

Inception Radio Network

UFO Headline News Weekend Edition for
May 27th & 28th 2017

1
00:00:05,660 --> 00:00:02,869
hello it's UFO headline news for the

2
00:00:07,820 --> 00:00:05,670
third weekend in May 2017 you are

3
00:00:10,549 --> 00:00:07,830
listening to midsection radio networks

4
00:00:13,039 --> 00:00:10,559
voice of the fringe majority I'm Carol

5
00:00:16,849 --> 00:00:13,049
Carl join me as we go off the beaten

6
00:00:18,590 --> 00:00:16,859
path hello gentle listeners thank you

7
00:00:22,070 --> 00:00:18,600
for joining us for this premiere episode

8
00:00:23,990 --> 00:00:22,080
of off the beaten path yes it's the UFO

9
00:00:26,060 --> 00:00:24,000
headline news with a little bit of

10
00:00:29,120 --> 00:00:26,070
something special and stepping outside

11
00:00:31,700 --> 00:00:29,130
the box for the weekend but we're going

12
00:00:34,459 --> 00:00:31,710
to start as we usually do with earth sky

13
00:00:37,520 --> 00:00:34,469

org and this article from Bruce McClure

14

00:00:40,910 --> 00:00:37,530

he tells us the best time to see Saturn

15

00:00:42,709 --> 00:00:40,920

is near tonight or any night for the

16

00:00:45,500 --> 00:00:42,719

next several months watch for that

17

00:00:47,900 --> 00:00:45,510

ringed planet Saturn you'll find it near

18

00:00:50,029 --> 00:00:47,910

the bright star Antares hearts of the

19

00:00:53,240 --> 00:00:50,039

Scorpion in the constellation Scorpius

20

00:00:55,340 --> 00:00:53,250

both Saturn and Antares rise into the

21

00:00:56,869 --> 00:00:55,350

eastern half of the sky that's the

22

00:00:59,180 --> 00:00:56,879

southeast if you're looking from the

23

00:01:02,540 --> 00:00:59,190

northern hemisphere by early to mid

24

00:01:04,640 --> 00:01:02,550

evening in late May 2017 right about now

25

00:01:08,170 --> 00:01:04,650

it won't be too much longer before

26

00:01:11,090 --> 00:01:08,180

Saturn stays out from dusk till dawn as

27

00:01:13,219 --> 00:01:11,100

earth moves around the Sun our planets

28

00:01:15,469 --> 00:01:13,229

change a position will cause Saturn and

29

00:01:17,510 --> 00:01:15,479

Antares to rise four minutes earlier

30

00:01:19,969 --> 00:01:17,520

with each passing day in other words

31

00:01:22,340 --> 00:01:19,979

about one half hour earlier with each

32

00:01:24,920 --> 00:01:22,350

passing week after a few more weeks

33

00:01:27,620 --> 00:01:24,930

Saturn and den Taurus will be ascending

34

00:01:30,200 --> 00:01:27,630

in the east as the Sun sets in the west

35

00:01:33,080 --> 00:01:30,210

that's because earth will pass between

36

00:01:35,749 --> 00:01:33,090

Saturn and the Sun on June 15th that

37

00:01:37,490 --> 00:01:35,759

Saturn's yearly opposition and it marks

38

00:01:40,039 --> 00:01:37,500

the middle of the best time of year to

39

00:01:41,810 --> 00:01:40,049

see this planet after coming up in the

40

00:01:44,510 --> 00:01:41,820

eastern part of the sky sometime this

41

00:01:46,280 --> 00:01:44,520

evening Saturn and Antares will continue

42

00:01:48,859 --> 00:01:46,290

to climb upward throughout the evening

43

00:01:51,649 --> 00:01:48,869

hours the two will soar to their highest

44

00:01:54,200 --> 00:01:51,659

spot in the sky after the midnight hour

45

00:01:57,289 --> 00:01:54,210

they'll be low in the West at morning

46

00:01:59,420 --> 00:01:57,299

dawn to distinguish the two look for

47

00:02:02,690 --> 00:01:59,430

golden Saturn to shine with a steadier

48

00:02:04,670 --> 00:02:02,700

light than sparkly red Antares be sure

49

00:02:07,609 --> 00:02:04,680

to note the beautiful color contrast

50

00:02:09,740 --> 00:02:07,619

between the planet and the star Saturn

51
00:02:12,890 --> 00:02:09,750
is the most distant world we can see

52
00:02:13,880 --> 00:02:12,900
easily with unaided eyes it shines as

53
00:02:16,640 --> 00:02:13,890
brightly as a bra

54
00:02:19,550 --> 00:02:16,650
star a touch brighter than that first

55
00:02:21,290 --> 00:02:19,560
magnitude star Antares but Saturn does

56
00:02:23,150 --> 00:02:21,300
not come close to matching the

57
00:02:26,090 --> 00:02:23,160
brilliance of the evenings brightest

58
00:02:28,400 --> 00:02:26,100
planet King Jupiter when the earth

59
00:02:31,400 --> 00:02:28,410
finally passes in between Saturn and the

60
00:02:33,410 --> 00:02:31,410
Sun on the night of June 15th earth will

61
00:02:36,770 --> 00:02:33,420
come closest to Saturn for the entire

62
00:02:39,800 --> 00:02:36,780
year and Saturn in turn will shine at

63
00:02:42,110 --> 00:02:39,810

its brilliant best so in just a little

64

00:02:44,510 --> 00:02:42,120

more than two weeks from now the planet

65

00:02:46,840 --> 00:02:44,520

Saturn will be at opposition in other

66

00:02:50,030 --> 00:02:46,850

words opposite the Sun in Earth's sky

67

00:02:52,100 --> 00:02:50,040

Saturn will be out all night long at

68

00:02:52,580 --> 00:02:52,110

that juncture rising in the east around

69

00:02:54,860 --> 00:02:52,590

sunset

70

00:02:58,160 --> 00:02:54,870

and setting in the West around sunrise

71

00:03:00,590 --> 00:02:58,170

and here is ye old bottom line earth

72

00:03:04,610 --> 00:03:00,600

will pass between the Sun and Saturn on

73

00:03:07,970 --> 00:03:04,620

June 15th 2017 but the best time of the

74

00:03:11,210 --> 00:03:07,980

year to see the planet is near from the

75

00:03:14,350 --> 00:03:11,220

website out-of-this-world here comes a

76

00:03:17,150 --> 00:03:14,360

headline alien spaceship crashed in

77

00:03:20,539 --> 00:03:17,160

Antarctica claims UFO hunter who

78

00:03:23,180 --> 00:03:20,549

believes he has proof but do you believe

79

00:03:26,390 --> 00:03:23,190

him this article was authored by will

80

00:03:28,850 --> 00:03:26,400

Stewart and Laura Burnett a Russian

81

00:03:31,280 --> 00:03:28,860

conspiracy theorists claims that the

82

00:03:34,520 --> 00:03:31,290

images that accompany this article show

83

00:03:37,069 --> 00:03:34,530

the wreckage of a huge alien spaceship

84

00:03:40,220 --> 00:03:37,079

which crash-landed in Antarctica

85

00:03:43,220 --> 00:03:40,230

millions of years ago a fellow by the

86

00:03:45,650 --> 00:03:43,230

name of Valentin dead Carrie ov posted

87

00:03:47,930 --> 00:03:45,660

images of the UFO which he claims has

88

00:03:50,180 --> 00:03:47,940

gone undiscovered because it's covered

89

00:03:52,420 --> 00:03:50,190
with snow ded Terry open Ischl 'i

90

00:03:55,460 --> 00:03:52,430
spotted the dark shape on Google Earth

91

00:03:58,850 --> 00:03:55,470
he says this image shows the wreckage of

92

00:04:00,890 --> 00:03:58,860
the spaceship poking out of the snow the

93

00:04:03,680 --> 00:04:00,900
UFO hunter who's from the area of

94

00:04:08,030 --> 00:04:03,690
initially Tuggle in western Russia says

95

00:04:09,500 --> 00:04:08,040
the object is 1,900 feet long he

96

00:04:12,020 --> 00:04:09,510
believes the wreckage has only become

97

00:04:14,090 --> 00:04:12,030
visible now because of ice melting on

98

00:04:17,060 --> 00:04:14,100
the Earth's most southerly continent

99

00:04:19,490 --> 00:04:17,070
there's a video he posted on YouTube and

100

00:04:22,009 --> 00:04:19,500
it's attracted hundreds of thousands of

101
00:04:24,770 --> 00:04:22,019
hits since it was uploaded the other day

102
00:04:27,290 --> 00:04:24,780
but many dismissed his theories and they

103
00:04:30,379 --> 00:04:27,300
said the shape was just a rocky outcrop

104
00:04:32,180 --> 00:04:30,389
in a barren mountain valentin de Carrio

105
00:04:35,059 --> 00:04:32,190
has listed the coordinates of this

106
00:04:37,339 --> 00:04:35,069
object they're clumsy to read it's bad

107
00:04:40,249 --> 00:04:37,349
radio but you can find them later along

108
00:04:43,189 --> 00:04:40,259
with the visuals at UFO headline news

109
00:04:46,040 --> 00:04:43,199
comm check it out it isn't the first

110
00:04:48,409 --> 00:04:46,050
bizarre UFO theory to emerge based on

111
00:04:51,260 --> 00:04:48,419
satellite images and this broadcaster

112
00:04:53,390 --> 00:04:51,270
predicts it will be far from the last as

113
00:04:55,730 --> 00:04:53,400

you gentle listeners have surely

114

00:04:59,210 --> 00:04:55,740

observed there's been a lot of activity

115

00:05:02,480 --> 00:04:59,220

in Antarctica a number of high-profile

116

00:05:04,640 --> 00:05:02,490

individuals presence in Antarctica has

117

00:05:07,279 --> 00:05:04,650

not gone unnoticed and in fact has

118

00:05:09,320 --> 00:05:07,289

fueled lots of conspiracy theory will

119

00:05:11,899 --> 00:05:09,330

dig under that snow and see what we can

120

00:05:14,930 --> 00:05:11,909

find to bring you as we take our trek on

121

00:05:17,689 --> 00:05:14,940

the weekends off the beaten path how

122

00:05:19,879 --> 00:05:17,699

about a little bit of spacetime physics

123

00:05:23,330 --> 00:05:19,889

shall we from International Business

124

00:05:25,969 --> 00:05:23,340

Times comes this headline fluctuating

125

00:05:28,850 --> 00:05:25,979

space-time helped solve the mystery of

126

00:05:32,240 --> 00:05:28,860

why the universe is expanding at an

127

00:05:34,249 --> 00:05:32,250

accelerating pace what causes the

128

00:05:37,059 --> 00:05:34,259

accelerating expansion of our universe

129

00:05:40,040 --> 00:05:37,069

is one of scientists greatest mysteries

130

00:05:42,050 --> 00:05:40,050

now physicists say they might have found

131

00:05:45,189 --> 00:05:42,060

a way to explain this puzzling

132

00:05:48,080 --> 00:05:45,199

phenomenon nearly two decades ago in

133

00:05:49,879 --> 00:05:48,090

1998 two separate teams of astronomers

134

00:05:52,360 --> 00:05:49,889

discovered that the universe is

135

00:05:55,189 --> 00:05:52,370

expanding at an ever-increasing rate

136

00:05:58,180 --> 00:05:55,199

this would suggest that space is filled

137

00:06:00,800 --> 00:05:58,190

with dark energy that pushes matter away

138

00:06:02,719 --> 00:06:00,810

the expansion of the universe is thought

139

00:06:05,059 --> 00:06:02,729

to have been accelerating ever since the

140

00:06:07,279 --> 00:06:05,069

universe entered its dark energy

141

00:06:10,070 --> 00:06:07,289

dominated era that was about 5 billion

142

00:06:12,170 --> 00:06:10,080

years ago in 2016

143

00:06:14,269 --> 00:06:12,180

NASA and the European Space Agency

144

00:06:16,670 --> 00:06:14,279

scientists used the Hubble Space

145

00:06:20,029 --> 00:06:16,680

Telescope to show that the universe was

146

00:06:22,939 --> 00:06:20,039

expanding 5 to 9 percent faster than

147

00:06:24,620 --> 00:06:22,949

previously reported in the study now

148

00:06:28,040 --> 00:06:24,630

published in the journal Physical Review

149

00:06:29,469 --> 00:06:28,050

led a team of physicists from the

150

00:06:32,330 --> 00:06:29,479

university of british columbia

151

00:06:35,180 --> 00:06:32,340

investigated the potential origins of

152

00:06:37,459 --> 00:06:35,190

this accelerated expansion in this paper

153

00:06:40,100 --> 00:06:37,469

the author's attempted to resolve the

154

00:06:41,090 --> 00:06:40,110

incompatibility issue between two of the

155

00:06:43,010 --> 00:06:41,100

most important

156

00:06:45,800 --> 00:06:43,020

theories about the way our universe

157

00:06:49,370 --> 00:06:45,810

works quantum mechanics and Einstein's

158

00:06:51,320 --> 00:06:49,380

theory of general relativity for years

159

00:06:54,920 --> 00:06:51,330

scientists have tried to find out what

160

00:06:57,740 --> 00:06:54,930

exactly dark energy is the most popular

161

00:07:01,310 --> 00:06:57,750

hypothesis is that dark energy is in

162

00:07:06,170 --> 00:07:01,320

fact vacuum energy that is wait for it

163

00:07:07,700 --> 00:07:06,180

the energy density of empty space when

164

00:07:10,580 --> 00:07:07,710

physicists apply the theory of quantum

165

00:07:12,260 --> 00:07:10,590

mechanics to vacuum energy they find

166

00:07:15,350 --> 00:07:12,270

there would be an incredibly large

167

00:07:17,870 --> 00:07:15,360

density of vacuum energy far more than

168

00:07:21,620 --> 00:07:17,880

the total energy of all the particles in

169

00:07:23,210 --> 00:07:21,630

the universe it seems the problem comes

170

00:07:24,890 --> 00:07:23,220

when they want to relate this to

171

00:07:27,920 --> 00:07:24,900

Einstein's theory of general relativity

172

00:07:30,290 --> 00:07:27,930

if their predictions with quantum

173

00:07:32,900 --> 00:07:30,300

mechanics are true the theory of general

174

00:07:34,880 --> 00:07:32,910

relativity suggests that the energy

175

00:07:37,490 --> 00:07:34,890

would have a strong gravitational effect

176

00:07:41,000 --> 00:07:37,500

and this would potentially result in the

177

00:07:42,650 --> 00:07:41,010

universe exploding so instead of trying

178

00:07:44,840 --> 00:07:42,660

to alter the theories of quantum

179

00:07:46,910 --> 00:07:44,850

mechanics or general relativity to

180

00:07:49,730 --> 00:07:46,920

address this contradiction like past

181

00:07:52,010 --> 00:07:49,740

research is done this new study suggests

182

00:07:54,740 --> 00:07:52,020

a different way of looking at the

183

00:07:56,900 --> 00:07:54,750

problem the scientists do take the large

184

00:07:59,270 --> 00:07:56,910

density of vacuum energy predicted by

185

00:08:01,400 --> 00:07:59,280

quantum mechanics seriously but they

186

00:08:03,800 --> 00:08:01,410

come up with mathematical models that

187

00:08:06,860 --> 00:08:03,810

describe a completely different picture

188

00:08:09,290 --> 00:08:06,870

of space in this picture the universe is

189

00:08:12,680 --> 00:08:09,300

made up of constantly fluctuating space

190

00:08:15,110 --> 00:08:12,690

and time it oscillates between expansion

191

00:08:17,510 --> 00:08:15,120

and contraction and as it swings back

192

00:08:21,110 --> 00:08:17,520

and forth the two almost

193

00:08:23,570 --> 00:08:21,120

cancel each other however a very small

194

00:08:27,470 --> 00:08:23,580

net effect leads the universe to expand

195

00:08:29,240 --> 00:08:27,480

slowly at an accelerating rate the

196

00:08:31,520 --> 00:08:29,250

scientists say we cannot feel these

197

00:08:34,909 --> 00:08:31,530

fluctuations because the phenomena quote

198

00:08:37,580 --> 00:08:34,919

happens at very tiny scales billions and

199

00:08:40,880 --> 00:08:37,590

billions times smaller even than an

200

00:08:43,969 --> 00:08:40,890

electron lead author of this study King

201
00:08:47,060 --> 00:08:43,979
D Wang said quote space-time is not a

202
00:08:51,050 --> 00:08:47,070
static as it appears it's constantly

203
00:08:53,920 --> 00:08:51,060
moving and quotes which is something to

204
00:08:55,560 --> 00:08:53,930
ponder we can ponder this

205
00:08:59,650 --> 00:08:55,570
the sense its art imitating life

206
00:09:01,690 --> 00:08:59,660
imitating art back in 1973 there was a

207
00:09:04,030 --> 00:09:01,700
fabulous film called the day of the

208
00:09:06,340 --> 00:09:04,040
dolphin it was directed by Mike Nichols

209
00:09:09,070 --> 00:09:06,350
and the screenplay was written by buck

210
00:09:11,680 --> 00:09:09,080
Henry and Robert Merle it was actually

211
00:09:15,280 --> 00:09:11,690
based on the novel by Robert Merle and

212
00:09:17,680 --> 00:09:15,290
he spells that em er le the film star

213
00:09:20,860 --> 00:09:17,690

George C Scott Trish van Devere and

214

00:09:23,769 --> 00:09:20,870

actor Paul Sorvino turns in a memorable

215

00:09:25,870 --> 00:09:23,779

performance in a supporting role the

216

00:09:29,110 --> 00:09:25,880

film is classified as a drama sci fi

217

00:09:31,150 --> 00:09:29,120

thriller the plot basically revolves

218

00:09:33,550 --> 00:09:31,160

around a group of scientists conducting

219

00:09:36,760 --> 00:09:33,560

a project to study communications with

220

00:09:39,639 --> 00:09:36,770

dolphins there are plot twists and

221

00:09:42,430 --> 00:09:39,649

subplot turns of course as one might

222

00:09:45,190 --> 00:09:42,440

think in a sci-fi thriller it's a

223

00:09:48,400 --> 00:09:45,200

recommend from this broadcaster the day

224

00:09:51,820 --> 00:09:48,410

of the dolphin now segue from the

225

00:09:56,010 --> 00:09:51,830

fiction the art and here's the life that

226

00:09:58,480 --> 00:09:56,020

this art imitated fast-forward headline

227

00:10:01,230 --> 00:09:58,490

scientists want to understand the

228

00:10:04,030 --> 00:10:01,240

language of dolphins by 2021

229

00:10:06,610 --> 00:10:04,040

sub-headline artificial intelligence

230

00:10:09,430 --> 00:10:06,620

technology may be the key to figuring

231

00:10:11,500 --> 00:10:09,440

out how the Dolphins are communicating

232

00:10:14,920 --> 00:10:11,510

this is written by one of our favorite

233

00:10:16,269 --> 00:10:14,930

journalists Lee Spiegel here we go we

234

00:10:18,510 --> 00:10:16,279

live on a planet where it's often

235

00:10:20,740 --> 00:10:18,520

difficult to engage in meaningful

236

00:10:21,730 --> 00:10:20,750

intelligent conversations with our

237

00:10:25,180 --> 00:10:21,740

fellow humans

238

00:10:27,480 --> 00:10:25,190

but what if interspecies communications

239

00:10:31,000 --> 00:10:27,490

with non-human creatures could occur

240

00:10:34,630 --> 00:10:31,010

specifically between people and dolphins

241

00:10:36,730 --> 00:10:34,640

the periodical bloomberg reports that a

242

00:10:40,960 --> 00:10:36,740

Swedish language technology company

243

00:10:45,340 --> 00:10:40,970

called gavgai a B they spell that GA v

244

00:10:48,160 --> 00:10:45,350

GA i uppercase a uppercase B is teaming

245

00:10:50,410 --> 00:10:48,170

up with researchers at the kth Royal

246

00:10:52,720 --> 00:10:50,420

Institute of Technology in Stockholm

247

00:10:55,420 --> 00:10:52,730

using something called artificial

248

00:10:58,870 --> 00:10:55,430

intelligence language analysis software

249

00:11:02,350 --> 00:10:58,880

the plan is to create an actual dolphin

250

00:11:04,150 --> 00:11:02,360

language dictionary the researchers will

251
00:11:06,009 --> 00:11:04,160
monitor and record the sounds of

252
00:11:08,049 --> 00:11:06,019
bottlenose dolphins who live

253
00:11:11,049 --> 00:11:08,059
a Wildlife Park outside of Stockholm

254
00:11:13,150 --> 00:11:11,059
quote we hope to be able to understand

255
00:11:16,059 --> 00:11:13,160
dolphins with the help of artificial

256
00:11:18,759 --> 00:11:16,069
intelligence technology end quote that's

257
00:11:20,769 --> 00:11:18,769
a quote from Lucy Karl grin a kth

258
00:11:23,710 --> 00:11:20,779
language adjunct professor

259
00:11:26,199 --> 00:11:23,720
he continued quote we know that dolphins

260
00:11:27,970 --> 00:11:26,209
have a complex communication system but

261
00:11:31,030 --> 00:11:27,980
we don't know what they're talking about

262
00:11:33,729 --> 00:11:31,040
yet end quotes according to the website

263
00:11:36,129 --> 00:11:33,739

futurism comm the site that presents

264

00:11:38,590 --> 00:11:36,139

current science and technology news and

265

00:11:41,470 --> 00:11:38,600

information bottlenose dolphins in

266

00:11:44,139 --> 00:11:41,480

Africa use signature whistles to

267

00:11:46,569 --> 00:11:44,149

identify each other most dolphin species

268

00:11:48,879 --> 00:11:46,579

rely on a wide variety of sounds in

269

00:11:51,759 --> 00:11:48,889

their day-to-day lives they use sound to

270

00:11:53,769 --> 00:11:51,769

find food and to navigate as well as

271

00:11:56,169 --> 00:11:53,779

communicate with each other these

272

00:11:58,179 --> 00:11:56,179

signature whistles are exchanged by

273

00:12:00,210 --> 00:11:58,189

groups of dolphins when they meet at sea

274

00:12:04,900 --> 00:12:00,220

and they're used to address each other

275

00:12:06,850 --> 00:12:04,910

just like we use names for years movies

276
00:12:09,009 --> 00:12:06,860
and television have depicted dolphins as

277
00:12:11,710 --> 00:12:09,019
warm and friendly creatures of the sea

278
00:12:14,079 --> 00:12:11,720
eager to play with and rescue humans in

279
00:12:16,419 --> 00:12:14,089
various predicaments think flipper and

280
00:12:19,869 --> 00:12:16,429
the implication is generally that

281
00:12:22,600 --> 00:12:19,879
dolphins understand human language but

282
00:12:24,910 --> 00:12:22,610
what about the reverse are we any closer

283
00:12:27,249 --> 00:12:24,920
to translating the sounds whistles and

284
00:12:29,789 --> 00:12:27,259
clicks emanating from dolphins as

285
00:12:33,160 --> 00:12:29,799
anything resembling an actual language

286
00:12:35,350 --> 00:12:33,170
well last year researchers at a nature

287
00:12:37,749 --> 00:12:35,360
reserve in Russia claimed to record a

288
00:12:40,629 --> 00:12:37,759

possible language between two bottlenose

289

00:12:44,319 --> 00:12:40,639

dolphins that seemed at the time to be a

290

00:12:46,299 --> 00:12:44,329

pattern of words and sentences but not

291

00:12:49,239 --> 00:12:46,309

all scientists believe this was a true

292

00:12:51,429 --> 00:12:49,249

language breakthrough the current 4-year

293

00:12:53,769 --> 00:12:51,439

dolphin language project if successful

294

00:12:56,699 --> 00:12:53,779

would give us a huge breakthrough by

295

00:12:59,289 --> 00:12:56,709

2021 it could also lead to other

296

00:13:02,139 --> 00:12:59,299

applications including preparing to

297

00:13:05,499 --> 00:13:02,149

ultimately communicate with intelligent

298

00:13:08,169 --> 00:13:05,509

alien life quote one of the problems

299

00:13:11,259 --> 00:13:08,179

with finding extraterrestrial life as

300

00:13:13,530 --> 00:13:11,269

exciting as that prospect is is that we

301
00:13:16,150 --> 00:13:13,540
will need to find ways to communicate

302
00:13:19,070 --> 00:13:16,160
since gavagai systems have already

303
00:13:21,890 --> 00:13:19,080
mastered human language moving on to

304
00:13:26,450 --> 00:13:21,900
other life-forms seems like a smart next

305
00:13:29,140 --> 00:13:26,460
step and quotes so say we all will keep

306
00:13:32,270 --> 00:13:29,150
our eyes on this and keep you updated

307
00:13:35,210 --> 00:13:32,280
speaking of updated speaking of dated

308
00:13:38,990 --> 00:13:35,220
here's a headline Canada unveils

309
00:13:42,260 --> 00:13:39,000
dinosaur mummy found with skin and gut

310
00:13:44,630 --> 00:13:42,270
contents intact this is from The

311
00:13:48,320 --> 00:13:44,640
Huffington Post with a byline for Nina

312
00:13:51,340 --> 00:13:48,330
called Gao ski after more than 110

313
00:13:53,960 --> 00:13:51,350

million years encased in stone and

314

00:13:56,170 --> 00:13:53,970

impeccably preserved dragon like

315

00:13:58,640 --> 00:13:56,180

dinosaur has been unveiled by

316

00:14:01,610 --> 00:13:58,650

paleontologists in Canada and it's

317

00:14:04,460 --> 00:14:01,620

unlike anything they've seen before yep

318

00:14:05,660 --> 00:14:04,470

it's the remains of a dinosaur in fact

319

00:14:09,380 --> 00:14:05,670

an armor-plated

320

00:14:14,150 --> 00:14:09,390

dinosaur called a notice or spelled n o

321

00:14:16,670 --> 00:14:14,160

do sa you are a 3,000 pound plant eating

322

00:14:19,100 --> 00:14:16,680

horned creature and it went on display

323

00:14:22,040 --> 00:14:19,110

in Alberta in Friday after its

324

00:14:24,350 --> 00:14:22,050

accidental discovery by minors almost 6

325

00:14:27,140 --> 00:14:24,360

years ago this is according to National

326
00:14:29,210 --> 00:14:27,150
Geographic enter Caleb Brown

327
00:14:31,570 --> 00:14:29,220
he's a postdoctoral researcher at the

328
00:14:34,550 --> 00:14:31,580
Royal Tyrrell Museum of Paleontology

329
00:14:36,500 --> 00:14:34,560
where the fossil went on display here's

330
00:14:39,170 --> 00:14:36,510
what Caleb brown told National

331
00:14:42,310 --> 00:14:39,180
Geographic quote we have a dinosaur as

332
00:14:45,140 --> 00:14:42,320
it would have been and quotes

333
00:14:46,880 --> 00:14:45,150
researchers say the fossil is remarkable

334
00:14:49,790 --> 00:14:46,890
with it being a never-before-seen

335
00:14:52,070 --> 00:14:49,800
species of notice or as well as the

336
00:14:55,520 --> 00:14:52,080
oldest dinosaur ever found in Alberta

337
00:14:58,430 --> 00:14:55,530
its preserved skin and its gut contents

338
00:15:00,830 --> 00:14:58,440

are also providing invaluable clues on

339

00:15:03,200 --> 00:15:00,840

these extinct creatures Donald Henderson

340

00:15:06,320 --> 00:15:03,210

is the curator of dinosaurs at the Royal

341

00:15:08,480 --> 00:15:06,330

Tyrrell Museum and he said quote I've

342

00:15:11,480 --> 00:15:08,490

been calling this one the rosetta stone

343

00:15:13,970 --> 00:15:11,490

for armor that's a quote from Donald

344

00:15:16,070 --> 00:15:13,980

Henderson he's creator of dinosaurs at

345

00:15:18,170 --> 00:15:16,080

the Royal Tyrrell Museum and Don

346

00:15:20,210 --> 00:15:18,180

Brinkman director of preservation and

347

00:15:23,300 --> 00:15:20,220

research told the New York Times quote

348

00:15:26,510 --> 00:15:23,310

it's basically a dinosaur mummy

349

00:15:28,940 --> 00:15:26,520

it really is exceptional end quote for

350

00:15:31,640 --> 00:15:28,950

the last five years researchers have

351
00:15:32,879 --> 00:15:31,650
spent more than seven thousand hours as

352
00:15:35,309 --> 00:15:32,889
they chiseled away at

353
00:15:38,099 --> 00:15:35,319
fossils surrounding rock to expose this

354
00:15:40,519 --> 00:15:38,109
incredible creature these researchers

355
00:15:43,319 --> 00:15:40,529
have had their share of ups and downs

356
00:15:45,449 --> 00:15:43,329
with the fossil breaking into pieces

357
00:15:49,829 --> 00:15:45,459
upon its removal from Alberta's

358
00:15:52,379 --> 00:15:49,839
millennium mine in 2011 the 15,000 pound

359
00:15:55,019 --> 00:15:52,389
plaster covered block it was encased in

360
00:15:58,499 --> 00:15:55,029
is seen shattering there's a video

361
00:16:01,169 --> 00:15:58,509
uploaded to YouTube by Suncor Energy

362
00:16:01,829 --> 00:16:01,179
it seems that Suncor Energy owns the

363
00:16:04,859 --> 00:16:01,839

mine

364

00:16:06,780 --> 00:16:04,869

where this discovery was made quote one

365

00:16:09,090 --> 00:16:06,790

of the good things about this believe it

366

00:16:11,309 --> 00:16:09,100

or not is because it's in smaller pieces

367

00:16:12,539 --> 00:16:11,319

it will make preparation go a little

368

00:16:14,489 --> 00:16:12,549

faster and quotes

369

00:16:16,590 --> 00:16:14,499

that's according to Darren Tonchi a

370

00:16:20,819 --> 00:16:16,600

paleo technician with the Royal Tyrrell

371

00:16:23,549 --> 00:16:20,829

Museum quote he says this is restorable

372

00:16:25,619 --> 00:16:23,559

looking at the pieces in the video he

373

00:16:28,769 --> 00:16:25,629

continues everything broke cleanly and

374

00:16:31,939 --> 00:16:28,779

in big pieces it's unfortunate this

375

00:16:34,139 --> 00:16:31,949

happened but it is restorable end quotes

376

00:16:36,809 --> 00:16:34,149

it would seem that there was some

377

00:16:40,859 --> 00:16:36,819

serendipity involved with this breakage

378

00:16:44,460 --> 00:16:40,869

time to get out the superglue not the

379

00:16:46,710 --> 00:16:44,470

most natural segue from dinosaurs to Tom

380

00:16:50,699 --> 00:16:46,720

DeLonge but that's why we call this

381

00:16:54,419 --> 00:16:50,709

off-the-beaten-path headline Rockstar

382

00:16:56,369 --> 00:16:54,429

plans for announcement on UFOs well

383

00:16:56,850 --> 00:16:56,379

speaking of dinosaurs we've heard that

384

00:16:58,979 --> 00:16:56,860

before

385

00:17:02,429 --> 00:16:58,989

but this is an article written by George

386

00:17:04,829 --> 00:17:02,439

Knapp KN a PP he's that wonderful

387

00:17:06,840 --> 00:17:04,839

journalist out of Las Vegas and also a

388

00:17:10,049 --> 00:17:06,850

presence behind the microphone on

389

00:17:12,779 --> 00:17:10,059

various and sundry radio shows here's

390

00:17:14,970 --> 00:17:12,789

what he writes can a rock star do what

391

00:17:17,850 --> 00:17:14,980

generations of investigators have failed

392

00:17:21,779 --> 00:17:17,860

to manage that is find out what the

393

00:17:24,799 --> 00:17:21,789

government knows about UFOs last year

394

00:17:27,449 --> 00:17:24,809

Tom DeLonge the co-founder of blink 182

395

00:17:30,210 --> 00:17:27,459

told George Knapp about his plans to

396

00:17:32,820 --> 00:17:30,220

create a multimedia empire based on

397

00:17:35,180 --> 00:17:32,830

inside information given to him by

398

00:17:38,310 --> 00:17:35,190

military sources that he's cultivated

399

00:17:40,680 --> 00:17:38,320

since then Tom DeLonge has taken some

400

00:17:43,409 --> 00:17:40,690

lumps and his grand plan was nearly

401
00:17:45,869 --> 00:17:43,419
crushed by those WikiLeaks disclosures

402
00:17:46,800 --> 00:17:45,879
but since becoming more serious about

403
00:17:48,960 --> 00:17:46,810
UFOs

404
00:17:51,630 --> 00:17:48,970
he's managed to tick off just about

405
00:17:54,660 --> 00:17:51,640
everyone especially the UFO faithful

406
00:17:58,770 --> 00:17:54,670
have accused him of being a dupe a fraud

407
00:18:01,740 --> 00:17:58,780
a tool of the deep state or being just

408
00:18:04,770 --> 00:18:01,750
downright delusional but Tom DeLonge has

409
00:18:07,380 --> 00:18:04,780
persevered quote this is the greatest

410
00:18:09,510 --> 00:18:07,390
story never told period you don't even

411
00:18:11,550 --> 00:18:09,520
need to sensationalize anything it's

412
00:18:12,170 --> 00:18:11,560
like science fiction but more like

413
00:18:15,420 --> 00:18:12,180

science

414

00:18:18,150 --> 00:18:15,430

non-fiction and quotes that's a direct

415

00:18:21,480 --> 00:18:18,160

quote from mr. Dylan founder of a

416

00:18:23,130 --> 00:18:21,490

company he now calls to the stars it

417

00:18:25,110 --> 00:18:23,140

would seem that journalist George Knapp

418

00:18:26,790 --> 00:18:25,120

got an inside look

419

00:18:28,530 --> 00:18:26,800

he writes that last year when Tom

420

00:18:31,560 --> 00:18:28,540

DeLonge showed him the headquarters for

421

00:18:33,690 --> 00:18:31,570

his new company to the stars he revealed

422

00:18:37,620 --> 00:18:33,700

that he had talked his way into a seat

423

00:18:39,810 --> 00:18:37,630

at the UFO table by somehow cultivating

424

00:18:42,360 --> 00:18:39,820

a group of high-ranking sources or

425

00:18:45,420 --> 00:18:42,370

advisors from within the defense

426

00:18:48,090 --> 00:18:45,430

establishment the keepers of UFO secrets

427

00:18:52,050 --> 00:18:48,100

he said he did it by making the

428

00:18:53,970 --> 00:18:52,060

following pitch buckle up quote they've

429

00:18:56,250 --> 00:18:53,980

been backed into a corner and need a way

430

00:18:58,860 --> 00:18:56,260

for this to get out and I went in there

431

00:19:01,740 --> 00:18:58,870

saying there will never be congressional

432

00:19:03,780 --> 00:19:01,750

hearings on this I understand and accept

433

00:19:07,310 --> 00:19:03,790

that but what I think can happen is that

434

00:19:09,840 --> 00:19:07,320

we can change belief systems and quotes

435

00:19:12,270 --> 00:19:09,850

what Tom DeLonge offered to do was

436

00:19:14,670 --> 00:19:12,280

invest millions of his own dollars into

437

00:19:16,980 --> 00:19:14,680

telling a different story one that

438

00:19:19,020 --> 00:19:16,990

explained why the cone of silence had

439

00:19:21,780 --> 00:19:19,030

been dropped over UFOs why

440

00:19:25,410 --> 00:19:21,790

misinformation was spread and in

441

00:19:27,870 --> 00:19:25,420

exchange Tom DeLonge says they told him

442

00:19:30,570 --> 00:19:27,880

things here's some back and forth

443

00:19:34,070 --> 00:19:30,580

between Tom DeLonge and George Knapp Tom

444

00:19:38,490 --> 00:19:34,080

DeLonge he says we found a life-form

445

00:19:41,310 --> 00:19:38,500

George Knapp we found a life-form Tom

446

00:19:43,560 --> 00:19:41,320

DeLonge when we first found the vehicles

447

00:19:46,560 --> 00:19:43,570

I know we brought in private industry

448

00:19:48,960 --> 00:19:46,570

military intelligence a good diverse

449

00:19:50,160 --> 00:19:48,970

group of elevated thinkers and said how

450

00:19:53,250 --> 00:19:50,170

do we handle this

451
00:19:56,010 --> 00:19:53,260
end quote defending the military's

452
00:19:58,140 --> 00:19:56,020
handling of UFO secrecy was too much for

453
00:20:00,630 --> 00:19:58,150
many researchers they dismissed Tom

454
00:20:03,420 --> 00:20:00,640
DeLonge as a prophet tear out

455
00:20:05,160 --> 00:20:03,430
make a book on flying saucers and maybe

456
00:20:08,220 --> 00:20:05,170
he was making all of this up

457
00:20:10,770 --> 00:20:08,230
enter WikiLeaks presidential advisor

458
00:20:13,620 --> 00:20:10,780
John Podesta 'he's emails spilling out

459
00:20:15,510 --> 00:20:13,630
for the whole world to see and in the

460
00:20:19,260 --> 00:20:15,520
middle of those emails were multiple

461
00:20:21,540 --> 00:20:19,270
emails to and from Tom DeLonge naming

462
00:20:23,130 --> 00:20:21,550
his secret panel of advisers and showing

463
00:20:25,590 --> 00:20:23,140

there'd been high-level meetings of

464

00:20:29,250 --> 00:20:25,600

generals and military contractors to

465

00:20:31,530 --> 00:20:29,260

discuss UFO disclosure Tom DeLonge had

466

00:20:34,200 --> 00:20:31,540

been telling the truth in February

467

00:20:36,750 --> 00:20:34,210

DeLonge accepted the award from the UFO

468

00:20:38,760 --> 00:20:36,760

Congress in Arizona he since

469

00:20:40,500 --> 00:20:38,770

acknowledged his panel of advisers had

470

00:20:43,080 --> 00:20:40,510

been shell-shocked by these leaks and

471

00:20:46,170 --> 00:20:43,090

that his plans had been delayed but not

472

00:20:48,600 --> 00:20:46,180

derailed for the last few months Tom

473

00:20:51,120 --> 00:20:48,610

DeLonge has been almost silent about his

474

00:20:53,250 --> 00:20:51,130

plans on his Twitter feed he's

475

00:20:56,520 --> 00:20:53,260

acknowledged these delays in making his

476

00:20:58,410 --> 00:20:56,530

big announcement George Knapp then notes

477

00:21:01,740 --> 00:20:58,420

that astrophysicist and author dr.

478

00:21:03,600 --> 00:21:01,750

Jacques Vallee did likewise and also a

479

00:21:05,910 --> 00:21:03,610

former Defense Department official named

480

00:21:09,120 --> 00:21:05,920

Chris Mellon has made public statements

481

00:21:11,910 --> 00:21:09,130

about UFO secrecy if Tom DeLonge has a

482

00:21:14,100 --> 00:21:11,920

new team of advisers he may be inching

483

00:21:17,610 --> 00:21:14,110

closer to his original plan of using

484

00:21:20,550 --> 00:21:17,620

movies books and TV and other media for

485

00:21:23,400 --> 00:21:20,560

a program of gradual disclosure rather

486

00:21:25,740 --> 00:21:23,410

than any sudden announcement he says

487

00:21:28,380 --> 00:21:25,750

quote I think they really do want us to

488

00:21:31,380 --> 00:21:28,390

know the government I really do think

489

00:21:32,820 --> 00:21:31,390

they do I do at this point feel like

490

00:21:35,040 --> 00:21:32,830

it's going to be a tough thing to

491

00:21:36,960 --> 00:21:35,050

swallow for people and I think there are

492

00:21:38,850 --> 00:21:36,970

elements about it that people are not

493

00:21:41,100 --> 00:21:38,860

ready for end quote

494

00:21:42,900 --> 00:21:41,110

the long had hoped to make some sort of

495

00:21:45,510 --> 00:21:42,910

announcement about his business plans by

496

00:21:47,610 --> 00:21:45,520

the beginning of June but it looks like

497

00:21:49,100 --> 00:21:47,620

that's going to be delayed until later

498

00:21:52,830 --> 00:21:49,110

this summer

499

00:21:54,810 --> 00:21:52,840

tick-tick-tick meantime Tom DeLonge is

500

00:21:58,020 --> 00:21:54,820

reportedly back in the studio recording

501
00:22:00,420 --> 00:21:58,030
a new album so I guess we're going to

502
00:22:03,930 --> 00:22:00,430
have to wait and watch oh and maybe

503
00:22:07,050 --> 00:22:03,940
listen but we'll leave that up to you

504
00:22:10,440 --> 00:22:07,060
gentle listeners to decide performers

505
00:22:13,380 --> 00:22:10,450
and UFOs and what is up with that here's

506
00:22:14,320 --> 00:22:13,390
an astonishing story a revelation of a

507
00:22:17,680 --> 00:22:14,330
sort

508
00:22:20,649 --> 00:22:17,690
founded at open minds at tv.com and it's

509
00:22:23,830 --> 00:22:20,659
posted by Alejandro Rojas here's a

510
00:22:28,090 --> 00:22:23,840
headline act ERK ERK Russell alleges he

511
00:22:30,070 --> 00:22:28,100
witnessed famous Phoenix UFO event Kurt

512
00:22:32,769 --> 00:22:30,080
Russell claims to have witnessed a UFO

513
00:22:35,680 --> 00:22:32,779

above Phoenix Arizona during one of the

514

00:22:38,350 --> 00:22:35,690

largest mass UFO sightings in United

515

00:22:41,610 --> 00:22:38,360

States history he discussed the event

516

00:22:43,930 --> 00:22:41,620

recently on the BBC's show the one show

517

00:22:46,720 --> 00:22:43,940

Kurt Russell is one of the leads in the

518

00:22:49,810 --> 00:22:46,730

new film guardians of the galaxy vol 2

519

00:22:51,519 --> 00:22:49,820

recently released at the end of April

520

00:22:53,950 --> 00:22:51,529

Russell appeared with co-star Chris

521

00:22:56,740 --> 00:22:53,960

Pratt on the one show to promote this

522

00:22:58,990 --> 00:22:56,750

film during that interview the host of

523

00:23:01,720 --> 00:22:59,000

the show Giles brand Routh brought out a

524

00:23:05,379 --> 00:23:01,730

folder that folder was labeled top

525

00:23:08,139 --> 00:23:05,389

secret they played X file ish music it

526
00:23:10,480 --> 00:23:08,149
seemed to go something like this show

527
00:23:12,759 --> 00:23:10,490
host Giles brand Routh that told Kurt

528
00:23:14,529 --> 00:23:12,769
Russell and actor Chris Pratt who was

529
00:23:16,450 --> 00:23:14,539
also a presence of core this TV

530
00:23:18,759 --> 00:23:16,460
interview that he had searched the

531
00:23:21,190 --> 00:23:18,769
international news clippings for a story

532
00:23:24,460 --> 00:23:21,200
that he thought Russell and Pratt might

533
00:23:26,529 --> 00:23:24,470
find some interest in then Giles brand

534
00:23:29,379 --> 00:23:26,539
Ruth tells the story in the clipping

535
00:23:31,419 --> 00:23:29,389
about an unidentified pilot too was

536
00:23:34,330 --> 00:23:31,429
flying in his private aircraft with his

537
00:23:36,580 --> 00:23:34,340
son near an airport in Phoenix that

538
00:23:38,710 --> 00:23:36,590

pilot spotted six lights in the night

539

00:23:41,200 --> 00:23:38,720

sky and reported this to the control

540

00:23:43,779 --> 00:23:41,210

tower in an effort to find out what was

541

00:23:47,200 --> 00:23:43,789

going on the tower said there were no

542

00:23:49,720 --> 00:23:47,210

other planes in the area and then in a

543

00:23:52,299 --> 00:23:49,730

grand finale to his story Giles brand

544

00:23:55,600 --> 00:23:52,309

Routh dramatically exclaimed mystery

545

00:23:57,100 --> 00:23:55,610

unresolved during brand routh's telling

546

00:23:59,769 --> 00:23:57,110

of the story Chris Pratt listened

547

00:24:03,159 --> 00:23:59,779

interested but with no obvious reaction

548

00:24:05,710 --> 00:24:03,169

however Kurt Russell began to smile

549

00:24:08,350 --> 00:24:05,720

coily and as soon as brand Routh

550

00:24:10,480 --> 00:24:08,360

finished Russell chimed in quote the

551
00:24:14,289 --> 00:24:10,490
tail number for that plane was Bonanza

552
00:24:17,019 --> 00:24:14,299
to tango Sierra and I was the pilot and

553
00:24:19,629 --> 00:24:17,029
quotes Russell claimed and this provoked

554
00:24:21,879 --> 00:24:19,639
the audible amazement of the other one

555
00:24:23,649 --> 00:24:21,889
show guest Chris Pratt was apparently

556
00:24:26,860 --> 00:24:23,659
not aware of this piece of information

557
00:24:28,360 --> 00:24:26,870
at all his reaction was to dawn and

558
00:24:30,520 --> 00:24:28,370
incredulous

559
00:24:33,070 --> 00:24:30,530
as he listened to Russell tell more of

560
00:24:34,120 --> 00:24:33,080
his story Kurt Russell explained that

561
00:24:36,040 --> 00:24:34,130
Oliver Hudson

562
00:24:38,350 --> 00:24:36,050
he's goldie Hawn's son from her first

563
00:24:41,110 --> 00:24:38,360

marriage and considers Kurt Russell his

564

00:24:43,020 --> 00:24:41,120

father they were flying to Phoenix so

565

00:24:46,450 --> 00:24:43,030

that Hudson could see his girlfriend

566

00:24:48,460 --> 00:24:46,460

quote we were on approach and I saw six

567

00:24:52,000 --> 00:24:48,470

lights over the airport they were in

568

00:24:54,730 --> 00:24:52,010

absolute uniform v-shape and quote said

569

00:24:56,650 --> 00:24:54,740

Russell according to Kurt Russell Oliver

570

00:24:59,410 --> 00:24:56,660

Hudson then asked him if he knew what

571

00:25:02,710 --> 00:24:59,420

the lights were Russell said he didn't

572

00:25:04,750 --> 00:25:02,720

and then decided to call the tower the

573

00:25:07,090 --> 00:25:04,760

tower said their radar didn't detect

574

00:25:09,280 --> 00:25:07,100

anything so Russell said he declared it

575

00:25:13,030 --> 00:25:09,290

unidentified since it was flying and

576

00:25:15,040 --> 00:25:13,040

that it appeared to be six objects the

577

00:25:17,620 --> 00:25:15,050

two of them then landed Oliver Hudson

578

00:25:20,710 --> 00:25:17,630

got out Russell returned to Los Angeles

579

00:25:23,310 --> 00:25:20,720

the two never gave the incident a second

580

00:25:26,110 --> 00:25:23,320

thought after that until two years later

581

00:25:28,900 --> 00:25:26,120

he said he came home one day and goldie

582

00:25:31,600 --> 00:25:28,910

hawn was watching a TV show on ufos it

583

00:25:34,390 --> 00:25:31,610

was covering the famous UFO event in

584

00:25:37,960 --> 00:25:34,400

Phoenix quote that was the most viewed

585

00:25:40,540 --> 00:25:37,970

UFO event over 20,000 people saw it and

586

00:25:43,299 --> 00:25:40,550

quotes explained Russell he said as he

587

00:25:44,650 --> 00:25:43,309

watched this TV show he quote felt like

588

00:25:47,710 --> 00:25:44,660

Richard Dreyfuss from Close Encounters

589

00:25:50,320 --> 00:25:47,720

end quote he felt as though for some

590

00:25:52,720 --> 00:25:50,330

reason he knew something about the event

591

00:25:55,210 --> 00:25:52,730

and then the show mentioned that a

592

00:25:58,060 --> 00:25:55,220

general aviation pilot reported seeing

593

00:26:00,400 --> 00:25:58,070

the UFO upon landing and that's when

594

00:26:03,370 --> 00:26:00,410

Kurt Russell thought to himself that was

595

00:26:05,740 --> 00:26:03,380

me Russell went to check his logbooks

596

00:26:09,190 --> 00:26:05,750

and sure enough the flight was at the

597

00:26:11,410 --> 00:26:09,200

same time of that UFO sighting quote the

598

00:26:14,919 --> 00:26:11,420

fascinating part to me is just that it

599

00:26:17,290 --> 00:26:14,929

went literally out of my head Oliver

600

00:26:19,419 --> 00:26:17,300

never mentioned it had I not seen that

601
00:26:22,720 --> 00:26:19,429
show I would never have thought of it

602
00:26:25,240 --> 00:26:22,730
that to me was the weird part end quote

603
00:26:26,799 --> 00:26:25,250
Chris Pratt who claimed earlier in the

604
00:26:29,560 --> 00:26:26,809
show to be a skeptic when it comes to

605
00:26:31,870 --> 00:26:29,570
UFOs still seemed a bit hesitant

606
00:26:34,450 --> 00:26:31,880
so Russell added quote well it's

607
00:26:35,440 --> 00:26:34,460
unidentified it's flying and it's an

608
00:26:38,260 --> 00:26:35,450
object

609
00:26:40,150 --> 00:26:38,270
end quote apparently this is the first

610
00:26:42,220 --> 00:26:40,160
time Kurt Russell has told the story in

611
00:26:43,870 --> 00:26:42,230
public prior to this

612
00:26:46,240 --> 00:26:43,880
Russell hasn't been associated with that

613
00:26:49,630 --> 00:26:46,250

famous Phoenix UFO sighting that took

614

00:26:51,039 --> 00:26:49,640

place March 13th 1997 it's referred to

615

00:26:53,530 --> 00:26:51,049

as the Phoenix light

616

00:26:55,630 --> 00:26:53,540

he didn't indicate when exactly it was

617

00:26:58,270 --> 00:26:55,640

that he saw the UFO program that

618

00:27:01,090 --> 00:26:58,280

reminded him of this incident but

619

00:27:05,560 --> 00:27:01,100

Alejandro Rojas who posted this for open

620

00:27:07,780 --> 00:27:05,570

minds TV that the one show asked its

621

00:27:10,570 --> 00:27:07,790

guests to write down before the show any

622

00:27:12,310 --> 00:27:10,580

interesting space or UFO related stories

623

00:27:16,120 --> 00:27:12,320

they could share and Kurt Russell

624

00:27:17,650 --> 00:27:16,130

certainly came up with a doozy you could

625

00:27:19,780 --> 00:27:17,660

be sure Russell's accounts going to be

626
00:27:22,720 --> 00:27:19,790
added to the narrative of the Phoenix

627
00:27:25,270 --> 00:27:22,730
lights UFO event especially says

628
00:27:28,240 --> 00:27:25,280
Alejandro Rojas if I'm the one telling

629
00:27:30,940 --> 00:27:28,250
it yes this article includes a link to

630
00:27:34,530 --> 00:27:30,950
that video footage we'll post it at UFO

631
00:27:38,860 --> 00:27:34,540
headline news calm for your enjoyment

632
00:27:42,850 --> 00:27:38,870
UFOs and actors here's a story that fits

633
00:27:46,659 --> 00:27:42,860
in right about here headline did UFOs

634
00:27:49,480 --> 00:27:46,669
cause Marilyn Monroe's death documentary

635
00:27:51,430 --> 00:27:49,490
claims proof gentle listeners you've

636
00:27:54,220 --> 00:27:51,440
undoubtedly come across the title

637
00:27:57,100 --> 00:27:54,230
unacknowledged it's a new documentary

638
00:28:00,430 --> 00:27:57,110

that covers lots of conspiracy theories

639

00:28:03,490 --> 00:28:00,440

and this is one of them the sub headline

640

00:28:05,710 --> 00:28:03,500

here it sounds absolutely crazy but a

641

00:28:08,080 --> 00:28:05,720

new documentary claims Marilyn Monroe

642

00:28:12,039 --> 00:28:08,090

was killed because of what she knew

643

00:28:13,810 --> 00:28:12,049

about the famous Roswell incident this

644

00:28:15,789 --> 00:28:13,820

new documentary claims that Marilyn

645

00:28:17,700 --> 00:28:15,799

Monroe was killed because she was going

646

00:28:20,190 --> 00:28:17,710

to leak evidence regarding

647

00:28:22,270 --> 00:28:20,200

extraterrestrials and their existence

648

00:28:25,390 --> 00:28:22,280

directed by Michael Missoula

649

00:28:27,610 --> 00:28:25,400

unacknowledged goes into a wide range of

650

00:28:29,860 --> 00:28:27,620

conspiracy theories including one that

651

00:28:32,620 --> 00:28:29,870

offers up a possible explanation for

652

00:28:35,169 --> 00:28:32,630

Marilyn Monroe's death that she knew

653

00:28:38,350 --> 00:28:35,179

about UFOs and was threatening to leak

654

00:28:40,870 --> 00:28:38,360

classified documents this clip was

655

00:28:43,930 --> 00:28:40,880

spotted and scooped first by technology

656

00:28:46,690 --> 00:28:43,940

website Gizmodo apparently actor burl

657

00:28:49,240 --> 00:28:46,700

ives claimed that monroe did not die

658

00:28:51,340 --> 00:28:49,250

from a drug overdose that's not new

659

00:28:55,070 --> 00:28:51,350

information it's been making the rounds

660

00:28:56,779 --> 00:28:55,080

since her death dr. Steven Greer who

661

00:28:59,659 --> 00:28:56,789

subject of the documentary holds up a

662

00:29:02,029 --> 00:28:59,669

so-called death warrant we're assuming

663

00:29:04,389 --> 00:29:02,039

that's an actual piece of paper on which

664

00:29:06,980 --> 00:29:04,399

this document is allegedly written

665

00:29:09,289 --> 00:29:06,990

apparently there is information which

666

00:29:11,299 --> 00:29:09,299

suggests that Marilyn Monroe had phone

667

00:29:14,090 --> 00:29:11,309

conversations with controversial

668

00:29:16,340 --> 00:29:14,100

reporter Dorothy Kilgallen she was

669

00:29:19,399 --> 00:29:16,350

looking into the famous Roswell incident

670

00:29:22,000 --> 00:29:19,409

herself according to a plot summary on

671

00:29:23,630 --> 00:29:22,010

Movie Database web site IMDB

672

00:29:25,610 --> 00:29:23,640

unacknowledged

673

00:29:28,310 --> 00:29:25,620

is about the so called disclosure

674

00:29:31,250 --> 00:29:28,320

project and how UFO secrecy has been

675

00:29:33,110 --> 00:29:31,260

enforced it's no secret the clocks have

676

00:29:34,970 --> 00:29:33,120

enforced the fact that we've got to go

677

00:29:37,610 --> 00:29:34,980

we hope you've enjoyed the premiere

678

00:29:40,070 --> 00:29:37,620

episode of off the beaten path

679

00:29:42,169 --> 00:29:40,080

new weekends right here at inception

680

00:29:45,680 --> 00:29:42,179

radio network but now we've got to

681

00:29:47,840 --> 00:29:45,690

bounce because that's a wrap thank you

682

00:29:50,870 --> 00:29:47,850

for listening to inception radio network
