

## Inception Radio Network

UFO Headline News Thursday June 1st,  
2017

1  
00:00:08,360 --> 00:00:05,749  
hello it's Thursday June 1st 2017 you

2  
00:00:11,209 --> 00:00:08,370  
are listening to inception Radio Network

3  
00:00:15,770 --> 00:00:11,219  
voice of the fringe majority this is

4  
00:00:18,560 --> 00:00:15,780  
Carol Carl with UFO headline news here's

5  
00:00:20,420 --> 00:00:18,570  
hoping you all have your minds eye at

6  
00:00:23,330 --> 00:00:20,430  
the ready we're going to throw ourselves

7  
00:00:26,120 --> 00:00:23,340  
into the thick of it here with earth sky

8  
00:00:29,900 --> 00:00:26,130  
dot org and there article that asks us

9  
00:00:34,100 --> 00:00:29,910  
to imagine the elliptic or the sun's

10  
00:00:36,799 --> 00:00:34,110  
path tonight try to imagine the elliptic

11  
00:00:40,280 --> 00:00:36,809  
or the sun's path across your nighttime

12  
00:00:42,440 --> 00:00:40,290  
sky being able to visualize it from your

13  
00:00:45,020 --> 00:00:42,450

favorite spot to observe the heavens is

14

00:00:47,900 --> 00:00:45,030

helpful because the moon always moves

15

00:00:50,270 --> 00:00:47,910

approximately along this path and so do

16

00:00:51,889 --> 00:00:50,280

the planets once you get a sense of it

17

00:00:53,959 --> 00:00:51,899

you'll know how to look for certain

18

00:00:57,260 --> 00:00:53,969

bright stars and planets along this

19

00:00:59,510 --> 00:00:57,270

nighttime pathway and indeed on these

20

00:01:02,029 --> 00:00:59,520

coming June evenings there will be

21

00:01:05,359 --> 00:01:02,039

bright stars three of them and two

22

00:01:08,240 --> 00:01:05,369

planets and on June 1st the moon can

23

00:01:09,140 --> 00:01:08,250

help you visualize the ecliptic across

24

00:01:11,330 --> 00:01:09,150

your sky

25

00:01:14,149 --> 00:01:11,340

the ecliptic isn't the same thing

26

00:01:16,609 --> 00:01:14,159

apparently as the celestial equator

27

00:01:19,609 --> 00:01:16,619

that's another imaginary line above

28

00:01:22,640 --> 00:01:19,619

Earth's actual equator it isn't because

29

00:01:25,249 --> 00:01:22,650

Earth is tilted on its axis with respect

30

00:01:27,770 --> 00:01:25,259

to our orbit around the Sun there's a

31

00:01:29,990 --> 00:01:27,780

video from the folks at earth sky org

32

00:01:33,260 --> 00:01:30,000

you can find that later with a link at

33

00:01:35,210 --> 00:01:33,270

UFO headline news calm it's a visual

34

00:01:37,490 --> 00:01:35,220

explanation of why the plain of the

35

00:01:40,490 --> 00:01:37,500

elliptic is tilted with respect to the

36

00:01:43,310 --> 00:01:40,500

celestial sphere that imaginary sphere

37

00:01:45,230 --> 00:01:43,320

of stars which surrounds the earth the

38

00:01:47,600 --> 00:01:45,240

animation was created to teach college

39

00:01:50,569 --> 00:01:47,610

in high school astronomy and there isn't

40

00:01:52,730 --> 00:01:50,579

any sound be warned but be assured it's

41

00:01:56,179 --> 00:01:52,740

going to give you some sense of the

42

00:01:59,270 --> 00:01:56,189

ecliptic on the night of June 1st 2017

43

00:02:01,490 --> 00:01:59,280

the moon will be located to the east of

44

00:02:04,459 --> 00:02:01,500

that bright star Regulus in the

45

00:02:06,800 --> 00:02:04,469

constellation Leo the Lion the ecliptic

46

00:02:10,010 --> 00:02:06,810

is marked by two bright planets and

47

00:02:13,380 --> 00:02:10,020

those three bright stars on June 2017

48

00:02:15,420 --> 00:02:13,390

evenings if you watch the sky over the

49

00:02:18,270 --> 00:02:15,430

next few nights you'll enjoy seeing the

50

00:02:20,970 --> 00:02:18,280

moon move more or less along the

51  
00:02:23,190 --> 00:02:20,980  
ecliptic the moon doesn't orbit Earth in

52  
00:02:27,210 --> 00:02:23,200  
exactly the same place that Earth orbits

53  
00:02:29,640 --> 00:02:27,220  
the Sun but nearly so so its path across

54  
00:02:33,240 --> 00:02:29,650  
our sky is nearly the same as the sun's

55  
00:02:35,190 --> 00:02:33,250  
path the moon moves eastward in orbit so

56  
00:02:37,100 --> 00:02:35,200  
in the coming evenings it's going to be

57  
00:02:40,710 --> 00:02:37,110  
moving eastward toward the sunrise

58  
00:02:43,860 --> 00:02:40,720  
direction bottom line the moon is moving

59  
00:02:46,680 --> 00:02:43,870  
along the ecliptic and after june 4th

60  
00:02:49,350 --> 00:02:46,690  
the moon will keep moving eastward along

61  
00:02:52,910 --> 00:02:49,360  
that ecliptic so go out have fun

62  
00:02:56,970 --> 00:02:52,920  
watching here's wishing you clear skies

63  
00:03:00,360 --> 00:02:56,980

here's a headline SpaceX set to reuse

64

00:03:03,390 --> 00:03:00,370

Dragon cargo spacecraft in launch today

65

00:03:05,900 --> 00:03:03,400

Avery Thompson gets the byline here for

66

00:03:09,240 --> 00:03:05,910

the space division of Popular Mechanics

67

00:03:11,880 --> 00:03:09,250

comm barely two months ago

68

00:03:15,449 --> 00:03:11,890

SpaceX made history by becoming the

69

00:03:17,970 --> 00:03:15,459

first company ever to reuse an orbital

70

00:03:21,030 --> 00:03:17,980

rocket booster now the company is going

71

00:03:24,720 --> 00:03:21,040

one step further by attempting to reuse

72

00:03:27,270 --> 00:03:24,730

one of their Dragon spacecraft reusable

73

00:03:30,270 --> 00:03:27,280

rockets make a lot of sense Rockets are

74

00:03:32,190 --> 00:03:30,280

very expensive to build and fly and we

75

00:03:34,740 --> 00:03:32,200

should try to get as many launches out

76

00:03:37,500 --> 00:03:34,750

of them as possible but designing a

77

00:03:40,110 --> 00:03:37,510

rocket that only needs to fly once and

78

00:03:43,050 --> 00:03:40,120

be discarded is already a major

79

00:03:46,020 --> 00:03:43,060

challenge building one that can fly over

80

00:03:49,710 --> 00:03:46,030

and over again seemed nearly impossible

81

00:03:52,680 --> 00:03:49,720

not too long ago and yet in late March

82

00:03:55,080 --> 00:03:52,690

of this year SpaceX was successfully

83

00:03:57,360 --> 00:03:55,090

able to relaunch an orbital rocket

84

00:04:00,319 --> 00:03:57,370

booster for the first time one that had

85

00:04:02,310 --> 00:04:00,329

already been landed and recovered

86

00:04:05,310 --> 00:04:02,320

reusing boosters could save the company

87

00:04:07,560 --> 00:04:05,320

and their clients millions of dollars

88

00:04:10,770 --> 00:04:07,570

per flight making spacecraft more

89

00:04:13,650 --> 00:04:10,780

affordable for everybody but the booster

90

00:04:15,180 --> 00:04:13,660

is only one part of that equation albeit

91

00:04:18,509 --> 00:04:15,190

one of the larger and more expensive

92

00:04:21,570 --> 00:04:18,519

parts other components like the Rockets

93

00:04:23,670 --> 00:04:21,580

upper stage and fairing are stuck in

94

00:04:27,270 --> 00:04:23,680

orbit and might be challenging to

95

00:04:30,060 --> 00:04:27,280

retrieve so SpaceX has set their side

96

00:04:32,790 --> 00:04:30,070

on reusing the only other component and

97

00:04:36,330 --> 00:04:32,800

the most easily accessible part the

98

00:04:40,100 --> 00:04:36,340

Dragon capsule in a launch with a window

99

00:04:43,440 --> 00:04:40,110

that opens today Thursday at 5:55 p.m.

100

00:04:46,380 --> 00:04:43,450

Eastern Daylight Time SpaceX will

101  
00:04:49,110 --> 00:04:46,390  
attempt to launch a used Dragon capsule

102  
00:04:51,510 --> 00:04:49,120  
for the first time the cargo spacecraft

103  
00:04:53,910 --> 00:04:51,520  
will go on to shuttle supplies to the

104  
00:04:56,880 --> 00:04:53,920  
International Space Station including a

105  
00:04:59,810 --> 00:04:56,890  
highly valued NASA experiment that will

106  
00:05:01,830 --> 00:04:59,820  
study neutron stars and pulsars that

107  
00:05:04,560 --> 00:05:01,840  
specific capsule in question was

108  
00:05:08,340 --> 00:05:04,570  
previously launched in a 2014 delivery

109  
00:05:11,070 --> 00:05:08,350  
mission on the ISS if this test is

110  
00:05:14,610 --> 00:05:11,080  
successful it means that SpaceX will be

111  
00:05:18,180 --> 00:05:14,620  
about 2/3 of the way to a fully reusable

112  
00:05:21,540 --> 00:05:18,190  
Launch System spacecraft and all and

113  
00:05:24,750 --> 00:05:21,550

with each successful test spacex makes

114

00:05:27,420 --> 00:05:24,760

their Rockets more affordable and in the

115

00:05:31,230 --> 00:05:27,430

final analysis the final frontier a

116

00:05:33,930 --> 00:05:31,240

little closer and two crew members are a

117

00:05:36,600 --> 00:05:33,940

little closer to coming home to Planet

118

00:05:39,600 --> 00:05:36,610

Earth here's the headline NASA TV

119

00:05:43,020 --> 00:05:39,610

coverage set for return of two space

120

00:05:45,060 --> 00:05:43,030

station crew members two members of that

121

00:05:47,490 --> 00:05:45,070

international space station crew are

122

00:05:50,610 --> 00:05:47,500

scheduled to depart the orbital outpost

123

00:05:52,980 --> 00:05:50,620

on Friday June 2nd coverage of their

124

00:05:55,890 --> 00:05:52,990

departure and return to Earth will air

125

00:05:58,680 --> 00:05:55,900

live on NASA television and the agency's

126

00:06:01,500 --> 00:05:58,690

website starting Thursday that's today

127

00:06:05,400 --> 00:06:01,510

June 1st with the space station change

128

00:06:08,219 --> 00:06:05,410

of command ceremony expedition 51 flight

129

00:06:10,980 --> 00:06:08,229

engineers oleg novitskiy of Roscosmos

130

00:06:14,990 --> 00:06:10,990

and thomas becket of the european space

131

00:06:17,300 --> 00:06:15,000

agency will undock their soyuz m s03

132

00:06:21,420 --> 00:06:17,310

spacecraft from the space station at

133

00:06:24,420 --> 00:06:21,430

6:50 a.m. Eastern Daylight Time and land

134

00:06:27,170 --> 00:06:24,430

in Kazakhstan at 10:10 a.m.

135

00:06:28,500 --> 00:06:27,180

that's 8:20 p.m. Kazakhstan time

136

00:06:31,380 --> 00:06:28,510

together

137

00:06:33,920 --> 00:06:31,390

the expedition 51 crew members pursued

138

00:06:37,080 --> 00:06:33,930

hundreds of experiments in biology

139

00:06:40,370 --> 00:06:37,090

biotechnology physical science and earth

140

00:06:44,390 --> 00:06:40,380

science aboard humanity's only orbit

141

00:06:46,490 --> 00:06:44,400

laboratory their return will wrap-up 196

142

00:06:50,320 --> 00:06:46,500

days in space since their launch on

143

00:06:53,420 --> 00:06:50,330

November 18 2016 if you're interested at

144

00:06:55,880 --> 00:06:53,430

11:50 a.m. today you can watch that

145

00:06:56,690 --> 00:06:55,890

change of command ceremony with NASA's

146

00:06:59,270 --> 00:06:56,700

Peggy Whitson

147

00:07:01,850 --> 00:06:59,280

she'll be handing over station command

148

00:07:04,700 --> 00:07:01,860

to Rose cosmoses fuel daughter you

149

00:07:08,450 --> 00:07:04,710

chicken remember that farewell hatch

150

00:07:11,180 --> 00:07:08,460

closure undocking deorbit burn etc that

151  
00:07:15,860 --> 00:07:11,190  
won't happen til Friday June 2nd starts

152  
00:07:20,000 --> 00:07:15,870  
at 3 a.m. from space to the Netherlands

153  
00:07:23,210 --> 00:07:20,010  
with a story from the NL x Janine Peters

154  
00:07:25,820 --> 00:07:23,220  
wrote this it is currently peak season

155  
00:07:29,420 --> 00:07:25,830  
at the UFO hot line in the Netherlands

156  
00:07:31,580 --> 00:07:29,430  
reports of UFOs increase every year when

157  
00:07:35,090 --> 00:07:31,590  
the weather warms up and the sky is

158  
00:07:37,520 --> 00:07:35,100  
clear in this country quote the days are

159  
00:07:39,890 --> 00:07:37,530  
long people are outside a lot and then

160  
00:07:42,320 --> 00:07:39,900  
you always see a peak in the number of

161  
00:07:45,200 --> 00:07:42,330  
UFO sightings and quotes that's from

162  
00:07:47,780 --> 00:07:45,210  
Alex griffolyon the manager of that hot

163  
00:07:50,180 --> 00:07:47,790

line he said quote for the vast majority

164

00:07:53,960 --> 00:07:50,190

of these reports there's a very simple

165

00:07:56,570 --> 00:07:53,970

explanation but for one in 100 there's

166

00:07:59,060 --> 00:07:56,580

really something crazy going on and

167

00:08:00,890 --> 00:07:59,070

quotes there's a video that goes with

168

00:08:04,700 --> 00:08:00,900

this article and you can link to that

169

00:08:07,460 --> 00:08:04,710

later at UFO headline news calm it shows

170

00:08:10,130 --> 00:08:07,470

a white light slowly pulling over the

171

00:08:13,340 --> 00:08:10,140

city of Oedekerkerk it turned out to be a

172

00:08:16,700 --> 00:08:13,350

plane some others are harder to explain

173

00:08:19,430 --> 00:08:16,710

there's another video filled above the

174

00:08:21,970 --> 00:08:19,440

town of Arnheim it shows three flying

175

00:08:25,040 --> 00:08:21,980

objects they seem to be balloons

176  
00:08:28,160 --> 00:08:25,050  
gradually disappearing into the sky they

177  
00:08:30,440 --> 00:08:28,170  
seem to be balloons that is until one

178  
00:08:33,740 --> 00:08:30,450  
suddenly makes a sharp turn and shoots

179  
00:08:38,060 --> 00:08:33,750  
left since that hotline was established

180  
00:08:40,670 --> 00:08:38,070  
in 2011 over 5,000 UFO sightings have

181  
00:08:44,060 --> 00:08:40,680  
been reported that comes down to about

182  
00:08:46,670 --> 00:08:44,070  
70 sightings per month most of the

183  
00:08:50,110 --> 00:08:46,680  
reports involve strange lights white or

184  
00:08:52,790 --> 00:08:50,120  
colored spheres spots and stripes

185  
00:08:54,269 --> 00:08:52,800  
sometimes it involves an object moving

186  
00:08:57,210 --> 00:08:54,279  
in some unusual

187  
00:09:00,210 --> 00:08:57,220  
eh then there's a forum where all these

188  
00:09:02,699 --> 00:09:00,220

sightings are discussed says Griffo and

189

00:09:05,160 --> 00:09:02,709

quote it's a pity that this subject is

190

00:09:07,470 --> 00:09:05,170

always placed in the fantasy corner

191

00:09:10,470 --> 00:09:07,480

along with crop circles and chemtrails

192

00:09:13,170 --> 00:09:10,480

and such we're just trying to look at it

193

00:09:15,960 --> 00:09:13,180

seriously it's a phenomenon observed by

194

00:09:17,280 --> 00:09:15,970

pilots and other very reliable sensible

195

00:09:19,980 --> 00:09:17,290

people end quote

196

00:09:23,879 --> 00:09:19,990

he also has some tips for anyone

197

00:09:26,879 --> 00:09:23,889

spotting a UFO in the future quote it's

198

00:09:30,299 --> 00:09:26,889

very useful to download two apps that

199

00:09:32,519 --> 00:09:30,309

can answer a lot of questions one is sky

200

00:09:33,629 --> 00:09:32,529

walk that lets you see the position of

201

00:09:36,720 --> 00:09:33,639

stars and planets

202

00:09:38,910 --> 00:09:36,730

then there's flight radar that shows the

203

00:09:41,369 --> 00:09:38,920

planes that are flying over end quotes

204

00:09:43,920 --> 00:09:41,379

and he also advises try to take a

205

00:09:46,049 --> 00:09:43,930

clearer picture and if you record a

206

00:09:48,989 --> 00:09:46,059

video make sure you have a fixed

207

00:09:50,850 --> 00:09:48,999

reference point at the time in the frame

208

00:09:53,970 --> 00:09:50,860

in a nutshell

209

00:09:57,059 --> 00:09:53,980

great tips from Alex Griffin out of the

210

00:10:01,170 --> 00:09:57,069

Netherlands from the daily star out of

211

00:10:04,230 --> 00:10:01,180

the United Kingdom headline UFO starts

212

00:10:07,499 --> 00:10:04,240

circling near British town in shocking

213

00:10:10,410 --> 00:10:07,509

video there's a bizarre clip filmed

214

00:10:14,939 --> 00:10:10,420

above a place called clay Hill near from

215

00:10:17,639 --> 00:10:14,949

Somerset they spell that CLE why in this

216

00:10:20,429 --> 00:10:17,649

clay hill footage you can see a strange

217

00:10:23,759 --> 00:10:20,439

object as it ultimately hurtles to the

218

00:10:26,790 --> 00:10:23,769

ground it then pulls up and starts to

219

00:10:29,699 --> 00:10:26,800

loop it creates a circle with its long

220

00:10:32,369 --> 00:10:29,709

white tail and in our observation it

221

00:10:36,090 --> 00:10:32,379

does that at least once and then maybe

222

00:10:39,360 --> 00:10:36,100

half a time again while it isn't clear

223

00:10:41,549 --> 00:10:39,370

exactly what this craft is clay Hill and

224

00:10:45,419 --> 00:10:41,559

the surrounding area is said to be a

225

00:10:48,809 --> 00:10:45,429

hotspot for alien activity a fellow

226

00:10:50,699 --> 00:10:48,819

named Nigel vile a local Rambler they

227

00:10:52,829 --> 00:10:50,709

call him said the nearby town of

228

00:10:55,710 --> 00:10:52,839

warminster is sometimes described as

229

00:10:57,780 --> 00:10:55,720

Britain's UFO capital on account of

230

00:11:01,860 --> 00:10:57,790

phenomena that have occurred there since

231

00:11:05,309 --> 00:11:01,870

the mid-1960s and rambler nigel vile

232

00:11:07,590 --> 00:11:05,319

added quote strange noises were heard in

233

00:11:10,170 --> 00:11:07,600

the skies above warminster and

234

00:11:13,259 --> 00:11:10,180

equally strange shimmering lights was

235

00:11:15,660 --> 00:11:13,269

observed in the vicinity and quotes but

236

00:11:19,379 --> 00:11:15,670

in this case the unnamed resident who

237

00:11:21,629 --> 00:11:19,389

filmed this UFO was skeptical of quote

238

00:11:24,269 --> 00:11:21,639

probably a drone with a fancy flame

239

00:11:26,790 --> 00:11:24,279

effect tail or something end quotes he

240

00:11:29,670 --> 00:11:26,800

suggested take a look at that footage

241

00:11:32,670 --> 00:11:29,680

gentle listeners do a little analysis of

242

00:11:34,829 --> 00:11:32,680

your own admittedly it is a little hard

243

00:11:37,920 --> 00:11:34,839

to get a perspective hard to tell how

244

00:11:40,730 --> 00:11:37,930

far away this object is but somehow to

245

00:11:45,240 --> 00:11:40,740

us it just didn't seem to be drone like

246

00:11:46,949 --> 00:11:45,250

not far away is the city of Newcastle we

247

00:11:50,040 --> 00:11:46,959

suspect it's probably pronounced

248

00:11:51,990 --> 00:11:50,050

Newcastle but we'll just tell you about

249

00:11:54,090 --> 00:11:52,000

the sighting that we're sure of that

250

00:11:57,389 --> 00:11:54,100

it's MUFON case number eight four one

251  
00:12:00,389 --> 00:11:57,399  
zero for the date of the sighting is the

252  
00:12:04,379 --> 00:12:00,399  
25th of May of this year it was reported

253  
00:12:07,860 --> 00:12:04,389  
May 31st in summary our witness states

254  
00:12:11,850 --> 00:12:07,870  
large triangle of lights direction of

255  
00:12:16,710 --> 00:12:11,860  
Jupiter very high up appeared to cloak

256  
00:12:18,990 --> 00:12:16,720  
once observed two leading lights under

257  
00:12:21,030 --> 00:12:19,000  
the categories of sighting specifics our

258  
00:12:24,420 --> 00:12:21,040  
witness reports a viewing distance of

259  
00:12:27,600 --> 00:12:24,430  
over one mile the altitude was over five

260  
00:12:29,249 --> 00:12:27,610  
hundred feet without cloud cover the

261  
00:12:32,759 --> 00:12:29,259  
sighting duration ten minutes

262  
00:12:35,129 --> 00:12:32,769  
the object features none the object

263  
00:12:37,769 --> 00:12:35,139

flight path a straight-line path and

264

00:12:40,980 --> 00:12:37,779

this object of course was shaped like a

265

00:12:43,050 --> 00:12:40,990

triangle there isn't any meteorological

266

00:12:46,319 --> 00:12:43,060

report so we'll just whether that

267

00:12:48,660 --> 00:12:46,329

weather whatever it was here's the

268

00:12:51,689 --> 00:12:48,670

report in the witness's own words first

269

00:12:53,639 --> 00:12:51,699

person I had been looking after a

270

00:12:57,420 --> 00:12:53,649

friend's dogs for a few weeks in a

271

00:12:59,730 --> 00:12:57,430

private gated very quiet estate one

272

00:13:01,639 --> 00:12:59,740

evening the dogs started going

273

00:13:04,829 --> 00:13:01,649

absolutely nuts

274

00:13:07,949 --> 00:13:04,839

barking and generally being upset by

275

00:13:09,870 --> 00:13:07,959

something outside at around eleven

276

00:13:12,620 --> 00:13:09,880

o'clock I take them for a quick walk and

277

00:13:16,199 --> 00:13:12,630

a final pee break before settling down

278

00:13:19,049 --> 00:13:16,209

it was time to do this so I prepared

279

00:13:21,740 --> 00:13:19,059

their leashes which is normally a signal

280

00:13:24,500 --> 00:13:21,750

for them to get very excited not

281

00:13:27,500 --> 00:13:24,510

this night I practically had to drag

282

00:13:30,970 --> 00:13:27,510

them out and they were very pensive and

283

00:13:33,770 --> 00:13:30,980

still staring into the night sky I

284

00:13:36,560 --> 00:13:33,780

started to head back in and then I

285

00:13:39,910 --> 00:13:36,570

noticed what I thought was an unusually

286

00:13:43,010 --> 00:13:39,920

bright never-before-seen constellation

287

00:13:45,290 --> 00:13:43,020

it had been a totally cloudless day and

288

00:13:48,620 --> 00:13:45,300

the night sky wasn't really dark enough

289

00:13:51,500 --> 00:13:48,630

to see stars I realized I was observing

290

00:13:54,230 --> 00:13:51,510

a planet I later identified that planet

291

00:13:57,860 --> 00:13:54,240

as Jupiter and there were three similar

292

00:14:00,680 --> 00:13:57,870

sized star like stars moving in a

293

00:14:04,460 --> 00:14:00,690

triangle formation they were really high

294

00:14:07,010 --> 00:14:04,470

up they were far apart the triangle was

295

00:14:10,310 --> 00:14:07,020

leading with the front to light and the

296

00:14:13,850 --> 00:14:10,320

third point was behind which struck me

297

00:14:16,520 --> 00:14:13,860

as odd because pardon the pun it flew in

298

00:14:18,860 --> 00:14:16,530

the face of conventional aerodynamics

299

00:14:21,470 --> 00:14:18,870

the front two lights reached a certain

300

00:14:24,830 --> 00:14:21,480

point in the sky then and began to

301  
00:14:27,980 --> 00:14:24,840  
become transparent and eventually they

302  
00:14:31,120 --> 00:14:27,990  
began to disappear totally leaving a

303  
00:14:34,250 --> 00:14:31,130  
third point of light playing catch-up

304  
00:14:37,060 --> 00:14:34,260  
when it arrived at the same point it too

305  
00:14:40,880 --> 00:14:37,070  
became transparent and disappeared I

306  
00:14:41,450 --> 00:14:40,890  
knew deep down that the object was still

307  
00:14:44,570 --> 00:14:41,460  
there

308  
00:14:47,900 --> 00:14:44,580  
flying through the night sky I could

309  
00:14:50,990 --> 00:14:47,910  
almost sense it I've waited all my life

310  
00:14:54,290 --> 00:14:51,000  
for a genuine UFO encounter and the

311  
00:14:58,700 --> 00:14:54,300  
strangest thing was it felt so normal it

312  
00:15:00,470 --> 00:14:58,710  
felt so mundane that being said upon

313  
00:15:04,100 --> 00:15:00,480

closing the front door to the house I

314

00:15:06,640 --> 00:15:04,110

double locked it just in case not that

315

00:15:09,380 --> 00:15:06,650

that would make any difference at all

316

00:15:12,079 --> 00:15:09,390

nope not according to what this

317

00:15:15,170 --> 00:15:12,089

broadcaster can gather interesting

318

00:15:17,870 --> 00:15:15,180

behavior of the dogs again which alerted

319

00:15:20,510 --> 00:15:17,880

our witness to something and again

320

00:15:23,180 --> 00:15:20,520

there's that theme of Lights one of them

321

00:15:26,390 --> 00:15:23,190

trying to play catch up with the others

322

00:15:28,820 --> 00:15:26,400

maybe just a rookie et behind the

323

00:15:31,370 --> 00:15:28,830

controls what do you say we use our

324

00:15:34,579 --> 00:15:31,380

cyber controls and cross a whole bunch

325

00:15:35,300 --> 00:15:34,589

of water until we come to Coburg Ontario

326

00:15:38,120 --> 00:15:35,310

Canada

327

00:15:41,690 --> 00:15:38,130

this is the setting for mufon sighting

328

00:15:43,970 --> 00:15:41,700

number 8 for 1:03 the date of this

329

00:15:47,000 --> 00:15:43,980

sighting is the 29th of May it was

330

00:15:50,060 --> 00:15:47,010

reported May 31st both in this year

331

00:15:54,470 --> 00:15:50,070

here's the summary brightest star in the

332

00:15:59,450 --> 00:15:54,480

sky changed direction instantly not an

333

00:16:01,430 --> 00:15:59,460

aircraft witnessed over two nights the

334

00:16:04,190 --> 00:16:01,440

sighting specifics for this one include

335

00:16:07,490 --> 00:16:04,200

a viewing distance unknown the altitude

336

00:16:11,810 --> 00:16:07,500

is also listed by our witness as unknown

337

00:16:14,329 --> 00:16:11,820

a sighting duration 45 minutes but in

338

00:16:17,600 --> 00:16:14,339

spite of that length of time the object

339

00:16:20,390 --> 00:16:17,610

features simply get a report of unknown

340

00:16:23,420 --> 00:16:20,400

here's the object flight path it was

341

00:16:26,810 --> 00:16:23,430

initially stationary then hovering then

342

00:16:29,960 --> 00:16:26,820

path then a path with directional change

343

00:16:34,160 --> 00:16:29,970

and then a path and then yep more

344

00:16:35,960 --> 00:16:34,170

hovering the object shape star like the

345

00:16:38,740 --> 00:16:35,970

following is the report in the

346

00:16:43,160 --> 00:16:38,750

first-person words of our witness I

347

00:16:45,200 --> 00:16:43,170

watched a UFO due west of Coburg Ontario

348

00:16:48,550 --> 00:16:45,210

over Lake Ontario

349

00:16:51,800 --> 00:16:48,560

the brightest star in the sky moved west

350

00:16:54,380 --> 00:16:51,810

sort of following an airliner which was

351  
00:16:57,500 --> 00:16:54,390  
traveling northeast and then it bounced

352  
00:17:01,700 --> 00:16:57,510  
immediately south like a ball off a wall

353  
00:17:05,030 --> 00:17:01,710  
then up then down and then in a j-shaped

354  
00:17:07,819 --> 00:17:05,040  
pattern it went to the right and then as

355  
00:17:10,550 --> 00:17:07,829  
they moved left and faded to black and

356  
00:17:13,449 --> 00:17:10,560  
then over the next several minutes it

357  
00:17:17,030 --> 00:17:13,459  
began to pulsate very slowly and

358  
00:17:20,419 --> 00:17:17,040  
irregularly from bright to black while

359  
00:17:23,059 --> 00:17:20,429  
it oscillated up and down this thing was

360  
00:17:26,030 --> 00:17:23,069  
far too high far too distant to be a

361  
00:17:29,510 --> 00:17:26,040  
drone there was no aircraft sound and

362  
00:17:34,210 --> 00:17:29,520  
while it faded it would sometimes turn a

363  
00:17:36,410 --> 00:17:34,220

light reddish hue then it disappeared a

364

00:17:39,410 --> 00:17:36,420

helicopter could move sort of like this

365

00:17:41,419 --> 00:17:39,420

but it wasn't a helicopter the

366

00:17:44,390 --> 00:17:41,429

oscillations were too rapid I'm a

367

00:17:47,240 --> 00:17:44,400

student pilot and very experienced plane

368

00:17:49,120 --> 00:17:47,250

spotter this object did things an

369

00:17:53,270 --> 00:17:49,130

aircraft cannot do

370

00:17:54,560 --> 00:17:53,280

this UFO came back last night the same

371

00:17:57,680 --> 00:17:54,570

spot due west

372

00:18:00,230 --> 00:17:57,690

it drove silently northeast stopped

373

00:18:03,620 --> 00:18:00,240

immediately and then it went south

374

00:18:06,170 --> 00:18:03,630

stopped pulsed in and out from that

375

00:18:09,170 --> 00:18:06,180

bright white to black then it went

376

00:18:13,010 --> 00:18:09,180

behind a cloud it moved a little higher

377

00:18:14,870 --> 00:18:13,020

than 45 degrees well above the trees but

378

00:18:18,410 --> 00:18:14,880

this thing has the appearance of the

379

00:18:21,230 --> 00:18:18,420

brightest star in the sky both sightings

380

00:18:23,390 --> 00:18:21,240

were also witnessed by my wife I tried

381

00:18:26,200 --> 00:18:23,400

videotaping this thing but the light was

382

00:18:29,570 --> 00:18:26,210

too faint for the camera to pick it up

383

00:18:32,690 --> 00:18:29,580

this case has that interesting aspect of

384

00:18:36,020 --> 00:18:32,700

over the water again over Lake Ontario

385

00:18:39,230 --> 00:18:36,030

and spotted by somebody who's not only a

386

00:18:42,440 --> 00:18:39,240

student pilot but a plane spotter also

387

00:18:44,990 --> 00:18:42,450

the coolest part his wife also saw it

388

00:18:47,780 --> 00:18:45,000

two sets of eyes two brains

389

00:18:50,360 --> 00:18:47,790

let's go south now to the state of

390

00:18:55,030 --> 00:18:50,370

Wisconsin in the United States the city

391

00:18:58,070 --> 00:18:55,040

of Fifield MUFON case number 8 for 1:08

392

00:19:01,340 --> 00:18:58,080

this sighting took place on the 19th of

393

00:19:05,000 --> 00:19:01,350

May 2017 the report was submitted on the

394

00:19:08,200 --> 00:19:05,010

31st of May in summary our witness

395

00:19:12,910 --> 00:19:08,210

states clear night sky steady light

396

00:19:16,040 --> 00:19:12,920

traveling straight path' 2.5 miles up

397

00:19:18,800 --> 00:19:16,050

beamed a high-powered light down once

398

00:19:22,520 --> 00:19:18,810

changed direction beamed light down

399

00:19:26,000 --> 00:19:22,530

twice and vanished the sighting

400

00:19:28,370 --> 00:19:26,010

specifics in Fifield Wisconsin included

401  
00:19:31,880 --> 00:19:28,380  
a viewing distance of over 1 mile an

402  
00:19:34,910 --> 00:19:31,890  
altitude over 500 feet without cloud

403  
00:19:37,580 --> 00:19:34,920  
cover the sighting duration was only 20

404  
00:19:40,190 --> 00:19:37,590  
seconds so it's more than understandable

405  
00:19:43,910 --> 00:19:40,200  
the object features are simply reported

406  
00:19:46,220 --> 00:19:43,920  
as unknown the flight path was a path

407  
00:19:48,830 --> 00:19:46,230  
that included directional change and

408  
00:19:51,740 --> 00:19:48,840  
this object shape is simply described as

409  
00:19:54,800 --> 00:19:51,750  
unknown how about a look at the

410  
00:19:57,110 --> 00:19:54,810  
meteorology at the time of this event it

411  
00:20:00,470 --> 00:19:57,120  
was a maximum temperature of 52 degrees

412  
00:20:01,840 --> 00:20:00,480  
Fahrenheit 11 degrees Celsius dropping

413  
00:20:04,570 --> 00:20:01,850

down to a minimum

414

00:20:07,780 --> 00:20:04,580

thirty degrees Fahrenheit minus one

415

00:20:10,570 --> 00:20:07,790

degree Celsius all three readings of the

416

00:20:13,660 --> 00:20:10,580

visibility factors the maximum mean and

417

00:20:16,540 --> 00:20:13,670

minimum stood the same 10 miles 16

418

00:20:18,250 --> 00:20:16,550

kilometers and at the time of this

419

00:20:20,530 --> 00:20:18,260

sighting there didn't seem to be

420

00:20:22,810 --> 00:20:20,540

anything abnormal about the weather

421

00:20:25,780 --> 00:20:22,820

conditions let's read

422

00:20:28,540 --> 00:20:25,790

I was outside viewing the stars on a

423

00:20:31,510 --> 00:20:28,550

clear night with another person it was

424

00:20:33,970 --> 00:20:31,520

about 11:00 p.m. we were admiring the

425

00:20:36,610 --> 00:20:33,980

clarity we were learning some

426

00:20:38,590 --> 00:20:36,620

constellations out in the yard we were

427

00:20:42,040 --> 00:20:38,600

standing about five feet from the porch

428

00:20:45,040 --> 00:20:42,050

and 30 feet from the tree line we

429

00:20:47,890 --> 00:20:45,050

noticed a flash of light and we thought

430

00:20:50,380 --> 00:20:47,900

it was lightning so we looked in the

431

00:20:53,100 --> 00:20:50,390

direction that it came from and there

432

00:20:56,320 --> 00:20:53,110

was a small white light in the sky

433

00:20:58,690 --> 00:20:56,330

traveling very steadily from north to

434

00:21:01,510 --> 00:20:58,700

south east about two and a half miles up

435

00:21:04,090 --> 00:21:01,520

now this other person's husband is a

436

00:21:06,730 --> 00:21:04,100

pilot and they travel in personal planes

437

00:21:09,730 --> 00:21:06,740

very regularly so she's able to

438

00:21:12,370 --> 00:21:09,740

calculate distances pretty well at first

439

00:21:14,830 --> 00:21:12,380

we thought this was a plane but it

440

00:21:17,380 --> 00:21:14,840

didn't have the signature red or white

441

00:21:20,730 --> 00:21:17,390

strobe lights on it also there was no

442

00:21:24,520 --> 00:21:20,740

sound during or after we saw this object

443

00:21:27,160 --> 00:21:24,530

we then saw it flash it flashed a very

444

00:21:28,090 --> 00:21:27,170

high-powered white light beam down to

445

00:21:31,240 --> 00:21:28,100

earth

446

00:21:34,360 --> 00:21:31,250

this light resembled the LED colored

447

00:21:37,870 --> 00:21:34,370

light so bright a white with that hint

448

00:21:40,240 --> 00:21:37,880

of blue it lit up the trees near the

449

00:21:42,970 --> 00:21:40,250

opening around us and that lasted half a

450

00:21:45,760 --> 00:21:42,980

second the traveling light in the sky

451  
00:21:49,360 --> 00:21:45,770  
then changed direction now it was going

452  
00:21:52,690 --> 00:21:49,370  
east we watched it as it beamed two more

453  
00:21:54,640 --> 00:21:52,700  
times and then vanished the other

454  
00:21:57,130 --> 00:21:54,650  
witness and I were talking to each other

455  
00:21:59,530 --> 00:21:57,140  
the entire time asking each other did

456  
00:22:02,470 --> 00:21:59,540  
you see that and moving to see this

457  
00:22:05,770 --> 00:22:02,480  
thing more closely after it was gone we

458  
00:22:08,380 --> 00:22:05,780  
went inside and talked about it we were

459  
00:22:12,130 --> 00:22:08,390  
a little bit concerned and very curious

460  
00:22:14,230 --> 00:22:12,140  
but not necessarily scared this entire

461  
00:22:17,790 --> 00:22:14,240  
event only lasted about half

462  
00:22:20,770 --> 00:22:17,800  
a minute now you see it now you don't

463  
00:22:22,299 --> 00:22:20,780

interesting reactions concerned curious

464

00:22:25,770 --> 00:22:22,309

but not really scared

465

00:22:29,530 --> 00:22:25,780

they sound like downright sensible folks

466

00:22:31,000 --> 00:22:29,540

some folks in Sanibel Florida had an

467

00:22:33,100 --> 00:22:31,010

interesting experience

468

00:22:37,750 --> 00:22:33,110

it's MUFON case number eight four zero

469

00:22:40,480 --> 00:22:37,760

five seven it took place in 2010 May

470

00:22:43,090 --> 00:22:40,490

28th we're going to guess there was some

471

00:22:45,430 --> 00:22:43,100

thing that occurred to make this witness

472

00:22:48,460 --> 00:22:45,440

come forward with this report sort of in

473

00:22:51,220 --> 00:22:48,470

an anniversary sense this report wasn't

474

00:22:55,000 --> 00:22:51,230

submitted until the 29th of May this

475

00:22:58,060 --> 00:22:55,010

year in summary that late reporting

476  
00:23:01,299 --> 00:22:58,070  
witness says fast-moving bright orb and

477  
00:23:03,730 --> 00:23:01,309  
circled my friend and I and continued

478  
00:23:08,140 --> 00:23:03,740  
down the street turning into random

479  
00:23:09,880 --> 00:23:08,150  
homes turning at end of street the

480  
00:23:13,590 --> 00:23:09,890  
sighting specifics give us a viewing

481  
00:23:17,549 --> 00:23:13,600  
distance of 20 feet or less an altitude

482  
00:23:21,520 --> 00:23:17,559  
landed the sighting duration 10 minutes

483  
00:23:24,940 --> 00:23:21,530  
object features none object flight path

484  
00:23:28,330 --> 00:23:24,950  
hovering then path then path with a

485  
00:23:31,360 --> 00:23:28,340  
directional change this object shape was

486  
00:23:34,630 --> 00:23:31,370  
reported to have been star like it was

487  
00:23:37,060 --> 00:23:34,640  
warm that day in Sanibel in 2010 the

488  
00:23:40,419 --> 00:23:37,070

maximum temperature was 91 degrees

489

00:23:43,960 --> 00:23:40,429

Fahrenheit 33 degrees Celsius it dropped

490

00:23:46,780 --> 00:23:43,970

down to a brisk 74 degrees Fahrenheit 23

491

00:23:50,169 --> 00:23:46,790

degrees Celsius the maximum visibility

492

00:23:53,440 --> 00:23:50,179

mean and minimum visibility factors were

493

00:23:55,660 --> 00:23:53,450

all the same 10 miles 16 kilometers at

494

00:23:57,940 --> 00:23:55,670

the time of this event there wasn't

495

00:24:02,530 --> 00:23:57,950

anything abnormal about the weather

496

00:24:05,740 --> 00:24:02,540

conditions here we go biking down rabbit

497

00:24:08,919 --> 00:24:05,750

road toward San Cap Road on Sanibel

498

00:24:12,360 --> 00:24:08,929

Island Florida it was at night I was

499

00:24:15,520 --> 00:24:12,370

with a friend we saw a bright green orb

500

00:24:17,950 --> 00:24:15,530

we think it was green our memory could

501  
00:24:20,799 --> 00:24:17,960  
be a little hazy on the specifics about

502  
00:24:24,130 --> 00:24:20,809  
the color but at any rate this thing

503  
00:24:27,340 --> 00:24:24,140  
came up from behind us it almost seemed

504  
00:24:28,090 --> 00:24:27,350  
to have scanned us somehow and this put

505  
00:24:32,159 --> 00:24:28,100  
every

506  
00:24:34,690 --> 00:24:32,169  
err on my body on end the object then

507  
00:24:37,779 --> 00:24:34,700  
proceeded down the street leaving behind

508  
00:24:40,299 --> 00:24:37,789  
a glowing trail similar to when someone

509  
00:24:43,419 --> 00:24:40,309  
moves a glowstick really quickly in the

510  
00:24:46,720 --> 00:24:43,429  
dark except this trail went all the way

511  
00:24:50,320 --> 00:24:46,730  
down the road due to the speed of this

512  
00:24:53,260 --> 00:24:50,330  
object its path was strange because it

513  
00:24:56,110 --> 00:24:53,270

had straight lines and organic lines as

514

00:24:58,510 --> 00:24:56,120

well it seemed to appear to go in and

515

00:25:01,270 --> 00:24:58,520

out of driveways on either side of the

516

00:25:04,120 --> 00:25:01,280

road as it headed north towards San cap

517

00:25:08,110 --> 00:25:04,130

Road then this object turned east

518

00:25:09,909 --> 00:25:08,120

heading toward the area of Captiva once

519

00:25:12,279 --> 00:25:09,919

we arrived home which was just a few

520

00:25:14,860 --> 00:25:12,289

blocks distance up the road we received

521

00:25:16,990 --> 00:25:14,870

a call from a friend he'd been on his

522

00:25:20,080 --> 00:25:17,000

way to meet us he was coming from off

523

00:25:23,260 --> 00:25:20,090

the island this friend informed us there

524

00:25:25,810 --> 00:25:23,270

was a UFO with lights on it moving over

525

00:25:28,180 --> 00:25:25,820

the island towards Captiva in the

526

00:25:32,020 --> 00:25:28,190

direction the UFO we encountered was

527

00:25:34,539 --> 00:25:32,030

heading it seemed that wherever this UFO

528

00:25:38,320 --> 00:25:34,549

our friend was watching went the power

529

00:25:41,770 --> 00:25:38,330

grid went out at that point the power

530

00:25:45,700 --> 00:25:41,780

grid to our home and the entire block

531

00:25:48,820 --> 00:25:45,710

went out interesting punchline it just

532

00:25:51,240 --> 00:25:48,830

cut to black and that's what we're gonna

533

00:25:54,669 --> 00:25:51,250

have to do right about now because

534

00:25:57,430 --> 00:25:54,679

that's a wrap thank you for listening to

535

00:26:00,610 --> 00:25:57,440

inception radio network follow today's

536

00:26:03,100 --> 00:26:00,620

broadcast at UFO headline news calm

537

00:26:05,470 --> 00:26:03,110

lovingkindness we're all in this
