

Inception Radio Network

UFO Headline News Wednesday May
31st, 2017

1
00:00:07,820 --> 00:00:05,300
hello it's Wednesday May 31st 2017 you

2
00:00:10,820 --> 00:00:07,830
are listening to inception Radio Network

3
00:00:15,680 --> 00:00:10,830
voice of the fringe majority this is

4
00:00:19,540 --> 00:00:15,690
Carol Carl with UFO headline news how

5
00:00:22,460 --> 00:00:19,550
far away is Deneb Deneb that star that

6
00:00:24,290 --> 00:00:22,470
amazing thing up there shining in the

7
00:00:27,109 --> 00:00:24,300
sky well we can see it tonight and

8
00:00:30,140 --> 00:00:27,119
here's some more info from the folks at

9
00:00:33,080 --> 00:00:30,150
earth sky org Deneb is part of that

10
00:00:35,000 --> 00:00:33,090
beautiful summer triangle asterism and

11
00:00:37,190 --> 00:00:35,010
it's just about to come back into

12
00:00:40,549 --> 00:00:37,200
convenient evening view for another

13
00:00:43,729 --> 00:00:40,559

season now an asterism this broadcaster

14

00:00:46,760 --> 00:00:43,739

learned is not a constellation it's just

15

00:00:48,830 --> 00:00:46,770

a recognizable group of stars this one

16

00:00:51,260 --> 00:00:48,840

is made of three bright stars in three

17

00:00:53,569 --> 00:00:51,270

different constellations there's the

18

00:00:56,540 --> 00:00:53,579

star Deneb one of the three summer

19

00:00:59,569 --> 00:00:56,550

triangle stars when you gaze at Deneb

20

00:01:02,510 --> 00:00:59,579

you're gazing across a great distance of

21

00:01:04,460 --> 00:01:02,520

space the exact distance to Deneb is not

22

00:01:06,800 --> 00:01:04,470

known for certain but it's currently

23

00:01:09,440 --> 00:01:06,810

accepted that that distance is around

24

00:01:11,600 --> 00:01:09,450

two thousand light-years that makes

25

00:01:14,030 --> 00:01:11,610

Deneb one of the most distant stars we

26

00:01:15,770 --> 00:01:14,040

can see with the eye alone why don't

27

00:01:19,219 --> 00:01:15,780

destroy numbers know the distance to

28

00:01:21,679 --> 00:01:19,229

dinamics actly in fact there are varying

29

00:01:23,749 --> 00:01:21,689

estimates for the stars distance and the

30

00:01:26,090 --> 00:01:23,759

answer to why they don't know is a

31

00:01:27,649 --> 00:01:26,100

glimpse into the process of science

32

00:01:29,450 --> 00:01:27,659

itself and the way the different

33

00:01:32,330 --> 00:01:29,460

astronomers or teams of astronomers

34

00:01:34,520 --> 00:01:32,340

using advancing technologies try to

35

00:01:37,999 --> 00:01:34,530

improve on what was learned earlier

36

00:01:39,830 --> 00:01:38,009

sometimes years before it seems the

37

00:01:42,230 --> 00:01:39,840

estimates for Donets distance have been

38

00:01:44,300 --> 00:01:42,240

obtained by a variety of methods some of

39

00:01:47,149 --> 00:01:44,310

which involved theoretical models

40

00:01:49,340 --> 00:01:47,159

related to the way stars evolve and some

41

00:01:53,690 --> 00:01:49,350

of which assume Deneb membership in the

42

00:01:55,850 --> 00:01:53,700

Cygnus 0 b7 Association of stars hmm

43

00:01:58,459 --> 00:01:55,860

wonder what those membership dues run

44

00:02:01,069 --> 00:01:58,469

the most important modern distant

45

00:02:03,410 --> 00:02:01,079

measurement for Deneb came in the 1990s

46

00:02:06,440 --> 00:02:03,420

with the European Space Agency's Earth

47

00:02:08,869 --> 00:02:06,450

orbiting Hipparchus space astrometry

48

00:02:13,880 --> 00:02:08,879

mission and will spell Hipparcos that's

49

00:02:16,310 --> 00:02:13,890

H IPP AR cos Hipparcos gathered Astra

50

00:02:18,410 --> 00:02:16,320

trick data on Deneb early analyses of

51
00:02:19,790 --> 00:02:18,420
that data indicated a distance of

52
00:02:22,340 --> 00:02:19,800
somewhere around two thousand

53
00:02:24,560 --> 00:02:22,350
light-years since then various groups of

54
00:02:27,350 --> 00:02:24,570
astronomers have reanalyzed that

55
00:02:28,970 --> 00:02:27,360
Hipparcos data considering that computer

56
00:02:31,790 --> 00:02:28,980
power gets stronger with each passing

57
00:02:35,600 --> 00:02:31,800
year that helps improve techniques for

58
00:02:37,130 --> 00:02:35,610
these analyses so for example a 2009

59
00:02:40,250 --> 00:02:37,140
study published in the peer-reviewed

60
00:02:42,170 --> 00:02:40,260
journal astronomy and astrophysics used

61
00:02:44,360 --> 00:02:42,180
a newer method of analysis which

62
00:02:47,090 --> 00:02:44,370
resulted in a distance for Deneb that's

63
00:02:50,720 --> 00:02:47,100

barely half the widely accepted value

64

00:02:53,270 --> 00:02:50,730

why does the nebs distance matter it

65

00:02:55,460 --> 00:02:53,280

matters to astronomers because if they

66

00:02:58,010 --> 00:02:55,470

don't know exactly how far away a star

67

00:03:01,370 --> 00:02:58,020

is they can't get accurate numbers of

68

00:03:03,830 --> 00:03:01,380

its true size mass and energy output the

69

00:03:06,620 --> 00:03:03,840

European Space Agency now has a second

70

00:03:10,910 --> 00:03:06,630

astrometric satellite it's called Gaia

71

00:03:12,590 --> 00:03:10,920

GA IA she orbits around the earth her

72

00:03:15,110 --> 00:03:12,600

goal is to measure the positions and

73

00:03:17,690 --> 00:03:15,120

distances of stars with more precision

74

00:03:19,789 --> 00:03:17,700

than ever before and it's in the process

75

00:03:22,970 --> 00:03:19,799

of constructing what the European Space

76

00:03:26,690 --> 00:03:22,980

Agency says will be quote the largest

77

00:03:30,320 --> 00:03:26,700

and most precise 3d space catalog ever

78

00:03:32,479 --> 00:03:30,330

made and quotes a new estimate for de

79

00:03:35,320 --> 00:03:32,489

nebs distance wasn't included in bias

80

00:03:38,390 --> 00:03:35,330

verse data released in September of 2016

81

00:03:40,970 --> 00:03:38,400

may be a new distance estimate for Deneb

82

00:03:43,850 --> 00:03:40,980

will be included in Gaia's second data

83

00:03:47,630 --> 00:03:43,860

release that's planned for April 2018

84

00:03:48,470 --> 00:03:47,640

and so science marches on here's the

85

00:03:52,100 --> 00:03:48,480

bottom line

86

00:03:54,500 --> 00:03:52,110

Deneb is a large and very hot supergiant

87

00:03:56,960 --> 00:03:54,510

star part of the famous summer triangle

88

00:03:59,539 --> 00:03:56,970

and one of the most distant stars you

89

00:04:01,970 --> 00:03:59,549

can see with your eye alone sweet and

90

00:04:04,340 --> 00:04:01,980

gentle listeners you can expect to find

91

00:04:07,250 --> 00:04:04,350

the usual charts and graphs accompanying

92

00:04:10,520 --> 00:04:07,260

this article by heading on over to UFO

93

00:04:12,920 --> 00:04:10,530

headline news comm speaking of things in

94

00:04:15,770 --> 00:04:12,930

sky and space here's a headline from

95

00:04:19,250 --> 00:04:15,780

Dave Mosier from the space division of

96

00:04:22,790 --> 00:04:19,260

Business Insider NASA has noticed a

97

00:04:26,469 --> 00:04:22,800

puzzling change in Saturn's hexagon that

98

00:04:27,710 --> 00:04:26,479

weather system the size of two earths a

99

00:04:30,410 --> 00:04:27,720

giant

100

00:04:32,810 --> 00:04:30,420

hexagon is swirling at Saturn's North

101
00:04:34,970 --> 00:04:32,820
Pole and scientists don't fully

102
00:04:37,180 --> 00:04:34,980
understand it despite years of

103
00:04:41,180 --> 00:04:37,190
observation by NASA's Cassini spacecraft

104
00:04:43,940 --> 00:04:41,190
that hexagon a jet stream that traps an

105
00:04:47,660 --> 00:04:43,950
entire polar weather system is as wide

106
00:04:50,660 --> 00:04:47,670
as two planet Earth's it's so big in

107
00:04:53,630 --> 00:04:50,670
fact that small vortices inside of it

108
00:04:56,930 --> 00:04:53,640
are often twice as wide as the largest

109
00:04:59,390 --> 00:04:56,940
hurricanes on planet Earth and this week

110
00:05:03,830 --> 00:04:59,400
NASA released new images and animations

111
00:05:06,860 --> 00:05:03,840
of the hexagon the photos show the giant

112
00:05:09,530 --> 00:05:06,870
weather system changed from turquoise to

113
00:05:12,260 --> 00:05:09,540

a ruddy yellow in just a few years time

114

00:05:14,930 --> 00:05:12,270

although the 1,800 mile wide central

115

00:05:17,930 --> 00:05:14,940

vortex about the length of the entire

116

00:05:20,750 --> 00:05:17,940

united states east coast has kept a rich

117

00:05:23,270 --> 00:05:20,760

blue color there's animation you can

118

00:05:26,150 --> 00:05:23,280

find later at UFO headline news comm

119

00:05:28,730 --> 00:05:26,160

check it out the change in color is

120

00:05:30,860 --> 00:05:28,740

dramatic and while NASA isn't sure why

121

00:05:33,230 --> 00:05:30,870

it happened researchers think the shift

122

00:05:36,290 --> 00:05:33,240

has to do with the gas giants changing

123

00:05:38,870 --> 00:05:36,300

seasons Saturn reached its northern

124

00:05:41,450 --> 00:05:38,880

solstice or its longest day of the

125

00:05:41,870 --> 00:05:41,460

planet's summer season May 24th this

126

00:05:44,390 --> 00:05:41,880

year

127

00:05:46,610 --> 00:05:44,400

shortly after Cassini snapped the set of

128

00:05:49,280 --> 00:05:46,620

photos that you can see later the shift

129

00:05:51,170 --> 00:05:49,290

has gradually increased the amount of

130

00:05:53,420 --> 00:05:51,180

ultraviolet light reaching the planets

131

00:05:56,630 --> 00:05:53,430

North Pole that's where the hexagon is

132

00:06:00,710 --> 00:05:56,640

located and this has created hazy yellow

133

00:06:02,570 --> 00:06:00,720

smog by that logic the vortex might

134

00:06:05,480 --> 00:06:02,580

still be blue because the sunlight

135

00:06:07,850 --> 00:06:05,490

touches that area last it might also

136

00:06:10,490 --> 00:06:07,860

have kept its color if like hurricanes

137

00:06:13,670 --> 00:06:10,500

on earth it constantly Yanks air

138

00:06:16,580 --> 00:06:13,680

downward thus pushing any smog deep

139

00:06:18,560 --> 00:06:16,590

below the cloud tops while Cassini has

140

00:06:21,200 --> 00:06:18,570

been studying Saturn for about 13 years

141

00:06:25,100 --> 00:06:21,210

the planets full orbit around the Sun

142

00:06:27,190 --> 00:06:25,110

takes 29.5 years so the probe still

143

00:06:30,320 --> 00:06:27,200

hasn't observed all of Saturn's seasons

144

00:06:32,960 --> 00:06:30,330

space scientists followed clouds in the

145

00:06:35,150 --> 00:06:32,970

giant storm they calculated wind speeds

146

00:06:39,110 --> 00:06:35,160

and found that the innermost rings of

147

00:06:40,070 --> 00:06:39,120

the storm blow at a shocking 340 miles

148

00:06:41,659 --> 00:06:40,080

per hour

149

00:06:45,290 --> 00:06:41,669

by contrast

150

00:06:46,999 --> 00:06:45,300

winds inside hurricane Allen in 1980 the

151
00:06:50,959 --> 00:06:47,009
strongest ever recorded on earth

152
00:06:52,390 --> 00:06:50,969
well those winds topped out at 190 miles

153
00:06:54,529 --> 00:06:52,400
per hour

154
00:06:57,050 --> 00:06:54,539
unfortunately earth won't be able to

155
00:06:59,749 --> 00:06:57,060
enjoy any of these views for much longer

156
00:07:02,420 --> 00:06:59,759
the Cassini spacecraft is running low on

157
00:07:04,939 --> 00:07:02,430
propellant and NASA doesn't wanted to

158
00:07:07,399 --> 00:07:04,949
accidentally crash into one of Saturn's

159
00:07:10,790 --> 00:07:07,409
icy moons that could cause contamination

160
00:07:14,089 --> 00:07:10,800
to the vast subsurface oceans that at

161
00:07:19,309 --> 00:07:14,099
least two of those moons contain so on

162
00:07:21,619 --> 00:07:19,319
September 15 2017 the 3.26 billion

163
00:07:25,309 --> 00:07:21,629

dollar mission will take a plunge into

164

00:07:29,480 --> 00:07:25,319

Saturn break apart and become one with a

165

00:07:30,140 --> 00:07:29,490

giant ball of hydrogen and helium almost

166

00:07:33,019 --> 00:07:30,150

poetic

167

00:07:36,800 --> 00:07:33,029

Cassini's final moments in a great blaze

168

00:07:39,559 --> 00:07:36,810

of glory and here at inception radio

169

00:07:41,839 --> 00:07:39,569

network UFO headline news we will do our

170

00:07:45,200 --> 00:07:41,849

best to keep you posted on all the

171

00:07:47,149 --> 00:07:45,210

events in the run-up to that moment we

172

00:07:49,610 --> 00:07:47,159

are doing some run-up to the moment of

173

00:07:53,179 --> 00:07:49,620

way back Wednesday part 2 Close

174

00:07:56,209 --> 00:07:53,189

Encounters of the Manitoba kind but

175

00:07:58,760 --> 00:07:56,219

first there's other news this

176

00:08:01,579 --> 00:07:58,770

broadcaster is very well aware of the

177

00:08:04,279 --> 00:08:01,589

ancient longtime admonition that the

178

00:08:06,860 --> 00:08:04,289

reporter shall we say should not become

179

00:08:10,850 --> 00:08:06,870

part of the story but in this case it's

180

00:08:13,670 --> 00:08:10,860

hard not to and we are compelled so it

181

00:08:15,829 --> 00:08:13,680

goes something like this last Saturday

182

00:08:18,980 --> 00:08:15,839

night this broadcaster as is her habit

183

00:08:21,920 --> 00:08:18,990

was listening to inception radio network

184

00:08:24,950 --> 00:08:21,930

to Allen B Smith's rather new show

185

00:08:27,260 --> 00:08:24,960

called paranormal now it's extraordinary

186

00:08:29,480 --> 00:08:27,270

if you haven't heard it you should its

187

00:08:32,269 --> 00:08:29,490

Saturday nights at inception radio

188

00:08:35,750 --> 00:08:32,279

network and last Saturday night

189

00:08:38,029 --> 00:08:35,760

Allen B Smith's guest for paranormal now

190

00:08:40,759 --> 00:08:38,039

well he had two guests his first guest

191

00:08:43,670 --> 00:08:40,769

was none other than Peter Robbins the

192

00:08:44,569 --> 00:08:43,680

author of among many books left at

193

00:08:46,850 --> 00:08:44,579

Eastgate

194

00:08:50,000 --> 00:08:46,860

which is a chronicle of the Rendlesham

195

00:08:53,210 --> 00:08:50,010

forest Bentwaters affair co-written with

196

00:08:55,820 --> 00:08:53,220

Larry Warren remember that name it is

197

00:08:57,890 --> 00:08:55,830

pivotal as we listened

198

00:08:59,810 --> 00:08:57,900

to this we realized oh there's breaking

199

00:09:03,440 --> 00:08:59,820

news here there's going to be a big

200

00:09:06,500 --> 00:09:03,450

reveal what ever could it be if we

201
00:09:09,410 --> 00:09:06,510
stayed tuned and we found out and as we

202
00:09:12,650 --> 00:09:09,420
listened we thought oh this is going to

203
00:09:16,670 --> 00:09:12,660
trigger a lot of fallout stay tuned and

204
00:09:18,560 --> 00:09:16,680
we did so here is that fallout it comes

205
00:09:21,410 --> 00:09:18,570
by way of an article posted in the

206
00:09:25,400 --> 00:09:21,420
mirror dot-com dot uk'

207
00:09:27,590 --> 00:09:25,410
a UFO expert has become embroiled in a

208
00:09:30,320 --> 00:09:27,600
bitter feud with his co-author and

209
00:09:33,470 --> 00:09:30,330
one-time friend after accusing him of

210
00:09:36,590 --> 00:09:33,480
quote deceiving and quotes him with his

211
00:09:39,250 --> 00:09:36,600
quote false end quotes account of the

212
00:09:41,570 --> 00:09:39,260
infamous Rendlesham forest incident

213
00:09:43,910 --> 00:09:41,580

peter robbins and larry warren

214

00:09:46,100 --> 00:09:43,920

co-authored left at Eastgate a

215

00:09:49,360 --> 00:09:46,110

first-hand account of the bent water

216

00:09:51,530 --> 00:09:49,370

Woodbridge UFO incident its coverup and

217

00:09:54,380 --> 00:09:51,540

investigation that's the whole title

218

00:09:57,440 --> 00:09:54,390

thirty years ago but they're now at

219

00:09:59,750 --> 00:09:57,450

loggerheads United States researcher

220

00:10:02,240 --> 00:09:59,760

Peter Robbins sparked the row when he

221

00:10:03,830 --> 00:10:02,250

accused Warren a former member of the

222

00:10:06,980 --> 00:10:03,840

United States Air Force security police

223

00:10:09,470 --> 00:10:06,990

who now lives in Liverpool of deceiving

224

00:10:11,080 --> 00:10:09,480

him this accusation was made during a

225

00:10:15,050 --> 00:10:11,090

radio interview

226

00:10:17,240 --> 00:10:15,060

Larry Warren in turn blasted Nick Pope

227

00:10:19,850 --> 00:10:17,250

former head of the British government's

228

00:10:22,910 --> 00:10:19,860

UFO desk for siding with Peter Robbins

229

00:10:26,210 --> 00:10:22,920

he hit back Nick Pope on Facebook for

230

00:10:28,880 --> 00:10:26,220

branding him a liar yes Larry warns

231

00:10:32,060 --> 00:10:28,890

online rant is still available for your

232

00:10:34,760 --> 00:10:32,070

perusal American Larry Warren claims he

233

00:10:37,100 --> 00:10:34,770

witnessed a UFO land near RAF Bentwaters

234

00:10:39,260 --> 00:10:37,110

Suffolk while stationed there with the

235

00:10:42,380 --> 00:10:39,270

United States Air Force in December of

236

00:10:44,990 --> 00:10:42,390

1980 here's a quote from Peter Robbins

237

00:10:47,540 --> 00:10:45,000

the encompass picture is the subjective

238

00:10:49,850 --> 00:10:47,550

account of my co-author Larry Warren's

239

00:10:52,610 --> 00:10:49,860

story of the events that he was involved

240

00:10:54,860 --> 00:10:52,620

in the events surrounding him things

241

00:10:58,010 --> 00:10:54,870

that don't directly relate to the story

242

00:11:00,400 --> 00:10:58,020

but to his life were not only not

243

00:11:02,420 --> 00:11:00,410

accurate but that they were not true

244

00:11:04,910 --> 00:11:02,430

having worked with him for decades

245

00:11:07,160 --> 00:11:04,920

having spent several intense years at

246

00:11:09,650 --> 00:11:07,170

the beginning we're talking 30 years ago

247

00:11:12,170 --> 00:11:09,660

next month when we first shook hands

248

00:11:14,690 --> 00:11:12,180

that I would assist him in writing this

249

00:11:16,640 --> 00:11:14,700

book I have a long history with Larry

250

00:11:19,130 --> 00:11:16,650

Warren and I felt that after doing the

251
00:11:22,220 --> 00:11:19,140
research that he was absolutely good on

252
00:11:24,140 --> 00:11:22,230
his word end quotes in fact this

253
00:11:25,990 --> 00:11:24,150
broadcaster had a very cogent part of

254
00:11:28,790 --> 00:11:26,000
that conversation on the air during

255
00:11:31,400 --> 00:11:28,800
paranormal now it went something like

256
00:11:34,190 --> 00:11:31,410
without any apparent provocation Larry

257
00:11:36,470 --> 00:11:34,200
Warren offered this to Peter Robbins if

258
00:11:38,300 --> 00:11:36,480
you find something in my work in my

259
00:11:41,660 --> 00:11:38,310
accounts that you want to challenge

260
00:11:43,220 --> 00:11:41,670
bring it and we'll talk about it well

261
00:11:46,460 --> 00:11:43,230
apparently it didn't quite work out like

262
00:11:48,070 --> 00:11:46,470
that back to the article Nick Pope who

263
00:11:51,440 --> 00:11:48,080

ran the Ministry of Defense's

264

00:11:53,960 --> 00:11:51,450

Secretariat or Air Staff to a that was

265

00:11:55,970 --> 00:11:53,970

dubbed the UFO desk they investigated

266

00:11:59,240 --> 00:11:55,980

military sightings they were closed in

267

00:12:02,510 --> 00:11:59,250

2009 budget reasons and Nick Pope is

268

00:12:08,210 --> 00:12:02,520

backing peter robbins claims in a post

269

00:12:11,090 --> 00:12:08,220

to his 4980 friends and his 13850 to

270

00:12:13,250 --> 00:12:11,100

followers on Facebook Nick Pope praised

271

00:12:15,230 --> 00:12:13,260

Robbins for quote having the courage and

272

00:12:17,480 --> 00:12:15,240

integrity to make what was clearly a

273

00:12:20,030 --> 00:12:17,490

difficult and painful admission that

274

00:12:23,360 --> 00:12:20,040

he'd been taken in by Larry Warren's

275

00:12:25,850 --> 00:12:23,370

lies and quotes Nick Pope ended his post

276

00:12:29,210 --> 00:12:25,860

by saying quote the verdict from the

277

00:12:32,030 --> 00:12:29,220

wider UFO community is clear the Larry

278

00:12:35,060 --> 00:12:32,040

Warren story is officially dead end

279

00:12:37,280 --> 00:12:35,070

quotes then Larry Warren of course

280

00:12:39,710 --> 00:12:37,290

slammed the ex ministry of defense man

281

00:12:42,500 --> 00:12:39,720

who now lives in Tucson Arizona for

282

00:12:45,800 --> 00:12:42,510

quote whoring himself out that was a

283

00:12:47,660 --> 00:12:45,810

20-minute Facebook rant during part of

284

00:12:50,360 --> 00:12:47,670

which Warren challenged Nick Pope to

285

00:12:52,220 --> 00:12:50,370

take it on saying quote you can have it

286

00:12:54,380 --> 00:12:52,230

if you can take it from me I'll even

287

00:12:57,410 --> 00:12:54,390

bring the gift box you seem to want it

288

00:13:00,200 --> 00:12:57,420

because I don't deserve it then Larry

289

00:13:02,120 --> 00:13:00,210

Warren continues you stuck your nose

290

00:13:04,010 --> 00:13:02,130

into Rendell some years ago to the point

291

00:13:06,710 --> 00:13:04,020

some morons out there think you were

292

00:13:08,870 --> 00:13:06,720

working the mo D desk when it happened I

293

00:13:10,820 --> 00:13:08,880

think you were being beat up on the

294

00:13:13,240 --> 00:13:10,830

schoolyard at that time so that's

295

00:13:16,550 --> 00:13:13,250

impossible but you don't stop that myth

296

00:13:17,360 --> 00:13:16,560

he ends his video by saying the book is

297

00:13:20,000 --> 00:13:17,370

my story

298

00:13:22,040 --> 00:13:20,010

100% I've done stuff that you could

299

00:13:23,250 --> 00:13:22,050

never do and same things you'll never

300

00:13:24,960 --> 00:13:23,260

see and I'll still

301

00:13:27,750 --> 00:13:24,970

be standing tall when you go

302

00:13:30,360 --> 00:13:27,760

cockadoodledoo you were never in the

303

00:13:33,840 --> 00:13:30,370

military you are a tie somewhere end

304

00:13:37,650 --> 00:13:33,850

quotes the rant goes on yep it's ugly

305

00:13:38,760 --> 00:13:37,660

but not unexpectedly so if you want to

306

00:13:40,710 --> 00:13:38,770

check out the rest of this article

307

00:13:44,100 --> 00:13:40,720

gentle listeners you can find links

308

00:13:46,410 --> 00:13:44,110

later at UFO headline news oh the second

309

00:13:48,690 --> 00:13:46,420

guest that night on Allen B Smith's

310

00:13:51,510 --> 00:13:48,700

paranormal show on inception radio

311

00:13:54,330 --> 00:13:51,520

network was none other than the founder

312

00:13:57,510 --> 00:13:54,340

and president of epic voyages can cherry

313

00:14:00,270 --> 00:13:57,520

an author on his own if you haven't read

314

00:14:03,090 --> 00:14:00,280

mark Slade investigates the Stephenville

315

00:14:06,150 --> 00:14:03,100

lights Oh get your hands on a copy can

316

00:14:08,250 --> 00:14:06,160

cherry wrote a good read well what do

317

00:14:10,650 --> 00:14:08,260

you know it's way back Wednesday plenty

318

00:14:13,740 --> 00:14:10,660

of space available on that shuttle that

319

00:14:16,410 --> 00:14:13,750

takes us way back and from the Winnipeg

320

00:14:19,500 --> 00:14:16,420

Free Press let's continue its close

321

00:14:23,460 --> 00:14:19,510

encounter of the Manitoba kind part two

322

00:14:25,800 --> 00:14:23,470

in part one we introduced you to Stefan

323

00:14:27,840 --> 00:14:25,810

Michalak he was out looking for signs of

324

00:14:30,540 --> 00:14:27,850

gold and silver in the rocks that

325

00:14:32,490 --> 00:14:30,550

embedded in the Precambrian shield in a

326

00:14:34,800 --> 00:14:32,500

place called white shell Provincial Park

327

00:14:37,380 --> 00:14:34,810

in Manitoba in Canada

328

00:14:40,350 --> 00:14:37,390

shortly after he'd eaten his lunch at

329

00:14:42,840 --> 00:14:40,360

the site Stefan Michalak saw what he

330

00:14:45,270 --> 00:14:42,850

just didn't expect at all it was a craft

331

00:14:48,540 --> 00:14:45,280

he heard what seemed to be human voices

332

00:14:50,910 --> 00:14:48,550

one higher pitch one lower Stefan

333

00:14:53,850 --> 00:14:50,920

McCulloch was definitely an adventurous

334

00:14:56,940 --> 00:14:53,860

soul he actually stuck his head into the

335

00:15:00,570 --> 00:14:56,950

opening of this saucer-shaped craft saw

336

00:15:03,750 --> 00:15:00,580

a maze of lights and at one point a jet

337

00:15:07,110 --> 00:15:03,760

of something hot shot from the craft and

338

00:15:09,930 --> 00:15:07,120

burned Stefan Michalak on his chest very

339

00:15:12,390 --> 00:15:09,940

curious burn marks dime sized in a grid

340

00:15:14,310 --> 00:15:12,400

pattern they were severe they were

341

00:15:18,450 --> 00:15:14,320

almost what would appear to be burns of

342

00:15:22,920 --> 00:15:18,460

a radioactive kind fast forward from May

343

00:15:26,040 --> 00:15:22,930

20th 1967 at about 12:15 p.m. the time

344

00:15:27,780 --> 00:15:26,050

of the initial event this broke big it

345

00:15:30,720 --> 00:15:27,790

caught the attention of media and

346

00:15:32,580 --> 00:15:30,730

population alike and as it was said

347

00:15:36,210 --> 00:15:32,590

quote it really became part of the

348

00:15:37,110 --> 00:15:36,220

history of the community and quotes so

349

00:15:39,060 --> 00:15:37,120

now

350

00:15:43,890 --> 00:15:39,070

here's where we left off last Wednesday

351

00:15:46,140 --> 00:15:43,900

On June 29 1967 a rookie Manitoba MP

352

00:15:49,560 --> 00:15:46,150

stood up in the House of Commons and

353

00:15:52,890 --> 00:15:49,570

asked a question about UFO invasions and

354

00:15:55,050 --> 00:15:52,900

the Michalek case quote I had felt

355

00:15:57,450 --> 00:15:55,060

obliged to ask a question it had

356

00:15:59,850 --> 00:15:57,460

happened in my writing and quote said

357

00:16:01,980 --> 00:15:59,860

former Governor General and premier EDI

358

00:16:05,340 --> 00:16:01,990

ER he was that an NDP Member of

359

00:16:08,220 --> 00:16:05,350

Parliament quote plus I was intrigued

360

00:16:09,950 --> 00:16:08,230

that someone seemingly so genuine was

361

00:16:13,140 --> 00:16:09,960

convinced he had seen something in

362

00:16:15,600 --> 00:16:13,150

explicable so I asked the question and

363

00:16:18,329 --> 00:16:15,610

the question was taken not by one of the

364

00:16:22,230 --> 00:16:18,339

ministers but by the Prime Minister

365

00:16:26,519 --> 00:16:22,240

himself and what did Lester Pearson do

366

00:16:28,829 --> 00:16:26,529

he took it as notice and quotes a few

367

00:16:31,170 --> 00:16:28,839

days later Lester Pearson the Prime

368

00:16:32,670 --> 00:16:31,180

Minister himself offered McCulloch a

369

00:16:36,620 --> 00:16:32,680

chance to look through the government's

370

00:16:39,420 --> 00:16:36,630

file on the matter but Schreyer refused

371

00:16:41,340 --> 00:16:39,430

he said quote I didn't take it because

372

00:16:43,980 --> 00:16:41,350

it required an understanding that you

373

00:16:45,660 --> 00:16:43,990

had to keep the contents confidential I

374

00:16:48,000 --> 00:16:45,670

thought that would put me in a

375

00:16:50,130 --> 00:16:48,010

problematic position I just wanted to

376

00:16:52,530 --> 00:16:50,140

make sure there was no danger to the

377

00:16:54,930 --> 00:16:52,540

individual to his family and to the

378

00:16:57,540 --> 00:16:54,940

country I was reassured there was no

379

00:17:00,870 --> 00:16:57,550

significant danger and it was left

380

00:17:03,660 --> 00:17:00,880

somewhat as an open question and quote a

381

00:17:06,809 --> 00:17:03,670

few months later Defence Minister Lee

382

00:17:08,819 --> 00:17:06,819

Okubo was quoted in Hansard as saying

383

00:17:10,590 --> 00:17:08,829

quote it is not the intention of the

384

00:17:12,390 --> 00:17:10,600

Department of National Defense to make

385

00:17:15,390 --> 00:17:12,400

public the report of the alleged

386

00:17:17,160 --> 00:17:15,400

sighting end quote and although defense

387

00:17:19,650 --> 00:17:17,170

minister Leo Cadieux had never met

388

00:17:22,079 --> 00:17:19,660

Stephin McCulloch in person speaking to

389

00:17:23,850 --> 00:17:22,089

him at the time on the phone he said he

390

00:17:26,160 --> 00:17:23,860

hopes to visit the site this summer and

391

00:17:28,950 --> 00:17:26,170

with his grandchildren now that he knows

392

00:17:30,870 --> 00:17:28,960

they can get there on horseback having

393

00:17:33,299 --> 00:17:30,880

made a point of trying to find out more

394

00:17:36,680 --> 00:17:33,309

information at the time Schrier wants to

395

00:17:39,419 --> 00:17:36,690

see this site with his own eyes now

396

00:17:41,910 --> 00:17:39,429

standing on the Flat Rock that his

397

00:17:45,120 --> 00:17:41,920

father described as the one the UFO

398

00:17:47,160 --> 00:17:45,130

landed on son Stan McCulloch was

399

00:17:50,070 --> 00:17:47,170

surprised at how accurate his father's

400

00:17:50,440 --> 00:17:50,080

hand-drawn map drawn from memory in the

401
00:17:53,169 --> 00:17:50,450
days

402
00:17:55,360 --> 00:17:53,179
after the incident really was while he

403
00:17:58,000 --> 00:17:55,370
expected to see the flat rock he didn't

404
00:18:00,700 --> 00:17:58,010
know it was slightly sloped quote it

405
00:18:02,409 --> 00:18:00,710
still baffles me the slant we're on but

406
00:18:05,440 --> 00:18:02,419
then I remember how he described the

407
00:18:07,269 --> 00:18:05,450
object quote and he continued quote now

408
00:18:10,269 --> 00:18:07,279
I know it probably tilted because it was

409
00:18:13,330 --> 00:18:10,279
coming up from a slope and again Stan

410
00:18:15,820 --> 00:18:13,340
wondered what the hell was he doing here

411
00:18:18,129 --> 00:18:15,830
he continued quote there's nothing for

412
00:18:20,860 --> 00:18:18,139
him here the geology steaks and the

413
00:18:22,120 --> 00:18:20,870

looking for precious minerals I sure as

414

00:18:26,049 --> 00:18:22,130

hell wouldn't want to spend time here

415

00:18:28,659 --> 00:18:26,059

but he was here I know that now end

416

00:18:30,159 --> 00:18:28,669

quotes and he has a theory about why his

417

00:18:33,700 --> 00:18:30,169

dad and many others around the world

418

00:18:37,090 --> 00:18:33,710

have reported so many UFOs in the post

419

00:18:38,680 --> 00:18:37,100

Second World War years quote when we

420

00:18:40,419 --> 00:18:38,690

blew up the first nuclear bomb and we

421

00:18:42,940 --> 00:18:40,429

sent our first radio signals we got

422

00:18:44,710 --> 00:18:42,950

attention maybe it was quote what are

423

00:18:46,690 --> 00:18:44,720

they doing on that planet oh they're

424

00:18:49,299 --> 00:18:46,700

killing each other let's check back in a

425

00:18:52,330 --> 00:18:49,309

few hundred years and quotes when

426

00:18:56,320 --> 00:18:52,340

Stephan Steven Steve Michalek died on

427

00:18:58,779 --> 00:18:56,330

October 28th 1999 at the age of 83 there

428

00:19:01,240 --> 00:18:58,789

was no mention in his obituary of the

429

00:19:03,610 --> 00:19:01,250

Falcon Lake incident only how he is

430

00:19:05,980 --> 00:19:03,620

quote passion for this vast new country

431

00:19:08,710 --> 00:19:05,990

developed into a love of nature open

432

00:19:10,840 --> 00:19:08,720

spaces animals and birds and a

433

00:19:13,360 --> 00:19:10,850

celebration of what Canada's unending

434

00:19:16,090 --> 00:19:13,370

wilderness had to offer and quote and

435

00:19:18,460 --> 00:19:16,100

that quote geology became one of his

436

00:19:20,620 --> 00:19:18,470

hobbies and the reason for many trips to

437

00:19:24,850 --> 00:19:20,630

the wilderness to see the world in a

438

00:19:27,879 --> 00:19:24,860

grain of sand and quotes cryptic but it

439

00:19:30,009 --> 00:19:27,889

is in there between the lines for a man

440

00:19:32,799 --> 00:19:30,019

whose hobby of prospecting had given him

441

00:19:35,200 --> 00:19:32,809

such joy the Falcon Lake incident also

442

00:19:37,899 --> 00:19:35,210

seemed to mark the end of his amateur

443

00:19:40,240 --> 00:19:37,909

prospecting careers at his son quote

444

00:19:43,000 --> 00:19:40,250

when he died we found several wooden

445

00:19:44,919 --> 00:19:43,010

boxes of rocks in the basement I only

446

00:19:48,120 --> 00:19:44,929

kept one or two samples the rest went

447

00:19:51,039 --> 00:19:48,130

into the garden there are about 1,200

448

00:19:53,590 --> 00:19:51,049

reported UFO sightings every year across

449

00:19:57,070 --> 00:19:53,600

Canada about three to five percent can't

450

00:19:59,710 --> 00:19:57,080

be explained away expert UFO researcher

451
00:20:02,200 --> 00:19:59,720
and author Chris root Kowski yep there's

452
00:20:04,060 --> 00:20:02,210
a book said he not only has copies of

453
00:20:06,220 --> 00:20:04,070
the hundreds of documents per

454
00:20:09,160 --> 00:20:06,230
by the authorities he also has in his

455
00:20:11,980 --> 00:20:09,170
possession a piece of that melted

456
00:20:15,420 --> 00:20:11,990
radioactive metal that Stefan Michalak

457
00:20:18,760 --> 00:20:15,430
found at the site on that amazing day

458
00:20:21,640 --> 00:20:18,770
quote he says if I'd made it up I would

459
00:20:24,460 --> 00:20:21,650
have gone to town with details but he

460
00:20:27,040 --> 00:20:24,470
only said what he saw he didn't care if

461
00:20:29,560 --> 00:20:27,050
anyone believed him or not as far as

462
00:20:33,040 --> 00:20:29,570
what Stefan McCulloch encountered I have

463
00:20:35,770 --> 00:20:33,050

no idea but it's a riveting story closes

464

00:20:38,500 --> 00:20:35,780

root Kowski end quotes five decades on

465

00:20:40,860 --> 00:20:38,510

whatever happened at Falcon Lake is

466

00:20:44,110 --> 00:20:40,870

still of interest to UFO enthusiasts and

467

00:20:46,360 --> 00:20:44,120

regular folks to local resident Bob

468

00:20:48,970 --> 00:20:46,370

Firth has no doubt that McCulloch saw

469

00:20:51,340 --> 00:20:48,980

what he reported that day Firth works at

470

00:20:53,230 --> 00:20:51,350

the Falcon Lake Golf Course and he says

471

00:20:56,740 --> 00:20:53,240

he may have seen one of those two

472

00:20:59,590 --> 00:20:56,750

objects quote I was 14 at the time it is

473

00:21:01,270 --> 00:20:59,600

such a weird story and quotes Bob Firth

474

00:21:03,250 --> 00:21:01,280

said he and three friends were at the

475

00:21:05,440 --> 00:21:03,260

beach on the south side of Falcon Lake

476
00:21:07,810 --> 00:21:05,450
when they saw something on the other

477
00:21:10,420 --> 00:21:07,820
side north of the lake that something

478
00:21:12,400 --> 00:21:10,430
was moving westward quote it was little

479
00:21:15,040 --> 00:21:12,410
if you hold your thumb up it would be

480
00:21:18,490 --> 00:21:15,050
that big the thing just jumped across

481
00:21:21,220 --> 00:21:18,500
the sky we said what is that and I said

482
00:21:23,560 --> 00:21:21,230
it's a bird it's a plane it's a flying

483
00:21:25,150 --> 00:21:23,570
saucer and then I didn't think anything

484
00:21:27,490 --> 00:21:25,160
more about it end quote

485
00:21:29,530 --> 00:21:27,500
but later that weekend Bob Firth and his

486
00:21:32,200 --> 00:21:29,540
family were in Winnipeg to see the

487
00:21:34,210 --> 00:21:32,210
Victoria Day fireworks someone ran up to

488
00:21:36,850 --> 00:21:34,220

them and started talking about the

489

00:21:38,620 --> 00:21:36,860

Falcon Lake sighting that's when Bob

490

00:21:41,680 --> 00:21:38,630

Firth realized he might have seen the

491

00:21:43,330 --> 00:21:41,690

same thing but I was later interviewed

492

00:21:46,170 --> 00:21:43,340

by someone from the University of

493

00:21:48,340 --> 00:21:46,180

Manitoba in my mind I can still see it

494

00:21:51,760 --> 00:21:48,350

something crossed the sky and

495

00:21:54,370 --> 00:21:51,770

disappeared and quotes exciting times

496

00:21:56,530 --> 00:21:54,380

barb Hamilton didn't see the UFO

497

00:21:58,390 --> 00:21:56,540

but that didn't stop her and other local

498

00:21:59,080 --> 00:21:58,400

kids from getting caught up and all the

499

00:22:01,720 --> 00:21:59,090

excitement

500

00:22:02,860 --> 00:22:01,730

she says quote I was 12 at the time and

501
00:22:05,550 --> 00:22:02,870

four young kids

502
00:22:08,140 --> 00:22:05,560

after what happened it started everybody

503
00:22:10,780 --> 00:22:08,150

wondering we kids got together and

504
00:22:13,300 --> 00:22:10,790

formed a little Club for UFOs and quotes

505
00:22:15,760 --> 00:22:13,310

and they thought they were hot on the

506
00:22:17,769 --> 00:22:15,770

trail when one of them heard a beeping

507
00:22:19,989 --> 00:22:17,779

sound from the forest while

508
00:22:22,389 --> 00:22:19,999

we were all convinced this was something

509
00:22:23,739 --> 00:22:22,399

we called all the kids together and went

510
00:22:26,889 --> 00:22:23,749

off in that direction

511
00:22:29,409 --> 00:22:26,899

in the direction of the beeping sound we

512
00:22:33,580 --> 00:22:29,419

couldn't find it but it came flying back

513
00:22:35,409 --> 00:22:33,590

and just screamed Hamilton said her dad

514

00:22:37,899 --> 00:22:35,419

suggested they speak with a wildlife

515

00:22:40,029 --> 00:22:37,909

expert and after they did and she heard

516

00:22:42,820 --> 00:22:40,039

the sound of the saw wet cowl

517

00:22:44,619 --> 00:22:42,830

well vote it's mating call sounds like a

518

00:22:47,259 --> 00:22:44,629

machine and quote she said but quickly

519

00:22:50,049 --> 00:22:47,269

added she does not doubt Stefan Michalak

520

00:22:52,089 --> 00:22:50,059

story she said quote I don't think

521

00:22:54,779 --> 00:22:52,099

Stefan was making it up I think he saw

522

00:22:57,909 --> 00:22:54,789

something I can't explain end quotes

523

00:23:00,009 --> 00:22:57,919

falcon beach ranch owner devin emery

524

00:23:02,139 --> 00:23:00,019

offers trail rides to the site for

525

00:23:05,769 --> 00:23:02,149

people who make reservations in advance

526

00:23:07,570 --> 00:23:05,779

oh is that not cool and recently the

527

00:23:10,089 --> 00:23:07,580

ranch hosted a 50th anniversary

528

00:23:14,739 --> 00:23:10,099

commemorative event with escorted trail

529

00:23:17,579 --> 00:23:14,749

rides to the site may 20th 1967 Canada's

530

00:23:19,989 --> 00:23:17,589

Roswell a close encounter of the

531

00:23:22,060 --> 00:23:19,999

Manitoba kind we hope you've enjoyed

532

00:23:24,549 --> 00:23:22,070

that there's lots more out there

533

00:23:27,549 --> 00:23:24,559

concerning this event lots of minutiae I

534

00:23:29,440 --> 00:23:27,559

and extremely interesting details but

535

00:23:31,719 --> 00:23:29,450

now we hear horses approaching in the

536

00:23:35,200 --> 00:23:31,729

distance it's time for us to mount and

537

00:23:37,509 --> 00:23:35,210

hit the trail because that's a wrap

538

00:23:39,609 --> 00:23:37,519

thank you for listening to inception

539

00:23:43,509 --> 00:23:39,619

radio network follow today's broadcast

540

00:23:45,969 --> 00:23:43,519

at UFO headline news dot-com take care
