our guest tonight she is awesome she's

31
00:02:22,440 --> 00:02:19,660
got some great connections she's a very

32
00:02:24,509 --> 00:02:22,450
very hard hard researcher in UFO field

33
00:02:26,520 --> 00:02:24,519
and paranormal field to with her group

34
00:02:29,190 --> 00:02:26,530
down in the cities there but Gail the

35
00:02:31,170 --> 00:02:29,200
pig LePage yep yep she rocks and she's

36
00:02:32,670 --> 00:02:31,180

which are awesome and I got a shout-out

38
00:02:36,539 --> 00:02:34,989

to my favorite listener debra anderson

39

00:02:39,060 --> 00:02:36,549

over in duluth minnesota and that's all

40

00:02:40,259 --> 00:02:39,070

i got tonight hey and i want to in

41

00:02:43,560 --> 00:02:40,269

Lauren I know you're listening I want to

42

00:02:46,199 --> 00:02:43,570

say thanks for the disc on the crop

43

00:02:48,630 --> 00:02:46,209

circles I did watch it and I did learn a

44

00:02:51,210 --> 00:02:48,640

lot and I'm ready for Nancy tell but

45

00:02:54,300 --> 00:02:51,220

when she comes back on for our question

46

00:02:55,680 --> 00:02:54,310

and answer session yeah i bet i bet you

47

00:02:59,580 --> 00:02:55,690

have a whole notebook full of questions

48

00:03:01,710 --> 00:02:59,590

oh buddy i tell you what she yeah i want

49

00:03:04,140 --> 00:03:01,720

to pick her brain i told her that so um

50

00:03:06,780 --> 00:03:04,150

you know you betcha yeah that'll be

51
00:03:09,990 --> 00:03:06,790
that'll be fun show to we're gonna work

52
00:03:13,229 --> 00:03:10,000
on getting her her it serviced he does

53
00:03:14,640 --> 00:03:13,239
research with robert fan I forget his

54
00:03:16,229 --> 00:03:14,650
name but he's from Denmark and this is

55
00:03:17,789 --> 00:03:16,239
the guy that can predict what crop

56
00:03:19,500 --> 00:03:17,799
circles are going to show up next so

57
00:03:21,479 --> 00:03:19,510
yeah she said she's going to try to get

58
00:03:24,360 --> 00:03:21,489
him to come on and man that would be

59
00:03:26,159 --> 00:03:24,370
dynamite because I'd be really

60
00:03:28,979 --> 00:03:26,169
interested in being able to talk with

61
00:03:29,860 --> 00:03:28,989
him all I know I mean ken ken is just

62
00:03:31,600 --> 00:03:29,870
ripping and raring to

63
00:03:33,880 --> 00:03:31,610

he's got tons of questions he's been

64

00:03:35,740 --> 00:03:33,890

he's moving him up for two weeks you got

65

00:03:38,649 --> 00:03:35,750

probably a whole notebook full well I do

66

00:03:42,220 --> 00:03:38,659

you know I i l'm old schools and George

67

00:03:45,280 --> 00:03:42,230

knows what i mean by that I take cop

68

00:03:47,559 --> 00:03:45,290

shorthand notes in my legal tablet so I

69

00:03:49,240 --> 00:03:47,569

fill up the margins in the main space

70

00:03:52,839 --> 00:03:49,250

and everything you know right like crazy

71

00:03:55,210 --> 00:03:52,849

and I do i've got probably two pages of

72

00:03:57,430 --> 00:03:55,220

questions so and you know we won't get

73

00:03:59,710 --> 00:03:57,440

to them all but by golly we're gonna get

74

00:04:01,270 --> 00:03:59,720

to some welcome to you there yeah we

75

00:04:02,800 --> 00:04:01,280

might we might go to a part but

76

00:04:05,020 --> 00:04:02,810

definitely have a part 3 i do have to

77

00:04:07,780 --> 00:04:05,030

contact nancy and maybe a part 4 we can

78

00:04:09,759 --> 00:04:07,790

make this uh make this a saga here and

79

00:04:12,789 --> 00:04:09,769

we can definitely get out you know yeah

80

00:04:15,699 --> 00:04:12,799

and you know Lorna had sent me that that

81

00:04:19,120 --> 00:04:15,709

disc on crop circles and I'll tell you

82

00:04:21,069 --> 00:04:19,130

what it there's it's an interesting it's

83

00:04:22,540 --> 00:04:21,079

an interesting phenomenon see touched on

84

00:04:26,620 --> 00:04:22,550

something last and we had her on the

85

00:04:29,620 --> 00:04:26,630

show mark and and that is you know hey

86

00:04:33,430 --> 00:04:29,630

this may be a very subtle way to get

87

00:04:35,409 --> 00:04:33,440

people into used to the idea that you

88

00:04:37,629 --> 00:04:35,419

know ETS here I never really thought of

89

00:04:39,430 --> 00:04:37,639

it because that was one of the questions

90

00:04:41,800 --> 00:04:39,440

that I had is what why do I do the crop

91

00:04:44,770 --> 00:04:41,810

circles mm-hmm you know why not just

92

00:04:47,830 --> 00:04:44,780

beam us a direct line and connect and

93

00:04:50,589 --> 00:04:47,840

but you know this maybe they know us

94

00:04:52,930 --> 00:04:50,599

better than we know us right right and

95

00:04:56,129 --> 00:04:52,940

and so what a subtle way to do what I

96

00:04:58,570 --> 00:04:56,139

call field graffiti you know definitely

97

00:05:00,339 --> 00:04:58,580

okay what I'm going to do I'm going to

98

00:05:02,050 --> 00:05:00,349

read to Mark's pile here for all you

99

00:05:04,120 --> 00:05:02,060

listeners so you can get a gist for what

100

00:05:07,120 --> 00:05:04,130

Mark does marcantonio is the mutual UFO

101
00:05:09,520 --> 00:05:07,130
network see photo video analyst and is

102
00:05:11,950 --> 00:05:09,530
the CEO of FX models a model making

103
00:05:14,740 --> 00:05:11,960
special effects company specializing in

104
00:05:16,510 --> 00:05:14,750
digital physical models and organic

105
00:05:19,089 --> 00:05:16,520
in-camera special effects in the film

106
00:05:21,400 --> 00:05:19,099
industry FX models has done work for all

107
00:05:23,860 --> 00:05:21,410
kinds of organizations within and

108
00:05:25,089 --> 00:05:23,870
outside the US government the company

109
00:05:27,279 --> 00:05:25,099
has done model work for the United

110
00:05:28,900 --> 00:05:27,289
States Navy and the Armed Forces Joint

111
00:05:32,830 --> 00:05:28,910
Chiefs the White House and the US

112
00:05:34,689 --> 00:05:32,840
Congress mark has worked on a number of

113
00:05:36,990 --> 00:05:34,699

programs on the networks including

114

00:05:40,029 --> 00:05:37,000

discovery history national geographic

115

00:05:41,920 --> 00:05:40,039

science channels performing on camera

116

00:05:43,600 --> 00:05:41,930

mark in his role as a UFO investigator

117

00:05:46,209 --> 00:05:43,610

and video video

118

00:05:49,119 --> 00:05:46,219

photo analysis in addition to such roles

119

00:05:50,830 --> 00:05:49,129

he has also created special effect props

120

00:05:53,200 --> 00:05:50,840

for use in productions creating

121

00:05:55,779 --> 00:05:53,210

computer-generated sequences and set up

122

00:05:59,020 --> 00:05:55,789

and executed visual effects shots so

123

00:06:00,969 --> 00:05:59,030

mark is uh he's a really involved in

124

00:06:04,059 --> 00:06:00,979

with special effects and everything else

125

00:06:06,040 --> 00:06:04,069

there yeah it sounds like it I I mean

126

00:06:10,330 --> 00:06:06,050

that's something that I know very little

127

00:06:13,179 --> 00:06:10,340

about and in today's world with digital

128

00:06:15,189 --> 00:06:13,189

and and the technology behind the camera

129

00:06:17,950 --> 00:06:15,199

lens and everything else I mean wow you

130

00:06:20,559 --> 00:06:17,960

can create anything basically right

131

00:06:22,420 --> 00:06:20,569

right it's uh it's interesting stuff too

132

00:06:24,610 --> 00:06:22,430

and he does all the photo analysis from

133

00:06:26,559 --> 00:06:24,620

MUFON and I'm sure he's uh seen some

134

00:06:28,269 --> 00:06:26,569

crazy stuff and would like to welcome

135

00:06:30,909 --> 00:06:28,279

mark the Antonio to the show welcome

136

00:06:32,589 --> 00:06:30,919

mark hey thanks for having me oh that on

137

00:06:34,390 --> 00:06:32,599

mark thanks for coming of course

138

00:06:36,459 --> 00:06:34,400

forcibly sound like it was gonna be fun

139

00:06:38,589 --> 00:06:36,469

oh yeah oh yeah we're laid-back guys we

140

00:06:41,409 --> 00:06:38,599

like to have fun but also law you know

141

00:06:42,820 --> 00:06:41,419

are serious about what what you guys are

142

00:06:45,279 --> 00:06:42,830

doing out there to help with the you

143

00:06:47,170 --> 00:06:45,289

know research in UFO field in its it's a

144

00:06:50,769 --> 00:06:47,180

good thing you're doing mark yeah indeed

145

00:06:53,200 --> 00:06:50,779

i hope that you know hope people really

146

00:06:55,209 --> 00:06:53,210

enjoy it because there's an awful lot to

147

00:06:57,610 --> 00:06:55,219

do in an awful lot of places we're going

148

00:06:59,589 --> 00:06:57,620

to go with these systems perfect no mark

149

00:07:02,050 --> 00:06:59,599

what got your interest in the UFO field

150

00:07:04,540 --> 00:07:02,060

if you want to tell her listeners yeah

151
00:07:06,459 --> 00:07:04,550
sure you know when I was a little kid I

152
00:07:09,249 --> 00:07:06,469
when I go outside I'd look up in the sky

153
00:07:12,029 --> 00:07:09,259
and and for whatever reason I kinda

154
00:07:15,550 --> 00:07:12,039
always had this weird feeling like

155
00:07:17,860 --> 00:07:15,560
almost home sick in a way so it was sort

156
00:07:19,540 --> 00:07:17,870
of a strange relationship I had with the

157
00:07:22,689 --> 00:07:19,550
universe really on and I couldn't

158
00:07:24,010 --> 00:07:22,699
explain it but I knew at age seven that

159
00:07:26,709 --> 00:07:24,020
I was gonna end up going to school

160
00:07:28,869 --> 00:07:26,719
getting a degree in astronomy and you

161
00:07:30,790 --> 00:07:28,879
know working in that field and you know

162
00:07:34,540 --> 00:07:30,800
that's exactly what I did it not at age

163
00:07:36,550 --> 00:07:34,550

seven of course in later years so I

164

00:07:38,409 --> 00:07:36,560

tuned everything in my life toward

165

00:07:41,649 --> 00:07:38,419

learning about the universe so I ended

166

00:07:44,200 --> 00:07:41,659

up spending oh gosh i probably spent as

167

00:07:46,450 --> 00:07:44,210

many you know years outside looking at

168

00:07:49,959 --> 00:07:46,460

the sky I have inside inside of a house

169

00:07:53,079 --> 00:07:49,969

you know I and I used to do that so

170

00:07:54,399 --> 00:07:53,089

often that um I honestly felt weird

171

00:07:55,930 --> 00:07:54,409

being inside a house sometimes on a

172

00:07:56,600 --> 00:07:55,940

clear night I couldn't stand it I had to

173

00:07:59,420 --> 00:07:56,610

be outside

174

00:08:00,459 --> 00:07:59,430

looking up and part of it was I want to

175

00:08:02,990 --> 00:08:00,469

figure out the mystery of the universe

176

00:08:04,129 --> 00:08:03,000

another part of it was I knew that we

177

00:08:06,170 --> 00:08:04,139

weren't alone I've always had that

178

00:08:08,149 --> 00:08:06,180

feeling but at the time I had no science

179

00:08:11,209 --> 00:08:08,159

to back that up and neither did anyone

180

00:08:12,469 --> 00:08:11,219

we didn't have the latest you know it we

181

00:08:14,659 --> 00:08:12,479

didn't have information like we have now

182

00:08:16,520 --> 00:08:14,669

with the latest exoplanet discoveries

183

00:08:19,219 --> 00:08:16,530

exoplanets are my specialty in astronomy

184

00:08:20,899 --> 00:08:19,229

so you know an exoplanet is a planet

185

00:08:23,270 --> 00:08:20,909

around another star system or another

186

00:08:26,600 --> 00:08:23,280

star and and there can be multiple

187

00:08:28,010 --> 00:08:26,610

planets in fact it turns out when we

188

00:08:29,420 --> 00:08:28,020

look at the universe that there's more

189

00:08:33,290 --> 00:08:29,430

planets in the universe than there are

190

00:08:35,870 --> 00:08:33,300

stars by statistical hmmm determination

191

00:08:37,370 --> 00:08:35,880

we discovered that and that the really

192

00:08:38,839 --> 00:08:37,380

interesting thing about that is I've

193

00:08:41,269 --> 00:08:38,849

always felt that was probably the case

194

00:08:42,409 --> 00:08:41,279

ever since I was like I said a little

195

00:08:44,000 --> 00:08:42,419

kid I always felt there were more

196

00:08:47,030 --> 00:08:44,010

planets out there and not just because

197

00:08:50,480 --> 00:08:47,040

of Star Trek and Captain Kirk you know

198

00:08:52,790 --> 00:08:50,490

um although a funny story which I tell

199

00:08:56,509 --> 00:08:52,800

fairly often is when I was working for

200

00:08:59,660 --> 00:08:56,519

my my astronomy degree my thesis one of

201
00:09:01,130 --> 00:08:59,670
the things I had to do was a program in

202
00:09:04,100 --> 00:09:01,140
an observatory so I was working in an

203
00:09:06,949 --> 00:09:04,110
observatory working on parallaxes that

204
00:09:09,650 --> 00:09:06,959
is the the study of nearby stars and

205
00:09:11,569 --> 00:09:09,660
their distance determinations and I'm

206
00:09:12,889 --> 00:09:11,579
parallax is a simple thing when you hold

207
00:09:14,990 --> 00:09:12,899
your finger out at arm's length you

208
00:09:16,519 --> 00:09:15,000
close one eye and you see your finger

209
00:09:18,530 --> 00:09:16,529
against the distant wall in your house

210
00:09:19,939 --> 00:09:18,540
and you open the other eye and you know

211
00:09:21,800 --> 00:09:19,949
alternate back and forth between your

212
00:09:24,019 --> 00:09:21,810
eyes the finger looks like it's shifting

213
00:09:25,610 --> 00:09:24,029

against the background wall well if you

214

00:09:27,319 --> 00:09:25,620

imagine your finger to be a nearby star

215

00:09:30,050 --> 00:09:27,329

and the background wall to be farther

216

00:09:32,930 --> 00:09:30,060

stars and instead of distance between

217

00:09:34,130 --> 00:09:32,940

your eyes that's this that that distance

218

00:09:37,250 --> 00:09:34,140

is actually the size of the Earth's

219

00:09:39,110 --> 00:09:37,260

orbit from one side to the other you can

220

00:09:41,870 --> 00:09:39,120

actually determine very accurately to a

221

00:09:44,360 --> 00:09:41,880

certain distance out the distance to

222

00:09:45,710 --> 00:09:44,370

these nearby stars and so you can

223

00:09:47,569 --> 00:09:45,720

imagine it once we figured out the

224

00:09:49,490 --> 00:09:47,579

distance distance in nearby stars the

225

00:09:53,060 --> 00:09:49,500

next question was G other planets around

226

00:09:55,250 --> 00:09:53,070

those stars right so um the nearest star

227

00:09:57,319 --> 00:09:55,260

to us is Alpha Centauri and Alpha

228

00:09:59,300 --> 00:09:57,329

Centauri system is actually three stars

229

00:10:01,699 --> 00:09:59,310

you know you have two main stars then a

230

00:10:03,139 --> 00:10:01,709

small one called Proxima Centauri we

231

00:10:06,170 --> 00:10:03,149

can't even see it it's a tiny little

232

00:10:08,000 --> 00:10:06,180

star however uh we think there's a

233

00:10:10,070 --> 00:10:08,010

planet around that star

234

00:10:12,380 --> 00:10:10,080

and it may very well be a planet that

235

00:10:13,550 --> 00:10:12,390

could possibly support liquid water we

236

00:10:15,500 --> 00:10:13,560

don't know that for sure we don't even

237

00:10:17,810 --> 00:10:15,510

know if it's a real planet yet but

238

00:10:19,460 --> 00:10:17,820

anyway you can see where I'm going that

239

00:10:21,290 --> 00:10:19,470

the bottom line is there were so many

240

00:10:23,750 --> 00:10:21,300

discoveries to be made in the universe

241

00:10:25,340 --> 00:10:23,760

that that once we started getting the

242

00:10:27,710 --> 00:10:25,350

tolls and once we started seeing that

243

00:10:30,200 --> 00:10:27,720

the the capability to acquire data on

244

00:10:33,890 --> 00:10:30,210

these other places you know then I had

245

00:10:36,490 --> 00:10:33,900

to really start thinking about the

246

00:10:39,380 --> 00:10:36,500

concept of extraterrestrial life however

247

00:10:42,110 --> 00:10:39,390

that's just part of it I've also had

248

00:10:44,750 --> 00:10:42,120

some experiences which I could not

249

00:10:48,950 --> 00:10:44,760

explain and one such experience was what

250

00:10:53,300 --> 00:10:48,960

I was a little kid probably around nine

251
00:10:55,520 --> 00:10:53,310
or so maybe 10 or 11 we had a field trip

252
00:10:57,620 --> 00:10:55,530
to a local pond and we were going to go

253
00:11:00,170 --> 00:10:57,630
look at fish and frogs and things like

254
00:11:02,600 --> 00:11:00,180
that I remember getting on the bus with

255
00:11:04,010 --> 00:11:02,610
my little brown lunch bag and I remember

256
00:11:05,720 --> 00:11:04,020
getting off the bus with my little brown

257
00:11:08,540 --> 00:11:05,730
lunch bag after the trip was over I

258
00:11:11,660 --> 00:11:08,550
remember nothing of the in-between and I

259
00:11:13,730 --> 00:11:11,670
still had my lunch it was like no time

260
00:11:15,980 --> 00:11:13,740
had passed and when I came home that

261
00:11:17,870 --> 00:11:15,990
night I began having seizures and they

262
00:11:19,970 --> 00:11:17,880
had to rush me to the hospital where

263
00:11:21,950 --> 00:11:19,980

they discovered that something had

264

00:11:24,320 --> 00:11:21,960

happened in my brain to trigger some

265

00:11:27,590 --> 00:11:24,330

type of epileptic seizures I've never

266

00:11:30,950 --> 00:11:27,600

had epilepsy then or then or since it

267

00:11:32,720 --> 00:11:30,960

was just a singular event and no one to

268

00:11:35,510 --> 00:11:32,730

this day can explain why it happened or

269

00:11:37,760 --> 00:11:35,520

how it happened but I I could never

270

00:11:41,420 --> 00:11:37,770

explain why I don't remember a single

271

00:11:43,460 --> 00:11:41,430

thing about that pond trip yet everybody

272

00:11:46,280 --> 00:11:43,470

in the class sure did and I member the

273

00:11:48,620 --> 00:11:46,290

bus going to the pond and getting off

274

00:11:50,090 --> 00:11:48,630

the bus when we got back so I but

275

00:11:52,700 --> 00:11:50,100

nothing in between it's weird you know

276

00:11:55,340 --> 00:11:52,710

so that was one thing and then I've had

277

00:11:57,470 --> 00:11:55,350

other events where where I actually

278

00:11:58,970 --> 00:11:57,480

ended up waking with some sleep

279

00:12:01,280 --> 00:11:58,980

paralysis in the middle the night and

280

00:12:03,230 --> 00:12:01,290

you know I'm a fairly lucid dreamer so I

281

00:12:05,840 --> 00:12:03,240

woke up and said oh wow as a sort of a

282

00:12:09,710 --> 00:12:05,850

peaceful state of lucid dreaming except

283

00:12:12,650 --> 00:12:09,720

there was one night after a sequence of

284

00:12:14,750 --> 00:12:12,660

three consecutive nights where I had

285

00:12:16,460 --> 00:12:14,760

been hearing this knocking near the roof

286

00:12:19,340 --> 00:12:16,470

of the house and I couldn't tell what it

287

00:12:20,670 --> 00:12:19,350

was and the 1st time i heard it i went

288

00:12:24,000 --> 00:12:20,680

back to sleep

289

00:12:26,010 --> 00:12:24,010

second time I heard it I you know that

290

00:12:27,900 --> 00:12:26,020

was the next day and the second time in

291

00:12:32,940 --> 00:12:27,910

that that next day I actually got up and

292

00:12:34,769 --> 00:12:32,950

went I went to the window to look out

293

00:12:38,160 --> 00:12:34,779

and I had to lean over my dogs which

294

00:12:39,570 --> 00:12:38,170

were sleeping under the window and there

295

00:12:41,579 --> 00:12:39,580

were greyhounds which I'd rescued I'm

296

00:12:43,260 --> 00:12:41,589

very happy about my little doggies at

297

00:12:45,240 --> 00:12:43,270

the time were very cute animals and very

298

00:12:47,040 --> 00:12:45,250

loving and so I leaned over them and I

299

00:12:48,360 --> 00:12:47,050

kind of smiled at him and said it's okay

300

00:12:49,680 --> 00:12:48,370

guys I'm just gonna pick out the window

301
00:12:51,449 --> 00:12:49,690
and I looked out the window and as I

302
00:12:53,370 --> 00:12:51,459
tried to push my head to the screen

303
00:12:55,410 --> 00:12:53,380
because was a nice August night I tried

304
00:12:57,480 --> 00:12:55,420
to look up and as I did that I saw a

305
00:13:00,090 --> 00:12:57,490
white flash in my vision that took my

306
00:13:02,880 --> 00:13:00,100
vision it was a flash blindness now you

307
00:13:05,040 --> 00:13:02,890
have to understand that I don't look and

308
00:13:06,449 --> 00:13:05,050
see aliens at every corner okay I'm not

309
00:13:08,370 --> 00:13:06,459
one of those types I thought I was

310
00:13:10,199 --> 00:13:08,380
having a medical event I thought oh no I

311
00:13:15,720 --> 00:13:10,209
detached the retina maybe that's what

312
00:13:18,210 --> 00:13:15,730
this is happening and then I um and then

313
00:13:20,220 --> 00:13:18,220

I started to get my vision back and I

314

00:13:23,370 --> 00:13:20,230

saw you know that I could see again and

315

00:13:25,890 --> 00:13:23,380

I felt not not dizzy but I felt off

316

00:13:28,680 --> 00:13:25,900

something wasn't quite right but that

317

00:13:30,900 --> 00:13:28,690

said I looked down as my eyes adjusted

318

00:13:33,390 --> 00:13:30,910

and I noticed the dogs were gone and I

319

00:13:35,519 --> 00:13:33,400

was like whoa well this was just a

320

00:13:39,690 --> 00:13:35,529

second ago here were the dogs and the

321

00:13:43,050 --> 00:13:39,700

mail was in the closet literally hiding

322

00:13:45,570 --> 00:13:43,060

in a pile of laundry and the female was

323

00:13:47,400 --> 00:13:45,580

outside of the bedroom sitting like a

324

00:13:50,340 --> 00:13:47,410

sphinx that you like to sit that way I

325

00:13:52,380 --> 00:13:50,350

just sort of looking in you know ears

326

00:13:55,890 --> 00:13:52,390

sticking up and highly alert and I

327

00:13:57,960 --> 00:13:55,900

didn't know what that was all about so I

328

00:13:59,760 --> 00:13:57,970

went back to bed and and was like

329

00:14:01,290 --> 00:13:59,770

nervous about going back to bed probably

330

00:14:02,610 --> 00:14:01,300

you know don't remember very well much

331

00:14:04,440 --> 00:14:02,620

about that rest of that night I don't

332

00:14:06,810 --> 00:14:04,450

think I really slept much and then the

333

00:14:08,430 --> 00:14:06,820

next day I carried on as if it never

334

00:14:10,890 --> 00:14:08,440

happened i didn't even remember it I

335

00:14:13,740 --> 00:14:10,900

mean it was really remarkable how I

336

00:14:17,340 --> 00:14:13,750

suddenly just had no memory well then

337

00:14:20,550 --> 00:14:17,350

that third night uh it happened again i

338

00:14:23,130 --> 00:14:20,560

woke up at this time I couldn't move and

339

00:14:25,230 --> 00:14:23,140

I said oh I'm in like a hypnotic papac's

340

00:14:27,360 --> 00:14:25,240

day I'm sort of in that net you know my

341

00:14:29,610 --> 00:14:27,370

motor neurons haven't been engaged yet

342

00:14:30,960 --> 00:14:29,620

that was kind of at first I was starting

343

00:14:32,730 --> 00:14:30,970

to just sort of like enjoy it a little

344

00:14:34,110 --> 00:14:32,740

bit you know because I like that state

345

00:14:35,700 --> 00:14:34,120

it feels good you know that

346

00:14:40,590 --> 00:14:35,710

wake up it's very relaxing it's sort of

347

00:14:42,990 --> 00:14:40,600

like a meditative state um anyway as I

348

00:14:44,269 --> 00:14:43,000

was doing that I realized wait a minute

349

00:14:47,490 --> 00:14:44,279

this there's something not right here

350

00:14:50,040 --> 00:14:47,500

because I'm i'm wide awake now in fact

351

00:14:52,710 --> 00:14:50,050

i'm so awake I want to get up now and I

352

00:14:55,710 --> 00:14:52,720

can't move and my first thought was oh

353

00:14:57,030 --> 00:14:55,720

no this was a medical problem Oh what is

354

00:14:59,070 --> 00:14:57,040

it I think maybe I should have gone to

355

00:15:01,860 --> 00:14:59,080

the hospital I was starting to panic

356

00:15:03,420 --> 00:15:01,870

because I thought oh no I must have

357

00:15:04,530 --> 00:15:03,430

somehow something happened in my head

358

00:15:06,269 --> 00:15:04,540

and I should have listened to the

359

00:15:08,820 --> 00:15:06,279

warning sign that white flash the last

360

00:15:11,700 --> 00:15:08,830

night meant something well anyway that's

361

00:15:13,650 --> 00:15:11,710

when I realized my ears were shut off I

362

00:15:15,090 --> 00:15:13,660

couldn't hear anything not even the

363

00:15:16,769 --> 00:15:15,100

sound of my own breathing or my heart

364

00:15:19,320 --> 00:15:16,779

beat it felt like I was in between time

365

00:15:20,850 --> 00:15:19,330

pulses almost which I don't think that's

366

00:15:23,190 --> 00:15:20,860

what it was I just think that my ears

367

00:15:25,800 --> 00:15:23,200

were shut off and my eyes were also

368

00:15:28,079 --> 00:15:25,810

fixed in and frozen in one position I

369

00:15:30,300 --> 00:15:28,089

couldn't move my eyes that was the most

370

00:15:32,970 --> 00:15:30,310

unnerving part of the whole thing and

371

00:15:35,790 --> 00:15:32,980

all i had was peripheral vision and this

372

00:15:37,200 --> 00:15:35,800

was nighttime at some point during the

373

00:15:40,230 --> 00:15:37,210

night i don't know when because i

374

00:15:42,840 --> 00:15:40,240

couldn't look at the clock and I could

375

00:15:44,519 --> 00:15:42,850

see the faint outline in peripheral

376

00:15:45,750 --> 00:15:44,529

vision of the window where I had looked

377

00:15:47,460 --> 00:15:45,760

out the night before and it was a

378

00:15:49,140 --> 00:15:47,470

streetlight at some distance and it kind

379

00:15:51,630 --> 00:15:49,150

of outline the window and then I saw

380

00:15:55,140 --> 00:15:51,640

something pass in front of it and I

381

00:15:56,910 --> 00:15:55,150

thought okay you know I'm a scientific

382

00:15:59,280 --> 00:15:56,920

type of guy maybe this was just a

383

00:16:03,030 --> 00:15:59,290

floater in my eye or something I don't

384

00:16:06,870 --> 00:16:03,040

know all right however I began to feel

385

00:16:10,470 --> 00:16:06,880

this very strange feeling like something

386

00:16:12,540 --> 00:16:10,480

was there and as I began to feel this

387

00:16:13,949 --> 00:16:12,550

way that's sort of like may lower vision

388

00:16:16,040 --> 00:16:13,959

and to the right that this thing has

389

00:16:18,240 --> 00:16:16,050

comes walking toward me it looked l

390

00:16:22,350 --> 00:16:18,250

couldn't really see it was a dark shape

391

00:16:24,000 --> 00:16:22,360

but it was you know looked like a arms

392

00:16:26,370 --> 00:16:24,010

you know I couldn't see legs but I saw

393

00:16:29,400 --> 00:16:26,380

like a torso and ahead and I can't

394

00:16:31,890 --> 00:16:29,410

really even tell you dimensional layout

395

00:16:34,170 --> 00:16:31,900

I mean you know maybe my brain was

396

00:16:35,970 --> 00:16:34,180

replaying something of a real person

397

00:16:37,320 --> 00:16:35,980

coming to me at some point and there was

398

00:16:40,500 --> 00:16:37,330

some kind and a glitch in my head or

399

00:16:42,720 --> 00:16:40,510

whatever who knows right but as this

400

00:16:46,440 --> 00:16:42,730

thing came toward me I saw the the arm

401
00:16:47,759 --> 00:16:46,450
extend and the arm was very thin it

402
00:16:51,059 --> 00:16:47,769
looked weird look like us

403
00:16:54,660 --> 00:16:51,069
stick like a stick you know a stick

404
00:16:56,729 --> 00:16:54,670
insect you know and it had this exact a

405
00:16:59,100 --> 00:16:56,739
rod in its hand and the rod had a

406
00:17:01,639 --> 00:16:59,110
whitish glow it wasn't bright it was

407
00:17:04,710 --> 00:17:01,649
supportive sort of a subtle white glow

408
00:17:06,870 --> 00:17:04,720
and it passed in front of my face a

409
00:17:08,189 --> 00:17:06,880
couple times and bang it was morning and

410
00:17:10,049 --> 00:17:08,199
I was sleeping on my belly and I

411
00:17:12,260 --> 00:17:10,059
couldn't breathe hmm mean it was just

412
00:17:15,299 --> 00:17:12,270
that quick air and I couldn't breathe

413
00:17:17,549 --> 00:17:15,309

and I pushed off the pillow and gas for

414

00:17:19,409 --> 00:17:17,559

it gasps for air and the pillow was

415

00:17:21,870 --> 00:17:19,419

totally and I apologize for this in

416

00:17:24,059 --> 00:17:21,880

advance okay but little graphic the

417

00:17:26,939 --> 00:17:24,069

pillow was saturated with blood hmm I

418

00:17:28,409 --> 00:17:26,949

mean saturated in fact I realized at

419

00:17:30,870 --> 00:17:28,419

that point I better get to the hospital

420

00:17:34,710 --> 00:17:30,880

i think i must have bled a huge amount

421

00:17:37,710 --> 00:17:34,720

of mount here ah but I went and I looked

422

00:17:39,659 --> 00:17:37,720

in the mirror and I saw nothing except

423

00:17:41,519 --> 00:17:39,669

except a little bit of the cake down you

424

00:17:43,169 --> 00:17:41,529

know the blood that came down out of a

425

00:17:45,690 --> 00:17:43,179

nostril one of my sinus not sure the

426
00:17:47,340 --> 00:17:45,700
left one and I thought wow I must have

427
00:17:49,440 --> 00:17:47,350
had a nosebleed the middle of night but

428
00:17:51,539 --> 00:17:49,450
you know I absolutely remember what

429
00:17:53,220 --> 00:17:51,549
happened and it was really scary when I

430
00:17:55,710 --> 00:17:53,230
touched my face it felt like someone had

431
00:17:58,019 --> 00:17:55,720
punched me in the face as hard as they

432
00:18:00,000 --> 00:17:58,029
could and I was like oh man it's like I

433
00:18:02,010 --> 00:18:00,010
took an elevator do Taekwondo for years

434
00:18:05,279 --> 00:18:02,020
and you know I know what it felt like to

435
00:18:08,220 --> 00:18:05,289
get the elbowed in the face okay and let

436
00:18:09,960 --> 00:18:08,230
me tell you it felt like that was done

437
00:18:12,149 --> 00:18:09,970
three or four times in a row without me

438
00:18:14,669 --> 00:18:12,159

even being able to block it all right

439

00:18:17,279 --> 00:18:14,679

and and I don't I don't like the feeling

440

00:18:20,010 --> 00:18:17,289

right no one no one does you know I like

441

00:18:22,139 --> 00:18:20,020

it hit in the face but um you know so as

442

00:18:25,019 --> 00:18:22,149

I'm I'm watching in the mirror and all

443

00:18:27,990 --> 00:18:25,029

of a sudden it was weird It was as if I

444

00:18:29,789 --> 00:18:28,000

suddenly didn't even care anymore and I

445

00:18:32,700 --> 00:18:29,799

just got dressed and I went off to my

446

00:18:35,129 --> 00:18:32,710

job this was before I had started my own

447

00:18:38,279 --> 00:18:35,139

company here so I was working at a

448

00:18:40,590 --> 00:18:38,289

consulting company but then throughout

449

00:18:43,830 --> 00:18:40,600

the next day or two I began to feel very

450

00:18:46,620 --> 00:18:43,840

agitated like you know violated actually

451

00:18:48,840 --> 00:18:46,630

and so it took me a few days and I

452

00:18:51,029 --> 00:18:48,850

finally you know I'm sorry this is going

453

00:18:53,430 --> 00:18:51,039

on so long I hope that no no you get the

454

00:18:55,470 --> 00:18:53,440

chats chats listening it's enough okay

455

00:18:57,690 --> 00:18:55,480

as long as it's not you know no boring

456

00:18:58,680 --> 00:18:57,700

people no more common all right cuz you

457

00:19:00,210 --> 00:18:58,690

could then

458

00:19:03,780 --> 00:19:00,220

the thing that happened next which was

459

00:19:08,970 --> 00:19:03,790

really weird to me was only after only

460

00:19:12,030 --> 00:19:08,980

after having um only after having been I

461

00:19:13,950 --> 00:19:12,040

guess out in the world again for a day

462

00:19:16,320 --> 00:19:13,960

or two that this all started coming back

463

00:19:18,150 --> 00:19:16,330

to me but when it did it was like I

464

00:19:19,620 --> 00:19:18,160

accessed a memory spot that had been

465

00:19:22,160 --> 00:19:19,630

blocked or something I don't know you

466

00:19:24,930 --> 00:19:22,170

know is because you know you do tend to

467

00:19:27,030 --> 00:19:24,940

block traumatic stuff that could scare

468

00:19:28,470 --> 00:19:27,040

you or whatever and I'm no different I'm

469

00:19:29,940 --> 00:19:28,480

no hero i mean you know it was

470

00:19:33,480 --> 00:19:29,950

terrifying you know I'm absolutely

471

00:19:35,040 --> 00:19:33,490

willing to say it and um you know I

472

00:19:36,780 --> 00:19:35,050

don't want ever see it happen again in

473

00:19:38,010 --> 00:19:36,790

fact I saw creature like that come tour

474

00:19:39,930 --> 00:19:38,020

me again I'd wring its neck before

475

00:19:41,790 --> 00:19:39,940

cutting words here man you know like

476

00:19:43,050 --> 00:19:41,800

that like a turkey okay you're done you

477

00:19:46,470 --> 00:19:43,060

know anything do you think coming near

478

00:19:48,780 --> 00:19:46,480

me pal anymore do you think you've been

479

00:19:51,150 --> 00:19:48,790

implanted well that's there's more of

480

00:19:53,970 --> 00:19:51,160

the story and I'll tell you it so it

481

00:19:55,110 --> 00:19:53,980

took me two years before I actually went

482

00:19:58,740 --> 00:19:55,120

to an ear nose and throat surgeon

483

00:20:02,940 --> 00:19:58,750

because my left nostril the very moment

484

00:20:05,250 --> 00:20:02,950

that happened after that blood thing my

485

00:20:07,050 --> 00:20:05,260

left nostril was completely and sinus

486

00:20:10,140 --> 00:20:07,060

was completely blocked for two full

487

00:20:11,670 --> 00:20:10,150

years and I didn't you know why I didn't

488

00:20:14,700 --> 00:20:11,680

question it why didn't go or the doctor

489

00:20:16,980 --> 00:20:14,710

right away he got me but when I finally

490

00:20:19,800 --> 00:20:16,990

decided to go I went to the doctors and

491

00:20:21,060 --> 00:20:19,810

he came in he looked up in the area so

492

00:20:25,020 --> 00:20:21,070

his holy cow he said you've got

493

00:20:27,120 --> 00:20:25,030

something up there and I went oh this

494

00:20:30,270 --> 00:20:27,130

was dr. layman at Hartford Hospital in

495

00:20:33,870 --> 00:20:30,280

Hartford Connecticut and uh dr. layman

496

00:20:35,520 --> 00:20:33,880

said yeah he goes we can numb it and go

497

00:20:39,210 --> 00:20:35,530

through procedure to remove it and I

498

00:20:41,130 --> 00:20:39,220

said let's do it so I ended up having

499

00:20:42,720 --> 00:20:41,140

them do it right then and there and he

500

00:20:46,020 --> 00:20:42,730

took this thing out it was encapsulated

501
00:20:49,230 --> 00:20:46,030
in a fleshy mass and he says this is a

502
00:20:51,630 --> 00:20:49,240
huge he says sinus polyps he says yeah

503
00:20:53,580 --> 00:20:51,640
and and I guess you know sinus polyps

504
00:20:54,870 --> 00:20:53,590
are not uncommon obviously there's your

505
00:20:56,250 --> 00:20:54,880
nose and throat doctors that take them

506
00:21:00,420 --> 00:20:56,260
out exclusively you know and okay so

507
00:21:03,030 --> 00:21:00,430
they're there so I said to them I go dr.

508
00:21:06,330 --> 00:21:03,040
Lehman tell me something could such a

509
00:21:12,150 --> 00:21:06,340
polyp seed itself around a foreign

510
00:21:13,740 --> 00:21:12,160
object right as you can tell I had I had

511
00:21:15,630 --> 00:21:13,750
own something about implants and so

512
00:21:18,090 --> 00:21:15,640
forth so this is why this is where the

513
00:21:20,130 --> 00:21:18,100

story takes a weird turn and he said you

514

00:21:22,110 --> 00:21:20,140

mean like a metal splinter from a

515

00:21:23,760 --> 00:21:22,120

machinist or something yeah something

516

00:21:25,170 --> 00:21:23,770

like that he goes yeah absolutely i

517

00:21:27,780 --> 00:21:25,180

think that could happen the body tries

518

00:21:30,390 --> 00:21:27,790

to reject it encapsulates and you know

519

00:21:32,280 --> 00:21:30,400

so forth I said well okay could you

520

00:21:34,860 --> 00:21:32,290

check the inside of this one and see if

521

00:21:39,210 --> 00:21:34,870

there's anything in there and he said

522

00:21:42,360 --> 00:21:39,220

why and I made the mistake of telling

523

00:21:44,820 --> 00:21:42,370

him the story I just told you and he

524

00:21:47,520 --> 00:21:44,830

laughed oh I don't think there's any

525

00:21:50,760 --> 00:21:47,530

aliens to worry about here he goes haha

526

00:21:53,550 --> 00:21:50,770

i said yeah i know i go but but just

527

00:21:56,040 --> 00:21:53,560

just you know check it out for me will

528

00:21:57,510 --> 00:21:56,050

ya sure i'll make a note of it I saw him

529

00:21:59,760 --> 00:21:57,520

right down you know please you know

530

00:22:02,100 --> 00:21:59,770

check interior look for foreign object

531

00:22:03,990 --> 00:22:02,110

and he didn't say alien ain't said

532

00:22:05,820 --> 00:22:04,000

foreign object I saw him right can this

533

00:22:07,290 --> 00:22:05,830

piece of paper and he sent it down the

534

00:22:08,880 --> 00:22:07,300

pathology which is what they do in the

535

00:22:11,310 --> 00:22:08,890

office said whoever you're not in every

536

00:22:13,500 --> 00:22:11,320

office so he sends it down and he says

537

00:22:15,660 --> 00:22:13,510

call me in a week ok so a week later I

538

00:22:19,410 --> 00:22:15,670

called and let me ask you a question

539

00:22:21,900 --> 00:22:19,420

okay when you yeah when you call a

540

00:22:24,360 --> 00:22:21,910

doctor's office how many times is a

541

00:22:26,520 --> 00:22:24,370

doctor get on the phone with you never

542

00:22:28,680 --> 00:22:26,530

talk to you never you're always talking

543

00:22:31,500 --> 00:22:28,690

to an assistant or whatever I called up

544

00:22:34,500 --> 00:22:31,510

and I said yeah it's a mark dantonio i'm

545

00:22:37,230 --> 00:22:34,510

calling dr. layman's to to get a report

546

00:22:41,550 --> 00:22:37,240

on that thing he took out of my nose oh

547

00:22:44,130 --> 00:22:41,560

yes hold on hold on and the doctor got

548

00:22:45,690 --> 00:22:44,140

right on the phone with me it is yeah hi

549

00:22:47,580 --> 00:22:45,700

marcus knocked away mean he goes I just

550

00:22:48,900 --> 00:22:47,590

won't let you know um you know there's

551
00:22:50,550 --> 00:22:48,910
nothing wrong with it's a benign thing

552
00:22:51,900 --> 00:22:50,560
you don't have to worry but there wasn't

553
00:22:53,850 --> 00:22:51,910
something quite right in his voice I

554
00:22:55,110 --> 00:22:53,860
said well you do have the report I'm

555
00:22:59,790 --> 00:22:55,120
just curious I'd like to get a copy of

556
00:23:02,280 --> 00:22:59,800
it if I could and he says well what

557
00:23:04,980 --> 00:23:02,290
about what hey I started the laugh

558
00:23:07,500 --> 00:23:04,990
because I I didn't expect this but you

559
00:23:09,960 --> 00:23:07,510
know it was just I figured off my luck

560
00:23:12,420 --> 00:23:09,970
is how I was thinking and um he says

561
00:23:15,450 --> 00:23:12,430
well to be honest he goes and like I

562
00:23:17,220 --> 00:23:15,460
said it's benign he goes but this has

563
00:23:20,850 --> 00:23:17,230

never happened in my office before but I

564

00:23:24,270 --> 00:23:20,860

just gotta tell you um I sent it down

565

00:23:26,070 --> 00:23:24,280

the pathology they received this but

566

00:23:29,039 --> 00:23:26,080

apparently they've lost it

567

00:23:30,870 --> 00:23:29,049

of course yeah well that's that's what i

568

00:23:32,940 --> 00:23:30,880

said i didn't say of course i said oh i

569

00:23:34,409 --> 00:23:32,950

said you know i almost could have

570

00:23:36,120 --> 00:23:34,419

guessed something like that i mean it

571

00:23:38,070 --> 00:23:36,130

was a long time ago i remember exactly

572

00:23:40,919 --> 00:23:38,080

what he said but I remember expressing

573

00:23:44,610 --> 00:23:40,929

my you know you know discomfort with the

574

00:23:46,289 --> 00:23:44,620

fact that it was lost and he says but

575

00:23:48,000 --> 00:23:46,299

I'm just like to know it's benign is

576

00:23:51,000 --> 00:23:48,010

nothing was just a regular paula p thing

577

00:23:53,159 --> 00:23:51,010

again okay fine so I let it go okay now

578

00:23:58,340 --> 00:23:53,169

five years later I had to go back to him

579

00:24:01,950 --> 00:23:58,350

for something else and this is when uh

580

00:24:03,899 --> 00:24:01,960

the the the real my real understanding

581

00:24:06,330 --> 00:24:03,909

came came out from from what he had done

582

00:24:07,710 --> 00:24:06,340

or what had happened so he comes in he

583

00:24:10,230 --> 00:24:07,720

talks to me does this thing looks at me

584

00:24:12,360 --> 00:24:10,240

I'm fine writing checks me out and then

585

00:24:14,639 --> 00:24:12,370

he goes so you still doing those though

586

00:24:16,529 --> 00:24:14,649

that that Navy work and I said oh yeah

587

00:24:18,840 --> 00:24:16,539

yeah I'm still doing that I still do you

588

00:24:20,519 --> 00:24:18,850

know an occasion I do that know that a

589

00:24:22,529 --> 00:24:20,529

special Navy work that you know we don't

590

00:24:25,560 --> 00:24:22,539

really get to talk about yeah and he

591

00:24:28,019 --> 00:24:25,570

says interesting and he goes over and he

592

00:24:29,700 --> 00:24:28,029

shuts the door exam room I'm sitting on

593

00:24:31,019 --> 00:24:29,710

the exam table because he would always

594

00:24:33,389 --> 00:24:31,029

leave it open a little bit it was sort

595

00:24:35,580 --> 00:24:33,399

of like the a sort of a country doctor

596

00:24:37,259 --> 00:24:35,590

approach and ran an open office it was

597

00:24:39,210 --> 00:24:37,269

actually very comforting was a good you

598

00:24:40,740 --> 00:24:39,220

know a good feel for that office you

599

00:24:43,740 --> 00:24:40,750

know we didn't lock you in the room with

600

00:24:47,070 --> 00:24:43,750

door was always open and uh he came in

601
00:24:49,950 --> 00:24:47,080
and he sat down on the exam table right

602
00:24:51,960 --> 00:24:49,960
next to me now first of all that was

603
00:24:54,509 --> 00:24:51,970
like okay this is like getting really

604
00:24:55,980 --> 00:24:54,519
awkward very fast what is this about he

605
00:24:58,169 --> 00:24:55,990
hopped up on the table right next to me

606
00:25:02,850 --> 00:24:58,179
and he says to me I have to tell you

607
00:25:05,129 --> 00:25:02,860
something and I go what he goes I just

608
00:25:10,110 --> 00:25:05,139
gave up my top secret clearance this

609
00:25:12,299 --> 00:25:10,120
year he laughs he laughs now I'm looking

610
00:25:13,799 --> 00:25:12,309
at him gone in my head I'm smiling on

611
00:25:15,600 --> 00:25:13,809
the outside in my head I'm going you got

612
00:25:18,860 --> 00:25:15,610
son of I've gotten you I can't believe

613
00:25:21,120 --> 00:25:18,870

you so now I know what happened okay um

614

00:25:22,860 --> 00:25:21,130

the conditions of a clearance are that

615

00:25:24,269 --> 00:25:22,870

if anything happens that you think other

616

00:25:27,149 --> 00:25:24,279

people should know about that you need

617

00:25:29,909 --> 00:25:27,159

to disclose it under penalty of law um

618

00:25:32,070 --> 00:25:29,919

especially if it has to do with national

619

00:25:36,090 --> 00:25:32,080

national security or what-have-you so I

620

00:25:38,460 --> 00:25:36,100

guessed that he probably said that the

621

00:25:39,990 --> 00:25:38,470

you know I can't prove this no no one

622

00:25:42,480 --> 00:25:40,000

can that the pathology group

623

00:25:44,970 --> 00:25:42,490

you know didn't get it but he sent it on

624

00:25:46,350 --> 00:25:44,980

to somebody else whether there's

625

00:25:47,970 --> 00:25:46,360

anything there or not whether there was

626

00:25:49,230 --> 00:25:47,980

anything inside of it or not I believe

627

00:25:51,090 --> 00:25:49,240

he probably sent it on to someone else

628

00:25:54,680 --> 00:25:51,100

because he had to under the conditions

629

00:25:59,180 --> 00:25:54,690

of his clearance okay and he told me how

630

00:26:02,310 --> 00:25:59,190

you know he was in charge of the only a

631

00:26:05,340 --> 00:26:02,320

naval group in the Pacific Ocean ever to

632

00:26:09,600 --> 00:26:05,350

shoot a satellite out of the sky with a

633

00:26:12,180 --> 00:26:09,610

nuclear weapon whoa oh yeah and I said

634

00:26:14,100 --> 00:26:12,190

that's against like every salt treaty in

635

00:26:16,290 --> 00:26:14,110

existence you can fire nuclear weapons

636

00:26:19,350 --> 00:26:16,300

in his space i said and he smiled and

637

00:26:21,180 --> 00:26:19,360

goes we did it he says I was right there

638

00:26:23,040 --> 00:26:21,190

I was the guy in charge of a figure what

639

00:26:24,720 --> 00:26:23,050

he told me like trajectory or nuclear

640

00:26:25,980 --> 00:26:24,730

something or other with I said but

641

00:26:28,200 --> 00:26:25,990

you're an ear nose and throat surgeon he

642

00:26:31,950 --> 00:26:28,210

goes that was after after the Navy oh

643

00:26:35,130 --> 00:26:31,960

wow yeah so it was interesting to hear

644

00:26:37,770 --> 00:26:35,140

his whole admission and it's like I

645

00:26:39,270 --> 00:26:37,780

could tell it this guy was probably just

646

00:26:43,260 --> 00:26:39,280

looking for someone to tell that story

647

00:26:45,690 --> 00:26:43,270

to but he said yeah we cleared 1,300

648

00:26:48,780 --> 00:26:45,700

miles of Pacific Ocean he said in every

649

00:26:51,720 --> 00:26:48,790

direction from our ship he goes and I

650

00:26:54,390 --> 00:26:51,730

said you fired this from a ship I said

651
00:26:57,360 --> 00:26:54,400
how can you reach orbit from a ship and

652
00:27:02,130 --> 00:26:57,370
he just smiled so I part of me thinks

653
00:27:04,590 --> 00:27:02,140
that part of his story is not fabricated

654
00:27:06,330 --> 00:27:04,600
but just misremembered perhaps and there

655
00:27:07,800 --> 00:27:06,340
was more going on there than he

656
00:27:11,910 --> 00:27:07,810
remembers or something like that because

657
00:27:14,550 --> 00:27:11,920
you know my background obviously I've

658
00:27:16,200 --> 00:27:14,560
studied you know manned spaceflight in

659
00:27:18,030 --> 00:27:16,210
the conditions which it takes to achieve

660
00:27:22,100 --> 00:27:18,040
orbit or to just get something up that

661
00:27:25,380 --> 00:27:22,110
high and I I don't think you can shoot a

662
00:27:29,250 --> 00:27:25,390
you know something out of the sky like

663
00:27:32,160 --> 00:27:29,260

that you know from a ship okay but

664

00:27:34,560 --> 00:27:32,170

that's what he claimed and I who knows

665

00:27:36,900 --> 00:27:34,570

but the remark let's stop let's stop

666

00:27:38,490 --> 00:27:36,910

we're talking UFOs really aliens

722

00:31:14,480 --> 00:31:12,320

everything under the Sun tonight and

723

00:31:16,700 --> 00:31:14,490

can't get a listener question he's going

724

00:31:18,830 --> 00:31:16,710

to ask mark here so go ahead Ken yeah

725

00:31:21,770 --> 00:31:18,840

it's bill from New York and he asked a

726

00:31:25,150 --> 00:31:21,780

really good ? he wanted to know that do

727

00:31:27,920 --> 00:31:25,160

you think moons for instance like Europa

728

00:31:30,590 --> 00:31:27,930

are likely to have some type of

729

00:31:32,600 --> 00:31:30,600

life-form beneath the ice sheet yeah

730

00:31:37,100 --> 00:31:32,610

that's a that is a wonderful question

731

00:31:38,120 --> 00:31:37,110

thanks Bill you know because in my book

732

00:31:40,010 --> 00:31:38,130

will be out soon it's called the

733

00:31:42,650 --> 00:31:40,020

populated universe and in that book I

734

00:31:45,800 --> 00:31:42,660

talk about Europa I talk about Saturn's

735

00:31:48,380 --> 00:31:45,810

moon Enceladus I talk about Titan and I

736

00:31:50,420 --> 00:31:48,390

talk about how we seem to be finding the

737

00:31:52,400 --> 00:31:50,430

building blocks of life everywhere we

738

00:31:54,530 --> 00:31:52,410

look they're in meteorites that hit the

739

00:31:56,960 --> 00:31:54,540

earth they hit the earth with comets

740

00:31:58,850 --> 00:31:56,970

that come into our atmosphere and strike

741

00:32:01,460 --> 00:31:58,860

the earth of which trillions have hit us

742

00:32:04,840 --> 00:32:01,470

in the past we are first developing the

743

00:32:07,910 --> 00:32:04,850

Europa is an interesting moon because

744

00:32:09,530 --> 00:32:07,920

for its size we didn't really expect to

745

00:32:15,140 --> 00:32:09,540

find what we found and that is

746

00:32:19,640 --> 00:32:15,150

underneath this thick mantle of ice we

747

00:32:24,080 --> 00:32:19,650

found a 100 mile deep ocean now this

748

00:32:26,600 --> 00:32:24,090

ocean looks like based on some of the

749

00:32:29,630 --> 00:32:26,610

the spectroscopy or the spectral

750

00:32:32,960 --> 00:32:29,640

analysis of the moon looks like it might

751
00:32:35,090 --> 00:32:32,970
be highly oxygenated now before you leap

752
00:32:37,400 --> 00:32:35,100
to the conclusion of Wow oxygen that

753
00:32:39,230 --> 00:32:37,410
means it could be fish or other life we

754
00:32:41,570 --> 00:32:39,240
also have to understand that a lot of

755
00:32:45,770 --> 00:32:41,580
oxygen in the water can also make water

756
00:32:48,500 --> 00:32:45,780
acidic and so it might be an acid broth

757
00:32:49,520 --> 00:32:48,510
under there of sorts and not like a

758
00:32:51,140 --> 00:32:49,530
sulfuric acid

759
00:32:53,330 --> 00:32:51,150
but it could be a little bit acidic but

760
00:32:55,430 --> 00:32:53,340
we don't know and that's the that's

761
00:32:57,410 --> 00:32:55,440
still to be determined but yes if you

762
00:33:00,050 --> 00:32:57,420
look in the fishers of Europa the deep

763
00:33:03,980 --> 00:33:00,060

cracks and on the surface you see these

764

00:33:06,190 --> 00:33:03,990

brown spots and brown striations you

765

00:33:09,470 --> 00:33:06,200

know we call those freckles okay we

766

00:33:11,390 --> 00:33:09,480

nicknamed them freckles okay is as the

767

00:33:13,730 --> 00:33:11,400

explorers of Europa from a distance

768

00:33:15,980 --> 00:33:13,740

right yeah and these freckles are

769

00:33:18,470 --> 00:33:15,990

actually areas where hydrocarbons and

770

00:33:20,330 --> 00:33:18,480

other organic type materials are

771

00:33:25,220 --> 00:33:20,340

actually percolating through fissures in

772

00:33:26,810 --> 00:33:25,230

the ice and coming up and depositing on

773

00:33:30,140 --> 00:33:26,820

the surface of Europa now your oppa has

774

00:33:32,180 --> 00:33:30,150

no atmosphere so basically think of it

775

00:33:34,160 --> 00:33:32,190

as negative pressure at the surface so

776

00:33:35,750 --> 00:33:34,170

basically the water that's underneath

777

00:33:38,600 --> 00:33:35,760

the surface is actually being sucked up

778

00:33:41,240 --> 00:33:38,610

through those fissures and bringing with

779

00:33:44,470 --> 00:33:41,250

it material okay now in part it could be

780

00:33:47,480 --> 00:33:44,480

that there's pressure inside caused by

781

00:33:49,700 --> 00:33:47,490

you know Jupiter's gravitational pull

782

00:33:51,350 --> 00:33:49,710

and the differential pull on the moon

783

00:33:53,720 --> 00:33:51,360

could be heating up the interior while

784

00:33:55,700 --> 00:33:53,730

we know it is heating up the interior it

785

00:33:57,770 --> 00:33:55,710

slightly deforms the moon a little bit

786

00:34:00,890 --> 00:33:57,780

and so that can cause some of the cracks

787

00:34:02,870 --> 00:34:00,900

and some of the activity we see but it's

788

00:34:05,270 --> 00:34:02,880

really fascinating to understand that

789

00:34:08,540 --> 00:34:05,280

we've actually found on ocean deep under

790

00:34:10,940 --> 00:34:08,550

the ice on Europa now let's not stop at

791

00:34:13,399 --> 00:34:10,950

Europa let's look at Enceladus another

792

00:34:16,490 --> 00:34:13,409

moon it's only 300 plus miles across and

793

00:34:21,530 --> 00:34:16,500

sell this and at 300 plus miles across

794

00:34:24,169 --> 00:34:21,540

its South Pole shows us geysers little

795

00:34:27,550 --> 00:34:24,179

volcano and these volcanoes are of ice

796

00:34:29,480 --> 00:34:27,560

water and of other hydrocarbons and

797

00:34:31,700 --> 00:34:29,490

we're seeing carbon based compounds

798

00:34:33,710 --> 00:34:31,710

spewing all over the South Pole this

799

00:34:35,840 --> 00:34:33,720

tiny little moon that has no business

800

00:34:39,290 --> 00:34:35,850

with life's building blocks but there

801
00:34:41,270 --> 00:34:39,300
they are Titans the same way all right

802
00:34:42,710 --> 00:34:41,280
we see the earth as it might have been

803
00:34:46,190 --> 00:34:42,720
in a primitive state although a lot

804
00:34:48,560 --> 00:34:46,200
colder you know so my the point is and

805
00:34:51,320 --> 00:34:48,570
build a question is wonderful because it

806
00:34:53,899 --> 00:34:51,330
really does help to point out that these

807
00:34:56,510 --> 00:34:53,909
building blocks you know hydrocarbons

808
00:34:58,370 --> 00:34:56,520
amino acids okay member amino acids are

809
00:35:00,470 --> 00:34:58,380
the foundation of all our life right of

810
00:35:03,170 --> 00:35:00,480
course and no the next thing we'd want

811
00:35:05,270 --> 00:35:03,180
to find our proteins okay and maybe some

812
00:35:07,130 --> 00:35:05,280
tie chains and you know who knows what

813
00:35:08,540 --> 00:35:07,140

we're gonna find we get out there we

814

00:35:10,579 --> 00:35:08,550

might be able to send a probe out to

815

00:35:12,859 --> 00:35:10,589

Europa and discover that deep under the

816

00:35:16,460 --> 00:35:12,869

water well who knows we might actually

817

00:35:19,790 --> 00:35:16,470

find a species of animal of some kind

818

00:35:23,089 --> 00:35:19,800

maybe it's a microbe a microbial life

819

00:35:24,470 --> 00:35:23,099

but either way there is one term we

820

00:35:26,089 --> 00:35:24,480

would have to apply to any life that

821

00:35:27,559 --> 00:35:26,099

would live in such an environment and

822

00:35:31,819 --> 00:35:27,569

you know what that term is it's called

823

00:35:35,270 --> 00:35:31,829

an extreme of life in those types

824

00:35:37,760 --> 00:35:35,280

of environments has to endure hostile

825

00:35:40,250 --> 00:35:37,770

conditions that we can't imagine just

826

00:35:41,839 --> 00:35:40,260

like in our deep oceans we would never

827

00:35:46,190 --> 00:35:41,849

have thought about looking at europa by

828

00:35:49,010 --> 00:35:46,200

the way okay if we didn't find life

829

00:35:50,870 --> 00:35:49,020

clustered around these sulfide chimneys

830

00:35:53,329 --> 00:35:50,880

deep in the ocean you know volcanic

831

00:35:55,460 --> 00:35:53,339

event events right mean that is correct

832

00:35:58,339 --> 00:35:55,470

that water's coming out at 900 degrees

833

00:36:01,130 --> 00:35:58,349

and it's laden with minerals and there's

834

00:36:03,020 --> 00:36:01,140

this beautiful hydrogen sulfide bacteria

835

00:36:05,150 --> 00:36:03,030

that just love eating this back yeah

836

00:36:07,670 --> 00:36:05,160

they love eating this hydrogen sulfide

837

00:36:11,900 --> 00:36:07,680

coming out of the vents and the bacteria

838

00:36:13,880 --> 00:36:11,910

are then eaten by other filter feeders

839

00:36:15,530 --> 00:36:13,890

and other creatures like those two worms

840

00:36:17,180 --> 00:36:15,540

that are down there and then the clams

841

00:36:20,299 --> 00:36:17,190

of course are down there and the crabs

842

00:36:22,730 --> 00:36:20,309

it creates this little oasis now as that

843

00:36:24,680 --> 00:36:22,740

hot spot moves okay in other words as

844

00:36:27,890 --> 00:36:24,690

the tectonic plate is moving along the

845

00:36:30,200 --> 00:36:27,900

mantle that hot spot shifts so you can

846

00:36:32,180 --> 00:36:30,210

literally see a trail of the current

847

00:36:34,670 --> 00:36:32,190

sulfide chimney and our ocean floor

848

00:36:36,950 --> 00:36:34,680

followed behind by all the ones that

849

00:36:40,130 --> 00:36:36,960

were alive at one point and now long

850

00:36:42,049 --> 00:36:40,140

since dead so it's interesting to see

851

00:36:43,430 --> 00:36:42,059

that progression when we look in the

852

00:36:45,740 --> 00:36:43,440

ocean floor in the same way you look in

853

00:36:47,510 --> 00:36:45,750

the Yellowstone National Park basin you

854

00:36:50,569 --> 00:36:47,520

can actually track the hot spots where

855

00:36:52,099 --> 00:36:50,579

the Yellowstone lava plume is sitting

856

00:36:54,170 --> 00:36:52,109

underneath our tectonic plate you can

857

00:36:56,000 --> 00:36:54,180

find all the earlier hot spots were had

858

00:36:57,799 --> 00:36:56,010

poked through and and had done things

859

00:36:59,359 --> 00:36:57,809

and had even an eruption some years so

860

00:37:02,870 --> 00:36:59,369

hundreds of thousands of years ago and

861

00:37:05,089 --> 00:37:02,880

then where it is right now so you know

862

00:37:07,430 --> 00:37:05,099

you actually contract that based on our

863

00:37:09,950 --> 00:37:07,440

tectonic plate movement now on Europa

864

00:37:12,200 --> 00:37:09,960

there's no tectonic plates but we do

865

00:37:13,549 --> 00:37:12,210

have the gravity of Jupiter pulling and

866

00:37:16,020 --> 00:37:13,559

tugging on the planet that actually

867

00:37:18,030 --> 00:37:16,030

deforms it I say planet it's a moon

868

00:37:20,090 --> 00:37:18,040

okay that actually deforms the planet

869

00:37:21,990 --> 00:37:20,100

and makes it a little bit elongated

870

00:37:25,260 --> 00:37:22,000

depending on where it is in its orbit

871

00:37:27,390 --> 00:37:25,270

and that puts tremendous stresses and

872

00:37:29,670 --> 00:37:27,400

pressures on to the planet both on the

873

00:37:32,100 --> 00:37:29,680

exterior and the interior core and that

874

00:37:35,970 --> 00:37:32,110

heats it up that heats up the water that

875

00:37:37,560 --> 00:37:35,980

causes things to happen it causes a you

876

00:37:38,930 --> 00:37:37,570

know convection perhaps where there's

877

00:37:41,820 --> 00:37:38,940

different currents that are moving so

878

00:37:46,350 --> 00:37:41,830

it's not stagnant water it's moving it's

879

00:37:49,410 --> 00:37:46,360

doing things so Europa presents an

880

00:37:52,680 --> 00:37:49,420

amazing opportunity for us to go look

881

00:37:55,560 --> 00:37:52,690

for of true form of extremely file life

882

00:37:59,460 --> 00:37:55,570

unlike anything we've ever seen no it's

883

00:38:02,520 --> 00:37:59,470

very very very good mark now using you

884

00:38:05,070 --> 00:38:02,530

you have heard by the way that uh we've

885

00:38:09,090 --> 00:38:05,080

also discovered that right here on our

886

00:38:10,800 --> 00:38:09,100

own earth deep under our crust is a

887

00:38:13,890 --> 00:38:10,810

whole nother ocean we didn't even know

888

00:38:17,400 --> 00:38:13,900

about your where that oh you know I

889

00:38:20,370 --> 00:38:17,410

wasn't oh you don't know about the the

890

00:38:23,580 --> 00:38:20,380

the the underground ocean now wow this

891

00:38:27,380 --> 00:38:23,590

was a discovery that was made oh gosh

892

00:38:32,190 --> 00:38:27,390

and try to remember the exact exact date

893

00:38:33,570 --> 00:38:32,200

of this discovery and I can tie in two

894

00:38:36,090 --> 00:38:33,580

seconds here because i think it's worth

895

00:38:41,220 --> 00:38:36,100

talking about um first of all just

896

00:38:44,070 --> 00:38:41,230

imagine that the oceans we know yeah

897

00:38:46,230 --> 00:38:44,080

they have an ocean floor right okay now

898

00:38:50,910 --> 00:38:46,240

just imagine if you looked and

899

00:38:52,920 --> 00:38:50,920

discovered that somewhere far deeper

900

00:38:56,760 --> 00:38:52,930

than the bottom of the deepest ocean you

901
00:38:58,830 --> 00:38:56,770
actually have more water in fact so much

902
00:39:01,500 --> 00:38:58,840
more water that it's three times the

903
00:39:04,620 --> 00:39:01,510
size of all of our oceans combined holy

904
00:39:06,210 --> 00:39:04,630
moly right and that's what we're

905
00:39:08,490 --> 00:39:06,220
actually looking at this is water that's

906
00:39:12,230 --> 00:39:08,500
sitting right around the just just above

907
00:39:16,020 --> 00:39:12,240
that upper mantle area on the earth ok

908
00:39:19,020 --> 00:39:16,030
so it's around say in some places say

909
00:39:22,920 --> 00:39:19,030
three miles under the ocean floor and in

910
00:39:25,140 --> 00:39:22,930
other places it's deeper okay but it's

911
00:39:26,760 --> 00:39:25,150
really amazing to consider this and and

912
00:39:28,230 --> 00:39:26,770
and to understand that that's there now

913
00:39:29,349 --> 00:39:28,240

the water isn't just sitting there in

914

00:39:32,620 --> 00:39:29,359

the big open ocean

915

00:39:36,910 --> 00:39:32,630

it's actually trapped in a mineral down

916

00:39:38,859 --> 00:39:36,920

there but it is a collection it is not

917

00:39:41,890 --> 00:39:38,869

just you know a little water here little

918

00:39:44,880 --> 00:39:41,900

water there it is a large concentration

919

00:39:48,759 --> 00:39:44,890

of water so it's really a fascinating

920

00:39:52,059 --> 00:39:48,769

discovery and the actual the actual

921

00:39:55,180 --> 00:39:52,069

discovery yeah I'm trying to look at it

922

00:39:58,950 --> 00:39:55,190

yeah it's like 600 and it was round 620

923

00:40:01,329 --> 00:39:58,960

miles down is where they found it oh wow

924

00:40:05,650 --> 00:40:01,339

okay so if you think about it that's

925

00:40:11,019 --> 00:40:05,660

that's really way down yeah yeah pretty

926
00:40:11,799 --> 00:40:11,029
warm water oh yeah so anyway as I I just

927
00:40:13,779 --> 00:40:11,809
thought that was kind of interesting

928
00:40:15,069 --> 00:40:13,789
interesting discovery because here we

929
00:40:16,509 --> 00:40:15,079
are on this very planet and we're

930
00:40:18,819 --> 00:40:16,519
reaching out all the way outside the

931
00:40:21,069 --> 00:40:18,829
solar system already with pioneer in the

932
00:40:22,809 --> 00:40:21,079
voyagers already having left the solar

933
00:40:24,400 --> 00:40:22,819
system mm-hmm and we only just

934
00:40:27,400 --> 00:40:24,410
discovered something new about our earth

935
00:40:28,960 --> 00:40:27,410
its major in just the last year oh I

936
00:40:32,890 --> 00:40:28,970
think there's more discoveries to come

937
00:40:38,140 --> 00:40:32,900
to our you betcha you betcha yeah well

938
00:40:41,380 --> 00:40:38,150

let a mark I do you think that et has

939

00:40:42,970 --> 00:40:41,390

has been here and is coming here well

940

00:40:45,460 --> 00:40:42,980

you know that's another another good

941

00:40:47,529 --> 00:40:45,470

point that I make like what I have a

942

00:40:49,569 --> 00:40:47,539

talk I do around the country and on

943

00:40:54,069 --> 00:40:49,579

exoplanets which is my astronomical

944

00:40:58,180 --> 00:40:54,079

specialty and exoplanets offer us the

945

00:41:00,670 --> 00:40:58,190

opportunity to get a statistical guess

946

00:41:02,529 --> 00:41:00,680

in place for whether we think there's

947

00:41:05,410 --> 00:41:02,539

life elsewhere life that's intelligent

948

00:41:07,749 --> 00:41:05,420

and based on what we see we think there

949

00:41:09,489 --> 00:41:07,759

might be just in our own galaxy of 400

950

00:41:13,739 --> 00:41:09,499

plus billion stars we think we might

951
00:41:17,140 --> 00:41:13,749
have say between 17 and 20 billion

952
00:41:19,779 --> 00:41:17,150
billion with a besom Bravo earth-like

953
00:41:21,190 --> 00:41:19,789
planets now that means planets in the

954
00:41:23,380 --> 00:41:21,200
habitable zone they're not too hot not

955
00:41:25,839 --> 00:41:23,390
too cold area around their star double

956
00:41:28,180 --> 00:41:25,849
dongs that's gray exactly correct the

957
00:41:29,739 --> 00:41:28,190
Goldilocks zone where liquid water can

958
00:41:32,049 --> 00:41:29,749
be present on the surface of the planet

959
00:41:34,630 --> 00:41:32,059
now liquid water was a prerequisite for

960
00:41:38,170 --> 00:41:34,640
us it doesn't necessarily mean it was a

961
00:41:42,309 --> 00:41:38,180
prerequisite for other species but water

962
00:41:43,270 --> 00:41:42,319
does have a way of bringing a mixture

963
00:41:45,520 --> 00:41:43,280

together in a

964

00:41:48,640 --> 00:41:45,530

universe cauldron that seems to generate

965

00:41:51,520 --> 00:41:48,650

life I mean we cannot deny that because

966

00:41:56,310 --> 00:41:51,530

even the miller-urey experiment and you

967

00:41:58,660 --> 00:41:56,320

know that was carried out in the 50s

968

00:42:01,120 --> 00:41:58,670

illustrated that by the primordial

969

00:42:03,280 --> 00:42:01,130

atmosphere with water and bombarded with

970

00:42:06,990 --> 00:42:03,290

lightning could create amino acids so

971

00:42:09,310 --> 00:42:07,000

clearly the primordial atmosphere and

972

00:42:13,450 --> 00:42:09,320

lightning generated the building blocks

973

00:42:16,630 --> 00:42:13,460

of life by itself so you know we have

974

00:42:19,270 --> 00:42:16,640

evidence that life probably exists

975

00:42:22,420 --> 00:42:19,280

elsewhere we even suspect that maybe

976

00:42:24,640 --> 00:42:22,430

life intelligent life could exist and I

977

00:42:26,020 --> 00:42:24,650

do this really cool analogy where I take

978

00:42:27,760 --> 00:42:26,030

a whole roll of toilet paper and I

979

00:42:30,400 --> 00:42:27,770

illustrate on it the entire history of

980

00:42:33,790 --> 00:42:30,410

just the earth now the earth is just

981

00:42:37,570 --> 00:42:33,800

over a third of the universe's age okay

982

00:42:41,590 --> 00:42:37,580

and uh it didn't you know the universe

983

00:42:44,050 --> 00:42:41,600

had already existed for you know seven

984

00:42:49,360 --> 00:42:44,060

or eight billion years before the earth

985

00:42:50,920 --> 00:42:49,370

formed so when you look at you know when

986

00:42:52,810 --> 00:42:50,930

you look at the earth 4.6 billion years

987

00:42:55,270 --> 00:42:52,820

ago when you go the whole hundred and

988

00:42:57,490 --> 00:42:55,280

seventeen feet long of Earth history

989

00:43:00,850 --> 00:42:57,500

we're on the very last sheet of course

990

00:43:03,310 --> 00:43:00,860

in a line that on a scale of 117 feet is

991

00:43:05,440 --> 00:43:03,320

only point 01 millimeter in thickness

992

00:43:08,170 --> 00:43:05,450

and I did mix up the unit Sonya there

993

00:43:10,990 --> 00:43:08,180

sorry but point 01 millimeter in

994

00:43:14,170 --> 00:43:11,000

thickness so really you know a hundredth

995

00:43:16,630 --> 00:43:14,180

of a millimeter in thickness is the

996

00:43:18,370 --> 00:43:16,640

existence of man from ancient Sumer to

997

00:43:21,400 --> 00:43:18,380

the present day five or 6,000 years ago

998

00:43:22,660 --> 00:43:21,410

okay now that said what does that mean

999

00:43:25,090 --> 00:43:22,670

for extraterrestrial life and whether

1000

00:43:29,320 --> 00:43:25,100

they could have been here well on that

1001
00:43:30,790 --> 00:43:29,330
toilet paper um history one of the

1002
00:43:33,220 --> 00:43:30,800
things you have to keep in mind is that

1003
00:43:35,320 --> 00:43:33,230
we see a sliding window of planetary

1004
00:43:38,200 --> 00:43:35,330
formation we see planets just forming

1005
00:43:40,390 --> 00:43:38,210
now we see planets fully matured in

1006
00:43:41,770 --> 00:43:40,400
their star systems and we see planets

1007
00:43:45,520 --> 00:43:41,780
that have survived the death of their

1008
00:43:47,470 --> 00:43:45,530
stars in our planet hunts so this means

1009
00:43:49,810 --> 00:43:47,480
that there's planetary formation and

1010
00:43:51,400 --> 00:43:49,820
planetary death going on all throughout

1011
00:43:53,440 --> 00:43:51,410
the history of the universe from see

1012
00:43:56,440 --> 00:43:53,450
just a couple billion years after the

1013
00:43:58,270 --> 00:43:56,450

universe started what that means

1014

00:44:00,490 --> 00:43:58,280

is incredible because that means that a

1015

00:44:04,810 --> 00:44:00,500

civilization could have been where we

1016

00:44:06,400 --> 00:44:04,820

are now a billion years ago or a million

1017

00:44:07,750 --> 00:44:06,410

years ago in fact it's more likely that

1018

00:44:09,660 --> 00:44:07,760

it was a billion or more years ago

1019

00:44:11,980 --> 00:44:09,670

because of just the statistical

1020

00:44:14,440 --> 00:44:11,990

probabilities you know it's actually

1021

00:44:17,170 --> 00:44:14,450

less likely that there's a civilization

1022

00:44:18,400 --> 00:44:17,180

out there like us exactly you know

1023

00:44:19,569 --> 00:44:18,410

they're either going to be behind us or

1024

00:44:22,030 --> 00:44:19,579

ahead of us depending on when their

1025

00:44:23,319 --> 00:44:22,040

planets formed so that all said the

1026
00:44:25,630 --> 00:44:23,329
question whether they could be here or

1027
00:44:27,190 --> 00:44:25,640
not is I answer that this way well not

1028
00:44:31,109 --> 00:44:27,200
only could they have been here if you

1029
00:44:34,540 --> 00:44:31,119
look at just our statistical projections

1030
00:44:37,000 --> 00:44:34,550
they could have been here multiple times

1031
00:44:40,000 --> 00:44:37,010
multiple civilizations could have come

1032
00:44:42,760 --> 00:44:40,010
and gone left biological robots behind

1033
00:44:44,829 --> 00:44:42,770
