

Inception Radio Network

UFO Headline News Monday May 22nd,
2017

1
00:00:07,730 --> 00:00:05,630
hello it's Monday May 22nd 2017 you are

2
00:00:10,520 --> 00:00:07,740
listening to inception radio network

3
00:00:15,860 --> 00:00:10,530
voice of the fringe majority this is

4
00:00:17,930 --> 00:00:15,870
Carol Carl with UFO headline news gentle

5
00:00:20,570 --> 00:00:17,940
listeners if you were awake before dawn

6
00:00:22,790 --> 00:00:20,580
this morning you might have seen if it

7
00:00:24,859 --> 00:00:22,800
was fair and clear that is something

8
00:00:27,560 --> 00:00:24,869
kind of amazing in the sky in that

9
00:00:28,099 --> 00:00:27,570
unobstructed view if you got it toward

10
00:00:30,230 --> 00:00:28,109
the east

11
00:00:32,299 --> 00:00:30,240
there's a lovely pairing of the two

12
00:00:35,150 --> 00:00:32,309
brightest objects in the night sky the

13
00:00:37,880 --> 00:00:35,160

moon and Venus it's going to happen

14

00:00:41,810 --> 00:00:37,890

again tonight our source today is space

15

00:00:43,340 --> 00:00:41,820

comm and Joe Rao gets the byline he says

16

00:00:45,950 --> 00:00:43,350

we're going to immediately notice that

17

00:00:48,110 --> 00:00:45,960

crescent moon appearing as a slender

18

00:00:50,979 --> 00:00:48,120

sliver the moon's disc will be

19

00:00:53,810 --> 00:00:50,989

illuminated just 16% by sunlight

20

00:00:56,029 --> 00:00:53,820

hovering to the upper left of the lunar

21

00:00:58,189 --> 00:00:56,039

Crescent will be the planet Venus

22

00:01:01,130 --> 00:00:58,199

shining like a bright silvery white

23

00:01:03,920 --> 00:01:01,140

celestial Lantern it's magnitude minus

24

00:01:06,380 --> 00:01:03,930

4.6 on the brightness scale the one used

25

00:01:09,080 --> 00:01:06,390

by astronomers the two objects will be

26
00:01:11,469 --> 00:01:09,090
separated by roughly 3.5 to 4 degrees

27
00:01:14,719 --> 00:01:11,479
that's roughly equal to less than

28
00:01:17,210 --> 00:01:14,729
one-half the apparent width of your fist

29
00:01:18,890 --> 00:01:17,220
held out at arm's length this won't be

30
00:01:20,719 --> 00:01:18,900
an exceptionally close approach between

31
00:01:22,820 --> 00:01:20,729
these two objects but they're great

32
00:01:25,010 --> 00:01:22,830
brilliance makes them an eye-catching

33
00:01:28,010 --> 00:01:25,020
sights in the early morning sky and

34
00:01:30,380 --> 00:01:28,020
mercury will also be visible very low on

35
00:01:33,590 --> 00:01:30,390
the eastern horizon to the lower left of

36
00:01:36,679 --> 00:01:33,600
both objects and of course what we'll

37
00:01:41,300 --> 00:01:36,689
see is an illusion of perspective the

38
00:01:44,749 --> 00:01:41,310

moon is 229 thousand miles 369 thousand

39

00:01:47,899 --> 00:01:44,759

kilometers from Earth while Venus is 243

40

00:01:50,149 --> 00:01:47,909

times farther away at 55 point seven

41

00:01:53,090 --> 00:01:50,159

million miles or eighty nine point six

42

00:01:55,460 --> 00:01:53,100

million kilometers Venus will arrive at

43

00:01:58,010 --> 00:01:55,470

its greatest Western elongation that

44

00:02:00,859 --> 00:01:58,020

greatest angular distance west of the

45

00:02:03,260 --> 00:02:00,869

Sun not until June 3rd but it will

46

00:02:05,450 --> 00:02:03,270

slowly get higher in the Eastern morning

47

00:02:08,119 --> 00:02:05,460

sky right through the first half of the

48

00:02:10,460 --> 00:02:08,129

summer right now Venus is rising two

49

00:02:12,710 --> 00:02:10,470

hours before the Sun but by the third

50

00:02:13,750 --> 00:02:12,720

week of July that will have increased to

51

00:02:16,330 --> 00:02:13,760

three hours

52

00:02:18,070 --> 00:02:16,340

and Venus will shine at nearly that same

53

00:02:20,020 --> 00:02:18,080

brilliance for a number of mornings to

54

00:02:22,390 --> 00:02:20,030

come so you won't have to miss it

55

00:02:26,350 --> 00:02:22,400

currently Mina's rises in the East at

56

00:02:28,960 --> 00:02:26,360

3:45 a.m. your local time the eerie low

57

00:02:31,180 --> 00:02:28,970

glimmering of Venus is a harbinger of

58

00:02:33,009 --> 00:02:31,190

daybreak which will only begin minutes

59

00:02:35,380 --> 00:02:33,019

later if you've got access to a

60

00:02:37,869 --> 00:02:35,390

telescope you'd see that Venus's

61

00:02:40,660 --> 00:02:37,879

illuminated portion has fattened to

62

00:02:43,210 --> 00:02:40,670

almost half full and once you know where

63

00:02:45,160 --> 00:02:43,220

Venus is relative to the moon see if you

64

00:02:46,690 --> 00:02:45,170

can see the planet after the Sun has

65

00:02:49,180 --> 00:02:46,700

come up you shouldn't have a problem

66

00:02:51,699 --> 00:02:49,190

glimpsing it in the daytime it's going

67

00:02:54,789 --> 00:02:51,709

to appear as a tiny white speck against

68

00:02:56,979 --> 00:02:54,799

the blue sky and incidentally on Monday

69

00:02:59,710 --> 00:02:56,989

the moon will not be within one of the

70

00:03:01,720 --> 00:02:59,720

12 zodiac signs nope it's going to be

71

00:03:05,259 --> 00:03:01,730

just within the border of the

72

00:03:07,660 --> 00:03:05,269

constellation Cetus CET us Cetus the

73

00:03:10,390 --> 00:03:07,670

whale because the moon isn't always

74

00:03:12,910 --> 00:03:10,400

positioned exactly on the elliptic its

75

00:03:15,309 --> 00:03:12,920

orbit is tilted slightly relative to the

76
00:03:17,890 --> 00:03:15,319
orbital plane of Earth it sometimes can

77
00:03:20,050 --> 00:03:17,900
stray into constellations immediately

78
00:03:23,110 --> 00:03:20,060
adjacent to those traditional zodiacal

79
00:03:25,210 --> 00:03:23,120
signs and Monday today that's one of

80
00:03:27,129 --> 00:03:25,220
those occasions as it is

81
00:03:30,039 --> 00:03:27,139
Cetus the whale what you've just heard

82
00:03:32,800 --> 00:03:30,049
might be considered says Jo Rao a whale

83
00:03:35,289 --> 00:03:32,810
of a tale there are some cool graphics

84
00:03:38,890 --> 00:03:35,299
and photos that accompany this article

85
00:03:41,530 --> 00:03:38,900
head on over to UFO headline news calm

86
00:03:43,720 --> 00:03:41,540
later and check them out time for an

87
00:03:47,319 --> 00:03:43,730
update on that alien mega-structure

88
00:03:50,289 --> 00:03:47,329

tabby star headline that weird alien

89

00:03:53,470 --> 00:03:50,299

mega-structure star is dimming again

90

00:03:55,569 --> 00:03:53,480

right now ser effect gets the byline

91

00:03:58,300 --> 00:03:55,579

here for the science department of

92

00:04:00,879 --> 00:03:58,310

popular science here's what she writes

93

00:04:03,270 --> 00:04:00,889

in late 2015

94

00:04:05,159 --> 00:04:03,280

astronomers noticed something absurd

95

00:04:08,140 --> 00:04:05,169

happening around a distant star

96

00:04:11,129 --> 00:04:08,150

something massive seemed to be blocking

97

00:04:14,229 --> 00:04:11,139

as much as 20% of that star's light

98

00:04:17,439 --> 00:04:14,239

that's way too much to be a planet it

99

00:04:20,319 --> 00:04:17,449

might be comets or maybe an alien made

100

00:04:22,630 --> 00:04:20,329

Dyson swarm the problem is that none of

101
00:04:25,060 --> 00:04:22,640
the hypotheses that scientists have come

102
00:04:27,370 --> 00:04:25,070
up with including that one about aliens

103
00:04:29,080 --> 00:04:27,380
really fits the data

104
00:04:31,360 --> 00:04:29,090
that leads them to think that some

105
00:04:34,090 --> 00:04:31,370
as-yet-undiscovered phenomena is

106
00:04:36,700 --> 00:04:34,100
happening around this star for years

107
00:04:38,410 --> 00:04:36,710
astronomer Tabitha Boyajian and her

108
00:04:40,600 --> 00:04:38,420
colleagues have been waiting for the

109
00:04:42,850 --> 00:04:40,610
mysterious light dips to happen again so

110
00:04:44,590 --> 00:04:42,860
they could collect more data and try to

111
00:04:49,120 --> 00:04:44,600
get to the bottom of this mystery and

112
00:04:53,080 --> 00:04:49,130
now the star is finally dimming again

113
00:04:56,080 --> 00:04:53,090

writes Jason right it's a tweet alert T

114

00:04:59,200 --> 00:04:56,090

Boyajian star is dipping this is not a

115

00:05:01,210 --> 00:04:59,210

drill the researchers had suspected

116

00:05:03,010 --> 00:05:01,220

another dip was happening but the

117

00:05:05,370 --> 00:05:03,020

morning of May 19th

118

00:05:07,960 --> 00:05:05,380

the Fairborn Observatory in Arizona

119

00:05:11,200 --> 00:05:07,970

confirmed that the star indeed has

120

00:05:14,230 --> 00:05:11,210

dimmed by 3% by comparison a

121

00:05:16,150 --> 00:05:14,240

jupiter-sized planet would block 1% of a

122

00:05:19,660 --> 00:05:16,160

star's light at the very most

123

00:05:21,520 --> 00:05:19,670

that's King planet Jupiter the team has

124

00:05:23,980 --> 00:05:21,530

put out a call for amateur astronomers

125

00:05:26,110 --> 00:05:23,990

and large observatories to point their

126

00:05:29,500 --> 00:05:26,120

scopes at the star and try to collect

127

00:05:31,720 --> 00:05:29,510

data the Swift Keck Fairborn and Lick

128

00:05:33,370 --> 00:05:31,730

Observatory telescopes are among the

129

00:05:35,740 --> 00:05:33,380

observatories who will be helping in

130

00:05:37,480 --> 00:05:35,750

this effort in particular the

131

00:05:39,970 --> 00:05:37,490

astronomers want to see how the star

132

00:05:41,650 --> 00:05:39,980

looks in different wavelengths that's

133

00:05:44,110 --> 00:05:41,660

because different materials will block

134

00:05:46,000 --> 00:05:44,120

some wavelengths but not others that'll

135

00:05:48,430 --> 00:05:46,010

offer clues to the identity of any

136

00:05:50,890 --> 00:05:48,440

circumstellar material which could be

137

00:05:52,420 --> 00:05:50,900

blocking the light if it's dust that's

138

00:05:54,250 --> 00:05:52,430

blocking the light the spectra should

139

00:05:56,860 --> 00:05:54,260

show big dips in the blue and

140

00:05:59,740 --> 00:05:56,870

ultraviolet wavelengths if it's other

141

00:06:02,200 --> 00:05:59,750

stuff orbiting the star like a family of

142

00:06:04,840 --> 00:06:02,210

huge comets then the observations should

143

00:06:07,450 --> 00:06:04,850

show extra heat being radiated off of

144

00:06:10,510 --> 00:06:07,460

this kind of stuff so far that access

145

00:06:12,400 --> 00:06:10,520

infrared has remained elusive but Jason

146

00:06:14,950 --> 00:06:12,410

Wright that astronomer from Penn State

147

00:06:17,380 --> 00:06:14,960

said that the new observations which

148

00:06:20,350 --> 00:06:17,390

began on the 19th could provide that

149

00:06:22,390 --> 00:06:20,360

first evidence if it's an alien

150

00:06:24,790 --> 00:06:22,400

mega-structure or some kind of internal

151

00:06:28,060 --> 00:06:24,800

process all of the wavelengths should

152

00:06:30,430 --> 00:06:28,070

get dimmer equally a bizarre signature

153

00:06:33,160 --> 00:06:30,440

such as tritium or artificial elements

154

00:06:35,260 --> 00:06:33,170

would be pretty strong hints for aliens

155

00:06:37,600 --> 00:06:35,270

although it would take an extraordinary

156

00:06:40,690 --> 00:06:37,610

amount of evidence to prove such an

157

00:06:41,170 --> 00:06:40,700

extraordinary claim Jason Wright said

158

00:06:43,360 --> 00:06:41,180

they might

159

00:06:46,029 --> 00:06:43,370

have some preliminary results back as

160

00:06:48,460 --> 00:06:46,039

soon as the 20th of May but other data

161

00:06:50,560 --> 00:06:48,470

will take longer to analyze he said

162

00:06:53,110 --> 00:06:50,570

quote I don't think we're going to solve

163

00:06:55,390 --> 00:06:53,120

the puzzle this weekend end quotes but

164

00:06:57,129 --> 00:06:55,400

he added that this weekend maybe when

165

00:07:00,850 --> 00:06:57,139

they collect that data it will

166

00:07:03,100 --> 00:07:00,860

eventually solve that puzzle and here at

167

00:07:05,890 --> 00:07:03,110

UFO headline news we will let you know

168

00:07:08,770 --> 00:07:05,900

what we can find out here's what we

169

00:07:11,260 --> 00:07:08,780

found out about that shag harbour UFO

170

00:07:13,480 --> 00:07:11,270

festival with the denial of their

171

00:07:15,820 --> 00:07:13,490

funding by the Canadian government they

172

00:07:18,189 --> 00:07:15,830

wanted to go big for the fiftieth

173

00:07:19,689 --> 00:07:18,199

anniversary celebration event but it

174

00:07:21,820 --> 00:07:19,699

didn't look like it was going to happen

175

00:07:25,060 --> 00:07:21,830

beyond their usual grassroots approach

176

00:07:26,980 --> 00:07:25,070

and Brock Zink was very disappointed

177

00:07:28,810 --> 00:07:26,990

he's organizing the festival he also

178

00:07:30,249 --> 00:07:28,820

complained that for some reason the

179

00:07:32,950 --> 00:07:30,259

government has never given them a

180

00:07:35,080 --> 00:07:32,960

highway turn off site in other words if

181

00:07:37,420 --> 00:07:35,090

you want to go to shag harbour in

182

00:07:39,339 --> 00:07:37,430

Shelburne County Nova Scotia for the

183

00:07:42,310 --> 00:07:39,349

festival well you're going to have to

184

00:07:45,159 --> 00:07:42,320

use a Google map or some such but here's

185

00:07:48,969 --> 00:07:45,169

an article from open mind TV posted by

186

00:07:51,850 --> 00:07:48,979

alejandro rojas headline anonymous donor

187

00:07:55,210 --> 00:07:51,860

saves shag harbour UFO incidents

188

00:07:57,310 --> 00:07:55,220

fiftieth anniversary event earlier this

189

00:07:59,980 --> 00:07:57,320

week a newspaper in Shelburne County

190

00:08:02,500 --> 00:07:59,990

Nova Scotia reported that an event plan

191

00:08:04,930 --> 00:08:02,510

to celebrate the 50th anniversary of one

192

00:08:07,870 --> 00:08:04,940

of Canada's most famous UFO incidents

193

00:08:09,730 --> 00:08:07,880

was in jeopardy due to funding that

194

00:08:12,610 --> 00:08:09,740

event is being organized by the shag

195

00:08:14,529 --> 00:08:12,620

harbour UFO incident society they'd

196

00:08:16,240 --> 00:08:14,539

hoped to secure a grant offered by

197

00:08:19,870 --> 00:08:16,250

Canada's Department of Communities

198

00:08:22,180 --> 00:08:19,880

culture and heritage unfortunately they

199

00:08:24,430 --> 00:08:22,190

were not approved for the grant and that

200

00:08:26,320 --> 00:08:24,440

put the events future in question they

201
00:08:29,589 --> 00:08:26,330
were never going to cancel but it was

202
00:08:31,589 --> 00:08:29,599
going to go small according to the shag

203
00:08:34,390 --> 00:08:31,599
harbour UFO incident society an

204
00:08:37,329 --> 00:08:34,400
anonymous donor has now come forward to

205
00:08:40,899 --> 00:08:37,339
fund the event and all the festivities

206
00:08:43,300 --> 00:08:40,909
are now back on shag harbour is a small

207
00:08:46,480 --> 00:08:43,310
fishing village with 500 residents their

208
00:08:49,750 --> 00:08:46,490
claim to UFO fame occurred October 4th

209
00:08:52,480 --> 00:08:49,760
1967 here's just a quick overview of

210
00:08:54,700 --> 00:08:52,490
what happened this is a web site set up

211
00:08:56,920 --> 00:08:54,710
by the Canadian Library and Archives

212
00:09:01,360 --> 00:08:56,930
this is their description of the shag

213
00:09:04,720 --> 00:09:01,370

harbour event October 4th 1967 on the

214

00:09:06,730 --> 00:09:04,730

night of October 4th 1967 officers of

215

00:09:09,340 --> 00:09:06,740

the Royal Canadian Mounted Police and

216

00:09:12,580 --> 00:09:09,350

six civilians witnessed an incredible

217

00:09:14,830 --> 00:09:12,590

yet unexplainable sight earlier in the

218

00:09:17,170 --> 00:09:14,840

evening the RCMP had received many phone

219

00:09:19,630 --> 00:09:17,180

calls from residents reporting an

220

00:09:21,850 --> 00:09:19,640

airplane had crashed into shag harbour

221

00:09:24,010 --> 00:09:21,860

both the Royal Canadian Mounted Police

222

00:09:25,750 --> 00:09:24,020

and locals had rushed to the shore of

223

00:09:28,950 --> 00:09:25,760

the harbour but what they encountered

224

00:09:31,870 --> 00:09:28,960

there was far from conventional aircraft

225

00:09:34,000 --> 00:09:31,880

witnesses reported seeing an object 60

226

00:09:35,650 --> 00:09:34,010

feet in length moving in an easterly

227

00:09:38,980 --> 00:09:35,660

direction before it descended rapidly

228

00:09:42,040 --> 00:09:38,990

into the water making a bright splash on

229

00:09:43,990 --> 00:09:42,050

impact this broadcaster recently had

230

00:09:46,300 --> 00:09:44,000

contact with an individual who was

231

00:09:49,560 --> 00:09:46,310

apparently there at the site and said

232

00:09:51,820 --> 00:09:49,570

this was not only bright it was noisy a

233

00:09:53,320 --> 00:09:51,830

single white light appeared on the

234

00:09:53,830 --> 00:09:53,330

surface of the water for a short period

235

00:09:57,220 --> 00:09:53,840

of time

236

00:09:59,320 --> 00:09:57,230

the RCMP with help from local fishermen

237

00:10:02,290 --> 00:09:59,330

and their boats endeavoured to reach the

238

00:10:03,700 --> 00:10:02,300

object before it sank completely local

239

00:10:07,060 --> 00:10:03,710

fishermen remembered travelling through

240

00:10:09,670 --> 00:10:07,070

thick glittery yellow foam to get to

241

00:10:11,260 --> 00:10:09,680

where they saw this object bubbles from

242

00:10:13,570 --> 00:10:11,270

underneath the surface of the water

243

00:10:15,010 --> 00:10:13,580

appeared around their boats the crews

244

00:10:17,280 --> 00:10:15,020

attempted to search the area for

245

00:10:19,630 --> 00:10:17,290

evidence of survivors but found no one

246

00:10:21,880 --> 00:10:19,640

the Department of National Defence

247

00:10:24,460 --> 00:10:21,890

conducted an underwater search of the

248

00:10:27,670 --> 00:10:24,470

area but they too failed to find any

249

00:10:29,710 --> 00:10:27,680

evidence of the object the crashing of

250

00:10:32,140 --> 00:10:29,720

the unidentified flying object into shag

251

00:10:33,970 --> 00:10:32,150

harbour is still discussed today with

252

00:10:37,150 --> 00:10:33,980

many articles appearing on the Internet

253

00:10:39,760 --> 00:10:37,160

there is no trace of the RCMP reports of

254

00:10:41,080 --> 00:10:39,770

this sighting in the files the

255

00:10:43,390 --> 00:10:41,090

Department of National Defence has

256

00:10:46,150 --> 00:10:43,400

identified this sighting as unsolved and

257

00:10:48,400 --> 00:10:46,160

the only documentation that exists in

258

00:10:50,980 --> 00:10:48,410

the files is that National Department of

259

00:10:52,480 --> 00:10:50,990

Defence memo you can read that memo for

260

00:10:54,880 --> 00:10:52,490

yourselves gentle listeners later

261

00:10:58,450 --> 00:10:54,890

there'll be a link at UFO headline news

262

00:11:00,850 --> 00:10:58,460

com Alejandro Rojas continues the

263

00:11:02,910 --> 00:11:00,860

incident is famous in UFO circles and

264

00:11:05,879 --> 00:11:02,920

often refer to as Canada's

265

00:11:07,500 --> 00:11:05,889

well however the society members say

266

00:11:10,379 --> 00:11:07,510

they haven't received the support they

267

00:11:12,780 --> 00:11:10,389

feel they deserve Brock Zink vice

268

00:11:15,120 --> 00:11:12,790

president told the Shelburne County

269

00:11:17,190 --> 00:11:15,130

Coast Guard quote we can't get a lot of

270

00:11:20,340 --> 00:11:17,200

love here in shag harbour they won't

271

00:11:21,079 --> 00:11:20,350

even give us a highway 103 sign end

272

00:11:24,180 --> 00:11:21,089

quote

273

00:11:26,759 --> 00:11:24,190

well that's puzzling we found graphic

274

00:11:29,550 --> 00:11:26,769

evidence that that sign exists is it a

275

00:11:32,100 --> 00:11:29,560

Photoshop and who would do that and why

276

00:11:34,439 --> 00:11:32,110

I will back to our story

277

00:11:36,870 --> 00:11:34,449

Brock Zink who is the vice president of

278

00:11:39,030 --> 00:11:36,880

the shag Harbor UFO incident Society

279

00:11:41,699 --> 00:11:39,040

told the Shelburne County Coast Guard

280

00:11:44,009 --> 00:11:41,709

newspaper quote we can't get a lot of

281

00:11:47,400 --> 00:11:44,019

love here in shag harbour they won't

282

00:11:48,900 --> 00:11:47,410

even give us a highway 103 sign maybe

283

00:11:52,199 --> 00:11:48,910

the government doesn't want to know

284

00:11:53,759 --> 00:11:52,209

we're there and quotes said sink their

285

00:11:56,430 --> 00:11:53,769

hearts were further broken when they got

286

00:11:57,780 --> 00:11:56,440

denial of that Grant quote we were

287

00:12:01,170 --> 00:11:57,790

really counting on the grant we were

288

00:12:03,540 --> 00:12:01,180

excited said Zink and then came the good

289

00:12:05,400 --> 00:12:03,550

news they sent a press release to open

290

00:12:07,530 --> 00:12:05,410

minds dot TV in it

291

00:12:10,740 --> 00:12:07,540

Brock Zink writes quote we are back on

292

00:12:13,620 --> 00:12:10,750

track to make this the most epic shag

293

00:12:15,540 --> 00:12:13,630

harbour UFO incident festival ever it's

294

00:12:17,639 --> 00:12:15,550

going to be out of this world

295

00:12:19,829 --> 00:12:17,649

end quote Brock Zink said that a

296

00:12:22,740 --> 00:12:19,839

civilian who is involved with the study

297

00:12:25,319 --> 00:12:22,750

of UFOs and related phenomenon read

298

00:12:27,900 --> 00:12:25,329

about the lack of funding and as he put

299

00:12:31,110 --> 00:12:27,910

it quote to our complete shock offered a

300

00:12:32,790 --> 00:12:31,120

significant donation and quotes Brock

301

00:12:35,370 --> 00:12:32,800

Singh said the donor wished to remain

302

00:12:38,939 --> 00:12:35,380

anonymous but did provide this public

303

00:12:41,490 --> 00:12:38,949

statement quote although there is much I

304

00:12:43,139 --> 00:12:41,500

can't reveal without any hesitation I

305

00:12:45,559 --> 00:12:43,149

can say the Canadian government and the

306

00:12:48,540 --> 00:12:45,569

international community it answers to

307

00:12:51,180 --> 00:12:48,550

appears to be concealing what happened

308

00:12:55,439 --> 00:12:51,190

in and around the waters of shag Harbor

309

00:12:58,019 --> 00:12:55,449

Canada on October 4th 1967 people with

310

00:13:00,329 --> 00:12:58,029

the connections notoriety and finances

311

00:13:02,970 --> 00:13:00,339

are working hard to challenge how we

312

00:13:05,280 --> 00:13:02,980

view the world around us shag harbour is

313

00:13:08,329 --> 00:13:05,290

one of the smoking guns that will be

314

00:13:11,069 --> 00:13:08,339

used to achieve this end quotes

315

00:13:14,030 --> 00:13:11,079

Alejandro Rojas is last line of this

316

00:13:16,800 --> 00:13:14,040

article mysterious to say the least

317

00:13:18,630 --> 00:13:16,810

indeed though the week

318

00:13:21,060 --> 00:13:18,640

one festival by the way that's going to

319

00:13:23,580 --> 00:13:21,070

be held September 29th to October 1st

320

00:13:25,950 --> 00:13:23,590

and they're doing it again there'll be

321

00:13:28,350 --> 00:13:25,960

another event October 4th marking the

322

00:13:30,120 --> 00:13:28,360

actual anniversary of the event there'll

323

00:13:34,310 --> 00:13:30,130

be a link to those festivities

324

00:13:39,870 --> 00:13:34,320

oh what a road trip from the website of

325

00:13:41,160 --> 00:13:39,880

waer org headline Central New York UFO

326

00:13:44,150 --> 00:13:41,170

researcher and writer

327

00:13:47,280 --> 00:13:44,160

crunches data has new discoveries and

328

00:13:49,740 --> 00:13:47,290

possible visits Chris Boldt

329

00:13:52,320 --> 00:13:49,750

gets the byline here and yes they're

330

00:13:55,140 --> 00:13:52,330

talking about Cheryl Kosta here we go

331

00:13:57,210 --> 00:13:55,150

we've all gazed into the sky to look at

332

00:13:59,790 --> 00:13:57,220

the moon maybe a shooting star and

333

00:14:02,700 --> 00:13:59,800

possibly something we couldn't quite

334

00:14:04,260 --> 00:14:02,710

explain Cheryl Kosta has been following

335

00:14:06,120 --> 00:14:04,270

UFO sightings for years

336

00:14:10,080 --> 00:14:06,130

she writes that wonderful column for the

337

00:14:11,970 --> 00:14:10,090

Syracuse New Times and a blog in 2015

338

00:14:15,120 --> 00:14:11,980

Cheryl Kosta and her wife Linda Miller

339

00:14:17,700 --> 00:14:15,130

Kosta cast an eye on actual reports

340

00:14:20,040 --> 00:14:17,710

quote we figured let's crunch the data

341

00:14:21,990 --> 00:14:20,050

for the state of New York and it

342

00:14:24,540 --> 00:14:22,000

suddenly started revealing patterns that

343

00:14:27,180 --> 00:14:24,550

none of the UFO researchers in New York

344

00:14:28,890 --> 00:14:27,190

had ever seen before in quotes and then

345

00:14:31,880 --> 00:14:28,900

they decided to check out the entire

346

00:14:34,950 --> 00:14:31,890

nation using that big data approach

347

00:14:36,750 --> 00:14:34,960

right Sheryl quote I started downloading

348

00:14:40,260 --> 00:14:36,760

the national UFO Reporting Center

349

00:14:41,420 --> 00:14:40,270

databases for all 50 states here's what

350

00:14:44,400 --> 00:14:41,430

they found

351

00:14:49,170 --> 00:14:44,410

121 thousand reported sightings from

352

00:14:52,590 --> 00:14:49,180

2000 to 2015 that's 500 and 2000 plus in

353

00:14:54,540 --> 00:14:52,600

New York and on the increase now the

354

00:14:57,090 --> 00:14:54,550

causes aren't trying to convince us

355

00:14:59,190 --> 00:14:57,100

quote we couldn't set out to prove alien

356

00:15:01,620 --> 00:14:59,200

life exists but people have been telling

357

00:15:03,090 --> 00:15:01,630

us for a number of years quote UFO

358

00:15:06,900 --> 00:15:03,100

sightings they've been on the decline

359

00:15:10,380 --> 00:15:06,910

since the 1980s end quotes well we set

360

00:15:13,890 --> 00:15:10,390

out to prove that wrong their book UFO

361

00:15:16,470 --> 00:15:13,900

sightings Desk Reference 2001 to 2015

362

00:15:18,840 --> 00:15:16,480

has breakdowns of the reported sightings

363

00:15:21,180 --> 00:15:18,850

from every state down to the county

364

00:15:22,950 --> 00:15:21,190

level the information came from the

365

00:15:25,140 --> 00:15:22,960

national organizations that collect

366

00:15:27,780 --> 00:15:25,150

sighting reports the mutual UFO network

367

00:15:29,910 --> 00:15:27,790

MUFON and the national UFO Reporting

368

00:15:32,310 --> 00:15:29,920

Center new Fork

369

00:15:34,259 --> 00:15:32,320

shape-wise regarding the object

370

00:15:37,889 --> 00:15:34,269

apparently the number of reports seeing

371

00:15:40,319 --> 00:15:37,899

a circle shape 657 that's the highest

372

00:15:43,350 --> 00:15:40,329

shape frequency in the state of New York

373

00:15:45,750 --> 00:15:43,360

reports but Cheryl Kosta says the data

374

00:15:48,300 --> 00:15:45,760

revealed other findings there are

375

00:15:51,900 --> 00:15:48,310

clusters around the st. Lawrence and

376

00:15:54,509 --> 00:15:51,910

Hudson Rivers quote those two waterways

377

00:15:56,460 --> 00:15:54,519

alone on first appearance it doesn't

378

00:15:59,970 --> 00:15:56,470

look that way but when you add them up

379

00:16:02,040 --> 00:15:59,980

they are 51% of New York State sightings

380

00:16:04,560 --> 00:16:02,050

and people have always been saying these

381

00:16:07,079 --> 00:16:04,570

things hang out around water for some

382

00:16:09,300 --> 00:16:07,089

reason and quotes Chris Boldt who writes

383

00:16:11,850 --> 00:16:09,310

this article talked with Cheryl Costa up

384

00:16:14,060 --> 00:16:11,860

on Onondaga Hill thinking that less

385

00:16:16,650 --> 00:16:14,070

light pollution equalled more sightings

386

00:16:20,009 --> 00:16:16,660

but sheriff says the bulk come from

387

00:16:22,680 --> 00:16:20,019

urban areas as she says quote it raises

388

00:16:24,210 --> 00:16:22,690

the question are we seeing more UFOs in

389

00:16:26,160 --> 00:16:24,220

the city because there's more people

390

00:16:28,620 --> 00:16:26,170

there to see them or is it because

391

00:16:31,790 --> 00:16:28,630

there's more people there and the UFOs

392

00:16:33,600 --> 00:16:31,800

are studying the people and quotes Oh

393

00:16:36,750 --> 00:16:33,610

excellent question

394

00:16:38,009 --> 00:16:36,760

Cheryl Costa emphasizes the book UFO

395

00:16:40,439 --> 00:16:38,019

sightings Desk Reference

396

00:16:42,630 --> 00:16:40,449

mostly charts and graphs of data state

397

00:16:45,750 --> 00:16:42,640

by state down to county level does not

398

00:16:47,610 --> 00:16:45,760

prove existence that's a job she says

399

00:16:49,560 --> 00:16:47,620

for scientists academics maybe

400

00:16:51,780 --> 00:16:49,570

government even though the Air Force

401
00:16:55,259 --> 00:16:51,790
stopped investigating reports officially

402
00:16:57,960 --> 00:16:55,269
in 1968 the book does group sightings by

403
00:17:00,720 --> 00:16:57,970
form for instance discs cigar shapes and

404
00:17:03,360 --> 00:17:00,730
Cheryl Costa says the truth is in the

405
00:17:08,270 --> 00:17:03,370
shapes and in that six to seven percent

406
00:17:11,090 --> 00:17:08,280
that can't be explained away indeed

407
00:17:14,039 --> 00:17:11,100
let's indeed take ourselves away to

408
00:17:17,460 --> 00:17:14,049
Attleboro Massachusetts for this UFO

409
00:17:19,500 --> 00:17:17,470
sighting from UFO stalker calm MUFON

410
00:17:22,319 --> 00:17:19,510
gave it a case number eight three eight

411
00:17:25,289 --> 00:17:22,329
nine three is that number the date of

412
00:17:27,890 --> 00:17:25,299
the sighting is May 20th 2017 it was

413
00:17:31,549 --> 00:17:27,900

reported two days later here's a summary

414

00:17:34,980 --> 00:17:31,559

looked like Mars realized it was moving

415

00:17:39,299 --> 00:17:34,990

observed for about one minute vanished

416

00:17:42,570 --> 00:17:39,309

as we glanced away there's photos two

417

00:17:43,140 --> 00:17:42,580

photos and two videos as well check them

418

00:17:46,140 --> 00:17:43,150

out late

419

00:17:48,900 --> 00:17:46,150

at UFO headline news comm do your own

420

00:17:50,880 --> 00:17:48,910

analysis under sighting specifics

421

00:17:52,920 --> 00:17:50,890

submitted by our witness there's a

422

00:17:56,070 --> 00:17:52,930

viewing distance here unknown the

423

00:17:58,470 --> 00:17:56,080

altitude also unknown sighting duration

424

00:18:01,440 --> 00:17:58,480

one minute the object features well

425

00:18:04,050 --> 00:18:01,450

they're unknown to the flight path a

426

00:18:07,020 --> 00:18:04,060

little more specific hovering than path

427

00:18:09,780 --> 00:18:07,030

a path and then hovering then this

428

00:18:12,420 --> 00:18:09,790

object was shaped like a sphere there is

429

00:18:14,310 --> 00:18:12,430

weather maximum temperature in Attleboro

430

00:18:17,420 --> 00:18:14,320

Massachusetts at the time of this event

431

00:18:19,680 --> 00:18:17,430

70 degrees Fahrenheit 21 degrees Celsius

432

00:18:22,500 --> 00:18:19,690

dropping down to a minimum temperature

433

00:18:25,470 --> 00:18:22,510

of 46 degrees Fahrenheit eight degrees

434

00:18:28,440 --> 00:18:25,480

Celsius the maximum visibility 10 miles

435

00:18:31,230 --> 00:18:28,450

16 kilometers down to a minimum 8 miles

436

00:18:32,540 --> 00:18:31,240

13 kilometers at the time of this

437

00:18:36,200 --> 00:18:32,550

sighting there was nothing abnormal

438

00:18:40,080 --> 00:18:36,210

about the weather here's the account

439

00:18:42,060 --> 00:18:40,090

first-person unedited we were taking a

440

00:18:44,550 --> 00:18:42,070

late night walk and I happen to look up

441

00:18:47,370 --> 00:18:44,560

and see Mars bigger than I had ever seen

442

00:18:49,410 --> 00:18:47,380

it before I was just pointing it out to

443

00:18:49,970 --> 00:18:49,420

my boyfriend when I realized it was

444

00:18:53,610 --> 00:18:49,980

moving

445

00:18:56,280 --> 00:18:53,620

albeit very slowly at first I thought it

446

00:18:58,950 --> 00:18:56,290

was a plane but it was far too low in

447

00:19:01,170 --> 00:18:58,960

the sky to be moving that slowly and it

448

00:19:03,900 --> 00:19:01,180

wasn't a consistent speed at times it

449

00:19:06,900 --> 00:19:03,910

seemed to not be moving at all or just

450

00:19:08,790 --> 00:19:06,910

barely I would describe it as meandering

451
00:19:10,830 --> 00:19:08,800
because while it did not change

452
00:19:13,440 --> 00:19:10,840
direction it wasn't a completely

453
00:19:16,470 --> 00:19:13,450
straight line it also appeared to be

454
00:19:18,480 --> 00:19:16,480
faintly pulsing unfortunately we were

455
00:19:21,600 --> 00:19:18,490
unprepared for something like this we

456
00:19:23,400 --> 00:19:21,610
only managed to photos and to videos the

457
00:19:25,950 --> 00:19:23,410
object appeared much bigger than it

458
00:19:28,410 --> 00:19:25,960
looks on the videos the photo one is the

459
00:19:30,690 --> 00:19:28,420
best one it represents the apparent size

460
00:19:33,360 --> 00:19:30,700
and the glow that's what made me think

461
00:19:34,950 --> 00:19:33,370
it was Mars this occurred on a dark

462
00:19:37,050 --> 00:19:34,960
Street which makes it hard to find a

463
00:19:39,180 --> 00:19:37,060

reference point in the videos but in

464

00:19:41,250 --> 00:19:39,190

video one you can see to the right of

465

00:19:43,350 --> 00:19:41,260

the object there's a telephone pole if

466

00:19:46,140 --> 00:19:43,360

you could increase brightness in that

467

00:19:47,910 --> 00:19:46,150

video somehow the telephone pole helps

468

00:19:51,090 --> 00:19:47,920

you'll realize how it was drifting and

469

00:19:52,980 --> 00:19:51,100

traveling not quite straight video

470

00:19:55,200 --> 00:19:52,990

number two I moved to a better position

471

00:19:57,090 --> 00:19:55,210

but it has no reference point that I can

472

00:19:59,190 --> 00:19:57,100

see now to the

473

00:20:02,279 --> 00:19:59,200

naked-eye this object never stopped

474

00:20:04,770 --> 00:20:02,289

glowing but picture number 2 taken on a

475

00:20:08,130 --> 00:20:04,780

phone with a better zoom shows a dull

476
00:20:11,190 --> 00:20:08,140
not glowing round object with some sort

477
00:20:12,870 --> 00:20:11,200
of indentation from the moment I noticed

478
00:20:15,180 --> 00:20:12,880
it in the sky to the end of the sighting

479
00:20:17,549 --> 00:20:15,190
was probably about 1 to 2 minutes total

480
00:20:19,289 --> 00:20:17,559
I asked my boyfriend to hand me my phone

481
00:20:21,570 --> 00:20:19,299
back at which point he looked down to

482
00:20:24,299 --> 00:20:21,580
hand it to me I looked down to grab it

483
00:20:27,270 --> 00:20:24,309
and in that split-second that neither of

484
00:20:30,029 --> 00:20:27,280
us were looking the object vanished it

485
00:20:32,580 --> 00:20:30,039
was there and then it wasn't it wasn't

486
00:20:35,100 --> 00:20:32,590
visible in any direction it hadn't left

487
00:20:37,649 --> 00:20:35,110
a trail there was no flash nothing

488
00:20:41,430 --> 00:20:37,659

noticeable in our peripheral vision it

489

00:20:44,360 --> 00:20:41,440

was just gone ah the prestidigitation of

490

00:20:46,710 --> 00:20:44,370

the UFO now you see it now you don't

491

00:20:50,220 --> 00:20:46,720

alrighty then here's a black triangle

492

00:20:53,820 --> 00:20:50,230

sighting in Ohio in an undisclosed

493

00:20:56,850 --> 00:20:53,830

location it's MUFON Case number 8 3 5 9

494

00:21:00,360 --> 00:20:56,860

8 the date of this sighting is May 7th

495

00:21:03,600 --> 00:21:00,370

2017 it was reported May 8 27 teen

496

00:21:07,409 --> 00:21:03,610

here's the summary flying from Ohio to

497

00:21:10,950 --> 00:21:07,419

Florida saw this trying to find out is

498

00:21:13,260 --> 00:21:10,960

it a UFO there are two photos submitted

499

00:21:17,159 --> 00:21:13,270

with this account and you can find them

500

00:21:19,220 --> 00:21:17,169

later at UFO headline news com citing

501
00:21:22,409 --> 00:21:19,230
specifics viewing distance unknown

502
00:21:25,620 --> 00:21:22,419
altitude unknown sighting duration one

503
00:21:29,460 --> 00:21:25,630
hour and one minute this object featured

504
00:21:32,310 --> 00:21:29,470
a dome and window description the object

505
00:21:35,310 --> 00:21:32,320
flight path unknown and this object was

506
00:21:37,710 --> 00:21:35,320
shaped like a triangle at the time the

507
00:21:40,230 --> 00:21:37,720
maximum temperature in the area was 55

508
00:21:42,149 --> 00:21:40,240
degrees Fahrenheit 13 degrees Celsius

509
00:21:45,120 --> 00:21:42,159
the minimum temperature 37 degrees

510
00:21:47,520 --> 00:21:45,130
Fahrenheit 3 degrees Celsius all those

511
00:21:50,909 --> 00:21:47,530
visibility factors maximum mean and

512
00:21:54,180 --> 00:21:50,919
minimum the same 10 miles 16 kilometers

513
00:21:57,240 --> 00:21:54,190

no abnormal weather conditions played

514

00:22:00,810 --> 00:21:57,250

apart here here's the very brief citing

515

00:22:03,299 --> 00:22:00,820

the truth is in the photos and videos we

516

00:22:06,840 --> 00:22:03,309

urge you to check those out flying from

517

00:22:09,360 --> 00:22:06,850

Ohio to Florida as our witness I first

518

00:22:10,980 --> 00:22:09,370

noticed the object in the distance I

519

00:22:14,880 --> 00:22:10,990

know right away

520

00:22:17,460 --> 00:22:14,890

this was a UFO this UFO seemed to be

521

00:22:19,760 --> 00:22:17,470

hiding behind the cloud cover during the

522

00:22:22,590 --> 00:22:19,770

flight after I snapped these pictures

523

00:22:25,169 --> 00:22:22,600

this object disappeared behind the

524

00:22:27,360 --> 00:22:25,179

clouds the flight attendants told

525

00:22:30,450 --> 00:22:27,370

everyone to keep their window blinds

526

00:22:35,970 --> 00:22:30,460

shut during the flight which I found

527

00:22:37,410 --> 00:22:35,980

very strange as do we very interesting

528

00:22:39,870 --> 00:22:37,420

there must have been other witnesses

529

00:22:43,520 --> 00:22:39,880

what was that flight it's curious how

530

00:22:46,230 --> 00:22:43,530

you don't hear till you hear it hear hmm

531

00:22:48,990 --> 00:22:46,240

hang on we're going to go northern a

532

00:22:51,900 --> 00:22:49,000

little west until we get to Bloomington

533

00:22:53,669 --> 00:22:51,910

Minnesota that's the setting for move on

534

00:22:56,910 --> 00:22:53,679

sighting number eight three four seven

535

00:22:59,520 --> 00:22:56,920

seven it took place in April on the 29th

536

00:23:02,549 --> 00:22:59,530

but it didn't get reported till the 2nd

537

00:23:05,250 --> 00:23:02,559

of May this year here's the summary I

538

00:23:09,500 --> 00:23:05,260

saw this ring of lights Saturday Night

539

00:23:12,600 --> 00:23:09,510

Lights in western sky overcast night

540

00:23:15,720 --> 00:23:12,610

stationary ring of Lights did not move

541

00:23:18,150 --> 00:23:15,730

for many hours yep there's evidence that

542

00:23:19,860 --> 00:23:18,160

accompanies this sighting photographic

543

00:23:23,400 --> 00:23:19,870

evidence and you can check that out

544

00:23:25,740 --> 00:23:23,410

later at UFO headline news calm sighting

545

00:23:28,380 --> 00:23:25,750

specifics the viewing distance was over

546

00:23:32,130 --> 00:23:28,390

one mile the altitude of the object was

547

00:23:34,470 --> 00:23:32,140

unknown the sighting duration four hours

548

00:23:37,140 --> 00:23:34,480

but the object features are simply

549

00:23:39,450 --> 00:23:37,150

listed as unknown the object's flight

550

00:23:43,049 --> 00:23:39,460

path was stationary and it was shaped

551
00:23:45,299 --> 00:23:43,059
like a circle here's the weather maximum

552
00:23:47,460 --> 00:23:45,309
temperature for Bloomington Minnesota at

553
00:23:50,370 --> 00:23:47,470
the time of this sighting 55 degrees

554
00:23:52,740 --> 00:23:50,380
Fahrenheit 13 degrees Celsius minimum

555
00:23:55,200 --> 00:23:52,750
temperature 37 degrees Fahrenheit 3

556
00:23:57,840 --> 00:23:55,210
degrees Celsius all those visibility

557
00:24:00,030 --> 00:23:57,850
factors were the same 10 miles 16

558
00:24:01,350 --> 00:24:00,040
kilometers and at the time of this

559
00:24:04,590 --> 00:24:01,360
sighting there was nothing abnormal

560
00:24:07,440 --> 00:24:04,600
going on meteorological II here's the

561
00:24:10,710 --> 00:24:07,450
very short report I saw this ring of

562
00:24:13,650 --> 00:24:10,720
lights on Saturday night April 29th 2017

563
00:24:16,710 --> 00:24:13,660

the lights were in the western sky it

564

00:24:18,900 --> 00:24:16,720

was an overcast night these rings of

565

00:24:22,710 --> 00:24:18,910

lights were stationary they did not move

566

00:24:24,270 --> 00:24:22,720

at all for many hours the lights seemed

567

00:24:27,990 --> 00:24:24,280

to be coming from behind

568

00:24:30,450 --> 00:24:28,000

the clouds shrouded in the clouds such a

569

00:24:33,000 --> 00:24:30,460

sense of mystery well here's another

570

00:24:36,240 --> 00:24:33,010

mystery our time has vanished we've got

571

00:24:38,370 --> 00:24:36,250

to fly because that's a wrap thank you

572

00:24:40,890 --> 00:24:38,380

for listening to inception Radio Network

573

00:24:43,890 --> 00:24:40,900

followed today's broadcast at UFO

574

00:24:46,710 --> 00:24:43,900

headline news calm take care of each
