

The background of the image is a composite of space imagery. The top half shows a dark blue space with a large, detailed grey moon on the right side. The bottom half shows a bright blue horizon of the Earth with white clouds. The text is overlaid on this background.

2014 Border Zone UFO Conference

Revisiting the Coyame Incident

1
00:00:16,070 --> 00:00:03,290
you're listening to Ira the inception

2
00:00:19,700 --> 00:00:16,080
radio network Chicago Illinois you're

3
00:00:24,470 --> 00:00:19,710
listening to I RN 2014 Porter's own

4
00:00:28,279 --> 00:00:24,480
international UFO conference alright

5
00:00:30,560 --> 00:00:28,289
here we go again in 1974 something very

6
00:00:33,229 --> 00:00:30,570
strange happened in the desert about 40

7
00:00:35,240 --> 00:00:33,239
miles from where we sit today witnesses

8
00:00:37,850 --> 00:00:35,250
say an alien spacecraft crashed in

9
00:00:40,760 --> 00:00:37,860
midair with a small plane and felder

10
00:00:42,590 --> 00:00:40,770
earth just north of here night auras and

11
00:00:46,190 --> 00:00:42,600
Ruben Uriarte have written two books

12
00:00:47,840 --> 00:00:46,200
about this famous case in 2007 they

13
00:00:50,630 --> 00:00:47,850

released their first book Mexico's

14

00:00:52,369 --> 00:00:50,640

Roswell which led to many television

15

00:00:55,130 --> 00:00:52,379

documentaries and appearances by the

16

00:00:58,490 --> 00:00:55,140

authors a second edition of the book was

17

00:01:00,260 --> 00:00:58,500

published in 2009 and just last year the

18

00:01:03,139 --> 00:01:00,270

authors updated the story in their

19

00:01:06,500 --> 00:01:03,149

newest book to kill me incident UFO

20

00:01:08,570 --> 00:01:06,510

crash near Presidio Texas today no n

21

00:01:10,670 --> 00:01:08,580

Ruben will bring us a complete story of

22

00:01:12,830 --> 00:01:10,680

what happened including all the latest

23

00:01:16,520 --> 00:01:12,840

data about the reported crash of a UFO

24

00:01:18,230 --> 00:01:16,530

in the desert not far from here please

25

00:01:29,510 --> 00:01:18,240

help me welcome nguoi taurus and

26
00:01:32,480 --> 00:01:29,520
rupinder RT Thank You Dennis one of the

27
00:01:34,819 --> 00:01:32,490
joys that Reuben and I had in going to

28
00:01:38,359 --> 00:01:34,829
Roswell and speaking at the Roswell UFO

29
00:01:41,690 --> 00:01:38,369
festival every summer for five years in

30
00:01:44,020 --> 00:01:41,700
a row was meeting many of the top UFO

31
00:01:48,050 --> 00:01:44,030
researchers in the world really

32
00:01:51,109 --> 00:01:48,060
including dennis belthazor so that's one

33
00:01:55,069 --> 00:01:51,119
of the things dennis that i have the

34
00:01:58,730 --> 00:01:55,079
greatest memories of is in you know and

35
00:02:01,370 --> 00:01:58,740
I so fondly remember is meeting you and

36
00:02:04,940 --> 00:02:01,380
the other Stanton Friedman Bruce

37
00:02:07,100 --> 00:02:04,950
Maccabee just an innumerable number of

38
00:02:10,040 --> 00:02:07,110

wonderful folks that we met in Roswell

39

00:02:12,830 --> 00:02:10,050

so that's how we got started

40

00:02:14,450 --> 00:02:12,840

we we put this book together which we're

41

00:02:18,440 --> 00:02:14,460

going to be talking about now Reuben and

42

00:02:21,770 --> 00:02:18,450

I and then the phone started ringing off

43

00:02:24,950 --> 00:02:21,780

the wall you know and in our pockets as

44

00:02:27,680 --> 00:02:24,960

well the phone started ringing that

45

00:02:29,570 --> 00:02:27,690

George Noory from coast to coast wanted

46

00:02:32,960 --> 00:02:29,580

to interview as the history channel

47

00:02:35,930 --> 00:02:32,970

wanted to do a documentary and so it was

48

00:02:38,660 --> 00:02:35,940

like Katie bar the door you know what

49

00:02:41,990 --> 00:02:38,670

did we do so anyway the story is

50

00:02:46,670 --> 00:02:42,000

compelling it is one of the most

51
00:02:51,320 --> 00:02:46,680
interesting and yet least known UFO

52
00:02:54,680 --> 00:02:51,330
cases now in the popular literature or

53
00:02:59,510 --> 00:02:54,690
in the UFO literature i should say the

54
00:03:02,660 --> 00:02:59,520
researchers call it mexico's roswell and

55
00:03:05,090 --> 00:03:02,670
that's how it became to be known in the

56
00:03:10,250 --> 00:03:05,100
late 80s Early 90s when the incident

57
00:03:13,160 --> 00:03:10,260
first surfaced but it actually happened

58
00:03:16,310 --> 00:03:13,170
as we've mentioned several times not far

59
00:03:18,350 --> 00:03:16,320
from where we are here today it happened

60
00:03:20,690 --> 00:03:18,360
in the chihuahuan desert just about 40

61
00:03:25,880 --> 00:03:20,700
miles northwest of here is that as the

62
00:03:30,110 --> 00:03:25,890
crow flies so a Presidio is actually one

63
00:03:33,170 --> 00:03:30,120

of the nearest populated cities and

64

00:03:36,199 --> 00:03:33,180

certainly the nearest city on the Texas

65

00:03:38,180 --> 00:03:36,209

side to where this happened and it's

66

00:03:42,550 --> 00:03:38,190

called a Kalama incident because it

67

00:03:45,440 --> 00:03:42,560

happened in el municipio de koyama the

68

00:03:48,350 --> 00:03:45,450

municipality of koyama which is would be

69

00:03:51,590 --> 00:03:48,360

the equivalent of a county in the u.s.

70

00:03:54,050 --> 00:03:51,600

so in the county of koyama now the

71

00:03:56,300 --> 00:03:54,060

county of koyama in mexico is a huge

72

00:04:02,150 --> 00:03:56,310

place and i believe one of those slides

73

00:04:04,910 --> 00:04:02,160

will show you the boundaries but one of

74

00:04:07,100 --> 00:04:04,920

the earliest depictions of what happened

75

00:04:08,870 --> 00:04:07,110

out there and i always show it at the

76
00:04:12,650 --> 00:04:08,880
beginning of our presentation because it

77
00:04:15,710 --> 00:04:12,660
gives a good capsule summary about five

78
00:04:20,860 --> 00:04:15,720
minutes it summarizes the whole story

79
00:04:23,930 --> 00:04:20,870
and it's from an episode of UFOs of the

80
00:04:26,780 --> 00:04:23,940
1970s which aired on the History Channel

81
00:04:30,650 --> 00:04:26,790
and keep an eye on while you watch this

82
00:04:33,530 --> 00:04:30,660
clip for my sidekick Rubin who is going

83
00:04:35,960 --> 00:04:33,540
to appear several times and then he'll

84
00:04:39,890 --> 00:04:35,970
have more to tell you about that later

85
00:04:41,600 --> 00:04:39,900
but anyway here we go with the the thing

86
00:04:45,650 --> 00:04:41,610
that kind of got the whole thing dropped

87
00:04:49,370 --> 00:04:45,660
kicked and started and here it is over

88
00:04:53,450 --> 00:04:49,380

Springfield 1974 Rihanna Mexico is home

89

00:04:57,020 --> 00:04:53,460

to its own students some say lethally

90

00:04:59,570 --> 00:04:57,030

we're focusing it has a place not found

91

00:05:01,990 --> 00:04:59,580

on many maps at his home to more agave

92

00:05:04,380 --> 00:05:02,000

plants than people

93

00:05:09,540 --> 00:05:04,390

but several of those who do live here

94

00:05:13,999 --> 00:05:12,200

Brian summers night in Miami

95

00:05:16,390 --> 00:05:14,009

the town's inhabitants are beginning to

96

00:05:19,659 --> 00:05:16,400

turn in for the night

97

00:05:21,430 --> 00:05:19,669

500 miles away united states air defense

98

00:05:23,939 --> 00:05:21,440

system suddenly register an unknown

99

00:05:27,100 --> 00:05:23,949

object flying over the Gulf of Mexico

100

00:05:30,290 --> 00:05:27,110

streaking across the sky in over 2,500

101

00:05:32,340 --> 00:05:30,300

miles per hour at an altitude

102

00:05:34,740 --> 00:05:32,350

thousand feet

103

00:05:37,140 --> 00:05:34,750

holding one thing's for certain this is

104

00:05:38,970 --> 00:05:37,150

not something man-made

105

00:05:41,580 --> 00:05:38,980

initial indications are that it's

106

00:05:44,640 --> 00:05:41,590

probably nothing more than a media put

107

00:05:46,620 --> 00:05:44,650

60 seconds later it becomes clear that's

108

00:05:48,450 --> 00:05:46,630

impossible

109

00:05:50,880 --> 00:05:48,460

this object was travelling and

110

00:05:54,530 --> 00:05:50,890

descending through steps unlike that of

111

00:05:56,570 --> 00:05:54,540

a meteor in Canada for more of an art

112

00:06:00,440 --> 00:05:56,580

the object of parents headed on a course

113

00:06:03,119 --> 00:06:00,450

towards corpus christi texas american

114

00:06:05,699 --> 00:06:03,129

air defense systems aren't alerted

115

00:06:08,279 --> 00:06:05,709

suddenly the unidentified flying object

116

00:06:13,310 --> 00:06:08,289

is left it enters Mexican airspace just

117

00:06:21,010 --> 00:06:15,560

the US continues tracking the puzzling

118

00:06:25,809 --> 00:06:23,379

capelin isn't seen on radar is a small

119

00:06:27,770 --> 00:06:25,819

craft headed on a trajectory towards the

120

00:06:30,050 --> 00:06:27,780

UFO

121

00:06:33,110 --> 00:06:30,060

it's also interesting about this case is

122

00:06:36,020 --> 00:06:33,120

about the same time as this UFO was

123

00:06:38,360 --> 00:06:36,030

zigging and zagging there was a plane

124

00:06:40,550 --> 00:06:38,370

that was leaving El Paso headed towards

125

00:06:42,470 --> 00:06:40,560

Mexico Steve

126
00:06:45,830 --> 00:06:42,480
the small civilian plane in El Paso

127
00:06:51,969 --> 00:06:45,840
heads toward Mexico's capital city but

128
00:06:57,110 --> 00:06:54,890
at the same time the American military

129
00:07:02,870 --> 00:06:57,120
watches and the unidentified flying

130
00:07:04,629 --> 00:07:02,880
object disappears from radar it appears

131
00:07:06,650 --> 00:07:04,639
that the unthinkable has happened

132
00:07:09,640 --> 00:07:06,660
there's an assumption that there was a

133
00:07:14,029 --> 00:07:09,650
collision of some type where both the

134
00:07:16,430 --> 00:07:14,039
graph and the plane had collided the

135
00:07:17,870 --> 00:07:16,440
following morning nine hours after the

136
00:07:20,719 --> 00:07:17,880
civilian plane disappeared over the

137
00:07:23,420 --> 00:07:20,729
desert on Mexican recovery team hunts

138
00:07:29,960 --> 00:07:25,790

across the border american intelligence

139

00:07:32,510 --> 00:07:29,970

listens in the americans intercept a

140

00:07:34,130 --> 00:07:32,520

mexican military radio report the

141

00:07:37,580 --> 00:07:34,140

wreckage of the missing planes been

142

00:07:39,860 --> 00:07:37,590

spotted just outside Kayani moments

143

00:07:43,450 --> 00:07:39,870

later another report shockingly

144

00:07:47,529 --> 00:07:43,460

announces the sighting of a second

145

00:07:50,350 --> 00:07:47,539

but this is no plain Mexican recovery

146

00:07:54,490 --> 00:07:50,360

team finds a sort of a silver shaped

147

00:07:56,589 --> 00:07:54,500

classic disk some 16 feet 5 inches about

148

00:07:59,710 --> 00:07:56,599

five feet thick contacts on both sides

149

00:08:02,680 --> 00:07:59,720

sort of like saucers the saucers surface

150

00:08:05,260 --> 00:08:02,690

has the appearance of polished steel it

151
00:08:09,070 --> 00:08:05,270
has no markings no lights and there are

152
00:08:11,650 --> 00:08:09,080
nobody's inside however it does appear

153
00:08:13,330 --> 00:08:11,660
to be damaged in two spots possibly

154
00:08:16,290 --> 00:08:13,340
caused by a collision with civilian

155
00:08:19,480 --> 00:08:16,300
plane and then falling to the ground

156
00:08:24,330 --> 00:08:19,490
immediately Mexican officials declare

157
00:08:28,860 --> 00:08:27,120
meanwhile he was officially reach out to

158
00:08:30,580 --> 00:08:28,870
the mexican government offering

159
00:08:35,050 --> 00:08:30,590
assistance in the recovery

160
00:08:37,420 --> 00:08:35,060
their offer is met with a denial the

161
00:08:40,690 --> 00:08:37,430
Mexican government denied it they said

162
00:08:42,670 --> 00:08:40,700
now all we have is just a plane wreckage

163
00:08:45,280 --> 00:08:42,680

while the Mexican team collects the

164

00:08:47,200 --> 00:08:45,290

crash debris United States is busy

165

00:08:51,079 --> 00:08:47,210

assembling their own elite recovery

166

00:08:57,480 --> 00:08:53,989

the team includes four helicopters three

167

00:09:00,030 --> 00:08:57,490

small duties and a large sea study

168

00:09:03,830 --> 00:09:00,040

the team is placed on standby while US

169

00:09:08,900 --> 00:09:05,780

the US was keeping tabs again through

170

00:09:11,870 --> 00:09:08,910

its spy world what I call these I

171

00:09:13,940 --> 00:09:11,880

surveillance network through your

172

00:09:15,920 --> 00:09:13,950

satellite surveillance as well as

173

00:09:18,860 --> 00:09:15,930

airplanes and flying over at low

174

00:09:20,840 --> 00:09:18,870

altitude American surveillance reveals

175

00:09:22,970 --> 00:09:20,850

that the Mexicans have placed the ufl

176

00:09:25,129 --> 00:09:22,980

when a flatbed truck and moved from the

177

00:09:27,619 --> 00:09:25,139

crash site

178

00:09:30,410 --> 00:09:27,629

enzyme say satellite photos would take

179

00:09:33,499 --> 00:09:30,420

him to reveal a startling discovery the

180

00:09:34,889 --> 00:09:33,509

Mexican convoy has stopped something has

181

00:09:36,689 --> 00:09:34,899

gone wrong

182

00:09:40,470 --> 00:09:36,699

they were able to see there were a

183

00:09:42,600 --> 00:09:40,480

number of dead bodies which led them to

184

00:09:44,970 --> 00:09:42,610

believe that something extraordinary had

185

00:09:47,100 --> 00:09:44,980

happened he was officials green like

186

00:09:52,400 --> 00:09:47,110

their rescue team four helicopters

187

00:09:57,129 --> 00:09:54,439

one of the things that seems obvious in

188

00:10:00,009 --> 00:09:57,139

this case is that the government the US

189

00:10:01,869 --> 00:10:00,019

government very expertly

190

00:10:04,809 --> 00:10:01,879

quickly and very organized that this

191

00:10:07,269 --> 00:10:04,819

team is 74 twists and in no time we're

192

00:10:11,180 --> 00:10:07,279

down there on site the covering this

193

00:10:15,610 --> 00:10:12,980

but from nothing will prepare the

194

00:10:18,740 --> 00:10:15,620

Americans for what they are not find

195

00:10:20,720 --> 00:10:18,750

dressed in bio protection suits the

196

00:10:24,220 --> 00:10:20,730

American soldiers approach the silent

197

00:10:26,960 --> 00:10:24,230

convoy and find all the Mexicans dead

198

00:10:29,390 --> 00:10:26,970

there is no time to investigate what

199

00:10:32,230 --> 00:10:29,400

killed the Mexican team but UFO

200

00:10:35,290 --> 00:10:32,240

researchers have their theories

201
00:10:38,110 --> 00:10:35,300
they somehow came in contact with a a

202
00:10:41,710 --> 00:10:38,120
lethal agent of bacteriological agent

203
00:10:44,170 --> 00:10:41,720
that was out of this world or an

204
00:10:46,690 --> 00:10:44,180
extraterrestrial biological agent of

205
00:10:49,240 --> 00:10:46,700
some sort that cable which is my

206
00:10:51,850 --> 00:10:49,250
favorite fear the US recovery team

207
00:10:54,550 --> 00:10:51,860
quickly tends to business it finds the

208
00:10:57,600 --> 00:10:54,560
16-foot wide silver UFO strapped to the

209
00:10:59,759 --> 00:10:57,610
back of the flatbed truck

210
00:11:01,949 --> 00:10:59,769
the straps are reconfigured and

211
00:11:04,199 --> 00:11:01,959
connected to a cargo cable from the sea

212
00:11:06,569 --> 00:11:04,209
stallion helicopter

213
00:11:13,000 --> 00:11:06,579

I've safely secured the estimated

214

00:11:16,480 --> 00:11:14,860

for the sake of God the team

215

00:11:18,700 --> 00:11:16,490

immediately turns their attention to the

216

00:11:21,400 --> 00:11:18,710

remaining evidence the plane wreckage

217

00:11:25,300 --> 00:11:21,410

vehicles from the convoy and Mexican

218

00:11:30,490 --> 00:11:28,330

they gathered the debris the bodies from

219

00:11:33,730 --> 00:11:30,500

the Mexican recovery team and they

220

00:11:35,080 --> 00:11:33,740

exploded them with high explosives the

221

00:11:38,500 --> 00:11:35,090

reason why is too high to have an

222

00:11:41,320 --> 00:11:38,510

instant they were done the recovery team

223

00:11:44,500 --> 00:11:41,330

heads back to base where the UFO was

224

00:11:47,530 --> 00:11:44,510

taken it unknown some have speculated it

225

00:11:49,510 --> 00:11:47,540

one for bliss or wright-patterson Air

226

00:11:54,770 --> 00:11:49,520

Force Base

227

00:12:00,080 --> 00:11:54,780

if this 1974 UFO crash was real there

228

00:12:02,090 --> 00:12:00,090

was no evidence to prove it okay and

229

00:12:06,410 --> 00:12:02,100

that's how it all began fascinating

230

00:12:08,150 --> 00:12:06,420

story and although Rubin who deftly and

231

00:12:12,020 --> 00:12:08,160

I wrote the first book about it and

232

00:12:14,210 --> 00:12:12,030

subsequently did several TV shows and

233

00:12:17,120 --> 00:12:14,220

have been on the radio a bunch of times

234

00:12:19,990 --> 00:12:17,130

and followed up with two more books

235

00:12:23,150 --> 00:12:20,000

about it we weren't the ones who

236

00:12:25,250 --> 00:12:23,160

originated the story and so we're going

237

00:12:28,220 --> 00:12:25,260

to start off tonight i'm going to give

238

00:12:34,160 --> 00:12:28,230

you an overview of where the story came

239

00:12:36,740 --> 00:12:34,170

from so we're going to go with that the

240

00:12:39,410 --> 00:12:36,750

first printed record of this incident

241

00:12:42,890 --> 00:12:39,420

actually occurred in a very interesting

242

00:12:45,650 --> 00:12:42,900

document by one of the pioneering UFO

243

00:12:50,030 --> 00:12:45,660

researchers in North America Leonard

244

00:12:52,640 --> 00:12:50,040

Stringfield Leonard Stringfield was one

245

00:12:58,070 --> 00:12:52,650

of the first UFO investigators who

246

00:13:02,180 --> 00:12:58,080

proposed the concept that they're most

247

00:13:04,340 --> 00:13:02,190

likely had been UFO crashes you know he

248

00:13:08,330 --> 00:13:04,350

started talking about UFO crashes before

249

00:13:11,690 --> 00:13:08,340

Roswell the Roswell incident became

250

00:13:13,910 --> 00:13:11,700

known and before anybody much was

251
00:13:16,670 --> 00:13:13,920
talking about anything other than lights

252
00:13:19,130 --> 00:13:16,680
in the sky you know there were

253
00:13:21,740 --> 00:13:19,140
occasional Close Encounters of the Third

254
00:13:25,160 --> 00:13:21,750
Kind like betty and barney hill in the

255
00:13:27,770 --> 00:13:25,170
early 60s but for the most part until

256
00:13:30,710 --> 00:13:27,780
Leonard Stringfield came along very

257
00:13:33,200 --> 00:13:30,720
little attention had been paid to hey

258
00:13:39,380 --> 00:13:33,210
this stuff could crash these people are

259
00:13:44,030 --> 00:13:39,390
not gods they are not somehow immune

260
00:13:46,910 --> 00:13:44,040
from having accidents accidents such as

261
00:13:49,940 --> 00:13:46,920
in the example of Roswell it's believed

262
00:13:52,880 --> 00:13:49,950
that there was a lightning strike during

263
00:13:55,040 --> 00:13:52,890

an intense lightning storm out in the

264

00:13:59,210 --> 00:13:55,050

desert that brought the craft at Roswell

265

00:14:00,100 --> 00:13:59,220

down in other cases the US military has

266

00:14:04,180 --> 00:14:00,110

been

267

00:14:07,530 --> 00:14:04,190

brought some of these craft down so

268

00:14:10,630 --> 00:14:07,540

anyway stringfield's philosophy was

269

00:14:13,240 --> 00:14:10,640

these objects are seen all over the

270

00:14:15,100 --> 00:14:13,250

planet it's likely that some of them

271

00:14:17,769 --> 00:14:15,110

have crashed and some of these stories

272

00:14:23,110 --> 00:14:17,779

about UFOs crashing and material being

273

00:14:28,269 --> 00:14:23,120

retrieved are probably true well this is

274

00:14:32,290 --> 00:14:28,279

what Leonard Stringfield said in the

275

00:14:35,139 --> 00:14:32,300

late 1970s early 80s he said in my

276

00:14:39,850 --> 00:14:35,149

judgment there seems to be a legitimacy

277

00:14:42,790 --> 00:14:39,860

to the 1974 chihuahua crash report the

278

00:14:46,030 --> 00:14:42,800

Chihuahua report came to me from Elaine

279

00:14:48,069 --> 00:14:46,040

Douglas of Washington DC who by the way

280

00:14:50,650 --> 00:14:48,079

it was a major contributor to our first

281

00:14:52,960 --> 00:14:50,660

book Mexico's Roswell and wrote an

282

00:14:57,370 --> 00:14:52,970

entire section which we published word

283

00:14:59,110 --> 00:14:57,380

for word from her the late Elaine

284

00:15:03,850 --> 00:14:59,120

Douglas who unfortunately passed away

285

00:15:05,860 --> 00:15:03,860

about a year and a half ago Ruben we

286

00:15:08,920 --> 00:15:05,870

were very sorry to hear about that but

287

00:15:11,439 --> 00:15:08,930

anyway the Chihuahua report was given

288

00:15:14,860 --> 00:15:11,449

from was given by Elaine Douglas who

289

00:15:19,199 --> 00:15:14,870

received it in a mail-in in her mail as

290

00:15:22,150 --> 00:15:19,209

an anonymous letter it was given to

291

00:15:27,910 --> 00:15:22,160

pioneering crash retrieval researcher

292

00:15:30,160 --> 00:15:27,920

Leonard Stringfield in 9th in July 1993

293

00:15:31,240 --> 00:15:30,170

so receiving it in the mail in the

294

00:15:34,600 --> 00:15:31,250

summer of nineteen ninety-three

295

00:15:37,360 --> 00:15:34,610

postmarked Santa Ana California she said

296

00:15:42,150 --> 00:15:37,370

it came probably as a result of

297

00:15:45,009 --> 00:15:42,160

publicity following a March that

298

00:15:47,800 --> 00:15:45,019

Elaine's organization had done to

299

00:15:49,810 --> 00:15:47,810

promote the idea that the government

300

00:15:56,889 --> 00:15:49,820

should give up some of its top secret

301
00:15:59,740 --> 00:15:56,899
UFO files so he goes on to say and I'm

302
00:16:01,660 --> 00:15:59,750
going to skip to the last paragraph one

303
00:16:04,030 --> 00:16:01,670
compelling reason I believe the report

304
00:16:06,660 --> 00:16:04,040
is worthy of space in this status report

305
00:16:09,930 --> 00:16:06,670
is based on my recollection that I heard

306
00:16:13,470 --> 00:16:09,940
of the Chihuahua case before either in

307
00:16:15,950 --> 00:16:13,480
the late 1970s or early 1980s so that's

308
00:16:20,100 --> 00:16:15,960
the reference that I was talking about

309
00:16:22,590 --> 00:16:20,110
that Leonard Stringfield who was very

310
00:16:25,380 --> 00:16:22,600
much into the crash retrieval research

311
00:16:29,370 --> 00:16:25,390
had heard about Chihuahua as early as a

312
00:16:32,100 --> 00:16:29,380
late 1970s the only detail I vaguely

313
00:16:34,530 --> 00:16:32,110

recall is that a US military team had

314

00:16:39,120 --> 00:16:34,540

covertly crossed into Mexico to retrieve

315

00:16:42,090 --> 00:16:39,130

the object well as we elaborate on the

316

00:16:44,370 --> 00:16:42,100

story we find out that that covert

317

00:16:47,100 --> 00:16:44,380

intrusion into Mexico occurred

318

00:16:49,710 --> 00:16:47,110

approximately 40 miles from here and it

319

00:16:53,970 --> 00:16:49,720

was a helicopter convoy out of Fort

320

00:16:56,130 --> 00:16:53,980

Bliss army base in El Paso the

321

00:16:58,650 --> 00:16:56,140

helicopters came straight down the Rio

322

00:17:01,170 --> 00:16:58,660

Grande River on the Texas side until

323

00:17:04,050 --> 00:17:01,180

they got to the small community of

324

00:17:07,710 --> 00:17:04,060

kondal area which is just northwest of

325

00:17:10,080 --> 00:17:07,720

here and once they hit the northern

326

00:17:13,110 --> 00:17:10,090

outskirts of candelaria they cut into

327

00:17:19,170 --> 00:17:13,120

Mexico and went made straight for the

328

00:17:20,970 --> 00:17:19,180

UFO crash site so this is just part of

329

00:17:25,470 --> 00:17:20,980

the Deneb report which is about two

330

00:17:31,680 --> 00:17:25,480

pages long and this was what was

331

00:17:35,910 --> 00:17:31,690

received by mail by washington DC UFO

332

00:17:38,220 --> 00:17:35,920

researcher elaine douglas now this is

333

00:17:41,610 --> 00:17:38,230

very interesting two days before we left

334

00:17:45,300 --> 00:17:41,620

for to come here I got a call from the

335

00:17:49,820 --> 00:17:45,310

lady who inherited or received all of

336

00:17:53,670 --> 00:17:49,830

the documents that Elaine had about UFOs

337

00:17:55,830 --> 00:17:53,680

you know after she died they passed that

338

00:17:57,980 --> 00:17:55,840

they were passed along to her so she's

339

00:18:01,290 --> 00:17:57,990

now the custodian of all of the lane

340

00:18:03,120 --> 00:18:01,300

Douglasses materials Andrew even Ruben

341

00:18:06,450 --> 00:18:03,130

doesn't know this i was planning to

342

00:18:08,580 --> 00:18:06,460

surprise him about so i got a cult about

343

00:18:12,930 --> 00:18:08,590

three days ago two days before we left

344

00:18:16,230 --> 00:18:12,940

and the lady who now holds all the

345

00:18:19,750 --> 00:18:16,240

documents told me we found several items

346

00:18:22,730 --> 00:18:19,760

pertaining to the chihuahua UFO crash

347

00:18:25,789 --> 00:18:22,740

and she sent me one of them she scanned

348

00:18:27,830 --> 00:18:25,799

and emailed it to me and Elaine had

349

00:18:30,500 --> 00:18:27,840

written little comments in the margins

350

00:18:32,330 --> 00:18:30,510

about how she thought this was a very

351

00:18:35,360 --> 00:18:32,340

interesting case and she needed to

352

00:18:39,590 --> 00:18:35,370

follow up on it so it was something that

353

00:18:42,980 --> 00:18:39,600

was in her in her thinking until the

354

00:18:46,070 --> 00:18:42,990

very end of her life and unfortunately

355

00:18:48,950 --> 00:18:46,080

she developed breast cancer and and lost

356

00:18:55,760 --> 00:18:48,960

her struggle with it otherwise we might

357

00:18:58,820 --> 00:18:55,770

have found out more about this so as I

358

00:19:02,240 --> 00:18:58,830

mentioned once Rubin and I you know

359

00:19:04,430 --> 00:19:02,250

started talking about this and we we

360

00:19:06,200 --> 00:19:04,440

actually nobody had actually taken the

361

00:19:08,930 --> 00:19:06,210

Deneb report that was received in the

362

00:19:11,000 --> 00:19:08,940

mail by Elaine and and then later

363

00:19:13,730 --> 00:19:11,010

Leonard Stringfield nobody had actually

364

00:19:16,100 --> 00:19:13,740

taken that and traced it out and tried

365

00:19:17,840 --> 00:19:16,110

to find witnesses tried to talk to

366

00:19:20,480 --> 00:19:17,850

people in the area where it supposedly

367

00:19:23,659 --> 00:19:20,490

happened you know nothing had been done

368

00:19:28,880 --> 00:19:23,669

along those lines until Rubin and I

369

00:19:31,159 --> 00:19:28,890

stumbled into the picture and we we went

370

00:19:34,010 --> 00:19:31,169

down there by ourselves a couple of

371

00:19:36,919 --> 00:19:34,020

times to the coyame area where this

372

00:19:38,870 --> 00:19:36,929

happened then the history channel paid

373

00:19:42,230 --> 00:19:38,880

for us to go we weren't about to turn

374

00:19:47,030 --> 00:19:42,240

down free trip there and we did more

375

00:19:49,490 --> 00:19:47,040

research and then we're hoping to go

376

00:19:53,360 --> 00:19:49,500

this coming summer for the tri

377

00:19:55,220 --> 00:19:53,370

centennial celebration as dr. Morales

378

00:19:59,260 --> 00:19:55,230

mentioned this morning the city of

379

00:20:05,000 --> 00:19:59,270

koyama is having its try Centennial on

380

00:20:08,570 --> 00:20:05,010

jun 20th June twentieth 24 jun 24th and

381

00:20:11,530 --> 00:20:08,580

they're going to have festival and music

382

00:20:14,060 --> 00:20:11,540

and they're also invited ruben and me

383

00:20:15,500 --> 00:20:14,070

because we have represented their town

384

00:20:18,590 --> 00:20:15,510

well apparently

385

00:20:21,830 --> 00:20:18,600

in the media and in books and we're

386

00:20:26,600 --> 00:20:21,840

going to be speaking there so this story

387

00:20:29,960 --> 00:20:26,610

has been covered these are just a few of

388

00:20:34,040 --> 00:20:29,970

words been covered UFO FILES did an

389

00:20:37,330 --> 00:20:34,050

episode in 2007 UFOs of the 1970s which

390

00:20:43,490 --> 00:20:37,340

you just watched a clip from UFO hunters

391

00:20:45,710 --> 00:20:43,500

Larry King Live contacto extraterrestre

392

00:20:48,590 --> 00:20:45,720

which is a Spanish history channel show

393

00:20:50,660 --> 00:20:48,600

and most recently and I'm kind of

394

00:20:55,250 --> 00:20:50,670

embarrassed to mention this because they

395

00:20:57,560 --> 00:20:55,260

got a lot of the facts wrong and neither

396

00:21:02,300 --> 00:20:57,570

Ruben no I were asked to contribute to

397

00:21:04,840 --> 00:21:02,310

it but hangar 1 also covered that you

398

00:21:07,460 --> 00:21:04,850

all will crash you had a comment Ruben

399

00:21:10,040 --> 00:21:07,470

just want to share with the audience

400

00:21:12,050 --> 00:21:10,050

that both know Lee and I have been

401
00:21:14,450 --> 00:21:12,060
working very extensively to with the

402
00:21:17,000 --> 00:21:14,460
Mexican investigators there are several

403
00:21:19,730 --> 00:21:17,010
organizations in Chihuahua that have

404
00:21:21,950 --> 00:21:19,740
also have focused attention on this so

405
00:21:23,570 --> 00:21:21,960
we've been collaborating information as

406
00:21:26,000 --> 00:21:23,580
well in fact right now they're having a

407
00:21:30,740 --> 00:21:26,010
UFO conference in the city of Chihuahua

408
00:21:32,720 --> 00:21:30,750
and we and we in so we work together but

409
00:21:35,060 --> 00:21:32,730
at the same time we're trying to educate

410
00:21:37,400 --> 00:21:35,070
the public as to what are what's going

411
00:21:40,100 --> 00:21:37,410
on in this part of the country on both

412
00:21:42,790 --> 00:21:40,110
sides of the border so it's been an

413
00:21:44,900 --> 00:21:42,800

interesting journey for us and ill since

414

00:21:46,910 --> 00:21:44,910

will share with you some of the

415

00:21:48,890 --> 00:21:46,920

interesting information that was passed

416

00:21:51,380 --> 00:21:48,900

down to us and that's interesting no

417

00:21:53,930 --> 00:21:51,390

heed about Elaine Douglas those notes

418

00:21:56,030 --> 00:21:53,940

I'm real excited about that says Rubens

419

00:21:58,610 --> 00:21:56,040

birthday was last weekend I wanted to

420

00:22:01,010 --> 00:21:58,620

give him a surprise birthday present new

421

00:22:03,770 --> 00:22:01,020

information about the case that even he

422

00:22:09,740 --> 00:22:03,780

didn't know about by the way happy

423

00:22:14,539 --> 00:22:09,750

birthday thank you 50 now you're 50 of

424

00:22:20,010 --> 00:22:17,279

alright so we have books many books

425

00:22:22,919 --> 00:22:20,020

everybody has jumped on it after Reuben

426

00:22:26,700 --> 00:22:22,929

and I published Mexico's Rosalyn 2007

427

00:22:30,360 --> 00:22:26,710

we've had of course we did a second

428

00:22:33,450 --> 00:22:30,370

edition we did the coyame UFO incident

429

00:22:35,549 --> 00:22:33,460

which is our latest book because there

430

00:22:37,169 --> 00:22:35,559

was so much new information and there

431

00:22:39,659 --> 00:22:37,179

were so many other witnesses that had

432

00:22:43,139 --> 00:22:39,669

come forward so we totally redid the

433

00:22:45,950 --> 00:22:43,149

story in the coma incident then Kevin

434

00:22:48,690 --> 00:22:45,960

Randall jumped in and bill burns and a

435

00:22:54,480 --> 00:22:48,700

whole bunch of other people so it's been

436

00:22:58,139 --> 00:22:54,490

mentioned in quite a number of books so

437

00:23:00,180 --> 00:22:58,149

the story is out there and a lot of

438

00:23:02,279 --> 00:23:00,190

people talking about it most of them

439

00:23:04,560 --> 00:23:02,289

refer to the original document but

440

00:23:11,250 --> 00:23:04,570

nobody has actually been down there and

441

00:23:13,560 --> 00:23:11,260

spoken to people you know so Reuben and

442

00:23:17,519 --> 00:23:13,570

I still think that it was pretty cool to

443

00:23:20,850 --> 00:23:17,529

have been the primary original people

444

00:23:25,200 --> 00:23:20,860

who followed up on what had previously

445

00:23:27,960 --> 00:23:25,210

only been kind of a rumor as a result of

446

00:23:29,370 --> 00:23:27,970

the research that we've been doing one

447

00:23:34,139 --> 00:23:29,380

of the things that we started to find

448

00:23:36,269 --> 00:23:34,149

out was this wasn't the only crash that

449

00:23:40,200 --> 00:23:36,279

had occurred along the border we came

450

00:23:42,630 --> 00:23:40,210

across other cases the historical cases

451
00:23:45,480 --> 00:23:42,640
and we have another one that happened in

452
00:23:48,630 --> 00:23:45,490
del real 1955 another case that happened

453
00:23:50,880 --> 00:23:48,640
near more Adel in 1948 so this is what's

454
00:23:56,610 --> 00:23:50,890
interesting is the more research we dig

455
00:23:58,919 --> 00:23:56,620
into and we're finding a trail so we are

456
00:24:04,590 --> 00:23:58,929
this is a detective story and there's

457
00:24:06,899 --> 00:24:04,600
more coming together on this ok so now

458
00:24:10,200 --> 00:24:06,909
here's the latest twist regarding our

459
00:24:13,470 --> 00:24:10,210
story we've been contacted by a lady who

460
00:24:16,560 --> 00:24:13,480
writes screenplays and her name is Anna

461
00:24:18,389 --> 00:24:16,570
Maria Lisa Manalo and she is currently

462
00:24:20,880 --> 00:24:18,399
working on a script with our permission

463
00:24:21,390 --> 00:24:20,890

we signed an agreement to turn our book

464

00:24:23,970 --> 00:24:21,400

the

465

00:24:28,380 --> 00:24:23,980

oyama incident into a major motion

466

00:24:30,690 --> 00:24:28,390

picture screen play so the story will be

467

00:24:33,480 --> 00:24:30,700

fictionalized I'll say that right at the

468

00:24:36,090 --> 00:24:33,490

right at the top as happens a lot of

469

00:24:41,160 --> 00:24:36,100

times with Hollywood motion pictures and

470

00:24:43,980 --> 00:24:41,170

David can attest to this the reality or

471

00:24:46,260 --> 00:24:43,990

the truth of what actually happened

472

00:24:49,800 --> 00:24:46,270

really isn't sufficient to draw

473

00:24:52,740 --> 00:24:49,810

audiences and to make money for the

474

00:24:55,770 --> 00:24:52,750

movie makers so some elements of fiction

475

00:24:58,260 --> 00:24:55,780

will be introduced case in point fire in

476

00:25:02,370 --> 00:24:58,270

the sky the movie about Travis Waltons

477

00:25:07,080 --> 00:25:02,380

experience many others even the Roswell

478

00:25:09,630 --> 00:25:07,090

the Roswell Roswell the movie which was

479

00:25:12,290 --> 00:25:09,640

very faithful to the Roswell incident

480

00:25:15,870 --> 00:25:12,300

story but it did include some some

481

00:25:17,690 --> 00:25:15,880

fictionalized material as well for

482

00:25:22,050 --> 00:25:17,700

instance Jesse Marcel never actually

483

00:25:24,030 --> 00:25:22,060

attended a reunion of the 50 ninth bomb

484

00:25:29,480 --> 00:25:24,040

wing as is depicted at the beginning of

485

00:25:32,490 --> 00:25:29,490

the movie so anyway this new screenplay

486

00:25:35,100 --> 00:25:32,500

the elements of the coyame UFO story

487

00:25:40,830 --> 00:25:35,110

will be will be there but there will be

488

00:25:42,720 --> 00:25:40,840

elements of fiction as well of course as

489

00:25:44,640 --> 00:25:42,730

david has pointed out to us just because

490

00:25:48,530 --> 00:25:44,650

you have a screenplay doesn't mean

491

00:25:52,830 --> 00:25:48,540

anything will ever be done with it and

492

00:25:55,470 --> 00:25:52,840

it's it's you know it it could someday

493

00:25:57,030 --> 00:25:55,480

take off or not I know Stanton Friedman

494

00:26:00,030 --> 00:25:57,040

has a couple of his books that have been

495

00:26:02,700 --> 00:26:00,040

in the process of becoming movies for

496

00:26:05,840 --> 00:26:02,710

many years and of course he's one of the

497

00:26:08,970 --> 00:26:05,850

world's leading authorities on UFOs so

498

00:26:12,360 --> 00:26:08,980

so everything starts with a UFO sighting

499

00:26:14,640 --> 00:26:12,370

off the Texas Gulf Coast radar stations

500

00:26:17,100 --> 00:26:14,650

along the Gulf Coast of Texas around

501
00:26:19,830 --> 00:26:17,110
Corpus Christi Corpus Christi Naval Air

502
00:26:25,140 --> 00:26:19,840
Station detected this object that was

503
00:26:29,220 --> 00:26:25,150
traveling at over 2,000 miles per hour

504
00:26:30,360 --> 00:26:29,230
originally and at about 75,000 feet in

505
00:26:33,270 --> 00:26:30,370
altitude

506
00:26:37,560 --> 00:26:33,280
it began slowing down it began dropping

507
00:26:39,900 --> 00:26:37,570
in altitude to about 45,000 feet and it

508
00:26:42,690 --> 00:26:39,910
came down under 2,000 miles per hour and

509
00:26:45,740 --> 00:26:42,700
it made if you'll notice on this map it

510
00:26:49,140 --> 00:26:45,750
made kind of a 90-degree angle turn

511
00:26:52,470 --> 00:26:49,150
first seem to be headed toward south of

512
00:26:55,560 --> 00:26:52,480
Corpus just south of kingsville drop

513
00:26:59,880 --> 00:26:55,570

down and then down here made another 90

514

00:27:03,120 --> 00:26:59,890

degree angle turn and cut into Mexico so

515

00:27:05,220 --> 00:27:03,130

that is your route that was followed the

516

00:27:09,090 --> 00:27:05,230

object done streaked across some under

517

00:27:11,970 --> 00:27:09,100

the least populated areas of northern

518

00:27:14,010 --> 00:27:11,980

Mexico with the possible exception of

519

00:27:17,610 --> 00:27:14,020

coming very close to New avila devil

520

00:27:21,720 --> 00:27:17,620

right in here but mostly it seemed to

521

00:27:23,850 --> 00:27:21,730

shy away from populated areas during its

522

00:27:26,730 --> 00:27:23,860

run it went through an area of Mexico

523

00:27:29,160 --> 00:27:26,740

known as the zona del silenzio which is

524

00:27:31,230 --> 00:27:29,170

not far from here that's an area of

525

00:27:33,780 --> 00:27:31,240

Mexico has been called Mexico's Bermuda

526

00:27:36,720 --> 00:27:33,790

Triangle because compasses will spin

527

00:27:39,780 --> 00:27:36,730

wildly radio communications will fail

528

00:27:41,610 --> 00:27:39,790

the instrumentation on airplanes that

529

00:27:44,940 --> 00:27:41,620

are over flying the area will suddenly

530

00:27:48,240 --> 00:27:44,950

go out of control and there have been

531

00:27:50,370 --> 00:27:48,250

numerous UFO sightings in that area of

532

00:27:53,760 --> 00:27:50,380

Mexico throughout the year so that's the

533

00:27:56,580 --> 00:27:53,770

zona del silenzio which is kind of south

534

00:28:01,260 --> 00:27:56,590

of where we are today and the right

535

00:28:05,240 --> 00:28:01,270

about here you know Del Rio's around

536

00:28:09,000 --> 00:28:05,250

here and then right around there the

537

00:28:14,160 --> 00:28:09,010

disappeared from her I'm sorry Del Rio's

538

00:28:16,290 --> 00:28:14,170

over here Presidio's here and then there

539

00:28:18,570 --> 00:28:16,300

was this mid-air collision between the

540

00:28:20,630 --> 00:28:18,580

two objects because they suddenly both

541

00:28:26,430 --> 00:28:20,640

objects that had been tracked on radar

542

00:28:28,230 --> 00:28:26,440

were disappearing all right this was a

543

00:28:31,500 --> 00:28:28,240

slight I hoped I had put in here there

544

00:28:34,200 --> 00:28:31,510

were there were three long-range radar

545

00:28:37,830 --> 00:28:34,210

sites in 1974 that you see listed here

546

00:28:38,880 --> 00:28:37,840

and so the tracking capabilities were

547

00:28:42,910 --> 00:28:38,890

good

548

00:28:51,640 --> 00:28:42,920

and that's how the progress of the

549

00:28:53,620 --> 00:28:51,650

objects were being followed and what

550

00:28:55,720 --> 00:28:53,630

about the the plane that it crashed into

551
00:28:58,630 --> 00:28:55,730
well we know that it was a small plane

552
00:29:01,510 --> 00:28:58,640
and it came out of El Paso International

553
00:29:03,160 --> 00:29:01,520
Airport people always ask us if there

554
00:29:06,280 --> 00:29:03,170
was any sort of information that's been

555
00:29:09,070 --> 00:29:06,290
found on who was the airplane owner or

556
00:29:12,400 --> 00:29:09,080
operator or who were the passengers and

557
00:29:14,710 --> 00:29:12,410
the answer is no we don't know if that

558
00:29:19,320 --> 00:29:14,720
information disappeared subsequently in

559
00:29:22,600 --> 00:29:19,330
some sort of cover-up or the other

560
00:29:25,150 --> 00:29:22,610
possibility that has been brought

561
00:29:26,890 --> 00:29:25,160
forward is that the plane was involved

562
00:29:29,470 --> 00:29:26,900
in some kind of illegal activity perhaps

563
00:29:32,440 --> 00:29:29,480

drug trafficking and they didn't want to

564

00:29:34,660 --> 00:29:32,450

be you know they wanted to have a little

565

00:29:40,420 --> 00:29:34,670

information about them known as possible

566

00:29:43,720 --> 00:29:40,430

so we don't know but one interesting

567

00:29:46,210 --> 00:29:43,730

thing we did find out is that small

568

00:29:50,350 --> 00:29:46,220

planes carrying contraband such as

569

00:29:53,110 --> 00:29:50,360

illegal drugs was a common occurrence in

570

00:29:56,440 --> 00:29:53,120

this area it would happen frequently in

571

00:30:00,700 --> 00:29:56,450

the 70s and even afterward so there is

572

00:30:02,730 --> 00:30:00,710

that possibility that that could have

573

00:30:09,670 --> 00:30:02,740

been a drug-related drug running plane

574

00:30:12,220 --> 00:30:09,680

did you have a comment luminaire okay so

575

00:30:14,260 --> 00:30:12,230

where did exactly did this happen well

576

00:30:20,170 --> 00:30:14,270

the area of the crash is shown on this

577

00:30:27,940 --> 00:30:20,180

map here is presidio here's a small

578

00:30:31,330 --> 00:30:27,950

community of koyama and then the here's

579

00:30:33,940 --> 00:30:31,340

candelaria by the way and right in here

580

00:30:36,340 --> 00:30:33,950

is the area of the crash

581

00:30:40,659 --> 00:30:36,350

as close as we can figure based on the

582

00:30:42,279 --> 00:30:40,669

trajectory of both both craft as

583

00:30:44,529 --> 00:30:42,289

mentioned in the dental report in

584

00:30:47,379 --> 00:30:44,539

talking to witnesses out here in the

585

00:30:52,450 --> 00:30:47,389

chihuahuan desert and talking to

586

00:30:56,070 --> 00:30:52,460

observers from candelaria who will be

587

00:30:58,570 --> 00:30:56,080

talking more about in a few minutes we

588

00:31:00,629 --> 00:30:58,580

estimate the area of the crash could be

589

00:31:03,659 --> 00:31:00,639

anywhere within this shaded circle

590

00:31:06,190 --> 00:31:03,669

possibly somewhere near the center of it

591

00:31:09,070 --> 00:31:06,200

so that's quite a distance away from

592

00:31:11,529 --> 00:31:09,080

coyame it's probably as close to the

593

00:31:16,210 --> 00:31:11,539

town of schoolio me as it is to presidio

594

00:31:19,090 --> 00:31:16,220

in Ojinaga so you know it's called the

595

00:31:22,149 --> 00:31:19,100

kalama incident but once again that

596

00:31:24,549 --> 00:31:22,159

refers to the to the county or as they

597

00:31:31,330 --> 00:31:24,559

call it in mexico municipality of koyama

598

00:31:36,009 --> 00:31:31,340

which is a huge area so Brad in black

599

00:31:39,879 --> 00:31:36,019

our wonderful host for this series got

600

00:31:44,200 --> 00:31:39,889

up in a plane and took pictures quite

601
00:31:46,690 --> 00:31:44,210
the photographer and this is the area of

602
00:31:51,519 --> 00:31:46,700
the crash of the mid-air collision we

603
00:32:00,790 --> 00:31:51,529
suspect how was it to fly up there Brad

604
00:32:07,910 --> 00:32:04,070
he says it was fun it was just a regular

605
00:32:09,830 --> 00:32:07,920
plane flight and and he took he took

606
00:32:11,270 --> 00:32:09,840
some real nice pictures was it a problem

607
00:32:16,580 --> 00:32:11,280
getting permission from the Mexican

608
00:32:19,250 --> 00:32:16,590
authorities to over fly flew along the

609
00:32:24,440 --> 00:32:19,260
river and they took photography from the

610
00:32:29,480 --> 00:32:24,450
river okay so here's a composite of two

611
00:32:32,360 --> 00:32:29,490
of the pictures Brad took and you've got

612
00:32:34,070 --> 00:32:32,370
this area where we suspect the collision

613
00:32:36,430 --> 00:32:34,080

occurred and the wreckage was later

614

00:32:40,720 --> 00:32:36,440

found by the Mexican authorities and

615

00:32:47,570 --> 00:32:40,730

then taken over by the US authorities

616

00:32:49,610 --> 00:32:47,580

and one more slightly different view so

617

00:32:51,980 --> 00:32:49,620

what's really interesting is we talked

618

00:32:54,680 --> 00:32:51,990

to people who live who were living out

619

00:32:57,710 --> 00:32:54,690

in these ranches around here and a

620

00:32:59,630 --> 00:32:57,720

couple of them told us that in 1974

621

00:33:01,040 --> 00:32:59,640

around this time although then remember

622

00:33:04,520 --> 00:33:01,050

the exact time there was a huge

623

00:33:06,650 --> 00:33:04,530

explosion in the night one gentleman

624

00:33:09,010 --> 00:33:06,660

told us that the windows in his home

625

00:33:12,200 --> 00:33:09,020

rattle then he thought they had broken

626

00:33:15,350 --> 00:33:12,210

he also talked about many UFO sightings

627

00:33:17,780 --> 00:33:15,360

that he himself had had made note of he

628

00:33:21,860 --> 00:33:17,790

showed us this notebook both before and

629

00:33:24,290 --> 00:33:21,870

after but in particular after this 1974

630

00:33:26,360 --> 00:33:24,300

incident because it was it made him

631

00:33:29,150 --> 00:33:26,370

stand up and take notice that there's

632

00:33:30,860 --> 00:33:29,160

something weird going on there so the

633

00:33:33,950 --> 00:33:30,870

interesting thing was that Reuben and I

634

00:33:37,610 --> 00:33:33,960

wandered around the desert I tell ruben

635

00:33:39,680 --> 00:33:37,620

our desert wanderings period so we

636

00:33:43,660 --> 00:33:39,690

wandered around the desert we talked to

637

00:33:46,850 --> 00:33:43,670

people we visited potential eyewitnesses

638

00:33:51,050 --> 00:33:46,860

we had never done anything on the US

639

00:33:53,270 --> 00:33:51,060

side so and then and then we caught a

640

00:33:55,370 --> 00:33:53,280

big break a couple of years ago which

641

00:33:57,800 --> 00:33:55,380

we're going to talk about because we had

642

00:34:01,820 --> 00:33:57,810

actual eyewitnesses from the Texas side

643

00:34:03,590 --> 00:34:01,830

of the Rio Grande anything you want to

644

00:34:07,880 --> 00:34:03,600

add at this point Ruben

645

00:34:12,109 --> 00:34:07,890

oh just that the that area that we went

646

00:34:14,930 --> 00:34:12,119

into we went with a with a guide who was

647

00:34:17,210 --> 00:34:14,940

familiar with that area and there's many

648

00:34:22,340 --> 00:34:17,220

roads and as Noah's had mentioned many

649

00:34:25,340 --> 00:34:22,350

ranches and so was a again it was very

650

00:34:28,010 --> 00:34:25,350

interesting just meeting certain people

651
00:34:30,320 --> 00:34:28,020
and it's very isolated area as you know

652
00:34:32,180 --> 00:34:30,330
it living in on this side of the border

653
00:34:34,909 --> 00:34:32,190
this will just a lot of space but over

654
00:34:42,500 --> 00:34:34,919
there is just a very beautiful but very

655
00:34:44,300 --> 00:34:42,510
eerie type of landscape so Reuben and I

656
00:34:47,540 --> 00:34:44,310
literally put our boots on the ground

657
00:34:49,520 --> 00:34:47,550
out in the chihuahuan desert and with

658
00:34:51,200 --> 00:34:49,530
the rattlesnakes and scorpions that you

659
00:34:55,250 --> 00:34:51,210
encounter out on the desert you want to

660
00:34:57,260 --> 00:34:55,260
have boots on so you have to be careful

661
00:35:02,630 --> 00:34:57,270
if you need to go out in the brush to

662
00:35:04,849 --> 00:35:02,640
take care of any business too so the

663
00:35:07,580 --> 00:35:04,859

Mexican soldiers out there after the

664

00:35:09,380 --> 00:35:07,590

crash reported a silver disk as you

665

00:35:12,859 --> 00:35:09,390

heard in the video that introduced our

666

00:35:16,040 --> 00:35:12,869

talk and these were the dimensions that

667

00:35:19,070 --> 00:35:16,050

are mentioned in the Deneb report 16

668

00:35:23,570 --> 00:35:19,080

feet 5 inches in diameter and 5 feet

669

00:35:25,730 --> 00:35:23,580

tall there were two interesting points

670

00:35:29,680 --> 00:35:25,740

on the hull of the ship there was a

671

00:35:35,720 --> 00:35:29,690

12-inch jagged hole and there was a

672

00:35:38,570 --> 00:35:35,730

24-inch diameter dent in the hull well

673

00:35:42,680 --> 00:35:38,580

when we heard that the Mexican retrieval

674

00:35:46,310 --> 00:35:42,690

team that arrived had all died perhaps

675

00:35:47,990 --> 00:35:46,320

as many as 24 soldiers Reuben and I

676

00:35:51,080 --> 00:35:48,000

speculated that maybe there was

677

00:35:54,050 --> 00:35:51,090

something venting out of this open area

678

00:35:57,980 --> 00:35:54,060

in the home you know maybe there was

679

00:36:00,490 --> 00:35:57,990

some kind of fume chemical you know who

680

00:36:03,349 --> 00:36:00,500

knows what kind of propulsion system

681

00:36:07,310 --> 00:36:03,359

perhaps something was venting out of

682

00:36:09,320 --> 00:36:07,320

that hole in the hull and that might

683

00:36:12,320 --> 00:36:09,330

have caused all of the Mexican soldiers

684

00:36:13,859 --> 00:36:12,330

to perish so that was one theory that we

685

00:36:17,050 --> 00:36:13,869

came up with

686

00:36:18,730 --> 00:36:17,060

we're not completely certain maybe they

687

00:36:22,000 --> 00:36:18,740

were exposed to some type of radiation

688

00:36:23,980 --> 00:36:22,010

we know radiation has been found traces

689

00:36:28,210 --> 00:36:23,990

of radiation have been found at UFO

690

00:36:35,800 --> 00:36:28,220

landing sites and in other UFO cases so

691

00:36:39,970 --> 00:36:35,810

perhaps that so some of the most

692

00:36:43,810 --> 00:36:39,980

sophisticated listening and while spying

693

00:36:47,920 --> 00:36:43,820

as a harsh word but okay spying assets

694

00:36:49,240 --> 00:36:47,930

that the u.s. had in place or that

695

00:36:53,970 --> 00:36:49,250

anywhere in the world's had in place

696

00:36:57,820 --> 00:36:53,980

were in El Paso Texas that was the big

697

00:37:00,609 --> 00:36:57,830

surveillance Center for electronic

698

00:37:03,070 --> 00:37:00,619

surveillance in 1974 they had one of the

699

00:37:07,300 --> 00:37:03,080

most sophisticated setups in the world

700

00:37:10,330 --> 00:37:07,310

and it appears that they were focusing

701
00:37:12,370 --> 00:37:10,340
in on what was going on right across the

702
00:37:16,030 --> 00:37:12,380
river from them and what they were

703
00:37:18,849 --> 00:37:16,040
hearing was a downed aircraft and then

704
00:37:21,270 --> 00:37:18,859
they heard a report that when this

705
00:37:24,130 --> 00:37:21,280
Mexican soldiers arrived at the scene to

706
00:37:26,160 --> 00:37:24,140
try to determine what it you know where

707
00:37:30,220 --> 00:37:26,170
the plane had crashed they found another

708
00:37:32,310 --> 00:37:30,230
object that they were not expecting so

709
00:37:38,650 --> 00:37:32,320
apparently all of this was being

710
00:37:41,470 --> 00:37:38,660
listened to on the US side and so we

711
00:37:44,020 --> 00:37:41,480
have what's known in UFO research as a

712
00:37:48,970 --> 00:37:44,030
rapid response team that was put

713
00:37:55,140 --> 00:37:48,980

together many UFO researchers believe

714

00:37:58,810 --> 00:37:55,150

that there are teams from personnel who

715

00:38:01,270 --> 00:37:58,820

go through their daily routines every

716

00:38:03,190 --> 00:38:01,280

day of their lives in various aspects of

717

00:38:07,000 --> 00:38:03,200

military service and intelligence

718

00:38:10,079 --> 00:38:07,010

community service and but if and when an

719

00:38:13,240 --> 00:38:10,089

incident happens these individuals are

720

00:38:15,579 --> 00:38:13,250

immediately brought together at a

721

00:38:18,730 --> 00:38:15,589

certain location and dispatched to the

722

00:38:20,150 --> 00:38:18,740

scene of one of these incidents and one

723

00:38:25,460 --> 00:38:20,160

of the persons that

724

00:38:28,099 --> 00:38:25,470

strongly you know she saw all of the she

725

00:38:31,160 --> 00:38:28,109

saw all of the aspects of a rapid

726

00:38:35,089 --> 00:38:31,170

response team being having taken care of

727

00:38:36,980 --> 00:38:35,099

this incident is was Elaine Douglas who

728

00:38:39,230 --> 00:38:36,990

had actually talked to some members of

729

00:38:41,299 --> 00:38:39,240

Rapid Response Teams although they

730

00:38:42,770 --> 00:38:41,309

couldn't go on the record and they

731

00:38:46,579 --> 00:38:42,780

wouldn't give her precise information

732

00:38:47,960 --> 00:38:46,589

about specific cases but she talked to

733

00:38:50,750 --> 00:38:47,970

one of them she met one of them

734

00:38:54,170 --> 00:38:50,760

clandestinely in washington DC at a

735

00:38:58,640 --> 00:38:54,180

small cafe and that person verified that

736

00:39:03,890 --> 00:38:58,650

this had all the markings of a CIA Rapid

737

00:39:06,200 --> 00:39:03,900

Response UFO team so what they did was

738

00:39:09,400 --> 00:39:06,210

they put together a helicopter team

739

00:39:11,750 --> 00:39:09,410

which included one cargo helicopter

740

00:39:15,349 --> 00:39:11,760

which could have been a Super Stallion

741

00:39:18,260 --> 00:39:15,359

or a see night something similar to that

742

00:39:21,440 --> 00:39:18,270

and then some Huey's to provide cover

743

00:39:24,170 --> 00:39:21,450

for them and transport additional

744

00:39:26,390 --> 00:39:24,180

personnel I don't know if you all are

745

00:39:28,309 --> 00:39:26,400

aware but Fort Bliss in El Paso is one

746

00:39:32,120 --> 00:39:28,319

of the largest military compounds in the

747

00:39:34,700 --> 00:39:32,130

world it extends from the downtown

748

00:39:38,809 --> 00:39:34,710

aerial pass all the way into New Mexico

749

00:39:42,019 --> 00:39:38,819

where it joins with the White Sands

750

00:39:46,579 --> 00:39:42,029

Missile Range so I mean that is a huge

751
00:39:49,250 --> 00:39:46,589
swath of land there are some areas of

752
00:39:51,609 --> 00:39:49,260
Fort Bliss that personnel who actually

753
00:39:54,529 --> 00:39:51,619
are stationed there have never ever seen

754
00:39:57,620 --> 00:39:54,539
they only see a small section of the

755
00:39:59,900 --> 00:39:57,630
base the rest of it there are landing

756
00:40:04,460 --> 00:39:59,910
fields there are hangers nobody knows

757
00:40:11,349 --> 00:40:04,470
what's out there well somebody knows but

758
00:40:14,120 --> 00:40:11,359
we don't know so as I mentioned before

759
00:40:16,970 --> 00:40:14,130
the first to be dispatched out to the

760
00:40:21,410 --> 00:40:16,980
scene was a squadron of mexican soldiers

761
00:40:27,570 --> 00:40:21,420
up to 24 and they all perished due to

762
00:40:35,350 --> 00:40:31,840
it's kind of in elegant to say this but

763
00:40:37,960 --> 00:40:35,360

this is what the dinner report says and

764

00:40:40,330 --> 00:40:37,970

that is that when the US team later

765

00:40:43,270 --> 00:40:40,340

arrived they gathered the Mexican bodies

766

00:40:46,630 --> 00:40:43,280

and the debris from the crashed airplane

767

00:40:51,160 --> 00:40:46,640

and they exploded it they exploded all

768

00:40:53,320 --> 00:40:51,170

the remaining evidence so essentially we

769

00:40:58,780 --> 00:40:53,330

were just telling you what the dinner of

770

00:41:01,930 --> 00:40:58,790

report says and it's interesting is that

771

00:41:04,660 --> 00:41:01,940

the soldiers from Mexico did not have

772

00:41:07,240 --> 00:41:04,670

any sort of hazmat gear bio protection

773

00:41:09,670 --> 00:41:07,250

gear they were totally unprepared they

774

00:41:13,360 --> 00:41:09,680

thought they were going out to deal with

775

00:41:15,790 --> 00:41:13,370

a the crash of a small plane and upon

776

00:41:20,560 --> 00:41:15,800

arrival it was only upon arrival that

777

00:41:22,030 --> 00:41:20,570

they encountered this other craft which

778

00:41:25,030 --> 00:41:22,040

they knew nothing about and were not

779

00:41:26,950 --> 00:41:25,040

prepared and not that the Mexican

780

00:41:31,530 --> 00:41:26,960

military would have had much in the way

781

00:41:36,250 --> 00:41:31,540

of biohazard gear back in the 70s anyway

782

00:41:38,260 --> 00:41:36,260

so and once again we've heard from UFO

783

00:41:39,700 --> 00:41:38,270

researchers who suggest that when an

784

00:41:42,730 --> 00:41:39,710

incident like this happens in other

785

00:41:44,070 --> 00:41:42,740

countries the u.s. is often invited to

786

00:41:47,820 --> 00:41:44,080

come in and take care of the mess

787

00:41:50,950 --> 00:41:47,830

because it requires specialized

788

00:41:53,190 --> 00:41:50,960

personnel and specialized equipment to

789

00:41:57,030 --> 00:41:53,200

deal with what happens at a crashed UFO

790

00:41:59,800 --> 00:41:57,040

side you do something wrong and you die

791

00:42:02,830 --> 00:41:59,810

if you remember one of these retrieval

792

00:42:05,770 --> 00:42:02,840

teams we talked to a gentleman in

793

00:42:08,440 --> 00:42:05,780

Roswell who has told us that he was on a

794

00:42:11,490 --> 00:42:08,450

cross retrieval team he was working with

795

00:42:14,020 --> 00:42:11,500

a buddy inside of a crashed saucer and

796

00:42:17,530 --> 00:42:14,030

they were talking you know back and

797

00:42:19,870 --> 00:42:17,540

forth and his buddy leaned over and

798

00:42:23,830 --> 00:42:19,880

apparently pressed a button and he was

799

00:42:30,070 --> 00:42:23,840

gone vaporized in a second they found

800

00:42:33,100 --> 00:42:30,080

nothing of his remains so it does take

801
00:42:35,080 --> 00:42:33,110
specialized skills a specialized skill

802
00:42:39,380 --> 00:42:35,090
set and specialized equipment to deal

803
00:42:46,140 --> 00:42:43,559
so Reuben and I actually wrote the

804
00:42:50,669 --> 00:42:46,150
original article about the coyame UFO

805
00:42:53,400 --> 00:42:50,679
incident on Wikipedia and block your

806
00:42:56,549 --> 00:42:53,410
ears on this Melanie I know you're not a

807
00:43:02,969 --> 00:42:56,559
Wikipedia fan and a lot of Wikipedia

808
00:43:05,099 --> 00:43:02,979
stuff is kind of suspect but I felt that

809
00:43:07,289 --> 00:43:05,109
our article about the common incident

810
00:43:10,380 --> 00:43:07,299
was fairly strong in fact that's why we

811
00:43:12,239 --> 00:43:10,390
wanted to introduce it and it was on

812
00:43:15,390 --> 00:43:12,249
there for a couple of years but then the

813
00:43:17,579 --> 00:43:15,400

great minds that control Wikipedia said

814

00:43:20,219 --> 00:43:17,589

because Reuben and I had written a book

815

00:43:23,489 --> 00:43:20,229

and we're making money we were not

816

00:43:26,880 --> 00:43:23,499

qualified to give an impartial report

817

00:43:30,269 --> 00:43:26,890

for Wikipedia so they took it off they

818

00:43:32,429 --> 00:43:30,279

took our work off but before they took

819

00:43:35,159 --> 00:43:32,439

it off we had an interesting incident

820

00:43:39,269 --> 00:43:35,169

happen we had someone post some

821

00:43:41,489 --> 00:43:39,279

anonymous information and try as a

822

00:43:43,620 --> 00:43:41,499

Reuben and I might we could never

823

00:43:46,679 --> 00:43:43,630

determine the source the guy was

824

00:43:50,549 --> 00:43:46,689

slippier slippier can't say that word

825

00:43:53,519 --> 00:43:50,559

but he was slippery he was very slippery

826
00:43:55,559 --> 00:43:53,529
and he gave us a slip wikipedia would

827
00:43:57,749 --> 00:43:55,569
not tell us who his identity that's

828
00:44:00,689 --> 00:43:57,759
their privacy policy neither would he

829
00:44:03,689 --> 00:44:00,699
tell us his identity we did everything

830
00:44:07,169 --> 00:44:03,699
we could think of and including offering

831
00:44:09,419 --> 00:44:07,179
him to send us copies of our book which

832
00:44:11,579 --> 00:44:09,429
he saw through right away if we send

833
00:44:18,239 --> 00:44:11,589
them copies of our book than we know

834
00:44:20,759 --> 00:44:18,249
where he is right so he said no we

835
00:44:23,549 --> 00:44:20,769
didn't know who he was we suspect he

836
00:44:25,319 --> 00:44:23,559
probably was in the military or had ties

837
00:44:27,630 --> 00:44:25,329
to someone in the military who was

838
00:44:30,899 --> 00:44:27,640

familiar with this case because what he

839

00:44:33,599 --> 00:44:30,909

posted opened our eyes he gave the names

840

00:44:37,169 --> 00:44:33,609

of specific soldiers and the serial

841

00:44:39,539 --> 00:44:37,179

numbers of soldiers who perished in the

842

00:44:44,210 --> 00:44:39,549

coyame incident both on the Mexican side

843

00:44:45,770 --> 00:44:44,220

and on the US side now we had never

844

00:44:50,810 --> 00:44:45,780

access to that information and we

845

00:44:53,030 --> 00:44:50,820

written three books about it their

846

00:44:54,890 --> 00:44:53,040

bodies displayed signs of death by

847

00:44:56,750 --> 00:44:54,900

asphyxiation they were also in

848

00:44:58,820 --> 00:44:56,760

possession of their firearms but showed

849

00:45:02,359 --> 00:44:58,830

no evidence of a tempting attempting to

850

00:45:07,820 --> 00:45:02,369

use them now Reuben an icon has

851
00:45:10,339 --> 00:45:07,830
scratched our heads and we talked to our

852
00:45:12,470 --> 00:45:10,349
counterparts in Mexico UFO researchers

853
00:45:14,810 --> 00:45:12,480
in Mexico and they felt that these

854
00:45:18,790 --> 00:45:14,820
serial numbers were actually in the

855
00:45:23,060 --> 00:45:18,800
right format for Mexican military and

856
00:45:26,480 --> 00:45:23,070
these names certainly sound like Mexican

857
00:45:28,940 --> 00:45:26,490
soldiers you know so it was an

858
00:45:31,960 --> 00:45:28,950
interesting break in the case they've

859
00:45:35,870 --> 00:45:31,970
been trying to follow up in Mexico and

860
00:45:38,359 --> 00:45:35,880
they've come up with what they think

861
00:45:40,099 --> 00:45:38,369
might be the people involved and then

862
00:45:41,540 --> 00:45:40,109
something weird happens and it turns out

863
00:45:47,359 --> 00:45:41,550

that they weren't so it's still a

864

00:45:49,430 --> 00:45:47,369

developing story this was also from the

865

00:45:53,630 --> 00:45:49,440

unconfirmed anonymous posting on

866

00:45:57,170 --> 00:45:53,640

wikipedia we had never heard this

867

00:46:01,810 --> 00:45:57,180

information before that the recovery

868

00:46:06,079 --> 00:46:01,820

team sent to comea from Fort Bliss

869

00:46:08,839 --> 00:46:06,089

consisted of 15 men well we never had a

870

00:46:11,510 --> 00:46:08,849

source for 15 men it wasn't in the Deneb

871

00:46:13,880 --> 00:46:11,520

report elane Douglas Leonard Stringfield

872

00:46:17,089 --> 00:46:13,890

didn't have a number so where did this

873

00:46:19,460 --> 00:46:17,099

information come from every time i tried

874

00:46:22,670 --> 00:46:19,470

to contact the guy who posted this on

875

00:46:26,240 --> 00:46:22,680

wikipedia he he ran circles around me he

876

00:46:27,589 --> 00:46:26,250

was evasive he was he kept I would ask

877

00:46:30,410 --> 00:46:27,599

him a question he would ask the same

878

00:46:31,760 --> 00:46:30,420

question back to me about this if this

879

00:46:34,760 --> 00:46:31,770

guy didn't have some kind of

880

00:46:39,829 --> 00:46:34,770

intelligence training on I'll eat my hat

881

00:46:42,680 --> 00:46:39,839

I don't have a hat but anyway so they

882

00:46:44,990 --> 00:46:42,690

named names the American group included

883

00:46:49,880 --> 00:46:45,000

captain lawrence mart merly lieutenant

884

00:46:54,380 --> 00:46:49,890

Randall bishop etc all retired US Armed

885

00:46:56,270 --> 00:46:54,390

Forces personnel the group entered

886

00:46:57,450 --> 00:46:56,280

Mexico surreptitiously after

887

00:46:59,700 --> 00:46:57,460

interception of

888

00:47:04,260 --> 00:46:59,710

a Mexican radio communication giving

889

00:47:07,230 --> 00:47:04,270

away the location of the crash site once

890

00:47:09,510 --> 00:47:07,240

again all data that we never had until

891

00:47:12,060 --> 00:47:09,520

somebody went on Wikipedia and posted

892

00:47:15,540 --> 00:47:12,070

this information well what better place

893

00:47:17,550 --> 00:47:15,550

to put it if you've got information you

894

00:47:19,440 --> 00:47:17,560

want it you want people to know it and

895

00:47:22,349 --> 00:47:19,450

yet you want to remain anonymous because

896

00:47:25,470 --> 00:47:22,359

the people who post a Wikipedia do not

897

00:47:28,859 --> 00:47:25,480

have to give their real identities so

898

00:47:32,490 --> 00:47:28,869

why is the small community of candelaria

899

00:47:34,589 --> 00:47:32,500

is it why is it a key well one of the

900

00:47:37,020 --> 00:47:34,599

first times we came down here we went up

901
00:47:40,829 --> 00:47:37,030
to candelaria and we looked around there

902
00:47:43,050 --> 00:47:40,839
isn't much on the Texas side nobody from

903
00:47:45,920 --> 00:47:43,060
candelaria here right so there's a

904
00:47:49,050 --> 00:47:45,930
broken-down old saloon at an inner set a

905
00:47:52,680 --> 00:47:49,060
stoplight and that's it I mean if you

906
00:47:55,980 --> 00:47:52,690
missed that you've missed candelaria but

907
00:48:00,750 --> 00:47:55,990
as I had mentioned earlier this is where

908
00:48:03,210 --> 00:48:00,760
the recovery team from Fort Bliss which

909
00:48:05,220 --> 00:48:03,220
had the helicopters had followed the

910
00:48:07,980 --> 00:48:05,230
course of the Rio Grande River all the

911
00:48:10,470 --> 00:48:07,990
way down from El Paso and just north of

912
00:48:14,849 --> 00:48:10,480
candelaria they cut across and went

913
00:48:16,500 --> 00:48:14,859

straight to the crash site so we took

914

00:48:18,960 --> 00:48:16,510

that picture that you were just looking

915

00:48:23,040 --> 00:48:18,970

at right about here and then they cut

916

00:48:28,980 --> 00:48:23,050

straight across so of course the story

917

00:48:32,870 --> 00:48:28,990

goes that the CIA recovery team which

918

00:48:35,700 --> 00:48:32,880

included ex-military personnel and

919

00:48:39,260 --> 00:48:35,710

possibly some personnel trained in

920

00:48:42,120 --> 00:48:39,270

handling hazardous materials that they

921

00:48:44,849 --> 00:48:42,130

when they arrived at the scene lo and

922

00:48:47,670 --> 00:48:44,859

behold the Mexican recovery team members

923

00:48:50,609 --> 00:48:47,680

were dead already dead but there was no

924

00:48:53,390 --> 00:48:50,619

involvement on our part in their deaths

925

00:48:56,370 --> 00:48:53,400

they were already dead possibly

926
00:49:00,180 --> 00:48:56,380
something from the UFO had killed them

927
00:49:02,400 --> 00:49:00,190
so and we do know as I mentioned earlier

928
00:49:04,500 --> 00:49:02,410
that being around a UFO crash site can

929
00:49:06,660 --> 00:49:04,510
be dangerous but what really happened we

930
00:49:08,500 --> 00:49:06,670
don't know we just have with the dinner

931
00:49:11,050 --> 00:49:08,510
report says which is

932
00:49:13,330 --> 00:49:11,060
they were all dead and so what did the

933
00:49:16,840 --> 00:49:13,340
u.s. do they took the remaining evidence

934
00:49:20,590 --> 00:49:16,850
at the site and as the big cargo

935
00:49:23,920 --> 00:49:20,600
helicopter took off with with the UFO

936
00:49:26,820 --> 00:49:23,930
dangling from a line most likely covered

937
00:49:29,980 --> 00:49:26,830
with a tarp or some kind of protection

938
00:49:31,780 --> 00:49:29,990

it took off left the area and then the

939

00:49:34,930 --> 00:49:31,790

remaining evidence was gathered together

940

00:49:39,730 --> 00:49:34,940

in a big pile and exploded either with

941

00:49:42,280 --> 00:49:39,740

high explosives or a small yield thermal

942

00:49:44,590 --> 00:49:42,290

nuclear device which was in the protocol

943

00:49:53,530 --> 00:49:44,600

for dealing with possible contamination

944

00:49:59,060 --> 00:49:57,260

yeah we will address that once we finish

945

00:50:01,760 --> 00:49:59,070

yeah we'll keep that in mind we always

946

00:50:05,810 --> 00:50:01,770

do touch on that though but remind us in

947

00:50:07,850 --> 00:50:05,820

case we forget so the UFO evidence was

948

00:50:11,330 --> 00:50:07,860

removed the soldiers exploded the

949

00:50:14,900 --> 00:50:11,340

remaining evidence we think in MK 54 we

950

00:50:21,140 --> 00:50:14,910

see the we see the hallmarks of a

951

00:50:23,810 --> 00:50:21,150

low-yield nuke like the CIA had in its

952

00:50:27,500 --> 00:50:23,820

arsenal and MK 54 which would do the job

953

00:50:30,770 --> 00:50:27,510

very nicely and effect a minimal area in

954

00:50:33,980 --> 00:50:30,780

terms of ecological impact impact to the

955

00:50:37,940 --> 00:50:33,990

environment or to surrounding life it

956

00:50:39,560 --> 00:50:37,950

just is a pinpoint boom and you've

957

00:50:42,950 --> 00:50:39,570

cleansed the area of any possible

958

00:50:45,230 --> 00:50:42,960

contaminants so that's why we suspect

959

00:50:48,410 --> 00:50:45,240

that and we caught a break as I

960

00:50:50,450 --> 00:50:48,420

mentioned earlier when one of the most

961

00:50:53,600 --> 00:50:50,460

respected educators in this part of

962

00:50:59,300 --> 00:50:53,610

Texas mrs. Johnny Mitchell I'm sorry

963

00:51:01,190 --> 00:50:59,310

Johnny chambers and her son step forward

964

00:51:03,440 --> 00:51:01,200

when they heard we were having our first

965

00:51:07,700 --> 00:51:03,450

UFO festival and that it had something

966

00:51:10,340 --> 00:51:07,710

to do with a UFO that had crashed near

967

00:51:13,160 --> 00:51:10,350

here they stepped forward and said we

968

00:51:16,490 --> 00:51:13,170

saw an explosion in the sky directly

969

00:51:21,080 --> 00:51:16,500

across the Rio Grande River from

970

00:51:25,400 --> 00:51:21,090

candelaria in 1974 boom just like that

971

00:51:27,740 --> 00:51:25,410

it hit us like that blast it was just a

972

00:51:30,980 --> 00:51:27,750

big explosion in the sky she told us

973

00:51:33,710 --> 00:51:30,990

mostly round I can see it in my mind but

974

00:51:36,140 --> 00:51:33,720

it is hard to describe I would say the

975

00:51:38,600 --> 00:51:36,150

width of it was about four or five miles

976

00:51:45,380 --> 00:51:38,610

and of course it was pretty high in the

977

00:51:51,050 --> 00:51:45,390

sky and her son who was ten years old in

978

00:51:53,990 --> 00:51:51,060

1974 told us all of a sudden a big old

979

00:51:57,350 --> 00:51:54,000

glow fire ball looking thing sorry about

980

00:51:59,030 --> 00:51:57,360

that Apple want some more money from me

981

00:51:59,740 --> 00:51:59,040

but they're not going to get it right

982

00:52:03,190 --> 00:51:59,750

now

983

00:52:04,840 --> 00:52:03,200

all of a sudden a big old glow fire ball

984

00:52:07,570 --> 00:52:04,850

looking thing appeared over the mountain

985

00:52:16,390 --> 00:52:07,580

over there we stopped and watched it for

986

00:52:20,350 --> 00:52:16,400

a while it was quite a fireball so here

987

00:52:25,390 --> 00:52:20,360

is Rio dosa here is candelaria we're in

988

00:52:28,060 --> 00:52:25,400

presidio down here and this is where the

989

00:52:31,720 --> 00:52:28,070

chambers were both driving in their

990

00:52:34,840 --> 00:52:31,730

vehicle coming down a mountain from the

991

00:52:38,140 --> 00:52:34,850

hot springs and they were looking this

992

00:52:39,940 --> 00:52:38,150

way and suddenly the pieces started

993

00:52:43,150 --> 00:52:39,950

coming together because this was the

994

00:52:47,140 --> 00:52:43,160

location we had pinpointed seven years

995

00:52:49,390 --> 00:52:47,150

ago the very location that we had

996

00:52:52,480 --> 00:52:49,400

pinpointed seven or eight years ago

997

00:52:55,240 --> 00:52:52,490

based on the Deneb report they were

998

00:52:59,890 --> 00:52:55,250

directly across the Rio Grande River

999

00:53:03,220 --> 00:52:59,900

from that location directly so we had

1000

00:53:08,410 --> 00:53:03,230

one of those wow moments when big well

1001
00:53:11,710 --> 00:53:08,420
that was a big one and last the sea last

1002
00:53:14,170 --> 00:53:11,720
year or no it was two years ago we had

1003
00:53:16,960 --> 00:53:14,180
the Chamber's present you know part of

1004
00:53:21,600 --> 00:53:16,970
our presentation mrs. chambers however

1005
00:53:29,170 --> 00:53:21,610
doesn't do my travel much anymore she's

1006
00:53:32,880 --> 00:53:29,180
elderly and so they saw what they

1007
00:53:36,250 --> 00:53:32,890
described as a four to five mile wide

1008
00:53:38,070 --> 00:53:36,260
fireball come up over the mountains

1009
00:53:42,430 --> 00:53:38,080
there's mountains on the Mexican side

1010
00:53:45,430 --> 00:53:42,440
and they were over they were standing

1011
00:53:47,020 --> 00:53:45,440
right here or not they were in their car

1012
00:53:49,180 --> 00:53:47,030
that at one point they did get out of

1013
00:53:54,460 --> 00:53:49,190

their car and stand outside the car and

1014

00:53:59,140 --> 00:53:54,470

they saw this huge fireball right

1015

00:54:04,180 --> 00:53:59,150

actually right back here in El liano the

1016

00:54:06,580 --> 00:54:04,190

area known as aliano now here is a

1017

00:54:09,280 --> 00:54:06,590

picture we went out to the site at last

1018

00:54:11,770 --> 00:54:09,290

year's UFO festival and we took a

1019

00:54:12,560 --> 00:54:11,780

picture of the actual place where John

1020

00:54:14,930 --> 00:54:12,570

Chambers

1021

00:54:18,160 --> 00:54:14,940

son took us to the actual place where he

1022

00:54:21,140 --> 00:54:18,170

and his mom were standing and looking

1023

00:54:24,880 --> 00:54:21,150

this was a road that they were traveling

1024

00:54:27,350 --> 00:54:24,890

on coming back down to candelaria and

1025

00:54:34,040 --> 00:54:27,360

right over these mountains they saw the

1026

00:54:36,410 --> 00:54:34,050

fireball I did a computer simulation I

1027

00:54:40,790 --> 00:54:36,420

showed it to mrs. chambers and she said

1028

00:54:44,150 --> 00:54:40,800

how did you get a picture of it I took

1029

00:54:46,400 --> 00:54:44,160

one of the nuclear tests that we did in

1030

00:54:48,190 --> 00:54:46,410

the 60s I took a picture of one of the

1031

00:54:51,740 --> 00:54:48,200

nuclear test from the 60s and

1032

00:54:54,080 --> 00:54:51,750

superimposed it photoshopped it in

1033

00:54:57,770 --> 00:54:54,090

behind the very place where they saw the

1034

00:55:02,350 --> 00:54:57,780

fireball and she was just stunned in

1035

00:55:04,760 --> 00:55:02,360

fact we gave her a copy of this print

1036

00:55:09,530 --> 00:55:04,770

autographed by us and she really

1037

00:55:11,240 --> 00:55:09,540

appreciated that we watched it all the

1038

00:55:14,180 --> 00:55:11,250

way down the mountain I imagine at least

1039

00:55:17,030 --> 00:55:14,190

five or more 5 or maybe 10 minutes more

1040

00:55:21,980 --> 00:55:17,040

we did not keep driving at regular speed

1041

00:55:26,840 --> 00:55:21,990

we slow down and kept watching it then

1042

00:55:30,070 --> 00:55:26,850

he described that it had colors in it it

1043

00:55:34,130 --> 00:55:30,080

was orange and red fire red blazing red

1044

00:55:37,340 --> 00:55:34,140

not not really read but it had some

1045

00:55:39,230 --> 00:55:37,350

orange in it he did not move up or down

1046

00:55:43,130 --> 00:55:39,240

it stayed up there for quite a while

1047

00:55:44,330 --> 00:55:43,140

well you know what all reading all the

1048

00:55:47,180 --> 00:55:44,340

descriptions of people who have

1049

00:55:52,280 --> 00:55:47,190

witnessed nuclear explosions it sounds

1050

00:55:55,280 --> 00:55:52,290

just like that we thought it was a fire

1051
00:55:57,080 --> 00:55:55,290
we had seen far as many times but it was

1052
00:56:00,770 --> 00:55:57,090
not like that it was a different kind of

1053
00:56:04,400 --> 00:56:00,780
glow it was almost like the Sun coming

1054
00:56:07,610 --> 00:56:04,410
back up now that really struck me I had

1055
00:56:12,380 --> 00:56:07,620
read that quote before in a book and

1056
00:56:17,060 --> 00:56:12,390
that was in the book the Sun rises the

1057
00:56:19,610 --> 00:56:17,070
Sun rose twice about the the first

1058
00:56:23,540 --> 00:56:19,620
nuclear tests that were done

1059
00:56:27,140 --> 00:56:23,550
and the fireball seemed like it was the

1060
00:56:35,030 --> 00:56:27,150
Sun rising again so that that really

1061
00:56:36,860 --> 00:56:35,040
made an impact on me so anyway they knew

1062
00:56:38,930 --> 00:56:36,870
it was a plane crash then you it wasn't

1063
00:56:44,000 --> 00:56:38,940

a forest fire they knew it was something

1064

00:56:45,350 --> 00:56:44,010

different and now another part of the

1065

00:56:47,240 --> 00:56:45,360

story and we're going to have to wrap it

1066

00:56:49,430 --> 00:56:47,250

up shortly but another part of the story

1067

00:56:54,110 --> 00:56:49,440

is that the helicopters came across the

1068

00:56:56,000 --> 00:56:54,120

u.s. boundary with Mexico on their way

1069

00:56:59,150 --> 00:56:56,010

to the crash site and then when they

1070

00:57:01,010 --> 00:56:59,160

recovered the material and they loaded

1071

00:57:05,560 --> 00:57:01,020

up all the soldiers again that came back

1072

00:57:09,230 --> 00:57:05,570

across well the Chamber's told us that

1073

00:57:11,540 --> 00:57:09,240

within a day after they saw the strange

1074

00:57:14,030 --> 00:57:11,550

glow in the sky several area residents

1075

00:57:15,950 --> 00:57:14,040

observed a group of military helicopters

1076
00:57:19,040 --> 00:57:15,960
moving back into the u.s. from Mexico

1077
00:57:22,940 --> 00:57:19,050
including one large twin rotor

1078
00:57:26,030 --> 00:57:22,950
helicopter it was several maybe three or

1079
00:57:27,530 --> 00:57:26,040
four he said now I need to point out to

1080
00:57:31,250 --> 00:57:27,540
you that the Chamber's live in a very

1081
00:57:34,220 --> 00:57:31,260
isolated part of the area and they have

1082
00:57:37,100 --> 00:57:34,230
no interest in UFOs they had never heard

1083
00:57:39,170 --> 00:57:37,110
about our book they had heard that we

1084
00:57:41,540 --> 00:57:39,180
were having a UFO festival and that was

1085
00:57:44,030 --> 00:57:41,550
the first you know they didn't associate

1086
00:57:47,300 --> 00:57:44,040
it with what they saw they did you know

1087
00:57:49,340 --> 00:57:47,310
we had to really struggle to get the

1088
00:57:53,540 --> 00:57:49,350

story out of them the daily really have

1089

00:57:55,760 --> 00:57:53,550

no desire for publicity but and they

1090

00:57:57,320 --> 00:57:55,770

have no interest in UFOs they just saw

1091

00:57:59,360 --> 00:57:57,330

something strange in the sky net

1092

00:58:03,320 --> 00:57:59,370

happened to be on the very date at the

1093

00:58:11,150 --> 00:58:03,330

very place where we think this incident

1094

00:58:14,120 --> 00:58:11,160

happened so we we had and we don't have

1095

00:58:16,250 --> 00:58:14,130

time unfortunately to show this but we

1096

00:58:18,770 --> 00:58:16,260

went up there with John Chambers a year

1097

00:58:20,990 --> 00:58:18,780

ago and he showed us he pointed out the

1098

00:58:27,280 --> 00:58:21,000

mountain ridge where this incident

1099

00:58:29,440 --> 00:58:27,290

happened and so um

1100

00:58:31,420 --> 00:58:29,450

we suspect that the crash debris was

1101
00:58:33,010 --> 00:58:31,430
taken to Atlanta Georgia the reason

1102
00:58:35,560 --> 00:58:33,020
being that there was obviously a

1103
00:58:37,720 --> 00:58:35,570
contaminant or something that was

1104
00:58:39,550 --> 00:58:37,730
affecting that had killed the soldiers

1105
00:58:42,250 --> 00:58:39,560
and so it needed to be analyzed the

1106
00:58:47,110 --> 00:58:42,260
world's leading facilities for dealing

1107
00:58:51,640 --> 00:58:47,120
with a threat of a biological nature was

1108
00:58:53,170 --> 00:58:51,650
at the CDC in Atlanta and then we've

1109
00:58:57,360 --> 00:58:53,180
heard from other witnesses who have

1110
00:59:00,610 --> 00:58:57,370
additional information that we have

1111
00:59:04,270 --> 00:59:00,620
uncovered there's a series of

1112
00:59:11,010 --> 00:59:04,280
coincidences that have been uncovered

1113
00:59:16,450 --> 00:59:13,810

which is the kalama incident and we've

1114

00:59:19,990 --> 00:59:16,460

got copies available our first book

1115

00:59:22,360 --> 00:59:20,000

Mexico's Roswell we also have a few if

1116

00:59:26,230 --> 00:59:22,370

by the grace of dentists can we take a

1117

00:59:27,520 --> 00:59:26,240

couple of questions all right dennis is

1118

00:59:41,160 --> 00:59:27,530

going to let us take a couple of

1119

00:59:46,960 --> 00:59:44,280

the question is the the names that

1120

00:59:49,150 --> 00:59:46,970

appeared mysteriously on the Wikipedia

1121

00:59:51,100 --> 00:59:49,160

posting giving the names of soldiers who

1122

00:59:53,290 --> 00:59:51,110

died in this incident has anybody ever

1123

00:59:55,930 --> 00:59:53,300

checked actually the answer is people

1124

00:59:58,750 --> 00:59:55,940

are checking right now because this

1125

01:00:01,900 --> 00:59:58,760

hasn't been this wasn't known until just

1126

01:00:05,470 --> 01:00:01,910

a short time ago recent yeah it's very

1127

01:00:10,770 --> 01:00:05,480

recent and other question secession

1128

01:00:18,520 --> 01:00:16,150

this isn't as something that government

1129

01:00:20,890 --> 01:00:18,530

officials in Mexico really strongly

1130

01:00:23,890 --> 01:00:20,900

believe really happened they think it's

1131

01:00:26,370 --> 01:00:23,900

kind of like part of UFO lore so

1132

01:00:28,870 --> 01:00:26,380

possibly it hasn't been taken seriously

1133

01:00:31,090 --> 01:00:28,880

because if it had been taken seriously

1134

01:00:34,120 --> 01:00:31,100

this would be a major international

1135

01:00:36,580 --> 01:00:34,130

incident and the US you know even though

1136

01:00:39,820 --> 01:00:36,590

it was you know where this location

1137

01:00:43,570 --> 01:00:39,830

happened was within maybe 15 miles of

1138

01:00:46,930 --> 01:00:43,580

the international boundary but even so

1139

01:00:49,660 --> 01:00:46,940

it did happen in Mexican territory but

1140

01:00:51,940 --> 01:00:49,670

the the the only answer we have at the

1141

01:00:54,730 --> 01:00:51,950

time being is that it's not really taken

1142

01:00:57,280 --> 01:00:54,740

seriously probably because they don't

1143

01:00:59,590 --> 01:00:57,290

have all the facts and information yet

1144

01:01:05,380 --> 01:00:59,600

after they read our book though they

1145

01:01:07,690 --> 01:01:05,390

they might think twice about that there

1146

01:01:09,190 --> 01:01:07,700

was one thing we didn't get a chance to

1147

01:01:12,370 --> 01:01:09,200

talk about their happen to have been a

1148

01:01:15,040 --> 01:01:12,380

major crash they reported it as a crash

1149

01:01:17,590 --> 01:01:15,050

of military vehicles who were just on a

1150

01:01:20,080 --> 01:01:17,600

routine convoy and a whole bunch of

1151

01:01:22,390 --> 01:01:20,090

Mexican soldiers died so they just

1152

01:01:26,200 --> 01:01:22,400

reported it as a highway crash and it

1153

01:01:28,930 --> 01:01:26,210

happened it was reported at that same

1154

01:01:32,740 --> 01:01:28,940

time period so you never know a cover

1155

01:01:36,080 --> 01:01:32,750

story is put out there anybody else yes

1156

01:01:50,890 --> 01:01:39,390

you know where of special

1157

01:01:57,680 --> 01:01:54,240

working with CIA

1158

01:01:57,690 --> 01:02:03,640

that's all right that's a good point

1159

01:02:12,830 --> 01:02:09,110

yeah that's a very good point and and

1160

01:02:14,480 --> 01:02:12,840

the observation is that obviously and we

1161

01:02:17,030 --> 01:02:14,490

suspected this from the beginning that

1162

01:02:19,670 --> 01:02:17,040

the people involved in the US recovery

1163

01:02:22,430 --> 01:02:19,680

team were not active military this was a

1164

01:02:25,340 --> 01:02:22,440

CIA operation they were operative some

1165

01:02:28,610 --> 01:02:25,350

of them were ex-military but they had

1166

01:02:30,860 --> 01:02:28,620

ways to cover their tracks and there's

1167

01:02:33,650 --> 01:02:30,870

nothing within the military that's

1168

01:02:37,700 --> 01:02:33,660

traceable because the military was

1169

01:02:39,530 --> 01:02:37,710

really marginally involved and I think

1170

01:02:43,370 --> 01:02:39,540

we have to cut it will be available at

1171

01:02:50,400 --> 01:02:43,380

our table he's loaded giving us one more

1172

01:02:54,250 --> 01:02:52,690

that's a very good question we went with

1173

01:02:55,990 --> 01:02:54,260

the history channel's the question is is

1174

01:02:58,750 --> 01:02:56,000

there could there be some radiation out

1175

01:03:00,370 --> 01:02:58,760

in the Columbia crash area yes it's

1176

01:03:02,140 --> 01:03:00,380

possible when we went with the History

1177

01:03:05,050 --> 01:03:02,150

Channel's we found a site that we think

1178

01:03:07,690 --> 01:03:05,060

is related where somebody dug a vertical

1179

01:03:09,610 --> 01:03:07,700

pit that goes down a long long distance

1180

01:03:16,140 --> 01:03:09,620

and there were airplane parts all around

1181

01:03:19,570 --> 01:03:16,150

it and when when they stuck the the

1182

01:03:21,760 --> 01:03:19,580

detector the radiation detector one of

1183

01:03:24,400 --> 01:03:21,770

the crew members with a history channel

1184

01:03:27,190 --> 01:03:24,410

stuck his arm down there just the little

1185

01:03:30,220 --> 01:03:27,200

ways down and the things started spiking

1186

01:03:33,460 --> 01:03:30,230

the meter started spiking to pull his

1187

01:03:35,620 --> 01:03:33,470

arm back real quick so could there be

1188

01:03:37,570 --> 01:03:35,630

radiation in the area it's possible

1189

01:03:39,250 --> 01:03:37,580

we've also heard and we didn't have a

1190

01:03:42,190 --> 01:03:39,260

chance to elaborate on this but there's

1191

01:03:46,240 --> 01:03:42,200

an area in the approximate area there

1192

01:03:49,990 --> 01:03:46,250

there's a place where nothing grows and

1193

01:03:51,820 --> 01:03:50,000

it's well known to people who are who

1194

01:03:54,820 --> 01:03:51,830

live in the area who ranch in the area

1195

01:03:57,870 --> 01:03:54,830

that this is a dead zone nothing grows

1196

01:04:00,010 --> 01:03:57,880

there and that's all the time we have

1197

01:04:05,800 --> 01:04:00,020

thank you very much for putting up with
