01:12:59,840

i'm intrigued by the conversation

1962

01:13:04,390 --> 01:13:02,640

we pick apart pieces like polio and

1963

01:13:06,870 --> 01:13:04,400

vaccine-related diseases but there's

1964

01:13:08,149 --> 01:13:06,880

still a lot more to recontextualize you

1965

01:13:09,750 --> 01:13:08,159

know what i'm saying

1966

01:13:11,990 --> 01:13:09,760

i don't like to just adopt a new

1967

01:13:13,830 --> 01:13:12,000

paradigm whole hog if i still have some

1968

01:13:15,990 --> 01:13:13,840

unanswered questions

1969

01:13:19,350 --> 01:13:16,000

but when people say no one has ever seen

1970

01:13:22,310 --> 01:13:19,360

a virus in action actually in real time

1971

01:13:24,790 --> 01:13:22,320

infecting a cell in a whole person

1972

01:13:26,630 --> 01:13:24,800

i'm pretty sure that is true

1973

01:13:28,870 --> 01:13:26,640

i'm not ready to say pathogens like

1974

01:13:31,350 --> 01:13:28,880

viruses can never make a person sick we

1975

01:13:33,750 --> 01:13:31,360

know bacteria can and parasites can and

1976

01:13:35,830 --> 01:13:33,760

i can't see those either but it's very

1977

01:13:37,750 --> 01:13:35,840

fishy that throughout my whole lifetime

1978

01:13:40,470 --> 01:13:37,760

whenever a large group of people do get

1979

01:13:41,510 --> 01:13:40,480

sick it's always a virus that is the

1980

01:13:43,510 --> 01:13:41,520

answer

1981

01:13:46,310 --> 01:13:43,520

we never look for another cause and

1982

01:13:49,189 --> 01:13:46,320

that's clearly pretty suspicious if

1983

01:13:52,310 --> 01:13:49,199

polio was caused by something like ddt

1984

01:13:54,070 --> 01:13:52,320

or mercury teething powder well

1985

01:13:56,470 --> 01:13:54,080

i remember in my neighborhood growing up

1986

01:13:59,110 --> 01:13:56,480

that they definitely had sent bug

1987

01:14:01,030 --> 01:13:59,120

sprayers around all the time

1988

01:14:02,870 --> 01:14:01,040

what's with all that

1989

01:14:04,790 --> 01:14:02,880

my parents were wise enough to tell me

1990

01:14:07,189 --> 01:14:04,800

to cover my nose and mouth and come back

1991

01:14:08,630 --> 01:14:07,199

home when that truck was out but i know

1992

01:14:10,790 --> 01:14:08,640

people in the neighborhood who would sit

1993

01:14:12,950 --> 01:14:10,800

in the driveway drinking beers with

1994

01:14:14,790 --> 01:14:12,960

other neighbors around a fire pit and

1995

01:14:17,270 --> 01:14:14,800

they didn't clear the area

1996

01:14:19,350 --> 01:14:17,280

they just sat in that stank

1997

01:14:21,590 --> 01:14:19,360

so when they potentially get some nerve

1998

01:14:24,550 --> 01:14:21,600

disorder two years later nobody asks

1999

01:14:26,630 --> 01:14:24,560

what chemicals they were exposed to

2000

01:14:28,630 --> 01:14:26,640

so i am on that page but i just don't

2001

01:14:30,550 --> 01:14:28,640

want to shut down other perspectives i

2002

01:14:33,110 --> 01:14:30,560

want to remain open because

2003

01:14:35,110 --> 01:14:33,120

i think that's what thc is about i'm not

2004

01:14:38,390 --> 01:14:35,120

going to stop the conversation because a

2005

01:14:40,830 --> 01:14:38,400

guest says virus or something like

2006

01:14:43,830 --> 01:14:40,840

around the globe as some people wish i

2007

01:14:46,070 --> 01:14:43,840

would but big thanks to mike the alpha

2008

01:14:48,630 --> 01:14:46,080

cast is one of my favorites out there

2009

01:14:50,950 --> 01:14:48,640

when i need a more positive solution

2010

01:14:53,669 --> 01:14:50,960

based podcast to listen to i definitely

2011

01:14:55,750 --> 01:14:53,679

go and see who they've been having on

2012

01:14:57,030 --> 01:14:55,760

because that's their show's focus for

2013

01:14:59,030 --> 01:14:57,040

the most part

2014

01:15:01,990 --> 01:14:59,040

in higher side news there's a few days

2015

01:15:04,870 --> 01:15:02,000

left on the 50 off gifting subscription

2016

01:15:06,550 --> 01:15:04,880

if you want to give the gift of thc and

2017

01:15:08,630 --> 01:15:06,560

full-blown enlightenment to your friends

2018

01:15:10,630 --> 01:15:08,640

and family you can do that and we've

2019

01:15:12,470 --> 01:15:10,640

also got an offer floating around out

2020

01:15:13,910 --> 01:15:12,480

your move smart city sellers crypto

2041

01:15:58,950 --> 01:15:57,679

co-opters and agents of a sick sick

2042

01:15:59,910 --> 01:15:58,960

system

2043

01:16:01,500 --> 01:15:59,920

your

2044

01:16:04,950 --> 01:16:01,510

mood

2045

01:16:08,070 --> 01:16:04,960

[Music]

2046

01:16:12,070 --> 01:16:08,080

a bunch of sometimes junk

2047

01:16:17,189 --> 01:16:15,110

yeah it's a week and sickly people make

2048

01:16:19,590 --> 01:16:17,199

an industry

2049

01:16:34,390 --> 01:16:19,600

don't tell me

2050

01:16:39,960 --> 01:16:37,590

and i don't have to face it

2051
01:16:50,470 --> 01:16:39,970
that's right

2052
01:16:55,430 --> 01:16:53,430
got an addiction to the digital

2053
01:16:58,470 --> 01:16:55,440
technology

2054
01:17:00,070 --> 01:16:58,480
and every now and then i try to quit and

2055
01:17:02,709 --> 01:17:00,080
leave it be

2056
01:17:07,460 --> 01:17:02,719
but it's too hard to turn it off it's

2057
01:17:08,670 --> 01:17:08,380
[Music]

2058
01:17:45,990 --> 01:17:08,680
[Applause]

2059
01:18:08,630 --> 01:17:49,780
don't tell me

2060
01:18:13,330 --> 01:18:13,320
expanding off the big conspiracy

2061
01:18:25,600 --> 01:18:22,310
[Music]
