2017

1
00:00:07,880 --> 00:00:04,849
hello it's Thursday May 18th 2017 you

2
00:00:10,910 --> 00:00:07,890
are listening to inception radio network

3
00:00:15,650 --> 00:00:10,920
voice of the fringe majority this is

4
00:00:17,660 --> 00:00:15,660
Carol Karl with UFO headline news there

5
00:00:20,689 --> 00:00:17,670
are patterns in the sky patterns in the

6
00:00:22,790 --> 00:00:20,699
stars a pattern here at UFO headline

7
00:00:24,980 --> 00:00:22,800
news is to start with information about

8
00:00:27,980 --> 00:00:24,990
what you can see in your sky tonight

9
00:00:29,990 --> 00:00:27,990
after the Sun Goes Down you never know

10
00:00:32,510 --> 00:00:30,000
what else you might spot while you're

11
00:00:34,580 --> 00:00:32,520
looking up and tonight if you're in the

12
00:00:37,340 --> 00:00:34,590
mid northern latitudes you can easily

13
00:00:40,639 --> 00:00:37,350

find the brilliant star Vega in the sky

14

00:00:42,650 --> 00:00:40,649

in the East at dusk and nightfall Vega

15

00:00:45,830 --> 00:00:42,660

acts as your guide to something called

16

00:00:49,369 --> 00:00:45,840

the Keystone that's a pattern of four

17

00:00:51,680 --> 00:00:49,379

stars in the constellation Hercules look

18

00:00:53,869 --> 00:00:51,690

for the Keystone asterism those things

19

00:00:57,080 --> 00:00:53,879

that are patterns of stars but they're

20

00:00:58,760 --> 00:00:57,090

not quite constellations that will be to

21

00:01:01,639 --> 00:00:58,770

the upper-right of the brilliant

22

00:01:04,579 --> 00:01:01,649

blue-white star Vega it's that thing

23

00:01:06,260 --> 00:01:04,589

again of how to measure if you hold your

24

00:01:08,600 --> 00:01:06,270

fist at arm's length

25

00:01:12,109 --> 00:01:08,610

well there's easily enough room between

26

00:01:15,230 --> 00:01:12,119

Vega and the Keystone for your fist to

27

00:01:17,660 --> 00:01:15,240

fit right beneath the tube you can also

28

00:01:19,550 --> 00:01:17,670

locate the Keystone by using Vega in

29

00:01:23,090 --> 00:01:19,560

conjunction with a brilliant yellow

30

00:01:26,300 --> 00:01:23,100

orange star Arcturus from mid northern

31

00:01:27,740 --> 00:01:26,310

latitudes Arcturus is found way high in

32

00:01:28,700 --> 00:01:27,750

the southern sky at nightfall and

33

00:01:31,819 --> 00:01:28,710

evening

34

00:01:34,429 --> 00:01:31,829

the Keystone that's about one-third the

35

00:01:36,319 --> 00:01:34,439

way from Vega to Arcturus the two

36

00:01:38,679 --> 00:01:36,329

brightest stars to grace the Northern

37

00:01:41,780 --> 00:01:38,689

Hemisphere's spring and summertime sky

38

00:01:44,389 --> 00:01:41,790

the only star like object to outshine

39

00:01:46,789 --> 00:01:44,399

these stars is King planet Jupiter

40

00:01:50,389 --> 00:01:46,799

that'll be in the West to Southwest at

41

00:01:52,760 --> 00:01:50,399

nightfall the Keystone in turn is your

42

00:01:55,249 --> 00:01:52,770

ticket to finding the famous globular

43

00:01:57,770 --> 00:01:55,259

star cluster in Hercules we talked about

44

00:02:00,080 --> 00:01:57,780

globular star clusters here at UFO

45

00:02:02,660 --> 00:02:00,090

headline news just yesterday this

46

00:02:04,730 --> 00:02:02,670

particular globular star cluster has

47

00:02:07,370 --> 00:02:04,740

another name besides the Keystone it's

48

00:02:12,770 --> 00:02:07,380

also known as the great cluster in

49

00:02:13,850 --> 00:02:12,780

Hercules also Messier 13 or M 13 but

50

00:02:15,530 --> 00:02:13,860

whatever you

51
00:02:17,390 --> 00:02:15,540
all it most likely you're going to need

52
00:02:19,880 --> 00:02:17,400
binoculars to see it

53
00:02:22,490 --> 00:02:19,890
although sharp-eyed people can see it

54
00:02:25,430 --> 00:02:22,500
with the unaided eye providing the sky

55
00:02:27,470 --> 00:02:25,440
is very dark and transparent through

56
00:02:31,490 --> 00:02:27,480
binoculars this cluster looks like a dim

57
00:02:33,860 --> 00:02:31,500
hazy star but the telescope begins to

58
00:02:36,650 --> 00:02:33,870
resolve this faint fuzzy into what it

59
00:02:39,949 --> 00:02:36,660
really is a great big globe shaped

60
00:02:43,280 --> 00:02:39,959
stellar City populated with hundreds of

61
00:02:45,650 --> 00:02:43,290
thousands of stars the Keystone and the

62
00:02:47,870 --> 00:02:45,660
Hercules cluster swing high overhead

63
00:02:51,050 --> 00:02:47,880

after midnight and are found in the

64

00:02:53,270 --> 00:02:51,060

western sky before dawn here's the

65

00:02:56,150 --> 00:02:53,280

bottom line let the bright star Vega

66

00:02:58,940 --> 00:02:56,160

guide you to a famous star pattern in

67

00:03:03,380 --> 00:02:58,950

Hercules called the Keystone and then on

68

00:03:06,400 --> 00:03:03,390

to the great cluster in Hercules aka m13

69

00:03:09,500 --> 00:03:06,410

that famous globular star cluster

70

00:03:12,229 --> 00:03:09,510

clusters of stars to the planet Mars

71

00:03:15,410 --> 00:03:12,239

are you ready here's a headline Mars

72

00:03:18,440 --> 00:03:15,420

rover reaches site that scientists still

73

00:03:21,830 --> 00:03:18,450

can't explain it's called the

74

00:03:25,789 --> 00:03:21,840

perseverance valley this has a byline

75

00:03:27,740 --> 00:03:25,799

for Mike Waner from BGR news.com when

76
00:03:29,840 --> 00:03:27,750
new discoveries on Mars are made you

77
00:03:32,570 --> 00:03:29,850
typically see the name curiosity

78
00:03:35,900 --> 00:03:32,580
associated with them that's uppercase C

79
00:03:38,150 --> 00:03:35,910
but nASA has another Rover cruising

80
00:03:40,759 --> 00:03:38,160
around that Martian surface and it just

81
00:03:43,340 --> 00:03:40,769
arrived one of the most confusing places

82
00:03:46,509 --> 00:03:43,350
on the planet the pint-sized Rover is

83
00:03:49,130 --> 00:03:46,519
now investigating perseverance Valley a

84
00:03:51,160 --> 00:03:49,140
massive gash in the Martian surface that

85
00:03:54,770 --> 00:03:51,170
researchers still can't fully explain

86
00:03:57,500 --> 00:03:54,780
the rover Opportunity was launched way

87
00:03:59,479 --> 00:03:57,510
back in 2003 and was only expected to

88
00:04:03,350 --> 00:03:59,489

carry out its observation and research

89

00:04:05,449 --> 00:04:03,360

mission for a few months today over 13

90

00:04:08,270 --> 00:04:05,459

years since it was expected to retire

91

00:04:11,030 --> 00:04:08,280

the rover still functions and NASA

92

00:04:13,940 --> 00:04:11,040

continues to send it on new tours of the

93

00:04:15,949 --> 00:04:13,950

Red Planet opportunity which is much

94

00:04:18,289 --> 00:04:15,959

much smaller than its car-sized

95

00:04:20,330 --> 00:04:18,299

curiosity cousin was sent to

96

00:04:22,390 --> 00:04:20,340

perseverance Valley in hopes of shedding

97

00:04:24,920 --> 00:04:22,400

some light on its origins

98

00:04:27,980 --> 00:04:24,930

scientists who study Mars know that the

99

00:04:29,779 --> 00:04:27,990

valley was carved by some dramatic force

100

00:04:32,600 --> 00:04:29,789

but with a handful of possibilities

101
00:04:36,140 --> 00:04:32,610
including water wind and even muddy

102
00:04:38,240 --> 00:04:36,150
rocks there's still no clear answer with

103
00:04:40,010 --> 00:04:38,250
a rover in place researchers plan to use

104
00:04:42,499 --> 00:04:40,020
its observations to generate a detailed

105
00:04:44,589 --> 00:04:42,509
map and that can be used to plan the

106
00:04:47,480 --> 00:04:44,599
vehicles driving route along the rim

107
00:04:49,999 --> 00:04:47,490
eventually entering the valley itself as

108
00:04:51,920 --> 00:04:50,009
with all new information and

109
00:04:53,770 --> 00:04:51,930
observations of the Red Planet

110
00:04:56,480 --> 00:04:53,780
research like this will prove invaluable

111
00:04:59,629 --> 00:04:56,490
in planning further robotic exploration

112
00:05:01,969 --> 00:04:59,639
of Mars as well as the eventual human

113
00:05:03,980 --> 00:05:01,979

exploration of the planet currently

114

00:05:08,960 --> 00:05:03,990

slated to take place at some point in

115

00:05:12,469 --> 00:05:08,970

the 2030s perseverance Valley just has a

116

00:05:15,230 --> 00:05:12,479

pioneer ring to it well that might be

117

00:05:18,980 --> 00:05:15,240

appropriate here's a fascinating

118

00:05:22,700 --> 00:05:18,990

headline Russian outlet claims NASA took

119

00:05:27,080 --> 00:05:22,710

an amazing totally true image of three

120

00:05:29,230 --> 00:05:27,090

UFOs yep you heard right Lee Spiegel

121

00:05:31,969 --> 00:05:29,240

gets the Huffington Post byline here

122

00:05:35,570 --> 00:05:31,979

whenever a story comes out claiming to

123

00:05:38,110 --> 00:05:35,580

show real pictures or video of UFOs hope

124

00:05:41,360 --> 00:05:38,120

springs eternal that maybe just maybe

125

00:05:45,110 --> 00:05:41,370

this might be that elusive smoking-gun

126

00:05:47,390 --> 00:05:45,120

evidence of alien technology not a day

127

00:05:49,999 --> 00:05:47,400

goes by either without something in the

128

00:05:53,360 --> 00:05:50,009

news questioning the honesty of certain

129

00:05:56,330 --> 00:05:53,370

Americans or Russians now it seems that

130

00:05:59,570 --> 00:05:56,340

UFOs have been added to that media storm

131

00:06:01,969 --> 00:05:59,580

an innocent image and you can see that

132

00:06:04,700 --> 00:06:01,979

image later gentle listeners at UFO

133

00:06:07,640 --> 00:06:04,710

headline news Calm it's from a

134

00:06:11,659 --> 00:06:07,650

collection called pixabay that spelled p

135

00:06:13,790 --> 00:06:11,669

IX ABA why that's something that offers

136

00:06:16,399 --> 00:06:13,800

many free stock photos to use for

137

00:06:19,839 --> 00:06:16,409

practically anything you'd like this one

138

00:06:22,700 --> 00:06:19,849

shows our Sun with a black circular spot

139

00:06:27,080 --> 00:06:22,710

reportedly the planet Mercury making its

140

00:06:29,689 --> 00:06:27,090

transit across our home star still how

141

00:06:33,439 --> 00:06:29,699

would pixabay feel if a Russian news

142

00:06:36,459 --> 00:06:33,449

site Pravda dot are you ironically the

143

00:06:40,070 --> 00:06:36,469

name means truth took that same picture

144

00:06:41,870 --> 00:06:40,080

added two more black dots called them

145

00:06:44,870 --> 00:06:41,880

all UFOs

146

00:06:49,220 --> 00:06:44,880

and claimed this was in fact a picture

147

00:06:52,190 --> 00:06:49,230

captured by a NASA stereo spacecraft Wow

148

00:06:54,080 --> 00:06:52,200

writes lease Pico if you compare the two

149

00:06:56,650 --> 00:06:54,090

images it doesn't take long to figure

150

00:06:59,540 --> 00:06:56,660

out that the Sun in the two pictures is

151

00:07:02,360 --> 00:06:59,550

identical and that all that Pravda dot

152

00:07:05,600 --> 00:07:02,370

ru did was finish it off with two more

153

00:07:07,820 --> 00:07:05,610

quote UFOs end quotes and a headline

154

00:07:10,850 --> 00:07:07,830

that reads quote NASA spacecraft

155

00:07:14,510 --> 00:07:10,860

captures three huge UFO silhouetted

156

00:07:18,110 --> 00:07:14,520

against the Sun and quotes Lee Spiegel

157

00:07:20,750 --> 00:07:18,120

again says that deserves another Wow

158

00:07:22,940 --> 00:07:20,760

when HuffPost reached out to a NASA

159

00:07:25,250 --> 00:07:22,950

spokesmen to comment about all of this

160

00:07:27,530 --> 00:07:25,260

he said quote I'm not aware of this

161

00:07:30,290 --> 00:07:27,540

photo being released certainly not from

162

00:07:35,180 --> 00:07:30,300

NASA there is no official or unofficial

163

00:07:36,860 --> 00:07:35,190

NASA posting of the image end quotes for

164

00:07:39,080 --> 00:07:36,870

what it's worth this isn't the first

165

00:07:40,420 --> 00:07:39,090

time that UFO charlatans have tried to

166

00:07:42,200 --> 00:07:40,430

convince the public that

167

00:07:45,170 --> 00:07:42,210

extraterrestrial ships are getting a

168

00:07:48,080 --> 00:07:45,180

little too close to our Sun there's a

169

00:07:50,180 --> 00:07:48,090

video of an alleged alien ship refueling

170

00:07:53,120 --> 00:07:50,190

that's according to a source that is

171

00:07:56,270 --> 00:07:53,130

definitely not NASA there'll be a link

172

00:07:58,640 --> 00:07:56,280

to that video also NASA generally has

173

00:08:01,160 --> 00:07:58,650

well-thought-out explanations for these

174

00:08:05,450 --> 00:08:01,170

types of UFO incursions into our solar

175

00:08:07,040 --> 00:08:05,460

system for its part Pravda dot ru we

176

00:08:10,150 --> 00:08:07,050

just separate from the Communist Party

177

00:08:13,330 --> 00:08:10,160

paper as a history of extremely creative

178

00:08:17,090 --> 00:08:13,340

journalism but the truth is out there

179

00:08:20,120 --> 00:08:17,100

it's just not Pravda dot our use truth

180

00:08:22,100 --> 00:08:20,130

in a quirky synchronicity this

181

00:08:25,340 --> 00:08:22,110

broadcaster just realized we read you

182

00:08:27,470 --> 00:08:25,350

something about Pravda yesterday perhaps

183

00:08:31,670 --> 00:08:27,480

they're trying to rebrand for better

184

00:08:33,860 --> 00:08:31,680

credibility just saying what say we

185

00:08:36,230 --> 00:08:33,870

bounce over to the United Kingdom and

186

00:08:39,860 --> 00:08:36,240

187

00:08:42,230 --> 00:08:39,870

for the Croydon advertiser the mystery

188

00:08:44,270 --> 00:08:42,240

surrounding a set of lights circling in

189

00:08:47,630 --> 00:08:44,280

the sky above Croydon may have been

190

00:08:50,690 --> 00:08:47,640

solved on two evenings this week Monday

191

00:08:53,270 --> 00:08:50,700

May 15th and Tuesday May 16th four

192

00:08:55,850 --> 00:08:53,280

bright lights of baffled onlookers as

193

00:08:57,829 --> 00:08:55,860

they lit up the night sky which led to

194

00:09:01,910 --> 00:08:57,839

some not too serious speculation that

195

00:09:04,519 --> 00:09:01,920

UFOs were paying the borough a visit no

196

00:09:06,620 --> 00:09:04,529

planes or helicopters were seen or heard

197

00:09:10,100 --> 00:09:06,630

and the spots of light were thought to

198

00:09:11,540 --> 00:09:10,110

be too close together to be drones some

199

00:09:13,550 --> 00:09:11,550

residents thought Croydon could be

200

00:09:15,530 --> 00:09:13,560

receiving a visit from another world

201
00:09:18,380 --> 00:09:15,540
they were freaking out over the

202
00:09:20,690 --> 00:09:18,390
unexplained lights eyewitnesses took to

203
00:09:23,210 --> 00:09:20,700
the Internet in droves to see if they

204
00:09:24,829 --> 00:09:23,220
were alone in wondering if the Burrow

205
00:09:28,069 --> 00:09:24,839
had become the site of some sort of

206
00:09:29,870 --> 00:09:28,079
alien landing Twitter Facebook filled

207
00:09:32,509 --> 00:09:29,880
with people questioning the quote

208
00:09:36,740 --> 00:09:32,519
strange lights in the sky and quote

209
00:09:38,600 --> 00:09:36,750
here's a tweet from me she says lots of

210
00:09:42,860 --> 00:09:38,610
strange lights in the sky over Croydon

211
00:09:45,470 --> 00:09:42,870
anyone anyone on the evenings the lights

212
00:09:47,780 --> 00:09:45,480
were spotted cells didn't Park Hotel off

213
00:09:51,290 --> 00:09:47,790

Addington Road happened to be hosting a

214

00:09:53,960 --> 00:09:51,300

corporate event and as much as we hate

215

00:09:56,389 --> 00:09:53,970

to say this could solve the mystery well

216

00:09:56,690 --> 00:09:56,399

it could solve the mystery it goes like

217

00:10:00,050 --> 00:09:56,700

this

218

00:10:02,449 --> 00:10:00,060

the Selsdon Park Hotel that Grand Hotel

219

00:10:04,430 --> 00:10:02,459

used spot lights to illuminate the

220

00:10:06,500 --> 00:10:04,440

building which may have beamed those

221

00:10:09,319 --> 00:10:06,510

mysterious lights into the sky above

222

00:10:11,600 --> 00:10:09,329

Croydon a spokesman for the hotel said

223

00:10:13,759 --> 00:10:11,610

quote we have had spotlights lighting up

224

00:10:16,189 --> 00:10:13,769

the majority of the hotel they are

225

00:10:18,470 --> 00:10:16,199

moving spotlights it's purely because we

226

00:10:20,990 --> 00:10:18,480

have a private event on site for a large

227

00:10:23,630 --> 00:10:21,000

corporate client these lights were all

228

00:10:25,550 --> 00:10:23,640

pointing upward and moving but they were

229

00:10:26,650 --> 00:10:25,560

mainly shining on our building and

230

00:10:29,240 --> 00:10:26,660

quotes

231

00:10:31,189 --> 00:10:29,250

despite this explanation some witnesses

232

00:10:34,130 --> 00:10:31,199

were adamant that the lights appeared to

233

00:10:36,710 --> 00:10:34,140

be coming from above and not below the

234

00:10:39,980 --> 00:10:36,720

thick clouds which cloaked Croydon over

235

00:10:42,259 --> 00:10:39,990

the past couple of nights it's anybody's

236

00:10:44,480 --> 00:10:42,269

guess this broadcaster couldn't quite

237

00:10:47,540 --> 00:10:44,490

tell they are circles of lights all

238

00:10:49,069 --> 00:10:47,550

around a giant circle shape there's

239

00:10:51,530 --> 00:10:49,079

nothing beyond the shape that we could

240

00:10:55,400 --> 00:10:51,540

see they somehow just don't look like

241

00:10:57,500 --> 00:10:55,410

reflected spotlights wonder / - UFO

00:11:07,369 --> 00:11:03,779

that we've been covering here at UFO

00:11:10,699 --> 00:11:07,379

headline news for well the whole time we

247

00:11:13,849 --> 00:11:10,709

here at UFO headline news it's shag

harbour up in Nova Scotia there was that

249

00:11:20,389 --> 00:11:16,579

famous shag Harbor UFO incident and

250

00:11:23,509 --> 00:11:20,399

there's a society and a museum and a

251
00:11:26,019 --> 00:11:23,519
festival well not so much of a festival

252
00:11:30,099 --> 00:11:26,029
this year unfortunately let's read

October 1967 shag harbour UFO incident

260
00:11:53,119 --> 00:11:50,789
comes the question of how to mark the

261
00:11:55,639 --> 00:11:53,129
50th anniversary and you've been denied

262
00:11:58,849 --> 00:11:55,649

mark the 50th anniversary of that

265

00:12:07,039 --> 00:12:03,539

incident took a nosedive recently when a

266

00:12:09,549 --> 00:12:07,049

bid for funding got rejected the shag

267

00:12:12,859 --> 00:12:09,559

268

00:12:15,429 --> 00:12:12,869

\$20,000 Canadian to celebrate the half

269

00:12:17,960 --> 00:12:15,439

270

00:12:20,299 --> 00:12:17,970

harbour Shelburne County has less than

272

00:12:26,569 --> 00:12:23,309

500 residents but they are sitting on

273

00:12:30,109 --> 00:12:26,579

one of Canada's biggest mysteries the

274

00:12:33,619 --> 00:12:30,119

events of October 4th 1967 still remain

275

00:12:36,319 --> 00:12:33,629

a mystery today but we do know that it's

276

00:12:39,259 --> 00:12:36,329

still the most documented UFO sighting

277

00:12:42,159 --> 00:12:39,269

in history on that night around 11:00

278

00:12:44,659 --> 00:12:42,169

p.m. an unidentified flying object

279

00:12:45,319 --> 00:12:44,669

measuring approximately 60 feet in

280

00:12:47,509 --> 00:12:45,329

diameter

281

00:12:50,449 --> 00:12:47,519

according to witnesses was seen hovering

282

00:12:53,359 --> 00:12:50,459

over the small community before crashing

283

00:12:55,759 --> 00:12:53,369

into the water most believed it to be a

284

00:12:58,340 --> 00:12:55,769

plane crash but no plane was ever

285

00:13:00,469 --> 00:12:58,350

reported missing the following day the

286

00:13:02,239 --> 00:13:00,479

Rescue Coordination Center filed a

287

00:13:04,849 --> 00:13:02,249

report with the Canadian Forces

288

00:13:07,429 --> 00:13:04,859

headquarters out of Ottawa that report

289

00:13:09,979 --> 00:13:07,439

stated something had hit the water in

290

00:13:14,119 --> 00:13:09,989

shag harbour but the object was of quote

291

00:13:16,009 --> 00:13:14,129

unknown origin end quote through the

292

00:13:17,779 --> 00:13:16,019

years volunteers have struggled to gain

293

00:13:20,929 --> 00:13:17,789

recognition for this event

294

00:13:21,170 --> 00:13:20,939

well we can't get a lot of love here in

295

00:13:23,510 --> 00:13:21,180

check

296

00:13:25,550 --> 00:13:23,520

Harbor they won't even give us a highway

297

00:13:27,110 --> 00:13:25,560

sign on highway 103

298

00:13:30,230 --> 00:13:27,120

that's according to society

299

00:13:32,180 --> 00:13:30,240

vice-president Brock zinc it's true

300

00:13:34,250 --> 00:13:32,190

there is no sign from the highway

301

00:13:37,190 --> 00:13:34,260

showing where to turn off for this

302

00:13:39,170 --> 00:13:37,200

iconic village quote maybe the

303

00:13:39,800 --> 00:13:39,180

government doesn't want to know we're

304

00:13:43,250 --> 00:13:39,810

here

305

00:13:45,380 --> 00:13:43,260

end quotes said zinc mysteriously right

306

00:13:47,960 --> 00:13:45,390

now the society is figuring out what

307

00:13:51,470 --> 00:13:47,970

they can offer for that 50th event at

308

00:13:53,930 --> 00:13:51,480

grassroots level said Brock Zink quote

309

00:13:56,840 --> 00:13:53,940

we were really counting on that grant

310

00:13:58,670 --> 00:13:56,850

and quote they like many in their

311

00:14:01,750 --> 00:13:58,680

surrounding communities had applied for

312

00:14:05,210 --> 00:14:01,760

something called the Canada 150 grant

313

00:14:08,120 --> 00:14:05,220

quote we were excited it does throw a

314

00:14:10,280 --> 00:14:08,130

wrench in our preparations we had big

315

00:14:12,980 --> 00:14:10,290

plans to take it to the next level and

316

00:14:15,530 --> 00:14:12,990

quotes they were hoping to use the

317

00:14:17,840 --> 00:14:15,540

funding dollars to fly in top experts in

318

00:14:20,210 --> 00:14:17,850

the UFO phenomena field from the United

319

00:14:22,520 --> 00:14:20,220

States and Canada but now they're going

320

00:14:25,340 --> 00:14:22,530

to have to cancel that part of the event

321

00:14:27,680 --> 00:14:25,350

quote working on a limited budgets going

322

00:14:30,500 --> 00:14:27,690

to be tough we'll have to do it all on

323

00:14:32,480 --> 00:14:30,510

our own says Zink and quote it won't

324

00:14:36,590 --> 00:14:32,490

come close to what we wanted to achieve

325

00:14:38,120 --> 00:14:36,600

end quotes the Society is meeting now to

326

00:14:40,430 --> 00:14:38,130

try to figure out how to throw a

327

00:14:43,460 --> 00:14:40,440

weekend-long celebration worth talking

328

00:14:46,490 --> 00:14:43,470

about September 29th to October 1st as

329

00:14:49,880 --> 00:14:46,500

well as an event on October 4th to mark

330

00:14:51,730 --> 00:14:49,890

the anniversary but we want to bring it

331

00:14:54,170 --> 00:14:51,740

this year end quote said Brock Zink

332

00:14:56,470 --> 00:14:54,180

there are some events already set up

333

00:14:59,930 --> 00:14:56,480

there's a costume dance with DJs

334

00:15:01,880 --> 00:14:59,940

unidentified defunk objects and speakers

335

00:15:04,760 --> 00:15:01,890

like Chris Styles will share their

336

00:15:06,950 --> 00:15:04,770

first-hand account of the incident the

337

00:15:08,750 --> 00:15:06,960

highly popular bus tour that highlights

338

00:15:10,580 --> 00:15:08,760

the history and locations of the landing

339

00:15:13,790 --> 00:15:10,590

is also going to be part of the

340

00:15:15,560 --> 00:15:13,800

festivities already people are doing

341

00:15:18,500 --> 00:15:15,570

what they can to spread the word about

342

00:15:20,900 --> 00:15:18,510

the festival podcasters are hyping it up

343

00:15:23,150 --> 00:15:20,910

said Brock Zink and writer Don Leger

344

00:15:26,780 --> 00:15:23,160

who's currently out on a book tour is

345

00:15:28,880 --> 00:15:26,790

talking about it at every stop in Brock

346

00:15:30,950 --> 00:15:28,890

zinc's opinion this story is one that

347

00:15:34,790 --> 00:15:30,960

should be what Roswell is to the United

348

00:15:36,800 --> 00:15:34,800

States quote I am super sad

349

00:15:40,570 --> 00:15:36,810

it had made an otherwise sleepy

350

00:15:43,280 --> 00:15:40,580

community stand out and quotes he says

351

00:15:46,460 --> 00:15:43,290

we say it's a shame that some of the

352

00:15:50,079 --> 00:15:46,470

really big names in ufology can't

353

00:15:53,329 --> 00:15:50,089

organize go up there to it for nothing a

354

00:15:56,690 --> 00:15:53,339

genuine grassroots level contribution

355

00:15:59,150 --> 00:15:56,700

perhaps here's something we're going to

356

00:16:01,880 --> 00:15:59,160

have to hang on and go back in time for

357

00:16:04,610 --> 00:16:01,890

this one to nineteen eighty the month of

358

00:16:06,800 --> 00:16:04,620

June and we're going to execute a

359

00:16:09,500 --> 00:16:06,810

striking change of trajectory we're

360

00:16:12,050 --> 00:16:09,510

going from Nova Scotia down to Kings Bay

361

00:16:17,389 --> 00:16:12,060

Georgia on the east coast of the United

362

00:16:19,870 --> 00:16:17,399

States the date 1980 June 16th it wasn't

363

00:16:22,639 --> 00:16:19,880

reported till April 23rd of this year

364

00:16:26,090 --> 00:16:22,649

it's MUFON Case number eight three three

365

00:16:29,600 --> 00:16:26,100

zero five here's a summary moved with

366

00:16:34,310 --> 00:16:29,610

blink of eye thirty seven years ago I

367

00:16:36,230 --> 00:16:34,320

know we are not alone citing specifics

368

00:16:38,780 --> 00:16:36,240

offer a viewing distance of five hundred

369

00:16:41,410 --> 00:16:38,790

and one foot to one mile an altitude

370

00:16:44,420 --> 00:16:41,420

over five hundred feet no cloud cover

371

00:16:47,199 --> 00:16:44,430

sighting duration one minute object

372

00:16:50,960 --> 00:16:47,209

features unknown object flight path

373

00:16:53,300 --> 00:16:50,970

stationary hovering and then path then a

374

00:16:55,670 --> 00:16:53,310

straight-line path and then the path

375

00:16:58,699 --> 00:16:55,680

with directional change and then a path

376

00:17:02,210 --> 00:16:58,709

and then hovering and this object was

377

00:17:06,409 --> 00:17:02,220

star like here's the report first words

378

00:17:08,929 --> 00:17:06,419

from our witness raw and unedited I was

379

00:17:12,350 --> 00:17:08,939

in the Navy nineteen eighty Kings Bay

380

00:17:14,030 --> 00:17:12,360

Georgia naval submarine base me and

381

00:17:16,819 --> 00:17:14,040

three guys were outside of the base at

382

00:17:19,970 --> 00:17:16,829

Crooked River State Park right next to

383

00:17:22,880 --> 00:17:19,980

the base it was a dark night outside we

384

00:17:26,659 --> 00:17:22,890

were standing around and I said oh look

385

00:17:29,870 --> 00:17:26,669

at that star as we all seen it I realize

386

00:17:32,510 --> 00:17:29,880

this is not a star no more than five

387

00:17:36,250 --> 00:17:32,520

seconds goes by and this orb of light

388

00:17:39,080 --> 00:17:36,260

moves and it's right over the top of us

389

00:17:42,080 --> 00:17:39,090

now everyone is like Oh bleep

390

00:17:45,350 --> 00:17:42,090

immediately we all said that's not a

391

00:17:48,350 --> 00:17:45,360

star it moved with a blink of an eye

392

00:17:52,130 --> 00:17:48,360

now we were looking straight up at it

393

00:17:56,539 --> 00:17:52,140

sound nothing five seconds more

394

00:17:58,190 --> 00:17:56,549

this orb took off blink of an eye all

395

00:18:00,409 --> 00:17:58,200

that time we looked at each other and

396

00:18:04,070 --> 00:18:00,419

said we don't have anything that fast

397

00:18:09,080 --> 00:18:04,080

with no sound and then we all said don't

398

00:18:12,620 --> 00:18:09,090

say a word about what we saw 37 years

399

00:18:15,950 --> 00:18:12,630

later I just did I believe we are not

400

00:18:18,529 --> 00:18:15,960

alone then I have to toss out this

401
00:18:21,110 --> 00:18:18,539
broadcasters chill omelet just kind of

402
00:18:23,330 --> 00:18:21,120
went off the charts here somehow we get

403
00:18:26,799 --> 00:18:23,340
an inner gut level feeling of

404
00:18:29,570 --> 00:18:26,809
authenticity about this one curious

405
00:18:31,850 --> 00:18:29,580
let's be curious about this case out of

406
00:18:35,299 --> 00:18:31,860
Helen Wood Tennessee shall we

407
00:18:37,460 --> 00:18:35,309
it's MUFON case number 8 3 7 2 1

408
00:18:39,350 --> 00:18:37,470
it occurred on st. Patrick's Day

409
00:18:40,879 --> 00:18:39,360
although we don't have any reason to

410
00:18:45,200 --> 00:18:40,889
believe there's a connection

411
00:18:47,590 --> 00:18:45,210
3 17 2017 is the date of the sighting it

412
00:18:52,730 --> 00:18:47,600
wasn't reported till the 14th of May

413
00:18:57,220 --> 00:18:52,740

summary craft cigar shape flat ends red

414

00:19:02,060 --> 00:18:57,230

wide stripe on side full roll of windows

415

00:19:05,450 --> 00:19:02,070

lizard looking people hmm the viewing

416

00:19:08,960 --> 00:19:05,460

distance here citing specifics 101 to

417

00:19:12,350 --> 00:19:08,970

500 feet and then 500 feet eventually

418

00:19:16,310 --> 00:19:12,360

becoming one mile the altitude 500 feet

419

00:19:18,919 --> 00:19:16,320

or less over 500 feet later and there

420

00:19:22,190 --> 00:19:18,929

seemed to be cloud cover the sighting

421

00:19:24,529 --> 00:19:22,200

duration was one hour and this object is

422

00:19:27,799 --> 00:19:24,539

said to have had features that resembled

423

00:19:30,950 --> 00:19:27,809

windows its flight path stationary

424

00:19:34,639 --> 00:19:30,960

hovering then path straight line path

425

00:19:38,299 --> 00:19:34,649

path with directional change a path and

426

00:19:41,899 --> 00:19:38,309

then hovering and then other and this

427

00:19:43,820 --> 00:19:41,909

object was shaped like a cigar the

428

00:19:45,799 --> 00:19:43,830

weather in Helen Wood Tennessee at the

429

00:19:48,500 --> 00:19:45,809

time of this occurrence was maximum

430

00:19:51,769 --> 00:19:48,510

temperature 57 degrees Fahrenheit 14

431

00:19:54,230 --> 00:19:51,779

degrees Celsius minimum temperature 28

432

00:19:57,200 --> 00:19:54,240

degrees Fahrenheit minus 2 degrees

433

00:20:00,139 --> 00:19:57,210

Celsius a maximum visibility was 10

434

00:20:02,000 --> 00:20:00,149

miles 16 kilometers down to the minimum

435

00:20:04,870 --> 00:20:02,010

which was only 2 miles

436

00:20:08,900 --> 00:20:04,880

two kilometers because it was raining

437

00:20:12,110 --> 00:20:08,910

here we go I was in my backyard picking

438

00:20:14,900 --> 00:20:12,120

up sticks I needed a moment to rest I

439

00:20:18,860 --> 00:20:14,910

was looking around my trees and saw a

440

00:20:20,690 --> 00:20:18,870

bright flash there just hovering in the

441

00:20:25,340 --> 00:20:20,700

air between the tree in the cloud level

442

00:20:29,120 --> 00:20:25,350

I saw what I thought was a 757 or larger

443

00:20:31,970 --> 00:20:29,130

airplane but there was no sound and that

444

00:20:33,530 --> 00:20:31,980

no sound is what gained my attention as

445

00:20:35,840 --> 00:20:33,540

I looked closer

446

00:20:39,860 --> 00:20:35,850

there was no aircraft lighting there

447

00:20:41,570 --> 00:20:39,870

were no wings no tail no nose it just

448

00:20:44,780 --> 00:20:41,580

looked like a cigar shape with no

449

00:20:47,960 --> 00:20:44,790

rounded ends these ends were flat the

450

00:20:49,790 --> 00:20:47,970

craft itself was 400 to 500 feet long it

451
00:20:52,880 --> 00:20:49,800
seemed to be a hundred and fifty to two

452
00:20:55,550 --> 00:20:52,890
hundred feet in diameter this whole

453
00:20:57,950 --> 00:20:55,560
craft was solid chrome they had a red

454
00:21:00,710 --> 00:20:57,960
stripe through the centre now that red

455
00:21:03,890 --> 00:21:00,720
stripe looked to be 30 to 50 feet from

456
00:21:07,250 --> 00:21:03,900
start to finish all the way down to the

457
00:21:10,880 --> 00:21:07,260
other end within that red stripe was a

458
00:21:13,700 --> 00:21:10,890
row of windows which was in the centre

459
00:21:17,570 --> 00:21:13,710
of the width of the stripe they looked

460
00:21:19,970 --> 00:21:17,580
to be 15 by 15 maybe 25 by 25 sized

461
00:21:24,140 --> 00:21:19,980
windows they went through the full

462
00:21:26,510 --> 00:21:24,150
length of this red stripe itself now as

463
00:21:26,990 --> 00:21:26,520

the craft travelled past me there was no

464

00:21:30,050 --> 00:21:27,000

sound

465

00:21:32,750 --> 00:21:30,060

I saw the windows and through those

466

00:21:36,290 --> 00:21:32,760

windows I could see what I thought were

467

00:21:39,020 --> 00:21:36,300

people some looked like people some

468

00:21:42,560 --> 00:21:39,030

looked different some looked like people

469

00:21:45,440 --> 00:21:42,570

but more like lizards it's hard to

470

00:21:48,110 --> 00:21:45,450

understand there was a light glow from

471

00:21:50,300 --> 00:21:48,120

within that craft but the chrome would

472

00:21:53,210 --> 00:21:50,310

seem to have large flashes coming from

473

00:21:56,210 --> 00:21:53,220

it at different times this object moved

474

00:21:59,810 --> 00:21:56,220

slowly like a blimp would move like they

475

00:22:01,910 --> 00:21:59,820

were just watching the last bright flash

476

00:22:04,750 --> 00:22:01,920

I saw from this craft it was no longer

477

00:22:07,730 --> 00:22:04,760

there the craft it was just gone and

478

00:22:10,280 --> 00:22:07,740

there was no sound of any kind during

479

00:22:13,250 --> 00:22:10,290

the entire time fifty-five minutes to an

480

00:22:14,720 --> 00:22:13,260

hour I watched this go on it would move

481

00:22:17,810 --> 00:22:14,730

stop and

482

00:22:20,630 --> 00:22:17,820

and move and stop again it was like they

483

00:22:24,470 --> 00:22:20,640

were on a history sightseeing trip flash

484

00:22:28,430 --> 00:22:24,480

I see them they cruise by flesh I no

485

00:22:31,090 --> 00:22:28,440

longer see them gone yep

486

00:22:32,270 --> 00:22:31,100

just extraterrestrial field trips

487

00:22:36,590 --> 00:22:32,280

tourism

488

00:22:38,919 --> 00:22:36,600

well no answers here just more mysteries

489

00:22:41,630 --> 00:22:38,929

another mystery where does the time go

490

00:22:43,580 --> 00:22:41,640

because we're seeing now we got to get

491

00:22:46,610 --> 00:22:43,590

out of here time to bounce because

492

00:22:49,430 --> 00:22:46,620
