

1

00:00:00,000 --> 00:00:07,000

I'm in Poland at the former headquarters for Hitler's subterranean weapons project

2

00:00:07,000 --> 00:00:14,000

to investigate the secret work of the Third Reich and their apparent interests in the occult,

3

00:00:14,000 --> 00:00:20,000

ancient wisdom and possibly even advanced extraterrestrial technology.

4

00:00:20,000 --> 00:00:29,000

At the height of World War II, the Nazis engaged their top scientists to develop a number of what they referred to as Wundawaffen

5

00:00:29,000 --> 00:00:31,000

or Wonder Weapons.

6

00:00:31,000 --> 00:00:36,000

Weapons that were so diabolical and so scientifically incredible,

7

00:00:36,000 --> 00:00:40,000

they would turn the tide of the war against the Allies.

8

00:00:41,000 --> 00:00:45,000

According to testimony collected just after the war,

9

00:00:45,000 --> 00:00:51,000

one of these top secret projects was codenamed the Glocke or the Bell

10

00:00:51,000 --> 00:00:56,000

and it was believed to be a serious attempt to create a time travel device

11

00:00:56,000 --> 00:01:02,000

that could soar through the sky and eventually maybe even reach the speed of light.

12

00:01:03,000 --> 00:01:10,000

But following the war, no trace of the bell was ever found, only a handful of drawings.

13

00:01:11,000 --> 00:01:15,000

I'm determined to find out whether or not this device actually existed

14

00:01:15,000 --> 00:01:21,000

and if so, could it have been based on designs left behind by ancient astronauts?

15

00:01:21,000 --> 00:01:26,000

Could there really be a link between extraterrestrial visitors and the Third Reich?

16

00:01:27,000 --> 00:01:30,000

My name is Georgiy Tsukaloz.

17

00:01:30,000 --> 00:01:37,000

I explore the world that exists between reality and speculation, the known and the unknown.

18

00:01:37,000 --> 00:01:43,000

What we've been taught by mainstream scholars is not the whole picture,

19

00:01:43,000 --> 00:01:49,000

but I'm convinced that every day we are one step closer to the truth.

20

00:01:51,000 --> 00:01:53,000

The German Army

21

00:02:00,000 --> 00:02:04,000

During the Second World War, it was widely believed that the German army

22

00:02:04,000 --> 00:02:09,000

possessed the most technologically advanced military on the planet,

23

00:02:09,000 --> 00:02:16,000

boasting an arsenal that included guided missiles, jet aircraft and precision bombers.

24

00:02:17,000 --> 00:02:22,000

Adolf Hitler planned to use this weaponry to defeat the Allied forces

25

00:02:22,000 --> 00:02:26,000

and create an empire that would rule the world.

26

00:02:26,000 --> 00:02:33,000

But after they were defeated in 1945, more than 1,600 German scientists

27

00:02:33,000 --> 00:02:38,000

were brought to the United States as part of Operation Paperclip.

28

00:02:38,000 --> 00:02:44,000

And there are some who believe that these diabolical minds brought secret knowledge

29

00:02:44,000 --> 00:02:48,000

that may have had an extraterrestrial origin.

30

00:02:54,000 --> 00:02:57,000

I'm in Lubikowice, Poland with Igor Witkovski,

31

00:02:57,000 --> 00:03:03,000

author of The Truth About the Wundewafe or Wonder Weapons.

32

00:03:03,000 --> 00:03:07,000

In 1997, while working as a military journalist,

33

00:03:07,000 --> 00:03:12,000

Igor was shown original documents by a Polish intelligence officer

34

00:03:12,000 --> 00:03:17,000

concerning a top secret Nazi project titled Kronos

35

00:03:17,000 --> 00:03:22,000

and a mysterious weapon known as the Glocke or the Bell.

36

00:03:22,000 --> 00:03:29,000

Because Kronos in ancient Greek mythology is also the name of the Titan God of Time,

37

00:03:29,000 --> 00:03:35,000

there are some who believe that Project Kronos involved the study of time travel.

38

00:03:35,000 --> 00:03:40,000

And the Glocke might have been part of some type of a time machine.

39

00:03:43,000 --> 00:03:51,000

We are turning left and we're just about to enter the valley in Lubikowice, Poland,

40

00:03:51,000 --> 00:03:58,000

which was sort of a Nazi equivalent of the area 51, I guess.

41

00:03:58,000 --> 00:04:01,000

Igor is taking me to a place called The Henge,

42

00:04:01,000 --> 00:04:05,000

which is believed to be a former Nazi science laboratory

43

00:04:05,000 --> 00:04:08,000

and the headquarters for Project Kronos.

44

00:04:08,000 --> 00:04:14,000

So this entire valley was sealed off and for what purpose was it sealed off?

45

00:04:14,000 --> 00:04:17,000

I mean, what was so secret about this area?

46

00:04:17,000 --> 00:04:25,000

Under this valley, there is a huge mine that was bankrupted before the war

47

00:04:25,000 --> 00:04:30,000

and was taken over by the SS for their purposes

48

00:04:30,000 --> 00:04:37,000

because it's something the size of a medium-sized city underground.

49

00:04:37,000 --> 00:04:39,000

Interesting. Okay.

50

00:04:39,000 --> 00:04:41,000

Yeah. See you.

51

00:04:42,000 --> 00:04:47,000

Wow. I mean, I'm speechless right now. I mean, I don't even know what I'm looking at.

52

00:04:55,000 --> 00:04:58,000

So this is what they're referring to as The Henge.

53

00:04:59,000 --> 00:05:05,000

It looks as if it's made of concrete and I mean, it's a very interesting structure.

54

00:05:05,000 --> 00:05:07,000

So what can you tell me about this?

55

00:05:07,000 --> 00:05:14,000

It appears for the first time on aerial photographs in September of 1944.

56

00:05:14,000 --> 00:05:18,000

So it certainly has been built shortly before the end of the war.

57

00:05:18,000 --> 00:05:23,000

And the entire valley was dedicated to research and development purposes.

58

00:05:23,000 --> 00:05:26,000

And this is one of the objects here.

59

00:05:26,000 --> 00:05:33,000

And do you think that this had something to do with them building the Wunderwaffe and the Glocke?

60

00:05:33,000 --> 00:05:35,000

There is one clue about it.

61

00:05:35,000 --> 00:05:40,000

The entire valley was sealed off from the outside world.

62

00:05:40,000 --> 00:05:44,000

And this structure stands in the very center of the security rings.

63

00:05:44,000 --> 00:05:49,000

The security rings consisted of lines of fortifications,

64

00:05:49,000 --> 00:05:56,000

guarding rooms, bunkers, gates, blockades for tanks, and even lines of trenches,

65

00:05:56,000 --> 00:06:01,000

which is something very unusual because this place was never close to the front line.

66

00:06:01,000 --> 00:06:03,000

Interesting.

67

00:06:03,000 --> 00:06:12,000

According to Igor, the entire valley is honeycombed with chambers, tunnels, and subterranean laboratories,

68

00:06:12,000 --> 00:06:17,000

all once dedicated to the development of futuristic technologies.

69

00:06:17,000 --> 00:06:21,000

So this here is ground zero for the Wunderwaffe.

70

00:06:21,000 --> 00:06:27,000

And looking around, there's some power plants over here which would require a lot of energy.

71

00:06:27,000 --> 00:06:30,000

And one has to wonder, what was it for?

72

00:06:30,000 --> 00:06:39,000

The SS General Hans Kamler has built here an enormous industrial research complex.

73

00:06:39,000 --> 00:06:46,000

And this power plant here, which consumed around 1000 tons of coal per day,

74

00:06:46,000 --> 00:06:49,000

was used to power all that undertaking.

75

00:06:49,000 --> 00:06:54,000

Leading the search for the Wunderwaffe was Nazi scientist Hans Kamler.

76

00:06:54,000 --> 00:07:00,000

Some claim that Kamler was the most important officer in the SS

77

00:07:00,000 --> 00:07:07,000

and masterminded the development of cutting edge projects based upon ancient knowledge.

78

00:07:07,000 --> 00:07:12,000

Some have suggested that the hinge was designed to test the Glocke

79

00:07:12,000 --> 00:07:16,000

and that large chains would have been attached to the bizarre structure

80

00:07:16,000 --> 00:07:21,000

so that the bell shaped craft would not fly away prematurely.

81

00:07:22,000 --> 00:07:27,000

But the hinge is nothing compared to the vast network of tunnels and chambers

82

00:07:27,000 --> 00:07:34,000

which lie hidden underground, the place where many believe the Glocke or the bell was constructed.

83

00:07:34,000 --> 00:07:37,000

This is very creepy down here, very creepy.

84

00:07:37,000 --> 00:07:42,000

It's falling. Cold. It's damp.

85

00:07:42,000 --> 00:07:48,000

According to Igor, Nazi Germany's prisoners of war were forced to participate

86

00:07:48,000 --> 00:07:52,000

in high-tech experiments here at the Henge.

87

00:07:53,000 --> 00:07:59,000

This is the car to the machine here. This also was showing your nace.

88

00:07:59,000 --> 00:08:03,000

Wow. This is crazy.

89

00:08:06,000 --> 00:08:11,000

Exactly how many of these experiments were conducted is unknown.

90

00:08:11,000 --> 00:08:17,000

But it has been documented that many former participants suffered nerve damage

91

00:08:17,000 --> 00:08:22,000

and even a condition where the skin was coming off the participants' faces

92

00:08:22,000 --> 00:08:27,000

as though they had been exposed to high levels of radiation.

93

00:08:28,000 --> 00:08:34,000

So do you think that the bell might have been a type of a propulsion device

94

00:08:34,000 --> 00:08:37,000

for an anti-gravity machine or something like that?

95

00:08:37,000 --> 00:08:43,000

The Germans were using a phenomenon which occurs when a high energy vortex of some kind

96

00:08:43,000 --> 00:08:51,000

is separated from the outside world and it is causing an anti-gravitational effect.

97

00:08:53,000 --> 00:08:59,000

According to reports discovered after the war, some have suggested that German scientists

98

00:08:59,000 --> 00:09:03,000

had been experimenting with anti-gravity technologies

99

00:09:03,000 --> 00:09:09,000

and had been developing a type of vortex engine powered by mercury.

100

00:09:10,000 --> 00:09:16,000

The idea was that the mercury would spin in a gyroscopic manner within a closed system

101

00:09:16,000 --> 00:09:21,000

and create lift, seemingly defying gravity.

102

00:09:21,000 --> 00:09:26,000

In much the same way, many modern UFO sightings are described.

103

00:09:27,000 --> 00:09:32,000

Are you aware of any blueprints that were ever discovered of this Wunderwaffe,

104

00:09:32,000 --> 00:09:36,000

the way it might have been shaped, the way it might have looked like?

105

00:09:36,000 --> 00:09:39,000

It's somewhere here.

106

00:09:40,000 --> 00:09:44,000

Yes, you see, it's something that resembles a bell

107

00:09:44,000 --> 00:09:48,000

and it is portrayed here as a part of some larger propulsion system.

108

00:09:49,000 --> 00:09:54,000

A time machine device embedded in something that looks like a flying saucer

109

00:09:54,000 --> 00:09:57,000

could such a device really exist?

110

00:09:57,000 --> 00:10:01,000

And if it did, could it really travel through time?

111

00:10:01,000 --> 00:10:06,000

The first thing that jumps out at me is that they named this thing here the real number nine

112

00:10:06,000 --> 00:10:12,000

and real is something that refers to power in ancient Tibetan and Sanskrit texts.

113

00:10:12,000 --> 00:10:16,000

So why would anyone use this? It's a very obscure term, this whole real thing.

114

00:10:16,000 --> 00:10:23,000

What can you tell me about why or how this real was actually used in this context here?

115

00:10:23,000 --> 00:10:30,000

What they have discovered is that one may induce gravity from electromagnetic forces.

116

00:10:30,000 --> 00:10:37,000

The real in this case seems to be the most accurate description of the force that we are discovering.

117

00:10:38,000 --> 00:10:45,000

According to Igor, the bell disappeared at the end of the war, along with its mastermind, Hans Kamla.

118

00:10:46,000 --> 00:10:52,000

And there are those who speculate to this day that both escaped through a window in time.

119

00:10:53,000 --> 00:11:01,000

Some people have suggested that the stupa shape itself might have had the possibility of time travel.

120

00:11:01,000 --> 00:11:03,000

Do you think that such a thing is possible?

121

00:11:13,000 --> 00:11:18,000

I'm at Kassel Czauz in Lower Silesia, Poland, a former development headquarters

122

00:11:18,000 --> 00:11:25,000

for many of Adolf Hitler's top secret weapons known as Wunderwaffen or Wonder Weapons.

123

00:11:26,000 --> 00:11:34,000

Author and researcher Igor Wietkowski has brought me here to show me what he claims to be authentic Nazi documentation

124

00:11:34,000 --> 00:11:40,000

for a device which some people believe could have been some sort of a time machine.

125

00:11:40,000 --> 00:11:46,000

Igor, do you think that maybe the bell that they also sometimes refer to as the Glocke

126

00:11:46,000 --> 00:11:48,000

was a type of flying craft?

127

00:11:49,000 --> 00:11:54,000

It was a combination of some flying machine with a weapons of mass destruction.

128

00:11:54,000 --> 00:12:01,000

It seems that the bell was the main part of a propulsion system of a flying craft, not a flying craft itself,

129

00:12:01,000 --> 00:12:04,000

but we don't know the rest of the picture.

130

00:12:05,000 --> 00:12:11,000

It has been widely reported that the Nazis had an almost fanatical desire to locate and study

131

00:12:11,000 --> 00:12:17,000

ancient religious texts and artifacts, which they believe possessed great power.

132

00:12:17,000 --> 00:12:24,000

They were also fascinated by the occult and the study of the forbidden or so-called dark arts.

133

00:12:25,000 --> 00:12:29,000

Although much of this ancient knowledge was lost at the end of the war,

134

00:12:29,000 --> 00:12:34,000

much of it was thought to be taken by the Allies as spoils of war

135

00:12:35,000 --> 00:12:44,000

and may have served as the inspiration for many of the advanced communications and weapons systems in use today.

136

00:12:45,000 --> 00:12:52,000

The very idea of generating gravity was based on scientific discoveries that they had made.

137

00:12:52,000 --> 00:13:01,000

They were open also to the idea of incorporating knowledge from the ancient past

138

00:13:01,000 --> 00:13:05,000

and the very possibility of other intelligences in the universe.

139

00:13:06,000 --> 00:13:09,000

This all seems highly advanced for its time.

140

00:13:09,000 --> 00:13:12,000

It was such an advanced idea.

141

00:13:12,000 --> 00:13:17,000

The most secret research project carried out in the Third Reich,

142

00:13:17,000 --> 00:13:22,000

and I have a very interesting document here which is designed by the General Kamler

143

00:13:22,000 --> 00:13:30,000

and says that it was engaging all the forces of the SS at the end of the war.

144

00:13:32,000 --> 00:13:40,000

The way Igor describes the bell reminds me of the numerous accounts in ancient Hindu texts of the Vimana.

145

00:13:41,000 --> 00:13:46,000

Airships that could stop on a dime and change direction at top speed,

146

00:13:46,000 --> 00:13:50,000

seemingly defying the laws of physics.

147

00:13:50,000 --> 00:13:58,000

The ancient Sanskrit text the Mahabharata describes an earthly arrival by these ancient spacecraft,

148

00:13:58,000 --> 00:14:02,000

which curiously resemble modern-day UFO accounts.

149

00:14:03,000 --> 00:14:11,000

Today, most mainstream historians identify the stories of the Vimanas as works of fiction,

150

00:14:11,000 --> 00:14:15,000

but in India, some Hindus regard them as history.

151

00:14:16,000 --> 00:14:25,000

Is it possible that the Nazis had somehow rediscovered an alien technology that existed on Earth thousands of years ago,

152

00:14:25,000 --> 00:14:29,000

and if so, where did they get such detailed information?

153

00:14:31,000 --> 00:14:37,000

In his 1993 book, *Secret Societies and their Power in the 20th Century*,

154

00:14:37,000 --> 00:14:43,000

author Jan van Helsing wrote that a UFO crashed in Germany's black forest in 1936.

155

00:14:45,000 --> 00:14:49,000

Three years before the start of World War II,

156

00:14:50,000 --> 00:14:55,000

according to his account, Hitler's SS troops took possession of the downed craft

157

00:14:55,000 --> 00:15:01,000

and carried it away to their top secret headquarters at Wevelsburg Castle.

158

00:15:01,000 --> 00:15:10,000

There, it is believed that Nazi scientists began their attempts to reverse engineer technology found aboard the damaged craft.

159

00:15:11,000 --> 00:15:19,000

As I said goodbye to Igor, I couldn't stop thinking about the idea that the strange designs I'd seen of the Nazi bell

160

00:15:19,000 --> 00:15:25,000

reminded me not only of Hindu Vimanas, but also of stupas,

161

00:15:25,000 --> 00:15:30,000

an ancient bell-shaped design that Buddhists believed had mystical powers.

162

00:15:33,000 --> 00:15:39,000

After leaving Poland, I traveled to Switzerland to meet with my good friend and mentor Eric van Daneken.

163

00:15:40,000 --> 00:15:45,000

The founding father behind what's known as the ancient astronaut theory.

164

00:15:45,000 --> 00:15:55,000

So do you think that extraterrestrials are responsible why we have the stupa motif today in this particular shape?

165

00:15:55,000 --> 00:16:01,000

You see, we always were copious. We saw some Vimanas which had the shape of a stupa.

166

00:16:01,000 --> 00:16:04,000

So later we made copies out of the stupa.

167

00:16:05,000 --> 00:16:12,000

The cultures in the past, intellectually, they may have been brilliant, but they couldn't understand the technology.

168

00:16:13,000 --> 00:16:20,000

The stupa dates back thousands of years and is believed to have been inspired by early burial mounds,

169

00:16:20,000 --> 00:16:26,000

in which the deceased were seated in an upright position and covered with earth.

170

00:16:27,000 --> 00:16:34,000

Later, the stupa was thought to represent a seated Buddha, and over the centuries,

171

00:16:34,000 --> 00:16:42,000

its basic bell shape became refined with the addition of more and more elaborate designs.

172

00:16:43,000 --> 00:16:53,000

You know, some people have suggested that the stupa shape itself, or that whatever vehicles were described in the past,

173

00:16:53,000 --> 00:17:00,000

might have had the possibility of time travel. Do you think that such a thing is possible?

174

00:17:00,000 --> 00:17:02,000

No, nothing is impossible.

175

00:17:05,000 --> 00:17:09,000

The young Buddha is using his hands to manipulate some control.

176

00:17:10,000 --> 00:17:17,000

You have exactly the same pictures in Mexico, sitting in a stupa, the flying machine.

177

00:17:18,000 --> 00:17:26,000

Nothing is impossible. I would not exclude this completely, because who knows what the future brings?

178

00:17:26,000 --> 00:17:27,000

Exactly.

179

00:17:27,000 --> 00:17:34,000

So I'm in the Swiss Alps consulting with Erik von Daniken about the Glocke, also known as the bell,

180

00:17:34,000 --> 00:17:45,000

to see if he thinks whether or not the Nazis may have been developing a time travel device based on ancient Hindu and Buddhist designs,

181

00:17:45,000 --> 00:17:52,000

designs that perhaps were directly inspired by ancient extraterrestrial technology.

182

00:17:53,000 --> 00:18:00,000

You see, the stupa is a shape which you find in the Mahabharata, the old Indian epic.

183

00:18:00,000 --> 00:18:04,000

There is a small vehicle called the Manas, at the shape of a stupa.

184

00:18:04,000 --> 00:18:11,000

Since that time, people always copied stupas because stupas had to do something with the God, with heaven.

185

00:18:11,000 --> 00:18:18,000

There are numerous accounts in ancient Sanskrit texts that describe the Manas and stupas, ancient chariots of the Gods.

186

00:18:18,000 --> 00:18:25,000

And they were described as flying chariots made of gleaming metal with amazing maneuverability in the air,

187

00:18:25,000 --> 00:18:29,000

with powerful weapons that could annihilate the enemy from afar.

188

00:18:29,000 --> 00:18:32,000

Some were even described to be able to cloak themselves.

189

00:18:33,000 --> 00:18:39,000

Now, while mainstream scholars interpret these events in divine and symbolic terms,

190

00:18:39,000 --> 00:18:48,000

the ancient astronaut theory suggests that this is rooted in misunderstood technology and that they were perhaps witnessing extraterrestrial craft.

191

00:18:49,000 --> 00:18:53,000

You see, for example, here, this is the so-called Borobudur in Indonesia.

192

00:18:53,000 --> 00:18:58,000

It's a gigantic temple and it's just composed of hundreds and hundreds of stupas.

193

00:18:58,000 --> 00:19:01,000

Now, these stupas are not empty.

194

00:19:01,000 --> 00:19:04,000

Every stupa inside is the young Buddha.

195

00:19:04,000 --> 00:19:06,000

And what is the young Buddha doing?

196

00:19:06,000 --> 00:19:12,000

He's using his hands, you see, to manipulate some control because according to their belief,

197

00:19:12,000 --> 00:19:18,000

the stupa is the small vehicle with which you reach the big vehicle.

198

00:19:18,000 --> 00:19:21,000

The big vehicle is surrounding the planet.

199

00:19:21,000 --> 00:19:25,000

The small vehicle comes down to Earth and goes again, but chest to the big.

200

00:19:25,000 --> 00:19:28,000

So you have to manipulate some control.

201

00:19:29,000 --> 00:19:35,000

And you remember, Giorgio, we have this famous block of Palenque, Mexico.

202

00:19:35,000 --> 00:19:43,000

And there, this young ruler, Pakal, is sitting on this sort of chair, manipulating some controls with two hands.

203

00:19:43,000 --> 00:19:51,000

If you turn it a little, you have exactly the same pictures as young Buddha sitting in a stupa.

204

00:19:52,000 --> 00:19:58,000

And you see, when you take any Indian temple, it doesn't matter if the temple is a young temple.

205

00:19:58,000 --> 00:20:03,000

I mean, maybe it was constructed just 50 years ago, or it is an old temple.

206

00:20:03,000 --> 00:20:05,000

The temple is 2,000 years ago. It doesn't matter what.

207

00:20:05,000 --> 00:20:11,000

On top of every Indian temple, still today, you have a so-called Vimana.

208

00:20:11,000 --> 00:20:17,000

Vimana is, again, the flying machine from mythology, but it was not mythology.

209

00:20:17,000 --> 00:20:23,000

But sometimes it was reality. And sometimes the Vimana has the shape of a stupa. Again.

210

00:20:23,000 --> 00:20:31,000

What do you say to people who suggest that the ancient Indian epics are nothing else but a product of fantasy?

211

00:20:31,000 --> 00:20:37,000

This is all garbage. It was real. It was reality.

212

00:20:37,000 --> 00:20:43,000

The Vimana always came from the so-called cities in the sky. Today we would say mother's spaceship.

213

00:20:43,000 --> 00:20:51,000

You know, there are some that have suggested that some of the Nazi scientists were inspired by Sanskrit texts.

214

00:20:51,000 --> 00:20:53,000

Do you think that's a possibility?

215

00:20:53,000 --> 00:21:02,000

That's true. We know from some diaries of these scientists that they studied Sanskrit texts and they were influenced.

216

00:21:02,000 --> 00:21:12,000

Eric then shared an interesting story with me about one of the German scientists he'd once met in person concerning the Wundawaffe developments.

217

00:21:12,000 --> 00:21:20,000

You see, Werner von Braun was the one who launched Upsatwan V to the moon. He was the student of Professor Dr. Hermann Obot.

218

00:21:20,000 --> 00:21:32,000

Hermann Obot is what we call the father of rockets. They were studying Hindu and Vedata texts, definitely, because when he was an old man,

219

00:21:32,000 --> 00:21:38,000

I had the chance to speak together with Hermann Obot. And I asked him about these things.

220

00:21:38,000 --> 00:21:47,000

Did you work at some kind of stupas, a kind of secret weaponry? He said, yes, we did work, but we never finished the work.

221

00:21:47,000 --> 00:21:51,000

If we would have finished it, we would have won the war.

222

00:21:51,000 --> 00:21:59,000

Thank you very much, Daphne, for answering some of these questions. And I'm not sure yet where I will go next in this investigation,

223

00:21:59,000 --> 00:22:04,000

but this was invaluable information. Thank you very much, Eric, as always.

224

00:22:04,000 --> 00:22:12,000

Thank you, George. You can come to my archives. It's endless. It will never end. All the links and stories together.

225

00:22:12,000 --> 00:22:14,000

It all comes together, absolutely.

226

00:22:15,000 --> 00:22:26,000

It's always fascinating to talk with Eric, and speaking with him made me wonder if maybe the Glocke wasn't only designed to be a part of a time-traveling craft,

227

00:22:26,000 --> 00:22:31,000

but perhaps was also designed to be a time-traveling craft.

228

00:22:32,000 --> 00:22:40,000

Because he kept on saying how the ancient people often reported seeing stupa-shaped craft coming down from the sky.

229

00:22:41,000 --> 00:22:47,000

But was the mysterious bell-shaped object simply known as the Glocke really capable of space travel,

230

00:22:47,000 --> 00:22:55,000

and if so, could it reach the kind of incredible speeds necessary to enable it to travel through time?

231

00:22:56,000 --> 00:22:59,000

It is the feasibility of time travel.

232

00:22:59,000 --> 00:23:01,000

Well, we know it works.

233

00:23:01,000 --> 00:23:07,000

Germany invented relativity. Intellectually, they had more than enough horsepower.

234

00:23:12,000 --> 00:23:17,000

Human beings have dreamed of traveling through time for hundreds of years.

235

00:23:17,000 --> 00:23:27,000

In 1905, Albert Einstein proved that time travel is, in fact, achievable based on his famous theory of relativity.

236

00:23:28,000 --> 00:23:36,000

Since then, scientists have been trying to develop a time machine that can travel both forward and backwards in time.

237

00:23:37,000 --> 00:23:46,000

And some propose that the best way to manipulate time is by creating an artificial time vortex or wormhole.

238

00:23:47,000 --> 00:23:59,000

Even NASA is developing warp drive technology that would allow us to exceed the speed of light and, in so doing, travel into the future.

239

00:24:00,000 --> 00:24:05,000

And now I'm back in the States in Pittsburgh.

240

00:24:06,000 --> 00:24:14,000

I still have some questions about time travel, and there's no one better to ask about time travel than Stanton Friedman,

241

00:24:14,000 --> 00:24:21,000

a nuclear physicist, so I'm really looking forward to meet with one of the greatest minds in ufology today.

242

00:24:30,000 --> 00:24:35,000

Stan, such a great time to see you again. How are you?

243

00:24:35,000 --> 00:24:37,000

I've been a while.

244

00:24:37,000 --> 00:24:43,000

So thank you very much for taking the time to meet with me and answer some of my questions.

245

00:24:43,000 --> 00:24:44,000

In general?

246

00:24:44,000 --> 00:24:55,000

I actually went to Poland to look at the Heng because, allegedly, the Nazis were working on this bell-shaped weapon called the Glocke,

247

00:24:56,000 --> 00:25:04,000

at which they were able to manipulate space and time. Clearly, something went on, but what was it?

248

00:25:04,000 --> 00:25:09,000

There's no question that German technology was outstanding, and before the Second World War,

249

00:25:09,000 --> 00:25:13,000

certainly they were ahead of the United States in many areas of technology.

250

00:25:13,000 --> 00:25:19,000

What is your opinion on the feasibility or the reality of time travel?

251

00:25:19,000 --> 00:25:23,000

Well, there are areas where we know it works, as a matter of fact.

252

00:25:23,000 --> 00:25:28,000

As you get close to the speed of light, time slows down.

253

00:25:28,000 --> 00:25:31,000

How much will it depend on how close you get?

254

00:25:31,000 --> 00:25:40,000

In Albert Einstein's theory of relativity, time dilation refers to the passage of time being affected by the laws of nature,

255

00:25:40,000 --> 00:25:44,000

such as differences in gravity and velocity.

256

00:25:44,000 --> 00:25:52,000

This phenomenon may be best illustrated by comparing an atomic clock on Earth with another one in space.

257

00:25:52,000 --> 00:26:03,000

Even though both clocks function perfectly, the clock in space will run slower due to the bending of space-time by the forces of gravity.

258

00:26:04,000 --> 00:26:14,000

So I wanted to know, since time travel is theoretically possible, if the Nazi scientists could have achieved it during World War II,

259

00:26:14,000 --> 00:26:24,000

could you surmise that this bell shape or cone shape in any way, shape or form, is conducive to

manipulating time and space?

260

00:26:24,000 --> 00:26:33,000

Whether it has anything to do with time or not, I don't know. I like the symmetry of it, because I expect anything with time is symmetrical.

261

00:26:33,000 --> 00:26:43,000

If Hitler's guys had figured out how to build a time machine or an anti-gravity machine or some entirely new physical graph,

262

00:26:43,000 --> 00:26:47,000

they would have used it during the war. I cannot believe that Hitler would have withheld it.

263

00:26:47,000 --> 00:26:58,000

What if they couldn't complete what they were working on and it just so happened to be that America grabbed it?

264

00:26:58,000 --> 00:27:06,000

I've seen no signs of that. However, it finally got 156 pages of top secret Umbra NSA UFO documents.

265

00:27:06,000 --> 00:27:10,000

You can read one sentence per page. Everything else is whited out.

266

00:27:11,000 --> 00:27:19,000

The CIA released a bunch of blacked out documents. Some of them have six words you could read, some eight words you could read.

267

00:27:19,000 --> 00:27:25,000

And people say there's no cover-up. Well, there is a cover-up. It's very hard to say anything's impossible.

268

00:27:25,000 --> 00:27:33,000

Well Stan, this has been a great honor. I've learned a lot. And your contribution here has been invaluable. So thank you very much.

269

00:27:33,000 --> 00:27:35,000

It's my pleasure. I've learned something.

270

00:27:35,000 --> 00:27:37,000

I'll let you know how all of this goes.

271

00:27:37,000 --> 00:27:38,000

Good.

272

00:27:41,000 --> 00:27:52,000

I'm in Southern California about to meet with Dr. Bob Frisbee, a retired aerospace engineer, and we're about to conduct some wind tunnel tests on a bell-shaped object.

273

00:27:52,000 --> 00:28:04,000

I want to find out whether or not a vehicle with this shape is suitable for flight, because we still don't know if the Glocke was designed to be some kind of spacecraft.

274

00:28:05,000 --> 00:28:10,000

George, you're welcome to the NASA wind tunnel at Cal State LA.

275

00:28:10,000 --> 00:28:16,000

This is awesome. So this is where the hardcore science takes place.

276

00:28:16,000 --> 00:28:17,000

Absolutely.

277

00:28:17,000 --> 00:28:32,000

I've been all over the place investigating this idea that the Nazis built this strange weapon

called the Glocke or the bell, and that this might have had something to do with a time travel device, which I find very intriguing.

278

00:28:32,000 --> 00:28:47,000

In order to do something like time travel, you're going to need very large energies and masses and very odd configurations in order to make the equations of general relativity come out the way you want them to.

279

00:28:47,000 --> 00:29:01,000

You touched upon something that I've always found very interesting, because yes, it is conceivable that time travel is possible, but the energy requirements for that would be so vast that each of these devices is going to be able to do something.

280

00:29:02,000 --> 00:29:14,000

Even if we combined all of our available energy resources today, is it correct that we don't have the energy resources to actually fire up the engine?

281

00:29:14,000 --> 00:29:22,000

To make something like this work requires an enormous amount of mass to warp space time.

282

00:29:22,000 --> 00:29:40,000

So if we somehow had an enormous amount of negative energy, we could warp space in just the directions you need and the way you need to do things like anti-gravity warp drives, wormholes, and potentially time machines.

283

00:29:40,000 --> 00:29:56,000

I love it. In this investigation, when I read up that maybe the Nazis were working on a bell-shaped energy device that some have proposed might have been a time machine or something like that, my mind was blown. What do you think?

284

00:29:56,000 --> 00:30:12,000

Well, first of all, Germany invented relativity and quantum mechanics. So intellectually, they had more than enough horsepower to actually come to grips with the science of something like this.

285

00:30:12,000 --> 00:30:26,000

The idea of time travel being possible is very exciting to me, and the concept that a person could travel not only through space, but also through time, is even more incredible.

286

00:30:26,000 --> 00:30:42,000

But was the mysterious bell-shaped object simply known as the Glocke really capable of space travel, and if so, could it reach the kind of incredible speeds necessary to enable it to travel through time? That is what I needed to find out.

287

00:30:42,000 --> 00:30:48,000

Join us here. I'd like to introduce you to Dr. Wu. Hello.

288

00:30:48,000 --> 00:30:50,000

How are you doing? Nice to meet you. How are you?

289

00:30:50,000 --> 00:30:52,000

Welcome to the Winter World Lab, gentlemen.

290

00:30:52,000 --> 00:30:54,000

This is great. So this is it.

291

00:30:54,000 --> 00:30:57,000

Today we're going to measure the aerodynamic drag.

292

00:30:57,000 --> 00:31:09,000

Now, of course, in the vacuum of space, drag is not an issue, but a craft that's also designed to maneuver on Earth would need to be aerodynamically sound.

293

00:31:10,000 --> 00:31:12,000

Let's fire her up.

294

00:31:14,000 --> 00:31:20,000

Did you come across any reports whether or not there were any people inside this object?

295

00:31:20,000 --> 00:31:27,000

There have been accounts which suggest that someone or something may have been inside the object.

296

00:31:28,000 --> 00:31:32,000

I'm meeting with retired aerospace engineer Dr. Bob Frisbee.

297

00:31:32,000 --> 00:31:41,000

I've asked him to test a stupa-shaped object in a wind tunnel to determine if it is aerodynamically suitable for flight.

298

00:31:41,000 --> 00:31:56,000

If we can prove that the object could not only fly, but be capable of reaching the incredible speeds necessary for space travel, then it's just possible that the German Glocke might actually have been capable of time travel.

299

00:31:57,000 --> 00:31:59,000

Let's fire her up.

300

00:32:07,000 --> 00:32:10,000

And then we increase the airspeed and see the drag will be increasing.

301

00:32:10,000 --> 00:32:14,000

Where do we see the airspeed? Right here.

302

00:32:14,000 --> 00:32:24,000

As Dr. Wu increases the airspeed within the chamber, a drag sensor measures how efficient the object is in terms of aerodynamic resistance.

303

00:32:24,000 --> 00:32:27,000

We're almost reaching 100 miles per hour.

304

00:32:27,000 --> 00:32:32,000

I think we have more than enough information.

305

00:32:32,000 --> 00:32:34,000

So now we can look at the data?

306

00:32:34,000 --> 00:32:51,000

When Dr. Wu showed us his evaluation of how the bell-shaped design performed in the wind tunnel, I expected that it would produce a lot of drag because it doesn't look anything like a rocket ship or the sleek aerodynamic designs associated with most flying machines.

307

00:32:52,000 --> 00:32:55,000

So what does this mean? How efficient is the shape?

308

00:32:55,000 --> 00:33:00,000

It's a comparison with other shapes like a shifu or a ball.

309

00:33:00,000 --> 00:33:06,000

The wind tunnel test indicated that the bell shape is about twice as efficient as a sphere.

310

00:33:06,000 --> 00:33:12,000

I'm surprised how aerodynamically sound the stupa actually is.

311

00:33:12,000 --> 00:33:20,000

Even though it looks like it would be terribly inefficient, it's better than the simplest sphere.

312

00:33:20,000 --> 00:33:25,000

I mean, that is very interesting. That is surprising for sure.

313

00:33:25,000 --> 00:33:30,000

If the tests prove anything, it's that appearances can be deceiving.

314

00:33:32,000 --> 00:33:44,000

In May of 2014, an aerospace company called SpaceX unveiled version 2 of their Dragon spaceship designed for travel into deep space.

315

00:33:44,000 --> 00:33:52,000

And this ultra-modern spacecraft, like the Nazi Bell, bears a striking similarity to ancient stupas.

316

00:33:53,000 --> 00:34:01,000

Dr. Frisbee, thank you very much for answering some of my questions. And those wind tunnel tests were incredible.

317

00:34:01,000 --> 00:34:08,000

This is a way of opening the possibilities as to what can be going on in the world and the universe around us.

318

00:34:08,000 --> 00:34:17,000

Those are the only questions that we ask because this is something where people have forgotten that science, in the end, is an adventure.

319

00:34:20,000 --> 00:34:25,000

I now know that the design for the Glocke is aerodynamically sound.

320

00:34:25,000 --> 00:34:30,000

But what I still don't know is whether or not the device was ever constructed.

321

00:34:30,000 --> 00:34:41,000

To find out the answer, I traveled to Kecksburg, Pennsylvania, the site of a now famous UFO crash involving a mysterious bell-shaped object.

322

00:34:43,000 --> 00:34:55,000

On December 9th, 1965, a brilliant fireball streaking across the sky was witnessed by thousands of people as it flew over Michigan, Ohio and Pennsylvania.

323

00:34:56,000 --> 00:35:01,000

Several hundred people started come crashing through the trees into a deep ravine.

324

00:35:02,000 --> 00:35:12,000

These witnesses also reported that the U.S. Army later arrived on the scene, placed the object on a flatbed truck and quickly took it away.

325

00:35:12,000 --> 00:35:18,000

To this day, the military has denied that this event even took place.

326

00:35:19,000 --> 00:35:30,000

My first stop is to meet with Stan Gordon, a local researcher who is an expert in the 1965 Kecksburg crash.

327

00:35:33,000 --> 00:35:40,000

This is one of the photos I took in the mid-1980s. This is where we found what appeared to be a pattern of pre-damage.

328

00:35:40,000 --> 00:35:42,000

These are actually all physically knocked down.

329

00:35:42,000 --> 00:35:51,000

As you went down into the wooded area and found the trajectory, you found the fact that as this thing moved along, it knocked the trees out.

330

00:35:51,000 --> 00:35:54,000

Some trees were broken in the same direction.

331

00:35:54,000 --> 00:35:59,000

Clearly, there was something there and there were reports in the news.

332

00:35:59,000 --> 00:36:04,000

The newspaper accounts are quite interesting. The story made the national news.

333

00:36:04,000 --> 00:36:10,000

It was picked up by not only the local papers, but it was also picked up by the national media as well.

334

00:36:10,000 --> 00:36:13,000

Now, this was from our local Greensburg Tribune review.

335

00:36:13,000 --> 00:36:16,000

Look at that. Unidentified flying object falls near Kecksburg.

336

00:36:16,000 --> 00:36:18,000

Army ropes off area.

337

00:36:18,000 --> 00:36:20,000

Interesting. Okay.

338

00:36:20,000 --> 00:36:27,000

In your investigations, did you come across any reports whether or not there were any people inside this object?

339

00:36:27,000 --> 00:36:35,000

Because in Roswell's story, we always hear how they carried away bodies and that one of those bodies allegedly was alive.

340

00:36:35,000 --> 00:36:39,000

So is there anything similar in this particular case?

341

00:36:39,000 --> 00:36:49,000

There have been very interesting accounts which suggest a possibility that someone or something may have been inside the object.

342

00:36:49,000 --> 00:36:54,000

What do you personally think the Kecksburg object was?

343

00:36:54,000 --> 00:36:58,000

Well, I can tell you, there's various theories on it.

344

00:36:58,000 --> 00:37:07,000

It ranges from being a very sophisticated power source to some type of anti-gravity machine and to, in fact, a time machine.

345

00:37:07,000 --> 00:37:09,000

A time machine?

346

00:37:09,000 --> 00:37:17,000

Is it at all possible that the Glocke or the Nazi Bell and the UFO that crashed in the woods at Kecksburg are one and the same?

347

00:37:17,000 --> 00:37:20,000

And if so, what happened to it?

348

00:37:20,000 --> 00:37:24,000

And could there be an extraterrestrial connection?

349

00:37:25,000 --> 00:37:40,000

I'm in Kecksburg, Pennsylvania with local researcher Stan Gordon about to look at a full-sized

model of the UFO that allegedly crashed here in 1965.

350

00:37:40,000 --> 00:37:48,000

According to reports, it looks very much like the German Glocke and I can't wait to sit with my own eyes.

351

00:37:48,000 --> 00:37:51,000

So this is it, huh?

352

00:37:51,000 --> 00:37:53,000

That's correct, yes.

353

00:37:53,000 --> 00:37:54,000

Wow.

354

00:37:54,000 --> 00:37:56,000

Let's go take a little closer look.

355

00:37:56,000 --> 00:37:58,000

I mean, this is pretty interesting.

356

00:37:58,000 --> 00:38:01,000

Is this, I mean, tell me the story behind this.

357

00:38:01,000 --> 00:38:05,000

Is this an exact replica of the eyewitness report?

358

00:38:05,000 --> 00:38:10,000

Well, this is a markup of the object that reportedly fell here back in 1965.

359

00:38:10,000 --> 00:38:21,000

The Kecksburg UFO looks almost identical to the designs and drawings I've seen of the so-called Nazi Bell, and it's sort of blowing my mind.

360

00:38:21,000 --> 00:38:28,000

So what can you tell me about the size reference to the eyewitness reports in comparison to this replica right here?

361

00:38:28,000 --> 00:38:43,000

Okay, well, according to eyewitnesses who were up in the ravine and were standing only several feet away from the object, they estimate that this thing was approximately maybe about 10 to 12 feet, maybe more in length, and about 8 to 10 feet in diameter.

362

00:38:43,000 --> 00:38:48,000

And the popular term here is that this is called the acorn, right?

363

00:38:48,000 --> 00:38:49,000

That's correct.

364

00:38:49,000 --> 00:38:55,000

Well, one eyewitness said it looked like somebody took liquid metal and poured it into an acorn-shaped mold.

365

00:38:55,000 --> 00:39:12,000

There's no rivets, there's no seams, there's no weld marks, there's no fuselage, no windows, no doors, and on that raised up back area, what really caught his attention and others were these unusual markings that were raised up off the surface and looked more like symbols and letters.

366

00:39:12,000 --> 00:39:18,000

I'm going to just take some pictures from my archives.

367

00:39:18,000 --> 00:39:22,000

This has a perfect acorn shape.

368

00:39:22,000 --> 00:39:25,000

So can you actually take me to the crash site?

369

00:39:25,000 --> 00:39:29,000

I can take you up to the general area where a lot of the activities took place that evening.

370

00:39:29,000 --> 00:39:30,000

Sounds great.

371

00:39:30,000 --> 00:39:31,000

All right.

372

00:39:31,000 --> 00:39:33,000

So let's go to the crash site.

373

00:39:33,000 --> 00:39:35,000

Okay.

374

00:39:35,000 --> 00:39:46,000

I know this is crazy to think about, but did a time machine built by the Nazis during World War II really crash land here in Kecksburg in 1965?

375

00:39:46,000 --> 00:40:00,000

I mean, it's highly speculative and I'm not saying that this is what happened, but just a possibility is mind-blowing and I can't wait to see the area where this thing touched down.

376

00:40:00,000 --> 00:40:02,000

So this was the general area?

377

00:40:02,000 --> 00:40:05,000

Right, it's deep inside the wooded area.

378

00:40:05,000 --> 00:40:07,000

So you're telling me it's down there?

379

00:40:07,000 --> 00:40:08,000

In this general area.

380

00:40:08,000 --> 00:40:09,000

Okay.

381

00:40:09,000 --> 00:40:12,000

Let me see if I can...

382

00:40:12,000 --> 00:40:15,000

And so from what direction did it approach?

383

00:40:15,000 --> 00:40:22,000

Well, the object came in roughly from that general area, went out towards the mountains, out towards Warrowville.

384

00:40:22,000 --> 00:40:31,000

Then the object turned and began to track back towards Kecksburg, went a little further out, made another turn and then came down into the wooded ravine.

385

00:40:31,000 --> 00:40:32,000

So multiple turns?

386

00:40:32,000 --> 00:40:33,000

Yes.

387

00:40:33,000 --> 00:40:41,000

I mean, this would indicate to me that it wasn't necessarily a flat-out crash, but maybe they were looking for a clearing to land safely.

388

00:40:41,000 --> 00:40:45,000

So this object, whatever it was, apparently had made an unintentional landing.

389

00:40:45,000 --> 00:40:51,000

It crashed through the woods, it locked down trees and then it ended up down at the bottom of the ravine.

390

00:40:51,000 --> 00:40:53,000

That's interesting.

391

00:40:53,000 --> 00:40:59,000

I would love to go a little bit closer to see if we maybe can spot some of those knocked over trees.

392

00:40:59,000 --> 00:41:01,000

Maybe they still exist.

393

00:41:02,000 --> 00:41:16,000

So in this place, you're telling me that there used to be trees that were cut off in some sort of a pattern where the thing allegedly came in.

394

00:41:16,000 --> 00:41:20,000

Well, we had found what appeared to be a pattern of trajectory.

395

00:41:20,000 --> 00:41:25,000

We had found some trees were knocked down the same direction, other trees with the tops knocked out.

396

00:41:25,000 --> 00:41:27,000

This is quite fascinating.

397

00:41:32,000 --> 00:41:43,000

After visiting the site of the Kecksburg UFO crash, I'm fascinated by the eyewitness accounts of what appeared to be an acorn-shaped spacecraft

398

00:41:43,000 --> 00:41:49,000

and its similarity to the designs for the Glocke that were discovered after the war.

399

00:41:49,000 --> 00:42:00,000

Is it possible that the technologies the Nazis were developing toward the end of World War II were based on ancient Buddhist and Hindu texts?

400

00:42:00,000 --> 00:42:09,000

And was their plan to construct a time travel device made possible by reverse engineering extraterrestrial technology?

401

00:42:09,000 --> 00:42:11,000

Two facts are certain.

402

00:42:11,000 --> 00:42:18,000

Dr. Hans Kamler, the man in charge of the Nazi Glocke project, disappeared after the war.

403

00:42:18,000 --> 00:42:27,000

And in 1965, thousands of people witnessed a UFO that they described as looking almost like an upside-down bell,

404

00:42:27,000 --> 00:42:32,000

one that changed direction like someone was inside steering it.

405

00:42:32,000 --> 00:42:37,000

Although a connection between these two events has not yet been proven,

406

00:42:37,000 --> 00:42:46,000

I am sure that one day we will achieve some type of technology that will allow us to travel not only through space,

407

00:42:46,000 --> 00:42:52,000

but perhaps also through time in search of aliens.
