

Just Energy
Radio

Mike Bara 3.0

Dr. Rita Louise

1
00:00:13,589 --> 00:00:11,030
welcome to just energy radio with your

2
00:00:15,270 --> 00:00:13,599
host naturopath and medical intuitive dr

3
00:00:16,790 --> 00:00:15,280
reed louise

4
00:00:18,950 --> 00:00:16,800
we have learned from einstein's theory

5
00:00:21,029 --> 00:00:18,960
that matter and energy are one

6
00:00:22,870 --> 00:00:21,039
physicists believe that all systems in

7
00:00:24,550 --> 00:00:22,880
nature have their own particular way of

8
00:00:26,710 --> 00:00:24,560
vibrating from the swinging of a

9
00:00:28,630 --> 00:00:26,720
pendulum to the waves of the ocean to

10
00:00:31,029 --> 00:00:28,640
the light that brightens the sky each

11
00:00:32,870 --> 00:00:31,039
day each of these oscillates at its own

12
00:00:35,110 --> 00:00:32,880
unique rate the same holds true for

13
00:00:37,590 --> 00:00:35,120

every thought feeling event or word we

14

00:00:39,750 --> 00:00:37,600

speak each has its own frequency or rate

15

00:00:41,670 --> 00:00:39,760

of vibration what many of us don't

16

00:00:44,229 --> 00:00:41,680

realize is when we take everything in

17

00:00:46,950 --> 00:00:44,239

our universe down to its simplest form

18

00:00:49,190 --> 00:00:46,960

it is all just energy

19

00:00:51,670 --> 00:00:49,200

join dr reed louise on a journey through

20

00:00:53,110 --> 00:00:51,680

time and space where past present and

21

00:00:55,830 --> 00:00:53,120

future collide

22

00:00:58,470 --> 00:00:55,840

today what you believe may be called

23

00:01:00,470 --> 00:00:58,480

into question what we want to know is

24

00:01:03,270 --> 00:01:00,480

who made up the rules

25

00:01:05,509 --> 00:01:03,280

be brave and step outside the box we are

26
00:01:07,590 --> 00:01:05,519
about to turn our world upside down and

27
00:01:10,310 --> 00:01:07,600
venture into the unknown

28
00:01:13,030 --> 00:01:10,320
hold on we are departing our own beliefs

29
00:01:23,749 --> 00:01:13,040
and entering alternative realms

30
00:01:27,510 --> 00:01:25,830
hello and welcome to just energy radio

31
00:01:29,910 --> 00:01:27,520
i'm your host dr rita louse and thank

32
00:01:31,550 --> 00:01:29,920
you all for tuning into the show today

33
00:01:33,429 --> 00:01:31,560
just energy radio is brought to you by

34
00:01:35,109 --> 00:01:33,439
soulhealer.com where you can find out

35
00:01:37,030 --> 00:01:35,119
about all the products and services i

36
00:01:39,429 --> 00:01:37,040
offer including medical intuition

37
00:01:41,510 --> 00:01:39,439
evaluations energy healings and psychic

38
00:01:43,109 --> 00:01:41,520

readings so if there's stuff going on in

39

00:01:44,950 --> 00:01:43,119

your life if there's a problem with your

40

00:01:46,789 --> 00:01:44,960

health maybe there's some challenges

41

00:01:48,389 --> 00:01:46,799

going on in your relationship space or

42

00:01:50,710 --> 00:01:48,399

you hate your job and you're looking to

43

00:01:52,789 --> 00:01:50,720

move on to something else give me a call

44

00:01:56,310 --> 00:01:52,799

we can set up a time for a prom a

45

00:01:58,630 --> 00:01:56,320

one-on-one consultation by fold or by

46

00:02:02,670 --> 00:01:58,640

skype it's also brought to you by the

47

00:02:06,069 --> 00:02:03,910

www.appliedenergeticsinstitute.com where

48

00:02:09,669 --> 00:02:06,079

you can jumpstart your intuition today

49

00:02:11,270 --> 00:02:09,679

by downloading their free 50-page guide

50

00:02:13,589 --> 00:02:11,280

if you haven't gotten a copy of my new

51
00:02:15,350 --> 00:02:13,599
book et chronicles it's still available

52
00:02:17,270 --> 00:02:15,360
on amazon.com

53
00:02:19,270 --> 00:02:17,280
waiting for you or actually at the

54
00:02:22,229 --> 00:02:19,280
bookstore near you

55
00:02:24,229 --> 00:02:22,239
or my new movie icon deconstructing the

56
00:02:26,790 --> 00:02:24,239
archetypes of our ancient that obviously

57
00:02:29,670 --> 00:02:26,800
is still available on amazon as a

58
00:02:31,990 --> 00:02:29,680
digital download only 1.99 it's a

59
00:02:34,070 --> 00:02:32,000
bargain i would say i would autograph it

60
00:02:37,670 --> 00:02:34,080
for you and send it to you but it

61
00:02:39,350 --> 00:02:37,680
doesn't work that way i don't know why

62
00:02:41,190 --> 00:02:39,360
anyway we're going to have a great show

63
00:02:43,350 --> 00:02:41,200

tonight we have a good friend of just

64

00:02:45,670 --> 00:02:43,360

energy radio we have mike barra coming

65

00:02:48,630 --> 00:02:45,680

on tonight talking to us about

66

00:02:50,229 --> 00:02:48,640

ancient aliens on mars 2. i don't know i

67

00:02:52,150 --> 00:02:50,239

guess we're going to find out about that

68

00:02:53,270 --> 00:02:52,160

but let me tell you a little bit about

69

00:02:57,750 --> 00:02:53,280

mike

70

00:03:00,470 --> 00:02:57,760

best-selling author lecturer and

71

00:03:02,949 --> 00:03:00,480

tv personality he began his writing

72

00:03:04,630 --> 00:03:02,959

career after spending more than 25 years

73

00:03:06,550 --> 00:03:04,640

as an engineering

74

00:03:09,270 --> 00:03:06,560

engineering design consultant for a

75

00:03:11,149 --> 00:03:09,280

major aerospace companies where he is a

76

00:03:13,509 --> 00:03:11,159

card-carrying member of the

77

00:03:15,350 --> 00:03:13,519

military-industrial complex

78

00:03:18,790 --> 00:03:15,360

tonight he'll be building on his case

79

00:03:20,949 --> 00:03:18,800

made in ancient aliens on mars one and

80

00:03:23,350 --> 00:03:20,959

using data acquired from sophisticated

81

00:03:24,470 --> 00:03:23,360

new scientific instruments like the mars

82

00:03:25,670 --> 00:03:24,480

odyssey

83

00:03:28,550 --> 00:03:25,680

themis

84

00:03:31,589 --> 00:03:28,560

infrared imager mike is going to show us

85

00:03:34,229 --> 00:03:31,599

how regions of the cydonia

86

00:03:36,710 --> 00:03:34,239

a vast underground city filled with

87

00:03:39,670 --> 00:03:36,720

enormous structures and devices that

88

00:03:41,750 --> 00:03:39,680

still may be operating

89

00:03:42,630 --> 00:03:41,760

wow so please welcome to just energy

90

00:03:45,430 --> 00:03:42,640

radio

91

00:03:47,110 --> 00:03:45,440

mike barra hey mike how are you i'm good

92

00:03:49,030 --> 00:03:47,120

rita how are you well that's a that's an

93

00:03:50,470 --> 00:03:49,040

old bio that's like last year's book you

94

00:03:51,990 --> 00:03:50,480

know we can talk about that all you want

95

00:03:53,509 --> 00:03:52,000

but i i'm almost done with this this

96

00:03:55,830 --> 00:03:53,519

year's book so

97

00:03:57,270 --> 00:03:55,840

you know we're getting uh i i'm just

98

00:03:58,949 --> 00:03:57,280

rolling i got so many things going i

99

00:04:00,630 --> 00:03:58,959

can't i can't remember what i'm talking

100

00:04:02,789 --> 00:04:00,640

about from moment to moment

101

00:04:03,910 --> 00:04:02,799

well i think the last time you were on

102

00:04:06,309 --> 00:04:03,920

the show

103

00:04:09,910 --> 00:04:06,319

we were talking about ancient aliens on

104

00:04:13,429 --> 00:04:09,920

mars one and the new book was coming out

105

00:04:15,670 --> 00:04:13,439

like the next week it was like boom boom

106

00:04:17,349 --> 00:04:15,680

so because you were busy you were busy

107

00:04:19,990 --> 00:04:17,359

with your tv show and you didn't have

108

00:04:22,629 --> 00:04:20,000

time to come here and hang out with us

109

00:04:24,790 --> 00:04:22,639

yeah yeah so but i got you now and i'm

110

00:04:27,189 --> 00:04:24,800

waiting for the new book because you

111

00:04:30,870 --> 00:04:27,199

have another new book i wish more women

112

00:04:34,710 --> 00:04:30,880

would say that about me i've got you now

113

00:04:37,270 --> 00:04:35,909

february i'm supposed to be very

114

00:04:40,230 --> 00:04:37,280

attractive this month according to my

115

00:04:42,070 --> 00:04:40,240

numerology so i i'm i got my eyes open

116

00:04:44,390 --> 00:04:42,080

for the next ex mrs barra that's going

117

00:04:46,230 --> 00:04:44,400

to come along

118

00:04:48,550 --> 00:04:46,240

i can't remember what that post you had

119

00:04:50,390 --> 00:04:48,560

on facebook was about

120

00:04:55,030 --> 00:04:50,400

yeah you and your friend hanging out

121

00:04:59,749 --> 00:04:58,070

yeah well no i i have a friend uh named

122

00:05:01,590 --> 00:04:59,759

francie renmark actually her name is

123

00:05:04,310 --> 00:05:01,600

jill st james that's her that's her pen

124

00:05:06,550 --> 00:05:04,320

name and she uh she's an amazing

125

00:05:08,390 --> 00:05:06,560

numerologist and and she's got me tagged

126
00:05:11,189 --> 00:05:08,400
for february being a great month for me

127
00:05:12,790 --> 00:05:11,199
to meet my next mate so i kind of

128
00:05:15,830 --> 00:05:12,800
twisted it around into you know meeting

129
00:05:17,270 --> 00:05:15,840
my next ex-wife is uh you know i just

130
00:05:19,430 --> 00:05:17,280
got to get the house in the car that i'm

131
00:05:21,430 --> 00:05:19,440
going to give you after we break up

132
00:05:25,270 --> 00:05:21,440
all bot and then

133
00:05:29,430 --> 00:05:26,870
you know we'll have to compare notes

134
00:05:31,590 --> 00:05:29,440
because i'll give a presentation and

135
00:05:33,670 --> 00:05:31,600
i'll be saying well you know

136
00:05:35,990 --> 00:05:33,680
and tell this story you know but it'll

137
00:05:37,749 --> 00:05:36,000
be about an x and it's like oh but not

138
00:05:39,990 --> 00:05:37,759

the one i just told you about it was a

139

00:05:41,510 --> 00:05:40,000

different one a different x yes yeah

140

00:05:43,590 --> 00:05:41,520

it's like i've been married way too many

141

00:05:46,390 --> 00:05:43,600

times it's just not even funny well for

142

00:05:47,909 --> 00:05:46,400

me it's just the once um but i'm looking

143

00:05:50,390 --> 00:05:47,919

forward to number two you know is it

144

00:05:51,430 --> 00:05:50,400

number two where i i picked the really

145

00:05:53,749 --> 00:05:51,440

really

146

00:05:55,510 --> 00:05:53,759

gorgeous young girl and marry her and

147

00:05:57,350 --> 00:05:55,520

then that turns into a complete disaster

148

00:05:59,749 --> 00:05:57,360

isn't that it's not the one you always

149

00:06:02,230 --> 00:05:59,759

talk about with the third wife is the

150

00:06:04,070 --> 00:06:02,240

perfect one and age appropriate

151

00:06:06,070 --> 00:06:04,080

i don't know i don't know i'm ready to

152

00:06:08,070 --> 00:06:06,080

get going though i don't know i haven't

153

00:06:09,830 --> 00:06:08,080

really been attracted to some you know

154

00:06:12,950 --> 00:06:09,840

young sweet

155

00:06:14,150 --> 00:06:12,960

thing you know just not my speed well

156

00:06:15,270 --> 00:06:14,160

really you know it's interesting because

157

00:06:16,950 --> 00:06:15,280

that's interesting you'd say that

158

00:06:18,870 --> 00:06:16,960

because i i kind of

159

00:06:20,230 --> 00:06:18,880

like i thought this through

160

00:06:23,189 --> 00:06:20,240

a bit i mean over the last i've been

161

00:06:24,950 --> 00:06:23,199

divorced geez 10 years now and

162

00:06:26,230 --> 00:06:24,960

and you know i've met a lot of girls and

163

00:06:28,230 --> 00:06:26,240

some of them i was

164

00:06:29,990 --> 00:06:28,240

serious with and i had a couple of

165

00:06:31,749 --> 00:06:30,000

fairly serious relationships and the

166

00:06:34,390 --> 00:06:31,759

third one that i really wanted to be

167

00:06:36,390 --> 00:06:34,400

serious that kind of was sometimes

168

00:06:37,830 --> 00:06:36,400

and it was one of these things where i

169

00:06:40,950 --> 00:06:37,840

just thought you know

170

00:06:42,790 --> 00:06:40,960

what do i want out of the next

171

00:06:44,309 --> 00:06:42,800

girl the one that i really want to you

172

00:06:45,590 --> 00:06:44,319

know what i want to get i realized i

173

00:06:46,790 --> 00:06:45,600

wanted to get married again that was one

174

00:06:48,950 --> 00:06:46,800

of the gifts i got from one of the

175

00:06:50,629 --> 00:06:48,960

relationships that didn't work out

176

00:06:52,870 --> 00:06:50,639

and i thought you know what i really

177

00:06:56,230 --> 00:06:52,880

want is sweet i i don't care if the next

178

00:06:58,150 --> 00:06:56,240

girl is as dumb as a post as long as

179

00:07:01,510 --> 00:06:58,160

she's sweet because my last wife was

180

00:07:03,749 --> 00:07:01,520

super smart and vicious

181

00:07:04,950 --> 00:07:03,759

but you know it's wrong

182

00:07:07,270 --> 00:07:04,960

go the other way

183

00:07:09,909 --> 00:07:07,280

but you know if ron white says you can't

184

00:07:11,510 --> 00:07:09,919

fix stupid yeah

185

00:07:13,110 --> 00:07:11,520

but you don't have to you don't have to

186

00:07:14,070 --> 00:07:13,120

i mean it's like i'm looking you know

187

00:07:16,309 --> 00:07:14,080

again it

188

00:07:18,950 --> 00:07:16,319

intelligence is an admirable quality in

189

00:07:21,189 --> 00:07:18,960

in a man or a woman but uh it's not a

190

00:07:23,430 --> 00:07:21,199

requirement for me i you know i i just

191

00:07:25,029 --> 00:07:23,440

want i i want a sweet girl this time so

192

00:07:27,110 --> 00:07:25,039

that's what i'm looking for

193

00:07:29,670 --> 00:07:27,120

then you need to move to texas

194

00:07:30,710 --> 00:07:29,680

maybe even louisiana or arkansas i don't

195

00:07:32,710 --> 00:07:30,720

know

196

00:07:34,550 --> 00:07:32,720

yeah well unfortunately it appears i'm

197

00:07:37,830 --> 00:07:34,560

moving towards la instead so i guess

198

00:07:39,189 --> 00:07:37,840

that's closer to texas than seattle but

199

00:07:41,189 --> 00:07:39,199

you know they're not not a whole lot not

200

00:07:45,189 --> 00:07:41,199

a large supply of sweet ones in la i

201
00:07:47,029 --> 00:07:45,199
don't think yeah i don't think so either

202
00:07:50,150 --> 00:07:47,039
mike let's talk about you because you

203
00:07:55,670 --> 00:07:50,160
have ancient aliens on mars

204
00:08:04,710 --> 00:07:56,790
yeah

205
00:08:09,670 --> 00:08:07,909
you know and i know we talked about um

206
00:08:11,589 --> 00:08:09,680
a whole bunch of different things don't

207
00:08:13,110 --> 00:08:11,599
forget ancient aliens on the moon don't

208
00:08:15,110 --> 00:08:13,120
forget the choice and don't forget dark

209
00:08:17,029 --> 00:08:15,120
mission and the soon to be released

210
00:08:18,629 --> 00:08:17,039
ancient aliens and secret societies

211
00:08:19,990 --> 00:08:18,639
that's coming along too i know i'm

212
00:08:21,350 --> 00:08:20,000
waiting for that one it was supposed to

213
00:08:24,710 --> 00:08:21,360

be released this month but then they

214

00:08:26,790 --> 00:08:24,720

told me no it's not and i said

215

00:08:28,230 --> 00:08:26,800

okay yeah that's because the author has

216

00:08:30,070 --> 00:08:28,240

to finish it and

217

00:08:31,830 --> 00:08:30,080

he's about a week away from doing that

218

00:08:33,029 --> 00:08:31,840

but now my life's about to be turned

219

00:08:34,149 --> 00:08:33,039

upside down so i don't know when it's

220

00:08:37,750 --> 00:08:34,159

going to be finished hopefully the end

221

00:08:40,949 --> 00:08:39,029

yes we were going to talk about ancient

222

00:08:42,790 --> 00:08:40,959

aliens on mars 2 right

223

00:08:44,790 --> 00:08:42,800

that's right um

224

00:08:46,550 --> 00:08:44,800

but let's start here just kind of we're

225

00:08:49,110 --> 00:08:46,560

going to kind of backtrack on some

226

00:08:50,710 --> 00:08:49,120

information we covered in the last

227

00:08:52,790 --> 00:08:50,720

interview just kind of general

228

00:08:54,630 --> 00:08:52,800

information um

229

00:08:56,790 --> 00:08:54,640

but what let you know because the whole

230

00:08:59,110 --> 00:08:56,800

concept is that there were

231

00:09:01,829 --> 00:08:59,120

extraterrestrials on mars at some point

232

00:09:04,630 --> 00:09:01,839

time so what led you to believe that

233

00:09:06,150 --> 00:09:04,640

there was once intelligent life aka a

234

00:09:09,430 --> 00:09:06,160

civilization

235

00:09:11,030 --> 00:09:09,440

on mars well for me it's simply looking

236

00:09:13,269 --> 00:09:11,040

at all the pictures of the stuff that

237

00:09:15,269 --> 00:09:13,279

they left behind i mean the monuments

238

00:09:16,310 --> 00:09:15,279

the pyramids the

239

00:09:19,190 --> 00:09:16,320

um

240

00:09:20,470 --> 00:09:19,200

landing strips the machinery the

241

00:09:22,070 --> 00:09:20,480

equipment

242

00:09:24,630 --> 00:09:22,080

all the stuff that you can see from

243

00:09:26,389 --> 00:09:24,640

orbit as well as down on the ground

244

00:09:28,630 --> 00:09:26,399

uh by the the various rovers that have

245

00:09:30,870 --> 00:09:28,640

been traveling over mars now for for the

246

00:09:32,230 --> 00:09:30,880

better part of 10 years and just taking

247

00:09:34,150 --> 00:09:32,240

all kinds of pictures of these things i

248

00:09:36,710 --> 00:09:34,160

mean really if you know my background is

249

00:09:38,710 --> 00:09:36,720

mechanical engineering and that's not

250

00:09:40,870 --> 00:09:38,720

architecture but i know how i know

251

00:09:42,310 --> 00:09:40,880

structure when i see it and

252

00:09:43,829 --> 00:09:42,320

you know i've just looked at many of

253

00:09:46,070 --> 00:09:43,839

these things on mars that were first

254

00:09:47,670 --> 00:09:46,080

brought up in the 1970s as possibly

255

00:09:49,670 --> 00:09:47,680

being artificial and the more you study

256

00:09:51,350 --> 00:09:49,680

them the more you analyze them the more

257

00:09:53,750 --> 00:09:51,360

you dig into them the more clear it

258

00:09:55,350 --> 00:09:53,760

becomes at least to my mind that we're

259

00:09:57,990 --> 00:09:55,360

talking about artificial structures and

260

00:09:59,350 --> 00:09:58,000

not natural formations and you know it's

261

00:10:00,790 --> 00:09:59,360

um

262

00:10:02,070 --> 00:10:00,800

it's it's one of these things where

263

00:10:05,430 --> 00:10:02,080

you've got that

264

00:10:06,870 --> 00:10:05,440

long-range sort of um

265

00:10:09,110 --> 00:10:06,880

support you've got these all these

266

00:10:10,870 --> 00:10:09,120

different images of mars that show

267

00:10:12,389 --> 00:10:10,880

different things that for a variety of

268

00:10:14,470 --> 00:10:12,399

reasons that we can talk about over the

269

00:10:16,710 --> 00:10:14,480

course of the next couple hours you know

270

00:10:18,230 --> 00:10:16,720

verify that they're artificial and then

271

00:10:20,710 --> 00:10:18,240

you know you have these rovers landing

272

00:10:22,949 --> 00:10:20,720

in different spots on mars but also

273

00:10:25,350 --> 00:10:22,959

driving around and and

274

00:10:27,509 --> 00:10:25,360

taking images of all kinds of things

275

00:10:29,670 --> 00:10:27,519

that to my eye are

276

00:10:32,389 --> 00:10:29,680

equipment mechanical devices i mean we

277

00:10:34,389 --> 00:10:32,399

found what looked like cameras what look

278

00:10:39,430 --> 00:10:34,399

like

279

00:10:42,230 --> 00:10:39,440

circuit boards that have been eroded um

280

00:10:44,150 --> 00:10:42,240

air conditioners you know

281

00:10:47,190 --> 00:10:44,160

wrenches clamps

282

00:10:49,670 --> 00:10:47,200

um gears what looks like you know metal

283

00:10:51,509 --> 00:10:49,680

cased objects with flywheel engine type

284

00:10:52,949 --> 00:10:51,519

intakes inside of them just everything

285

00:10:54,470 --> 00:10:52,959

you could imagine from a mechanical

286

00:10:55,750 --> 00:10:54,480

engineering standpoint anything that you

287

00:10:58,310 --> 00:10:55,760

might see

288

00:11:00,310 --> 00:10:58,320

on an airplane or in the factory that

289

00:11:02,069 --> 00:11:00,320

built it you can find on mars and you

290

00:11:03,990 --> 00:11:02,079

can find these various rover pictures

291

00:11:06,470 --> 00:11:04,000

whether it's pathfinder

292

00:11:08,870 --> 00:11:06,480

spirit opportunity or even now curiosity

293

00:11:10,710 --> 00:11:08,880

they're just all over the place and

294

00:11:12,150 --> 00:11:10,720

so you've got multiple levels of

295

00:11:14,630 --> 00:11:12,160

confirmation

296

00:11:16,870 --> 00:11:14,640

and just after 15 20 years of looking at

297

00:11:18,389 --> 00:11:16,880

all this stuff very closely i just

298

00:11:19,990 --> 00:11:18,399

you know for me it's a foregone

299

00:11:22,790 --> 00:11:20,000

conclusion that we're looking at

300

00:11:25,430 --> 00:11:22,800

extraterrestrial architecture

301
00:11:27,670 --> 00:11:25,440
well and it sounds like these images are

302
00:11:28,710 --> 00:11:27,680
up close and personal it's not like they

303
00:11:31,350 --> 00:11:28,720
are

304
00:11:33,509 --> 00:11:31,360
orbiting from space and taking high

305
00:11:34,470 --> 00:11:33,519
definition photos but they're

306
00:11:36,069 --> 00:11:34,480
really well

307
00:11:37,030 --> 00:11:36,079
actually some actually some of them are

308
00:11:38,870 --> 00:11:37,040
i mean that's one of the things i

309
00:11:40,870 --> 00:11:38,880
covered in ancient aliens on mars was

310
00:11:42,710 --> 00:11:40,880
the orbital images of objects like the

311
00:11:45,350 --> 00:11:42,720
the face on mars

312
00:11:48,389 --> 00:11:45,360
the dnm pyramid which is a pentagonal

313
00:11:50,470 --> 00:11:48,399

five-sided pentagonal pyramid on Mars it

314

00:11:51,670 --> 00:11:50,480

actually has two separate axes of

315

00:11:53,910 --> 00:11:51,680

symmetry which means that it's

316

00:11:57,110 --> 00:11:53,920

symmetrical about two different centers

317

00:11:59,190 --> 00:11:57,120

lines and you know again people try to

318

00:12:01,430 --> 00:11:59,200

claim this is a wind eroded object which

319

00:12:03,430 --> 00:12:01,440

is ridiculous because if it was wind

320

00:12:05,430 --> 00:12:03,440

eroded it would be rounded it would not

321

00:12:07,590 --> 00:12:05,440

be angular like this

322

00:12:09,670 --> 00:12:07,600

and uh it's in complete isolation and

323

00:12:11,350 --> 00:12:09,680

you cannot find any naturally occurring

324

00:12:13,670 --> 00:12:11,360

pyramidal mountains on Earth or anywhere

325

00:12:15,829 --> 00:12:13,680

else that are in isolation and not part

326

00:12:17,670 --> 00:12:15,839

of a mountain range and you know i look

327

00:12:19,110 --> 00:12:17,680

at stuff like that and you know we can

328

00:12:20,790 --> 00:12:19,120

look at that from space and we can look

329

00:12:22,710 --> 00:12:20,800

at the details and

330

00:12:24,470 --> 00:12:22,720

then when we get deeply into the face on

331

00:12:26,470 --> 00:12:24,480

mars if you actually look at the areas

332

00:12:28,550 --> 00:12:26,480

that have been eroded away

333

00:12:31,110 --> 00:12:28,560

by wind you can see

334

00:12:32,870 --> 00:12:31,120

room-sized cellular type structures

335

00:12:34,790 --> 00:12:32,880

there's an area on the face that's in

336

00:12:37,350 --> 00:12:34,800

the second mars book ancient aliens on

337

00:12:39,269 --> 00:12:37,360

mars two where it's literally the size

338

00:12:42,870 --> 00:12:39,279

of a sports arena and you can see that

339

00:12:44,629 --> 00:12:42,880

the roof has collapsed inside and the

340

00:12:47,509 --> 00:12:44,639

support structure all the beams and

341

00:12:49,350 --> 00:12:47,519

girders and things that support it

342

00:12:50,870 --> 00:12:49,360

go around this thing at a 90 degree

343

00:12:52,470 --> 00:12:50,880

angle kind of a square they're all

344

00:12:53,829 --> 00:12:52,480

sticking up in other words the roof is

345

00:12:56,230 --> 00:12:53,839

caved in and you see all the support

346

00:12:59,430 --> 00:12:56,240

struts still sticking up and it looks

347

00:13:00,870 --> 00:12:59,440

exactly like um sports arenas in the u.s

348

00:13:03,829 --> 00:13:00,880

that have had their roofs collapsed and

349

00:13:06,069 --> 00:13:03,839

it's the same size but it's actually on

350

00:13:07,269 --> 00:13:06,079

this gigantic monument the face on mars

351

00:13:09,269 --> 00:13:07,279

and it's it's shown in the high

352

00:13:10,870 --> 00:13:09,279

resolution mars reconnaissance orbiter

353

00:13:13,430 --> 00:13:10,880

images which by by the way people have

354

00:13:15,990 --> 00:13:13,440

accused me of of never talking about or

355

00:13:17,190 --> 00:13:16,000

never showing the um the high resolution

356

00:13:18,790 --> 00:13:17,200

images of the face and that's just

357

00:13:21,110 --> 00:13:18,800

absolute nonsense there's all kinds of

358

00:13:23,350 --> 00:13:21,120

stuff about them and all my in my books

359

00:13:24,790 --> 00:13:23,360

both mars books so that's just

360

00:13:26,310 --> 00:13:24,800

a bunch of bs

361

00:13:27,750 --> 00:13:26,320

and then you know you do have the

362

00:13:29,829 --> 00:13:27,760

supporting

363

00:13:31,430 --> 00:13:29,839

uh ground truth that the rovers give us

364

00:13:32,710 --> 00:13:31,440

which is again just

365

00:13:34,470 --> 00:13:32,720

the kind of stuff that you would expect

366

00:13:36,870 --> 00:13:34,480

to find in a junkyard

367

00:13:38,550 --> 00:13:36,880

if the planet mars was in fact what what

368

00:13:42,230 --> 00:13:38,560

myself and other people allege it is

369

00:13:47,110 --> 00:13:44,949

you talked about this sports arena kind

370

00:13:48,790 --> 00:13:47,120

of complex and one of the questions that

371

00:13:52,230 --> 00:13:48,800

i had for you

372

00:13:53,829 --> 00:13:52,240

is based on the side i mean it's

373

00:13:55,350 --> 00:13:53,839

sounding like let me back up it's

374

00:13:58,550 --> 00:13:55,360

sounding like

375

00:14:00,710 --> 00:13:58,560

we can identify the relative size of

376

00:14:01,509 --> 00:14:00,720

these different structures or monuments

377

00:14:03,189 --> 00:14:01,519

that

378

00:14:06,870 --> 00:14:03,199

you are talking about or we'll be

379

00:14:10,470 --> 00:14:06,880

talking about uh tonight

380

00:14:12,790 --> 00:14:10,480

can you identify or figure out if there

381

00:14:14,150 --> 00:14:12,800

were inhabitants that were occupying

382

00:14:17,430 --> 00:14:14,160

these structures

383

00:14:20,150 --> 00:14:17,440

how big they would be they were

384

00:14:22,150 --> 00:14:20,160

roughly the same size as us um before

385

00:14:24,310 --> 00:14:22,160

before we do this so let's go let's go a

386

00:14:26,470 --> 00:14:24,320

little bit deeper into this um and let

387

00:14:29,110 --> 00:14:26,480

people know that you can go to my blog

388

00:14:32,069 --> 00:14:30,550

dot mikebara.blogspot.com or just search

389

00:14:34,710 --> 00:14:32,079

mike barra on google it's the first

390

00:14:36,910 --> 00:14:34,720

thing that comes up and that's b-a-r-a

391

00:14:38,550 --> 00:14:36,920

and if you go to my blog

392

00:14:39,990 --> 00:14:38,560

mikebar.blogspot.com and click on the

393

00:14:42,310 --> 00:14:40,000

photos tab

394

00:14:44,150 --> 00:14:42,320

there's a link on the next page that

395

00:14:46,230 --> 00:14:44,160

says all the images from my books

396

00:14:48,389 --> 00:14:46,240

ancient aliens on the moon and mars are

397

00:14:50,069 --> 00:14:48,399

available on my picasa web album so if

398

00:14:52,550 --> 00:14:50,079

you just click on that

399

00:14:54,629 --> 00:14:52,560

picasa web album link

400

00:14:56,389 --> 00:14:54,639

it'll take you right to

401
00:14:57,590 --> 00:14:56,399
a page where you can look at all these

402
00:14:59,110 --> 00:14:57,600
different things that we're talking

403
00:15:01,030 --> 00:14:59,120
about from both

404
00:15:03,590 --> 00:15:01,040
ancient aliens on mars ancient aliens on

405
00:15:05,509 --> 00:15:03,600
mars two and then also ancient aliens on

406
00:15:08,470 --> 00:15:05,519
on the moon so they're all right in

407
00:15:11,509 --> 00:15:08,480
there and we can go look at them um

408
00:15:12,389 --> 00:15:11,519
so you know what i'm talking about

409
00:15:14,389 --> 00:15:12,399
okay so

410
00:15:15,670 --> 00:15:14,399
um i just wanted to let that out so you

411
00:15:18,790 --> 00:15:15,680
know um

412
00:15:20,389 --> 00:15:18,800
yeah you can you can you know the

413
00:15:22,470 --> 00:15:20,399

distance of the orbiter so you kind of

414

00:15:23,910 --> 00:15:22,480

have a per pixel scale and then from

415

00:15:25,829 --> 00:15:23,920

that you can deduce

416

00:15:27,590 --> 00:15:25,839

about how roughly how big these things

417

00:15:29,509 --> 00:15:27,600

are you know the face itself is really

418

00:15:31,670 --> 00:15:29,519

an enormous structure it's about a mile

419

00:15:32,629 --> 00:15:31,680

and a half long by a little over a mile

420

00:15:34,710 --> 00:15:32,639

wide

421

00:15:37,269 --> 00:15:34,720

it's uh it's quite enormous it goes up

422

00:15:39,670 --> 00:15:37,279

very very high into the sky the tip of

423

00:15:41,189 --> 00:15:39,680

the nose is the highest point on the

424

00:15:43,910 --> 00:15:41,199

face on mars

425

00:15:45,590 --> 00:15:43,920

and um you know it has an eye socket

426

00:15:47,829 --> 00:15:45,600

that's look like looks like a human eye

427

00:15:49,509 --> 00:15:47,839

socket it has a brow ridge it has a nose

428

00:15:50,790 --> 00:15:49,519

it has what looks like a mouth that goes

429

00:15:52,790 --> 00:15:50,800

through it has what appear to be

430

00:15:54,710 --> 00:15:52,800

nostrils and then when you get into the

431

00:15:57,350 --> 00:15:54,720

absolute depth of it you get into this

432

00:15:59,430 --> 00:15:57,360

really super high resolution detail you

433

00:16:02,629 --> 00:15:59,440

see these rooms and these buildings and

434

00:16:04,230 --> 00:16:02,639

they are built at roughly a human scale

435

00:16:06,790 --> 00:16:04,240

so you know i

436

00:16:08,949 --> 00:16:06,800

i've always asked myself why would

437

00:16:11,030 --> 00:16:08,959

why would an alien species that didn't

438

00:16:13,509 --> 00:16:11,040

look like us build

439

00:16:14,949 --> 00:16:13,519

a human looking face on mars and the

440

00:16:17,110 --> 00:16:14,959

answer is they wouldn't and what i

441

00:16:18,949 --> 00:16:17,120

suspect is that this is extraterrestrial

442

00:16:21,269 --> 00:16:18,959

rather than alien

443

00:16:23,670 --> 00:16:21,279

and the context of that to me means that

444

00:16:25,509 --> 00:16:23,680

alien means not really genetically

445

00:16:28,870 --> 00:16:25,519

related to us whereas extraterrestrial

446

00:16:30,310 --> 00:16:28,880

to me means pretty much like us

447

00:16:32,710 --> 00:16:30,320

um

448

00:16:34,389 --> 00:16:32,720

and that we're kind of an offshoot of of

449

00:16:37,590 --> 00:16:34,399

them so they're extraterrestrial as

450

00:16:39,189 --> 00:16:37,600

opposed to uh established to alien

451

00:16:40,949 --> 00:16:39,199

well that's a really interesting

452

00:16:43,430 --> 00:16:40,959

separation that's kind of like god with

453

00:16:44,629 --> 00:16:43,440

a big g and god with little g they're

454

00:16:46,870 --> 00:16:44,639

aliens

455

00:16:48,310 --> 00:16:46,880

and they're just extraterrestrials right

456

00:16:49,829 --> 00:16:48,320

which i use that all the time i mean i

457

00:16:52,069 --> 00:16:49,839

use the god with a small judy as opposed

458

00:16:53,509 --> 00:16:52,079

to god with a big g and and you know

459

00:16:55,590 --> 00:16:53,519

unfortunately what most people don't

460

00:16:57,350 --> 00:16:55,600

appreciate i think is that mostly the

461

00:16:59,670 --> 00:16:57,360

god in the bible that's talked about

462

00:17:01,670 --> 00:16:59,680

most the time is actually a god with a

463

00:17:03,269 --> 00:17:01,680

small g not god with a big g he's only

464

00:17:04,630 --> 00:17:03,279

really in genesis

465

00:17:05,829 --> 00:17:04,640

so um

466

00:17:07,429 --> 00:17:05,839

that's one of the interesting things

467

00:17:10,470 --> 00:17:07,439

there either yeah well he's there about

468

00:17:11,990 --> 00:17:10,480

14 times i think in genesis if i did did

469

00:17:13,270 --> 00:17:12,000

research for that for my second book the

470

00:17:14,470 --> 00:17:13,280

choice and

471

00:17:16,150 --> 00:17:14,480

and um

472

00:17:18,630 --> 00:17:16,160

that's what my next book ancient aliens

473

00:17:20,150 --> 00:17:18,640

and secret societies is about is the

474

00:17:23,909 --> 00:17:20,160

gods with a small g and what were they

475

00:17:27,750 --> 00:17:25,669

well that ought to be some interesting

476
00:17:30,549 --> 00:17:27,760
conversation it should be it should be i

477
00:17:32,549 --> 00:17:30,559
hope it is i hope it is

478
00:17:34,150 --> 00:17:32,559
when talking about the face on mars i

479
00:17:35,110 --> 00:17:34,160
feel like i'm kind of jumping around a

480
00:17:37,669 --> 00:17:35,120
little bit

481
00:17:39,029 --> 00:17:37,679
but we're talking about size if we were

482
00:17:42,630 --> 00:17:39,039
to compare

483
00:17:47,750 --> 00:17:42,640
the size of the face on mars and compare

484
00:17:48,870 --> 00:17:47,760
it to the pyramids in egypt

485
00:17:50,710 --> 00:17:48,880
oh like

486
00:17:52,390 --> 00:17:50,720
hundreds like a hundred times bigger i

487
00:17:53,990 --> 00:17:52,400
mean the pyramids in egypt

488
00:17:56,390 --> 00:17:54,000

are about the top the biggest one the

489

00:17:58,150 --> 00:17:56,400

great pyramids about 800 800 feet tall

490

00:17:59,590 --> 00:17:58,160

if you put that next to the face on mars

491

00:18:01,590 --> 00:17:59,600

it would be a little bitty speck in many

492

00:18:05,350 --> 00:18:01,600

of these images it's really not

493

00:18:07,990 --> 00:18:05,360

of significant size at all by comparison

494

00:18:09,750 --> 00:18:08,000

so it sounds like this face regardless

495

00:18:13,029 --> 00:18:09,760

of where you are

496

00:18:15,750 --> 00:18:13,039

is something that you would be able to

497

00:18:17,909 --> 00:18:15,760

see from space yeah it was designed to

498

00:18:19,669 --> 00:18:17,919

be seen from orbit as i think was the

499

00:18:21,590 --> 00:18:19,679

entire complex

500

00:18:24,470 --> 00:18:21,600

of objects around it remember the face

501
00:18:26,150 --> 00:18:24,480
is um is in an area called sedonia on

502
00:18:28,230 --> 00:18:26,160
mars which has

503
00:18:29,669 --> 00:18:28,240
not only the face but it has an area

504
00:18:31,750 --> 00:18:29,679
called the city which is a bunch of

505
00:18:33,990 --> 00:18:31,760
other isolated pyramidal looking

506
00:18:35,110 --> 00:18:34,000
structures and there's the dnm pyramid

507
00:18:36,870 --> 00:18:35,120
that we talked about earlier the

508
00:18:38,789 --> 00:18:36,880
five-sided pyramid which has two

509
00:18:41,350 --> 00:18:38,799
different axes of symmetry all that

510
00:18:43,830 --> 00:18:41,360
stuff is around the face and to me

511
00:18:45,510 --> 00:18:43,840
that's always encouraged uh or you know

512
00:18:46,950 --> 00:18:45,520
supported the idea that it was an

513
00:18:48,630 --> 00:18:46,960

artificial structure if it was just

514

00:18:50,789 --> 00:18:48,640

sitting there by itself

515

00:18:52,549 --> 00:18:50,799

there really wouldn't be um

516

00:18:54,630 --> 00:18:52,559

a whole lot to support the idea that it

517

00:18:57,110 --> 00:18:54,640

was artificial but the fact that it's

518

00:18:58,870 --> 00:18:57,120

surrounded by all kinds of other

519

00:19:00,950 --> 00:18:58,880

apparently artificial looking structures

520

00:19:03,350 --> 00:19:00,960

and according to the thermal infrared

521

00:19:05,510 --> 00:19:03,360

data that we that we we got from nasa at

522

00:19:07,430 --> 00:19:05,520

one point there appears to be an entire

523

00:19:10,070 --> 00:19:07,440

city underneath

524

00:19:12,549 --> 00:19:10,080

the sedonia plain uh all of that sort of

525

00:19:15,750 --> 00:19:12,559

reinforces in a consistent way

526

00:19:18,789 --> 00:19:15,760

the fact that the face is artificial

527

00:19:21,110 --> 00:19:18,799

what i find interesting is that we have

528

00:19:23,750 --> 00:19:21,120

you know kind of a parallel

529

00:19:25,909 --> 00:19:23,760

with the lines of nazca where it's it

530

00:19:27,430 --> 00:19:25,919

appears that they were designed to be

531

00:19:30,390 --> 00:19:27,440

seen from

532

00:19:33,029 --> 00:19:30,400

the air or space or it is a feature that

533

00:19:35,590 --> 00:19:33,039

can be seen from orbit just like

534

00:19:36,950 --> 00:19:35,600

the face on mars

535

00:19:38,630 --> 00:19:36,960

yeah although you know it's a little

536

00:19:41,110 --> 00:19:38,640

different than nazca in the sense that

537

00:19:42,870 --> 00:19:41,120

nazca has these these

538

00:19:44,870 --> 00:19:42,880

drawn out figures these figures that

539

00:19:46,390 --> 00:19:44,880

have clearly been drawn in the sand and

540

00:19:49,110 --> 00:19:46,400

you know there are people that i talked

541

00:19:50,549 --> 00:19:49,120

about in in ancient aliens on mars too

542

00:19:53,430 --> 00:19:50,559

there are people that do believe there's

543

00:19:55,510 --> 00:19:53,440

stuff like that on on mars that there is

544

00:19:57,669 --> 00:19:55,520

a drawing of nefertiti for instance that

545

00:19:59,990 --> 00:19:57,679

there's drawings of various birds and

546

00:20:01,750 --> 00:20:00,000

parrots and things like that and you

547

00:20:03,350 --> 00:20:01,760

know i kind of make the argument that

548

00:20:05,430 --> 00:20:03,360

i'd be more impressed by that if they

549

00:20:07,190 --> 00:20:05,440

were all together the way they are on

550

00:20:08,870 --> 00:20:07,200

nazca but the fact is is that they're

551
00:20:11,350 --> 00:20:08,880
all spread out

552
00:20:12,630 --> 00:20:11,360
um on a wide area you know they're all

553
00:20:13,990 --> 00:20:12,640
over the place on mars in different

554
00:20:14,950 --> 00:20:14,000
pictures and i think that people are

555
00:20:16,789 --> 00:20:14,960
kind of

556
00:20:18,230 --> 00:20:16,799
lightening and darkening certain areas

557
00:20:20,470 --> 00:20:18,240
to make it look more like what they

558
00:20:22,150 --> 00:20:20,480
wanted to look like than than what it

559
00:20:23,750 --> 00:20:22,160
really is a lot of cases i think that

560
00:20:25,990 --> 00:20:23,760
they're not really

561
00:20:27,990 --> 00:20:26,000
pictograms the way the um the nazca

562
00:20:30,149 --> 00:20:28,000
lines are so to me it's a little

563
00:20:32,390 --> 00:20:30,159

different now that doesn't mean though

564

00:20:34,470 --> 00:20:32,400

that it's really um

565

00:20:35,669 --> 00:20:34,480

it's not valuable to actually look for

566

00:20:37,110 --> 00:20:35,679

stuff like that or consider that

567

00:20:38,710 --> 00:20:37,120

possibility because one of the things

568

00:20:40,470 --> 00:20:38,720

that i do cover in ancient aliens on

569

00:20:42,710 --> 00:20:40,480

mars two

570

00:20:44,470 --> 00:20:42,720

is the fact that

571

00:20:47,190 --> 00:20:44,480

these guys that that are looking at this

572

00:20:49,190 --> 00:20:47,200

stuff and are writing about it um you

573

00:20:51,430 --> 00:20:49,200

know they look at dolphins and seahorses

574

00:20:54,070 --> 00:20:51,440

and nefertiti and all this stuff when

575

00:20:56,549 --> 00:20:54,080

you actually looked at uh study an area

576
00:20:58,710 --> 00:20:56,559
that they they're calling uh

577
00:20:59,830 --> 00:20:58,720
the parrot or what they think is a

578
00:21:01,830 --> 00:20:59,840
parrot

579
00:21:03,750 --> 00:21:01,840
just north of that

580
00:21:06,149 --> 00:21:03,760
is a is a city complex that was

581
00:21:07,750 --> 00:21:06,159
discovered by

582
00:21:09,909 --> 00:21:07,760
by some other researchers whose name

583
00:21:12,710 --> 00:21:09,919
escapes me and i apologize

584
00:21:15,350 --> 00:21:12,720
but as i began to study the so-called

585
00:21:17,430 --> 00:21:15,360
parrot image and looked at this city

586
00:21:20,470 --> 00:21:17,440
area what i found was i think probably

587
00:21:23,909 --> 00:21:20,480
the most extraordinarily obviously

588
00:21:26,710 --> 00:21:23,919

artificial city-like landscape um

589

00:21:29,029 --> 00:21:26,720

that i've ever found on mars that is i

590

00:21:31,350 --> 00:21:29,039

think i can make the strongest argument

591

00:21:33,510 --> 00:21:31,360

out of any of them that it's absolutely

592

00:21:35,110 --> 00:21:33,520

artificial and it you know it's just

593

00:21:37,110 --> 00:21:35,120

phenomenal what you see when you dig

594

00:21:40,390 --> 00:21:37,120

into that so it kind of led me

595

00:21:42,950 --> 00:21:40,400

into studying this this parrot city area

596

00:21:44,149 --> 00:21:42,960

and um and and really led to an amazing

597

00:21:45,990 --> 00:21:44,159

part of the book where i really go

598

00:21:47,029 --> 00:21:46,000

through a lot of the discovery process

599

00:21:49,669 --> 00:21:47,039

of this

600

00:21:51,990 --> 00:21:49,679

this area these sets of structures

601
00:21:54,070 --> 00:21:52,000
make comparisons to

602
00:21:55,990 --> 00:21:54,080
redondo hermosa beaches in los angeles

603
00:21:58,230 --> 00:21:56,000
and things like that and really came

604
00:21:59,510 --> 00:21:58,240
away from it just absolutely with my jaw

605
00:22:01,830 --> 00:21:59,520
dropping

606
00:22:03,190 --> 00:22:01,840
at what i found so you know there is

607
00:22:05,510 --> 00:22:03,200
value in looking at that although i

608
00:22:06,950 --> 00:22:05,520
don't necessarily agree with um

609
00:22:09,669 --> 00:22:06,960
with their interpretations of some of

610
00:22:12,549 --> 00:22:09,679
the objects that they point out

611
00:22:14,950 --> 00:22:12,559
well and i think with many things we

612
00:22:17,190 --> 00:22:14,960
look at and instead of just describing

613
00:22:19,430 --> 00:22:17,200

what we see we try to interpret it and

614

00:22:22,710 --> 00:22:19,440

make it fit in our framework

615

00:22:23,830 --> 00:22:22,720

but it's the same as our ancestors they

616

00:22:27,590 --> 00:22:23,840

saw

617

00:22:30,070 --> 00:22:27,600

the lights in the sky and the chariots

618

00:22:32,630 --> 00:22:30,080

of the gods and try to describe them

619

00:22:34,310 --> 00:22:32,640

best they could based on the information

620

00:22:37,669 --> 00:22:34,320

and technology they had of the day as

621

00:22:39,750 --> 00:22:37,679

well right right

622

00:22:42,950 --> 00:22:39,760

you know so what we call a pc board

623

00:22:45,029 --> 00:22:42,960

that's laying on the martian landscape

624

00:22:46,710 --> 00:22:45,039

you know might have been i don't know

625

00:22:48,950 --> 00:22:46,720

what an ancient would have called it a

626

00:22:50,149 --> 00:22:48,960

piece of wood

627

00:22:51,350 --> 00:22:50,159

yeah they wouldn't you know well you

628

00:22:53,190 --> 00:22:51,360

know it's interesting because one of the

629

00:22:54,549 --> 00:22:53,200

things in the new book in ancient aliens

630

00:22:55,750 --> 00:22:54,559

and secret societies that i've been

631

00:22:56,630 --> 00:22:55,760

doing is i've been going back and

632

00:22:58,950 --> 00:22:56,640

reading

633

00:23:00,950 --> 00:22:58,960

a lot of zechariah sitchin's books and

634

00:23:02,149 --> 00:23:00,960

um going through his research and you

635

00:23:04,549 --> 00:23:02,159

know they call

636

00:23:07,830 --> 00:23:04,559

they have sky chariots and they have

637

00:23:09,430 --> 00:23:07,840

celestial chariots and they have

638

00:23:11,990 --> 00:23:09,440

what do they call them

639

00:23:13,750 --> 00:23:12,000

sky vehicles and you know basically all

640

00:23:15,830 --> 00:23:13,760

these different things that when you

641

00:23:17,590 --> 00:23:15,840

read them they clearly are descriptions

642

00:23:21,029 --> 00:23:17,600

of rocket ships

643

00:23:22,870 --> 00:23:21,039

aircraft helicopters

644

00:23:24,470 --> 00:23:22,880

even tanks you know there's just

645

00:23:26,549 --> 00:23:24,480

descriptions of different objects that

646

00:23:28,710 --> 00:23:26,559

you clearly can say well that's that's

647

00:23:30,149 --> 00:23:28,720

an ancient you know sumerian who had a

648

00:23:32,149 --> 00:23:30,159

fairly primitive way of looking at

649

00:23:33,590 --> 00:23:32,159

things trying to describe

650

00:23:35,350 --> 00:23:33,600

something he doesn't really understand

651
00:23:37,350 --> 00:23:35,360
or trying to describe a technology that

652
00:23:40,870 --> 00:23:37,360
he doesn't really understand so yeah i

653
00:23:44,070 --> 00:23:42,149
um

654
00:23:46,630 --> 00:23:44,080
do you think that there's people still

655
00:23:50,789 --> 00:23:48,390
well you know it's interesting i'm

656
00:23:52,630 --> 00:23:50,799
looking at some of the images on my on

657
00:23:54,870 --> 00:23:52,640
my web album i'm looking at this area

658
00:23:56,390 --> 00:23:54,880
that i call the industrial complex in in

659
00:23:57,990 --> 00:23:56,400
parrot city and it looks like a

660
00:23:59,750 --> 00:23:58,000
processing plant of some kind for

661
00:24:01,750 --> 00:23:59,760
processing ore or something and you know

662
00:24:05,510 --> 00:24:01,760
i mean i've got there's roads and

663
00:24:07,750 --> 00:24:05,520

bridges and houses and and bunkers and

664

00:24:09,430 --> 00:24:07,760

uh what looks like a factory with

665

00:24:12,230 --> 00:24:09,440

tubes and different instruments and

666

00:24:13,830 --> 00:24:12,240

things on it and and you know vents and

667

00:24:16,710 --> 00:24:13,840

and i'm looking at this and it's in a

668

00:24:18,630 --> 00:24:16,720

state of disrepair but it's not

669

00:24:20,230 --> 00:24:18,640

horrifically so in other words it's not

670

00:24:23,029 --> 00:24:20,240

really really old stuff it's not

671

00:24:24,789 --> 00:24:23,039

desperately old it might be only a few

672

00:24:27,029 --> 00:24:24,799

thousand or a few hundred thousand years

673

00:24:28,549 --> 00:24:27,039

old and it's quite extraordinary to me

674

00:24:31,029 --> 00:24:28,559

when i look at this

675

00:24:32,390 --> 00:24:31,039

that it does look abandoned but it

676
00:24:34,149 --> 00:24:32,400
doesn't look like it's been abandoned

677
00:24:35,830 --> 00:24:34,159
for very long so

678
00:24:36,870 --> 00:24:35,840
it's hard for me to argue that there's

679
00:24:39,830 --> 00:24:36,880
nothing

680
00:24:41,510 --> 00:24:39,840
you know in operation there anymore now

681
00:24:43,110 --> 00:24:41,520
when you look at the thermal infrared

682
00:24:44,870 --> 00:24:43,120
images of the sedonia region right

683
00:24:46,549 --> 00:24:44,880
around the face and the dna pyramid and

684
00:24:48,950 --> 00:24:46,559
the stuff that we found that

685
00:24:49,830 --> 00:24:48,960
has to be under the ground

686
00:24:52,230 --> 00:24:49,840
there

687
00:24:53,909 --> 00:24:52,240
um if you if if they're telling the

688
00:24:56,070 --> 00:24:53,919

truth about the capabilities of the

689

00:24:57,990 --> 00:24:56,080

thermal infrared camera

690

00:24:59,669 --> 00:24:58,000

on the mars odyssey spacecraft that took

691

00:25:00,710 --> 00:24:59,679

those images then the only way we could

692

00:25:03,750 --> 00:25:00,720

be seeing

693

00:25:05,590 --> 00:25:03,760

that much reflectance and that much heat

694

00:25:07,909 --> 00:25:05,600

feedback to the camera

695

00:25:09,430 --> 00:25:07,919

is if you know the lights are still on

696

00:25:11,909 --> 00:25:09,440

down there now that doesn't mean there's

697

00:25:15,029 --> 00:25:11,919

anybody there but whoever

698

00:25:16,390 --> 00:25:15,039

was there apparently left and uh didn't

699

00:25:18,390 --> 00:25:16,400

turn off the lights because it looks

700

00:25:21,669 --> 00:25:18,400

like there's still stuff going on there

701
00:25:23,909 --> 00:25:21,679
and can you backtrack and explain what a

702
00:25:25,750 --> 00:25:23,919
thermal imaging camera would take a

703
00:25:27,669 --> 00:25:25,760
picture of you know like what

704
00:25:29,669 --> 00:25:27,679
what would what is it collecting what

705
00:25:31,909 --> 00:25:29,679
kind of data is it collecting to put

706
00:25:33,430 --> 00:25:31,919
into a visual image basically heat

707
00:25:35,269 --> 00:25:33,440
signatures is what it's picking up it's

708
00:25:36,870 --> 00:25:35,279
picking up heat signatures and and you

709
00:25:38,789 --> 00:25:36,880
know on a place like mars which is

710
00:25:40,549 --> 00:25:38,799
extremely um

711
00:25:42,390 --> 00:25:40,559
cold at night

712
00:25:44,230 --> 00:25:42,400
what you get is different materials

713
00:25:45,909 --> 00:25:44,240

retain heat differently metals retain

714

00:25:47,510 --> 00:25:45,919

heat differently than stone does stone

715

00:25:49,830 --> 00:25:47,520

does a better job of retaining heat so

716

00:25:51,750 --> 00:25:49,840

you can make some deductions on what

717

00:25:53,909 --> 00:25:51,760

stuff is made of by the amount of heat

718

00:25:55,269 --> 00:25:53,919

you would expect them to have been to

719

00:25:56,710 --> 00:25:55,279

have retained

720

00:25:58,710 --> 00:25:56,720

from the daytime i mean most people

721

00:26:01,190 --> 00:25:58,720

don't know that the temperature on mars

722

00:26:03,350 --> 00:26:01,200

in the day can get up to about 65

723

00:26:05,269 --> 00:26:03,360

degrees fahrenheit and if you were to

724

00:26:07,510 --> 00:26:05,279

to lay on your back

725

00:26:09,669 --> 00:26:07,520

with a little oxygen mask

726

00:26:11,510 --> 00:26:09,679

you know on mars there that you could

727

00:26:13,510 --> 00:26:11,520

very comfortably

728

00:26:14,390 --> 00:26:13,520

do that crawl around you could sit there

729

00:26:15,430 --> 00:26:14,400

you could

730

00:26:17,750 --> 00:26:15,440

do various things you wouldn't

731

00:26:19,590 --> 00:26:17,760

necessarily want to stand up because

732

00:26:21,190 --> 00:26:19,600

about five five or six feet above the

733

00:26:23,269 --> 00:26:21,200

surface of mars it gets a whole lot

734

00:26:25,110 --> 00:26:23,279

colder but within that very narrow

735

00:26:27,029 --> 00:26:25,120

biosphere it's pretty warm so there is

736

00:26:29,110 --> 00:26:27,039

heat there that can be retained by this

737

00:26:31,909 --> 00:26:29,120

stuff and and a thermal infrared imager

738

00:26:34,149 --> 00:26:31,919

like the mars odyssey themis instrument

739

00:26:35,990 --> 00:26:34,159

can do that and this is why back in the

740

00:26:37,669 --> 00:26:36,000

early 2000s you know this was a really

741

00:26:39,269 --> 00:26:37,679

big deal for us we really wanted to get

742

00:26:42,070 --> 00:26:39,279

our hands on a nighttime thermal

743

00:26:43,590 --> 00:26:42,080

infrared image of of cydonia which we

744

00:26:45,750 --> 00:26:43,600

never really did i mean all they ever

745

00:26:48,789 --> 00:26:45,760

really released was a really terrible

746

00:26:51,190 --> 00:26:48,799

jpeg very poor quality image

747

00:26:53,190 --> 00:26:51,200

that they claimed was nighttime and and

748

00:26:55,190 --> 00:26:53,200

which may or may not have been an actual

749

00:26:58,630 --> 00:26:55,200

nighttime image but we did get

750

00:27:00,390 --> 00:26:58,640

a daytime thermal infrared image and

751

00:27:02,149 --> 00:27:00,400

our series of images a series of image

752

00:27:04,070 --> 00:27:02,159

strips there were multiple problems with

753

00:27:05,669 --> 00:27:04,080

that first of which was that

754

00:27:07,430 --> 00:27:05,679

nasa played a little bit of a game with

755

00:27:09,430 --> 00:27:07,440

us and that they gave us the images and

756

00:27:11,430 --> 00:27:09,440

they they convinced a guy named keith

757

00:27:13,510 --> 00:27:11,440

laney who was doing the thermal infrared

758

00:27:15,350 --> 00:27:13,520

imaging processing for us

759

00:27:17,669 --> 00:27:15,360

to go download their data set and then

760

00:27:20,070 --> 00:27:17,679

as soon as he did they switched it with

761

00:27:22,870 --> 00:27:20,080

another data set which was had a bunch

762

00:27:25,350 --> 00:27:22,880

of no noise induced into it

763

00:27:27,990 --> 00:27:25,360

the whole sole purpose of which was that

764

00:27:29,669 --> 00:27:28,000

if we did work on this image and found

765

00:27:31,909 --> 00:27:29,679

stuff there which of course we did we

766

00:27:33,830 --> 00:27:31,919

found the city under the under the ice

767

00:27:35,590 --> 00:27:33,840

under the ground in

768

00:27:37,590 --> 00:27:35,600

then anybody who tried to repeat our

769

00:27:39,750 --> 00:27:37,600

work with the same data set from the

770

00:27:42,230 --> 00:27:39,760

same web page would download a different

771

00:27:43,750 --> 00:27:42,240

image which had all that stuff basically

772

00:27:45,750 --> 00:27:43,760

erased and they wouldn't be able to

773

00:27:48,470 --> 00:27:45,760

repeat it and we would look like

774

00:27:49,990 --> 00:27:48,480

liars or fools so fortunately we caught

775

00:27:51,909 --> 00:27:50,000

them at this little bit of skullduggery

776

00:27:53,990 --> 00:27:51,919

before we ever released any images but

777

00:27:56,149 --> 00:27:54,000

it was a it was one of those really

778

00:27:57,830 --> 00:27:56,159

interesting uh episodes that convinces

779

00:27:59,269 --> 00:27:57,840

me that you know

780

00:28:00,870 --> 00:27:59,279

me and the other independent researchers

781

00:28:02,630 --> 00:28:00,880

are on the right track as far as mars is

782

00:28:03,750 --> 00:28:02,640

concerned now to actually answer your

783

00:28:05,190 --> 00:28:03,760

question

784

00:28:06,710 --> 00:28:05,200

it takes pictures of heat and heat

785

00:28:08,950 --> 00:28:06,720

retention and

786

00:28:11,350 --> 00:28:08,960

you know and you can tell a little bit

787

00:28:13,350 --> 00:28:11,360

about composition from that

788

00:28:15,430 --> 00:28:13,360

and you can tell a lot about what's

789

00:28:18,549 --> 00:28:15,440

underneath the

790

00:28:22,310 --> 00:28:18,559

surface but you shouldn't be able to see

791

00:28:24,789 --> 00:28:22,320

very deeply down into the surface um and

792

00:28:25,669 --> 00:28:24,799

it in these images it seems like you can

793

00:28:27,110 --> 00:28:25,679

so

794

00:28:29,190 --> 00:28:27,120

what i'm

795

00:28:30,710 --> 00:28:29,200

wondering is if the camera isn't a whole

796

00:28:32,549 --> 00:28:30,720

lot better

797

00:28:35,029 --> 00:28:32,559

than than they've ever let us they've

798

00:28:36,310 --> 00:28:35,039

ever let us really see um in the public

799

00:28:38,149 --> 00:28:36,320

images that have been released and if

800

00:28:40,149 --> 00:28:38,159

nasa doesn't know a whole lot more about

801
00:28:42,870 --> 00:28:40,159
what's under the ground on mars

802
00:28:45,510 --> 00:28:42,880
than they've ever told us and if they do

803
00:28:46,950 --> 00:28:45,520
then i would say that you know that's

804
00:28:49,990 --> 00:28:46,960
logically what we're seeing when we look

805
00:28:56,549 --> 00:28:53,029
based on solar radiation could the

806
00:28:58,789 --> 00:28:56,559
ground or if there was i'm just playing

807
00:29:02,070 --> 00:28:58,799
devil's advocate here a second or any

808
00:29:03,830 --> 00:29:02,080
kind of metallic metal or

809
00:29:06,070 --> 00:29:03,840
i don't know some kind of rock that

810
00:29:08,230 --> 00:29:06,080
could get hot um

811
00:29:10,389 --> 00:29:08,240
when it transitions into the evening

812
00:29:12,549 --> 00:29:10,399
could you get readings off of it that

813
00:29:14,310 --> 00:29:12,559

would show up on a thermal image yeah

814

00:29:16,470 --> 00:29:14,320

you could and that's that's kind of why

815

00:29:18,230 --> 00:29:16,480

we wanted a nighttime thermal infrared

816

00:29:18,950 --> 00:29:18,240

image of sidonia because that would give

817

00:29:19,830 --> 00:29:18,960

us

818

00:29:21,669 --> 00:29:19,840

you know

819

00:29:24,230 --> 00:29:21,679

we thought a really crystal clear

820

00:29:25,110 --> 00:29:24,240

picture because of the contrast from the

821

00:29:27,190 --> 00:29:25,120

heat

822

00:29:29,350 --> 00:29:27,200

versus the um

823

00:29:30,230 --> 00:29:29,360

versus the extreme cold of night so you

824

00:29:31,830 --> 00:29:30,240

would see

825

00:29:33,590 --> 00:29:31,840

much more clearly what was underneath

826

00:29:35,510 --> 00:29:33,600

the surface and unfortunately we never

827

00:29:38,070 --> 00:29:35,520

really got a good image of that and we

828

00:29:39,750 --> 00:29:38,080

suspect and when i say we i mean

829

00:29:41,590 --> 00:29:39,760

myself and richard c hoagland and some

830

00:29:43,669 --> 00:29:41,600

other people that were involved um what

831

00:29:45,990 --> 00:29:43,679

i think that we see

832

00:29:47,590 --> 00:29:46,000

in those images is it's just just the

833

00:29:49,990 --> 00:29:47,600

tip of the iceberg in terms of what's

834

00:29:53,110 --> 00:29:50,000

there i mean i'm sure that there's

835

00:29:54,630 --> 00:29:53,120

infinitely superior images um

836

00:29:58,149 --> 00:29:54,640

that nasa has stuck in the archives that

837

00:30:03,190 --> 00:30:01,029

well isn't that kind of what happens all

838

00:30:06,789 --> 00:30:03,200

the time

839

00:30:08,950 --> 00:30:06,799

i mean i recall when you we talked about

840

00:30:11,669 --> 00:30:08,960

ancient aliens on the moon that that was

841

00:30:14,710 --> 00:30:11,679

a big issue that when people went and

842

00:30:16,630 --> 00:30:14,720

pulled up the photos of the moon that

843

00:30:19,669 --> 00:30:16,640

there were parts that were

844

00:30:21,990 --> 00:30:19,679

smudged at like photoshopped and smudged

845

00:30:23,590 --> 00:30:22,000

out and they did all kinds of weird

846

00:30:24,789 --> 00:30:23,600

stuff so that you couldn't really get a

847

00:30:27,190 --> 00:30:24,799

clear image

848

00:30:28,789 --> 00:30:27,200

yeah they do that and what i think it is

849

00:30:31,990 --> 00:30:28,799

is that they're never going to give you

850

00:30:34,149 --> 00:30:32,000

the full smoking gun um

851

00:30:35,669 --> 00:30:34,159

they they give you enough i think to

852

00:30:37,510 --> 00:30:35,679

support your case and move it forward

853

00:30:39,269 --> 00:30:37,520

but they never they never give you

854

00:30:41,909 --> 00:30:39,279

enough to to really let you have the

855

00:30:43,510 --> 00:30:41,919

smoking gun um and that's just this is

856

00:30:45,510 --> 00:30:43,520

part part and parcel to the way nassau

857

00:30:46,870 --> 00:30:45,520

has always operated and

858

00:30:47,990 --> 00:30:46,880

you know i don't know what the reasons

859

00:30:49,669 --> 00:30:48,000

are

860

00:30:51,110 --> 00:30:49,679

for that beyond the obvious i think

861

00:30:52,630 --> 00:30:51,120

religious stuff

862

00:30:53,990 --> 00:30:52,640

that we talked about in dark mission and

863

00:30:56,230 --> 00:30:54,000

that i'm going to be talking about in in

864

00:30:57,909 --> 00:30:56,240

the secret societies book but it's

865

00:30:59,990 --> 00:30:57,919

it's something that's been kind of a

866

00:31:01,909 --> 00:31:00,000

pattern that's ongoing but stuff seems

867

00:31:04,230 --> 00:31:01,919

to slip through the cracks

868

00:31:06,070 --> 00:31:04,240

and also i think that in the terms of

869

00:31:08,470 --> 00:31:06,080

the religious aspect of this i think

870

00:31:10,149 --> 00:31:08,480

that they do have to give us the

871

00:31:12,310 --> 00:31:10,159

information but it's kind of like a

872

00:31:13,510 --> 00:31:12,320

secret society in a sense that you have

873

00:31:15,350 --> 00:31:13,520

to know

874

00:31:17,269 --> 00:31:15,360

the right question to ask if you don't

875

00:31:18,950 --> 00:31:17,279

ask the right question

876

00:31:21,190 --> 00:31:18,960

they're not going to give you the answer

877

00:31:22,789 --> 00:31:21,200

so you know i i it's weird because i

878

00:31:24,549 --> 00:31:22,799

think that that they must be doing it in

879

00:31:26,310 --> 00:31:24,559

such a way that they're

880

00:31:27,750 --> 00:31:26,320

they're saying um

881

00:31:29,190 --> 00:31:27,760

you know

882

00:31:30,789 --> 00:31:29,200

they're like setting it up so that when

883

00:31:32,230 --> 00:31:30,799

they have to answer to somebody and i

884

00:31:33,909 --> 00:31:32,240

have no idea who that is although it

885

00:31:34,789 --> 00:31:33,919

could be the anunnaki when they come

886

00:31:36,389 --> 00:31:34,799

back

887

00:31:38,470 --> 00:31:36,399

it's like well we gave them all the

888

00:31:41,430 --> 00:31:38,480

information they just ignored it that's

889

00:31:42,710 --> 00:31:41,440

that's what i feel like nasa is doing is

890

00:31:44,789 --> 00:31:42,720

pretending you know putting the

891

00:31:46,630 --> 00:31:44,799

information out there but only if you're

892

00:31:50,070 --> 00:31:46,640

really paying attention do you get it

893

00:31:51,190 --> 00:31:50,080

and only if you can figure it out do you

894

00:31:52,950 --> 00:31:51,200

do you really understand what they're

895

00:31:55,909 --> 00:31:52,960

trying to say and what they're trying to

896

00:32:00,549 --> 00:31:58,630

okay if you can see through all that

897

00:32:02,870 --> 00:32:00,559

i guess i mean that's the way secret

898

00:32:04,870 --> 00:32:02,880

societies operate and unfortunately nasa

899

00:32:06,389 --> 00:32:04,880

is nothing if not a secret society it's

900

00:32:07,990 --> 00:32:06,399

one of the most secretive organizations

901
00:32:12,149 --> 00:32:08,000
in the government which is saying

902
00:32:19,830 --> 00:32:14,710
in a good way or in a bad way well in a

903
00:32:24,310 --> 00:32:21,750
i mean i just can't really see nasa

904
00:32:26,310 --> 00:32:24,320
being the most secretive organization

905
00:32:27,909 --> 00:32:26,320
i'm sorry well i'm sorry but they have

906
00:32:29,750 --> 00:32:27,919
to be because they're the ones that are

907
00:32:32,310 --> 00:32:29,760
that are taking pictures of things that

908
00:32:34,950 --> 00:32:32,320
would shatter the world's vision of

909
00:32:37,110 --> 00:32:34,960
itself and so they very much have to be

910
00:32:38,710 --> 00:32:37,120
very secretive and they are they are a

911
00:32:40,389 --> 00:32:38,720
compartmentalized defense department

912
00:32:42,630 --> 00:32:40,399
adjunct they're not an independent

913
00:32:44,230 --> 00:32:42,640

science agency you know people have that

914

00:32:46,310 --> 00:32:44,240

that kind of

915

00:32:48,470 --> 00:32:46,320

mistaken belief as well nasa is a

916

00:32:51,190 --> 00:32:48,480

defense department agency so if you know

917

00:32:53,669 --> 00:32:51,200

military security and military secrecy

918

00:32:55,750 --> 00:32:53,679

isn't the highest

919

00:32:57,350 --> 00:32:55,760

um

920

00:32:58,630 --> 00:32:57,360

level of secrecy that we have in our

921

00:33:01,750 --> 00:32:58,640

government i don't know what is and

922

00:33:05,750 --> 00:33:03,269

good point

923

00:33:06,789 --> 00:33:05,760

i guess something that makes me wonder

924

00:33:09,990 --> 00:33:06,799

is

925

00:33:13,909 --> 00:33:10,000

why why go to mars why send the rovers

926

00:33:17,269 --> 00:33:13,919

it to me okay it seems like we stopped

927

00:33:19,269 --> 00:33:17,279

we lost our interest in the moon and you

928

00:33:22,630 --> 00:33:19,279

know one of the prevailing theories is

929

00:33:24,470 --> 00:33:22,640

because they found stuff on the moon and

930

00:33:25,669 --> 00:33:24,480

they just didn't want to go there

931

00:33:27,110 --> 00:33:25,679

anymore because they didn't want to have

932

00:33:28,950 --> 00:33:27,120

to deal with it or they were warned not

933

00:33:31,909 --> 00:33:28,960

to go there i don't know this whole big

934

00:33:34,950 --> 00:33:31,919

reason but why mars why is there this

935

00:33:37,509 --> 00:33:34,960

interest in mars

936

00:33:40,630 --> 00:33:37,519

well i think it's

937

00:33:43,110 --> 00:33:40,640

multi-leveled one of the levels of it is

938

00:33:45,590 --> 00:33:43,120

that you know mars is named for marduk

939

00:33:47,669 --> 00:33:45,600

who was an ancient anunnaki

940

00:33:50,149 --> 00:33:47,679

god with a small g who

941

00:33:53,509 --> 00:33:50,159

apparently ruled over um you know

942

00:33:56,950 --> 00:33:53,519

babylon and also went to um went to

943

00:33:57,750 --> 00:33:56,960

ancient egypt and a long time ago

944

00:34:00,310 --> 00:33:57,760

so

945

00:34:03,190 --> 00:34:00,320

it's you know it's an area of symbolic

946

00:34:06,070 --> 00:34:03,200

interest and also the fact that um can

947

00:34:08,310 --> 00:34:06,080

you hear that do i have to go yeah for

948

00:34:11,030 --> 00:34:08,320

everyone that's listening that's barkley

949

00:34:13,030 --> 00:34:11,040

he just yeah he started up like right

950

00:34:14,629 --> 00:34:13,040

when i started talking and i really want

951
00:34:16,790 --> 00:34:14,639
to scream and tell him to shut the hell

952
00:34:19,190 --> 00:34:16,800
up he's a little bit wired he's a little

953
00:34:21,109 --> 00:34:19,200
overly wired he's about two feet long

954
00:34:22,629 --> 00:34:21,119
but he thinks he's a much bigger dog

955
00:34:24,869 --> 00:34:22,639
hang on a second okay

956
00:34:26,389 --> 00:34:24,879
can i can you just entertain the crowd

957
00:34:28,790 --> 00:34:26,399
for a while i'll entertain him you know

958
00:34:31,750 --> 00:34:28,800
i think that maybe barkley needs to hang

959
00:34:34,069 --> 00:34:31,760
out with mike super cobb or bitsy yeah

960
00:34:36,310 --> 00:34:34,079
maybe barkley needs a tin foil hat wait

961
00:34:38,790 --> 00:34:36,320
a minute i think he's calming down

962
00:34:41,030 --> 00:34:38,800
i'd love to strangle him right now but

963
00:34:42,950 --> 00:34:41,040

see i i usually just pick bitsy up and

964

00:34:44,470 --> 00:34:42,960

put her in my lap or she used to sit on

965

00:34:47,109 --> 00:34:44,480

my desk that's not gonna happen with

966

00:34:50,550 --> 00:34:47,119

barclay he's just gonna keep doing that

967

00:34:52,869 --> 00:34:50,560

so anyway um the other aspect of it is

968

00:34:54,710 --> 00:34:52,879

that you know according to the anunnaki

969

00:34:57,750 --> 00:34:54,720

writings the sumerian tablets that

970

00:34:59,430 --> 00:34:57,760

sitchin has translated mars was a

971

00:35:02,710 --> 00:34:59,440

way station so mars was a place where

972

00:35:05,030 --> 00:35:02,720

the anunnaki came and set up a base and

973

00:35:06,870 --> 00:35:05,040

lived and flourished and you know very

974

00:35:08,150 --> 00:35:06,880

interestingly in the secret societies

975

00:35:10,630 --> 00:35:08,160

book what's really interesting is that

976
00:35:13,510 --> 00:35:10,640
mars at that time according to the um

977
00:35:15,109 --> 00:35:13,520
anunnaki was a habitable world it was

978
00:35:17,670 --> 00:35:15,119
a little less hospitable than the earth

979
00:35:18,470 --> 00:35:17,680
but it had running water it had you know

980
00:35:20,150 --> 00:35:18,480
um

981
00:35:21,670 --> 00:35:20,160
it had everything that they needed to

982
00:35:23,589 --> 00:35:21,680
actually set up a base there had

983
00:35:26,470 --> 00:35:23,599
breathable oxygen but it wasn't and this

984
00:35:28,069 --> 00:35:26,480
was only 400 000 years ago it wasn't

985
00:35:30,390 --> 00:35:28,079
until

986
00:35:32,310 --> 00:35:30,400
um some bad stuff happened

987
00:35:34,230 --> 00:35:32,320
but where nibiru made a pass very close

988
00:35:35,910 --> 00:35:34,240

to the asteroid belt and and sent a

989

00:35:37,910 --> 00:35:35,920

bunch of rocks

990

00:35:40,150 --> 00:35:37,920

you know in towards the earth and and

991

00:35:43,030 --> 00:35:40,160

created the the basically the great

992

00:35:44,790 --> 00:35:43,040

deluge and devastated mars that it

993

00:35:46,790 --> 00:35:44,800

really became an inhospitable place so i

994

00:35:49,349 --> 00:35:46,800

think what you're looking at is

995

00:35:50,950 --> 00:35:49,359

leftover anunnaki technology and the

996

00:35:54,310 --> 00:35:50,960

premise that i've always been operating

997

00:35:56,710 --> 00:35:54,320

from is that um

998

00:35:59,109 --> 00:35:56,720

you know that the the sumerian gods the

999

00:36:01,990 --> 00:35:59,119

anunnaki were

1000

00:36:03,990 --> 00:36:02,000

here that they did live and that they

1001

00:36:04,870 --> 00:36:04,000

did create a lot of the stuff that we

1002

00:36:06,310 --> 00:36:04,880

see

1003

00:36:08,230 --> 00:36:06,320

on the surface of mars in fact one of

1004

00:36:10,550 --> 00:36:08,240

the stories that that came through in

1005

00:36:13,670 --> 00:36:10,560

one of the translations was that they

1006

00:36:14,630 --> 00:36:13,680

buried one of the anunnaki kings alalu

1007

00:36:18,069 --> 00:36:14,640

who had

1008

00:36:20,310 --> 00:36:18,079

rebelled against anu who was the king of

1009

00:36:23,990 --> 00:36:20,320

you know the king of nibiru and

1010

00:36:26,790 --> 00:36:24,000

and the the the god king of the anunnaki

1011

00:36:28,470 --> 00:36:26,800

um and that he ended up after

1012

00:36:29,829 --> 00:36:28,480

basically two or three rebellions he

1013

00:36:32,630 --> 00:36:29,839

ended up being

1014

00:36:34,630 --> 00:36:32,640

vanquished or sent banished to mars

1015

00:36:37,190 --> 00:36:34,640

where he died and that in fact the face

1016

00:36:38,950 --> 00:36:37,200

on mars was a tribute to him as an

1017

00:36:40,390 --> 00:36:38,960

anunnaki king who had passed away there

1018

00:36:42,150 --> 00:36:40,400

that it's a tomb

1019

00:36:44,069 --> 00:36:42,160

and that his body's actually inside that

1020

00:36:45,750 --> 00:36:44,079

structure so you know i think the

1021

00:36:48,230 --> 00:36:45,760

fascination with mars is because of the

1022

00:36:51,030 --> 00:36:48,240

fact that there is a lot of stuff there

1023

00:36:53,349 --> 00:36:51,040

and it's probably fairly well preserved

1024

00:36:55,190 --> 00:36:53,359

and we're sending different probes to go

1025

00:36:56,630 --> 00:36:55,200

find it so

1026

00:36:58,390 --> 00:36:56,640

you know that's to me that's the main

1027

00:36:59,270 --> 00:36:58,400

reason why mars is such a fascinating

1028

00:37:00,950 --> 00:36:59,280

place

1029

00:37:02,950 --> 00:37:00,960

because it it's also like a giant

1030

00:37:04,390 --> 00:37:02,960

refrigerator it's so cold and everything

1031

00:37:07,190 --> 00:37:04,400

that everything's pretty well preserved

1032

00:37:09,510 --> 00:37:07,200

so it makes it an ideal target

1033

00:37:11,589 --> 00:37:09,520

if your purpose of existence if the real

1034

00:37:13,589 --> 00:37:11,599

reason of your existence if you're nasa

1035

00:37:14,710 --> 00:37:13,599

is to actually retrieve

1036

00:37:17,510 --> 00:37:14,720

you know the artifacts and the

1037

00:37:19,589 --> 00:37:17,520

technology of the gods then um i think

1038

00:37:20,790 --> 00:37:19,599

that mars would be an ideal place to do

1039

00:37:25,670 --> 00:37:20,800

that

1040

00:37:28,069 --> 00:37:25,680

they are looking to find technology to

1041

00:37:30,069 --> 00:37:28,079

get it and then back engineer it

1042

00:37:31,990 --> 00:37:30,079

yeah that's one possibility although i

1043

00:37:33,430 --> 00:37:32,000

suspect that they didn't have much luck

1044

00:37:34,870 --> 00:37:33,440

with what they they brought back from

1045

00:37:36,470 --> 00:37:34,880

the moon so that could have been a big

1046

00:37:38,630 --> 00:37:36,480

problem and

1047

00:37:40,950 --> 00:37:38,640

you know um

1048

00:37:41,910 --> 00:37:40,960

can we take a break at any point in the

1049

00:37:44,150 --> 00:37:41,920

show

1050

00:37:46,710 --> 00:37:44,160

rita because

1051
00:37:48,710 --> 00:37:46,720
hey joe can we uh we can we go to a

1052
00:37:51,990 --> 00:37:48,720
quick break

1053
00:37:54,069 --> 00:37:52,000
like a dog break here and i'll go deal

1054
00:37:56,310 --> 00:37:54,079
with my problem all right

1055
00:37:59,349 --> 00:37:56,320
all right i'm dr reed louise we're here

1056
00:38:01,349 --> 00:37:59,359
talking to mike barr about his book

1057
00:38:03,750 --> 00:38:01,359
ancient aliens on mars 2. we're going to

1058
00:38:23,349 --> 00:38:03,760
take a little puppy break and we'll be

1059
00:38:27,510 --> 00:38:25,750
just energy radio with your host dr reed

1060
00:38:40,870 --> 00:38:27,520
louise will return right after these

1061
00:38:47,349 --> 00:38:43,430
you're listening to irn

use your time wisely

1076
00:39:28,630 --> 00:39:26,560
keeping it all on irn who were the gods

1077
00:39:30,470 --> 00:39:28,640
of antiquity they've been described as

1078
00:39:33,430 --> 00:39:30,480
the forces of nature levels of

1079
00:39:35,190 --> 00:39:33,440
consciousness and aspects of our psyche

1080
00:39:37,349 --> 00:39:35,200
stories that depict their incredible

1081
00:39:39,589 --> 00:39:37,359
weapons their flying machines and their

1082
00:39:41,430 --> 00:39:39,599
amazing adventures are characterized as

1083
00:39:43,510 --> 00:39:41,440
being the product of our ancestors

1084
00:39:45,349 --> 00:39:43,520
fanciful imaginations

1085
00:39:46,310 --> 00:39:45,359
but what if the tales of the gods are

1086
00:39:48,390 --> 00:39:46,320
true

1087
00:39:50,790 --> 00:39:48,400
did the writers chroniclers and scribes

1088
00:39:53,109 --> 00:39:50,800

of our distant past actually document a

1089

00:39:55,109 --> 00:39:53,119

realistic view of our origin

1090

00:39:57,190 --> 00:39:55,119

my latest book man-made the chronicles

hello and louise back to just energy

1162
00:43:31,109 --> 00:43:29,680
radio i'm your host dr reed louise and

1163
00:43:32,950 --> 00:43:31,119

thank you all for staying tuned to the

1164

00:43:35,670 --> 00:43:32,960

second part of the show

1165

00:43:37,829 --> 00:43:35,680

anyway we're here here talking to mike

1166

00:43:39,910 --> 00:43:37,839

barr about his book ancient aliens on

1167

00:43:44,470 --> 00:43:39,920

mars 2 his webpage is

1168

00:43:48,069 --> 00:43:46,950

mike before we took our barky break

1169

00:43:50,790 --> 00:43:48,079

um

1170

00:43:52,870 --> 00:43:50,800

barkley no i did not strangle barkley i

1171

00:43:56,069 --> 00:43:52,880

just fed him and put him in another room

1172

00:43:58,790 --> 00:43:56,079

where hopefully he'll be a bit quieter

1173

00:43:59,589 --> 00:43:58,800

in the little comfy bed spot

1174

00:44:01,510 --> 00:43:59,599

yeah

1175

00:44:05,109 --> 00:44:01,520

yes yes

1176

00:44:10,309 --> 00:44:07,430

why they're actually going to mars and

1177

00:44:12,550 --> 00:44:10,319

doing all of this research there because

1178

00:44:15,030 --> 00:44:12,560

it seems like there's just so much more

1179

00:44:17,430 --> 00:44:15,040

interest on mars than there was on the

1180

00:44:20,630 --> 00:44:17,440

moon i don't recall them sending so many

1181

00:44:21,910 --> 00:44:20,640

rovers to the moon either well no they

1182

00:44:23,750 --> 00:44:21,920

they didn't but we didn't really have

1183

00:44:25,510 --> 00:44:23,760

the technology back in the 60s i mean we

1184

00:44:26,710 --> 00:44:25,520

did send 12 men to the moon which is a

1185

00:44:28,470 --> 00:44:26,720

whole different

1186

00:44:30,230 --> 00:44:28,480

thing and and really i guess the rovers

1187

00:44:32,950 --> 00:44:30,240

back then would be the you know the car

1188

00:44:35,910 --> 00:44:32,960

the um the lunar rover which was called

1189

00:44:37,990 --> 00:44:35,920

a rover that we sent there that um uh

1190

00:44:39,829 --> 00:44:38,000

allowed them not the lunar yeah that

1191

00:44:41,910 --> 00:44:39,839

allowed them to basically drive on the

1192

00:44:44,390 --> 00:44:41,920

surface so we examined the moon in

1193

00:44:45,510 --> 00:44:44,400

fairly you know significant detail and

1194

00:44:47,829 --> 00:44:45,520

we did it

1195

00:44:50,069 --> 00:44:47,839

um because we were you know

1196

00:44:53,349 --> 00:44:50,079

looking for specific things to bring

1197

00:44:55,510 --> 00:44:53,359

back i think proof of the ancient alien

1198

00:44:56,950 --> 00:44:55,520

presence on the on the lunar surface and

1199

00:44:59,829 --> 00:44:56,960

i wouldn't say that we got done with it

1200

00:45:01,670 --> 00:44:59,839

i just think that that um

1201

00:45:03,109 --> 00:45:01,680

most of what we found there was probably

1202

00:45:06,069 --> 00:45:03,119

in in

1203

00:45:07,829 --> 00:45:06,079

real ruins a really significant um

1204

00:45:10,309 --> 00:45:07,839

amount of decay because of the fact that

1205

00:45:12,790 --> 00:45:10,319

it's so exposed there to

1206

00:45:14,950 --> 00:45:12,800

you know meteors and things in spite of

1207

00:45:16,470 --> 00:45:14,960

the meteor shield that

1208

00:45:18,309 --> 00:45:16,480

may or may not still be protecting the

1209

00:45:19,829 --> 00:45:18,319

planet to some extent you know it was

1210

00:45:22,550 --> 00:45:19,839

just it was everything there was really

1211

00:45:24,309 --> 00:45:22,560

beat up and i suspect that that you know

1212

00:45:25,670 --> 00:45:24,319

mars has been more of the focus because

1213

00:45:26,950 --> 00:45:25,680

there's probably a better chance of

1214

00:45:28,550 --> 00:45:26,960

finding stuff that's really well

1215

00:45:29,430 --> 00:45:28,560

preserved there

1216

00:45:30,710 --> 00:45:29,440

ah

1217

00:45:33,270 --> 00:45:30,720

good point

1218

00:45:35,750 --> 00:45:33,280

if you were to guess

1219

00:45:38,950 --> 00:45:35,760

would you say that the ages of what

1220

00:45:43,510 --> 00:45:38,960

they're finding on the moon and on mars

1221

00:45:45,030 --> 00:45:43,520

are in relative close age proximity or

1222

00:45:46,870 --> 00:45:45,040

do you think that there's a time

1223

00:45:48,710 --> 00:45:46,880

difference between the two

1224

00:45:50,550 --> 00:45:48,720

well i don't have a clue but i will say

1225

00:45:53,349 --> 00:45:50,560

that the stuff on the moon seems

1226

00:45:55,589 --> 00:45:53,359

honestly a lot older than the stuff on

1227

00:45:58,150 --> 00:45:55,599

mars and i think that

1228

00:46:00,710 --> 00:45:58,160

that you know again the the anunnaki

1229

00:46:03,109 --> 00:46:00,720

tablets the sumerian tablets do say

1230

00:46:04,630 --> 00:46:03,119

essentially that they at the annunaki

1231

00:46:06,550 --> 00:46:04,640

didn't didn't find the moon very

1232

00:46:08,950 --> 00:46:06,560

hospitable and they didn't spend much

1233

00:46:09,750 --> 00:46:08,960

time there and what that means then is

1234

00:46:13,990 --> 00:46:09,760

that

1235

00:46:16,790 --> 00:46:14,000

is from some prior habitation of the

1236

00:46:18,470 --> 00:46:16,800

moon and and who even knows who those

1237

00:46:20,390 --> 00:46:18,480

people were that that constructed all

1238

00:46:22,309 --> 00:46:20,400

that stuff that's on the moon so

1239

00:46:23,750 --> 00:46:22,319

i suspect that there's a there is a big

1240

00:46:26,470 --> 00:46:23,760

age difference but i can't you know i

1241

00:46:29,270 --> 00:46:26,480

couldn't prove it to save my life

1242

00:46:30,790 --> 00:46:29,280

okay but that's a good observation

1243

00:46:33,829 --> 00:46:30,800

um

1244

00:46:35,589 --> 00:46:33,839

okay so i we have a question in the from

1245

00:46:37,589 --> 00:46:35,599

the chat room and this is from neutron

1246

00:46:40,069 --> 00:46:37,599

and he wants to know have you had a

1247

00:46:43,190 --> 00:46:40,079

chance to examine a very recent picture

1248

00:46:45,670 --> 00:46:43,200

of mars caught by astronomers that

1249

00:46:48,150 --> 00:46:45,680

display a tall and it says mile high

1250

00:46:50,069 --> 00:46:48,160

chimney tower plume

1251
00:46:51,750 --> 00:46:50,079
on the planet yeah i've seen a picture

1252
00:46:53,430 --> 00:46:51,760
of this plume uh that was actually

1253
00:46:55,030 --> 00:46:53,440
discovered by amateur astronomers and

1254
00:46:56,950 --> 00:46:55,040
taking and they took pictures of the

1255
00:46:59,430 --> 00:46:56,960
that were taking pictures of mars

1256
00:47:01,190 --> 00:46:59,440
and um i have seen that and you know i

1257
00:47:03,430 --> 00:47:01,200
mean it looks to me

1258
00:47:04,950 --> 00:47:03,440
there's only really two things that it

1259
00:47:06,790 --> 00:47:04,960
could be because the atmosphere is

1260
00:47:08,790 --> 00:47:06,800
definitely

1261
00:47:10,390 --> 00:47:08,800
pumped up there it's bulging out and

1262
00:47:12,309 --> 00:47:10,400
either you've got some kind of volcanic

1263
00:47:13,990 --> 00:47:12,319

activity which seems unlikely because

1264

00:47:16,309 --> 00:47:14,000

the planet is considered essentially

1265

00:47:17,430 --> 00:47:16,319

volcanically dead although that may be

1266

00:47:19,910 --> 00:47:17,440

wrong

1267

00:47:22,710 --> 00:47:19,920

um or an asteroid or comet struck the

1268

00:47:25,670 --> 00:47:22,720

planet and and shut up a big huge plume

1269

00:47:27,270 --> 00:47:25,680

of um of dust so

1270

00:47:28,550 --> 00:47:27,280

either way it's extremely interesting

1271

00:47:30,630 --> 00:47:28,560

the third and the most remote

1272

00:47:31,829 --> 00:47:30,640

possibility is that you know somebody

1273

00:47:34,150 --> 00:47:31,839

turned on the atmospheric

1274

00:47:36,150 --> 00:47:34,160

repressurization machine and

1275

00:47:37,990 --> 00:47:36,160

they're starting to pump out

1276
00:47:39,990 --> 00:47:38,000
oxygen into the atmosphere or something

1277
00:47:41,670 --> 00:47:40,000
but you know that's that's i i hate to

1278
00:47:43,109 --> 00:47:41,680
say that's that's a possibility but i

1279
00:47:45,510 --> 00:47:43,119
think the most likely possibilities are

1280
00:47:47,430 --> 00:47:45,520
either that we had a a volcano built

1281
00:47:50,309 --> 00:47:47,440
something out which would be

1282
00:47:52,790 --> 00:47:50,319
you know unusual or we actually had

1283
00:47:54,309 --> 00:47:52,800
something strike the planet itself which

1284
00:47:55,510 --> 00:47:54,319
may not be bad news for the rest of us

1285
00:47:56,790 --> 00:47:55,520
because it may mean that we're moving

1286
00:48:00,870 --> 00:47:56,800
into an area of space where there's a

1287
00:48:05,270 --> 00:48:03,270
um the people that lived on mars do you

1288
00:48:07,190 --> 00:48:05,280

think they lived on the surface or do

1289

00:48:08,630 --> 00:48:07,200

you think they were primarily living

1290

00:48:10,069 --> 00:48:08,640

underground

1291

00:48:12,390 --> 00:48:10,079

well i think it's both because there's

1292

00:48:13,750 --> 00:48:12,400

stuff left over where clearly they were

1293

00:48:15,430 --> 00:48:13,760

living on the surface and it was

1294

00:48:17,030 --> 00:48:15,440

inhabited there was definitely people

1295

00:48:19,750 --> 00:48:17,040

there the face on mars all these things

1296

00:48:21,670 --> 00:48:19,760

are above ground and and again the the

1297

00:48:23,589 --> 00:48:21,680

sumerian tablets the stories tell us

1298

00:48:25,270 --> 00:48:23,599

that mars was hospitable when they first

1299

00:48:27,910 --> 00:48:25,280

got there that there was

1300

00:48:29,829 --> 00:48:27,920

atmospheric pressure running water um

1301
00:48:31,270 --> 00:48:29,839
and so they would logically have lived

1302
00:48:33,349 --> 00:48:31,280
above the ground but there's other

1303
00:48:34,630 --> 00:48:33,359
sources and other stories that say

1304
00:48:37,030 --> 00:48:34,640
things like you know that they had to

1305
00:48:40,470 --> 00:48:37,040
move underground after there was a

1306
00:48:43,109 --> 00:48:40,480
a war in the skies so it's kind of to me

1307
00:48:45,510 --> 00:48:43,119
a question um that has

1308
00:48:46,950 --> 00:48:45,520
two answers which is that yes and yes

1309
00:48:48,150 --> 00:48:46,960
they they lived above ground and they

1310
00:48:48,870 --> 00:48:48,160
lived underground it's just a question

1311
00:48:53,109 --> 00:48:48,880
of

1312
00:48:55,190 --> 00:48:53,119
would assume i would assume that the the

1313
00:48:56,150 --> 00:48:55,200

later stuff is is the underground stuff

1314

00:48:57,510 --> 00:48:56,160

because they probably had to move

1315

00:48:59,109 --> 00:48:57,520

underground when conditions

1316

00:49:02,230 --> 00:48:59,119

environmental conditions

1317

00:49:04,710 --> 00:49:02,240

really begin to um

1318

00:49:05,910 --> 00:49:04,720

really begin to deteriorate

1319

00:49:08,309 --> 00:49:05,920

do you think they're still there

1320

00:49:09,670 --> 00:49:08,319

underground at least somebody's still

1321

00:49:11,030 --> 00:49:09,680

there underground well i don't know i

1322

00:49:12,630 --> 00:49:11,040

don't have any evidence of that but like

1323

00:49:14,069 --> 00:49:12,640

i said the light the lights are on so it

1324

00:49:15,030 --> 00:49:14,079

seems like somebody could be there if

1325

00:49:21,589 --> 00:49:15,040

they

1326

00:49:23,910 --> 00:49:21,599

sent the probes up there and sent

1327

00:49:25,910 --> 00:49:23,920

different things and when the second one

1328

00:49:28,069 --> 00:49:25,920

blew out of the sky

1329

00:49:30,230 --> 00:49:28,079

it just made me go

1330

00:49:32,390 --> 00:49:30,240

huh well maybe they just don't want us

1331

00:49:34,470 --> 00:49:32,400

landing on the moon that was my

1332

00:49:35,990 --> 00:49:34,480

knee-jerk reaction to it

1333

00:49:37,589 --> 00:49:36,000

and um

1334

00:49:38,549 --> 00:49:37,599

i don't know i'm kind of sticking with

1335

00:49:40,630 --> 00:49:38,559

it

1336

00:49:42,309 --> 00:49:40,640

on the moon not on the moon on mars

1337

00:49:44,309 --> 00:49:42,319

excuse me on mars well there's been a

1338

00:49:45,910 --> 00:49:44,319

number of probes that have been lost um

1339

00:49:47,829 --> 00:49:45,920

on mars there's there's one called

1340

00:49:50,710 --> 00:49:47,839

beagle two that the the british lost the

1341

00:49:52,950 --> 00:49:50,720

europeans lost um about about 10 years

1342

00:49:54,230 --> 00:49:52,960

ago which they recently found and this

1343

00:49:56,230 --> 00:49:54,240

is sitting there and appears to be in

1344

00:49:57,589 --> 00:49:56,240

full operating condition but it's just

1345

00:49:59,670 --> 00:49:57,599

sitting there and it never transmitted

1346

00:50:01,829 --> 00:49:59,680

anything back and it looks like maybe

1347

00:50:03,510 --> 00:50:01,839

the the panels the pow the solar panels

1348

00:50:04,870 --> 00:50:03,520

didn't deploy properly which you know

1349

00:50:06,790 --> 00:50:04,880

again is a good reason not to send

1350

00:50:08,710 --> 00:50:06,800

something to solar energy

1351

00:50:10,549 --> 00:50:08,720

as a as a source of power up

1352

00:50:11,990 --> 00:50:10,559

up to mars let's give those things

1353

00:50:14,150 --> 00:50:12,000

little nuclear reactors and they'll

1354

00:50:15,030 --> 00:50:14,160

operate for 20 years you know

1355

00:50:16,549 --> 00:50:15,040

um

1356

00:50:18,309 --> 00:50:16,559

so

1357

00:50:20,150 --> 00:50:18,319

you know there there are things that can

1358

00:50:21,589 --> 00:50:20,160

happen i think i think of all the

1359

00:50:24,309 --> 00:50:21,599

different probes that have been lost the

1360

00:50:25,990 --> 00:50:24,319

most mysterious one is the mars observer

1361

00:50:28,470 --> 00:50:26,000

probe and i talk about that in ancient

1362

00:50:30,630 --> 00:50:28,480

aliens on mars one

1363

00:50:32,630 --> 00:50:30,640

and uh it was a really strange case

1364

00:50:35,270 --> 00:50:32,640

because it was a camera that was good

1365

00:50:37,030 --> 00:50:35,280

enough to have taken pictures of cydonia

1366

00:50:38,870 --> 00:50:37,040

and the face on mars

1367

00:50:40,870 --> 00:50:38,880

and kind of ended the debate about

1368

00:50:43,030 --> 00:50:40,880

whether it was artificial or not

1369

00:50:44,790 --> 00:50:43,040

and um

1370

00:50:47,190 --> 00:50:44,800

right after

1371

00:50:49,910 --> 00:50:47,200

the head of the mars observer project

1372

00:50:51,910 --> 00:50:49,920

bevin french lost a debate on good

1373

00:50:53,829 --> 00:50:51,920

morning america to my co-author and dark

1374

00:50:56,230 --> 00:50:53,839

mission richard c hoagland i mean

1375

00:50:57,270 --> 00:50:56,240

lost it epically got totally picked

1376
00:50:59,270 --> 00:50:57,280
apart

1377
00:51:00,790 --> 00:50:59,280
by hoagland um

1378
00:51:03,109 --> 00:51:00,800
three minutes after that they announced

1379
00:51:04,870 --> 00:51:03,119
that they had lost mars observer

1380
00:51:07,750 --> 00:51:04,880
and in fact they had actually lost

1381
00:51:10,150 --> 00:51:07,760
contact with it 14 hours before now

1382
00:51:12,549 --> 00:51:10,160
i don't know why nasa would put a guy on

1383
00:51:15,030 --> 00:51:12,559
national tv to debate

1384
00:51:16,950 --> 00:51:15,040
the sidonia and the face of sidoni in

1385
00:51:19,030 --> 00:51:16,960
the face on mars

1386
00:51:21,030 --> 00:51:19,040
and the and talk about the mars observer

1387
00:51:22,710 --> 00:51:21,040
probe

1388
00:51:25,270 --> 00:51:22,720

when they already knew that it was

1389

00:51:27,109 --> 00:51:25,280

missing and not mention it and the only

1390

00:51:28,790 --> 00:51:27,119

thing that i can make an obvious

1391

00:51:30,230 --> 00:51:28,800

conclusion about is that they wanted to

1392

00:51:32,790 --> 00:51:30,240

see if he could beat hoagland in the

1393

00:51:34,950 --> 00:51:32,800

debate he got absolutely plastered

1394

00:51:37,510 --> 00:51:34,960

by the hoagie and

1395

00:51:39,190 --> 00:51:37,520

they then decided to take it dark and

1396

00:51:41,030 --> 00:51:39,200

you know it it would give them an

1397

00:51:42,870 --> 00:51:41,040

opportunity to have taken really good

1398

00:51:44,309 --> 00:51:42,880

pictures of cedonia and the face and

1399

00:51:45,589 --> 00:51:44,319

other areas of mars that they were

1400

00:51:47,510 --> 00:51:45,599

suspicious

1401

00:51:49,910 --> 00:51:47,520

might be artificial and do that all in

1402

00:51:53,349 --> 00:51:49,920

secret for years and then go back in

1403

00:51:54,950 --> 00:51:53,359

1998 and you know put up essentially the

1404

00:51:57,430 --> 00:51:54,960

mars global surveyor which was the

1405

00:51:59,750 --> 00:51:57,440

replacement using the same equipment

1406

00:52:01,270 --> 00:51:59,760

um and know exactly how to take pictures

1407

00:52:02,950 --> 00:52:01,280

of the thing to make it look as bad as

1408

00:52:05,349 --> 00:52:02,960

possible which is what they ultimately

1409

00:52:06,710 --> 00:52:05,359

did so

1410

00:52:08,470 --> 00:52:06,720

you know um

1411

00:52:09,750 --> 00:52:08,480

to me that's that's

1412

00:52:11,030 --> 00:52:09,760

this is the kind of thing i've been

1413

00:52:15,510 --> 00:52:11,040

dealing with for better the better part

1414

00:52:21,829 --> 00:52:19,829

lies it's all lies

1415

00:52:24,230 --> 00:52:21,839

yeah at least some of it is

1416

00:52:28,069 --> 00:52:24,240

what i find interesting see i never knew

1417

00:52:31,190 --> 00:52:28,079

that other uh countries were sending

1418

00:52:32,790 --> 00:52:31,200

probes to mars as well

1419

00:52:34,630 --> 00:52:32,800

so this is the first i've heard that

1420

00:52:36,470 --> 00:52:34,640

there was a british oh yeah who else is

1421

00:52:38,069 --> 00:52:36,480

sending probes up there european space

1422

00:52:40,230 --> 00:52:38,079

agency has sent some really good probes

1423

00:52:41,910 --> 00:52:40,240

they sent them the mars express to the

1424

00:52:42,710 --> 00:52:41,920

planet mars and they took

1425

00:52:54,710 --> 00:52:42,720

the

1426

00:52:56,710 --> 00:52:54,720

two images and do 3d projections create

1427

00:52:59,829 --> 00:52:56,720

3d models in the computer of that stuff

1428

00:53:01,030 --> 00:52:59,839

so we got 3d and color out of mars

1429

00:53:03,190 --> 00:53:01,040

express even though the spatial

1430

00:53:05,510 --> 00:53:03,200

resolution was technically only about 14

1431

00:53:07,109 --> 00:53:05,520

meters per pixel compared to

1432

00:53:08,950 --> 00:53:07,119

what is it mars reconnaissance orbiter

1433

00:53:11,109 --> 00:53:08,960

can get below 2 meters per pixel or

1434

00:53:12,470 --> 00:53:11,119

something in ideal conditions they're

1435

00:53:13,990 --> 00:53:12,480

great pictures and the thing that they

1436

00:53:15,990 --> 00:53:14,000

did that was different is nasa kept

1437

00:53:17,990 --> 00:53:16,000

taking pictures of a face and saying it

1438

00:53:19,190 --> 00:53:18,000

was completely natural but every time

1439

00:53:22,150 --> 00:53:19,200

they did it

1440

00:53:25,910 --> 00:53:22,160

they would take it from a really odd

1441

00:53:27,190 --> 00:53:25,920

angle from below from behind from offset

1442

00:53:29,589 --> 00:53:27,200

so that the face appeared to be

1443

00:53:31,109 --> 00:53:29,599

distorted so that the eye sockets look

1444

00:53:32,950 --> 00:53:31,119

like they didn't line up when in fact

1445

00:53:34,950 --> 00:53:32,960

they did so it looked really fat and

1446

00:53:37,190 --> 00:53:34,960

wide and not very symmetrical when in

1447

00:53:39,270 --> 00:53:37,200

fact it really was but the europeans

1448

00:53:41,190 --> 00:53:39,280

gave i think the most honest data

1449

00:53:42,870 --> 00:53:41,200

because they tried to get exactly

1450

00:53:44,549 --> 00:53:42,880

centered over the face when they took

1451
00:53:47,190 --> 00:53:44,559
their pictures just as the viking images

1452
00:53:49,030 --> 00:53:47,200
had been taken back in in 1976 and the

1453
00:53:51,589 --> 00:53:49,040
result was that their their in my

1454
00:53:53,829 --> 00:53:51,599
opinion probably the best data set

1455
00:53:55,510 --> 00:53:53,839
that we have

1456
00:53:57,349 --> 00:53:55,520
of the face on mars and what i started

1457
00:54:00,069 --> 00:53:57,359
doing more recently on on you know

1458
00:54:02,710 --> 00:54:00,079
ancient aliens on mars 2 in that book

1459
00:54:05,109 --> 00:54:02,720
i started taking different images from

1460
00:54:08,150 --> 00:54:05,119
different probes that all have different

1461
00:54:10,150 --> 00:54:08,160
cameras so they all view the information

1462
00:54:11,829 --> 00:54:10,160
the ground truth differently and i

1463
00:54:13,589 --> 00:54:11,839

started layering them on top of each

1464

00:54:16,150 --> 00:54:13,599

other and the more that you combine

1465

00:54:18,230 --> 00:54:16,160

these images together the more obvious

1466

00:54:20,069 --> 00:54:18,240

it becomes that this is an artificial

1467

00:54:21,190 --> 00:54:20,079

structure that looks

1468

00:54:22,870 --> 00:54:21,200

pretty much

1469

00:54:24,549 --> 00:54:22,880

like a human face except there is some

1470

00:54:26,549 --> 00:54:24,559

damage to it but pretty much you can

1471

00:54:28,470 --> 00:54:26,559

tell you can look at it and say okay

1472

00:54:30,390 --> 00:54:28,480

a couple hundred thousand years ago this

1473

00:54:33,750 --> 00:54:30,400

probably looked like

1474

00:54:35,190 --> 00:54:33,760

the anunnaki king that it was apparently

1475

00:54:38,150 --> 00:54:35,200

built for so

1476

00:54:40,630 --> 00:54:38,160

um you know it's interesting that that

1477

00:54:43,510 --> 00:54:40,640

we have to go to europe to be able to

1478

00:54:45,430 --> 00:54:43,520

get a really good image really high

1479

00:54:47,109 --> 00:54:45,440

quality data set of the face on mars

1480

00:54:50,470 --> 00:54:47,119

because the nasa probes just can't seem

1481

00:54:55,510 --> 00:54:52,630

it's jittering

1482

00:54:57,349 --> 00:54:55,520

from these new images my impression

1483

00:55:00,150 --> 00:54:57,359

looking at that face is that there is

1484

00:55:02,630 --> 00:55:00,160

this big mound of dirt

1485

00:55:04,470 --> 00:55:02,640

sitting on top of some kind of a rock

1486

00:55:07,750 --> 00:55:04,480

structure whether it's

1487

00:55:09,910 --> 00:55:07,760

you know natural or artificial

1488

00:55:12,470 --> 00:55:09,920

have they gotten any close-ups and is

1489

00:55:14,470 --> 00:55:12,480

what we're seeing actually the stone

1490

00:55:16,790 --> 00:55:14,480

surface or is there

1491

00:55:18,390 --> 00:55:16,800

dirt or some kind of debris that sits

1492

00:55:21,349 --> 00:55:18,400

over this

1493

00:55:23,030 --> 00:55:21,359

internal skeleton should i say well yeah

1494

00:55:25,190 --> 00:55:23,040

there's dirt and debris there but we we

1495

00:55:26,710 --> 00:55:25,200

have got um very good pictures of this

1496

00:55:28,950 --> 00:55:26,720

stuff the mars reconnaissance orbiter

1497

00:55:30,950 --> 00:55:28,960

has a great camera it's taking very good

1498

00:55:31,750 --> 00:55:30,960

black and white or gray scale images of

1499

00:55:37,990 --> 00:55:31,760

the

1500

00:55:39,670 --> 00:55:38,000

underneath it what we see like i said is

1501

00:55:42,230 --> 00:55:39,680

these squared

1502

00:55:44,950 --> 00:55:42,240

room size kind of cells all over there's

1503

00:55:47,430 --> 00:55:44,960

one area where you've got a wall it's

1504

00:55:50,710 --> 00:55:47,440

very bright colored wall that runs you

1505

00:55:52,950 --> 00:55:50,720

know straight line 90 degrees

1506

00:55:55,349 --> 00:55:52,960

straight line 90 degrees so you got you

1507

00:55:57,670 --> 00:55:55,359

got you know like I shapes just until

1508

00:55:59,190 --> 00:55:57,680

the cows come home which is clearly some

1509

00:56:01,109 --> 00:55:59,200

sort of structural wall and that's

1510

00:56:02,870 --> 00:56:01,119

exactly how you would build um a

1511

00:56:04,390 --> 00:56:02,880

structural wall and in fact in

1512

00:56:06,630 --> 00:56:04,400

in the photos that i've talked about the

1513

00:56:08,230 --> 00:56:06,640

ones that are on my my picasa web album

1514

00:56:09,990 --> 00:56:08,240

i've got that showing i compare it to

1515

00:56:11,670 --> 00:56:10,000

ancient roman ruins

1516

00:56:13,910 --> 00:56:11,680

in britain where you've got exactly the

1517

00:56:15,829 --> 00:56:13,920

same kind of construction so

1518

00:56:17,829 --> 00:56:15,839

the reality is that yeah as you get

1519

00:56:19,349 --> 00:56:17,839

these pictures and look deeper at them

1520

00:56:20,789 --> 00:56:19,359

what you see is that there's

1521

00:56:23,030 --> 00:56:20,799

a lot of dust there's a lot of debris

1522

00:56:25,109 --> 00:56:23,040

but there's also a lot of

1523

00:56:27,109 --> 00:56:25,119

of a structure and underlying support

1524

00:56:29,190 --> 00:56:27,119

that that's getting exposed by the

1525

00:56:30,549 --> 00:56:29,200

weather or whatever

1526

00:56:34,150 --> 00:56:30,559

you know for whatever reason it's

1527

00:56:38,630 --> 00:56:37,270

well they have storms there right

1528

00:56:40,069 --> 00:56:38,640

on mars

1529

00:56:42,150 --> 00:56:40,079

yeah they have they have wind storms and

1530

00:56:43,670 --> 00:56:42,160

sand storms um

1531

00:56:45,349 --> 00:56:43,680

although because the atmosphere is so

1532

00:56:47,430 --> 00:56:45,359

thin the wind has to blow really hard

1533

00:56:49,910 --> 00:56:47,440

but there is erosion there there's just

1534

00:56:51,750 --> 00:56:49,920

less erosion than there is on earth so

1535

00:56:53,670 --> 00:56:51,760

you know i mean there could be any

1536

00:56:55,910 --> 00:56:53,680

number of reasons why one side is more

1537

00:56:57,030 --> 00:56:55,920

degraded than the other but on the side

1538

00:56:58,549 --> 00:56:57,040

the right side of the face that you

1539

00:57:00,309 --> 00:56:58,559

would expect to be more degraded that's

1540

00:57:02,230 --> 00:57:00,319

where we see all the structural stuff

1541

00:57:03,990 --> 00:57:02,240

sticking up

1542

00:57:05,430 --> 00:57:04,000

through the dust and debris and you know

1543

00:57:06,309 --> 00:57:05,440

the only way we're ever going to really

1544

00:57:08,470 --> 00:57:06,319

know

1545

00:57:10,630 --> 00:57:08,480

um how it's constructed what's really

1546

00:57:13,270 --> 00:57:10,640

underneath it is to actually go there

1547

00:57:15,109 --> 00:57:13,280

and explore the thing but it seems to be

1548

00:57:17,270 --> 00:57:15,119

for whatever reason

1549

00:57:20,309 --> 00:57:17,280

um one of the areas that nasa just

1550

00:57:21,990 --> 00:57:20,319

doesn't want to go to so i'm i'm upset

1551

00:57:23,990 --> 00:57:22,000

by that i don't like that

1552

00:57:25,430 --> 00:57:24,000

i would like to i think every exam in

1553

00:57:27,589 --> 00:57:25,440

the face

1554

00:57:29,750 --> 00:57:27,599

i think that's one of the ongoing

1555

00:57:32,710 --> 00:57:29,760

comments of

1556

00:57:36,710 --> 00:57:32,720

this is the one area on mars that if

1557

00:57:39,270 --> 00:57:36,720

there was going to be signs of life

1558

00:57:41,030 --> 00:57:39,280

this would be the area or this would be

1559

00:57:43,190 --> 00:57:41,040

the

1560

00:57:46,789 --> 00:57:43,200

most

1561

00:57:48,950 --> 00:57:46,799

reasonable place to start yeah

1562

00:57:50,710 --> 00:57:48,960

and and they don't i mean it seems like

1563

00:57:51,910 --> 00:57:50,720

they intentionally avoid it like the

1564

00:57:53,829 --> 00:57:51,920

plague

1565

00:57:55,589 --> 00:57:53,839

yeah well they do and it's it's you know

1566

00:57:57,910 --> 00:57:55,599

i mean there is some rough ground at

1567

00:58:00,150 --> 00:57:57,920

sedona it wouldn't be the easiest

1568

00:58:02,950 --> 00:58:00,160

landing to make but um i would

1569

00:58:05,109 --> 00:58:02,960

definitely put a rover or two down there

1570

00:58:07,750 --> 00:58:05,119

and i mean it's it's interesting from

1571

00:58:09,829 --> 00:58:07,760

the standpoint the of just geologies

1572

00:58:11,109 --> 00:58:09,839

because even if you even if you reject

1573

00:58:14,309 --> 00:58:11,119

the notion that any of this stuff is

1574

00:58:16,870 --> 00:58:14,319

artificial which is really dumb and i

1575

00:58:19,109 --> 00:58:16,880

you know i'd love to debate any jpl nasa

1576

00:58:19,990 --> 00:58:19,119

guy on that any day of the week

1577

00:58:22,150 --> 00:58:20,000

um

1578

00:58:25,270 --> 00:58:22,160

even if you reject that message though

1579

00:58:26,870 --> 00:58:25,280

what you find is that there is if this

1580

00:58:29,829 --> 00:58:26,880

is really geology it's got to be the

1581

00:58:32,390 --> 00:58:29,839

most geologically fascinating area of

1582

00:58:33,589 --> 00:58:32,400

mars because it's on the shoreline or at

1583

00:58:35,510 --> 00:58:33,599

least on the shoreline of what they

1584

00:58:38,390 --> 00:58:35,520

think was an ancient ocean

1585

00:58:40,870 --> 00:58:38,400

you've got all kinds of

1586

00:58:42,710 --> 00:58:40,880

chaotic terrain there you've got buried

1587

00:58:44,630 --> 00:58:42,720

little pyramidal looking things you've

1588

00:58:46,470 --> 00:58:44,640

got these really interesting formations

1589

00:58:47,430 --> 00:58:46,480

these large mountains

1590

00:58:49,349 --> 00:58:47,440

and

1591

00:58:50,870 --> 00:58:49,359

you know i just don't know why you

1592

00:58:52,390 --> 00:58:50,880

wouldn't look there why you it would be

1593

00:58:53,589 --> 00:58:52,400

a great place to look for life if there

1594

00:58:55,670 --> 00:58:53,599

used to be an ocean there then there

1595

00:58:57,109 --> 00:58:55,680

might be microbial life under the ground

1596

00:58:57,910 --> 00:58:57,119

that you could dig and search for life

1597

00:58:59,510 --> 00:58:57,920

so

1598

00:59:01,670 --> 00:58:59,520

it to me it makes no sense that they

1599

00:59:04,710 --> 00:59:01,680

keep going everywhere else except sedona

1600

00:59:06,630 --> 00:59:04,720

to land um one of these rovers and you

1601
00:59:08,230 --> 00:59:06,640
know believe me if i was president we'd

1602
00:59:10,870 --> 00:59:08,240
we'd be going there we'd be landing her

1603
00:59:12,549 --> 00:59:10,880
over there and i think we'd put one on

1604
00:59:14,630 --> 00:59:12,559
top of the place and uh and one

1605
00:59:16,150 --> 00:59:14,640
underneath one right at the base of it

1606
00:59:17,349 --> 00:59:16,160
and drive around it would be a really

1607
00:59:20,630 --> 00:59:17,359
interesting

1608
00:59:23,190 --> 00:59:20,640
but of course you know

1609
00:59:25,349 --> 00:59:23,200
the explorations are not honest i mean

1610
00:59:26,549 --> 00:59:25,359
if you look at the rover images

1611
00:59:29,510 --> 00:59:26,559
they are

1612
00:59:31,789 --> 00:59:29,520
by by an order of magnitude worse than

1613
00:59:34,549 --> 00:59:31,799

the ground pictures that we took back in

1614

00:59:35,910 --> 00:59:34,559

1976 with the first two viking landers i

1615

00:59:37,270 --> 00:59:35,920

mean if you look at their images of the

1616

00:59:39,109 --> 00:59:37,280

surface

1617

00:59:40,870 --> 00:59:39,119

they're way better yeah you would think

1618

00:59:43,589 --> 00:59:40,880

looking at the pathfinder images from

1619

00:59:44,870 --> 00:59:43,599

1997 you would think that in the ensuing

1620

00:59:47,030 --> 00:59:44,880

20 years

1621

00:59:49,750 --> 00:59:47,040

nasa camera technology declined in

1622

00:59:52,630 --> 00:59:49,760

quality by about a factor of 90. i mean

1623

00:59:54,549 --> 00:59:52,640

90 out of 100 it's just it's amazing how

1624

00:59:56,309 --> 00:59:54,559

terrible the images are and conveniently

1625

00:59:58,549 --> 00:59:56,319

all of the really interesting looking

1626
01:00:00,150 --> 00:59:58,559
objects on the surface of mars near the

1627
01:00:02,230 --> 01:00:00,160
pathfinder land are objects that appear

1628
01:00:03,430 --> 01:00:02,240
to be mechanical in nature they always

1629
01:00:06,230 --> 01:00:03,440
seem to be the ones that have the

1630
01:00:07,670 --> 01:00:06,240
biggest data errors and stuff and block

1631
01:00:10,150 --> 01:00:07,680
blockouts and

1632
01:00:12,150 --> 01:00:10,160
and um you know wallpaper it looks like

1633
01:00:13,589 --> 01:00:12,160
there's even some one structure that

1634
01:00:14,950 --> 01:00:13,599
looks like a metal cased object they

1635
01:00:17,430 --> 01:00:14,960
just basically

1636
01:00:18,630 --> 01:00:17,440
over it

1637
01:00:20,630 --> 01:00:18,640
so

1638
01:00:23,190 --> 01:00:20,640

it's it's stunning to me how

1639

01:00:24,870 --> 01:00:23,200

poor the quality cameras are on on these

1640

01:00:26,950 --> 01:00:24,880

probes and of course the reality is

1641

01:00:29,030 --> 01:00:26,960

budget cuts well they're not that

1642

01:00:32,069 --> 01:00:29,040

they're no they're not that poor they're

1643

01:00:35,109 --> 01:00:32,079

they're really they're really in good um

1644

01:00:37,109 --> 01:00:35,119

you know you know really are good um

1645

01:00:38,870 --> 01:00:37,119

in good condition

1646

01:00:40,870 --> 01:00:38,880

but it's like i mean that doesn't make

1647

01:00:42,230 --> 01:00:40,880

any sense from a logical point of view

1648

01:00:45,270 --> 01:00:42,240

it doesn't make any sense they're

1649

01:00:49,109 --> 01:00:45,280

sending these things up at taxpayers

1650

01:00:51,030 --> 01:00:49,119

dollars to investigate and take pictures

1651
01:00:52,549 --> 01:00:51,040
and i don't know do soil samples i don't

1652
01:00:53,990 --> 01:00:52,559
know what they're testing all up there

1653
01:00:57,030 --> 01:00:54,000
well they haven't done soil samples

1654
01:00:59,030 --> 01:00:57,040
since 1976 but yeah not really okay well

1655
01:01:00,870 --> 01:00:59,040
whatever

1656
01:01:02,309 --> 01:01:00,880
okay so they're just driving around

1657
01:01:04,630 --> 01:01:02,319
taking pictures you would think they'd

1658
01:01:06,390 --> 01:01:04,640
send a good camera i mean really well

1659
01:01:07,750 --> 01:01:06,400
you would and in fact on on some of the

1660
01:01:09,829 --> 01:01:07,760
new rovers they've got about five

1661
01:01:11,750 --> 01:01:09,839
cameras they've got nav cams they've got

1662
01:01:12,630 --> 01:01:11,760
haz cams they've got

1663
01:01:15,829 --> 01:01:12,640

um

1664

01:01:17,430 --> 01:01:15,839

masked k they've just got all kinds of

1665

01:01:20,230 --> 01:01:17,440

stuff they got they got cameras all over

1666

01:01:21,349 --> 01:01:20,240

the things and yet they still not seem

1667

01:01:23,030 --> 01:01:21,359

to be able to take a good picture they

1668

01:01:24,710 --> 01:01:23,040

look they look like good pictures you

1669

01:01:26,309 --> 01:01:24,720

look at them they're like wow you know

1670

01:01:28,069 --> 01:01:26,319

that looks like a piston head i'm going

1671

01:01:29,510 --> 01:01:28,079

to zoom up on that and take a good close

1672

01:01:31,829 --> 01:01:29,520

and when you zoom up there's they're

1673

01:01:33,270 --> 01:01:31,839

just full of jpeg artifacts it's just

1674

01:01:34,789 --> 01:01:33,280

it's impossible

1675

01:01:36,710 --> 01:01:34,799

to work with them and you know i mean

1676

01:01:39,430 --> 01:01:36,720

look let's be honest the reality is is

1677

01:01:41,109 --> 01:01:39,440

that behind the scenes at jpl

1678

01:01:42,470 --> 01:01:41,119

on their computers they've got the real

1679

01:01:43,910 --> 01:01:42,480

stuff they've got the really good high

1680

01:01:45,990 --> 01:01:43,920

quality stuff

1681

01:01:48,950 --> 01:01:46,000

that that we know exists in fact that

1682

01:01:50,470 --> 01:01:48,960

reminds me of a funny story i was at um

1683

01:01:52,710 --> 01:01:50,480

the jet propulsion laboratory or near

1684

01:01:54,549 --> 01:01:52,720

there in pasadena with hoagland

1685

01:01:57,430 --> 01:01:54,559

on a um

1686

01:01:59,510 --> 01:01:57,440

a presentation that he did and

1687

01:02:01,349 --> 01:01:59,520

apparently during one of the breaks

1688

01:02:03,430 --> 01:02:01,359

a guy came up to him with mars

1689

01:02:05,670 --> 01:02:03,440

pathfinder photographs

1690

01:02:07,430 --> 01:02:05,680

and they were about according to richard

1691

01:02:09,750 --> 01:02:07,440

about a hundred times better than what

1692

01:02:11,270 --> 01:02:09,760

was actually posted on the web and he

1693

01:02:12,789 --> 01:02:11,280

was looking at them going wow this is

1694

01:02:15,829 --> 01:02:12,799

astounding i mean that looks fantastic

1695

01:02:16,950 --> 01:02:15,839

and the jpl scientist guy even said yeah

1696

01:02:19,510 --> 01:02:16,960

we were wondering when you were going to

1697

01:02:21,190 --> 01:02:19,520

spot this one you know we had a pool

1698

01:02:22,470 --> 01:02:21,200

going on when you were gonna spot this

1699

01:02:23,670 --> 01:02:22,480

one and richard was like oh my god

1700

01:02:24,950 --> 01:02:23,680

that's fantastic and the guy said oh

1701

01:02:26,710 --> 01:02:24,960

wait a minute

1702

01:02:28,710 --> 01:02:26,720

i can't give these to you yet i i have

1703

01:02:30,470 --> 01:02:28,720

to like i have to block out my employee

1704

01:02:32,470 --> 01:02:30,480

number because every photo that was

1705

01:02:34,470 --> 01:02:32,480

taken out of there every printed photo

1706

01:02:35,750 --> 01:02:34,480

had a stamp on the back of it with who

1707

01:02:37,270 --> 01:02:35,760

checked it out

1708

01:02:39,190 --> 01:02:37,280

and so richard said okay and he gave him

1709

01:02:40,789 --> 01:02:39,200

back to the guy with a with a marker

1710

01:02:42,230 --> 01:02:40,799

assuming he was going to

1711

01:02:44,230 --> 01:02:42,240

you know

1712

01:02:45,990 --> 01:02:44,240

blot it out blotta and the guy was gone

1713

01:02:46,789 --> 01:02:46,000

the guy left but richard swears up and

1714

01:02:48,230 --> 01:02:46,799

down

1715

01:02:49,910 --> 01:02:48,240

that he saw it and he saw the pictures

1716

01:02:51,910 --> 01:02:49,920

and he knows that the cameras on

1717

01:02:54,789 --> 01:02:51,920

pathfinder were

1718

01:02:56,390 --> 01:02:54,799

again an order of magnitude better than

1719

01:02:57,910 --> 01:02:56,400

the stuff that they posted on the web so

1720

01:02:59,750 --> 01:02:57,920

the question is you know what deep down

1721

01:03:01,430 --> 01:02:59,760

in the in the files

1722

01:03:02,870 --> 01:03:01,440

how many amazing things are there for us

1723

01:03:06,150 --> 01:03:02,880

to see from these

1724

01:03:08,309 --> 01:03:06,160

these rovers i suspect quite a bit

1725

01:03:10,390 --> 01:03:08,319

and if there wasn't anything there then

1726

01:03:12,870 --> 01:03:10,400

why would they care and why wouldn't

1727

01:03:13,829 --> 01:03:12,880

they make that material available

1728

01:03:15,109 --> 01:03:13,839

well

1729

01:03:16,710 --> 01:03:15,119

they don't want you to really see what's

1730

01:03:18,789 --> 01:03:16,720

there that again they'll they'll give it

1731

01:03:20,069 --> 01:03:18,799

to you to a certain point but they're

1732

01:03:21,190 --> 01:03:20,079

not going to give you the smoking gun

1733

01:03:22,950 --> 01:03:21,200

they're not going to they're you know

1734

01:03:24,390 --> 01:03:22,960

they're not obligated they're obligated

1735

01:03:25,910 --> 01:03:24,400

to put the pictures of this stuff up on

1736

01:03:27,510 --> 01:03:25,920

the web they're not obligated to put

1737

01:03:29,270 --> 01:03:27,520

good pictures of this stuff up on the

1738

01:03:30,950 --> 01:03:29,280

web there's nothing in the contract that

1739

01:03:33,430 --> 01:03:30,960

says you have to put the highest

1740

01:03:35,910 --> 01:03:33,440

resolution highest quality versions of

1741

01:03:37,349 --> 01:03:35,920

every single bit of your data on the

1742

01:03:39,349 --> 01:03:37,359

internet for the public there's nothing

1743

01:03:40,950 --> 01:03:39,359

in the contract that says that so they

1744

01:03:43,190 --> 01:03:40,960

they skirt around it that they skirt

1745

01:03:45,990 --> 01:03:43,200

around it that way

1746

01:03:48,230 --> 01:03:46,000

but like but but what i'm saying is that

1747

01:03:52,069 --> 01:03:48,240

if there wasn't a smoking gun

1748

01:03:54,390 --> 01:03:52,079

then there would be no need for this

1749

01:03:55,270 --> 01:03:54,400

playing around with the images other

1750

01:03:57,430 --> 01:03:55,280

than

1751

01:03:58,870 --> 01:03:57,440

you know bandwidth you put this huge

1752

01:04:01,270 --> 01:03:58,880

file out there

1753

01:04:03,109 --> 01:04:01,280

as an image i mean to download one thing

1754

01:04:06,230 --> 01:04:03,119

but just as an image on your page for

1755

01:04:09,910 --> 01:04:06,240

you to right click on i mean

1756

01:04:12,870 --> 01:04:10,950

well

1757

01:04:14,870 --> 01:04:12,880

they're the government they should have

1758

01:04:17,190 --> 01:04:14,880

computers and servers that can handle

1759

01:04:18,950 --> 01:04:17,200

that i'm sure that's not the reason that

1760

01:04:21,029 --> 01:04:18,960

they haven't put the high resolution

1761

01:04:22,710 --> 01:04:21,039

they put plenty of very high resolution

1762

01:04:24,390 --> 01:04:22,720

stuff out there the problem is is it

1763

01:04:27,190 --> 01:04:24,400

should all look better than it actually

1764

01:04:30,390 --> 01:04:27,200

does

1765

01:04:32,549 --> 01:04:30,400

why they're just using a polaroid no

1766

01:04:33,430 --> 01:04:32,559

yeah well you know

1767

01:04:36,150 --> 01:04:33,440

okay

1768

01:04:38,230 --> 01:04:36,160

moving on moving on um earlier we were

1769

01:04:41,029 --> 01:04:38,240

you were talking about these apparent

1770

01:04:44,150 --> 01:04:41,039

cities um

1771

01:04:48,150 --> 01:04:44,160

that are like in the sedona area

1772

01:04:49,670 --> 01:04:48,160

not sedona sidonia sedona sedonia

1773

01:04:52,390 --> 01:04:49,680

although it's interesting that sedona

1774

01:04:55,190 --> 01:04:52,400

looks like mars and it's named sedona

1775

01:04:55,910 --> 01:04:55,200

it's also interesting that cairo is is

1776

01:04:59,270 --> 01:04:55,920

the

1777

01:05:01,829 --> 01:04:59,280

you know arabic name for mars

1778

01:05:05,349 --> 01:05:01,839

and it was founded apparently by

1779

01:05:06,470 --> 01:05:05,359

an anunnaki god named marduk

1780

01:05:07,670 --> 01:05:06,480

marduk

1781

01:05:11,109 --> 01:05:07,680

who

1782

01:05:12,630 --> 01:05:11,119

way the anunnaki was stationed they have

1783

01:05:15,589 --> 01:05:12,640

all these really interesting things that

1784

01:05:16,789 --> 01:05:15,599

keep connecting you know i like to go

1785

01:05:18,309 --> 01:05:16,799

that's really interesting well that's

1786

01:05:19,750 --> 01:05:18,319

really interesting you throw it all

1787

01:05:21,270 --> 01:05:19,760

together and you actually have a pattern

1788

01:05:23,029 --> 01:05:21,280

so

1789

01:05:24,950 --> 01:05:23,039

anyway that was off topic

1790

01:05:27,270 --> 01:05:24,960

okay that's okay but we'll be coming

1791

01:05:31,190 --> 01:05:27,280

back to that topic when you come back on

1792

01:05:34,789 --> 01:05:31,200

for two hours next time yes

1793

01:05:36,870 --> 01:05:34,799

anyway um so cities uh what led you to

1794

01:05:39,750 --> 01:05:36,880

believe that what you were seeing in the

1795

01:05:42,230 --> 01:05:39,760

images wasn't natural a natural rock

1796

01:05:45,190 --> 01:05:42,240

formation but was actually

1797

01:05:47,910 --> 01:05:45,200

some kind of a city or a man-made

1798

01:05:49,510 --> 01:05:47,920

structure well for me you know when i

1799

01:05:53,109 --> 01:05:49,520

see seven

1800

01:05:54,150 --> 01:05:53,119

almost equally spaced parallel lines

1801

01:05:56,230 --> 01:05:54,160

which are

1802

01:05:58,630 --> 01:05:56,240

clearly roads

1803

01:06:01,750 --> 01:05:58,640

carved into the ground and then you see

1804

01:06:04,789 --> 01:06:01,760

block after block of of you know what

1805

01:06:06,309 --> 01:06:04,799

look like city block houses with you

1806

01:06:09,589 --> 01:06:06,319

know some of them with two stories

1807

01:06:12,710 --> 01:06:09,599

swimming pools hotels restaurants

1808

01:06:16,069 --> 01:06:12,720

um processing plants you know

1809

01:06:18,549 --> 01:06:16,079

mining operations uh

1810

01:06:20,549 --> 01:06:18,559

trucks what looked like big support

1811

01:06:21,910 --> 01:06:20,559

structures um

1812

01:06:23,750 --> 01:06:21,920

you know

1813

01:06:25,029 --> 01:06:23,760

tanks of some kind that have tubes

1814

01:06:26,230 --> 01:06:25,039

running out of them when you see all

1815

01:06:27,510 --> 01:06:26,240

that stuff

1816

01:06:29,349 --> 01:06:27,520

and it's all together in one

1817

01:06:31,670 --> 01:06:29,359

concentrated area it's pretty easy for

1818

01:06:33,829 --> 01:06:31,680

me to say to myself oh okay this is not

1819

01:06:35,990 --> 01:06:33,839

natural this is clearly

1820

01:06:38,390 --> 01:06:36,000

artificial because nature doesn't make

1821

01:06:40,069 --> 01:06:38,400

seven straight parallel roads

1822

01:06:42,789 --> 01:06:40,079

emerging from what looks like it used to

1823

01:06:44,390 --> 01:06:42,799

be a a waterway like a lake or something

1824

01:06:46,150 --> 01:06:44,400

and leading into this beach this would

1825

01:06:47,510 --> 01:06:46,160

look really nice beach beachfront

1826
01:06:48,710 --> 01:06:47,520
property plus

1827
01:06:50,870 --> 01:06:48,720
when i'm looking at something like the

1828
01:06:52,870 --> 01:06:50,880
so-called parrot city

1829
01:06:55,190 --> 01:06:52,880
what i found was that

1830
01:06:57,109 --> 01:06:55,200
the nasa

1831
01:06:59,109 --> 01:06:57,119
images of that the ones that nasa had

1832
01:07:00,470 --> 01:06:59,119
originally put out

1833
01:07:02,150 --> 01:07:00,480
there was an area that looked really

1834
01:07:04,230 --> 01:07:02,160
really dark and it had some vertical

1835
01:07:06,549 --> 01:07:04,240
some sort of straight lines on it

1836
01:07:08,150 --> 01:07:06,559
and um

1837
01:07:11,589 --> 01:07:08,160
those appeared you know it appeared to

1838
01:07:13,990 --> 01:07:11,599

be like a dried up lake bed but then

1839

01:07:16,390 --> 01:07:14,000

there was a request made by a member of

1840

01:07:18,549 --> 01:07:16,400

the public and this gets into this whole

1841

01:07:20,710 --> 01:07:18,559

masonic you gotta ask the right question

1842

01:07:21,910 --> 01:07:20,720

thing that requested another shot of the

1843

01:07:23,270 --> 01:07:21,920

parrot because they were interested in

1844

01:07:26,710 --> 01:07:23,280

the parrot and what they got was a shot

1845

01:07:30,150 --> 01:07:26,720

of the city but the difference between

1846

01:07:31,589 --> 01:07:30,160

the original nasa versions of this area

1847

01:07:33,510 --> 01:07:31,599

and the new picture that they took even

1848

01:07:35,910 --> 01:07:33,520

though it was with the same camera

1849

01:07:37,670 --> 01:07:35,920

was that this dark area you could see

1850

01:07:40,510 --> 01:07:37,680

and again this is all in my picasa web

1851

01:07:42,069 --> 01:07:40,520

album if you go to my go to my

1852

01:07:43,829 --> 01:07:42,079

mikeberry.blogspot.com and click on

1853

01:07:45,029 --> 01:07:43,839

photos and click on picasa web album

1854

01:07:47,190 --> 01:07:45,039

it's all there in the pictures for

1855

01:07:48,710 --> 01:07:47,200

ancient aliens on mars too

1856

01:07:51,109 --> 01:07:48,720

what you could see was that this dark

1857

01:07:53,829 --> 01:07:51,119

area was actually white it looked like

1858

01:07:55,430 --> 01:07:53,839

concrete and it was not flat and spread

1859

01:07:57,029 --> 01:07:55,440

out but it was vertical and what they

1860

01:07:59,190 --> 01:07:57,039

had done is they had taken the image of

1861

01:08:00,150 --> 01:07:59,200

the city and they had stretched it out

1862

01:08:01,910 --> 01:08:00,160

wide

1863

01:08:04,870 --> 01:08:01,920

to make it look

1864

01:08:07,029 --> 01:08:04,880

less unnatural because what this white

1865

01:08:09,589 --> 01:08:07,039

concrete stuff was with

1866

01:08:11,829 --> 01:08:09,599

these straight lines which were actually

1867

01:08:15,029 --> 01:08:11,839

stiffening they were like stiffening um

1868

01:08:18,870 --> 01:08:15,039

beads in in the structure was it was

1869

01:08:21,030 --> 01:08:18,880

about a 600 foot tall retaining wall and

1870

01:08:22,950 --> 01:08:21,040

nature just doesn't make 600 foot tall

1871

01:08:25,030 --> 01:08:22,960

vertical retaining walls

1872

01:08:26,870 --> 01:08:25,040

like it did around this city so i looked

1873

01:08:28,789 --> 01:08:26,880

at that and i went well

1874

01:08:31,030 --> 01:08:28,799

that's artificial so for me it's pretty

1875

01:08:34,070 --> 01:08:31,040

easy when i see stuff like that i get

1876

01:08:36,070 --> 01:08:34,080

you know stunned by it and

1877

01:08:37,669 --> 01:08:36,080

my jaw drops on the ground and

1878

01:08:41,990 --> 01:08:37,679

then i say i can't wait to start showing

1879

01:08:45,829 --> 01:08:43,910

okay another question from the chat room

1880

01:08:48,870 --> 01:08:45,839

neutron you're coming up with good ones

1881

01:08:51,269 --> 01:08:48,880

tonight uh question does mike support

1882

01:08:53,430 --> 01:08:51,279

the rumor that china's recent rover

1883

01:08:56,309 --> 01:08:53,440

landing on the moon which soon

1884

01:08:59,349 --> 01:08:56,319

deliberately went black

1885

01:09:02,950 --> 01:08:59,359

on its video feed is now being used to

1886

01:09:06,550 --> 01:09:02,960

pressure the usa to have the president

1887

01:09:09,510 --> 01:09:06,560

trans-pacific treaty talks go their way

1888

01:09:11,669 --> 01:09:09,520

well it's a possibility um

1889

01:09:14,070 --> 01:09:11,679

that you know i didn't believe this crap

1890

01:09:16,709 --> 01:09:14,080

when i first heard it but then my my

1891

01:09:18,149 --> 01:09:16,719

brother's ex-wife actually works

1892

01:09:20,070 --> 01:09:18,159

as an importer

1893

01:09:21,590 --> 01:09:20,080

and she sent us some images of what's

1894

01:09:22,630 --> 01:09:21,600

going on right now and the fact is i

1895

01:09:24,630 --> 01:09:22,640

didn't realize this because you don't

1896

01:09:27,669 --> 01:09:24,640

hear about it on the news but there's

1897

01:09:29,349 --> 01:09:27,679

basically been a strike um at all the

1898

01:09:31,590 --> 01:09:29,359

docks where they're not bringing nothing

1899

01:09:34,070 --> 01:09:31,600

is coming into the west coast there's

1900

01:09:35,829 --> 01:09:34,080

dozens and dozens of ships out there you

1901

01:09:37,269 --> 01:09:35,839

know off the coast that are ready to

1902

01:09:40,390 --> 01:09:37,279

unload their stuff and it's not being

1903

01:09:42,149 --> 01:09:40,400

unloaded and the the rumor around town

1904

01:09:43,749 --> 01:09:42,159

is that you know the chinese are

1905

01:09:45,269 --> 01:09:43,759

creating pressure

1906

01:09:47,030 --> 01:09:45,279

so another way that they might be

1907

01:09:49,189 --> 01:09:47,040

creating pressure to get this agreement

1908

01:09:51,510 --> 01:09:49,199

uh you know pushed through

1909

01:09:52,630 --> 01:09:51,520

is by saying look at what we took a

1910

01:09:54,550 --> 01:09:52,640

picture of

1911

01:09:55,830 --> 01:09:54,560

and if you don't agree to this guess

1912

01:09:58,390 --> 01:09:55,840

what we're going to do we're going to

1913

01:10:00,229 --> 01:09:58,400

show it to people so to me it's

1914

01:10:02,390 --> 01:10:00,239

it's a possibility i wouldn't three or

1915

01:10:04,870 --> 01:10:02,400

four days ago i would not have

1916

01:10:06,870 --> 01:10:04,880

considered that as a possibility but i

1917

01:10:08,390 --> 01:10:06,880

do now because of what i just saw found

1918

01:10:10,790 --> 01:10:08,400

out today which is that

1919

01:10:12,790 --> 01:10:10,800

you know there's something going on and

1920

01:10:14,790 --> 01:10:12,800

there's there's pressure being applied

1921

01:10:16,390 --> 01:10:14,800

politically on the u.s

1922

01:10:18,310 --> 01:10:16,400

to do something the question is what is

1923

01:10:20,310 --> 01:10:18,320

it that they're trying to get the u.s to

1924

01:10:21,669 --> 01:10:20,320

do i i'm not really clear about that but

1925

01:10:23,830 --> 01:10:21,679

it may have something to do with this

1926

01:10:25,110 --> 01:10:23,840

pan pacific treaty

1927

01:10:27,830 --> 01:10:25,120

but see that's really interesting and

1928

01:10:30,070 --> 01:10:27,840

this is totally off topic

1929

01:10:31,910 --> 01:10:30,080

i have a friend who drives truck and

1930

01:10:34,709 --> 01:10:31,920

drives

1931

01:10:36,149 --> 01:10:34,719

picks up cargo in chicago and then

1932

01:10:37,510 --> 01:10:36,159

delivers it and this stuff all comes

1933

01:10:39,990 --> 01:10:37,520

right off the boat and then they

1934

01:10:42,390 --> 01:10:40,000

transport it to where he is and then he

1935

01:10:43,510 --> 01:10:42,400

takes it to a local because it comes by

1936

01:10:45,990 --> 01:10:43,520

train

1937

01:10:47,510 --> 01:10:46,000

and he was saying that it was more of a

1938

01:10:49,590 --> 01:10:47,520

teamster

1939

01:10:51,669 --> 01:10:49,600

labor issue going on and that's why

1940

01:10:54,310 --> 01:10:51,679

those boats were backing up because they

1941

01:10:55,910 --> 01:10:54,320

wouldn't offload them you know so is it

1942

01:10:57,430 --> 01:10:55,920

the government our government saying

1943

01:10:58,950 --> 01:10:57,440

well we're not going to take your stuff

1944

01:11:02,149 --> 01:10:58,960

china

1945

01:11:03,510 --> 01:11:02,159

just going to bring it by the port but

1946

01:11:06,229 --> 01:11:03,520

we're really not going to bring it into

1947

01:11:08,070 --> 01:11:06,239

port well you know china owns a lot of

1948

01:11:09,750 --> 01:11:08,080

these ports now they i believe they own

1949

01:11:11,430 --> 01:11:09,760

the port of long beach i think they own

1950

01:11:13,270 --> 01:11:11,440

the port of los angeles they've been

1951

01:11:14,709 --> 01:11:13,280

buying up these things

1952

01:11:16,310 --> 01:11:14,719

so if they've bought up more of these

1953

01:11:18,070 --> 01:11:16,320

than we actually realize and they're

1954

01:11:19,350 --> 01:11:18,080

controlling them they could basically

1955

01:11:20,709 --> 01:11:19,360

just be saying this is shut down and of

1956

01:11:23,669 --> 01:11:20,719

course the teamsters are always a great

1957

01:11:25,830 --> 01:11:23,679

excuse for this but you know to me as i

1958

01:11:28,870 --> 01:11:25,840

look at it there's some big geopolitical

1959

01:11:30,790 --> 01:11:28,880

games going on right now the question is

1960

01:11:32,229 --> 01:11:30,800

by who and for what reason and what are

1961

01:11:33,189 --> 01:11:32,239

they trying to pressure the u.s and the

1962

01:11:34,709 --> 01:11:33,199

doing

1963

01:11:36,310 --> 01:11:34,719

um

1964

01:11:38,630 --> 01:11:36,320

and you know what is the u.s holding

1965

01:11:40,390 --> 01:11:38,640

back on that's that's my question what

1966

01:11:42,630 --> 01:11:40,400

is it we're refusing to do and i think

1967

01:11:44,870 --> 01:11:42,640

that that what was his name again the

1968

01:11:47,270 --> 01:11:44,880

the guy in the chat room um

1969

01:11:48,630 --> 01:11:47,280

neutron neutron and a neutrons question

1970

01:11:50,470 --> 01:11:48,640

is one that i have a different answer to

1971

01:11:52,310 --> 01:11:50,480

than i would have two or three days ago

1972

01:11:53,750 --> 01:11:52,320

once i realized wow there's a bunch of

1973

01:11:54,790 --> 01:11:53,760

stuff out there in the ocean just kind

1974

01:11:56,709 --> 01:11:54,800

of sitting there waiting to be brought

1975

01:11:58,149 --> 01:11:56,719

into port and i'm beginning to wonder

1976

01:12:00,310 --> 01:11:58,159

can i go to the store and pick up some

1977

01:12:02,950 --> 01:12:00,320

twinkies on thursday are they all going

1978

01:12:05,189 --> 01:12:02,960

to be gone i hope not

1979

01:12:07,430 --> 01:12:05,199

i don't know are they made in china

1980

01:12:08,550 --> 01:12:07,440

well no but they have to be shipped in

1981

01:12:10,950 --> 01:12:08,560

you know

1982

01:12:14,870 --> 01:12:13,110

anyway you can't you can't buy them if

1983

01:12:15,830 --> 01:12:14,880

they're not shipped in

1984

01:12:17,510 --> 01:12:15,840

but if they're

1985

01:12:18,630 --> 01:12:17,520

well i mean nothing's made in the united

1986

01:12:21,590 --> 01:12:18,640

states so

1987

01:12:23,830 --> 01:12:21,600

obviously it has to be shipped in so

1988

01:12:25,030 --> 01:12:23,840

yeah is anything made in the u.s anymore

1989

01:12:27,910 --> 01:12:25,040

i mean

1990

01:12:29,669 --> 01:12:27,920

we make garbage we do that good yeah

1991

01:12:30,550 --> 01:12:29,679

well you know i mean there's reasons for

1992

01:12:31,910 --> 01:12:30,560

that

1993

01:12:34,630 --> 01:12:31,920

which we won't get into because this is

1994

01:12:37,669 --> 01:12:34,640

not a political show is it is it rita

1995

01:12:40,470 --> 01:12:37,679

well i try to stay out of that area but

1996

01:12:42,470 --> 01:12:40,480

every so often it just you know pops up

1997

01:12:44,630 --> 01:12:42,480

well they do overlap i mean come on they

1998

01:12:46,550 --> 01:12:44,640

they do they do i mean especially when

1999

01:12:49,189 --> 01:12:46,560

you're talking about things that are not

2000

01:12:51,510 --> 01:12:49,199

being revealed like images from the moon

2001

01:12:54,870 --> 01:12:51,520

images from mars

2002

01:12:57,590 --> 01:12:54,880

information about ufos that have

2003

01:12:59,910 --> 01:12:57,600

interacted on the planet you know stuff

2004

01:13:02,070 --> 01:12:59,920

that you hear that the smithsonian

2005

01:13:03,510 --> 01:13:02,080

picked up at some point time and now

2006

01:13:05,189 --> 01:13:03,520

it's

2007

01:13:05,990 --> 01:13:05,199

gone

2008

01:13:10,709 --> 01:13:06,000

yeah

2009

01:13:12,470 --> 01:13:10,719

it's not political but it's political

2010

01:13:14,149 --> 01:13:12,480

well you know i mean again

2011

01:13:15,750 --> 01:13:14,159

i think i would recommend everybody

2012

01:13:18,870 --> 01:13:15,760

who's a conspiracy theorist to any

2013

01:13:21,189 --> 01:13:18,880

degree at all go see um go see the film

2014

01:13:22,870 --> 01:13:21,199

jupiter ascending because in spite

2015

01:13:24,870 --> 01:13:22,880

of the her of the horrible reviews which

2016

01:13:27,110 --> 01:13:24,880

are completely unjustified

2017

01:13:29,270 --> 01:13:27,120

um it's a very interesting movie and

2018

01:13:31,350 --> 01:13:29,280

it's it's trying to to send you a

2019

01:13:33,189 --> 01:13:31,360

message that everything that goes on

2020

01:13:34,470 --> 01:13:33,199

ultimately is commercial all the you

2021

01:13:36,149 --> 01:13:34,480

know everything that you see happening

2022

01:13:38,070 --> 01:13:36,159

in public there's some sort of

2023

01:13:40,310 --> 01:13:38,080

commercial commercial interest behind

2024

01:13:42,149 --> 01:13:40,320

that and um you know it even basically

2025

01:13:45,270 --> 01:13:42,159

says the universe operates

2026

01:13:47,030 --> 01:13:45,280

on commercial capitalist principles and

2027

01:13:48,470 --> 01:13:47,040

you know i mean the human race and the

2028

01:13:50,630 --> 01:13:48,480

movie are a

2029

01:13:53,030 --> 01:13:50,640

a product that um

2030

01:13:55,030 --> 01:13:53,040

that needs to be used harvested by the

2031

01:13:56,709 --> 01:13:55,040

aliens or by the they're not really

2032

01:13:58,470 --> 01:13:56,719

aliens they're humans to survive and

2033

01:13:59,669 --> 01:13:58,480

it's like i think if you're into this

2034

01:14:01,270 --> 01:13:59,679

stuff and you really want to understand

2035

01:14:02,709 --> 01:14:01,280

where it all comes from i would say go

2036

01:14:04,229 --> 01:14:02,719

see the movie because it's like the

2037

01:14:06,470 --> 01:14:04,239

wachowski brothers

2038

01:14:08,310 --> 01:14:06,480

are trying to wake you up they tried in

2039

01:14:11,110 --> 01:14:08,320

the matrix to tell you that

2040

01:14:13,030 --> 01:14:11,120

a lot of what you see is is fake and

2041

01:14:14,790 --> 01:14:13,040

that was a metaphor for the financial

2042

01:14:17,030 --> 01:14:14,800

system and this is like right in your

2043

01:14:18,390 --> 01:14:17,040

face this is the way things work

2044

01:14:20,470 --> 01:14:18,400

and you've got to bring something to the

2045

01:14:21,830 --> 01:14:20,480

table so it's pretty interesting stuff

2046

01:14:24,229 --> 01:14:21,840

just sorry i just thought i would tell

2047

01:14:26,550 --> 01:14:24,239

people that jupiter rising huh jupiter

2048

01:14:28,390 --> 01:14:26,560

is sending ascending

2049

01:14:30,950 --> 01:14:28,400

i'm gonna have and jupiter is jupiter is

2050

01:14:32,870 --> 01:14:30,960

mila mila kunis who is uh

2051
01:14:33,910 --> 01:14:32,880
is always nice to look at in the movie

2052
01:14:36,229 --> 01:14:33,920
even though i think she might have

2053
01:14:37,750 --> 01:14:36,239
botoxed a little over botox to her

2054
01:14:39,110 --> 01:14:37,760
forehead because one of her eyes is kind

2055
01:14:41,110 --> 01:14:39,120
of droopy now i hadn't noticed that

2056
01:14:42,390 --> 01:14:41,120
before so

2057
01:14:44,470 --> 01:14:42,400
anyway

2058
01:14:47,270 --> 01:14:44,480
okay now we're really you know that way

2059
01:14:49,669 --> 01:14:47,280
we can like send out some good february

2060
01:14:51,110 --> 01:14:49,679
mojo vibes to her you know yeah let's

2061
01:14:52,709 --> 01:14:51,120
get let's just tell her you know because

2062
01:14:53,990 --> 01:14:52,719
well that can happen if not that i would

2063
01:14:56,229 --> 01:14:54,000

know but if you if you take a shot of

2064

01:14:57,030 --> 01:14:56,239

botox too close botox too close to your

2065

01:14:59,270 --> 01:14:57,040

eye

2066

01:15:01,189 --> 01:14:59,280

muscles

2067

01:15:02,229 --> 01:15:01,199

ghosts go dormant so

2068

01:15:03,590 --> 01:15:02,239

i don't know just trying to figure that

2069

01:15:05,350 --> 01:15:03,600

out i'm like wow what's what's going on

2070

01:15:07,189 --> 01:15:05,360

with her eye i remember we remember when

2071

01:15:08,630 --> 01:15:07,199

katie holmes had the whole bell's palsy

2072

01:15:10,709 --> 01:15:08,640

thing in batman and nobody could figure

2073

01:15:12,470 --> 01:15:10,719

out why she looked different and

2074

01:15:13,750 --> 01:15:12,480

you cannot remember that yeah okay all

2075

01:15:15,669 --> 01:15:13,760

right

2076

01:15:16,950 --> 01:15:15,679

okay we're just moving along anyway even

2077

01:15:18,390 --> 01:15:16,960

though i didn't see all the batman

2078

01:15:19,990 --> 01:15:18,400

movies but anyway

2079

01:15:21,750 --> 01:15:20,000

okay so we were talking about these

2080

01:15:22,870 --> 01:15:21,760

cities

2081

01:15:25,030 --> 01:15:22,880

um

2082

01:15:26,950 --> 01:15:25,040

how many cities do you think there are

2083

01:15:29,750 --> 01:15:26,960

how many individual

2084

01:15:30,630 --> 01:15:29,760

locations have you discovered well i've

2085

01:15:32,149 --> 01:15:30,640

seen

2086

01:15:34,149 --> 01:15:32,159

at least three or four i mean there's

2087

01:15:37,110 --> 01:15:34,159

there's the area of sedonia there's this

2088

01:15:38,870 --> 01:15:37,120

parrot city area which is on the um

2089

01:15:40,630 --> 01:15:38,880

in the southern hemisphere

2090

01:15:42,630 --> 01:15:40,640

there's an area called the inca city

2091

01:15:44,630 --> 01:15:42,640

which was first discovered in in the

2092

01:15:46,630 --> 01:15:44,640

1960s in the mariner probes and was

2093

01:15:48,550 --> 01:15:46,640

called a city and that's what that's

2094

01:15:50,709 --> 01:15:48,560

what the nasa guys nicknamed it that

2095

01:15:53,030 --> 01:15:50,719

looks an awful lot like buried ruins do

2096

01:15:56,470 --> 01:15:53,040

on earth buried ruins of uh

2097

01:15:57,590 --> 01:15:56,480

in iraq and and kazakhstan and uh that's

2098

01:15:59,750 --> 01:15:57,600

a place

2099

01:16:00,870 --> 01:15:59,760

an area that i cover in in the mars

2100

01:16:02,470 --> 01:16:00,880

books

2101

01:16:04,070 --> 01:16:02,480

that i think is of really

2102

01:16:05,590 --> 01:16:04,080

great interest and then there's another

2103

01:16:07,590 --> 01:16:05,600

area in

2104

01:16:09,910 --> 01:16:07,600

in a high daspas chaos which is a

2105

01:16:12,229 --> 01:16:09,920

chaotic area that the russians

2106

01:16:14,070 --> 01:16:12,239

in 1989 came out and said this is a city

2107

01:16:17,110 --> 01:16:14,080

this is a buried city this looks exactly

2108

01:16:19,430 --> 01:16:17,120

like l.a from would look from the sky in

2109

01:16:21,030 --> 01:16:19,440

an infrared image and made quite a big

2110

01:16:22,390 --> 01:16:21,040

deal out of it and then nasa went back

2111

01:16:24,070 --> 01:16:22,400

and re-photographed it and you know you

2112

01:16:26,310 --> 01:16:24,080

look at the photographs and sure enough

2113

01:16:29,189 --> 01:16:26,320

it sure does look like

2114

01:16:32,229 --> 01:16:29,199

a series of buried structures with um

2115

01:16:33,590 --> 01:16:32,239

with very regular streets running at 90

2116

01:16:36,550 --> 01:16:33,600

degree angles through it which is

2117

01:16:37,910 --> 01:16:36,560

usually a giveaway that it's um

2118

01:16:40,310 --> 01:16:37,920

that you're looking at something

2119

01:16:42,470 --> 01:16:40,320

artificial although it's not proof it is

2120

01:16:44,229 --> 01:16:42,480

it is an indication so you know i've got

2121

01:16:45,990 --> 01:16:44,239

four or five places that i can't wait to

2122

01:16:47,430 --> 01:16:46,000

look at not to mention phobos the moon

2123

01:16:49,350 --> 01:16:47,440

of mars which is

2124

01:16:51,270 --> 01:16:49,360

really an asteroid that again has this

2125

01:16:53,510 --> 01:16:51,280

sort of mesh grid

2126

01:16:56,390 --> 01:16:53,520

pattern on it that um

2127

01:16:57,990 --> 01:16:56,400

it may itself be you know uh formerly

2128

01:16:59,350 --> 01:16:58,000

inhabited so

2129

01:17:01,270 --> 01:16:59,360

we're gonna come to that because i have

2130

01:17:03,750 --> 01:17:01,280

a whole bunch of questions about that

2131

01:17:06,470 --> 01:17:03,760

okay a whole bunch okay um

2132

01:17:09,510 --> 01:17:06,480

yeah i am like so extra prepared for you

2133

01:17:10,790 --> 01:17:09,520

tonight mike so extra prepared

2134

01:17:11,750 --> 01:17:10,800

so

2135

01:17:13,110 --> 01:17:11,760

um

2136

01:17:15,270 --> 01:17:13,120

okay but now you like totally made me

2137

01:17:16,390 --> 01:17:15,280

lose my thought okay

2138

01:17:18,070 --> 01:17:16,400

well that's why you have your questions

2139

01:17:19,510 --> 01:17:18,080

written down isn't it i know but see

2140

01:17:22,070 --> 01:17:19,520

that you know there's the question but

2141

01:17:23,750 --> 01:17:22,080

then there's the follow-up question and

2142

01:17:25,110 --> 01:17:23,760

see i need to not pay attention to the

2143

01:17:27,270 --> 01:17:25,120

chat room because i didn't write my

2144

01:17:28,790 --> 01:17:27,280

follow-up question down which and then

2145

01:17:32,070 --> 01:17:28,800

we were talking about botox and that

2146

01:17:35,669 --> 01:17:32,080

really threw me off um

2147

01:17:37,750 --> 01:17:35,679

with the number of cities that you have

2148

01:17:39,830 --> 01:17:37,760

identified and i'm going to make the

2149

01:17:41,270 --> 01:17:39,840

assumption that there are probably more

2150

01:17:42,470 --> 01:17:41,280

yeah i'm just going to make that general

2151
01:17:43,270 --> 01:17:42,480
assumption

2152
01:17:45,990 --> 01:17:43,280
um

2153
01:17:48,630 --> 01:17:46,000
about how many people would you

2154
01:17:50,229 --> 01:17:48,640
guesstimate

2155
01:17:52,709 --> 01:17:50,239
you know would either live in one of

2156
01:17:55,669 --> 01:17:52,719
these cities um or could you give it a

2157
01:17:57,910 --> 01:17:55,679
comparison size like it would be

2158
01:18:01,189 --> 01:17:57,920
parallel to the number of people that

2159
01:18:04,310 --> 01:18:01,199
live in washington dc or live in

2160
01:18:06,709 --> 01:18:04,320
podunkville usa i mean

2161
01:18:07,830 --> 01:18:06,719
what are we talking about size-wise

2162
01:18:09,830 --> 01:18:07,840
um

2163
01:18:11,430 --> 01:18:09,840

that's a really good question you know i

2164

01:18:13,510 --> 01:18:11,440

hadn't really thought about that but but

2165

01:18:14,790 --> 01:18:13,520

in terms of the the one area let's say

2166

01:18:17,590 --> 01:18:14,800

that's near

2167

01:18:19,030 --> 01:18:17,600

hydaspus chaos on mars

2168

01:18:20,709 --> 01:18:19,040

that first the russians and then later

2169

01:18:24,229 --> 01:18:20,719

the us

2170

01:18:25,750 --> 01:18:24,239

uh photographed i mean that that was uh

2171

01:18:28,470 --> 01:18:25,760

that was about the same size as the los

2172

01:18:31,189 --> 01:18:28,480

angeles basin um which you know has a

2173

01:18:33,430 --> 01:18:31,199

population of around nine million people

2174

01:18:35,750 --> 01:18:33,440

nine to ten million people so

2175

01:18:38,149 --> 01:18:35,760

an awful lot now if you look at the

2176

01:18:40,550 --> 01:18:38,159

ancient the sumerian records that talk

2177

01:18:42,390 --> 01:18:40,560

about the aijji who are the ones that

2178

01:18:44,310 --> 01:18:42,400

lived on mars they never had anybody

2179

01:18:46,470 --> 01:18:44,320

that big but you know a party that big

2180

01:18:48,630 --> 01:18:46,480

but there could have been previous human

2181

01:18:49,990 --> 01:18:48,640

inhabitations it's just uh i don't know

2182

01:18:51,270 --> 01:18:50,000

i don't know where these guys come from

2183

01:18:53,830 --> 01:18:51,280

but we're talking

2184

01:18:55,830 --> 01:18:53,840

you know a lot a lot of people now in

2185

01:18:57,990 --> 01:18:55,840

the other area for instance parrot city

2186

01:18:59,830 --> 01:18:58,000

i would say thousands i would say that

2187

01:19:01,669 --> 01:18:59,840

would be enough it would be about

2188

01:19:02,630 --> 01:19:01,679

the same size as let's say hermosa beach

2189

01:19:04,790 --> 01:19:02,640

i don't know how many people live in

2190

01:19:07,350 --> 01:19:04,800

hermosa beach but i'm i'm guessing you

2191

01:19:09,669 --> 01:19:07,360

know 10 15 20 000. so

2192

01:19:11,270 --> 01:19:09,679

you know at the most so that's uh that's

2193

01:19:14,229 --> 01:19:11,280

not as big an area but it does have some

2194

01:19:15,750 --> 01:19:14,239

very nice lakefront property there

2195

01:19:17,669 --> 01:19:15,760

in paris city there's some really nice

2196

01:19:19,110 --> 01:19:17,679

looking stuff that

2197

01:19:22,390 --> 01:19:19,120

right above the retaining wall it looks

2198

01:19:24,470 --> 01:19:22,400

like it would have a great view so

2199

01:19:26,470 --> 01:19:24,480

sorry

2200

01:19:28,950 --> 01:19:26,480

so now you're looking at you know i can

2201

01:19:31,110 --> 01:19:28,960

sell it to you cheap yeah yeah i don't

2202

01:19:33,030 --> 01:19:31,120

think anybody's got any claims on it um

2203

01:19:35,030 --> 01:19:33,040

unless you know the abrasive family from

2204

01:19:37,750 --> 01:19:35,040

jupiter ascending has claims on it it's

2205

01:19:39,430 --> 01:19:37,760

possible it's theirs

2206

01:19:42,390 --> 01:19:39,440

oh i'm sure that you know the

2207

01:19:44,390 --> 01:19:42,400

governments have already divvied it up

2208

01:19:46,149 --> 01:19:44,400

you haven't told us yet

2209

01:19:51,990 --> 01:19:46,159

probably you're trespassing on the

2210

01:19:56,630 --> 01:19:53,270

one of the things that i was reading

2211

01:19:58,070 --> 01:19:56,640

about in the book um and i i think this

2212

01:19:59,910 --> 01:19:58,080

if you want to get a copy of the book by

2213

01:20:03,030 --> 01:19:59,920

the way i'm sorry did that ever come i

2214

01:20:06,790 --> 01:20:03,040

mean i've been finally finally sorry

2215

01:20:10,870 --> 01:20:08,790

you know it has just been a very weird

2216

01:20:12,229 --> 01:20:10,880

period i think on the planet for

2217

01:20:15,030 --> 01:20:12,239

everyone

2218

01:20:16,630 --> 01:20:15,040

so yeah i i just kind of like go with it

2219

01:20:19,189 --> 01:20:16,640

and it's like okay if you can get that

2220

01:20:21,030 --> 01:20:19,199

to me we just went through a mercury

2221

01:20:22,149 --> 01:20:21,040

retrograde and you know for people at

2222

01:20:23,910 --> 01:20:22,159

poo poo

2223

01:20:25,270 --> 01:20:23,920

astrology and mercury retrograde i mean

2224

01:20:27,350 --> 01:20:25,280

give me a break there were so many

2225

01:20:29,830 --> 01:20:27,360

things that went wrong mechanically and

2226

01:20:31,510 --> 01:20:29,840

and in terms of shipping and things it

2227

01:20:33,030 --> 01:20:31,520

just just there's so many things that

2228

01:20:35,030 --> 01:20:33,040

happened with computers and stuff during

2229

01:20:36,630 --> 01:20:35,040

that period it was one of the worst that

2230

01:20:38,550 --> 01:20:36,640

i've ever experienced and it's like i'm

2231

01:20:40,950 --> 01:20:38,560

sorry but i've done this been through

2232

01:20:44,390 --> 01:20:40,960

enough of these that i can honestly say

2233

01:20:46,229 --> 01:20:44,400

that uh that they're a real thing i mean

2234

01:20:48,149 --> 01:20:46,239

anytime mercury goes retrograde just

2235

01:20:50,790 --> 01:20:48,159

don't plan on anything going the way you

2236

01:20:52,709 --> 01:20:50,800

expect it to go

2237

01:20:54,709 --> 01:20:52,719

yeah

2238

01:20:56,709 --> 01:20:54,719

okay so back to the book and yes i did

2239

01:21:00,950 --> 01:20:56,719

get a copy which is why i'm actually

2240

01:21:04,310 --> 01:21:02,630

one of the things you talk about and

2241

01:21:06,790 --> 01:21:04,320

which you know i was kind of going

2242

01:21:08,870 --> 01:21:06,800

through it and i flipped the page and it

2243

01:21:12,310 --> 01:21:08,880

just totally caught my eye

2244

01:21:15,030 --> 01:21:12,320

was this skull shaped structure that i

2245

01:21:17,030 --> 01:21:15,040

think was in sidonia area

2246

01:21:18,709 --> 01:21:17,040

yeah it's not in sedona it's near where

2247

01:21:21,350 --> 01:21:18,719

one of the the i think spirit or

2248

01:21:25,830 --> 01:21:21,360

opportunity rovers um

2249

01:21:27,669 --> 01:21:25,840

took that picture but yeah that's cool

2250

01:21:31,510 --> 01:21:27,679

what do you want to talk about i don't

2251

01:21:38,390 --> 01:21:34,790

that one is cool it is in incredibly

2252

01:21:40,070 --> 01:21:38,400

scary um there are there are areas

2253

01:21:41,669 --> 01:21:40,080

you know as the rovers were covering

2254

01:21:44,390 --> 01:21:41,679

mars it took pictures of things that

2255

01:21:46,630 --> 01:21:44,400

looked like dinosaur skulls um they

2256

01:21:48,550 --> 01:21:46,640

they're very very similar to dinosaur

2257

01:21:50,550 --> 01:21:48,560

fossils from earth

2258

01:21:51,430 --> 01:21:50,560

they're kind of grouped together

2259

01:21:53,110 --> 01:21:51,440

and then

2260

01:21:54,550 --> 01:21:53,120

joseph skipper i believe is the guy who

2261

01:21:57,430 --> 01:21:54,560

discovered this he came across this

2262

01:21:58,390 --> 01:21:57,440

object that is quite clearly not a rock

2263

01:22:00,229 --> 01:21:58,400

for those of you who don't know and

2264

01:22:01,830 --> 01:22:00,239

again this is on my uh

2265

01:22:04,149 --> 01:22:01,840

my picasa web album and the ancient

2266

01:22:05,750 --> 01:22:04,159

aliens on mars two pictures

2267

01:22:08,709 --> 01:22:05,760

and uh

2268

01:22:10,070 --> 01:22:08,719

from a distance it looks like

2269

01:22:11,910 --> 01:22:10,080

it looks like there's a little mound

2270

01:22:13,430 --> 01:22:11,920

there like maybe the body's partially

2271

01:22:15,750 --> 01:22:13,440

buried but this is the skull and it

2272

01:22:16,870 --> 01:22:15,760

looks like a human skull to a certain

2273

01:22:19,510 --> 01:22:16,880

extent

2274

01:22:21,270 --> 01:22:19,520

but there's these massive jowls on on

2275

01:22:23,110 --> 01:22:21,280

the left and right side kind of tubular

2276

01:22:25,590 --> 01:22:23,120

jowls like almost like a stormtrooper's

2277

01:22:27,750 --> 01:22:25,600

helmet from star wars or something

2278

01:22:31,189 --> 01:22:27,760

and when you zoom up close on it you

2279

01:22:33,350 --> 01:22:31,199

know it has two eye sockets it has a

2280

01:22:34,870 --> 01:22:33,360

bone in between the eye sockets it has

2281

01:22:36,629 --> 01:22:34,880

what appears to be a nose with a couple

2282

01:22:38,470 --> 01:22:36,639

of nostrils these

2283

01:22:40,390 --> 01:22:38,480

heavy heavy jowls and then there's these

2284

01:22:43,990 --> 01:22:40,400

deep indentations

2285

01:22:46,470 --> 01:22:44,000

on the skull which um

2286

01:22:47,270 --> 01:22:46,480

if this head was really a massive bony

2287

01:22:49,990 --> 01:22:47,280

head

2288

01:22:51,669 --> 01:22:50,000

and had to be supported by a humanoid

2289

01:22:53,110 --> 01:22:51,679

sized body and this is the size of a

2290

01:22:57,030 --> 01:22:53,120

human skull

2291

01:22:59,030 --> 01:22:57,040

uh it would need really deep set uh bone

2292

01:23:00,950 --> 01:22:59,040

structures in order for the tendons and

2293

01:23:02,550 --> 01:23:00,960

the muscles to attach properly to the

2294

01:23:04,390 --> 01:23:02,560

skull in order for it to move and when

2295

01:23:07,030 --> 01:23:04,400

you look at it that's exactly what it

2296

01:23:09,189 --> 01:23:07,040

has is these really really deep

2297

01:23:10,629 --> 01:23:09,199

indentations and you know

2298

01:23:12,229 --> 01:23:10,639

they've never gotten another picture of

2299

01:23:13,990 --> 01:23:12,239

this thing um

2300

01:23:15,590 --> 01:23:14,000

spirit or opportunity whoever took the

2301
01:23:16,470 --> 01:23:15,600
image i think it was spirit i want to

2302
01:23:18,709 --> 01:23:16,480
say

2303
01:23:20,470 --> 01:23:18,719
has long since moved on and we've never

2304
01:23:21,990 --> 01:23:20,480
seen any other pictures of it although i

2305
01:23:23,750 --> 01:23:22,000
suspect the guys at nasa have some

2306
01:23:25,830 --> 01:23:23,760
really good and probably really scary

2307
01:23:27,669 --> 01:23:25,840
pictures of it all i can say is

2308
01:23:29,990 --> 01:23:27,679
this is not a dude you would want to

2309
01:23:32,629 --> 01:23:30,000
meet in a dark alley some night

2310
01:23:36,310 --> 01:23:33,910
this is what his head looked like he was

2311
01:23:38,790 --> 01:23:36,320
one scary guy

2312
01:23:40,870 --> 01:23:38,800
well and there's one series of photos

2313
01:23:41,750 --> 01:23:40,880

that you have um

2314

01:23:43,750 --> 01:23:41,760

that

2315

01:23:46,070 --> 01:23:43,760

when you look at it almost looks like

2316

01:23:49,189 --> 01:23:46,080

one of the elongated skulls that you

2317

01:23:50,709 --> 01:23:49,199

find out of south america yeah maybe i

2318

01:23:52,229 --> 01:23:50,719

don't know on that particular are we

2319

01:23:55,110 --> 01:23:52,239

talking about the same one i don't i

2320

01:23:56,950 --> 01:23:55,120

don't know on page 110 yeah i don't have

2321

01:24:00,470 --> 01:23:56,960

a book in front of me okay it says

2322

01:24:04,870 --> 01:24:00,480

nearly symmetrical mesa with nearby ruin

2323

01:24:09,669 --> 01:24:06,709

on mars what nasa used to call the

2324

01:24:12,870 --> 01:24:09,679

skull-shaped mesa which is a mesa nearby

2325

01:24:14,709 --> 01:24:12,880

um yeah it is a it is a mesa that may

2326

01:24:16,790 --> 01:24:14,719

have some natural formation but if you

2327

01:24:18,950 --> 01:24:16,800

draw a line through it on

2328

01:24:20,550 --> 01:24:18,960

through the so-called skull area it does

2329

01:24:22,149 --> 01:24:20,560

look like kind of like a human skull

2330

01:24:23,830 --> 01:24:22,159

kind of like an elongated skull but it's

2331

01:24:27,669 --> 01:24:23,840

a very large

2332

01:24:29,669 --> 01:24:27,679

um land formation near the face on mars

2333

01:24:30,950 --> 01:24:29,679

but it's the thing about that is that is

2334

01:24:33,110 --> 01:24:30,960

that if you draw the line through it

2335

01:24:35,270 --> 01:24:33,120

vertically instead of horizontally for

2336

01:24:36,950 --> 01:24:35,280

symmetry it you can see that it's eroded

2337

01:24:39,110 --> 01:24:36,960

symmetrically and things that erode

2338

01:24:40,790 --> 01:24:39,120

symmetrically used to be symmetrical and

2339

01:24:43,270 --> 01:24:40,800

nature

2340

01:24:45,189 --> 01:24:43,280

does not make symmetry except in really

2341

01:24:47,750 --> 01:24:45,199

rare circumstances especially on that

2342

01:24:49,510 --> 01:24:47,760

scale so what i think is that that is

2343

01:24:51,590 --> 01:24:49,520

something that's probably

2344

01:24:53,590 --> 01:24:51,600

an eroded artificial structure of some

2345

01:24:56,310 --> 01:24:53,600

kind made by whoever made the face on

2346

01:24:58,709 --> 01:24:56,320

mars and the rest of that stuff there

2347

01:25:00,149 --> 01:24:58,719

so this is this one is actually by

2348

01:25:03,430 --> 01:25:00,159

sedona

2349

01:25:04,950 --> 01:25:03,440

sidonia yeah very near it

2350

01:25:09,990 --> 01:25:04,960

see i think that's really interesting

2351

01:25:14,390 --> 01:25:13,110

artifact oh but that's skeleton that's

2352

01:25:16,709 --> 01:25:14,400

just what they call

2353

01:25:18,629 --> 01:25:16,719

paradoya you're just seeing faces it's

2354

01:25:20,550 --> 01:25:18,639

not like they're really there i don't

2355

01:25:23,110 --> 01:25:20,560

know i flipped the page and i'm like

2356

01:25:25,430 --> 01:25:23,120

wait there's a skeleton

2357

01:25:27,830 --> 01:25:25,440

and then i read the text it was

2358

01:25:29,350 --> 01:25:27,840

yeah i was being sarcastic um yeah it's

2359

01:25:31,270 --> 01:25:29,360

it's not all in your head there's

2360

01:25:33,350 --> 01:25:31,280

there's all kinds of these

2361

01:25:35,430 --> 01:25:33,360

facial structures um

2362

01:25:37,110 --> 01:25:35,440

all over the martian surface and of

2363

01:25:38,629 --> 01:25:37,120

varying sizes and scales but there's

2364

01:25:40,950 --> 01:25:38,639

also apparently some real skulls which

2365

01:25:43,430 --> 01:25:40,960

is the one i talked about earlier

2366

01:25:44,709 --> 01:25:43,440

and so this the real skull that you were

2367

01:25:46,790 --> 01:25:44,719

talking about

2368

01:25:48,629 --> 01:25:46,800

how big is it i mean is it giant skull

2369

01:25:50,070 --> 01:25:48,639

or is it human it's the size of a human

2370

01:25:51,590 --> 01:25:50,080

it's about the size of a human head from

2371

01:25:55,189 --> 01:25:51,600

the distance and scale of the camera

2372

01:25:56,870 --> 01:25:55,199

yeah it's it's maybe a little bigger um

2373

01:25:58,709 --> 01:25:56,880

but you know a guy who's seven or eight

2374

01:26:00,629 --> 01:25:58,719

feet tall i mean we're talking

2375

01:26:02,390 --> 01:26:00,639

we're talking shaq size i mean look to

2376

01:26:04,149 --> 01:26:02,400

you and me

2377

01:26:05,590 --> 01:26:04,159

shaquille o'neal is a giant right i mean

2378

01:26:07,590 --> 01:26:05,600

he's a big dude

2379

01:26:09,350 --> 01:26:07,600

um

2380

01:26:11,990 --> 01:26:09,360

that doesn't mean that he's he doesn't

2381

01:26:14,390 --> 01:26:12,000

seem like he's very nice

2382

01:26:16,310 --> 01:26:14,400

no he doesn't i hear he sweats a lot too

2383

01:26:19,189 --> 01:26:16,320

from what i hear

2384

01:26:21,110 --> 01:26:19,199

more emails barry told me that

2385

01:26:22,870 --> 01:26:21,120

anyway

2386

01:26:24,550 --> 01:26:22,880

no i didn't mean it that way

2387

01:26:26,629 --> 01:26:24,560

sorry

2388

01:26:29,030 --> 01:26:26,639

that's a lot that's

2389

01:26:30,310 --> 01:26:29,040

just to not go there yeah let's just not

2390

01:26:32,390 --> 01:26:30,320

go there

2391

01:26:33,990 --> 01:26:32,400

because i just don't want them going hey

2392

01:26:35,510 --> 01:26:34,000

this is what he said i see now i'm like

2393

01:26:38,070 --> 01:26:35,520

looking for that other head but i think

2394

01:26:40,550 --> 01:26:38,080

i've seen that yeah the record i did not

2395

01:26:43,990 --> 01:26:40,560

say that maureen slept with shaq okay

2396

01:26:46,229 --> 01:26:44,000

i'm not saying that just for the record

2397

01:26:47,990 --> 01:26:46,239

and her last name is no

2398

01:26:49,669 --> 01:26:48,000

what's her email what's her email

2399

01:26:52,070 --> 01:26:49,679

address some people know who she is

2400

01:26:53,910 --> 01:26:52,080

she's on uh she was on uncovering aliens

2401

01:26:56,149 --> 01:26:53,920

with me she was my my co-star on

2402

01:26:57,669 --> 01:26:56,159

covering aliens so

2403

01:26:59,910 --> 01:26:57,679

i know but you didn't invite me on the

2404

01:27:01,590 --> 01:26:59,920

show so well i you know

2405

01:27:03,510 --> 01:27:01,600

we didn't get enough episodes we wanted

2406

01:27:05,350 --> 01:27:03,520

more but they

2407

01:27:06,790 --> 01:27:05,360

they were just not a very

2408

01:27:07,990 --> 01:27:06,800

i don't know that was a network they

2409

01:27:09,990 --> 01:27:08,000

just kind of

2410

01:27:11,430 --> 01:27:10,000

i don't know they didn't uh but the guys

2411

01:27:13,270 --> 01:27:11,440

who were supporting the show left the

2412

01:27:15,189 --> 01:27:13,280

network and you know it's just one of

2413

01:27:16,470 --> 01:27:15,199

those stories one of those one of those

2414

01:27:17,830 --> 01:27:16,480

hollywood stories where you end up

2415

01:27:19,669 --> 01:27:17,840

disappointed something could have been

2416

01:27:21,270 --> 01:27:19,679

great kind of like star trek you know it

2417

01:27:23,189 --> 01:27:21,280

got stopped before its time it should

2418

01:27:25,510 --> 01:27:23,199

have kept going for several more years

2419

01:27:27,350 --> 01:27:25,520

and and it did but just think it's been

2420

01:27:30,629 --> 01:27:27,360

in reruns for

2421

01:27:32,390 --> 01:27:30,639

40 years well so we i mean we just had

2422

01:27:34,790 --> 01:27:32,400

just on valentine's day they spent they

2423

01:27:36,870 --> 01:27:34,800

had eight hours of uncovering aliens

2424

01:27:38,390 --> 01:27:36,880

they repeated the the four episodes over

2425

01:27:39,189 --> 01:27:38,400

and over and over again there's actually

2426

01:27:41,110 --> 01:27:39,199

enough

2427

01:27:42,790 --> 01:27:41,120

there to cut like

2428

01:27:44,310 --> 01:27:42,800

six episodes they only ever cut four but

2429

01:27:46,390 --> 01:27:44,320

they repeated them in a big marathon on

2430

01:27:47,590 --> 01:27:46,400

valentine's day and i'm like i don't

2431

01:27:48,870 --> 01:27:47,600

know if i should be flattered or not

2432

01:27:50,390 --> 01:27:48,880

they did put us in prime time and maybe

2433

01:27:52,870 --> 01:27:50,400

they put some prime time you know in a

2434

01:27:54,790 --> 01:27:52,880

week where they fit a weekend um on you

2435

01:27:57,189 --> 01:27:54,800

know on where they offer nobody i

2436

01:27:58,229 --> 01:27:57,199

figured nobody would be watching but

2437

01:27:59,510 --> 01:27:58,239

you know i don't know i don't know what

2438

01:28:01,350 --> 01:27:59,520

the ratings were for that particular

2439

01:28:03,430 --> 01:28:01,360

showing but it was uh it's kind of

2440

01:28:05,990 --> 01:28:03,440

flattering they're still showing it

2441

01:28:07,590 --> 01:28:06,000

but that is good i don't think it's hit

2442

01:28:10,149 --> 01:28:07,600

netflix

2443

01:28:12,070 --> 01:28:10,159

so no but we should we should hope that

2444

01:28:12,830 --> 01:28:12,080

it does because it would be cool if it

2445

01:28:15,750 --> 01:28:12,840

was on

2446

01:28:16,950 --> 01:28:15,760

netflix then i'll actually watch it

2447

01:28:18,390 --> 01:28:16,960

um

2448

01:28:19,990 --> 01:28:18,400

you know you keep talking about these

2449

01:28:24,870 --> 01:28:20,000

pictures that are in your book and the

2450

01:28:28,310 --> 01:28:24,880

pictures that are on your web page

2451

01:28:32,709 --> 01:28:30,149

go to the photos and

2452

01:28:35,110 --> 01:28:32,719

click how recent are they

2453

01:28:37,510 --> 01:28:35,120

like one more recent one how recent are

2454

01:28:39,990 --> 01:28:37,520

they well some of them were just taken

2455

01:28:42,070 --> 01:28:40,000

you know a few months ago by by when the

2456

01:28:43,430 --> 01:28:42,080

book was was being put together so some

2457

01:28:45,669 --> 01:28:43,440

of them are very new i mean there's

2458

01:28:48,229 --> 01:28:45,679

pictures of of artifacts of things on

2459

01:28:51,270 --> 01:28:48,239

the surface that were taken by the

2460

01:28:53,110 --> 01:28:51,280

curiosity rover back in uh back just you

2461

01:28:54,709 --> 01:28:53,120

know after it arrived a couple years ago

2462

01:28:57,110 --> 01:28:54,719

so we're talking about stuff that's been

2463

01:28:58,709 --> 01:28:57,120

up only fairly recently that when it

2464

01:29:00,629 --> 01:28:58,719

landed there was this big

2465

01:29:02,310 --> 01:29:00,639

pyramidal object in the distance that

2466

01:29:04,629 --> 01:29:02,320

when you uh

2467

01:29:08,070 --> 01:29:04,639

when you enhance it it looks exactly

2468

01:29:09,430 --> 01:29:08,080

like the bent pyramid in sakura egypt

2469

01:29:11,189 --> 01:29:09,440

and

2470

01:29:13,030 --> 01:29:11,199

for some reason they just never got

2471

01:29:15,189 --> 01:29:13,040

another clear picture of that the entire

2472

01:29:16,870 --> 01:29:15,199

time they've been roving around gale

2473

01:29:18,229 --> 01:29:16,880

crater on mars they've never gotten

2474

01:29:21,030 --> 01:29:18,239

another really good picture of that

2475

01:29:23,110 --> 01:29:21,040

sucker i don't i don't know why

2476

01:29:24,709 --> 01:29:23,120

well and i'm asking because some of the

2477

01:29:27,110 --> 01:29:24,719

pictures that are in the book because i

2478

01:29:30,229 --> 01:29:27,120

haven't been to your web page in a while

2479

01:29:32,709 --> 01:29:30,239

are remarkably clear or they appear

2480

01:29:35,510 --> 01:29:32,719

remarkably clear yeah compared to some

2481

01:29:37,350 --> 01:29:35,520

of the other ones that are like huh

2482

01:29:38,870 --> 01:29:37,360

well that's a lot of cleaning up on my

2483

01:29:40,149 --> 01:29:38,880

part also you have to remember that when

2484

01:29:42,149 --> 01:29:40,159

you're looking at the images in the book

2485

01:29:43,910 --> 01:29:42,159

you're losing resolution

2486

01:29:45,669 --> 01:29:43,920

by a significant factor because it's

2487

01:29:47,430 --> 01:29:45,679

it's really hard to translate what you

2488

01:29:48,550 --> 01:29:47,440

see on a computer screen

2489

01:29:50,229 --> 01:29:48,560

to

2490

01:29:52,229 --> 01:29:50,239

the print medium print medium is just

2491

01:29:54,550 --> 01:29:52,239

not the best for for that and what

2492

01:29:57,430 --> 01:29:54,560

happened was is that from the moon book

2493

01:29:58,229 --> 01:29:57,440

to the mars books i got a lot better at

2494

01:29:59,910 --> 01:29:58,239

at

2495

01:30:01,669 --> 01:29:59,920

um you know

2496

01:30:03,350 --> 01:30:01,679

you working with the images to get them

2497

01:30:18,950 --> 01:30:03,360

to show up good in print to show up

2498

01:30:22,310 --> 01:30:20,950

images on the projectors never look as

2499

01:30:23,750 --> 01:30:22,320

good as i can see them on my computer

2500

01:30:25,030 --> 01:30:23,760

screen that's really really frustrating

2501

01:30:27,350 --> 01:30:25,040

but that's

2502

01:30:28,870 --> 01:30:27,360

that's just um you know the way it goes

2503

01:30:31,510 --> 01:30:28,880

i'm looking at a picture right now of a

2504

01:30:33,830 --> 01:30:31,520

cowbell on mars so that's that's

2505

01:30:36,149 --> 01:30:33,840

interesting

2506

01:30:38,629 --> 01:30:36,159

turbochargers all kinds of stuff captain

2507

01:30:41,270 --> 01:30:38,639

kirk's phaser that he dropped

2508

01:30:43,510 --> 01:30:41,280

or what we think are those things well

2509

01:30:44,709 --> 01:30:43,520

we don't know exactly there's something

2510

01:30:45,990 --> 01:30:44,719

similar to that there's there's one

2511

01:30:47,110 --> 01:30:46,000

image though that somebody found it's

2512

01:30:51,590 --> 01:30:47,120

it's a

2513

01:30:54,950 --> 01:30:51,600

uh and it's just so obviously mechanical

2514

01:30:56,790 --> 01:30:54,960

i just you know i i can't even

2515

01:31:00,070 --> 01:30:56,800

i i i can't say enough about how

2516

01:31:03,910 --> 01:31:01,590

as you know my engineering background

2517

01:31:07,110 --> 01:31:03,920

i'm just like yeah that's

2518

01:31:10,550 --> 01:31:08,390

for something

2519

01:31:12,629 --> 01:31:10,560

um

2520

01:31:14,550 --> 01:31:12,639

why do you i mean do you think that they

2521

01:31:16,550 --> 01:31:14,560

were just as bad as us and they just

2522

01:31:19,189 --> 01:31:16,560

littered everywhere or do you think

2523

01:31:21,350 --> 01:31:19,199

something happened that dispersed all

2524

01:31:23,270 --> 01:31:21,360

this material yeah some bad stuff

2525

01:31:24,629 --> 01:31:23,280

happened and again you know to go back

2526

01:31:26,709 --> 01:31:24,639

to um

2527

01:31:28,310 --> 01:31:26,719

uh some of the interpretations of some

2528

01:31:30,470 --> 01:31:28,320

of the tablets that system did that

2529

01:31:32,709 --> 01:31:30,480

there that what he says happened

2530

01:31:34,870 --> 01:31:32,719

essentially was around 12

2531

01:31:36,470 --> 01:31:34,880

800 years ago

2532

01:31:38,790 --> 01:31:36,480

that nibiru

2533

01:31:41,110 --> 01:31:38,800

made an unusually close approach to the

2534

01:31:43,590 --> 01:31:41,120

inner solar system and got you know

2535

01:31:46,790 --> 01:31:43,600

close enough to the asteroid belt

2536

01:31:48,790 --> 01:31:46,800

that it it kind of pelted the earth with

2537

01:31:51,350 --> 01:31:48,800

and and mars with meteors and i think

2538

01:31:53,110 --> 01:31:51,360

mars took a couple of really big hits

2539

01:31:55,030 --> 01:31:53,120

and uh you know some of them may have

2540

01:31:57,110 --> 01:31:55,040

been fairly direct hits

2541

01:31:58,390 --> 01:31:57,120

on some of their structures and and

2542

01:32:04,470 --> 01:31:58,400

really

2543

01:32:05,590 --> 01:32:04,480

damaged a lot of this equipment so it's

2544

01:32:07,270 --> 01:32:05,600

not that they're

2545

01:32:08,470 --> 01:32:07,280

necessarily litter bugs it's just that

2546

01:32:09,990 --> 01:32:08,480

they uh

2547

01:32:11,669 --> 01:32:10,000

they've kind of got you know they got

2548

01:32:12,470 --> 01:32:11,679

hit pretty hard by something that that

2549

01:32:15,750 --> 01:32:12,480

really

2550

01:32:18,709 --> 01:32:15,760

messed up i messed up the earth and also

2551
01:32:19,590 --> 01:32:18,719
messed up mars during that period

2552
01:32:23,910 --> 01:32:19,600
okay

2553
01:32:26,550 --> 01:32:23,920
attention here and talk about

2554
01:32:29,270 --> 01:32:26,560
phobos is that how you say it

2555
01:32:30,790 --> 01:32:29,280
you do pronounce it phobos yes

2556
01:32:33,990 --> 01:32:30,800
which is a

2557
01:32:36,229 --> 01:32:34,000
satellite or a moon of mars correct

2558
01:32:37,669 --> 01:32:36,239
it's called the moon of mars it's really

2559
01:32:39,990 --> 01:32:37,679
if you look at it it appears to just be

2560
01:32:41,510 --> 01:32:40,000
an asteroid that's in orbit

2561
01:32:42,629 --> 01:32:41,520
right around the equator which is really

2562
01:32:43,910 --> 01:32:42,639
interesting

2563
01:32:46,950 --> 01:32:43,920

so yeah

2564

01:32:49,270 --> 01:32:46,960

okay so what makes it so special so

2565

01:32:51,590 --> 01:32:49,280

mysterious what makes it interesting and

2566

01:32:56,550 --> 01:32:51,600

mysterious is that um

2567

01:33:00,629 --> 01:32:58,229

what makes it interesting and mysterious

2568

01:33:03,750 --> 01:33:00,639

is that you know when the russians first

2569

01:33:06,070 --> 01:33:03,760

got close to it in 1989 and

2570

01:33:08,310 --> 01:33:06,080

took images and then took took spectral

2571

01:33:10,550 --> 01:33:08,320

measurements of it what they found was

2572

01:33:12,950 --> 01:33:10,560

that it was too light

2573

01:33:15,350 --> 01:33:12,960

given its composition and what they

2574

01:33:17,430 --> 01:33:15,360

discovered or what they suspected was

2575

01:33:21,030 --> 01:33:17,440

that there were these very large hollow

2576
01:33:22,550 --> 01:33:21,040
voids inside of phobos and when we went

2577
01:33:23,510 --> 01:33:22,560
back and revisited it and took more

2578
01:33:25,350 --> 01:33:23,520
pictures of it and took more

2579
01:33:26,870 --> 01:33:25,360
measurements we discovered that yeah

2580
01:33:27,830 --> 01:33:26,880
there's there's like

2581
01:33:30,550 --> 01:33:27,840
you know

2582
01:33:32,390 --> 01:33:30,560
rooms inside of this thing 200 by 200

2583
01:33:34,149 --> 01:33:32,400
feet which is

2584
01:33:36,790 --> 01:33:34,159
basically the size of a ballroom at a

2585
01:33:38,629 --> 01:33:36,800
hotel i mean it's a pretty good sized

2586
01:33:40,229 --> 01:33:38,639
uh room in terms of square footage there

2587
01:33:41,430 --> 01:33:40,239
was a whole bunch of these cavernous

2588
01:33:43,669 --> 01:33:41,440

areas inside of it and then when you

2589

01:33:46,390 --> 01:33:43,679

look at the outside of it you have this

2590

01:33:48,790 --> 01:33:46,400

mesh pattern this cross hatching on it

2591

01:33:50,950 --> 01:33:48,800

which a lot of it is below the dust and

2592

01:33:53,590 --> 01:33:50,960

debris at the surface and so it looks

2593

01:33:55,350 --> 01:33:53,600

like something that may have been

2594

01:33:59,270 --> 01:33:55,360

at one time

2595

01:34:02,550 --> 01:33:59,280

uh an artificial construct that has now

2596

01:34:04,550 --> 01:34:02,560

either had interiors that has now been

2597

01:34:06,070 --> 01:34:04,560

emptied out or abandoned and is floating

2598

01:34:07,510 --> 01:34:06,080

around in orbit

2599

01:34:10,870 --> 01:34:07,520

around

2600

01:34:12,149 --> 01:34:10,880

lot of things about it that make it kind

2601

01:34:14,390 --> 01:34:12,159

of unusual

2602

01:34:16,310 --> 01:34:14,400

and uh if you if you believe in the

2603

01:34:19,270 --> 01:34:16,320

accretion model of the solar system

2604

01:34:21,110 --> 01:34:19,280

which is that you know objects

2605

01:34:23,110 --> 01:34:21,120

big clumps of rocks

2606

01:34:24,709 --> 01:34:23,120

smacked together instead of destroying

2607

01:34:26,870 --> 01:34:24,719

each other they magically glued

2608

01:34:28,870 --> 01:34:26,880

themselves together there shouldn't be

2609

01:34:31,110 --> 01:34:28,880

any of these voids so

2610

01:34:32,709 --> 01:34:31,120

you know the the logical solution to

2611

01:34:34,790 --> 01:34:32,719

logical conclusion

2612

01:34:37,590 --> 01:34:34,800

is that what you're really looking at is

2613

01:34:39,270 --> 01:34:37,600

something that has been hollowed out to

2614

01:34:40,950 --> 01:34:39,280

some extent and then you look at the

2615

01:34:42,629 --> 01:34:40,960

outside with the mesh pattern and the

2616

01:34:44,149 --> 01:34:42,639

cross action and you're like

2617

01:34:46,310 --> 01:34:44,159

that really doesn't look very natural

2618

01:34:48,310 --> 01:34:46,320

either so there's a lot of argument and

2619

01:34:52,310 --> 01:34:48,320

some support for the argument

2620

01:34:56,310 --> 01:34:54,070

okay so i'm going to kind of throw a

2621

01:34:57,350 --> 01:34:56,320

left ball question at you but i have a

2622

01:34:59,270 --> 01:34:57,360

very

2623

01:35:01,430 --> 01:34:59,280

i know what answer i want to hear so i

2624

01:35:02,870 --> 01:35:01,440

just am going to ask the question do you

2625

01:35:05,189 --> 01:35:02,880

happen to know

2626

01:35:07,990 --> 01:35:05,199

if they have identified how many of

2627

01:35:09,669 --> 01:35:08,000

these chambers are internal

2628

01:35:11,750 --> 01:35:09,679

to that structure i do not know the

2629

01:35:12,950 --> 01:35:11,760

exact number now i don't know that

2630

01:35:14,390 --> 01:35:12,960

right

2631

01:35:16,070 --> 01:35:14,400

sorry doesn't give you the answer you

2632

01:35:16,950 --> 01:35:16,080

wanted i'm sure that

2633

01:35:19,270 --> 01:35:16,960

no

2634

01:35:21,430 --> 01:35:19,280

why okay but but if you ever find out

2635

01:35:23,669 --> 01:35:21,440

and you hear that there are eight

2636

01:35:26,149 --> 01:35:23,679

caverns in there okay

2637

01:35:28,629 --> 01:35:26,159

you have to remember and call me or

2638

01:35:31,030 --> 01:35:28,639

email me or something because i have a

2639

01:35:33,189 --> 01:35:31,040

very specific reason for that number but

2640

01:35:33,990 --> 01:35:33,199

i'm just i'll just save that

2641

01:35:36,709 --> 01:35:34,000

but

2642

01:35:38,390 --> 01:35:36,719

eight the magic number

2643

01:35:40,070 --> 01:35:38,400

anyway um

2644

01:35:42,149 --> 01:35:40,080

okay so you're suggesting that they

2645

01:35:43,910 --> 01:35:42,159

think it's artificial do you think that

2646

01:35:46,070 --> 01:35:43,920

it could have been a

2647

01:35:48,709 --> 01:35:46,080

this structure could have been at one

2648

01:35:50,229 --> 01:35:48,719

time perhaps a craft

2649

01:35:52,149 --> 01:35:50,239

um yeah it could have been something

2650

01:35:54,629 --> 01:35:52,159

that was used to transport

2651

01:35:55,990 --> 01:35:54,639

people or material to the planet mars

2652

01:35:57,590 --> 01:35:56,000

for some reason it could have been like

2653

01:35:59,430 --> 01:35:57,600

an orbital station i mean there are

2654

01:36:01,189 --> 01:35:59,440

references in various

2655

01:36:02,790 --> 01:36:01,199

sumerian tablets there being space

2656

01:36:05,669 --> 01:36:02,800

stations orbital stations that kind of

2657

01:36:06,870 --> 01:36:05,679

thing around both um the earth the moon

2658

01:36:08,790 --> 01:36:06,880

and mars

2659

01:36:10,550 --> 01:36:08,800

and it could very well be that but you

2660

01:36:12,070 --> 01:36:10,560

know the question is again we won't know

2661

01:36:14,070 --> 01:36:12,080

until we actually

2662

01:36:15,350 --> 01:36:14,080

land there and go look now one of the

2663

01:36:17,110 --> 01:36:15,360

things about phobos that's really

2664

01:36:20,709 --> 01:36:17,120

fascinating is the presence of this

2665

01:36:22,070 --> 01:36:20,719

thing called the monolith on phobos and

2666

01:36:24,550 --> 01:36:22,080

one of the guys who's made a really big

2667

01:36:27,830 --> 01:36:24,560

deal out of that is buzz aldrin the

2668

01:36:29,590 --> 01:36:27,840

astronaut the apollo 11 astronaut and

2669

01:36:30,950 --> 01:36:29,600

back in 2009 he was doing an interview

2670

01:36:33,189 --> 01:36:30,960

on c-span and he said you know there's a

2671

01:36:35,669 --> 01:36:33,199

monolith on phobos it looks just like

2672

01:36:36,950 --> 01:36:35,679

the monologue from 2001 and you know lo

2673

01:36:38,790 --> 01:36:36,960

and behold

2674

01:36:40,310 --> 01:36:38,800

they turned mars reconnaissance orbiter

2675

01:36:42,790 --> 01:36:40,320

around when it got close enough to

2676

01:36:44,629 --> 01:36:42,800

phobos and it took a picture of this

2677

01:36:47,510 --> 01:36:44,639

object that was casting this long shadow

2678

01:36:49,109 --> 01:36:47,520

on the surface surface of phobos

2679

01:36:51,830 --> 01:36:49,119

and it looked

2680

01:36:53,430 --> 01:36:51,840

exactly like the monolith from 2001

2681

01:36:55,109 --> 01:36:53,440

except that it's white instead of black

2682

01:36:57,350 --> 01:36:55,119

it's a bright color but it's sticking up

2683

01:36:59,109 --> 01:36:57,360

out of the surface just like just like i

2684

01:37:00,390 --> 01:36:59,119

mean you really

2685

01:37:02,070 --> 01:37:00,400

you look at the picture and you expect

2686

01:37:03,510 --> 01:37:02,080

to see a bunch of apes around it like

2687

01:37:04,629 --> 01:37:03,520

you know rubbing their fingers along the

2688

01:37:05,669 --> 01:37:04,639

edges of it or something because it's

2689

01:37:07,669 --> 01:37:05,679

really incredible it has the same

2690

01:37:10,149 --> 01:37:07,679

proportions it appears to be about the

2691

01:37:11,109 --> 01:37:10,159

same height and there's even a canadian

2692

01:37:13,750 --> 01:37:11,119

mission

2693

01:37:16,870 --> 01:37:13,760

that uh supposedly is going to be sent

2694

01:37:18,950 --> 01:37:16,880

to the uh to phobos to land on it and

2695

01:37:20,790 --> 01:37:18,960

send a rover out to the monolith and

2696

01:37:22,310 --> 01:37:20,800

take a look at it and

2697

01:37:24,629 --> 01:37:22,320

unfortunately they haven't gotten any

2698

01:37:27,189 --> 01:37:24,639

final funding for that so it doesn't

2699

01:37:29,189 --> 01:37:27,199

appear that it's actually really been um

2700

01:37:30,870 --> 01:37:29,199

funded or that it's uh you know it's

2701

01:37:32,870 --> 01:37:30,880

it's gonna happen and until they get

2702

01:37:34,070 --> 01:37:32,880

money it's not gonna happen but you know

2703

01:37:35,830 --> 01:37:34,080

it could be the americans kind of said

2704

01:37:38,629 --> 01:37:35,840

you know you really don't want to do

2705

01:37:40,709 --> 01:37:38,639

that we really don't want you landing

2706

01:37:43,350 --> 01:37:40,719

landing on on phobos it's really not a

2707

01:37:47,669 --> 01:37:45,189

well you know but if they go then the

2708

01:37:49,430 --> 01:37:47,679

monolith will take off because that's

2709

01:37:52,149 --> 01:37:49,440

what it did in the movie i mean i just

2710

01:37:54,390 --> 01:37:52,159

think that it's amazing that there is a

2711

01:37:55,910 --> 01:37:54,400

structure like that um

2712

01:37:59,270 --> 01:37:55,920

but often

2713

01:38:00,390 --> 01:37:59,280

uh when we have these writers of science

2714

01:38:03,430 --> 01:38:00,400

fiction

2715

01:38:05,270 --> 01:38:03,440

many times their

2716

01:38:08,470 --> 01:38:05,280

constructs the constructs of their

2717

01:38:09,270 --> 01:38:08,480

imagination end up becoming true

2718

01:38:11,109 --> 01:38:09,280

well

2719

01:38:13,669 --> 01:38:11,119

yeah which i find interesting and and

2720

01:38:15,669 --> 01:38:13,679

then you you have to ask yourself

2721

01:38:17,189 --> 01:38:15,679

you know did they know something were

2722

01:38:18,790 --> 01:38:17,199

they told something did they put

2723

01:38:21,109 --> 01:38:18,800

something in their science fiction story

2724

01:38:22,470 --> 01:38:21,119

that in fact you know somebody already

2725

01:38:24,070 --> 01:38:22,480

knew that's the next question which is

2726

01:38:25,430 --> 01:38:24,080

which brings me to

2727

01:38:26,870 --> 01:38:25,440

that's why i'm interested in secret

2728

01:38:32,229 --> 01:38:26,880

societies and their involvement with

2729

01:38:37,910 --> 01:38:34,550

what kind so you were saying that the

2730

01:38:39,990 --> 01:38:37,920

russians were taking pictures of phobos

2731

01:38:42,149 --> 01:38:40,000

they did way back in 1989 and there's a

2732

01:38:43,990 --> 01:38:42,159

really famous case

2733

01:38:45,750 --> 01:38:44,000

where this probe phobos 2 took pictures

2734

01:38:47,270 --> 01:38:45,760

of phobos and then it

2735

01:38:50,229 --> 01:38:47,280

it ceased operating and right before it

2736

01:38:51,669 --> 01:38:50,239

ceased operating there was this long bar

2737

01:38:54,390 --> 01:38:51,679

shaped object that appeared to be

2738

01:38:56,070 --> 01:38:54,400

approaching the phobos 2 probe now

2739

01:38:58,470 --> 01:38:56,080

confused by

2740

01:39:00,550 --> 01:38:58,480

phobos and the russian probe phobos 2.

2741

01:39:01,590 --> 01:39:00,560

it was called phobos 2. and for years

2742

01:39:03,669 --> 01:39:01,600

and years and years there's been a big

2743

01:39:05,990 --> 01:39:03,679

controversy that this was um this was

2744

01:39:07,669 --> 01:39:06,000

some sort of ufo that attacked the

2745

01:39:09,669 --> 01:39:07,679

phobos 2 pro because it was getting too

2746

01:39:11,669 --> 01:39:09,679

close to phobos but

2747

01:39:13,669 --> 01:39:11,679

um what i argue in the book and what i

2748

01:39:16,070 --> 01:39:13,679

found is that i've actually got

2749

01:39:19,430 --> 01:39:16,080

copies of all the images that phobos 2

2750

01:39:21,510 --> 01:39:19,440

took of the moon phobos and this is it's

2751

01:39:23,990 --> 01:39:21,520

a camera the so-called ufo is actually

2752

01:39:25,750 --> 01:39:24,000

just a camera anomaly that appears in a

2753

01:39:27,669 --> 01:39:25,760

bunch of different images

2754

01:39:29,910 --> 01:39:27,679

in the same place the same time there's

2755

01:39:31,510 --> 01:39:29,920

no details just like a white bar

2756

01:39:32,870 --> 01:39:31,520

and it's really just a transmission

2757

01:39:34,870 --> 01:39:32,880

error in the

2758

01:39:35,990 --> 01:39:34,880

in the data it's not really a ufo so

2759

01:39:38,229 --> 01:39:36,000

that was one of the things that i was

2760

01:39:39,430 --> 01:39:38,239

able to put to put to rest in terms of

2761

01:39:42,149 --> 01:39:39,440

you know rumors that have been floating

2762

01:39:43,910 --> 01:39:42,159

around the ufo community for years

2763

01:39:47,270 --> 01:39:43,920

but why would um

2764

01:39:50,950 --> 01:39:47,280

russian scientists take pictures of this

2765

01:39:53,109 --> 01:39:50,960

nondescript weird asteroid that was

2766

01:39:54,709 --> 01:39:53,119

surrounding mars well i mean scientific

2767

01:39:56,070 --> 01:39:54,719

curiosity you know it's always been part

2768

01:39:57,030 --> 01:39:56,080

of it it's like that's why we send

2769

01:39:58,550 --> 01:39:57,040

probes

2770

01:40:00,629 --> 01:39:58,560

anywhere is we're always trying to you

2771

01:40:02,550 --> 01:40:00,639

know discover things for the first time

2772

01:40:04,550 --> 01:40:02,560

and be the first to

2773

01:40:05,910 --> 01:40:04,560

to um to come out with it and i think

2774

01:40:08,550 --> 01:40:05,920

the russians were just as interested in

2775

01:40:10,310 --> 01:40:08,560

that kind of stuff as as we were so you

2776

01:40:12,470 --> 01:40:10,320

know i mean why would they do that

2777

01:40:14,229 --> 01:40:12,480

because it's a it's a place to go and

2778

01:40:15,350 --> 01:40:14,239

take a look why do we go to titan why do

2779

01:40:16,950 --> 01:40:15,360

we go

2780

01:40:18,470 --> 01:40:16,960

to any of these places and take pictures

2781

01:40:20,229 --> 01:40:18,480

or make observations it's because we

2782

01:40:22,229 --> 01:40:20,239

want to learn and you know i don't have

2783

01:40:23,510 --> 01:40:22,239

a real problem with that there's nothing

2784

01:40:25,910 --> 01:40:23,520

suspicious about to me about the

2785

01:40:28,229 --> 01:40:25,920

russians wanting to go investigate

2786

01:40:29,350 --> 01:40:28,239

um phobos at all

2787

01:40:32,629 --> 01:40:29,360

okay

2788

01:40:36,070 --> 01:40:32,639

but they are planning to send another

2789

01:40:37,990 --> 01:40:36,080

exploration there or are they

2790

01:40:40,629 --> 01:40:38,000

right now there's a proposal that i've

2791

01:40:43,350 --> 01:40:40,639

heard of a proposal from the canadians

2792

01:40:45,030 --> 01:40:43,360

to send build and send a probe to phobos

2793

01:40:46,550 --> 01:40:45,040

and land on it near the monolith and go

2794

01:40:47,350 --> 01:40:46,560

right up to it and find out what it is

2795

01:40:50,709 --> 01:40:47,360

and

2796

01:40:52,149 --> 01:40:50,719

was the proposal it doesn't seem like

2797

01:40:53,109 --> 01:40:52,159

anybody's been given any money even

2798

01:40:54,790 --> 01:40:53,119

though it wouldn't really be very

2799

01:40:56,790 --> 01:40:54,800

expensive to do that

2800

01:40:58,629 --> 01:40:56,800

so you know the canadians want to make a

2801

01:41:00,629 --> 01:40:58,639

little way in space or make you know

2802

01:41:03,109 --> 01:41:00,639

some some headlines in space i think

2803

01:41:04,709 --> 01:41:03,119

it'd be a great way to uh

2804

01:41:07,350 --> 01:41:04,719

to do it is let's go investigate the

2805

01:41:09,270 --> 01:41:07,360

monolith and find out what it is it's it

2806

01:41:11,030 --> 01:41:09,280

it doesn't look like just a rock it

2807

01:41:13,830 --> 01:41:11,040

looks like something really really

2808

01:41:15,430 --> 01:41:13,840

interesting and uh that's probably why

2809

01:41:17,830 --> 01:41:15,440

the canadians are being discouraged from

2810

01:41:21,270 --> 01:41:17,840

actually doing

2811

01:41:22,390 --> 01:41:21,280

but it would be so cool

2812

01:41:23,750 --> 01:41:22,400

yeah there's lots of things that would

2813

01:41:25,350 --> 01:41:23,760

be cool but that doesn't mean they're

2814

01:41:28,709 --> 01:41:25,360

going to get done right

2815

01:41:29,590 --> 01:41:28,719

i find it very interesting with all of

2816

01:41:32,229 --> 01:41:29,600

this

2817

01:41:36,870 --> 01:41:32,239

quote unquote scientific interests

2818

01:41:38,870 --> 01:41:36,880

in mars that in mainstream news and

2819

01:41:40,950 --> 01:41:38,880

mainstream television

2820

01:41:42,709 --> 01:41:40,960

you rarely see

2821

01:41:45,510 --> 01:41:42,719

anything

2822

01:41:47,350 --> 01:41:45,520

about what's coming from mars

2823

01:41:49,109 --> 01:41:47,360

yeah it's not like on the on the nightly

2824

01:41:51,590 --> 01:41:49,119

news that there's a regular report of oh

2825

01:41:53,669 --> 01:41:51,600

and today you know the curiosity rover

2826

01:41:55,109 --> 01:41:53,679

photograph this area of the surface of

2827

01:41:56,870 --> 01:41:55,119

mars near gale crater it doesn't do

2828

01:41:58,870 --> 01:41:56,880

anything it's it's weird because it used

2829

01:42:00,149 --> 01:41:58,880

to be when that we had probes around

2830

01:42:01,590 --> 01:42:00,159

planets and stuff you used to see that

2831

01:42:03,430 --> 01:42:01,600

stuff on the nightly news all the time

2832

01:42:04,790 --> 01:42:03,440

and now it's like they send them up and

2833

01:42:06,709 --> 01:42:04,800

only the space geeks who are willing to

2834

01:42:07,990 --> 01:42:06,719

go to the internet are actually allowed

2835

01:42:09,430 --> 01:42:08,000

to see any of this stuff or have any

2836

01:42:10,390 --> 01:42:09,440

interest in seeing any of this stuff

2837

01:42:11,990 --> 01:42:10,400

because

2838

01:42:14,629 --> 01:42:12,000

they just don't talk about it on the on

2839

01:42:16,550 --> 01:42:14,639

the mainstream news anymore i you know i

2840

01:42:18,870 --> 01:42:16,560

don't know the answer to that i just

2841

01:42:21,109 --> 01:42:18,880

it's like they're almost discouraging

2842

01:42:22,550 --> 01:42:21,119

interest in space and space travel it

2843

01:42:24,709 --> 01:42:22,560

seems like

2844

01:42:26,950 --> 01:42:24,719

i know that when they had one pro i

2845

01:42:30,310 --> 01:42:26,960

think it was curiosity was that one of

2846

01:42:32,790 --> 01:42:30,320

the probes that went to mars yeah

2847

01:42:36,229 --> 01:42:32,800

they did some kind of you know

2848

01:42:37,990 --> 01:42:36,239

pbh whatever special

2849

01:42:40,149 --> 01:42:38,000

talking about

2850

01:42:42,229 --> 01:42:40,159

its adventures and whatever and it was a

2851
01:42:45,270 --> 01:42:42,239
little juvenile but it was still really

2852
01:42:48,229 --> 01:42:45,280
interesting but it was on some off off

2853
01:42:49,270 --> 01:42:48,239
you know like the travel channel or some

2854
01:42:51,270 --> 01:42:49,280
weird

2855
01:42:52,709 --> 01:42:51,280
network that

2856
01:42:54,629 --> 01:42:52,719
you know why didn't at least get the

2857
01:42:56,390 --> 01:42:54,639
history channel it was i don't know i

2858
01:42:58,149 --> 01:42:56,400
just found it really

2859
01:43:00,310 --> 01:42:58,159
and still find it very interesting that

2860
01:43:03,350 --> 01:43:00,320
we don't hear that we've sent another

2861
01:43:05,270 --> 01:43:03,360
probe it landed i mean even just those

2862
01:43:08,790 --> 01:43:05,280
kind of updates it's just almost like

2863
01:43:10,870 --> 01:43:08,800

this secret uh space

2864

01:43:12,870 --> 01:43:10,880

missions going on that we don't know

2865

01:43:14,790 --> 01:43:12,880

anything about yeah and you know another

2866

01:43:16,310 --> 01:43:14,800

thing about that too that's

2867

01:43:18,790 --> 01:43:16,320

that's um

2868

01:43:20,149 --> 01:43:18,800

really intriguing is that you know um

2869

01:43:21,350 --> 01:43:20,159

there are no shows like that like even

2870

01:43:23,590 --> 01:43:21,360

on the science channel you would think

2871

01:43:25,270 --> 01:43:23,600

they would have a daily or weekly

2872

01:43:26,790 --> 01:43:25,280

science update talking about things like

2873

01:43:28,310 --> 01:43:26,800

that but they but they don't they just

2874

01:43:30,229 --> 01:43:28,320

they they do show a lot of shows about

2875

01:43:32,550 --> 01:43:30,239

aliens they show a lot of shows talking

2876

01:43:34,149 --> 01:43:32,560

about conventional physics and

2877

01:43:36,709 --> 01:43:34,159

filling people's heads with ridiculous

2878

01:43:38,709 --> 01:43:36,719

ideas like uh like dark matter and you

2879

01:43:41,270 --> 01:43:38,719

know we know this but you know i love it

2880

01:43:42,629 --> 01:43:41,280

when neil degrasse tyson and bill nye

2881

01:43:44,629 --> 01:43:42,639

and all these other guys get up there

2882

01:43:45,990 --> 01:43:44,639

and say we know this and we know that

2883

01:43:47,750 --> 01:43:46,000

and it's completely wrong that's one of

2884

01:43:49,189 --> 01:43:47,760

my i mean really the science channel is

2885

01:43:51,669 --> 01:43:49,199

funnier to me than the comedy channel

2886

01:43:53,189 --> 01:43:51,679

comedy central is but but the reality is

2887

01:43:54,870 --> 01:43:53,199

is that yeah there's no real show that

2888

01:43:56,390 --> 01:43:54,880

does that that talks about that stuff

2889

01:43:57,830 --> 01:43:56,400

and um

2890

01:43:59,030 --> 01:43:57,840

you know the only time you ever see

2891

01:44:00,390 --> 01:43:59,040

anything is you see a few internet

2892

01:44:02,070 --> 01:44:00,400

reports when

2893

01:44:03,510 --> 01:44:02,080

when there's a big plume on the surface

2894

01:44:05,750 --> 01:44:03,520

of mars and that's about it other than

2895

01:44:07,830 --> 01:44:05,760

that they just there's there's no daily

2896

01:44:10,149 --> 01:44:07,840

scientific reporting and

2897

01:44:12,310 --> 01:44:10,159

you know i i think that's

2898

01:44:16,950 --> 01:44:12,320

unfortunately a um

2899

01:44:18,310 --> 01:44:16,960

a a circumstance or or a result of our

2900

01:44:19,910 --> 01:44:18,320

current

2901

01:44:21,750 --> 01:44:19,920

culture and civilization but there just

2902

01:44:23,510 --> 01:44:21,760

isn't a lot of

2903

01:44:25,510 --> 01:44:23,520

interest in that kind of thing and and

2904

01:44:29,510 --> 01:44:25,520

you know being smart is not really

2905

01:44:31,990 --> 01:44:31,030

i don't know i know a lot of smart

2906

01:44:34,629 --> 01:44:32,000

people

2907

01:44:36,709 --> 01:44:34,639

well i know but you're not

2908

01:44:39,510 --> 01:44:36,719

you're not you're not as cool as beyonce

2909

01:44:44,310 --> 01:44:42,390

no i'm not as rich as beyonce and jay-z

2910

01:44:45,990 --> 01:44:44,320

but i wouldn't want to be them i'd

2911

01:44:49,590 --> 01:44:46,000

rather be me

2912

01:44:51,030 --> 01:44:49,600

and rich that work but yeah yeah i

2913

01:44:52,709 --> 01:44:51,040

wouldn't want to be beyonce i've always

2914

01:44:54,629 --> 01:44:52,719

wanted to be a man i'm not speaking of

2915

01:44:56,950 --> 01:44:54,639

the wachowski brothers uh yeah i don't i

2916

01:44:58,790 --> 01:44:56,960

don't want to be a woman so

2917

01:45:01,990 --> 01:44:58,800

let's not go there you know talking

2918

01:45:03,430 --> 01:45:02,000

about your dating life now

2919

01:45:05,910 --> 01:45:03,440

i'm available ladies i mean you know

2920

01:45:07,189 --> 01:45:05,920

this is a hot month for me i'm very hot

2921

01:45:10,310 --> 01:45:07,199

right now

2922

01:45:12,790 --> 01:45:10,320

so ladies if you're listening

2923

01:45:14,310 --> 01:45:12,800

go on his website send them an email

2924

01:45:17,750 --> 01:45:14,320

facebook them

2925

01:45:20,229 --> 01:45:17,760

yeah i'll be uh he's got a week and a

2926

01:45:21,910 --> 01:45:20,239

half not quite yeah i'm gonna be in i'm

2927

01:45:30,950 --> 01:45:21,920

gonna be moving to la soon so if you're

2928

01:45:36,709 --> 01:45:33,709

this is going to be changed into

2929

01:45:41,270 --> 01:45:36,719

matchmaker central

2930

01:45:42,550 --> 01:45:41,280

a two-hour show with only one break

2931

01:45:44,390 --> 01:45:42,560

there's plenty of time for that let's

2932

01:45:45,750 --> 01:45:44,400

face it this is more like our if this

2933

01:45:49,910 --> 01:45:45,760

was coast to coast this would be like a

2934

01:45:53,109 --> 01:45:51,430

well maybe i you know maybe i should go

2935

01:45:55,510 --> 01:45:53,119

look in the chat room see if anybody is

2936

01:45:58,870 --> 01:45:55,520

like jumping on the request anybody

2937

01:46:01,350 --> 01:45:58,880

anybody oh carol no

2938

01:46:03,510 --> 01:46:01,360

not carol

2939

01:46:06,149 --> 01:46:03,520

were you married to a carol uh no no i

2940

01:46:08,070 --> 01:46:06,159

was i was married to a judy but uh but

2941

01:46:08,950 --> 01:46:08,080

that's that you know i just was thinking

2942

01:46:10,870 --> 01:46:08,960

oh

2943

01:46:14,149 --> 01:46:10,880

it is carol but it's not carol okay all

2944

01:46:16,870 --> 01:46:14,159

right okay moving on anything else

2945

01:46:20,550 --> 01:46:18,950

what else have you found up there i mean

2946

01:46:24,149 --> 01:46:20,560

we we have

2947

01:46:25,830 --> 01:46:24,159

like 10 minutes left what else have you

2948

01:46:27,990 --> 01:46:25,840

discovered up there that we haven't

2949

01:46:30,550 --> 01:46:28,000

really talked about well i think that

2950

01:46:32,070 --> 01:46:30,560

the fact that there's life there um

2951
01:46:33,910 --> 01:46:32,080
one of the things in ancient aliens on

2952
01:46:35,350 --> 01:46:33,920
mars that i also cover in ancient aliens

2953
01:46:37,030 --> 01:46:35,360
on mars too

2954
01:46:40,390 --> 01:46:37,040
is the fact that you know when viking

2955
01:46:42,629 --> 01:46:40,400
the viking probes landed in 1976

2956
01:46:44,470 --> 01:46:42,639
and did soil samples they had a test

2957
01:46:46,950 --> 01:46:44,480
called the labeled release experiment

2958
01:46:50,629 --> 01:46:46,960
which basically took a martian soil

2959
01:46:53,109 --> 01:46:50,639
put it into a little cooker dropped some

2960
01:46:56,149 --> 01:46:53,119
nutrients in it and waited to see if

2961
01:46:58,950 --> 01:46:56,159
bacteria reacted and consumed the

2962
01:47:01,350 --> 01:46:58,960
nutrients and they did

2963
01:47:03,990 --> 01:47:01,360

and so the the conclusion from that is

2964

01:47:05,830 --> 01:47:04,000

that there's microbial life on mars

2965

01:47:07,510 --> 01:47:05,840

nasa then immediately said no no it was

2966

01:47:09,910 --> 01:47:07,520

just a chemical reaction and that there

2967

01:47:10,950 --> 01:47:09,920

were three other tests for life

2968

01:47:13,750 --> 01:47:10,960

which um

2969

01:47:15,109 --> 01:47:13,760

which they also did um at that time and

2970

01:47:17,669 --> 01:47:15,119

they all came back negative but we

2971

01:47:19,669 --> 01:47:17,679

didn't find out until 2006

2972

01:47:21,910 --> 01:47:19,679

that in all likelihood the other three

2973

01:47:24,070 --> 01:47:21,920

tests were not sensitive enough to have

2974

01:47:25,990 --> 01:47:24,080

detected microbial life the only one

2975

01:47:28,310 --> 01:47:26,000

that was sensitive enough was the

2976

01:47:30,790 --> 01:47:28,320

so-called labeled release experiment

2977

01:47:32,470 --> 01:47:30,800

created by dr gill levin

2978

01:47:34,149 --> 01:47:32,480

who um

2979

01:47:35,910 --> 01:47:34,159

and and the one that was sensitive

2980

01:47:38,229 --> 01:47:35,920

enough came back and said there's all

2981

01:47:40,950 --> 01:47:38,239

kinds of microbial life on mars and and

2982

01:47:43,430 --> 01:47:40,960

then on ancient aliens on mars one and

2983

01:47:44,470 --> 01:47:43,440

you know i showed pictures of

2984

01:47:47,189 --> 01:47:44,480

rocks

2985

01:47:49,189 --> 01:47:47,199

near the pathfinder landing site that

2986

01:47:52,950 --> 01:47:49,199

changed color

2987

01:47:56,310 --> 01:47:52,960

over the seasons as it was colder in

2988

01:47:59,350 --> 01:47:56,320

winter the rocks would get very kind of

2989

01:48:00,950 --> 01:47:59,360

uh brown and normal rock looking and

2990

01:48:03,590 --> 01:48:00,960

then as

2991

01:48:05,510 --> 01:48:03,600

things heated up they would become green

2992

01:48:06,790 --> 01:48:05,520

and then they would go back from green

2993

01:48:08,470 --> 01:48:06,800

to brown to green to brown as the

2994

01:48:10,470 --> 01:48:08,480

seasons changed and

2995

01:48:12,629 --> 01:48:10,480

what that's an indication of is simple

2996

01:48:14,470 --> 01:48:12,639

plant life like lichens like the moss

2997

01:48:17,270 --> 01:48:14,480

you might see on a rock here in the

2998

01:48:19,430 --> 01:48:17,280

united states or you know here on earth

2999

01:48:21,350 --> 01:48:19,440

growing waxing and waning as the

3000

01:48:22,950 --> 01:48:21,360

biosphere heats up and cools down and

3001
01:48:24,470 --> 01:48:22,960
heats up and cools down so you've got

3002
01:48:27,030 --> 01:48:24,480
actual plant life there much more

3003
01:48:28,790 --> 01:48:27,040
sophisticated than simple bacteria

3004
01:48:30,070 --> 01:48:28,800
uh you've got a visual evidence of that

3005
01:48:32,470 --> 01:48:30,080
which i think is really important and

3006
01:48:33,990 --> 01:48:32,480
then robert morningstar

3007
01:48:35,109 --> 01:48:34,000
i put a couple of his pictures that he

3008
01:48:37,270 --> 01:48:35,119
found from

3009
01:48:39,590 --> 01:48:37,280
from curiosity spirit and opportunity

3010
01:48:41,109 --> 01:48:39,600
that show you know rocks that have this

3011
01:48:42,790 --> 01:48:41,119
fuzzy moss

3012
01:48:44,229 --> 01:48:42,800
all over them they're very green when

3013
01:48:45,430 --> 01:48:44,239

you do the the color enhancement when

3014

01:48:47,430 --> 01:48:45,440

you correct the color and do the color

3015

01:48:49,830 --> 01:48:47,440

enhancement so i think what you you've

3016

01:48:53,270 --> 01:48:49,840

got there is a real clear pattern that

3017

01:48:54,950 --> 01:48:53,280

there is actual primitive plant life

3018

01:48:56,790 --> 01:48:54,960

already on the planet mars and that's

3019

01:48:59,350 --> 01:48:56,800

something that's just never talked about

3020

01:49:01,189 --> 01:48:59,360

and has been you know i think

3021

01:49:02,390 --> 01:49:01,199

unfortunately really suppressed over the

3022

01:49:08,470 --> 01:49:02,400

last

3023

01:49:11,350 --> 01:49:08,480

well and if mart had mars had an

3024

01:49:13,990 --> 01:49:11,360

atmosphere and the atmosphere wasn't

3025

01:49:15,910 --> 01:49:14,000

totally annihilated so that there's some

3026

01:49:18,070 --> 01:49:15,920

level of atmosphere

3027

01:49:21,750 --> 01:49:18,080

i find it interesting that there haven't

3028

01:49:25,910 --> 01:49:21,760

been any reports or that we know about

3029

01:49:29,189 --> 01:49:25,920

of some small forms of animal life i

3030

01:49:30,470 --> 01:49:29,199

mean not just bacterial fungus mold

3031

01:49:32,790 --> 01:49:30,480

whatever

3032

01:49:36,149 --> 01:49:32,800

but some small form of life that was

3033

01:49:39,270 --> 01:49:36,159

able to survive the catastrophe

3034

01:49:40,390 --> 01:49:39,280

and reproduce on that planet well you

3035

01:49:41,510 --> 01:49:40,400

know i don't know about that there's

3036

01:49:46,310 --> 01:49:41,520

pictures that

3037

01:49:48,870 --> 01:49:46,320

you know

3038

01:49:51,030 --> 01:49:48,880

what people think are rats and different

3039

01:49:52,629 --> 01:49:51,040

creatures but they all look like to me

3040

01:49:54,709 --> 01:49:52,639

like they're fossilized and frozen so i

3041

01:49:56,070 --> 01:49:54,719

think whatever happened to mars they uh

3042

01:49:57,750 --> 01:49:56,080

they they pretty much are gone i don't

3043

01:49:59,669 --> 01:49:57,760

think there's any really sophisticated

3044

01:50:01,109 --> 01:49:59,679

um life on mars right now if there is

3045

01:50:02,950 --> 01:50:01,119

it's probably all

3046

01:50:05,030 --> 01:50:02,960

living underground and but the thing is

3047

01:50:07,510 --> 01:50:05,040

is that if you have plant life like that

3048

01:50:08,790 --> 01:50:07,520

if it flourishes on mars you know what

3049

01:50:10,550 --> 01:50:08,800

what do they teach us in school the

3050

01:50:13,750 --> 01:50:10,560

plants do plants

3051
01:50:16,629 --> 01:50:13,760
take in carbon dioxide and they give off

3052
01:50:18,229 --> 01:50:16,639
oxygen right and what we need to make

3053
01:50:19,910 --> 01:50:18,239
the atmosphere thicker and have more

3054
01:50:22,229 --> 01:50:19,920
density is

3055
01:50:23,430 --> 01:50:22,239
oxygen so it seems to me that what we

3056
01:50:26,709 --> 01:50:23,440
should be doing considering the

3057
01:50:28,310 --> 01:50:26,719
atmosphere of mars is what 99

3058
01:50:31,270 --> 01:50:28,320
carbon dioxide

3059
01:50:32,870 --> 01:50:31,280
is sending a lot of plant life simple

3060
01:50:34,149 --> 01:50:32,880
lichens just blast it up there in a

3061
01:50:36,790 --> 01:50:34,159
rocket and blast it somewhere on the

3062
01:50:39,030 --> 01:50:36,800
surface of mars and let them just start

3063
01:50:43,109 --> 01:50:39,040

taking in

3064

01:50:44,870 --> 01:50:43,119

off oxygen and if we do enough of it and

3065

01:50:46,229 --> 01:50:44,880

send enough of them there

3066

01:50:48,950 --> 01:50:46,239

you know we could have a pretty nice

3067

01:50:51,189 --> 01:50:48,960

place to live on mars in in a couple of

3068

01:50:53,030 --> 01:50:51,199

hundred years so to me it's a long-term

3069

01:50:55,430 --> 01:50:53,040

project but it's one that we

3070

01:50:57,430 --> 01:50:55,440

we really ought to pursue because we can

3071

01:50:58,950 --> 01:50:57,440

bring mars back to life and if we can

3072

01:51:00,870 --> 01:50:58,960

thicken the atmosphere then it can

3073

01:51:02,470 --> 01:51:00,880

retain more heat if it retains more heat

3074

01:51:04,709 --> 01:51:02,480

then the water will start to flow again

3075

01:51:07,030 --> 01:51:04,719

when the water starts to flow

3076

01:51:08,629 --> 01:51:07,040

more plants will come back to life i

3077

01:51:10,870 --> 01:51:08,639

think a lot of the dormant species and

3078

01:51:12,950 --> 01:51:10,880

dormant um flora and fauna that are

3079

01:51:15,669 --> 01:51:12,960

there will come back to life and and we

3080

01:51:18,070 --> 01:51:15,679

could have a really convenient um

3081

01:51:21,430 --> 01:51:18,080

you know kind of a second home kind of a

3082

01:51:24,070 --> 01:51:21,440

mars could become the beach house

3083

01:51:25,830 --> 01:51:24,080

of the earth the vacation getaway

3084

01:51:27,669 --> 01:51:25,840

for the one percenters

3085

01:51:29,990 --> 01:51:27,679

well

3086

01:51:32,470 --> 01:51:30,000

i actually think that that's what

3087

01:51:34,790 --> 01:51:32,480

happened with our planet that some group

3088

01:51:36,790 --> 01:51:34,800

came here billions of years ago with

3089

01:51:37,669 --> 01:51:36,800

their blue green algae

3090

01:51:40,390 --> 01:51:37,679

and

3091

01:51:43,830 --> 01:51:40,400

terraformed it you know took this carbon

3092

01:51:45,030 --> 01:51:43,840

monoxide carbon dioxide covered planet

3093

01:51:49,109 --> 01:51:45,040

and

3094

01:51:50,550 --> 01:51:49,119

think it's interesting that you're

3095

01:51:52,709 --> 01:51:50,560

suggesting that

3096

01:51:54,229 --> 01:51:52,719

we go and terraform

3097

01:51:55,669 --> 01:51:54,239

mars

3098

01:51:57,990 --> 01:51:55,679

well yeah i think it's just something

3099

01:51:59,270 --> 01:51:58,000

that that we ought to be doing and we

3100

01:52:01,109 --> 01:51:59,280

haven't done

3101
01:52:02,550 --> 01:52:01,119
and uh you know i don't know why we're

3102
01:52:04,629 --> 01:52:02,560
waiting i mean there there some people

3103
01:52:05,910 --> 01:52:04,639
are you know kind of wacko about it and

3104
01:52:07,990 --> 01:52:05,920
saying oh well you know we don't want to

3105
01:52:09,910 --> 01:52:08,000
interfere with the martian piouser it's

3106
01:52:12,470 --> 01:52:09,920
like what what biosphere the planet's

3107
01:52:15,270 --> 01:52:12,480
basically dead so let's you know some

3108
01:52:17,589 --> 01:52:15,280
life is better than no life and um i

3109
01:52:20,470 --> 01:52:17,599
think it's i think it would be good for

3110
01:52:22,550 --> 01:52:20,480
us if uh if we had a second

3111
01:52:24,229 --> 01:52:22,560
home and you could certainly make mars

3112
01:52:25,830 --> 01:52:24,239
into that and i just think it would be a

3113
01:52:27,990 --> 01:52:25,840

grand project that the human race could

3114

01:52:29,510 --> 01:52:28,000

devote itself to that really wouldn't be

3115

01:52:31,350 --> 01:52:29,520

that expensive i mean we could shoot

3116

01:52:34,470 --> 01:52:31,360

rockets off

3117

01:52:35,669 --> 01:52:34,480

on a fairly regular basis to to mars and

3118

01:52:37,189 --> 01:52:35,679

reseed it and we could certainly

3119

01:52:38,790 --> 01:52:37,199

genetically engineer i mean look if we

3120

01:52:40,550 --> 01:52:38,800

can genetically engineer tomato we can

3121

01:52:42,470 --> 01:52:40,560

genetically engineer

3122

01:52:45,510 --> 01:52:42,480

plants that are really super efficient

3123

01:52:47,189 --> 01:52:45,520

at that reproducing and sucking up the

3124

01:52:49,589 --> 01:52:47,199

carbon dioxide and replacing it with

3125

01:52:51,030 --> 01:52:49,599

oxygen and you know we could turn it

3126

01:52:53,669 --> 01:52:51,040

into a really

3127

01:52:56,950 --> 01:52:53,679

temperate temperate nice attractive fun

3128

01:52:58,390 --> 01:52:56,960

place to go um in a relatively short

3129

01:53:00,390 --> 01:52:58,400

amount of time and i think it would be a

3130

01:53:03,830 --> 01:53:00,400

great project for us to to commit

3131

01:53:09,030 --> 01:53:06,950

and then you could say you're a martian

3132

01:53:11,270 --> 01:53:09,040

yeah because people could go there

3133

01:53:16,229 --> 01:53:11,280

and they wouldn't have to die

3134

01:53:20,310 --> 01:53:18,790

okay so i'm going off topic because i

3135

01:53:22,070 --> 01:53:20,320

there were a bunch of questions in the

3136

01:53:23,510 --> 01:53:22,080

chat room that i didn't pay attention to

3137

01:53:26,310 --> 01:53:23,520

so i'm going to pay attention to them

3138

01:53:27,030 --> 01:53:26,320

now well i know it's bad of you to do

3139

01:53:29,990 --> 01:53:27,040

that

3140

01:53:31,750 --> 01:53:30,000

well we should answer the questions

3141

01:53:34,229 --> 01:53:31,760

give the people they might pay attention

3142

01:53:35,830 --> 01:53:34,239

to the chat room and then i don't pay

3143

01:53:38,229 --> 01:53:35,840

attention to you and then

3144

01:53:40,390 --> 01:53:38,239

it's it's a catch 22.

3145

01:53:43,109 --> 01:53:40,400

people what they want rita oh i'm

3146

01:53:46,870 --> 01:53:43,119

working and i'm working it

3147

01:53:49,270 --> 01:53:46,880

but they want you mike um this is from

3148

01:53:52,390 --> 01:53:49,280

cruisey and the question is do the

3149

01:53:56,229 --> 01:53:52,400

pyramids on the moon correlate with any

3150

01:53:58,629 --> 01:53:56,239

of the pyramids on earth or mars

3151
01:54:00,870 --> 01:53:58,639
uh there's one pyramidal object that i'm

3152
01:54:04,310 --> 01:54:00,880
really aware of on the moon that's the

3153
01:54:06,709 --> 01:54:04,320
so-called daedalus ziggurat which is a

3154
01:54:08,550 --> 01:54:06,719
thing i got into a big argument with a

3155
01:54:11,189 --> 01:54:08,560
with a nasa funded guy a couple years

3156
01:54:12,470 --> 01:54:11,199
ago um do they correlate yeah they look

3157
01:54:14,870 --> 01:54:12,480
like the same architecture you know

3158
01:54:17,589 --> 01:54:14,880
that's the thing that's why i think

3159
01:54:20,070 --> 01:54:17,599
whoever was on mars was probably human

3160
01:54:21,589 --> 01:54:20,080
or humanoid or related to us in some way

3161
01:54:26,870 --> 01:54:21,599
like

3162
01:54:28,790 --> 01:54:26,880
something human beings would build i

3163
01:54:30,709 --> 01:54:28,800

mean the scale on mars is vastly

3164

01:54:32,310 --> 01:54:30,719

different there's a there's an enormous

3165

01:54:34,310 --> 01:54:32,320

four-sided pyramid which is a dead

3166

01:54:36,390 --> 01:54:34,320

ringer for some of the pyramids in china

3167

01:54:38,550 --> 01:54:36,400

and i even do an overlay comparison

3168

01:54:40,950 --> 01:54:38,560

the difference is just scale so it looks

3169

01:54:42,470 --> 01:54:40,960

to me like human architecture like

3170

01:54:44,229 --> 01:54:42,480

like they think

3171

01:54:46,950 --> 01:54:44,239

with the same aesthetic in terms of

3172

01:54:48,870 --> 01:54:46,960

design and engineering and things

3173

01:54:50,790 --> 01:54:48,880

that we do and so i think there is a

3174

01:54:52,790 --> 01:54:50,800

connection and the connection is in the

3175

01:54:54,229 --> 01:54:52,800

details of how these things were

3176

01:54:56,709 --> 01:54:54,239

constructed unfortunately we're not

3177

01:54:58,310 --> 01:54:56,719

going to really know all those details

3178

01:55:00,790 --> 01:54:58,320

until we actually go to some of these

3179

01:55:03,350 --> 01:55:00,800

places and land and really take a good

3180

01:55:06,709 --> 01:55:04,390

great

3181

01:55:09,109 --> 01:55:06,719

there has been a lot of talk about

3182

01:55:11,990 --> 01:55:09,119

private industry sending

3183

01:55:14,790 --> 01:55:12,000

you know people into space into orbit

3184

01:55:16,550 --> 01:55:14,800

possibly to the moon possibly to mars

3185

01:55:19,990 --> 01:55:16,560

how do you think that's going and do you

3186

01:55:23,270 --> 01:55:20,000

think that it's going to be more

3187

01:55:25,830 --> 01:55:23,280

activity coming out of the public sector

3188

01:55:28,629 --> 01:55:25,840

breaking through these doors into

3189

01:55:29,750 --> 01:55:28,639

space versus the government

3190

01:55:32,709 --> 01:55:29,760

um

3191

01:55:35,990 --> 01:55:32,719

i think it's going okay and no uh this

3192

01:55:37,830 --> 01:55:36,000

is the answer um

3193

01:55:39,430 --> 01:55:37,840

you know we are developing some

3194

01:55:40,950 --> 01:55:39,440

commercial space interests it's it's not

3195

01:55:42,950 --> 01:55:40,960

going all that well i mean you know the

3196

01:55:44,070 --> 01:55:42,960

richard branson lost a couple pilots or

3197

01:55:46,709 --> 01:55:44,080

at least one

3198

01:55:48,550 --> 01:55:46,719

a few months ago uh spacex has had some

3199

01:55:50,390 --> 01:55:48,560

some stuff blow up in the pad it's not

3200

01:55:51,910 --> 01:55:50,400

that easy you know it is rocket science

3201

01:55:52,870 --> 01:55:51,920

after all it's not that easy to put

3202

01:55:56,470 --> 01:55:52,880

these

3203

01:55:57,750 --> 01:55:56,480

objects into orbit i think it's going to

3204

01:55:58,950 --> 01:55:57,760

be a long time before the commercial

3205

01:56:00,310 --> 01:55:58,960

development is sufficient but i think

3206

01:56:02,229 --> 01:56:00,320

the commercial concerns are what's going

3207

01:56:04,310 --> 01:56:02,239

to drive the future

3208

01:56:07,350 --> 01:56:04,320

we're just making really really poor

3209

01:56:09,270 --> 01:56:07,360

progress at at you know privatizing this

3210

01:56:10,870 --> 01:56:09,280

stuff which is where the progress can

3211

01:56:12,390 --> 01:56:10,880

really be made i mean it

3212

01:56:14,550 --> 01:56:12,400

but that's an even bigger question which

3213

01:56:16,390 --> 01:56:14,560

is really bizarre because if you look at

3214

01:56:18,149 --> 01:56:16,400

the acceleration of transportation

3215

01:56:19,910 --> 01:56:18,159

technology what you see is a curve that

3216

01:56:22,229 --> 01:56:19,920

basically is like a straight upward

3217

01:56:24,070 --> 01:56:22,239

curve it starts out with human being

3218

01:56:26,149 --> 01:56:24,080

walking then you have beast of burden

3219

01:56:29,189 --> 01:56:26,159

you know riding a horse you go from 22

3220

01:56:32,229 --> 01:56:29,199

miles an hour to like 24 25 30. you have

3221

01:56:34,149 --> 01:56:32,239

the the the steam trains that can go

3222

01:56:35,430 --> 01:56:34,159

you know 40 50 60 miles an hour the

3223

01:56:38,390 --> 01:56:35,440

automobile

3224

01:56:40,470 --> 01:56:38,400

the airplane you know which which can go

3225

01:56:42,310 --> 01:56:40,480

400 miles an hour then the supersonic

3226

01:56:44,950 --> 01:56:42,320

jet airplanes that can go a little over

3227

01:56:47,189 --> 01:56:44,960

mach 1 mach 2 mach 3 mach 4 then you

3228

01:56:48,950 --> 01:56:47,199

have rockets we developed rockets in

3229

01:56:51,350 --> 01:56:48,960

1960

3230

01:56:53,990 --> 01:56:51,360

since we developed the rocket we haven't

3231

01:56:56,229 --> 01:56:54,000

developed any technology that can go any

3232

01:57:00,149 --> 01:56:56,239

faster than the chemical rocket so the

3233

01:57:01,430 --> 01:57:00,159

curve goes straight up from about 1900

3234

01:57:03,589 --> 01:57:01,440

1800

3235

01:57:06,550 --> 01:57:03,599

to about 1960 and then it just goes to a

3236

01:57:08,229 --> 01:57:06,560

straight flat line now

3237

01:57:10,070 --> 01:57:08,239

do you actually folks do you actually

3238

01:57:11,430 --> 01:57:10,080

believe that there's been no

3239

01:57:14,550 --> 01:57:11,440

breakthroughs in transportation

3240

01:57:16,390 --> 01:57:14,560

technology since the 1950s i don't i

3241

01:57:17,910 --> 01:57:16,400

think that there is much more advanced

3242

01:57:19,830 --> 01:57:17,920

technology that we can travel much

3243

01:57:21,830 --> 01:57:19,840

faster than we are right now

3244

01:57:24,390 --> 01:57:21,840

with chemical rockets and that this is

3245

01:57:26,790 --> 01:57:24,400

all privately this has all been taken

3246

01:57:28,709 --> 01:57:26,800

dark by the government so

3247

01:57:31,589 --> 01:57:28,719

the government is going to support

3248

01:57:33,430 --> 01:57:31,599

spacex exploration as long as it remains

3249

01:57:35,669 --> 01:57:33,440

in its current primitive state where it

3250

01:57:36,470 --> 01:57:35,679

has been stuck now

3251
01:57:39,669 --> 01:57:36,480
for

3252
01:57:42,310 --> 01:57:39,679
55 years

3253
01:57:44,310 --> 01:57:42,320
and on that note mike

3254
01:57:46,310 --> 01:57:44,320
we need to say goodbye

3255
01:57:48,310 --> 01:57:46,320
okay i'm sure the music is rolling but

3256
01:57:49,830 --> 01:57:48,320
thank you for coming on i look forward

3257
01:57:52,629 --> 01:57:49,840
to your new book

3258
01:57:54,070 --> 01:57:52,639
yes secret societies ancient aliens and

3259
01:57:56,470 --> 01:57:54,080
secret societies we'll be talking about

3260
01:57:57,830 --> 01:57:56,480
that the next time i watch okay sounds

3261
01:58:00,950 --> 01:57:57,840
perfect to me

3262
01:58:03,910 --> 01:58:00,960
all right thank you so your book amazon

3263
01:58:05,350 --> 01:58:03,920

local bookstore everywhere that um

3264

01:58:07,030 --> 01:58:05,360

yeah local bookstore i was just in a

3265

01:58:09,350 --> 01:58:07,040

barnes and noble here in the seattle

3266

01:58:11,350 --> 01:58:09,360

area uh on saturday that had a copy of

3267

01:58:14,070 --> 01:58:11,360

ancient aliens on mars too so run out

3268

01:58:15,669 --> 01:58:14,080

there to the uh federal way store

3269

01:58:17,910 --> 01:58:15,679

and pick it up because it's just sitting

3270

01:58:19,750 --> 01:58:17,920

there waiting for you

3271

01:58:22,149 --> 01:58:19,760

mike signed it while he was in in the

3272

01:58:23,430 --> 01:58:22,159

stream i did i did i signed a bunch

3273

01:58:26,070 --> 01:58:23,440

every time i find a book in a store i

3274

01:58:29,109 --> 01:58:26,080

sign it so cool yeah so they're

3275

01:58:30,950 --> 01:58:29,119

available that way through amazon.com

3276

01:58:33,910 --> 01:58:30,960

they're also available on kindle there's

3277

01:58:35,510 --> 01:58:33,920

no audio version yet because we can't

3278

01:58:37,189 --> 01:58:35,520

really find a voice actor to do it and i

3279

01:58:38,870 --> 01:58:37,199

don't want to do it so

3280

01:58:41,189 --> 01:58:38,880

you know that's where we're at but

3281

01:58:44,149 --> 01:58:41,199

things are you know

3282

01:58:45,109 --> 01:58:44,159

okay i gotta go okay thanks mike talk to

3283

01:58:46,390 --> 01:58:45,119

you later

3284

01:58:48,470 --> 01:58:46,400

thanks rita

3285

01:58:51,030 --> 01:58:48,480

all right that's mike barra his book is

3286

01:58:54,310 --> 01:58:51,040
