00:01:06,050 --> 00:00:03,290  
you're listening to IRA the inception

2  
00:01:12,270 --> 00:01:10,109  
are you ready for an epic journey the

3  
00:01:14,940 --> 00:01:12,280  
extraordinary phenomenon investigations

4  
00:01:17,520 --> 00:01:14,950  
Council presents epic voyages

5  
00:01:19,590 --> 00:01:17,530  
come join us as we enter and experience

6  
00:01:22,469 --> 00:01:19,600  
their great mysteries of the world with

7  
00:02:06,440 --> 00:01:22,479  
tonight's host Aaron Jenkins aka

8  
00:02:14,820 --> 00:02:10,139  
and welcome to another fantastic edition

9  
00:02:16,560 --> 00:02:14,830  
of epic voyages radio I am maverick aka

10  
00:02:18,780 --> 00:02:16,570  
dr. Aaron Jenkins

11  
00:02:21,150 --> 00:02:18,790  
I think it's the other way around anyway

12  
00:02:26,640 --> 00:02:21,160  
welcome all in hello from the great

13  
00:02:29,670 --> 00:02:26,650

state of Texas in the Texas Hill Country

14

00:02:33,900 --> 00:02:29,680

so live broadcast tonight with a very

15

00:02:36,990 --> 00:02:33,910

special guest and we are live from the

16

00:02:39,600 --> 00:02:37,000

valley of the giants with our special

17

00:02:42,480 --> 00:02:39,610

guest dr. heather Lynn our show topic is

18

00:02:45,060 --> 00:02:42,490

the Cimmerian controversy a special

19

00:02:46,490 --> 00:02:45,070

report there are new excavations

20

00:02:49,530 --> 00:02:46,500

underware underway in ancient

21

00:02:51,540 --> 00:02:49,540

Mesopotamia join writer researcher and

22

00:02:53,430 --> 00:02:51,550

archaeologist dr. Heather LAN as she

23

00:02:55,980 --> 00:02:53,440

investigates who is behind the latest

24

00:03:01,230 --> 00:02:55,990

sumerian discovery in the ancient city

25

00:03:04,770 --> 00:03:01,240

of Ur what is its connection to big oil

26

00:03:06,660 --> 00:03:04,780

to bankers to the elite among many of

27

00:03:08,280 --> 00:03:06,670

the new artifacts one stands out that

28

00:03:09,030 --> 00:03:08,290

has been quickly shipped off for

29

00:03:13,020 --> 00:03:09,040

analysis

30

00:03:14,970 --> 00:03:13,030

it speaks of Royal bloodlines that's

31

00:03:18,470 --> 00:03:14,980

gonna be your show tonight but first an

32

00:03:21,300 --> 00:03:18,480

update before we get to get to dr. Lynn

33

00:03:23,729 --> 00:03:21,310

Joe Taylor who I told you about the last

34

00:03:26,880 --> 00:03:23,739

time I was on the air with you last

35

00:03:30,360 --> 00:03:26,890

month Joe Taylor is on the men's that he

36

00:03:33,380 --> 00:03:30,370

still not fully recuperated he is really

37

00:03:36,509 --> 00:03:33,390

had a tremendous battle against this

38

00:03:39,150 --> 00:03:36,519

illness that he's been fighting but he

39

00:03:41,100 --> 00:03:39,160

is on the mend so thank you for all your

40

00:03:44,190 --> 00:03:41,110

thoughts concerns and prayers for Joe

41

00:03:47,430 --> 00:03:44,200

Taylor you know Joe and I go back 20

42

00:03:49,620 --> 00:03:47,440

years he's my digging buddy and we've

43

00:03:51,780 --> 00:03:49,630

dug a lot of dinosaurs out done a lot of

44

00:03:55,430 --> 00:03:51,790

work together in the field Joe is a

45

00:03:58,650 --> 00:03:55,440

legend in his own time and he really

46

00:04:01,289 --> 00:03:58,660

appreciated all your comments on his

47

00:04:04,500 --> 00:04:01,299

Facebook page and thoughts and concerns

48

00:04:08,610 --> 00:04:04,510

he really did so when Joe gets better

49

00:04:11,640 --> 00:04:08,620

we're gonna have him back on the air but

50

00:04:16,800 --> 00:04:11,650

thank you so much for for your concern

51  
00:04:19,410 --> 00:04:16,810  
for Joe secondly I have been traveling

52  
00:04:20,970 --> 00:04:19,420  
abroad the last time

53  
00:04:23,940 --> 00:04:20,980  
that I was on the air with you I've been

54  
00:04:26,100 --> 00:04:23,950  
all over the place and I can barely keep

55  
00:04:31,320 --> 00:04:26,110  
up with myself I passed myself coming

56  
00:04:32,670 --> 00:04:31,330  
and going and in a sense and and I have

57  
00:04:38,250 --> 00:04:32,680  
to tell you lots of neat things are

58  
00:04:40,980 --> 00:04:38,260  
happening again the up for the

59  
00:04:43,950 --> 00:04:40,990  
theatrical documentary finding Noah will

60  
00:04:46,590 --> 00:04:43,960  
be out hopefully this fall or this

61  
00:04:49,590 --> 00:04:46,600  
winter it's a little behind schedule but

62  
00:04:52,200 --> 00:04:49,600  
good things come to those who wait and

63  
00:04:55,800 --> 00:04:52,210

so it's going to be released in major

64

00:04:59,040 --> 00:04:55,810

theaters as soon as I get an update on

65

00:05:02,150 --> 00:04:59,050

that documentary release I'll have it up

66

00:05:06,780 --> 00:05:02,160

on my website at Aaron judkins dot-com

67

00:05:10,200 --> 00:05:06,790

for the latest or you can go to WWF

68

00:05:12,150 --> 00:05:10,210

Indian or calm for the latest as well

69

00:05:16,170 --> 00:05:12,160

and see the video trailer for the movie

70

00:05:17,640 --> 00:05:16,180

that's up now you can go see that so

71

00:05:20,730 --> 00:05:17,650

very interesting things are happening

72

00:05:23,370 --> 00:05:20,740

also if you would go to my website Aaron

73

00:05:24,810 --> 00:05:23,380

Jenkins calm because I need to know your

74

00:05:27,270 --> 00:05:24,820

opinion if you could help me out with

75

00:05:31,680 --> 00:05:27,280

something I've got a little pool going

76

00:05:34,410 --> 00:05:31,690

and I need your input so the the input

77

00:05:37,230 --> 00:05:34,420

is or the question I should say is would

78

00:05:39,450 --> 00:05:37,240

you rather see a show on Biblical

79

00:05:42,330 --> 00:05:39,460

Archaeology or would you rather see a TV

80

00:05:45,240 --> 00:05:42,340

show on nation's civilizations that's

81

00:05:48,270 --> 00:05:45,250

the question that I'm posing so please

82

00:05:50,550 --> 00:05:48,280

your comments your input is welcome go

83

00:05:52,710 --> 00:05:50,560

to Aaron jetties calm put in your

84

00:05:54,360 --> 00:05:52,720

comments suggestions because we are

85

00:05:57,210 --> 00:05:54,370

working on something behind the scenes

86

00:06:00,150 --> 00:05:57,220

that it's still in the discussion phase

87

00:06:03,960 --> 00:06:00,160

but there's some interesting things

88

00:06:06,030 --> 00:06:03,970

coming about for man versus archeology

89

00:06:08,250 --> 00:06:06,040  
pretty pretty neat stuff I'll tell you

90

00:06:11,100 --> 00:06:08,260  
more as I can fill you in and I'll

91

00:06:13,860 --> 00:06:11,110  
always keep you updated and thank you so

92

00:06:16,770 --> 00:06:13,870  
much for following what I do now dr.

93

00:06:19,800 --> 00:06:16,780  
heather Lynn you know we had dr. Lynn

94

00:06:22,860 --> 00:06:19,810  
scheduled for the show several months

95

00:06:26,100 --> 00:06:22,870  
ago and dr. lynn was emergently

96

00:06:30,660 --> 00:06:26,110  
hospitalized and we we had to reschedule

97

00:06:32,340 --> 00:06:30,670  
her so now tonight live with this our

98

00:06:32,910 --> 00:06:32,350  
special guest dr. heather Lynn Heather

99

00:06:36,960 --> 00:06:32,920  
welcome

100

00:06:40,020 --> 00:06:36,970  
to the show hi thank you it's great to

101  
00:06:43,200 --> 00:06:40,030  
be here we are so glad that you were

102  
00:06:45,540 --> 00:06:43,210  
feeling better by the way and you have

103  
00:06:49,440 --> 00:06:45,550  
completely mended and healed and and

104  
00:06:53,670 --> 00:06:49,450  
back to your work and so thank you for

105  
00:06:56,940 --> 00:06:53,680  
coming on epic you know I saw your book

106  
00:07:00,420 --> 00:06:56,950  
the Cimmerian controversy on a Facebook

107  
00:07:04,890 --> 00:07:00,430  
post that someone had posted and it

108  
00:07:06,720 --> 00:07:04,900  
really caught my attention and I wasn't

109  
00:07:09,810 --> 00:07:06,730  
really familiar with your work so I

110  
00:07:11,760 --> 00:07:09,820  
wanted to learn more and as I went to

111  
00:07:13,260 --> 00:07:11,770  
your website and and begin to look at

112  
00:07:15,390 --> 00:07:13,270  
the other books you've written I was

113  
00:07:17,430 --> 00:07:15,400

really intrigued not only intrigued I

114

00:07:20,090 --> 00:07:17,440

was really fascinated because you do

115

00:07:24,510 --> 00:07:20,100

some really really neat work Heather

116

00:07:26,520 --> 00:07:24,520

you're a archaeologist you're you're in

117

00:07:28,200 --> 00:07:26,530

the field you're digging in the dirt

118

00:07:29,580 --> 00:07:28,210

like I do you get your hands dirty

119

00:07:33,060 --> 00:07:29,590

you're not scared to go out there and do

120

00:07:35,610 --> 00:07:33,070

that but you know I love it I love

121

00:07:38,070 --> 00:07:35,620

getting a little dirty did you become

122

00:07:39,510 --> 00:07:38,080

interested in ancient mysteries and

123

00:07:44,960 --> 00:07:39,520

become an archaeologist how does that

124

00:07:48,270 --> 00:07:44,970

happen well as a kid as many kids do I

125

00:07:51,150 --> 00:07:48,280

was very much curious about ancient

126

00:07:54,000 --> 00:07:51,160

mysteries and those types of things and

127

00:07:54,960 --> 00:07:54,010

of course as much as it it just is

128

00:07:59,250 --> 00:07:54,970

cliche

129

00:08:06,270 --> 00:07:59,260

I loved Indiana Jones I'll admit I'll

130

00:08:08,880 --> 00:08:06,280

admit it I'm putting that out there so

131

00:08:10,620 --> 00:08:08,890

you know I was a curious kid and I had I

132

00:08:13,500 --> 00:08:10,630

was an only child so I had a lot of time

133

00:08:16,710 --> 00:08:13,510

on my hands and you know I'd go outside

134

00:08:18,870 --> 00:08:16,720

and play and next door there what used

135

00:08:21,630 --> 00:08:18,880

to be a house and it had it had been

136

00:08:23,910 --> 00:08:21,640

torn down and the remnants of the

137

00:08:26,520 --> 00:08:23,920

foundation were still there and among

138

00:08:28,650 --> 00:08:26,530

that were just broken glass pieces of

139

00:08:31,200 --> 00:08:28,660

cement it was it was a real nightmare

140

00:08:33,950 --> 00:08:31,210

not someplace my mother certainly wanted

141

00:08:38,190 --> 00:08:33,960

me to play but I used to go in there and

142

00:08:40,380 --> 00:08:38,200

dig and crawl around looking for relics

143

00:08:44,040 --> 00:08:40,390

or any kind of thing that I could find

144

00:08:46,710 --> 00:08:44,050

so it really started as you know young

145

00:08:48,990 --> 00:08:46,720

as 7 I just had this interest and

146

00:08:50,730 --> 00:08:49,000

finding things I wanted to explore I

147

00:08:53,369 --> 00:08:50,740

wanted to look for things and I was just

148

00:08:55,470 --> 00:08:53,379

always curious so you know but it didn't

149

00:08:59,160 --> 00:08:55,480

really stick with me because like all

150

00:09:01,679 --> 00:08:59,170

childhood dreams people just get caught

151  
00:09:03,869 --> 00:09:01,689  
up in in life and just put it to the

152  
00:09:06,960 --> 00:09:03,879  
side and they try to pursue things

153  
00:09:09,920 --> 00:09:06,970  
generally that are deemed I don't know

154  
00:09:13,769 --> 00:09:09,930  
more profitable more socially acceptable

155  
00:09:16,019 --> 00:09:13,779  
whatever so you know I I went to school

156  
00:09:17,790 --> 00:09:16,029  
and initially started going for

157  
00:09:19,290 --> 00:09:17,800  
something like business just something

158  
00:09:21,720 --> 00:09:19,300  
real bland I hadn't really made up my

159  
00:09:24,059 --> 00:09:21,730  
mind on a major and so I just went and

160  
00:09:27,660 --> 00:09:24,069  
started taking some classes and you know

161  
00:09:29,879 --> 00:09:27,670  
among the general liberal arts set I had

162  
00:09:31,920 --> 00:09:29,889  
to take some art history and things that

163  
00:09:34,860 --> 00:09:31,930

I was really excited about and those are

164

00:09:38,360 --> 00:09:34,870

the classes that really just spoke to me

165

00:09:41,340 --> 00:09:38,370

and and it occurred to me why am I here

166

00:09:43,530 --> 00:09:41,350

taking these classes I don't like but

167

00:09:45,210 --> 00:09:43,540

then you know the here the classes that

168

00:09:47,150 --> 00:09:45,220

I do like why am I not pursuing this

169

00:09:51,210 --> 00:09:47,160

who's really in charge here is it just

170

00:09:52,650 --> 00:09:51,220

you know me or is it society or what

171

00:09:54,689 --> 00:09:52,660

other people are telling me I should do

172

00:09:56,610 --> 00:09:54,699

so I just made the decision I'm gonna

173

00:09:59,069 --> 00:09:56,620

pursue my dreams and just start studying

174

00:10:01,519 --> 00:09:59,079

so but of course that was mainstream

175

00:10:05,189 --> 00:10:01,529

archaeology I still had an interest in

176

00:10:07,199 --> 00:10:05,199

kind of ancient mysteries but I only

177

00:10:09,540 --> 00:10:07,209

entertained those in the you know

178

00:10:11,100 --> 00:10:09,550

privacy of my own mind or you know for

179

00:10:13,499 --> 00:10:11,110

entertainment purposes you could say

180

00:10:15,929 --> 00:10:13,509

because I certainly wasn't going to you

181

00:10:18,329 --> 00:10:15,939

know study that in a traditional sense

182

00:10:22,079 --> 00:10:18,339

so I went the traditional route always

183

00:10:27,480 --> 00:10:22,089

kind of keeping the open mind to other

184

00:10:29,699 --> 00:10:27,490

ideas and theories Wow and so you really

185

00:10:33,030 --> 00:10:29,709

took an interest at an earlier age like

186

00:10:34,710 --> 00:10:33,040

like I did and you actually went kind of

187

00:10:37,410 --> 00:10:34,720

a different route

188

00:10:40,799 --> 00:10:37,420

I was very similar in that that that I

189

00:10:42,179 --> 00:10:40,809

went into the medical field first but

190

00:10:45,809 --> 00:10:42,189

you just can't get away from your

191

00:10:48,449 --> 00:10:45,819

passion and that's what I think is the

192

00:10:51,449 --> 00:10:48,459

neat thing about it it's never too late

193

00:10:53,939 --> 00:10:51,459

to pursue your passion it is never too

194

00:10:55,740 --> 00:10:53,949

late into and to reach your dreams

195

00:10:58,829 --> 00:10:55,750

whether that's in archaeology or

196

00:10:59,970 --> 00:10:58,839

whatever you know I also love to play

197

00:11:02,160 --> 00:10:59,980

music and

198

00:11:04,830 --> 00:11:02,170

and you know when I was growing up I was

199

00:11:06,240 --> 00:11:04,840

gonna be a rock star you know I had long

200

00:11:09,060 --> 00:11:06,250

hair and I was the you know the whole

201  
00:11:11,700 --> 00:11:09,070  
80s thing going on and that's what I was

202  
00:11:14,610 --> 00:11:11,710  
gonna do but you know I'm glad that

203  
00:11:16,050 --> 00:11:14,620  
dream at least you know at least that

204  
00:11:18,150 --> 00:11:16,060  
part of my life I'm glad that didn't

205  
00:11:20,330 --> 00:11:18,160  
come true now it came true in a sense

206  
00:11:26,070 --> 00:11:20,340  
that I still have a passion for music

207  
00:11:29,700 --> 00:11:26,080  
but it wasn't really the thing that was

208  
00:11:32,340 --> 00:11:29,710  
really my destiny and and now that you

209  
00:11:34,680 --> 00:11:32,350  
know I found that path for me it sounds

210  
00:11:36,840 --> 00:11:34,690  
like you found the same you know kind of

211  
00:11:41,120 --> 00:11:36,850  
kind of your path in the same way you

212  
00:11:45,720 --> 00:11:41,130  
found your destiny eventually and now

213  
00:11:50,130 --> 00:11:45,730

you're you're doing some great work tell

214

00:11:51,930 --> 00:11:50,140

us a little bit about you know you you

215

00:11:56,970 --> 00:11:51,940

kind of started in the traditional sense

216

00:12:00,300 --> 00:11:56,980

in archaeology but you kind of begin to

217

00:12:04,410 --> 00:12:00,310

look at some other things that were

218

00:12:07,010 --> 00:12:04,420

showing you a bigger picture what

219

00:12:12,300 --> 00:12:07,020

prompted you to leave the traditional

220

00:12:14,820 --> 00:12:12,310

mainstream archaeology that's um

221

00:12:18,000 --> 00:12:14,830

you know it I never really intended on

222

00:12:20,340 --> 00:12:18,010

to leave not certainly not because I had

223

00:12:24,270 --> 00:12:20,350

other interest I know so many professors

224

00:12:26,610 --> 00:12:24,280

who have the most eccentric interests

225

00:12:29,880 --> 00:12:26,620

and they they have those and it doesn't

226

00:12:33,210 --> 00:12:29,890

cause them to to up and leave so my my

227

00:12:35,700 --> 00:12:33,220

interest in ancient mysteries if you own

228

00:12:40,860 --> 00:12:35,710

it that really wasn't what spurred my

229

00:12:44,070 --> 00:12:40,870

decision it it came down to a time where

230

00:12:47,910 --> 00:12:44,080

I worked at a local community college

231

00:12:51,660 --> 00:12:47,920

and I worked in one of their research

232

00:12:55,320 --> 00:12:51,670

labs doing archaeology but mostly what

233

00:12:57,030 --> 00:12:55,330

the focus was was public archaeology or

234

00:12:59,610 --> 00:12:57,040

community archaeology and that's what

235

00:13:03,360 --> 00:12:59,620

you know I studied in graduate school

236

00:13:06,210 --> 00:13:03,370

was specifically public history

237

00:13:08,160 --> 00:13:06,220

so the difference with that is it's it's

238

00:13:10,020 --> 00:13:08,170

more of a roll up your sleeves and let's

239

00:13:12,900 --> 00:13:10,030

try to get the community involved let's

240

00:13:14,150 --> 00:13:12,910

try to bring archaeology in the study of

241

00:13:17,280 --> 00:13:14,160

history and

242

00:13:19,079 --> 00:13:17,290

disciplines out into the public as a

243

00:13:21,900 --> 00:13:19,089

form of education so it's not just

244

00:13:25,110 --> 00:13:21,910

trapped behind the scenes in a lab well

245

00:13:27,389 --> 00:13:25,120

I really felt this was important and

246

00:13:30,960 --> 00:13:27,399

some of the work that I had participated

247

00:13:33,300 --> 00:13:30,970

in with this community college research

248

00:13:35,879 --> 00:13:33,310

organization it just it was so

249

00:13:39,319 --> 00:13:35,889

meaningful one summer in particular we

250

00:13:41,269 --> 00:13:39,329

worked with disadvantaged young people

251  
00:13:43,920 --> 00:13:41,279  
adolescents that you know came from

252  
00:13:47,160 --> 00:13:43,930  
troubled backgrounds and something that

253  
00:13:49,590 --> 00:13:47,170  
we did was we we took them out and we

254  
00:13:51,749 --> 00:13:49,600  
started in in urban archaeology we went

255  
00:13:53,990 --> 00:13:51,759  
through and looked at you know this was

256  
00:13:57,150 --> 00:13:54,000  
in downtown Cleveland so we looked at

257  
00:14:00,869 --> 00:13:57,160  
different sites and we did research into

258  
00:14:02,579 --> 00:14:00,879  
you know maps and we located spots we

259  
00:14:04,829 --> 00:14:02,589  
surveyed sites we did ground-penetrating

260  
00:14:06,720 --> 00:14:04,839  
radar and we got the kids actively

261  
00:14:09,960 --> 00:14:06,730  
involved and not only the research but

262  
00:14:14,129 --> 00:14:09,970  
the actual excavation process and it was

263  
00:14:15,960 --> 00:14:14,139

in order to you know not just teach them

264

00:14:17,639 --> 00:14:15,970

hey here's archaeology or try to get

265

00:14:22,499 --> 00:14:17,649

them interested but just to have a more

266

00:14:25,170 --> 00:14:22,509

a tangible relationship with their

267

00:14:29,340 --> 00:14:25,180

community so that they felt more of a

268

00:14:31,049 --> 00:14:29,350

connection to their history and the

269

00:14:32,069 --> 00:14:31,059

history of their community so that they

270

00:14:35,249 --> 00:14:32,079

could take pride in that

271

00:14:37,559 --> 00:14:35,259

and so it was like yes we found some

272

00:14:40,139 --> 00:14:37,569

really interesting artifacts because

273

00:14:41,910 --> 00:14:40,149

even urban archeology and historical

274

00:14:44,400 --> 00:14:41,920

archaeology though it doesn't go back so

275

00:14:46,639 --> 00:14:44,410

so far in the past you can really find

276

00:14:50,509 --> 00:14:46,649

some interesting you know things but

277

00:14:53,340 --> 00:14:50,519

mostly what it was was rewarding to see

278

00:14:55,290 --> 00:14:53,350

don't work with the public the public

279

00:14:56,970 --> 00:14:55,300

instead of just here we're doing our

280

00:15:00,509 --> 00:14:56,980

research we're publishing our papers and

281

00:15:02,100 --> 00:15:00,519

story and so I really put my heart into

282

00:15:03,689 --> 00:15:02,110

that and you know I was a bit younger

283

00:15:07,460 --> 00:15:03,699

and more

284

00:15:11,490 --> 00:15:07,470

I don't know rose-colored glasses and so

285

00:15:13,799 --> 00:15:11,500

we eye being that it was a small

286

00:15:15,420 --> 00:15:13,809

organization I had to do a lot more than

287

00:15:18,329 --> 00:15:15,430

just some digging and lab work and

288

00:15:21,540 --> 00:15:18,339

instruction I had to also research you

289

00:15:24,449 --> 00:15:21,550

know grant opportunities and that type

290

00:15:26,280 --> 00:15:24,459

of thing so it occurred to me that we

291

00:15:27,180 --> 00:15:26,290

were taking a lot of money we were

292

00:15:31,350 --> 00:15:27,190

bringing in a whole

293

00:15:33,000 --> 00:15:31,360

money and not a whole lot of work was

294

00:15:35,100 --> 00:15:33,010

being done and we did some major

295

00:15:37,140 --> 00:15:35,110

projects but for the for the amount of

296

00:15:40,230 --> 00:15:37,150

time we spent raising money it just

297

00:15:42,270 --> 00:15:40,240

seemed kind of you know unbalanced to me

298

00:15:44,250 --> 00:15:42,280

but I still just thought well you know

299

00:15:45,870 --> 00:15:44,260

we're working on some projects so you

300

00:15:48,960 --> 00:15:45,880

know we would meet some of the directors

301

00:15:51,090 --> 00:15:48,970

would meet and there would be lots of

302

00:15:54,060 --> 00:15:51,100

meetings and very nice restaurants

303

00:15:56,730 --> 00:15:54,070

drinks all around and good times to be

304

00:15:59,160 --> 00:15:56,740

had for all and you know as much fun as

305

00:16:00,210 --> 00:15:59,170

he could imagine some professors having

306

00:16:05,780 --> 00:16:00,220

I suppose so

307

00:16:08,330 --> 00:16:05,790

you know we we we would go to some nice

308

00:16:10,320 --> 00:16:08,340

banquets and dinners and fundraising

309

00:16:13,260 --> 00:16:10,330

opportunities here with you know the

310

00:16:15,240 --> 00:16:13,270

era's chocolate fountains and big lavish

311

00:16:17,880 --> 00:16:15,250

displays of things and it just felt

312

00:16:19,530 --> 00:16:17,890

really I don't know it just I I

313

00:16:21,830 --> 00:16:19,540

understand fundraising I've worked with

314

00:16:24,780 --> 00:16:21,840

a lot of nonprofits main stream

315

00:16:27,120 --> 00:16:24,790

nonprofits big big ones like the Cancer

316

00:16:29,040 --> 00:16:27,130

Society and that I volunteered on their

317

00:16:31,410 --> 00:16:29,050

boards and so I'm familiar with

318

00:16:33,660 --> 00:16:31,420

fundraising how important it is to put

319

00:16:37,130 --> 00:16:33,670

on these types of events but we're

320

00:16:41,180 --> 00:16:37,140

talking big events in a very small scale

321

00:16:43,740 --> 00:16:41,190

institution with very small goals and I

322

00:16:48,270 --> 00:16:43,750

it just wasn't sitting well with me well

323

00:16:50,190 --> 00:16:48,280

one you know one evening the director

324

00:16:55,040 --> 00:16:50,200

the lead anthropologist on the project

325

00:16:58,050 --> 00:16:55,050

he was just you know quite tipsy and I

326

00:16:59,820 --> 00:16:58,060

say we were talking about some things in

327

00:17:01,950 --> 00:16:59,830

the school the local school the

328

00:17:05,069 --> 00:17:01,960

Community College had just passed a levy

329

00:17:07,050 --> 00:17:05,079

because it's a state school so they just

330

00:17:09,179 --> 00:17:07,060

passed a levy for more funding so

331

00:17:12,750 --> 00:17:09,189

everyone was so happy they got money

332

00:17:13,980 --> 00:17:12,760

every money's flowing and I thought well

333

00:17:15,870 --> 00:17:13,990

here we get to move on some of these

334

00:17:18,480 --> 00:17:15,880

projects that we had you know kind of in

335

00:17:21,390 --> 00:17:18,490

the works and so you know I bring this

336

00:17:23,250 --> 00:17:21,400

up and I had made the comment you know

337

00:17:27,420 --> 00:17:23,260

I'd like to give back to the community

338

00:17:31,860 --> 00:17:27,430

that caused some belly laughs and I was

339

00:17:35,580 --> 00:17:31,870

not prepared for that and he said he

340

00:17:38,669 --> 00:17:35,590

said specifically you know why would you

341

00:17:41,010 --> 00:17:38,679

do that are you really thinking we're

342

00:17:42,600 --> 00:17:41,020

trying to do something good

343

00:17:45,480 --> 00:17:42,610

he just sort of questioned me on this

344

00:17:48,390 --> 00:17:45,490

and just he looked at me just blankly

345

00:17:52,200 --> 00:17:48,400

and I I was confused because I knew he

346

00:17:53,670 --> 00:17:52,210

was a little bit you know tipsy but I

347

00:17:54,000 --> 00:17:53,680

thought surely you understand what I'm

348

00:17:56,550 --> 00:17:54,010

saying

349

00:17:58,680 --> 00:17:56,560

so I said no I I you know we're doing

350

00:18:00,360 --> 00:17:58,690

all these grants we're trying to do all

351

00:18:02,580 --> 00:18:00,370

this and he's like listen I'm gonna let

352

00:18:04,500 --> 00:18:02,590

you in on how this works because he sort

353

00:18:07,140 --> 00:18:04,510

of looked at me he was he was about to

354

00:18:10,640 --> 00:18:07,150

retire from his tenured position he was

355

00:18:14,220 --> 00:18:10,650

going to stay on as a consultant to the

356

00:18:17,130 --> 00:18:14,230

research organization so he was trying

357

00:18:18,570 --> 00:18:17,140

to sort of advise me on some things and

358

00:18:21,000 --> 00:18:18,580

help me out along the way which you know

359

00:18:22,980 --> 00:18:21,010

I was grateful for so he looked at this

360

00:18:26,850 --> 00:18:22,990

as an opportunity let's say a teachable

361

00:18:28,320 --> 00:18:26,860

moment so he said to me you know this is

362

00:18:31,590 --> 00:18:28,330

what we're trying to do we're trying to

363

00:18:33,480 --> 00:18:31,600

keep our lab open he's like you want the

364

00:18:35,280 --> 00:18:33,490

lab open don't you and I was like well

365

00:18:37,680 --> 00:18:35,290

of course I want the lab open and he

366

00:18:39,660 --> 00:18:37,690

said well we want the lab open in that

367

00:18:42,960 --> 00:18:39,670

heat when he said lab he was meaning the

368

00:18:44,460 --> 00:18:42,970

the physical location of the lab not the

369

00:18:47,730 --> 00:18:44,470

work that was going on he's like well we

370

00:18:50,730 --> 00:18:47,740

want the lab open so we have someplace

371

00:18:53,670 --> 00:18:50,740

to hide from these students do you think

372

00:18:56,250 --> 00:18:53,680

we want to teach these people all day no

373

00:18:58,950 --> 00:18:56,260

we want to go and have someplace to be

374

00:19:01,770 --> 00:18:58,960

and I said okay you know laughs laughs

375

00:19:03,660 --> 00:19:01,780

and he said no what you'll get to learn

376

00:19:05,850 --> 00:19:03,670

is that what we're doing is trying to

377

00:19:08,730 --> 00:19:05,860

find money so that we have jobs you have

378

00:19:12,420 --> 00:19:08,740

to secure your own salaries which I was

379

00:19:15,480 --> 00:19:12,430

aware of but what I saw before me was

380

00:19:18,180 --> 00:19:15,490

not this reasonable effort to secure a

381

00:19:20,760 --> 00:19:18,190

reasonable salary and then do you know

382

00:19:23,640 --> 00:19:20,770

reputable work and respectable things it

383

00:19:26,310 --> 00:19:23,650

was let's see how much more bloated we

384

00:19:28,890 --> 00:19:26,320

can make the administration and you know

385

00:19:30,660 --> 00:19:28,900

we'll do these projects on the side and

386

00:19:32,520 --> 00:19:30,670

and I said well what about this project

387

00:19:34,260 --> 00:19:32,530

and what about this one and they said oh

388

00:19:37,110 --> 00:19:34,270

well we're not really doing those but we

389

00:19:38,700 --> 00:19:37,120

have to we have to meet on those and

390

00:19:42,930 --> 00:19:38,710

make reports about those in order to

391

00:19:45,210 --> 00:19:42,940

stay good with the you know grant money

392

00:19:47,520 --> 00:19:45,220

and you know we have to be deeds reports

393

00:19:49,350 --> 00:19:47,530

and everything and I was like so we

394

00:19:51,510 --> 00:19:49,360

never we're not gonna actually do these

395

00:19:53,820 --> 00:19:51,520

things and he's like not if I can help

396

00:19:54,570 --> 00:19:53,830

it haha that just was laughter all

397

00:19:58,529 --> 00:19:54,580

around and

398

00:20:00,120 --> 00:19:58,539

you know that wasn't they worked this is

399

00:20:01,649 --> 00:20:00,130

not an excuse but they weren't doing

400

00:20:05,610 --> 00:20:01,659

anything that would really affect

401  
00:20:07,500 --> 00:20:05,620  
anybody on a grand scale this was a this

402  
00:20:08,850 --> 00:20:07,510  
is a it's not actually a small community

403  
00:20:11,880 --> 00:20:08,860  
college it's the largest community

404  
00:20:13,529 --> 00:20:11,890  
college system in Ohio so I mean any

405  
00:20:15,149 --> 00:20:13,539  
listener can kind of google that and

406  
00:20:21,480 --> 00:20:15,159  
find out which one I'm talking about but

407  
00:20:24,509 --> 00:20:21,490  
it's the it's the fact that that

408  
00:20:26,340 --> 00:20:24,519  
corruption was there that everybody was

409  
00:20:28,590 --> 00:20:26,350  
on board with it and that the whole

410  
00:20:31,080 --> 00:20:28,600  
project and it was a culture of

411  
00:20:34,230 --> 00:20:31,090  
corruption and here I was in the middle

412  
00:20:35,940 --> 00:20:34,240  
of this culture of corruption and I just

413  
00:20:38,669 --> 00:20:35,950

didn't like it it just to say the least

414

00:20:40,710 --> 00:20:38,679

I felt like a hypocrite I felt like a

415

00:20:44,129 --> 00:20:40,720

hypocrite because in the at the same

416

00:20:48,320 --> 00:20:44,139

time in my personal research I was

417

00:20:51,779 --> 00:20:48,330

coming across evidence of corruption in

418

00:20:54,240 --> 00:20:51,789

research on such a large scale so here I

419

00:20:56,759 --> 00:20:54,250

was trying to sort of be a watchdog or

420

00:20:58,950 --> 00:20:56,769

an advocate for corruption on a larger

421

00:21:00,629 --> 00:20:58,960

scale but I was involved in working with

422

00:21:01,289 --> 00:21:00,639

an institution that was involved in

423

00:21:04,080 --> 00:21:01,299

corruption

424

00:21:06,570 --> 00:21:04,090

on a small scale so it run it didn't

425

00:21:07,950 --> 00:21:06,580

work so I look you know you're you were

426  
00:21:11,580 --> 00:21:07,960  
really passionate about the public

427  
00:21:15,600 --> 00:21:11,590  
education side and teaching people you

428  
00:21:17,879 --> 00:21:15,610  
know about these things and and yeah

429  
00:21:21,659 --> 00:21:17,889  
that wasn't really one of the goals that

430  
00:21:23,669 --> 00:21:21,669  
had no it was quite the opposite I was

431  
00:21:26,009 --> 00:21:23,679  
surprised to find that they were looking

432  
00:21:29,360 --> 00:21:26,019  
at the lab as an opportunity to

433  
00:21:31,919 --> 00:21:29,370  
literally hide from students which yeah

434  
00:21:34,320 --> 00:21:31,929  
yeah well you know I think there's a

435  
00:21:38,820 --> 00:21:34,330  
little bit of that in you anywhere you

436  
00:21:42,180 --> 00:21:38,830  
go in and I know that is also you know

437  
00:21:46,409 --> 00:21:42,190  
prevalent and other Sciences you know in

438  
00:21:49,009 --> 00:21:46,419

in the field of academia so it's it's a

439

00:21:52,560 --> 00:21:49,019

little it's a little problematic because

440

00:21:56,149 --> 00:21:52,570

you know it can't it shouldn't just be

441

00:22:00,539 --> 00:21:56,159

about a job it really should be about

442

00:22:03,450 --> 00:22:00,549

passing on what we have learned to the

443

00:22:06,360 --> 00:22:03,460

next generation coming up and that's the

444

00:22:08,010 --> 00:22:06,370

students you know and and they really

445

00:22:11,390 --> 00:22:08,020

need to know I

446

00:22:15,240 --> 00:22:11,400

think the bigger picture and too often I

447

00:22:21,900 --> 00:22:15,250

think we give them a very narrow window

448

00:22:24,000 --> 00:22:21,910

of ideas and we don't let them think we

449

00:22:26,970 --> 00:22:24,010

tell them how to think we don't teach

450

00:22:30,600 --> 00:22:26,980

them how to think and I think there's a

451  
00:22:33,060 --> 00:22:30,610  
big issue with that but we know when

452  
00:22:36,240 --> 00:22:33,070  
that when we're when we're we're talking

453  
00:22:38,940 --> 00:22:36,250  
about archaeology obviously you know

454  
00:22:41,070 --> 00:22:38,950  
this is a passion you became a little

455  
00:22:44,490 --> 00:22:41,080  
disillusioned with with this you know

456  
00:22:47,940 --> 00:22:44,500  
and and so you know that led you to kind

457  
00:22:51,030 --> 00:22:47,950  
of do some you know some some other

458  
00:22:54,690 --> 00:22:51,040  
things as far as a career path but what

459  
00:22:58,070 --> 00:22:54,700  
was what was a big what was a big thing

460  
00:23:01,230 --> 00:22:58,080  
the first big thing that that kind of

461  
00:23:03,750 --> 00:23:01,240  
kind of got your attention and said wait

462  
00:23:07,440 --> 00:23:03,760  
a minute this isn't what I was taught in

463  
00:23:10,740 --> 00:23:07,450

school something something is is odd

464

00:23:13,200 --> 00:23:10,750

about this and I can't really put my

465

00:23:15,120 --> 00:23:13,210

finger on it but but there's something

466

00:23:17,640 --> 00:23:15,130

here to this and why haven't I ever

467

00:23:19,800 --> 00:23:17,650

heard about this before what was that

468

00:23:21,810 --> 00:23:19,810

one artifact or that one site or

469

00:23:23,730 --> 00:23:21,820

whatever it was what was that one thing

470

00:23:25,260 --> 00:23:23,740

for you that really got your attention

471

00:23:27,690 --> 00:23:25,270

and and made you start thinking about

472

00:23:29,250 --> 00:23:27,700

the bigger picture in archaeology you

473

00:23:30,870 --> 00:23:29,260

know that's that's a great question

474

00:23:32,220 --> 00:23:30,880

thank you for that one that's that's one

475

00:23:35,280 --> 00:23:32,230

of the best questions I think I've been

476

00:23:38,100 --> 00:23:35,290

asked because this is there is sort of a

477

00:23:40,230 --> 00:23:38,110

an aha moment where you're just like you

478

00:23:42,750 --> 00:23:40,240

know something's not right here so yes

479

00:23:45,420 --> 00:23:42,760

it goes beyond things like my personal

480

00:23:47,100 --> 00:23:45,430

beef with you know individuals over you

481

00:23:49,410 --> 00:23:47,110

know what I deemed to be a corrupted

482

00:23:53,520 --> 00:23:49,420

institution or or what have you in terms

483

00:23:55,770 --> 00:23:53,530

of the research aspect there is a

484

00:23:58,830 --> 00:23:55,780

difference between what you are taught

485

00:24:00,780 --> 00:23:58,840

in primary school and what you are

486

00:24:03,150 --> 00:24:00,790

taught in college and then what you can

487

00:24:08,400 --> 00:24:03,160

later find out so we're talking you know

488

00:24:11,760 --> 00:24:08,410

multiple sources with different inputs

489

00:24:15,720 --> 00:24:11,770

it's it's astonishing I found this to be

490

00:24:17,430 --> 00:24:15,730

a wake-up call for not just me but a lot

491

00:24:20,460 --> 00:24:17,440

of just incoming freshmen in college

492

00:24:21,870 --> 00:24:20,470

when you're taught different things that

493

00:24:24,180 --> 00:24:21,880

just they didn't

494

00:24:26,010 --> 00:24:24,190

didn't go right like let me give you an

495

00:24:29,130 --> 00:24:26,020

example of this particular instance

496

00:24:31,350 --> 00:24:29,140

things like Columbus you know your kid

497

00:24:33,210 --> 00:24:31,360

in 1492 Columbus sailed the ocean blue

498

00:24:35,630 --> 00:24:33,220

and he's a hero hurray we have a day for

499

00:24:37,740 --> 00:24:35,640

him right he discovered America right

500

00:24:40,110 --> 00:24:37,750

absolutely not this is the silliest

501  
00:24:41,490 --> 00:24:40,120  
thing and he get into college and then

502  
00:24:43,740 --> 00:24:41,500  
you learn the real truth about who

503  
00:24:46,230 --> 00:24:43,750  
Christopher Columbus was where he was

504  
00:24:49,050 --> 00:24:46,240  
from and just things like that so it

505  
00:24:51,660 --> 00:24:49,060  
isn't even so much as this this hidden

506  
00:24:54,090 --> 00:24:51,670  
knowledge that some people you know have

507  
00:24:56,970 --> 00:24:54,100  
stumbled upon it's its knowledge that's

508  
00:24:59,610 --> 00:24:56,980  
hidden from our general public schools

509  
00:25:02,400 --> 00:24:59,620  
or primary schools or even you know some

510  
00:25:06,030 --> 00:25:02,410  
private schools it's you're taught this

511  
00:25:08,490 --> 00:25:06,040  
historic narrative when you're young in

512  
00:25:11,310 --> 00:25:08,500  
your formative years and if you are

513  
00:25:13,170 --> 00:25:11,320

lucky enough to get to college your mind

514

00:25:14,970 --> 00:25:13,180

is blown because there will be a lot of

515

00:25:16,950 --> 00:25:14,980

times where you start learning that they

516

00:25:19,320 --> 00:25:16,960

this now forget all that let's get into

517

00:25:21,630 --> 00:25:19,330

the real the real information and that's

518

00:25:23,520 --> 00:25:21,640

still not all the real information but

519

00:25:26,280 --> 00:25:23,530

it is a world away from what you're

520

00:25:29,310 --> 00:25:26,290

taught in school and when you're young

521

00:25:31,470 --> 00:25:29,320

you listen to the teachers especially in

522

00:25:34,170 --> 00:25:31,480

history and those types of subjects it's

523

00:25:36,600 --> 00:25:34,180

all rote memorization you have to just

524

00:25:38,340 --> 00:25:36,610

learn the dates of this and the names of

525

00:25:41,210 --> 00:25:38,350

that and that's pretty much it you're

526  
00:25:45,990 --> 00:25:41,220  
not engaged in the process history is

527  
00:25:50,010 --> 00:25:46,000  
not a study of just pre-existing facts

528  
00:25:53,630 --> 00:25:50,020  
to memorize there are debates currently

529  
00:25:56,850 --> 00:25:53,640  
going on in mainline historical research

530  
00:26:00,330 --> 00:25:56,860  
over things that are taught now in

531  
00:26:03,390 --> 00:26:00,340  
school as fact so what we don't learn is

532  
00:26:07,230 --> 00:26:03,400  
that history and the study of the past

533  
00:26:10,680 --> 00:26:07,240  
is an ever changing topic it's fluid and

534  
00:26:12,810 --> 00:26:10,690  
it also has to do with who is the writer

535  
00:26:17,610 --> 00:26:12,820  
of that history I wouldn't want to run

536  
00:26:20,970 --> 00:26:17,620  
anybody to to research look up

537  
00:26:23,340 --> 00:26:20,980  
historiography it sounds like a \$5 word

538  
00:26:25,350 --> 00:26:23,350

but it's an important word in the

539

00:26:28,800 --> 00:26:25,360

academic study of the past it's not

540

00:26:31,470 --> 00:26:28,810

history it's the history of history who

541

00:26:34,500 --> 00:26:31,480

makes history it sounds a little bit you

542

00:26:35,670 --> 00:26:34,510

know meta but it is in fact an important

543

00:26:37,320 --> 00:26:35,680

thing to consider that they

544

00:26:39,540 --> 00:26:37,330

don't talk about when you're in your

545

00:26:41,490 --> 00:26:39,550

formative years that's not unless you

546

00:26:43,620 --> 00:26:41,500

get into the higher disciplines and they

547

00:26:45,930 --> 00:26:43,630

start saying alright let's really talk

548

00:26:48,960 --> 00:26:45,940

about who are the history writers you

549

00:26:50,430 --> 00:26:48,970

know because again might one of my

550

00:26:52,650 --> 00:26:50,440

favorite quotes I think I have on my

551

00:26:55,530 --> 00:26:52,660

website it's you know Napoleon it's

552

00:26:58,890 --> 00:26:55,540

usually attributed to him it's what is

553

00:26:59,820 --> 00:26:58,900

history but a fable agreed upon that's

554

00:27:02,760 --> 00:26:59,830

the truth

555

00:27:06,780 --> 00:27:02,770

we don't have concrete knowledge of our

556

00:27:09,930 --> 00:27:06,790

past as archaeologists as historians we

557

00:27:12,000 --> 00:27:09,940

have snippets that we have to fill in

558

00:27:14,640 --> 00:27:12,010

the blanks to the best of our ability

559

00:27:17,280 --> 00:27:14,650

using whatever evidence we have and then

560

00:27:20,160 --> 00:27:17,290

that's gonna be in a cloud of bias to

561

00:27:21,960 --> 00:27:20,170

whomever it was that is deciphering this

562

00:27:24,690 --> 00:27:21,970

information which is why it's important

563

00:27:26,880 --> 00:27:24,700

to have peer review and empirical

564

00:27:29,580 --> 00:27:26,890

research and a dialectic so that we can

565

00:27:33,030 --> 00:27:29,590

kind of try our best to weed out our own

566

00:27:35,790 --> 00:27:33,040

personal biases and this is a process

567

00:27:38,160 --> 00:27:35,800

this is the process that goes on but

568

00:27:39,300 --> 00:27:38,170

when you are say in fifth grade and

569

00:27:40,710 --> 00:27:39,310

you're just taught well this is what

570

00:27:42,540 --> 00:27:40,720

happened on this date that's what

571

00:27:44,790 --> 00:27:42,550

happened on that date case closed

572

00:27:48,240 --> 00:27:44,800

go memorize this and never question it

573

00:27:51,990 --> 00:27:48,250

again that's wrong and so when I got to

574

00:27:53,430 --> 00:27:52,000

be older this is a very small thing but

575

00:27:55,470 --> 00:27:53,440

it was one of those things that just

576

00:27:59,400 --> 00:27:55,480

kind of left me with my mouth hanging

577

00:28:01,950 --> 00:27:59,410

open for a while I was in a class and

578

00:28:05,490 --> 00:28:01,960

the teeth the professor had mentioned

579

00:28:08,370 --> 00:28:05,500

how you know that we were talking about

580

00:28:10,380 --> 00:28:08,380

Roman concrete and how important and

581

00:28:12,960 --> 00:28:10,390

different that was and how the recipe

582

00:28:16,050 --> 00:28:12,970

for it had actually been lost to history

583

00:28:19,950 --> 00:28:16,060

and forever people have tried to come up

584

00:28:22,620 --> 00:28:19,960

with what what is Roman concrete why is

585

00:28:24,720 --> 00:28:22,630

it that our concrete just crumbles after

586

00:28:27,060 --> 00:28:24,730

so long our infrastructures crumbling

587

00:28:29,910 --> 00:28:27,070

everything's falling apart well why is

588

00:28:32,100 --> 00:28:29,920

it that you know Roman roads are still

589

00:28:34,770 --> 00:28:32,110

used things that the Romans made with

590

00:28:36,180 --> 00:28:34,780

their concrete are they sit in water

591

00:28:37,950 --> 00:28:36,190

they're waterlogged yet they're just

592

00:28:39,390 --> 00:28:37,960

they're better than what we could make

593

00:28:42,150 --> 00:28:39,400

now why is that

594

00:28:44,190 --> 00:28:42,160

and what's the recipe and why don't we

595

00:28:47,270 --> 00:28:44,200

still know it and and it just seems so

596

00:28:49,450 --> 00:28:47,280

small there have been efforts to

597

00:28:51,970 --> 00:28:49,460

recreate Roman concrete

598

00:28:53,769 --> 00:28:51,980

I've gotten close actually more recently

599

00:28:56,560 --> 00:28:53,779

they they they feel they pretty much

600

00:28:58,360 --> 00:28:56,570

have it but I heard that yeah but at the

601  
00:29:00,370 --> 00:28:58,370  
time that you know I was learning this

602  
00:29:01,990 --> 00:29:00,380  
this was before they really kind of you

603  
00:29:04,360 --> 00:29:02,000  
know nailed it but that's what was

604  
00:29:06,490 --> 00:29:04,370  
interesting to me is you know there are

605  
00:29:07,930 --> 00:29:06,500  
still mysteries there are still things

606  
00:29:09,880 --> 00:29:07,940  
and we have a lot to learn from the

607  
00:29:12,220 --> 00:29:09,890  
Ancients things that are what we would

608  
00:29:15,100 --> 00:29:12,230  
deem simple and something like the

609  
00:29:17,649 --> 00:29:15,110  
Antikythera mechanism you know the

610  
00:29:21,070 --> 00:29:17,659  
world's first or oldest computer that we

611  
00:29:24,070 --> 00:29:21,080  
know of those types of interesting

612  
00:29:26,760 --> 00:29:24,080  
objects I mean that that tells me that

613  
00:29:30,580 --> 00:29:26,770

there was more to the past more to the

614

00:29:32,409 --> 00:29:30,590

ancients than we you know then we give

615

00:29:36,460 --> 00:29:32,419

them credit so I think the whole roaming

616

00:29:39,130 --> 00:29:36,470

concrete thing was the first time that I

617

00:29:41,529 --> 00:29:39,140

was ever taught hey you know it's not

618

00:29:44,769 --> 00:29:41,539

that there are things we still have yet

619

00:29:46,570 --> 00:29:44,779

to know and so yeah I just thought that

620

00:29:49,289 --> 00:29:46,580

was very interesting and there's a lot

621

00:29:51,310 --> 00:29:49,299

that we need to know and still cover

622

00:29:53,610 --> 00:29:51,320

Heather we're going to be right back

623

00:29:56,409 --> 00:29:53,620

here on the program after a short break

624

00:29:58,269 --> 00:29:56,419

with dr. heather Lynn the Cimmerian

625

00:30:01,389 --> 00:29:58,279

controversy right here on epic voyages

626  
00:30:03,490 --> 00:30:01,399  
and welcome back to epic voyages radio I

627  
00:30:05,590 --> 00:30:03,500  
am average with our special guest

628  
00:30:10,029 --> 00:30:05,600  
tonight dr. heather Lynn the Cimmerian

629  
00:30:13,480 --> 00:30:10,039  
controversy a special report if you're

630  
00:30:18,010 --> 00:30:13,490  
interested go to the live chat room at

631  
00:30:21,580 --> 00:30:18,020  
inception radio network calm hit the the

632  
00:30:23,740 --> 00:30:21,590  
chat button there on the icon on the

633  
00:30:28,269 --> 00:30:23,750  
website and then that'll take you right

634  
00:30:30,250 --> 00:30:28,279  
into the chat room you can interact with

635  
00:30:32,919 --> 00:30:30,260  
other listeners type your questions

636  
00:30:35,320 --> 00:30:32,929  
better yet tell in with your question

637  
00:30:39,010 --> 00:30:35,330  
for dr. heather Lynn one triple eight

638  
00:30:41,019 --> 00:30:39,020

nine one nine two three five five one

639

00:30:45,010 --> 00:30:41,029

triple eight nine one nine two three

640

00:30:51,039 --> 00:30:45,020

five five and we'll take your call

641

00:30:54,100 --> 00:30:51,049

comments on the air for dr. Lynn dr.

642

00:30:57,510 --> 00:30:54,110

lane we were talking about you know how

643

00:31:00,190 --> 00:30:57,520

he got involved in archaeology and then

644

00:31:03,190 --> 00:31:00,200

he wrote a book called the Sumerian

645

00:31:06,490 --> 00:31:03,200

controversy a special report tell us

646

00:31:13,629 --> 00:31:06,500

a little bit about your book and why is

647

00:31:18,279 --> 00:31:13,639

it a controversy well in March of last

648

00:31:21,070 --> 00:31:18,289

year I checked my facebook I have a lot

649

00:31:23,860 --> 00:31:21,080

of followers and I post a lot of general

650

00:31:26,110 --> 00:31:23,870

news about archaeology and this that and

651  
00:31:27,730 --> 00:31:26,120  
I you know I get a lot of messages and

652  
00:31:33,009 --> 00:31:27,740  
so I was looking through my messages and

653  
00:31:36,490 --> 00:31:33,019  
I got one from somebody who seemed

654  
00:31:37,210 --> 00:31:36,500  
really desperate they were asking for

655  
00:31:38,740 --> 00:31:37,220  
help

656  
00:31:40,960 --> 00:31:38,750  
they said they had knowledge of

657  
00:31:43,960 --> 00:31:40,970  
artifacts that had been found at a site

658  
00:31:46,480 --> 00:31:43,970  
called tel Khyber and Iraq

659  
00:31:49,450 --> 00:31:46,490  
they said they had been taking bags of

660  
00:31:51,549 --> 00:31:49,460  
artifacts away and in all caps they were

661  
00:31:54,490 --> 00:31:51,559  
saying this is our heritage please help

662  
00:31:56,409 --> 00:31:54,500  
you what can we do and and they were

663  
00:31:59,820 --> 00:31:56,419

saying something about prophet it we got

664

00:32:04,480 --> 00:31:59,830

very poetic and and a little disjointed

665

00:32:06,250 --> 00:32:04,490

and I thought wow this is interesting I

666

00:32:08,980 --> 00:32:06,260

tend to get a lot of interesting

667

00:32:12,159 --> 00:32:08,990

messages but this one I guess the sense

668

00:32:16,120 --> 00:32:12,169

of urgency had me intrigued and and I

669

00:32:18,070 --> 00:32:16,130

felt kind of bad so I tried to click on

670

00:32:19,930 --> 00:32:18,080

his profile and say you know can I have

671

00:32:22,389 --> 00:32:19,940

some more information but his profile

672

00:32:24,129 --> 00:32:22,399

was private and so I thought well I

673

00:32:26,049 --> 00:32:24,139

don't know it just seemed kind of like a

674

00:32:29,710 --> 00:32:26,059

loss I tried to Google what he was

675

00:32:31,870 --> 00:32:29,720

talking about but I think maybe he

676

00:32:34,090 --> 00:32:31,880

didn't spell it right something so I

677

00:32:35,830 --> 00:32:34,100

didn't know what to do is something

678

00:32:37,840 --> 00:32:35,840

stuck with me about it though it just

679

00:32:40,690 --> 00:32:37,850

seemed really intriguing and I couldn't

680

00:32:43,090 --> 00:32:40,700

stop thinking about it so you know I I

681

00:32:45,960 --> 00:32:43,100

did research and still couldn't find

682

00:32:50,110 --> 00:32:45,970

anything and it was interesting because

683

00:32:54,039 --> 00:32:50,120

probably I don't know a couple days

684

00:32:56,740 --> 00:32:54,049

afterwards I got a Google Alert on my

685

00:32:58,529 --> 00:32:56,750

phone telling me about a news release

686

00:33:01,629 --> 00:32:58,539

from the Christian Science Monitor

687

00:33:03,909 --> 00:33:01,639

talking about the site tell Kyra that

688

00:33:06,850 --> 00:33:03,919

yeah it had been spelled differently in

689

00:33:09,190 --> 00:33:06,860

the message so I thought oh this was

690

00:33:11,139 --> 00:33:09,200

what he was talking about so you know I

691

00:33:13,840 --> 00:33:11,149

looked at the story from the Christian

692

00:33:15,490 --> 00:33:13,850

Science Monitor and it seemed pretty

693

00:33:16,360 --> 00:33:15,500

straightforward I didn't see any reason

694

00:33:19,450 --> 00:33:16,370

that it and

695

00:33:20,919 --> 00:33:19,460

would cause anyone to contact me and I

696

00:33:22,720 --> 00:33:20,929

don't know why they would really contact

697

00:33:24,899 --> 00:33:22,730

me because it's not like I could really

698

00:33:27,070 --> 00:33:24,909

go there and do anything about it I

699

00:33:30,909 --> 00:33:27,080

unless I was just his only point of

700

00:33:32,500 --> 00:33:30,919

contact maybe so you know I was sort of

701  
00:33:36,630 --> 00:33:32,510  
at a loss oh I'm looking at this news

702  
00:33:40,539 --> 00:33:36,640  
article and it wasn't extraordinarily

703  
00:33:42,130 --> 00:33:40,549  
important fine so I can understand why

704  
00:33:47,470 --> 00:33:42,140  
there was a lot of excitement the

705  
00:33:49,899 --> 00:33:47,480  
discovery was near her and this is a

706  
00:33:52,930 --> 00:33:49,909  
really big deal because it was the first

707  
00:33:54,000 --> 00:33:52,940  
foreign excavation at the site and since

708  
00:33:56,740 --> 00:33:54,010  
the 1930s

709  
00:34:00,430 --> 00:33:56,750  
so the and that's referring to the last

710  
00:34:02,889 --> 00:34:00,440  
major excavation which was at her itself

711  
00:34:04,750 --> 00:34:02,899  
so this was quite a big deal that

712  
00:34:08,649 --> 00:34:04,760  
anybody was even there

713  
00:34:10,329 --> 00:34:08,659

excavating to begin with and it was

714

00:34:12,760 --> 00:34:10,339

there were no Americans involved it was

715

00:34:15,190 --> 00:34:12,770

a team of British archaeologists and

716

00:34:18,730 --> 00:34:15,200

what year was this this was in this was

717

00:34:21,270 --> 00:34:18,740

last year and in 2013 it sort of went

718

00:34:23,680 --> 00:34:21,280

under the radar it was just you know

719

00:34:26,859 --> 00:34:23,690

only where the press release went out

720

00:34:31,270 --> 00:34:26,869

and it was picked up by a couple of new

721

00:34:33,399 --> 00:34:31,280

sources so but this was big news as so I

722

00:34:36,070 --> 00:34:33,409

thought because again that there had

723

00:34:39,369 --> 00:34:36,080

been no other excavation in and around

724

00:34:42,430 --> 00:34:39,379

that area since the 1930s since Sir

725

00:34:44,440 --> 00:34:42,440

Charles Leonard Woolley had been there

726

00:34:50,440 --> 00:34:44,450

you know discovering most of what we

727

00:34:54,399 --> 00:34:50,450

know of no yes Olli so you know it after

728

00:34:57,370 --> 00:34:54,409

the 1950's revolution it it put it off

729

00:34:59,410 --> 00:34:57,380

limits to foreign archaeologists for 60

730

00:35:01,839 --> 00:34:59,420

years so every day was huge it was a

731

00:35:05,050 --> 00:35:01,849

huge news story for archaeology and

732

00:35:07,180 --> 00:35:05,060

science so you know and and you know you

733

00:35:10,270 --> 00:35:07,190

say Oh wooly he was an interesting

734

00:35:12,849 --> 00:35:10,280

character you know he by today's

735

00:35:15,190 --> 00:35:12,859

standards he would have been considered

736

00:35:17,490 --> 00:35:15,200

an amateur and and not even been

737

00:35:22,180 --> 00:35:17,500

permitted to research let alone excavate

738

00:35:25,839 --> 00:35:22,190

but he found treasures that rivaled King

739

00:35:28,750 --> 00:35:25,849

Tut's tomb I mean he he really made huge

740

00:35:30,160 --> 00:35:28,760

discoveries and was very important but

741

00:35:34,089 --> 00:35:30,170

again it's just it's

742

00:35:35,829 --> 00:35:34,099

funny because so much is built on you

743

00:35:37,299 --> 00:35:35,839

know credentials and credibility yet he

744

00:35:39,309 --> 00:35:37,309

really didn't have the credentials he

745

00:35:41,620 --> 00:35:39,319

was what back then they kind of looked

746

00:35:44,140 --> 00:35:41,630

at as an antiquarian somebody he just

747

00:35:47,260 --> 00:35:44,150

had a an interest in this kind of thing

748

00:35:49,900 --> 00:35:47,270

so he he did a lot to you know really

749

00:35:52,870 --> 00:35:49,910

bring the idea of Sumerians into our you

750

00:35:56,020 --> 00:35:52,880

know mindset and it was really a field

751

00:35:59,980 --> 00:35:56,030

even back then it was oh yeah

752

00:36:01,990 --> 00:35:59,990

archaeology is such a new field I don't

753

00:36:04,420 --> 00:36:02,000

think people realize how new of a

754

00:36:07,089 --> 00:36:04,430

discipline it is it I mean people looked

755

00:36:10,030 --> 00:36:07,099

in the past for you know they've looked

756

00:36:12,910 --> 00:36:10,040

towards artifacts and things always but

757

00:36:15,130 --> 00:36:12,920

it was sort of just a uh a hobby or an

758

00:36:17,170 --> 00:36:15,140

interest it was never fully looked at as

759

00:36:18,940 --> 00:36:17,180

a discipline until you know fairly

760

00:36:21,910 --> 00:36:18,950

recently and I would argue that being

761

00:36:23,740 --> 00:36:21,920

that we're in the in that in the

762

00:36:25,690 --> 00:36:23,750

beginning stages of data it's not fully

763

00:36:31,569 --> 00:36:25,700

I don't I don't believe that it's still

764

00:36:33,549 --> 00:36:31,579

fully you know formed as a discipline I

765

00:36:35,620 --> 00:36:33,559

think there's still a lot getting put

766

00:36:38,650 --> 00:36:35,630

together there's a lot of differences

767

00:36:40,510 --> 00:36:38,660

between American archaeology and British

768

00:36:42,609 --> 00:36:40,520

archaeology and how we structure it and

769

00:36:45,309 --> 00:36:42,619

what we do and our methods and so I

770

00:36:49,180 --> 00:36:45,319

think it's still in its infancy really

771

00:36:52,000 --> 00:36:49,190

but so but this wow this was back when

772

00:36:54,880 --> 00:36:52,010

it was hardly a you know a science at

773

00:36:58,299 --> 00:36:54,890

all so it was he found a lot he did a

774

00:37:00,809 --> 00:36:58,309

lot but nobody's been back since so it

775

00:37:05,770 --> 00:37:00,819

was a big news that they went back there

776

00:37:09,180 --> 00:37:05,780

you know just just last year so you know

777

00:37:13,059 --> 00:37:09,190

here here goes this this discovery they

778

00:37:16,599 --> 00:37:13,069

it was mirror and that that's you know

779

00:37:19,599 --> 00:37:16,609

something that was really interesting

780

00:37:21,520 --> 00:37:19,609

because it was actually they think

781

00:37:24,220 --> 00:37:21,530

bigger and they've not they've not

782

00:37:26,770 --> 00:37:24,230

unearthed every bit of it they found it

783

00:37:28,510 --> 00:37:26,780

first through satellite imaging it was

784

00:37:31,329 --> 00:37:28,520

what did they what are they finding

785

00:37:36,910 --> 00:37:31,339

there that was you know that was that

786

00:37:42,760 --> 00:37:36,920

was important a massive site it is a

787

00:37:44,050 --> 00:37:42,770

massive what they think is a temple they

788

00:37:48,610 --> 00:37:44,060

but it's so my

789

00:37:49,960 --> 00:37:48,620

so in the what we now know because they

790

00:37:51,760 --> 00:37:49,970

have gone back and that's something I

791

00:37:55,120 --> 00:37:51,770

could talk about later but they now know

792

00:37:58,350 --> 00:37:55,130

that it not only is a huge in size but

793

00:38:02,110 --> 00:37:58,360

it's unlike any known architecture of

794

00:38:06,760 --> 00:38:02,120

that time so it is a very important

795

00:38:10,450 --> 00:38:06,770

interesting thing it is located over ten

796

00:38:13,600 --> 00:38:10,460

miles from a it's it's so it's a decent

797

00:38:16,630 --> 00:38:13,610

distance but it it's you know not it's

798

00:38:19,030 --> 00:38:16,640

not really that far but it is far enough

799

00:38:21,820 --> 00:38:19,040

away that it stands on its own so it's

800

00:38:24,100 --> 00:38:21,830

not necessarily even associated with her

801

00:38:28,110 --> 00:38:24,110

to that extent so it's not kind of a but

802

00:38:30,640 --> 00:38:28,120

it goes back to the time period of early

803

00:38:34,330 --> 00:38:30,650

Mesopotamia absolutely it's at least

804

00:38:37,660 --> 00:38:34,340

four thousand years old so it at the

805

00:38:41,200 --> 00:38:37,670

least and so again this is a this was a

806

00:38:44,500 --> 00:38:41,210

joint excavation between the British and

807

00:38:47,950 --> 00:38:44,510

they they actually got four Iraqis to

808

00:38:52,270 --> 00:38:47,960

join them so they worked there three

809

00:38:54,730 --> 00:38:52,280

weeks and the building though was it was

810

00:38:56,350 --> 00:38:54,740

at least 250 square feet from what they

811

00:38:57,220 --> 00:38:56,360

could tell based on just the satellite

812

00:39:00,940 --> 00:38:57,230

alone

813

00:39:03,640 --> 00:39:00,950

the rooms excavated along the eastern

814

00:39:07,930 --> 00:39:03,650

side of the building have solid

815

00:39:10,720 --> 00:39:07,940

pavements of just mud bricks and it

816

00:39:13,090 --> 00:39:10,730

they're nine feet thick so it's

817

00:39:17,070 --> 00:39:13,100

definitely it was definitely fortified

818

00:39:20,410 --> 00:39:17,080

it was an important structure it has

819

00:39:22,600 --> 00:39:20,420

beautifully decorated floors that lead

820

00:39:28,150 --> 00:39:22,610

the researchers to believe the building

821

00:39:32,230 --> 00:39:28,160

was maybe even sacred and so with is

822

00:39:34,300 --> 00:39:32,240

such a large building what they've what

823

00:39:37,270 --> 00:39:34,310

they're sort of going with right now is

824

00:39:41,830 --> 00:39:37,280

that it was an administrative center so

825

00:39:46,000 --> 00:39:41,840

in in the middle of the complex is like

826

00:39:49,090 --> 00:39:46,010

a big room that is it's sort of

827

00:39:52,230 --> 00:39:49,100

encircles a grand courtyard I mean and

828

00:39:56,020 --> 00:39:52,240

it's extremely unusual to find large

829

00:39:57,970 --> 00:39:56,030

complexes like this this old on this

830

00:40:01,330 --> 00:39:57,980

scale so this is

831

00:40:03,340 --> 00:40:01,340

this is really big so what they did what

832

00:40:05,890 --> 00:40:03,350

they tried to get some soil samples to

833

00:40:08,200 --> 00:40:05,900

determine information about the the

834

00:40:10,290 --> 00:40:08,210

climate at the time and agriculture and

835

00:40:13,090 --> 00:40:10,300

maybe if they could find any other

836

00:40:16,810 --> 00:40:13,100

information on what this building was

837

00:40:19,150 --> 00:40:16,820

used for but so far there the main facts

838

00:40:22,120 --> 00:40:19,160

is that it dates back at least 4000

839

00:40:24,970 --> 00:40:22,130

years and it is most likely an

840

00:40:27,790 --> 00:40:24,980

administrative center so that could mean

841

00:40:30,250 --> 00:40:27,800

that it has a Hall of Records or some

842

00:40:33,490 --> 00:40:30,260

kind of you know important information

843

00:40:35,500 --> 00:40:33,500

there and you know it in ancient Sumer

844

00:40:38,140 --> 00:40:35,510

the temples were like medieval

845

00:40:39,520 --> 00:40:38,150

monasteries in Europe and that they were

846

00:40:42,490 --> 00:40:39,530

the center of Education

847

00:40:46,060 --> 00:40:42,500

you know they attach to almost all of

848

00:40:48,640 --> 00:40:46,070

them were schools where people could be

849

00:40:51,910 --> 00:40:48,650

trained usually adolescents because it

850

00:40:54,280 --> 00:40:51,920

was such a you know long committed task

851

00:40:58,330 --> 00:40:54,290

but where they could be trained to

852

00:41:00,849 --> 00:40:58,340

become scribes there's also there was

853

00:41:03,370 --> 00:41:00,859

evidence of this that what was the way

854

00:41:05,770 --> 00:41:03,380

they referred to as a school tablet

855

00:41:09,040 --> 00:41:05,780

where they've actually found cuneiform

856

00:41:10,780 --> 00:41:09,050

lessons and homework and different

857

00:41:13,180 --> 00:41:10,790

things so thank goodness for the school

858

00:41:15,700 --> 00:41:13,190

tablets because that actually helped the

859

00:41:19,030 --> 00:41:15,710

scholars later pieced together what we

860

00:41:22,210 --> 00:41:19,040

know of Sumerian grammar but in addition

861

00:41:24,880 --> 00:41:22,220

to grammar they found that the students

862

00:41:28,120 --> 00:41:24,890

learn math they learn multiplication

863

00:41:31,570 --> 00:41:28,130

tables and division square roots cube

864

00:41:34,810 --> 00:41:31,580

roots and even pretty complex geometry

865

00:41:40,480 --> 00:41:34,820

and they found all that on tablets and

866

00:41:43,870 --> 00:41:40,490

so these go ahead sorry I just this is

867

00:41:46,780 --> 00:41:43,880

this is amazing Heather but why is it

868

00:41:50,609 --> 00:41:46,790

controversial in the fact that you know

869

00:41:53,620 --> 00:41:50,619

in in in light of all that we know about

870

00:41:55,270 --> 00:41:53,630

ancient Mesopotamia was there anything

871

00:41:58,599 --> 00:41:55,280

in particular that made a controversial

872

00:42:02,109 --> 00:41:58,609

or just the fact that it was an unknown

873

00:42:05,260 --> 00:42:02,119

and here there's this huge complex that

874

00:42:07,300 --> 00:42:05,270

was discovered initially I wouldn't find

875

00:42:08,920 --> 00:42:07,310

any controversy in that I just thought

876

00:42:11,170 --> 00:42:08,930

it was an interesting story that's why I

877

00:42:11,470 --> 00:42:11,180

sort of dismissed then somebody emailing

878

00:42:15,880 --> 00:42:11,480

me

879

00:42:18,640 --> 00:42:15,890

going on here and yes so you know here

880

00:42:20,410 --> 00:42:18,650

we have this this you know story it's a

881

00:42:24,340 --> 00:42:20,420

legitimate find there just doesn't seem

882

00:42:28,240 --> 00:42:24,350

to be anything you know - you know

883

00:42:30,340 --> 00:42:28,250

controversial in my opinion but I wanted

884

00:42:35,250 --> 00:42:30,350

to learn more because this was very

885

00:42:37,810 --> 00:42:35,260

interesting to me and so I contacted the

886

00:42:40,420 --> 00:42:37,820

college that was you know in charge of

887

00:42:42,670 --> 00:42:40,430

this it I contacted the professor who is

888

00:42:45,430 --> 00:42:42,680

interred the British professor that was

889

00:42:47,260 --> 00:42:45,440

in charge of this just so that I could

890

00:42:50,710 --> 00:42:47,270

kind of get a an official statement

891

00:42:53,590 --> 00:42:50,720

because when I posted this on my

892

00:42:55,750 --> 00:42:53,600

Facebook later I said hey you know check

893

00:42:57,400 --> 00:42:55,760

this out this is really interesting look

894

00:42:59,380 --> 00:42:57,410

at this news story thinking it was like

895

00:43:00,070 --> 00:42:59,390

any other interesting archaeological

896

00:43:02,920 --> 00:43:00,080

news story

897

00:43:06,160 --> 00:43:02,930

well I found that I got a lot of

898

00:43:09,760 --> 00:43:06,170

harassment for it on not just my

899

00:43:11,260 --> 00:43:09,770

facebook but my blog for people who

900

00:43:13,080 --> 00:43:11,270

weren't my Facebook friends or followers

901  
00:43:16,120 --> 00:43:13,090  
they're just people that I didn't know

902  
00:43:18,150 --> 00:43:16,130  
and I thought that's really strange

903  
00:43:20,740 --> 00:43:18,160  
somebody actually accused me of

904  
00:43:23,650 --> 00:43:20,750  
promoting a hoax like this was some hoax

905  
00:43:25,990 --> 00:43:23,660  
which I thought was strange because it's

906  
00:43:28,030 --> 00:43:26,000  
it was all over the news it was on you

907  
00:43:30,340 --> 00:43:28,040  
know live science and just a local

908  
00:43:32,490 --> 00:43:30,350  
regional sites everything so from the

909  
00:43:34,780 --> 00:43:32,500  
beginning there was this weird air of

910  
00:43:37,510 --> 00:43:34,790  
strangeness about it but I didn't really

911  
00:43:40,390 --> 00:43:37,520  
see that there was anything that strange

912  
00:43:44,290 --> 00:43:40,400  
so you know I contact the University of

913  
00:43:46,120 --> 00:43:44,300

Manchester and I spoke back and forth

914

00:43:49,630 --> 00:43:46,130

with some administrators they're trying

915

00:43:51,190 --> 00:43:49,640

to arrange a meeting so that I could you

916

00:43:52,600 --> 00:43:51,200

know get to the bottom of this just to

917

00:43:55,750 --> 00:43:52,610

get more details because I wanted to

918

00:43:58,960 --> 00:43:55,760

know more about what they found and they

919

00:44:02,080 --> 00:43:58,970

gave me the information of the lead

920

00:44:03,910 --> 00:44:02,090

professor and they said he's you know

921

00:44:05,950 --> 00:44:03,920

more than happy to speak with you he'd

922

00:44:08,740 --> 00:44:05,960

like you to email a list of your

923

00:44:13,270 --> 00:44:08,750

questions and so you know I I went ahead

924

00:44:15,280 --> 00:44:13,280

and then did that and I put that out on

925

00:44:17,410 --> 00:44:15,290

my facebook as well because again my

926  
00:44:19,720 --> 00:44:17,420  
passion and background and focus has

927  
00:44:23,710 --> 00:44:19,730  
been on public archaeology public

928  
00:44:25,270 --> 00:44:23,720  
history I want the public to be actively

929  
00:44:28,840 --> 00:44:25,280  
involved and included

930  
00:44:31,030 --> 00:44:28,850  
and on this research so I put it on my

931  
00:44:33,310 --> 00:44:31,040  
facebook hey I you know the University

932  
00:44:34,930 --> 00:44:33,320  
of Manchester is you know willing to

933  
00:44:37,000 --> 00:44:34,940  
take some questions anybody have any

934  
00:44:40,420 --> 00:44:37,010  
questions well it just so happens that

935  
00:44:43,300 --> 00:44:40,430  
the people well they were interested in

936  
00:44:46,690 --> 00:44:43,310  
things that maybe were less technical

937  
00:44:48,670 --> 00:44:46,700  
and more ancient mystery oriented so I

938  
00:44:50,470 --> 00:44:48,680

wanted to do that justice and I but I

939

00:44:52,330 --> 00:44:50,480

didn't want to put off the professor

940

00:44:54,010 --> 00:44:52,340

because you know I that's something that

941

00:44:57,540 --> 00:44:54,020

would likely put him off

942

00:45:00,760 --> 00:44:57,550

so I I've put together an email that

943

00:45:04,630 --> 00:45:00,770

respectfully asked him the questions

944

00:45:08,980 --> 00:45:04,640

necessary and I actually I published the

945

00:45:12,610 --> 00:45:08,990

entire email in the Sumerian controversy

946

00:45:15,010 --> 00:45:12,620

she said okay so that people can see how

947

00:45:19,150 --> 00:45:15,020

I approach it you know so it doesn't

948

00:45:24,070 --> 00:45:19,160

look like okay well interesting let me

949

00:45:27,370 --> 00:45:24,080

ask you this was one of those questions

950

00:45:31,510 --> 00:45:27,380

or did they find any evidence or remains

951  
00:45:34,330 --> 00:45:31,520  
of giants that is an interesting

952  
00:45:37,660 --> 00:45:34,340  
question and I haven't read the book by

953  
00:45:41,290 --> 00:45:37,670  
the way I normally try to read read the

954  
00:45:43,210 --> 00:45:41,300  
books you know but I just read yours but

955  
00:45:45,520 --> 00:45:43,220  
I want to know did they find giant bones

956  
00:45:47,980 --> 00:45:45,530  
human bones did they find that because I

957  
00:45:54,310 --> 00:45:47,990  
know that there's been reports of that

958  
00:45:58,680 --> 00:45:54,320  
in that area they from my knowledge they

959  
00:46:03,730 --> 00:45:58,690  
have not found specifically giant bones

960  
00:46:05,970 --> 00:46:03,740  
they have found interesting skull

961  
00:46:09,220 --> 00:46:05,980  
arrangements and burials they have found

962  
00:46:11,500 --> 00:46:09,230  
a lot of different things some of the

963  
00:46:14,140 --> 00:46:11,510

usual things you'd expect pottery and

964

00:46:17,200 --> 00:46:14,150

and whatnot they have found a lot of

965

00:46:20,560 --> 00:46:17,210

interesting things the the one thing

966

00:46:22,360 --> 00:46:20,570

that really stood out to me you know I

967

00:46:23,710 --> 00:46:22,370

wanted to know it had they thought we

968

00:46:27,880 --> 00:46:23,720

found any tablets is there any more

969

00:46:31,050 --> 00:46:27,890

information do we they did and from the

970

00:46:35,830 --> 00:46:31,060

initial interpretation of the tablets

971

00:46:38,020 --> 00:46:35,840

they the tablet spoke of bloodlines and

972

00:46:39,069 --> 00:46:38,030

and this is common in that time period

973

00:46:42,190 --> 00:46:39,079

where they were they list

974

00:46:43,479 --> 00:46:42,200

like the you know Kings list or you know

975

00:46:45,789 --> 00:46:43,489

if it's an administrative center they

976

00:46:48,969 --> 00:46:45,799

did that a lot with trying to record

977

00:46:51,910 --> 00:46:48,979

genealogy and whatnot but in addition to

978

00:46:54,579 --> 00:46:51,920

bloodlines that were different than the

979

00:46:57,519 --> 00:46:54,589

ones I had previously known about they

980

00:47:01,380 --> 00:46:57,529

found tablets that spoke of what could

981

00:47:05,140 --> 00:47:01,390

be interpreted as the Garden of Eden and

982

00:47:07,209 --> 00:47:05,150

was very interesting to me and there

983

00:47:09,009 --> 00:47:07,219

they had a lot more about that talking

984

00:47:10,749 --> 00:47:09,019

about the details of what the garden

985

00:47:14,140 --> 00:47:10,759

looked like and where it was located and

986

00:47:17,459 --> 00:47:14,150

and some different information that way

987

00:47:22,569 --> 00:47:17,469

and I wanted to know more about that and

988

00:47:26,440 --> 00:47:22,579

so you know I the email and I'm looking

989

00:47:28,859 --> 00:47:26,450

for a response before you know it I get

990

00:47:31,719 --> 00:47:28,869

no response I give him some time and and

991

00:47:33,039 --> 00:47:31,729

after a lot of back and forth it ends up

992

00:47:36,699 --> 00:47:33,049

well he just doesn't want to talk to me

993

00:47:39,069 --> 00:47:36,709

after all so so maybe my that's why I

994

00:47:40,690 --> 00:47:39,079

posted the email in it you know for

995

00:47:42,759 --> 00:47:40,700

people to see cuz I wanted them to say

996

00:47:44,829 --> 00:47:42,769

well you know judge it for yourself

997

00:47:47,789 --> 00:47:44,839

would you answer this email did I do it

998

00:47:51,309 --> 00:47:47,799

with enough PR and you know political

999

00:47:54,609 --> 00:47:51,319

you know maneuver ask him specifically

1000

00:47:56,859 --> 00:47:54,619

about Giants or giant artifacts I did

1001

00:47:59,049 --> 00:47:56,869

not it didn't really occur to me to do

1002

00:48:01,930 --> 00:47:59,059

so note you know I wasn't Inc I was

1003

00:48:05,199 --> 00:48:01,940

inquiring for myself about those matters

1004

00:48:07,539 --> 00:48:05,209

I wanted to know just more details and

1005

00:48:09,999 --> 00:48:07,549

the questions that were submitted to me

1006

00:48:12,569 --> 00:48:10,009

through Facebook did not include Giants

1007

00:48:17,140 --> 00:48:12,579

they they mostly included time-traveling

1008

00:48:20,650 --> 00:48:17,150

stargates Anunnaki the things basic

1009

00:48:24,640 --> 00:48:20,660

questions that you asked him he wouldn't

1010

00:48:27,130 --> 00:48:24,650

respond to any of it yeah because I yeah

1011

00:48:30,069 --> 00:48:27,140

I didn't ask him hey did you find aliens

1012

00:48:33,099 --> 00:48:30,079

or anything like preposterous I asked

1013

00:48:36,039 --> 00:48:33,109

him generally you know what what did

1014

00:48:38,289 --> 00:48:36,049

they find I again if you look at it in

1015

00:48:41,170 --> 00:48:38,299

the book you'll see and the only thing

1016

00:48:42,609 --> 00:48:41,180

that I said was you know what do you

1017

00:48:44,529 --> 00:48:42,619

make of various speculations and

1018

00:48:47,859 --> 00:48:44,539

theories regarding they ain't you know

1019

00:48:49,630 --> 00:48:47,869

ancient sumerians and then I put in

1020

00:48:50,620 --> 00:48:49,640

there in parentheses okay maybe this is

1021

00:48:52,540 --> 00:48:50,630

what turned him off but in the

1022

00:48:54,520 --> 00:48:52,550

parentheses then I said it

1023

00:48:57,640 --> 00:48:54,530

Time Traveller's various religious

1024

00:48:59,560 --> 00:48:57,650

significance etc okay so I could see why

1025

00:49:01,570 --> 00:48:59,570

that would maybe turn somebody off but

1026  
00:49:03,070 --> 00:49:01,580  
again I'm not there to make him happy I

1027  
00:49:06,820 --> 00:49:03,080  
was doing that on behalf of the people

1028  
00:49:10,810 --> 00:49:06,830  
who asked me to do so and if I received

1029  
00:49:13,120 --> 00:49:10,820  
an email like that as a teacher it would

1030  
00:49:15,910 --> 00:49:13,130  
be imperative to answer that because

1031  
00:49:19,230 --> 00:49:15,920  
even if I thought oh well that's just

1032  
00:49:21,520 --> 00:49:19,240  
crazy talk well it would be on my

1033  
00:49:24,280 --> 00:49:21,530  
shoulders it would be my responsibility

1034  
00:49:26,380 --> 00:49:24,290  
to then further educate that person not

1035  
00:49:27,700 --> 00:49:26,390  
to just ignore people and ignore the

1036  
00:49:30,760 --> 00:49:27,710  
public and stay in your own academic

1037  
00:49:33,490 --> 00:49:30,770  
bubble and not share your research so

1038  
00:49:37,510 --> 00:49:33,500

you know that just that was what I got I

1039

00:49:40,360 --> 00:49:37,520

got a basic snubbing are those are those

1040

00:49:42,220 --> 00:49:40,370

excavations continuing this year in

1041

00:49:46,840 --> 00:49:42,230

light especially in light of everything

1042

00:49:50,230 --> 00:49:46,850

going on over there right now with this

1043

00:49:52,210 --> 00:49:50,240

whole Isis ISIL everything that's you

1044

00:49:54,490 --> 00:49:52,220

know that's that's happening over there

1045

00:49:56,460 --> 00:49:54,500

is there is there any current

1046

00:49:59,590 --> 00:49:56,470

excavations going on at that site now

1047

00:50:01,720 --> 00:49:59,600

there is actually they've just wrapped

1048

00:50:04,960 --> 00:50:01,730

up they went back you went back this

1049

00:50:07,030 --> 00:50:04,970

year so this this was very interesting

1050

00:50:09,970 --> 00:50:07,040

to me I got nowhere with the professor I

1051

00:50:12,370 --> 00:50:09,980

got nowhere in general so I did what

1052

00:50:15,430 --> 00:50:12,380

everyone says to do right follow the

1053

00:50:17,590 --> 00:50:15,440

money so I thought well let me just see

1054

00:50:22,690 --> 00:50:17,600

what I can find here and that's where I

1055

00:50:26,440 --> 00:50:22,700

found the controversy in following the

1056

00:50:30,430 --> 00:50:26,450

money we're always what is the

1057

00:50:31,030 --> 00:50:30,440

controversy dr. Lin that you found in

1058

00:50:33,550 --> 00:50:31,040

your research

1059

00:50:37,690 --> 00:50:33,560

the main corporate backers of the whole

1060

00:50:40,480 --> 00:50:37,700

operation is Big Oil and this probably

1061

00:50:43,390 --> 00:50:40,490

doesn't come as much of a surprise as it

1062

00:50:46,990 --> 00:50:43,400

should it may be but it is big oil

1063

00:50:49,030 --> 00:50:47,000

specifically Gulf sands petroleum now

1064

00:50:50,500 --> 00:50:49,040

it's not just that they donated some

1065

00:50:52,330 --> 00:50:50,510

money or that they sponsored anything I

1066

00:50:56,830 --> 00:50:52,340

mean that that could be understandable

1067

00:51:00,250 --> 00:50:56,840

but they are spearheading it so much so

1068

00:51:02,110 --> 00:51:00,260

that the archeologists on site they

1069

00:51:03,340 --> 00:51:02,120

don't report to the college they don't

1070

00:51:05,440 --> 00:51:03,350

report to the University of Manchester

1071

00:51:06,370 --> 00:51:05,450

they don't report to the government they

1072

00:51:10,150 --> 00:51:06,380

they own

1073

00:51:14,380 --> 00:51:10,160

report to the corporation and so much so

1074

00:51:16,840 --> 00:51:14,390

that they they hold symposiums and

1075

00:51:18,550 --> 00:51:16,850

meetings and lectures and talks and they

1076

00:51:19,270 --> 00:51:18,560

only publish their results for the

1077

00:51:23,410 --> 00:51:19,280

corporation

1078

00:51:25,810 --> 00:51:23,420

now Gulf sands petroleum was once a

1079

00:51:29,320 --> 00:51:25,820

Houston Texas based oil company that had

1080

00:51:31,060 --> 00:51:29,330

American directors there listed as one

1081

00:51:34,210 --> 00:51:31,070

of the founders of the excavation

1082

00:51:38,890 --> 00:51:34,220

project you know completely so they they

1083

00:51:41,050 --> 00:51:38,900

really had an interest in this in as I

1084

00:51:45,450 --> 00:51:41,060

said it was a it was located in a u.s.

1085

00:51:49,450 --> 00:51:45,460

first in 2008 the US Treasury Department

1086

00:51:51,190 --> 00:51:49,460

declared the Gulf sands petroleum was

1087

00:51:54,730 --> 00:51:51,200

benefiting from corruption in

1088

00:51:56,980 --> 00:51:54,740

implementing power plays by using Syrian

1089

00:51:59,530 --> 00:51:56,990

intelligence officers to intimidate

1090

00:52:02,170 --> 00:51:59,540

certain Syrian cabinet members so that

1091

00:52:05,590 --> 00:52:02,180

they could gain access to oil

1092

00:52:07,510 --> 00:52:05,600

exploration first and foremost I'm KITT

1093

00:52:10,510 --> 00:52:07,520

again this is probably no surprise to

1094

00:52:13,030 --> 00:52:10,520

anybody big oil they're pretty corrupt

1095

00:52:15,190 --> 00:52:13,040

as we know but the u.s. imposed

1096

00:52:17,710 --> 00:52:15,200

sanctions on golf sands so the company

1097

00:52:20,620 --> 00:52:17,720

fled the country and relocated their

1098

00:52:24,130 --> 00:52:20,630

operation to London now the Gulf sands

1099

00:52:26,110 --> 00:52:24,140

board reads like a roster of global

1100

00:52:26,650 --> 00:52:26,120

banking heads and nothing but corporate

1101  
00:52:28,930 --> 00:52:26,660  
interest

1102  
00:52:31,390 --> 00:52:28,940  
they've been frequently involved in

1103  
00:52:36,930 --> 00:52:31,400  
corruption scandals and routinely dodge

1104  
00:52:40,120 --> 00:52:36,940  
UN sanctions and any other sanctions or

1105  
00:52:43,420 --> 00:52:40,130  
any rules they're just a total rule

1106  
00:52:46,540 --> 00:52:43,430  
breaker they've even by the U the EU

1107  
00:52:48,790 --> 00:52:46,550  
called them a propaganda tool they've

1108  
00:52:52,060 --> 00:52:48,800  
been intertwined with global politics

1109  
00:52:55,780 --> 00:52:52,070  
and they've been rushing to become a

1110  
00:52:58,480 --> 00:52:55,790  
member of the UN Global Compact they of

1111  
00:53:01,350 --> 00:52:58,490  
trying to have such a global reach so

1112  
00:53:05,200 --> 00:53:01,360  
it's it's interesting when you look at

1113  
00:53:06,970 --> 00:53:05,210

you know their site were they deep deep

1114

00:53:09,490 --> 00:53:06,980

within their corporate site you can find

1115

00:53:13,150 --> 00:53:09,500

where they talk about this project of

1116

00:53:16,000 --> 00:53:13,160

theirs to dig in the region and it

1117

00:53:19,090 --> 00:53:16,010

sounds self-aggrandizing it's really

1118

00:53:19,900 --> 00:53:19,100

wild they say we as scholars feel that

1119

00:53:22,720 --> 00:53:19,910

the

1120

00:53:25,539 --> 00:53:22,730

Jerrell product we offer has an intense

1121

00:53:27,789 --> 00:53:25,549

if somewhat intangible value by showing

1122

00:53:31,180 --> 00:53:27,799

the great significance of the past for

1123

00:53:32,589 --> 00:53:31,190

our common advancement it and and so you

1124

00:53:34,799 --> 00:53:32,599

know it's just a bunch of rhetoric but

1125

00:53:37,960 --> 00:53:34,809

the logo they use is quite interesting

1126

00:53:41,789 --> 00:53:37,970

they say they talk about their logo as

1127

00:53:44,920 --> 00:53:41,799

being a symbol of showing two deities

1128

00:53:47,170 --> 00:53:44,930

shown supporting jointly a standard

1129

00:53:50,079 --> 00:53:47,180

symbolizing the worlds of business and

1130

00:53:52,960 --> 00:53:50,089

academia holding up all of civilization

1131

00:53:56,920 --> 00:53:52,970

and do you have that up on your website

1132

00:53:58,809 --> 00:53:56,930

I don't and the reason I don't is well

1133

00:54:00,640 --> 00:53:58,819

let me just say this in the book I say

1134

00:54:01,779 --> 00:54:00,650

that I will post it on my blog because

1135

00:54:04,599 --> 00:54:01,789

of copyright I certainly couldn't

1136

00:54:11,230 --> 00:54:04,609

publish it when I posted it on my blog I

1137

00:54:11,829 --> 00:54:11,240

got a note to take that down okay hold

1138

00:54:13,539 --> 00:54:11,839

it right there

1139

00:54:15,490 --> 00:54:13,549

we're gonna pick this back up and we

1140

00:54:16,870 --> 00:54:15,500

come back from break dr. heather Lynn

1141

00:54:19,059 --> 00:54:16,880

and we're gonna ask her what the

1142

00:54:22,120 --> 00:54:19,069

connection is to big oil and those

1143

00:54:24,609 --> 00:54:22,130

bloodlines that goes back from those

1144

00:54:26,859 --> 00:54:24,619

tablets we'll be right back after this

1145

00:54:29,710 --> 00:54:26,869

short break here on epic voyages written

1146

00:54:31,930 --> 00:54:29,720

and welcome back to epic voyages radio

1147

00:54:34,839 --> 00:54:31,940

with our special guest dr. heather Lynn

1148

00:54:38,529 --> 00:54:34,849

our topic tonight is the Cimmerian

1149

00:54:39,849 --> 00:54:38,539

controversy a special report Heather

1150

00:54:43,349 --> 00:54:39,859

just before the break we were talking

1151  
00:54:47,349 --> 00:54:43,359  
about the new excavations that went

1152  
00:54:50,039 --> 00:54:47,359  
underway in the ancient city of her back

1153  
00:54:54,430 --> 00:54:50,049  
in 2013 and they discovered something

1154  
00:54:57,130 --> 00:54:54,440  
really really interesting but the

1155  
00:54:59,650 --> 00:54:57,140  
controversy isn't really the site

1156  
00:55:02,109 --> 00:54:59,660  
necessarily it's what's connected to the

1157  
00:55:04,059 --> 00:55:02,119  
site and you were going to tell us about

1158  
00:55:07,240 --> 00:55:04,069  
that connection to those bloodlines

1159  
00:55:08,460 --> 00:55:07,250  
those Royal bloodlines what is all that

1160  
00:55:13,930 --> 00:55:08,470  
about

1161  
00:55:18,400 --> 00:55:13,940  
well the in addition to Big Oil funding

1162  
00:55:22,000 --> 00:55:18,410  
the excavation the the the other big

1163  
00:55:24,430 --> 00:55:22,010

players with well let's just say the big

1164

00:55:28,960 --> 00:55:24,440

oil was first specifically gulf sands

1165

00:55:31,180 --> 00:55:28,970

and then underneath them were other very

1166

00:55:33,670 --> 00:55:31,190

large players the British Foreign

1167

00:55:35,540 --> 00:55:33,680

Commonwealth office

1168

00:55:39,410 --> 00:55:35,550

including the government communications

1169

00:55:42,680 --> 00:55:39,420

headquarters BBC secret intelligence

1170

00:55:44,150 --> 00:55:42,690

service and you know some interesting

1171

00:55:46,540 --> 00:55:44,160

things that you wouldn't think would

1172

00:55:48,830 --> 00:55:46,550

have any interest necessarily in

1173

00:55:53,630 --> 00:55:48,840

archaeological sites and then there was

1174

00:55:57,350 --> 00:55:53,640

also a very large donor from the thisin

1175

00:55:58,880 --> 00:55:57,360

family and the if I don't know if your

1176  
00:56:02,180 --> 00:55:58,890  
listeners are familiar with issen family

1177  
00:56:05,630 --> 00:56:02,190  
but they are one of the richest families

1178  
00:56:08,030 --> 00:56:05,640  
in the world they it's been widely

1179  
00:56:10,360 --> 00:56:08,040  
accepted that they own the world's

1180  
00:56:13,070 --> 00:56:10,370  
largest private collection of relics

1181  
00:56:16,070 --> 00:56:13,080  
said to be only rivaled by Queen

1182  
00:56:21,950 --> 00:56:16,080  
Elizabeth herself but they got their

1183  
00:56:26,450 --> 00:56:21,960  
massive fortune through Nazi the

1184  
00:56:28,730 --> 00:56:26,460  
activity let's just say that they

1185  
00:56:30,560 --> 00:56:28,740  
initially I mean they have huge

1186  
00:56:32,210 --> 00:56:30,570  
corporation they have huge they've

1187  
00:56:34,820 --> 00:56:32,220  
established steelworks elevators

1188  
00:56:36,620 --> 00:56:34,830

escalators industrial conglomerates

1189

00:56:41,150 --> 00:56:36,630

banks just art collections they have

1190

00:56:44,810 --> 00:56:41,160

money just beyond beyond it is they're

1191

00:56:47,030 --> 00:56:44,820

not rich they are wealthy there were

1192

00:56:48,980 --> 00:56:47,040

just one of the many mega rich bloodline

1193

00:56:52,250 --> 00:56:48,990

powerhouses just why is everybody so

1194

00:56:54,290 --> 00:56:52,260

interested in this site though you know

1195

00:56:56,390 --> 00:56:54,300

I keep I kept looking into that see like

1196

00:57:00,680 --> 00:56:56,400

well what is this you know Fritz Thyssen

1197

00:57:03,200 --> 00:57:00,690

was the first man to get the

1198

00:57:05,060 --> 00:57:03,210

newly-formed at the time Nazi Party off

1199

00:57:07,790 --> 00:57:05,070

the ground he gave them their largest

1200

00:57:11,060 --> 00:57:07,800

injection of funds I mean these these

1201  
00:57:13,250 --> 00:57:11,070  
people they they have their roots in a

1202  
00:57:15,230 --> 00:57:13,260  
lot of nefarious things and so why would

1203  
00:57:17,840 --> 00:57:15,240  
they be interested necessarily in the

1204  
00:57:19,670 --> 00:57:17,850  
site yeah that's been the main question

1205  
00:57:22,930 --> 00:57:19,680  
but they've bankrolled this and

1206  
00:57:25,430 --> 00:57:22,940  
bankrolled this and from what I

1207  
00:57:27,050 --> 00:57:25,440  
understand you know and I put all this

1208  
00:57:28,730 --> 00:57:27,060  
in my book if anyone is interested I

1209  
00:57:31,730 --> 00:57:28,740  
have all the connections laid out to

1210  
00:57:37,550 --> 00:57:31,740  
who's related to whom and and all the

1211  
00:57:40,910 --> 00:57:37,560  
relations down to even the relation of

1212  
00:57:43,970 --> 00:57:40,920  
wooley to all of this and his connection

1213  
00:57:46,670 --> 00:57:43,980

to skull and bones it sounds

1214

00:57:49,430 --> 00:57:46,680

preposterous I would have never

1215

00:57:51,770 --> 00:57:49,440

ever even listen to anybody if they told

1216

00:57:56,300 --> 00:57:51,780

me this before I just found it for

1217

00:57:58,430 --> 00:57:56,310

myself and so I found that a lot of this

1218

00:58:00,050 --> 00:57:58,440

has to do with the Federal Reserve there

1219

00:58:01,190 --> 00:58:00,060

are all of these you know what you would

1220

00:58:04,640 --> 00:58:01,200

think would be these stereotypical

1221

00:58:05,600 --> 00:58:04,650

players and all this you know elite

1222

00:58:07,850 --> 00:58:05,610

family

1223

00:58:10,010 --> 00:58:07,860

talk that goes on these days and I

1224

00:58:12,200 --> 00:58:10,020

thought surely this isn't serious this

1225

00:58:14,480 --> 00:58:12,210

can't be but it is and I found it I've

1226

00:58:16,280 --> 00:58:14,490

published it all for everybody to see

1227

00:58:18,770 --> 00:58:16,290

all of the connections so again it makes

1228

00:58:22,400 --> 00:58:18,780

you wonder okay why are these people

1229

00:58:26,120 --> 00:58:22,410

these big players looking there and what

1230

00:58:29,090 --> 00:58:26,130

have they want well this--an himself he

1231

00:58:31,130 --> 00:58:29,100

is a huge art collector so you could say

1232

00:58:36,200 --> 00:58:31,140

well he's looking for relics that's what

1233

00:58:38,230 --> 00:58:36,210

he wants the oil company well I mean

1234

00:58:42,320 --> 00:58:38,240

they're clearly prospecting for

1235

00:58:44,090 --> 00:58:42,330

opportunities to you know get oil but

1236

00:58:48,890 --> 00:58:44,100

why are they so interested in the

1237

00:58:50,690 --> 00:58:48,900

cultural you know material there and the

1238

00:58:52,460 --> 00:58:50,700

university will obviously they're a

1239

00:58:54,410 --> 00:58:52,470

university they want to keep their jobs

1240

00:58:58,460 --> 00:58:54,420

but this is something I want to to

1241

00:59:00,650 --> 00:58:58,470

really distinguish here because a lot of

1242

00:59:02,990 --> 00:59:00,660

people when they look at different sites

1243

00:59:04,750 --> 00:59:03,000

or or maybe something being lost or

1244

00:59:07,250 --> 00:59:04,760

found or anything

1245

00:59:09,740 --> 00:59:07,260

conspiracy wise or or whatever about

1246

00:59:11,840 --> 00:59:09,750

ancient mysteries most of the time the

1247

00:59:14,600 --> 00:59:11,850

blame falls on the University and I have

1248

00:59:16,490 --> 00:59:14,610

to say the university they are just one

1249

00:59:18,800 --> 00:59:16,500

of the many players in these types of

1250

00:59:20,570 --> 00:59:18,810

situations they are they're trying to

1251  
00:59:24,710 --> 00:59:20,580  
secure their jobs and their monies and

1252  
00:59:27,920 --> 00:59:24,720  
their whatever it it's the bigger people

1253  
00:59:32,330 --> 00:59:27,930  
who basically use the universities as a

1254  
00:59:34,190 --> 00:59:32,340  
way to launder money so the university

1255  
00:59:35,930 --> 00:59:34,200  
the professor's they're not necessarily

1256  
00:59:39,680 --> 00:59:35,940  
interested in finding any bloodlines

1257  
00:59:42,230 --> 00:59:39,690  
Giants etc it's the people who are

1258  
00:59:44,030 --> 00:59:42,240  
funding then the universities to go and

1259  
00:59:47,090 --> 00:59:44,040  
do that and those are the people that we

1260  
00:59:48,170 --> 00:59:47,100  
rarely get to hear from but those are

1261  
00:59:50,600 --> 00:59:48,180  
the people that a lot of the

1262  
00:59:52,070 --> 00:59:50,610  
universities answer to directly and so

1263  
00:59:52,340 --> 00:59:52,080

that's why it is important to follow the

1264

00:59:56,710 --> 00:59:52,350

money

1265

00:59:59,600 --> 00:59:56,720

but in this discovery of the tablets

1266

01:00:02,030 --> 00:59:59,610

what I found

1267

01:00:04,970 --> 01:00:02,040

is that they lost some of them or so

1268

01:00:08,210 --> 01:00:04,980

they said they they claim the tablets

1269

01:00:10,750 --> 01:00:08,220

they claim now I don't buy it one bit I

1270

01:00:13,060 --> 01:00:10,760

don't buy it at all how do you lose

1271

01:00:17,630 --> 01:00:13,070

tablets that you just free yourself

1272

01:00:19,220 --> 01:00:17,640

published excitedly that you found and

1273

01:00:20,720 --> 01:00:19,230

you know you're dating and cleaning and

1274

01:00:24,410 --> 01:00:20,730

whatever and there's pictures of them

1275

01:00:26,390 --> 01:00:24,420

here they are how do you lose those you

1276

01:00:28,550 --> 01:00:26,400

know I mean I guess it's possible but

1277

01:00:31,550 --> 01:00:28,560

they didn't lose anything else they only

1278

01:00:35,540 --> 01:00:31,560

lost these particular tablets why these

1279

01:00:37,790 --> 01:00:35,550

those tablets say by the way they well

1280

01:00:40,310 --> 01:00:37,800

the only information that I've been able

1281

01:00:43,880 --> 01:00:40,320

to get that is confirmed on what the

1282

01:00:47,150 --> 01:00:43,890

tablets say front like directly from the

1283

01:00:49,400 --> 01:00:47,160

University has been the talk about the

1284

01:00:52,310 --> 01:00:49,410

Garden of Eden and some details about

1285

01:00:54,350 --> 01:00:52,320

that and a new list of bloodlines that

1286

01:00:56,510 --> 01:00:54,360

are different than the traditional kings

1287

01:00:58,640 --> 01:00:56,520

list that we know of what do you mean

1288

01:01:02,780 --> 01:00:58,650

they're they're different they're

1289

01:01:04,790 --> 01:01:02,790

different in the Sumerian Kings list by

1290

01:01:07,190 --> 01:01:04,800

different names different names

1291

01:01:10,730 --> 01:01:07,200

different families different families

1292

01:01:13,780 --> 01:01:10,740

different names different dates so some

1293

01:01:16,880 --> 01:01:13,790

of the dates it contradicts exactly and

1294

01:01:18,770 --> 01:01:16,890

that's important and that's interesting

1295

01:01:22,130 --> 01:01:18,780

was it and was it was it

1296

01:01:24,680 --> 01:01:22,140

I mean is it in fact I don't know is it

1297

01:01:26,660 --> 01:01:24,690

information that they know of on those

1298

01:01:30,170 --> 01:01:26,670

tablets was any of that information

1299

01:01:34,280 --> 01:01:30,180

vetted I mean does is it is it empirical

1300

01:01:37,280 --> 01:01:34,290

you know empirically proven that okay

1301

01:01:38,750 --> 01:01:37,290

these dates now contradict what we know

1302

01:01:43,130 --> 01:01:38,760

in the Sumerians king list which by the

1303

01:01:46,400 --> 01:01:43,140

way is controversial exactly but but is

1304

01:01:49,040 --> 01:01:46,410

it is it that hey you know this

1305

01:01:51,140 --> 01:01:49,050

information you know may be true and

1306

01:01:54,830 --> 01:01:51,150

correct and oh by the way now we've lost

1307

01:01:57,260 --> 01:01:54,840

them yeah you know that that's

1308

01:02:00,740 --> 01:01:57,270

interesting I couldn't say for sure it's

1309

01:02:04,370 --> 01:02:00,750

either I mean in terms of it being

1310

01:02:07,130 --> 01:02:04,380

vetted they're being researched by you

1311

01:02:08,630 --> 01:02:07,140

know some archaeologists who they're

1312

01:02:10,790 --> 01:02:08,640

pretty much at the top of their field

1313

01:02:13,320 --> 01:02:10,800

they're there I have no reason to doubt

1314

01:02:14,970 --> 01:02:13,330

that their information is correct

1315

01:02:17,910 --> 01:02:14,980

in that sense but in the sense that

1316

01:02:19,080 --> 01:02:17,920

they're being very upfront and honest

1317

01:02:21,060 --> 01:02:19,090

about their finds I mean that's

1318

01:02:22,860 --> 01:02:21,070

something that is to be questioned who

1319

01:02:26,040 --> 01:02:22,870

knows there's always that question of

1320

01:02:28,290 --> 01:02:26,050

bias here are they you know did they

1321

01:02:30,030 --> 01:02:28,300

find something that contradicted you

1322

01:02:32,100 --> 01:02:30,040

know what the general established

1323

01:02:33,960 --> 01:02:32,110

narrative is therefore they want to get

1324

01:02:36,020 --> 01:02:33,970

rid of it or is it that they want to

1325

01:02:38,160 --> 01:02:36,030

look into it further without anybody

1326

01:02:41,700 --> 01:02:38,170

looking at it with the fine-tooth comb

1327

01:02:43,710 --> 01:02:41,710

or is it because that's not really their

1328

01:02:46,800 --> 01:02:43,720

research because they don't answer to

1329

01:02:48,450 --> 01:02:46,810

anybody other than a mega wealthy art

1330

01:02:53,220 --> 01:02:48,460

collector well exactly

1331

01:02:55,470 --> 01:02:53,230

war war you know you don't want that

1332

01:02:59,280 --> 01:02:55,480

information getting out for one reason

1333

01:03:03,420 --> 01:02:59,290

or another yeah what you said it follow

1334

01:03:07,020 --> 01:03:03,430

the money and look if they're wealthy

1335

01:03:10,500 --> 01:03:07,030

enough to finance a huge excavation like

1336

01:03:14,400 --> 01:03:10,510

that on a whim they're powerful enough

1337

01:03:17,010 --> 01:03:14,410

to make those tablets disappear and let

1338

01:03:18,960 --> 01:03:17,020

me I believe that and let me tell you

1339

01:03:21,240 --> 01:03:18,970

when you talk about an excavation like

1340

01:03:23,960 --> 01:03:21,250

this this is huge and this is a war-torn

1341

01:03:27,330 --> 01:03:23,970

area they don't have this particular

1342

01:03:29,430 --> 01:03:27,340

location I mean yes it sits outside of

1343

01:03:31,170 --> 01:03:29,440

Baghdad but where they're digging has

1344

01:03:33,990 --> 01:03:31,180

hardly any infrastructure they've had to

1345

01:03:36,390 --> 01:03:34,000

kind of have makeshift roads just to get

1346

01:03:38,720 --> 01:03:36,400

to the site not only that they can't go

1347

01:03:42,000 --> 01:03:38,730

out there unprotected they have massive

1348

01:03:44,970 --> 01:03:42,010

help and protection they fly in they

1349

01:03:49,440 --> 01:03:44,980

it's a multi-million dollar endeavor and

1350

01:03:53,300 --> 01:03:49,450

and I was happy recently this past year

1351

01:03:55,350 --> 01:03:53,310

I was able to get my hands on the entire

1352

01:03:57,090 --> 01:03:55,360

documentation of all their funding

1353

01:03:59,670 --> 01:03:57,100

financials and how much everything cost

1354

01:04:01,440 --> 01:03:59,680

down to the itemized tea did you publish

1355

01:04:03,540 --> 01:04:01,450

that in your book the Cimmerian

1356

01:04:05,850 --> 01:04:03,550

controversy no because I found this

1357

01:04:09,090 --> 01:04:05,860

afterwards and what I did with the

1358

01:04:10,470 --> 01:04:09,100

Sumerian controversy was I wanted what I

1359

01:04:12,000 --> 01:04:10,480

wanted to do with this because I found

1360

01:04:15,050 --> 01:04:12,010

this information and it just was coming

1361

01:04:17,640 --> 01:04:15,060

in so quick and I wasn't really sure I

1362

01:04:19,800 --> 01:04:17,650

wanted to get more information I had so

1363

01:04:21,750 --> 01:04:19,810

many questions and as you could imagine

1364

01:04:24,630 --> 01:04:21,760

and I had a lot of people giving me

1365

01:04:26,940 --> 01:04:24,640

input and so what I did before the

1366

01:04:29,670 --> 01:04:26,950

information could be lost I

1367

01:04:32,880 --> 01:04:29,680

put it out as quickly as I could and I

1368

01:04:36,120 --> 01:04:32,890

published this report it's not long it's

1369

01:04:38,339 --> 01:04:36,130

not expensive I did it in in order to

1370

01:04:40,589 --> 01:04:38,349

raise money for my nonprofit

1371

01:04:43,799 --> 01:04:40,599

organization star the Society for truth

1372

01:04:47,160 --> 01:04:43,809

and archaeological research and I put it

1373

01:04:49,950 --> 01:04:47,170

out thinking okay this is incomplete

1374

01:04:52,620 --> 01:04:49,960

research I need more information maybe

1375

01:04:54,900 --> 01:04:52,630

if I put this out here one I had already

1376

01:04:56,640 --> 01:04:54,910

made some ripples with contacting people

1377

01:05:00,270 --> 01:04:56,650

and I kind of made some people angry by

1378

01:05:02,609 --> 01:05:00,280

posting the copyrighted strange logo on

1379

01:05:04,500 --> 01:05:02,619

my site and contacting the professor and

1380

01:05:07,200 --> 01:05:04,510

just sort of making it known that I was

1381

01:05:08,280 --> 01:05:07,210

poking around so I put this out one for

1382

01:05:12,680 --> 01:05:08,290

my own protection because I was

1383

01:05:15,569 --> 01:05:12,690

receiving death threats and too so that

1384

01:05:17,400 --> 01:05:15,579

other people could that maybe have

1385

01:05:20,160 --> 01:05:17,410

something to contribute could read this

1386

01:05:22,410 --> 01:05:20,170

or help me out somehow here my

1387

01:05:24,450 --> 01:05:22,420

interviews anything and just give me

1388

01:05:26,870 --> 01:05:24,460

more data you know because that's how I

1389

01:05:30,630 --> 01:05:26,880

initially found this anyway yes it was a

1390

01:05:32,220 --> 01:05:30,640

an AP press release so I was going to

1391

01:05:33,839 --> 01:05:32,230

find out about it anyway but I had

1392

01:05:35,670 --> 01:05:33,849

somebody who felt that it was important

1393

01:05:37,559 --> 01:05:35,680

enough to bring it to my attention so I

1394

01:05:40,319 --> 01:05:37,569

thought maybe there are other people who

1395

01:05:41,880 --> 01:05:40,329

have information and so I put it out

1396

01:05:45,299 --> 01:05:41,890

there as a plea like okay here we go

1397

01:05:48,000 --> 01:05:45,309

help me out here and Wow I was not

1398

01:05:52,650 --> 01:05:48,010

prepared for the amount of information I

1399

01:05:54,539 --> 01:05:52,660

got back after this and so I am in the

1400

01:05:56,460 --> 01:05:54,549

middle that I have land of the Watchers

1401

01:05:58,500 --> 01:05:56,470

which is the follow-up to Sumerian

1402

01:06:02,520 --> 01:05:58,510

content okay so you've got another book

1403

01:06:04,799 --> 01:06:02,530

coming and that has it all really really

1404

01:06:07,289 --> 01:06:04,809

you know the update you know sumerian

1405

01:06:10,859 --> 01:06:07,299

controversy got the ball rolling now

1406

01:06:14,579 --> 01:06:10,869

this is all the all the juicy stuff all

1407

01:06:17,720 --> 01:06:14,589

the good land of the watchers that's

1408

01:06:22,650 --> 01:06:17,730

that's coming out their new book yes

1409

01:06:28,140 --> 01:06:22,660

because they sorry no no finish up oh I

1410

01:06:32,849 --> 01:06:28,150

just they did go back this past January

1411

01:06:34,680 --> 01:06:32,859

and the excavations concluded in May of

1412

01:06:37,230 --> 01:06:34,690

this past year the stump this past

1413

01:06:40,680 --> 01:06:37,240

spring so they were they went back and

1414

01:06:42,450 --> 01:06:40,690

they found more and they

1415

01:06:44,309 --> 01:06:42,460

I think they know that people are now

1416

01:06:46,620 --> 01:06:44,319

starting to look because they've made a

1417

01:06:48,030 --> 01:06:46,630

concerted effort to put it out there and

1418

01:06:53,150 --> 01:06:48,040

like a third kind of way

1419

01:06:57,839 --> 01:06:53,160

very interesting Wow in a new excavation

1420

01:06:59,760 --> 01:06:57,849

that's that's not even fully ex they

1421

01:07:01,650 --> 01:06:59,770

find tablets by the way just real

1422

01:07:05,160 --> 01:07:01,660

quickly what language was it in was it

1423

01:07:07,950 --> 01:07:05,170

in the Akkadian it was it was a

1424

01:07:11,220 --> 01:07:07,960

cuneiform they it was actually in

1425

01:07:14,640 --> 01:07:11,230

Sumerian Wow

1426

01:07:16,559 --> 01:07:14,650

all right cuneiform interesting okay I

1427

01:07:19,290 --> 01:07:16,569

know that the chat room is burning up

1428

01:07:20,760 --> 01:07:19,300

with questions so I want you to call in

1429

01:07:23,339 --> 01:07:20,770

with your questions that's kind of my

1430

01:07:26,040 --> 01:07:23,349

thing I like people to interact and call

1431

01:07:28,109 --> 01:07:26,050

in that's what a radio shows about got

1432

01:07:29,910 --> 01:07:28,119

you calling in and participating one

1433

01:07:32,700 --> 01:07:29,920

triple eight nine one nine two three

1434

01:07:36,450 --> 01:07:32,710

five five your question for dr. heather

1435

01:07:40,260 --> 01:07:36,460

Lynn one triple eight nine one nine two

1436

01:07:42,510 --> 01:07:40,270

three five five and I know you got

1437

01:07:46,650 --> 01:07:42,520

questions so get on the phone it's a

1438

01:07:47,700 --> 01:07:46,660

toll-free number call in that's what we

1439

01:07:50,370 --> 01:07:47,710

want you to do calling with your

1440

01:07:52,559 --> 01:07:50,380

questions and we'll get them on there or

1441

01:07:54,599 --> 01:07:52,569

if you get comments we would love to

1442

01:07:57,240 --> 01:07:54,609

hear from you by the way make sure you

1443

01:08:01,050 --> 01:07:57,250

go to dr. Lin's website it's dr. Lin

1444

01:08:04,859 --> 01:08:01,060

it's dr dr. heather Lynn dr. heather

1445

01:08:09,079 --> 01:08:04,869

Lynn comm and her last name is ly and n

1446

01:08:12,300 --> 01:08:09,089

so it's dr. dr dr. heather Lynn ly n n

1447

01:08:13,770 --> 01:08:12,310

comm make sure you go there call in with

1448

01:08:17,820 --> 01:08:13,780

your questions when triple eight nine

1449

01:08:19,860 --> 01:08:17,830

one nine two three five five and as soon

1450

01:08:23,010 --> 01:08:19,870

as you call in we'll get you on the air

1451

01:08:24,599 --> 01:08:23,020

if you have to wait a minute or so then

1452

01:08:27,950 --> 01:08:24,609

be patient we'll get back with you and

1453

01:08:30,269 --> 01:08:27,960

get you on the air okay

1454

01:08:32,189 --> 01:08:30,279

so you got a follow-up book called the

1455

01:08:34,800 --> 01:08:32,199

land of the Watchers which is a follow

1456

01:08:39,539 --> 01:08:34,810

up to the original book the Cimmerian

1457

01:08:42,809 --> 01:08:39,549

controversy and when you ask for more

1458

01:08:46,110 --> 01:08:42,819

information about this particular site

1459

01:08:50,010 --> 01:08:46,120

you got a wealth of information I'm

1460

01:08:53,430 --> 01:08:50,020

wondering what they found this year do

1461

01:08:54,749 --> 01:08:53,440

you know well I know that the team was a

1462

01:08:59,450 --> 01:08:54,759

lot larger this year

1463

01:09:03,530 --> 01:08:59,460

so they they whatever they determine

1464

01:09:06,900 --> 01:09:03,540

last year they thought that it was worth

1465

01:09:09,539 --> 01:09:06,910

reinvesting more now so they did find

1466

01:09:11,190 --> 01:09:09,549

enough and and this is they you don't do

1467

01:09:14,999 --> 01:09:11,200

all this just for some pottery pieces

1468

01:09:18,300 --> 01:09:15,009

sorry you just don't you don't do this

1469

01:09:22,890 --> 01:09:18,310

for tiny pieces of pottery there they

1470

01:09:24,720 --> 01:09:22,900

have found something and and this is

1471

01:09:30,829 --> 01:09:24,730

what the the lead on the project

1472

01:09:34,410 --> 01:09:30,839

actually said she had this kind of

1473

01:09:37,590 --> 01:09:34,420

strange tweet that just said we are

1474

01:09:40,110 --> 01:09:37,600

searching for information not objects

1475

01:09:42,539 --> 01:09:40,120

and I thought that was interesting so I

1476

01:09:44,970 --> 01:09:42,549

mean it's interesting they're searching

1477

01:09:46,170 --> 01:09:44,980

for information not objects yes and so I

1478

01:09:47,670 --> 01:09:46,180

just thought you know take that for what

1479

01:09:50,550 --> 01:09:47,680

you will but I just found that to be

1480

01:09:53,099 --> 01:09:50,560

quite intriguing and so another thing

1481

01:09:56,280 --> 01:09:53,109

that's interesting they have the great

1482

01:10:00,540 --> 01:09:56,290

nephew of sir Leonard Woolley Alastair

1483

01:10:03,150 --> 01:10:00,550

Lyon there too because of course it's a

1484

01:10:05,670 --> 01:10:03,160

family affair everything they do is

1485

01:10:08,610 --> 01:10:05,680

traced back to you know various

1486

01:10:10,800 --> 01:10:08,620

bloodlines you can't get involved in

1487

01:10:13,140 --> 01:10:10,810

this type of inquiry unless you're well

1488

01:10:15,150 --> 01:10:13,150

connected so it's it's sort of cronyism

1489

01:10:18,000 --> 01:10:15,160

they're all out there you know doing

1490

01:10:22,530 --> 01:10:18,010

their thing but they have a very large

1491

01:10:25,890 --> 01:10:22,540

team and they have not now in addition

1492

01:10:29,160 --> 01:10:25,900

to this this complex this administrative

1493

01:10:31,350 --> 01:10:29,170

building they have found a second

1494

01:10:34,770 --> 01:10:31,360

building just a short distance away so

1495

01:10:36,780 --> 01:10:34,780

what we are uncovering here that just is

1496

01:10:39,510 --> 01:10:36,790

not getting enough news coverage at all

1497

01:10:43,200 --> 01:10:39,520

is the potential for an enormous

1498

01:10:45,800 --> 01:10:43,210

enormous metropolitan area it's not just

1499

01:10:50,910 --> 01:10:45,810

it's not just the ziggurat it's far more

1500

01:10:55,850 --> 01:10:50,920

far more hmm okay Heather we got a color

1501  
01:10:58,770 --> 01:10:55,860  
from New York bill are you on the line

1502  
01:11:02,970 --> 01:10:58,780  
yes I am Eric how are you hello dr. Lynn

1503  
01:11:05,820 --> 01:11:02,980  
hi Bill how are you how are you I just

1504  
01:11:07,250 --> 01:11:05,830  
have a quick question how is it that the

1505  
01:11:08,669 --> 01:11:07,260  
government's that these awesome

1506  
01:11:12,330 --> 01:11:08,679  
archaeological site

1507  
01:11:14,310 --> 01:11:12,340  
arrests allow them to take control or

1508  
01:11:15,989 --> 01:11:14,320  
are they being pulled off I mean are

1509  
01:11:19,770 --> 01:11:15,999  
they being paid off to allow this kind

1510  
01:11:21,989 --> 01:11:19,780  
of behavior to go on in those sites yes

1511  
01:11:23,370 --> 01:11:21,999  
I mean in a nutshell yes that's exactly

1512  
01:11:27,330 --> 01:11:23,380  
what's going on

1513  
01:11:28,979 --> 01:11:27,340

they are so distracted and busy right

1514

01:11:31,290 --> 01:11:28,989

now with a lot of war and different

1515

01:11:33,569 --> 01:11:31,300

things there are not enough people you

1516

01:11:35,669 --> 01:11:33,579

know in in charge in that area so it's

1517

01:11:38,250 --> 01:11:35,679

easy to just buy off you know

1518

01:11:40,169 --> 01:11:38,260

individuals they go in and this is I'm

1519

01:11:42,000 --> 01:11:40,179

glad you mentioned that because it's

1520

01:11:44,759 --> 01:11:42,010

something that I feel is an injustice

1521

01:11:46,589 --> 01:11:44,769

they go there you know they go into a

1522

01:11:49,410 --> 01:11:46,599

different culture they basically robbed

1523

01:11:52,439 --> 01:11:49,420

the culture they utilize some local help

1524

01:11:55,140 --> 01:11:52,449

and that's it they leave and that does

1525

01:11:57,089 --> 01:11:55,150

nothing for the you know so right that

1526  
01:12:01,020 --> 01:11:57,099  
when they went back in addition to their

1527  
01:12:02,910 --> 01:12:01,030  
for Iraqi colleagues they you know they

1528  
01:12:05,640 --> 01:12:02,920  
worked with a little bit with the State

1529  
01:12:08,069 --> 01:12:05,650  
Board for Antiquities and heritage so

1530  
01:12:11,040 --> 01:12:08,079  
but basically you've hit the nail on the

1531  
01:12:12,839 --> 01:12:11,050  
head it has to do with money they do

1532  
01:12:14,850 --> 01:12:12,849  
they they essentially buy them off now

1533  
01:12:15,959 --> 01:12:14,860  
you know it's not hard they don't have

1534  
01:12:18,209 --> 01:12:15,969  
to go there and say hey here's some

1535  
01:12:21,870 --> 01:12:18,219  
money stay out of our way they're doing

1536  
01:12:24,419 --> 01:12:21,880  
it in in the context of helping with the

1537  
01:12:26,819 --> 01:12:24,429  
research helping maybe you know offer

1538  
01:12:30,000 --> 01:12:26,829

research opportunities to the local

1539

01:12:32,790 --> 01:12:30,010

college there but in the end yes it's

1540

01:12:35,790 --> 01:12:32,800

pretty clear it's it's unfair and unjust

1541

01:12:38,310 --> 01:12:35,800

to have foreign you know teams of

1542

01:12:40,140 --> 01:12:38,320

archaeologists come in and just take

1543

01:12:41,759 --> 01:12:40,150

what you will especially foreign

1544

01:12:43,969 --> 01:12:41,769

businesspeople you know businesses

1545

01:12:47,040 --> 01:12:43,979

coming in and just collecting the

1546

01:12:52,219 --> 01:12:47,050

imagine here we have like Jamestown

1547

01:12:55,140 --> 01:12:52,229

imagine if a some French and German

1548

01:12:58,560 --> 01:12:55,150

archaeologists were sent over via plane

1549

01:13:00,989 --> 01:12:58,570

dropped in the middle of Jamestown took

1550

01:13:03,029 --> 01:13:00,999

a bunch of artifacts you know and

1551  
01:13:04,790 --> 01:13:03,039  
skidded right on out we would be up

1552  
01:13:06,839 --> 01:13:04,800  
in arms

1553  
01:13:09,449 --> 01:13:06,849  
how are they doing

1554  
01:13:11,160 --> 01:13:09,459  
are they dealing with the tribal sects

1555  
01:13:13,140 --> 01:13:11,170  
that are controlling the region's

1556  
01:13:17,189 --> 01:13:13,150  
they're not actually dealing with the

1557  
01:13:19,049 --> 01:13:17,199  
government's themselves are they they do

1558  
01:13:22,560 --> 01:13:19,059  
a little of both they do deal with the

1559  
01:13:25,140 --> 01:13:22,570  
government on a they deal with a

1560  
01:13:29,160 --> 01:13:25,150  
with the government itself based just in

1561  
01:13:31,230 --> 01:13:29,170  
the heritage organization but they on

1562  
01:13:33,210 --> 01:13:31,240  
the ground they do deal with the tribes

1563  
01:13:36,740 --> 01:13:33,220

because there are a lot of people that

1564

01:13:39,720 --> 01:13:36,750

come in to you know threaten take a look

1565

01:13:41,670 --> 01:13:39,730

maybe they won't work so when it when it

1566

01:13:43,110 --> 01:13:41,680

comes to getting some bodies to dig or

1567

01:13:44,270 --> 01:13:43,120

or whatever there they do deal with the

1568

01:13:46,380 --> 01:13:44,280

local tribes

1569

01:13:50,610 --> 01:13:46,390

what percentage do you think is actually

1570

01:13:54,240 --> 01:13:50,620

going to museums or yeah I mean is this

1571

01:13:56,640 --> 01:13:54,250

just going into their own into their own

1572

01:13:57,870 --> 01:13:56,650

collection I mean what's cool what's

1573

01:14:00,870 --> 01:13:57,880

going on what the majority of these

1574

01:14:02,310 --> 01:14:00,880

relics are we able to see them you know

1575

01:14:04,230 --> 01:14:02,320

because it seems to me the way that

1576

01:14:05,460 --> 01:14:04,240

you're speaking about it it seems like

1577

01:14:07,800 --> 01:14:05,470

they're just taking it all for

1578

01:14:09,060 --> 01:14:07,810

themselves and nothing is getting out so

1579

01:14:12,000 --> 01:14:09,070

that the public can see what's actually

1580

01:14:13,680 --> 01:14:12,010

going on there exactly well that that's

1581

01:14:15,030 --> 01:14:13,690

that's one of the reasons I feel that

1582

01:14:18,270 --> 01:14:15,040

it's so important to talk about these

1583

01:14:22,760 --> 01:14:18,280

things because yes it's it's it troubles

1584

01:14:26,930 --> 01:14:22,770

me that a wealthy powerful relic

1585

01:14:31,110 --> 01:14:26,940

collector is bankrolling this so yes

1586

01:14:33,840 --> 01:14:31,120

they are now I'm this is I clearly don't

1587

01:14:37,110 --> 01:14:33,850

have 100% evidence that an individual

1588

01:14:38,400 --> 01:14:37,120

has pocketed some antiquities but I feel

1589

01:14:41,700 --> 01:14:38,410

like you have to be out of your mind I

1590

01:14:46,590 --> 01:14:41,710

think that's not going on so yes I know

1591

01:14:49,500 --> 01:14:46,600

that they have released items to the

1592

01:14:51,150 --> 01:14:49,510

Baghdad Museum on occasion there's been

1593

01:14:53,190 --> 01:14:51,160

a few things once but what they do is

1594

01:14:55,230 --> 01:14:53,200

they'll take them away take them to

1595

01:14:58,140 --> 01:14:55,240

their home country take them elsewhere

1596

01:15:00,210 --> 01:14:58,150

and just to study them there they do

1597

01:15:01,770 --> 01:15:00,220

allow them to have some there that

1598

01:15:04,290 --> 01:15:01,780

they'll look at and like I said they

1599

01:15:07,350 --> 01:15:04,300

have about four iraqi researchers who

1600

01:15:09,900 --> 01:15:07,360

are looking at the you know artifacts

1601  
01:15:12,180 --> 01:15:09,910  
and then they'll release them but now

1602  
01:15:15,720 --> 01:15:12,190  
this is after they've already been jerry

1603  
01:15:18,210 --> 01:15:15,730  
picked so it's you know it's it's like

1604  
01:15:19,890 --> 01:15:18,220  
anything do we have everything that

1605  
01:15:22,620 --> 01:15:19,900  
they've ever found in our museums for

1606  
01:15:25,620 --> 01:15:22,630  
the public to enjoy no so we since we're

1607  
01:15:28,680 --> 01:15:25,630  
not there to see we don't know what they

1608  
01:15:32,280 --> 01:15:28,690  
have what they were able to you know but

1609  
01:15:35,400 --> 01:15:32,290  
let me just say it the numbers been

1610  
01:15:36,530 --> 01:15:35,410  
thrown out there that only about ten

1611  
01:15:39,650 --> 01:15:36,540  
percent

1612  
01:15:43,450 --> 01:15:39,660  
of what can be found out there has been

1613  
01:15:47,330 --> 01:15:43,460

found there is another nine at least 90%

1614

01:15:49,250 --> 01:15:47,340

that has gone unfound and that's what

1615

01:15:52,580 --> 01:15:49,260

they're looking for they they feel that

1616

01:15:55,460 --> 01:15:52,590

there are so many things still to be

1617

01:15:57,710 --> 01:15:55,470

found and they're out there doing it

1618

01:16:00,170 --> 01:15:57,720

they're looking and you know what's

1619

01:16:02,420 --> 01:16:00,180

amazing also is that in that conflicted

1620

01:16:03,530 --> 01:16:02,430

region that they're able to provide

1621

01:16:05,840 --> 01:16:03,540

security

1622

01:16:07,400 --> 01:16:05,850

it kind of is I rough that with

1623

01:16:09,560 --> 01:16:07,410

everything that's going on over there

1624

01:16:10,820 --> 01:16:09,570

they can still provide the security to

1625

01:16:15,320 --> 01:16:10,830

do what they're doing on those sites

1626

01:16:16,520 --> 01:16:15,330

it's down you know yes and that's an

1627

01:16:19,400 --> 01:16:16,530

excellent point and it's interesting

1628

01:16:21,080 --> 01:16:19,410

because a couple years back or that's

1629

01:16:24,560 --> 01:16:21,090

actually been a while I posted some of

1630

01:16:27,950 --> 01:16:24,570

this on my blog they there are pictures

1631

01:16:31,010 --> 01:16:27,960

of the ziggurat er being guarded by

1632

01:16:33,080 --> 01:16:31,020

American troops and Robert Gates the

1633

01:16:36,290 --> 01:16:33,090

defense secretary at the time being

1634

01:16:38,570 --> 01:16:36,300

given a personal tour of the area and so

1635

01:16:40,850 --> 01:16:38,580

you know there have been instances where

1636

01:16:42,140 --> 01:16:40,860

you know the troops have protected the

1637

01:16:46,280 --> 01:16:42,150

sites that there's been a lot of

1638

01:16:48,500 --> 01:16:46,290

military interest and so yeah that's it

1639

01:16:50,360 --> 01:16:48,510

is really interesting that you know

1640

01:16:52,400 --> 01:16:50,370

given the turmoil in the area that they

1641

01:16:56,320 --> 01:16:52,410

even have protection but they get flown

1642

01:17:00,410 --> 01:16:56,330

in they have a sponsored network of

1643

01:17:02,090 --> 01:17:00,420

basically military you know providers to

1644

01:17:04,820 --> 01:17:02,100

come in like private military like a

1645

01:17:08,360 --> 01:17:04,830

Halliburton type no your contractors

1646

01:17:10,160 --> 01:17:08,370

thank you yes to fly them in drop them

1647

01:17:11,900 --> 01:17:10,170

off and pull them back out and again I

1648

01:17:14,390 --> 01:17:11,910

have some pictures on my site that show

1649

01:17:16,790 --> 01:17:14,400

the blurred shipping containers that

1650

01:17:19,910 --> 01:17:16,800

they drop in that are actually the bunk

1651

01:17:22,730 --> 01:17:19,920

that the bunkers for the researchers

1652

01:17:25,250 --> 01:17:22,740

they drop them in there reinforce their

1653

01:17:27,760 --> 01:17:25,260

bulletproof they drop them in pull them

1654

01:17:29,930 --> 01:17:27,770

right back out so don't thanks for the

1655

01:17:32,450 --> 01:17:29,940

phone call bill thank you maverick

1656

01:17:34,400 --> 01:17:32,460

thank you dr. Lynn a very informative

1657

01:17:36,140 --> 01:17:34,410

show and I'm loving it I'm everybody

1658

01:17:37,640 --> 01:17:36,150

else I'm sure that's listening and

1659

01:17:39,950 --> 01:17:37,650

that's in the chat room is also enjoying

1660

01:17:42,290 --> 01:17:39,960

it immensely have a great night you guys

1661

01:17:46,580 --> 01:17:42,300

you too now Heather we got another

1662

01:17:49,490 --> 01:17:46,590

caller on the line Jim are you on and

1663

01:17:50,169 --> 01:17:49,500

worrier you from okay I don't think we

1664

01:17:54,040 --> 01:17:50,179

have Jay

1665

01:17:56,319 --> 01:17:54,050

Jim if you're on the line or if we've

1666

01:17:59,560 --> 01:17:56,329

lost we lost you a thing so called back

1667

01:18:00,850 --> 01:17:59,570

on the number will get you in after we

1668

01:18:02,439 --> 01:18:00,860

go to the break so we're gonna do that

1669

01:18:04,299 --> 01:18:02,449

now Heather will go ahead and go to

1670

01:18:07,029 --> 01:18:04,309

break and Jim if you're listening call

1671

01:18:09,429 --> 01:18:07,039

back we'll get you on the on the arrow

1672

01:18:11,410 --> 01:18:09,439

as we picked up right here back with our

1673

01:18:13,120 --> 01:18:11,420

special guest dr. heather Lynn on the

1674

01:18:17,290 --> 01:18:13,130

Cimmerian controversy right here on

1675

01:18:19,600 --> 01:18:17,300

HIPPA cages radio and we're back here on

1676

01:18:22,479 --> 01:18:19,610

that big voices radio with our special

1677

01:18:24,609 --> 01:18:22,489

guest dr. heather Lynn talking about the

1678

01:18:28,989 --> 01:18:24,619

Cimmerian controversy at a special

1679

01:18:31,330 --> 01:18:28,999

report one last half-hour with dr.

1680

01:18:33,729 --> 01:18:31,340

heather Lynn be sure to call in with

1681

01:18:36,279 --> 01:18:33,739

your questions or comments to the show

1682

01:18:39,189 --> 01:18:36,289

we're live tonight at one triple eight

1683

01:18:41,739 --> 01:18:39,199

nine one nine two three five five one

1684

01:18:44,919 --> 01:18:41,749

triple eight nine one nine two three

1685

01:18:46,870 --> 01:18:44,929

five five now if you're listening to the

1686

01:18:50,799 --> 01:18:46,880

show on the darknet or radio network on

1687

01:18:53,169 --> 01:18:50,809

friday night this will be a Riera so

1688

01:18:55,479 --> 01:18:53,179

don't call them with your question that

1689

01:19:02,049 --> 01:18:55,489

we do reorder the show on dark matter on

1690

01:19:05,370 --> 01:19:02,059

Friday night so we have Jim impact Jim

1691

01:19:09,370 --> 01:19:05,380

are you back on and we're calling from

1692

01:19:12,009 --> 01:19:09,380

Jim are you back on the air we just lost

1693

01:19:15,009 --> 01:19:12,019

Jim again okay I don't know why but

1694

01:19:20,339 --> 01:19:15,019

somehow we lost him so all right well

1695

01:19:22,449 --> 01:19:20,349

Jim call back if you can so Heather were

1696

01:19:25,649 --> 01:19:22,459

you know we're talking about this

1697

01:19:27,549 --> 01:19:25,659

connection and how it all goes back to

1698

01:19:31,179 --> 01:19:27,559

to what you're saying is these

1699

01:19:33,729 --> 01:19:31,189

bloodlines and big oil what's the take

1700

01:19:36,699 --> 01:19:33,739

away on all this do we know just yet

1701

01:19:37,390 --> 01:19:36,709

what's what's the thing that we need to

1702

01:19:39,429 --> 01:19:37,400

know about it

1703

01:19:44,770 --> 01:19:39,439

the big thing that we need to know is

1704

01:19:46,660 --> 01:19:44,780

that there is a lot of money flowing and

1705

01:19:49,239 --> 01:19:46,670

a lot of people going to the Middle East

1706

01:19:50,620 --> 01:19:49,249

to look for something and that is what

1707

01:19:52,750 --> 01:19:50,630

we don't know and there are a lot of

1708

01:19:55,839 --> 01:19:52,760

clues as to what that could be and a lot

1709

01:19:59,080 --> 01:19:55,849

of people have ideas and so this is

1710

01:20:00,189 --> 01:19:59,090

interesting because you know I we don't

1711

01:20:02,199 --> 01:20:00,199

know what's in their head right now

1712

01:20:04,179 --> 01:20:02,209

there is a lot of evidence but it's one

1713

01:20:06,669 --> 01:20:04,189

of those things where

1714

01:20:08,229 --> 01:20:06,679

when I put the call out hey what are

1715

01:20:09,729 --> 01:20:08,239

your thoughts what do you think they're

1716

01:20:12,839 --> 01:20:09,739

looking for let's look at this evidence

1717

01:20:16,000 --> 01:20:12,849

together let's do this in a public forum

1718

01:20:17,949 --> 01:20:16,010

because I've reached out to the people

1719

01:20:21,339 --> 01:20:17,959

doing this they will not speak publicly

1720

01:20:22,810 --> 01:20:21,349

what they've done is now that they know

1721

01:20:24,929 --> 01:20:22,820

there's a public interest they've slowly

1722

01:20:27,849 --> 01:20:24,939

been putting some information out there

1723

01:20:29,949 --> 01:20:27,859

that's been very much whitewashed and

1724

01:20:32,739 --> 01:20:29,959

kind of oh look we're digging around now

1725

01:20:35,589 --> 01:20:32,749

yeah and it but they don't they don't

1726

01:20:36,909 --> 01:20:35,599

say anything substantial and they

1727

01:20:39,219 --> 01:20:36,919

certainly aren't putting out the kind of

1728

01:20:41,199 --> 01:20:39,229

information that we really need so it's

1729

01:20:42,790 --> 01:20:41,209

really hard to get a hold of their their

1730

01:20:44,709 --> 01:20:42,800

reports it's really hard to get a hold

1731

01:20:47,409 --> 01:20:44,719

of their information and that's wrong so

1732

01:20:49,719 --> 01:20:47,419

the takeaway is this we're still looking

1733

01:20:54,369 --> 01:20:49,729

and in land of the Watchers I have found

1734

01:20:58,060 --> 01:20:54,379

a handful of theories that are very

1735

01:21:01,359 --> 01:20:58,070

workable I've I've gotten help from not

1736

01:21:04,389 --> 01:21:01,369

just viewers or listeners or readers but

1737

01:21:06,879 --> 01:21:04,399

experts in the field some of my friends

1738

01:21:09,549 --> 01:21:06,889

colleagues and other people who I ended

1739

01:21:12,969 --> 01:21:09,559

up meeting based on his research for

1740

01:21:18,060 --> 01:21:12,979

instance I had an economist contact me

1741

01:21:20,829 --> 01:21:18,070

with some information about ancient

1742

01:21:23,079 --> 01:21:20,839

economic technology if you will of it so

1743

01:21:24,879 --> 01:21:23,089

not ancient technology in the sense that

1744

01:21:26,199 --> 01:21:24,889

oh they found free energy which is

1745

01:21:30,399 --> 01:21:26,209

another idea that's been kicked around

1746

01:21:32,469 --> 01:21:30,409

but technology in the sense that there

1747

01:21:35,290 --> 01:21:32,479

were different economic systems or

1748

01:21:38,139 --> 01:21:35,300

different ways to you know control money

1749

01:21:42,159 --> 01:21:38,149

or people or what-have-you and that the

1750

01:21:45,040 --> 01:21:42,169

Sumerians knew that perhaps figures like

1751

01:21:46,929 --> 01:21:45,050

Anunnaki did that they could maybe

1752

01:21:50,500 --> 01:21:46,939

implement now I mean we're talking a

1753

01:21:52,359 --> 01:21:50,510

whole host of ideas and so what I do in

1754

01:21:54,759 --> 01:21:52,369

land of the Watchers is I kind of take a

1755

01:21:59,290 --> 01:21:54,769

look at these ideas I put them out I

1756

01:22:01,869 --> 01:21:59,300

give each theory its own consideration

1757

01:22:04,060 --> 01:22:01,879

even some of the most what people would

1758

01:22:05,649 --> 01:22:04,070

consider outlandish theories and I look

1759

01:22:07,629 --> 01:22:05,659

at the facts and I look at the evidence

1760

01:22:09,459 --> 01:22:07,639

and I say okay what do we know and what

1761

01:22:11,560 --> 01:22:09,469

do we know from the new excavations

1762

01:22:13,989 --> 01:22:11,570

because again they just wrapped up in

1763

01:22:16,449 --> 01:22:13,999

May and they found a lot more so what

1764

01:22:17,120 --> 01:22:16,459

are you know I think we have a gem back

1765

01:22:19,479 --> 01:22:17,130

on the air

1766

01:22:24,040 --> 01:22:19,489

Jim are you there now are you on there

1767

01:22:27,410 --> 01:22:24,050

okay yes I am I'm here hi gentlemen room

1768

01:22:33,200 --> 01:22:27,420

I'm calling from Ames Iowa how are you

1769

01:22:35,360 --> 01:22:33,210

guys doing great oh I was just listening

1770

01:22:39,050 --> 01:22:35,370

and in the chat room they've been going

1771

01:22:42,260 --> 01:22:39,060

crazy with but where all this stuff is

1772

01:22:44,840 --> 01:22:42,270

being taken away - and what we're losing

1773

01:22:47,990 --> 01:22:44,850

an hour Erika Jamal that all the it's

1774

01:22:50,810 --> 01:22:48,000

enraging as long as I hear and Big Oil

1775

01:22:53,899 --> 01:22:50,820

taking over these universities and

1776

01:22:55,790 --> 01:22:53,909

taking away the big sites you know

1777

01:22:58,580 --> 01:22:55,800

taking away the information that's

1778

01:23:01,490 --> 01:22:58,590

gathered from these big sites it's kind

1779

01:23:05,479 --> 01:23:01,500

of enraging to me what are we gonna do

1780

01:23:10,459 --> 01:23:05,489

to take it back what can we do to get

1781

01:23:14,570 --> 01:23:10,469

this stuff back so that the public can

1782

01:23:16,399 --> 01:23:14,580

get it and see it and realize that we've

1783

01:23:20,300 --> 01:23:16,409

been digging for it out there what can

1784

01:23:23,600 --> 01:23:20,310

we do I think that's an excellent

1785

01:23:26,360 --> 01:23:23,610

question because you know it is easy to

1786

01:23:29,750 --> 01:23:26,370

feel powerless thank you Jim it is very

1787

01:23:32,600 --> 01:23:29,760

easy to feel powerless in these

1788

01:23:35,120 --> 01:23:32,610

situations and a stripping a nation of

1789

01:23:38,750 --> 01:23:35,130

its cultural material robs it of its

1790

01:23:41,780 --> 01:23:38,760

identity and without its identity social

1791

01:23:44,660 --> 01:23:41,790

cohesion will dissolve and people are

1792

01:23:46,669 --> 01:23:44,670

more easily homogenizing controlled so

1793

01:23:49,430 --> 01:23:46,679

it's not only important for human

1794

01:23:52,370 --> 01:23:49,440

identity but this it's it's it's

1795

01:23:55,070 --> 01:23:52,380

imperative for social cohesion this is

1796

01:23:59,060 --> 01:23:55,080

talking about like a breakdown a

1797

01:24:01,370 --> 01:23:59,070

breakdown in society and that's part of

1798

01:24:04,939 --> 01:24:01,380

you know what happens when these people

1799

01:24:07,340 --> 01:24:04,949

go in into and already you know troubled

1800

01:24:09,979 --> 01:24:07,350

society and they robbed it of its

1801

01:24:12,890 --> 01:24:09,989

cultural identity it is it is a disaster

1802

01:24:14,870 --> 01:24:12,900

but you know when you feel like you have

1803

01:24:18,050 --> 01:24:14,880

no power you know when those thoughts

1804

01:24:20,689 --> 01:24:18,060

creep in as they've been programmed to

1805

01:24:22,610 --> 01:24:20,699

do you know you have to fight it you

1806

01:24:25,550 --> 01:24:22,620

have to tell yourself that you do have

1807

01:24:29,300 --> 01:24:25,560

the power you in in Galileo said this

1808

01:24:30,979 --> 01:24:29,310

all truths are easy to understand once

1809

01:24:33,800 --> 01:24:30,989

they are discovered

1810

01:24:36,229 --> 01:24:33,810

the point is to discover them so

1811

01:24:37,790 --> 01:24:36,239

discovery is a necessary part of

1812

01:24:41,150 --> 01:24:37,800

understanding this truth so what we need

1813

01:24:44,930 --> 01:24:41,160

to do is keep the dialogue open going

1814

01:24:47,870 --> 01:24:44,940

public and loud and I've already seen

1815

01:24:50,450 --> 01:24:47,880

just in a year a response from that

1816

01:24:53,570 --> 01:24:50,460

other side so we have to make them

1817

01:24:56,110 --> 01:24:53,580

answer us we have to be loud and not let

1818

01:25:01,430 --> 01:24:56,120

us go that's what we can do

1819

01:25:05,720 --> 01:25:01,440

well my voice in there with you I I

1820

01:25:08,660 --> 01:25:05,730

remember hearing about people going in

1821

01:25:11,630 --> 01:25:08,670

and starting with archeological digs and

1822

01:25:13,970 --> 01:25:11,640

like my bill was saying earlier they

1823

01:25:18,670 --> 01:25:13,980

would literally have to hire an army to

1824

01:25:22,580 --> 01:25:18,680

protect the site because it wasn't just

1825

01:25:24,770 --> 01:25:22,590

outside agencies coming in and robbing

1826

01:25:26,180 --> 01:25:24,780

the site it was the people coming in and

1827

01:25:30,170 --> 01:25:26,190

robbing their own site

1828

01:25:34,040 --> 01:25:30,180

yeah selling off their own heritage to

1829

01:25:37,040 --> 01:25:34,050

make money because the almighty dollar

1830

01:25:39,520 --> 01:25:37,050

or whatever they use for currency over

1831

01:25:42,640 --> 01:25:39,530

there is more important to them because

1832

01:25:45,200 --> 01:25:42,650

when they're starving to death yes I

1833

01:25:48,560 --> 01:25:45,210

mean so as soon as we turn up something

1834

01:25:51,860 --> 01:25:48,570

that's valuable they start digging it up

1835

01:25:54,140 --> 01:25:51,870

too and and selling it off as and even

1836

01:25:57,620 --> 01:25:54,150

though it's illegal in most in most

1837

01:25:59,600 --> 01:25:57,630

countries to sell artifacts they have a

1838

01:26:01,490 --> 01:25:59,610

black market so there's not a problem

1839

01:26:04,640 --> 01:26:01,500

with getting artifacts out of the

1840

01:26:07,760 --> 01:26:04,650

country and this this family this

1841

01:26:09,650 --> 01:26:07,770

fencing family probably has one black

1842

01:26:14,330 --> 01:26:09,660

market artifacts than any of them in the

1843

01:26:16,520 --> 01:26:14,340

world yeah yeah yeah yes they do what

1844

01:26:18,740 --> 01:26:16,530

happens to happen and it's not gonna

1845

01:26:23,620 --> 01:26:18,750

happen I don't see it happening in the

1846

01:26:26,630 --> 01:26:23,630

near future is these countries that are

1847

01:26:29,450 --> 01:26:26,640

you know basically monarchies where the

1848

01:26:31,310 --> 01:26:29,460

where the leadership is stripping their

1849

01:26:34,880 --> 01:26:31,320

own country and selling it off bit by

1850

01:26:37,729 --> 01:26:34,890

bit what needs to happen is for those

1851

01:26:39,740 --> 01:26:37,739

people need removed from power but you

1852

01:26:44,330 --> 01:26:39,750

know who's going to do that that's the

1853

01:26:47,690 --> 01:26:44,340

next question and there

1854

01:26:49,760 --> 01:26:47,700

left unprotected I mean and and when we

1855

01:26:52,040 --> 01:26:49,770

come in and we want to do our key

1856

01:26:54,290 --> 01:26:52,050

illogical digs there and the government

1857

01:26:56,530 --> 01:26:54,300

lets us in with open arms and then the

1858

01:26:58,880 --> 01:26:56,540

next thing you know we've got got

1859

01:27:00,800 --> 01:26:58,890

pirates coming and taking over the side

1860

01:27:04,490 --> 01:27:00,810

shooting archaeologists and stuff like

1861

01:27:06,560 --> 01:27:04,500

that that and it's crazy I mean it you

1862

01:27:11,120 --> 01:27:06,570

know it it's to the point where I'm glad

1863

01:27:12,500 --> 01:27:11,130

I didn't go for my doctorate thanks for

1864

01:27:14,960 --> 01:27:12,510

the call tonight thank you so much for

1865

01:27:18,350 --> 01:27:14,970

calling in thanks - all right thank you

1866

01:27:19,940 --> 01:27:18,360

all right I was kind of you know he's

1867

01:27:23,390 --> 01:27:19,950

kind of got a point there Heather that

1868

01:27:25,790 --> 01:27:23,400

you know there's a big uphill battle you

1869

01:27:27,710 --> 01:27:25,800

know anytime you find something you know

1870

01:27:30,350 --> 01:27:27,720

if it's outside that mainstream

1871

01:27:32,480 --> 01:27:30,360

archaeology and you go public with it

1872

01:27:34,550 --> 01:27:32,490

man you're gonna get hammered but then

1873

01:27:38,330 --> 01:27:34,560

it's another thing to cover the thing up

1874

01:27:41,420 --> 01:27:38,340

or to have mysterious you know artifacts

1875

01:27:43,910 --> 01:27:41,430

missing from a newly Archy you know a

1876

01:27:47,830 --> 01:27:43,920

new archaeological site and a new dig

1877

01:27:50,450 --> 01:27:47,840

and those artifacts are gone

1878

01:27:51,380 --> 01:27:50,460

that doesn't happen these things get

1879

01:27:54,680 --> 01:27:51,390

cataloged

1880

01:27:59,090 --> 01:27:54,690

there there's a process of information

1881

01:28:02,090 --> 01:27:59,100

that you know there's there's a custody

1882

01:28:05,360 --> 01:28:02,100

of these artifacts artifacts just don't

1883

01:28:09,350 --> 01:28:05,370

up and disappear unless somebody's got a

1884

01:28:12,890 --> 01:28:09,360

lot of power to do that and and there's

1885

01:28:15,530 --> 01:28:12,900

got to be a motive to hide artifacts and

1886

01:28:18,050 --> 01:28:15,540

information there's a lot of information

1887

01:28:20,930 --> 01:28:18,060

that's buried in basements that the

1888

01:28:22,580 --> 01:28:20,940

public will never see and these you know

1889

01:28:25,370 --> 01:28:22,590

I'm afraid that these tablets are going

1890

01:28:28,490 --> 01:28:25,380

to be gone never to see the light of day

1891

01:28:33,890 --> 01:28:28,500

again and it's it's interesting because

1892

01:28:35,720 --> 01:28:33,900

you're right people can you know people

1893

01:28:38,720 --> 01:28:35,730

need to be discussing this information

1894

01:28:40,610 --> 01:28:38,730

it needs to be on the table and what we

1895

01:28:44,870 --> 01:28:40,620

find out we need to be able to ask

1896

01:28:47,150 --> 01:28:44,880

questions we need to be able to vet the

1897

01:28:50,270 --> 01:28:47,160

information we need to be able to to

1898

01:28:52,700 --> 01:28:50,280

ponder the information and look we don't

1899

01:28:55,250 --> 01:28:52,710

have all the answers but at least get

1900

01:28:57,790 --> 01:28:55,260

the thing out in the light where it can

1901

01:29:01,330 --> 01:28:57,800

be examined and even if it cross

1902

01:29:03,730 --> 01:29:01,340

is the grain of what we know that should

1903

01:29:08,020 --> 01:29:03,740

be okay but in a lot of cases it's not

1904

01:29:11,080 --> 01:29:08,030

because well after all there are you

1905

01:29:13,330 --> 01:29:11,090

know ulterior motives out there aren't

1906

01:29:15,970 --> 01:29:13,340

there and maybe that's what's going on

1907

01:29:19,690 --> 01:29:15,980

here especially with these big companies

1908

01:29:21,810 --> 01:29:19,700

that are involved that's quite

1909

01:29:24,610 --> 01:29:21,820

interesting it is and you know it

1910

01:29:28,090 --> 01:29:24,620

another thing and this is just a quick

1911

01:29:30,370 --> 01:29:28,100

little statistic here a point on Africa

1912

01:29:33,400 --> 01:29:30,380

and in the context of see you know Egypt

1913

01:29:35,500 --> 01:29:33,410

or or what have you but the African

1914

01:29:37,630 --> 01:29:35,510

continent the cultural moment this is

1915

01:29:40,390 --> 01:29:37,640

according to UNESCO the cultural

1916

01:29:44,680 --> 01:29:40,400

material that is currently out of Africa

1917

01:29:47,800 --> 01:29:44,690

is 90 percent so 90 percent and that's

1918

01:29:50,620 --> 01:29:47,810

the entire continent the giant continent

1919

01:29:53,980 --> 01:29:50,630

of Africa which contains many many many

1920

01:29:56,680 --> 01:29:53,990

many countries and 90 percent of the

1921

01:29:58,720 --> 01:29:56,690

known cultural material is gone from the

1922

01:30:01,270 --> 01:29:58,730

continent and has been put out on

1923

01:30:02,490 --> 01:30:01,280

lucrative Western markets has ended up

1924

01:30:06,280 --> 01:30:02,500

in museums and private collections

1925

01:30:10,120 --> 01:30:06,290

everywhere except in Africa ninety

1926

01:30:12,430 --> 01:30:10,130

percent so that that's a so who knows

1927

01:30:14,410 --> 01:30:12,440

what they're going to find and and and

1928

01:30:16,570 --> 01:30:14,420

what we're gonna be able to see we'll

1929

01:30:19,180 --> 01:30:16,580

get the little you know benign tablets

1930

01:30:21,160 --> 01:30:19,190

that say you know this person sold grain

1931

01:30:23,470 --> 01:30:21,170

to that person oh look what we learned

1932

01:30:27,640 --> 01:30:23,480

about the Sumerians but in the meantime

1933

01:30:30,640 --> 01:30:27,650

in a mansion elsewhere in you know where

1934

01:30:32,560 --> 01:30:30,650

what kind of display is going on what

1935

01:30:35,560 --> 01:30:32,570

kind of you know and another thing that

1936

01:30:38,830 --> 01:30:35,570

is interesting we talk about public

1937

01:30:42,870 --> 01:30:38,840

knowledge and and publishing stuff the

1938

01:30:44,230 --> 01:30:42,880

the state of American archaeology is so

1939

01:30:48,070 --> 01:30:44,240

fragile

1940

01:30:50,590 --> 01:30:48,080

it's just crumbling due to the core

1941

01:30:52,450 --> 01:30:50,600

photography as well and and I'm sure

1942

01:30:54,850 --> 01:30:52,460

you're familiar with the term cultural

1943

01:30:57,550 --> 01:30:54,860

resource management the nice sterile

1944

01:30:59,710 --> 01:30:57,560

form of archaeology that we have here

1945

01:31:02,610 --> 01:30:59,720

well you know so many private

1946

01:31:06,220 --> 01:31:02,620

archaeological firms they end up having

1947

01:31:09,010 --> 01:31:06,230

you know what they call grey papers and

1948

01:31:11,010 --> 01:31:09,020

papers that just they they find stuff

1949

01:31:12,780 --> 01:31:11,020

they put it away

1950

01:31:15,930 --> 01:31:12,790

because it's not really their job to

1951

01:31:19,470 --> 01:31:15,940

inquire or to learn or to build it's -

1952

01:31:22,320 --> 01:31:19,480

you know excavate to comply with laws

1953

01:31:24,450 --> 01:31:22,330

and construction sites they do the

1954

01:31:27,390 --> 01:31:24,460

obligatory you know paper on it and it

1955

01:31:29,370 --> 01:31:27,400

goes away and it stays hid in a lot of

1956

01:31:32,580 --> 01:31:29,380

times not all places because I know a

1957

01:31:35,640 --> 01:31:32,590

couple people who have their own CMR you

1958

01:31:37,350 --> 01:31:35,650

know private companies that do great

1959

01:31:39,600 --> 01:31:37,360

things with the public and they put that

1960

01:31:42,660 --> 01:31:39,610

information out and it's wonderful but

1961

01:31:44,250 --> 01:31:42,670

it's not a universal these are private

1962

01:31:46,680 --> 01:31:44,260

companies who are out to make money

1963

01:31:48,870 --> 01:31:46,690

they're number one forces to make money

1964

01:31:50,940 --> 01:31:48,880

not necessarily research for the

1965

01:31:52,500 --> 01:31:50,950

betterment of humanity so that's another

1966

01:31:54,360 --> 01:31:52,510

player that we have that's kind of in

1967

01:31:57,140 --> 01:31:54,370

the mix here when we talk about the

1968

01:32:00,060 --> 01:31:57,150

understanding and appreciation of

1969

01:32:03,590 --> 01:32:00,070

history the historical narrative when it

1970

01:32:07,950 --> 01:32:03,600

comes to you know the public and the

1971

01:32:10,290 --> 01:32:07,960

important what Michael Cremona who is a

1972

01:32:12,870 --> 01:32:10,300

great you know researcher in some of

1973

01:32:16,170 --> 01:32:12,880

these alternative fields what he refers

1974

01:32:17,730 --> 01:32:16,180

to as the knowledge filter you know so I

1975

01:32:22,830 --> 01:32:17,740

think that's something important to

1976

01:32:25,100 --> 01:32:22,840

consider yes okay well you know you've

1977

01:32:28,350 --> 01:32:25,110

done a lot of work and a lot of writing

1978

01:32:30,990 --> 01:32:28,360

you got your new book coming out the

1979

01:32:32,730 --> 01:32:31,000

land of the Watchers what current

1980

01:32:34,470 --> 01:32:32,740

projects are you working on now other

1981

01:32:37,470 --> 01:32:34,480

than that are you in the field anywhere

1982

01:32:41,790 --> 01:32:37,480

are you writing a material what what are

1983

01:32:44,460 --> 01:32:41,800

your current projects I am here and

1984

01:32:47,370 --> 01:32:44,470

there I do some field work locally I've

1985

01:32:51,300 --> 01:32:47,380

been looking into some different Native

1986

01:32:54,120 --> 01:32:51,310

American sites some actually pre-clovis

1987

01:32:55,980 --> 01:32:54,130

sites and some which you know there's

1988

01:32:57,960 --> 01:32:55,990

there's controversy over the whole

1989

01:33:01,230 --> 01:32:57,970

Clovis idea and pre-clovis and whatnot

1990

01:33:04,170 --> 01:33:01,240

but you know basically looking at some

1991

01:33:05,400 --> 01:33:04,180

prehistoric settlements and you know

1992

01:33:07,050 --> 01:33:05,410

some forts and some different things

1993

01:33:07,680 --> 01:33:07,060

locally here in the great Great Lakes

1994

01:33:09,930 --> 01:33:07,690

region

1995

01:33:11,930 --> 01:33:09,940

so you know I'm looking I'm do I do a

1996

01:33:15,360 --> 01:33:11,940

little work here do a little work there

1997

01:33:19,650 --> 01:33:15,370

but my purse my my personal projects

1998

01:33:21,120 --> 01:33:19,660

here that I'm really focused on is a you

1999

01:33:22,590 --> 01:33:21,130

know land of the Watchers it's an edits

2000

01:33:24,820 --> 01:33:22,600

right now it's going to be available

2001

01:33:26,950 --> 01:33:24,830

this December

2002

01:33:29,380 --> 01:33:26,960

the first two chapters will be available

2003

01:33:30,970 --> 01:33:29,390

for free on my website starting in

2004

01:33:34,540 --> 01:33:30,980

around october/november

2005

01:33:37,150 --> 01:33:34,550

and so that should be good fun I have a

2006

01:33:39,340 --> 01:33:37,160

lot of contributors to land of the

2007

01:33:40,630 --> 01:33:39,350

Watchers and you know a lot more

2008

01:33:42,880 --> 01:33:40,640

information has been published like I

2009

01:33:46,810 --> 01:33:42,890

said I initially put out Sumerian

2010

01:33:49,870 --> 01:33:46,820

controversy as a as a report and this

2011

01:33:52,450 --> 01:33:49,880

ended up being a full sized pretty large

2012

01:33:54,820 --> 01:33:52,460

book that it just took on a life of its

2013

01:33:56,170 --> 01:33:54,830

own so so that that's in the works but

2014

01:33:58,590 --> 01:33:56,180

now that that's sort of out of the way

2015

01:34:00,880 --> 01:33:58,600

for now because it's still a developing

2016

01:34:03,310 --> 01:34:00,890

story I'm still following that story

2017

01:34:06,790 --> 01:34:03,320

because they do intend to go back this

2018

01:34:09,580 --> 01:34:06,800

coming field season I am in the meantime

2019

01:34:14,470 --> 01:34:09,590

I'm working on my next book called evil

2020

01:34:16,930 --> 01:34:14,480

archaeology that yeah that that one's

2021

01:34:18,550 --> 01:34:16,940

been a real interesting adventure it's

2022

01:34:21,520 --> 01:34:18,560

been a little scary actually I don't

2023

01:34:23,560 --> 01:34:21,530

scare easily but this one yeah I've had

2024

01:34:28,030 --> 01:34:23,570

some scary moments this I have been

2025

01:34:31,110 --> 01:34:28,040

looking into basically the archaeology

2026

01:34:33,900 --> 01:34:31,120

the archaeology of demons

2027

01:34:37,990 --> 01:34:33,910

archaeological evidence and history of

2028

01:34:42,430 --> 01:34:38,000

demons haunted relics that kind of thing

2029

01:34:44,620 --> 01:34:42,440

so it's it's more of a look at you know

2030

01:34:46,630 --> 01:34:44,630

where did all the you know there's so

2031

01:34:49,000 --> 01:34:46,640

many demons every every culture has a

2032

01:34:52,600 --> 01:34:49,010

type of demon there's the you know the

2033

01:34:55,450 --> 01:34:52,610

jinn you know regular just the Christian

2034

01:34:57,970 --> 01:34:55,460

demons there's there's every religion

2035

01:35:01,840 --> 01:34:57,980

has their type you know and even the

2036

01:35:04,030 --> 01:35:01,850

Christian demons a lot of them have the

2037

01:35:06,640 --> 01:35:04,040

names that they have originated from

2038

01:35:08,560 --> 01:35:06,650

ancient Babylonian gods and in writing

2039

01:35:12,220 --> 01:35:08,570

sounds going to ask you about that

2040

01:35:15,990 --> 01:35:12,230

because there is a huge tie between

2041

01:35:19,300 --> 01:35:16,000

those names and those demonic entities

2042

01:35:21,940 --> 01:35:19,310

let me ask you this do you think that

2043

01:35:23,560 --> 01:35:21,950

all falls back into the name of your

2044

01:35:25,390 --> 01:35:23,570

book actually the one that you're

2045

01:35:27,400 --> 01:35:25,400

working on now to this to the follow up

2046

01:35:30,190 --> 01:35:27,410

is the land of the Watchers and you know

2047

01:35:32,050 --> 01:35:30,200

what the watchers are you know it's

2048

01:35:36,550 --> 01:35:32,060

interesting that you name your book the

2049

01:35:38,679 --> 01:35:36,560

land of the Watchers because these all I

2050

01:35:41,679 --> 01:35:38,689

think tie-in back to

2051

01:35:44,229 --> 01:35:41,689

those original Watchers that came down

2052

01:35:47,529 --> 01:35:44,239

on mountain Hermon and intervened and a

2053

01:35:49,779 --> 01:35:47,539

man kindness Affairs way way back in the

2054

01:35:52,299 --> 01:35:49,789

beginning and those were those two

2055

01:35:55,179 --> 01:35:52,309

hundred watcher angels what do you think

2056

01:35:57,969 --> 01:35:55,189

about those Watchers are they related to

2057

01:36:03,310 --> 01:35:57,979

all the benevolence going on behind the

2058

01:36:04,810 --> 01:36:03,320

scenes well I I don't know I can't say

2059

01:36:07,390 --> 01:36:04,820

for certain because it's one of those

2060

01:36:11,439 --> 01:36:07,400

sort of unseen things and I tend to look

2061

01:36:13,359 --> 01:36:11,449

at the more tangible you know evidence

2062

01:36:16,029 --> 01:36:13,369

that could be before me but I wouldn't

2063

01:36:18,580 --> 01:36:16,039

rule anything out I think that there are

2064

01:36:21,580 --> 01:36:18,590

a lot of unseen forces in the world

2065

01:36:24,279 --> 01:36:21,590

today and most of them not so positive

2066

01:36:26,560 --> 01:36:24,289

to say the least so and they're my

2067

01:36:28,629 --> 01:36:26,570

that's why you're working on your book I

2068

01:36:29,199 --> 01:36:28,639

mean evil archaeology isn't that what

2069

01:36:32,649 --> 01:36:29,209

that's about

2070

01:36:36,310 --> 01:36:32,659

the oh yeah artifacts connected to those

2071

01:36:40,449 --> 01:36:36,320

entities and how you know they can

2072

01:36:42,459 --> 01:36:40,459

possess objects things it's that's

2073

01:36:44,319 --> 01:36:42,469

you're right that is a little creepy

2074

01:36:47,199 --> 01:36:44,329

it's a little creepy you know we've all

2075

01:36:49,149 --> 01:36:47,209

heard the stories of the the Mummy's

2076

01:36:52,409 --> 01:36:49,159

curse and all these little things that

2077

01:36:55,419 --> 01:36:52,419

come about from stories of the

2078

01:36:57,040 --> 01:36:55,429

archaeologists who stumble upon so I

2079

01:36:59,560 --> 01:36:57,050

guess for lack of better term

2080

01:37:01,600 --> 01:36:59,570

demonically possessed objects and and

2081

01:37:03,279 --> 01:37:01,610

because of that there's curses or they

2082

01:37:05,169 --> 01:37:03,289

unleash an evil on the world or

2083

01:37:08,069 --> 01:37:05,179

something to that effect there's stories

2084

01:37:11,199 --> 01:37:08,079

of that going back even in history of

2085

01:37:14,080 --> 01:37:11,209

objects being found or cursed objects

2086

01:37:18,520 --> 01:37:14,090

and so my question and then this is you

2087

01:37:21,759 --> 01:37:18,530

know what can artifacts hold some kind

2088

01:37:23,649 --> 01:37:21,769

of a force that way it is that even

2089

01:37:26,589 --> 01:37:23,659

possible and what's the evidence is

2090

01:37:27,939 --> 01:37:26,599

there any evidence and where do we get

2091

01:37:29,620 --> 01:37:27,949

all these demon names I mean I have a

2092

01:37:32,040 --> 01:37:29,630

lot of in this I've had to do a lot of

2093

01:37:34,649 --> 01:37:32,050

research on demonology I've interviewed

2094

01:37:38,169 --> 01:37:34,659

exorcists who will appear in my book and

2095

01:37:39,299 --> 01:37:38,179

their take on you know when they've done

2096

01:37:41,739 --> 01:37:39,309

exorcisms

2097

01:37:44,350 --> 01:37:41,749

what was the connect it was there any

2098

01:37:46,569 --> 01:37:44,360

sort of talisman that they might have

2099

01:37:48,819 --> 01:37:46,579

felt brought that demonic you know force

2100

01:37:52,270 --> 01:37:48,829

into the life of whomever was they had

2101  
01:37:54,820 --> 01:37:52,280  
to exercise so you know that's something

2102  
01:37:57,190 --> 01:37:54,830  
that whole idea of demonic possession or

2103  
01:38:00,160 --> 01:37:57,200  
demons and being associated with a thing

2104  
01:38:03,880 --> 01:38:00,170  
an object whether it's a maybe a Ouija

2105  
01:38:06,220 --> 01:38:03,890  
board or you know of frightening relic

2106  
01:38:08,590 --> 01:38:06,230  
or something like that I just look at

2107  
01:38:10,210 --> 01:38:08,600  
the question of can those physical

2108  
01:38:13,270 --> 01:38:10,220  
things actually carry a demonic presence

2109  
01:38:15,520 --> 01:38:13,280  
and what are demons and what's the

2110  
01:38:17,380 --> 01:38:15,530  
history of those as we can understand it

2111  
01:38:18,910 --> 01:38:17,390  
through the archaeological record you

2112  
01:38:22,150 --> 01:38:18,920  
know Heather that sounds like a great

2113  
01:38:23,950 --> 01:38:22,160

Halloween show would you want to come

2114

01:38:26,710 --> 01:38:23,960

back next month for a Halloween special

2115

01:38:29,140 --> 01:38:26,720

and talk about that I sure would but

2116

01:38:33,610 --> 01:38:29,150

I'll have to warn you it might be really

2117

01:38:36,880 --> 01:38:33,620

scary that's what we want we want to we

2118

01:38:39,700 --> 01:38:36,890

want that so okay guys if you're if you

2119

01:38:43,150 --> 01:38:39,710

who like dr. heather Lynn on this

2120

01:38:44,680 --> 01:38:43,160

broadcast here on epic you heard it

2121

01:38:45,550 --> 01:38:44,690

she's gonna come back next month for a

2122

01:38:47,800 --> 01:38:45,560

Halloween special

2123

01:38:50,800 --> 01:38:47,810

so okay sounds like a done deal so I'm

2124

01:38:53,560 --> 01:38:50,810

gonna I'm going to I'm gonna pitch you

2125

01:38:56,140 --> 01:38:53,570

in for the Halloween special on epic

2126  
01:38:59,130 --> 01:38:56,150  
we're gonna talk about this and I know

2127  
01:39:01,390 --> 01:38:59,140  
it's a work in progress but Wow

2128  
01:39:03,610 --> 01:39:01,400  
fascinating I think our listeners are

2129  
01:39:06,520 --> 01:39:03,620  
gonna really really like it and I know

2130  
01:39:10,000 --> 01:39:06,530  
I'm gonna look forward to that show when

2131  
01:39:13,210 --> 01:39:10,010  
I come back on the air next month as of

2132  
01:39:17,950 --> 01:39:13,220  
course we host our show every Monday

2133  
01:39:22,510 --> 01:39:17,960  
with alternating guest hosts and so I

2134  
01:39:24,730 --> 01:39:22,520  
will be back in October at the end of

2135  
01:39:26,980 --> 01:39:24,740  
October and we'll be back on I guess

2136  
01:39:28,420 --> 01:39:26,990  
with dr. heather Lynn and evil

2137  
01:39:32,620 --> 01:39:28,430  
archaeology Wow

2138  
01:39:34,210 --> 01:39:32,630

fascinating okay Heather tell people how

2139

01:39:35,740 --> 01:39:34,220

they can get involved in your research

2140

01:39:39,670 --> 01:39:35,750

if they want to help you out in some way

2141

01:39:42,400 --> 01:39:39,680

how to contact you tell us a little bit

2142

01:39:46,570 --> 01:39:42,410

about that well you can go on my website

2143

01:39:49,060 --> 01:39:46,580

it's a dr. Heather landcom but you can

2144

01:39:49,840 --> 01:39:49,070

also email me I always respond to emails

2145

01:39:53,890 --> 01:39:49,850

that's Heather

2146

01:39:55,780 --> 01:39:53,900

at dr. heather Lynn comm I get a lot of

2147

01:39:58,210 --> 01:39:55,790

emails so I might be a little slow to

2148

01:39:59,770 --> 01:39:58,220

respond but I always respond no matter

2149

01:40:02,080 --> 01:39:59,780

what is in the email I will always

2150

01:40:04,510 --> 01:40:02,090

respond so feel free to email me with

2151  
01:40:05,979 --> 01:40:04,520  
questions comments anything you want

2152  
01:40:08,319 --> 01:40:05,989  
Heather at dr.

2153  
01:40:11,470 --> 01:40:08,329  
Heather Lin calm you can also check out

2154  
01:40:14,620 --> 01:40:11,480  
my Facebook you know I think I'm kind of

2155  
01:40:16,479 --> 01:40:14,630  
maxed out on friends on my personal page

2156  
01:40:21,609 --> 01:40:16,489  
so I don't know it'll be maxed out on

2157  
01:40:24,120 --> 01:40:21,619  
friends Heather I think you made a new

2158  
01:40:26,799 --> 01:40:24,130  
one here I can tell you that I

2159  
01:40:28,120 --> 01:40:26,809  
appreciate that and I hope to make more

2160  
01:40:29,770 --> 01:40:28,130  
after tonight I'd love to hear from

2161  
01:40:31,720 --> 01:40:29,780  
people that's one of my favorite things

2162  
01:40:33,600 --> 01:40:31,730  
is to get emails because we learn from

2163  
01:40:36,520 --> 01:40:33,610

each other I've learned more from

2164

01:40:39,279 --> 01:40:36,530

listeners and readers than I ever have

2165

01:40:41,890 --> 01:40:39,289

anywhere else so feel free to always

2166

01:40:46,410 --> 01:40:41,900

email me and the best way is Heather at

2167

01:40:48,790 --> 01:40:46,420

dr. heather Lynn comm okay guys great

2168

01:40:51,250 --> 01:40:48,800

Heather thanks so much for coming on the

2169

01:40:54,129 --> 01:40:51,260

show tonight it was a fantastic show and

2170

01:40:56,890 --> 01:40:54,139

it goes by so fast as always tonight is

2171

01:40:59,859 --> 01:40:56,900

no different it went by so fast you're a

2172

01:41:02,500 --> 01:40:59,869

great guest and thank you for coming on

2173

01:41:04,029 --> 01:41:02,510

and we're glad that you're back up and

2174

01:41:06,279 --> 01:41:04,039

running and you're back in good health

2175

01:41:08,560 --> 01:41:06,289

and good luck on your research and I'm

2176

01:41:10,930 --> 01:41:08,570

going to talk to you next month on the

2177

01:41:13,509 --> 01:41:10,940

Halloween show sounds good thank you so

2178

01:41:15,939 --> 01:41:13,519

much for having me you're welcome you're

2179

01:41:18,310 --> 01:41:15,949

welcome okay guys that's it for us here

2180
