

Just Energy Radio

Brien Forester 3.0

Dr. Rita Louise

1
00:00:12,080 --> 00:00:02,240
you're locked into inception radio

2
00:00:14,180 --> 00:00:12,090
network superior Wisconsin welcome to

3
00:00:16,609 --> 00:00:14,190
Just Energy radio with your host

4
00:00:18,859 --> 00:00:16,619
naturopath and medical intuitive dr.

5
00:00:20,689 --> 00:00:18,869
Reid Louise we have learned from

6
00:00:23,509 --> 00:00:20,699
Einstein's theory that matter and energy

7
00:00:24,800 --> 00:00:23,519
are one physicists believe that all

8
00:00:27,080 --> 00:00:24,810
systems in nature have their own

9
00:00:28,910 --> 00:00:27,090
particular way of vibrating from the

10
00:00:30,620 --> 00:00:28,920
swinging of a pendulum to the waves of

11
00:00:32,900 --> 00:00:30,630
the ocean to the light that brightens

12
00:00:34,910 --> 00:00:32,910
the sky each day each of these

13
00:00:36,500 --> 00:00:34,920

oscillates at its own unique great the

14

00:00:39,229 --> 00:00:36,510

same holds true for every thought

15

00:00:40,930 --> 00:00:39,239

feeling event or word we speak each has

16

00:00:43,790 --> 00:00:40,940

its own frequency or rate of vibration

17

00:00:45,830 --> 00:00:43,800

what many of us don't realize is when we

18

00:00:49,330 --> 00:00:45,840

take everything in our universe down to

19

00:00:52,100 --> 00:00:49,340

its simplest form it is all just energy

20

00:00:54,590 --> 00:00:52,110

join dr. Louise on a journey through

21

00:00:57,439 --> 00:00:54,600

time and space where past present and

22

00:01:00,650 --> 00:00:57,449

future collide today what you believe

23

00:01:03,709 --> 00:01:00,660

may be called into question what we want

24

00:01:06,380 --> 00:01:03,719

to know is who made up the rules be

25

00:01:08,510 --> 00:01:06,390

brave and step outside the box we are

26
00:01:11,840 --> 00:01:08,520
about to turn our world upside down and

27
00:01:13,940 --> 00:01:11,850
venture into the unknown hold on we are

28
00:01:16,940 --> 00:01:13,950
departing our own beliefs and entering

29
00:01:21,399 --> 00:01:16,950
alternative realms enjoy the

30
00:01:25,880 --> 00:01:24,050
hello and welcome to just energy radio

31
00:01:27,800 --> 00:01:25,890
I'm your host dr. Reid Louise and thank

32
00:01:30,770 --> 00:01:27,810
you all for tuning into the show tonight

33
00:01:32,450 --> 00:01:30,780
Oh yet another great show we're going to

34
00:01:34,430 --> 00:01:32,460
be talking with my good friend Brian

35
00:01:36,020 --> 00:01:34,440
forest or about his new book which of

36
00:01:38,230 --> 00:01:36,030
course I don't have the title for in my

37
00:01:41,210 --> 00:01:38,240
hand but we're going to be talking about

38
00:01:42,260 --> 00:01:41,220

elongated skulls again not from what I

39

00:01:43,850 --> 00:01:42,270

understand there's some new

40

00:01:46,370 --> 00:01:43,860

groundbreaking information that we're

41

00:01:49,460 --> 00:01:46,380

going to be the first people to hear

42

00:01:51,200 --> 00:01:49,470

about it that's exciting Just Energy

43

00:01:52,969 --> 00:01:51,210

radios brought to you by soul healer

44

00:01:54,380 --> 00:01:52,979

calm where you can find out about all

45

00:01:56,870 --> 00:01:54,390

the products and services I offer

46

00:01:59,690 --> 00:01:56,880

including medical intuition evaluations

47

00:02:01,520 --> 00:01:59,700

energy healings or psychic readings so

48

00:02:03,710 --> 00:02:01,530

again if there's stuff going on in your

49

00:02:05,570 --> 00:02:03,720

life you got some health concerns you

50

00:02:08,479 --> 00:02:05,580

got issues that were problems in your

51
00:02:11,120 --> 00:02:08,489
relationship give me a call set the time

52
00:02:13,430 --> 00:02:11,130
for a private consultation we can dig

53
00:02:15,320 --> 00:02:13,440
right into your issues and help come up

54
00:02:16,970 --> 00:02:15,330
with some solutions to your problems

55
00:02:18,920 --> 00:02:16,980
it's also brought to you by the

56
00:02:22,850 --> 00:02:18,930
Institute of Applied energetics that's

57
00:02:24,770 --> 00:02:22,860
WWI energetics institute com where you

58
00:02:26,840 --> 00:02:24,780
can jump-start your intuition today by

59
00:02:33,890 --> 00:02:26,850
downloading their free 50 page guide

60
00:02:35,630 --> 00:02:33,900
that's WWI energetics institute com over

61
00:02:39,789 --> 00:02:35,640
the last several weeks I've been talking

62
00:02:42,650 --> 00:02:39,799
about how people can go to amazon.com

63
00:02:44,270 --> 00:02:42,660

and download my movie icon

64

00:02:46,100 --> 00:02:44,280

deconstructing the archetypes the

65

00:02:47,690 --> 00:02:46,110

ancients well one of the things that

66

00:02:51,170 --> 00:02:47,700

I've been doing over the last few weeks

67

00:02:53,990 --> 00:02:51,180

is putting some other videos up on

68

00:02:57,530 --> 00:02:54,000

amazon digital download and the newest

69

00:03:00,410 --> 00:02:57,540

one that has just hit amazon is called

70

00:03:04,759 --> 00:03:00,420

in the name of God where it looks at

71

00:03:08,060 --> 00:03:04,769

customs morals and laws from a

72

00:03:11,060 --> 00:03:08,070

universality point of view it was just

73

00:03:17,060 --> 00:03:11,070

released today so dollar ninety and I

74

00:03:21,190 --> 00:03:17,070

can't beat it in the name of God okay so

75

00:03:23,750 --> 00:03:21,200

let's get Brian on the air to let me I

76

00:03:27,380 --> 00:03:23,760

guess I should be organized today but I

77

00:03:29,899 --> 00:03:27,390

just not okay let me tell you a little

78

00:03:33,440 --> 00:03:29,909

bit about bry Forrester and we will

79

00:03:34,270 --> 00:03:33,450

bring him on the air Bryant Forrester is

80

00:03:36,610 --> 00:03:34,280

an authority

81

00:03:38,920 --> 00:03:36,620

on the megalithic work of South America

82

00:03:42,280 --> 00:03:38,930

and the perplexing ancient elongated

83

00:03:44,800 --> 00:03:42,290

head headed people of the area founder

84

00:03:47,920 --> 00:03:44,810

of hidden in Couture's brian divides his

85

00:03:50,380 --> 00:03:47,930

time between piratas Peru and Cusco and

86

00:03:53,770 --> 00:03:50,390

the surrounding area where he offers two

87

00:03:56,260 --> 00:03:53,780

tours of sacred sites his website also

88

00:03:59,500 --> 00:03:56,270

offers hours and I'm telling you people

89

00:04:02,830 --> 00:03:59,510

hours of footage which he shares with

90

00:04:05,290 --> 00:04:02,840

the mysteries of strains locations with

91

00:04:08,050 --> 00:04:05,300

all of us his webpage is hidden in

92

00:04:10,600 --> 00:04:08,060

Couture's com so please welcome back to

93

00:04:13,360 --> 00:04:10,610

Just Energy radio Brien Foerster hey

94

00:04:17,470 --> 00:04:13,370

Brian how are you hey dr. how about you

95

00:04:19,270 --> 00:04:17,480

I am excellent excellent excellent it is

96

00:04:22,330 --> 00:04:19,280

always so nice to have you on the show

97

00:04:24,550 --> 00:04:22,340

and have the opportunity to learn more

98

00:04:27,100 --> 00:04:24,560

about what is all going on with you and

99

00:04:29,469 --> 00:04:27,110

what you've learned since the last time

100

00:04:32,110 --> 00:04:29,479

you talked and I know that you have like

101
00:04:36,550 --> 00:04:32,120
some new information force that is like

102
00:04:39,250 --> 00:04:36,560
hot off the press and I I hope we're

103
00:04:40,900 --> 00:04:39,260
going to be able to get that far and you

104
00:04:42,670 --> 00:04:40,910
know because I want to kind of save it

105
00:04:46,960 --> 00:04:42,680
but then I'm afraid that if I save it

106
00:04:49,540 --> 00:04:46,970
won't get out but one of the things that

107
00:04:53,140 --> 00:04:49,550
I thought was really interesting is on

108
00:04:56,469 --> 00:04:53,150
the cover of your book elongated skulls

109
00:05:01,320 --> 00:04:56,479
there wasn't there's an image excuse me

110
00:05:04,120 --> 00:05:01,330
of you know what it looks like a

111
00:05:06,279 --> 00:05:04,130
reconstructed face you know of one of

112
00:05:08,080 --> 00:05:06,289
these elongated skulls has anybody gone

113
00:05:11,680 --> 00:05:08,090

and actually done a facial

114

00:05:15,279 --> 00:05:11,690

reconstruction on one of the skulls from

115

00:05:19,800 --> 00:05:15,289

South America well different people have

116

00:05:22,000 --> 00:05:19,810

tried I've seen some examples done by

117

00:05:25,240 --> 00:05:22,010

academics that are actually quite crude

118

00:05:28,000 --> 00:05:25,250

but there's a an artist called mark La

119

00:05:30,790 --> 00:05:28,010

Plume who is presently in the United

120

00:05:33,550 --> 00:05:30,800

States he's done at 3,000 or 4,000

121

00:05:35,680 --> 00:05:33,560

drawings of the elongated skulls from

122

00:05:38,260 --> 00:05:35,690

around the world and the one you're

123

00:05:44,380 --> 00:05:38,270

referring to is a 3d modeling done by

124

00:05:47,380 --> 00:05:44,390

Marcia que mujer y and so but that was

125

00:05:49,660 --> 00:05:47,390

based off of measurements from a real

126

00:05:51,640 --> 00:05:49,670

skull I mean it's not I mean I guess

127

00:05:57,430 --> 00:05:51,650

that's my biggest question because the

128

00:06:01,180 --> 00:05:57,440

cranium looks huge is twice the size of

129

00:06:04,930 --> 00:06:01,190

the face well what happens is that I

130

00:06:07,630 --> 00:06:04,940

send Marcia a number of photos of a

131

00:06:10,510 --> 00:06:07,640

specific skull and from that she's able

132

00:06:12,820 --> 00:06:10,520

to do a 3d model she's actually Native

133

00:06:16,540 --> 00:06:12,830

American herself so she's very used to

134

00:06:20,110 --> 00:06:16,550

the facial features of Native people at

135

00:06:22,420 --> 00:06:20,120

which we presume the Baracus are so I

136

00:06:26,800 --> 00:06:22,430

think she's done the finest rendition so

137

00:06:31,900 --> 00:06:26,810

far I mean I just think it really adds

138

00:06:34,330 --> 00:06:31,910

to the dilemma that we face when talking

139

00:06:36,280 --> 00:06:34,340

about some of these skulls because you

140

00:06:39,280 --> 00:06:36,290

see it's you know just the skull sitting

141

00:06:41,650 --> 00:06:39,290

on the shelf and it looks bizarre but

142

00:06:44,170 --> 00:06:41,660

then you actually give it features and

143

00:06:49,660 --> 00:06:44,180

it kind of takes it to a completely

144

00:06:52,600 --> 00:06:49,670

different level very much so ok so let

145

00:06:55,300 --> 00:06:52,610

me see us when we talk about elongated

146

00:06:59,110 --> 00:06:55,310

skulls I mean how far does it go back in

147

00:07:02,290 --> 00:06:59,120

time well in terms of cranial

148

00:07:04,480 --> 00:07:02,300

deformation which is where the baby's

149

00:07:07,570 --> 00:07:04,490

head has been bound in order to alter

150

00:07:11,230 --> 00:07:07,580

the shape that goes back possibly fifty

151
00:07:15,010 --> 00:07:11,240
thousand years into the middle eastern

152
00:07:17,980 --> 00:07:15,020
area specifically a cave in Iraq but in

153
00:07:21,100 --> 00:07:17,990
general the most common ones date from

154
00:07:25,720 --> 00:07:21,110
around two thousand to three thousand or

155
00:07:30,520 --> 00:07:25,730
so years ago so that would just make

156
00:07:35,020 --> 00:07:30,530
them about 1000 BC and are we talk well

157
00:07:39,300 --> 00:07:35,030
no you just solder Iraq um see I haven't

158
00:07:43,270 --> 00:07:39,310
ever seen that 50,000 number I've heard

159
00:07:49,930 --> 00:07:43,280
10,000 but let me ask cuz that's that

160
00:07:52,530 --> 00:07:49,940
shin our cave shannond our cave that's

161
00:07:57,400 --> 00:07:55,600
so is that well I just have a question

162
00:07:58,720 --> 00:07:57,410
like from a totally different thing is

163
00:08:02,620 --> 00:07:58,730

that where they found some of the

164

00:08:05,020 --> 00:08:02,630

earliest burials uh that's yeah very

165

00:08:10,930 --> 00:08:05,030

true and I think only one skull was ever

166

00:08:13,830 --> 00:08:10,940

found somewhat in bad condition but in

167

00:08:17,880 --> 00:08:13,840

general were you know we are talking in

168

00:08:23,430 --> 00:08:17,890

most commonly 2,000 years ago up to

169

00:08:26,440 --> 00:08:23,440

maybe 5,000 to possibly 10,000 years ago

170

00:08:28,960 --> 00:08:26,450

when you have like a number of them the

171

00:08:31,030 --> 00:08:28,970

the Shannon dark cave one is you know

172

00:08:35,050 --> 00:08:31,040

since only ones been found you can't

173

00:08:37,510 --> 00:08:35,060

really figure out much from it so it's

174

00:08:41,440 --> 00:08:37,520

just kind of in the big picture things

175

00:08:44,200 --> 00:08:41,450

and anomaly at this point time yeah

176

00:08:48,480 --> 00:08:44,210

basically I mean it is the oldest

177

00:08:51,160 --> 00:08:48,490

carbon-dated cranial ed formed skull but

178

00:08:54,370 --> 00:08:51,170

there's not a lot that you can you know

179

00:08:57,190 --> 00:08:54,380

conclude from one example whereas when

180

00:08:58,900 --> 00:08:57,200

you go to parts of Peru where you know

181

00:09:02,050 --> 00:08:58,910

hundreds of them have been found in

182

00:09:04,120 --> 00:09:02,060

specific cultures then of course you can

183

00:09:08,530 --> 00:09:04,130

figure out a lot more about who these

184

00:09:10,150 --> 00:09:08,540

people were how widespread it is it you

185

00:09:14,350 --> 00:09:10,160

brought forward so much information

186

00:09:16,690 --> 00:09:14,360

about the skulls and brew but from what

187

00:09:18,190 --> 00:09:16,700

I understand it's not just isolated to

188

00:09:22,450 --> 00:09:18,200

Peru I mean you were just talking about

189

00:09:24,820 --> 00:09:22,460

Iraq or Iran I mean how widespread was

190

00:09:28,720 --> 00:09:24,830

this practice around the around the

191

00:09:30,820 --> 00:09:28,730

world um it's been it's been found or

192

00:09:33,820 --> 00:09:30,830

skulls have been found that have been

193

00:09:37,600 --> 00:09:33,830

cradle ed formed on every continent

194

00:09:44,740 --> 00:09:37,610

except Antarctica so far well that's

195

00:09:48,790 --> 00:09:44,750

definitely the so far part yeah do we

196

00:09:50,410 --> 00:09:48,800

find just a few incidences I mean we're

197

00:09:52,660 --> 00:09:50,420

obviously going to get worn to the

198

00:09:57,220 --> 00:09:52,670

what's going on in Peru but do we find

199

00:10:01,030 --> 00:09:57,230

more instances in any other place than

200

00:10:03,190 --> 00:10:01,040

in Peru or was there some area in the

201
00:10:04,990 --> 00:10:03,200
world that it seemed to be a very common

202
00:10:09,330 --> 00:10:05,000
practice

203
00:10:12,010 --> 00:10:09,340
well that's a real complex question but

204
00:10:13,810 --> 00:10:12,020
for example a number of you know a

205
00:10:18,010 --> 00:10:13,820
number of elongated skulls have been

206
00:10:20,980 --> 00:10:18,020
found in Germany and Austria and parts

207
00:10:23,380 --> 00:10:20,990
of France and they're the result of the

208
00:10:26,020 --> 00:10:23,390
migration of the Hun people as in Attila

209
00:10:29,800 --> 00:10:26,030
bahan who practiced cranial deformation

210
00:10:33,160 --> 00:10:29,810
and they originated in the Caspian Sea

211
00:10:35,320 --> 00:10:33,170
area so that's the connect you know the

212
00:10:37,590 --> 00:10:35,330
connection with all of those that have

213
00:10:42,460 --> 00:10:37,600

been found in Europe are probably the

214

00:10:45,310 --> 00:10:42,470

movement of the Hun westward then you

215

00:10:48,190 --> 00:10:45,320

find anomalous ones in Australia that

216

00:10:50,710 --> 00:10:48,200

they have no idea who these people were

217

00:10:53,320 --> 00:10:50,720

they the ones in Australia clearly were

218

00:10:56,290 --> 00:10:53,330

not Aboriginal native people they seemed

219

00:10:58,810 --> 00:10:56,300

to be almost Caucasoid people so you're

220

00:11:04,840 --> 00:10:58,820

talking about an interesting migration

221

00:11:08,530 --> 00:11:04,850

there and then in in China and and that

222

00:11:14,320 --> 00:11:08,540

area it's a little more obscure in as

223

00:11:16,810 --> 00:11:14,330

regards origins one of the things they

224

00:11:18,700 --> 00:11:16,820

were asking in the chat room and I think

225

00:11:22,180 --> 00:11:18,710

you probably have more information on it

226

00:11:24,040 --> 00:11:22,190

than I do was elongated skulls in Egypt

227

00:11:26,290 --> 00:11:24,050

I know that for a really long time they

228

00:11:29,410 --> 00:11:26,300

thought you know everything started in

229

00:11:31,840 --> 00:11:29,420

Egypt and moved around the world have

230

00:11:34,540 --> 00:11:31,850

there been a lot of elongated skulls

231

00:11:37,750 --> 00:11:34,550

found in that region that's a great

232

00:11:40,780 --> 00:11:37,760

question and the answer is no none of

233

00:11:43,270 --> 00:11:40,790

the Egypt researchers that I know such

234

00:11:46,690 --> 00:11:43,280

as Stephen Mahler have ever seen one

235

00:11:50,140 --> 00:11:46,700

example of an actual elongated skull in

236

00:11:52,990 --> 00:11:50,150

Egypt I found a photograph of one in a

237

00:11:57,310 --> 00:11:53,000

collection in England but its provenance

238

00:11:58,900 --> 00:11:57,320

is unknown so what you're talking about

239

00:12:02,380 --> 00:11:58,910

in Egypt is you're talking about an

240

00:12:05,940 --> 00:12:02,390

artistic portrayal mainly during the

241

00:12:09,010 --> 00:12:05,950

time of Akhenaten but as regards actual

242

00:12:11,260 --> 00:12:09,020

elongated skulls I'm hoping someday

243

00:12:15,130 --> 00:12:11,270

we'll find a number of them but so far

244

00:12:17,260 --> 00:12:15,140

the number appears to be zero even

245

00:12:20,260 --> 00:12:17,270

Akhenaten and Tutankhamun

246

00:12:23,130 --> 00:12:20,270

didn't have elongated skulls well

247

00:12:26,320 --> 00:12:23,140

actually Tutankhamun's skull I've seen

248

00:12:30,190 --> 00:12:26,330

two or three times and it is different

249

00:12:33,220 --> 00:12:30,200

it is elongated backwards and he has a

250

00:12:35,910 --> 00:12:33,230

depression on the top of his head so he

251

00:12:39,070 --> 00:12:35,920

seems to be kind of different but

252

00:12:42,220 --> 00:12:39,080

there's no real proof that Akhenaten's

253

00:12:45,130 --> 00:12:42,230

mummy has ever been found and the same

254

00:12:48,280 --> 00:12:45,140

with Nefertiti so the only possible

255

00:12:54,220 --> 00:12:48,290

Egyptian evidence we have is Tutankhamun

256

00:12:58,480 --> 00:12:54,230

himself okay and I always find that

257

00:13:00,940 --> 00:12:58,490

really interesting that even though in

258

00:13:04,240 --> 00:13:00,950

the region they were had they had that

259

00:13:06,190 --> 00:13:04,250

practice and in Egypt they wore you know

260

00:13:08,470 --> 00:13:06,200

they had the and I don't know whether it

261

00:13:11,620 --> 00:13:08,480

was the North or the South that had the

262

00:13:14,260 --> 00:13:11,630

kind of pointy had that they wore that

263

00:13:16,570 --> 00:13:14,270

would definitely hold a nice elongated

264

00:13:20,170 --> 00:13:16,580

skull in it that they haven't found

265

00:13:23,470 --> 00:13:20,180

elongated skulls well the you know

266

00:13:26,500 --> 00:13:23,480

actually Akhenaten story is absolutely

267

00:13:29,070 --> 00:13:26,510

fascinating and what he seemed to be

268

00:13:32,610 --> 00:13:29,080

doing is since he was involved in

269

00:13:35,560 --> 00:13:32,620

almost a rebirth of the culture of Egypt

270

00:13:40,030 --> 00:13:35,570

like a renaissance he was bringing

271

00:13:43,540 --> 00:13:40,040

information from very distant in the

272

00:13:46,630 --> 00:13:43,550

past all the way back possibly to Osiris

273

00:13:49,630 --> 00:13:46,640

and Isis and of course Osiris is very

274

00:13:52,630 --> 00:13:49,640

often shown with either an elongated

275

00:13:58,590 --> 00:13:52,640

head or a very huge hat which one would

276

00:14:07,720 --> 00:14:05,860

ok that's interesting but you know there

277

00:14:10,900 --> 00:14:07,730

is the belief that they were emulating

278

00:14:12,880 --> 00:14:10,910

the gods and so if he hadn't elongated

279

00:14:17,560 --> 00:14:12,890

head and people were emulating him then

280

00:14:19,420 --> 00:14:17,570

it would make sense to me well it does

281

00:14:22,600 --> 00:14:19,430

and I should eat the whole concept of

282

00:14:26,260 --> 00:14:22,610

who was Osiris was Osiris to some myth

283

00:14:29,830 --> 00:14:26,270

or was Osiris an ancestor that did look

284

00:14:33,360 --> 00:14:29,840

quite different than you know modern-day

285

00:14:46,660 --> 00:14:37,420

and we don't know but one day we might

286

00:14:49,059 --> 00:14:46,670

actually figure it out that's right can

287

00:14:52,360 --> 00:14:49,069

you talk briefly about the different

288

00:14:54,249 --> 00:14:52,370

kind of cranial the method of cranial

289

00:14:57,670 --> 00:14:54,259

deformation because from what I

290

00:15:02,610 --> 00:14:57,680

understand it not all cranial

291

00:15:08,110 --> 00:15:02,620

deformation is the same no that's true

292

00:15:10,389 --> 00:15:08,120

you know the most common practice let's

293

00:15:13,059 --> 00:15:10,399

say amongst the Native American people

294

00:15:15,420 --> 00:15:13,069

there a lot of cranial deformation was

295

00:15:19,150 --> 00:15:15,430

done on the west coast of Canada and

296

00:15:21,400 --> 00:15:19,160

into Washington and Oregon and that is

297

00:15:24,040 --> 00:15:21,410

what is called cradle boarding where the

298

00:15:28,449 --> 00:15:24,050

baby was kept in a cradle and then

299

00:15:30,639 --> 00:15:28,459

another board was attached to where

300

00:15:33,639 --> 00:15:30,649

the top of the head would be and so

301
00:15:35,470 --> 00:15:33,649
there would be gradual flattening of the

302
00:15:38,079 --> 00:15:35,480
of the head and that's where the you

303
00:15:41,439 --> 00:15:38,089
know basically the so-called flathead

304
00:15:44,019 --> 00:15:41,449
indians their description came from

305
00:15:47,710 --> 00:15:44,029
cradle boarding other practices are

306
00:15:49,600 --> 00:15:47,720
binding of textiles with a stiff

307
00:15:52,230 --> 00:15:49,610
material like a board in the front and

308
00:15:55,300 --> 00:15:52,240
the back of the skull in order to

309
00:15:58,600 --> 00:15:55,310
flatten and also extend the height of

310
00:16:02,490 --> 00:15:58,610
the skull those are the two most common

311
00:16:05,590 --> 00:16:02,500
practices a third was a practice done by

312
00:16:08,230 --> 00:16:05,600
the magnetic people of the Congo of

313
00:16:10,269 --> 00:16:08,240

western Africa and that was more just

314

00:16:15,939 --> 00:16:10,279

sheer binding in order to try to achieve

315

00:16:19,509 --> 00:16:15,949

almost a conehead kind of look any

316

00:16:25,750 --> 00:16:19,519

thoughts on why you know other than to

317

00:16:29,710 --> 00:16:25,760

look like the gods why they would use or

318

00:16:34,420 --> 00:16:29,720

do something like that well the most the

319

00:16:37,120 --> 00:16:34,430

three most common reasons if you are

320

00:16:39,970 --> 00:16:37,130

able to ask descendants of these people

321

00:16:43,090 --> 00:16:39,980

or if you're able to look up in oral

322

00:16:44,380 --> 00:16:43,100

tradition or any written record it was

323

00:16:47,290 --> 00:16:44,390

only done a

324

00:16:51,850 --> 00:16:47,300

the nobility class like the priesthood

325

00:16:54,490 --> 00:16:51,860

and the more regal people and they said

326

00:16:57,940 --> 00:16:54,500

number one it made our children more

327

00:17:00,580 --> 00:16:57,950

intelligent number two we find it

328

00:17:06,480 --> 00:17:00,590

aesthetically pleasing and number three

329

00:17:14,290 --> 00:17:11,500

like that yeah yeah they're there you're

330

00:17:17,439 --> 00:17:14,300

hinting at ancestors that may have

331

00:17:22,090 --> 00:17:17,449

actually looked like that as in being

332

00:17:24,550 --> 00:17:22,100

born like that well but there's also the

333

00:17:27,610 --> 00:17:24,560

Condit the connection that there was a

334

00:17:30,280 --> 00:17:27,620

belief in these indigenous cultures that

335

00:17:32,620 --> 00:17:30,290

if you look like that you would be

336

00:17:35,920 --> 00:17:32,630

smarter making the assumption that these

337

00:17:39,640 --> 00:17:35,930

other people were smarter well that and

338

00:17:44,170 --> 00:17:39,650

also you know the royal royal class

339

00:17:46,810 --> 00:17:44,180

wanted to look distinct as compared to

340

00:17:48,970 --> 00:17:46,820

the general population so they may have

341

00:17:51,130 --> 00:17:48,980

wanted to enhance themselves this way in

342

00:17:55,680 --> 00:17:51,140

order to show that they come from a

343

00:18:07,800 --> 00:18:02,940

exactly have you found any patterns of

344

00:18:10,780 --> 00:18:07,810

distribution of the skulls as far as

345

00:18:12,940 --> 00:18:10,790

using one method like you said that in

346

00:18:15,250 --> 00:18:12,950

the Pacific Northwest they did a lot of

347

00:18:18,120 --> 00:18:15,260

cradle boarding but have you found any

348

00:18:23,010 --> 00:18:18,130

distribution patterns as far as

349

00:18:27,220 --> 00:18:23,020

methodologies used in different areas um

350

00:18:29,740 --> 00:18:27,230

well I've mainly been focusing on Peru

351

00:18:32,980 --> 00:18:29,750

and Bolivia and of course that's the

352

00:18:36,100 --> 00:18:32,990

reason why I wrote the book because this

353

00:18:39,370 --> 00:18:36,110

has been such a profusion of cranial

354

00:18:43,720 --> 00:18:39,380

deformation being performed in many

355

00:18:48,070 --> 00:18:43,730

different cultures and so I've been able

356

00:18:51,190 --> 00:18:48,080

to more or less figure out what culture

357

00:18:53,290 --> 00:18:51,200

is related to another culture to some

358

00:18:57,260 --> 00:18:53,300

degree based on the fact that they

359

00:19:04,730 --> 00:19:00,140

but can you are you doing that based on

360

00:19:07,280 --> 00:19:04,740

the technique that they're using yeah

361

00:19:10,940 --> 00:19:07,290

the the the basic technique used in Peru

362

00:19:16,430 --> 00:19:10,950

and Bolivia again is where a text were a

363

00:19:19,880 --> 00:19:16,440

newborn child of royal blood their head

364

00:19:24,680 --> 00:19:19,890

is bound with a textile and then over

365

00:19:28,550 --> 00:19:24,690

time the textile is the pressure is

366

00:19:30,710 --> 00:19:28,560

increased and board is put usually in

367

00:19:33,500 --> 00:19:30,720

the back and sometimes in the front and

368

00:19:37,850 --> 00:19:33,510

in the course of two to three years once

369

00:19:42,740 --> 00:19:37,860

the skull calcifies properly then that

370

00:19:45,320 --> 00:19:42,750

child has that shape permanently it just

371

00:19:48,500 --> 00:19:45,330

seems like it would be a painful and

372

00:19:53,060 --> 00:19:48,510

uncomfortable process to put an infant

373

00:19:55,820 --> 00:19:53,070

through well the thing is since you're

374

00:19:57,440 --> 00:19:55,830

dealing with Royal children whoever is

375

00:20:01,330 --> 00:19:57,450

doing this practice would have to be an

376

00:20:04,340 --> 00:20:01,340

absolute expert because if you were to

377

00:20:08,060 --> 00:20:04,350

induce a lot of pain in a royal child

378

00:20:10,670 --> 00:20:08,070

you might wind up dead or if you have to

379

00:20:12,530 --> 00:20:10,680

if you happen to make a mistake in the /

380

00:20:14,180 --> 00:20:12,540

in the process and kill the royal child

381

00:20:17,300 --> 00:20:14,190

then I think he would definitely be dead

382

00:20:21,230 --> 00:20:17,310

so I I get the feeling that it was such

383

00:20:25,970 --> 00:20:21,240

a gradual procedure done by absolute

384

00:20:28,520 --> 00:20:25,980

experts that you know I think especially

385

00:20:32,780 --> 00:20:28,530

the practice culture had had absolutely

386

00:20:33,830 --> 00:20:32,790

mastered this process and I I don't

387

00:20:36,980 --> 00:20:33,840

think there would have been that much

388

00:20:39,380 --> 00:20:36,990

pain involved taking it into account the

389

00:20:43,760 --> 00:20:39,390

level of society that you're in doing

390

00:20:46,730 --> 00:20:43,770

and do seeing this honor or working with

391

00:20:50,110 --> 00:20:46,740

I don't know even just looking at it

392

00:20:52,730 --> 00:20:50,120

kind of gives me a headache so thinking

393

00:20:58,100 --> 00:20:52,740

okay well let's kind of turn our

394

00:20:59,450 --> 00:20:58,110

attention to Peru and Bolivia you know

395

00:21:03,020 --> 00:20:59,460

and I'm just kind of I'm just trying to

396

00:21:07,220 --> 00:21:03,030

like map stuff out in my mind have you

397

00:21:09,620 --> 00:21:07,230

found any relationships between where

398

00:21:11,810 --> 00:21:09,630

skulls have been found

399

00:21:15,500 --> 00:21:11,820

some of the ancient sites that are in

400

00:21:20,450 --> 00:21:15,510

those regions definitely I think the

401
00:21:22,180 --> 00:21:20,460
most possibly the most important one is

402
00:21:24,980 --> 00:21:22,190
you know the mysterious place called

403
00:21:28,340 --> 00:21:24,990
tiwanaku which some of your listeners

404
00:21:32,110 --> 00:21:28,350
may have heard of Pumapunku is part of

405
00:21:35,050 --> 00:21:32,120
that complex it's a very mysterious

406
00:21:38,420 --> 00:21:35,060
stone series of stone structures that

407
00:21:42,320 --> 00:21:38,430
could not have been made initially by

408
00:21:45,170 --> 00:21:42,330
the so-called tiwa knockin people but

409
00:21:50,170 --> 00:21:45,180
the the the tihuanaco culture existed

410
00:21:53,420 --> 00:21:50,180
between about 100 AD and 900 AD and the

411
00:21:55,460 --> 00:21:53,430
culture that came before them but lived

412
00:21:58,690 --> 00:21:55,470
farther south were called the wonka rani

413
00:22:01,730 --> 00:21:58,700

and they had massively elongated skulls

414

00:22:04,910 --> 00:22:01,740

so it's my belief that the wonka Ronnie

415

00:22:07,430 --> 00:22:04,920

migrated north to the site called

416

00:22:10,490 --> 00:22:07,440

tihuanaco which is on the southern shore

417

00:22:14,390 --> 00:22:10,500

of Lake Titicaca in Bolivia and they

418

00:22:17,050 --> 00:22:14,400

became the tihuanaco culture and I also

419

00:22:20,330 --> 00:22:17,060

believe that the Inca culture then

420

00:22:24,380 --> 00:22:20,340

sprang forth from the tihuanaco culture

421

00:22:27,710 --> 00:22:24,390

and what almost nobody knows is that the

422

00:22:31,220 --> 00:22:27,720

the ink of themselves performed cranial

423

00:22:33,530 --> 00:22:31,230

deformation it was a practice that was

424

00:22:36,350 --> 00:22:33,540

outlawed as soon as the Spanish reached

425

00:22:40,550 --> 00:22:36,360

cuzco they were horrified by this and so

426
00:22:42,770 --> 00:22:40,560
they they forbid it happening so it was

427
00:22:45,470 --> 00:22:42,780
only the very first contact of the

428
00:22:48,830 --> 00:22:45,480
Spanish with the Inca that they would

429
00:22:50,870 --> 00:22:48,840
have seen any examples of the Inca

430
00:22:54,230 --> 00:22:50,880
having elongated skulls and after that

431
00:22:56,240 --> 00:22:54,240
the the rest of the Inca generations

432
00:23:00,470 --> 00:22:56,250
would simply have looked normal you know

433
00:23:02,810 --> 00:23:00,480
quote unquote yet because I guess they

434
00:23:05,210 --> 00:23:02,820
basically took out the government which

435
00:23:07,400 --> 00:23:05,220
would have been the all the Royals and

436
00:23:10,160 --> 00:23:07,410
once you started going into the outskirts

437
00:23:14,690 --> 00:23:10,170
areas they probably weren't practicing

438
00:23:18,080 --> 00:23:14,700

it or it was not as important in the

439

00:23:23,120 --> 00:23:18,090

outlying regions yeah again it was only

440

00:23:25,280 --> 00:23:23,130

done to the Inca royalty and the Spanish

441

00:23:26,900 --> 00:23:25,290

outlawed it as soon as they arrived in

442

00:23:30,290 --> 00:23:26,910

Cuzco which was the capital city of the

443

00:23:33,350 --> 00:23:30,300

Inca and some of the Inca continued to

444

00:23:39,160 --> 00:23:33,360

practice it and so another law was set

445

00:23:47,690 --> 00:23:43,760

those stinky explorers just messing

446

00:23:52,460 --> 00:23:47,700

everything up so you gave some dates of

447

00:23:54,950 --> 00:23:52,470

the general dating of elongated skulls

448

00:23:57,710 --> 00:23:54,960

around the world what about in South

449

00:24:01,960 --> 00:23:57,720

America has it do we have any dating

450

00:24:04,970 --> 00:24:01,970

ideas for some of the skulls found there

451
00:24:10,190 --> 00:24:04,980
yeah one or two examples have been found

452
00:24:12,620 --> 00:24:10,200
the date back to either 6,000 BC or

453
00:24:16,040 --> 00:24:12,630
6,000 years ago they were they were

454
00:24:17,720 --> 00:24:16,050
found in a cave in central Peru but

455
00:24:20,930 --> 00:24:17,730
they're not really profound looking

456
00:24:23,930 --> 00:24:20,940
that's again it's just simple cradle

457
00:24:27,560 --> 00:24:23,940
boarding or binding creating a slightly

458
00:24:30,830 --> 00:24:27,570
different shape but what's more

459
00:24:33,770 --> 00:24:30,840
important is this migration from central

460
00:24:37,070 --> 00:24:33,780
Bolivia up to the shore of Lake Titicaca

461
00:24:41,570 --> 00:24:37,080
and then from there up to Cuzco which

462
00:24:44,410 --> 00:24:41,580
was the capital city of the Inca and all

463
00:24:48,460 --> 00:24:44,420

of the other cultures I've found

464

00:24:51,320 --> 00:24:48,470

relationships chronologically between

465

00:24:53,810 --> 00:24:51,330

basically those Highland groups of the

466

00:24:56,870 --> 00:24:53,820

of the tihuanaco ins and their influence

467

00:24:59,570 --> 00:24:56,880

with others but the most obscure and to

468

00:25:01,430 --> 00:24:59,580

me fascinating ones are the Baracus

469

00:25:04,520 --> 00:25:01,440

people who lived on the coast of Peru

470

00:25:07,100 --> 00:25:04,530

and basically disappeared two thousand

471

00:25:10,370 --> 00:25:07,110

years ago their origin being completely

472

00:25:14,080 --> 00:25:10,380

unknown so you don't think they were

473

00:25:16,820 --> 00:25:14,090

associated with the Tiahuanaco at all i

474

00:25:21,950 --> 00:25:16,830

no i don't think so i think what

475

00:25:25,340 --> 00:25:21,960

happened was when the Baracus culture

476
00:25:27,320 --> 00:25:25,350
basically began to disappear about 2,000

477
00:25:30,260 --> 00:25:27,330
years ago I think some of them migrated

478
00:25:32,510 --> 00:25:30,270
into the Highlands and the elongated

479
00:25:35,930 --> 00:25:32,520
skull aspect was something which in

480
00:25:37,960 --> 00:25:35,940
which also influenced cultures in the

481
00:25:40,610 --> 00:25:37,970
highlands

482
00:25:45,560 --> 00:25:40,620
do you think the paraca culture was

483
00:25:48,409 --> 00:25:45,570
before the Tiahuanaco yeah even with

484
00:25:50,870 --> 00:25:48,419
conventional archeology they're talking

485
00:25:54,080 --> 00:25:50,880
about the practice appearing as a

486
00:25:57,890 --> 00:25:54,090
culture 800 BC so that's about eight

487
00:26:01,789 --> 00:25:57,900
hundred years before to unaku formed as

488
00:26:03,350 --> 00:26:01,799

a culture itself I find that dating

489

00:26:07,460 --> 00:26:03,360

interesting so now I'm going to ask some

490

00:26:11,720 --> 00:26:07,470

non elongated skull questions were they

491

00:26:15,080 --> 00:26:11,730

associated with domestication of animals

492

00:26:18,760 --> 00:26:15,090

and beginning of agriculture in that

493

00:26:21,320 --> 00:26:18,770

region also the Baracus people uh-huh

494

00:26:23,690 --> 00:26:21,330

well the weird thing about the you know

495

00:26:27,260 --> 00:26:23,700

that what fascinates me is that almost

496

00:26:31,340 --> 00:26:27,270

nobody has studied the practice for

497

00:26:33,890 --> 00:26:31,350

about 50 years and not only taking the

498

00:26:36,350 --> 00:26:33,900

elongated skull thing into account they

499

00:26:40,750 --> 00:26:36,360

had they were very a very advanced

500

00:26:44,770 --> 00:26:40,760

society they had mastered agriculture

501
00:26:48,320 --> 00:26:44,780
800 around 800 BC again origins unknown

502
00:26:51,710 --> 00:26:48,330
they were masters at making the finest

503
00:26:53,919 --> 00:26:51,720
textiles in all of South America they

504
00:26:57,890 --> 00:26:53,929
knew the concept of the potter's wheel

505
00:27:02,560 --> 00:26:57,900
they also had red reddish-brown hair

506
00:27:07,480 --> 00:27:02,570
which is not typically Native American

507
00:27:11,539 --> 00:27:07,490
and that's not common in that region

508
00:27:16,570 --> 00:27:11,549
it's only gone there it's only common in

509
00:27:25,279 --> 00:27:20,140
but that might just be people that

510
00:27:26,870 --> 00:27:25,289
immigrated or you know move where where

511
00:27:29,539 --> 00:27:26,880
is progress you know if you were going

512
00:27:32,930 --> 00:27:29,549
to give us a landmark of where practice

513
00:27:35,810 --> 00:27:32,940

was where would that be okay well Peru

514

00:27:38,029 --> 00:27:35,820

is the third country down in South

515

00:27:41,299 --> 00:27:38,039

America on the west coast you start with

516

00:27:44,930 --> 00:27:41,309

Colombia then you go to Ecuador and then

517

00:27:47,840 --> 00:27:44,940

you go to Peru and Peru is about a

518

00:27:50,090 --> 00:27:47,850

thousand miles long the coastline is

519

00:27:51,830 --> 00:27:50,100

about that length and Lima

520

00:27:55,880 --> 00:27:51,840

huh which is the capital city is about

521

00:27:58,460 --> 00:27:55,890

halfway down so if you travel by car for

522

00:28:01,250 --> 00:27:58,470

hours south you reach the Baracus

523

00:28:03,529 --> 00:28:01,260

Peninsula which is just before you reach

524

00:28:07,789 --> 00:28:03,539

the area called Nazca where the

525

00:28:09,799 --> 00:28:07,799

fascinating lines and geoglyphs are were

526

00:28:12,560 --> 00:28:09,809

they the ones responsible for the lines

527

00:28:14,480 --> 00:28:12,570

in the geoglyphs they were responsible

528

00:28:16,690 --> 00:28:14,490

for starting them yes actually that's

529

00:28:19,690 --> 00:28:16,700

another story that most people don't

530

00:28:23,210 --> 00:28:19,700

understand I I wrote another book about

531

00:28:26,120 --> 00:28:23,220

the Nazca Douglas and lines because it

532

00:28:30,049 --> 00:28:26,130

was the practice who began making them

533

00:28:33,890 --> 00:28:30,059

around conventionally speaking 500 BC

534

00:28:37,370 --> 00:28:33,900

and then with their demise about 100 BC

535

00:28:40,490 --> 00:28:37,380

or 180 then the Nazca culture becomes

536

00:28:42,080 --> 00:28:40,500

dominant and then they continue creating

537

00:28:47,090 --> 00:28:42,090

the lines and geoglyphs in a

538

00:28:48,770 --> 00:28:47,100

southeasterly direction but I find that

539

00:28:52,760 --> 00:28:48,780

interesting because one of the things

540

00:28:57,409 --> 00:28:52,770

that i also know i know is that one of

541

00:29:00,409 --> 00:28:57,419

the three oldest ochre mines was also

542

00:29:04,159 --> 00:29:00,419

found in that region the oldest and

543

00:29:06,440 --> 00:29:04,169

biggest okra with one being in South

544

00:29:08,779 --> 00:29:06,450

America one being in Australia one of my

545

00:29:12,799 --> 00:29:08,789

favorite countries and one being in in

546

00:29:15,320 --> 00:29:12,809

the NAS go region that's interesting in

547

00:29:17,680 --> 00:29:15,330

Nazca the Nazca area which is complete

548

00:29:21,830 --> 00:29:17,690

desert is actually very rich in in

549

00:29:23,690 --> 00:29:21,840

minerals including gold and actually the

550

00:29:26,060 --> 00:29:23,700

practice area has a lot of okra that's

551
00:29:27,770 --> 00:29:26,070
true I've we found some as we've been

552
00:29:31,960 --> 00:29:27,780
traveling in the desert you find red

553
00:29:37,000 --> 00:29:31,970
ochre yellow ochre and even white ochre

554
00:29:43,240 --> 00:29:41,930
that it all kind of to me okay to me it

555
00:29:47,029 --> 00:29:43,250
seems like there are these little

556
00:29:50,210 --> 00:29:47,039
centers where you find these little up

557
00:29:52,690 --> 00:29:50,220
spurts of stuff all condensed and it

558
00:29:56,810 --> 00:29:52,700
sounds like Baracus is one of those

559
00:29:58,159 --> 00:29:56,820
epicenters well most definitely and one

560
00:30:03,260 --> 00:29:58,169
of the intriguing things about the

561
00:30:03,740 --> 00:30:03,270
agriculture is Baracus and the area get

562
00:30:07,430 --> 00:30:03,750
less

563
00:30:09,740 --> 00:30:07,440

than one inch of rain a year but water

564

00:30:11,810 --> 00:30:09,750

travels in underground streams and

565

00:30:14,690 --> 00:30:11,820

rivers from the highlands of Peru to the

566

00:30:16,910 --> 00:30:14,700

east even as far as the Andes and then

567

00:30:19,400 --> 00:30:16,920

empty into the ocean so the practice

568

00:30:22,220 --> 00:30:19,410

were able to access the underground

569

00:30:26,120 --> 00:30:22,230

water and they actually made their

570

00:30:29,300 --> 00:30:26,130

fields down about six feet from them

571

00:30:32,930 --> 00:30:29,310

from the typical landscape in order to

572

00:30:34,370 --> 00:30:32,940

catch these underground streams and

573

00:30:37,100 --> 00:30:34,380

rivers that were traveling to the sea

574

00:30:41,540 --> 00:30:37,110

and so they actually grew phenomenal

575

00:30:43,900 --> 00:30:41,550

amounts of food so another engineering

576

00:30:47,230 --> 00:30:43,910

feat that we really don't hear about

577

00:30:50,030 --> 00:30:47,240

exactly and it this also ties in with

578

00:30:54,140 --> 00:30:50,040

why some of the Nazca lines were made

579

00:30:57,440 --> 00:30:54,150

because there are at least five or ten

580

00:30:59,690 --> 00:30:57,450

major theories about why you know why a

581

00:31:01,300 --> 00:30:59,700

people would create these geoglyphs and

582

00:31:06,500 --> 00:31:01,310

lines in the middle of the desert

583

00:31:08,420 --> 00:31:06,510

anything from astronomy to aliens but

584

00:31:12,290 --> 00:31:08,430

that's why I wrote my book because it's

585

00:31:14,200 --> 00:31:12,300

a study of a thousand years of produce

586

00:31:17,030 --> 00:31:14,210

production of these lines and geoglyphs

587

00:31:19,970 --> 00:31:17,040

for different reasons depending upon the

588

00:31:29,360 --> 00:31:19,980

culture and depending upon the reasoning

589

00:31:33,140 --> 00:31:29,370

at the time so why do why do you think

590

00:31:37,820 --> 00:31:33,150

that they created them well it really

591

00:31:41,150 --> 00:31:37,830

depends on on the timeframe the whole

592

00:31:43,660 --> 00:31:41,160

system of lines and geoglyphs begins at

593

00:31:48,500 --> 00:31:43,670

practice itself in the northwest and

594

00:31:51,590 --> 00:31:48,510

travels down at least 200 miles I think

595

00:31:55,010 --> 00:31:51,600

in a southeasterly direction through the

596

00:31:57,440 --> 00:31:55,020

burn asca area and the one of the

597

00:32:00,200 --> 00:31:57,450

largest figures is called the candelabra

598

00:32:02,990 --> 00:32:00,210

which looks like a fork or a trident on

599

00:32:07,220 --> 00:32:03,000

the side of a mountain that can only be

600

00:32:10,640 --> 00:32:07,230

seen from the ocean gives you thoughts

601
00:32:15,800 --> 00:32:10,650
of Neptune doesn't it well it gives you

602
00:32:16,920 --> 00:32:15,810
thoughts of a maritime beacon or a giant

603
00:32:19,080 --> 00:32:16,930
symbol

604
00:32:23,150 --> 00:32:19,090
that a seafaring people would want to

605
00:32:26,940 --> 00:32:23,160
use in order to find home oh good point

606
00:32:28,890 --> 00:32:26,950
good point and so and you can see it

607
00:32:30,810 --> 00:32:28,900
from the water so it's not like the

608
00:32:34,440 --> 00:32:30,820
other glyphs that you really need to be

609
00:32:36,420 --> 00:32:34,450
in the air in order to view that's right

610
00:32:40,350 --> 00:32:36,430
yeah you can only see this one from the

611
00:32:46,760 --> 00:32:40,360
ocean and you can see it at least 15

612
00:32:51,660 --> 00:32:46,770
miles away it's no oh it's 450 feet tall

613
00:32:53,630 --> 00:32:51,670

but 15 miles is far it is but then you

614

00:32:56,250 --> 00:32:53,640

know it's a really intriguing area the

615

00:32:58,860 --> 00:32:56,260

it's been it wasn't like carved into

616

00:33:02,040 --> 00:32:58,870

sand it was carved into a light or a

617

00:33:04,530 --> 00:33:02,050

soft sandstone which has a lot of salt

618

00:33:10,040 --> 00:33:04,540

in it because the practice area was the

619

00:33:13,020 --> 00:33:10,050

ocean that was uplifted during major

620

00:33:16,380 --> 00:33:13,030

earth changes and so there's a lot of

621

00:33:19,200 --> 00:33:16,390

salt still in that sand so when the Sun

622

00:33:23,850 --> 00:33:19,210

reflects or when the sun is shining it

623

00:33:26,750 --> 00:33:23,860

makes the the contours contrast much

624

00:33:29,880 --> 00:33:26,760

greater than if it was any other kind of

625

00:33:32,700 --> 00:33:29,890

sandy material so you can see it from

626
00:33:35,640 --> 00:33:32,710
quite a distance and even in a full moon

627
00:33:38,630 --> 00:33:35,650
you can see it from a distance oh I bet

628
00:33:40,800 --> 00:33:38,640
that's cool yeah but that's called

629
00:33:44,640 --> 00:33:40,810
alright I'm going to shift here gears

630
00:33:47,190 --> 00:33:44,650
here a little bit I know that remains of

631
00:33:51,450 --> 00:33:47,200
infants or very young children with

632
00:33:52,950 --> 00:33:51,460
elongated skulls have been found and I'm

633
00:33:55,020 --> 00:33:52,960
assuming you've seen them well actually

634
00:33:57,480 --> 00:33:55,030
I've seen you with a picture holding one

635
00:34:00,510 --> 00:33:57,490
or you know you posted pictures how

636
00:34:04,950 --> 00:34:00,520
young is it believed that the youngest

637
00:34:09,360 --> 00:34:04,960
child was before he or she passed well

638
00:34:12,300 --> 00:34:09,370

the youngest i've seen you know I'm not

639

00:34:14,760 --> 00:34:12,310

a doctor obviously but at a guess I

640

00:34:17,430 --> 00:34:14,770

would say easily less than a year and

641

00:34:22,380 --> 00:34:17,440

that's in a really tiny museum right

642

00:34:26,220 --> 00:34:22,390

next to the Nazca airport and that that

643

00:34:30,070 --> 00:34:26,230

little child has an elongated skull and

644

00:34:34,000 --> 00:34:30,080

also has reddish blond hair

645

00:34:40,660 --> 00:34:34,010

Oh see you get a double on that one oh

646

00:34:44,650 --> 00:34:40,670

yeah are there any other anomalies with

647

00:34:46,570 --> 00:34:44,660

this skeleton not with that one but

648

00:34:50,830 --> 00:34:46,580

there are other ones there's there's

649

00:34:53,110 --> 00:34:50,840

another one which is in one of the cusco

650

00:34:56,350 --> 00:34:53,120

museums and it again appears to be

651
00:34:58,390 --> 00:34:56,360
between 12 and 14 months old and it is

652
00:35:02,440 --> 00:34:58,400
literally a coat like it is a Dan

653
00:35:06,010 --> 00:35:02,450
Aykroyd conehead shape and then the most

654
00:35:10,030 --> 00:35:06,020
intriguing one is in a small Museum

655
00:35:13,390 --> 00:35:10,040
outside of Cusco and its skull is the

656
00:35:17,470 --> 00:35:13,400
size of its torso and it was medically

657
00:35:21,250 --> 00:35:17,480
examined by six doctors in in Cusco in a

658
00:35:23,140 --> 00:35:21,260
private hospital almost a year ago and

659
00:35:25,030 --> 00:35:23,150
they were just confounded by it they

660
00:35:27,310 --> 00:35:25,040
couldn't figure out what what it is they

661
00:35:30,100 --> 00:35:27,320
were looking at they definitely ruled

662
00:35:32,530 --> 00:35:30,110
out cranial deformation they they all

663
00:35:35,050 --> 00:35:32,540

agreed that this child was born with

664

00:35:38,500 --> 00:35:35,060

this very large skull that it was very

665

00:35:41,710 --> 00:35:38,510

natural looking and it has a number of

666

00:35:45,580 --> 00:35:41,720

different anatomical features which do

667

00:35:52,620 --> 00:35:45,590

not make sense whatsoever to anyone who

668

00:35:56,470 --> 00:35:52,630

has studied normal human anatomy such as

669

00:35:59,800 --> 00:35:56,480

well is just that way oh I love it well

670

00:36:03,010 --> 00:35:59,810

no such such as the most obvious example

671

00:36:06,100 --> 00:36:03,020

is that the skull is literally the size

672

00:36:09,460 --> 00:36:06,110

of the torso and the doctors have ruled

673

00:36:12,850 --> 00:36:09,470

out any no disease such as hydrocephaly

674

00:36:15,330 --> 00:36:12,860

etc the eye sockets are very shallow so

675

00:36:18,790 --> 00:36:15,340

they believe that the the eyeballs

676

00:36:22,840 --> 00:36:18,800

literally protruded outwards from from

677

00:36:25,840 --> 00:36:22,850

the skull it only has 10 sets of ribs

678

00:36:32,050 --> 00:36:25,850

where it should have 12 the rib cage

679

00:36:34,600 --> 00:36:32,060

appears to be upside down what else the

680

00:36:38,950 --> 00:36:34,610

dentition is very strange the teeth

681

00:36:43,330 --> 00:36:38,960

appear to be from quite older individual

682

00:36:46,720 --> 00:36:43,340

and they also found evidence that

683

00:36:50,640 --> 00:36:46,730

this child was ritually sacrificed by

684

00:36:53,350 --> 00:36:50,650

receiving a blow in the back of the head

685

00:36:56,620 --> 00:36:53,360

that's because it was the alien devil

686

00:36:58,450 --> 00:36:56,630

child well it was the weird one of a

687

00:37:01,230 --> 00:36:58,460

kind in the village child that's for

688

00:37:04,210 --> 00:37:01,240

sure you did have red hair too

689

00:37:11,560 --> 00:37:04,220

unfortunately there's there's no no hair

690

00:37:13,630 --> 00:37:11,570

left yeah okay so let's kind of put that

691

00:37:16,150 --> 00:37:13,640

one to the side because it's you know

692

00:37:18,250 --> 00:37:16,160

even more of an anomaly but the other

693

00:37:22,600 --> 00:37:18,260

two that you were talking about I mean

694

00:37:25,630 --> 00:37:22,610

is a year enough time do you think with

695

00:37:30,750 --> 00:37:25,640

using the you know cranial modification

696

00:37:34,240 --> 00:37:30,760

to produce a skull that to be that shape

697

00:37:36,600 --> 00:37:34,250

well the doctors that I've taken to

698

00:37:41,470 --> 00:37:36,610

these museums to look at them are just

699

00:37:43,690 --> 00:37:41,480

astonished because some some believe

700

00:37:45,490 --> 00:37:43,700

that the you know that the process would

701
00:37:47,920 --> 00:37:45,500
have killed the child but also they

702
00:37:50,710 --> 00:37:47,930
can't in those two cases they can't see

703
00:37:52,450 --> 00:37:50,720
how the cranial deformation was done

704
00:37:55,210 --> 00:37:52,460
because the skulls look too natural

705
00:37:57,100 --> 00:37:55,220
they're very complex in terms of

706
00:38:00,730 --> 00:37:57,110
curvature they're not simply flattened

707
00:38:03,250 --> 00:38:00,740
they are you know multifaceted Multi

708
00:38:05,470 --> 00:38:03,260
multi faceted in terms of curvature and

709
00:38:10,090 --> 00:38:05,480
so they just shake their heads when they

710
00:38:13,030 --> 00:38:10,100
look at them because they can't figure

711
00:38:17,680 --> 00:38:13,040
out well let me ask a different question

712
00:38:20,530 --> 00:38:17,690
you know we've seen one of adults you

713
00:38:22,390 --> 00:38:20,540

know if we've looked at you know any of

714

00:38:24,100 --> 00:38:22,400

the elongated skull pictures they've all

715

00:38:25,990 --> 00:38:24,110

seemed like a dolt and then there are

716

00:38:30,490 --> 00:38:26,000

the couple that you know look like

717

00:38:33,580 --> 00:38:30,500

little infants are there ones that are

718

00:38:36,310 --> 00:38:33,590

in between you know 10 12 year old

719

00:38:41,020 --> 00:38:36,320

children that have been compound sure

720

00:38:43,060 --> 00:38:41,030

yeah the most common the most common

721

00:38:48,010 --> 00:38:43,070

ones are actually appear to be in their

722

00:38:49,720 --> 00:38:48,020

20s 30s 40s or older and 1 i'm still

723

00:38:52,960 --> 00:38:49,730

trying to track down is there's a

724

00:38:56,250 --> 00:38:52,970

drawing of an eight-year-old or sorry

725

00:38:59,520 --> 00:38:56,260

eight-month-old fetus that was

726

00:39:02,400 --> 00:38:59,530

drawn about a hundred years ago and that

727

00:39:04,710 --> 00:39:02,410

one again the the head is the size of

728

00:39:08,660 --> 00:39:04,720

the body but I have been able to find

729

00:39:11,190 --> 00:39:08,670

out where the where this fetus is

730

00:39:15,200 --> 00:39:11,200

theoretically it's in one of the

731

00:39:17,730 --> 00:39:15,210

warehouses of the main Museum in Lima

732

00:39:21,930 --> 00:39:17,740

but that that one I would like to

733

00:39:28,170 --> 00:39:21,940

definitely find I'm not going to make my

734

00:39:29,790 --> 00:39:28,180

comment okay but wait a minute wait a

735

00:39:34,620 --> 00:39:29,800

minute I I'm thinking about what you

736

00:39:37,610 --> 00:39:34,630

just said you said fetus yep so like

737

00:39:42,270 --> 00:39:37,620

that would be like a child that's not

738

00:39:45,780 --> 00:39:42,280

born yet that is a child that could not

739

00:39:49,170 --> 00:39:45,790

have had its skull cranially deformed it

740

00:39:54,690 --> 00:39:49,180

would have to come out of mom you know

741

00:39:59,580 --> 00:39:54,700

with those features that's kind of

742

00:40:01,140 --> 00:39:59,590

interesting okay so this question has

743

00:40:03,930 --> 00:40:01,150

been floating around the chat room but I

744

00:40:09,720 --> 00:40:03,940

just keep ignoring it so is there the

745

00:40:12,300 --> 00:40:09,730

possibility that there that the skulls

746

00:40:16,890 --> 00:40:12,310

that we see or a percentage of the

747

00:40:20,390 --> 00:40:16,900

skulls that we see are natural that's

748

00:40:23,070 --> 00:40:20,400

what I'm starting to believe i would say

749

00:40:29,790 --> 00:40:23,080

maybe two or three percent of the ones

750

00:40:31,890 --> 00:40:29,800

that I've seen defy any any possibility

751
00:40:34,950 --> 00:40:31,900
that they could have been some form of

752
00:40:37,170 --> 00:40:34,960
cradle boarding org or deformation

753
00:40:41,220 --> 00:40:37,180
because they they appear to be very

754
00:40:42,570 --> 00:40:41,230
natural and complex looking the feature

755
00:40:45,740 --> 00:40:42,580
you know that all the curves and

756
00:40:50,040 --> 00:40:45,750
features are very beautiful they're not

757
00:40:52,910 --> 00:40:50,050
contorted or flattened or altered like

758
00:40:57,330 --> 00:40:52,920
what cranial deformation usually

759
00:40:59,250 --> 00:40:57,340
produces so I think you know I honestly

760
00:41:04,680 --> 00:40:59,260
believe that at least in Peru and

761
00:41:07,860 --> 00:41:04,690
Bolivia the lineage goes back to a sub

762
00:41:15,069 --> 00:41:07,870
race or a subset of humanity that was

763
00:41:21,859 --> 00:41:19,130

but okay all right that kind of add like

764

00:41:25,730 --> 00:41:21,869

this whole other big twist to the whole

765

00:41:30,170 --> 00:41:25,740

thing because if they were born with

766

00:41:36,020 --> 00:41:30,180

elongated skulls then it would imply to

767

00:41:39,290 --> 00:41:36,030

me that it was based on interaction with

768

00:41:41,120 --> 00:41:39,300

those people that the cultures around

769

00:41:47,020 --> 00:41:41,130

the world started creating you know

770

00:41:57,380 --> 00:41:51,950

could it be that Barack asst was an

771

00:41:59,420 --> 00:41:57,390

originating location for Humanity no I

772

00:42:01,250 --> 00:41:59,430

think they were the end I think they

773

00:42:08,359 --> 00:42:01,260

were the end of the line I I think they

774

00:42:11,900 --> 00:42:08,369

were the last of a sub sub species of

775

00:42:14,390 --> 00:42:11,910

people that migrated to practice from

776

00:42:20,300 --> 00:42:14,400

another part of the world possibly to

777

00:42:25,180 --> 00:42:20,310

escape persecution of some kind but you

778

00:42:30,650 --> 00:42:25,190

have not heard of or experienced other

779

00:42:33,710 --> 00:42:30,660

skulls that had the same characteristics

780

00:42:36,140 --> 00:42:33,720

in other places in the world yeah not

781

00:42:39,290 --> 00:42:36,150

not the actual skulls themselves but a

782

00:42:45,050 --> 00:42:39,300

lot of artistic depictions especially in

783

00:42:47,870 --> 00:42:45,060

the Middle East what show elongated

784

00:42:51,170 --> 00:42:47,880

skull people yeah very much we were in

785

00:42:53,270 --> 00:42:51,180

Lebanon and I think it was April just

786

00:42:57,109 --> 00:42:53,280

after we finished our tour of Egypt and

787

00:42:59,270 --> 00:42:57,119

a lot of the of the ancient artifacts in

788

00:43:02,329 --> 00:42:59,280

the museum there showed either

789

00:43:05,690 --> 00:43:02,339

portrayals of people with enormous

790

00:43:09,950 --> 00:43:05,700

conehead hats or Coneheads themselves

791

00:43:13,460 --> 00:43:09,960

and I think that's the beginning of that

792

00:43:17,030 --> 00:43:13,470

of the smoking gun of a the possible

793

00:43:21,440 --> 00:43:17,040

origin place is a rat is in the middle

794

00:43:23,559 --> 00:43:21,450

eastern area do you also find the

795

00:43:26,769 --> 00:43:23,569

red-headed people

796

00:43:28,509 --> 00:43:26,779

in that region also yeah well the great

797

00:43:31,449 --> 00:43:28,519

thing is that the origin of red hair is

798

00:43:34,689 --> 00:43:31,459

Iraq Iran and Afghanistan it's not

799

00:43:38,859 --> 00:43:34,699

ireland in Scotland so you still have a

800

00:43:43,329 --> 00:43:38,869

lot of people to this day who in those

801
00:43:45,729 --> 00:43:43,339
countries who have reddish hair

802
00:43:47,979 --> 00:43:45,739
sometimes usually reddish auburn hair

803
00:43:50,739 --> 00:43:47,989
not carrot you know not carrot tops like

804
00:43:54,999 --> 00:43:50,749
like the iris in the Scots but a deep

805
00:44:00,729 --> 00:43:55,009
rich red which especially in sunlight is

806
00:44:03,489 --> 00:44:00,739
almost like fire okay and that you know

807
00:44:07,089 --> 00:44:03,499
can I'm sorry and that's exactly what we

808
00:44:09,729 --> 00:44:07,099
find in Baracus the Royal people of

809
00:44:12,249 --> 00:44:09,739
practice all the examples I've seen that

810
00:44:15,309 --> 00:44:12,259
actually still have hair attached to

811
00:44:22,539 --> 00:44:15,319
their elongated skulls it's dark red

812
00:44:24,819 --> 00:44:22,549
Auburn not black okay but it's also not

813
00:44:27,999 --> 00:44:24,829

bright red like you would think you know

814

00:44:31,239 --> 00:44:28,009

and I an Irish person you know a ginger

815

00:44:34,509 --> 00:44:31,249

would have no nor anyone who is like

816

00:44:38,739 --> 00:44:34,519

Viking or Nordic or whatever it's it's a

817

00:44:41,380 --> 00:44:38,749

very specific shade and in kuta in

818

00:44:43,390 --> 00:44:41,390

places like cusco and other parts of the

819

00:44:45,789 --> 00:44:43,400

highlands of peru and bolivia I've met

820

00:44:48,430 --> 00:44:45,799

people who have that hair color and I've

821

00:44:49,989 --> 00:44:48,440

been cocky enough to go up to them and

822

00:44:51,819 --> 00:44:49,999

ask them have you dyed your hair and

823

00:44:52,930 --> 00:44:51,829

they go no this is this comes from you

824

00:44:56,579 --> 00:44:52,940

know this is my mother's side of the

825

00:45:02,670 --> 00:44:56,589

family it's it goes way back in time

826
00:45:05,799 --> 00:45:02,680
long before the Spanish ever arrived hmm

827
00:45:08,229 --> 00:45:05,809
yeah I love this connection with the red

828
00:45:12,130 --> 00:45:08,239
hair you know I mean I don't know from a

829
00:45:15,609 --> 00:45:12,140
genetic point of view you know if having

830
00:45:19,059 --> 00:45:15,619
red hair is some you know that kind of

831
00:45:21,430 --> 00:45:19,069
color if there's like you know if it's

832
00:45:23,229 --> 00:45:21,440
recessive thing or a dominant thing or

833
00:45:26,319 --> 00:45:23,239
you have to have like a certain mix in

834
00:45:28,390 --> 00:45:26,329
order for your hair to be that color or

835
00:45:31,150 --> 00:45:28,400
whatever but I think it's an interesting

836
00:45:35,529 --> 00:45:31,160
thread that you keep pulling through

837
00:45:36,370 --> 00:45:35,539
things yet another marker well it is

838
00:45:38,259 --> 00:45:36,380

because

839

00:45:42,849 --> 00:45:38,269

you know I spent quite a bit of time in

840

00:45:46,390 --> 00:45:42,859

Polynesia and there in New Zealand

841

00:45:50,519 --> 00:45:46,400

Tahiti Easter Island and Hawaii they

842

00:45:54,279 --> 00:45:50,529

they also have this ancient strain of

843

00:45:58,720 --> 00:45:54,289

this reddish hair which is most likely

844

00:46:02,259 --> 00:45:58,730

pre pre so-called Polynesian we do know

845

00:46:05,200 --> 00:46:02,269

that in New Zealand most likely and

846

00:46:07,660 --> 00:46:05,210

Tahiti and Easter Island and Hawaii

847

00:46:10,749 --> 00:46:07,670

there were people living in those places

848

00:46:12,970 --> 00:46:10,759

before the major poli me Polynesian

849

00:46:18,339 --> 00:46:12,980

migrations took place and these people

850

00:46:23,289 --> 00:46:18,349

are what they call a who which means red

851
00:46:25,630 --> 00:46:23,299
hair reddish hair what about Australia

852
00:46:28,769 --> 00:46:25,640
is there do you know if they have any

853
00:46:32,200 --> 00:46:28,779
populations that have the red hair to

854
00:46:36,579 --> 00:46:32,210
know all I found out recently is that

855
00:46:39,370 --> 00:46:36,589
there are a number of elongated skulls

856
00:46:42,249 --> 00:46:39,380
that have been found in a particular

857
00:46:46,210 --> 00:46:42,259
area I believe in between Sydney and

858
00:46:49,539 --> 00:46:46,220
Melbourne inland and they they don't

859
00:46:51,039 --> 00:46:49,549
appear to be related to the Aboriginal

860
00:46:52,210 --> 00:46:51,049
people whatsoever you know the

861
00:46:56,980 --> 00:46:52,220
Aboriginal people have lived there

862
00:47:00,130 --> 00:46:56,990
40,000 to 60,000 years but there there

863
00:47:04,450 --> 00:47:00,140

seems to have been another race of

864

00:47:07,660 --> 00:47:04,460

people living in in Australia thousands

865

00:47:10,930 --> 00:47:07,670

of years before it was discovered by

866

00:47:12,759 --> 00:47:10,940

Europeans and and these people most

867

00:47:15,490 --> 00:47:12,769

likely are not related to the Aborigines

868

00:47:17,140 --> 00:47:15,500

whatsoever see that's kind of

869

00:47:18,910 --> 00:47:17,150

mind-blowing I haven't heard that little

870

00:47:21,009 --> 00:47:18,920

piece of information that there was yet

871

00:47:23,920 --> 00:47:21,019

a different group than the Aborigines

872

00:47:25,809 --> 00:47:23,930

all right different question I don't

873

00:47:29,710 --> 00:47:25,819

mean to keep going off okay so they have

874

00:47:32,019 --> 00:47:29,720

this red hair going on what about excuse

875

00:47:34,960 --> 00:47:32,029

me skin tone I mean if I think of

876

00:47:36,670 --> 00:47:34,970

someone that is from South America I

877

00:47:39,190 --> 00:47:36,680

would think they would have you know and

878

00:47:45,039 --> 00:47:39,200

all of the kind of skin tone with a

879

00:47:49,120 --> 00:47:45,049

maybe curly wavy kind of hair I mean not

880

00:47:50,500 --> 00:47:49,130

you know a nappy hair kind of thing I'm

881

00:47:52,060 --> 00:47:50,510

do you find those

882

00:47:56,320 --> 00:47:52,070

same characteristics and some of these

883

00:47:59,770 --> 00:47:56,330

other groups well unfortunately we

884

00:48:02,950 --> 00:47:59,780

haven't been able to find any examples

885

00:48:05,500 --> 00:48:02,960

of skin which you know has not become

886

00:48:07,870 --> 00:48:05,510

heavily discolored as in black and

887

00:48:11,500 --> 00:48:07,880

through time because you're talking

888

00:48:16,600 --> 00:48:11,510

about people who are 2,000 plus years

889

00:48:18,670 --> 00:48:16,610

old but genetically speaking it from

890

00:48:22,240 --> 00:48:18,680

what I've learned it's likely that

891

00:48:24,720 --> 00:48:22,250

anyone who has reddish brown hair has

892

00:48:28,060 --> 00:48:24,730

would have a lighter complexion and

893

00:48:30,460 --> 00:48:28,070

possibly not brown eyes which are

894

00:48:34,060 --> 00:48:30,470

typical to Native Americans but possibly

895

00:48:36,730 --> 00:48:34,070

greenish or even blue but we would have

896

00:48:39,310 --> 00:48:36,740

to find a perfect money in order to be

897

00:48:42,910 --> 00:48:39,320

able to prove that mm-hmm well I was

898

00:48:47,200 --> 00:48:42,920

just thinking in the more current groups

899

00:48:50,560 --> 00:48:47,210

in Polynesia you know if what they look

900

00:48:53,050 --> 00:48:50,570

like you know if there was I mean I know

901
00:48:56,260 --> 00:48:53,060
you know that I know that I think that

902
00:48:57,550 --> 00:48:56,270
there is you know groups that have gone

903
00:48:59,170 --> 00:48:57,560
all around and that there are

904
00:49:01,540 --> 00:48:59,180
connections between different races

905
00:49:03,310 --> 00:49:01,550
around the world and so I just from

906
00:49:04,870 --> 00:49:03,320
going okay so if we have this in South

907
00:49:07,810 --> 00:49:04,880
America and we have something similar

908
00:49:09,490 --> 00:49:07,820
you know what do they look like here

909
00:49:11,590 --> 00:49:09,500
because maybe it could give us an answer

910
00:49:16,360 --> 00:49:11,600
to what's going on over there that was

911
00:49:21,259 --> 00:49:16,370
kind of where I was going to win yeah so

912
00:49:27,960 --> 00:49:25,049
so I understand that there's some really

913
00:49:32,910 --> 00:49:27,970

really new groundbreaking information

914

00:49:34,740 --> 00:49:32,920

that you just gotten ahold of which I

915

00:49:37,519 --> 00:49:34,750

don't really know what it is and it

916

00:49:40,769 --> 00:49:37,529

maybe you'll talk about it a little bit

917

00:49:44,099 --> 00:49:40,779

well one unfortunate thing is half an

918

00:49:46,069 --> 00:49:44,109

hour before I came on air with you I was

919

00:49:48,450 --> 00:49:46,079

told by the people who were actually

920

00:49:51,180 --> 00:49:48,460

doing the research that I'm not allowed

921

00:49:55,109 --> 00:49:51,190

to talk about it but what I can't

922

00:49:56,910 --> 00:49:55,119

specifically but what I can tell you and

923

00:50:01,680 --> 00:49:56,920

because of you know a lot of people have

924

00:50:03,690 --> 00:50:01,690

been intrigued with with the DNA testing

925

00:50:07,190 --> 00:50:03,700

that we've been attempting to do and

926
00:50:12,690 --> 00:50:07,200
it's been three years of complications

927
00:50:14,880 --> 00:50:12,700
and nefarious activities and all sorts

928
00:50:18,180 --> 00:50:14,890
of things going on but what I did find

929
00:50:22,319 --> 00:50:18,190
out today was that the testing that

930
00:50:25,650 --> 00:50:22,329
we're planning on doing has moved

931
00:50:29,539 --> 00:50:25,660
another step forward in that it looks

932
00:50:35,339 --> 00:50:29,549
like we will have government approval to

933
00:50:38,460 --> 00:50:35,349
in Peru to have testing of Baracus

934
00:50:41,880 --> 00:50:38,470
elongated skulls performed so that

935
00:50:44,759 --> 00:50:41,890
samples can be sent to laboratories in

936
00:50:47,819 --> 00:50:44,769
other countries for the actual DNA

937
00:50:50,990 --> 00:50:47,829
testing because they're there is no DNA

938
00:50:56,519 --> 00:50:51,000

testing facility in Peru that can handle

939

00:51:00,259 --> 00:50:56,529

ancient DNA nor are there any carbon 14

940

00:51:03,509 --> 00:51:00,269

labs or anything of that nature so

941

00:51:06,859 --> 00:51:03,519

that's very much a positive note and

942

00:51:10,079 --> 00:51:06,869

we're getting inklings that there are

943

00:51:13,380 --> 00:51:10,089

that there is partial ancestry from the

944

00:51:16,410 --> 00:51:13,390

Middle East on the coast of Peru and

945

00:51:18,359 --> 00:51:16,420

that somebody some group seemingly did

946

00:51:21,480 --> 00:51:18,369

migrate from the Middle East to the

947

00:51:28,620 --> 00:51:21,490

coast of Peru then mixed with the native

948

00:51:32,160 --> 00:51:28,630

population and so it's it's a theory

949

00:51:34,420 --> 00:51:32,170

that I've been working on for about

950

00:51:37,299 --> 00:51:34,430

three years and we

951
00:51:40,960 --> 00:51:37,309
inklings that that is is the fact that

952
00:51:43,210 --> 00:51:40,970
the brackets ancestors didn't cross the

953
00:51:45,640 --> 00:51:43,220
Bering Land Bridge and you know walk all

954
00:51:48,099 --> 00:51:45,650
the way down to the coast of Peru that

955
00:51:50,799 --> 00:51:48,109
but that at least part of their ancestry

956
00:51:53,079 --> 00:51:50,809
came by sea and most likely came from

957
00:52:00,059 --> 00:51:53,089
the Middle East over a long period of

958
00:52:06,790 --> 00:52:04,930
different I don't even know how to

959
00:52:09,250 --> 00:52:06,800
express this I mean there has been

960
00:52:12,990 --> 00:52:09,260
commentary that they were you know from

961
00:52:16,150 --> 00:52:13,000
China they were Mongols they were

962
00:52:18,250 --> 00:52:16,160
Polynesians they were you know all kinds

963
00:52:20,500 --> 00:52:18,260

of people this is the first time I'm

964

00:52:22,450 --> 00:52:20,510

hearing the Middle East and that just

965

00:52:27,549 --> 00:52:22,460

kind of puts it into a different cat

966

00:52:31,059 --> 00:52:27,559

they were Egyptian that's it well that's

967

00:52:34,210 --> 00:52:31,069

it's really interesting because also you

968

00:52:36,670 --> 00:52:34,220

might you know I've been a sailor most

969

00:52:39,880 --> 00:52:36,680

of my life and so studying ancient

970

00:52:42,039 --> 00:52:39,890

migration patterns intrigues me and I I

971

00:52:44,440 --> 00:52:42,049

regard ancient people as being at least

972

00:52:46,870 --> 00:52:44,450

as intelligent as we are not not a bunch

973

00:52:48,849 --> 00:52:46,880

of idiots who SAT around the campfire

974

00:52:52,720 --> 00:52:48,859

all day but that they have the

975

00:52:55,510 --> 00:52:52,730

capability of migrating great distances

976

00:52:58,359 --> 00:52:55,520

and so one curious notice that in the

977

00:53:01,599 --> 00:52:58,369

Solomon Islands which is you know which

978

00:53:05,049 --> 00:53:01,609

are in between i believe the Middle East

979

00:53:08,380 --> 00:53:05,059

and Australia you have Vanuatu and on

980

00:53:11,470 --> 00:53:08,390

Vanuatu and neighboring islands those

981

00:53:13,120 --> 00:53:11,480

people practice cranial deformation so

982

00:53:16,359 --> 00:53:13,130

they don't they don't fit in the picture

983

00:53:19,809 --> 00:53:16,369

at all as regards the other groups

984

00:53:22,349 --> 00:53:19,819

unless you consult the oral tradition

985

00:53:25,870 --> 00:53:22,359

and I was able to find on the internet

986

00:53:29,380 --> 00:53:25,880

the right actually just a quote from an

987

00:53:32,160 --> 00:53:29,390

old man from from that area from Vanuatu

988

00:53:35,020 --> 00:53:32,170

who said I don't care what

989

00:53:38,170 --> 00:53:35,030

archaeologists are archaeologists say

990

00:53:41,200 --> 00:53:38,180

about my people that we traveled down

991

00:53:46,030 --> 00:53:41,210

the coast of Asia to reach this island

992

00:53:47,589 --> 00:53:46,040

my ancestors came from Egypt so bingo

993

00:53:48,160 --> 00:53:47,599

there you have the possible connection

994

00:53:51,220 --> 00:53:48,170

between

995

00:53:55,780 --> 00:53:51,230

Egypt all the way through polynesia to

996

00:54:02,349 --> 00:53:55,790

the west coast of South America well

997

00:54:07,740 --> 00:54:02,359

okay but you know but that opens up

998

00:54:11,370 --> 00:54:07,750

whole other can of worms you know from

999

00:54:14,770 --> 00:54:11,380

you know i'm going to say more in a

1000

00:54:17,230 --> 00:54:14,780

technical point of view cultural point

1001
00:54:24,970 --> 00:54:17,240
of view because if you're saying that

1002
00:54:27,220 --> 00:54:24,980
the paratus people were from like 800 BC

1003
00:54:31,539 --> 00:54:27,230
or whatever I mean they sounded fairly

1004
00:54:33,520 --> 00:54:31,549
recent you know Egypt have a lot more

1005
00:54:38,849 --> 00:54:33,530
technology than that they had writing

1006
00:54:42,539 --> 00:54:38,859
they had they built the pyramids come on

1007
00:54:44,289 --> 00:54:42,549
well that's that's well no they didn't I

1008
00:54:46,359 --> 00:54:44,299
guess I was just being a little

1009
00:54:49,240 --> 00:54:46,369
facetious there yeah that's a completely

1010
00:54:53,109 --> 00:54:49,250
different topic but not what I'm not

1011
00:54:56,559 --> 00:54:53,119
saying an Egyptian connection with with

1012
00:54:59,890 --> 00:54:56,569
South America I'm I'm talking about a

1013
00:55:01,930 --> 00:54:59,900

possible Middle Eastern connection but

1014

00:55:03,789 --> 00:55:01,940

it's just interesting that these people

1015

00:55:06,280 --> 00:55:03,799

from Vanuatu or this man from Vanuatu

1016

00:55:08,230 --> 00:55:06,290

would say my ancestors are at least part

1017

00:55:11,349 --> 00:55:08,240

of them came to know came from Egypt we

1018

00:55:13,210 --> 00:55:11,359

didn't migrate down through career or

1019

00:55:15,039 --> 00:55:13,220

something like that and you know here

1020

00:55:18,160 --> 00:55:15,049

and there and and that's where you you

1021

00:55:20,620 --> 00:55:18,170

know it's always interesting to if you

1022

00:55:23,309 --> 00:55:20,630

if it's possible to compare oral

1023

00:55:25,390 --> 00:55:23,319

tradition with what archaeologists are

1024

00:55:27,490 --> 00:55:25,400

archaeology tries to say because

1025

00:55:30,849 --> 00:55:27,500

sometimes there's an overlap and

1026

00:55:33,970 --> 00:55:30,859

sometimes there's a complete gap between

1027

00:55:37,950 --> 00:55:33,980

the two but i would take oral tradition

1028

00:55:40,480 --> 00:55:37,960

over archaeology 24 hours a day because

1029

00:55:42,940 --> 00:55:40,490

people have a tendency to know their

1030

00:55:44,680 --> 00:55:42,950

ancestors and who they were as compared

1031

00:55:47,170 --> 00:55:44,690

to somebody from a completely different

1032

00:55:51,700 --> 00:55:47,180

culture digging in the ground and making

1033

00:55:54,190 --> 00:55:51,710

presumptions about who somebody was well

1034

00:55:56,260 --> 00:55:54,200

that seems to be evident everywhere or

1035

00:55:59,020 --> 00:55:56,270

whatever where where they just like make

1036

00:56:00,520 --> 00:55:59,030

up stuff and put it out there and go oh

1037

00:56:01,870 --> 00:56:00,530

well this is what it is and they don't

1038

00:56:06,100 --> 00:56:01,880

have a clue what they're talking

1039

00:56:10,030 --> 00:56:06,110

out yeah they try to make things often

1040

00:56:13,870 --> 00:56:10,040

fit their theory even if it if it

1041

00:56:16,600 --> 00:56:13,880

shouldn't such as well such as another

1042

00:56:20,110 --> 00:56:16,610

basic example is how did the you know

1043

00:56:23,620 --> 00:56:20,120

how how were the great stone figures on

1044

00:56:27,190 --> 00:56:23,630

Easter Island mood I know a quite a

1045

00:56:30,040 --> 00:56:27,200

renowned royal person on Easter Island

1046

00:56:32,680 --> 00:56:30,050

and she said no archaeologist has ever

1047

00:56:34,570 --> 00:56:32,690

come and asked our family how all of

1048

00:56:40,510 --> 00:56:34,580

this work was done they just make up

1049

00:56:42,640 --> 00:56:40,520

their own theories and there you go if

1050

00:56:45,190 --> 00:56:42,650

you could you know if it actually asked

1051
00:56:47,080 --> 00:56:45,200
the descendants you know how how did

1052
00:56:50,260 --> 00:56:47,090
your ancestors do this work then you

1053
00:56:51,460 --> 00:56:50,270
would have the the basis of a theory

1054
00:56:57,160 --> 00:56:51,470
that you could work on rather than

1055
00:56:59,290 --> 00:56:57,170
making up your own but then in the same

1056
00:57:01,780 --> 00:56:59,300
breath they think that you know the

1057
00:57:03,520 --> 00:57:01,790
people are idiots and don't really know

1058
00:57:05,200 --> 00:57:03,530
their own history so they have to make

1059
00:57:08,410 --> 00:57:05,210
up a history for them and say well this

1060
00:57:09,640 --> 00:57:08,420
is what happened yeah I know I know and

1061
00:57:11,230 --> 00:57:09,650
that's one of the most offense but

1062
00:57:14,940 --> 00:57:11,240
that's one of the reasons I do what I do

1063
00:57:17,170 --> 00:57:14,950

because I find that very offensive and

1064

00:57:19,150 --> 00:57:17,180

always have i've been involved with

1065

00:57:21,400 --> 00:57:19,160

native people since i was a child and

1066

00:57:23,170 --> 00:57:21,410

have always respected that they have

1067

00:57:25,900 --> 00:57:23,180

knowledge of who they are and where they

1068

00:57:28,060 --> 00:57:25,910

came from and for an academic to simply

1069

00:57:30,100 --> 00:57:28,070

say well i won't interview these people

1070

00:57:33,250 --> 00:57:30,110

because i have a better theory than they

1071

00:57:38,170 --> 00:57:33,260

do is is really kind of weird it's

1072

00:57:39,520 --> 00:57:38,180

insulting it is very um but let me ask

1073

00:57:41,140 --> 00:57:39,530

you this question i'm gonna kind of

1074

00:57:44,230 --> 00:57:41,150

change topic here i mean we're talking

1075

00:57:46,410 --> 00:57:44,240

about the elongated skulls and many

1076
00:57:49,690 --> 00:57:46,420
times people make the assumption that

1077
00:57:52,900 --> 00:57:49,700
when you see elongated skulls there are

1078
00:57:56,100 --> 00:57:52,910
instances of trepanation is that a

1079
00:58:00,000 --> 00:57:56,110
common occurrence or is that common or

1080
00:58:04,200 --> 00:58:00,010
was trepanation done globally

1081
00:58:07,560 --> 00:58:04,210
universally in people I wouldn't say

1082
00:58:10,060 --> 00:58:07,570
universally but it's another fascinating

1083
00:58:14,080 --> 00:58:10,070
aspect of the practice people this

1084
00:58:15,089 --> 00:58:14,090
mysterious be policed civilization you

1085
00:58:17,400 --> 00:58:15,099
know appears that

1086
00:58:22,109 --> 00:58:17,410
no we're eight around 800 bc they were

1087
00:58:25,799 --> 00:58:22,119
masters at brain surgery and some some

1088
00:58:29,940 --> 00:58:25,809

studies have of excavations in in

1089

00:58:33,630 --> 00:58:29,950

graveyards in Peru have shown that at

1090

00:58:36,390 --> 00:58:33,640

least fifty percent of the of the

1091

00:58:39,210 --> 00:58:36,400

patients who had cranial are who had

1092

00:58:42,509 --> 00:58:39,220

trepidation performed lived for a number

1093

00:58:44,640 --> 00:58:42,519

of years after the surgery so that's

1094

00:58:47,849 --> 00:58:44,650

quite you know it's quite curious that a

1095

00:58:49,829 --> 00:58:47,859

so-called primitive people would have to

1096

00:58:51,979 --> 00:58:49,839

some degree mastered one of the most

1097

00:58:56,969 --> 00:58:51,989

difficult if not the most difficult

1098

00:59:00,359 --> 00:58:56,979

surgical operation known was there was

1099

00:59:06,870 --> 00:59:00,369

it more prevalent in the practice area

1100

00:59:10,190 --> 00:59:06,880

or was it found all over the region it's

1101

00:59:14,039 --> 00:59:10,200

it was quite quite prevalent in the

1102

00:59:17,400 --> 00:59:14,049

Baracus Nazca area also to some degree

1103

00:59:22,950 --> 00:59:17,410

up around Lake Titicaca and amongst the

1104

00:59:25,680 --> 00:59:22,960

Inca themselves I mean I just find that

1105

00:59:28,979 --> 00:59:25,690

fascinating you know I was reading this

1106

00:59:32,400 --> 00:59:28,989

one thing that said that the number of

1107

00:59:35,309 --> 00:59:32,410

skulls that they found were it appears

1108

00:59:39,239 --> 00:59:35,319

that the person died from those cultures

1109

00:59:43,039 --> 00:59:39,249

was very few but when they try to do a

1110

00:59:48,200 --> 00:59:43,049

similar procedure in more modern times

1111

00:59:53,789 --> 00:59:50,819

hygienic purposes you know like in the

1112

00:59:57,059 --> 00:59:53,799

1700s 1800s that the majority of the

1113

00:59:58,799 --> 00:59:57,069

people died well that's true and

1114

01:00:01,499 --> 00:59:58,809

actually there is evidence that the

1115

01:00:08,359 --> 01:00:01,509

fracas did did have anesthesia they used

1116

01:00:13,380 --> 01:00:08,369

coca relief which is and and as well as

1117

01:00:17,069 --> 01:00:13,390

corn beer to anesthetize the patient and

1118

01:00:19,440 --> 01:00:17,079

also after because you know because of

1119

01:00:20,849 --> 01:00:19,450

course that's a terrible thing for

1120

01:00:23,279 --> 01:00:20,859

infection when you have something the

1121

01:00:25,680 --> 01:00:23,289

size of it you know in some cases these

1122

01:00:28,329 --> 01:00:25,690

some the holes that were cut in discover

1123

01:00:32,700 --> 01:00:28,339

the size of a silver dollar and so how

1124

01:00:39,130 --> 01:00:36,039

killing the person but for some reason

1125

01:00:42,160 --> 01:00:39,140

they knew to place either a thin sheet

1126

01:00:45,459 --> 01:00:42,170

of silver or a thin sheet of gold over

1127

01:00:47,769 --> 01:00:45,469

top of the wound and gold is an

1128

01:00:52,229 --> 01:00:47,779

excellent metal because it doesn't react

1129

01:00:55,359 --> 01:00:52,239

to the body and silver is antibiotic so

1130

01:00:58,539 --> 01:00:55,369

after they would put this thin thin

1131

01:01:00,880 --> 01:00:58,549

circular or square sheet on and then of

1132

01:01:03,660 --> 01:01:00,890

course cover it with cotton etc etc over

1133

01:01:06,459 --> 01:01:03,670

time the skin is going to come in and

1134

01:01:10,989 --> 01:01:06,469

encircle the area and then the bone can

1135

01:01:13,779 --> 01:01:10,999

recover underneath it I just think that

1136

01:01:18,640 --> 01:01:13,789

that's amazing you know that they had

1137

01:01:21,029 --> 01:01:18,650

that technology to do that or whether

1138

01:01:24,160 --> 01:01:21,039

rock where the proc is people of

1139

01:01:26,049 --> 01:01:24,170

builders you know do they have I mean

1140

01:01:29,799 --> 01:01:26,059

other than the beginning of the Nazca

1141

01:01:32,079 --> 01:01:29,809

lines did they have any and I'm going to

1142

01:01:34,410 --> 01:01:32,089

put this in quote monumental

1143

01:01:38,469 --> 01:01:34,420

architecture that's attached to them

1144

01:01:42,759 --> 01:01:38,479

well the problem is that they were

1145

01:01:48,390 --> 01:01:42,769

victims of an environment that wasn't

1146

01:01:52,660 --> 01:01:48,400

rich in stone it's basically all sand

1147

01:01:57,249 --> 01:01:52,670

with you know like riverstone sort of

1148

01:01:58,989 --> 01:01:57,259

sizes cusco and tiwanaku areas are

1149

01:02:01,209 --> 01:01:58,999

different because you have it's all

1150

01:02:04,660 --> 01:02:01,219

volcanic and you have mountains that are

1151

01:02:06,219 --> 01:02:04,670

solid stone so obviously megalithic work

1152

01:02:09,999 --> 01:02:06,229

was done in the highlands but not on the

1153

01:02:12,219 --> 01:02:10,009

coast they did build huge or actually

1154

01:02:16,809 --> 01:02:12,229

relatively huge pyramidal structures out

1155

01:02:20,739 --> 01:02:16,819

of adobe brick in some cases millions of

1156

01:02:24,190 --> 01:02:20,749

bricks making up a large temple and then

1157

01:02:27,339 --> 01:02:24,200

also the Royal the Royal practice lived

1158

01:02:34,209 --> 01:02:27,349

in in houses that were constructed

1159

01:02:36,099 --> 01:02:34,219

underground that's smart yeah and so

1160

01:02:38,559 --> 01:02:36,109

these they have been found some of these

1161

01:02:40,620 --> 01:02:38,569

under where they they were they just pit

1162

01:02:42,839 --> 01:02:40,630

houses or were they literally

1163

01:02:50,680 --> 01:02:42,849

underground

1164

01:02:52,930 --> 01:02:50,690

would think probably you know not large

1165

01:02:55,960 --> 01:02:52,940

it would be you'd have an access hole

1166

01:02:57,839 --> 01:02:55,970

and then you then the you'd have a room

1167

01:03:01,180 --> 01:02:57,849

underground which would be probably

1168

01:03:03,309 --> 01:03:01,190

something like 12 you know 12 feet by 12

1169

01:03:07,029 --> 01:03:03,319

feet just to place a place more or less

1170

01:03:10,210 --> 01:03:07,039

to sleep but they found a small city in

1171

01:03:14,289 --> 01:03:10,220

practice of with several hundred of

1172

01:03:20,680 --> 01:03:14,299

these underground houses the big screen

1173

01:03:24,009 --> 01:03:20,690

TV there said yeah parking for three

1174

01:03:29,130 --> 01:03:24,019

Porsches right well that would just be

1175

01:03:33,039 --> 01:03:29,140

in the pyramid yeah let's talk about

1176

01:03:35,859 --> 01:03:33,049

peru and the antiquities you know in

1177

01:03:38,229 --> 01:03:35,869

Peru Bolivia has their I mean you know

1178

01:03:40,839 --> 01:03:38,239

you've come on the show a number of

1179

01:03:45,220 --> 01:03:40,849

times and it is just so frustrating to

1180

01:03:47,950 --> 01:03:45,230

me to find out over time that not really

1181

01:03:49,630 --> 01:03:47,960

anything is being done down there has

1182

01:03:51,609 --> 01:03:49,640

that chain I mean it's been kind of a

1183

01:03:54,220 --> 01:03:51,619

while since you've been on last but has

1184

01:03:58,029 --> 01:03:54,230

there been any more interest taken in

1185

01:04:01,620 --> 01:03:58,039

what's going on from archaeological and

1186

01:04:05,890 --> 01:04:01,630

research point of view there is

1187

01:04:08,589 --> 01:04:05,900

especially in Bolivia we were in Bolivia

1188

01:04:13,029 --> 01:04:08,599

last week or was it even that long ago

1189

01:04:15,190 --> 01:04:13,039

up it up in the Tiwanaku and Lake

1190

01:04:18,789 --> 01:04:15,200

Titicaca area and we got to spend time

1191

01:04:21,039 --> 01:04:18,799

with Bolivian author called Antonio

1192

01:04:23,950 --> 01:04:21,049

Portugal who's written I think eight

1193

01:04:27,370 --> 01:04:23,960

books and he's worked with some of the

1194

01:04:30,970 --> 01:04:27,380

prominent archaeologists both Bolivian

1195

01:04:34,089 --> 01:04:30,980

and foreign for I think for decades and

1196

01:04:37,630 --> 01:04:34,099

he showed me photographs of megalithic

1197

01:04:39,069 --> 01:04:37,640

sites which are underground that they

1198

01:04:42,249 --> 01:04:39,079

have uncovered but have had to have

1199

01:04:45,339 --> 01:04:42,259

cover back up until proper funding is

1200

01:04:48,039 --> 01:04:45,349

found because making a discovery like

1201

01:04:49,989 --> 01:04:48,049

that local people if they find out that

1202

01:04:52,749 --> 01:04:49,999

you're you know that you're digging at a

1203

01:04:55,420 --> 01:04:52,759

site that has not been heard about

1204

01:04:55,990 --> 01:04:55,430

before there's a great tendency of

1205

01:05:00,460 --> 01:04:56,000

looting

1206

01:05:03,990 --> 01:05:00,470

so he showed me photographs of walls

1207

01:05:07,150 --> 01:05:04,000

with multi-ton stone blocks

1208

01:05:09,850 --> 01:05:07,160

tight-fitting in the lake titicaca area

1209

01:05:14,670 --> 01:05:09,860

that have had to be covered back up

1210

01:05:20,350 --> 01:05:14,680

until some future funding can be found

1211

01:05:22,360 --> 01:05:20,360

he also did a sonogram or echo what if I

1212

01:05:27,850 --> 01:05:22,370

am heard the term but anyway some kind

1213

01:05:29,940 --> 01:05:27,860

of echo echo machine that was able to a

1214

01:05:32,410 --> 01:05:29,950

ground-penetrating radar sort of

1215

01:05:35,080 --> 01:05:32,420

machinery and they've discovered a

1216

01:05:36,850 --> 01:05:35,090

number of chambers underneath Tiahuanaco

1217

01:05:39,850 --> 01:05:36,860

which are part of the original

1218

01:05:41,830 --> 01:05:39,860

construction and so he believes that

1219

01:05:45,130 --> 01:05:41,840

there's a whole system of tunnels and

1220

01:05:48,310 --> 01:05:45,140

chambers underneath the tihuanaco in

1221

01:05:51,880 --> 01:05:48,320

puma punku area which are thousands of

1222

01:05:54,910 --> 01:05:51,890

years old well from what I understand

1223

01:05:57,310 --> 01:05:54,920

you know that whole area is riddled with

1224

01:06:01,210 --> 01:05:57,320

tunnels or that there are tunnels there

1225

01:06:04,540 --> 01:06:01,220

that just extend really far in distance

1226

01:06:08,520 --> 01:06:04,550

releaser they allegedly extend really

1227

01:06:12,850 --> 01:06:08,530

far distance yeah well there are so many

1228

01:06:15,700 --> 01:06:12,860

legends about that there's another study

1229

01:06:17,920 --> 01:06:15,710

that was done by a French team using

1230

01:06:21,610 --> 01:06:17,930

ground-penetrating radar I think from an

1231

01:06:24,580 --> 01:06:21,620

airplane over Cusco and they found out

1232

01:06:26,680 --> 01:06:24,590

that there is definitely a tunnel that

1233

01:06:29,650 --> 01:06:26,690

connects saqsaywaman which is one of the

1234

01:06:32,110 --> 01:06:29,660

largest megalithic sites in the Americas

1235

01:06:34,480 --> 01:06:32,120

and it's located well if it was daylight

1236

01:06:36,970 --> 01:06:34,490

I could see it out the window but it's

1237

01:06:39,880 --> 01:06:36,980

located about a two miles from the

1238

01:06:43,360 --> 01:06:39,890

center of cusco and so this tunnel goes

1239

01:06:46,720 --> 01:06:43,370

underneath saqsaywaman underneath the

1240

01:06:48,790 --> 01:06:46,730

city of Cusco and goes at least as far

1241

01:06:50,920 --> 01:06:48,800

as this megalithic building called the

1242

01:06:54,610 --> 01:06:50,930

quarry conchae it may even go farther

1243

01:06:58,300 --> 01:06:54,620

but so there is um you know there is

1244

01:07:01,390 --> 01:06:58,310

mounting evidence that some of the oral

1245

01:07:03,700 --> 01:07:01,400

traditions of tunnels and and mysterious

1246

01:07:06,880 --> 01:07:03,710

chambers and lost ancient high

1247

01:07:09,990 --> 01:07:06,890

technology that this stuff is real and

1248

01:07:17,680 --> 01:07:10,000

not just the stuff of fantasy or

1249

01:07:20,050 --> 01:07:17,690

movies I saw that there were some

1250

01:07:24,130 --> 01:07:20,060

pictures posted but there were very few

1251

01:07:26,110 --> 01:07:24,140

of them doing construction in Cusco

1252

01:07:30,670 --> 01:07:26,120

where they kind of tore out the street

1253

01:07:32,230 --> 01:07:30,680

to put in new I don't know plumbing or

1254

01:07:35,230 --> 01:07:32,240

something I couldn't quite figure I

1255

01:07:37,570 --> 01:07:35,240

don't remember what they were doing when

1256

01:07:41,590 --> 01:07:37,580

they but when they were doing that when

1257

01:07:44,200 --> 01:07:41,600

they dug down into the ground were there

1258

01:07:46,210 --> 01:07:44,210

any archaeologists on hand you know

1259

01:07:48,190 --> 01:07:46,220

documenting anything that they might

1260

01:07:52,360 --> 01:07:48,200

have found down there before they sealed

1261

01:07:54,060 --> 01:07:52,370

it back up oh definitely that what they

1262

01:07:57,130 --> 01:07:54,070

were doing as she is was laying

1263

01:08:01,200 --> 01:07:57,140

fiber-optic cable which is probably what

1264

01:08:04,170 --> 01:08:01,210

I'm using right now and if I'm lucky and

1265

01:08:10,170 --> 01:08:04,180

yeah they discovered you know so

1266

01:08:12,670 --> 01:08:10,180

beautiful stone walls and and parts of

1267

01:08:16,240 --> 01:08:12,680

sections of buildings and a state a

1268

01:08:17,710 --> 01:08:16,250

staircase that went down made of very

1269

01:08:20,920 --> 01:08:17,720

tight fitting stones and so the

1270

01:08:22,870 --> 01:08:20,930

controversy went on for at least four

1271

01:08:26,260 --> 01:08:22,880

months as to what to do about it because

1272

01:08:28,960 --> 01:08:26,270

it's it was a major or it is a major

1273

01:08:31,920 --> 01:08:28,970

street in Cusco that carries a lot of

1274

01:08:35,560 --> 01:08:31,930

traffic and so the battle was between

1275

01:08:39,850 --> 01:08:35,570

the archaeologists who who wanted to

1276

01:08:41,680 --> 01:08:39,860

keep digging and the the rest of the

1277

01:08:45,880 --> 01:08:41,690

people who said we need the road back

1278

01:08:48,160 --> 01:08:45,890

and unfortunately they did document

1279

01:08:50,260 --> 01:08:48,170

everything but unfortunately the people

1280

01:08:52,860 --> 01:08:50,270

who wanted it to be a road one and so

1281

01:08:58,570 --> 01:08:52,870

now it's covered in black top again I

1282

01:09:00,730 --> 01:08:58,580

fought the road in the road one okay but

1283

01:09:05,200 --> 01:09:00,740

that actually brings up another really

1284

01:09:07,150 --> 01:09:05,210

interesting point or caught is that if

1285

01:09:08,650 --> 01:09:07,160

there were these strut let me ask a

1286

01:09:13,000 --> 01:09:08,660

different question so how far down did

1287

01:09:17,440 --> 01:09:13,010

they go how far down did they dig um I

1288

01:09:21,970 --> 01:09:17,450

think about only about 15 feet because

1289

01:09:23,470 --> 01:09:21,980

15 feet well they you know they they did

1290

01:09:25,300 --> 01:09:23,480

the initial excavation

1291

01:09:27,940 --> 01:09:25,310

for the fiber optics and then they

1292

01:09:29,950 --> 01:09:27,950

started to find artifacts and then the

1293

01:09:34,030 --> 01:09:29,960

archaeologists came in for I think a

1294

01:09:36,070 --> 01:09:34,040

month or two and kept going down to some

1295

01:09:38,710 --> 01:09:36,080

degree but then then it became the

1296

01:09:40,090 --> 01:09:38,720

battle between you know are you going to

1297

01:09:42,550 --> 01:09:40,100

keep digging or can we have the road

1298

01:09:44,740 --> 01:09:42,560

back and there are stories that there

1299

01:09:47,260 --> 01:09:44,750

are many buildings underneath the

1300

01:09:49,180 --> 01:09:47,270

present-day city of Cuzco anyway that

1301

01:09:51,910 --> 01:09:49,190

are megalithic in nature and were

1302

01:09:54,729 --> 01:09:51,920

constructed long before the inca that

1303

01:09:58,060 --> 01:09:54,739

the Inca in fact discovered cuzco as an

1304

01:09:59,620 --> 01:09:58,070

abandoned city so this lens create you

1305

01:10:03,430 --> 01:09:59,630

know this little example of the street

1306

01:10:05,800 --> 01:10:03,440

lends credence to that is true mm-hmm

1307

01:10:08,050 --> 01:10:05,810

but I mean I'm thinking okay they went

1308

01:10:11,310 --> 01:10:08,060

down 15 feet so when you're talking

1309

01:10:15,210 --> 01:10:11,320

about something like the quarry Concha

1310

01:10:18,880 --> 01:10:15,220

that might even be a much later

1311

01:10:23,920 --> 01:10:18,890

megalithic construction compared to what

1312

01:10:27,130 --> 01:10:23,930

was down 15 feet you know in some way

1313

01:10:30,850 --> 01:10:27,140

earlier civilization kind of thing well

1314

01:10:34,030 --> 01:10:30,860

they haven't really dug down to find the

1315

01:10:36,330 --> 01:10:34,040

foundation of the quarry can't yet so it

1316

01:10:39,970 --> 01:10:36,340

could be sitting on top of something

1317

01:10:42,610 --> 01:10:39,980

more profound there are a lot of stories

1318

01:10:44,350 --> 01:10:42,620

of that there is it especially from

1319

01:10:46,060 --> 01:10:44,360

indigenous people that they're you know

1320

01:10:49,330 --> 01:10:46,070

there is a tunnel system underneath the

1321

01:10:52,020 --> 01:10:49,340

city that nothing you know you can't dig

1322

01:10:54,880 --> 01:10:52,030

it up now because people are you know

1323

01:10:57,820 --> 01:10:54,890

half a million people are using cusco as

1324

01:11:00,430 --> 01:10:57,830

a modern-day city so there the chance

1325

01:11:04,870 --> 01:11:00,440

that a major excavation can be done is

1326

01:11:08,590 --> 01:11:04,880

slim to zero but what I look for since

1327

01:11:12,330 --> 01:11:08,600

we spend a lot of time in cusco are you

1328

01:11:17,530 --> 01:11:12,340

know people doing possible additions to

1329

01:11:18,910 --> 01:11:17,540

their colonial house like in the yard

1330

01:11:21,190 --> 01:11:18,920

they want to add a room on so they're

1331

01:11:23,890 --> 01:11:21,200

going down to to pour a concrete

1332

01:11:25,540 --> 01:11:23,900

foundation and then wow they discovered

1333

01:11:29,950 --> 01:11:25,550

that they've got a megalithic wall you

1334

01:11:31,060 --> 01:11:29,960

know underneath the grass yeah see I

1335

01:11:32,930 --> 01:11:31,070

wouldn't be pouring a concrete

1336

01:11:35,540 --> 01:11:32,940

foundation if I had that

1337

01:11:37,790 --> 01:11:35,550

no and the other problem is that if you

1338

01:11:41,570 --> 01:11:37,800

if you do find something which is Inca

1339

01:11:43,550 --> 01:11:41,580

or older on your property the government

1340

01:11:46,939 --> 01:11:43,560

could just take your take your house so

1341

01:11:48,890 --> 01:11:46,949

these these are quiet stories I hear

1342

01:11:52,459 --> 01:11:48,900

from people but I do know that there was

1343

01:11:54,920 --> 01:11:52,469

one a very great friend of mine who's a

1344

01:11:57,290 --> 01:11:54,930

profound anthropologist here in Cusco he

1345

01:11:59,870 --> 01:11:57,300

said that a friend of his who owns a

1346

01:12:01,430 --> 01:11:59,880

hotel wanted to make an extension and so

1347

01:12:04,070 --> 01:12:01,440

they started to dig down to pour

1348

01:12:06,280 --> 01:12:04,080

concrete and they discovered you know

1349

01:12:08,150 --> 01:12:06,290

this megalithic structure and

1350

01:12:09,800 --> 01:12:08,160

unfortunately they had to just cover it

1351

01:12:11,900 --> 01:12:09,810

back over because otherwise he was

1352

01:12:14,510 --> 01:12:11,910

afraid that the government would say

1353

01:12:17,270 --> 01:12:14,520

well guess what you know we're buying

1354

01:12:21,590 --> 01:12:17,280

your house and or your hotel and you're

1355

01:12:24,530 --> 01:12:21,600

gonna have to move somewhere I just keep

1356

01:12:29,000 --> 01:12:24,540

thinking I mean I know that there is the

1357

01:12:32,900 --> 01:12:29,010

custom of you know covering over old

1358

01:12:36,860 --> 01:12:32,910

stuff you know to make the new place

1359

01:12:39,320 --> 01:12:36,870

although you know but it just makes me

1360

01:12:43,160 --> 01:12:39,330

go okay so if that's down there what's

1361

01:12:46,070 --> 01:12:43,170

below that you know it well it's my mind

1362

01:12:50,030 --> 01:12:46,080

go well it does and have you been to

1363

01:12:53,390 --> 01:12:50,040

Egypt yet know what I'm working on it

1364

01:12:57,320 --> 01:12:53,400

I'm working on I have started my I'm

1365

01:13:00,080 --> 01:12:57,330

going someplace fund well you'll have to

1366

01:13:02,959 --> 01:13:00,090

meet my friends the allianz who carry

1367

01:13:06,800 --> 01:13:02,969

the oral tradition of Egypt and one day

1368

01:13:10,760 --> 01:13:06,810

I think the first trip I made when we

1369

01:13:12,500 --> 01:13:10,770

had a tour with Stephen Baylor I you

1370

01:13:15,830 --> 01:13:12,510

know I had nothing to do so I decided to

1371

01:13:19,820 --> 01:13:15,840

walk up onto the Giza Plateau and Yusuf

1372

01:13:22,430 --> 01:13:19,830

who is an expert in in ancient Egypt

1373

01:13:24,979 --> 01:13:22,440

said well I'll come with you and he took

1374

01:13:26,570 --> 01:13:24,989

me because he has influence he took me

1375

01:13:29,510 --> 01:13:26,580

what is you know what is normally called

1376

01:13:31,459 --> 01:13:29,520

out of bounds to tourists then we wound

1377

01:13:34,189 --> 01:13:31,469

up three stories underneath the Giza

1378

01:13:39,860 --> 01:13:34,199

Plateau in this in this tunnel system

1379

01:13:43,150 --> 01:13:39,870

and so it's very true there's so much

1380

01:13:46,649 --> 01:13:43,160

that's underground even sahi Hawass

1381

01:13:49,859 --> 01:13:46,659

agrees with them with

1382

01:13:52,679 --> 01:13:49,869

us that and if people don't know who

1383

01:13:55,199 --> 01:13:52,689

zahi hawass says he used to be the head

1384

01:13:57,509 --> 01:13:55,209

of the Supreme Council of Antiquities in

1385

01:13:59,129 --> 01:13:57,519

Egypt he agrees that only fifteen

1386

01:14:01,229 --> 01:13:59,139

percent of ancient Egypt has been

1387

01:14:03,060 --> 01:14:01,239

discovered that the other eighty-five

1388

01:14:06,000 --> 01:14:03,070

percent is still under the sand and

1389

01:14:11,729 --> 01:14:06,010

we're talking megalithic height you know

1390

01:14:17,399 --> 01:14:11,739

ancient high technology work so that is

1391

01:14:19,020 --> 01:14:17,409

cool oh yeah that is ok so Daria and I'm

1392

01:14:21,629 --> 01:14:19,030

not going to try to say her last name

1393

01:14:24,810 --> 01:14:21,639

because i can't pronounce it i already

1394

01:14:27,719 --> 01:14:24,820

know that in advance and she wanted to

1395

01:14:30,270 --> 01:14:27,729

know if you are going to be back in

1396

01:14:33,839 --> 01:14:30,280

Egypt and if you give tours there or you

1397

01:14:36,719 --> 01:14:33,849

take groups there I guess once a year

1398

01:14:38,339 --> 01:14:36,729

and you know I may be biased but I

1399

01:14:41,279 --> 01:14:38,349

believe that the people i work with

1400

01:14:43,919 --> 01:14:41,289

their know more than anybody on the

1401

01:14:46,229 --> 01:14:43,929

planet because they can trace their

1402

01:14:48,179 --> 01:14:46,239

their family history back thousands of

1403

01:14:50,520 --> 01:14:48,189

years they can trace themselves back

1404

01:14:53,040 --> 01:14:50,530

probably before the dynastic Egyptians

1405

01:14:55,609 --> 01:14:53,050

and those are the Ariane family they

1406

01:15:00,959 --> 01:14:55,619

live across the street from the Sphinx

1407

01:15:05,339 --> 01:15:00,969

their father Hakeem was the expert of he

1408

01:15:08,549 --> 01:15:05,349

was the most famous and best guide of

1409

01:15:12,209 --> 01:15:08,559

ancient Egypt and so if if anyone wants

1410

01:15:16,259 --> 01:15:12,219

to will be going in April so if you look

1411

01:15:18,029 --> 01:15:16,269

at my website hidden inca tours com on

1412

01:15:20,879 --> 01:15:18,039

the front page there's there's a link to

1413

01:15:24,299 --> 01:15:20,889

our Egypt or and we show people stuff

1414

01:15:27,359 --> 01:15:24,309

that blows their minds it's it's a real

1415

01:15:32,640 --> 01:15:27,369

indiana jones adventure without the

1416

01:15:35,580 --> 01:15:32,650

popcorn and commercials but the popcorns

1417

01:15:40,250 --> 01:15:35,590

pretty good well popcorns good popcorns

1418

01:15:43,429 --> 01:15:40,260

good so we have about three more minutes

1419

01:15:45,989 --> 01:15:43,439

what's coming up for you trip in

1420

01:15:48,209 --> 01:15:45,999

September is it sep tember because thats

1421

01:15:51,089 --> 01:15:48,219

Daria says already booked for September

1422

01:15:58,169 --> 01:15:51,099

so is it in September no it's an april

1423

01:15:59,760 --> 01:15:58,179

oh okay anyway huh so let's uh what what

1424

01:16:02,070 --> 01:15:59,770

are we up to

1425

01:16:04,020 --> 01:16:02,080

we have a number of short tours in the

1426

01:16:07,740 --> 01:16:04,030

next couple of weeks we're taking a

1427

01:16:12,030 --> 01:16:07,750

group into the Amazon to experience

1428

01:16:15,750 --> 01:16:12,040

ayahuasca then we're going to Australia

1429

01:16:18,960 --> 01:16:15,760

for three weeks and to do some lectures

1430

01:16:23,010 --> 01:16:18,970

and then spend a week in New Zealand

1431

01:16:24,780 --> 01:16:23,020

with the Maori people and then in

1432

01:16:26,730 --> 01:16:24,790

October we have a tour with Hugh Newman

1433

01:16:29,550 --> 01:16:26,740

of the highlands of Peru looking for

1434

01:16:32,760 --> 01:16:29,560

possible evidence of an Atlantian city

1435

01:16:34,830 --> 01:16:32,770

that people can join and february we're

1436

01:16:39,690 --> 01:16:34,840

exploring all of the ancient cultures of

1437

01:16:43,280 --> 01:16:39,700

Mexico and then April is our tour of

1438

01:16:45,690 --> 01:16:43,290

Egypt boy you're just everywhere I

1439

01:16:55,620 --> 01:16:45,700

should learn to sit down once in a while

1440

01:16:58,140 --> 01:16:55,630

I am now yeah also please quickly tell

1441

01:17:01,500 --> 01:16:58,150

people about your videos because those

1442

01:17:04,440 --> 01:17:01,510

are really great and you know you share

1443

01:17:08,070 --> 01:17:04,450

so much information with people well I

1444

01:17:10,850 --> 01:17:08,080

have 750 videos so far on my youtube

1445

01:17:14,610 --> 01:17:10,860

channel I normally put one up every

1446

01:17:15,990 --> 01:17:14,620

three and so it's under my name Brien

1447

01:17:17,940 --> 01:17:16,000

Foerster you'll have to look at the

1448

01:17:21,240 --> 01:17:17,950

proper spelling of my name because it's

1449

01:17:25,620 --> 01:17:21,250

not the normal way but yeah my my my

1450

01:17:29,520 --> 01:17:25,630

youtube channel a lot of videos and I

1451

01:17:34,080 --> 01:17:29,530

just passed the 20 million erk so it's

1452

01:17:35,820 --> 01:17:34,090

actually a bit more by my youtube videos

1453

01:17:37,380 --> 01:17:35,830

I guess than anything else which is fine

1454

01:17:39,200 --> 01:17:37,390

with me it's a lot easier to make a

1455

01:17:41,730 --> 01:17:39,210

youtube video than it is to write a book

1456

01:17:46,470 --> 01:17:41,740

I'm hearing your brother as we were

1457

01:17:49,170 --> 01:17:46,480

hearing you yes I do but your book if

1458

01:17:52,980 --> 01:17:49,180

somebody wants to get it where would

1459

01:17:57,060 --> 01:17:52,990

they where would they go to find it your

1460

01:17:59,580 --> 01:17:57,070

elongated skull book it and the 15 other

1461

01:18:03,930 --> 01:17:59,590

books I've written are all on Amazon

1462

01:18:07,110 --> 01:18:03,940

both in in paperback form and also all

1463

01:18:09,750 --> 01:18:07,120

forms of ebook too or at least a neat

1464

01:18:13,830 --> 01:18:09,760

ebook that works on any possible kind of

1465

01:18:16,620 --> 01:18:13,840

device excellent Brian always a pleasure

1466

01:18:20,100 --> 01:18:16,630

having you well it's always a pleasure

1467

01:18:23,359 --> 01:18:20,110

doctor the time just flies it does it

1468

01:18:25,290 --> 01:18:23,369

does well I'm gonna let you go and

1469

01:18:27,000 --> 01:18:25,300

you'll just have to keep me informed

1470

01:18:28,530 --> 01:18:27,010

when you have some more juicy

1471

01:18:30,270 --> 01:18:28,540

information that you're ready to come on

1472

01:18:32,550 --> 01:18:30,280

and talk about or a book or you know

1473

01:18:35,220 --> 01:18:32,560

whatever okay that'd be great maybe

1474

01:18:36,810 --> 01:18:35,230

after our trip to Mexico because we're

1475

01:18:40,919 --> 01:18:36,820

going to be covering the Toltec the

1476

01:18:42,720 --> 01:18:40,929

Olmec the Aztec and the Maya so actually

1477

01:18:44,790 --> 01:18:42,730

I feel like sending you with my list of

1478

01:18:49,950 --> 01:18:44,800

questions for Australia and New Zealand

1479

01:18:52,500 --> 01:18:49,960

cuz i'm working on a project but it's

1480

01:18:53,850 --> 01:18:52,510

good questions oh well we're actually

1481

01:18:55,709 --> 01:18:53,860

going to see the what are called the

1482

01:18:59,399 --> 01:18:55,719

gospel glyphs which are supposed to

1483

01:19:02,879 --> 01:18:59,409

Egyptian hieroglyphics and so that i

1484

01:19:05,070 --> 01:19:02,889

will definitely document good anyway the

1485

01:19:08,339 --> 01:19:05,080

music started so I got to go oh great

1486

01:19:10,350 --> 01:19:08,349

alright bye Brian thank you doctor all

1487

01:19:13,770 --> 01:19:10,360

right that's Brian Forrester his webpage

1488

01:19:15,570 --> 01:19:13,780

is hidden in Couture's calm and next

1489

01:19:17,580 --> 01:19:15,580

week we have the infamous Jim Marrs

1490

01:19:19,859 --> 01:19:17,590

coming on to talk about is corporate

1491

01:19:21,870 --> 01:19:19,869

America killing us and in the second

1492

01:19:23,939 --> 01:19:21,880

hour we have Richard Saunders coming on

1493

01:19:26,910 --> 01:19:23,949

talking about extraterrestrials and

1494

01:19:29,729 --> 01:19:26,920

underground bases and so until next time

1495

01:19:53,280 --> 01:19:29,739

I'm dr. REE Louise this is just energy

1496

01:19:59,560 --> 01:19:56,530

join host dr. Reid Louise each week at
