

1

00:00:00,490 --> 00:00:10,497

This series presents information based in part on theory and conjecture.

2

00:00:10,497 --> 00:00:17,141

The producer's purpose is to suggest some possible explanations, but not necessarily

3

00:00:17,141 --> 00:00:22,745

the only ones to the mysteries we will examine.

4

00:00:22,745 --> 00:00:26,307

Former NASA space scientist Maurice Shatelain says,

5

00:00:26,307 --> 00:00:32,312

there is no doubt that aliens have walked among us.

6

00:00:32,312 --> 00:00:38,316

By connecting the sites of ancient Greek temples, Shatelain has interpreted a pattern so complex

7

00:00:38,316 --> 00:00:44,320

he is convinced it could only be the result of an alien influence.

8

00:00:44,320 --> 00:00:50,324

Another scientist says that prehistoric Indian rock carvings found in the western United States

9

00:00:50,324 --> 00:00:58,329

are actually electronic symbols known to every physics student today.

10

00:00:58,329 --> 00:01:10,337

Is it possible that our planet was an early destination for Earth visitors?

11

00:01:10,337 --> 00:01:16,341

Death Valley, California. One of the most inhospitable areas on Earth.

12

00:01:16,341 --> 00:01:26,348

Ground temperatures can reach 170 degrees. Dehydration can occur in minutes.

13

00:01:26,348 --> 00:01:37,356

It's the sort of place where life should not exist. Yet one form of life now dominates this area.

14

00:01:37,356 --> 00:01:43,360

The burrow. Left here to die by miners nearly a century ago.

15

00:01:43,360 --> 00:01:51,365

An incredibly adaptable beast. The burrow not only survived, but even multiplied.

16

00:01:51,365 --> 00:01:57,369

Is there an analogy between the burrow in Death Valley and man on the Earth?

17

00:01:57,369 --> 00:02:03,373

Was life left on Earth by an alien exploration millions of years ago?

18

00:02:03,373 --> 00:02:08,377

How can we account for an unusual discovery made in recent years?

19

00:02:08,377 --> 00:02:15,381

From Utah, a fossil. A shellfish that has been extinct for 400 million years.

20

00:02:15,381 --> 00:02:25,388

Nothing surprising about it, except it was found embedded in what appear to be shoe prints.

21

00:02:25,388 --> 00:02:31,392

Could these prints have been left behind by Earth visitors?

22

00:02:31,392 --> 00:02:37,396

Maurice Shadalane, the former NASA space scientist who helped man reach the moon,

23

00:02:37,396 --> 00:02:45,402

and author of *Our Ancestors Came from Outer Space*, definitely believes that aliens have visited the Earth.

24

00:02:45,402 --> 00:02:50,405

It seems that the first landing occurred about 300,000 years ago.

25

00:02:50,405 --> 00:02:57,410

Shadalane believes that ancient cuneiform tablets discovered in Iraq and only recently deciphered

26

00:02:57,410 --> 00:03:04,415

give detailed accounts of aliens arriving on Earth and engaging in cross-breeding experiments with humans.

27

00:03:04,415 --> 00:03:08,417

And in the beginning the experiments were not very successful.

28

00:03:08,417 --> 00:03:15,422

They obtained the Neanderthal man, which was a very big man, but not very intelligent.

29

00:03:15,422 --> 00:03:21,426

And they had to make many, many experiments before they could succeed.

30

00:03:21,426 --> 00:03:28,431

And this occurred about 60,000 years ago. At that time they obtained the Homo sapiens man,

31

00:03:28,431 --> 00:03:32,434

or modern man, which you can also call the Chromagnon man.

32

00:03:32,434 --> 00:03:41,440

And this was a very bright success because it was almost exactly like modern man today.

33

00:03:41,440 --> 00:03:48,444

Some people ask me how it could be that a scientist like me who has been trained in physics and mathematics

34

00:03:48,444 --> 00:03:59,452

and who is working on the Apollo program on the moon could believe in stories of astronauts coming from outer space and landing on the Earth.

35

00:03:59,452 --> 00:04:03,455

Actually it's very simple because in the beginning I was very skeptical.

36

00:04:03,455 --> 00:04:10,459

But little by little I started discovering my own evidence and I was convinced there's no doubt about it.

37

00:04:10,459 --> 00:04:13,461

Astronauts from outer space have landed on the Earth.

38

00:04:14,462 --> 00:04:21,467

One of Shadalane's discoveries was made while examining satellite photos of the Aegean Sea.

39

00:04:21,467 --> 00:04:26,470

At first there didn't seem to be anything significant.

40

00:04:26,470 --> 00:04:30,473

But then Shadalane began to see a pattern emerge.

41

00:04:30,473 --> 00:04:39,479

By connecting the locations of 12 sacred Greek temples, Shadalane formed the giant Maltese cross more than 300 miles wide.

42

00:04:39,479 --> 00:04:48,485

Shadalane says the Greeks didn't know of the cross and its perfectly formed dimensions could have only been laid out with the use of an orbiting satellite.

43

00:04:48,485 --> 00:04:53,489

Like the one used to photograph the area you are now looking at.

44

00:04:58,492 --> 00:05:04,496

Throughout history civilization builds on top of civilization.

45

00:05:05,497 --> 00:05:12,501

This we know once a site is sacred it remains sacred for succeeding generations.

46

00:05:12,501 --> 00:05:18,505

Did the ancients build on these sites because Earth visitors had selected them?

47

00:05:18,505 --> 00:05:29,513

I think the cross was left there as a hint to show a modern man that there are powers beyond his own.

48

00:05:30,514 --> 00:05:43,522

To find out we presented the mystery to Dr. Lawrence Clevenson, a statistical mathematician with California State University Northridge.

49

00:05:43,522 --> 00:05:51,528

What I've done is to program this computer to randomly place 12 points on the screen.

50

00:05:51,528 --> 00:06:02,535

In a sense then the screen represents that area of the A, G and C where the 12 temples are and each point that the computer randomly chooses represents a random choice of a temple.

51

00:06:02,535 --> 00:06:18,546

I also asked the computer to count the number of symmetric patterns like the cross and the odds against getting a symmetric pattern are approximately 3 quadrillion to 1.

52

00:06:18,546 --> 00:06:30,554

So that if the computer produced a pattern, a randomly chosen pattern, every single second it would take approximately 95 million years for it to produce a symmetric pattern.

53

00:06:32,556 --> 00:06:37,559

Another discovery of shadow lanes is tied to the enigmatic Egyptian pyramids.

54

00:06:37,559 --> 00:06:44,564

Why were they laid out astronomically so that passageways are lined with certain stars?

55

00:06:45,564 --> 00:06:50,568

Could the pyramids like the Maltese Cross have some connection to Earth visitors?

56

00:06:54,571 --> 00:07:08,580

This satellite photo of France reveals another pyramid. It's not yet visible, but when you connect the locations of three prehistoric stone temples like the one at Stonehenge, it magically appears.

57

00:07:08,580 --> 00:07:15,585

A giant triangle hundreds of miles across that is proportional to the pyramid of kiosk in Egypt.

58

00:07:16,585 --> 00:07:26,592

Another unexplained phenomenon of the French triangle. When you superimpose the locations of known modern uranium mines, they align themselves along the sides.

59

00:07:27,593 --> 00:07:39,601

Could Earth visitors have had the same need for the precious metal uranium as we have today? Could France have been the site of an extraterrestrial mining operation?

60

00:07:40,602 --> 00:07:59,615

I think there might be another use for the French triangle because the sides of the triangle could have been used as beacons for landing of the spacecraft like reentry corridors.

61

00:07:59,615 --> 00:08:10,622

Similar to those we were using in the Apollo program, it was called a footprint too. It was the area on the surface of the Earth where the spacecraft could land.

62

00:08:11,623 --> 00:08:21,630

There's another interesting point about the triangle. It is that if you follow one of the lines, it leads you halfway across the world to the Nusra plain.

63

00:08:22,630 --> 00:08:31,636

In search of teams have explored the Nusca plain in Peru and have yet to fully understand these drawings and patterns.

64

00:08:34,638 --> 00:08:50,649

Certainly this does not appear to be a landing base. Many believe Earth Base 1 was in the Western Hemisphere, not here, but in the Southwestern United States.

65

00:08:52,651 --> 00:09:02,657

The life of the American Indian has been well documented by modern archaeologists. Indians are a proud people who adapted well to a harsh environment.

66

00:09:04,659 --> 00:09:10,663

A people with primitive beliefs based on what experts considered superstition and myth.

67

00:09:11,663 --> 00:09:25,673

We have long been taught that the Indian was the first man in the Western Hemisphere, that he came here from Asia having crossed the land bridge that once connected Alaska and Siberia.

68

00:09:28,675 --> 00:09:32,678

The crossing was supposed to have taken place 20,000 years ago.

69

00:09:33,678 --> 00:09:43,685

If this is true, then how can we explain a skull found in California? It has been dated back at least 48,000 years.

70

00:09:45,687 --> 00:09:51,691

Some believe the presence of man in America goes back a quarter of a million years.

71

00:09:52,691 --> 00:09:58,695

If the American Indian did not enter this continent by way of a land bridge, then how did he get here?

72

00:09:59,696 --> 00:10:08,702

If we look to Indian legends, which have been passed down from generation to generation, we find a possible answer.

73

00:10:12,705 --> 00:10:15,707

In many tribes, a common story is told.

74

00:10:16,708 --> 00:10:21,711

That Indians came from other worlds, traveling to Earth to find a better life.

75

00:10:29,716 --> 00:10:34,720

We cannot easily dismiss such folklore.

76

00:10:35,720 --> 00:10:40,724

For no matter what the language or where the tribe is from, the story is the same.

77

00:10:42,725 --> 00:10:48,729

In one tribe, all things were said to have begun on the first world, a great rock in a sea of mist.

78

00:10:51,731 --> 00:10:56,735

Is this a reference to the planet Venus, which is recorded in the legends of many different peoples?

79

00:10:58,736 --> 00:11:02,739

From the misty world, the spirits traveled to the blue world.

80

00:11:04,740 --> 00:11:06,741

Is this the blue world the legend refers to?

81

00:11:07,742 --> 00:11:13,746

Modern man didn't call the Earth blue until he had the benefit of photos taken from space.

82

00:11:14,747 --> 00:11:21,752

And how is it that the Apache God and Egyptian God, Amun Ra, are similar in name and appearance?

83

00:11:22,752 --> 00:11:27,756

Could Amun Ra have been a space traveler who visited both peoples?

84

00:11:28,756 --> 00:11:32,759

There are also identical references to the boat of the sun.

85

00:11:33,760 --> 00:11:37,762

Might not a spaceship be referred to as a boat of the sun?

86

00:11:38,763 --> 00:11:45,768

And how is it that the Hopi symbol for Earth is identical to symbols found in the Mediterranean?

87

00:11:46,769 --> 00:11:55,775

At the end of this hall in the Arizona State Museum, an artifact so unusual, scientists are uncertain what to do with it.

88

00:11:59,777 --> 00:12:02,779

It's called elephant slab.

89

00:12:04,781 --> 00:12:09,784

And carved on it strange markings that resemble some alien alphabet.

90

00:12:10,785 --> 00:12:14,788

Among the mysterious symbols, one clear figure.

91

00:12:16,789 --> 00:12:18,790

An elephant?

92

00:12:18,790 --> 00:12:23,794

If an Indian carved this stone, how did he know what an elephant looked like?

93

00:12:24,794 --> 00:12:27,796

An animal only found in Africa and Asia.

94

00:12:29,798 --> 00:12:34,801

To the Hopi Indian, the Kachina dolls are representations of spirits.

95

00:12:39,805 --> 00:12:44,808

The Hopis claim that some of the Kachinas are spirits from other worlds

96

00:12:44,808 --> 00:12:50,812

who came to Earth to teach the Indians agriculture, weaving and the necessary arts.

97

00:12:53,814 --> 00:12:56,816

Are they spirits or space travelers?

98

00:12:57,817 --> 00:13:01,819

Some Hopis claim these could actually represent alien beings.

99

00:13:05,822 --> 00:13:11,826

In the ceremonies of the Zuni tribe, it was customary to cover the body with a thick layer of mud.

100

00:13:11,826 --> 00:13:16,830

Another part of the ceremonial costume was a rather unique head mask.

101

00:13:18,831 --> 00:13:24,835

No one can satisfactorily explain why it resembles a space-helmeted astronaut.

102

00:13:26,836 --> 00:13:31,840

In another tradition, gourds were fashioned into peculiar shapes.

103

00:13:31,840 --> 00:13:36,843

Was it merely a coincidence that some of the gourds resembled UFOs?

104

00:13:38,845 --> 00:13:43,848

The Indians referred to them as such and used them in their ceremonies.

105

00:13:49,852 --> 00:13:52,854

The Indian's are the same.

106

00:13:53,855 --> 00:13:56,857

The Indian's are the same.

107

00:13:57,857 --> 00:14:02,861

Not normally associated with the American Indian is the boomerang.

108

00:14:03,861 --> 00:14:08,865

Yet it was a part of their culture as it was of the Aborigines of Australia.

109

00:14:11,867 --> 00:14:18,872

Seemingly simple, the boomerang is a highly sophisticated aerodynamic foil, a flying wing.

110

00:14:19,872 --> 00:14:25,876

The Indians say they were taught to use the boomerang by gods who came from the stars.

111

00:14:30,880 --> 00:14:35,883

If the Indians had left us written records, we might have the answers to some of these mysteries.

112

00:14:35,883 --> 00:14:38,885

Obviously, that is not the case.

113

00:14:38,885 --> 00:14:43,889

Yet, in their own way, the Indians did leave us valuable information.

114

00:14:43,889 --> 00:14:48,892

It's what we call their art, where they chiseled at stone, painted on rocks, and scraped the earth.

115

00:14:51,894 --> 00:14:57,898

Many of the Indians were accomplished artists, as evidenced by these accurate representations of wildlife.

116

00:15:14,910 --> 00:15:18,912

Which makes it difficult to explain these pictures.

117

00:15:30,920 --> 00:15:38,926

And from all over the western United States, strange figures that bear uncanny resemblances to spacemen.

118

00:15:43,929 --> 00:15:50,934

Could these drawings indicate a connection between the Indians of the American West and travelers from other worlds?

119

00:15:51,935 --> 00:15:57,939

Hoping for an answer, we spoke with Preston Mononghi, member of the secretive Hopi-Kachina Society.

120

00:15:57,939 --> 00:16:04,944

The legends definitely tell of the spacecraft and the history of the spacecraft.

121

00:16:04,944 --> 00:16:09,947

I would like to really go into it more, but I cannot go into it more because it's our religion for visit.

122

00:16:09,947 --> 00:16:13,950

And so, therefore, I can't go into it more.

123

00:16:13,950 --> 00:16:18,953

But I would like to say that I'm a member of the secretive Hopi-Kachina Society.

124

00:16:18,953 --> 00:16:22,956

I'm a member of the secretive Hopi-Kachina Society.

125

00:16:22,956 --> 00:16:26,958

The legends definitely tell of the spacecraft and people riding in them.

126

00:16:26,958 --> 00:16:33,963

And making contact with this, which they have several times in the past. Not too long ago.

127

00:16:33,963 --> 00:16:37,966

I'll go into it any further than I've already gone into it.

128

00:16:40,968 --> 00:16:45,971

Of all the Indian petroglyphs, none perhaps is quite so unexplainable as these.

129

00:16:45,971 --> 00:16:48,973

No one has been able to decipher them.

130

00:16:48,973 --> 00:17:03,984

Los Angeles engineer Charles Ruggles thinks he has discovered the key to the mysterious petroglyphs.

131

00:17:03,984 --> 00:17:06,986

These are scientific drawings.

132

00:17:06,986 --> 00:17:10,988

They could be taken right out of a physics textbook.

133

00:17:10,988 --> 00:17:12,990

They show sine waves.

134

00:17:12,990 --> 00:17:14,991

They show triangle waves.

135

00:17:14,991 --> 00:17:16,992

They show square waves.

136

00:17:17,993 --> 00:17:20,995

They show electromagnetic circuitry.

137

00:17:20,995 --> 00:17:22,996

They show switching.

138

00:17:22,996 --> 00:17:32,003

They show almost everything that we could think of in a modern electronics and electromagnetic

laboratory.

139

00:17:32,003 --> 00:17:37,006

These petroglyphs tell a very intriguing story.

140

00:17:37,006 --> 00:17:40,008

And it's very much worth investigating.

141

00:17:40,008 --> 00:17:47,013

The Indian folklore tells about two flying objects that collided in space over Death Valley.

142

00:17:47,013 --> 00:17:50,015

And one of them fell in Mustard Canyon.

143

00:17:50,015 --> 00:17:53,017

The folklore doesn't tell where the other one fell.

144

00:17:53,017 --> 00:18:01,022

Now, with these two objects, which made forest landings or actually fell, there was damage.

145

00:18:01,022 --> 00:18:05,025

And someone came to repair them.

146

00:18:06,026 --> 00:18:12,030

When these alien people disassembled these spacecraft,

147

00:18:12,030 --> 00:18:18,034

they did it in such a way that they could hopefully reassemble them.

148

00:18:18,034 --> 00:18:28,040

And as they disassembled it, it was recorded on apparatus such as this or other forms of communication.

149

00:18:29,041 --> 00:18:43,051

To the Indians, these symbols which these aliens made were the symbols of the gods and magic to them.

150

00:18:43,051 --> 00:18:46,053

And that's why they reproduced them in the area.

151

00:18:48,054 --> 00:18:56,059

One of the most unusual reports in recent years tells of a discovery made near the Coso Mountain Range in Southern California.

152

00:18:56,059 --> 00:19:04,065

As represented here for in search of, three rockhounds were out looking for interesting samples to add to their collection.

153

00:19:12,070 --> 00:19:17,074

They had already been looking for hours that hot day in July.

154

00:19:17,074 --> 00:19:20,076

What they found looked innocent enough.

155

00:19:20,076 --> 00:19:23,078

A geode common to that area.

156

00:19:23,078 --> 00:19:26,080

Yet, it somehow seemed different.

157

00:19:31,083 --> 00:19:37,087

Later, after they saw the rock in half, they felt they had made a unique discovery.

158

00:19:40,089 --> 00:19:49,095

That inside was a strange ceramic-like material resembling some electrical device, like the spark plug.

159

00:19:49,095 --> 00:19:51,097

How old was it?

160

00:19:51,097 --> 00:20:02,104

While the findings have never been verified, the rockhounds claimed that a geologist placed the age of the object at 500,000 years.

161

00:20:03,105 --> 00:20:07,108

X-ray results were published and they were astonishing.

162

00:20:10,110 --> 00:20:14,112

The object did not appear to be naturally formed.

163

00:20:15,113 --> 00:20:18,115

No one today can explain its existence.

164

00:20:21,117 --> 00:20:27,121

Is this confirmation that Earth Base 1 was located in the southwestern United States?

165

00:20:39,129 --> 00:20:45,133

There have been many theories which say that life has been deliberately sent to Earth from another planet.

166

00:20:46,134 --> 00:20:52,138

Some experts ridicule these ideas and such theories might have remained unbelievable,

167

00:20:52,138 --> 00:20:59,143

except for disclosures such as these which continue to be found year after year.

168

00:21:16,154 --> 00:21:19,156

All day today on the History Channel.

169

00:21:19,156 --> 00:21:21,158

Enter a world of the unknown.

170

00:21:21,158 --> 00:21:23,159

We're really not sure what we encountered.

171

00:21:23,159 --> 00:21:25,160

As we go in search of the unusual.

172

00:21:25,160 --> 00:21:29,163

A man was swimming across the river and this great serpent appeared.

173

00:21:29,163 --> 00:21:31,165

Facts or fiction.

174

00:21:31,165 --> 00:21:33,166

Their bodies were buried into the wall.

175

00:21:33,166 --> 00:21:35,167

Natural or supernatural.

176

00:21:35,167 --> 00:21:39,170

Two flying objects collided in space over a death valley.

177

00:21:39,170 --> 00:21:41,171

And in search of history-a-thon.

178

00:21:41,171 --> 00:21:44,173

All day today on the History Channel.
