00:00:10,490 --> 00:00:07,309  
the planet's popping Masters almost

2  
00:00:12,890 --> 00:00:10,500  
surely have a plan there's clearly may

3  
00:00:15,410 --> 00:00:12,900  
be something there beyond the realm of

4  
00:00:18,890 --> 00:00:15,420  
man and until you thoroughly tested

5  
00:00:21,290 --> 00:00:18,900  
every last Coast just a few I find the

6  
00:00:24,920 --> 00:00:21,300  
more you think you know the less you

7  
00:00:35,209 --> 00:00:24,930  
really do that's true doctor says yeah

[Music]

company

10  
00:00:43,910 --> 00:00:38,120  
[Applause]

11  
00:00:46,430 --> 00:00:43,920  
[Music]

12  
00:00:48,529 --> 00:00:46,440  
here we go from the Sunshine State I'm

13  
00:00:51,170 --> 00:00:48,539

Greg Carlwood and do you ever feel like

14

00:00:53,209 --> 00:00:51,180

life has lost its meaning that so much

15

00:00:54,950 --> 00:00:53,219

time and attention is sucked up by the

16

00:00:56,930 --> 00:00:54,960

construct and the cage conveniently

17

00:00:59,750 --> 00:00:56,940

placed around our ability to do almost

18

00:01:01,850 --> 00:00:59,760

anything a Litany of limiting factors

19

00:01:05,030 --> 00:01:01,860

that are largely artificial but hold us

20

00:01:07,370 --> 00:01:05,040

back nevertheless money time employment

21

00:01:09,530 --> 00:01:07,380

bureaucracy Logistics and the always

22

00:01:11,870 --> 00:01:09,540

flashy and seductive screen based

23

00:01:14,690 --> 00:01:11,880

everything tend to steal the majority of

24

00:01:16,910 --> 00:01:14,700

Any Given Lifetime and few people ever

25

00:01:19,370 --> 00:01:16,920

even ask what life might actually be for

26

00:01:22,130 --> 00:01:19,380

or challenge the Monstrous Matrix of the

27

00:01:24,410 --> 00:01:22,140

Capstone cabal well if the game has been

28

00:01:26,630 --> 00:01:24,420

to make people ignorant of or even enjoy

29

00:01:28,609 --> 00:01:26,640

their servitude then someone somewhere

30

00:01:30,710 --> 00:01:28,619

is certainly winning but today we're

31

00:01:32,510 --> 00:01:30,720

going to unpack a lot of what plagues us

32

00:01:34,370 --> 00:01:32,520

examine the suppressed or hidden

33

00:01:36,289 --> 00:01:34,380

mechanisms that drive the unadulterated

34

00:01:38,929 --> 00:01:36,299

world and try to get a beat on that

35

00:01:40,490 --> 00:01:38,939

Almighty truth with a capital T by

36

00:01:42,770 --> 00:01:40,500

talking with a couple of knowledgeable

37

00:01:44,690 --> 00:01:42,780

and philosophical free thinkers who lay

38

00:01:46,690 --> 00:01:44,700

out much of their mindset and positions

39

00:01:49,670 --> 00:01:46,700

on various subjects through the website

40

00:01:52,429 --> 00:01:49,680

greeksspeak.com where the majority of the

41

00:01:54,710 --> 00:01:52,439

content insights and ideas come from a

42

00:01:56,690 --> 00:01:54,720

man known as the Greek and the website

43

00:01:58,550 --> 00:01:56,700

and methodical presentation of the

44

00:02:01,190 --> 00:01:58,560

material is laid out by his associate

45

00:02:03,590 --> 00:02:01,200

the archon there you can find detailed

46

00:02:05,630 --> 00:02:03,600

articles and podcast episodes covering

47

00:02:08,210 --> 00:02:05,640

everything from cosmic censorship

48

00:02:10,609 --> 00:02:08,220

communication and education to the

49

00:02:13,309 --> 00:02:10,619

corrupted Sciences food and diet the

50

00:02:15,050 --> 00:02:13,319

economy the legal system and more I've

51  
00:02:16,910 --> 00:02:15,060  
certainly enjoyed their work and learned

52  
00:02:18,949 --> 00:02:16,920  
a lot from the insights and curious

53  
00:02:21,290 --> 00:02:18,959  
anecdotes of the Greek and I'm psyched

54  
00:02:23,750 --> 00:02:21,300  
to get into it with them today the Greek

55  
00:02:25,790 --> 00:02:23,760  
speak Architects intellectual explorers

56  
00:02:27,890 --> 00:02:25,800  
of everything and cultural critics the

57  
00:02:30,110 --> 00:02:27,900  
archon and the Greek welcome to the

58  
00:02:32,930 --> 00:02:30,120  
higher side oh thanks for having us man

59  
00:02:34,790 --> 00:02:32,940  
yes thanks for having us Greg yeah this

60  
00:02:36,949 --> 00:02:34,800  
is going to be great I have heard hours

61  
00:02:39,170 --> 00:02:36,959  
of your material talking together and

62  
00:02:42,050 --> 00:02:39,180  
enjoyed it quite a lot you cover pretty

63  
00:02:44,330 --> 00:02:42,060

much all aspects of Life culture and

64

00:02:46,790 --> 00:02:44,340

society and I've heard the Greek

65

00:02:48,589 --> 00:02:46,800

describe himself as someone who's just

66

00:02:52,009 --> 00:02:48,599

visiting the Earth and taking notes

67

00:02:54,710 --> 00:02:52,019

which I like but what can you guys tell

68

00:02:57,650 --> 00:02:54,720

us about how you forge this relationship

69

00:03:00,290 --> 00:02:57,660

your goals for the Greek speak Venture

70

00:03:02,390 --> 00:03:00,300

and ultimately where you've cultivated

71

00:03:03,830 --> 00:03:02,400

your knowledge and wisdom that people

72

00:03:06,350 --> 00:03:03,840

will find there

73

00:03:08,449 --> 00:03:06,360

oh just to give a sort of brief intro

74

00:03:11,089 --> 00:03:08,459

first of all thank you for having us

75

00:03:12,830 --> 00:03:11,099

I am the archon which is just really a

76  
00:03:15,290 --> 00:03:12,840  
harmless pseudonym for my youth that I

77  
00:03:17,390 --> 00:03:15,300  
use for making content on the internet

78  
00:03:20,509 --> 00:03:17,400  
so as far as how we became acquainted

79  
00:03:22,250 --> 00:03:20,519  
some years back I'd heard of the Greek

80  
00:03:23,990 --> 00:03:22,260  
from the appearances that he made on

81  
00:03:27,350 --> 00:03:24,000  
different internet radio programs be

82  
00:03:29,390 --> 00:03:27,360  
that Freeman fly or elsewhere and so I

83  
00:03:31,790 --> 00:03:29,400  
eventually reached out to learn more and

84  
00:03:33,470 --> 00:03:31,800  
we would discuss you know the subjects

85  
00:03:36,290 --> 00:03:33,480  
that he had brought up ranging from

86  
00:03:38,210 --> 00:03:36,300  
politics to science to finance but more

87  
00:03:40,850 --> 00:03:38,220  
than anything else he was really able to

88  
00:03:43,490 --> 00:03:40,860

unpack the nature of everyday life as a

89

00:03:45,350 --> 00:03:43,500

sort of Mirage that's being upheld by

90

00:03:48,530 --> 00:03:45,360

various institutions like the media and

91

00:03:51,170 --> 00:03:48,540

pop culture and also to objectify that

92

00:03:52,910 --> 00:03:51,180

as something that was malevolent in its

93

00:03:55,369 --> 00:03:52,920

Origins which most people don't pay

94

00:03:56,930 --> 00:03:55,379

attention to and so you know that just

95

00:03:58,910 --> 00:03:56,940

led to more conversations over the years

96

00:04:00,770 --> 00:03:58,920

and I would eventually create the Greek

97

00:04:03,789 --> 00:04:00,780

speaking website which I will

98

00:04:07,970 --> 00:04:03,799

specify has a unique spelling of

99

00:04:10,670 --> 00:04:07,980

s-p-e-e-k at the end so not s-p-e-a-k

100

00:04:12,050 --> 00:04:10,680

rekspeak.com and you know compiled some

101

00:04:14,330 --> 00:04:12,060

articles there and we later did a

102

00:04:16,189 --> 00:04:14,340

podcast on these various subjects so

103

00:04:18,229 --> 00:04:16,199

anyone can check that out at their

104

00:04:19,909 --> 00:04:18,239

Leisure and yeah I'll let the Greek sort

105

00:04:21,229 --> 00:04:19,919

of elaborate on where he's at now and

106

00:04:22,129 --> 00:04:21,239

some of the projects that he has going

107

00:04:25,610 --> 00:04:22,139

on

108

00:04:27,770 --> 00:04:25,620

okay I'm at the same place I was pretty

109

00:04:29,330 --> 00:04:27,780

much when I came into this world still

110

00:04:31,909 --> 00:04:29,340

trying to figure things out and just

111

00:04:34,249 --> 00:04:31,919

trying to describe what we can Garner

112

00:04:38,330 --> 00:04:34,259

and gain from our perception

113

00:04:40,850 --> 00:04:38,340

I would say the lifelong Endeavors and

114

00:04:43,070 --> 00:04:40,860

experiences that we have here are all

115

00:04:45,590 --> 00:04:43,080

based on our input whatever we get

116

00:04:49,010 --> 00:04:45,600

basically from our parents Society on

117

00:04:51,110 --> 00:04:49,020

and on and on and when we look for an

118

00:04:53,330 --> 00:04:51,120

equivalent of physical equivalent or a

119

00:04:55,790 --> 00:04:53,340

perceivable equivalent in the world to

120

00:04:57,710 --> 00:04:55,800

what we've been told it's sort of hard

121

00:05:00,409 --> 00:04:57,720

to find so we have to sit back and just

122

00:05:01,490 --> 00:05:00,419

trust what we've been told and go along

123

00:05:04,249 --> 00:05:01,500

with it

124

00:05:05,930 --> 00:05:04,259

I think the human on the planet right

125

00:05:09,290 --> 00:05:05,940

now I call them surface dwelling Earth

126  
00:05:11,390 --> 00:05:09,300  
inhabitants and very specific about that

127  
00:05:13,310 --> 00:05:11,400  
because there's much more than just

128  
00:05:16,189 --> 00:05:13,320  
being on the surface

129  
00:05:19,010 --> 00:05:16,199  
is very very domesticated and just to

130  
00:05:22,370 --> 00:05:19,020  
cut to the chase you know back in I

131  
00:05:25,310 --> 00:05:22,380  
think what the recent 2020 events that

132  
00:05:26,390 --> 00:05:25,320  
happened showed very much let's say an

133  
00:05:28,969 --> 00:05:26,400  
example

134  
00:05:31,670 --> 00:05:28,979  
literally what happens when you have a

135  
00:05:33,770 --> 00:05:31,680  
domesticated being how difficult would

136  
00:05:35,810 --> 00:05:33,780  
it be for example if you have some

137  
00:05:37,730 --> 00:05:35,820  
domesticated beings we call them pets

138  
00:05:39,529 --> 00:05:37,740

and it's not convenient to have them

139

00:05:42,290 --> 00:05:39,539

anymore you just put them down don't you

140

00:05:45,230 --> 00:05:42,300

right and no one really balks about that

141

00:05:47,990 --> 00:05:45,240

too much so that's just a very quick cut

142

00:05:49,370 --> 00:05:48,000

to the chase kind of point of how to

143

00:05:51,350 --> 00:05:49,380

perceive things

144

00:05:54,170 --> 00:05:51,360

and again I say I'm just visiting this

145

00:05:56,689 --> 00:05:54,180

planet taking notes because how else can

146

00:05:58,430 --> 00:05:56,699

one objectify

147

00:06:01,610 --> 00:05:58,440

pretty much the point of view that I

148

00:06:04,370 --> 00:06:01,620

have is when you become objective you

149

00:06:06,890 --> 00:06:04,380

are sort of on the sidelines but still a

150

00:06:08,990 --> 00:06:06,900

participant in the field let's say

151  
00:06:11,950 --> 00:06:09,000  
one of the things that I constantly harp

152  
00:06:14,330 --> 00:06:11,960  
on is if everyone wanted to just turn

153  
00:06:16,310 --> 00:06:14,340  
everything on the planet you know the

154  
00:06:19,010 --> 00:06:16,320  
entire Society into a paradise I'd say

155  
00:06:21,170 --> 00:06:19,020  
have at it but I want nothing to do with

156  
00:06:23,270 --> 00:06:21,180  
it and if you all just wanted to destroy

157  
00:06:25,850 --> 00:06:23,280  
each other and create utter chaos have

158  
00:06:28,909 --> 00:06:25,860  
at it I want nothing to do with it is

159  
00:06:31,070 --> 00:06:28,919  
the stance that I usually take I like it

160  
00:06:33,529 --> 00:06:31,080  
and you say surface dwelling Earth

161  
00:06:36,110 --> 00:06:33,539  
inhabitants well that is a curious

162  
00:06:38,390 --> 00:06:36,120  
phrase specifically surface dwelling

163  
00:06:40,790 --> 00:06:38,400

this is not where I plan to go with this

164

00:06:43,309 --> 00:06:40,800

but I am really intrigued by things that

165

00:06:45,890 --> 00:06:43,319

could exist or life underneath the

166

00:06:48,469 --> 00:06:45,900

surface what say you

167

00:06:50,330 --> 00:06:48,479

oh clearly evident you know here's the

168

00:06:53,090 --> 00:06:50,340

metaphor that lets the overarching

169

00:06:55,790 --> 00:06:53,100

metaphor okay Greg I just built a new

170

00:06:59,210 --> 00:06:55,800

house okay and I have new furniture

171

00:07:02,809 --> 00:06:59,220

coming right why not and uh Furniture

172

00:07:04,969 --> 00:07:02,819

truck arrives do I place all of the

173

00:07:07,550 --> 00:07:04,979

furniture on the roof and just live on

174

00:07:09,710 --> 00:07:07,560

the roof all year long or do I put them

175

00:07:11,689 --> 00:07:09,720

inside the house and live inside where I

176  
00:07:15,529 --> 00:07:11,699  
have the comfort and control of you know

177  
00:07:16,909 --> 00:07:15,539  
living in a house offers right I mean if

178  
00:07:18,770 --> 00:07:16,919  
you had someone place all their

179  
00:07:20,809 --> 00:07:18,780  
Furniture bedroom living room whatever

180  
00:07:22,689 --> 00:07:20,819  
on the roof of a building they're

181  
00:07:25,969 --> 00:07:22,699  
subject to all the surface weather

182  
00:07:28,670 --> 00:07:25,979  
attacks lack of privacy right

183  
00:07:31,909 --> 00:07:28,680  
but an intelligent being would

184  
00:07:34,070 --> 00:07:31,919  
definitely dwell inside if that makes

185  
00:07:36,950 --> 00:07:34,080  
any sense so you know we're sort of

186  
00:07:39,469 --> 00:07:36,960  
subject to the however you want to take

187  
00:07:41,330 --> 00:07:39,479  
it visuals that were given by quote

188  
00:07:42,890 --> 00:07:41,340

unquote NASA and government agencies of

189

00:07:45,050 --> 00:07:42,900

what's going on let's say quote unquote

190

00:07:47,529 --> 00:07:45,060

with other planets and they all look

191

00:07:50,930 --> 00:07:47,539

Barren on the surface and that's a clear

192

00:07:52,370 --> 00:07:50,940

Mark of a potential of a highly evolved

193

00:07:54,529 --> 00:07:52,380

society that would be dwelling inside

194

00:07:57,589 --> 00:07:54,539

the house instead of on the surface very

195

00:08:01,370 --> 00:07:57,599

simple analogy there for me yeah yeah

196

00:08:05,029 --> 00:08:01,380

you know I've used the analogy of Nature

197

00:08:07,730 --> 00:08:05,039

and what it creates and basically you

198

00:08:10,370 --> 00:08:07,740

know fruits look at fruits like they're

199

00:08:12,290 --> 00:08:10,380

always far more interesting inside than

200

00:08:14,029 --> 00:08:12,300

outside you look at an orange it's just

201

00:08:17,330 --> 00:08:14,039

a Rhine on the outside all the good

202

00:08:20,270 --> 00:08:17,340

stuff is in the middle and nature seems

203

00:08:22,490 --> 00:08:20,280

to produce things that are within that

204

00:08:24,170 --> 00:08:22,500

kind of framework so what about the

205

00:08:26,450 --> 00:08:24,180

Earth itself wouldn't the most

206

00:08:29,390 --> 00:08:26,460

interesting Parts be inside based on

207

00:08:32,870 --> 00:08:29,400

what nature tends to produce and we now

208

00:08:36,290 --> 00:08:32,880

know there are forests and giant oceans

209

00:08:39,350 --> 00:08:36,300

inside the surface so I agree with you

210

00:08:41,149 --> 00:08:39,360

that it's logical to be inside but not

211

00:08:43,490 --> 00:08:41,159

all things that are logical actually

212

00:08:46,610 --> 00:08:43,500

happen what do you think is actually

213

00:08:49,370 --> 00:08:46,620

down there or what could you say about a

214

00:08:52,550 --> 00:08:49,380

potential intelligent being being down

215

00:08:53,870 --> 00:08:52,560

there another Branch off of uh Humanity

216

00:08:57,889 --> 00:08:53,880

perhaps

217

00:09:00,170 --> 00:08:57,899

sure I would suggest that do I have a

218

00:09:01,250 --> 00:09:00,180

direct relationship that I knowingly

219

00:09:03,410 --> 00:09:01,260

know

220

00:09:06,350 --> 00:09:03,420

different beings from there I would say

221

00:09:08,329 --> 00:09:06,360

no but we have lots of let's call them

222

00:09:10,009 --> 00:09:08,339

myths and legends for those that want to

223

00:09:12,949 --> 00:09:10,019

subscribe to that

224

00:09:15,230 --> 00:09:12,959

no I don't have any direct knowledge but

225

00:09:16,970 --> 00:09:15,240

I would suggest basic logic and

226

00:09:19,490 --> 00:09:16,980

reasoning using you know the roof and

227

00:09:23,030 --> 00:09:19,500

Furniture analogy to be a place to go

228

00:09:24,829 --> 00:09:23,040

and the criticism that I offer to the

229

00:09:26,810 --> 00:09:24,839

public at large is basically what I see

230

00:09:29,150 --> 00:09:26,820

on the surface that's why I denote it as

231

00:09:31,730 --> 00:09:29,160

surface dwelling Earth inhabitants

232

00:09:33,949 --> 00:09:31,740

there's many ways to go with that so

233

00:09:36,410 --> 00:09:33,959

we're just on the surface of a very very

234

00:09:38,810 --> 00:09:36,420

Dynamic thing just like if you look at

235

00:09:40,250 --> 00:09:38,820

fruit for example it's more interesting

236

00:09:44,150 --> 00:09:40,260

on the inside

237

00:09:46,430 --> 00:09:44,160

one thing is the silent power of things

238

00:09:48,829 --> 00:09:46,440

that grow it's incredible when you look

239

00:09:51,110 --> 00:09:48,839

at things that grow trees fruit plants

240

00:09:53,030 --> 00:09:51,120

and so on that are attached to the Earth

241

00:09:55,370 --> 00:09:53,040

you know it's the conversion let's say

242

00:09:57,110 --> 00:09:55,380

our transmutation of water and soil into

243

00:10:00,110 --> 00:09:57,120

these wonderful things based on the

244

00:10:02,570 --> 00:10:00,120

topography or the program in the seed

245

00:10:05,030 --> 00:10:02,580

right you can have the same Soil and

246

00:10:06,949 --> 00:10:05,040

Water and the programming of the seed

247

00:10:08,990 --> 00:10:06,959

will yield whatever you know

248

00:10:12,050 --> 00:10:09,000

corresponding fruit there is and it's

249

00:10:13,730 --> 00:10:12,060

basically an atomic transmutation into

250

00:10:17,090 --> 00:10:13,740

all these things and it's extremely

251  
00:10:18,829 --> 00:10:17,100  
Dynamic yet it's silent very quiet and

252  
00:10:21,290 --> 00:10:18,839  
it's like you said very interesting on

253  
00:10:24,530 --> 00:10:21,300  
the inside and they all bear a geometric

254  
00:10:27,410 --> 00:10:24,540  
structure that have more in common than

255  
00:10:29,090 --> 00:10:27,420  
we give it for example the apples and

256  
00:10:31,670 --> 00:10:29,100  
oranges analogy meaning they're very

257  
00:10:33,949 --> 00:10:31,680  
different but they do share an archetype

258  
00:10:36,769 --> 00:10:33,959  
a geometry it's very similar and I would

259  
00:10:39,769 --> 00:10:36,779  
say that if we go back to the surface

260  
00:10:42,949 --> 00:10:39,779  
there's also a dynamic that's very much

261  
00:10:45,650 --> 00:10:42,959  
shared there if you look at all the

262  
00:10:47,870 --> 00:10:45,660  
cultures on the earth for example

263  
00:10:50,150 --> 00:10:47,880

they're diverse based on various

264

00:10:52,430 --> 00:10:50,160

histories and even if you look at the

265

00:10:54,350 --> 00:10:52,440

corresponding current culture of all the

266

00:10:56,630 --> 00:10:54,360

surface dwelling Earth inhabitants of

267

00:10:57,889 --> 00:10:56,640

various Nations or so they carry on

268

00:10:59,990 --> 00:10:57,899

things from their history and their

269

00:11:04,910 --> 00:11:00,000

culture but the thing that they all have

270

00:11:08,150 --> 00:11:04,920

in common is their gullibility and those

271

00:11:11,150 --> 00:11:08,160

that seem to have the upper hand and

272

00:11:13,610 --> 00:11:11,160

control of let's say the One World Earth

273

00:11:16,910 --> 00:11:13,620

or the one world

274

00:11:19,730 --> 00:11:16,920

order kind of concept

275

00:11:22,449 --> 00:11:19,740

rely on people's gullibility and

276

00:11:26,810 --> 00:11:22,459

unfortunately people are very reliable

277

00:11:29,389 --> 00:11:26,820

yeah well said no argument here and so

278

00:11:31,670 --> 00:11:29,399

in the cosmic censorship episode The

279

00:11:34,370 --> 00:11:31,680

Greek says we need to ask the

280

00:11:36,710 --> 00:11:34,380

philosophical question is man supposed

281

00:11:39,650 --> 00:11:36,720

to be as he is today essentially

282

00:11:41,990 --> 00:11:39,660

property numbered labeled and controlled

283

00:11:44,030 --> 00:11:42,000

well I think most of us listening would

284

00:11:46,730 --> 00:11:44,040

agree that we've been captured but

285

00:11:50,150 --> 00:11:46,740

getting a handle on how man is supposed

286

00:11:53,030 --> 00:11:50,160

to be outside of this capture is harder

287

00:11:55,190 --> 00:11:53,040

to identify what would you say about

288

00:11:56,810 --> 00:11:55,200

that the way things should be or even

289

00:12:00,130 --> 00:11:56,820

could be

290

00:12:03,410 --> 00:12:00,140

yeah I would suggest that the

291

00:12:05,170 --> 00:12:03,420

overarching criticism or what we see the

292

00:12:07,850 --> 00:12:05,180

condition the overarching condition

293

00:12:11,389 --> 00:12:07,860

here's the hard part is supposed to be

294

00:12:13,910 --> 00:12:11,399

the way it is right now at this time

295

00:12:15,470 --> 00:12:13,920

one loose analogy would be when you have

296

00:12:17,930 --> 00:12:15,480

an infant

297

00:12:21,050 --> 00:12:17,940

do they usually need diaper changes and

298

00:12:23,210 --> 00:12:21,060

what happens if you don't right and

299

00:12:25,250 --> 00:12:23,220

because their diapers are being changed

300

00:12:27,590 --> 00:12:25,260

and it's kind of critical

301  
00:12:30,650 --> 00:12:27,600  
what happens if they're ignored or left

302  
00:12:32,750 --> 00:12:30,660  
to their own volition let's say it's not

303  
00:12:35,150 --> 00:12:32,760  
going to work out well

304  
00:12:38,030 --> 00:12:35,160  
so I would say that things are the way

305  
00:12:40,550 --> 00:12:38,040  
they're supposed to be now but there is

306  
00:12:43,129 --> 00:12:40,560  
something about

307  
00:12:45,110 --> 00:12:43,139  
let's just say the voluntary nature of

308  
00:12:47,389 --> 00:12:45,120  
things I use that very Loosely because

309  
00:12:50,329 --> 00:12:47,399  
most things are in that category we

310  
00:12:52,310 --> 00:12:50,339  
choose to be that way so I would offer

311  
00:12:55,670 --> 00:12:52,320  
there's a gradient or different levels

312  
00:12:57,350 --> 00:12:55,680  
of choices that can be made that you can

313  
00:13:00,650 --> 00:12:57,360

actually be the baby that needs the

314

00:13:03,590 --> 00:13:00,660

diaper change or not and that's where I

315

00:13:05,389 --> 00:13:03,600

I instill the concept of cosmic

316

00:13:07,970 --> 00:13:05,399

censorship meaning it's not tangible

317

00:13:10,250 --> 00:13:07,980

it's something that that is a limit

318

00:13:13,430 --> 00:13:10,260

on each individual and with the society

319

00:13:16,310 --> 00:13:13,440

as a whole but it's even though it's

320

00:13:19,490 --> 00:13:16,320

overarching and intangible once it's

321

00:13:20,810 --> 00:13:19,500

acknowledged that there is a limitation

322

00:13:22,370 --> 00:13:20,820

that pretty much leads to the

323

00:13:25,190 --> 00:13:22,380

gullibility

324

00:13:27,110 --> 00:13:25,200

it can pretty much be almost dealt with

325

00:13:29,329 --> 00:13:27,120

at that point there's not much else you

326

00:13:30,790 --> 00:13:29,339

have to do but acknowledge that you are

327

00:13:33,650 --> 00:13:30,800

being censored

328

00:13:36,769 --> 00:13:33,660

and I do find that term provocative

329

00:13:39,829 --> 00:13:36,779

Cosmic censorship you don't say Elite

330

00:13:42,590 --> 00:13:39,839

cabal censorship this kind of implies a

331

00:13:45,970 --> 00:13:42,600

layer of deception or blockage from

332

00:13:48,650 --> 00:13:45,980

Truth at a level higher than human even

333

00:13:51,470 --> 00:13:48,660

where does that come from and how has it

334

00:13:53,269 --> 00:13:51,480

affected Humanity throughout the ages

335

00:13:54,889 --> 00:13:53,279

well I would say where it comes from

336

00:13:57,350 --> 00:13:54,899

maybe at this point is not important

337

00:13:59,210 --> 00:13:57,360

just like when the let's say something

338

00:14:00,170 --> 00:13:59,220

is delivered to your home again the

339

00:14:03,290 --> 00:14:00,180

furniture

340

00:14:05,810 --> 00:14:03,300

you can pretty much through labeling and

341

00:14:07,550 --> 00:14:05,820

loose Association say well this came

342

00:14:09,430 --> 00:14:07,560

from here and it was made by these

343

00:14:12,530 --> 00:14:09,440

individuals but there's so much more

344

00:14:14,990 --> 00:14:12,540

involved in that and then there's the

345

00:14:17,329 --> 00:14:15,000

point where you could be completely

346

00:14:19,370 --> 00:14:17,339

removed and you know many American

347

00:14:20,750 --> 00:14:19,380

children are asked where milk comes from

348

00:14:22,329 --> 00:14:20,760

and they say Well it comes from the

349

00:14:25,550 --> 00:14:22,339

store right

350

00:14:28,430 --> 00:14:25,560

so at this point I don't have a direct

351

00:14:29,990 --> 00:14:28,440

answer for that but I do see through the

352

00:14:32,810 --> 00:14:30,000

commonality the trans-cultural

353

00:14:34,910 --> 00:14:32,820

transnational trans-historic effects of

354

00:14:37,430 --> 00:14:34,920

this being persistent throughout Society

355

00:14:39,410 --> 00:14:37,440

so I'm not so sure of the source of it

356

00:14:41,389 --> 00:14:39,420

and I think giving it Cosmic which

357

00:14:44,269 --> 00:14:41,399

Harkens back to the Greek word meaning

358

00:14:46,670 --> 00:14:44,279

worldly basically but not just limited

359

00:14:49,490 --> 00:14:46,680

to man's world fair enough yes it makes

360

00:14:51,710 --> 00:14:49,500

me think about just the structure of

361

00:14:55,189 --> 00:14:51,720

reality and you'll hear a lot of gurus

362

00:14:58,310 --> 00:14:55,199

and spiritualists talk about a soul

363

00:15:02,150 --> 00:14:58,320

school that this reality is somewhat

364

00:15:05,210 --> 00:15:02,160  
structured to be a process of

365

00:15:08,930 --> 00:15:05,220  
Enlightenment or curiosity or

366

00:15:12,170 --> 00:15:08,940  
exploration and Cosmic censorship kind

367

00:15:15,829 --> 00:15:12,180  
of speaks to me as something adjacent to

368

00:15:18,050 --> 00:15:15,839  
a process of discovery that it can be

369

00:15:19,910 --> 00:15:18,060  
discovered if you get away from all the

370

00:15:22,550 --> 00:15:19,920  
distractions that are put in front of us

371

00:15:25,550 --> 00:15:22,560  
and you actually explore the natural

372

00:15:28,069 --> 00:15:25,560  
reality things will be revealed to you

373

00:15:30,829 --> 00:15:28,079  
in layers or systematically what do you

374

00:15:32,090 --> 00:15:30,839  
think about that well yes and you know

375

00:15:33,889 --> 00:15:32,100  
when you describe something having

376

00:15:36,110 --> 00:15:33,899

layers it still comes to you as a whole

377

00:15:38,030 --> 00:15:36,120

doesn't it and you could almost look at

378

00:15:40,970 --> 00:15:38,040

all the layers at once

379

00:15:44,750 --> 00:15:40,980

and then just zero in and focus on one

380

00:15:46,129 --> 00:15:44,760

if you'd like but unfocusing on the

381

00:15:47,870 --> 00:15:46,139

layers and just looking at the whole

382

00:15:49,610 --> 00:15:47,880

package as it comes to you then you'll

383

00:15:51,889 --> 00:15:49,620

notice that what the whole package has

384

00:15:53,930 --> 00:15:51,899

in similarity is that all these layers

385

00:15:56,110 --> 00:15:53,940

are contained in it and even though they

386

00:15:58,790 --> 00:15:56,120

do look different they tend to be

387

00:16:00,530 --> 00:15:58,800

repeats just maybe cross hatched or

388

00:16:02,449 --> 00:16:00,540

going across each other but they're

389

00:16:04,930 --> 00:16:02,459

repeats of almost the same thing amongst

390

00:16:08,389 --> 00:16:04,940

all layers

391

00:16:10,310 --> 00:16:08,399

I I see that we sound very philosophical

392

00:16:11,870 --> 00:16:10,320

right now by the way we haven't gotten

393

00:16:13,910 --> 00:16:11,880

to any we haven't bitten into any meat

394

00:16:16,850 --> 00:16:13,920

and bones yet oh well here comes the

395

00:16:19,610 --> 00:16:16,860

meat so one of my favorite subjects that

396

00:16:21,590 --> 00:16:19,620

you guys have unpacked is the episode on

397

00:16:23,509 --> 00:16:21,600

science really just how various

398

00:16:25,610 --> 00:16:23,519

scientific disciplines have been

399

00:16:28,370 --> 00:16:25,620

co-opted and controlled the most

400

00:16:31,030 --> 00:16:28,380

interesting aspect to me and all of this

401  
00:16:34,189 --> 00:16:31,040  
is what's been lost and trying to

402  
00:16:36,949 --> 00:16:34,199  
restore these discarded disciplines like

403  
00:16:39,530 --> 00:16:36,959  
Alchemy or a better understanding of

404  
00:16:41,810 --> 00:16:39,540  
natural biology or seemingly exotic

405  
00:16:44,569 --> 00:16:41,820  
Technologies and let's start with the

406  
00:16:46,910 --> 00:16:44,579  
Technologies the real nuts and bolts

407  
00:16:49,310 --> 00:16:46,920  
literally because we hear about

408  
00:16:52,490 --> 00:16:49,320  
anti-gravity devices and the work of

409  
00:16:54,230 --> 00:16:52,500  
people like t-towns and brown I've heard

410  
00:16:56,030 --> 00:16:54,240  
the Greek mention the nimsa group

411  
00:16:58,430 --> 00:16:56,040  
something not a lot of people talk about

412  
00:17:00,769 --> 00:16:58,440  
well what can you tell people about some

413  
00:17:02,990 --> 00:17:00,779

of the examples of Technologies and

414

00:17:05,630 --> 00:17:03,000

really transportation systems that have

415

00:17:08,270 --> 00:17:05,640

been kept from from them in exchange for

416

00:17:10,610 --> 00:17:08,280

metered highly controllable systems that

417

00:17:14,510 --> 00:17:10,620

limit how free we could actually be

418

00:17:17,090 --> 00:17:14,520

wow okay in this case again if I brought

419

00:17:19,189 --> 00:17:17,100

up something as simple as electricity

420

00:17:20,870 --> 00:17:19,199

yes you walk into a room it's dark you

421

00:17:23,750 --> 00:17:20,880

reach over on the wall hit a switch and

422

00:17:25,429 --> 00:17:23,760

the light comes on right all the way you

423

00:17:27,710 --> 00:17:25,439

know used in every way you can imagine

424

00:17:30,710 --> 00:17:27,720

from what they call power plants to you

425

00:17:34,370 --> 00:17:30,720

know batteries not included they still

426  
00:17:36,169 --> 00:17:34,380  
are able or not able to describe exactly

427  
00:17:38,570 --> 00:17:36,179  
or explain what it is they can describe

428  
00:17:41,029 --> 00:17:38,580  
it but they cannot explain it that is a

429  
00:17:43,789 --> 00:17:41,039  
perfect example of the intangible being

430  
00:17:47,210 --> 00:17:43,799  
relied on and how it affects the way we

431  
00:17:49,250 --> 00:17:47,220  
live in terms of Transportation just to

432  
00:17:50,330 --> 00:17:49,260  
let's say jump to the most important

433  
00:17:53,270 --> 00:17:50,340  
part

434  
00:17:55,669 --> 00:17:53,280  
the buzzword is anti-gravity isn't it it

435  
00:17:58,190 --> 00:17:55,679  
seems like once we have that to our

436  
00:18:00,169 --> 00:17:58,200  
Avail we won't need roads and supposedly

437  
00:18:01,669 --> 00:18:00,179  
we won't need the fuels we use and all

438  
00:18:04,789 --> 00:18:01,679

this other stuff there's an

439

00:18:06,590 --> 00:18:04,799

understanding of gravity that is let's

440

00:18:08,510 --> 00:18:06,600

say a misunderstanding in other words

441

00:18:10,370 --> 00:18:08,520

the understanding that we're given makes

442

00:18:13,549 --> 00:18:10,380

it unworkable first of all many people

443

00:18:16,370 --> 00:18:13,559

call it a force and if you look at the

444

00:18:19,430 --> 00:18:16,380

actual referencing of gravity it is not

445

00:18:21,169 --> 00:18:19,440

a force it's simply an acceleration we

446

00:18:23,029 --> 00:18:21,179

kind of examine it as a force because

447

00:18:25,549 --> 00:18:23,039

when we let's say drop a brick on our

448

00:18:27,770 --> 00:18:25,559

foot we feel the force of that brick but

449

00:18:29,870 --> 00:18:27,780

that's not gravity that is the brick

450

00:18:31,909 --> 00:18:29,880

accelerating through gravity and then

451  
00:18:33,890 --> 00:18:31,919  
the final force is the contact with your

452  
00:18:36,230 --> 00:18:33,900  
foot so

453  
00:18:38,690 --> 00:18:36,240  
just like for example let's say back to

454  
00:18:40,789 --> 00:18:38,700  
Transportation devices one thing that

455  
00:18:42,529 --> 00:18:40,799  
you look at I don't like calling them

456  
00:18:45,350 --> 00:18:42,539  
automobiles because they're not really

457  
00:18:48,470 --> 00:18:45,360  
autonomous they're engine driven wagons

458  
00:18:50,930 --> 00:18:48,480  
okay and not Motor Vehicles because

459  
00:18:52,430 --> 00:18:50,940  
motor means electric engine is the way

460  
00:18:54,950 --> 00:18:52,440  
we use them but we're going into the

461  
00:18:56,630 --> 00:18:54,960  
motors now anyway one of the things one

462  
00:18:59,029 --> 00:18:56,640  
of the fads with those things is to make

463  
00:19:02,090 --> 00:18:59,039

them more aerodynamic so you have less

464

00:19:04,570 --> 00:19:02,100

drag right all right so it seems like

465

00:19:07,430 --> 00:19:04,580

everything in nature seems to be about

466

00:19:10,070 --> 00:19:07,440

resistance and if you have let's say

467

00:19:12,169 --> 00:19:10,080

three portals or three openings

468

00:19:14,270 --> 00:19:12,179

and an object is to go through one of

469

00:19:15,890 --> 00:19:14,280

those openings it will naturally choose

470

00:19:19,070 --> 00:19:15,900

the one that offers what the least

471

00:19:21,110 --> 00:19:19,080

resistance right give an example

472

00:19:24,470 --> 00:19:21,120

I think it's Scientific American in the

473

00:19:26,570 --> 00:19:24,480

mid-1800s or later part of the 19th

474

00:19:30,289 --> 00:19:26,580

century did an article about a 600 mile

475

00:19:31,549 --> 00:19:30,299

per hour Subway car in New York City are

476

00:19:34,510 --> 00:19:31,559

you familiar with it so have you heard

477

00:19:37,310 --> 00:19:34,520

it no I haven't yeah I think it's like

478

00:19:39,590 --> 00:19:37,320

1870 something don't hold me I'm just

479

00:19:42,470 --> 00:19:39,600

paraphrasing Scientific American when

480

00:19:46,610 --> 00:19:42,480

they just first came out 600 plus mile

481

00:19:47,930 --> 00:19:46,620

per hour underground subway car well it

482

00:19:50,690 --> 00:19:47,940

sounds like what what is he talking

483

00:19:53,090 --> 00:19:50,700

about right yeah it was not a very long

484

00:19:55,850 --> 00:19:53,100

stretch what they did was it was

485

00:19:59,330 --> 00:19:55,860

basically air driven they pushed air

486

00:20:02,450 --> 00:19:59,340

behind the subway car and they created a

487

00:20:04,070 --> 00:20:02,460

vacuum in front of it so as long as the

488

00:20:05,390 --> 00:20:04,080

air pushing behind it and the vacuum in

489

00:20:07,010 --> 00:20:05,400

front of it were in balance it doesn't

490

00:20:10,250 --> 00:20:07,020

matter how fast it's moving it will

491

00:20:14,090 --> 00:20:10,260

never see any resistance right and this

492

00:20:15,650 --> 00:20:14,100

was achieved 150 plus years ago and it

493

00:20:16,970 --> 00:20:15,660

was you know used as an example of

494

00:20:18,890 --> 00:20:16,980

course it was

495

00:20:22,130 --> 00:20:18,900

shelved and put away

496

00:20:23,510 --> 00:20:22,140

so when we go back to the meme of the

497

00:20:25,789 --> 00:20:23,520

anti-gravity

498

00:20:29,630 --> 00:20:25,799

if it's an acceleration well what is it

499

00:20:33,169 --> 00:20:29,640

it's very simple nature always sets up

500

00:20:34,909 --> 00:20:33,179

movements based on levels of pressure

501  
00:20:37,430 --> 00:20:34,919  
and direction

502  
00:20:39,770 --> 00:20:37,440  
so in essence if we sense that the

503  
00:20:43,130 --> 00:20:39,780  
gravity is pulling us down well we're

504  
00:20:45,650 --> 00:20:43,140  
moving let's say from a high altitude to

505  
00:20:48,049 --> 00:20:45,660  
a low altitude that is an illusion that

506  
00:20:51,590 --> 00:20:48,059  
we're being pulled how about the idea

507  
00:20:54,190 --> 00:20:51,600  
that there is this ephemeral force or it

508  
00:20:57,830 --> 00:20:54,200  
could be empirical known as The Ether

509  
00:20:59,810 --> 00:20:57,840  
and away from the earth the pressure is

510  
00:21:02,390 --> 00:20:59,820  
higher and as we go closer to the Earth

511  
00:21:05,150 --> 00:21:02,400  
the pressure is lower so we're actually

512  
00:21:07,549 --> 00:21:05,160  
just feeling a pressure gradient so once

513  
00:21:10,010 --> 00:21:07,559

this is understood where we just

514

00:21:11,870 --> 00:21:10,020

decrease the resistance on one end and

515

00:21:13,909 --> 00:21:11,880

increase the resistance on the other we

516

00:21:16,310 --> 00:21:13,919

have motion towards the direction of the

517

00:21:19,190 --> 00:21:16,320

decreased resistance and this is the

518

00:21:21,890 --> 00:21:19,200

basis of electricity of what they call

519

00:21:24,110 --> 00:21:21,900

gravity of what we call even just air

520

00:21:26,090 --> 00:21:24,120

conditioning vents the way the air moves

521

00:21:27,650 --> 00:21:26,100

into the room and returns back to the

522

00:21:30,049 --> 00:21:27,660

air conditioner to get recirculated

523

00:21:33,289 --> 00:21:30,059

again it's all about differences in

524

00:21:36,049 --> 00:21:33,299

pressure and once this is taught as the

525

00:21:38,870 --> 00:21:36,059

basics of let's say what we call our

526

00:21:41,990 --> 00:21:38,880

Sciences then we have an opening into

527

00:21:45,289 --> 00:21:42,000

You know open thought and development as

528

00:21:48,289 --> 00:21:45,299

we can but we don't at this time

529

00:21:51,350 --> 00:21:48,299

um yes the way it's usually explained to

530

00:21:53,810 --> 00:21:51,360

me by say the alternative scientists I

531

00:21:55,190 --> 00:21:53,820

like to say the natural scientists the

532

00:21:57,049 --> 00:21:55,200

ones who are kind of looking at the

533

00:21:59,090 --> 00:21:57,059

world the way you're describing it we

534

00:22:02,210 --> 00:21:59,100

say alternative but that kind of implies

535

00:22:04,190 --> 00:22:02,220

that the mainstream is primary and

536

00:22:06,950 --> 00:22:04,200

alternative is secondary when it really

537

00:22:09,049 --> 00:22:06,960

should be the other way around but I'm

538

00:22:11,029 --> 00:22:09,059

led to believe that the Earth has a

539

00:22:13,549 --> 00:22:11,039

negative charge that a lot of what we

540

00:22:16,789 --> 00:22:13,559

call gravity is a byproduct of

541

00:22:20,029 --> 00:22:16,799

electricity and that if we can counter

542

00:22:23,210 --> 00:22:20,039

the negative charge you know to

543

00:22:25,510 --> 00:22:23,220

negative magnets repel each other then

544

00:22:28,430 --> 00:22:25,520

we can start to play around with

545

00:22:30,830 --> 00:22:28,440

transportation modalities that really

546

00:22:33,830 --> 00:22:30,840

would blow people's mind because they're

547

00:22:34,970 --> 00:22:33,840

operating in an incorrect framework is

548

00:22:37,789 --> 00:22:34,980

that kind of how you see it that

549

00:22:41,029 --> 00:22:37,799

anti-gravity is really just countering

550

00:22:43,250 --> 00:22:41,039

the Earth's natural negative charge

551

00:22:44,330 --> 00:22:43,260

well you just opened up a big can of

552

00:22:46,730 --> 00:22:44,340

worms

553

00:22:49,430 --> 00:22:46,740

when we say charge and all this it's a

554

00:22:52,130 --> 00:22:49,440

charge of what is it electrical is it

555

00:22:54,289 --> 00:22:52,140

physical is it you know emotional you

556

00:22:57,409 --> 00:22:54,299

know it's actually all of that

557

00:22:58,850 --> 00:22:57,419

let me just give you an example there's

558

00:23:00,409 --> 00:22:58,860

a little meme that went around the

559

00:23:02,450 --> 00:23:00,419

internet for a while on how the big

560

00:23:04,549 --> 00:23:02,460

jumbo Jets they don't really use the

561

00:23:06,950 --> 00:23:04,559

fuel that they purport to use based on

562

00:23:09,350 --> 00:23:06,960

their fueling sheets you know say they

563

00:23:10,970 --> 00:23:09,360

need 5 000 gallons of gas but the fuel

564

00:23:12,529 --> 00:23:10,980

tanks can't hold more than two thousand

565

00:23:15,529 --> 00:23:12,539

so how are they flying right have you

566

00:23:16,970 --> 00:23:15,539

heard this before yeah and there was

567

00:23:19,070 --> 00:23:16,980

someone that went around it's kind of

568

00:23:20,990 --> 00:23:19,080

obscure if maybe it could be found and

569

00:23:22,010 --> 00:23:21,000

they're asking Aircraft engineers and

570

00:23:24,470 --> 00:23:22,020

Pilots

571

00:23:25,909 --> 00:23:24,480

what really makes these airplanes fly

572

00:23:27,830 --> 00:23:25,919

then and he says well it's really that

573

00:23:29,630 --> 00:23:27,840

everyone that's on the plane and is

574

00:23:32,510 --> 00:23:29,640

directing the plane and working on the

575

00:23:34,850 --> 00:23:32,520

plane believes that they do weird that's

576

00:23:36,470 --> 00:23:34,860

how they work yeah it's really weird so

577

00:23:38,570 --> 00:23:36,480

now we're in a Twilight Zone kind of

578

00:23:40,549 --> 00:23:38,580

reality when we're trying to find the

579

00:23:42,950 --> 00:23:40,559

quote-unquote notable science you know

580

00:23:44,690 --> 00:23:42,960

notable science meaning like you know

581

00:23:47,450 --> 00:23:44,700

referencing material right stuff you

582

00:23:49,730 --> 00:23:47,460

write down and is repeatable so

583

00:23:52,370 --> 00:23:49,740

when we say charge and things like that

584

00:23:54,710 --> 00:23:52,380

again we have to be able to define the

585

00:23:56,930 --> 00:23:54,720

thing and explain it a little bit better

586

00:23:59,750 --> 00:23:56,940

than just the descriptions that we get

587

00:24:03,710 --> 00:23:59,760

so a negative charge would be for

588

00:24:06,049 --> 00:24:03,720

example the part that is taking away or

589

00:24:07,430 --> 00:24:06,059

creating the suction or the vacuum and

590

00:24:09,890 --> 00:24:07,440

the positive charge would be the one

591

00:24:11,870 --> 00:24:09,900

that's pushing and that could be done

592

00:24:14,450 --> 00:24:11,880

again physically electrically and

593

00:24:15,890 --> 00:24:14,460

emotionally hmm well now you're sounding

594

00:24:18,710 --> 00:24:15,900

like Rudolph Steiner with the different

595

00:24:21,230 --> 00:24:18,720

layers of adding emotion to

596

00:24:25,370 --> 00:24:21,240

Concepts like this scientific Concepts

597

00:24:28,909 --> 00:24:25,380

yeah very interesting stuff so this more

598

00:24:32,090 --> 00:24:28,919

accurate understanding could potentially

599

00:24:35,330 --> 00:24:32,100

give way to technologies that work in

600

00:24:37,730 --> 00:24:35,340

this framework far earlier than people

601  
00:24:41,510 --> 00:24:37,740  
would expect because right now we have

602  
00:24:45,110 --> 00:24:41,520  
this combustion based inaccurate model

603  
00:24:48,470 --> 00:24:45,120  
of how physics works and if you just

604  
00:24:51,590 --> 00:24:48,480  
peel that back you can find examples of

605  
00:24:53,990 --> 00:24:51,600  
people who made technologies that work

606  
00:24:54,890 --> 00:24:54,000  
in this system a long long time ago

607  
00:24:56,630 --> 00:24:54,900  
right

608  
00:24:58,610 --> 00:24:56,640  
yeah I would suggest there was a little

609  
00:25:00,590 --> 00:24:58,620  
more accuracy in the verbiage in the

610  
00:25:02,450 --> 00:25:00,600  
language that was used you know you said

611  
00:25:04,549 --> 00:25:02,460  
combustion engine you know

612  
00:25:06,830 --> 00:25:04,559  
for example if you're using a gasoline

613  
00:25:08,029 --> 00:25:06,840

engine you know down at the floor you

614

00:25:09,890 --> 00:25:08,039

have the brake and the other thing they

615

00:25:11,649 --> 00:25:09,900

call the gas pedal don't they right it's

616

00:25:14,149 --> 00:25:11,659

really an air pedal

617

00:25:15,529 --> 00:25:14,159

when you push that thing down it opens

618

00:25:17,330 --> 00:25:15,539

let's say the butterfly in the

619

00:25:19,250 --> 00:25:17,340

carburetor or the fuel injector to let

620

00:25:20,750 --> 00:25:19,260

more air in and then the amount of air

621

00:25:22,549 --> 00:25:20,760

is measured and then determines the

622

00:25:23,930 --> 00:25:22,559

amount of fuel that's put in so we if we

623

00:25:25,210 --> 00:25:23,940

change our language and our perception

624

00:25:27,950 --> 00:25:25,220

we'll see things a little different

625

00:25:30,830 --> 00:25:27,960

we're not really putting gasoline let's

626

00:25:32,510 --> 00:25:30,840

say for example in cars to burn the

627

00:25:33,950 --> 00:25:32,520

gasoline because gasoline actually

628

00:25:36,110 --> 00:25:33,960

doesn't really burn in a closed

629

00:25:37,610 --> 00:25:36,120

container it's the vapor part that burns

630

00:25:39,289 --> 00:25:37,620

right on the top

631

00:25:41,210 --> 00:25:39,299

we're actually burning the air that's

632

00:25:43,610 --> 00:25:41,220

why you could substitute gasoline for

633

00:25:44,930 --> 00:25:43,620

hydrogen and propane like forklift in a

634

00:25:47,269 --> 00:25:44,940

warehouse right

635

00:25:49,730 --> 00:25:47,279

so we're we're chasing after creating

636

00:25:51,830 --> 00:25:49,740

again a pressure difference in the air

637

00:25:53,149 --> 00:25:51,840

and eventually that could be tweaked and

638

00:25:55,310 --> 00:25:53,159

modified but

639

00:25:57,710 --> 00:25:55,320

from working on spark plugs and throttle

640

00:25:59,149 --> 00:25:57,720

bodies and easily doubling the mileage

641

00:26:01,549 --> 00:25:59,159

of a quote-unquote combustion engine

642

00:26:03,169 --> 00:26:01,559

that doesn't have computer controls

643

00:26:04,850 --> 00:26:03,179

and the reason I'm saying this is

644

00:26:06,890 --> 00:26:04,860

because if you go to a new car factory

645

00:26:09,230 --> 00:26:06,900

when the car rolls off of the assembly

646

00:26:11,810 --> 00:26:09,240

line You'll see a guy with a looks like

647

00:26:13,549 --> 00:26:11,820

a laptop or something and they tune the

648

00:26:15,409 --> 00:26:13,559

engine because some of the cars that

649

00:26:17,210 --> 00:26:15,419

come out of the factory let's say it's

650

00:26:18,049 --> 00:26:17,220

supposed to get 20 miles to the gallon

651  
00:26:19,909 --> 00:26:18,059  
right

652  
00:26:21,350 --> 00:26:19,919  
some might come out getting five miles

653  
00:26:23,750 --> 00:26:21,360  
to the gallon or that's no good we have

654  
00:26:25,549 --> 00:26:23,760  
to make it 20. and some might come out

655  
00:26:27,169 --> 00:26:25,559  
making 60 miles to the gallon well

656  
00:26:29,750 --> 00:26:27,179  
that's no good we have to make it 20. so

657  
00:26:32,630 --> 00:26:29,760  
they tune the engine using the computer

658  
00:26:33,890 --> 00:26:32,640  
and unfortunately just to jump over to a

659  
00:26:36,529 --> 00:26:33,900  
thing they have something called an

660  
00:26:38,149 --> 00:26:36,539  
oxygen sensor or a fuel sensor

661  
00:26:39,890 --> 00:26:38,159  
if it's really supposed to be a

662  
00:26:43,250 --> 00:26:39,900  
pollution control device shouldn't it be

663  
00:26:45,230 --> 00:26:43,260

like a pollution sensor so again the

664

00:26:47,390 --> 00:26:45,240

language and all these other things but

665

00:26:49,070 --> 00:26:47,400

let's say a combustion engine like a

666

00:26:51,470 --> 00:26:49,080

lawnmower or something that doesn't have

667

00:26:53,269 --> 00:26:51,480

a computer on it can easily be doubled

668

00:26:55,130 --> 00:26:53,279

just you know with a few hours worth of

669

00:26:57,289 --> 00:26:55,140

work or not even just adjusting the

670

00:26:58,730 --> 00:26:57,299

throttle body on the spark plug but once

671

00:27:02,269 --> 00:26:58,740

you have something that has a computer

672

00:27:06,350 --> 00:27:02,279

control it instills what I call a

673

00:27:08,330 --> 00:27:06,360

sabotage right so again the computer is

674

00:27:09,649 --> 00:27:08,340

let's say a Thought Machine think of it

675

00:27:12,490 --> 00:27:09,659

that way right

676

00:27:16,070 --> 00:27:12,500

so again it goes back to the thinking

677

00:27:17,690 --> 00:27:16,080

I like it so going back to the nimsa

678

00:27:20,330 --> 00:27:17,700

group I've heard you say that they used

679

00:27:21,230 --> 00:27:20,340

to call airplanes Sky lubricators kind

680

00:27:23,630 --> 00:27:21,240

of a

681

00:27:25,669 --> 00:27:23,640

you know jokey pejorative saying that

682

00:27:28,669 --> 00:27:25,679

their Technologies were better because

683

00:27:31,210 --> 00:27:28,679

they were working on Advanced airships

684

00:27:34,430 --> 00:27:31,220

and I've also heard you tell a story

685

00:27:36,649 --> 00:27:34,440

that you found in a text from a

686

00:27:40,070 --> 00:27:36,659

University Library that was taken from a

687

00:27:42,590 --> 00:27:40,080

garbage dump in Libya and that spoke to

688

00:27:44,930 --> 00:27:42,600

something that sounds like a piece of

689

00:27:47,450 --> 00:27:44,940

technology out of time talk to us about

690

00:27:49,669 --> 00:27:47,460

these examples that show us that this is

691

00:27:52,669 --> 00:27:49,679

really the reality when you dig and you

692

00:27:54,470 --> 00:27:52,679

find these little anecdotes well the

693

00:27:56,750 --> 00:27:54,480

thing is we were subject to what they

694

00:27:59,630 --> 00:27:56,760

call resets whether it's every few

695

00:28:03,590 --> 00:27:59,640

centuries or every few Millennia and

696

00:28:06,350 --> 00:28:03,600

give an example it's not very different

697

00:28:08,750 --> 00:28:06,360

if you lived a very long time ago in the

698

00:28:10,850 --> 00:28:08,760

way that you're thinking now

699

00:28:12,769 --> 00:28:10,860

without giving a direct example because

700

00:28:14,690 --> 00:28:12,779

there are many I think there's a lot of

701

00:28:17,450 --> 00:28:14,700

stuff on the internet that's dedicated

702

00:28:19,970 --> 00:28:17,460

to uparts and things like that

703

00:28:23,570 --> 00:28:19,980

but one thing I just want to bring up is

704

00:28:26,090 --> 00:28:23,580

that when we are let's say we meaning

705

00:28:28,549 --> 00:28:26,100

humans on the surface go to a certain

706

00:28:30,890 --> 00:28:28,559

technological level they're sort of

707

00:28:33,169 --> 00:28:30,900

Knocked Down by some form of catastrophe

708

00:28:36,470 --> 00:28:33,179

whether it's extreme social catastrophe

709

00:28:38,810 --> 00:28:36,480

you know War economics plagues or a

710

00:28:41,990 --> 00:28:38,820

natural catastrophe like the great flood

711

00:28:44,450 --> 00:28:42,000

for example and other minor catastrophes

712

00:28:46,310 --> 00:28:44,460

we get back to a situation where we're

713

00:28:49,250 --> 00:28:46,320

just desperate to be alive

714

00:28:50,090 --> 00:28:49,260

and then eventually we ReDiscover these

715

00:28:52,669 --> 00:28:50,100

things

716

00:28:55,190 --> 00:28:52,679

as being new and they're really not I

717

00:28:57,830 --> 00:28:55,200

always give a metaphor the only thing

718

00:28:59,570 --> 00:28:57,840

that changes well I shouldn't say the

719

00:29:00,890 --> 00:28:59,580

only thing that changes but there are

720

00:29:03,409 --> 00:29:00,900

things that change every time the

721

00:29:05,990 --> 00:29:03,419

society reaches a technological Apex for

722

00:29:07,850 --> 00:29:06,000

example and the example that I want to

723

00:29:11,269 --> 00:29:07,860

give is if you brought someone in from

724

00:29:12,710 --> 00:29:11,279

the past let's say to the Future what

725

00:29:14,710 --> 00:29:12,720

would they be amazed at most people

726

00:29:17,810 --> 00:29:14,720

would say oh the internet electricity

727

00:29:19,490 --> 00:29:17,820

airplanes and I suggest they won't the

728

00:29:21,169 --> 00:29:19,500

thing that they will find to be the

729

00:29:23,750 --> 00:29:21,179

hardest thing to conceive is how we're

730

00:29:27,230 --> 00:29:23,760

dumping asphalt and covering our roads

731

00:29:28,909 --> 00:29:27,240

with this black tar everywhere right

732

00:29:30,529 --> 00:29:28,919

because that was very well known in

733

00:29:33,049 --> 00:29:30,539

their society then it was had very

734

00:29:34,909 --> 00:29:33,059

limited use so I would suggest that it's

735

00:29:36,470 --> 00:29:34,919

not microwaves or radios or computers

736

00:29:40,130 --> 00:29:36,480

that they would find hard to adjust to

737

00:29:41,570 --> 00:29:40,140

but all of this black tar petroleum that

738

00:29:43,669 --> 00:29:41,580

we're coating our roads with how

739

00:29:46,970 --> 00:29:43,679

impractical is that I'm just giving that

740

00:29:49,850 --> 00:29:46,980

as a way to just look at the world

741

00:29:51,470 --> 00:29:49,860

yeah I agree and only because I

742

00:29:53,990 --> 00:29:51,480

mentioned that

743

00:29:55,909 --> 00:29:54,000

story from the University library and

744

00:29:58,010 --> 00:29:55,919

this garbage dump in Libya that they

745

00:30:01,490 --> 00:29:58,020

extracted basically you talked about

746

00:30:04,909 --> 00:30:01,500

ancient Greek suppression where it

747

00:30:07,909 --> 00:30:04,919

seemed to be a story about this guy who

748

00:30:09,830 --> 00:30:07,919

was scaring people away from the markets

749

00:30:12,110 --> 00:30:09,840

with this thing that he had which was

750

00:30:15,529 --> 00:30:12,120

described as a Horseless wagon that spit

751

00:30:17,750 --> 00:30:15,539

out fire smoke and lightning and so the

752

00:30:19,549 --> 00:30:17,760

merchants were like hey cops you got to

753

00:30:21,529 --> 00:30:19,559

go get this guy and do something with

754

00:30:24,529 --> 00:30:21,539

them because people won't come out and

755

00:30:25,850 --> 00:30:24,539

it's stopping Commerce and yep I don't

756

00:30:28,430 --> 00:30:25,860

know if there's much of a conclusion

757

00:30:31,190 --> 00:30:28,440

there but it's just an example of these

758

00:30:33,950 --> 00:30:31,200

stories peppered throughout history that

759

00:30:36,110 --> 00:30:33,960

are never elevated at the surface but in

760

00:30:39,049 --> 00:30:36,120

aggregate you just can tell that history

761

00:30:40,549 --> 00:30:39,059

is a lot different than uh it's

762

00:30:41,810 --> 00:30:40,559

presented to us like you say these

763

00:30:45,169 --> 00:30:41,820

resets

764

00:30:46,850 --> 00:30:45,179

right and we're sort of at the point of

765

00:30:49,310 --> 00:30:46,860

another one now there's a couple of

766

00:30:51,529 --> 00:30:49,320

people that are bringing up the topic on

767

00:30:53,690 --> 00:30:51,539

the internet that can be researched and

768

00:30:55,370 --> 00:30:53,700

I would suggest you know if you're

769

00:30:58,130 --> 00:30:55,380

interested in the subject of the resets

770

00:31:00,769 --> 00:30:58,140

go ahead and look for it

771

00:31:02,570 --> 00:31:00,779

but I would say that what you do on a

772

00:31:04,610 --> 00:31:02,580

day-to-day and how you perceive yourself

773

00:31:06,110 --> 00:31:04,620

and those around you and and the

774

00:31:08,210 --> 00:31:06,120

situation that you're in meaning

775

00:31:10,850 --> 00:31:08,220

whatever Society you're in takes

776  
00:31:12,350 --> 00:31:10,860  
precedent on that because one thing that

777  
00:31:14,450 --> 00:31:12,360  
you'll find through history is those

778  
00:31:16,610 --> 00:31:14,460  
that survive the resets

779  
00:31:19,549 --> 00:31:16,620  
we're sort of in a different more let's

780  
00:31:20,450 --> 00:31:19,559  
say elevated spiritual mental emotional

781  
00:31:23,810 --> 00:31:20,460  
state

782  
00:31:26,029 --> 00:31:23,820  
and in some cases you know it was kind

783  
00:31:27,710 --> 00:31:26,039  
of like you wished you were not one of

784  
00:31:30,649 --> 00:31:27,720  
the survivors because it was so rough

785  
00:31:32,510 --> 00:31:30,659  
but on the other side you know there's a

786  
00:31:35,090 --> 00:31:32,520  
preservation element that those that did

787  
00:31:37,730 --> 00:31:35,100  
survive were almost like selective

788  
00:31:39,409 --> 00:31:37,740

survivors because they had just some

789

00:31:41,330 --> 00:31:39,419

aspects about them that were quote

790

00:31:43,070 --> 00:31:41,340

unquote might say Superior than the rest

791

00:31:45,409 --> 00:31:43,080

mhm

792

00:31:47,149 --> 00:31:45,419

that makes sense to me and I wanted to

793

00:31:50,149 --> 00:31:47,159

bring the archon back in here a little

794

00:31:53,149 --> 00:31:50,159

bit I know that you're primarily the guy

795

00:31:55,669 --> 00:31:53,159

who works on the website and and you

796

00:31:57,590 --> 00:31:55,679

know you just kind of allow the Greek to

797

00:31:59,149 --> 00:31:57,600

do his thing but I'm curious your

798

00:32:01,490 --> 00:31:59,159

thoughts on some of the stuff we're

799

00:32:03,649 --> 00:32:01,500

talking about the Technologies the

800

00:32:05,870 --> 00:32:03,659

physics this alternative model that

801  
00:32:07,789 --> 00:32:05,880  
seems to exist outside of the mainstream

802  
00:32:10,789 --> 00:32:07,799  
what do you think

803  
00:32:12,590 --> 00:32:10,799  
well those things are very interesting I

804  
00:32:14,450 --> 00:32:12,600  
mean in general

805  
00:32:16,549 --> 00:32:14,460  
I think that

806  
00:32:17,570 --> 00:32:16,559  
when we talk about Cosmic censorship

807  
00:32:18,769 --> 00:32:17,580  
that's something that should be

808  
00:32:20,750 --> 00:32:18,779  
contemplated

809  
00:32:22,130 --> 00:32:20,760  
it's not so much you know a lack of

810  
00:32:23,690 --> 00:32:22,140  
information that brings it about because

811  
00:32:25,789 --> 00:32:23,700  
we know that information isn't

812  
00:32:28,190 --> 00:32:25,799  
overproduction today I think the real

813  
00:32:31,310 --> 00:32:28,200

thrust of of something like that lies in

814

00:32:32,930 --> 00:32:31,320

preventing comprehension it's this force

815

00:32:35,090 --> 00:32:32,940

that disassembles intelligible

816

00:32:37,310 --> 00:32:35,100

narratives and renders conclusions

817

00:32:39,470 --> 00:32:37,320

unreachable which is why a lot of people

818

00:32:41,210 --> 00:32:39,480

live in this sort of unawareness of

819

00:32:42,470 --> 00:32:41,220

where Society stands and what's going to

820

00:32:44,750 --> 00:32:42,480

happen next

821

00:32:48,350 --> 00:32:44,760

which is a mindset that I do think

822

00:32:50,450 --> 00:32:48,360

should be scorned and avoided because it

823

00:32:52,970 --> 00:32:50,460

reveals that ultimately people have a

824

00:32:54,769 --> 00:32:52,980

preference for the things that are most

825

00:32:56,330 --> 00:32:54,779

like themselves so a person that's

826

00:32:57,950 --> 00:32:56,340

ignorant is ultimately going to be drawn

827

00:33:00,169 --> 00:32:57,960

to things that are ignorant

828

00:33:02,029 --> 00:33:00,179

and that in order to reach some type of

829

00:33:03,409 --> 00:33:02,039

higher level of Enlightenment you kind

830

00:33:05,750 --> 00:33:03,419

of have to separate yourself from that

831

00:33:07,970 --> 00:33:05,760

and it starts with that sort of mindset

832

00:33:10,909 --> 00:33:07,980

switch that the things that we've been

833

00:33:12,830 --> 00:33:10,919

told are normal are really the things

834

00:33:14,810 --> 00:33:12,840

that are dangerous I do remember

835

00:33:16,909 --> 00:33:14,820

sometime maybe six or seven months ago

836

00:33:18,830 --> 00:33:16,919

when I was getting a haircut at a

837

00:33:20,930 --> 00:33:18,840

friend's place and he had a sticker on

838

00:33:23,750 --> 00:33:20,940

the table in front of me where it said

839

00:33:26,269 --> 00:33:23,760

Beware normal people and I found that to

840

00:33:28,370 --> 00:33:26,279

be slightly comical because that is very

841

00:33:29,990 --> 00:33:28,380

much true it is these types of things

842

00:33:32,450 --> 00:33:30,000

that are often thought of as being

843

00:33:34,669 --> 00:33:32,460

innocuous in our society quote unquote

844

00:33:36,529 --> 00:33:34,679

normal people the school system the

845

00:33:38,570 --> 00:33:36,539

financial system which actually are the

846

00:33:41,029 --> 00:33:38,580

source of a lot of our troubles and our

847

00:33:42,470 --> 00:33:41,039

inability to gain the proper orientation

848

00:33:46,430 --> 00:33:42,480

so

849

00:33:48,110 --> 00:33:46,440

I am not a specialized on the matters of

850

00:33:49,610 --> 00:33:48,120

science as the Greek is although I'm

851

00:33:51,830 --> 00:33:49,620

learning about that slowly but surely

852

00:33:53,630 --> 00:33:51,840

but what I have found always caught my

853

00:33:55,850 --> 00:33:53,640

attention was the absurdity of this

854

00:33:57,710 --> 00:33:55,860

thing that we call society and the way

855

00:33:58,909 --> 00:33:57,720

that institutions misdirect everybody's

856

00:34:01,850 --> 00:33:58,919

attention towards things that are

857

00:34:04,190 --> 00:34:01,860

unimportant yeah yeah I certainly agree

858

00:34:06,830 --> 00:34:04,200

a lot of times we are putting the target

859

00:34:11,030 --> 00:34:06,840

kind of on Academia and the Royal

860

00:34:15,050 --> 00:34:11,040

Society and those who injected all this

861

00:34:17,510 --> 00:34:15,060

into the culture and over many decades

862

00:34:20,869 --> 00:34:17,520

centuries have crafted the false

863

00:34:23,450 --> 00:34:20,879

Paradigm that the normal people eat up

864

00:34:26,030 --> 00:34:23,460

and I think you're right so

865

00:34:30,050 --> 00:34:26,040

the archon that's just a fun pseudonym

866

00:34:34,129 --> 00:34:30,060

as you say but I am curious about the

867

00:34:36,290 --> 00:34:34,139

Greek's thoughts on real archons or the

868

00:34:39,770 --> 00:34:36,300

term which suggests there are spiritual

869

00:34:42,349 --> 00:34:39,780

forces mind parasites that kind of feed

870

00:34:44,089 --> 00:34:42,359

on us that direct reality some say

871

00:34:46,550 --> 00:34:44,099

they're attracted to power they can

872

00:34:48,710 --> 00:34:46,560

identify power in our own Elite are

873

00:34:51,589 --> 00:34:48,720

possessed by these archons that's

874

00:34:54,710 --> 00:34:51,599

obviously a gnostic Trope but what are

875

00:34:57,109 --> 00:34:54,720

your thoughts on influences that are

876

00:34:59,990 --> 00:34:57,119

not really seen not even acknowledged

877

00:35:01,190 --> 00:35:00,000

non-physical influences spiritual some

878

00:35:04,970 --> 00:35:01,200

might say

879

00:35:07,490 --> 00:35:04,980

oh I would say definitely sometimes the

880

00:35:10,550 --> 00:35:07,500

thing is measured by the effect more

881

00:35:12,589 --> 00:35:10,560

than what it actually is right actually

882

00:35:14,270 --> 00:35:12,599

most of the current science all of the

883

00:35:16,490 --> 00:35:14,280

probes and measuring equipment doesn't

884

00:35:19,630 --> 00:35:16,500

really measure the thing it measures

885

00:35:22,130 --> 00:35:19,640

what the thing does and when we look at

886

00:35:24,530 --> 00:35:22,140

what the thing does meaning the

887

00:35:26,150 --> 00:35:24,540

Spiritual Beings all the way

888

00:35:29,390 --> 00:35:26,160

let's say when we say spiritual

889

00:35:31,670 --> 00:35:29,400

non-corporeal non-physical down there's

890

00:35:33,530 --> 00:35:31,680

a gradient to where then you have

891

00:35:35,750 --> 00:35:33,540

physical beings but they don't exhibit

892

00:35:37,970 --> 00:35:35,760

the qualities that average humans do

893

00:35:39,650 --> 00:35:37,980

let's say they live longer and they have

894

00:35:41,990 --> 00:35:39,660

powers let's say they're like walking

895

00:35:43,790 --> 00:35:42,000

through walls would be one meme that you

896

00:35:46,250 --> 00:35:43,800

one can bring up

897

00:35:48,650 --> 00:35:46,260

and then they transition down to the

898

00:35:50,990 --> 00:35:48,660

average human that might have insight

899

00:35:52,670 --> 00:35:51,000

into those and might use have some of

900

00:35:55,370 --> 00:35:52,680

that power which we call let's say the

901  
00:35:57,050 --> 00:35:55,380  
Masters and then it transitions down to

902  
00:35:58,910 --> 00:35:57,060  
the students of the Masters then it

903  
00:36:03,230 --> 00:35:58,920  
transitions down to need I say the

904  
00:36:06,710 --> 00:36:03,240  
Normie so that would be like a gradient

905  
00:36:08,930 --> 00:36:06,720  
and if we see what the Normie is capable

906  
00:36:11,150 --> 00:36:08,940  
of and going the gradient now backwards

907  
00:36:13,490 --> 00:36:11,160  
let's say upwards not necessarily

908  
00:36:14,870 --> 00:36:13,500  
because upwards means better just in

909  
00:36:17,870 --> 00:36:14,880  
power

910  
00:36:20,270 --> 00:36:17,880  
we start to see a removal of what the

911  
00:36:22,010 --> 00:36:20,280  
Normie world is and we start to see a

912  
00:36:24,650 --> 00:36:22,020  
point where the Normie world is mixed in

913  
00:36:27,410 --> 00:36:24,660

with the Supernatural and super powerful

914

00:36:29,810 --> 00:36:27,420

world and then we rise up and it becomes

915

00:36:31,609 --> 00:36:29,820

all Supernatural above that so there's a

916

00:36:34,069 --> 00:36:31,619

gradient there and there's an

917

00:36:36,710 --> 00:36:34,079

interbreeding of both mind and

918

00:36:39,050 --> 00:36:36,720

physicality from when you go up and down

919

00:36:42,829 --> 00:36:39,060

through the scale again

920

00:36:44,990 --> 00:36:42,839

I think that from just looking at what's

921

00:36:46,609 --> 00:36:45,000

been memorialized the reason things are

922

00:36:48,770 --> 00:36:46,619

memorialized through history written

923

00:36:51,470 --> 00:36:48,780

whether it's Clay tablet or parchment or

924

00:36:53,390 --> 00:36:51,480

paper or now digitally

925

00:36:56,510 --> 00:36:53,400

when something is memorialized it's

926  
00:36:58,310 --> 00:36:56,520  
because it's important for posterity for

927  
00:37:00,109 --> 00:36:58,320  
people to know that people who are not

928  
00:37:02,690 --> 00:37:00,119  
present whether it's geographically

929  
00:37:04,670 --> 00:37:02,700  
present or in time to have this

930  
00:37:06,530 --> 00:37:04,680  
information carried over what is

931  
00:37:08,750 --> 00:37:06,540  
memorialized about what I just mentioned

932  
00:37:12,410 --> 00:37:08,760  
and what you asked about let's say

933  
00:37:13,730 --> 00:37:12,420  
super beings all the way down is very

934  
00:37:16,310 --> 00:37:13,740  
different

935  
00:37:18,050 --> 00:37:16,320  
to what people let's say everyday people

936  
00:37:20,569 --> 00:37:18,060  
let's say if you were to ask them about

937  
00:37:22,609 --> 00:37:20,579  
them have to say what you will find

938  
00:37:25,250 --> 00:37:22,619

memorialized is a much more tangible

939

00:37:27,829 --> 00:37:25,260

story or structure than what people

940

00:37:31,010 --> 00:37:27,839

think about so when we say that there

941

00:37:32,990 --> 00:37:31,020

are these beings let's just say Superior

942

00:37:35,210 --> 00:37:33,000

in power there's quite a bit of

943

00:37:38,089 --> 00:37:35,220

information about their characteristics

944

00:37:40,370 --> 00:37:38,099

and how they maintain that power where

945

00:37:42,589 --> 00:37:40,380

the average person that thinks about the

946

00:37:45,650 --> 00:37:42,599

subject is not aware of

947

00:37:47,390 --> 00:37:45,660

yeah and for people who might wonder

948

00:37:49,250 --> 00:37:47,400

what you actually mean by that what are

949

00:37:51,290 --> 00:37:49,260

those characteristics because we do have

950

00:37:53,890 --> 00:37:51,300

people like Charles Fort we can go back

951

00:37:56,150 --> 00:37:53,900

even further to biblical texts Where

952

00:37:58,010 --> 00:37:56,160

Angels and things are described far

953

00:38:01,430 --> 00:37:58,020

differently than the religions project

954

00:38:03,530 --> 00:38:01,440

them but when you get to the core of the

955

00:38:06,170 --> 00:38:03,540

characteristics of these super

956

00:38:07,910 --> 00:38:06,180

intelligences or super beings what do

957

00:38:09,050 --> 00:38:07,920

they look like to you or what what makes

958

00:38:12,349 --> 00:38:09,060

them up

959

00:38:14,150 --> 00:38:12,359

well you know the interesting thing the

960

00:38:15,890 --> 00:38:14,160

easiest to discuss are the

961

00:38:18,109 --> 00:38:15,900

anthropomorphic ones like if you go to

962

00:38:19,910 --> 00:38:18,119

the biblical text for example man was

963

00:38:21,109 --> 00:38:19,920

made in their image let's say right the

964

00:38:23,870 --> 00:38:21,119

Gods

965

00:38:26,210 --> 00:38:23,880

they lack physicality or the limits of

966

00:38:29,450 --> 00:38:26,220

physicality but yet can manifest as such

967

00:38:31,490 --> 00:38:29,460

if needed or it by if so desired and

968

00:38:34,849 --> 00:38:31,500

then that leads more into the question

969

00:38:37,310 --> 00:38:34,859

what is physicality you know we were

970

00:38:39,349 --> 00:38:37,320

sort of discussing science earlier

971

00:38:42,230 --> 00:38:39,359

and I would suggest that

972

00:38:44,329 --> 00:38:42,240

from the mystical point of view even to

973

00:38:45,530 --> 00:38:44,339

the what is considered contemporary

974

00:38:48,349 --> 00:38:45,540

science

975

00:38:50,690 --> 00:38:48,359

one will actually if you delve into the

976

00:38:53,630 --> 00:38:50,700

subject there is no physicality it's

977

00:38:56,690 --> 00:38:53,640

just a state of motion and an example of

978

00:39:00,950 --> 00:38:56,700

that would be if you have let's say a

979

00:39:03,410 --> 00:39:00,960

typical desk fan or a bicycle wheel on

980

00:39:05,210 --> 00:39:03,420

your table when it's not moving you can

981

00:39:06,650 --> 00:39:05,220

put your hand in between the blades or

982

00:39:09,130 --> 00:39:06,660

in between the spokes of the bicycle

983

00:39:12,650 --> 00:39:09,140

wheel just fine but once it's rotating

984

00:39:15,109 --> 00:39:12,660

if you approach any of the area

985

00:39:17,390 --> 00:39:15,119

it will seem like a solid object right

986

00:39:20,569 --> 00:39:17,400

because of its movement so there's

987

00:39:23,690 --> 00:39:20,579

something about movement and oscillation

988

00:39:26,690 --> 00:39:23,700

frequency as it's usually described that

989

00:39:28,310 --> 00:39:26,700

these beings have control over and the

990

00:39:29,810 --> 00:39:28,320

easiest ones to discuss are the ones

991

00:39:32,089 --> 00:39:29,820

that are quote unquote anthropomorphic

992

00:39:34,550 --> 00:39:32,099

like for example from the biblical

993

00:39:37,490 --> 00:39:34,560

story or Angels you know we don't think

994

00:39:39,770 --> 00:39:37,500

of something that we don't recognize we

995

00:39:40,550 --> 00:39:39,780

recognize them as being sort of human in

996

00:39:43,190 --> 00:39:40,560

form

997

00:39:45,890 --> 00:39:43,200

and I would suggest that is one aspect

998

00:39:49,670 --> 00:39:45,900

of it and the easiest one to discuss so

999

00:39:51,710 --> 00:39:49,680

imagine an ability to dematerialize or

1000

00:39:55,250 --> 00:39:51,720

not have a physical form based on your

1001  
00:39:58,490 --> 00:39:55,260  
control over the motion of things

1002  
00:40:00,849 --> 00:39:58,500  
yeah that's super interesting I don't

1003  
00:40:05,630 --> 00:40:00,859  
hear people talking about

1004  
00:40:08,510 --> 00:40:05,640  
motion or vibration vibration yes but

1005  
00:40:10,329 --> 00:40:08,520  
not so much in the motion sense but when

1006  
00:40:13,930 --> 00:40:10,339  
you listen to some of these descriptions

1007  
00:40:18,010 --> 00:40:13,940  
they sometimes appear as rotating

1008  
00:40:21,170 --> 00:40:18,020  
concentric Rings or some kind of light

1009  
00:40:22,970 --> 00:40:21,180  
things that do suggest that that might

1010  
00:40:25,310 --> 00:40:22,980  
be a mechanism that they're controlling

1011  
00:40:27,410 --> 00:40:25,320  
that alters the perception or allows

1012  
00:40:29,630 --> 00:40:27,420  
them to be seen or unseen from people

1013  
00:40:32,510 --> 00:40:29,640

that they're trying to encounter

1014

00:40:34,250 --> 00:40:32,520

oh absolutely eventually we might

1015

00:40:36,710 --> 00:40:34,260

discuss or you'll find in the Greek

1016

00:40:39,530 --> 00:40:36,720

speak discussion is the in your face

1017

00:40:42,470 --> 00:40:39,540

examples that are put out in society and

1018

00:40:44,870 --> 00:40:42,480

memorialized and easily referenced one

1019

00:40:48,650 --> 00:40:44,880

of the easiest ones to come across that

1020

00:40:49,790 --> 00:40:48,660

is a shocker if you're perceptive is I

1021

00:40:52,790 --> 00:40:49,800

tell people

1022

00:40:54,890 --> 00:40:52,800

go to the internet and do a search for a

1023

00:40:57,470 --> 00:40:54,900

cross-section of intestines or cross

1024

00:40:59,870 --> 00:40:57,480

sections of lungs or cross-section of

1025

00:41:03,170 --> 00:40:59,880

skin and this is for an anatomical

1026  
00:41:04,250 --> 00:41:03,180  
drawing and then I would suggest do a

1027  
00:41:07,550 --> 00:41:04,260  
split screen

1028  
00:41:10,010 --> 00:41:07,560  
and type in a browser a cross section of

1029  
00:41:13,130 --> 00:41:10,020  
a steel belted radial tire

1030  
00:41:14,750 --> 00:41:13,140  
and you compare the two structurally the

1031  
00:41:17,329 --> 00:41:14,760  
two meaning whether it's a cross-section

1032  
00:41:19,490 --> 00:41:17,339  
of the human lungs or animal lungs or

1033  
00:41:21,349 --> 00:41:19,500  
skin or intestines

1034  
00:41:22,970 --> 00:41:21,359  
compare the cross section with a steel

1035  
00:41:24,310 --> 00:41:22,980  
belted radial tire and you'll see

1036  
00:41:26,510 --> 00:41:24,320  
structurally they're identical

1037  
00:41:28,730 --> 00:41:26,520  
structurally in other words nothing

1038  
00:41:31,250 --> 00:41:28,740

passes through there so we're constantly

1039

00:41:33,290 --> 00:41:31,260

told that we absorb right nutrition even

1040

00:41:35,329 --> 00:41:33,300

the Alternatives oh yeah we have

1041

00:41:38,450 --> 00:41:35,339

something that will

1042

00:41:40,790 --> 00:41:38,460

you will absorb more nutrition you know

1043

00:41:42,470 --> 00:41:40,800

and it lowers blood pressure and we're

1044

00:41:44,990 --> 00:41:42,480

like how is that absorption happening

1045

00:41:46,490 --> 00:41:45,000

look at all of the hydrophobic layers in

1046

00:41:49,730 --> 00:41:46,500

the intestine nothing goes through that

1047

00:41:52,550 --> 00:41:49,740

how is it working right so there's the

1048

00:41:55,370 --> 00:41:52,560

concept of induction uh which is a very

1049

00:41:57,890 --> 00:41:55,380

simple concept for example they have

1050

00:42:00,170 --> 00:41:57,900

these induction cooktop stoves it's a

1051  
00:42:02,930 --> 00:42:00,180  
glass top stove and you can have a pot

1052  
00:42:04,310 --> 00:42:02,940  
of water boiling on it and you just move

1053  
00:42:05,930 --> 00:42:04,320  
the pot off to the side put your hand

1054  
00:42:09,349 --> 00:42:05,940  
right on the glass top it's room temp

1055  
00:42:11,030 --> 00:42:09,359  
and you move the pot right over the

1056  
00:42:12,950 --> 00:42:11,040  
glass top again and it starts to boil

1057  
00:42:15,770 --> 00:42:12,960  
again you know through induction most of

1058  
00:42:18,170 --> 00:42:15,780  
the devices that we use use coils and

1059  
00:42:20,210 --> 00:42:18,180  
capacitors let's say but coils work on

1060  
00:42:22,849 --> 00:42:20,220  
induction you know I have a power

1061  
00:42:25,069 --> 00:42:22,859  
toothbrush and when it goes into the

1062  
00:42:27,230 --> 00:42:25,079  
charger there is no metal contact at all

1063  
00:42:29,569 --> 00:42:27,240

it's just the plastic bases come near to

1064

00:42:31,970 --> 00:42:29,579

each other and there's a LED that blinks

1065

00:42:34,190 --> 00:42:31,980

lets me know it's charging you see

1066

00:42:36,530 --> 00:42:34,200

so once we understand and start using

1067

00:42:38,569 --> 00:42:36,540

and the concept of induction whether

1068

00:42:41,810 --> 00:42:38,579

it's from the part of

1069

00:42:43,609 --> 00:42:41,820

the creative part or the part that

1070

00:42:45,290 --> 00:42:43,619

creates locomotion

1071

00:42:47,270 --> 00:42:45,300

you know when it's taught to us as young

1072

00:42:49,430 --> 00:42:47,280

children then we'll have a society

1073

00:42:50,690 --> 00:42:49,440

that'll be you know more advanced and

1074

00:42:53,390 --> 00:42:50,700

moving forward

1075

00:42:55,430 --> 00:42:53,400

hmm yeah you're touching on something I

1076  
00:42:57,890 --> 00:42:55,440  
was going to bring up the importance of

1077  
00:42:59,630 --> 00:42:57,900  
induction versus absorption

1078  
00:43:01,069 --> 00:42:59,640  
it might be a little fuzzy to some

1079  
00:43:04,010 --> 00:43:01,079  
people out there because they both kind

1080  
00:43:06,410 --> 00:43:04,020  
of invoke this taking in sort of

1081  
00:43:08,630 --> 00:43:06,420  
mechanism but you've talked about the

1082  
00:43:11,089 --> 00:43:08,640  
biological vacuum that it needs to be

1083  
00:43:13,730 --> 00:43:11,099  
studied that blood pressure is a farce

1084  
00:43:16,190 --> 00:43:13,740  
all of our concepts of how biology

1085  
00:43:19,730 --> 00:43:16,200  
functions are by looking at things that

1086  
00:43:23,150 --> 00:43:19,740  
are dead which is idiotic and it's the

1087  
00:43:26,329 --> 00:43:23,160  
how the biological vacuum is maintained

1088  
00:43:28,910 --> 00:43:26,339

question that actually starts the

1089

00:43:31,069 --> 00:43:28,920

research but sadly nothing on this has

1090

00:43:33,290 --> 00:43:31,079

been done since Victor shawberger in the

1091

00:43:35,510 --> 00:43:33,300

1930s well what are some of these

1092

00:43:38,329 --> 00:43:35,520

biological processes that we could

1093

00:43:41,510 --> 00:43:38,339

correct the record on and help demystify

1094

00:43:44,750 --> 00:43:41,520

how biology really works

1095

00:43:46,670 --> 00:43:44,760

well what's interesting is that

1096

00:43:49,069 --> 00:43:46,680

things that are living versus things

1097

00:43:51,290 --> 00:43:49,079

that are not living do have the

1098

00:43:53,870 --> 00:43:51,300

difference of what we call you know life

1099

00:43:55,370 --> 00:43:53,880

essentially and that is something that

1100

00:43:57,349 --> 00:43:55,380

we all kind of

1101  
00:43:59,150 --> 00:43:57,359  
yeah well Greek that sounds very obvious

1102  
00:44:00,410 --> 00:43:59,160  
but when we get into defining it and

1103  
00:44:03,290 --> 00:44:00,420  
explaining it

1104  
00:44:05,569 --> 00:44:03,300  
the biological vacuum is one of the core

1105  
00:44:07,130 --> 00:44:05,579  
principles to examine

1106  
00:44:08,150 --> 00:44:07,140  
for example if you look at the human

1107  
00:44:12,950 --> 00:44:08,160  
body

1108  
00:44:16,490 --> 00:44:12,960  
you'll see that there's no way that

1109  
00:44:18,050 --> 00:44:16,500  
there is anything direct like a tool or

1110  
00:44:20,809 --> 00:44:18,060  
a machine like the heart or anything

1111  
00:44:23,089 --> 00:44:20,819  
that is moving all the fluids evenly

1112  
00:44:24,589 --> 00:44:23,099  
based on the hydrodynamic principles

1113  
00:44:26,809 --> 00:44:24,599

that are taught

1114

00:44:29,089 --> 00:44:26,819

but if we consider that the pressure

1115

00:44:31,670 --> 00:44:29,099

inside the body is slightly less than

1116

00:44:34,730 --> 00:44:31,680

the outer environment then we have the

1117

00:44:36,770 --> 00:44:34,740

freedom of the liquids to move in the

1118

00:44:40,370 --> 00:44:36,780

direction of where that vacuum sustains

1119

00:44:43,430 --> 00:44:40,380

more vacuum essentially it's a big broad

1120

00:44:46,609 --> 00:44:43,440

subject but when you combine that with

1121

00:44:49,730 --> 00:44:46,619

induction which is where you have a

1122

00:44:51,170 --> 00:44:49,740

barrier where things cross immaterially

1123

00:44:53,329 --> 00:44:51,180

where

1124

00:44:55,430 --> 00:44:53,339

you've heard you know the elite pretty

1125

00:44:58,430 --> 00:44:55,440

much invented science fiction to

1126

00:45:01,730 --> 00:44:58,440

disclose to us what's going on in

1127

00:45:05,150 --> 00:45:01,740

something I call Cosmic information in a

1128

00:45:06,770 --> 00:45:05,160

cosmic law information is information it

1129

00:45:08,329 --> 00:45:06,780

doesn't matter if you call it fact or

1130

00:45:10,250 --> 00:45:08,339

fiction the thing is did you get the

1131

00:45:13,130 --> 00:45:10,260

idea if you want to call it fact or

1132

00:45:15,950 --> 00:45:13,140

fiction or truther or not true that's up

1133

00:45:18,589 --> 00:45:15,960

to you so they have this thing called

1134

00:45:20,690 --> 00:45:18,599

Beam Me Up Scott with the transporter or

1135

00:45:21,890 --> 00:45:20,700

the food replicator that they showed in

1136

00:45:24,349 --> 00:45:21,900

Star Trek

1137

00:45:26,990 --> 00:45:24,359

and that should be taken very seriously

1138

00:45:28,370 --> 00:45:27,000

because it's not a very let's say far

1139

00:45:31,190 --> 00:45:28,380

off notion into what's actually

1140

00:45:32,510 --> 00:45:31,200

happening in every living organism

1141

00:45:33,710 --> 00:45:32,520

hmm

1142

00:45:36,290 --> 00:45:33,720

so

1143

00:45:37,970 --> 00:45:36,300

they obviously have Twisted the truth

1144

00:45:41,089 --> 00:45:37,980

and

1145

00:45:43,609 --> 00:45:41,099

they describe mechanisms in the body

1146

00:45:46,010 --> 00:45:43,619

that are not exactly accurate they want

1147

00:45:49,309 --> 00:45:46,020

to suppress the reality of this

1148

00:45:51,410 --> 00:45:49,319

induction well where would that study

1149

00:45:53,930 --> 00:45:51,420

lead why is it so important to them to

1150

00:45:56,329 --> 00:45:53,940

say well your body just absorbs the

1151

00:45:59,030 --> 00:45:56,339

nutrients rather than this induction

1152

00:46:00,950 --> 00:45:59,040

process what are they afraid of us

1153

00:46:03,770 --> 00:46:00,960

discovering there

1154

00:46:05,930 --> 00:46:03,780

okay the thing is are they afraid are

1155

00:46:08,690 --> 00:46:05,940

they fear-based you know there's a big

1156

00:46:10,250 --> 00:46:08,700

meme about that being fear-based right I

1157

00:46:13,370 --> 00:46:10,260

don't think they're that much afraid in

1158

00:46:15,470 --> 00:46:13,380

the way the situation is currently I

1159

00:46:17,030 --> 00:46:15,480

think what they're doing is one thing

1160

00:46:19,250 --> 00:46:17,040

you'll see in the Greek speak I use a

1161

00:46:22,130 --> 00:46:19,260

lot they're pranking it's a form of

1162

00:46:23,270 --> 00:46:22,140

pranking it brings entertainment

1163

00:46:25,069 --> 00:46:23,280

you know

1164

00:46:27,290 --> 00:46:25,079

give an analogy

1165

00:46:30,470 --> 00:46:27,300

I visited another world once this is

1166

00:46:32,930 --> 00:46:30,480

just an analogy and the biggest industry

1167

00:46:34,309 --> 00:46:32,940

on that world was Kevlar or bulletproof

1168

00:46:37,010 --> 00:46:34,319

underwear

1169

00:46:39,230 --> 00:46:37,020

and I asked why it says because it's a

1170

00:46:42,950 --> 00:46:39,240

custom it's customary to put a thumbtack

1171

00:46:45,890 --> 00:46:42,960

down on a seat before anyone sits on it

1172

00:46:47,990 --> 00:46:45,900

and to prevent the pain they have a big

1173

00:46:50,809 --> 00:46:48,000

industry that produces Kevlar underwear

1174

00:46:53,870 --> 00:46:50,819

that everyone Buys so I suggested we'll

1175

00:46:56,089 --> 00:46:53,880

just stop putting thumbtacks on seats

1176

00:46:59,030 --> 00:46:56,099

and they said well you can't do that

1177

00:47:01,550 --> 00:46:59,040

we've been doing it for a long time and

1178

00:47:03,170 --> 00:47:01,560

if it starts to catch on those that

1179

00:47:04,130 --> 00:47:03,180

produce that bulletproof Kevlar

1180

00:47:05,930 --> 00:47:04,140

underwear

1181

00:47:07,609 --> 00:47:05,940

are going to really come after me aren't

1182

00:47:08,809 --> 00:47:07,619

they because I'm messing up their

1183

00:47:11,990 --> 00:47:08,819

business

1184

00:47:13,849 --> 00:47:12,000

so it's a combination of pranking It's a

1185

00:47:16,790 --> 00:47:13,859

combination of control

1186

00:47:19,609 --> 00:47:16,800

a combination of culture

1187

00:47:23,089 --> 00:47:19,619

the reason why one of the things that

1188

00:47:26,210 --> 00:47:23,099

sets gasoline prices for example is how

1189

00:47:28,910 --> 00:47:26,220

much do you have to pay to go a certain

1190

00:47:30,770 --> 00:47:28,920

distance hmm right that's why a lot

1191

00:47:32,690 --> 00:47:30,780

often diesel fuel costs more because you

1192

00:47:34,069 --> 00:47:32,700

get better mileage on diesel fuel it's

1193

00:47:37,010 --> 00:47:34,079

very interesting

1194

00:47:39,170 --> 00:47:37,020

so I would suggest that it's just a

1195

00:47:41,990 --> 00:47:39,180

strict control system

1196

00:47:44,030 --> 00:47:42,000

there is an emotional component to the

1197

00:47:46,130 --> 00:47:44,040

induction meaning

1198

00:47:47,750 --> 00:47:46,140

if you're in a bad emotional state you

1199

00:47:48,890 --> 00:47:47,760

usually won't perform as well as if

1200

00:47:50,690 --> 00:47:48,900

you're in a

1201  
00:47:52,550 --> 00:47:50,700  
good emotional state when I say perform

1202  
00:47:54,710 --> 00:47:52,560  
I mean in your daily life whatever it is

1203  
00:47:56,390 --> 00:47:54,720  
even just sitting down to have a meal so

1204  
00:47:57,770 --> 00:47:56,400  
there's an emotional component an

1205  
00:48:00,050 --> 00:47:57,780  
energetic component and a physical

1206  
00:48:01,130 --> 00:48:00,060  
component to everything we can possibly

1207  
00:48:04,910 --> 00:48:01,140  
discuss

1208  
00:48:07,790 --> 00:48:04,920  
hmm I like it and let me ask you about

1209  
00:48:10,130 --> 00:48:07,800  
alchemy it's another subject that has a

1210  
00:48:12,230 --> 00:48:10,140  
rich history but it all sort of dries up

1211  
00:48:13,790 --> 00:48:12,240  
about a hundred years ago we're told

1212  
00:48:15,650 --> 00:48:13,800  
that's because the work was really

1213  
00:48:18,410 --> 00:48:15,660

theoretical and didn't actually

1214

00:48:20,750 --> 00:48:18,420

constitute a real science materials

1215

00:48:22,970 --> 00:48:20,760

can't be transmuted into other materials

1216

00:48:26,630 --> 00:48:22,980

what are your thoughts on the field of

1217

00:48:29,630 --> 00:48:26,640

alchemy and its actual value

1218

00:48:31,970 --> 00:48:29,640

well the basic definition of alchemy

1219

00:48:33,829 --> 00:48:31,980

well basically in a loose way is where

1220

00:48:37,130 --> 00:48:33,839

you involve Spirit or mind into the

1221

00:48:38,990 --> 00:48:37,140

process and the individual is a variable

1222

00:48:40,010 --> 00:48:39,000

or component in whatever process you're

1223

00:48:42,170 --> 00:48:40,020

doing

1224

00:48:45,290 --> 00:48:42,180

and that goes to chemistry for example

1225

00:48:46,430 --> 00:48:45,300

when we discuss Alchemy directly and

1226

00:48:48,170 --> 00:48:46,440

chemistry is just a matter of

1227

00:48:49,670 --> 00:48:48,180

synthesizing things or making things

1228

00:48:50,630 --> 00:48:49,680

that you might need that are not around

1229

00:48:53,450 --> 00:48:50,640

right

1230

00:48:55,849 --> 00:48:53,460

the typical one would be turning base

1231

00:48:58,430 --> 00:48:55,859

Metals into gold right because gold

1232

00:49:01,030 --> 00:48:58,440

let's say is desirable or whatever

1233

00:49:03,770 --> 00:49:01,040

but I would suggest that Alchemy again

1234

00:49:04,910 --> 00:49:03,780

if the Mind component the emotional

1235

00:49:07,609 --> 00:49:04,920

component

1236

00:49:10,550 --> 00:49:07,619

and the state of whoever is working on

1237

00:49:12,950 --> 00:49:10,560

the process is removed publicly in other

1238

00:49:14,690 --> 00:49:12,960

words from the public mind then the

1239

00:49:16,430 --> 00:49:14,700

public becomes very dependent on what's

1240

00:49:19,609 --> 00:49:16,440

put out to them and they have to quote

1241

00:49:21,470 --> 00:49:19,619

unquote they've become less powerful and

1242

00:49:23,569 --> 00:49:21,480

more dependent again it's a dependency

1243

00:49:26,270 --> 00:49:23,579

aspect but I would suggest that Alchemy

1244

00:49:28,670 --> 00:49:26,280

and I can give you uh let's just say

1245

00:49:31,550 --> 00:49:28,680

sort of indirect and sort of direct

1246

00:49:33,410 --> 00:49:31,560

that the schools of alchemy have gone

1247

00:49:36,770 --> 00:49:33,420

underground and they're still being used

1248

00:49:39,470 --> 00:49:36,780

today by the large chemical companies

1249

00:49:41,569 --> 00:49:39,480

industrial concerns they're definitely

1250

00:49:44,030 --> 00:49:41,579

being used today if you look at the

1251

00:49:44,930 --> 00:49:44,040

field of what's called catalysts for

1252

00:49:46,910 --> 00:49:44,940

example

1253

00:49:49,490 --> 00:49:46,920

if you have vegetable shortening it's

1254

00:49:51,230 --> 00:49:49,500

like material that looks like a putty

1255

00:49:53,150 --> 00:49:51,240

it's not liquid it's basically water and

1256

00:49:55,370 --> 00:49:53,160

oil mixed together but you can't mix

1257

00:49:58,370 --> 00:49:55,380

water and oil together but if you run it

1258

00:50:01,490 --> 00:49:58,380

over nickel beads a catalyst nickel does

1259

00:50:03,829 --> 00:50:01,500

not add itself to the mix but because it

1260

00:50:06,829 --> 00:50:03,839

went over the nickel Catalyst now the

1261

00:50:10,250 --> 00:50:06,839

water and oil don't separate right there

1262

00:50:12,349 --> 00:50:10,260

are processes still in metal alloys I'll

1263

00:50:14,870 --> 00:50:12,359

give an example Barrel bronze which is

1264

00:50:17,150 --> 00:50:14,880

one of the hardest well most durable and

1265

00:50:19,550 --> 00:50:17,160

not hardest but durable and bearing

1266

00:50:21,910 --> 00:50:19,560

meaning you have two metals rubbing up

1267

00:50:25,309 --> 00:50:21,920

against each other a bearing surface

1268

00:50:27,050 --> 00:50:25,319

there is a particular alloy that's of

1269

00:50:29,569 --> 00:50:27,060

many allies but Barrel bronze where you

1270

00:50:31,609 --> 00:50:29,579

have beryllium copper tin zinc and other

1271

00:50:33,290 --> 00:50:31,619

things mixed together if you melt those

1272

00:50:35,210 --> 00:50:33,300

metals and put them together you're not

1273

00:50:38,150 --> 00:50:35,220

going to get Barrel bronze the qualities

1274

00:50:40,609 --> 00:50:38,160

of barrel bronze what must be done is

1275

00:50:43,970 --> 00:50:40,619

while all those metals are molten in a

1276

00:50:46,790 --> 00:50:43,980

vat one must break off a fresh green

1277

00:50:48,829 --> 00:50:46,800

Branch from a heart hardwood tree and

1278

00:50:51,290 --> 00:50:48,839

stir the molten metal with this fresh

1279

00:50:53,150 --> 00:50:51,300

green branch and drop it in then you

1280

00:50:55,549 --> 00:50:53,160

will get the qualities of barrel bronze

1281

00:50:57,410 --> 00:50:55,559

now if that doesn't sound like Alchemy

1282

00:50:58,849 --> 00:50:57,420

being used today I don't know what is

1283

00:51:02,329 --> 00:50:58,859

it's still being used today it's just

1284

00:51:04,790 --> 00:51:02,339

not public hmm yeah these are the little

1285

00:51:08,870 --> 00:51:04,800

anecdotes that I just find really unique

1286

00:51:11,270 --> 00:51:08,880

about hearing you speak another aspect

1287

00:51:13,490 --> 00:51:11,280

of like the intelligence of Nature and

1288

00:51:16,250 --> 00:51:13,500

the symbiosis that you've said kind of

1289

00:51:18,490 --> 00:51:16,260

in passing is that poison ivy won't grow

1290

00:51:22,609 --> 00:51:18,500

unless it's in the presence of white oak

1291

00:51:24,589 --> 00:51:22,619

and white oak bark is the remedy for

1292

00:51:27,410 --> 00:51:24,599

poison ivy now this is something that I

1293

00:51:29,329 --> 00:51:27,420

did not know I got poison ivy a lot when

1294

00:51:31,970 --> 00:51:29,339

I was young running through the woods of

1295

00:51:34,730 --> 00:51:31,980

the Midwest I didn't realize it had this

1296

00:51:36,890 --> 00:51:34,740

symbiosis and I'm curious about other

1297

00:51:39,410 --> 00:51:36,900

examples of that and the intelligence of

1298

00:51:42,049 --> 00:51:39,420

Nature and how the natural world

1299

00:51:44,450 --> 00:51:42,059

has a lot of this baked in and we are

1300

00:51:46,190 --> 00:51:44,460

just so divorced from the natural world

1301  
00:51:48,770 --> 00:51:46,200  
these days we're in these concrete

1302  
00:51:50,690 --> 00:51:48,780  
jungles that even a little example like

1303  
00:51:53,750 --> 00:51:50,700  
that is intriguing

1304  
00:51:54,770 --> 00:51:53,760  
well yeah I like giving or send people

1305  
00:51:57,410 --> 00:51:54,780  
to the direction of what's called

1306  
00:51:59,530 --> 00:51:57,420  
macrobiotics or the yin and yang concept

1307  
00:52:02,030 --> 00:51:59,540  
it's an Asian what I don't like about

1308  
00:52:03,710 --> 00:52:02,040  
recommending it is that it's very Asian

1309  
00:52:05,930 --> 00:52:03,720  
oriented and people think they have to

1310  
00:52:07,730 --> 00:52:05,940  
be Japanese or Chinese to understand it

1311  
00:52:10,309 --> 00:52:07,740  
right the yin and yang symbol is very

1312  
00:52:13,250 --> 00:52:10,319  
much interrelated where I would suggest

1313  
00:52:14,930 --> 00:52:13,260

that the concept of balance every

1314

00:52:16,730 --> 00:52:14,940

culture had it but

1315

00:52:18,290 --> 00:52:16,740

while out of westerners are sort of

1316

00:52:21,589 --> 00:52:18,300

turned off because they think I'm trying

1317

00:52:23,690 --> 00:52:21,599

to make them Asian Centric which I'm not

1318

00:52:25,730 --> 00:52:23,700

but it's the only place that it's been

1319

00:52:28,670 --> 00:52:25,740

preserved right the concept of Yin and

1320

00:52:30,470 --> 00:52:28,680

Yang expansive contractive right and

1321

00:52:34,069 --> 00:52:30,480

properties and how the balancing

1322

00:52:37,609 --> 00:52:34,079

actually works and I would suggest

1323

00:52:40,670 --> 00:52:37,619

that the remedy or the solution must be

1324

00:52:42,230 --> 00:52:40,680

in place prior to or at the same time

1325

00:52:49,790 --> 00:52:42,240

the

1326  
00:52:51,290 --> 00:52:49,800  
let's just use a dummy load kind of term

1327  
00:52:53,870 --> 00:52:51,300  
like God and the devil came together

1328  
00:52:56,329 --> 00:52:53,880  
right you can't have negative or good

1329  
00:52:57,470 --> 00:52:56,339  
without bad you know they come in

1330  
00:53:00,290 --> 00:52:57,480  
together

1331  
00:53:02,210 --> 00:53:00,300  
you know I used Star Wars as an example

1332  
00:53:04,069 --> 00:53:02,220  
people think that you know the Jedi have

1333  
00:53:06,170 --> 00:53:04,079  
to defeat the Sith it's not about that

1334  
00:53:08,270 --> 00:53:06,180  
it's never in the storyline the

1335  
00:53:10,309 --> 00:53:08,280  
storyline is to put it in balance

1336  
00:53:11,809 --> 00:53:10,319  
it's not to eliminate one or the other

1337  
00:53:13,010 --> 00:53:11,819  
Sith they're not trying to eliminate the

1338  
00:53:14,510 --> 00:53:13,020

Jedi and the Jedi not trying to

1339

00:53:16,549 --> 00:53:14,520

eliminate said it's just to keep them in

1340

00:53:19,010 --> 00:53:16,559

Balance when one gets much stronger than

1341

00:53:21,109 --> 00:53:19,020

the other there's an imbalance and this

1342

00:53:23,450 --> 00:53:21,119

is pretty much how nature works

1343

00:53:25,549 --> 00:53:23,460

I like it and just to step back to

1344

00:53:27,890 --> 00:53:25,559

Alchemy a bit I've heard you say that if

1345

00:53:30,230 --> 00:53:27,900

you just examine the mechanisms of the

1346

00:53:32,890 --> 00:53:30,240

body you can see Alchemy and

1347

00:53:36,230 --> 00:53:32,900

transmutation as a part of General

1348

00:53:38,210 --> 00:53:36,240

biology when you are low on something

1349

00:53:39,710 --> 00:53:38,220

you don't take that thing you take

1350

00:53:42,230 --> 00:53:39,720

something else that helps your body

1351  
00:53:43,130 --> 00:53:42,240  
produce that thing talk to us about that

1352  
00:53:46,309 --> 00:53:43,140  
a bit

1353  
00:53:48,710 --> 00:53:46,319  
a simple direction to point people at is

1354  
00:53:51,349 --> 00:53:48,720  
to look up the work of Lewis kevron

1355  
00:53:53,690 --> 00:53:51,359  
k-e-v-r-a-n

1356  
00:53:56,510 --> 00:53:53,700  
he did the biological transmutation

1357  
00:53:58,549 --> 00:53:56,520  
experiments which about a decade ago I

1358  
00:54:00,109 --> 00:53:58,559  
had met someone just by chance that was

1359  
00:54:03,109 --> 00:54:00,119  
part of one of those experiments in the

1360  
00:54:04,549 --> 00:54:03,119  
Moroccan desert but what he had done was

1361  
00:54:07,490 --> 00:54:04,559  
examined

1362  
00:54:10,490 --> 00:54:07,500  
and also using the basic scientific

1363  
00:54:12,950 --> 00:54:10,500

nomenclature a chicken egg and how it's

1364

00:54:15,790 --> 00:54:12,960

mostly calcium pure calcium

1365

00:54:19,309 --> 00:54:15,800

and he decided to eliminate anything

1366

00:54:21,530 --> 00:54:19,319

that a group of control chickens in the

1367

00:54:23,569 --> 00:54:21,540

experiment were eating with calcium in

1368

00:54:25,910 --> 00:54:23,579

it at all so these chickens were eating

1369

00:54:27,290 --> 00:54:25,920

food that was devoid of calcium they

1370

00:54:29,030 --> 00:54:27,300

went through Great Lengths to make sure

1371

00:54:30,290 --> 00:54:29,040

that none of the feed had any calcium

1372

00:54:32,329 --> 00:54:30,300

content

1373

00:54:34,309 --> 00:54:32,339

but the chicken still produced a robust

1374

00:54:36,530 --> 00:54:34,319

calcium egg and they didn't have any

1375

00:54:38,990 --> 00:54:36,540

bone loss or beak loss or anything else

1376

00:54:41,630 --> 00:54:39,000

so they he discovered basically that it

1377

00:54:44,450 --> 00:54:41,640

was traces of magnesium and sodium

1378

00:54:46,010 --> 00:54:44,460

inside the living being that created the

1379

00:54:48,109 --> 00:54:46,020

elemental calcium

1380

00:54:50,930 --> 00:54:48,119

and the same goes for humans with

1381

00:54:52,910 --> 00:54:50,940

potassium for example as an electrolyte

1382

00:54:54,589 --> 00:54:52,920

you know a lot of people like oh I eat

1383

00:54:56,809 --> 00:54:54,599

bananas because they have potassium

1384

00:54:58,970 --> 00:54:56,819

right well it's actually again you need

1385

00:55:01,309 --> 00:54:58,980

a high quality sodium and physical

1386

00:55:05,210 --> 00:55:01,319

activity for the body to produce

1387

00:55:07,370 --> 00:55:05,220

potassium in the blood so he has a l

1388

00:55:09,829 --> 00:55:07,380

would say extensive work but he has many

1389

00:55:11,990 --> 00:55:09,839

many direct examples like that Louis

1390

00:55:12,770 --> 00:55:12,000

curvran would be an easy place to check

1391

00:55:14,990 --> 00:55:12,780

out

1392

00:55:17,390 --> 00:55:15,000

let me just throw one thing in there

1393

00:55:21,670 --> 00:55:17,400

one of the metrics that they use for

1394

00:55:24,410 --> 00:55:21,680

food is calories right now

1395

00:55:26,270 --> 00:55:24,420

the calorie counting thing it was really

1396

00:55:28,790 --> 00:55:26,280

crazy A decade ago it's not so much

1397

00:55:31,430 --> 00:55:28,800

anymore and even prior to a decade ago

1398

00:55:33,230 --> 00:55:31,440

but let me just suggest the caloric

1399

00:55:34,910 --> 00:55:33,240

measurement is basically the amount of

1400

00:55:36,829 --> 00:55:34,920

temperature it takes to raise one gram

1401

00:55:39,170 --> 00:55:36,839

or one cubic centimeter of water it's a

1402

00:55:42,170 --> 00:55:39,180

very simple metric if you see how it's

1403

00:55:44,329 --> 00:55:42,180

done it looks basically in a lab or it's

1404

00:55:46,430 --> 00:55:44,339

a glass tube they put the object they

1405

00:55:48,290 --> 00:55:46,440

want to find how many calories it has in

1406

00:55:50,630 --> 00:55:48,300

the glass tube and they seal it Purge it

1407

00:55:52,910 --> 00:55:50,640

with pure oxygen something looks like a

1408

00:55:54,950 --> 00:55:52,920

spark plug goes boom everything just

1409

00:55:56,690 --> 00:55:54,960

completely Burns it's submerged in a

1410

00:55:58,549 --> 00:55:56,700

bath of water and they measure the

1411

00:56:00,170 --> 00:55:58,559

amount of water and the amount of heat

1412

00:56:03,650 --> 00:56:00,180

it give off and there's your caloric

1413

00:56:05,329 --> 00:56:03,660

output the only thing with that is that

1414

00:56:08,569 --> 00:56:05,339

if you were to eat a banana

1415

00:56:10,609 --> 00:56:08,579

for potassium right as most people say

1416

00:56:13,430 --> 00:56:10,619

let's say Banana's got 80 calories when

1417

00:56:15,589 --> 00:56:13,440

you poop it can you burn that poop of

1418

00:56:17,510 --> 00:56:15,599

course you can continue burning it so

1419

00:56:18,710 --> 00:56:17,520

unless you know anyone who poops

1420

00:56:20,569 --> 00:56:18,720

charcoal

1421

00:56:22,910 --> 00:56:20,579

the calories are an irrelevant metric

1422

00:56:25,910 --> 00:56:22,920

for food hmm

1423

00:56:29,270 --> 00:56:25,920

so unless you're pooping pure carbon

1424

00:56:30,770 --> 00:56:29,280

uh it's an irrelevant metric like blood

1425

00:56:33,829 --> 00:56:30,780

pressure and other things that are being

1426

00:56:37,430 --> 00:56:33,839

the blood sugar is another one so well

1427

00:56:41,930 --> 00:56:39,470

I was always fascinated by Rudolph

1428

00:56:44,089 --> 00:56:41,940

Steiner talking about blood saying that

1429

00:56:46,790 --> 00:56:44,099

it's basically a spiritual substance or

1430

00:56:48,650 --> 00:56:46,800

a substance that links the spiritual and

1431

00:56:50,809 --> 00:56:48,660

physical and that it's something you

1432

00:56:52,609 --> 00:56:50,819

can't actually get at

1433

00:56:55,790 --> 00:56:52,619

outside of the body because once it's

1434

00:56:58,549 --> 00:56:55,800

oxygenated it is a different thing so

1435

00:57:02,809 --> 00:56:58,559

it's like really quite curious that it

1436

00:57:05,150 --> 00:57:02,819

can't really be totally known in a sense

1437

00:57:07,609 --> 00:57:05,160

because of it's where it where it's kept

1438

00:57:09,530 --> 00:57:07,619

beneath the skin and as you mentioned

1439

00:57:12,829 --> 00:57:09,540

about studying things that are dead this

1440

00:57:15,650 --> 00:57:12,839

is not exactly what blood is blood needs

1441

00:57:17,690 --> 00:57:15,660

to be alive and inside the body to be

1442

00:57:20,390 --> 00:57:17,700

what it naturally is what are your

1443

00:57:22,970 --> 00:57:20,400

thoughts on if blood pressure is a farce

1444

00:57:25,069 --> 00:57:22,980

and blood sugar is a farce well they say

1445

00:57:28,190 --> 00:57:25,079

that one of the biggest causes of death

1446

00:57:30,470 --> 00:57:28,200

is heart disease and that obviously

1447

00:57:31,970 --> 00:57:30,480

involves the blood what is going on with

1448

00:57:35,150 --> 00:57:31,980

the blood and the Heart what's the

1449

00:57:38,569 --> 00:57:35,160

proper way to think about this stuff

1450

00:57:40,430 --> 00:57:38,579

well okay one way to look at it is just

1451  
00:57:42,109 --> 00:57:40,440  
even to cursory examination of all of

1452  
00:57:43,730 --> 00:57:42,119  
the organs in the body you'll see that

1453  
00:57:46,970 --> 00:57:43,740  
they're all alien to each other right

1454  
00:57:49,370 --> 00:57:46,980  
even an early student in the medical

1455  
00:57:51,410 --> 00:57:49,380  
field you'll show him a liver cell and

1456  
00:57:53,329 --> 00:57:51,420  
he'll identify it as such or sell from

1457  
00:57:55,849 --> 00:57:53,339  
the kidneys identify it as such they're

1458  
00:57:57,710 --> 00:57:55,859  
very very our brain cell if you've ever

1459  
00:58:00,290 --> 00:57:57,720  
met anyone who still has any of those by

1460  
00:58:01,910 --> 00:58:00,300  
the way but if you look at all of the

1461  
00:58:03,710 --> 00:58:01,920  
cells they're very distinct almost as if

1462  
00:58:05,510 --> 00:58:03,720  
you have these alien creatures that have

1463  
00:58:08,270 --> 00:58:05,520

come together from different universes

1464

00:58:10,190 --> 00:58:08,280

or different worlds to work together and

1465

00:58:12,349 --> 00:58:10,200

when they were assembled in the body

1466

00:58:14,390 --> 00:58:12,359

actually all living things mammals

1467

00:58:17,089 --> 00:58:14,400

especially and other creatures that are

1468

00:58:21,170 --> 00:58:17,099

mobile have all of these alien looking

1469

00:58:24,290 --> 00:58:21,180

organs right and they're all pretty much

1470

00:58:26,230 --> 00:58:24,300

there to produce and sustain the blood

1471

00:58:29,510 --> 00:58:26,240

in the body they all have their own

1472

00:58:32,210 --> 00:58:29,520

attribute on what they do so the blood

1473

00:58:34,130 --> 00:58:32,220

is essentially the focus one thing that

1474

00:58:35,930 --> 00:58:34,140

I would suggest we said blood pressure

1475

00:58:38,510 --> 00:58:35,940

is a farce you know based basically the

1476

00:58:40,789 --> 00:58:38,520

cuff that restricts blood flow is an

1477

00:58:44,089 --> 00:58:40,799

unnatural occurrence and they basically

1478

00:58:46,370 --> 00:58:44,099

just measuring the beats in between the

1479

00:58:49,370 --> 00:58:46,380

pause and the beat of the heart

1480

00:58:51,710 --> 00:58:49,380

it's again a fallacy of a metric

1481

00:58:53,870 --> 00:58:51,720

but I would suggest that the blood is a

1482

00:58:55,849 --> 00:58:53,880

byproduct or the goal of all of the

1483

00:58:58,789 --> 00:58:55,859

organs of the body to sustain and

1484

00:59:01,270 --> 00:58:58,799

produce so it is very mystical in that

1485

00:59:04,670 --> 00:59:01,280

aspect if you study uh live blood

1486

00:59:07,430 --> 00:59:04,680

studies there was a I think a Duo father

1487

00:59:09,230 --> 00:59:07,440

and daughter in Canada a few decades ago

1488

00:59:11,329 --> 00:59:09,240

and they're able to for a short time

1489

00:59:12,829 --> 00:59:11,339

view live blood under a microscope and

1490

00:59:15,349 --> 00:59:12,839

they would see little flashes of blue

1491

00:59:17,390 --> 00:59:15,359

light under the slide and where the

1492

00:59:19,309 --> 00:59:17,400

flash of blue light subsided there would

1493

00:59:21,589 --> 00:59:19,319

be a new cell developed it could be a

1494

00:59:24,130 --> 00:59:21,599

red blood cell sometimes it was a white

1495

00:59:27,109 --> 00:59:24,140

blood cell sometimes it was a yeast cell

1496

00:59:30,410 --> 00:59:27,119

right so all of these things were being

1497

00:59:32,390 --> 00:59:30,420

produced under let's say the effects of

1498

00:59:34,849 --> 00:59:32,400

little flashes of yellow or blue light

1499

00:59:38,510 --> 00:59:34,859

under the slide trying to keep the blood

1500

00:59:41,150 --> 00:59:38,520

alive wow wow yeah that's the kind of

1501  
00:59:44,270 --> 00:59:41,160  
stuff that really intrigues me and just

1502  
00:59:46,609 --> 00:59:44,280  
from guests of the past that I've talked

1503  
00:59:49,069 --> 00:59:46,619  
to it seems like the mechanisms of water

1504  
00:59:51,589 --> 00:59:49,079  
electricity frequency and vibration are

1505  
00:59:52,970 --> 00:59:51,599  
the real underpinning aspects of reality

1506  
00:59:54,890 --> 00:59:52,980  
that we should be studying and

1507  
00:59:58,309 --> 00:59:54,900  
experimenting with because the results

1508  
01:00:00,770 --> 00:59:58,319  
seem almost magical there's this unknown

1509  
01:00:02,390 --> 01:00:00,780  
quality to a lot of things that are

1510  
01:00:04,789 --> 01:00:02,400  
going on in nature that we just either

1511  
01:00:07,190 --> 01:00:04,799  
take for granted or completely ignorant

1512  
01:00:10,910 --> 01:00:07,200  
of like that flash of light sort of

1513  
01:00:13,609 --> 01:00:10,920

thing it seems like in terms of health

1514

01:00:15,230 --> 01:00:13,619

we need proper charge I mean people you

1515

01:00:17,450 --> 01:00:15,240

know we talked about charge and how that

1516

01:00:19,789 --> 01:00:17,460

term isn't necessarily uh descriptive

1517

01:00:23,390 --> 01:00:19,799

enough but you know walking on the earth

1518

01:00:26,569 --> 01:00:23,400

seems to matter uh salt seems to help

1519

01:00:29,210 --> 01:00:26,579

the conductivity of our body and proper

1520

01:00:31,309 --> 01:00:29,220

structured water seems to help uh

1521

01:00:33,049 --> 01:00:31,319

produce healthy cells those seem to be

1522

01:00:36,230 --> 01:00:33,059

some of the biggest components yet

1523

01:00:37,849 --> 01:00:36,240

everyone focuses on just diet well I

1524

01:00:38,870 --> 01:00:37,859

think these other things should be right

1525

01:00:41,030 --> 01:00:38,880

up there

1526

01:00:43,130 --> 01:00:41,040

yes and these other things are a state

1527

01:00:44,809 --> 01:00:43,140

of mind and which lead to emotion which

1528

01:00:46,670 --> 01:00:44,819

lead to action thoughts and then

1529

01:00:49,069 --> 01:00:46,680

eventually manifestation

1530

01:00:50,450 --> 01:00:49,079

so as we're really nearing the end of

1531

01:00:53,510 --> 01:00:50,460

this thing

1532

01:00:55,190 --> 01:00:53,520

I wanted to ask you about just the way

1533

01:00:56,870 --> 01:00:55,200

that some of the terms are phrased on

1534

01:00:58,609 --> 01:00:56,880

the website about what you do you say

1535

01:01:00,710 --> 01:00:58,619

that you don't seek approval you just

1536

01:01:02,990 --> 01:01:00,720

seek the truth sometimes that offends in

1537

01:01:05,690 --> 01:01:03,000

a culture that is as backwards as this

1538

01:01:08,329 --> 01:01:05,700

one well as we're coming to the end

1539

01:01:10,309 --> 01:01:08,339

other lines you have on the website say

1540

01:01:12,710 --> 01:01:10,319

for example

1541

01:01:14,390 --> 01:01:12,720

when I tell people that Society is in a

1542

01:01:16,309 --> 01:01:14,400

bad position they just imagine the

1543

01:01:18,230 --> 01:01:16,319

current situation being in a worse state

1544

01:01:20,270 --> 01:01:18,240

but that's not it things are worse than

1545

01:01:24,589 --> 01:01:20,280

you imagine because of things you don't

1546

01:01:26,270 --> 01:01:24,599

know anything about or the contrast to

1547

01:01:28,069 --> 01:01:26,280

what people think is going on and what's

1548

01:01:31,490 --> 01:01:28,079

really going on is so huge that you

1549

01:01:34,549 --> 01:01:31,500

can't talk about it publicly well I am

1550

01:01:38,089 --> 01:01:34,559

interested in the rawest of truths the

1551

01:01:40,010 --> 01:01:38,099

deepest of rabbit holes the most taboo

1552

01:01:42,230 --> 01:01:40,020

truths available

1553

01:01:46,130 --> 01:01:42,240

what would you consider to be the most

1554

01:01:48,410 --> 01:01:46,140

taboo topic that you could speak truth

1555

01:01:50,329 --> 01:01:48,420

on like what are the truths that

1556

01:01:52,670 --> 01:01:50,339

sometimes seem to even make other truth

1557

01:01:55,190 --> 01:01:52,680

Seekers get a bit queasy

1558

01:01:57,109 --> 01:01:55,200

okay that's a really good question and

1559

01:01:59,809 --> 01:01:57,119

it doesn't need to be pondered much

1560

01:02:02,270 --> 01:01:59,819

basically because of the tools we have

1561

01:02:03,470 --> 01:02:02,280

and I say basic tools most people have

1562

01:02:05,089 --> 01:02:03,480

access to what I call the stupid

1563

01:02:08,150 --> 01:02:05,099

rectangle right

1564

01:02:10,069 --> 01:02:08,160

and the devices that they use and one of

1565

01:02:13,250 --> 01:02:10,079

the things that I tell people

1566

01:02:15,950 --> 01:02:13,260

when this is brought up is if you go and

1567

01:02:18,829 --> 01:02:15,960

look on the internet for the weirdest

1568

01:02:21,470 --> 01:02:18,839

most outlandish conspiracy theory

1569

01:02:24,950 --> 01:02:21,480

whether it's like Dulce you know the

1570

01:02:27,170 --> 01:02:24,960

underground base or spiders on mars or

1571

01:02:29,569 --> 01:02:27,180

cloning or anything like that

1572

01:02:31,730 --> 01:02:29,579

the reality is even worse than that it's

1573

01:02:34,549 --> 01:02:31,740

even more extreme than that so the most

1574

01:02:36,470 --> 01:02:34,559

extreme stuff on the internet is

1575

01:02:38,930 --> 01:02:36,480

probably closer to the truth and you

1576

01:02:41,450 --> 01:02:38,940

know hmm

1577

01:02:44,150 --> 01:02:41,460

well I like it broadly speaking Yeah I

1578

01:02:47,510 --> 01:02:44,160

mean it's hard to know exactly what that

1579

01:02:49,490 --> 01:02:47,520

means but I generally agree

1580

01:02:51,410 --> 01:02:49,500

yeah and the thing is to not take it

1581

01:02:53,930 --> 01:02:51,420

where it drives you insane and don't be

1582

01:02:55,609 --> 01:02:53,940

prepared to do a public recitation or

1583

01:02:57,049 --> 01:02:55,619

dissertation on it because it's not

1584

01:02:59,390 --> 01:02:57,059

going to be accepted when I say public

1585

01:03:01,549 --> 01:02:59,400

it could be just people within five feet

1586

01:03:03,109 --> 01:03:01,559

reach of you but just take in the

1587

01:03:05,750 --> 01:03:03,119

information

1588

01:03:08,510 --> 01:03:05,760

I always say from a cosmic perspective

1589

01:03:10,190 --> 01:03:08,520

information is just that it's not

1590

01:03:12,049 --> 01:03:10,200

whether you think it's true or not is

1591

01:03:15,770 --> 01:03:12,059

did you get the picture do you have the

1592

01:03:17,870 --> 01:03:15,780

notion right so later on very often I

1593

01:03:20,870 --> 01:03:17,880

tell people certain things that can be

1594

01:03:22,670 --> 01:03:20,880

accessed and I don't like explaining

1595

01:03:25,309 --> 01:03:22,680

them like for example the word nice if

1596

01:03:28,250 --> 01:03:25,319

you look it up in an etymology it means

1597

01:03:30,650 --> 01:03:28,260

foolish stupid and senseless but I I

1598

01:03:33,049 --> 01:03:30,660

found that if you tell them they kind of

1599

01:03:35,809 --> 01:03:33,059

brush it off or give you a chuckle but

1600

01:03:40,130 --> 01:03:35,819

if you ask them to look it up themselves

1601

01:03:42,109 --> 01:03:40,140

it packs like 75 more punch right so

1602

01:03:43,609 --> 01:03:42,119

actually giving a laundry list of what I

1603

01:03:46,130 --> 01:03:43,619

think is outlandish

1604

01:03:48,530 --> 01:03:46,140

it would be not as impactful as if

1605

01:03:50,270 --> 01:03:48,540

people looked up what they tend to have

1606

01:03:52,069 --> 01:03:50,280

a tendency to look up on their own and

1607

01:03:54,109 --> 01:03:52,079

I'm suggesting that the weirdest

1608

01:03:56,030 --> 01:03:54,119

strangest most Fringe

1609

01:03:57,829 --> 01:03:56,040

stuff that they could find on the

1610

01:04:00,890 --> 01:03:57,839

internet is still mild in comparison to

1611

01:04:02,690 --> 01:04:00,900

what's really going on possibly yes well

1612

01:04:04,910 --> 01:04:02,700

that sounds like I'm gonna have a job

1613

01:04:07,010 --> 01:04:04,920

doing this for quite some time which is

1614

01:04:10,549 --> 01:04:07,020

going to make the wife's kids happy yes

1615

01:04:12,589 --> 01:04:10,559

job security for sure yeah indeed well

1616

01:04:14,990 --> 01:04:12,599

this has been really interesting and

1617

01:04:17,270 --> 01:04:15,000

insightful I appreciate the archon for

1618

01:04:19,549 --> 01:04:17,280

getting us together you guys ended your

1619

01:04:21,410 --> 01:04:19,559

10th episode saying you'd be working on

1620

01:04:24,589 --> 01:04:21,420

a new website for things that people

1621

01:04:26,990 --> 01:04:24,599

might consider esoteric now but will be

1622

01:04:28,849 --> 01:04:27,000

more familiar as time goes on is that

1623

01:04:30,829 --> 01:04:28,859

still the plan and what sorts of things

1624

01:04:34,430 --> 01:04:30,839

are you referring to guys

1625

01:04:36,109 --> 01:04:34,440

well yeah that website is actually also

1626

01:04:40,309 --> 01:04:36,119

come to fruition and it has been

1627

01:04:41,930 --> 01:04:40,319

concluded it's called godspeak.com oh I

1628

01:04:43,970 --> 01:04:41,940

try to be creative with my names but

1629

01:04:46,789 --> 01:04:43,980

they invariably fall into the same

1630

01:04:47,990 --> 01:04:46,799

template so God speak also with two e's

1631

01:04:50,450 --> 01:04:48,000

god

1632

01:04:51,650 --> 01:04:50,460

um s-p-e-e-k and there's another podcast

1633

01:04:53,690 --> 01:04:51,660

on there

1634

01:04:54,770 --> 01:04:53,700

it didn't progress as far as the Greeks

1635

01:04:57,950 --> 01:04:54,780

speak

1636

01:04:59,510 --> 01:04:57,960

it's a sister site simply because well

1637

01:05:01,970 --> 01:04:59,520

of different things the so-called

1638

01:05:03,410 --> 01:05:01,980

pandemic came along and a lot of my time

1639

01:05:05,270 --> 01:05:03,420

was taken up with other things so we did

1640

01:05:06,470 --> 01:05:05,280

get to episode eight that should be good

1641

01:05:09,289 --> 01:05:06,480

enough for most people though we might

1642

01:05:11,569 --> 01:05:09,299

conclude it at some point in the future

1643

01:05:12,770 --> 01:05:11,579

also a few articles on there not as many

1644

01:05:15,049 --> 01:05:12,780

as Greeks speak

1645

01:05:16,670 --> 01:05:15,059

now that people are starting slowly but

1646

01:05:18,890 --> 01:05:16,680

surely to take notice of it I may return

1647

01:05:20,569 --> 01:05:18,900

to actually completing some of those

1648

01:05:23,390 --> 01:05:20,579

things but it's on there for anybody to

1649

01:05:26,510 --> 01:05:23,400

explore oh man it's so bittersweet

1650

01:05:28,849 --> 01:05:26,520

because it's very rare that I miss uh a

1651  
01:05:30,890 --> 01:05:28,859  
whole aspect of a person's work but

1652  
01:05:33,289 --> 01:05:30,900  
these sites aren't necessarily connected

1653  
01:05:37,270 --> 01:05:33,299  
but now I'm seeing you got the ancient

1654  
01:05:41,750 --> 01:05:37,280  
worlds spirits and soul the gods Judaism

1655  
01:05:44,329 --> 01:05:41,760  
Christianity Islam Eastern religions

1656  
01:05:47,089 --> 01:05:44,339  
very intriguing stuff I mean maybe we'll

1657  
01:05:50,390 --> 01:05:47,099  
get to it in a future interview but that

1658  
01:05:52,849 --> 01:05:50,400  
is great I like uh the formatting of the

1659  
01:05:55,789 --> 01:05:52,859  
websites the presentation of the

1660  
01:05:58,370 --> 01:05:55,799  
material good stuff guys I think uh what

1661  
01:06:01,690 --> 01:05:58,380  
you do is worth people

1662  
01:06:04,329 --> 01:06:01,700  
checking out so Greek speak

1663  
01:06:08,809 --> 01:06:04,339

s-p-e-e-k is the initial website

1664

01:06:10,910 --> 01:06:08,819

godspk same spelling is the newer one

1665

01:06:12,589 --> 01:06:10,920

any other links are parting information

1666

01:06:14,990 --> 01:06:12,599

to give people if they want to dive

1667

01:06:17,630 --> 01:06:15,000

deeper into what you guys have done

1668

01:06:20,450 --> 01:06:17,640

yeah I I'm also uh doing a current

1669

01:06:23,030 --> 01:06:20,460

project current Sonics running with you

1670

01:06:25,069 --> 01:06:23,040

could find it at ochelli.com

1671

01:06:27,890 --> 01:06:25,079

it's a current project

1672

01:06:31,130 --> 01:06:27,900

you go to ochelli.com spells just like

1673

01:06:34,069 --> 01:06:31,140

it sounds and it's a sub project it's a

1674

01:06:37,370 --> 01:06:34,079

subscription only uh it's not open to

1675

01:06:40,990 --> 01:06:37,380

the public and it's called rated y the

1676

01:06:44,750 --> 01:06:41,000

unculting of humanity huh I like it

1677

01:06:47,150 --> 01:06:44,760

right on well again thank you so much

1678

01:06:48,829 --> 01:06:47,160

you know a lot about a lot and thanks

1679

01:06:49,849 --> 01:06:48,839

for doing this take care out there both

1680

01:06:53,390 --> 01:06:49,859

of you

1681

01:06:55,870 --> 01:06:53,400

thanks thank you

1682

01:06:58,370 --> 01:06:55,880

secret Sciences Cosmic censorship

1683

01:07:00,789 --> 01:06:58,380

supernatural beings and the biological

1684

01:07:03,890 --> 01:07:00,799

vacuum oh my

1685

01:07:05,569 --> 01:07:03,900

definitely had to be unexpected guests

1686

01:07:06,410 --> 01:07:05,579

which I always like to surprise people

1687

01:07:08,510 --> 01:07:06,420

with

1688

01:07:10,849 --> 01:07:08,520

I like their pseudonyms I like the

1689

01:07:13,130 --> 01:07:10,859

Cadence with which they speak

1690

01:07:15,230 --> 01:07:13,140

I'd say they make a great team and they

1691

01:07:18,289 --> 01:07:15,240

Pride themselves on trying to talk about

1692

01:07:19,190 --> 01:07:18,299

raw truth in a whole host of areas at a

1693

01:07:20,930 --> 01:07:19,200

high level

1694

01:07:22,970 --> 01:07:20,940

I think that's something we got a lot of

1695

01:07:25,190 --> 01:07:22,980

respect for around here right

1696

01:07:27,789 --> 01:07:25,200

of the subjects they cover we could have

1697

01:07:30,529 --> 01:07:27,799

done more on law government or military

1698

01:07:33,289 --> 01:07:30,539

but it's the secret sciences and hidden

1699

01:07:36,470 --> 01:07:33,299

physics stuff that I like a lot because

1700

01:07:38,750 --> 01:07:36,480

thinking about common things in new ways

1701

01:07:40,609 --> 01:07:38,760

is exciting and you really can let your

1702

01:07:42,950 --> 01:07:40,619

imagination run wild

1703

01:07:45,230 --> 01:07:42,960

in terms of the reality we could be

1704

01:07:46,670 --> 01:07:45,240

living in if the blockage could be

1705

01:07:49,130 --> 01:07:46,680

lifted

1706

01:07:50,750 --> 01:07:49,140

I like hearing new names of bright Minds

1707

01:07:53,210 --> 01:07:50,760

we can put up alongside Victor

1708

01:07:54,170 --> 01:07:53,220

shabberger Wilhelm Reich and some of the

1709

01:07:57,890 --> 01:07:54,180

others

1710

01:07:59,750 --> 01:07:57,900

today that was Louis Kevin and Rudolph

1711

01:08:01,490 --> 01:07:59,760

hashka

1712

01:08:04,549 --> 01:08:01,500

I think is how he pronounced it but

1713

01:08:05,870 --> 01:08:04,559

Rudolf hoshka's work is interesting

1714

01:08:08,089 --> 01:08:05,880

because

1715

01:08:10,370 --> 01:08:08,099

he was studying how vitamins work and

1716

01:08:12,289 --> 01:08:10,380

exposing simple life forms to various

1717

01:08:14,809 --> 01:08:12,299

things and ultimately found that just

1718

01:08:16,490 --> 01:08:14,819

proximity was enough to cause an effect

1719

01:08:18,229 --> 01:08:16,500

or a reaction

1720

01:08:20,329 --> 01:08:18,239

which might say something about that

1721

01:08:22,370 --> 01:08:20,339

health and resonance idea

1722

01:08:24,769 --> 01:08:22,380

you know I also like Alchemy talk when

1723

01:08:27,050 --> 01:08:24,779

we can get it and funny enough I got off

1724

01:08:30,890 --> 01:08:27,060

this call and I saw a post about this

1725

01:08:32,749 --> 01:08:30,900

guy stefanovich rabenikov by someone who

1726

01:08:34,309 --> 01:08:32,759

was highlighting it because it was this

1727

01:08:36,950 --> 01:08:34,319

guy's birthday

1728

01:08:40,130 --> 01:08:36,960

he's dead now but in honor you know

1729

01:08:42,229 --> 01:08:40,140

and rabbinikov was like shawberger and

1730

01:08:44,630 --> 01:08:42,239

that he just studied nature and tried to

1731

01:08:45,530 --> 01:08:44,640

replicate it or create Technology based

1732

01:08:47,390 --> 01:08:45,540

on it

1733

01:08:49,430 --> 01:08:47,400

the gist of his story is that he was

1734

01:08:52,070 --> 01:08:49,440

laying in a field admiring the beauty of

1735

01:08:54,289 --> 01:08:52,080

Nature and he started to feel ill

1736

01:08:56,689 --> 01:08:54,299

and then he realized he was resting over

1737

01:08:59,209 --> 01:08:56,699

the top of a hive of a type of bee that

1738

01:09:01,370 --> 01:08:59,219

makes their hives in the ground

1739

01:09:03,650 --> 01:09:01,380

I can't remember if he dug up the hive

1740

01:09:05,329 --> 01:09:03,660

or just looked at it and made a

1741

01:09:07,849 --> 01:09:05,339

structure that mimicked it

1742

01:09:10,550 --> 01:09:07,859

but in the lab he would notice the same

1743

01:09:12,530 --> 01:09:10,560

thing if he waved his hand over this

1744

01:09:14,990 --> 01:09:12,540

artificial hive

1745

01:09:16,970 --> 01:09:15,000

he had some other people do it and some

1746

01:09:19,189 --> 01:09:16,980

said waving their hand over it felt warm

1747

01:09:21,709 --> 01:09:19,199

some said cold but clearly there was

1748

01:09:23,870 --> 01:09:21,719

some kind of Field Effect going on

1749

01:09:25,490 --> 01:09:23,880

he ended up calling it the cavity

1750

01:09:28,070 --> 01:09:25,500

structure effect

1751

01:09:30,410 --> 01:09:28,080

he also did see some magnetic effects

1752

01:09:32,450 --> 01:09:30,420

and then ended up building these lattice

1753

01:09:33,590 --> 01:09:32,460

structures into a box kind of like a

1754

01:09:35,809 --> 01:09:33,600

suitcase

1755

01:09:38,570 --> 01:09:35,819

and he ended up realizing that you could

1756

01:09:40,490 --> 01:09:38,580

not set things on this box it repelled

1757

01:09:43,010 --> 01:09:40,500

them basically shot them up into the air

1758

01:09:45,950 --> 01:09:43,020

just like if you had a briefcase with

1759

01:09:47,990 --> 01:09:45,960

negatively charged magnetic plates and

1760

01:09:50,030 --> 01:09:48,000

then tried to slide another one on top

1761

01:09:52,729 --> 01:09:50,040

of it it would repel it up into the air

1762

01:09:54,590 --> 01:09:52,739

and down onto the floor and this is

1763

01:09:56,810 --> 01:09:54,600

crazy because there is plenty of video

1764

01:09:58,189 --> 01:09:56,820

footage of it that's what I found so

1765

01:10:00,890 --> 01:09:58,199

damn interesting

1766

01:10:02,630 --> 01:10:00,900

then he made a type of platform with a

1767

01:10:05,810 --> 01:10:02,640

handle you could actually ride a little

1768

01:10:07,550 --> 01:10:05,820

hoverboard thing using the same basic

1769

01:10:08,990 --> 01:10:07,560

lattice structure that he mimicked from

1770

01:10:11,450 --> 01:10:09,000

the beehive

1771

01:10:13,430 --> 01:10:11,460

then this video which was from the

1772

01:10:14,330 --> 01:10:13,440

universe inside you Channel great

1773

01:10:17,150 --> 01:10:14,340

Channel

1774

01:10:19,250 --> 01:10:17,160

made some points about scientists saying

1775

01:10:21,350 --> 01:10:19,260

that the flying physics of several types

1776

01:10:23,270 --> 01:10:21,360

of beetles don't add up and the

1777

01:10:26,930 --> 01:10:23,280

conventional speculation is that they

1778

01:10:28,790 --> 01:10:26,940

are hovering rather than flying somehow

1779

01:10:31,010 --> 01:10:28,800

and of course if you look at the cross

1780

01:10:33,110 --> 01:10:31,020

section of their wings they share a

1781

01:10:34,910 --> 01:10:33,120

similar pattern to the hive

1782

01:10:37,130 --> 01:10:34,920

and then you think about the ancient

1783

01:10:38,689 --> 01:10:37,140

world and the Egyptian motifs of the

1784

01:10:40,729 --> 01:10:38,699

scarab beetle

1785

01:10:42,770 --> 01:10:40,739

and you wonder if maybe they respected

1786

01:10:46,910 --> 01:10:42,780

The Beatles so much because that's how

1787

01:10:49,130 --> 01:10:46,920

they learned this secret of nature

1788

01:10:51,050 --> 01:10:49,140

really wild stuff check out Universe

1789

01:10:52,669 --> 01:10:51,060

within you on YouTube and you can see

1790

01:10:55,550 --> 01:10:52,679

the whole video

1791

01:10:57,530 --> 01:10:55,560

but these are the kind of guys I find

1792

01:10:58,850 --> 01:10:57,540

most interesting probably the most

1793

01:11:01,370 --> 01:10:58,860

interesting

1794

01:11:03,950 --> 01:11:01,380

kind of person ever

1795

01:11:06,830 --> 01:11:03,960

and so few in the mainstream ever hear

1796

01:11:10,130 --> 01:11:06,840

about them or their discoveries so fun

1797

01:11:12,110 --> 01:11:10,140

episode overall I appreciate their time

1798

01:11:14,090 --> 01:11:12,120

and the work they do check out Greek

1799

01:11:16,070 --> 01:11:14,100

speak or godspeak if you want to hear

1800

01:11:16,729 --> 01:11:16,080

them go deeper without me getting in the

1801

01:11:22,430 --> 01:11:16,739

way

1802

01:11:24,470 --> 01:11:22,440

good but the second hour is even better

1803

01:11:26,270 --> 01:11:24,480

in this one we talked about lost

1804

01:11:27,530 --> 01:11:26,280

technology and the importance of

1805

01:11:30,290 --> 01:11:27,540

procedure

1806

01:11:32,209 --> 01:11:30,300

lawful time keeping and the effects of

1807

01:11:34,310 --> 01:11:32,219

the Pope's work schedule

1808

01:11:36,410 --> 01:11:34,320

the deeper effects of rulership by

1809

01:11:38,630 --> 01:11:36,420

artificial time the importance and

1810

01:11:40,790 --> 01:11:38,640

effects of seasonal diets

1811

01:11:43,430 --> 01:11:40,800

the Greek gave us his discernment Guide

1812

01:11:45,290 --> 01:11:43,440

to Life and talked about the 180

1813

01:11:47,510 --> 01:11:45,300

inversion principle

1814

01:11:49,790 --> 01:11:47,520

we got into aliens and the dog-headed

1815

01:11:52,970 --> 01:11:49,800

people project Looking Glass ancient

1816

01:11:54,590 --> 01:11:52,980

relics and E.T gifs what it means to say

1817

01:11:55,970 --> 01:11:54,600

that we're now in the credits of the

1818

01:11:58,070 --> 01:11:55,980

movie

1819

01:12:00,110 --> 01:11:58,080

the Greek talked to us about the dog

1820

01:12:03,229 --> 01:12:00,120

bowl humiliation ritual that all

1821

01:12:05,149 --> 01:12:03,239

politicians must partake in and we

1822

01:12:07,370 --> 01:12:05,159

talked about the difference between The

1823

01:12:10,189 --> 01:12:07,380

Fringe and the alternative

1824

01:12:12,110 --> 01:12:10,199

so go ahead upgrade to plus get the full

1825

01:12:14,090 --> 01:12:12,120

show and keep the Carl wood train on the

1826

01:12:15,290 --> 01:12:14,100

tracks eight bucks a month five new

1827

01:12:17,930 --> 01:12:15,300

shows a month

1828

01:12:20,450 --> 01:12:17,940

and one hell of a big archive

1829

01:12:22,790 --> 01:12:20,460

and Higher Side news Well when it rains

1830

01:12:24,950 --> 01:12:22,800

it pours if my life wasn't hectic enough

1831

01:12:26,390 --> 01:12:24,960

right now one of the two main systems we

1832

01:12:28,070 --> 01:12:26,400

use to run the Plus Membership

1833

01:12:30,890 --> 01:12:28,080

infrastructure

1834

01:12:33,950 --> 01:12:30,900

had an update that broke compatibility

1835

01:12:36,590 --> 01:12:33,960

with the other system they've already

1836

01:12:38,870 --> 01:12:36,600

released a bug fix but anyone who had a

1837

01:12:42,050 --> 01:12:38,880

transaction process in that 48-hour

1838

01:12:43,189 --> 01:12:42,060

period shows up as inactive in the

1839

01:12:45,590 --> 01:12:43,199

system

1840

01:12:47,510 --> 01:12:45,600

obviously support tickets have flooded

1841

01:12:49,669 --> 01:12:47,520

in and my guy Mike is not only working

1842

01:12:51,410 --> 01:12:49,679

to answer all of those but also wrote a

1843

01:12:52,669 --> 01:12:51,420

script to correct the rest of the

1844

01:12:55,250 --> 01:12:52,679

accounts

1845

01:12:56,810 --> 01:12:55,260

most likely before many of you noticed I

1846

01:12:59,510 --> 01:12:56,820

think it's like five percent of people

1847

01:13:00,350 --> 01:12:59,520

were affected locked out for a day or

1848

01:13:02,689 --> 01:13:00,360

two

1849

01:13:06,110 --> 01:13:02,699

but it should be all fixed now or it

1850

01:13:07,910 --> 01:13:06,120

will be fixed very very soon

1851  
01:13:09,770 --> 01:13:07,920  
these things happen from time to time

1852  
01:13:13,130 --> 01:13:09,780  
but we use good systems and I hope

1853  
01:13:14,810 --> 01:13:13,140  
nobody was greatly inconvenienced

1854  
01:13:16,729 --> 01:13:14,820  
but that said I think we are going to

1855  
01:13:18,410 --> 01:13:16,739  
get all five shows out this month this

1856  
01:13:20,510 --> 01:13:18,420  
one be number four

1857  
01:13:22,669 --> 01:13:20,520  
I got two more recorded from a hotel

1858  
01:13:24,890 --> 01:13:22,679  
room over the last few days so I should

1859  
01:13:27,229 --> 01:13:24,900  
have at least a one show buffer while I

1860  
01:13:29,750 --> 01:13:27,239  
try to get the rest of my life in order

1861  
01:13:31,490 --> 01:13:29,760  
and get everything set up at home

1862  
01:13:32,930 --> 01:13:31,500  
and with that let's go to the Meetup

1863  
01:13:36,470 --> 01:13:32,940

calendar

1864

01:13:39,770 --> 01:13:36,480

I like it sounds like people are getting

1876

01:14:12,470 --> 01:14:10,520

together as we speak go on in at

1877

inoculation from indoctrination networks

1880

are important and all that

1881

01:14:24,470 --> 01:14:22,380

you already know but that is all she

1882

01:14:26,450 --> 01:14:24,480

wrote guys thanks again to the archon

1883

01:14:29,689 --> 01:14:26,460

and the Greek and to you for listening

1884

01:14:32,090 --> 01:14:29,699

1885

01:14:34,900 --> 01:14:32,100

science secret Keepers Cosmic censorship

1886

01:14:40,689 --> 01:14:34,910

servants and consensus-centric thinkers

1887

01:14:46,090 --> 01:14:43,970

sometimes when I get down I eat a bunch

1888

01:14:50,270 --> 01:14:46,100

of corporate junk

1889

01:14:53,090 --> 01:14:50,280

process stuff that makes you fat

1890

01:14:55,390 --> 01:14:53,100

yeah it's a weak and sickly people

technology

1897

01:15:40,610 --> 01:15:36,960

every now and then I try to quit and

1898

01:15:45,680 --> 01:15:40,620

leave it be but it's too hard to turn it
